**New York, NY – February 25, 2025** – Super Group (SGHC) Limited (NYSE: SGHC) (“SGHC” or “Super Group”), the parent company of Betway, a leading online sports betting and gaming business, and Spin, the multi-brand online casino, today announced fourth quarter 2024 and full year 2024 unaudited consolidated financial results.

Neal Menashe, Chief Executive Officer of Super Group, commented: “The company made phenomenal progress in 2024, and we are proud of our strong finish to the year and the record-setting performance across the business. In December, we declared a special dividend, bringing our total 2024 shareholder returns to over \$125 million, and going forward, I’m pleased to announce that we plan to increase our minimum quarterly dividend target to 4.0 cents per share up from 2.5 cents, in line with our commitment to continue returning excess cash to our shareholders. As we begin 2025, we are deeply focused on our key growth markets, offering a highly bespoke and localized product, maintaining a lean cost base and having a significant marketing budget ready for the right investment opportunities. We believe that Super Group is in an excellent position to build on last year’s success, and we look forward to another year of solid growth.”

Alinda van Wyk, Chief Financial Officer of Super Group, stated: “We achieved our best results to date, delivering full year ex-U.S. revenue of €1.663 billion and ex-US Adjusted EBITDA of €391 million. In the US, our total investment for the year came in at €61 million, which we expect to reduce considerably in 2025 given our exclusive focus on iGaming. In the fourth quarter, we saw the benefit that operating leverage is having on our financial results, delivering our best ever ex-US quarterly results of Total Revenue of €487 million and Adjusted EBITDA of €129 million, a considerable margin of 26%. We are pleased to see continued momentum into 2025 and anticipate another year of double-digit growth across both Total Revenue and Adjusted EBITDA.”

### Dividend Announcement

The Group is delighted to confirm that annual dividend program targets will be increased from 10.0 cents to a minimum of 16.0 cents cash per share in 2025, with payments made on a quarterly basis, subject to approval of Super Group's Board of Directors, in its discretion, and subject to other potentially advantageous uses of funds. In line with this new target, Super Group's Board of Directors has declared the first dividend of 4.0 cents per share payable on March 28, 2025 to shareholders of record as of the close of business on March 10, 2025.

Additionally included in 2024 is a non-cash charge of €36.8 million (2023: €35.9 million) relating to the impairment of the DGC cash generating unit.
- **Adjusted EBITDA**, a non-GAAP financial measure, was €330.3 million for 2024 compared to €198.2 million in 2023. The measure for 2024 comprised Adjusted EBITDA ex-US of €391.1 million and an Adjusted EBITDA loss of €60.8 million in the US.

### Preliminary Financial Results

The financial results included in this press release are preliminary, have not been audited and are subject to change upon completion of the audit of Super Group's financial statements for the year ended December 31, 2024. As a result, these preliminary results may be different from the actual results that will be reflected in Super Group's consolidated financial statements to be included as part of Super Group's Annual Report on Form 20-F for the year ended December 31, 2024 to be filed with the U.S. Securities and Exchange Commission.

## Non-GAAP Financial Information

This press release includes non-GAAP financial information not presented in accordance with the International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

EBITDA, Adjusted EBITDA, Adjusted EBITDA ex-US, Adjusted EBITDA US and revenue on a constant currency basis are non-GAAP company-specific performance measures that Super Group uses to supplement the Company's results presented in accordance with IFRS. EBITDA is defined as profit before depreciation, amortization, finance income, finance expense and income tax expense. Adjusted EBITDA is EBITDA adjusted for RSU expense, change in fair value of options, unrealized foreign exchange, gain on disposal of business, impairment of assets, US sportsbook closure, market closure and other adjustments. Adjusted EBITDA ex-US is Adjusted EBITDA relating to the rest of the group, excluding Digital Gaming Corporation ("DGC"). Adjusted EBITDA US is Adjusted EBITDA relating to DGC. Constant currency revenue growth is calculated by translating non-Euro performance for 2023 and 2024 using 2023 exchange rates.

Super Group believes that these non-GAAP measures are useful in evaluating the Company's operating performance as they provide additional perspective on the financial performance of our core business, are similar to measures reported by the Company's public competitors and are regularly used by securities analysts, institutional investors and other interested parties in analyzing operating performance and prospects.

Management does not consider these non-GAAP measures in isolation or as an alternative to financial measures determined in accordance with IFRS. The principal limitation of these non-GAAP financial measures is that they exclude significant expenses that are required by IFRS to be recorded in Super Group's financial statements. In order to compensate for these limitations, management presents non-GAAP financial measures together with IFRS results. Non-GAAP measures should be considered in addition to results and guidance prepared in accordance with IFRS, but should not be considered a substitute for, or superior to, IFRS results.

Reconciliation tables of the most comparable IFRS financial measure to the non-GAAP financial measures used in this press release, other than revenue on a constant currency basis, and supplemental materials are included below. Super Group urges investors to review the reconciliation and not to rely on any single financial measure to evaluate its business. In addition, other companies, including companies in our industry, may calculate similarly named non-GAAP measures differently than we do, which limits their usefulness in comparing our financial results with theirs.
