☒ ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2022 2023

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission file number: 001-35120

CVR Partners, LP

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

56-2677689

(I.R.S. Employer Identification No.)

2277 Plaza Drive, Suite 500, Sugar Land, Texas 77479

(Address of principal executive offices) (Zip Code)

(281) 207-3200

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Trading Symbol(s)	Name of each exchange on which registered
Common units representing limited partner interests	UAN	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐.

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (\$232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	☐	Accelerated filer	☒	Non-accelerated filer	☐
Smaller reporting company	☐	Emerging growth company	☐		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm prepared or issued its audit report. ☒

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to § 240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

At June 30, 2022 June 30, 2023, the aggregate market value of the voting common units held by non-affiliates of the registrant was approximately \$663.0 million \$535.7 million based upon the closing price of its common units on the New York Stock Exchange Composite tape. As of February 17, 2023 February 16, 2024, there were 10,569,637 of the registrant's common units outstanding.

GLOSSARY OF SELECTED TERMS

The following are definitions of certain terms used in this Annual Report on Form 10-K for the year ended December 31, 2022 (this "Report"), 10-K.

Ammonia — Ammonia is a direct application fertilizer and is primarily used as a building block for other nitrogen products for industrial applications and finished fertilizer products.

Capacity — Capacity is defined as the throughput a process unit is capable of sustaining, either on a calendar or operating day basis. The throughput may be expressed in terms of maximum sustainable, nameplate or economic capacity. The maximum sustainable or nameplate capacities may not be the most economical. The economic capacity is the throughput that generally provides the greatest economic benefit based on considerations such as feedstock costs, product values, regulatory compliance costs and downstream unit constraints.

Catalyst — A substance that alters, accelerates, or instigates chemical changes, but is neither produced, consumed nor altered in the process.

Corn belt — The primary corn producing region of the United States, which includes Green Markets defines as Illinois, Indiana, Iowa, Minnesota, Missouri, Nebraska, Ohio and Wisconsin. Ohio.

Ethanol — A clear, colorless, flammable oxygenated hydrocarbon. Ethanol is typically produced chemically from ethylene, or biologically from fermentation of various sugars from carbohydrates found in agricultural crops and cellulosic residues from crops or wood. It is used in the United States as a gasoline octane enhancer and oxygenate.

MMBtu — One million British thermal units, or Btu: a measure of energy. One Btu of heat is required to raise the temperature of one pound of water one degree Fahrenheit.

MSCF — One thousand standard cubic feet, a customary gas measurement.

Petroleum coke (pet coke) — A coal-like substance that is produced during the oil refining process.

Product pricing at gate — Product pricing at gate represents net sales less freight revenue divided by product sales volume in tons. Product pricing at gate is also referred to as netback.

Southern Plains — Primarily includes The southern portion of the Great Plains, which Green Markets defines as Colorado, Kansas, New Mexico, Oklahoma, Texas and New Mexico. Texas.

Spot market — A market in which commodities are bought and sold for cash and delivered immediately.

Turnaround — A periodically performed standard procedure to inspect, refurbish, repair, and maintain the plant assets. This process involves the shutdown and inspection of major processing units and generally occurs every two to three years. A turnaround will typically extend the operating life of a facility and return performance to desired operating levels.

UAN — An aqueous solution of urea and ammonium nitrate used as a fertilizer.

Utilization — Measurement of the annual production of UAN and ammonia expressed as a percentage of the facilities' nameplate production capacity.

Important Information Regarding Forward-Looking Statements

This Annual Report on Form 10-K for the year ended December 31, 2023 (this "Report") contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), including, but not limited to, those under Item 1. Business, Item 1A. Risk Factors and Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations. These forward-looking statements are subject to a

number of risks and uncertainties, many of which are beyond our control. All statements other than statements of historical fact, including without limitation, statements regarding future operations, financial position, estimated revenues and losses, growth, capital projects, unit repurchases, impacts of legal proceedings, projected costs, prospects, plans, and objectives of management are forward looking forward-looking statements. The words "could," "believe," "anticipate," "intend," "estimate," "expect," "may," "continue," "predict," "potential," "project," "could," "believe," "anticipate," "intend," "estimate," "expect," "may," "continue," "predict," "potential," "project," and similar terms and phrases are intended to identify forward-looking statements.

Although we believe our assumptions concerning future events are reasonable, a number of risks, uncertainties and other factors could cause actual results and trends to differ materially from those projected or forward-looking. Forward-looking statements, as well as certain risks, contingencies, or uncertainties that may impact our forward looking forward-looking statements, include, but are not limited to, the following:

- our ability to generate distributable cash or make cash distributions on our common units, including reserves and future uses of cash;
- the ability of our general partner to modify or revoke our distribution policy at any time;
- the volatile, cyclical, and seasonal nature of our business and the variable nature of our distributions;
- the effects of changes in market conditions and conditions; market volatility arising from the COVID-19 pandemic, or inflation, including volatility; fertilizer, natural gas, and other commodity prices prices; inflation, and the impact of such changes on our operating results and financial position;
- the cyclical and seasonal nature of our business; condition;
- the impact of weather on our business, including our ability to produce, market, sell, transport or deliver fertilizer products profitably or at all, and on commodity supply and/or pricing;
- the effects of inflation;
- the dependence of our operations on a few third-party suppliers, including providers of feedstocks, transportation services, and equipment;
- our reliance on, or our ability to procure economically or at all, pet coke we purchase from subsidiaries of CVR Energy, Inc. (together with its subsidiaries, but excluding the Partnership and its subsidiaries, "CVR Energy") and other third-party suppliers;
- our reliance on the natural gas, electricity, oxygen, nitrogen, sulfur processing, compressed dry air and other products that we purchase from third parties;
- the supply, availability, and prices of essential raw materials and the effects of inflation thereupon;
- our production levels, including the risk of a material decline in those levels, including and/or our ability to upgrade ammonia to UAN;
- product pricing, including spot and contracted sales, the timing thereof, and our ability to realize market prices, in full or at all;
- accidents or other unscheduled shutdowns or interruptions affecting our facilities, machinery, people, or equipment, or those of our suppliers or customers;
- potential operating hazards from accidents, fire, severe weather, tornadoes, floods or other natural disasters;
- operational upsets or changes in laws that could impact our ability to qualify for, the amount and of, and/or the receipt of credits (if any) under Section 45Q of the Internal Revenue Code of 1986, as amended;
- our ability to meet certain carbon oxide capture and sequestration milestones;
- our ability to obtain, retain, or renew permits, licenses (including technology licenses) and authorizations to operate our business;
- competition in the nitrogen fertilizer business and foreign wheat and coarse grain production, including impacts thereto thereof as a result of farm planting acreage, domestic and global supply and demand, and domestic or international duties, tariffs, or similar costs;
- capital expenditures; other factors;
- changes in our credit profile and the effects of higher interest rates, rates and/or restrictions in our current or future debt agreements;
- existing and future laws, rulings and regulations, including but not limited to those relating to the environment, climate change, and/or the transportation or production of hazardous chemicals, materials, or substances, like ammonia, including potential liabilities or capital requirements arising from such laws, rulings, or regulations;
- erosion of demand for our products due to increasing focus on climate change and environmental, social and governance ("ESG") initiatives; initiatives or other factors;
- ESG including but not limited to compliance with ESG-related recommendations or directives and risks or impacts relating thereto, whether from regulators, rating agencies, lenders, investors, litigants, customers, vendors, the public or others;
- alternative energy or fuel sources and impacts on corn prices (ethanol), and the end-use and application of fertilizers;
- risks of terrorism, cybersecurity attacks, the security of chemical manufacturing facilities and other matters beyond our control;

December 31, 2023 | 3

- political disturbances, geopolitical conflicts, instability and tensions, and associated changes in global trade policies and economic sanctions, including, but not limited to, in connection with Russia's invasion of Ukraine in February 2022 and the conflict between Israel and Hamas, and any ongoing conflicts in the region; or potential global or regional conflicts;

December 31, 2022 | 3

- our lack of asset diversification;
- our dependence on significant customers and the creditworthiness and performance by counterparties;

- our potential loss of transportation cost advantage over our competitors;
- risks associated with third party operation of or control over important facilities necessary for operation of our nitrogen fertilizer facilities;
- the volatile nature of ammonia, potential liability for accidents involving ammonia including damage or injury to persons, property, the environment or human health and increased costs related to the transport or production of ammonia;
- our potential inability to successfully implement our business strategies, including the completion of significant capital programs or projects;
- our reliance on CVR Energy's **senior** management team and conflicts of interest they may face operating each of CVR Partners and CVR Energy;
- control of our general partner by CVR Energy;
- **our ability to continue to license the technology used in our operations; Energy and control of CVR Energy by its controlling shareholder;**
- the potential inability to successfully implement our business strategies at all or on time and within our anticipated budgets, including significant capital programs or projects and turnarounds at our fertilizer **facilities;**
- **restrictions in our debt agreements; facilities and the costs thereof;**
- asset useful lives and impairments and impacts thereof;
- realizable inventory value;
- the number of investors willing to hold or acquire our common units;
- our ability to issue securities or obtain **financing; financing at favorable rates or at all;**
- **bank failures or other events affecting financial institutions;**
- changes in tax and other law, regulations and policies;
- **ability to qualify for impact of potential runoff of water containing nitrogen based fertilizer into waterways and receive the benefit of 45Q tax credits; regulatory or legal actions in response thereto;**
- changes in our treatment as a partnership for U.S. federal income or state tax purposes;
- rulings, judgments or settlements in litigation, tax or other legal or regulatory matters;
- instability and volatility in the capital, credit and commodities markets and in the global economy, including due to the ongoing Russia-Ukraine **conflict;**
- **risks related to the potential spin-off of our general and limited partner interests owned by CVR Energy, including disruptions to, and negative impacts to our relationships with, our customers and other business partners; war;**
- competition, transactions, and/or conflicts with CVR Energy and its affiliates, including CVR Energy's controlling shareholder;
- the **cost and** value of payouts under our equity and non-equity incentive plans; **and**
- the cost and/or availability of insurance and our ability to recover under our insurance policies for damages or losses in full or at **all; all; and**
- **labor supply shortages, labor difficulties, labor disputes, or strikes and the impact thereof on our business, operations or financial results.**

All forward-looking statements included in this Report are based on information available to us on the date of this Report. Except as required by law, we undertake no obligation to revise or update any forward-looking statements as a result of new information, future events or otherwise.

Information About Us

Investors should note that we make available, free of charge on our website at www.CVRPartners.com, our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and any amendments to those reports as soon as reasonably practicable after we electronically file such material with, or furnish it to, the **SEC, Securities and Exchange Commission (the "SEC").** We also post announcements, updates, events, investor information and presentations on our website in addition to copies of all recent news releases. We may use the Investor Relations section of our website to communicate with investors. It is possible that the financial and other information posted there could be deemed to be material information. Documents and information on our website are not incorporated by reference herein.

The SEC maintains a website at www.sec.gov that contains reports, proxy and information statements, and other information regarding issuers, including us, that file electronically with the SEC.

December 31, **2022 2023** | 4

Risk Factor Summary

This summary of risks below is intended to provide an overview of the risks we face and should not be considered a substitute for the more fulsome risk factors discussed in this Annual Report on Form 10-K.

Risks Related to Our Business

- The cyclical and highly volatile nature of our business and nitrogen fertilizer **and feedstock** prices.
- **The market for natural gas has been volatile, and fluctuations in natural gas prices could affect our competitive position.**
- Nitrogen fertilizer products and our business face intense competition.
- The dynamic pricing environment for nitrogen fertilizer products, as well as any changes to government policy regarding fertilizer pricing in response thereto.
- Our business is geographically concentrated and subject to regional economic downturns and seasonal **variations. variations for us or our customers.**

- The loss of several significant customers may have a material adverse impact on our business.
- Any decline in U.S. agricultural production or limitations on the use of nitrogen fertilizer for agricultural purposes.
- Compliance with and changes in environmental laws and regulations could adversely affect our business.
- Any previous or future pandemic, and actions taken in response thereto, could materially adversely affect our business.
- We are subject to cybersecurity risks and other may experience cyber incidents resulting in disruption or harm to our business.
- Changes in privacy, cybersecurity and data protection laws could result in harm to our business.
- An increase in inflation could have adverse effects on our results of operations.

Risks Related to Our Plant Operations

- Failure by CVR Energy's Coffeyville refinery or other third parties to continue to supply us with pet coke.
- The market for natural gas has been volatile, and fluctuations in natural gas prices could affect our competitive position.
- Any interruption in the supply of natural gas to our East Dubuque Facility.
- If licensed technology were no longer available or able to be licensed economically or at all, our business may be adversely affected.
- Compliance with and changes in environmental laws and regulations could adversely affect our business.
- Our operations are dependent on third-party suppliers, which could have a material adverse effect on our business.
- We rely on third-parties for transportation services and equipment.
- Any liability for accidents involving ammonia or other products we produce or transport that cause severe damage to property or injury to the environment and human health could have a material adverse effect on our business.
- We could incur significant costs in cleaning up contamination.
- We may be unable to obtain or renew permits or approvals necessary for our operations.
- Regulations concerning the transportation, storage and handling Acts of hazardous chemicals, materials, terror or substances, risks, sabotage, threats of terrorism, and the security of chemical manufacturing facilities could result in higher operating and/ war, armed conflict or capital costs, war may have an adverse impact on our business.
- Adverse weather conditions or other unforeseen developments could damage our facilities or logistics assets and impact our ability to produce and deliver our nitrogen fertilizer products.
- Our facilities face significant risks due to physical damage hazards, environmental liability risk exposure, and unplanned or emergency partial or total plant shutdowns which could cause property damage and a material decline in production which are not fully insured.
- A failure to comply with laws and regulations regarding employee and process safety.
- Our business may suffer due to a skilled labor shortage or the departure of any of our key employees.
- A portion of our workforce is unionized, and we are subject to the risk of labor disputes, slowdowns or strikes, which may disrupt our business and increase our costs.

Risks Related to Our Capital Structure

- Instability and volatility in the capital, credit, and commodity markets in the global economy.
- Our level of indebtedness may affect our ability to operate our business.

December 31, 2023 | 5

- Covenants in our debt agreements could limit our ability to incur additional indebtedness and engage in certain transactions, as well as limit operational flexibility.
- We may not be able to generate sufficient cash to service all of our indebtedness.
- Mr. Carl C. Icahn's controlling ownership of CVR Energy, and his interests or those of CVR Energy may conflict with our interests.
- An increase in interest rates will cause our debt service obligations to increase.

December 31, 2022 | 5

- The potential spin-off of CVR Energy's nitrogen fertilizer business may result in disruptions to, and negatively impact our relationships with, our customers and other business partners and could also significantly increase our costs.

Risks Related to Our Limited Partnership Structure

- We may not have sufficient “available cash” to pay any quarterly distribution on common units, or the **Board** board of directors of the Partnership's general partner (the “Board”) may elect to **take reserves or** distribute less than all of our available cash.
- Our partnership agreement has limited our general partner's liability, replaces default fiduciary duties, and restricts the remedies available to common unitholders for actions that, without these limitations and reductions, might otherwise constitute breaches of fiduciary duty.
- Our general partner's interests may conflict with the interests of our public common unitholders.
- We qualify for **and rely upon** certain exemptions from many of the NYSE's corporate governance requirements.
- Our public common unitholders have limited voting rights and are not entitled to elect our general partner or our general partner's directors and do not have sufficient voting power to remove our general partner without CVR Energy's consent.
- Common unitholders may have liability to repay distributions.

Tax Risks Related to Common Unitholders

- If the Internal Revenue Service (“IRS”) were to treat us as a corporation for U.S. federal income tax purposes or we become subject to entity-level taxation for state tax purposes.
- If the IRS makes audit adjustments to our income tax returns, it may assess and collect any taxes (including any applicable penalties and interest) resulting from such audit adjustments directly from us.
- Our unitholders are required to pay income taxes on their share of our taxable income even if they do not receive any cash distributions from us.
- Common unitholders may be subject to limitation on their ability to deduct interest expense incurred by us.
- Non-U.S. common unitholders will be subject to U.S. taxes and withholding with respect to their income and gain from owning our common units.
- Tax-exempt entities face unique tax issues from owning our common units that may result in adverse tax consequences.
- The IRS may challenge our treatment of each purchaser of our common units as having the same tax benefits without regard to the common units actually purchased, which could adversely affect the value of our common units.
- Our proration methods may be challenged by the IRS.
- IRS challenge of certain valuation methodologies we have adopted to determine a unitholder's allocations of income, gain, loss, and deduction, could adversely affect the value of our common units.
- Our common unitholders will likely be subject to state and local taxes, as well as income tax return filing requirements, in jurisdictions where they do not live as a result of investing in our common units.

General Risks Related to the Partnership

- The acquisition and expansion strategy of our business involves significant risks.
- Internally generated cash flows and other sources of liquidity may not be adequate for our capital needs.

December 31, **2022** **2023** | 6

PART I

Part I should be read in conjunction with “Management's Discussion and Analysis” in Part II, Item 7, and our consolidated financial statements and related notes thereto in Part II, Item 8 of this Report.

Item 1. Business

Overview

CVR Partners, LP (referred to as “CVR” (“CVR Partners” or the “Partnership”) is a Delaware limited partnership formed in 2011 by CVR Energy, Inc. (together with its subsidiaries, but excluding the Partnership and its subsidiaries, “CVR Energy”) to own, operate and grow its nitrogen fertilizer business. The Partnership produces nitrogen fertilizer products at two manufacturing facilities, one located in Coffeyville, Kansas operated by our wholly owned subsidiary, Coffeyville Resources Nitrogen Fertilizers, LLC (“CRNF” or the “Coffeyville Facility”) and one located in East Dubuque, Illinois operated by our wholly owned subsidiary, East Dubuque Nitrogen Fertilizers, LLC (“EDNF” or the “East Dubuque Facility”). Both facilities manufacture ammonia and are able to further upgrade such ammonia to other nitrogen fertilizer products, principally urea ammonium nitrate (“UAN”). Nitrogen fertilizer is used by farmers to improve the yield and quality of their crops, primarily corn and wheat. The Partnership's products are sold on a wholesale basis in the United States, States of America. As used in these financial statements, references to CVR Partners, the Partnership, “we”, “us”, and “our” may refer to consolidated subsidiaries of CVR Partners or one or both of the facilities, as the context may require.

Organizational Structure and Related Ownership

The following chart illustrates the organizational structure of the Partnership as of **December 31, 2022** **December 31, 2023**.

December 31, **2022** **2023** | 7

Facilities

Coffeyville Facility - We own and operate a nitrogen fertilizer production facility in Coffeyville, Kansas that includes a gasifier complex having a capacity of 89 million standard cubic feet per day of hydrogen, a 1,300 ton per day capacity ammonia unit and a 3,100 ton per day capacity UAN unit. The Coffeyville Facility is the only nitrogen fertilizer plant in North America that utilizes a pet coke gasification process to produce nitrogen fertilizer. The Coffeyville Facility's largest raw material cost used in the production of ammonia is pet coke, which **it purchases** **is purchased** from CVR Energy and third parties. For the years ended **December 31, 2022** **December 31, 2023**, **2021**, **2022**, and **2020**, **2021**, the Partnership purchased approximately **\$22.5 million** **\$40.5 million**, **\$23.0 million** **\$22.5 million**, and **\$18.4 million** **\$23.0 million**, respectively, of pet coke, which equaled an average cost per ton of **\$78.14**, **\$52.88**, **\$44.69**, and **\$35.25**, **\$44.69**, respectively. For the years ended **December 31, 2022** **December 31, 2023**, **2021**, **2022**, and **2020**, **2021**, we upgraded approximately **94%** **92%**, **87%** **94%**, and 87%, respectively, of our ammonia production into UAN, a product that generated greater profit per ton than ammonia for both **2022** and **2021**, but not for **2020**. ammonia. When the economics are favorable, we expect to continue upgrading substantially all of our ammonia production into UAN.

East Dubuque Facility - We own and operate a nitrogen fertilizer production facility in East Dubuque, Illinois that includes a 1,075 ton per day capacity ammonia unit and a 950 ton per day capacity UAN unit. The East Dubuque Facility has the flexibility to vary its product mix, thereby enabling it to upgrade a portion of its ammonia production into varying amounts of UAN, nitric acid, and liquid and granulated urea, depending on market demand, pricing, and storage availability. The East Dubuque Facility's largest raw material cost used in the production of ammonia is natural gas, which **it purchases** **is purchased** from third parties. For the years ended **December 31, 2022** **December 31, 2023**, **2021**, **2022**, and **2020**, **2021**, the East Dubuque Facility incurred approximately **\$46.0 million** **\$29.0 million**, **\$31.8 million** **\$46.0 million**, and **\$19.9 million** **\$31.8 million** for feedstock natural gas used in production, respectively, which equaled an average cost of **\$3.42**, **\$6.66**, **\$3.95**, and **\$2.31** **\$3.95** per MMBtu, respectively.

Commodities

The nitrogen products we produce are globally traded commodities and are subject to price competition. The customers for our products make their purchasing decisions principally on the basis of delivered price and, to a lesser extent, on customer service and product quality. The selling prices of our products fluctuate in response to global market conditions, feedstock costs, and changes in supply and demand.

Agriculture

Nutrients are depleted in soil over time and, therefore, must be replenished through fertilizer application. Nitrogen is the most quickly depleted nutrient and must be replenished every year, whereas phosphate and potassium can be retained in soil for up to three years. Plants require nitrogen in the largest amounts, and it accounts for approximately 56% of primary fertilizer consumption on a nutrient ton basis, per the International Fertilizer Association ("IFA").

The three primary forms of nitrogen fertilizer used in the United States are ammonia, urea, and UAN. Unlike ammonia and urea, UAN can be applied throughout the growing season and can be applied in tandem with pesticides and herbicides, providing farmers with flexibility and cost savings. As a result of these factors, UAN typically commands a premium price to urea and ammonia, on a nitrogen equivalent basis. **However, during 2020, UAN commanded a discount price to urea and premium to ammonia, on a nitrogen equivalent basis.**

Demand

Global demand for fertilizers is driven primarily by grain demand and prices, which, in turn, are driven by population growth, farmland per capita, dietary changes in the developing world, and increased consumption of bio-fuels. According to the IFA, from 1976 to **2020**, **2021**, global fertilizer demand grew 2% annually. Global fertilizer use, consisting of nitrogen, phosphate, and potash, is projected to increase by **3%** **2%** through **2023** **2024** to meet global food demand according to a study funded by the Food and Agricultural Organization of the United Nations. Currently, the developed world uses fertilizer more intensively than the developing world, but sustained economic growth in emerging markets is increasing food demand and fertilizer use. In addition, populations in developing countries are shifting to more protein-rich diets as their incomes increase, with such consumption requiring more grain for animal feed. As an example, China's wheat and coarse grains production is estimated to have increased **40%** **42%** between 2011 and **2022**, **2023**, but still failed to keep pace with increases in demand, prompting China to grow its wheat and coarse grain imports by more than **1,307%** **1,167%** over the same period, according to the United States Department of Agriculture ("USDA").

December 31, **2022** **2023** | 8

The United States is the world's largest exporter and producer of coarse grains, accounting for 24% 25% of world exports and 25% 27% of world production for the fiscal year ended December 31, 2022 December 31, 2023, according to the USDA. A substantial amount of nitrogen is consumed in production of these crops to increase yield. Based on Fertecon Limited's ("Fertecon") 2022 2023 estimates, the United States is the world's third largest consumer and importer of nitrogen fertilizer. Fertecon is an agency which provides market information and analysis on fertilizers and fertilizer raw materials for fertilizer and related industries, as well as international agencies. Fertecon estimates indicate that the United States represented 11% of total global nitrogen fertilizer consumption for 2022, 2023, with China and India as the top consumers representing 22% 23% and 17% 18% of total global nitrogen fertilizer consumption, respectively.

North American nitrogen fertilizer producers predominantly use natural gas as their primary feedstock. Over the last five years, U.S. oil and natural gas reserves have increased significantly due to, among other factors, advances in extracting shale oil and gas, as well as relatively high oil improvements in drilling efficiencies and gas prices. During February 2022, Russia invaded Ukraine, tightening global supply conditions for nitrogen fertilizers as economies began to recover from the global COVID-19 pandemic. Following the invasion of Ukraine, Russia also began restricting supplies of natural gas to Europe in response to European sanctions against Russia. As a result, costs for natural gas as a feedstock in Europe increased significantly and caused multiple fertilizer plant shut-ins. Certain European countries also curtailed industrial natural gas usage, resulting in deteriorated economics for producing fertilizers in the region. In addition, China and Russia restricted exports of fertilizers for much of 2022 in order to ensure domestic availability. In North America, natural gas prices also increased throughout 2022, but decreased in January 2023. However, higher nitrogen fertilizer prices more than offset the rise in natural gas costs throughout 2022, reduced production costs. As a result, North America continues to be has been a low-cost region for nitrogen fertilizer production.

Raw Material Supply

Coffeyville Facility - During the past five years, approximately 44% 41% of the Coffeyville Facility's pet coke requirements, on average, were supplied by CVR Energy's adjacent Coffeyville, Kansas refinery pursuant to a supply agreement between one of our subsidiaries and a subsidiary of CVR Energy (the "Coffeyville MSA"). In 2023, 2022, and 2021, our supply of pet coke from the Coffeyville refinery was approximately 43%, 47%, and 43%, respectively. Historically, our Coffeyville Facility has obtained the remainder of its pet coke requirements through third-party contracts typically priced at a discount to the spot market. In 2022, 2021, and 2020, our supply of pet coke from the Coffeyville refinery was approximately 47%, 43%, and 33%, respectively. We have contracts with several vendors to supply third-party pet coke, which could be delivered by truck, railcar, or barge.

Additionally, our Coffeyville Facility relies on a third-party air separation plant at its location that provides contract volumes of oxygen, nitrogen, and compressed dry air to the Coffeyville Facility gasifiers. The reliability of the air separation plant can have a significant impact on our Coffeyville Facility's operations. In 2020, we executed a new product supply agreement that obligates the counterparty to invest funds to upgrade its facility to reduce downtime over the next several years. Should the oxygen volume fall below a specified level, the on-site vendor is contractually obligated to provide excess oxygen through its own mechanism or through third-party purchases. The reliability of the air separation plant can have a significant impact on our Coffeyville Facility's operations.

East Dubuque Facility - Our East Dubuque Facility uses natural gas to produce nitrogen fertilizer. Our East Dubuque Facility is generally able to purchase natural gas at competitive prices due to its connection to the Northern Natural Gas interstate pipeline system, which is within one mile of the facility, and a third-party owned and operated pipeline. The pipelines are connected to a third-party distribution system at the Chicago Citygate receipt point and at the Hampshire interconnect from which natural gas is transported to our East Dubuque Facility. As of December 31, 2022 December 31, 2023, we had commitments to purchase approximately 0.7 million and 0.6 million MMBtus of natural gas supply for planned use in our East Dubuque Facility in January and February of 2023, respectively, 2024, at a weighted average rate per MMBtu of approximately \$9.50 and \$9.72, respectively, \$3.03, exclusive of transportation costs.

Marketing and Distribution

We primarily market UAN products to agricultural customers and ammonia products to agricultural and industrial customers. UAN and ammonia, including freight, accounted for approximately 70% 69% and 24%, respectively, of total net sales for the year ended December 31, 2022 December 31, 2023.

UAN and ammonia are primarily distributed by truck or railcar. If delivered by truck, products are most commonly sold on a shipping point basis, and freight is normally arranged by the customer. We also utilize a fleet of railcars for use in product

December 31, 2022 | 9

delivery. If delivered by railcar, products are most commonly sold on a destination point basis, and we typically arrange the freight.

The nitrogen fertilizer products leave our Coffeyville Facility either in railcars for destinations located principally on the Union Pacific or Burlington Northern Santa Fe railroads or in trucks for direct shipment to customers. Our East Dubuque Facility primarily sells product to customers located within 200 miles of the facility. In most instances, customers take delivery of nitrogen products at our East Dubuque Facility and arrange to transport them to their final destinations by truck. Additionally, our East Dubuque Facility has direct access to a barge dock on the Mississippi River, as well as a nearby rail spur serviced by the Canadian National Railway Company, both of which are used from time to time utilized occasionally to sell and distribute our products.

Customers

Retailers and distributors are the main customers for UAN, and, more broadly, the industrial and agricultural sectors are the primary recipients of our ammonia products. Given the nature of our business, and consistent with industry practice, we sell our products on a wholesale basis under a contract or by purchase order. Contracts with customers generally contain fixed pricing and have terms of less than one year. Our top two customers represented 30% 25% and 26% 30% of net sales for the years ended December 31, 2022 December 31, 2023 and 2020 2022, respectively, and our top customer represented 13% of net sales for the year ended December 31, 2021.

Competition

Nitrogen fertilizer production is a global market with competitors in every region of the world. world, with barge and rail distribution fostering healthy competition throughout the United States. The industry is dominated by price considerations, which are driven by raw material and transportation costs, currency fluctuations, trade barriers, and regulators. Our business has experienced, and expects to continue to experience, significant levels of competition from domestic and foreign nitrogen fertilizer producers, many of whom have significantly greater financial and other resources. Farming activities intensify in the United States during the spring and fall fertilizer application periods, and geographic proximity to these activities is also a significant competitive advantage for domestic producers. We manage our manufacturing and distribution operations to best serve our customers during these critical periods.

Subject to location and other considerations, our major domestic competitors in the nitrogen fertilizer business generally includes CF Industries Holdings, Inc., which sells significantly more nitrogen fertilizers in the United States than other industry participants; Nutrien Ltd.; Koch Fertilizer Company, LLC; OCI N.V.; and LSB Industries, Inc. Domestic customers generally demonstrate sophisticated buying tendencies that include a focus on cost and service. We also encounter competition from producers of fertilizer products manufactured in foreign countries, including the threat of increased production capacity. In certain cases, foreign producers of fertilizer that export to the United States may be subsidized by their respective governments.

Seasonality

Because we primarily sell agricultural commodity products, our business is exposed to seasonal fluctuations in demand for nitrogen fertilizer products in the agricultural industry. In addition, the demand for fertilizers is affected by the aggregate crop planting decisions and fertilizer application rate decisions of individual farmers who make planting decisions based largely on the prospective profitability of a harvest. The specific varieties and amounts of fertilizer they apply depend on factors like crop prices, farmers' current liquidity, soil conditions, weather patterns, and the types of crops planted. We typically experience higher net sales in the first half of the calendar year, which is referred to as the planting season, and net sales tend to be lower during the second half of each calendar year, which is referred to as the fall season.

Environmental Matters

Our business is subject to extensive and frequently changing federal, state, and local environmental laws and regulations governing the emission and release of regulated substances into the environment, the transportation, storage, and disposal of waste, the treatment and discharge of wastewater and stormwater, the storage, handling, use, and transportation of our nitrogen fertilizer products, and the characteristics and composition of UAN and ammonia. These laws and regulations and the enforcement thereof impact us by imposing:

- restrictions on operations or the need to install enhanced or additional control and monitoring equipment;

December 31, 2022 | 10

- liability for the investigation and remediation of contaminated soil and groundwater at current and former facilities (if any) and for off-site waste disposal locations; and
- specifications for the products we market, primarily UAN and ammonia.

Our operations require numerous permits, licenses, and authorizations. Failure to comply with these permits or environmental laws, rules, and regulations could result in fines, penalties, or other sanctions or liabilities or a revocation of our permits, licenses, or authorizations. In addition, the laws and regulations to which we are subject are often evolving and many of them have or could become more stringent or have or could become subject to more stringent interpretation or enforcement by federal or state agencies. These laws and regulations could result in increased capital, operating, and compliance costs.

December 31, 2023 | 10

The Federal Clean Air Act ("CAA")

The CAA and its implementing regulations, as well as state laws and regulations governing air emissions, affect us both directly and indirectly. Direct impacts may occur through the CAA's permitting requirements and/or emission control and monitoring requirements relating to specific air pollutants, as well as the requirement to maintain a risk management program to help prevent accidental releases of certain regulated substances. The CAA affects the Partnership by extensively regulating the air emissions of sulfur dioxide ("SO₂"), volatile organic compounds, nitrogen oxides, and other substances. Some or all of the regulations promulgated pursuant to the CAA, or any future promulgations of regulations, may require the installation of controls or changes to our nitrogen fertilizer facilities (collectively referred to as the "Facilities") to maintain compliance. If new controls or changes to operations are needed, the costs could be material.

The regulation of air emissions under the CAA requires that we obtain various construction and operating permits and incur capital expenditures for the installation of certain air pollution control devices at our operations. Various standards and programs specific to our operations have been implemented, such as the National Emission Standard for Hazardous Air Pollutants, the New Source Performance Standards, and the New Source Review.

The U.S. Environmental Protection Agency (the "EPA" ("EPA")) regulates greenhouse gas ("GHG") emissions under the CAA. In October 2009, the EPA finalized a rule requiring certain large emitters of GHGs to inventory and report their GHG emissions to the EPA. In accordance with the rule, our Facilities monitor and report our GHG emissions to the EPA. In May 2010, the EPA finalized the "Greenhouse Gas Tailoring Rule," Rule", which established GHG emissions thresholds that determine when stationary sources, such as the nitrogen fertilizer facilities, must obtain permits under the Prevention of Significant Deterioration ("PSD") and Title V programs of the CAA. Under the rule, facilities already subject to the PSD and Title V programs that increase their emissions of GHGs by a significant amount are required to undergo PSD review and to evaluate and implement air pollution control technology, known as "best available control technology," technology", to reduce GHG emissions.

The Biden Administration has signaled that it will pursue regulations intended to address climate change. On January 20, 2021, the White House issued its an Executive Order titled "Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis," Crisis", as well as a formal notification re-accepting entry of the United States into the Paris Agreement. On January 27, 2021, the White House issued another climate-related Executive Order, titled "Tackling the Climate Crisis at Home and Abroad." Abroad". On April 22, 2021, the Biden Administration announced a new target for the United States to achieve a 50 to 52 percent reduction from 2005 levels in economy-wide net GHG emissions in 2030. These orders could negatively impact our business and lead to increased costs that could be material.

The EPA's approach to regulating GHG emissions, as well as executive orders, may change, including under future administrations. Therefore, the impact administrations, which may have impacts on our Facilities due to GHG regulation is unknown. Facilities.

Recent Greenhouse Gas Footprint Reduction Efforts

In October 2020, the Partnership announced that it generated its first carbon offset credits from voluntary nitrous oxide abatement at its Coffeyville Facility. The Partnership has similar nitrous oxide abatement efforts at its East Dubuque Facility. According In 2021, according to the EPA, nitrous oxide represents accounted for approximately 7% 6% of carbon dioxide-equivalent ("CO₂e") emissions in the United States.

The Partnership previously entered into a Joint Development Agreement with ClimeCo, a developer of emission-reduction projects for nitric acid plants, to jointly design, install and operate a tertiary abatement system at one of its nitric acid plants in Coffeyville. The system was designed to abate 94% of all N₂O in the unit while preventing the release of approximately 450,000 metric tons of carbon dioxide equivalent on an annualized basis. The From 2018 to 2022, the N₂O abatement systems at the East Dubuque

December 31, 2022 | 11

Facility's two nitric acid plants have abated, on average, the annual release of approximately 265,000 256,000 metric tons of CO₂e during the past five years. e.

CVR Partners' N₂O abatement projects are registered with the Climate Action Reserve (the "Reserve"), a carbon offset registry for the North American market. The Reserve employs high-quality standards and an independent third-party verification process to issue its carbon credits, known as Climate Reserve Tonnes.

The Partnership also sequesters carbon dioxide that is not utilized for urea production at its Coffeyville Facility by capturing and purifying the CO₂ as part of its manufacturing process and then transfers it to CapturePoint LLC, an unaffiliated third-party ("CapturePoint"), which then compresses and ships the CO₂ for sequestration through Enhanced Oil Recovery

December 31, 2023 | 11

("EOR"), under an EPA-approved monitoring, reporting, and verification plan. We believe that certain carbon oxide capture and sequestration activities conducted at or in connection with the Coffeyville Facility qualify under the Internal Revenue Service ("IRS") safe harbor described in Revenue Procedure 2020-12 for certain tax credits available to joint ventures under Section 45Q of the Internal Revenue Code of 1986, as amended ("Section 45Q Credits"). In January 2023, we entered into a series of agreements with CapturePoint and certain unaffiliated third-party investors intended to qualify under the Internal Revenue Service IRS safe harbor described in Revenue Procedure 2020-12 for certain joint ventures that are eligible to claim Section 45Q Credits and allow us to monetize Section 45Q Credits we expect to generate from January 6, 2023 until March 31, 2030. In January 2023, we received an initial upfront payment, net of expenses, of approximately \$18.1 million and could receive up to an additional \$60 million in payments through March 31, 2030, if certain carbon oxide capture and sequestration milestones are met, subject to the terms of the applicable agreements. The foregoing summaries of the agreements do not purport to be complete and are qualified in their entirety by the terms of the relevant agreements, which will be filed with the Partnership's Quarterly Report on Form 10-Q for the period ended March 31, 2023.

Combining our nitrous oxide abatement and CO₂ sequestration activities should reduce our CO₂e footprint by an average of over 1 million metric tons per year. In addition, our Coffeyville Facility is uniquely qualified to produce hydrogen and ammonia that could be certified 'blue' to a market that is increasingly demanding reduced carbon footprints. These greenhouse gas footprint reduction efforts support our core Values of Environment and Continuous Improvement and our goal of continuing to produce nitrogen fertilizers that produce crops that help to feed the world's growing population in the most environmentally responsible way possible.

The Federal Clean Water Act ("CWA")

The CWA and its implementing regulations, as well as state laws and regulations that govern the discharge of pollutants into the water, affect the Partnership. The CWA's permitting requirements establish discharge limitations that may be based on technology standards, water quality standards, and restrictions on the total maximum daily load of pollutants allowed to enter a particular water body based on its use. In addition, water resources are becoming more scarce. The Coffeyville Facility has contracts in place to receive water during certain water shortage conditions, but these conditions and contracts could change over time depending on the scarcity of water.

In January 2021, the U. S. Environmental Protection Agency (the "EPA") announced that it is undertaking a plan to review and update effluent standards for many industries. EPA is prioritizing those sectors that are ranked high in point source categories for total nitrogen discharges, including fertilizer manufacturers. The EPA's review eventually could result in different regulations governing the Partnership.

Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA") and the Emergency Planning and Community Right-to-Know Act ("EPCRA")

The release of hazardous substances or extremely hazardous substances into the environment is subject to release reporting requirements under federal and state environmental laws. Our Facilities also periodically experience releases of hazardous and extremely hazardous substances from their equipment. From time to time, the EPA has conducted inspections and issued information requests to us with respect to our compliance with reporting requirements under the CERCLA and the EPCRA. If we fail to timely or properly report a release, or if a release violates the law or our permits, we could become the subject of a governmental enforcement action or third-party claims. Government enforcement or third-party claims relating to releases of hazardous or extremely hazardous substances could result in significant expenditures and liability.

December 31, 2022 | 12

Environmental Remediation

As is the case with all companies engaged in similar industries, we face potential exposure from claims and lawsuits involving environmental matters, including soil and water contamination and personal injury or property damage allegedly caused by hazardous substances that we manufactured, handled, used, stored, transported, spilled, disposed of, or released. The Coffeyville Facility has entered into an agreement with the Kansas Department of Health and Environment ("KDHE") to address certain historical releases of UAN located on our property and comingled with legacy groundwater contamination from the adjacent Coffeyville Resources Refining & Marketing, LLC ("CRRM") refinery operated by a subsidiary of CVR Energy (the "Coffeyville Refinery") refinery. The cleanup provisions of our agreement with KDHE are held in abeyance so long as CRRM the Coffeyville Refinery conducts corrective action for these comingled historical releases in accordance with its Resource Conservation and Recovery Act ("RCRA") Permit. There is no assurance that CRRM the Coffeyville Refinery will comply with its Permit conditions in the future, which may trigger enforcement of the cleanup provisions of our agreement with KDHE. There is no assurance that we will not become involved in future proceedings related to the release of hazardous or extremely hazardous substances for which we have potential liability or that, if we were held responsible for damages in any existing or future proceedings, such costs would be covered by insurance or would not be material.

December 31, 2023 | 12

Environmental Insurance

We are covered by CVR Energy's site pollution legal liability insurance policies, which include business interruption coverage, coverage, subject to applicable retentions and exclusions. The policies insure any location owned, leased, rented, or operated by the Partnership, including our Facilities. The policies insure certain pollution conditions at, or migrating from, a covered location, certain waste transportation and disposal activities, and business interruption.

In addition to the site pollution legal liability insurance policy, policies, we maintain umbrella and excess casualty insurance policies which include sudden and accidental pollution coverage policies maintained by CVR Energy, Energy, subject to applicable retentions and exclusions. This insurance generally provides coverage due to named perils for claims involving pollutants where the discharge is sudden and accidental and first commences at a specific day and time during the policy period.

The site pollution legal liability policy and the pollution coverage provided in the casualty insurance policies are subject to retentions and deductibles and contain discovery requirements, reporting requirements, exclusions, definitions, conditions, and limitations that could apply to a particular pollution claim, and there can be no assurance such claim will be adequately insured for all potential damages.

Health, Safety, and Security Matters

We are subject to a number of federal and state laws and regulations related to safety, including the Occupational Safety and Health Act, which created the Occupational Safety and Health Administration ("OSHA"), and comparable state statutes, the purposes of which are to protect the health and safety of workers. We are also subject to OSHA Process Safety Management regulations, which are designed to prevent or minimize the consequences of catastrophic releases of toxic, reactive, flammable, or explosive chemicals. We are committed to safe, reliable operations of our facilities to protect the health and safety of our employees, our contractors, and the communities in which we operate. Our health and safety management system provides a comprehensive approach to injury, illness and incident prevention, risk assessment and mitigation, and emergency management. Despite our efforts to achieve excellence in our health and safety performance, there can be no assurances that there will not be accidents resulting in losses, injuries, or even fatalities, fatalities that could materially adversely impact our business. We periodically audit our programs and seek to continually improve our management systems.

