**1. Significant Accounting Policies**

**Basis of Presentation**

The unaudited condensed consolidated interim financial statements of Sally Beauty Holdings, Inc. and its subsidiaries included herein have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") and pursuant to the rules and regulations of the SEC. Accordingly, certain information and

note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the SEC, although we believe that the disclosures included herein are adequate for the interim period presented. These condensed consolidated interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2023. In the opinion of management, these unaudited condensed consolidated interim financial statements reflect all adjustments that are of a normal recurring nature and which are necessary to present fairly our consolidated financial position as of December 31, 2023 March 31, 2024, and September 30, 2023, our consolidated results of operations, consolidated comprehensive income and consolidated statements of stockholders' equity for the three and six months ended March 31, 2024 and 2023, and consolidated cash flows for the three six months ended December 31, 2023 March 31, 2024 and 2022, 2023.

Principles of Consolidation

The unaudited condensed consolidated interim financial statements include all accounts of Sally Beauty Holdings, Inc. and its subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. All amounts are in U.S. Dollars.

Accounting Policies

We adhere to the same accounting policies in the preparation of our condensed consolidated interim financial statements as we do in the preparation of our full year consolidated financial statements. As permitted under GAAP, interim accounting for certain expenses, including income taxes, is based on full-year assumptions. For interim financial reporting purposes, income taxes are recorded based upon our estimated annual effective income tax.

Use of Estimates

In order to present our financial statements in conformity with GAAP, we are required to make certain estimates and assumptions that impact our interim financial statements and supplementary disclosures. These estimates may use forecasted financial information based on reasonable information available, however are subject to change in the future. Significant estimates and assumptions are part of our accounting for sales allowances, deferred revenue, valuation of inventory, amortization and depreciation, intangibles and goodwill, and other reserves. We believe these estimates and assumptions are reasonable; however, they are based on management's current knowledge of events and actions, and changes in facts and circumstances may result in revised estimates and impact actual results.

2. Recent Accounting Pronouncements

In November 2023, the Financial Accounting Standards Board ("FASB") issued accounting standards update ("ASU") No. 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*, to enhance segment disclosures for annual and interim consolidated financial statements, including significant segment expenses that are regularly provided to the chief operating decision maker ("CODM"). For public companies, the amendments in the update are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. We are currently evaluating the impact of this update, but do not expect the update to impact our consolidated results of operations or financial position.

In December 2023, the FASB issued ASU No. 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*, to expand disclosures in an entity's income tax rate reconciliation table and the disaggregation of taxes paid in U.S. and foreign jurisdictions. For public business entities, the amendments in this update are effective for annual periods beginning after December 15, 2024. Early adoption is permitted. We are currently evaluating the impact of this update, but do not expect the update to impact our consolidated results of operations or financial position.

3. Revenue Recognition

Substantially all of our revenue is derived through the sale of merchandise at the point-of-sale. Revenue is recognized net of estimated sales returns and sales taxes. We estimate sales returns based on historical data.

Changes to our contract liabilities, which are included in accrued liabilities in our condensed consolidated balance sheets, for the periods were as follows (in thousands):

#### 4. Fair Value Measurements

We measure on a recurring basis and disclose the fair value of our financial instruments under the provisions of ASC Topic 820, Fair Value Measurement, as amended ("ASC 820"). We define "fair value" as the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date. ASC 820 establishes a three-level hierarchy for measuring fair value and requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. This valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date.

The three levels of that hierarchy are defined as follows:

Level 1 - Quoted prices are available in active markets for identical assets or liabilities;

Level 2 - Pricing inputs are other than quoted prices in active markets, included in Level 1, that are either directly or indirectly observable; and

Level 3 - Unobservable pricing inputs in which little or no market activity exists, therefore requiring an entity to develop its own model with estimates and assumptions.

*Financial instruments measured at fair value on recurring basis*

Consistent with the fair value hierarchy, we categorized our financial assets and liabilities as follow:

(in thousands)	Classification	Fair Value Hierarchy Level	December 31, 2023	September 30, 2023	Classification	Fair Value Hierarchy Level	March 31, 2024	September 30, 2023

Total liabilities			\$ 3,412	\$ 397			\$ 1,986	\$ 397

The fair value of each asset and liability were measured using widely accepted valuation techniques, such as discounted cash flow analyses and observable inputs, such as market interest rates and foreign exchange rates.

