ORGANIZATION PennantPark Floating Rate Capital Ltd. was organized as a Maryland corporation in October 2010. We are a closed-end, externally managed, non-diversified investment company that has elected to be treated as a BDC under the 1940 Act. On April 14, 2022, trading of the Company's common stock commenced on the New York Stock Exchange after the Company voluntarily withdrew the principal listing of its common stock from the Nasdaq Stock Market LLC effective at market close on April 13, 2022. <span style="white-space:pre-wrap;font-size:8pt;font-family:Times New Roman;font-kerning:none;min-width:fit-

content;"> Our investment objectives are to generate both current income and capital appreciation while seeking to preserve capital. We seek to achieve our investment objective by investing primarily in floating rate loans, and other investments made to U.S. middle-market private companies whose debt is rated below investment grade. Floating rate loans pay interest at variable rates, which are determined periodically, on the basis of a floating base lending rate such as SOFR, with or without a floor, plus a fixed spread. Under normal market conditions, we generally expect that at least 80% of the value of our managed assets will be invested in floating rate loans and other investments bearing a variable rate of interest, which may include, from time to time, variable rate derivative instruments. We generally expect that first lien secured debt will represent at least 65% of our overall portfolio. We generally expect to invest up to 35% of our overall portfolio opportunistically in other types of investments, including second lien secured debt, subordinated debt, and, to a lesser extent, equity investments. We execute our investment strategy directly and through our wholly owned subsidiaries, our unconsolidated joint venture and unconsolidated limited partnership.
The term “subsidiary” means entities that primarily engage in investment activities in securities or other assets and are wholly owned by us. The Company does not intend
to create or acquire primary control of any entity which primarily engages in investment activities of securities or other assets other than entities wholly owned by the
Company. We comply with the provisions of Section 18 of the 1940 Act governing capital structure and leverage on an aggregate basis with our subsidiaries. Our
subsidiaries comply with the provisions of Section 17 of the 1940 Act related to affiliated transactions and custody. To the extent that the Company forms a subsidiary
advised by an investment adviser other than the Investment Adviser, the investment adviser to such subsidiaries will comply with the provisions of the 1940 Act relating
to investment advisory contracts, including but not limited to, Section 15, as if it were an investment adviser to the Company under Section 2(a)(20) of the 1940 Act. We have entered into an investment management agreement, or (the "Investment Management Agreement"), with PennantPark Investment Advisers LLC (the "Investment Adviser"), an external adviser that manages our day-to-day operations. We have also entered into an administration agreement, or (the "Administration Agreement"), with PennantPark Investment Administration LLC (the "Administrator"), which provides the administrative services necessary for us to operate. Funding I, our wholly-owned subsidiary and a special purpose entity, was organized in Delaware as a limited liability company in May 2011. We formed Funding I in order to establish a credit facility. The Investment Adviser serves as the collateral manager to Funding I and has irrevocably directed that any management fee owed with respect to such services is to be paid to us so long as the Investment Adviser remains the collateral manager. This arrangement does not increase our consolidated management fee. We have formed and expect to continue to form certain taxable subsidiaries, including the Taxable Subsidiary, which are subject to tax as corporations. These taxable subsidiaries allow us to hold equity securities of certain portfolio companies treated as pass-through entities for U.S. federal income tax purposes while facilitating our ability to qualify as a RIC under the Code. In May 2017, we and a subsidiary of Kemper Corporation (NYSE: KMPR), Trinity Universal Insurance Company, or Kemper, formed PSSL, an unconsolidated joint venture. PSSL invests primarily in middle-market and other corporate debt securities consistent with our strategy. PSSL was formed as a Delaware limited liability company. See Note 4. In November 2017, we issued $138.6 million of our 2023 Notes. The principal on the 2023 Notes were payable in four annual installments as follows: 15% of the original principal amount on December 15, 2020, 15% of the original principal amount on December 15, 2021, 15% of the original principal amount on December 15, 2022 and 55% on December 15, 2023. On December 15, 2023, the remaining 2023 Notes were repaid in full. The 2023 Notes were general, unsecured obligations and ranked equal in right of payment with all of our existing and future senior unsecured indebtedness. The 2023 Notes were listed on the TASE. In connection with this offering, we dual listed our common stock on the TASE. On February 7, 2024, the Company filed a notice with the Israel Securities Authority and the Tel Aviv Stock Exchange Ltd (the “TASE”) voluntarily requesting to delist the Company’s common stock from trading on the TASE. The last day of trading on the TASE was May 6, 2024 and the delisting of the Company’s common stock from the TASE took effect on May 8, 2024. In September 2019, the Securitization Issuers completed the Debt Securitization. The 2031 Asset-Backed Debt is secured by a diversified portfolio of the Securitization Issuer consisting primarily of middle market loans and participation interests in middle market loans. The 2031 Asset-Backed Debt is scheduled to mature on October 15, 2031. On the closing date of the Debt Securitization, in consideration of our transfer to the Securitization Issuer of the initial closing date loan portfolio, which included loans distributed to us by certain of our wholly-owned subsidiaries, the Securitization Issuer transferred to us 100% of the Preferred Shares of the Securitization Issuer, <span

style="font-size:8pt;font-family:Times New Roman;color:#000000;white-space:pre-wrap;font-kerning:none;min-width:fit-content;">100% of the Class D Secured Deferrable Floating Rate Notes issued by the Securitization Issuer, and a portion of the net cash proceeds received from the sale of the 2031 Asset-Backed Debt. See Note 10. In July 2024, the 2031 Asset-Backed Debt was refinanced through a $351.0 million debt securitization in the form of a collateralized loan obligation, or the "2036-R Asset-Backed Debt". The Company retained $85.0 million of the debt securitization. The 2036-R Asset-Backed Debt is secured by a diversified portfolio of primarily middle market loans and participation interest in middle market loans. The 2036-R Asset Backed Debt is schedule to mature in July 2036. On February 22, 2024, the 2036 Securitization Issuer completed the 2036 Debt Securitization. The 2036 Asset-Backed Debt is secured by a diversified portfolio of the 2036-Securitization Issuer consisting primarily of middle market loans and participation interests in middle market loans. The 2036 Asset-Backed Debt is scheduled to mature in April 2036. On the closing date of the 2036 Debt Securitization, in consideration of our transfer to the 2036 Securitization Issuer of the initial closing date loan portfolio, which included loans distributed to us by certain of our wholly-owned subsidiaries. See Note 10. In March 2021 and October 2021, we issued $100.0 million and $85.0 million, respectively, in aggregate principal amount of our 2026 Notes at a public offering price per note of 99.4% and 101.5% respectively. Interest on the 2026 Notes is paid semi-annually on April 1 and October 1 of each year, at a rate of 4.25% per year, commencing October 1, 2021. The 2026 Notes mature on April 1, 2026 and may be redeemed in whole or in part at our option subject to a make-whole premium if redeemed more than three months prior to maturity. The 2026 Notes are general, unsecured obligations and rank equal in right of payment with all of our existing and future senior unsecured indebtedness. The 2026 Notes are effectively subordinated to our existing and future secured indebtedness to the extent of the value of the assets securing such indebtedness and are structurally subordinated to all existing and future indebtedness and other obligations of any of our subsidiaries, financing vehicles, or similar facilities. We do not intend to list the 2026 Notes on any securities exchange or automated dealer quotation system. In April 2021, we formed PennantPark-TSO Senior Loan Fund LP ("PTSF"), an unconsolidated limited partnership, organized as a Delaware limited liability partnership. We sold $81.4 million in investments to a wholly-owned subsidiary of PTSF in exchange for cash in the amount of $69.5 million and an $11.9 million equity interest in PTSF representing 23.08% of the total outstanding Class A Units of PTSF. We recognized $0.4 million of realized gain upon the formation of PTSF. As of December 31, 2024, our capital commitment of $15.3 million is fully funded and we hold 23.08% of the total outstanding Class A Units of PTSF and a 4.99% voting interest in the general partner which manages PTSF. PTSF also invests primarily in middle-market and other corporate debt securities consistent with our strategy. On February 4, 2022, we formed PFLT Investment Holdings II, LLC, a Delaware limited liability company ("Holdings II"), as a wholly owned subsidiary. On December 31, 2022, we contributed 100% of our interests in PFLT Investment Holdings, LLC ("Holdings") to Holdings II. Effective as of January 1, 2024, Holdings II elected to be treated as a corporation for U.S. federal income tax purposes. On January 3, 2024, we purchased an equity interest in Holdings from Holdings II and Holdings became a partnership for U.S. federal income tax purposes. The company and Holdings II entered into a limited liability company agreement with respect to Holdings that provides for certain payments and the sharing of income, gain, loss and deductions attributable to Holdings' investments. In July 2024, the Company established a $<span style="font-size:8pt;font-family:Times New Roman;color:#000000;white-

