ORGANIZATION FTAI Infrastructure Inc. (“we”, “us”, “our”, or the “Company”) is a Delaware corporation and was originally formed as a limited liability company on December 13, 2021 in connection with the spin-off of the infrastructure business (“FTAI Infrastructure”) of FTAI Aviation Ltd. (previously Fortress Transportation and Infrastructure Investors LLC; “FTAI” or “Former Parent”). The Company owns and operates (i) six freight railroads and one switching company that provide rail service to certain manufacturing and production facilities (“Transtar”), (ii) a multi-modal crude oil and refined products terminal in Beaumont, Texas (“Jefferson Terminal”), (iii) a deep-water port located along the Delaware River with an underground storage cavern, a multipurpose dock, a rail-to-ship transloading system and multiple industrial development opportunities (“Repauno”), (iv) an equity method investment in a multi-modal terminal located along the Ohio River with multiple industrial development opportunities, including a power plant (“Long Ridge”), and (v) an equity method investment in two ventures developing battery and metal recycling technology (“Aleon” and “Gladieux”). Additionally, we own and lease shipping containers (“Containers”) and operate a railcar cleaning business (“KRS”) as well as an operating company that provides roadside assistance services for the intermodal and over-the-road trucking industries (“FYX”). We have five reportable segments: (i) Railroad, (ii) Jefferson Terminal, (iii) Repauno, (iv) Power and Gas, and (v) Sustainability and Energy Transition, which all operate in the infrastructure sector (see Note 14). We are a publicly-traded company trading on The Nasdaq Global Select Market under the symbol “FIP.” The Company is headquartered in New York, New York. 6125 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES Basis of Accounting—The accompanying consolidated financial statements are prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) and include the accounts of us and our subsidiaries. These financial statements and related notes should be read in conjunction with the Consolidated Financial Statements and related notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2023. Principles of Consolidation—We consolidate all entities in which we have a controlling financial interest and control over significant operating decisions, as well as variable interest entities (“VIEs”) in which we are the primary beneficiary. All significant intercompany transactions and balances have been eliminated. All adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The ownership interest of other investors in consolidated subsidiaries is recorded as non-controlling interest. We use the equity method of accounting for investments in entities in which we exercise significant influence but which do not meet the requirements for consolidation. Under the equity method, we record our proportionate share of the underlying net income (loss) of these entities as well as the proportionate interest in adjustments to other comprehensive income (loss). Use of Estimates—The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Risks and Uncertainties—In the normal course of business, we encounter several significant types of economic risk including credit, market, and capital market risks. Credit risk is the risk of the inability or unwillingness of a lessee, customer, or derivative counterparty to make contractually required payments or to fulfill its other contractual obligations. Market risk reflects the risk of a downturn or volatility in the underlying industry segments in which we operate, which could adversely impact the pricing of the services offered by us or a lessee’s or customer’s ability to make payments. Capital market risk is the risk that we are unable to obtain capital at reasonable rates to fund the growth of our business or to refinance existing debt facilities. We do not have significant exposure to foreign currency risk as all of our leasing and revenue arrangements are denominated in U.S. dollars. Variable Interest Entities—The assessment of whether an entity is a VIE and the determination of whether to consolidate a VIE requires judgment. VIEs are defined as entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. A VIE is required to be consolidated by its primary beneficiary, and only by its primary beneficiary, which is defined as the party who has the power to direct the activities of a VIE that most significantly impact its economic performance and who has the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE. Delaware River Partners LLC During 2016, through Delaware River Partners LLC (“DRP”), a consolidated subsidiary, we purchased the assets of Repauno, which consisted primarily of land, a storage cavern, and riparian rights for the acquired land, site improvements and rights. Upon acquisition there were no operational processes that could be applied to these assets that would result in outputs without significant green field development. We currently hold an approximately 98% economic interest, and a 100% voting interest in DRP. DRP is solely reliant on us to finance its activities and therefore is a VIE. We concluded that we are the primary beneficiary; and accordingly, DRP has been presented on a consolidated basis in the accompanying consolidated financial statements. Total VIE assets of DRP were $298.7 million and $305.0 million, and total VIE liabilities of DRP were $52.5 million and $52.7 million as of June 30, 2024 and December 31, 2023, respectively. Cash and Cash Equivalents—We consider all highly liquid short-term investments with a maturity of 90 days or less when purchased to be cash equivalents. Restricted Cash—Restricted cash consists of prepaid interest and principal pursuant to the requirements of certain of our debt agreements (see Note 7) and other qualifying construction projects at Jefferson Terminal. Property, Plant, and Equipment, Leasing Equipment and Depreciation—Property, plant and equipment and leasing equipment are stated at cost (inclusive of capitalized acquisition costs, where applicable) and depreciated using the straight-line method, over their estimated useful lives, to estimated residual values which are summarized as follows: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:28.724%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td

Project costs of major additions and betterments, including capitalizable engineering costs and other costs directly related to the development or construction of project, are capitalized and depreciation commences once it is placed into service. Interest costs directly related to and incurred during the construction period of property, plant and equipment are capitalized. Significant spare parts are depreciated in conjunction with the underlying property, plant and equipment asset when placed in service. We review our depreciation policies on a regular basis to determine whether changes have taken place that would suggest that a change in our depreciation policies, useful lives of our equipment or the assigned residual values is warranted. Capitalized Interest— The interest cost associated with major development and construction projects is capitalized and included in the cost of the project. Interest capitalization ceases once a project is substantially complete or no longer undergoing construction activities to prepare it for its intended use. We capitalized interest of $1.2 million and $1.4 million during the three months ended June 30, 2024 and 2023, respectively, and $2.2 million and $2.8 million during the six months ended June 30, 2024 and 2023, respectively. Repairs and Maintenance— Repair and maintenance costs that do not extend the lives of the assets are expensed as incurred. Our repairs and maintenance expenses were $5.1 million and $4.9 million during the three months ended<span style="color:#000000;font-family:'Times New

Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%"> June 30, 2024 and 2023, respectively, and $10.3 million and $9.2 million during the six months ended June 30, 2024 and 2023, respectively, and are included in Operating expenses in the Consolidated Statements of Operations.</div><div style="margin-top:6pt;text-align:justify">Impairment of Long-Lived Assets—We perform a recoverability assessment of each of our long-lived assets whenever events or changes in circumstances, or indicators, indicate that the carrying amount or net book value of an asset may not be recoverable. Indicators may include, but are not limited to, a significant change in market conditions; or the introduction of newer technology. When performing a recoverability assessment, we measure whether the estimated future undiscounted net cash flows expected to be generated by the asset exceeds its net book value. The undiscounted cash flows consist of cash flows from terminal services contracts and currently contracted leases, future projected leases, terminal service and freight rail rates, transition costs, and estimated residual or scrap values. In the event that an asset does not meet the recoverability test, the carrying value of the asset will be adjusted to fair value resulting in an impairment charge.</div><div style="margin-top:6pt;text-align:justify">Management develops the assumptions used in the recoverability analysis based on its knowledge of active contracts, current and future expectations of the demand for a particular asset and historical experience, as well as information received from third party industry sources. The factors considered in estimating the undiscounted cash flows are impacted by changes in future periods due to changes in contracted lease rates, terminal service, and freight rail rates, residual values, economic conditions, technology, demand for a particular asset type and other factors.</div><div style="margin-top:6pt;text-align:justify">Other Current Assets—Other current assets is 0;text-align:right;vertical-align:bottom"></td></tr></table> The Company records interest income on the note receivable in Other income in the Consolidated Statements of Operations using the contractual interest rate. Other Assets—Other assets primarily consists of a note receivable of $11.3 million and $11.7 million as of June 30, 2024 and December 31, 2023, respectively, from CarbonFree, a business that develops technologies to capture carbon dioxide from industrial emissions sources. We elected the fair value option for this note receivable to better align the reported results with the underlying changes in the value of this note receivable. The Company records interest income, which is included in Other income in the Consolidated Statements of Operations, on this note receivable using the contractual interest rate. Other assets also consists of capitalized contract costs of $21.0 million and $17.6 million as of June 30, 2024 and December 31, 2023, respectively. Goodwill—Goodwill includes the excess of the purchase price over the fair value of the net tangible and intangible assets associated with the acquisition of Jefferson Terminal, Transtar and FYX. The carrying amount of goodwill within the Jefferson Terminal, Railroad and Corporate and Other segments was $122.7 million, $147.2 million, and $5.4 million, respectively, as of June 30, 2024 and December 31, 2023, respectively. <div style="margin-top:6pt;text-

