185169863833195343509223269751296681434563708000316081013866 7 NOTE 1 – BASIS OF PRESENTATION The terms "COSM," "we," the "Company," the "Group" and "us" as used in this report refer to Cosmos Health Inc. The accompanying unaudited condensed consolidated balance sheet as of June 30, 2024 and unaudited condensed consolidated statements of operations and comprehensive loss for the three and six months ended June 30, 2024 have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management of COSM, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2024, are not necessarily indicative of the results that may be expected for the year ending December 31, 2024, or any other period. These unaudited condensed consolidated financial statements and notes should be read in conjunction with the financial statements for the year ended December 31, 2023, included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023 ("Form 10-K"). The accompanying condensed consolidated balance sheet as of December 31, 2023 has been derived from the audited financial statements filed in our Form 10-K and is included for comparison purposes in the accompanying balance sheet. Going Concern The Company's consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"), which contemplates the continuation of the Company as a going concern. For the six months ended June 30, 2024, the Company had revenue of $27,791,190, net loss of $4,457,401 and net cash used in operations of $4,622,989. Additionally, as of June 30, 2024, the Company had positive working capital of $8,593,711, an accumulated deficit of $96,101,634, and stockholders' equity of $32,119,574. It is management's opinion that these conditions raise substantial doubt about the Company's ability to continue as a going concern for a period of twelve months from the date of this filing. The Company's revenues are not able to sustain its operations, and concerns exist regarding the Company's ability to meet its obligations as they become due. The Company is subject to a number of risks to those of smaller commercial companies, including dependence on key individuals and products, the difficulties inherent in the development of a commercial market, the need to obtain additional capital, competition from larger companies, and other pharmaceutical and health care companies. Management evaluated the above conditions which raise substantial doubt about the Company's ability to continue as a going concern to determine if it can meet its obligations for the subsequent twelve months from the date of this filing. Management considered its ability to access future capital, curtail expenses if needed, expand product lines, and acquire new products. Management's plans include expansion of brand name products to the market, expanding the current product portfolio, and evaluating acquisition targets to expand distribution. Furthermore, the Company intends to vertically integrate the supply chain distribution network. During the period up to the issuance of this report the Company has signed multiple distribution agreements for its SPL products in Europe and Asia and a variety of contract manufacturing agreements though its subsidiary, CANA. Finally, the Company plans to access the capital markets further in order to raise additional funds through equity offerings. More specifically, management will consider postponing the repayment of its outstanding Trade Facility ($1,606,650 balance as of June 30, 2024), intends to make substantial efforts to receive additional debt financing through its subsidiary, Cosmofarm SA, and plans to raise additional equity funds through utilizing its outstanding warrants. Up to the issuance of its consolidated financial statements for the six months ended June 30, 2024, the Company has sold 901,488 shares of common stock for net proceeds of $629,426. Moreover, the Company's management is considering postponing certain repayments of suppliers and creditors. However, management cannot provide any assurances that the Company will be successful in accomplishing any of its plans. The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described herein and eventually secure other sources of financing and attain profitable operations. Considering the above, management is of the view that substantial doubt exists for the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments to reflect the possible future effect on the recoverability and classification of assets or the amounts and classifications of liabilities that may result from the outcome of this uncertainty. 27791190-44574014622989859371 1-96101634321195741606650901488629426 NOTE 2 – ORGANIZATION AND NATURE OF BUSINESS Cosmos Health Inc. and its subsidiaries (Nasdaq: COSM), ("us", "we", the "Group", or the "Company") are an international healthcare group headquartered in Chicago, Illinois. The group is engaged in the nutraceuticals sector through its own proprietary lines of products "Sky Premium Life" and "Mediterranation". The Company is operating in the pharmaceutical sector as well, through the provision of a broad line of branded generics and OTC medications. In addition, the group is involved in the healthcare distribution sector through its subsidiaries in Greece and the UK, serving retail pharmacies and wholesale distributors. The Company is strategically focusing on the research and development ("R&D") of novel patented nutraceuticals (Intellectual Property) and specialized root extracts as well as on the R&D of proprietary complex generics and innovative OTC products. The Company has developed a global distribution platform and is currently expanding throughout Europe, Asia and North America. The Company has offices and distribution centers in Thessaloniki and Athens, Greece and Harlow, UK. The Company was incorporated in the State of Nevada under the name Prime Estates and Developments, Inc. on July 21, 2009. On November 14, 2013, we changed our name to Cosmos Holdings Inc., and on November 29, 2022, we changed our name to Cosmos Health Inc. Through its acquisition of Amplerissimo Ltd, on September 27, 2013, the Company changed its principal activities into trading of products, providing representation, and provision of consulting services to various sectors. On August 1, 2014, the Company formed SkyPharm S.A., a Greek Company ("SkyPharm"), a subsidiary that used to focus on the trading, sourcing and export of nutraceutical and pharmaceutical products. In February 2017, the Company acquired Decahedron Ltd., a UK Company ("Decahedron") which is a fully licensed second-generation wholesaler specializing in imports and exports of generics and OTC pharmaceutical products within the EEA and distributor of Sky Premium Life nutraceutical products in the UK. On December 19, 2018, the Company acquired Cosmofarm, a pharmaceutical wholesaler specializing in the distribution and export of pharmaceutical products through its extensive pharmacies network. On April 3, 2023, the Company completed the acquisition of ZipDoctor Inc. ("ZipDoctor"), a telehealth company, a direct-to-consumer subscription-based telemedicine platform. On June 30, 2023, the Company acquired Cana Laboratories Holdings (Cyprus) Limited ("Cana"), which wholly owned an operating subsidiary, Pharmaceutical Laboratories Cana S.A. ("Cana SA"), a Greek pharmaceutical company that manufactures, sells, distributes, and markets original branded products researched and developed by leading global pharmaceutical and healthcare companies. Acquisition Accounting Cloudscreen On January 23, 2024, the Company completed the acquisition of Cloudscreen, a cutting-edge Artificial Intelligence (AI) powered platform. The acquisition is pursuant to the purchase agreement announced on October 11, 2023. Cloudscreen is a multimodal platform specialized in drug repurposing, a process that involves uncovering new target proteins or indications for existing drugs for use in treating different diseases. The total purchase price amounted to $637,080 and consisted of 280,000 shares of common stock with a fair value of $319,200 and an amount of $317,880 to be settled in cash during 2024 based on the Promissory Note signed on

October 10, 2023. The Company accounted for the acquisition as an asset acquisition in accordance with Accounting Standards Codification (“ASC”) Topic 805, Business Combinations, (“ASC 805”) and recorded $637,080 as an intangible asset related to the technology platform acquired. ZipDoctor On April 3, 2023, the Company completed the acquisition of ZipDoctor Inc. (“ZipDoctor”), a telehealth company for a total sum of $150,000 in cash and $8,788 in fees. The Company accounted for the acquisition as an asset acquisition in accordance with Accounting Standards Codification (“ASC”) Topic 805, Business Combinations, (“ASC 805”) and recorded $158,788 as an intangible asset related to the technology platform acquired. Bikas On June 15, 2023, Cosmos Health Inc. entered into an Assignment and Assumption Agreement (the “Agreement”) with Ioannis Bikas O.E., a Greek Company (“Bikas”). Bikas is owner of a pharmaceutical distribution network in Greece and agreed to sell to the Company their distribution network and customer base. The purchase price of the network was €100,000 ($109,330) in cash, and €300,000 ($316,081) in the Company’s common stock. The Company issued 99,710 shares of common stock related to the acquisition of the customer base, based on the fair value of the stock on the acquisition date. The Company accounted for the acquisition as an asset acquisition in accordance with ASC 805 and recorded $425,411 as an intangible asset related to the customer base acquired. Buildings Acquisitions On April 24, 2023, the Company purchased a building for a total sum of $1,054,872 in cash. The Company accounted for the acquisition as an asset acquisition in accordance with ASC 805 and recorded the cost of the building as "Property, plant and equipment" on the consolidated balance sheets. On January 6, 2023, the Company agreed to purchase land and building located in Montreal, Canada from a third-party vendor. The total purchase price amounts to $3,950,000 and the closing date of the agreement based on the amendment signed on July 19, 2023, is December 31, 2023. As of June 30, 2024, the Company has made no additional prepayments concerning this building. The closing date of the agreement has been extended to December 31, 2024. Cana On June 30, 2023, the Company acquired Cana Laboratories Holdings (Cyprus) Limited (“Cana”), which wholly owned an operating subsidiary, Pharmaceutical Laboratories Cana S.A. (“Cana SA”) for €800,000 ($873,600) in cash and 46,377 shares of common stock, with fair value of $138,667 as of the date of acquisition. Moreover, on February 28,2023, the Company had signed a Secured Promissory Note with Cana, whereby Cana borrowed the sum of €4,100,000 ($4,457,520), included in the total consideration of $5,469,787. The Company accounted for the acquisition as a business acquisition in accordance with ASC 805. The fair value of Cana assets acquired, and liabilities assumed was based upon management’s estimates assisted by an independent third-party valuation firm. The fixed assets of Cana (which included land, building & machinery) were valued as of December 31, 2022 and the Company believes that nothing has materially changed between such date and the acquisition date (June 30, 2023). Basis of Financial Statement Presentation The accompanying consolidated financial statements have been prepared in accordance with U.S. GAAP. Principles of Consolidation Our consolidated accounts include our accounts and the accounts of our wholly owned subsidiaries, SkyPharm S.A., Decahedron Ltd., Cosmofarm S.A., Cana Laboratories Holdings (Cyprus) Limited and ZipDoctor Inc. The Group’s financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”). The consolidated financial statements reflect the consolidation of all entities in which the Company has control, as determined by the ability to direct the activities that significantly affect the entities’ economic performance. All significant intercompany balances and transactions have been eliminated. Transactions in and Translations of Foreign Currency The functional currency for the Greek subsidiaries of the Company (CANA Laboratories, Cosmofarm

S.A. and SkyPharm SA) is EURO (€) and for the UK subsidiary (Decahedron Ltd) is GBP (£). ZipDoctor Inc. is a U.S. based entity. As a result, the financial statements of the subsidiaries (except for ZipDoctor Inc.) have been translated from the local currency into U.S. dollars using (i) year-end exchange rates for balance sheet accounts, and (ii) average exchange rates for the reporting period for all income statements accounts. Foreign currency translations gains and losses are reported as a separate component of the condensed consolidated statements of changes in stockholders' equity and mezzanine equity. Use of Estimates The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The Effects of War in the Ukraine On February 24, 2022, Russian forces launched significant military action against Ukraine. There continues to be sustained conflict and disruption in the region, which is expected to endure for the foreseeable future. We do not conduct any commercial transactions with either Ukraine or Russia and the Company and, as such, is not aware of any specific event or circumstance that would require an update to its estimates or judgments or a revision of the carrying value of its assets or liabilities as of the date of issuance of this Annual Report on Form 10-K. Such political issues and conflicts could have a material adverse effect on our results of operations and financial condition if they escalate in areas in which we do business. In addition, changes in and adverse actions by governments in foreign markets in which we do business could have a material adverse effect on our results of operations and financial condition. Credit Losses In June 2016, the FASB issued ASU 2016-13, Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses of Financial Instruments, which amends the requirement on the measurement and recognition of expected credit losses for financial assets held. Furthermore, amendments ASU 2019-10 and ASU 2019-11 provided additional clarification for implementing ASU 2016-13. ASU 2016-13 is effective for the Company beginning January 1, 2023, with early adoption permitted. The Company adopted the standard on January 1, 2023, and the standard did not have a material impact on the Company's consolidated financial statements and related disclosures. The Company is exposed to credit losses primarily through sales to its customers and the loans that it has provided. The Company assesses each customer's/ borrower's ability to pay, and a credit loss estimate by conducting a credit review which includes consideration of established credit rating, or an internal assessment of the customer's creditworthiness based on an analysis of their payment history when a credit rating is not available. The Company monitors credit exposure through active review of customer balances. The Company's expected loss methodology for accounts receivable is developed through consideration of factors including, but not limited to, historical collection experience, current customer credit ratings, current customer financial condition, current and future economic and market conditions, and age of the receivables. More specifically, the Company assesses a number of customers with significant long outstanding balances on an individual basis, applying different credit loss percentages to them, and subsequently summarizes the ones not included in the individual analysis, groups them based on their rating (decided based on the factors described above) and applies specific credit loss percentages to each group. The Company has elected to follow the simplified ECL approach. The charges related to credit losses are included in "General and administrative expenses" and are recorded in the period that the outstanding receivables are determined to be doubtful. Account balances are written-off against the allowance when they are deemed uncollectible. Cash and Cash Equivalents For purposes of the statement of cash flows, the Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. The Company maintains bank accounts in the United States denominated in U.S. Dollars, in Greece denominated in Euros, U.S. Dollars and Great Britain Pounds (British Pounds Sterling), and in Bulgaria denominated in Euros. The Company also maintains bank accounts in the United Kingdom, denominated in Euros and Great Britain Pounds (British Pounds Sterling). Accounts Receivable, net Accounts receivable are stated at their net realizable value. The allowance for doubtful accounts against gross accounts receivable reflects the best estimate of probable losses inherent in the receivables' portfolio determined on the basis of historical experience, specific allowances for known troubled accounts and other currently available information. As of June 30, 2024 and December 31, 2023, the Company's allowance for doubtful accounts was $19,086,835 and $19,686,091, respectively. Below is the summary of changes in the allowance for doubtful accounts:</p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;"> </p><table cellpadding="0" style="border-spacing:0;text-align:left;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:center;">June 30, </p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:center;">2024 </p></td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td></tr><tr style="height:15px"><td><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="width:1%;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td class="ffcell" colspan="2" style="width:9%;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="width:1%;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;">Balance as of January 1st, 2024 </p></td><td style="width:1%;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="width:1%;vertical-align:bottom;white-space: nowrap;"><strong>$</td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">19,686,091</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> Provisions for credit losses </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;"></td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> Write-offs </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">-</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> Foreign exchange adjustments </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">(568,264</td><td style="width:1%;vertical-align:bottom;white-space: nowrap;">)</td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> Other adjustments </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">(30,992</td><td style="width:1%;vertical-align:bottom;white-space: nowrap;">)</td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> Balance as of June 30, 2024 </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;vertical-align:bottom;white-space: nowrap;">$</td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">19,086,835</td><td style="width:1%;white-space: nowrap;"> </td></tr></tbody></table> Tax Receivables The Company pays Value Added Tax ("VAT") or similar taxes ("input VAT"), income taxes, and other taxes within the normal course of its business in most of the countries in which it operates related to the procurement of merchandise and/or services it acquires and/or on sales and taxable income. The Company also collects VAT or similar taxes on behalf of the government ("output VAT") for merchandise and/or services it sells. If the output VAT exceeds the input VAT, this creates a VAT payable to the government. If the input VAT exceeds the output VAT, this creates a VAT receivable from the government. The VAT tax return is filed on a monthly basis offsetting the payables against the receivables. In observance of EU regulations for intra-EU cross-border sales, our subsidiaries in Greece, SkyPharm and Cosmofarm, do not charge VAT for sales to wholesale drug distributors registered in other European Union member states. As of June 30, 2024 and December 31, 2023, the Company had a VAT net receivable balance of $276,152 and $187,512 respectively, recorded in the consolidated balance sheet as prepaid expenses and other current assets and accounts payable and accrued expenses, respectively. Inventory Inventory is stated at the lower-of-cost or net realizable value using the weighted average method. Inventory consists primarily of finished goods and packaging materials, i.e., packaged pharmaceutical products and the wrappers and containers they are sold in. A periodic inventory system is maintained by 100% count. Inventory is replaced periodically to maintain the optimum stock on hand available for immediate shipment. The Company writes down inventories to net realizable value based on physical condition, expiration date, and current market conditions, as well as forecasted demand. The Company's inventories are not highly susceptible to obsolescence. Many of the Company's inventory items are eligible for return to our suppliers when pre-agreed product requirements, including, but not limited to, physical condition and expiration date, are not met. No significant judgments have been applied in estimating the selling price of our inventory. Property and Equipment, net Property and equipment are stated at cost, less accumulated depreciation. Depreciation is calculated on a straight-line basis over the useful lives (except for leasehold improvements which are depreciated over the lesser of the lease term or the useful life) of the assets as follows: <table cellpadding="0" style="border-spacing:0;font-size:10pt;width:100%"><tbody><tr style="height:15px"><td></td><td> </td><td colspan="2" style="BORDER-BOTTOM: 1px solid;vertical-align:bottom;"> Estimated Useful Life </td><td></td></tr><tr style="height:15px;background-color:#cceeff"><td style="width:77%;"> Leasehold improvements and technical works </td><td style="width:1%;"> </td><td style="width:1%;"></td><td style="width:20%;vertical-align:bottom;"> Lesser of lease term or 25 years </td><td style="width:1%;"></td></tr><tr style="height:15px;background-color:#ffffff"><td style="width:77%;"> Buildings </td><td style="width:1%;"> </td><td style="width:1%;"> </td><td style="width:20%;vertical-align:bottom;"> 25-30 years </td><td style="width:1%;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px;

Property and Equipment additions Property and Equipment additions are recognized as assets when it is probable that future economic benefits associated with the asset will flow to the entity and the cost of the asset can be measured reliably. Additions are initially measured at cost, which includes all costs directly attributable to bringing the asset to its working condition and location for its intended use. This may include purchase price, freight, installation, and any directly attributable professional fees. They are capitalized if their cost exceeds a certain threshold. The threshold is determined based on materiality considerations. Costs below the threshold are typically expensed as incurred. After initial recognition, additions are measured at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is calculated systematically over the estimated useful life of the asset. They are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the carrying amount exceeds the recoverable amount, an impairment loss is recognized, and the carrying amount of the asset is adjusted accordingly. Borrowing costs directly attributable to the acquisition, construction, or production of qualifying assets, including Property and Equipment additions, are capitalized as part of the cost of those assets. Goodwill and Intangibles, net The Company periodically reviews the carrying value of intangible assets not subject to amortization, including goodwill, to determine whether impairment may exist. Goodwill and certain intangible assets are assessed annually, or when certain triggering events occur, for impairment using fair value measurement techniques. These events could include a significant change in the business climate, legal factors, a decline in operating performance, competition, sale or disposition of a significant portion of the business, or other factors. First, under step 0, we determine whether it is more likely than not that the fair value of the reporting unit is less than the carrying amount. Following, if step 0 fails, goodwill impairment is determined using a two-step process. The first step of the goodwill impairment test is used to identify potential impairment by comparing the fair value of a reporting unit with its carrying amount, including goodwill. The Company uses level 3 inputs and a discounted cash flow methodology to estimate the fair value of a reporting unit. A discounted cash flow analysis requires one to make various judgmental assumptions including assumptions about future cash flows, growth rates, and discount rates. The assumptions about future cash flows and growth rates are based on the Company's budget and long-term plans. Discount rate assumptions are based on an assessment of the risk inherent in the respective reporting units. If the fair value of a reporting unit exceeds its carrying amount, goodwill of the reporting unit is considered not impaired and the second step of the impairment test is unnecessary. If the carrying amount of a reporting unit exceeds its fair value, the second step of the goodwill impairment test is performed to measure the amount of impairment loss, if any. The second step of the goodwill impairment test compares the implied fair value of the reporting unit's goodwill with the carrying amount of that goodwill. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized in an amount equal to that excess. The implied fair value of goodwill is determined in the same manner as the amount of goodwill recognized in a business combination. That is, the fair value of the reporting unit is allocated to all of the assets and liabilities of that unit (including any unrecognized intangible assets) as if the reporting unit had been acquired in a business combination and the fair value of the reporting unit was the purchase price paid to acquire the reporting unit. On December 19, 2018, as a result of the acquisition of Cosmofarm, the Company recorded $49,697 of goodwill. Intangible assets with definite useful lives are recorded on the basis of cost and are amortized on a straight-line basis over their estimated useful lives. The Company uses a useful life of 5 years for an import/export license and a useful life of 10 years for the pharmaceutical and nutraceutical products licenses included in Note 4 as "Licenses". A useful life of 10 years is also used for the platforms included in Note 4 as "Software" and the customer bases. The Company evaluates the remaining useful life of intangible assets annually to determine whether events and circumstances warrant a revision to the remaining amortization period. If the estimate of the intangible asset's remaining useful life is changed, the remaining carrying amount of the intangible asset will be amortized prospectively over that revised remaining useful life. As of June 30, 2024 and December 31, 2023, no revision to the remaining amortization period of the intangible assets was made. Amortization expense was $193,518 and $16,035 for the three months ended June 30, 2024 and 2023, respectively and $383,373 and $50,270 for the six months ended June 30, 2024 and 2023, respectively. Impairment of Long-Lived Assets In accordance with ASC 360-10, Long-lived Assets, property and equipment and intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the assets. Fair value is generally determined using the asset's expected future discounted cash flows or market value, if readily determinable. Equity Method Investment For those investments in common stock or in-substance common stock in which the Company has the ability to exercise significant influence over the operating and financial policies of the investee, the investment is accounted for under the equity method. The Company records its share in the earnings of the investee and is included in "Equity earnings of affiliate" in the consolidated statement of operations. The Company assesses its investment for other-than-temporary impairment when events or changes in circumstances indicate that the carrying amount of the investment might not be recoverable and recognizes an impairment loss to adjust the investment to its then current fair value. Investments in Equity Securities Investments in equity securities are accounted for at fair value with changes in fair value recognized in net income (loss). Equity securities are classified as short-term or long-term based on the nature of the securities and their availability to meet current operating requirements. Equity securities that are readily available for sale in current operations are reported as a component of current assets in the accompanying consolidated balance sheets. Equity securities that are not considered available for use in current operations would be reported as a component of long-term assets in the accompanying consolidated balance sheets. For equity securities with no readily determinable fair value, the Company elects a measurement alternative to fair value. Under this alternative, the Company measures the investments at cost, less any impairment, and adjusted for changes resulting from observable price changes in transactions for identical or similar investments of the investee. The election to use the measurement alternative is made for each eligible investment. As of June 30, 2024, investments consisted of 16,666 shares which traded at a closing price of $0.75 per share or value of $12,416 of National Bank of Greece. Additionally, the Company has $7,665 in equity securities of Pancreta Bank, which are revalued annually. Fair Value Measurement The Company applies ASC 820, Fair Value Measurements and Disclosures, ("ASC 820"), for assets and liabilities measured at fair value on a recurring basis. ASC 820 establishes a common definition for fair value to be applied to existing generally accepted accounting principles that require the use of fair value measurements establishes a framework for measuring fair value and expands disclosure about such fair value measurements. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Additionally, ASC 820 requires the use of valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized below: Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: Inputs other than quoted prices that are observable, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active. Level 3: Unobservable inputs in which little or no market data exists, therefore developed using estimates and assumptions developed by us, which reflect those that a market participant would use. In addition, ASC 825-10-25, Fair Value Option, ("ASC 825-10-25"), expands opportunities to use fair value measurements in financial reporting and permits entities to choose to measure many financial instruments and certain other items at fair value. The Company did not elect the fair value options for any of its qualifying financial instruments. Our financials also included the following financial instruments as of June 30, 2024 and December 31, 2023: cash, accounts receivable, inventory, prepaid expenses, loans receivable, accounts payable, notes payable and lines of credit. Except for the loans receivable which carry fixed interest rates, the carrying value of the remaining instruments, approximates fair value due to their short-term nature. Customer Advances The Company receives prepayments from certain customers for pharmaceutical products prior to those customers taking possession of the Company's products. The Company records these receipts as current liabilities until it has met all the criteria for recognition of revenue including passing control of the products to its customer, at such point, the Company will reduce the customer advances balance and credit the Company's revenues. Revenue Recognition In accordance with ASC Topic 606, Revenue from Contracts with Customers ("ASC 606"), the Company uses a five-step model for recognizing revenue by applying the following steps: <table cellpadding="0" style="border-spacing:0;text-align:justify;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td style="width:4%;"> </td><td style="width:4%;vertical-align:top;"> 1) </td><td style="vertical-align:top;"> Identification of the Contract: The Company identifies a contract with a customer when it enters into an agreement that creates enforceable rights and

