Credit AgreementOn May 31, 2023, the Company entered into a Credit Agreement with Wells Fargo Bank, N.A., providing the Company with a secured credit facility (â€œWells Fargo Revolving Credit Facilityâ€) in an aggregate principal amount of $75Â million. Debt under the Credit Agreement is secured by a lien on substantially all of the Companyâ€™s assets. The Wells Fargo Credit Agreement requires the Company to maintain a Fixed Cost Coverage Ratio (â€œFCCRâ€) of greater than 1.0 and as of June 30, 2024, the Company had a Fixed Charge Coverage Ratio of 0.8. The ratio was primarily impacted by lower EBITDA in the first quarter of 2024 and concentrated share buybacks and dividends in the trailing twelve months. While the Company did not meet the minimum required ratio, a Covenant Testing Period begins only when the Companyâ€™s excess availability is 17.5% or less. As of June 30, 2023, the Company had no borrowings. The current forecast of the Company reflects future cash obligations and takes into account the increased operational activity and the Company believes future FCCR calculations will be above the minimum of 1.0 and reflective of those trends.In addition, on September 25, 2023, the Company entered into an agreement with Wells Fargo Bank, N.A. which designated an additional Letter of Credit in the amount of $1.6Â million as part of incremental collateral requirements for the Companyâ€™s 2023 insurance renewal. This line of credit falls under the Wells Fargo Revolving Credit Facility aggregate principal amount and matures on September 25, 2024. The interest rate for this Letter of Credit was approximately 1.8% for the month ended June 30, 2024. The Wells Fargo Revolving Credit Facility was drawn in part on MayÂ 31, 2023, to repay the Revolving Credit Facility, M&E Term Loan Facility, and the Secured Promissory Note, as defined below. The undrawn portion of the Wells Fargo Revolving Credit Facility is available to fund working capital and other general corporate expenses and for other-permitted uses, including the financing of permitted investments and restricted payments, such as dividends and share repurchases. The Wells Fargo Revolving Credit Facility is subject to a borrowing base that is calculated based upon a percentage of the Companyâ€™s eligible accounts receivable and eligible unbilled revenue less certain reserves. The Companyâ€™s eligible accounts receivable serve as collateral for the borrowings under the Wells Fargo Revolving Credit Facility, which is scheduled to mature on May 31, 2028. The Wells Fargo Revolving Credit Facility includes an acceleration clause and cash dominion provisions under certain circumstances that permits the administrative agent to sweep cash daily from certain bank accounts into an account of the administrative agent to repay the Companyâ€™s obligations under the Revolving Credit Facility. The borrowings of the Wells Fargo Revolving Credit Facility, therefore, will be classified as Long-term debt, current portion on the Condensed Consolidated Balance Sheet.Under the Wells Fargo Revolving Credit Facility, the total loan capacity was $66.7 million, which was based on a borrowing base certificate in effect as of June 30, 2024. On June 17, 2024, the Company entered into the First Amendment to the Wells Fargo Revolving Credit Facility, which allows for a percentage of unbilled revenue to be included in the calculation of the borrowing base. The Company did not have any borrowings under the Wells Fargo Revolving Credit Facility as of June 30, 2024. The Company does have $3.2Â million in Letters of Credit open under the facility, leaving a residual $63.5 million available for borrowings as of June 30, 2024. Borrowings under the Revolving Credit Facility bear interest at a rate per annum ranging from 1.75% to 2.25% in excess of SOFR and 0.75% to 1.25% in excess of the Base Rate, dependent on the average excess availability. The weighted average interest rate for the loan was approximately 7.2% for the six months ended June 30, 2024.14Eclipse Loan and Security AgreementOn September 27, 2021, the Company entered into a Loan and Security Agreement with EBC and Eclipse Business Capital SPV, LLC, as administrative agent, providing the Company with a senior secured credit facility in an aggregate principal amount of $77.5Â million (the â€œEBC Credit Facilityâ€), consisting of (i) a revolving credit facility in an aggregate principal amount of up to $50.0Â million (the â€œRevolving Credit Facilityâ€), (ii) a machinery and equipment term loan facility in an aggregate principal amount of up to $12.5Â million (the â€œM&E Term Loan Facilityâ€) and (iii) a term loan B facility in an aggregate principal amount of up to $15.0Â million (the â€œTerm Loan B Facilityâ€). On September 23, 2022, the Company entered into the Fourth Amendment to the Loan and Security Agreement pursuant to which, SOFR replaced LIBOR as the reference rate for interest on borrowings, effective October 1, 2022. On August 16, 2022, the Company fully repaid the Eclipse Term Loan B Facility and Eclipse M&E Term Loan Facility, making principal payments totaling $12.4Â million and $1.5Â million, respectively. On May 31, 2023, the Company made principal payments totaling $5.4Â million to extinguish the debt, using funds from the Wells Fargo Revolving Credit Facility.Other Installment PurchasesDuring the year ended December 31, 2021, the Company entered into various Installment and Security Agreements (collectively, the â€œInstallment Agreementsâ€) in connection with the purchase of certain ancillary equipment, where such assets are being held as collateral. As of June 30, 2024, the aggregate principal balance outstanding under the Installment Agreements was less than $0.1Â million and is payable ratably over 36 months from the time of each purchase. For the six months ended June 30, 2024 and 2023, the Company paid down the Installment Agreements by $0.1 million and $0.2 million, respectively. The monthly installment payments contain an imputed interest rate that are consistent with the Companyâ€™s incremental borrowing rate and is not significant to the Company.Note 10 â€” Equity Equity-Based CompensationIn 2017, the Company adopted the Ranger Energy Services, Inc. 2017 Long Term Incentive Plan (the â€œ2017 Planâ€). In calculating the estimated annual effective tax rate, the Company considers forecasted annual pre-tax income and estimated permanent book versus tax differences. Adjustments to the effective tax rate and other income tax related estimates could occur during the year as information and assumptions change which could include, but are not limited to, changes to forecasted amounts, estimates of permanent book versus tax differences, and changes to tax laws and rates. The effective U.S. federal income tax rate applicable to the Company for the six months ended June 30, 2024 and 2023 was 27.5% andÂ 23.8%, respectively.Â The Company is subject to the Texas Margin Tax, which requires tax payments at a maximum statutory effective rate of 0.75% on the taxable margin of each taxable entity that does business in Texas. 16Tax AttributesHistorically, utilization of a portion of the Company's net operating loss carryforwards has been subject to limitations of utilization under Section 382 of the Internal Revenue Code of 1986 (â€œSection 382â€), as amended. The Company incurred an ownership change, triggering another Section 382 loss limitation, during the three months ended June 30, 2023.As the Company continues to experience increasing profits and no longer has a trailing 3-year cumulative taxable loss, we currently believe that it is more likely than not to fully utilize all deferred tax assets including those associated with the net operating loss carry-forward. Accordingly, the Company released all valuation allowances previously recorded resulting in a discrete tax benefit

