NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Amounts in tables in thousands of dollars, except for per share amounts)

NOTE 1 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS

The accompanying unaudited Consolidated Financial Statements have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") for interim financial information and in accordance with the instructions to Form 10-Q and do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The Consolidated Financial Statements include the accounts of The Gorman-Rupp Company (the "Company" or "Gorman-Rupp") and its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated. Certain prior year amounts have been reclassified for consistency with the current year presentation. These reclassifications had no effect on the reported results. In the opinion of management of the Company, all adjustments considered necessary for a fair presentation have been included. Operating results for the three and **six** nine months ended **June 30, 2024** **September 30, 2024** are not necessarily indicative of results that may be expected for the year ending December 31, 2024. For further information, refer to the Consolidated Financial Statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023, from which related information herein has been derived.

Accounting Standards Issued But Not Yet Adopted

The Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. The new standard is intended to improve reportable segment disclosure requirements, primarily through additional and more detailed information about a reportable segment's expenses. The standard is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. The guidance is to be applied retrospectively to all prior periods presented in the financial statements. The Company plans to adopt this ASU for its fiscal year end December 31, 2024 disclosures, but does not anticipate the adoption to have a material impact on the Company's financial disclosures.

The FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures. The standard is intended to enhance the transparency and decision usefulness of income tax disclosures. This amendment modifies the rules on income tax disclosures to require entities to disclose (1) specific categories in the rate reconciliation and additional information for reconciling items that meet a quantitative threshold, (2) the amount of income taxes paid, net of refunds received, disaggregated by federal, state, and foreign taxes, as well as individual jurisdictions in which income taxes paid is equal to or greater than 5 percent of total income taxes paid, (3) the income or loss from continuing operations before income tax expense or benefit disaggregated between domestic and foreign, and (4) income tax expense or benefit from continuing operations disaggregated by federal, state and foreign. The standard is effective for annual periods beginning after December 15, 2024. The standard should be applied on a prospective basis, while retrospective application is permitted. The Company does not anticipate the adoption to have a material impact on the Company's financial disclosures.

Amended and Restated Senior Secured Credit Agreement

On May 31, 2024, the Company entered into an Amended and Restated Senior Secured Credit Agreement (the "Amended and Restated Senior Credit Agreement") with several lenders, which amended, extended, and restated the Company's existing Senior Secured Credit Agreement, dated as of May 31, 2022. The Amended and Restated Senior Credit Agreement provides for a term loan facility in an aggregate principal amount of \$370 million (the "Senior Term Loan Facility"), a revolving credit facility in an aggregate principal amount of up to \$100 million (the "Credit Facility"), a letter of credit sub-facility in the aggregate available amount of up to \$30 million, as a sublimit of the Credit Facility, and a swing line sub-facility in the aggregate available amount of up to \$20 million, as a sublimit of the Credit Facility. The obligations of the Company under the Amended and Restated Senior Credit Agreement are secured by a first priority lien on substantially all of its personal property, and guaranteed by certain of the Company's direct, wholly-owned subsidiaries (the "Guarantors"), which guarantees are secured by a first priority lien in substantially all of the Guarantors' personal property.

The Amended and Restated Senior Credit Agreement has a maturity date of May 31, 2029, with the Senior Term Loan Facility requiring quarterly installment payments commencing on September 30, 2024 and continuing on the last day of each consecutive December, March, June and September thereafter.

At the option of the Company, borrowings under the Senior Term Loan Facility and under the Credit Facility bear interest at either a base rate or at an Adjusted Term SOFR Rate (as defined in the Amended and Restated Senior Credit Agreement), plus the applicable margin, which ranges from 0.5% to 1.25% for base rate loans and 1.50% to 2.25% for Adjusted Term SOFR Rate loans. The applicable margin is based on the Company's total leverage ratio. At **June 30, 2024** **September 30, 2024**, the applicable interest rate under the Amended and Restated Senior Secured Credit Agreement was Adjusted Term SOFR plus 2.25%.

