NOTE 1. Nature of Business NATURE OF BUSINESS

MercadoLibre, Inc. (“MercadoLibre” or and together with its consolidated entities, the “Company”) was incorporated in the state of Delaware, in the United States of America, in October 1999. MercadoLibre is the largest online commerce ecosystem in Latin America, serving as an integrated regional platform and as a provider of necessary digital and technology tools that allow businesses and individuals to trade products and services in the region.

The Company enables commerce through its marketplace platform, which allows users to buy and sell in most of Latin America. Through Mercado Pago, the fintech solution, MercadoLibre enables individuals and businesses to send and receive digital payments; through Mercado Envios, MercadoLibre facilitates the shipping of goods from the Company and sellers to buyers; through the advertising products, MercadoLibre facilitates advertising services for large retailers and brands to promote their products and services on the web; through Mercado Shops, MercadoLibre allows users to set-up, manage, and promote their own on-line web-stores under a subscription-based business model; through Mercado Credito, MercadoLibre extends loans to certain merchants and consumers; and through Mercado Fondo, MercadoLibre allows users to invest funds deposited in their Mercado Pago accounts.

As of September 30, 2023 March 31, 2024, MercadoLibre, through its wholly-owned subsidiaries, operated online e-commerce platforms directed towards Argentina, Brazil, Chile, Colombia, Costa Rica, Dominican Republic, Ecuador, Peru, Mexico, Panama, Honduras, Nicaragua, El Salvador, Uruguay, Bolivia, Guatemala, Paraguay and Venezuela. Additionally, MercadoLibre operates its fintech solution in Argentina, Brazil, Mexico, Colombia, Chile, Peru, Uruguay and Ecuador, and extends loans through Mercado Credito in Argentina, Brazil, Mexico and Chile. It also offers a shipping solution directed towards Argentina, Brazil, Mexico, Colombia, Chile, Uruguay, Peru and Ecuador.

NOTE 2. Summary of significant accounting policies SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying unaudited interim condensed consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and include the accounts of the Company, its wholly-owned subsidiaries and consolidated Variable Interest Entities (“VIE”). Investments in entities where the Company holds joint control, but not control, over the investee are accounted for using the equity method of accounting. These unaudited interim condensed consolidated financial statements are stated in U.S. dollars, except where otherwise indicated. Intercompany transactions and balances with subsidiaries have been eliminated for consolidation purposes.

Substantially all net revenues and financial income, cost of net revenues and financial expenses and operating expenses, are generated in the Company’s foreign operations. Long-lived assets, intangible assets and goodwill and operating lease right-of-use assets located in the foreign jurisdictions totaled $2,046 million $2,297 million and $1,817 million $2,321 million as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, respectively.

These unaudited interim condensed consolidated financial statements reflect the Company's consolidated financial position as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023. These unaudited interim condensed consolidated financial statements include the Company's consolidated statements of income, comprehensive income, and equity for the nine and three-month periods ended September 30, 2023 and 2022 and statements of cash flows for the nine-month three-month periods ended September 30, 2023 March 31, 2024 and 2022. 2023. These unaudited interim condensed consolidated financial statements include all normal recurring adjustments that Management believes are necessary to fairly state the Company's financial position, operating results and cash flows.

Because all of the disclosures required by U.S. GAAP for annual consolidated financial statements are not included herein, these unaudited interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto for the year ended December 31, 2022 December 31, 2023, contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2022 December 31, 2023 filed with the Securities and Exchange Commission ("SEC") (the "Company's 2022 2023 10-K"). The Company has evaluated all subsequent events through the date these unaudited interim condensed consolidated financial statements were issued. The unaudited interim condensed consolidated statements of income, comprehensive income, equity and cash flows for the periods presented herein are not necessarily indicative of results expected for any future period. For a more detailed discussion of the Company's significant accounting policies, see Note 2 to the financial statements in the Company's 2022 2023 10-K. During the nine-month three-month period ended September 30, 2023 March 31, 2024, there were no material updates made to the Company's significant accounting policies. For information regarding the change in the presentation of the statements of income, please refer to section "Change in the presentation of certain financial results and reclassification of prior year results" of Note 2 – Summary of significant accounting policies of these unaudited interim condensed consolidated financial statements.

Change in the presentation of certain financial results and reclassification of prior year results

Change in the presentation of certain financial results

Mercado Pago Fintech platform operations have significantly evolved during the last several years, not only because of the increase in the volume of transactions but also as a result of transitioning from being a non-regulated business to a regulated business, subject to the oversight of central banks and other regulators in the various countries in which the Company operates (refer to Note 3 – Fintech Regulations to the consolidated financial statements in the Company's 2023 10-K for further details).

Many of the regulations to which the Company is subject require that the Company, among other things, maintain liquidity reserves to guarantee the funds on users' account balances in their Mercado Pago digital accounts. Depending on the country, these reserves can be partially or totally invested. During the last several years, these new regulations, coupled with the increase in the volume of transactions, have led the Company to view interest income and other financial gains from investments of these liquidity reserves as part of the Company's operations.

Furthermore, the evolution of Mercado Pago's activities themselves has resulted in the Company managing a significant volume of cash, cash equivalents and investments. This is due to an increase in users' account balances in their Mercado Pago digital account managed by the Company, and an increase in the level of the Company's indebtedness to finance those operations. As a result, Mercado Pago's available cash, together with the financing activities, have generated a significant volume of interest income and other financial gains and interest expenses and other financial losses, respectively.

The Company believes that these regulatory trends and related activities will continue and, therefore, with the goal of creating a better measure of the performance of the Company, the Company decided to reclassify and present certain financial results from "Other income (expenses)" to "Net revenues and financial income" and "Cost of net revenues and financial expenses," in the statement of income, starting January 1, 2024 and for all prior periods presented.

The reclassified financial results are related to activities that are needed or mandatory for Mercado Pago's operations, and consist of:

- interest income derived from investments, cash and cash equivalents, generated as part of the treasury strategy of the fintech business and because of the different regulations that require liquidity reserves, net of sales taxes;
- interest expense and other financing costs generated by the different sources of funding of the fintech activities; and
- gains and losses of derivatives hedging risks related to Mercado Pago's activities.

Reclassification of prior year results

According to the Accounting Standards Codification ("ASC") 205, Presentation of Financial Statements, the Company should present in a consistent manner all periods presented within the accompanying unaudited interim condensed consolidated financial statements. Therefore, prior period balances have been reclassified for consistency with the current presentation. These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the Company's 2023 10-K.

This reclassification did not have an impact on previously reported net income, earnings per share, retained earnings or other components of equity or total equity.

The following tables, recast for the changes summarized above, present condensed statement of income line items affected by the revisions and reclassifications of previously reported financial statements, detailing amounts previously reported, the impact upon those line items due to reclassifications and amounts as currently revised within the financial statements:

Use of estimates

The preparation of these unaudited interim condensed consolidated financial statements in conformity with U.S. GAAP requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates are used for, but not limited to, accounting and disclosures for allowance for doubtful accounts and chargeback provisions, inventories valuation reserves, recoverability of goodwill, intangible assets with indefinite useful lives and deferred tax assets, impairment of short-term and long-term investments, impairment of long-lived assets, separation of lease and non lease components for aircraft leases, asset retirement obligation, compensation costs relating to the Company's long term retention program, fair value of convertible debt, customer crypto-assets safeguarding assets and liabilities, fair value of investments, certain loans payable and other financial liabilities, fair value of loans receivable, fair value of derivative instruments, income taxes, and contingencies and determination of the incremental borrowing rate at commencement date of lease operating agreements. Actual results could differ from those estimates.

Customer crypto-assets safeguarding assets and liabilities

As of March 31, 2024 and December 31, 2023, the fair value of the crypto-assets held in customers' names by third-party service providers that the Company recognized on its consolidated balance sheets for both the crypto-asset safeguarding liability and the corresponding safeguarding asset, which are included in "Customer crypto-assets safeguarding liabilities" and "Customer crypto-assets safeguarding assets," respectively, was $71 million and $34 million, respectively, which consisted of $41 million and $18 million of Bitcoin, $15 million and $7 million of Ether, and $15 million and $9 million of other crypto-assets, respectively.

For further information related to customer crypto-assets safeguarding assets and liabilities please refer to Note 2 to the consolidated financial statements in the Company's 2023 10-K.

Supplier finance programs

The Company and certain financial institutions participate in a supplier finance program that enables certain of the Company's suppliers, at their own election, to request the payment of their invoices to the financial institutions earlier than the terms stated in the Company's payment policy. As of March 31, 2024 and December 31, 2023, the obligations outstanding that the Company has confirmed as valid to the financial institutions amounted to $368 million and $381 million, respectively.

For further information related to Supplier Finance Programs please refer to Note 2 to the consolidated financial statements in the Company's 2023 10-K.

Revenue recognition

Revenue recognition criteria for the services provided and goods sold by the Company are described in Note 2 to the consolidated financial statements in the Company's 2022 2023 10-K.

The aggregate gain included in "Fintech services" services and financial income" revenues arising from financing transactions and sales of financial assets, net of the costs recognized on sale of credit card receivables, is $1,055 million $365 million and $379 million $336 million for the nine and three-month periods ended September 30, 2023 March 31, 2024 and $751 million 2023, respectively.

Revenues recognized under ASC 606, Revenue from contracts with customers, amounted to $3,099 million and $261 million $2,165 million for the nine and three-month periods ended September 30, 2022, March 31, 2024 and 2023, respectively. Revenues not recognized under ASC 606 amounted to $1,234 million and $1,021 million for the three-month periods ended March 31, 2024 and 2023, respectively.

Contract balances

Timing of revenue recognition may differ from the timing of invoicing to customers. Receivables represent amounts invoiced and revenue recognized prior to invoicing when the Company has satisfied the performance obligation and has the unconditional right to payment. Accounts receivable and credit card receivables and other means of payments are presented net of allowance for doubtful accounts and chargebacks of $35 million $40 million and $25 million $42 million as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, respectively. See Note

6 – Loans receivable, net of these unaudited interim condensed consolidated financial statements for information related to the allowance for doubtful accounts with respect to the Company's loans receivable.

Deferred revenue consists of fees received related to unsatisfied performance obligations at the end of the period in accordance with Accounting Standards Codification ("ASC") ASC 606. Due to the generally short-term duration of contracts, the majority of the performance obligations are satisfied in the following months. Deferred revenue as of December 31, 2022 December 31, 2023 was $44 million $29 million, of which $29 million$18 million was recognized as revenue during the nine-month three-month period ended September 30, 2023 March 31, 2024.

As of September 30, 2023 March 31, 2024, total deferred revenue recognized within current other liabilities was $34 million$38 million, mainly due to fees related to classifieds advertising services billed and loyalty programs that are expected to be recognized as revenue in the coming months.

Foreign currency translation

All of the Company's foreign operations have determined the local currency to be their functional currency, except for Argentina, which has used the U.S. dollar as its functional currency since July 1, 2018. Accordingly, the foreign subsidiaries with local currency as functional currency translate assets and liabilities from their local currencies into U.S. dollars by using period-end exchange rates while income and expense accounts are translated at the average monthly rates in effect during the period, unless exchange rates fluctuate significantly during the period, in which case the exchange rates at the date of the transaction are used. The resulting translation adjustment is recorded as a component of other comprehensive income. income (loss). Gains and losses resulting from transactions denominated in non-functional currencies are recognized in earnings. Net foreign currency transaction results are included in the unaudited interim condensed consolidated statements of income under the caption "Foreign currency losses, net".

Argentine currency status and macroeconomic outlook

As of July 1, 2018, the Company transitioned its Argentine operations to highly inflationary status in accordance with U.S. GAAP, and changed the functional currency for Argentine subsidiaries from Argentine Pesos to U.S. dollars, which is the functional currency of their immediate parent company. Argentina's inflation rate for the nine-month three-month periods ended September 30, 2023 March 31, 2024 and 2022 2023 was 103.2% 51.6% and 66.1% 21.7%, respectively.

Additionally, Argentina's average inter-annual inflation rate was 272.8%, for the three-month period ended March 31, 2024.

The Company uses Argentina's official exchange rate to account for transactions in the Argentine segment, which as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023 was 349.95 858.00 and 177.16 808.45 Argentine Pesos, respectively, against the U.S. dollar. On August 14, 2023, For the three-month periods ended March 31, 2024 and 2023, Argentina's local currency depreciated 22% against the U.S. dollar. reaching the official exchange rate of 349.95 Argentine Pesos. For the nine-month periods ended September 30, 2023 and 2022, Argentina's depreciation of its local currency against the U.S. dollar was 97.5% increased 6.1% and 43.4% 18.0%, respectively. The average exchange rate for the three-month periods ended March 31, 2024 and 2023 was 834.46 and 192.41, respectively, resulting in an increase of 334%.

