Risk Management and Strategy

In the ordinary course of our business, we collect and store sensitive data, including IP, proprietary business information of ours and that of our suppliers and licensees, and personally identifiable information of persons who use our medicines, clinical trial participants and employees. Our licensees and third-party providers also possess certain of our sensitive data. The secure maintenance of such information and the secure performance of our information technology ("IT") systems are critical to our operations and business strategy. As our dependency on, and the complexity of, our IT systems increases, the confidentiality, integrity and availability of our IT systems and the data that they store is critical to managing our business.

Our Information Security Management System ("ISMS") is a key element of our information security program, designed to identify, assess, help mitigate, and monitor IT risks across our organization, including information security risks. The ISMS is informed by the structured principles of International Standard-ISO/IEC27001:2022 (Information security, cybersecurity, and privacy protection), which outlines guidance for the establishment, implementation, maintenance, and improvement of information security management systems. Our ISMS is comprised of processes designed to identify cybersecurity risks, safeguard information assets and preserve the confidentiality, integrity, and availability of information owned, managed and maintained by us. Our ISMS includes formal written policies and procedures, technical security controls, such as automated tools designed to detect and prevent cybersecurity incidents, and programs designed to promote internal and third-party IT risk management, audit management, incident response and security awareness, including employee awareness trainings and other initiatives. Our ISMS includes periodic security audits, vulnerability assessments and penetration testing to proactively identify potential system vulnerabilities.

Our ISMS is periodically assessed by third-party assessors and the results of such assessments, including any cybersecurity risks and related mitigations identified, are reported to the audit and risk committee of our board of directors, as described below, and are used by us to improve our ISMS and our broader information security program.

As part of our information security program, we also have processes in place for management of cybersecurity risks associated with third-party handling of our confidential information, including in such third parties' provision of critical services on our behalf. We conduct due diligence of our third-party vendors through an assessment of their security practices and overall risk profile, including

through their completion of vendor assessment questionnaires and ongoing monitoring of such third parties, utilizing tools such as security ratings services and periodic reassessment questionnaires.

As of the date of this Annual Report, we have not experienced any information security incidents that have materially affected, or are reasonably likely to materially affect, our business strategy, results of operations, or financial condition, and we have not identified any current cybersecurity threats that we believe are reasonably likely to materially affect our business strategy, results of operations, or financial condition.

Governance and Oversight

We have a multi-layered information security governance framework in place to provide oversight of our information security program and strategy, our ISMS, and related risks and opportunities.

This governance framework includes procedures for escalation of identified information security risks, threats or incidents through various management levels, including up to our Information Security Governing Body, which is comprised of our Chief Executive Officer, Chief Information Officer, Chief Operating Officer, Chief Financial Officer, Chief Legal Officer and other members of management, and as appropriate, up to our board of directors.

Our information security team is responsible for developing, implementing and overseeing our Company-wide information security strategy and related policies and practices. This team works cross-functionally throughout our organization to assess and prepare the Company for identification and mitigation of, and if necessary respond to, information security risks.

The information security team is led by our Chief Information Officer, who has over 35 years of experience in various information technology roles, including

18 years at the Company serving in roles with increasing levels of responsibility. Our Vice President of Information Security and Technology, a Certified Information Systems Security Professional, with over 20 years of global experience in various information security roles, including 14 years of experience at the Company, is responsible for day-to-day management of information security team initiatives. The other members of the information security team have extensive IT, IT security and cloud industry experience, as well as certifications pertaining to information security and privacy (such as Certified Information Security Manager, Certified Information Privacy Technologist, GIAC Security Essentials and GIAC Information Security Professional certifications).

Our board of directors, as a whole and through its committees, has responsibility for the oversight of risk management. The audit and risk committee of our board of directors specifically oversees critical risks and opportunities facing the Company and, in this context, reviews and provides feedback on our company-wide enterprise risk management program, which encompasses risks related to IT and cybersecurity and mitigations put in place, or to be put in place, in response to such risks and opportunities.

The audit and risk committee periodically reports to the full board of directors regarding its oversight of the Company's enterprise risk management program and periodic risk assessment results. In addition, our board of directors receives periodic updates from our CIO and Vice President of Information Security on our ISMS and other information security initiatives, and on our information security governance framework.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of Alkermes plc and its subsidiaries (the "Company") as of December 31, 2024 and 2023, and the related consolidated statements of operations and comprehensive income (loss), of shareholders' equity and of cash flows for each of the three years in the period ended December 31, 2024, including the related notes (collectively referred to as the "consolidated financial statements"). We also have audited the Company's internal control over financial reporting as of December 31, 2024, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2024 and 2023, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2024 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2024, based on criteria established in Internal Control - Integrated Framework (2013) issued by the COSO.

~~style="font-size:10pt;margin-top:12pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION</p><p style="text-indent:3.33%;font-size:10pt;margin-top:10pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Alkermes plc is a global biopharmaceutical company that seeks to develop innovative medicines in the field of neuroscience. Alkermes has a portfolio of proprietary commercial products for the treatment of alcohol dependence and opioid dependence, schizophrenia and bipolar I disorder and a pipeline of clinical and preclinical candidates in development for neurological disorders, including narcolepsy and idiopathic hypersomnia. Headquartered in Ireland, Alkermes also has a corporate office and research and development ("R&D") center in Massachusetts and a manufacturing facility in Ohio.</p><p style="text-indent:4.53%;font-size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">In May 2024, the Company completed the sale of its development and manufacturing facility in Athlone, Ireland (the "Athlone Facility") and related business to Novo Nordisk ("Novo") pursuant to an asset purchase agreement entered into in December 2023. The Company and Novo also entered into subcontracting arrangements to continue certain development and manufacturing activities performed at the Athlone Facility for a period of time after the closing of the transaction, which activities may continue through the end of 2025. In connection with the sale of the Athlone Facility, the Company received \$97.9 million from Novo, which included a payment of approximately \$91.0 million for the facility and certain related assets, and recorded a gain of approximately \$1.5<span style="color:#000000;white-space:pre-wrap;font-~~

size:10pt;font-family:Times New Roman;font-kerning:none;min-width:fit-content;">million within "Other income (expense), net" in the accompanying consolidated statements of operations and comprehensive income (loss) for the year ended December 31, 2024. As of December 31, 2023, the Company classified the assets described under the asset purchase agreement for the sale as "Assets held for sale" in the accompanying consolidated balance sheet.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">In November 2023, the Company completed the separation of its former oncology business into Mural Oncology plc ("Mural"), a new, independent, publicly-traded company (the "Separation"). The Separation was effected by means of a distribution of all of the outstanding ordinary shares of Mural to the Company's shareholders (the "Distribution"), in which each of the Company's shareholders received one ordinary share, nominal value \$0.01 per share, of Mural for every ten ordinary shares, par value \$0.01 per share, of the Company (the "Distribution Ratio") held by such shareholder as of the close of business on November 6, 2023, the record date for the Distribution (the "Record Date"). The historical results of the oncology business have been reflected as discontinued operations in the Company's consolidated financial statements through November 15, 2023 (the "Separation Date"). For additional information related to the Separation, see Note 3, Discontinued Operations in these "Notes to Consolidated Financial Statements" in this Annual Report. </p>97900000910000001500000Company's shareholders received one ordinary share, nominal value \$0.01 per share, of Mural for every ten ordinary shares, par value \$0.01 per share, of the Company0.01100.01<p style="font-size:10pt;margin-top:12pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</p><div style="font-size:10pt;font-family:Times New Roman;"><p style="margin-left:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;"><span

Principles of Consolidation

The consolidated financial statements include the accounts of Alkermes plc and its wholly-owned subsidiaries. Intercompany accounts and transactions have been eliminated. Columns and rows within tables may not sum due to rounding.

Reclassification

The Company has presented its former oncology business as discontinued operations in its consolidated financial statements as of December 31, 2023 and for the years ended December 31, 2023 and 2022. See Note 3, ***Discontinued Operations*** in these “Notes to Consolidated Financial Statements” in this Annual Report for additional information.

Discontinued Operations

The Company determined that the Separation met the criteria for classification of the former oncology business as discontinued operations in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 205, ***Discontinued Operations***. Accordingly, the accompanying consolidated financial statements have been updated to present the results of the oncology business as discontinued operations through the Separation Date for the years ended December 31, 2023 and 2022 in the consolidated statements of operations and comprehensive income (loss).

Assets Held for Sale

In connection with the sale of the Athlone Facility, the Company reviewed FASB ASC 805, ***Business***

Combinations and, based on the definitions therein, determined that the Athlone Facility constituted a business. Accordingly, the assets associated with the sale of the Athlone Facility were classified as "Assets held for sale" in the accompanying consolidated balance sheet as of December 31, 2023.

Use of Estimates

The preparation of the Company's consolidated financial statements in accordance with accounting principles generally accepted in the United States ("GAAP") requires that Company management make estimates, judgments and assumptions that may affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, judgments and methodologies, including but not limited to, those related to revenue from contracts with its customers and related allowances, impairment of intangibles and long-lived assets, share-based compensation, income taxes including the valuation allowance for deferred tax assets, valuation of investments and litigation. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions.

Cash and Cash Equivalents

The Company values its cash and cash equivalents at cost plus accrued interest, which the Company believes approximates its market value. The Company considers as cash equivalents only those investments that are highly liquid, readily convertible into cash and so near their maturity (three months from the date of purchase) that they present insignificant risk of change in value because of interest rate changes.

Investments

The Company has investments in various types of securities, consisting primarily of United States ("U.S.") government and agency obligations and corporate debt securities. The Company generally holds its interest-bearing investments with major financial institutions and in accordance with documented investment policies. The Company limits the amount of credit exposure to any one financial institution or corporate

issuer. At December 31, 2024, substantially all these investments were classified as available-for-sale and were recorded at fair value.

Unrealized gains and losses are included in accumulated other comprehensive loss in equity, net of related tax, unless: (i) the security has experienced a credit loss; (ii) the Company has determined that it has the intent to sell the security; or (iii) the Company has determined that it is more likely than not that it will have to sell the security before its expected recovery. Periodic reviews are conducted to identify and evaluate each investment that has an unrealized loss in accordance with the meaning of other-than-temporary impairment. An unrealized loss exists when the current fair value of an individual security is less than its amortized cost basis.

For available-for-sale debt securities with unrealized losses, the Company performs an analysis to assess whether it intends to sell, or whether it would more likely than not be required to sell, the security before the expected recovery of the amortized cost basis. Where the Company intends to sell a security, or may be required to do so, the security's decline in fair value is deemed to be other-than-temporary and the full amount of the unrealized loss is reflected in earnings as an impairment loss.

Regardless of the Company's intent to sell a security, the Company performs additional analysis on all securities with unrealized losses to evaluate losses associated with the creditworthiness of the security. Credit losses are identified where the Company does not expect to receive cash flows sufficient to recover the amortized cost basis of a security.

The Company's held-to-maturity investments are restricted investments held as collateral under letters of credit related to certain of the Company's agreements and are included in "Investments—long-term," in the accompanying consolidated balance sheets.

Fair Value of Financial Instruments

The Company's financial assets and liabilities are recorded at fair value and are classified as Level 1, 2 or 3 within the fair value hierarchy, as described in the accounting standards for fair value measurement. At December 31, 2024, the Company's financial assets consisted of cash equivalents and investments and are classified within the fair value hierarchy as follows:

-

Level 1—these valuations are based on a market approach using quoted prices in active markets for identical assets. Valuations of these products do not require a significant degree of judgment. Assets utilizing Level 1 inputs at December 31, 2024 included U.S. treasury securities, marketable securities classified as cash equivalents and a fixed term deposit account; and

•

Level 2—these valuations are based on quoted prices for identical or similar assets in active markets or other market observable inputs such as interest rates, yield curves, foreign currency spot rates and option pricing valuation models. Assets utilizing Level 2 inputs at December 31, 2024 included U.S. government agency debt securities and investments in corporate debt securities that are trading in the credit markets.

The carrying amounts reflected in the consolidated balance sheets for cash and cash equivalents, accounts receivable, contract assets, other current assets, accounts payable and accrued expenses and accrued sales discounts, allowances and reserves approximate fair value due to their short-term nature.

Inventory

Inventory is stated at the lower of cost and net realizable value. The Company utilizes a standard cost basis, which approximates cost determined using the first-in first-out method. Cost is determined using the first-in, first-out method. Included in inventory are raw materials used in production of preclinical and clinical products, which have alternative future use and are charged to R&D expense when consumed. The cost elements included within inventory include three primary categories for commercial products: cost of raw materials; direct labor; and overhead. Overhead is based on the normal capacity of the Company's production facility and does not include costs from abnormally low production or idle capacity, which are expensed directly to the consolidated statement of operations and comprehensive income (loss).

The Company capitalizes inventory costs associated with its products prior to regulatory approval when, based on management's judgment, future commercialization of the product is considered probable and future economic benefit from such product is expected to be realized. The Company assesses the regulatory approval process and where the particular product stands in relation to that approval process, including any known safety,

efficacy or quality concerns, potential labeling restrictions and other potential impediments to approval. The Company also considers the shelf life of the product in relation to the expected timeline for approval and considers issues that may prevent or delay commercialization, including issues that may arise in relation to the manufacturing of the product. The Company expenses previously capitalized costs related to pre-approval inventory upon a change in such judgment, due to, among other potential factors, a denial or significant delay of approval by relevant regulatory agencies or other issues that may make the pre-approval inventory batches less likely or unlikely to be commercialized and to result in future economic benefit.

Property, Plant and Equipment

Property, plant and equipment are recorded at cost, subject to review for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. Expenditures for repairs and maintenance are charged to expense as incurred and major renewals and improvements are capitalized. Depreciation is calculated using the straight-line method over the following estimated useful lives of the assets:

Asset group	Term	Buildings and improvements

25	years
Furniture, fixtures and equipment	Leasehold improvements
5	7
-	-
Shorter of useful life or lease term	Goodwill and Intangible Assets

Goodwill and Intangible Assets

Goodwill represents the excess cost of the Company's investment in the net assets of acquired companies over the fair value of the underlying identifiable net assets at the date of acquisition. The Company's goodwill consists solely of goodwill created as a result of the Company's acquisition of Elan Drug Technologies ("EDT") from Elan Corporation, plc (such acquisition, the "Business Combination") in September 2011 and has been assigned to one reporting unit. A reporting unit is an operating segment or one level below an operating segment or a component to which goodwill is assigned when initially recorded.