align:justify">We review the carrying values of goodwill at least annually to assess impairment since these assets are not amortized. An annual impairment review is conducted as of October 1st of each year. Additionally, we review the carrying value of goodwill whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. The determination of fair value involves significant management judgment. For an annual goodwill impairment assessment, an optional qualitative analysis may be performed. If the option is not elected or if it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then a goodwill impairment test is performed to identify potential goodwill impairment and measure an impairment loss. A goodwill impairment assessment compares the fair value of a respective reporting unit with its carrying amount, including goodwill. The estimate of fair value of the respective reporting unit is based on the best information available as of the date of assessment, which primarily incorporates certain factors including our assumptions about operating results, business plans, income projections, anticipated future cash flows and market data. If the estimated fair value of the reporting unit is less than the carrying amount, a goodwill impairment is recorded to the extent that the carrying value of the reporting unit exceeds the fair value. As of October 1, 2023, for our Jefferson Terminal reporting unit, we completed a quantitative analysis. We estimate the fair value of Jefferson Terminal using an income approach, specifically a discounted cash flow analysis. This analysis requires us to make significant assumptions and estimates about the forecasted revenue growth rates, EBITDA margins, capital expenditures and discount rates. The estimates and assumptions used consider historical performance if indicative of future performance and are consistent with the assumptions used in determining future profit plans for the reporting units. In connection with our impairment analysis, although we believe the estimates of fair value are reasonable, the determination of certain valuation inputs is subject to management's judgment. Changes in these inputs, including as a result of events beyond our control, could materially affect the results of the impairment review. If the forecasted cash flows or other key inputs are negatively revised in the future, the estimated fair value of the reporting unit could be adversely impacted, potentially leading to an impairment in the future that could materially affect our operating results. The Jefferson Terminal reporting unit had an estimated fair value that exceeded its carrying value by more than 10% but less than 20% as of October 1, 2023. The Jefferson Terminal reporting unit forecasted revenue is dependent on the ramp up of volumes under current and expected future contracts for storage and throughput of heavy and light crude and refined products, expansion of refined product distribution to Mexico, expansion of volumes and execution of contracts related to sustainable fuels and movements in future oil spreads. At October 1, 2023, approximately 6.2 million barrels of storage was operational. Our discount rate for our 2023 goodwill impairment analysis was 10.3% and our assumed terminal growth rate was 2.5%. If our strategy changes from planned capacity downward due to an inability to source contracts or expand volumes, the fair value of the reporting unit would be negatively affected, which could lead to an impairment. The expansion of refineries in the Beaumont/Port Arthur area, as well as growing crude oil and natural gas production in the U.S. and Canada, are expected to result in increased demand for storage on the U.S. Gulf Coast. Although we do not have significant direct exposure to volatility of crude oil prices, changes in crude oil pricing that affect long term refining planned output could impact Jefferson Terminal operations. We expect the Jefferson Terminal reporting unit to continue to generate positive Adjusted EBITDA in future years. Further delays in executing anticipated contracts or achieving our projected volumes could adversely affect the fair value of the reporting unit. There were no impairments of goodwill for the three and six months ended June 30, 2024 and 2023. Redeemable Preferred Stock—We classify the Series A Senior Preferred Stock ("Redeemable Preferred Stock") as temporary equity in the Consolidated Balance Sheets due to certain contingent redemption clauses that are at the election of the holders. The carrying value of the Redeemable Preferred Stock is accreted to the redemption value at the earliest redemption date, which has been determined to be August 1, 2030. We use the interest method to accrete to the redemption value. Deferred Financing Costs—Costs incurred in connection with obtaining long-term financing are capitalized and amortized to interest expense over the term of the underlying loans. Unamortized deferred financing costs of $16.2 million and $31.3 million as of June 30, 2024 and December 31, 2023, respectively, are included in Debt, net in the Consolidated Balance Sheets. Amortization expense was $2.7 million and $1.7 million during the three months ended June 30, 2024 and 2023, respectively, and $4.6 million and $3.1 million during the six months ended June 30, 2024 and 2023, respectively, and is included in Interest expense in the Consolidated Statements of Operations. Terminal Services Revenues—Terminal services are provided to customers for the receipt and redelivery of various commodities. These revenues relate to performance obligations that are recognized over time using the right to invoice practical expedient, i.e., invoiced as the services are rendered and the customer simultaneously receives and consumes the benefit over the contract term. The Company's performance of service and right to invoice corresponds with the value delivered to our customers. Revenues are typically invoiced and paid on a monthly basis. Rail Revenues—Rail revenues generally consist of the following performance obligations: industrial switching, interline services, demurrage and storage. Switching revenues are derived from the performance of switching services, which involve the movement of cars from one point to another within the limits of an individual plant, industrial area, or a rail yard. Switching revenues are recognized as the services are performed, and the services are generally completed on the same day they are initiated. Interline revenues are derived from transportation services for railcars that originate or terminate at our railroads and involve one or more other carriers. For interline traffic, one railroad typically invoices a customer on behalf of all railroads participating in the route directed by the customer. The invoicing railroad then pays the other railroads its portion of the total amount invoiced on a monthly basis. We record revenue related to interline traffic for transportation service segments provided by carriers along railroads that are not owned or controlled by us on a net basis. Interline revenues are recognized as the transportation movements occur. Our ancillary services revenue primarily relates to demurrage and storage services. Demurrage represents charges assessed by railroads for the detention of cars by shippers or receivers of freight beyond a specified free time and is recognized on a per day basis. Storage services revenue is earned for the provision of storage of shippers' railcars and is generally recognized on a per day, per car basis, as the storage services are provided. Lease Income—Lease income consists of rental income from tenants for storage space. Lease income is recognized on a straight-line basis over the terms of the relevant lease agreement. Roadside Services Revenues—Roadside services revenue is revenue related to providing roadside assistance services to customers in the intermodal and over-the-road trucking industries. Revenue is recognized when a performance obligation is satisfied by completing a repair service at a point in time. Revenues are typically invoiced for each repair and generally have 30-day payment terms. Other Revenue—Other revenue primarily consists of revenue related to the handling, storage and sale of raw materials. Revenues for the handling and storage of raw materials relate to performance obligations that are recognized over time using the right to invoice practical expedient, i.e., invoiced as the services are rendered and the customer simultaneously receives and consumes the benefit over the contract term. Our performance of service and right to invoice corresponds with the value delivered to our customers. Revenues for the sale of raw materials relate to contracts that contain performance obligations to deliver the product over the term of the contract. The revenues are recognized when the control of the product is transferred to the

