Financial Statement PresentationNature of Operations. Â Â Evolution Petroleum Corporation (â€œEvolution,â€ and together with its consolidated subsidiaries, the â€œCompanyâ€) is an independent energy company focused on maximizing returns to shareholders through the ownership of and investment in onshore oil and natural gas properties in the United States. The Companyâ€™s long-term goal is to maximize total shareholder return from a diversified portfolio of long-life oil and natural gas properties built through acquisitions and through selective development opportunities, production enhancement, and other exploitation efforts on its oil and natural gas properties.The Companyâ€™s oil and natural gas properties consist of non-operated interests in the following areas: the SCOOP and STACK plays of the Anadarko Basin located in central Oklahoma; the Chaveroo oilfield in Chaves and Roosevelt Counties of New Mexico; the Jonah Field in Sublette County, Wyoming; the Williston Basin in North Dakota; the Barnett Shale located in North Texas; the Hamilton Dome Field located in Hot Springs County, Wyoming, a secondary recovery field utilizing water injection wells to pressurize the reservoir; the Delhi Holt-Bryant Unit in the Delhi Field in Northeast Louisiana, a CO2 enhanced oil recovery project; as well as small overriding royalty interests in four onshore Texas wells.Interim Financial Statements. Â Â The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (â€œGAAPâ€) for interim financial information and the appropriate rules and regulations of the Securities and Exchange Commission (â€œSECâ€). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. All adjustments (consisting of normal recurring accruals) which are, in the opinion of management, necessary for a fair presentation of the financial position and results of operations for the interim periods presented have been included. The interim financial information and notes hereto should be read in conjunction with the Companyâ€™s 2024 Annual Report on Form 10-K for the fiscal year ended June 30, 2024, as filed with the SEC on September 11, 2024. The results of operations for interim periods are not necessarily indicative of results to be expected for a full fiscal year. The Company has evaluated events and transactions through the date of issuance of these unaudited condensed consolidated financial statements.Principles of Consolidation and Reporting. Â Â The unaudited condensed consolidated financial statements include the accounts of Evolution Petroleum Corporation and its wholly-owned subsidiaries. All significant intercompany transactions have been eliminated in consolidation. The unaudited condensed consolidated financial statements for the previousÂ year may be condensed or include certain reclassifications to conform to the current presentation. Risk and Uncertainties. The Companyâ€™s oil and natural gas interests are operated by third-party operators and involve other third-party working interest owners. As a result, the Company has limited ability to influence the operation or future development of such properties. However, the Company is proactive with its third-party operators to review the management of capital expenditures.Oil and Natural Gas Properties. Â Â The Company uses the full-cost method of accounting for its investments in oil and natural gas properties. Under this method of accounting, all costs incurred in the acquisition, exploration and development of oil and natural gas properties, including unproductive wells, are capitalized. This includes any internal costs that are directly related to property acquisition, exploration, and development activities but does not include any costs related to production, general corporate overhead, or similar activities. Oil and natural gas properties include costs that are excluded from depletion and amortization, which represent investments in unproved and unevaluated properties and include non-producing leasehold, geologic and geophysical costs associated with leasehold or drilling interests, and exploration drilling costs. These costs are excluded until the project is evaluated and proved reserves are established or impairment is determined.â€‹Use of Estimates. Â Â The preparation of the Companyâ€™s unaudited condensed consolidated financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities, if any, at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the respective reporting periods. Significant 8 Table of ContentsEVOLUTION PETROLEUM CORPORATIONNOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTSestimates include (a)Â reserve quantities and estimated future cash flows associated with proved reserves, which may significantly impact depletion expense and potential impairments of oil and natural gas properties, (b)Â asset retirement obligations, (c)Â stock-based compensation, (d)Â fair values of derivative contract assets and liabilities, (e)Â income taxes and the valuation of deferred income tax assets, (f)Â commitments and contingencies, and (g)Â accruals of crude oil, natural gas, and NGL revenues and expenses. The Company analyzes estimates and judgments based on historical experience and various other assumptions and information that are believed to be reasonable. Estimates and assumptions about future events and their effects cannot be predicted with certainty and, accordingly, these estimates may change as additional information is obtained, as new events occur, and as the Companyâ€™s environment changes. Actual results may differ from the estimates and assumptions used in the preparation of the Companyâ€™s unaudited condensed consolidated financial statements.Recently Issued Accounting Pronouncements In November 2024, the FASB issued ASU 2024-03, Disaggregation of Income Statement Expenses (â€œASU 2024-03â€). ASU 2024-03 increases the transparency of expense information presented in the statement of operations through disclosures of expanded disaggregation of relevant expense captions including purchases of inventory, employee compensation, depletion, depreciation, and amortization. ASU 2024-03 is effective for annual periods beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027 with early adoption permitted. The Company is currently evaluating ASU 2024-03 and the impact it may have to the Companyâ€™s disclosures.In December 2023, the FASB issued ASU 2023-09, Improvements to Income Tax Disclosures (â€œASU 2023-09â€). ASU 2023-09 enhances the transparency of income tax disclosures by expanding the income tax rate reconciliation disclosure and income taxes paid information. ASU 2023-09 also includes certain other amendments to improve the effectiveness of income tax disclosures. ASU 2023-09 is effective for annual periods beginning after December 15, 2024. The Company is currently evaluating ASU 2023-09 and the impact it may have to the Companyâ€™s financial position, results of operations, cash flow or disclosures.In November 2023 the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures (â€œASU 2023-07â€). ASU 2023-07 expands the segment disclosures, even for entities with only one reportable segment, to include additional information about significant segment expenses and other segment items on an annual and interim basis as well as the title and position of the chief operating decision maker. ASU 2023-07 is effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted and entities must adopt the amendment retrospectively for all prior periods presented in the financial statements. The Company is currently evaluating ASU 2023-07 and the impact it may have to the Companyâ€™s financial position, results of operations, cash flow or disclosures.Other accounting pronouncements that have recently been issued by the FASB or other standards-setting bodies are not expected to have a material impact on the Companyâ€™s financial position, results of operations, cash flows or disclosures.NoteÂ 2. Revenue RecognitionThe Companyâ€™s revenues are primarily generated from its crude oil, natural gas and NGL production from the SCOOP and STACK plays in central Oklahoma, the Chaveroo oilfield in Chaves and Roosevelt Counties of New Mexico, the Jonah Field in Sublette County, Wyoming, the Williston Basin in North Dakota, the Barnett Shale located in North Texas, the Hamilton Dome Field in Wyoming, and the Delhi Field in Northeast Louisiana. Additionally, an overriding royalty interest retained in a past divestiture of Texas properties provides de minimis revenue.Â The following table 9 Table of ContentsEVOLUTION PETROLEUM CORPORATIONNOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTSdisaggregates the Companyâ€™s revenues by major product for the three and six months ended DecemberÂ 31, 2024 and 2023 (in thousands):â€‹â€‹â€‹

Companyâ€™s direct and indirect subsidiaries and secured by a security interest in substantially all of the properties of the Company and its subsidiaries. Borrowings under the Senior Secured Credit Facility may be used for the acquisition and development of oil and natural gas properties, investments in cash flow generating properties complimentary to the production of oil and natural gas, and for letters of credit or other general corporate purposes.The Senior Secured Credit Facility contains certain events of default, including non-payment; breaches or representation and warranties; non-compliance with covenants; cross-defaults to material indebtedness; voluntary or involuntary bankruptcy; judgments and change in control. The Senior Secured Credit Facility also contains financial covenants including a requirement that the Company maintain, as of the last day of each fiscal quarter, (i)Â a maximum total leverage ratio of not more than 3.00 to 1.00, (ii)Â a current ratio of not less than 1.00 to 1.00, and (iii)Â a consolidated tangible net worth of not less than $40.0 million, each as defined in the Senior Secured Credit Facility. As of DecemberÂ 31,Â 2024, the Company had $39.5 million borrowings outstanding under its Senior Secured Credit Facility, 12 Table of ContentsEVOLUTION PETROLEUM CORPORATIONNOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTSresulting in $10.5Â million of available borrowing capacity. For the six months ended DecemberÂ 31,Â 2024, the weighted average interest on borrowings under the Senior Secured Credit Facility wasÂ 7.80%.Â As of December 31, 2024, the Company is in compliance with all covenants under the Senior Secured Credit Facility.The Senior Secured Credit Facility also contains hedging requirements that apply when there is 25% or more utilization of the Margined Collateral Value, as defined under the Senior Secured Credit Facility, to the extent it exceeds the borrowing base then in effect. The Required Hedging Percentage, as defined in the Eighth Amendment to the Senior Secured Credit Facility dated November 9, 2021, provides for a tiered approach for adding hedges based on the utilization of the facility. On February 12, 2024, the Company entered into an amendment to the Senior Secured Credit Facility, which required that the Company enter into hedges for the next 12-month period, and on a rolling 12-month basis thereafter, covering expected crude oil and natural gas production from proved developed reserves, calculated separately, equal to a minimum of 40% of expected crude oil production each month, or 25% of expected crude oil and natural gas production each month over that period. Thus, the Company had the option to choose whether to hedge 40% of expected crude oil production or 25% each of expected crude oil and natural gas production. As a result of the fall borrowing base redetermination, the utilization percentage of the Senior Secured Credit Facility increased whereby the Company will be required to hedge 50% of its expected crude oil and natural gas production. During the third quarter of fiscal year 2025, the Company will either make principal repayments of approximately $7.0 million to MidFirst, reducing the borrowings outstanding to such a level that the utilization percentage of the facility drops below 50%, or enter into additional derivative contracts to hedge at least 50% of expected crude oil and natural gas production. See Note 7, â€œDerivatives,â€ for information regarding the Companyâ€™s current derivative positions. NoteÂ 6. Income TaxesThe Company filesÂ a consolidated federal income tax return in the United States and various combined and separate filings in several state and local jurisdictions.There were no unrecognized tax benefits, nor any accrued interest or penalties associated with unrecognized tax benefits during theÂ periods presented in the unaudited condensed consolidated financial statements. The Company believes that it has appropriate support for the income tax positions taken and to be taken on the Companyâ€™s tax returns and that the accruals for tax liabilities are adequate for all openÂ years based on its assessment of many factors including past experience and interpretations of tax law applied to the facts of each matter. The Companyâ€™s federal and state income tax returns are open to audit under the statute of limitations for the fiscalÂ years ended JuneÂ 30, 2020 through JuneÂ 30, 2023 for federal tax purposes and for the fiscalÂ years ended JuneÂ 30,Â 2019 through JuneÂ 30, 2023 for state tax purposes. To the extent the Company utilizes net operating losses (â€œNOLsâ€) generated in earlierÂ years, such earlierÂ years may also be subject to audit.For six months ended DecemberÂ 31,Â 2024, the Company recognized income tax expense of $0.1 million and had an effective tax rate of 31.4% compared to income tax expense of $1.0 million and an effective tax rate of 28.5% for theÂ six months ended DecemberÂ 31,Â 2023. The Companyâ€™s effective tax rate will typically differ from the statutory federal rate as a result of state income taxes, primarily in the states of Louisiana, Oklahoma, North Dakota and Texas, percentage depletion in excess of basis, and other permanent differences. For both periods, the respective statutory federal tax rate was 21%. â€‹Deferred income taxes primarily represent the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. NoteÂ 7. DerivativesThe Company is exposed to certain risks relating to its ongoing business operations, including commodity price risk and interest rate risk. In accordance with the Companyâ€™s strategy and the requirements under the Senior Secured Credit 13 Table of ContentsEVOLUTION PETROLEUM CORPORATIONNOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTSFacility (as discussed in NoteÂ 5, â€œSenior Secured Credit Facilityâ€), it may hedge or may be required to hedge a varying portion of anticipated oil and natural gas production for future periods. Derivatives are carried at fair value on the unaudited condensed consolidated balance sheets as assets or liabilities, with the changes in the fair value included in the unaudited condensed consolidated statements of operations for the period in which the change occurs. The Companyâ€™s hedge strategies and objectives may change significantly as its operational profile changes or as required under the Senior Secured Credit Facility. The Company does not enter into derivative contracts for speculative trading purposes.It is the Companyâ€™s policy to enter into derivative contracts only with counterparties that are creditworthy financial or commodity hedging institutions deemed by management as competent and competitive market makers. As of DecemberÂ 31,Â 2024, the Company did not post collateral under any of its derivative contracts during the periods in which contracts were open as they were secured under the Companyâ€™s Senior Secured Credit Facility.When the Company utilizes commodity derivative contracts, it expects to enter into deferred premium puts, costless put/call collars, fixed-price swaps, and/or basis swaps to hedge a portion of its anticipated future production. A costless collar consists of a sold call, which establishes a maximum price the Company will receive for the volumes under contract, and a purchased put that establishes a minimum price. Fixed-price swaps are designed so that the Company receives or makes payments based on a differential between fixed and variable prices for the volumes under contract. Basis swaps effectively lock in a price differential between regional prices (i.e., Inside FERCâ€™s Northwest Pipeline Corp Rocky Mountains) where the product is sold and the relevant pricing index under which the natural gas production is hedged (i.e., NYMEX Henry Hub).Â The Company has elected not to designate its open derivative contracts for hedge accounting. Accordingly, the Company records the net change in the mark-to-market valuation of the derivative contracts and all payments and receipts on settled derivative contracts in â€œNet gain (loss) on derivative contractsâ€ on the unaudited condensed consolidated statements of operations.All derivative contracts are recorded at fair market value in accordance with ASC 815, Derivatives and Hedging (â€œASC 815â€) and ASC 820, Fair Value Measurement (â€œASC 820â€) and included in the unaudited condensed consolidated balance sheets as assets or liabilities. TheÂ â€œDerivative contract assetsâ€Â andÂ â€œDerivative contract liabilitiesâ€Â represent the difference between the market commodity prices and the hedged prices for the remaining volumes of production hedges as of DecemberÂ 31,Â 2024 and June 30, 2024 (the â€œmark-to-market valuationâ€).Â The following table summarizes the location and fair value amounts of all derivative contracts in the unaudited condensed consolidated balance sheets as of DecemberÂ 31,Â 2024 and June 30, 2024 (in thousands):

