Terreno Realty Corporation

Condensed Notes to Consolidated Financial Statements
(Unaudited)

Note 1. Organization

Terreno Realty Corporation ("Terreno", and together with its subsidiaries, the "Company") acquires, owns and operates industrial real estate in six major coastal U.S. markets: Los Angeles, Northern New Jersey/New York City, San Francisco Bay Area, Seattle, Miami, and Washington, D.C. All square feet, acres, occupancy and number of properties disclosed in these condensed notes to the consolidated financial statements are unaudited. As of **September 30, 2023** **March 31, 2024**, the Company owned **257** **258** buildings aggregating approximately 15.8 million square feet, **46** **45** improved land parcels (including one improved land parcel held for sale) consisting of approximately **165.8** **152.4** acres, **eight** **ten** properties under development or redevelopment and approximately **62.7** **45.5** acres of land **entitled** for future development.

The Company is an internally managed Maryland corporation and elected to be taxed as a real estate investment trust ("REIT") under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code"), commencing with its taxable year ended December 31, 2010.

Note 2. Significant Accounting Policies

Basis of Presentation. The accompanying unaudited interim consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and disclosures required by GAAP for annual financial statements. In management's opinion, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The interim consolidated financial statements include all of the Company's accounts and its subsidiaries and all intercompany balances and transactions have been eliminated in consolidation. The financial statements should be read in conjunction with the financial statements contained in the Company's Annual Report on Form 10-K for the year ended **December 31, 2022** **December 31, 2023** and the notes thereto, which was filed with the Securities and Exchange Commission on **February 8, 2023** **February 7, 2024**.

Use of Estimates. The preparation of the **interim** consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Capitalization of Costs. The Company capitalizes costs directly related to the **development**, redevelopment, renovation and expansion of its investment in real estate. Costs associated with such projects are capitalized as incurred. If the project is abandoned, these costs are expensed during the period in which the **development**, redevelopment, renovation or expansion project is abandoned. Costs considered for capitalization include, but are not limited to, construction costs, interest, real estate taxes and insurance, if appropriate. These costs are capitalized only during the period in which activities necessary to ready an asset for its intended use are in progress. In the event that the activities to ready the asset for its intended use are suspended, the capitalization period will cease until such activities are resumed. Costs incurred for maintaining and repairing properties, which do not extend their useful lives, are expensed as incurred.

Interest is capitalized based on actual capital expenditures from the period when **development**, redevelopment, renovation or expansion commences until the asset is ready for its intended use, at the weighted average borrowing rate during the period.

Investments in Real Estate. Investments in real estate, including tenant improvements, leasehold improvements and leasing costs, are stated at cost, less accumulated depreciation, unless circumstances indicate that the cost cannot be recovered, in which case, an adjustment to the carrying value of the property is made to reduce it to its estimated fair value. The Company also reviews the impact of above and below-market leases, in-place leases and lease origination costs for acquisitions and records an intangible asset or liability accordingly.

Impairment. Carrying values for financial reporting purposes are reviewed for impairment on a property-by-property basis whenever events or changes in circumstances indicate that the carrying value of a property may not be fully recoverable. Examples of such events or changes in circumstances may include classifying an asset to be held for sale, changing the intended hold period or when an asset remains vacant significantly longer than expected. The intended use of an asset either held for sale or held for use can significantly impact how impairment is measured. If an asset is intended to be held for the long-term, the recoverability is based on the undiscounted future cash flows. If the asset carrying value is not supported on an undiscounted

future cash flow basis, then the asset carrying value is measured against the lower of cost or the present value of expected cash

flows over the expected hold period. An impairment charge to earnings is recognized for the excess of the asset's carrying value over the lower of cost or the present values of expected cash flows over the expected hold period. If an asset is intended to be sold, impairment is determined using the estimated fair value less costs to sell. The estimation of expected future net cash flows is inherently uncertain and relies on assumptions, among other things, regarding current and future economic and market conditions and the availability of capital. The Company determines the estimated fair values based on its assumptions regarding rental rates, lease-up and holding periods, as well as sales prices. When available, current market information is used to determine capitalization and rental growth rates. If available, current comparative sales values may also be used to establish fair value. When market information is not readily available, the inputs are based on the Company's understanding of market conditions and the experience of the Company's management team. Actual results could differ significantly from the Company's estimates. The discount rates used in the fair value estimates represent a rate commensurate with the indicated holding period with a premium layered on for risk. There were no impairment charges recorded to the carrying values of the Company's properties during the three **or** **nine** months ended **September 30, 2023** **March 31, 2024** or **2022**, **2023**.

Property Acquisitions. In accordance with Accounting Standards Update ("ASU") 2017-01, *Business Combinations* (Topic 805): *Clarifying the Definition of a Business*, when substantially all of the fair value of the gross assets acquired (or disposed of) is concentrated in a single identifiable asset or a group of similar identifiable assets, the integrated set

of assets and activities is not considered a business. To be a business, the set of acquired activities and assets must include inputs and one or more substantive processes that together contribute to the ability to create outputs. The Company has determined that its real estate property acquisitions will generally be accounted for as asset acquisitions under the clarified definition. Upon acquisition of a property the Company estimates the fair value of acquired tangible assets (consisting generally of land, buildings and improvements) and intangible assets and liabilities (consisting generally of the above and below-market leases and the origination value of all in-place leases). The Company determines fair values using Level 3 inputs such as replacement cost, estimated cash flow projections and other valuation techniques and applying appropriate discount and capitalization rates based on available market information. Mortgage loans assumed in connection with acquisitions are recorded at their fair value using current market interest rates for similar debt at the date of acquisition. Acquisition-related costs associated with asset acquisitions are capitalized to individual tangible and intangible assets and liabilities assumed on a relative fair value basis and acquisition-related costs associated with business combinations are expensed as incurred.

The fair value of the tangible assets is determined by valuing the property as if it were vacant. Land values are derived from current comparative sales values, when available, or management's estimates of the fair value based on market conditions and the experience of the Company's management team. Building and improvement values are calculated as replacement cost less depreciation, or management's estimates of the fair value of these assets using discounted cash flow analyses or similar methods. The fair value of the above and below-market leases is based on the present value of the difference between the contractual amounts to be received pursuant to the acquired leases (using a discount rate that reflects the risks associated with the acquired leases) and the Company's estimate of the market lease rates measured over a period equal to the remaining term of the leases plus the term of any below-market fixed rate renewal options. The above and below-market lease values are amortized to rental revenues over the remaining initial term plus the term of any below-market fixed rate renewal options that are considered bargain renewal options of the respective leases. The total net impact to rental revenues due to the amortization of above and below-market leases was a net increase of approximately \$3.5 million \$3.4 million and \$4.2 million \$3.5 million for the three months ended September 30, 2023 March 31, 2024 and 2022, respectively, and approximately \$10.7 million and \$10.8 million for the nine months ended September 30, 2023 and 2022, 2023, respectively. The origination value of in-place leases is based on costs to execute similar leases, including commissions and other related costs. The origination value of in-place leases also includes real estate taxes, insurance and an estimate of lost rental revenue at market rates during the estimated time required to lease up the property from vacant to the occupancy level at the date of acquisition. The remaining weighted average lease term related to these intangible assets and liabilities as of September 30, 2023 March 31, 2024 was 6.8 6.3 years. As of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, the Company's intangible assets and liabilities, including properties held for sale (if any), consisted of the following (dollars in thousands):

		September 30, 2023			December 31, 2022			March 31, 2024			December 31, 2023

Depreciation and Useful Lives of Real Estate and Intangible Assets. Depreciation and amortization are computed on a straight-line basis over the estimated useful lives of the related assets or liabilities. The following table reflects the standard

depreciable lives typically used to compute depreciation and amortization. However, such depreciable lives may be different based on the estimated useful life of such assets or liabilities.