Our Facilities are were subject to the Chemical Facility Anti-Terrorism Standards ("CFATS"), a regulatory program designed to ensure facilities have security measures in place to reduce the risk that certain hazardous chemicals are weaponized by terrorists. In June 2023, authorization for CFATS was allowed to expire, but it's possible that Congress will reauthorize CFATS. Despite the expiration for CFATS, our Facilities continue to comply with its requirements. In addition, the East Dubuque Facility is regulated under the Maritime Transportation Security Act (the "MTSA"). Act. We implement and maintain comprehensive security programs designed to comply with regulatory requirements and protect our assets and employees.

We periodically assess risk and conduct audits of our programs and seek to continually improve our health, safety, and security management systems.

December 31, 2022 | 13

Human Capital

Core Values

AtOur employees are the most important part of our business and help us work to achieve our Mission to be a top-tier North American nitrogen-based fertilizer company as measured by safe and reliable operations, superior financial performance and profitable growth. CVR Partners, Partners' culture is defined by our core Values define the way we do business every day. We put Values: Safety, first, care for our Environment, and require high business ethics and Integrity, consistent with our Code of Ethics Corporate Citizenship and Business Conduct. We are proud members of and good neighbors to the communities where we operate and are committed to Corporate Citizenship. We believe in Continuous Improvement for individuals to achieve their maximum potential through teamwork, diversity. The efforts of our employees in support of this Mission are guided each and personal development. Our employees provide the energy behind our every day by these core Values as we strive to achieve excellence for all of our key stakeholders – employees, communities and unitholders, stockholders. See "Management's Discussion and Analysis" in Part II, Item 7 of this Report for further discussion on our Mission and core Values.

Workforce & Benefits Profile

As of December 31, 2022 December 31, 2023, we CVR Partners and its subsidiaries had 300 310 employees, across both Facilities and related marketing and logistics operations, all of which are located in the United States. Of these, 87 95 employees are covered by a collective bargaining agreements agreement.

December 31, 2023 | 13

Safety & Health

We are committed to providing a safe and healthy workplace and striving to protect our employees, contractors and communities. We accomplish this through compliance with various labor unions, applicable workplace safety and environmental laws and regulations, seeking employee input, learning from any events, and maintaining comprehensive audit and training programs and emergency response and disaster recovery plans. To assess our safety performance, we monitor workplace injuries, process safety incidents, and environmental events, and perform compliance audits and risk assessments. We may engage independent contractors from time to time believe these efforts reinforce our safety culture; promote a safe workplace, accountability, and stronger community relations; help guard against complacency; and ultimately, enhance our safety performance and help us manage risk and reduce impact to time based on business needs. We also rely on personal health and safety and the services of employees of CVR Energy and its subsidiaries pursuant to a services agreement between us, our general partner, and CVR Energy and certain of its subsidiaries, environment.

Compensation & Benefits

We believe that our future success largely depends upon our continued ability to attract and retain highly skilled employees. We are committed to providing wages and benefits that are competitive with a market-based, pay-for-performance compensation philosophy. Our performance bonus program is an important component of our compensation program, rewarding high-performing employees for CVR Partners' performance against pre-defined safety and health, operational reliability, and financial measures. Senior employees may also receive long-term incentive awards that currently vest ratably over a three-year period, subject to the terms and conditions of the applicable award agreement, aligning employee compensation with the interests of our shareholders and promoting employee retention. We provide paid time off and paid holidays, a 401(k) Company match program, life insurance, health savings and dependent care flexible spending accounts, and an employee assistance program. In furtherance of our core Value of continuous improvement, Continuous Improvement, we also offer programs for tuition reimbursement and dependent scholarships. We also offer a remote work policy for eligible employees to provide our eligible employees with the flexibility that is key to a work-life balance. We encourage all employees to live our core Value of corporate citizenship by making a positive impact in our communities by taking advantage of our volunteerism policy pursuant to which eligible employees are provided paid time off from work to volunteer at 501(c)(3) non-profit entities.

Talent Management

We believe our competitive compensation and benefit plans allow us to attract and retain talented employees. Our recruiting strategy focuses on ensuring our hiring practices are free from bias for or against any individual or group of candidates. We continue to build upon our inclusive culture by expanding our recruitment efforts to include veteran recruitment and apprenticeship programs, recruiting interns at diverse colleges, and promoting diverse representation within our workforce. In support of the personal development of our employees and our goal of employing and retaining effective and dynamic leaders, we provide in-person supervisor training to managers at all levels, which focuses on a combination of business and leadership strategies, including coaching and performance management, goal setting, critical thinking, effective communication and listening, development and succession planning, delegation techniques, and legal aspects of leadership, among other topics.

Diversity & Inclusion

We are an equal opportunity employer and strive to maintain a diverse and inclusive work environment free from harassment and discrimination regardless of race, religion, color, age, gender, disability, minority, sexual orientation or any other protected class. Our commitment to recruiting efforts that include focus on veteran and diverse college populations, support our diverse and inclusive environment, as do the activities of our Diversity & Inclusion Committee. We provide diversity and inclusion helps us attract and retain the best talent, enables employees to realize their full potential, and drives high performance through innovation and collaboration. We offer diversity training that focuses on unconscious bias where employees learn to recognize and address the effects thereof by encouraging diversity of experience and opinion. Also, Our Code of Ethics and Business Conduct and our Diversity & Inclusion Committee fosters innovative actions anti-discrimination and promotes inclusiveness throughout our organization; harassment policies also help us maintain a work environment where individuals are treated with respect and dignity, and where diversity of thought and perspective is valued.

Health & Safety

We have an unwavering commitment to providing as safe and healthy of a workplace as possible for all employees. We accomplish this through strict compliance with applicable laws and regulations regarding workplace safety, engaging employee input, and maintaining robust training and emergency response and disaster recovery plans. We monitor and assess our safety performance by measuring and evaluating injuries, process safety incidents, environmental events, and other events, as well as by performing compliance audits and risk assessments. We believe these efforts reinforce our safety culture; promote a safe workplace, accountability, and stronger community relations; and reduce impact to personal safety, process safety, and the environment.

Available Information

Our website address is www.CVRPartners.com. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, are available free of charge through our website under "Investor Relations," "Relations", as soon as reasonably practicable after the electronic filing or furnishing of these reports is made with the Securities and Exchange

Conduct, and the charters of the Audit Committee, the Compensation Committee, and the Environmental, Health and Safety Committee of the Board of Directors of our general partner are available on our website. These guidelines, policies, and charters are also available in print without charge to any unitholder requesting them. Information on our website is not a part of, and is not incorporated into, this Report or any other report we may file with or furnish to the SEC, whether before or after the date of this Report and irrespective of any general incorporation language therein.

Item 1A. Risk Factors

The following risks should be considered together with the other information contained in this Report and all of the information set forth in our filings with the SEC. If any of the following risks or uncertainties develops into actual events, our business, financial condition or results of operations could be materially adversely affected. References to "CVR Partners", the "Partnership", "we", "us", and "our" may refer to consolidated subsidiaries of CVR Partners or one or both of the facilities, as the context may require.

Risks Related to Our Business

Our business is, and nitrogen fertilizer and feedstock prices are, cyclical and highly volatile, which could have a material adverse effect on our results of operations, financial condition and cash flows.

Demand for nitrogen fertilizer products is dependent on fluctuating demand for crop nutrients by the global agricultural industry. These fluctuations historically have had and could in the future have significant effects on prices across all nitrogen fertilizer products and, in turn, our results of operations, financial condition and cash flows. Nitrogen fertilizer products are commodities, the price of which can be highly volatile. The prices of nitrogen fertilizer products depend on a number of factors, including general economic conditions, cyclical trends in end-user markets, supply and demand imbalances, governmental policies, and weather conditions, which have a greater relevance because of the seasonal nature of fertilizer application. If seasonal demand exceeds the projections on which we base our production levels, customers may acquire nitrogen fertilizer products from competitors, and our profitability may be negatively impacted. If seasonal demand is less than expected, we may be left with excess inventory that will have to be stored or liquidated. The international market for nitrogen fertilizers is influenced by such factors as the relative value of the U.S. dollar and its impact upon the cost of importing nitrogen fertilizers, foreign agricultural policies, the existence of, or changes in, import or foreign currency exchange barriers in certain foreign markets, changes in the hard currency demands of certain countries and other regulatory policies of foreign governments, as well as the laws and policies of the U.S. affecting foreign trade and investment. Supply is affected by available capacity and operating rates, raw material costs, government policies and global trade. A decrease in nitrogen fertilizer prices would have a material adverse effect on our business, cash flow and ability to make distributions.

Nitrogen fertilizer products and our business face intense competition.

Our business is subject to intense price competition from both U.S. and foreign sources. With little or no product differentiation, customers make their purchasing decisions principally on the basis of delivered price and availability of the product. Increased global supply or decreases in transportation costs for foreign sources of fertilizer may put downward pressure on fertilizer prices. We compete with a number of U.S. producers and producers in other countries, including state-owned and government-subsidized entities that may have greater total resources and are less dependent on earnings from fertilizer sales, which make them less vulnerable to industry downturns and better positioned to pursue new expansion and development opportunities. In addition, imports of fertilizer from other countries may be unfairly subsidized, as **was found to be the case on November 30, 2021** determined by the U.S. Department of Commerce **(the "USDOC")** on June 24, 2022 with respect to UAN imports from Russia and **Trinidad, Trinidad and Tobago**. On July 18, 2022, the U.S. International Trade Commission ultimately voted against imposing import tariffs on UAN from Russia and Trinidad and Tobago and, accordingly, the U.S. Department of Commerce will not issue countervailing duty orders and anti-dumping duty orders on UAN imports from the same countries. An inability to compete successfully could result in a loss of customers, which could adversely affect our sales, profitability, and cash flows and, therefore, have a material adverse effect on our results of operations and financial condition.

The dynamic pricing environment for nitrogen fertilizer products, as well as any changes to government policy regarding fertilizer pricing in response thereto, could negatively affect our results of operations.

In light of the recent strong pricing environment, farmers may shift preference to other types of fertilizer products or shift crop rotation to minimize purchases of nitrogen fertilizer, both of which would negatively affect our sales volumes and revenue. Recent calls for governmental action related to fertilizer pricing conditions, including related to an investigation of market manipulation and proposals to limit price increases or place a maximum price ceiling or cap on fertilizer product pricing, would add complexity to the already dynamic global market for nitrogen fertilizer, and if such initiatives were adopted, our product sales, business and results of operations may be negatively impacted.

Our business is geographically concentrated and is therefore subject to regional economic downturns and seasonal variations for us or our customers, which may affect our production levels, transportation costs and inventory and working capital levels.

Our sales to agricultural customers are concentrated in the Great Plains and Midwest states, and nitrogen fertilizer demand is seasonal. Our quarterly results may vary significantly from one year to the next due to weather-related shifts in planting schedules and purchase patterns. Because we build inventory during low demand periods, the accumulation of inventory to be available for seasonal sales creates significant seasonal working capital and storage capacity requirements. The degree of seasonality can change significantly from year-to-year due to conditions in the agricultural industry and other factors. As a consequence of this seasonality, distributions of available cash, if any, may be volatile and may vary quarterly and annually.

Our sales volumes depend on significant customers, and the loss of several significant customers may have a material adverse impact on our results of operations, financial condition and cash flows.

We have a significant concentration of customers. Our two largest customers represented approximately 30% 25% of net sales for the year ended December 31, 2022 December 31, 2023. Given the nature of our business, and consistent with industry practice, we do not have long-term minimum purchase contracts with our customers. The loss of several of these significant customers, or a significant reduction in purchase volume by several of them, could have a material adverse effect on our results of operations, financial condition and cash flows.

Any decline in U.S. agricultural production or limitations on the use of nitrogen fertilizer for agricultural purposes could have a material adverse effect on the sales of nitrogen fertilizer, and on our results of operations, financial condition and cash flows.

Conditions in the U.S. agricultural industry significantly impact our operating results. The U.S. agricultural industry can be affected by a number of factors, including weather patterns and field conditions, current and projected grain inventories and prices, domestic and international population changes, demand for U.S. agricultural products, U.S., state and foreign policies regarding trade in agricultural products, and changes in governmental regulations and incentives for corn-based ethanol production that could affect future ethanol demand and production.

State and federal governmental policies, including farm and biofuel subsidies and commodity support programs, as well as the prices of fertilizer products, may also directly or indirectly influence the number of acres planted, the mix of crops planted and the use of fertilizers for particular agricultural applications. Developments in crop technology could also reduce the use of chemical fertilizers and adversely affect the demand for nitrogen fertilizer. Unfavorable state and federal governmental policies could negatively affect nitrogen fertilizer prices and therefore have a material adverse effect on our results of operations, financial condition and cash flows.

Compliance with and changes in environmental laws and regulations, including those related to climate change, could result in increased operating costs and capital expenditures and adversely affect our performance.

Our operations are subject to extensive federal, state and local environmental laws and regulations relating to the protection of the environment, including those governing the emission or discharge of pollutants into the environment, product use and specifications and the generation, treatment, storage, transportation, disposal and remediation of solid and hazardous wastes. Violations of applicable environmental laws and regulations, or of the conditions of permits issued thereunder, can result in substantial penalties, injunctive orders compelling installation of additional controls, civil and criminal sanctions, operating restrictions, injunctive relief, permit revocations and/or facility shutdowns, which may have a material adverse effect on our ability to operate our facilities and accordingly our financial performance.

In addition, new environmental laws and regulations, new interpretations of existing laws and regulations, or increased governmental enforcement of laws and regulations could require us to make additional unforeseen expenditures. It is unclear the impact the Biden Administration will have on the laws and regulations applicable to us, however, measures to address climate change and reduce GHG emissions (including carbon dioxide, methane and nitrous oxides) are in various phases of discussion or implementation and could affect our operations by requiring increased operating and capital costs and/or increasing taxes on GHG emissions. On January 26, 2024, EPA issued a proposed rule to implement the methane emissions reduction program. Public comments on the proposal are due March 11, 2024. If we are unable to maintain sales of our products

at a price that reflects such increased costs or have to increase the prices of our products because of such increased costs, there could be a material adverse effect on our business, financial condition, results of operations and cash flows.

End user demand for our products may also be adversely impacted by climate change legislation and other changes to or new interpretations of environmental laws, due to increased costs or application restrictions. Decreased demand for our products may have a material adverse effect on our results of operations, financial condition and cash flows.

Public health crises such as the COVID-19 pandemic have had, and may continue to have, adverse impacts on our business, financial condition, results of operations and liquidity.

The economic effects from public health crises such as the COVID-19 pandemic on our business were and may again be significant. Although our business has recovered since the onset of the pandemic in March 2020, there continues to be uncertainty and unpredictability about the lingering impacts to the worldwide economy that could negatively affect our business, financial condition, results of operations, and liquidity in future periods. The extent to which the pandemic and its ongoing effects may adversely impact our future business, financial, and operating results, and for what duration and magnitude, depends on factors that are continuing to evolve, are difficult to predict and, in many instances, are beyond our control. The ultimate outcome of these and other factors may result in many adverse consequences including, but not limited to, reduced availability of critical staff, disruption or delays to supply chains for critical equipment or feedstock, inflation, increased interest rates, reduced economic activity that negatively impacts demand for our products, and increased administrative, compliance, and operational costs. In addition, future public health crises could also result in significant economic disruption and other effects that adversely impact our business, financial condition, results of operations and liquidity in future periods in ways similar to the COVID-19 pandemic and its effects. The adverse impacts of the COVID-19 pandemic had, and may continue to have, the effect of precipitating or heightening many of the other risks described in this section.

December 31, 2022 | 17

Any previous or future pandemic, and actions taken in response thereto, could materially adversely affect our business, operations, financial condition, liquidity, and results of operations.

The COVID-19 pandemic and actions of governments and others in response thereto continues to negatively impact worldwide economic and commercial activity and financial markets. The COVID-19 pandemic has also resulted in significant business and operational disruptions, including closures, supply chain disruptions, travel restrictions, stay-at-home orders, and limitations on the availability and effectiveness of the workforce. Further, if general economic conditions continue to remain uncertain for an extended period of time, our liquidity and ability to repay our outstanding debt may be harmed. The full impact of the COVID-19 pandemic is unknown and is continuously evolving. The extent to which the COVID-19 pandemic negatively impacts our business and operations, including the availability and pricing of feedstocks, will depend on the severity, location, and duration of the effects and spread of COVID-19 and variants thereof, the actions undertaken by national, regional, and local governments and health officials to contain such virus or remedy its effects, and if, how quickly and to what extent economic conditions recover and normal business and operating conditions resume.

We are subject to cybersecurity risks and other may experience cyber incidents resulting in disruption or harm to our business.

We depend on internal, related-party, and third-party information technology systems to manage and support our operations, and we collect, process, and retain sensitive and confidential customer information in the normal course of business. To protect our facilities and systems against and mitigate cyber risk, we have implemented several programs, including externally performed cyber risk monitoring, audits and penetration testing and an information security training program, and we are actively engaged in evaluating completed the implementation of applicable Cybersecurity and Infrastructure Security Agency security standard guidelines, guidelines in 2023. On an as needed basis, but no less than quarterly, we brief the Audit Committee of the Board board of directors of the Partnership's general partner "(Board)" on information security matters. Despite these measures (or those we may implement in the future), our facilities and these systems could be vulnerable to security breaches, computer viruses, lost or misplaced data, programming errors, human errors, acts of vandalism, or other events. Moreover, cyberattacks are expected to accelerate on a global basis in both frequency and magnitude as threat actors are becoming increasingly sophisticated in using techniques and tools (including artificial intelligence) that circumvent controls, evade detection and even remove forensic evidence of the infiltration. A breach could also originate from or compromise our customers', vendors', suppliers', or other third-party networks outside of our control that could impact our business and operations, operations, and there can be no assurance that the systems of third parties have been designed to prevent or limit the effects of cyber incidents or attacks, will be sufficient to prevent or detect material consequences arising from such incidents or attacks, or to avoid a material adverse impact. Although we implement controls on third-party connectivity to our systems, we have limited control in ensuring their systems consistently enforce strong cybersecurity controls. Any disruption of these systems or security breach or event resulting in the misappropriation, loss or other unauthorized disclosure of confidential information, whether by us directly or our third-party service providers, could damage our reputation, expose us to the risks of litigation and liability, disrupt our business, or otherwise affect our results of operations.

Our business is subject to complex and evolving laws, regulations and security standards regarding privacy, cybersecurity and data protection ("data protection laws"). Many of these data protection laws are subject to change and uncertain interpretation, and could result in claims, increased costs of operations, or other harm to our business.

The constantly evolving regulatory and legislative environment surrounding data privacy and protection poses increasingly complex compliance challenges, and complying with such data protection laws could increase the costs and complexity of compliance. While we do not collect significant amounts of personal information from consumers, we do have personal information from our employees, job applicants and some third parties, such as contractors and distributors. Any failure, whether real or perceived, by us to comply with applicable data protection laws could result in proceedings or actions against us by governmental entities or others, subject us to significant fines, penalties, judgments, and negative publicity, require us to

December 31, 2023 | 18

change our business practices, increase the costs and complexity of compliance, and adversely affect our business. Our compliance with emerging privacy/security laws, as well as any associated inquiries or investigations or any other government actions related to these laws, may increase our operating costs.

An increase in inflation could have adverse effects on our results of operations.

Inflation in the United States increased beginning in the second half of 2021 and has continued into the beginning of 2023, due to a substantial increase in money supply, a stimulative fiscal policy, a significant rebound in consumer demand as COVID-19 restrictions were relaxed, the Russia-Ukraine conflict, war and worldwide supply chain disruptions resulting from the economic contraction caused by COVID-19 and lockdowns followed by a rapid recovery. Inflation According to the Consumer Price Index, inflation rose from 5.4% in June 2021 to 7.0% in December 2021 to 8.2% in September 2022. As of December 31, 2022, December 2022 and December 2023, inflation was at 6.5% and 3.4%, respectively. An increase in inflation rates could negatively affect our profitability and cash flows, due to higher wages, higher operating costs, higher financing costs and/or higher supplier prices. We may be unable to pass along such higher costs to our customers. In addition, inflation may adversely affect our customers' financing costs, cash flows and profitability, which could adversely impact their operations and our ability to offer credit and collect receivables.

Risks Related to Our Plant Operations

Failure by CVR Energy's Coffeyville refinery or other third parties to continue to supply us with pet coke could negatively impact our results of operations.

Unlike our competitors, whose primary costs are related to the purchase of natural gas and whose costs are therefore largely variable, our Coffeyville Facility uses a pet coke gasification process to produce nitrogen fertilizer. Our profitability is directly affected by the price and availability of pet coke obtained from CVR Energy's Coffeyville refinery pursuant to a long-term agreement. Our Coffeyville Facility has historically obtained a majority of its pet coke from CVR Energy's Coffeyville refinery over the past five years, although this percentage has decreased to 47% 43% in 2022, 2023. However, should CVR Energy's Coffeyville refinery fail to perform in accordance with the existing agreement or to the extent pet coke from CVR Energy's Coffeyville refinery is insufficient, we would need to purchase pet coke from third parties on the open market, which could negatively

December 31, 2022 | 18

impact our results of operations to the extent third-party pet coke is unavailable or available only at higher prices. Currently, we purchase 100% of the pet coke CVR Energy's Coffeyville refinery produces. However, we are still required to procure additional pet coke from third parties to maintain our production rates. We are currently party to pet coke supply agreements with multiple third-party refineries to provide a significant amount of pet coke at fixed prices. The terms of these agreements currently end in December 2023.

The market for natural gas has been volatile, and fluctuations in natural gas prices could affect our competitive position.

Low natural gas prices benefit our competitors that rely on natural gas as their primary feedstock and disproportionately impact our operations at our Coffeyville Facility by making us less competitive with natural gas-based nitrogen fertilizer manufacturers. Low natural gas prices could result in nitrogen fertilizer pricing reductions and impair the ability of the Coffeyville Facility to compete with other nitrogen fertilizer producers who use natural gas as their primary feedstock, which, therefore, would have a material adverse impact on our results of operations, financial condition and ability to make cash distributions.

The East Dubuque Facility uses natural gas as its primary feedstock, and as such, the profitability of operating the East Dubuque Facility is significantly dependent on the cost of natural gas. An increase in natural gas prices could make it less competitive with producers who do not use natural gas as their primary feedstock. In addition, an increase in natural gas prices in the United States relative to prices of natural gas paid by foreign nitrogen fertilizer producers may negatively affect our competitive position in the corn belt, and such changes could have a material adverse effect on our results of operations, financial condition and cash flows.

We expect to purchase a portion of our natural gas for use in the East Dubuque Facility on the spot market. As a result, we remain susceptible to fluctuations in the price of natural gas in general and in local markets in particular. We may use fixed supply, fixed price forward purchase contracts to lock in pricing for a portion of its natural gas requirements, but we may not be able to enter into such agreements on acceptable terms or at all. Without forward purchase contracts for the supply of natural gas, we would need to purchase natural gas on the spot market, which would impair its ability to hedge exposure to risk from fluctuations in natural gas prices. If we enter into forward purchase contracts for natural gas, and natural gas prices decrease, then its cost of sales could be higher than it would have been in the absence of the forward purchase contracts. 2024.

Any interruption in the supply of natural gas to our East Dubuque Facility could have a material adverse effect on our results of operations and financial condition.

Our East Dubuque Facility depends on the availability of natural gas. We have two agreements for pipeline transportation of natural gas with expiration dates in 2023 and 2025. We typically purchase natural gas from third parties on a spot basis and, from time to time, may enter into fixed-price forward purchase contracts. Upon expiration of the agreements, we may be unable to extend the service under the terms of the existing agreements or renew the agreements on satisfactory terms, or at all, necessitating construction of a new connection that could be costly and disruptive. Any disruption in the supply of natural gas to our East Dubuque Facility could restrict our ability to continue to make products at the facility and have a material adverse effect on our results of operations and financial condition.

If licensed technology were no longer available or able to be licensed economically or at all, our business may be adversely affected.

We have licensed and may in the future license, a combination of patent, trade secret, and other intellectual property rights of third parties for use in our plant operations. If our use of technology on which our operations rely were to be terminated or face infringement claims, licenses to alternative technology may not be available, or may only be available on terms that are not commercially reasonable or acceptable, or in the case of infringement, may result in substantial costs, all of which could have a material adverse effect on our results of operations, financial condition and cash flows.

Compliance with and changes in environmental laws and regulations, including those related to climate change, could require us to make substantial capital expenditures and adversely affect our performance.

Our operations are subject to extensive federal, state and local environmental laws and regulations relating to the protection of the environment, including those governing the emission or discharge of pollutants into the environment, product use and specifications and the generation, treatment, storage, transportation, disposal and remediation of solid and hazardous wastes. Violations of applicable environmental laws and regulations, or of the conditions of permits issued thereunder, can result in

December 31, 2022 2023 | 19

In addition, we may identify in the future additional third-party intellectual property that we believe is necessary to our operations. The licensing or acquisition of third-party intellectual property rights is a competitive area, and several companies may pursue strategies to license or acquire third-party intellectual property rights that we may consider attractive or necessary, with the result that such intellectual property may not be available on economic terms or at all. In addition, companies that perceive us to be a competitor may be unwilling to assign or license rights to us. Even if such licenses are available, we may be required to pay the licensor substantial penalties, injunctive orders compelling installation royalties based on sales of additional controls, civil our products, and criminal sanctions, operating restrictions, injunctive relief, permit revocations and/or facility shutdowns, such licenses may be non-exclusive, which may could give our competitors access to the same intellectual property licensed to us. Any of the foregoing could have a material adverse effect on our ability to operate our facilities and accordingly our financial performance.

In addition, new environmental laws and regulations, new interpretations of existing laws and regulations, or increased governmental enforcement of laws and regulations could require us to make additional unforeseen expenditures. It is unclear the impact of the new federal administration will have on the laws and regulations applicable to us, however, measures to address climate change and reduce GHG emissions (including carbon dioxide, methane and nitrous oxides) are in various phases of discussion or implementation and could affect our operations by requiring increased operating and capital costs and/or increasing taxes on GHG emissions. If we are unable to maintain sales of our products at a price that reflects such increased costs or have to increase the prices of our products because of such increased costs, there could be a material adverse effect on our business, financial condition, results of operations and cash flows.

End user demand for our products may also be adversely impacted by climate change legislation and other changes to or new interpretations of environmental laws, due to increased costs or application restrictions. From time to time, various state legislatures have proposed bans or other limitations on fertilizer products. Decreased demand for our products may have a material adverse effect on our competitive position, results of operations, financial condition and cash flows.

Our operations are dependent on third-party suppliers, which could have a material adverse effect on our results of operations, financial condition and cash flows.

Operations of our Coffeyville Facility depend in large part on the performance of third-party suppliers, including the adjacent third-party air separation plant under a contract through 2035 2039 and a third-party electric service provider under a contract through June 30, 2029. Our East Dubuque Facility operations also depend in large part on the performance of third-party suppliers, including for the purchase of electricity, which we purchase under a utility service agreement that terminates on June 1, 2025 and will continue thereafter unless either party provides 30 days advance written notice of termination. Should these, or any of our other third-party suppliers fail to perform in accordance with existing contractual arrangements, or should we otherwise lose the service of any third-party suppliers, our operations (or a portion thereof) could be forced to shutdown or suspend operations. Alternative sources of supply could be difficult to obtain. Any shutdown of our operations (or a portion thereof), even for a limited period, could have a material adverse effect on our results of operations, financial condition and ability to make cash distributions.

We rely on third-party providers of transportation services and equipment, which subjects us to risks and uncertainties beyond our control and that may have a material adverse effect on our results of operations, financial condition and ability to make distributions.

Our business also relies on third-party railroad, trucking, and barge companies to ship finished products to customers. These transportation services are subject to various hazards, including extreme weather conditions, work stoppages, delays, spills, derailments and other accidents, and other operating hazards. Further, the limited number of towing companies and barges available for ammonia transport may also impact the availability of transportation for our products. These transportation operations, equipment and services are also subject to environmental, safety and other regulatory oversight. Due to concerns related to terrorism or accidents, local, state and federal governments could implement new regulations affecting the transportation of our finished products. In addition, new regulations could be implemented affecting the equipment used to ship our finished products. Any delay in our ability to ship our finished products as a result of these transportation companies' failure to operate properly, the implementation of new and more stringent regulatory requirements affecting transportation operations or equipment, or significant increases in the cost of these services or equipment could have a material adverse effect on our results of operations, financial condition and ability to make cash distributions.

Any liability for accidents involving ammonia or other products we produce or transport that cause severe damage to property or injury to the environment and human health could have a material adverse effect on our results of operations, financial condition and ability to make cash distributions.

Our business manufactures, processes, stores, handles, distributes and transports ammonia, which can be very volatile and extremely hazardous. Major accidents or releases involving ammonia could cause severe damage or injury to property, the environment and human health, as well as a possible disruption of supplies and markets. Such an event could result in civil lawsuits, fines, penalties and regulatory enforcement proceedings, all of which could lead to significant liabilities. Any damage

December 31, 2022 | 20

or injury to persons, equipment, or property or other disruption of our ability to produce or distribute products could result in a significant decrease in operating revenues and significant additional costs to replace or repair and insure our assets, which could have a material adverse effect on our results of operations, financial condition and ability to make cash distributions. Our facilities periodically experience minor releases of ammonia related to leaks from our facilities' equipment. Similar events may occur in the future.

In addition, we may incur significant losses or increased costs relating to the operation of railcars used for the purpose of carrying various products, including ammonia. Due to the dangerous and potentially hazardous nature of the cargo we carry, in particular ammonia, a railcar accident may result in fires, explosions, and releases of material which could lead to sudden,

December 31, 2023 | 20

severe damage or injury to property, the environment, and human health. In the event of contamination, under environmental law, we may be held responsible even if we are not at fault, and we complied with the laws and regulations in effect at the time of the accident. Litigation arising from accidents involving ammonia and other products we produce or transport may result in us being named as a defendant in lawsuits asserting claims for substantial damages, which could have a material adverse effect on our results of operations, financial condition and ability to make cash distributions.

We could incur significant costs in cleaning up contamination.

We handle hazardous substances which may result in spills, discharges or other releases of hazardous substances into the environment. Past or future spills related to or migrating from any of our current or former operations and solid or hazardous waste disposal, may give rise to liability (including for personal injury, property damage, penalties, strict liability, and potential cleanup responsibility) to governmental entities or private parties under federal, state or local environmental laws, as well as under common law. For example, we could be held strictly liable under CERCLA, and similar state statutes, for past or future spills without regard to fault or whether our actions were in compliance with the law at the time of the spills, including in connection with contamination associated with our current and former facilities, and facilities to which we transported or arranged for the transportation of wastes or byproducts containing hazardous substances for treatment, storage, or disposal. Such liability could have a material adverse effect on our results of operations, financial condition and cash flows and may not be covered by insurance.

The Coffeyville Facility has entered into an agreement with the Kansas Department of Health and Environment ("KDHE") to address certain historical releases of UAN located on our property and comingled with legacy groundwater contamination from CVR Energy's adjacent Coffeyville refinery. The cleanup provisions of our agreement with KDHE are held in abeyance so long as the Coffeyville refinery conducts corrective action for these comingled historical releases in accordance with its RCRA Permit. There is no assurance that the Coffeyville refinery will comply with its Permit conditions in the future, which may trigger enforcement of the cleanup provisions of our agreement with KDHE.

We may be unable to obtain or renew permits or approvals necessary for our operations, which could inhibit our ability to do business.

Our business holds numerous environmental and other governmental permits and approvals authorizing operations at our facilities and future expansion of our operations is predicated upon the ability to secure approvals therefore. A decision by a government agency to deny or delay issuing a new or renewed material permit or approval, or to revoke or substantially modify an existing permit or approval, could have a material adverse effect on our ability to continue operations and on our financial condition, results of operations and cash flows.

Regulations concerning Acts of terror or sabotage, threats of war, armed conflict, or war may have an adverse impact on our business, our future results of operations and our overall financial performance.

Acts of sabotage or terrorist attacks (including cyberattacks), threats of war, armed conflict, or war, as well as events occurring in response to or in connection with such events may harm our business or have an adverse impact on our future results of operations and financial condition. For example, the transportation, storage conflict between Israel and handling of hazardous chemicals, materials or substances, risks of terrorism, Hamas, which began in October 2023, and the security of chemical manufacturing facilities could result in higher operating and/or capital costs. ongoing Russia-Ukraine war, pose significant geopolitical risks to global fertilizer and agriculture markets.

Critical infrastructure such as chemical manufacturing facilities may be at greater risk of terrorist attacks than other businesses in the United States. As a result, the chemical industry is subject to security regulations relating to physical and cyber security. The costs of compliance therewith may have a material adverse effect on our financial condition.

Further, uncertainty surrounding new or continued global hostilities or other sustained military campaigns, sanctions brought by the U.S. and other countries, and the possibility that infrastructure facilities could be direct targets of, or indirect casualties of, an act of terror, armed conflict or war may affect our operations in unpredictable ways, including disruptions of chemical supplies and markets for fertilizer products. The long-term impacts of terrorist attacks and the threat of future terrorist attacks on the chemical industry in general, and on us in particular, are unknown. Increased security measures taken by us as a precaution against possible terrorist attacks or vandalism could result in increased costs to our business. In addition, disruption or significant increases in chemical prices could result in government-imposed price controls.

Further, changes in the insurance markets attributable to terrorist attacks, acts of sabotage or cyberattacks could make certain types of insurance more difficult for us to obtain. Moreover, the insurance that may be available to us may be

December 31, 2023 | 21

significantly more expensive than our existing insurance coverage. Instability in the financial markets as a result of war, terrorism, sabotage or cyberattack could also affect our ability to raise capital, including our ability to repay or refinance debt.

Adverse weather conditions or other unforeseen developments could damage our facilities or logistics assets and impair our ability to produce and deliver our nitrogen fertilizer products.

The regions in which our facilities are located and in which our customers operate are susceptible to severe storms, including hurricanes, thunderstorms, tornadoes, floods, extended periods of rain, ice storms and snow, some of which we or our

December 31, 2022 | 21

customers have experienced in recent years. Such inclement weather conditions or other unforeseen developments could damage our facilities or logistics assets. If such weather conditions prevail near our facilities or logistics assets, they could interrupt or undermine our ability to produce and transport products or to manage our business.

If events such as storms, including hurricanes, thunderstorms, tornadoes, floods, extended periods of rain, ice storms and snow become more frequent, they could have an adverse effect on our operations, as well as the operations of our suppliers and customers. Regional occurrences, such as energy shortages or increases in commodity prices, geological hazards and natural disasters, could also have a material adverse effect on our business, financial condition and results of operations. The physical effects of adverse weather conditions have the potential to directly affect our operations and result in increased costs related to our operations. Since climate change may change weather patterns and the severity of weather events, any such changes could consequently materially adversely affect our revenues and cash flows and the demand for our products by our customers. However, because the nature and timing of changes in extreme weather events (such as increased frequency, duration, and severity) are uncertain, it is not possible for us to estimate reliably the future financial risk to our operations caused by these potential physical risks.

Our facilities face significant risks due to physical damage hazards, environmental liability risk exposure, and unplanned or emergency partial or total plant shutdowns which could cause property damage and a material decline in production which are not fully insured.

If any of our plants, logistics assets, or key suppliers sustain a catastrophic loss and operations are shutdown or significantly impaired, it would have a material adverse impact on our operations, financial condition and cash flows. Operations at our plant could be curtailed, limited or completely shut down for an extended period of time as the result of one or more unforeseen events and circumstances, which may not be within our control, including: major unplanned maintenance requirements; catastrophic events caused by mechanical breakdown, electrical injury, pressure vessel rupture, explosion, contamination, fire, or natural disasters, including floods, windstorms, and other similar events; labor supply shortages or labor difficulties that result in a work stoppage or slowdown; cessation or suspension of a plant or specific operations dictated by environmental authorities; acts of terrorism, cyberattacks or other deliberate malicious acts; and an event or incident involving a large clean-up, decontamination, or the imposition of laws and ordinances regulating the cost and schedule of demolition or reconstruction, which can cause significant delays in restoring property to its pre-event condition.

We are insured under casualty, environmental, property and business interruption insurance policies. The property and business interruption policies insure our real and personal property. These policies are subject to limits, sub-limits, retention (financial and time-based), and deductibles. The application of these and other policy conditions could materially impact insurance recoveries and potentially cause us to assume losses which could impair earnings. There is potential for a common occurrence to impact both our Coffeyville Facility and CVR Energy's Coffeyville refinery in which case the insurance limits and applicable sub-limits would apply to all damages combined.

There is finite capacity in the commercial insurance industry engaged in underwriting chemical industry risk, and factors impacting cost and availability include: (i) losses in our industries, (ii) natural disasters, (iii) specific losses incurred by us, and (iv) inadequate investment returns earned by the insurance industry. In the future, certain insurance could become unavailable or available only for reduced amounts of coverage or at exorbitant costs. If the supply of commercial insurance is curtailed, we may not be able to continue our present limits of insurance coverage or obtain sufficient insurance capacity to adequately insure our risks. risks or we may determine that premium costs, in our judgement, do not justify such expenditures and instead increase our self-insurance.

We are subject to strict laws and regulations regarding employee and process safety, and failure to comply with these laws and regulations could have a material adverse effect on our results of operations, financial condition and profitability.

December 31, 2023 | 22

We are subject to the requirements of OSHA and comparable state statutes that regulate the protection of the health and safety of workers, the proper design, operation, and maintenance of our equipment, and require us to provide information about hazardous materials used in our operations. Failure to comply with these requirements may result in significant fines or compliance costs, which could have a material adverse effect on our results of operations, financial condition and cash flows.

Our business may suffer due to the departure of any of our key senior executives or other key employees. Furthermore, a shortage of skilled labor may make it difficult for us to maintain labor productivity.

Our future performance depends to a significant degree upon our management team and key technical personnel. The loss or unavailability to us of any member of our management team or a key technical employee could significantly harm us. We face competition for these professionals from our competitors, our customers and other companies operating in our industry. To the extent that the services of members of our management team and key technical personnel would be unavailable to us for any reason, we may be required to hire other personnel to manage and operate our business. We may not be able to locate or employ such qualified personnel on acceptable terms, or at all.

Furthermore, our operations require skilled and experienced laborers with proficiency in multiple tasks. A shortage of trained workers due to retirements or otherwise could have an adverse impact on productivity and costs and our ability to expand production in the event there is an increase in the demand for our products and services, which could adversely affect our operations.

A portion of our workforce is unionized, and we are subject to the risk of labor disputes, slowdowns or strikes, which may disrupt our business and increase our costs.

As of **December 31, 2022** December 31, 2023, approximately **29%** 31% of our employees were represented by labor unions under collective bargaining agreements. We may not be able to renegotiate our collective bargaining agreements when they expire on satisfactory terms or at all. A failure to do so may increase our costs. For example, a labor union representing approximately 90 employees at our East Dubuque Facility went on strike in October 2023, after its collective bargaining agreement expired. While our East Dubuque Facility has been operating during the strike, in the event that the strike continues for a long duration, our operations could be negatively affected. See Part II, Item 7, "Partnership Overview—Other Events" for more information. In addition, our existing labor agreements may not prevent a strike or work stoppage at any of our facilities in the future, and any work stoppage could negatively affect our results of operations, financial condition and cash flows.

December 31, 2022 | 22

In addition, there continues to be a tight labor market. Increases in remote work opportunities have also amplified the competition for employees and contractors. An inability to recruit, train, and retain adequate personnel, or the loss or departure of personnel with key skills or deep institutional knowledge for whom we are unable to find adequate replacements, may negatively impact our business. Inflation has also caused and may in the future cause increases in employee-related costs, both due to higher wages and other compensation.

Risks Related to Our Capital Structure

Instability and volatility in the capital, credit, and commodity markets in the global economy could negatively impact our business, financial condition, results of operations and cash flows.

Our business, financial condition, and results of operations could be negatively impacted by difficult conditions and volatility in the capital, credit, and commodities markets and in the global economy. For example: there can be no assurance that funds under our credit facilities will be available or sufficient, and in such a case, we may not be able to successfully obtain additional financing on favorable terms, or at all; market volatility could exert downward pressure on our common units, which may make it more difficult for us to raise additional capital and thereby limit our ability to grow, which could in turn cause our unit price to drop; or customers experiencing financial difficulties may fail to meet their financial obligations when due because of bankruptcy, lack of liquidity, operational failure or other reasons could result in decreased sales and earnings for us.

Our level of indebtedness may affect our ability to operate our business and may have a material adverse effect on our financial condition and results of operations.

We have incurred significant indebtedness, and we may be able to incur significant additional indebtedness in the future. If new indebtedness is added to our current indebtedness, the risks described below could increase. Our level of indebtedness

December 31, 2023 | 23

could have important consequences, such as: (i) limiting our ability to obtain additional financing to fund our working capital needs, capital expenditures, debt service requirements, acquisitions, or other purposes; (ii) requiring us to utilize a significant portion of our cash flows to service our indebtedness, thereby reducing available cash and our ability to make distributions on our common units; (iii) limiting our ability to use operating cash flow in other areas of the business because we must dedicate a substantial portion of additional funds to service debt; (iv) limiting our ability to compete with other companies who are not as highly leveraged, as we may be less capable of responding to adverse economic and industry conditions; (v) limiting our ability to make certain payments on debt that is subordinated or secured on a junior basis; (vi) restricting the way in which we conduct business because of financial and operating covenants, including regarding borrowing additional funds, disposing of assets, and the ability of subsidiaries to pay dividends or make other distributions; (vii) limiting our ability to enter into certain transactions with our affiliates; (viii) limiting our ability to designate our subsidiaries as unrestricted subsidiaries; (ix) exposing us to potential events of default (if not cured or waived) under financial and operating covenants contained in our or our respective subsidiaries' debt instruments; and (x) limiting our ability to react to changing market conditions.

Covenants in our debt agreements could limit our ability to incur additional indebtedness and engage in certain transactions, as well as limit operational flexibility, which could adversely affect our liquidity and ability to pursue our business strategies.