Commitments and ContingenciesThe Company is subject to various claims and contingencies in the normal course of business. In addition, from time to time, the Company receives communications from government or regulatory agencies concerning investigations or allegations of noncompliance with laws or regulations in jurisdictions in which the Company operates. The Company discloses such matters if it believes there is a reasonable possibility that a future event or events will confirm a material loss through impairment of an asset or the incurrence of a material liability. The Company accrues a material loss if it believes it probable that a future event or events will confirm a loss and the loss is reasonably subject to estimation. Furthermore, the Company will disclose any matter that is unasserted if it considers it probable that a claim will be asserted and there is a reasonable possibility that the outcome will be unfavorable and material in amount. The Company expenses legal defense costs as they are incurred.NoteÂ 11. Stockholdersâ€™ EquityCommon StockAs of DecemberÂ 31,Â 2024, the Company had 34,076,846 shares of common stock outstanding.The Company began paying quarterly cash dividends on common stock in DecemberÂ 2013. As of DecemberÂ 31,Â 2024, the Company has cumulatively paid over $126.6 million in cash dividends. The Company paid dividends of $8.1 million and $8.0 million to its common stockholders during the six months ended DecemberÂ 31,Â 2024 and 2023, respectively. The following table reflects the dividends paid per share within the respective three-month periods:â€‹â€‹â€‹â€‹â€‹â€‹â€‹â€‹â€‹â€‹Fiscal Yearâ€‹Â Â Â Â 2025Â Â Â Â 2024Second fiscal quarterâ€‹$ 0.120â€‹$ 0.120First fiscal quarterâ€‹â€‹ 0.120â€‹â€‹ 0.120â€‹On OctoberÂ 21, 2024, the Company entered into an At-the-Market (â€œATMâ€) equity Sales Agreement (the â€œATM Sales Agreementâ€) with Roth Capital Partners, LLC (the â€œLead Agentâ€), Northland Securities Inc., and A.G.P./Alliance Global Partners pursuant to which the Company may issue and sell, from time to time, up to $30.0 million of shares of common stock through or to the Lead Agent, acting as agent or principal. During the period ended DecemberÂ 31,Â 2024, the Company sold a total of approximately 0.4 million shares of its common stock under the ATM Sales Agreement for net proceeds of approximately $2.0 million, after deducting an initial $0.2 million in fees for due diligence incurred with the offering. The Company intends to use the net proceeds from any sales of common stock for general corporate purposes, including to redeem or repay outstanding indebtedness. The Company is not obligated to sell any shares of common stock in the future. On September 8, 2022, the Board of Directors approved a share repurchase program, under which the Company was authorized to repurchase up to $25.0 million of its common stock in the open market through December 31, 2024. The Company funded repurchases from working capital and cash provided by operating activities. The share repurchase program was complimentary to the existing dividend policy and was a tax efficient means to further improve shareholder return. The shares were repurchased from time to time in open market transactions, through privately negotiated transactions or by other means in accordance with federal securities laws. The Company repurchased a total of 0.8 million shares of its common stock under the program at a total cost of approximately $4.6Â million, including incremental direct transaction costs.During the six months ended DecemberÂ 31,Â 2024 and 2023, the Company acquired treasury stock upon the ordinary course of scheduled vestings of employee stock-based awards to fund payroll tax withholding obligations. These treasury shares were subsequently cancelled. Such shares were valued at fair market value on the date of vesting. â€‹18 Table of ContentsEVOLUTION PETROLEUM CORPORATIONNOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTSThe following table summarizes all treasury stock purchases during the six months ended DecemberÂ 31,Â 2024 and 2023 (in thousands, except per share amounts):â€‹â€‹â€‹â€‹â€‹â€‹â€‹â€‹â€‹â€‹Six Months Endedâ€‹â€‹DecemberÂ 31,Â â€‹Â Â Â Â 2024â€‹2023Number of treasury shares acquiredâ€‹â€‹ 36â€‹â€‹ 29Average cost per shareâ€‹$ 5.32â€‹$ 7.29Total cost of treasury shares acquiredâ€‹$ 191â€‹$ 213â€‹Expected Tax Treatment of DividendsFor the fiscalÂ year ended JuneÂ 30,Â 2024, all common stock dividends for that fiscalÂ year were treated for tax purposes as qualified dividend income to the recipients. Based on its current projections for the fiscalÂ year ended JuneÂ 30, 2025, the Company expects all common stock dividends for such period to be treated as qualified dividend income to the recipients. Such projections are based on the Companyâ€™s reasonable expectations as of DecemberÂ 31,Â 2024 and are subject to change based on the Companyâ€™s final tax calculations at the end of the fiscal year. Stock-Based Incentive PlanThe Evolution Petroleum Corporation 2016 Equity Incentive Plan (the â€œ2016 Planâ€) authorized the issuance of 3.6 million shares of common stock prior to its expiration on DecemberÂ 8, 2026. On December 5, 2024 shareholders approved and adopted the amendment and restatement of the 2016 Plan (hereinafter the â€œAmended and Restated Planâ€), which increased the shares authorized for issuance under the 2016 Plan by 2.1 million shares to a maximum of 5.7 million shares. The duration of the Amended and Restated Plan is indefinite, provided that no new awards shall be made under the Amended and Restated Plan on or after the tenth anniversary of the date the stockholders approved the Amended and Restated Plan. Incentives under the Amended and Restated Plan may be granted to employees, directors, and consultants of the Company in any one or a combination of the following forms: incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock awards, restricted stock unit awards, and performance share awards. As of DecemberÂ 31,Â 2024 and JuneÂ 30, 2024, approximately 2.5 million shares and 0.9 million shares, respectively, remained available for grant under the Amended and Restated Plan. The Company estimates the fair value of stock-based compensation awards on the grant date to provide the basis for future compensation expense. During the three and six months ended DecemberÂ 31,Â 2024, the Company recognized $0.7 million and $1.2 million, respectively, related to stock-based compensation. During the three and six months ended DecemberÂ 31,Â 2023, the Company recognized $0.6 million and $1.0 million, respectively, related to stock-based compensation. Stock-based compensation expense is recorded as a component of â€œGeneral and administrative expensesâ€ on the unaudited condensed consolidated statements of operations. Time-Vested Restricted Stock AwardsTime-vested restricted stock awards contain service-based vesting conditions and expire after a maximum of fourÂ years from the date of grant if unvested. The common shares underlying these awards are issued on the date of grant and participate in dividends paid by the Company. These service-based awards vest with continuous employment by the Company, generally in annual installments over terms of three to fourÂ years. Awards to the Companyâ€™s directors generally have one-year cliff vesting. For such awards, grant date fair value is based on market value of the Companyâ€™s common stock at the time of grant. This value is then amortized ratably over the service period. Previously recognized amortization expense subsequent to the last vesting date of an award is reversed in the event that the holder has no longer rendered service to the Company resulting in forfeiture of the award.Performance-Based Restricted Stock Awards and Performance-Based Contingent Stock UnitsPerformance-based restricted stock awards and performance-based contingent stock units contain market-based vesting conditions based on the price of the Companyâ€™s common stock, the intrinsic value indexed solely to its common stock or the intrinsic value indexed to its common stock compared to the performance of the common stock of its peers. The common shares underlying the Companyâ€™s performance-based restricted stock awards are issued on the date of grant and 19 Table of ContentsEVOLUTION PETROLEUM CORPORATIONNOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTSparticipate in dividends paid by the Company and expire after a maximum of fourÂ years from the date of grant if unvested. Performance-based contingent share units do not participate in dividends and shares are only issued in part or in full upon the attainment of vesting conditions, generally have a lower probability of achievement and expire after a maximum of fourÂ years from the date of grant if unvested. Shares underlying performance-based contingent share units are reserved from the 2016 Plan. Performance-based restricted stock awards and contingent restricted stock units are valued using a Monte Carlo simulation and geometric Brownian motion techniques applied to the historical volatility of the Companyâ€™s total stock return compared to the historical volatilities of other companies or indices to which the Company compares its performance and/or the Companyâ€™s absolute total stock return. For certain awards, this Monte Carlo simulation also provides an expected vesting term. Stock-based compensation is recognized ratably over the expected vesting period, so long as the award holder remains an employee of the Company. Previously recognized compensation expense is only reversed for the awards with market-based vesting conditions if the requisite service period is not rendered by the holder resulting in forfeiture of the award or as a result of regulatory required clawback.Vesting of grants with performance-based vesting conditions is dependent on the future price of the Companyâ€™s common stock. Such awards vest in part or in full if the trailing total returns on the Companyâ€™s common stock for a specified three-year period exceed the corresponding total returns of various quartiles of indices consisting of peer companies. During the six months ended DecemberÂ 31,Â 2024, the Company granted a total of 0.5 million equity awards that included 0.2 million time-vested restricted stock awards, 0.2 million performance-based restricted stock awards, and 0.1 million performance-based contingent stock units.During the six months ended DecemberÂ 31,Â 2023, the Company granted a total of 0.4 million equity awards that included 0.2 million time-vested restricted stock awards, 0.1 million performance-based restricted stock awards, and 0.1 million of performance-based contingent stock units. PEDEVCO Corp. (â€œPEDEVCOâ€). Our non-operated interests in the Jonah Field, a natural gas and NGL property in Sublette County, Wyoming, consist of approximately 20% average net working interest and approximately 15% average net revenue interest located on approximately 5,300 gross or 950 net acres all held by production. The properties are operated by Jonah Energy. Our non-operated interests in the Williston Basin, an oil and natural gas producing property, consist of approximately 39% average net working interest and approximately 33% average net revenue interest located on approximately 23 Table of Contents141,400 gross or 42,200 net acres (approximately 95% held by production) across Billings, Golden Valley, and McKenzie Counties in North Dakota. The properties are operated by Foundation Energy Management.Our non-operated interests in the Barnett Shale, a natural gas and NGL producing shale reservoir, consist of approximately 17% average net working interest and approximately 14% average net revenue interest (inclusive of small overriding royalty interests). The approximately 123,800 gross or 21,000 net acres are held by production across nine North Texas counties. The oil and natural gas properties are primarily operated by Diversified Energy Company with approximately 10% of wells operated by six other operators.Our non-operated interests in the Hamilton Dome Field, a secondary recovery field utilizing water injection wells to pressurize the reservoir, consist of approximately 24% average net working interest, with an associated 20% average net revenue interest (inclusive of a small overriding royalty interest). The approximately 5,900 gross acre unitized field, of which we hold approximately 1,400 net acres, is operated by Merit Energy Company, who owns the majority of the remaining working interest in the Hamilton Dome Field. The Hamilton Dome Field is located in the southwest region of the Big Horn Basin in northwest Wyoming.Our non-operated interests in the Delhi Field, a CO2-EOR project, consist of approximately 24% average net working interest, with an associated 19% revenue interest and separate overriding royalty and mineral interests of approximately 7% yielding a total average net revenue interest of approximately 26%. The field is operated by Denbury Onshore LLC, a subsidiary of Exxon Mobil Corporation. The approximately 13,600 gross acre unitized Delhi Field, of which we hold approximately 3,200 net acres, is located in northeast Louisiana in Franklin, Madison, and Richland Parishes.During the six months ended December 31, 2024, crude oil, natural gas and NGL production increased 13% compared to the year-ago period due to our recent acquisitions and development drilling activities since the year-ago period. Our crude oil, natural gas and NGL revenues had a modest increase of 1% over the same period despite our increase in production volumes due to declines in commodity prices. Our lease operating costs for the six months ended December 31, 2024 have decreased 10%, or $2.13 per BOE, compared to the year-ago period. See below for a further discussion around our results of operations and cash flow activities.Recent DevelopmentsDividend Declarationâ€‹On February 10, 2025, Evolutionâ€™s Board of Directors approved and declared a quarterly dividend of $0.12 per common share payable March 31, 2025. â€‹At-the-Market (â€œATMâ€) Equity Sales Programâ€‹On OctoberÂ 21, 2024, we entered into an ATM equity Sales Agreement (the â€œATM Sales Agreementâ€) with Roth Capital Partners, LLC (the â€œLead Agentâ€), Northland Securities Inc., and A.G.P./Alliance Global Partners pursuant to which we may issue and sell, from time to time, up to $30.0 million of shares of common stock through or to the Lead Agent, acting as agent or principal. During the period ended DecemberÂ 31,Â 2024, we sold a total of approximately 0.4 million shares of our common stock under the ATM Sales Agreement for net proceeds of approximately $2.0 million, after deducting an initial $0.2 million in fees for due diligence incurred with the offering. We intend to use the net proceeds from any sales of common stock for general corporate purposes, including to redeem or repay outstanding indebtedness. We are not obligated to sell any shares of common stock in the future. Risks and uncertaintiesThe oil and natural gas industry is a global market impacted by many factors, such as government regulations, particularly in the areas of trade sanctions, taxation, energy, climate change and the environment, geopolitical instability and armed conflicts (including between Russia and Ukraine and in the Middle East between Israel and Gaza), demand in Asian and European markets, and the extent to which members of OPEC and other oil exporting nations manage oil supply through export quotas. Natural gas prices are generally determined by North American supply and demand and 24 Table of Contentsare also affected by imports and exports of liquefied natural gas. Weather also has a significant impact on demand for natural gas since it is a primary heating source.â€‹Oil and natural gas prices have been, and we expect may continue to be, volatile. Lower oil and natural gas prices not only decrease our revenues, but an extended decline in oil or natural gas prices may affect planned capital expenditures and the oil and natural gas reserves that we can economically produce. Lower oil and natural gas prices may also reduce the amount of our borrowing base under our Senior Secured Credit Facility, which is determined at the discretion of the lenders based on various factors including the collateral value of our proved reserves, as well as the dividend rate determined by the Board of Directors each quarter. â€‹At times, we maintain cash balances in excess of the U.S. Federal Deposit Insurance Corporation (â€œFDICâ€). We utilize insured cash sweep deposits to maximize the amount of our cash that is protected by FDIC insurance. Currently, our oil and natural gas properties are operated by third-party operators and involve other third-party working interest owners. As a result, we have limited ability to influence the operation or future development of such properties. Despite these uncertainties, we remain focused on our long-term objectives and continue to be proactive with our third-party operators to review the management of capital expenditures.â€‹Given the dynamic nature of these factors and events, we cannot reasonably estimate the period of time that certain market conditions will persist. Nor can we predict the broader impact of liquidity concerns around financial institutions; the impact to long-term cost of capital or economic growth as a result of the Federal Reserveâ€™s policies; or the impact on the commodity prices that we realize. Liquidity and Capital ResourcesAs of DecemberÂ 31,Â 2024, we had $11.7 million in cash and cash equivalents and $39.5 million outstanding borrowings on our Senior Secured Credit Facility compared to $6.4 million in cash and cash equivalents and $39.5 million borrowings outstanding on our Senior Secured Credit Facility at JuneÂ 30, 2024. Our primary sources of liquidity and capital resources during the six months ended DecemberÂ 31,Â 2024 were cash provided by operations. Our primary uses of liquidity and capital resources for the three months ended DecemberÂ 31,Â 2024 were our cash dividend payments to our common stockholders and development capital expenditures. As of DecemberÂ 31,Â 2024, working capital was $10.5 million, an increase of $4.6 million from working capital of $5.9 million as of JuneÂ 30,Â 2024.The Senior Secured Credit Facility has a maximum capacity of $50.0 million subject to a borrowing base determined by the lender based on the value of our oil and natural gas properties. The Senior Secured Credit Facility has a current borrowing base of $50.0 million, with $39.5 million drawn as of December 31, 2024. The Senior Secured Credit Facility is secured by substantially all of our oil and natural gas properties and matures on AprilÂ 9, 2026.Borrowings bear interest, at our option, at either the SOFR plus 2.80% or the Prime Rate, as defined under the Senior Secured Credit Facility, plus 1.0%.Â For the six months ended DecemberÂ 31,Â 2024, the weighted average interest on our borrowings was 7.80%. The Senior Secured Credit Facility contains covenants requiring the maintenance of (i)Â a total leverage ratio of not more than 3.00 to 1.00, (ii)Â a current ratio of not less than 1.00 to 1.00, and (iii)Â a consolidated tangible net worth of not less than $40.0 million, each as defined in the Senior Secured Credit Facility. It also contains other customary affirmative and negative covenants, including a hedging covenant discussed below, and events of default. As of DecemberÂ 31,Â 2024, we were in compliance with all covenants under the Senior Secured Credit Facility.The Senior Secured Credit Facility contains hedging requirements that apply whenÂ there is 25% or more utilization of the Margined Collateral Value, as defined under the Senior Secured Credit Facility, to the extent it exceeds the borrowing base then in effect. The Required Hedging Percentage, as defined in the Eighth Amendment to the Senior Secured Credit Facility dated November 9, 2021, provides for a tiered approach for adding hedges based on the utilization of the facility. On February 12, 2024, in conjunction with the Scoop/Stack Acquisitions, we entered into an amendment to the Senior Secured Credit Facility, which required us to enter into hedges for the next 12-month period, and on a rolling 12-month basis thereafter, covering expected crude oil and natural gas production from proved developed reserves, calculated separately, equal to a minimum of 40% of expected crude oil production each month, or 25 Table of Contents25% each of expected crude oil and natural gas production each month over that period. Thus, we had the option to choose whether to hedge 40% of expected crude oil production or 25% each of expected crude oil and natural gas production. As of December 31, 2024, we were in compliance with the hedging requirements under the Senior Secured Credit Facility.The Senior Secured Credit Facility requires for redeterminations of the borrowing base to occur semi-annually. At each redetermination, the Margined Collateral Value is updated based on the estimated value of our oil and natural gas properties, which includes our proved developed reserves, proved undeveloped reserves, and other relevant factors consistent with customary oil and natural gas lending criteria. As a result of our fall borrowing base redetermination, the utilization percentage of our Senior Secured Credit Facility increased whereby we will be required to hedge 50% of our expected crude oil and natural gas production. During the third quarter of fiscal year 2025, we will either make principal repayments of approximately $7.0 million to MidFirst, reducing our borrowings outstanding to such a level that the utilization percentage of the facility drops below 50% or enter into additional derivative contracts to hedge at least 50% of expected crude oil and natural gas production. We have historically funded operations through cash from operations and working capital. Our primary source of cash is the sale of produced crude oil, natural gas, and NGLs. A portion of these cash flows is used to fund capital expenditures and pay cash dividends to shareholders. We expect to fund near-future capital development activities for our properties with cash flows from operating activities, existing working capital and, as needed, borrowings under our Senior Secured Credit Facility and proceeds from the ATM Sales Agreement (as described in â€œRecent Developmentsâ€ above).We are pursuing new growth opportunities through acquisitions and other transactions. In addition to cash on hand, we have access to the undrawn portion of the borrowing base available under our Senior Secured Credit Facility, totaling $10.5 million as of DecemberÂ 31,Â 2024. We also have an effective shelf registration statement with the SEC under which we may issue up to $500.0 million of new debt or equity securities.On OctoberÂ 21, 2024, we entered into an ATM Sales Agreement with Roth Capital Partners, LLC as our Lead Agent, Northland Securities Inc., and A.G.P./Alliance Global Partners pursuant to which we may issue and sell, from time to time, up to $30.0 million of shares of common stock through or to the Lead Agent, acting as agent or principal. During the period ended DecemberÂ 31,Â 2024, we sold a total of approximately 0.4 million shares of our common stock under the ATM Sales Agreement for net proceeds of approximately $2.0 million, after deducting an initial $0.2 million in fees for due diligence incurred with the offering; however, we are not obligated to sell any shares of common stock in the future. Our Board of Directors instituted a cash dividend on common stock in DecemberÂ 2013. We have since paid 45 consecutive quarterly dividends. Distribution of a substantial portion of free cash flow in excess of operating and capital requirements through cash dividends remains a priority of our financial strategy, and it is our long-term goal to increase dividends over time, as appropriate. On February 10, 2025, the Board of Directors declared a quarterly cash dividend of $0.12 per share of common stock to shareholders of record on March 14, 2025 and payable on March 31, 2025. â€‹Capital ExpendituresDuring the six months ending DecemberÂ 31,Â 2024, we incurred $2.2 million on development capital expenditures. During the first half of fiscal 2025, capital spending occurred at our fields, including at SCOOP/STACK where our operators are actively drilling and have brought 10 gross wells online during the fiscal year. Based on discussions with our operators, we expect capital workover projects to continue in most of our fields throughout the year. Overall, for fiscal year 2025, we expect budgeted capital expenditures to be in the range of $12.5 million to $14.5 million, which excludes any potential acquisitions. Our expected capital expenditures for fiscal year 2025 include the 10 gross wells brought online at SCOOP/STACK during the first six months of the fiscal year, discussed above, and bringing an additional eight gross wells online during the remainder of the year. It also includes the drilling and completion of four new gross wells at Chaveroo Field for development block two, which commenced drilling operations in January 2025, and the drilling and completion of one new well at Delhi Field Test Site V.26 Table of ContentsFull Cost Pool Ceiling TestUnder the full cost method of accounting, capitalized costs of oil and natural gas properties, net of accumulated depletion, depreciation, and amortization and related deferred taxes, are limited to the estimated future net cash flows from proved oil and natural gas reserves, discounted atÂ 10%, plus the lower of cost or fair value of unproved properties, as adjusted for related income tax effects (the valuation â€œceilingâ€). If capitalized costs exceed the full cost ceiling, the excess would be charged to expense as a write-down of oil and natural gas properties in the quarter in which the excess occurred. The quarterly ceiling test calculation requires that we use the average first day of theÂ month price for our petroleum products during the 12-month period ending with the balance sheet date. The prices used in calculating our ceiling test as of DecemberÂ 31,Â 2024 were $76.32 per barrel of oil, $2.13 per MMBtu of natural gas and $22.60 per barrel of NGLs. As of DecemberÂ 31,Â 2024, our capitalized costs of oil and natural gas properties were below the full cost valuation ceiling. If commodity price levels were to substantially decline from the 12-month average first day of theÂ month pricing levels as of DecemberÂ 31,Â 2024 and remain down for a prolonged period of time, our valuation ceiling over our capitalized costs may be reduced and adversely impact our ceiling test results in future quarters. While using the crude oil and natural gas price for January 1, 2025 of $72.44 per barrel and $3.40 per MMBtu, and holding it constant for two months to create a trailing 12-month period of average prices (which is more reflective of recent price trends) would not generate an impairment under our ceiling test limitation, we cannot give assurance that a write-down of capitalized oil and natural gas properties will not be required in the future.Â Overview of Cash Flow Activitiesâ€‹â€‹â€‹â€‹â€‹â€‹â€‹â€‹â€‹â€‹â€‹â€‹â€‹Six Months Ended DecemberÂ 31,Â â€‹â€‹â€‹â€‹â€‹Â Â Â Â 2024Â Â Â Â 2023Â Â Â Â ChangeCash flows provided by operating activitiesâ€‹$ 15,333â€‹$ 11,378â€‹$ 3,955Cash flows used in investing activitiesâ€‹â€‹ (3,829)â€‹â€‹ (5,705)â€‹â€‹ 1,876Cash flows used in financing activitiesâ€‹â€‹ (6,283)â€‹â€‹ (8,247)â€‹â€‹ 1,964Net increase (decrease) in cash and cash equivalentsâ€‹$ 5,221â€‹$ (2,574)â€‹$ 7,795â€‹Cash provided by operating activities for the six months ended DecemberÂ 31,Â 2024 increased $4.0 million compared to the six months ended DecemberÂ 31,Â 2023 primarily due to an increase in revenues and changes in the timing of our working capital. Total revenues increased $0.5 million as compared to the prior year period primarily due increased production volumes partially offset by lower commodity prices. Our average daily production increased 832 BOEPD or 13.0% from the prior year period; however our average realized price per barrel of oil equivalent (â€œBOEâ€) decreased $3.68, or 10.4% from the prior year period. Refer to â€œResults of Operationsâ€ below for further information.Cash used in investing activities for the six months ended DecemberÂ 31,Â 2024 decreased $1.9 million compared to the six months ended DecemberÂ 31,Â 2023 primarily due to the participation of our drilling and completion of three gross wells in the Chaveroo Field in the prior year partially offset by the addition of our SCOOP/STACK properties and associated development capital expenditures since the prior year period.Net cash flows used in financing activities for the six months ended December 31, 2024 decreased $2.0 million compared to the six months ended December 31, 2023 primarily due to proceeds received from the sale of our common stock under our ATM Sales Agreement. For the six months ended, December 31, 2024, we paid $8.1 million in cash dividends to our common stockholders and received net proceeds from the sale of common stock under the ATM Sales Agreement of approximately $2.0 million, after deducting and initial $0.2 million of fees for due diligence incurred with the offering. For the six months ended December 31, 2023, we paid $8.0 million in cash dividends to our common stockholders.â€‹27 Table of ContentsResults of OperationsThree Months Ended DecemberÂ 31,Â 2024 and 2023We reported a net loss of $1.8 million and net income of $1.1 million for the three months ended DecemberÂ 31,Â 2024 and 2023, respectively. The decrease in revenues is due to a decrease in our average realized price per BOE partially offset by an increase in production volumes. Our average realized commodity price (excluding the impact of derivative contracts) for the three months ended DecemberÂ 31,Â 2024 decreased approximately $4.47 per BOE, or 12.3%, over the prior year quarter. The amount we realize for our production depends predominantly upon commodity prices, which are affected by changes in market demand and supply, as impacted by overall economic activity, weather, inventory storage levels, basis differentials and other factors. Realized natural gas prices decreased 18.5% from the year-ago quarter, which was the primary driver of the decrease in revenues. Average daily equivalent production increased 10.0% from 6,304 BOEPD in the prior year quarter to 6,935 BOEPD in the current quarter as a result of the acquisitions of non-operated working interests in the SCOOP/STACK plays in February 2024 and first production of our wells at Chaveroo Field in early February 2024, which collectively increased production for the three months ended DecemberÂ 31,Â 2024 by approximately 1,200 BOEPD. The overall increase in production is partially offset by natural production declines in our other fields, as well as temporary reductions in oil sales at Williston Basin, where crude oil was left in tanks at quarter-end, combined with reduced oil recovery at Delhi Field as the field experienced a reduction in CO2 injection volumes since the prior year period due to downtime from compressors and the CO2 purchase pipeline taken offline. â€‹Lease Operating CostsAd valorem and production taxes were $1.4 million and $1.3 million for theÂ three months ended DecemberÂ 31,Â 2024 and 2023, respectively. The increase in ad valorem and production taxes is primarily due to increases in ad valorem tax rates at Barnett Shale. On a per unit basis, ad valorem and production taxes were $2.26 per BOE and $2.19 per BOE for theÂ three months ended DecemberÂ 31,Â 2024 and 2023, respectively. Gathering, transportation and other costs were $2.9 million for the three months ended DecemberÂ 31,Â 2024 compared to $2.5 million for the three months ended DecemberÂ 31,Â 2023. Costs include gathering, transportation and processing fees we incur primarily for our natural gas producing properties. The increase is primarily due to the acquisitions of non-operated working interests in the SCOOP/STACK plays in February 2024 which added $0.5 million in gathering transportation and other costs for the three months ended DecemberÂ 31,Â 2024. On a per unit basis, gathering transportation and other costs were $4.53 per BOE and $4.30 per BOE for theÂ three months ended DecemberÂ 31,Â 2024 and 2023, respectively. Other lease operating costs were $8.5 million for the three months ended December 31, 2024 compared to $8.6 million for the three months ended December 31, 2023. Other lease operating costs decreased primarily due to reduced CO2 purchases at Delhi. CO2 purchases resumed in late October of 2024 and we had net purchases of $1.1 million in CO2 for the three months ended DecemberÂ 31,Â 2024 compared to net purchases of $1.6 million in the year-ago quarter. Partially offsetting the reduction in CO2 purchases were cost increases due to the acquisitions of non-operated working interests in the SCOOP/STACK plays in February 2024 and the addition of wells drilled since our acquisitions which collectively added $0.4 million in other lease operating costs. On a per unit basis, other lease operating costs were $13.26 per BOE and $14.81 per BOE for the three months ended DecemberÂ 31,Â 2024 and 2023, respectively. Depletion of Full Cost Proved Oil and Natural Gas PropertiesDepletion expense increased $0.8 million or 18.5% from $4.2 million to $5.0 million for the three months ended DecemberÂ 31,Â 2024 primarily due to an increase in the depletion rate and the addition of depletable assets. On a per unit basis, depletion expense was $7.87 per BOE and $7.31 per BOE for the three months ended DecemberÂ 31,Â 2024 and 2023, respectively. The depletion rate of our unit of production calculation increased due to an increase in our depletable base due to our SCOOP/STACK Acquisitions and capital expenditures since the year-ago quarter. General and Administrative ExpensesGeneral and administrative expenses for the three months ended DecemberÂ 31,Â 2024 and 2023 were $2.0 million and $1.9 million, respectively. On a per unit basis, general and administrative expenses were $3.13 per BOE and $3.34 per 29 Table of ContentsBOE for the three months ended DecemberÂ 31,Â 2024 and 2023, respectively. The decrease on a per unit basis is the primarily result of the increase in production for the current year quarter.Stock-based Compensation ExpenseStock-based compensation expense for the three months ended DecemberÂ 31,Â 2024 increased $0.1 million to $0.7 million compared to $0.6 million for the year-ago quarter. The increase is associated with new awards granted since the year-ago quarter.Net Gain (Loss) on Derivative ContractsWe utilize commodity derivative financial instruments to reduce our exposure to fluctuations in oil and natural gas prices. We have elected not to designate our open derivative contracts for hedge accounting, and accordingly, we recorded the net change in the mark-to-market valuation of the derivative contracts in the unaudited condensed consolidated statements of operations. The amounts recorded on the unaudited condensed consolidated statements of operations related to derivative contracts represent the (i)Â gains (losses) related to fair value adjustments on our open, or unrealized, derivative contracts, and (ii)Â gains (losses) on settlements of derivative contracts for positions that have settled or been realized. The table below summarizes our net realized and unrealized gains (losses) on derivative contracts as well as the impact of net realized gains (losses) on our average realized prices for the periods presented. As a result of our SCOOP/STACK Acquisitions in February 2024 and the corresponding borrowings on our Senior Secured Credit Facility, we were required by terms in our Senior Secured Credit Facility to hedge a portion of our production. The increase in forward commodity prices as of DecemberÂ 31,Â 2024 from the prior quarter, resulted in an unrealized loss on the mark-to-market of our hedges for the three months ended December 31, 2024. As of DecemberÂ 31,Â 2024, we had $1.3 million derivative assets, $1.1 million of which was classified as current, and $1.7 million derivative liabilities, $0.4 million of which was classified as current.â€‹â€‹â€‹

