style="width: 0"></td><td style="width: 0.5in">1.</td><td style="text-align: justify">Organization</td></tr></table>   NI Holdings is a North Dakota business corporation that is the stock holding company of Nodak Insurance and became such in connection with the Nodak conversion, whereby Nodak Mutual converted from a mutual to stock form of organization and the creation of a mutual holding company. The Nodak conversion was consummated on March 13, 2017. Immediately following the Nodak conversion, all of the outstanding shares of common stock of Nodak Insurance were issued to Nodak Mutual Group, which then contributed the shares to NI Holdings in exchange for 55% of the outstanding shares of common stock of NI Holdings. Nodak Insurance then became a wholly-owned stock subsidiary of NI Holdings. Prior to completion of the Nodak conversion, NI Holdings conducted no business and had no assets or liabilities. As a result of the Nodak conversion, NI Holdings became the holding company for Nodak Insurance and its existing subsidiaries.   These unaudited consolidated financial statements include the financial position and results of operations of NI Holdings and the following other entities: Nodak Insurance Company   Nodak Insurance is the largest domestic property and casualty insurance company in North Dakota, offering private passenger auto, homeowners, farmowners, commercial multi-peril, crop hail, and Federal multi-peril crop insurance coverages through its captive agents in the state.   Nodak Agency, Inc.   Nodak Agency is an inactive shell corporation.   American West Insurance Company   American West is a property and casualty insurance company licensed in eight states in the Midwest and Western regions of the United States ("U.S."). American West began writing policies in 2002 and primarily writes private passenger auto, homeowners, and farm coverages in South Dakota. American West also writes private passenger auto coverage in North Dakota, as well as crop hail and Federal multi-peril crop insurance coverages in Minnesota and South Dakota.   Primero Insurance Company   Primero is a wholly-owned subsidiary of Tri-State, Ltd. Tri-State, Ltd. is an inactive shell corporation 100% owned by Nodak Insurance. Primero is a property and casualty insurance company writing non-standard auto coverage in the states of Nevada, Arizona, North Dakota, and South Dakota. Primero was acquired by Nodak Insurance in 2014.   Battle Creek Insurance Company   Battle Creek is a property and casualty insurance company writing private passenger auto, homeowners, and farm coverages solely in the state of Nebraska. Battle Creek became affiliated with Nodak Insurance in 2011 and, prior to January 2, 2024, was controlled by Nodak Insurance via a surplus note. On January 2, 2024, Battle Creek issued 300,000 shares of its common stock to Nodak Insurance at a $10.00 per share par value and became a wholly-owned subsidiary of Nodak Insurance. Because we concluded that we controlled Battle Creek prior to January 2, 2024, we consolidated the financial statements of Battle Creek, and Battle Creek's policyholders' interest in Battle Creek was reflected as a non-controlling interest in shareholders' equity in our Consolidated Balance Sheets for NI Holdings ("Consolidated Balance Sheets") and its net income or loss was excluded from net income or loss attributed to NI Holdings in our Consolidated Statements of Operations for NI Holdings ("Consolidated Statements of Operations"). Subsequent to January 2, 2024, Battle Creek is fully consolidated in our Consolidated Balance Sheets and Consolidated Statements of Operations and, as such, no longer reflected as a non-controlling interest.   Direct Auto Insurance Company   Direct Auto is a property and casualty insurance company licensed in Illinois. Direct Auto began writing non-standard auto coverage in 2007, and was acquired by NI Holdings on August 31, 2018, via a stock purchase agreement. Westminster American Insurance Company   Westminster is a property and casualty insurance company licensed in 18 states and the District of Columbia. Westminster is headquartered in Owings Mills, Maryland and underwrites commercial multi-peril insurance in the states of Delaware, Georgia, Kentucky, Maryland, New Jersey, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, and the District of Columbia. Westminster was sold to Scott Insurance Holdings on June 30, 2024. Subsequent to the date of sale, Westminster is reflected as discontinued operations within our Consolidated Balance Sheets and Consolidated Statements of Operations. For additional information see Part I, Item 1, Note 19 "Discontinued Operations" of this Quarterly Report on Form 10-Q.   Organizational Structure and Credit Ratings   Nodak Insurance markets and distributes its policies through its captive agents, while all other companies utilize the independent agent distribution channel. Additionally, all of the Company's insurance subsidiary and affiliate companies, excluding Westminster, are rated "A" Excellent by A.M. Best Company, Inc. ("AM Best"), a global credit rating agency specializing in the insurance industry.   