for the period ended September 30, 2023.Other Tax MattersTotal income tax expense for the six months ended June 30, 2024 and 2023 differed from amounts computed by applying the U.S. federal statutory tax rates to pre-tax income or loss primarily due to the impact of state income taxes as well as certain non-deductible expenses offset by the benefit from the release of a previously recorded valuation allowance against deferred tax assets.The Company is subject to the following material taxing jurisdictions: the United States and Texas. As of June 30, 2024, the Company has no current tax years under audit. The Company remains subject to examination for federal income taxes and state income taxes for tax years 2020 through 2023. The Company has evaluated all tax positions for which the statute of limitations remains open and believes that the material positions taken would more likely than not be sustained upon examination. Therefore, as of June 30, 2024, the Company had not established any reserves for, nor recorded any unrecognized benefits related to, uncertain tax positions.Note 13 â€” Earnings per Share Earnings per share is based on the amount of earnings allocated to the shareholders and the weightedÂ average number of shares outstanding during the period for each class of Common Stock. The CODM evaluates the segmentsâ€™ operating performance based on multiple measures including operating income, rig hours and stage counts. The tables below present the operating income measurement, as the Company believes this is most consistent with the principals used in measuring the Condensed Consolidated Financial Statements.The following is a description of each operating segment:High Specification Rigs. Managementâ€™s Discussion and Analysis of Financial Condition and Results of OperationsThe following discussion and analysis should be read in conjunction with the historical financial statements and related notes included in Part I, Item 1. Financial Statements of this Quarterly Report on Form 10-Q (the â€œQuarterly Reportâ€). This discussion contains â€œforward-looking statementsâ€ reflecting our current expectations, estimates and assumptions concerning events and financial trends that may affect our future operating results or financial position. Actual results and the timing of events may differ materially from those contained in these forward-looking statements due to a number of factors. Factors that could cause or contribute to such differences include, but are not limited to, market prices and demand for oil and natural gas, capital expenditures, economic and competitive conditions, regulatory changes and other uncertainties, as well as those factors discussed below and elsewhere in this report. Please read the Cautionary StatementÂ Regarding Forward-Looking Statements. Also, please read the risk factors and other cautionary statements described under â€œRisk Factorsâ€ in this Quarterly Report and in our Annual Report. We assume no obligation to update any of these forward-looking statements except as required by law. Except as otherwise indicated or required by the context, all references in this Quarterly Report to the â€œCompany,â€ â€œRanger,â€ â€œwe,â€ â€œus,â€ or â€œourâ€ relate to Ranger Energy Services, Inc. (â€œRanger, Inc.â€) and its consolidated subsidiaries.How We Evaluate Our OperationsOur service offerings consist of well completion support, workover, well maintenance, wireline, other complementary services, as well as well installation, commissioning and operating of modular equipment, which are conducted in three reportable segments, as follows:â€¢High Specification Rigs. Provides high specification well service rigs to facilitate operations throughout the lifecycle of a well.â€¢Wireline Services. Provides services necessary to bring and maintain a well on production and consists of our completion, production and pump down service lines.â€¢Processing Solutions and Ancillary Services. Provides complimentary services often utilized in conjunction with our High Specification Rigs and Wireline Services segments. These services primarily include equipment rentals, coil tubing, plug and abandonment, snubbing, and processing solutions.â€¢Other. Other represents costs not allocable to the reporting segments and includes corporate general and administrative expense and depreciation of corporate furniture and fixtures, amortization, impairments, debt retirements and other items similar in nature.For additional financial information about our segments, please see â€œItem 1. Financial Information â€” Note 15 â€” Segment Reporting.â€ Business OutlookThe outlook for the majority of the Companyâ€™s service lines remains stable. Despite drilling and completion activity declines during 2023, the Company was able to maintain consistent performance through most quarters with declines in some service line occurring at the start of 2024 due to increased competition, reduced activity levels and typical seasonality. Activity levels have since recovered in most service lines and, going forward, we anticipate the global economy and, commodity prices as a consequence, will show continued stability providing a constructive demand backdrop for our services. OPEC+ production cuts have continued and are expected to keep commodity prices at a stable level through the remainder of 2024. Furthermore, both EIA and OPEC+ are projecting for global oil inventories to decline due to flat production and increasing oil consumption in 2024. OPEC+ is projecting oil demand to rise by 2.25 million barrels per day in 2024 and by 1.85 million barrels per day in 2025, driving continued investment and growth in the sector. Consolidation occurring at the E&P operator level within the energy industry is expected to impact U.S. onshore activity levels although the full extent of this impact is not yet known. The Company does expect that short to medium term activity will be varied from this consolidation but, over the long-term, the Company expects favorable preference from these larger organizations where the well-established processes and systems of Ranger are more valued.The Company believes current geopolitical events will continue to have an impact on our industry. Considering the rapidly evolving events and the interplay of supply and demand within oil and gas commodities sector, numerous unknown factors could materially impact our operations. These events have already, and are likely to continue, influencing commodity prices, causing volatility that could have a material effect on our earnings, cash flows, and financial condition. 20Financial MetricsHow We Generate RevenueRig hours and stage counts, as it relates to our High Specification Rigs and parts of our Wireline Services segments, respectively, are important indicators of our activity levels and profitability. Rig hours represent the aggregate number of hours that our well service rigs actively worked. Stage counts represent the number of completed stages during the periods presented for the completion service line within our Wireline Services segment. Generally, during the period our services are being provided, our customers are billed on an hourly basis for our high specification rig services or, as it relates to our wireline services, customers are billed upon the completion of the well, on a monthly basis, or on a per job basis. The rates for which the customer is billed is generally predetermined based upon a contractual agreement.Costs of Conducting Our BusinessThe principal costs associated with conducting our business are personnel, repairs and maintenance, general and administrative, and depreciation expense.Cost of Services. The primary costs associated with our cost of services are related to personnel expenses, lease costs, repairs and maintenance of our fixed assets and, additionally, as it relates to our Wireline Services segment, perforating and gun costs. A significant portion of these expenses are variable, and therefore typically managed based on industry conditions and demand for our services. Further, there is generally a correlation between our revenue generated and personnel and repairs and maintenance costs, which are dependent upon the operational activity.Personnel costs associated with our operational employees represent the most significant cost of our business. A substantial portion of our labor costs is attributable to our field crews and is partly variable based on the requirements of specific customers. A key component of personnel costs relates to the ongoing training of our employees, which improves safety rates and reduces attrition.General & Administrative. General and administrative expenses are corporate in nature and are included within Other. These costs include the majority of centrally-located company management and administrative personnel and are not attributable to any of our lines of businesses nor reporting segments.Operating Income or LossWe analyze our operating income or loss by segment, which we have defined as revenue less cost of services and depreciation expense. We believe this is a key financial metric as it provides insight on profitability and operational performance based on the historical cost basis of our assets.Adjusted EBITDAWe view Adjusted EBITDA, which is a nonâ€‘GAAP financial measure, as an important indicator of performance. We define Adjusted EBITDA as net income or loss before net interest expense, income tax expense, depreciation and amortization, equityâ€‘based compensation, acquisitionâ€‘related costs, severance and reorganization costs, gain or loss on disposal of property and equipment, and certain other nonâ€‘cash and certain other items that we do not view as indicative of our ongoing performance. See â€œâ€”Results of Operationsâ€ and â€œâ€”Note Regarding Nonâ€‘GAAP Financial Measureâ€ for more information and reconciliations of net income (loss) to Adjusted EBITDA, the most directly comparable financial measure calculated and presented in accordance with U.S. GAAP.21Results of OperationsThree Months Ended June 30, 2024 compared to Three Months Ended June 30, 2023 The following is an analysis of our operating results. Revenue for the three months ended June 30, 2024 decreased $25.1 million, or 15%, to $138.1 million from $163.2 million for the three months ended June 30, 2023. The change in revenue by segment was as follows:High Specification Rigs. High Specification Rigs revenue for the three months ended June 30, 2024 increased $5.1 million, or 7%, to $82.7 million from $77.6 million for the three months ended June 30, 2023. The revenue increase is attributable to improved pricing and the average revenue per rig hour increasing 6% to $732 for the three months ended June 30, 2024 from $687Â for the three months ended June 30, 2023. Total rig hours were similar between periods with 113,100 hours reported for the three months ended June 30, 2024 compared with 113,200 hours reported for three months ended June 30, 2023. Wireline Services. Wireline Services revenue for the three months ended June 30, 2024 decreased $30.0 million, or 55%, to $24.5 million from $54.5 million for the three months ended June 30, 2023. The decreased revenue was primarily attributable to a decrease in completion services revenue of $30.7 million where there was a 77% decrease in completed stage counts to 1,700 for the three months ended June 30, 2024 from 7,400 for the three months ended June 30, 2023. This decrease in completion services revenue and stage count is indicative of lower operational activity reflecting the Companyâ€™s decision to pursue only work with appropriate margins in the North region and the Company's decision to close the completions service line in the South region. Wireline production services and pump down revenue increased year over year by a net of $0.8 million reflecting increased operational activity offset by market pricing pressure.Processing Solutions and Ancillary Services. Processing Solutions and Ancillary Services revenue for the three months ended June 30, 2024 decreased $0.2 million, or 1%, to $30.9 million from $31.1 million for the three months ended June 30, 2023. The decrease in revenue is primarily attributable to decreased activity in our coil tubing service lines and snubbing 22services, which amounted to decreased revenue of $0.8 million and $0.4 million, respectively. Coil tubing services revenue declined in the North region due to increased competition from lower-priced units early in the quarter resulting in reduced activity levels. The Company has seen a recovery in coil tubing activity in recent months. These revenue declines were offset by increases in revenue within logistics, rentals, and plugging and abandonment by $0.6 million, $0.3 million, and $0.3 million, respectively.Cost of services (exclusive of depreciation and amortization). Cost of services for the three months ended June 30, 2024 decreased $23.1 million, or 17%, to $113.2 million from $136.3 million for the three months ended June 30, 2023. As aÂ percentage of revenue, cost of services was 82% and 84% for the three months ended June 30, 2024 and 2023, respectively. The change in cost of services by segment was as follows:High Specification Rigs. High Specification Rigs cost of services for the three months ended June 30, 2024 increased $3.3 million, to $65.3 million from $62.0 million for the three months ended June 30, 2023. The increase was primarily attributable to an increase in variable expenses, notably employee-related labor costs, repair and maintenance costs, and travel costs of $1.9 million, $0.6 million and $0.5 million, respectively. As a percentage of High Specification Rigs revenue, cost of services improved from 80% for the three months ended June 30, 2023 to 79% for the three months ended June 30, 2024.Wireline Services. Wireline Services cost of services for the three months ended June 30, 2024 decreased $24.6 million, or 50%, to $24.2 million from $48.8 million for the three months ended June 30, 2023. The decrease in wireline services cost of sales was primarily attributable to declines in completion services costs of $26.8 million as the Company reorganized this service line during the year to align with lower operating levels. As a percentage of Wireline Services revenue, cost of services increased from 90% for the three months ended June 30, 2023 to 99% for the three months ended June 30, 2024 primarily due to declining operating leverage due to lower activity levels. Processing Solutions and Ancillary Services. Processing Solutions and Ancillary Services cost of services for the three months ended June 30, 2024 decreased $1.8 million, or 7%, to $23.7 million from $25.5 million for the three months ended June 30, 2023. The decrease was primarily attributable to decreased employee costs which accounted for $1.4 million due to improved labor efficiencies within service lines. As a percentage of Processing Solutions and Ancillary Services revenue, cost of services improved from 82% for the three months ended June 30, 2023 to 77% for the three months ended June 30, 2024 due to increased operational efficiencies and cost reductions. GeneralÂ & Administrative. General and administrative expenses for the three months ended June 30, 2024 decreased $0.4 million, or 5%, to $6.9 million from $7.3 million for the three months ended June 30, 2023. The decrease in general and administrative expenses is primarily due to decreased employee costs attributable to cost reduction activities.Depreciation and Amortization. Depreciation

