MANAGEMENTâ€™S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONSCompany BackgroundThe Company is a bank holding company headquartered in New York, New York and registered under the BHC Act. Through its wholly owned bank subsidiary, Metropolitan Commercial Bank (the â€œBankâ€), a New York state chartered commercial bank, the Company provides a broad range of business, commercial and retail banking products and services to small businesses, middle-market enterprises, public entities and individuals primarily in the New York metropolitan area. See the â€œGlossary of Common Terms and Acronymsâ€ for the definition of certain terms and acronyms used throughout this Form 10-Q.The Companyâ€™s primary market includes the New York metropolitan area, specifically Manhattan and the outer boroughs, and Nassau County, New York. This market is well-diversified and represents a large market for middle market businesses (defined as businesses with annual revenue of $5 million to $400 million). The Companyâ€™s market area has a diversified economy typical of most urban population centers, with the majority of employment provided by services, wholesale/retail trade, finance/insurance/real estate, technology companies and construction. A relationship-led strategy has provided the Company with select opportunities in other U.S. markets, with a particular focus on South Florida. The Companyâ€™s primary lending products are CRE, including multi-family loans, and C&I loans. Substantially all loans are secured by specific items of collateral including business and consumer assets, and commercial and residential real estate. Commercial loans are expected to be repaid from cash flows from operations of commercial enterprises. The Companyâ€™s primary deposit products are checking, savings, and term deposit accounts, all of which are insured by the FDIC under the maximum amounts allowed by law. The Company has developed various deposit gathering strategies, which generate the funding necessary to operate without a large branch network. These activities, together with six strategically located banking centers, generate a stable source of deposits and a diverse loan portfolio with attractive risk-adjusted yields. The Company operates six banking centers strategically located within close proximity to target clients. The strength of the Companyâ€™s deposit franchise comes from its long-standing relationships with clients and the strong ties it has in its market area. The Company has also developed a diversified funding strategy, which enables it to be less reliant on branches. Deposit funding is provided by the following core deposit verticals: (i) borrowing clients; (ii) non-borrowing retail clients; (iii) corporate cash management clients; (iv) municipal and other local entities; (v) EB-5 Program accounts; and (vi) Title and Escrow and Charter School clients.Critical Accounting PoliciesCritical accounting estimates are necessary in the application of certain accounting policies and procedures and are particularly susceptible to significant change. Critical accounting policies are defined as those involving significant judgments and assumptions by management that could have a material impact on the carrying value of certain assets or on income under different assumptions or conditions. Management believes that the most critical accounting policy, which involves the most complex or subjective decisions or assessments, is the allowance for credit losses. Allowance for Credit LossesThe ACL has been determined in accordance with GAAP. The Company is responsible for the timely and periodic determination of the amount of the ACL. Management believes that the ACL for loans and loan commitments is adequate to cover expected credit losses over the life of the loan portfolio. Although management evaluates available information to determine the adequacy of the ACL, the level of allowance is an estimate which is subject to significant judgment and short-term change. Because of uncertainties associated with local and national economic forecasts, the operating and regulatory environment, collateral values and future cash flows from the loan portfolio, it is possible that a material change could occur in the ACL. The evaluation of the adequacy of loan collateral is often based upon estimates and appraisals. Because of uncertain economic conditions, the valuations determined from such estimates and appraisals may change. Accordingly, the Company may ultimately incur losses that vary from managementâ€™s current estimates. Adjustments to 32 Table of Contentsthe ACL will be reported in the period in which such adjustments become known and can be reasonably estimated. All loan losses are charged to the ACL when the loss actually occurs or when the collectability of principal is deemed to be unlikely. Recoveries are credited to the allowance at the time of recovery. Various regulatory agencies, as an integral part of their examination process, periodically review the Companyâ€™s ACL. As a result of such examinations, the Company may need to recognize additions to the ACL based on the regulatorsâ€™ observations.In estimating the ACL, the Company relies on models and economic forecasts developed by external parties as the primary driver of the ACL. These external models and forecasts are based on nationwide data sets. Economic forecasts can change significantly over an economic cycle and have a significant level of uncertainty associated with them. The performance of these models is dependent on the variables used in the models being reasonable predictors for the loan portfolioâ€™s performance. However, these variables may not capture all sources of risk within the portfolio. As a result, the Company reviews the results and makes qualitative adjustments to capture potential limitations of the external models as necessary. Such qualitative factors may include adjustments to better capture the imprecision associated with the economic forecasts, and the ability of the models to capture emerging risks within the portfolio that may not be represented in the data. These adjustments are evaluated through the Companyâ€™s review process and revised on a quarterly basis to account for changes in forecasts, facts and circumstances.One of the more significant judgments involved in estimating the Companyâ€™s ACL