before income taxes of $0.4 million compared to income tax expense of $1.0 million on net income before income taxes of $3.6 million for the six months ended DecemberÂ 31,Â 2023. The effective tax rates were 31.4% and 28.5% for six months ended DecemberÂ 31,Â 2024 and 2023, respectively. The effective tax rate increased compared to the year-ago period as projected state income taxes have become a larger component of our overall income tax expense during the current period.Critical Accounting Policies and EstimatesOur discussion and analysis of our financial condition and results of operations are based upon the unaudited condensed consolidated financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires that we select certain accounting policies and make estimates and assumptions that affect the reported amounts of the assets, liabilities, and disclosures of contingent assets and liabilities as of the date of the balance sheet as well as the reported amounts of revenues and expenses during the reporting period. These policies, together with our estimates, have a significant effect on our unaudited condensed consolidated financial statements. There have been no material changes to our critical accounting policies from those described in our Annual Report on Form 10-K for the fiscal year ended June 30, 2024.ItemÂ 3. Â Â Quantitative and Qualitative Disclosures About Market RisksDerivative Instruments and Hedging ActivityWe are exposed to various risks, including energy commodity price risk, such as price differentials between the NYMEX commodity price and the index price at the location where our production is sold. When oil, natural gas, and natural gas liquids prices decline significantly, our ability to finance our capital budget and operations may be adversely impacted. We expect energy prices to remain volatile and unpredictable, therefore we monitor commodity prices to identify the potential need for the use of derivative financial instruments to provide partial protection against declines in oil and natural gas prices. We do not enter into derivative contracts for speculative trading purposes. In accordance with our Senior Secured Credit Facility, we may be required to enter into hedges if we meet certain utilization levels of the borrowing base under the credit facility. We intend to remain in compliance with these covenants and will enter into derivative contracts from time to time to meet the requirements. Additionally, depending on market conditions, financial and other considerations we may enter into additional hedges to meet our objectives of increasing value to shareholders.We are exposed to market risk on our open derivative contracts related to potential non-performance by our counterparties. It is our policy to enter into derivative contracts only with counterparties that are creditworthy institutions deemed by management as competitive market makers. For the derivative contracts settled during fiscal 2025 and 2024, we did not post collateral. We account for our derivative activities under the provisions of ASC 815, Derivatives and Hedging, (â€œASC 815â€). ASC 815 establishes accounting and reporting that every derivative instrument be recorded on the balance sheet as either an asset or liability measured at fair value. See NoteÂ 7, â€œDerivativesâ€ to our unaudited condensed consolidated financial statements for more details.Interest Rate RiskWe are exposed to changes in interest rates. Changes in interest rates affect the interest earned on our cash and cash equivalents. Additionally, any borrowings under the Senior Secured Credit Facility will bear interest, at our option, at either SOFR plus 2.80%, subject to a minimum SOFR of 0.50%, or the Prime Rate, as defined under the Senior Secured Credit Facility, plus 1.00%. SOFR rates are sensitive to the period of contract and market volatility, as well as changes in forward interest rate yields. Under our current practices, we do not use interest rate derivative instruments to manage exposure to interest rate changes.34 Table of ContentsItem 4. Controls and ProceduresWe maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commissionâ€™s (â€œSECâ€) rules and forms. This information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure.As required by SEC Rule 13a-15(b), we carried out an evaluation, under the supervision and with the participation of our management, including our Principal Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(c) and 15(d)-15(e)) as of the end of the quarter covered by this report. In designing and evaluating our disclosure controls and procedures, our management recognizes that controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving desired control objectives. Based on the foregoing, our Principal Executive Officer and Principal Financial Officer concluded that as of DecemberÂ 31,Â 2024 our disclosure controls and procedures are effective in ensuring that the information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms.Under the supervision and with the participation of our management, including our Principal Executive Officer and Principal Financial Officer, during the quarter ended DecemberÂ 31,Â 2024, we have determined that there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.Part II. Section 409A if the applicable Award is subject thereto. In addition, a change in status from an Employee of the Company to a Director of an Affiliate will not constitute a cessation or interruption of Continuous Service. â€œCovered Terminationâ€ has the meaning ascribed to that term in the Change in Control Policy.â€œDirectorâ€ means a non-Employee member of the Board. â€œDisabilityâ€ means that the Participant is determined disabled by the Social Security Administration or under any long-term disability plan maintained by the Company or any Affiliate in which a Participant participates, provided that the long-term disability plan determines a Participant disabled if the Participant is unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment that can be expected result in death or can be expected to last for not less than twelve (12) months; provided, however, that for purposes of determining the expiration of an Incentive Stock Option under Section 5.6 hereof, the term Disability shall have the meaning ascribed to it under Section 22(e)(3) of the Code. Whether an individual has a Disability shall be determined under procedures established by the Committee. â€œDisqualifying Dispositionâ€ has the meaning outlined in Section 5.9.â€œDividend Equivalentsâ€ has the meaning outlined in Section 6.2(b)(ii).â€œEffective Dateâ€ means the date this Plan is approved by the Companyâ€™s shareholders. 4â€‹â€œEmployeeâ€ means any person, including an Officer or member of the Board, employed by the Company or an Affiliate, provided that,Â for purposes of determining eligibility to receive an award of Incentive Stock Options, an Employee shall mean an employee of the Company or a parent or subsidiary corporation within the meaning of Section 424 of the Code. Mere service as a Director or payment of a directorâ€™s fee by the Company or an Affiliate shall not be sufficient to constitute â€œemploymentâ€ by the Company or an Affiliate. â€œExchange Actâ€ means the Securities Exchange Act of 1934, as amended. â€œExercise Priceâ€ means, in the case of an Option, the price at which a share of Common Stock may be purchased upon the exercise of an Option and, in the case of a Stock Appreciation Right, the price set as the Exercise Price at the time of grant of the Stock Appreciation Right. In no event shall the Exercise Price of an Option or a Stock Appreciation Right be less than the Fair Market Value of a share of Common Stock on the Grant Date of the applicable Award (or, in the case of the grant of an Incentive Stock Option to a Ten Percent Shareholder, 110% of the Fair Market Value of a share of Common Stock at the Grant Date); provided, however, that the Exercise Price of an Option or Stock Appreciation Right may be granted with an Exercise Price lower than Fair Market Value (or 110% of the Fair Market Value, if applicable) on the Grant Date if such Option or Stock Appreciation Right is granted pursuant to an assumption or substitution for another corresponding award in a manner satisfying the provisions of Section 409A and Section 424 of the Code. A Related Right granted simultaneously with or subsequent to the grant of an Option and in conjunction therewith or in the alternative thereto shall have the same Exercise Price as the related Option (but in no event less than the Fair Market Value of a share of Common Stock as of the Grant Date of the Related Right). â€œFair Market Valueâ€ means, as of any date, the value of the Common Stock as determined below. If the Common Stock is listed on any established stock exchange or a national market system, including, without limitation, the New York Stock Exchange ("NYSE") or the NASDAQ Stock Market, the Fair Market Value shall be the closing price of a share of Common Stock (or if no sales were reported the closing price on the date immediately preceding such date) as quoted on such exchange or system on the day of determination, as reported by such exchange or in any reliable financial reporting service. In the absence of an established market for the Common Stock, the Fair Market Value shall be determined in good faith by the Committee, and such determination shall be conclusive and binding on all persons. â€œGood Reasonâ€ means: (a)If an Employee or Consultant is a party to an employment or service agreement with the Company or its Affiliates and such agreement provides for a definition of Good Reason, the definition contained therein; or(b)If no such agreement exists or if such agreement does not define Good Reason, the occurrence of one or more of the following without the Participantâ€™s express written consent, which circumstances are not remedied by the Company within thirty (30) days of its receipt of a written notice from the Participant describing the applicable circumstances (which notice must be provided by the Participant within ninety (90) days of the Participantâ€™s knowledge of the 5â€‹â€‹applicable circumstances): (i) any material, adverse change in the Participantâ€™s duties, responsibilities, authority, title, status or reporting structure; (ii) a material reduction in the Participantâ€™s base salary or bonus opportunity; or (iii) a geographical relocation of the Participantâ€™s principal office location by more than fifty (50) miles from the Participantâ€™s residence.â€œGrant Dateâ€ means the date on which the Committee adopts a resolution or takes other appropriate action, expressly granting an Award to a Participant that specifies the key terms and conditions of the Award or, if a later date is set forth in such resolution, then such date as is set forth in such resolution or other action.Ë™ â€œIncentive Stock Optionâ€ means an Option intended to qualify as an incentive stock option within the meaning of Section 422 of the Code. â€œIncumbent Boardâ€ means (a) the members of the Board on the Effective Date, to the extent that they continue to serve as members of the Board, and (b) any individual who becomes a member of the Board after the Effective Date, (i) upon the death or disability or retirement of, and as the successor to or replacement for, a member of the Board or (ii) if his or her election or nomination for election as a Director is approved by a vote of at least a majority of the then Incumbent Board, except that a Director whose initial assumption of office is in connection with an actual or threatened election contest, including but not limited to a consent solicitation, relating to the election of Directors of the Company shall not be considered a member of the Incumbent Board for purposes of this paragraph (ii). â€œNon-Employee Directorâ€ means a Director who is a â€œnon-employee directorâ€ within the meaning of Rule 16b-3.â€œNon-qualified Stock Optionâ€ means an Option that, by its terms, does not qualify or is not intended to qualify as an Incentive Stock Option. â€œOfficerâ€ means a person who is an officer of the Company within the meaning of Section 16 of the Exchange Act and the rules and regulations promulgated thereunder. â€œOptionâ€ means an Incentive Stock Option or a Non-qualified Stock Option granted pursuant to the Plan. Any Option granted under the Plan may be either an Incentive Stock Option or a Non-qualified Stock Option as determined at the discretion of the Committee. Notwithstanding the preceding, an Option will be deemed a Non-qualified Stock Option unless the Committee specifically designates it as an Incentive Stock Option to the extent that it does not otherwise satisfy the requirements for an Incentive Stock Option.â€œOptionholderâ€ means a person to whom an Option is granted pursuant to the Plan or, if applicable, such other person who holds an outstanding Option. 6â€‹â€œParticipantâ€ means an eligible person to whom an Award is granted pursuant to the Plan or, if applicable, such other person who holds an outstanding Award. â€œPerformance Share Awardâ€ means any Award granted pursuant to Section 6.3. â€œPlanâ€ means this Evolution Petroleum Corporation Amended and Restated 2016 Equity Incentive Plan, as amended and restated from time to time.â€œRelated Rightsâ€ has the meaning outlined in Section 6.1(a).â€œRestricted Awardâ€ means any Award granted under Section 6.2(a). â€œRestriction Periodâ€ means the period that a Restricted Award or a Performance Share Award is subject to conditions on vesting, performance, and transfer, as applicable, as set forth in the applicable Award Agreement or Section 6.2(c) (with respect to Restricted Awards) and Section 6.3(a) (with respect to Performance Awards).â€œRestricted Stockâ€ has the meaning outlined in Section 6.2(a).â€œRestricted Stock Unitâ€ has the meaning outlined in Section 6.2(a).â€œRule 16b-3â€ means Rule 16b-3 promulgated under the Exchange Act or any successor to Rule 16b-3, as in effect from time to time.â€œSection 409Aâ€ means Section 409A of the Code (relating to nonqualified deferred compensation requirements).â€œSecurities Actâ€ means the Securities Act of 1933, as amended. â€œSeparation from Serviceâ€ has the meaning ascribed to such aÂ term in the Change in Control Policy.â€œStock Appreciation Rightâ€ means the right pursuant to an Award granted under Section 6.1 to receive, upon exercise, an amount payable in cash or shares equal to the number of shares subject to the Stock Appreciation Right that is being exercised multiplied by the excess of (a) the Fair Market Value of a share of Common Stock on the date the Award is exercised, over (b) the Exercise Price specified in the applicable Award Agreement.â€œTen Percent Stockholderâ€ means a person who owns (or is deemed to own pursuant to Section 424(d) of the Code) stock possessing more than 10% of the total combined voting power of all classes of stock of the Company or any of its Affiliates.7â€‹â€œVested Unitâ€ has the meaning outlined in Section 6.2(d). â€œVoting Securitiesâ€ means combined voting power entitled to vote generally in the election of Directors of the Company.3.Administration.3.1Committee Composition. Except as otherwise determined by the Board, the Committee shall consist solely of two or more Non-Employee Directors.3.2Authority of Committee. The Plan shall be administered by the Committee or, at the Boardâ€™s sole discretion, by the Board. Subject to the terms of the Plan, the Committeeâ€™s charter and Applicable Laws, and in addition to other express powers and authorization conferred by the Plan, the Committee shall have the authority and discretion: (a)to select from among the eligible Employees, Consultants, and Directors those persons who will receive Awards, to determine the time or times of receipt of Awards, to determine the types of Awards and the number of shares of Common Stock or other amounts covered by the Awards, to establish the terms, conditions (including performance conditions) and other restrictions and other provisions of such Awards, to cancel or suspend Awards, modify the terms of, reissue or repurchase Awards, and accelerate the exercisability or vesting of any Award; (b)to conclusively construe and interpret the Plan and apply its provisions; to establish, amend, and rescind any rules and regulations relating to the Plan; and to make all other determinations that may be necessary or advisable for the administration of the Plan;(c)to authorize any person to execute, on behalf of the Company, any instrument required to carry out the purposes of the Plan; and(d)to exercise discretion to make any other determinations deemed necessary or advisable for the administration of the Plan. 3.3Committee Decisions Final. All decisions made by the Committee pursuant to the provisions of the Plan shall be final and binding on the Company and the Participants unless such decisions are determined by a court having jurisdiction to be arbitrary and capricious.3.4Delegation by Committee. Except to the extent prohibited by Applicable Laws, the Committee may allocate all or any portion of its responsibilities and powers to any one or more of its members and may delegate all or any part of its responsibilities and powers to any person or persons selected by it. Any such allocation or delegation may be revoked by the Committee at any time.3.5Indemnification. In addition to such other rights of indemnification as they may have as Directors or members of the Committee, and to the extent allowed by Applicable Laws, the Committee shall be indemnified by the Company against the reasonable expenses, including attorneyâ€™s fees, actually incurred in connection with any action, suit or proceeding or in connection with any appeal therein, to which the Committee may be party by reason of any action taken or failure to act under or in connection 8â€‹with the Plan or any Award granted under the Plan, and against all amounts paid by the Committee in settlement thereof (provided, however, that the settlement has been approved by the Company, which approval shall not be unreasonably withheld) or paid by the Committee in satisfaction of a judgment in any such action, suit or proceeding, except in relation to matters as to which it shall be adjudged in such action, suit or proceeding that such Committee did not act in good faith and in a manner which such person reasonably believed to be in the best interests of the Company, or in the case of a criminal proceeding, had no reason to believe that the conduct complained of was unlawful; provided, however, that within sixty (60) days after institution of any such action, suit or proceeding, such Committee shall, in writing, offer the Company the opportunity at its own expense to handle and defend such action, suit or proceeding. 3.6No Repricing. Except for either adjustments under Section 8 (relating to the adjustment of shares) or reductions of the Exercise Price of an Option or Stock Appreciation Right approved by the Companyâ€™s shareholders, the Exercise Price for any outstanding Option or Stock Appreciation Right may not be decreased after the Grant Date nor may an outstanding Option or Stock Appreciation Right granted under the Plan be surrendered to the Company as consideration for the grant of a replacement Option or Stock Appreciation Right with a lower Exercise Price or a Restricted Award or Performance Share Award under the Plan. Except as approved by the Companyâ€™s shareholders, in no event will any Option or Stock Appreciation Right granted under the Plan be surrendered to the Company in consideration for a cash payment if, at the time of such surrender, the Exercise Price of the Option or Stock Appreciation Right is greater than the then current Fair Market Value of a share of Common Stock. 3.7Minimum Vesting. Notwithstanding any other provision of the Plan to the contrary, Awards granted under the Plan shall vest or be paid out no earlier than the first anniversary of the date on which the Award is granted, and the performance period for any Performance Share Awards shall not be less than one-(1) year; provided, however, that the following Awards shall not be subject to the foregoing minimum vesting requirement: any (a)Â shares delivered in lieu of fully vested cash obligations, (b) additional Awards the Board or the Committee may grant, up to a maximum of five percent (5%) of the available share reserve authorized for issuance under the Plan pursuant to Section 4.1; and (c) Awards to Non-Employee Directors which may vest on the earlier of the one (1)-year anniversary of the date of grant or the next annual meeting of shareholders (provided that such vesting period may not be less than 50 weeks after the Grant Date); and, provided further, that the foregoing restrictions do not apply to the Boardâ€™s or the Committeeâ€™s discretion to provide for accelerated exercisability or vesting of any Award, including in cases of retirement, death, Disability, or termination of employment or upon a Change in Control pursuant to Section 9, under an Award Agreement or otherwise. 4.Shares Subject to the Plan.4.1Shares Authorized. Subject to adjustment in accordance with Section 8, a total of 2,555,323 (two million, five hundred and fifty-five thousand, and three hundred and twenty-three) shares of Common Stock shall be available for the grant of Awards under the Plan, provided that no more than 330,000 (three hundred thirty thousand) shares of Common Stock may be granted as Incentive Stock Options. During the terms of the Awards, the Company shall keep available at all times the number of shares of Common Stock required to satisfy such Awards. 9â€‹4.2Shares Distributed. Shares of Common Stock available for distribution under the Plan may consist, in whole or in part, of authorized and unissued shares, treasury shares, or shares reacquired by the Company in any manner.4.3Shares Available for Subsequent Issuance. Any shares of Common Stock subject to an Award that is canceled, forfeited, or expires prior to exercise or realization, either in full or in part, shall become available for issuance under the Plan. Notwithstanding anything to the contrary contained herein: shares subject to an Award under the Plan shall be made available for issuance or delivery under the Plan if such shares are (a) shares tendered in payment of an Option, (b) shares delivered or withheld by the Company to satisfy any tax withholding obligation, including shares covered by a Stock Appreciation Right, (c) shares covered by a cash or stock-settled Stock Appreciation Right or other Awards settled in cash or (d) any shares that were not issued upon the settlement of the Award. 4.4Form of Settlement. To the extent provided by the Committee, any Award may be settled in cash rather than shares of Stock or vice versa.5.Option Provisions. 5.1Generally. Each Option granted under the Plan shall be subject to the conditions outlined in this Section 5 and to other conditions consistent with the Plan as may be reflected in the applicable Award Agreement. All Options shall be separately designated Incentive Stock Options or Non-qualified Stock Options at the time of grant, and, if certificates are issued, a separate certificate or certificates will be issued for shares of Common Stock purchased on exercise of each type of Option. Notwithstanding the preceding, the Company shall have no liability to any Participant or any other person if an Option designated as an Incentive Stock Option fails to qualify as such at any time. The provisions of separate Options need not be identical. 5.2Term. No Option shall be exercisable more than ten (10) years from the Grant Date (five (5) years in the case of an Incentive Stock Option granted to a Ten Percent Stockholder) or such shorter period required by Applicable Laws. 5.3Consideration. The Exercise Price of Common Stock acquired pursuant to an Option shall be paid, to the extent permitted by applicable statutes and regulations, either (a) in cash or by certified or bank check at the time the Option is exercised or (b) in the discretion of the Committee, upon such terms as the Committee shall approve, the Exercise Price may be paid: (i) by delivery to the Company of other Common Stock with a Fair Market Value on the date of delivery equal to the Exercise Price (or portion thereof) due for the number of shares being acquired, or by means of attestation whereby the Participant identifies for delivery specific shares of Common Stock that have an aggregate Fair Market Value on the date of attestation equal to the Exercise Price (or portion thereof) and receives a number of shares of Common Stock equal to the difference between the number of shares thereby purchased and the number of identified attestation shares of Common Stock; (ii) a â€œcashlessâ€ exercise program established with a broker; (iii) by reduction in the number of shares of Common Stock otherwise deliverable upon exercise of such Option with a Fair Market Value equal to the aggregate Exercise Price at the time of exercise; (iv) any combination of the foregoing methods; or (v) in any other form of legal consideration that may be acceptable to the Committee. Unless otherwise specifically provided in the 10â€‹Option, the Exercise Price of Common Stock acquired pursuant to an Option that is paid by delivery (or attestation) to the Company of other Common Stock acquired, directly or indirectly from the Company, shall be paid only by shares of the Common Stock of the Company that have been held for more than six (6) months (or such longer or shorter period required to avoid a charge to earnings for financial accounting purposes). Notwithstanding the previous, during any period for which the Common Stock is publicly traded (i.e., the Common Stock is listed on any established stock exchange or a national market system), an exercise by a Director or Officer that involves or may involve a direct or indirect extension of credit or arrangement of an extension of credit by the Company, directly or indirectly, in violation of Section 402(a) of the Sarbanes-Oxley Act of 2002 shall be prohibited with respect to any Award under this Plan. 5.4Termination of Continuous Service. Unless otherwise provided in an Award Agreement or an employment agreement, in the event an Optionholderâ€™s Continuous Service terminates (other than upon the Optionholderâ€™s death or Disability), the Optionholder may exercise his or her Option (to the extent that the Optionholder was entitled to exercise such Option as of the date of termination) but only within such period ending on the earlier of (a) the date three (3) months following the termination of the Optionholderâ€™s Continuous Service (ninety (90) days in the case of an Incentive Stock Option) or (b) the expiration of the term of the Option as set forth in the Award Agreement; provided that, if the termination of Continuous Service is by the Company for Cause, all outstanding Options (whether or not vested) shall immediately terminate and cease to be exercisable. If, after termination, the Optionholder does not exercise his or her Option within the time specified in the Award Agreement (but in no event later than the expiration of the term of the Option in accordance with Section 5.2)t, the Option shall terminate. 5.5Extension of Termination Date. An Optionholderâ€™s Award Agreement may provide that if the exercise of the Option following the termination of the Optionholderâ€™s Continuous Service for any reason would be prohibited at any time because the issuance of shares of Common Stock would violate the registration requirements under the Securities Act or any other state or federal securities