and amortization for the three months ended June 30, 2024 increased $2.3 million, or 26%, to $11.0 million from $8.7 million for the three months ended June 30, 2023. The increase was attributable to increased capital expenditures with shorter useful lives added during the latter half of 2023 into 2024.Interest Expense, net. Interest expense, net for the three months ended June 30, 2024Â decreased $0.3 million, or 33%, to $0.6 million from $0.9 million for the three months ended June 30, 2023. The decrease to net interest expense was attributable to reduced borrowings on the Wells Fargo Revolving Credit Facility offset by increased borrowing costs on finance leases.Income Tax Expense. Income tax expense for the three months ended June 30, 2024 and 2023 remained flat at $2.0 million. The slightly higher tax rate for the period ended June 30, 2024 was driven by the impact of state income taxes and certain non-deductible expenses. Net Income. Net income for the three months ended June 30, 2024 decreased $1.4 million, or 23%, to $4.7 million from $6.1 million for the three months ended June 30, 2023. The decrease in net income was driven by a combination of reduced operating income from activity declines in the Wireline segment offset by increased pricing in the High Specification Rigs segment and cost reductions in Processing Solutions and Ancillary Services and Other segments. The decrease in operating income was offset by improved interest expense and the non-recurrence of the loss on debt extinguishment from 2023.23Six Months Ended June 30, 2024 compared to Six Months Ended June 30, 2023 The following is an analysis of our operating results. Revenue for the six months ended June 30, 2024 decreased $45.7 million, or 14%, to $275.0 million from $320.7 million for the six months ended June 30, 2023. The change in revenue by segment was as follows:High Specification Rigs. High Specification Rig revenue for the six months ended June 30, 2024 increased $7.3 million, or 5%, to $162.4 million from $155.1 million for the six months ended June 30, 2023. The increase in revenue included an increase in the average revenue per rig hour by 5% to $725 from $688Â for the six months ended June 30, 2023, offset by a 1% decrease in total rig hours to 224,100 for the six months ended June 30, 2024 from 225,700 for the six months ended June 30, 2023. Wireline Services. Wireline Services revenue for the six months ended June 30, 2024 decreased $47.1 million, or 45%, to $57.3 million from $104.4 million for the six months ended June 30, 2023. The decrease in wireline services revenue was attributable to reductions in the completions service line totaling $46.5 million illustrated by a 63% decrease in completed stage counts to 5,100 for the six months ended June 30, 2024 from 13,800 for the six months ended June 30, 2023. This decrease in completion services and stage count is indicative of lower operational activity reflecting the Companyâ€™s decision to pursue only work with appropriate margins. Other Wireline service lines showed slight decreases in the year over year comparable periods due to more significant seasonality declines in 2024 and declining market conditions from the first quarter of 2023.Processing Solutions and Ancillary Services. Processing Solutions and Ancillary Services revenue for the six months ended June 30, 2024 decreased $5.9 million, or 10%, to $55.3 million from $61.2 million for the six months ended June 30, 2023. The decrease in processing solutions and ancillary services revenue is attributable to decreases in coil tubing and snubbing of $5.4 million and $1.2 million, respectively. Coil tubing services revenue declined in the North region due to increased competition from lower-priced units during the winter and seasonal lulls in activity during the beginning of 2024. The Company has seen a recovery in coil tubing activity beginning in the second quarter of 2024 along with increasing activity in 24other Ancillary Services lines. Year over year revenue declines were offset by increases in revenue in our logistics, rentals and plugging and abandonment service lines of $0.5Â million, $0.2Â million and $0.1 million, respectively. Cost of services (exclusive of depreciation and amortization). Cost of services for the six months ended June 30, 2024 decreased $33.2 million, or 12%, to $234.0 million from $267.2 million for the six months ended June 30, 2023. As aÂ percentage of revenue, cost of services was 85% and 83% for the six months ended June 30, 2024 and 2023, respectively. The change in cost of services by segment was as follows:High Specification Rigs. High Specification Rig cost of services for the six months ended June 30, 2024 increased $9.5 million, or 8%, to $131.6 million from $122.1 million for the six months ended June 30, 2023. The increase was primarily attributable to an increase in variable expenses, most significant of which is employee-related labor costs, travel, and repair and maintenance accounting for of $6.6 million, $1.3 million and $1.3 million, respectively. As a percentage of High Specification Rigs Services revenue, cost of services increased from 78% for the six months ended June 30, 2023 to 81% for the six months ended June 30, 2024 driven largely by standby labor costs incurred during the first quarter of 2024.Wireline Services. Wireline Services cost of services for the six months ended June 30, 2024 decreased $37.7 million, or 40%, to $56.8 million from $94.5 million for the six months ended June 30, 2023. The decrease is primarily attributable to a decrease in costs from the completion services lines by approximately $41.9 million as the Company reorganized this service line to accommodate lower operation activity and focus on more profitable service lines. As a percentage of Wireline Services revenue, cost of services increased from 91% for the six months ended June 30, 2023 to 99% for the six months ended June 30, 2024 primarily due to declining operating leverage due to lower activity levels. The decrease in completion service line costs were offset by an increase in costs from the production and pump down service lines to drive expanding activity levels.Processing Solutions and Ancillary Services. Processing Solutions and Ancillary Services cost of services for the six months ended June 30, 2024 decreased $5.0 million, or 10%, to $45.6 million from $50.6 million for the six months ended June 30, 2023. The increase was primarily attributable to decreased employee labor, fuel and travel costs associated which amounted to $2.4 million, $1.0 million and $0.9 million, respectively. GeneralÂ & Administrative. General and administrative expenses for the six months ended June 30, 2024 decreased $2.1 million, or 13%, to $13.6 million from $15.7 million. The decrease in general and administrative expenses is primarily due to lower compensation costs relative to the prior year, coupled with legal fees and transactional costs incurred during the six months ended June 30, 2023.Depreciation and Amortization. Depreciation and amortization for the six months ended June 30, 2024 increased $3.5 million, or 19%, to $22.2 million from $18.7 million for the six months ended June 30, 2023. The increase was attributable to capital