obligations. </td></tr><tr style="height:15px"><td> </td><td style="vertical-align:top;"> 2) </td><td style="vertical-align:top;"> Identification of Performance Obligations: The Company identifies distinct performance obligations within each contract, which represent promises to transfer goods or services to the customer. </td></tr><tr style="height:15px"><td> </td><td style="vertical-align:top;"> 3) </td><td style="vertical-align:top;"> Determination of Transaction Price: The Company determines the transaction price, which represents the amount of consideration to which it expects to be entitled in exchange for transferring promised goods or services to the customer, excluding any amounts collected on behalf of third parties. </td></tr><tr style="height:15px"><td> </td><td style="vertical-align:top;"> 4) </td><td style="vertical-align:top;"> Allocation of Transaction Price: The Company allocates the transaction price to each distinct performance obligation based on its standalone selling price. If the standalone selling price is not observable, the Company estimates it using an appropriate method. </td></tr><tr style="height:15px"><td> </td><td style="vertical-align:top;"> 5) </td><td style="vertical-align:top;"> Recognition of Revenue: Revenue is recognized when (or as) the Company satisfies a performance obligation by transferring a promised good or service to the customer. This typically occurs at a point in time or over time, depending on the nature of the performance obligation. </td></tr></tbody></table> Wholesale revenue and sales of own branded nutraceutical and pharmaceutical products The Company has contracts or signed partnership forms (usual in the wholesale sector of the pharma industry) with its customers, stipulating the enforceable rights and obligations. The Company is responsible for transferring the goods to the customer's location, which represents its sole performance obligation. Thus, the transaction price, which is predetermined in most of the products sold, is exclusively allocated to this performance obligation. Revenue is recognized at a single point in time, which is upon issuance of the corresponding sales invoice. The Company has assessed the impact of the items invoiced but not delivered to the customer's location as of December 31, 2023 and June 30, 2024, and deemed that it had no material effect.   Pharma manufacturing The Company has active contracts with its customers, stipulating the enforceable rights and obligations. The Company is responsible for the manufacturing and the packaging of specific products assigned by its customers, which represents its performance obligations to which the Company allocates the transaction price determined. The customers are responsible for providing the raw materials to the Company. Revenue is recognized over a period of time, which is during the production and packaging period of the respective products. As of June 30, 2024, there were no products or batches of products for which the production or packaging phase was in progress.   Medihelm SA   Commencing from January 1, 2023, and pursuant to the agreement with Medihelm, the exclusive distributor of the Company's own proprietary line of nutraceuticals, the Company considers the transaction price to be variable and records an estimate of the transaction price, subject to the constraint for variable consideration. The Company is basing the change in transaction price with the exclusive distributor through assessment of significant overdue receivables from the exclusive distributor, which the Company reassesses each reporting period. Through this assessment, the Company applied the "expected value" model under ASC 606-10-32-5 and had applied specific constraints to revenue due from the customer at the end of each reporting period. Following the application of the "expected value" model, the Company had deferred an amount of $397,000 and recorded it against the sales to Medihelm for the twelve months ended December 31, 2024. However, the Company assessed once more the trading relationship with Medihelm SA at year end and since no significant receipts had taken place up to the issuance of the report, the Company recorded an allowance for the total receivable amount not received up to the issuance date. More specifically a cumulative reserve of $12,655,615 was applied, leaving a receivable of $532,704 due from Medihelm SA, as of December 31, 2023. The Company does not consider that new sales to Medihelm SA or sales to any other customer include a variable component as of June 30, 2024. Stock-based Compensation   The Company records stock-based compensation in accordance with ASC 718, Stock Compensation ("ASC 718") and Staff Accounting Bulletin No. 107 ("SAB 107") regarding its interpretation of ASC 718. ASC 718 requires the fair value of all stock-based employee compensation awarded to employees to be recorded as an expense over the related requisite service period. The Company values any employee or non-employee stock-based compensation at fair value using the Black-Scholes Option Pricing Model. The Company accounts for non-employee share-based awards in accordance with the measurement and recognition criteria of ASU 2018-07, "Compensation-Stock Compensation-Improvements to Nonemployee Share-Based Payment Accounting." Income Taxes The Company accounts for income taxes under the asset and liability method, as required by the accounting standard for income taxes ASC 740. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis, as well as net operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.   The Company is liable for income taxes in Greece and the United Kingdom The corporate income tax rate is 22% in Greece and 25% in the United Kingdom. Losses may also be subject to limitation under certain rules regarding change of ownership.   We regularly review deferred tax assets to assess their potential realization and establish a valuation allowance for portions of such assets to reduce the carrying value if we do not consider it to be more likely than not that the deferred tax assets will be realized. Our review includes evaluating both positive (e.g., sources of taxable income) and negative (e.g., recent historical losses) evidence that could impact the realizability of our deferred tax assets. At June 30, 2024, we believe our United Kingdom and Greece deferred tax assets will not be realized, as such, we did not record a reversal on the full valuation approach we followed during the year ended December 31, 2023. Leases The Company accounts for leases in accordance with ASC 842. For all leases, the Company recognizes a right-of-use (ROU) asset and a lease liability on the balance sheet. The ROU asset represents the Company's right to use the underlying asset for the lease term, and the lease liability represents the obligation to make lease payments arising from the lease, both measured at the present value of future lease payments. Lease payments are recognized as an operating expense on a straight-line basis over the lease term. The interest on the lease liability and the amortization of the ROU asset are recognized separately in the income statement. Initial direct costs incurred by the Company in negotiating and securing leases are capitalized and amortized over the lease term on a straight-line basis. The assets and liabilities from operating and finance leases are recognized at the commencement date based on the present value of remaining lease payments over the lease term using the Company's secured incremental borrowing rates or implicit rates, when readily determinable. Short-term leases, which have an initial term of 12 months or less, are not recorded on the balance sheet. The Company's operating leases do not provide an implicit rate that can readily be determined. Therefore, we use a discount rate based on our incremental borrowing rate, which is determined using the average interest rate of our long-term debt on the date of inception. Retirement and Termination Benefits Under Greek labor law, employees are entitled to lump-sum compensation in the event of termination or retirement. The amount depends on the employee's work experience and remuneration as of the day of termination or retirement. If an employee remains with the company until full-benefit retirement, the employee is entitled to a lump-sum equal to 40% of the compensation to be received if the employee were to be dismissed on the same day. The Company periodically reviews the uncertainties and judgments related to the application of the relevant labor law regulations to determine retirement and termination benefits obligations of its Greek subsidiaries. The Company has evaluated the impact of these regulations and has identified a potential retirement and termination benefits liability. The amount of the liability as of June 30, 2024 and December 31, 2023, was $395,698 and $408,665, respectively, and has been recorded as a long-term liability within the consolidated balance sheets.   Basic and Diluted Net Loss per Common Share Basic income per share is calculated by dividing income available to common stockholders by the weighted average number of shares of common stock outstanding during the period. Diluted income per share is calculated by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period and, when dilutive, potential shares from stock options and warrants to purchase common stock, using the treasury stock method. In accordance with ASC 260, Earnings Per Share, the following table reconciles basic shares outstanding to fully diluted shares outstanding. <table cellpadding="0" style="border-spacing:0;text-align:left;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> June 30, 2024 </td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> June 30, 2023 </td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> Weighted average number of common shares outstanding Basic </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">17,025,203</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">10,718,010</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> Potentially dilutive common stock equivalents </td><td style="width:1%;white-space: nowrap;"> </td><td style="BORDER-BOTTOM: 1px solid;width:1%;white-space: nowrap;"> </td><td class="ffcell" style="BORDER-BOTTOM: 1px solid;width:9%;"> </td><td style="PADDING-BOTTOM: 1px;width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="BORDER-BOTTOM: 1px solid;width:1%;white-space: nowrap;"> </td><td class="ffcell" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:right;">-</td><td style="PADDING-BOTTOM: 1px;width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> Weighted average number of common and equivalent shares outstanding – Diluted </td><td style="width:1%;white-space:

Accounting Standard Adopted In December 2022, the FASB issued ASU No. 2022-06, Deferral of the Sunset Date of Reference Rate Reform (Topic 848). Topic 848 provides optional expedients and exceptions for applying GAAP to transactions affected by reference rate (e.g., LIBOR) reform if certain criteria are met, for a limited period of time to ease the potential burden in accounting for (or recognizing the effects of) reference rate reform on financial reporting. The ASU deferred the sunset date of Topic 848 from December 31, 2022 to December 31, 2024. The ASU is effective as of December 21, 2022 through December 31, 2024. We continue to evaluate transactions or contract modifications occurring as a result of reference rate reform and determine whether to apply the optional guidance on an ongoing basis. We adopted ASU 2022-06 during 2022. The Company adopted this ASU on June 30, 2023. The adoption of this ASU did not have a material impact on the Company's accounting and disclosures. In March 2022, the FASB issued ASU 2022-02, Troubled Debt Restructurings and Vintage Disclosures. This ASU eliminates the accounting guidance for troubled debt restructurings by creditors that have adopted ASU 2016-13, Measurement of Credit Losses on Financial Instruments, which was adopted on January 1, 2020. The adoption of ASU 2016-13 did not have a material impact on the Company's consolidated financial statements. ASU 2022-02 also enhances the disclosure requirements for certain loan refinancing and restructurings by creditors when a borrower is experiencing financial difficulty. In addition, the ASU amends the guidance on vintage disclosures to require entities to disclose current period gross write-offs by year of origination for financing receivables and net investments in leases within the scope of ASC 326-20. The ASU is effective for annual periods beginning after December 15, 2022, including interim periods within those fiscal years. Adoption of the ASU would be applied prospectively. Early adoption is also permitted, including adoption in an interim period. This ASU was adopted on January 1, 2023, which resulted in no cumulative-effect adjustment to retained earnings. Recent Accounting Pronouncements In December 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures. This guidance is intended to enhance the transparency and decision-usefulness of income tax disclosures. The amendments in ASU 2023-09 address investor requests for enhanced income tax information primarily through changes to disclosure regarding rate reconciliation and income taxes paid both in the U.S. and in foreign jurisdictions. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024 on a prospective basis, with the option to apply the standard retrospectively. Early adoption is permitted. The Company is currently evaluating this guidance to determine the impact it may have on its consolidated financial statements disclosures. In November 2023, the FASB issued ASU 2023-07, Segment Reporting: Improvements to Reportable Segment Disclosures. This guidance expands public entities' segment disclosures primarily by requiring disclosure of significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss, an amount and description of its composition for other segment items, and interim disclosures of a reportable segment's profit or loss and assets. The guidance is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. The amendments are required to be applied retrospectively to all prior periods presented in an entity's financial statements. The Company is currently evaluating this guidance to determine the impact it may have on its consolidated financial statements related disclosures. Management does not believe that any recently issued, but not effective, accounting standards, if currently adopted, would have a material effect on the Company's consolidated financial statements. Cloudscreen On January 23, 2024, the Company completed the acquisition of Cloudscreen, a cutting-edge Artificial Intelligence (AI) powered platform. The acquisition is pursuant to the purchase agreement announced on October 11, 2023. Cloudscreen is a multimodal platform specialized in drug repurposing, a process that involves uncovering new target proteins or indications for existing drugs for use in treating different diseases. The total purchase price amounted to $637,080 and consisted of 280,000 shares of common stock with a fair value of $319,200 and an amount of $317,880 to be settled in cash during 2024 based on the Promissory Note signed on October 10, 2023. The Company accounted for the acquisition as an asset acquisition in accordance with Accounting Standards Codification ("ASC") Topic 805, Business Combinations, ("ASC 805") and recorded $637,080 as an intangible asset related to the technology platform acquired. ZipDoctor On April 3, 2023, the Company completed the acquisition of ZipDoctor Inc. ("ZipDoctor"), a telehealth company for a total sum of $150,000 in cash and $8,788 in fees. The Company accounted for the acquisition as an asset acquisition in accordance with Accounting Standards Codification ("ASC") Topic 805, Business Combinations, ("ASC 805") and recorded $158,788 as an intangible asset related to the technology platform acquired. Bikas On June 15, 2023, Cosmos Health Inc. entered into an Assignment and Assumption Agreement (the "Agreement") with Ioannis Bikas O.E., a Greek Company ("Bikas"). Bikas is owner of a pharmaceutical distribution network in Greece and agreed to sell to the Company their distribution network and customer base. The purchase price of the network was €100,000 ($109,330) in cash, and €300,000 ($316,081) in the Company's common stock. The Company issued 99,710 shares of common stock related to the acquisition of the customer base, based on the fair value of the stock on the acquisition date. The Company accounted for the acquisition as an asset acquisition in accordance with ASC 805 and recorded $425,411 as an intangible asset related to the customer base acquired. Buildings Acquisitions On April 24, 2023, the Company purchased a building for a total sum of $1,054,872 in cash. The Company accounted for the acquisition as an asset acquisition in accordance with ASC 805 and recorded the cost of the building as "Property, plant and equipment" on the consolidated balance sheets. On January 6, 2023, the Company agreed to purchase land and building located in Montreal, Canada from a third-party vendor. The total purchase price amounts to $3,950,000 and the closing date of the agreement based on the amendment signed on July 19, 2023, is December 31, 2023. As of June 30, 2024, the Company has made no additional prepayments concerning this building. The closing date of the agreement has been extended to December 31, 2024. Cana On June 30, 2023, the Company acquired Cana Laboratories Holdings (Cyprus) Limited ("Cana"), which wholly owned an operating subsidiary, Pharmaceutical Laboratories Cana S.A. ("Cana SA") for €800,000 ($873,600) in cash and 46,377 shares of common stock, with fair value of $138,667 as of the date of acquisition. Moreover, on February 28,2023, the Company had signed a Secured Promissory Note with Cana, whereby Cana borrowed the sum of €4,100,000 ($4,457,520), included in the total consideration of $5,469,787. The Company accounted for the acquisition as a business acquisition in accordance with ASC 805. The fair value of Cana assets acquired, and liabilities assumed was based upon management's estimates assisted by an independent third-party valuation firm. The fixed assets of Cana (which included land, building & machinery) were valued as of December 31, 2022 and the Company believes that nothing has materially changed between such date and the acquisition date (June 30, 2023). The following table summarizes the preliminary allocation of purchase price of the acquisition:</p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;"> </p><table cellpadding="0" style="border-spacing:0;text-align:left;font:10pt times new roman;margin-left:auto;margin-right:auto;width:85%"><tbody><tr style="height:15px"><td style="vertical-align:top;"><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;">Consideration </p></td><td style="width:1%;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td class="ffcell" colspan="2" style="width:9%;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="width:1%;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"><p style="font-size:10pt;font-family:times new roman;margin:0px">Cash</p></td><td style="width:1%;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="width:1%;vertical-align:bottom;white-space: nowrap;">$</td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">5,331,120</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px 0px 0px

Our consolidated accounts include our accounts and the accounts of our wholly owned subsidiaries, SkyPharm S.A., Decahedron Ltd., Cosmofarm S.A., Cana Laboratories Holdings (Cyprus) Limited and ZipDoctor Inc. The Group's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). The consolidated financial statements reflect the consolidation of all entities in which the Company has control, as determined by the ability to direct the activities that significantly affect the entities' economic performance. All significant intercompany balances and transactions have been eliminated. The functional currency for the Greek subsidiaries of the Company (CANA Laboratories, Cosmofarm S.A. and SkyPharm SA) is EURO (€) and for the UK subsidiary (Decahedron Ltd) is GBP (£). ZipDoctor Inc. is a U.S. based entity. As a result, the financial statements of the subsidiaries (except for ZipDoctor Inc.) have been translated from the local currency into U.S. dollars using (i) year-end exchange rates for balance sheet accounts, and (ii) average exchange rates for the reporting period for all income statements accounts. Foreign currency translations gains and losses are reported as a separate component of the condensed consolidated statements of changes in stockholders' equity and mezzanine equity. The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. On February 24, 2022, Russian forces launched significant military action against Ukraine. There continues to be sustained conflict and disruption in the region, which is expected to endure for the foreseeable future. We do not conduct any commercial transactions with either Ukraine or Russia and the Company and, as such, is not aware of any specific event or circumstance that would require an update to its estimates or judgments or a revision of the carrying value of its assets or liabilities as of the date of issuance of this Annual Report on Form 10-K. Such political issues and conflicts could have a material adverse effect on our results of operations and financial condition if they escalate in areas in which we do business. In addition, changes in and adverse actions by governments in foreign markets in which we do business could have a material adverse effect on our results of operations and financial condition. In June 2016, the FASB issued ASU 2016-13, Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses of Financial Instruments, which amends the requirement on the measurement and recognition of expected credit losses for financial assets held. Furthermore, amendments ASU 2019-10 and ASU 2019-11 provided additional clarification for implementing ASU 2016-13. ASU 2016-13 is effective for the Company beginning January 1, 2023, with early adoption permitted. The Company adopted the standard on January 1, 2023, and the standard did not have a material impact on the Company's consolidated financial statements and related disclosures. The Company is exposed to credit losses primarily through sales to its customers and the loans that it has provided. The Company assesses each customer's/ borrower's ability to pay, and a credit loss estimate by conducting a credit review which includes consideration of established credit rating, or an internal assessment of the customer's creditworthiness based on an analysis of their payment history when a credit rating is not available. The Company monitors credit exposure through active review of customer balances. The Company's expected loss methodology for accounts receivable is developed through consideration of factors including, but not limited to, historical collection experience, current customer credit ratings, current customer financial condition, current and future economic and market conditions, and age of the receivables. More specifically, the Company assesses a number of customers with significant long outstanding balances on an individual basis, applying different credit loss percentages to them, and subsequently summarizes the ones not included in the individual analysis, groups them based on their rating (decided based on the factors described above) and applies specific credit loss percentages to each group. The Company has elected to follow the simplified ECL approach. The charges related to credit losses are included in "General and administrative expenses" and are recorded in the period that the outstanding receivables are determined to be doubtful. Account balances are written-off against the allowance when they are deemed uncollectible. For purposes of the statement of cash flows, the Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. The Company maintains bank accounts in the United States denominated in U.S. Dollars, in Greece denominated in Euros, U.S. Dollars and Great Britain Pounds (British Pounds Sterling), and in Bulgaria denominated in Euros. The Company also maintains bank accounts in the United Kingdom, denominated in Euros and Great Britain Pounds (British Pounds Sterling). Accounts receivable are stated at their net realizable value. The allowance for doubtful accounts against gross accounts receivable reflects the best estimate of probable losses inherent in the receivables' portfolio determined on the basis of historical experience, specific allowances for known troubled accounts and other currently available information. As of June 30, 2024 and December 31, 2023, the Company's allowance for doubtful accounts was $19,086,835 and $19,686,091, respectively. The Company also collects VAT or similar taxes on behalf of the government ("output VAT") for merchandise and/or services it sells. If the output VAT exceeds the input VAT, this creates a VAT payable to the government. If the input VAT exceeds the output VAT, this creates a VAT receivable from the government. The VAT tax return is filed on a monthly basis offsetting the payables against the receivables. In observance of EU regulations for intra-EU cross-border sales, our subsidiaries in Greece, SkyPharm and Cosmofarm, do not charge VAT for sales to wholesale drug distributors registered in other European Union member states. As of June 30, 2024 and December 31, 2023, the Company had a VAT net receivable balance of $276,152 and $187,512 respectively, recorded in the consolidated balance sheet as prepaid expenses and other current assets and accounts payable and accrued expenses, respectively. 2761521875123 Inventory is stated at the lower-of-cost or net realizable value using the weighted average method. Inventory consists primarily of finished goods and packaging materials, i.e., packaged pharmaceutical products and the wrappers and containers they are sold in. A periodic inventory system is maintained by 100% count. Inventory is replaced periodically to maintain the optimum stock on hand available for immediate shipment. The Company writes down inventories to net realizable value based on physical condition, expiration date, and current market conditions, as well as forecasted demand. The Company's inventories are not highly susceptible to obsolescence. Many of the Company's inventory items are eligible for return to our suppliers when pre-agreed product requirements, including, but not limited to, physical condition and expiration date, are not met. No significant judgments have been applied in estimating the selling price of our inventory. Property and equipment are stated at cost, less accumulated depreciation. Depreciation is calculated on a straight-line basis over the useful lives (except for leasehold improvements which are depreciated over the lesser of the lease term or the useful life) of the assets as follows: <table cellpadding="0" style="border-spacing:0;font-size:10pt;width:100%"><tbody><tr style="height:15px"><td></td><td> </td><td colspan="2" style="BORDER-BOTTOM: 1px solid;vertical-align:bottom;"> Estimated Useful Life </td><td></td></tr><tr style="height:15px;background-color:#cceeff"><td style="width:77%;"> Leasehold improvements and technical works </td><td style="width:1%;"> </td><td style="width:1%;"></td><td style="width:20%;vertical-align:bottom;"> Lesser of lease term or 25 years </td><td style="width:1%;"></td></tr><tr style="height:15px;background-color:#ffffff"><td style="width:77%;"> Buildings </td><td style="width:1%;"> </td><td style="width:1%;"> </td><td style="width:20%;vertical-align:bottom;"> 25-30 years </td><td style="width:1%;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td> Vehicles </td><td></td><td> </td><td> 6 years </td><td></td></tr><tr style="height:15px;background-color:#ffffff"><td> Machinery </td><td></td><td> </td><td> 20 years </td><td></td></tr><tr style="height:15px;background-color:#cceeff"><td> Furniture, fixtures and equipment </td><td> </td><td></td><td style="vertical-align:bottom;"> 5-10 years </td><td> </td></tr><tr style="height:15px;background-color:#ffffff"><td> Computers and software </td><td> </td><td></td><td style="vertical-align:bottom;"> 3-5 years </td><td></td></tr></tbody></table> Depreciation expense was $103,558 and $79,163 for the three months ended June 30, 2024 and 2023, respectively and $216,432 and $112,569 for the six months ended June 30, 2024 and 2023, respectively. Property and Equipment additions Property and Equipment additions are recognized as assets when it is probable that future economic benefits associated with the asset will flow to the entity and the cost of the asset can be measured reliably. Additions are initially measured at cost, which includes all costs directly attributable to bringing the asset to its working condition and location for its intended use. This may include purchase price, freight, installation, and any directly attributable professional fees. They are capitalized if their cost exceeds a certain threshold. The threshold is determined based on materiality considerations. Costs below the threshold are typically expensed as incurred. After initial recognition, additions are measured at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is calculated systematically over the estimated useful life of the asset. They are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the carrying amount exceeds the recoverable amount, an impairment loss is recognized, and the carrying amount of the asset is adjusted accordingly. Borrowing costs directly attributable to the acquisition, construction, or production of qualifying assets, including Property and Equipment additions, are capitalized as part of the cost of those assets. <table cellpadding="0" style="border-spacing:0;font-size:10pt;width:100%"><tbody><tr style="height:15px"><td></td><td> </td><td colspan="2" style="BORDER-BOTTOM: 1px solid;vertical-align:bottom;"> Estimated Useful Life </td><td></td></tr><tr style="height:15px;background-color:#cceeff"><td style="width:77%;"> Leasehold improvements and technical works </td><td style="width:1%;"> </td><td style="width:1%;"></td><td style="width:20%;vertical-align:bottom;"> Lesser of lease term or 25 years </td><td style="width:1%;"></td></tr><tr style="height:15px;background-color:#ffffff"><td style="width:77%;"> Buildings </td><td style="width:1%;"> </td><td style="width:1%;"> </td><td style="width:20%;vertical-align:bottom;"> 25-30 years </td><td style="width:1%;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td> Vehicles </td><td></td><td> </td><td> 6 years </td><td></td></tr><tr style="height:15px;background-color:#ffffff"><td> Machinery </td><td></td><td> </td><td> 20 years </td><td></td></tr><tr style="height:15px;background-color:#cceeff"><td> Furniture, fixtures and equipment </td><td> </td><td></td><td style="vertical-align:bottom;"> 5-10 years </td><td> </td></tr><tr style="height:15px;background-color:#ffffff"><td> Computers and software </td><td> </td><td></td><td style="vertical-align:bottom;"> 3-5 years </td><td></td></tr></tbody></table>Lesser of lease term or 25 yearsP25YP30YP6YP20YP5YP10YP3YP5Y10355879163216432112569 The Company periodically reviews the carrying value of intangible assets not subject to amortization, including goodwill, to determine whether impairment may exist. Goodwill and certain intangible assets are assessed annually, or when certain triggering events occur, for impairment using fair value measurement techniques. These events could include a significant change in the business climate, legal factors, a decline in operating performance, competition, sale or disposition of a significant portion of the business, or other factors. First, under step 0, we determine whether it is more likely than not that the fair value of the reporting unit is less than the carrying amount. Following, if step 0 fails, goodwill impairment is determined using a two-step process. The first step of the goodwill impairment test is used to identify potential impairment by comparing the fair value of a reporting unit with its carrying amount, including goodwill. The Company uses level 3 inputs and a discounted cash flow methodology to estimate the fair value of a reporting unit. A discounted cash flow analysis requires one to make various judgmental assumptions including assumptions about future cash flows, growth rates, and discount rates. The assumptions about future cash flows and growth rates are based on the Company's budget and long-term plans. Discount rate assumptions are based on an assessment of the risk inherent in the respective reporting units. If the fair value of a reporting unit exceeds its carrying amount, goodwill of the reporting unit is considered not impaired and the second step of the impairment test is unnecessary. If the carrying amount of a reporting unit exceeds its fair value, the second step of the goodwill impairment test is performed to measure the amount of impairment loss, if any. The second step of the goodwill impairment test compares the implied fair value of the reporting unit's goodwill with the carrying amount of that goodwill. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized in an amount equal to that excess. The implied fair value of goodwill is determined in the same manner as the amount of goodwill recognized in a business combination. That is, the fair value of the reporting unit is allocated to all of the assets and liabilities of that unit (including any unrecognized intangible assets) as if the reporting unit had been acquired in a business combination and the fair value of the reporting unit was the purchase price paid to acquire the reporting unit. On December 19, 2018, as a result of the acquisition of Cosmofarm, the Company recorded $49,697 of goodwill. Intangible assets with definite useful lives are recorded on the basis of cost and are amortized on a straight-line basis over their estimated useful lives. The Company uses a useful life of 5 years for an import/export license and a useful life of 10 years for the pharmaceutical and nutraceutical products licenses included in Note 4 as "Licenses". A useful life of 10 years is also used for the platforms included in Note 4 as "Software" and the customer bases. The Company evaluates the remaining useful life of intangible assets annually to determine whether events and circumstances warrant a revision to the remaining amortization period. If the estimate of the intangible asset's remaining useful life is changed, the remaining carrying amount of the intangible asset will be amortized prospectively over that revised remaining useful life. As of June 30, 2024 and December 31, 2023, no revision to the remaining amortization period of the intangible assets was made. Amortization expense was $193,518 and $16,035 for the three months ended June 30, 2024 and 2023, respectively and $383,373 and $50,270 for the six months ended June 30, 2024 and 2023, respectively. 19351816035383373502270 In accordance with ASC 360-10, Long-lived Assets, property and equipment and intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized by the