customer, based on the volume delivered and the price within the contract. Other revenues are typically invoiced and paid on a monthly basis. Payment terms for revenues are generally short term in nature. Leasing Arrangements—At contract inception, we evaluate whether an arrangement is or contains a lease for which we are the lessee (that is, arrangements which provide us with the right to control a physical asset for a period of time). Operating lease right-of-use ("ROU") assets and lease liabilities are recognized in Operating lease right-of-use assets, net and Operating lease liabilities within current liabilities and non-current liabilities in our Consolidated Balance Sheets, respectively. Finance lease ROU assets are recognized in Property, plant and equipment, net and lease liabilities are recognized in Other current liabilities and Other liabilities in our Consolidated Balance Sheets. All lease liabilities are measured at the present value of the unpaid lease payments, discounted using our incremental borrowing rate based on the information available at commencement date of the lease. ROU assets, for both operating and finance leases, are initially measured based on the lease liability, adjusted for prepaid rent and lease incentives. ROU assets are subsequently measured at the carrying amount of the lease liability adjusted for prepaid or accrued lease payments and lease incentives. The finance lease ROU assets are subsequently amortized using the straight-line method. Operating lease expenses are recognized on a straight-line basis over the lease term. With respect to finance leases, amortization of the ROU asset is presented separately from interest expense related to the finance lease liability. Variable lease payments, which are primarily based on usage, are recognized when the associated activity occurs. We have elected to combine lease and non-lease components for all lease contracts where we are the lessee. Additionally, for arrangements with lease terms of 12 months or less, we do not recognize ROU assets and lease liabilities; lease payments are recognized on a straight-line basis over the lease term with variable lease payments recognized in the period in which the obligation is incurred. Concentration of Credit Risk—We are subject to concentrations of credit risk with respect to amounts due from customers. We attempt to limit our credit risk by performing ongoing credit evaluations. We earned approximately 49% and 50% of total revenues for the three and six months ended June 30, 2024, respectively, from one customer in the Railroad segment. Additionally, we earned 13% and 14% of total revenues for the three and six months ended June 30, 2024 from one customer in the Jefferson Terminal segment. We earned 54% and 51% of total revenues for the three and six months ended June 30, 2023, respectively, from one customer in the Railroad segment. We earned 11% of total revenues for the three and six months ended June 30, 2023, respectively, from one customer in the Jefferson Terminal segment. As of June 30, 2024, accounts receivable from three customers within the Jefferson Terminal, Railroad, and Corporate and Other segments represented 65% of total accounts receivable, net. As of December 31, 2023, accounts receivable from three customers within the Jefferson Terminal and Railroad segments represented 56% of total accounts receivable, net. We maintain cash and restricted cash balances, which generally exceed federally insured limits, and subject us to credit risk, in high credit quality financial institutions. We monitor the financial condition of these institutions and have not experienced any losses associated with these accounts. Allowance for Doubtful Accounts—We determine the allowance for doubtful accounts based on our assessment of the collectability of our receivables on a customer-by-customer basis. We also consider current and future economic conditions over the expected lives of the receivables, the amount of receivables in dispute, and the current receivables aging. Comprehensive Income (Loss)—Comprehensive income (loss) is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances, excluding those resulting from investments by and distributions to owners. Our comprehensive income (loss) represents net loss, as presented in the Consolidated Statements of Operations, adjusted for fair value changes recorded in other comprehensive income (loss) related to cash flow hedges of our equity method investees and changes in pension and other employee benefit accounts. Derivative Financial Instruments Electricity Derivatives—Our equity method investee, Long Ridge, enters into derivative contracts as part of a risk management program to mitigate price risk associated with certain electricity price exposures. Long Ridge primarily uses swap derivative contracts, which are agreements to buy or sell a quantity of electricity at a predetermined future date and at a predetermined price. Cash Flow Hedges Certain of these derivative instruments are designated and qualify as cash flow hedges. Our share of the derivative's gain or loss is reported as Other comprehensive income (loss) related to equity method investees in our Consolidated Statements of Comprehensive Income (Loss) and recorded in Accumulated other comprehensive loss in our Consolidated Balance Sheets. The change in our equity method investment balance related to derivative gains or losses on cash flow hedges is disclosed as a Non-cash change in equity method investment in our Consolidated Statements of Cash Flows. Derivatives Not Designated As Hedging Instruments Certain of these derivative instruments are not designated as hedging instruments for accounting purposes. Our share of the change in fair value of these contracts is recognized in Equity in (losses) earnings of unconsolidated entities in the Consolidated Statements of Operations. The cash flow impact of derivative contracts that are not designated as hedging instruments is recognized in Equity in losses (earnings) of unconsolidated entities in our Consolidated Statements of Cash Flows. Income Taxes—Taxable income or loss generated by us and our corporate subsidiaries is subject to U.S. federal, state and foreign corporate income tax in locations where they conduct business. We account for these taxes using the asset and liability method under which deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. A valuation allowance is established when management believes it is more likely than not that a deferred tax asset will not be realized. Some of our entities file income tax returns in the U.S. federal jurisdiction, various state jurisdictions and in certain foreign jurisdictions. The income tax returns filed by us and our subsidiaries are subject to examination by the U.S. federal, state and foreign tax authorities. We recognize tax benefits for uncertain tax positions only if it is more likely than not that the position is sustainable based on its technical merits. Interest and penalties on uncertain tax positions are included as a component of the Provision for income taxes in the Consolidated Statements of Operations. Pension and Other Postretirement Benefits—We have obligations for a pension and a postretirement benefit plan in connection with the acquisition of Transtar for certain eligible Transtar employees.

*The pension and other postretirement obligations and the related net periodic costs are based on, among other things, assumptions regarding the discount rate, salary increases, the projected mortality of participants and the current level and future escalation of health care costs. Actuarial gains and losses occur when actual experience differs from any of the many assumptions used to value the benefit plans, or when assumptions change. We will recognize into income on an annual basis a portion of unrecognized actuarial net gains or losses that exceed 10 percent of the greater of the projected benefit obligations or the market-related value of plan assets (the corridor). This excess is amortized over the average remaining service period of active employees expected to receive benefits under the plan. Refer to Note 11 for additional discussion on the pension and postretirement benefit plans. Basis of Accounting—The accompanying consolidated financial statements are prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") and include the accounts of us and our subsidiaries. These financial statements and related notes should be read in conjunction with the Consolidated Financial Statements and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023. Principles of Consolidation—We consolidate all entities in which we have a controlling financial interest and control over significant operating decisions, as well as variable interest entities ("VIEs") in which we are the primary beneficiary. All significant intercompany transactions and balances have been eliminated. All adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The ownership interest of other investors in consolidated subsidiaries is recorded as non-controlling interest. We use the equity method of accounting for investments in entities in which we exercise significant influence but which do not meet the requirements for consolidation. Under the equity method, we record our proportionate share of the underlying net income (loss) of these entities as well as the proportionate interest in adjustments to other comprehensive income (loss). Use of Estimates—The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Risks and Uncertainties—In the normal course of business, we encounter several significant types of economic risk including credit, market, and capital market risks. Credit risk is the risk of the inability or unwillingness of a lessee, customer, or derivative counterparty to make contractually required payments or to fulfill its other contractual obligations. Market risk reflects the risk of a downturn or volatility in the underlying industry segments in which we operate, which could adversely impact the pricing of the services offered by us or a lessee's or customer's ability to make payments. Capital market risk is the risk that we are unable to obtain capital at reasonable rates to fund the growth of our business or to refinance existing debt facilities. We do not have significant exposure to foreign currency risk as all of our leasing and revenue arrangements are denominated in U.S. dollars. Variable Interest Entities—The assessment of whether an entity is a VIE and the determination of whether to consolidate a VIE requires judgment. VIEs are defined as entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. A VIE is required to be consolidated by its primary beneficiary, and only by its primary beneficiary, which is defined as the party who has the power to direct the activities of a VIE that most significantly impact its economic performance and who has the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE.
0.98129870000030500000.05250000052700000 Cash and Cash Equivalents—We consider all highly liquid short-term investments with a maturity of 90 days or less when purchased to be cash equivalents. Restricted Cash—Restricted cash consists of prepaid interest and principal pursuant to the requirements of certain of our debt agreements (see Note 7) and other qualifying construction projects at Jefferson Terminal. Property, plant and equipment and leasing equipment are stated at cost (inclusive of capitalized acquisition costs, where applicable) and depreciated using the straight-line method, over their estimated useful lives, to estimated residual values which are summarized as follows: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:28.724%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:33.987%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:32.821%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Asset</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Range of Estimated Useful Lives</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Residual Value Estimates</td></tr><tr><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000;padding:2px 1pt;text-align:left;vertical-align:bottom">Railcars and locomotives</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000;padding:2px 1pt;text-align:left;vertical-align:bottom"> 40 - 50 years from date of manufacture </td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000;padding:2px 1pt;text-align:left;vertical-align:bottom">Scrap value at end of useful life</td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Track and track related assets</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 15 - 50 years from date of manufacture </td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Scrap value at end of useful life</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Land, site improvements and rights</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">N/A</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">N/A</td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Bridges and tunnels</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 15 - 55 years </td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Scrap value at end of useful life</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Buildings and site improvements</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"> 20 - 30 years </td><td*