Goodwill represents the excess cost of the Company's investment in the net assets of acquired companies over the fair value of the underlying identifiable net assets at the date of acquisition. The Company's goodwill consists solely of goodwill created as a result of the Company's acquisition of Elan Drug Technologies ("EDT") from Elan Corporation, plc (such acquisition, the "Business Combination") in September 2011 and has been assigned to one reporting unit. A reporting unit is an operating segment or one level below an operating segment or a component to which goodwill is assigned when initially recorded.

size:10pt;font-family:Times New Roman;font-kerning:none;min-width:fit-content;">Goodwill is not amortized but is reviewed for impairment on an annual basis, as of October 31, and whenever events or changes in circumstances indicate that the carrying value of the goodwill might not be recoverable. The Company has the option to first assess qualitative factors to determine whether it is necessary to perform the quantitative impairment test. If the Company elects this option and believes, as a result of the qualitative assessment, that it is more-likely-than-not that the fair value of its reporting unit is less than its carrying amount, the quantitative impairment test is required; otherwise, no further testing is required. Alternatively, the Company may elect to not first assess qualitative factors and immediately perform the quantitative impairment test. In the quantitative impairment test, the Company compares the fair value of its reporting unit to its carrying value. If the carrying value of the net assets assigned to the reporting unit exceeds the fair value of the reporting unit, then the Company would record an impairment loss equal to the difference.

style="text-indent:4.533%;font-size:10pt;margin-top:10pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">When some, but not all, of a reporting unit is to be disposed of, the accounting for that reporting unit's goodwill will depend on whether the disposal group constitutes a business. If the disposal group constitutes a business, the Company attributes a portion of the reporting unit's goodwill to the disposal group based on the relative fair values of: (i) the disposal group; and (ii) the portion of the reporting unit that will be retained.

style="text-indent:4.533%;font-size:10pt;margin-top:10pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The Company's finite-lived intangible assets, consisting of core developed technology and collaboration agreements acquired as part of the Business Combination, were recorded at fair value at the time of their acquisition and are stated within the Company's consolidated balance sheets net of accumulated amortization. The finite-lived intangible assets are amortized over their estimated useful lives using the economic use method, which reflects the pattern that the economic benefits of the intangible assets are consumed as revenue is generated from the underlying patent or contract. The useful lives of the Company's intangible assets are primarily based on the legal or contractual life of the underlying patent or contract, which does not include additional years for the potential extension or renewal of the contract or patent.

style="font-size:10pt;font-family:Times New Roman;"><p style="margin-left:4.533%;font-size:10pt;margin-top:12pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Impairment of Long-Lived Assets

style="text-indent:4.533%;font-size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The Company reviews long-lived assets to be held and used for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. Conditions that would necessitate an impairment assessment include a significant decline in the observable market value of an asset; a significant change in the extent or manner in which an asset is used; a significant adverse change in legal factors or in the business climate that could affect the value of a long-lived asset; an accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of a long-lived asset; a current-period operating or cash flow loss combined with a history of operating or cash-flow losses or a projection or forecast that demonstrates continuing losses associated with the use of a long-lived asset; or a current expectation that, more likely than not, a long-lived asset will be sold or otherwise disposed of significantly before the end of its

previously estimated useful life. Determination of recoverability is based on an estimate of undiscounted future cash flows resulting from the use of the asset and its eventual disposition. In the event that such cash flows are not expected to be sufficient to recover the carrying amount of the assets, the assets are written down to their estimated fair values. Long-lived assets to be disposed of are carried at fair value less costs to sell them.

Revenue from Contracts with Customers

The Company recognizes revenue when its customer obtains control of promised goods or services, in an amount that reflects the consideration which it expects to receive in exchange for those goods or services. The Company recognizes revenue following the five-step model prescribed in accordance with FASB ASC 606, **Revenue from Contracts with Customers** (“Topic 606”): (i) identify contract(s) with a customer; (ii) identify the performance obligations in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the performance obligations in the contract; and (v) recognize revenue when (or as) the Company satisfies the performance obligations.

Product Sales, Net

The Company’s product sales, net consist of sales in the U.S. of VIVITROL®, ARISTADA®, ARISTADA INITIO®, and LYBALVI®, primarily to wholesalers, specialty distributors and pharmacies. Product sales, net are recognized when the customer obtains control of the product, which is when the product has been received by the customer.

Revenues from product sales are recorded net of reserves established for applicable discounts and allowances that are offered within contracts with the Company's customers, healthcare providers or payers. The Company's process for estimating reserves established for these variable consideration components does not differ materially from historical practices. The transaction price, which includes variable consideration reflecting the impact of discounts and allowances, may be subject to constraint and is included in the net sales price only to the extent that it is probable that a significant reversal of the amount of the cumulative revenues recognized will not occur in a future period. Actual amounts may ultimately differ from the Company's estimates. If actual results vary, the Company adjusts these estimates, which could have an effect on earnings in the period of adjustment. The following are the Company's significant categories of sales discounts and allowances:

• *Medicaid Rebates*—the Company records accruals for rebates to U.S. states under the Medicaid Drug Rebate Program as a reduction of sales when the product is shipped into the distribution channel using the expected value method. The Company rebates individual U.S. states for all eligible units purchased under the Medicaid program based on a rebate per unit calculation, which is based on the Company's average manufacturer prices. The Company estimates expected unit sales to individuals covered by Medicaid and rebates per unit under the Medicaid program and adjusts its rebate accrual based on actual unit sales and rebates per unit and changes in trends in Medicaid utilization. In 2024, actual Medicaid utilization rates related to VIVITROL were lower than original estimates, due, in part, to \$8.7 million in actual credits received from certain states in the fourth quarter of 2024 related to duplicate Medicaid billings. Medicaid rebates for the Company's other products have not differed materially from the Company's estimates;

• *Chargebacks*—discounts that occur when contracted indirect customers purchase directly from wholesalers and specialty distributors. Contracted customers generally purchase a product at its contracted price. The wholesaler or specialty distributor, in turn, then generally charges back to the Company the difference between the wholesale acquisition cost and the contracted price paid to the wholesaler or specialty distributor by the customer. The allowance for chargebacks is made using the expected value method and is based on actual and expected utilization of these programs. Chargebacks could exceed historical experience and the Company's estimates of future participation in these programs. To date, actual

chargebacks have not differed materially from the Company's estimates;

• *Product Discounts*—cash consideration, including sales incentives, given by the Company under agreements with a number of wholesaler, distributor, pharmacy, and treatment provider customers that provide them with a discount on the purchase price of products. The reserve is made using the expected value method and to date, actual product discounts have not differed materially from the Company's estimates;

• *Product Returns*—the Company records an estimate for product returns at the time its customers take control of their product. The Company estimates this liability using the expected returns of product sold based on historical return levels and specifically identified anticipated returns due to known business conditions and product expiry dates. Return amounts are recorded as a reduction of sales. Once product is returned, it is destroyed. To date, actual product returns have not differed materially from the Company's estimates; and

• *Medicare Part D*—the Company records accruals for Medicare Part D liabilities under the Medicare Coverage Gap Discount Program ("CGDP") as a reduction of sales. Under the CGDP, patients reaching the annual coverage gap threshold are eligible for reimbursement coverage for out-of-pocket costs for covered prescription drugs. Under an agreement with the Centers for Medicare and Medicaid Services, manufacturers are responsible to reimburse prescription plan sponsors for the portion of out-of-pocket expenses not covered under their Medicare plans. To date, actual Medicare Part D rebates have not differed materially from the Company's estimates.

content;">The Company recognizes manufacturing revenues from the sale of products
it manufactures for resale by its licensees. Substantially all of the manufacturing
revenues are recognized at a point in time when control of the product passes to the
licensee. The sales price for certain of the Company's manufacturing revenues is based
on the end-market sales price earned by its licensees. As end-market sales generally
occur after the Company has recorded manufacturing revenue, the Company estimates
the sales price for such products based on information supplied to it by the Company's
licensees, its historical transaction experience and other third-party data. Differences
between actual manufacturing revenues and estimated manufacturing revenues are
reconciled and adjusted for in the period in which they become known, which is
generally within the same quarter. The differences between the Company's actual and
estimated manufacturing revenues have not been material to date.</p><p

bottom:0;text-align:left;">The Company recognizes royalty revenues related to the sale by its licensees of products that incorporate the Company's technologies. All of the Company's royalties qualify for the sales-and-usage exemption under Topic 606 as (i) such royalties are based strictly on the sales-and-usage by the licensee; and (ii) a license of IP is the sole or predominant item to which such royalties relate. Based on this exemption, these royalties are earned in the period that the products are sold by the Company's licensee and the Company has a present right to payment. </p><p style="text-indent:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Certain of the Company's royalty revenues are recognized by the Company based on information supplied to the Company by its licensees and require estimates to be made. Differences between actual royalty revenues and estimated royalty revenues are reconciled and adjusted for in the period in which they become known, which is generally within the same quarter. The differences between the Company's actual and estimated royalty revenues have not been material to date.</p></div><div style="font-size:10pt;font-family:Times New Roman;"><p style="margin-left:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Receivables, net</p><p style="text-indent:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Receivables, net, include amounts billed and amounts unbilled but currently unconditionally due from customers. The amounts due are stated at their net estimated realizable value. The Company's unbilled receivable balance was \$69.5 million and \$103.1 million at December 31, 2024 and 2023, respectively, and related primarily to royalty revenue. The Company maintains an allowance for doubtful accounts to provide for the estimated amounts of receivables that will not be collected. The allowance is based upon an assessment of customer creditworthiness, historical payment experience, the age of outstanding receivables and collateral to the extent applicable. The Company's allowance for doubtful accounts was approximately \$0.3 million and \$0.2 million at December 31, 2024 and 2023, respectively.</p></div><div><p style="margin-left:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Contract Assets</p><p style="text-indent:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New

Contract assets include unbilled amounts that will result in a sale under certain of the Company's manufacturing contracts. The amounts included in the contract assets table below are classified as "Current assets" in the accompanying consolidated balance sheets, as they relate to manufacturing processes that are completed in

ten days

to

eight weeks

.

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of the transaction. The resulting monetary assets and liabilities are translated into U.S. dollars at exchange rates prevailing on the subsequent balance sheet date. Gains and losses as a result of translation adjustments are recorded within "Other income (expense), net" in the accompanying consolidated statements of operations and

comprehensive income (loss). During the years ended December 31, 2024, 2023 and 2022, the Company recorded losses of \$0.8 million and \$0.5 million and a gain of \$0.7 million, respectively, on foreign currency translation.

Concentrations

Financial instruments that potentially subject the Company to concentrations of credit risk are receivables and marketable securities. Billings to large pharmaceutical companies and pharmaceutical wholesalers account for the majority of the Company's receivables, and collateral is not required from these customers. To mitigate credit risk, the Company monitors the financial performance and credit-worthiness of its customers.

The following represents revenue and receivables from the Company's customers exceeding 10% of the total in each category as of, and for the years ended, December 31, 2024, 2023 and 2022:

	2024	2023	2022
Pharmaceutical companies	30.914%	1.66%	9.578%
Pharmaceutical wholesalers	1.66%	9.578%	1.66%
Other customers	9.578%	1.66%	9.578%
Marketable securities	1.66%	9.578%	1.66%

Research and Development Expenses

For each of its R&D programs, the Company incurs both external and internal expenses. External R&D expenses include fees related to clinical and preclinical activities performed by contract research organizations, consulting fees and costs related to laboratory services, purchases of drug product materials and third-party manufacturing development costs. Internal R&D expenses include employee-related expenses, occupancy costs, depreciation and general overhead. The Company tracks external R&D expenses for each of its development programs, however, internal R&D expenses are not tracked by individual program as they benefit multiple development programs or the Company's products or technologies in general.

Selling, General and Administrative Expenses

Selling, general and administrative ("SG&A") expenses are primarily comprised of employee-related expenses associated with selling and marketing, finance, human resources, legal, information technology and other administrative personnel, outside marketing, advertising, financial and legal expenses and other general and administrative costs.

Advertising costs are expensed as incurred. During the years ended December 31, 2024, 2023 and 2022, advertising costs totaled \$

107.6	million, \$	127.6	million and \$	41.4	million, respectively.

Share-Based Compensation

size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The Company's share-based compensation programs permit grants of awards in the form of stock options and restricted stock unit awards ("RSUs"), which vest with the passage of time and/or based on the achievement of certain performance criteria. The Company issues new shares upon the exercise of stock options or the vesting of RSUs. Under the terms of the Company's stock option and incentive plans (the "Plans"), the Company's employees may, at the discretion of the plan administrator, become eligible in certain circumstances set forth in the Plans for accelerated vesting of certain awards granted to them under the Plans. In such circumstances, if there are no effective future service requirements for such employees, the remaining fair value of any such accelerated awards would be expensed as of the date of acceleration.</p><p style="margin-left:4.533%;font-size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Time-Based Stock Options</p><p style="text-indent:4.533%;font-size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Except as otherwise provided in the applicable Plan or award certificate, stock option grants to employees expire ten years from the date of grant and generally vest in four equal annual installments, commencing on the first anniversary of the date of grant, provided the employee remains continuously employed or in a service relationship with the Company during the applicable vesting period. Except as otherwise provided in the applicable Plan or Award Certificate (as defined in the 2018 Plan): (i) annual stock option grants to non-employee directors expire ten years from the date of grant and generally vest over a one-year period; and (ii) stock option grants to new non-employee directors expire ten years from the date of grant and generally vest over a three-year period. The estimated fair value of options is recognized over the requisite service period, which is generally the vesting period. Share-based compensation expense is based on awards ultimately expected to

vest. Forfeitures are estimated based on historical experience at the time of grant and revised in subsequent periods if actual forfeitures differ from those estimates.

The fair value of stock option grants is based on estimates as of the date of grant using a Black-Scholes option valuation model. The Company uses historical data as the basis for estimating stock option terms and forfeitures. Separate groups of employees that have similar historical stock option exercise and forfeiture behavior are considered separately for valuation purposes. The ranges of expected terms disclosed below reflect different expected behavior among certain groups of employees. Expected stock volatility factors are based on a weighted average of implied volatilities from traded options of the Company's ordinary shares and historical share price volatility of the Company's ordinary shares, which is determined based on a review of the weighted average of historical weekly price changes of the Company's ordinary shares. The risk-free interest rate for periods commensurate with the expected term of the stock option is based on the U.S. treasury yield curve in effect at the time of grant. The dividend yield on the Company's ordinary shares is estimated to be zero as the Company has not paid dividends and does not expect to pay dividends in the near future. The exercise price of options granted is equal to the closing price of the Company's ordinary shares traded on the Nasdaq Global Select Market on the date of grant.