amount by which the carrying amount of the asset exceeds the fair value of the assets. Fair value is generally determined using the asset's expected future discounted cash flows or market value, if readily determinable. For those investments in common stock or in-substance common stock in which the Company has the ability to exercise significant influence over the operating and financial policies of the investee, the investment is accounted for under the equity method. The Company records its share in the earnings of the investee and is included in "Equity earnings of affiliate" in the consolidated statement of operations. The Company assesses its investment for other-than-temporary impairment when events or changes in circumstances indicate that the carrying amount of the investment might not be recoverable and recognizes an impairment loss to adjust the investment to its then current fair value. Investments in equity securities are accounted for at fair value with changes in fair value recognized in net income (loss). Equity securities are classified as short-term or long-term based on the nature of the securities and their availability to meet current operating requirements. Equity securities that are readily available for sale in current operations are reported as a component of current assets in the accompanying consolidated balance sheets. Equity securities that are not considered available for use in current operations would be reported as a component of long-term assets in the accompanying consolidated balance sheets. For equity securities with no readily determinable fair value, the Company elects a measurement alternative to fair value. Under this alternative, the Company measures the investments at cost, less any impairment, and adjusted for changes resulting from observable price changes in transactions for identical or similar investments of the investee. The election to use the measurement alternative is made for each eligible investment. As of June 30, 2024, investments consisted of 16,666 shares which traded at a closing price of $0.75 per share or value of $12,416 of National Bank of Greece. Additionally, the Company has $7,665 in equity securities of Pancreta Bank, which are revalued annually. 166660.75124167665 The Company applies ASC 820, Fair Value Measurements and Disclosures, ("ASC 820"), for assets and liabilities measured at fair value on a recurring basis. ASC 820 establishes a common definition for fair value to be applied to existing generally accepted accounting principles that require the use of fair value measurements establishes a framework for measuring fair value and expands disclosure about such fair value measurements. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Additionally, ASC 820 requires the use of valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized below: Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: Inputs other than quoted prices that are observable, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active. Level 3: Unobservable inputs in which little or no market data exists, therefore developed using estimates and assumptions developed by us, which reflect those that a market participant would use. In addition, ASC 825-10-25, Fair Value Option, ("ASC 825-10-25"), expands opportunities to use fair value measurements in financial reporting and permits entities to choose to measure many financial instruments and certain other items at fair value. The Company did not elect the fair value options for any of its qualifying financial instruments. Our financials also included the following financial instruments as of June 30, 2024 and December 31, 2023: cash, accounts receivable, inventory, prepaid expenses, loans receivable, accounts payable, notes payable and lines of credit. Except for the loans receivable which carry fixed interest rates, the carrying value of the remaining instruments, approximates fair value due to their short-term nature. The Company receives prepayments from certain customers for pharmaceutical products prior to those customers taking possession of the Company's products. The Company records these receipts as current liabilities until it has met all the criteria for recognition of revenue including passing control of the products to its customer, at such point, the Company will reduce the customer advances balance and credit the Company's revenues. In accordance with ASC Topic 606, Revenue from Contracts with Customers ("ASC 606"), the Company uses a five-step model for recognizing revenue by applying the following steps: <table cellpadding="0" style="border-spacing:0;text-align:justify;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td style="width:4%;"> </td><td style="width:4%;vertical-align:top;"> 1) </td><td style="vertical-align:top;"> Identification of the Contract: The Company identifies a contract with a customer when it enters into an agreement that creates enforceable rights and obligations. </td></tr><tr style="height:15px"><td> </td><td style="vertical-align:top;"> 2) </td><td style="vertical-align:top;"> Identification of Performance Obligations: The Company identifies distinct performance obligations within each contract, which represent promises to transfer goods or services to the customer. </td></tr><tr style="height:15px"><td> </td><td style="vertical-align:top;"> 3) </td><td style="vertical-align:top;"> Determination of Transaction Price: The Company determines the transaction price, which represents the amount of consideration to which it expects to be entitled in exchange for transferring promised goods or services to the customer, excluding any amounts collected on behalf of third parties. </td></tr><tr style="height:15px"><td> </td><td style="vertical-align:top;"> 4) </td><td style="vertical-align:top;"> Allocation of Transaction Price: The Company allocates the transaction price to each distinct performance obligation based on its standalone selling price. The Company is responsible for transferring the goods to the customer's location, which represents its sole performance obligation. Thus, the transaction price, which is predetermined in most of the products sold, is exclusively allocated to this performance obligation. Revenue is recognized at a single point in time, which is upon issuance of the corresponding sales invoice. The Company has assessed the impact of the items invoiced but not delivered to the customer's location as of December 31, 2023 and June 30, 2024, and deemed that it had no material effect. Pharma manufacturing The Company has active contracts with its customers, stipulating the enforceable rights and obligations. The Company is responsible for the manufacturing and the packaging of specific products assigned by its customers, which represents its performance obligations to which the Company allocates the transaction price determined. The customers are responsible for providing the raw materials to the Company. Revenue is recognized over a period of time, which is during the production and packaging period of the respective products. As of June 30, 2024, there were no products or batches of products for which the production or packaging phase was in progress. Medihelm SA Commencing from January 1, 2023, and pursuant to the agreement with Medihelm, the exclusive distributor of the Company's own proprietary line of nutraceuticals, the Company considers the transaction price to be variable and records an estimate of the transaction price, subject to the constraint for variable consideration. The Company is basing the change in transaction price with the exclusive distributor through assessment of significant overdue receivables from the exclusive distributor, which the Company reassesses each reporting period. Through this assessment, the Company applied the "expected value" model under ASC 606-10-32-5 and had applied specific constraints to revenue due from the customer at the end of each reporting period. Following the application of the "expected value" model, the Company had deferred an amount of $397,000 and recorded it against the sales to Medihelm for the twelve months ended December 31, 2024. However, the Company assessed once more the trading relationship with Medihelm SA at year end and since no significant receipts had taken place up to the issuance of the report, the Company recorded an allowance for the total receivable amount not received up to the issuance date. More specifically a cumulative reserve of $12,655,615 was applied, leaving a receivable of $532,704 due from Medihelm SA, as of December 31, 2023. The Company does not consider that new sales to Medihelm SA or sales to any other customer include a variable component as of June 30, 2024. 12655615532704 The Company records stock-based compensation in accordance with ASC 718, Stock Compensation ("ASC 718") and Staff Accounting Bulletin No. 107 ("SAB 107") regarding its interpretation of ASC 718. ASC 718 requires the fair value of all stock-based employee compensation awarded to employees to be recorded as an expense over the related requisite service period. The Company values any employee or non-employee stock-based compensation at fair value using the Black-Scholes Option Pricing Model. The Company accounts for non-employee share-based awards in accordance with the measurement and recognition criteria of ASU 2018-07, "Compensation-Stock Compensation-Improvements to Nonemployee Share-Based Payment Accounting." The Company accounts for income taxes under the asset and liability method, as required by the accounting standard for income taxes ASC 740. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis, as well as net operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company is liable for income taxes in Greece and the United Kingdom The corporate income tax rate is 22% in Greece and 25% in the United Kingdom. Losses may also be subject to limitation under certain rules regarding change of ownership. We regularly review deferred tax assets to assess their potential realization and establish a valuation allowance for portions of such assets to reduce the carrying value if we do not consider it to be more likely than not that the deferred tax assets will be realized. Our review includes evaluating both positive (e.g., sources of taxable income) and negative (e.g., recent historical losses) evidence that could impact the realizability of our deferred tax assets. At June 30, 2024, we believe our United Kingdom and Greece deferred tax assets will not be realized, as such, we did not record a reversal on the full valuation approach we followed during the year ended December 31, 2023. 0.220.25 The Company accounts for leases in accordance with ASC 842. For all leases, the Company recognizes a right-of-use (ROU) asset and a lease liability on the balance sheet. The ROU asset represents the Company's right to use the underlying asset for the lease term, and the lease liability represents the obligation to make lease payments arising from the lease, both measured at the present value of future lease payments. Lease payments are recognized as an operating expense on a straight-line basis over the lease term. The interest on the lease liability and the amortization of the ROU asset are recognized separately in the income statement. Initial direct costs incurred by the Company in negotiating and securing leases are capitalized and amortized over the lease term on a straight-line basis. The assets and liabilities from operating and finance leases are recognized at the commencement date based on the present value of remaining lease payments over the lease term using the Company's secured incremental borrowing rates or implicit rates, when readily determinable. Short-term leases, which have an initial term of 12 months or less, are not recorded on the balance sheet. The Company's operating leases do not provide an implicit rate that can readily be determined. Therefore, we use a discount rate based on our incremental borrowing rate, which is determined using the average interest rate of our long-term debt on the date of inception. Under Greek labor law, employees are entitled to lump-sum

compensation in the event of termination or retirement. The amount depends on the employee's work experience and remuneration as of the day of termination or retirement. If an employee remains with the company until full-benefit retirement, the employee is entitled to a lump-sum equal to 40% of the compensation to be received if the employee were to be dismissed on the same day. The Company periodically reviews the uncertainties and judgments related to the application of the relevant labor law regulations to determine retirement and termination benefits obligations of its Greek subsidiaries. The Company has evaluated the impact of these regulations and has identified a potential retirement and termination benefits liability. The amount of the liability as of June 30, 2024 and December 31, 2023, was $395,698 and $408,665, respectively, and has been recorded as a long-term liability within the consolidated balance sheets. 395698408665 Basic income per share is calculated by dividing income available to common stockholders by the weighted average number of shares of common stock outstanding during the period. Diluted income per share is calculated by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period and, when dilutive, potential shares from stock options and warrants to purchase common stock, using the treasury stock method. In accordance with ASC 260, Earnings Per Share, the following table reconciles basic shares outstanding to fully diluted shares outstanding. <table cellpadding="0" style="border-spacing:0;text-align:left;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> June 30, 2024 </td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> June 30, 2023 </td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> Weighted average number of common shares outstanding Basic </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">17,025,203</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">10,718,010</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> Potentially dilutive common stock equivalents </td><td style="width:1%;white-space: nowrap;"> </td><td style="BORDER-BOTTOM: 1px solid;width:1%;white-space: nowrap;"> </td><td class="ffcell" style="BORDER-BOTTOM: 1px solid;width:9%;"> </td><td style="PADDING-BOTTOM: 1px;width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="BORDER-BOTTOM: 1px solid;width:1%;white-space: nowrap;"> </td><td class="ffcell" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:right;">-</td><td style="PADDING-BOTTOM: 1px;width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> Weighted average number of common and equivalent shares outstanding - Topic 848 provides optional expedients and exceptions for applying GAAP to transactions affected by reference rate (e.g., LIBOR) reform if certain criteria are met, for a limited period of time to ease the potential burden in accounting for (or recognizing the effects of) reference rate reform on financial reporting. The ASU deferred the sunset date of Topic 848 from December 31, 2022 to December 31, 2024. The ASU is effective as of December 21, 2022 through December 31, 2024. We continue to evaluate transactions or contract modifications occurring as a result of reference rate reform and determine whether to apply the optional guidance on an ongoing basis. We adopted ASU 2022-06 during 2022. The Company adopted this ASU on June 30, 2023. The adoption of this ASU did not have a material impact on the Company's accounting and disclosures. In March 2022, the FASB issued ASU 2022-02, Troubled Debt Restructurings and Vintage Disclosures. This ASU eliminates the accounting guidance for troubled debt restructurings by creditors that have adopted ASU 2016-13, Measurement of Credit Losses on Financial Instruments, which was adopted on January 1, 2020. The adoption of ASU 2016-13 did not have a material impact on the Company's consolidated financial statements. ASU 2022-02 also enhances the disclosure requirements for certain loan refinancing and restructurings by creditors when a borrower is experiencing financial difficulty. In addition, the ASU amends the guidance on vintage disclosures to require entities to disclose current period gross write-offs by year of origination for financing receivables and net investments in leases within the scope of ASC 326-20. The ASU is effective for annual periods beginning after December 15, 2022, including interim periods within those fiscal years. Adoption of the ASU would be applied prospectively. Early adoption is also permitted, including adoption in an interim period. This ASU was adopted on January 1, 2023, which resulted in no cumulative-effect adjustment to retained earnings. In December 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures. This guidance is intended to enhance the transparency and decision-usefulness of income tax disclosures. The amendments in ASU 2023-09 address investor requests for enhanced income tax information primarily through changes to disclosure regarding rate reconciliation and income taxes paid both in the U.S. and in foreign jurisdictions. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024 on a prospective basis, with the option to apply the standard retrospectively. Early adoption is permitted. The Company is currently evaluating this guidance to determine the impact it may have on its consolidated financial statements disclosures. In November 2023, the FASB issued ASU 2023-07, Segment Reporting: Improvements to Reportable Segment Disclosures. This guidance expands public entities' segment disclosures primarily by requiring disclosure of significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss, an amount and description of its composition for other segment items, and interim disclosures of a reportable segment's profit or loss and assets. The guidance is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. The amendments are required to be applied retrospectively to all prior periods presented in an entity's financial statements. The Company is currently evaluating this guidance to determine the impact it may have on its consolidated financial statements related disclosures. Management does not believe that any recently issued, but not effective, accounting standards, if currently adopted, would have a material effect on the Company's consolidated financial statements. NOTE 3 -EQUITY METHOD INVESTMENTS Distribution and Equity Agreement On March 19, 2018, the Company entered into a Distribution and Equity Acquisition Agreement with Marathon Global Inc. ("Marathon"), a company incorporated in the Province of Ontario, Canada. Marathon was formed to be a global supplier of cannabis, cannabidiol (CBD) and/or any cannabis extract products, extracts, ancillaries and derivatives (collectively, the "Products"). The Company was appointed the exclusive distributor of the Products initially throughout Europe and on a non-exclusive basis wherever else lawfully permitted. The Company has no present intention to distribute any Products under this Agreement in the United States or otherwise participate in cannabis operations in the United States. The Company intended to await further clarification from the U.S. government on cannabis regulation prior to determining whether to enter the domestic market. The above transaction closed on May 22, 2018 after the due diligence period, following which the Company received: (a) a 33 1/3% equity interest or 5 million shares in Marathon as partial consideration for the Company's distribution services; and (b) received cash of CAD $2,000,000, subject to repayment in common shares of the Company if it failed to meet certain performance milestones. The Company was entitled to receive an additional CAD $2,750,000 upon the Company's receipt of gross sales of CAD $6,500,000 and an additional CAD $2,750,000 upon receipt of gross sales of CAD $13,000,000. The Company was also given the right to nominate one director to the Marathon board of directors. Since Marathon was a newly formed entity with no assets and no activity, the Company attributed no value to the 5 million shares in Marathon which was received as consideration for the distribution services. The Distribution and Equity Acquisition Agreement was to remain in effect indefinitely unless Marathon fails to provide Market Competitive (as defined) product pricing and Marathon has not become profitable within five (5) years of the agreement. On March 20, 2023, the Company sent a termination notice, to Marathon, which became effective on April 19, 2023 as a result of Marathon's failure to satisfy these conditions. The Company had accounted for its obligation to issue a variable number of the Company's Common Shares as Share-settled debt obligation in accordance with ASC Topic 480, Distinguishing Liabilities from Equity ("ASC 480"), which was measured at fair value or the settlement amount of $1,554,590 (CAD $2 million). Due to termination of the Equity agreement, the Company recorded a gain on extinguishment of debt of $1,554,590 due to the write-off of the share settled debt obligation, for the six months ended June 30, 2023. CosmoFarmacy LP In September 2019, the Company entered into an agreement with an unaffiliated third party to incorporate CosmoFarmacy L.P. for the purpose of providing strategic management consulting services and the retail trade of pharmaceutical products, and OTC to pharmacies. CosmoFarmacy was incorporated with a 30-year term through May 31, 2049. The unaffiliated third party is the general partner (the "GP") of the limited partnership and is responsible for management and decision-making associated with CosmoFarmacy. The initial share capital was set to EUR 150,000 ($163,080) which was later increased to EUR 500,000 ($543,600). The GP contributed the pharmacy license (the "License") valued at EUR 350,000 (30-year term) to operate the business of CosmoFarmacy in exchange for a 70% equity ownership. The Company is a limited partner and contributed cash of EUR 150,000 ($163,080) for the remaining 30% equity ownership. CosmoFarmacy is not publicly traded and the Company's investment has been recorded using the equity method of accounting. The value of the investment as of June 30, 2024 and December 31, 2023, was $160,665 and $165,930, respectively, and is included in "Other assets" on the Company's consolidated balance sheets. </p>2000000027500006500000027500001300000five (5) years15545901554590P30Y5000003500000.70150000301606651659302<p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;">NOTE 4 - PROPERTY AND EQUIPMENT, NET </p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;"> </p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px 0px 0px 0.35pt; text-align:justify;">Property and equipment, net consists of the following at June 30, 2024 and December 31, 2023. </p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;"> </p><table cellpadding="0" style="border-spacing:0;text-align:left;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:center;">June 30, </p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:center;">2024</p></td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:center;">December 31, </p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:center;">2023</p></td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"><p style="font-size:10pt;font-family:times new roman;margin:0px">Land</p></td><td style="width:1%;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="width:1%;vertical-align:bottom;white-space: nowrap;">$</td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">3,438,343</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;vertical-align:bottom;white-space: nowrap;">$</td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">3,551,020</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> Buildings and improvements </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">4,674,665</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">4,707,963</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> Leasehold improvements </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">3,524</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">3,639</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> Vehicles </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">274,487</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">285,388</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> Furniture, fixtures and equipment </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-

The prepayments to Medihelm SA had been made in accordance with the parallel export business, through which Medihelm supplied and would supply SkyPharm SA with branded pharmaceuticals. This business is no longer in place for the Company and thus the Company entered into this agreement with Medihelm SA in order for the outstanding amount to be settled. Interest is calculated at a rate of 5.5% per annum on a 360-day basis. Under the terms of the agreement, the Company is to receive 120 equal payments over the term of the loan. During the year ended December 31, 2023, the Company received €352,438 ($389,867) in principal payments such that as of December 31, 2023, the Company had a short-term receivable balance of $411,858 and a long-term receivable balance of $3,509,200 under this loan. The Company also received €156,684 ($167,824) in principal payments and €81,077 ($86,341 in interest payments during the six-month period ended June 30, 2024. The Note is considered fully recoverable. 48492210.055P360Dthe Company is to receive 120 equal payments over the term of the loan389867411858350920016782486341 NOTE 7 – INCOME TAXES The Company is incorporated in the United States of America and is subject to United States federal taxation. No provisions for income taxes have been made as the Company had no U.S. taxable income for the three months ended June 30, 2024 and 2023. The Company's Greece subsidiaries are governed by the income tax laws of Greece. The corporate tax rate in Greece is 22% on income reported in the statutory financial statements after appropriate tax adjustments. The Company's United Kingdom subsidiaries are governed by the income tax laws of the United Kingdom. The corporate tax rate in the United Kingdom is 25% on income reported in the statutory financial statements after appropriate tax adjustments. June 30, 2024 and 2023, the Company's effective tax rate differs from the U.S. federal statutory tax rate primarily due to a valuation allowance recorded against net deferred tax assets in in the United States and the United Kingdom. We regularly review deferred tax assets to assess their potential realization and establish a valuation allowance for portions of such assets to reduce the carrying value if we do not consider it to be more likely than not that the deferred tax assets will be realized. Our review includes evaluating both positive (e.g., sources of taxable income) and negative (e.g., recent historical losses) evidence that could impact the realizability of our deferred tax assets. As of June 30, 2024 and December 31, 2023, the Company has maintained a valuation allowance against all net deferred tax assets in the United States, Greece, and the UK. For the three and six months ended June 30, 2024, and 2023, the Company has recorded tax benefit in any jurisdiction where it is subject to income tax, in the amount of $0 and $65,873 respectively, on the Condensed Consolidated Statements of Operations and Comprehensive Loss. 0.220.25065873 NOTE 8 – CAPITAL STRUCTURE Preferred Stock The Company is authorized to issue 100 million shares of preferred stock, of which 6,000,000 are designated as Series A convertible preferred stock. The preferred stock has a liquidation preference over the common stock and is non-voting. As of June 30, 2024 and December 31, 2023, no preferred shares were issued and outstanding. Major Rights & Preferences of Series A Preferred Stock On and effective October 4, 2021, the Company amended and restated its articles of incorporation (the "Amended and Restated Articles") and filed a certificate of designation (the "COD") for its Series A Preferred Stock (the "Series A Preferred Stock") with the State of Nevada. The Amended and Restated Articles allow the Company's Board of Directors the authority to authorize the issuance of preferred stock from time to time in one or more classes or series by resolution. On February 23, 2022, the Company filed Correction No. 1 to the COD. On July 28, 2022, the Company filed an Amendment to the COD with the State of Nevada to allow a holder to waive application of the Beneficial Ownership Limitation with respect to the conversion of Series A Preferred Stock. With respect to payment of dividends and distribution of assets upon liquidation, dissolution, or winding up of the Company, whether voluntary or involuntary, all shares of the Series A Preferred Stock will rank: (i) senior to all of the Company's Common Stock and any other equity securities that the Company may issue in the future, (ii) equal to any other equity securities that the Company may issue in the future, the terms of which specifically provide that such equity securities are on parity or senior to the Series A Preferred Stock ("Parity Securities"), (iii) junior to all other equity securities the Company issues, the terms of which specifically provide that such equity securities rank senior to the Series A Preferred Stock, and (iv) junior to all of the Company's existing and future indebtedness; without the prior written consent of the Majority Holders. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company (a "Liquidation"), the Holders of shares of Series A Preferred Stock shall be first entitled to receive out of the assets of the Company available for distribution to its shareholders. Each Holder shall not be entitled to vote with holders of outstanding shares of Common Stock, voting together as a single class, with respect to any and all matters presented to the stockholders of the Company for their action or consideration, except as provided by law or as set forth in the COD. The holders of Series A Preferred Stock are entitled to receive dividends paid and distributions made to the holders of Common Stock to the same extent as if the holders of Series A Preferred Stock had converted such shares into shares of Common Stock. The Series A Preferred Stock was initially convertible into the Company's Common Stock as determined by dividing the number of shares of Series A Preferred Stock to be converted by the lower of (i) $75.00 or (ii) 80% of the average volume weighted average price for the Company's Common Stock for the five trading days immediately following the effectiveness of the registration statement concerning the shares (the "Conversion Price"). On June 14, 2022, the Conversion Price was reset to $15.54 per share. Each holder is entitled to receive dividends in shares of Series A Preferred Stock or cash determined based on the stated value of each Series A Preferred Stock at the dividend rate of 8.0% per year. For the year ended December 31, 2022, the Company recorded $372,414 as a deemed dividend in accordance with the Series A Preferred Stock cumulative dividend. As of December 31, 2022, the cumulative dividend has been recorded as mezzanine equity. Following, Mr. Siokas waiver of the right to receive the dividends on February 26, 2024, and the unanimous written consent of the Company's Board of Directors on February 29, 2024, through which was resolved that the Company shall remove all accrued and unpaid dividends payable to the previous holders of Series A Preferred stock, the Company eliminated the total deemed dividend of $372,414 through retained earnings. Thus, the balance of mezzanine equity as of June 30, 2024, and December 31, 2023 is $0. The Series A Shares rank senior to all of the Company's Common Stock and any other equity securities that the Company may issue in the future with respect to payment of dividends and distribution of assets upon liquidation, dissolution or winding up. While the Series A Shares are outstanding, the Company may not amend, alter or change adversely the powers, preferences or rights given to the Series A Shares, create, or authorize the creation of, any additional class or series of capital stock of the Company (or any security convertible into or exercisable for any class or series of capital stock of the Company), including any class or series of capital stock of the Company that ranks superior to or in parity with the Series A Shares, alter, amend, modify, or repeal its Articles of Incorporation or other charter documents in any manner that adversely affects any rights of the holders of Series A Shares, increase or decrease the number of authorized shares of Series A Shares, any agreement, commitment or transaction that would result in a Change of Control, any sale or disposition of any material assets outside of the ordinary course of business of the Company, any material change in the principal business of the Company, including the entry into any new line of business or exit of any current line of business, and circumvent a right or preference of the Series A Shares. Any holder of the Series A Shares shall have the right by written election to the Company to convert all or any portion of the outstanding Series A Shares. Immediately upon effectiveness of a registration statement registering for resale all of the Registrable Securities (as defined in the Registration Rights Agreement), all outstanding Series A Shares shall automatically convert into Common Stock, subject to certain beneficial ownership limitations. Other Agreements On October 10, 2020, the Company entered into a contract manufacturer outsourcing ("CMO") agreement with Doc Pharma whereby Doc Pharma is responsible for the development and manufacturing of pharmaceutical products and nutritional supplements according to the Company's specifications based on strict pharmaceutical standards and good manufacturing practice ("GMP") protocols as the National Organization for Medicines requires. The Company has the exclusive ownership rights for trading and distribution of its own branded nutritional supplements named "Sky Premium Life®". The duration of the agreement is for five years, however, either party may terminate the agreement at any time giving six-month advance notice. Doc Pharma is exclusively responsible for supplying the raw materials and packaging required to manufacture the final product. However, they are not responsible for potential delays that may arise, concerning their import. Doc Pharma is also obligated to store the raw and packaging materials. The delivery of raw and packaging materials should be purchased at least 30 and 25 days, respectively, before the delivery date of the final product. The Manufacturer solely delivers the finished product to the Company. There is a minimum order quantity ("MoQ") of 1,000 pieces per product code. Both parties have agreed that the Company will deposit 60% of the total cost upon agreement and assignment and 40% of the total cost including VAT charge upon the delivery date. The prices are indicative and are subject to amendments if the cost of the raw material or the production cost change. For the three months ended June 30, 2024 and 2023, the Company has purchased €61,597 ($66,295) and €174,519 ($190,021) respectively, in inventory related to this agreement. For the six months ended June 30, 2024 and 2023, the Company has purchased €126,758 ($137,027) and €548,980 ($593,427) respectively, in inventory related to this agreement. On May 17, 2021, Doc Pharma and the Company entered into a Research and Development ("R&D") agreement whereby Doc Pharma will be responsible for the research, development, design, registration, copy rights and licenses of 250 nutritional supplements for the final products called Sky Premium Life®. These products will be sold in Greece and abroad. The total cost of this project will be €1,425,000 plus VAT and will be done over three phases as follows: Design & Development (€725,000), Control and Product Manufacturing (€250,000) and Clinical Study and Research (€450,000). SkyPharm has bought a total of as of 81 licenses at value of €554,500 ($593,204) which is 38.91% of the total cost, as of December 31, 2022. During the year ended December 31, 2023, 24 additional licenses were purchased at value of €475,014 ($525,461). During the three and six months ended June 30, 2024, no additional licenses were purchased. The agreement will terminate on December 31, 2025. Purchase of branded pharmaceuticals On June 28, 2023, the Company approved the purchase of five proprietary and innovative branded pharmaceuticals with significant market presence and material profit contribution from Zakalia Ltd., the parent company of Doc Pharma, for €1,800,000 ($1,965,600). The transaction was settled on a non-cash basis through the reduction, of an equivalent amount, of prepaid expense balances the Company held with Doc Pharma. The purchased branded pharmaceuticals are presented in "Goodwill and intangible assets, net" on the accompanying consolidated balance sheets. On December 29, 2023, the Company approved the purchase of additional 19 licenses from DocPharma, of a total value of €3,200,000 ($3,539,840). This transaction was also settled on a non-cash basis through the reduction, of an equivalent amount, of prepaid expense balances the Company held with Doc Pharma. Loans receivable - related party The balance of prepaid expenses due Doc Pharma as of December 31, 2022, had increased to €7,103,706 ($7,599,545), which was mainly attributable to the prepayments SkyPharm S.A. made in accordance with the CMO agreement and the extensive orders and sales of the SPL products the Company expects to achieve within 2023, mainly through its Amazon channels in the UK, Singapore, Canada and other countries. However, as the benefit from a significant portion of the prepaid balance would not have been realized within a 12-month period, the Company opted to secure a portion of the outstanding prepaid balance through a loan agreement. SkyPharm S.A. (the "Lender") entered into a loan agreement with Doc Pharma (the "Borrower") for €4,000,000 ($4,279,200), all of which was financed through the outstanding prepaid balance. The duration of the loan is for a 10-year period up to December 1, 2032 (the "Maturity Date"). The loan bears a fixed interest rate of 5.5% payable on a monthly basis and will be repayable in 120 equal instalments of €33,333.33 ($35,660). The loan may be prepaid anytime during its duration in full or partially based on the Company's product requirements and other factors, without Doc Pharma incurring any prepayment penalty. As of June 30, 2024 and December 31, 2023, the loan had a current portion of €400,000 ($431,640) and €400,000 ($442,480), and a non-current portion of €3,100,000 ($3,345,210), and €3,200,000 ($3,539,840), respectively, which is classified as "Loans receivable – related party" on the accompanying consolidated balance sheets. During the six months ended June 30, 2024, the Company received €200,000 ($224,220) in principal repayments, and €81,077 ($86,841) of interest repayments. Additionally, during the six months ended June 30, 2024, the Company recorded €96,708 ($103,584) as interest income relating to this loan. Cana Laboratories Holding Limited Cana was considered a related party as the Company had signed a binding letter of intent and an SPA for the acquisition of Cana. The acquisition was completed on June 30, 2023 according to the SPA signed on May 31, 2023. Thus, all balances between the Company and Cana were eliminated upon consolidation as of December 31, 2023. The Secured Promissory Note discussed below was included in consideration transferred upon acquisition. Loans receivable - Related Party - Long Term <p style="FONT-SIZE: 10pt; FONT-