The Amended and Restated Senior Credit Agreement requires the Company to maintain a consolidated total net leverage ratio not to exceed 4.50 to 1.00 for each of the four consecutive fiscal quarter periods ending June 30, 2024 and September 30, 2024, decreasing to 4.25 to 1.00 for each of the four consecutive quarters ending December 31, 2024 and March 31, 2025, decreasing to 4.00 to 1.00 for each of the four consecutive fiscal quarter periods ending June 30, 2025 and September 30, 2025, and decreasing to 3.50 to 1.00 for the four consecutive fiscal quarter **periods** ending December 31, 2025 and each of the four consecutive fiscal quarter periods ending thereafter.

The Amended and Restated Senior Credit Agreement contains customary affirmative and negative covenants, including among others, limitations on the Company and its subsidiaries with respect to the incurrence of liens and indebtedness, dispositions of assets, mergers, transaction with affiliates, and the ability to make or pay dividends in excess of certain thresholds.

The Amended and Restated Senior Credit Agreement also contains customary provisions requiring the following mandatory prepayments, including, among others, prepayments of the net cash proceeds from any non-ordinary course sale of assets, and net cash proceeds of any non-permitted indebtedness.

The Company's obligations under the 6.40% Notes are secured by a first priority lien on substantially all of its personal property, and guaranteed by each of the Guarantors, which guarantees are secured by a first priority lien in substantially all of the Guarantors' personal property. The liens granted under the 6.40% Notes are equal in priority to those granted pursuant to the Amended and Restated Senior Credit Agreement.

The 6.40% Note Agreement has a maturity date of May 31, 2031 and interest is payable semiannually on the last day of May and November in each year, commencing with November 30, 2024.

The 6.40% Note Agreement includes representations, warranties, covenants and events of default, substantially consistent with those contained in the Amended and Restated Senior Credit Agreement.

Six Months Ended June 30, 2024 vs. Six Months Ended June 30, 2023

Net Sales

The following table presents the Company's disaggregated net sales by its end markets for the six months ended June 30, 2024 and June 30, 2023:

	Six Months Ended June 30,			
	2024	2023	\$ Change	% Change
Industrial	\$ 68,130	\$ 69,077	\$ (947)	(1.4)
Fire	61,249	73,074	(11,825)	(16.2)
Agriculture	41,787	44,057	(2,270)	(5.2)
Construction	43,389	43,273	116	0.3%
Municipal	46,419	36,973	9,446	25.5%
Petroleum	11,353	10,634	719	6.8%

Total net sales	\$ 328,781	\$ 331,490	\$ (2,709)	(0.8)
-----------------	------------	------------	-------------	--------

Net sales 20.9% for the first six months of 2024 were \$328.8 million compared to net sales of \$331.5 million for the first six months of 2023, a decrease of 0.8% or \$2.7 million. The decrease in sales was due to a decrease in volume partially offset by the impact of pricing increases taken in the first quarter of 2024.

Sales increased \$9.4 million in the municipal market due to domestic flood control and wastewater projects related to increased infrastructure investment, \$1.4 million in the OEM market, \$0.7 million in the petroleum market, \$0.7 million in the repair market, and \$0.1 million in the construction market. Offsetting these increases was a decrease of \$11.8 million in the fire suppression market primarily resulting from backlog returning to more normal levels. Fire suppression sales for the first six months of 2023 were up significantly compared to the same period in 2022 as the Company was working to return backlog and lead times to normal levels, which resulted in higher sales for the first six months of 2023 and a tougher year-over-year comparison for the first six months of 2024. Fire suppression incoming orders for the first six months of 2024 were up 6.4% when compared to the first six months of 2023. Sales for the first six months of 2024 also decreased \$2.3 million in the agriculture market primarily driven by significant declines in farm income, and \$0.9 million in the industrial market.