Our debt facilities and instruments contain, and any instruments governing future indebtedness would likely contain, a number of covenants that impose significant operating and financial restrictions on us and our subsidiaries and may limit our ability to engage in acts that may be in our long-term best interest, including restrictions on the ability, among other things, to: incur, assume, or guarantee additional indebtedness or issue redeemable or preferred stock; pay dividends or distributions in respect of equity securities or make other restricted payments; prepay, redeem, or repurchase certain debt; enter into agreements that restrict distributions from restricted subsidiaries; make certain payments on debt that is subordinated or secured on a junior basis; make certain investments; sell or otherwise dispose of assets, including capital stock of subsidiaries; create liens on certain assets; consolidate, merge, sell, or otherwise dispose of all or substantially all assets; enter into certain transactions with affiliates; and designate subsidiaries as unrestricted subsidiaries.

Any of these restrictions could limit our ability to plan for or react to market conditions and could otherwise restrict operating activities. Any failure to comply with these covenants could result in a default under existing debt facilities and instruments. Upon a default, unless waived, the lenders under such debt facilities and instruments would have all remedies available to a secured lender and could elect to terminate their commitments, cease making further loans, institute foreclosure proceedings against assets, and force bankruptcy or liquidation, subject to any applicable intercreditor agreements. In addition,

December 31, 2022 | 23

a default under existing debt facilities and instruments could trigger a cross default under other agreements and could trigger a cross default under the agreements governing future indebtedness. Our operating segments' results may not be sufficient to service existing indebtedness or to fund other expenditures, and we may not be able to obtain financing to meet these requirements.

We may not be able to generate sufficient cash to service all of our indebtedness and may be forced to take other actions to satisfy our debt obligations that may not be successful.

Our ability to satisfy debt obligations will depend upon, among other things, our future financial and operating performance, which will be affected by prevailing economic conditions and financial, business, regulatory, and other factors, many of which are beyond our control; future ability to borrow under our ABL Credit Facility, the availability of which depends on, among other things, complying with the covenants in the facility; and our future ability to obtain other financing. We cannot offer any assurance that our business will generate sufficient cash flow from operations or that we will be able to draw funds under our ABL Credit Facility or from other sources of financing, in an amount sufficient to fund our liquidity needs. If cash flows and capital resources are insufficient to service our indebtedness, we could face substantial liquidity problems and may be forced to reduce or delay capital expenditures, sell assets, seek additional capital, restructure or refinance indebtedness, or seek bankruptcy protection. These alternative measures may not be successful and may not permit us to meet scheduled debt service and other obligations. Our ability to restructure or refinance debt will depend on the condition of the capital markets and our financial condition at such time. Any refinancing of debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict business operations, and the terms of existing or future debt agreements may restrict us from adopting some of these alternatives.

Further, our ABL Credit Facility bears interest at variable rates and other debt we incur could likewise be variable-rate debt. If market interest rates increase, variable-rate debt will create higher debt service requirements, which could adversely

December 31, 2023 | 24

affect our ability to fund our liquidity needs, capital investments, and distributions to our unitholders. We may enter into agreements limiting our exposure to higher interest rates, but any such agreements may not offer complete protection from this risk.

Mr. Carl C. Icahn exerts significant influence over the Partnership through his controlling ownership of CVR Energy, and his interests or those of CVR Energy may conflict with the interests of the Partnership and our unitholders.

Mr. Carl C. Icahn indirectly controls approximately 71%66% of the voting power of CVR Energy's common stock and, by virtue of such ownership, is able to control the Partnership through CVR Energy's ownership of our general partner and its sole member, including: the election and appointment of directors; business strategy and policies; mergers or other business combinations; acquisition or disposition of assets; future issuances of common stock, common units, or other securities; incurrence of debt or obtaining other sources of financing; and the payment of distributions on our common units. The existence of a controlling stockholder may have the effect of making it difficult for, or may discourage or delay, a third-party from seeking to acquire a majority of our common units, which may adversely affect the market price of such common units.

Further, Mr. Icahn's interests may not always be consistent with the Partnership's interests or with the interests of our common unitholders. Mr. Icahn and entities controlled by him may also pursue acquisitions or business opportunities in industries in which we compete, and there is no requirement that any additional business opportunities be presented to us. We also have and may in the future enter into transactions to purchase goods or services with affiliates of Mr. Icahn. To the extent that conflicts of interest may arise between us and Mr. Icahn and his affiliates, those conflicts may be resolved in a manner adverse to us and our common unitholders.

In addition, in the event of a sale or transfer of some or all of Mr. Icahn's interests in CVR Energy to an unrelated party or group, a change of control could be deemed to have occurred under the terms of the indenture governing our 6.125% Senior Secured Notes, due 2028 which could require us to offer to repurchase all outstanding notes at 101% of their principal amount plus accrued interest to the date of repurchase, and an event of default could be deemed to have occurred under our ABL Credit Facility, which could allow lenders to accelerate indebtedness owed to them. If such an event were to occur, it is possible that we will not have sufficient funds at the time of the change of control to make the required repurchase of notes or repay amounts outstanding under our ABL Credit Facility, if any.

December 31, 2022 | 24

An increase in interest rates will cause our debt service obligations to increase.

Since March 2022, the Federal Reserve has raised its target range for the federal funds rate seven times, including by 25525 basis points in March 2022, by 50 basis points in May 2022, by 75 basis points in each of June 2022, July 2022, September 2022 and November 2022 and by 50 basis points in December 2022. Furthermore, the Federal Reserve has signaled that additional rate increases are likely to occur for the foreseeable future, through January 31, 2024. An increase in the interest rates associated with our floating rate debt would increase our debt service costs and affect our results of operations and cash flow available for payments of our debt obligations. In addition, an increase in interest rates could adversely affect our future ability to obtain financing or materially increase the cost of any additional financing.

The potential spin-off of CVR Energy's nitrogen fertilizer business may result in disruptions to, and negatively impact our relationships with, our customers and other business partners.

On November 21, 2022, CVR Energy announced that its board of directors had authorized its management to explore a plan to spin-off its interest in our nitrogen fertilizer business, which includes all of our general partner and approximately 37% of our limited partnership interests. Such a transaction would likely involve creating an independent publicly traded company which would hold such interests following the potential spin-off. Uncertainty related to the proposed spin-off may lead customers, vendors and other parties with which we currently do business or may do business in the future to attempt to negotiate changes in existing business relationships with us, or consider entering into business relationships with parties other than us. In addition, the potential spin could significantly increase our costs. These disruptions and other potential impacts could have a material and adverse effect on our business. The effect of such disruptions could be exacerbated by any delays in the completion of the potential spin-off. There can be no assurance that the potential spin-off transaction will be completed, and CVR Energy has not set a timetable for approval or completion of any such transaction.

Risks Related to Our Limited Partnership Structure

We may not have sufficient "available cash" to pay any quarterly distribution on common units, or the Board board of directors of the Partnership's general partner (the "Board") may elect to take reserves or distribute less than all of our available cash.

The current policy of the board of directors of our general partner ("Board") Board is to distribute an amount equal to the available cash generated by our business each quarter to our common unitholders. As a result of its cash distribution policy, we will likely need to rely primarily upon external financing sources, including commercial bank borrowings and the issuance of debt and equity securities, to fund acquisitions and expansion capital expenditures, and our growth, if any, may not be as robust as that of businesses that reinvest available cash to expand ongoing operations. We may not have sufficient available cash each quarter to enable the payment of distributions to common unitholders. Furthermore, the partnership agreement does not require us to pay distributions on a quarterly basis or otherwise. As such, the Board may modify or revoke its cash distribution policy at any time at its discretion, including in such a manner that would result in an elimination of cash distributions regardless of the amount of available cash our business generates.

To the extent we issue additional units in connection with any acquisitions or expansion capital expenditures or as in-kind distributions, current unitholders would experience dilution and the payment of distributions on those additional units may decrease the amount we distribute in respect of its outstanding units. Under our partnership agreement, we are authorized to

December 31, 2023 | 25

issue an unlimited number of additional interests without a vote of the common unitholders. The issuance by us of additional common units or other equity interests of equal or senior rank would reduce the proportionate ownership interest of common unitholders immediately prior to the issuance. As a result of the issuance of common units, the following may occur: the amount of cash distributions on each common unit may decrease; the ratio of our taxable income to distributions may increase; the relative voting strength of each previously outstanding common unit will be diminished; and the market price of the common units may decline. In addition, our partnership agreement does not prohibit the issuance by our subsidiaries of equity interests, which may effectively rank senior to the common units. The incurrence of additional commercial borrowings or other debt to finance its growth strategy would result in increased interest expense, which, in turn, would reduce the available cash we have to distribute to unitholders.

Our partnership agreement has limited our general partner's liability, replaces default fiduciary duties, and restricts the remedies available to common unitholders for actions that, without these limitations and reductions, might otherwise constitute breaches of fiduciary duty.

December 31, 2022 | 25

As permitted under Delaware law, our partnership agreement, which applies to and binds common unitholders, limits the liability and replaces the fiduciary duties of our general partner, while also restricting the remedies available to our common unitholders for actions that, without these limitations and reductions, might constitute breaches of fiduciary duty. Our partnership agreement contains provisions that replace the standards to which our general partner would otherwise be held by state fiduciary duty law. For example: our partnership agreement (i) permits our general partner to make a number of decisions in its individual capacity, as opposed to its capacity as general partner, which entitles our general partner to consider only the interests and factors that it desires and means that it has no duty or obligation to give any consideration to any interest of, or factors affecting, any limited partner; (ii) provides that our general partner will not have any liability to unitholders for decisions made in its capacity as general partner so long as it acted in good faith, meaning it believed the decision was in our best interest; (iii) provides that our general partner and the officers and directors of its general partner will not be liable for monetary damages to common unitholders, including us, for any acts or omissions unless there has been a final and non-appealable judgment entered by a court of competent jurisdiction determining that the general partner or its officers or directors acted in bad faith or engaged in fraud or willful misconduct, or in the case of a criminal matter, acted with knowledge that the conduct was criminal; (iv) generally provides that affiliated transactions and resolutions of conflicts of interest not approved by the conflicts committee of the board of directors of its general partner and not involving a vote of unitholders must be on terms no less favorable to us than those generally being provided to or available from unrelated third parties or be "fair and reasonable" to us, as determined by its general partner in good faith, and that, in determining whether a transaction or resolution is "fair and reasonable," "reasonable", the general partner may consider the totality of the relationships between the parties involved, including other transactions that may be particularly advantageous or beneficial to affiliated parties, including us; and (v) provides that in resolving conflicts of interest, it will be presumed that in making its decision, the general partner or its conflicts committee acted in good faith, and in any proceeding brought by or on behalf of any holder of common units, the person bringing or prosecuting such proceeding will have the burden of overcoming such presumption.

Our general partner, an indirect wholly-owned subsidiary of CVR Energy, has fiduciary duties to CVR Energy and its stockholders, and the interests of CVR Energy and its stockholders may differ significantly from, or conflict with, the interests of our public common unitholders.

Our general partner is responsible for managing us. Although our general partner has fiduciary duties to manage us in a manner that is in our best interests, the fiduciary duties are specifically limited by the express terms of our partnership agreement, and the directors and officers of our general partner also have fiduciary duties to manage our general partner in a manner beneficial to CVR Energy and its stockholders. The interests of CVR Energy and its stockholders may conflict with the interests of our public common unitholders. In resolving these conflicts, our general partner may favor its own interests, the interests of CVR Services, its sole member, or the interests of CVR Energy and holders of CVR Energy's common stock, including its majority stockholder, an affiliate of Icahn Enterprises L.P., over our interests and those of our common unitholders.

The potential conflicts of interest include, among others, the following: (i) neither our partnership agreement nor any other agreement requires the owners of our general partner, including CVR Energy, to pursue a business strategy that favors us and the affiliates of our general partner, including CVR Energy, have fiduciary duties to make decisions in their own best interests and in the best interest of holders of CVR Energy's common stock, which may be contrary to our interests (ii) our general partner is allowed to take into account the interests of parties other than us or our common unitholders, such as its owners or CVR Energy, in resolving conflicts of interest, which has the effect of limiting its fiduciary duty to our common unitholders;

December 31, 2023 | 26

(iii) our general partner has limited its liability and reduced its fiduciary duties under our partnership agreement and has also restricted the remedies available to our common unitholders for actions that, without the limitations, might constitute breaches of fiduciary duty; (iv) the Board determines the amount and timing of asset purchases and sales, capital expenditures, borrowings, repayment of indebtedness, and issuances of additional partnership interests, each of which can affect the amount of cash that is available for distribution to our common unitholders; (v) our partnership agreement does not restrict our general partner from causing us to pay it or its affiliates for any services rendered to us or entering into additional contractual arrangements with any of these entities on our behalf and there is no limitation on the amounts that can be paid; (vi) our general partner controls the enforcement of obligations owed to us by it and its affiliates, and decides whether to retain separate counsel or others to perform services for us; (vii) our general partner determines which costs incurred by it and its affiliates are reimbursable by us; and (viii) certain of the executive officers of our general partner also serve as executive officers of CVR Energy, including our executive chairman, who will face conflicts of interest when making decisions which may benefit either us or CVR Energy. Additionally, the compensation of such executive officers is set by CVR Energy, and we have no control over the amount paid to such officers.

December 31, 2022 | 26

CVR Energy has the power to elect all of the members of the Board. Our general partner has control over all decisions related to our operations. Our public common unitholders do not have an ability to influence any operating decisions and will not be able to prevent us from entering into any transactions. Certain subsidiaries of CVR Energy perform certain corporate services for us, including finance, accounting, legal, information technology, auditing, and cash management activities, and we could be impacted by any failure of those entities to adequately perform these services.

If at any time our general partner and its affiliates own more than 80% of the common units, our general partner will have the right, which it may assign to any of its affiliates or to us, but not the obligation, to acquire all, but not less than all, of the common units held by public common unitholders at a price not less than their then-current market price, as calculated pursuant to the terms of our partnership agreement. As a result, each holder of our common units may be required to sell such holder's common units at an undesirable time or price and may not receive any return on investment, and may also incur a tax liability upon a sale of its common units. Our general partner is not obligated to obtain a fairness opinion regarding the value of the common units to be repurchased by it upon exercise of the call right. There is no restriction in our partnership agreement that prevents our general partner from issuing additional common units and then exercising its call right. Our general partner may use its own discretion, free of fiduciary duty restrictions, in determining whether to exercise this right.

Our general partner may transfer its general partner interest in us to a third-party, including in a merger or in a sale of all or substantially all of its assets without the consent of our common unitholders. The new equity owner of our general partner would then be in a position to replace the board of directors and the officers of our general partner with its own choices and to influence their decisions. If control of our general partner were transferred to an unrelated third-party, the new owner would have no interest in CVR Energy and CVR Energy could, upon 90 days' notice, terminate the services agreement pursuant to which it provides us with the services of its senior management team.

As a publicly traded partnership we qualify for and rely upon certain exemptions from many of the NYSE's corporate governance requirements.

As a publicly traded partnership, we qualify for certain exemptions from the NYSE's corporate governance requirements, which include the requirements that (i) a majority of the Board consist of independent directors and (ii) the Board have a nominating/corporate governance committee and compensation committee that are composed entirely of independent directors. Our general partner's board of directors has not and does not currently intend to establish a nominating/corporate governance committee and we could avail ourselves of the additional exemptions available to publicly traded partnerships at any time in the future. Accordingly, common unitholders do not have the same protections afforded to equity holders of companies that are subject to all of the corporate governance requirements of the NYSE.

Our public common unitholders have limited voting rights and are not entitled to elect our general partner or our general partner's directors and do not have sufficient voting power to remove our general partner without CVR Energy's consent.

Unlike the holders of common stock in a corporation, our common unitholders have only limited voting rights on matters affecting our business and, therefore, limited ability to influence management's decisions. Our common unit holders do not choose the Member(s) of the general partner, nor do they elect directors of the Board or participate in other matters routinely conducted at annual meetings of stockholders, and have no practical ability to remove our general partner without the consent of CVR Energy. As a result of these limitations, the price at which the common units will trade could be diminished. Our

December 31, 2023 | 27

partnership agreement restricts common unitholders' voting rights by providing that any units held by a person that owns 20% or more of any class of units then outstanding, other than our general partner, its affiliates, their transferees, and persons who acquired such units with the prior approval of the Board, may not vote on any matter. Our partnership agreement also contains provisions limiting the ability of common unitholders to call meetings or to acquire information about our operations, and to influence the manner or direction of management.

Common unitholders may have liability to repay distributions.

In the event that: (i) we make distributions to our common unitholders when our nonrecourse liabilities exceed the sum of (a) the fair market value of our assets not subject to recourse liability and (b) the excess of the fair market value of our assets subject to recourse liability over such liability, or a distribution causes such a result, and (ii) a common unitholder knows at the time of the distribution of such circumstances, such common unitholder will be liable for a period of three years from the time of the impermissible distribution to repay the distribution under Section 17-607 of the Delaware Act. Likewise, upon the winding up of the partnership, in the event that (i) we do not distribute assets in the following order: (a) to creditors in

December 31, 2022 | 27

satisfaction of their liabilities; (b) to partners and former partners in satisfaction of liabilities for distributions owed under our partnership agreement; (c) to partners for the return of their contribution; and finally (d) to the partners in the proportions in which the partners share in distributions; and (ii) a common unitholder knows at the time of such circumstances, then such common unitholder will be liable for a period of three years from the impermissible distribution to repay the distribution under Section 17-807 of the Delaware Act.

Tax Risks Related to Common Unitholders

If the IRS were to treat us as a corporation for U.S. federal income tax purposes or we become subject to entity-level taxation for state tax purposes, our cash available for distribution to our common unitholders would be substantially reduced, likely causing a substantial reduction in the value of our common units.

The anticipated after-tax economic benefit of an investment in our common units depends largely on our being treated as a partnership for U.S. federal income tax purposes. Despite the fact that we are organized as a limited partnership under Delaware law, we would be treated as a corporation for U.S. federal income tax purposes unless we satisfy a "qualifying income" requirement. Based upon our current operations, we believe we satisfy the qualifying income requirement. Although we have received favorable private letter rulings from the IRS with respect to certain of our operations, no ruling has been or will be requested regarding our treatment as a partnership for U.S. federal income tax purposes. Failing to meet the qualifying income requirement or a change in current law (which could be retroactive) could cause us to be treated as a corporation for U.S. federal income tax purposes or otherwise subject us to taxation at the corporate tax rate and distributions to our common unitholders would generally be taxed again as corporate distributions, and no income, gains, losses, or deductions would flow through to our common unitholders. Because a tax would be imposed upon us as a corporation, our cash available for distribution to our common unitholders would be substantially reduced and result in a material reduction in the anticipated cash flow and after-tax return to our common unitholders, likely causing a substantial reduction in the value of our common units. At the state level, several states have been evaluating ways to subject partnerships to entity-level taxation through the imposition of state income, franchise, or other forms of taxation. We currently own assets and conduct business in several states, many of which impose a margin or franchise tax. In the future, we may expand our operations. Imposition of a similar tax on us in other jurisdictions that we may expand could substantially reduce our cash available for distribution to our common unitholders.

If the IRS makes audit adjustments to our income tax returns, it may assess and collect any taxes (including any applicable penalties and interest) resulting from such audit adjustments directly from us, in which case our cash available for distribution to our common unitholders might be substantially reduced and our current and former common unitholders may be required to indemnify us for any taxes (including any applicable penalties and interest) resulting from such audit adjustments that were paid on such common unitholders' behalf.

The IRS (and some states) may assess and collect from us taxes (including any applicable penalties and interest) resulting from audit adjustments to our income tax returns. Our general partner may elect to either pay the taxes (including any applicable penalties and interest) directly to the IRS or, if we are eligible, issue a revised information statement to each common unitholder and former common unitholder with respect to an audited and adjusted return. There can be no assurance that such an election to allocate the audit adjustment and tax payment obligation to our current and former common unitholders will be practical, permissible, or effective in all circumstances. As a result, our current common unitholders may bear some or all of the tax liability resulting from such audit adjustment, even if they did not own common units in us during the tax year under audit.

December 31, 2023 | 28

If, as a result of any such audit adjustment, we are required to make payments of taxes, penalties, and interest, our cash available for distribution to our common unitholders might be substantially reduced and our current and former unitholders may be required to indemnify us for any taxes (including any applicable penalties and interest) resulting from such audit adjustments that were paid on such unitholders behalf.

Our unitholders are required to pay income taxes on their share of our taxable income even if they do not receive any cash distributions from us.

A unitholder's allocable share of our taxable income will be taxable to it, which may require the unitholder to pay U.S. federal income taxes and, in some cases, state and local income taxes, even if the unitholder receives no cash distributions or cash distributions from us that are less than the actual tax liability that results from that income. For example, if we sell assets and use the proceeds to repay existing debt or fund capital expenditures, you may be allocated taxable income and gain resulting from the sale, and our cash available for distribution would not increase. Similarly, taking advantage of opportunities to reduce our existing debt, such as debt exchanges, debt repurchases, or modifications of our existing debt could result in

December 31, 2022 | 28

"cancellation" "cancellation of indebtedness income" being allocated to our common unitholders as taxable income without any increase in our cash available for distribution.

Common unitholders may be subject to limitation on their ability to deduct interest expense incurred by us.

In general, we are entitled to a deduction for interest paid or accrued on indebtedness properly allocable to our trade or business during our taxable year. However, our deduction for "business interest" is limited to the sum of our business interest income and 30% of our "adjusted taxable income." "income". For the purposes of this limitation, our adjusted taxable income is computed without regard to any business interest expense or business interest income. In the case of taxable years beginning on or after January 1, 2022, our adjusted taxable income is computed by taking into account any deduction allowable for depreciation, amortization, or depletion.

Non-U.S. common unitholders will be subject to U.S. taxes and withholding with respect to their income and gain from owning our common units.

Non-U.S. common unitholders are generally taxed and subject to income tax filing requirements by the United States on income effectively connected with a U.S. trade or business ("effectively connected income"). Income allocated to our common unitholders and any gain from the sale of our common units will generally be considered to be "effectively connected" with a U.S. trade or business. As a result, distributions to a Non-U.S. common unitholder will be subject to withholding at the highest applicable effective tax rate, and a Non-U.S. common unitholder who sells or otherwise disposes of a common unit will also be subject to U.S. federal income tax on the gain realized from the sale or disposition of that common unit.

In addition to the withholding tax imposed on distributions of effectively connected income, distributions to a Non-U.S. common unitholder will also be subject to a 10% withholding tax on the amount realized with respect to any distribution. In the case of a distribution made through a broker, the amount realized is the amount of any distribution in excess of our cumulative net income. As we do not compute our cumulative net income for such purposes due to the complexity of the calculation and lack of clarity in how it would apply to us, we intend to treat all of our distributions as being in excess of our cumulative net income for such purposes and subject to such 10% withholding tax. Accordingly, distributions to a Non-U.S. common unitholder that are made through a broker will be subject to a combined withholding tax rate equal to the sum of the highest applicable effective tax rate and 10%.

Additionally, if a common unitholder sells or otherwise disposes of a unit, the transferee is required to withhold 10% of the amount realized by the transferor unless the transferor certifies that it is not a foreign person, and we are required to deduct and withhold from the transferee amounts that should have been withheld by the transferee but were not withheld. Under the Treasury Regulations, such withholding will be required on open market transactions, but in the case of a transfer made through a broker, a partner's share of liabilities will be excluded from the amount realized. In addition, the obligation to withhold will be imposed on the broker instead of the transferee (and we will generally not be required to withhold from the transferee amounts that should have been withheld by the transferee but were not withheld). These withholding obligations will apply to transfers of our common units occurring on or after January 1, 2023. Current and prospective Non-U.S. common unitholders should consult their tax advisors regarding the impact of these rules on an investment in our common units.

December 31, 2023 | 29

Tax-exempt entities face unique tax issues from owning our common units that may result in adverse tax consequences.

Investment in our common units by tax-exempt entities, such as employee benefit plans and individual retirement accounts, raises unique issues. For example, virtually all of our income allocated to organizations that are exempt from U.S. federal income tax will be unrelated business taxable income and will be taxable. Further, a tax-exempt entity with more than one unrelated trade or business (including by attribution from investment in a partnership such as ours that is engaged in one or more unrelated trade or business) is required to compute the unrelated business taxable income of such tax-exempt entity separately with respect to each such trade or business (including for purposes of determining any net operating loss deduction). As a result, it may not be possible for tax-exempt entities to utilize losses from an investment in our partnership to offset unrelated business taxable income from another unrelated trade or business and vice versa.

The IRS may challenge our treatment of each purchaser of our common units as having the same tax benefits without regard to the common units actually purchased, which could adversely affect the value of our common units.

Because we cannot match transferors and transferees of common units, we have adopted certain methods for allocating depreciation and amortization deductions that may not conform to all aspects of existing Treasury Regulations. A successful IRS challenge to the use of these methods could adversely affect the amount of tax benefits available to our common unitholders. It also could affect the timing of these tax benefits or the amount of gain from any sale of common units and could have a negative impact on the value of our common units or result in audit adjustments to a common unitholder's tax returns.

December 31, 2022 | 29

Our proration methods may be challenged by the IRS, which could change the allocation of items of income, gain, loss, and deduction among our common unitholders.

We generally (i) prorate our items of income, gain, loss, and deduction between transferors and transferees of our common units; and (ii) allocate certain deductions for depreciation of capital additions, gain or loss realized on a sale or other disposition of our assets, and, in the discretion of the general partner, any other extraordinary item of income, gain, loss, or deduction, each month based upon the ownership of our units on the first day of each month (the "Allocation Date"), instead of on the basis of the date a particular common unit is transferred. Treasury Regulations allow a similar monthly simplifying convention, but such regulations do not specifically authorize all aspects of our proration method. If the IRS were to challenge our proration method, we may be required to change the allocation of items of income, gain, loss, and deduction among our common unitholders.

IRS challenge of certain valuation methodologies we have adopted to determine a unitholder's allocations of income, gain, loss, and deduction, could adversely affect the value of our common units.

In determining the items of income, gain, loss, and deduction allocable to our unitholders, we must routinely determine the fair market value of our assets and allocate any unrealized gain or loss attributable to our assets to the capital accounts of our unitholders. The IRS may challenge our valuation methods and allocations. A successful IRS challenge to these methods or allocations could adversely affect the amount of taxable income or loss being allocated to our unitholders, the amount of taxable gain from our unitholders' sale of common units, and the value of the common units or result in audit adjustments to our unitholders' tax returns without the benefit of additional deductions.

Our common unitholders will likely be subject to state and local taxes, as well as income tax return filing requirements, in jurisdictions where they do not live as a result of investing in our common units.

In addition to U.S. federal income taxes, our common unitholders may be subject to other taxes, including foreign, state, and local taxes, unincorporated business taxes, and estate, inheritance, or intangible taxes that are imposed by the various jurisdictions in which we conduct business or own property now or in the future, even if they do not live in any of those jurisdictions, will likely be required to file foreign, state, and local income tax returns and pay state and local income taxes in some or all of these various jurisdictions, and may be subject to penalties for failure to comply with those requirements.

December 31, 2023 | 30

General Risks Related to the Partnership

The acquisition and expansion strategy of our business involves significant risks that could have a material adverse effect on our results of operations, financial condition and cash flows.

From time to time, we may consider pursuing acquisitions of businesses or assets and expansion projects ("Expansion Projects") to continue to grow and increase profitability. However, we may not be able to consummate such Expansion Projects due to intense competition for suitable acquisition targets; the potential unavailability of necessary financial resources; difficulties in identifying suitable Expansion Projects or in completing them on sufficiently favorable terms; and the failure to obtain requisite regulatory approvals. In addition, any Expansion Projects may entail significant transaction costs and risks associated with entry into new markets and lines of business, including but not limited to, new regulatory obligations and risks.

In the case of an acquisition, integration of acquired entities can involve significant difficulties, such as: disruption of the ongoing operations; failure to achieve cost savings or other financial or operating objectives contributing to the accretive nature of an acquisition; strain on operational and managerial controls, procedures and management; difficulties

in the integration and retention of customers or personnel; assumption of unknown material liabilities or regulatory non-compliance issues; and amortization of acquired assets, which would reduce future reported earnings; and possible adverse short-term effects on our cash flows or operating results.

When considering potential Expansion Projects, will also consider impact on our tax treatment as a partnership for U.S. federal income tax purposes. If we are unable to conclude that the activities of the Expansion Project would not affect our treatment as a partnership for U.S. federal income tax purposes, we may elect to seek a ruling from the IRS. Seeking such a ruling could be costly or, in the case of competitive acquisitions, place the business in a competitive disadvantage compared to other potential acquirers who do not seek such a ruling. If we are unable to conclude that an activity would not affect our treatment as a partnership for U.S. federal income tax purposes and are unable or unwilling to obtain an IRS ruling, we may choose to acquire such business or develop such expansion project in a corporate subsidiary, which would subject the income

December 31, 2022 | 30

related to such activity to entity-level taxation, which would reduce the amount of cash available for distribution to our common unitholders and could likely cause a substantial reduction in the value of our common units.

Internally generated cash flows and other sources of liquidity may not be adequate for our capital needs.

Our business is capital intensive and working capital needs may vary significantly over relatively short periods of time. For instance, nitrogen fertilizer demand volatility can significantly impact working capital on a week-to-week and month-to-month basis. If we cannot generate adequate cash flow or otherwise secure sufficient liquidity to meet our working capital needs or support our short-term and long-term capital requirements, we may be unable to meet our debt obligations, pursue our business strategies, or comply with certain environmental standards, which would have a material adverse effect on our business and results of operations.

Item 1B. Unresolved Staff Comments

None.

Item 1C. Cybersecurity

The Partnership has implemented processes to assess, identify and manage material risks resulting from cybersecurity incidents. Our Cybersecurity program and processes are based upon the International Standards Organization ("ISO") guidance on information security. The Partnership's processes used to identify, assess, and mitigate cybersecurity risks are integrated into the Partnership's broader risk management system and processes, including through the risk management activities of the Board and its Audit Committee, our Enterprise Risk Management Committee ("ERM Committee"), and our internal audit and information technology functions.

Board Oversight of Cybersecurity Matters

The board of directors of the Partnership's general partner (the "Board") considers oversight of CVR Partners' risks and risk management activities, including those related to cybersecurity risk, to be a responsibility of the entire Board. The Board also delegates certain risk oversight responsibilities to certain of its committees, and oversight of the Partnership's cybersecurity

December 31, 2023 | 31

risk is delegated by the Board to its Audit Committee. The Audit Committee receives regular reports, typically on a quarterly basis, from management regarding information technology, cybersecurity risk, and efforts to prevent and mitigate such risks. The Chairperson of the Audit Committee subsequently reports on the Partnership's cybersecurity risk, monitoring, and mitigation activities to the full Board, which equips the Board and its committees to fulfill their risk oversight role.

The Board and Audit Committee are supported in their oversight capacity by the Partnership's ERM Committee, and internal audit and information technology functions. On a quarterly basis, the ERM Committee evaluates past, existing, and future risks to the Partnership; the likelihood, severity, and velocity of such risks; and the controls and mitigation tools implemented to address such risk. Several members of the ERM Committee have functional responsibility for the Partnership's information technology and cybersecurity risk monitoring activities and provide expertise to the ERM Committee in those areas.

Likewise, the Partnership's internal audit function periodically performs audit engagements focused on information technology processes and cybersecurity risks. These audits have provided the Partnership with assessments of the effectiveness and efficiency of our information technology and cyber threat management processes with the goal of safeguarding Partnership assets and information.

Management of Cybersecurity Matters

At the management level, the Partnership's cybersecurity risk management activities are integrated into the day-to-day activities of the Partnership's information technology function led by our Chief Information Officer, who operates under the supervision of our Chief Financial Officer. The Partnership's information technology function has a dedicated cybersecurity team comprised of employees with, on average, nearly 20 years of experience and expertise in cybersecurity, and includes individuals with degrees in Computer Studies and cybersecurity-related certifications including Certified Information Systems Security Specialist (CISSP), Certified in Risk and Information Systems Controls (CRISC), and Certified Information Security Manager (CISM).

Management utilizes certain tools and controls to detect, monitor, prevent, mitigate, and remediate cybersecurity threats to our systems, networks, applications, and data. Management also conducts annual cybersecurity training and periodic phishing tests, which provide contemporaneous feedback and instruction to our employees and strengthen the Partnership's defenses against cyber threats. Lastly, management maintains information security incident response processes to guide response and mitigate impact in the event of a cybersecurity incident. A third-party cybersecurity service provider is on retainer to assist the Partnership should a cybersecurity incident occur.

Engagement of Third Parties

The ERM Committee, internal audit function, information technology function and various other groups each occasionally engage third-party service providers to assist in their management of cybersecurity risk, including but not limited to cybersecurity vendors, assessors, consultants, auditors, and other third parties. The information technology function maintains processes to oversee and identify cyber risks associated with the Partnership's use of third-party service providers who may have access to sensitive Partnership data and systems.

Material Impact on Partnership

During 2023, the Partnership did not experience any cybersecurity threats or incidents that have materially affected or are reasonably likely to materially affect the Partnership, including its business strategy, results of operations, or financial condition.

Item 2. Properties

Refer to Part I, Item 1, "Facilities" of this Report for more information on our core business properties. CVR Energy also leases property for our executive and marketing offices in Sugar Land, Texas and Kansas City, Kansas, respectively.

December 31, 2023 | 32

Item 3. Legal Proceedings

In the ordinary course of business, we may become party to lawsuits, administrative proceedings, and governmental investigations, including environmental, regulatory, and other matters. Large, and sometimes unspecified, damages or penalties may be sought from us in some matters and certain matters may require years to resolve. Refer to Part II, Item 8, Note 2 ("Summary of Significant Accounting Policies"), Loss Contingencies for further discussion on current litigation matters. Although we cannot provide assurance, we believe that an adverse resolution of the matters described therein would not have a material impact on our liquidity, consolidated financial position, or consolidated results of operations.

Item 4. Mine Safety Disclosures.

Not applicable.

December 31, 2022 2023 | 31 33

PART II

Item 5. Market For Registrant's Common Equity, Related Unitholder Matters and Issuer Purchases of Equity Securities

Performance Graph

The performance graph below compares the cumulative total return of the Partnership's common units to (a) the cumulative total return of the S&P 500 Composite Index and (b) a composite peer group ("Peer Group") consisting of CF Industries Holdings, Inc., LSB Industries, Inc., Nutrien Ltd., The Andersons, Inc., Green Plains Partners LP, and Flotek Industries Inc. The graph assumes that the value of the investment in common units and each index was \$100 on **December 31, 2017** **December 31, 2018** and that all distributions were reinvested. Investment is weighted on the basis of market capitalization.

The unit price performance shown on the graph is not necessarily indicative of future price performance. Information used in the graph was obtained from Yahoo! Finance (finance.yahoo.com). The performance graph above is furnished and not filed for purposes of the Securities Act and the Exchange Act. The performance graph is not soliciting material subject to Regulation 14A.

Market Information

CVR Partners' common units are listed under the symbol "UAN" on the New York Stock Exchange ("NYSE"). The Partnership has 30 holders of record of the outstanding units as of **December 31, 2022** **December 31, 2023**.

Purchases of Equity Compensation Plan Securities by the Issuer

On May 6, 2020, the board of directors of the Partnership's general partner (the "Board"), on behalf of the Partnership, authorized a unit repurchase program (the "Unit Repurchase Program"), which was increased on February 22, 2021. The CVR Partners Long-Term Incentive Plan ("CVR Partners LTIP") provides for Unit Repurchase Program, as increased, authorized the grant Partnership to repurchase up to \$20 million of options, the Partnership's common units. Through December 31, 2023, the Partnership, considering all repurchases made since inception of the Unit Repurchase Program, repurchased 759,250 common units, as adjusted to reflect the impact of the 1-for-10 reverse unit appreciation rights, distribution equivalent rights, restricted split of the Partnership's common units phantom that was effective as of November 23, 2020, on the open market in accordance with a repurchase agreement under Rules 10b5-1 and 10b-18 of the Securities Exchange Act of 1934, as amended. As of December 31, 2023, the Partnership had a nominal authorized amount remaining under the Unit Repurchase Program. The Unit Repurchase Program does not obligate the Partnership to acquire any common units and other unit-based awards, each in respect of common units. Individuals who are eligible to receive awards under may be cancelled, modified, or terminated by the CVR Partners LTIP include employees, officers, consultants and directors of CVR Partners and the general partner and their respective subsidiaries and parents. A maximum of 500,000 common units are issuable under the CVR Partners LTIP.

Board at

December 31, **2022** **2023** | **32** **34**

The table below contains information about securities authorized for issuance any time. On February 20, 2024, the Board, on behalf of the Partnership, terminated the nominal authority remaining under the CVR Partners LTIP as of December 31, 2022:

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants, and Rights	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans
Equity compensation plans approved by security holders:			
CVR Partners, LP Long-Term Incentive Plan	—	—	482,022 ⁽¹⁾
Equity compensation plans not approved by security holders:			
None	—	—	—
Total	—	—	482,022

(1) Represents units that remain available for future issuance pursuant to the CVR Partners LTIP in connection with awards of options, unit appreciation rights, distribution equivalent rights, restricted units, and phantom units. Unit Repurchase Program.

Item 6. [Reserved]

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition, results of operations and cash flow should be read in conjunction with our consolidated financial statements and related notes and with the statistical information and financial data included elsewhere in this Report. References to "CVR Partners", the "Partnership", "we", "us", and "our" may refer to consolidated subsidiaries of CVR Partners or one or both of the facilities, as the context may require.

This discussion and analysis covers the years ended **December 31, 2022** **December 31, 2023** and **2021** **2022** and discusses year-to-year comparisons between such periods. The discussions of the year ended **December 31, 2020** **December 31, 2021** and year-to-year comparisons between the years ended **December 31, 2021** **December 31, 2022** and **2020** **2021** that are not included in this Annual Report on Form 10-K can be found in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in

Reflected in this discussion and analysis is how management views the Partnership's current financial condition and results of operations along with key external variables and management actions that may impact the Partnership. Understanding significant external variables, such as market conditions, weather, and seasonal trends, among others, and management actions taken to manage the Partnership, address external variables, among others, which will increase users' understanding of the Partnership, its financial condition and results of operations. This discussion may contain **forward looking forward-looking** statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the **forward looking forward-looking** statements. Factors that could cause or contribute to such differences include, but are not limited to those discussed below and elsewhere in this Report.

Partnership Overview

CVR Partners is a Delaware limited partnership formed in 2011 by CVR Energy, Inc. ("CVR Energy") to own, operate, and grow its nitrogen fertilizer business. The Partnership produces and distributes nitrogen fertilizer products, which are used by farmers to improve the yield and quality of their crops. The Partnership produces these products at two manufacturing facilities, one located in Coffeyville, Kansas operated by its wholly owned subsidiary, Coffeyville Resources Nitrogen Fertilizers, LLC ("CRNF") (the "Coffeyville Facility") and one located in East Dubuque, Illinois operated by its wholly owned subsidiary, East Dubuque Nitrogen Fertilizers, LLC ("EDNF") (the "East Dubuque Facility"). Our principal products are ammonia and urea ammonium nitrate ("UAN"). All of our products are sold on a wholesale basis. References to CVR Partners, the Partnership, "we", "us", and "our" may refer to consolidated subsidiaries of CVR Partners or one or both of the facilities, as the context may require. Additionally, as the context may require, references to CVR Energy may refer to CVR Energy and its consolidated subsidiaries which include its petroleum and renewables refining, marketing, and logistics operations.

December 31, 2022 | 33

Strategy and Goals

The Partnership has adopted Mission and Values, which articulate the Partnership's expectations for how it and its employees do business each and every day.

Mission and Core Values

Our Mission is to be a top tier North American nitrogen-based fertilizer company as measured by safe and reliable operations, superior performance and profitable growth. The foundation of how we operate is built on five core Values:

- **Safety** - We always put safety first. The protection of our employees, contractors and communities is paramount. We have an unwavering commitment to safety above all else. If it's not safe, then we don't do it.

December 31, 2023 | 35

- **Environment** - We care for our environment. Complying with all regulations and minimizing any environmental impact from our operations is essential. We understand our obligation to the environment and that it's our duty to protect it.
- **Integrity** - We require high business ethics. We comply with the law and practice sound corporate governance. We only conduct business one way—the right way with integrity.
- **Corporate Citizenship** - We are proud members of the communities where we operate. We are good neighbors and know that it's a privilege we can't take for granted. We seek to make a positive economic and social impact through our financial donations and the contributions of time, knowledge and talent of our employees to the places where we live and work.
- **Continuous Improvement** - We believe in both individual and team success. We foster accountability under a performance-driven culture that supports creative thinking, teamwork, diversity and personal development so that employees can realize their maximum potential. We use defined work practices for consistency, efficiency and to create value across the organization.

Our core Values are driven by our people, inform the way we do business each and every day and enhance our ability to accomplish our mission and related strategic objectives.

Strategic Objectives

We have outlined the following strategic objectives to drive the accomplishment of our mission:

- Environmental, Health & Safety ("EH&S") - We aim to achieve continuous improvement in all EH&S areas through ensuring our people's commitment to environmental, health and safety comes first, the refinement of existing policies, continuous training, and enhanced monitoring procedures.
- Reliability - Our goal is to achieve industry-leading utilization rates at both of our facilities through safe and reliable operations. We are focusing on improvements in day-to-day plant operations, identifying alternative sources for plant inputs to reduce lost time due to third-party operational constraints, and optimizing our commercial and marketing functions to maintain plant operations at their highest level.
- Market Capture - We continuously evaluate opportunities to improve the facilities' realized pricing at the gate and reduce variable costs incurred in production to maximize our capture of market opportunities.
- Financial Discipline - We strive to be as efficient as possible by maintaining low operating costs and disciplined deployment of capital.

