February 2026

# Forward-Looking Statements; Non-GAAP Financial Measures

---

This presentation contains forward-looking statements within the meaning of the U.S. Securities Exchange Act of 1934 and the Securities Act of 1933. The forward-looking statements include statements concerning, among other things, our future business model and strategies, our financial model and structure, market and market share growth, industry trends, customer demand and growth opportunities. In some instances, you can identify these statements by forward-looking words, such as "may," "might," "will," "could," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "intend" and "continue," the negative or plural of these words and other comparable terminology. The target financial model described in this presentation is intended to aid in the evaluation of long-term potential, and is not guidance or a statement of forecasted performance in a specific future period. The forward-looking statements are only predictions based on our current expectations and our projections about future events. All information and forward-looking statements included in this presentation and the related discussions are based upon information available to us as of February 4, 2026. You should not place undue reliance on these forward-looking statements. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from those expressed or implied by these statements, including risks related to technology and market trends; the benefits of acquisitions and investments, including acquisition of manufacturing facility; the interpretation and impacts of changes in export controls and other trade barriers; our success in executing our business strategies and other risks discussed in the section titled "Risk Factors" and elsewhere in our Annual Report on Form 10-K for the year ended December 28, 2024 and in our other filings with the U.S. Securities and Exchange Commission copies of which may be obtained by visiting the Investor Relations section of our website at <http://investors.formfactor.com> or at [www.sec.gov](http://www.sec.gov).

This presentation and related discussions contain non-GAAP measures relating to our financial performance. These measures may be different from non-GAAP financial measures used by other companies. The presentation of this financial information is not intended to be considered in isolation of, or as a substitute for, financial information prepared and presented in accordance with generally accepted accounting principles. You can find the reconciliation of non-GAAP financial measures to the most directly comparable U.S. GAAP measures in the Supplemental Information contained in this presentation.

# Compelling Investment Thesis

Market leader in large and growing semiconductor test and measurement sector

Benefits from powerful secular trends:

- Exponential growth in semiconductor content, increased AI and data center spending
- Adoption of advanced packaging to counter slowdown in Moore's Law

Technology leadership enables customers' most critical roadmap advancements, from R&D through Production