Description	Standard Depreciable Life
Land	Not depreciated
Building	40 years
Building Improvements	5-40 years
Tenant Improvements	Shorter of lease term or useful life
Leasing Costs	Lease term
In-place Leases	Lease term
Above/Below-Market Leases	Lease term

Held for Sale Assets. The Company considers a property to be held for sale when it meets the criteria established under Accounting Standards Codification ("ASC") 360, *Property, Plant and Equipment* (See "Note 5 - Held for Sale/Disposed Assets"). Properties held for sale are reported at the lower of the carrying amount or fair value less estimated costs to sell and are not depreciated while they are held for sale.

Cash and Cash Equivalents. Cash and cash equivalents consists of cash held in a major banking institution and other highly liquid short-term investments with original maturities of three months or less. Cash equivalents are generally invested in U.S. government securities, government agency securities or money market accounts.

Restricted Cash. Restricted cash includes cash held in escrow in connection with property acquisitions and reserves for certain capital improvements, leasing, interest and real estate tax and insurance payments as required by certain mortgage loan obligations.

Revenue Recognition. The Company records rental revenue from operating leases on a straight-line basis over the term of the leases and maintains an allowance for estimated losses that may result from the inability of its tenants to make required payments. If tenants fail to make contractual lease payments that are greater than the Company's allowance for doubtful accounts, security deposits and letters of credit, then the Company may have to recognize additional doubtful account charges in future periods. The Company monitors the liquidity and creditworthiness of its tenants on an ongoing basis by reviewing their financial condition periodically as appropriate. Each period the Company reviews its outstanding accounts receivable, including straight-line rents, for doubtful accounts and provides allowances as needed. The Company also records lease termination fees when a tenant has executed a definitive termination agreement with the Company and the payment of the termination fee is not subject to any conditions that must be met or waived before the fee is due to the Company. If a tenant remains in the leased space following the execution of a definitive termination agreement, the applicable termination will be deferred and recognized over the term of such tenant's occupancy. Tenant expense reimbursement income includes payments and amounts due from tenants pursuant to their leases for real estate taxes, insurance and other recoverable property operating expenses and is recognized as revenues during the same period the related expenses are incurred.

As of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, approximately \$53.6 million \$56.6 million and \$48.0 million \$56.1 million, respectively, of straight-line rent and accounts receivable, net of allowances of approximately \$0.9 million \$1.5 million and \$0.6 million \$1.2 million as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, respectively, were included as a component of other assets in the accompanying consolidated balance sheets.

Deferred Financing Costs. Costs incurred in connection with financings are capitalized and amortized to interest expense using the effective interest method over the term of the related loan. Deferred financing costs associated with the Company's revolving credit facility are classified as an asset, as a component of other assets in the accompanying consolidated balance sheets, and deferred financing costs associated with debt liabilities are reported as a direct deduction from the carrying amount of the debt liability in the accompanying consolidated balance sheets. Deferred financing costs related to the revolving credit facility and debt liabilities are carried at cost, net of accumulated amortization in the aggregate of approximately \$13.1 million \$13.9 million and \$11.9 million \$13.5 million as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, respectively.

Income Taxes. The Company elected to be taxed as a REIT under the Code and operates as such beginning with its taxable year ended December 31, 2010. To qualify as a REIT, the Company must meet certain organizational and operational requirements, including a requirement to distribute at least 90% of its annual REIT taxable income to its stockholders (which is computed without regard to the dividends paid deduction or net capital gain and which does not necessarily equal net income as calculated in accordance with GAAP). As a REIT, the Company generally will not be subject to federal income tax to the extent it distributes qualifying dividends to its stockholders. If it fails to qualify as a REIT in any taxable year, it will be subject to federal income tax on its taxable income at regular corporate income tax rates and generally will not be permitted to qualify for treatment as a REIT for federal income tax purposes for the four taxable years following the year during which qualification is lost unless the IRS grants it relief under certain statutory provisions. Such an event could materially adversely affect the Company's net income and net cash available for distribution to stockholders. However, the Company believes it is organized and operates in such a manner as to qualify for treatment as a REIT.

ASC 740-10, *Income Taxes* ("ASC 740-10"), provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. ASC 740-10 requires the evaluation of tax positions taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax benefits of positions not deemed to meet the more-likely-than-not threshold are recorded as a tax expense in the current year. As of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, the Company did not have any unrecognized tax benefits and does not believe that there will be any material changes in unrecognized tax positions over the next 12 months. The Company's tax returns are subject to examination by federal, state and local tax jurisdictions, which as of September 30, 2023 March 31, 2024, include years 2019 2020 to 2022 2023 for federal purposes.

Stock-Based Compensation and Other Long-Term Incentive Compensation. The Company follows the provisions of ASC 718, *Compensation-Stock Compensation*, to account for its stock-based compensation plan, which requires that the compensation cost relating to stock-based payment transactions be recognized in the financial statements and that the cost be measured on the fair value of the equity or liability instruments issued. The Company's 2019 Equity Incentive Plan (the "2019 Plan") provides for the grant of restricted stock awards, performance share awards, unrestricted shares or any combination of the foregoing. Stock-based compensation is recognized as a general and administrative expense in the accompanying consolidated statements of operations and measured at the fair value of the award on the date of grant. The Company estimates the forfeiture rate based on historical experience as well as expected behavior. The amount of the expense may be subject to adjustment in future periods depending on the specific characteristics of the stock-based award.

In addition, the Company has awarded long-term incentive target awards (the "Performance Share awards") under its Amended and Restated Long-Term Incentive Plan (as amended and restated, the "Amended LTIP"), which the Company amended and restated on January 8, 2019, to its executives that may be payable in shares of the Company's common stock after the conclusion of each pre-established performance measurement period, which is generally three years. The amount that may be earned is variable depending on the relative total shareholder return of the Company's common stock as compared to the total shareholder return of the MSCI U.S. REIT Index (RMS) and the FTSE Nareit Equity Industrial Index over the pre-established performance measurement period. Under the Amended LTIP, each participant's Performance Share award granted will be expressed as a number of shares of common stock and settled in shares of common stock. The grant date fair value of the Performance Share awards will be determined using a Monte Carlo simulation model on the date of grant and recognized on a straight-line basis over the performance period.

Fair Value of Financial Instruments. ASC 820, *Fair Value Measurements and Disclosures* ("ASC 820") (See "Note 8 - Fair Value Measurements"), defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also provides guidance for using fair value to measure financial assets and liabilities. ASC 820 requires disclosure of the level within the fair value hierarchy in which the fair value measurements fall, including measurements using quoted prices in active markets for identical assets or liabilities (Level 1), quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active (Level 2), and significant valuation assumptions that are not readily observable in the market (Level 3).

Segment Disclosure. ASC 280, *Segment Reporting*, establishes standards for reporting financial and descriptive information about an enterprise's reportable segments. The Company has determined that it has one reportable segment, with activities related to investing in real estate. The Company's investments in real estate are geographically diversified and the chief operating decision makers evaluate operating performance on an individual asset level. As each of the Company's assets has similar economic characteristics, the assets have been aggregated into one reportable segment.

Note 3. Concentration of Credit Risk

Financial instruments that potentially subject the Company to a significant concentration of credit risk consist primarily of cash and cash equivalents. The Company may maintain deposits in federally insured financial institutions in excess of federally insured limits. However, the Company's management believes the Company is not exposed to significant credit risk due to the financial position of the depository institutions in which those deposits are held.