law or the rules of any securities exchange or interdealer quotation system, then the Option shall terminate on the earlier of (a) the expiration of the term of the Option in accordance with Section 5.2 or (b) the expiration of a period after termination of the Participantâ€™s Continuous Service that is three (3) months after the end of the period during which the exercise of the Option would violate such registration or other securities law requirements. 5.6Disability of Optionholder. Unless otherwise provided in an Award Agreement, in the event that an Optionholderâ€™s Continuous Service terminates as a result of the Optionholderâ€™s Disability, the Optionholder may exercise his or her Option (to the extent that the Optionholder was entitled to exercise such Option as of the date of termination), but only within such period ending on the earlier of (a) the date twelve (12) months following such termination or (b) the expiration of the term of the Option as set forth in the Award Agreement (but in no event later than the expiration of the term of the Option in accordance with Section 5.2). If, after termination, the Optionholder does not exercise their Option within the time specified herein or in the Award Agreement, the Option shall terminate. 5.7Death of Optionholder. Unless otherwise provided in an Award Agreement, in the event an Optionholderâ€™s Continuous Service terminates as a result of the Optionholderâ€™s death, then the Option may be exercised (to the extent the Optionholder was entitled to exercise such Option as of the date of death) by the Optionholderâ€™s estate, by a person who acquired the right to exercise the Option by bequest 11â€‹or inheritance or by a person designated to exercise the Option upon the Optionholderâ€™s death, but only within the period ending on the earlier of (a) the date twelve (12) months following the date of death or (b) the expiration of the term of such Option as set forth in the Award Agreement (but in no event later than the expiration of the term of the Option in accordance with Section 5.2). If, after the Optionholderâ€™s death, the Option is not exercised within the time specified herein or in the Award Agreement, the Option shall terminate. 5.8Incentive Stock Option $100,000 Limitation. To the extent that the aggregate Fair Market Value (determined at the time of grant) of Common Stock with respect to which Incentive Stock Options are exercisable for the first time by any Optionholder during any calendar year (under all plans of the Company and its Affiliates) exceeds $100,000, the Options or portions thereof which exceed such limit (according to the order in which they were granted) shall be treated as Non-qualified Stock Options. 5.9Disqualifying Dispositions. Any Participant who shall make a â€œdispositionâ€ (as defined in Section 424 of the Code) of all or any portion of shares of Common Stock acquired upon exercise of an Incentive Stock Option within two (2) years from the Grant Date of such Incentive Stock Option or within one (1) year after the issuance of the shares of Common Stock acquired upon exercise of such Incentive Stock Option (a â€œDisqualifying Dispositionâ€) shall be required to immediately advise the Company in writing as to the occurrence of the sale and the price realized upon the sale of such shares of Common Stock.6.Provisions of Awards Other Than Options.6.1Stock Appreciation Rights.(a)General. Each Stock Appreciation Right granted under the Plan shall be subject to the conditions set forth in this Section 6.1 and to such other conditions consistent with the Plan as may be reflected in the applicable Award Agreement. Stock Appreciation Rights may be granted in tandem with an Option granted under the Plan (â€œRelated Rightsâ€) or alone. (b)Related Rights. Any Related Right that relates to a Non-qualified Stock Option may be granted at the same time the Option is granted or at any time thereafter but before the exercise or expiration of the Option. Any Related Right that relates to an Incentive Stock Option must be granted at the same time the Incentive Stock Option is granted. The exercise of a Related Right shall cancel the corresponding Option, and the exercise of a corresponding Option shall cancel the Related Right, in any case, with respect to the shares of Common Stock so exercised. Any Related Rights shall be subject to the same terms and conditions relating to transferability and exercise as apply to the related Option (and shall be exercisable only to the same extent as the related Option).(c)Term of Stock Appreciation Rights. The term of a Stock Appreciation Right granted under the Plan shall be determined by the Committee; provided, however, no Stock Appreciation Right shall be exercisable more than ten (10) years from the Grant Date(d)Exercise of Stock Appreciation Rights. A Stock Appreciation Right, by its terms, shall be exercisable only when the Fair Market Value per share of Common Stock subject to the 12â€‹Stock Appreciation Right (and related Option, if applicable) exceeds the Exercise Price per share thereof. No Stock Appreciation Rights may be granted in tandem with an Option unless the Committee determines that the requirements of the Plan relating to Related Rights are satisfied.(e)Exercise and Payment. Upon exercise of a Stock Appreciation Right, the holder shall be entitled to receive from the Company an amount equal to the number of shares of Common Stock subject to the Stock Appreciation Right that is being exercised multiplied by the excess of (i) the Fair Market Value of a share of Common Stock on the date the Award is exercised, over (ii) the Exercise Price specified in the Stock Appreciation Right or related Option. Payment with respect to the exercise of a Stock Appreciation Right shall be made on the date of exercise. Payment shall be made in the form of shares of Common Stock (with or without restrictions as to the substantial risk of forfeiture and transferability, as determined by the Committee in its sole discretion), cash, or a combination thereof, as determined by the Committee.6.2Restricted Awards.(a)General. A â€œRestricted Awardâ€ is an Award of actual shares of Common Stock (â€œRestricted Stockâ€) or hypothetical Common Stock units (â€œRestricted Stock Unitsâ€) having a value equal to the Fair Market Value of an identical number of shares of Common Stock. as the Committee shall determine.(b)Grants of Restricted Awards. (i)Each Award of Restricted Stock granted under the Plan shall be subject to the conditions set forth in this Section 6.2(b) and to such other conditions consistent with the Plan as may be reflected in the applicable Award Agreement. If the Committee determines that the Restricted Stock shall be held by the Company or in escrow rather than delivered to the Participant pending the release of the applicable restrictions, the Committee may require the Participant to additionally execute and deliver to the Company (A) an escrow agreement satisfactory to the Committee, if applicable and (B) the appropriate blank stock power with respect to the Restricted Stock covered by such agreement. If a Participant fails to execute an agreement evidencing an Award of Restricted Stock and, if applicable, an escrow agreement and stock power, the Award shall be null and void unless otherwise waived by the Committee. Subject to the restrictions set forth in the Award, the Participant generally shall have the rights and privileges of a shareholder as to such Restricted Stock, including the right to vote such Restricted Stock and the right to receive dividends. Â (ii)Each Award of Restricted Stock Units granted under the Plan shall be subject to the conditions set forth in this Section 6.2(b) and to such other conditions consistent with the Plan as may be reflected in the applicable Award Agreement. No shares of Common Stock shall be issued at the time a Restricted Stock Unit is granted, and the Company will not be required to set aside a fund for the payment of any such Award. A Participant shall have no voting rights with respect to any Restricted Stock Units granted hereunder. At the discretion of the Committee, each Restricted Stock Unit (with each unit 13â€‹representing one (1) share of Common Stock) may be credited with cash and stock dividends paid by the Company in respect of one share of Common Stock (â€œDividend Equivalentsâ€). Unless the Committee determines otherwise, Dividend Equivalents shall be paid currently (and in no case later than the end of the fiscal year in which the dividend is paid to the holders of the Common Stock or, if later, the short-term deferral deadline determined under Section 409A). (c)Restrictions(i)Restricted Stock awarded to a Participant shall be subject to the following restrictions until the expiration of the Restricted Period and to such other terms and conditions as may be set forth in the applicable Award Agreement: (A) if an escrow arrangement is used, the Participant shall not be entitled to delivery of the stock certificate; (B) the shares shall be subject to the restrictions on transferability set forth in the Award Agreement; (C) the shares shall be subject to forfeiture to the extent and subject to such terms and conditions provided in the applicable Award Agreement; and (D) to the extent such shares are forfeited, the stock certificates shall be returned to the Company, and all rights of the Participant to such shares and as a shareholder with respect to such shares shall terminate without further obligation on the part of the Company. Each certificate representing Restricted Stock awarded under the Plan shall bear a legend in such form as the Company deems appropriate.(ii)Restricted Stock Units awarded to any Participant shall be subject to forfeiture during the Restriction Period to the extent and subject to such terms and conditions provided in the applicable Award Agreement and to the extent such Restricted Stock Units are forfeited, all rights of the Participant to such Restricted Stock Units shall terminate without further obligation on the part of the Company.(iii)The Committee shall have the authority to remove any or all of the restrictions on the Restricted Stock and Restricted Stock Units whenever it may determine that such action is appropriate or desirable, whether by reason of changes in Applicable Laws or other changes in circumstances arising after the date which the Restricted Stock or Restricted Stock Units are granted. (d)Delivery of Restricted Stock and Settlement of Restricted Stock Units. (i)Upon the expiration of the Restricted Period with respect to any shares of Restricted Stock, the restrictions set forth in Section 6.2(c) and the applicable Award Agreement shall be of no further force or effect with respect to such shares, except as set forth in the applicable Award Agreement. If an escrow arrangement is used, upon such expiration, the Company shall deliver to the Participant, or his or her beneficiary, without charge, the stock certificate (or such other evidence of transfer, including book entry) evidencing the shares of Restricted Stock which have not then been forfeited and with respect to which the Restricted Period has expired (to the nearest full share) and 14â€‹any cash dividends or stock dividends credited to the Participantâ€™s account with respect to such Restricted Stock and the interest thereon, if any. (ii)Upon the expiration of the Restricted Period with respect to any outstanding Restricted Stock Units, the Company shall deliver to the Participant, or his or her beneficiary, without charge, one share of Common Stock for each such outstanding vested Restricted Stock Unit (â€œVested Unitâ€); provided, however, that, if otherwise provided in the applicable Award Agreement or otherwise determined by the Committee, the Committee may, in its sole discretion, elect to pay cash or part cash and part Common Stock in lieu of delivering only shares of Common Stock for Vested Units. If a cash payment is made in lieu of delivering shares of Common Stock, the amount of such payment shall be equal to the Fair Market Value of the Common Stock as of the date on which the Restricted Period lapsed in the case of Restricted Stock Units with respect to each Vested Unit. 6.3Performance Share Awards.(a)Grant of Performance Share Awards. The grant of a Restricted Award that is conditioned, whether in whole or in part, on satisfaction of performance conditions (other than solely based on continuing service) shall be a â€œPerformance Share Awardâ€ for purposes of the Plan. Each Performance Share Award granted under the Plan shall be subject to the conditions set forth in this Section 6.3 and to such other conditions consistent with the Plan as may be reflected in the applicable Award Agreement. The Committee shall have the discretion to determine: (i) the number of shares of Common Stock or Common Stock denominated units subject to a Performance Share Award granted to any Participant; (ii) the Restriction Period applicable to any Performance Share Award; (iii) the performance conditions and other conditions that must be satisfied for a Participant to earn an Award; and (iv) the other terms, conditions, and restrictions of the Award. (b)Earning Performance Share Awards. The number of Performance Shares earned by a Participant will depend on the extent to which the performance conditions established by the Committee are satisfied, as determined by the Committee. (c)Granting of Shares of Common Stock. To the extent that any Performance Share Award is granted in the form of shares of Common Stock, such award shall also be treated as an award of Restricted Stock, and the relevant provisions of Section 6.2 shall apply to the issuance and holding of such shares during the Restriction Period. 7.Securities Law Compliance. No shares of Common Stock shall be purchased or sold pursuant to any Award Agreement unless and until (a) any then applicable requirements of state or federal laws and regulatory agencies have been fully complied with to the satisfaction of the Company and its counsel and (b) if required to do so by the Company, the Participant has executed and delivered to the Company a letter of investment intent in such form and containing such provisions as the Committee may require. The Company shall use reasonable efforts to seek to obtain from each regulatory commission or agency having jurisdiction over the Plan such authority as may be required to grant Awards and to issue 15â€‹and sell shares of Common Stock upon exercise of the Awards; provided, however, that this undertaking shall not require the Company to register under the Securities Act the Plan, any Award or any Common Stock issued or issuable pursuant to any such Award. If, after reasonable efforts, the Company is unable to obtain from any such regulatory commission or agency the authority which counsel for the Company deems necessary for the lawful issuance and sale of Common Stock under the Plan, the Company shall be relieved from any liability for failure to issue and sell Common Stock upon exercise of such Awards unless and until such authority is obtained.8.Adjustments Upon Changes in Stock. In the event of changes in the outstanding Common Stock or the capital structure of the Company by reason of any stock or extraordinary cash dividend, stock split, reverse stock split, an extraordinary corporate transaction such as any recapitalization, reorganization, merger, consolidation, combination, exchange, or other relevant change in capitalization occurring after the Grant Date of any Award, Awards granted under the Plan and any Award Agreements, the Exercise Price of Options and Stock Appreciation Rights, the maximum number of shares of Common Stock subject to all Awards and available for issuance under the Plan will be equitably adjusted or substituted, as to the number, price or kind of a share of Common Stock or other consideration subject to such Awards to the extent necessary to preserve the economic intent of such Award. In the case of adjustments made pursuant to this Section 8, unless the Committee specifically determines that such adjustment is in the best interests of the Company or its Affiliates, the Committee shall, in the case of Incentive Stock Options, ensure that any adjustments under this Section 8 will not constitute a modification, extension or renewal of the Incentive Stock Options within the meaning of Section 424(h)(3) of the Code and, in the case of any Option or Stock Appreciation Right, ensure that any adjustments under this Section 8 will not constitute a modification of such Awards within the meaning of Section 409A. Any adjustments made under this Section 8 shall be made in a manner that does not adversely affect the exemption provided pursuant to Rule 16b-3 under the Exchange Act. The Company shall give each Participant notice of an adjustment hereunder, and upon notice, such adjustment shall be conclusive and binding for all purposes.9.Effect of Change in Control.9.1Awards Not Assumed. Upon a Change in Control event, if not assumed by the successor entity, all outstanding Awards will immediately vest and the holders will receive, in cash or stock, or any combination thereof, the value of such Awards based upon the price per share of Common Stock received or to be received by other shareholders of the Company in the event; provided that in the case of an Option or Stock Appreciation Right , the amount of such payment may be the excess of value of the shares of Common Stock subject to the Option or Stock Appreciation Right at the time of the event over the Exercise Price), and performance-based Awards (i.e., any Awards that become earned or vested based on satisfaction of performance conditions), shall be paid out on a pro rata basis determined as of the level of achievement of performance conditions determined as of the date of the Change in Control, irrespective of whether the applicable performance period has yet to be satisfied as of such date or Separation from Service occurs at such time or subsequently, which payments with respect to any Awards, if any, shall be made as of the payment date determined under the Change in Control Policy or, if later, the date required by Section 409A. In the case of any Option or Stock Appreciation Right with an Exercise Price that equals or exceeds the price paid for a share of Common Stock in connection with the Change in Control, the 16â€‹Committee may cancel the Option or Stock Appreciation Right without the payment of consideration, therefore. 9.2Vesting on Separation from Service. If a Change in Control event occurs and if a Participantâ€™s Separation from Service occurs as a result of a Covered Termination, all Awards that are held by the Participant and that are outstanding as of the date of the Participantâ€™s Covered Termination will become fully vested, including any restricted stock awards and restricted stock unit awards, and any Options and Stock Appreciation Rights held by the Participant will become fully exercisable; provided that any performance-based Awards (i.e., any Awards that become earned or vested based on satisfaction of performance conditions) shall be paid out on a pro rata basis determined as of the level of achievement of performance conditions determined as of the date of the Change in Control, irrespective of whether the applicable performance period has yet to be satisfied as of such date or Separation from Service occurs at such time or subsequently, which payments with respect to any Awards, if any, shall be made as of the payment date determined under the Change in Control Policy or, if later, the date required by Section 409A. The preceding provisions shall apply without regard to any contrary provisions in any Award Agreement.10.Amendment and Termination. The Board may, at any time, amend or terminate the Plan. The Board or the Committee may amend any Award Agreement, provided that no amendment or termination may, in the absence of written consent to the change by the affected Participant, adversely affect the rights of any Participant or Beneficiary under any Award granted under the Plan prior to the date such effective date of such amendment or termination; and provided further that, adjustments pursuant to Section 8 (relating to adjustments in connection with changes in Common Stock) shall not be subject to the preceding provisions. Notwithstanding the foregoing, no amendment of the Plan or any Award shall be effective unless approved by the shareholders of the Company to the extent shareholder approval is necessary to satisfy any Applicable Laws or the rules of any stock exchange on which the Common Stock is listed and, at the time of any such amendment, the Board or the Committee, as applicable, shall determine, upon advice from counsel, whether such amendment will be contingent on shareholder approval. It is the intention of the Company that, to the extent that any provisions of this Plan or any Awards granted hereunder are subject to Section 409A of the Code, the Plan and the Awards comply with the requirements of Section 409A of the Code and that the Board and the Committee, as applicable, shall have the authority (but not the obligation) to amend the Plan as it deems necessary to conform to Section 409A (without regard to the consent of any other person). 11.General Provisions.11.1Stockholder Rights. Except as provided in the Plan or an Award Agreement, no Participant shall be deemed to be the holder of or to have any of the rights of a holder with respect to any shares of Common Stock subject to such Award unless and until such Participant has satisfied all requirements for theÂ exercise of the Award pursuant to its terms. No adjustment shall be made for dividends (ordinary or extraordinary, whether in cash, securities, or other property) or distributions of other rights for which the record date is prior to the date such Common Stock certificate is issued, except as provided in Section 8 hereof. 17â€‹11.2No Employment or Other Service Rights. Nothing in the Plan or any instrument executed or Award granted pursuant thereto shall confer upon any Participant any right to continue to serve the Company or an Affiliate in the capacity in effect at the time the Award was granted or shall affect the right of the Company or an Affiliate to terminate (a) the employment of an Employee with or without notice and with or without Cause or (b) the service of a Director pursuant to the By-laws of the Company or an Affiliate, and any