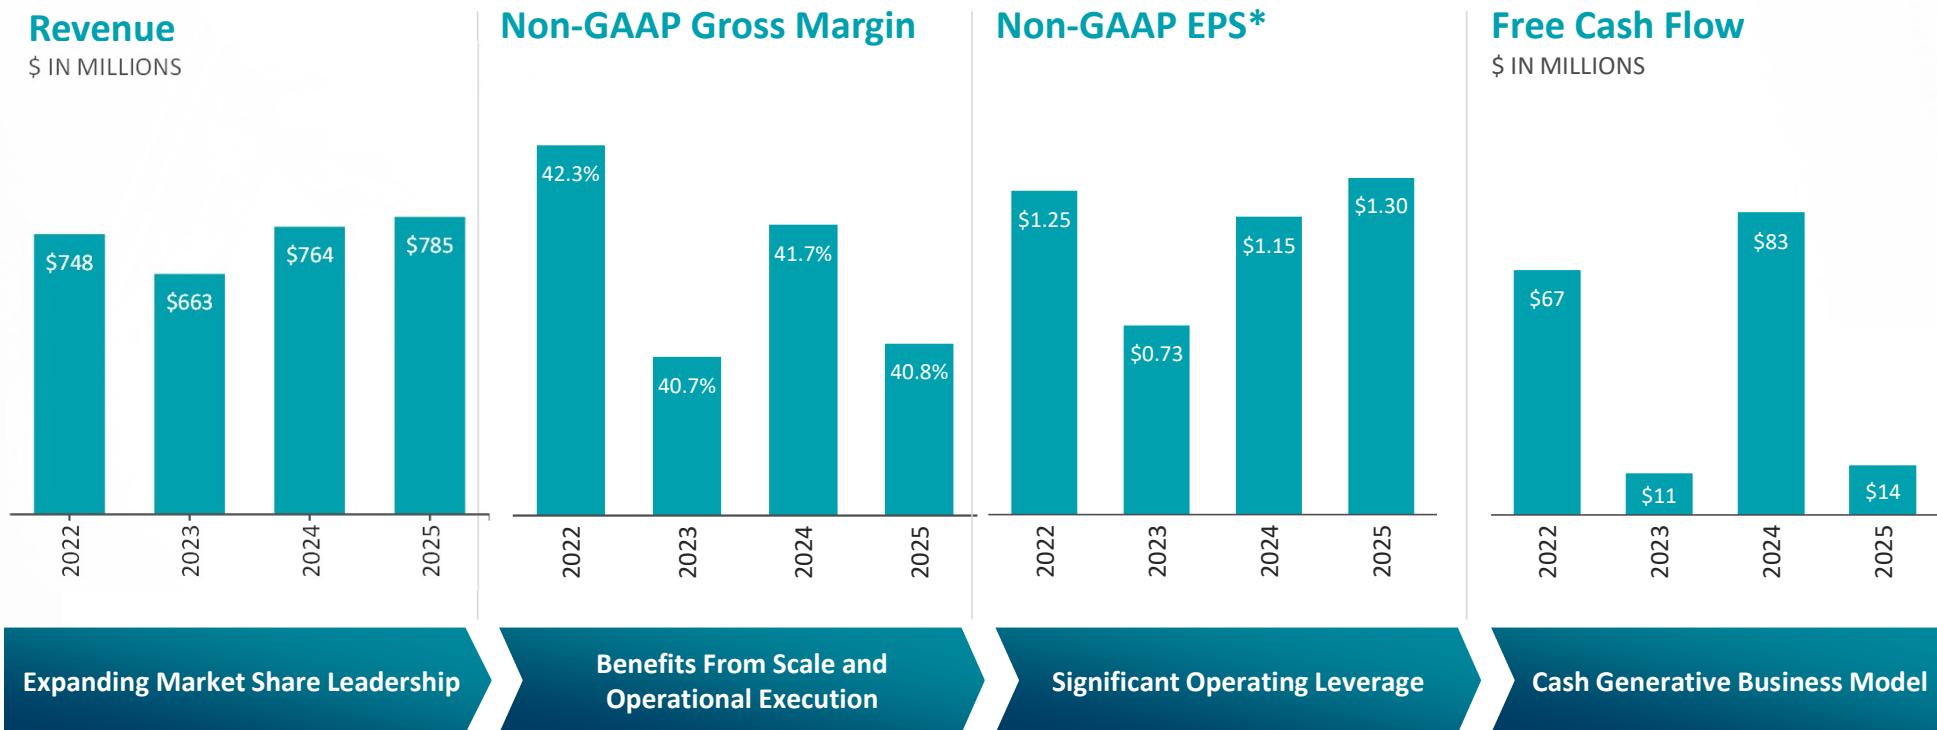

Profitable financial model with earnings growth and strong cash flow

Active execution of acquisition strategy increases scale and diversification

## FormFactor Named #1 Global Supplier in Test Subsystems and Focused Chip Making Equipment

LIVERMORE, Calif., May 27, 2025 (GLOBE NEWSWIRE) – FormFactor, Inc. (NASDAQ: FORM), a leading semiconductor test and measurement supplier, has been named the #1 global supplier in both the Test Subsystems and Focused Chip Making Equipment categories in TechInsights' 2025 global semiconductor industry customer satisfaction survey. The company earned five-star ratings in multiple categories, including:

Global #1 – Test Subsystems

Global #1 – Focused Suppliers of Chip Making Equipment

Global Semiconductor Supplier Award – Top 10 Customer Service (Focused Suppliers of Chip Making Equipment)

Global Semiconductor Supplier Award – Assembly Test Equipment

Each year, TechInsights surveys semiconductor manufacturers worldwide to rate suppliers based on three key criteria: supplier performance, customer service, and product performance. This marks twelve consecutive years that FormFactor has been recognized in the Test Subsystems category, which includes probe cards, test sockets, and device interface boards.

"Customers consistently give FormFactor high rankings for quality and technology leadership," said G. Dan Hutcheson, Vice Chair, TechInsights. "In multiple categories, FormFactor continues to stand out as a Five Star supplier."