As of **September 30, 2023** **March 31, 2024**, the Company owned **43** **44** buildings aggregating approximately 2.6 million square feet and 13 improved land parcels consisting of approximately 68.0 acres located in Northern New Jersey/New York City, which accounted for a combined percentage of approximately **24.3%** **24.9%** of its annualized base rent. Such annualized base rent is based on contractual monthly base rent per the leases, for all buildings and improved land parcels, excluding any partial or full rent abatements as of **September 30, 2023** **March 31, 2024**, multiplied by 12.

Other real estate companies compete with the Company in its real estate markets. This results in competition for tenants to occupy space. The existence of competing properties could have a material impact on the Company's ability to lease space and on the level of rent that can be achieved. The Company had no tenant that accounted for greater than 10% of the Company's annualized base rent as of **September 30, 2023** **March 31, 2024**.

Note 4. Investments in Real Estate

During the three months ended **September 30, 2023** **March 31, 2024**, the Company acquired **one** industrial property with a total initial investment, including acquisition costs, of approximately \$16.5 million, of which \$13.7 million was recorded to land and \$2.8 million to intangible assets. Additionally, the Company assumed \$2.1 million in liabilities. Upon acquisition, the property was placed into redevelopment with a total expected investment of approximately \$40.6 million.

During the nine months ended September 30, 2023, the Company acquired **five** **two** industrial properties with a total initial investment, including acquisition costs, of approximately **\$437.0** **\$18.7** million, of which **\$267.4 million** **\$15.1 million** was recorded to land **\$147.9** and **\$3.6** million to buildings and improvements, and **\$21.7** million to intangible assets. Additionally, the Company assumed **\$45.1** million in liabilities. improvements.

The Company recorded **did not record any** revenues **and or** net income for the three months ended **September 30, 2023** of approximately **\$4.4** million and **\$1.5** million, respectively, and recorded revenues and net income for the nine months ended September 30, 2023 of approximately **\$8.6** million and **\$2.7** million, respectively, **March 31, 2024** related to the **2023** **2024** acquisitions.

During the three months ended **September 30, 2022** **March 31, 2023**, the Company acquired **four** **three** industrial properties with a total initial investment, including acquisition costs, of approximately **\$68.9 million** **\$406.7** million, of which **\$62.1 million** **\$245.9** million was recorded to land, **\$5.5 million** **\$143.0** million to buildings and improvements, and **\$1.3** million **\$17.8** million to intangible assets. Additionally, the Company assumed **\$1.1 million** **\$42.7** million in liabilities.

During the nine months ended September 30, 2022, the Company acquired 16 industrial properties with a total initial investment, including acquisition costs, of approximately \$360.8 million, of which \$261.6 million was recorded to land, \$88.3 million to buildings and improvements, and \$10.9 million to intangible assets. Additionally, the Company assumed \$16.1 million in liabilities.

The Company recorded revenues and net **income** **loss** for the three months ended **September 30, 2022** **March 31, 2023** of approximately **\$4.1** million **\$0.3** million and **\$1.0** million, respectively, and recorded revenues and net income for the nine months ended September 30, 2022 of approximately **\$5.8** million and **\$1.7** million **\$0.2** million, respectively, related to the **2022** **2023** acquisitions.

The above assets and liabilities were recorded at fair value, which uses Level 3 inputs. The properties were acquired from unrelated third parties using existing cash on hand, proceeds from property sales **the** **issuance** **and** **issuances** of common stock and borrowings on the revolving credit facility.

As of **September 30, 2023** **March 31, 2024**, the Company had **eight** **ten** properties under development or redevelopment that, upon completion, will consist of **Seven** **eleven** buildings aggregating approximately **1.2** **1.6** million square feet and one approximately **2.8** **acre** **2.8-acre** improved land parcel. Additionally, the Company owned approximately **62.7** **45.5** acres of land **entitled** for future development that, upon completion, will consist of **six** **four** buildings aggregating approximately **1.1** **0.8** million square feet. The following table summarizes certain information with respect to the properties under development or redevelopment and the land **entitled** for future development as of **September 30, 2023** **March 31, 2024**:

Note 8. Fair Value Measurements

ASC 820 requires disclosure of the level within the fair value hierarchy in which the fair value measurements fall, including measurements using quoted prices in active markets for identical assets or liabilities (Level 1), quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active (Level 2), and significant valuation assumptions that are not readily observable in the market (Level 3).

Financial Instruments Disclosed at Fair Value

As of **September 30, 2023** **March 31, 2024** and **December 31, 2022** **December 31, 2023**, the fair values of cash and cash equivalents, accounts receivable and accounts payable approximated their carrying values because of the short-term nature of these investments or liabilities based on Level 1 inputs. The fair values of the Company's Senior Unsecured Notes were estimated by calculating the present value of principal and interest payments, based on borrowing rates available to the Company, which are Level 2 inputs, adjusted with a credit spread, as applicable, and assuming the loans are outstanding through maturity. The fair value of the Company's Amended Facility approximated its carrying value because the variable interest rates approximate market borrowing rates available to the Company, which are Level 2 inputs.

The following table sets forth the carrying value and the estimated fair value of the Company's debt as of **September 30, 2023** **March 31, 2024** and **December 31, 2022** **December 31, 2023** (dollars in thousands):

timing, manner, price and amount of any repurchases will be determined by the Company in its discretion and will be subject to economic and market conditions, stock price, applicable legal requirements and other factors. The program may be suspended or discontinued at any time. As of September 30, 2023 March 31, 2024, the Company had not repurchased any shares of common stock pursuant to its share repurchase program.

In connection with the Annual Meeting of Stockholders on May 2, 2023, the Company granted a total of 12,480 unrestricted shares of the Company's common stock to its independent directors under the 2019 Plan with a grant date fair value per share of \$60.10. The grant date fair value of the common stock was determined using the closing price of the Company's common stock on the date of the grant. The Company recognized approximately \$0.8 million in compensation costs for both the three and nine months ended September 30, 2023 related to this issuance.

The Company has a Non-Qualified Deferred Compensation Plan (the "Deferred Compensation Plan") maintained for the benefit of select employees and members of the Company's Board of Directors, in which certain of their cash and equity-based compensation may be deposited. Deferred Compensation Plan assets are held in a rabbi trust, which is subject to the claims of the Company's creditors in the event of bankruptcy or insolvency. The shares held in the Deferred Compensation Plan are classified within stockholders' equity in a manner similar to the manner in which treasury stock is classified. Subsequent changes in the fair value of the shares are not recognized. During both the three months ended September 30, 2023 March 31, 2024 and 2022, 2023, 0 no shares of common stock were deposited into the Deferred Compensation Plan and during the

94,794 nine months ended September 30, 2023 and 2022, 96,874 and 150,867 shares of common stock, respectively, were deposited into the Deferred Compensation Plan. During each of both the the three and nine months ended September 30, 2023 March 31, 2024 and 2023, there were no and 2022, no shares of common stock were withdrawn from the Deferred Compensation Plan.

As of September 30, 2023 March 31, 2024, there were 1,898,961 shares of common stock authorized for issuance as restricted stock grants, unrestricted stock awards or Performance Share awards under the 2019 Plan, of which 500,490 455,910 were remaining and available for issuance. The grant date fair value per share of restricted stock awards issued during the period from February 16, 2010 (commencement of operations) to September 30, 2023 March 31, 2024 ranged from \$14.20 to \$78.33. The fair value of the restricted stock that was granted during the nine three months ended September 30, 2023 March 31, 2024 was approximately \$8.2 million \$3.3 million and the vesting period for the restricted stock is typically between one three and five years. As of September 30, 2023 March 31, 2024, the Company had approximately \$16.3 million \$15.4 million of total unrecognized compensation costs related to restricted stock issuances, which is expected to be recognized over a remaining weighted average period of approximately 3.2 3.0 years. The Company recognized compensation costs of approximately \$1.6 million and \$4.6 million \$1.4 million for both the three and nine months ended September 30, 2023, respectively, March 31, 2024 and approximately \$1.4 million and \$3.6 million for the three and nine months ended September 30, 2022, respectively, 2023 related to the restricted stock issuances.