expenditures added during the latter half of 2023 into 2024.Interest Expense, net. Interest expense, net for the six months ended June 30, 2024Â decreased $0.7 million, or 33%, to $1.4 million from $2.1 million for the six months ended June 30, 2023. The decrease to net interest expense was attributable to the decreased levels of borrowings year over year in conjunction with refinancings completed during the second quarter of 2023 resulting in lower borrowing costs.Income Tax Expense. Income tax expense for the six months ended June 30, 2024 decreased $2.3 million, or 61%, to $1.5 million from $3.8 million for the six months ended June 30, 2023. Net income for the six months ended June 30, 2024 decreased $8.4 million, or 68%, to $3.9 million from $12.3 million for the six months ended June 30, 2023. The decrease in net income was primarily driven by reduced activity in Wireline Services and Processing Solutions and Ancillary Services segments.NoteÂ Regarding Non-GAAP Financial MeasureAdjusted EBITDA is not a financial measure determined in accordance with U.S. GAAP. We define Adjusted EBITDA as net income or loss before net interest expense, income tax expense, depreciation and amortization, equity-based compensation, gain or loss on disposal of property and equipment, acquisition related costs, severance and reorganization costs, and certain other non-cash and certain other items that we do not view as indicative of our ongoing performance.25We believe Adjusted EBITDA is a useful performance measure because it allows for an effective evaluation of our operating performance when compared to our peers, without regard to our financing methods or capital structure. We exclude the items listed above from net income (loss) in arriving at Adjusted EBITDA because these amounts can vary substantially within our industry depending upon accounting methods and book values of assets, capital structures and the method by which the assets were acquired. Adjusted EBITDA should not be considered as an alternative to, or more meaningful than, net income (loss) determined in accordance with U.S. GAAP. Certain items excluded from Adjusted EBITDA are significant components in understanding and assessing a companyâ€™s financial performance, such as a companyâ€™s cost of capital and tax structure, as well as the historic costs of depreciable assets, none of which are reflected in Adjusted EBITDA. Our presentation of Adjusted EBITDA should not be construed as an indication that our results will be unaffected by the items excluded from Adjusted EBITDA. Our computations of Adjusted EBITDA may not be identical to other similarly titled measures of other companies. The following table presents reconciliations of net income (loss) to Adjusted EBITDA, our most directly comparable financial measure calculated and presented in accordance with U.S. GAAP.26Three Months Ended June 30, 2024 compared to Three Months Ended June 30, 2023The following is an analysis of our Adjusted EBITDA. The change by segment was as follows:High Specification Rigs. High Specification Rigs Adjusted EBITDA for the six months ended June 30, 2024 decreased $0.7 million to $32.3 million from $33.0 million for the six months ended June 30, 2023, primarily due reduced operating levels during the first quarter of 2024 and elevated labor costs due to standby time.Wireline Services. Wireline Services Adjusted EBITDA for the six months ended June 30, 2024 decreased $9.3 million to $0.6 million from $9.9 million for the six months ended June 30, 2023, primarily due to significant decreases in operating activity within the completions service line.Processing Solutions and Ancillary Services. Processing Solutions and Ancillary Services Adjusted EBITDA for the six months ended June 30, 2024 decreased $0.8 million to $9.8 million from $10.6 million for the six months ended June 30, 2023, primarily due to decreased coil tubing revenue, partially offset by a decrease in cost of services across service lines.Other. Other Adjusted EBITDA for the six months ended June 30, 2024 improved $0.7 million to a loss of $10.8 million from a loss of $11.5 million for the six months ended June 30, 2023. The balances included in Other reflect other general and administrative costs, which are not directly attributable to High Specification Rigs, Wireline Services or Processing Solutions and Ancillary Services.Liquidity and Capital ResourcesOverviewWe require capital to fund ongoing operations, including maintenance expenditures on our existing fleet and equipment, organic growth initiatives, investments and acquisitions. Our primary sources of liquidity have historically been cash generated from operations and borrowings under our credit facilities. As of June 30, 2024, we had total liquidity of $72.2 million, consisting of $8.7 million of cash on hand and availability under our Wells Fargo Revolving Credit Facility of $63.5 million. Under the Wells Fargo Revolving Credit Facility, the total loan capacity was $66.7 million, net of $3.2Â million of Letters of Credit open under the facility. This compares to the Companyâ€™s available borrowings under the Wells Fargo Revolving Credit Facility of $64.3 million as of June 30, 2023 and $69.4 million as of December 31, 2023. We strive to maintain financial flexibility and proactively monitor potential capital sources to meet our investment and target liquidity requirements that permit us to manage the cyclicality associated with our business. We currently expect to have sufficient funds to meet the Companyâ€™s short and long term liquidity requirements and comply with our covenants of our debt agreements. For further details, see â€œâ€” Debt Agreements.â€30Cash FlowsThe following table presents our cash flows for the periods indicated:Six Months Ended June 30, Change20242023$%(in millions)Net cash provided by operating activities$34.1Â $40.9Â $(6.8)(17)%Net cash used in investing activities(20.3)(8.2)(12.1)(148)%Net cash used in financing activities(20.8)(30.0)9.2Â 31Â %Net change in cash(7.0)2.7Â $(9.7)(359)%Operating ActivitiesNet cash from operating activities decreased $6.8 million to $34.1 million for six months ended June 30, 2024 compared to $40.9 million for the six months ended June 30, 2023. The change in cash flows from operating activities is primarily attributable to a decrease in operating income for the six months ended June 30, 2024 compared to the six months ended June 30, 2023. Cash created from working capital increased $1.8 million to $4.0 million for the six months ended June 30, 2024, compared to $2.2 million for the six months ended June 30, 2023 due to improvements in collections activities in the most recent quarter.Investing Activities Net cash used in investing activities increased $12.1 million to $20.3 million for six months ended June 30, 2024 compared to $8.2 million for the six months ended June 30, 2023. The change in cash flows from investing activities is largely attributable to slight increases in fixed asset additions that took place during the six months ended June 30, 2024 and less proceeds from asset disposals relative to those that occurred during the six months ended June 30, 2023.Financing ActivitiesNet cash used in financing activities decreased $9.2 million