#### Other fair value disclosures

The carrying amounts of cash equivalents, trade and other accounts receivable, and accounts payable and borrowing under our ABL facility approximate their respective fair values due to the short-term nature of these financial instruments. Carrying amounts and the related estimated fair value of our long-term debt, excluding finance lease obligations, debt issuance costs and original issue discounts, are as follows:

#### 5. Stockholders' Equity

##### Share Repurchases

In August 2017, our Board of Directors ("Board") approved a share repurchase program authorizing us to repurchase up to \$1.0 billion of our common stock, subject to certain limitations governed by our debt agreements. In July 2021, our Board approved a term extension of our share repurchase program to September 30, 2025. As of December 31, 2023 March 31, 2024, we had approximately \$560.8 540.8 million of additional share repurchase authorizations remaining under our share repurchase program. For the three and six months ended December 31, 2023 March 31, 2024, we repurchased 1.9 1.5 million and 3.5 million shares of our common stock at a total cost of \$20.0 million and \$40.0 million, respectively, excluding the impact of excise taxes. For the three and six months ended December 31, 2022 March 31, 2023, we did not repurchase shares under our share repurchase program.

## 7. Goodwill and Intangible Assets

For During the three months ended December 31, 2023 March 31, 2024, we considered potential triggering events completed our annual assessments for impairment of goodwill and indefinite-lived intangible assets. For our goodwill testing, we performed a qualitative analysis and determined that there were none during the period, was no indication of impairment requiring further quantitative testing. No material impairment losses were recognized in the current or prior periods presented in connection with our goodwill and other intangible assets.

As of At September 30, 2023, we determined that due to the recent decline in the Company's share price and market capitalization, among other factors, a quantitative assessment was required. Based on our September 30, 2023, quantitative assessment using a discounted cash flow, we estimated the fair value for our BSG reporting unit to be approximately 18% more than its carrying value. The critical assumptions used as part of our evaluation included a projected long-term revenue growth rate of 2.0% and a discount rate of 11.25%, based on a weighted-average cost of capital analysis (adjusted for company specific risk). Our September 30, 2023, quantitative assessment indicated that the fair value of our SBS segment was substantially higher than its carrying value. Goodwill allocated to our SBS and BSG reporting units, which are also defined as our SBS and BSG segment, was \$86.4 \$84.9 million and \$450.3 \$449.6 million, respectively, as of December 31, 2023 March 31, 2024.

For the three six months ended December 31, 2023 March 31, 2024, changes in goodwill reflects the effects of foreign currency exchange rates of \$4.0 \$1.8 million and adjustments of \$0.4 million from the completion of our Goldwell of NY, Inc. acquisition fair value assessment. Additionally, the changes to other intangibles included effects of foreign currency exchange rates of \$0.9 \$0.8 million.

## 9. Short-term and Long-term Debt

At March 31, 2024, our ABL facility had \$62.0 million in outstanding borrowings and \$420.6 million available for borrowing, including the Canadian sub-facility, subject to borrowing base limitation, as reduced by outstanding letters of credit.

On February 12, 2024, we announced a registered public offering of 6.75% senior notes due 2032 ("2032 Senior Notes"). This offering was made pursuant to a shelf registration statement on Form S-3 filed with the SEC on May 10, 2021. On February 27, 2024, we closed on the 2032 Senior Notes and received \$594.0 million in cash proceeds net of underwriter fees. The proceeds were used to repay the outstanding \$680.0 million principal balance on the 5.625% Senior Notes due 2025 (the "2025 Senior Notes"). The 2032 Senior Notes were issued at par and bear interest at a fixed interest rate of 6.75%. Interest is paid semi-annually during our second and fourth fiscal quarters. The 2032 Senior Notes are guaranteed on a senior secured basis by the guarantors who have guaranteed obligations under our senior secured credit facilities and our existing notes. In connection with the issuance, we incurred approximately \$8.8 million in debt issuance costs that is being amortized using the effective interest rate method through the life of the notes.

Additionally on February 12, 2024, we issued a notice to redeem the entire \$680.0 million aggregate outstanding principal amount of the 2025 Senior Notes that remained outstanding on March 13, 2024, at a redemption price equal to 100.00% of the principal amount of the 2025 Senior Notes, plus accrued and unpaid interest to, but not including, the redemption date. On March 13, 2024, we redeemed the 2025 Senior Notes with the proceeds of our newly-issued 2032 Senior Notes, cash on hand prior to the new 2032 Senior Notes, and ABL borrowings. In connection with this redemption, we recognized a \$2.0 million loss on the extinguishment of debt within interest expense related to unamortized debt issuance costs.