Note 10. Net Income (Loss) Per Share

Pursuant to ASC 260-10-45, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities*, unvested share-based payment awards that contain non-forfeitable rights to dividends are participating securities and are included in the computation of earnings per share pursuant to the two-class method. The two-class method of computing earnings per share allocates earnings per share for common stock and any participating securities according to dividends declared (whether paid or unpaid) and participation rights in undistributed earnings. Under the two-class method, earnings per common share are computed by dividing the sum of distributed earnings to common stockholders and undistributed earnings allocated to common stockholders by the weighted average number of common shares outstanding for the period. The Company's non-vested shares of restricted stock are considered participating securities since these share-based awards contain non-forfeitable rights to dividends irrespective of whether the awards ultimately vest or expire. The Company had no antidilutive securities or dilutive restricted stock awards outstanding for the three and nine months ended September 30, 2023 March 31, 2024 and 2022, 2023.

In accordance with the Company's policies of determining whether instruments granted in share-based payment transactions are participating securities and accounting for earnings per share, the net income (loss) per common share is adjusted for earnings distributed through declared dividends (if any) and allocated to all participating securities (weighted average common shares outstanding and unvested restricted shares outstanding) under the two-class method. Under this method, allocations were made to 404,010 429,583 and 335,038 373,985 of weighted average unvested restricted shares outstanding for the three months ended September 30, 2023 March 31, 2024 and 2022, respectively, and 384,239 and 311,432 of weighted average unvested restricted shares outstanding for the nine months ended September 30, 2023 and 2022, 2023, respectively.

Performance Share awards which may be payable in shares of the Company's common stock after the conclusion of each pre-established performance measurement period are included as contingently issuable shares in the calculation of diluted weighted average common shares of stock outstanding assuming the reporting period is the end of the measurement period, and the effect is dilutive. Diluted shares related to the Performance Share awards were 225,327 562,278 and 93,518 448,856 for the three months ended September 30, 2023 March 31, 2024 and 2022, respectively, and 231,459 and 86,624 for the nine months ended September 30, 2023 and 2022, 2023, respectively.

Note 11. Commitments and Contingencies

Contractual Commitments. As of October 31, 2023, the Company had two outstanding contracts with third-party sellers to acquire two industrial properties for a total purchase price of approximately \$9.6 million. There is no assurance that the Company will acquire the properties under contract because the proposed acquisitions are subject to due diligence and various closing conditions.

Note 12. Subsequent Events

Overview

Terreno Realty Corporation (“Terreno”, and together with its subsidiaries, “we”, “us”, “our”, “our Company”, or “the Company”) acquires, owns and operates industrial real estate in six major coastal U.S. markets: Los Angeles, Northern New Jersey/New York City, San Francisco Bay Area, Seattle, Miami, and Washington, D.C. We invest in several types of industrial real estate, including warehouse/distribution (approximately 76.3% 76.0% of our total annualized base rent as of September 30, 2023 March 31, 2024), flex (including light industrial and research and development, or R&D) (approximately 3.8%), transshipment (approximately 6.7% 7.4%) and improved land (approximately 13.2% 12.8%). We target functional properties in infill locations that may be shared by multiple tenants and that cater to customer demand within the various submarkets in which we operate. Infill locations are geographic locations surrounded by high concentrations of already developed land and existing buildings. As of September 30, 2023 March 31, 2024, we owned a total of 257 258 buildings aggregating approximately 15.8 million square feet, 46 45 improved land parcels (including one improved land parcel held for sale) consisting of approximately 165.8 152.4 acres, eight ten properties under development or redevelopment and approximately 62.7 45.5 acres of land entitled for future development. As of September 30, 2023 March 31, 2024, our buildings and improved land parcels were approximately 98.3% 96.2% and 96.3% 94.6% leased, respectively, to 563 572 customers, the largest of which accounted for approximately 3.6% 3.9% of our total annualized base rent. See “Item 1 – Our Investment Strategy – Industrial Facility General Characteristics” in our Annual Report on Form 10-K for the year ended December 31, 2022 December 31, 2023 for a general description of these types of industrial real estate.

We are an internally managed Maryland corporation and elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended, commencing with our taxable year ended December 31, 2010.

Our industrial properties are typically subject to leases on a "triple net basis," in which tenants pay their proportionate share of real estate taxes, insurance and operating costs, or are subject to leases on a "modified gross basis," in which tenants pay expenses over certain threshold levels. In addition, approximately 96.2% 97.2% of our leased space includes fixed rental increases or Consumer Price Index-based rental increases. Lease terms typically range from three to ten years. We monitor the liquidity and creditworthiness of our tenants on an ongoing basis by reviewing outstanding accounts receivable balances, and as provided under the respective lease agreements, review the tenant's financial condition periodically as appropriate. As needed, we hold discussions with the tenant's management about their business and we conduct site visits of the tenant's operations.

Our ability to re-lease or renew expiring space at rental rates equal to or in excess of current rental rates will impact our results of operations. As of **September 30, 2023** **March 31, 2024**, leases representing approximately **12.1%** **5.9%** of the total annualized base rent of our portfolio are scheduled to expire **through during the year ending** December 31, 2024. We currently expect that, on average, the rental rates we are likely to achieve on new (re-leased) or renewed leases for our **2023 and 2024** expirations will be above the rates currently being paid for the same space. Cash rent changes on new and renewed leases totaling approximately **0.5** **0.7** million square feet and **2.8** **3.3** acres of improved land commencing during the three months ended **September 30, 2023** **March 31, 2024** were approximately **38.9%** higher as compared to the previous rental rates for that same space. **Excluding one fixed-rate lease renewal for approximately 0.1 million square feet in Oakland, California, cash rents on new and renewed leases increased approximately 48.6% during the three months ended September 30, 2023. Cash rent changes on new and renewed leases totaling approximately 1.8 million square feet and 11.4 acres commencing during the nine months ended September 30, 2023 were approximately 57.1% 47.2% higher as compared to the previous rental rates for that same space.** We had a tenant retention ratio for the operating portfolio of **61.4%** and **55.0%**, respectively, **54.7%** for the three **and nine** months ended **September 30, 2023** **March 31, 2024**. We had a tenant retention ratio for the improved land portfolio of **100.0%** and **19.4%**, respectively, **82.5%** for the three **and nine** months ended **September 30, 2023** **March 31, 2024**. We define tenant retention ratio as the square footage or acreage of all leases commenced during the period that are rented by existing tenants divided by the square footage or acreage of all expiring leases during the reporting period. The square footage or acreage of tenants that default or buy-out prior to expiration of their lease and short-term leases of less than one year are not included in the calculation.

Our past performance may not be indicative of future results, and we cannot assure you that leases will be renewed or that our properties will be re-leased at all or at rental rates equal to or above the current average rental rates. Further, re-leased/renewed rental rates in a particular market may not be consistent with rental rates across our portfolio as a whole and re-leased/renewed rental rates for particular properties within a market may not be consistent with rental rates across our portfolio within a particular market, in each case due to a number of factors, including local real estate conditions, local supply and demand for industrial space, the condition of the property, the impact of leasing incentives, including free rent and tenant improvements, and whether the property, or space within the property, has been redeveloped.