relates to the macroeconomic forecasts used to estimate credit losses and the relative weightings applied to them. To illustrate the impact of changes in these forecasts to the Companyâ€™s ACL, the Company performed a hypothetical sensitivity analysis that decreased the weight on the baseline scenario by 33% and equally allocated the difference to increase the weights on the more optimistic and adverse scenarios. All else equal, the impact of this hypothetical forecast would result in a net increase of approximately $7.1 million, or 11.8%, in the Companyâ€™s total ACL for loans and loan commitments as of JuneÂ 30,Â 2024. This hypothetical analysis is intended to illustrate the impact of adverse changes in the macroeconomic forecasts at a point in time and is not intended to reflect the full nature and extent of potential future change in the ACL. It is difficult to estimate how potential changes in any one of the quantitative inputs or qualitative factors might affect the overall ACL and the Companyâ€™s current assessments may not reflect the potential future impact of changes to those inputs or factors.Discussion of Financial Condition The Company had total assets of $7.3 billion at JuneÂ 30,Â 2024, an increase of $197.9 million, or 2.8%, from December 31, 2023.Total cash and cash equivalents were $244.7 million at JuneÂ 30,Â 2024, a decrease of $24.8 million, or 9.2%, from December 31, 2023. The decrease primarily reflects the $214.1 million net deployment into loans and the $289.0 million decrease in wholesale funding, partially offset by the $432.4 million increase in deposits.InvestmentsTotal securities were $956.2 million at JuneÂ 30,Â 2024, an increase of $24.0 million, or 2.6%, from December 31, 2023. The increase was primarily due to the purchase of $72.8 million of AFS securities, partially offset by the $44.3 million paydown and maturities of AFS and HTM securities.LoansTotal loans, net of deferred fees and unamortized costs, were $5.8 billion at JuneÂ 30,Â 2024, an increase of $214.1 million, or 3.8%, from December 31, 2023. The increase in total loans was due primarily to an increase of $198.4 million in CRE loans (including owner-occupied) and $53.8 million in C&I loans. At JuneÂ 30,Â 2024, 80.2% of the CRE and C&I loan portfolio is concentrated in the New York Metropolitan Area (mainly New York City) and Florida.â€‹33 Table of ContentsAs of JuneÂ 30,Â 2024, total loans consisted primarily of CRE loans (including multi-family mortgage loans) and C&I loans. These hypothetical estimates are based upon numerous assumptions, which are subject to change, including: the nature and timing of interest rate levels including the yield curve shape, prepayments on loans and securities, deposit decay rates, pricing decisions on loans and deposits, reinvestment/replacement of asset and liability cash flows, and others. Also, as market conditions vary, prepayment/refinancing levels, the varying impact of interest rate changes on caps and floors embedded in adjustable-rate loans, early withdrawal of deposits, changes in product preferences, and other internal/external variables will likely deviate from those assumed.ITEMÂ 4. The Unaudited Consolidated Financial Statements (â€œunaudited financial statementsâ€) include the accounts of the Company and the Bank. All intercompany balances and transactions have been eliminated. The unaudited financial statements have been prepared in accordance with GAAP for interim financial information and with the instructions to FormÂ 10-Q, ArticleÂ 8 of Regulation S-X and predominant practices within the U.S. banking industry. Certain information and note disclosures normally included in the financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rulesÂ and regulations of the SEC. The unaudited financial statements reflect all normal recurring adjustments that are, in the opinion of management, necessary for a fair presentation of the results for the interim periods presented. In preparing the interim unaudited financial statements in conformity with GAAP, management has made estimates and assumptions based on available information. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reported periods, and actual results could differ from those estimated. Information available which could affect these judgments include, but are not limited to, changes in interest rates, changes in the performance of the economy, inflation and its related effects and changes in the financial condition of borrowers. Some items in the prior year financial statements may have been reclassified to conform to the current presentation. Reclassification had no effect on prior year net income or stockholdersâ€™ equity.The results of operations for the three and six months ended JuneÂ 30,Â 2024 and 2023 are not necessarily indicative of the results of operations that may be expected for the entire fiscalÂ year or for any other period. ASC 326 requires that financial institutions and other organizations will use forward-looking information to better inform their credit loss estimates. This guidance also amends the accounting for credit losses on AFS debt securities and purchased financial assets with credit deterioration. The Company adopted this guidance effective January 1, 2023 using a modified retrospective approach. Upon adoption, the Company recorded a cumulative effect adjustment that increased the allowance for credit losses for loans and loan commitments by $3.0 million, increased deferred tax assets by $777,000 and decreased retained earnings by $2.1 million, net of tax.In March 2022, the FASB issued ASU 2022-02, Financial Instruments - Credit Losses (ASC 326): Troubled Debt Restructurings and Vintage Disclosures. ASU 2022-02 eliminates the accounting guidance for TDRs by creditors while enhancing disclosure requirements for certain loan refinancings and restructurings by creditors when a borrower is experiencing financial difficulty. The Company adopted this guidance effective January 1, 2023, which did not have a material impact on its consolidated financial statements.In March 2020, the FASB issued ASU 2020-04, Reference Rate Reform (ASC 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting, which provided optional expedients and exceptions for applying GAAP to contracts, hedging relationships, and other transactions affected by reference rate reform if certain criteria are met. In December 2022, the FASB issued ASU 2022-06, Reference Rate Reform (ASC 848): Deferral of Sunset Date of Topic 848, which deferred the sunset date of ASC 848 from December 31, 2022, to December 31, 2024 because the current relief in ASC 848 did not cover the June 30, 2023 cessation date for the overnight 1-, 3-, 6-, and 12-month tenors of USD LIBOR. The Companyâ€™s LIBOR-based financial instruments included loans and trust preferred securities. The required transition has been implemented successfully and LIBOR is no longer offered to clients as a floating rate loan index. The trust preferred securities have transitioned to SOFR.