P40YP50YP15YP50YP15YP55YP20YP30YP3YP15YP15YP25YP3YP6YP2YP5YCapitalized Interest—The interest cost associated with major development and construction projects is capitalized and included in the cost of the project. Interest capitalization ceases once a project is substantially complete or no longer undergoing construction activities to prepare it for its intended use.120000014000002200000280000051000004900000103000009200000 Impairment of Long-Lived Assets—We perform a recoverability assessment of each of our long-lived assets whenever events or changes in circumstances, or indicators, indicate that the carrying amount or net book value of an asset may not be recoverable. Indicators may include, but are not limited to, a significant change in market conditions; or the introduction of newer technology. When performing a recoverability assessment, we measure whether the estimated future undiscounted net cash flows expected to be generated by the asset exceeds its net book value. The undiscounted cash flows consist of cash flows from terminal services contracts and currently contracted leases, future projected leases, terminal service and freight rail rates, transition costs, and estimated residual or scrap values. In the event that an asset does not meet the recoverability test, the carrying value of the asset will be adjusted to fair value resulting in an impairment charge. Management develops the assumptions used in the recoverability analysis based on its knowledge of active contracts, current and future expectations of the demand for a particular asset and historical experience, as well as information received from third party industry sources. The factors considered in estimating the undiscounted cash flows are impacted by changes in future periods due to changes in contracted lease rates, terminal service, and freight rail rates, residual values, economic conditions, technology, demand for a particular asset type and other factors.
2314400021425000107700008930000844800057160008195000596300050557000420340001130000011700000210000000.017600000 Goodwill—Goodwill includes the excess of the purchase price over the fair value of the net tangible and intangible assets associated with the acquisition of Jefferson Terminal, Transtar and FYX. The carrying amount of goodwill within the Jefferson Terminal, Railroad and Corporate and Other segments was $122.7 million, $147.2 million, and $5.4 million, respectively, as of June 30, 2024 and December 31, 2023, respectively. We review the carrying values of goodwill at least annually to assess impairment since these assets are not amortized. An annual impairment review is conducted as of October 1st of each year. Additionally, we review the carrying value of goodwill whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. The determination of fair value involves significant management judgment. For an annual goodwill impairment assessment, an optional qualitative analysis may be performed. If the option is not elected or if it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then a goodwill impairment test is performed to identify potential goodwill impairment and measure an impairment loss. A goodwill impairment assessment compares the fair value of a respective reporting unit with its carrying amount, including goodwill. The estimate of fair value of the respective reporting unit is based on the best information available as of the date of assessment, which primarily incorporates certain factors including our assumptions about operating results, business plans, income projections, anticipated future cash flows and market data. If the estimated fair value of the reporting unit is less than the carrying amount, a goodwill impairment is recorded to the extent that the carrying value of the reporting unit exceeds the fair value. As of October 1, 2023, for our Jefferson Terminal reporting unit, we completed a quantitative analysis. We estimate the fair value of Jefferson Terminal using an income approach, specifically a discounted cash flow analysis. This analysis requires us to make significant assumptions and estimates about the forecasted revenue growth rates, EBITDA margins, capital expenditures and discount rates. The estimates and assumptions used consider historical performance if indicative of future performance and are consistent with the assumptions used in determining future profit plans for the reporting units. In connection with our impairment analysis, although we believe the estimates of fair value are reasonable, the determination of certain valuation inputs is subject to management's judgment. Changes in these inputs, including as a result of events beyond our control, could materially affect the results of the impairment review. If the forecasted cash flows or other key inputs are negatively revised in the future, the estimated fair value of the reporting unit could be adversely impacted, potentially leading to an impairment in the future that could materially affect our operating results. The Jefferson Terminal reporting unit had an estimated fair value that exceeded its carrying value by more than 10% but less than 20% as of October 1, 2023. The Jefferson Terminal reporting unit forecasted revenue is dependent on the ramp up of volumes under current and expected future contracts for storage and throughput of heavy and light crude and refined products, expansion of refined product distribution to Mexico, expansion of volumes and execution of contracts related to sustainable fuels and movements in future oil spreads. At October 1, 2023, approximately 6.2 million barrels of storage was operational. Our discount rate for our 2023 goodwill impairment analysis was 10.3% and our assumed terminal growth rate was 2.5%. If our strategy changes from planned capacity downward due to an inability to source contracts or expand volumes, the fair value of the reporting unit would be negatively affected, which could lead to an impairment. The expansion of refineries in the Beaumont/Port Arthur area, as well as growing crude oil and natural gas production in the U.S. and Canada, are expected to result in increased demand for storage on the U.S. Gulf Coast. Although we do not have significant direct exposure to volatility of crude oil prices, changes in crude oil pricing that affect long term refining planned output could impact Jefferson Terminal operations. We expect the Jefferson Terminal reporting unit to continue to generate positive Adjusted EBITDA in future years. Further delays in executing anticipated contracts or achieving our projected volumes could adversely affect the fair value of the reporting unit.
122700000122700000147200000147200000540000054000006200000.1030.02500 Redeemable Preferred Stock—We classify the Series A Senior Preferred Stock ("Redeemable Preferred Stock") as temporary equity in the Consolidated Balance Sheets due to certain contingent redemption clauses that are at the election of the holders. The carrying value of the Redeemable Preferred Stock is accreted to the redemption value at the earliest redemption date, which has been determined to be August 1, 2030. We use the interest method to accrete to the redemption value. Deferred Financing Costs—Costs incurred in connection with obtaining long-term financing are capitalized and amortized to interest expense over the term of the underlying

loans16200000313000002700000170000046000003100000 Terminal Services Revenues—Terminal services are provided to customers for the receipt and redelivery of various commodities. These revenues relate to performance obligations that are recognized over time using the right to invoice practical expedient, i.e., invoiced as the services are rendered and the customer simultaneously receives and consumes the benefit over the contract term. The Company's performance of service and right to invoice corresponds with the value delivered to our customers. Revenues are typically invoiced and paid on a monthly basis. Rail Revenues—Rail revenues generally consist of the following performance obligations: industrial switching, interline services, demurrage and storage. Switching revenues are derived from the performance of switching services, which involve the movement of cars from one point to another within the limits of an individual plant, industrial area, or a rail yard. Switching revenues are recognized as the services are performed, and the services are generally completed on the same day they are initiated. Interline revenues are derived from transportation services for railcars that originate or terminate at our railroads and involve one or more other carriers. For interline traffic, one railroad typically invoices a customer on behalf of all railroads participating in the route directed by the customer. The invoicing railroad then pays the other railroads its portion of the total amount invoiced on a monthly basis. We record revenue related to interline traffic for transportation service segments provided by carriers along railroads that are not owned or controlled by us on a net basis. Interline revenues are recognized as the transportation movements occur. Our ancillary services revenue primarily relates to demurrage and storage services. Demurrage represents charges assessed by railroads for the detention of cars by shippers or receivers of freight beyond a specified free time and is recognized on a per day basis. Storage services revenue is earned for the provision of storage of shippers' railcars and is generally recognized on a per day, per car basis, as the storage services are provided. Lease Income—Lease income consists of rental income from tenants for storage space. Lease income is recognized on a straight-line basis over the terms of the relevant lease agreement. Roadside Services Revenues—Roadside services revenue is revenue related to providing roadside assistance services to customers in the intermodal and over-the-road trucking industries. Revenue is recognized when a performance obligation is satisfied by completing a repair service at a point in time. Revenues are typically invoiced for each repair and generally have 30-day payment terms. Other Revenue—Other revenue primarily consists of revenue related to the handling, storage and sale of raw materials. Revenues for the handling and storage of raw materials relate to performance obligations that are recognized over time using the right to invoice practical expedient, i.e., invoiced as the services are rendered and the customer simultaneously receives and consumes the benefit over the contract term. Our performance of service and right to invoice corresponds with the value delivered to our customers. Revenues for the sale of raw materials relate to contracts that contain performance obligations to deliver the product over the term of the contract. The revenues are recognized when the control of the product is transferred to the customer, based on the volume delivered and the price within the contract. Other revenues are typically invoiced and paid on a monthly basis. Payment terms for revenues are generally short term in nature. Leasing Arrangements—At contract inception, we evaluate whether an arrangement is or contains a lease for which we are the lessee (that is, arrangements which provide us with the right to control a physical asset for a period of time). Operating lease right-of-use ("ROU") assets and lease liabilities are recognized in Operating lease right-of-use assets, net and Operating lease liabilities within current liabilities and non-current liabilities in our Consolidated Balance Sheets, respectively. Finance lease ROU assets are recognized in Property, plant and equipment, net and lease liabilities are recognized in Other current liabilities and Other liabilities in our Consolidated Balance Sheets. All lease liabilities are measured at the present value of the unpaid lease payments, discounted using our incremental borrowing rate based on the information available at commencement date of the lease. ROU assets,for both operating and finance leases,are initially measured based on the lease liability, adjusted for prepaid rent and lease incentives. ROU assets are subsequently measured at the carrying amount of the lease liability adjusted for prepaid or accrued lease payments and lease incentives. The finance lease ROU assets are subsequently amortized using the straight-line method. Operating lease expenses are recognized on a straight-line basis over the lease term. With respect to finance leases, amortization of the ROU asset is presented separately from interest expense related to the finance lease liability. Variable lease payments, which are primarily based on usage, are recognized when the associated activity occurs. We have elected to combine lease and non-lease components for all lease contracts where we are the lessee. Additionally, for arrangements with lease terms of 12 months or less, we do not recognize ROU assets and lease liabilities; lease payments are recognized on a straight-line basis over the lease term with variable lease payments recognized in the period in which the obligation is incurred. Concentration of Credit Risk—We are subject to concentrations of credit risk with respect to amounts due from customers. We attempt to limit our credit risk by performing ongoing credit evaluations. We earned approximately 49% and 50% of total revenues for the three and six months ended June 30, 2024, respectively, from one customer in the Railroad segment. Additionally, we earned 13% and 14% of total revenues for the three and six months ended June 30, 2024 from one customer in the Jefferson Terminal segment. We earned 54% and 51% of total revenues for the three and six months ended June 30, 2023, respectively, from one customer in the Railroad segment. We earned 11% of total revenues for the three and six months ended June 30, 2023, respectively, from one customer in the Jefferson Terminal segment. As of June 30, 2024, accounts receivable from three customers within the Jefferson Terminal, Railroad, and Corporate and Other segments represented 65% of total accounts receivable, net. As of December 31, 2023, accounts receivable from three customers within the Jefferson Terminal and Railroad segments represented 56% of total accounts receivable, net. We maintain cash and restricted cash balances, which generally exceed federally insured limits, and subject us to credit risk, in high credit quality financial institutions. We monitor the financial condition of these institutions and have not experienced any losses associated with these accounts. 0.490.500.130.140.540.510.110.110.650.56 Allowance for Doubtful Accounts—We determine the allowance for doubtful accounts based on our assessment of the collectability of our receivables on a customer-by-customer basis. We also consider current and future economic conditions over the expected lives of the receivables, the amount of receivables in dispute, and the current receivables aging. Comprehensive Income (Loss)—Comprehensive income (loss) is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances, excluding those resulting from investments by and distributions to owners. Our comprehensive income (loss)

