The healthcare services in home health and hospice patient contracts include routine services in exchange for a contractual agreed-upon amount or rate. Routine services are treated as a single performance obligation satisfied over time as services are rendered. As such, patient care services represent a bundle of services that are not capable of being distinct within the context of the contract. Additionally, there may be ancillary services which are not included in the rates for routine services, but instead are treated as separate performance obligations satisfied at a point in time, if and when those services are rendered.Revenue recognized from healthcare services is adjusted for estimates of variable consideration to arrive at the transaction price. The Company determines the transaction price based on contractually agreed-upon amounts or rates, adjusted for estimates of variable consideration. The Company uses the expected value method in determining the variable component that should be used to arrive at the transaction price, using contractual agreements and historical reimbursement experience within each payor type. The amount of variable consideration which is included in the transaction price may be constrained, and is included in the net revenue only to the extent that it is probable that a significant reversal in the amount of the cumulative revenue recognized will not occur in a future period. If actual amounts of consideration ultimately received differ from the Company's estimates, the Company adjusts these estimates, which would affect net service revenue in the period such variances become known. The Company records revenue from these governmental and managed care programs as services are performed at their expected net realizable amounts under these programs. The Company's revenue from governmental and managed care programs is subject to audit and retroactive adjustment by governmental and third-party agencies. Consistent with healthcare industry accounting practices, any changes to these governmental revenue estimates are recorded in the period the change or adjustment becomes known based on final settlement. Disaggregation of RevenueThe Company disaggregates revenue from contracts with its patients by reportable operating segments and payors. The Company has determined that disaggregating revenue into these categories achieves the disclosure objectives to depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors.9Table of ContentsTHE PENNANT GROUP, INC.NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (Continued)The Company's service specific revenue recognition policies are as follows:Home Health RevenueMedicare RevenueNet service revenue is recognized in accordance with the Patient Driven Groupings Model (seePDGM). Under PDGM, Medicare provides agencies with payments for each 30-day payment period provided to beneficiaries. If a beneficiary is still eligible for care after the end of the first 30-day payment period, a second 30-day payment period can begin. There are no limits to the number of periods of care a beneficiary who remains eligible for the home health benefit can receive. While payment for each 30-day payment period is adjusted to reflect the beneficiary's health condition and needs, a special outlier provision exists to ensure appropriate payment for those beneficiaries that have the most expensive care needs. The payment under the Medicare program is also adjusted for certain variables including, but not limited to: (a) a low utilization payment adjustment if the number of visits is below an established threshold that varies based on the diagnosis of a beneficiary; (b) a partial payment if the patient transferred to another provider or the Company received a patient from another provider before completing the period of care; (c) adjustment to the admission source of claim if it is determined that the patient had a qualifying stay in a post-acute care setting within 14 days prior to the start of a 30-day payment period; (d) the timing of the 30-day payment period provided to a patient in relation to the admission date, regardless of whether the same home health provider provided care for the entire series of episodes; (e) changes to the acuity of the patient during the previous 30-day payment period; (f) changes in the base payments established by the Medicare program; (g) adjustments to the base payments for case mix and geographic wages; and (h) recoveries of overpayments. The Company adjusts Medicare revenue on completed episodes to reflect differences between estimated and actual payment amounts, an inability to obtain appropriate billing documentation and other reasons unrelated to credit risk. Therefore, the Company believes that its reported net service revenue and patient accounts receivable will be the net amounts to be realized from Medicare for services rendered.In addition to revenue recognized on completed episodes and periods, the Company also recognizes a portion of revenue associated with episodes and periods in progress. Episodes in progress are 30-day payment periods that begin during the reporting period but were not completed as of the end of the period. As such, the Company estimates revenue and recognizes it on a daily basis. The primary factors underlying this estimate are the number of episodes in progress at the end of the reporting period, expected Medicare revenue per period of care or episode of care and the Company's estimate of the average percentage complete based on the scheduled end of period and end of episode dates.Non-Medicare RevenueEpisodic Based Revenue - The Company recognizes revenue in a similar manner as it recognizes Medicare revenue for episodic-based rates that are paid by other insurance carriers, including carriers administering Medicare Advantage programs. These rates can vary based upon the negotiated terms.Non-episodic Based Revenue - Revenue is recognized on an accrual basis based upon the date of service at amounts equal to its established or estimated per visit rates, as applicable.Hospice RevenueRevenue is recognized on an accrual basis based upon the date of service at amounts equal to the estimated payment rates. The estimated payment rates are calculated as daily rates for each of the levels of care the Company delivers. Revenue is adjusted for an inability to obtain appropriate billing documentation or authorizations acceptable to the payor and other reasons unrelated to credit risk. Additionally, as Medicare hospice revenue is subject to an inpatient cap and an overall payment cap, the Company monitors its provider numbers and estimates amounts due back to Medicare if a cap has been exceeded. The Company regularly evaluates and records these adjustments as a reduction to revenue and an increase to other accrued liabilities.Senior Living RevenueThe Company has elected the lessor practical expedient within ASC Topic 842, Leases and therefore recognizes, measures, presents, and discloses the revenue for services rendered under the Company's senior living residency agreements 10Table of ContentsTHE PENNANT GROUP, INC.NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (Continued)based upon the predominant component, either the lease or non-lease component, of the contracts. The Company has determined that the services included under the Company's senior living residency agreements each have the same timing and pattern of transfer. The Company recognizes revenue under ASC Topic 606, Revenue from Contracts with Customers for its senior residency agreements, for which it has determined that the non-lease components of such residency agreements are the predominant component of each such contract.The Company's senior living revenue consists of fees for basic housing and assisted living care. Accordingly, the Company records revenue when services are rendered on the date services are provided at amounts billable to individual residents. Residency agreements are generally for a term of 30 days, with resident fees billed monthly in advance. For residents under reimbursement arrangements with Medicaid, revenue is recorded based on contractually agreed-upon amounts or rates on a per resident, daily basis or as services are rendered.Revenue By PayorRevenue by payor for the three months ended September 30, 2024 and 2023, is summarized in the following tables:Three Months Ended September 30, 2024Home Health and Hospice ServicesHome Health ServicesHospice ServicesSenior Living ServicesTotal RevenueRevenue %Medicare\$32,403Å \$54,516Å \$æ"Å \$86,919Å 48.1Å %Medicaid2,847Å 6,303Å 12,356Å 22,715Å 12.6Å Subtotal35,250Å 60,819Å 13,565Å 109,634Å 60.7Å Managed care23,147Å 1,505Å æ"Å 24,652Å 13.6Å Private and other(a)14,518Å 433Å 31,451Å 46,402Å 25.7Å Total revenue\$72,915Å \$62,757Å \$45,016Å \$180,688Å 100.0Å (a)Private and other payors in the Company's home health services includes revenue from all payors generated in the Company's home care operations and management services agreement.Three Months Ended September 30, 2023Home Health and Hospice ServicesHome Health ServicesHospice ServicesSenior Living ServicesTotal RevenueRevenue %Medicare\$24,076Å \$43,849Å \$æ"Å \$67,925Å 48.5Å %Medicaid2,521Å 5,190Å 12,182Å 19,893Å 14.2Å Subtotal26,597Å 49,039Å 12,182Å 87,818Å 62.7Å Managed care17,927Å 1,231Å æ"Å 19,158Å 13.6Å Private and other(a)6,579Å 101Å 26,536Å 33,216Å 23.7Å Total revenue\$51,103Å \$50,371Å \$38,718Å \$140,192Å 100.0Å (a)Private and other payors in the Company's home health services includes revenue from all payors generated in the Company's home care operations.11Table of ContentsTHE PENNANT GROUP, INC.NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (Continued)Revenue by payor for the nine months ended September 30, 2024 and 2023, is summarized in the following tables:Nine Months Ended September 30, 2024Home Health and Hospice ServicesHome Health ServicesHospice ServicesSenior Living ServicesTotal RevenueRevenue %Medicare\$92,600Å \$153,146Å \$æ"Å \$245,746Å 48.5Å %Medicaid8,935Å 18,925Å 38,526Å 66,386Å 13.1Å Subtotal101,535Å 172,071Å 38,526Å 312,132Å 61.6Å Managed care62,529Å 3,555Å æ"Å 66,084Å 13.1Å Private and other(a)36,688Å 1,085Å 90,359Å 128,132Å 25.3Å Total revenue\$200,752Å \$176,711Å \$128,885Å \$506,348Å 100.0Å (a)Private and other payors in the Company's home health services includes revenue from all payors generated in the Company's home care operations and management services agreement.Nine Months Ended September 30, 2023Home Health and Hospice ServicesHome Health ServicesHospice ServicesSenior Living ServicesTotal RevenueRevenue %Medicare\$71,372Å \$121,523Å \$æ"Å \$192,895Å 48.3Å %Medicaid7,178Å 14,470Å 34,807Å 56,455Å 14.2Å Subtotal78,550Å 135,993Å 34,807Å 249,350Å 62.5Å Managed care49,696Å 3,842Å æ"Å 53,538Å 13.4Å Private and other(a)19,105Å 387Å 76,557Å 96,049Å 24.1Å Total revenue\$147,351Å \$140,222Å \$111,364Å \$398,937Å 100.0Å (a)Private and other payors in the Company's home health services includes revenue from all payors generated in the Company's home care operations.Balance Sheet ImpactIncluded in the Company's Condensed Consolidated Balance Sheets are contract assets, comprised of billed accounts receivable and unbilled receivables, which are the result of the timing of revenue recognition, billings and cash collections, as well as, contract liabilities, which primarily represent payments the Company receives in advance of services provided. Accounts receivable, net as of September 30, 2024 and December 31, 2023 is summarized in the following table: September 30, 2024December 31, 2023Medicare\$45,685Å \$35,665Å Medicaid\$14,289Å 11,578Å Managed care15,391Å 11,752Å Private and other8,973Å 2,380Å Accounts receivable, gross84,338Å 61,375Å Less: allowance for doubtful accounts(313)(259)Accounts receivable, net\$84,025Å \$61,116Å Concentrations - Credit RiskThe Company has significant accounts receivable balances, the collectability of which is dependent on the availability of funds from certain governmental programs, primarily Medicare and Medicaid. These receivables represent the only significant concentration of credit risk for the Company. The Company does not believe there are significant credit risks 12Table of ContentsTHE PENNANT GROUP, INC.NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (Continued)associated with these governmental programs. The Company believes that an appropriate allowance has been recorded for the possibility of these receivables proving uncollectible, and continually monitors and adjusts these allowances as necessary. The Company's gross receivables from the Medicare and Medicaid programs accounted for approximately 71.1% and 77.0% of its total gross accounts receivable as of September 30, 2024 and December 31, 2023, respectively. Combined revenue from reimbursement under the Medicare and Medicaid programs accounted for 60.7% and 61.6% of the Company's revenue for the three and nine months ended September 30, 2024, and 62.7% and 62.5% of the Company's revenue for the three and nine months ended September 30, 2023 respectively.Practical Expedients and ExemptionsAs the Company's contracts have an original duration of one year or less, the Company uses the practical expedient applicable to its contracts and does not consider the time value of money. Further, because of the short duration of these contracts, the Company has not disclosed the transaction price for the remaining performance obligations as of the end of each reporting period or when the Company expects to recognize this revenue. In addition, the Company has applied the practical expedient provided by ASC 340, Other Assets and Deferred Costs, and all incremental customer contract acquisition costs are expensed as they are incurred because the amortization period would have been one year or less.6. BUSINESS SEGMENTSThe Company classifies its operations into the following reportable operating segments: (1) home health and hospice services, which includes the Company's home health, hospice and home care businesses; and (2) senior living services, which includes the operation of assisted living, independent living and memory care communities. The reporting segments are business units that offer different services and are managed separately to provide greater visibility into those operations. The Company's Chief Executive Officer, who is the Company's Chief Operating Decision Maker (seeCODM), reviews financial information at the operating segment level. The Company also reports an overall other category that includes general and administrative expense from the Company's Service Center.As of September 30, 2024, the Company provided services through 122 affiliated home health, hospice and home care agencies, and 54 affiliated senior living operations. The Company evaluates performance and allocates capital resources to each segment based on an operating model that is designed to maximize the quality of care provided and profitability. The Company's Service Center provides various services to all lines of business. The Company does not review assets by segment and therefore assets by segment are not disclosed below. The CODM uses Segment Adjusted EBITDAR from Operations as the primary measure of profit and loss for the Company's reportable segments and to compare the performance of its operations with those of its competitors. Segment Adjusted EBITDAR from Operations is net income (loss) attributable to the Company's reportable segments excluding interest expense, provision for income taxes, depreciation and amortization expense, rent, and, in order to view the operations performance on a comparable basis from period to period, certain adjustments including: (1) costs at start-up operations, (2) share-based compensation, (3) acquisition related costs and credit allowances, (4) the costs associated with transitioning operations, (5) unusual, non-recurring or redundant charges, and (6) net income attributable to noncontrolling interest. General and administrative expenses are not allocated to the reportable segments, and are included as Other accordingly the segment earnings measure reported is before allocation of corporate general and administrative expenses. The Company's segment measures may be different from the calculation methods used by other companies and, therefore, comparability may be limited. 13Table of ContentsTHE PENNANT GROUP, INC.NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (Continued)The following tables present certain financial information regarding the Company's reportable segments, general and administrative expenses are not allocated to the reportable segments and are included in Other for the three and nine months ended September 30, 2024 and 2023:Home Health and Hospice ServicesSenior Living ServicesAll OtherTotalThree Months Ended September 30, 2024Revenues\$135,672Å \$45,016Å \$æ"Å \$180,688Å Segment Adjusted EBITDAR from Operations\$23,724Å \$13,411Å \$(11,133)\$26,002Å Three Months Ended September 30, 2023Revenues\$101,474Å \$38,718Å \$æ"Å \$140,192Å Segment Adjusted EBITDAR from Operations\$17,271Å \$11,473Å \$(8,097)\$20,647Å Home Health and Hospice ServicesSenior Living ServicesAll OtherTotalNine Months Ended September 30, 2024Revenues\$377,463Å \$128,885Å \$æ"Å \$506,348Å Segment Adjusted EBITDAR from Operations\$64,488Å \$38,226Å \$(31,840)\$70,874Å Nine Months Ended September 30, 2023Revenues\$287,573Å \$111,364Å \$æ"Å \$398,937Å Segment Adjusted EBITDAR from Operations\$47,364Å \$33,394Å \$(23,496)\$57,262Å The following table provides a reconciliation of Segment Adjusted EBITDAR from Operations to Condensed Consolidated Income from Operations:Three Months Ended September 30,Nine Months Ended September 30,2024202320242023Segment Adjusted EBITDAR from Operations\$26,002Å \$20,647Å \$70,874Å \$57,262Å Less: Depreciation and amortization1,493Å 1,323Å 4,292Å 3,817Å Rentæ"cost of services10,906Å 10,006Å 31,814Å 29,439Å Other income (expense)109Å (37)192Å 28Å Adjustments to Segment EBITDAR from Operations:Less: Costs at start-up operations(a)65Å (108)(72)160Å Share-based compensation expense and related taxes(b)2,342Å 1,391Å 5,817Å 4,164Å Acquisition related costs and credit allowances(c)494Å 71Å 996Å 175Å Costs associated with transitioning operations(d)12Å 10Å (583)595Å Unusual, non-recurring or redundant charges(e)239Å 1,009Å 546Å 1,633Å Add: Net income attributable to noncontrolling interest452Å 79Å 1,008Å 351Å Condensed Consolidated Income from Operations\$10,794Å \$7,061Å \$28,880Å \$17,602Å (r)Represents results related to start-up operations. The results of all the Company's independent operating subsidiaries are included in the Interim Financial Statements subsequent to the date of acquisition. Acquisitions are accounted for using the acquisition method of accounting. 2024 AcquisitionsDuring the nine months ended September 30, 2024, the Company expanded its operations with the addition of eight home health agencies, three hospice agencies, and three senior living communities. The Company