FAMILY: times new roman; MARGIN: 0px; text-align:justify;"> On February 28,2023 (Issue Date), the Company signed a Secured Promissory Note with Cana Laboratories Holding (Cyprus) Limited (the "Holder"), whereby the Holder borrowed the sum of €4,100,000 ($4,457,520) from the Company. Interest on the Principal Amount under this Note shall accrue at a rate equal to Five Percent (5%) plus 1 month LIBOR per annum (5.47% as of December 31, 2023). The maturity date ("Maturity Date") of this Note shall be five (5) years from the Issue Date. The Principal Amount, as well as all accrued interest shall be due and payable on the Maturity Date. Following, the completion of Cana's acquisition on June 30, 2023 the balance of the Note was eliminated on a consolidated level. Panagiotis Kozaris Panagiotis Kozaris is considered a related party due to the fact that he is a former General operational manager and current employee of Cosmofarm S.A. Prepaid Expenses and Other Current Assets - Related Party From time to time the Company purchases back shares that Panagiotis Kozaris owns and records them as treasury shares. The Company pays Panagiotis Kozaris in advance for the shares owned and obtains the shares upon execution of a cumulative stock-purchase agreement ("SPA"). During the three months ended June 30, 2024 and 2023, the Company paid Panagiotis Kozaris an additional sum of $0 and $51,159 respectively for shares owned, however, no SPA for these funds has been executed as of June 30, 2024. The Company intends to execute a cumulative SPA for these amounts during 2024. The total balances owed of $194,215 and $194,215 are included in "Prepaid expenses and other current assets - related party", on the accompanying consolidated balance sheets as of June 30, 2024 and December 31, 2023, respectively. Basotho Investment Limited Basotho Investment Limited is considered a related party once Panagiotis Kozaris (former general operational manager and current employee of Cosmofarm SA) is one of its directors. General and administrative expenses On November 21, 2023, the Company issued 120,000 shares of common stock to Basotho Investment Limited for services rendered. The fair value of these shares for the period ended December 31, 2023 was $10,300, which was recorded as general and administrative expense. The fair value of the shares vested for the six-month period ended June 30, 2024 was $61,800, which was recorded as general and administrative expense. Maria Kozari Maria Kozari is considered a related party to the Company due to the fact that she is the daughter of Panagiotis Kozaris, a former Operational General Manager and current employee of Cosmofarm S.A. Accounts Receivable - Related Party During 2021, the Company, through its subsidiary, Cosmofarm SA, commenced a partnership with a pharmacy called "Pharmacy & More", owned by Maria Kozari. The transactions with the respective pharmacy were in Cosmofarm's normal course of business, however, a more flexible credit policy was allowed as the pharmacy was new and needed to be established in the market. During the three and six months ended June 30, 2024 and 2023 the Company's net sales to Pharmacy & More amounted to $95,195 and $117,219 and $181,973 and $236,205 respectively. As of June 30, 2024 and December 31, 2023 the Company's outstanding receivable balance due from the pharmacy amounted to $1,123,835 (€1,203,739) and $1,142,402 (€1,032,726), respectively, and are included in "Accounts receivable - related party", on the accompanying consolidated balance sheets. The Company plans to acquire Pharmacy & More within fiscal year 2024. Upon acquisition, the Company intends to offset the outstanding receivable balance with the corresponding purchase price and additionally plans to make Pharmacy & More the first shop-in-shop of its own branded line of nutraceutical products, Sky Premium Life® (SPL). Other Related Parties The Company has the following balances as of June 30, 2024: a) a balance of $698,000 relating to unpaid salaries and bonuses due to Grigorios Siokas, the CEO of the Company and George Terzis, the CFO of the Company, classified as "Accounts payable and accrued expenses - related party" in the Company's consolidated balance sheets, b) a net payable balance of $37,292 due to Konstantinos Gaston Kanaroglou, former manager and current employee of the Company's wholly owned subsidiary Cana, classified as "Accounts receivable" in the Company's consolidated balance sheets. The loan will be repaid in 40 equal monthly installments beginning on July 29, 2022. As a condition to the loan, the Company was required to retain the same number of employees until October 31, 2020. As of December 31, 2023, the principal balance was $134,818. During the six months ended June 30, 2024, the Company repaid €7,813 ($8,368) of the principal balance. The outstanding balance as of June 30, 2024 is €114,063 ($122,172) of which $100,416, is classified as "Notes payable - long term portion" on the accompanying condensed consolidated balance sheet. Cloudscreen Promissory Note On January 23, 2024 the Company entered into an agreement with a third-party in the principal amount of €300,000 ($324,870), the "Promissory Note". The Promissory Note matures on March 25, 2025 and is interest free. This Note is being given in connection with the Closing of the Asset Purchase, Sale and Transfer Agreement dated as of October 9, 2023 and as amended from time to time pursuant to which the Company agreed to purchase from the third-party a drug repurposing Artificial Intelligence "AI" powered platform known as "Cloudscreen®" (refer to Note 2, section "Acquisition accounting"). The principal is to be repaid in 15 equal monthly installments of €20,000 commencing on January 25, 2024. During the six months ended June 30, 2024, the Company repaid €10,000 ($10,830) of the principal and recorded a foreign currency gain of $5,850. As of June 30, 2024, and December 31, 2023 the Company an outstanding balance of $312,900 and $317,880 of which $0 and $0, respectively, is classified as "Notes payable - long term portion" on the accompanying condensed consolidated balance sheets. Distribution and Equity Agreement As discussed in Note 3 above, the Company entered into a Distribution and Equity Acquisition Agreement with Marathon. The Company was appointed the exclusive distributor of the Products (as defined) initially throughout Europe and on a non-exclusive basis wherever else lawfully permitted. As consideration for its services, Company received: (a) a 33 1/3% equity interest or 5 million shares in Marathon as partial consideration for the Company's distribution services; and (b) received cash of CAD $2,000,000, subject to repayment in Common Shares of the Company if it fails to meet certain performance milestones. The Company is entitled to receive an additional CAD $2,750,000 upon the Company's receipt of gross sales of CAD $6,500,000 and an additional CAD $2,750,000 upon receipt of gross sales of CAD $13,000,000. As discussed in Note 3, the Company attributed no value to the shares received in Marathon pursuant to (a) above. In relation to the CAD $2 million cash received noted in (b) above, the Company accounted for its obligation to issue a variable number of the Company's Common Shares as Share-settled debt obligation in accordance with ASC 480 measured at fair value or the settlement amount of $1,554,590 (CAD $2 million). If settlement had occurred on December 31, 2022, the Company would have been required to issue 420,471 common shares to settle its debt obligation. The Company could be obligated to potentially issue an unlimited number of common shares to settle its Share-settled debt obligation. <p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-

align:justify;"> On March 20, 2023, the Company's legal counsel provided notice to Marathon Global Inc, that Cosmos terminated the Equity agreement dated on March 19, 2018 pursuant to Section 3.2 and that termination is effective thirty days from the date of the letter. None of the above loans were made by any related parties. <table cellpadding="0" style="border-spacing:0;text-align:left;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td These options are included in the lease term when it is reasonably certain that the option will be exercised. Leases with an initial term of 12 months or less are not recorded on the balance sheet; we recognize lease expense for these leases on a straight-line basis over the lease term. Operating Leases The Company's weighted-average remaining lease term relating to its operating leases is 4.08 years, with a weighted-average discount rate of 6.74%. The Company's Greek subsidiaries have $2,018,525 in settled tax liabilities payable to the tax authorities in installments and $1,017,767 in payroll tax related current liabilities. Moreover, we have recorded a provision relating to the unaudited tax years of our subsidiary SkyPharm SA, of $619,670 and a provision for staff leaving compensation, based on the corresponding actuarial reports, of $395,698. Additionally, we have received prepayments from our customers of $355,255, included in "Other current liabilities" as of June 30, 2024. We classify the liabilities payable within the twelve months following the balance sheet date in "Other current liabilities" and the remaining balance is included in "Other Liabilities". 20185251017767619670395698355255 NOTE 14 - COMMITMENTS AND CONTINGENCIES Legal Matters From time to time, the Company may be involved in litigation relating to claims arising out of the Company's operations in the normal course of business. As of June 30, 2024, the following litigations were pending. None of the below is expected to have a material financial or operational impact. On July 22, 2015, the National Medicines Agency approved the license of wholesale sale of pharmaceutical products under the name SkyPharm SA with set validity at five years and an expiration date of July 22, 2020. Subsequently, SkyPharm on June 15, 2020, legally and timely submitted the application for renewal of the wholesale license of pharmaceutical products to the National Medicines Agency. The National Medicines Agency did not respond, therefore the Company asked for an immediate decision on the renewal. Two months after the filing of the no. 3459 / 15.01.2021 letter and almost nine months after the no. 627615.06.2020 Company application for the renewal, the National Medicines Agency replied by rejecting the renewal request on March 9, 2021 (ref. 62769 / 20-25.02.2021). In addition, document No. 127351-16.12.2021 of EOF (Greek National Medicines Organization) to SkyPharm states that after an inspection of EOF at the premises of Doc Pharma, we did not have a wholesale license in violation of article 106 par. 1b and par. 1c of the ministerial decision D.YG3a / GP.32221 / 29-4-2019. The National Medicines Agency imposed a fine of €15,000 ($16,214) on SkyPharm for the above case, which was included in "General and administrative" expense on the accompany statement of operations and comprehensive loss for the twelve-month ended December 31, 2023. There has been a payment request by the Greek court, which relates to a fine arising from Cosmofarm's tax audit for financial year 2014. The law with no. 483/16.12.2020 was used by the court against Cosmofarm (the "defendant"). The defendant appealed against the decision using the law with no.11541/09.03.2021. This appeal was dismissed after 120 days from its submission to the court. Additionally, there had been an obligation for payment of additional tax and fines related to this matter in the amount of €91,652 ($99,644), which the defendant has already settled. However, the defendant has claimed back the respective amount through appeal. As of June 30, 2024, the trial is still pending. On January 25, 2023, a criminal case of dishonored checks against Cosmofarm's customer Filippou, was heard at the Z' Three-Member Misdemeanor Court of Athens, which was postponed to November 27, 2023, when the defendant was tried and found guilty. On January 26, 2023, the appeal of the Company against Eleutheria Drakopoulou and decision 1389/2021of the Single-Member Court of First Instance of Athens was heard at the Athens Court of Appeal. The appeal was partially accepted. The Court ordered the return of the fee to the appellants, dismissed the action against the third defendant, Kozaris and accepted the action as regards the first and the second defendants (Kastrantas & Cosmofarm). On October 23, 2023, a criminal case of dishonored checks against Cosmofarm's customer Kafantaris was heard at the Sixth Single-Member Misdemeanor Court of Athens, which was postponed to January 26, 2024, when the defendant was convicted by decision no. 1599/2024. In October 2023, the Company's subsidiary, Cana Laboratories was approached by an Attorney at law on behalf of two clients which were requesting an amount of €39,211 as compensation for the value of 34.70 square meters in relation to an urban sprawl with respect to which an Act of Imputation had been issued by the department of Urban Planning. Our legal counsel's response was that CANA was not obliged to accept the compensatory value agreed and suggested exploring out of court settlement. As of today, the clients' Attorney at law has not come back with any suggestions. Our subsidiary, Cana Laboratories, has two pending lawsuits against Euaggelismos Hospital for a total sum of EUR 526,436 due to unpaid bills. The court date for one of the two lawsuits is set for December 11, 2024, and for the other one has not yet been set. The opinion of our legal advisor is that the collection of the total sum by the Company is almost certain. Our subsidiary, Cana Laboratories, has an unasserted claim against Papanikolaou Hospital for a total sum of EUR 89,300 due to unpaid bills, which will be asserted through a lawsuit. The opinion of our legal advisor is that the collection of the sum by the Company is almost certain. A lawsuit dated April 5, 2018 against the Company's subsidiary Cana Laboratories by a former employee before the Athens court of instance was initially heard on October 12, 2018. The former employee was seeking that the termination of her employment contract to be considered null and void and was requesting compensation for late wages and moral damages. Following numerous appeals, Judgment No. 1192/2024 was issued on September 26, 2023, which as explicitly stated by our legal counsel, requires CANA to rehire the former employee with the threat of a penalty of €200 for each day of non-compliance. As informed by our legal counsel, in order for the penalty to be effective the former employee should file a new lawsuit against CANA and request to get rehired. In case CANA denies employment, then the penalty should be in effect. As of today, we have not received neither a lawsuit nor any request of employment by the former employee. Advisory Agreements On July 1, 2021, the Company entered into a two-year advisory agreement with a third party (the "Consultant") for advisory and consulting services related to the Company's intention to become listed on Nasdaq. Peter Goldstein, a then director of the Company is a principal of the Consultant. As consideration for services rendered, and successful Nasdaq listing, the Company paid $100,000. The $100,000 bonus was incurred and settled within 2022. Finally, the Consultant received a total of 10,000 shares of the Company's common stock, 2,000 of such shares that have been previously issued pursuant to previous agreements and additional 15,258 shares that were issued on February 2, 2023, based on the amendment signed on February 1, 2023. On November 21, 2023, the Company entered into certain consulting agreements with four third-party consultants for the provision of a variety of services such as digital marketing, advisory services relating to target acquisitions and M&As and other additional services as described in the respective agreements. The agreements have duration from 10 to 18 months and the consultants will solely receive stock consideration for the services rendered. More precisely, they have been awarded a total of 970,000 shares of the Company's common stock valued at a total of $999,100 based on the fair value of the Company's common stock as of the agreements' date. The corresponding consulting expense is accrued evenly over the term of the agreements. For the twelve-month period ended December 31, 2023 the Company has recorded $77,250 as stocked based compensation for the above agreements, classified as "General and administrative expenses" in the Company's consolidated statements of operations and comprehensive loss. For the three and six months ended June 30, 2024 and 2023 the Company has recorded $231,750 and $463,500 and $0 and $0 as stocked based compensation for the above agreements, classified as "General and administrative expenses" in the Company's Condensed Consolidated Statements of Operations and Comprehensive Loss. Research and Development Agreements The Company entered into a Research & Development agreement with Doc Pharma S.A. on May 17, 2021. Under this agreement, Doc Pharma is responsible for the research, development, design, registration, copy rights and licenses of 250 nutritional supplements for the final products called Sky Premium Life®. More specifically, Doc Pharma is responsible for the product development and the Company had added 105 of such products codes in its portfolio as of December 31, 2023. No additional ones were added within the six-month period ended June 30, 2024. The licenses purchased by Doc Pharma SA are capitalized and included in "Goodwill and intangible assets, net" of the Company's Consolidated Balance Sheets as of June 30, 2024. Thus, no relevant R&D expense had been charged to the Company's Consolidated Statements of Operations and Comprehensive Loss. On June 26, 2022, the Company signed a research and development ("R&D") agreement with a third party, through which the Company assigns to the third party the development of new products and services in the field of health, focusing on the human intestinal microbiome. The project includes two phases. Phase 1 has a 20-month duration and its cost amounts to EUR 758,000 ($838,450) and phase 2, has a 22-month duration and a cost of EUR 820,000 ($907,084). The amount will be due and payable upon completion of the

corresponding phases. The Company records the corresponding R&D expense based on the project's progress, which is invoiced by the third party in the relevant period. For the six-month period ended June 30, 2024, the Company has not incurred such costs. 1621499644As consideration for services rendered, and successful Nasdaq listing, the Company paid $100,000. The $100,000 bonus was incurred and settled within 2022. Finally, the Consultant received a total of 10,000 shares of the Company's common stock, 2,000 of such shares that have been previously issued pursuant to previous agreements and additional 15,258 shares that were issued on February 2, 2023, based on the amendment signed on February 1, 2023970000099910077250231750463500008384509070841 NOTE 15 – STOCK OPTIONS AND WARRANTS Omnibus Equity Incentive Plan On September 19, 2022, the Company held a Board of Directors meeting, whereas, the Board of Directors had elected to adopt an Omnibus Equity Incentive Plan (the "2022 Plan"), that includes reserving 200,000 shares of common stock eligible for issuance under the 2022 Plan to be registered on a Form S-8 Registration Statement with the SEC. The 2022 Plan is designed to enable the flexibility to grant equity awards to the Company's officers, employees, non-employee directors and consultants and to ensure that it can continue to grant equity awards to eligible recipients at levels determined to be appropriate by the Board and/or the Compensation Committee. According to the Proxy Statement filed with the SEC on October 20, 2022 the 2022 Plan received final approval by the Company's stockholders at the Annual Meeting of Stockholders held on December 2, 2022. On April 3, 2023, the Company approved incentive stock awards for the CFO, certain officers and directors and other employees of the Company. The awards are in the form of restricted stock and will vest in two parts: 50% on October 2, 2023 and 50% on October 2, 2024. A total of 185,000 shares were awarded and a corresponding share-based compensation expense of $108,297 and $216,741 was recorded for the three and six months ended June 30, 2024, based on the amortization of fair value from the date of issuance of April 3, 2023, through March 31, 2024 and June 30, 2024, respectively. On August 21, 2023, the Board adopted, subject to stockholder approval, the Cosmos Health Inc. 2023 Omnibus Equity Incentive Plan (the "2023 Plan"). The 2023 Plan is designed to enable the flexibility to grant equity awards to our officers, employees, non-employee directors and consultants and to ensure that we can continue to grant equity awards to eligible recipients at levels determined to be appropriate by the Board and/or the Compensation Committee. Subject to certain adjustments (as provided in Section 4.2 of the 2023 Plan) and exception (as provided in Section 5.6(b) of the 2023 Plan), the maximum number of shares reserved for issuance under the 2023 Plan (including incentive share options) is 2,500,000 shares. The 2023 Plan was approved by the Company's stockholders at the Annual Meeting of Stockholders held on September 18, 2023. Warrant Anti-Dilution Adjustment and Deemed Dividend The Company's warrants outstanding contain certain anti-dilution adjustments if the Company issues shares of its common stock at a lower price per share than the applicable exercise price of the underlying warrant. If any such dilutive issuance occurs prior to the exercise of such warrant, the exercise price will be adjusted downward to a price equal to the common stock issuance, and the number of warrants that may be purchase upon exercise is increased proportionately so that the aggregate exercise price payable under the warrant shares shall be the same as the aggregate exercise price in effect immediately prior to such adjustment. On December 21, 2021, the Company issued its common stock upon conversion of its convertible debt at an issuance price of $50.50 per share. As a result, the Company issued additional warrants to the Company's existing warrant holders to purchase 101,343 shares of common stock with an exercise price of $50.50 per share. The new warrants were issued with a weighted average contractual term of 2.04 years. The deemed dividend was recorded as an increase to accumulated deficit and additional paid-in capital and reduced net income available to common shareholders by the same amount. The Company valued (a) the fair value of the warrants immediately before the re-pricing in the amount of $1,915,077, (b) the fair value of the warrants immediately after the re-pricing in the amount of $9,548,110, and (c) recorded the difference as deemed dividend in the amount of $7,633,033. The warrants were valued using the Black-Scholes option pricing model using the following terms: a) fair value of common stock of $93.75, b) exercise prices of $125.00, $150.00 and $187.50 before re-pricing, c) exercise price of $50.50 after re-pricing, d) terms of 1.40 years, 1.97 years, 2.20 years and 2.26 years, e) dividend rate of 0%, and f) risk free interest rate of 0.41%.</p><p style="FONT-SIZE: 10pt; Inc. and its subsidiaries (Nasdaq: COSM), (“us”, “we”, the “Group”, or the “Company”) are an international healthcare group headquartered in Chicago, Illinois. The Group is engaged in the nutraceuticals sector through its own proprietary lines of products “Sky Premium Life“ and “Mediterranation”. The Company is operating in the pharmaceutical sector as well, through the provision of a broad line of branded generics and OTC medications. In addition, the Group is involved in the healthcare distribution sector through its subsidiaries in Greece and the UK, serving retail pharmacies and wholesale distributors. The Company is strategically focusing on the research and development (“R&D”) of novel patented nutraceuticals (Intellectual Property) and specialized root extracts as well as on the R&D of proprietary complex generics and innovative OTC products. The Company has developed a global distribution platform and is currently expanding throughout Europe, Asia and North America. The Company has offices and distribution centers in Thessaloniki and Athens, Greece and Harlow, UK. The Company was incorporated in the State of Nevada under the name Prime Estates and Developments, Inc. on July 21, 2009. On November 14, 2013, we changed our name to Cosmos Holdings Inc., and on November 29, 2022, we changed our name to Cosmos Health Inc. Through its acquisition of Amplerissimo Ltd, on September 27, 2013, the Company changed its principal activities into trading of products, providing representation, and provision of consulting services to various sectors. On August 1, 2014, the Company formed SkyPharm S.A., a Greek Company (“SkyPharm”), a subsidiary that used to focus on the trading, sourcing and export of nutraceutical and pharmaceutical products. In February 2017, the Company acquired Decahedron Ltd., a UK Company (“Decahedron”) which is a fully licensed second-generation wholesaler specializing in imports and exports of generics and OTC pharmaceutical products within the EEA (European Economic Area) and distributor of Sky Premium Life nutraceutical products in the UK. On December 19, 2018, the Company acquired Cosmofarm S.A. (“Cosmofarm”), a pharmaceutical wholesaler specializing in the distribution and export of pharmaceutical products through its extensive pharmacies network. On April 3, 2023, the Company completed the acquisition of ZipDoctor Inc. (“ZipDoctor”), a telehealth company, a direct-to-consumer subscription-based telemedicine platform. On June 30, 2023, the Company acquired Laboratories Holdings (Cyprus) Limited (“Cana”), which wholly owned an operating subsidiary, Pharmaceutical Laboratories Cana S.A. (“Cana SA”), a Greek pharmaceutical company that manufactures, sells, distributes, and markets original branded products researched and developed by leading global pharmaceutical and healthcare companies. Acquisition Accounting Cloudscreen On January 23, 2024, the Company completed the acquisition of Cloudscreen, a cutting-edge Artificial Intelligence (AI) powered platform. The acquisition is pursuant to the purchase agreement announced on October 11, 2023. Cloudscreen is a multimodal platform specialized in drug repurposing, a process that involves uncovering new target proteins or indications for existing drugs for use in treating different diseases. The total purchase price amounted to $637,080 and consisted of 280,000 shares of common stock with a fair value of $319,200 and an amount of $317,880 to be settled in cash during 2024 based on the Promissory Note signed on October 10, 2023. The Company accounted for the acquisition as an asset acquisition in accordance with Accounting Standards Codification (“ASC”) Topic 805, Business Combinations, (“ASC 805”) and recorded $637,080 as another asset related to the technology platform acquired. The total amount was reclassified to “Goodwill and intangible assets, net” in January 2024 with the closing of the agreement (refer to Note 20). ZipDoctor On April 3, 2023, the Company completed the acquisition of ZipDoctor Inc. (“ZipDoctor”), a telehealth company for a total sum of $150,000 in cash and $8,788 in fees. The Company accounted for the acquisition as an asset acquisition in accordance with Accounting Standards Codification (“ASC”) Topic 805, Business Combinations, (“ASC 805”) and recorded $158,788 as an intangible asset related to the technology platform acquired. Bikas On June 15, 2023, Cosmos Health Inc. entered into an Assignment and Assumption Agreement (the “Agreement”) with Ioannis Bikas O.E., a Greek Company (“Bikas”). Bikas is owner of a

pharmaceutical distribution network in Greece and agreed to sell to the Company their distribution network and customer base. The purchase price of the network was €100,000 ($109,330) of cash, and €300,000 ($316,081) of the Company's stock. The Company issued 99,710 shares of common stock related to the acquisition of the customer base, based on the fair value of the stock on acquisition date. The Company accounted for the acquisition as an asset acquisition in accordance with ASC 805 and recorded $425,411 as an intangible asset related to the customer base acquired. Buildings Acquisitions On April 24, 2023, the Company purchased a building for a total sum of $1,054,872 in cash. The Company accounted for the acquisition as an asset acquisition in accordance with ASC 805 and recorded the cost of the building as "Property, plant and equipment" on the consolidated balance sheets. On January 6, 2023, the Company agreed to purchase land and building located in Montreal, Canada from a third-party vendor. The total purchase price amounts to $3,950,000 and the closing date of the agreement based on the amendment signed on July 19, 2023, is December 31, 2023. As of December 31, 2023, the Company has made prepayments of $2,000,020 classified as "Advances for building's acquisition" on the Company's consolidated balance sheets. Cana On June 30, 2023, the Company acquired Cana Laboratories Holding (Cyprus) Limited ("Cana"), which wholly owned an operating subsidiary, Pharmaceutical Laboratories Cana S.A. ("Cana SA") for €800,000 ($873,600) in cash and 46,377 shares of common stock, with fair value of $138,667 as of the date of acquisition. Moreover, on February 28,2023, the Company had signed a Secured Promissory Note with Cana, whereby Cana borrowed the sum of €4,100,000 ($4,457,520), included in the total consideration of $5,469,787. The Company accounted for the acquisition as a business acquisition in accordance with ASC 805. The fair value of Cana assets acquired, and liabilities assumed was based upon management's estimates assisted by an independent third-party valuation firm. The fixed assets of Cana (which included land, building & machinery) were valued as of December 31, 2022 and the Company believes that nothing has materially changed between such date and the acquisition date (June 30, 2023). The following table summarizes the preliminary allocation of purchase price of the acquisition:</p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;"> </p><table cellpadding="0" style="border-spacing:0;text-align:left;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td style="vertical-align:top;"><p style="FONT-SIZE: 10pt; Therefore, we consider that presenting prior period pro forma financial information pursuant to ASC 805 would not provide meaningful information. Going Concern The Company's consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"), which contemplates the continuation of the Company as a going concern. For the year ended period December 31, 2023, the Company had revenue of $53,376,874, net loss of $18,542,654 and net cash used in operations of $14,998,919. Additionally, as of December 31, 2023, the Company had positive working capital of $12,285,310, an accumulated deficit of $91,644,233, and stockholders' equity of $36,043,028. It is management's opinion that these conditions raise substantial doubt about the Company's ability to continue as a going concern for a period of 12 months from the date of this filing. The Company's revenues are not able to sustain its operations, and concerns exist regarding the Company's ability to meet its obligations as they become due. The Company is subject to a number of risks to those of smaller commercial companies, including dependence on key individuals and products, the difficulties inherent in the development of a commercial market, the need to obtain additional capital, competition from larger companies, and other pharmaceutical and health care companies. Management evaluated the above conditions which raise substantial doubt about the Company's ability to continue as a going concern to determine if it can meet its obligations for the subsequent 12 months from the date of this filing. Management considered its ability to access future capital, curtail expenses if needed, expand product lines, and acquire new products. Management's plans include expansion of brand name products to the market, expanding the current product portfolio, and evaluating acquisition targets to expand distribution. Furthermore, the Company intends to vertically integrate the supply chain distribution network. Finally, the Company plans to access the capital markets further in order to raise additional funds through equity offerings. More specifically, management will consider postponing the repayment of its outstanding Trade Facility ($1,908,195 balance as of December 31, 2023), intends to make substantial efforts to receive additional debt financing in conjunction with utilizing potential equity proceeds by its outstanding warrants. Moreover, the Company's management is considering of postponing certain repayments of suppliers and creditors. However, management cannot provide any assurances that the Company will be successful in accomplishing any of its plans. The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described herein and eventually secure other sources of financing and attain profitable operations. Considering the above, management is of the view that substantial doubt exists for the Company's ability to continue as a going concern. The consolidated

financial statements do not include any adjustments to reflect the possible future effect on the recoverability and classification of assets or the amounts and classifications of liabilities that may result from the outcome of this uncertainty.