space:pre-wrap;font-kerning:none;min-width:fit-content;">500.0 million ATM Program and terminated the existing $250.0 million ATM Program, each an at-the-market offering program, or "ATM Program", and together "ATM Programs". During three months ended December 31, 2024 and 2023, we issued 7,276,000 and zero shares of our Common Stock, respectively, under ATM Programs at a weighted-average price of $11.30 and zero per share, respectively, raising $82.2 million and zero of net proceeds after commissions to the sales agents and inclusive of proceeds from the Investment Adviser to ensure that all shares were sold at or above NAV. During the quarter ended December 31, 2024 and 2023, we incurred less than $0.1 million and zero, respectively, of legal and other offering costs associated with establishing the ATM Programs. As of December 31, 2024 and September 30, 2024, we had $355.0 million and $437.3 million available under the respective ATM Programs. We are operated by a person who has claimed an exclusion from the definition of the term “commodity pool operator” under the Commodity Exchange Act of 1936, as amended, or the Commodity Exchange Act.The Investment Advisor intends to continue to affirm the exclusion on an annual basis and therefore, does not expect to be subject to registration or regulation as a commodity pool operator under the Commodity Exchange Act. 0.800.650.35138600000four annual installments0.150.150.150.551135100000085000001000000000850000000.9941.015semi-annually0.04252026-04-01814000006950000011900000.230840000015300000.23080.04995000000002500000007276000011.382200000010000003550000004373000 2. SIGNIFICANT ACCOUNTING POLICIES The preparation of our consolidated financial statements, in conformity with U.S. generally accepted accounting principles, or GAAP, requires management to make estimates and assumptions that affect the reported amount of our assets and liabilities at the date of the Consolidated financial statements and the reported amounts of income and expenses during the reported periods. In the opinion of management, all adjustments, which are of a normal recurring nature, considered necessary for the fair presentation of financial statements have been included. Changes in the economic and regulatory environment, financial markets, the credit worthiness of our portfolio companies, and any other parameters used in determining these estimates and assumptions could cause actual results to differ from these estimates and assumptions. We may reclassify certain prior period amounts to conform to the current period presentation. We have eliminated all intercompany balances and transactions. References to the Financial Accounting Standards Board’s, or FASB’s, Accounting Standards Codification, as amended, or ASC, serve as a single source of accounting literature. Subsequent events are evaluated and disclosed as appropriate for events occurring through the date the Consolidated financial statements are issued.   Our consolidated financial statements are prepared in accordance with GAAP, consistent with ASC Topic 946, Financial Services – Investment Companies, and pursuant to the requirements for reporting on Form 10-K/Q and Articles 6, 10 and 12 of Regulation S-X, as appropriate. In accordance with Article 6-09 of Regulation S-X, we have provided a consolidated statement of changes in net assets in lieu of a Consolidated Statement of Changes in Stockholders’ Equity. Our significant accounting policies consistently applied are as follows: (a) Investment Valuations We expect that there may not be readily available market values for many of the investments, which are or will be in our portfolio. We value such investments at fair value as determined in good faith by or under the direction of our board of directors using a documented valuation policy and a consistently applied valuation process, as described in this Report. With respect to investments for which there is no readily available market value, the factors that the board of directors may take into account in pricing our investments at fair value include, as relevant, the nature and realizable value of any collateral, the portfolio company’s ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate or revise our valuation. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the price used in an actual transaction may be different than our valuation and the difference may be material. See Note 5. <span style="white-space:pre-wrap;font-size:8pt;font-family:Times

New Roman;font-kerning:none;min-width:fit-content;"> Our portfolio generally consists of illiquid securities, including debt and equity investments. With respect to investments for which market quotations are not readily available, or for which market quotations are deemed not reflective of the fair value, our board of directors undertakes a multi-step valuation process each quarter, as described below: <span style="color:#000000;white-space:pre-wrap;font-size:8pt;font-family:Times New Roman;font-kerning:none;min-width:3.4718750000000003%;word-break:keep-all;display:inline-flex;justify-content:flex-start;">(1) Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals of our Investment Adviser responsible for the portfolio investment;   <span style="color:#000000;white-space:pre-wrap;font-size:8pt;font-family:Times New Roman;font-kerning:none;min-width:3.4718750000000003%;word-break:keep-all;display:inline-flex;justify-content:flex-start;">(2) Preliminary valuation conclusions are then documented and discussed with the management of the Investment Adviser;   <span style="color:#000000;white-space:pre-wrap;font-size:8pt;font-family:Times New Roman;font-kerning:none;min-width:3.4718750000000003%;word-break:keep-all;display:inline-flex;justify-content:flex-start;">(3) Our board of directors also engages independent valuation firms to conduct independent appraisals of our investments for which market quotations are not readily available or are readily available but deemed not reflective of the fair value of the investment. The independent valuation firms review management's preliminary valuations in light of their own independent assessment and also in light of any market quotations obtained from an independent pricing service, broker, dealer or market maker;   <span style="color:#000000;white-space:pre-wrap;font-size:8pt;font-family:Times New Roman;font-kerning:none;min-width:3.4718750000000003%;word-break:keep-all;display:inline-flex;justify-content:flex-start;">(4) The audit committee of our board of directors reviews the preliminary valuations of our Investment Adviser and those of the independent valuation firms on a quarterly basis, periodically assesses the valuation methodologies of the independent valuation firms, and responds to and supplements the valuation recommendations of the independent valuation firms to reflect any comments; and   <span style="color:#000000;white-space:pre-wrap;font-size:8pt;font-family:Times New Roman;font-kerning:none;min-width:3.4718750000000003%;word-break:keep-all;display:inline-flex;justify-content:flex-start;">(5) Our board of directors discusses these valuations and determines the fair value of each investment in our portfolio in good faith, based on the input of our Investment Adviser, the respective independent valuation firms and the audit committee.   Our board of directors generally uses market quotations to assess the value of our investments for which market quotations are readily available. We obtain these market values from independent pricing services or at bid prices obtained from at least two brokers or dealers, if available, or otherwise from a principal market maker or a primary market dealer. The Investment Adviser assesses the source and reliability of bids from brokers or dealers. If the board of directors has a bona fide reason to believe any such market quote does not reflect the fair value of an investment, it may independently value such investments by using the valuation procedure that it uses with respect to assets for which market quotations are not readily available.   (b) Security Transactions, Revenue Recognition, and Realized/Unrealized Gains or Losses   Security transactions are recorded on a trade-date basis. We measure realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, using the specific identification method, without regard to unrealized appreciation or depreciation previously recognized, but considering prepayment penalties. Net change in unrealized appreciation or depreciation reflects the change in the fair values of our portfolio investments, the Credit Facility and the 2023 Notes during the reporting period, including any reversal of previously recorded unrealized appreciation or depreciation, when gains or losses are realized.   We record interest income on an accrual basis to the extent that we expect to collect such amounts. For loans and debt investments with contractual PIK interest, which represents interest accrued and added to the loan balance that generally becomes due at maturity, we will generally not accrue PIK interest when the portfolio company valuation indicates that such PIK interest is not collectable. We do not accrue as a receivable interest on loans and debt investments if we have reason to doubt our ability to collect such interest. Loan origination fees, original issue discount, or OID, market discount or premium and deferred financing costs on liabilities, which we do not fair value, are capitalized and then accreted or amortized using the effective interest method as interest income or, in the case of deferred financing costs, as interest expense. We record prepayment penalties earned on loans and debt investments as income. Dividend income, if any, is recognized on an accrual basis on the ex-dividend date to the extent that we expect to collect such amounts. From time to time, the Company receives certain fees from portfolio companies, which may or may not be non-recurring in nature. Such fees include loan prepayment penalties, structuring fees, amendment fees and agency fees, and are recorded as other investment income when earned. Litigation settlements are accounted for in accordance with the gain contingency provisions of ASC Subtopic 450-30, Gain Contingencies, or ASC 450-30.   Loans are placed on non-accrual status when principal or interest payments are past due 30 days or more and/or if there is reasonable doubt that principal or interest will be collected. Accrued interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current. As of December 31, 2024, we had two portfolio companies on non-accrual, represent<span style="color:#000000;white-space:pre-wrap;font-size:8pt;font-family:Times New