The following table sets forth the assets, liabilities and net assets of the Company's Argentine subsidiaries and consolidated VIEs, before intercompany eliminations, as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023:

Argentine exchange regulations

Since the second half of 2019, the Argentine government instituted exchange controls restricting the ability of companies and individuals to exchange Argentine Pesos for foreign currencies and their ability to remit foreign currency out of Argentina. An entity's authorization request to the Central Bank of Argentina ("CBA") to access the official exchange market to make foreign currency payments may be denied depending on the circumstances. As a result of these exchange controls, markets in Argentina developed trading mechanisms, in which an entity or individual buys U.S. dollar denominated securities in Argentina (i.e. shares, sovereign debt) using Argentine Pesos, and subsequently sells the securities for U.S. dollars, in Argentina, to access U.S. dollars locally, or outside Argentina, by transferring the securities abroad, prior to being sold (the latter commonly known as "Blue Chip Swap Rate"). The Blue Chip Swap Rate has diverged significantly from Argentina's official exchange rate (commonly known as exchange spread). In recent years, Since the Blue Chip Swap Rate has been higher than increase of the Argentina's official exchange rate. As of September 30, 2023 and December 31, 2022, rate in December 2023, the spread of the Blue Chip Swap was 135.0% has declined, being 26.5% and 94.2% 20.4% as of March 31, 2024 and December 31, 2023, respectively (see Note 16 of these unaudited interim condensed consolidated financial statements). respectively.

As part of the exchange controls, since 2019, the Argentine government imposes a tax on the acquisition of foreign currency through the official exchange market in certain circumstances. On July 24, 2023, through the Executive Power Decree No. 377/2023, the Argentine government extended the application of this tax to the following cases: (i) certain services acquired from abroad or services rendered by foreign residents in Argentina (i.e. technical, legal, accounting, management, advertising, engineering, audiovisual services, among others), which will be subject to a 25% tax rate, (ii) freight and other transportation services for import and export of goods, which will be subject to a 7.5% tax rate; and (iii) imported goods, which will be subject to a 7.5% tax rate, with certain exemptions (such as fuels and products of the basic food basket). Later, the Decree No. 29/2023, modified the tax rate for the cases mentioned above under ii) and iii) from 7.5% to 17.5%.

Income taxes

Income taxes' accounting policy is described in Note 2 to the consolidated financial statements in the Company's 2022 2023 10-K.

The Company's consolidated estimated effective tax rate for the nine-month three-month period ended September 30, 2023 increased March 31, 2024 as compared to the same period in 2022. This was 2023, decreased from 38.1% to 28.5%, mainly as a result of (i) no foreign exchange losses recognition during the period related to the acquisition of the Company's common stock in the Argentine market, which was considered as non-deductible expense, ii) lower taxable foreign exchange gains accounted for in Argentina for local tax purposes that are not recorded for accounting purposes since, under U.S. GAAP, Argentina's Argentine operations' functional currency is the U.S. dollar due to the highly inflationary status of the country, (ii) a higher proportion of pre-tax results arising from entities under general income tax treatment regime over the Brazilian segment as compared to the same period in 2022 and (iii) higher non-deductible foreign exchange losses deductions related to the acquisition of our own common stock tax inflation adjustments in the Argentine market. This increase was partially offset by the reversal of the valuation allowances in one of the Company's Mexican subsidiaries during the third quarter of 2023.

The Company's consolidated estimated effective tax rate for the three-month period ended September 30, 2023 decreased as compared to the same period in 2022, mainly as a result of the reversal of the valuation allowances in one of its Mexican subsidiaries during the third quarter of 2023. This decrease was partially offset by taxable foreign exchange gains accounted for local tax purposes, which are not recorded for accounting purposes given that under U.S. GAAP and due to Argentina's highly inflationary status, Argentina's operations' functional currency is the U.S. dollar. Argentina.

A valuation allowance is recorded when, based on the available evidence, it is more likely than not that all or a portion of the Company's deferred tax assets will not be realized. In accordance with ASC 740, Management periodically assesses the need to either establish or reverse a valuation allowance for deferred tax assets considering positive and negative objective evidence related to the realization of the deferred tax assets. In its assessment, Management considers, among other factors, the nature, frequency and magnitude of current and cumulative losses on an individual subsidiary basis, projections of future taxable income, the duration of statutory carryforward periods, as well as feasible tax planning strategies, which would be employed by the Company to prevent tax loss carryforwards from expiring unutilized. As of September 30, 2023, the Company's Management concluded that an amount of $141 million of valuation allowance should be reversed at that date given that is more likely than not that deferred tax assets from DeRemate.com de México, S. de R.L. de C.V., a Mexican subsidiary, will be realized in the foreseeable future. The change in judgment regarding the realizability of the deferred tax assets of the Mexican subsidiary was triggered during the three-month period ended September 30, 2023, as positive trends observed in recent periods became enough evidence to support the conclusion.

Knowledge-based economy promotional regime in Argentina

In August 2021, the Under Secretariat of Knowledge Economy issued the Disposition 316/2021 approving MercadoLibre S.R.L.'s application for eligibility under the knowledge-based economy promotional regime, established by the Law No. 27,506 and complemented by Argentina's Executive Power Decree No. 1034/2020, Argentina's Ministry of Productive Development's Resolution No.

4/2021 and the Under Secretariat of Knowledge Economy's Disposition No. 11/2021.

As a result, the Company recorded an income tax benefit of $35 million $1 million and $14 million, and $19 million and $15 million $10 million during the nine and three-month periods ended September 30, 2023 March 31, 2024 and 2022, March 31, 2023, respectively. The aggregate per share effect of the income tax benefit amounted to $0.69 $0.01 and $0.27, and $0.38 and $0.30 $0.19 for the nine and three-month periods ended September 30, 2023 March 31, 2024 and 2022, 2023, respectively. Furthermore, the Company recorded a social security benefit of $49 million $17 million and $16 million, and $39 million and $13 $18 million during the nine and three-month periods ended September 30, 2023 March 31, 2024 and 2022, 2023, respectively.

Fair value option applied to certain financial instruments

Under ASC 825, U.S. GAAP provides an option to elect fair value with impact on the statement of income as an alternative measurement for certain financial instruments and other items on the balance sheet.

The Company has elected to measure certain financial assets at fair value with impact on the statement of income for several reasons including to avoid the mismatch generated by the recognition of certain linked instruments / transactions, separately, in the unaudited interim condensed consolidated statement statements of income and unaudited interim condensed consolidated statement statements of comprehensive income and to better reflect the financial model applied for selected instruments. The Company's election of the fair value option applies to the: to: i) Brazilian federal foreign government bonds debt securities, and ii) U.S. treasury notes.

government debt securities.

Recently Adopted Accounting Standards

On October 28, 2021, the FASB issued the Accounting Standards Update ("ASU") 2021-08 "Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers". The amendments in this update improve comparability for the recognition and measurement of acquired revenue contracts with customers at the date of and after a business combination by specifying for all acquired revenue contracts regardless of their timing of payment (1) the circumstances in which the acquirer should recognize contract assets and contract liabilities that are acquired in a business combination and (2) how to measure those contract assets and contract liabilities. The amendments provide consistent recognition and measurement guidance for revenue contracts with customers acquired in a business combination and revenue contracts with customers not acquired in a business combination. The Company adopted this standard effective as of January 1, 2023 and it did not have a material impact on the Company's financial statements.

On March 31, 2022, the FASB issued the ASU 2022-02 "Troubled Debt Restructurings ("TDRs") and Vintage Disclosures (Topic 326): Financial Instruments – Credit Losses", which eliminates the accounting guidance on TDRs, while enhancing disclosure requirements for certain loan refinancings and restructurings by creditors when a borrower is experiencing financial difficulty. In addition, the guidance requires disclosure of current-period gross write-offs by year of origination for financing receivables and net investment in leases. The amendments should be applied prospectively, except for the transition method related to the recognition and measurement of TDRs, where an entity has the option to apply a modified retrospective transition method, resulting in a cumulative-effect adjustment to retained earnings in the period of adoption. The Company adopted this standard effective as of January 1, 2023 and it did not have a material impact on the Company's financial statements.

On September 29, 2022, the FASB issued the ASU 2022-04 "Liabilities—Supplier Finance Programs (Subtopic 405-50): Disclosure of Supplier Finance Program Obligations". The amendments in this update require entities that use supplier finance programs in connection with the purchase of goods and services to disclose the key terms of the programs and information about their obligations outstanding at the end of the reporting period, including a rollforward of those obligations. The guidance does not affect the recognition, measurement or financial statement presentation of supplier finance program obligations. The Company adopted this standard effective as of January 1, 2023, except for the rollforward requirement, which is effective for fiscal years beginning after December 15, 2023. Early adoption is permitted. The guidance should be applied retrospectively to all periods in which a balance sheet is presented, except for the rollforward requirement, which should be applied prospectively. The Company and certain financial institutions participate in a supplier finance program ("SFP") that enables certain of the Company's suppliers, at their own election, to request the payment of their invoices to the financial institutions earlier than the terms stated in the Company's payment policy. Suppliers' voluntary inclusion of invoices in the SFP does not change the Company's payment terms, the amounts paid or liquidity. The Company has no economic interest in a supplier's decision to participate in the SFP and has no financial impact in connection with the SFP. As of September 30, 2023 and December 31, 2022, the obligations outstanding that the Company has confirmed as valid to the financial institutions amounted to $302 million and $227 million, respectively, and are included in the unaudited interim condensed consolidated balance sheets within accounts payable and accrued expenses line.

Recently issued accounting pronouncements not yet adopted

As of the date of issuance of these unaudited interim condensed consolidated financial statements there were no accounting pronouncements recently adopted by the Company.

Recently issued accounting pronouncements not yet adopted expected

On November 27, 2023, the FASB issued the ASU 2023-07 "Segment Reporting (Topic 280)—Improvements to have a material impact Reportable Segment Disclosures". The amendments in this update improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. The amendments in this update are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The guidance should be applied retrospectively to all prior periods presented in the financial statements. Upon transition, the segment expense categories and amounts disclosed in the prior periods should be based on the Company's significant segment expense categories identified and disclosed in the period of adoption. The Company is assessing the effects that the adoption of this accounting pronouncement may have on its financial statements.

On December 14, 2023, the FASB issued the ASU 2023-09 "Income Taxes (Topic 740): Improvements to Income Tax Disclosures". The amendments in this update provide more transparency about income tax information through improvements to income tax disclosures primarily related to the rate reconciliation and income taxes paid information, requiring consistent categories and greater disaggregation of information in the rate reconciliation and income taxes paid disaggregated by jurisdiction. The other amendments in this update improve the effectiveness and comparability of disclosures by adding disclosures of pretax income (or loss) and income tax expense (or benefit) and removing disclosures that no longer are considered cost beneficial or relevant. The amendments are effective for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. The guidance should be applied on a prospective basis while retrospective application is permitted. The Company is assessing the effects that the adoption of this accounting pronouncement may have on its financial statements.

NOTE 3. Fintech Regulations FINTECH REGULATIONS

Regulations issued by the Central Banks and other regulators of the countries where the Company operates applicable to its Fintech business are described in Note 3 to the consolidated financial statements in the Company's 2023 10-K.

Brazil

In March 2022, 10-K. the Central Bank of Brazil announced new rules for payment institutions based on their size and complexity and raised standards for required capital. The new framework, which was effective starting in July 2023 with full implementation by January 2025, will extend the application of the rule regarding proportionality of regulatory requirements (currently applicable to conglomerates of financial institutions) to financial conglomerates led by payment institutions. The new rules require a gradual increase, between 2023 and 2025, in the regulatory capital requirements applicable to the Company's regulated Brazilian subsidiaries based on the following schedule: from July 2023 onwards, 6.75%, from January 2024 onwards, 8.75% and from January 2025 onwards, 10.50%.

On January 2, 2024, article 28 of Law 14,690 came into force, which caps the total amount that may be charged to a credit card holder in the form of interest and financial charges at the value of the original debt. The Central Bank of Brazil also defined rules on the Resolution CMN N° 5,112, clarifying the topic and defining criteria for calculating the original value of the debt in card revolving and invoice financing operations. To comply with the new regulation, Company's subsidiaries reduced the duration of the credit card invoice financing plans since January 2024.