Furthermore, amendments ASU 2019-10 and ASU 2019-11 provided additional clarification for implementing ASU 2016-13. ASU 2016-13 is effective for the Company beginning January 1, 2023, with early adoption permitted. The Company adopted the standard on January 1, 2023, and the standard did not have a material impact on the Company's consolidated financial statements and related disclosures. The Company is exposed to credit losses primarily through sales to its customers and the loans that it has provided. The Company assesses each customer's/ borrower's ability to pay, and a credit loss estimate by conducting a credit review which includes consideration of established credit rating, or an internal assessment of the customer's creditworthiness based on an analysis of their payment history when a credit rating is not available. The Company monitors credit exposure through active review of customer balances. The Company's expected credit loss ("ECL) methodology for accounts receivable is developed through consideration of factors including, but not limited to, historical collection experience, current customer credit ratings, current customer financial condition, current and future economic and market conditions, and age of the receivables. More specifically, the Company assesses a number of customers with significant long outstanding balances on an individual basis, applying different credit loss percentages to them, and subsequently summarizes the ones not included in the individual analysis, groups them based on their rating (decided based on the factors described above) and applies specific credit loss percentages to each group. The Company has elected to follow the simplified ECL approach and for the period ended December 31, 2023 applied a 5% loss rate to all balances outstanding for more than 90 days and 1% loss rate to the total outstanding balance. The charges related to credit losses are included in "General and administrative expenses" and are recorded in the period that the outstanding receivables are determined to be doubtful. For financial reporting purposes, both the Euro ("EUR") and British Pound ("GBP") have been translated into United States dollars ($) and/or

Revenues and expenses are translated at the average rate of exchange prevailing during the reporting period. Equity transactions are translated at each historical transaction date spot rate. Translation adjustments arising from the use of different exchange rates from period to period are included as a component of stockholders' equity (deficit) as "Accumulated other comprehensive income (loss)". Gains and losses resulting from foreign currency transactions are included in the statements of operations and comprehensive loss as other comprehensive loss. There have been no significant fluctuations in the exchange rate for the conversion of EUR or GBP to USD after the balance sheet date. Assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rates prevailing at the consolidated balance sheet date with any transaction gains and losses that arise from exchange rate fluctuations on transactions denominated in a currency other than the functional currency included in the consolidated results of operations as incurred. As of December 31, 2023 and 2022, the exchange rates used to translate amounts in Euros into USD and British Pounds into USD for the purposes of preparing the consolidated financial statements were as follows: <table cellpadding="0" style="border-spacing:0;text-align:left;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> December 31, 2023 </td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> December 31, 2022 </td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"> </td></tr><tr style="height:15px"><td style="vertical-align:top;"> Exchange rate on balance sheet dates </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" colspan="2" style="width:9%;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" colspan="2" style="width:9%;"> </td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> EUR: USD exchange rate </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">1.1062</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">1.0698</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> GBP: USD exchange rate </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">1.2743</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">1.2077</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;"> </td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> Average exchange rate for the period </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;"> </td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> EUR: USD exchange rate </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">1.0817</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">1.0534</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> GBP: USD exchange rate </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">1.2440</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">1.2371</td><td style="width:1%;white-space: nowrap;"> </td></tr></tbody></table> Cash and Cash Equivalents For purposes of the statement of cash flows, the Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. As of December 31, 2023 and December 31, 2022, there were no cash equivalents. The Company maintains bank accounts in the United States denominated in U.S. Dollars, in Greece denominated in Euros, U.S. Dollars and Great Britain Pounds (British Pounds Sterling), and in Bulgaria denominated in Euros. The Company also maintains bank accounts in the United Kingdom, denominated in Euros and Great Britain Pounds (British Pounds Sterling). As of December 31, 2023 and 2022, the aggregate amount in these foreign accounts were $1,047,738 and $831,793, respectively. Additionally, as of December 31, 2023 and 2022, the Company had cash on hand in the amount of $48,590 and $15,690, respectively. Reclassifications to Prior Year Financial Statements and Adjustments Certain reclassifications have been made in the Company's financial statements of the prior year to conform with current year presentation. As of December 31, 2022, $421,302, $322,010, $120,294 and $66,401 (an aggregate total of $930,006) was reclassified from "Prepaid expenses and other current assets," "Other assets," "Accounts receivable - related party," and "Prepaid expenses and other current assets - related party," respectively to "Accounts receivable, net". Moreover, $248,678 was reclassified from "Financing lease right-of-use asset" to "Operating lease right-of-use asset" and $247,595 was reclassified from Financing Lease Liabilities to Operating Lease Liabilities as of the year ended, December 31, 2022. Finally, an amount of $1,784,751 was reclassified from "Accounts payable and accrued expenses" to "Other current liabilities" as of the year ended, December 31, 2022. These reclassifications had no impact on earnings or stockholders' equity. Accounts Receivable & Allowance for Doubtful Accounts Accounts receivable are stated at their net realizable value. The allowance for credit losses against gross accounts receivable reflects the best estimate of probable losses inherent in the receivables' portfolio determined on the basis of historical experience, specific allowances for known troubled accounts and other currently available information. As of December 31, 2023 and 2022, the Company's allowance for credit losses was $19,686,091 and $7,309,311, respectively. Below is the summary of changes in the allowance for doubtful accounts:</p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;"> </p><table cellpadding="0" style="border-spacing:0;text-align:left;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:center;">December 31, </p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:center;">2023 </p></td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td></tr><tr style="height:15px"><td><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="width:1%;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td class="ffcell" colspan="2" style="width:9%;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="width:1%;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"><p style="FONT-SIZE: 10pt, FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;">Balance as of January 1, 2023 </p></td><td style="width:1%;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="width:1%;vertical-align:bottom;white-space: nowrap;">$</td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">7,309,311</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> Provisions for credit losses </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">11,850,788</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> Write-offs </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">-</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> Foreign exchange adjustments </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">525,992</td><td style="width:1%;white-space: nowrap;"> </td></tr>

The Company also collects VAT or similar taxes on behalf of the government ("output VAT") for merchandise and/or services it sells. If the output VAT exceeds the input VAT, this creates a VAT payable to the government. If the input VAT exceeds the output VAT, this creates a VAT receivable from the government. The VAT tax return is filed on a monthly basis offsetting the payables against the receivables. In observance of EU regulations for intra-EU cross-border sales, our subsidiaries in Greece, SkyPharm and Cosmofarm, do not charge VAT for sales to wholesale drug distributors registered in other European Union member states. As of December 31, 2023 and 2022, the Company had a VAT net receivable balance of $187,512 and a net receivable balance of $79,373 respectively, recorded in the consolidated balance sheet as prepaid expenses and other current assets and accounts payable and accrued expenses, respectively. Inventories Inventory is stated at the lower-of-cost or net realizable value using the weighted average method. Inventory consists primarily of finished goods and packaging materials, i.e., packaged pharmaceutical products and the wrappers and containers they are sold in. A periodic inventory system is maintained by 100% count. Inventory is replaced periodically to maintain the optimum stock on hand available for immediate shipment. The Company writes down inventories to net realizable value based on physical condition, expiration date, current market conditions, as well as forecasted demand. The Company's inventories are not highly susceptible to obsolescence. Many of the Company's inventory items are eligible for return to our suppliers when pre-agreed product requirements, including, but not limited to, physical condition and expiration date, are not met. No significant judgments have been applied in estimating the selling price of our inventory. Property and Equipment, net Property and equipment are stated at cost, less accumulated depreciation. Depreciation is calculated on a straight-line basis over the useful lives (except for leasehold improvements which are depreciated over the lesser of the lease term or the useful life) of the assets as follows: <table cellpadding="0" style="border-spacing:0;font-size:10pt;width:100%"><tbody><tr style="height:15px"><td></td><td> </td><td colspan="2" style="BORDER-BOTTOM: 1px solid;vertical-align:bottom;"> Estimated Useful Life </td><td></td></tr><tr style="height:15px;background-color:#cceeff"><td style="width:77%;"> Leasehold improvements and technical works </td><td style="width:1%;"> </td><td style="width:1%;"></td><td style="width:20%;vertical-align:bottom;"> Lesser of lease term or 25 years </td><td style="width:1%;"></td></tr><tr style="height:15px;background-color:#ffffff"><td style="width:77%;"> Buildings </td><td style="width:1%;"> </td><td style="width:1%;"> </td><td style="width:20%;vertical-align:bottom;"> 25-30 years </td><td style="width:1%;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td> Vehicles </td><td></td><td> </td><td> 6 years </td><td></td></tr><tr style="height:15px;background-color:#ffffff"><td> Machinery </td><td></td><td> </td><td> 20 years </td><td></td></tr><tr style="height:15px;background-color:#cceeff"><td> Furniture, fixtures and equipment </td><td> </td><td></td><td style="vertical-align:bottom;"> 5-10 years </td><td> </td></tr><tr style="height:15px;background-color:#ffffff"><td> Computers and software </td><td> </td><td></td><td style="vertical-align:bottom;"> 3-5 years </td><td></td></tr></tbody></table> Depreciation expense was $353,043 and $70,109 for the years ended December 31, 2023 and 2022, respectively. Property and Equipment additions Property and Equipment additions are recognized as assets when it is probable that future economic benefits associated with the asset will flow to the entity and the cost of the asset can be measured reliably. Additions are initially measured at cost, which includes all costs directly attributable to bringing the asset to its working condition and location for its intended use. This may include purchase price, freight, installation, and any directly attributable professional fees. They are capitalized if their cost exceeds a certain threshold. The threshold is determined based on materiality considerations. Costs below the threshold are typically expensed as incurred. After initial recognition, additions are measured at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is calculated systematically over the estimated useful life of the asset. They are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the carrying amount exceeds the recoverable amount, an impairment loss is recognized, and the carrying amount of the asset is adjusted accordingly. Borrowing costs directly attributable to the acquisition, construction, or production of qualifying assets, including Property and Equipment additions, are capitalized as part of the cost of those assets. Impairment of Long-Lived Assets In accordance with ASC 360-10, Long-lived Assets, property and equipment and intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the assets. Fair value is generally determined using the asset's expected future discounted cash flows or market value, if readily determinable. For the years ended December 31, 2023 and 2022, the Company had no impairment of long-lived assets. Goodwill and Intangibles, net The Company periodically reviews the carrying value of intangible assets not subject to amortization, including goodwill, to determine whether impairment may exist. Goodwill and certain intangible assets are assessed annually, or when certain triggering events occur, for impairment using fair value measurement techniques. These events could include a significant change in the business climate, legal factors, a decline in operating performance, competition, sale or disposition of a significant portion of the business, or other factors. First, under step 0, we determine whether it is more likely than not that the fair value of the reporting unit is less than the carrying amount. Following, if step 0 fails, goodwill impairment is determined using a two-step process. The first step of the goodwill impairment test is used to identify potential impairment by comparing the fair value of a reporting unit with its carrying amount, including goodwill. The Company uses level 3 inputs and a discounted cash flow methodology to estimate the fair value of a reporting unit. A discounted cash flow analysis requires one to make various judgmental assumptions including assumptions about future cash flows, growth rates, and discount rates. The assumptions about future cash flows and growth rates are based on the Company's budget and long-term plans. Discount rate assumptions are based on an assessment of the risk inherent in the respective reporting units. If the fair value of a reporting unit exceeds its carrying amount, goodwill of the reporting unit is considered not impaired and the second step of the impairment test is unnecessary. If the carrying amount of a reporting unit exceeds its fair value, the second step of the goodwill impairment test is performed to measure the amount of impairment loss, if any. The second step of the goodwill impairment test compares the implied fair value of the reporting unit's goodwill with the carrying amount of that goodwill. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized in an amount equal to that excess. The implied fair value of goodwill is determined in the same manner as the amount of goodwill recognized in a business combination. That is, the fair value of the reporting unit is allocated to all of the assets and liabilities of that unit (including any unrecognized intangible assets) as if the reporting unit had been acquired in a business combination and the fair value of the reporting unit was the purchase price paid to acquire the reporting unit. On December 19, 2018, as a result of the acquisition of Cosmofarm, the Company recorded $49,697 of goodwill. Intangible assets with definite useful lives are recorded on the basis of cost and are amortized on a straight-line basis over their estimated useful lives. The Company uses a useful life of 5 years for an import/export license and a useful life of ten years for the pharmaceutical and nutraceutical products licenses included in Note 4 as "Licenses". A useful life of ten years is also used for the platforms included in Note 4 as "Software" and the customer bases. The Company evaluates the remaining useful life of intangible assets annually to determine whether events and circumstances warrant a revision to the remaining amortization period. If the estimate of the intangible asset's remaining useful life is changed, the remaining carrying amount of the intangible asset will be amortized prospectively over that revised remaining useful life. As of December 31, 2023, no revision to the remaining amortization period of the intangible assets was made. Amortization expense was $239,841 and $33,085 for the years ended December 31, 2023 and 2022, respectively. Equity Method Investment For those investments in common stock or in-substance common stock in which the Company has the ability to exercise significant influence over the operating and financial policies of the investee, the investment is accounted for under the equity method. The Company records its share in the earnings of the investee and is included in "Equity earnings of affiliate" in the consolidated statement of operations. The Company assesses its investment for other-than-temporary impairment when events or changes in circumstances indicate that the carrying amount of the investment might not be recoverable and recognizes an impairment loss to adjust the investment to its then current fair value. Investments in Equity Securities Investments in equity securities are accounted for at fair value with changes in fair value recognized in net income (loss). Equity securities are classified as short-term or long-term based on the nature of the securities and their availability to meet current operating requirements. Equity securities that are readily available for sale in current operations are reported as a component of current assets in the accompanying consolidated balance sheets. Equity securities that are not considered available for use in current operations would be reported as a component of long-term assets in the accompanying consolidated balance sheets. For equity securities with no readily determinable fair value, the

*Company elects a measurement alternative to fair value. Under this alternative, the Company measures the investments at cost, less any impairment, and adjusted for changes resulting from observable price changes in transactions for identical or similar investments of the investee. The election to use the measurement alternative is made for each eligible investment. The Company did not elect the fair value options for any of its qualifying financial instruments. Our financials also included the following financial instruments as of December 31, 2023: cash, accounts receivable, inventory, prepaid expenses, loans receivable, accounts payable, notes payable and lines of credit. Except for the loans receivable which carry fixed interest rates, the carrying value of the remaining instruments, approximates fair value due to their short-term nature. Derivative Instruments Derivative financial instruments are recorded in the accompanying consolidated balance sheets at fair value in accordance with ASC 815. When the Company enters into a financial instrument such as a debt or equity agreement (the "host contract"), the Company assesses whether the economic characteristics of any embedded features are clearly and closely related to the primary economic characteristics of the remainder of the host contract. When it is determined that (i) an embedded feature possesses economic characteristics that are not clearly and closely related to the primary economic characteristics of the host contract, and (ii) a separate, stand-alone instrument with the same terms would meet the definition of a financial derivative instrument, then the embedded feature is bifurcated from the host contract and accounted for as a derivative instrument. The estimated fair value of the derivative feature is recorded in the accompanying consolidated balance sheets separately from the carrying value of the host contract. Subsequent changes in the estimated fair value of derivatives are recorded as a gain or loss in the Company's consolidated statements of operations. Customer Advances The Company receives prepayments from certain customers for pharmaceutical products prior to those customers taking possession of the Company's products. The Company records these receipts as current liabilities until it has met all the criteria for recognition of revenue including passing control of the products to its customer, at such point, the Company will reduce the customer advances balance and credit the Company's revenues. Revenue Recognition In accordance with ASC Topic 606, Revenue from Contracts with Customers ("ASC 606"), the Company uses a five-step model for recognizing revenue by applying the following steps: <table cellpadding="0" style="border-spacing:0;text-align:justify;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td style="width:4%;"> </td><td style="width:4%;vertical-align:top;"> 1) </td><td style="vertical-align:top;"> Identification of the Contract: The Company identifies a contract with a customer when it enters into an agreement that creates enforceable rights and obligations. </td></tr><tr style="height:15px"><td> </td><td> </td><td> </td><td style="vertical-align:top;"> 2) </td><td style="vertical-align:top;"> Identification of Performance Obligations: The Company identifies distinct performance obligations within each contract, which represent promises to transfer goods or services to the customer. </td></tr><tr style="height:15px"><td> </td><td> </td><td> </td></tr><tr style="height:15px"><td> </td><td style="vertical-align:top;"> 3) </td><td style="vertical-align:top;"> Determination of Transaction Price: The Company determines the transaction price, which represents the amount of consideration to which it expects to be entitled in exchange for transferring promised goods or services to the customer, excluding any amounts collected on behalf of third parties. </td></tr><tr style="height:15px"><td> </td><td> </td><td> </td></tr><tr style="height:15px"><td> </td><td style="vertical-align:top;"> 4) </td><td style="vertical-align:top;"> Allocation of Transaction Price: The Company allocates the transaction price to each distinct performance obligation based on its standalone selling price. This typically occurs at a point in time or over time, depending on the nature of the performance obligation. </td></tr></tbody></table> Wholesale revenue and sales of own branded nutraceutical and pharmaceutical products The Company has contracts or signed partnership forms (usual in the wholesale sector of the pharma industry) with its customers, stipulating the enforceable rights and obligations. The Company is responsible for transferring the goods to the customer's location, which represents its sole performance obligation. Thus, the transaction price, which is predetermined in most of the products sold, is exclusively allocated to this performance obligation. Revenue is recognized at a single point in time, which is upon issuance of the corresponding sales invoice. The Company has assessed the impact of the items invoiced but not delivered to the customer's location as of December 31, 2023, and deemed that it had no material effect. Pharma manufacturing The Company has active contracts with its customers, stipulating the enforceable rights and obligations. The Company is responsible for the manufacturing and the packaging of specific products assigned by its customers, which represents its performance obligations to which the Company allocates the transaction price determined. The customers are responsible for providing the raw materials to the Company. Revenue is recognized over a period of time, which is during the production and packaging period of the respective products. As of December 31, 2023 there were no products or batches of products for which the production or packaging phase was in progress. Medihelm SA Commencing from January 1, 2023, and pursuant to the agreement with Medihelm, the exclusive distributor of the Company's own proprietary line of nutraceuticals, the Company considers the transaction price to be variable and records an estimate of the transaction price, subject to the constraint for variable consideration. The Company is basing the change in transaction price with the exclusive distributor through assessment of significant overdue receivables from the exclusive distributor, which the Company reassesses each reporting period. Through this assessment, the Company applied the "expected value" model under ASC 606-10-32-5 and had applied specific constraints to revenue due from the customer at the end of each reporting period. Following the application of the "expected value" model, the Company deferred an amount of $397,000 and recorded it against the sales to Medihelm for the year ended December 31, 2023. The Company does not consider that sales to any other customer include a variable component as of December 31, 2023. Stock-based Compensation The Company records stock-based compensation in accordance with ASC 718, Stock Compensation ("ASC 718") and Staff Accounting Bulletin No. 107 ("SAB 107") regarding its interpretation of ASC 718. ASC 718 requires the fair value of all stock-based employee compensation awarded to employees to be recorded as an expense over the related requisite service period. The Company values any employee or non-employee stock-based compensation at fair value using the Black-Scholes Option Pricing Model. The Company accounts for non-employee share-based awards in accordance with the measurement and recognition criteria of ASU 2018-07, "Compensation-Stock Compensation-Improvements to Nonemployee Share-Based Payment Accounting." Concentrations of Credit Risk Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash investments and accounts receivable. The Company had no clients which contributed 10% or more of revenue and accounts receivable, respectively for the year ended December 31, 2023. Income Taxes <p

style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;"> The Company accounts for income taxes under the asset and liability method, as required by the accounting standard for income taxes ASC 740. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis, as well as net operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company is liable for income taxes in Greece and the United Kingdom. The corporate income tax rate is 22% in Greece and 25% in the United Kingdom. Losses may also be subject to limitation under certain rules regarding change of ownership. We regularly review deferred tax assets to assess their potential realization and establish a valuation allowance for portions of such assets to reduce the carrying value if we do not consider it to be more likely than not that the deferred tax assets will be realized. Our review includes evaluating both positive (e.g., sources of taxable income) and negative (e.g., recent historical losses) evidence that could impact the realizability of our deferred tax assets. At December 31, 2023, we believe our United Kingdom and Greece deferred tax assets will not be realized, as such, we did not record a reversal on the full valuation approach we followed during the period ended December 31, 2022. Leases The Company accounts for leases in accordance with ASC 842. For all leases, the Company recognizes a right-of-use (ROU) asset and a lease liability on the balance sheet. The ROU asset represents the Company's right to use the underlying asset for the lease term, and the lease liability represents the obligation to make lease payments arising from the lease, both measured at the present value of future lease payments. Lease payments are recognized as an operating expense on a straight-line basis over the lease term. The interest on the lease liability and the amortization of the ROU asset are recognized separately in the income statement. Initial direct costs incurred by the Company in negotiating and securing leases are capitalized and amortized over the lease term on a straight-line basis. The assets and liabilities from operating and finance leases are recognized at the commencement date based on the present value of remaining lease payments over the lease term using the Company's secured incremental borrowing rates or implicit rates, when readily determinable. Short-term leases, which have an initial term of 12 months or less, are not recorded on the balance sheet. The Company's operating leases do not provide an implicit rate that can readily be determined. Therefore, we use a discount rate based on our incremental borrowing rate, which is determined using the average interest rate of our long-term debt on the date of inception. Retirement and Termination Benefits Under Greek labor law, employees are entitled to lump-sum compensation in the event of termination or retirement. The amount depends on the employee's work experience and renumeration as of the day of termination or retirement. If an employee remains with the company until full-benefit retirement, the employee is entitled to a lump-sum equal to 40% of the compensation to be received if the employee were to be dismissed on the same day. The Company periodically reviews the uncertainties and judgments related to the application of the relevant labor law regulations to determine retirement and termination benefits obligations of its Greek subsidiaries. The Company has evaluated the impact of these regulations and has identified a potential retirement and termination benefits liability. The amount of the liability as of December 31, 2023, and December 31, 2022, was $408,665 and $0, respectively, and has been recorded as a long-term liability within the consolidated balance sheets. The Company engaged an actuarial expert for the first time, during the period ended December 31, 2023, and thus the liability of $408,665 is the cumulative effect of the 2-year period ended December 31, 2023. The effect allocated to the prior period ended December 31, 2022, would have been $147,776. Basic and Diluted Net Loss per Common Share Basic income per share is calculated by dividing income available to common stockholders by the weighted average number of shares of common stock outstanding during the period. Diluted income per share is calculated by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period and, when dilutive, potential shares from stock options and warrants to purchase common stock, using the treasury stock method. In accordance with ASC 260, Earnings Per Share, the following table reconciles basic shares outstanding to fully diluted shares outstanding. <table cellpadding="0" style="border-spacing:0;text-align:left;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="6" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> Years Ended December 31, </td><td style="white-space: nowrap;"> </td></tr><tr style="height:15px"><td> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> 2023 </td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> 2022 </td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> Weighted average number of common shares outstanding Basic </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">11,968,665</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">1,928,172</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> Potentially dilutive common stock equivalents </td><td style="width:1%;white-space: nowrap;"> </td><td style="BORDER-BOTTOM: 1px solid;width:1%;white-space: nowrap;"> </td><td class="ffcell" style="BORDER-BOTTOM: 1px solid;width:9%;"> </td><td style="PADDING-BOTTOM: 1px;width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="BORDER-BOTTOM: 1px solid;width:1%;white-space: nowrap;"> </td><td class="ffcell" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:right;">-</td><td style="PADDING-BOTTOM: 1px;width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> Weighted average number of common and equivalent shares outstanding – Diluted </td><td style="width:1%;white-space: nowrap;"> </td><td style="BORDER-BOTTOM: 1px solid;width:1%;white-space: nowrap;"> </td><td class="ffcell" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:right;">11,968,665</td><td style="PADDING-BOTTOM: 1px;width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="BORDER-BOTTOM: 1px solid;width:1%;white-space: nowrap;"> </td><td class="ffcell" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:right;">1,928,172</td><td style="PADDING-BOTTOM: 1px;width:1%;white-space: nowrap;"> </td></tr></tbody></table> Common stock equivalents are included in the diluted income per share calculation only when option exercise prices are lower than the average market price of the common shares for the period presented. This guidance is intended to enhance the transparency and decision-usefulness of income tax disclosures. The amendments in ASU 2023-09 address investor requests for enhanced income tax information primarily through changes to disclosure regarding rate reconciliation and income taxes paid both in the U.S. and in foreign jurisdictions. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024 on a prospective basis, with the option to apply the standard retrospectively. Early adoption is permitted. The Company is currently evaluating this guidance to determine the impact it may have on its consolidated financial statements disclosures. In November 2023, the FASB issued ASU 2023-07, Segment Reporting: Improvements to Reportable Segment Disclosures. This guidance expands public entities' segment disclosures primarily by requiring disclosure of significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss, an amount and description of its composition for other segment items, and interim disclosures of a reportable segment's profit or loss and assets. The guidance is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. The amendments are required to be applied retrospectively to all prior periods presented in an entity's financial statements. The Company is currently evaluating this guidance to determine the impact it may have on its consolidated financial statements related disclosures. In December 2022, the FASB issued ASU No. 2022-06, Deferral of the Sunset Date of Reference Rate Reform (Topic 848). Topic 848 provides optional expedients and exceptions for applying GAAP to transactions affected by reference rate (e.g., LIBOR) reform if certain criteria are met, for a limited period of time to ease the potential burden in accounting for (or recognizing the effects of) reference rate reform on financial reporting. The ASU deferred the sunset date of Topic 848 from December 31, 2022 to December 31, 2024. The ASU is effective as of December 21, 2022 through December 31, 2024. We continue to evaluate transactions or contract modifications occurring as a result of reference rate reform and determine whether to apply the optional guidance on an ongoing basis. We adopted ASU 2022-06 during 2022. The Company adopted this ASU on June 30, 2023. The adoption of this ASU did not have a material impact on the Company's accounting and disclosures. In March 2022, the FASB issued ASU 2022-02, Troubled Debt Restructurings and Vintage Disclosures. This ASU eliminates the accounting guidance for troubled debt restructurings by creditors that have adopted ASU 2016-13, Measurement of Credit Losses on Financial Instruments, which was adopted on January 1, 2020. The adoption of ASU 2016-13 did not have a material impact on the Company's consolidated financial statements. ASU 2022-02 also enhances the disclosure requirements for certain loan refinancing and restructurings by creditors when a borrower is experiencing financial difficulty. In addition, the ASU amends the guidance on vintage disclosures to require entities to disclose current period gross write-offs by year of origination for financing receivables and net investments in leases within the scope of ASC 326-20. The ASU is effective for annual periods beginning after December 15, 2022, including interim periods within those fiscal years. Adoption of the ASU would be applied prospectively. Early adoption is also permitted, including adoption in an interim period. This ASU was adopted on January 1, 2023, which resulted in no cumulative-effect adjustment to retained earnings. In October 2021, the FASB issued ASU 2021-08, Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers, which requires contract assets and contract liabilities (i.e., deferred revenue) acquired in a business combination to be recognized and measured by the acquirer on the acquisition date in accordance with ASC 606, Revenue from Contracts with Customers, as if it had originated the contracts. The new guidance creates an exception to the general recognition and measurement principles of ASC 805, Business Combinations. The new guidance should be applied prospectively and is effective for all public business entities for fiscal years beginning after December 15, 2022 and include interim periods. The Company adopted this ASU which resulted in no impact on the Company's consolidated financial statements. Management does not believe that any recently issued, but not effective, accounting standards, if currently adopted, would have a material effect on the Company's consolidated financial statements. The accompanying consolidated financial statements have been prepared in accordance with U.S. GAAP. Our consolidated accounts include our accounts and the accounts of our wholly owned subsidiaries, SkyPharm S.A., Decahedron Ltd., Cosmofarm S.A., Cana Laboratories Holding (Cyprus) Limited and ZipDoctor Inc. The Group's financial statements are prepared in accordance with U.S. GAAP. The consolidated financial statements reflect the consolidation of all entities in which the Company has control, as determined by the ability to direct the activities that significantly affect the entities' economic performance. All significant intercompany balances and transactions have been eliminated. The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. On February 24, 2022, Russian forces launched significant military action against Ukraine. There continues to be sustained conflict and disruption in the region, which is expected to endure for the foreseeable future. We do not conduct any commercial transactions with either Ukraine or Russia and the Company and, as such, is not aware of any specific event or circumstance that would require an update to its estimates or judgments or a revision of the carrying value of its assets or liabilities as of the date of issuance of this Annual Report on Form 10-K. Such political issues and conflicts could have a material adverse effect on our results of operations and financial condition if they escalate in areas in which we do business. In addition, changes in and adverse actions by governments in foreign markets in which we do business could have a material adverse effect on our results of operations and financial condition. In June 2016, the FASB issued ASU 2016-13, Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses of Financial Instruments, which amends the requirement on the measurement and recognition of expected credit losses for financial assets held. Furthermore, amendments ASU 2019-10 and ASU 2019-11 provided additional clarification for implementing ASU 2016-13. ASU 2016-13 is effective for the Company beginning January 1, 2023, with early adoption permitted. The Company adopted the standard on January 1, 2023, and the standard did not have a material impact on the Company's consolidated financial statements and related disclosures. The Company is exposed to credit losses primarily through sales to its customers and the loans that it has provided. The Company assesses each customer's/ borrower's ability to pay, and a credit loss estimate by conducting a credit review which includes consideration of established credit rating, or an internal assessment of the customer's creditworthiness based on an analysis of their payment history when a credit rating is not available. The Company monitors credit exposure through active review of customer balances. The Company's expected credit loss ("ECL) methodology for accounts receivable is developed through consideration of factors including, but not limited to, historical collection experience, current customer credit ratings, current customer financial condition, current and future economic and market conditions, and age of the receivables. More specifically, the Company assesses a number of customers with significant long outstanding balances on an individual basis, applying different credit loss percentages to them, and subsequently summarizes the ones not included in the individual analysis, groups them based on their rating (decided based on the factors described above) and applies specific credit loss percentages to each group. The Company has elected to follow the simplified ECL approach and for the period ended December 31, 2023 applied a 5% loss rate to all balances outstanding for more than 90 days and 1% loss rate to the total outstanding balance. The charges related to credit losses are included in "General and administrative expenses" and are recorded in the period that the outstanding receivables are determined to be doubtful. Account balances are written-off against the allowance when they are deemed uncollectible. The functional currency of the Company's subsidiaries is the Euro and British Pound. For financial reporting purposes, both the Euro ("EUR") and British Pound ("GBP") have been translated into United States dollars ($) and/or ("USD") as the reporting currency. Assets and liabilities are translated at the exchange rate in effect at the balance sheet date. Revenues and expenses are translated at the average rate of exchange prevailing during the reporting period. Equity transactions are translated at each historical transaction date spot rate. Translation adjustments arising from the use of different exchange rates from period to period are included as a component of stockholders' equity (deficit) as "Accumulated other comprehensive income (loss)". Gains and losses resulting from foreign currency transactions are included in the statements of operations and comprehensive loss as other comprehensive loss. There have been no significant fluctuations in the exchange rate for the conversion of EUR or GBP to USD after the balance sheet date. Assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rates prevailing at the consolidated balance sheet date with any transaction gains and losses that arise from exchange rate fluctuations on transactions denominated in a currency other than the functional currency included in the consolidated results of operations as incurred. As of December 31, 2023 and 2022, the exchange rates used to translate amounts in Euros into USD and British Pounds into USD for the purposes of preparing the consolidated financial statements were as follows: <table cellpadding="0" style="border-spacing:0;text-align:left;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> December 31, 2023 </td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> December 31, 2022 </td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"> </td></tr><tr style="height:15px"><td style="vertical-align:top;"> Exchange rate on balance sheet dates </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" colspan="2" style="width:9%;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" colspan="2" style="width:9%;"> </td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> EUR: USD exchange rate </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">1.1062</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">1.0698</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> GBP: USD exchange rate </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">1.2743</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">1.2077</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;"><p style="font-size:10pt;font-family:times new