â€‹ X - ReferencesNo definition available. + Details Name: us-gaap_NewAccountingPronouncementsAndChangesInAccountingPrinciplesAbstract Namespace Prefix: us-gaap_ Data Type: xbrli:stringItemType Balance Type: na Period Type: duration X - DefinitionThe entire disclosure for change in accounting principle. The Unaudited Consolidated Financial Statements (â€œunaudited financial statementsâ€) include the accounts of the Company and the Bank. All intercompany balances and transactions have been eliminated. The unaudited financial statements have been prepared in accordance with GAAP for interim financial information and with the instructions to FormÂ 10-Q, ArticleÂ 8 of Regulation S-X and predominant practices within the U.S. banking industry. Certain information and note disclosures normally included in the financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rulesÂ and regulations of the SEC. The unaudited financial statements reflect all normal recurring adjustments that are, in the opinion of management, necessary for a fair presentation of the results for the interim periods presented. In preparing the interim unaudited financial statements in conformity with GAAP, management has made estimates and assumptions based on available information. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reported periods, and actual results could differ from those estimated. Information available which could affect these judgments include, but are not limited to, changes in interest rates, changes in the performance of the economy, inflation and its related effects and changes in the financial condition of borrowers. Some items in the prior year financial statements may have been reclassified to conform to the current presentation. Reclassification had no effect on prior year net income or stockholdersâ€™ equity.The results of operations for the three and six months ended JuneÂ 30,Â 2024 and 2023 are not necessarily indicative of the results of operations that may be expected for the entire fiscalÂ year or for any other period. The unaudited financial statements presented in this report should be read in conjunction with the Companyâ€™s audited consolidated financial statements and notes to the audited consolidated financial statements included in the Companyâ€™s Annual Report on FormÂ 10-K for theÂ year ended December 31, 2023 as filed with the SEC. SUMMARY OF RECENT ACCOUNTING PRONOUNCEMENTS In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments â€“ Credit Losses (â€œASC 326â€), which requires the measurement of all expected credit losses for financial assets held at amortized cost to be based on historical experience, current condition, and reasonable and supportable forecasts. ASC 326 requires that financial institutions and other organizations will use forward-looking information to better inform their credit loss estimates. This guidance also amends the accounting for credit losses on AFS debt securities and purchased financial assets with credit deterioration. The Company adopted this guidance effective January 1, 2023 using a modified retrospective approach. Upon adoption, the Company recorded a cumulative effect adjustment that increased the allowance for credit losses for loans and loan commitments by $3.0 million, increased deferred tax assets by $777,000 and decreased retained earnings by $2.1 million, net of tax.In March 2022, the FASB issued ASU 2022-02, Financial Instruments - Credit Losses (ASC 326): Troubled Debt Restructurings and Vintage Disclosures. ASU 2022-02 eliminates the accounting guidance for TDRs by creditors while enhancing disclosure requirements for certain loan refinancings and restructurings by creditors when a borrower is experiencing financial difficulty. The Company adopted this guidance effective January 1, 2023, which did not have a material impact on its consolidated financial statements.In March 2020, the FASB issued ASU 2020-04, Reference Rate Reform (ASC 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting, which provided optional expedients and exceptions for applying GAAP to contracts, hedging relationships, and other transactions affected by reference rate reform if certain criteria are met. In December 2022, the FASB issued ASU 2022-06, Reference Rate Reform (ASC 848): Deferral of Sunset Date of Topic 848, which deferred the sunset date of ASC 848 from December 31, 2022, to December 31, 2024 because the current relief in ASC 848 did not cover the June 30, 2023 cessation date for the overnight 1-, 3-, 6-, and 12-month tenors of USD LIBOR. The Companyâ€™s LIBOR-based financial instruments included loans and trust preferred securities. The required transition has been implemented successfully and LIBOR is no longer offered to clients as a floating rate loan index. The trust preferred securities have transitioned to SOFR.â€‹ X - DefinitionDisclosure of accounting policy for basis of accounting, or basis of presentation, used to prepare the financial statements (for example, US Generally Accepted Accounting Principles, Other Comprehensive Basis of Accounting, IFRS). + ReferencesNo definition available. + Details Name: us-gaap_BasisOfAccountingPolicyPolicyTextBlock Namespace Prefix: us-gaap_ Data Type: dtr-types:textBlockItemType Balance Type: na Period Type: duration X - ReferencesNo definition available. + Details Name: us-gaap_NewAccountingPronouncementsAndChangesInAccountingPrinciplesAbstract Namespace Prefix: us-gaap_ Data Type: xbrli:stringItemType Balance Type: na Period Type: duration X - DefinitionDisclosure of accounting policy pertaining to new accounting pronouncements that may impact the entity's financial reporting.
