Under the CECL methodology, for collateral-dependent loans, the Company has adopted the practical expedient to measure the allowance on the fair value of collateral. The allowance is calculated on an individual loan basis based on the shortfall between the fair value of the loanâ€“s collateral, which is adjusted for liquidation costs/discounts, and the loanâ€“s amortized cost. If the fair value of the collateral exceeds the loanâ€“s amortized cost, no allowance is necessary. The Companyâ€“s policy is to obtain appraisals on any significant pieces of collateral. Higher discounts are applied in determining fair value for real estate collateral in industries that are undergoing significant stress, or for properties that are specialized use or have limited marketability.11HAWTHORN BANCSHARES, INC.AND SUBSIDIARIESNotes to the Consolidated Financial Statements(Unaudited)There have been no significant changes to the types of collateral securing the Company's collateral dependent loans since DecemberÂ 31, 2023.The amortized cost of collateral-dependent loans by class as of JuneÂ 30, 2024 and DecemberÂ 31, 2023 was as follows:Collateral Type(in thousands)Real EstateOtherAllowance AllocatedJune 30, 2024Commercial, financial, and agricultural\$â€“Â \$30Â \$17Â Real estate construction â€“ residential454Â â€“Â 194Â Real estate mortgage â€“ commercial1,100Â â€“Â 360Â Total\$1,554Â \$30Â \$571Â December 31, 2023Commercial, financial, and agricultural\$â€“Â \$2,221Â \$1,300Â Real estate construction â€“ residential432Â â€“Â 164Â Real estate mortgage â€“ residential46Â â€“Â 19Â Real estate mortgage â€“ commercial2,369Â â€“Â 100Â Total\$2,847Â \$2,221Â \$1,483Â Credit QualityThe Company categorizes loans into risk categories based upon an internal rating system reflecting managementâ€“s risk assessment. â€“Pass - loans that are well protected by the current net worth and paying capacity of the obligor (or guarantors, if any) or by the fair value, less cost to acquire and sell in a timely manner, of any underlying collateral.â€“Watch - loans that have one or more weaknesses identified that may result in the borrower being unable to meet repayment terms or when the Companyâ€“s credit position could deteriorate at some future date. â€“Special Mention - loans that have negative financial trends, or other weaknesses that if left uncorrected, could threaten its capacity to meet its debt obligations. This is a transitional grade that is closely monitored by management for improvement or deterioration.â€“Substandard - loans that are inadequately protected by the current sound worth and paying capacity of the obligor or by the collateral pledged, if any. Loans so classified may have a well-defined weakness or weaknesses that jeopardize the repayment of the debt. Such loans are characterized by the distinct possibility that the Company may sustain some loss if the deficiencies are not corrected. â€“Doubtful - loans that have all the weaknesses inherent in loans classified as Substandard with the added characteristic that the weaknesses make collection or liquidation in full highly questionable and improbable on the basis of currently known facts, conditions, and values. These loans are also on non-accrual status. â€“Non-accrual - loans that are delinquent for 90 days or more and the ultimate collectability of interest or principal is no longer probable. Real estate loans secured by one-to-four family residential properties are exempt from these non-accrual guidelines. These loans are placed on non-accrual status after they become 120 days past due. (The majority of the Company's non-accrual loans have a substandard risk grade.) 12HAWTHORN BANCSHARES, INC.AND SUBSIDIARIESNotes to the Consolidated Financial Statements(Unaudited)The following table presents the recorded investment by risk categories at JuneÂ 30, 2024:Term LoansAmortized Cost Basis by Origination Year and Risk Grades(in thousands)20242023202220212020PriorRevolving Loans Amortized Cost BasisRevolving Loans Converted to Term Loans Amortized Cost BasisTotalJune 30, 2024Commercial, Financial, & AgriculturalPass\$15,962Â \$26,707Â \$34,785Â \$29,036Â \$28,822Â \$5,478Â \$60,528Â \$468Â \$201,786Â Watch\$23Â 205Â 3,414Â â€“Â \$32Â 272Â 4,899Â â€“Â 9,645Â Substandard\$586Â 361Â 3, :accrual loans\$Â 29Â 81Â 219Â â€“Â â€“Â \$159Â â€“Â 488Â Total\$17,071Â \$27,502Â \$41,867Â \$29,269Â \$29,167Â \$5,750Â \$65,904Â \$568Â \$217,098Â Gross YTD charge-offs\$Â 31Â â€“Â 88Â 2Â 51Â 1,716Â â€“Â 1,888Â Real Estate Construction - Loans are generally classified as delinquent once payments become 30 days or more past due. The Companyâ€“s policy is to discontinue the accrual of interest income on any loan when, in the opinion of management, the ultimate collectability of interest or principal is no longer probable. In general, loans are placed on non-accrual status when they become 90 days or more past due. However, management considers many factors before placing a loan on non-accrual status, including the delinquency status of the loan, the overall financial condition of the borrower, the progress of managementâ€“s collection efforts and the value of the underlying collateral. Subsequent interest payments received on non-accrual loans are applied to principal if any doubt exists as to the collectability of such principal; otherwise, such receipts are recorded as interest income on a cash basis. Non-accrual loans are returned to accrual status when, in the opinion of management, the financial condition of the borrower indicates that the timely collectability of interest and principal is probable and the borrower demonstrates the ability to pay under the terms of the note through a sustained period of repayment performance, which is generally six months.The following table presents the recorded investment in non-accrual loans and loans past due over 90 days still on accrual by class of loans as of JuneÂ 30, 2024 and DecemberÂ 31, 2023:(in thousands)Non-accrual with no AllowanceNon-accrual with AllowanceTotal Non-accrual90 Days Past Due And Still AccruingTotal Non-performing LoansJune 30, 2024Commercial, Financial, and Agricultural\$â€“Â \$702Â \$702Â \$â€“Â \$702Â Real estate construction â€“ residentialâ€“Â \$454Â 454Â â€“Â 454Â Real estate construction â€“ commercialâ€“Â 59Â 59Â â€“Â 59Â Real estate mortgage â€“ residentialâ€“Â 889Â 889Â 293Â 1,182Â Real estate mortgage â€“ commercialâ€“Â 1,305Â 1,305Â 709Â 2,014Â Installment and Other Consumerâ€“Â 11Â 11Â 15Â 26Â Total\$â€“Â \$3,420Â \$3,420Â \$1,017Â \$4,437Â December 31, 2023Commercial, Financial, and Agricultural\$â€“Â \$2,228Â \$2,228Â \$â€“Â \$2,228Â Real estate construction â€“ residentialâ€“Â 432Â 432Â â€“Â 432Â Real estate construction â€“ commercialâ€“Â 69Â 69Â â€“Â 69Â Real estate mortgage â€“ residentialâ€“Â 587Â 587Â 115702Â Real estate mortgage â€“ commercial2,368Â 610Â 2,978Â â€“Â 2,978Â Installment and Other Consumerâ€“Â â€“Â 4Â 4Â 4Â Total\$2,368Â \$3,926Â \$6,294Â \$119Â \$6,413Â No material amount of interest income was recognized on non-accrual loans during the three and six months ended JuneÂ 30, 2024.15HAWTHORN BANCSHARES, INC.AND SUBSIDIARIESNotes to the Consolidated Financial Statements(Unaudited)The following table provides aging information for the Companyâ€“s past due and non-accrual loans at JuneÂ 30, 2024 and DecemberÂ 31, 2023.(in thousands)Current or Less Than 30 Days Past Due30 - 89 Days Past Due90 Days Past Due And Still AccruingNon-AccrualTotalJune 30, 2024Commercial, Financial, and Agricultural\$215,363Â \$1,033Â \$â€“Â \$702Â \$217,098Â Real estate construction â€“ residential36,594Â â€“Â â€“Â 454Â 37,048Â Real estate construction â€“ commercial55,456Â â€“Â â€“Â 59Â 55,515Â Real estate mortgage â€“ residential371,233Â 1,659Â 293Â 889Â 374,074Â Real estate mortgage â€“ commercial795,857Â 79Â 709Â 1,305Â 797,950Â Installment and Other Consumer16,595Â 198Â 15Â 11Â 16,819Â Total\$1,491,098Â \$2,969Â \$1,017Â \$3,420Â \$1,498,504Â December 31, 2023Commercial, Financial, and Agricultural\$223,845Â \$202Â \$â€“Â \$2,228Â \$226,275Â Real estate construction â€“ residential57,568Â 347Â â€“Â 432Â 58,347Â Real estate construction â€“ commercial130,229Â 17Â â€“Â 69Â 130,296Â Real estate mortgage â€“ residential368,956Â 2,733Â 115Â 587Â 372,391Â Real estate mortgage â€“ commercial728,278Â 17Â â€“Â 2,978Â 731,024Â Installment and Other Consumer20,607Â 203Â 4Â â€“Â 20,814Â Total\$1,529,232Â \$3,502Â \$119Â \$6,294Â \$1,539,147Â Loan Modifications for Borrowers Experiencing Financial DifficultyIn the normal course of business, the Company may execute loan modifications with borrowers. The Companyâ€“s modifications generally include interest rate adjustments, principal reductions, and amortization and maturity date extensions. If a loan modification is determined to be made to a borrower experiencing financial difficulty, the loan is considered collateral-dependent and evaluated as part of the allowance for credit losses as described above in the Allowance for Credit Losses section of this note. For the three and six months ended JuneÂ 30, 2024, the Company did not modify any loans made to borrowers experiencing financial difficulty. The Company monitors loan payments on an on-going basis to determine if a loan is considered to have a payment default. Determination of payment default involves analyzing the economic conditions that exist for each customer and their ability to generate positive cash flows during the loan term. Loans Held for SaleThe Company designates certain long-term fixed rate personal real estate loans as held for sale. These loans are initially measured at fair value under the fair value option election with subsequent changes in fair value recognized in mortgage banking income. The loans are primarily sold to Freddie Mac, Fannie Mae, PennyMac, and various other secondary market investors. At JuneÂ 30, 2024, the carrying amount of these loans was \$1.4 million compared to \$3.9 million at DecemberÂ 31, 2023. 16HAWTHORN BANCSHARES, INC.AND SUBSIDIARIESNotes to the Consolidated Financial Statements(Unaudited)(3) Other Real Estate and Other Assets Acquired in Settlement of LoansJune 30, December 31, (in thousands)20242023Commercial\$98Â \$â€“Â Real estate construction - commercial2,549Â 7,668Â Real estate mortgage - residentialâ€“Â 20Real estate mortgage - commercial2,722Â Repossessed assetsâ€“Â 6Â Total\$5,369Â \$7,694Â Less valuation allowance for other real estate owned(1,744)(5,950)Total other real estate owned and repossessed assets\$3,625Â \$1,744Â Changes in the net carrying amount of other real estate owned and repossessed assets were as follows for the periods indicated:Three Months Ended June 30,Six Months Ended June 30,(in thousands)2024202320242023Balance at beginning of period\$7,887\$10,911\$7,694\$11,459Additions net of (charge-offs)2,730442,94944Proceeds from sales(1,488)(70) (1,548)(627)Charge-offs against the valuation allowance for other real estate owned, net(3,820)â€“ (3,820)â€“ Net gain on sales60399448Total other real estate owned\$5,6910,924\$5,369\$10,924Less valuation allowance for other real estate owned(1,744)(4,495) (1,744)(4,495)Balance at end of period\$3,625\$6,429\$3,625\$6,429At JuneÂ 30, 2024, there were \$0.1 million of consumer mortgage loans secured by residential real estate properties in the process of foreclosure compared to \$0.01 million at DecemberÂ 31, 2023.Activity in the valuation allowance for other real estate owned was as follows for the periods indicated:Three Months Ended June 30,Six Months Ended June 30,(in thousands)2024202320242023Balance at