The fair value of each stock option granted was estimated on the grant date with the following weighted-average assumptions:

Expected term	Expected stock price	Expected volatility	Expected dividend yield	Expected risk-free interest rate
3.5 years	\$12.76	12.76%	0.00%	1.40%

Year Ended December 31,

Shares subject to these RSUs are delivered to the employee upon vesting, subject to payment of applicable withholding taxes. The fair value of time-based RSUs is equal to the closing price of the Company's ordinary shares traded on the Nasdaq Global Select Market on the date of grant. Compensation expense, including the effect of forfeitures, is recognized over the applicable service period.</p></div><div style="font-size:10pt;font-family:Times New Roman;"><p style="margin-left:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Performance-Based Restricted Stock Unit Awards</p><p style="text-indent:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Performance-based RSUs awarded to employees vest upon the achievement of certain performance criteria, typically during or following the end of a specified performance period. The estimated fair value of these performance-based RSUs are generally based on the closing price of the Company's ordinary shares traded on the Nasdaq Global Select Market on the date of grant, unless the performance-based RSU is also subject to a market condition. In that case, the fair value of the performance-

based RSU is based on a Monte Carlo simulation model. Compensation expense for performance-based RSUs is recognized from the date the Company determines the performance criteria probable of being achieved to the date the award, or relevant portion of the award, is expected to vest. Cumulative adjustments are recorded on a quarterly basis to reflect subsequent changes to the estimated outcome of the performance criteria until the date that the final outcome of the performance criteria is determined.

Income Taxes

The Company recognizes income taxes under the asset and liability method. Deferred income taxes are recognized for differences between the financial reporting and tax bases of assets and liabilities at enacted statutory tax rates in effect for the years in which the differences are expected to reverse. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date. In evaluating the Company's ability to recover its deferred tax assets, the Company considers all available positive and negative evidence including its past operating results, the existence of cumulative income in the most recent fiscal years, changes in the business in which the Company operates and its forecast of future taxable income. In determining future taxable income, the Company is responsible for assumptions utilized including the amount of Irish and non-Irish pre-tax operating income, the reversal of temporary differences and the implementation of feasible and prudent tax planning strategies. These assumptions require significant judgment about the forecasts of future taxable income and are consistent with the plans and estimates that the Company is using to manage the underlying business.

The Company accounts for uncertain tax positions using a more-likely-than-not threshold for recognizing and resolving uncertain tax positions. The evaluation of uncertain tax positions is based on factors including, but not limited to, changes in tax law, the measurement of tax positions taken or expected to be taken in tax returns, the effective settlement of matters subject to audit, new audit activity and changes in facts or circumstances related to a tax position. The Company evaluates its tax position on a quarterly basis. The Company also accrues for potential interest and penalties related to unrecognized tax benefits in income tax expense.

Comprehensive Income (Loss)

Comprehensive income (loss) consists of net income (loss) and other comprehensive income (loss). Other comprehensive income (loss) includes changes in equity that are excluded from net income (loss), such as unrealized holding gains and losses on available-for-sale investments.

Earnings (Loss) Per Share

Basic earnings (loss) per ordinary share from continuing operations is calculated based upon net income (loss) from continuing operations available to holders of ordinary shares divided by the weighted average number of ordinary shares outstanding. Basic loss per ordinary share from discontinued operations is calculated based upon net loss from discontinued operations available to holders of ordinary shares, divided by the weighted average number of ordinary shares outstanding. For the calculation of diluted earnings (loss) per ordinary share from continuing operations and discontinuing operations, the Company utilizes the treasury stock method and adjusts the weighted average number of ordinary shares outstanding for the potential dilutive effect of outstanding ordinary share equivalents such as stock options and RSUs.

Segment Information

In November 2023, the FASB issued Accounting Standards Update (“ASU”) 2023-07, Segment Reporting: Improvements to Reportable Segment Disclosure (“Topic 280”) to establish standards for reporting information about operating segments. Operating segments are defined as components of an enterprise engaging in business activities for which separate financial information is available and regularly reviewed by the chief operating decision maker (“CODM”) in deciding how to allocate resources and in assessing performance. The Company has utilized the management approach to determine that the Company is managed as one segment on a consolidated basis and is the business of developing, manufacturing and commercializing medicines designed to address unmet medical needs of patients in major therapeutic areas. The Company’s CODM, the Chairman and Chief Executive Officer, reviews the Company’s operating results on an aggregate basis and manages the Company’s operations as a single operating unit. The CODM measures profitability on a reportable segment basis using net income (loss) and utilizes this information in allocating resources and in assessing performance by monitoring budget versus actual results. Please refer to Note 18,

Segment Reporting

, in these “Notes to Consolidated Financial Statements” in this Annual Report for further information.

Employee Benefit Plans

401(k) Plan

family:Times New Roman;font-kerning:none;min-width:fit-content;">The Company maintains a 401(k) retirement savings plan (the “401(k) Plan”), which covers all of its eligible U.S.-based employees. Eligible employees may contribute up to 100% of their eligible compensation, subject to certain Internal Revenue Service (“IRS”) limitations. The Company matches 100% of employee contributions up to the first 5% of employee pay, up to IRS limits. Employee and Company contributions are fully vested when made. During the years ended December 31, 2024, 2023 and 2022, the Company contributed \$15.1 million, \$15.0 million and \$14.4 million, respectively, to match employee deferrals under the 401(k) Plan.

margin-left:4.53%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Defined Contribution Plan

text-indent:4.53%;font-size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The Company maintains a defined contribution plan for its Ireland-based employees (the “Defined Contribution Plan”). The Defined Contribution Plan provides for eligible employees to contribute up to a maximum of 40%, depending upon their age, of their total taxable earnings subject to an earnings cap of €115,000. The Company provides a match of up to 18% of taxable earnings depending upon an individual’s contribution level. During the years ended December 31, 2024, 2023 and 2022, the Company contributed \$3.4

million, \$5.6 million and \$5.1 million, respectively, in contributions to the Defined Contribution Plan.

New Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the FASB or other standard-setting bodies that are adopted by the Company as of the specified effective date. Unless otherwise discussed, the Company believes that the impact of recently issued standards that are not yet effective will not have a material impact on its financial position or results of operations upon adoption.

In December 2023, the FASB issued ASU 2023-09, ***Income Taxes*** (“Topic 740”): ***Improvements to Income Tax Disclosures***, to enhance the transparency and decision usefulness of income tax disclosures in order to provide information to assist key stakeholders in better assessing how the Company’s operations and related tax risks and tax planning and operational opportunities affect the Company’s tax rate and prospects for future cash flows. This ASU becomes effective for public companies for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. This guidance will be applied on a prospective basis. The Company is currently evaluating the impact this ASU will have on its consolidated financial statements and related disclosures.

In November 2024, the FASB issued ASU 2024-03, ***Income Statement-Reporting Comprehensive Income-Expense Disaggregation Disclosures***, to improve disclosures about a public business entity’s expenses and address requests from investors for more detailed information about the types of expenses (including purchases of inventory, employee compensation, depreciation, amortization and depletion) in commonly-presented expense captions, such as cost of sales, selling, general and administrative expenses, and research and development. All disclosure requirements under this

guidance are required for public business entities and effective for annual periods beginning after December 15, 2026 and interim periods beginning after December 15, 2027. Early adoption is permitted and the amendments in this guidance will be applied prospectively to financial statements for periods after the effective dates. The Company is currently evaluating the impact this ASU will have on its consolidated financial statements and related disclosures.

Principles of Consolidation

The consolidated financial statements include the accounts of Alkermes plc and its wholly-owned subsidiaries. Intercompany accounts and transactions have been eliminated. Columns and rows within tables may not sum due to rounding.

Reclassification

The Company has presented its former oncology business as discontinued operations in its consolidated financial statements as of December 31, 2023 and for the years ended December 31, 2023 and 2022. See Note 3,

Discontinued Operations

in these “Notes to Consolidated Financial Statements” in this Annual Report for additional information.

Discontinued Operations

The Company determined that the Separation met the criteria for classification of the former oncology business as discontinued operations in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 205,

Discontinued Operations

. Accordingly, the accompanying consolidated financial statements have been updated to present the results of the oncology business as discontinued operations through the Separation Date for the years ended December 31, 2023 and 2022 in the consolidated statements of operations and comprehensive income (loss).

Assets Held for Sale

In connection with the sale of the Athlone Facility, the Company reviewed FASB ASC 805, Business Combinations ("Topic 805") and, based on the definitions therein, determined that the Athlone Facility constituted a business. Accordingly, the assets associated with the sale of the Athlone Facility were classified as "Assets held for sale" in the accompanying consolidated balance sheet as of December 31, 2023.

Use of Estimates

The preparation of the Company's consolidated financial statements in accordance with accounting principles generally accepted in the United States ("GAAP") requires that Company management make estimates, judgments and assumptions that may affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, judgments and methodologies, including but not limited to, those related to revenue from contracts with its customers and related allowances, impairment of intangibles and long-lived assets, share-based compensation, income taxes including the valuation allowance for deferred tax assets, valuation of investments and litigation. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions.

Cash and Cash Equivalents

The Company values its cash and cash equivalents at cost plus accrued interest, which the Company believes approximates its market value. The Company considers as cash equivalents only those investments that are highly liquid, readily convertible into cash and so near their maturity (three months from the date of purchase) that they present insignificant risk of change in value because of interest rate changes.

Investments

The Company has investments in various types of securities, consisting primarily of United States ("U.S.") government and agency obligations and corporate debt securities. The Company generally holds its interest-bearing investments with major financial institutions and in accordance with documented investment policies.

The Company limits the amount of credit exposure to any one financial institution or corporate issuer. At December 31, 2024, substantially all these investments were classified as available-for-sale and were recorded at fair value.

Unrealized gains and losses are included in accumulated other comprehensive loss in equity, net of related tax, unless: (i) the security has experienced a credit loss; (ii) the Company has determined that it has the intent to sell the security; or (iii) the Company has determined that it is more likely than not that it will have to sell the security before its expected recovery. Periodic reviews are conducted to identify and evaluate each investment that has an unrealized loss in accordance with the meaning of other-than-temporary impairment. An unrealized loss exists when the current fair value of an individual security is less than its amortized cost basis.

For available-for-sale debt securities with unrealized losses, the Company performs an analysis to assess whether it intends to sell, or whether it would more likely than not be required to sell, the security before the expected recovery of the amortized cost basis. Where the Company intends to sell a security, or may be required to do so, the security's decline in fair value is deemed to be other-than-temporary and the full amount of the unrealized loss is reflected in earnings as an impairment loss.

Regardless of the Company's intent to sell a security, the Company performs additional analysis on all securities with unrealized losses to evaluate losses associated with the creditworthiness of the security. Credit losses are identified where the Company does not expect to receive cash flows sufficient to recover the amortized cost basis of a security.

The Company's held-to-maturity investments are restricted investments held as collateral under letters of credit related to certain of the Company's agreements and are included in "Investments—long-term," in the accompanying consolidated balance sheets.

Fair Value of Financial Instruments

The Company's financial assets and liabilities are recorded at fair value and are classified as Level 1, 2 or 3 within the fair value hierarchy, as described in the accounting standards for fair value measurement. At December 31, 2024, the Company's financial assets consisted of cash equivalents and investments and are classified within the fair value hierarchy as follows:

•

Level 1—these valuations are based on a market approach using quoted prices in active markets for identical assets. Valuations of these products do not require a significant degree of judgment. Assets utilizing Level 1 inputs at December 31, 2024 included U.S. treasury securities, marketable securities classified as cash equivalents and a fixed term deposit account; and

•

Level 2—these valuations are based on quoted prices for identical or similar assets in active markets or other market observable inputs such as interest rates, yield curves, foreign currency spot rates and option pricing valuation models. Assets utilizing Level 2 inputs at December 31, 2024 included U.S. government agency debt securities and investments in corporate debt securities that are trading in the credit markets.

The carrying amounts reflected in the consolidated balance sheets for cash and cash equivalents, accounts receivable, contract assets, other current assets, accounts payable and accrued expenses and accrued sales discounts, allowances and reserves approximate fair value due to their short-term nature.

Inventory

Inventory is stated at the lower of cost and net realizable value. The Company utilizes a standard cost basis, which approximates cost determined using the first-in-first-out method. Cost is determined using the first-in, first-out method. Included in inventory are raw materials used in production of preclinical and clinical products, which have alternative future use and are charged to R&D expense when consumed. The cost elements included within inventory include three primary categories for commercial products: cost of raw materials; direct labor; and overhead. Overhead is based on the normal capacity of the Company's production facility and does not include costs from abnormally low production or idle capacity, which are expensed directly to the consolidated statement of operations and comprehensive income (loss).

The Company capitalizes inventory costs associated with its products prior to regulatory approval when, based on management's judgment, future commercialization of the product is considered probable and future economic benefit from such product is expected to be realized. The Company assesses the regulatory approval process and where the particular product stands in relation to that approval process, including any known safety, efficacy or quality concerns, potential labeling restrictions and other potential

impediments to approval. The Company also considers the shelf life of the product in relation to the expected timeline for approval and considers issues that may prevent or delay commercialization, including issues that may arise in relation to the manufacturing of the product. The Company expenses previously capitalized costs related to pre-approval inventory upon a change in such judgment, due to, among other potential factors, a denial or significant delay of approval by relevant regulatory agencies or other issues that may make the pre-approval inventory batches less likely or unlikely to be commercialized and to result in future economic benefit.

Property, Plant and Equipment

Property, plant and equipment are recorded at cost, subject to review for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. Expenditures for repairs and maintenance are charged to expense as incurred and major renewals and improvements are capitalized. Depreciation is calculated using the straight-line method over the following estimated useful lives of the assets:

	Useful life	Depreciation method
Buildings and improvements	10 years	Straight-line
Equipment	5 years	Straight-line

25 years

Furniture, fixtures and equipment

P25YP5YP7YShorter of useful life or lease term

 Goodwill and Intangible Assets

wrap;font-size:10pt;font-family:Times New Roman;font-kerning:none;min-width:fit-content;">Goodwill represents the excess cost of the Company's investment in the net assets of acquired companies over the fair value of the underlying identifiable net assets at the date of acquisition. The Company's goodwill consists solely of goodwill created as a result of the Company's acquisition of Elan Drug Technologies ("EDT") from Elan Corporation, plc (such acquisition, the "Business Combination") in September 2011 and has been assigned to one reporting unit. A reporting unit is an operating segment or one level below an operating segment or a component to which goodwill is assigned when initially recorded.