applicable provisions of the corporate law of the state in which the Company or the Affiliate is incorporated, as the case may be. 11.3Withholding Obligations. To the extent provided by the terms of an Award Agreement and subject to the discretion of the Committee, the Participant may satisfy any federal, state, or local tax withholding obligation relating to the exercise or acquisition of Common Stock under an Award by any of the following means (in addition to the Companyâ€™s right to withhold from any compensation paid to the Participant by the Company) or by a combination of such means: (a) tendering a cash payment; (b) authorizing the Company to withhold shares of Common Stock from the shares of Common Stock otherwise issuable to the Participant as a result of the exercise or acquisition of Common Stock under the Award, provided, however, that no shares of Common Stock are withheld with a value exceeding the maximum marginal income tax rates, including federal, state and local, as applicable; or (c) delivering to the Company previously owned and unencumbered shares of Common Stock of the Company. 11.4Transferability of Awards Except as otherwise provided by the Committee, Awards under the Plan are not transferable except as designated by theÂ Participant by will or by the laws of descent and distribution and, in the case of an Option, shall be exercisable during the lifetime of the Optionholder only by the Optionholder. Subject to the approval of the Committee or a duly authorized officer, an Optionholder may, by delivering written notice to the Company in a satisfactory form, designate a third party who, in the event of the death of the Optionholder, shall thereafter be entitled to exercise a Non-qualified Stock Option. Notwithstanding the foregoing or anything in the Plan or an Award Agreement to the contrary, no Option may be transferred to any financial institution without prior shareholder approval.11.5Use of Proceeds from Stock. Proceeds from the sale of Common Stock pursuant to Awards, or upon exercise thereof, shall constitute general funds of the Company. 11.6Forfeiture Events. The Committee may specify in an Award Agreement that the Participantâ€™s rights, payments, and benefits with respect to an Award shall be subject to reduction, cancellation, forfeiture, or recoupment upon the occurrence of certain events, in addition to applicable vesting conditions of an Award. Such events may include, without limitation, a breach of non-competition, non-solicitation, confidentiality, or other restrictive covenants that are contained in the Award Agreement or otherwise applicable to the Participant, termination of the Participantâ€™s Continuous Service for Cause, or other conduct by the Participant that is detrimental to the business or reputation of the Company, its Affiliates, or both.11.7Clawback. Notwithstanding any other provisions in this Plan, any Award that is subject to recovery under any law, government regulation, or stock exchange listing requirement will be subject to such deductions and clawback as may be required to be made pursuant to such law, government regulation or stock exchange listing requirement (or any policy adopted by the Company pursuant to any such law, government regulation or stock exchange listing requirement).18â€‹11.8Other Compensation Arrangements. Nothing contained in this Plan shall prevent the Board from adopting other or additional compensation arrangements, subject to shareholder approval if such approval is required, and such arrangements may be either generally applicable or applicable only in specific cases. 11.9Sub-plans. The Committee may, from time to time, establish sub-plans under the Plan for purposes of satisfying blue sky, securities, tax, or other laws of various jurisdictions in which the Company intends to grant Awards. Any sub-plans shall contain such limitations and other terms and conditions as the Committee determines are necessary or desirable. All sub-plans shall be deemed a part of the Plan, but each sub-plan shall apply only to the Participants in the jurisdiction for which the sub-plan was designed.11.10Unfunded Plan. The Plan shall be unfunded. Neither the Company, the Board, nor the Committee shall be required to establish any special or separate fund or to segregate any assets to assure the performance of its obligations under the Plan.11.11Delivery. Upon exercise of a right granted under this Plan, the Company shall issue Common Stock or pay any amounts due within a reasonable period thereafter. Subject to any statutory or regulatory obligations the Company may otherwise have, for purposes of this Plan, thirty (30) days shall be considered a reasonable period. 11.12No Fractional Shares. No fractional shares of Common Stock shall be issued or delivered pursuant to the Plan. The Committee shall determine whether cash, additional Awards, or other securities or property shall be issued or paid in lieu of fractional shares of Common Stock or whether any fractional shares should be rounded, forfeited, or otherwise eliminated.11.13Binding on Successor. The obligations of the Company under the Plan and any Awards shall be binding upon any successor corporation or organization resulting from the merger, consolidation, or other reorganization of the Company or upon any successor corporation or organization succeeding to all or substantially all of the assets and business of the Company and its Affiliates, taken as a whole.11.14Section 409A. The Plan and all Awards made under the Plan are intended to comply with Section 409A to the extent subject thereto, and, accordingly, to the maximum extent permitted, the Plan and each Award Agreement shall be interpreted and administered to comply therewith. Any payments described in the Plan or any Award Agreement that are due within the â€œshort-term deferral periodâ€ as defined in Section 409A shall not be treated as deferred compensation unless Applicable Laws require otherwise. Notwithstanding anything to the contrary in the Plan, to the extent required to avoid accelerated taxation and tax penalties under Section 409A, amounts that would otherwise be payable and benefits that would otherwise be provided pursuant to the Plan during the six (6) month period immediately following the Participantâ€™s termination of Continuous Service shall instead be paid on the first payroll date after the six (6)-month anniversary of the Participantâ€™s separation from service (or the Participantâ€™s death, if earlier). Notwithstanding the preceding, neither the Company nor the Committee shall have any obligation to take any action to prevent the assessment of any excise tax or penalty on any Participant under Section 409A, and neither the Company nor the Committee will have any liability to any Participant for such tax or penalty. Without limiting the generality of the preceding, none of the Company 19â€‹nor any of its Affiliates, nor their respective directors, officers, employees, or advisers will be liable to any Participant (or any other individual claiming a benefit through Participant) for any tax, interest, or penalties Participant may owe as a result of participation in the Plan. The Company and its Affiliates will have no obligation to indemnify or otherwise protect any Participant from the obligation to pay any taxes pursuant to Section 409A.11.15Section 16. It is the intent of the Company that the Plan satisfies, and be interpreted in a manner that satisfies, the applicable requirements of Rule 16b-3 as promulgated under Section 16 of the Exchange Act so that Participants will be entitled to the benefit of Rule 16b-3, or any other rule promulgated under Section 16 of the Exchange Act, and will not be subject to short-swing liability under Section 16 of the Exchange Act. Accordingly, if the operation of any provision of the Plan would conflict with the intent expressed in this Section 11.15, such provision, to the extent possible, shall be interpreted and deemed amended so as to avoid such conflict.11.16Beneficiary Designation. Each Participant under the Plan may, from time to time, name any beneficiary or beneficiaries by whom any right under the Plan is to be exercised in case of such Participantâ€™s death. Each designation will revoke all prior designations by the same Participant, shall be in a form reasonably prescribed by the Committee, and shall be effective only when filed by the Participant in writing with the Company during the Participantâ€™s lifetime.11.17Expenses. The Company shall pay the costs of administering the Plan.11.18Severability. If any of the provisions of the Plan or any Award Agreement is held to be invalid, illegal, or unenforceable, whether in whole or in part, such provision shall be deemed modified to the extent, but only to the extent, of such invalidity, illegality or unenforceability and the remaining provisions shall not be affected thereby.11.19Plan Headings. The headings in the Plan are for purposes of convenience only and are not intended to define or limit the construction of the provisions hereof.11.20Non-Uniform Treatment. The Committeeâ€™s determinations under the Plan need not be uniform and may be made selectively among persons who are eligible to receive or actually receive Awards. Without limiting the generality of the previous, the Committee shall be entitled to make non-uniform and selective determinations, amendments, and adjustments and to enter into non-uniform and selective Award Agreements.12.History; Effective Date of Plan. The Plan shall become effective as of the Effective Date. The Plan was first adopted by the Board on December 1, 2016, and approved by shareholders on December 8, 2016; first amended by the Board on October 22, 2020, and approved by shareholders on December 9, 2020.Â The Plan, as amended and restated as set forth herein, was adopted by the Board on October 18, 2024. The Plan shall be unlimited in duration and, in the event of Plan termination, shall remain in effect as long as any Awards granted under it are outstanding and not fully vested or paid, as applicable; provided, however, that no new Awards shall be made under the Plan on or after the tenth anniversary of the Effective Date. Any Awards granted under the Plan prior to the Effective Date shall continue to be subject to the terms and conditions of the Plan as in effect immediately prior to the 20â€‹Effective Date. If the Effective Date does not occur, Awards may continue to be made under the Plan as in effect prior to the Effective Date.13.Choice of Law. The law of the State of Nevada shall govern all questions concerning the construction, validity, and interpretation of this Plan without regard to such stateâ€™s conflict of law rules.21 EX-10.2(12) 3 epm-20241231xex10d212.htm EX-10.2(12) June __, 2005EXHIBIT 10.2.12January 6, 2025EVOLUTION PETROLEUM CORPORATIONEVOLUTION PETROLEUM OK, INC.NGS TECHNOLOGIES, INC.EVOLUTION ROYALTIES, INC.EVOLUTION PETROLEUM WEST, INC.1155 Dairy Ashford Rd. Financial Statement Presentation Nature of Operations. Evolution Petroleum Corporation ("Evolution," and together with its consolidated subsidiaries, the "Company") is an independent energy company focused on maximizing returns to shareholders through the ownership of and investment in onshore oil and natural gas properties in the United States. The Company's long-term goal is to maximize total shareholder return from a diversified portfolio of long-life oil and natural gas properties built through acquisitions and through selective development opportunities, production enhancement, and other exploitation efforts on its oil and natural gas properties. The Company's oil and natural gas properties consist of non-operated interests in the following areas: the SCOOP and STACK plays of the Anadarko Basin located in central Oklahoma; the Chaveroo oilfield in Chaves and Roosevelt Counties of New Mexico; the Jonah Field in Sublette County, Wyoming; the Williston Basin in North Dakota; the Barnett Shale located in North Texas; the Hamilton Dome Field located in Hot Springs County, Wyoming, a secondary recovery field utilizing water injection wells to pressurize the reservoir; the Delhi Holt-Bryant Unit in the Delhi Field in Northeast Louisiana, a CO₂ enhanced oil recovery project; as well as small overriding royalty interests in four onshore Texas wells. Interim Financial Statements. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") for interim financial information and the appropriate rules and regulations of the Securities and Exchange Commission ("SEC"). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. All adjustments (consisting of normal recurring accruals) which are, in the opinion of management, necessary for a fair presentation of the financial position and results of operations for the interim periods presented have been included. The interim financial information and notes hereto should be read in conjunction with the Company's 2024 Annual Report on Form 10-K for the fiscal year ended June 30, 2024, as filed with the SEC on September 11, 2024. The results of operations for interim periods are not necessarily indicative of results to be expected for a full fiscal year. The Company has evaluated events and transactions through the date of issuance of these unaudited condensed consolidated financial statements. Principles of Consolidation and Reporting. The unaudited condensed consolidated financial statements include the accounts of Evolution Petroleum Corporation and its wholly-owned subsidiaries. All significant intercompany transactions have been eliminated in consolidation. The unaudited condensed consolidated financial statements for the previous year may be condensed or include certain reclassifications to conform to the current presentation. Risk and Uncertainties. The Company's oil and natural gas interests are operated by third-party operators and involve other third-party working interest owners. As a result, the Company has limited ability to influence the operation or future development of such properties. However, the Company is proactive with its third-party operators to review the management of capital expenditures. Oil and Natural Gas Properties. The Company uses the full-cost method of accounting for its investments in oil and natural gas properties. Under this method of accounting, all costs incurred in the acquisition, exploration and development of oil and natural gas properties, including unproductive wells, are capitalized. This includes any internal costs that are directly related to property acquisition, exploration, and development activities but does not include any costs related to production, general corporate overhead, or similar activities. Oil and natural gas properties include costs that are excluded from depletion and amortization, which represent investments in unproved and unevaluated properties and include non-producing leasehold, geologic and geophysical costs associated with leasehold or drilling interests, and exploration drilling costs. These costs are excluded until the project is evaluated and proved reserves are established or impairment is determined. - Use of Estimates. The preparation of the Company's unaudited condensed consolidated financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities, if any, at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the respective reporting periods. Significant estimates include (a) reserve quantities and estimated future cash flows associated with proved reserves, which may significantly impact depletion expense and potential impairments of oil and natural gas properties, (b) asset retirement obligations, (c) stock-based compensation, (d) fair values of derivative contract assets and liabilities, (e) income taxes and the valuation of deferred income tax assets, (f) commitments and contingencies, and (g) accruals of crude oil, natural gas, and NGL revenues and expenses. The Company analyzes estimates and judgments based on historical experience and various other assumptions and information that are believed to be reasonable. Estimates and assumptions about future events and their effects cannot be predicted with certainty and, accordingly, these estimates may change as additional information is obtained, as new events occur, and as the Company's environment changes. Actual results may differ from the estimates and assumptions used in the preparation of the Company's unaudited condensed consolidated financial statements. Recently Issued Accounting Pronouncements In November 2024, the FASB issued ASU 2024-03, Disaggregation of Income Statement Expenses ("ASU 2024-03"). ASU 2024-03 increases the transparency of expense information presented in the statement of operations through disclosures of expanded disaggregation of relevant expense captions including purchases of inventory, employee compensation, depletion, depreciation, and amortization. ASU 2024-03 is effective for annual periods beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027 with early adoption permitted. The Company is currently evaluating ASU 2024-03 and the impact it may have to the Company's disclosures. In December 2023, the FASB issued ASU 2023-09, Improvements to Income Tax Disclosures ("ASU 2023-09"). ASU 2023-09 enhances the transparency of income tax disclosures by expanding the income tax rate reconciliation disclosure and income taxes paid information. ASU 2023-09 also includes certain other amendments to improve the effectiveness of income tax disclosures. ASU 2023-09 is effective for annual periods beginning after December 15, 2024. The Company is currently evaluating ASU 2023-09 and the impact it may have to the Company's financial position, results of operations, cash flow or disclosures. In November 2023 the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures ("ASU 2023-07"). ASU 2023-07 expands the segment disclosures, even for entities with only one reportable segment, to include additional information about significant segment expenses and other segment items on an annual and interim basis as well as the title and position of the chief operating decision maker. ASU 2023-07 is effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted and entities must adopt the amendment retrospectively for all prior periods presented in the financial statements. The Company is currently evaluating ASU 2023-07 and the impact it may have to the Company's financial position, results of operations, cash flow or disclosures. Other accounting pronouncements that have recently been issued by the FASB or other standards-setting bodies are not expected to have a material impact on the Company's financial position, results of operations, cash flows or disclosures. Other accounting pronouncements that have recently been issued by the FASB or other standards-setting bodies are not expected to have a material impact on the Company's financial position, results of operations, cash flows or disclosures. Note 2. Revenue Recognition The Company's revenues are primarily generated from its crude oil, natural gas and NGL production from the SCOOP and STACK plays in central Oklahoma, the Chaveroo oilfield in Chaves and Roosevelt Counties of New Mexico, the Jonah Field in Sublette County, Wyoming, the Williston Basin in North Dakota, the Barnett Shale located in North Texas, the Hamilton Dome Field in Wyoming, and the Delhi Field in Northeast Louisiana. Additionally, an overriding royalty interest retained in a past divestiture of Texas properties provides de minimis revenue. (“Enterprise”) and its natural gas production to different purchasers. The Company does not take production in-kind at any of its other properties and does not negotiate contracts with customers for such production. The Company recognizes crude oil, natural gas, and NGL production revenue at the point in time when custody and title (“control”) of the product transfers to the customer. The sales of oil and natural gas are made under contracts which the Company’s third-party operators of its wells have negotiated with customers, which typically include variable consideration that is based on pricing tied to local indices and volumes delivered in the current month. The Company typically receives payment from the sale of oil and natural gas production one to two months after delivery. Judgments made in applying the guidance in ASC 606, Revenue from Contracts with Customers, relate primarily to determining the point in time when control of product transfers to the customer. The Company does not believe that significant judgments are required with respect to the determination of the transaction price, including amounts that represent variable consideration, as volume and price carry a low level of estimation uncertainty given the precision of volumetric measurements and the use of index pricing with predictable differentials. Accordingly, the Company does not consider estimates of variable consideration to be constrained. The Company’s contractual performance obligations arise upon the production of hydrocarbons from wells in which the Company has an ownership interest. The performance obligations are considered satisfied upon control of produced hydrocarbons transferring to a customer at a specified delivery point. Consideration is allocated to completed performance obligations at the end of an accounting period. Revenue is recorded in the month when contractual performance obligations are satisfied. However, settlement statements from the purchasers of hydrocarbons and the related cash consideration are received by field operators one to two months before the Company receives payment and documentation from the operator, which is typical in the oil and natural gas industry. As a result, the Company must estimate the amount of production delivered to the customer and the consideration that will ultimately be received for the sale of the product. To estimate accounts receivable from operators’ contracts with customers, the Company uses knowledge of its properties, information from field operators, historical performance, contractual arrangements, index pricing, quality and transportation differentials, and other factors. Because the contractual performance obligations have been satisfied and an unconditional right to consideration exists as of the balance sheet date, the Company recognized amounts due from contracts with field operators as “Receivables from crude oil, natural gas, and natural gas liquids revenues” on the unaudited condensed consolidated balance sheets. Differences between estimates and actual amounts received for product sales are recorded in the month that payments received from purchasers are remitted to the Company by field operators. disaggregates the Company’s revenues by major product for the three and six months ended December 31, 2024 and 2023 (in thousands): <table style="border-collapse:collapse;font-size:16pt;height:max-content;margin-left:auto;margin-right:auto;padding-left:0pt;padding-right:0pt;width:73.88%;"><tr style="height:1pt;"><td style="vertical-align:bottom;width:26.94%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:2.51%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:2.06%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:13.09%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:3.27%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:2.06%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:13.09%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:3.29%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:2.07%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:13.1%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:3.29%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:2.07%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:13.1%;margin:0pt;padding:0pt;"> . </td></tr><tr><td style="vertical-align:bottom;width:26.94%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.51%;margin:0pt;padding:0pt;"> . </td><td colspan="5" style="vertical-align:bottom;width:33.59%;margin:0pt;padding:0pt;"> Three Months Ended </td><td style="vertical-align:bottom;white-space:nowrap;width:3.29%;margin:0pt;padding:0pt;"> . </td><td colspan="5" style="vertical-align:bottom;width:33.66%;margin:0pt;padding:0pt;"> Six Months Ended </td></tr><tr><td style="vertical-align:bottom;width:26.94%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:2.51%;margin:0pt;padding:0pt;"> . </td><td colspan="5" style="vertical-align:bottom;width:33.59%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> December 31, </td><td style="vertical-align:bottom;white-space:nowrap;width:3.29%;margin:0pt;padding:0pt;"> . </td><td colspan="5" style="vertical-align:bottom;width:33.66%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> December 31, </td></tr><tr><td style="vertical-align:bottom;width:26.94%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.51%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:15.15%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> 2024 </td><td style="vertical-align:bottom;white-space:nowrap;width:3.27%;margin:0pt;padding:0pt;"> . </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:15.15%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> 2023 </td><td style="vertical-align:bottom;white-space:nowrap;width:3.29%;margin:0pt;padding:0pt;"> . </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:15.18%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> 2024 </td><td style="vertical-align:bottom;white-space:nowrap;width:3.29%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:15.18%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> 2023 </td></tr><tr><td style="vertical-align:bottom;width:26.94%;background:#cceeff;margin:0pt;padding:0pt;"> Revenues </td><td style="vertical-align:bottom;white-space:nowrap;width:2.51%;background:#cceeff;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:2.06%;background:#cceeff;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:13.09%;background:#cceeff;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:3.27%;background:#cceeff;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-

Acquisitions SCOOP/STACK Acquisitions On February 12, 2024, the Company closed the acquisitions of certain non-operated oil and natural gas assets in the SCOOP and STACK plays in central Oklahoma (the "SCOOP/STACK Acquisitions") from Red Sky Resources III, LLC, Red Sky Resources IV, LLC, and Coriolis Energy Partners I, LLC. After taking into account customary closing adjustments and an effective date of November 1, 2023, total combined cash consideration for the SCOOP/STACK Acquisitions was approximately $39.1 million, which includes $43.9 million paid at closing less purchase price adjustments totaling approximately $4.8 million related to net cash flows received on the properties subsequent to closing. The Company accounted for these transactions as asset acquisitions and allocated all of the combined purchase price (including $0.3 million of transaction costs) to proved oil and natural gas properties. In addition, the Company recognized $0.1 million in non-cash asset retirement obligations, the estimated net present value of future net retirement costs. The transactions were funded with cash on hand and $42.5 million in borrowings under the Company's Senior Secured Credit Facility. The acquired assets consist of an average net working interest of approximately