Company adopted the guidance under ASU 2017-07, improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. Under the guidance, only the service cost component of the net periodic benefit cost is reported in the same income statement line item as salaries and benefits, and the remaining components are reported as other non-interest expense. An employer is required to recognize the funded status of a defined benefit postretirement plan as an asset or liability in its balance sheet and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. Under the Company's funding policy for the defined benefit pension plan, contributions are made to a trust as necessary to provide for current service and for any unfunded accrued actuarial liabilities over a reasonable period. To the extent that these requirements are fully covered by assets in the trust, a contribution might not be made in a particular year. Effective July 1, 2017, the Company amended the pension plan to effectuate a "soft freeze" such that no individual hired (or rehired in the case of a former employee) by the Company after September 30, 2017, whether or not such individual is or was a vested member in the plan, will be eligible to be an active member and be entitled to accrue any benefits under the plan. Components of Net Pension Cost (Income) and Other Amounts Recognized in Accumulated Other Comprehensive Income (Loss) The following items are components of net pension cost (income) for the periods indicated: Three Months Ended June 30, Six Months Ended June 30, (in thousands) 2024 2023 2024 2023 Service cost - benefits earned during the year \$218 \$219 \$474 \$473 Interest costs on projected benefit obligations (a) 366 349 738 714 Expected return on plan assets (a) (589) (544) (1,179) (1,089) Expected administrative expenses 27 28 54 58 Amortization of unrecognized net gain (a) (186) (178) (345) (320) Net periodic pension income \$ (164) \$ (126) \$ (258) \$ (164) (b) The components of net periodic pension cost (income) other than the service cost and expected administrative expenses are included in other non-interest income. Net periodic pension benefit costs (income) include interest costs based on an assumed discount rate, the expected return on plan assets based on actuarially derived market-related values, and the amortization of net actuarial (gains) losses. Net periodic postretirement benefit costs include service costs, interest costs based on an assumed discount rate, and the amortization of prior service credits and net actuarial gains. Differences between expected and actual results in each year are included in the net actuarial gain or loss amount, which is recognized in other comprehensive (loss) income. The net actuarial gain or loss in excess of a 10% corridor is amortized in net periodic benefit cost over the average remaining service period of active participants in the pension plan. The prior service credit is amortized over the average remaining service period to full eligibility for participating employees expected to receive benefits. Currently, there is no prior service cost or net transition (asset)/obligation to be amortized. 25 HAWTHORN BANCSHARES, INC. AND SUBSIDIARIES Notes to the Consolidated Financial Statements (Unaudited) (12) Earnings per Share Basic earnings per share is computed by dividing income available to shareholders by the weighted average number of shares outstanding during the period. Diluted earnings per share gives effect to all dilutive potential shares that were outstanding during the period. Presented below is a summary of the components used to calculate basic and diluted earnings per common share, which have been restated for all stock dividends: Three Months Ended June 30, Six Months Ended June 30, (dollars in thousands, except per share data) 2024 2023 2024 2023 Basic and Diluted Earnings Per Share: Net income available to shareholders \$4,629 \$2,549 \$9,085 \$5,820 Basic weighted-average shares outstanding 6,995,956 7,039,327 14,063 14,039 Effect of dilutive equity-based awards \$.00 \$.00 Diluted weighted-average shares outstanding 6,995,956 7,039,327 14,063 14,039 Basic earnings per share \$0.66 \$0.36 \$1.29 \$0.83 Diluted earnings per share \$0.66 \$0.36 \$1.29 \$0.83 The dilutive effect of RSUs is reflected in diluted earnings per share unless the impact is anti-dilutive, by application of the treasury stock method. Repurchase Program Pursuant to the Company's 2019 Repurchase Plan, management is given discretion to determine the number and pricing of the shares to be repurchased, as well as the timing of any such repurchases. The Company repurchased 51,692 common shares under the repurchase plan during the first six months of 2024 at an average cost of \$19.46 per share totaling \$1.0A million. As of June 30, 2024, \$4.0A million remained available for share repurchases pursuant to the plan. (13) Fair Value Measurements Fair value represents the amount expected to be received to sell an asset or paid to transfer a liability in its principal or most advantageous market in an orderly transaction between market participants at the measurement date. Depending on the nature of the asset or liability, the Company uses various valuation methodologies and assumptions to estimate fair value. The measurement of fair value under U.S. GAAP uses a hierarchy intended to maximize the use of observable inputs and minimize the use of unobservable inputs. This hierarchy uses three levels of inputs to measure the fair value of assets and liabilities as follows. The fair value hierarchy is as follows: Level 1 "Inputs are unadjusted quoted prices for identical assets or liabilities in active markets. A quoted price in an active market provides the most reliable evidence of fair value and is used to measure fair value whenever available. A contractually binding sales price also provides reliable evidence of fair value. Level 2 "Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These might include quoted prices for similar assets and liabilities in active markets, such as interest rates and yield curves that are observable at commonly quoted intervals. Level 3 "Inputs are unobservable inputs for the asset or liability and significant to the fair value. These may be internally developed using the Company's best information and assumptions that a market participant would consider. 26 HAWTHORN BANCSHARES, INC. AND SUBSIDIARIES Notes to the Consolidated Financial Statements (Unaudited) In accordance with fair value accounting guidance, the Company measures, records, and reports various types of assets and liabilities at fair value on either a recurring or non-recurring basis in the consolidated financial statements. Nonfinancial assets measured at fair value on a non-recurring basis would include foreclosed real estate, long-lived assets, and core deposit intangible assets, which are reviewed when circumstances or other events indicate that impairment may have occurred. Valuation Methods for Assets and Liabilities Measured at Fair Value on a Recurring Basis Following is a description of the Company's valuation methodologies used for assets and liabilities recorded at fair value on a recurring basis: Available-for-Sale Securities The fair value measurements of the Company's investment securities are determined by a third party pricing service that considers observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond's "terms and conditions, among other things. The fair value measurements are subject to management's independent verification to another pricing source for reasonableness each quarter. Other Investment Securities Other investment securities include equity securities with readily determinable fair values and other investment securities that do not have readily determinable fair values. Investments in FHLB stock and MIB stock, that do not have readily determinable fair values, are required for membership in those organizations. Equity securities that are not actively traded are classified in Level 2. Equity securities with readily determinable fair values are recorded at fair value, with changes in fair value reflected in earnings. Equity securities that do not have readily determinable fair values are carried at cost and are periodically assessed for impairment. The Company uses Level 1 inputs to value equity securities that are traded in active markets. Loans Held for Sale The fair value of the commitment in forward sale agreements loans is the price at which they could be sold in the principal market at the measurement date, therefore the Company classifies these loans as Level 2. Derivative Assets and Liabilities Derivative assets and liabilities include interest rate lock commitments (IRLCs) and forward sale commitments. The fair values of IRLCs and forward sale commitments are determined using readily observable market data such as interest rates, prices, volatility factors, and customer credit-related adjustments. For IRLCs, the fair value is subject to the anticipated loan funding probability (pull-through rate), which is considered an unobservable factor. Factors that affect pull-through rates include origination channel, current mortgage interest rates in the market versus the interest rate incorporated in the IRLC, the purpose of the mortgage, stage of completion of the underlying application and underwriting process, and the time remaining until the IRLC expires. The Company classifies IRLCs as Level 3 due to the unobservable input of pull-through rates. Mortgage Servicing Rights (MSRs) The Company sold its servicing portfolio on January 31, 2024. In prior periods, the fair value of MSRs is based on the discounted value of estimated future cash flows utilizing contractual cash flows, servicing rate, constant prepayment rate, servicing cost, and discount rate factors. Accordingly, the fair value is estimated based on a valuation model that calculates the present value of estimated future net servicing income. The model incorporates assumptions that market participants use in estimating future net servicing income, including estimates of prepayment speeds, market discount rates, cost to service, float earnings rates, and other ancillary income, including 27 HAWTHORN BANCSHARES, INC. AND SUBSIDIARIES Notes to the Consolidated Financial Statements (Unaudited) late fees. The valuation models estimate the present value of estimated future net servicing income. The Company classifies its MSRs as Level 3. Non-recurring adjustments also include certain impairment amounts for collateral dependent loans when establishing the allowance for credit losses. Such amounts are generally based on the fair value of the underlying collateral supporting the loan. In determining the value of real estate collateral, the Company relies on external and internal appraisals of property values depending on the size and complexity of the real estate collateral. The Company maintains staff trained to perform in-house evaluations and also to review third-party appraisal reports for reasonableness. In the case of non-real estate collateral, reliance is placed on a variety of sources, including external estimates of value and judgments based on the experience and expertise of internal specialists. Values of all loan collateral are regularly reviewed by a senior loan committee. Because many of these inputs are not observable, the measurements are classified as Level 3. As of June 30, 2024, the Company identified \$1.6 million in collateral-dependent loans that required a \$0.6 million specific allowance for credit losses. Related to these loans, there were \$1.9 million in charge-offs recorded in each of the three and six months ended June 30, 2024. As of June 30, 2023, the Company identified \$2.9 million in collateral-dependent loans that required a \$0.03 million specific allowance for credit losses. Related to these loans, there were \$0.02A million and \$0.03A million in charge-offs recorded during the three and six months ended June 30, 2023, respectively. Other Real Estate and Foreclosed Assets Other real estate owned (OREO) and foreclosed assets consisted of loan collateral repossessed through foreclosure. This collateral is comprised of commercial and residential real estate and other non-real estate property, including autos, manufactured homes, and construction equipment. Subsequent to foreclosure, these assets are initially carried at fair value of the collateral less estimated selling costs. Fair value, when recorded, is generally based upon appraisals by approved, independent state-certified appraisers. Like impaired loans, appraisals on OREO may be discounted based on the Company's historical knowledge, changes in market conditions from the time of appraisal or other information available. During the holding period, valuations are updated periodically, and the assets may be written down to reflect a new cost basis. Because many of these inputs are not observable, the measurements are classified as Level 3. 29 HAWTHORN BANCSHARES, INC. The Company believes such commitments have been made on terms that are competitive in the markets in which it operates.LimitationsThe fair value estimates provided are made at a point in time based on market information and information about the financial instruments. Because no market exists for a portion of the Companyâ€™s financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the fair value estimates.