also acquired the real estate of two of the three acquired senior living communities. The aggregate purchase price of the real estate of the two senior living communities acquired was \$10,380, which consisted primarily of land and buildings and were accounted for as asset acquisitions. In connection with the third senior living community acquired, the Company entered into a new long-term triple-net lease. A subsidiary of the Company entered into a separate operations transfer agreement with the prior operator of each acquired operation as part of each transaction. These new communities included 261 operational senior living units to be operated by the Company's independent operating subsidiaries. On January 1, 2024, the Company announced it closed on a joint venture for a home health agency with John Muir Health ("Muir"), a leading nonprofit integrated health system serving communities throughout the east bay region of San Francisco, California. The transaction combines certain assets and the operations of Muir's home health business and the assets and operations of a local Pennant-affiliated home health agency. The joint venture is majority-owned and managed by an independent operating subsidiary of the Company and provides home health services to patients throughout the San Francisco east bay region. The Company contributed certain assets of a local Pennant-affiliated home health agency to the venture and paid Muir \$11,680 for a 60% controlling ownership interest in the joint venture. The fair value of assets for the joint venture acquired was mostly concentrated in goodwill and intangible assets and as such, this transaction was classified as a business combination in accordance with ASC Topic 805, Business Combinations ("ASC 805"). The fair value of assets acquired for the business combination was \$28,200, which preliminarily consisted of goodwill of \$15,500, indefinite-lived intangible assets of \$8,600 related to a Medicare and Medicaid license, and tradenames of \$4,100. Through its contributions of assets to the joint venture, Muir retained a non-controlling ownership interest which resulted in the Company recording a 40% noncontrolling interest with a fair value of \$11,726 and an adjustment to additional paid in capital of \$4,794. The Company anticipates that the total goodwill recognized will be fully deductible for tax purposes. On May 16, 2024, the Company acquired one home health agency and one hospice agency. The transaction was classified as business combination in accordance with ASC Topic 805, Business Combinations ("ASC 805"). The aggregate purchase price for the business combinations was \$5,000, which preliminarily consisted of goodwill of \$2,240 and indefinite-lived intangible assets of \$2,760 related to Medicare and Medicaid licenses. The Company anticipates that the total goodwill recognized will be fully deductible for tax purposes. On August 1, 2024, the Company completed the first part of its planned acquisition of certain Signature Group, LLC operations. Through the completed acquisition, the Company acquired four home health agencies and one hospice agency. The transaction was classified as business combination in accordance with ASC Topic 805, Business Combinations ("ASC 805"). The aggregate purchase price for the business combinations was \$32,000, including acquired liabilities, which preliminarily consisted of goodwill of \$20,232, indefinite-lived intangible assets of \$9,000 related to Medicare and Medicaid licenses, tradenames of \$2,700, and equipment and other assets of \$68. The Company anticipates that the total goodwill recognized will be fully deductible for tax purposes.

be fully deductible for tax purposes. The Company anticipates completing an additional acquisition transaction with Signature Group, LLC subsequent to the end of its current fiscal year. One hospice and two home health agencies acquired were Medicare licenses and are considered asset acquisitions. One acquisition of a provider service was completed. The fair value of the assets acquired in these transactions preliminarily consisted of goodwill of \$350, and indefinite-lived intangibles of \$1,000. There were no material acquisition costs that were expensed related to the business combinations during the nine months ended September 30, 2024.

During the nine months ended September 30, 2023, the Company expanded its operations with the addition of three home health agencies, three hospice agencies, two home care agencies, and two senior living communities. In connection with the addition of the two senior living communities, the Company entered into a new long-term triple-net lease. A subsidiary of the Company entered into a separate operations transfer agreement with the prior operator of each acquired operation as part of each transaction. The fair value of assets for two home health agencies, two home care agencies, and three hospice agencies acquired were mostly concentrated in goodwill and intangible assets and as such, these transactions were classified as business combinations in accordance with ASC 805. The purchase price for the business combinations was \$11,662, which consisted of equipment and other assets of \$1,027, goodwill of \$6,635, and indefinite-lived intangible assets of \$3,895 related to Medicare and Medicaid licenses, and other intangible assets of \$186, less assumed liabilities of \$81. The Company anticipates that the total goodwill recognized will be fully deductible for tax purposes. One home health agency acquired was a Medicare license and is considered an asset acquisition. The fair value of the home health license acquired was \$210 and was allocated to indefinite-lived intangible assets. There were no material acquisition costs that were expensed related to the business combinations during the nine months ended September 30, 2023.

Subsequent Events

On November 1, 2024, the Company closed on the acquisition of three senior living communities located in Wisconsin. The acquisition will add to the Company's existing strength in the region while building out its operational footprint. In connection with the senior living communities, the Company entered into a new long-term triple-net lease with Ensign, a related party described in Note 3, Transactions with Ensign. A subsidiary of the Company entered into a separate operations transfer agreement with the prior operator of each acquired operation as part of the transaction. These new communities included 125 operational senior living units to be operated by the Company's independent operating subsidiaries.

(a) Amortization expense for debt issuance costs, including expense of \$428 related to the refinancing of our Revolving Credit Facility, was \$616 and \$876 for the three and nine months ended September 30, 2024, respectively, and \$130 and \$391 for the three and nine months ended September 30, 2023, respectively, and is recorded in interest expense, net on the Condensed Consolidated Statements of Income.

On February 23, 2021, Pennant entered into an amendment to its existing credit agreement (as amended, the "Credit Agreement"), which provided for an increased revolving credit facility with a syndicate of banks with a borrowing capacity of \$150,000 (the "Revolving Credit Facility"). On June 12, 2023, Pennant entered into a second amendment to the Credit Agreement that modified the reference rate from LIBOR to Standard Overnight Financing Rate ("SOFR"). The interest rates applicable to loans under the Revolving Credit Facility were, at the Company's election, either (i) Adjusted Term SOFR (as defined in the Credit Agreement) plus a margin ranging from 2.25% to 3.25% per annum or (ii) Base Rate plus a margin ranging from 1.25% to 2.25% per annum, in each case, based on the ratio of Consolidated Total Net Debt to Consolidated EBITDA (each, as defined in the Credit Agreement). In addition, Pennant paid a commitment fee on the undrawn portion of the commitments under the Revolving Credit Facility which ranged from 0.35% to 0.50% per annum, depending on the Consolidated Total Net Debt to Consolidated EBITDA ratio of the Company and its subsidiaries.

THE PENNANT GROUP, INC. NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

ON JULY 31, 2024, Pennant entered into an Amended and Restated Credit Agreement (the "Amended Credit Agreement"), as amended and restated, the "Amended Credit Agreement"), which provides for a revolving credit facility (the "Credit Facility"), as upsized, the "Amended Revolving Credit Facility") with a syndicate of banks with a borrowing capacity of \$250,000. In conjunction with the amendment, the Company incurred additional debt issuance costs of \$3,915 and wrote off previously deferred unamortized debt issuance costs of \$428. After the effectiveness of the Amended Credit Agreement, the interest rates applicable to loans under the Amended Revolving Credit Facility are, at the Company's election, either (i) Term SOFR (as defined in the Amended Credit Agreement) plus a margin ranging from 1.75% to 2.75% per annum or (ii) Base Rate plus a margin ranging from 0.75% to 1.75% per annum, in each case based on the ratio of Consolidated Total Net Debt to Consolidated EBITDA (each, as defined in the Amended Credit Agreement). In addition, Pennant pays a commitment fee on the undrawn portion of the commitments under the Amended Revolving Credit Facility that ranges from 0.25% to 0.45% per annum, depending on the Consolidated Total Net Debt to Consolidated EBITDA ratio of the Company and its subsidiaries. The Company is not required to repay any loans under the Amended Credit Agreement prior to maturity in July 2029. As of September 30, 2024, the Company's weighted average interest rate on its outstanding debt was 7.87%. As of September 30, 2024, the Company had available borrowing on the Amended Revolving Credit Facility of \$132,814, which was net of outstanding letters of credit of \$4,186. The fair value of the Amended Revolving Credit Facility approximates carrying value, due to the short-term nature and variable interest rates. The fair value of this debt is categorized within Level 2 of the fair value hierarchy based on the observable market borrowing rates. The Amended Credit Agreement is guaranteed, jointly and severally, by certain of the Company's independent operating subsidiaries, and is secured by a pledge of stock of the Company's material independent operating subsidiaries as well as a first lien on substantially all of each material operating subsidiary's personal property. The Amended Credit Agreement contains customary covenants that, among other things, restrict, subject to certain exceptions, the ability of the Company and its independent operating subsidiaries to grant liens on their assets, incur indebtedness, sell assets, make investments, engage in acquisitions, mergers or consolidations, amend certain material agreements and pay certain dividends and other restricted payments. Financial covenants require compliance with certain levels of leverage ratios that impact the amount of interest. As of September 30, 2024, the Company was compliant with all such financial covenants.

12. OPTIONS AND AWARDS

Outstanding options and restricted stock awards of the Company were granted under the 2019 Omnibus Incentive Plan (the "OIP") and Long-Term Incentive Plan (the "LTIP"), and together with the OIP, the "Pennant Plans"). Under the Pennant Plans, stock-based payment awards, including employee stock options, restricted stock awards ("RSA"), and restricted stock units ("RSU") and together with RSA, the "Restricted Stock Awards" are issued based on estimated fair value. The following disclosures represent share-based compensation expense relating to employees of the Company's subsidiaries and non-employee directors who have awards under the Pennant Plans.

Total share-based compensation expense for all plans for the three and nine months ended September 30, 2024 and 2023 was:

	Three Months Ended September 30, 2024	Nine Months Ended September 30, 2024	Three Months Ended September 30, 2023	Nine Months Ended September 30, 2023