2.6%, in 263 producing wells in the SCOOP and STACK plays of the Anadarko Basin in Oklahoma. Chaveroo Oilfield Participation Agreement On September 12, 2023, the Company entered into a Participation Agreement with PEDEVCO for the joint development of a portion of PEDEVCO's Permian Basin property in the Chaveroo oilfield, located in Chaves and Roosevelt Counties, New Mexico. In accordance with the Participation Agreement, the Company has the right, but not the obligation, to elect to participate and acquire a 50% working interest share in certain development blocks at a fixed price of $450 per net acre for up to a total of approximately 16,000 gross acres. The Participation Agreement does not include any of PEDEVCO's existing vertical or horizontal wells. As of December 31, 2024, the Company has incurred approximately $0.8 million in exchange for a 50% working interest share in the existing leases associated with five development blocks. As of December 31, 2024, the Company has participated in the drilling and completion of the first development block, consisting of three gross wells (1.5 net wells). Drilling operations on development block two commenced in January 2025, consisting of four drilling locations. 39100000 43900000 4800000 300000 100000 42500000 0.026 263 0.50 450 16000 800000 0.50 5 3 1.5 4 Note 4. accounting for its investments in oil and natural gas properties. All costs of acquisition, exploration, and development of oil and natural gas reserves are capitalized as the cost of oil and natural gas properties when incurred. To the extent capitalized costs of evaluated oil and natural gas properties, net of accumulated depletion, exceed the discounted future net revenues of proved oil and natural gas reserves, net of deferred taxes, such excess capitalized costs would be charged to expense as a write-down of oil and natural gas properties. Additionally, the Company assesses all properties classified as unevaluated property on a quarterly basis for possible impairment. The Company assesses properties on an individual basis or as a group, if properties are individually insignificant. The assessment includes consideration of the following factors, among others: intent to drill; remaining lease term; geological and geophysical evaluations; drilling results and activity; the assignment of proved reserves; and the economic viability of development if proved reserves are assigned. During any period in which these factors indicate impairment, the cumulative drilling costs incurred to date for such property and all or a portion of the associated leasehold costs are transferred to the full cost pool and are then subject to depletion and the full cost ceiling test limitation. Depletion on oil and natural gas properties was $10.3 million and $8.1 million for the six months ended December 31, 2024 and 2023, respectively. During the six months ended December 31, 2024 and 2023, the Company incurred development capital expenditures of $2.2 million and $2.4 million, respectively. At December 31, 2024, the ceiling test value of the Company's reserves was calculated based on the first-day-of-the-month average for the 12-months ended December 31, 2024 of the West Texas Intermediate ("WTI") crude oil spot price of $76.32 per barrel and Henry Hub natural gas spot price of $2.13 per MMBtu, adjusted by market differentials by field. The net price per barrel of NGLs was $22.60, which was based on historical differentials to WTI as NGLs do not have any single comparable reference index price. Using these prices, at December 31, 2024 the cost center ceiling was higher than the capitalized costs of oil and natural gas properties and, as a result, no write-down was applicable. At December 31, 2023, the ceiling test value of the Company's reserves was calculated based on the first-day of the month average for the 12-months ended December 31, 2023 of the WTI crude oil spot price of $78.21 per barrel and Henry Hub natural gas spot price of $2.63 per MMBtu, adjusted by market differentials by field. The net price per barrel of NGLs was $31.57, which was based on historical prices received as NGLs do not have any single comparable reference index price. Using these prices, at December 31, 2023 the cost center ceiling was higher than the capitalized costs of oil and natural gas properties and, as a result, no write-down was applicable. Senior Secured Credit Facility On April 11, 2016, the Company entered into a senior secured reserve-based credit facility, as amended, (the “Senior Secured Credit Facility”) with MidFirst Bank in an amount up to $50.0 million with a current borrowing base of $50.0 million. On May 5, 2023, the Company entered into the Tenth Amendment to the Senior Secured Credit Facility extending the maturity to April 9, 2026. The Tenth Amendment also replaced the London Interbank Offered Rate (“LIBOR”) with the Secured Overnight Financing Rate (“SOFR”) plus a credit spread adjustment of 0.05% to effectively convert SOFR to a LIBOR equivalent. The borrowing base will be redetermined semiannually, with the lenders and the Company each having the right to one interim unscheduled redetermination between any two consecutive semi-annual redeterminations. The borrowing base takes into account the estimated value of the Company’s oil and natural gas properties, proved reserves, total indebtedness, and other relevant factors consistent with customary oil and natural gas lending criteria. The Senior Secured Credit Facility carries a commitment fee of 0.25% per annum on the undrawn portion of the borrowing base. Any borrowings under the Senior Secured Credit Facility will bear interest, at the Company’s option, at either SOFR plus 2.80%, subject to a minimum SOFR of 0.50%, or the Prime Rate, as defined under the Senior Secured Credit Facility, plus 1.00%. The Company may elect, at its option, to prepay any borrowings outstanding under the Senior Secured Credit Facility without premium or penalty. Amounts outstanding under the Senior Secured Credit Facility are guaranteed by the Company’s direct and indirect subsidiaries and secured by a security interest in substantially all of the properties of the Company and its subsidiaries. Borrowings under the Senior Secured Credit Facility may be used for the acquisition and development of oil and natural gas properties, investments in cash flow generating properties complimentary to the production of oil and natural gas, and for letters of credit or other general corporate purposes. The Senior Secured Credit Facility contains certain events of default, including non-payment; breaches or representation and warranties; non-compliance with covenants; cross-defaults to material indebtedness; voluntary or involuntary bankruptcy; judgments and change in control. The Senior Secured Credit Facility also contains financial covenants including a requirement that the Company maintain, as of the last day of each fiscal quarter, (i) a maximum total leverage ratio of not more than 3.00 to 1.00, (ii) a current ratio of not less than 1.00 to 1.00, and (iii) a consolidated tangible net worth of not less than $40.0 million, each as defined in the Senior Secured Credit Facility. As of December 31, 2024, the Company had $39.5 million borrowings outstanding under its Senior Secured Credit Facility, resulting in $10.5 million of available borrowing capacity. For the six months ended December 31, 2024, the weighted average interest on borrowings under the Senior Secured Credit Facility was 7.80%. As of December 31, 2024, the Company is in compliance with all covenants under the Senior Secured Credit Facility. The Senior Secured Credit Facility also contains hedging requirements that apply when there is 25% or more utilization of the Margined Collateral Value, as defined under the Senior Secured Credit Facility, to the extent it exceeds the borrowing base then in effect. The Required Hedging Percentage, as defined in the Eighth Amendment to the Senior Secured Credit Facility dated November 9, 2021, provides for a tiered approach for adding hedges based on the utilization of the facility. On February 12, 2024, the Company entered into an amendment to the Senior Secured Credit Facility, which required that the Company enter into hedges for the next 12-month period, and on a rolling 12-month basis thereafter, covering expected crude oil and natural gas production from proved developed reserves, calculated separately, equal to a minimum of 40% of expected crude oil production each month, or 25% of expected crude oil and natural gas production each month over that period. Thus, the Company had the option to choose whether to hedge 40% of expected crude oil production or 25% each of expected crude oil and natural gas production. As a result of the fall borrowing base redetermination, the utilization percentage of the Senior Secured Credit Facility increased whereby the Company will be required to hedge 50% of its expected crude oil and natural gas production. During the third quarter of fiscal year 2025, the Company will either make principal repayments of approximately $7.0 million to MidFirst, reducing the borrowings outstanding to such a level that the utilization percentage of the facility drops below 50%, or enter into additional derivative contracts to hedge at least 50% of expected crude oil and natural gas production. See Note 7, “Derivatives,” for information regarding the Company’s current derivative positions. 50000000 50000000 50000000 2026-04-09 0.0005 1 0.0025 0.028 0.005 0.01 3 1 40000000 39500000 10500000 0.078 As of December 31, 2024, the Company is in compliance with all covenants under the Senior Secured Credit Facility. 0.25 P12M P12M 0.40 0.25 0.40 0.25 0.50 7000000 0.50 0.50 Note 6. Income Taxes The Company files a consolidated federal income tax return in the United States and various combined and separate filings in several state and local jurisdictions. There were no unrecognized tax benefits, nor any accrued interest or penalties associated with unrecognized tax benefits during the periods presented in the unaudited condensed consolidated financial

statements. The Company believes that it has appropriate support for the income tax positions taken and to be taken on the Company's tax returns and that the accruals for tax liabilities are adequate for all open years based on its assessment of many factors including past experience and interpretations of tax law applied to the facts of each matter. The Company's federal and state income tax returns are open to audit under the statute of limitations for the fiscal years ended June 30, 2020 through June 30, 2023 for federal tax purposes and for the fiscal years ended June 30, 2019 through June 30, 2023 for state tax purposes. To the extent the Company utilizes net operating losses ("NOLs") generated in earlier years, such earlier years may also be subject to audit. For six months ended December 31, 2024, the Company recognized income tax expense of $0.1 million and had an effective tax rate of 31.4% compared to income tax expense of $1.0 million and an effective tax rate of 28.5% for the six months ended December 31, 2023. The Company's effective tax rate will typically differ from the statutory federal rate as a result of state income taxes, primarily in the states of Louisiana, Oklahoma, North Dakota and Texas, percentage depletion in excess of basis, and other permanent differences. For both periods, the respective statutory federal tax rate was 21%. . Deferred income taxes primarily represent the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. 0 0 0 0 0 0 0 0 100000 0.314 1000000 0.285 0.21 0.21 Note 7. Derivatives The Company is exposed to certain risks relating to its ongoing business operations, including commodity price risk and interest rate risk. In accordance with the Company's strategy and the requirements under the Senior Secured Credit Facility (as discussed in Note 5, "Senior Secured Credit Facility"), it may hedge or may be required to hedge a varying portion of anticipated oil and natural gas production for future periods. Derivatives are carried at fair value on the unaudited condensed consolidated balance sheets as assets or liabilities, with the changes in the fair value included in the unaudited condensed consolidated statements of operations for the period in which the change occurs. The Company's hedge strategies and objectives may change significantly as its operational profile changes or as required under the Senior Secured Credit Facility. The Company does not enter into derivative contracts for speculative trading purposes. It is the Company's policy to enter into derivative contracts only with counterparties that are creditworthy financial or commodity hedging institutions deemed by management as competent and competitive market makers. As of December 31, 2024, the Company did not post collateral under any of its derivative contracts during the periods in which contracts were open as they were secured under the Company's Senior Secured Credit Facility. When the Company utilizes commodity derivative contracts, it expects to enter into deferred premium puts, costless put/call collars, fixed-price swaps, and/or basis swaps to hedge a portion of its anticipated future production. A costless collar consists of a sold call, which establishes a maximum price the Company will receive for the volumes under contract, and a purchased put that establishes a minimum price. Fixed-price swaps are designed so that the Company receives or makes payments based on a differential between fixed and variable prices for the volumes under contract. Basis swaps effectively lock in a price differential between regional prices (i.e., Inside FERC's Northwest Pipeline Corp Rocky Mountains) where the product is sold and the relevant pricing index under which the natural gas production is hedged (i.e., NYMEX Henry Hub). The Company has elected not to designate its open derivative contracts for hedge accounting. Accordingly, the Company records the net change in the mark-to-market valuation of the derivative contracts and all payments and receipts on settled derivative contracts in "Net gain (loss) on derivative contracts" on the unaudited condensed consolidated statements of operations. All derivative contracts are recorded at fair market value in accordance with ASC 815, Derivatives and Hedging ("ASC 815") and ASC 820, Fair Value Measurement ("ASC 820") and included in the unaudited condensed consolidated balance sheets as assets or liabilities. The "Derivative contract assets" and "Derivative contract liabilities" represent the difference between the market commodity prices and the hedged prices for the remaining volumes of production hedges as of December 31, 2024 and June 30, 2024 (the "mark-to-market valuation"). The following table summarizes the location and fair value amounts of all derivative contracts in the unaudited condensed consolidated balance sheets as of December 31, 2024 and June 30, 2024 (in thousands): <table style="border-collapse:collapse;font-size:16pt;height:max-content;margin-left:auto;margin-right:auto;padding-left:0pt;padding-right:0pt;width:98.15%;"><tr style="height:1pt;"><td style="vertical-align:bottom;width:21.95%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:1.67%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;width:10.88%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:1.67%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:1.42%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:12.14%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:1.68%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:1.02%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:8.72%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:1.67%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;width:9.75%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:1.67%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:1.42%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:12.14%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:1.68%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:1.09%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:9.32%;margin:0pt;padding:0pt;"> . </td></tr><tr><td style="vertical-align:bottom;width:21.95%;margin:0pt;padding:0pt;"> Derivatives not designated </td><td style="vertical-align:bottom;white-space:nowrap;width:1.67%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:10.88%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:1.67%;margin:0pt;padding:0pt;"> . </td><td colspan="5" style="vertical-align:bottom;white-space:nowrap;width:25.01%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:1.67%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:9.75%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:1.67%;margin:0pt;padding:0pt;"> . </td><td colspan="5" style="vertical-align:bottom;white-space:nowrap;width:25.67%;margin:0pt;padding:0pt;"> . </td></tr><tr><td style="vertical-align:bottom;width:21.95%;margin:0pt;padding:0pt;"> as hedging contracts </td><td style="vertical-align:bottom;white-space:nowrap;width:1.67%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:10.88%;margin:0pt;padding:0pt;"> Balance sheet </td><td style="vertical-align:bottom;white-space:nowrap;width:1.67%;margin:0pt;padding:0pt;"> . </td><td colspan="5" style="vertical-align:bottom;white-space:nowrap;width:25.01%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> Derivative Contract Assets </td><td style="vertical-align:bottom;white-space:nowrap;width:1.67%;margin:0pt;padding:0pt;"> . </td><td style="vertical-align:bottom;white-space:nowrap;width:9.75%;margin:0pt;padding:0pt;"> Balance sheet </td><td style="vertical-align:bottom;white-space:nowrap;width:1.67%;margin:0pt;padding:0pt;"> <span

Fair Value Measurement Accounting guidelines for measuring fair value establish a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy categorizes assets and liabilities measured at fair value into one of three different levels depending on the observability of the inputs employed in the measurement. The three levels are defined as follows: Level 1—Observable inputs such as quoted prices in active markets at the measurement date for identical, unrestricted assets or liabilities. Level 2—Other inputs that are observable directly or indirectly, such as quoted prices in markets that are not active or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability. Level 3—Unobservable inputs for which there are little or no market data and which the Company makes its own assumptions about how market participants would price the assets and liabilities. Fair Value of Derivative Instruments. The Company's determination of fair value incorporates not only the credit standing of the counterparties involved in transactions with the Company resulting in receivables on the Company's unaudited condensed consolidated balance sheets, but also the impact of the Company's nonperformance risk on its own liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The Company utilizes market data or assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique. These inputs can be readily observable (Level 1) market corroborated (Level 2), or generally unobservable (Level 3). The Company classifies fair value balances based on observability of those inputs. As required by ASC 820, a financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgement, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels. There were no transfers between fair value hierarchy levels for any period presented in this report. The following table, set forth by level within the fair value hierarchy, shows the Company's financial assets and liabilities that were accounted for at fair value as of December 31, 2024 and June 30, 2024 (in thousands). <table style="border-collapse:collapse;font-size:16pt;height:max-content;padding-left:0pt;padding-right:0pt;width:100%;"><tr style="height:1pt;"><td style="vertical-align:bottom;width:34.05%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;width:2.94%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;width:1.86%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;width:11.68%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.95%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap

The Company records the net change in fair value of these positions in “Net gain (loss) on derivative contracts” in the Company’s unaudited condensed consolidated statements of operations. The Company is able to value the assets and liabilities based on observable market data for similar instruments, which resulted in the Company reporting its derivatives as Level 2. This observable data includes the forward curves for commodity prices based on quoted market prices and implied volatility factors related to changes in the forward curves. See Note 7, “Derivatives,” for additional discussion of derivatives. The Company’s derivative contracts are with large utilities with investment grade credit ratings which are believed to have minimal credit risk. As such, the Company is exposed to credit risk to the extent of nonperformance by the counterparties in the derivative contracts; however, the Company does not expect such nonperformance. Other Fair Value Measurements. The following disclosure of the estimated fair value of financial instruments is made in accordance with the requirements of ASC 825, Financial Instruments. The estimated fair value amounts have been determined at discrete points in time based on relevant market information. These estimates involve uncertainties and cannot be determined with precision. The estimated fair value of cash and cash equivalents, accounts receivable, and accounts payable approximates their carrying value due to their short-term nature. The estimated fair value of the Company’s Senior Secured Credit Facility approximates carrying value because the interest rates approximate current market rates. The Company follows the provisions of ASC 820, for nonfinancial assets and liabilities measured at fair value on a non-recurring basis. These provisions apply to the Company’s initial measurement and any subsequent revision of asset retirement obligations (“ARO”) for which fair value is calculated using discounted future cash flows derived from historical costs and management’s expectations of future cost environments. Significant Level 3 inputs used in the calculation of ARO include the costs of plugging and abandoning wells, surface restoration, and reserve lives. Subsequent to initial recognition, revisions to estimated asset retirement obligations are made when changes occur for input values. See Note 9, “Asset Retirement Obligations,” for a reconciliation of the beginning and ending balances of the liability for the Company’s ARO. <table style="border-collapse:collapse;font-size:16pt;height:max-content;padding-left:0pt;padding-right:0pt;width:100%;"><tr style="height:1pt;"><td style="vertical-align:bottom;width:34.05%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;width:2.94%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;width:1.86%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;width:11.68%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.95%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.86%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:11.68%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.95%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.86%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;width:11.68%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.95%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.86%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;width:11.68%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.95%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.86%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;width:11.68%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.95%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.86%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;width:11.68%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.95%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.86%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;width:11.68%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.95%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.86%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;width:11.62%;margin:0pt;padding:0pt;"> </td></tr><tr><td style="vertical-align:bottom;white-space:nowrap;width:34.05%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.94%;margin:0pt;padding:0pt;"> </td><td colspan="11" style="vertical-align:bottom;white-space:nowrap;width:63%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> December 31, 2024 </td></tr><tr><td style="vertical-align:bottom;white-space:nowrap;width:34.05%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.94%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;width:13.54%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> Level 1 </td><td style="vertical-align:bottom;width:2.95%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;width:13.54%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> Level 2 </td><td style="vertical-align:bottom;width:2.95%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;width:13.54%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> Level 3 </td><td style="vertical-align:bottom;width:2.95%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;width:13.48%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> Total </td></tr><tr><td style="vertical-align:bottom;width:34.05%;background:#cceeff;margin:0pt;padding:0pt;"><p style="font-family:'Times New Roman','Times';serif;font-size:9pt;margin:0pt 0pt 0.05pt

Asset Retirement Obligations The Company's ARO represents the estimated present value of the amount expected to be incurred to plug, abandon, and remediate its oil and natural gas properties at the end of their productive lives in accordance with applicable laws and regulations. The Company records the ARO liability on the unaudited condensed consolidated balance sheets and capitalizes the cost in "Oil and natural gas properties, net" during the period in which the obligation is incurred. The Company records the accretion of its ARO liabilities in "Depletion, depreciation and accretion" expense in the unaudited condensed consolidated statements of operations. The following is a reconciliation of the activity related to the Company's ARO liability (inclusive of the current portion) for the period ended December 31, 2024 (in thousands): <table Commitments and Contingencies The Company is subject to various claims and contingencies in the normal course of business. In addition, from time to time, the Company receives communications from government or regulatory agencies concerning investigations or allegations of noncompliance with laws or regulations in jurisdictions in which the Company operates. The Company discloses such matters if it believes there is a reasonable possibility that a future event or events will confirm a material loss through impairment of an asset or the incurrence of a material liability. The Company accrues a material loss if it believes it probable that a future event or events will confirm a loss and the loss is reasonably subject to estimation. Furthermore, the Company will disclose any matter that is unasserted if it considers it probable that a claim will be asserted and there is a reasonable possibility that the outcome will be unfavorable and material in amount. The Company expenses legal defense costs as they are incurred. Note 11. Stockholders' Equity Common Stock As of December 31, 2024, the Company had 34,076,846 shares of common stock outstanding. The Company began paying quarterly cash dividends on common stock in December 2013. As of December 31, 2024, the Company has cumulatively paid over $126.6 million in cash dividends. On October 21, 2024, the Company entered into an At-the-Market (“ATM”) equity Sales Agreement (the “ATM Sales Agreement”) with Roth Capital Partners, LLC (the “Lead Agent”), Northland Securities Inc., and A.G.P./Alliance Global Partners pursuant to which the Company may issue and sell, from time to time, up to $30.0 million of shares of common stock through or to the Lead Agent, acting as agent or principal. During the period ended December 31, 2024, the Company sold a total of approximately 0.4 million shares of its common stock under the ATM Sales Agreement for net proceeds of approximately $2.0 million, after deducting an initial $0.2 million in fees for due diligence incurred with the offering. The Company intends to use the net proceeds from any sales of common stock for general corporate purposes, including to redeem or repay outstanding indebtedness. The Company is not obligated to sell any shares of common stock in the future. On September 8, 2022, the Board of Directors approved a share repurchase program, under which the Company was authorized to repurchase up to $25.0 million of its common stock in the open market through December 31, 2024. The Company funded repurchases from working capital and cash provided by operating activities. The share repurchase program was complimentary to the existing dividend policy and was a tax efficient means to further improve shareholder return. The shares were repurchased from time to time in open market transactions, through privately negotiated transactions or by other means in accordance with federal securities laws. The Company repurchased a total of 0.8 million shares of its common stock under the program at a total cost of approximately $4.6 million, including incremental direct transaction costs.</p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;margin:0pt;">During the six months ended December 31, 2024 and 2023, the Company acquired treasury stock upon the ordinary course of scheduled vestings of employee stock-based awards to fund payroll tax withholding obligations. Expected Tax Treatment of Dividends For the fiscal year ended June 30, 2024, all common stock dividends for that fiscal year were treated for tax purposes as qualified dividend income to the recipients. Based on its current projections for the fiscal year ended June 30, 2025, the Company expects all common stock dividends for such period to be treated as qualified dividend income to the recipients. Such projections are based on the Company’s reasonable expectations as of December 31, 2024 and are subject to change based on the Company’s final tax calculations at the end of the fiscal year. Stock-Based Incentive Plan The Evolution Petroleum Corporation 2016 Equity Incentive Plan (the “2016 Plan”) authorized the issuance of 3.6 million shares of common stock prior to its expiration on December 8, 2026. On December 5, 2024 shareholders approved and adopted the amendment and restatement of the 2016 Plan (hereinafter the “Amended and Restated Plan”), which increased the shares authorized for issuance under the 2016 Plan by 2.1 million shares to a maximum of 5.7 million shares. The duration of the Amended and Restated Plan is indefinite, provided that no new awards shall be made under the Amended and Restated Plan on or after the tenth anniversary of the date the stockholders approved the Amended and Restated Plan. Incentives under the Amended and Restated Plan may be granted to employees, directors, and consultants of the Company in any one or a

combination of the following forms: incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock awards, restricted stock unit awards, and performance share awards. As of December 31, 2024 and June 30, 2024, approximately 2.5 million shares and 0.9 million shares, respectively, remained available for grant under the Amended and Restated Plan. The Company estimates the fair value of stock-based compensation awards on the grant date to provide the basis for future compensation expense. During the three and six months ended December 31, 2024, the Company recognized $0.7 million and $1.2 million, respectively, related to stock-based compensation. During the three and six months ended December 31, 2023, the Company recognized $0.6 million and $1.0 million, respectively, related to stock-based compensation. Stock-based compensation expense is recorded as a component of "<i style="font-style:italic;">General and administrative expenses</i>" on the unaudited condensed consolidated statements of operations. </p><p style="font-family:'Times New Roman','Times',serif;font-size:10pt;font-style:italic;font-weight:bold;margin:0pt 0pt 6pt 0pt;">Time-Vested Restricted Stock Awards</p><p style="font-family:'Times New Roman','Times',serif;font-size:10pt;margin:0pt 0pt 12pt 0pt;">Time-vested restricted stock awards contain service-based vesting conditions and expire after a maximum of four years from the date of grant if unvested. The common shares underlying these awards are issued on the date of grant and participate in dividends paid by the Company. These service-based awards vest with continuous employment by the Company, generally in annual installments over terms of three to four years. Awards to the Company's directors generally have one-year cliff vesting. For such awards, grant date fair value is based on market value of the Company's common stock at the time of grant. This value is then amortized ratably over the service period. Previously recognized amortization expense subsequent to the last vesting date of an award is reversed in the event that the holder has no longer rendered service to the Company resulting in forfeiture of the award.</p><p style="font-family:'Times New Roman','Times',serif;font-size:10pt;font-style:italic;font-weight:bold;margin:0pt 0pt 6pt 0pt;">Performance-Based Restricted Stock Awards and Performance-Based Contingent Stock Units</p><p style="font-family:'Times New Roman','Times',serif;font-size:10pt;margin:0pt;">Performance-based restricted stock awards and performance-based contingent stock units contain market-based vesting conditions based on the price of the Company's common stock, the intrinsic value indexed solely to its common stock or the intrinsic value indexed to its common stock compared to the performance of the common stock of its peers. The common shares underlying the Company's performance-based restricted stock awards are issued on the date of grant and </p><p style="font-family:'Times New Roman','Times',serif;font-size:10pt;margin:0pt 0pt 12pt 0pt;">participate in dividends paid by the Company and expire after a maximum of four years from the date of grant if unvested. Performance-based contingent share units do not participate in dividends and shares are only issued in part or in full upon the attainment of vesting conditions, generally have a lower probability of achievement and expire after a maximum of four years from the date of grant if unvested. Shares underlying performance-based contingent share units are reserved from the 2016 Plan. Performance-based restricted stock awards and contingent restricted stock units are valued using a Monte Carlo simulation and geometric Brownian motion techniques applied to the historical volatility of the Company's total stock return compared to the historical volatilities of other companies or indices to which the Company compares its performance and/or the Company's absolute total stock return. For certain awards, this Monte Carlo simulation also provides an expected vesting term. Stock-based compensation is recognized ratably over the expected vesting period, so long as the award holder remains an employee of the Company. Previously recognized compensation expense is only reversed for the awards with market-based vesting conditions if the requisite service period is not rendered by the holder resulting in forfeiture of the award or as a result of regulatory required clawback.</p><p style="font-family:'Times New Roman','Times',serif;font-size:10pt;margin:0pt 0pt 12pt 0pt;">Vesting of grants with performance-based vesting conditions is dependent on the future price of the Company's common stock. Such awards vest in part or in full if the trailing total returns on the Company's common stock for a specified three-year period exceed the corresponding total returns of various quartiles of indices consisting of peer companies. </p><p style="font-family:'Times New Roman','Times',serif;font-size:10pt;margin:0pt 0pt 12pt 0pt;">During the six months ended December 31, 2024, the Company granted a Financial Statement Presentation	6 Months Ended Dec. 31, 2024
Financial Statement Presentation	
Financial Statement Presentation	

Note 1. Financial Statement Presentation

Nature of Operations. Evolution Petroleum Corporation ("Evolution," and together with its consolidated subsidiaries, the "Company") is an independent energy company focused on maximizing returns to shareholders through the ownership of and investment in onshore oil and natural gas properties in the United States. The Company's long-term goal is to maximize total shareholder return from a diversified portfolio of long-life oil and natural gas properties built through acquisitions and through selective development opportunities, production enhancement, and other exploitation efforts on its oil and natural gas properties.