(15) Commitments and ContingenciesThe Company issues financial instruments with off-balance-sheet risk in the normal course of business of meeting the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of 33HAWTHORN BANCSHARES, INC.AND SUBSIDIARIESNotes to the Consolidated Financial Statements(Unaudited)credit. These instruments may involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the consolidated balance sheets. The Companyâ€™s extent of involvement and maximum potential exposure to credit loss in the event of non-performance by the other party to the financial instrument for commitments to extend credit and standby letters of credit is represented by the contractual amount of these instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for financial instruments included on its consolidated balance sheets.The allowance for credit losses associated with unfunded commitments and letters of credit is recorded within other liabilities on the consolidated balance sheets. At JuneÂ 30, 2024, the allowance for credit losses for unfunded commitments was \$0.9 million. The contractual amounts of off-balance-sheet financial instruments were as follows as of the dates indicated:(in thousands)June 30, 2024December 31, 2023Commitments to extend credit\$310,584\$286,939Interest rate lock commitments2,131,694Forward sale commitments1,3413,779Standby letters of credit48,200111,631Total\$362,256\$406,043CommitmentsCommitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since certain of the commitments and letters of credit are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customerâ€™s creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on managementâ€™s credit evaluation of the customer. Collateral held varies, but may include accounts receivable, inventory, furniture and equipment, and real estate.The Company has two types of commitments related to mortgage loans held for sale: interest rate lock commitments and forward loan sale commitments. Interest rate lock commitments are commitments to extend credit to a customer that has an interest rate lock and are considered derivative instruments.Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third-party. These standby letters of credit are primarily issued to support contractual obligations of the Companyâ€™s customers. The approximate remaining term of standby letters of credit ranged from one month to five years at JuneÂ 30, 2024.Pending LitigationThe Company and its subsidiaries are defendants in various legal actions incidental to the Companyâ€™s past and current business activities. Based on the Companyâ€™s analysis, and considering the inherent uncertainties associated with litigation, management does not believe that it is reasonably possible that these legal actions will materially adversely affect the Companyâ€™s consolidated financial condition or results of operations in the near term. The Company records a loss accrual for all legal matters for which it deems a loss is probable and can be reasonably estimated. Some legal matters, which are at early stages in the legal process, have not yet progressed to the point where a loss is deemed probable or an amount can be estimated.34Item 2 - Managementâ€™s Discussion and Analysis of Financial Condition and Results of OperationsForward-Looking StatementsThis report contains certain forward-looking statements with respect to the financial condition, results of operations, plans, objectives, strategy, future performance and business of Hawthorn Bancshares, Inc., and its subsidiaries (collectively, the "Company", "we", "our", or "us"), including, without limitation:â€œstatements that are not historical in nature, andâ€œstatements preceded by, followed by or that include the words believes, expects, may, will, should, could, anticipates, estimates, intends, plans, hopes or similar expressions.Forward-looking statements are not guarantees of future performance or results. They involve risks, uncertainties and assumptions. Actual results may differ materially from those contemplated by the forward-looking statements due to, among others, the following factors:â€œcompetitive pressures among financial services companies may increase significantly,â€œchanges in the interest rate environment may reduce interest margins,â€œgeneral economic conditions, either nationally or in Missouri, may be less favorable than expected and may adversely affect the quality of our loans and other assets,â€œincreases in non-performing assets in the Companyâ€™s loan portfolios and adverse economic conditions may necessitate increases to our provisions for credit losses,â€œcosts or difficulties related to any integration of any business of the Company and its acquisition targets may be greater than expected,â€œlegislative, regulatory or tax law changes may adversely affect the business in which the Company and its subsidiaries are engaged,â€œcredit and market risks relating to increasing inflation,â€œeconomic or other disruptions caused by acts of terrorism, war or other conflicts, including the Russia-Ukraine conflict, and the Israel-Hamas conflict, natural disasters, such as hurricanes, freezes, flooding and other man-made disasters, such as oil spills or power outages, health emergencies, epidemics or pandemics, climate changes or other catastrophic events,â€œchanges may occur in the securities markets,â€œchanges in the level and direction of loan delinquencies and write-offs and changes in estimates of the adequacy of the allowance for credit losses, andâ€œtechnological changes, including potential cyber-security incidents and other disruptions, or innovations to the financial services industry, including as a result of the increased telework environment.We have described additional factors that could cause actual results to be materially different from those described in the forward-looking statements under the caption Risk Factors in Item 1A. of the Companyâ€™s Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023 (the "2023 Form 10-K"), and in other reports filed by us with the Securities and Exchange Commission ("SEC") from time to time. Other factors that have not been identified in this report could also have this effect. You are cautioned not to put undue reliance on any forward-looking statement, which speak only as of the date they were made. Except as required by law, the Company undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events, or changes in its business, results of operations or financial condition over time.35OverviewCrucial to the Companyâ€™s community banking strategy is growth in its commercial banking services, retail mortgage lending and retail banking services. Through the branch network of its subsidiary bank, Hawthorn Bank (the "Bank"), the Company, with \$1.8 billion in assets at JuneÂ 30, 2024, provides a broad range of commercial and personal banking services. The Bankâ€™s specialties include commercial banking for small and mid-sized businesses, including equipment, operating, commercial real estate, Small Business Administration loans, comprehensive suite of cash management services, and personal banking services including real estate mortgage lending, installment and consumer loans, certificates of deposit, individual retirement and other time deposit accounts, checking accounts, savings accounts, and money market accounts. Other financial services that the Company provides include trust services that include estate planning, investment and asset management services. The geographic areas in which the Company provides products and services include the Missouri communities in and surrounding Jefferson City, Columbia, Clinton, Warsaw, Springfield, and the greater Kansas City metropolitan area.The Companyâ€™s primary source of revenue is net interest income derived primarily from lending and deposit taking activities. Much of the Companyâ€™s business is commercial, commercial real estate development, and residential mortgage lending. The Companyâ€™s income from mortgage brokerage activities is directly dependent on mortgage rates and the level of home purchases and refinancing activity.The success of the Companyâ€™s growth strategy depends primarily on the ability of the Bank to generate an increasing level of loans and deposits at acceptable risk levels and on acceptable terms without significant increases in non-interest expenses relative to revenues generated. The Companyâ€™s financial performance also depends, in part, on its ability to manage various portfolios and to successfully introduce additional financial products and services by expanding new and existing customer relationships, utilizing improved technology, and enhancing customer satisfaction. Furthermore, the success of the Companyâ€™s growth strategy depends on its ability to maintain sufficient regulatory capital levels during periods in which general economic conditions are unfavorable and despite economic conditions being beyond its control.The deposit accounts of the Bank are insured by the Federal Deposit Insurance Corporation ("FDIC") to the extent provided by law. The Bank is supervised and regulated by the FDIC and the Missouri Division of Finance. Regular examinations are conducted by representatives of these regulatory bodies. Such regulations, supervision and examinations are principally for the benefit of depositors, rather than for the benefit of shareholders. The Company is also subject to supervision and examination by the Board of Governors of the Federal Reserve System.CRITICAL ACCOUNTING POLICIES AND ESTIMATESCertain accounting policies are considered most critical to the understanding of the Companyâ€™s financial condition and results of operations. These critical accounting policies and estimates require managementâ€™s most difficult, subjective and complex judgments about matters that are inherently uncertain. Because these estimates and judgments are based on current circumstances, they may change over time or prove to be inaccurate based on actual experiences. In the event that different assumptions or conditions were to prevail, and depending upon the severity of such changes, the possibility of a materially different financial condition and/or results of operations could reasonably be expected. The Company has identified certain accounting policies as "critical accounting policies and estimates," consisting of those related to the allowance for credit losses, as described in the section captioned "Critical Accounting Policies and Estimates" incorporated by reference in Item 7, Management's Discussion and Analysis of Financial Condition and results of Operations included in the 2023 Form 10-K. There have been no changes in the Company's application of critical accounting policies and estimates since DecemberÂ 31, 2023.36Executive SummaryThe Company has prepared all of the consolidated financial information in this report in accordance with United States (U.S.) generally accepted accounting principles ("U.S. GAAP") and the rules of the SEC. In preparing the consolidated financial statements in accordance with U.S. GAAP, the Company makes estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. There can be no assurances that actual results will not differ from those estimates.Three Months Ended June 30,Six Months Ended June 30,(In thousands, except per share data)2024202320242023Net interest income\$14,172A \$14,202A \$28,920A \$28,150A Provision for credit losses on loans & unfunded commitments\$57A \$27,680A Non-interest income\$3,996A \$9,967A \$15,778AInvestment (losses) gains, net(15)7(15)15Non-interest expense12,034A 12,725A 6,092A 202Income before income taxes\$5,662A 23,080A 11,084A 06Income tax expense1,033A 3511,999A 241Net income\$4,629A \$5,249A \$9,085A \$5,820A Basic earnings per share\$0.66\$0.36\$1.29\$0.83Diluted earnings per share\$0.66\$0.36\$1.29\$0.83Efficiency ratio (166.2%80.5%68.5%80.5%Net interest margin3.33%3.19%3.36%3.17%(1)Efficiency ratio is calculated as non-interest expense as a percentage of revenue. For the six months ended JuneÂ 30, 2024, the return on average assets was 0.99%, the return on average stockholdersâ€™ equity was 13.43%, and the efficiency ratio was 68.5%.The Company continues to see a positive impact from focusing on the core business of the Bank. The Company's sale of its mortgage servicing rights portfolio closed during the second quarter 2024, and the Company remains committed to expanding our products and services to our core customer base, while managing operating expenses.Net interest income was consistent at \$14.2 million for both the second quarter ended JuneÂ 30, 2024 and JuneÂ 30, 2023. Net interest margin, on a fully