Roman;font-kerning:none;min-width:fit-content;">ing 0.4% and 0.1% of our overall portfolio on a cost and fair value basis, respectively. As of September 30, 2024, we had two portfolio companies on non-accrual, representing 0.4% and 0.2% of our overall portfolio on a cost and fair value basis, respectively. (c) Income Taxes We have complied with the requirements of Subchapter M of the Code and have qualified to be treated as a RIC for federal income tax purposes. In this regard, we account for income taxes using the asset and liability method prescribed by ASC Topic 740, Income Taxes, or ASC 740. Under this method, income taxes are provided for amounts currently payable and for amounts deferred as tax assets and liabilities based on differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities. Based upon our qualification and election to be treated as a RIC for U.S. federal income tax purposes, we typically do not incur material U.S. federal income taxes. However, we may choose to retain a portion of our calendar year income, which may result in the imposition of a federal excise tax, or we may incur taxes through our taxable subsidiaries, including the Taxable Subsidiary. For the three months ended December 31, 2024 and 2023, we recorded a provision for taxes on net investment income of $0.2 million and $0.2 million, respectively, pertaining to federal excise tax. We recognize the effect of a tax position in our Consolidated Financial Statements in accordance with ASC 740 when it is more likely than not, based on the technical merits, that the position will be sustained upon examination by the applicable tax authority. Tax positions not considered to satisfy the "more-likely-than-not" threshold would be recorded as a tax expense or benefit. Penalties or interest, if applicable, that may be assessed relating to income taxes would be classified as other operating expenses in the financial statements. There were no tax accruals relating to uncertain tax positions and no amounts accrued for any related interest or penalties with respect to the periods presented herein. The Company's determinations regarding ASC 740 may be subject to review and adjustment at a later date based upon factors including, but not limited to, an ongoing analysis of tax laws, regulations and interpretations thereof. Although the Company files both federal and state income tax returns, the Company's major tax jurisdiction is federal. For the three months ended December 31, 2024, the Company recognized a provision for taxes of $0.6 million on unrealized appreciation (depreciation) on investments by the Taxable Subsidiary. For the three months ended December 31, 2023, the Company recognized a provision reduction for taxes of zero on unrealized appreciation (depreciation) on investments by the Taxable Subsidiary. The provision for taxes on unrealized appreciation (depreciation) on investments is the result of netting (i) the expected tax liability on gains from sales of investments and (ii) the expected tax benefit from the use of losses in the current year. As of December 31, 2024 and September 30, 2024, $1.1 million and $1.7 million, respectively, was accrued as a deferred tax liability on the Consolidated Statements of Assets and Liabilities relating to unrealized gain on investments held by the Taxable Subsidiary. For the three months ended December 31, 2024 and 2023, $0.1 million and zero, respectively, was accrued as a provision for taxes on the Consolidated Statements of Operations relating to realized gain on investments held by the Taxable Subsidiary. During the three months ended December 31, 2024, the Company paid zero in taxes on realized gains on the sale of investments held by the Taxable Subsidiary. During the three months ended December 31, 2023, the Company paid zero in taxes on realized gains on the sale of investments held by the Taxable Subsidiary. We operate in a manner to maintain our election to be subject to tax as a RIC and to eliminate corporate-level U.S. federal income tax (other than the 4% excise tax) by distributing sufficient investment company taxable income and capital gain net income (if any). As a result, we will have an effective tax rate equal to 0% before the excise tax and income taxes incurred by the Taxable Subsidiary. As such, a reconciliation of the differences between our reported income tax expense and its tax expense at the federal statutory rate of 21% is not meaningful. <p style="text-indent:4%;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-

align:justify;">Because federal income tax regulations differ from GAAP, distributions in accordance with tax regulations may differ from net investment income and net realized gains recognized for financial reporting purposes. Differences between tax regulations and GAAP may be permanent or temporary. Permanent differences are reclassified among capital accounts in the Consolidated Statements of Assets and Liabilities to reflect their tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future. (d) Distributions and Capital Transactions Distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid, if any, as a distribution is determined by the board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, may be distributed at least annually. The tax attributes for distributions will generally include ordinary income and capital gains but may also include certain tax-qualified dividends and/or a return of capital. Capital transactions through offerings of our common stock are recorded when issued and offering costs are charged as a reduction of capital upon issuance of our common stock. On July 17, 2024, we entered into new equity distribution agreements with Citizens JMP Securities, LLC, Raymond James & Associates, Inc. and Truist Securities, Inc. as the sales agents (the "Sale Agents"), (together, the "Equity Distribution Agreements") in connection with the sale of our shares of common stock, with an aggregate offering price of up to $500 million under an at-the-market offering program ("ATM Program"). The Equity Distribution agreements provide that we may offer and sell shares of our common stock from time to time through a sales agent in amounts and at times to be determined by us. Actual sales will depend on a variety of factors to be determined by us from time to time, including, market conditions and the trading price of our common stock. The Investment Adviser may, from time to time, in its sole discretion, pay some or all of the commissions payable under the Equity Distribution Agreements or make additional supplemental payments to ensure that the sales price per share of our common stock in connection with all of the ATM Program offerings, net of any commissions of Sale Agents, will not be less than our then current NAV per share. Any such payments made by the Investment Adviser will not be subject to reimbursement by us. In connection with the entry into the Equity Distribution Agreements, the Company terminated the equity distribution agreements with each of Citizens JMP Securities LLC, Raymond James & Associates, Inc. and Truist Securities, Inc. in connection with the Company's prior $250 million ATM Program. During the three months ended December 31, 2024 and 2023, we issued 7,276,000 and zero shares of common stock through the ATM Program at an average price of $11.30, raising $82.2 million of net proceeds after commissions to the sales agents and inclusive of proceeds from the Investment Adviser to ensure that all shares were sold at or above NAV, respectively. In connection with the share issuance, we expensed $0.1 million of deferred offering costs incurred related to establishing the ATM Program to additional paid in capital. (e) Foreign Currency Translation Our books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis: 1. Fair value of investment securities, other assets and liabilities – at the exchange rates prevailing at the end of the applicable period; and 2. Purchases and sales of investment securities, income and expenses – at the exchange rates prevailing on the respective dates of such transactions. Although net assets and fair values are presented based on the applicable foreign exchange rates described above, we do not isolate that portion of the results of operations due to changes in foreign exchange rates on investments, other assets and debt from the fluctuations arising from changes in fair value of investments and liabilities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments and liabilities. <span style="white-space:pre-wrap;font-