The Company closely monitors credit quality for all loans receivable on a recurring basis to assess and manage its exposure to credit risk. To assess merchants and consumers seeking a loan under the Mercado Credito solution, the Company uses, among other indicators, risk models internally developed, as a credit quality indicator to help predict the merchant's and consumer's ability to repay the principal balance and interest related to the credit. The risk model uses multiple variables as predictors of the merchant's and consumer's ability to repay the credit, including external and internal indicators. Internal indicators consider user behavior related to credit/payment history, and with lower weight in the risk models, the Company uses the number of transactions in the Company's ecosystem and the merchant's annual sales volume, among other indicators. In addition, the Company considers external bureau information to enhance the model and the decision making process.

The amortized cost of the loans receivable classified by the Company's credit quality internal indicator was as follows:

NOTE 9. SEGMENTS

Reporting segments are based upon the Company's internal organizational structure, the manner in which the Company's operations are managed and resources are assigned, the criteria used by Management to evaluate the Company's performance, the availability of separate financial information and overall materiality considerations.

Segment reporting is based on geography as the main basis of segment breakdown in accordance with the criteria, as determined by Management, used to evaluate the Company's performance. The Company's segments include Brazil, Argentina, Mexico and other countries (which includes Chile, Colombia, Costa Rica, Ecuador, Peru and Uruguay).

Direct contribution consists of net revenues and financial income from external customers less direct costs, which include costs of net revenues and financial expenses, product and technology development expenses, sales and marketing expenses, provision for doubtful accounts and general and administrative expenses over which segment managers have direct discretionary control, such as advertising and marketing programs, customer support expenses, payroll and third-party fees. All corporate related costs have been excluded from the segment's direct contribution.

(1) Digital assets are net of $21 million of impairment losses as of both September 30, 2023 and December 31, 2022.

Expenses over which segment managers do not currently have discretionary control, such as certain technology and general and administrative costs, are monitored by Management through shared cost centers and are not evaluated in the measurement of segment performance.

As of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, the carrying value of the Company's financial assets (except for loans receivable and equity securities held at cost) not measured at fair value approximated their fair value mainly because of their short-term maturity. If these financial assets were measured at fair value in the financial statements, cash and restricted cash would be classified as Level 1 (where cost and fair value are aligned) and the remaining financial assets would be classified as Level 2. The estimated fair value of the loans receivable would be classified as Level 3 based on the Company's assumptions.

As of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, the carrying value of the Company's financial liabilities (except for 2028 Notes, 2026 Sustainability Notes and 2031 Notes) not measured at fair value approximated their fair value mainly because of their short-term maturity and the effective interest rates are not materially different from market interest rates. If these financial liabilities were measured at fair value in the financial statements, these would be classified as Level 2. As of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, the estimated fair value of the 2026 Sustainability Notes and 2031 Notes would be $365 million $375 million and $359 million, and $553 million and $541 million $375 million, respectively, based on Level 2 inputs. Also, as of September 30, 2023 and December 31, 2022, the estimated fair value of the 2028 2026 Notes would be $255 million $585 million and $884 million $599 million, respectively, and would be classified as which is based on Level 2 based on the closing trading price per $100 principal amount of the 2028 Notes as of the last day of trading for the period. The fair value of the 2028 Notes is primarily affected by the trading price of the Company's common stock and market interest rates. Based on the $1,267.88 closing price of the Company's common stock on September 30, 2023, the if-converted value of the 2028 Notes exceeded their principal amount by $167 million.

10. Commitments and Contingencies NOTE 11. COMMITMENTS AND CONTINGENCIES

Litigation and Other Legal Matters

The Company is subject to certain contingent liabilities with respect to existing or potential claims, lawsuits and other proceedings. The Company accrues liabilities when it considers it to be probable that future costs will be incurred and such costs can be reasonably estimated. Proceeding-related liabilities are based on developments to date and historical information related to actions filed against the Company. As of September 30, 2023 March 31, 2024, the Company had accounted for estimated liabilities involving proceeding-related contingencies and other estimated contingencies of $72 $112 million within non-current other liabilities to cover legal actions against the Company in for which Management has assessed the likelihood of a final adverse outcome as probable. Expected legal costs related to litigations are accrued when the legal service is actually provided.

In addition, as of September 30, 2023 March 31, 2024, the Company and its subsidiaries are subject to certain legal actions considered by the Company's Management and its legal counsels to be reasonably possible of resulting in a loss for an estimated aggregate amount up to $480 million. $198 million. No loss amounts have been accrued for such reasonably possible legal actions.

For further information related to contingent liabilities please refer to Note 15 to the consolidated financial statements in the Company's 2022 2023 10-K.

Tax Claims

Brazilian preliminary injunction against the Brazilian tax authorities (withholding income tax)

The tax claim related to the Brazilian preliminary injunction against the Brazilian tax authorities is described in Note 15 to the consolidated financial statements in the Company's 2023 10-K. On April 3, 2024, the Superior Court of Justice decided to analyze whether the matter under consideration is capable of becoming a binding precedent. The Company will submit a petition claiming that the case is fully capable of being judged as a binding precedent. Management's opinion, based on the opinion of external legal counsel, is that the risk of losing the case is probable based on the technical merits of the Company's tax position and the existence of recent adverse decisions issued by the Superior Court of Justice. For that reason, the Company has recorded a provision for the disputed amounts, which was $338 million as of March 31, 2024, and which was recorded in non-current other liabilities in the consolidated balance sheets, net of the corresponding judicial deposits for $294 million (which includes $82 million of interest income).

Interstate rate of ICMS-DIFAL on interstate sales

Interstate rate of ICMS-DIFAL on interstate sales without Complementary Law

The tax claim related to the interstate rate of ICMS-DIFAL (Imposto sobre Circulaçao de Mercadorias, Serviços de Transporte Interestadual, Intermunicipal e Comunicação on interstate sales at a differential rate) without the existence of a complementary law is described in Note 15 to the consolidated financial statements in the Company's 2022 2023 10-K. In April 2023, and based on court authorization, the Company withdrew the deposits corresponding to the case related to the State of Santa Catarina, which had become final and unappealable in September 2022 in favor of eBazar.com.br Ltda. In June 2023, the case related to the State of Goiás (whose risk of losing had been considered remote), reached a final and unappealable judgment in favor of eBazar.com.br Ltda. and Mercado Pago Instituição de Pagamento Ltda., and the companies will withdraw the deposits corresponding to the case as soon as the court authorization is granted. In August 2023, March 2024, one of the cases related to the State of BahiaSanta Catarina (whose risk of losing had been considered probable), reached a final and unappealable judgment in favor of the State. Finally, in September 2023, one of the cases related to the State of Rio de Janeiro (whose risk of losing had been considered probable), reached a final and unappealable received judgment in favor of the State. The remaining cases pending as of December 31, 2022December 31, 2023 had no updates during the nine-monththree-month period ended September 30, 2023March 31, 2024. The Company maintains a $3$2 million provision as of September 30, 2023March 31, 2024 for the disputed amounts related to the 43 ongoing cases whose risk of losing is considered by Management to be probable, based on the opinion of external legal counsel.

In addition, with respect to theExclusion of ICMS tax claimsbenefits from federal taxes base

The tax claim related to the interstate rateexclusion of ICMS-DIFALICMS tax benefits from the tax base of the Corporate Income Tax ("IRPJ") and of the Social Contribution on interstate sales under the supplementary Law No. 190/22, asNet Profits ("CSLL") is described in Note 15 to the consolidated financial statements in the Company's 2022 10-K,2023 10-K. On April 17, 2024, the Brazilian SupremeFederal Regional Court has announced that it expects to make a judgment regarding the constitutionalityruled in favor of the supplementary Law on November 22, 2023.

Exclusion of ICMS tax benefits from PISCompany. The case has not yet become final and COFINS tax base

The Company receives ICMS tax benefits from the State of Minas Gerais, Brazil, granted through a special regime signed with the State by means of a term of agreement, which are aimed at implementing and expanding business in the State. The Company accounted for the tax benefit netting cost of net revenues for the nine and three-month periods ended September 30, 2023, for $44 million and $16 million, respectively, and for the nine and three-month periods ended September 30, 2022, for $25 million and $8 million, respectively.

On April 25, 2023, the Company filed a writ of mandamus seeking an injunction and claiming the exclusion of the amounts relating to the ICMS tax benefits granted by the State of Minas Gerais in the tax base of the Social Contributions (PIS and COFINS).

On May 26, 2023, a decision was rendered granting the injunction requested. The Company is currently waiting for the final judicial decision. unappealable. Management's opinion, based on the opinion of external legal counsel, is that the risk of losing the case is reasonably possible but not probablemore likely than not based on the technical merits of the Company's tax position. For that reason, the Company has not recorded any expense or liability for the disputed amounts. The Company accounted for $9 million for PIS and COFINS tax benefits arising fromAs of March 31, 2024, the ICMS tax incentives during the nine-month period ended September 30, 2023, considering the exchange rate as of September 30, 2023, of which $2 million corresponded to the period ended December 31, 2021, and $3 million corresponded to the period ended December 31, 2022.

Marketplace joint and several liability

In the context of intermediation transactions on the marketplace platform, the Brazilian subsidiary eBazar.com.br Ltda. received tax assessments aimed at collecting alleged ICMS debts for the 2017 to 2019 fiscal years, in thetotal amount of $8 million, considering the exchange rate as of September 30, 2023. The tax assessment intends to attribute to eBazar.com.br Ltda. the joint and several liability for the payment of ICMS allegedly due by sellers on the sale of goods without compliant invoices. The Company presented its objection in August 2023. Management's opinion, based on the opinion of external legal counsel, is that the risk of losing the case is reasonably possible, but not probable. under dispute was $48 million.

Buyer protection program

The buyer protection program ("BPP") is designed to protect buyers in the Marketplace from losses due primarily to fraud or counterparty non-performance. non-performance for all transactions completed through the Company's online payment solution Mercado Pago (except for certain excluded categories). The Company's BPP provides protection to consumers by reimbursing them for the total value of a purchased item and the value of any shipping service paid if it does not arrive, arrives incomplete or damaged, does not match the seller's description or if the buyer regrets the purchase. The Company is entitled to recover from the third-party carrier companies performing the shipping service certain amounts paid under the BPP. Furthermore, in some specific circumstances, the Company enters into insurance contracts with third-party insurance companies in order to cover contingencies that may arise from the BPP.

The maximum potential exposure under this program is estimated to be the volume of payments on the Marketplace, for which claims may be made under the terms and conditions of the Company's BPP. Based on historical losses to date, the Company does not believe that the maximum potential exposure is representative of the actual potential exposure. The Company records a liability with respect to losses under this program when they are probable and the amount can be reasonably estimated.

As of September 30, 2023March 31, 2024 and December 31, 2022December 31, 2023, Management's estimate of the maximum potential exposure related to the Company's buyer protection program is $4,364 million$4,649 million and $4,002 million$5,072 million, respectively, for which the Company recorded a provision of $5 million$9 million and $6 million$8 million, respectively.

Commitments

The Company committed to purchase cloud platform services from two U.S. suppliers based on the following terms:

a) 1. for a total amount of $824 million, to be paid between October 1, 2021 and September 30, 2026. As of September 30, 2023March 31, 2024, the Company had paid $342 million$461 million; and

b) 2. for a total amount of $200 million, to be paid between September 23, 2022 and September 23, 2025. As of September 30, 2023March 31, 2024, the Company had paid $51 million$80 million.

On April 8, 2022, the Company signed a 10-year agreement with Gol Linhas Aereas S.A. under which the Company is committed to contract a minimum amount of air logistics services for a total annual cost of $43 million (total amount once all the dedicated aircraft are in operation). Pursuant to the agreement, Gol Linhas Aereas S.A. provides logistics services in Brazil to Mercado Envios through six dedicated aircraft, fiveall of which have already started operations as of September 30, 2023March 31, 2024.

In connection

Since October 2023, the Company signed 3-year agreements with the closing of MELI Kaszek Pioneer Corp's ("MEKA") initial public offering on October 1, 2021, MEKA (a special purpose acquisition company sponsored by MELI Kaszek Pioneer Sponsor LLC (the "Sponsor"), which is a joint venture between Company's subsidiary MELI Capital Ventures LLC and Kaszek Ventures Opportunity II, L.P.) entered into a forward purchase agreement with the Sponsor, pursuant to certain shipping companies in Brazil, under which the Sponsor Company is committed to purchase from MEKA contract a minimum amount of logistics services for a total cost of $66 million.

