[Table of Contents](#)**NBT Bancorp Inc. and Subsidiaries****Notes to Unaudited Interim Consolidated Financial Statements****March 31, June 30, 2023****1. Description of Business**

NBT Bancorp Inc. (the "Company") is a registered financial holding company incorporated in the state of Delaware in 1986, with its principal headquarters located in Norwich, New York. The principal assets of the Company consist of all of the outstanding shares of common stock of its subsidiaries, including: NBT Bank, National Association (the "Bank"), NBT Financial Services, Inc. ("NBT Financial"), NBT Holdings, Inc. ("NBT Holdings"), CNBF Capital Trust I, NBT Statutory Trust I, NBT Statutory Trust II, Alliance Financial Capital Trust I

and Alliance Financial Capital Trust II (collectively, the "Trusts"). The Company's principal sources of revenue are the management fees and dividends it receives from the Bank, NBT Financial and NBT Holdings.

The Company's business, primarily conducted through the Bank, consists of providing commercial banking, retail banking and wealth management services primarily to customers in its market area, which includes central and upstate New York, northeastern Pennsylvania, southern New Hampshire, western Massachusetts, Vermont, southern Maine and central Connecticut. The Company has been, and intends to continue to be, a community-oriented financial institution offering a variety of financial services. The Company's business philosophy is to operate as a community bank with local decision-making, providing a broad array of banking and financial services to retail, commercial and municipal customers.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited interim consolidated financial statements include the accounts of NBT Bancorp Inc. and its wholly-owned subsidiaries: the Bank, NBT Financial and NBT Holdings. Collectively, NBT Bancorp Inc. and its subsidiaries are referred to herein as (the "Company"). In the opinion of management, the interim data includes all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results for the interim periods in accordance with generally accepted accounting principles in the United States of America ("GAAP") and in accordance with the instructions to Quarterly Report on Form 10-Q and Article 10 of Regulation S-X as promulgated by the Securities and Exchange Commission ("SEC"). Accordingly, the consolidated financial statements do not include all of the information and notes necessary for complete financial statements in conformity with GAAP. These unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's 2022 Annual Report on Form 10-K. The results of operations for the interim periods are not necessarily indicative of the results that may be expected for the full year or any other interim period. All material intercompany transactions have been eliminated in consolidation. Amounts previously reported in the consolidated financial statements are reclassified whenever necessary to conform to current period presentation. The Company has evaluated subsequent events for potential recognition and/or disclosure and there were none identified.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results may differ from those estimates and such differences could be material to the financial statements.

3. Recent Accounting Pronouncements

Recently Adopted Accounting Standards

In March 2022, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Updates ("ASU") 2022-02, *Financial Instruments - CECL Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures* ("ASU 2022-02"). The ASU eliminates the guidance on Troubled Debt Restructurings ("TDRs") and requires an evaluation on all loan modifications to determine if they result in a new loan or a continuation of the existing loan. The ASU also requires that entities disclose current-period gross charge-offs by year of origination. The elimination of the TDR guidance may be adopted prospectively for loan modifications after adoption or on a modified retrospective basis, which would also apply to loans previously modified, resulting in a cumulative effect adjustment to retained earnings in the period of adoption for changes in the allowance for credit losses. The amendments in this ASU are effective for the Company on January 1, 2023, with early adoption permitted. The Company adopted the ASU on January 1, 2023 ("Day 1") using the modified retrospective method and recorded a net increase to retained earnings of \$0.5 million. The transition adjustment includes a \$0.6 million impact to the allowance for credit losses on loans and a \$0.1 million impact to the deferred tax asset.

The Company does not believe the AFS securities that were in an unrealized loss position as of **March 31, 2023** **June 30, 2023** and December 31, 2022, which consisted of **394** **411** and 415 individual securities, respectively, represented a credit loss impairment. AFS debt securities in unrealized loss positions are evaluated for impairment related to credit losses at least quarterly. As of **March 31, 2023** **June 30, 2023** and December 31, 2022, the majority of the AFS securities in an unrealized loss position consisted of debt securities issued by U.S. government agencies or U.S. government-sponsored enterprises that carry the explicit and/or implicit guarantee of the U.S. government, which are widely recognized as "risk-free" "risk-free" and have a long history of zero credit losses. Total gross unrealized losses were primarily attributable to changes in interest rates, relative to when the investment securities were purchased, and not due to the credit quality of the investment securities. The Company does not intend to sell, nor is it more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis, which may be at maturity. The Company elected to exclude accrued interest receivable ("AIR") from the amortized cost basis of debt securities. AIR on AFS debt securities totaled **\$4.1** **million** **\$4.0** **million** at **March 31, 2023** **June 30, 2023** and **\$4.2** **million** at December 31, 2022 and is excluded from the estimate of credit losses and reported in the other assets financial statement line.

[Table of Contents](#)

None of the Bank's HTM debt securities were past due or on nonaccrual status as of **March 31, 2023** **June 30, 2023** and December 31, 2022. There was no accrued interest reversed against interest income for the three and six months ended **March 31, 2023** **June 30, 2023** or the year ended December 31, 2022 as all securities remained on accrual status. In addition, there were no collateral-dependent HTM debt securities as of **March 31, 2023** **June 30, 2023** and December 31, 2022. As of **March 31, 2023** **June 30, 2023** and December 31, 2022, 68% and 70%, respectively, of the Company's HTM debt securities were issued by U.S. government agencies or U.S. government-sponsored enterprises. These securities carry the explicit and/or implicit guarantee of the U.S. government, which are widely recognized as "risk-free" "risk-free," and have a long history of zero credit loss. Therefore, the Company did not record an allowance for credit losses for these securities as of **March 31, 2023** **June 30, 2023** and December 31, 2022. The remaining HTM debt securities at **March 31, 2023** **June 30, 2023** and December 31, 2022 were comprised of state and municipal obligations generally with bond ratings of A to AAA. Utilizing the Current Expected Credit Losses ("CECL") approach, the Company determined that the expected credit loss on its HTM municipal bond portfolio was immaterial and therefore no allowance for credit loss was recorded as of **March 31, 2023** **June 30, 2023** and December 31, 2022. AIR on HTM debt securities totaled \$3.8 million at **March 31, 2023** **June 30, 2023** and December 31, 2022 and is excluded from the estimate of credit losses and reported in the other assets financial statement line.

5. Allowance for Credit Losses and Credit Quality of Loans

The As described in Note 3 Recent Accounting Pronouncements, the Company's adoption of ASU 2022-02 resulted in an insignificant change to our methodology for estimating the allowance for credit losses on TDRs. The Day 1 decrease in allowance for credit loss on TDR loans relating to adoption of ASU 2022-02 was \$0.6 million.

The allowance for credit losses totaled **\$100.3 million** **\$100.4 million** at **March 31, 2023** **June 30, 2023**, compared to \$100.8 million at December 31, 2022. The allowance for credit losses as a percentage of loans was **1.21%** **1.20%** at **March 31, 2023** **June 30, 2023**, compared to 1.24% at December 31, 2022.

During the first quarter of 2023, the Company made adjustments to the class segments within the portfolios to better align risk characteristics and reflect the monitoring and assessment of risks as the portfolios continue to evolve. Paycheck Protection Program was consolidated with Commercial & Industrial, as the portfolio had decreased to less than \$1 million and no longer warranted a material class segment. The Other Consumer class segment was further separated into Residential Solar and Other Consumer. The growth in our Residential Solar portfolio warranted evaluation of this class separately from the Other Consumer class segments. The change to the class segments was applied retrospectively and did not have a significant impact on the allowance for loan losses. The following table illustrates the portfolio and class segments for the Company's loan portfolio:

Portfolio Segment	Class
Commercial Loans	Commercial & Industrial Commercial Real Estate
Consumer Loans	Auto Residential Solar Other Consumer
Residential Loans	

The allowance for credit losses calculation incorporated a 6-quarter forecast period to account for forecast economic conditions under each scenario utilized in the measurement. For periods beyond the 6-quarter forecast, the model reverts to long-term economic conditions over a 4-quarter reversion period on a straight-line basis. The Company considers a baseline, upside and downside economic forecast in measuring the allowance.

The quantitative model as of June 30, 2023 incorporated a baseline economic outlook along with an alternative downside scenario sourced from a reputable third-party to accommodate other potential economic conditions in the model, particularly significant unknowns relating to downside risks as of the measurement date. The baseline outlook reflected an unemployment rate environment at pre-coronavirus ("COVID-19") pandemic levels of 3.8% and increasing gradually to 4.2% by the end of the forecast period. Northeast GDP's annualized growth (on a quarterly basis) was expected to start the third quarter of 2023 at about 3.6% and reach 4.1% by the end of the forecast period. Other utilized economic variables worsened overall, with outlooks for annualized growth in retail sales and business output declining from the prior quarter and housing starts staying relatively unchanged. Key assumptions in the baseline economic outlook include the economy being at full employment in the coming quarters, recent bank failures not being symptomatic of broader issues in the financial system, and the reduction in the Federal Reserve's balance sheet remaining on autopilot. The alternative downside scenario assumes deteriorated economic conditions from the baseline outlook. Under this scenario, northeast unemployment jumps to 5.2% in the third quarter of 2023 and rises to a peak of 7.0% in the third quarter of 2024. These scenarios and their respective weightings are evaluated at each measurement date and reflect management's expectations as of June 30, 2023. At June 30, 2023, the weightings were 60%, 40% and 0% for the baseline, upside and downside economic forecasts, respectively. Qualitative adjustments were made for isolated model limitations related to modeled inputs given abnormally high retail sales and business output growth rates in prior quarters along with low unemployment. Additionally, a qualitative adjustment for inflation is applied to adjust for potential model limitations arising from the use of a macroeconomic variable denominated in nominal dollar terms as well as a qualitative adjustment for potential weakness in auto collateral values. These factors were considered through separate quantitative processes and incorporated into the estimate of current expected credit losses at June 30, 2023.

The quantitative model as of March 31, 2023 incorporates a baseline economic outlook along with an alternative downside scenario sourced from a reputable third-party to accommodate other potential economic conditions in the model. At March 31, 2023, the weightings were 50%, 0% and 50% for the baseline, upside and downside economic forecasts, respectively. The baseline outlook reflected an unemployment rate environment below pre-coronavirus ("COVID-19") pandemic pre-COVID-19 levels throughout much of the forecast period. Northeast GDP's annualized growth (on a quarterly basis) was expected to start the second quarter of 2023 at approximately 3.9% and rise to 4.4% before falling slightly to 4.1% by the end of the forecast period. Other utilized economic variables have generally remained stable in their respective forecasts, with the exception of northeast housing starts which deteriorated since December 31, 2022 and served as a counter-balance to the improved unemployment outlook. Key assumptions in the baseline economic outlook included the Federal Reserve raising rates with two more 25 basis point hikes at the May and June meetings bringing the terminal range to 5%-5.25%, recent bank failures not being symptomatic of a serious broader problem in the financial system, the economy remaining at full employment, continued tapering of the Federal Reserve

balance sheet, a slowly increasing yield on ten-year treasury securities, and a continued decline in oil prices. The alternative downside scenario assumed deteriorated economic conditions from the baseline outlook. Under this scenario, northeast unemployment rises from 3.7% in the first quarter of 2023 to a peak of 7.1% in the second quarter of 2024. These scenarios and their respective weightings are evaluated at each measurement date and reflect management's expectations as of March 31, 2023. Additional adjustments were made for factors not incorporated in the forecasts or the model, such as loss rate expectations for certain loan pools, considerations for inflation, and recent trends in asset value indices. Additional monitoring for industry concentrations, loan growth, and policy exceptions was also conducted. All these factors were considered through separate quantitative processes and incorporated when applicable into the estimate of current expected credit losses at March 31, 2023.

The quantitative model as of December 31, 2022 **incorporated** a baseline economic outlook along with an alternative downside scenario sourced from a reputable third-party to accommodate other potential economic conditions in the model. At December 31, 2022, the weightings were 50%, 0% and 50% for the baseline, upside and downside economic forecasts, respectively. The baseline outlook reflected an unemployment rate environment initially around pre-COVID-19 levels at 3.9% that increases slightly during the forecast period to 4.0%. Northeast GDP's annualized growth (on a quarterly basis) **is** **was** expected to start the first quarter of 2023 at approximately 3.9% and hovering around 4.6% by the end of the forecast period. Other utilized economic variables have generally deteriorated in their respective forecasts, with retail sales and housing starts forecasts declining from the prior year. Key assumptions in the baseline economic outlook included a full employment economy being realized in the near future, continued tapering of the Federal Reserve balance sheet, an increasing yield on ten-year treasury securities, and a gradual decline in global oil prices. The alternative downside scenario assumed deteriorated economic and pandemic related conditions from the baseline outlook. Under this scenario, northeast unemployment rises from 3.9% in the fourth quarter of 2022 to a peak of 6.9% in the first quarter of 2024. These scenarios and their respective weightings are evaluated at each measurement date and reflect management's expectations as of December 31, 2022. Additional adjustments were made for factors not incorporated in the forecasts or the model, such as loss rate expectations for certain loan pools, considerations for inflation, and recent trends in asset value indices. Additional monitoring for industry concentrations, loan growth, and policy exceptions was also conducted. All these factors were considered through separate quantitative processes and incorporated when applicable into the estimate of current expected credit losses at December 31, 2022.

