International passenger traffic up 11.4% YoY; up 16.2% YoY in Argentina Â Â Luxembourg, January 20, 2025â€”
CorporaciÃ³n AmÃ©rica Airports S.A. (NYSE: CAAP), (â€œCAAPâ€ or the â€œCompanyâ€), one of the leading private
airport operators in the world, reported today a 3.2% year-on-year (YoY) increase in passenger traffic in December
2024. Excluding Natal for comparison purposes, total traffic in December increased by 6.6% YoY. Â Passenger Traffic,

Passenger Traffic Performance Â (In million PAX) Â Â Â Â Page 1 of 3Â Â Â Â Â Â Â Passenger Traffic
Overview Â Total passenger traffic increased by 3.2% in December compared to the same month in 2023, or by 6.6%
when adjusted for the discontinuation of operations at Natal Airport. Domestic passenger traffic decreased by 2.1%
year-over-year but increased by 3.3% when excluding Natal. This growth was primarily driven by strong performance in
Italy and a recovery in domestic traffic in Argentina. International traffic increased by 11.4%, mainly driven by growth
in Argentina and Italy. Â In Argentina, total passenger traffic increased by 7.0% YoY, marking an all-time high and an
improvement compared to the 3.3% YoY decline recorded in November. This growth was primarily driven by a strong
recovery in domestic traffic, which rose by 3.4% YoY, a significant rebound from the 7.2% YoY decline posted in
November. JetSMART has continued to gain market share since initiating its growth strategy a few months ago and
recently incorporated its first Airbus A320neo, bringing its domestic fleet to 12 aircraft. International passenger traffic
increased by 16.2% YoY, up from the 10.3% YoY growth recorded in November. Among other developments, United
Airlines began operating its second daily frequency to Houston every weekday through mid-February, while Delta Air
Lines initiated its second daily frequency to Atlanta through mid-January. Additionally, Air Canada resumed its daily
flights from Ezeiza through the end of March, and LATAM Airlines reinstated its seasonal route between Bariloche and
Santiago de Chile. Also in December, Sky Peru launched flights to Lima from Aeroparque. Â In Italy, passenger traffic
grew by 15.2% compared to the same month in 2023. International passenger traffic, which accounted for almost 75%
of the total traffic, increased by 11.9% YoY, driven by a 16.2% increase at Pisa airport and a 6.8% increase at Florence
airport. Domestic passenger traffic increased by a strong 25.3% YoY, with strong performances at both Pisa and
Florence airports. Â In Brazil, total passenger traffic decreased by 11.3% YoY, or increased by 3.4% YoY when
adjusting for the discontinuation of Natal Airport. These results reflect an improvement in traffic trends despite the still
challenging aviation context and aircraft constraints in the country, along with the positive impact of the temporary
closure of Porto Alegre airport. Domestic traffic, which accounted for almost 60% of the total traffic, was down 20.4%
YoY, or up 0.9% when excluding Natal, while transit passengers were up 5.5% YoY. As a reminder, following the
friendly termination process concluded in February 2024, CAAP no longer operates Natal Airport, effective February
19, 2024. Therefore, statistics for Natal are available up to February 18, 2024. Â In Uruguay, total passenger traffic,
predominantly international, continued its recovery, increasing by 8.2% YoY. In December, SKY Airline launched a new
route connecting Montevideo with Rio de Janeiro, while Azul Linhas AÃ©reas began operating flights to FlorianÃ³polis.
At Punta del Este Airport, the Company inaugurated the summer season with the first direct flight from Santiago de
Chile to Punta del Este, operated by LATAM with three weekly flights from November to March. Â In Ecuador,
passenger traffic increased by 1.2% YoY, following a strong recovery in 2023. International passenger traffic increased
by 4.4% YoY, while domestic traffic decreased by 2.9% YoY, impacted by high airfare prices affecting travel demand. Â
In Armenia, passenger traffic increased by 6.4% YoY, improving from last month's performance and following a strong
recovery in 2023, which benefited from the introduction of new airlines and routes, as well as an increase in flight
frequencies. The introduction of new routes has continued into 2024. Â Â Cargo Volume and Aircraft Movements Â
Cargo volume increased by 9.3% compared to the same month in 2023, with positive YoY contributions from all
countries of operation, except for Brazil and Ecuador: Argentina (+12.8%), Uruguay (+11.2%), Armenia (+46.2%), Italy

(+7.6%), Ecuador (-6.9%) and Brazil (-12.0%). Argentina, Brazil, and Armenia accounted for more than 80% of the total cargo volume in December. Aircraft movements increased by 2.5% YoY, with positive YoY contributions from all countries of operation, except for Brazil: Argentina (+6.1%), Uruguay (+1.3%), Armenia (+10.1%), Ecuador (+0.3%), Italy (+7.4%), and Brazil (-10.4%). Argentina, Brazil, and Ecuador accounted for more than 80% of total aircraft movements in December. Page 2 of 3 Summary Passenger Traffic, Cargo Volume and Aircraft Movements (2024 vs. 2023) Dec'24 Dec'23 % Var. FY'24 FY'23 % Var.