The same executive management team provides oversight and strategic direction for the entire organization. Nodak Insurance provides common product oversight, pricing practices, and underwriting standards, as well as underwriting and claims administration, to itself, American West, and Battle Creek. Primero and Direct Auto personnel manage the day-to-day operations of their respective companies. Westminster personnel managed the day-to-day operations of their company prior to the date of sale. 0.55130000010 2. Basis of Presentation and Accounting Policies   Basis of Presentation   The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. All material intercompany transactions and balances have been eliminated. These financial statements should be read in conjunction with the financial statements and notes thereto included in our 2023 Annual Report.   The Consolidated Balance Sheet at December 31, 2023, has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements.   The preparation of the interim unaudited consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim unaudited consolidated financial statements and the reported amounts of revenues, claims, and expenses during the reporting period. Actual results could differ from those estimates. Operating results for the interim periods ended September 30, 2024, are not necessarily indicative of the results that may be expected for the year ended December 31, 2024.   Our 2023 Annual Report describes the accounting policies and estimates that are critical to the understanding of our results of operations, financial condition, and liquidity. The accounting policies and estimation processes described in the 2023 Annual Report were consistently applied to the unaudited consolidated financial statements as of and for the nine months ended September 30, 2024 and 2023.   Discontinued Operations   On May 7, 2024, NI Holdings entered into a Stock Purchase Agreement ("Purchase Agreement") to sell its subsidiary, Westminster, to Scott Insurance Holdings, a privately owned Maryland limited liability company. Scott Insurance Holdings is affiliated with John Scott, Sr., the father of the president of Westminster, John Scott, Jr. The sale closed on June 30, 2024. The Purchase Agreement included a cash purchase price of $10,500, subject to certain post-closing adjustments, including a post-closing payment to NI Holdings for the amount by which the ending statutory surplus balance for Westminster exceeded $20,000. The post-closing payment received from Scott Insurance Holdings during the third quarter of 2024 was $1,772 and has been included as an adjustment to the purchase price for the calculation of the loss on the sale of Westminster. The sale of Westminster, which represented the majority of our Commercial segment in prior periods, was a strategic shift that has had a major effect on our operations and financial results. Therefore, Westminster has been reported as discontinued operations in the Consolidated Balance Sheets, Consolidated Statements of Operations, and Consolidated Statements of Cash Flows

*for all periods presented in this Form 10-Q. All current and prior periods reflected in this Form 10-Q have been presented as continuing and discontinued operations, unless otherwise noted. For additional information see Part I, Item 1, Note 19 "Discontinued Operations" of this Form 10-Q. Restatement   NI Holdings filed Amendment No. 1 to our Quarterly Report on Form 10-Q/A to amend certain information included in the Company's Quarterly Report on Form 10-Q for the three- and six-month periods ended June 30, 2024, which was filed with the Securities and Exchange Commission (the "SEC") on August 8, 2024, due to errors resulting from the incorrect accounting for, and presentation of, the previously announced sale of Westminster. Specifically, the Company failed to record certain receivables on Westminster's closing balance sheet as well as the corresponding payable for Nodak Insurance for amounts owed to Westminster related to the final settlement of the intercompany reinsurance pooling agreement after the date of sale. Failure to include this receivable in Westminster's closing net assets and liabilities also caused an understatement of the loss on sale of discontinued operations, which also understated the Company's total net loss. The impact of the corrections related to this error on the consolidated financial statements as of and for the three- and six-month periods ended June 30, 2024, are as follows: Consolidated Balance Sheets (Unaudited)   <table cellpadding="0" cellspacing="0" style="border-collapse: collapse; Recent Accounting Pronouncements   Adopted   For information regarding accounting pronouncements that the Company adopted during the periods presented, see Item II, Part 8, Note 2 "Recent Accounting Pronouncements" section of the 2023 Annual Report.   Not Yet Adopted   Improvements to Reportable Segment Disclosures – In November 2023, the Financial Accounting Standards Board ("FASB") issued guidance related to improving disclosures for reportable segments primarily through enhanced disclosures about significant segment expenses that are provided to the chief operating decision maker ("CODM"). This guidance also requires disclosure of the title and position of the CODM and an explanation of how the CODM uses the reported measures of segment profit or loss in assessing segment performance and deciding how to allocate resources. The amendments in this update are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. We are currently evaluating the impact of the new standard on our consolidated financial statements, which is expected to result in enhanced disclosures.   