There were no loans purchased with credit deterioration during the **three** **six** months ended **March 31, 2023** **June 30, 2023** or the year ended December 31, 2022. **The** **During** **2023**, **the** Company purchased **no** \$2.4 million of residential loans **during** **the** **three** months ended **March 31, 2023**, **at** a 7.01% premium **with** **a** \$17 thousand allowance for credit losses **recorded** **for** **these** **loans**. During 2022, the Company purchased \$11.5 million of residential loans at a 1.53% premium and \$50.1 million in consumer loans at par. **The** **par** **with** **an** **allowance** **for** **credit** **losses** **recorded** **for** **these** **loans** **on** **the** **purchase** **date** **was** **of** \$3.2 million. The Company made a policy election to report AIR in the other assets line item on the balance sheet. AIR on loans totaled \$25.4 million \$28.0 million at **March 31, 2023** **June 30, 2023** and \$25.0 million \$25.0 million at December 31, 2022 and there was no estimated allowance for credit losses related to AIR as of **March 31, 2023** **June 30, 2023** and December 31, 2022.

The decrease in the allowance for credit losses as of June 30, 2023 was fairly consistent with the allowance estimates as of December 31, 2022 and March 31, 2023 compared to December 31, 2022 was primarily due to a reduction in expected losses in the residential solar portfolios, an improvement in economic forecasts and reduction in allowance on TDRs related to the adoption of ASU 2022-02. These decreases were partly offset by an increase in providing for the increase in loan balances and a decline in prepayment speeds. The decrease in the allowance for credit losses from December 31, 2021 and March 31, 2022 to March 31, 2022 June 30, 2022 was primarily due to an improvement in loan balances, an additional specific reserve established during the second quarter of 2022 and a modest deterioration in the economic forecast, partly offset by providing the increase in loan balances.

forecast.

Individually Evaluated Loans

As of March 31, 2023 June 30, 2023, there were one relationship identified to be evaluated for loss on an individual basis which had an amortized cost basis of \$2.0 million, with no allowance for credit loss. As of December 31, 2022, two different relationships were identified to be evaluated for loss on an individual basis, which in aggregate, had an amortized cost basis of \$2.3 million, \$2.4 million, with no allowance for credit loss. As of December 31, 2022, the same two relationships were identified to be evaluated for loss on an individual basis, in aggregate, had an amortized cost basis of \$2.4 million, with no allowance for credit loss.

The decrease in the amortized cost basis on an individual basis from December 31, 2022 to March 31, 2023 was primarily due to principal payments received during the first quarter of 2023.

As of **March 31, 2023** June 30, 2023 and December 31, 2022, there were **\$1.0 million** \$2.0 million and \$1.1 million, respectively, of loans in nonaccrual that were specifically evaluated for individual expected credit loss without an allowance for credit losses.

Credit Quality Indicators

The Company has developed an internal loan grading system to evaluate and quantify the Company's loan portfolio with respect to quality and risk. The system focuses on, among other things, financial strength of borrowers, experience and depth of borrower's management, primary and secondary sources of repayment, payment history, nature of the business and outlook on particular industries. The internal grading system enables the Company to monitor the quality of the entire loan portfolio on a consistent basis and provide management with an early warning system, enabling recognition and response to problem loans and potential problem loans.

Commercial Grading System

For Commercial and Industrial ("C&I") and Commercial Real Estate ("CRE") loans, the Company uses a grading system that relies on quantifiable and measurable characteristics when available. This includes comparison of financial strength to available industry averages, comparison of transaction factors (loan terms and conditions) to loan policy and comparison of credit history to stated repayment terms and industry averages. Some grading factors are necessarily more subjective such as economic and industry factors, regulatory environment and management. C&I and CRE loans are graded Doubtful, Substandard, Special Mention and Pass.

16

[Table of Contents](#)

Doubtful

A Doubtful loan has a high probability of total or substantial loss, but because of specific pending events that may strengthen the asset, its classification as a loss is deferred. Doubtful borrowers are usually in default, lack adequate liquidity or capital and lack the resources necessary to remain an operating entity. Pending events can include mergers, acquisitions, liquidations, capital injections, the perfection of liens on additional collateral, the valuation of collateral and refinancing. Generally, pending events should be resolved within a relatively short period and the ratings will be adjusted based on the new information. Nonaccrual treatment is required for Doubtful assets because of the high probability of loss.

Substandard

Substandard loans have a high probability of payment default or they have other well-defined weaknesses. They require more intensive supervision by bank management. Substandard loans are generally characterized by current or expected unprofitable operations, inadequate debt service coverage, inadequate liquidity or marginal capitalization. Repayment may depend on collateral or other credit risk mitigants. For some Substandard loans, the likelihood of full collection of interest and principal may be in doubt and those loans should be placed on nonaccrual. Although Substandard assets in the aggregate will have a distinct potential for loss, an individual asset's loss potential does not have to be distinct for the asset to be rated Substandard.

Special Mention

Special Mention loans have potential weaknesses that may, if not checked or corrected, weaken the asset or inadequately protect the Company's position at some future date. These loans pose elevated risk, but their weakness does not yet justify a Substandard classification. Borrowers may be experiencing adverse operating trends (i.e., declining revenues or margins) or may be struggling with an ill-proportioned balance sheet (i.e., increasing inventory without an increase in sales, high leverage, and/or tight liquidity). Adverse economic or market conditions, such as interest rate increases or the entry of a new competitor, may also support a Special Mention rating. Although a Special Mention loan has a higher probability of default than a Pass asset, its default is not imminent.

Pass

Loans graded as Pass encompass all loans not graded as Doubtful, Substandard or Special Mention. Pass loans are in compliance with loan covenants and payments are generally made as agreed. Pass loans range from superior quality to fair quality. Pass loans also include any portion of a government guaranteed loan, including Paycheck Protection Program loans.

16

[Table of Contents](#)

Consumer and Residential Grading System

Consumer and Residential loans are graded as either Nonperforming or Performing.

Nonperforming

Nonperforming loans are loans that are (1) over 90 days past due and interest is still accruing or (2) on nonaccrual status.

Performing

All loans not meeting any of the above criteria are considered Performing.

17

[Table of Contents](#)

The following tables illustrate the Company's credit quality by loan class by vintage and, beginning in 2023 with the Company's January 1, 2023 adoption of ASU 2022-02, also includes gross charge-offs by loan class by vintage for the **three** six months ended **March 31, 2023** **June 30, 2023**. Included in other consumer gross charge-offs, the Company recorded \$0.2 million in overdrawn deposit accounts reported as 2022 originations and \$0.2 million in overdrawn deposit accounts reported as 2023 originations, for the **three** six months ended **March 31, 2023** **June 30, 2023**.

Allowance for Credit Losses on Off-Balance Sheet Credit Exposures

The allowance for losses on unfunded commitments totaled **\$4.5 million** as of March 31, 2023 or **\$4.4 million** as of June 30, 2023, compared to \$5.1 million as of December 31, 2022.

Loan Modifications to Borrowers Experiencing Financial Difficulties

As previously mentioned discussed in Note 3 Recent Accounting Pronouncements, the Company's January 1, 2023 adoption of ASU 2022-02 eliminates the recognition and measurement of TDRs. Upon adoption of this guidance, the Company will no longer recognize an allowance for credit losses for the economic concession granted to a borrower for changes in the timing and amount of contractual cash flows when a loan is restructured. The adoption of ASU 2022-02 results in a change to reporting for loan modifications to borrowers experiencing financial difficulties. With the adoption of ASU 2022-02 these modifications require enhanced reporting on the type of modifications granted and the financial magnitude of the concessions granted.

19

Table of Contents

When the Company modifies a loan with financial difficulty, such modifications generally include one or a combination of the following: an extension of the maturity date at a stated rate of interest lower than the current market rate for new debt with similar risk; a change in scheduled payment amount; or principal forgiveness.

The following table shows the amortized cost basis at the end of the reporting period of the loans modified to borrowers experiencing financial difficulty, disaggregated by class of financing receivable and type of concession granted:

Three Months Ended March 31, 2023			
Term Extension			
Amortized Cost % of Total Class of Financing Receivables			
(Dollars in thousands)	Amortized Cost	Financing Receivables	
Residential	\$ 43		0.0020 %
Total	\$ 43		0.0020 %

Three Months Ended June 30, 2023				
Combination - Term Extension and Interest Rate Reduction				
Term Extension				
(Dollars in thousands)	Amortized Cost	% of Total Class of Financing Receivables	Amortized Cost	% of Total Class of Financing Receivables
Residential	\$ 199	0.009 %	\$ 171	0.008 %
Total	\$ 199		\$ 171	

Six Months Ended June 30, 2023			
Combination - Term Extension and Interest Rate Reduction			
Term Extension			
(Dollars in thousands)	Amortized Cost	% of Total Class of Financing Receivables	Amortized Cost

(Dollars in thousands)	Amortized Cost	% of Total Class of Financing Receivables	Amortized Cost	% of Total Class of Financing Receivables
Residential	\$ 242	0.011 %	\$ 171	0.008 %
Total	\$ 242		\$ 171	

The following table describes the financial effect of the modifications made to borrowers experiencing financial difficulties:

Loan Type	Three Months Ended March 31, 2023 June 30, 2023	
	Term Extension	Interest Rate Reduction
Residential	Added a weighted-average 18.10 years to the life of loans, which reduced monthly payment amounts for the borrowers.	Interest rates were reduced by an average of three and a half percent
Six Months Ended June 30, 2023		
Loan Type	Term Extension	
	Added a weighted-average 14 years to the life of loans, which reduced monthly payment amounts for the borrowers.	
Residential	Interest rates were reduced by an average of three and a half percent	

There were no financing receivables that had a payment default during the three months ended **March 31, 2023** June 30, 2023 that were modified to borrowers experiencing financial difficulty since the adoption of ASU 2022-02 effective January 1, 2023.

Troubled Debt Restructuring

Prior to the adoption of ASU 2022-02 on January 1, 2023, the Company accounted for loan modifications to borrowers experiencing financial difficulty when concessions were granted as TDRs. The following tables are disclosures related to TDRs in prior periods.

The following table illustrates the recorded investments and number of modifications designated as TDRs, including the recorded investment in the loans prior to a modification and the recorded investment in the loans after restructuring:

	Three Months Ended June 30, 2022	Six Months Ended June 30, 2022

	(Dollars in thousands)	Pre- Modification Outstanding Recorded Investment		Post- Modification Outstanding Recorded Investment		Pre- Modification Outstanding Recorded Investment		Post- Modification Outstanding Recorded Investment

Total TDRs		21	\$ 911

6. Defined Benefit Post-Retirement Plans

The Company has a qualified, noncontributory, defined benefit pension plan ("the Plan" (the "Plan") covering substantially all of its employees at **March 31, 2023** June 30, 2023. Benefits paid from the Plan are based on age, years of service, compensation and social security benefits and are determined in accordance with defined formulas. The Company's policy is to fund the Plan in accordance with Employee Retirement Income Security Act of 1974 standards. Assets of the Plan are invested in publicly traded stocks, bonds and mutual funds. In addition to the Plan, the Company provides supplemental employee retirement plans to certain current and former executives. The Company also assumed supplemental retirement plans for former executives of Alliance Financial Corporation ("Alliance") when the Company acquired Alliance. These supplemental employee retirement plans and the Plan are collectively referred to herein as "Pension Benefits."

In addition, the Company provides certain health care benefits for retired employees. Benefits were accrued over the employees' active service period. Only employees that were employed by the Company on or before January 1, 2000 are eligible to receive post-retirement health care benefits. In addition, the Company assumed post-retirement medical life insurance benefits for certain Alliance employees, retirees and their spouses, if applicable, in the Alliance acquisition. These post-retirement benefits are referred to herein as "Other Benefits."

Accounting standards require an employer to: (1) recognize the overfunded or underfunded status of defined benefit post-retirement plans, which is measured as the difference between plan assets at fair value and the benefit obligation, as an asset or liability in its balance sheet; (2) recognize changes in that funded status in the year in which the changes

occur through comprehensive income; and (3) measure the defined benefit plan assets and obligations as of the date of its year-end balance sheet.

The Company made no voluntary contributions to the pension and other benefits plans during the three and six months ended **March 31, 2023** **June 30, 2023** and 2022.

The components of expense for Pension Benefits and Other Benefits are set forth below:

(In thousands)	Pension Benefits		Other Benefits		Pension Benefits		Other Benefits	
	Three Months Ended March 31,		Three Months Ended March 31,		Three Months Ended June 30,		Three Months Ended June 30,	
	2023	2022	2023	2022	2023	2022	2023	2022
Components of net periodic cost (benefit):								
Service cost	\$ 482	\$ 534	\$ 1	\$ 2	\$ 482	\$ 534	\$ 1	\$ 2
Interest cost	1,010	694	56	41	1,010	694	56	41
Expected return on plan assets	(1,853)	(2,228)	-	-	(1,853)	(2,228)	-	-
Net amortization	670	185	(21)	1	670	185	(21)	1
Total net periodic cost (benefit)	\$ 309	\$ (815)	\$ 36	\$ 44	\$ 309	\$ (815)	\$ 36	\$ 44
Pension Benefits								
Six Months Ended June 30,								
<hr/>								
(In thousands)	2023	2022	2023	2022	2023	2022	2023	2022
	Components of net periodic cost (benefit):							
	Service cost	\$ 964	\$ 1,068	\$ 2	\$ 964	\$ 1,068	\$ 2	\$ 4
Interest cost	2,020	1,388	112	82	2,020	1,388	112	82
Expected return on plan assets	(3,706)	(4,456)	-	-	(3,706)	(4,456)	-	-
Net amortization	1,340	370	(42)	2	1,340	370	(42)	2
Total net periodic cost (benefit)	\$ 618	\$ (1,630)	\$ 72	\$ 88	\$ 618	\$ (1,630)	\$ 72	\$ 88

The service cost component of the net periodic cost (benefit) is included in Salaries and Employee Benefits and the interest cost, expected return on plan assets and net amortization components are included in Other Noninterest Expense on the unaudited interim consolidated statements of income.