As of September 30, 2024, the weighted average remaining lease term is 11.9 years and the weighted average discount rate is 8.1%.14. INCOME TAXESThe Company recorded income tax expense of \$1,354 and \$1,066 or 16.9% and 19.3% of earnings before income taxes for the three months ended September 30, 2024 and 2023, respectively. The decrease in the effective tax rate is primarily due to more excess tax benefits on equity compensation.The Company recorded income tax expense of \$4,957 and \$3,894, or 21.8% and 29.3% of earnings before income taxes for the nine months ended September 30, 2024 and 2023, respectively. The decrease in the effective tax rate is primarily due to more excess tax benefits on equity compensation.15. DEFINED CONTRIBUTION PLANThe Company has a 401(k) defined contribution plan (the             ), whereby eligible employees may contribute up to 90% of their annual basic earnings, subject to applicable annual Internal Revenue Code limits. Additionally, the 401(k) Plan provides for discretionary matching contributions (as defined in the 401(k) Plan) by the Company. The Company expensed 22Table of ContentsTHE PENNANT GROUP, INC.NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (Continued)matching contributions to the 401(k) Plan of \$303 and \$874 for the three and nine months ended September 30, 2024, and \$214 and \$632 for the three and nine months ended September 30, 2023, respectively. The Company has a non-qualified deferred compensation plan (the             ) for executives, other highly compensated employees, independent contractors and non-employee directors. The independent contractors and non-employee directors are otherwise ineligible for participation in the Company's 401(k) plan. The DCP allows participants to defer the receipt of a portion of their base compensation, and further allows certain participants to defer up to 80% of their base salary and bonus compensation or director fees. At the participant   election, payments can be deferred until a specific date at least one year after the year of deferral or until termination of engagement with the Company and can be paid in a lump sum or in up to ten annual installments. Separate deferral elections can be made for each year, and in limited circumstances, existing payment elections may be changed. The amounts deferred are credited with earnings and losses based upon the actual performance of the deemed investments selected by the participant. The rate of return for each participant varies depending on the specific investment elections made by the participant. Additionally, the plan deposits the employee deferrals into a rabbi trust and the funds are generally invested in individual variable life insurance contracts owned by the Company that are specifically designed to informally fund savings plans of this nature. The Company paid for related administrative costs, which were immaterial during the fiscal years presented.At September 30, 2024 and December 31, 2023, the Company   deferred compensation liabilities were \$2,132 and \$1,108, respectively, in other long-term liabilities on the condensed consolidated balance sheets. The cash surrender value of the individual variable life insurance contracts is based on investment funds that shadow the investment allocations specified by participants in the DCP. At September 30, 2024 and December 31, 2023, the cash surrender value of the company owned life insurance (          ) policies were \$2,141 and \$1,123, respectively, and were included as a component of restricted and other assets on the condensed consolidated balance sheets. There are no outstanding loan amounts offset against the cash surrender value of the COLI policies. The losses recorded for the change in cash surrender value were immaterial for each period presented.16. COMMITMENTS AND CONTINGENCIESRegulatory Matters - The Company provides services in complex and highly regulated industries. The Company   compliance with applicable U.S. federal, state and local laws and regulations governing these industries may be subject to governmental review and adverse findings may result in significant regulatory action, which could include sanctions, damages, fines, penalties (many of which may not be covered by insurance), and even exclusion from government programs.A The Company is a party to various regulatory and other governmental audits and investigations in the ordinary course of business and cannot predict the ultimate outcome of any federal or state regulatory survey, audit or investigation. While governmental audits and investigations are the subject of administrative appeals, the appeals process, even if successful, may take several years to resolve and penalties subject to appeal may remain in place during such appeals, which may include suspension, termination, or revocation of participation in governmental programs for the payment of the services the Company provides. The Department of Justice, HHS, CMS, or other federal and state enforcement and regulatory agencies may conduct additional investigations related to the Company's businesses. The Company believes it is presently in compliance in all material respects with all applicable laws and regulations.Cost-Containment Measures - Government and third-party payors have instituted cost-containment measures designed to limit payments made to providers of healthcare services, may propose future cost-containment measures, and there can be no assurance that future measures designed to limit payments made to providers will not adversely affect the Company.Indemnities - From time to time, the Company enters into certain types of contracts that contingently require the Company to indemnify parties against third-party claims. These contracts primarily include (i)A certain real estate leases, under which the Company may be required to indemnify property owners or prior operators for post-transfer environmental or other liabilities and other claims arising from the Company   use of the applicable premises, (ii)A operations transfer agreements, in which the Company agrees to indemnify past operators of agencies and communities the Company acquires against certain liabilities arising from the transfer of the operation and/or the operation thereof after the transfer, (iii)A certain Ensign lending agreements, and (iv)A certain agreements with management, directors and employees, under which the subsidiaries of the Company may be required to indemnify such persons for liabilities arising out of their employment relationships. The terms of such obligations vary by contract and, in most instances, a specific or maximum dollar amount is not explicitly stated therein. Generally, amounts under these contracts cannot be reasonably estimated until a specific claim is asserted. Consequently, because no claims have been asserted, no liabilities have been recorded for these obligations on the Company   Condensed Consolidated Balance Sheets for any of the periods presented.23Table of ContentsTHE PENNANT GROUP, INC.NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (Continued)Litigation - The Company   businesses involve a significant risk of liability given the age and health of the patients and residents served by its independent operating subsidiaries. The Company, its operating subsidiaries, and others in the industry may be subject to a number of claims and lawsuits, including negligence and professional liability claims, alleging that services provided have resulted in personal injury, elder abuse, wrongful death or other related claims. Healthcare litigation (including class action litigation) is common and is filed based upon a wide variety of claims and theories, and the Company is routinely subjected to these claims in the ordinary course of business, including potential claims related to patient care and treatment, and professional negligence, as well as employment-related claims. Certain of the states where we conduct business, including California and Nevada, recently adopted laws that increase the maximum amount of non-economic damages that may be awarded to a successful plaintiff in a claim for professional negligence or malpractice arising from care provided by our independent operating subsidiaries. These changes in applicable law may also increase the cost of obtaining and maintaining professional liability insurance to pay for the defense of, and any liability arising under, such claims. If there were a significant increase in the number of these claims or an increase in amounts owing should plaintiffs be successful in their prosecution of these claims, this could materially adversely affect the Company   business, financial condition, results of operations and cash flows. In addition, the defense of these lawsuits may result in significant legal costs, regardless of the outcome, and may result in large settlement amounts or damage awards. In addition to the potential lawsuits and claims described above, the Company also is subject to potential lawsuits under the False Claims Act (the           ) and comparable state laws alleging submission of fraudulent claims for services to any governmental healthcare program (such as Medicare) or commercial payer. A violation may provide the basis for exclusion from federally funded healthcare programs. Such exclusions could have a correlative negative impact on the Company   financial performance. Some states, including California, Arizona and Texas, have enacted similar whistleblower and false claims laws and regulations. In addition, the Deficit Reduction Act of 2005 created incentives for states to enact anti-fraud legislation modeled on the FCA, for which 18 states have qualified, including California and Texas, where we conduct business. As such, the Company could face scrutiny, potential liability and legal expenses and costs based on claims under state false claims acts in markets in which it conducts business.Under the Fraud Enforcement and Recovery Act (          ) and its associated rules, healthcare providers face significant penalties for the knowing retention of government overpayments, even if no false claim was involved. Providers have an obligation to proactively exercise     reasonable diligence   to identify overpayments and return those overpayments to CMS within 60 days of   identificati  n   or the date any corresponding cost report is due, whichever is later. Retention of overpayments beyond this period may create liability under the FCA. In addition, FERA protects whistleblowers (including employees, contractors, and agents) from retaliation.The Company cannot predict or provide any assurance as to the possible outcome of any litigation. If any litigation were to proceed, and the Company and its operating companies are subjected to, alleged to be liable for, or agree to a settlement of, claims or obligations under federal Medicare statutes, the FCA, or similar state and federal statutes and related regulations, the Company   business, financial condition and results of operations and cash flows could be materially and adversely affected. Among other things, any settlement or litigation could involve the payment of substantial sums to settle any alleged civil violations, and may also include the assumption of specific procedural and financial obligations by the Company or its independent operating subsidiaries going forward under a corporate integrity agreement and/or other arrangement with the government. Medicare Revenue Recoupments - The Company is subject to probe reviews relating to Medicare services, billings and potential overpayments by Unified Program Integrity Contractors (          ), Recovery Audit Contractors (          ), Zone Program Integrity Contractors (          ), Program Safeguard Contractors (          ), Supplemental Medical Review Contractors (          ) and Medicaid Integrity Contributors (          ) programs, each of the foregoing collectively referred to as   Reviews  .As of September 30, 2024, 12 of the Company   independent operating subsidiaries had Reviews scheduled, on appeal or in dispute resolution process, both pre- and post-payment. If an operation fails an initial or subsequent Review, the operation could then be subject to extended Review, suspension of payment, or extrapolation of the identified error rate to all billing in the same time period. The Company, from time to time, receives record requests in Reviews which have resulted in claim denials on previously paid claims. The Company has appealed substantially all denials arising from these Reviews using the applicable appeals process. As of September 30, 2024, and through the filing of this Quarterly Report on Form 10-Q, the Company   independent operating subsidiaries have responded to the Reviews that are currently ongoing, on appeal or in dispute resolution process. The Company cannot predict the ultimate outcome of any regulatory and other governmental Reviews. While such Reviews are the subject of administrative appeals, the appeals process, even if successful, may take 24Table of ContentsTHE PENNANT GROUP, INC.NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (Continued)several years to resolve. The costs to respond to and defend such Reviews may be significant and an adverse determination in such Reviews may subject the Company to sanctions, damages, extrapolation of damage findings, additional recoupments, fines, other penalties (some of which may not be covered by insurance), and termination from Medicare programs which may, either individually or in the aggregate, have a material adverse effect on the Company's business and financial condition.From June 2021 to May 2022, one hospice provider number was subject to a Medicare payment suspension imposed by a UPIC. The total amounts suspended was \$5,105, which represents all Medicare payments due to the provider number during the suspension. As of September 30, 2024, the remaining amount due from the government payor impacted by the suspension was \$246 and was recorded in long-term other assets. The Medicare payment suspension concluded in May 2022, and the UPIC reviewed 107 patient records covering a 10-month period to determine whether, in its view, a Medicare overpayment was made. Based on the results of the review, the UPIC initially alleged sampled and extrapolated overpayments of \$5,105, and withheld that amount through continued recoupment of Medicare payments. The Company is pursuing its appeal rights through the administrative appeals process, including contesting the methodology used by the UPIC to perform statistical extrapolation. To date the Company has been successful in appealing most of the previously denied claims. The Company received the refund of previously withheld amounts totaling \$4,859 as of September 30, 2024. The Company continues to work through the appeals process for the remaining denied claims and expects to be successful in those appeals. Based on the information currently available to the Company, the Company cannot predict the timing or the ultimate outcome of this review including refunds to be received.Insurance - The Company retains risk for a substantial portion of potential claims for general and professional liability, workers   compensation and automobile liability. Based on changes in law that increase the maximum damages that may be recovered for professional negligence or malpractice claims in states where we operate, including California and Nevada, the costs of maintaining some of these insurance policies may increase in the future. The Company recognizes obligations associated with these costs, up to specified deductible limits in the period in which a claim is incurred, including with respect to both reported claims and claims incurred but not reported. The general and professional liability insurance has a retention limit of \$150 per claim with a \$500 corridor as an additional out-of-pocket retention we must satisfy for claims within the policy year before the carrier will reimburse losses. The workers   compensation insurance has a retention limit of \$250 per claim, except for policies held in Texas, Washington and Wyoming which are subject to state insurance and possess their own limits. The Company is self-insured for claims related to employee health, dental, and vision care. To protect itself against loss exposure, the Company has purchased individual stop-loss insurance coverage that insures individual health claims that exceed \$350 for each covered person for fiscal year 2024 and fiscal year 2023. 17. SUBSEQUENT EVENTSOn October 2, 2024, the Company closed the public offering (the   Offering  ) of 4,025,000 shares of its common stock, \$0.001 par value per share (  common stock  ). The net proceeds to the Company from the offering, after underwriting discounts and commissions and before expenses, was approximately \$118.5A million. The majority of the proceeds were subsequently used to pay the outstanding balance on our Revolving Credit Facility. 25Table of ContentsItem 2. Overview We are a leading provider of high-quality healthcare services to patients of all ages, including the growing senior population, in the United States. We strive to be the provider of choice in the communities we serve through our innovative operating model. We operate in multiple lines of businesses including home health, hospice and senior living services across Arizona, California, Colorado, Idaho, Montana, Nevada, Oklahoma, Oregon, Texas, Utah, Washington, Wisconsin and Wyoming. We provide home health and hospice operational support through a management service agreement in Connecticut. As of September 30, 2024, our home health and hospice business provided home health, hospice and home care services from 122 agencies operating across these 13 states, and our senior living business operated 54 senior living communities throughout six states. The following table summarizes our affiliated home health and hospice agencies and senior living communities as of December 31, September 30, 2016 to 2021, 2019 to 2022, 2020 to 2023, 2023 to 2024.

Recent Activities Acquisitions. During the nine months ended September 30, 2024, we expanded our operations with the addition of eight home health agencies, three hospice agencies, and three senior living communities. A subsidiary of the Company entered into a separate operations transfer agreement with the prior operator of each acquired operation as part of each transaction.

Trends We have experienced modest senior living occupancy improvement during the nine months ended September 30, 2024, compared to the same period in 2023. Though we have seen improvements in occupancy year over year, the highly competitive environment for senior living residents and inflationary factors will continue to impact the rate at which we change our occupancy levels in our senior living communities. When we acquire turnaround or start-up operations, we expect that our combined metrics may be impacted. We expect these metrics to vary from period to period based upon the maturity of the operations within our portfolio. We have generally experienced lower occupancy rates and higher costs at our senior living communities and lower census and higher costs at our home health and hospice agencies for recently acquired operations; as a result, we generally anticipate lower and/or fluctuating consolidated and segment margins during years of acquisition growth.

Table of Contents Government Regulation We have disclosed under the heading "Government Regulation" in the 2023 Annual Report a summary of regulations that we believe materially affect our business, financial condition or results of operations. Since the time of the filing of the 2023 Annual Report, the following regulations have been updated. On July 30, 2024, CMS issued the 2025 Hospice Payment Rate Update final rule (the "Hospice Payment Final Rule"). The Hospice Payment Final Rule's payment update percentage is 2.9%, which is an estimated increase of \$790 million in payments from fiscal year 2024. The payment update percentage is based on a 3.4% market basket percentage increase, which is reduced by a 0.5% productivity adjustment. Hospices that fail to meet quality reporting requirements under the Hospice Quality Reporting Program (the "HQRPA") will receive a 4% reduction to the annual hospice payment update percentage increase for that year, resulting in a total decrease of 1.1% to those non-compliance hospices' payments and more than negating the payment update percentage for fiscal year 2025. The Hospice Payment Final Rule also adds two new process measures to HQRPA: timely reassessment of pain impact, and timely reassessment of non-pain symptom impact, which are both expected to begin in fiscal year 2028. In addition, the Hospice Payment Final Rule updates the statutory aggregate cap that limits the overall payments per patient that may be made to a hospice annually. The hospice cap amount for the 2025 fiscal year is \$34,465.34, increased from the 2024 fiscal year cap of \$33,494.01. The Hospice Payment Final Rule also includes clarifying revisions to the hospice conditions of participation; updates statistical area delineations; and makes changes to the Consumer Assessment of Healthcare Providers and Systems (the "CAHPS") Hospice Survey. On November 1, 2024, CMS issued the 2025 Home Health Prospective Payment System Final Rule (the "Home Health Payment Final Rule"). The Home Health Payment Final Rule's payment update percentage for calendar year 2025 is 2.7%, an estimated increase of \$445 million from calendar year 2024, which is offset by an estimated -1.8% behavioral adjustment, along with a -0.4% estimated adjustment for fixed dollar losses, resulting in an aggregate net increase of 0.5%, or \$85 million, for the calendar year 2025 payment rate compared to calendar year 2024. The Home Health Payment Final Rule also recalibrates PDGM case-mix weights, finalizes an update to the home health wage index, updates home health conditions of participation to require patient acceptance policies, and establishes or updates certain LUPA add-on factors. In June 2024, CMS announced a Period of Enhanced Oversight for newly enrolled hospices in Arizona, California, Nevada, and Texas. The program includes hospices that are newly enrolled, or that undergo a change of ownership, or reactivating after being in a deactivated status after July 13, 2023. Such hospices are subject to enhanced oversight for up to one year and may undergo medical review by CMS contractors to deter fraud, waste and abuse of Medicare funds. On April 22, 2024, CMS published the Ensuring Access to Medicaid Services Final Rule (the "Access Rule") which creates and, over the course of five years, implements new obligations for providers of home- and community-based services (the "HCBS"), including non-skilled personal care services in the home. The Access Rule requires that, beginning in 2030, states must implement data collection and monitoring systems to ensure that, subject to exceptions, Medicaid-funded HCBS providers spend at least 80% of their Medicaid HCBS reimbursement on compensation for direct care workers, as opposed to administrative overhead or profits. The Access Rule further requires states to establish a grievance system for addressing services provided in the fee-for-service context, publish fee-for-service payment rates paid by Medicaid, publish the average hourly rate paid to HCBS care providers, and develop hardship exemptions and separate requirements for small providers, with these requirements to be implemented within one to three years from the Access Rule taking effect. The Company anticipates potential changes to the Access Rule, or offsetting Medicaid rate increases, before its ultimate implementation in six years. On March 6, 2024, the SEC issued its final climate disclosure rule (the "Climate Rule"), intended to regulate how public companies report on the risks and impacts of climate-related matters. The Climate Rule requires companies to report on how they manage and assess climate-related risks, as well as how the board and management oversee these risks. The Climate Rule also mandates companies to disclose the financial consequences of extreme weather events and other natural conditions in their audited financial statements. Additionally, larger companies will have to report on their greenhouse gas emissions, which will be subject to a gradual assurance requirement. The Company anticipates that it will be required to disclose information about its management and oversight of climate risks beginning in 2027, and its greenhouse gas emissions beginning in 2029, assuming no further changes to the Climate Rule, or to the Company's status as an Accelerated Filer under SEC rules. The Climate Rule is the subject of litigation in various courts and on April 4, 2024, the SEC stayed the Climate Rule pending the outcome of these cases.