represents net loss, as presented in the Consolidated Statements of Operations, adjusted for fair value changes recorded in other comprehensive income (loss) related to cash flow hedges of our equity method investees and changes in pension and other employee benefit accounts. Derivative Financial Instruments Electricity Derivatives— Our equity method investee, Long Ridge, enters into derivative contracts as part of a risk management program to mitigate price risk associated with certain electricity price exposures. Long Ridge primarily uses swap derivative contracts, which are agreements to buy or sell a quantity of electricity at a predetermined future date and at a predetermined price. Cash Flow Hedges Certain of these derivative instruments are designated and qualify as cash flow hedges. Our share of the derivative's gain or loss is reported as Other comprehensive income (loss) related to equity method investees in our Consolidated Statements of Comprehensive Income (Loss) and recorded in Accumulated other comprehensive loss in our Consolidated Balance Sheets. The change in our equity method investment balance related to derivative gains or losses on cash flow hedges is disclosed as a Non-cash change in equity method investment in our Consolidated Statements of Cash Flows. Derivatives Not Designated As Hedging Instruments Certain of these derivative instruments are not designated as hedging instruments for accounting purposes. Our share of the change in fair value of these contracts is recognized in Equity in (losses) earnings of unconsolidated entities in the Consolidated Statements of Operations. The cash flow impact of derivative contracts that are not designated as hedging instruments is recognized in Equity in losses (earnings) of unconsolidated entities in our Consolidated Statements of Cash Flows. Income Taxes— Taxable income or loss generated by us and our corporate subsidiaries is subject to U.S. federal, state and foreign corporate income tax in locations where they conduct business. We account for these taxes using the asset and liability method under which deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. A valuation allowance is established when management believes it is more likely than not that a deferred tax asset will not be realized. Some of our entities file income tax returns in the U.S. federal jurisdiction, various state jurisdictions and in certain foreign jurisdictions. The income tax returns filed by us and our subsidiaries are subject to examination by the U.S. federal, state and foreign tax authorities. We recognize tax benefits for uncertain tax positions only if it is more likely than not that the position is sustainable based on its technical merits. Interest and penalties on uncertain tax positions are included as a component of the Provision for income taxes in the Consolidated Statements of Operations. Pension and Other Postretirement Benefits— We have obligations for a pension and a postretirement benefit plan in connection with the acquisition of Transtar for certain eligible Transtar employees. The pension and other postretirement obligations and the related net periodic costs are based on, among other things, assumptions regarding the discount rate, salary increases, the projected mortality of participants and the current level and future escalation of health care costs. Actuarial gains and losses occur when actual experience differs from any of the many assumptions used to value the benefit plans, or when assumptions change. We will recognize into income on an annual basis a portion of unrecognized actuarial net gains or losses that exceed 10 percent of the greater of the projected benefit obligations or the market-related value of plan assets (the corridor). This excess is amortized over the average remaining service period of active employees expected to receive benefits under the plan. Refer to Note 11 for additional discussion on the pension and postretirement benefit plans. 3. LEASING EQUIPMENT, NET AND PROPERTY Leasing equipment, net is summarized as follows: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:66.882%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:14.543%"></td><td style="width:0.1%"></td><td style="width:0.530%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:14.545%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">June 30, 2024</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">December 31, 2023</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Leasing equipment</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:bottom">47,177 </td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:bottom">45,982 </td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Less: Accumulated depreciation</td><td colspan="2" style="background-color:#ffffff;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">(11,063)</td><td style="background-color:#ffffff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="2" style="background-color:#ffffff;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">(10,395)</td><td style="background-color:#ffffff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Leasing equipment, net</td><td style="background-color:#cceeff;border-bottom:3pt double #000000;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;border-bottom:3pt double #000000;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:bottom">36,114 </td><td style="background-color:#cceeff;border-bottom:3pt double #000000;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td style="background-color:#cceeff;border-bottom:3pt double #000000;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Arial',sans-serif;font-size:8pt;font-weight:400;line-height:100%">$</td><td style="background-color:#cceeff;border-bottom:3pt double #000000;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:bottom">35,587 </td><td style="background-color:#cceeff;border-bottom:3pt double #000000;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr></table> Depreciation expense for leasing equipment is summarized as follows: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:42.321%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.496%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.530%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.496%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.530%"></td><td

style="background-color:#ffffff;border-bottom:3pt double #000;border-top:1pt solid #000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr></table> Equity Method Investments Intermodal Finance I, Ltd. In 2012, we acquired a 51% non-controlling interest in Intermodal Finance I, Ltd. (“Intermodal”). Intermodal is governed by a board of directors, and its shareholders have voting rights through their equity interests. As such, Intermodal is not within the scope of ASC 810-20 and should be evaluated for consolidation under the voting interest model. Due to the existence of substantive participating rights of the 49% equity investor, including the joint approval of material operating and capital decisions, such as material contracts and capital expenditures consistent with ASC 810-10-25-11, we do not have unilateral rights over this investment and, therefore, we do not consolidate Intermodal but account for this investment in accordance with the equity method. We do not have a variable interest in this investment as none of the criteria of ASC 810-10-15-14 were met. As of June 30, 2024, Intermodal owns a portfolio of approximately 161 shipping containers subject to multiple operating leases. Long Ridge Energy & Power LLC In December 2019, Ohio River Partners Shareholder LLC (“ORP”), a wholly owned subsidiary, contributed its equity interests in Long Ridge into Long Ridge Energy & Power LLC and sold a 49.9% interest (the “Long Ridge Transaction”) for $150 million in cash, plus an earn out. We no longer have a controlling interest in Long Ridge but still maintain significant influence through our retained interest and, therefore, now account for this investment in accordance with the equity method. Following the sale, we deconsolidated ORP, which held the assets of Long Ridge. In addition to our equity method investment, in October 2022 we entered into a shareholder loan agreement maturing on October 15, 2023 and accruing paid-in-kind (“PIK”) interest at a 13% rate. During 2023, the maturity date was extended to May 1, 2032. As of June 30, 2024 and December 31, 2023, the balance of the note receivable was $93.7 million and $71.0 million, respectively, recorded as part of the Long Ridge investment in Other liabilities on the Consolidated Balance Sheets. The tables below present summarized financial information for Long Ridge Energy & Power LLC: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:67.028%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:14.543%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:14.545%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">(Unaudited)</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">June 30, 2024</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">December 31, 2023</td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom">Balance Sheet</td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-

style="background-color:#ffffff;border-bottom:3pt double #000;border-top:1pt solid #000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr></table> GM-FTAI Holdco LLC In September 2021, we acquired 1% of the Class A shares and 50% of the Class B shares of GM-FTAI Holdco LLC for $52.5 million. GM-FTAI Holdco LLC owns a 100% interest in Gladieux Metals Recycling LLC ("GMR") and Aleon Renewable Metals LLC ("Aleon"). GMR specializes in recycling spent catalyst produced in the petroleum refining industry. Aleon plans to develop a lithium-ion battery recycling business across the United States. Each planned location will collect, discharge and disassemble lithium-ion batteries to extract various metals in high-purity form for resale into the lithium-ion battery production market. Aleon and GMR are governed by separate boards of directors. Our ownership of Class A and B shares in GM-FTAI Holdco LLC provides us with 1% and 50% economic interest in GMR and Aleon, respectively. We account for our investment in GM-FTAI Holdco LLC as an equity method investment as we have significant influence through our ownership of Class A and Class B shares of GM-FTAI Holdco LLC. On June 15, 2022, we exchanged our Class B shares which gave us economic interest in Aleon for an additional 20% interest in Class A shares. In addition, we also terminated our credit agreements with GMR and Aleon in exchange for an approximate 8.5% of additional interest in Class A shares of GM-FTAI Holdco LLC. As a result