7. Earnings Per Share

Basic earnings per share ("EPS") excludes dilution and is computed by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity (such as the Company's dilutive stock options and restricted stock units).

The following is a reconciliation of basic and diluted EPS and the anti-dilutive stock options and restricted stock outstanding for the periods presented in the unaudited interim consolidated statements of income:

(In thousands, except per share data)	Three Months Ended March 31,		Three Months Ended June 30,	
	2023	2022	2023	2022
Basic EPS:				
Weighted average common shares outstanding	42,894	43,141	42,905	42,845
Net income available to common stockholders	\$ 33,658	\$ 39,126	\$ 30,072	\$ 37,775
Basic EPS	\$ 0.78	\$ 0.91	\$ 0.70	\$ 0.88
Diluted EPS:				
Weighted average common shares outstanding	42,894	43,141	42,905	42,845
Dilutive effect of common stock options and restricted stock	232	244	221	248
Weighted average common shares and common share equivalents	43,126	43,385	43,126	43,093
Net income available to common stockholders	\$ 33,658	\$ 39,126	\$ 30,072	\$ 37,775
Diluted EPS	\$ 0.78	\$ 0.90	\$ 0.70	\$ 0.88

23

[Table of Contents](#)**9. Derivative Instruments and Hedging Activities**

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risks, including interest rate, primarily by managing the amount, sources and duration of its assets and liabilities and through the use of derivative instruments. Specifically, the Company may enter into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. Generally, the Company may use derivative financial instruments to manage differences in the amount, timing and duration of the Company's known or expected cash receipts and its known or expected cash payments. Currently, the Company has interest rate derivatives that result from a service provided to certain qualifying customers and, therefore, are not used to manage interest rate risk in the Company's assets or liabilities. The Company manages a matched book with respect to its derivative instruments in order to minimize its net risk exposure resulting from such transactions.

Derivatives Not Designated as Hedging Instruments

The Company enters into interest rate swaps to facilitate customer transactions and meet their financing needs. These swaps are considered derivatives, but are not designated in hedging relationships. These instruments have interest rate and credit risk associated with them. To mitigate the interest rate risk, the Company enters into offsetting interest rate swaps with counterparties. The counterparty swaps are also considered derivatives and are also not designated in hedging relationships. Interest rate swaps are recorded within other assets or other liabilities on the consolidated balance sheet at their estimated fair value. Changes to the fair value of assets and liabilities arising from these derivatives are included, net, in other operating income in the consolidated statement of income.

The Company is subject to over-the-counter derivative clearing requirements, which require certain derivatives to be cleared through central clearing houses. Accordingly, the Company clears certain derivative transactions through the Chicago Mercantile Exchange Clearing House ("CME"). The CME requires the Company to post initial and variation margin payments to mitigate the risk of non-payment, the latter of which is received or paid daily based on the net asset or liability position of the contracts. A daily settlement occurs through the CME for changes in the fair value of centrally cleared derivatives. Not all of the derivatives are required to be cleared through the daily clearing agent. As a result, the total fair values of loan level derivative assets and liabilities recognized on the Company's financial statements are not equal and offsetting.

In 2017, the U.K. Financial Conduct Authority announced its intention to stop compelling banks to submit rates for the calculation of London Interbank Offered Rate ("LIBOR") after 2021. In 2022, the Federal Reserve adopted a final rule implementing the Adjustable Interest Rate (LIBOR) Act by identifying benchmark rates based on the Secured Overnight Financing Rate ("SOFR") that will replace LIBOR in certain financial contracts after June 30, 2023. As of June 30, 2023, the Company has transitioned substantially all of its financial instruments to an alternative benchmark rate.

As of **March 31, 2023** June 30, 2023 and December 31, 2022, the Company had **fourteen** twelve and fifteen risk participation agreements, respectively, with financial institution counterparties for interest rate swaps related to participated loans. Risk participation agreements provide credit protection to the financial institution that originated the swap transaction should the borrower fail to perform on its obligation. The Company enters into both risk participation agreements in which it purchases credit protection from other financial institutions and those in which it provides credit protection to other financial institutions.

Cash collateral ⁽²⁾		-		-		-		
Net derivative amounts		\$ 92,833		\$ 116,905		\$ 92,833		

(1)

(1) Netting adjustments represents the amounts recorded to convert derivatives assets and liabilities from a gross basis to a net basis in accordance with the applicable accounting guidance on the settle to market rules for cleared derivatives. The CME legally characterizes the variation margin posted between counterparties as settlements of the outstanding derivative contracts instead of cash collateral.

(2)

(2) Cash collateral represents the amount that cannot be used to offset our derivative assets and liabilities from a gross basis to a net basis in accordance with the applicable accounting guidance. The other collateral consists of securities and is exchanged under bilateral collateral and master netting agreements that allow us to offset the net derivative position with the related collateral. The application of the other collateral cannot reduce the net derivative position below zero. Therefore, excess other collateral, if any, is not reflected above.

The following table indicates the gain or loss recognized in income on derivatives not designated as a hedging relationship:

	Three Months Ended		Three Months Ended		Six Months Ended			
	March 31,		2023	2022	June 30,	2023

10. Fair Value Measurements and Fair Value of Financial Instruments

GAAP states that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Fair value measurements are not adjusted for transaction costs. A fair value hierarchy exists within GAAP that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not active or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability; and

24

Table of Contents

Level 3 - Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

25

Table of Contents

A financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

The types of instruments valued based on quoted market prices in active markets include most U.S. government and agency securities, many other sovereign government obligations, liquid mortgage products, active listed equities and most money market securities. Such instruments are generally classified within Level 1 or Level 2 of the fair value hierarchy. The Company does not adjust the quoted prices for such instruments.

The types of instruments valued based on quoted prices in markets that are not active, broker or dealer quotations or quote from alternative pricing sources with reasonable levels of price transparency include most investment-grade and high-yield corporate bonds, less liquid mortgage products, less liquid agency securities, less liquid listed equities, state, municipal and provincial obligations and certain physical commodities. Such instruments are generally classified within Level 2 of the fair value hierarchy. Certain common equity securities are reported at fair value utilizing Level 1 inputs (exchange quoted prices). Other investment securities are reported at fair value utilizing Level 1 and Level 2 inputs. The prices for Level 2 instruments are obtained through an independent pricing service or dealer market participants with whom the Company has historically transacted both purchases and sales of investment securities. Prices obtained from these sources include prices derived from market quotations and matrix pricing. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond's terms and conditions, among other things. Management reviews the methodologies used by its third-party providers in pricing the securities.

Level 3 is for positions that are not traded in active markets or are subject to transfer restrictions. Valuations are adjusted to reflect illiquidity and/or non-transferability and such adjustments are generally based on available market evidence. In the absence of such evidence, management's best estimate will be used. Management's best estimate consists of both internal and external support on certain Level 3 investments. Subsequent to inception, management only changes Level 3 inputs and assumptions when corroborated by evidence such as transactions in similar instruments, completed or pending third-party transactions in the underlying investment or comparable entities, subsequent rounds of financing, recapitalizations and other transactions across the capital structure, offerings in the equity or debt markets and changes in financial ratios or cash flows.

25

[Table of Contents](#)

The following tables [sets](#) forth the Company's financial assets and liabilities measured on a recurring basis that were accounted for at fair value. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement:

[Table of Contents](#)

GAAP requires disclosure of assets and liabilities measured and recorded at fair value on a non-recurring basis such as goodwill, loans held for sale, other real estate owned, collateral-dependent loans individually evaluated for expected credit losses and HTM securities. The non-recurring fair value measurements recorded during the **three** **six** month period ended **March 31, 2023** **June 30, 2023** and the year ended December 31, 2022 were related to loans individually evaluated for expected credit losses with fair value of **\$1.0 million** **\$2.0 million** and **\$1.1 million** as of **March 31, 2023** **June 30, 2023** and December 31, 2022, respectively. The Company uses the fair value of underlying collateral, less costs to sell, to estimate the allowance for credit losses for individually evaluated collateral dependent loans. The appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated liquidation expenses ranging from 10% to 50%. Based on the valuation techniques used, the fair value measurements for collateral dependent individually evaluated loans are classified as Level 3.

26

[Table of Contents](#)

The following table sets forth information with regard to estimated fair values of financial instruments. This table excludes financial instruments for which the carrying amount approximates fair value. Financial instruments for which the fair value approximates carrying value include cash and cash equivalents, AFS securities, equity securities, accrued interest receivable, non-maturity deposits, short-term borrowings, accrued interest payable and derivatives.

(In thousands)	March 31, 2023			December 31, 2022			June 30, 2023			December 31, 2022		
	Fair Value Hierarchy	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value	Fair Value Hierarchy	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value

Subordinated debt	1	98,000	91,506	98,000	92,883	1	98,000	86,173	98,000	92,883		
Junior subordinated debt	2	101,196	98,443	101,196	98,372	2	101,196	98,131	101,196	98,372		

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Because no market exists for a significant portion of the Company's financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Fair value estimates are based on existing on and off-balance sheet financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. For example, the Company has a substantial wealth operation that contributes net fee income annually. The wealth management operation is not considered a financial instrument and its value has not been incorporated into the fair value estimates. Other significant assets and liabilities include the benefits resulting from the low-cost funding of deposit liabilities as compared to the cost of borrowing funds in the market and premises and equipment. In addition, the tax ramifications related to the realization of the unrealized gains and losses can have a significant effect on fair value estimates and have not been considered in the estimate of fair value.

HTM Securities

The fair value of the Company's HTM securities is primarily measured using information from a third-party pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond's terms and conditions, among other things.

Net Loans

Net loans include portfolio loans and loans held for sale. Loans were first segregated by type and then further segmented into fixed and variable rate and loan quality categories. Expected future cash flows were projected based on contractual cash flows, adjusted for estimated prepayments, and those expected future cash flows also includes credit risk, illiquidity risk and other market factors to calculate the exit price fair value in accordance with ASC 820.

Time Deposits

The fair value of time deposits was estimated using a discounted cash flow approach that applies prevailing market interest rates for similar maturity instruments. The fair values of the Company's time deposit liabilities do not take into consideration the value of the Company's long-term relationships with depositors, which may have significant value.

27

Long-Term Debt

The fair value of long-term debt was estimated using a discounted cash flow approach that applies prevailing market interest rates for similar maturity instruments.

Subordinated Debt

The fair value of subordinated debt has been measured using the observable market price as of the period reported.

Junior Subordinated Debt

The fair value of junior subordinated debt has been estimated using a discounted cash flow analysis.

27

11. Commitments and Contingencies

The Company is a party to certain financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, unused lines of credit, standby letters of credit and certain agricultural real estate loans sold to investors with recourse, with the sold portion having a government guarantee that is assignable back to the Company upon repurchase of the loan in the event of default. The Company's exposure to credit loss in the event of nonperformance by the other party to the commitments to extend credit, unused lines of credit, standby letters of credit and loans sold with recourse is represented by the contractual amount of those investments. The credit risk associated with commitments to extend credit and standby and commercial letters of credit is essentially the same as that involved with extending loans to customers and is subject to normal credit policies. Collateral may be obtained based on management's assessment of the customer's creditworthiness. Commitments to extend credit and unused lines of credit totaled **\$2.43 billion** **\$2.31 billion** at **March 31, June 30, 2023** and \$2.42 billion at December 31, 2022.

Since many loan commitments, standby letters of credit and guarantees and indemnification contracts expire without being funded in whole or in part, the contract amounts are not necessarily indicative of future cash flows. The Company does not issue any guarantees that would require liability-recognition or disclosure, other than its standby letters of credit.

The Company guarantees the obligations or performance of customers by issuing standby letters of credit to third-parties. These standby letters of credit are generally issued in support of third-party debt, such as corporate debt issuances, industrial revenue bonds and municipal securities. The risk involved in issuing standby letters of credit is essentially the same as the credit risk involved in extending loan facilities to customers and letters of credit are subject to the same credit origination, portfolio maintenance and management procedures in effect to monitor other credit and off-balance sheet products. Typically, these instruments have one year expirations with an option to renew upon annual review; therefore, the total amounts do not necessarily represent future cash requirements. Standby letters of credit totaled **\$40.9 million** **\$39.6 million** at **March 31, 2023 June 30, 2023** and \$53.3 million at December 31, 2022. As of **March 31, 2023 June 30, 2023** and December 31, 2022, the fair value of the Company's standby letters of credit was not significant.