Trusted by leading semiconductor designers and foundries

# FormFactor Receives SK hynix Best Partner Award

## FormFactor Receives SK hynix Best Partner Award

LIVERMORE, Calif., Nov. 18, 2024 (GLOBE NEWSWIRE) -- FormFactor, Inc. (NASDAQ: FORM), a leading supplier of electrical test and measurement solutions for the semiconductor industry, announced today that it has been recognized as an outstanding partner by SK hynix, a global leader in DRAM and Flash memory manufacturing. The award honors FormFactor for its significant contributions to SK hynix's growth and competitive strength, driven by technological innovations in probe cards for advanced package test.

As a trusted supplier, FormFactor provides SK hynix with advanced wafer probe cards for high-bandwidth memory (HBM) testing, high-throughput one-touchdown DRAM testing, and engineering probe systems designed for extreme environments, all of which play a key role in supporting the development of next-generation semiconductor devices.

"We are honored to receive the SK hynix Best Partner Award," said FormFactor CEO Mike Slessor. "Our longstanding partnership with SK hynix is built on a shared commitment to advancing semiconductor technology. From labs to production fabs, we've collaborated to deliver high-speed, high-parallelism probe technologies that meet the highest standards of quality and reliability. This recognition reflects our dedication to driving mutual growth through innovation and exceptional performance. We look forward to further strengthening our partnership and supporting SK hynix's continued leadership in semiconductor technology."

Furthermore, partnerships like this propel technological advancements forward. By continuously collaborating on subsequent devices, including the latest high-bandwidth memory innovations such as HBM4, FormFactor continues to push the boundaries of what is possible in semiconductor testing. These collaborative efforts ensure that cutting-edge technology remains at the forefront, driving progress and fostering a cycle of continuous improvement.

The SK hynix awards are presented annually to a select group of suppliers who demonstrate exceptional performance and make meaningful contributions to SK hynix's development and manufacturing goals. FormFactor's recognition underscores its critical role in enhancing SK hynix's testing capabilities and driving innovation in the semiconductor industry.

## FormFactor Recognized for Supplier Excellence in Advanced Semiconductor Test Solutions

# FormFactor Earns Intel's 2024 EPIC Distinguished Supplier Award

## FormFactor Earns Intel's 2024 EPIC Distinguished Supplier Award

LIVERMORE, CA – (Globe Newswire – March 28, 2024) – FormFactor is proud to announce that it has earned Intel's EPIC Distinguished Supplier Award. Through its dedication to Excellence, Partnership, Inclusion, and Continuous (EPIC) quality improvement, FormFactor has achieved a level of performance that consistently exceeds Intel's expectations.

"As one of the 27 Distinguished Supplier Award recipients in 2024, FormFactor stands out among suppliers in Intel's trusted supply chain," said Keyvan Esfarjani, chief global operations officer at Intel. "Through their relentless drive to improve, they have achieved a level of performance that consistently exceeds Intel's expectations and serves as a benchmark across the ecosystem."

The Intel EPIC Distinguished Supplier Award recognizes a consistent level of strong performance across all performance criteria. Of the thousands of Intel suppliers around the world, only a few hundred qualify to participate in the EPIC Supplier Program. The EPIC Distinguished Award is the second-highest honor a supplier can achieve. In 2024, only 27 suppliers in the Intel supply chain network earned this award.

To qualify for an Intel EPIC Distinguished Supplier Award, suppliers must exceed expectations, meet aggressive performance goals, and score 80 percent or higher in performance assessments throughout the year. Suppliers must also meet 80 percent or more of their improvement plan deliverables and demonstrate formidable quality and business systems.

**FormFactor is one of twenty-seven Distinguished Supplier Award recipients in all of Intel's global supply chain**

## How FormFactor Wins

# FormFactor Occupies a Unique Place in Semiconductor Industry

**Industry: \$95 Billion**

- 6% CAGR
- Highly cyclical, tied to capital spending
- Highly consolidated

**Industry: \$2.75 Billion**  
Advanced Probe Cards: \$2.25B; Engineering Systems: \$0.5B

- 8% CAGR for Advanced Probe Cards, device-specific consumables
- 3% CAGR for Engineering Systems, driven by R&D budgets
- Demand driven by design releases on both new and existing nodes
- Moderate cyclicity
- Consolidated industry