The Company's oil and natural gas properties consist of non-operated interests in the following areas: the SCOOP and STACK plays of the Anadarko Basin located in central Oklahoma; the Chaveroo oilfield in Chaves and Roosevelt Counties of New Mexico; the Jonah Field in Sublette County, Wyoming; the Williston Basin in North Dakota; the Barnett Shale located in North Texas; the Hamilton Dome Field located in Hot Springs County, Wyoming, a secondary recovery field utilizing water injection wells to pressurize the reservoir; the Delhi Holt-Bryant Unit in the Delhi Field in Northeast Louisiana, a CO_2 enhanced oil recovery project; as well as small overriding royalty interests in four onshore Texas wells.

Interim Financial Statements. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") for interim financial information and the appropriate rules and regulations of the Securities and Exchange Commission ("SEC"). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. All adjustments (consisting of normal recurring accruals) which are, in the opinion of management, necessary for a fair presentation of the financial position and results of operations for the interim periods presented have been included. The interim financial information and notes hereto should be read in conjunction with the Company's 2024 Annual Report on Form 10-K for the fiscal year ended June 30, 2024, as filed with the SEC on September 11, 2024. The results of operations for interim periods are not necessarily indicative of results to be expected for a full fiscal year. The Company has evaluated events and transactions through the date of issuance of these unaudited condensed consolidated financial statements.

Principles of Consolidation and Reporting. The unaudited condensed consolidated financial statements include the accounts of Evolution Petroleum Corporation and its wholly-owned subsidiaries. All significant intercompany transactions have been eliminated in consolidation. The unaudited condensed consolidated financial statements for the previous year may be condensed or include certain reclassifications to conform to the current presentation.

Risk and Uncertainties. The Company's oil and natural gas interests are operated by third-party operators and involve other third-party working interest owners. As a result, the Company has limited ability to influence the operation or future development of such properties. However, the Company is proactive with its third-party operators to review the management of capital expenditures.

Oil and Natural Gas Properties. The Company uses the full-cost method of accounting for its investments in oil and natural gas properties. Under this method of accounting, all costs incurred in the acquisition, exploration and development of oil and natural gas properties, including unproductive wells, are capitalized. This includes any internal costs that are directly related to property acquisition, exploration, and development activities but does not include any costs related to production, general corporate overhead, or similar activities. Oil and natural gas properties include costs that are excluded from depletion and amortization, which represent investments in unproved and unevaluated properties and include non-producing leasehold, geologic and geophysical costs associated with leasehold or drilling interests, and exploration drilling costs. These costs are excluded until the project is evaluated and proved reserves are established or impairment is determined.

Use of Estimates. The preparation of the Company's unaudited condensed consolidated financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities, if any, at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the respective reporting periods. Significant
estimates include (a) reserve quantities and estimated future cash flows associated with proved reserves, which may significantly impact depletion expense and potential impairments of oil and natural gas properties, (b) asset retirement obligations, (c) stock-based compensation, (d) fair values of derivative contract assets and liabilities, (e) income taxes and the valuation of deferred income tax assets, (f) commitments and contingencies, and (g) accruals of crude oil, natural gas, and NGL revenues and expenses. The Company analyzes estimates and judgments based on historical experience and various other assumptions and information that are believed to be reasonable. Estimates and assumptions about future events and their effects cannot be predicted with certainty and, accordingly, these estimates may change as additional information is obtained, as new events occur, and as the Company's environment changes. Actual results may differ from the estimates and assumptions used in the preparation of the Company's unaudited condensed consolidated financial statements.

Recently Issued Accounting Pronouncements

In November 2024, the FASB issued ASU 2024-03, *Disaggregation of Income Statement Expenses* ("ASU 2024-03"). ASU 2024-03 increases the transparency of expense information presented in the statement of operations through disclosures of expanded disaggregation of relevant expense captions including purchases of inventory, employee compensation, depletion, depreciation, and amortization. ASU 2024-03 is effective for annual periods beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027 with early adoption permitted. The Company is currently evaluating ASU 2024-03 and the impact it may have to the Company's disclosures.

In December 2023, the FASB issued ASU 2023-09, Improvements to *Income Tax Disclosures* ("ASU 2023-09"). ASU 2023-09 enhances the transparency of income tax disclosures by expanding the income tax rate reconciliation disclosure and income taxes paid information. ASU 2023-09 also includes certain other amendments to improve the effectiveness of income tax disclosures. ASU 2023-09 is effective for annual periods beginning after December 15, 2024. The Company is currently evaluating ASU 2023-09 and the impact it may have to the Company's financial position, results of operations, cash flow or disclosures.

In November 2023 the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures* ("ASU 2023-07"). ASU 2023-07 expands the segment disclosures, even for entities with only one reportable segment, to include additional information about significant segment expenses and other segment items on an annual and interim basis as well as the title and position of the chief operating decision maker. ASU 2023-07 is effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted and entities must adopt the amendment retrospectively for all prior periods presented in the financial statements. The Company is currently evaluating ASU 2023-07 and the impact it may have to the Company's financial position, results of operations, cash flow or disclosures.

Other accounting pronouncements that have recently been issued by the FASB or other standards-setting bodies are not expected to have a material impact on the Company's financial position, results of operations, cash flows or disclosures.

Revenue Recognition	6 Months Ended Dec. 31, 2024
Revenue Recognition	
Revenue Recognition	

Note 2. Revenue Recognition

The Company's revenues are primarily generated from its crude oil, natural gas and NGL production from the SCOOP and STACK plays in central Oklahoma, the Chaveroo oilfield in Chaves and Roosevelt Counties of New Mexico, the Jonah Field in Sublette County, Wyoming, the Williston Basin in North Dakota, the Barnett Shale located in North Texas, the Hamilton Dome Field in Wyoming, and the Delhi Field in Northeast Louisiana. Additionally, an overriding royalty interest retained in a past divestiture of Texas properties provides de minimis revenue. The following table

disaggregates the Company's revenues by major product for the three and six months ended December 31, 2024 and 2023 (in thousands):

	Three Months Ended December 31,		Six Months Ended December 31,	
	2024	2023	2024	2023
Revenues				
Crude oil	$ 11,763	$ 11,759	$ 26,500	$ 24,375
Natural gas	5,793	6,531	10,078	12,083
Natural gas liquids	2,719	2,734	5,593	5,167
Total revenues	$ 20,275	$ 21,024	$ 42,171	$ 41,625

In the Jonah Field, the Company has elected to take its natural gas and NGL working interest production in-kind and markets its NGL production to Enterprise Products Partners L.P. ("Enterprise") and its natural gas production to different purchasers.

The Company does not take production in-kind at any of its other properties and does not negotiate contracts with customers for such production. The Company recognizes crude oil, natural gas, and NGL production revenue at the point in time when custody and title ("control") of the product transfers to the customer. The sales of oil and natural gas are made under contracts which the Company's third-party operators of its wells have negotiated with customers, which typically include variable consideration that is based on pricing tied to local indices and volumes delivered in the current month. The Company typically receives payment from the sale of oil and natural gas production one to two months after delivery.

Judgments made in applying the guidance in ASC 606, *Revenue from Contracts with Customers*, relate primarily to determining the point in time when control of product transfers to the customer. The Company does not believe that significant judgments are required with respect to the determination of the transaction price, including amounts that represent variable consideration, as volume and price carry a low level of estimation uncertainty given the precision of volumetric measurements and the use of index pricing with predictable differentials. Accordingly, the Company does not consider estimates of variable consideration to be constrained.

The Company's contractual performance obligations arise upon the production of hydrocarbons from wells in which the Company has an ownership interest. The performance obligations are considered satisfied upon control of produced hydrocarbons transferring to a customer at a specified delivery point. Consideration is allocated to completed performance obligations at the end of an accounting period.

Revenue is recorded in the month when contractual performance obligations are satisfied. However, settlement statements from the purchasers of hydrocarbons and the related cash consideration are received by field operators one to two months before the Company receives payment and documentation from the operator, which is typical in the oil and natural gas industry. As a result, the Company must estimate the amount of production delivered to the customer and the consideration that will ultimately be received for the sale of the product. To estimate accounts receivable from operators' contracts with customers, the Company uses knowledge of its properties, information from field operators, historical performance, contractual arrangements, index pricing, quality and transportation differentials, and other factors. Because the contractual performance obligations have been satisfied and an unconditional right to consideration exists as of the balance sheet date, the Company recognized amounts due from contracts with field operators as *"Receivables from crude oil, natural gas, and natural gas liquids revenues"* on the unaudited condensed consolidated balance sheets. Differences between estimates and actual amounts received for product sales are recorded in the month that payments received from purchasers are remitted to the Company by field operators.

Acquisitions

Note 3. Acquisitions

SCOOP/STACK Acquisitions

On February 12, 2024, the Company closed the acquisitions of certain non-operated oil and natural gas assets in the SCOOP and STACK plays in central Oklahoma (the "SCOOP/STACK Acquisitions") from Red Sky Resources III, LLC, Red Sky Resources IV, LLC, and Coriolis Energy Partners I, LLC. After taking into account customary closing adjustments and an effective date of November 1, 2023, total combined cash consideration for the SCOOP/STACK Acquisitions was approximately $39.1 million, which includes $43.9 million paid at closing less purchase price adjustments totaling approximately $4.8 million related to net cash flows received on the properties subsequent to closing. The Company accounted for these transactions as asset acquisitions and allocated all of the combined purchase price (including $0.3 million of transaction costs) to proved oil and natural gas properties. In addition, the Company recognized $0.1 million in non-cash asset retirement obligations, the estimated net present value of future net retirement costs. The transactions were funded with cash on hand and $42.5 million in borrowings under the Company's Senior Secured Credit Facility.

The acquired assets consist of an average net working interest of approximately 2.6%, in 263 producing wells in the SCOOP and STACK plays of the Anadarko Basin in Oklahoma.

Chaveroo Oilfield Participation Agreement

On September 12, 2023, the Company entered into a Participation Agreement with PEDEVCO for the joint development of a portion of PEDEVCO's Permian Basin property in the Chaveroo oilfield, located in Chaves and Roosevelt Counties, New Mexico. In accordance with the Participation Agreement, the Company has the right, but not the obligation, to elect to participate and acquire a 50% working interest share in certain development blocks at a fixed price of $450 per net acre for up to a total of approximately 16,000 gross acres. The Participation Agreement does not include any of PEDEVCO's existing vertical or horizontal wells.

As of December 31, 2024, the Company has incurred approximately $0.8 million in exchange for a 50% working interest share in the existing leases associated with five development blocks. As of December 31, 2024, the Company has participated in the drilling and completion of the first development block, consisting of three gross wells (1.5 net wells). Drilling operations on development block two commenced in January 2025, consisting of four drilling locations.

Property and Equipment

Note 4. Property and Equipment

Property and equipment as of December 31, 2024 and June 30, 2024 consisted of the following (in thousands):

	December 31, 2024	June 30, 2024
Oil and natural gas properties		
Property costs subject to amortization	$ 251,945	$ 249,559
Less: Accumulated depletion, depreciation, and impairment	(120,223)	(109,874)
Oil and natural gas properties, net	$ 131,722	$ 139,685

The Company uses the full cost method of accounting for its investments in oil and natural gas properties. All costs of acquisition, exploration, and development of oil and natural gas reserves are capitalized as the cost of oil and natural gas properties when incurred. To the extent capitalized costs of evaluated oil and natural gas properties, net of accumulated depletion, exceed the discounted future net revenues of proved oil and natural gas reserves, net of deferred taxes, such excess capitalized costs would be charged to expense as a write-down of oil and natural gas properties.

Additionally, the Company assesses all properties classified as unevaluated property on a quarterly basis for possible impairment. The Company assesses properties on an individual basis or as a group, if properties are individually insignificant. The assessment includes consideration of the following factors, among others: intent to drill; remaining lease term; geological and geophysical evaluations; drilling results and activity; the assignment of proved reserves; and
the economic viability of development if proved reserves are assigned. During any period in which these factors indicate impairment, the cumulative drilling costs incurred to date for such property and all or a portion of the associated leasehold costs are transferred to the full cost pool and are then subject to depletion and the full cost ceiling test limitation.

Depletion on oil and natural gas properties was $10.3 million and $8.1 million for the six months ended December 31, 2024 and 2023, respectively. During the six months ended December 31, 2024 and 2023, the Company incurred development capital expenditures of $2.2 million and $2.4 million, respectively.

At December 31, 2024, the ceiling test value of the Company's reserves was calculated based on the first-day-of-the-month average for the 12-months ended December 31, 2024 of the West Texas Intermediate ("WTI") crude oil spot price of $76.32 per barrel and Henry Hub natural gas spot price of $2.13 per MMBtu, adjusted by market differentials by field. The net price per barrel of NGLs was $22.60, which was based on historical differentials to WTI as NGLs do not have any single comparable reference index price. Using these prices, at December 31, 2024 the cost center ceiling was higher than the capitalized costs of oil and natural gas properties and, as a result, no write-down was applicable.

At December 31, 2023, the ceiling test value of the Company's reserves was calculated based on the first-day-of the month average for the 12-months ended December 31, 2023 of the WTI crude oil spot price of $78.21 per barrel and Henry Hub natural gas spot price of $2.63 per MMBtu, adjusted by market differentials by field. The net price per barrel of NGLs was $31.57, which was based on historical prices received as NGLs do not have any single comparable reference index price. Using these prices, at December 31, 2023 the cost center ceiling was higher than the capitalized costs of oil and natural gas properties and, as a result, no write-down was applicable.

Senior Secured Credit Facility

6 Months Ended

Senior Secured Credit Facility

Senior Secured Credit Facility

Note 5. Senior Secured Credit Facility

On April 11, 2016, the Company entered into a senior secured reserve-based credit facility, as amended, (the "Senior Secured Credit Facility") with MidFirst Bank in an amount up to $50.0 million with a current borrowing base of $50.0 million. On May 5, 2023, the Company entered into the Tenth Amendment to the Senior Secured Credit Facility extending the maturity to April 9, 2026. The Tenth Amendment also replaced the London Interbank Offered Rate ("LIBOR") with the Secured Overnight Financing Rate ("SOFR") plus a credit spread adjustment of 0.05% to effectively convert SOFR to a LIBOR equivalent. The borrowing base will be redetermined semiannually, with the lenders and the Company each having the right to one interim unscheduled redetermination between any two consecutive semi-annual redeterminations. The borrowing base takes into account the estimated value of the Company's oil and natural gas properties, proved reserves, total indebtedness, and other relevant factors consistent with customary oil and natural gas lending criteria. The Senior Secured Credit Facility carries a commitment fee of 0.25% per annum on the undrawn portion of the borrowing base. Any borrowings under the Senior Secured Credit Facility will bear interest, at the Company's option, at either SOFR plus 2.80%, subject to a minimum SOFR of 0.50%, or the Prime Rate, as defined under the Senior Secured Credit Facility, plus 1.00%.

The Company may elect, at its option, to prepay any borrowings outstanding under the Senior Secured Credit Facility without premium or penalty. Amounts outstanding under the Senior Secured Credit Facility are guaranteed by the Company's direct and indirect subsidiaries and secured by a security interest in substantially all of the properties of the Company and its subsidiaries. Borrowings under the Senior Secured Credit Facility may be used for the acquisition and development of oil and natural gas properties, investments in cash flow generating properties complimentary to the production of oil and natural gas, and for letters of credit or other general corporate purposes.

The Senior Secured Credit Facility contains certain events of default, including non-payment; breaches or representation and warranties; non-compliance with covenants; cross-defaults to material indebtedness; voluntary or involuntary bankruptcy; judgments and change in control. The Senior Secured Credit Facility also contains financial covenants including a requirement that the Company maintain, as of the last day of each fiscal quarter, (i) a maximum total leverage ratio of not more than 3.00 to 1.00, (ii) a current ratio of not less than 1.00 to 1.00, and (iii) a consolidated tangible net worth of not less than $40.0 million, each as defined in the Senior Secured Credit Facility. As of December 31, 2024, the Company had $39.5 million borrowings outstanding under its Senior Secured Credit Facility,
resulting in $10.5 million of available borrowing capacity. For the six months ended December 31, 2024, the weighted average interest on borrowings under the Senior Secured Credit Facility

was 7.80%. As of December 31, 2024, the Company is in compliance with all covenants under the Senior Secured Credit Facility.

The Senior Secured Credit Facility also contains hedging requirements that apply when there is 25% or more utilization of the Margined Collateral Value, as defined under the Senior Secured Credit Facility, to the extent it exceeds the borrowing base then in effect. The Required Hedging Percentage, as defined in the Eighth Amendment to the Senior Secured Credit Facility dated November 9, 2021, provides for a tiered approach for adding hedges based on the utilization of the facility. On February 12, 2024, the Company entered into an amendment to the Senior Secured Credit Facility, which required that the Company enter into hedges for the next 12-month period, and on a rolling 12-month basis thereafter, covering expected crude oil and natural gas production from proved developed reserves, calculated separately, equal to a minimum of 40% of expected crude oil production each month, or 25% of expected crude oil and natural gas production each month over that period. Thus, the Company had the option to choose whether to hedge 40% of expected crude oil production or 25% each of expected crude oil and natural gas production.

As a result of the fall borrowing base redetermination, the utilization percentage of the Senior Secured Credit Facility increased whereby the Company will be required to hedge 50% of its expected crude oil and natural gas production. During the third quarter of fiscal year 2025, the Company will either make principal repayments of approximately $7.0 million to MidFirst, reducing the borrowings outstanding to such a level that the utilization percentage of the facility drops below 50%, or enter into additional derivative contracts to hedge at least 50% of expected crude oil and natural gas production. See Note 7, "*Derivatives,*" for information regarding the Company's current derivative positions.

Note 6. Income Taxes

The Company files a consolidated federal income tax return in the United States and various combined and separate filings in several state and local jurisdictions.

There were no unrecognized tax benefits, nor any accrued interest or penalties associated with unrecognized tax benefits during the periods presented in the unaudited condensed consolidated financial statements. The Company believes that it has appropriate support for the income tax positions taken and to be taken on the Company's tax returns and that the accruals for tax liabilities are adequate for all open years based on its assessment of many factors including past experience and interpretations of tax law applied to the facts of each matter. The Company's federal and state income tax returns are open to audit under the statute of limitations for the fiscal years ended June 30, 2020 through June 30, 2023 for federal tax purposes and for the fiscal years ended June 30, 2019 through June 30, 2023 for state tax purposes. To the extent the Company utilizes net operating losses ("NOLs") generated in earlier years, such earlier years may also be subject to audit.

For six months ended December 31, 2024, the Company recognized income tax expense of $0.1 million and had an effective tax rate of 31.4% compared to income tax expense of $1.0 million and an effective tax rate of 28.5% for the six months ended December 31, 2023.

The Company's effective tax rate will typically differ from the statutory federal rate as a result of state income taxes, primarily in the states of Louisiana, Oklahoma, North Dakota and Texas, percentage depletion in excess of basis, and other permanent differences. For both periods, the respective statutory federal tax rate was 21%.

Deferred income taxes primarily represent the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

Note 7. Derivatives

The Company is exposed to certain risks relating to its ongoing business operations, including commodity price risk and interest rate risk. In accordance with the Company's strategy and the requirements under the Senior Secured Credit
Facility (as discussed in Note 5, *"Senior Secured Credit Facility"*), it may hedge or may be required to hedge a varying portion of anticipated oil and natural gas production for future periods. Derivatives are carried at fair value on the unaudited condensed consolidated balance sheets as assets or liabilities, with the changes in the fair value included in the unaudited condensed consolidated statements of operations for the period in which the change occurs. The Company's hedge strategies and objectives may change significantly as its operational profile changes or as required under the Senior Secured Credit Facility. The Company does not enter into derivative contracts for speculative trading purposes.

It is the Company's policy to enter into derivative contracts only with counterparties that are creditworthy financial or commodity hedging institutions deemed by management as competent and competitive market makers. As of December 31, 2024, the Company did not post collateral under any of its derivative contracts during the periods in which contracts were open as they were secured under the Company's Senior Secured Credit Facility.