12. Subsequent Event

On May 4, 2023, the Company sold two subordinated debt securities held in the AFS securities portfolio for a \$4.5 million pre-tax loss. These subordinated securities were issued by two regional financial institutions and had an aggregate amortized cost of \$7.0 million and a fair value of \$4.8 million as of March 31, 2023. During April, the Company was notified that these two issuers debt ratings were downgraded. In early May, both experienced significant declines in their respective equity market capitalizations and the fair values of the Company's subordinated debt securities for these two issuers also experienced further declines from March 31, 2023. These factors indicated to the Company a higher level of uncertainty relative to their operational and market risks.

28

NBT BANCORP INC. AND SUBSIDIARIES

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The purpose of this discussion and analysis is to provide a concise description of the consolidated financial condition and results of operations of NBT Bancorp Inc. ("NBT") and its wholly-owned subsidiaries, including NBT Bank, National Association (the "Bank"), NBT Financial Services, Inc. ("NBT Financial") and NBT Holdings, Inc. ("NBT Holdings") (collectively referred to herein as the "Company"). This discussion will focus on results of operations, financial condition, capital resources and asset/liability management. Reference should be made to the Company's consolidated financial statements and footnotes thereto included in this Form 10-Q as well as to the Company's Annual Report on Form 10-K for the year ended December 31, 2022 for an understanding of the following discussion and analysis. Operating results for the three and six month period periods ending **March 31, 2023 June 30, 2023** are not necessarily indicative of the results of the full year ending December 31, 2023 or any future period.

Forward-Looking Statements

Certain statements in this filing and future filings by the Company with the Securities and Exchange Commission ("SEC"), in the Company's press releases or other public or stockholder communications or in oral statements made with the approval of an authorized executive officer, contain forward-looking statements, as defined in the Private Securities Litigation Reform Act of 1995. These statements may be identified by the use of phrases such as "anticipate," "believe," "expect," "forecasts," "projects," "will," "can," "would," "should," "could," "may," or other similar terms. There are a number of factors, many of which are beyond the Company's control, that could cause actual results to differ materially from those contemplated by the forward-looking statements. Factors that may cause actual results to differ materially from those contemplated by such forward-looking statements

include, among others, the following possibilities: (1) local, regional, national and international economic conditions, including actual or potential stress in the banking industry, and the impact they may have on the Company and its customers and the Company's assessment of that impact; (2) changes in the level of nonperforming assets and charge-offs; (3) changes in estimates of future reserve requirements based upon the periodic review thereof under relevant regulatory and accounting requirements; (4) the effects of and changes in trade and monetary and fiscal policies and laws, including the interest rate policies of the Federal Reserve Board ("FRB"); (5) inflation, interest rate, securities market and monetary fluctuations; (6) political instability; (7) acts of war, including international military conflicts, or terrorism; (8) the timely development and acceptance of new products and services and the perceived overall value of these products and services by users; (9) changes in consumer spending, borrowing and saving habits; (10) changes in the financial performance and/or condition of the Company's borrowers; (11) technological changes; (12) acquisition and integration of acquired businesses; (13) the businesses of NBT and Salisbury Bancorp Inc. ("Salisbury") may not be combined successfully; (14) the possibility that NBT and Salisbury may be unable to achieve expected synergies and operating efficiencies in the merger within the expected timeframes or at all or to successfully integrate Salisbury's operations and those of NBT; (15) the ability to increase market share and control expenses; (14) (16) changes in the competitive environment among financial holding companies; (15) (17) the effect of changes in laws and regulations (including laws and regulations concerning taxes, banking, securities and insurance) with which the Company and its subsidiaries must comply, including those under the Dodd-Frank Act, and the Economic Growth, Regulatory Relief, and Consumer Protection Act of 2018, Coronavirus Aid, Relief and Economic Security Act ("CARES Act"), and other legislative and regulatory responses to the coronavirus ("COVID-19") pandemic; (16) 2018; (18) the effect of changes in accounting policies and practices, as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board and other accounting standard setters; (17) (19) changes in the Company's organization, compensation and benefit plans; (18) (20) the costs and effects of legal and regulatory developments, including the resolution of legal proceedings or regulatory or other governmental inquiries, and the results of regulatory examinations or reviews; (19) (21) greater than expected costs or difficulties related to the integration of new products and lines of business; (20) the adverse impact on the U.S. economy, including the markets in which we operate, of the COVID-19 global pandemic or other public health crises; and (21) (22) the Company's success at managing the risks involved in the foregoing items.

29

[Table of Contents](#)

The Company cautions readers not to place undue reliance on any forward-looking statements, which speak only as of the date made, and advises readers that various factors, including, but not limited to, those described above and other factors discussed in the Company's annual and quarterly reports previously filed with the SEC, could affect the Company's financial performance and could cause the Company's actual results or circumstances for future periods to differ materially from those anticipated or projected.

Unless required by law, the Company does not undertake, and specifically disclaims any obligations to, publicly release any revisions that may be made to any forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date of such statements.

Non-GAAP Measures

This Quarterly Report on Form 10-Q contains financial information determined by methods other than in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Where non-GAAP disclosures are used in this Form 10-Q, the comparable GAAP measure, as well as a reconciliation to the comparable GAAP measure, is provided in the accompanying tables. Management believes that these non-GAAP measures provide useful information that is important to an understanding of the results of the Company's core business as well as provide information standard in the financial institution industry. Non-GAAP measures should not be considered a substitute for financial measures determined in accordance with GAAP and investors should consider the Company's performance and financial condition as reported under GAAP and all other relevant information when assessing the performance or financial condition of the Company. Amounts previously reported in the consolidated financial statements are reclassified whenever necessary to conform to current period presentation.

29

[Table of Contents](#)

Critical Accounting Estimates

SEC guidance requires disclosure of "critical accounting estimates." The SEC defines "critical accounting estimates" as those estimates made in accordance with GAAP that involve a significant level of estimation uncertainty and have had or are reasonably likely to have a material impact on the financial condition or results of operations of the registrant. The Company follows financial accounting and reporting policies that are in accordance with GAAP. The more significant of these policies are summarized in Note 1 to the consolidated financial statements presented in our 2022 Annual Report on Form 10-K. Refer to Note 3 in this Quarterly Report on Form 10-Q for recently adopted accounting standards. Not all significant accounting policies require management to make difficult, subjective or complex judgments. The allowance for credit losses and the allowance for unfunded commitments policies noted below are deemed to meet the SEC's definition of a critical accounting estimate.

The allowance for credit losses consists of the allowance for credit losses and the allowance for losses on unfunded commitments. The measurement of Current Expensed Credit Losses ("CECL") on financial instruments requires an estimate of the credit losses expected over the life of an exposure (or pool of exposures). The estimate of expected credit losses under the CECL approach is based on relevant information about past events, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amounts. Historical loss experience is generally the starting point for estimating expected credit losses. The Company then considers whether the historical loss experience should be adjusted for asset-specific risk characteristics or current conditions at the reporting date that did not exist over the period from which historical experience was used. Finally, the Company considers forecasts about future economic conditions that are reasonable and supportable. The allowance for credit losses for loans, as reported in our consolidated statements of financial condition, is adjusted by an expense for credit losses, which is recognized in earnings, and reduced by the charge-off of loan amounts, net of recoveries. The allowance for losses on unfunded commitments represents the expected credit losses on off-balance sheet commitments such as unfunded commitments to extend credit and standby letters of credit. However, a liability is not recognized for commitments unconditionally cancellable by the Company. The allowance for losses on unfunded commitments is determined by estimating future draws and applying the expected loss rates on those draws.

Management of the Company considers the accounting policy relating to the allowance for credit losses to be a critical accounting estimate given the uncertainty in evaluating the level of the allowance required to cover management's estimate of all expected credit losses over the expected contractual life of our loan portfolio. Determining the appropriateness of the allowance is complex and requires judgment by management about the effect of matters that are inherently uncertain. Subsequent evaluations of the then-existing loan portfolio, in light of the factors then prevailing, may result in significant changes in the allowance for credit losses in those future periods. While management's current evaluation of

the allowance for credit losses indicates that the allowance is appropriate, the allowance may need to be increased under adversely different conditions or assumptions. Going forward, the impact of utilizing the CECL approach to calculate the reserve for credit losses will be significantly influenced by the composition, characteristics and quality of our loan portfolio, as well as the prevailing economic conditions and forecasts utilized. Material changes to these and other relevant factors may result in greater volatility to the reserve for credit losses, and therefore, greater volatility to our reported earnings.

30

[Table of Contents](#)

One of the most significant judgments involved in estimating the Company's allowance for credit losses relates to the macroeconomic forecasts used to estimate expected credit losses over the forecast period. As of March 31, 2023, the model incorporated a baseline economic outlook along with an alternative downside scenario which were equally weighted, sourced from a reputable third-party to accommodate other potential economic conditions in the model, particularly significant unknowns relating to downside risks as of the measurement date. The baseline outlook reflected an unemployment rate environment below pre-COVID-19 levels throughout much of 3.8% and increasing gradually to 4.2% by the end of the forecast period. Northeast GDP's annualized growth (on a quarterly basis) is expected to start the second quarter of 2023 at approximately 3.9% about 3.6% and rise to 4.4% before falling slightly to reach 4.1% by the end of the forecast period. The alternative downside scenario assumed assumes deteriorated economic conditions from the baseline outlook. Under this scenario, northeast unemployment rises from 3.7% jumps to 5.2% in the first quarter of 2023 and rises to a peak of 7.1% 7.0% in the second quarter of 2024. These scenarios and their respective weightings are evaluated at each measurement date and reflect management's expectations as of March 31, 2023, June 30, 2023. All else held equal, the changes in the weightings of our forecasted scenarios would impact the amount of estimated allowance for credit losses through changes in the quantitative reserve and scenario-specific qualitative adjustments. To demonstrate the sensitivity of the allowance for credit losses estimate to macroeconomic forecast weightings assumptions as of March 31, 2023, June 30, 2023, the Company increased the downside scenario weighting by 10% to 60% 50% and decreased the baseline scenario to 40% 50% weighting which resulted in a 3% 3.5% increase in the overall estimated allowance for credit losses. To further demonstrate the sensitivity of the allowance for credit losses estimate to macroeconomic forecast weightings assumptions as of March 31, 2023, June 30, 2023, the Company increased the downside scenario to 100% which resulted in a 17% 21% increase in the overall estimated allowance for credit losses.

The Company's policies on the CECL method for allowance for credit losses are disclosed in Note 1 to the consolidated financial statements presented in our 2022 Annual Report on Form 10-K. All accounting policies are important and as such, the Company encourages the reader to review each of the policies included in Note 1 to the consolidated financial statements presented in our 2022 Annual Report on Form 10-K to obtain a better understanding of how the Company's financial performance is reported. Refer to Note 3 to the unaudited interim consolidated financial statements in this Quarterly Report on Form 10-Q for recently adopted accounting standards.

30

[Table of Contents](#)

Overview

Significant factors management reviews to evaluate the Company's operating results and financial condition include, but are not limited to: net income and earnings per share, return on average assets and equity, net interest margin, noninterest income, operating expenses, asset quality indicators, loan and deposit growth, capital management, liquidity and interest rate sensitivity, enhancements to customer products and services, technology advancements, market share and peer comparisons. The following information should be considered in connection with the Company's results for the three and six months ended March 31, 2023, June 30, 2023:

- net income for the three months ended June 30, 2023 was \$30.1 million, down \$7.7 million from the second quarter of \$33.7 million, or \$0.78 diluted earnings per share; 2022 and down \$3.6 million from the first quarter of 2023;
- noninterest income, excluding securities losses, was \$36.4 million diluted earnings per share of \$0.70 for the three months ended June 30, 2023, up \$2.1 million, or 6.1% down \$0.18 from the fourth second quarter of 2022 and down \$6.4 million, or 15.0% \$0.08 from the first quarter of 2022; represents 28% of total revenues; 2023;
- excluding securities losses, noninterest income represents 29% of total revenues and was \$36.7 million for the three months ended June 30, 2023, down \$5.6 million, or 13.2%, from the second quarter of 2022 and up \$0.3 million, or 0.8%, from the first quarter of 2023;
- noninterest expense, excluding \$0.6 million \$1.2 million of acquisition expenses in the second quarter of 2023 and \$0.6 million in the first quarter of 2023, and \$1.0 million in respectively, was up \$1.5 million, or 2.0%, from the fourth second quarter of 2022 was comparable to the previous quarter and up 9.1% down \$1.1 million, or 1.4%, from the first quarter of 2022; 2023;
- period end loans were \$8.26 billion \$8.36 billion, up 5.7% 5.1%, annualized, from December 31, 2022;
- credit quality metrics including net charge-offs to average loans of 0.19%, annualized, and allowance for loan losses to total loans at 1.21%;
- period end deposits were \$9.68 billion \$9.53 billion, up 2.0% 0.4% from December 31, 2022;
- book value per share of \$28.24 \$28.26 at March 31, 2023, June 30, 2023; tangible book value per share(1) was \$21.55 at June 30, 2023, \$21.52 at March 31, 2023, \$20.65 and \$20.99 at December 31, 2022 and \$21.25 at March 31, 2022;
- the Company incurred a \$5.0 million securities loss on the write-off of a subordinated debt security of a failed bank. June 30, 2022.