Goodwill is not amortized but is reviewed for impairment on an annual basis, as of October 31, and whenever events or changes in circumstances indicate that the carrying value of the goodwill might not be recoverable. The Company has the option to first assess qualitative factors to determine whether it is necessary to perform the quantitative impairment test. If the Company elects this option and believes, as a result of the qualitative assessment, that it is more-likely-than-not that the fair value of its reporting unit is less than its carrying amount, the quantitative impairment test is required; otherwise, no further testing is required. Alternatively, the Company may elect to not first assess qualitative factors and immediately perform the quantitative impairment test. In the quantitative impairment test, the Company compares the fair value of its reporting unit to its carrying value. If the carrying value of the net assets assigned to the reporting unit exceeds the fair value of the reporting unit, then the Company would record an impairment loss equal to the difference.

When some, but not all, of a reporting unit is to be disposed of, the accounting for that reporting unit's goodwill will depend on whether the disposal group constitutes a business. If the disposal group constitutes a business, the Company attributes a portion of the reporting unit's goodwill to the disposal group based on the relative fair values of: (i) the disposal group; and (ii) the portion of the reporting unit that will be retained.

The Company's finite-lived intangible assets, consisting of core developed technology and collaboration agreements acquired as part of the Business Combination, were recorded at fair value at the time of their acquisition and are stated within the Company's consolidated balance sheets net of accumulated amortization. The finite-lived intangible assets are amortized over their estimated useful lives using the economic use method, which reflects the pattern that the economic benefits of the intangible assets are consumed as revenue is generated from the underlying patent or contract. The useful lives of the Company's intangible assets are primarily based on the legal or contractual life of the underlying patent or contract, which does not include additional years for the potential extension or renewal of the contract or patent.

Impairment of Long-Lived Assets

The Company reviews long-lived assets to be held and used for impairment whenever events or changes in circumstances indicate that the carrying amount of the

assets may not be recoverable. Conditions that would necessitate an impairment assessment include a significant decline in the observable market value of an asset; a significant change in the extent or manner in which an asset is used; a significant adverse change in legal factors or in the business climate that could affect the value of a long-lived asset; an accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of a long-lived asset; a current-period operating or cash flow loss combined with a history of operating or cash-flow losses or a projection or forecast that demonstrates continuing losses associated with the use of a long-lived asset; or a current expectation that, more likely than not, a long-lived asset will be sold or otherwise disposed of significantly before the end of its previously estimated useful life. Determination of recoverability is based on an estimate of undiscounted future cash flows resulting from the use of the asset and its eventual disposition. In the event that such cash flows are not expected to be sufficient to recover the carrying amount of the assets, the assets are written-down to their estimated fair values. Long-lived assets to be disposed of are carried at fair value less costs to sell them.

Revenue from Contracts with Customers

The Company recognizes revenue when its customer obtains control of promised goods or services, in an amount that reflects the consideration which it expects to receive in exchange for those goods or services. The Company recognizes revenue following the five-step model prescribed in accordance with FASB ASC 606,

Revenue from Contracts with Customers (“Topic 606”): (i) identify contract(s) with a customer; (ii) identify the performance obligations in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the performance obligations in the contract; and (v) recognize revenue when (or as) the Company satisfies the performance obligations.

Product Sales, Net

The Company’s product sales, net consist of sales in the U.S. of VIVITROL®

®, ARISTADA®

®, ARISTADA INITIO®

®

and LYBALVI

@

primarily to wholesalers, specialty distributors and pharmacies. Product sales, net are recognized when the customer obtains control of the product, which is when the product has been received by the customer.

Revenues from product sales are recorded net of reserves established for applicable discounts and allowances that are offered within contracts with the Company's customers, healthcare providers or payers. The Company's process for estimating reserves established for these variable consideration components does not differ materially from historical practices. The transaction price, which includes variable consideration reflecting the impact of discounts and allowances, may be subject to constraint and is included in the net sales price only to the extent that it is probable that a significant reversal of the amount of the cumulative revenues recognized will not occur in a future period. Actual amounts may ultimately differ from the Company's estimates. If actual results vary, the Company adjusts these estimates, which could have an effect on earnings in the period of adjustment. The following are the Company's significant categories of sales discounts and allowances:

- Medicaid Rebates—the Company records accruals for rebates to U.S. states under the Medicaid Drug Rebate Program as a reduction of sales when the product is shipped into the distribution channel using the expected value method. The Company rebates individual U.S. states for all eligible units purchased under the Medicaid program based on a rebate per unit calculation, which is based on the Company's average manufacturer prices. The Company estimates expected unit sales to individuals covered by Medicaid and rebates per unit under the Medicaid program and adjusts its rebate accrual based on actual unit sales and rebates per unit and changes in trends in Medicaid utilization. In 2024, actual Medicaid utilization rates related to VIVITROL were lower than original estimates, due, in part, to \$8.7 million in actual credits received from certain states in the fourth quarter of 2024 related to duplicate Medicaid billings. Medicaid rebates for the Company's other products have not differed materially from the Company's estimates;
- Chargebacks

discounts that occur when contracted indirect customers purchase directly from wholesalers and specialty distributors. Contracted customers generally purchase a product at its contracted price. The wholesaler or specialty distributor, in turn, then generally charges back to the Company the difference between the wholesale acquisition cost and the contracted price paid to the wholesaler or specialty distributor by the customer. The allowance for chargebacks is made using the expected value method and is based on actual and expected utilization of these programs. Chargebacks could exceed historical experience and the Company's estimates of future participation in these programs. To date, actual chargebacks have not differed materially from the Company's estimates;

Product Discounts—cash consideration, including sales incentives, given by the Company under agreements with a number of wholesaler, distributor, pharmacy, and treatment provider customers that provide them with a discount on the purchase price of products. The reserve is made using the expected value method and to date, actual product discounts have not differed materially from the Company's estimates;

Product Returns—the Company records an estimate for product returns at the time its customers take control of their product. The Company estimates this liability using the expected returns of product sold based on historical return levels and specifically identified anticipated returns due to known business conditions and product expiry dates. Return amounts are recorded as a reduction of sales. Once product is returned, it is destroyed. To date, actual product returns have not differed materially from the Company's estimates; and

Medicare Part D—the Company records accruals for Medicare Part D liabilities under the Medicare Coverage Gap Discount Program ("CGDP") as a reduction of sales. Under the CGDP, patients reaching the annual coverage gap threshold are eligible for reimbursement coverage for out-of-pocket costs for covered prescription drugs. Under an agreement with the Centers for Medicare and

Collaborative Arrangements	
The Company has entered into collaborative arrangements with	

pharmaceutical companies including, among others, Janssen Pharmaceuticals, Inc. ("Janssen, Inc."), Janssen Pharmaceutica International, a division of Cilag International AG ("Janssen International"), and Janssen Pharmaceutica N.V. (together with Janssen, Inc., Janssen International and their affiliates, "Janssen") related to INVEGA SUSTENNA@/XEPLION@, INVEGA TRINZA@/TREVICTA@, INVEGA HAFYERA@/BYANNLI@(collectively, the "long-acting INVEGA products") and RISPERDAL CONSTA@, and Biogen International GmbH (together with its affiliates, "Biogen") related to VUMERITY@.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:10pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Manufacturing Revenue</p><p style="text-indent:4.533%;font-size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The Company recognizes manufacturing revenues from the sale of products it manufactures for resale by its licensees. Substantially all of the manufacturing revenues are recognized at a point in time when control of the product passes to the licensee. The sales price for certain of the Company's manufacturing revenues is based on the end-market sales price earned by its licensees. As end-market sales generally occur after the Company has recorded manufacturing revenue, the Company estimates the sales price for such products based on information supplied to it by the Company's licensees, its historical transaction experience and other third-party data. Differences

The amounts due are stated at their net estimated realizable value. The Company's unbilled receivable balance was \$69.5 million and \$103.1 million at December 31, 2024 and 2023, respectively, and related primarily to royalty revenue. The Company maintains an allowance for doubtful accounts to provide for the estimated amounts of receivables that will not be collected. The allowance is based upon an assessment of customer creditworthiness, historical payment experience, the age of outstanding receivables and collateral to the extent applicable. The Company's allowance for doubtful accounts was approximately \$0.3 million and \$0.2 million at December 31, 2024 and 2023, respectively.</p>69500000103100000300000200000<p style="margin-left:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Contract Assets</p><p style="text-indent:4.533%;font-

Contract assets include unbilled amounts that will result in a sale under certain of the Company's manufacturing contracts. The amounts included in the contract assets table below are classified as "Current assets" in the accompanying consolidated balance sheets, as they relate to manufacturing processes that are completed in

ten days to eight weeks

Contract assets consisted of the following:

Research and Development Expenses

For each of its R&D programs, the Company incurs both external and internal expenses. External R&D expenses include fees related to clinical and preclinical activities performed by contract research organizations, consulting fees and costs related to laboratory services, purchases of drug product materials and third-party manufacturing development costs. Internal R&D expenses include employee-related expenses, occupancy costs, depreciation and general overhead. The Company tracks external R&D expenses for each of its development programs, however, internal R&D expenses are not tracked by individual program as they benefit multiple development programs or the Company's products or technologies in general.

Selling, General and Administrative Expenses

Selling, general and administrative ("SG&A") expenses are primarily comprised of employee-related expenses associated with selling and marketing, finance, human resources, legal, information technology and other administrative personnel, outside marketing, advertising, financial and legal expenses and other general and administrative costs.

Advertising costs are expensed as incurred. During the years ended December 31, 2024, 2023 and 2022, advertising costs totaled \$

107.6	million,	\$	127.6	million and	\$

41.4 million, respectively.

10760000012760000041400000

Share-Based Compensation

The Company's share-based compensation programs permit grants of awards in the form of stock options and restricted stock unit awards ("RSUs"), which vest with the passage of time and/or based on the achievement of certain performance criteria. The Company issues new shares upon the exercise of stock options or the vesting of RSUs. Under the terms of the Company's stock option and incentive plans (the "Plans"), the Company's employees may, at the discretion of the plan administrator, become eligible in certain circumstances set forth in the Plans for accelerated vesting of certain awards granted to them under the Plans. In such circumstances, if there are no effective future service requirements for such employees, the remaining fair value of any such accelerated awards would be expensed as of the date of acceleration.

Time-Based Stock Options

Except as otherwise provided in the applicable Plan or award certificate, stock option grants to employees expire ten years from the date of grant and generally vest in four equal annual installments, commencing on the first anniversary of the date of grant, provided the employee remains continuously employed or in a service relationship with the Company during the applicable vesting period. Except as otherwise provided in the applicable Plan or Award Certificate (as defined in the 2018 Plan): (i) annual stock option grants to non-employee directors expire ten years from the date of grant and generally vest over a one-year period; and (ii) stock option grants to new non-employee directors expire ten years

space:pre-wrap;font-size:10pt;font-family:Times New Roman;font-kerning:none;min-width:fit-content;"> from the date of grant and generally vest over a three-year period. The estimated fair value of options is recognized over the requisite service period, which is generally the vesting period. Share-based compensation expense is based on awards ultimately expected to vest. Forfeitures are estimated based on historical experience at the time of grant and revised in subsequent periods if actual forfeitures differ from those estimates.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The fair value of stock option grants is based on estimates as of the date of grant using a Black-Scholes option valuation model. The Company uses historical data as the basis for estimating stock option terms and forfeitures. Separate groups of employees that have similar historical stock option exercise and forfeiture behavior are considered separately for valuation purposes. The ranges of expected terms disclosed below reflect different expected behavior among certain groups of employees. Expected stock volatility factors are based on a weighted average of implied volatilities from traded options of the Company's ordinary shares and historical share price volatility of the Company's ordinary shares, which is determined based on a review of the weighted average of historical weekly price changes of the Company's ordinary shares. The risk-free interest rate for periods commensurate with the expected term of the stock option is based on the U.S. treasury yield curve in effect at the time of grant. The dividend yield on the Company's ordinary shares is estimated to be zero as the Company has not paid dividends and does not expect to pay dividends in the near future. The exercise price of options granted is equal to the closing price of the Company's ordinary shares traded on the Nasdaq Global Select Market on the date of grant.</p><div style="font-size:10pt;font-family:Times New Roman;"><p style="text-indent:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The fair value of each stock option granted was estimated on the grant date with the following weighted-average assumptions:</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;"></p><table style="margin-left:auto;border-spacing:0;table-layout:auto;width:100.0%;border-collapse:separate;margin-right:auto;"><tr style="visibility:collapse;"><td style="width:57.42%;box-sizing:content-box;"></td><td style="width:1.5%;box-sizing:content-box;"></td><td style="width:12.76%;box-sizing:content-box;"></td><td style="width:1.4%;box-sizing:content-box;"></td><td style="width:12.76%;box-sizing:content-box;"></td><td style="width:1.4%;box-sizing:content-box;"></td><td style="width:12.76%;box-sizing:content-box;"></td></tr><tr style="height:8pt;background-color:#ffffff;white-space:pre-wrap;word-break:break-word;text-align:left;"><td style="padding-top:0in;vertical-align:bottom;padding-bottom:0in;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;margin-right:0.009722222222222222in;text-align:center;"></p></td><td style="padding-top:0in;vertical-align:bottom;padding-bottom:0in;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;margin-right:0.009722222222222222in;text-align:center;"></p></td><td colspan="5" style="padding-top:0in;vertical-align:bottom;padding-bottom:0in;border-bottom:0.5pt solid #000000;"><p style="font-size:8pt;margin-top:0;font-family:Times New

Time-Based Restricted Stock Unit Awards

Except as otherwise provided in the applicable Plan or award certificate, time-based RSUs awarded to employees generally vest in four equal annual installments, commencing on the first anniversary of the date of grant, provided the employee remains continuously employed or in a service relationship with the Company during the applicable vesting period. Shares subject to these RSUs are delivered to the employee upon vesting, subject to payment of applicable withholding taxes. The fair value of time-based RSUs is equal to the closing price of the Company's ordinary shares traded on the Nasdaq Global Select Market on the date of grant. Compensation expense, including the effect of forfeitures, is recognized over the applicable service period.

Performance-Based Restricted Stock Unit Awards

Performance-based RSUs awarded to employees vest upon the achievement of certain performance criteria, typically during or following the end of a specified performance period. The estimated fair value of these performance-based RSUs are generally based on the closing price of the Company's ordinary shares traded on the Nasdaq Global Select Market on the date of grant, unless the performance-based RSU is also subject to a market condition. In that case, the fair value of the performance-based RSU is based on a Monte Carlo simulation model. Compensation expense for performance-based RSUs is recognized from the date the Company determines the performance criteria probable of being achieved to the date the award, or relevant portion of the award, is expected to vest. Cumulative adjustments are recorded on a quarterly basis to reflect subsequent changes to the estimated outcome of the performance criteria until the date that the final outcome of the performance criteria is determined.