Improvements to Income Tax Disclosures – In December 2023, the FASB issued guidance related to improving income tax disclosures. This guidance requires that an entity, on an annual basis, disclose additional income tax information, primarily related to the rate reconciliation and income taxes paid. The guidance is intended to enhance the transparency and decision usefulness of income tax disclosures. The amendments in this update are effective for annual periods beginning after December 15, 2024. We are currently evaluating the impact of the new standard on our consolidated financial statements, which is expected to result in enhanced disclosures. Basis of Presentation The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. All material intercompany transactions and balances have been eliminated. These financial statements should be read in conjunction with the financial statements and notes thereto included in our 2023 Annual Report. The Consolidated Balance Sheet at December 31, 2023, has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements. The preparation of the interim unaudited consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim unaudited consolidated financial statements and the reported amounts of revenues, claims, and expenses during the reporting period. Actual results could differ from those estimates. Operating results for the interim periods ended September 30, 2024, are not necessarily indicative of the results that may be expected for the year ended December 31, 2024. Our 2023 Annual Report describes the accounting policies and estimates that are critical to the understanding of our results of operations, financial condition, and liquidity. The accounting policies and estimation processes described in the 2023 Annual Report were consistently applied to the unaudited consolidated financial statements as of and for the nine months ended September 30, 2024 and 2023. Discontinued Operations On May 7, 2024, NI Holdings entered into a Stock Purchase Agreement ("Purchase Agreement") to sell its subsidiary, Westminster, to Scott Insurance Holdings, a privately owned Maryland limited liability company. Scott Insurance Holdings is affiliated with John Scott, Sr., the father of the president of Westminster, John Scott, Jr. The sale closed on June 30, 2024. The Purchase Agreement included a cash purchase price of $10,500, subject to certain post-closing adjustments, including a post-closing payment to NI Holdings for the amount by which the ending statutory surplus balance for Westminster exceeded $20,000. The post-closing payment received from Scott Insurance Holdings during the third quarter of 2024 was $1,772 and has been included as an adjustment to the purchase price for the calculation of the loss on the sale of Westminster. The sale of Westminster, which represented the majority of our Commercial segment in prior periods, was a strategic shift that has had a major effect on our operations and financial results. Therefore, Westminster has been reported as discontinued operations in the Consolidated Balance Sheets, Consolidated Statements of Operations, and Consolidated Statements of Cash Flows for all periods presented in this Form 10-Q. All current and prior periods reflected in this Form 10-Q have been presented as continuing and discontinued operations, unless otherwise noted. Specifically, the Company failed to record certain receivables on Westminster's closing balance sheet as well as the corresponding payable for Nodak Insurance for amounts owed to Westminster related to the final settlement of the intercompany reinsurance pooling agreement after the date of sale. Failure to include this receivable in Westminster's closing net assets and liabilities also caused an understatement of the loss on sale of discontinued operations, which also understated the Company's total net loss. Not Yet Adopted Improvements to Reportable Segment Disclosures – In November 2023, the Financial Accounting Standards Board (“FASB”) issued guidance related to improving disclosures for reportable segments primarily through enhanced disclosures about significant segment expenses that are provided to the chief operating decision maker (“CODM”). This guidance also requires disclosure of the title and position of the CODM and an explanation of how the CODM uses the reported measures of segment profit or loss in assessing segment performance and deciding how to allocate resources. The amendments in this update are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. We are currently evaluating the impact of the new standard on our consolidated financial statements, which is expected to result in enhanced disclosures. Improvements to Income Tax Disclosures – In December 2023, the FASB issued guidance related to improving income tax disclosures. This guidance requires that an entity, on an annual basis, disclose additional income tax information, primarily related to the rate reconciliation and income taxes paid. The guidance is intended to enhance the transparency and decision usefulness of income tax disclosures. The amendments in this update are effective for annual periods beginning after December 15, 2024. We are currently evaluating the impact of the new standard on our consolidated financial statements, which is expected to result in enhanced disclosures. 