Forward Looking Statements

This Report of Foreign Private Issuer on Form 6-K contains forward-looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and other Federal securities laws. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" and similar expressions or variations of such words are intended to identify forward-looking statements. Because such statements deal with future events and are based on the Company's current expectations, they are subject to various risks and uncertainties, and actual results, performance or achievements of the Company could differ materially from those described in or implied by the statements in this Report. The forward-looking statements contained or implied in this Report are subject to other risks and uncertainties, including those discussed under the heading "Risk Factors" in the Company's annual report on [Form 20-F](#) filed with the Securities and Exchange Commission ("SEC") on April 8, 2024, and in any subsequent filings with the SEC. Except as otherwise required by law, the Company undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. References and links to websites and social media have been provided as a convenience, and the information contained on such websites is not incorporated by reference into this Report. The Company is not responsible for the contents of third party websites.

NEWS RELEASE

Siyata Mobile Further Expands Distribution in New Agreement with IP Access International

Vancouver, BC – February 24, 2025 -- Siyata Mobile Inc. (Nasdaq: SYTA) ("Siyata" or the "Company"), a global vendor of Push-to-Talk over Cellular ("PoC") devices and cellular signal booster systems, today announced a new distribution agreement with IP Access International, a leading provider of reliable communication solutions for organizations operating in challenging environments.

Through this partnership, IP Access International will offer Siyata's SD7 rugged PoC devices and accessories to its extensive customer base, which includes fire departments, mining operations, oil and energy companies, utilities, and other industries that require robust, mission-critical communication solutions in remote areas. Siyata's SD7 devices will integrate seamlessly with IP Access International's SuperGIG™ solution, delivering unparalleled connectivity by combining major cellular carriers, OneWeb and Starlink LEO constellations, and a GEO satellite backup into a single, resilient network.

IP Access International specializes in delivering seamless connectivity by combining satellite, cellular, and Wi-Fi technologies to create a reliable coverage network—a 'connectivity bubble'—for customers operating in the most challenging locations. By incorporating Siyata's SD7 devices into the SuperGIG™ ecosystem, end users will benefit from uninterrupted push-to-talk capabilities, ensuring communication remains clear and accessible even in areas where traditional networks fall short.

Marc Seelenfreund, CEO of Siyata Mobile, commented, "We are thrilled to partner with IP Access International, as their customers align perfectly with Siyata's target market. Their expertise in providing unique communication solutions to organizations operating in challenging or remote areas makes them an ideal distributor for our SD7 devices."

Bryan Hill, CEO of IP Access International, added, "We are excited to add Siyata's SD7 devices to our portfolio. Many of our customers operate in mission-critical environments where reliable communication is essential, and Siyata's technology is a strong complement to our **SuperGIG™ connectivity solution**. With the combination of Siyata's rugged push-to-talk devices and SuperGIG™'s always-on, multi-network connectivity powered by OneWeb and Starlink LEO constellations with a GEO backup, we're providing first responders and enterprise users with an unmatched communication experience, no matter where they are."

About Siyata Mobile

Siyata Mobile Inc. is a B2B global developer and vendor of next-generation Push-To-Talk over Cellular handsets and accessories. Its portfolio of rugged PTT handsets and accessories enables first responders and enterprise workers to instantly communicate over a nationwide cellular network of choice, to increase situational awareness and save lives. Police, fire, and ambulance organizations as well as schools, utilities, security companies, hospitals, waste management companies, resorts and many other organizations use Siyata PTT handsets and accessories today.

In support of our Push-to-Talk handsets and accessories, Siyata also offers enterprise-grade In-Vehicle solutions and Cellular Booster systems enabling our customers to communicate effectively when they are in their vehicles, and even in areas where the cellular signal is weak.

Siyata sells its portfolio through leading North American cellular carriers, and through international cellular carriers and distributors.

Siyata's common shares trade on the Nasdaq under the symbol "SYTA", and its warrants trade under the symbol "SYTAW".