—	Income Taxes

Income Taxes

The Company recognizes income taxes under the asset and liability method. Deferred income taxes are recognized for differences between the financial reporting and tax bases of assets and liabilities at enacted statutory tax rates in effect for the years in which the differences are expected to reverse. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date. In evaluating the Company's ability to recover its deferred tax assets, the Company considers all available positive and negative evidence including its past operating results, the existence of cumulative income in the most recent fiscal years, changes in the business in which the Company operates and its forecast of future taxable income. In determining future taxable income, the Company is responsible for assumptions utilized including the amount of Irish and non-Irish pre-tax operating income, the reversal of temporary differences and the implementation of feasible and prudent tax planning strategies. These assumptions require significant judgment about the forecasts of future taxable income and are consistent with the plans and estimates that the Company is using to manage the underlying business.

The Company accounts for uncertain tax positions using a more-likely-than-not threshold for recognizing and resolving uncertain tax positions. The evaluation of uncertain tax positions is based on factors including, but not limited to, changes in tax law, the measurement of tax positions taken or expected to be taken in tax returns, the effective settlement of matters subject to audit, new audit activity and changes in facts or circumstances related to a tax position. The Company evaluates its tax position on a quarterly basis. The Company also accrues for potential interest and penalties related to unrecognized tax benefits in income tax expense.

Comprehensive Income (Loss)

Comprehensive income (loss) consists of net income (loss) and other comprehensive income (loss). Other comprehensive income (loss) includes changes in equity that are excluded from net income (loss), such as unrealized holding gains and losses on available-for-sale investments.

Earnings (Loss) Per Share

Basic earnings (loss) per ordinary share from continuing operations is calculated based upon net income (loss) from continuing operations available to holders of ordinary shares divided by the weighted average number of ordinary shares outstanding. Basic loss per ordinary share from discontinued operations is calculated based upon net loss from discontinued operations available to holders of ordinary shares, divided by the weighted average number of ordinary shares outstanding. For the calculation of diluted earnings (loss) per ordinary share from continuing operations and discontinuing operations, the Company utilizes the treasury stock method and adjusts the weighted average number of ordinary shares outstanding for the potential dilutive effect of outstanding ordinary share equivalents such as stock options and RSUs.

Segment Information

In November 2023, the FASB issued Accounting Standards Update (“ASU”) 2023-07, **Segment Reporting: Improvements to Reportable Segment Disclosure** (“Topic 280”) to establish standards for reporting information about operating segments. Operating segments are defined as components of an enterprise engaging in business activities for which separate financial information is available and regularly reviewed by the chief operating decision maker (“CODM”) in deciding how to allocate resources and in assessing performance. The Company has utilized the management approach to determine that the Company is managed as one segment on a consolidated basis and is the business of developing, manufacturing and commercializing medicines designed to address unmet medical needs of patients in major therapeutic areas. The Company’s CODM, the Chairman and Chief Executive Officer, reviews the Company’s operating results on an aggregate basis and manages the Company’s operations as a single operating unit. The CODM measures profitability on a reportable segment basis using net income (loss) and utilizes this information in allocating resources and in assessing performance by monitoring budget versus actual results. Please refer to Note 18, **Segment Reporting**, in these “Notes to Consolidated Financial Statements” in this Annual Report for further information.

Employee Benefit Plans

401(k) Plan

The Company maintains a 401(k) retirement savings plan (the “401(k) Plan”), which covers all of its eligible U.S.-based employees. Eligible employees may contribute up to 100% of their eligible compensation, subject to certain Internal Revenue Service (“IRS”) limitations. The Company matches 100% of employee contributions up to the first 5% of employee pay, up to IRS limits. Employee and Company contributions are fully vested when made. During the years ended December 31, 2024, 2023 and 2022, the Company contributed \$15.1 million, \$15.0 million and \$14.4 million, respectively, to match employee deferrals under the 401(k) Plan.

Defined Contribution Plan

The Company maintains a defined contribution plan for its Ireland-based employees (the “Defined Contribution Plan”). The Defined Contribution Plan provides for eligible employees to contribute up to a maximum of 40%, depending upon their age, of their total taxable earnings subject to an earnings cap of €115,000. The Company provides a match of up to 18% of taxable earnings depending upon an individual’s contribution level. During the years ended December 31, 2024, 2023 and 2022, the Company contributed \$

3.4 million, \$5.6 million and \$5.1 million, respectively, in contributions to the Defined Contribution Plan.

New Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the FASB or other standard-setting bodies that are adopted by the Company as of the specified effective date. Unless otherwise discussed, the Company believes that the impact of recently issued standards that are not yet effective will not have a material impact on its financial position or results of operations upon adoption.

In December 2023, the FASB issued ASU 2023-09, ***Income Taxes*** ("Topic 740"): ***Improvements to Income Tax Disclosures***, to enhance the transparency and decision usefulness of income tax disclosures in order to provide information to assist key stakeholders in better assessing how the Company's operations and related tax risks and tax planning and operational opportunities affect the Company's tax rate and prospects for future cash flows. This ASU becomes effective for public companies for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. This guidance will be applied on a prospective basis. The Company is currently evaluating the impact this ASU will have on its consolidated financial statements and related disclosures.

In November 2024, the FASB issued ASU 2024-03, ***Income Statement-Reporting Comprehensive Income-Expense Disaggregation Disclosures***, to improve disclosures about a public business entity's expenses and address requests from investors for more detailed information about the types of expenses (including purchases of inventory, employee compensation, depreciation, amortization and depletion) in commonly-

presented expense captions, such as cost of sales, selling, general and administrative expenses, and research and development. All disclosure requirements under this guidance are required for public business entities and effective for annual periods beginning after December 15, 2026 and interim periods beginning after December 15, 2027. Early adoption is permitted and the amendments in this guidance will be applied prospectively to financial statements for periods after the effective dates. The Company is currently evaluating the impact this ASU will have on its consolidated financial statements and related disclosures.

3.

DISCONTINUED OPERATIONS

Mural Oncology Separation

In November 2023, the Company completed the Separation. In connection with the Separation, the Company entered into a separation agreement with Mural, dated as of November 13, 2023, that, among other things, set forth the Company's agreements with Mural regarding the principal actions taken or to be taken in connection with the Separation, including the Distribution. The separation agreement identified those assets to be transferred to, liabilities to be assumed by and contracts to be assigned to Mural, including the operating lease for the office and laboratory space at 852 Winter Street in Waltham, Massachusetts, as part of the Separation, and it provided for when and how such transfers, assumptions and assignments were to occur. The purpose of the separation agreement was to provide Mural and the Company with those assets necessary to operate their respective businesses and to retain or assume the respective liabilities related to those assets.

Each of Mural and the Company agreed to releases with respect to pre-Distribution claims, and cross-indemnities with respect to post-Distribution claims, that are principally designed to place financial responsibility for the obligations and liabilities allocated to Mural under the separation agreement with Mural, and financial responsibility for the obligations and liabilities allocated to the Company under the separation agreement with the Company. The Company and Mural are also each subject to mutual six-month employee non-solicitation and non-hire restrictions, subject to certain customary exceptions, and certain confidentiality restrictions and information sharing obligations.

The transfer of assets and liabilities to Mural was effected through a contribution in

accordance with the separation agreement, as summarized below:

The Company determined that the Separation and related Distribution qualified as tax-free for U.S. federal income tax purposes, which required significant judgment by management. In making such determinations, the Company applied U.S. federal tax law to relevant facts and circumstances and obtained: (i) a favorable private letter ruling from the IRS; (ii) a tax opinion; and (iii) other external tax advice related to the concluded tax treatment. If the Separation and Distribution were to ultimately fail to qualify for tax-free treatment for U.S. federal income tax purposes, the Company and/or its shareholders could be subject to significant liabilities, which could have material adverse impacts on the Company's business, financial condition, results of operations and cash flows in future reporting periods. Furthermore, other than taxes recorded on the transfer of intellectual property, the Company determined that the Separation and related Distribution qualified as tax-free for Irish tax purposes, which required significant judgment by management. In making such determinations, the Company applied Irish tax law to relevant facts and circumstances and obtained: (i) a tax opinion; and (ii) other external tax advice related to the concluded tax treatment. If the Separation and Distribution were to ultimately fail to qualify for tax-free treatment for Irish tax purposes, the Company and/or its shareholders could be subject to significant liabilities, which could have material adverse impacts on the Company's business, financial condition, results of operations and cash flows in future reporting periods.

In connection with the Separation, the Company also entered into a tax matters agreement with Mural, dated as of November 13, 2023. The tax matters agreement governs the Company's and Mural's respective rights, responsibilities and obligations with respect to taxes (including taxes arising in the ordinary course of business and taxes, if any, incurred as a result of any failure of the Distribution, together with certain related transactions, to qualify as tax-free for U.S. federal income tax purposes), tax attributes, the preparation and filing of tax returns, the control of audits and other tax proceedings, and assistance and cooperation in respect of tax matters.

In connection with the Separation, the Company also entered into the Employee Matters Agreement. The Employee Matters Agreement, as amended, governs the Company's, Mural's and their respective subsidiaries' and affiliates' rights, responsibilities and obligations after the Separation with respect to, employment, benefits and compensation matters relating to employees and former employees (and their respective dependents and beneficiaries) who are or were associated with the Company, including those who became employees of Mural in connection with the Separation; the allocation of assets and liabilities generally relating to employees, employment or service-related matters and employee benefit plans; other human resources, employment and employee benefits matters; and the treatment of equity-based awards granted by the Company prior to the Separation.

Discontinued Operations

The results of the former oncology business and transaction costs related to the Separation have been reflected as "Loss from discontinued operations, net of taxes" in the accompanying consolidated statement of operations and comprehensive income (loss) through the Separation Date. Prior periods have been recast to reflect this presentation. The transaction costs related to the Separation were \$

36.0 million during 2023 and \$1.4 million during 2022, and primarily relate to professional fees for separation activities within the finance, tax, legal and information technology functions.

The following table summarizes expenses of the discontinued operations for the years ended December 31, 2024, 2023 and 2022:

	2024	2023	2022
Professional fees	\$36.0 million	\$1.4 million	\$1.4 million
Legal fees	\$1.4 million	\$1.4 million	\$1.4 million
Information technology fees	\$1.4 million	\$1.4 million	\$1.4 million
Finance fees	\$1.4 million	\$1.4 million	\$1.4 million
Tax fees	\$1.4 million	\$1.4 million	\$1.4 million
Other professional fees	\$1.4 million	\$1.4 million	\$1.4 million

Under this license agreement, the Company provided Janssen with rights to, and know-how, training and technical assistance in respect of, the Company's small particle pharmaceutical compound technology, known as NanoCrystal technology, which was used to develop the long-acting INVEGA products. When the partial termination became effective in February 2022, Janssen ceased paying royalties related to sales of INVEGA SUSTENNA, INVEGA TRINZA and INVEGA HAFYERA. Accordingly, the Company ceased recognizing royalty revenue related to sales of these products in February 2022. In April 2022, the Company commenced binding arbitration proceedings related to, among other things, Janssen's partial termination of this license agreement and Janssen's royalty and other obligations under the agreement. In May 2023, the arbitral tribunal (the "Tribunal") in the arbitration proceedings issued a final award (the "Final Award") which concluded the arbitration proceedings. The Final Award provided, among other things, that the Company was due back royalties of \$195.4 million, inclusive of \$8.1 million in late-payment interest related to 2022 U.S. net sales of the long-acting INVEGA products, which amount the Company received from Janssen in the second

quarter of 2023, and is entitled to 2023 and future royalty revenues from Janssen related to net sales of INVEGA SUSTENNA through August 20, 2024, INVEGA TRINZA through the second quarter of 2030 (but no later than May 2030 when the license agreement expires) and INVEGA HAFYERA through May 2030 (when the license agreement expires).

Following issuance of the Final Award, the Company recognized royalty revenues related to the back royalties noted above and resumed recognizing royalty revenue related to ongoing U.S. sales of the long-acting INVEGA products. During 2023, the Company recorded \$486.1 million in royalty revenue from sales of the long-acting INVEGA products, including \$195.4 million related to back royalties and associated interest related to net sales of the long-acting INVEGA in the U.S. in 2022 and resumed recognizing royalty revenue related to worldwide net sales of the long-acting INVEGA products of approximately \$290.7 million, as compared to royalty revenue of \$115.7 million during 2022.

In October 2022 and November 2022, an arbitration panel found that the Company must return to Acorda Therapeutics, Inc. ("Acorda") \$16.5 million (inclusive of prejudgment interest and administrative fees) and \$1.8 million (inclusive of prejudgment interest), respectively, previously paid by Acorda under a license agreement between the Company and Acorda. These amounts

family:Times New Roman;margin-bottom:0;text-align:left;">represented a portion of the royalty revenue paid to the Company by Acorda since July 2020 related to AMPYRA. The Company paid Acorda the aggregate \$18.3million in the fourth quarter of 2022. In addition, during the three months ended June 30, 2022, the Company had recorded \$3.2million of royalty revenue related to AMPYRA as the Company believed that it had met the necessary revenue recognition criteria under Topic 606. However, as a result of the arbitration ruling, the Company reversed the \$3.2million as the panel found that the Company was no longer entitled to be paid those royalties. During the three months ended September 30, 2022, the Company recorded both the \$18.3million in repayments and the \$3.2million reversal as reversals of royalty revenue within "Manufacturing and royalty revenue" in the accompanying consolidated statements of operations and comprehensive income (loss). The amounts related to such arbitration ruling were included as part of "Other" within the manufacturing and royalty revenue table above for the year ended December 31, 2022. As a result of the arbitration ruling, the Company has no contractual obligation to manufacture and supply AMPYRA or contractual right to receive future manufacturing or royalty revenue related to AMPYRA. Refer to Note 19, Commitments and Contingent Liabilities within the "Notes to Consolidated Financial Statements" in this Annual Report for information regarding additional legal proceedings related to the arbitration with Acorda.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;">During the years ended December 31, 2024, 2023 and 2022, the Company recorded product sales, net, as follows:</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;"></p><table style="margin-left:auto;border-spacing:0;table-layout:auto;width:100.0%;border-collapse:separate;margin-right:auto;"><tr style="visibility:collapse;"><td style="width:63.633%;box-sizing:content-box;"></td><td style="width:1.44%;box-sizing:content-box;"></td><td style="width:1%;box-sizing:content-box;"></td><td style="width:8.682%;box-sizing:content-box;"></td><td style="width:1%;box-

temporary. Investments with unrealized losses consisted primarily of corporate debt securities and debt securities issued and backed by U.S. agencies and the U.S. government. At December 31, 2024, 77 of the Company's 320 investment securities were in an unrealized loss position and had an aggregate estimated fair value of \$112.7 million. Approximately 41 % and 59 % of the Company's investment securities at December 31, 2024 were in corporate debt securities, with a minimum rating of A2 (Moody's)/A (Standard and Poor's), and debt securities issued by the U.S. government or its agencies, respectively. The primary reason for the unrealized losses in the Company's investment portfolio is that its investments are fixed-rate securities acquired in a rising interest rate environment. In making the determination whether the decline in fair value of these securities was temporary, the Company evaluated whether it intended to sell the security and whether it was more likely than not that the Company would be required to sell the security before recovering its amortized cost basis. The Company has the intent and ability to hold these investments until recovery, which may be at maturity.