December 31, 2022 | 34

Achievements Other Events

From Following good faith bargaining by East Dubuque Nitrogen Fertilizers, LLC ("EDNF"), the beginning of United Automobile Workers Union and its Local 1391 representing approximately 90 employees at the fiscal year through East Dubuque Facility went on strike on October 18, 2023 after its collective bargaining agreement expired the date of filing, we successfully executed a number of achievements in support of our strategic objectives shown below:

	Safety	Reliability	Market Capture	Financial Discipline
Achieved reductions in process safety tier 1 incident rate and total recordable injury rate of 37% and 86%, respectively, compared to 2021	U	U		
Safely completed the planned turnarounds at both facilities on time and on budget, as well as inspected, repaired and replaced major equipment as necessary during this downtime	U	U	U	U
Achieved record UAN production volumes at the Coffeyville Facility in March 2022		U	U	
Achieved record ammonia production at the East Dubuque Facility in December 2022		U	U	
Completed transaction intended to monetize 45Q tax credits and received an initial upfront payment, net of expenses, of \$18.1 million in January 2023				U
Declared cash distribution of \$10.50 per common unit for the fourth quarter of 2022, bringing cumulative distributions declared to date of \$24.58 per common unit related to 2022			U	U
Achieved average reduction in CO2e emissions of over 1 million metric tons per year since 2020	U			
Completed targeted \$95 million debt reduction plan with the repayment of the remaining \$65 million balance of the 9.25% Senior Secured Notes, due 2023 (the "2023 Notes") in the first quarter of 2022 for a total reduction in annual cash interest expense of approximately \$9 million				U
Repurchased over 111,000 common units for \$12.4 million				U

previous day. The East Dubuque Facility has continued to operate and is currently expected to continue normal operations during the strike.

Environmental, Social & Governance ("ESG") Highlights

In the past year, we achieved numerous milestones through our commitment to sustainability, ESG initiatives, including environmental and safety stewardship, diversity and inclusion, community outreach and sound corporate governance. In December 2023, we published a 2022 CVR Energy published its first public report Environmental, Social & Governance Report ("2022 ESG Report") which is based on the Sustainability Accounting Standards Board standards which includes information regarding our ESG accomplishments. CVR Energy's 2021 Environmental, Social & Governance Report ("2021 ESG Report") and is available at CVR Partner's website at www.CVRPartners.com. CVR

December 31, 2023 | 36

Industry Factors and Market Indicators

Within the nitrogen fertilizer business, earnings and cash flows from operations are primarily affected by the relationship between nitrogen fertilizer product prices, utilization, and operating costs and expenses, including pet coke and natural gas feedstock costs.

The price at which nitrogen fertilizer products are ultimately sold depends on numerous factors, including the global supply and demand for nitrogen fertilizer products which, in turn, depends on among other factors, world grain demand and production levels, changes in world population, the cost and availability of fertilizer transportation infrastructure, weather conditions, the availability of imports, the availability and price of feedstocks to produce nitrogen fertilizer, and the extent of government intervention in agriculture markets. markets, among other factors.

Nitrogen fertilizer prices are also affected by local factors, including local market conditions and the operating levels of competing facilities. An expansion or upgrade of competitors' facilities, new facility development, political and economic developments, and other factors are likely to continue to play an important role in nitrogen fertilizer industry economics. These

December 31, 2022 | 35

factors can impact, among other things, the level of inventories in the market, markets, resulting in price volatility and a reduction in product margins. margin volatility. Moreover, the industry typically experiences seasonal fluctuations in demand for nitrogen fertilizer products.

General Business Environment

Russia-Ukraine Conflict - In February 2022, Russia invaded Ukraine, significantly impacting global fertilizer and agriculture markets. The Black Sea is a major export point for nitrogen fertilizer and grains from Russia and Ukraine. Since the invasion began, the Black Sea has been closed to exports which prompted tightening global supply conditions for nitrogen fertilizer in advance of spring planting and wheat and corn availability, as Russia and Ukraine are major wheat exporters and Ukraine is a major corn exporter. In 2022, grain harvested in Ukraine was approximately 40% lower than 2021 due to lack of planting inputs, fuel, and workers to complete the planting of crops. The ability to export grains from Ukraine, particularly wheat, have improved but continue to be restricted due to lack of access to export terminals in the Black Sea and limited rail or trucking capacity. Additionally, many countries have formally or informally adopted sanctions on a number of Russian exports and individuals affiliated with Russian government leadership. While fertilizers have not been formally sanctioned by countries, many customers are either unwilling to purchase Russian fertilizers or logistics make it too costly to import Russian fertilizers. Additionally, natural gas supplied from Russia to Western Europe has been constrained and natural gas prices have remained elevated since September 2021, causing a significant portion of European nitrogen fertilizer production capacity to be curtailed or costs to be elevated compared to competitors in other regions of the world. Overall, these events have caused grain and fertilizer prices to rise, and we currently expect these conditions to persist through the spring of 2023. The ultimate outcome of the Russia-Ukraine conflict and any associated market disruptions are difficult to predict and may affect our business in unforeseen ways.

COVID-19 - The economic effects from the COVID-19 pandemic on our business were and may again be significant. Although our business has recovered since the onset of the pandemic in March 2020, there continues to be uncertainty and unpredictability about the lingering impacts to the worldwide economy, including in connection with the spread of variants of COVID-19 and resulting restrictions, that could negatively affect our business, financial condition, results of operations, and liquidity in future periods.

The Partnership believes the general business environment in which it operates will continue to remain volatile, driven by uncertainty around the availability and prices of its feedstocks, demand for its products, inflation, and global supply disruptions. As a result, future operating results and current and long-term financial conditions could be negatively impacted if economic conditions decline and remain volatile. Due to the uncertainty of the global recovery, including its duration, timing, and strength, the Partnership is not able at this time to predict the extent to which these events may have a material, or any, effect on its financial or operational results in future periods.

Regulatory Environment - Certain governmental regulations and incentives associated with the automobile transportation and agricultural industries, including the ones related to corn-based ethanol and sustainable aviation fuel production or consumption can directly impact our business. In August 2022, the Inflation Reduction Act was passed and introduced the Clean Fuel Production Credit incentivizing lower Carbon Intensity feedstocks, including corn oil, which may increase demand for corn planting. In June 2023, the United States Environmental Protection Agency ("EPA") announced the renewable volume obligations for 2023, 2024, and 2025 which maintained the conventional biofuel blending

level at 15 billion gallons. These actions lead us to believe that the demand on food, in particular corn, for fuel will remain strong for the foreseeable future and support farmer economics that incentivize the use of nitrogen-based fertilizers.

In contrast, in April 2023, the EPA announced the proposed federal vehicle emission standards for 2027 through 2032, which, if finalized, would significantly reduce the use of internal combustion engine vehicles and the demand for liquid fuels including ethanol. In 2023, production of ethanol consumed approximately 37% of the annual United States corn crop used by the market.

Geopolitical Matters - The conflict between Israel and Hamas, which began in October 2023, and the ongoing Russia-Ukraine war, could significantly impact global fertilizer and agriculture markets. These conflicts pose significant geopolitical risks to global markets, raise concerns of major implications, such as the enforcement of sanctions, and could disrupt the production and trade of fertilizer, grains, and feedstock through several means, such as trade restrictions. The ultimate outcome of these conflicts and any associated market disruptions are difficult to predict and may affect our business, operations, and cash flows in unforeseen ways.

Partnership Initiatives

The Partnership has been conducting engineering studies on the potential to utilize natural gas as an optional feedstock to pet coke at its Coffeyville Facility. Based on these studies, CVR Partners subsidiaries could utilize either natural gas or pet coke to produce nitrogen fertilizer by making certain modifications to the plant. If this project is approved by the board of directors of our general partner (the "Board") and successfully implemented, it could allow the Partnership to choose the lowest cost feedstock for production and would make the Coffeyville Facility the only nitrogen fertilizer plant in the U.S. with that feedstock flexibility.

December 31, 2023 | 37

Market Indicators

While there is risk of shorter-term volatility given the inherent nature of the commodity cycle and governmental and geopolitical risks, the Partnership believes the long-term fundamentals for the U.S. nitrogen fertilizer industry remain intact. The Partnership views the anticipated combination of (i) increasing global population, (ii) decreasing arable land per capita, (iii) continued evolution to more protein-based diets in developing countries, (iv) sustained use of corn and soybeans as feedstock for the domestic production of ethanol and other renewable fuels, and (v) positioning at the lower end of the global cost curve should provide a solid foundation for nitrogen fertilizer producers in the United States over the longer term.

Corn and soybeans are two major crops planted by farmers in North America. Corn crops result in the depletion of the amount of nitrogen within the soil in which it is grown, which in turn, results in the need for this nutrient to be replenished after each growing cycle. Unlike corn, soybeans are able to obtain most of their own nitrogen through a process known as "N fixation." fixation". As such, upon harvesting of soybeans, the soil retains a certain amount of nitrogen which results in lower demand for nitrogen fertilizer for the following corn planting cycle. Due to these factors, nitrogen fertilizer consumers generally operate a balanced corn-soybean rotational planting cycle as evident shown by the chart presented below for 2023, 2022, 2021, and 2020, 2021.

The relationship between the total acres planted for both corn and soybeans has a direct impact on the overall demand for nitrogen products, as the market and demand for nitrogen increases with increased corn acres and decreases with increased soybean acres. Additionally, an estimated 11.6 12.8 billion pounds of soybean oil is expected to be used in producing cleaner renewables renewable fuels in marketing year 2022/2023, 2023/2024. Multiple refiners have announced renewable diesel expansion projects for 2023 2024 and beyond, which will should only increase the demand for soybeans and potentially for corn and canola.

December 31, 2022 | 36

The United States Department of Agriculture ("USDA") estimates data shows that in spring 2022 2023 farmers planted 94.6 million corn acres, representing an increase of 6.8% as compared to 88.6 million corn acres of corn, in 2022. Planted soybean acres for spring 2023 are 83.6 million, representing a decrease of 5.1% in corn acres planted 4.5% as compared to 93.4 million corn acres in 2021. Planted soybean acres were estimated to be 87.5 million acres, representing a 0.3% increase in soybean acres planted as compared to 87.2 million soybean acres in 2021, 2022. The estimated combined corn and soybean planted acres of 176.1 million 178.2 million in 2022 2023 is a 2.5% decrease from an increase of 1.2% compared to the total acreage planted in 2021, which was the highest in history. 2022. Due to higher lower input costs in 2023 for corn planting and increased demand for the relative grain prices of corn versus soybeans, particularly for renewable diesel production, it was more favorable for farmers to plant soybeans economics favored planting corn compared to corn. The lower planted soybeans in 2023. Lower inventory levels of corn acres in 2022 and lower corn production soybeans are expected to be supportive of corn grain prices for 2023, into the spring of 2024.

Ethanol is blended with gasoline to meet renewable fuel standard requirements and for its octane value. Since 2006, 2010, ethanol production has historically consumed approximately 36% 37% of the U.S. corn crop used by the market, so demand for corn generally rises and falls with ethanol demand, as evidenced in shown by the charts

below. below, through December 31, 2023.

U.S. Plant Production of Fuel Ethanol (1)

Corn and Soybean Planted Acres (2)

- (1) Information used within this chart was obtained from the U.S. Energy Information Administration ("EIA") through December 31, 2022 December 31, 2023.
- (2) Information used within this chart was obtained from the USDA, National Agricultural Statistics Services as of December 31, 2022 December 31, 2023.

December 31, 2023 | 38

Weather continues to be a critical variable for crop production. Even with high planted acres and trendline yields per acre in the United States, U.S., global inventory levels for corn and soybeans remain below historical levels and prices have remained elevated. With tight grain and fertilizer inventory levels driven by the Russia-Ukraine conflict in Ukraine, prices for grains and fertilizers are expected to remain remained elevated through 2023, although below the elevated prices experienced in the spring of 2023. While the weather conditions were difficult early in spring 2022, farmers were able to complete the crop planting later than normal. 2022. Demand for nitrogen fertilizer, as well as other crop inputs, was strong for the spring 2023 planting season and fall 2023 ammonia application, primarily due to elevated grain prices and favorable weather conditions for planting and fertilizer application.

Fertilizer input costs have been volatile since the fall of 2021. Natural gas prices were elevated in the fall of 2022 planting season. During the summer 2022 growing season, severe drought conditions were experienced due to shortages in Asia, Europe and parts of demand being driven by building natural gas storage for winter. Winter 2022/2023 weather was warmer than average in Europe and when combined with natural gas conservation measures caused demand and prices for natural gas in Europe to fall significantly in the U.S. As a result, crop yields are projected to be below expectations and grain inventories are projected to be at the low end of historical levels, causing grain prices to rise. We expect tight grain inventories to positively impact planted acreage for the spring first quarter of 2023 and boost remain below the demand for nitrogen fertilizer.

On June 30, 2021, CF Industries Nitrogen, L.L.C., Terra Nitrogen, Limited Partnership, and Terra International (Oklahoma) LLC filed petitions with the U.S. Department of Commerce ("USDOC") and the U.S. International Trade Commission (the "ITC") requesting the initiation of antidumping and countervailing duty investigations on imports of UAN from Russia and Trinidad and Tobago ("Trinidad"). On July 18, 2022, the ITC made 2021/2022 price levels. The decline in natural gas prices has led to a negative final injury determination concerning its investigation of imports from Russia and Trinidad despite USDOC's final determination in June that UAN is subsidized and dumped significant reduction in the U.S. market by producers in both countries. Since the decision in July 2022, we have observed minimal impact on the supply or demand price for nitrogen fertilizer as globally due to lower input costs. While we expect that natural gas prices might remain below the elevated levels experienced in 2022 in the near term, we believe that the structural shortage of natural gas in Europe will continue to be a result source of these actions, volatility into 2024. Although pet coke prices remain elevated compared to historical levels, third-party pet coke prices have declined into 2024.

Results of Operations

The following should be read in conjunction with the information outlined in the previous sections of this Part II, Item 7 and the financial statements and related notes thereto in Part II, Item 8 of this Report.

The chart presented below summarizes our ammonia utilization rates on a consolidated basis for the years ended December 31, 2022, December 31, 2023, 2021, 2022, and 2020, 2021. Utilization is an important measure used by management to assess operational output at each of the Partnership's facilities. Utilization is calculated as actual tons of ammonia produced divided by capacity.

Utilization is presented solely on ammonia production, rather than on each nitrogen product, as it provides a comparative baseline against industry peers and eliminates the disparity of facility configurations for upgrade of ammonia into other nitrogen products. With production primarily focused on ammonia upgrade capabilities, we believe this measure provides a meaningful view of how we operate.

December 31, 2022 2023 | 38 40

Consolidated Ammonia Utilization

 974

On a consolidated basis, utilization decreased 11% increased 19% to 81% 100% for the year ended December 31, 2022 December 31, 2023 compared to the year ended December 31, 2021 December 31, 2022. This decrease increase was primarily due to reduced production volumes and utilization during the completion of planned turnarounds at both facilities in the third quarter of 2022, along with which subsequently improved operational reliability. In addition, there was increased unplanned downtime in 2022 associated with the Messer air separation plant (the "Messer Outages") at the Coffeyville Facility and various pieces of equipment being down at the East Dubuque Facility, compared to unplanned downtime at the Coffeyville Facility and the East Dubuque Facility in July and September 2021, respectively, due to externally driven power outages and downtime at the East Dubuque Facility in October 2021 for equipment repair. Facility.

Sales and Pricing per Ton - Two of our key operating metrics are total sales volumes for ammonia and UAN, along with the product pricing per ton realized at the gate. Product pricing at the gate represents net sales less freight revenue divided by product sales volume in tons and is shown in order to provide a pricing measure comparable across the fertilizer industry.

Sales (thousand tons)

Product Pricing at Gate (\$ per ton)

 2019  2020

For the year ended December 31, 2022 December 31, 2023, total product sales volumes were unfavorable favorable driven by lower reduced production volumes and utilization during the planned turnarounds at both facilities due to the planned turnarounds in the third quarter of 2022, as well as increased which subsequently improved operational reliability. In addition, the facilities experienced minimal unplanned downtime from in 2023 compared to 2022 due to the Messer Outages at the Coffeyville Facility and various pieces of equipment being down at the East Dubuque Facility in 2022, as compared to 2021, 2022. For the year ended December 31, 2022 December 31, 2023, total product sales were favorable unfavorable driven by sales price increases decreases of 88% 44% for ammonia and 84% 36% for UAN. UAN during the year. Ammonia and UAN sales prices were favorable unfavorable primarily due to continued tight market conditions due to lower fertilizer supply driven by ongoing impacts from the Russia-Ukraine conflict, including reduced production from Europe as a result natural gas prices and increased global supplies of the high energy price environment, and higher crop pricing. nitrogen fertilizers.

December 31, 2022 2023 | 39 41

Production Volumes - Gross tons produced for of ammonia represent the total ammonia produced, including ammonia produced that was upgraded into other fertilizer products. Net tons available for sale represent represents the ammonia available for sale that was not upgraded into other fertilizer products. Production for the year ended December 31,

2022 was impacted by unplanned downtime associated with the Messer Outages at the Coffeyville Facility and various pieces of equipment at the East Dubuque Facility in 2022, along with the completion of the planned turnarounds at both facilities during the third quarter of 2022. The table below presents these metrics for the years ended December 31, 2022 December 31, 2023, 2021, 2022, and 2020: 2021:

Year Ended December 31,							
Year Ended December 31,					Year Ended December 31,		
(in thousands of tons)	(in thousands of tons)	2022	2021	2020	(in thousands of tons)	2023	2022
Ammonia (gross produced)	Ammonia (gross produced)	703	807	852			
Ammonia (net available for sale)	Ammonia (net available for sale)	213	275	303			
UAN	UAN	1,140	1,208	1,303			

Feedstock - Our Coffeyville Facility utilizes a pet coke gasification process to produce nitrogen fertilizer. Our East Dubuque Facility uses natural gas in its production of ammonia. The table below presents these feedstocks for both facilities for the years ended December 31, 2022 December 31, 2023, 2021, 2022, and 2020: 2021:

	Year Ended December 31,		
	2022	2021	2020
Petroleum coke used in production (thousand tons)	425	514	523
Petroleum coke (dollars per ton)	\$ 52.88	\$ 44.69	\$ 35.25
Natural gas used in production (thousands of MMBtu) ⁽¹⁾	6,905	8,049	8,611
Natural gas used in production (dollars per MMBtu) ⁽¹⁾	\$ 6.66	\$ 3.95	\$ 2.31
Natural gas in cost of materials and other (thousands of MMBtu) ⁽¹⁾	6,701	7,848	9,349
Natural gas in cost of materials and other (dollars per MMBtu) ⁽¹⁾	\$ 6.37	\$ 3.83	\$ 2.35

	Year Ended December 31,		
	2023	2022	2021
Petroleum coke used in production (thousands of tons)	518	425	514
Petroleum coke used in production (dollars per ton)	\$ 78.14	\$ 52.88	\$ 44.69
Natural gas used in production (thousands of MMBtus) ⁽¹⁾	8,462	6,905	8,049
Natural gas used in production (dollars per MMBtu) ⁽¹⁾	\$ 3.42	\$ 6.66	\$ 3.95
Natural gas in cost of materials and other (thousands of MMBtus) ⁽¹⁾	8,671	6,701	7,848
Natural gas in cost of materials and other (dollars per MMBtu) ⁽¹⁾	\$ 3.84	\$ 6.37	\$ 3.83

(1) The feedstock natural gas shown above does not include natural gas used for fuel. The cost of fuel natural gas is included in Direct operating expenses (exclusive of depreciation and amortization).

Financial Highlights

Overview - For the year ended December 31, 2022 December 31, 2023, the Partnership's operating income and net income were \$201.4 million and \$172.4 million, respectively, representing declines of \$118.5 million and \$114.4 million, respectively, compared to operating income and net income of \$319.9 million and \$286.8 million, respectively, a \$185.4 million increase in operating income and a \$208.6 million increase in net income, respectively, compared to for the year ended December 31, 2021 December 31, 2022. These increases variances were primarily driven by higher decreased product sales prices, for UAN and ammonia in 2022, partially offset by reduced increased production and sales volumes, increased costs associated with the two planned turnarounds during the third quarter of 2022, and increased feedstock prices in compared to 2022.

Net Sales

Operating Income (Loss)

4331 4332

December 31, 2022 2023 | 40 42

Net Income (Loss)

EBITDA ⁽¹⁾

4337 4338

(1) See "Non-GAAP Reconciliations" section below for reconciliations of the non-GAAP measures shown above.

Net Sales - Net sales increased decreased by \$303.0 million \$154.1 million to \$835.6 million \$681.5 million for the year ended December 31, 2022 December 31, 2023 compared to the year ended December 31, 2021 December 31, 2022. This increase decrease was primarily due to favorable unfavorable UAN and ammonia pricing conditions which contributed \$347.7 million in higher revenues, reduced revenue by \$373.5 million, partially offset by decreased increased sales volumes which reduced revenues by \$53.8 million contributed \$210.0 million in higher revenue compared to the year ended December 31, 2021 December 31, 2022. For the years ended December 31, 2022 December 31, 2023 and 2021, 2022, net sales included \$34.8 million \$42.1 million and \$31.4 million \$34.8 million in freight revenue respectively, and \$18.2 million and \$11.3 million and \$10.3 million in other revenue, respectively.

The following table demonstrates the impact of changes in sales volumes and pricing for the primary components of net sales, excluding urea products, freight, and other revenue, for the year ended December 31, 2022 December 31, 2023 compared to the year ended December 31, 2021 December 31, 2022:

(in thousands)	(in thousands)	Price Variance	Volume Variance	(in thousands)	Price Variance	Volume Variance
UAN	UAN	\$254,225	\$(13,708)			
Ammonia	Ammonia	93,521	(40,138)			

For the year ended December 31, 2022 December 31, 2023 compared to the year ended December 31, 2021 December 31, 2022, ammonia and UAN sales prices were favorable unfavorable primarily due to continued tight market conditions due to lower fertilizer supply driven by ongoing impacts from natural gas prices and increased global supplies of nitrogen fertilizers in the Russia-Ukraine conflict, including reduced production from Europe as a result of the high energy price environment, and higher crop pricing, current year. Total product sales volumes were unfavorable favorable driven by lower reduced production due to volumes and utilization during the planned turnarounds at both facilities in the third quarter of 2022, which subsequently improved operational reliability. In addition, there was minimal unplanned downtime associated with in 2023 compared to 2022 due to the Messer Outages at the Coffeyville Facility and various pieces of equipment being down at the East Dubuque Facility in 2022, along with the completion of the planned turnarounds at both facilities during the third quarter of 2022.

December 31, 2022 2023 | 41 43

Cost of Materials and Other

Direct Operating Expenses ⁽¹⁾

5806 5807

(1) Exclusive of depreciation and amortization expense.

Cost of Materials and Other - For the year ended December 31, 2022 December 31, 2023, cost of materials and other was \$130.9 million \$134.4 million compared to \$98.3 million \$130.9 million for the year ended December 31, 2021 December 31, 2022. The \$32.6 million \$3.5 million increase was driven primarily by increases in purchases of nitrogen and ammonia of \$16.8 million, increased natural gas higher third-party pet coke feedstock costs, of \$14.3 million, and higher distribution costs of \$3.8 million. These increases were partially offset by an inventory build contributing \$2.3 million, lower natural gas feedstock costs in the current period.

Direct Operating Expenses (exclusive of depreciation and amortization) - For the year ended December 31, 2022 December 31, 2023, direct operating expenses (exclusive of depreciation and amortization) were \$270.2 million \$234.9 million compared to \$198.7 million \$270.2 million for the year ended December 31, 2021 December 31, 2022. The \$71.5 million variance \$35.3 million decrease was primarily due to higher turnaround costs incurred during expenses in the prior period associated with the planned turnarounds taking place at both facilities during in the third quarter of 2022, which increased turnaround expenses by \$30.5 million, increased repair and maintenance expenses by \$14.9 million, and increased coupled with decreased personnel costs by \$2.7 million. In addition to these turnaround related increases, there were \$14.2 million of higher prices for from share-based compensation and lower natural gas for fuel purposes, \$4.0 million of increased operating materials and office electricity costs \$3.5 million related to higher electricity pricing, and \$2.6 million of higher insurance costs. These increases were partially offset by an inventory build contributing \$2.7 million, in the current period.

Depreciation and Amortization

Selling, General, and Administrative Expenses and Other Loss on Asset Disposal

7026 7027

Depreciation and Amortization Expense - Depreciation and amortization expense increased \$8.6 million decreased \$2.4 million for the year ended December 31, 2022 December 31, 2023 compared to the year ended December 31, 2021 December 31, 2022, primarily as a result of \$8.2 million of accelerated

December 31, 2022 | 42

depreciation related to various assets scheduled for retirement during our 2022 planned turnarounds, being fully depreciated in the prior period, as well as fluctuations in depreciation on new projects placed into service during these turnarounds, capitalized to inventory.

Selling, General, and Administrative Expenses and Other Loss on Asset Disposal - Selling, general and administrative expenses and other increased Loss on asset disposal, combined, decreased approximately \$4.9 million \$1.4 million for the year ended December 31, 2022 December 31, 2023 compared

December 31, 2023 | 44

to the year ended December 31, 2021 December 31, 2022. The increase decrease was primarily related to increased personnel costs in 2022, mostly attributable to lower share-based compensation contributing \$3.6 million and increased expenses for outside services, public relations, and insurance contributing \$1.7 million, partially offset by due to a decrease in loss on asset disposals of \$0.7 million.

Other Income, Net - Other income, net market prices for CVR Partners' common units in the year ended December 31, 2022 was \$1.1 million, compared to \$4.7 million for the year ended December 31, 2021. The decrease was due to sales of natural gas at the East Dubuque Facility in February 2021, partially offset by a \$0.9 million settlement received in 2022 related to an outage at the Coffeyville Facility in July 2021. current period.

Non-GAAP Measures

Our management uses certain non-GAAP performance measures, and reconciliations to those measures, to evaluate current and past performance and prospects for the future to supplement our financial information presented in accordance with accounting principles generally accepted in the United States ("GAAP"). These non-GAAP financial measures are important factors in assessing our operating results and profitability and include the performance and liquidity measures defined below.

The following are non-GAAP measures we present for the year years ended December 31, 2022: December 31, 2023, 2022, and 2021:

EBITDA - Net income (loss) before (i) interest expense, net, (ii) income tax expense (benefit) and (iii) depreciation and amortization expense.

Adjusted EBITDA - EBITDA adjusted for certain significant non-cash noncash items and items that management believes are not attributable to or indicative of our on-going operations or that may obscure our underlying results and trends.

Reconciliation of Net Cash Provided By Operating Activities to EBITDA - Net cash provided by operating activities reduced by (i) interest expense, net, (ii) income tax expense (benefit), (iii) change in working capital, and (iv) other non-cash adjustments.

Available Cash for Distribution - EBITDA for the quarter excluding non-cash noncash income or expense items (if any), for which adjustment is deemed necessary or appropriate by the board of directors of our general partner (the "Board") Board in its sole discretion, less (i) reserves for maintenance capital expenditures, debt service and other contractual obligations and (ii) reserves for future operating or capital needs (if any), in each case, that the Board deems necessary or appropriate in its sole discretion. Available cash Cash for distribution Distribution may be increased by the release of previously established cash reserves, if any, and other excess cash, at the discretion of the Board.

We present these measures because we believe they may help investors, analysts, lenders, and ratings agencies analyze our results of operations and liquidity in conjunction with our GAAP results, including, but not limited to, our operating performance as compared to other publicly traded companies in the fertilizer industry, without regard to historical cost basis or financing methods, and our ability to incur and service debt and fund capital expenditures. Non-GAAP measures have important limitations as analytical tools because they exclude some, but not all, items that affect net earnings and operating income. These measures should not be considered substitutes for their most directly comparable GAAP

financial measures. Refer to the "Non-GAAP Reconciliations" included herein for reconciliation of these amounts. Due to rounding, numbers presented within this section may not add or equal to numbers or totals presented elsewhere within this document.

December 31, 2022 | 43

Factors Affecting Comparability of Our Financial Results

Major Scheduled Turnaround Activities

Our historical results of operations for the periods presented may not be comparable with prior periods or to our results of operations in the future for the reasons discussed below.

Major Scheduled Turnaround Activities

Coffeyville Facility - A due to expenses incurred as part of planned turnaround at the Coffeyville Facility commenced in July 2022 and was completed in mid-August 2022. For the year ended December 31, 2022, we turnarounds. We incurred turnaround expense expenses of \$12.1 million. For the year ended December 31, 2021, we incurred turnaround expense of \$0.3 \$1.8 million, related to planning for the Coffeyville Facility's turnaround completed during the third quarter of 2022. During the planning and execution of this turnaround, the Partnership updated the estimated useful lives of certain assets, which resulted in additional depreciation expense of \$6.2 million during the year ended December 31, 2022. Additionally, the Coffeyville Facility had planned downtime during the fourth quarter of 2021 at a cost of \$2.0 million.

East Dubuque Facility - A planned turnaround at the East Dubuque Facility commenced in August 2022 and was completed in mid-September 2022. For the year ended December 31, 2022, we incurred turnaround expense of \$21.3 million. For the year ended December 31, 2021, we incurred turnaround expense of \$0.6 million related to planning for the East Dubuque Facility's turnaround completed during the third quarter of 2022. During the planning and execution of this turnaround, the Partnership updated the estimated useful lives of certain assets, which resulted in additional depreciation expense of \$6.4 \$33.4 million, and \$4.5 \$2.9 million during the years ended December 31, 2022 December 31, 2023, 2022, and 2021, respectively.

The next planned turnarounds are currently scheduled to take place in 2025 at the Coffeyville Facility and in 2026 at the East Dubuque Facility.

(1) Includes reserves for debt service (interest expense) and other future operating needs.

(2) Includes reserves for future capital expenditures, including turnarounds, and other future investing activities, as well as cash impacts from equity method investments.

(3) Includes reserves for debt financing, repurchase of common units and other future financing activities.

(4) Amount represents the cumulative available cash based on full year results. However, available cash for distribution is calculated quarterly, with distributions (if any) being paid in the period following declaration.

(5) The Partnership declared and paid cash distributions of \$5.24, \$2.26, \$10.05, \$10.50, \$10.43, \$4.14, and \$1.77 per common unit related to the fourth quarter of 2021, and first, second, and third quarters of 2022, respectively, and declared a cash distribution of \$10.50 \$1.55 per common unit related to the fourth quarter of 2022, and the first, second, and third quarters of 2023, respectively, and declared a cash distribution of \$1.68 per common unit related to the fourth quarter of 2023, to be paid in March 2023, 2024.

December 31, 2022 | 45

Liquidity and Capital Resources

Our principal source of liquidity has historically been and continues to be cash from operations, which can include cash advances from customers resulting from prepay contracts. Our principal uses of cash are for working capital, capital expenditures, funding our debt service obligations, and paying distributions to our unitholders, as further discussed below.

Fertilizer Current geopolitical matters, such as the conflict between Israel and Hamas and the ongoing Russia-Ukraine war, have contributed to the volatile fertilizer and agricultural market conditions, improved steadily throughout 2021 driving uncertainty around the availability and into 2022 driven by a combination prices of increased feedstocks, demand for products, amid a series of supply disruptions that led to tight fertilizer inventories inflation, and concerns around availability of product. In the first quarter of 2022 following the Russian invasion of Ukraine, fertilizer prices increased further and have been volatile over concerns of a reduction in global supply of fertilizers due to restrictions on supply of Russian fertilizers and Russia's decision to restrict fertilizer exports through the end of 2022. Further, the disruption in natural gas flows to Europe following the shutdown of the Nordstream pipeline in the summer of 2022 resulted in a spike in European natural gas and electricity prices, causing many nitrogen fertilizer production facilities in Europe to cease or curtail operations. As a result nitrogen fertilizer exports from the U.S. to Europe have increased, thereby reducing the domestic availability of nitrogen fertilizers in the United States and causing prices to move higher. disruptions. Despite the volatility in recent commodity pricing, the increase in nitrogen fertilizer product pricing has had a favorable impact to our business remains above the recent 5-year average and has not significantly impacted our primary source of liquidity. While we believe demand for our fertilizer products is stable, there is still uncertainty on the horizon as countries weigh potential impacts of the ongoing Russia-Ukraine conflict. In executing financial discipline, we are continuing to focus maintenance capital expenditures to only include those projects which are a priority to support continuing safe and reliable operations, or which are considered critical to support future activities.

When considering the market conditions and actions described above, we currently believe that our cash from operations and existing cash and cash equivalents, along with borrowings and reserves, as necessary, will be sufficient to satisfy anticipated cash requirements associated with our existing operations for at least the next 12 months. However, our future capital expenditures and other cash requirements could be higher than we currently expect as a result of various factors including, but not limited to, rising material and labor costs and other inflationary pressures. Additionally, our ability to generate sufficient cash from our operating activities and secure additional financing depends on our future performance, which is subject to operating performance, as well as general economic, political, financial, competitive, and other factors, some of which may be beyond our control.

Depending on the needs of our business, contractual limitations, and market conditions, we may from time to time seek to issue equity securities, incur additional debt, issue debt securities, or redeem, repurchase, refinance, or retire our outstanding debt through privately negotiated transactions, open market repurchases, redemptions, exchanges, tender offers or otherwise, but we are under no obligation to do so. There can be no assurance that we will seek to do any of the foregoing or that we will be able to do any of the foregoing on terms acceptable to us or at all.

December 31, 2023 | 46

On February 22, 2022 September 26, 2023, CVR Partners and certain of its subsidiaries entered into Amendment No. 1 to the Partnership redeemed Credit Agreement (the "ABL Amendment") with Wells Fargo Bank, National Association, a national banking associate ("Wells Fargo"), as administrative agent, collateral agent and a lender. The ABL Amendment amended that certain Credit Agreement, dated as of September 30, 2021 (as amended, the remaining \$65 million in "ABL Credit Facility"), by and among the credit parties thereto and Wells Fargo, as administrative agent, collateral agent and a lender, to, among other things, (i) increase the aggregate principal amount available under the credit facility by an additional \$15.0 million to a total of its 9.25% Senior Secured Notes, due June 2023 (the "2023 Notes") at par, plus accrued and unpaid interest. This transaction represents a significant and favorable change \$50.0 million in the Partnership's cash flow and liquidity position aggregate, with annual savings an incremental facility of approximately \$6.0 an additional \$15.0 million in future interest expense, as compared the aggregate subject to our 2021 Form 10-K, additional lender commitments and certain other conditions, and (ii) extend the maturity date by an additional four years to September 26, 2028. Refer to Part II, Item 8, Note 58 ("Long-Term Debt") of this Report for further information. discussion.

The Partnership and its subsidiaries were in compliance with all applicable covenants under their respective debt instruments as of December 31, 2022 December 31, 2023 and through the date of filing. filing, as applicable.

We do not have any "off-balance sheet arrangements" as such term is defined within the rules and regulations of the SEC.

Cash and Other Liquidity

As of December 31, 2022 December 31, 2023, we had cash and cash equivalents of \$86.3 million \$45.3 million, including \$13.7 million \$2.5 million of customer advances. Combined with \$35.0 million \$39.0 million available under our ABL Credit Agreement, Facility, we had total liquidity of \$121.3 million \$84.3 million as of December 31, 2022 December 31, 2023. As of December 31, 2021 December 31, 2022, we had \$112.5 million \$86.3 million in cash and cash equivalents, including \$34.2 million \$13.7 million of customer advances.

	2023	2022
6.125% Senior Secured Notes, due June 2028	550,000	550,000
Unamortized debt issuance costs	(2,692)	(3,200)
Total long-term debt	\$ 547,308	\$ 546,800

As of December 31, 2022 December 31, 2023, the Partnership had the 6.125% Senior Secured Notes, due June 2028 Notes (the "2028 Notes") and the ABL Credit Facility, the proceeds of which may be used to fund working capital and capital expenditures, and for other general corporate purposes. Refer to Part II, Item 8, Note 58 ("Long-Term Debt") of this Report for further information.

Capital Spending

We divide capital spending needs into two categories: maintenance and growth. Maintenance capital spending includes non-discretionary maintenance projects and projects required to comply with environmental, health, and safety regulations. Growth capital projects generally involve an expansion of existing capacity and/or a reduction in direct operating expenses. We undertake growth capital spending based on the expected return on incremental capital employed.

Our total capital expenditures for the years ended December 31, 2022 December 31, 2023 and 2021, 2022, along with our estimated expenditures for 2023 2024 are as follows:

(in thousands)	Year Ended December 31,		Estimated ⁽¹⁾
	2022	2021	2023
Maintenance capital	\$ 40,793	\$ 16,226	\$31,000 - 33,000
Growth capital	653	9,460	2,000 - 3,000

Total capital expenditures	\$ 41,446	\$ 25,686	\$33,000 - 36,000
----------------------------	-----------	-----------	-------------------

(1) Total 2023 estimated capitalized costs include approximately \$0.5 million of growth related projects that will require additional approvals before commencement.

(in thousands)	Year Ended December 31,		Estimated
	2023	2022	2024
Maintenance capital	\$ 28,025	\$ 40,793	\$32,000 - 35,000
Growth capital	1,056	653	12,000 - 13,000
Total capital expenditures	\$ 29,081	\$ 41,446	\$44,000 - 48,000

Our estimated capital expenditures are subject to change due to **unanticipated** changes in the cost, scope, and completion time for capital projects. For example, we may experience **unexpected** changes in labor or equipment costs necessary to comply with government regulations or to complete projects that sustain or improve the profitability of the nitrogen fertilizer facilities. We may also accelerate or defer some capital expenditures from time to time. Capital spending for CVR Partners is determined by the Board. We will continue to monitor market conditions and make adjustments, if needed, to our current capital spending or turnaround plans.

The planned

December 31, 2023 | 47

We incurred turnaround at the Coffeyville Facility commenced in July 2022 expenses of \$1.8 million, \$33.4 million, and was completed in mid-August 2022. The planned turnaround at the East Dubuque Facility commenced in August 2022 and was completed in mid-September 2022. For \$2.9 million during the years ended December 31, 2022 December 31, 2023, 2022, and 2021, we incurred turnaround expense of \$12.1 million and \$0.3 million, respectively, respectively. The next planned turnarounds are currently scheduled to take place in 2025 at the Coffeyville Facility and \$21.3 million and \$0.6 million, respectively, in 2026 at the East Dubuque Facility. Additionally,

Cash Requirements

The following table summarizes our known contractual obligations and other commercial commitments as of December 31, 2023 that are expected to be paid within the Coffeyville Facility had planned downtime next year and thereafter:

(in thousands)	Payments Due by Period		Total
	Short-Term	Long-Term	
Debt obligations (1)	\$ —	\$ 550,000	\$ 550,000
Interest payments related to debt obligations (2)	33,941	118,856	152,797
Operating lease liabilities (3)	3,816	10,151	13,967
Purchase commitments (4)	48,166	81,324	129,490
Transportation agreements (5)	6,665	9,070	15,734
Total cash requirements	\$ 92,588	\$ 769,401	\$ 861,989

(1) Debt obligations consist of the 2028 Notes as of December 31, 2023.

(2) Interest payments related to debt obligations consist of interest payments for certain maintenance activities during our long-term debt outstanding as of December 31, 2023 and commitment fees on the fourth quarter unutilized commitments of 2021 at a cost the ABL Credit Facility.

(3) Operating lease liabilities are described in Part II, Item 8, Note 6 ("Leases") of \$2.0 million, this Report.

(4) Consists primarily of purchase obligations for pet coke and other feedstocks, as well as water and utilities usage.

(5) Includes purchase obligations related to the transportation of feedstocks.

Distributions to Unitholders

The current policy of the Board is to distribute all Available Cash for Distribution, as determined by the Board in its sole discretion, the Partnership generated on a quarterly basis. Available Cash for Distribution for each quarter will be determined by the Board following the end of such quarter. Available Cash for Distribution for each quarter is calculated as EBITDA for the quarter excluding **non-cash** **noncash** income or expense items (if any), for which adjustment is deemed necessary or appropriate by the Board in its sole discretion, less (i) reserves for maintenance capital expenditures, debt service and other contractual obligations, and (ii) reserves for future operating or capital needs (if any), in each case, that the Board deems necessary or appropriate in its sole discretion. Available **cash** **Cash** for **distribution**

December 31, 2022 | 47

Distribution may be increased by the release of previously established cash reserves, if any, and other excess cash, at the discretion of the Board.

Distributions, if any, including the payment, amount, and timing thereof, and the Board's distribution policy, including the definition of Available Cash for Distribution, are subject to change at the discretion of the Board. The following tables present quarterly distributions paid by the Partnership to CVR Partners' unitholders, including amounts paid to CVR Energy, during 2022 2023 and 2021 2022 (amounts presented in the table below may not add to totals presented due to rounding):

Related Period	Date Paid	Quarterly Distributions Per Common Unit	Quarterly Distributions Paid (in thousands)

2023 - 1st Quarter	May 22, 2023	10.43	69,647	40,594	110,241
2023 - 2nd Quarter	August 21, 2023	4.14	27,646	16,113	43,759
2023 - 3rd Quarter	November 20, 2023	1.55	10,350	6,033	16,383
Total 2023 quarterly distributions		\$ 26.62	\$ 177,759	\$ 103,605	\$ 281,364

December 31, 2023 | 48

Related Period	Date Paid	Quarterly Distributions Per Common Unit	Quarterly Distributions Paid (in thousands)		
			Public Unitholders	CVR Energy	Total
2021 - 4th Quarter	March 14, 2022	\$ 5.24	\$ 35,576	\$ 20,394	\$ 55,970
2022 - 1st Quarter	May 23, 2022	2.26	15,091	8,796	23,887
2022 - 2nd Quarter	August 22, 2022	10.05	67,109	39,115	106,225
2022 - 3rd Quarter	November 21, 2022	1.77	11,819	6,889	18,708
Total 2022 quarterly distributions		\$ 19.32	\$ 129,597	\$ 75,193	\$ 204,790

Related Period	Date Paid	Quarterly Distributions Per Common Unit	Quarterly Distributions Paid (in thousands)		
			Public Unitholders	CVR Energy	Total
2021 - 2nd Quarter	August 23, 2021	\$ 1.72	\$ 11,678	\$ 6,694	\$ 18,372
2021 - 3rd Quarter	November 22, 2021	2.93	19,893	11,404	31,297
Total 2021 quarterly distributions		\$ 4.65	\$ 31,571	\$ 18,098	\$ 49,669

There were no quarterly distributions declared or paid by the Partnership related to the first quarter of 2021 and the fourth quarter of 2020. During the year ended December 31, 2020, there were no quarterly distributions declared or paid by the Partnership.

For the fourth quarter of 2022, 2023, the Partnership, upon approval by the Board on February 21, 2023 February 20, 2024, declared a distribution of \$10.50 \$1.68 per common unit, or \$111.0 million \$17.8 million, which is payable March 13, 2023 March 11, 2024 to unitholders of record as of March 6, 2023 March 4, 2024. Of this amount, CVR Energy will receive approximately \$40.9 million \$6.5 million, with the remaining amount payable to public unitholders.