On January 10, 2024, the Company signed a 5-year agreement for the naming rights of the Complexo Pacaembu (municipal stadium of the city of São Paulo), for a total amount of $56 million. The agreement has the option to extend the term for 5 million Class A ordinary shares at a price additional independent periods of $10 per share in a private placement to close substantially concurrently with 5 years each, for the consummation of MEKA's initial business combination. MEKA will be deemed to be dissolved on January 2, 2024, resulting in same amount indexed by the extinguishment of this commitment. Brazilian inflation rate index IPCA.

13. Securitization Transactions

NOTE 14. SECURITIZATION TRANSACTIONS

The process of securitization consists of the issuance of securities collateralized by a pool of assets through a special purpose entity ("SPEs"), often under a VIE.

The Company securitizes financial assets associated with its credit card receivables and loans receivable portfolio. The Company's securitization transactions typically involve the legal transfer of financial assets to bankruptcy remote SPEs. The Company generally retains economic interests in the collateralized securitization transactions, which are retained in the form of subordinated interests. For accounting purposes, the Company is generally precluded from recording the transfers of assets in securitization transactions as sales or is required to consolidate the SPE.

The Company securitizes certain credit card receivables related to users' purchases through Chilean SPEs. Under the SPE contracts, the Company has determined that it has no obligation to absorb losses or the right to receive benefits of the SPEs that could be significant because it does not retain any equity certificate of participation or subordinated interest in the SPEs. As the Company does not control the vehicles, its assets, liabilities and related results are not consolidated in the Company's financial statements.

Additionally, the Company securitizes certain credit card receivables related to users' purchases through Brazilian SPEs. Under the SPE contracts, the Company has determined that it has the obligation to absorb losses or the right to receive benefits of the SPEs that could be significant because it retains subordinated interest in the SPEs. As the Company controls the vehicles, the assets, liabilities and related results are consolidated in its financial statements.

The Company securitizes certain loans receivable through Brazilian, Argentine and Mexican SPEs, formed to securitize loans receivable provided by the Company to its users or purchased from financial institutions that grant loans to the Company's users through Mercado Pago. According to the SPE contracts, the Company has determined that it has both the power to direct the activities of the entity that most significantly impact the entity's performance and the obligation to absorb losses or the right to receive benefits of the entity that could be significant because it retains the equity certificates of participation and would therefore also be consolidated.

When the Company controls the vehicle, it accounts for the securitization transactions as if they were secured financing and therefore the assets, liabilities and related results are consolidated in its financial statements.

The following table summarizes the Company's collateralized debt under securitization transactions, as of September 30, 2023 March 31, 2024:

Cash flow hedges

As of September 30, 2023 March 31, 2024, the Company used foreign currency exchange contracts to hedge the foreign currency effects related to the forecasted purchase of MPOs devices in U.S. dollars owed by a Brazilian subsidiary whose functional currency is the Brazilian Real. The Company designated the foreign currency exchange contracts as cash flow hedges, the derivative's derivatives' gain or loss is initially reported as a component of accumulated other comprehensive income loss and subsequently reclassified into earnings the interim condensed consolidated statements of income in the "Cost of net revenues and financial expenses" line item, in the same period the forecasted transaction affects earnings. As of September 30, 2023 March 31, 2024, the Company estimated that the whole amount of net derivative gains or losses related to its cash flow hedges included in accumulated other comprehensive income loss will be reclassified into earnings the interim condensed consolidated statements of income within the next 12 months.

In addition, the Company has entered into swap contracts to hedge the interest rate fluctuation of its variable financial debt issued held by one of its Brazilian subsidiaries. The Company designated the swap contracts as cash flow hedges. The derivative's derivatives' gain or loss is initially reported as a component of accumulated other comprehensive income loss and subsequently reclassified into earnings the interim condensed consolidated statements of income in the "Cost of net revenues and financial expenses" line item within the next 12 months.

Fair value hedges

The Company has entered into cross currency swap contracts to hedge the interest rate and the foreign currency exposure of its fixed-rate, foreign currency financial debt issued held by its Brazilian subsidiaries. The Company designated the swap contracts as fair value hedges. The derivative's derivatives' gain or loss is reported in earnings the interim condensed consolidated statements of income in the same line items as the change in the value of the financial debt due to the hedged risks. Since the terms of the interest rate swaps match the terms of the hedged debts, changes in the fair value of the interest rate swaps are offset by changes in the fair value of the hedged debts attributable to changes in interest rates. Accordingly, the net impact in current earnings is that the interest expense associated with the hedged debts is recorded at the floating rates.

Net investment hedge

The Company used cross currency swap contracts, to reduce the foreign currency exchange risk related to its investment in its Brazilian foreign subsidiaries and the interest rate risk. This derivative was designated as a net investment hedge and, accordingly, gains and losses are reported as a component of accumulated other comprehensive income. loss. The derivative's gain or loss is initially reported as a component of accumulated other comprehensive income loss and is expected to be subsequently reclassified into earnings the interim condensed consolidated statements of income in the "Interest expense and other financial losses" and "Foreign currency losses, net" line items, in the same period that the interest expense affects earnings.

Derivative instruments not designated as hedging instruments

As of September 30, 2023 March 31, 2024, the Company entered into certain foreign currency exchange contracts to hedge the foreign currency fluctuations related to certain transactions denominated in U.S. dollars of certain of its Brazilian subsidiaries, whose functional currencies are the Brazilian Real. These transactions were not designated as hedges for accounting purposes.

In addition, the Company entered into full cross currency swap contracts to hedge the interest rate fluctuation and foreign currency fluctuations of its financial debt nominated in U.S. dollars held by its Brazilian subsidiaries. These transactions were not designated as hedges for accounting purposes.

Finally, as of September 30, 2023 March 31, 2024, the Company entered into swap contracts to hedge the interest rate fluctuation of a certain portion of its financial debt in its Brazilian subsidiaries and VIEs. These transactions were not designated as hedges for accounting purposes.

16. Share repurchase program **NOTE 17. SHARE REPURCHASE PROGRAM**

On February 21, 2023, the Board authorized the Company to repurchase shares of the Company's common stock, for an aggregate consideration of up to $900 million to expire million. This Program expired on March 31, 2024. As of September 30, 2023, the estimated remaining balance available for share repurchases under this Program was $157 million.

The Company expects to purchase shares at any time and from time to time, in compliance with applicable federal securities laws, through open-market purchases, block trades, derivatives, trading plans established in accordance with SEC rules, or privately negotiated transactions. The timing of repurchases will depend on factors including market conditions and prices, the Company's liquidity requirements and alternative uses of capital. The share repurchase program may be suspended from time to time or discontinued, and there is no assurance as to the number of shares that will be repurchased under the program or that there will be any additional repurchases.

As of September 30, 2023, the Company had acquired 570,049 shares under the aforementioned share repurchase programs.

From time to time, the Company acquires shares of its own common stock in the Argentine market and pays paid for them in Argentine Pesos at a price that reflects the additional cost of accessing U.S. dollars through securities denominated in U.S. dollars, because of restrictions imposed by the Argentine government for buying U.S. dollars at the official exchange exchange rate in Argentina (See Note 2 - "Summary – Summary of significant accounting policies - Argentine currency status" status and macroeconomic outlook of these unaudited interim condensed consolidated financial statements). As a result, the Company recognized foreign currency losses of $386 million and $108 $56 million for the nine-month periods three-month period ended September 30, 2023 and 2022 respectively, while foreign currency losses for March 31, 2023. During the three-month periods ended September 30, 2023 and 2022 amounted to $173 million and $45 million, respectively. March 31, 2024, the Company had not acquired any shares under the aforementioned share repurchase program.

Business Overview

We are the largest online commerce ecosystem in Latin America based on unique visitors and orders processed, and we are present in 18 countries: Argentina, Brazil, Mexico, Chile, Colombia, Peru, Uruguay, Venezuela, Bolivia, Costa Rica, Dominican Republic, Ecuador, Guatemala, Honduras, Nicaragua, Panama, Paraguay and El Salvador. Our platform is designed to provide users with a complete portfolio of services to facilitate commercial transactions both digitally and offline.

Through our e-commerce platform, we provide buyers and sellers with a robust and safe environment that fosters the development of a large e-commerce community in Latin America, a region with a population of over 650 million people and with one of the fastest-growing Internet penetration and e-commerce growth rates in the world. We believe that we offer world-class technological and commercial solutions that address the distinctive cultural and geographic challenges of operating a digital commerce platform in Latin America.

We offer our users an ecosystem of six integrated e-commerce services and digital financial services: the Mercado Libre Marketplace, the Mercado Pago Fintech platform, the Mercado Envios logistics service, the Mercado Ads solution, the Mercado Libre Classifieds service and the Mercado Shops online storefronts solution.

The Mercado Libre Marketplace, is a fully-automated, topically-arranged and user-friendly online commerce platform, which can be accessed through our website and mobile app. This platform enables us (when we act as sellers in our first party sales), merchants and individuals to list merchandise and conduct sales and purchases digitally. The Marketplace has an ample assortment of products, with a wide range of categories such as consumer electronics, apparel and beauty, home goods, automotive accessories, toys, books and entertainment and consumer packaged goods.

To complement the Mercado Libre Marketplace and enhance the user experience for our buyers and sellers, we developed Mercado Pago, an integrated digital payments solution. Mercado Pago was initially designed to facilitate transactions on Mercado Libre's Marketplaces by providing a mechanism that allowed our users to securely, easily and promptly send and receive payments. Now, Mercado Pago is a full ecosystem of financial technology solutions both in the digital and physical world. Our digital payments solution enables any MercadoLibre registered user to securely and easily send and receive digital payments and to pay for purchases made on any of Mercado Libre Libre's Marketplaces. Currently, Mercado Pago processes and settles all transactions on our Marketplaces in Argentina, Brazil, Mexico, Chile, Colombia, Uruguay, Peru and Ecuador.

Beyond facilitating Marketplace transactions, over the years we have expanded our array of Mercado Pago services to third parties outside Mercado Libre's Marketplace. We began first by satisfying the growing demand for online-based payment solutions by providing merchants the necessary digital payment infrastructure for e-commerce to flourish in Latin America. Today, Mercado Pago's digital payments business not only allows merchants to facilitate checkout and payment processes on their websites through a branded or white label solution or software development kits, but it also enables users to transfer money in a simple manner to each other through the Mercado Pago website or on the Mercado Pago app. Through Mercado Pago, we brought trust to the merchant customer relationship, allowing online consumers to shop easily and safely, while giving them the confidence to share sensitive personal and financial data with us. Finally, we have also deepened our Fintech fintech offerings by growing our online-to-offline ("O2O") products and services.

The Mercado Envios logistics solution enables sellers on our platform to utilize third-party carriers and other logistics service providers, while also providing them with fulfillment and warehousing services. The logistics services we offer are an integral part of our value proposition, as they reduce friction between buyers and sellers, and allow us to have greater control over the full experience. Sellers that opt into our logistics solutions are not only able to offer a uniform and seamlessly integrated shipping experience to their buyers at competitive prices, but are also eligible to access shipping subsidies to offer free or discounted shipping for many of their sales on our Marketplaces. In 2020, we launched Meli Air with a fleet of dedicated aircraft covering routes across Brazil and Mexico, with the aim of improving our delivery times. We have also developed a network of independent neighborhood stores and commercial points (known as "Meli Places") to receive and store packages that are in transit using our integrated technology. Meli Places network allows buyers and sellers to pick-up, drop-off, or return packages with a better experience, reducing the travel distance for all parties. As of September 30, 2023 March 31, 2024, we offer our shipping solution directed towards deliveries in Argentina, Brazil, Mexico, Chile, Colombia, Uruguay, Peru and Ecuador and we also offer free shipping to buyers in Argentina, Brazil, Mexico, Chile, Colombia, Uruguay and Peru.

Mercado Credito, our credit solution available in Argentina, Brazil, Mexico and Chile, leverages our user base, which is loyal and engaged, and in part has also been historically underserved or overlooked by financial institutions and suffers from a lack of access to needed credit. Facilitating credit is a key service overlay that enables us to further strengthen the engagement and lock-in rate of our users, while also generating additional touchpoints and incentives to use Mercado Pago as an end-to-end financial solution.