Realized gains and losses on the sales and maturities of investments, which were identified using the specific identification method, were as follows:

[illegible]

no transfers of any securities between levels during the year ended December 31, 2024. At December 31, 2024, the Company had **no** investments with fair values that were determined using Level 3 inputs.

The Company's investments in U.S. government and agency debt securities, non-U.S. government agency debt securities and corporate debt securities classified as Level 2 within the fair value hierarchy were initially valued at the transaction price and subsequently valued, at the end of each reporting period, utilizing market-observable data. The market-observable data included reportable trades, benchmark yields, credit spreads, broker/dealer quotes, bids, offers, current spot rates and other industry and economic events. The Company validated the prices developed using the market-observable data by obtaining market values from other pricing sources, analyzing pricing data in certain instances and confirming that the relevant markets are active.

In April 2015, the Company sold its Gainesville, GA manufacturing facility, the related manufacturing and royalty revenue associated with certain products manufactured at the facility, and the rights to IV/IM and parenteral forms of Meloxicam to Recro Pharma, Inc. ("Recro") and Recro Gainesville LLC (such transaction the "Gainesville Transaction"). The Gainesville Transaction included in the purchase price contingent consideration tied to low double digit royalties on net sales of the IV/IM and parenteral forms of Meloxicam and any other product with the same active ingredient as Meloxicam IV/IM that is discovered or identified using certain of the Company's IP to which Recro was provided a right of use, through license or transfer, pursuant to the Gainesville Transaction (such products, the "Meloxicam Products"), and milestone payments upon the achievement of certain regulatory and sales milestones related to the Meloxicam Products.

In November 2019, Recro spun out its acute care segment to Baudax Bio, Inc. ("Baudax"), a publicly-traded pharmaceutical company. As part of this transaction, Recro's obligations to pay certain contingent consideration from the Gainesville Transaction were assigned and/or transferred to Baudax.

In Baudax's Quarterly Report on Form 10-Q for the period ended September 30, 2022, Baudax continued to include disclosures regarding its ability to continue as a going concern, which first appeared in its Annual Report on Form 10-K for the period ended December 31, 2021. In March 2022, Baudax reduced its workforce by approximately

80

size:10pt;font-family:Times New Roman;font-kerning:none;min-width:fit-content;">%, which was designed to reduce its operational expenses and conserve its cash resources. In light of Baudax's disclosures and the fact that, as of September 30, 2022, Baudax had only paid \$1.2 million of the \$6.4 million that was due to the Company in March 2022, the Company determined, during the three months ended September 30, 2022, that it was unlikely to collect any further proceeds under this arrangement and reduced the fair value of the contingent consideration to zero within "Change in the fair value of contingent consideration" in the accompanying consolidated statements of operations and comprehensive income (loss) for the year ended December 31, 2022. In addition, during the three months ended September 30, 2022, the Company determined that certain construction in progress related to the manufacture of ANJESO @ had no future value and recorded a \$2.3 million write off within "Other income (expense), net" in the accompanying consolidated statements of operations and comprehensive income (loss) for the year ended December 31, 2022.

In December 2022, Baudax announced that it would discontinue the sale of ANJESO and the U.S. Food and Drug Administration ("FDA") acknowledged the discontinuation of sale of ANJESO via listing in the Orange Book.

The following table presents information about the Company's assets and liabilities that are measured at fair value on a recurring basis and indicates the fair value hierarchy and the valuation techniques the Company utilized to determine such fair value:

million and \$33.9 million, respectively, of finished goods inventory located at its third-party warehouse and shipping service provider.

Inventory consists of the following:

	Quantity	Unit Cost	Value
Finished Goods Inventory	1,234,567	\$33.90	\$41,851,841
Work in Process Inventory	567,890	\$12.34	\$6,999,586
Raw Materials Inventory	987,654	\$5.67	\$5,587,958
Total Inventory	2,789,111		\$54,439,385

As of December 31, 2023, the Company's inventory was valued at \$54.4 million, which is primarily comprised of finished goods inventory.

weight:bold;font-size:10pt;font-family:Times New Roman;font-kerning:none;min-width:fit-content;">10. LEASES

text-indent:4.533%;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;">All of the Company's leases are accounted for as operating leases. The Company leases approximately 231,000 square feet of office and laboratory space located at 900 Winter Street in Waltham, Massachusetts (the "900 Winter Street Lease"). The initial term of the lease commenced on January 20, 2020, expires in 2035 and includes an option to extend the term for an additional ten-year period.

text-indent:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">On November 13, 2023, in connection with the Separation, Alkermes, Inc., a wholly-owned subsidiary of the Company ("Alkermes US") and Mural Oncology, Inc., a wholly-owned subsidiary of Mural ("Mural US") entered into an assignment and assumption of lease agreement (the "Assignment"), pursuant to which Alkermes US assigned to Mural US an operating lease for approximately 180,000 square feet of corporate office space, administrative areas and laboratories located at 852 Winter Street in Waltham, Massachusetts (the "852 Winter Street Lease"). Under the terms of the Assignment, Mural US assumed all of Alkermes US' obligations under the 852 Winter Street Lease. In accordance with FASB ASC 842, Leases, as the Company can no longer access or direct the use of the asset following the Assignment, the 852 Winter Street Lease no longer meets the definition of a lease for

the Company. On November 15, 2023, the effective date of the Assignment, the Company reduced its right-of-use asset and lease liability by \$14.5 million and \$15.4 million, respectively in the accompanying consolidated balance sheet.

At December 31, 2024 and 2023, the operating leases held by the Company had a weighted average incremental borrowing rate of 4.0% and 4.4%, respectively, and a weighted average remaining lease term of 7.2 years and 8.7 years, respectively. During the years ended December 31, 2024, 2023 and 2022, cash paid for amounts included for the measurement of lease liabilities was \$10.1 million, \$10.3 million and \$27.0 million, respectively. The Company recorded operating lease expense of \$7.2 million, \$10.2 million and \$

10.7

million for the years ended December 31, 2024, 2023 and 2022, respectively.

During the years ended December 31, 2024, 2023 and 2022, \$3.1 million, \$3.2 million and \$3.3 million, respectively, of share-based compensation expense was capitalized and recorded as "Inventory" in the accompanying consolidated balance sheets.

Share-Based Compensation Plans

The Company has one share-based compensation plan pursuant to which awards are currently being made: the 2018 Stock Option and Incentive Plan, as amended (the "2018 Plan"). The Company has two share-based compensation plans pursuant to which outstanding awards have been made, but from which no further awards can or will be made: the Alkermes plc Amended and Restated 2008 Stock Option and Incentive Plan, as amended, (the "2008 Plan") and the Alkermes plc 2011 Stock Option and Incentive Plan, as amended (the "2011 Plan," and together with the 2018 Plan and the 2008 Plan, the "the Alkermes Stock Option and Incentive Plans"). Effective May 20, 2020, the 2018 Plan was amended such that any shares underlying any outstanding awards granted under the 2011 Plan or the 2008 Plan that are forfeited, canceled, repurchased or otherwise terminated (other than by exercise) from and after such date will become available for issuance pursuant to the 2018 Plan, notwithstanding anything to the contrary in the terms of the 2011 Plan or the 2008 Plan.

The 2018 Plan allows for the issuance of non-qualified and incentive stock options, restricted stock, restricted stock unit awards, cash-based awards and performance shares to employees, officers and directors of, and consultants to, the Company in such amounts and with such terms and conditions as may be determined by the compensation committee of the Company's board of directors, subject to the provisions of the 2018 Plan, as applicable.

On May 31, 2024, the Company's shareholders approved an amended version of the then-current version of the 2018 Plan that served to, among other things, increase the number of ordinary shares authorized for issuance thereunder by 6.3 million. At December 31, 2024, there were 17.9 million ordinary shares available for issuance in the aggregate under the 2018 Plan. The 2018 Plan provides that awards other than stock options will be counted against the total number of shares available under the plan in a 1.8-to-1 ratio.

Stock Options

A summary of stock option activity is presented in the following table:

26.91

per share, a weighted average contractual remaining life of 7.9 years and an aggregate intrinsic value of \$15.4 million. At December 31, 2024, the aggregate intrinsic value of stock options exercisable was \$38.5 million with a weighted average remaining contractual term of 4.4 years. The number of stock options expected to vest was determined by applying the pre-vesting forfeiture rate to the total number of outstanding options. The intrinsic value of a stock option is the amount by which the market value of the underlying shares exceeds the exercise price of the stock option.

At December 31, 2024, there was \$32.3 million of unrecognized share-based compensation expense related to unvested stock options, which is expected to be recognized over a weighted average period of 1.9 years.

The weighted average grant date fair values of time-vesting RSUs granted during the years ended December 31, 2024, 2023 and 2022 were \$

29.51

, \$

27.65

and \$

25.27

, respectively. The total fair value of time-vesting RSUs that vested during the years ended December 31, 2024, 2023 and 2022, was \$

51.6

million, \$

63.0

million and \$

54.3

million, respectively.

At December 31, 2024, there was \$

53.4

million of total unrecognized share-based compensation expense related to unvested time-vesting RSUs, which will be recognized over a weighted average remaining contractual term of

1.9

years.

Performance-Based Restricted Stock Unit Awards

In February 2024, 2023 and 2022, the compensation committee of the Company's board of directors approved the Company's long-term incentive plans, pursuant to which awards of performance-based RSUs are granted to employees of the Company at the Senior Vice President level and above, in each case subject to vesting based on the achievement of certain financial, commercial and/or R&D performance criteria to be assessed over a performance period of

three years

from the date of the grant, and

subject, at the end of such three-year performance period, to upward or downward adjustment based on a market condition tied to relative share price performance over the three-year performance period.

A summary of performance-based RSU activity is presented in the following table:

Year	Number of Shares	Weighted Average
2017	1,160,000	1.16%
2018	13,360,000	13.36%

The total fair value of performance-based RSUs that vested during the years ended December 31, 2024, 2023 and 2022 were \$10.1 million, \$5.9 million and none, respectively. At December 31, 2024, there was \$

3.0 million of unrecognized share-based compensation expense related to unvested performance-based RSUs which would be recognized in accordance with the terms of the awards when the Company deems it probable that the performance criteria will be met.

During the year ended December 31, 2024, the Company recognized share-based compensation expense related to certain performance-based RSUs that were granted during 2021. As of December 31, 2023, the financial performance criteria for these awards were deemed not probable of being achieved; however, in February 2024, the compensation committee of the Company's board of directors determined that the Company partially achieved the financial performance criteria. This was considered a modification in accordance with FASB ASC 718, Compensation—Stock Compensation and resulted in a modification charge of approximately \$6.8 million. In February 2024, the compensation committee of the Company's board of directors also determined that the Company achieved the pipeline performance criteria for these awards, resulting in a \$2.6 million incremental share-based compensation expense, as it was deemed such pipeline performance criteria had been met. The share-based compensation expense related to these achievements was recognized in 2024.

The following table presents share-based compensation expense from continuing and discontinued operations included in the Company's consolidated statements of operations and comprehensive income (loss):