The allowance for credit losses against gross accounts receivable reflects the best estimate of probable losses inherent in the receivables' portfolio determined on the basis of historical experience, specific allowances for known troubled accounts and other currently available information. As of December 31, 2023 and 2022, the Company's allowance for credit losses was $19,686,091 and $7,309,311, respectively. Below is the summary of changes in the allowance for doubtful accounts:</p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;"> </p><table cellpadding="0" style="border-spacing:0;text-align:left;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:center;">December 31, </p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:center;">2023 </p></td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td></tr><tr style="height:15px"><td><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="width:1%;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td class="ffcell" colspan="2" style="width:9%;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="width:1%;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;">Balance as of January 1, 2023 </p></td><td style="width:1%;white-space: nowrap;"><p style="font-size:10pt;font-family:times new roman;margin:0px"> </p></td><td style="width:1%;vertical-align:bottom;white-space: nowrap;">$</td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">7,309,311</td><td style="width:1%;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#ffffff"><td style="vertical-align:top;"> Provisions for credit losses </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell"

The Company also collects VAT or similar taxes on behalf of the government (“output VAT”) for merchandise and/or services it sells. If the output VAT exceeds the input VAT, this creates a VAT payable to the government. If the input VAT exceeds the output VAT, this creates a VAT receivable from the government. The VAT tax return is filed on a monthly basis offsetting the payables against the receivables. In observance of EU regulations for intra-EU cross-border sales, our subsidiaries in Greece, SkyPharm and Cosmofarm, do not charge VAT for sales to wholesale drug distributors registered in other European Union member states. As of December 31, 2023 and 2022, the Company had a VAT net receivable balance of $187,512 and a net receivable balance of $79,373 respectively, recorded in the consolidated balance sheet as prepaid expenses and other current assets and accounts payable and accrued expenses, respectively. 18751279373 Inventory is stated at the lower-of-cost or net realizable value using the weighted average method. Inventory consists primarily of finished goods and packaging materials, i.e., packaged pharmaceutical products and the wrappers and containers they are sold in. A periodic inventory system is maintained by 100% count. Inventory is replaced periodically to maintain the optimum stock on hand available for immediate shipment. The Company writes down inventories to net realizable value based on physical condition, expiration date, current market conditions, as well as forecasted demand. The Company’s inventories are not highly susceptible to obsolescence. Many of the Company’s inventory items are eligible for return to our suppliers when pre-agreed product requirements, including, but not limited to, physical condition and expiration date, are not met. No significant judgments have been applied in estimating the selling price of our inventory. Property and equipment are stated at cost, less accumulated depreciation. Depreciation is calculated on a straight-line basis over the useful lives (except for leasehold improvements which are depreciated over the lesser of the lease term or the useful life) of the assets as follows: <table cellpadding="0" style="border-spacing:0;font-size:10pt;width:100%"><tbody><tr style="height:15px"><td></td><td> </td><td colspan="2" style="BORDER-BOTTOM: 1px solid;vertical-align:bottom;"> Estimated Useful Life </td><td></td></tr><tr style="height:15px;background-color:#cceeff"><td style="width:77%;"> Leasehold improvements and technical works </td><td style="width:1%;"> </td><td style="width:1%;"></td><td style="width:20%;vertical-align:bottom;"> Lesser of lease term or 25 years </td><td style="width:1%;"></td></tr><tr style="height:15px;background-color:#ffffff"><td style="width:77%;"> Buildings </td><td style="width:1%;"> </td><td style="width:1%;"> </td><td style="width:20%;vertical-align:bottom;"> 25-30 years </td><td style="width:1%;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td> Vehicles </td><td></td><td> </td><td> 6 years </td><td></td></tr><tr style="height:15px;background-color:#ffffff"><td> Machinery </td><td></td><td> </td><td> 20 years </td><td></td></tr><tr style="height:15px;background-color:#cceeff"><td> Furniture, fixtures and equipment </td><td> </td><td style="vertical-align:bottom;"> 5-10 years </td><td> </td></tr><tr style="height:15px;background-color:#ffffff"><td> Computers and software </td><td> </td><td></td><td style="vertical-align:bottom;"> 3-5 years </td><td></td></tr></tbody></table> Depreciation expense was $353,043 and $70,109 for the years ended December 31, 2023 and 2022, respectively. Property and Equipment additions Property and Equipment additions are recognized as assets when it is probable that future economic benefits associated with the asset will flow to the entity and the cost of the asset can be measured reliably. Additions are initially measured at cost, which includes all costs directly attributable to bringing the asset to its working condition and location for its intended use. This may include purchase price, freight, installation, and any directly attributable professional fees. They are capitalized if their cost exceeds a certain threshold. The threshold is determined based on materiality considerations. Costs below the threshold are typically expensed as incurred. After initial recognition, additions are measured at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is calculated systematically over the estimated useful life of the asset. They are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the carrying amount exceeds the recoverable amount, an impairment loss is recognized, and the carrying amount of the asset is adjusted accordingly. Borrowing costs directly attributable to the acquisition, construction, or production of qualifying assets, including Property and Equipment additions, are capitalized as part of the cost of those assets. <table cellpadding="0" style="border-spacing:0;font-size:10pt;width:100%"><tbody><tr style="height:15px"><td></td><td> </td><td colspan="2" style="BORDER-BOTTOM: 1px solid;vertical-align:bottom;"> Estimated Useful Life </td><td></td></tr><tr style="height:15px;background-color:#cceeff"><td style="width:77%;"> Leasehold improvements and technical works </td><td style="width:1%;"> </td><td style="width:1%;"></td><td style="width:20%;vertical-align:bottom;"> Lesser of lease term or 25 years </td><td style="width:1%;"></td></tr><tr style="height:15px;background-color:#ffffff"><td style="width:77%;"> Buildings </td><td style="width:1%;"> </td><td style="width:1%;"> </td><td style="width:20%;vertical-align:bottom;"> 25-30 years </td><td style="width:1%;"> </td></tr><tr

Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the assets. Fair value is generally determined using the asset's expected future discounted cash flows or market value, if readily determinable. For the years ended December 31, 2023 and 2022, the Company had no impairment of long-lived assets. The Company periodically reviews the carrying value of intangible assets not subject to amortization, including goodwill, to determine whether impairment may exist. Goodwill and certain intangible assets are assessed annually, or when certain triggering events occur, for impairment using fair value measurement techniques. These events could include a significant change in the business climate, legal factors, a decline in operating performance, competition, sale or disposition of a significant portion of the business, or other factors. First, under step 0, we determine whether it is more likely than not that the fair value of the reporting unit is less than the carrying amount. Following, if step 0 fails, goodwill impairment is determined using a two-step process. The first step of the goodwill impairment test is used to identify potential impairment by comparing the fair value of a reporting unit with its carrying amount, including goodwill. The Company uses level 3 inputs and a discounted cash flow methodology to estimate the fair value of a reporting unit. A discounted cash flow analysis requires one to make various judgmental assumptions including assumptions about future cash flows, growth rates, and discount rates. The assumptions about future cash flows and growth rates are based on the Company's budget and long-term plans. Discount rate assumptions are based on an assessment of the risk inherent in the respective reporting units. If the fair value of a reporting unit exceeds its carrying amount, goodwill of the reporting unit is considered not impaired and the second step of the impairment test is unnecessary. If the carrying amount of a reporting unit exceeds its fair value, the second step of the goodwill impairment test is performed to measure the amount of impairment loss, if any. The second step of the goodwill impairment test compares the implied fair value of the reporting unit's goodwill with the carrying amount of that goodwill. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized in an amount equal to that excess. The implied fair value of goodwill is determined in the same manner as the amount of goodwill recognized in a business combination. That is, the fair value of the reporting unit is allocated to all of the assets and liabilities of that unit (including any unrecognized intangible assets) as if the reporting unit had been acquired in a business combination and the fair value of the reporting unit was the purchase price paid to acquire the reporting unit. On December 19, 2018, as a result of the acquisition of Cosmofarm, the Company recorded $49,697 of goodwill. Intangible assets with definite useful lives are recorded on the basis of cost and are amortized on a straight-line basis over their estimated useful lives. The Company uses a useful life of 5 years for an import/export license and a useful life of ten years for the pharmaceutical and nutraceutical products licenses included in Note 4 as "Licenses". A useful life of ten years is also used for the platforms included in Note 4 as "Software" and the customer bases. The Company evaluates the remaining useful life of intangible assets annually to determine whether events and circumstances warrant a revision to the remaining amortization period. If the estimate of the intangible asset's remaining useful life is changed, the remaining carrying amount of the intangible asset will be amortized prospectively over that revised remaining useful life. As of December 31, 2023, no revision to the remaining amortization period of the intangible assets was made. Amortization expense was $239,841 and $33,085 for the years ended December 31, 2023 and 2022, respectively. 4969723984133085 For those investments in common stock or in-substance common stock in which the Company has the ability to exercise significant influence over the operating and financial policies of the investee, the investment is accounted for under the equity method. The Company records its share in the earnings of the investee and is included in "Equity earnings of affiliate" in the consolidated statement of operations. The Company assesses its investment for other-than-temporary impairment when events or changes in circumstances indicate that the carrying amount of the investment might not be recoverable and recognizes an impairment loss to adjust the investment to its then current fair value. Investments in equity securities are accounted for at fair value with changes in fair value recognized in net income (loss). Equity securities are classified as short-term or long-term based on the nature of the securities and their availability to meet current operating requirements. Equity securities that are readily available for sale in current operations are reported as a component of current assets in the accompanying consolidated balance sheets. Equity securities that are not considered available for use in current operations would be reported as a component of long-term assets in the accompanying consolidated balance sheets. For equity securities with no readily determinable fair value, the Company elects a measurement alternative to fair value. Under this alternative, the Company measures the investments at cost, less any impairment, and adjusted for changes resulting from observable price changes in transactions for identical or similar investments of the investee. The election to use the measurement alternative is made for each eligible investment. to measure many financial instruments and certain other items at fair value. The Company did not elect the fair value options for any of its qualifying financial instruments. Our financials also included the following financial instruments as of December 31, 2023: cash, accounts receivable, inventory, prepaid expenses, loans receivable, accounts payable, notes payable and lines of credit. Except for the loans receivable which carry fixed interest rates, the carrying value of the remaining instruments, approximates fair value due to their short-term nature. <table cellpadding="0" style="border-spacing:0;text-align:left;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="10" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> December 31, 2023 </td><td style="white-space: nowrap;"> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="width:9%;vertical-align:bottom;text-align:center;"> Total Carrying </td><td style="white-space: nowrap;"> </td></tr><tr style="height:15px"><td> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> Level 1 </td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> Level 2 </td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> Level 3 </td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"> </td><td style="white-space: nowrap;"> </td><td class="hdcell" colspan="2" style="BORDER-BOTTOM: 1px solid;width:9%;vertical-align:bottom;text-align:center;"> Value </td><td style="PADDING-BOTTOM: 1px;white-space: nowrap;"> </td></tr><tr style="height:15px;background-color:#cceeff"><td style="vertical-align:top;"> Marketable securities – ICC International Cannabis Corp. </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;vertical-align:bottom;white-space: nowrap;">$</td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">-</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">-</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td class="ffcell" style="width:9%;vertical-align:bottom;text-align:right;">-</td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"> </td><td style="width:1%;white-space: nowrap;"><p

When the Company enters into a financial instrument such as a debt or equity agreement (the "host contract"), the Company assesses whether the economic characteristics of any embedded features are clearly and closely related to the primary economic characteristics of the remainder of the host contract. When it is determined that (i) an embedded feature possesses economic characteristics that are not clearly and closely related to the primary economic characteristics of the host contract, and (ii) a separate, stand-alone instrument with the same terms would meet the definition of a financial derivative instrument, then the embedded feature is bifurcated from the host contract and accounted for as a derivative instrument. The estimated fair value of the derivative feature is recorded in the accompanying consolidated balance sheets separately from the carrying value of the host contract. Subsequent changes in the estimated fair value of derivatives are recorded as a gain or loss in the Company's consolidated statements of operations. The Company receives prepayments from certain customers for pharmaceutical products prior to those customers taking possession of the Company's products. The Company records these receipts as current liabilities until it has met all the criteria for recognition of revenue including passing control of the products to its customer, at such point, the Company will reduce the customer advances balance and credit the Company's revenues. In accordance with ASC Topic 606, Revenue from Contracts with Customers ("ASC 606"), the Company uses a five-step model for recognizing revenue by applying the following steps: <table cellpadding="0" style="border-spacing:0;text-align:justify;font:10pt times new roman;width:100%"><tbody><tr style="height:15px"><td style="width:4%;"> </td><td style="width:4%;vertical-align:top;"> 1) </td><td style="vertical-align:top;"> Identification of the Contract: The Company identifies a contract with a customer when it enters into an agreement that creates enforceable rights and obligations. </td></tr><tr style="height:15px"><td> </td><td> </td><td> </td></tr><tr style="height:15px"><td> </td><td style="vertical-align:top;"> 2) </td><td style="vertical-align:top;"> Identification of Performance Obligations: The Company identifies distinct performance obligations within each contract, which represent promises to transfer goods or services to the customer. </td></tr><tr style="height:15px"><td> </td><td> </td><td> </td></tr><tr style="height:15px"><td> </td><td style="vertical-align:top;"> 3) </td><td style="vertical-align:top;"> Determination of Transaction Price: The Company determines the transaction price, which represents the amount of consideration to which it expects to be entitled in exchange for transferring promised goods or services to the customer, excluding any amounts collected on behalf of third parties. </td>

The Company is responsible for transferring the goods to the customer's location, which represents its sole performance obligation. Thus, the transaction price, which is predetermined in most of the products sold, is exclusively allocated to this performance obligation. Revenue is recognized at a single point in time, which is upon issuance of the corresponding sales invoice. The Company has assessed the impact of the items invoiced but not delivered to the customer's location as of December 31, 2023, and deemed that it had no material effect.   Pharma manufacturing The Company has active contracts with its customers, stipulating the enforceable rights and obligations. The Company is responsible for the manufacturing and the packaging of specific products assigned by its customers, which represents its performance obligations to which the Company allocates the transaction price determined. The customers are responsible for providing the raw materials to the Company. Revenue is recognized over a period of time, which is during the production and packaging period of the respective products. As of December 31, 2023 there were no products or batches of products for which the production or packaging phase was in progress.   Medihelm SA   Commencing from January 1, 2023, and pursuant to the agreement with Medihelm, the exclusive distributor of the Company's own proprietary line of nutraceuticals, the Company considers the transaction price to be variable and records an estimate of the transaction price, subject to the constraint for variable consideration. The Company is basing the change in transaction price with the exclusive distributor through assessment of significant overdue receivables from the exclusive distributor, which the Company reassesses each reporting period. Through this assessment, the Company applied the "expected value" model under ASC 606-10-32-5 and had applied specific constraints to revenue due from the customer at the end of each reporting period. Following the application of the "expected value" model, the Company deferred an amount of $397,000 and recorded it against the sales to Medihelm for the year ended December 31, 2023. The Company does not consider that sales to any other customer include a variable component as of December 31, 2023. 397000 The Company records stock-based compensation in accordance with ASC 718, Stock Compensation ("ASC 718") and Staff Accounting Bulletin No. 107 ("SAB 107") regarding its interpretation of ASC 718. ASC 718 requires the fair value of all stock-based employee compensation awarded to employees to be recorded as an expense over the related requisite service period. The Company values any employee or non-employee stock-based compensation at fair value using the Black-Scholes Option Pricing Model. The Company accounts for non-employee share-based awards in accordance with the measurement and recognition criteria of ASU 2018-07, "Compensation-Stock Compensation-Improvements to Nonemployee Share-Based Payment Accounting." Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash investments and accounts receivable. The Company had no clients which contributed 10% or more of revenue and accounts receivable, respectively for the year ended December 31, 2023. The Company accounts for income taxes under the asset and liability method, as required by the accounting standard for income taxes ASC 740. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis, as well as net operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.   The Company is liable for income taxes in Greece and the United Kingdom. The corporate income tax rate is 22% in Greece and 25% in the United Kingdom. Losses may also be subject to limitation under certain rules regarding change of ownership.   We regularly review deferred tax assets to assess their potential realization and establish a valuation allowance for portions of such assets to reduce the carrying value if we do not consider it to be more likely than not that the deferred tax assets will be realized. Our review includes evaluating both positive (e.g., sources of taxable income) and negative (e.g., recent historical losses) evidence that could impact the realizability of our deferred tax assets. At December 31, 2023, we believe our United Kingdom and Greece deferred tax assets will not be realized, as such, we did not record a reversal on the full valuation approach we followed during the period ended December 31, 2022. 0.220.25 The Company accounts for leases in accordance with ASC 842. For all leases, the Company recognizes a right-of-use (ROU) asset and a lease liability on the balance sheet. The ROU asset represents the Company's right to use the underlying asset for the lease term, and the lease liability represents the obligation to make lease payments arising from the lease, both measured at the present value of future lease payments. Lease payments are recognized as an operating expense on a straight-line basis over the lease term. The interest on the lease liability and the amortization of the ROU asset are recognized separately in the income statement. Initial direct costs incurred by the Company in negotiating and securing leases are capitalized and amortized over the lease term on a straight-line basis. The assets and liabilities from operating and finance leases are recognized at the commencement date based on the present value of remaining lease payments over the lease term using the Company's secured incremental borrowing rates or implicit rates, when readily determinable. Short-term leases, which have an initial term of 12 months or less, are not recorded on the balance sheet. The Company's operating leases do not provide an implicit rate that can readily be determined. Therefore, we use a discount rate based on our incremental borrowing rate, which is determined using the average interest rate of our long-term debt on the date of inception. Under Greek labor law, employees are entitled to lump-sum compensation in the event of termination or retirement. The amount depends on the employee's work experience and renumeration as of the day of termination or retirement. If an employee remains with the company until full-benefit retirement, the employee is entitled to a lump-sum equal to 40% of the compensation to be received if the employee were to be dismissed on the same day. The Company periodically reviews the uncertainties and judgments related to the application of the relevant labor law regulations to determine retirement and termination benefits obligations of its Greek subsidiaries. The Company has evaluated the impact of these regulations and has identified a potential retirement and termination benefits liability. The amount of the liability as of December 31, 2023, and December 31, 2022, was $408,665 and $0, respectively, and has been recorded as a long-term liability within the consolidated balance sheets. The Company engaged an actuarial expert for the first time, during the period ended December 31, 2023, and thus the liability of $408,665 is the cumulative effect of the 2-year period ended December 31, 2023. The effect allocated to the prior period ended December 31, 2022, would have been $147,776. 4086650408665147776 Basic income per share is calculated by dividing income available to common stockholders by the weighted average number of shares of common stock outstanding during the period. Diluted income per share is calculated by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period and, when dilutive, potential shares from stock options and warrants to purchase common stock, using the treasury stock method. </td></tr></tbody></table>85614764194236882785614764203063 In December 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures. This guidance is intended to enhance the transparency and decision-usefulness of