Salisbury Bancorp, Inc. Merger

On July 10, 2023, NBT announced it has received the regulatory approvals and waivers from the Office of the Comptroller of the Currency, the Connecticut State Banking Department and the Federal Reserve Bank of New York necessary to complete its acquisition of Salisbury. NBT and Salisbury anticipate closing the transaction on August 11, 2023, subject to the satisfaction of customary closing conditions. A systems conversion will follow with locations of Salisbury Bank and Trust Company ("Salisbury Bank") opening as NBT Bank offices on August 14, 2023. Salisbury Bank is a Connecticut-chartered commercial bank with 13 banking offices in northwestern Connecticut, the Hudson Valley region of New York, and southwestern Massachusetts. Salisbury had assets of \$1.56 billion, deposits of \$1.36 billion and net loans of \$1.24 billion as of June 30, 2023.

Results of Operations

Net income for the three months ended **March 31, 2023** **June 30, 2023** was **\$33.7 million** **\$30.1 million**, or **\$0.78** **\$0.70** per diluted common share, down **\$2.5 million** **\$3.6 million** from **\$36.1 million** **\$33.7 million**, or **\$0.84** **\$0.78** per diluted common share for the three months ended **December 31, 2022** **March 31, 2023** and down **\$5.5 million** **\$7.7 million** from **\$39.1 million** **\$37.8 million**, or **\$0.90** **\$0.88** per diluted common share for the **first** **second** quarter of 2022.

- Net interest income for **Excluding** the **three** months ended **March 31, 2023** was **\$95.1 million**, down **\$4.7 million**, or **4.7%** from **impact of securities losses and acquisition expenses**, the **fourth** Company generated **\$0.80** per diluted share of earnings in the **second** quarter of 2023, compared to **\$0.89** per diluted share in the **second** quarter of 2022 and up **\$14.7 million**, or **18.3%**, from the **first** quarter of 2022, primarily due to higher yields on earning assets due to increases in the **Federal Reserve's** targeted **Federal Funds rate** as well as the new loan volume pricing, which was partially offset by the higher cost of **interest-bearing liabilities**. The **first** quarter of 2022 also included **\$2.0 million** (**\$0.04** **\$0.88** per diluted share) of income from the **Paycheck Protection Program ("PPP")**.

31

Table of Contents

- The Company recorded a provision for loan losses of **\$3.9 million** (**\$0.07** per diluted share) for the three months ended **March 31, 2023**, compared to **\$0.6 million** (**\$0.01** per diluted share) in the first quarter of **2022** and **\$7.7 million** (**\$0.14** per diluted share) in **2023**. Net interest income was negatively impacted on a linked quarter basis from the **fourth** quarter continuation of **2022**, higher funding costs.
- Card services income was comparable to in the **three** months ended **December 31, 2022** and approximately **\$4.0 million** in the **second** quarter of 2023, the Company incurred a **\$4.5 million** (**\$0.07** **\$0.08** per diluted share) lower than securities loss on the sale of two subordinated debt securities held in the AFS portfolio. In the first quarter of **2022** driven by **2023**, the **impact** Company incurred a **\$5.0 million** (**\$0.09** per diluted share) securities loss on the write-off of the **statutory price cap** provisions a subordinated debt security of the Durbin Amendment to the Dodd-Frank Act ("Durbin Amendment"). a failed bank.
- The Company incurred acquisition expenses of **\$0.6 million** **\$1.2 million** (**\$0.01** **\$0.02** per diluted share) and **\$1.0 million** **\$0.6 million** (**\$0.02** **\$0.01** per diluted share) related to the pending merger with **Salisbury Bancorp, Inc. ("Salisbury")** in the **second** quarter of **2023** and the **first** quarter of **2023**, and the **fourth** quarter of **2022**, respectively.

31

Table of Contents

Net income for the six months ended **June 30, 2023** was **\$63.7 million**, or **\$1.48** per diluted common share, down **\$13.2 million** from **\$76.9 million**, or **\$1.78** per diluted common share for the six months ended **June 30, 2022**.

- Excluding the impact of securities losses and acquisition expenses, the Company generated **\$1.68** per diluted share of earnings for the six months ended **June 30, 2023**, compared to **\$1.80** per diluted share for the six months ended **June 30, 2022**. Net interest income was negatively impacted from the continuation of higher funding costs.
- In the six months ended **June 30, 2023**, the Company incurred a **\$4.5 million** (**\$0.08** per diluted share) securities loss on the sale of two subordinated debt securities held in the AFS portfolio and a **\$5.0 million** (**\$0.09** per diluted share) securities loss on the write-off of a subordinated debt security of a failed bank.
- The Company incurred acquisition expenses of **\$1.8 million** (**\$0.03** per diluted share) related to the pending merger with **Salisbury** in the six months ended **June 30, 2023**.

Net Interest Income

Net interest income is the difference between interest income on earning assets, primarily loans and securities and interest expense on interest-bearing liabilities, primarily deposits and borrowings. Net interest income is affected by the interest rate spread, the difference between the yield on interest-earning assets and cost of interest-bearing liabilities, as well as the volumes of such assets and liabilities. Net interest income is one of the key determining factors in a financial institution's performance as it is the principal source of earnings.

Net interest income was **\$95.1 million** **\$89.1 million** for the **first** **second** quarter of 2023, down **\$4.7 million** **\$6.0 million**, or **4.7%** **6.3%**, from the previous **quarter**, and included two less **days in the first quarter of 2023 compared to the fourth quarter of 2022**, **quarter**. The FTE net interest margin was **3.55%** **3.27%** for the three months ended **March 31, 2023** **June 30, 2023**, a decrease of **13.28** basis points ("bps") from the previous quarter. Interest income increased **\$5.0 million** **\$6.4 million**, or **4.6%** **5.6%**, as the yield on average interest-earning assets increased **24.16** bps from the prior quarter to **4.26%** **4.42%**, while average interest-earning assets of **\$10.91 billion** **\$10.98 billion** increased **\$108.8 million** **\$73.4 million** from the prior quarter, primarily due to an increase in average loans partially offset by a decrease in average investment securities. Interest expense was up **\$9.7 million** **\$12.4 million**, or **103.6%** **64.7%**, as the cost of interest-bearing liabilities increased **57.66** bps to **1.14%** **1.80%** for the quarter ended **March 31, 2023** **June 30, 2023**, driven by interest-bearing deposit costs increasing **47.56** bps, as well as higher **\$200.6 million** increase in the average balances in of short-term borrowings and a **31** bps increase on the rates paid on those borrowings.

Net interest income was **\$95.1 million** **\$89.1 million** for the **first** **second** quarter of 2023, up **\$14.7 million** **\$1.5 million**, or **18.3%** **1.7%**, from the **first** **second** quarter of 2022. The **first** **second** quarter of 2022 included **\$2.0 million** **\$1.3 million** of **PPP Paycheck Protection Program ("PPP")** loan interest and fees recognized into interest income. The FTE net interest margin was **3.55%** **3.27%** for the three months ended **March 31, 2023** **June 30, 2023**, an increase of **606** bps from the **first** **second** quarter of 2022. Interest income increased **\$30.1 million** **\$29.1 million**, or **35.6%** **31.8%**, as the yield on average interest-earning assets increased **117.107** bps from the same period in 2022 to **4.26%** **4.42%**, while average interest-earning assets decreased **\$179.2 million**, or **1.6%**, from **\$10.98 billion** was comparable to the **first** **second** quarter of 2022 primarily due to as the increase in average loans was offset by the decrease in short-term interest-bearing accounts ("excess liquidity") and a decrease in excess liquidity was partially offset by an increase in loans and average investment securities. Interest expense increased **\$15.3 million** **\$27.6 million**, or **396.4%** **708.2%**, as the cost of interest-bearing liabilities increased **91.157** bps to **1.14%** **1.80%** for the quarter ended **March 31, 2023** **June 30, 2023**, driven by interest-bearing deposit costs increasing **63.119** bps, as well as higher **\$557.8 million** increase in the average balances in of short-term borrowings and a **527** bps rate paid on those borrowings.

Net interest income for the rates first six months of 2023 was \$184.2 million, up \$16.2 million, or 9.7%, from the same period in 2022. PPP loan interest and fees recognized into interest income for the six months ended June 30, 2022 was \$3.3 million. FTE net interest margin was 3.41% for the six months ended June 30, 2023, an increase of 33 bps from the same period in 2022. Interest income increased \$59.1 million, or 33.6%, as the yield on average interest-earning assets increased 112 bps from the same period in 2022 to 4.34%, while average interest-earning assets of \$10.95 billion decreased \$88.9 million primarily due to the decrease in excess liquidity more than offsetting the increase in average loans. Interest expense was up \$42.9 million, or 553.2%, for the six months ended June 30, 2023 as compared to the same period in 2022 driven by interest-bearing deposit costs increasing 92 bps, as well as a \$458.1 million increase in the average balances of short-term borrowings and a 515 bps rate paid on those borrowings.

[Table of Contents](#)

The following table presents changes in interest income and interest expense attributable to changes in volume (change in average balance multiplied by prior year rate), changes in rate (change in rate multiplied by prior year volume) and the net change in net interest income. The net change attributable to the combined impact of volume and rate has been allocated to each in proportion to the absolute dollar amounts of change.

Noninterest Income

Noninterest income is a significant source of revenue for the Company and an important factor in the Company's results of operations. The following table sets forth information by category of noninterest income for the periods indicated:

(In thousands)	Three Months Ended March 31,		Three Months Ended June 30,		Six Months Ended June 30,	
	2023	2022	2023	2022	2023	2022

Service charges on deposit accounts	\$ 3,548	\$ 3,688	\$ 3,733	\$ 3,763	\$ 7,281	\$ 7,451
Card services income	4,845	8,695	5,121	9,751	9,966	18,446
Retirement plan administration fees	11,462	13,279	11,735	12,676	23,197	25,955
Health management	8,087	8,640	8,227	8,252	16,314	16,892
Insurance services	3,931	3,788	3,716	3,578	7,647	7,366
Bank owned life insurance income	1,878	1,654	1,528	1,411	3,406	3,065
Net securities (losses)	(4,998)	(179)	(4,641)	(587)	(9,639)	(766)
Other	2,656	3,094	2,626	2,812	5,282	5,906
Total noninterest income	\$ 31,409	\$ 42,659	\$ 32,045	\$ 41,656	\$ 63,454	\$ 84,315

Noninterest income for the three months ended **March 31, 2023** June 30, 2023 was \$31.4 million \$32.0 million, down \$2.7 million up \$0.6 million, or 7.9% 2.0%, from the **fourth** prior quarter of 2022 and down \$11.3 million \$9.6 million, or 26.4% 23.1%, from the **first** second quarter of 2022. During the three months ended June 30, 2023, the Company incurred a \$4.5 million securities loss on the sale of two subordinated debt securities held in the AFS portfolio and during the three months ended March 31, 2023, the Company incurred a \$5.0 million securities loss on the write-off of a subordinated debt security of a failed bank. Excluding net securities losses, noninterest income for the three months ended **March 31, 2023** June 30, 2023 was \$36.4 million \$36.7 million, up \$2.1 million \$0.3 million, or 6.1% 0.8%, from the prior quarter and down \$6.4 million \$5.6 million, or 15.0% 13.2%, from the **first** second quarter of 2022. The increase from the prior quarter was primarily driven by an increase in card services income and retirement plan administration fees driven by seasonal revenues fees. The decrease from the **first** second quarter of 2022 was driven by lower card services income from the impact of the statutory price cap provisions of the Durbin Amendment of approximately \$4.0 million. In addition, the decrease from the prior year was impacted by lower retirement plan administration fees driven by unfavorable market performance and a decrease in activity-based fees which were primarily related to statutory plan document restatements.

Noninterest income for the six months ended June 30, 2023 was \$63.5 million, down \$20.9 million, or 24.7%, from the same period in 2022. Excluding net securities losses, noninterest income for the six months ended June 30, 2023 was \$73.1 million, down \$12.0 million, or 14.1%, from the same period in 2022. The decrease from the prior year was primarily due to lower card services income from the impact of the statutory price cap provisions of the Durbin Amendment of approximately \$8.0 million, lower retirement plan administration fees driven by a decrease in certain activity-based fees along with and a decrease in wealth management fees driven primarily by a decline in market performance other noninterest income due to lower commercial loan swap fees.