taxable equivalent basis ("FTE"), was 3.33% for the second quarter 2024, an increase from 3.19% for the second quarter 2023. Net interest income of \$28.9 million for the six months ended JuneÂ 30, 2024 increased \$0.7 million compared to \$28.2 million for the six months ended JuneÂ 30, 2023. Net interest margin, on a FTE basis, was 3.36% for the six months ended JuneÂ 30, 2024, an increase from 3.17% for the six months ended JuneÂ 30, 2023. The change to net interest margin on a FTE basis is discussed in greater detail under the Average Balance Sheet Data and Rate and Volume Analysis sections below.Non-interest income was \$4.0 million and \$7.0 million for the three and six months ended JuneÂ 30, 2024, respectively, compared to \$1.6 million and \$4.8 million for the three and six months ended JuneÂ 30, 2023, respectively. The increases were primarily due to earnings on bank-owned life insurance and the gain on sale of other real estate. These changes are discussed in greater detail under the Non-interest Income and Expense section below.Non-interest expense was \$12.0 million and \$24.6 million the three and six months ended JuneÂ 30, 2024, respectively, compared to \$12.7 million and \$25.2 million for the three and six months ended JuneÂ 30, 2023, respectively. The decreases are primarily due to operating within a unified company culture, focusing on core business lines and improving operational efficiencies. The Company began investing in new technologies and utilizing consulting and professional services to accomplish these goals. These changes are discussed in greater detail under the Non-interest Income and Expense section below. Balance Sheet Highlights:Cash and cash equivalents decreased \$17.6 million to \$75.8 million as of JuneÂ 30, 2024 compared to \$93.4 million as of DecemberÂ 31, 2023 and increased \$51.2 million compared to \$24.6 million as of JuneÂ 30, 2023. The Company purchased \$19.0 million in securities and \$35.0 million in bank-owned life insurance during the six months ended JuneÂ 30, 2024. See the Liquidity Management section for further discussion. Loans â€” Loans held for investment decreased \$40.6 million to \$1.50 billion as of JuneÂ 30, 2024 compared to \$1.54 billion as of DecemberÂ 31, 2023 and decreased \$64.7 million compared to \$1.56 billion as of JuneÂ 30, 2023. Asset quality â€” Non-performing loans totaled \$4.4A million as of JuneÂ 30, 2024, a decrease from \$6.4A million as of DecemberÂ 31, 2023, and an increase from \$3.8A million as of JuneÂ 30, 2023. The decrease in non-performing loans at JuneÂ 30, 2024 compared to DecemberÂ 31, 2023 is primarily due to a \$1.8 million charged off commercial loan relationship and a \$2.7 million commercial real estate loan that was placed in non-accrual status in the first quarter and proceeded to foreclosure in the second quarter. The allowance for credit losses to total loans was 1.47% at JuneÂ 30, 2024, compared to 1.54% at DecemberÂ 31, 2023 and 1.42% at JuneÂ 30, 2023. These changes are discussed in greater detail under the Lending and Credit Management section below.38Deposits â€” Total deposits decreased \$20.6A million to \$1.55 billion as of JuneÂ 30, 2024 compared to \$1.57 billion as of DecemberÂ 31, 2023, and increased \$7.0A million compared to \$1.54 billion as of JuneÂ 30, 2023. The decrease in deposits at JuneÂ 30, 2024 as compared to DecemberÂ 31, 2023 was primarily a result of a decrease in public funds partially offset by a high interest savings promotion. Federal Home Loan Bank ("FHLB") advances and other borrowings â€” Total FHLB advances and other borrowings decreased \$7.9 million to \$99.1A million as of JuneÂ 30, 2024 compared to \$107.0 million as of DecemberÂ 31, 2023, and decreased \$65.2 million compared to \$164.3 million as of JuneÂ 30, 2023.Capital â€” The Company maintains its â€œwell capitalizedâ€ regulatory capital position. During the fourth quarter of 2023, the Company repositioned its balance sheet by selling \$83.7 million in book value of investment securities, with an average yield of 1.57%. See the Liquidity Management section for further discussion. Total interest expense was \$9.4 million and \$18.7 million for the three and six months ended June 30, 2024, respectively, compared to \$7.7 million and \$14.7 million for the three and six months ended June 30, 2023, respectively. The Company's rates paid on interest bearing liabilities were 2.94% and 2.89% for the three and six months ended June 30, 2024, respectively, compared to 2.34% and 2.24% for the three and six months ended June 30, 2023, respectively. See the Liquidity Management section for further discussion. 43Interest expense on deposits was \$7.6 million and \$15.0 million for the three and six months ended June 30, 2024, respectively, compared to \$6.0 million and \$11.5 million for the three and six months ended June 30, 2023, respectively. Average interest-bearing deposits decreased \$24.1 million, or 2.1%, to \$1.13A billion for the quarter ended June 30, 2024 compared to \$1.16A billion for the quarter ended June 30, 2023. The average cost of deposits increased to 2.69% for the quarter ended June 30, 2024 compared to 2.07% for the quarter ended June 30, 2023. Average interest-bearing deposits decreased \$26.8 million, or 2.3%, to \$1.14 billion for the six months ended June 30, 2024 compared to \$1.17 billion for the six months ended June 30, 2023. The average cost of deposits increased to 2.65% for the six months ended June 30, 2024 compared to 1.99% for the six months ended June 30, 2023. Interest expense on borrowings was \$1.8 million and \$3.7 million for the three and six months ended June 30, 2024, respectively, compared to \$1.7 million and \$3.2 million for the three and six months ended June 30, 2023, respectively. Average borrowings decreased \$13.0 million, or 7.8%, to \$154.3 million for the quarter ended June 30, 2024 compared to \$167.3 million for the quarter ended June 30, 2023. The average cost of borrowings increased to 4.73% for the quarter ended June 30, 2024 compared to 4.19% for the quarter ended June 30, 2023. Average borrowings decreased \$2.0 million, or 1.2%, to \$157.4 million for the six months ended June 30, 2024 compared to \$159.4 million for the six months ended June 30, 2023. The average cost of borrowings increased to 4.67% for the six months ended June 30, 2024 compared to 4.02% for the six months ended June 30, 2023. The increase in average cost of borrowings was primarily a result from higher market interest rates. The increases are primarily due to earnings on bank-owned life insurance and the gain on sale of other real estate. During the second quarter of 2023, the Company recognized a \$1.8 million valuation write-down on foreclosed property in other real estate owned based on a current appraisal. The remaining acres related to this property were sold in the second quarter of 2024, and the Company recognized a \$0.4 million release of the valuation write-down. Earnings on bank-owned life insurance increased to \$0.5 million for the second quarter ended June 30, 2024 compared to \$0.01 million for the second quarter ended June 30, 2023, and increased to \$0.6 million for the six months ended June 30, 2024 compared to \$0.03 million for the six months ended June 30, 2023. The Company purchased \$35.0 million in bank-4owned life insurance policies in the first quarter of 2024. The earnings generated from these policies are primarily derived from the investment returns on the cash value component. Real estate (costs) servicing fees, net of the change in valuation of mortgage servicing rights (MSRs) decreased to \$(0.05) million for the second quarter ended June 30, 2024 compared to \$0.1 million for the second quarter ended June 30, 2023, and decreased to \$(0.05) million for the six months ended June 30, 2024 compared to \$0.3 million for the six months ended June 30, 2023. On January 31, 2024, the Company sold its servicing portfolio and the balance of the serviced loans transferred on April 30, 2024. The remaining servicing fees and costs were settled during the second quarter of 2024. Gain on sales of mortgage loans decreased to \$0.4 million for the second quarter ended June 30, 2024 compared to \$0.7 million for the second quarter ended June 30, 2023, and decreased to \$0.7 million for the six months ended June 30, 2024 compared to \$1.2 million for the six months ended June 30, 2023. were \$75.8 million at JuneÅ 30, 2024 compared to \$93.4 million at DecemberÅ 31, 2023. The \$17.6 million decrease resulted from changes in the various cash flows produced by operating, investing, and financing activities of the Company, as shown in the accompanying consolidated statement of cash flows for the six months ended JuneÅ 30, 2024. Cash flow provided by operating activities consists mainly of net income adjusted for certain non-cash items. Operating activities provided total cash of \$14.5 million for the six months ended JuneÅ 30, 2024. Investing activities, consisting mainly of purchases, sales and maturities of available-for-sale securities, and changes in the level of the loan portfolio, used total cash of \$0.3 million during the six months ended JuneÅ 30, 2024. During the fourth quarter of 2023, the Company repositioned its balance sheet by selling \$83.7 million in book value of investment securities, with an average yield of 1.57%. The cash flow primarily consisted of \$19.0 million in purchases of securities and \$35.0 million in purchases of bank owned life insurance policies, partially offset by a \$35.9 million net decrease in loans held for investment. Financing activities used total cash of \$31.9 million during the six months ended JuneÅ 30, 2024, resulting primarily from a \$42.3 million decrease in interest-bearing transaction accounts. These decreases were partially offset by a \$22.3 million increase in time deposits. In the normal course of business, the Company enters into certain forms of off-balance sheet transactions, including unfunded loan commitments and letters of credit. These transactions are managed through the Companyâ€™s various risk management processes. Management considers both on-balance sheet and off-balance sheet transactions in its evaluation of the Companyâ€™s liquidity. The Company had \$362.3 million in unused loan commitments and standby letters of credit as of JuneÅ 30, 2024. Although the Companyâ€™s current liquidity resources are adequate to fund this commitment level, the nature of these commitments is such that the likelihood of such a funding demand is very low. The Company is a legal entity, separate and distinct from the Bank, which must provide its own liquidity to meet its operating needs. The Companyâ€™s ongoing liquidity needs primarily include funding its operating expenses, paying cash dividends to its shareholders and, to a lesser extent, repurchasing its shares of common stock. The Company paid cash dividends to its shareholders totaling approximately \$2.4 million and \$2.3 million during the six months ended JuneÅ 30, 2024 and 2023, respectively. A large portion of the Companyâ€™s liquidity is obtained from the Bank in the form of dividends. The Bank declared \$10.0 million and \$3.0 million in dividends to the Company during the six months ended JuneÅ 30, 2024 and 2023, respectively. At JuneÅ 30, 2024 and DecemberÅ 31, 2023, the Company had cash and cash equivalents totaling \$6.4 million and \$6.8 million, respectively. Subject to declaration by the Company's Board of Directors, the Company expects to continue paying quarterly cash dividends as a part of its current capital allocation strategy. Future dividends will be subject to the determination, declaration and discretion of the Company's Board of Directors and compliance with applicable regulatory capital requirements. Pursuant to the Company's 2019 Repurchase Plan, management is given discretion to determine the number and pricing of the shares to be repurchased under the plan, as well as the timing of any such repurchases. The Company repurchased 51,692 common shares under the repurchase plan during the first six months of 2024 at an average cost of \$19.46 per share totaling \$1.0Å million. As of JuneÅ 30, 2024, \$4.0Å million remained available for share repurchases pursuant to the plan. Repurchases under the plan may be effectuated in the open market, by block purchase, in privately negotiated transactions, or through other transactions managed by broker-dealers, or any combination thereof. No time limit was set for completion