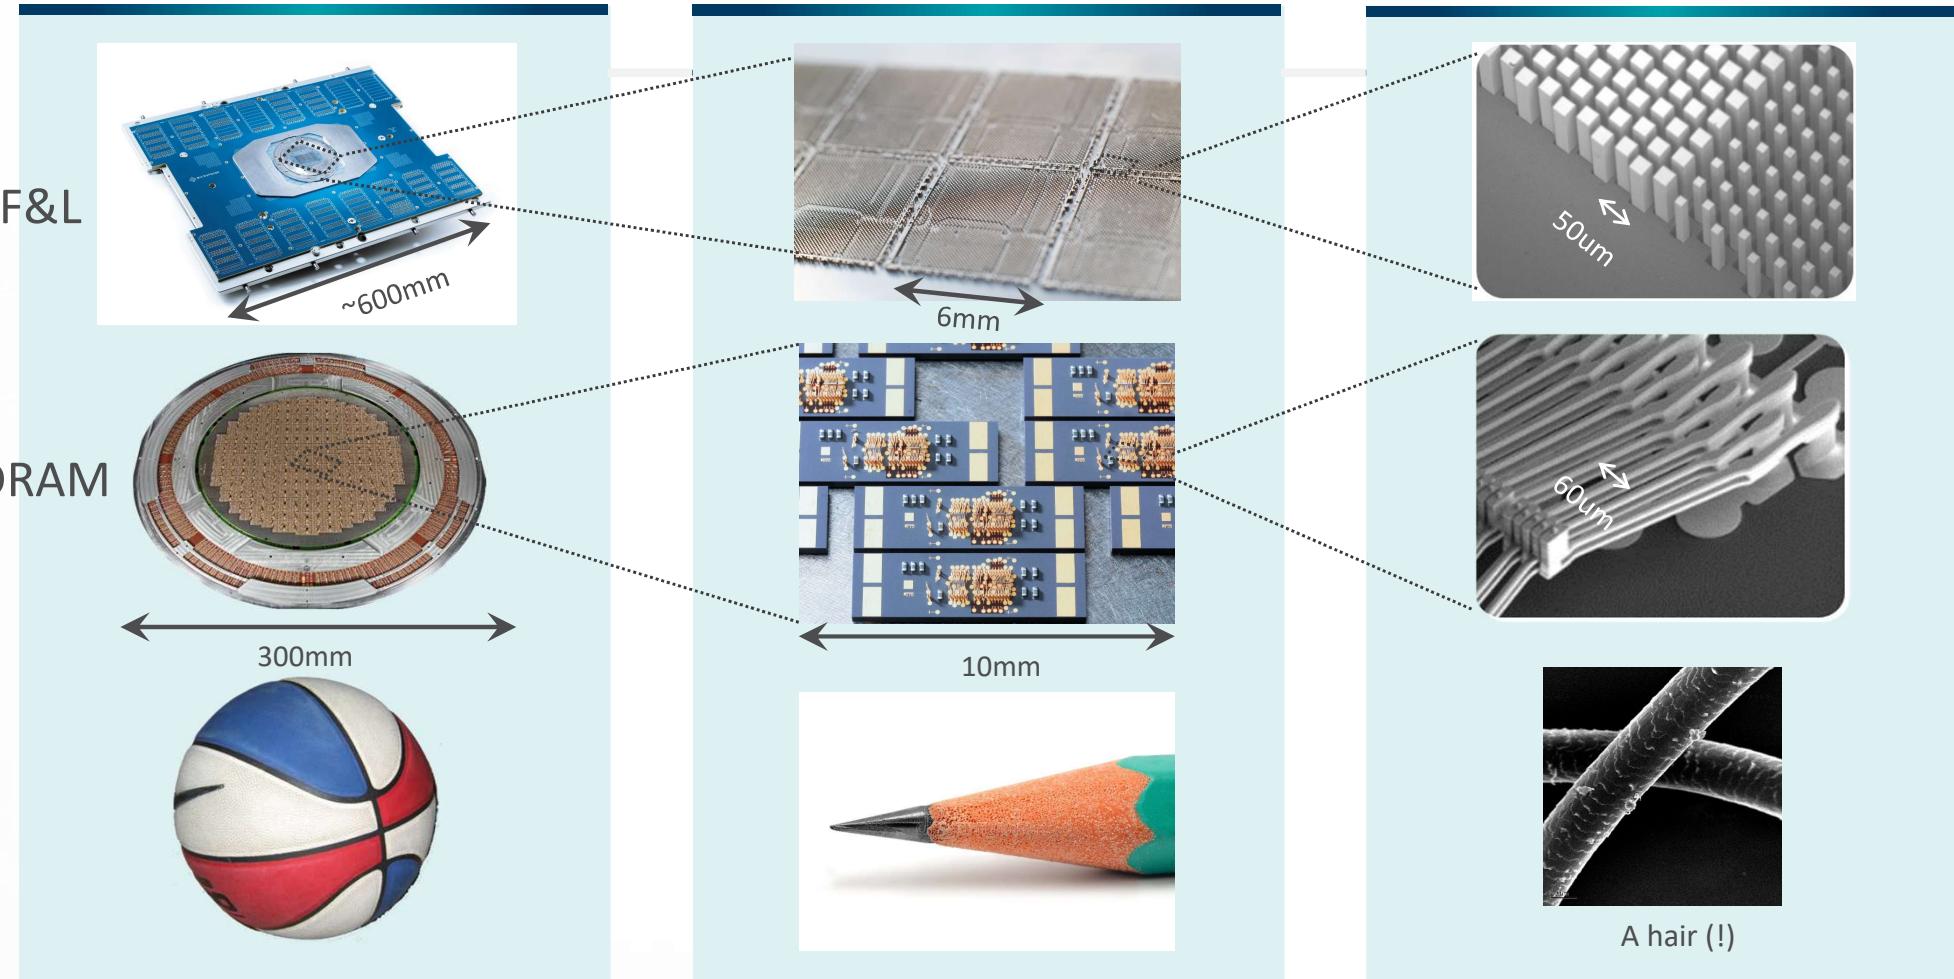

**Industry: \$3.5 Billion**

- 7% CAGR
- Highly cyclical, tied to capital spending
- Highly fragmented

**Customers' shorter product cycles and faster times-to-market amplify secular growth in silicon devices**

Sources: 2024 Data. All market size and growth rates are TechInsights estimates, except for Engineering Systems which are company estimates.

## Probe Cards are the Design-Specific Interface that Connects the ATE to the Wafer

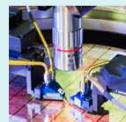

# Customers Value, FormFactor Benefits From “Lab to Fab” Capabilities

**Customers benefit from accelerated path from concept to volume production**

- Saves time and effort, improves yields, shortens time-to-market