from $30.0 million for the six months ended June 30, 2023 to $20.8 million for the six months ended June 30, 2024. Cash used in financing activities for the six months ended June 30, 2024 primarily was allocated to the repurchase of Class A Common Stock (see Item 1. Financial Informationâ€" Note 10 â€" Equity).Supplemental DisclosuresDuring the six months ended June 30, 2024, the Company added fixed assets of $3.6Â million and $4.2Â million primarily related to finance leased assets and asset trades, respectively, across all operating segments. Working CapitalOur working capital, which we define as total current assets less total current liabilities, was $52.9 million as of June 30, 2024, compared to $66.4 million as ofÂ December 31, 2023. The decrease in working capital can be attributed to a lower cash and accounts receivable balance, offset by a lower accounts payable balance.Debt AgreementsWells Fargo Bank, N.A. Credit AgreementOn May 31, 2023, the Company entered into a Credit Agreement with Wells Fargo Bank, N.A., providing the Company with a secured credit facility (â€œWells Fargo Revolving Credit Facilityâ€) in an aggregate principal amount of $75Â million. Debt under the Credit Agreement is secured by a lien on substantially all of the Companyâ€™s assets. The Wells Fargo Credit Agreement requires the Company to maintain a Fixed Cost Coverage Ratio (â€œFCCRâ€) of greater than 1.0 and as of June 30, 2024, the Company had a Fixed Charge Coverage Ratio of 0.8. The ratio was primarily impacted by lower EBITDA in the first quarter of 2024 and concentrated share buybacks and dividends in the trailing twelve months. While the Company did not meet the minimum required ratio, a Covenant Testing Period begins only when the Companyâ€™s excess availability is 17.5% or less. As of June 30, 2023, the Company had no borrowings. The current forecast of the Company reflects future cash obligations and takes into account the increased operational activity and the Company believes future FCCR calculations will be above the minimum of 1.0 and reflective of those trends. In addition, on September 25, 2023, the Company entered into an agreement with Wells Fargo Bank, N.A. which designated an additional Letter of Credit in the amount of $1.6Â million as part of incremental collateral requirements for the Companyâ€™s 2023 insurance renewal. This line of credit falls under the Wells Fargo Revolving Credit Facility aggregate principal amount and matures on September 25, 2024. The interest rate for this Letter of Credit was approximately 1.8% for the month ended June 30, 2024. 31The Wells Fargo Revolving Credit Facility was drawn in part on May 31, 2023, to repay the Revolving Credit Facility, M&E Term Loan Facility, and the Secured Promissory Note. The undrawn portion of the Wells Fargo Revolving Credit Facility is available to fund working capital and other general corporate expenses and for other-permitted uses, including the financing of permitted investments and restricted payments, such as dividends and share repurchases. The Wells Fargo Revolving Credit Facility is subject to a borrowing base that is calculated based upon a percentage of the Companyâ€™s eligible accounts receivable and unbilled revenue less certain reserves. The Companyâ€™s eligible accounts receivable serve as collateral for the borrowings under the Wells Fargo Revolving Credit Facility, which is scheduled to mature on May 31, 2028. The Wells Fargo Revolving Credit Facility includes an acceleration clause and cash dominion provisions under certain circumstances that permits the administrative agent to sweep cash daily from certain bank accounts into an account of the administrative agent to repay the Companyâ€™s obligations under the Revolving Credit Facility. The borrowings of the Wells Fargo Revolving Credit Facility, therefore, will be classified as Long-term debt, current portion on the Condensed Consolidated Balance Sheet.Under the Wells Fargo Revolving Credit Facility, the total loan capacity was $66.7 million, which was based on a borrowing base certificate in effect as of June 30, 2024. On June 17, 2024, the Company entered into the First Amendment to the Wells Fargo Revolving Credit Facility, which allows for a percentage of unbilled revenue to be included in the calculation of the borrowing base. The Company did not have any borrowings under the Wells Fargo Revolving Credit Facility as of June 30, 2024. The Company does have $3.2Â million in Letters of Credit open under the facility, leaving a residual $63.5 million available for borrowings as of June 30, 2024. Borrowings under the Revolving Credit Facility bear interest at a rate per annum ranging from 1.75% to 2.25% in excess of SOFR and 0.75% to 1.25% in excess of the Base Rate, dependent on the average excess availability. The weighted average interest rate for the loan was approximately 7.2% for the six months ended June 30, 2024.Eclipse Loan and Security AgreementOn September 27, 2021, the Company entered into a Loan and Security Agreement with Eclipse Business Capital LLC (â€œEBCâ€) and Eclipse Business Capital SPV, LLC, as administrative agent, providing the Company with a senior secured credit facility in an aggregate principal amount of $77.5Â million (the â€œEBC Credit Facilityâ€), consisting of (i) a revolving credit facility in an aggregate principal amount of up to $50.0Â million (the â€œRevolving Credit Facilityâ€), (ii) a machinery and equipment term loan facility in an aggregate principal amount of up to $12.5Â million (the â€œM&E Term Loan Facilityâ€) and (iii) a term loan B facility in an aggregate principal amount of up to $15.0Â million (the â€œTerm Loan B Facilityâ€). On August 16, 2022, the Company fully repaid the Eclipse Term Loan B Facility and Eclipse M&E Term Loan Facility, making principal payments totaling $12.4Â million and $1.5Â million, respectively. On May 31, 2023, the Company extinguished the Eclipse Revolving Credit Facility and Eclipse M&E Term Loan Facility, paying the remaining principal amount of $8.4Â million to extinguish the debt, using funds from the Wells Fargo Revolving Credit Facility. The Company recognized a loss on the retirement of debt of $2.4Â million in connection with the initiation of the Wells Fargo Revolving Credit Facility.Secured Promissory NoteOn July 8, 2021, the Company acquired the assets of PerfX Wireline Services (â€œPerfXâ€), a provider of wireline services that operated in Williston, North Dakota and Midland, Texas. In connection with the PerfX acquisition, Bravo Wireline, LLC, a wholly owned subsidiary of Ranger, entered into a security agreement with Chief Investments, LLC, as administrative agent, for the financing of certain assets acquired. Borrowings under the Secured Promissory On May 31, 2023, the Company made principal payments totaling $5.4Â million to extinguish the debt, using funds from the Wells Fargo Revolving Credit Facility.Other Installment PurchasesDuring the year ended December 31, 2021, the Company entered into various Installment and Security Agreements (collectively, the â€œInstallment Agreementsâ€) in connection with the purchase