size:8pt;font-family:Times New Roman;font-kerning:none;min-width:fit-content;"> Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, currency fluctuations and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices to be more volatile than those of comparable U.S. companies or U.S. government securities. (f) Consolidation As permitted under Regulation S-X and as explained by ASC paragraph 946-810-45-3, PennantPark Floating Rate Capital Ltd. will generally not consolidate its investment in a company other than an investment company wholly-owned subsidiary or a controlled operating company whose business consists of providing services to us. Accordingly, we have consolidated the results of our taxable subsidiaries, including the Taxable Subsidiary, Funding I, Securitization Issuer, and the 2036-Securitization Issuer in our Consolidated Financial Statements. We do not consolidate our non-controlling interest in PSSL or PTSF. See further description of our investment in PSSL in Note 4. (g) Asset Transfers and Servicing Asset transfers that do not meet ASC Topic 860, Transfers and Servicing, requirements for sale accounting treatment are reflected in the Consolidated Statements of Assets and Liabilities and the Consolidated Schedules of Investments as investments. The creditors of Funding I have received a security interest in all of its assets and such assets are not intended to be available to the creditors of PennantPark Floating Rate Capital Ltd. or any of its affiliates. (h) Recent Accounting Pronouncements In March 2020, the FASB issued Accounting Standards Update, or ASU, No. 2020-04, "Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting." The guidance provides optional expedients and exceptions for applying GAAP to contract modifications, hedging relationships and other transactions, subject to meeting certain criteria, that reference LIBOR or another reference rate expected to be discontinued because of the reference rate reform. ASU 2020-04 is effective for all entities as of March 12, 2020 through December 31, 2022. The FASB approved an (optional) two year extension to December 31, 2024, for transitioning away from LIBOR. The Company utilized the optional expedients and exceptions provided by ASU 2020-04 during the three months ended December 31, 2024, the effect of which was not material to the Consolidated Financial Statements and the notes thereto. In March 2022, the FASB issued ASU No. 2022-02, "Financial Instruments - Credit Losses (Topic 326)", which is intended to address issues identified during the post-implementation review of ASU 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments". The amendment, among other things, eliminates the accounting guidance for troubled debt restructurings by creditors in Subtopic 310-40, "Receivables - Troubled Debt Restructurings by Creditors", while enhancing disclosure requirements for certain loan refinancings and restructurings by creditors when a borrower is experiencing financial difficulty. The new guidance is effective for interim and annual periods beginning after December 15, 2022. The Company has adopted the new accounting standard implementing appropriate controls and procedures, the effect of which was not material to the consolidated financial statements and the notes thereto. In June 2022, the FASB issued Accounting Standards Update 2022-03, Fair Value Measurement (Topic 820): Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions, or ASU 2022-03, which changed the fair value measurement disclosure requirements of ASC Topic 820, Fair Value Measurements and Disclosures, or ASC 820. The amendments clarify that a contractual restriction on the sale of an equity security is not considered part of the unit of account of the equity security and, therefore, is not considered in measuring fair value. The amendments also clarify that an entity cannot, as a separate unit of account, recognize and measure a contractual sale restriction. The new guidance is effective for fiscal years beginning after December 15, 2023, including interim periods therein. Early application is permitted. The Company has adopted the new accounting standard, the effect of which was not material to the consolidated financial statements and the notes thereto. In November 2023, the Financial Accounting Standards Board (FASB) issued ASU 2023-07, Segment Reporting (Topic 280), Improvements to Reportable Segment Disclosures to improve reportable segment disclosure requirements through enhanced disclosures about significant segment expenses. ASU 2023-07 expands public entities' segment disclosure by requiring disclosure of significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss, an amount and description of its composition for other segment items and interim disclosure of a reportable segment's profit or loss and assets. All disclosure requirements of ASU 2023-07 are required for entities with a single reportable segment. ASU 2023-07 is effective for fiscal years beginning after December 15, 2023, and interim periods for our fiscal years beginning December 15, 2024, and should be applied on a retrospective basis to all periods presented, noting early adoption is permitted. The Company is currently evaluating the impact of this standard on its consolidated financial statements and related disclosures. In December 2023, the FASB issued ASU 2023 - 09 "Improvements to Income Tax Disclosures" ("ASU 2023 - 09"). ASU 2023 - 09 intends to improve the transparency of income tax disclosures. ASU 2023 - 09 is effective for fiscal years beginning after December 15, 2024 and is to be adopted on a prospective basis with the option to apply retrospectively. We are currently assessing the impact of this guidance, however, we do not expect a material impact to our consolidated financial statements and related disclosures. (a) Investment Valuations We expect that there may not be readily available market values for many of the investments, which are or will be in our portfolio. We value such investments at fair value as determined in good faith by or under the direction of our board of directors using a documented valuation policy and a consistently applied valuation process, as described in this Report. With