Capital Structure

On May 6, 2020, the Board, on behalf of the Partnership, authorized a unit repurchase program (the "Unit Repurchase Program"), which was increased on February 22, 2021. The Unit Repurchase Program, as increased, authorized the Partnership to repurchase up to \$20 million of the Partnership's common units. During the year ended December 31, 2023, CVR Partners did not repurchase any common units. During the years ended December 31, 2022 and 2021, the Partnership CVR Partners repurchased 111,695 and 24,378 common units, respectively, on the open market in accordance with a repurchase agreement under Rules 10b5-1 and 10b-18 of the Securities Exchange Act of 1934, as amended, at a cost of \$12.4 million and \$0.5 million, respectively, exclusive of transaction costs, or an average price of \$110.98 and \$21.69 per common unit, respectively. As of December 31, 2022 December 31, 2023, considering all repurchases made since inception of the Partnership Unit Repurchase Program, CVR Partners had a nominal authorized amount

remaining under the Unit Repurchase Program. This Unit Repurchase Program does not obligate the Partnership to acquire any common units and may be cancelled or terminated by the Board at any time. On February 20, 2024, the Board, on behalf of the Partnership, terminated the nominal authority remaining under the Unit Repurchase Program.

December 31, 2022 | 48

Cash Flows

The following table sets forth our cash flows for the periods indicated below:

(in thousands)	(in thousands)	Year Ended December 31,			(in thousands)	Year Ended December 31,		
		2022	2021	2020		2023	2022	2021

December 31, 2023 | 49

Operating Activities

The change in net cash flows from operating activities for the year ended December 31, 2022 December 31, 2023 as compared to the year ended December 31, 2021 December 31, 2022 is primarily due to a \$209 million increase \$114.4 million decrease in net income in 2022 as a result of stronger lower product prices, partially offset by increased sales related to the higher price environment in which our products were sold in 2022 compared to 2021, volumes and a \$2.2 million net increase \$17.0 million decrease in non-cash share based noncash share-based compensation as a result of higher lower market prices for CVR Partners' units. This is partially offset by an unfavorable change increase in working capital of \$90.9 million \$70.6 million primarily due to decreasing deferred revenues increases in 2022 compared to increasing deferred revenues accounts receivable and inventories, partially offset by decreases in 2021 and increasing accounts payable in 2021 in preparation for the 2022 planned turnarounds as compared to 2022, and a \$7.8 million reduction in the loss on extinguishment of debt primarily associated with the partial redemption of the 2023 Notes in June 2021. deferred revenue.

Investing Activities

The change in net cash used in investing activities for the year ended December 31, 2022 December 31, 2023 compared to the year ended December 31, 2021 December 31, 2022 was primarily due to increased distributions received from CVR Partners' equity method investment of \$21.5 million associated with the 45Q Transaction in 2023 and a decrease in capital expenditures of \$20.5 million during 2022 of \$24.1 million 2023 resulting from fixed asset additions related reduced spending on capital projects compared to both facilities' turnarounds in 2022.

Financing Activities

The change in net cash used in financing activities for the year ended December 31, 2022 December 31, 2023 compared to the year ended December 31, 2021 December 31, 2022 was primarily due to an increase of \$155.1 million \$76.6 million in cash distributions paid in 2022 2023 compared to 2021, a change 2022. This is partially offset by decreases of \$32.8 million in \$65.0 million and \$12.4 million used for the redemption of the remaining balance of the 2023 Notes during 2022 compared to the partial redemption and unit repurchases of the 2023 Notes and the 6.5% Notes due April 2021 during 2021, and an increase of \$11.9 million for unit repurchases Partnership's common units in 2022, compared to 2021. These are partially offset by a \$3.1 million decrease respectively, with no corresponding amounts in deferred financing costs paid in 2022 compared to 2021. Additionally, in June 2021, the Partnership completed a private offering of \$550.0 million aggregate principal amount of the 2028 Notes and used the proceeds, plus cash on hand, to redeem a portion of the 2023 Notes. 2023.

Recent Accounting Pronouncements

Refer to Part II, Item 8, Note 2 ("Summary of Significant Accounting Policies") of this Report for a discussion of recent accounting pronouncements applicable to the Partnership.

Critical Accounting Estimates

We prepare our consolidated financial statements in accordance with GAAP requiring management to make judgments, assumptions, and estimates based on the best available information at the time. Accounting estimates are considered to be critical if (1) the nature of the estimates and assumptions is material due to the levels of subjectivity and judgment necessary to account for highly uncertain matters or the susceptibility of such matters to change; and (2) the impact of the estimates and assumptions on financial condition or operating performance is material. Actual results could differ from the estimates and assumptions used.

December 31, 2022 | 49

Inventory Valuation

The cost of our fertilizer product inventories is determined under the first-in, first-out (FIFO) method. Our ("FIFO") method and our FIFO inventories are carried at the lower of cost or net realizable value. We compare the estimated realizable value of inventories to their cost by product at each of our facilities. Depending on inventory levels, the per-ton realizable value of our fertilizer products is estimated using pricing on in-transit orders, pricing for open, fixed-price orders that have not shipped, and, if volumes remain unaccounted for, current management pricing estimates for fertilizer products. Management's estimate for current pricing reflects up-to-date pricing in each facility's market as of the end of each reporting period. Reductions to selling prices for unreimbursed freight costs are included to arrive at net realizable value, as applicable. During There were no inventory adjustments recognized during the years ended December 31, 2022 December 31, 2023, 2022, and December 31, 2021, there were no adjustments. For the year ended December 31, 2020, we recognized a loss of \$0.7 million in inventory to reflect its net realizable value. 2021. Due to the amount and variability in volume of fertilizer product inventories maintained, changes in production costs, and the volatility of market pricing for fertilizer products, losses recognized to reflect fertilizer product inventories at the lower of cost or net realizable value could have a material impact on the Partnership's results of operations.

Impairment of Long-lived Assets

Long-lived assets used in operations are assessed for impairment whenever changes in facts and circumstances indicate a possible significant deterioration in future expected cash flows. If the sum of the undiscounted expected future cash flows of an asset group is less than the carrying value, including applicable liabilities, the carrying value is written down to its estimated fair value. Individual assets are grouped for impairment purposes based on a judgmental assessment of the lowest level for

December 31, 2023 | 50

which there are identifiable cash flows that are largely independent of the cash flows of other assets (for example, at a fertilizer facility level). In addition, when preparing the expected future cash flows or estimating the fair value of impaired assets, we make several estimates that include subjective assumptions related to future sales volumes, commodity prices, operating costs, discount rates, and capital expenditures, among others.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Commodity Price Risk

We are exposed to significant market risk due to potential changes in prices for fertilizer products, pet coke, and natural gas. Natural gas is the primary raw material used in the production of various nitrogen-based products manufactured at our East Dubuque Facility. We have commitments to purchase natural gas for use in our East Dubuque Facility at the spot market and through short-term, fixed supply, fixed price, and index price purchase contracts.

In the normal course of business, we produce nitrogen-based fertilizer products throughout the year to supply the needs of our customers during the high-delivery-volume spring and fall seasons. The value of fertilizer product inventory is subject to market risk due to fluctuations in the relevant commodity prices. Prices of nitrogen fertilizer products can be volatile. We volatile, and we believe that market prices of nitrogen products they are affected by changes in grain prices, demand, natural gas prices, and other factors. In the opinion of our management, there is are no derivative financial instrument instruments that correlates effectively correlate with and has a trading volume sufficient to hedge, our firm commitments and forecasted commodity sales transactions. transactions and could be used to effectively reduce commodity price risk.

Report of Independent Registered Public Accounting Firm

The Board of Directors of CVR GP, LLC
The Unitholders of CVR Partners, LP
The General Partner of CVR Partners, LP:

Opinion on the financial statements

We have audited the accompanying consolidated balance sheets of CVR Partners, LP (a Delaware limited partnership) and subsidiaries (the "Partnership") as of December 31, 2022 December 31, 2023 and 2021, 2022, the related consolidated statements of operations, partners' capital, and cash flows for each of the three years in the period ended December 31, 2022 December 31, 2023, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Partnership as of December 31, 2022 December 31, 2023 and 2021, 2022, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2022 December 31, 2023, in conformity with accounting principles generally accepted in the United States of America.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"), the Partnership's internal control over financial reporting as of December 31, 2022 December 31, 2023, based on criteria established in the 2013 Internal Control-Integrated Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"), and our report dated February 22, 2023 February 21, 2024, expressed an unqualified opinion.

Basis for opinion

These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on the Partnership's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Partnership in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical audit matters

Critical audit matters are matters arising from the current period audit of the financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. We determined that there are no critical audit matters.

/s/ GRANT THORNTON LLP

We have served as the Partnership's auditor since 2013.

Report of Independent Registered Public Accounting Firm

The Board of Directors of CVR GP, LLC
The Unitholders of CVR Partners, LP
The General Partner of CVR Partners, LP:

Opinion on internal control over financial reporting

We have audited the internal control over financial reporting of CVR Partners, LP (a Delaware limited partnership) and subsidiaries (the "Partnership") as of December 31, 2022 December 31, 2023, based on criteria established in the 2013 Internal Control-Integrated Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). In our opinion, the Partnership maintained, in all material respects, effective internal control over financial reporting as of December 31, 2022 December 31, 2023, based on criteria established in the 2013 Internal Control-Integrated Control-Integrated Framework issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"), the consolidated financial statements of the Partnership as of and for the year ended December 31, 2022 December 31, 2023, and our report dated February 22, 2023 February 21, 2024 expressed an unqualified opinion on those financial statements.

Basis for opinion

The Partnership's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Partnership's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Partnership in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and limitations of internal control over financial reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

CVR PARTNERS, LP AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) Organization and Nature of Business

CVR Partners, LP ("CVR Partners" or the "Partnership") is a Delaware limited partnership formed by CVR Energy, Inc. (together with its subsidiaries, but excluding the Partnership and its subsidiaries, "CVR Energy") to own, operate and grow its nitrogen fertilizer business. The Partnership produces nitrogen fertilizer products at two manufacturing facilities, one located in Coffeyville, Kansas operated by our wholly owned subsidiary, Coffeyville Resources Nitrogen Fertilizers, LLC ("CRNF") (the "Coffeyville Facility") and one located in East Dubuque, Illinois operated by our wholly owned subsidiary, East Dubuque Nitrogen Fertilizers, LLC ("EDNF") (the "East Dubuque Facility"). Both facilities manufacture ammonia and are able to further upgrade such ammonia to other nitrogen fertilizer products, principally urea ammonium nitrate ("UAN"). Nitrogen fertilizer is used by farmers to improve the yield and quality of their crops, primarily corn and wheat. The Partnership's products are sold on a wholesale basis in the United States of America. As used in these financial statements, references to CVR Partners, the Partnership, "we", "us", and "our" may refer to consolidated subsidiaries of CVR Partners or one or both of the facilities, as the context may require.

Interest Holders

As of December 31, 2022 December 31, 2023, public common unitholders held approximately 63% of the Partnership's outstanding limited partner interests; CVR Services, LLC ("CVR Services"), a wholly-owned subsidiary of CVR Energy, held the remaining approximately 37% of the Partnership's outstanding limited partner interests; and CVR GP, LLC ("CVR GP" or the "general partner" General Partner), a wholly owned subsidiary of CVR Energy, held 100% of the Partnership's general partner interest. As of December 31, 2022 December 31, 2023, Icahn Enterprises L.P. and its affiliates owned approximately 71% 66% of the common stock of CVR Energy.

Unit Repurchase Program

On May 6, 2020, the board of directors of the Partnership's general partner (the "Board"), on behalf of the Partnership, authorized a unit repurchase program (the "Unit Repurchase Program"), which was increased on February 22, 2021. The Unit Repurchase Program, as increased, authorized the Partnership to repurchase up to \$20 million of the Partnership's common units. During the year ended December 31, 2023, the Partnership did not repurchase any common units. During the years ended December 31, 2022 and 2021, the Partnership repurchased 111,695 and 24,378 common units, respectively, on the open market in accordance with a repurchase agreement under Rules 10b5-1 and 10b-18 of the Securities Exchange Act of 1934, as amended, at a cost of \$12.4 million and \$0.5 million, respectively, exclusive of transaction costs, or an average price of \$110.98 and

\$21.69 per common unit, respectively. During the year ended December 31, 2020, as adjusted to reflect the impactAs of the 1-for-10 reverse unit split of the Partnership's common units that was effective as of November 23, 2020December 31, 2023, the Partnership, repurchased 623,177 common units at a cost considering all repurchases made since inception of \$7.1 million, inclusive of transaction costs, or an average price of \$11.34 per common unit. As of December 31, 2022, the Partnership Unit Repurchase Program, had a nominal authorized amount remaining under the Unit Repurchase Program. This Unit Repurchase Program does not obligate the Partnership to purchase any common units and may be cancelled, modified, or terminated by the Board at any time. On February 20, 2024, the Board, on behalf of the Partnership, terminated the nominal authority remaining under the Unit Repurchase Program.

Management and Operations

The Partnership, including CVR GP, the General Partner, is managed by a combination of the Board, the general partner's executive officers, CVR Services (as sole member of the general partner), and certain officers of CVR Energy and its subsidiaries, pursuant to the Partnership Agreement, as well as a number of agreements among the Partnership, CVR GP, the General Partner, CVR Energy, and certain of their respective subsidiaries, including a service agreement. See Note 9 12 ("Related Party Transactions") for further discussion. Common unitholders have limited voting rights on matters affecting the Partnership and have no right to elect the general partner's directors or officers, whether on an annual or continuing basis or otherwise.

Section 45Q Transaction

Certain carbon oxide capture and sequestration activities conducted at or in connection with the Coffeyville Facility qualify under the Internal Revenue Service ("IRS") safe harbor described in Revenue Procedure 2020-12 for certain tax credits available to joint ventures under Section 45Q of the Internal Revenue Code of 1986, as amended ("Section 45Q Credits"). In January 2023, CVR Partners and its subsidiary entered into a series of agreements with CapturePoint LLC, an unaffiliated Texas limited liability company, and certain unaffiliated third-party investors intended to qualify under the IRS safe harbor.

December 31, 2023 | 59

CVR PARTNERS, LP AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

described in Revenue Procedure 2020-12, for certain joint ventures that are eligible to claim Section 45Q Credits and allow us to monetize Section 45Q Credits we expect to generate from January 6, 2023 until March 31, 2030 (the "45Q Transaction"). Among other items, the 45Q Transaction resulted in the creation of a joint venture entity, CVR-CapturePoint Parent LLC ("CVRP JV"), which was accounted for by the Partnership as an equity-method investment. See Note 5 ("Equity Method Investments") for further discussion.

Subsequent Events

The Partnership evaluated subsequent events, if any, that would require an adjustment to the Partnership's consolidated financial statements or require disclosure in the notes to the consolidated financial statements through the date of issuance of these consolidated financial statements. Where applicable, the notes to these consolidated financial statements have been updated to discuss all significant subsequent events which have occurred.

(2) Summary of Significant Accounting Policies

Principles of Consolidation

The accompanying consolidated financial statements, prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and in accordance with the rules and regulations of the Securities and Exchange

December 31, 2022 | 58

CVR PARTNERS, LP AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Commission ("SEC"), include the accounts of CVR Partners and its wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated.

Reclassifications

Certain immaterial reclassifications have been made within the consolidated financial statements for prior periods to conform with current presentation.

Use of Estimates

The consolidated financial statements are prepared in conformity with GAAP, which requires management to make certain estimates and assumptions that affect the reported amounts and disclosure of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates

are reviewed on an ongoing basis, based on currently available information. Changes in facts and circumstances may result in revised estimates, and actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, and on deposit demand deposits, and investments in highly liquid money market accounts with original maturities of three months or less. We maintain cash and cash equivalent balances with a single financial institution, which may at times be in excess of federally insured levels.

Accounts Receivable, net

Accounts receivable, net primarily consists of customer accounts receivable recorded at the invoiced amounts and generally do not bear interest. Also included within Accounts receivable, net are uncollected fixed price contracts which are discussed further within Note 6 ("Revenue").

Allowances for doubtful accounts are based on historical loss experience, expected credit losses from current economic conditions, and management's expectations of future economic conditions. The allowance is recorded when the receivable is deemed uncollectible and is booked to bad debt expense. The largest concentration of credit for any one customer was approximately 45% 40% and 22% 45% of the Accounts receivable, net balance at December 31, 2022 December 31, 2023 and 2021, 2022, respectively. There was no bad debt expense for the year years ended December 31, 2022. December 31, 2023 and 2022, respectively. For the years year ended December 31, 2021, and 2020, bad debt expenses were expense was \$0.2 million and \$0.1 million, respectively. .

Inventories

Inventories consist of fertilizer products and raw materials (primarily natural gas and pet coke), which are valued at the lower of GAAP First-In, First-Out ("FIFO") cost or net realizable value. Inventories also include parts and supplies that are valued at the weighted moving-average cost, which approximates FIFO. The cost of inventories includes inbound freight costs.

Inventories consisted of the following:

(in thousands)	December 31,	
	2022	2021
Finished goods	\$ 28,630	\$ 17,141
Raw materials	3,116	833
Parts, supplies and other	45,772	34,296
Total inventories	\$ 77,518	\$ 52,270

At December 31, 2022 and 2021, inventories included depreciation of approximately \$4.4 million and \$3.1 million, respectively.

CVR PARTNERS, LP AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Property, Plant and Equipment, net

Additions to property, plant and equipment, including capitalized interest and certain costs allocable to construction and property purchases, are recorded at cost. Expenditures for improvements that increase economic benefit or returns and/or extend useful life are capitalized. Depreciation is computed using the straight-line method over the estimated useful lives of the various classes of depreciable assets. The lives used in computing depreciation for significant asset classes are as follows:

Asset	Range of Useful Lives, in Years
Land and improvements	10 to 30
Buildings and improvements	3 to 30
Automotive equipment	5 to 30
Machinery and equipment	1 to 30
Other	3 to 10

Property, plant, and equipment, net consisted of the following:

(in thousands)	December 31,	
	2022	2021
Machinery and equipment	\$ 1,432,875	\$ 1,410,203
Buildings and improvements	17,461	17,598
Automotive equipment	16,377	16,433
Land and improvements	14,604	14,199
Construction in progress	7,858	14,167
Other	3,035	2,221
	1,492,210	1,474,821
Less: Accumulated depreciation and amortization	(681,216)	(624,359)
Total property, plant and equipment, net	\$ 810,994	\$ 850,462

Leasehold improvements and assets held under finance leases are depreciated or amortized utilizing the straight-line method over the shorter of the contractual lease term or the estimated useful life of the asset. Expenditures for routine maintenance and repair costs are expensed when incurred and are reported in Direct operating expenses (exclusive of depreciation and amortization) in the Partnership's Consolidated Statements of Operations. For

Equity Method Investments

The Partnership accounts for investments in which it has a noncontrolling interest, yet has significant influence over the years ended December 31, 2022, 2021, and 2020, depreciation and amortization expenses were \$81.3 million, \$72.4 million, and \$75.0 million, respectively. During entity, using the planning and execution equity method of the turnarounds at the Coffeyville and East Dubuque Facilities in 2022 and 2021, accounting, whereby the Partnership updated records its pro-rata share of earnings, contributions to, and distributions from joint ventures as adjustments to the estimated useful lives investment balance in Other long-term assets on our Consolidated Balance Sheets. The pro-rata share of certain assets, which resulted earnings is also recorded in additional depreciation expense Other (expense) income, net on our Consolidated Statements of \$12.7 million and \$4.5 million during the years ended December 31, 2022 and 2021, respectively.

During the year ended December 31, 2022, the Partnership had not identified the existence of an impairment indicator for our long-lived asset groups as outlined under the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 360, *Property, Plant, and Equipment*. Operations.

Leases

At inception, the Partnership determines whether an arrangement is a lease and, if so, the appropriate lease classification. Operating leases are included as operating lease right-of-use ("ROU") assets within Other long-term assets and lease liabilities within Other current liabilities and Other long-term liabilities on our Consolidated Balance Sheets. When applicable, finance leases are included as ROU finance leases within Property, plant, and equipment, net, and finance lease liabilities within Other current liabilities and Long-term debt, net of current portion on our Consolidated Balance Sheets. Leases with an initial expected term of 12 months or less are considered short-term and are not recorded on our Consolidated Balance Sheets. The Partnership recognizes lease expense for these leases on a straight-line basis over the expected lease term.

ROU assets represent the Partnership's right to use an underlying asset for the lease term, and lease liabilities represent the obligation to make lease payments arising from the lease. ROU assets and liabilities are recognized at the lease commencement

December 31, 2022 | 60

CVR PARTNERS, LP AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

date based on the present value of minimum lease payments over the lease term using an incremental borrowing rate with a maturity similar to the lease term, as our leases do not generally provide an implicit rate. term. The lease term is modified to reflect options to extend or terminate the lease when it is reasonably certain we will exercise such option. The depreciable life of assets and leasehold improvements is limited by the expected lease term, unless there is a transfer of title or purchase option reasonably certain of exercise, in which case the depreciation policy in the "Property, Plant and Equipment, net" section above is applicable. The periodic lease payments are treated as payments of the lease obligation and interest is recorded as interest expense. A lease modification is assessed to conclude whether it is a separate new contract or a modified contract. If it is a modified contract, the Partnership reconsiders the lease classification and remeasures the lease.

Deferred Financing Costs

Lender and other third-party costs associated with debt issuances are deferred and amortized to interest expense and other financing costs using the effective-interest method over the term of the debt. Deferred financing costs related to line-of-credit arrangements are amortized using the straight-line method through the maturity date of the facility. The deferred financing costs are included net within Long-term debt, net and in Other long-term liabilities for the line-of-credit arrangements where no debt balance exists.

December 31, 2023 | 61

CVR PARTNERS, LP AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Impairment of Long-Lived Assets and Goodwill

Long-lived assets (excluding goodwill, intangible assets with indefinite lives and deferred tax assets) are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or asset group may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated undiscounted future net cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future net cash flows, an impairment charge is recognized for the amount by which the carrying amount of the asset exceeds their fair value. Assets to be disposed of are reported at the lower of their carrying value or fair value less cost to sell.

Goodwill represents the excess of the cost of an acquired entity over the fair value of the assets acquired less liabilities assumed. Intangible assets are assets that lack physical substance (excluding financial assets). Goodwill acquired in a business combination and intangible assets with indefinite useful lives are not amortized, while intangible assets with finite useful lives are amortized. Goodwill and intangible assets not subject to amortization are tested for impairment annually or more frequently if events or changes in circumstances indicate the asset might be impaired. The Partnership uses November 1 of each year as its annual valuation date for its goodwill impairment test.

One of our reporting units, the Coffeyville Facility, had a goodwill balance of \$41.0 million at December 31, 2019, which was fully impaired during the second quarter of 2020 when it was determined the estimated fair value of the Coffeyville Facility reporting unit did not exceed its carrying value. As there was no goodwill balance as of December 31, 2022 and 2021, no annual impairment review was performed.

Asset Retirement Obligations

The Partnership records an asset retirement obligation ("ARO") at fair value for the estimated cost to retire a tangible long-lived asset at the time the liability is incurred, which is generally when the asset is purchased, constructed, or leased. The liability is recorded when there is a legal or contractual obligation to incur costs to retire the asset and only when a reasonable estimate of the fair value can be made.

Certain of the Partnership's assets can be used for extended or indeterminate periods of time with proper maintenance and upgrades, which the Partnership intends, and has a historical practice of, to maintain and upgrade as technological advances are made available. As a result, the Partnership believes these assets have indeterminate lives for purposes of estimating AROs. A liability will be recognized at such time when sufficient information exists to estimate a date or range of potential settlement dates needed to employ a present value technique to estimate fair value.

Loss Contingencies

In the ordinary course of business, CVR Partners may become party to lawsuits, administrative proceedings, and governmental investigations, including environmental, regulatory, and other matters. The outcome of these matters cannot always be predicted accurately, but the Partnership accrues liabilities for these matters if the Partnership has determined that it is probable a loss will be incurred and the loss can be reasonably estimated. Accrued amounts, if any, are reflected in Other current liabilities or Other long-term liabilities on our Consolidated Balance Sheets depending on when the Partnership expects to expend such amounts. As of December 31, 2022, December 31, 2023 and 2021, 2022, there are no matters or contingencies that require recognition or disclosure.

December 31, 2022 | 61

CVR PARTNERS, LP AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Environmental, Health & Safety ("EH&S") Matters

The Partnership is subject to various stringent federal, state, and local environmental, health, and safety rules and regulations. Liabilities related to future remediation costs of past environmental contamination of properties are recognized when the related costs are considered probable and can be reasonably estimated. Estimates of these costs are based upon currently available facts, internal and third-party assessments of contamination, available remediation technology, site-specific costs, and currently enacted laws and regulations. In reporting environmental liabilities, no offset is made for potential recoveries. Loss contingency accruals, including those for environmental remediation, are subject to periodic management review and revision as further information develops or circumstances change and such accruals can take into account the legal liability of other parties. Management periodically reviews and, as appropriate, revises its environmental accruals. Environmental expenditures for capital assets are capitalized at the time of the expenditure when such costs provide future economic benefits. Accrued amounts, if any, are reflected in Other current liabilities or Other long-term liabilities on our Consolidated Balance Sheets depending on when the Partnership expects to expend such amounts. As of December 31, 2022, December 31, 2023 and 2021, 2022, no liabilities have been recognized for environmental remediation matters, as no matters have been identified that are considered to be probable or estimable.

Revenue Recognition

The Partnership's revenue is generated from contracts with customers and is recognized at a point in time when performance obligations are satisfied by transferring control of the products or services to a customer. The transfer of control occurs upon delivery of the product, as the customer accepts the product, has title and significant risks and rewards of ownership of the product, physical possession of the product has been transferred, and we have the right to payment.

December 31, 2023 | 62

CVR PARTNERS, LP AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The transaction prices of the Partnership's contracts are either fixed or based on market indices, and any uncertainty related to the variable consideration when determining the transaction price is resolved on the pricing date or the date when the product is delivered. The payment terms depend on the product and type of contract, but generally require customers to pay within 30 days or less, and do not contain significant financing components.

Any pass-through finished goods delivery costs reimbursed by customers are reported in Net sales, while an offsetting expense is included in Cost of materials and other. Non-monetary product exchanges which are entered into in the normal course of business are included on a net cost basis in Cost of materials and other on our Consolidated Statements of Operations. Qualifying excise and other taxes collected from customers and remitted to governmental authorities are recorded as a reduction of the transaction price.

Certain sales contracts require customer prepayment prior to product delivery to guarantee a price and supply of nitrogen fertilizer. Deferred revenue is recorded at the point in time in which a prepaid contract is legally enforceable and the associated right to consideration is unconditional prior to transferring product to the customer. An associated receivable is recorded for uncollected prepaid contract amounts.

Cost Classifications

Cost of materials and other consists primarily of freight and distribution expenses, feedstock expenses, purchased ammonia, and purchased hydrogen. Direct operating expenses (exclusive of depreciation and amortization) consist primarily of energy and other utility costs, direct costs of labor, property taxes, plant-related maintenance services, including turnaround expenses, and environmental and safety compliance costs, as well as catalyst and chemical costs. Each of these financial statement line items are also impacted by changes in inventory balances, as they include inventory production costs. Direct operating expenses also include allocated share-based compensation from CVR Energy and its subsidiaries, as discussed in Note 7 ("Share-Based Compensation"). Selling, general and administrative expenses consist primarily of legal expenses, treasury, accounting, marketing, human resources, information technology, and maintaining the corporate and administrative offices in Texas and Kansas.

Fair Value of Financial Instruments

In accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures* ("Topic 820"), the Partnership utilizes the market approach to measure fair value for its financial assets and liabilities. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets, liabilities, or a group of assets or liabilities, such as a business.

Topic 820 utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

- Level 1 — Quoted prices in active markets for identical assets or liabilities
- Level 2 — Other significant observable inputs (including quoted prices in active markets for similar assets or liabilities)
- Level 3 — Significant unobservable inputs (including the Partnership's own assumptions in determining the fair value)

Financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and operating lease obligations are carried at cost and approximate their estimated fair value. The Partnership may enter into forward contracts with fixed or indexed delivery prices to purchase portions of its natural gas requirements. These natural gas contracts are not treated as derivatives as they qualify for the normal purchase and normal sale exclusions. Accordingly, the fair value of these contracts are not recorded at the end of each reporting period.

Turnaround Expenses

Turnarounds represent major maintenance activities that require the shutdown of significant parts of a plant to perform necessary inspections, cleanings, repairs, and replacements of assets. Costs incurred for routine repairs and maintenance or unplanned outages at our facilities are expensed as incurred. Planned turnaround activities vary in frequency dependent on refinery units, our facilities, but generally occur every two to three years.

December 31, 2022 2023 | 62 63

CVR PARTNERS, LP AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Partnership follows the direct-expense method of accounting for turnaround activities. Costs associated with these turnaround activities are included in Direct operating expenses (exclusive of depreciation and amortization) in the on our Consolidated Statements of Operations. During the years ended December 31, 2022, December 31, 2023, 2021, 2022, and 2020, 2021, the Partnership incurred turnaround expenses of \$33.4 million, \$1.8 million, \$2.9 million, \$33.4 million, and \$0.7 million, \$2.9 million, respectively.

Share-Based Compensation

The Partnership accounts for share-based compensation in accordance with FASB ASC Topic 718, *Compensation — Stock Compensation*. Currently, all of the Partnership's share-based compensation awards are liability-classified and are measured at fair value at the end of each reporting period based on the applicable closing unit price. Compensation expense will fluctuate based on changes in the applicable unit price value and expense reversals resulting from employee terminations prior to award vesting. See Note 7 ("Share-Based Compensation") for further discussion. There were no dilutive awards outstanding during the years ended December 31, 2023, 2022, and 2021.

Income Taxes

The Partnership accounts is not a taxable entity for federal income tax purposes or states that follow the federal income tax treatment of partnerships. Instead, for purposes of these income taxes, each partner of the Partnership is required to take into account its share of items of income, gain, loss and deduction in computing its federal and state income tax liabilities, regardless of whether cash distributions are made to such partner by the Partnership. We are subject to income taxes in certain states that do not follow the federal tax treatment of partnerships. These taxes are accounted for utilizing the asset and liability approach. Under this method, deferred tax assets and liabilities are recognized for the anticipated future tax consequences attributable to differences between the amounts recorded in the accounting books and their respective tax basis. Deferred amounts are measured using enacted tax rates expected to apply to taxable income in the year those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In assessing the realizability of the deferred income tax assets, including net operating loss and state tax credit carryforwards, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Further, the Partnership recognizes interest expense (income) and penalties on income tax deficiencies (refunds) in income tax expense.

Allocation of Costs

CVR Energy and its subsidiaries provide a variety of services to the Partnership, including employee benefits provided through CVR Energy's benefit plans, administrative services provided by CVR Energy's employees and management, insurance, and office space leased by CVR Energy. As such, the accompanying consolidated financial statements include costs that have been incurred by CVR Energy on behalf of the Partnership. These amounts incurred by CVR Energy are then billed or allocated to the Partnership and are classified on the our Consolidated Statements of Operations as either Direct operating expenses (exclusive of depreciation and amortization) or as Selling, general and administrative expenses. See Note 9 ("Related Party Transactions") for a detailed discussion of the billing procedures and the basis for calculating the charges for specific products and services.

Recent Accounting Pronouncements - Accounting Standards Issued But Not Yet Implemented

In March 2020, December 2023, FASB issued Accounting Standard Update ("ASU") 2020-04, 2023-09, *Reference Rate Reform Income Taxes (Topic 848) 740* - *Facilitation Improvements to Income Tax Disclosures*, which requires enhanced income tax disclosures that reflect how operations and related tax risks, as well as how tax planning and operational opportunities, affect the tax rate and prospects for future cash flows. This standard is effective for the Partnership beginning January 1, 2025 with early adoption permitted. The Partnership is evaluating the effects of adopting this new accounting guidance on its disclosures but does not currently expect adoption will have a material impact on the Effects of Reference Rate Reform on Financial Partnership's consolidated financial statements. The Partnership does not intend to early adopt this ASU.

In November 2023, FASB issued ASU 2023-07, *Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures*, which provides optional guidance to ease includes requirements for more robust disclosures of significant segment expenses and measures of a segment's profit and loss used in assessing performance. This standard is effective for the potential burden in accounting for (or recognizing Partnership's annual period beginning January 1, 2024 and interim periods beginning January 1, 2025 with early adoption permitted. The Partnership is still evaluating the effects of reference rate reform of adopting this new accounting guidance on financial reporting. This guidance applies to contracts, hedging relationships and other transactions affected by the discontinuation of the London Interbank Offered Rate ("LIBOR") and other interbank offered rates. The guidance is effective beginning on March 12, 2020 through the sunset date of Topic 848, which is currently expected to occur on December 31, 2024. The Partnership has not utilized any of the optional expedients or exceptions available under this guidance and will continue to assess whether this guidance is applicable throughout the effective period. its disclosures.

CVR PARTNERS, LP AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(3) Inventory

Inventories consisted of the following:

(in thousands)	December 31,	
	2023	2022
Finished goods	\$ 15,015	\$ 28,630
Raw materials	2,472	3,116
Parts, supplies and other	51,678	45,772
Total inventories	\$ 69,165	\$ 77,518

(4) Property, Plant and Equipment

Property, plant, and equipment, net consisted of the following:

(in thousands)	December 31,	
	2023	2022
Machinery and equipment	\$ 1,446,728	\$ 1,432,875
Buildings and improvements	18,193	17,461
Automotive equipment	16,208	16,377
Land and improvements	14,959	14,604
Construction in progress	19,075	7,858
Other	2,758	3,035
	1,517,921	1,492,210
Less: Accumulated depreciation and amortization	(756,898)	(681,216)
Total property, plant and equipment, net	\$ 761,023	\$ 810,994

For the years ended December 31, 2023, 2022, and 2021, depreciation and amortization expenses were \$78.9 million, \$81.3 million, and \$72.4 million, respectively, and capitalized interest was \$0.5 million, \$0.8 million, and \$0.8 million, respectively. During the years ended December 31, 2023, 2022, and 2021, the Partnership updated the estimated useful lives of certain assets as a result of the turnarounds at our facilities and changes in the granular urea production, which resulted in additional depreciation expense of \$0.7 million, \$12.7 million and \$4.5 million, respectively.

During the years ended December 31, 2023, 2022, and 2021, the Partnership had not identified the existence of an impairment indicator for our long-lived asset groups as outlined under the FASB ASC Topic 360, *Property, Plant, and Equipment*.

(5) Equity Method Investments

As part of the 45Q Transaction, the Partnership received a 50% ownership interest in CVRP JV in connection with a modification to a carbon oxide contract ("CO Contract") with a customer. The Partnership applied the variable interest entity ("VIE") model under FASB ASC Topic 810, *Consolidation*, to its variable interest in CVRP JV and determined that CVRP JV is a VIE. While the Partnership concluded it is not the primary beneficiary of CVRP JV, it does have significant influence over CVRP JV's operating and financial policies and, therefore, applied the equity method of accounting for its investment in CVRP JV.

The Partnership valued the equity interest received using a combination of the market approach and the discounted cash flow methodology with key inputs including the discount rate, contractual and expected future cash flows, and market multiples. The Partnership determined the estimated fair value of the consideration received to be \$46.0 million, which was a non-recurring Level 3 measurement, as defined by FASB ASC Topic 820, *Fair Value Measurements*, based on the use of the Partnership's own assumptions described above. There were no transfers into or out of Level 3 during the year ended December 31, 2023.

December 31, 2023 | 65

CVR PARTNERS, LP AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Partnership deferred the recognition of the noncash consideration received and has recognized such revenue as the performance obligation associated with the CO Contract is satisfied. Refer to Note 9 ("Revenue") for further discussion. The Partnership has elected to record its share of the earnings or loss of CVRP JV one quarter in arrears. Distributions received from CVRP JV will reduce the Partnership's equity method investment and will be recorded in the period they are received. The investment in CVRP JV is presented within Other long-term assets on our Consolidated Balance Sheets.

(in thousands)		CVRP JV
Balance at inception	\$	46,000
Cash contributions		13
Cash distributions ⁽¹⁾		(21,485)
Equity loss		(10)
Balance at December 31, 2023	\$	24,518

(1) Of this amount, approximately \$0.9 million related to incremental costs associated with obtaining the CO Contract were capitalized and included in Prepaid expenses and other current assets and Other long-term assets on our Consolidated Balance Sheets.

As a result of exceeding certain carbon oxide capture and sequestration milestones during 2023, in February 2024, the Partnership received a \$2.2 million distribution from CVRP JV which will be recognized in the first quarter of 2024.

(6) Leases

Lease Overview

We lease railcars and certain facilities to support the Partnership's operations. Most of our leases include one or more renewal options to extend the lease term, which can be exercised at our sole discretion. Certain leases also include options to purchase the leased property, asset. Additionally, certain of our lease agreements include rental payments, which are adjusted periodically for factors such as inflation. Our lease agreements do not contain any material residual value guarantees or material restrictive covenants. Furthermore, we do not have any material lessor or sub-leasing arrangements.

Balance Sheet Summary at December 31, 2022 as of December 31, 2023 and 2021 2022

The following tables summarize table summarizes the ROU asset and lease liability balances for the Partnership's operating and finance leases at December 31, 2022 December 31, 2023 and 2021: 2022. There were no finance lease balances at December 31, 2023 and 2022.

The Partnership has entered into the following material lease commitments that have not yet commenced:

- On February 21, 2022, CRNF entered into the First Amendment to the On-Site Product Supply Agreement with Messer LLC ("Messer"), which amended the July 31, 2020 On-Site Product Supply Agreement (as amended, the "Messer Agreement"). Under the Messer Agreement, among other obligations, Messer is obligated to supply oxygen and make certain capital improvements during the term of the Messer Agreement, and CRNF is obligated to take as available and pay for oxygen from Messer's facility. This arrangement for CRNF's purchase of oxygen from Messer does not meet the definition of a lease under FASB ASC Topic 842, Leases ("Topic 842"), as CRNF does not expect to receive substantially all of the output, which includes oxygen, nitrogen and compressed air, of Messer's on-site production from its air separation unit over the life of the Messer Agreement. The Messer Agreement also obligates Messer to install a new oxygen storage vessel, related equipment and infrastructure ("Oxygen Storage Vessel" or "Vessel") to be used solely by the Coffeyville Facility. The arrangement for the use of the Oxygen Storage Vessel meets the definition of a lease under Topic 842, as CRNF will receive all output associated with the Vessel. Based on terms outlined in the Messer Agreement, the Partnership expects the lease of the Oxygen Storage Vessel to be classified as a financing finance lease with an estimated amount within the range of approximately \$20 million to \$25 million being capitalized upon lease commencement when the Vessel is placed in service, which is currently expected within the next 12 months.

9.25% Senior Secured Notes due June 2023

On June 10, 2016, CVR Partners and its subsidiary, CVR Nitrogen Finance Corporation ("Finance Co." and, together with CVR Partners, the "2023 Notes Issuers"), certain subsidiary guarantors named therein and Wilmington Trust, National Association, as trustee and as collateral trustee, completed a private offering of \$645 million aggregate principal amount of 9.25% Senior Secured Notes due 2023 (the "2023 Notes"). The 2023 Notes would have matured on June 15, 2023, but the 2023 Notes Issuers redeemed the remaining outstanding balance at par plus accrued and unpaid interest to the applicable redemption date on February 22, 2022. Interest on the 2023 Notes was paid semi-annually in arrears on June 15 and December 15 of each year and were guaranteed on a senior secured basis by all of the Partnership's existing subsidiaries.

The 2023 Notes contained customary covenants for a financing of this type that, among other things, restricted CVR Partners' ability and the ability of certain of its subsidiaries to have: (i) sold assets; (ii) paid distributions on, redeemed or repurchased the Partnership's units or redeemed or repurchased its subordinated debt; (iii) made investments; (iv) incurred or guaranteed additional indebtedness or issued preferred units; (v) created or incurred certain liens; (vi) entered into agreements that restrict distributions or other payments from the Partnerships' restricted subsidiaries to the Partnership; (vii) consolidated, merged or transferred all or substantially all of the Partnerships' assets; (viii) engaged in transactions with affiliates; and (ix) created unrestricted subsidiaries. In addition, the indenture contained customary events of default, the occurrence of which would have resulted in or permitted the trustee or the holders of at least 25% of the 2023 Notes to have caused the acceleration of the 2023 Notes, in addition to pursuing other available remedies.

During 2021, the Partnership redeemed \$580 million in aggregate principal amounts of the outstanding 2023 Notes at par. On February 22, 2022, the Partnership redeemed all of the remaining outstanding 2023 Notes at par and settled accrued and unpaid interest of approximately \$1.1 million through the date of redemption. As a result of this transaction, the Partnership recognized a loss on extinguishment of debt of \$0.6 million in the first quarter of 2022, which includes the write-off of unamortized deferred financing costs and discount of \$0.2 million and \$0.4 million, respectively.

6.125% Senior Secured Notes due June 2028

On June 23, 2021, CVR Partners and Finance Co. (the "Issuers"), completed a private offering of \$550 million aggregate principal amount of 6.125% Senior Secured Notes due June 2028 (the "2028 Notes"). Interest on the 2028 Notes is payable semi-annually in arrears on June 15 and December 15 each year, commencing on December 15, 2021. The 2028 Notes mature

December 31, 2022 | 66

CVR PARTNERS, LP AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

on June 15, 2028, unless earlier redeemed or repurchased by the Issuers. The 2028 Notes are jointly and severally guaranteed on a senior secured basis by all the existing domestic subsidiaries of CVR Partners, excluding Finance Co.

We may, at our option, at any time and from time to time prior to June 15, 2024, on any one or more occasions, redeem all or part of the 2028 Notes at a price equal to 100% of the principal amount plus a "make whole" premium, plus accrued and unpaid interest. On or after June 15, 2024, we may, on any one or more occasions, redeem all or part of the 2028 Notes at the

December 31, 2023 | 68

CVR PARTNERS, LP AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

redemption prices set forth below, expressed as a percentage of the principal amount of the respective notes, plus accrued and unpaid interest to the applicable redemption date.