of certain ancillary equipment, where such assets are being held as collateral. As of June 30, 2024, the aggregate principal balance outstanding under the Installment Agreements was less than $0.1 million and is payable ratably over 36 months from the time of each purchase. For the six months ended June 30, 2024 and six months ended June 30, 2023 the Company paid down the Installment Agreements by $0.1 million and $0.2 million, respectively. The monthly installment payments contain an imputed interest rate that are consistent with the Companyâ€™s incremental borrowing rate and is not significant to the Company.Capital Returns ProgramOn March 7, 2023, the Company announced a share repurchase program authorizing the Company to purchase up to $35.0Â million of Class A Common Stock that can be utilized for up to 36 months. On March 4, 2024, the Company announced that its Board of Directors approved for an additional share repurchase program authorization of $50.0 million, bringing the total share repurchase program authorization to $85.0 million in aggregate value. In 2023, the Board of Directors approved the initiation of a quarterly dividend of $0.05 per share. The Company believes that a share repurchase and dividend framework provides the best overall value creation potential for investors. On April 5, 2024, the Company paid dividend distributions totaling $1.1Â million to stockholders of record as of the close of business on 32March 15, 2024. On May 31, 2024, the Company paid dividend distributions totaling $1.1 million to stockholders of record at the close of business on May 17, 2024. The declaration of any future dividends is subject to the Board of Directorsâ€™ discretion and approval.Critical Accounting Policies and EstimatesOur significant accounting policies are discussed in our Annual Report and have not materially changed since December 31, 2023. Off-Balance Sheet ArrangementsWe currently have no material off-balance sheet arrangements.ItemÂ 3.Â Quantitative and Qualitative Disclosures about Market RisksRecent EventsWe continue to expect business opportunities and financial results to remain stable assuming the global economy remains stable. OPEC+ production cuts have continued and are expected to keep commodity prices at a stable level through the remainder of 2024. OPEC+ also expects oil demand to rise by approximately 2.25 million barrels per day in 2024 and by 1.85 million barrels per day in 2025.We believe that geopolitical events will continue to have an impact on the macroeconomic backdrop of our industry, most notably, Chinaâ€™s growth expectations and uncertainty regarding Russiaâ€™s oil supply while under sanctions. The 2022 invasion of Ukraine by neighboring Russia has caused turmoil in global markets, generally driving oil prices higher while also injecting further uncertainty into a worldwide economy recovering from the effects of COVID-19. Additionally, recent events in the Middle East have contributed to further uncertainty and created additional risk to global stability that could ultimately affect our business.Given the continuing conflict globally, there are many unknown factors and events that could materially impact our operations. These events have and continue to impact commodity prices, which could have a material effect on our earnings, cash flows, and financial condition. In the short-term, commodity price fluctuations are highly uncertain. Actual price outcomes will be dependent on the degree to which existing sanctions imposed on Russia, any potential future sanctions, and independent corporate actions affect Russiaâ€™s oil production or the sale of Russiaâ€™s oil in the global market. In addition, the degree to which other oil producers respond to current oil prices, as well as the effects macroeconomic developments might have on global oil demand, will be important for oil price formation in the coming months.Interest Rate RiskWe are exposed to interest rate risk as a result of borrowings associated with our Wells Fargo Revolving Credit Facility and Financing Agreement to fund operations. As of June 30, 2024, the Company did not have any borrowings under the Wells Fargo Revolving Credit Facility and therefore a hypothetical 1.0% increase or decrease in the weighted average interest rate would increase or decrease interest expense by less than $0.1 million perÂ year. We do not currently hedge out interest rate exposure. We do not engage in derivative transactions for speculative or trading purposes. For a complete discussion of our interest rate risk, see our Annual Report. Credit RiskThe majority of our trade receivables have payment terms of 30Â days or less. As of June 30, 2024, the top three trade receivable balances represented approximately 19%, 13%, and 8%, respectively, of consolidated net accounts receivable. Within our High Specification Rig segment, the top three trade receivable balances represented 25%, 18% and 13%, respectively, of total High Specification Rig net accounts receivable. Within our Wireline Services segment, the top three trade receivable balances represented 19%, 18%, and 8%, respectively, of total Wireline Services net accounts receivable. Within our Processing Solutions and Ancillary Services segment, the top three trade receivable balances represented 19%, 12%, and 11%, respectively, of total Processing Solutions and Ancillary Services net accounts receivable. We mitigate the associated credit risk by performing credit evaluations and monitoring the payment patterns of our customers.Commodity Price RiskThe market for our services is indirectly exposed to fluctuations in the prices of oil and natural gas to the extent such fluctuations impact the activity levels of our E&P customers. See â€œâ€" Recent Eventsâ€ above for further details. Any prolonged substantial reduction in oil and natural gas prices would likely affect oil and natural gas production levels and therefore affect demand for our services. We do not currently intend to hedge our indirect exposure to commodity price risk.33ItemÂ 4. Controls and ProceduresDisclosure Controls and ProceduresAs required by RuleÂ 13a-15(b)Â under the Exchange Act, we have evaluated, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, the effectiveness of the design and operation of our disclosure controls and procedures (as defined in RulesÂ 13a-15(e)Â and 15d-15(e)Â under the Exchange Act) as of the end of the period covered by this Quarterly Report. Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by us in reports that we file or submit under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the time periods specified in the rulesÂ and forms of the SEC. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that ourÂ disclosure controls and procedures were effective as of June 30, 2024.Changes in Internal Control over Financial ReportingThere were no other changes in our internal control over financial reporting during the quarter ended June 30, 2024 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.34PARTÂ II â€" OTHER INFORMATIONItemÂ 1. Accounting Policies [Abstract]	
Summary of Significant Accounting Policies	