respect to investments for which there is no readily available market value, the factors that the board of directors may take into account in pricing our investments at fair value include, as relevant, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate or revise our valuation. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the price used in an actual transaction may be different than our valuation and the difference may be material. See Note 5. Our portfolio generally consists of illiquid securities, including debt and equity investments. With respect to investments for which market quotations are not readily available, or for which market quotations are deemed not reflective of the fair value, our board of directors undertakes a multi-step valuation process each quarter, as described below: <span style="color:#000000;white-space:pre-wrap;font-size:8pt;font-family:Times New Roman;font-kerning:none;min-width:3.4718750000000003%;word-break:keep-all;display:inline-flex;justify-content:flex-start;">(1) Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals of our Investment Adviser responsible for the portfolio investment; <span style="color:#000000;white-space:pre-wrap;font-size:8pt;font-family:Times New Roman;font-kerning:none;min-width:3.4718750000000003%;word-break:keep-all;display:inline-flex;justify-content:flex-start;">(2) Preliminary valuation conclusions are then documented and discussed with the management of the Investment Adviser;   <span style="color:#000000;white-space:pre-wrap;font-size:8pt;font-family:Times New Roman;font-kerning:none;min-width:3.4718750000000003%;word-break:keep-all;display:inline-flex;justify-content:flex-start;">(3) Our board of directors also engages independent valuation firms to conduct independent appraisals of our investments for which market quotations are not readily available or are readily available but deemed not reflective of the fair value of the investment. The independent valuation firms review management's preliminary valuations in light of their own independent assessment and also in light of any market quotations obtained from an independent pricing service, broker, dealer or market maker; <span style="color:#000000;white-space:pre-wrap;font-size:8pt;font-family:Times New Roman;font-kerning:none;min-width:3.4718750000000003%;word-break:keep-all;display:inline-flex;justify-content:flex-start;">(4) The audit committee of our board of directors reviews the preliminary valuations of our Investment Adviser and those of the independent valuation firms on a quarterly basis, periodically assesses the valuation methodologies of the independent valuation firms, and responds to and supplements the valuation recommendations of the independent valuation firms to reflect any comments; and <span style="color:#000000;white-space:pre-wrap;font-size:8pt;font-family:Times New Roman;font-kerning:none;min-width:3.4718750000000003%;word-break:keep-all;display:inline-flex;justify-content:flex-start;">(5) Our board of directors discusses these valuations and determines the fair value of each investment in our portfolio in good faith, based on the input of our Investment Adviser, the respective independent valuation firms and the audit committee.   Our board of directors generally uses market quotations to assess the value of our investments for which market quotations are readily available. We obtain these market values from independent pricing services or at bid prices obtained from at least two brokers or dealers, if available, or otherwise from a principal market maker or a primary market dealer. The Investment Adviser assesses the source and reliability of bids from brokers or dealers. If the board of directors has a bona fide reason to believe any such market quote does not reflect the fair value of an investment, it may independently value such investments by using the valuation procedure that it uses with respect to assets for which market quotations are not readily available. (b) Security Transactions, Revenue Recognition, and Realized/Unrealized Gains or Losses Security transactions are recorded on a trade-date basis. We measure realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, using the specific identification method, without regard to unrealized appreciation or depreciation previously recognized, but considering prepayment penalties. Net change in unrealized appreciation or depreciation reflects the change in the fair values of our portfolio investments, the Credit Facility and the 2023 Notes during the reporting period, including any reversal of previously recorded unrealized appreciation or depreciation, when gains or losses are realized. We record interest income on an accrual basis to the extent that we expect to collect such amounts. For loans and debt investments with contractual PIK interest, which represents interest accrued and added to the loan balance that generally becomes due at maturity, we will generally not accrue PIK interest when the portfolio company valuation indicates that such PIK interest is not collectable. We do not accrue as a receivable interest on loans and debt investments if we have reason to doubt our ability to collect such interest. Loan origination fees, original issue discount, or OID, market discount or premium and deferred financing costs on liabilities, which we do not fair value, are capitalized and then accreted or amortized using the effective interest method as interest income or, in the case of deferred financing costs, as interest expense. We record prepayment penalties earned on loans and debt investments as income. Dividend income, if any, is recognized on an accrual basis on the ex-dividend date to the extent that we expect to collect such amounts. From time to time, the Company receives certain fees from portfolio companies, which may or may not be non-recurring in nature. Such fees include loan prepayment penalties, structuring fees, amendment fees and agency fees, and are recorded as other investment income when earned. Litigation settlements are accounted for in accordance with the gain contingency provisions of ASC Subtopic 450-30, Gain Contingencies, or ASC 450-30. Loans are placed on non-accrual status when principal or interest payments are past due 30 days or more and/or if there is reasonable doubt that principal or interest will be collected. Accrued interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in

management's judgment, are likely to remain current. As of December 31, 2024, we had two portfolio companies on non-accrual, representing 0.4% and 0.1% of our overall portfolio on a cost and fair value basis, respectively. As of September 30, 2024, we had two portfolio companies on non-accrual, representing 0.4% and 0.2% of our overall portfolio on a cost and fair value basis, respectively. 20.0040.00120.0040.002 (c) Income Taxes We have complied with the requirements of Subchapter M of the Code and have qualified to be treated as a RIC for federal income tax purposes. In this regard, we account for income taxes using the asset and liability method prescribed by ASC Topic 740, Income Taxes, or ASC 740. Under this method, income taxes are provided for amounts currently payable and for amounts deferred as tax assets and liabilities based on differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities. Based upon our qualification and election to be treated as a RIC for U.S. federal income tax purposes, we typically do not incur material U.S. federal income taxes. However, we may choose to retain a portion of our calendar year income, which may result in the imposition of a federal excise tax, or we may incur taxes through our taxable subsidiaries, including the Taxable Subsidiary. For the three months ended December 31, 2024 and 2023, we recorded a provision for taxes on net investment income of $0.2 million and $0.2 million, respectively, pertaining to federal excise tax. We recognize the effect of a tax position in our Consolidated Financial Statements in accordance with ASC 740 when it is more likely than not, based on the technical merits, that the position will be sustained upon examination by the applicable tax authority. Tax positions not considered to satisfy the "more-likely-than-not" threshold would be recorded as a tax expense or benefit. Penalties or interest, if applicable, that may be assessed relating to income taxes would be classified as other operating expenses in the financial statements. There were no tax accruals relating to uncertain tax positions and no amounts accrued for any related interest or penalties with respect to the periods presented herein. The Company's determinations regarding ASC 740 may be subject to review and adjustment at a later date based upon factors including, but not limited to, an ongoing analysis of tax laws, regulations and interpretations thereof. Although the Company files both federal and state income tax returns, the Company's major tax jurisdiction is federal. For the three months ended December 31, 2024, the Company recognized a provision for taxes of $0.6 million on unrealized appreciation (depreciation) on investments by the Taxable Subsidiary. For the three months ended December 31, 2023, the Company recognized a provision reduction for taxes of zero on unrealized appreciation (depreciation) on investments by the Taxable Subsidiary. The provision for taxes on unrealized appreciation (depreciation) on investments is the result of netting (i) the expected tax liability on gains from sales of investments and (ii) the expected tax benefit from the use of losses in the current year. As of December 31, 2024 and September 30, 2024, $1.1 million and $1.7 million, respectively, was accrued as a deferred tax liability on the Consolidated Statements of Assets and Liabilities relating to unrealized gain on investments held by the Taxable Subsidiary. For the three months ended December 31, 2024 and 2023, $0.1 million and zero, respectively, was accrued as a provision for taxes on the Consolidated Statements of Operations relating to realized gain on investments held by the Taxable Subsidiary. During the three months ended December 31, 2024, the Company paid zero in taxes on realized gains on the sale of investments held by the Taxable Subsidiary. During the three months ended December 31, 2023, the Company paid zero in taxes on realized gains on the sale of investments held by the Taxable Subsidiary. We operate in a manner to maintain our election to be subject to tax as a RIC and to eliminate corporate-level U.S. federal income tax (other than the 4% excise tax) by distributing sufficient investment company taxable income and capital gain net income (if any). As a result, we will have an effective tax rate equal to 0% before the excise tax and income taxes incurred by the Taxable Subsidiary. As such, a reconciliation of the differences between our reported income tax expense and its tax expense at the federal statutory rate of 21% is not