income tax disclosures. The amendments in ASU 2023-09 address investor requests for enhanced income tax information primarily through changes to disclosure regarding rate reconciliation and income taxes paid both in the U.S. and in foreign jurisdictions. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024 on a prospective basis, with the option to apply the standard retrospectively. Early adoption is permitted. The Company is currently evaluating this guidance to determine the impact it may have on its consolidated financial statements disclosures. In November 2023, the FASB issued ASU 2023-07, Segment Reporting: Improvements to Reportable Segment Disclosures. This guidance expands public entities' segment disclosures primarily by requiring disclosure of significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss, an amount and description of its composition for other segment items, and interim disclosures of a reportable segment's profit or loss and assets. The guidance is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. The amendments are required to be applied retrospectively to all prior periods presented in an entity's financial statements. The Company is currently evaluating this guidance to determine the impact it may have on its consolidated financial statements related disclosures. In December 2022, the FASB issued ASU No. 2022-06, Deferral of the Sunset Date of Reference Rate Reform (Topic 848). Topic 848 provides optional expedients and exceptions for applying GAAP to transactions affected by reference rate (e.g., LIBOR) reform if certain criteria are met, for a limited period of time to ease the potential burden in accounting for (or recognizing the effects of) reference rate reform on financial reporting. The ASU deferred the sunset date of Topic 848 from December 31, 2022 to December 31, 2024. The ASU is effective as of December 21, 2022 through December 31, 2024. We continue to evaluate transactions or contract modifications occurring as a result of reference rate reform and determine whether to apply the optional guidance on an ongoing basis. We adopted ASU 2022-06 during 2022. The Company adopted this ASU on June 30, 2023. The adoption of this ASU did not have a material impact on the Company's accounting and disclosures. In March 2022, the FASB issued ASU 2022-02, Troubled Debt Restructurings and Vintage Disclosures. This ASU eliminates the accounting guidance for troubled debt restructurings by creditors that have adopted ASU 2016-13, Measurement of Credit Losses on Financial Instruments, which was adopted on January 1, 2020. The adoption of ASU 2016-13 did not have a material impact on the Company's consolidated financial statements. ASU 2022-02 also enhances the disclosure requirements for certain loan refinancing and restructurings by creditors when a borrower is experiencing financial difficulty. In addition, the ASU amends the guidance on vintage disclosures to require entities to disclose current period gross write-offs by year of origination for financing receivables and net investments in leases within the scope of ASC 326-20. The ASU is effective for annual periods beginning after December 15, 2022, including interim periods within those fiscal years. Adoption of the ASU would be applied prospectively. Early adoption is also permitted, including adoption in an interim period. This ASU was adopted on January 1, 2023, which resulted in no cumulative-effect adjustment to retained earnings. In October 2021, the FASB issued ASU 2021-08, Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers, which requires contract assets and contract liabilities (i.e., deferred revenue) acquired in a business combination to be recognized and measured by the acquirer on the acquisition date in accordance with ASC 606, Revenue from Contracts with Customers, as if it had originated the contracts. The new guidance creates an exception to the general recognition and measurement principles of ASC 805, Business Combinations. The new guidance should be applied prospectively and is effective for all public business entities for fiscal years beginning after December 15, 2022 and include interim periods. The Company adopted this ASU which resulted in no impact on the Company's consolidated financial statements. Management does not believe that any recently issued, but not effective, accounting standards, if currently adopted, would have a material effect on the Company's consolidated financial statements. NOTE 3 –EQUITY METHOD INVESTMENTS Distribution and Equity Agreement On March 19, 2018, the Company entered into a Distribution and Equity Acquisition Agreement with Marathon Global Inc. ("Marathon"), a company incorporated in the Province of Ontario, Canada. Marathon was formed to be a global supplier of cannabis, cannabidiol (CBD) and/or any cannabis extract products, extracts, ancillaries and derivatives (collectively, the "Products"). The Company was appointed the exclusive distributor of the Products initially throughout Europe and on a non-exclusive basis wherever else lawfully permitted. The Company has no present intention to distribute any Products under this Agreement in the United States or otherwise participate in cannabis operations in the United States. The Company intended to await further clarification from the U.S. Government on cannabis regulation prior to determining whether to enter the domestic market. The above transaction closed on May 22, 2018 after the due diligence period, following which the Company received: (a) a 33 1/3% equity interest or 5 million shares in Marathon as partial consideration for the Company's distribution services; and (b) received cash of CAD $2,000,000, subject to repayment in common shares of the Company if it failed to meet certain performance milestones. The Company was entitled to receive an additional CAD $2,750,000 upon the Company's receipt of gross sales of CAD $6,500,000 and an additional CAD $2,750,000 upon receipt of gross sales of CAD $13,000,000. The Company was also given the right to nominate one director to the Marathon board of directors. Since Marathon was a newly formed entity with no assets and no activity, the Company attributed no value to the 5 million shares in Marathon which was received as consideration for the distribution services. The Distribution and Equity Acquisition Agreement was to remain in effect indefinitely unless Marathon fails to provide Market Competitive (as defined) product pricing and Marathon has not become profitable within five years of the agreement. On March 20, 2023, the Company sent a termination notice, to Marathon, which became effective on April 19, 2023 as a result of Marathon's failure to satisfy these conditions. The Company had accounted for its obligation to issue a variable number of the Company's Common Shares as Share-settled debt obligation in accordance with ASC Topic 480, Distinguishing Liabilities from Equity ("ASC 480"), which was measured at fair value or the settlement amount of $1,554,590 (CAD $2 million). Due to termination of the Distribution and Equity Acquisition Agreement, the Company recorded a gain on extinguishment of debt of $1,554,590 due to the write-off of the share settled debt obligation, for the year ended December 31, 2023. CosmoFarmacy LP In September 2019, the Company entered into an agreement with an unaffiliated third party to incorporate CosmoFarmacy L.P. for the purpose of providing strategic management consulting services and the retail trade of pharmaceutical products, and OTC to pharmacies. CosmoFarmacy was incorporated with a 30-year term through May 31, 2049. The unaffiliated third party is the general partner (the "GP") of the limited partnership and is responsible for management and decision-making associated with CosmoFarmacy. The initial share capital was set to EUR 150,000 ($163,080) which was later increased to EUR 500,000 ($543,600). The GP contributed the pharmacy license (the "License") valued at EUR 350,000 (30-year term) to operate the business of CosmoFarmacy in exchange for a 70% equity ownership. The Company is a limited partner and contributed cash of EUR 150,000 ($163,080) for the remaining 30% equity ownership. CosmoFarmacy is not publicly traded and the Company's investment has been recorded using the equity method of accounting. The value of the investment as of December 31, 2023 and December 31, 2022, was $165,930 and $160,470, respectively, and is included in "Other assets" on the Company's consolidated balance sheets. </p>2000000275000065000002750000130000000five years1554590155459015000050000035000OP30Y0.701500000.30165930160470<p style="FONT-SIZE: 10pt; The prepayments to Medihelm SA had been made in accordance with the parallel export business, through which Medihelm supplied and would supply SkyPharm SA with branded pharmaceuticals. This business is no longer in place for the Company and thus the Company entered into this agreement with Medihelm SA in order for the outstanding amount to be settled. Interest is calculated at a rate of 5.5% per annum on a 360-day basis. Under the terms of the agreement, the Company is to receive 120 equal payments over the term of the loan. As of December 31, 2022, the Company had a short-term receivable balance of $377,038 and a long-term receivable balance of $3,792,034 under this loan. During the year ended December 31, 2023, the Company received €352,438 ($389,867) in principal payments such that as of December 31, 2023, the Company had a short-term receivable balance of $411,858 and a long-term receivable balance of $3,509,200 under this loan. The Company also received €174,711 ($193,265) in interest payments during year ended December 31, 2023. The Note is considered fully recoverable and all capital and interest repayments due as of December 31, 2023 have been settled. 48492210.055the Company is to receive 120 equal payments over the term of the loan377038379203438986741185835092001932654 NOTE 7 – CAPITAL STRUCTURE Preferred Stock The Company is authorized to issue 100 million shares of preferred stock, of which 6,000,000 are designated as Series A convertible preferred stock. The preferred stock has a liquidation preference over the common stock and is non-voting. As of December 31, 2023 and 2022, all Series A convertible preferred stock had been converted and no preferred shares were issued and outstanding. Major Rights & Preferences of Series A Preferred Stock On and effective October 4, 2021, the Company amended and restated its articles of incorporation (the “Amended and Restated Articles”) and filed a certificate of designation (the “COD”) for its Series A Preferred Stock (the “Series A Preferred Stock”) with the State of Nevada. The Amended and Restated Articles allow the Company’s Board of Directors the authority to authorize the issuance of preferred stock from time to time in one or more classes or series by resolution. On February 23, 2022, the Company filed Correction No. 1 to the COD. On July 28, 2022, the Company filed an Amendment to the COD with the State of Nevada to allow a holder to waive application of the Beneficial Ownership Limitation with respect to the conversion of Series A Preferred Stock. With respect to payment of dividends and distribution of assets upon liquidation, dissolution, or winding up of the Company, whether voluntary or involuntary, all shares of the Series A Preferred Stock will rank: (i) senior to all of the Company’s Common Stock and any other equity securities that the Company may issue in the future, (ii) equal to any other equity securities that the Company may issue in the future, the terms of which specifically provide that such equity securities are on parity or senior to the Series A Preferred Stock (“Parity Securities”), (iii) junior to all other equity securities the Company issues, the terms of which specifically provide that such equity securities rank senior to the Series A Preferred Stock, and (iv) junior to all of the Company’s existing and future indebtedness; without the prior written consent of the Majority Holders. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company (a “Liquidation”), the Holders of shares of Series A Preferred Stock shall be first entitled to receive out of the assets of the Company available for distribution to its shareholders. Each Holder shall not be entitled to vote with holders of outstanding shares of Common Stock, voting together as a single class, with respect to any and all matters presented to the stockholders of the Company for their action or consideration, except as provided by law or as set forth in the COD. The holders of Series A Preferred Stock are entitled to receive dividends paid and distributions made to the holders of Common Stock to the same extent as if the holders of Series A Preferred Stock had converted such shares into shares of Common Stock. The Series A Preferred Stock was initially convertible into the Company’s Common Stock as determined by dividing the number of shares of Series A Preferred Stock to be converted by the lower of (i) $75.00 or (ii) 80% of the average volume weighted average price for the Company’s Common Stock for the five trading days immediately following the effectiveness of the registration statement concerning the shares (the “Conversion Price”). On June 14, 2022, the Conversion Price was reset to $15.54 per share. Each holder is entitled to receive dividends in shares of Series A Preferred Stock or cash determined based on the stated value of each Series A Preferred Stock at the dividend rate of 8.0% per year. For the year ended December 31, 2022, the Company recorded $372,414 as a deemed dividend in accordance with the Series A Preferred Stock cumulative dividend. As of December 31, 2022, the cumulative dividend has been recorded as mezzanine equity. Following, Mr. Siokas waiver of the right to receive the dividends on February 26, 2024 and the unanimous written consent of the Company’s Board of Directors on February 29, 2024, through which was resolved that the Company shall remove all accrued and unpaid dividends payable to the previous holders of Series A Preferred stock, the Company eliminated the total deemed dividend of $372,414 through retained earnings. Thus, the balance of mezzanine equity as of December 31, 2023 is $0. On February 28, 2022, the Company entered into a securities purchase agreement, or the Purchase Agreement, with certain investors and an insider for a private placement of the Company’s securities (the “Private Placement”). The Private Placement consisted of the sale of 6,000 shares of the Company’s Series A Convertible Preferred Stock, or the Series A Shares, at a price of $1,000 per share, and 80,000 warrants to purchase shares of common stock, or the Warrants, for aggregate gross proceeds of approximately $6 million. The Warrants were initially exercisable to purchase shares of common stock at $82.50 per share, or 110% of the Series A Shares initial conversion price and will expire five and one-half years following the initial exercise date of the Warrants. The Company determined that the 80,000 warrants are additional value being distributed to the preferred stockholders and presented the warrants’ fair value of $5,788,493 as a deemed dividend on issuance of warrants in the consolidated statements of operations and comprehensive loss. The warrants were valued using the Black-Scholes option pricing model with the following terms: a) exercise price of $82.50, b) common stock fair value of $85.50, c) volatility of 118%, d) discount rate of 1.71%, e) term of 5.50 years and f) dividend rate of 0%. The closing of the Private Placement occurred on February 28, 2022. As a condition to the closing of the sale, the Company’s common stock received conditional approval for listing and trading on the Nasdaq Capital Market and commenced trading on February 28, 2022, under the trading symbol COSM. Concurrent with the issuance of the Series A Shares, the Company executed a registration rights agreement (the “Registration Rights Agreement”) to register the resale of the shares of common stock issuable upon conversion of the Series A Shares and the shares of common stock issuable upon exercise of the warrants issued in connection with the Series A Shares. The Company was required to file its initial registration statement within 45 days following February 28, 2022. The Effectiveness Date was required to be 60 days after February 28, 2022, or 75 days following the SEC’s full review, and any additional registration statements that may be required are to be filed within 20 days following the date required by the SEC. If the Company fails to timely file its initial registration statement, or any additional registration statement, or otherwise comply with the requirements of the Registration Rights Agreement, the Company shall pay each holder 2% of the subscription amount in cash until cured, with an additional penalty of 18% if the cash payment is not made within seven days of the cash payable date. The Company filed its initial registration statement on May 25, 2022, and thus accrued for liquidated damages payable to the holders in the amount of $250,260, calculated as described above, for both the late filing of the registration statement (event) and the 1st anniversary (30 days following the event date) of the event, which, along with an additional lump sum amount of $2,000,000 agreed to be paid to the investors as additional damages, led to a total amount of $2,250,260 concerning liquidated damages related to the February Private Placement within the year ended December 31, 2022. Upon the effectiveness of the Company’s registration statement, the Series A Shares conversion price was adjusted to $15.54 and the warrant exercise price was adjusted to $15.54 per share. The Company recorded a deemed dividend in the amount of $8,189,515 upon reducing the conversion price from $75.00 to $15.54 which was recorded as an increase to additional paid-in capital and an increase to accumulated deficit. The Series A Shares rank senior to all of the Company’s Common Stock and any other equity securities that the Company may issue in the future with respect to payment of dividends and distribution of assets upon liquidation, dissolution or winding up. While the Series A Shares are outstanding, the Company may not amend, alter or change adversely the powers, preferences or rights given to the Series A Shares, create, or authorize the creation of, any additional class or series of capital stock of the Company (or any security convertible into or exercisable for any class or series of capital stock of the Company), including any class or series of capital stock of the Company that ranks superior to or in parity with the Series A Shares, alter, amend, modify, or repeal its Articles of Incorporation or other charter documents in any manner that adversely affects any rights of the holders of Series A Shares, increase or decrease the number of authorized shares of Series A Shares, any agreement, commitment or transaction that would result in a Change of Control, any sale or disposition of any material assets outside of the ordinary course of business of the Company, any material change in the principal business of the Company, including the entry into any new line of business or exit of any current line of business, and circumvent a right or preference of the Series A Shares. Any holder of the Series A Shares shall have the right by written election to the Company to convert all or any portion of the outstanding Series A Shares. Immediately upon effectiveness of a registration statement registering for resale all of the Registrable Securities (as defined in the Registration Rights Agreement), all outstanding Series A Shares shall automatically convert into Common Stock, subject to certain beneficial ownership limitations. Treasury stock As of December 31, 2023 and 2022, the Company held 86,497 and 15,497, respectively, shares of its common stock at a cost of $917,159 and $816,707, respectively. Shares of common stock that are repurchased are classified as treasury stock pending future use and reduce the number of shares outstanding used in calculating earnings per share. Cosmos may repurchase shares from time to time through open market purchases in accordance with applicable securities laws and other restrictions. The Company repurchased 71,000 shares of its common stock for $100,452 during the year ended December 31, 2023. On January 24, 2023, the Company announced that its Board of Directors has approved a share repurchase program with authorization to purchase up to $3 million of its common stock. Cosmos may repurchase shares from time to time through open market purchases in accordance with applicable securities laws and other restrictions. Mezzanine Equity The Series A Shares are recorded as mezzanine equity in accordance with ASC

480 at its initial net carrying value in the amount of $5,452,300. The Series A Shares are recorded as mezzanine equity in accordance with ASC 480 as the Company may be obligated to issue a variable number of shares at a fixed price known at inception and there is no maximum number of shares that could potentially be issued upon conversion. In this instance, cash settlement would be presumed and the Series A Shares are classified as mezzanine equity in accordance with ASC 480-10-S99. Immediately upon effectiveness of the registration statement registering for resale of all the common stock issuable under the Series A Shares, all outstanding Series A Shares shall automatically convert into common stock. As of December 31, 2022, 6,000 of the Series A Shares had been converted into 386,588 shares of common stock in accordance with the terms of the agreements and thus an amount of $5,452,300 was reclassified from mezzanine equity to common stock and additional paid-in capital, in the aggregate. Common Stock The Company is authorized to issue 300 million shares of common stock. As of December 31, 2023 and 2022, the Company 15,982,472 and 10,605,412 shares of our common stock issued, respectively, and 15,895,975 and 10,589,915 shares outstanding, respectively. Issuance of Common Stock During the 12 months ended December 31, 2023, the Company issued 15,258 shares of common stock to a consultant for services rendered. The shares were valued and expensed in the amount of $96,888 on the date of issuance and are separately presented in the consolidated statement of changes in stockholders' equity and mezzanine equity as "Shares issued in lieu of cash" for the year ended December 31, 2023. On April 3, 2023, the Company issued 185,000 shares of unvested common stock to employees, officers and directors under the Company's Equity Incentive Plan. These shares vest in two tranches, 1) 50% vesting on October 2, 2023, and 2) 50% vesting on October 2, 2024. The Company valued these shares on April 3, 2023 in the amount of $653,050 which is being amortized over the vesting period. During the year ended December 31, 2023, the Company had recorded $323,957 of stock-based compensation expense related to the shares issued, which is included in "General and administrative expense" on the accompanying consolidated statements of operations and comprehensive loss. As of December 31, 2023, the unamortized stock-based compensation for the 185,000 shares of common stock was $329,093, which will be amortized through October 2, 2024. On June 15, 2023, the Company issued 99,710 shares of common stock related to the acquisition of the customer base of Bikas. The 1,935,484 warrants expire on January 1, 2029. The common stock and warrants were sold together at the unit price of $2.75 per share, raised gross proceeds of approximately $5,250,000, and incurred financing fees of approximately $443,000. The Company issued 2,116,936 shares of common stock which were recorded in the amount of $4,807,038 on the Company's consolidated statements of changes in stockholders' equity and mezzanine equity. The July 20, 2023 Securities Purchase Agreement triggered a downround provision for 782,610 previously issued warrants. The Company recorded a deemed dividend in the amount of $15,385, which was calculated using the Black-Scholes option pricing model with the following assumptions: a) exercise prices of $11.50 before repricing and $2.75 after repricing, b) common stock fair value of $1.89, c) volatility of 253.1% before repricing and 234.7% after repricing, d) discount rate of 4.26% before repricing and 4.03% after repricing, e) terms of 4.42 years before repricing and 5.51 years after repricing and f) dividend rate of 0%. On October 9, 2023, the Company issued 280,000 shares for the acquisition of Cloudscreen. The fair value of these shares at the acquisition date was $319,200, which was included in the purchase price. On October 24, 2023, the Company issued 51,485 shares of common stock priced at $1.01, which is the fair market value of our stock on the date of the agreement, to George Terzis, the CFO of the Company, in exchange for $52,000 of debt. The debt related to unpaid salaries and bonuses, the Company had due to Mr. Terzis, as of December 31, 2023. This amount was recorded as equity. On November 21, 2023, the Company issued 970,000, in the aggregate, shares of common stock to multiple parties for services rendered. The fair value of these shares was $77,448, which was recorded as general and administrative expense. They were treated as Nonemployee share-based payment equity awards and measured at the grant-date fair value of the equity instruments, similar to employee share-based payment equity awards. On December 29, 2023, the Company issued 125,294 shares of common stock related to the acquisition of the customer base of Bikas. The fair value of these shares was $176,665, which was included in the purchase price. Realization of the future tax benefits is dependent on the Company's ability to generate sufficient taxable income within the carryforward period. Because of the Company's history of domestic operating losses, management believes that recognition of the deferred tax assets arising from the above-mentioned future tax benefits is currently not likely to be realized and, accordingly, has provided a valuation allowance, on all our deferred tax asset. Management considered all available evidence to when evaluating the realizability of foreign deferred tax assets by jurisdiction and concluded primarily based upon a strong earnings history that these deferred tax assets were more-likely-than-not realizable.</p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;">The Company applied the "more-likely-than-not" recognition threshold to all tax positions taken or expected to be taken in a tax return, which resulted in no unrecognized tax benefits as of December 31, 2023 and December 31, 2022, respectively. During the years ended December 31, 2023 and 2022, the Company had $619,637 and $1,058,780 revenue from Doc Pharma, respectively. Other Agreements On October 10, 2020, the Company entered into a contract manufacturer outsourcing ("CMO") agreement with Doc Pharma whereby Doc Pharma is responsible for the development and manufacturing of pharmaceutical products and nutritional supplements according to the Company's specifications based on strict pharmaceutical standards and good manufacturing practice ("GMP") protocols as the National Organization for Medicines requires. The Company has the exclusive ownership rights for trading and distribution of its own branded nutritional supplements named "Sky Premium Life®". The duration of the agreement is for five years, however, either party may terminate the agreement at any time giving six-month advance notice. Doc Pharma is exclusively responsible for supplying the raw materials and packaging required to manufacture the final product. However, they are not responsible for potential delays that may arise, concerning their import. Doc Pharma is also obligated to store the raw and packaging materials. The delivery of raw and packaging materials should be purchased at least 30 and 25 days, respectively, before the delivery date of the final product. The Manufacturer solely delivers the finished product to the Company. There is a minimum order quantity ("MoQ") of 1,000 pieces per product code. Both parties have agreed that the Company will deposit 60% of the total cost upon agreement and assignment and 40% of the total cost including VAT charge upon the delivery date. The prices are indicative and are subject to amendments if the cost of the raw material or the production cost change. For the years ended December 31, 2023 and 2022, the Company has purchased €1,144,043 ($1,237,467) and €1,653,911 ($1,742,282), respectively, in inventory related to this agreement. On May 17, 2021, Doc Pharma and the Company entered into a Research and Development ("R&D") agreement whereby Doc Pharma will be responsible for the research, development, design, registration, copy rights and licenses of 250 nutritional supplements for the final products called Sky Premium Life®. These products will be sold in Greece and abroad. The total cost of this project will be €1,425,000 plus VAT and will be done over three phases as follows: Design & Development (€725,000); Control and Product Manufacturing (€250,000) and Clinical Study and Research (€450,000). SkyPharm has bought a total of as of 81 licenses at value of €554,500 ($593,204) which is 38.91% of the total cost, as of December 31, 2022. During the year ended December 31, 2023, 24 additional licenses were purchased at value of €475,014 ($525,461). The agreement will terminate on December 31, 2025. Purchase of branded