## 10. Derivative Instruments and Hedging Activities

During the three six months ended December 31, 2023 March 31, 2024, we did not purchase or hold any derivative instruments for trading or speculative purposes. See Note 4, *Fair Value Measurements*, for the classification and fair value of our derivative instruments.

### Designated Cash Flow Hedges

#### Foreign Currency Forwards

We regularly enter into foreign currency forwards to mitigate our exposure to exchange rate changes on forecasted inventory purchases in U.S. dollars by our foreign subsidiaries. At December 31, 2023 March 31, 2024, we held forwards, which expire ratably through September 30, 2024, with a notional amount, based upon exchange rates at December 31, 2023 March 31, 2024, as follows (in thousands):

Notional Currency	Notional Amount	Notional Amount
Mexican Peso	\$ 16,538	\$ 11,490
Euro	8,742	5,597
Canadian Dollar	8,404	5,505
Total	\$ 33,684	\$ 22,592

Quarterly, the changes in fair value related to these foreign currency forwards are recorded into AOCL. As the forwards are exercised, the realized value is recognized into cost of goods sold, based on inventory turns, in our condensed consolidated statements of earnings. For the three months ended December 31, 2023 March 31, 2024 and 2022, 2023, we recognized a loss of \$1.4 0.6 million and a loss of \$0.2 million, respectively. For the six months ended March 31, 2024 and 2023, we recognized a loss of \$2.0 million and a gain of \$0.3 0.1 million, respectively. Based on December 31, 2023 March 31, 2024, valuations and exchange rates, we expect to reclassify losses of approximately \$2.2 1.8 million out of AOCL and into cost of goods sold over the next 12 months.

12

#### Interest Rate Swap

In April 2023, we entered into a three-year interest rate swap with an initial notional amount of \$200 million (the "interest rate swap") to mitigate the exposure to higher interest rates in connection with our TLB Term Loan B due in 2030. The interest rate swap involves fixed monthly payments at the contract rate of 3.705%, and in return, we will receive a floating interest payment based on the 1-month Adjusted Term SOFR Rate. The interest rate swap will mature in April 2026 and is designated as a cash flow hedge. Changes in the fair value of the interest rate swap are recorded quarterly, net of income tax, and included in AOCL.

For the three and six months ended December 31, 2023 March 31, 2024, we recognized income of \$0.8 million and \$1.7 million, respectively, into interest expense on our condensed consolidated statements of earnings related to the interest rate swap. At December 31, 2023 March 31, 2024, we expect to reclassify gains of approximately \$1.9 2.4 million out of AOCL and into interest expense over the next 12 months.

#### Interest Rate Caps

In July 2017, we purchased two interest rate caps with an initial aggregate notional amount of \$550 million (the "interest rate caps") to mitigate the exposure to higher interest rates in connection with our prior term loan due 2024. The interest rate caps were comprised of individual caplets and were designated as cash flow hedges. Accordingly, the changes in fair value of the interest rate caps were recorded quarterly, net of income tax, and included in AOCL. During fiscal year 2023, we early settled both interest rate caps due to the forecasted transactions being hedged no longer occurring as a result of the repayment of our prior term loan. The effects of our interest rate caps on our condensed consolidated statements of earnings were not material for the three months ended December 31, 2022 March 31, 2023. For the six months ended March 31, 2023, we recognized income of \$2.8 million into interest expense on our condensed consolidated statements of earnings related to the caps.

#### Non-Designated Derivative Instruments

We also use foreign exchange contracts to mitigate our exposure to exchange rate changes in connection with certain intercompany balances not permanently invested. At December 31, 2023 March 31, 2024, we held forwards, which settle on various dates in the first month of the next two fiscal quarters, with a notional amount, based upon exchange rates at December 31, 2023 March 31, 2024, as follows (in thousands):

Notional Currency	Notional Amount		Notional Amount	
British Pound	\$	44,723	\$	44,761
Mexican Peso		21,517		22,547
Euro		20,679		20,928
Canadian Dollar		17,275		17,009
Total	\$	104,194	\$	105,245

We record changes in fair value and realized gains or losses related to these foreign currency forwards into selling, general and administrative expenses. For the three months ended December 31, 2023 March 31, 2024 and 2022, 2023, the effects of these foreign exchange contracts on our condensed consolidated financial statements were losses of \$1.3 0.3 million and gains losses of \$0.4 1.5 million, respectively. For the six months

13

ended March 31, 2024 and 2023, the effects of these foreign exchange contracts on our condensed consolidated financial statements were losses of \$1.6 million and losses of \$1.1 million, respectively.