## FormFactor Engages Customers Throughout Their Product Life Cycle

R&D/Engineering

High Volume Engineering/  
Niche Production

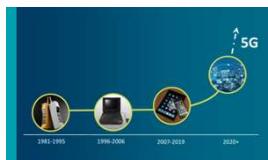

Full Production

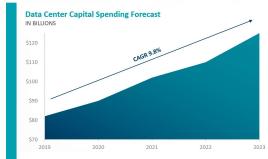

**FormFactor’s unique visibility to emerging trends, e.g. Silicon Photonics, Quantum Computing, Cryogenics, Micro LED, ensures focused R&D spend**

# Advanced Packaging Addresses Scaling Challenges As Moore's Law Slows

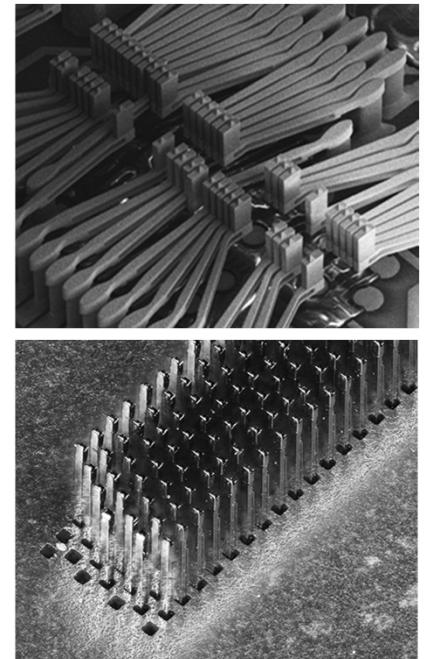

Node shrinks no longer provide cost reduction

Source: Su (AMD), IEDM 2017.  
Note: Cost per yielded mm<sup>2</sup> for a 250 mm<sup>2</sup> die.