Public Offering

On February 13, 2023 March 27, 2024, we completed a public offering of 5,750,000 6,325,000 shares of common stock at a price per share of \$62.50, \$62.00, which included the underwriters' full exercise of their option to purchase an additional 750,000 825,000 shares. The net proceeds of the offering were approximately \$355.9 \$387.1 million after deducting the underwriting discount and offering costs of approximately \$3.5 \$5.0 million. We used the net proceeds for acquisitions, acquisitions subsequent to March 31, 2024, including the acquisition of an industrial property in Alexandria, Virginia and the acquisition of a portfolio of industrial properties comprised of 28 buildings located in New York City, Northern New Jersey, San Francisco Bay Area and Los Angeles.

ATM Program

We have an at-the-market equity offering program (the "\$500 Million ATM Program") pursuant to which we may issue and sell shares of our common stock having an aggregate offering price of up to \$500.0 million (\$464.3 155.2 million remaining as of September 30, 2023 March 31, 2024) in amounts and at times as we determine from time to time. Prior to the implementation of the \$500 Million ATM Program, we had a previous at-the-market equity program (the "\$300 Million ATM Program"), which was substantially utilized as of September 5, 2023 and which is no longer active. We intend to use the net proceeds from the offering of the shares under the \$500 Million ATM Program, if any, for general corporate purposes, which may include future acquisitions, redevelopments and repayment of indebtedness, including borrowings under our revolving credit facility. During the three and nine months ended September 30, 2023 March 31, 2024, we issued an aggregate of 1,575,173 and 2,542,279 2,353,278 shares respectively, of common stock at a weighted average offering price of \$60.78 and \$61.61 \$64.00 per share, respectively, under the \$300 Million ATM Program and the \$500 Million ATM Program, resulting in net proceeds of approximately \$94.4 million and \$154.4 million \$148.4 million, respectively, and paying total compensation to the applicable sales agents of approximately \$1.4 million and \$2.3 million, respectively. \$2.2 million.

Share Repurchase Program

We have a share repurchase program authorizing us to repurchase up to 3,000,000 shares of our outstanding common stock from time to time through December 31, 2024. Purchases made pursuant to this program, if any, will be made in either the open market or in privately negotiated transactions as permitted by federal securities laws and other legal requirements. The timing, manner, price and amount of any repurchases will be determined by us in our discretion and will be subject to economic and market conditions, stock price, applicable legal requirements and other factors. The program may be suspended or discontinued at any time. As of September 30, 2023 March 31, 2024, we had not repurchased any shares of our common stock pursuant to our share repurchase program.

Dividend and Distribution Activity

On October 31, 2023 May 7, 2024, our board of directors declared a cash dividend in the amount of \$0.45 per share of our common stock payable on January 5, 2024 July 12, 2024 to the stockholders of record as of the close of business on December 15, 2023 June 28, 2024.

Contractual Commitments

As of October 31, 2023 May 7, 2024, we had two no outstanding contracts with third-party sellers or non-binding letters of intent to acquire two any industrial properties for a total purchase price of \$9.6 million, as described under the heading "Material Cash Commitments" in this Quarterly Report on Form 10-Q. There is no assurance that we will acquire the properties under contract because the proposed acquisitions are subject to the completion of satisfactory due diligence and various closing conditions.

Inflation

The U.S. economy experienced a significant increase in inflation rates throughout 2022 and 2023, in recent years. A wide variety of industries and sectors have been, and will continue to be, affected by increasing commodity prices. In recent years, inflation has increased construction costs, including tenant improvements and capital projects, goods and labor, and operating costs. Most of our leases require the tenants to pay their share of operating expenses, including common area maintenance, real estate taxes and insurance, thereby reducing our exposure to increases in costs and operating expenses resulting from inflation. In addition, leases with respect to approximately 58.7% 69.2% of our total rentable square feet and improved land acreage expire within five years which enables us to seek to replace existing leases with new leases at the then-existing market rate.

Financial Condition and Results of Operations

We derive substantially all of our revenues from rents received from tenants under existing leases on each of our properties. These revenues include fixed base rents and recoveries of certain property operating expenses that we have incurred and that we pass through to the individual tenants. Approximately 96.2% Approximately 97.2% of our leased space includes fixed rental increases or Consumer Price Index-based rental increases. Lease terms typically range from three to ten years.

Our primary cash expenses consist of our property operating expenses, which include: real estate taxes, repairs and maintenance, management expenses, insurance, utilities, general and administrative expenses, which include compensation costs, office expenses, professional fees and other administrative expenses, acquisition costs, which include third-party costs paid to brokers and consultants, and interest expense, primarily on our revolving credit facility, term loans and senior unsecured notes.

Our consolidated results of operations often are not comparable from period to period due to the impact of property acquisitions at various times during the course of such periods. The results of operations of any acquired property are included in our financial statements as of the date of its acquisition.

The analysis of our results below for the three and nine months ended September 30, 2023 March 31, 2024 and 2022 2023 includes the changes attributable to same store properties. The same store pool for the comparison of the three and nine months ended September 30, 2023 March 31, 2024 and 2022 2023 includes all properties that were owned and in operation as of September 30, 2023 March 31, 2024 and since January 1, 2022 January 1, 2023 and excludes properties that were either disposed of prior to, held for sale to a third party or in development or redevelopment as of September 30, 2023 March 31, 2024. As of September 30, 2023 March 31, 2024, the same store pool consisted of 226 246 buildings aggregating approximately 13.2 million 14.7 million square feet representing approximately 83.7% 93.0% of our total square feet owned and 36 44 improved land parcels consisting of approximately 113.7 145.3 acres representing approximately 68.6% 95.3% of our total acreage owned. As of September 30, 2023 March 31, 2024, the non-same store properties, which we acquired, developed or redeveloped, or sold during 2023 2024 and 2022 2023 or were held for sale or in development or redevelopment as of September 30, 2023 March 31, 2024, consisted of 31 12 buildings aggregating approximately 2.6 million 1.1 million square feet, ten improved land parcels (including one improved land parcel held for sale) consisting of approximately 52.1 7.1 acres, eight ten properties under development or redevelopment and approximately 62.7 45.5 acres of land entitled for future development. As of September 30, 2023 March 31, 2024 and 2022, 2023, our consolidated same store pool occupancy was approximately 98.5% 96.2% and 98.1% 98.3%, respectively.

Our future financial condition and results of operations, including rental revenues, straight-line rents and amortization of lease intangibles, may be impacted by the acquisitions of additional properties, and expenses may vary materially from historical results.

- Accounting Standards Update ("ASU") No. 2018-11, *Leases* (Topic 842), allows us to elect not to separate lease and non-lease rental income. All rental income earned pursuant to tenant leases is reflected as one line, "Rental revenues and tenant expense reimbursements" on our accompanying consolidated statements of operations. We believe that the above presentation of rental revenues and tenant expense reimbursements is not, and is not intended to be, a presentation in accordance with accounting principles generally accepted in the United States of America ("GAAP"), and a reconciliation to total revenue is provided above. We believe this information is frequently used by management, investors, and other interested parties to evaluate our performance. See "Note 2 - Significant Accounting Policies" in our condensed notes to consolidated financial statements for more information regarding our adoption of this standard.
- Includes 2023 2024 and 2022 2023 acquisitions and dispositions, ten one improved land parcels, eight parcel, ten properties under development or redevelopment and approximately 62.7 45.5 acres of land entitled for future development and one property held for sale as of September 30, 2023. development.
- Includes straight-line rents and amortization of lease intangibles. See "Non-GAAP Financial Measures" in this Quarterly Report on Form 10-Q for a definition and reconciliation of net operating income and same store net operating income from net income and a discussion of why we believe net operating income and same store net operating income are useful supplemental measures of our operating performance.