Our asset management product, which is available in Argentina, Brazil, Mexico and Mexico, Chile, is a critical pillar to build our alternative two-sided network vision. It incentivizes our users to begin to fund their digital wallets with cash as opposed to credit or debit cards given that the return our product offers is greater than traditional checking accounts.

As an extension of our asset management and savings solutions for users, we launched a digital assets feature as part of the Mercado Pago wallet in Brazil, Mexico and Chile, in 2021, in Mexico in 2022 and in Chile in 2023. 2023, respectively. This service allows our millions of users to purchase, hold and sell selected digital assets through our interface without leaving the Mercado Pago application, while a partner acts as the custodian and exchange and offers the blockchain infrastructure platform. This feature is available for all users through their Mercado Pago wallet.

Our advertising platform, Mercado Ads, enables businesses to promote their products and services on the Internet. Mercado Libre Marketplace and Mercado Pago Fintech platform. Through our advertising platform, MercadoLibre's brands and sellers are able to display ads on our webpages through product searches, banner ads, or suggested products. Our advertising platform enables merchants and brands to access the millions of consumers that are on our Marketplaces at any given time with the intent to purchase, which increases the likelihood of conversion. Advertisers are able to leverage our first-party data to create and target highly particularized audiences.

Through Mercado Libre Classifieds, our online classified listing service, our users can also list and purchase motor vehicles, real estate and services in the countries where we operate. Classifieds listings differ from Marketplace listings as they only charge optional placement fees and not final value fees. Our classifieds pages are also a major source of traffic to our platform, benefiting both the Commerce commerce and Fintech fintech businesses.

Complementing the services that we offer, our digital storefront solution, Mercado Shops, allows users to set-up, manage and promote their own digital stores. These stores are hosted by Mercado Libre and offer integration with the rest of our ecosystem, namely our Marketplaces, payment services and logistics services. Users can create a store at no cost, and can access additional functionalities and value added services on commission.

Reporting Segments and Geographic Information

Our segment reporting is based on geography, which is the criterion our Management currently uses to evaluate our segment performance. Our geographic segments are Brazil, Argentina, Mexico and Other Countries (including Chile, Colombia, Costa Rica, Ecuador, Peru and Uruguay). Although we discuss long-term trends in our business, it is our policy not to provide earnings guidance in the traditional sense. We believe that uncertain conditions make the forecasting of near-term results difficult. Further, we seek to make decisions focused primarily on the long-term welfare of our Company and believe focusing on short-term earnings does not best serve the interests of our stockholders. We believe that execution of key strategic initiatives as well as our expectations for long-term growth in our markets will best create stockholder value. A long-term focus may make it more difficult for industry analysts and the market to evaluate the value of our Company, which could reduce the value of our common stock or permit competitors with short-term tactics to grow more rapidly than us. We, therefore, encourage potential investors to consider this strategy before making an investment in our common stock.

The following table sets forth the percentage of our consolidated net revenues by segment for the nine and three-month periods ended September 30, 2023 March 31, 2024 and 2022: 2023:

Net revenues and financial income

We disaggregate revenues into four geographical reporting segments. Within each of our segments, the services we provide and the products we sell generally fall into two distinct revenue streams: “Commerce” and “Fintech”.

Revenues from Commerce transactions are mainly generated from:

- marketplace fees that include final value fees and flat fees for transactions below a certain merchandise value. fees. Final value fees represent a percentage of the sale value that is charged to the seller once an item is successfully sold and flat fees represent a fixed charge for certain transactions below a certain merchandise value;
- first party sales, which are generated when control of the good is transferred, upon delivery to our customers;
- shipping fees, which are generated when a buyer elects to receive an item through our shipping service, net of the third-party carrier costs (when we act as an agent); . When the Company acts as principal, revenues derived from shipping services are recognized upon delivery of the good to the customer, and presented on a gross basis. In addition, the Company generates storage fees, which are charged to the seller for the utilization of the Company’s fulfillment facilities;
- ad sales fees due to advertising services provided to sellers, vendors, brands and others, through performance product products (product ads and brand ads) and display advertising, formats, which are recognized based on the number of clicks or impressions; and impressions, respectively;
- classifieds fees due to offerings in vehicles, real estate and services, which are charged to sellers who opt to give their listings greater exposure throughout our websites; and
- fees from other ancillary businesses.

Fintech revenues and financial income correspond to our Mercado Pago service, which are attributable to:

- commissions representing a percentage of the payment volume processed that are charged to sellers in connection with off Marketplace-platform transactions;
- commissions from additional fees we charge when a buyer elects to pay in installments through our Mercado Pago platform, for transactions that occur either on or off our Marketplace platform;
- commissions from additional fees we charge when our sellers elect to withdraw cash;
- interest, cash advances and fees from merchant and consumer loans granted under our Mercado Credito solution;
- revenues from our asset management product;
- interest earned on investments as part of Mercado Pago activities, including those required due to fintech regulations, net of interest gains passed through to our Brazilian users in connection with our asset management product;
- commissions that we charge from transactions carried out with Mercado Pago credit and debit cards; and
- revenues from the sale of mobile points of sale products products;
- revenues from insurtech fees; and insurtech fees.
- commissions from additional fees we charge when our sellers elect to withdraw cash.

Although we also process payments on the Marketplace, we do not charge sellers an added commission for this service, as it is already included in the Marketplace final value fee that we charge.

We have a highly fragmented customer revenue base given the large numbers of sellers and buyers who use our platforms. For the nine and three-month periods ended September 30, 2023 March 31, 2024 and 2022, 2023, no single customer accounted for more than 5.0% of our net revenues. revenues and financial income.

Our Mercado Libre Marketplace is available in 18 countries (Argentina, Brazil, Chile, Colombia, Costa Rica, Dominican Republic, Ecuador, Peru, Mexico, Panama, Honduras, Nicaragua, El Salvador, Uruguay, Bolivia, Guatemala, Venezuela (deconsolidated since December 1, 2017) and Paraguay), and Mercado Pago is available in 8 countries (Argentina, Brazil, Mexico, Colombia, Chile, Peru, Uruguay and Ecuador). Additionally, Mercado Envios is available in 8 countries (Argentina, Brazil, Mexico, Colombia, Chile, Peru, Uruguay and Ecuador). The functional currency for each country's operations is the country's local currency, except for Argentina, where the functional currency is the U.S. dollar due to Argentina's status as a highly inflationary economy. Our net revenues are generated in multiple foreign currencies and then translated into U.S. dollars at the average monthly exchange rate. Please refer to "Summary Note 2 – Summary of significant accounting policies" in Note 2 policies to our unaudited interim condensed consolidated financial statements for further detail on foreign currency translation.

Our net revenues and financial income grew during the nine and three-month periods period ended September 30, 2023 March 31, 2024 as compared to the same periods period in 2022, 2023, boosted by the growth of our gross merchandise volume, credits business originations and total payment volume. an increase in the share of shipping services where we act as principal, as opposed to agent. This growth was partially offset by Argentine currency depreciation.

The continued execution of our long-term strategies in Commerce and Fintech businesses has enabled us to deliver growth in gross merchandise volume, total payment volume and net revenues, alongside record quarterly operating results and strong cash generation.

For the nine-month three-month period ended September 30, 2023 March 31, 2024 as compared to the same period in 2022, 2023, the increase in cost of net revenues and financial expenses was primarily attributable to a: i) $402 million $487 million increase in shipping operating and carrier costs; ii) $197 million costs mainly due to an increase in sales taxes; iii) $181 million the share of shipping services where we act as principal, as opposed to agent; ii) $73 million increase in collection fees, which was mainly attributable to our Brazilian and Mexican operations as a result of the higher transactions volume of Mercado Pago in those countries; iii) $65 million increase in cost of sales of goods mainly in Brazil and Mexico, partially offset by a decrease in Argentina; iv) $158 million $59 million increase in sales taxes; v) $31 million increase in hosting and site operation fees; and vi) $20 million increase in other Fintech fintech costs mainly related to higher funding costs in connection with our credits business; v) $119 million business. This increase was partially offset by a $22 million decrease in cost of sales of goods mainly in Brazil and Mexico; and vi) $72 million increase in hosting and site operation fees.

For the three-month period ended September 30, 2023 as compared to the same period in 2022, the increase in cost of net revenues was primarily attributable to a: i) $164 million increase in shipping operating and carrier costs; ii) $70 million increase in collection fees, which was financial expenses mainly attributable to our Brazilian, Mexican lower levels of indebtedness and Argentinian operations as a result of the higher transactions volume of Mercado Pago lower rates in those countries; iii) $69 million increase 2024 (mainly in sales taxes; iv) $52 million increase in other Fintech costs mainly related to higher funding costs in connection with our credits business; v) $37 million increase in cost of sales of goods mainly in Brazil; and vi) $27 million increase in hosting and site operation fees. Brazil).

Our subsidiaries in Brazil, Argentina and Colombia are subject to certain taxes on revenues and financial income, which are classified as a cost of net revenues. revenues and financial expenses. These taxes represented 7.5% and 7.2% 7.1% of net revenues and financial income for the nine three-month period ended March 31, 2024, and three-month periods ended September 30, 2023, respectively, and 7.5% and 7.5% 7.8% for the same periods period in 2022. 2023.

Gross profit margins

Our gross profit margin is defined as total net revenues and financial income minus total cost of net revenues and financial expenses, as a percentage of net revenues. revenues and financial income.

Our main cost of net revenues is composed of shipping operation costs (including warehousing costs), carrier and other operating costs, collection fees, sales taxes, funding costs related to our credits business, cost of goods sold, fraud prevention fees, certain taxes on bank transactions, hosting and site operation fees, compensation for customer support personnel and depreciation and amortization. This cost structure is directly affected by the level of operations of our services, and our strategic plan on gross profit is built on factors such as an ample liquidity to fund expenses and investments and a cost-effective capital structure.

For the nine and three-month periods ended September 30, March 31, 2024 and 2023, and 2022, our gross profit margins were 51.4% 46.7%, and 53.1%, and 49.2% and 50.1% 50.7%, respectively. The increase decrease in our gross profit margins margin resulted primarily from the decrease increase in our cost of goods sold shipping operating and collection fees, carrier costs, as a percentage of net revenues and financial income, partially offset by an increase a decrease of our funding other fintech costs, related to our credits business, collection fees, cost of sales of goods and sales tax, as a percentage of net revenues. revenues and financial income.

In the future, our gross profit margin could decline if we continue growing our sales of goods business, which has a lower pure product margin, building up our logistics network and if we fail to maintain an appropriate relationship between our cost of revenue structure and our net revenues and financial income trend.

Product and technology development expenses

Our product and technology development related expenses consist primarily of compensation for our engineering and web-development staff (including long term retention program compensation), depreciation and amortization expenses related to product and technology development, certain tax withholding related to export duties, telecommunications costs and payments to third-party suppliers who provide technology maintenance services to us. The following table presents product and technology development expenses for the periods indicated:

For the three-month period ended September 30, 2023, the increase in product and technology development expenses as compared to the same period in 2022 was primarily attributable to a: i) $85 million increase in salaries and wages mainly related to the increase of 32% in our product and technology development headcount and increases in amounts accrued under the LTRPs as a consequence of the increase in our common stock price; ii) $17 million increase in other product and technology development expenses mainly related to certain tax withholding in connection with intercompany export services billing duties; and iii) $13 million $12 million increase in depreciation and amortization expenses mainly related to capitalized information and technology assets.

We believe that product and technology development is one of our key competitive advantages and we intend to continue to invest in hiring engineers to meet the increasingly sophisticated product expectations of our customer base.

Sales and marketing expenses

Our sales and marketing expenses consist primarily of costs related to marketing our platforms through online and offline advertising and agreements with portals, search engines and other sales expenses related to strategic marketing initiatives, charges related to our buyer protection program, the salaries of employees involved in these activities (including long term retention program compensation), chargebacks related to our Mercado Pago operations, branding initiatives, marketing activities for our users and depreciation and amortization expenses.

We carry out the majority a relevant part of our marketing efforts on the Internet. We enter into agreements with portals, search engines, social networks, ad networks and other sites in order to attract Internet users to the Mercado Libre Marketplace and convert them into registered users and active traders on our platform.

We also work intensively on attracting, developing and growing our seller community through our customer support efforts. We have dedicated professionals in most of our operations that work with sellers through trade show participation, seminars and meetings to provide them with important tools and skills to become effective sellers on our platform.