Occupancy	7,220	6,793	6,923	6,487	14,143	13,280
Professional fees and outside services	4,178	4,276	4,159	3,906	8,337	8,182
Office supplies and postage	1,628	1,424	1,676	1,548	3,304	2,972
FDIC assessment	1,396	802	1,344	810	2,740	1,612
Advertising	649	654	525	730	1,174	1,384
Amortization of intangible assets	536	636	458	545	994	1,181
Loan collection and other real estate owned, net	855	384	691	757	1,546	1,141
Acquisition expenses	618	-	1,189	-	1,807	-
Other	5,080	3,119	5,690	5,675	10,770	8,794
Total noninterest expense	\$ 79,322	\$ 72,143	\$ 78,794	\$ 76,119	\$ 158,116	\$ 148,262

Noninterest expense for the three months ended **March 31, 2023** June 30, 2023 was \$79.3 million \$78.8 million, down \$0.2 million \$0.5 million, or 0.2% 0.7%, from the prior quarter and up \$7.2 million \$2.7 million, or 10.0% 3.5%, from the **first** second quarter of 2022. The Company incurred acquisition expenses of \$1.2 million, \$0.6 million and \$1.0 million related to the pending merger with Salisbury in the second quarter of 2023, first quarter of 2023 and the fourth quarter of 2022, respectively. Excluding acquisition expenses, noninterest expense for the three months ended **March 31, 2023** June 30, 2023 was \$78.7 million \$77.6 million, up \$0.2 million down \$1.1 million, or 0.2% 1.4%, from the prior quarter and up \$6.6 million \$1.5 million, or 9.1% 2.0%, from the **first** second quarter of 2022. The increase decrease from the prior quarter was primarily driven by higher lower salaries and employee benefits due to seasonally higher payroll taxes seasonally and higher stock-based compensation expenses and in the first quarter along with a lower level of incentive compensation in the second quarter, which were partially offset by a full quarter of merit pay increases. In addition, increases and higher health and welfare benefits. These decreases were partially offset by higher technology and data services due to continued investment in digital platform solutions and an increase in other expenses driven by a \$0.1 million reduction in the reserve for unfunded loan commitments in the second quarter of 2023 compared to a \$0.6 million reduction in the first quarter 2023. The increase from the second quarter of 2022 was driven by the increase in occupancy costs was technology and data services due to seasonal costs including utility expenses and continued investment in digital platform solutions, the increase in FDIC Federal Deposit Insurance Corporation ("FDIC") assessment expense was due to driven by the statutory increase in the FDIC assessment rate, rate, and increased occupancy costs were driven by higher utilities, rent and seasonal maintenance costs.

Noninterest expense for the six months ended June 30, 2023 was \$158.1 million, up \$9.9 million, or 6.6%, from the same period in 2022. The Company incurred acquisition expenses of \$1.8 million for the six months ended June 30, 2023. Excluding acquisition expenses, noninterest expense for the six months ended June 30, 2023 was \$156.3 million, up \$8.0 million, or 5.4%, from the same period in 2022. The increase from the prior quarter was partially offset by lower professional fees and outside services driven by seasonal expenses higher salaries and timing of external services for several tactical and strategic initiatives incurred in the prior quarter and other expenses declined from the seasonally higher linked fourth quarter of 2022. The increase from the first quarter of 2022 was driven by employee benefits due to increased salaries and wages including merit pay increases and higher benefit plan expenses health and staff additions. welfare benefits which were partially offset by lower levels of incentive compensation. In addition, the increase in technology and data services was due to continued investment in digital platform solutions, the increase in FDIC assessment expense was driven by the statutory increase in the FDIC assessment rate, increased occupancy costs were driven by higher utilities, rent and maintenance costs and other expenses were higher due to the increase in actuarially determined expenses related to the Company's retirement plans and higher travel and training expenses due to increased activity compared to the pandemic-impacted first quarter of 2022. plans.

ANALYSIS OF FINANCIAL CONDITION

Securities

Total securities decreased \$25.9 million \$76.8 million, or 1.0% 3.1%, from December 31, 2022 to March 31, 2023 June 30, 2023. The securities portfolio represents 20.7% represented 20.2% of total assets as of March 31, 2023 June 30, 2023 as compared to 21.1% of total assets as of December 31, 2022.

The following table details the composition of securities available for sale, securities held to maturity and equity securities for the periods indicated:

	March 31, 2023	December 31, 2022	June 30, 2023	December 31, 2022
Mortgage-backed securities:				
With maturities 15 years or less	13 %	13 %	13 %	13 %
With maturities greater than 15 years	11 %	11 %	11 %	11 %
Collateral mortgage obligations	37 %	37 %	36 %	37 %
Municipal securities	15 %	15 %	16 %	15 %
J.S. agency notes	21 %	21 %	21 %	21 %
Corporate	2 %	2 %	2 %	2 %
Equity securities	1 %	1 %	1 %	1 %
Total	100 %	100 %	100 %	100 %

The Company's mortgage-backed securities, U.S. agency notes and collateralized mortgage obligations are all guaranteed by Fannie Mae, Freddie Mac, the Federal Home Loan Bank, Federal Farm Credit Banks or Ginnie Mae ("GNMA"). GNMA securities are considered similar in credit quality to U.S. Treasury securities, as they are backed by the full faith and credit of the U.S. government. Currently, there are no subprime mortgages in our investment portfolio.

Loans

A summary of the loan portfolio by major categories⁽¹⁾, net of deferred fees and origination costs, for the periods indicated follows:

(In thousands)	March 31, 2023	December 31, 2022	June 30, 2023	December 31, 2022
	\$ 1,278,291	\$ 1,266,031	\$ 1,319,093	\$ 1,266,031

⁽¹⁾ Loans are summarized by business line which does not align to how the Company assesses credit risk in the estimate for credit losses under CECL.

[Table of Contents](#)

Total loans increased by **\$114.4 million** **\$208.0 million**, or **5.7%** **5.1%** annualized, from December 31, 2022 to **March 31, 2023** **June 30, 2023**. Commercial and industrial loans increased **\$12.3 million** **\$53.1 million** to **\$1.28 billion** **\$1.32 billion**; commercial real estate loans increased **\$37.7 million** **\$76.3 million** to **\$2.85 billion** **\$2.88 billion**; and total consumer loans increased **\$64.5 million** **\$78.6 million** to **\$4.14 billion** **\$4.15 billion**. Included in total consumer loans is **\$158.0 million** of a portfolio of loans in a run-off status. Total loans represent approximately **69.8%** **70.3%** of total assets as of **March 31, 2023** **June 30, 2023**, as compared to 69.4% as of December 31, 2022.

Allowance for Credit Losses, Provision for Loan Losses and Nonperforming Assets

Beginning January 1, 2023, the Company adopted Accounting Standards Updates ("ASU") 2022-02 *Financial Instruments - CECL Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures* which resulted in an insignificant change to the Company's methodology for estimating the allowance for credit losses on Troubled Debt Restructurings ("TDRs") since December 31, 2022. The January 1, 2023 decrease in allowance for credit loss on TDR loans relating to adoption of ASU 2022-02 was **\$0.6 million**, **\$0.6 million**, which increased retained earnings by \$0.5 million and decreased the deferred tax asset by \$0.1 million.

Management considers the accounting policy relating to the allowance for credit losses to be a critical estimate given the degree of judgment exercised in evaluating the level of the allowance required to estimate expected credit losses over the expected contractual life of our loan portfolio and the material effect that such judgments can have on the consolidated results of operations.

[Table of Contents](#)

The CECL approach requires an estimate of the credit losses expected over the life of a loan (or pool of loans). The allowance for credit losses is a valuation account that is deducted from, or added to, the loans' amortized cost basis to present the net, lifetime amount expected to be collected on the loans. Loan losses are charged off against the allowance when management believes a loan balance is confirmed to be uncollectible. Expected recoveries do not exceed the aggregate of amounts previously charged-off and expected to be charged-off.

Required additions or reductions to the allowance for credit losses are made periodically by charges or credits to the provision for loan losses. These are necessary to maintain the allowance at a level which management believes is reasonably reflective of the overall loss expected over the contractual life of the loan portfolio. While management uses available information to recognize losses on loans, additions or reductions to the allowance may fluctuate from one reporting period to another. These fluctuations are reflective of changes in risk associated with portfolio content and/or changes in management's assessment of any or all of the determining factors discussed above. Management considers the allowance for credit losses to be appropriate based on evaluation and analysis of the loan portfolio.

Management estimates the allowance balance for credit losses using relevant available information, from internal and external sources, related to past events, current conditions, and reasonable and supportable forecasts. Historical credit loss experience provides the basis for the estimation of expected credit losses. Company historical loss experience was supplemented with peer information when there was insufficient loss data for the Company. Significant management judgment is required at each point in the measurement process.

The allowance for credit losses is measured on a collective (pool) basis, with both a quantitative and qualitative analysis that is applied on a quarterly basis, when similar risk characteristics exist. The respective quantitative allowance for each segment is measured using an econometric, discounted probability of default and loss given default modeling methodology in which distinct, segment-specific multi-variate regression models are applied to multiple, probabilistically weighted external economic forecasts. Under the discounted cash flows methodology, expected credit losses are estimated over the effective life of the loans by measuring the difference between the net present value of modeled cash flows and amortized cost basis. After quantitative considerations, management applies additional qualitative adjustments so that the allowance for credit loss is reflective of the estimate of lifetime losses that exist in the loan portfolio at the balance sheet **date**, **date**.

Portfolio segment is defined as the level at which an entity develops and documents a systematic methodology to determine its allowance for credit losses. Upon adoption of CECL, management revised the manner in which loans were pooled for similar risk characteristics. Management developed segments for estimating loss based on type of borrower and collateral which is generally based upon federal call report segmentation and have been combined or subsegmented as needed to ensure loans of similar risk profiles are appropriately pooled.

Additional information about our Allowance for Loan Losses is included in Note 5 to the consolidated financial statements. The Company's management considers the allowance for credit losses to be appropriate based on evaluation and analysis of the loan portfolio.

The allowance for credit losses totaled **\$100.3 million** **\$100.4 million** at **March 31, 2023** **June 30, 2023**, compared to **\$100.8 million** **\$100.3 million** at **December 31, 2022** **March 31, 2023** and **\$90.0 million** **\$93.6 million** at **March 31, 2022** **June 30, 2022**. The allowance for credit losses as a percentage of loans was **1.21%** **1.20%** at **March 31, 2023** **June 30, 2023**, compared to **1.24%** **1.21%** at **December 31, 2022** **March 31, 2023** and **1.18%** **1.20%** at **March 31, 2022** **June 30, 2022**. The allowance for credit losses was **538.63%** **510.01%** of nonperforming loans at **March 31, 2023** **June 30, 2023**, compared to **478.72%** **538.63%** at **December 31, 2022** **March 31, 2023** and **324.25%** **363.23%** at **March 31, 2022** **June 30, 2022**. The allowance for credit losses was **593.00%** of nonaccrual loans at **June 30, 2023**, compared to **615.63%** of nonaccrual loans at **March 31, 2023**, and compared to **584.92%** of nonaccrual loans **395.39%** at **December 31, 2022** and **348.68%** at **March 31, 2022** **June 30, 2022**. The **decrease** allowance for credit losses as of **June 30, 2023** is fairly consistent with the allowance estimates as of **March 31, 2023**. The **increase** in the allowance for credit losses from **December 31, 2022** compared **June 30, 2022** to **March 31, 2023** **June 30, 2023** was primarily due to a reduction in expected net losses in the residential solar portfolios, an improvement in economic forecasts and a reduction in allowance on TDRs related to the adoption of ASU 2022-02. These decreases were partially offset by an increase in providing for loan growth experienced over the increase in loan balances and declining prepayment speeds. The **increase** in allowance for credit losses from **March 31, 2022** to **March 31, 2023** was primarily due to an increase in providing for the increase in loan balances **last year**.

[Table of Contents](#)

The provision for loan losses was \$3.9 million \$3.6 million for three months ended March 31, 2023 June 30, 2023, compared to \$7.7 million \$3.9 million in the prior quarter and \$0.6 million \$4.4 million for the same period in the prior year. Provision expense decreased from the prior quarter due to a lower level of loan growth in the first quarter, generally stable economic forecasts and portfolio mix composition and quality. The increase in provision expense from March 31, 2022, was driven by higher net charge-offs and stable economic conditions, in contrast to improved economic conditions in the CECL forecast in the same period in the prior year due to the second quarter of 2022 including an increase in the allowance due to the deterioration in the forecast of economic conditions, increase in loan balances and an additional specific reserve established, which were partially offset by an increase in net charge-offs in the second quarter of 2023. Net charge-offs totaled \$3.8 million \$3.5 million during the three months ended March 31, 2023 June 30, 2023, compared to net charge-offs of \$3.7 million \$3.8 million during the fourth first quarter of 2022 2023 and \$2.6 million \$0.8 million in the first second quarter of 2022. Net charge-offs to average loans was 1917 bps for the three months ended March 31, 2023 June 30, 2023, compared to 1819 bps for the fourth first quarter of 2022 2023 and 144 bps for the three months ended March 31, 2022 June 30, 2022.

The provision for loan losses was \$7.5 million for the six months ended June 30, 2023, compared to \$5.0 million for the six months ended June 30, 2022. Provision expense increased from the same period in the prior year due primarily to an increase in net charge-offs during the six months ended June 30, 2023. Net charge-offs totaled \$7.3 million during the six months ended June 30, 2023, compared to net charge-offs of \$3.4 million during the six months ended June 30, 2022. Net charge-offs to average loans was 18 bps for the six months ended June 30, 2023, compared to 9 bps for the six months ended June 30, 2022.

As of March 31, 2023 June 30, 2023, the unfunded commitment reserve totaled \$4.5 million \$4.4 million, compared to \$4.5 million as of March 31, 2023 and \$5.1 million as of December 31, 2022 and \$4.8 million as of March 31, 2022 June 30, 2022.