**Distribution Center Consolidation and Store Optimization Plan**

In the fourth quarter of fiscal year 2022, our Board approved the Distribution Center Consolidation and Store Optimization Plan ("the Plan") authorizing the closure of 330 SBS stores and 35 BSG stores, and the closure of two BSG distribution centers in Clackamas, Oregon and Pottsville, Pennsylvania. Stores identified for early closure were part of a strategic evaluation which included a market analysis of certain locations where we believed we would be able to recapture demand and improve profitability.

The Plan has been substantially completed, as the remaining two BSG stores were closed during the quarter, earlier this fiscal year. However, we may still incur future immaterial charges related to store closures such as exit costs, lease negotiation penalties and adjustments to estimates. As of December 31, 2023 March 31, 2024, there were no material outstanding liabilities for exit costs or involuntary employee termination benefits.

**Comparable Sales**

We believe that comparable sales is an appropriate performance indicator to measure our sales growth compared to the prior period. Our comparable sales include sales from stores that have been operating for 14 months or longer as of the last day of a month and from e-commerce revenue. Additionally, comparable sales include sales to franchisees and full service sales. Our comparable sales excludes the effect of changes in foreign exchange rates and sales from stores relocated until 14 months after the relocation. Revenue from acquired stores are excluded from our comparable sales calculation until 14 months after the acquisition. Our calculation of comparable sales might not be the same as other retailers as the calculation varies across the retail industry.

The Three Months Ended **December 31, 2023** March 31, 2024, compared to the Three Months Ended **December 31, 2022** March 31, 2023

### Net Sales

SBS. The decrease in net sales for SBS was primarily driven by the following (in thousands):

Comparable sales	\$ (9,879)	\$ (21,210)
Sales outside comparable sales <sup>(a)</sup>	(25,101)	(341)
Foreign currency exchange	8,746	4,546
Total	\$ (26,234)	\$ (17,005)

(a) Includes closed stores, including stores closed under the Plan, net of stores opened for less than 14 months.

SBS's net sales decrease was primarily driven by a decline in comparable sales, partially offset by favorable impacts from foreign currency exchange rates. SBS's decline in comparable sales was driven by a result of fewer transactions.

**BSG.** The increase in net sales for BSG was primarily driven by the following (in thousands):

Comparable sales	\$	7,624
Sales outside comparable sales <sup>(a)</sup>		(1,067)
Foreign currency exchange		97
Total	\$	6,654

### Gross Profit

**SBS.** SBS's gross profit decreased for the three months ended March 31, 2024, as a result of a decrease in net sales, partially offset by a higher gross margin on units sold. SBS's gross margin improvement was driven primarily by lower distribution and freight costs from supply chain efficiencies, partially offset by the impact of favorable adjustments to our expected obsolescence reserve related to the Plan in the prior year.

**BSG.** BSG's gross profit increased for the three months ended March 31, 2024, as a result of an increase in net sales and a higher gross margin on units sold. BSG's gross margin improvement was driven by lower distribution and freight costs from supply chain efficiencies, partially offset by lower product margins primarily from higher take rate on promotions and brand mix.

### Selling, General and Administrative Expenses

As a percentage of SBS net sales, selling, general and administrative expense for the three months ended March 31, 2024, was 45.0% compared to 42.4% for the three months ended March 31, 2023. **Unallocated.** Unallocated selling, general and administrative expenses, which represent certain corporate costs that have not been charged to our reporting segments, increased \$9.5 million, or 18.7%, for the three months ended March 31, 2024, primarily due to expenses in connection with our Fuel for Growth initiative in the current year and higher health insurance costs, partially offset by lower accrued bonus expense.

### Restructuring

The decrease in restructuring was primarily due to the lapping of expenses incurred in connection with our Distribution Center Consolidation and Store Optimization Plan in the prior year for \$7.3 million. See Note 12, *Restructuring*, in Item 1 of this quarterly report for more information on the Plan.