3. Beginning on December 31, 2022, credit losses are recognized through an allowance account. We consider a number of factors when determining if an allowance for credit losses is necessary, including payment and default history, credit spreads, credit ratings and rating actions, and probability of default. We determine the credit loss component of fixed income investments by utilizing discounted cash flow modeling to determine the present value of the security and comparing the present value with the amortized cost of the security. We did not recognize any credit losses for fixed income securities at the time of adoption of the new credit loss accounting standard and have not recognized any credit losses for fixed income securities since adoption of the credit loss standard. Therefore, there were no beginning or ending balances of credit losses during the nine months ended September 30, 2024 or the year ended December 31, 2023. See Item II, Part 8, Note 3 “Summary of Significant Accounting Policies” section of the 2023 Annual Report for additional information. Fair Value Measurements The Company uses fair value measurements to record fair value adjustments to certain assets to determine fair value disclosures. Investment securities available for sale are recorded at fair value on a recurring basis. Additionally, from time to time, we may be required to record other assets or liabilities at fair value on a nonrecurring basis. These nonrecurring fair value adjustments typically involve application of lower-of-cost-or-market accounting or write-downs of individual assets. Accounting guidance on fair value measurements and disclosures establishes a fair value hierarchy that prioritizes the inputs to valuation methods used to measure fair value. The three levels of the fair value hierarchy are as follows: <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; width: 100%; border-collapse: collapse"> <tr style="vertical-align: top"> <td style="width: 0.5in"> </td> <td style="width: 1in">Level 1:</td> <td>Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.</td></tr> <tr style="vertical-align: top"> <td> </td> <td>Level 2:</td> <td>Quoted prices in markets that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability. Level 2 includes fixed income securities with quoted prices that are traded less frequently than exchange traded instruments. Valuation techniques include matrix pricing which is a mathematical technique used widely in the industry to value fixed income securities without relying exclusively on quoted market prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted prices.</td></tr> <tr style="vertical-align: top"> <td> </td> <td>Level 3:</td> <td>Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported with little or no market activity).</td></tr> </table> The Company bases its fair values on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is our policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy. Fair value measurements for assets where there exists limited or no observable market data and, therefore, are based primarily upon the estimates of the Company or other third-parties, are often calculated based on the characteristics of the asset, the economic and competitive environment, and other such factors. Management uses its best judgment in estimating the fair value of the Company's financial instruments; however, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates herein are not necessarily indicative of the amounts which could have been realized in a sale transaction on the dates indicated.

The estimated fair value amounts have been measured as of their respective period-end and have not been re-evaluated or updated for purposes of our consolidated financial statements subsequent to those respective dates. As such, the estimated fair values of these financial instruments subsequent to the respective reporting dates may be different than the amounts reported at each period-end. Additionally, changes in the underlying assumptions used, including discount rates and estimates of future cash flows, could significantly affect the results of current or future valuations. The Company uses quoted values and other data provided by an independent pricing service in its process for determining fair values of its investments. The evaluations of such pricing services represent an exit price and a good faith opinion as to what a buyer in the marketplace would pay for a security in a current sale. This pricing service provides us with one quote per instrument. For fixed income securities that have quoted prices in active markets, market quotations are provided. For fixed income securities that do not trade on a daily basis, the independent pricing service prepares estimates of fair value using a wide array of observable inputs including relevant market information, benchmark curves, benchmarking of like securities, sector groupings, and matrix pricing. The observable market inputs that the Company's independent pricing service utilizes may include benchmark yields, reported trades, broker-dealer quotes, issuer spreads, two-sided markets, benchmark securities, market bids/offers, and other reference data on markets, industry, and the economy. Additionally, the independent pricing service uses an option-adjusted spread model to develop prepayment and interest rate scenarios.   