The 190 basis point increase in gross margin included a 260 basis point improvement in cost of material, which consisted of a reduction in LIFO expense of 70 basis points, a favorable impact of 30 basis points related to the amortization of acquired Fill-Rite customer backlog which occurred in 2023 and did not reoccur in 2024, and a 160 basis point improvement from the realization of selling price increases. These improvements were partially offset by a 70 basis point increase in labor and overhead expenses as a percent of sales.

Non-GAAP Financial Information

The discussion of Results of Operations above includes certain non-GAAP financial data and measures such as adjusted earnings, adjusted earnings per share, and adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA"). Adjusted earnings is earnings excluding amortization of customer backlog, write-off of unamortized previously deferred debt financing fees, and refinancing costs. Adjusted earnings per share is earnings per share excluding amortization of customer backlog per share, write-off of unamortized previously deferred debt financing fees per share, and refinancing costs per share. Adjusted earnings before interest, taxes, depreciation and amortization is net income (loss) excluding interest, taxes, depreciation and amortization, adjusted to exclude amortization of customer backlog, write-off of unamortized previously deferred debt financing fees, refinancing costs, and non-cash LIFO expense. Management utilizes these adjusted financial data and measures to assess comparative operations against those of prior periods without the distortion of non-comparable factors. The inclusion of these adjusted measures should not be construed as an indication that the Company's future results will be unaffected by unusual or infrequent items or that the items for which the Company has made adjustments are unusual or infrequent or will not recur. Further, the impact of the LIFO inventory costing method can cause results to vary substantially from company to company depending upon whether they elect to utilize LIFO and depending upon which method they may elect. The Gorman-Rupp Company believes that these non-GAAP financial data and measures also will be useful to investors in assessing the strength of the Company's underlying operations and liquidity from period to period. These non-GAAP financial measures are not intended to replace GAAP financial measures, and they are not necessarily standardized or comparable to similarly titled measures used by other companies. Provided below is a reconciliation of adjusted earnings, adjusted earnings per share, and adjusted EBITDA to their respective corresponding GAAP financial measures, which includes descriptions of actual adjustments made in the current period and the corresponding prior period.

Liquidity and Capital Resources

Our primary sources of liquidity are cash generated from operations and borrowings under our Credit Facility. Cash and cash equivalents totaled \$34.2 million \$39.7 million at June 30, 2024 September 30, 2024. The Company had an additional \$98.5 million of borrowing capacity \$98.7 million available under the revolving credit facility with no amounts borrowed and \$1.5 million \$1.3 million in outstanding letters of credit primarily related to customer orders. We believe we have adequate liquidity from funds on hand and borrowing

capacity to execute our financial and operating strategy, as well as comply with debt obligation and financial covenants for at least the next 12 months.

As of **June 30, 2024** **September 30, 2024**, the Company had **\$400.0 million** **\$385.4 million** in total debt outstanding with \$30.0 million due in 2031 and the remainder due in 2029. The Company was in compliance with its debt covenants, including limits on additional borrowings and maintenance of certain operating and financial ratios, at **June 30, 2024** **September 30, 2024** and December 31, 2023. See "Note 9 – Financing Arrangements" in the Notes to Consolidated Financial Statements included in this Form 10-Q for a further description of our outstanding debt.

Capital expenditures for the first **six** **nine** months of 2024 were **\$7.1 million** **\$10.3 million** and consisted primarily of machinery and equipment and building improvements. Capital expenditures for the full-year 2024 are presently planned to be approximately **\$18 - \$20** million primarily for building improvements and machinery and equipment purchases, and are expected to be financed through internally-generated funds.

On **July 25, 2024** **October 24, 2024**, the Board of Directors authorized the payment of a quarterly dividend of **\$0.18** **\$0.185** per share on the common stock of the Company, payable **September 10, 2024** **December 10, 2024**, to shareholders of record as of **August 15, 2024** **November 15, 2024**. This will mark the **298th** **299th** consecutive quarterly dividend paid by The Gorman-Rupp Company. The Company currently expects to continue its exceptional history of paying regular quarterly dividends and increased annual dividends. However, any future dividends will be reviewed individually and declared by our Board of Directors at its discretion, dependent on our assessment of the Company's financial condition and business outlook at the applicable time.