of share repurchases under the plan. Capital Management The Company and the Bank are subject to various regulatory capital requirements administered by federal and state banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary, actions by regulators that, if undertaken, could have a direct material effect on the Companyâ€™s consolidated financial statements. Under capital adequacy guidelines, the Company and the Bank must meet specific capital guidelines that involve quantitative measures of assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The capital amounts and classification of the Company and the Bank are subject to qualitative judgments by the regulators about components, risk-weightings, and other factors. The Basel III regulatory capital reforms adopted by U.S. federal regulatory authorities (the "Basel III Capital Rules"), among other things, (i) establish the capital measure called "Common Equity Tier 1" ("CET1"), (ii) specify that Tier 1 capital consists of CET1 and "Additional Tier 1 Capital" instruments meeting stated requirements, (iii) require that most deductions/adjustments to regulatory capital measures be made to CET1 and not to other components of capital and (iv) define the scope of the deductions/adjustments to the capital measures. Additionally, the Basel III Capital Rules require that the Company maintain a 2.50% capital conservation buffer with respect to each of CET1, Tier 1 and total capital to risk-weighted assets, which provides for capital levels that exceed the minimum risk-based capital adequacy requirements. A financial institution with a conservation buffer of less than the required amount is subject to limitations on capital distributions, including dividend payments and stock repurchases, and certain discretionary bonus payments to executive officers. Quantitative measures established by regulation to ensure capital adequacy require the Company and the Bank to maintain minimum amounts and ratios of CET1, Tier 1 and total capital to risk-weighted assets, and of Tier 1 capital to average assets, each as defined in the regulations. Management believes, as of JuneÅ 30, 2024, that the Company and the Bank meet all capital adequacy requirements to which they are subject. Financial institutions are categorized as well capitalized or adequately capitalized, based on minimum total risk-based, Tier 1 risk-based, CET1 and Tier 1 leverage ratios. As shown in the table below, the Companyâ€™s capital ratios exceeded the regulatory definition of adequately capitalized as of JuneÅ 30, 2024 and DecemberÅ 31, 2023. Based upon the information in its most recently filed call report, the Bank met the capital ratios necessary to be well-capitalized. The regulatory authorities can apply changes in classification of assets and such changes may retroactively subject the Company to changes in capital ratios. Any such change could reduce one or more capital ratios below well-capitalized status. In addition, a change may result in imposition of additional assessments by the FDIC or could result in regulatory actions that could have a material effect on our condition and results of operations. In addition, bank holding companies generally are required to maintain a Tier 1 leverage ratio of at least 4%. Because the Bank had less than \$15.0 billion in total consolidated assets as of December 31, 2009, the Company is allowed to continue its trust preferred securities, all of which were issued prior to May 19, 2010, as Tier 1 capital. 54 Under the Basel III Capital Rules, at JuneÅ 30, 2024 and DecemberÅ 31, 2023, the Company met all capital adequacy requirements and had regulatory capital ratios in excess of the levels established for well-capitalized institutions, as shown in the following table as the dates indicated. Quantitative and Qualitative Disclosures about Market Risk	Asset/Liability and Interest Rate Risk Management and the Board of Directors are responsible for managing interest rate risk and employing risk management policies that monitor and limit this exposure. Interest rate risk is measured using net interest income simulations and market value of portfolio equity analyses. These analyses use various assumptions, including the nature and timing of interest rate changes, yield curve shape, prepayments on loans and securities, deposit decay rates, pricing decisions on loans and deposits, and reinvestment/replacement of asset and liability cash flows. The principal objective of the Companyâ€™s asset and liability management function is to evaluate the interest rate risk within the balance sheet and pursue a controlled assumption of interest rate risk while maximizing earnings and preserving adequate levels of liquidity and capital. The asset and liability management function is under the guidance of the ALCO with direction from the Board of Directors. The ALCO meets quarterly to review the sensitivity of the Companyâ€™s assets and liabilities to interest rate changes and to discuss local and national market conditions. The ALCO also reviews the liquidity, capital, deposit mix, loan mix and investment positions of the Company. Instantaneous parallel rate shift scenarios are modeled and utilized to evaluate risk and establish exposure limits for acceptable changes in net interest margin. These scenarios, known as rate shocks, simulate an instantaneous change in interest rates and use various assumptions, including, but not limited to, prepayments on loans and securities, deposit decay rates, pricing decisions on loans and deposits, reinvestment and replacement of asset and liability cash flows. Management analyzes the economic value of equity as a secondary measure of interest rate risk. This is a complementary measure to net interest income where the calculated value is the result of the market value of assets less the market value of liabilities. The economic value of equity is a longer term view of interest rate risk because it measures the present value of the future cash flows. The impact of changes in interest rates on this calculation is analyzed for the risk to our future earnings and is used in conjunction with the analyses on net interest income. The table below illustrates the impact of an immediate and sustained 200 and 100 basis point increase and a 200 and 100 basis point decrease in interest rates on net interest income based on the interest rate risk model at JuneÅ 30, 2024 and DecemberÅ 31, 2023. % Change in projected net interest income Hypothetical shift in interest rates June 30, December 31, (bps) 2024 2023 200(0.17)% (0.57)% 100(0.87)% (0.38)% 100(0.36)Å % 5.1Å % (200)(0.69)% 0.49Å % The change in the Companyâ€™s interest rate risk exposure from DecemberÅ 31, 2023 to JuneÅ 30, 2024 was due to moderately higher rates on interest bearing assets projected to reprice in the next 12 months and projected repricing speeds on interest bearing assets and liabilities. In an immediate and sustained shock, interest bearing assets and liabilities are projected to reprice at relatively the same pace. Management believes the change in projected net interest income from interest rate shifts of up 200 bps and down 200 bps is an acceptable level of interest rate risk. Many assumptions are used to calculate the impact of interest rate fluctuations. Actual results may be significantly different than our projections due to several factors, including the timing and frequency of rate changes, market conditions and the shape of the yield curve. The computations of interest rate risk shown above do not include actions that management may undertake to manage the risks in response to anticipated changes in interest rates and actual results may also differ due to any actions taken in response to the changing rates. 56 Effects of Inflation The effects of inflation on financial institutions are different from the effects on other commercial enterprises since financial institutions make few significant capital or inventory expenditures, which are directly affected by changing prices. Because bank assets and liabilities are virtually all monetary in nature, inflation does not affect a financial institution as much as do changes in interest rates. The general level of inflation does underlie the general level of most interest rates, but interest rates do not increase at the rate of inflation as do prices of goods and services. Rather, interest rates react more to changes in the expected rate of inflation and to changes in monetary and fiscal policy. Inflation does have an impact on the growth of total assets in the banking industry, often resulting in a need to increase capital at higher than normal rates to maintain an appropriate capital to asset ratio. In the opinion of management, inflation did not have a significant effect on the Companyâ€™s operations for the three months ended JuneÅ 30, 2024. Item 4. Controls and Procedures Evaluation of Disclosure Controls and Procedures Our Companyâ€™s management has evaluated, with the participation of our principal executive officer and principal financial officer, the effectiveness of our disclosure controls and procedures as defined in Rules 13a-Å 15(e) or 15d-Å 15(e) of the Securities Exchange Act of 1934 as of JuneÅ 30, 2024. Based upon and as of the date of that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were designed, and were effective, to provide reasonable assurance that information required to be disclosed in the reports we file and submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported as and when required. It should be noted that any system of disclosure controls and procedures, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. In addition, the design of any system of disclosure controls and procedures is based in part upon assumptions about the likelihood of future events. Because of these and other inherent limitations of any such system, there can be no assurance that any design will always succeed in achieving its stated goals under all circumstances. Changes in Internal Control Over Financial Reporting There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) of the Securities Exchange Act of 1934) that occurred during the three months ended JuneÅ 30, 2024 that have materially affected, or are reasonably likely to materially affect, the Companyâ€™s internal control over financial reporting. Impact of New Accounting Standards Income Taxes. In December 2023, the FASB issued ASU No. 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures. This ASU requires that public business entities on an annual basis (1) disclose specific categories in the rate reconciliation and (2) provide additional information for reconciling items that meet a quantitative threshold. The ASU requires that all entities disclose on an annual basis (1) the amount of income taxes paid, disaggregated by federal, state and foreign taxes and (2) the amount of income taxes paid disaggregated by individual jurisdictions in which income taxes paid is equal or greater than 5 percent of total income taxes paid. The ASU also requires that all entities disclose (1) income (loss) from continuing operations before income tax expense (or benefit) disaggregated between domestic or foreign and (2) income tax expense (or benefit) from continuing operations disaggregated by federal (national), state and foreign. This ASU is effective for public business entities for annual periods beginning after December 15, 2024. The Company does not expect adoption of the ASU to have a material effect on the Company's consolidated financial statements. Segment disclosures. In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures which requires enhanced disclosures on both an annual and interim basis about significant segment expenses, including for companies with only one reportable segment. This ASU is effective on a retrospective basis for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. The Company is evaluating the impact the adoption of this ASU will have on its consolidated financial statements and related disclosures. 