meaningful. Because federal income tax regulations differ from GAAP, distributions in accordance with tax regulations may differ from net investment income and net realized gains recognized for financial reporting purposes. Differences between tax regulations and GAAP may be permanent or temporary. Permanent differences are reclassified among capital accounts in the Consolidated Statements of Assets and Liabilities to reflect their tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future. 2000002000006000000110000017000001000000000.0400.21 (d) Distributions and Capital Transactions Distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid, if any, as a distribution is determined by the board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, may be distributed at least annually. The tax attributes for distributions will generally include ordinary income and capital gains but may also include certain tax-qualified dividends and/or a return of capital. Capital transactions through offerings of our common stock are recorded when issued and offering costs are charged as a reduction of capital upon issuance of our common stock. On July 17, 2024, we entered into new equity distribution agreements with Citizens JMP Securities, LLC, Raymond James & Associates, Inc. and Truist Securities, Inc. as the sales agents (the "Sale Agents"), (together, the "Equity Distribution Agreements") in connection with the sale of our shares of common stock, with an aggregate offering price of up to $500 million under an at-the-market offering program ("ATM Program"). The Equity Distribution agreements provide that we may offer and sell shares of our common stock from time to time through a sales agent in amounts and at times to be determined by us. Actual sales will depend on a variety of factors to be determined by us from time to time, including, market conditions and the trading price of our common stock. The Investment Adviser may, from time to time, in its sole discretion, pay some or all of the commissions payable under the Equity Distribution Agreements or make additional supplemental payments to ensure that the sales price per share of our common stock in connection with all of the ATM Program offerings, net of any commissions of Sale Agents, will not be less than our then current NAV per share. Any such payments made by the Investment Adviser will not be subject to reimbursement by us. In connection with the entry into the Equity Distribution Agreements, the Company terminated the equity distribution agreements with each of Citizens JMP Securities LLC, Raymond James & Associates, Inc. and Truist Securities, Inc. in connection with the Company's prior $250 million ATM Program. During the three months ended December 31, 2024 and 2023, we issued 7,276,000 and zero shares of common stock through the ATM Program at an average price of $11.30, raising $82.2 million of net proceeds after commissions to the sales agents and inclusive of proceeds from the Investment Adviser to ensure that all shares were sold at or above NAV, respectively. In connection with the share issuance, we expensed $0.1 million of deferred offering costs incurred related to establishing the ATM Program to additional paid in capital. 5000000002500000007276000011.3822000001000000 (e) Foreign Currency Translation Our books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis: 1. Fair value of investment securities, other assets and liabilities – at the exchange rates prevailing at the end of the applicable period; and 2. Purchases and sales of investment securities, income and expenses – at the exchange rates prevailing on the respective dates of such transactions. Although net assets and fair values are presented based on the applicable foreign exchange rates described above, we do not isolate that portion of the results of operations due to changes in foreign exchange rates on investments, other assets and debt from the fluctuations arising from changes in fair value of investments and liabilities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments and liabilities. <p style="text-indent:4%;font-

size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:justify;">Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, currency fluctuations and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices to be more volatile than those of comparable U.S. companies or U.S. government securities. (f) Consolidation As permitted under Regulation S-X and as explained by ASC paragraph 946-810-45-3, PennantPark Floating Rate Capital Ltd. will generally not consolidate its investment in a company other than an investment company wholly-owned subsidiary or a controlled operating company whose business consists of providing services to us. Accordingly, we have consolidated the results of our taxable subsidiaries, including the Taxable Subsidiary, Funding I, Securitization Issuer, and the 2036-Securitization Issuer in our Consolidated Financial Statements. We do not consolidate our non-controlling interest in PSSL or PTSF. See further description of our investment in PSSL in Note 4. (g) Asset Transfers and Servicing Asset transfers that do not meet ASC Topic 860, Transfers and Servicing, requirements for sale accounting treatment are reflected in the Consolidated Statements of Assets and Liabilities and the Consolidated Schedules of Investments as investments. The creditors of Funding I have received a security interest in all of its assets and such assets are not intended to be available to the creditors of PennantPark Floating Rate Capital Ltd. or any of its affiliates. (h) Recent Accounting Pronouncements In March 2020, the FASB issued Accounting Standards Update, or ASU, No. 2020-04, "Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting." The guidance provides optional expedients and exceptions for applying GAAP to contract modifications, hedging relationships and other transactions, subject to meeting certain criteria, that reference LIBOR or another reference rate expected to be discontinued because of the reference rate reform. ASU 2020-04 is effective for all entities as of March 12, 2020 through December 31, 2022. The FASB approved an (optional) two year extension to December 31, 2024, for transitioning away from LIBOR. The Company utilized the optional expedients and exceptions provided by ASU 2020-04 during the three months ended December 31, 2024, the effect of which was not material to the Consolidated Financial Statements and the notes thereto. In March 2022, the FASB issued ASU No. 2022-02, "Financial Instruments - Credit Losses (Topic 326)", which is intended to address issues identified during the post-implementation review of ASU 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments". The amendment, among other things, eliminates the accounting guidance for troubled debt restructurings by creditors in Subtopic 310-40, "Receivables - Troubled Debt Restructurings by Creditors", while enhancing disclosure requirements for certain loan refinancings and restructurings by creditors when a borrower is experiencing financial difficulty. The new guidance is effective for interim and annual periods beginning after December 15, 2022. The Company has adopted the new accounting standard implementing appropriate controls and procedures, the effect of which was not material to the consolidated financial statements and the notes thereto. In June 2022, the FASB issued Accounting Standards Update 2022-03, Fair Value Measurement (Topic 820): Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions, or ASU 2022-03, which changed the fair value measurement disclosure requirements of ASC Topic 820, Fair Value Measurements and Disclosures, or ASC 820. The amendments clarify that a contractual restriction on the sale of an equity security is not considered part of the unit of account of the equity security and, therefore, is not considered in measuring fair value. The amendments also clarify that an entity cannot, as a separate unit of account, recognize and measure a contractual sale restriction. The new guidance is effective for fiscal years beginning after December 15, 2023, including interim periods therein. Early application is permitted. The Company has adopted the new accounting standard, the effect of which was not material to the consolidated financial statements and the notes thereto. In November 2023, the Financial Accounting Standards Board (FASB) issued ASU 2023-07, Segment Reporting (Topic 280), Improvements to Reportable Segment Disclosures to improve reportable segment disclosure requirements through enhanced disclosures about significant segment expenses. ASU 2023-07 expands public entities' segment disclosure by requiring disclosure of significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss, an amount and description of its composition for other segment items and interim disclosure of a reportable segment's profit or loss and assets. All disclosure requirements of ASU 2023-07 are required for entities with a single reportable segment. ASU 2023-07 is effective for fiscal years beginning after December 15, 2023, and interim periods for our fiscal years beginning December 15, 2024, and should be applied on a retrospective basis to all periods presented, noting early adoption is permitted. The Company is currently evaluating the impact of this standard on its consolidated financial statements and related disclosures. In December 2023, the FASB issued ASU 2023 - 09 "Improvements to Income Tax Disclosures" ("ASU 2023 - 09"). ASU 2023 - 09 intends to improve the transparency of income tax disclosures. ASU 2023 - 09 is effective for fiscal years beginning after December 15, 2024 and is to be adopted on a prospective basis with the option to apply retrospectively. We are currently assessing the impact of this guidance, however, we do not expect a material impact to our consolidated financial statements and related disclosures. 3. AGREEMENTS AND RELATED PARTY TRANSACTIONS (a) Investment Management Agreement The Investment Management Agreement with the Investment Adviser was reapproved by our board of directors, including a majority of our directors who are not interested persons of us or the Investment Adviser, in May 2024. Under the Investment Management Agreement, the Investment Adviser, subject to the overall supervision of our board of directors, manages the day-to-day operations of and provides investment advisory services to us. The Investment Adviser serves as the collateral manager to Funding I and has irrevocably directed that any management fee owed with respect to such services is to be paid to the Company so long as the Investment Adviser remains the collateral manager. This arrangement does not increase our consolidated management fee. For providing these services, the Investment Adviser receives a fee from us consisting of two components— a base management fee and an incentive fee. <p style="margin-