The Board of Directors has authorized a share repurchase program of up to \$50.0 million of the Company's common shares. The actual number of shares repurchased will depend on prevailing market conditions, alternative uses of capital and other factors, and will be determined at management's discretion. The Company is not obligated to make any purchases under the program, and the program may be suspended or discontinued at any time. As of **June 30, 2024** **September 30, 2024**, the Company had \$48.1 million available for repurchase under the share repurchase program.

Our critical accounting policies are described in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, and in the notes to our Consolidated Financial Statements for the year ended December 31, 2023 contained in our Annual Report on Form 10-K for the year ended December 31, 2023. Any new accounting policies or updates to existing accounting policies as a result of new accounting pronouncements have been discussed in the notes to our Consolidated Financial Statements in this Quarterly Report on Form 10-Q. The application of our critical accounting policies may require management to make judgments and estimates about the amounts reflected in the Consolidated Financial Statements. Management uses historical experience and all available information to make these estimates and judgments, and different amounts could be reported using different assumptions and estimates.

Cautionary Note Regarding Forward-Looking Statements

In connection with the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, The Gorman-Rupp Company provides the following cautionary statement: This Form 10-Q contains various forward-looking statements based on assumptions concerning The Gorman-Rupp Company's operations, future results and prospects. These forward-looking statements are based on current expectations about important economic, political, and technological factors, among others, and are subject to risks and uncertainties, which could cause the actual results or events to differ materially from those set forth in or implied by the forward-looking statements and related assumptions.

Such uncertainties include, but are not limited to, our estimates of future earnings and cash flows, general economic conditions and supply chain conditions and any related impact on costs and availability of materials, integration of the Fill-Rite business in a timely and cost effective manner, retention of supplier and customer relationships and key employees, the ability to achieve synergies and cost savings in the amounts and within the time frames currently anticipated and the ability to service and repay indebtedness incurred in connection with the transaction. Other factors include, but are not limited to: company specific risk factors including (1) loss of key personnel; (2) intellectual property security; (3) acquisition performance and integration; (4) the Company's indebtedness and how it may impact the Company's financial condition and the way it operates its business; (5) general risks associated with acquisitions; (6) the anticipated benefits from the Fill-Rite transaction may not be realized; (7) impairment in the value of intangible assets, including goodwill;

(8) defined benefit pension plan settlement expense; (9) LIFO inventory method, and (10) family ownership of common equity; and general risk factors including (11) continuation of the current and projected future business environment; (12) highly competitive markets; (13) availability and costs of raw materials and labor; (14) cybersecurity threats; (15) compliance with, and costs related to, a variety of import and export laws and regulations; (16) environmental compliance costs and liabilities; (17) exposure to fluctuations in foreign currency exchange rates; (18) conditions in foreign countries in which The Gorman-Rupp Company conducts business; (19) changes in our tax rates and exposure to additional income tax liabilities; and (20) risks described from time to time in our reports filed with the Securities and Exchange Commission. Except to the extent required by law, we do not undertake and specifically decline any obligation to review or update any forward-looking statements or to publicly announce the results of any revisions to any of such statements to reflect future events or developments or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to various market risks, including changes in foreign currency exchange rates and interest rates. Exposure to foreign exchange rate risk is due to certain costs and revenue being denominated in currencies other than one of the Company's subsidiaries functional currency. The Company is also exposed to market risk as the result of changes in interest rates which may affect the cost of financing. We continually monitor these risks and regularly develop appropriate strategies to manage them. Accordingly, from time to time, we may enter into certain derivative or other financial instruments. These financial instruments are used to mitigate market exposure and are not used for trading or speculative purposes.