pharmaceuticals On June 28, 2023, the Company approved the purchase of five proprietary and innovative branded pharmaceuticals with significant market presence and material profit contribution from Zakalia Ltd., the parent company of Doc Pharma, for €1,800,000 ($1,965,600). The transaction was settled on a non-cash basis through the reduction, of an equivalent amount, of prepaid expense balances the Company held with Doc Pharma. The purchased branded pharmaceuticals are presented in "Goodwill and intangible assets, net" on the accompanying consolidated balance sheets. On December 29, 2023, the Company approved the purchase of additional 19 licenses from Doc Pharma, of a total value of €3,200,000 ($3,539,840). This transaction was also settled on a non-cash basis through the reduction, of an equivalent amount, of prepaid expense balances the Company held with Doc Pharma. Loans receivable - related party The balance of prepaid expenses due Doc Pharma as of December 31, 2022, had increased to €7,103,706 ($7,599,545), which was mainly attributable to the prepayments SkyPharm S.A. made in accordance with the CMO agreement and the extensive orders and sales of the SPL products the Company expects to achieve within 2023, mainly through its Amazon channels in the UK, Singapore, Canada and other countries. However, as the benefit from a significant portion of the prepaid balance would not have been realized within a 12-month period, the Company opted to secure a portion of the outstanding prepaid balance through a loan agreement. SkyPharm S.A. (the "Lender") entered into a loan agreement with Doc Pharma (the "Borrower") for €4,000,000 ($4,279,200), all of which was financed through the outstanding prepaid balance. The duration of the loan is for a 10-year period up to December 1, 2032 (the "Maturity Date"). The loan bears a fixed interest rate of 5.5% payable on a monthly basis and will be repayable in 120 equal instalments of €33,333.33 ($35,660). The loan may be prepaid anytime during its duration in full or partially based on the Company's product requirements and other factors, without Doc Pharma incurring any prepayment penalty. As of December 31, 2023 and December 31, 2022, the loan had a current portion of €400,000 ($442,480) and €400,000 ($427,720), and a non-current portion of €3,200,000 ($3,539,840), and €3,600,000 ($3,851,280), respectively, which is classified as "Loans receivable – related party" on the accompanying consolidated balance sheets. During the year ended December 31, 2023, the Company received €400,000 ($442,480) in principal repayments, and €209,917 ($232,210) of interest repayments. Additionally, during the year ended December 31, 2023, the Company recorded €201,057 ($217,476) as interest income relating to this loan. Cana Laboratories Holding Limited Cana was considered a related party as the Company had signed a binding letter of intent and an SPA for the acquisition of Cana. The acquisition was completed on June 30, 2023 according to the SPA signed on May 31, 2023. Thus, all balances between the Company and Cana were eliminated upon consolidation as of December 31, 2023. The Secured Promissory Note discussed below was included in consideration transferred upon acquisition. Loans receivable - Related Party - Long Term On February 28,2023 (Issue Date) the Company signed a Secured Promissory Note with Cana Laboratories Holding (Cyprus) Limited (the "Holder"), whereby the Holder borrowed the sum of €4,100,000 ($4,457,520) from the Company. Interest on the Principal Amount under this Note shall accrue at a rate equal to Five Percent (5%) plus one month LIBOR per annum (5.47% as of December 31, 2023). The maturity date ("Maturity Date") of this Note shall be five years from the Issue Date. The Principal Amount, as well as all accrued interest shall be due and payable on the Maturity Date. During the six months ended June 30, 2023, the Company recorded interest income of €137,138 ($148,789). Following, the completion of Cana's acquisition on June 30, 2023 the balance of the Note was eliminated on a consolidated level. Panagiotis Kozaris Panagiotis Kozaris is considered a related party due to the fact that he is a former General operational manager and current employee of Cosmofarm S.A. Prepaid Expenses and Other Current Assets - Related Party From time-to-time the Company purchases back shares that Panagiotis Kozaris owns and records them as treasury shares. The Company pays Panagiotis Kozaris in advance for the shares owned and obtains the shares upon execution of a cumulative stock-purchase agreement ("SPA"). During the years ended December 31, 2023 and 2022, the Company paid Panagiotis Kozaris an additional sum of $51,159 and $143,056 respectively for shares owned, however, no SPA for these funds has been executed as of December 31, 2023. The Company intends to execute a cumulative SPA for these amounts during 2024. The total balances owed of $194,215 and $143,056 are included in "Prepaid expenses and other current assets - related party", on the accompanying consolidated balance sheets as of December 31, 2023 and 2022, respectively. Basotho Investment Limited Basotho Investment Limited is considered a related party once Panagiotis Kozaris (former General operational manager and current employee of Cosmofarm S.A) is one of its directors. General and administrative expenses On November 21, 2023, the Company issued 120,000 shares of common stock to Basotho Investment Limited for services rendered. The fair value of these shares for the period ended December 31, 2023 was $10,300, which was recorded as general and administrative expense. Maria Kozari Maria Kozari is considered a related party to the Company due to the fact that she is the daughter of Panagiotis Kozaris, a former Operational General Manager and current employee of Cosmofarm S.A. Accounts Receivable - Related Party During 2021, the Company, through its subsidiary, Cosmofarm SA, commenced a partnership with a pharmacy called "Pharmacy & More", owned by Maria Kozari. The transactions with the respective pharmacy were in Cosmofarm's normal course of business, however, a more flexible credit policy was allowed as the pharmacy was new and needed to be established in the market. During the years ended December 31, 2023 and 2022 the Company's net sales to Pharmacy & More amounted to $480,029 and $463,467 respectively. As of December 31, 2023 and 2022 the Company's outstanding receivable balance due from the pharmacy amounted to $1,142,402 (€1,032,726) and $760,025 (€710,436), respectively, and are included in "Accounts receivable - related party", on the accompanying consolidated balance sheets. The Company plans to acquire Pharmacy & More within fiscal year 2024. Upon acquisition, the Company intends to offset the outstanding receivable balance with the corresponding purchase price and additionally plans to make Pharmacy & More the first shop-in-shop of its own branded line of nutraceutical products, Sky Premium Life® (SPL). Other Related Parties Additionally, the Company has the following balances as of December 31, 2023: a) a balance of $98,000 relating to unpaid salaries and bonuses due to George Terzis, the CFO of the Company, classified as "Accounts payable and accrued expenses - related party" in the Company's consolidated balance sheets, b) a net payable balance of $85,332 due to Konstantinos Gaston Kanaroglou, former manager and current employee of the Company's wholly owned subsidiary Cana, classified as "Accounts receivable" in the Company's consolidated balance sheets.</p><p style="FONT-SIZE: 10pt; The Company issued the $540,000 Note in exchange for $500,000 in cash and included a $40,000 Original Issue Discount ("OID") and paid $3,000 in financing costs. The principal amount together with interest at the rate of eight percent (8.0%) per annum, compounded annually (the "Interest Rate"), will be paid to the Lenders on or before the Maturity Date (December 31, 2021 or as defined below). Accrued interest shall be calculated on the basis of a 360-day year for the actual number of days elapsed. In the event that on or before the Maturity Date, the Note either (i) had not been converted or have not been otherwise satisfied in full or (ii) an Event of Default (as defined in the SPA) occurs, then the applicable rate of interest on the outstanding amount of the Note since inception shall be the Interest Rate plus eighteen percent (18.0%), the Default Interest. Unless previously converted, the principal and accrued interest on the Note is due and payable in cash (USD) upon the earlier of (i) December 31, 2021, (ii) a Change of Control (as defined in the SPA) or (iii), an Event of Default (collectively, the "Maturity Date"). On May 1, 2022, the Company issued 1,574 shares of common stock to convert the outstanding principal and accrued interest balance of $26,515. Following the conversion, the outstanding balance of the above Note is $0. Upon conversion, the 1,574 shares were issued at a fair value of $38,144 which was recorded as equity. Accordingly, upon conversion, the Company reduced its derivative liability by $11,629 (see Note 7). The Company determined that the embedded conversion feature of the convertible promissory note meets the definition of a derivative liability which is accounted for separately. The Company determined a derivative liability exists and determined that the embedded derivative was valued at $456,570 which was recorded as a debt discount, and together with the original issue discount and transaction expenses of $43,000, in the aggregate of $499,570, is being amortized over the life of the loan. As of December 31, 2022 the full amount of the debt discount has been amortized. Therefore, as of December 31, 2023 and 2022, the fair value of the derivative liability was $0 and $0, respectively. For the years ended December 31, 2023 and 2022, the Company recorded a loss on the change in fair value of the derivative of $0 and a loss of $5,807, respectively. January 7, 2021 Subscription Agreement On January 7, 2021 (the "Issue Date"), the Company entered into a subscription agreement with an unaffiliated third party, whereby the Company issued for a purchase price of $100,000 in principal amount, a convertible promissory note. The note bore an interest rate of 8% per annum and originally matured on the earlier of (i) consummation of the Company listing its common shares on the NEO Stock Exchange or (ii) October 31, 2021. However, the listing to NEO Stock Exchange did not occur. As of December 31, 2022, the Company had a principal balance of $100,000 and had accrued $13,740 in interest expense. During the year ended December 31, 2023, the Company paid the balance in full. The Company determined that the embedded conversion feature of the convertible promissory note meets the definition of a derivative liability which is accounted for separately. The Company measured the embedded derivative valued at $62,619 which was recorded as a debt discount and additional paid-in capital and was being amortized over the life of the loan. As of December 31, 2022, the debt discount had been fully amortized. As of December 31, 2023 and 2022, the fair value of the derivative liability was $0 and $54,293, respectively. For the years ended December 31, 2023 and 2022, the Company recorded a loss of $3,384 and $14,450, respectively, from the change in fair value of derivative liability, which is included in "Other expense, net" in the consolidated statements of operations and comprehensive loss. The Company considered both the note payable and conversion feature separately and upon settlement. The Company re-valued the conversion feature to fair value and applied extinguishment accounting as the debt has now been settled. Because the conversion feature is extinguished upon settling the note, the value of the conversion feature goes though debt extinguishment and the Company recorded a gain on settlement of debt, which totaled $50,909 for the year ended December 31, 2023. Convertible Promissory Note and Securities Purchase Agreement On September 17, 2021 (the "Issue Date"), the Company entered into a convertible promissory note and securities purchase agreement with an unaffiliated third party. Convertible Promissory Note The Company issued the convertible promissory note for a purchase price of $525,000 in principal amount for cash proceeds of $500,000. The note was issued with an original issue discount ("OID") of $25,000, bears an interest rate of 10% per annum and matures on the earlier of (i) the consummation of the Company listing its common shares on the Nasdaq Stock Market or (ii) September 17, 2022. Upon the consummation of our Nasdaq listing in 2022, the total principal and accrued interest outstanding on the note would convert into shares of the Company's common stock at a 30% discount to the prices of the common shares sold in the financing to be conducted in conjunction with our Nasdaq listing, subject to a conversion floor of $75.00. However, the Company, upon agreement with the third party, did not convert the note and fully repaid it in cash on October 21, 2022. As of December 31, 2022, the Company repaid the remaining outstanding balance of the note and thus its outstanding balance as of the end of the period was $0. For the years ended December 31, 2023 and 2022, the Company recorded amortization of debt discount in the amount of $0 and $18,185, respectively, which is included in "Non-cash interest expense" on the accompanying statements of operations and comprehensive loss. Securities Purchase Agreement On September 17, 2021, the Company entered into a Securities Purchase Agreement (the "SPA") with a third party whereby the Company agree to issue 5,000,000 shares of Series A Preferred Stock at a purchase price of $1.00 per share or $5,000,000 in the aggregate, and a Warrant (the "Warrant") to purchase 100% of the number of shares of the Company's Common Stock issuable upon conversion of the Series A Preferred Stock. The Series A Preferred Stock will be convertible into the Company's Common Stock as determined by multiplying the number of shares of Series A Preferred Stock to be converted by the lower of (i) $100.00 or (ii) 80% of the average volume weighted average price for the Company's Common Stock for the five days prior to the date of Uplisting, subject to a floor of $75.00 per share. The shares of common stock issuable upon conversion of Series A Preferred Stock and exercise of the Warrants are subject to a Registration Right Agreement. The Warrant has an exercise price equal to 110% of the Conversion Price of the Series A Preferred Stock and expires five years from the date of issuance.</p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;"> </p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;">The SPA is subject to certain conditions to close. Upon issuance of the 9,520 shares of common stock, the Company recorded a gain on extinguishment of debt in the amount of $216,580 determined using the fair value of the Company's common stock at the commitment date of $102.25 per share. </td></tr></tbody></table> The principal debt balance was paid in full during the year ended December 31, 2022. As of December 31, 2023 and 2022, the outstanding principal balance on the debt was $0, and it had accrued interest expense of $0 and $12,853, respectively. The debt is subject to acceleration in an Event of Default (as defined in the Notes). This agreement is secured by a personal guaranty of Grigorios Siokas, which is secured by a pledge of 40,000 shares of common stock of the Company owned by Mr. Siokas. During the year ended December 31, 2022, the maturity of the facility was informally extended to December 31, 2022. The Company reassessed and adjusted accordingly the accretion of the debt extinguishment effect described above. Trade Facility Agreements On May 12, 2017, SkyPharm entered into a Trade Finance Facility Agreement (the "TFF") with Synthesis Structured Commodity

Trade Finance Limited (the "Lender" or "Synthesis") as amended on November 16, 2017, and May 16, 2018. On October 17, 2018, the Company entered into a further amended agreement with Synthesis whereby the current balance on the TFF as of October 1, 2018, which was €4,866,910 ($5,629,555) and related accrued interest of €453,094 ($524,094) would be split into two principal balances of Euro €2,000,000 ($2,316,000), (the "EURO Loan") and USD $4,000,000 (the "USD Loan"). Interest on both the EURO Loan and USD Loan commenced on October 1, 2018, at 6% per annum plus one-month Euribor (3.90% as of December 31, 2023), and 6% plus one-month LIBOR (fully paid as of December 31, 2023), respectively. On December 30, 2020, the Company transferred the EURO Loan to a new third-party lender. The terms remained the same except interest accrues at 5.5% per annum plus one-month Euribor (3.87% as of December 31, 2023). The principal was scheduled to be repaid in a total of five quarterly installments beginning October 31, 2021 of €50,000 ($54,600) each with a final repayment of €1,800,000 ($1,965,600) Euro payable on October 31, 2022. On March 3, 2022, the Company entered into a modification agreement to extend the maturity date to January 10, 2023 and payments under the USD Loan. During June 2022, the Company agreed with the Lender to postpone the repayment of an installment of $500,000 due on June 30, 2022 (based on the modification agreement signed on March 3, 2022) until January 2023. During September 2022, the Company entered into an agreement with the Lender to postpone the repayment of the outstanding balance on the USD Loan of $3,950,000, plus unpaid accrued interest until January 2023. The Company capitalized fees paid upon modification of €200,000 ($221,060) that are being amortized over the life of the loan. The Company incurred non-cash interest expense of $200,000 during the year ended December 31, 2022 concerning the above capitalized fees. During the year ended December 31, 2022, the Company repaid €175,000 ($191,100) of the EURO Loan and $2,593,363 of the USD Loan such that as of December 31, 2022, the Company had principal balances of €1,775,000 ($1,898,895) and $1,406,637 under the agreements, respectively. As of December 31, 2022, the Company had accrued $4,878 in interest expense related to these agreements. On December 21, 2022 the USD Loan was assigned to GIB Fund Solutions ICAV (the "Fund"). The Company's Greek subsidiaries have $2,430,517 in settled tax liabilities payable to the tax authorities in installments and $1,046,507 in payroll tax related current liabilities. Moreover, we have recorded a provision relating to the unaudited tax years of our subsidiary SkyPharm SA, of $591,547 and a provision for staff leaving compensation, based on the corresponding actuarial reports, of $408,665. Additionally, we have received prepayments from our customers of $207,204, included in "Other current liabilities" as of December 31, 2023. We classify the liabilities payable within the 12 months following the balance sheet date in "Other current liabilities" and the remaining balance is included in "Other Liabilities". 24305171046507591547408665207204 NOTE 15 – COMMITMENTS AND CONTINGENCIES Legal Matters From time to time, the Company may be involved in litigation relating to claims arising out of the Company's operations in the normal course of business. As of December 31, 2023, the following litigations were pending. None of the below is expected to have a material financial or operational impact. Solgar Inc., a competitor of the Company, sued SkyPharm for product homogeneity regarding the nutraceutical line "Sky Premium Life". As a result, Solgar requested the prohibition for SkyPharm to manufacture, import and sell, market or in any way possess and distribute, including internet sales and advertise in any way in the Greek market of "Sky Premium Life" due to homogeneity with Solgar's products. Solgar Inc. has further requested to be awarded compensation for non-pecuniary damage amounting to €20,000 ($21,744). The case was heard on January 28, 2022, and the decision numbered 8842/2022 of the court of Thessaloniki was issued, which, accepted our claims and dismissed the Solgar Inc.'s lawsuit. On July 22, 2015, the National Medicines Agency approved the license of wholesale sale of pharmaceutical products under the name SkyPharm SA with set validity at five years and an expiration date of July 22, 2020. Subsequently, SkyPharm on June 15, 2020, legally and timely submitted the application for renewal of the wholesale license of pharmaceutical products to the National Medicines Agency. The National Medicines Agency did not respond, therefore the Company asked for an immediate decision on the renewal. Two months after the filing of the no. 3459 / 15.01.2021 letter and almost nine months after the no. 627615.06.2020 Company application for the renewal, the National Medicines Agency replied by rejecting the renewal request on March 9, 2021 (ref. 62769 / 20-25.02.2021). In addition, document No. 127351-16.12.2021 of EOF (Greek National Medicines Organization) to SkyPharm states that after an inspection of EOF at the premises of Doc Pharma, we did not have a wholesale license in violation of article 106 par. 1b and par. 1c of the ministerial decision D.YG3a / GP.32221 / 29-4-2019. The National Medicines Agency imposed a fine of €15,000 ($16,214) on SkyPharm for the above case, which was included in "General and administrative" expense on the accompany statement of operations and comprehensive loss for the 12-month period ended December 31, 2023. There has been a payment request by the Greek court, which relates to a fine arising from Cosmofarm's tax audit for financial year 2014. The law with no. 483/16.12.2020 was used by the court against Cosmofarm (the "defendant"). The defendant appealed against the decision using the law with no.11541/09.03.2021. This appeal was dismissed after 120 days from its submission to the court. Additionally, there had been an obligation for payment of additional tax and fines related to this matter in the amount of €91,652 ($99,644), which the defendant has already settled. However, the defendant has claimed back the respective amount through appeal. As of December 31, 2023, the trial is still pending. On January 25, 2023, a criminal case of dishonored checks against Cosmofarm's customer Filippou, was heard at the Z' Three-Member Misdemeanor Court of Athens, which was postponed to November 27, 2023, when the defendant was tried and found guilty. On January 26, 2023, the appeal of the Company against Eleutheria Drakopoulou and decision 1389/2021of the Single-Member Court of First Instance of Athens was heard at the Athens Court of Appeal. The appeal was partially accepted. The Court ordered the return of the fee to the appellants, dismissed the action against the third defendant, Kozaris and accepted the action as regards the first and the second defendants (Kastrantas & Cosmofarm). <p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN:

0px; text-align:justify;">On October 23, 2023, a criminal case of dishonored check against Cosmofarm's customer Kafantaris was heard at the Sixth Single-Member Misdemeanor Court of Athens, which was postponed to January 26, 2024, when the defendant was convicted by decision no. 1599/2024. In October 2023, the Company's subsidiary, Cana Laboratories Holding (Cyprus) Limited ("Cana") was approached by an attorney at law on behalf of two clients which were requesting an amount of €39,211 as compensation for the value of 34.70 square meters in relation to an urban sprawl with respect to which an Act of Imputation had been issued by the department of Urban Planning. Our legal counsel's response was that Cana was not obliged to accept the compensatory value agreed and suggested exploring out of court settlement. As of today, the clients' Attorney at law has not come back with any suggestions. Our subsidiary, Cana, has two pending lawsuits against Euaggelismos Hospital for a total sum of EUR 526,436 due to unpaid bills. The court date for one of the two lawsuits is set for December 11, 2024, and for the other one has not yet been set. The opinion of our legal advisor is that the collection of the total sum by the Company is almost certain. Our subsidiary, Cana, has an unasserted claim against Papanikolaou Hospital for a total sum of EUR 89,300 due to unpaid bills, which will be asserted through a lawsuit. The opinion of our legal advisor is that the collection of the sum by the Company is almost certain. A lawsuit dated on April 5, 2018 against the Company's subsidiary Cana by a former employee before the Athens court of instance was initially heard on October 12, 2018. The former employee was seeking that the termination of her employment contract to be considered null and void and was requesting compensation for late wages and moral damages. Following, numerous appeals the Judgment No. 1192/2024 was issued on September 26, 2023, which as explicitly stated by our legal counsel, requires Cana to rehire the former employee with the threat of a penalty of €200 for each day of non-compliance. As informed by our legal counsel, in order for the penalty to be effective the former employee should file a new lawsuit against Cana and request to get rehired. In case Cana denies the employment, then the penalty should be in effect. As of today, we have not received neither a lawsuit nor any request of employment by the former employee. Advisory Agreements On July 1, 2021, the Company entered into a two-year advisory agreement with a third party (the "Consultant") for advisory and consulting services related to the Company's intention to become listed on Nasdaq. Peter Goldstein, a then director of the Company is a principal of the Consultant. As consideration for services rendered, and successful Nasdaq listing, the Company paid $100,000. The $100,000 bonus was incurred and settled within 2022. Finally, the Consultant received a total of 10,000 shares of the Company's common stock, 2,000 of such shares that have been previously issued pursuant to previous agreements and additional 15,258 shares that were issued on February 2, 2023, based on the amendment signed on February 1, 2023. On November 21, 2023, the Company entered into certain consulting agreements with four third-party consultants for the provision of a variety of services such as digital marketing, advisory services relating to target acquisitions and M&As and other additional services as described in the respective agreements. The agreements have duration from ten to 18 months and the consultants will solely receive stock consideration for the services rendered. More precisely, they have been awarded a total of 970,000 shares of the Company's common stock valued at a total of $999,100 based on the fair value of the Company's common stock as of the agreements' date. The corresponding consulting expense is accrued evenly over the term of the agreements. For the 12-month period ended December 31, 2023 the Company has recorded $77,250 as stocked based compensation for the above agreements, classified as "General and administrative expenses" in the Company's consolidated statements of operations and comprehensive loss. Research and Development Agreements The Company entered into a Research & Development agreement with Doc Pharma S.A. on May 17, 2021. Under this agreement, Doc Pharma is responsible for the research, development, design, registration, copy rights and licenses of 250 nutritional supplements for the final products called Sky Premium Life®. More specifically, Doc Pharma is responsible for the product development and the Company has added 105 of such products codes in its portfolio as of December 31, 2023. The licenses purchased by Doc Pharma SA are capitalized and included in "Goodwill and intangible assets, net" of the Company's Consolidated Balance Sheets as of December 31, 2023. Thus, no relevant R&D expense had been charged to the Company's Consolidated Statements of Operations and Comprehensive Loss. On June 26, 2022, the Company signed a research and development ("R&D") agreement with a third party, through which the Company assigns to the third party the development of new products and services in the field of health, focusing on the human intestinal microbiome. The project includes two phases. Phase 1 has a 20-month duration and its cost amounts to EUR 758,000 ($838,450) and phase 2, has a 22-month duration and a cost of EUR 820,000 ($907,084). The amount will be due and payable upon completion of the corresponding phases. The Company records the corresponding R&D expense based on the project's progress, which is invoiced by the third party in the relevant period. For the 12-month period ended December 31, 2023, the Company has incurred $164,859 of such costs included in "General and administrative expenses" in the Company's Consolidated Statements of Operations and Comprehensive Loss.</p>2174416214996447725016485 9<p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;">NOTE 16 – EARNINGS PER SHARE</p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;"> </p><p style="FONT-SIZE: 10pt; FONT-FAMILY: times new roman; MARGIN: 0px; text-align:justify;">Basic net loss per share is computed by dividing net loss attributable to the common stockholders, decreased with respect to net income or increased with respect to net loss by dividends declared on preferred stock by using the weighted-average number of common shares outstanding. The 2022 Plan is designed to enable the flexibility to grant equity awards to the Company's officers, employees, non-employee directors and consultants and to ensure that it can continue to grant equity awards to eligible recipients at levels determined to be appropriate by the Board and/or the Compensation Committee. According to the Proxy Statement filed with the SEC on October 20, 2022, the 2022 Plan received final approval by the Company's stockholders at the Annual Meeting of Stockholders held on December 2, 2022. On April 3, 2023, the Company approved incentive stock awards for the CFO, certain officers and directors and other employees of the Company. The awards are in the form of restricted stock and will vest in two parts: 50% on October 2, 2023 and 50% on October 2, 2024. A total of 185,000 shares were awarded and a corresponding share-based compensation expense of $323,957 was recorded for the 12 months ended December 31, 2023, respectively, based on the amortization of fair value from the date of issuance of April 3, 2023 through December 31, 2023. On August 21, 2023, the Board adopted, subject to stockholder approval, the Cosmos Health Inc. 2023 Omnibus Equity Incentive Plan (the "2023 Plan"). The 2023 Plan is designed to enable the flexibility to grant equity awards to our officers, employees, non-employee directors and consultants and to ensure that we can continue to grant equity awards to eligible recipients at levels determined to be appropriate by the Board and/or the Compensation Committee. Subject to certain adjustments (as provided in Section 4.2 of the 2023 Plan) and exception (as provided in Section 5.6(b) of the 2023 Plan), the maximum number of shares reserved for issuance under the Plan (including incentive share options) is 2,500,000 shares. The 2023 Plan was approved by the Company's stockholders at the Annual Meeting of Stockholders held on September 18, 2023. Warrant Anti-Dilution Adjustment and Deemed Dividend The Company's warrants outstanding contain certain anti-dilution adjustments if the Company issues shares of its common stock at a lower price per share than the applicable exercise price of the underlying warrant. If any such dilutive issuance occurs prior to the exercise of such warrant, the exercise price will be adjusted downward to a price equal to the common stock issuance, and the number of warrants that may be purchase upon exercise is increased proportionately so that the aggregate exercise price payable under the warrant shares shall be the same as the aggregate exercise price in effect immediately prior to such adjustment. On December 21, 2021, the Company issued its common stock upon conversion of its convertible debt at an issuance price of $50.50 per share. As a result, the Company issued additional warrants to the Company's existing warrant holders to purchase 101,343 shares of common stock with an exercise price of $50.50 per share. The new warrants were issued with a weighted average contractual term of 2.04 years. The deemed dividend was recorded as an increase to accumulated deficit and additional paid-in capital and reduced net income available to common shareholders by the same amount. The Company valued (a) the fair value of the warrants immediately before the re-pricing in the amount of $1,915,077, (b) the fair value of the warrants immediately after the re-pricing in the amount of $9,548,110, and (c) recorded the difference as deemed dividend in the amount of $7,633,033. The warrants were valued using the Black-Scholes option pricing model using the following terms: a) fair value of common stock of $93.75, b) exercise prices of $125.00, $150.00 and $187.50 before re-pricing, c) exercise price of $50.50 after re-pricing, d) terms of 1.40 years, 1.97 years, 2.20 years and 2.26 years, e) dividend rate of 0%, and f) risk free interest rate of 0.41%.</p><p style="FONT-SIZE: 10pt; ASC 606-10-55-89 explains that the extent to which an entity's revenue is disaggregated depends on the facts and circumstances that pertain to the entity's contracts with customers and that some entities may need to use more than one type of category to meet the objective for disaggregating revenue. The Company disaggregates revenue by country to depict the nature and economic characteristics affecting revenue. The following table presents our revenue disaggregated by country for the years ended: <table cellpadding="0" style="border-spacing:0;text-align:left;font:10pt times new roman;width:100%"><tbody><tr cutting-edge Artificial Intelligence (AI) powered platform. The acquisition is pursuant to the purchase agreement announced on October 11, 2023. Cloudscreen is a multimodal platform specialized in drug repurposing, a process that involves uncovering new target proteins or indications for existing drugs for use in treating different diseases. The total purchase price amounted to $637,080 and consisted of 280,000 shares of common stock with a fair value of $319,200 and an amount of $317,880 to be settled in cash during 2024 based on the Promissory Note signed on October 10, 2023. The Company accounted for the acquisition as an asset acquisition in accordance with Accounting Standards Codification ("ASC") Topic 805, Business Combinations, ("ASC 805") and recorded $637,080 as an intangible asset related to the technology platform acquired. During the period March 15 to March 21, 2024, the Company raised additional equity funds through a Baby Shelf supplement to its Registration Statement on Form S-3 (No. 333-267550) filed with the SEC on February 29 and March 7, 2024. More specifically, the Company sold 901,488 shares of common stock for gross proceeds of $648,893. Placement agent's fees and other commissions amounted to $23,153 and thus the total net proceeds for the period were $625,740. On April 17, 2024, the Company received a notification letter from the Listing Qualifications Department of The Nasdaq Stock Market LLC ("Nasdaq") stating that, because the Company had not yet filed its Annual Report on Form 10-K for the period ended December 31, 2023, it is no longer in compliance with Nasdaq Listing Rule 5250(c)(1). The Nasdaq letter had no immediate effect on the listing of the Company's shares. The Nasdaq notification letter stated that the Company had 60 calendar days to submit to Nasdaq a plan to regain compliance with the Nasdaq Listing Rules. If a compliance plan is accepted, Nasdaq may grant up to 180 days from the prescribed due date to regain compliance. On May 21, 2024, the Company received an additional delinquency letter from Nasdaq notifying the Company that it continued to be out of compliance with Nasdaq's continued listing requirements set forth in Nasdaq Listing Rule 5250(c)(1) due to the Company's failure to timely file its Form 10-Q for the period ended March 31, 2024, as well as remaining delinquent in filing its Annual Report on Form 10-K for the period ended December 31, 2023. The additional delinquency letter had no immediate effect on the listing of the Company's shares on Nasdaq. On May 31, 2024, the Company provided its compliance plan to Nasdaq, in relation to the filing of its Form 10-K and Form 10-Q for the period ended March 31, 2024. On June 20, 2024, Nasdaq accepted the plan and initially granted the Company a period ending July 29, 2024 to file the delinquent reports. On July 30, 2024, Nasdaq further extended the filing deadline through October 14, 2024. On April 22, 2024, the Company entered into a Rights Agreement by and between the Company and Globex Transfer, LLC, as Rights Agent, which Rights Agreement was previously approved and adopted by the Board of Directors of the Company on November 21, 2023. Pursuant to the Rights Agreement, the Board declared a dividend of one common share purchase right for each outstanding share of common stock, par value $0.001 of the Company. The Rights are distributable to stockholders of record as of the close of business on April 19, 2024. In general, the Rights Agreement works by causing substantial dilution to any person or group that acquires beneficial ownership of twenty percent (20%) or more of the Common Shares without the approval of the Board. On April 26, 2024, the Company dismissed KPMG as the Company's independent registered accountant, effective immediately. The Company's Audit Committee, mindful of certain filing deadlines under the US securities laws, unanimously voted in favor to dismiss KPMG as the Company's independent auditors. KPMG was unable to complete the audit of the Company's financial statements for the year ended December 31, 2023, on a timely basis. The Company's Board of Directors agreed with such recommendation. The Company's opinion was that there were no disagreements with KPMG on any matter of accounting principles or practices, financial statement disclosures, or auditing scope or procedure. In their letter, KPMG has the contrary opinion that there have been disagreements, between KPMG and the Company on the above. The Company objected to such statements made by KPMG and provided a relevant response letter. On April 29, 2024, RBSM LLP ("RBSM") was appointed by the Company's Audit Committee as the Company's independent registered public accounting firm, to audit the Company's consolidated financial statements as of and for the fiscal year ended December 31, 2023, subject to customary client acceptance procedures. On June 27, 2024, the Company signed an exclusive distribution agreement (the "Agreement") with Pharmalink for its Sky Premium Life products in the United Arab Emirates (UAE). As part of the Agreement, Pharmalink will be responsible for all key functions, including sales and marketing, regulatory affairs, logistics, supply, and distribution of Sky Premium Life products in the UAE. Cosmos Health has secured its first purchase order from Pharmalink for 130,000 units and anticipates receiving orders of more than 500,000 units in the first year and in excess of 3,000,000 units over the next five years. On July 19, 2024, the Company received a notification letter from Nasdaq, informing the Company that it has regained compliance with the minimum bid price requirement set forth in Nasdaq Listing Rule 5550(a)(2) (the "Minimum Bid Price Requirement"). To regain compliance with the Minimum Bid Price Requirement, the closing bid of the Company's shares of common stock needed to be at least $1.00 per share for a minimum of ten consecutive business days. The notification letter confirmed that the Company achieved a closing bid price of $1.00 or greater per common share for ten consecutive business days from July 5, 2024 to July 18, 2024, thereby regaining compliance with the Minimum Bid Price Requirement. Accordingly, Nasdaq has determined that this matter is now closed. This cured the delinquency notified by Nasdaq on March 20, 2024 that the Company's common stock had failed to maintain a minimum bid price of $1.00 over the previous 30 consecutive business days as required by the Nasdaq Listing Rules. 2800003192003178806370809014886488932315362574 0Nasdaq further extended the filing deadline through October 14, 20240.001130000500000300000001.00closing bid price of $1.00 or greater per common share for ten consecutive business days from July 5, 2024 to July 18, 2024