57 PART II - OTHER INFORMATION Item 1. Legal Proceedings The information required by this Item is set forth under the caption "Pending Litigation" in Note 15 - Commitments and Contingencies, in our Companyâ€™s Notes to Consolidated Financial Statements (unaudited). Item 1A. Risk Factors There have been no material changes in the risk factors previously disclosed under Part I, Item 1A of the Company's Annual Report on Form 10-K for the year ended DecemberÅ 31, 2023. Item 2. Unregistered Sales of Equity Securities and Use of Proceeds The Company's Purchases of Equity Securities The following table summarizes the purchases made by or on behalf of the Company or certain affiliated purchasers of shares of the Company's common stock during the quarter ended JuneÅ 30, 2024: Period (a) Total Number of Shares (or Units) Purchased (b) Average Price Paid per Share (or Unit) (c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs (d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs * April 2024 14,704 \$18.94 14,704 \$4,307,232 May 2024 10,993 \$19.53 10,993 \$4,092,583 June 2024 5,000 \$19.74 5,000 \$3,993,877 Total 30,697 \$19.28 30,697 \$3,993,877 Pursuant to the Company's 2019 Repurchase Plan, management is given discretion to determine the number and pricing of the shares to be repurchased by the Company from time to time, as well as the timing of any such repurchases. The Company repurchased 30,697 common shares under the repurchase plan during the second quarter 2024 at an average cost of \$19.28 per share totaling \$0.6Å million. As of JuneÅ 30, 2024, \$4.0Å million remained available for share repurchases pursuant to the plan. The Companyâ€™s ability to pay dividends to its shareholders and repurchase shares is affected by the Company's financial condition and liquidity, general corporate law requirements and the regulations and policies of U.S. federal regulatory authorities applicable to bank holding companies, including the Basel III Capital Rules. The Company's principal source of funds to pay dividends on its common stock and to repurchase shares, other than further issuances of securities, is dividends received from the Bank. The ability of the Bank to pay dividends to the Company depends on the earnings and financial condition of the Bank and various business considerations. In addition, the Bank is subject to federal and state laws limiting the payment of dividends, including the Federal Deposit Insurance Act and Missouri banking law. (the Company) through its subsidiary, Hawthorn Bank (the Bank), provides a broad range of banking services to individual and corporate customers located within the Missouri communities in and surrounding Jefferson City, Columbia, Clinton, Warsaw, Springfield, and the greater Kansas City metropolitan area. The Company is subject to competition from other financial and nonfinancial institutions that provide financial products. Additionally, the Company and its subsidiaries are subject to the regulations of certain regulatory agencies and undergo periodic examinations by those regulatory agencies. The accompanying unaudited consolidated financial statements of the Company have been prepared in conformity with United States (U.S.) generally accepted accounting principles (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q, and Rule 10-01 of Regulation S-X. Accordingly, the unaudited consolidated financial statements do not include all of the information and disclosures required by U.S. GAAP for complete financial statements and should be read in conjunction with the consolidated financial statements and related notes included in the Company's 2023 Annual Report on Form 10-K for the year ended December 31, 2023. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The preparation of the consolidated financial statements includes all adjustments that, in the opinion of management, are necessary in order to make those statements not misleading. Management is required to make estimates and assumptions, including the determination of the allowance for credit losses, real estate acquired in connection with foreclosure or in satisfaction of loans, and fair values of investment securities available-for-sale that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The Company's management has evaluated and did not identify any subsequent events or transactions requiring recognition or disclosure in the consolidated financial statements other than mentioned below. As such, the Bank is susceptible to changes in the economic environment in these communities. The Bank does not have a concentration of credit in any one economic sector. Installment and other consumer loans consist primarily of the financing of automotive vehicles. Accrued interest on loans totaled \$6.4 million and \$7.2 million at June 30, 2024 and December 31, 2023, respectively, and is included in the accrued interest receivable on the Company's consolidated balance sheets. The total amount of accrued interest is excluded from the amortized cost basis of loans presented above. Further, the Company has elected not to measure an allowance for credit losses for accrued interest receivable. At June 30, 2024, loans of \$709.0 million were pledged to the Federal Home Loan Bank ("FHLB") as collateral for borrowings and letters of credit.Allowance for Credit LossesThe allowance for credit losses is measured using a lifetime expected loss model that incorporates relevant information about past events, including historical credit loss experience on loans with similar risk characteristics, current conditions, and reasonable and supportable forecasts that affect the collectability of the remaining cash flows over the contractual term of the loans. The allowance for credit losses is measured on a collective (pool) basis. Loans are aggregated into pools based on similar risk characteristics including borrower type, collateral type and expected credit loss patterns. Loans that do not share similar risk characteristics, primarily large loans on non-accrual status, are evaluated on an individual basis. The allowance for credit losses is a valuation account that is deducted from loans amortized cost basis to present the net amount expected to be collected on the instrument. Expected recoveries are included in the allowance and do not exceed the aggregate of amounts previously charged-off and expected to be charged-off. Loans are charged off against the allowance for credit losses when management believes the balance has become uncollectible.For loans evaluated for credit losses on a collective basis, average historical loss rates are calculated for each pool using relevant peer historical net charge-offs (combined charge-offs and recoveries by observable historical reporting period) and the Company's outstanding loan balances during a lookback period. The Company chose to use relevant peer loan loss data due to statistical relevance concerns, low observation counts, historical data limitations, and the inability to secure through the cycle loan-level data. Lookback periods can be different based on the individual pool and represent management's credit expectations for the pool of loans over the remaining contractual life. The calculated average net charge-off rate is then adjusted for current conditions and reasonable and supportable forecasts. These adjustments increase or decrease the average historical loss rate to reflect expectations of future losses given a single path economic forecast of a single macroeconomic variable, which is the civilian unemployment rate. The adjustments are based on results from various regression models projecting the impact of the selected macroeconomic variable to loss rates. The forecast is used for a reasonable and supportable period before reverting back to historical averages using a straight-line method. The forecast adjusted loss rate is applied to the loans over the remaining contractual lives, adjusted for expected prepayments. The contractual term excludes expected extensions, renewals and

estimating future cash flows expected to be received from customers until payments have been fully allocated to outstanding balances. Agriculture loans also use the remaining life methodology for estimating life of loan losses. Additionally, the allowance for credit losses considers qualitative or environmental factors, such as: lending policies and procedures; economic conditions; the nature, volume and terms of the portfolio; lending staff and management; past due loans; the loan review system; collateral values; concentrations of credit; and external factors. Allowance for Credit Losses on Off-Balance-Sheet Credit Exposures The Company maintains a separate allowance for credit losses for off-balance-sheet credit exposures, including unfunded loan commitments, unless the associated obligation is unconditionally cancellable by the Company. This allowance is included in other liabilities on the consolidated balance sheets with associated expense recognized as a component of the provision for credit losses on the consolidated statements of income. The liability for unfunded lending commitments utilizes the same model as the allowance for credit losses on loans, however, the liability for unfunded lending commitments incorporates an assumption for the portion of unfunded commitments that are expected to be funded. Sensitivity in the Allowance for Credit Loss Model The allowance for credit losses is an estimate that requires significant judgment including projections of the macroeconomic environment. The forecasted macroeconomic environment continuously changes, which can cause fluctuations in estimated expected losses. The following tables illustrate the changes in the allowance for credit losses by portfolio segment: Three Months Ended June 30, 2024 (in thousands)

These modifications are analyzed to determine whether the modification is considered concessionary, long-term and made to a borrower experiencing financial difficulty. The Company's modifications generally include interest rate adjustments, principal reductions, and amortization and maturity date extensions. If a loan modification is determined to be made to a borrower experiencing financial difficulty, the loan is considered collateral-dependent and evaluated as part of the allowance for credit losses as described above in the Allowance for Credit Losses section of this note. For the three and six months ended JuneA 30, 2024, the Company did not modify any loans made to borrowers experiencing financial difficulty. The Company monitors loan payments on an on-going basis to determine if a loan is considered to have a payment default. Determination of payment default involves analyzing the economic conditions that exist for each customer and their ability to generate positive cash flows during the loan term. Loans Held for SaleThe Company designates certain long-term fixed rate personal real estate loans as held for sale. These loans are initially measured at fair value under the fair value option election with subsequent changes in fair value recognized in mortgage banking income. The loans are primarily sold to Freddie Mac, Fannie Mae, PennyMac, and various other secondary market investors. At JuneA 30, 2024, the carrying amount of these loans was \$1.4 million compared to \$3.9 million at DecemberA 31, 2023. The \$31.3 million aggregate unrealized loss included in accumulated other comprehensive loss at JuneA 30, 2024 was caused by interest rate fluctuations. The total available-for-sale portfolio consisted of approximately 385 securities at DecemberA 31, 2023. The portfolio included 370 securities having an aggregate fair value of \$172.7 million that were in a loss position at DecemberA 31, 2023. Securities identified as temporarily impaired which had been in a loss position for 12 months or longer totaled \$155.2 million at fair value at DecemberA 31, 2023. The \$27.3 million aggregate unrealized loss included in accumulated other comprehensive loss at DecemberA 31, 2023 was caused by interest rate fluctuations.The decline in fair value is attributable to changes in interest rates and not credit quality. In the absence of changes in credit quality of these investments, the fair value is expected to recover on all debt securities as they approach their maturity date or re-pricing date, or if market yields for such investments decline. In addition, the Company does not have the intent to sell these investments over the period of recovery, and it is not more likely than not that the Company will be required to sell such investment securities. As of June30, 2024, operating right of use (ROU) assets and liabilities were both \$1.1 million. As of June30, 2024, the weighted-average remaining lease term on these operating leases was approximately 4.7 years and the weighted-average discount rate used to measure the lease liabilities was approximately 4.0%.Operating leases in which the Company is the lessee are recorded as operating lease ROU assets and operating lease liabilities. Currently, the Company does not