12-month period beginning June 15,	Percentage
2024	103.063%
2025	101.531%
2026 and thereafter	100.000%

The indenture governing 2028 Notes contain customary covenants for a financing of this type that, among other things, restricts CVR Partners' ability and the ability of certain of its subsidiaries to: (i) sell assets; (ii) pay distributions on, redeem or repurchase the Partnership's units or redeem or repurchase its subordinated debt; (iii) make investments; (iv) incur or guarantee additional indebtedness or issue disqualified stock; (v) create or incur certain liens; (vi) enter into agreements that restrict distributions or other payments from CVR Partners' restricted subsidiaries to CVR Partners; (vii) consolidate, merge or transfer all or substantially all of CVR Partners' assets; (viii) engage in transactions with affiliates; and (ix) create unrestricted subsidiaries. The 2028 Notes contains covenants that are substantially the same as the indenture governing the 2023 Notes. However, the 2028 Notes contain a permitted investment activity carveout that allows for the transfer of certain carbon capture assets to a joint venture for the purpose of monetizing potential tax credits. In addition, the indenture contains customary events of default, the occurrence of which would result in or permit the trustee or the holders of at least 25% of the 2028 Notes to cause the acceleration of the 2028 Notes, in addition to the pursuit of other available remedies.

ABL Credit Agreement

On **September 30, 2021** September 26, 2023, CVR Partners LP and certain of its subsidiaries CVR Nitrogen, LP, EDNF, CRNF, CVR Nitrogen Holdings, LLC, Finance Co. and CVR Nitrogen GP, LLC, entered into Amendment No. 1 to the ABL Credit Facility Agreement (the "ABL Amendment") with Wells FargoBank National Association, a national banking association, ("Wells Fargo"), as the administrative agent, collateral agent, and lender. The ABL Amendment amended that certain Credit Facility has an Agreement, dated as of September 30, 2021 (as amended, the "ABL Credit Facility"), by and among the credit parties thereto and Wells Fargo, as administrative agent, collateral agent and a lender, to, among other things, (i) increase the aggregate principal amount available under the credit facility by an additional \$15.0 million to a total of availability of up to \$35.0 \$50.0 million in the aggregate, with an incremental facility which permits of an increase in borrowings of up to additional \$15.0 million in the aggregate subject to additional lender commitments and certain other conditions. The proceeds of conditions, and (ii) extend the loans may be used for general corporate purposes of the Partnership and its subsidiaries. maturity date by an additional four years to September 26, 2028. The ABL Credit Facility provides for loans and letters of credit, subject to meeting certain borrowing base conditions, with sub-limits of \$3.5 million for swingline loans and \$10.0 million for letters of credit. The proceeds of the loans may be used for general corporate purposes of the Partnership and its subsidiaries. The foregoing description of the ABL Credit Facility Amendment does not purport to be complete and is scheduled qualified in its entirety by its terms, which is furnished as an exhibit to mature on September 30, 2024, this Report.

Beginning September 30, 2021, loans Loans under the Partnership's ABL Credit Facility bear interest at an annual rate equal to, at the option of the borrowers, (i) (a) 1.615% plus the daily simple Secured Overnight Financing Rate ("SOFR") or (b) 0.615% plus a base rate, if our quarterly excess availability is greater than or equal to 75%, (ii) (a) 1.865% plus SOFR or (b) 0.865% plus a base rate, if our quarterly excess availability is greater than or equal to 50% but less than 75%, or (iii) (a) 2.115% plus SOFR or (b) 1.115% plus a base rate, otherwise. The borrowers must also pay a commitment fee on the unutilized commitments and also pay customary letter of credit fees.

The ABL Credit Facility contains customary covenants for a financing of this type and requires the Partnership in certain circumstances to comply with a minimum fixed charge coverage ratio test and contains other restrictive covenants that limit the ability of the Partnership and its subsidiaries ability to, among other things, incur liens, engage in a consolidation, merger, purchase or sale of assets, pay dividends, incur indebtedness, make advances, investments and loans, enter into affiliate transactions, issue certain equity interests, create subsidiaries and unrestricted subsidiaries, and create certain restrictions on the ability to make distributions, loans, and asset transfers among the Partnership or its subsidiaries.

Covenant Compliance

The Partnership and its subsidiaries were in compliance with all covenants under their respective debt instruments as of **December 31, 2022** December 31, 2023.

Other revenue (2)							
Total revenue							

- (1) Freight revenue recognized by the Partnership represents the pass-through finished goods delivery costs incurred prior to customer acceptance and **is are** reimbursed by customers. An offsetting expense for freight is included in Cost of materials and other.
- (2) Includes revenue from (i) nitric acid sales and (ii) carbon oxide sales, including sales made in connection with the 45Q Transaction and the noncash consideration received, which is recognized as the performance obligation associated with the CO Contract is satisfied over its term through April 2030. Revenue from the CO Contract is recognized over time based on carbon oxide volumes measured at delivery.

Remaining Performance Obligations

We have spot and term contracts with customers and the transaction prices are either fixed or based on market indices (variable consideration). We do not disclose remaining performance obligations for contracts that have terms of one year or less and for contracts where the variable consideration was entirely allocated to an unsatisfied performance obligation.

As of **December 31, 2022** **December 31, 2023**, the Partnership had approximately **\$4.6 million** **\$9.7 million** of remaining performance obligations for contracts with an original expected duration of more than one year. The Partnership expects to recognize **approximately \$4.4 million** **\$3.4 million** of these performance obligations as revenue by the end of **2023** **2024**, an additional **\$3.2 million** in **2025**, and the remaining balance **during 2024**, thereafter.

Contract Balances

Major Customers

CVR Partners had two customers who comprised 30% and 26% that accounted for 10% or more of net sales at approximately 13% and 12% for the **years year** ended **December 31, 2022** **December 31, 2023**, and **2020**, respectively, **16%** and **14%** for the year ended **December 31, 2022**. CVR Partners had one customer who comprised 13% of net sales for the year ended **December 31, 2021**.

⁽⁷⁾ **(10)** Share-Based Compensation

Overview

CVR Partners has a Long-Term Incentive Plan ("CVR Partners LTIP") which permits the granting of options, stock and unit appreciation rights ("SARs"), restricted shares, restricted stock units, phantom units, unit awards, substitute awards, other

CVR PARTNERS, LP AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

unit-based awards, cash awards, dividend and distribution equivalent rights, share awards, and performance awards (including performance share units, performance units, and performance-based restricted stock). Individuals who are eligible to receive awards under or in connection with the CVR Partners LTIP include any director, officer, employee, employee candidate, consultant, or advisor of the Partnership, its subsidiaries, or its parent. The Partnership had 0.5 million shares available for future grants under the CVR Partners LTIP at December 31, 2023.

CVR Partners' Phantom Unit Awards and Compensation Expense

Phantom unit awards that have been granted to officers, employees, and directors (the "Share-Based Awards") reflect the value and distributions of CVR Partners, as applicable. Each Share-Based Award and the related distribution equivalent right represents the right to receive, upon vesting, a cash payment equal to (i) the average fair market value of one unit, in accordance with the award agreement, plus (ii) the per unit cash value of all distributions declared and paid, as applicable, from the grant date through the vesting date, subject to the terms of the applicable award agreement. The Share-Based Awards are generally graded-vesting awards, which vest over three years with one-third of the award vesting each year provided the grantee remains employed by the Partnership and its subsidiaries on the applicable vesting date. Compensation expense is recognized ratably, based on service provided to the Partnership and its subsidiaries, with the amount recognized fluctuating as a result of the Share-Based Awards being remeasured to fair value at the end of each reporting period due to their liability-award classification.

A summary of phantom unit award activity during the year ended December 31, 2022 December 31, 2023 is presented below:

(in thousands, except per unit data)	Units	Weighted-Average		
	(1)			
	(in thousands, except per unit data)	Units (1)	Weighted-Average Grant Date Fair Value	Aggregate Intrinsic Value
	Non-vested at December 31, 2021	361,840	\$ 18.89	\$
	Granted	33,395	109.83	
	Vested	(178,411)	19.72	
	Forfeited	(16,515)	25.38	
	Non-vested at December 31, 2022	200,309	\$ 37.58	\$
	Granted	63,349	63.21

	Forfeited	(11,219)	37.71	
	Non-vested at December 31, 2023	97,870	\$ 74.95	\$

(1) As of December 31, 2022 December 31, 2023, there are no outstanding awards under the CVR Partners LTIP, and the only outstanding and unvested phantom awards are in connection with, not under, the CVR Partners LTIP.

Unrecognized compensation expense associated with the phantom units at December 31, 2022 December 31, 2023 was approximately \$10.6 million \$5.4 million, expected to be recognized over a weighted average period of 1.4 1.8 years. Compensation expense recorded for the years ended December 31, 2022 December 31, 2021, 2022, and 2020 2021 related to these awards was approximately \$6.4 million, \$25.7 million, \$27.0 million, and \$0.6 million \$27.0 million, respectively.

As of December 31, 2022 December 31, 2023 and 2021, 2022, the Partnership had a liability of \$9.7 million \$1.5 million and \$9.1 million \$9.7 million, respectively, for settled non-vested phantom unit awards and associated distribution equivalent rights and, for the years ended December 31, 2022 December 31, 2023, 2022, and 2020, paid cash of \$12.6 million, \$17.7 million, \$11.1 million, and \$0.5 million \$11.1 million, respectively, to settle liability-classified awards upon vesting.

December 31, 2023

CVR PARTNERS, LP AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As of December 31, 2022 December 31, 2023 and 2021, 2022, CVR Energy had a liability associated with the CVR Partners LTIP Share-Based Awards of \$0.5 million and \$3.3 million \$3.8 million, respectively, for cash settled non-vested phantom unit awards and associated distribution equivalent rights and, for the years ended December 31, 2022 December 31, 2023, 2022, and 2021, and 2020, paid cash of \$5.2 million, \$7.0 million, \$4.4 million, and \$0.3 million \$4.4 million, respectively, to settle liability-classified awards upon vesting under the CVR Partners LTIP.

Incentive Unit Awards — CVR Energy

CVR Energy grants awards of incentive units and dividend equivalent rights to certain of its officers and employees and those of its subsidiaries, including its GP, officers and employees of the Partnership's subsidiaries, who provide shared services for CVR Energy and its subsidiaries, including the Partnership. subsidiaries related to these incentive unit awards are allocated to the Partnership based on time spent on Partnership business. Total compensation expense allocated to the Partnership

for the years ended December 31, 2022, December 31, 2023, 2021, 2022, and 2020, 2021 related to the incentive units was \$5.3 million, \$3.4 million, \$2.3 million, \$5.3 million, and \$0.4 million, \$2.3 million, respectively.

December 31, 2023

CVR PARTNERS, LP AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Partnership had no separate liabilities related to these incentive unit awards as of December 31, 2022, December 31, 2023 and 2021, 2022, as the allocated compensation expense for incentive unit awards is part of the amount charged to the Partnership under the Corporate MSA. Master Service Agreement ("Corporate MSA"). For the years ended December 31, 2022, December 31, 2023, 2022, and 2021, the Partnership had no reimbursements related to its allocated portion of CVR Energy's incentive unit awards payments, and for the year ended December 31, 2020, the Partnership made reimbursements to CVR Energy of \$2.2 million. payments. See Note 1 ("Related Party Transactions") for further discussion of the Corporate MSA.

Performance Unit Awards

Pursuant to the amended employment agreement, effective December 22, 2021, with the Partnership's Executive Chairman of our General Partner, CVR amended the performance award agreement (the "Performance Unit Award Agreement") to extend the end of the performance period thereunder to December 31, 2025. The Performance Unit Award Agreement represents the right to receive upon vesting, a cash payment equal to \$10.0 million if the average closing price of CVR Energy's common stock over the 30-day trading period from January 6, 2025 through February 20, 2025 is equal to or greater than \$60 per share. Under the Performance Unit Award Agreement, no compensation costs were recognized for the years ended December 31, 2022, December 31, 2023 and 2020, 2022. For the year ended December 31, 2021, the Partnership recognized a benefit of \$0.6 million. Under the Performance Unit Award Agreement, as of December 31, 2022, December 31, 2023 and 2021, 2022, the Partnership had no outstanding liability. Once the performance parameters are probable of being met under the Performance Unit Award Agreement, the Partnership's allocated portion of unrecognized compensation costs would be approximately \$2.3 million, \$2.0 million.

Other Benefit Plans

CVR Energy sponsors and administers two defined contribution 401(k) plans, the CVR Energy 401(k) Plan and the CVR Energy 401(k) Plan for Represented Employees (collectively, the "Plans"), in which employees of the general partner, CVR Partners and its subsidiaries may participate. Participants in the Plans may elect to contribute a designated percentage of their eligible compensation in accordance with the Plans, subject to statutory limits. CVR Partners provides a matching contribution of 100% of the first 6% of eligible compensation contributed by participants. Participants in both Plans are immediately vested in their individual contributions. The Plans provide for a year vesting schedule for the Partnership's matching contributions and contain a provision to count service with predecessor organizations. The Partnership had contributed under the Plans of approximately \$2.4 million and \$2.3 million and \$1.9 million for the years ended December 31, 2022, December 31, 2023 and 2020, 2022, respectively. The Partnership had no contributions during the year ended December 31, 2021, as the Partnership's matching contributions for the Plans were suspended effective January 1, 2021 and resumed effective January 1, 2022.

(8) Commitments

Supply Commitments

The Partnership is a party to various supply agreements with both related and third parties which commit the Partnership to purchase minimum volumes of hydrogen, oxygen, nitrogen, pet coke, and natural gas to run its plants' operations.

The minimum required payments for unconditional purchase obligations, including the natural gas purchases outlined below, are as follows:

(in thousands)		Unconditional Purchase Obligations
Year Ending December 31,		
2023		\$
2024		
2025		
2026		
2027		
Thereafter		
		\$ 1

CVR PARTNERS, LP AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Partnership is also party to natural gas supply agreements with various third-parties. Natural gas expense for the years ended December 31, 2022, 2021, and 2020 totaled approximately \$77.9 million, \$52.9 million, and \$32.4 million, respectively, and is included in Cost of materials and other and operating expenses (exclusive of depreciation and amortization). (11) Commitments

The Partnership entered into the Coffeyville Master Service Agreement ("Coffeyville MSA") with Coffeyville Resources Refining & Marketing, LLC ("CRRM"), an indirect, wholly-owned subsidiary of CVR Energy, pursuant to which, it agrees to pay a monthly fee for pet coke purchases. The Partnership's Coffeyville Facility obtains a significant amount (44% on average during the last five years, 47% in 2022) of the pet coke it needs from the Coffeyville MSA. Any remaining pet coke needs are required to be purchased from various third parties. The price paid pursuant to the Coffeyville MSA is based on the lesser of a price derived from the price received for UAN (the "UAN-based Price") or a pet coke price index. The UAN-based Price begins with a pet coke price of \$205 per ton based on a price per ton for UAN that excludes transportation cost ("netback price") of \$205 per ton, and adjusts up or down \$0.50 per ton for every change in the netback price. The UAN-based price has a ceiling of \$40 per ton and a floor of \$5 per ton. See Note 9 ("Related Party Transactions") for further discussion of the Coffeyville MSA. Unconditional Purchase Obligations

Pursuant to the Coffeyville MSA, the Partnership agreed, with respect to the Coffeyville Facility, to pay CRRM the minimum required payments for hydrogen purchases. The committed hydrogen volume pricing is based on a monthly fixed fee (based on the fixed and capital charges associated with producing the committed volume) and a monthly variable fee (based on the natural gas price associated with hydrogen actually received). In the event the Coffeyville Facility fails to take delivery of the full committed volume, the Partnership remains obligated to pay CRRM for the monthly fixed fee. In the event CRRM fails to deliver any portion of the committed volume for the applicable month, the Partnership is entitled to a pro-rata reduction of the monthly fixed fee, if any. In the event CRRM fails to deliver any portion of the committed volume for the applicable month for any reason other than planned repairs and maintenance, the Partnership will be entitled to a pro-rata reduction of the monthly fixed fee. See Note 9 ("Related Party Transactions") for further discussion. ASC 440, Commitments, are as follows:

(in thousands)	Unconditional Purchase Obligations
Year Ending December 31,	
2024	\$
2025	
2026	
2027	
2028	
Thereafter	
	\$

The Partnership, with respect to the Coffeyville Facility, is also party to the Messer Agreement, pursuant to which, it is required to take as available and pay for the cost of oxygen and nitrogen to the plant. This agreement was renewed and commenced in July 2020 for an initial term of 15 years with annual renewals thereafter. Expenses associated with this agreement these obligations are included in Direct operating expenses (exclusive of depreciation and amortization), and, for the years ended December 31, 2022, 2021, and 2020, totaled approximately \$3.7 million, \$3.8 million, \$3.9 million, and \$4.2 million, respectively.

In addition to the related party Coffeyville MSA, the Coffeyville Facility has pet coke supply agreements with multiple third-party refineries to purchase approximately 233,500 tons of pet coke at a fixed price for delivery at different dates through December 2023. The Coffeyville Facility has historically purchased third-party pet coke based on spot purchases and supply agreements in place at the time. The delivered cost of third-party pet coke purchases is included in Cost of materials and other and totaled approximately \$14.6 million, \$17.4 million, and \$17.9 million for the years ended December 31, 2021, and 2020, respectively.

(9) (12) Related Party Transactions

Limited Partnership Agreement

The Partnership's general partner manages the Partnership's operations and activities as specified in CVR Partners' limited partnership agreement. The general partner of the Partnership, CVR GP, General Partner is managed by its board of directors. The partnership agreement provides that the Partnership will reimburse CVR General Partner for all direct and indirect expenses it incurs or payments it makes on behalf of the Partnership, including salary, bonus, incentive compensation, and amounts paid to any person to perform services for the Partnership or for its general partner in connection with operating the Partnership.

Omnibus Agreement

We are party to an omnibus agreement with CVR Energy and our general partner, pursuant to which we have agreed that CVR Energy will have a preferential acquire any assets or group of assets that do not constitute assets used in a fertilizer restricted business. In determining whether to exercise any preferential right under the omnibus agreement, CVR Energy will be permitted to act in its sole discretion, without any fiduciary obligation to us or the unitholders whatsoever. These obligations will continue so long as CVR Energy owns at least 50% of our general partner. There was no activity reported under this agreement during the years ended 2023, 2022, and 2020, 2021.

December 31, 2021

CVR PARTNERS, LP AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Coffeyville MSA

Effective January 1, 2020, the Conflicts Committee of the Board and the audit committee of CVR Energy approved, and CRNF and CRRM entered into, the Coffeyville MSA which is comprised of various supply and service agreements effectively replacing, on substantially equivalent terms, other related party agreements in place for 2019 (the "Replaced Coffeyville Agreements"). In addition to affirming the terms and services described in the Replaced Coffeyville Agreements and resetting the durations thereof, as applicable, commencing January 1, 2020, the Coffeyville MSA provides for monthly payments, subject to netting, for all goods and services supplied under the Coffeyville MSA. The Coffeyville MSA will continue and is in effect until terminated in writing, in whole or in part, by either party, or until terminated automatically in the event the party falls out of common control with the other party. The Coffeyville MSA provides the following services:

- *Cross Easements* - Both CRNF and CRRM the CVR Energy Subsidiary can access and utilize each other's land in certain circumstances in order to operate their respective businesses.
- *Hydrogen Purchase and Sale* - CRRM The CVR Energy Subsidiary agrees to sell and deliver a committed hydrogen volume of 90,000 mscf per month to CRNF. CRNF agrees to purchase and receive the committed volume. CRNF also has the option to purchase excess volume from CRRM, the CVR Energy Subsidiary, if available.

December 31, 2021

CVR PARTNERS, LP AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

- *Raw Water and Facilities Sharing* - CRNF and CRRM the CVR Energy Subsidiary are each owners of an undivided one-half interest in and to the water right and agree to (i) allocate raw water resources between CVR Energy's Coffeyville refinery and our Coffeyville Facility and (ii) provide for the management of the intake system which draws raw water from the Verdigris River for both our Coffeyville Facility and CVR Energy's Coffeyville refinery.
- *Pet Coke Supply* - CRRM The CVR Energy Subsidiary must deliver and our Coffeyville Facility must purchase, during each calendar year an annual required volume of pet coke equal to the lesser of (i) 100 percent of the pet coke or (ii) 500,000 tons of pet coke. If during a calendar month, more than 41,667 tons of pet coke are produced and available for purchase, then the Our Coffeyville Facility will have has the option to purchase the any excess of pet coke production at the purchase price provided for in the agreement. If the option is declined, CRRM may sell the excess to a third-party.
- *Feedstock and Shared Services* - CRNF and CRRM the CVR Energy Subsidiary provide feedstock and other services to one another. These feedstocks and services another which are utilized in the respective production processes at each of CRRM's Coffeyville refinery and our Coffeyville Facility. Feedstocks and services under the agreement include, among others, hydrogen, high-pressure steam, nitrogen, instrument air, oxygen, and natural gas. their respective facilities.
- *Lease* - CRNF leases certain office and laboratory space from CRRM.

In February 2023, CRRM assigned its interests in the Coffeyville MSA to affiliates, which are newly formed, indirect wholly-owned subsidiaries of CVR Energy for which CRNF has consented to such assignment by CRNF Subsidiary.

Corporate MSA

Also effective January 1, 2020, the Conflicts Committee of the Board and the audit committee of CVR Energy approved, and the parties entered into Under the Corporate MSA, between CVR Services and certain of its affiliates, including CVR Energy, CVR GP the General Partner and the Partnership and its subsidiaries, which is comprised of various as "service recipients" thereunder, obtain certain management and service agreements effectively replacing other related party agreements, on substantially equivalent terms, in place for 2019 (the "Replaced Corporate Agreements"). In addition to affirming the terms administrative and professional services described in the Replaced Corporate Agreements and resetting the durations thereof, as applicable, commencing January 1, 2020, the from CVR Services. The Corporate MSA provides for the following services:

Under the Corporate MSA, Environmental Agreement

Terminal and Operating Agreement

• services from CVR Services' employees in capacities equivalent premises located at Phillipsburg, Kansas to the capacities be utilized as a UAN terminal. The term of corporate executive officers, except that those who serve in such capacities under the agreement will serve expire in May 2032, provided, however may terminate the Partnership on a shared, part-time basis only, unless lease at any time during the Partnership initial term by providing 180 days prior written In addition, this agreement will automatically renew for successive five-year terms, provided that CRNF may terminate the agreement during any renewal term least 180 days written notice. Under the terms of this agreement, CRNF will pay \$1.00 per year for rent, \$4.00 per ton of UAN placed into the terminal, and Services agree otherwise; \$4.00 per ton of UAN taken out of the terminal.

December 31, 2022 2023

- administrative and professional services, including legal, accounting, SOX compliance, financial reporting, human resources, information technology, communications, insurance, tax, credit, finance, corporate compliance, enterprise risk management, consulting, and government and regulatory affairs;
- recommendations on capital raising activities to the board of directors of the general partner, including the issuance of debt or equity interests, the entry into new facilities, and other capital market transactions;
- managing or overseeing litigation and administrative or regulatory proceedings, investigations and other reviews in the ordinary course of business or operations, establishing appropriate insurance policies for the Partnership, and providing safety and environmental advice;
- recommending the payment of distributions;
- managing or providing advice for other projects, including acquisitions, as may be agreed by the general partner and CVR Services from time to time; and
- permitting the use of the CVR Energy and CVR Partners trademarks by CVR GP and the Partnership at no cost.

(2) Purchases from related parties, included in Cost of materials and other, Direct operating expenses (exclusive of depreciation and amortization), and Selling, general and administrative expenses, consist primarily of pet coke and hydrogen purchased from CRRM under the Coffeville MSA.

- (1) Sales to related parties, included in Net sales in our consolidated financial statements, consist of (a) sales of feedstocks and services under the Conflicts Committee Coffeyville MSA and CO sales to CVRP JV and its subsidiaries.
- (2) Expenses from related parties, included in Cost of materials and other, Direct operating expenses (exclusive of depreciation and amortization), and Selling, general and administrative expenses in our consolidated financial statements, consist primarily of purchases of pet coke and hydrogen under the Board Coffeyville MSA and on October 22, 2019, management fees and other professional services from CVR Services under the audit committee Corporate MSA.
- (3) Due to related parties, included in Accounts payable to affiliates, consists primarily of amounts payable to CVR Energy each agreed to authorize subsidiaries under the exchange of parcels of property owned by subsidiaries of CVR Energy with an equal number of parcels owned by subsidiaries of CVR Partners, all located in Coffeyville Kansas (the "Property Exchange"). On February 19, 2020, a subsidiary of CVR Energy MSA and a subsidiary of CVR Partners executed the Property Exchange agreement. This Property Exchange will require each such subsidiary to create a more usable, contiguous parcel of land near its own operating footprint. CVR Energy and the Partnership accounted for this transaction in accordance with the FASB ASC Topic 805-50, *Business Combinations* ("Topic 805-50"), guidance on transferring assets between entities under common control. This transaction had no material impact to the Partnership's partners' capital of less than \$0.1 million. Corporate MSA.

Distributions to CVR Partners' Unitholders

The Board has a policy for the Partnership to distribute all available cash, as determined by the Board in its sole discretion, generated on a quarterly basis. Distributions are made to the common unitholders of record on the applicable record date, generally within 60 days after the end of each quarter. Available cash for distribution for each quarter is determined by the Board following the end of such quarter.

Distributions, if any, including the payment, amount, and timing thereof, and the Board's distribution policy, including the definition of Available Cash for Distribution, are subject to change at the discretion of the Board. The following tables present quarterly distributions paid by the Partnership to CVR Partners' unitholders, including distributions paid to CVR Energy, as of December 31, 2022, December 31, 2023 and 2021 2022 (amounts presented in table below may not add to totals presented due to rounding).

(11) Subsequent Events

We believe that certain carbon oxide capture and sequestration activities conducted at or in connection with the Coffeyville Facility qualify under the Internal Revenue Service ("IRS") safe harbor described in Revenue Procedure 2020-12 for certain tax credits available to joint ventures under Section 45Q of the Internal Revenue Code, as amended ("Section 45Q Credits"). In January 2023, we entered into a series of agreements with CapturePoint LLC, an unaffiliated Texas limited liability company, and certain unaffiliated third-party investors intended to qualify under the Internal Revenue Service safe harbor described in Revenue Procedure 2020-12 for certain tax credits and certain unaffiliated third-party investors intended to qualify under the Internal Revenue Service safe harbor described in Revenue Procedure 2020-12 for certain tax credits and allow us to monetize Section 45Q Credits we expect to generate from January 6, 2023 until March 31, 2030. In January 2023, we received an initial upfront payment, net of expenses, of approximately \$18.1 million and could receive up to an additional \$60 million in payments through March 31, 2030, if certain carbon oxide capture and sequestration milestones are met, subject to the terms of the applicable agreements. The foregoing summary of the agreements do not purport to be complete and are qualified in their entirety by the terms of the relevant agreements, which will be filed with the Partnership's Quarterly Report on Form 10-Q for the period ended March 31, 2023.

The Partnership evaluated all other subsequent events, if any, that would require an adjustment to the Partnership's consolidated financial statements or disclosure in the notes to the consolidated financial statements through the date of issuance of these consolidated financial statements. Where applicable, the notes to the consolidated financial statements have been updated to discuss all significant subsequent events which have occurred.

December 31, 2022 2023

Item 9. *Changes in and Disagreements with Accountants on Accounting and Financial Disclosure*

None.

Item 9A. *Controls and Procedures*

Evaluation of Disclosure Controls and Procedures.

The Partnership has evaluated, under the direction and with the participation of the Executive Chairman, Chief Executive Officer, and Chief Financial Officer, the effectiveness of our disclosure controls and procedures, as defined in Exchange Act Rule 13a-15(e) and 15d-15(e). Based upon this evaluation, the Partnership's Executive Chairman, Chief Executive Officer, and Chief Financial Officer concluded that disclosure controls and procedures were effective as of **December 31, 2022** **December 31, 2023**.

Management's Report on Internal Control Over Financial Reporting.

The Partnership's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Under the supervision and with the participation of management, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in the 2013 *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on that evaluation, the Partnership's Executive Chairman, Chief Executive Officer, Chief Financial Officer, and Chief Accounting Officer have concluded that internal control over financial reporting was effective as of **December 31, 2022** **December 31, 2023**. The Partnership's independent registered public accounting firm, that audited the consolidated financial statements included herein under Part II, Item 8 of this Report, has issued a report on the effectiveness of the Partnership's internal control over financial reporting. This report can be found under Part II, Item 8 of this Report.

Changes in Internal Control Over Financial Reporting.

There have been no material changes in the Partnership's internal control over financial reporting required by Rule 13a-15 of the Exchange Act that occurred during the fiscal quarter ended **December 31, 2022** **December 31, 2023** that materially affected, or are reasonably likely to materially affect, the Partnership's internal control over financial reporting.

Item 9B. *Other Information*

On **February 20, 2023** **February 16, 2024**, the Compensation Committee of our **the** Board adopted the CVR Partners, LP **2023** **2024** Performance Based Bonus Plan (the "2023" **2024** UAN Plan"), which applies to all eligible employees of our subsidiaries and contains terms **substantially** equivalent to the CVR Partners, LP **2022** **2023** Performance Based Bonus Plan. Plan - Fertilizer subject to adjustments to the reliability and operating expense measures, and an update for the peer group to include the ROCE measure. The **2023** **2024** UAN Plan will be filed with the Partnership's Quarterly Report on Form 10-Q for the period ending **March 31, 2023** **March 31, 2024**.

During the three months ended December 31, 2023, no director or officer of the General Partner adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K.

Item 9C. *Disclosure Regarding Foreign Jurisdictions that Prevent Inspections*

Not applicable.

December 31, **2022** **2023**

PART III

Item 10. *Directors, Executive Officers and Corporate Governance*

Management of CVR Partners, LP

As a publicly traded partnership, we are managed by our general partner, CVR GP, LLC ("General Partner"), either directly by its board of directors (the "Board") General Partner's executive officers (who are appointed by the Board) or by our General Partner's sole member, CVR Services, LLC ("CVR Services") an indirect owned subsidiary of CVR Energy, Inc. ("CVR Energy"), subject to the terms and conditions specified in our partnership agreement. Limited partners are not entitled to or indirectly participate in our management or operations. Neither our General Partner nor the members of its Board are elected by our unitholders, and none are subject to re-election on a regular basis in the future.

Actions by our General Partner that are made in its individual capacity are made by CVR Services as the sole member of our General Partner and not by the Board. Our partnership agreement contains various provisions which replace default fiduciary duties with more limited contractual corporate governance standards. Whenever the General Partner makes a determination or takes or declines to take an action in its individual, rather than representative, capacity, it is entitled to make such determination to take or decline to take such action free of any fiduciary duty or obligation whatsoever to us, any limited partner or assignee, and it is not required to act in good faith pursuant to any other standard imposed by our partnership agreement or under Delaware law or any other law. Examples include the exercise or assignment of its capital or its registration rights, its voting rights with respect to the units it owns and its determination whether or not to consent to any merger or consolidation of the Partnership. The General Partner is liable, as a General Partner, for all of our debts (to the extent not paid from our assets), except for indebtedness or other obligations that are expressly non-recourse to it. Our debt instruments are non-recourse to our General Partner. Our General Partner therefore may cause us to incur indebtedness or obligations that are non-recourse to it.

The Board

As of December 31, 2022, the Board consisted of three directors affirmatively determined by the Board to be independent, non-employee directors (Donna R. Ecton, Frank M. Muller, Jr. and Peter K. Shea); one non-management director who is also an officer of Icahn Enterprises L.P. ("IEP") (David Willetts) until 2023 (Jordan Bleznick); as well as two directors who are executive officers of our General Partner (David L. Lamp, our Executive Chairman, and Mark A. Pytko, President and Chief Executive Officer). One other non-management director, David Willetts, who is currently or was previously an officer or an employee of IEP, also served as our non-management director during 2022: Kapiljeet Dargan (until June 23, 2022). 2023 until his resignation on March 17, 2023. The Board is led by its Chairman, Mr. Lamp. Bleznick. As required by our Corporate Governance Guidelines, the Board oversees the business of the Partnership, including its fundamental financial business strategies and major corporate actions, significant risks facing the Partnership and its risk management activities, and the Partnership's Environmental, Social and Governance ("ESG") initiatives. The Board also periodically evaluates its composition, including the skill sets, diversity, leadership structure, background and experience of its directors. The Board believes its current structure and composition is best for the Partnership and its unitholders at this time. All actions of the Board, other than any actions delegated to a committee, will require approval by majority vote of the directors, with each director having one vote. The directors of our General Partner hold office until their death, resignation or removal.

Board Meetings, Attendance and Executive Sessions

In 2022, 2023, the Board met four times and acted three times by written consent. All of the directors who served during 2022, 2023 attended at least 75% of the total meetings of the Board and each of the committees on which such director served during their respective tenure.

To promote open discussion among non-management and independent directors, we schedule regular executive sessions in which our non-management directors meet without management participation, as well as when our independent directors meet without management or any directors affiliated with IEP. Our non-management and independent directors met during five and nine executive sessions, respectively, in 2023. Ms. Ecton presided over the executive sessions held by our non-management and independent directors.

director since 2019. Mr. Shea served as a managing operating partner of Phipps, a private equity investment firm, from 2013 to 2019. He has served as a director of Viskase Companies, Inc., a manufacturer of casing for the oil and gas industry ("Viskase"), since 2006, and currently serves as its audit committee chair. Mr. Shea previously served as a director of Voltari Corporation, a company in the business of acquiring, financing, leasing commercial properties ("Voltari"), as its chairman, from September 2015 to 2019; Entertainment Enterprises, Inc. ("TER") from July 2017 to June 2019. Hennessy Capital Acquisition Company I from July 2017 to February 2017, Hennessy Capital Acquisition Company II from 2017 to October 2017 and Hennessy Capital Acquisition Company III from February 2017 to December 2020, all of which were for the purpose of acquiring companies. He has served as a director of DecoPac, Inc., a privately-held supplier of goods, and a chairman, from 2021; FeraDyne Outfitters LLC, a private manufacturer of goods products, and chairman from May 2019 to February 2019; Teasdale Foods, a privately-held provider of Hispanic food products and as its chairman from November 2014 to February 2019. Mr. was President of Enterprises G.P. LLC, Head of Icahn Asset Portfolio Operations ("Icahn Associates") from October 2006 to

2009. Mr. Shea began his career with General Electric Corporation and has held more than thirty years of executive experience serving in various management and operational roles in the manufacturing and packaging industries, among others, and has served on the board of directors for numerous public and private held companies. He holds an M.B.A. from the University of Michigan.

Other Public Company Directorships (current): Viskase Companies, Inc. (since 2006)

Other Public Company Directorships (within past five years): Hennessy Capital IV (2019-2020); Voltari Corporation (2015-2019)

Other Professional Experience and Community Involvement: Former Director, DecoPac, Inc.; Former Chairman & Director, FeraDyne Outdoors, LLC; Former Chairman & Director, Teasdale Foods, Inc.

Education: Iona College, B.B.A.; University of Southern California, and a B.B.A. from Iona College. We believe Mr. Shea's broad executive, financial and operational experience, combined with his extensive board experience will be an asset to our board and qualify him to serve as our director. **MBA**

December 31, 2023

David Willetts
Director
Age: 47

Current Public Company Directorships:
CVR Partners, LP (July 2021 to Current)
CVR Energy, Inc. (July 2021 to Current)
Viskase Companies, Inc. (June 2021 to Current)

Mr. Willetts has served as our director since July 2021. Mr. Willetts has been the chief executive officer and director of Icahn Enterprises L.P. ("IEP") since November 2021 and June 2021, respectively, and also as IEP's chief financial officer from June to November 2021. Prior to IEP, he served as a managing director at AlixPartners, a global consulting firm which specializes in improving corporate financial and operational performance and executing corporate turnarounds. Since 2012, Mr. Willetts has worked continuously for private equity firms and public companies in the industrial, automotive, consumer products, retail and other sectors. Mr. Willetts has been a director of the general partner of CVR Partners, since July 2021; and a director and chairman of the board of Viskase, since June 2021. Mr. Willetts graduated from Franklin and Marshall College in 1997 Summa Cum Laude, with a B.A. in business, with a double concentration in accounting and finance. We believe that the significant business and financial experience of Mr. Willetts qualify him to serve as our director.

(1) Each of CVR Energy, CVRR, Icahn Associates, IEP, TER, Viskase and Voltari are indirectly controlled by Mr. Icahn.

Director Independence & Controlled Company Exemptions

To be considered independent under NYSE the New York Stock Exchange (the "NYSE") listing standards, our the Board must determine that a director has no material relationship with us other than as a director. The standards specify the criteria by which the independence of directors will be determined, including guidelines for conflicts of interest and their immediate family members with respect to employment or affiliation with us or with our independent public accountants. The Board has affirmatively determined that each of Ms. Ecton and Messrs. Muller and Shea meet the independence standards established by the NYSE and

December 31, 2023

the Exchange Act for membership on an audit committee and are non-employee directors, as defined by the rules and regulations of the NYSE, the SEC, **Securities and Exchange Commission (the "SEC")**, and our Corporate Governance Guidelines.

As a publicly traded partnership, we qualify for, and rely on, certain exemptions from the NYSE's corporate governance requirements, including the following:

- A majority of our directors are not required to be (and are not) independent;
- Our Board has not and does not currently intend to establish a nominating/corporate governance committee; and
- The Compensation Committee of our **the** Board does not need to be (and is not) composed entirely of independent directors.

As a result, unitholders do not have the same protections afforded to equity holders of companies that are subject to all of the corporate governance requirements of the NYSE.

December 31, **2022** 2023

Board Committees

Our Board has five standing committees appointed by the Board: the Audit Committee; the Compensation Committee; the Environmental Health & Safety ("EHS") Committee; the Conflicts Committee; and the Special Committee. Any standing committee with a written charter reviews the adequacy of such charter, at least annually, in addition to evaluating its performance and reporting to the Board on such evaluation. These charters are available free of charge on our website at www.CVRPartners.com in print without charge to any unitholder requesting them by sending a written request to our Secretary at the address listed under "Communications with Directors" below.

Audit Committee

Members:

Donna R. Ecton, Chair (1) (3)
Frank M. Muller, Jr. (2) (3)
Peter K. Shea (2) (3)

Meetings in 2022: 2023: 4

Primary Responsibilities:

- Ø Appoints, compensates, oversees and evaluates the performance of the independent auditors, including approving all services to be performed by and the independence of the independent auditor.
- Ø Reviews with management, our internal auditors and independent auditors the adequacy, quality and integrity of the Partnership's internal controls, the fair presentation and accuracy of the Partnership's financial statements, disclosures, audit reports and management's responses thereto, and the Partnership's critical accounting policies and practices.
- Ø Oversees and evaluates the performance, responsibilities, engagement plan, budget and staffing of the internal audit function including its senior audit executive.
- Ø Establishes procedures for and oversees handling of complaints regarding accounting, internal accounting controls or auditing matters and the confidential submission of concerns regarding questionable accounting or auditing matters.
- Ø Monitors and periodically reviews the Partnership's compliance with applicable laws, major litigation, regulatory compliance, risk management, insurance coverage and any policies, practices or mitigation activities relating to the Partnership's risk management.
- Ø Reviews and discusses with management potential significant risks to the Partnership and risk mitigation strategies, including efforts.
- Ø Reviews the Partnership's information technology systems and associated risks and controls relating to information technology business continuity, data privacy and cybersecurity, controls and contingency plans in the event of a disruption of such systems.
- Ø Assists the Board in its oversight of the governance portions of the Partnership's ESG initiatives including the Partnership's governance practices and reputation, Code of Ethics and Business Conduct, anti-bribery and corruption programs and of the overall risks relating to such ESG initiatives.
- Ø Reviews and discusses with management and Grant Thornton LLP, our independent registered accounting firm ("Grant Thornton"), the audited financial statements contained in this Annual Report on Form 10-K.
- Ø Received written disclosures and the letter from Grant Thornton LLP required by applicable requirements of the Public Company Accounting Oversight Board.
- Ø Based on the reviews and discussions referred to above, recommended to the Board that the audited financial statements be included in this Annual Report on Form 10-K, for filing with the SEC.

EH&S Committee

Members:

Peter K. Shea, Chair ⁽³⁾
Donna R. Ecton ⁽³⁾
Frank M. Muller, Jr. ⁽³⁾
Mark A. Pytosh

Meetings in 2022: 2023: 2

⁽³⁾ Independent, Non-Employee Director

Ø Oversees the establishment and administration of environmental, health and safety policies, programs, procedures and initiatives.

Ø Assists the Board in its oversight of risk relating to environmental, health, safety, and security matters.

Ø Assists the Board in its oversight of the environmental, health, safety, and security portions of the Partnership initiatives including the Partnership's environmental, health, safety and security risks, opportunities, policies and reporting, including those related to climate change and sustainability.

December 31, **2022** 2023

Conflicts Committee

Members:

Donna R. Ecton, Chair ⁽³⁾
Frank M. Muller, Jr. ⁽³⁾

Meetings in 2022: 1

Ø As requested by the Board, investigates, reviews, evaluates and acts upon any potential conflicts of interest between our general partner or its affiliates, on the one hand, and us or any public unitholder, on the other, the approval of which (if any) are conclusively deemed to be fair and reasonable to the Partnership and its common unitholders.

Ø As requested by the Board, determines whether the resolution of a conflict of interest is in the best interest of the Partnership.

Ø Carries out any other duties delegated by the Board that relate to potential conflicts of interest.

Ø Has the sole authority to retain, compensate, direct, oversee, and terminate any counsel or other advisers, in-house consultants, attorneys, independent accountants and other service providers, to assist in the evaluation of conflicts of interest matters and to approve such consultants' fees and other retention terms.

Ø Approvals are conclusively deemed to be fair and reasonable to the Partnership, approved by all of the Partnership's partners and not a breach by the general partner of any duties it may owe us or our unitholders.

⁽³⁾ Independent, Non-Employee Director

Special Committee

Members:

Jordan Bleznick
David L. Lamp
David Willetts

Ø Evaluates and approves matters arising during the intervals between meetings of the Board that did not require the convening of a special meeting of the Board but should not be postponed until the next scheduled meeting of that Board.

Ø Exercises approval authority delegated to it by the Board.