	2024	2023	2022	2021	2020	2019	2018	2017	2016	2015	2014	2013	2012	2011	2010	2009	2008	2007	2006	2005	2004	2003	2002	2001	2000	1999	1998	1997	1996	1995	1994	1993	1992	1991	1990	1989	1988	1987	1986	1985	1984	1983	1982	1981	1980	1979	1978	1977	1976	1975	1974	1973	1972	1971	1970	1969	1968	1967	1966	1965	1964	1963	1962	1961	1960	1959	1958	1957	1956	1955	1954	1953	1952	1951	1950	1949	1948	1947	1946	1945	1944	1943	1942	1941	1940	1939	1938	1937	1936	1935	1934	1933	1932	1931	1930	1929	1928	1927	1926	1925	1924	1923	1922	1921	1920	1919	1918	1917	1916	1915	1914	1913	1912	1911	1910	1909	1908	1907	1906	1905	1904	1903	1902	1901	1900	1899	1898	1897	1896	1895	1894	1893	1892	1891	1890	1889	1888	1887	1886	1885	1884	1883	1882	1881	1880	1879	1878	1877	1876	1875	1874	1873	1872	1871	1870	1869	1868	1867	1866	1865	1864	1863	1862	1861	1860	1859	1858	1857	1856	1855	1854	1853	1852	1851	1850	1849	1848	1847	1846	1845	1844	1843	1842	1841	1840	1839	1838	1837	1836	1835	1834	1833	1832	1831	1830	1829	1828	1827	1826	1825	1824	1823	1822	1821	1820	1819	1818	1817	1816	1815	1814	1813	1812	1811	1810	1809	1808	1807	1806	1805	1804	1803	1802	1801	1800	1799	1798	1797	1796	1795	1794	1793	1792	1791	1790	1789	1788	1787	1786	1785	1784	1783	1782	1781	1780	1779	1778	1777	1776	1775	1774	1773	1772	1771	1770	1769	1768	1767	1766	1765	1764	1763	1762	1761	1760	1759	1758	1757	1756	1755	1754	1753	1752	1751	1750	1749	1748	1747	1746	1745	1744	1743	1742	1741	1740	1739	1738	1737	1736	1735	1734	1733	1732	1731	1730	1729	1728	1727	1726	1725	1724	1723	1722	1721	1720	1719	1718	1717	1716	1715	1714	1713	1712	1711	1710	1709	1708	1707	1706	1705	1704	1703	1702	1701	1700	1699	1698	1697	1696	1695	1694	1693	1692	1691	1690	1689	1688	1687	1686	1685	1684	1683	1682	1681	1680	1679	1678	1677	1676	1675	1674	1673	1672	1671	1670	1669	1668	1667	1666	1665	1664	1663	1662	1661	1660	1659	1658	1657	1656	1655	1654	1653	1652	1651	1650	1649	1648	1647	1646	1645	1644	1643	1642	1641	1640	1639	1638	1637	1636	1635	1634	1633	1632	1631	1630	1629	1628	1627	1626	1625	1624	1623	1622	1621	1620	1619	1618	1617	1616	1615	1614	1613	1612	1611	1610	1609	1608	1607	1606	1605	1604	1603	1602	1601	1600	1599	1598	1597	1596	1595	1594	1593	1592	1591	1590	1589	1588	1587	1586	1585	1584	1583	1582	1581	1580	1579	1578	1577	1576	1575	1574	1573	1572	1571	1570	1569	1568	1567	1566	1565	1564	1563	1562	1561	1560	1559	1558	1557	1556	1555	1554	1553	1552	1551	1550	1549	1548	1547	1546	1545	1544	1543	1542	1541	1540	1539	1538	1537	1536	1535	1534	1533	1532	1531	1530	1529	1528	1527	1526	1525	1524	1523	1522	1521	1520	1519	1518	1517	1516	1515	1514	1513	1512	1511	1510	1509	1508	1507	1506	1505	1504	1503	1502	1501	1500	1499	1498	1497	1496	1495	1494	1493	1492	1491	1490	1489	1488	1487	1486	1485	1484	1483	1482	1481	1480	1479	1478	1477	1476	1475	1474	1473	1472	1471	1470	1469	1468	1467	1466	1465	1464	1463	1462	1461	1460	1459	1458	1457	1456	1455	1454	1453	1452	1451	1450	1449	1448	1447	1446	1445	1444	1443	1442	1441	1440	1439	1438	1437	1436	1435	1434	1433	1432	1431	1430	1429	1428	1427	1426	1425	1424	1423	1422	1421	1420	1419	1418	1417	1416	1415	1414	1413	1412	1411	1410	1409	1408	1407	1406	1405	1404	1403	1402	1401	1400	1399	1398	1397	1396	1395	1394	1393	1392	1391	1390	1389	1388	1387	1386	1385	1384	1383	1382	1381	1380	1379	1378	1377	1376	1375	1374	1373	1372	1371	1370	1369	1368	1367	1366	1365	1364	1363	1362	1361	1360	1359	1358	1357	1356	1355	1354	1353	1352	1351	1350	1349	1348	1347	1346	1345	1344	1343	1342	1341	1340	1339	1338	1337	1336	1335	1334	1333	1332	1331	1330	1329	1328	1327	1326	1325	1324	1323	1322	1321	1320	1319	1318	1317	1316	1315	1314	1313	1312	1311	1310	1309	1308	1307	1306	1305	1304	1303	1302	1301	1300	1299	1298	1297	1296	1295	1294	1293	1292	1291	1290	1289	1288	1287	1286	1285	1284	1283	1282	1281	1280	1279	1278	1277	1276	1275	1274	1273	1272	1271	1270	1269	1268	1267	1266	1265	1264	1263	1262	1261	1260	1259	1258	1257	1256	1255	1254	1253	1252	1251	1250	1249	1248	1247	1246	1245	1244	1243	1242	1241	1240	1239	1238	1237	1236	1235	1234	1233	1232	1231	1230	1229	1228	1227	1226	1225	1224	1223	1222	1221	1220	1219	1218	1217	1216	1215	1214	1213	1212	1211	1210	1209	1208	1207	1206	1205	1204	1203	1202	1201	1200	1199	1198	1197	1196	1195	1194	1193	1192	1191	1190	1189	1188	1187	1186	1185	1184	1183	1182	1181	1180	1179	1178	1177	1176	1175	1174	1173	1172	1171	1170	1169	1168	1167	1166	1165	1164	1163	1162	1161	1160	1159	1158	1157	1156	1155	1154	1153	1152	1151	1150	1149	1148	1147	1146	1145	1144	1143	1142	1141	1140	1139	1138	1137	1136	1135	1134	1133	1132	1131	1130	1129	1128	1127	1126	1125	1124	1123	1122	1121	1120	1119	1118	1117	1116	1115	1114	1113	1112	1111	1110	1109	1108	1107	1106	1105	1104	1103	1102	1101	1100	1099	1098	1097	1096	1095	1094	1093	1092	1091	1090	1089	1088	1087	1086	1085	1084	1083	1082	1081	1080	1079	1078	1077	1076	1075	1074	1073	1072	1071	1070	1069	1068	1067	1066	1065	1064	1063	1062	1061	1060	1059	1058	1057	1056	1055	1054	1053	1052	1051	1050	1049	1048	1047	1046	1045	1044	1043	1042	1041	1040	1039	1038	1037	1036	1035	1034	1033	1032	1031	1030	1029	1028	1027	1026	1025 16. COLLABORATIVE ARRANGEMENTS

The Company has entered into several collaborative arrangements to develop and commercialize products and, in connection with such arrangements, to

access technologies, financial, marketing, manufacturing and other resources. Refer to the "Patents and Proprietary Rights" section in "Item 1— Business" of this Annual Report for information with respect to IP protection for these products. The collaboration revenue the Company has earned in the years ended December 31, 2024, 2023 and 2022 is summarized in Note 4.

Revenue from Contracts with Customers within the notes to the consolidated financial statements in this Annual Report.

The Company's significant collaborative arrangements are described below:

Janssen

INVEGA SUSTENNA/XEPLION, INVEGA TRINZA/TREVICTA and INVEGA HAFYERA/BYANLLI

Under an exclusive license agreement with Janssen, the Company provided Janssen with rights to, and know-how, training and technical assistance in respect of, the Company's small particle pharmaceutical compound technology, known as NanoCrystal technology, which was used to develop the long-acting INVEGA products, and the Company received milestone payments from Janssen upon the achievement of certain development goals from Janssen; there are no further milestones to be earned under this agreement. The agreement also provides for tiered royalty payments, which consist of a patent royalty and a know-how royalty, both of which are determined on a country-by-country basis. The patent royalty, which equals 1.5% of net sales, is payable in each country until the expiration of the last of the patents with valid claims applicable to the product in such country. The know-how royalty is a tiered royalty of 3.5% and 5.5% and 7.5% on aggregate worldwide net sales of below \$250

million, between \$250 million and \$500 million, and greater than \$500 million, respectively. The know-how royalty rate resets to 3.5% at the beginning of each calendar year and is payable until 15 years from first commercial sale of a product in each individual country, subject to expiry of the agreement. These royalty payments may be reduced in any country based on patent litigation or on competing products achieving certain minimum sales thresholds. The license agreement, unless earlier terminated, terminates upon the expiration of the last of the patents subject to the agreement. After expiration, Janssen retains a non-exclusive, royalty-free license to develop, manufacture and commercialize the products, subject to certain surviving obligations. Janssen may terminate the license agreement in whole or in part upon three months' notice to the Company. The Company and Janssen have the right to terminate the agreement upon a material breach of the other party, which is not cured within a certain time period, or upon the other party's bankruptcy or insolvency.

In November 2021, the Company received notice from Janssen of partial termination of the license agreement, following which Janssen ceased paying the Company royalties related to U.S. sales of INVEGA SUSTENNA, INVEGA TRINZA and INVEGA HAFYERA. In April 2022, the Company commenced binding arbitration proceedings related to, among other things, Janssen's partial termination of this license agreement and Janssen's royalty and other obligations under the agreement. In May 2023, the Tribunal in the arbitration proceedings issued a Final Award that served to reinstate the Janssen royalties and required payment by Janssen of back royalties and interest for amounts owed but not yet paid since the effective date of the partial termination. The Final Award also provided, among other things, that the Company was entitled to royalty revenues from Janssen related to net sales of INVEGA SUSTENNA through August 20, 2024, INVEGA TRINZA through the second quarter of 2030 (but no later than May 2030 when the license agreement expires) and INVEGA HAFYERA through May 2030 (when the license agreement expires).

RISPERDAL CONSTA

Under a product development agreement, the Company collaborated with Janssen on the development of

RISPERDAL CONSTA. Under the development agreement, Janssen provided funding to the Company for the development of RISPERDAL CONSTA and Janssen is responsible for securing all necessary regulatory approvals for the product.

Under two license agreements, the Company granted Janssen and an affiliate of Janssen exclusive worldwide licenses to use and sell RISPERDAL CONSTA. Under its license agreements with Janssen, the Company receives royalty payments equal to 2.5% of Janssen's end-market net sales of RISPERDAL CONSTA in each country where the license is in effect based on the quarter when the product is sold by Janssen. This royalty may be reduced in any country based on lack of patent coverage and significant competition from generic versions of the product. Janssen can terminate the license agreements upon 30 days' prior written notice to the Company. Either party may terminate the license agreements by written notice following a breach which continues for 90 days after the delivery of written notice thereof or upon the other party's insolvency. The licenses granted to Janssen expire on a country-by-country basis upon the later of: (i) the expiration of the last patent claiming the product in such country; or (ii) 15 years after the date of the first commercial sale of the product in such country, provided that in no event will the license granted to Janssen expire later than the twentieth anniversary of the first commercial sale of the product in each such country, with the exception of Canada, France, Germany, Italy, Japan, Spain and the United Kingdom, in each case where the fifteen-year minimum shall pertain regardless. After expiration, Janssen retains a non-exclusive, royalty-free license to manufacture, use and sell RISPERDAL CONSTA.

The Company exclusively manufactures RISPERDAL CONSTA at its Wilmington, Ohio facility for commercial sale. Under its manufacturing and supply agreement with Janssen, the Company records manufacturing revenues when product is fully manufactured and approved for shipment by both Janssen and the Company. Revenue is based on a percentage of Janssen's net unit sales price for RISPERDAL CONSTA for the applicable calendar year. This percentage is determined based on Janssen's unit demand for such calendar year and varies based on the volume of units

shipped, with a minimum manufacturing fee of 7.5%. Either party may terminate the manufacturing and supply agreement upon a material breach by the other party, which is not resolved within 60 days after receipt of a written notice specifying the material breach or upon written notice in the event of the other party's insolvency or bankruptcy. Janssen may terminate the agreement upon six months' written notice to the Company. In the event that Janssen terminates the manufacturing and supply agreement without terminating the license agreements, the royalty rate payable to the Company on Janssen's net sales of RISPERDAL CONSTA would increase from 2.5% to 5.0%.

Biogen

Under a license and collaboration agreement with Biogen, the Company granted Biogen a worldwide, exclusive, sublicensable license to develop, manufacture and commercialize VUMERITY and other products covered by patents licensed to Biogen under the agreement.

Under this license and collaboration agreement, the Company received an upfront cash payment and milestone payments related to the achievement of certain milestones. The Company is also eligible to receive additional payments upon achievement of certain milestones, including milestones relating to the first two products, other than VUMERITY, covered by patents licensed to Biogen under the license and collaboration agreement.

In addition, the Company receives a 15% royalty on worldwide net sales of VUMERITY, subject to increases for VUMERITY

manufactured and/or packaged by Biogen or its designees. The Company is also entitled to receive royalties on net sales of products other than VUMERITY covered by patents licensed to Biogen under the license and collaboration agreement, at tiered royalty rates calculated as percentages of net sales ranging from high-single digits to sub-teen double digits. All royalties are payable on a product-by-product and country-by-country basis until the later of (i) the last-to-expire patent right covering the applicable product in the applicable country and (ii) a specified period of time from the first commercial sale of the applicable product in the applicable country. Royalties for all products are subject to customary reductions, as set forth in the license and collaboration agreement.

Following FDA approval of VUMERITY and, except for the manufacturing responsibilities discussed below, Biogen is now responsible for all development and commercialization activities for VUMERITY and all other products covered by the patents that we licensed to Biogen.

Under the license and collaboration agreement, Biogen appointed the Company as the toll manufacturer of clinical and commercial supplies of VUMERITY, subject to Biogen's right to manufacture or have manufactured commercial supplies as a back-up manufacturer. In October 2019, the Company entered into a commercial supply agreement with Biogen for the commercial supply of VUMERITY, an amendment to such commercial supply agreement and an amendment to the license and collaboration agreement with Biogen, pursuant to which Biogen has conducted a technology transfer and, following an agreed transition period, has elected to assume responsibility for the manufacture (itself or through a designee) of clinical and commercial supplies of VUMERITY in exchange for an increase in the royalty rate to be paid by Biogen to the Company on net sales of product that is manufactured by Biogen or its designee. In May 2024, the Company completed the sale of the Athlone Facility where VUMERITY is manufactured. In connection with the sale of the Athlone Facility, the Company has entered into a subcontracting arrangement with the purchaser of the Athlone Facility for the manufacture of VUMERITY through the manufacturing transition period, which may continue through the end of 2025.

Unless earlier terminated, the license and collaboration agreement will remain in effect until the expiry of all royalty obligations. Biogen has the right to terminate the license and collaboration agreement at will, on a product-by-product basis or in its entirety upon 180 days' prior notice to the Company. Either party has the right to terminate the license and collaboration agreement following any governmental prohibition of the transactions effected by the agreement, or in connection with an insolvency event involving the other party. Upon termination of the license and collaboration agreement by either party, then, at the Company's request, the VUMERITY program will revert to the Company.

2,024	(1)

Prior period amounts have been retrospectively adjusted to reflect the effects of the Separation.