left:4.533%;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:justify;">Base Management Fee The base management fee is calculated at an annual rate of 1.00% of our “average adjusted gross assets,” which equals our gross assets (net of U.S. Treasury Bills, temporary draws under any credit facility, cash and cash equivalents, repurchase agreements or other balance sheet transactions undertaken at the end of a fiscal quarter for purposes of preserving investment flexibility for the next quarter and unfunded commitments, if any) and is payable quarterly in arrears. The base management fee is calculated based on the average adjusted gross assets at the end of the two most recently completed calendar quarters, and appropriately adjusted for any share issuances or repurchases during the current calendar quarter. For example, if we sold shares on the 45th day of a quarter and did not use the proceeds from the sale to repay outstanding indebtedness, our gross assets for such quarter would give effect to the net proceeds of the issuance for only 45 days of the quarter during which the additional shares were outstanding. For the three months ended December 31, 2024 and 2023, the Investment Adviser earned a base management fee of $5.3 million and $3.0 million, respectively, from us. Incentive Fee The incentive fee has two parts, as follows: One part is calculated and payable quarterly in arrears based on our Pre-Incentive Fee Net Investment Income for the immediately preceding calendar quarter. For this purpose, Pre-Incentive Fee Net Investment Income means interest income, dividend income and any other income, including any other fees (other than fees for providing managerial assistance), such as amendment, commitment, origination, prepayment penalties, structuring, diligence and consulting fees or other fees received from portfolio companies, accrued during the calendar quarter, minus our operating expenses for the quarter (including the base management fee, any expenses payable under the Administration Agreement and any interest expense or amendment fees under any credit facility and distribution paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-Incentive Fee Net Investment Income includes, in the case of investments with a deferred interest feature (such as OID, debt instruments with PIK interest and zero-coupon securities), accrued income not yet received in cash. Pre-Incentive Fee Net Investment Income does not include any realized capital gains, computed net of all realized capital losses or unrealized capital appreciation or depreciation. Pre-Incentive Fee Net Investment Income, expressed as a percentage of the value of our net assets at the end of the immediately preceding calendar quarter, is compared to the hurdle rate of 1.75% per quarter (7.00% annualized). We pay the Investment Adviser an incentive fee with respect to our Pre-Incentive Fee Net Investment Income in each calendar quarter as follows: (1) no incentive fee in any calendar quarter in which our Pre-Incentive Fee Net Investment Income does not exceed the hurdle rate of 1.75%, (2) 50% of our Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than 2.9167% in any calendar quarter (11.67% annualized) (we refer to this portion of our Pre-Incentive Fee Net Investment Income (which exceeds the hurdle but is less than 2.9167%) as the “catch-up,” which is meant to provide our Investment Adviser with 20% of our Pre-Incentive Fee Net Investment Income, as if a hurdle did not apply, if this net investment income exceeds 2.9167% in any calendar quarter), and (3) 20% of the amount of our Pre-Incentive Fee Net Investment Income, if any, that exceeds 2.9167% in any calendar quarter. These calculations are pro-rated for any share issuances or repurchases during the relevant quarter, if applicable. For the three months ended December 31, 2024 and 2023, the Investment Adviser earned $7.5 million and $4.9 million, respectively, in incentive fees on net investment income from us. <p

style="text-indent:4%;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:justify;"> The second part of the incentive fee is determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Management Agreement, as of the termination date) and equals 20% of our realized capital gains, if any, on a cumulative basis from inception through the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees. For the three months ended December 31, 2024 and 2023, the Investment Adviser did not accrue an incentive fee on capital gains. Under GAAP, we are required to accrue a capital gains incentive fee based upon net realized capital gains and net unrealized capital appreciation and depreciation on investments held at the end of each period. In calculating the capital gains incentive fee accrual, we considered the cumulative aggregate unrealized capital appreciation in the calculation, as a capital gains incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the Investment Management Agreement. This accrual is calculated using the aggregate cumulative realized capital gains and losses and cumulative unrealized capital appreciation or depreciation. If such amount is positive at the end of a period, then we record a capital gains incentive fee equal to 20% of such amount, less the aggregate amount of actual capital gains related to incentive fees paid in all prior years. If such amount is negative, then there is no accrual for such year. There can be no assurance that such unrealized capital appreciation will be realized in the future. The incentive fee accrued for, but not payable, under GAAP on our unrealized and realized capital gains for the three months ended December 31, 2024 and 2023, was zero, respectively.   (b) Administration Agreement The Administration Agreement with the Administrator was reapproved by our board of directors, including a majority of the directors who are not interested persons of us, in May 2024. Under the Administration Agreement, the Administrator provides administrative services and office facilities to us. For providing these services, facilities and personnel, we have agreed to reimburse the Administrator for its allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations under the Administration Agreement, including rent and our allocable portion of the costs of compensation and related expenses of our Chief Financial Officer, Chief Compliance Officer, Corporate Counsel and their respective staffs. The amount billed by the Administrator may include credits related to its administrative agreement with PSSL. The Administrator also offers, on our behalf, significant managerial assistance to portfolio companies to which we are required to offer such assistance. Reimbursement for certain of these costs is included in administrative services expenses in the Consolidated Statements of Operations. For the three months ended December 31, 2024 and 2023, we recorded administrative expenses of approximately $0.5 million and $0.6 million, including expenses the Administrator incurred for services described above, respectively. Under the Administration Agreement the Administrator may be reimbursed by the Company for the costs and expenses to be borne by the Company set forth above include the costs and expenses allocable with respect to the provision of in-house legal, tax, or other professional advice and/or services to the Company, including performing due diligence on its prospective portfolio companies as deemed appropriate by the Administrator, where such in-house personnel perform services that would be paid by the Company if outside service providers provided the same services, subject to the Board's oversight. (c) Other Related Party Transactions The Company, the Investment Adviser and certain other affiliates have been granted an order for exemptive relief by the SEC for the Company to co-invest with other funds managed by the Investment Adviser. If we co-invest with other affiliated funds, our Investment Adviser would not receive compensation except to the extent permitted by the exemptive order and applicable law, including the limitations set forth in Section 57(k) of the 1940 Act. There were no transactions subject to Rule 17a-7 under the 1940 Act during each of the three months ended December 31, 2024 and 2023. For the three months ended December 31, 2024, we sold $187.7 million in investments to PSSL at fair value, respectively, and recognized $(0.1) million of net realized gain (losses). For the three months ended December 31, 2023<span style="color:#000000;white-