have any finance leases. The ROU assets are included in premises and equipment, net on the consolidated balance sheets. Operating lease ROU assets represent the Company's right to use an underlying asset during the lease term and operating lease liabilities represent the Company's obligation to make lease payments arising from the lease. ROU assets and operating lease liabilities are recognized at lease commencement based on the present value of the remaining lease payments using a discount rate that represents the Company's incremental borrowing rate at the lease commencement date. Operating lease cost, which is comprised of amortization of the ROU asset and the implicit interest accreted on the operating lease liability, is recognized on a straight-line basis over the lease term, and is recorded in net occupancy expense in the consolidated statements of income. The operating lease cost was \$0.06A million and \$0.1A million for the three and six months ended June30, 2024, respectively, compared to \$0.1A million and \$0.2A million for the three and six months ended June30, 2023, respectively. Lease and non-lease components of new lease agreements are accounted for separately. Lease components include fixed payments such as rent, real estate taxes and insurance costs and non-lease components include common-area maintenance costs. Leases with an initial term of 12 months or less are not recorded on the balance sheet; the Company recognizes lease expense for these leases on a straight-line basis over the lease term. Operating lease expense for these leases was \$0.02A million and \$0.04A million for the three and six months ended June30, 2024, respectively, compared to \$0.03A million and \$0.06A million for the three and six months ended June30, 2023, respectively. The effective tax rate for each of the three and six months ended June30, 2024 and 2023, respectively, is lower than the U.S. federal statutory rate of 21% primarily due to tax-free revenues.The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income of the appropriate character during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning initiatives in making this assessment. In management's opinion, the Company will more likely than not realize the benefits of its deferred tax assets and, therefore, has not established a valuation allowance against its deferred tax assets as of June30, 2024. Management arrived at this conclusion based upon the level of historical taxable income and projections for future taxable income of the appropriate character over the periods in which the deferred tax assets are deductible. The Company follows ASC Topic 740, Income Taxes, which addresses the accounting for uncertain tax positions. For each of the three and six months ended June30, 2024 and 2023, the Company did not have any uncertain tax provisions, and did not record any related tax liabilities. first 3% of eligible employee contributions. The Company made annual contributions for the discretionary portion in an amount up to 6% of income before income taxes and before contributions to the profit-sharing and pension plans for all participants, limited to the maximum amount deductible for federal income tax purposes, for each of the periods shown. In addition, employees were able to make additional tax-deferred contributions. Other Plans On November 7, 2018, the Board of Directors of the Company adopted a supplemental executive retirement plan (SERP), effective as of January 1, 2018. The SERP provides select employees who satisfy certain eligibility requirements with certain benefits upon retirement, termination of employment or death. The accrued liability relating to the SERP was \$1.8 million as of June 30, 2024, and the expense for the three and six months ended June 30, 2024 was \$0.02 million and \$0.05 million, respectively, compared to \$0.01 million and \$0.02 million for the three and six months ended June 30, 2023, respectively, and is recognized over the required service period. Pension The Company provides a noncontributory defined benefit pension plan for all full-time and eligible employees. Beginning January 1, 2018 and for all retrospective periods presented, the Company adopted the guidance under ASU 2017-07, Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. Under the guidance, only the service cost component of the net periodic benefit cost is reported in the same income statement line item as salaries and benefits, and the remaining components are reported as other non-interest expense. An employer is required to recognize the funded status of a defined benefit postretirement plan as an asset or liability in its balance sheet and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. Under the Company's funding policy for the defined benefit pension plan, contributions are made to a trust as necessary to provide for current service and for any unfunded accrued actuarial liabilities over a reasonable period. To the extent that these requirements are fully covered by assets in the trust, a contribution might not be made in a particular year. Effective July 1, 2017, the Company amended the pension plan to effectuate a "cost-freeze" such that no individual hired (or rehired in the case of a former employee) by the Company after September 30, 2017, whether or not such individual is or was a vested member in the plan, will be eligible to be an active member and be entitled to accrue any benefits under the plan. Components of Net Pension Cost (Income) and Other Amounts Recognized in Accumulated Other Comprehensive Income (Loss) The following items are components of net pension cost (income) for the periods indicated: Three Months Ended June 30, Six Months Ended June 30, (in thousands) 2024 2023 2024 2023 Service cost - benefits earned during the year \$218.4 \$219.4 \$474.4 \$473.4 Interest costs on projected benefit obligations (a) 366.4 349.4 738.4 714.4 Expected return on plan assets (a) (589) (544) (1,179) (1,089) Expected administrative expenses 27.4 28.4 54.4 58.4 Amortization of unrecognized net gain (a) (186) (178) (345) (320) Net periodic pension income \$ (164) \$ (126) \$ (258) \$ (164) (a) The components of net periodic pension cost (income) other than the service cost and expected administrative expenses are included in other non-interest income. Net periodic pension benefit costs (income) include interest costs based on an assumed discount rate, the expected return on plan assets based on actuarially derived market-related values, and the amortization of net actuarial (gains) losses. Net periodic postretirement benefit costs include service costs, interest costs based on an assumed discount rate, and the amortization of prior service credits and net actuarial gains. Differences between expected and actual results in each year are included in the net actuarial gain or loss amount, which is recognized in other comprehensive (loss) income. The net actuarial gain or loss in excess of a 10% corridor is amortized in net periodic benefit cost over the average remaining service period of active participants in the pension plan. The prior service credit is amortized over the average remaining service period to full eligibility for participating employees expected to receive benefits. Currently, there is no prior service cost or net transition (asset)/obligation to be amortized. Depending on the nature of the asset or liability, the Company uses various valuation methodologies and assumptions to estimate fair value. The measurement of fair value under U.S. GAAP uses a hierarchy intended to maximize the use of observable inputs and minimize the use of unobservable inputs. This hierarchy uses three levels of inputs to measure the fair value of assets and liabilities as follows. The fair value hierarchy is as follows: Level 1 A Inputs are unadjusted quoted prices for identical assets or liabilities in active markets. A quoted price in an active market provides the most reliable evidence of fair value and is used to measure fair value whenever available. A contractually binding sales price also provides reliable evidence of fair value. Level 2 A Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These might include quoted prices for similar assets and liabilities in active markets, such as interest rates and yield curves that are observable at commonly quoted intervals. Level 3 A Inputs are unobservable inputs for the asset or liability and significant to the fair value. These may be internally developed using the Company's best information and assumptions that a market participant would consider. In accordance with fair value accounting guidance, the Company measures, records, and reports various types of assets and liabilities at fair value on either a recurring or non-recurring basis in the consolidated financial statements. Nonfinancial assets measured at fair value on a non-recurring basis would include foreclosed real estate, long-lived assets, and core deposit intangible assets, which are reviewed when circumstances or other events indicate that impairment may have occurred. Valuation Methods for Assets and Liabilities Measured at Fair Value on a Recurring Basis Following is a description of the Company's valuation methodologies used for assets and liabilities recorded at fair value on a recurring basis: Available-for-Sale Securities The fair value measurements of the Company's investment securities are determined by a third party pricing service that considers observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond's terms and conditions, among other things. The fair value measurements are subject to management's independent verification to another pricing source for reasonableness each quarter. Other Investment Securities Other investment securities include equity securities with readily determinable fair values and other investment securities that do not have readily determinable fair values. Investments in FHLB stock and MIB stock, that do not have readily determinable fair values, are required for membership in those organizations. Equity securities that are not actively traded are classified in Level 2. Equity securities with readily determinable fair values are recorded at fair value, with changes in fair value reflected in earnings. Equity securities that do not have readily determinable fair values are carried at cost and are periodically assessed for impairment. The Company uses Level 1 inputs to value equity securities that are traded in active markets. Loans Held for Sale The fair value of the commitment in forward sale agreements loans is the price at which they could be sold in the principal market at the measurement date, therefore the Company classifies these loans as Level 2. Derivative Assets and Liabilities Derivative assets and liabilities include interest rate lock commitments (IRLCs) and forward sale commitments. The fair values of IRLCs and forward sale commitments are determined using readily observable market data such as interest rates, prices, volatility factors, and customer credit-related adjustments. For IRLCs, the fair value is subject to the anticipated loan funding probability (pull-through rate), which is considered an unobservable factor. Factors that affect pull-through rates include origination channel, current mortgage interest rates in the market versus the interest rate incorporated in the IRLC, the purpose of the mortgage, stage of completion of the underlying application and underwriting process, and the time remaining until the IRLC expires. The Company classifies IRLCs as Level 3 due to the unobservable input of pull-through rates. Mortgage Servicing Rights (MSRs) The Company sold its servicing portfolio on January 31, 2024. In prior periods, the fair value of MSRs is based on the discounted value of estimated future cash flows utilizing contractual cash flows, servicing rate, constant prepayment rate, servicing cost, and discount rate factors. Accordingly, the fair value is estimated based on a valuation model that calculates the present value of estimated future net servicing income. The model incorporates assumptions that market participants use in estimating future net servicing income, including estimates of prepayment speeds, market discount rates, cost to service, float earnings rates, and other ancillary income, including late fees. The valuation models estimate the present value of estimated future net servicing income. The Company classifies its MSRs as Level 3. Non-recurring adjustments also include certain impairment amounts for