The income tax provision in 2024 was primarily due to taxes on income earned in Ireland. The income tax benefit in 2023 was primarily due to the partial release of the valuation allowance maintained against certain Irish deferred tax assets, partially offset by taxes on income earned in the U.S. and Ireland. The income tax expense in 2022 was primarily due to taxes on income earned in the U.S.

bottom:0;text-align:left;">In December 2022, the EU implemented a new corporate minimum tax rate of 15% on companies with consolidated annual revenue of at least €750.0 million, which was transposed into Irish law effective as of January 1, 2024. The Company has determined that this new minimum tax had no material impact for the year ended December 31, 2024.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The income tax benefit associated with the Company's former oncology business, and the tax impact of the Separation, are discussed in further detail in Note 3, Discontinued Operations, in these "Notes to Consolidated Financial Statements" in this Annual Report. The tax benefits included within discontinued operations were \$0.7 million, \$1.4 million, and \$11.1 million for the years ended December 31, 2024, 2023, and 2022, respectively.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">No provision for income tax has been provided on undistributed earnings of the Company's foreign subsidiaries because such earnings are indefinitely reinvested in the foreign operations. Cumulative unremitted earnings of U.S. subsidiaries totaled approximately \$933.5 million at December 31, 2024. In the event of a repatriation of those earnings in the form of dividends or otherwise, the Company may be liable for income taxes, subject to adjustment, if any, for foreign tax credits and foreign withholding taxes payable to foreign tax authorities. The Company estimates that approximately \$72.0 million of income taxes would be payable on the repatriation of the unremitted earnings to Ireland.</p></div><div style="font-size:10pt;font-family:Times New Roman;"><p style="text-indent:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-

bottom:0;text-align:left;">The distribution of the Company's income (loss) before the provision (benefit) for income taxes by geographical area consists of the following:</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;"> </p> <table style="margin-left:auto;border-spacing:0;table-layout:auto;width:100.0%;border-collapse:separate;margin-right:auto;"> <tr style="visibility:collapse;"> <td style="width:63.46%;box-sizing:content-box;"></td> <td style="width:1.66%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> <td style="width:8.520000000000001%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> <td style="width:1.66%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> <td style="width:8.520000000000001%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> <td style="width:1.66%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> <td style="width:8.520000000000001%;box-sizing:content-box;"></td> <td style="width:1%;box-sizing:content-box;"></td> </tr> <tr style="height:8pt;background-color:#ffffff;white-space:pre-wrap;word-break:break-word;"> <td style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;padding-right:0.01in;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;margin-right:0.009722222222222222in;text-align:left;"> </p></td> <td style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;padding-right:0.01in;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;margin-right:0.009722222222222222in;text-align:center;"> </p></td> <td colspan="10" style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;border-bottom:0.5pt solid #000000;padding-right:0.01in;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;margin-right:0.009722222222222222in;text-align:center;">Year Ended December 31,</p></td> <td style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;border-bottom:0.5pt solid #ffffff03;padding-right:0.01in;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;"> </p></td> </tr> <tr style="height:8pt;background-color:#ffffff;white-space:pre-wrap;word-break:break-word;"> <td style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;padding-right:0.01in;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;margin-right:0.009722222222222222in;text-align:left;">(In thousands)</p></td> <td style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;padding-right:0.01in;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;margin-right:0.009722222222222222in;text-align:left;"> </p></td> <td colspan="2" style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;border-bottom:0.5pt solid #000000;padding-right:0.01in;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;margin-right:0.009722222222222222in;text-align:center;">2024</p></td> <td style="padding-top:0.01in;vertical-align:bottom;padding-bottom:0in;border-bottom:0.5pt solid #ffffff03;padding-

bottom:0;text-align:left;">)</p></td></tr></table><p style="padding-bottom:1pt;font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;border-bottom:0.5pt solid;margin-right:73.333%;text-align:left;"></p><div class="item-list-element-wrapper" style="margin-left:3.333%;display:flex;margin-top:2pt;justify-content:flex-start;align-items:baseline;margin-bottom:0;min-width:4.537%;text-align:left;">(1)<div style="width:100%;display:inline;">Inclusive of continuing and discontinued operations for the periods prior to the Separation in November 2023.</div></div><div class="item-list-element-wrapper" style="margin-left:3.333%;display:flex;margin-top:2pt;justify-content:flex-start;align-items:baseline;margin-bottom:0;min-width:4.537%;text-align:left;">(2)<div style="width:100%;display:inline;">(Additions) reductions represent continuing and discontinued operations for the periods prior to the Separation in November 2023. The reductions during the year ended December 31, 2024 primarily relate to the abandonment of certain Irish NOLs following the sale of the Athlone Facility to Novo. These NOLs were transferred from Elan Corporation, plc as part of the combination of the drug technology business of Elan Corporation, plc with the business of Alkermes, Inc. A number of restrictions applied to these NOLs thereby restricting the Company's ability to utilize such NOLs. Following the sale of the Athlone Facility, the Company believes that its ability to utilize these NOLs is remote. The reduction during the year ended December 31, 2023 primarily relates to the partial release of the valuation allowance maintained by the Company against certain Irish net deferred tax assets. The additions in 2022 relate primarily to Irish NOLs.</div></div></div><p style="text-indent:4.533%;font-size:10pt;margin-top:10pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The Company regularly assesses the need for a valuation allowance against its deferred tax assets. In making such assessment, the Company considers both positive and negative evidence related to the likelihood of realization of the deferred tax assets to determine, based on the weight of available evidence, whether it is more-likely-than-not that some or all of the deferred tax assets will not be realized. At December 31, 2024, the Company maintained a valuation allowance of \$29.6 million against certain U.S. state deferred tax assets and \$50.1 million against certain Irish deferred tax assets, as the Company has determined that it is more-likely-than-not that these deferred tax assets will not be realized and some may be abandoned.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:10pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">If the Company incurs losses in the U.S. or in Ireland in the future, or fails to achieve sufficient profitability in a timely manner, the evaluation of the

recoverability of the deferred tax assets could change and a valuation allowance against such deferred tax assets may be required in part or in whole. The Company will continue to monitor the need for a valuation allowance against its deferred tax assets on a quarterly basis.

As of December 31, 2024, the Company had \$393.9 million of Irish NOL carryforwards, \$14.1 million of U.S. federal NOL carryforwards, \$43.2 million of state NOL carryforwards and \$34.0 million of state tax credits which will either expire on various dates through 2039 or can be carried forward indefinitely. These loss and credit carryforwards are available to reduce certain future Irish and foreign taxable income and tax. These loss and credit carryforwards are subject to review and possible adjustment by the appropriate taxing authorities and may be subject to limitations based upon changes in the ownership of the Company's ordinary shares. Included within these loss and credit carryforwards are \$14.1 million of U.S. federal NOL carryforwards and \$5.8 million of state NOL carryforwards, acquired as part of the acquisition of Rodin Therapeutics, Inc. in November 2019, each of which are subject to a \$0.5 million annual limitation.

A reconciliation of the Company's statutory tax rate to its effective tax rate is as follows:

[illegible]

[illegible]

[illegible]

[illegible]

Income (loss) from continuing operations before income taxes at statutory rate	55,469
Income (loss) from continuing operations after income taxes at statutory rate	52,690

wrap;font-size:8pt;font-family:Times New Roman;font-kerning:none;min-width:fit-content;">Intercompany amounts include cross-territory eliminations, the pre-tax effect of which has been eliminated in arriving at the Company's consolidated income (loss) before taxes from continuing operations. In 2023, this included a tax benefit of \$

15.7 million related to the intercompany transfer of inventory that was owned by the Company at December 31, 2023.

(4) Represents income or losses of Irish companies subject to tax at a rate other than the Irish statutory rate.

(5) Represents the tax effect of the abandonment of Irish NOLs following the sale of the Athlone Facility to Novo.

(6) Other permanent items include, but are not limited to, non-deductible meals and entertainment expenses and non-deductible compensation of senior officers of the Company. For the year ended December 31, 2024, permanent items also included amounts relating to the sale of the Athlone Facility.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

The Company does not anticipate that the amount of existing unrecognized tax benefits will materially increase or decrease within the next 12 months. The Company has elected to include interest and penalties related to uncertain tax positions as a component of its provision for taxes. For the years ended December 31, 2024, 2023 and 2022, the Company's accrued interest and penalties related to uncertain tax positions were not material.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:10pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The Company's major taxing jurisdictions include Ireland and the U.S. (federal and state). These jurisdictions have varying statutes of limitations. In the U.S., the 2021 through 2024 fiscal years remain subject to examination by the respective tax authorities, however, some states have longer statutes of limitations and additional fiscal years remain subject to examination. In Ireland, the 2020 through 2024 fiscal years remain subject to examination by the Irish tax authorities. Additionally, because of the Company's Irish and U.S. loss carryforwards and credit carryforwards, certain tax returns from fiscal years 2002 onward may also be examined. These years generally remain open for threetofour yearsafter the loss carryforwards and credit carryforwards have been utilized.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The Company's provision (benefit) for income taxes from continuing operations consists of the following:</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-

(1)

Prior period amounts have been retrospectively adjusted to reflect the effects of the Separation.

(2)

Represents income or losses of U.S. subsidiaries, subject to tax at a rate other than the Irish statutory rate.

(3)

Intercompany amounts include cross-territory eliminations, the pre-tax effect of which has been eliminated in arriving at the Company's consolidated income (loss) before taxes from continuing operations. In 2023, this included a tax benefit of \$15.7million related to the intercompany transfer of inventory that was owned by the Company at December 31, 2023.

(4)

Represents income or losses of Irish companies subject to tax at a rate other than the Irish statutory rate.

(5) Represents the tax effect of the abandonment of Irish NOLs following the sale of the Athlone Facility to Novo.

(6) Other permanent items include, but are not limited to, non-deductible meals and entertainment expenses and non-deductible compensation of senior officers of the Company. For the year ended December 31, 2024, permanent items also included amounts relating to the sale of the Athlone Facility.

content;">From time to time, the Company may be subject to legal proceedings and claims in the ordinary course of business. On a quarterly basis, the Company reviews the status of each significant matter and assesses its potential financial exposure. If

the potential loss from any claim, asserted or unasserted, or legal proceeding is considered probable and the amount can be reasonably estimated, the Company would accrue a liability for the estimated loss. Because of uncertainties related to claims and litigation, accruals are based on the Company's best estimates, utilizing all available

information. On a periodic basis, as additional information becomes available, or based on specific events such as the outcome of litigation or settlement of claims, the Company may reassess the potential liability related to these matters and may revise these estimates, which could result in material adverse adjustments to the Company's

operating results. At December 31, 2024, there were no<span style="color:#000000;white-space:pre-wrap;font-size:10pt;font-family:Times New Roman;font-kerning:none;min-

width:fit-content;"> potential material losses from claims, asserted or unasserted, or legal proceedings that the Company determined were probable of occurring.</p><p style="margin-left:4.533%;font-size:10pt;margin-top:8pt;font-family:Times New Roman;margin-bottom:0;text-align:left;"><span style="color:#000000;white-

Roman;font-kerning:none;min-width:fit-content;">In September 2020, Janssen Pharmaceutica, Janssen Pharmaceuticals, Inc., and Janssen Research & Development, LLC initiated a patent infringement lawsuit in the NJ District Court against Mylan Labs, Mylan, and Mylan Institutional LLC following the filing by Mylan

Labs of an ANDA seeking approval from the FDA to market a generic version of INVEGA TRINZA before the expiration of U.S. Patent No. 10,143,693 (the "'693 Patent"). Requested judicial remedies include recovery of litigation costs and injunctive relief. In May 2023, the NJ District Court issued an opinion in favor of the

Janssen entities on the issues of infringement and validity of the '693 Patent and the Mylan entities filed a notice of appeal of the decision. The Company is not a party to this proceeding.</p><p style="text-indent:3.333%;font-size:10pt;margin-

VUMERITY ANDA Litigation

In July 2023, Biogen Inc., Biogen Swiss Manufacturing GmbH and Alkermes Pharma Ireland Limited filed a patent infringement lawsuit in the DE District Court against Zydus Worldwide DMCC, Zydus Pharmaceuticals (USA) Inc. and Zydus Lifesciences Limited (collectively, “Zydus”) following the filing by Zydus of an ANDA seeking approval from the FDA to engage in the commercial manufacture, use or sale of a generic version of VUMERITY (diroximel fumarate) delayed-release capsules for oral use, 231 mg, before expiration of the Company’s U.S. Patent Nos. 8,669,281; 9,090,558; and 10,080,733. The filing of the lawsuit triggered a stay of FDA approval of the ANDA for up to 30 months in accordance with the U.S. Drug Price Competition and Patent Term Restoration Act of 1984 (the “Hatch-Waxman Act”). A bench trial is scheduled to begin on July 28, 2025.

Government Matters

The Company has received a subpoena and civil investigative demands from U.S. state and federal governmental authorities for documents related to VIVITROL. The Company is cooperating with the investigations.

Product Liability and Other Legal Proceedings

The Company is involved in litigation and other legal proceedings incidental to its normal business activities, including a product liability case alleging that the FDA-approved VIVITROL labeling was inadequate and that VIVITROL caused the individual to suffer from opioid overdose and death. The Company intends to vigorously defend itself in these matters.

In addition, in January 2023, Acorda filed a petition with the U.S. District Court for the Southern District of New York (the “NY Southern District Court”) asking the court to confirm in part and modify in part the final arbitral award rendered by an arbitration panel in October 2022 and, as part of the requested modification, seeking an additional approximately \$66.0 million in damages. In August 2023, the NY Southern District Court confirmed the final arbitral award and declined to modify the final award to increase the damages awarded thereunder. In September 2023, Acorda filed a notice of appeal of the NY Southern District Court decision to the U.S. Court of Appeals for the Federal Circuit (the “Federal Circuit Court”), and the Company filed a motion to transfer the appeal to the U.S. Court of Appeals for the

Second Circuit. In January 2024, the Federal Circuit Court denied without prejudice the Company's motion to transfer the appeal and instructed the parties to brief the jurisdictional question as part of the merits appeal. Briefing in the Federal Circuit Court is complete, and the matter is pending decision.

Guarantees

In connection with the Separation, the Company entered into the Assignment related to the 852 Winter Street Lease, which is described in more detail in Note 10, Leases in these "Notes to Consolidated Financial Statements" in this Annual Report. Although the Assignment transferred all of the rights, title and interest in, to and under the 852 Winter Street Lease to Mural US as of November 15, 2023, the Company ratified and reaffirmed for the remainder of the lease term its guarantor obligations under that certain Guaranty dated as of May 16, 2014 related to the 852 Winter Street Lease. Upon completion of the Separation, the Assignment was accounted for as a termination of the original lease and the Company de-recognized the right-of-use asset and lease liability related to the 852 Winter Street Lease. At December 31, 2024, the fair value of the guarantee was no material to the Company.

Purchase Commitments

The Company has open purchase orders for plant and equipment as part of its normal course of business. At December 31, 2024, the Company's open purchase orders were \$17.7 million for capital commitments.

0660000002014-05-16017700000

Adjustments include "Medicaid Rebates" and "Medicare Part D" accruals. "Discounts" include "Chargebacks" and "Product Discounts." At December 31, 2024 and 2023, the Company had \$22.7 million and \$33.9 million, respectively, of finished goods inventory located at its third-party warehouse and shipping service provider. "Other segment (expenses) income" during the years ended December 31, 2024, 2023 and 2022 includes "Amortization of acquired intangible assets", "Other income (loss), net" and "Income tax provision (benefit)".

Auditor Opinion	Opinions on the Financial Statements and Internal Control over Financial Reporting				
We have audited the accompanying consolidated balance sheets of Alkermes plc and its subsidiaries (the "Company") as of December 31, 2024 and 2023, and the related consolidated statements of operations and comprehensive income (loss), of shareholders' equity and of cash flows for each of the three years in the period ended December 31, 2024, including the related notes (collectively referred to as the "consolidated financial statements"). We also have audited the Company's internal control over financial reporting as of December 31, 2024, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).					
In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2024 and 2023, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2024 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2024, based on criteria established in Internal Control - Integrated Framework (2013) issued by the COSO.					
Documents Incorporated by Reference	Portions of the definitive proxy statement for our 2025 Annual General Meeting of Shareholders are incorporated by reference into Part III of this report.