Revenues. Total revenues increased approximately \$12.1 \$10.4 million for the three months ended September 30, 2023 March 31, 2024 compared to the same period from the prior year due primarily to increased revenue on new and renewed leases and property acquisitions during 2023 2024 and 2022 and increased occupancy in the same store pool. 2023. Cash rents on new and renewed leases totaling approximately 0.5 million 0.7 million square feet and 2.8 3.3 acres of improved land commencing during the three months ended September 30, 2023 March 31, 2024 increased approximately 38.9% 47.2% compared to the previous rental rates for that same space. Excluding one fixed-rate lease renewal for approximately 0.1 million square feet in Oakland, California, cash rents on new and renewed leases increased approximately 48.6% during the three months ended September 30, 2023. For the three months ended September 30, 2023 March 31, 2024 and 2022, 2023, approximately \$1.8 \$1.2 million and \$2.4 \$1.8 million, respectively, was recorded in straight-line rental revenues related to contractual rent abatements given to certain tenants and approximately \$0.1 million was recorded in lease termination revenue for both periods. In addition, during The increase in total revenues was partially offset by a decrease in occupancy for the three months ended September 30, 2023, approximately \$0.4 million was recorded as bad debt expense related March 31, 2024 compared to DirectBuy Home Improvement, the same period from the prior year.

Property operating expenses. Total property operating expenses increased approximately \$3.3 \$2.5 million during the three months ended September 30, 2023 March 31, 2024 compared to the same period from the prior year. The increase in total property operating expenses was primarily due to an increase of approximately \$2.0 \$1.1 million attributable to property acquisitions during 2023 2024 and 2022 2023 as well as increases in insurance premiums and real estate taxes related to annual rate increases. taxes.

Depreciation and amortization. Depreciation and amortization increased approximately \$1.3 \$2.8 million during the three months ended September 30, 2023 March 31, 2024 compared to the same period from the prior year primarily due to property acquisitions during 2023 2024 and 2022, 2023.

General and administrative expenses. General and administrative expenses increased approximately \$1.0 \$1.2 million during the three months ended September 30, 2023 March 31, 2024 compared to the same period from the prior year primarily due to increased compensation expenses compared to the same period from the prior year, including increased restricted stock amortization and LTIP expense, and an increase in the number of employees and salaries compared to and increased restricted stock amortization and LTIP expense.

Acquisition costs and other. Acquisition costs and other for the three months ended March 31, 2024 remained consistent with the same period from in the prior year.

Interest and other income. Interest and other income increased approximately \$0.9 million for the three months ended September 30, 2023 March 31, 2024 compared to the same period from the prior year primarily due to higher interest rates on our cash and cash equivalent balances and higher interest rates on those balances.

Interest expense, including amortization. Interest expense decreased approximately \$0.5 \$2.1 million for the three months ended September 30, 2023 March 31, 2024 compared to the same period from the prior year. This was primarily due to an increase in capitalized interest for the development and redevelopment properties, partially offset by higher average interest rates on the unsecured term loans and credit facility during the three months ended September 30, 2023.

Revenues. Total revenues increased approximately \$36.9 million for the nine months ended September 30, 2023 compared to the same period from the prior year due primarily to increased revenue on new and renewed leases, property acquisitions during 2023 and 2022 and increased occupancy in the same store pool. Cash rents on new and renewed leases totaling approximately 1.8 million square feet and 11.4 acres commencing during the nine months ended September 30, 2023 increased approximately 57.1%

compared to the prior year. For the nine months ended September 30, 2023 and 2022, approximately \$5.9 million and \$5.6 million, respectively, was recorded in straight-line rental revenues related to contractual rent abatements given to certain tenants and approximately \$0.3 million was recorded in lease termination revenue for both periods.

Property operating expenses. Total property operating expenses increased approximately \$7.6 million during the nine months ended September 30, 2023 compared to the same period from the prior year. The increase in total property operating expenses was primarily due to an increase of approximately \$5.4 million attributable to property acquisitions during 2023 and 2022 as well as increases in insurance premiums and real estate taxes related to annual rate increases.

Depreciation and amortization. Depreciation and amortization increased approximately \$7.4 million during the nine months ended September 30, 2023 compared to the same period from the prior year primarily due to property acquisitions during 2023 and 2022.

General and administrative expenses. General and administrative expenses increased approximately \$5.2 million for the nine months ended September 30, 2023 compared to the same period from the prior year primarily due to increased compensation expenses including increased restricted stock amortization, LTIP expense and bonus expense, and an increase in the number of employees and salaries compared to the same period from the prior year.

Acquisition costs and other. Acquisition costs and other decreased approximately \$1.0 million during the nine months ended September 30, 2023 compared to the same period from the prior year primarily due to environmental remediation at our Avenue A property of approximately \$1.0 million during the nine months ended September 30, 2022.

Interest and other income. Interest and other income increased approximately \$3.6 million during the nine months ended September 30, 2023 compared to the same period from the prior year primarily due to higher interest rates on our cash and cash equivalent balances.

Interest expense, including amortization. Interest expense increased approximately \$2.7 million for the nine months ended September 30, 2023 compared to the same period from the prior year. This was primarily due to higher average interest rates on the unsecured term loans and credit facility, partially offset by an increase in capitalized interest for the development and redevelopment properties during the nine months ended September 30, 2023 March 31, 2024.

Gain on sales of real estate investments. Gain on sales of real estate investments decreased increased approximately \$63.8 million \$5.7 million for the nine three months ended September 30, 2023 March 31, 2024 compared to the same period from the prior year. We recognized a an aggregate gain of approximately \$12.3 million \$5.7 million from the sale of one property during the nine three months ended September 30, 2023, as compared to a gain of approximately \$76.0 million from March 31, 2024. We did not sell any properties during the sale of one property in the same period from the prior year. three months ended March 31, 2023.

Liquidity and Capital Resources

The primary objective of our financing strategy is to maintain financial flexibility with a conservative capital structure using retained cash flows, proceeds from dispositions of properties, long-term debt and the issuance of common and perpetual preferred stock to finance our growth. Over the long-term, we intend to:

- limit the sum of the outstanding principal amount of our consolidated indebtedness and the liquidation preference of any outstanding perpetual preferred stock to less than 35% of our total enterprise value;
- maintain a fixed charge coverage ratio in excess of 2.0x;
- maintain a net debt-to-adjusted EBITDA ratio below 6.0x; 5.0x;
- limit the principal amount of our outstanding floating rate debt to less than 20% of our total consolidated indebtedness; and
- have staggered debt maturities that are aligned to our expected average lease term (five to seven years), positioning us to re-price parts of our capital structure as our rental rates change with market conditions.

We intend to preserve a flexible capital structure with a long-term goal to maintain our investment grade rating and be in a position to issue additional unsecured debt and perpetual preferred stock. Fitch Ratings assigned us an issuer rating of BBB BBB+ with a positive stable outlook. A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency. There can be no assurance that we will be able to maintain our current credit rating. Our credit rating can affect the amount and type of capital we can access, as well as the terms of any financings we may obtain. In the event our current credit rating is downgraded, it may become difficult or expensive to obtain additional financing or refinance existing obligations and commitments. We intend to primarily utilize senior unsecured notes, term loans, credit facilities, dispositions of properties, and proceeds from the issuance of common stock and perpetual preferred stock. We may also assume debt in connection with property acquisitions which may have a higher loan-to-value ratio.