38

Table of Contents

Nonperforming assets consist of nonaccrual loans, loans over 90 days past due and still accruing, troubled loans modifications, other real estate owned ("OREO") and nonperforming securities. Loans are generally placed on nonaccrual when principal or interest payments become 90 days past due, unless the loan is well secured and in the process of collection. Loans may also be placed on nonaccrual when circumstances indicate that the borrower may be unable to meet the contractual principal or interest payments. The threshold for evaluating classified and nonperforming loans specifically evaluated for individual credit loss is \$1.0 million. OREO represents property acquired through foreclosure and is valued at the lower of the carrying amount or fair value, less any estimated disposal costs.

Total nonperforming assets	\$ 18,717		\$ 21,161		\$ 19,865		\$ 21,161	
Total nonaccrual loans to total loans		0.20%		0.21%		0.20%		0.21%
Total nonperforming loans to total loans		0.23%		0.26%		0.24%		0.26%
Total nonperforming assets to total assets		0.16%		0.18%		0.17%		0.18%
Total allowance for loan losses to total nonperforming loans		538.63%		478.72%		510.01%		478.72%
Total allowance for loan losses to nonaccrual loans		615.63%		584.92%		593.00%		584.92%

Total nonperforming assets were \$18.7 million \$19.9 million at March 31, 2023 June 30, 2023, compared to \$21.2 million at December 31, 2022 and \$27.8 million \$25.8 million at March 31, 2022 June 30, 2022. Nonperforming loans at March 31, 2023 June 30, 2023 were \$18.6 million \$19.7 million, or 0.23% 0.24% of total loans, compared with \$21.1 million, or 0.26% of total loans at December 31, 2022 and \$27.8 million \$25.8 million, or 0.36% 0.33% of total loans at March 31, 2022 June 30, 2022. The decrease in nonperforming loans from June 30, 2022 primarily resulted from a reduction in consumer past due loans 90 days past due and still accruing and a reduction in commercial loans in nonaccrual loans. Total nonaccrual loans were \$16.3 million \$16.9 million or 0.20% of total loans at March 31, 2023 June 30, 2023, compared to \$17.2 million or 0.21% of total loans at December 31, 2022 and \$25.8 million compared to \$23.7 million or 0.34% 0.30% of total loans at March 31, 2022 June 30, 2022. Past due loans as a percentage of total loans was 0.30% 0.45% at March 31, 2023 June 30, 2023, down up from 0.33% at December 31, 2022 and up from 0.24% 0.40% at March 31, 2022 June 30, 2022.

41

Table of Contents

In addition to nonperforming loans discussed above, the Company has also identified approximately **\$55.9 million** **\$90.6 million** in potential problem loans at **March 31, 2023** **June 30, 2023** as compared to **\$52.0 million** at December 31, 2022 and **\$66.7 million** **\$56.0 million** at **March 31, 2022** **June 30, 2022**. Potential problem loans are loans that are currently performing, with a possibility of loss if weaknesses are not corrected. Such loans may need to be disclosed as nonperforming at some time in the future. Potential problem loans are classified by the Company's loan rating system as "substandard." The **decrease** **increase** in potential problem loans from **March 31, 2022** **December 31, 2022** and **June 30, 2022** is primarily due to the **improved** **economic** **conditions**. Higher risk industries include entertainment, restaurants, retail, healthcare and accommodations. As migration to substandard of **March 31, 2023**, 8.4% of the Company's outstanding loans were in higher risk industries due to the **COVID-19** **pandemic**. a **\$15.7 million** **commercial** **real** **estate** **relationship** **that** **is** **adequately** **collateralized**. Management cannot predict the extent to which economic conditions may worsen or other factors, which may impact borrowers and the potential problem loans. Accordingly, there can be no assurance that other loans will not become over 90 days past due, be placed on nonaccrual, become troubled loans modifications or require increased allowance coverage and provision for loan losses. To mitigate this risk the Company maintains a diversified loan portfolio, has no significant concentration in any particular industry and originates loans primarily within its footprint.

Deposits

Total deposits were **\$9.68 billion** **\$9.53 billion** at **March 31, 2023** **June 30, 2023**, up **\$185.3 million** **\$34.0 million**, or **2.0%** **0.4%**, from December 31, 2022. As of June 30, 2023 there were **\$242.0 million** of brokered time deposits, up from **\$19.4 million** as of December 31, 2022. The **increase** in deposits was concentrated in time **Company** continues to experience the migration from no interest and low interest checking and savings accounts into higher cost money market accounts with seasonal municipal and time deposit **inflows** during the first quarter of 2023. instruments. Total average deposits decreased **\$0.70 billion** **\$0.7 million**, or **6.8%** **7.0%**, from the same period last year. The decrease was driven primarily by a decrease of **\$207.6 million** **\$301.4 million**, or **5.6%** **8.1%**, in demand deposits, combined with a decrease in interest-bearing deposits of **\$491.5 million** **\$414.3 million**, or **7.5%** **6.3%**, due to decreases in money market accounts, partially offset by an increase in time accounts. The decrease in average balances was due primarily to larger commercial customers taking advantage of higher yielding investment opportunities in both the Company's wealth management solutions as well as other attractive offerings in the market. As of **March 31, 2023** **June 30, 2023** and December 31, 2022 the estimated amounts of uninsured deposits based on the **same** methodologies and assumptions used for the bank regulatory reporting was **\$3.7 billion** **\$3.5 billion** and **\$3.6 billion**, respectively.

39

Table of Contents

Borrowed Funds

The Company's borrowed funds consist of short-term borrowings and long-term debt. Short-term borrowings totaled **\$475.2 million** **\$652.4 million** at **March 31, 2023** **June 30, 2023** compared to **\$585.0 million** at December 31, 2022. Long-term debt was **\$29.8 million** at **March 31, 2023** **June 30, 2023** compared to **\$4.8 million** at December 31, 2022.

For more information about the Company's borrowing capacity and liquidity position, see "Liquidity Risk" below.

Subordinated Debt

On June 23, 2020, the Company issued **\$100.0 million** of 5.00% fixed-to-floating rate subordinated notes due 2030. The subordinated notes, which qualify as Tier 2 capital, bear interest at an annual rate of 5.00%, payable semi-annually in arrears commencing on January 1, 2021, and a floating rate of interest equivalent to the three-month Secured Overnight Financing Rate ("SOFR") plus a spread of 4.85%, payable quarterly in arrears commencing on October 1, 2025. The subordinated debt issuance cost of **\$2.2 million** are being amortized on a straight-line basis into interest expense over five years. As of **March 31, 2023** **June 30, 2023** and December 31, 2022 the subordinated debt net of unamortized issuance costs was **\$97.0 million** **\$97.1 million** and **\$96.9 million**, respectively. The Company repurchased **\$2.0 million** of the subordinated notes during the year ended December 31, 2022 at a discount of **\$0.1 million**.

Capital Resources

Stockholders' equity of **\$1.21 billion** represented **10.23%** **10.18%** of total assets at **March 31, 2023** **June 30, 2023** compared with **\$1.17 billion**, or **10.00%** of total assets, as of December 31, 2022. Stockholders' equity increased **\$38.1 million** **\$36.9 million** from December 31, 2022 driven by net income of **\$33.7 million** **\$63.7 million** for the **three** **six** months **ending** **March 31, 2023** and a **\$16.1 million** increase in accumulated other comprehensive income due primarily to the change in market value of securities available for sale, ended **June 30, 2023**, partially offset by dividends declared of **\$12.9 million**. The deferred tax asset related to **\$25.7 million** and the unrealized losses in investment securities decreased **\$5.1 million** from December 31, 2022 repurchase of common stock of **\$2.8 million**.

The Company did not purchase purchased 87,000 shares of its common stock during the **three** **months** **ended** **March 31, 2023**, **second** **quarter** of 2023 at an average price of **\$31.94** per share under its previously announced share repurchase program. The Company may repurchase shares of its common stock from time to time to mitigate the potential dilutive effects of stock-based incentive plans and other potential uses of common stock for corporate purposes. As of **March 31, 2023** **June 30, 2023**, there were **1,600,000** **1,513,000** shares available for repurchase under the Company's share repurchase this plan which was authorized on December 20, 2021 and is set to expire on December 31, 2023.

As the capital ratios in the following table indicate, the Company remained "well capitalized" at **March 31, 2023** **June 30, 2023** under applicable bank regulatory requirements. Capital measurements are well in excess of regulatory minimum guidelines and meet the requirements to be considered well capitalized for all periods presented. To be considered well capitalized, tier 1 leverage, common equity tier 1 capital, tier 1 capital and total risk-based capital ratios must be 5%, 6.5%, 8% and 10%, respectively.

Capital Measurements	March 31, 2023	December 31, 2022
Tier 1 leverage ratio	10.43 %	10.32 %
Common equity tier 1 capital ratio	12.28 %	12.12 %
Tier 1 capital ratio	13.34 %	13.19 %
Total risk-based capital ratio	15.53 %	15.38 %
Cash dividends as a percentage of net income	38.24 %	32.74 %

Per common share:

Book value	\$ 28.24	\$ 27.38
Tangible book value(1)	\$ 21.52	\$ 20.65
Tangible equity ratio(2)	7.99 %	7.73 %

In March 2020, the Office of Comptroller of the Currency ("OCC"), the Board of Governors of the Federal Reserve System and the **Federal Deposit Insurance Corporation (FDIC)** announced an interim final rule to delay the estimated impact on regulatory capital stemming from the implementation of CECL. Under the modified CECL transition provision, the regulatory capital impact of the January 1, 2020 CECL adoption date adjustment to the allowance for credit losses (after-tax) was deferred and was phased into regulatory capital at 25% per year commencing January 1, 2022. For the ongoing impact of CECL, the Company was allowed to defer the regulatory capital impact of the allowance for credit losses in an amount equal to 25% of the change in the allowance for credit losses (pre-tax) recognized through earnings for each period between January 1, 2020 and December 31, 2021. The cumulative adjustment to the allowance for credit losses between January 1, 2020 and December 31, 2021, was also phased into regulatory capital at 25% per year commencing January 1, 2022. The Company adopted the capital transition relief over the permissible five-year period.

Liquidity and Interest Rate Sensitivity Management

Market Risk

Interest rate risk is the most significant market risk affecting the Company. Other types of market risk, such as foreign currency exchange rate risk and commodity price risk, do not arise in the normal course of the Company's business activities or are immaterial to the results of operations.

Interest rate risk is defined as an exposure to a movement in interest rates that could have an adverse effect on the Company's net interest income. Net interest income is susceptible to interest rate risk to the degree that interest-bearing liabilities mature or reprice on a different basis than earning assets. When interest-bearing liabilities mature or reprice more quickly than earning assets in a given period, a significant increase in market rates of interest could adversely affect net interest income. Similarly, when earning assets mature or reprice more quickly than interest-bearing liabilities, falling interest rates could result in a decrease in net interest income.

To manage the Company's exposure to changes in interest rates, management monitors the Company's interest rate risk. Management's Asset Liability Committee ("ALCO") meets monthly to review the Company's interest rate risk position and profitability and to recommend strategies for consideration by the Board of Directors. Management also reviews loan and deposit pricing and the Company's securities portfolio, formulates investment and funding strategies and oversees the timing and implementation of transactions to assure attainment of the Board's objectives in the most effective manner. Notwithstanding the Company's interest rate risk management activities, the potential for changing interest rates is an uncertainty that can have an adverse effect on net income.

In **adjusting** **managing** the Company's asset/liability position, the Board and management aim to **manage** **regulate** the Company's interest rate risk while minimizing net interest margin compression. At times, depending on the level of general interest rates, the relationship between long and short-term interest rates, market conditions and competitive factors, the Board and management may determine to increase the Company's interest rate risk position somewhat in order to increase its net interest margin. The Company's results of operations and net portfolio values remain vulnerable to changes in interest rates and fluctuations in the difference between long and short-term interest rates.

The primary tool utilized by the ALCO to manage interest rate risk is earnings at risk modeling (interest rate sensitivity analysis). Information, such as principal balance, interest rate, maturity date, cash flows, next repricing date (if needed) and current rates are uploaded into the model to create an ending balance sheet. In addition, the ALCO makes certain assumptions regarding prepayment speeds for loans and mortgage related investment securities along with any optionality within the deposits and borrowings. The model is first run under an assumption of a flat rate scenario (i.e. no change in current interest rates) with a static balance sheet. Three additional models are run in which a gradual increase of 200 bps, a gradual increase of 100 bps and a gradual decrease of 200 bps takes place over a 12-month period with a static balance sheet. Under these scenarios, assets subject to prepayments are adjusted to account for faster or slower prepayment assumptions. Any investment securities or borrowings that have callable options embedded in them are

handled accordingly based on the interest rate scenario. The resulting changes in net interest income are then measured against the flat rate scenario. The Company also runs other interest rate scenarios to highlight potential interest rate risk.