### Interest Expense

The increase in interest expense is primarily due to higher interest rates on our variable rate debt and an increase in our losses on debt extinguishment, partially offset by lower average outstanding borrowings on our ABL facility during the current quarter. See Note 9, *Short-term and Long-term Debt*, and Note 10, *Derivative Instruments and Hedging Activities*, in Item 1 of this quarterly report for more information on our debt and interest rate swap that has helped mitigate some of the additional interest costs resulting from higher interest rates.

## Liquidity and Capital Resources

### Overview

Our principal sources of liquidity are cash from operations, cash and cash equivalents and borrowings under our ABL facility. A substantial portion of our liquidity needs arise from funding the costs of our operations, working capital, capital expenditures, debt interest and principal payments. Additionally, under our share repurchase program see (see below for more details, details) we will from time-to-time repurchase shares of our common stock on the open market to return value to our shareholders. At December 31, 2023 March 31, 2024, we had \$603.6 million \$517.8 million in our liquidity pool, which includes \$482.6 million \$420.6 million available for borrowing under our ABL facility and cash and cash equivalents of \$121.0 million \$97.2 million.

Our working capital (current assets less current liabilities) increased \$41.1 million decreased \$12.1 million, to \$689.8 million \$636.6 million at December 31, 2023 March 31, 2024, compared to \$648.7 million at September 30, 2023. The decrease was primarily driven by the impacts of our debt activity during the quarter, resulting in higher inventory, resulting from borrowings under our ABL facility and a decrease in cash and cash equivalents, and due to the timing of purchases and \$8.1 million from AP payments. These impacts were partially offset by an increase in inventory, as a result of expanded distribution rights in BSG, vendor price increases, the impact of foreign exchange rates of \$4.7 million, and lower by fewer accrued liabilities, driven by the timing of interest and payroll payments. The increase was partially offset by the timing of income tax payments.

We anticipate that existing cash balances (excluding certain amounts permanently invested in connection with foreign operations), cash expected to be generated by operations, and funds available under our ABL facility will be sufficient to fund our working capital and capital expenditure requirements over the next twelve months.

The decrease increase in cash provided by operating activities was driven by lower revenues, the timing of account payables payments and inventory purchases and lease contract termination and severance payments in connection with the Plan in the prior year, partially offset by the timing in inventory purchases. of cash receipts from customers.

#### Net Cash Used by Investing Activities

The increase in cash used by investing activities was driven by higher capital expenditures related to store improvements.

#### Net Cash Used by Financing Activities

The increase in cash used by financing activities was primarily due to shares repurchased in the current year under our share repurchases program, and from lower net partially offset by fewer reductions in our debt principal repayments outstanding in the current year compared to the prior year.

## Debt and Guarantor Financial Information

During the three months ending March 31, 2024, we issued \$600.0 million in 2032 Senior Notes and used the proceeds, together with cash on hand and borrowings under our ABL facility, to repay in full our 2025 Senior Notes. See Note 9, *Short-term and Long-term Debt*, in Item 1 of this quarterly report for more information on the issuance and repayment of debt.

21

At December 31, 2023 March 31, 2024, we had \$1.1 billion in outstanding debt principal, excluding finance lease obligations, unamortized debt issuance costs and debt discounts, in the aggregate, of \$7.5 million \$13.7 million. Our debt consists of \$680.0 million \$600.0 million in 2025 2032 Senior Notes outstanding, and \$397.0 million \$396.0 million remaining on our term loan. There were no loan and \$62.0 million in outstanding borrowings under our ABL facility.

We utilize our ABL facility for the issuance of letters of credit, certain working capital and liquidity needs, and to manage normal fluctuations in our operational cash flow. In that regard, we may from time to time draw funds under the ABL facility for general corporate purposes including funding of capital expenditures, acquisitions, paying down other debt and share repurchases. Amounts

19

drawn on our ABL facility are generally paid down with cash provided by our operating activities. During the three six months ended December 31, 2023 March 31, 2024, the weighted average interest rate on our borrowings under the ABL facility was 8.75% 7.73%.

We are currently in compliance with the agreements and instruments governing our debt, including our financial covenants.