When the Company utilizes commodity derivative contracts, it expects to enter into deferred premium puts, costless put/call collars, fixed-price swaps, and/or basis swaps to hedge a portion of its anticipated future production. A costless collar consists of a sold call, which establishes a maximum price the Company will receive for the volumes under contract, and a purchased put that establishes a minimum price. Fixed-price swaps are designed so that the Company receives or makes payments based on a differential between fixed and variable prices for the volumes under contract. Basis swaps effectively lock in a price differential between regional prices (i.e., Inside FERC's Northwest Pipeline Corp Rocky Mountains) where the product is sold and the relevant pricing index under which the natural gas production is hedged (i.e., NYMEX Henry Hub). The Company has elected not to designate its open derivative contracts for hedge accounting. Accordingly, the Company records the net change in the mark-to-market valuation of the derivative contracts and all payments and receipts on settled derivative contracts in "*Net gain (loss) on derivative contracts*" on the unaudited condensed consolidated statements of operations.

All derivative contracts are recorded at fair market value in accordance with ASC 815, *Derivatives and Hedging* ("ASC 815") and ASC 820, *Fair Value Measurement* ("ASC 820") and included in the unaudited condensed consolidated balance sheets as assets or liabilities. The *"Derivative contract assets"* and *"Derivative contract liabilities"* represent the difference between the market commodity prices and the hedged prices for the remaining volumes of production hedges as of December 31, 2024 and June 30, 2024 (the "mark-to-market valuation").

The following table summarizes the location and fair value amounts of all derivative contracts in the unaudited condensed consolidated balance sheets as of December 31, 2024 and June 30, 2024 (in thousands):

Derivatives not designated as hedging contracts under ASC 815	Balance sheet location	Derivative Contract Assets		Balance sheet location	Derivative Contract Liabilities

The Company presents the fair value of its derivative contracts at the gross amounts in the unaudited condensed consolidated balance sheets. The following table shows the potential effects of master netting arrangements on the fair value of the Company's derivative contracts as of December 31, 2024 and June 30, 2024 (in thousands):

Offsetting of Derivative Assets and Liabilities	Derivative Contracts Assets		Derivative Contracts Liabilities	
	December 31, 2024	June 30, 2024	December 31, 2024	June 30, 2024
Gross amounts presented in the Consolidated Balance Sheet	$ 1,323	$ 767	$ 1,716	$ 1,660

Net amount	$ 635	$ 270	$ 1,028	$ 1,163

The Company enters into an International Swap Dealers Association Master Agreements ("ISDA") with each counterparty prior to a derivative contract with such counterparty. The ISDA is a standard contract that governs all derivative contracts entered into between the Company and the respective counterparty. The ISDA allows for offsetting
of amounts payable or receivable between the Company and the counterparty, at the election of both parties, for transactions that occur on the same date and in the same currency.

Measurement **Dec. 31, 2024**

Fair Value Measurement

Fair Value Measurement

Note 8. Fair Value Measurement

Accounting guidelines for measuring fair value establish a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy categorizes assets and liabilities measured at fair value into one of three different levels depending on the observability of the inputs employed in the measurement.

The three levels are defined as follows:

Level 1—Observable inputs such as quoted prices in active markets at the measurement date for identical, unrestricted assets or liabilities.

Level 2—Other inputs that are observable directly or indirectly, such as quoted prices in markets that are not active or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3—Unobservable inputs for which there are little or no market data and which the Company makes its own assumptions about how market participants would price the assets and liabilities.

Fair Value of Derivative Instruments. The Company's determination of fair value incorporates not only the credit standing of the counterparties involved in transactions with the Company resulting in receivables on the Company's unaudited condensed consolidated balance sheets, but also the impact of the Company's nonperformance risk on its own liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The Company utilizes market data or assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique. These inputs can be readily observable (Level 1) market corroborated (Level 2), or generally unobservable (Level 3). The Company classifies fair value balances based on observability of those inputs.

As required by ASC 820, a financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgement, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels. There were no transfers between fair value hierarchy levels for any period presented in this report. The following table, set forth by level within the fair value hierarchy, shows the Company's financial assets and liabilities that were accounted for at fair value as of December 31, 2024 and June 30, 2024 (in thousands).

	December 31, 2024			
	Level 1	Level 2	Level 3	Total
Assets				
Derivative contract assets	$ —	$ 1,323	$ —	$ 1,323
Liabilities				
Derivative contract liabilities	$ —	$ 1,716	$ —	$ 1,716

	June 30, 2024			
	Level 1	Level 2	Level 3	Total
Assets				
Derivative contract assets	$ —	$ 767	$ —	$ 767
Liabilities				
Derivative contract liabilities	$ —	$ 1,660	$ —	$ 1,660

Derivative contracts listed above as Level 2 include fixed-price swaps and costless put/call collars that are carried at fair value. The Company records the net change in fair value of these positions in *"Net gain (loss) on derivative contracts"* in the Company's unaudited condensed consolidated statements of operations. The Company is able to value the assets and liabilities based on observable market data for similar instruments, which resulted in the Company reporting its derivatives as Level 2. This observable data includes the forward curves for commodity prices based on quoted market prices and implied volatility factors related to changes in the forward curves. See Note 7, *"Derivatives,"* for additional discussion of derivatives.

The Company's derivative contracts are with large utilities with investment grade credit ratings which are believed to have minimal credit risk. As such, the Company is exposed to credit risk to the extent of nonperformance by the counterparties in the derivative contracts; however, the Company does not expect such nonperformance.

Other Fair Value Measurements. The following disclosure of the estimated fair value of financial instruments is made in accordance with the requirements of ASC 825, *Financial Instruments*. The estimated fair value amounts have been determined at discrete points in time based on relevant market information. These estimates involve uncertainties and cannot be determined with precision. The estimated fair value of cash and cash equivalents, accounts receivable, and accounts payable approximates their carrying value due to their short-term nature. The estimated fair value of the Company's Senior Secured Credit Facility approximates carrying value because the interest rates approximate current market rates.

The Company follows the provisions of ASC 820, for nonfinancial assets and liabilities measured at fair value on a non-recurring basis. These provisions apply to the Company's initial measurement and any subsequent revision of asset retirement obligations ("ARO") for which fair value is calculated using discounted future cash flows derived from historical costs and management's expectations of future cost environments. Significant Level 3 inputs used in the calculation of ARO include the costs of plugging and abandoning wells, surface restoration, and reserve lives. Subsequent to initial recognition, revisions to estimated asset retirement obligations are made when changes occur for input values. See Note 9, *"Asset Retirement Obligations,"* for a reconciliation of the beginning and ending balances of the liability for the Company's ARO.

Asset Retirement Obligations

Note 9. Asset Retirement Obligations

The Company's ARO represents the estimated present value of the amount expected to be incurred to plug, abandon, and remediate its oil and natural gas properties at the end of their productive lives in accordance with applicable laws and regulations. The Company records the ARO liability on the unaudited condensed consolidated balance sheets and capitalizes the cost in *"Oil and natural gas properties, net"* during the period in which the obligation is incurred. The Company records the accretion of its ARO liabilities in *"Depletion, depreciation and accretion"* expense in the unaudited condensed consolidated statements of operations.

The following is a reconciliation of the activity related to the Company's ARO liability (inclusive of the current portion) for the period ended December 31, 2024 (in thousands):

Commitments and Contingencies

Note 10. Commitments and Contingencies

The Company is subject to various claims and contingencies in the normal course of business. In addition, from time to time, the Company receives communications from government or regulatory agencies concerning investigations or allegations of noncompliance with laws or regulations in jurisdictions in which the Company operates. The Company discloses such matters if it believes there is a reasonable possibility that a future event or events will confirm a material loss through impairment of an asset or the incurrence of a material liability. The Company accrues a material loss if it believes it probable that a future event or events will confirm a loss and the loss is reasonably subject to estimation. Furthermore, the Company will disclose any matter that is unasserted if it considers it probable that a claim will be asserted and there is a reasonable possibility that the outcome will be unfavorable and material in amount. The Company expenses legal defense costs as they are incurred.

Stockholders' Equity

Note 11. Stockholders' Equity

Common Stock

As of December 31, 2024, the Company had 34,076,846 shares of common stock outstanding.

The Company began paying quarterly cash dividends on common stock in December 2013. As of December 31, 2024, the Company has cumulatively paid over $126.6 million in cash dividends. The Company paid dividends of $8.1 million and $8.0 million to its common stockholders during the six months ended December 31, 2024 and 2023, respectively.

The following table reflects the dividends paid per share within the respective three-month periods:

	Fiscal Year	
	2025	2024
Second fiscal quarter	$ 0.120	$ 0.120
First fiscal quarter	0.120	0.120

On October 21, 2024, the Company entered into an At-the-Market ("ATM") equity Sales Agreement (the "ATM Sales Agreement") with Roth Capital Partners, LLC (the "Lead Agent"), Northland Securities Inc., and A.G.P./Alliance Global Partners pursuant to which the Company may issue and sell, from time to time, up to $30.0 million of shares of common stock through or to the Lead Agent, acting as agent or principal. During the period ended December 31, 2024, the Company sold a total of approximately 0.4 million shares of its common stock under the ATM Sales Agreement for net proceeds of approximately $2.0 million, after deducting an initial $0.2 million in fees for due diligence incurred with the offering. The Company intends to use the net proceeds from any sales of common stock for general corporate purposes, including to redeem or repay outstanding indebtedness. The Company is not obligated to sell any shares of common stock in the future.

On September 8, 2022, the Board of Directors approved a share repurchase program, under which the Company was authorized to repurchase up to $25.0 million of its common stock in the open market through December 31, 2024. The Company funded repurchases from working capital and cash provided by operating activities. The share repurchase program was complimentary to the existing dividend policy and was a tax efficient means to further improve shareholder return. The shares were repurchased from time to time in open market transactions, through privately negotiated transactions or by other means in accordance with federal securities laws. The Company repurchased a total of 0.8 million shares of its common stock under the program at a total cost of approximately $4.6 million, including incremental direct transaction costs.

During the six months ended December 31, 2024 and 2023, the Company acquired treasury stock upon the ordinary course of scheduled vestings of employee stock-based awards to fund payroll tax withholding obligations. These treasury shares were subsequently cancelled. Such shares were valued at fair market value on the date of vesting.

The following table summarizes all treasury stock purchases during the six months ended December 31, 2024 and 2023 (in thousands, except per share amounts):

	Six Months Ended December 31,	
	2024	2023
Number of treasury shares acquired	36	29
Average cost per share	$ 5.32	$ 7.29
Total cost of treasury shares acquired	$ 191	$ 213

Expected Tax Treatment of Dividends

For the fiscal year ended June 30, 2024, all common stock dividends for that fiscal year were treated for tax purposes as qualified dividend income to the recipients. Based on its current projections for the fiscal year ended June 30, 2025, the Company expects all common stock dividends for such period to be treated as qualified dividend income to the recipients. Such projections are based on the Company's reasonable expectations as of December 31, 2024 and are subject to change based on the Company's final tax calculations at the end of the fiscal year.

Stock-Based Incentive Plan

The Evolution Petroleum Corporation 2016 Equity Incentive Plan (the "2016 Plan") authorized the issuance of 3.6 million shares of common stock prior to its expiration on December 8, 2026. On December 5, 2024 shareholders approved and adopted the amendment and restatement of the 2016 Plan (hereinafter the "Amended and Restated Plan"), which increased the shares authorized for issuance under the 2016 Plan by 2.1 million shares to a maximum of 5.7 million shares. The duration of the Amended and Restated Plan is indefinite, provided that no new awards shall be made under the Amended and Restated Plan on or after the tenth anniversary of the date the stockholders approved the Amended and Restated Plan. Incentives under the Amended and Restated Plan may be granted to employees, directors, and consultants of the Company in any one or a combination of the following forms: incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock awards, restricted stock unit awards, and performance share awards. As of December 31, 2024 and June 30, 2024, approximately 2.5 million shares and 0.9 million shares, respectively, remained available for grant under the Amended and Restated Plan.

The Company estimates the fair value of stock-based compensation awards on the grant date to provide the basis for future compensation expense. During the three and six months ended December 31, 2024, the Company recognized $0.7 million and $1.2 million, respectively, related to stock-based compensation. During the three and six months ended December 31, 2023, the Company recognized $0.6 million and $1.0 million, respectively, related to stock-based compensation. Stock-based compensation expense is recorded as a component of "*General and administrative expenses*" on the unaudited condensed consolidated statements of operations.

Time-Vested Restricted Stock Awards

Time-vested restricted stock awards contain service-based vesting conditions and expire after a maximum of four years from the date of grant if unvested. The common shares underlying these awards are issued on the date of grant and participate in dividends paid by the Company. These service-based awards vest with continuous employment by the Company, generally in annual installments over terms of three to four years. Awards to the Company's directors generally have one-year cliff vesting. For such awards, grant date fair value is based on market value of the Company's common stock at the time of grant. This value is then amortized ratably over the service period. Previously recognized amortization expense subsequent to the last vesting date of an award is reversed in the event that the holder has no longer rendered service to the Company resulting in forfeiture of the award.

Performance-Based Restricted Stock Awards and Performance-Based Contingent Stock Units

Performance-based restricted stock awards and performance-based contingent stock units contain market-based vesting conditions based on the price of the Company's common stock, the intrinsic value indexed solely to its common stock or the intrinsic value indexed to its common stock compared to the performance of the common stock of its peers. The common shares underlying the Company's performance-based restricted stock awards are issued on the date of grant and
participate in dividends paid by the Company and expire after a maximum of four years from the date of grant if unvested. Performance-based contingent share units do not participate in dividends and shares are only issued in part or in full upon the attainment of vesting conditions, generally have a lower probability of achievement and expire after a maximum of four years from the date of grant if unvested. Shares underlying performance-based contingent share units are reserved from the 2016 Plan. Performance-based restricted stock awards and contingent restricted stock units are valued using a Monte Carlo simulation and geometric Brownian motion techniques applied to the historical volatility of the Company's total stock return compared to the historical volatilities of other companies or indices to which the Company compares its performance and/or the Company's absolute total stock return. For certain awards, this Monte Carlo simulation also provides an expected vesting term. Stock-based compensation is recognized ratably over the expected vesting period, so long as the award holder remains an employee of the Company. Previously recognized compensation expense is only reversed for the awards with market-based vesting conditions if the requisite service period is not rendered by the holder resulting in forfeiture of the award or as a result of regulatory required clawback.

Vesting of grants with performance-based vesting conditions is dependent on the future price of the Company's common stock. Such awards vest in part or in full if the trailing total returns on the Company's common stock for a specified three-year period exceed the corresponding total returns of various quartiles of indices consisting of peer companies.

During the six months ended December 31, 2024, the Company granted a total of 0.5 million equity awards that included 0.2 million time-vested restricted stock awards, 0.2 million performance-based restricted stock awards, and 0.1 million performance-based contingent stock units.

During the six months ended December 31, 2023, the Company granted a total of 0.4 million equity awards that included 0.2 million time-vested restricted stock awards, 0.1 million performance-based restricted stock awards, and 0.1 million of performance-based contingent stock units.

For performance-based awards granted during the six months ended December 31, 2024 and 2023, the assumptions used in the Monte Carlo simulation valuations were as follows:

	Six Months Ended December 31,

Unvested restricted stock awards (both time-vested and performance-based), totaling approximately 0.8 million for the three months ended December 31, 2024 were not included in the computation of diluted earnings per common share because the effect would have been anti-dilutive due to the net loss. Unvested restricted stock awards (both time-vested and performance-based), totaling approximately 0.1 million for the six months ended December 31, 2024, were not included in the computation of diluted earnings per common share because the effect would have been anti-dilutive.

Unvested restricted stock awards (both time-vested and performance-based), totaling approximately 0.2 million and 0.1 million for the three and six months ended December 31, 2023, respectively,

were not included in the computation of diluted earning per common share because the effect would have been anti-dilutive.

In addition, unvested performance-based restricted stock awards and unvested contingent restricted stock units that would not meet the performance criteria as of the period end are excluded from the computation of diluted earnings per common share.

Financial Statement Presentation (Policies)	6 Months Ended Dec. 31, 2024
Financial Statement Presentation	

Nature of Operations. Evolution Petroleum Corporation ("Evolution," and together with its consolidated subsidiaries, the "Company") is an independent energy company focused on maximizing returns to shareholders through the ownership of and investment in onshore oil and natural gas properties in the United States. The Company's long-term goal is to maximize total shareholder return from a diversified portfolio of long-life oil and natural gas properties built through acquisitions and through selective development opportunities, production enhancement, and other exploitation efforts on its oil and natural gas properties.

The Company's oil and natural gas properties consist of non-operated interests in the following areas: the SCOOP and STACK plays of the Anadarko Basin located in central Oklahoma; the Chaveroo oilfield in Chaves and Roosevelt Counties of New Mexico; the Jonah Field in Sublette County, Wyoming; the Williston Basin in North Dakota; the Barnett Shale located in North Texas; the Hamilton Dome Field located in Hot Springs County, Wyoming, a secondary recovery field utilizing water injection wells to pressurize the reservoir; the Delhi Holt-Bryant Unit in the Delhi Field in Northeast Louisiana, a CO_2 enhanced oil recovery project; as well as small overriding royalty interests in four onshore Texas wells.

Interim Financial Statements. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") for interim financial information and the appropriate rules and regulations of the Securities and Exchange Commission ("SEC"). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. All adjustments (consisting of normal recurring accruals) which are, in the opinion of management, necessary for a fair presentation of the financial position and results of operations for the interim periods presented have been included. The interim financial information and notes hereto should be read in conjunction with the Company's 2024 Annual Report on Form 10-K for the fiscal year ended June 30, 2024, as filed with the SEC on September 11, 2024. The results of operations for interim periods are not necessarily indicative of results to be expected for a full fiscal year. The Company has evaluated events and transactions through the date of issuance of these unaudited condensed consolidated financial statements.

Principles of Consolidation and Reporting. The unaudited condensed consolidated financial statements include the accounts of Evolution Petroleum Corporation and its wholly-owned subsidiaries. All significant intercompany transactions have been eliminated in consolidation. The unaudited condensed consolidated financial statements for the previous year may be condensed or include certain reclassifications to conform to the current presentation.

Risk and Uncertainties. The Company's oil and natural gas interests are operated by third-party operators and involve other third-party working interest owners. As a result, the Company has limited ability to influence the operation or future development of such properties. However, the Company is proactive with its third-party operators to review the management of capital expenditures.

Oil and Natural Gas Properties. The Company uses the full-cost method of accounting for its investments in oil and natural gas properties. Under this method of accounting, all costs incurred in the acquisition, exploration and development of oil and natural gas properties, including unproductive wells, are capitalized. This includes any internal costs that are directly related to property acquisition, exploration, and development activities but does not include any costs related to production, general corporate overhead, or similar activities. Oil and natural gas properties include costs that are excluded from depletion and amortization, which represent investments in unproved and unevaluated properties and include non-producing leasehold, geologic and geophysical costs associated with leasehold or drilling interests, and exploration drilling costs. These costs are excluded until the project is evaluated and proved reserves are established or impairment is determined.

Use of Estimates. The preparation of the Company's unaudited condensed consolidated financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities, if any, at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the respective reporting periods. Significant
estimates include (a) reserve quantities and estimated future cash flows associated with proved reserves, which may significantly impact depletion expense and potential impairments of oil and natural gas properties, (b) asset retirement obligations, (c) stock-based compensation, (d) fair values of derivative contract assets and liabilities, (e) income taxes and the valuation of deferred income tax assets, (f) commitments and contingencies, and (g) accruals of crude oil, natural gas, and NGL revenues and expenses. The Company analyzes estimates and judgments based on historical experience and various other assumptions and information that are believed to be reasonable. Estimates and assumptions about future events and their effects cannot be predicted with certainty and, accordingly, these estimates may change as additional information is obtained, as new events occur, and as the Company's environment changes. Actual results may differ from the estimates and assumptions used in the preparation of the Company's unaudited condensed consolidated financial statements.

Recently Issued Accounting Pronouncements

In November 2024, the FASB issued ASU 2024-03, *Disaggregation of Income Statement Expenses* ("ASU 2024-03"). ASU 2024-03 increases the transparency of expense information presented in the statement of operations through disclosures of expanded disaggregation of relevant expense captions including purchases of inventory, employee compensation, depletion, depreciation, and amortization. ASU 2024-03 is effective for annual periods beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027 with early adoption permitted. The Company is currently evaluating ASU 2024-03 and the impact it may have to the Company's disclosures.

In December 2023, the FASB issued ASU 2023-09, Improvements to *Income Tax Disclosures* ("ASU 2023-09"). ASU 2023-09 enhances the transparency of income tax disclosures by expanding the income tax rate reconciliation disclosure and income taxes paid information. ASU 2023-09 also includes certain other amendments to improve the effectiveness of income tax disclosures. ASU 2023-09 is effective for annual periods beginning after December 15, 2024. The Company is currently evaluating ASU 2023-09 and the impact it may have to the Company's financial position, results of operations, cash flow or disclosures.

In November 2023 the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures* ("ASU 2023-07"). ASU 2023-07 expands the segment disclosures, even for entities with only one reportable segment, to include additional information about significant segment expenses and other segment items on an annual and interim basis as well as the title and position of the chief operating decision maker. ASU 2023-07 is effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted and entities must adopt the amendment retrospectively for all prior periods presented in the financial statements. The Company is currently evaluating ASU 2023-07 and the impact it may have to the Company's financial position, results of operations, cash flow or disclosures.

Other accounting pronouncements that have recently been issued by the FASB or other standards-setting bodies are not expected to have a material impact on the Company's financial position, results of operations, cash flows or disclosures.