In the declining rate scenario, net interest income is projected to decrease when compared to the forecasted net interest income in the flat rate scenario through the simulation period. The decrease in net interest income is a result of earning assets repricing and rolling over at lower yields at a faster pace than interest-bearing liabilities decline and/or reach their floors. In the rising rate scenarios, net interest income is projected to experience an increase from the flat rate scenario; however, the potential impact on earnings may be affected by the ability to lag deposit repricing on NOW, savings, money market deposit accounts and time accounts. Net interest income for the next twelve months in the +200/+100/-200 bp scenarios, as described above, is within the internal policy risk limits of not more than a 7.5% reduction in net interest income. The following table summarizes the percentage change in net interest income in the rising and declining rate scenarios over a 12-month period from the forecasted net interest income in the flat rate scenario using the **March 31, 2023** **June 30, 2023** balance sheet position:

Interest Rate Sensitivity Analysis		Percent change in net interest income	Percent change in net interest income
Change in interest rates (in bps)			
Interest Rate Sensitivity Analysis			
Change in interest rates (in bps)			
+200		2.08 %	1.57 %
+100		1.31 %	1.06 %
-200		(2.86 %)	(2.11 %)

The Company anticipates that the trajectory of net interest income will continue to depend significantly on the timing and path of short to mid-term interest rates which are heavily driven by inflationary pressures and **FOMC** Federal Open Market Committee monetary policy. In response to the economic impact of the pandemic, the federal funds rate was reduced to near zero in March 2020, term interest rates fell sharply across the yield curve and the Company reduced deposit rates. Post-pandemic, inflationary pressures have resulted in a higher overall yield curve with Fed Funds increases of 425 bps in 2022. Expectations 2022 and an additional 75 bps in 2023. Current expectations are for continued increases to short-term interest rates to normalize at current levels in the near-term as inflation levels have moderated. While deposit rates have increased meaningfully in 2023 have been tempered by weakness in conjunction with the financial sector of the economy. With deposit increase to short term interest rates, coming off their historic lows, the Company continues to focus on managing deposit expense and overall deposit levels in an environment with elevated interest rates and heightened demand for deposits. liquidity.

41 44

[Table of Contents](#)

Liquidity Risk

Liquidity risk arises from the possibility that the Company may not be able to satisfy current or future financial commitments or may become unduly reliant on alternate funding sources. The objective of liquidity management is to ensure the Company can fund balance sheet growth, meet the cash flow requirements of depositors wanting to withdraw funds or borrowers needing assurance that sufficient funds will be available to meet their credit needs. ALCO is responsible for liquidity management and has developed guidelines, which cover all assets and liabilities, as well as off-balance sheet items that are potential sources or uses of liquidity. Liquidity policies must also provide the flexibility to implement appropriate strategies, along with regular monitoring of liquidity and testing of the contingent liquidity plan. Requirements change as loans grow, deposits and securities mature and payments on borrowings are made. Liquidity management includes a focus on interest rate sensitivity management with a goal of avoiding widely fluctuating net interest margins through periods of changing economic conditions. Loan repayments and maturing investment securities are a relatively predictable source of funds. However, deposit flows, calls of investment securities and prepayments of loans and mortgage-related securities are strongly influenced by interest rates, the housing market, general and local economic conditions, and competition in the marketplace. Management continually monitors marketplace trends to identify patterns that might improve the predictability of the timing of deposit flows or asset prepayments.

The primary liquidity measurement the Company utilizes is called "Basic Surplus," which captures the adequacy of its access to reliable sources of cash relative to the stability of its funding mix of average liabilities. This approach recognizes the importance of balancing levels of cash flow liquidity from short and long-term securities with the availability of dependable borrowing sources, which can be accessed when necessary. At **March 31, 2023** **June 30, 2023**, the Company's Basic Surplus measurement was **14.6%** **13.9%** of total assets, or **\$1.73 billion** **\$1.66 billion**, as compared to the December 31, 2022 Basic Surplus of 13.2%, or \$1.55 billion, and was above the Company's minimum of 5% (calculated at **\$592.0 million** **\$594.5 million** and **\$587.0 million** of period end total assets at **March 31, 2023** as **June 30, 2023** and December 31, 2022, respectively) set forth in its liquidity policies.

At **March 31, 2023** **June 30, 2023** and December 31, 2022, Federal Home Loan Bank ("FHLB") advances outstanding totaled **\$457.8 million** **\$622.8 million** and \$443.8 million, respectively. At **March 31, 2023** **June 30, 2023** and December 31, 2022, the Bank had **\$68.0 million** and **\$8.0 million**, respectively, of collateral encumbered by municipal letters of credit. The Bank is a member of the FHLB system and had additional borrowing capacity from the FHLB of approximately **\$1.16 billion** **\$924.5 million** at **March 31, 2023** **June 30, 2023** and **\$1.17 billion** at December 31, 2022. In addition, unpledged securities could have been used to increase borrowing capacity at the FHLB by an additional **\$835.7 million** **\$1.02 billion** and **\$898.1 million** at **March 31, 2023** **June 30, 2023** and December 31, 2022, respectively, or used to collateralize other borrowings, such as repurchase agreements. The Company also has the ability to issue brokered time deposits and to borrow against established borrowing facilities with other banks (federal funds), which could provide additional liquidity of **\$1.87 billion** **\$1.78 billion** at **March 31, 2023** **June 30, 2023** and **\$1.92 billion** at December 31, 2022. In addition, the Bank has a "Borrower-in-Custody" program with the FRB with the addition of the ability to pledge automobile loans as collateral. At **March 31, 2023** **June 30, 2023** and December 31, 2022, the Bank had the capacity to borrow **\$654.2 million** **\$677.0 million** and **\$622.7 million**, respectively, from this program. The Company's internal policies authorize borrowings policy authorizes borrowing up to 25% of assets. Under this policy, remaining available borrowing capacity totaled **\$2.48 billion** **\$2.27 billion** at **March 31, 2023** **June 30, 2023** and **\$2.41 billion** at December 31, 2022.

This Basic Surplus approach enables the Company to appropriately manage liquidity from both operational and contingency perspectives. By tempering the need for cash flow liquidity with reliable borrowing facilities, the Company is able to operate with a more fully invested and, therefore, higher interest income generating securities portfolio. The makeup and term structure of the securities portfolio is, in part, impacted by the overall interest rate sensitivity of the balance sheet. Investment decisions and deposit pricing strategies are impacted by the liquidity position. The Company considers its Basic Surplus position to be strong. However, certain events may adversely impact the Company's liquidity position in 2023. Higher interest rates could result in deposit declines as depositors have alternative opportunities for yield on their excess funds. In the current economic environment, draws against lines of credit could drive asset growth higher. Disruptions in wholesale funding markets could spark increased competition for deposits. These scenarios could lead to a decrease in the Company's Basic Surplus measure below the minimum policy level of 5%. Significant monetary and fiscal policy actions taken by the federal government during the COVID-19 pandemic **have** helped to mitigate these risks. **Enhanced** Additionally, enhanced liquidity monitoring was put in place to quickly respond to the changing environment during the COVID-19 pandemic including increasing the frequency of monitoring and adding additional sources of liquidity. While, the pandemic has come to an end, this enhanced monitoring continues as rising interest rates and the recent bank failures have led to a deposit decline in the banking system and increased volatility to liquidity risk.

At **March 31, 2023** June 30, 2023, a portion of the Company's loans and securities were pledged as collateral on borrowings. Therefore, once on-balance-sheet liquidity is depleted, reduced, future growth of earning assets will depend upon the Company's ability to obtain additional funding, through growth of core deposits and collateral management and may require further use of brokered time deposits or other higher cost borrowing arrangements.

[Table of Contents](#)

The Company's primary source of funds is the Bank. Certain restrictions exist regarding the ability of the subsidiary bank to transfer funds to the Company in the form of cash dividends. The approval of the OCC is required to pay dividends when a bank fails to meet certain minimum regulatory capital standards or when such dividends are in excess of a subsidiary bank's earnings retained in the current year plus retained net profits for the preceding two years as specified in applicable OCC regulations. At **March 31, 2023** June 30, 2023, approximately **\$91.4 million** **\$96.3 million** of the total stockholders' equity of the Bank was available for payment of dividends to the Company without approval by the OCC. The Bank's ability to pay dividends is also subject to the Bank being in compliance with regulatory capital requirements. The Bank is currently in compliance with these requirements. Under the State of Delaware General Corporation Law, the Company may declare and pay dividends either out of accumulated net retained earnings or capital surplus.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Information called for by Item 3 is contained in the Liquidity and Interest Rate Sensitivity Management section of the Management's Discussion and Analysis of Financial Condition and Results of Operations.

ITEM 4. CONTROLS AND PROCEDURES

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of **March 31, 2023** June 30, 2023, the Company's disclosure controls and procedures were effective.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

There are no material legal proceedings, other than ordinary routine litigation incidental to the business, to which the Company or any of its subsidiaries is a party or of which any of their property is subject.

ITEM 1A. RISK FACTORS

There are no material changes to the risk factors as previously discussed in Part II, Item 1A. of our March 31, 2023 Quarterly Report on Form 10-Q and in Part I, Item 1A. of our 2022 Annual Report on Form 10-K, except as described below.

Risks Related to Our Business and Industry

Recent negative developments affecting the banking industry, and resulting media coverage, have eroded customer confidence in the banking system.

The recent high-profile bank failures have generated significant market volatility among publicly traded bank holding companies and, in particular, regional banks like the Company. These market developments have negatively impacted customer confidence in the safety and soundness of regional banks. As a result, customers may choose to maintain deposits with larger financial institutions or invest in higher yielding short-term fixed income securities, all of which could materially adversely impact the Company's liquidity, loan funding capacity, net interest margin, capital and results of operations. While the Department of the Treasury, the Federal Reserve and the FDIC have made statements ensuring that

depositors of the recently failed banks would have access to their deposits, including uninsured deposit accounts, there is no guarantee that such actions will be successful in restoring customer confidence in regional banks and the banking system more broadly.

Rising interest rates have decreased the value of the Company's held-to-maturity securities portfolio, and the Company would realize losses if it were required to sell such securities to meet liquidity needs.

As a result of inflationary pressures and the resulting rapid increases in interest rates over the last year, the trading value of previously issued government and other fixed income securities has declined significantly. These securities make up a majority of the securities portfolio of most banks in the U.S., including the Company's, resulting in unrealized losses embedded in the held-to-maturity portion of U.S. banks' securities portfolios. While the Company does not currently intend to sell these securities, if the Company were required to sell such securities to meet liquidity needs, it may incur losses, which could impair the Company's capital, financial condition, and results of operations and require the Company to raise additional capital on unfavorable terms, thereby negatively impacting its profitability. While the Company has taken actions to maximize its funding sources, there is no guarantee that such actions will be successful or sufficient in the event of sudden liquidity needs. Furthermore, while the Federal Reserve Board has announced a Bank Term Funding Program available to eligible depository institutions secured by U.S. treasuries, agency debt and mortgage-backed securities, and other qualifying assets as collateral at par, to mitigate the risk of potential losses on the sale of such instruments, there is no guarantee that such programs will be effective in addressing liquidity needs as they arise.

Risks Related to Legal, Governmental and Regulatory Changes

Any regulatory examination scrutiny or new regulatory requirements arising from the recent events in the banking industry could increase the Company's expenses and affect the Company's operations.

The Company also anticipates increased regulatory scrutiny - in the course of routine examinations and otherwise - and new regulations directed towards banks of similar size to the Bank, designed to address the recent negative developments in the banking industry, all of which may increase the Company's costs of doing business and reduce its profitability. Among other things, there may be an increased focus by both regulators and investors on deposit composition and the level of uninsured deposits. The cost of resolving the recent bank failures may prompt the FDIC to increase its premiums above the recently increased levels or to issue additional special assessments. [10-K](#).

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(a) Not applicable

The table below sets forth the information with respect to purchases made by the Company or any "affiliated purchaser" (as defined in Rule 10b-18(a) (3) under the Securities Exchange Act of 1934) of our common stock during the quarter ended June 30, 2023:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan	Maximum Number of Shares That May Yet be Purchased Under the Plans(1)
4/1/23 - 4/30/23	-	\$ -	-	1,600,000
5/1/23 - 5/31/23	-	-	-	1,600,000
6/1/23 - 6/30/23	87,000	31.94	87,000	1,513,000
Total	87,000	\$ 31.94	87,000	1,513,000

(b) (1) Not applicable

(c) None

The Company purchased 87,000 shares of its common stock during the second quarter of 2023 at an average price of \$31.94 per share under its previously announced share repurchase program. The Company may repurchase shares of its common stock from time to time to mitigate the potential dilutive effects of stock-based incentive plans and other potential uses of common stock for corporate purposes. As of June 30, 2023, there were 1,513,000 shares available for repurchase under this plan announced on December 20, 2021, and set to expire on December 31, 2023.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4. MINE SAFETY DISCLOSURES

None

ITEM 5. OTHER INFORMATION

None During the three months ended June 30, 2023, there were no Rule 10b5-1 plans or non-Rule 10b5-1 trading arrangements adopted, modified or terminated by any director or officer of the Company.

ITEM 6. EXHIBITS

3.1	Restated Certificate of Incorporation of NBT Bancorp Inc. as amended through July 1, 2015 (filed as Exhibit 3.1 to Registrant's Form 10-Q, filed on August 10, 2015 and incorporated herein by reference).
3.2	Amended and Restated Bylaws of NBT Bancorp Inc. effective May 22, 2018 (filed as Exhibit 3.1 to Registrant's Form 8-K, filed on May 23, 2018 and incorporated herein by reference).

EXHIBIT 31.1

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, John H. Watt, Jr., certify that:

1. I have reviewed this quarterly report on Form 10-Q of NBT Bancorp Inc.
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The **registrant's** other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this report based on such evaluation; and d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