Segments Table of Contents We have two reportable segments: (1) home health and hospice services, which includes our home health, home care and hospice businesses; and (2) senior living services, which includes the operation of assisted living, independent living and memory care communities. Our Chief Executive Officer, who is our CODM, reviews financial information at the operating segment level. We also report an "other" category that includes general and administrative expense from our Service Center. Key Performance Indicators We manage the fiscal aspects of our business by monitoring key performance indicators that affect our financial performance. These indicators and their definitions include the following: Home Health and Hospice Services Total home health admissions. Total admissions of home health patients, including new acquisitions, new admissions and readmissions. Total Medicare home health admissions. Total admissions of home health patients, who are receiving care under Medicare reimbursement programs, including new acquisitions, new admissions and readmissions. Average Medicare revenue per completed 60-day home health episode. The average amount of revenue for each completed 60-day home health episode generated from patients who are receiving care under Medicare reimbursement programs. Total hospice admissions. Total admissions of hospice patients, including new acquisitions, new admissions and recertifications. Average hospice daily census. The average number of patients who are receiving hospice care during any measurement period divided by the number of days during such measurement period. Hospice Medicare revenue per day. The average daily Medicare revenue recorded during any measurement period for services provided to hospice patients. The following table summarizes our overall home health and hospice statistics for the periods indicated: Three Months Ended September 30, Nine Months Ended September 30, 2024 to 2023, 2024 to 2023.

Revenue Sources Home Health and Hospice Services Home Health. We derive the majority of our home health revenue from Medicare and managed care. The Medicare payment is adjusted for differences between estimated and actual payment amounts, an inability to obtain appropriate billing documentation or authorizations acceptable to the payor and other reasons unrelated to credit risk. Net service revenue is recognized in accordance with PDGM methodology. Under PDGM, Medicare provides agencies with payments for each 30-day period of care provided to beneficiaries. If a beneficiary is still eligible for care after the end of the first 30-day payment period, a second 30-day payment period can begin. There are no limits to the number of periods of care a beneficiary who remains eligible for the home health benefit can receive. While payment for each 30-day period of care is adjusted to reflect the beneficiary's health condition and needs, a special outlier provision exists to ensure appropriate payment for those beneficiaries that have the most expensive care needs. The PDGM payment under the Medicare program is also adjusted for certain variables including, but not limited to: (a) a low utilization payment adjustment if the number of visits is below an established threshold that varies based on the diagnosis of a beneficiary; (b) a partial payment if the patient transferred to another provider or the Company received a patient from another provider before completing the period of care; (c) adjustment to the admission source of claim if it is determined that the patient had a qualifying stay in a post-acute care setting within 14 days prior to the start of a 30-day payment period; (d) the timing of the 30-day payment period provided to a patient in relation to the admission date, regardless of whether the same home health provider provided care for the entire series of episodes; (e) changes to the acuity of the patient during the previous 30-day period of care; (f) changes in the base payments established by the Medicare program; (g) adjustments to the base payments for case mix and geographic wages; and (h) recoveries of overpayments. These variables are subject to periodic adjustments set by CMS regulations. For further detail regarding PDGM see the Government Regulation section of our 2023 Annual Report.

Hospice. We derive the majority of our hospice business revenue from Medicare reimbursement. The estimated payment rates are calculated as daily rates for each of the levels of care we deliver. Rates are set based on specific levels of care, are adjusted by a wage index to reflect healthcare labor costs across the country and are established annually through federal legislation. The following are the four levels of care provided under the hospice benefit: Routine Home Care (the "RHC"). Care that is not classified under any of the other levels of care, such as the work of nurses, social workers or home health aides. General Inpatient Care. Pain control or acute or chronic symptom management that cannot be managed in a setting other than an inpatient Medicare-certified facility, such as a hospital, skilled nursing facility or hospice inpatient facility. Continuous Home Care. Care for patients experiencing a medical crisis that requires nursing services to achieve palliation and symptom control, if the agency provides a minimum of eight hours of care within a 24-hour period. Inpatient Respite Care. Short-term, inpatient care to give temporary relief to the caregiver who regularly provides care to the patient. CMS has established a two-tiered payment system for RHC services. Hospices are reimbursed at a higher rate for RHC services provided from days of service one through 60 and a lower rate for all subsequent days of service. CMS also provides for a Service Intensity Add-On, which increases payments for certain RHC services provided by registered nurses and social workers to hospice patients during the final seven days of life. Medicare reimbursement is adjusted for an inability to obtain appropriate billing documentation or authorizations acceptable to the payor and other reasons unrelated to credit risk. Additionally, as Medicare hospice revenue is subject to a 30% cap and an overall payment cap, we monitor our provider numbers and estimate amounts due back to Medicare to the extent that the cap has been exceeded. Senior Living Services. As of September 30, 2024, we provided assisted living, independent living and memory care services in 54 communities. Within our senior living operations, we generate revenue primarily from private pay sources, with a portion earned from Medicaid or other state-specific programs. Primary Components of Expense Cost of Services (excluding rent, general and administrative expense and depreciation and amortization). Our cost of services represents the costs of operating our independent operating subsidiaries, which primarily consists of payroll and related benefits, supplies, purchased services, and ancillary expenses such as the cost of pharmacy and therapy services provided to patients. Cost of services also includes the cost of general and professional liability insurance and other general cost of services specifically attributable to our operations. Rent. Cost of Services. Rent. Cost of services consists solely of base minimum rent amounts payable under lease agreements to our landlords. Our subsidiaries lease and operate but do not own the underlying real estate at our operations, and these amounts do not include taxes, insurance, impounds, capital reserves or other charges payable under the applicable lease agreements. General and Administrative Expense. A general and administrative expense consists primarily of payroll and related benefits and travel expenses for our Service Center personnel, including training and other operational support. General and administrative expense also includes professional fees (including accounting and legal fees), costs relating to information systems, stock-based compensation and rent for our Service Center offices. A Depreciation and Amortization. A property and equipment are recorded at their original historical cost. Depreciation is computed using the straight-line method over the estimated useful lives of the depreciable assets (ranging from one to 40 years). Leasehold improvements are amortized on a straight-line basis over the shorter of their estimated useful lives or the remaining lease term. Critical Accounting Policies and Estimates Our discussion and analysis of our financial condition and results of operations are based on Interim Financial Statements, which have been prepared in accordance with U.S. generally accepted accounting principles (the "GAAP"). The preparation of the Interim Financial Statements and related disclosures requires us to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. On an ongoing basis we review our judgments and estimates, including but not limited to those related to self-insurance reserves, revenue, intangible assets, and goodwill. We base our estimates and judgments upon our historical experience, knowledge of current conditions and our belief of what could occur in the future considering available information, including assumptions that we believe to be reasonable under the circumstances. By their nature, these estimates and judgments are subject to an inherent degree of uncertainty, and actual results could differ materially from the amounts reported. While we believe that our estimates, assumptions, and judgments are reasonable, they are based on information available when the estimate was made. Refer to Note 2, Basis of Presentation and Summary of Significant Accounting Policies, within the 2023 Annual Report for further information on our critical accounting estimates and policies, which are as follows: Self-insurance reserves - The valuation methods and assumptions used in estimating costs up to retention amounts to settle open claims of insureds and an estimate of the cost of insured claims up to retention amounts that have been incurred but not reported. Revenue recognition - The amounts owed by private pay individuals for services and estimate of variable considerations to arrive at the transaction price, including methods and assumptions,

used to determine settlements with Medicare and Medicaid adjustments due to audits and reviews; and

Acquisition accounting and goodwill - The assumptions used to allocate the purchase price paid for assets acquired and liabilities assumed in connection with our acquisitions, and the review of goodwill for impairment at the Company's annual impairment test date or upon the occurrence of a triggering event.

The following discussion includes references to certain performance and valuation measures, which are non-GAAP financial measures, including Consolidated EBITDA, Consolidated Adjusted EBITDA, Segment Adjusted EBITDA from Operations, and Consolidated Adjusted EBITDA (collectively, "Non-GAAP Financial Measures").

Non-GAAP Financial Measures are used in addition to, and in conjunction with, results presented in accordance with GAAP and should not be relied upon to the exclusion of GAAP financial measures. Non-GAAP Financial Measures reflect an additional way of viewing aspects of our operations and company that, when viewed with our GAAP results and the accompanying reconciliations to corresponding GAAP financial measures, we believe can provide a more comprehensive understanding of factors and trends affecting our business. We believe these Non-GAAP Financial Measures are useful to investors and other external users of our financial statements regarding our results of operations because:

they are widely used by investors and analysts in our industry as a supplemental measure to evaluate the overall performance of companies in our industry without regard to items such as interest expense, rent expense and depreciation and amortization, which can vary substantially from company to company depending on the book value of assets, the method by which assets were acquired, and differences in capital structures; they help investors evaluate and compare the results of our operations from period to period by removing the impact of our asset base and capital structure from our operating results; and

Consolidated Adjusted EBITDA is used by investors and analysts in our industry to value the companies in our industry without regard to capital structures. We use Non-GAAP Financial Measures:

as measurements of our operating performance to assist us in comparing our operating performance on a consistent basis from period to period; to allocate resources to enhance the financial performance of our business; to assess the value of a potential acquisition; to assess the value of a transformed operation's performance; Table of Contents to evaluate the effectiveness of our operational strategies; and

to compare our operating performance to that of our competitors. We typically use Non-GAAP Financial Measures to compare the operating performance of each operation from period to period. We find that Non-GAAP Financial Measures are useful for this purpose because they do not include such costs as interest expense, income taxes, depreciation and amortization expense, which may vary from period-to-period depending upon various factors, including the method used to finance operations, the date of acquisition of a community or business, and the tax law of the state in which a business unit operates. We also establish compensation programs and bonuses for our leaders that are partially based upon the achievement of Consolidated Adjusted EBITDA targets. Non-GAAP Financial Measures have no standardized meaning defined by GAAP. Therefore, our Non-GAAP Financial Measures have limitations as analytical tools, and they should not be considered in isolation, or as a substitute for analysis of our results as reported in accordance with GAAP. Some of these limitations are:

they do not reflect our current or future cash requirements for capital expenditures or contractual commitments; they do not reflect changes in, or cash requirements for, our working capital needs; they do not reflect the net interest expense, or the cash requirements necessary to service interest or principal payments, on our debt; in the case of Consolidated Adjusted EBITDA, it does not reflect rent expenses, which are normal and recurring operating expenses that are necessary to operate our leased operations; they do not reflect any income tax payments we may be required to make; although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and do not reflect any cash requirements for such replacements; and

other companies in our industry may calculate the same Non-GAAP Financial Measures differently than we do, which may limit their usefulness as comparative measures. We compensate for these limitations by using Non-GAAP Financial Measures only to supplement net income on a basis prepared in accordance with GAAP in order to provide a more complete understanding of the factors and trends affecting our business. Our use of Non-GAAP Financial Measures should not be construed as an inference that our future results will be unaffected by unusual or unexpected items. We strongly encourage investors to review the Interim Financial Statements, included in this Quarterly Report in their entirety and to not rely on any single financial measure. Because these Non-GAAP Financial Measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. These Non-GAAP Financial Measures should not be considered a substitute for, nor superior to, financial results and measures determined or calculated in accordance with GAAP. We strongly urge you to review the reconciliation of Consolidated Net Income to the Non-GAAP Financial Measures in the table presented above, along with the Interim Financial Statements and related notes included elsewhere in this Quarterly Report. We believe the following Non-GAAP Financial Measures are useful to investors as key operating performance measures and valuation measures:

Performance Measures: Consolidated EBITDA We believe Consolidated EBITDA is useful to investors in evaluating our operating performance because it helps investors evaluate and compare the results of our operations from period to period by removing the impact of our asset base (depreciation and amortization expense) from our operating results. We calculate Consolidated EBITDA as net income, before (a) interest expense (b) a provision for income taxes and (c) a depreciation and amortization.