collateral dependent loans when establishing the allowance for credit losses. Such amounts are generally based on the fair value of the underlying collateral supporting the loan. In determining the value of real estate collateral, the Company relies on external and internal appraisals of property values depending on the size and complexity of the real estate collateral. The Company maintains staff trained to perform in-house evaluations and also to review third-party appraisal reports for reasonableness. In the case of non-real estate collateral, reliance is placed on a variety of sources, including external estimates of value and judgments based on the experience and expertise of internal specialists. Values of all loan collateral are regularly reviewed by a senior loan committee. Because many of these inputs are not observable, the measurements are classified as Level 3. As of June 30, 2024, the Company identified \$1.6 million in collateral-dependent loans that required a \$0.6 million specific allowance for credit losses. Related to these loans, there were \$1.9 million in charge-offs recorded in each of the three and six months ended June 30, 2024. As of June 30, 2023, the Company identified \$2.9 million in collateral-dependent loans that required a \$0.03 million specific allowance for credit losses. Related to these loans, there were \$0.02A million and \$0.03A million in charge-offs recorded during the three and six months ended June 30, 2023, respectively. Other Real Estate and Foreclosed Assets Other real estate owned (OREO) and foreclosed assets consisted of loan collateral repossessed through foreclosure. This collateral is comprised of commercial and residential real estate and other non-real estate property, including autos, manufactured homes, and construction equipment. Subsequent to foreclosure, these assets are initially carried at fair value of the collateral less estimated selling costs. Fair value, when recorded, is generally based upon appraisals by approved, independent state-certified appraisers. Like impaired loans, appraisals on OREO may be discounted based on

the Company’s historical knowledge, changes in market conditions from the time of appraisal or other information available. During the holding period, valuations are updated periodically, and the assets may be written down to reflect a new cost basis. Because many of these inputs are not observable, the measurements are classified as Level 3.Fair Value Measurements Using(in thousands)Total Fair ValueQuoted Prices in Active Markets for Identical Assets (Level 1)Other Observable Inputs (Level 2)Significant Unobservable Inputs (Level 3)Three Months Ended June 30, Total Gains (Losses)*Six Months Ended June 30, Total Gains (Losses)*June 30, 2024Assets:Collateral dependent impaired loans:Commercial, financial, & agricultural\$13A \$€\$13A \$€(1,835)\$1,835)Real estate construction ~ residential260A€\$€260A€\$A €A Real estate mortgage - residentialA €A €A €A (22)(22)Real estate mortgage - commercial740A €A €A €A 740A (66)(69)Total\$1,013A \$€A \$€\$1,013A \$(1,923)\$1,946)Other real estate and repossessed assets\$3,625A \$€A \$€A \$3,625A \$446A \$480A June 30, 2023Assets:Collateral dependent impaired loans:Commercial, financial, & agricultural\$50A \$€A \$€A \$50A \$€A \$€A \$€A Real estate mortgage - residential120A €A €A €A 120A €A €A €A Real estate mortgage - commercial2,660A €A €A €A 2,660A (20)(25)Total\$2,830A \$€A \$€A \$2,830A \$(20)\$25)Other real estate and repossessed assets\$6,429A \$€A \$€A \$6,429A \$(1,792)\$1,783)*Total gains (losses) reported for other real estate and foreclosed assets include charge-offs, valuation write downs, and net losses taken during the periods reported. Loans are segregated by type, such as commercial, real estate, and consumer. Each loan category is further segmented into fixed and variable interest rate categories. The fair value of loans, or exit price, is estimated by using the future value of discounted cash flows using comparable market rates for similar types of loan products and adjusted for market factors. The discount rates used are estimated using comparable market rates for similar types of loan products adjusted to be commensurate with the credit risk, overhead costs, and optionality of such instruments. Federal funds Sold, Cash, and Due from BanksThe carrying amounts of short-term federal funds sold, interest-earning deposits with banks, and cash and due from banks approximate fair value. Federal funds sold classified as short-term generally mature in 90 days or less.Certificates of Deposit in Other BanksCertificates of deposit are other investments made by the Company with other financial institutions that are carried at cost; which is equal to fair value.Cash Surrender Value - Life InsuranceThe fair value of Bank-owned life insurance approximates the carrying amount. Upon liquidation of these investments, the Company would receive the cash surrender value; which equals the carrying amount.Accrued Interest Receivable and PayableFor accrued interest receivable and payable, the carrying amount is a reasonable estimate of fair value because of the short maturity for these financial instruments.DepositsThe fair value of deposits with no stated maturity, such as non-interest-bearing demand, NOW accounts, savings, and money market, is equal to the amount payable on demand. The fair value of time deposits is based on the discounted value of contractual cash flows. The discount rate is estimated using the rates currently offered for deposits of similar remaining maturities.Federal funds Purchased and Securities Sold Under Agreements to Repurchase For Federal funds purchased and securities sold under agreements to repurchase, the carrying amount is a reasonable estimate of fair value, as such instruments reprice in a short time period.Subordinated Notes and Other BorrowingsThe fair value of subordinated notes and other borrowings is based on the discounted value of contractual cash-flows. The discount rate is estimated using the rates currently offered for other borrowed money of similar remaining maturities.A summary of the carrying amounts and fair values of the Company’s financial instruments at JuneA 30, 2024 and DecemberA 31, 2023 is as follows:June 30, 2024Fair Value MeasurementsJune 30, 2024Quoted Prices in Active Markets for Identical AssetsOther Observable InputsNet Significant Unobservable Inputs(in thousands)Carrying amountFair value(Level 1)(Level 2)(Level 3)Assets:Cash and due from banks\$16,754A \$€16,754A \$€\$16,754A \$€A \$€A Federal funds sold and overnight interest-bearing deposits\$9,088\$9,088\$9,088\$€€Certificates of deposit in other banks\$1,001,001,000A€\$€Available-for-sale securities\$185,325\$185,325\$185,325A€€Other investment securities\$8,835,834\$8,346\$8,346\$€€Loans, net\$1,476,524\$1,383,371A€€€1,383,371Loans held for sale\$1,368,136A€€€1,368A€€Cash surrender value - life insurance\$38,109\$38,109A€€€38,109A€€Interest rate lock commitments\$111A€€€11Forward sale commitments\$1A€€€1Accrued interest receivable\$7,981\$7,981\$7,981A€€€Liabilities:Deposits:Non-interest bearing demand\$401,618A \$401,618A \$€\$401,618A \$€A \$€A Savings, interest checking and money market\$804,183\$804,183A€€€Time deposits\$344,449\$344,449A€€€342,279FHLB advances and other borrowings\$99,100\$99,100\$99,100\$€€Subordinated notes\$49,486\$49,486A€€€Interest rate lock commitments\$11A€€€1Forward sale commitments\$55A€€€Accrued interest payable\$2,113\$2,113\$2,113A€€€December 31, 2023Fair Value MeasurementsDecember 31, 2023Quoted Prices in Active Markets for Identical AssetsOther Observable InputsNet Significant Unobservable Inputs(in thousands)Carrying amountFair valueA (Level 1)(Level 2)(Level 3)Assets:Cash and due from banks\$15,675A \$€15,675A \$€\$15,675A \$€A \$€A Federal funds sold and overnight interest-bearing deposits\$77,75A \$€77,75A \$€€A €A Available-for-sale securities\$188,742A \$€188,742A \$€1,978A \$€186,764A €€A €A Other investment securities\$6,300A \$€6,300A \$€78A \$€6,222A €€€A Loans, net\$1,515,403A \$€1,364,533A €€A €A 1,364,533A Loans held for sale\$3,884A \$€3,884A €€€A 3,884A €€€A Cash surrender value - life insurance\$2,624A \$€2,624A €€€A 2,624A €€€A Interest rate lock commitments\$43A \$€43A €€€A 43A Accrued interest receivable\$8,661A \$€8,661A €€€A €A €A Liabilities:Deposits:Non-interest bearing demand\$402,241A \$€402,241A €€€A 402,241A €€€A Savings, interest checking and money market\$846,452A \$€846,452A €€€A 846,452A €€€A Time deposits\$322,151A \$€319,929A €€€A €A 319,929A FHLB advances and other borrowings\$107,000A \$€107,245A €€€A 107,245A €€€A Subordinated notes\$49,486A \$€38,939A €€€A 38,939A €€€A Interest rate lock commitments\$2A \$€2A €€€A 2A Forward sale commitments\$41A \$€41A €€€A 41A €€€A Accrued interest payable\$1,772A \$€1,772A €€€A €A Off-Balance Sheet Financial InstrumentsThe fair value of commitments to extend credit and standby letters of credit is estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements, the likelihood of the counterparties drawing on such financial instruments, and the present creditworthiness of such counterparties. The Company believes such commitments have been made on terms that are competitive in the markets in which it operates.LimitationsThe fair value estimates provided are made at a point in time based on market information and information about the financial instruments. Because no market exists for a portion of the Company’s financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the fair value estimates. These financial instruments include commitments to extend credit and standby letters of credit. These instruments may involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the consolidated balance sheets.The Company’s extent of involvement and maximum potential exposure to credit loss in the event of non-performance by the other party to the financial instrument for commitments to extend credit and standby letters of credit is represented by the contractual amount of these instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for financial instruments included on its consolidated balance sheets.The allowance for credit losses associated with unfunded commitments and letters of credit is recorded within other liabilities on the consolidated balance sheets. At JuneA 30, 2024, the allowance for credit losses for unfunded commitments was \$0.9 million. The contractual amounts of off-balance-sheet financial instruments were as follows as of the dates indicated: (in thousands)June 30, 2024December 31, 2023Commitments to extend credit\$310,584\$286,939Interest rate lock commitments\$2,131,694Forward sale commitments\$1,341,779Standby letters of credit\$48,200\$11,631Total\$362,256\$406,043Commitments/ContingenciesThe Company issues agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since certain of the commitments and letters of credit are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer’s creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management’s credit evaluation of the customer. Collateral held varies, but may include accounts receivable, inventory, furniture and equipment, and real estate.The Company has two types of commitments related to mortgage loans held for sale: interest rate lock commitments and forward loan sale commitments. Interest rate lock commitments are commitments to extend credit to a customer that has an interest rate lock and are considered derivative instruments.Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third-party. These standby letters of credit are primarily issued to support contractual obligations of the Company’s customers. The approximate remaining term of standby letters of credit ranged from one month to five years at JuneA 30, 2024.Pending LitigationThe Company and its subsidiaries are defendants in various legal actions incidental to the Company’s past and current business activities. Based on the Company’s analysis, and considering the inherent uncertainties associated with litigation, management does not believe that it is reasonably possible that these legal actions will materially adversely affect the Company’s consolidated financial condition or results of operations in the near term. The Company records a loss accrual for all legal matters for which it deems a loss is probable and can be reasonably estimated. Some legal matters, which are at early stages in the legal process, have not yet progressed to the point where a loss is deemed probable or an amount can be estimated.