of these exchange transactions, we own approximately 27% of GM-FTAI Holdco LLC, which owns 100% of both GMR and Aleon. Clean Planet Energy USA LLC In November 2021, we acquired 50% of the Class A shares of Clean Planet Energy USA LLC ("Clean Planet" or "CPE") with an initial investment of $1.0 million. CPE intends on building waste plastic-to-fuel plants in the United States. The plants will convert various grades of non-recyclable waste plastic to renewable diesel in the form of jet fuel, diesel, naphtha, and low sulfur fuel oil. We account for our investment in CPE as an equity method investment as we have significant influence through our ownership of Class A shares. Long Ridge West Virginia LLC In November 2023, we sold a 49.9% interest in Long Ridge West Virginia LLC ("Long Ridge WV"), previously a wholly owned subsidiary, for $7.5 million in cash. Long Ridge WV is a VIE as defined in U.S. GAAP, but we are not the primary beneficiary. Following the sale, we no longer have a controlling interest in Long Ridge WV, but we still maintain significant influence through our retained interest and account for this investment in accordance with the equity method. Long Ridge WV was formed to build an energy generating property in West Virginia similar to that of Long Ridge Energy & Power LLC. On the deconsolidation, no gain was recorded as all the assets consist of unproved undeveloped gas properties. We recorded our investment in the legal entity at the cost basis of $7.2 million as of November 17, 2023. Equity Investments E-Circuit Motors, Inc. E-Circuit Motors Inc. ("ECM") is a software company concentrating on the development and sale of printer circuit board stator motors and also utilizes proprietary software to develop and test such motors in a virtual environment. On March 6, 2024, the Company invested $5.0 million for 166,667 shares of Series D preferred equity, as well as 166,667 warrants of common stock at $0.01 per share in ECM. The preferred shares are convertible to common shares at the option of the investor on a one-for-one basis. We do not exercise significant influence over the investment and will record the preferred share investment as an equity security. The warrants are exercisable only if certain conditions are met over the next two years after the date of the investment. The warrants will be accounted for as equity securities. The value of the Series D preferred equity and warrants as of the date of investment were determined to be $2.5 million each, based on relative fair value. ECM is a private company with no readily determinable fair values; if additional third-party information becomes available we will adjust the value of the investments accordingly. As of June 30, 2024, the investment of $5.0 million was recorded in Other assets on the Consolidated Balance Sheet.</div><div style="margin-top:6pt;text-align:justify">The following table presents the ownership interests and carrying values of our investments:</div><div style="margin-top:6pt;text-align:justify"><table (2) Includes an unamortized discount of $21,920 and $24,819 at June 30, 2024 and December 31, 2023, respectively. Jefferson Credit Agreement On April 2, 2024, certain subsidiaries within the Jefferson Terminal segment entered into a credit agreement (the "Jefferson Credit Agreement"), providing for a $75.0 million term loan facility, which matures at the earlier of (i) December 13, 2024 or (ii) 30 days prior to the date on which the first cash dividend payment on preferred equity is paid, and bears interest at the Applicable Margin of 4.00% plus Adjusted Term SOFR. In June 2024, we completed an offering of Series 2024 Bonds (see below) and used a portion of the net proceeds to repay in full and terminate the Jefferson Credit Agreement. Tender Offer for Series 2020A and Series 2021A Bonds On May 14, 2024, we commenced a cash tender offer (the "Tender Offer") for up to $105 million aggregate principal amount of the Tax Exempt Series 2020A and Series 2021A Bonds (the "Target Bonds"). On June 20, 2024 (the "Settlement Date"), we completed the Tender Offer for $108.0 million aggregate principal amount of the Target Bonds under the Tender Offer at an aggregate purchase price of $88.8 million, which includes accrued and unpaid interest on such Target Bonds from the last interest payment date up to, but not including, the Settlement Date. Interest ceased to accrue on the Settlement Date for all accepted Target Bonds. Series 2024 Bonds On June 20, 2024, certain subsidiaries within the Jefferson Terminal segment, and the Port of Beaumont Navigation District of Jefferson County, Texas, completed their previously announced offering of $164.4 million principal amount of Series 2024A Dock and Wharf Facility Revenue Bonds (the "Tax Exempt Series 2024A Bonds") and $217.9 million principal amount of Taxable Series 2024B Facility Revenue Bonds (the "Taxable Series 2024B Bonds" and, together with the Tax Exempt Series 2024A Bonds, the "Series 2024 Bonds"). Certain subsidiaries within the Jefferson Terminal segment pledged certain assets in support of the Series 2024 Bonds. The Tax Exempt Series 2024A Bonds consist of: •$67,570,000 principal amount of Term Bonds maturing on January 1, 2039, and bearing interest at a fixed rate of 5.000% per annum, •$44,800,000 principal amount of Term Bonds maturing on January 1, 2044, and bearing interest at a fixed rate of 5.125% per annum, and •$52,055,000 principal amount of Term Bonds maturing on January 1, 2054, and bearing interest at a fixed rate of 5.250% per annum. The Taxable Series 2024B Bonds will mature on July 1, 2026, and bear interest at a fixed rate of 10.000% per annum. Jefferson Terminal used a portion of the net proceeds from the Series 2024 Bonds to repay the Jefferson Credit Agreement in full, pay for or reimburse the cost of development, construction and acquisition of certain facilities, as well as pay for the Tender Offer. The Company also used a portion of the net proceeds from the Series 2024B Bonds to defease the Taxable Series 2020B Bonds in full for the aggregate principal amount of $79.1 million. We recognized a loss on modification of debt of $6.0 million from the Series 2024 Bonds and a loss on extinguishment of debt of $3.2 million from the repayment of the Jefferson Credit Agreement in connection with this transaction. In conjunction with the repayment associated with the Jefferson Credit Agreement, we wrote off $1.8 million of deferred financing costs during the period. We were in compliance with all debt covenants as of June 30, 2024. Our debt, net is summarized as follows:<table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:22.438%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:30.625%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.595%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:14.543%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:14.547%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Outstanding Borrowings</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Stated Interest Rate</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Maturity Date</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">June 30, 2024</td><td colspan="3" style="border-top:1pt solid #000;padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">December 31, 2023</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Loans payable</td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td

FAIR VALUE MEASUREMENTS <span

style="color:#000000;font-family:'Arial',sans-serif;font-size:9pt;font-weight:400;line-height:120%">Fair value measurements and disclosures require the use of valuation techniques to measure fair value that maximize the use of observable inputs and minimize use of unobservable inputs. These inputs are prioritized as follows: •Level 1: Observable inputs such as quoted prices in active markets for identical assets or liabilities. •Level 2: Inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities or market corroborated inputs. •Level 3: Unobservable inputs for which there is little or no market data and which require us to develop our own assumptions about how market participants price the asset or liability. The valuation techniques that may be used to measure fair value are as follows: •Market approach—Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. •Income approach—Uses valuation techniques to convert future amounts to a single present amount based on current market expectations about those future amounts. •Cost approach—Based on the amount that currently would be required to replace the service capacity of an asset (replacement cost). The following tables set forth our financial assets measured at fair value on a recurring basis as of June 30, 2024 and December 31, 2023, by level within the fair value hierarchy. Assets measured at fair value are classified in their entirety based on the lowest level of input that is significant to their fair value measurement. <table 0;text-align:right;vertical-align:bottom"></td></tr></table>_____ (1) Fair value is

based upon market prices for similar municipal securities. The fair value of all other items reported as Debt, net in the Consolidated Balance Sheets approximate their carrying values due to their bearing market rates of interest and are classified as Level 2 within the fair value hierarchy. We measure the fair value of certain assets on a non-recurring basis when U.S. GAAP requires the application of fair value, including events or changes in circumstances that indicate that the carrying amounts of assets may not be recoverable. Assets subject to these measurements include goodwill, intangible assets, property, plant and equipment and leasing equipment. We record such assets at fair value when it is determined the carrying value may not be recoverable. Fair value measurements for assets subject to impairment tests are based on an income approach which uses Level 3 inputs, which include our assumptions as to future cash flows from operation of the underlying businesses. Fair value measurements and disclosures require the use of valuation techniques to measure fair value that maximize the use of observable inputs and minimize use of unobservable inputs. These inputs are prioritized as follows: •Level 1: Observable inputs such as quoted prices in active markets for identical assets or liabilities. •Level 2: Inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities or market corroborated inputs. •Level 3: Unobservable inputs for which there is little or no market data and which require us to develop our own assumptions about how market participants price the asset or liability. The valuation techniques that may be used to measure fair value are as follows: •Market approach—Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. •Income approach—Uses valuation techniques to convert future amounts to a single present amount based on current market expectations about those future amounts. •Cost approach—Based on the amount that currently would be required to replace the service capacity of an asset (replacement cost). The following tables set forth our financial assets measured at fair value on a recurring basis as of June 30, 2024 and December 31, 2023, by level within the fair value hierarchy. Assets measured at fair value are classified in their entirety based on the lowest level of input that is significant to their fair value measurement. <table EQUITY-BASED COMPENSATION On August 1, 2022, we established a Nonqualified Stock Option and Incentive Award Plan (“Incentive Plan”) which provides for the ability to grant equity compensation awards in the form of stock options, stock appreciation rights, restricted stock, and performance awards to eligible employees, consultants, directors, and other individuals who provide services to us, each as determined by the Compensation Committee of the board of directors. As of June 30, 2024, the Incentive Plan provides for the issuance of up to 30.0 million shares. We report equity-based compensation expense within Operating expenses and General and administrative in the Consolidated Statements of Operations. Director compensation During the six months ended June 30, 2024, we issued 11,062 shares of common stock to certain directors as compensation. Subsidiary Stock-Based Compensation The following table presents the expense related to our subsidiary stock-based compensation arrangements recognized in the Consolidated Statements of Operations: style="margin-top:9pt;padding-left:18pt;text-indent:-18pt">11. RETIREMENT BENEFIT PLANS We established a defined benefit pension plan as well as a postretirement benefit plan to assume certain retirement benefit obligations related to eligible Transtar employees. Defined Benefit Pensions Our underfunded pension plan is a tax qualified plan, and we will make contributions accordingly. Our pension plan covers certain eligible Transtar employees and is noncontributory. Pension benefits earned are generally based on years of service and compensation during active employment. Postretirement Benefits Our unfunded postretirement plan provides healthcare and life insurance benefits for eligible retirees and dependents of Transtar. Depending on retirement date and employee classification, certain healthcare plans contain contribution and cost-sharing features such as deductibles and co-insurance. The remaining healthcare and life insurance plans are non-contributory. In the second quarter of 2024, we amended our postretirement benefit plan to change benefits provided to certain employees. The amendment and related remeasurement resulted in a decrease of the liability by $28.2 million with a corresponding adjustment to accumulated other comprehensive loss. The following table summarizes our retirement benefit plan costs (benefits). Service costs are recorded in Operating expenses, while other net costs are recorded in Other income within the Consolidated Statements of Operations. <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:42.321%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.496%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.530%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.496%"></td><td

colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td></tr></table> Taxable income or loss generated by us and our corporate subsidiaries by our corporate subsidiaries is subject to U.S. federal, state and foreign corporate income tax in locations where they conduct business. A valuation allowance has been established against our net U.S. federal and state deferred tax assets, including net operating loss carryforwards. As a result, our income tax provision is primarily related to separate company state taxes, deferred taxes for tax deductible goodwill, and deferred taxes for certain long-lived assets. Our effective tax rate differs from the U.S. federal tax rate of 21% primarily due to state taxes and the valuation allowances against a significant portion of the deferred tax assets of our corporate subsidiaries. As of and for the six months ended June 30, 2024, we had not established a liability for uncertain tax positions as no such positions existed. In general, our tax returns and the tax returns of our corporate subsidiaries are subject to U.S. federal, state, local and foreign income tax examinations by tax authorities. Generally, we are not subject to examination by taxing authorities for tax years prior to 2020. We do not believe that it is reasonably possible that the total amount of unrecognized tax benefits will

significantly change within 12 months of the reporting date of June 30, 2024. The current and deferred components of the income tax provision included in the Consolidated Statements of Operations are as follows: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:42.321%"></td><td MANAGEMENT AGREEMENT AND AFFILIATE TRANSACTIONS We are externally managed by the Manager. The Manager is paid annual fees and incentive fees in exchange for advising us on various aspects of our business, formulating our investment strategies, arranging for the acquisition and disposition of assets, arranging for financing, monitoring performance, and managing our day-to-day operations, inclusive of all costs incidental thereto. In addition, the Manager may be reimbursed for various expenses incurred by the Manager on our behalf, including the costs of legal, accounting and other administrative activities. On July 31, 2022, in connection with the spin-off, we and the Manager entered into the Management Agreement with an initial term of six years. The Manager is entitled to a management fee, incentive fees (comprised of an Income Incentive Fee and a Capital Gains Incentive Fee described below) and reimbursement of certain expenses. The management fee is determined by taking the average value of total equity (including redeemable preferred stock and excluding non-controlling interests) of the Company determined on a consolidated basis in accordance with U.S. GAAP at the end of the two most recently completed months multiplied by an annual rate of 1.50%, and is payable monthly in arrears in cash. The Income Incentive Fee is calculated and distributable quarterly in arrears based on the pre-incentive fee net income for the immediately preceding calendar quarter (the “Income Incentive Fee”). For this purpose, pre-incentive fee net income means, with respect to a calendar quarter, net income attributable to stockholders during such quarter calculated in accordance with U.S. GAAP excluding our pro rata share of (1) realized or unrealized gains and losses, and (2) certain non-cash or one-time items, and (3) any other adjustments as may be approved by the independent directors. Pre-incentive allocation net income does not include any Income Incentive Fee or Capital Gains Incentive Fee (described below) paid to the Manager during the relevant quarter. The Manager is entitled to an Income Incentive Fee with respect to its pre-incentive fee net income in each calendar quarter as follows: (1) no Income Incentive Fee in any calendar quarter in which pre-incentive fee net income, expressed as a rate of return on the average value of the Company’s net equity capital (excluding non-controlling interests) at the end of the two most recently completed calendar quarters, does not exceed 2% for such quarter (8% annualized); (2) 100% of pre-incentive fee net income of the Company with respect to that portion of such pre-incentive fee net income, if any, that equals or exceeds 2% but does not exceed 2.2223% for such quarter; and (3) 10% of pre-incentive fee net income of the Company, if any, that exceeds

2.2223% for portions of such quarter. These calculations will be prorated for any periods of less than three months. The Capital Gains Incentive Fee is calculated and paid in arrears as of the end of each calendar year and is equal to 10% of our pro rata share of cumulative realized gains from the date of the spin-off through the end of the applicable calendar year, net of our pro rata share of cumulative realized or unrealized losses, the cumulative non-cash portion of equity-based compensation expenses and all realized gains upon which prior performance-based Capital Gains Incentive Fee payments were made to the Manager. The management fee, Income Incentive Fee, and Capital Gains Incentive Fee that are attributable to the operations of FTAI Infrastructure is recorded in the Management fees and incentive allocation to affiliate on the Consolidated Statements of Operations. These amounts are allocated on the following basis: Management fee—Management fee is allocated to FTAI Infrastructure by applying the calculation methodology described above to the equity of FTAI Infrastructure included in these consolidated financial statements. Income Incentive Allocation and Capital Gains Incentive Allocation—The Income Incentive Fee and Capital Gains Incentive Fee are allocated to FTAI Infrastructure by applying the allocation calculation methodology described above to FTAI Infrastructure's financial results in each respective period. The following table summarizes the management fees, income incentive allocation and capital gains incentive allocation included in these consolidated financial statements: <table Pursuant to the terms of the Management Agreement, the termination fee is equal to the amount of the management fee during the 12 months immediately preceding such termination and an amount equal to the Income Incentive Fee and the Capital Gains Incentive Fee that would be paid to the Manager if the Company's assets were sold for cash at their then current fair market value (as determined by an appraisal, taking into account, among other things, the expected future value of the underlying investments). Upon the successful completion of an offering of our common stock or other equity securities (including securities issued as consideration in an acquisition), we grant the Manager options to purchase common stock in an amount equal to 10% of the number of common stock being sold in the offering (or if the issuance relates to equity securities other than our common stock, options to purchase a number of common stock equal to 10% of the gross capital raised in the equity issuance divided by the fair market value of our common stock as of the date of issuance), with an exercise price equal to the offering price per share paid by the public or other ultimate purchaser or attributed to such securities in connection with an acquisition (or the fair market value of our common stock as of the date of the equity issuance if it relates to equity securities other than our common stock). Any ultimate purchaser of common stock for which such options are granted may be an affiliate of Fortress. In connection with the spin-off, we issued 10.9 million options to purchase common stock to the Manager, with a term of 10 years as compensation to the Manager for services rendered in connection with the Redeemable Preferred Stock raise, as discussed in Note 15. The following table summarizes amounts due to the Manager, which are included within Accounts payable and accrued liabilities in the Consolidated Balance Sheets: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:61.034%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:17.467%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.530%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:17.469%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">June 30, 2024</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">December 31, 2023</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Accrued management fees</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:bottom">2,776 </td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Arial',sans-serif;font-size:8pt;font-weight:400;line-height:100%">$</td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 0;text-align:right;vertical-align:bottom">6,400 </td><td style="background-color:#cceeff;border-top:1pt solid #000000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">Other payables</td><td colspan="2" style="background-color:#ffffff;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">1,338 </td><td style="background-color:#ffffff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="2" style="background-color:#ffffff;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">5,595 </td><td style="background-color:#ffffff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom"></td></tr></table> As of June 30, 2024 and December 31, 2023, there were no receivables from the Manager. Other Affiliate Transactions As of June 30, 2024 and December 31, 2023, certain employees of the Manager and their related parties collectively own an approximately 20% interest in Jefferson Terminal which has been accounted for as a component of non-controlling interest in consolidated subsidiaries in the consolidated financial statements. The carrying amount of this non-controlling interest at June 30, 2024 and December 31, 2023 was $(94.0) million and $(78.0) million, respectively. In April 2024, we made a pro-rata distribution of $15.0 million to the non-controlling interest holders of Jefferson Terminal segment. The following table presents the amount of this non-controlling interest share of net loss: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:42.321%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.496%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.530%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.496%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.530%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.496%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.530%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.501%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Three Months Ended June 30,</td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Six Months Ended June 30,</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">2024</td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-