Table of Contents Consolidated Adjusted EBITDA We adjust Consolidated EBITDA when evaluating our performance because we believe that the exclusion of the additional items described below provides useful supplemental information to investors regarding our ongoing operating performance. We believe that the presentation of Consolidated Adjusted EBITDA, when considered with Consolidated EBITDA and GAAP Consolidated Net Income is beneficial to an investor's complete understanding of our operating performance. We calculate Consolidated Adjusted EBITDA by adjusting Consolidated EBITDA to exclude the effects of non-core business items, which for the reported periods includes, to the extent applicable:

costs at start-up operations; share-based compensation expense; acquisition related costs and credit allowances; costs associated with transitioning operations; and

unusual, non-recurring, or redundant charges. Segment Adjusted EBITDA from Operations We calculate Segment Adjusted EBITDA from Operations by adjusting Segment Adjusted EBITDA from Operations to include rent-cost of services. We believe that the inclusion of rent-cost of services provides useful supplemental information to investors regarding our ongoing operating performance for each segment. Valuation Measure: Consolidated Adjusted EBITDA We use Consolidated Adjusted EBITDA as one measure in determining the value of prospective acquisitions. It is also a measure commonly used by us, research analysts and investors to compare the enterprise value of different companies in the healthcare industry, without regard to differences in capital structures. Additionally, we believe the use of Consolidated Adjusted EBITDA allows us, research analysts and investors to compare operational results of companies with operating and finance leases. A significant portion of finance lease expenditures are recorded in interest, whereas operating lease expenditures are recorded in rent expense. This measure is not displayed as a performance measure as it excludes rent expense, which is a normal and recurring operating expense and, as such, does not reflect our cash requirements for leasing commitments. Our presentation of Consolidated Adjusted EBITDA should not be construed as a financial performance measure. The adjustments made and previously described in the computation of Consolidated Adjusted EBITDA are also made when computing Consolidated Adjusted EBITDA. We calculate Consolidated Adjusted EBITDA by excluding rent-cost of services and rent related to start up operations from Consolidated Adjusted EBITDA.

Revenue grew primarily due to a 7.8% increase in average monthly revenue per occupied unit and an increase of 20 basis points in occupancy between September 30, 2023 and September 30, 2024. Growth was also driven by the addition of three senior living communities between September 30, 2023 and September 30, 2024, resulting in an increase of \$3.4 million, or 8.8%, overall. Rent expense increased 9.0% from \$10.0 million to \$10.9 million in the three months ended September 30, 2024 when compared to the three months ended September 30, 2023, primarily as a result of the new leases on the acquired home health and hospice operations and senior living community. Rent as a percentage of total revenue decreased 110 basis points from 7.1% for the three months ended September 30, 2023, compared to 6.0% for the three months ended September 30, 2024.General and Administrative Expense. Our general and administrative expense increased \$3.6 million, or 38.3%, from \$9.4 million to \$13.0 million for the three months ended September 30, 2024 when compared to the three months ended September 30, 2023. General and administrative expense as a percentage of revenue increased 50 basis points from 6.7% to 7.2% during the period. The primary driver of the increase in general and administrative expense was due to an increase in payroll and related benefits for the three months ended September 30, 2024 when compared to the three months ended September 30, 2023.Depreciation and Amortization. Depreciation and amortization expense remained consistent with the comparable period. Provision for Income Taxes. We recorded income tax expense of \$1.4 million and \$1.1 million or 16.9% and 19.3% of earnings before income taxes for the three months ended September 30, 2024 and 2023, respectively. The decrease in the effective tax rate is primarily due to more excess tax benefits on equity compensation.Nine Months Ended September 30, 2024 Compared to the Nine Months Ended September 30, 2023 Revenue Nine Months Ended September 30,20242023Revenue DollarsRevenue PercentageRevenue DollarsRevenue Percentage(In thousands)Home health and hospice servicesHome health\$172,773Å 34.1Å %\$129,112Å 32.4Å %Hospice176,711Å 34.9Å 140,222Å 35.1Å Home care and other(a)27,979Å 5.5Å 18,239Å 4.6Å Total home health and hospice services377,463Å 74.5Å 287,573Å 72.1Å Senior living services128,885Å 25.5Å 111,364Å 27.9Å Total revenue\$506,348Å 100.0Å %\$398,937Å 100.0Å %(a)Home care and other revenue is included with home health revenue in other disclosures in this Quarterly Report.Our total revenue increased \$107.4 million, or 26.9%, during the nine months ended September 30, 2024. Depreciation and Amortization. Depreciation and amortization expense remained consistent with the comparable period. Gain on disposition of property and equipment, net. We recorded a gain of \$0.8Å million for insurance proceeds received in excess of the carrying values of related assets during the nine months ended September 30, 2024. No gain on disposition of property and equipment was recorded during the nine months ended September 30, 2023. 43Table of ContentsProvision for Income Taxes. We recorded income tax expense of \$5.0 million and \$3.9 million, or 21.8% and 29.3% of earnings before income taxes, for the nine months ended September 30, 2024 and 2023, respectively. The decrease in the effective tax rate is primarily due to more excess tax benefits on equity compensation.Liquidity and Capital ResourcesOur primary sources of liquidity are net cash provided by operating activities and borrowings under our Revolving Credit Facility. Revolving Credit FacilityÅ Å Å On JulyÅ 31, 2024, Pennant amended and restated its existing credit agreement (as amended, the Å "Amended Credit AgreementÅ), which provides for an increased revolving credit facility with a syndicate of banks with a borrowing capacity of \$250.0 million (the Å "Amended Revolving Credit FacilityÅ). The Amended Revolving Credit Facility is not subject to interim amortization and the Company will not be required to repay any loans under the Amended Revolving Credit Facility prior to maturity in 2029. The Company is permitted to prepay all or any portion of the loans under the Amended Revolving Credit Facility prior to maturity without premium or penalty, subject to reimbursement of any SOFR breakage costs of the lenders. The Amended Credit Agreement contains customary covenants that, among other things, restrict, subject to certain exceptions, the ability of the Company and its independent operating subsidiaries to grant liens on their assets, incur indebtedness, sell assets, make investments, engage in acquisitions, mergers or consolidations, amend certain material agreements and pay certain dividends and other restricted payments. Financial covenants require compliance with certain levels of leverage ratios that impact the amount of interest. As of September 30, 2024, the Company was compliant with all such financial covenants.As of September 30, 2024, we had \$4.5 million of cash and \$132.8 million of available borrowing capacity on our Amended Revolving Credit Facility. As described in Note 17, Subsequent Events, to the Interim Financial Statements in Part I of this Quarterly Report, on October 2, 2024, the Company closed a public offering of 4,025,000 shares of its common stock with net proceeds to the Company from the offering, after underwriting discounts and commissions and before expenses, of approximately \$118.5Å million. The proceeds were subsequently used to pay the outstanding balance on our Amended Revolving Credit Facility. We believe that our existing cash, cash generated through operations, and access to available borrowing capacity under our Amended Credit Agreement, will be sufficient to provide adequate liquidity for the next twelve months for our operating activities and for opportunities of acquisition growth. The following table presents selected data from our Condensed Consolidated Statement of Cash Flows for the periods presented: Nine Months Ended September 30,20242023(In thousands)Net cash provided by operating activities\$18,729Å \$27,910Å Net cash used in investing activities(66,287)1(17,576)Net cash provided by (used in) financing activities45,963Å (9,030)Net (decrease) increase in cash (1,595)1,304Å Cash at beginning of period6,059Å 2,079Å Cash at end of period\$4,464Å \$3,383Å 44Table of ContentsNine Months Ended September 30, 2024 Compared to the Nine Months Ended September 30, 2023Å Å Å Å Å Å Our net cash flow from operating activities for the nine months ended September 30, 2024 decreased by \$9.2 million when compared to the nine months ended September 30, 2023. The primary driver of this difference was a decrease in cash flows from the change in operating assets and liabilities of \$14.9 million, net, and a decrease of \$2.7Å million in non-cash expenses, partially offset by an increase in net income of \$8.4 million.Å Å Å Å Å Å Our net cash used in investing activities for the nine months ended September 30, 2024 increased by \$48.7 million compared to the nine months ended September 30, 2023, primarily driven by an increase in business and asset acquisitions.Our net cash used in financing activities increased by approximately \$55.0 million for the nine months ended September 30, 2024 compared to the nine months ended September 30, 2023. The increase was primarily due to a net increase in the balance on our line of credit during the nine months ended September 30, 2024 compared to the nine months ended September 30, 2023. Contractual Obligations, Commitments and ContingenciesWe continue to make draws and payments on our Revolving Credit Facility, as described in Note 11, Debt, to the Interim Financial Statements in Part I of this Quarterly Report. Additionally, we have right-of-use assets obtained in exchange for new operating lease obligations, as described in the supplemental disclosures of cash flow information in the Condensed Consolidated Statement of Cash Flows and in Note 13, Leases, to the Interim Financial Statements in Part I of this Quarterly Report. Other than those transactions there have been no other material changes to our total obligations during the period covered by this Quarterly Report outside of the normal course of our business. Item 3. Quantitative and Qualitative Disclosures About Market RiskInterest Rate Risk. We are exposed to risks associated with market changes in interest rates. On JulyÅ 31, 2024, Pennant entered into the Amended Credit Agreement, which provides for a revolving credit facility with a syndicate of banks with a borrowing capacity of \$250.0Å million. A 1.0% interest rate change would cause interest expense to change by approximately \$1.1Å million annually based upon our outstanding long-term debt as of September 30, 2024. We manage our exposure to this market risk by monitoring available financing alternatives. Item 4. Controls and ProceduresEvaluation of Disclosure Controls and ProceduresUnder the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in RulesÅ 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Å "Exchange ActÅ)), as of the end of the period covered by this Quarterly Report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures were effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.Changes in Internal Control over Financial ReportingThere were no material changes in our internal control over financial reporting (as such term is defined in RulesÅ 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.45Table of ContentsPART II. OTHER INFORMATIONItem 1. Legal ProceedingsWe are involved in various claims and lawsuits arising in the ordinary course of business, none of which, in the opinion of management, is expected to have a material adverse effect on our results of operations or financial condition. However, the results of such matters cannot be predicted with certainty and we cannot assure you that the ultimate resolution of any legal or administrative proceeding or dispute will not have a material adverse effect on our business, financial condition, results of operations and cash flows.Å See NoteÅ 15, Commitments and Contingencies, to the Interim Financial Statements for a description of claims and legal actions arising in the ordinary course of our business.Item 1A. Risk FactorsWe have disclosed under the heading Å "Risk FactorsÅ in the 2023 Annual Report risk factors that materially affect our business, financial condition or results of operations, and disclosed more recent events relevant to our business under Item 2, ManagementÅ "s Discussion and Analysis of Financial Condition and Results of Operations. You should carefully consider the risk factors set forth in the 2023 Annual Report and the other information set forth elsewhere in this Quarterly Report. In particular, if CMS adopts the Home Health Payment Proposed Rule as a final rule in its current form or in a substantially similar form, we may be adversely affected by decreased Medicare reimbursement for home health services in calendar year 2025. MedicareÅ "s rates for home health services not only affect Medicare beneficiaries but may also have consequences for home health patients whose benefits are paid by commercial insurance or other payors that base their payments to home health agencies on MedicareÅ "s payment rates. You should be aware that these risk factors and other information may not describe every risk facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. Item 5. Other InformationRule 10b5-1 Plan ElectionJason P. Steik, Chief Clinical Officer, entered into a Rule 10b5-1 trading arrangement on August 16, 2024 (the Å "Rule 10b5-1 PlanÅ). Mr. SteikÅ "s 10b5-1 Plan provides for the potential sale of only the number of shares of the CompanyÅ "s common stock necessary to cover the tax obligations generated by the vesting of 8,400 shares of the CompanyÅ "s common stock between the adoption date of the Rule 10b5-1 Plan and its expiration on July 30, 2027. This Rule 10b5-1 trading arrangement was entered into during open trading windows and is intended to satisfy the affirmative defense conditions of Rule 10b5-1 (c) under the Securities Exchange Act of 1934, as amended, and the Company's policies regarding

transactions in Company securities.46Table of ContentsItem 6. BUSINESS DESCRIPTION OF BUSINESS The Pennant Group, Inc. (herein referred to as “Pennant,” “the Company,” “we,” “us,” or “ours”), is a holding company with no direct operating assets, employees or revenue. The Company, through its independent operating subsidiaries, provides healthcare services across the post-acute care continuum. As of September 30, 2024, the Company’s subsidiaries operated 122 home health, hospice and home care agencies and 54 senior living communities located in Arizona, California, Colorado, Idaho, Montana, Nevada, Oklahoma, Oregon, Texas, Utah, Washington, Wisconsin and Wyoming. Certain of the Company’s subsidiaries, collectively referred to as the Service Center, provide accounting, payroll, human resources, information technology, legal, risk management, and other services to the operations through contractual relationships. The Service Center also provides certain of these services to unaffiliated third parties under management agreements. Each of the Company’s affiliated operations are operated by separate, independent subsidiaries that have their own management, employees and assets. References herein to the consolidated “Company’s” assets and activities are not meant to imply, nor should they be construed as meaning, that Pennant has direct operating assets, employees or revenue, or that any of the subsidiaries are operated by Pennant. X - DefinitionThe entire disclosure for the nature of an entity’s business, major products or services, principal markets including location, and the relative importance of its operations in each business and the basis for the determination, including but not limited to, assets, revenues, or earnings. For an entity that has not commenced principal operations, disclosures about the risks and uncertainties related to the activities in which the entity is currently engaged and an understanding of what those activities are being directed toward. + ReferencesReference 1: <http://www.xbrl.org/2003/role/disclosureRef> -Name Accounting Standards Codification -Topic 275 -Publisher FASB -URI <https://asc.fasb.org/275/tableOfContent>Reference 2: <http://www.xbrl.org/2003/role/disclosureRef> -Name Accounting Standards Codification -Section 50 -Paragraph 1 -Subparagraph (a) -SubTopic 10 -Topic 275 -Publisher FASB -URI <https://asc.fasb.org/1943274/2147482861/275-10-50-1> + Details Name: us-gaap_NatureOfOperations Namespace Prefix: us-gaap Data Type: dtr-types:textBlockItemType Balance Type: na Period Type: duration X - ReferencesNo definition available. + Details Name: us-gaap OrganizationConsolidationAndPresentationOfFinancialStatementsAbstract Namespace Prefix: us-gaap Data Type: xbrli:stringItemType Balance Type: na Period Type: duration XML 19 R8.htm IDEA: XBRL DOCUMENT v3.24.3 BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES 9 Months Ended Sep. 30, 2024 Accounting Policies [Abstract] A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIESBasis of Presentation - The accompanying unaudited condensed consolidated financial statements of the Company (the “Interim Financial Statements”) reflect the Company’s financial position, results of operations, and cash flows of the business. The Interim Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) and pursuant to the regulations of the Securities and Exchange Commission (“SEC”). Management believes that the Interim Financial Statements reflect, in all material respects, all adjustments which are of a normal and recurring nature necessary to present fairly the Company’s financial position, results of operations, and cash flows for the periods presented in conformity with GAAP. The results reported in these Interim Financial Statements are not necessarily indicative of results that may be expected for the entire year. The Condensed Consolidated Balance Sheet as of December 31, 2023 is derived from the Company’s annual audited Consolidated Financial Statements for the fiscal year ended December 31, 2023, which should be read in conjunction with these Interim Financial Statements. Certain information in the accompanying footnote disclosures normally included in annual financial statements was condensed or omitted for the interim periods presented in accordance with GAAP. All intercompany transactions and balances between the various legal entities comprising the Company have been eliminated in consolidation. The Company presents noncontrolling interests within the equity section of its Condensed Consolidated Balance Sheets and the amount of consolidated net income that is attributable to the Company and the noncontrolling interest in its Condensed Consolidated Statements of Income. The Company consists of various limited liability companies and corporations established to operate home health, hospice, home care, and senior living operations. The Interim Financial Statements include the accounts of all entities controlled by the Company through its ownership of a majority voting interest. Reclassifications - Certain amounts in the prior financial statements have been reclassified to conform to the presentation of the current period financial statements. Estimates and Assumptions - The preparation of the Interim Financial Statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Interim Financial Statements and the reported amounts of revenue and expenses during the reporting periods. The most significant estimates in the Interim Financial Statements relate to self-insurance reserves, revenue recognition, and intangible assets and goodwill. Actual results could differ from those estimates. State relief funding. The Company receives state relief funding through programs from various states, including