Should the independent pricing service be unable to provide a fair value estimate, we would first attempt to obtain a fair value estimate from our third-party investment advisor who utilizes different independent pricing services. If unsuccessful, we would attempt to obtain a non-binding fair value estimate from a number of broker-dealers and would review this estimate in conjunction with a fair value estimate reported by an independent business news service or other sources. In instances where only one broker-dealer provides a fair value for a fixed income security, we would use that estimate. In instances where the Company would be able to obtain fair value estimates from more than one broker-dealer, we would review the range of estimates and select the most appropriate value based on the facts and circumstances. Should neither the independent pricing service nor a broker-dealer provide a fair value estimate, we would develop a fair value estimate based on cash flow analyses and other valuation techniques that utilize certain unobservable inputs. Accordingly, the Company classifies such a security as a Level 3 investment.   The fair value estimates of our investments provided by the independent pricing service at each period-end were utilized, among other resources, in reaching a conclusion as to the fair value of its investments.   Management reviews the reasonableness of the pricing provided by the independent pricing service by employing various analytical procedures. We also use information from our third-party investment advisor who utilizes different independent pricing services to further validate the reasonableness of the valuation of our fixed income portfolio. If, after this review, management does not believe the pricing for any security is a reasonable estimate of fair value, then it will seek to resolve the discrepancy through discussions with the independent pricing service. In its review, management did not identify any such discrepancies and no adjustments were made to the estimates provided by the independent pricing service for the three or nine months ended September 30, 2024, or the year ended December 31, 2023. The classification within the fair value hierarchy is then confirmed based on the final conclusions from the pricing review.   The valuation of money market accounts and equity securities are generally based on Level 1 inputs, which use the market-approach valuation technique. The valuation of certain cash equivalents and our fixed income securities generally incorporates significant Level 2 inputs using the market and income approach techniques. We may assign a lower level to inputs typically considered to be Level 2 based on our assessment of liquidity and relative level of uncertainty surrounding inputs. There were no assets or liabilities classified at Level 3 at September 30, 2024, or December 31, 2023. The following tables, presented on a consolidated basis, including both continuing and discontinued operations, set forth our assets which are measured on a recurring basis by the level within the fair value hierarchy in which fair value measurements fall: <table cellpadding="0" cellspacing="0" style="border-collapse: collapse; style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0.7pt 0pt 0">5. Reinsurance   External Reinsurance   The Company's consolidated financial statements reflect the effects of assumed and ceded reinsurance transactions. Assumed reinsurance refers to the acceptance of certain insurance risks that other insurance companies have underwritten. Ceded reinsurance involves transferring certain insurance risks (along with the related written and earned premiums) the Company has underwritten to other insurance companies who agree to share these risks. The Company reinsures a portion of the risks it underwrites, through these ceded reinsurance agreements, in order to control its exposure to losses. Our ceded reinsurance is placed either on an automatic basis under general reinsurance contracts known as treaties or through facultative contracts placed on substantial individual risks. These contracts do not relieve the Company from its obligations to policyholders. Treaty reinsurance contracts are typically effective from January 1 through December 31 each year. During the nine-month period ended September 30, 2024, the Company maintained property catastrophe reinsurance protection covering $133,000 in excess of a $20,000 retention. With the exception of Westminster, a per risk excess of loss treaty provides coverage of $4,000 in excess of $1,000 for property risks and $11,000 in excess of $1,000 for casualty risks. For Westminster, a per risk excess of loss treaty provided coverage of $3,000 in excess of $2,000 for property risks and $10,000 in excess of $2,000 for casualty risks until July 1, 2024. Additionally, a property per-risk facultative contract is in place to provide coverage up to $20,000 in excess of $5,000 per property. Aggregate stop loss reinsurance agreements are also in place for both crop hail and multi-peril crop coverage. The crop hail aggregate attaches at a 100% net loss ratio providing 50 points of cover. The multi-peril crop aggregate attaches at a 105% net loss ratio providing 45 points of cover. In addition to the aggregate covers, underlying multi-peril crop reinsurance is provided through the Federal Crop Insurance Corporation ("FCIC").   Effective July 1, 2024, the Company's reinsurance contracts were modified to exclude any Westminster losses occurring on or after that date, while maintaining all other existing limits, retentions, and attachment points.   For the year ended December 31, 2023, the Company's catastrophe retention and retention limit were consistent with those for the nine-month period ended September 30, 2024. In addition, limits, retentions, and attachment points in our other reinsurance contracts were also consistent with those for the nine-month period ended September 30, 2024 (with the exception of Westminster for which per risk excess of loss treaties provided coverage of $4,000 in excess of $1,000 for property risks and $11,000 in excess of $1,000 for casualty risks).