We expect to meet our short-term liquidity requirements generally through net cash provided by operations, existing cash balances and, if necessary, short-term borrowings under our revolving credit facility. We believe that our net cash provided by operations will be adequate to fund operating requirements, pay interest on any borrowings and fund distributions in accordance with the REIT requirements of the federal income tax laws. In the near-term, we intend to fund future investments in properties, property developments and redevelopments and scheduled debt maturities with cash on hand, term loans, senior unsecured notes, borrowings under our revolving credit facility, perpetual preferred and common stock issuances and, from time to time, property dispositions. We expect to meet our long-term liquidity requirements, including with respect to other investments in industrial properties, property acquisitions, property developments and redevelopments, renovations and expansions and scheduled debt maturities, through borrowings under our revolving credit facility, periodic issuances of common stock, perpetual preferred stock, and long-term unsecured and secured debt, and, from time to time, with proceeds from the disposition of properties. The success of our acquisition strategy may depend, in part, on our ability to obtain and borrow under our revolving credit facility and to access additional capital through issuances of equity and debt securities.

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Debt Sources of Liquidity

As of **September 30, 2023** **March 31, 2024**, we had \$100.0 million of senior unsecured notes that mature in July 2024, \$50.0 million of senior unsecured notes that mature in July 2026, \$50.0 million of senior unsecured notes that mature in October 2027, \$100.0 million of senior unsecured notes that mature in July 2028, \$100.0 million of senior unsecured notes that mature in December 2029, \$125.0 million of senior unsecured notes that mature in August 2030, and \$50.0 million of senior unsecured notes that mature in July 2031 (collectively, the "Senior Unsecured Notes").

Our Sixth Amended and Restated Senior Credit Agreement (as amended, the "Amended Facility") consists of a \$400.0 million revolving credit facility that matures in August 2025, a \$100.0 million term loan that matures in January 2027 and a \$100.0 million term loan that matures in January 2028. As of both **September 30, 2023** **March 31, 2024** and **December 31, 2022** **December 31, 2023**, there were no borrowings outstanding on the revolving credit facility and \$200.0 million of borrowings outstanding on the term loans.

The aggregate amount of the Amended Facility may be increased by up to an additional \$500.0 million to a maximum amount not to exceed \$1.1 billion, subject to the approval of the administrative agent and the identification of lenders willing to make available additional amounts. Outstanding borrowings under the Amended Facility are limited to the lesser of (i) the sum of the \$400.0 million revolving credit facility, the \$100.0 million term loan maturing in January 2027 and the \$100.0 million term loan maturing in January 2028, or (ii) 60.0% of the value of the unencumbered properties. Interest on the Amended Facility, including the term loans, is generally to be paid based upon, at our option, either (i) the Secured Overnight Financing Rate ("SOFR") plus the applicable SOFR margin or (ii) the applicable base rate, which is the greatest of the administrative agent's prime rate, 0.50% above the federal funds effective rate, thirty-day SOFR plus the applicable SOFR margin for SOFR rate loans under the Amended Facility plus 1.25%, or 1.25% per annum. The applicable SOFR margin will range from 1.10% to 1.55% (1.10% as of **September 30, 2023** **March 31, 2024**) for the revolving credit facility and 1.25% to 1.75% (1.25% as of **September 30, 2023** **March 31, 2024**) for the term loans, depending on the ratio of our outstanding consolidated indebtedness to the value of our consolidated gross asset value and includes a 10 basis points SOFR credit adjustment. The Amended Facility requires quarterly payments of an annual facility fee in an amount ranging from 0.15% to 0.30%, depending on the ratio of our outstanding consolidated indebtedness to the value of our consolidated gross asset value.

The following tables summarize our debt maturities and principal payments as of September 30, 2023 March 31, 2024 and our market capitalization, capitalization ratios, Adjusted EBITDA, interest coverage, fixed charge coverage and debt ratios as of and for the nine three months ended September 30, 2023 March 31, 2024 and 2022 2023 (dollars in thousands, except per share data):

Sources and Uses of Cash

Our principal sources of cash are cash from operations, borrowings under loans payable, draws on our Amended Facility, common and preferred stock issuances, proceeds from property dispositions and issuances of unsecured notes. Our principal uses of cash are asset acquisitions, developments and redevelopments, debt service, capital expenditures, operating costs, corporate overhead costs and common stock dividends.

Cash From Operating Activities. Net cash provided by operating activities totaled approximately \$140.6 million \$47.0 million for the nine three months ended September 30, 2023 March 31, 2024 compared to approximately \$109.0 million \$38.8 million for the nine three months ended September 30, 2022 March 31, 2023. This increase in cash provided by operating activities is primarily attributable to additional cash flows generated from the properties acquired during 2024 and 2023 and 2022, increased rents on new and renewed leases at our same store properties and increased occupancy in the same store pool, properties.

Cash From Investing Activities. Net cash used in investing activities was approximately \$479.6 million \$48.6 million and \$313.8 million \$387.4 million for the nine three months ended September 30, 2023 March 31, 2024 and 2022, 2023, respectively, which consisted primarily of cash paid for property acquisitions of approximately \$392.5 million \$18.7 million and \$344.8 million \$364.6 million, respectively, additions to capital improvements of approximately \$111.7 million \$40.1 million and \$75.8 million \$22.8 million, respectively, and was partially offset by proceeds from dispositions sales of real estate investments of approximately \$24.6 \$10.2 million and \$106.8 \$0.0 million, respectively.

Cash From Financing Activities. Net cash provided by financing activities was approximately \$411.2 million \$495.8 million for the nine three months ended September 30, 2023 March 31, 2024, which consisted primarily of approximately \$510.2 \$535.8 million in net proceeds from the issuance of common stock, partially offset by approximately \$97.4 million \$39.1 million in equity dividend payments. Net cash provided by financing activities was approximately \$11.0 million \$334.1 million for the nine three months ended September 30, 2022 March 31, 2023, which consisted primarily of a \$162.0 million draw on our revolving credit facility, borrowing the full amount available under the new \$100.0 million unsecured term loan and approximately \$29.5 million \$365.5 million in net proceeds from the issuance of common stock, partially offset by a \$152.0 million payment on our revolving credit facility, payment of a \$50.0 million tranche of the Senior Unsecured Notes, and approximately \$77.0 million \$30.8 million in equity dividend payments.

Critical Accounting Policies And Estimates

A summary of our critical accounting policies is set forth in our Annual Report on Form 10-K for the year ended December 31, 2022 December 31, 2023 and in the condensed notes to consolidated financial statements in this Quarterly Report on Form 10-Q.

Material Cash Commitments

As of October 31, 2023, we had two outstanding contracts with third-party sellers to acquire two industrial properties for a total purchase price of \$9.6 million. There is no assurance that we will acquire the properties under contract because the proposed acquisitions are subject to the completion of satisfactory due diligence and various closing conditions.

The following table summarizes our material cash commitments due by period as of September 30, 2023 March 31, 2024 (dollars in thousands):

¹As of **October 31, 2023** May 7, 2024. As of March 31, 2024, we had one outstanding contract with a third-party seller to acquire an industrial property for a total purchase price of \$84.3 million and two outstanding contracts with a third-party seller to acquire a portfolio of industrial properties comprised of 28 buildings for a total purchase price of \$364.5 million. Subsequent to March 31, 2024, both the industrial property and the industrial portfolio were acquired, as described under the heading "Acquisition Activity" in this Quarterly Report on Form 10-Q.

Non-GAAP Financial Measures

We use the following non-GAAP financial measures that we believe are useful to investors as key supplemental measures of our operating performance: funds from operations, or FFO, Adjusted EBITDA, net operating income, or NOI, same store NOI, and cash-basis same store NOI. NOI and net debt. FFO, Adjusted EBITDA, NOI, same store NOI, and cash-basis same store NOI and net debt should not be considered in isolation or as a substitute for measures of performance in accordance with GAAP. Further, our computation of FFO, Adjusted EBITDA, NOI, same store NOI, and cash-basis same store NOI and net debt may not be comparable to FFO, Adjusted EBITDA, NOI, same store NOI, and cash-basis same store NOI and net debt reported by other companies.