healthcare relief funding under the American Rescue Plan Act (ARPA), and other state specific relief programs. The funding generally incorporates specific use requirements primarily for direct patient care including labor related expenses that are attributable to the COVID-19 pandemic or are associated with providing patient care. These funds are recognized as a reduction of cost of services expenses when related expenses are incurred. As of September 30, 2024 and December 31, 2023, the Company had \$1,147 and \$780 in unapplied state relief funds, respectively. The unapplied state relief funds received are recorded in other accrued liabilities. The Company recognized state relief funding totaling \$796 and \$2,373 for the three and nine months ended September 30, 2024, and \$923 and \$3,005 for the three and nine months ended September 30, 2023, respectively, which the Company recognized as a reduction of cost of services expense.

Recent Accounting Pronouncements Except for rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws and a limited number of grandfathered standards, the Financial Accounting Standards Board (the "FASB") is the sole source of authoritative GAAP literature recognized by the FASB and applicable to the Company. For any new pronouncements announced, the Company considers whether the new pronouncements could alter previous generally accepted accounting principles and determines whether any new or modified principles will have a material impact on the Company's reported financial position or operations in the near term. The applicability of any standard is subject to the formal review of the Company's financial management and certain standards are under consideration. In November 2023, the FASB issued ASU 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures," which requires the Company to expand the breadth and frequency of segment disclosures to include additional information about significant segment expenses, the chief operating decision maker and other items, and also requires the annual disclosures on an interim basis. This guidance is effective for annual periods beginning after December 15, 2023, which will be the Company's fiscal year 2024, with early adoption permitted. The Company is currently evaluating the impact of the ASU on its quarterly and annual reports. In December 2023, the FASB issued ASU 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures," which requires the Company to disclose disaggregated jurisdictional and categorical information for the tax rate reconciliation, income taxes paid and other income tax related amounts. This guidance is effective for annual periods beginning after December 15, 2024, which will be the Company's fiscal year 2025, with early adoption permitted. The Company does not expect it to have any material impacts. X -

Balance Sheet Impact Included in the Companyâ€™s Condensed Consolidated Balance Sheets are contract assets, comprised of billed accounts receivable and unbilled receivables, which are the result of the timing of revenue recognition, billings and cash collections, as well as, contract liabilities, which primarily represent payments the Company receives in advance of services provided. Accounts receivable, net as of September 30, 2024 and December 31, 2023 is summarized in the following table: September 30, 2024 December 31, 2023 Medicare \$45,685Â \$35,665Â Medicaid \$14,289Â 11,578Â Managed care \$15,391Â 11,752Â Private and other \$8,973Â 2,380Â Accounts receivable, gross \$84,338Â 61,375Â Less: allowance for doubtful accounts (313) (259) Accounts receivable, net \$84,025Â \$61,116Â Concentrations - Credit Risk The Company has significant accounts receivable balances, the collectability of which is dependent on the availability of funds from certain governmental programs, primarily Medicare and Medicaid. These receivables represent the only significant concentration of credit risk for the Company. The Company does not believe there are significant credit risks associated with these governmental programs. The Company believes that an appropriate allowance has been recorded for the possibility of these receivables proving uncollectible, and continually monitors and adjusts these allowances as necessary. The Companyâ€™s gross receivables from the Medicare and Medicaid programs accounted for approximately 71.1% and 77.0% of its total gross accounts receivable as of September 30, 2024 and December 31, 2023, respectively. Combined revenue from reimbursement under the Medicare and Medicaid programs accounted for 60.7% and 61.6% of the Companyâ€™s revenue for the three and nine months ended September 30, 2024, and 62.7% and 62.5% of the Companyâ€™s revenue for the three and nine months ended September 30, 2023 respectively. Practical Expedients and Exemptions As the Companyâ€™s contracts have an original duration of one year or less, the Company uses the practical expedient applicable to its contracts and does not consider the time value of money. Further, because of the short duration of these contracts, the Company has not disclosed the transaction price for the remaining performance obligations as of the end of each reporting period or when the Company expects to recognize this revenue. In addition, the Company has applied the practical expedient provided by ASC 340, Other Assets and Deferred Costs, and all incremental customer contract acquisition costs are expensed as they are incurred because the amortization period would have been one year or less. The reporting segments are business units that offer different services and are managed separately to provide greater visibility into those operations. The Companyâ€™s Chief Executive Officer, who is the Companyâ€™s Chief Operating Decision Maker (â€œCODMâ€), reviews financial information at the operating segment level. The Company also reports an â€œall otherâ€ category that includes general and administrative expense from the Companyâ€™s Service Center. As of September 30, 2024, the Company provided services through 122 affiliated home health, hospice and home care agencies, and 54 affiliated senior living operations. The Company evaluates performance and allocates capital resources to each segment based on an operating model that is designed to maximize the quality of care provided and profitability. The Companyâ€™s Service Center provides various services to all lines of business. The Company does not review assets by segment and therefore assets by segment are not disclosed below. The CODM uses Segment Adjusted EBITDA from Operations as the primary measure of profit and loss for the Company's reportable segments and to compare the performance of its operations with those of its competitors. Segment Adjusted EBITDA from Operations is net income (loss) attributable to the Company's reportable segments excluding interest expense, provision for income taxes, depreciation and amortization expense, rent, and, in order to view the operations performance on a comparable basis from period to period, certain adjustments including: (1) costs at start-up operations, (2) share-based compensation, (3) acquisition related costs and credit allowances, (4) the costs associated with transitioning operations, (5) unusual, non-recurring or redundant charges, and (6) net income attributable to noncontrolling interest. General and administrative expenses are not allocated to the reportable segments, and are included as â€œAll Other,â€ accordingly the segment earnings measure reported is before allocation of corporate general and administrative expenses. The Company's segment measures may be different from the calculation methods used by other companies and, therefore, comparability may be limited. The following tables present certain financial information regarding the Companyâ€™s reportable segments, general and administrative expenses are not allocated to the reportable segments and are included in â€œAll Otherâ€ for the three and nine months ended September 30, 2024 and 2023: Home Health and Hospice Services Senior Living Services All Other Total Three Months Ended September 30, 2023 Revenue \$135,672Â \$45,016Â \$â€”Â \$180,688Â Segment Adjusted EBITDA from Operations \$23,724Â \$13,411Â \$11,133Â \$26,002Â Three Months Ended September 30, 2023 Revenue \$101,474Â \$38,718Â \$â€”Â \$140,192Â Segment Adjusted EBITDA from Operations \$17,271Â \$11,473Â \$(8,097)Â \$20,647Â Home Health and Hospice Services Senior Living Services All Other Total Nine Months Ended September 30, 2024 Revenue \$377,463Â \$128,885Â \$â€”Â \$506,348Â Segment Adjusted EBITDA from Operations \$64,488Â \$38,226Â \$(31,840)Â \$70,874Â Nine Months Ended September 30, 2023 Revenue \$287,573Â \$111,364Â \$â€”Â \$398,937Â Segment Adjusted EBITDA from Operations \$47,364Â \$33,394Â \$(23,496)Â \$57,262Â The following table provides a reconciliation of Segment Adjusted EBITDA from Operations to Condensed Consolidated Income from Operations: Three Months Ended September 30, Nine Months Ended September 30, 2024 2023 2024 2023 Segment Adjusted EBITDA from Operations \$26,002Â \$20,647Â \$70,874Â \$57,262Â Less: Depreciation and amortization 1,493Â 1,323Â 4,292Â 3,817Â Rent â€” cost of services 10,906Â 10,006Â 31,814Â 29,439Â Other income (expense) 109Â (371) 192Â 28Â Adjustments to Segment EBITDA from Operations: Less: Costs at start-up operations (a) 65Â (108) (72) 160Â Share-based compensation expense and related taxes (b) 3,424 1,391 5,817 4,164 Acquisition related costs and credit allowances (c) 494 71Â 996 175Â Costs associated with transitioning operations (d) 12 10Â (583) 595Â Unusual, non-recurring or redundant charges (e) 239 1,009 546 1,633 Add: Net income attributable to noncontrolling interest 452 79 1,008 351 Condensed Consolidated Income from Operations \$10,794Â \$7,061Â \$28,880Â \$17,602Â (a) Represents results related to start-up operations. The results of all the Companyâ€™s independent operating subsidiaries are included in the Interim Financial Statements subsequent to the date of acquisition. Acquisitions are accounted for using the acquisition method of accounting. 2024 Acquisitions During the nine months ended September 30, 2024, the Company expanded its operations with the addition of eight home health agencies, three hospice agencies, and three senior living communities. The Company also acquired the real estate of two of the three acquired senior living communities. The aggregate purchase price of the real estate of the two senior living communities acquired was \$10,380, which consisted primarily of land and buildings and were accounted for as asset acquisitions. In connection with the third senior living community acquired, the Company entered into a new long-term â€œtriple-netâ€ lease. A subsidiary of the Company entered into a separate operations transfer agreement with the prior operator of each acquired operation as part of each transaction. These new communities included 261 operational senior living units to be operated by the Company's independent operating subsidiaries. On January 1, 2024, the Company announced it closed on a joint venture for a home health agency with John Muir Health (â€œMuirâ€), a leading nonprofit integrated health system serving communities throughout the east bay region of San Francisco, California. The transaction combines certain assets and the operations of Muirâ€™s home health business and the assets and operations of a local Pennant-affiliated home health agency. The joint venture is majority-owned and managed by an independent operating subsidiary of the Company and provides home health services to patients throughout the San Francisco east bay region. The Company contributed certain assets of a local Pennant-affiliated home health agency to the venture and paid Muir \$11,680 for a 60% controlling ownership interest in the joint venture. The fair value of assets for the joint venture acquired was mostly concentrated in goodwill and intangible assets and as such, this transaction was classified as a business combination in accordance with ASC Topic 805, Business Combinations (â€œASC 805â€). The fair value of assets acquired for the business combination was \$28,200, which preliminarily consisted of goodwill of \$15,500, indefinite-lived intangible assets of \$8,600 related to a Medicare and Medicaid license, and tradenames of \$4,100. Through its contributions of assets to the joint venture, Muir retained a non-controlling ownership interest which resulted in the Company recording a 40% noncontrolling interest with a fair value of \$11,726 and an adjustment to additional paid in capital of \$4,794. The Company anticipates that the total goodwill recognized will be fully deductible for tax purposes. On May 16, 2024, the Company acquired one home health agency and one hospice agency. The transaction was classified as business combination in accordance with ASC Topic 805, Business Combinations (â€œASC 805â€). The aggregate purchase price for the business combinations was \$5,000, which preliminarily consisted of goodwill of \$2,240 and indefinite-lived intangible assets of \$2,760 related to Medicare and Medicaid licenses. The Company anticipates that the total goodwill recognized will be fully deductible for tax purposes. On August 1, 2024, the Company completed the first part of its planned acquisition of certain Signature Group, LLC operations. Through the	