SEGMENT INFORMATION During the first quarter of 2023 we modified our definition of Adjusted EBITDA to exclude the impact of other non-recurring items, such as severance expense. All segment data and related disclosures for earlier periods presented herein have been recast to reflect the new segment reporting structure. Our reportable segments represent strategic business units comprised of investments in different types of infrastructure assets. We have five reportable segments which operate in infrastructure businesses across several market sectors, all in North America. Our reportable segments are (i) Railroad, (ii) Jefferson Terminal, (iii) Repauno, (iv) Power and Gas and (v) Sustainability and Energy Transition. The Railroad segment is comprised of six freight railroads and one switching company that provide rail service to certain manufacturing and production facilities, in addition to KRS, a railcar cleaning operation. The Jefferson Terminal segment consists of a multi-modal crude oil and refined products terminal, Jefferson Terminal South and other related assets. The Repauno segment consists of a 1,630-acre deep-water port located along the Delaware River with an underground storage cavern, a multipurpose dock, a rail-to-ship transloading system and multiple industrial development opportunities. The Power and Gas segment is comprised of an equity method investment in Long Ridge, which is a 1,660-acre multi-modal terminal located along the Ohio River with rail, dock, and multiple industrial development opportunities, including a power plant in operation. The Sustainability and Energy Transition segment is comprised of Aleon/Gladieux, Clean Planet, and CarbonFree, and all three investments are development stage businesses focused on sustainability and recycling. Corporate and Other primarily consists of unallocated corporate general and administrative expenses, management fees, debt and redeemable preferred stock. Additionally, Corporate and Other includes an investment in an unconsolidated entity engaged in the acquisition and leasing of shipping containers and an operating company that provides roadside assistance services for the intermodal and over-the-road trucking industries. The accounting policies of the segments are the same as those described in the summary of significant accounting policies. The chief operating decision maker ("CODM") evaluates investment performance for each reportable segment primarily based on Adjusted EBITDA. Adjusted EBITDA is defined as net income (loss) attributable to stockholders, adjusted (a) to exclude the impact of provision for (benefit from) income taxes, equity-based compensation expense, acquisition and transaction expenses, losses on the modification or extinguishment of debt and capital lease obligations, changes in fair value of non-hedge derivative instruments, asset impairment charges, incentive allocations, depreciation and amortization expense, interest expense, interest and other costs on pension and OPEB liabilities, dividends and accretion of redeemable preferred stock, and other non-recurring items, (b) to include the impact of our pro-rata share of Adjusted EBITDA from unconsolidated entities, and (c) to exclude the impact of equity in earnings (losses) of unconsolidated entities and the non-controlling share of Adjusted EBITDA. We believe that net income (loss) attributable to stockholders, as defined by U.S. GAAP, is the most appropriate earnings measure with which to reconcile Adjusted EBITDA. Adjusted EBITDA should not be considered as an alternative to net income (loss) attributable to stockholders as determined in accordance with U.S. GAAP. The following tables set forth certain information for each reportable segment: I. REDEEMABLE PREFERRED STOCK On August 1, 2022, the Company issued and sold 300,000 shares of Redeemable Preferred Stock at a price of $1,000 per share and $0.01 par value. The shares were issued at a 3% discount for net proceeds of $291.0 million. The Company also issued two classes of warrants to the preferred stockholders. The fair value of the Redeemable Preferred Stock and the warrants at issuance were determined to be $242.7 million and $13.8 million, respectively. The Company incurred $16.4 million of issuance costs related to the Redeemable Preferred Stock and warrants. Additionally, the Company issued options to the Manager with a total fair value of $18.1 million (see Note 13). The Redeemable Preferred Stock has the following rights, preferences and restrictions: Voting Each holder of the Redeemable Preferred Stock will have one vote per share on any matter on which holders of the Redeemable Preferred Stock are entitled to vote separately as a class, whether at a meeting or by written consent. The holders of shares of the Redeemable Preferred Stock do not otherwise have any voting rights. Liquidation Preference The Redeemable Preferred Stock ranks senior to the common stock with respect to dividend rights and rights upon the voluntary or involuntary liquidation, dissolution or winding up of the affairs of the Company. Upon a liquidation, dissolution or winding up of the affairs of the Company, each share of Redeemable Preferred Stock will be entitled to receive an amount per share equal to the greater of (i) the purchase price paid by the purchaser, plus all accrued and unpaid dividends (the “Liquidation Preference”) and (ii) the purchase price, plus $150.0 million of cash Dividends (the “Base Preferred Return Amount”). Dividends Dividends on the Redeemable Preferred Stock are payable at a rate equal to 14.0% per annum subject to increase in accordance with the terms of the Redeemable Preferred Stock. Specifically, the rate will be increased by 2.0% per annum for any periods during the first two years following closing of the issuance of the Redeemable Preferred Stock, where the dividend is not paid in cash. Prior to the second anniversary of the issuance date, such dividends will automatically accrue and accumulate on each share of Redeemable Preferred Stock, whether or not declared and paid, or they may be paid in cash at our discretion. After the second anniversary of the issuance date, we are required to pay such dividends in cash. Failure to pay such dividends will result in a dividend rate equal to 18.0% per annum, and a failure to pay cash dividends for 12 monthly dividend periods (whether or not consecutive) following the second anniversary of the issuance date will constitute an event of noncompliance. The dividend rate on the Redeemable Preferred Stock will increase by 1.0% per annum beginning on the fifth anniversary of the issuance date of the Redeemable Preferred Stock. As of June 30, 2024, the Company has $104.5 million of PIK dividends increasing our Redeemable Preferred Stock balance. Dividends recorded in Dividends and accretion of redeemable preferred stock on the Consolidated Statements of Operations totaled $15.9 million and $13.6 million for the three months ended June 30, 2024 and 2023, respectively, and $31.2 million and $26.5 million for the six months ended June 30, 2024 and 2023, respectively. The Company has presented the Redeemable Preferred Stock in temporary equity and is accreting the discount and debt issuance costs using the interest method to the earliest redemption date of August 1, 2030. Such accretion, recorded in Dividends and accretion of redeemable preferred stock on the Consolidated Statements of Operations, totaled $1.7 million and $1.6 million for the three months ended June 30, 2024 and 2023, respectively, and $3.4 million and $3.2 million for the six months ended June 30, 2024 and 2023, respectively. Redemption Mandatory Redemption: The Redeemable Preferred Stock is not mandatorily redeemable at the option of the holders, except upon the occurrence of any (i) bankruptcy event, (ii) any change of control event, or (iii) any debt acceleration event (together with any bankruptcy event and change of control event) (each a “Mandatory Redemption Event”). Upon the occurrence of a Mandatory Redemption Event, to the extent not prohibited by law, we will be required to redeem all preferred stock in cash at the greater of the (i) Liquidation Preference, and (ii) the Base Preferred Return Amount at the date of redemption. Optional Redemption: The Redeemable Preferred Stock is optionally redeemable at the option of the Company, at any time, at the greater of the (i) Liquidation Preference, and (ii) the Base Preferred Return Amount at the date of redemption. Upon certain contingent events or events of noncompliance, the preferred stockholders have the right to a majority of the board seats of the Company. If the Redeemable Preferred Stock were redeemed as of June 30, 2024, it would be redeemable for $446.5 million. Amendment to Certificate of Designations of Our Series A Preferred Stock On July 5, 2023, a Certificate of Amendment (the “Amendment”) to the Certificate of Designations for its Series A Preferred Stock (the “Certificate of Designations”) became effective, amending certain provisions of the Certificate of Designations to increase the aggregate principal amount of outstanding indebtedness that the Company and its subsidiaries may incur in order to facilitate the issuance of the additional $100.0 million of Senior Notes due 2027 (the “Additional Notes”). The holders of our Series A Preferred Stock received a customary fee for their consent and purchased $33.4 million aggregate principal amount of the Additional Notes.

EARNINGS PER SHARE AND EQUITY Basic loss per share of common stock (“LPS”) is calculated by dividing net loss attributable to stockholders by the weighted average number of common stock outstanding, plus any participating securities. Diluted LPS is calculated by dividing net loss attributable to stockholders by the weighted average number of common stock outstanding, plus any participating securities and potentially dilutive securities. Potentially dilutive securities are calculated using the treasury stock method. The calculation of basic and diluted LPS is presented below: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:45.098%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.911%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.911%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td

COMMITMENTS AND CONTINGENCIES In the normal course of business we, and our subsidiaries, may be involved in various claims, legal proceedings, or may enter into contracts that contain a variety of representations and warranties and which provide general indemnifications. We have entered into an arrangement with our non-controlling interest holder of Repauno, as part of the initial acquisition, whereby the non-controlling interest holder may receive additional payments contingent upon the achievement of certain conditions, not to exceed $15.0 million. We will account for such amounts when and if such conditions are achieved. The contingency related to $5.0 million of the total $15.0 million was resolved during the year ended December 31, 2021, and the contingency related to an additional $5.0 million of the total $15.0 million was resolved during year ended December 31, 2022. 15000000.0500000015000000500000015000000 18.