</p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0.75pt 0pt 0"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0.75pt 0pt 0">The Company actively monitors and evaluates the financial condition of the reinsurers and develops estimates of the uncollectible amounts due from reinsurers. Beginning on December 31, 2022, credit losses are recognized through an allowance account developed using a new credit loss model (current expected credit losses or "CECL"). See the Part II, Item 8, Note 2 "Recent Accounting Pronouncements" section of the 2023 Annual Report for additional information. Credit loss estimates are made based on periodic evaluation of balances due from reinsurers, changes in reinsurer credit standing, judgments regarding reinsurers' solvency, known disputes, reporting characteristics of the underlying reinsured business, historical experience, current economic conditions, and the state of reinsurer relations in general. Collection risk is mitigated by entering into reinsurance arrangements only with reinsurers that have strong credit ratings and statutory surplus above certain levels. At September 30, 2024, and December 31, 2023, management has concluded that it is not necessary to record an allowance for expected credit losses related to reinsurance recoverables. All of our significant reinsurance partners are rated "A-" (Excellent) or better by AM Best, and there is no history of write-offs.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0.75pt 0pt 0"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0.75pt 0pt 0">A reconciliation of direct to net premiums on both a written and an earned basis, presented on a consolidated basis, including both continuing and discontinued operations, is as follows:</p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0.75pt 0pt 0"> </p> <table cellpadding="0" cellspacing="0" style="border-collapse: collapse; width: 100%; font: 10pt Times New Roman, Times, Serif"> <tr style="vertical-align: bottom"> <td style="white-space: nowrap"> </td><td style="font-weight: bold; padding-bottom: 1pt"> </td> <td colspan="6" style="white-space: nowrap; font-weight: bold; text-align: center; border-bottom: Black 1pt solid">Three Months Ended September 30, 2024</td><td style="padding-bottom: 1pt; font-weight: bold"> </td><td style="font-weight: bold; padding-bottom: 1pt"> </td> <td colspan="6" style="white-space: nowrap; font-weight: bold; text-align: center; border-bottom: Black 1pt solid">Three Months Ended September 30, 2023</td><td style="padding-bottom: 1pt; font-weight: bold"> </td></tr> <tr style="vertical-align: bottom"> <td style="white-space: nowrap"> </td><td style="font-weight: bold; padding-bottom: 1pt"> </td> <td colspan="2" style="white-space: nowrap; font-weight: bold; text-align: center; border-bottom: Black 1pt solid">Premiums Written</td><td style="padding-bottom: 1pt; font-weight: bold"> </td><td style="font-weight: bold; padding-bottom: 1pt"> </td> <td colspan="2" style="white-space: nowrap; font-weight: bold; text-align: center; border-bottom: Black 1pt solid">Premiums Earned</td><td style="padding-bottom: 1pt; font-weight: bold"> </td><td style="font-weight: bold; padding-bottom: 1pt"> </td> <td colspan="2" style="white-space: nowrap; font-weight: bold; text-align: center; border-bottom: Black 1pt solid">Premiums Written</td><td style="padding-bottom: 1pt; font-weight: bold"> </td><td style="font-weight: bold; padding-bottom: 1pt"> </td> <td colspan="2" style="white-space: nowrap; font-weight: bold; text-align: center; border-bottom: Black 1pt solid">Premiums Earned</td><td style="padding-bottom: 1pt; font-weight: bold"> </td></tr> <tr style="vertical-align: bottom; background-color: rgb(204,238,255)"> <td style="width: 40%; text-align: left">Direct premium</td><td style="width: 1%"> </td> <td style="width: 1%; text-align: left">$</td><td style="width: 12%; text-align: right">67,704</td><td style="white-space: nowrap; width: 1%; text-align: left"> </td><td style="width: 1%"> </td> <td style="width: 1%; text-align: left">$</td><td style="width: 12%; text-align: right">90,125</td><td style="white-space: nowrap; width: 1%; text-align: left"> </td><td style="width: 1%"> </td> <td style="width: 1%; text-align: left">$</td><td style="width: 12%; text-align: right">81,223</td><td style="white-space: nowrap; width: 1%; text-align: left"> </td><td style="width: 1%"> </td> <td style="width: 1%; text-align: left">$</td><td style="width: 12%; text-align: right">104,540</td><td style="white-space: nowrap; width: 1%; text-

Nodak Insurance is the lead company of the pool, and assumes the net premiums, net losses, and underwriting expenses from each of the other five companies. Nodak Insurance then retrocedes balances back to each company, while retaining its own share of the pool's net underwriting results, based on individual pool percentages established in the respective pooling agreement. This arrangement allows each insurance company to rely upon the capacity of the pool's total statutory capital and surplus. As a result, they are evaluated by AM Best on a group basis and hold a single combined financial strength rating, long-term issuer credit rating, and financial size category. Subsequent to the June 30, 2024, date of sale, Westminster is no longer a member of the pool, and the pooling percentages for the remaining insurance subsidiaries were updated based on their respective surplus as a percentage of the pool as of December 31, 2023.