Completed acquisition, the Company acquired two home health agencies and one hospice agency. The transaction was classified as business combination in accordance with ASC Topic 805, Business Combinations (â€œASC 805â€œ). The aggregate purchase price for the business combinations was \$32,000, including acquired liabilities, which preliminarily consisted of goodwill of \$20,232, indefinite-lived intangible assets of \$9,000 related to Medicare and Medicaid licenses, tradenames of \$2,700, and equipment and other assets of \$68. The Company anticipates that the total goodwill recognized will be fully deductible for tax purposes. The Company anticipates completing an additional acquisition transaction with Signature Group, LLC subsequent to the end of its current fiscal year. One hospice and two home health agencies acquired were Medicare licenses and are considered asset acquisitions. One acquisition of a provider service was completed. The fair value of the assets acquired in these transactions preliminarily consisted of goodwill of \$350, and indefinite-lived intangibles of \$1,000. There were no material acquisition costs that were expensed related to the business combinations during the nine months ended September 30, 2024.2023 AcquisitionsDuring the nine months ended September 30, 2023, the Company expanded its operations with the addition of three home health agencies, three hospice agencies, two home care agencies, and two senior living communities. In connection with the addition of the two senior living communities, the Company entered into a new long-term â€œtriple-netâ€œ lease. A subsidiary of the Company entered into a separate operations transfer agreement with the prior operator of each acquired operation as part of each transaction. The fair value of assets for two home health agencies, two home care agencies, and three hospice agencies acquired were mostly concentrated in goodwill and intangible assets and as such, these transactions were classified as business combinations in accordance with ASC 805. The purchase price for the business combinations was \$11,662, which consisted of equipment and other assets of \$1,027, goodwill of \$6,635, and indefinite-lived intangible assets of \$3,895 related to Medicare and Medicaid licenses, and other intangible assets of \$186, less assumed liabilities of \$81. The Company anticipates that the total goodwill recognized will be fully deductible for tax purposes. One home health agency acquired was a Medicare license and is considered an asset acquisition. The fair value of the home health license acquired was \$210 and was allocated to indefinite-lived intangible assets. There were no material acquisition costs that were expensed related to the business combinations during the nine months ended September 30, 2023. Subsequent EventsOn November 1, 2024, the Company closed on the acquisition of three senior living communities located in Wisconsin. The acquisition will add to the Companyâ€™s existing strength in the region while building out its operational footprint. In connection with the senior living communities, the Company entered into a new long-term â€œtriple-netâ€œ lease with Ensign, a related party described in Note 3, Transactions with Ensign. A subsidiary of the Company entered into a separate operations transfer agreement with the prior operator of each acquired operation as part of the transaction. These new communities included 125 operational senior living units to be operated by the Company's independent operating subsidiaries. Under the Pennant Plans, stock-based payment awards, including employee stock options, restricted stock awards (â€œRSAâ€), and restricted stock units (â€œRSUâ€ and together with RSA, â€œRestricted Stockâ€) are issued based on estimated fair value. The following disclosures represent share-based compensation expense relating to employees of the Companyâ€™s subsidiaries and non-employee directors who have awards under the Pennant Plans. Total share-based compensation expense for all Plans for the three and nine months ended September 30, 2024 and 2023 was: Three Months Ended September 30, Nine Months Ended September 30, 2024 2023 Share-based compensation expense related to stock options \$1,377.1, 1,044.4 \$3,628.8 \$2,878.4 Share-based compensation expense related to Restricted Stock \$150.1 178.8 392.4 535.4 Share-based compensation expense related to Restricted Stock to non-employee directors \$60.6 119.1 1,404.4 598.4 Total share-based compensation \$2,133.6 1,341.1 \$5,424.4 \$4,011.1 In future periods, the Company estimates it will recognize the following share-based compensation expense for unvested stock options and unvested Restricted Stock as of September 30, 2024: Unrecognized Compensation Expense Weighted Average Recognition Period (in years) Unvested Stock Options \$15,014.3 6 Unvested Restricted Stock \$1,672.1 2.8 Total unrecognized share-based compensation expense \$16,686.4 Stock Options Under the Pennant Plans, options granted to employees of the subsidiaries of Pennant generally vest over five years at 20% per year on the anniversary of the grant date. Options expire ten years after the date of grant. The Company uses the Black-Scholes option-pricing model to recognize the value of stock-based compensation expense for share-based payment awards under the Plans. Determining the appropriate fair-value model and calculating the fair value of stock-based awards at the grant date requires considerable judgment, including estimating stock price volatility and expected option life. The Company develops estimates based on historical data and market information, which can change significantly over time. The fair value of each option is estimated on the grant date using a Black-Scholes option-pricing model with the following weighted average assumptions for stock options granted as of September 30: Grant Year Options Granted Risk-Free Interest Rate Expected Life (a) Expected Volatility (b) Dividend Yield Weighted Average Fair Value of Options 2024 778.4 4.3% 6.542.6% 4% 10.38% 2023 787.4 4.1% 6.541.8% 4% 6.61% (a) Under the midpoint method, the expected option life is the midpoint between the contractual option life and the average vesting period for the options being granted. This resulted in an expected option life of 6.5 years for the options granted. (b) Because the Companyâ€™s equity shares have been traded for a relatively short period of time, expected volatility assumption was based on the volatility of related industry stocks. The following table represents the employee stock option activity during the nine months ended September 30, 2024: Number of Options Outstanding Weighted Average Exercise Price Number of Options Vested Weighted Average Exercise Price Options Vested December 31, 2023 924.4 18.79% 1,190.4 19.14% Granted 778.2 21.02% Exercised (220) 9.16% Forfeited (111) 20.36% Expired (60) 30.71% September 30, 2024 3,111.4 \$19.66 1,257.4 \$20.60 Restricted Stock A summary of the status of Pennantâ€™s non-vested Restricted Stock, and changes during the nine months ended September 30, 2024, is presented below: Non-Vested Restricted Stock Weighted Average Grant Date Fair Value December 31, 2023 263.5 \$14.27 68.6 20.26 2024 68.6 20.26 2023 16.94 20.26 2024 31.1 \$13.57 X - Definition The entire disclosure for share-based payment arrangement. + References Reference 1: http://www.xbrl.org/2003/role/exampleRef -Topic 718 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Subparagraph (a)(1) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-2 Reference 2: http://www.xbrl.org/2003/role/disclosureRef -Topic 718 -Name Accounting Standards Codification -Publisher FASB -URI https://asc.fasb.org/718/tableOfContent Reference 3: http://www.xbrl.org/2003/role/disclosureRef -Topic 718 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Subparagraph (a) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-2 Reference 4: http://www.xbrl.org/2003/role/disclosureRef -Topic 718 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Subparagraph (h)(2) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-2 Reference 5: http://www.xbrl.org/2003/role/disclosureRef -Topic 718 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Subparagraph (h)(2)(i) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-2 Reference 6: http://www.xbrl.org/2003/role/disclosureRef -Topic 718 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Subparagraph (l) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-2 + Details Name: us-gaap_DisclosureOfCompensationRelatedCostsShareBasedPaymentsTextBlock Namespace Prefix: us-gaap_Data Type: dtr-types:textBlockItem Type Balance Type: na Period Type: duration X - References No definition available. + Details Name: us-gaap_DisclosureOfCompensationRelatedCostsShareBasedPaymentsAbstract Namespace Prefix: us-gaap_Data Type: xbrli:stringItem Type Balance Type: na Period Type: duration XML 30 R19.htm IDEA: XBRL DOCUMENT v3.24.3 LEASES 9 Months Ended Sep. 30, 2024 Leases [Abstract] A LEASES LEASES The Companyâ€™s independent operating subsidiaries lease senior living communities and its administrative offices under non-cancelable operating leases, most of which have initial lease terms ranging from 14 to 25 years. The Companyâ€™s independent operating subsidiaries also lease the administrative offices of home health and hospice agencies, which generally have lease terms that range from one to 10 years. Most of these leases contain renewal options, most involve rent increases and none contain purchase options. The lease term excludes lease renewals because the renewal rents are not at a bargain, there are no economic penalties for the Company to renew the lease, and it is not reasonably certain that the Company will exercise the extension options. The Company elected the accounting policy practical expedients in ASC 842 to: (i) combine associated lease and non-lease components into a single lease component; and (ii) exclude recording short-term leases as right-of-use assets and liabilities on the condensed consolidated balance sheets. Non-lease components, which are not significant overall, are combined with lease components. As of September 30, 2024, the Companyâ€™s independent operating subsidiaries leased 29 senior living communities from subsidiaries of Ensign (â€œEnsign Leasesâ€) under a master lease arrangement. The existing leases with subsidiaries of Ensign have initial terms of between 14 to 20 years. The total amount of rent expense included in rent - cost of services paid to subsidiaries of Ensign was \$3,488 and \$10,464 for the three and nine months ended September 30, 2024, respectively, and \$3,339 and \$10,088 for the three and nine months ended September 30, 2023, respectively. In addition to rent, each of the operating companies are required to pay the following: (1) all impositions and taxes levied on or with respect to the leased properties (other than taxes on the income of the lessor); (2) all utilities and other services necessary or appropriate for the leased properties and the business conducted on the leased properties; (3) all insurance required in connection with the leased properties and the business conducted on the leased properties; (4) all community maintenance and repair costs; and (5) all fees in connection with any licenses or authorizations necessary or appropriate for the leased properties and the business conducted on the leased properties. Fourteen of the Companyâ€™s affiliated senior living communities, excluding the communities that are operated under the Ensign Leases (as defined herein), are operated under three separate master lease arrangements. Under these master leases, a breach at a single community could subject one or more of the other communities covered by the same master lease to the same default risk. Failure to comply with Medicare and Medicaid provider requirements is a default under several of the Companyâ€™s leases and master leases. With an indivisible lease, it is difficult to restructure the composition of the portfolio or economic terms of the master lease without the consent of the landlord. The components of operating lease cost, are as follows: Three Months Ended September 30, Nine Months Ended September 30, 2024 2023 Operating Lease Costs: Community Rentâ€ cost of services \$9,045.4 \$8,567.4 \$26,560.4 \$25,303.4 Office Rentâ€ cost of services 1,861.1 1,439.5 2,544.4 1,366.4 Rentâ€ cost of services 10,906.1 10,006.1 \$31,814.4 \$29,439.4 General and administrative expense \$114.4 \$94.4 \$317.4 \$291.4 Variable lease cost (a) \$2,187.4 \$1,876.4 \$6,456.4 \$5,367.4 (a) Represents variable lease cost for operating leases, which costs include property taxes and insurance, common area maintenance, and consumer price index increases, incurred as part of the Companyâ€™s triple net lease, and which is included in cost of services for the three and nine months ended September 30, 2024 and 2023. The following table shows the lease maturity analysis for all leases as of September 30, 2024, for the years ended December 31: Year Amount 2024 (Remainder) \$10,044.2025 39,051.12026 37,230.42027 36,153.42028 35,293.4 Thereafter 261,134.4 Total lease payments 418,905.4 Less: present value adjustments (150,885) Present value of total lease liabilities 268,020.4 Less: current lease liabilities (19,113) Long-term operating lease liabilities \$248,907.4 Operating lease liabilities are based on the net present value of the remaining lease payments over the remaining lease term. In determining the present value of lease payments, the Company used its incremental borrowing rate based on the information available at each leaseâ€™s commencement date to determine each lease's operating lease liability. As of September 30, 2024, the weighted average remaining lease term is 11.9 years and the weighted average discount rate is 8.1%. The Company recorded income tax expense of \$4,957 and \$3,894, or 21.8% and 29.3% of earnings before income taxes for the nine months ended September 30, 2024 and 2023, respectively. The decrease in the effective tax rate is primarily due to more excess tax benefits on equity compensation. Additionally, the 401(k) Plan provides for discretionary matching contributions (as defined in the 401(k) Plan) by the Company. The Company expensed matching contributions to the 401(k) Plan of \$303 and \$874 for the three and nine months ended September 30, 2024, and \$214 and \$632 for the three and nine months ended September 30, 2023, respectively. The Company has a non-qualified deferred compensation plan (the â€œDCPâ€) for executives, other highly compensated employees, independent contractors and non-employee directors. The independent contractors and non-employee directors are otherwise ineligible for participation in the Company's 401(k) plan. The DCP allows participants to defer the receipt of a portion of their base compensation, and further allows certain participants to defer up to 80% of their base salary and bonus compensation or director fees. At the participantâ€™s election, payments can be deferred until a specific date at least one year after the year of deferral or until termination of engagement with the Company and can be paid in a lump sum or in up to ten annual installments. Separate deferral elections can be made for each year, and in limited circumstances, existing payment elections may be changed. The amounts deferred are credited with earnings and losses based upon the actual performance of the deemed investments selected by the participant. The rate of return for each participant varies depending on the specific investment elections made by the participant. Additionally, the plan deposits the employee deferrals into a rabbi trust and the funds are generally invested in individual variable life insurance contracts owned by the Company that are specifically designed to informally fund savings plans of this nature. The Company paid for related administrative costs, which were immaterial during the fiscal years presented. At September 30, 2024 and December 31, 2023, the Companyâ€™s deferred compensation liabilities were \$2,132 and \$1,108, respectively, in other long-term liabilities on the condensed consolidated balance sheets. The cash surrender value of the individual variable life insurance contracts is based on investment funds that shadow the investment allocations specified by participants in the DCP. At September 30, 2024 and December 31, 2023, the cash surrender value of the company owned life insurance (â€œCOLIâ€) policies were \$2,141 and \$1,123, respectively, and were included as a component of restricted and other assets on the condensed consolidated balance sheets. There are no outstanding loan amounts offset against the cash surrender value of the COLI policies. The losses recorded for the change in cash surrender value were immaterial for each period presented. The Companyâ€™s compliance with applicable U.S. federal, state and local laws and regulations governing these industries may be subject to governmental review and adverse findings may result in significant regulatory action, which could include sanctions, damages, fines, penalties (many of which may not be covered by insurance), and even exclusion from government programs.