Acted by Written Consent in 2022: 2 2023: 1

Executive Sessions of Independent and Non-Management Directors

To promote open discussion among independent and non-management directors, we schedule regular executive sessions in which our non-management directors meet without management participation, as well as when our independent directors meet without management or any directors affiliated with IEP. During 2022, four of our directors were non-management and three of our six directors were independent. Our non-management and independent directors met during five and nine executive sessions, respectively, in 2022. Ms. Ecton presided over the executive sessions held by our non-management and independent directors.

Communications with Directors

Unitholders and other interested parties wishing to communicate with our **the** Board may send a written communication addressed to:

CVR Partners, LP
2277 Plaza Drive, Suite 500
Sugar Land, Texas 77479
Attention: Executive Vice President, General Counsel and Secretary

Our General Counsel will forward all appropriate communications directly to our **the** Board or to any individual director or directors, depending upon the facts and circumstances outlined in the communication. Any unitholder or other interested party who is interested in contacting only the independent directors or non-management directors as a group or the director who presides over the meetings of the independent directors or non-management directors may also send written communication to the contact above and should state for whom the communication is intended.

December 31, 2023

Compensation Committee Interlocks and Insider Participation

As of **December 31, 2022** **December 31, 2023**, the Compensation Committee was comprised of Messrs. Muller and Willetts. During 2022, one other non-management director who was an officer and/or employee of IEP **Bleznick. Until his resignation from the Board and its committees on March 17, 2023, Mr. Willetts also served at times on the Compensation Committee: Kapiljeet Dargan (until June 23, 2022). Committee.** None of the members of the Compensation Committee during **2022 2023** has, at any time, been an officer or employee of the Partnership or our General Partner and none have any relationship requiring disclosure under Item 404 of Regulation S-K.

the Exchange Act. No interlocking relationship exists between the Board or Compensation Committee and the board of directors or compensation committee of any other company.

December 31, 2022

Corporate Governance Guidelines and Codes of Ethics

Our Corporate Governance Guidelines, as well as our Code of Ethics and Business Conduct, which applies to all of our directors, officers, and employees (and includes additional provisions that apply to our principal executive officer, principal financial officer, principal accounting officer, and other persons performing similar functions) are available free of charge on our website at www.CVRPartners.com. These documents are also available in print without charge to any unitholder requesting them. We intend to disclose any changes in or waivers from our Code of Ethics and Business Conduct by posting such information on our website or by filing a Form 8-K with the SEC.

Executive Officers

While the Board provides high-level strategy and guidance for the Partnership, our day-to-day activities are carried out by the executive officers of our General Partner, who are appointed by the Board and act within the authorities granted by the Board and our organizational documents, including those of the General Partner. Our partners are not entitled to appoint the executive officers or directly or indirectly participate in our management or operations. In this report, [Annual Report on Form 10-K](#) ("Report"), we refer to the executive officers of our General Partner as "our executive officers." The following table sets forth the names, positions, ages, background experience and qualifications (as of [February 21, 2023](#) [February 20, 2024](#)) of the executive officers of our General Partner, other than Messrs. Lamp and Pytosh, who are listed under "The Board" above.

Name, Position and Age	Principal Occupation, Experience and Qualifications
Dane J. Neumann Age: 38 Executive Vice President, Chief Financial Officer, Treasurer and Assistant Secretary (since October 2021)	Mr. Neumann has served as our Executive Vice President and Chief Financial Officer and Assistant Secretary and as the Treasurer of our General Partner , and in those same roles for our affiliate, CVR Energy, from October 2021 and February 2022, respectively. Item 11. Executive Compensation

Compensation Discussion and Analysis

The following discussion and analysis of compensation arrangements (the "Compensation Discussion and Analysis" "**CD&A**") of our named executive officers (below) for **2022 2023** should be read together with the compensation tables and related disclosures set forth below. This discussion contains **CD&A may contain** looking statements that are based on our current plans, considerations, expectations, and determinations regarding future compensation actions. Our **actual actions, future compensation actions of our named executive officers** may differ materially from the currently planned programs and payouts summarized in this discussion. Compensation Discussion and Analysis **CD&A** provides unitholders with an understanding of our compensation philosophy, objectives, policies, and practices in place **2022, 2023**, as well as the factors considered by our Compensation Committee in making compensation decisions for **2022, 2023**.

Named Executive Officers

This Compensation Discussion and Analysis focuses on the compensation of persons who served as **For 2023, our named executive officers were** our principal executive officers, our chief financial officer, and our next two other most highly compensated executive officers for 2022 (collectively, the "named executive officers"): **officers:**

David L. Lamp	Executive Chairman
Mark A. Pytosh	President and Chief Executive Officer
Dane J. Neumann	Executive Vice President, Chief Financial Officer, Treasurer and Assistant Secretary
Melissa M. Buhrig	Executive Vice President, General Counsel and Secretary
Jeffrey D. Conaway	Vice President, Chief Accounting Officer and Corporate Controller

December 31, 2023

Neither the Partnership nor our General Partner directly employ or **directly** compensate our named executive officers. All of our named executive officers are employed by CVR Services, and all of our named executive officers divide their time between working for us and working for CVR Energy and its other subsidiaries.

December 31, 2024

The approximate weighted-average percentages of the amount of time that the named executive officers dedicated to the management of our business in 2024 were as follows: David L. Lamp (10%); Mark A. Pytosh (60%); Dane J. Neumann (18%); Melissa M. Buhrig (20%); and Jeffrey D. Conaway (20%). These numbers are weighted because the named executive officers may spend a different percentage of their time dedicated to our business each quarter. The remainder of their time was spent working for CVR Energy and its other subsidiaries.

Our named executive officers provide services to us under a Corporate Master Service Agreement, as amended (the "Corporate MSA"), between us and certain subsidiaries, and CVR Services and certain of its affiliates which was effective January 1, 2020, and was approved by the Conflicts Committee of the Board. Under the Corporate MSA:

- CVR Services makes available to our General Partner the services of certain CVR Energy executive officers and employees, some of whom serve as executive officers of our General Partner;
- We, our General Partner, and our operating subsidiaries, as the case may be, are obligated to reimburse CVR Services for any portion of the costs that CVR Services incurs in providing compensation and benefits, **payouts under performance-based bonus plans, and incentive and performance unit payouts** to such CVR Energy executive officers and employees while they are providing services to us as well as our allocated portion of performance-based performance plan payouts, incentive and performance units issued by CVR Energy and its subsidiaries to those employees providing services to us under the Corporate MSA; **MSA, to whom serve as named executive officers of our General Partner**; and
- We pay CVR Services a monthly fee for goods and services supplied under the Corporate MSA, subject to netting and an annual true up, as well as pass-through of any direct costs incurred **by CVR Services** on behalf of a service recipient **the Partnership or its subsidiaries** without markup.

For more information on the Corporate MSA, see "Certain Relationships **Part II, Item 8, Note 12 ("Related Party Transactions")** and Related Transactions, and Independence - Agreements with CVR Energy." **Part III, Item 13 of this Report.**

Compensation Philosophy, Objectives and Processes

Our Compensation Committee approves compensation only for Mr. Pytosh (other than 40% of his base salary and annual **performance-based** bonus and equity incentives attributable to his service for CVR Energy and its subsidiaries, which are set by the compensation committee of the board of directors of CVR Energy (the "CVR Compensation Committee"). Although our Compensation Committee generally engages in discussions with the CVI Compensation Committee regarding compensation of our named executive officers and the performance of such named executive officers, it does not determine any part of the compensation of those named executive officers other than Mr. Pytosh, and has no control over and does not establish or direct the compensation policies or practices of CVR Energy. Accordingly, while the compensation philosophies, objectives, and processes described below are generally applicable to both the Partnership and CVR Energy, the remainder of this Compensation Discussion and Analysis **CD&A** discusses CVR Partners' compensation programs in which references to our named executive officers refer solely to Mr. Pytosh, except where otherwise indicated.

In establishing named executive officer compensation, our Compensation Committee (and the CVI Compensation Committee) generally seeks to compensate named executive officers in a way that meaningfully aligns their interests with the interests of our unitholders, including **to:**

- Incentivizing **Incentivize** important business priorities such as safety, reliability, environmental performance and earnings growth; **growth through compensation earned based on the achievement of related performance goals;**
- Aligning **Align** the named executive officers' interests with those of our unitholders and stakeholders, including providing long-term economic benefits to our unitholders;
- Providing **Provide** competitive financial incentives in the form of salary, bonuses and benefits with the goal of retaining and attracting talented and highly motivated named executive officers; and
- Maintaining **Maintain** a compensation program whereby the named executive officers, through exceptional performance and equity-based incentive awards, have the opportunity to realize economic rewards commensurate with appropriate gains of other unitholders and stakeholders.

The Compensation Committee takes these main objectives into consideration when creating its compensation programs, setting each element of compensation in its programs, and determining the proper mix of the various compensation programs.

December 31, 2024

elements. Named executive officer compensation will generally include a mix of fixed elements, intended to provide stability, as well as variable elements, which align performance, incentivizing and rewarding our named executive officers in years where the Partnership achieves superior results.

December 31, 2023

The Compensation Committee also generally considers, among other factors, the success and performance of the Partnership, the contributions of named executive officers to such success and performance, and the current economic conditions and industry environment in which the Partnership operates. From time to time the Compensation Committee may utilize various tools in evaluating and establishing named executive officer compensation, including their own common sense, knowledge and experience, as well as some or all of the following:

- *Input from Board members or management.* The Compensation Committee may from time to time ask that certain members of the Board and/or management provide information and recommendations relating to named executive officer compensation. Such information typically includes insight into the named executive officers' roles and responsibilities, job performance, the Partnership's performance generally and among the industry, and such other information as requested by the Compensation Committee. Committee, including recommendations relating to named executive officer compensation.
- *Market data and peer comparisons.* The Compensation Committee may utilize market data derived from that describes common executive pay practices and executive pay practices and levels of industry companies, which may be supplemented with broad-based compensation survey data, survey data from the energy, refining and chemical industries that influence the competitive market for executive talent and/or from companies comparable to the Partnership in size and scale.
- *The analysis, judgment and expertise of an independent compensation consultant.* The Compensation Committee may engage an independent compensation consultant periodically to provide a comprehensive analysis and recommendations regarding named executive officer compensation, although a compensation consultant was not engaged in 2022, 2023.

Compensation Risk Assessment

Our Compensation Committee periodically evaluates and considers risks of related to our compensation policies and practices and those of CVR Energy as they are applicable to employees, including our named executive officers. Our Compensation Committee believes that neither our policies and practices nor the policies and practices of CVR Energy encourage excessive or unnecessary risk-taking, and are not reasonably likely to have a material adverse effect on us. In reaching this conclusion, the Compensation Committee reviewed and discussed the design features, characteristics, and performance metrics of our compensation programs and approval mechanism for compensation and observed believes the following factors, among others, which the Compensation Committee believes reduces mitigate any potential risks associated with our and CVR Energy's compensation policies and practices:

- Our compensation policies and practices are centrally designed and administered;
- Our compensation is balanced among (i) fixed components like such as salary and benefits, (ii) variable incentives tied to a mix of financial and operational performance, and (iii) variable long-term incentives;
- The Compensation Committee has discretion to adjust performance-based awards when appropriate based on our interests and the interests of our unitholders;
- Certain We have a Policy for the Recovery of Erroneously Awarded Compensation providing for the recovery or "clawback" of certain compensation awarded to executive officers, and certain elements of our compensation programs also contain claw-back provisions.

Compensation Process for 2022 2023

In setting named executive officer compensation for 2022, while 2023, the Compensation Committee considered the philosophies and objectives described above and did not engage an independent compensation consultant or reference any reports from an independent compensation consultant. Instead, the Compensation Committee relied on its own its members' knowledge, experience, and judgment in assessing reasonable compensation and ensuring compensation levels remain competitive in the marketplace, and considered input from management including the Executive Chairman. The Compensation Committee further considered the structure it utilized for 2021 2022 compensation, and because CVR Energy's compensation philosophies, objectives, and processes are generally aligned with ours, the vote of CVR Energy stockholders from its 2022 2023 Annual Meeting, in which CVR Energy stockholders overwhelmingly approved, on an advisory basis, its named executive officer compensation for 2021, 2022, including for Mr. Pytosh. As a result, the Compensation Committee determined no material changes to such structure was appropriate at that time and elected to keep the compensation structure for 2022 2023 compensation the same as 2021, 2022.

December 31, 2022 2023

2022-2023 Named Executive Officer Compensation - CVR Partners

2022-2023 Target Compensation Mix. The 2022-2023 target compensation mix established by the Compensation Committee for our CEO, Mr. Pytosh, is predominantly variable or "at risk" at 78.1% 77%.

Target Compensation Mix.v3.jpg

- (1) Comprised of the sum that portion of our CEO's 2022-2023 base salary, target annual performance-based bonus, and target long-term incentive phantom awards. awards determined by the Compensation Committee. Actual compensation may differ therefrom.

Compensation Elements. As was the case in 2021, 2022, the three primary components of CVR Partners' compensation program for 2022-2023 included base salary, an annual performance-based cash bonus, and an annual equity-based long-term incentive award vesting ratably over three years. The Compensation Committee adopted any formal or informal policies or guidelines for allocating compensation between long-term and current compensation.

Base Salary. Base salaries are set at a level intended to enable CVR Partners to hire and retain executives and to enhance the executive's motivation in a competitive and dynamic environment. Rather than establishing compensation solely on a formula-driven basis, decisions base-salary determinations by our Compensation Committee are made using an approach that considers several important factors in developing compensation levels. In determining base salary levels, the Compensation Committee takes into account the following factors: including: (i) CVR Partners' financial and operational performance for the year; (ii) the previous years' compensation for each executive; (iii) recommendations of the Executive Chairman based on individual responsibilities and performance, (iv) the directors' own common sense, knowledge, experience, judgment and views of the skills necessary for long-term performance; (v) whether individual base salaries reflect responsibility levels and are reasonable, competitive and fair; and (vi) each named executive officer's commitment and ability to strategically meet business challenges, achieve financial results, promote the company's ethical compliance, lead their own business or business team for which they are responsible and diligently and effectively respond to immediate needs of the volatile market and business environment. In February 2022, 2023, considering the factors set forth above, the Compensation Committee established 2022-2023 base salary for Mr. Pytosh of \$364,796, making Mr. Pytosh's total 2022 base salary, including time dedicated to CVR Energy, \$377,564. \$607,993 2.

2021-2022 Annual Performance-Based Bonus Results. During 2022, In February 2023, the Compensation Committee evaluated the metrics included in CVR Partners' annual performance-based bonus program for 2021-2022 (the "2021-2022 UAN Plan"), which applies to all eligible employees of the Partnership's subsidiaries (including Mr. Pytosh), and the Partnership's Mission and Values described in Management's Discussion and Analysis above, and further considered the Compensation Committee's objectives of rewarding employees (including named executive officers) for measured performance, aligning employees' interests with those of its unitholders, encouraging employees to focus on targeted performance, and providing employees with the opportunity to earn additional compensation based on their and the Partnership's performance. Based on these considerations, in February 2022,

2 In February 2023, the CVI Compensation Committee determined a base salary for Mr. Pytosh of \$251,709 based on his time dedicated to CVR Energy. Mr. Pytosh's collective base salary, including that determined by the Compensation Committee, was \$629,273.

December 31, 2023

In 2023, the Compensation Committee approved payout to Mr. Pytosh under the 2021-2022 UAN Plan of \$482,200, \$478,000, approximately 102% 97% of his respective annual bonus based on his base salary for the Partnership.

December 31, 2023

2022-2023 Annual Performance-Based Bonus. In February 2022, 2023, the Compensation Committee, considered the same factors it evaluated in connection with the 2021 UAN Plan, and following consultation with our Executive Chairman, established the 2022-2023 CVR Partners, LP Performance-Based Bonus Plan (the "2022-2023 UAN Plan"), which applies to all eligible employees of the Partnership's subsidiaries (including Mr. Pytosh), and contains terms generally equivalent to the 2021-2022 UAN Plan. Plan subject to adjustments to the reliability measures and return on capital employed ("ROCE") bonus achievement thresholds, as well as to the definition of EBITDA, among other definitions, and that align with the compensation philosophy and objectives outlined above.

As was the case with the 2021 2022 UAN Plan, payout under the 2022 2023 UAN Plan was dependent first on achievement of an Adjusted EBITDA Threshold following achievement thereof, based upon the achievement of the Partnership under the performance measures specified below, followed by an adjustment based on employees' individual performance. These performance measures, including the threshold, target, and maximum performance goals for each such performance measure were determined by the Compensation Committee based on its discussions with management including the Executive Chairman and the Directors' knowledge and experience, and were selected with the goals of enforcing the Partnership's Mission and Values, optimizing operations, maintaining financial stability, and providing a safe and environmentally responsible workplace intended to maximize CVR Partners' overall performance resulting in increased unitholder value. The Partnership performance measures in the 2022 2023 UAN Plan were substantially the same as the 2021 UAN Plan, and included the following:

Environmental Health & Safety ("EH&S") Measures (25%)

Three measures evenly weighted (33-1/3% each): Total Recordable Incident Injury Rate (TRIR), Process Safety Tier I Incident Rate (PSIR), and Environmental Events

Percentage Change (over the prior year)	Bonus Achievement
Increase in Incident Rate TRIR, PSIR or Incidents EE	Zero
0%	50% of Target Percentage (Threshold)
Decrease > 0% and < 3%	Linear Interpolation between Threshold and Target
Decrease of 3%	Target Percentage
Decrease > 3% and < 10%	Linear Interpolation between Target and Maximum
Decrease of 10% or more, or if TRIR is maintained at or below 1.0, PSIR at or below 0.2 and EE at or below 20	150% of Target (Maximum)

Financial Measures (75%)

Four measures evenly weighted (25% each):

Reliability	Bonus Achievement
Greater than 8.0% 7.0%	Zero
8.00% 7%	50% of Target Percentage (Threshold)
6.01% 5.01% to 7.99% 6.99%	Linear Interpolation between Threshold and Target
6.00% 5%	Target Percentage
5.0% 4.0% to 5.99% 4.99%	Linear Interpolation between Target and Maximum
Less than 5.0% 4.0%	150% of Target (Maximum)

Equipment Utilization	Bonus Achievement
Less than 95%	Zero
95%	50% of Target Percentage (Threshold)
95.01% to 99.99%	Linear Interpolation between Threshold and Target
100%	Target Percentage
100.01% to 104.99%	Linear Interpolation between Target and Maximum
Greater than 105%	150% of Target (Maximum)

¹³ In February 2023, the CVI Compensation Committee approved payout to Mr. Pytosh under the 2022 Performance-based bonus plan of CVR Energy ("2022 CVI Plan") of \$ approximately 118% of target, based on base-salary determined by CVR Energy.

¹⁴ Per the 2022 2023 UAN Plan, "Adjusted EBITDA Threshold" means actual maintenance and sustaining capital expenditures plus reserves for turnaround expenses plus interest on debt for the given Performance Period, and board-directed actions. Adjusted EBITDA and the Adjusted EBITDA Threshold are non-GAAP financial measures and the Adjusted EBITDA Threshold is the equivalent of Adjusted EBITDA as reflected in this Annual Report in Part II, Item 7. *Non-GAAP Reconciliations*.

December 31, 2022 2023

Equipment Utilization Less than 95% 95% 95.01% to 99.99% 100% 100.01% to 104.99% Greater than 105%	Bonus Achievement Zero 50% of Target Percentage (Threshold) Linear Interpolation between Threshold and Target Target Percentage Linear Interpolation between Target and Maximum 150% of Target (Maximum)

ROCE (Ranking vs. Peer Group) First (highest) Second Third Fourth Fifth Sixth Seventh	Bonus Achievement 150% of Target (Maximum) 125% of Target Percentage 112.5% of Target Percentage Target Percentage (100%) 75% 50% of Target Percentage 50% of Target Percentage (Minimum) Zero Zero

The Peer Group utilized in the 2022 2023 UAN Plan for determination of return on capital employed ("ROCE") ROCE was selected by the Compensation Committee based on discussions with the Executive Chairman and the President and Chief Executive Officer and the Directors' knowledge of the fertilizer industry, and was intended to include companies in the fertilizer industry with similar operations to the Partnership and those with which the Partnership competes for executive talent. The Compensation Committee elected to keep the Peer Group for 2022 2023 the same as 2021, 2022, including CF Industries Holdings, Inc.; LSB Industries, Inc.; Nutrien Ltd.; The Anderson Companies, Inc.; Green Plains Partners LP; and Flotek Industries Inc.

The 2022 2023 UAN Plan includes a target bonus percentage for each participant, with possible payout between 0% and 150% of target based on achievement under the measures set forth in the 2022 2023 UAN Plan. In setting Mr. Pytosh's target bonus percentage for 2022, 2023, the Compensation Committee considered his bonus target for 2021, 2022, the total cash compensation to which Mr. Pytosh may be eligible in 2022, 2023, the expected ratio of salary to bonus and the Compensation Committee determined that a significant portion of its named executive officers' compensation should be at risk based on individual and entity performance, and elected to keep his bonus target for 2022 2023 the same as 2021, 2022, at 135% of base salary.

2022 2023 Annual Performance-Based Bonus Results

In February 2023, 2024, the Compensation Committee evaluated and certified to the performance metrics included in the 2022 UAN Plan. Pursuant to its evaluation of the performance of the Partnership under the 2022 2023 UAN Plan the Compensation Committee and determined that the Partnership had achieved Adjusted EBITDA in excess of the 2022 2023 UAN Plan in excess of the Adjusted EBITDA Threshold, and

December 31, 2022 2023

Adjusted EBITDA Threshold, and thereafter determined that the Partnership's achievement of the metrics under the 2022 2023 UAN Plan resulted in payout of 97% of target, based on the following:

Measure	Measure	2023 Actual	Bonus Achievement
EH&S:	EH&S: TRIR Increase of 367%	0%	
PSIR	PSIR	Decrease of 100%	150
EE	EE	Less than 20	150

As a result, in February 2023, 2024, the Compensation Committee approved payout to Mr. Pytosh under the 2022 2023 UAN Plan of \$478,000, \$506,400, approximately 97% 100% of his respective target annual bonus based on his base salary for the Partnership. The CVI Compensation Committee also awarded a payout to Mr. Pytosh under the 2022 performance-based bonus plan for CVR Energy (the "2022 CVI Plan"), based on CVR Energy's achievement under the 2022 CVI Plan, which contains measures generally equivalent to the measures applicable under the 2022 UAN Plan, of 118%, resulting in a total performance-based bonus payout of \$851,500.⁵

Long-Term Incentive Awards. The Compensation Committee believes long-term incentive compensation is one of the most crucial elements of its compensation program because it aligns the interests of management with our unitholders and serves to both incentivize and retain executives. The amount of a long-term incentive award is made after consideration of various relevant factors including the named executives' overall compensation package, the compensation philosophy and objectives described above, the Partnership's interest in rewarding long-term performance of, and in retaining, its named executive officers and the ability to generate future value if the value of CVR Partners increases for all of its unitholders. CVR Partners established its long-term incentive plan in March 2011 (the "CVR Partners LTIP") in connection with the completion of its initial public offering in April 2011. The Compensation Committee may elect to make grants of restricted units, options, phantom units or other equity-based awards under the CVR Partners LTIP in its discretion or may recommend grants to the Board for its approval, as determined by the Compensation Committee in its discretion. Effective December 2021, 2022, the Compensation Committee awarded Mr. Pytosh 8,774 6,001 phantom units of the Partnership, as part of his 2022 2023 compensation, which phantom units vest ratably over three years, subject to the terms and conditions of the award agreement.⁶

Perquisites. The total value of all perquisites and personal benefits provided to each of its named executive officers in 2022 2023 was less than \$10,000.

Benefits. During 2022, 2023, all of the named executive officers participated in the health and welfare benefit and retirement plans of CVR Energy.

Other Forms of Compensation. Mr. Lamp has provisions in his employment agreements with CVR Energy that provide for severance benefits in the event of termination of his employment under certain circumstances. Additionally, all of our other named executive officers are subject to a Change in Control Severance Plan ("CVI Severance Plan"), which provides for severance benefits in the event of employment termination under certain circumstances. These severance provisions are described below in "Change-in-Control and Termination Payments."

⁵ In February 2024, The CVI Compensation Committee also awarded a payout to Mr. Pytosh under the 2023 performance-based bonus plan for CVR Energy (the "2023 CVI Plan"), based on CVR Energy's achievement under the 2023 CVI Plan, which contains measures generally equivalent to the measures applicable under the 2023 UAN Plan, of 108%, resulting in a performance-based bonus payout of \$865,700.

⁶ Effective December 2022, as part of his 2023 compensation, the CVI Compensation Committee awarded Mr. Pytosh 12,348 incentive units in connection with the long-term incentive plan for CVR Energy (the "CVI LTIP"), which will vest in one-third increments every December following the date of award, subject to the terms of the award agreement.

December 31, 2023

2023 Named Executive Officer Compensation - CVR Energy

The objectives, considerations, and process utilized by the CVI Compensation Committee in general, as well as in setting 2022-2023 compensation for named executive officers of CVR Energy, was virtually identical to the objectives, considerations, process, and structure used by the Compensation Committee. Related to 2022, 2023, the Compensation Committee approved:

December 31, 2023

- **2022-2023 Compensation Structure.** Compensation structure consistent with the compensation structure approved by the Compensation Committee including base salary, performance-based bonus compensation, and long-term incentives.
- **2022-2023 Base Salaries.** Base salaries for Messrs. Lamp, Pytosh (as to 40% of his base salary), Neumann, and Conaway, and Ms. Buhrig, of \$1,100,000; \$2,450,000; \$293,626; \$251,709; \$522,500; \$322,989; and \$598,934, respectively.
- **2021 Performance-Based Bonus Plan Results.** The 2021 performance-based bonus plan for CVR Energy (the "2021 CVI Plan"), including target payout as a percentage of base salary of 150% for Mr. Lamp, 135% for Mr. Pytosh, 120% for each of Mr. Neumann and Ms. Buhrig, and 60% for Mr. Conaway, contained terms and performance measures substantially similar to the 2020 CVI Plan and the 2021 UAN Plan subject to, in the case of comparison to the 2020 CVI Plan, an adjustment of Adjusted EBITDA and Adjusted EBITDA Threshold.² The peer group in the 2021 CVI Plan was the same as in the 2020 CVI Plan, and included publicly traded petroleum refining and marketing companies the CVI Compensation Committee considered to be similar to CVR Energy with respect to operations and also competitive with CVR Energy for executive talent (Valero Energy Corp.; Marathon Petroleum Corp.; PBF Energy Inc.; Delek US Holdings, Inc.; HollyFrontier Corp.; and Par Pacific Holdings, Inc. (collectively, the "2021 Peer Group")). In February 2022, the CVI Compensation Committee approved payouts for Messrs. Lamp, Pytosh, Neumann, and Conaway and Ms. Buhrig under the 2021 CVI Plan of \$1,710,000, \$351,900, \$250,400, \$128,000, and \$793,500, \$631,875, respectively.
- **2022 Performance-Based Bonus Plan Results.** **Results.** The 2022 CVI Plan, including target payouts as a percentage of base salary of 150% for Mr. Lamp, 135% for Mr. Pytosh, 120% for each of Mr. Neumann and Ms. Buhrig, and 60% for Mr. Conaway, contained terms and performance measures substantially similar to the 2021 CVI Plan and the 2022 UAN Plan subject to, in the case of comparison to the 2020 CVI Plan, the adjustment of Adjusted EBITDA and the Adjusted EBITDA Threshold.^{2,7} The peer group in the 2022 CVI Plan was the same as in the 2021 CVI Plan, and included six publicly traded petroleum refining and marketing companies the CVI Compensation Committee considered to be similar to CVR Energy with respect to operations and also competitive with CVR Energy for executive talent (Delek US Holdings, Inc.; HollyFrontier Corp.; Marathon Petroleum Corp.; Par Pacific Holdings, Inc.; PBF Energy Inc.; and Valero Energy Corp. (collectively, the "2022 Peer Group")). In February 2023, the CVI Compensation Committee approved payouts for Messrs. Lamp, Pytosh, Neumann, and Conaway and Ms. Buhrig under the 2022 CVI Plan of \$1,947,100, \$373,500, \$650,200, \$198,000, and \$886,000, respectively.
- **Project Renew Bonus.** In February 2023, the CVI Compensation Committee approved one-time bonuses for Messrs. Neumann and Conaway and Ms. Buhrig of \$150,000, \$50,000, and \$200,000, respectively, in each case in recognition of their respective outstanding performance in connection with, and the successful completion of CVR Energy's effort to transform its business by segregating its renewables business, operations and assets from its other business lines.
- **2023 Performance-Based Bonus Plan Results.** The 2023 CVI Plan, including target payouts as a percentage of base salary of 150% for Mr. Lamp, 135% for Mr. Pytosh, 120% for each of Mr. Neumann and Ms. Buhrig, and 60% for Mr. Conaway, contained terms and performance measures substantially similar to the 2022 CVI Plan, other than the same adjustments made to the 2023 UAN Plan outlined earlier herein. The peer group in the 2023 CVI Plan is the same as in the 2022 CVI Plan. In February 2024, the CVI Compensation Committee approved payouts for Messrs. Lamp, Pytosh, Neumann, and Conaway and Ms. Buhrig under the 2023 CVI Plan of \$1,782,100, \$359,300, \$699,000, \$201,100, and \$843,800, respectively.

- **2023 Long-Term Incentive Awards.** In December 2021, 2022, as part of 2022 2023 compensation, incentive units in connection with the long-term incentive CVR Energy (the "CVI LTIP") CVI LTIP were granted to Messrs. Lamp, Pytosh, Neumann, and Conaway and Ms. Buhrig of 72,533; 22,843; 23,210; 8,413; 12,348; 15,232; 4,468; and 33,075, 18,253, respectively, which vest in one-third increments each December following the date of award, subject to the terms and conditions of the award agreement.⁹

Equity Ownership Requirements. CVR Partners has not established equity ownership requirements for its executive officers, and all long-term incentive or performance awards issued in connection with but not under the CVI LTIP or UAN LTIP, as applicable, are generally settled in cash. The Compensation Committee believes that the settled awards provide the executive officers with a more attractive compensation package and are less burdensome for the Partnership to administer than equity awards. Additionally, equity-settled compensation in the form of Partnership common units or CVR Energy common stock would dilute the ownership interests of the Partnership's common unit/stockholders.

Hedging. We have a policy that prohibits our directors and named executive officers from engaging in transactions that hedge or offset, or are designed to hedge or offset, any decrease in the market value of CVR Partners securities by selling securities of CVR Partners "short," "short", and we recommend all employees follow this practice. We also strongly recommend that directors, named executive officers and employees, as well as persons residing in their households, not trade in exchange-

⁷ Per the 2022 CVI Plan, Adjusted EBITDA Threshold means actual maintenance and sustaining capital expenditures plus reserves for turnaround expenses plus interest on debt for the performance period and board-directed items.

⁸ Now known as HF Sinclair Corporation.

⁹ Such incentive units were consistent with the named executive officer target awards, as determined by the Compensation Committee or CVI Compensation Committee, as applicable, representing, as a percentage of base salary, 150% for Mr. Lamp, 200% for Mr. Pytosh, 120% for each of Mr. Neumann and Ms. Buhrig, and 60% for Mr. Conaway.

December 31, 2023

or other third-party options, warrants, puts and calls or similar instruments on CVR Partners securities, hold securities of CVR Partners in margin accounts, or conduct "naked" short selling against the box" (i.e., selling of borrowed securities without ownership of sufficient shares to cover the sale).

Clawback / Recoupment of Compensation. In addition October 2023, the Board approved a Clawback Policy applicable to any claw-back executive officer who implements the incentive-based compensation recovery provisions applicable under of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 as amended, under the NYSE listing standards, which requires recovery of incentive-based compensation received by current or other applicable laws and regulations, former executive officers during the three fiscal years preceding the date it is determined that the Partnership is required to prepare an accounting restatement, including to correct an error that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period. The amount required to be recovered is the excess of the amount of incentive-based compensation received over the amount that otherwise would have been received had it been determined based on the financial measure. Additionally, our long-term incentive plan award agreements and performance-based bonus plan contain provisions providing for cancellation, forfeiture, rescission, repayment, recoupment or claw-back, as applicable, of certain compensation paid to our employees, including our named executive officers, under circumstances, including in the event of (i) a restatement of the financial results of CVR Partners that would reduce (or would have reduced) the amount of any prior awarded phantom units, (ii) a determination by the Board or the Compensation Committee that the grantee of an award has engaged in misconduct (including by omission) that an event or condition has occurred, which, in each case, would have given the Partnership or its subsidiaries the right to

² Per the 2021 CVI Plan, Adjusted EBITDA Threshold means actual maintenance and sustaining capital expenditures plus reserves for turnaround expenses plus interest on debt for the performance period and board-directed items.

December 31, 2023

terminate the grantee's employment for cause, (iii) misconduct or gross dereliction of duty resulting in a violation of law or Partnership policy that causes significant harm to the Partnership, or (iv) other triggering events defined in the long-term incentive plan award agreements and the CVR Partners' performance-based bonus plan.

(a) a company contribution Reflects employer contributions under the CVR Energy 401(k) plan of \$18,300 plan.

- (b) Reflects the imputed income amount that is included in taxable income for each of Messrs. Lamp, Pytosh, Neumann, and Conaway and Ms. Buhrig; (b) a company contribution under the CVR Energy basic life insurance program of \$6,858 for Mr. Lamp, \$2,322 for Mr. Pytosh, \$440 for Mr. Neumann, \$810 for Ms. Buhrig, and \$311 for Mr. Conaway; and Group Term Life Insurance Plan.
- (c) Reflects for Mr. Lamp, a retroactive catch-up payment equal to the difference between Mr. Lamp's prior base salary and the base salary under the 2021 Employment Agreement for a 10-day period from December 22, 2021 to December 31, 2021, of \$1,154. Amounts in this column for 2021 include the following: (a) a company contribution under the CVR Energy basic life insurance program of \$3,564 for Mr. Lamp, \$2,322 for Mr. Pytosh, \$440 for Mr. Neumann, \$810 for Ms. Buhrig, and \$279 for Mr. Conaway. Amounts in this column for 2022 include the following: (a) a company contribution under the CVR Energy 401(k) plan of \$17,100 for each of Messrs. Lamp and Pytosh and Ms. Buhrig; and (b) a company contribution under the CVR Energy basic life insurance program of \$3,701 for Mr. Lamp, \$2,411 for Mr. Pytosh, and \$841 for Ms. Buhrig.

As described in more detail in the Compensation Discussion and Analysis, CD&A, the named executive officers, including Mr. Pytosh, are employed by a subsidiary of CVR Services Energy and dedicated only a portion of their time to our business in 2022, 2023, with the remainder dedicated to the business of CVR Energy subsidiaries.

The following table outlines 2022 2023 compensation paid or granted to the named executive officers who are employed by CVR Services and that was attributable to their service to our business, based on the approximate percentage of time that each of them dedicated to our business thereto during 2022 2023 (10%, 60%, 18%, and 20% for Messrs. Lamp, Pytosh, Neumann, and Conaway, respectively, and 20% for Ms. Buhrig), including the Stock Award and Non-Equity Incentive Compensation for Mr. Pytosh, granted to him by the Compensation Committee.

December 31, 2

respectively, and 20% for Ms. Buhrig), including the Stock Award and Non-Equity Incentive Compensation for Mr. Pytosh, granted to him by the Compensation Committee.

- (1) Amounts in these columns reflect amounts that could have been earned by the named executive officers under the 2022 2023 UAN Plan (with respect to Mr. Pytosh) or under the 2022 2023 CVI Plan (with respect to Messrs. Lamp, Pytosh, Neumann, and Conaway and Ms. Buhrig) in respect of 2022 performance with respect to each performance measure, excluding the effect of any individual discretionary performance adjustments. The performance measures for 2022 2023 were set by the Compensation Committee and the CVI Compensation Committee, as applicable, as described in the "Compensation Discussion and Analysis." Analysis".
- (2) Amounts in these columns reflect the number of and grant date fair value, as calculated in accordance with Topic 718, of (i) phantom units awarded to Mr. Pytosh during 2022 2023 of 2023 2024 compensation in connection with the UAN LTIP; and (ii) incentive units awarded to Messrs. Lamp, Pytosh, Neumann, and Conaway and Ms. Buhrig by CVR Energy during 2022 2023 as part of 2023 2024 compensation in connection with the CVI LTIP.

December 31, 2023

- (3) For the 2022 2023 UAN Plan and the 2022 2023 CVI Plan, 'Threshold' represents the minimum payout under the 2022 UAN Plan and the 2022 CVI Plan, as applicable, the Partnership and CVR Energy, as applicable, have satisfied the Adjusted EBITDA Thresholds and have achieved performance under one of the EH&S measures equal to or greater than prior year performance, resulting in a payout of 50% of the 8.33% measure value, or 4.167% of total target payout. For more information and full description of the 2022 2023 CVI Plan and the 2022 2023 UAN Plan, see "Compensation Discussion and Analysis." However, in certain circumstances, including in the event the Adjusted EBITDA Threshold is not achieved, the named executive officers may receive payout that is less than the Threshold or zero.

December 31, 2023

Employment Agreements Agreement and Incentive Payment

Employment Agreements with CVR Partners. None of our named executive officers have an employment agreement with the Partnership, our General Partner subsidiaries.

Employment Agreements with CVR Energy. None Other than Mr. Lamp, none of our named executive officers have an employment agreement with CVR Energy subsidiaries other than subsidiaries. Mr. Lamp. On December 22, 2021, CVR Energy and Mr. Lamp entered into a new Lamp's employment agreement, which was entered on December 22, 2021 (the "2021 Employment Agreement"), which was effective immediately and superseded and replaced in the entirety, Mr Lamp's prior employment agreement. The 2021 Employment Agreement has an approximate three-year term, which expires on December 31, 2024, unless otherwise terminated, amended or extended by CVR Energy or Mr. Lamp. Under the 2021 Employment Agreement, in addition to the ability to participate in such health, insurance, retirement and employee benefit plans and programs of CVR Energy in effect from time to time on the same basis as other senior executives of CVR Energy, Mr. Lamp is also eligible to receive:

- An annual base salary of \$1,100,000;
- A performance-based annual cash bonus with a target payment equal to 150% of his annual base salary, to be paid with the actual amount of such bonus received upon individual and/or performance criteria as established by the CVI Compensation Committee; and
- For each fiscal year during the term of the 2021 Employment Agreement, an incentive unit award equal to 150% of his base salary (or such other amount as determined by the CVR Energy and Mr. Lamp) granted in connection with the CVI LTIP.

The 2021 Employment Agreement also provides for the payment of certain Mr. Lamp with severance payments to Mr. Lamp that may be due following in connection with the termination of his Mr. Lamp's employment under certain circumstances, and which payments are described below under "Change-in-Control and Termination Pay" and requires Mr. Lamp to abide by a perpetual restrictive covenant relating to non-disclosure and non-disparagement, as well as covenants relating to non-solicitation and non-competition that govern during his employment and thereafter for the period severance is paid and, if no severance is paid, for six months following termination of employment.

Mr. Lamp is also eligible to receive an incentive payment of \$10 million (the "Incentive Payment") payable if either the conditions set forth in the 2021 Employment Agreement or the conditions set forth in a separate Performance Unit Award Agreement, as amended on December 22, 2021 (as amended, the "PU Award Agreement"), are fulfilled, as follows:

Agreement	Conditions	Measurement Period
2021 Employment Agreement	• a transaction is consummated that constitutes a Change-in-Control⁽¹⁾ or • the Board approves a transaction which, if consummated, would constitute a Change-in-Control⁽¹⁾ and such transaction is consummated on or prior to December 31, 2025	Prior to December 31, 2024
PU Award Agreement	The average closing price of CVR Energy's common stock is equal to or greater than \$60.00 per share (subject to any equitable adjustments required to account for splits, dividends, combinations, acquisitions, dispositions, recapitalizations and the like)	30-trading day period: January 6, 2025 - February 20, 2025

(1) Change-in-Control as defined in the 2021 Employment Agreement.

Payment of the Incentive Payment under the 2021 Employment Agreement or the PU Award Agreement is conditioned upon Mr. Lamp remaining employed with CVR Energy through December 30, 2024 (unless terminated by CVR Energy without cause or by Mr. Lamp for good reason (as defined in the 2021 Employment Agreement) after the satisfaction of the foregoing conditions and prior to December 30, 2024). Mr. Lamp will not under any circumstance be entitled to receive

December 31, 2024

more than one Incentive Payment and if he becomes entitled to the Incentive Payment under the terms of the 2021 Employment Agreement, Mr. Lamp will immediately forfeit any right to payments under the PU Award Agreement.

The descriptions of these agreements are qualified in their entirety by the text of such agreements, each as referenced in previous filings with the SEC and as set forth in this Annual Report on Form 10-K.

December 31, 2024

Outstanding Equity Awards at Fiscal Year End

The following table sets forth information concerning outstanding phantom unit awards granted in connection with the CVR Partners UAN LTIP that were held by of the named executive officers, as well as outstanding incentive unit awards made by CVR Energy granted in connection with the CVI LTIP and for which the Partner: share in the expense, both as of December 31, 2022December 31, 2023. This table also includes information regarding outstanding incentive unit awards made l Energy to Mr. Pytosh for which the Partnership does not share in the expense. All of the outstanding units or shares reflected below are subject to accelerated vestin certain circumstances as described in more detail in the section titled "Change-in-Control and Termination Payments."Payments".

December 31, **2022 2023**

Reimbursement of Expenses of Our General Partner

Our General Partner and its affiliates are reimbursed for expenses incurred on our behalf under the Corporate MSA. See "Certain Relationships **Refer to Part II, Note 12 ("Related Party Transactions")** and Related Transactions, and Director Independence - Agreements with CVR Energy and its Subsidiaries." **Part III, Item 1: Report for additional information.** These expenses include the costs of employee, officer and director compensation and benefits properly allocable to us, and expenses necessary or appropriate to the conduct of our business and allocable to us. These expenses also include costs incurred by CVR Energy or its affiliates rendering corporate staff and support services to us pursuant to the Corporate MSA, including a pro-rata portion of the compensation of CVR Energy's executive officers provide management services to us based on the amount of time such executive officers devote to our business. For the year ended **December 31, 2022 December 31, 2023** the total amount paid to our General Partner and its affiliates (including amounts paid to CVR Energy pursuant to the Corporate MSA) was approximately **\$17.2 \$18.9**.