### Guarantor Financial Information

Our 2025 2032 Senior Notes were issued by our wholly-owned subsidiaries, Sally Holdings LLC and Sally Capital Inc. (the "Issuers"). The notes are unsecured debt instruments guaranteed by us and certain of our wholly-owned domestic subsidiaries (together, the "Guarantors") and have certain restrictions on the ability of our subsidiaries to make certain restrictive payments to Sally Beauty. The guarantees are joint and several, and full and unconditional. Certain other subsidiaries, including our foreign subsidiaries, do not serve as guarantors.

The following summarized consolidating financial information represents financial information for the Issuers and the Guarantors on a combined basis. All transactions and intercompany balances between these combined entities has been eliminated.

#### Recent Accounting Pronouncements

2023

#### Item 3. Quantitative and Qualitative Disclosures About Market Risk

As a multinational corporation, we are subject to certain market risks including foreign currency fluctuations, interest rates and government actions. There have been no material changes to our market risks from September 30, 2023. See our disclosures about market risks contained in Item 7A. “Quantitative and Qualitative Disclosures about Market Risk” in Part II of our Annual Report on Form 10-K for the fiscal year ended September 30, 2023.

#### Item 4. Controls and Procedures

*Controls Evaluation and Related CEO and CFO Certifications.* Our management, with the participation of our principal executive officer (“CEO”) and principal financial officer (“CFO”), conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2023 March 31, 2024. The controls evaluation was conducted by our Disclosure Committee, comprised of senior representatives from our finance, accounting, internal audit, and legal departments under the supervision of our CEO and CFO.

Certifications of our CEO and our CFO, which are required in accordance with Rule 13a-14 of the Exchange Act, are attached as exhibits to this Quarterly Report. This “Controls and Procedures” section includes the information concerning the controls evaluation referred to in the certifications, and it should be read in conjunction with the certifications for a more complete understanding of the topics presented.

*Limitations on the Effectiveness of Controls.* We do not expect that our disclosure controls and procedures will prevent all errors and all fraud. A system of controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the system are met. Because of the limitations in all such systems, no evaluation can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. Furthermore, the design of any system of controls and procedures is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how unlikely. Because of these inherent limitations in a cost-effective system of controls and procedures, misstatements or omissions due to error or fraud may occur and not be detected.

*Scope of the Controls Evaluation.* The evaluation of our disclosure controls and procedures included a review of their objectives and design, our implementation of the controls and procedures and the effect of the controls and procedures on the information generated for use in this Quarterly Report. In the course of the evaluation, we sought to identify whether we had any data errors, control problems or acts of fraud and to confirm that appropriate corrective action, including process improvements, was being undertaken if needed. This type of evaluation is performed on a quarterly basis so that conclusions concerning the effectiveness of our disclosure controls and procedures can be reported in our Quarterly Reports on Form 10-Q and our Annual Reports on Form 10-K. Many of the components of our disclosure controls and procedures are also evaluated by our internal audit department, by our legal department and by personnel in our finance organization. The overall goals of these various evaluation activities are to monitor our disclosure controls and procedures on an ongoing basis and to maintain them as dynamic systems that change as conditions warrant.

*Conclusions regarding Disclosure Controls.* Based on the required evaluation of our disclosure controls and procedures, our CEO and CFO have concluded that, as of December 31, 2023 March 31, 2024, we maintain disclosure controls and procedures that are effective in providing reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

*Changes in Internal Control over Financial Reporting.* During our most recent fiscal quarter, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

We are involved, from time to time, in various claims and lawsuits incidental to the conduct of our business in the ordinary course. We carry insurance coverage in such amounts in excess of our self-insured retention as we believe to be reasonable under the circumstances and that may or may not cover any or all of our liabilities in respect of these matters. We do not believe that the ultimate resolution of these matters will have a material adverse impact on our consolidated financial position, cash flows or results of operations.

We are subject to a number of U.S., federal, state and local laws and regulations, as well as the laws and regulations applicable in each foreign country or jurisdiction in which we do business. These laws and regulations govern, among other things, the composition, packaging, labeling and safety of the products we sell, the methods we use to sell these products and the methods we use to import these products. We believe that we are in material compliance with such laws and regulations, although no assurance can be provided that this will remain true going forward.

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report, you should carefully consider the factors contained in Item 1A. “Risk Factors” in Part I of our Annual Report on Form 10-K for the fiscal year ended September 30, 2023, which could materially affect our business, financial condition or future results.