Interest Rate Risk

The results of operations are exposed to changes in interest rates primarily with respect to borrowings under the Company's Senior Term Loan Facility and Credit Facility. Borrowings under the Senior Term Loan Facility and Credit Facility may be made either at (i) a base rate plus the applicable margin, which ranges from 0.50% to 1.25%, or at (ii) an Adjusted Term SOFR Rate, plus the applicable margin, which ranges from 1.5% to 2.25%. At **June 30, 2024** **September 30, 2024**, the Company had **\$370.0 million** **\$355.4 million** in borrowings under the Senior Term Loan Facility and no borrowings under the Credit Facility. As of June 30, 2024, the applicable interest rates under the Senior Secured Credit Agreement were Adjusted Term SOFR plus 2.25%.

To reduce the exposure to changes in the market rate of interest, effective October 31, 2022, the Company entered into interest rate swap agreements for a portion of the Senior Term Loan Facility. Terms of the interest rate swap agreements require the Company to receive a fixed interest rate and pay a variable interest rate. The interest rate swap agreements are designated as a cash flow hedge, and as a result, the mark-to-market gains or losses will be deferred and included as a component of accumulated other comprehensive income (loss) and reclassified to interest expense in the period during which the hedged transactions affect earnings.

The Company estimates that a hypothetical increase of 100 basis points in interest rates would increase interest expense by approximately **\$2.1 million** **\$2.0 million** on an annual basis.

Foreign Currency Risk

The Company's foreign currency exchange rate risk is limited primarily to the Euro, Canadian Dollar, South African Rand and British Pound. The Company manages its foreign exchange risk principally through invoicing customers in the same currency as is used in the

market of the source of products. The foreign currency transaction gains (losses) for the **six** **nine** month periods period ending **June 30, 2024** and **2023** **September 30, 2023** were **(\$0.1)** **0.5** million and **(\$0.4)** million, respectively, and are reported within Other (expense) income, net on the Consolidated Statements of Income. There were no foreign currency gains (losses) for the nine month period ending **September 30, 2024**.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. The Company's disclosure controls and procedures are also designed to ensure that information required to be disclosed in Company reports filed under the Securities Exchange Act of 1934 is accumulated and communicated to the Company's management, including the principal executive officer and the principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

An evaluation was carried out under the supervision and with the participation of the Company's management, including the principal executive officer and the principal financial officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report on Form 10-Q. Based on that evaluation, the principal executive officer and the principal financial officer have concluded that the Company's disclosure controls and procedures were effective as of **June 30, 2024** **September 30, 2024**.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

There are no material changes from the legal proceedings previously reported in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

ITEM 1A. RISK FACTORS

In addition to the information set forth in this report, you should carefully consider the risk factors disclosed in Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2023. There have been no material changes from the risk factors disclosed in Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2023, except for the following which supplements the Company's previously disclosed risk factors:

The Company has substantial indebtedness, which may impact the Company's financial condition and the way it operates its business

The Company has substantial indebtedness. Such indebtedness includes senior secured first lien credit facilities comprised of a \$370 million term loan facility and a \$100 million revolving credit facility, and a \$30 million in aggregate principal amount of 6.40% senior secured notes. The indebtedness could have important negative consequences, including:

- higher borrowing costs resulting from fluctuations in our variable benchmark borrowing rates that have adversely affected, and could in the future adversely affect, our interest rates;
- reduced availability of cash for the Company's operations and other business activities after satisfying interest payments and other requirements under the terms of its debt instruments;
- less flexibility to plan for or react to competitive challenges, and a competitive disadvantage relative to competitors that do not have as much indebtedness;
- limiting the Company's ability to undertake mergers or dispositions of assets, or pay dividends;
- difficulty in obtaining additional financing in the future;
- inability to comply with covenants in, and potential for default under, the Company's debt instruments;
- inability to operate our business or to take advantage of business opportunities due to restrictions created from the debt covenants; and
- challenges to repaying or refinancing any of the Company's debt.

The Company's ability to satisfy its debt and other obligations will depend principally upon its future operating performance. As a result, prevailing economic conditions and financial, business, legal and regulatory and other factors, many of which are beyond the Company's control, may affect its ability to make payments on its debt and other obligations.