# Probe Cards are Critical to Advanced Packaging

		Cost of the Advanced Packaging Solution	
		Low	High
Semiconductor Die Yield	Low	Some	LOTS! FORMFACTOR™
	High	Little	Some

Test intensity, and therefore probe card demand, increases as advanced packaging becomes widespread

# Probe is Moving Into the Spotlight

Investment in probe has been outpacing overall industry growth in recent years

- Over the past 16 years, investment in probe cards (along with many other types of equipment & consumables) has tripled
- Driven by overall semiconductor growth
- Also driven by increased test intensity to avoid assembling bad chips/chiplets
- Especially important with advanced packaging
- Intensity up ~10% to 0.4%

# Highly Resilient Business Model

## Enabled by Flexible Cost Structure

- 100% of employees with variable pay component
- Flexible staffing model

## Strong and Healthy Balance Sheet

- Supported by strong free cash flows
- Added new \$150 million dollars revolving credit facility in July '25
- History of successfully managing debt

## Recent Results (non-GAAP)

	Revenue	Gross Margin	Diluted EPS	Free Cash Flow
<b>Q3'25 ACTUAL</b>	\$202.7M	41.0%	\$0.33	\$19.7M
<b>Q4'25 ACTUAL</b>	\$215.2M	43.9%	\$0.46	\$34.7M
<b>Q1'26 OUTLOOK</b>	\$225M +/- \$5M	45.0% +/- 1.5%	\$0.45 +/- \$0.04	

### Q4'25 and Q1'26 Themes:

- Q4'25 revenue, gross margin, and earnings per share exceeded the high end of our outlook range.
- Q1'25 outlook range reflects strong demand in advanced packaging and high-performance-compute markets, like HBM in DRAM and network switches in Foundry & Logic.

## About Non-GAAP Financial Measures

We believe that the presentation of non-GAAP earnings per fully-diluted share, free cash flow and other non-GAAP measures in this presentation provides supplemental information that is important to understanding financial and business trends and other factors relating to our financial condition and results of operations. These non-GAAP measures are among the primary indicators used by management as a basis for planning and forecasting future periods, and by management and our board of directors to determine whether our operating performance has met certain targets and thresholds. Management uses non-GAAP operating income (loss), non-GAAP earnings per fully-diluted share and other non-GAAP measures when evaluating operating performance because it believes that the exclusion of the items indicated herein, for which the amounts or timing may vary significantly depending upon our activities and other factors, facilitates comparability of our operating performance from period to period. We use free cash flow to conduct and evaluate our business as an additional way of viewing our liquidity that, when viewed with our GAAP results, provides a more complete understanding of factors and trends affecting our cash flows. Many investors also prefer to track free cash flow, as opposed to only GAAP earnings. Free cash flow has limitations due to the fact that it does not represent the residual cash flow available for discretionary expenditures, and therefore it is important to view free cash flow as a complement to our entire consolidated statements of cash flows. We have chosen to provide non-GAAP information to investors so they can analyze our operating results closer to the way that management does, and use this information in their assessment of our business and the valuation of our company. We compute non-GAAP operating income (loss) and non-GAAP fully-diluted earnings per share by adjusting GAAP operating income (loss) and GAAP earnings per fully-diluted share to remove the impact of certain items and the tax effect of those adjustments. These and other non-GAAP measures are not in accordance with, or an alternative to, GAAP and may be materially different from other non-GAAP measures, including similarly titled non-GAAP measures used by other companies. The presentation of this additional information should not be considered in isolation from, as a substitute for, or superior to, operating income (loss) or earnings per fully-diluted share and other measures prepared in accordance with GAAP. Non-GAAP financial measures have limitations in that they do not reflect certain items that may have a material impact upon our reported financial results. We may expect to continue to incur expenses of a nature similar to these non-GAAP adjustments, and exclusion of these items should not be construed as an inference that these costs are unusual, infrequent or non-recurring.

For more information on non-GAAP measures and adjustments, please see the Supplemental Information in this presentation and available at <http://investors.formfactor.com> for reconciliations of non-GAAP financial measures to the most directly comparable GAAP financial measures.