The following table presents sales and marketing expenses for the periods indicated:

For the nine-month three-month period ended September 30, 2023 March 31, 2024, the increase in general and administrative expenses as compared to the same period in 2022 2023 was primarily attributable to a $84 million a: i) $16 million increase in salaries and wages, mainly related to the increase of 12% in general and administrative headcount and increases in amounts accrued under the LTRPs as a consequence of the increase in our common stock price. This increase was partially offset by a $9 million decrease in temporary services primarily related to administrative workers.

For the three-month period ended September 30, 2023, the increase in general and administrative expenses as compared to the same period in 2022 was primarily attributable to a: i) $31 million increase in salaries and wages, mainly related to the increase of 17% 9% in general and administrative headcount and increases in amounts accrued under the LTRPs as a consequence of the increase in our common stock price; and ii) $10 million $3 million increase in tax legal and other fees. This increase was partially offset by $16 million gain related to the fair value of digital assets.

Operating income margins

Our operating income margin is defined as income from operations as a percentage of net revenues. revenues and financial income.

Our operating income margin is affected by our operating expenses structure, which mainly consists of our employees' salaries, our sales and marketing expenses related to those activities we incurred to promote our services, provision for doubtful accounts mainly related to our loans receivable portfolio and product and technology development expenses, among other operating expenses. As we continue to grow and focus on expanding our leadership in the region, we will continue to invest in product and technology development, sales and marketing and human resources in order to promote our services and capture long-term business opportunities. As a result, we may experience decreases in our operating income margins.

For the nine and three-month periods period ended September 30, 2023 March 31, 2024, as compared to the same periods period in 2022, 2023, our operating income margins increased margin decreased from 9.1% and 11.0% 13.1% to 15.5% and 18.2%, respectively. 12.2%. This increase decrease was mainly explained by an increase in cost of net revenues and financial expenses as a decrease percentage of net revenues and financial income, mainly due to an increase in the share of shipping services where we act as principal, as opposed to agent and provision for of doubtful accounts, as a percentage of net revenues and our improvement in cost of net revenues margins. financial income. This increase decrease was partially offset by higher lower salaries and wages, due to headcount increases as a percentage of net revenues and increases in amounts accrued under the LTRPs as result of the increase in our common stock price. The nine and three-month periods ended September 30, 2023's financial results reflect our ongoing commitment to deliver sustainable and profitable growth. income.

Other expense, income (expenses), net

Other income (expenses), net consists primarily of interest income derived from our investments and cash equivalents, interest expense and other financial charges related to financial liabilities not related to Mercado Pago's operations, and foreign currency gains or losses. The following table presents other income (expense) (expenses), net for the periods indicated:

For the nine-month three-month period ended September 30, 2023 March 31, 2024, the increase decrease in other expense, net as compared to the same period in 2022 2023 was primarily attributable to: i) to foreign exchange losses that were $374 million higher $53 million lower than foreign exchange losses for the same period in 2022, 2023, mainly due to higher acquisition because in 2024 there were no acquisitions of our own common stock in the Argentine market at a price that reflects the an additional cost of accessing U.S. dollars through an indirect mechanism due to restrictions imposed by the Argentine government for buying U.S. dollars at the official exchange rate (refer to Note 16 17 – Share repurchase program of our unaudited interim condensed consolidated financial statements for further detail), and due to lower foreign exchange losses from our Argentine subsidiaries. This was partially offset by higher foreign exchange losses from our Argentine Brazilian subsidiaries partially offset by higher and lower foreign exchange gains from our Mexican subsidiaries and lower foreign exchange losses from our Brazilian subsidiaries; and ii) a $76 million increase in interest expense and other financial losses mainly attributable to higher levels of indebtedness in 2023 (mainly in Brazil, Mexico and Chile). This increase was partially offset by an increase of $403 million in interest income and other financial gains from financial investments as a result of higher cash levels invested due to higher interest rates (mainly in Argentina, Brazil and Mexico). subsidiaries.

For the three-month period ended September 30, 2023, the increase in other expense, net as compared to the same period in 2022 was primarily attributable to: i) foreign exchange losses that were $168 million higher than foreign exchange losses for the same period in 2022, mainly due to higher acquisition of our own common stock in the Argentine market at a price that reflects the additional cost of accessing U.S. dollars through an indirect mechanism due to restrictions imposed by the Argentine government for buying U.S. dollars at the official exchange rate (refer to Note 16 of our unaudited interim condensed consolidated financial statements for further detail) and higher foreign exchange losses from our Argentine subsidiaries; and ii) a $19 million increase in interest expense and other financial losses mainly attributable to higher levels of indebtedness in 2023 (mainly in Brazil). This increase was partially offset by an increase of $131 million in interest income and other financial gains from financial investments as a result of higher cash levels invested due to higher interest rates (mainly in Argentina, Brazil and Mexico).

Income tax

We are subject to federal and state income tax in the United States, as well as foreign taxes in the multiple jurisdictions where we operate. Our tax obligations consist of current and deferred income taxes incurred in these jurisdictions. We account for income taxes following the liability method of accounting. A valuation allowance is recorded when, based on the available evidence, it is more likely than not that all or a portion of our deferred tax assets will not be realized. Therefore, our income tax expense consists of taxes currently payable, if any (given that in certain jurisdictions we still have net operating loss carry-forwards), plus the change in our deferred tax assets and liabilities during each period.

The following table summarizes the composition of our income taxes for the nine and three-month periods ended September 30, 2023 March 31, 2024 and 2022: 2023:

	2024	2023
Effective tax rate (1)	28.5%	38.1%

(*) (1) Percentages have been calculated using whole-dollar amounts rather than the rounded amounts that appear in the table.

Our estimated effective tax rate for the nine-month three-month period ended September 30, 2023 increased March 31, 2024 decreased as compared to the same period in 2022, 2023, mainly as a result of (i) no foreign exchange losses recognition during the period related to the acquisition of our own common stock in the Argentine market, which was considered as a non-deductible expense, ii) lower taxable foreign exchange gains accounted for in Argentina for local tax purposes that are not recorded for accounting purposes since, under U.S. GAAP, the Argentine operations' functional currency is the U.S. dollar due to the highly inflationary status of the country (ii) a higher proportion of pre-tax results arising from entities under general income tax treatment regime over the Brazilian segment as compared to the same period in 2022 and (iii) higher non-deductible foreign exchange losses deductions related to the acquisition of our own common stock tax inflation adjustments in the Argentine market. This increase was partially offset by the reversal of the valuation allowances in one of our Mexican subsidiaries during the third quarter of 2023. Please see Note 2 of our unaudited condensed consolidated financial statements for further information regarding these valuation allowance reversal.

Our estimated effective tax rate for the three-month period ended September 30, 2023 decreased as compared to the same period in 2022, mainly as a result of the reversal of the valuation allowances in one of our Mexican subsidiaries during the third quarter of 2023. Please see Note 2 of our unaudited condensed consolidated financial statements for further information regarding this valuation allowances reversal. This decrease was partially offset by taxable foreign exchange gains accounted for local tax purposes, which are not recorded for accounting purposes given that under U.S. GAAP and due to Argentina's highly inflationary status, Argentina's operations' functional currency is the U.S. dollar. Argentina.

The following table summarizes our estimated effective tax rates for the nine and three-month periods ended September 30, 2023 March 31, 2024 and 2022: 2023:

	Nine Months Ended September 30, 2023	Nine Months Ended September 30, 2022	Three Months Ended September 30, 2023	Three Months Ended September 30, 2022	Three Months Ended March 31, 2024	Three Months Ended March 31, 2023

We pay interest on the Notes on January 14 and July 14 of each year, beginning on July 14, 2021. The 2026 Sustainability Notes will mature on January 14, 2026, and the 2031 Notes will mature on January 14, 2031.

The Notes rank equally in right of payment with all of the Company's other existing and future senior unsecured debt obligations. Each Subsidiary Guarantee will rank equally in right of payment with all of the Subsidiary Guarantor's other existing and future senior unsecured debt obligations, except for statutory priorities under applicable local law.

Each Subsidiary Guarantee will be limited to the maximum amount that would not render the Subsidiary Guarantor's obligations subject to avoidance under applicable fraudulent conveyance provisions of applicable law. By virtue of this limitation, a Subsidiary Guarantor's obligation under its Subsidiary Guarantee could be significantly less than amounts payable with respect to the Notes, or a Subsidiary Guarantor may have effectively no obligation under its Subsidiary Guarantee.

Net revenues and financial income

Direct costs

Under the indenture governing the Notes, the Subsidiary Guarantee of a Subsidiary Guarantor will terminate upon: (i) the sale, exchange, disposition or other transfer (including by way of consolidation or merger) of the Subsidiary Guarantor or the sale or disposition of all or substantially all the assets of the Subsidiary Guarantor (other than to the Company or a Subsidiary) otherwise permitted by the indenture, (ii) satisfaction of the requirements for legal or covenant defeasance or discharge of the Notes, (iii) the release or discharge of the guarantee by such Subsidiary Guarantor of the Triggering Indebtedness (as defined in the applicable indenture) or the repayment of the Triggering Indebtedness, in each case, that resulted in the obligation of such Subsidiary to become a Subsidiary Guarantor, provided that in no event shall the Subsidiary Guarantee of an Initial Subsidiary Guarantor terminate pursuant to this provision, or (iv) such Subsidiary Guarantor becoming an Excluded Subsidiary (as defined in the applicable indenture) or ceasing to be a Subsidiary.

Brazil

For the nine-month three-month period ended September 30, 2023 March 31, 2024, as compared to the same period in 2022, 2023, direct costs increased mainly driven by: by a: i) a $610 million $537 million increase in cost of net revenues and financial expenses, mainly attributable to an increase in shipping operating and carrier costs mainly due to an increase in the share of shipping services where we act as principal, as opposed to agent, sales taxes, tax, cost of goods sold as a consequence of an increase in first-party sales, collection fees as a consequence of the higher transactions volume of our Mercado Pago business and hosting expenses; hosting and site operation fees; ii) a $109 million $84 million increase in sales and marketing expenses mainly due to an increase in online and offline marketing expenses, buyer protection program expenses and salaries and wages (related to headcount increase and increases in amounts accrued under the LTRPs as a consequence of the increase in our common stock price). This was partially offset by a decrease of $182 million in provision for doubtful accounts mainly related to our initiatives to rebalance portfolio exposure towards lower risk customers, which allowed us to improve our non-performing loans ratio.

We may, at our option, redeem the 2026 Sustainability Notes, in whole or in part, at any time prior to December 14, 2025 (the date that is one month prior to the maturity of the 2026 Sustainability Notes) and the 2031 Notes, in whole or in part, at any time prior to October 14, 2030 (the date that is three months prior to the maturity of the 2031 Notes), in each case by paying 100% of the principal amount of such Notes so redeemed plus the applicable "make-whole" amount and accrued and unpaid interest and additional amounts, if any. We may, at our option, redeem the 2026 Sustainability Notes, in whole or in part, on December 14, 2025 or at any time thereafter and the 2031 Notes on October 14, 2030 or at any time thereafter, in each case at the redemption price of 100% of the principal amount of such Notes so redeemed plus accrued and unpaid interest and additional amounts, if any. If we experience certain change of control triggering events, we may be required to offer to purchase the notes at 101% of their principal amount plus any accrued and unpaid interest thereon through the purchase date.

In May During 2023, we repurchased a $2 million $9 million and $44 million $70 million principal amount of the outstanding 2026 Sustainability Notes and 2031 Notes, respectively. Finally, on March 31, 2022, we entered into a $400 million revolving credit arrangement ("the Credit Arrangement"). The interest rates under the Credit Arrangement are based on Adjusted Term SOFR plus an interest margin of 1.25% per annum. Any loans drawn under the Credit Arrangement must be repaid on or prior to March 31, 2025. We are also obligated to pay a commitment fee on the unused amounts of the facility at an annual rate of 0.3125%. As of September 30, 2023 March 31, 2024, no amounts had been borrowed under the facility. See Note 12 13 – Loans payable and other financial liabilities of our unaudited interim condensed consolidated financial statements for further detail.

Our capital expenditures (comprised of our investments for in property and equipment (such as certain assets used in our fulfillment centers), and intangible assets (excluding digital assets)) for the nine-month three-month periods ended September 30, 2023 March 31, 2024 and 2022 2023 amounted to $329 million $148 million and $343 million $89 million, respectively.

As of September 30, 2023 March 31, 2024, our main source of liquidity was $3,722 million $3,752 million of cash and cash equivalents and short-term investments, which excludes $1,769 million $2,498 million investment mainly related to the Central Bank of Brazil Mandatory Guarantee, and consists mainly of cash generated from operations and proceeds from loans.