Benefit Plans   Nodak Insurance sponsors a 401(k) plan with an automatic and matching contribution for eligible employees at Nodak Insurance, Primero, and Direct Auto. Nodak Insurance also contributes an additional elective amount of employee compensation as a profit-sharing contribution for eligible employees. Westminster also sponsored a separate 401(k) plan until the company was sold on June 30, 2024. American West and Battle Creek have no employees. The Company reported expenses related to these plans totaling $312 and $656 during the three months ended September 30, 2024 and 2023, respectively, and $1,117 and $1,315 during the nine months ended September 30, 2024 and 2023, respectively.   All fees associated with the plans are deducted from the eligible employee accounts.   The Company also offers a non-qualified deferred compensation plan to key executives of the Company (as designated by the Board of Directors). The Company's policy is to fund the plan by amounts that represent the excess of the maximum contribution allowed by the Employee Retirement Income Security Act over the key executives' allowable 401(k) contribution. The plan also allows employee-directed deferral of key executives' compensation or incentive payments. The Company reported expenses related to this plan totaling $27 and $45 during the three months ended September 30, 2024 and 2023, respectively, and $258 and $257 during the nine months ended September 30, 2024 and 2023, respectively.   In connection with our initial public offering ("IPO") in March 2017, the Company established its Employee Stock Ownership Plan (the "ESOP") within the meaning of Internal Revenue Code Section 4975(e)(7) and invests solely in common stock of the Company.   Upon establishment of the ESOP, Nodak Insurance loaned $2,400 to the ESOP's related trust (the "ESOP Trust"). The ESOP loan was for a period of ten years, bearing interest at the long-term Applicable Federal Rate effective on the closing date of the offering (2.79% annually). The ESOP Trust used the proceeds of the loan to purchase shares in our IPO, which resulted in the ESOP Trust owning approximately 1.0% of the Company's authorized shares. The ESOP has purchased the shares for investment and not for resale.   The shares purchased by the ESOP Trust in the offering are held in a suspense account as collateral for the ESOP loan. Nodak Insurance makes semi-annual cash contributions to the ESOP in amounts no smaller than the amounts required for the ESOP Trust to make its loan payments to Nodak Insurance. While the ESOP makes two loan payments per year, a pre-determined portion of the shares are released from the suspense account and allocated to participant accounts at the end of the calendar year. This release and allocation occurs on an annual basis over the ten-year term of the ESOP loan. Nodak Insurance has a lien on the shares of common stock of the Company held by the ESOP to secure repayment of the loan from the ESOP to Nodak Insurance. If the ESOP is terminated as a result of a change in control of the Company, the ESOP may be required to pay the costs of terminating the plan.   It is anticipated that the only assets held by the ESOP will be shares of the Company's common stock. Participants in the ESOP cannot direct the investment of any assets allocated to their accounts. The ESOP participants are employees of Nodak Insurance. The employees of Primero, Direct Auto, and Westminster do not participate in the ESOP.   Each employee of Nodak Insurance automatically becomes a participant in the ESOP if such employee is at least 21 years old, has completed a minimum of one thousand hours of service with Nodak Insurance, and has completed an Eligibility Computation Period. Employees are not permitted to make any contributions to the ESOP. Participants in the ESOP receive annual reports from the Company showing the number of shares of common stock of the Company allocated to the participants' accounts and the market value of those shares. The shares are allocated to participants based on compensation as provided for in the ESOP.   In connection with the establishment of the ESOP, the Company created a contra-equity account on the Consolidated Balance Sheet equal to the ESOP's basis in the shares. The basis of those shares was set at $10.00 per share as part of the IPO. As shares are released from the ESOP suspense account, the contra-equity account is credited, which reduces the impact of the contra-equity account on the Company's Consolidated Balance Sheets over time. The Company records compensation expense related to the shares released, equal to the number of shares released from the suspense account multiplied by the average market value of the Company's stock during the period.   The Company recognized compensation expense related to the ESOP of $93 and $81 during the three months ended September 30, 2024 and 2023, respectively, and $269 and $245 during the nine months ended September 30, 2024 and 2023, respectively.   Through September 30, 2024, and December 31, 2023, the Company had released and allocated 170,205 ESOP shares to participants, with a remainder of 69,795 ESOP shares in suspense at September 30, 2024, and December 31, 2023. Using the Company's quarter-end market price of $15.68 per share, the fair value of the unearned ESOP shares was $1,094 at September 30, 2024.

Line of Credit   NI Holdings has a $3,000 line of credit with Wells Fargo Bank, N.A. The terms of the line of credit include a floating interest rate of 2.50% above the daily simple secured overnight financing rate. There were no outstanding amounts during the nine months ended September 30, 2024, or the year ended December 31, 2023. This line of credit is scheduled to expire on December 13, 2024.