We compute FFO in accordance with standards established by the National Association of Real Estate Investment Trusts ("Nareit"), which defines FFO as net income (loss) (determined in accordance with GAAP), excluding gains (losses) from sales of property and impairment write-downs of depreciable real estate, plus depreciation and amortization on real estate assets and after adjustments for unconsolidated partnerships and joint ventures (which are calculated to reflect FFO on the same basis). We believe that presenting FFO provides useful information to investors regarding our operating performance because it is a measure of our operations without regard to specified non-cash items, such as real estate depreciation and amortization and gain or loss on sale of assets.

We believe that FFO is a meaningful supplemental measure of our operating performance because historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting alone to be insufficient. As a result, we believe that the use of FFO, together with the required GAAP presentations, provide a more complete understanding of our operating performance.

The following table reflects the calculation of FFO reconciled from net income for the three and nine months ended **September 30, 2023** March 31, 2024 and **2022** 2023 (dollars in thousands except per share data):

¹ To be consistent with our policies of determining whether instruments granted in share-based payment transactions are participating securities and accounting for earnings per share, the FFO per common share is adjusted for FFO distributed through declared dividends (if any) and allocated to all participating securities (weighted average common

shares outstanding and unvested restricted shares outstanding) under the two-class method. Under this method, allocations were made to 404,010 429,583 and 335,038 373,985 of weighted average unvested restricted shares outstanding for the three months ended September 30, 2023 March 31, 2024 and 2022, respectively, and 384,239 and 311,432 of weighted average unvested restricted shares outstanding for the nine months ended September 30, 2023 and 2022, 2023, respectively.

FFO increased by approximately \$9.1 million and \$25.7 million \$9.7 million for the three and nine months ended September 30, 2023, respectively, March 31, 2024 compared to the same periods period from the prior year due primarily to property acquisitions during 2022 2023 and 2023 2024 as well as same store NOI growth of approximately \$4.1 million and \$14.0 million \$3.8 million for the three and nine months ended September 30, 2023, respectively, March 31, 2024 compared to the same periods period from the prior year. The FFO increase was partially offset by increased weighted average common shares outstanding increased interest expense due to higher average interest rates on the

unsecured term loans and credit facility and increased general and administrative expenses. In addition, during the three months ended September 30, 2023, approximately \$0.4 million was recorded as bad debt expense related to DirectBuy Home Improvement.

We compute Adjusted EBITDA as earnings before interest, taxes, depreciation and amortization, gain on sales of real estate investments, acquisition costs and stock-based compensation. We believe that presenting Adjusted EBITDA provides useful information to investors regarding our operating performance because it is a measure of our operations on an unleveraged basis before the effects of tax, gain (loss) on sales of real estate investments, non-cash depreciation and amortization expense, acquisition costs and stock-based compensation. By excluding interest expense, Adjusted EBITDA allows investors to measure our operating performance independent of our capital structure and indebtedness and, therefore, allows for more meaningful comparison of our operating performance between quarters and other interim periods as well as annual periods and for the comparison of our operating performance to that of other companies, both in the real estate industry and in other industries. As we are currently in a growth phase, acquisition costs are excluded from Adjusted EBITDA to allow for the comparison of our operating performance to that of stabilized companies.

The following table reflects the calculation of Adjusted EBITDA reconciled from net income for the three and nine months ended September 30, 2023 March 31, 2024 and 2022 2023 (dollars in thousands):

We compute NOI as rental revenues, including tenant expense reimbursements, less property operating expenses. We compute same store NOI as rental revenues, including tenant expense reimbursements, less property operating expenses on a same store basis. NOI excludes depreciation, amortization, general and administrative expenses, acquisition costs and interest expense, including amortization. We compute cash-basis same store NOI as same store NOI excluding straight-line rents and amortization of lease intangibles. The same store pool includes all properties that were owned and in operation as of September 30, 2023 March 31, 2024 and since January 1, 2022 January 1, 2023 and excludes properties that were either disposed of prior to, held for sale to a third party or in development or redevelopment as of September 30, 2023 March 31, 2024. As of September 30, 2023 March 31, 2024, the same store pool consisted of 226 246 buildings aggregating approximately 13.2 million 14.7 million square feet representing approximately

83.7% 93.0% of our total square feet owned and 36.44 improved land parcels containing approximately 113.7 145.3 acres representing approximately 68.6% 95.3% of our total acreage owned. We believe that presenting NOI, same store NOI and cash-basis same store NOI provides useful information to investors regarding the operating performance of our properties because NOI excludes certain items that are not considered to be controllable in connection with the management of the properties, such as depreciation, amortization, general and administrative expenses, acquisition costs and interest expense. By presenting same store NOI and cash-basis same store NOI, the operating results on a same store basis are directly comparable from period to period.

Cash-basis same store NOI increased by approximately \$5.7 million \$6.3 million for the three months ended September 30, 2023 compared to the same period from the prior year primarily due to increased rental revenue on new and renewed leases, contractual rent increases on pre-existing leases and increased occupancy in the same store pool. For the three months ended September 30, 2023 and 2022, total contractual rent abatements of approximately \$0.6 million and \$1.4 million, respectively, were given to certain tenants in the same store pool and approximately \$0.1 million in lease termination income was received from certain tenants in the same store pool during both periods. In addition, approximately \$0.2 million of the increase in cash-basis same store NOI for the three months ended September 30, 2023 related to properties that were acquired vacant or with near term expirations in 2021.

The increase in cash-basis same store NOI was partially offset by a decrease in occupancy for the three months ended March 31, 2024 compared to the same period from the prior year.

We compute net debt as total debt, less deferred financing costs and cash and cash equivalents. We believe that presenting net debt provides useful information to investors regarding our ability to repay our outstanding consolidated indebtedness. See "Debt Sources of Liquidity" in this Quarterly Report on Form 10-Q for a reconciliation of net debt from total debt.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Market risk includes risks that arise from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market sensitive instruments. In pursuing our business strategies, the primary market risk which we are exposed to is interest rate risk. We are exposed to interest rate changes primarily as a result of debt used to maintain liquidity, fund capital expenditures and expand our investment portfolio and operations. We seek to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs. As described below, some of our outstanding debt bears interest at variable rates, and we expect that some of our future outstanding debt will have variable interest rates. We may use interest rate caps and/or swap agreements to manage our interest rate risks relating to our variable rate debt. We expect to replace variable rate debt on a regular basis with fixed rate, long-term debt to finance our assets and operations.

As of September 30, 2023 March 31, 2024, we had \$200.0 million of borrowings outstanding under our Amended Facility, none of which were subject to interest rate caps. Amounts borrowed under our Amended Facility bear interest at a variable rate based on SOFR plus an applicable SOFR margin. The weighted average interest rate on borrowings outstanding under our Amended Facility was 6.6% as of September 30, 2023 March 31, 2024. If the SOFR rate were to fluctuate by 0.25%, interest expense would increase or decrease, depending on rate movement, future earnings and cash flows by approximately \$0.5 million annually on the total of the outstanding balances on our Amended Facility as of September 30, 2023 March 31, 2024.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our management has evaluated, under the supervision and with the participation of our Chief Executive Officer, President and Chief Financial Officer, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), and has concluded that as of the end of the period covered by this report, our disclosure controls and procedures were effective to give reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and is accumulated and communicated to our management, including our Chief Executive Officer, President and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended **September 30, 2023** **March 31, 2024** that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

I, W. Blake Baird, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of Terreno Realty Corporation;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