During the nine-month three-month period ended September 30, 2023, March 31, 2024, we invested $159 million $78 million in information and technology assets in Brazil, Argentina and Mexico, and $153 million $52 million in our Argentine, Brazilian and Mexican shipping premises and offices.

As of September 30, 2023 March 31, 2024, cash and cash equivalents, restricted cash and cash equivalents and investments of our non-U.S. subsidiaries amounted to $5,719 million $6,756 million, or 85.0% 87.3% of our consolidated cash and cash equivalents, restricted cash and cash equivalents and investments, and our cash and cash equivalent, equivalents, restricted cash and cash equivalent equivalents and investments held outside U.S. amounted to 77.5% 79.9% of our consolidated cash and cash equivalents, restricted cash and cash equivalents and investments. Our non-U.S. dollar-denominated cash and investments are located primarily in Brazil, Mexico and Argentina.

We are continually increasing our level of investment in hardware and software licenses necessary to improve and update our platform's technology and computer software developed internally. We anticipate continued investments in capital expenditures related to information technology and logistics network capacity in the future as we strive to maintain our position in the Latin American e-commerce and fintech market.

We believe that our existing cash and cash equivalents, including the sale of credit card receivables, short-term investments and cash generated from operations, will be sufficient to fund our operating activities, property and equipment expenditures and to pay or repay obligations in the foreseeable future.

(1) (2) New As of January 1, 2024, we have replaced "Unique Active Users" with "Fintech monthly active users" and "Unique active buyers" as our main indicators of our Fintech and Commerce revenue lines. Management believes that the significant growth of our Fintech business merits a standalone metric to more precisely measure its footprint and user base growth and to make the best strategic decisions for the development of the Fintech business. Fintech monthly active users is defined as Fintech payers and/or existing user who collectors as of March 31, 2024, that, during the last month of the reporting period, performed at least one of the following actions during such month: 1) made a debit or credit card payment, 2) made a QR code payment, 3) made an off-platform online payment using our checkout or link of payment solutions while logged in to our Mercado Pago fintech platform, 4) made an investment or employed any of our savings solutions, 5) purchased an insurance policy, 6) took out a loan through our Mercado Credito solution, or 7) received the reported period: (1) made payment from a sale or transaction either on or off marketplace.

(3) As described above, as of January 1, 2024, unique active buyers is the main performance indicator of our Commerce revenue line. Management believes that monitoring the Commerce business growth through a standalone metric enables us to better understand user behavior over each period and make strategic decisions to improve the Commerce business. Unique active buyers is defined as users that have performed at least one purchase or reservation, or asked one question on the Mercado Libre Marketplace or Classified Marketplace (2) maintained an active listing on Mercado Libre Marketplace or Classified Marketplace (3) maintained an active account in Mercado Shops (4) made a payment, money transfer, collection and/or advance using Mercado Pago (5) maintained an outstanding credit line through Mercado Credito or (6) maintained a balance of more than $5 invested in a Mercado Fondo asset management account. Management uses this metric to evaluate during the size of our community of users who interact with the ecosystem and of which we have the opportunity to generate further engagement. With the changes in our businesses we believe it provides a better indication of our active user base rather than our discontinued registration metric that did not reflect any sort of interaction. reported period.

(2) (4) Total U.S. dollar sum of all transactions completed through the Mercado Libre Marketplace, excluding Classifieds transactions.

(3) (5) Number of items that were sold/purchased through the Mercado Libre Marketplace, excluding Classifieds items.

(4) (6) Number of items that were shipped through our shipping service.

(5) (7) Total U.S. dollar sum of all transactions paid for using Mercado Pago, including marketplace and non-marketplace transactions, excluding peer-to-peer transactions. As of January 1, 2024, we no longer include peer-to-peer transactions in our TPV in accordance with the metrics and underlying criteria used by our Mercado Pago team, which Management then employs to make strategic decisions. Consequently, total payment volume for the three-month period ended March 31, 2023, has been recast to exclude peer-to-peer transactions.

(6) (8) As of January 1, 2024, we have replaced "Total volume of payment on marketplace" with "Acquiring total payment volume." Total volume of payment on marketplace was limited to the total U.S. dollar sum of all marketplace transactions paid for using Mercado Pago. Management uses this Pago, and thus was a relevant and representative metric to evaluate when the performance off-platform payment processor business was managed as a payment processor with a wallet. In light of our payments services and development of our integrated ecosystem. As from January 1, 2022, we no longer disclose our total volume of payments on marketplace net of shipping and financing fees. Given the significant growth of our shipping Fintech businesses and Fintech businesses, our payment processing and settling services, Management believes that including shipping and financing fees in the calculation of total volume of payments on marketplace Acquiring TPV, which also takes into account non-marketplace transactions paid for using Mercado Pago, results in a more accurate indicator representative measure of that performance on a go-forward basis. Consequently, our physical and online payment processing solutions in any given period. Acquiring TPV is defined as total U.S. dollar sum of all transactions settled using our Mercado Pago and Mercado Pago's payment processing and settling services in marketplace and non-marketplace transactions and consist of the following transactions volume: 1) point of sale payment volume, of 2) commerce payment on marketplace volume through our Mercado Libre Marketplace, 3) online payment volume through our checkout or link payment solution for the nine merchants, and three-month periods ended September 30, 2022 has been recast to include shipping and financing fees. 4) QR code payment volume.

(7) (9) Number of all transactions paid for using Mercado Pago. Pago, excluding peer-to-peer transactions. As of January 1, 2024 we no longer include peer-to-peer transactions in our total payment transactions in accordance with the metric and understanding criteria used by our Mercado Pago team, which Management then employs to make strategic decisions. Consequently, total payment volume for the three-month period ended March 31, 2023, has been recast to exclude peer-to-per transactions.

(8) (10)Net interest margins after losses ("NIMAL") represents the annualized ratio between the total credits revenues less funding costs and provision for doubtful accounts for the period and total average gross loans receivable for the period. Management uses NIMAL to monitor how effectively the Company our pricing is pricing and managing the credit products relative to their risk and setting targets. Accordingly, Management is of the opinion that NIMAL provides useful information to investors and others related to the Company's our risk appetite through the different periods and shows how the Company we effectively prices risk.

Non-GAAP Measures of Financial Performance

To supplement our unaudited interim condensed consolidated financial statements presented in accordance with U.S. GAAP, we present earnings before interest income and other financial gains, interest expense and other financial losses, foreign currency losses, net, income tax expense, depreciation and amortization and equity in earnings of unconsolidated entity ("Adjusted EBITDA"), net debt and foreign exchange ("FX") neutral measures as non-GAAP measures. Reconciliation of these non-GAAP financial measures to the most comparable U.S. GAAP financial measures can be found in the tables below.

These non-GAAP measures should not be considered in isolation or as a substitute for measures of performance prepared in accordance with U.S. GAAP and may be different from non-GAAP measures used by other companies. In addition, these non-GAAP measures are not based on any comprehensive set of accounting rules or principles. Non-GAAP measures have limitations in that they do not reflect all of the amounts associated with our results of operations as determined in accordance with U.S. GAAP. These non-GAAP financial measures should only be used to evaluate our results of operations in conjunction with the most comparable U.S. GAAP financial measures.

We believe that reconciliation of these non-GAAP measures to the most directly comparable GAAP measure provides investors an overall understanding of our current financial performance and its prospects for the future.

Adjusted EBITDA

Adjusted EBITDA is a non-GAAP financial measure that represents our net income, adjusted to eliminate the effect of depreciation and amortization charges, interest income and other financial gains, interest expense and other financial losses, foreign currency losses, net, income tax expense and equity in earnings of an unconsolidated entity. We have included this non-GAAP financial measure because it is used by our Management to evaluate our operating performance and trends, make strategic decisions and the calculation of leverage ratios. Accordingly, we believe this measure provides useful information to investors and others in understanding and evaluating our operating results in the same manner as our Management. In addition, it provides a useful measure for period-to-period comparisons of our business, as it removes the effect of certain items.

The following table presents a reconciliation of net income to Adjusted EBITDA for the period indicated (in millions of U.S. dollars): indicated:

Net debt

We define net debt as total debt which includes current and non-current loans payable and other financial liabilities and current and non-current operating lease liabilities, less cash and cash equivalents, short-term investments and long-term investments, excluding time deposits and foreign government debt securities restricted and held in guarantee, securitization transactions and equity securities held at cost. We have included this non-GAAP financial measure because it is used by our Management to analyze our current leverage ratios and set targets to be met, which will also impact other components of the Company's balance sheet, cash flows and income statement. Accordingly, we believe this measure provides useful information to investors and other market participants in showing the evolution of the Company's indebtedness and its capability of repayment as a means to, alongside other measures, monitor our leverage based on widely-used measures.

The following table presents a reconciliation of net debt for each of the periods indicated (in millions of U.S. dollars): indicated:

FX neutral

We believe that FX neutral measures provide useful information to both Management and investors by excluding the foreign currency exchange rate impact that may not be indicative of our core operating results and business outlook.

The FX neutral measures were calculated by using the average monthly exchange rates for each month during 2022 2023 and applying them to the corresponding months in 2023, 2024, so as to calculate what our results would have been had exchange rates remained stable from one year to the next. The table below excludes intercompany allocation FX effects. Finally, these measures do not include any other macroeconomic effect such as local currency inflation effects, the impact on impairment calculations or any price adjustment to compensate local currency inflation or devaluations.

The following table sets forth the FX neutral measures related to our reported results of the operations for the nine three-month period ended March 31, 2024:

Item 3 — Qualitative and Quantitative Disclosure About Market Risk ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks arising from our business operations. These market risks arise mainly from macroeconomic instability and the possibility that changes in interest rates and the U.S. dollar exchange rate with local currencies, particularly the Brazilian Real, Argentine Peso and Mexican Peso due to Brazil's, Argentina's and Mexico's respective share of our revenues, may affect the value of our financial assets and liabilities.

We are also exposed to market risks arising from our long-term retention programs (“LTRPs”). These market risks arise from our obligations to pay employees cash payments in amounts that vary based on the market price of our stock.

Foreign currencies

We have significant operations internationally that are denominated in foreign currencies, primarily the Brazilian Real, Argentine Peso, Mexican Peso, Colombian Peso and Chilean Peso, subjecting us to foreign currency risk, which may adversely impact our financial results. We transact business in various foreign currencies and have significant international revenues and costs. In addition, we charge our international subsidiaries for their use of intellectual property and technology and for certain corporate services. Our cash flows, results of operations and certain of our intercompany balances that are exposed to foreign exchange rate fluctuations may differ materially from expectations and we may record significant gains or losses due to foreign currency fluctuations and related hedging activities.

We use foreign currency exchange forward contracts and currency swaps to protect our foreign currency exposure and our investment in a foreign subsidiary from adverse changes in foreign currency exchange rates. These hedging contracts reduce, but do not entirely eliminate, the impact of adverse foreign currency exchange rate movements. We designate these contracts as cash flow, net investment and fair value hedges for accounting purposes. The derivative’s derivatives’ gain or loss for cash flow and net investment hedges is initially reported as a component of accumulated other comprehensive income (“AOCI”). loss. Cash flow hedges and net investment hedges are subsequently reclassified into the financial statement line item in which the hedged item is recorded in the same period the forecasted transaction affects earnings. The derivative's derivatives’ gain or loss for fair value hedges is reported in earnings our interim condensed consolidated statements of income in the same line items as the change in the value of the hedged item due to the hedged risks.

As of September 30, 2023 March 31, 2024, we hold cash and cash equivalents in local currencies in our subsidiaries, and have receivables denominated in local currencies in all of our operations. Our subsidiaries generate revenues and incur most of their expenses in the respective local currencies of the countries in which they operate. As a result, our subsidiaries use their local currency as their functional currency except for our Argentine subsidiaries, whose functional currency is the U.S. dollar due to the inflationary environment. As of September 30, 2023 March 31, 2024, the total cash and cash equivalents, restricted cash and cash equivalent denominated in foreign currencies totaled $2,808 $3,198 million, short-term investments denominated in foreign currencies totaled $2,196 $2,779 million and accounts receivable, credit card receivables and other means of payment and loans receivable in foreign currencies totaled $5,914 $7,334 million. As of September 30, 2023 March 31, 2024, we had $91 million $77 million long-term investments denominated in foreign currencies. To manage exchange rate risk, our treasury policy is to transfer most cash and cash equivalents in excess of working capital requirements into U.S. dollar-denominated accounts in the United States and to enter into certain foreign exchange derivatives, such as currency forwards contracts, in order to mitigate our exposure to foreign exchange risk. As of September 30, 2023 March 31, 2024, our U.S. dollar-denominated cash and cash equivalents, restricted cash and cash equivalents and short-term investments totaled $1,572 $1,512 million and our U.S. dollar-denominated long-term investments totaled $58 million. $172 million.