Note 2 — Summary of Significant Accounting Policies

Basis of Presentation

The unaudited Condensed Consolidated Financial Statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States (“U.S. GAAP”) for interim financial information and the Securities and Exchange Commission’s (the “SEC”) instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain information and disclosures have been condensed or omitted. The Condensed Consolidated Financial Statements reflect all normal and recurring adjustments that are, in the opinion of management, necessary for the fair presentation of the results of operations for the interim periods. These interim financial statements should be read in conjunction with our audited consolidated financial statements and related notes included in the Annual Report. Interim results for the periods presented may not be indicative of results that will be realized for future periods.

Significant Accounting Policies

The Company’s significant accounting policies are disclosed in Note 2 — Summary of Significant Accounting Policies of the Annual Report.

Use of Estimates

The preparation of Condensed Consolidated Financial Statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Condensed Consolidated Financial Statements and the reported amounts of revenue and expenses during the reporting period. Management uses historical and other pertinent information to determine these estimates. Actual results could differ from such estimates.

Areas where critical accounting estimates are made by management include:

- Depreciation and amortization of property and equipment and intangible assets;
- Impairment of property and equipment and intangible assets;
- Collectability of accounts receivable and estimates of allowance for credit losses;
- Income taxes; and
- Equity-based compensation.

New Accounting Pronouncements

Recent Accounting Pronouncements Not Yet Adopted

In November 2023, the FASB issued Accounting Standards Update No. 2023-07, “Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures” (“ASU 2023-07”), which is intended to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. The guidance is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The guidance is to be applied retrospectively to all prior periods presented in the financial statements. Upon transition, the segment expense categories and amounts disclosed in the prior periods should be based on the significant segment expense categories identified and disclosed in the period of adoption. We are currently evaluating the potential impact of adopting this new guidance on our consolidated financial statements and related disclosures.

In December 2023, the FASB issued Accounting Standards Update No. 2023-09, “Income Taxes (Topic 740): Improvements to Income Tax Disclosures” (“ASU 2023-09”), which modifies the rules on income tax disclosures to require entities to disclose (1) specific categories in the rate reconciliation, (2) the income or loss from continuing operations before income tax expense or benefit (separated between domestic and foreign) and (3) income tax expense or benefit from continuing operations (separated by federal, state and foreign). ASU 2023-09 also requires entities to disclose their income tax payments to international, federal, state and local jurisdictions, among other changes. The guidance is effective for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. ASU 2023-09 should be applied on a prospective basis, but retrospective application is permitted. We are currently evaluating the potential impact of adopting this new guidance on our consolidated financial statements and related disclosures.