30000000.0252024-12-13 13. Income Taxes   Due to the Battle Creek demutualization, the Company established a net valuation allowance of $346 against their deferred income tax asset established for net operating loss carryforwards.   At September 30, 2024, and December 31, 2023, we had no unrecognized income tax benefits, no accrued interest and penalties, and no significant uncertain income tax positions. No interest and penalties were recognized during the nine-month period ended September 30, 2024, or the year ended December 31, 2023.   Federal income taxes were allocated to discontinued operations at a 21.1% effective tax rate at the date of sale. Our effective tax rate for continuing operations for the nine months ended September 30, 2024, was 12.0% which was impacted by the $346 valuation allowance on net operating loss carryforwards established as a result of the Battle Creek demutualization. The effective tax rate, including the loss on the sale of Westminster, was 32.0% for the nine months ended September 30, 2024. 3460000.2110.123460000.32 14. Leases   Primero leases a facility in Spearfish, South Dakota under a non-cancellable operating lease expiring in 2028, and leases a facility in Las Vegas, Nevada on a month-to-month basis. Direct Auto leases a facility in Chicago, Illinois under a non-cancellable operating lease expiring in 2029. Nodak Insurance leases a facility in Fargo, North Dakota under a non-cancellable operating lease expiring in 2029. In addition, Nodak Insurance leases server equipment under a non-cancellable finance lease expiring in 2026.   Effective for the year ended December 31, 2022, the Company adopted the updated guidance for leases. See Part II, Item 8, Note 2 "Recent Accounting Pronouncements" section of the 2023 Annual Report for additional information. We determine whether a contract is or contains a lease at the inception of the contract. A contract will be deemed to be or contain a lease if the contract conveys the right to control and directs the use of identified property or equipment for a period of time in exchange for consideration. We generally must also have the right to obtain substantially all of the economic benefits from the use of the property and equipment. Lease assets and liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. To determine the present value of lease payments not yet paid, we estimate incremental borrowing rates based on the floating interest rate on our Line of Credit with Wells Fargo Bank, N.A. at the lease commencement date, as rates are not implicitly stated in most leases. Lease liabilities are included in accrued expenses and other liabilities and right-of-use assets are included in other assets in the Consolidated Balance Sheets.   There were expenses of $121 and $98 related to these leases during the three months ended September 30, 2024 and 2023, respectively, and $365 and $293 during the nine months ended September 30, 2024 and 2023. On May 9, 2022, our Board of Directors approved an authorization for the repurchase of up to approximately $10,000 of the Company's outstanding common stock. During the nine months ended September 30, 2024, we did not repurchase any shares of our common stock. During the nine months ended September 30, 2023, we repurchased 548,549 shares of our common stock for $7,280, under our share repurchase authorization. Included in the cost of treasury stock acquired pursuant to common share repurchases is the 1% excise tax imposed on common share repurchase activity, net of common share issuances, as part of the Inflation Reduction Act of 2022. At September 30, 2024, $2,052 remains available under this authorization.   The cost of this treasury stock is a reduction of shareholders' equity within our Consolidated Balance Sheets. *primarily of Westminster's balances and results. Subsequent to the sale, Westminster is reported as part of discontinued operations, which is not included in our segment information. The commercial business that remains a part of our continuing operations has been included in the All Other segment for the current and prior periods presented. We operate only in the U.S., and no single customer or agent provides 10 percent or more of our revenues. The following tables provide available information of these segments for the three- and nine-month periods ended September 30, 2024 and 2023.   For purposes of evaluating profitability of the Non-Standard Auto segment, we combine the policy fees paid by the insured with the underwriting gain or loss as its primary measure. As a result, these fees are allocated to the Non-Standard Auto segment (included in fee and other income) in the tables below. The remaining fee and other income amounts are not allocated to any segment.   We do not assign or allocate all line items in our Consolidated Statement of Operations or Consolidated Balance Sheets to our operating segments. Those line items include net investment income, net investment gains, fee and other income excluding Non-Standard Auto, and income tax expense (benefit) within the Unaudited Consolidated Statement of Operations. For the Consolidated Balance Sheets, those items include cash and investments, property and equipment, other assets, accrued expenses and other liabilities, income taxes recoverable or payable, and shareholders' equity. <table cellpadding="0" cellspacing="0" style="border-collapse: collapse; width: 100%; font: 10pt Times New Roman, Times, Serif"> <tr style="vertical-align: bottom"> <td style="white-space: nowrap"> </td><td style="font-weight: bold; padding-bottom: 1pt"> </td> <td colspan="22" style="white-space: nowrap; font-weight: bold; text-align: center; border-bottom: Black 1pt solid">Three Months Ended September 30, 2024</td><td style="padding-bottom: 1pt; font-weight: bold"> </td></tr> <tr style="vertical-align: bottom"> <td style="white-space: nowrap"> </td><td style="font-weight: bold; padding-bottom: 1pt"> </td> <td colspan="2" style="white-space: nowrap; font-weight: bold; text-align: center; border-bottom: Black 1pt solid">Private