For the nine and three-month periods period ended September 30, 2023 March 31, 2024, we had a consolidated loss on foreign currency of $508 million and $239 million, respectively, $34 million mainly related to higher foreign exchange losses attributable to our own common stock acquisition in the Argentine market at a price that reflects the additional cost of accessing U.S. dollars through an indirect mechanism due to restrictions imposed by the Argentine government for buying U.S. dollars at the official exchange rate, higher foreign exchange losses from our Argentinian subsidiaries due to the devaluation of the Argentine peso and foreign exchange losses from our Brazilian subsidiaries, which was partially offset by foreign exchange gains from our Brazilian and Mexican subsidiaries. See “Management’s "Management’s Discussion and Analysis of Financial Condition and Results of Operations—Results of operations—Other income (expenses), net” for more information.

Foreign currency sensitivity analysis

The table below shows the impact on our net revenues, cost of net revenues and financial expenses, operating expenses, other income (expenses) and income tax, net income and equity for a positive and a negative 10% fluctuation on all the foreign currencies to which we are exposed to at the moment of translating our financial statements to U.S. dollars for the nine-month three-month period ended September 30, 2023 March 31, 2024:

The table above shows an increase in our net income when the U.S. dollar weakens against foreign currencies because of the positive impact of the increase in income from operations. On the other hand, the table above shows a decrease in our net income when the U.S. dollar strengthens against foreign currencies because of the negative impact of the decrease in income from operations.

Brazilian segment

Considering a hypothetical devaluation increase of 10% of the Brazilian Real exchange rate against the U.S. dollar on September 30, 2023 March 31, 2024, the reported net assets in our Brazilian subsidiaries would have decreased by approximately $227 million $261 million with the related impact in Other Comprehensive Income. Additionally, we would have recorded a foreign currency loss amounting to approximately $46 million $49 million in our Brazilian subsidiaries.

Argentine segment

In accordance with U.S. GAAP, we have classified our Argentine operations as highly inflationary since July 1, 2018, using the U.S. dollar as the functional currency for purposes of reporting our financial statements. Therefore, no translation effect has been accounted for in other comprehensive income related to our Argentine operations since July 1, 2018. Argentina's inflation rate for the nine-month three-month periods ended September 30, 2023 March 31, 2024 and 2022 2023 was 103.2% 51.6% and 66.1% 21.7%, respectively.

We use Argentina's official exchange rate to account for transactions in our Argentine segment, which as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023 was 349.95 858.00 and 177.16 808.45 Argentine Pesos, respectively, against the U.S. dollar. For the nine-month three-month periods ended September 30, 2023 March 31, 2024 and 2022 2023 Argentina's depreciation of its local currency official exchange rate against the U.S dollar was 97.5% increased 6.1% and 43.4% 18.0%, respectively. The average exchange rate for the three-month periods ended March 31, 2024 and 2023 was 834.46 and 192.41, respectively, resulting in an increase of 334%.

Considering a hypothetical devaluation increase of 10% of the Argentine Peso exchange rate against the U.S. dollar on September 30, 2023 March 31, 2024, the effect on non-functional currency net liability position in our Argentine subsidiaries would have been a foreign exchange gain amounting to approximately $9 million $6 million in our Argentine subsidiaries.

See "Summary Note 2 – Summary of significant accounting policies - Foreign currency translation - Argentine currency status and Argentine exchange regulations" in Note 2 of our unaudited interim condensed consolidated financial statements for further detail on the currency status and the exchange regulations of our Argentine segment.

Mexican segment

Considering a hypothetical devaluation increase of 10% of the Mexican Peso exchange rate against the U.S. dollar on September 30, 2023 March 31, 2024, the reported net assets in our Mexican subsidiaries would have decreased by approximately $90 million $108 million with the related impact in Other Comprehensive Income. Additionally, we would have recorded a foreign currency loss amounting to approximately $17 million $20 million in our Mexican subsidiaries.

Interest

Our earnings and cash flows are also affected by changes in interest rates. These changes could have an impact on the interest rates that financial institutions charge us prior to the time we sell our Mercado Pago receivables and on the financial debt that we use to fund Mercado Pago and Mercado Credito's operations. As of September 30, 2023 March 31, 2024, Mercado Pago's receivables totaled $3,375 $3,962 million. Interest rate fluctuations could also impact interest earned through our Mercado Credito solution. As of September 30, 2023 March 31, 2024, loans receivable net of the allowance for doubtful accounts from our Mercado Credito solution totaled $2,378 $3,205 million. Interest rate fluctuations could also negatively affect certain of our fixed rate and floating rate investments comprised primarily of time deposits, money market funds and sovereign debt securities. Investments in both fixed rate and floating rate interest earning products carry a degree of interest rate risk. Fixed rate securities may have their fair market value adversely impacted due to a rise in interest rates, while floating rate securities may produce less income than predicted if interest rates fall.

As of September 30, 2023 March 31, 2024, our short-term investments amounted to $3,320 $3,671 million and our long-term investments amounted to $149 $249 million. Our short-term investments can be readily converted at any time into cash or into securities with a shorter remaining time to maturity. We determine the appropriate classification of our investments at the time of purchase and re-evaluate such designations as of each balance sheet date. See Notes Note 3 – Fintech Regulations and Note 5 – Cash, cash equivalents, restricted cash and cash equivalents and investments of our unaudited interim condensed consolidated financial statements for further detail on our restricted investments.

Fluctuations of the interest rate could also have a negative impact on interest expense related to our Loans payable and other financial liabilities, as a portion of these instruments is subject to variable interest rates. As of September 30, 2023 March 31, 2024, our loans payable and other financial liabilities which accrue interest based on variable rates amounted to $2,666 $2,794 million, while our loans payable and other financial liabilities, which accrue interest based on fixed rates, amounted to $1,788 $1,676 million. See Notes 12 Note 13 – Loans payable and 13 other financial liabilities and Note 14 – Securitization transactions of our unaudited interim condensed consolidated financial statements for further detail.Considering a hypothetical increase of 100 basic basis points in the interest rates, the reported Loans payable and other financial liabilities as of September 30, 2023 March 31, 2024 would have increased by approximately $13 million $7 million with the related impact in Interest cost of net revenues and financial expenses or in interest expense and other financial losses.We have entered into swap contracts to hedge the interest rate fluctuation of $493 $459 million notional amount, $244 $229 million of which have been designated as hedging instruments. See Note 15 16 – Derivative instruments of our unaudited interim condensed consolidated financial statements for further detail on derivative instruments.

Equity price risk

Our Board, upon the recommendation of the compensation committee, approved the 2018 Long Term Retention Program (the "2018 LTRP").

In order to receive an award under the 2018 LTRP, each eligible employee must satisfy the performance conditions established by the Board for such employee. If these conditions are satisfied, the eligible employee will, subject to his or her continued employment as of each applicable payment date, receive the full amount of his or her 2018 LTRP award, payable as follows:

- the eligible employee will receive a fixed payment, equal to 8.333% of his or her 2018 LTRP bonus once a year for a period of six years starting no later than April 30, 2019 (the "2018 Annual Fixed Payment"); and
- on each date we pay the respective Annual Fixed Payment to an eligible employee, he or she will also receive a payment (the "2018 Variable Payment") equal to the product of (i) 8.333% of the applicable 2018 LTRP award and (ii) the quotient of (a) divided by (b), where (a), the numerator, equals the Applicable Year Stock Price (as defined below) and (b) the denominator, equals the 2017 Stock Price, defined as $270.84, which was the average closing price of our common stock on the NASDAQ Global Select Market during the final 60 trading days of 2017. The "Applicable Year Stock Price" shall equal the average closing price of our common stock on the NASDAQ Global Select Market during the final 60 trading days of the year preceding the applicable payment date.

Our Board, upon the recommendation of the compensation committee, approved the 2019, 2020, 2021, 2022, 2023 and 2023 2024 Long Term Retention Programs (the "2019, 2020, 2021, 2022, 2023 and 2023 2024 LTRPs"), respectively, under which certain eligible employees have the opportunity to receive cash payments annually for a period of six years (with the first payment occurring no later than April 30, 2020, 2021, 2022, 2023 and 2024 for the 2019, 2020, 2021, 2022 and 2023 LTRPs, respectively). years. In order to receive the full target award under the 2019, 2020, 2021, 2022, 2023 and/or 2023 2024 LTRPs, each eligible employee must remain employed as of each applicable payment date. The 2019, 2020, 2021, 2022, 2023 and 2023 2024 LTRP awards are payable as follows:

- the eligible employee will receive 16.66% of half of his or her target 2019, 2020, 2021, 2022, 2023 and/or 2023 2024 LTRP bonus once a year for a period of six years, with the first payment occurring no later than April 30, 2020, 2021, 2022, 2023, 2024 and 2024, 2025, respectively (the "2019, 2020, 2021, 2022, 2023 or 2023 2024 Annual Fixed Payment", respectively); and
- on each date we pay the respective Annual Fixed Payment to an eligible employee, he or she will also receive a payment (the "2019, 2020, 2021, 2022, 2023 or 2023 2024 Variable Payment") equal to the product of (i) 16.66% of half of the target 2019, 2020, 2021, 2022, 2023 or 2023 2024 LTRP award and (ii) the quotient of (a) divided by (b), where (a), the numerator, equals the Applicable Year Stock Price (as defined below) and (b), the denominator, equals the average closing price of our common stock on the NASDAQ Global Select Market during the final 60 trading days of 2018, 2019, 2020, 2021, 2022 and 2022 2023 defined as $322.91, $553.45, $1,431.26, $1,391.81, $888.69 and $888.69 $1,426.11 for the 2019, 2020, 2021, 2022, 2023 and 2023 2024 LTRPs, respectively. The "Applicable Year Stock Price" shall equal the average closing price of our common stock on the NASDAQ Global Select Market during the final 60 trading days of the year preceding the applicable payment date.

As of September 30, 2023 March 31, 2024, the total contractual obligation fair value of our outstanding LTRP Variable Award Payment obligation subject to equity price risk amounted to $442 million $574 million. As of September 30, 2023 March 31, 2024, the accrued liability related to the outstanding Variable Award Payment of the LTRP included in Salaries and social security payable in our consolidated balance sheet amounted to $74 $33 million. The following table shows a sensitivity analysis of the risk associated with our total contractual obligation fair value related to the outstanding LTRP Variable Award Payment subject to equity price risk if our common stock price per share were to increase or decrease by up to 40%:

In November 2021, we acquired Kangú Kangu Participações S.A. Former Kangú's Kangu's shareholders who after the acquisition became the Company's employees will receive cash payments annually over a three-year period subject to certain performance and stay conditions. The payments will be indexed based on changes in equity price of our common stock. As of September 30, 2023 March 31, 2024, the total contractual obligation fair value of the mentioned payments amounted amounted to $8 million $5 million.

Item 4 — Controls and Procedures ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports pursuant to the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our Management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Evaluation of Disclosure Controls and Procedures

Based on the evaluation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) required by Exchange Act Rules 13a-15(b) or 15d-15(b), our Chief Executive Officer and our Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective.

Changes in Internal Controls Control Over Financial Reporting

There During the quarter ended March 31, 2024, we completed a project to implement a new version of our enterprise resource planning (ERP) software, SAP, as part of a plan to integrate and upgrade our technology platforms and enhance our business information and transaction systems and processes with SAP enterprise resource planning software. We believe that we have taken the necessary steps to monitor and maintain appropriate internal control over financial reporting during this period of change. We have also updated our processes related to internal control over financial reporting, as necessary, to accommodate applicable changes in our business processes resulting from the implementation of the new SAP technology to support accounting activities. We will continue to evaluate the operating effectiveness of related key controls during subsequent periods to ensure adequate internal control over financial reporting. See "Risk Factors – Any delay or problem with operating or upgrading our existing information technology infrastructure could cause a disruption in our business and adversely impact our financial results" included in the Company's 2023 10-K.

Other than the changes described above, there were no changes in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act) during the nine-month three-month period ended September 30, 2023 March 31, 2024, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. We permit remote work for most positions of our Company, and we monitor and assess the impact of this remote work environment on our internal controls.