Our partnership agreement provides that our General Partner determines which of its affiliates' expenses are allocable to us and the Corporate MSA provides that CVR Energy invoice us monthly for services provided thereunder. Our General Partner may dispute the costs that CVR Energy charges us under the Corporate MSA, but not entitled to a refund of any disputed cost unless it is determined not to be a reasonable cost incurred by CVR Energy in connection with services it provided.

Change-in-Control and Termination Payments

Our named executive officers are entitled to severance and other benefits from CVR Energy following the termination of their employment under certain circumstances as follows:

2021 Employment Agreement. If Mr. Lamp's employment is terminated, he is **may become** entitled to the following benefits as more fully described in the Employment Agreement:

Reason for Employment Termination	Accrued Amounts ⁽¹⁾	Severance Payments ⁽²⁾	LTIP Payout ⁽³⁾	Incentive Payments
Death, Disability or Termination other than for cause or Resignation for good reason, in each case not in connection with a change-in-control	ü	ü	ü	
Resignation for good reason	ü	ü	ü	
Resignation or Retirement	ü			
Termination without cause or Resignation for good reason, in each case in connection with a change-in-control ⁽⁵⁾	ü		ü	ü
Resignation for good reason in connection with a change-in-control ⁽⁵⁾	ü		ü	ü

- (1) Includes base salary earned but unpaid through date of termination or resignation, earned but unpaid Annual Bonus for completed fiscal years, unused accrued paid time off, unvested restricted stock units, accrued and vested rights or benefits under any CVR Energy sponsored employee benefit plans.

- (2) Includes continuation of base salary for the lesser of (i) six months, and (ii) the remainder of the term, plus a pro-rata Annual Bonus for the fiscal year of termination based on his achievement and/or performance criteria for such fiscal year, and/or in the case of termination due to disability, payments under CVR Energy's disability plan(s).
- (3) Includes the value of full vesting of any unvested incentive units (and accumulated dividend equivalent rights) but only if such incentive units were granted more than one year prior to the date of termination of employment, calculated based on the 10-day average closing price of a share of CVR Energy.
- (4) \$10 million.
- (5) Termination or resignation is considered to be in connection with a change-in-control if it is a Change-in-Control Related Termination (as defined in his 2021 Employment Agreement) is a termination of employment other than for cause or a resignation for good reason, in each case occurring within the 120-day period prior to the change of control change-of-control payable within 30 days following the consummation of the change in control relating to such change-of-control. For the avoidance of doubt, such benefits are conditioned on the consummation of a change in control change-in-control on or prior to December 31, 2025.

December 31, 2025

As a condition to receiving these severance benefits, Mr. Lamp must execute, deliver and not revoke a general release of claims and abide by restrictive covenants relating to non-solicitation and non-competition during Mr. Lamp's employment term, and thereafter during the period he receives severance payments or supplemental disability payments, as applicable, or for six months following the end of the term (if no severance or disability payments are payable), as well as a perpetual restrictive covenant relating to non-disclosure and non-disparagement and covenants relating to non-solicitation and noncompetition. If any payments or distributions due to Mr. Lamp under his 2021 Employment Agreement would be subject to the excise tax imposed under Section 4999 of the Code,

December 31, 2025

then such payments or distributions will be "cut back" only if that reduction would be more beneficial to him on an after-tax basis than if there was no reduction. The terms of all terms used, but not defined in this description of these benefits to which Mr. Lamp is entitled upon employment termination, are as defined in the 2021 Employment Agreement and are qualified thereby in the entirety.

CVI Severance Plan. Messrs. Pytosh, Neumann, and Conaway and Ms. Buhrig do not have employment agreements. However, under the CVI Severance Plan, Messrs. Pytosh, Neumann, and Conaway and Ms. Buhrig are generally eligible for certain payments in the event of their involuntary termination (other than for cause, as defined in the CVI Severance Plan) or their resignation for good reason (as defined in the CVI Severance Plan) in connection with a change-in-control, as follows:

Reason for Employment Termination	Accrued Amounts ⁽¹⁾	Severance Payments ⁽²⁾	Vesting Acceleration ⁽³⁾
Involuntary termination (other than for cause) in connection with a change-in-control ⁽⁴⁾	Ü	Ü	Ü
Resignation for good reason in connection with a change-in-control ⁽⁴⁾	Ü	Ü	Ü

- (1) The sum of any base pay earned but unpaid through the date of termination, any unused accrued paid time off in accordance with the applicable paid time off policy, any unreimbursed expenses in accordance with the applicable expense reimbursement policy, and any accrued and vested rights or benefits under any CVR Energy sponsored employee benefits plan.
- (2) The sum of (a) twelve (12) months of base pay, and (b) the average of the annual bonuses actually paid during the three calendar years immediately preceding (or for such shorter period as may be applicable) or 100% of target bonus, if applicable).
- (3) Accelerated vesting as to 100% of the unvested incentive awards, calculated based on the 20-day average closing price of a share or common unit of CVR Energy or the Partnership, as applicable, plus any accrued dividends declared and paid through the vest date.
- (4) Occurring within the 120 days preceding or the 24 months following a change-in-control (as defined in the CVI Severance Plan).

Payout of these amounts are subject to various conditions including the execution of a release agreement, a perpetual restrictive covenant relating to non-disclosure and non-disparagement and covenants relating to non-solicitation and non-competition for a period of 12 months.

Award Agreements. Under the award agreements issued in connection with the CVR Partners UAN LTIP, as well as in connection with the CVI LTIP, each of Mr. Lamp, Pytosh, Neumann, and Conaway and Ms. Buhrig our named executive officers are also eligible for accelerated vesting of certain unvested incentive units upon termination the events which generally represents described below. Upon such accelerated vesting, the right to named executive officers will receive upon vesting, payment equal to (i) the number of units times the average closing price of a common unit of Partnership or a common share of CVR Energy, as applicable, for the ten days preceding the vest date, plus (ii) the per unit cash value of distributions and dividends declared and paid by the Partnership and dividends declared and paid by CVR Energy.

Energy, as applicable, from the grant date to and including the vest date. These awards **award agreements** generally provide for acceleration upon certain termination as follows:

- For awards issued after February 21, 2022, if the phantom units or incentive units, as applicable, are cancelled or if such named executive officer (a) is terminated other than for cause, or (b) is terminated due to death or disability, then the portion of any award scheduled to vest within twelve months of such event b immediately vested and the remaining portion is forfeited.
- For awards issued before February 21, 2022, if the phantom units or incentive units, as applicable, are cancelled or if such named executive officer (a) is terminated other than for cause, or (b) is terminated due to death or disability, then the portion of any award scheduled to vest in the year such event occurs shall immediately vested and the remaining portion is forfeited.

Cash Severance and Accelerated Vesting Potential Payments upon Termination or Change in Control

The following table reflects the value of potential post-employment payments and benefits **amounts payable** to the **our** named executive officers **as a result of a hypothetical termination events outlined below** assuming the triggering employment termination event took place on **December 31, 2022** **December 31, 2023**. Pursuant to our Corporate MSA, we

December 31, 20

are responsible for the payment of our proportionate share of these severance benefits under the 2021 Employment Agreement, the CVI Severance Plan, award agreements and other benefits costs following the termination of

December 31, 20

employment of the named executive officers that are employed by CVR Services. **officers**. The actual payments to which a named executive officer would be entitled only be determined based upon the actual occurrence and circumstances surrounding the termination.

- (1) Severance payments and benefits in the event of termination without cause or resignation for good reason not in connection with a change in control.
- (2) Severance payments and benefits in the event of termination without cause or resignation for good reason in connection with a change in control.
- (3) Accrued Amounts represents, as defined in the 2021 Employment Agreement, Mr. Lamp's earned but unpaid Annual Bonus. **Bonus under the 2023 CVI Plan.**
- (4) For Mr. Lamp, the accelerated vesting value upon death, disability, or termination without cause or resignation for good reason in connection with a change in control, represents defined in the 2021 Employment Agreement, the number of any unvested incentive units held as of **December 31, 2022** **December 31, 2023**, that were granted more than one year thereto, multiplied by for incentive units awarded (i) on **December 9, 2020** **December 8, 2021**, the average closing price for CVR Energy common stock for the 10-trading days preceding **December 31, 2022** **December 31, 2023**, or **\$30.85** **\$31.27** per share (the "CVI 10-day Average Price"), plus **\$9.69** **\$9.30** in accrued dividends, and (ii) on **December 8, 2021** **December 14, 2022**, the CVI 10-day Average Price, plus **\$4.80** **\$4.50** in accrued dividends (the "LTIP Payout"), plus (B) for incentive units granted by CVR Energy on or after February 21, 2022, defined in the award agreement, the number of any unvested incentive units scheduled to vest within twelve months from **December 31, 2022** **December 31, 2023**, multiplied by for incentive units awarded (i) on **December 14, 2022**, the CVI 10-day Average Price, plus **\$4.50** in accrued dividends, and (ii) on **December 13, 2023** the CVI 10-day Average Price. The accelerated vesting value upon

December 31, **2022** **2023** |

value upon resignation for good reason not in connection with a change in control is equal to the LTIP Payout. For the avoidance of doubt, as used herein, the term "LTIP Payout" is calculated as defined in Mr. Lamp's 2021 Employment Agreement.

- (5) For Mr. Lamp, the cash severance amount upon (A) death, disability, or termination without cause or resignation for good reason not in connection with a change in control represents defined in the 2021 Employment Agreement, 6-months of Base Salary; and (B) termination without cause or resignation for good reason in connection with a change in control represents the Incentive Payment. Provided that, in the case of payments upon disability, the 6-months of Base Salary may, in the event CVR Energy secures insurance to cover its obligations, be lower. Additionally, in the case of a termination event on a date other than **December 31, 2022**, Mr. Lamp would also be entitled to a Pro Rata Bonus as part of the severance amount, as defined in the 2021 Employment Agreement. **Bonus.** The terms Pro-Rata Bonus, Base Salary, and Incentive Payment are all as defined in the 2021 Employment Agreement.
- (6) For Mr. Pytosh, the accelerated vesting value upon (A) death, disability, or termination without cause not in connection with a change in control, represents for phantom unit awards granted by the Partnership on or after February 21, 2022, pursuant to the award agreement, the number of any unvested phantom units scheduled to vest within twelve months from **December 31, 2022** **December 31, 2023**, multiplied by for phantom units awarded (i) on **December 14, 2022**, the average closing price for Partnership common units for the 10 trading-days preceding **December 31, 2022** **December 31, 2023**, or **\$101.82**; **\$68.88** per unit (the "UAN 10-day Average Price"), plus **\$26.62** in accrued distributions, and (ii) on **December 13, 2023**, the UAN 10-day Average Price; and (B) termination without cause or resignation for good reason, both in connection with a change in control, represents pursuant to the CVI Severance Plan, the number of all unvested phantom units outstanding on **December 31, 2022** **December 31, 2023**, multiplied by, for phantom units awarded by the Partnership (i) on **December 8, 2021**, the average closing price for Partnership common units for the 20 trading-days preceding **December 31, 2022** **December 31, 2023**, or **\$106.86** **\$67.50** per unit (the "UAN 20-day Average Price"), plus **\$23.97** **\$45.94** in accrued distributions, (ii) on **December 8, 2021** **December 14, 2022**, the UAN 20-day Average Price plus **\$19.32** **\$26.62** in accrued distributions, and (iii) on **December 14, 2022** **December 13, 2023**, the UAN 20-day Average Price.
- (7) For Messrs. Pytosh, **Neumann** **Conaway** and Ms. Buhrig, the accelerated vesting value upon (A) death, disability, or termination without cause not in connection with a change in control, represents for incentive unit awards granted by CVR Energy on or after February 21, 2022, pursuant to the award agreement, the number of any unvested incentive units scheduled to vest within twelve months from **December 31, 2022** **December 31, 2023**, multiplied by for incentive units awarded (i) on **December 14, 2022**, the CVI 10-day Average Price, plus **\$4.50** in accrued dividends, and (ii) on **December 13, 2023** the CVI 10-day Average Price; and (B) termination without cause or resignation for good reason, both in connection with a change in control represents, pursuant to the CVI Severance Plan, the number of all unvested units outstanding on **December 31, 2022** **December 31, 2023**, multiplied by, for incentive units awarded by CVR Energy (a) on **December 9, 2020** **December 8, 2021**, the average closing price for CVR Energy common stock for the 20-trading days preceding **December 31, 2022** **December 31, 2023**, or **\$30.93** **\$31.07** per share (the "CVI 20-day Average Price"), plus **\$9.69** **\$9.30** in accrued dividends, (b) on **December 8, 2021** **December 14, 2022**, the CVI 20-day Average Price, plus **\$4.80** **\$4.50** in accrued dividends, and (c) on **December 14, 2022** **December 13, 2023**, the CVI 20-day Average Price.

- (8) For Mr. Messrs. Pytosh, Neumann and Conaway and Ms. Buhrig, cash severance amounts upon termination without cause or resignation for good reason, both in connection with a change in control include, as defined under the CVI Severance Plan, a lump sum of twelve months' base pay plus a sum equal to the average of the annual bonuses actually paid during the twelve months immediately preceding three full calendar years.
- (9) For Messrs. Neumann and Conaway, cash severance amounts upon termination without cause or resignation for good reason, both years in connection with a change in control, include, as defined under the CVI Severance Plan, a lump sum of twelve months' base pay plus a sum equal to 100% of their current target bonus based on such shorter period of time during which they served as a named executive officer.
- (10) For Mr. Conaway, the accelerated vesting value upon (A) death, disability, or termination without cause not in connection with a change in control include for incentive unit awards by CVR Energy on or after February 21, 2022, pursuant to the award agreement, the number of any unvested incentive units scheduled to vest within twelve months from December 31, 2022, multiplied the CVI 10-day Average Price; and (B) termination without cause or resignation for good reason, both in connection with a change in control represents, pursuant to the CVI Severance Plan, the number of all unvested incentive units awarded by CVR Energy outstanding on December 31, 2022, multiplied by, for incentive units awarded (i) on August 19, 2020, the CVI 20-day Average Price, plus \$9.69 in accrued dividends, (ii) on December 8, 2021, the CVI 20-day Average Price, plus \$4.80 in accrued dividends, and (iii) on December 14, 2022, the CVI 20-day Average Price.

Pay Ratio

For 2022, 2023, to identify the median of the annual total compensation of all our employees, as well as to determine the annual total compensation of our Principal Executive Officers, Mr. Lamp, our Executive Chairman, and Mr. Pytosh, our President and Chief Executive Officer (collectively, "PEOs"), we used the following methodology and made the following material assumptions, adjustments, and estimates:

- (1) We determined that, as of December 31, 2022, December 31, 2023, the number of employees of the Partnership and its consolidated subsidiaries consisted of 297,310 individuals, excluding our PEOs who are employed by CVR Services.
- (2) To identify the "median employee" from the employee population, we compared the amount of annual total compensation of such employees for 2022, 2023 determined in accordance with the requirements of Item 402(c)(2)(x) of Regulation S-K, which consisted of salary, bonus, non-equity incentive plan compensation, and other compensation. We "annualized" the compensation of our full-time and part-time permanent employees as of December 31, 2022, December 31, 2023, to adjust for the portion of the year that the employee did not work, if applicable. We did not make any cost-of-living adjustments in identifying the "median employee."
- (3) To identify the annual total compensation of our median employee, we included the elements of such employee's compensation for 2022, 2023 determined in accordance with the requirements of Item 402(c)(2)(x) of Regulation S-K.

December 31, 2023

- (4) To identify the annual total compensation of our PEOs, we used the amounts reported in the "Total" column of our 2022, 2023 Summary Compensation Table included in this Item 11, which was calculated in accordance with the same requirements of Item 402(c)(2)(x) of Regulation S-K, as adjusted to reflect the portion of the compensation attributable to Mr. Lamp's and Mr. Pytosh's service to the Partnership, of ten percent (10%) and sixty percent (60%), respectively, and as further described in the table immediately following our 2022, 2023 Summary Compensation Table.

December 31, 2023

Based on this methodology, we estimate that the ratio of the annual total compensation of each of our PEOs to the median of the annual total compensation of all our employees for 2022, 2023 was as follows:

Annual total compensation of Median Employee ⁽¹⁾	\$133,196,130,537
Annual total compensation of Executive Chairman ^{(2) (3)}	\$431,968,450,083
CEO Pay Ratio (Executive Chairman)	3:1
Annual total compensation of President & CEO ⁽²⁾	\$1,511,438,159,171
CEO Pay Ratio (President & CEO)	11:12:1

- (1) Excludes our PEOs.
- (2) Adjusted to reflect the portion of such compensation attributable to service to the Partnership.
- (3) Excludes the Partnership's portion of the retroactive payment made in 2022 related to the 2021 Employment Agreement of \$1,154.

The totals and pay ratios described above are reasonable estimates calculated in a manner consistent with Item 402(u) of Regulation S-K.

Compensation of Directors

Directors of our General Partner who are not officers, employees, or directors of CVR Energy or its affiliates (including IEP) receive compensation for their service. Compensation is designed to attract and retain nationally recognized, highly qualified directors to lead the Partnership and to be demonstrably fair to both the Partners and the directors, taking into consideration, among other things, the time commitments required for service on the Board and its committees.

In November 2021, October 2022, the Board considered these goals and the compensation paid to such directors for 2021, 2022, and upon recommendation of the Compensation Committee, elected to keep such compensation for 2022, 2023 the same as 2021, 2022. During 2022, 2023, independent directors received an annual fee of \$35,000. The Audit Committee chair received an additional fee of \$15,000 per year, while independent the other directors serving on the Audit Committee received an additional fee of \$7,500 per year. The Compensation Committee and EH&S Committee chairs received an additional fee of \$8,000 per year, while independent the other directors serving on the Compensation Committee and EH&S Committee received an additional fee of \$5,000 per year. In addition, during 2023, independent directors were eligible to be reimbursed for out-of-pocket expenses in connection with attending meetings of the board of directors (and Board and its committees thereof) of our General Partner and for other director-related education expenses, expenses up to a maximum amount of \$1,500 per year. Each member of the Committee is independent and was also eligible to receive an additional \$1,500 per meeting for all meetings in excess of the following threshold:

Board/Committee Meeting	Threshold Per Year
Board	6
Audit Committee	12
Compensation Committee	6
EH&S Committee	6

During 2023, directors that were not independent (including non-management directors who are or were employees or officers of IEP) did not receive compensation for their service on the Board or its committees, though they were entitled to reimbursement of certain travel expenses incurred in connection with their service on the Board and its committees.

December 31, 2022, 2023 |

The following table sets forth the compensation earned by or paid to each independent director of our General Partner who are not officers, employees, or directors of CVR Energy or its affiliates for the year ended December 31, 2022, December 31, 2023:

Name	Fees Earned or Paid in Cash		Unit Awards	Total Compensation
	(1)			
Donna R. Ecton	\$	55,000	\$ —	\$
Frank M. Muller, Jr.		55,500	—	
Peter K. Shea		50,500	—	

(1) Amounts reflected in this column include annual retainer fees and additional fees for service as committee members, including the for service in chair positions.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Unitholder Matters

SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS

The CVR Partners Long-Term Incentive Plan ("CVR Partners LTIP") provides for the grant of options, unit appreciation rights, distribution equivalent rights, restricted stock units, phantom units and other unit-based awards, each in respect of common units. Individuals who are eligible to receive awards under the CVR Partners LTIP include employees, officers, consultants and directors of CVR Partners and the general partner and their respective subsidiaries and parents. A maximum of 500,000 common units may be issued under the CVR Partners LTIP.

The table below contains information about securities authorized for issuance under the CVR Partners LTIP as of December 31, 2023:

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants, and Rights	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plan
Equity compensation plans approved by security holders:			

CVR Partners LTIP	—	—	482,021
Equity compensation plans not approved by security holders:			
None	—	—	—
Total	—	—	482,021

(1) Represents units that remain available for future issuance pursuant to the CVR Partners LTIP in connection with awards of options, unit appreciation rights, distribution equivalent restricted units, and phantom units.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table presents information regarding beneficial ownership of our common units as of February 21, 2023 February 20, 2024 by:

- our General Partner;
- each of our General Partner's directors;
- each of our named executive officers;
- each unitholder known by us to beneficially hold five percent or more of our outstanding units; and
- all of our General Partner's executive officers and directors as a group.

Beneficial ownership is determined under the rules of the SEC and generally includes voting or investment power with respect to securities. Unless indicated by our knowledge, the persons and entities named in the table have sole voting and sole investment power with respect to all common units beneficially owned, subject to community property laws where

December 31, 2024

applicable. The business address for each of our beneficial owners is c/o CVR Partners, LP, 2277 Plaza Drive, Suite 500, Sugar Land, Texas 77479.

- (1) CVR Services is an indirect wholly-owned subsidiary of CVR Energy, with an address at 2277 Plaza Drive, Suite 500, Sugar Land, TX 77479. CVR Energy may be deemed to have beneficial ownership of the common units held by CVR Services by virtue of its control of CVR Services. The directors of CVR Energy are Jaffrey A. Firestone, Hunter C. Gary, Lamp, Stephen Mongillo, Ted Papapostolou and James M. Strock and David Willetts. Strock.

December 31, 20

- (2) Beneficial ownership information is based on a Schedule 13G filed with the SEC on February 11, 2022, which indicates that Barclays Plc and Barclays Bank Plc, both with an address at Churchill Place, London, X0 E14 5HP, have sole voting power and sole dispositive power with respect to 621,054 units.
- (3) CVR GP, LLC, a wholly-owned subsidiary of CVR Services, is our General Partner and manages and operates CVR Partners and has a non-economic general partner interest with an address at 2277 Plaza Drive, Suite 500, Sugar Land, TX 77479.
- (4) The number of common units owned by all of the directors and executive officers of our General Partner, as a group, reflects the sum of (i) the 30,593 common units owned by Mr. Papapostolou, (ii) the 2,200 common units owned by Ms. Buhrig, (iii) the 1,250 common units owned by Ms. Ecton, (iv) the 3,512 common units owned by Mr. Muller, and (v) the 59 common units owned by Mr. Shea.

Item 13. Certain Relationships and Related Transactions, and Director Independence

CVR Services owns (i) 3,892,000 common units, representing approximately 37% of our outstanding units (which entitles it to receive distributions, in 2023, of \$103.6 million), and (ii) 100% of our General Partner with its non-economic general partner interest (which does not entitle it to receive distributions).

Agreements with CVR Services and Its Subsidiaries

The Partnership, its General Partner and the Partnership and its subsidiaries are party to, or otherwise subject to certain agreements with CVR Services and its subsidiaries that govern the business relations among each party. We consider those agreements related party transactions. The Partnership is party to the Partnership Agreement, the Corporate Master Service Agreement, and the Omnibus Agreement. Our Coffeyville Facility is party to the Coffeyville Master Service Agreement, the Terminal and Operating Agreement, and the Environmental Agreement. Further, some of these agreements were not the result of arm's-length negotiations and the terms of these agreements are not necessarily at least as favorable to the parties to these agreements as terms which could have been obtained from unaffiliated third parties. Refer to Part II, Item 8, Note 9.12 ("Related Party Transactions") of this Report for additional information related to these agreements. Refer also to Part IV, Item 11 of this Report for the filed agreements.

Agreements with IEP

December 31, 20

Insight Portfolio Group LLC ("ISG") is an entity formed and controlled by Mr. Icahn in order to maximize the potential buying power of a group of entities with Mr. Icahn has a relationship by negotiating with a wide range of suppliers of goods, services, and tangible and intangible property at negotiated rates. For 2022, 2020, the Partnership did not pay any fees to ISG. However, we indirectly received services from certain of CVR Energy's negotiated agreements with third parties, which were initiated through the ISG. On January 23, 2020, CVR Energy assigned its minority equity interest in ISG to a third party, terminated its agreement relating to ISG and is no longer expected to transact with ISG.

Conflicts of Interest

Conflicts of interest exist and may arise in the future as a result of the relationships between our General Partner and its affiliates (including IEP, CVR Services, and CVR Energy), on the one hand, and us and our public unitholders, on the other hand. Conflicts may arise as a result of (i) the overlap of directors and officers between our General Partner and CVR Energy, which may result in conflicting obligations by these officers and directors, and (ii) duties of our General Partner to act for the benefit of CVR Energy and its stockholders, which may conflict with our interests and the interests of our public unitholders. The directors and officers of our General Partner have fiduciary duties to manage our General Partner in a manner beneficial to CVR Services, its owner, and the stockholders of CVR Energy, its indirect parent. At the same time, our General Partner has a contractual duty under our partnership agreement to manage us in a manner that is in our best interests.

Whenever a conflict arises between our General Partner, on the one hand, and CVR Services or any other public unitholder, on the other, our General Partner will manage the conflict. Our partnership agreement contains provisions that replace default fiduciary duties with contractual corporate governance standards as set forth therein.

Related Party Transaction Policy

Our Board has adopted a Related Party Transaction Policy, which is designed to monitor and ensure the proper review, approval, ratification, and disclosure of related party transactions involving us. This policy applies to any transaction, arrangement, or relationship (or any series of similar or related transactions, arrangements, or relationships) in which we are a participant, and the amount involved exceeds \$120,000, and in which any related party had or will have a direct or indirect

December 31, 2023

material interest. At the discretion of the Board, a proposed related party transaction may generally be reviewed by the Board in its entirety or by a "conflicts committee" meeting the definitional requirements for such a committee under our partnership agreement. After appropriate review, the Board or the Conflicts Committee may approve or ratify a related party transaction if such transaction is consistent with the Related Party Transaction Policy and is on terms that, taken as a whole, are no less favorable than could be obtained in an arm's-length transaction with an unrelated third-party, unless the Board or the Conflicts Committee otherwise determines that the transaction is not in our best interests. Related party transactions involving compensation will be approved by the Board in its entirety or by the Compensation Committee of the Board in lieu of the Conflicts Committee.

On October 18, 2019, the Conflicts Committee of the Board and on October 22, 2019, the audit committee of CVR Energy, each agreed to authorize the exchange of certain parcels of property owned by a subsidiary of CVR Energy with an equal number of parcels owned by a subsidiary of CVR Partners, all located in Coffeyville, Kansas (the "Property Exchange"). On February 19, 2020, a subsidiary of CVR Energy and a subsidiary of CVR Partners executed the Property Exchange agreement effectuating the same. This Property Exchange will enable each such subsidiary to create a more usable, contiguous parcel of land to expand its own operating footprint. CVR Energy and the Partnership accounted for this transaction in accordance with the Topic 805-50 guidance on transferring assets between entities under common control. This transaction had a net impact to the Partnership's partners' capital of approximately \$0.1 million.

Director Independence

The NYSE does not require a listed publicly traded partnership, such as ours, to have a majority of independent directors on the Board of our General Partner. The Board consists of six directors, three of whom the Board has affirmatively determined are independent in accordance with the rules of the NYSE. For a discussion of director independence of the Board, please see Part III, Item 10. *Directors, Executive Officers and Corporate Governance*.

Item 14. Principal Accounting Fees and Services

Grant Thornton LLP ("Grant Thornton") has served as the Partnership's independent public registered accounting firm since August 2013. The Audit Committee selected the independent registered public accounting firm to conduct the audit of our books and records for the fiscal year ending December 31, 2023.

The charter of the Audit Committee of the Board, which is available on our website at www.CVRPartners.com, requires the Audit Committee to pre-approve all audit services and non-audit services (other than de-minimis non-audit services as defined by the Sarbanes-Oxley Act of 2002) to be provided by our independent registered public accounting firm.

accounting firm. The Audit Committee has a pre-approval policy with respect to services that may be performed by the independent auditors. The Audit Committee approved all fees incurred in fiscal year 2022, 2023.

December 31, 20

The following table represents fees billed and expected to be billed for professional services and other services in the following categories and amounts billed to Thornton for the fiscal years ended December 31, 2022, December 31, 2023 and 2021: 2022:

Year Ended		December 31,					
Year Ended		December 31,					
Year Ended		December 31,					
Year Ended		December 31,					
(in thousands)		(in thousands)		(in thousands)		2022	
2022		2021		2023			
Audit fees (1)	Audit fees (1)	\$711	\$805				
Audit-related fees	Audit-related fees	—	—				
Tax fees	Tax fees	—	—				
All other fees	All other fees	—	—				
Total	Total	\$711	\$805				

(1) Represents the aggregate fees for professional services rendered for the annual audit of the Partnership's financial statements, the annual audit of the effectiveness of the Partnership's internal control over financial reporting, comfort letters, consents, and consultations on financial accounting and reporting standards arising during the course of the audits and reviews. It also includes the review of the consolidated financial statements included in the Partnership's quarterly reports on Form 10-Q.

^ Certain portions of this exhibit have been redacted pursuant to Item 601(b)(10)(iv) of Regulation S-K. The Partnership agrees to furnish supplementally an unredacted copy of this exhibit to the SEC upon request.

PLEASE NOTE: Pursuant to the rules and regulations of the SEC, we may file or incorporate by reference agreements referenced as exhibits to the reports that we file with or furnish to the SEC. The agreements are filed to provide investors with information regarding their respective terms. The agreements are not intended to provide or furnish information about the Partnership or its business or operations. In particular, the assertions embodied in any representations, warranties and covenants contained in the agreements may be subject to qualifications with respect to knowledge and materiality different from those applicable to investors and may be qualified by information in confidential disclosure schedules not included with the exhibits. These disclosure schedules may contain information that modifies, qualifies and excepts to the representations, warranties and covenants set forth in the agreements. Moreover, certain representations, warranties and covenants in the agreements have been used for the purpose of allocating risk between the parties, rather than establishing matters as facts. In addition, information concerning the subject matter of the representations, warranties and covenants may have changed after the date of the respective agreement, which subsequent information may or may not be fully reflected in the Partnership's public disclosures. Accordingly, investors should not rely on the representations, warranties and covenants in the agreements as characterizations of the actual state of facts about the Partnership or its business or operations on the date hereof.

/s/ GRANT THORNTON LLP

Dallas, Texas Wichita, Kansas
February 22, 2023 21, 2024

Certification of Executive Chairman Pursuant to Rule 13a-14(a) or 15d-14(a) under the Securities Exchange Act of 1934, As Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, David L. Lamp, certify that:

1. I have reviewed this report on Form 10-K of CVR Partners, LP;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (or the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's board of directors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to affect the registrant's ability to record, process, summarize and report financial information; and b) Any fraud, whether or not material, that involves management employees who have a significant role in the registrant's internal control over financial reporting.

POLICY BUSINESS CONDUCT CORPORATE		
 0001425292-24-000004image_0.jpg	Subject:	
	POLICY FOR THE RECOVERY OF ERRONEOUSLY AWARDED COMPENSATION	Policy #: 1.011
		Rev #: 0

1. PURPOSE

CVR Partners, LP (the “Partnership”) has adopted this Policy for the Recovery of Erroneously Awarded Compensation to describe the circumstances in which the Partnership will recover Erroneously Awarded Compensation and the process for such recovery. This Policy is intended to comply with (a) Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, as codified in Section 303A.14 of the Exchange Act, and implemented by Rule 10D-1 thereunder adopted by the Commission and (b) Section 303A.14 of the Listed Company Manual of the NYSE.

2. POLICY

1. Recovery of Erroneously Awarded Compensation.

a. The Chief Financial Officer or Chief Accounting Officer of the general partner of the Partnership shall promptly report to the Committee any instance in which the Partnership is required to prepare a Restatement.

b. Upon learning of a required Restatement, the Audit Committee shall determine the Restatement Date and shall promptly re the Compensation Committee such determination.

c. The Chief Financial Officer or Chief Accounting Officer (or another appropriate officer or third party designated by the Comper Committee) of the general partner of the Partnership shall promptly (but in any event within 90 days following the Restatement) ca the Erroneously Awarded Compensation for each affected Executive Officer, which calculation shall be subject to Comper Committee approval. For purposes of calculating Erroneously Awarded Compensation:

i. Incentive-based Compensation shall be deemed received in the Partnership's fiscal period during which the Fir Reporting Measure specified in the Incentive-based Compensation award is attained, even if the payment or grant Incentive-based Compensation occurs after the end of that period.

ii. Incentive-based Compensation based on (or derived from) stock price or total shareholder return, where the am Erroneously Awarded Compensation is not subject to mathematical recalculation directly from the information Restatement,

		Policy #: 1.011 Rev #: 0

shall be based on a reasonable estimate of the effect of the Restatement on the stock price or total shareholder return which the Incentive-based Compensation was received. The Partnership shall maintain documentation of the determ of such reasonable estimate and provide such documentation to the NYSE.

d. Promptly following the Compensation Committee's approval of the Erroneously Awarded Compensation calculated by the Financial Officer or Chief Accounting Officer (or another appropriate officer or third party designated by the Compensation Commit the general partner of the Partnership, the Partnership shall notify in writing each individual who received Erroneously Av Compensation of the amount of Erroneously Awarded Compensation received by such individual and shall demand payment or reti applicable, of such Erroneously Award Compensation.

e. The Partnership shall demand recovery and recover Erroneously Awarded Compensation in compliance with this Policy ex the extent that the Audit Committee determines that (I) recovery of the Erroneously Awarded Compensation would be duplica compensation recovered by the Partnership from the individual pursuant to Section 304 of the Sarbanes-Oxley Act or pursuant to recovery obligations (in which case, the amount of Erroneously Awarded Compensation shall be appropriately reduced to avoi duplication), or (II) recovery would be impracticable, and one of the following conditions applies:

i. the direct expense paid to a third party to assist in enforcing this Policy would exceed the amount to be rec Before concluding that it would be impracticable to recover any amount of Erroneously Awarded Compensation bas

expense of enforcement, the Partnership must make a reasonable attempt to recover such Erroneously Awarded Compensation, document such reasonable attempt(s) to recover, and provide that documentation to the NYSE;

ii. recovery would violate home country law where that law was adopted prior to November 28, 2022. Before concluding it would be impracticable to recover any amount of Erroneously Awarded Compensation based on violation of home country law, the Partnership must obtain an opinion of home country counsel, acceptable to the NYSE, that recovery would require such a violation, and must provide such opinion to the NYSE; or iii. recovery would likely cause an otherwise tax-qualified retirement plan, under which benefits are broadly available to employees of the Partnership, to fail to meet the requirements of 26 U.S.C. 401(a)(13) or 26 U.S.C. 411(a) and regulations thereunder.

f. Except as provided in Section 4(e), in no event may the Partnership accept repayment from the affected individual of less than the full amount of the Erroneously Awarded Compensation received by such individual.

	Subject:	
	POLICY FOR THE RECOVERY OF ERRONEOUSLY AWARDED COMPENSATION	Policy #: 1.011 Rev #: 0

g. The Compensation Committee shall determine, in its sole discretion, the method of recovering any Erroneously Awarded Compensation pursuant to this Policy, taking into account all facts and circumstances (including the time value of money and the impact on shareholders of delayed recovery), so long as such method complies with the terms of Section 303A.14 of the NYSE Listing Standards. If the Compensation Committee determines that an appropriate method of recovery is one other than the prompt repayment by the affected individual in cash or property, the Partnership may offer to enter into a repayment agreement with the affected individual (in a form and with terms reasonably acceptable to the Compensation Committee).

If the affected individual fails to repay to the Partnership when due the full amount of the Erroneously Awarded Compensation received by the affected individual, the Partnership shall take all actions reasonable and appropriate to recover the full amount of the Erroneously Awarded Compensation from the affected individual.

2. **Other Recoupment Rights.** The Compensation Committee intends that this Policy will be applied to the fullest extent of the law. The Compensation Committee may require that any employment agreement, equity award agreement or similar agreement entered into on or after the Effective Date shall, as a condition to the grant of any benefit thereunder, require the party thereto to agree to abide by the terms of this Policy or implement arrangements designed to facilitate the administration hereof. Although not a prerequisite to enforcement of this Policy, an Executive Officer shall be required to sign and return to the Partnership the Acknowledgment Form attached hereto as Exhibit A pursuant to which such Executive Officer will agree to be bound by the terms and comply with this Policy. Any right of recovery under this Policy is in addition to, and not in lieu of, any other remedies or rights of recovery that may be available to the Partnership pursuant to the terms of any employment agreement, equity award agreement, or similar agreement and any other legal remedies available to the Partnership.

3. **Disclosure.** The Partnership shall file all disclosures with respect to this Policy in accordance with the requirements of the securities laws, including the disclosure required by the applicable Commission filings.

4. **No Indemnification.** The Partnership shall not indemnify any current or former Executive Officer against the loss of Erroneously Awarded Compensation, and shall not pay, or reimburse any current or former Executive Officers for premiums for any insurance policy to fund such Executive Officer's potential recovery obligations.

5. **Effective Date.** This Policy shall be effective as of the Effective Date.

3. DEFINITIONS

For purposes of this Policy, the following capitalized terms shall have the meanings set forth below:

a. **"Audit Committee"** means the Audit Committee of the Board.

Page #	3 of 7	Last Reviewed/Update Date	October 30, 2023
Owner/Issued by:	Business Conduct	Approved by(signatures on file):	CVR GP Board of Directors

b. **"Board"** means the Board of Directors of the general partner of the Partnership.

c. **"Commission"** means the Securities and Exchange Commission.

d. **"Compensation Committee"** means the Compensation Committee of the Board.

e. **"Compensation Eligible for Recovery"** means Incentive-based Compensation received by an individual:

- i. after beginning service as an Executive Officer,
- ii. who served as an Executive Officer at any time during the performance period for the applicable Incentive Compensation (regardless of whether such individual is serving as an Executive Officer at the time the Erroneously Awarded Compensation is required to be repaid to the Partnership),
- iii. while the Partnership had a class of securities listed on a national securities exchange or a national securities association,
- iv. during the applicable Recovery Period, and
- v. after the Effective Date.

f. **"Effective Date"** means October 2, 2023.

g. **"Erroneously Awarded Compensation"** means the Compensation Eligible for Recovery less the amount of such compensation that would have been determined based on the restated amounts, computed without regard to any taxes paid.

h. **"Exchange Act"** means the Securities Exchange Act of 1934, as amended.

i. **"Executive Officer"** means the principal executive officer, principal financial officer, principal accounting officer (or if there is no principal accounting officer, the controller), any vice president in charge of a principal business unit, division, or function (such as administration or finance) and any other officer who performs a significant policy-making function, and any other person who performs similar policy-making functions for the general partner of the Partnership or the Partnership, as applicable. For purposes of this Policy, Executive Officers would include, at a minimum, executive officers identified pursuant to 17 C.F.R. 229.401(b).

j. **"Financial Reporting Measure"** means measures that are determined and presented in accordance with the accounting principles used in preparing the Partnership's financial statements, and any measures that are derived wholly or in part from such measures. price and total shareholder return are considered Financial Reporting Measures. For the avoidance of doubt, a Financial Reporting

Measure need not be presented within the financial statements or included in a filing with the Commission.

k. **"Incentive-based Compensation"** means any compensation that is granted, earned, or vested based wholly or in part upon attainment of a Financial Reporting Measure.

l. **"NYSE"** means the New York Stock Exchange LLC.

m. **"Partnership"** means CVR Partners, LP.

n. **"Policy"** means this Policy for the Recovery of Erroneously Awarded Compensation, as the same may be amended or amended and restated from time to time.

o. **"Recovery Period"** means the three completed fiscal years immediately preceding the Restatement Date and any transition period (that results from a change in the Partnership's fiscal year) of less than nine months within or immediately following those three completed fiscal years.

p. **"Restatement"** means an accounting restatement:

- due to material noncompliance of the Partnership with any financial reporting requirement under the securities laws including any required accounting restatement to correct an error in previously issued financial statements that is material to the previously issued financial statements, or
- that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period.

q. **"Restatement Date"** means the earlier of:

- the date the Audit Committee concludes, or reasonably should have concluded, that the Partnership is required to prepare a Restatement, or
- the date a court, regulator, or other legally authorized body directs the Partnership to prepare a Restatement.

4. PRINCIPLES

A. **Scope.** This Policy applies to and shall be binding and enforceable against all current and former Executive Officers and directors, beneficiaries, heirs, executors, administrators or other legal representatives

and any determinations made by the Compensation Committee pursuant hereto shall be final and binding.

B. Review. This Policy has been adopted by the Board and shall be administered by the Compensation Committee, except otherwise noted herein.

C. Amendment and Interpretation. The Compensation Committee may amend this Policy from time to time in its discretion and shall interpret this Policy as it deems necessary or advisable to reflect the regulations adopted by the Commission and to comply with any rules and standards adopted by the NYSE. The Compensation Committee may at any time in its sole discretion supplement, amend or terminate any provision of this Policy in any respect as the Compensation Committee determines to be necessary or appropriate. The Compensation Committee shall interpret and construe this Policy and make all determinations necessary or advisable for the administration of this Policy. It is intended that this Policy be interpreted in a manner that is consistent with the requirements of Section 10D of the Exchange Act and Rule 10D-1 thereunder and Section 303A.14 of the NYSE Listed Company Manual and any other applicable rules adopted by the Commission.

EXHIBIT A

CVR PARTNERS, LP

POLICY FOR THE RECOVERY OF ERRONEOUSLY AWARDED COMPENSATION

ACKNOWLEDGEMENT FORM

By signing below, the undersigned acknowledges and confirms the undersigned has received and reviewed a copy of the CVR Partners Policy for the Recovery of Erroneously Awarded Compensation (the "**Policy**"). Capitalized terms used but not otherwise defined in the Policy shall have the meanings ascribed to such terms in the Policy.

By signing this Acknowledgement Form, the undersigned acknowledges and agrees that the undersigned is and will continue to be subject to the Policy and that the Policy will apply both during and after the undersigned's employment with the Partnership. Further, by signing below, the undersigned agrees to abide by the terms of the Policy, including, without limitation, by returning any Erroneously Awarded Compensation (as defined in the Policy) to the Partnership to the extent required by, and in a manner permitted by, the Policy. For the avoidance of doubt, the recovery affected under the Policy shall not constitute grounds to terminate the undersigned's employment for "Good Reason" (or any term with a similar meaning) under any employment or compensation arrangements, agreements, plans or programs.