space:pre-wrap;font-size:8pt;font-family:Times New Roman;font-kerning:none;min-width:fit-content;">, we sold $62.7 million in investments to PSSL at fair value, respectively, and recognized zero of net realized losses. For the three months ended December 31, 2024 and 2023, we sold no investments to PTSF. As of December 31, 2024 and September 30, 2024, PFLT had a receivable from the affiliates of $0.3 million and $0.3 million, respectively, presented as due from affiliate on the Consolidated Statements of Assets and Liabilities. This amount relates to cash owed to agency fees and collected on behalf of the Company and trades between the funds. 0.01The base management fee is calculated based on the average adjusted gross assets at the end of the two most recently completed calendar quarters, and appropriately adjusted for any share issuances or repurchases during the current calendar quarter.530000030000000.01750.07We pay the Investment Adviser an incentive fee with respect to our Pre-Incentive Fee Net Investment Income in each calendar quarter as follows: (1) no incentive fee in any calendar quarter in which our Pre-Incentive Fee Net Investment Income does not exceed the hurdle rate of 1.75%, (2) 50% of our Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than 2.9167% in any calendar quarter (11.67% annualized) (we refer to this portion of our Pre-Incentive Fee Net Investment Income (which exceeds the hurdle but is less than 2.9167%) as the "catch-up," which is meant to provide our Investment Adviser with 20% of our Pre-Incentive Fee Net Investment Income, as if a hurdle did not apply, if this net investment income exceeds 2.9167% in any calendar quarter), and (3) 20% of the amount of our Pre-Incentive Fee Net Investment Income, if any, that exceeds 2.9167% in any calendar quarter.00.01750.500.0291670.11670.0291670.200.0291670.200.029167750000049000000.20000.2000500000600000001877000001000006270 4. INVESTMENTS For the three months ended December 31, 2024 and 2023, purchases of investments, including PIK interest totaled $608.3 million and $303.5 million, respectively. Sales and repayments of investments for the three months ended December 31, 2024 and 2023 totaled $401.3 million and $103.8 million, respectively.</p><div style="font-size:8pt;font-family:Times New Roman;"><p style="text-indent:4%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:justify;">Investments and cash and cash equivalents consisted of the following:</p><p style="text-indent:4%;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;"> </p><table style="margin-left:auto;border-spacing:0;table-layout:auto;width:100.0%;border-collapse:separate;margin-right:auto;"><tr style="visibility:collapse;"><td style="width:38.548%;box-sizing:content-box;"></td><td style="width:1.36%;box-sizing:content-box;"></td><td style="width:1%;box-sizing:content-box;"></td><td style="width:12.002%;box-sizing:content-box;"></td><td style="width:1%;box-sizing:content-box;"></td><td style="width:1.36%;box-sizing:content-box;"></td><td style="width:1%;box-sizing:content-box;"></td><td style="width:12.002%;box-sizing:content-box;"></td><td style="width:1%;box-sizing:content-box;"></td><td style="width:1.36%;box-sizing:content-box;"></td><td style="width:1%;box-sizing:content-box;"></td><td style="width:12.002%;box-sizing:content-box;"></td><td style="width:1%;box-sizing:content-box;"></td><td style="width:1.36%;box-sizing:content-box;"></td><td style="width:1%;box-sizing:content-box;"></td><td style="width:12.002%;box-sizing:content-box;"></td><td style="width:1%;box-sizing:content-box;"></td></tr><tr style="height:8pt;background-color:#ffffff;white-space:pre-wrap;word-break:break-word;"><td style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;padding-right:0.01in;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;margin-right:0.009722222222222222in;text-align:left;"><span style="color:#000000;white-space:pre-wrap;font-weight:bold;font-kerning:none;min-width:fit-content;">($ in thousands) </td><td style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;padding-right:0.01in;"> </td><td colspan="6" style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;border-bottom:0.5pt solid #000000;padding-right:0.01in;text-align:left;"> December 31, 2024 </td><td style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;border-bottom:0.5pt solid #ffffff03;padding-right:0.01in;text-align:left;"> </td><td style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;padding-right:0.01in;"> </td><td colspan="6" style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;border-bottom:0.5pt solid #000000;padding-right:0.01in;text-align:left;"> September 30, 2024 </td><td style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;border-bottom:0.5pt solid #ffffff03;padding-right:0.01in;text-align:left;"> </td></tr><tr style="height:8pt;background-color:#ffffff;white-space:pre-wrap;word-break:break-word;"><td style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;border-bottom:0.5pt solid #000000;padding-right:0.01in;"> Investment Classification </td><td style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;border-bottom:0.5pt solid #ffffff03;padding-right:0.01in;"> </td><td colspan="2" style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;border-bottom:0.5pt solid #000000;padding-right:0.01in;text-align:left;"> Cost </td><td style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;border-

PennantPark Senior Secured Loan Fund I LLC   In May 2017, we and Kemper formed PSSL, an unconsolidated joint venture. PSSL invests primarily in middle-market and other corporate debt securities consistent with our strategy. PSSL was formed as a Delaware limited liability company. As of December 31, 2024 and September 30, 2024, PSSL had total assets of $1,110 million and $<span style="font-size:8pt;font-family:Times New

Roman;color:#000000;white-space:pre-wrap;font-kerning:none;min-width:fit-content;">988.1 million, respectively, and its investment portfolio consisted of investments in 118 and 109 portfolio companies, respectively. As of December 31, 2024, at fair value, the largest investment in a single portfolio company in PSSL was $21.2 million and the five largest investments totaled $98.6 million. As of September 30, 2024, at fair value, the largest investment in a single portfolio company in PSSL was $21.3 million and the five largest investments totaled $97.3 million. PSSL invests in portfolio companies in the same industries in which we may directly invest. We and Kemper provide capital to PSSL in the form of first lien secured debt and equity interests. As of December 31, 2024 and September 30, 2024, we and Kemper owned 87.5% and 12.5%, respectively, of each of the outstanding first lien secured debt and equity interests. As of the same dates, our investment in PSSL consisted of first lien secured debt of $237.7 million (zero remaining unfunded) and $237.7 million (zero remaining unfunded), respectively, and equity interests of $101.9<span style="color:#000000;white-space:pre-wrap;font-size:8pt;font-family:Times New Roman;font-kerning:none;min-width:fit-content;"> million ($87.5 remaining unfunded) and $101.9 million (zero remaining unfunded), respectively. We and Kemper each appointed two members to PSSL's four-person board of directors and investment committee. All material decisions with respect to PSSL, including those involving its investment portfolio, require unanimous approval of a quorum of the board of directors or investment committee.Quorum is defined as (i) the presence of two members of the board of directors or investment committee, provided that at least one individual is present that was elected, designated or appointed by each member; (ii) the presence of three members of the board of directors or investment committee, provided that the individual that was elected, designated or appointed by the member with only one individual present shall be entitled to cast two votes on each matter; and (iii) the presence of four members of the board of directors or investment committee shall constitute a quorum, provided that two individuals are present that were elected, designated or appointed by each member. In December 2024, PSSL entered into a $325.0 million (increased from $260.0 million) senior secured revolving credit facility which bears interest at SOFR plus 225 basis points (including a spread adjustment) with Ally Bank through its wholly-owned subsidiary, PennantPark Senior Secured Loan Facility LLC II, or PSSL Subsidiary II, subject to leverage and borrowing base restrictions. In January 2021, PSSL completed a $300.7 million debt securitization in the form of a collateralized loan obligation, or the "2032 Asset-Backed Debt". The 2032 Asset-Backed Debt is secured by a diversified portfolio of PennantPark CLO II, Ltd., a wholly-owned and consolidated subsidiary of PSSL, consisting primarily of middle market loans and participation interests in middle market loans. The 2032 Asset-Backed Debt is scheduled to mature in January 2032. On the closing date of the transaction, in consideration of PSSL's transfer to PennantPark CLO II, Ltd. of the initial closing date loan portfolio, which included loans distributed to PSSL by certain of its wholly-owned subsidiaries and us, PennantPark CLO II, Ltd. transferred to PSSL 100% of the Preferred Shares of PennantPark CLO II, Ltd. and 100% of the Class E Notes issued by PennantPark CLO II, Ltd. In May 2024, PSSL completed the refinancing of the 2032 Asset-Backed Debt through a $300.7 million debt securitization in the form of a collateralized loan obligation, or the "2036 PSSL Asset-Backed Debt". The 2036 PSSL Asset-Backed Debt is secured by a diversified portfolio of PennantPark CLO II, Ltd., a

wholly-owned subsidiary of PSSL, consisting primarily of middle market loans and participation interest in middle market loans. The 2036 PSSL Asset-Backed Debt is scheduled to mature in April 2036. PSSL retained the preferred shares and Class E-R Notes through a consolidated subsidiary. In April 2023, PSSL completed a $297.8 million debt securitization in the form of a collateralized loan obligation, or the "2035 Asset-Backed Debt". The 2035 Asset-Backed Debt is secured by a diversified portfolio of PennantPark CLO VI, LLC, a wholly-owned and consolidated subsidiary of PSSL, consisting primarily of middle market loans and participation interests in middle market loans. The 2035 Asset-Backed Debt is scheduled to mature in April 2035. On the closing date of the transaction, in consideration of PSSL's transfer to PennantPark CLO VI, LLC of the initial closing date loan portfolio, which included loans distributed to PSSL by certain of its wholly owned subsidiaries and us, PennantPark CLO VI, LLC transferred to PSSL 100% of the Preferred Shares of CLO VI, LLC.