Â The Company is a party to various regulatory and other governmental audits and investigations in the ordinary course of business and cannot predict the ultimate outcome of any federal or state regulatory survey, audit or investigation. While governmental audits and investigations are the subject of administrative appeals, the appeals process, even if successful, may take several years to resolve and penalties subject to appeal may remain in place during such appeals, which may include suspension, termination, or revocation of participation in governmental programs for the payment of the services the Company provides. The Department of Justice, HHS, CMS, or other federal and state enforcement and regulatory agencies may conduct additional investigations related to the Company's businesses. The Company believes it is presently in compliance in all material respects with all applicable laws and regulations.Cost-Containment Measures - Government and third-party payors have instituted cost-containment measures designed to limit payments made to providers of healthcare services, may propose future cost-containment measures, and there can be no assurance that future measures designed to limit payments made to providers will not adversely affect the Company.Indemnities - From time to time, the Company enters into certain types of contracts that contingently require the Company to indemnify parties against third-party claims. These contracts primarily include (i)Â certain real estate leases, under which the Company may be required to indemnify property owners or prior operators for post-transfer environmental or other liabilities and other claims arising from the Companyâ€™s use of the applicable premises, (ii)Â operations transfer agreements, in which the Company agrees to indemnify past operators of agencies and communities the Company acquires against certain liabilities arising from the transfer of the operation and/or the operation thereof after the transfer, (iii)Â certain Ensign lending agreements, and (iv)Â certain agreements with management, directors and employees, under which the subsidiaries of the Company may be required to indemnify such persons for liabilities arising out of their employment relationships. The terms of such obligations vary by contract and, in most instances, a specific or maximum dollar amount is not explicitly stated therein. Generally, amounts under these contracts cannot be reasonably estimated until a specific claim is asserted. Consequently, because no claims have been asserted, no liabilities have been recorded for these obligations on the Companyâ€™s Condensed Consolidated Balance Sheets for any of the periods presented.Litigation - The Companyâ€™s businesses involve a significant risk of liability given the age and health of the patients and residents served by its independent operating subsidiaries. The Company, its operating subsidiaries, and others in the industry may be subject to a number of claims and lawsuits, including negligence and professional liability claims, alleging that services provided have resulted in personal injury, elder abuse, wrongful death or other related claims. Healthcare litigation (including class action litigation) is common and is filed based upon a wide variety of claims and theories, and the Company is routinely subjected to these claims in the ordinary course of business, including potential claims related to patient care and treatment, and professional negligence, as well as employment-related claims. Certain of the states where we conduct business, including California and Nevada, recently adopted laws that increase the maximum amount of non-economic damages that may be awarded to a successful plaintiff in a claim for professional negligence or malpractice arising from care provided by our independent operating subsidiaries. These changes in applicable law may also increase the cost of obtaining and maintaining professional liability insurance to pay for the defense of, and any liability arising under, such claims. If there were a significant increase in the number of these claims or an increase in amounts owing should plaintiffs be successful in their prosecution of these claims, this could materially adversely affect the Companyâ€™s business, financial condition, results of operations and cash flows. In addition, the defense of these lawsuits may result in significant legal costs, regardless of the outcome, and may result in large settlement amounts or damage awards. In addition to the potential lawsuits and claims described above, the Company also is subject to potential lawsuits under the False Claims Act (the "FCAA") and comparable state laws alleging submission of fraudulent claims for services to any governmental healthcare program (such as Medicare) or commercial payor. A violation may provide the basis for exclusion from federally funded healthcare programs. Such exclusions could have a correlative negative impact on the Companyâ€™s financial performance. Some states, including California, Arizona and Texas, have enacted similar whistleblower and false claims laws and regulations. In addition, the Deficit Reduction Act of 2005 created incentives for states to enact anti-fraud legislation modeled on the FCA, for which 18 states have qualified, including California and Texas, where we conduct business. As such, the Company could face scrutiny, potential liability and legal expenses and costs based on claims under state false claims acts in markets in which it conducts business.Under the Fraud Enforcement and Recovery Act (â€œFERAâ€) and its associated rules, healthcare providers face significant penalties for the knowing retention of government overpayments, even if no false claim was involved. Providers have an obligation to proactively exercise â€œreasonable diligenceâ€ to identify overpayments and return those overpayments to CMS within 60 days of â€œidentificationâ€ or the date any corresponding cost report is due, whichever is later. Retention of overpayments beyond this period may create liability under the FCA. In addition, FERA protects whistleblowers (including employees, contractors, and agents) from retaliation. The Company cannot predict or provide any assurance as to the possible outcome of any litigation. If any litigation were to proceed, and the Company and its operating companies are subjected to, alleged to be liable for, or agree to a settlement of, claims or obligations under federal Medicare statutes, the FCA, or similar state and federal statutes and related regulations, the Companyâ€™s business, financial condition and results of operations and cash flows could be materially and adversely affected. Among other things, any settlement or litigation could involve the payment of substantial sums to settle any alleged civil violations, and may also include the assumption of specific procedural and financial obligations by the Company or its independent operating subsidiaries going forward under a corporate integrity agreement and/or other arrangement with the government. Medicare Revenue Recoupments - The Company is subject to probe reviews relating to Medicare services, billings and potential overpayments by Unified Program Integrity Contractors (â€œUPICâ€), Recovery Audit Contractors (â€œRACâ€), Zone Program Integrity Contractors (â€œZPICâ€), Program Safeguard Contractors (â€œPSCâ€), Supplemental Medical Review Contractors (â€œSMRCâ€) and Medicaid Integrity Contributors (â€œMICâ€) programs, each of the foregoing collectively referred to as â€œReviews.â€ As of September 30, 2024, 12 of the Companyâ€™s independent operating subsidiaries had Reviews scheduled, on appeal or in dispute resolution process, both pre- and post-payment. If an operation fails an initial or subsequent Review, the operation could then be subject to extended Review, suspension of payment, or extrapolation of the identified error rate to all billing in the same time period. The Company, from time to time, receives record requests in Reviews which have resulted in claim denials on previously paid claims. The Company has appealed substantially all denials arising from these Reviews using the applicable appeals process. As of September 30, 2024, and through the filing of this Quarterly Report on Form 10-Q, the Companyâ€™s independent operating subsidiaries have responded to the Reviews that are currently ongoing, on appeal or in dispute resolution process. The Company cannot predict the ultimate outcome of any regulatory and other governmental Reviews. While such Reviews are the subject of administrative appeals, the appeals process, even if successful, may take several years to resolve. The costs to respond to and defend such Reviews may be significant and an adverse determination in such Reviews may subject the Company to sanctions, damages, extrapolation of damage findings, additional recoupments, fines, other penalties (some of which may not be covered by insurance), and termination from Medicare programs which may, either individually or in the aggregate, have a material adverse effect on the Company's business and financial condition.From June 2021 to May 2022, one hospice provider number was subject to a Medicare payment suspension imposed by a UPIC. The total amounts suspended was \$5,105, which represents all Medicare payments due to the provider number during the suspension. As of September 30, 2024, the remaining amount due from the government payor impacted by the suspension was \$246 and was recorded in long-term other assets. The Medicare payment suspension concluded in May 2022, and the UPIC reviewed 107 patient records covering a 10-month period to determine whether, in its view, a Medicare overpayment was made. Based on the results of the review, the UPIC initially alleged sampled and extrapolated overpayments of \$5,105, and withheld that amount through continued recoupment of Medicare payments. The Company is pursuing its appeal rights through the administrative appeals process, including contesting the methodology used by the UPIC to perform statistical extrapolation. To date the Company has been successful in appealing most of the previously denied claims. The Company received the refund of previously withheld amounts totaling \$4,859 as of September 30, 2024. The Company continues to work through the appeals process for the remaining denied claims and expects to be successful in those appeals. Based on the information currently available to the Company, the Company cannot predict the timing or the ultimate outcome of this review including refunds to be received.Insurance - The Company retains risk for a substantial portion of potential claims for general and professional liability, workersâ€™ compensation and automobile liability. Based on changes in law that increase the maximum damages that may be recovered for professional negligence or malpractice claims in states where we operate, including California and Nevada, the costs of maintaining some of these insurance policies may increase in the future. The Company recognizes obligations associated with these costs, up to specified deductible limits in the period in which a claim is incurred, including with respect to both reported claims and claims incurred but not reported. The general and professional liability insurance has a retention limit of \$150 per claim with a \$500 corridor as an additional out-of-pocket retention we must satisfy for claims within the policy year before the carrier will reimburse losses. The workersâ€™ compensation insurance has a retention limit of \$250 per claim, except for policies held in Texas, Washington and Wyoming which are subject to state insurance and possess their own limits. The Company is self-insured for claims related to employee health, dental, and vision care. To protect itself against loss exposure, the Company has purchased individual stop-loss insurance coverage that insures individual health claims that exceed \$350 for each covered person for fiscal year 2024 and fiscal year 2023. The Interim Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") and pursuant to the regulations of the Securities and Exchange Commission ("SEC"). Management believes that the Interim Financial Statements reflect, in all material respects, all adjustments which are of a normal and recurring nature necessary to present fairly the Company's financial position, results of operations, and cash flows for the periods presented in conformity with GAAP. The results reported in these Interim Financial Statements are not necessarily indicative of results that may be expected for the entire year. Consolidation The Company consists of various limited liability companies and corporations established to operate home health, hospice, home care, and senior living operations. The Interim Financial Statements include the accounts of all entities controlled by the Company through its ownership of a majority voting interest. Reclassifications - Certain amounts in the prior financial statements have been reclassified to conform to the presentation of the current period financial statements. Recent Accounting Pronouncements Except for rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws and a limited number of grandfathered standards, the Financial Accounting Standards Board ("FASB") ASC is the sole source of authoritative GAAP literature recognized by the FASB and applicable to the Company. For any new pronouncements announced, the Company considers whether the new pronouncements could alter previous generally accepted accounting principles and determines whether any new or modified principles will have a material impact on the Company's reported financial position or operations in the near term. The applicability of any standard is subject to the formal review of the Company's financial management and certain standards are under consideration. In November 2023, the FASB issued ASU 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures," which requires the Company to expand the breadth and frequency of segment disclosures to include additional information about significant segment expenses, the chief operating decision maker and other items, and also requires the annual disclosures on an interim basis. This guidance is effective for annual periods beginning after December 15, 2023, which will be the Company's fiscal year 2024, with early adoption permitted. The Company is currently evaluating the impact of the ASU on its quarterly and annual reports. In December 2023, the FASB issued ASU 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures," which requires the Company to disclose disaggregated jurisdictional and categorical information for the tax rate reconciliation, income taxes paid and other income tax related amounts. This guidance is effective for annual periods beginning after December 15, 2024, which will be the Company's fiscal year 2025, with early adoption permitted. The Company does not expect it to have any material impacts. Revenue Recognition Revenue is recognized when services are provided to the patients at the amount that reflects the consideration to which the Company expects to be entitled from patients and third-party payors, including Medicare, Medicaid, and managed care programs (Commercial, Medicare Advantage and Managed Medicaid plans). The healthcare services in home health and hospice patient contracts include routine services in exchange for a contractual agreed-upon amount or rate. Routine services are treated as a single performance obligation satisfied over time as services are rendered. As such, patient care services represent a bundle of services that are not capable of being distinct within the context of the contract. Additionally, there may be ancillary services which are not included in the rates for routine services, but instead are treated as separate performance obligations satisfied at a point in time, if and when those services are rendered. Revenue recognized from healthcare services is adjusted for estimates of variable consideration to arrive at the transaction price. The Company determines the transaction price based on contractually agreed-upon amounts or rates, adjusted for estimates of variable consideration. The Company uses the expected value method in determining the variable component that should be used to arrive at the transaction price, using contractual agreements and historical reimbursement experience within each payor type. The amount of variable consideration which is included in the transaction price may be constrained, and is included in the net revenue only to the extent that it is probable that a significant reversal in the amount of the cumulative revenue recognized will not occur in a future period. If actual amounts of consideration ultimately received differ from the Company's estimates, the Company adjusts these estimates, which would affect net service revenue in the period such variances become known. Medicare Revenue Net service revenue is recognized in accordance with the Patient Driven Groupings Model ("PDGM"). Under PDGM, Medicare provides agencies with payments for each 30-day payment period provided to beneficiaries. If a beneficiary is still eligible for care after the end of the first 30-day payment period, a second 30-day payment period can begin. There are no limits to the number of periods of care a beneficiary who remains eligible for the home health benefit can receive. While payment for each 30-day payment period is adjusted to reflect the beneficiary's health condition and needs, a special outlier provision exists to ensure appropriate payment for those beneficiaries that have the most expensive care needs. The payment under the Medicare program is also adjusted for certain variables including, but not limited to: (a) a low utilization payment adjustment if the number of visits is below an established threshold that varies based on the diagnosis of a beneficiary; (b) a partial payment if the patient transferred to another provider or the Company received a patient from another provider before completing the period of care; (c) adjustment to the admission source of claim if it is determined that the patient had a qualifying stay in a post-acute care setting within 14 days prior to the start of a 30-day payment period; (d) the timing of the 30-day payment period provided to a patient in relation to the admission date, regardless of whether the same home health provider provided care for the entire series of episodes; (e) changes to the acuity of the patient during the previous 30-day payment period; (f) changes in the base payments established by the Medicare program; (g) adjustments to the base payments for case mix and geographic wages; and (h) recoveries of overpayments. The Company adjusts Medicare revenue on completed episodes to reflect differences between estimated and actual payment amounts, an inability to obtain appropriate billing documentation and other reasons unrelated to credit risk. Therefore, the Company believes that its reported net service revenue and patient accounts receivable will be the net amounts to be realized from Medicare for services rendered. In addition to revenue recognized on completed episodes and periods, the Company also recognizes a portion of revenue associated with episodes and periods in progress. Episodes in progress are 30-day payment periods that begin during the reporting period but were not completed as of the end of the period. As such, the Company estimates revenue and recognizes it on a daily basis. The primary factors underlying this estimate are the number of episodes in progress at the end of the reporting period, expected Medicare revenue per period of care or episode of care and the Company's estimate of the average percentage complete based on the scheduled end of period and end of episode dates. Non-Medicare Revenue Episodic Based Revenue - The Company recognizes revenue in a similar manner as it recognizes Medicare revenue for episodic-based rates that are paid by other insurance carriers, including carriers administering Medicare Advantage programs. These rates can vary based upon the negotiated terms. Non-episodic Based Revenue - Revenue is recognized on an accrual basis based upon the date of service at amounts equal to its established or estimated per visit rates, as applicable. Hospice Revenue Revenue is recognized on an accrual basis based upon the date of service at amounts equal to the estimated payment rates. The estimated payment rates are calculated as daily rates for each of the levels of care the Company delivers. Revenue is adjusted for an inability to obtain appropriate billing documentation or authorizations acceptable to the payor and other reasons unrelated to credit risk. Additionally, as Medicare hospice revenue is subject to an inpatient cap and an overall payment cap, the Company monitors its provider numbers and estimates amounts due back to Medicare if a cap has been exceeded. The Company regularly evaluates and records these adjustments as a reduction to revenue and an increase to other accrued liabilities. Senior Living Revenue The Company has elected the lessor practical expedient within ASC Topic 842, Leases and therefore recognizes, measures, presents, and discloses the revenue for services rendered under the Company's senior living residency agreements based upon the predominant component, either the lease or non-lease component, of the contracts. The Company has determined that the services included under the Company's senior living residency agreements each have the same timing and pattern of transfer. The Company recognizes revenue under ASC Topic 606, Revenue from Contracts with Customers for its senior residency agreements, for which it has determined that the non-lease components of such residency agreements are the predominant component of each such contract.