As of June 30, 2023, the Company classified $0.6 million and $0.4 million of land and buildings within our High Specification Rigs and Processing Solutions and Ancillary Services segments, respectively, as held for sale as they were being actively marketed. Wells Fargo Bank, N.A. Credit Agreement

On May 31, 2023, the Company entered into a Credit Agreement with Wells Fargo Bank, N.A., providing the Company with a secured credit facility ("Wells Fargo Revolving Credit Facility") in an aggregate principal amount of $75 million. Debt under the Credit Agreement is secured by a lien on substantially all of the Company's assets. The Wells Fargo Credit Agreement requires the Company to maintain a Fixed Cost Coverage Ratio ("FCCR") of greater than 1.0 and as of June 30, 2024, the Company had a Fixed Charge Coverage Ratio of 0.8. The ratio was primarily impacted by lower EBITDA in the first quarter of 2024 and concentrated share buybacks and dividends in the trailing twelve months. While the Company did not meet the minimum required ratio, a Covenant Testing Period begins only when the Company's excess availability is 17.5% or less. As of June 30, 2023, the Company had no borrowings. The current forecast of the Company reflects future cash obligations and takes into account the increased operational activity and the Company believes future FCCR calculations will be above the minimum of 1.0 and reflective of those trends.

In addition, on September 25, 2023, the Company entered into an agreement with Wells Fargo Bank, N.A. which designated an additional Letter of Credit in the amount of $1.6 million as part of incremental collateral requirements for the Company's 2023 insurance renewal. This line of credit falls under the Wells Fargo Revolving Credit Facility aggregate principal amount and matures on September 25, 2024. The interest rate for this Letter of Credit was approximately 1.8% for the month ended June 30, 2024.

The Wells Fargo Revolving Credit Facility was drawn in part on May 31, 2023, to repay the Revolving Credit Facility, M&E Term Loan Facility, and the Secured Promissory Note, as defined below. The undrawn portion of the Wells Fargo Revolving Credit Facility is available to fund working capital and other general corporate expenses and for other-permitted uses, including the financing of permitted investments and restricted payments, such as dividends and share repurchases. The Wells Fargo Revolving Credit Facility is subject to a borrowing base that is calculated based upon a percentage of the Company's eligible accounts receivable and eligible unbilled revenue less certain reserves. The Company's eligible accounts receivable serve as collateral for the borrowings under the Wells Fargo Revolving Credit Facility, which is scheduled to mature on May 31, 2028. The Wells Fargo Revolving Credit Facility includes an acceleration clause and cash dominion provisions under certain circumstances that permits the administrative agent to sweep cash daily from certain bank accounts into an account of the administrative agent to repay the Company's obligations under the Revolving Credit Facility. The borrowings of the Wells Fargo Revolving Credit Facility, therefore, will be classified as Long-term debt, current portion on the Condensed Consolidated Balance Sheet.

Under the Wells Fargo Revolving Credit Facility, the total loan capacity was $66.7 million, which was based on a borrowing base certificate in effect as of June 30, 2024. On June 17, 2024, the Company entered into the First Amendment to the Wells Fargo Revolving Credit Facility, which allows for a percentage of unbilled revenue to be included in the calculation of the borrowing base. The Company did not have any borrowings under the Wells Fargo Revolving Credit Facility as of June 30, 2024. The Company does have $3.2 million in Letters of Credit open under the facility, leaving a residual $63.5 million available for borrowings as of June 30, 2024. Borrowings under the Revolving Credit Facility bear interest at a rate per annum ranging from 1.75% to 2.25% in excess of SOFR and 0.75% to 1.25% in excess of the Base Rate, dependent on the average excess availability. The weighted average interest rate for the loan was approximately 7.2% for the six months ended June 30, 2024.

Eclipse Loan and Security Agreement

On September 27, 2021, the Company entered into a Loan and Security Agreement with EBC and Eclipse Business Capital SPV, LLC, as administrative agent, providing the Company with a senior secured credit facility in an aggregate principal amount of $77.5 million (the "EBC Credit Facility"), consisting of (i) a revolving credit facility in an aggregate principal amount of up to $50.0 million (the "Revolving Credit Facility"), (ii) a machinery and equipment term loan facility in an aggregate principal amount of up to $12.5 million (the "M&E Term Loan Facility") and (iii) a term loan B facility in an aggregate principal amount of up to $15.0 million (the "Term Loan B Facility"). On September 23, 2022, the Company entered into the Fourth Amendment to the Loan and Security Agreement pursuant to which, SOFR replaced LIBOR as the reference rate for interest on borrowings, effective October 1, 2022. On August 16, 2022, the Company fully repaid the Eclipse Term Loan B Facility and Eclipse M&E Term Loan Facility, making principal payments totaling $12.4 million and $1.5 million, respectively. On May 31, 2023, the Company extinguished the Eclipse Revolving Credit Facility and Eclipse M&E Term Loan Facility, paying the remaining principal amount of $8.4 million to extinguish the debt, using funds from the Wells Fargo Revolving Credit Facility. The Company recognized a loss on the retirement of debt of $2.4 million in connection with the initiation of the Wells Fargo Revolving Credit Facility.

Secured Promissory Note

On July 8, 2021, the Company acquired the assets of PerfX Wireline Services ("PerfX"), a provider of wireline services that operated in Williston, North Dakota and Midland, Texas. In connection with the PerfX acquisition, Bravo Wireline, LLC, a wholly owned subsidiary of Ranger, entered into a security agreement with Chief Investments, LLC, as administrative agent, for the financing of certain assets acquired (the "Secured Promissory Note"). On May 31, 2023, the Company made principal payments totaling $5.4 million to extinguish the debt, using funds from the Wells Fargo Revolving Credit Facility.

Other Installment Purchases

During the year ended December 31, 2021, the Company entered into various Installment and Security Agreements (collectively, the "Installment Agreements") in connection with the purchase of certain ancillary equipment, where such assets are being held as collateral. As of June 30, 2024, the aggregate principal balance outstanding under the Installment Agreements was less than $0.1 million and is payable ratably over 36 months from the time of each purchase. For the six months ended June 30, 2024 and 2023, the Company paid down the Installment Agreements by $0.1 million and $0.2 million, respectively. The monthly installment payments contain an imputed interest rate that are consistent with the Company's incremental borrowing rate and is not significant to the Company.

Equity

Note 10 — Equity

Equity-Based Compensation

In 2017, the Company adopted the Ranger Energy Services, Inc. 2017 Long Term Incentive Plan (the "2017 Plan"). The Company has granted shares of restricted stock ("restricted shares" or "RSAs") and performance-based restricted stock units ("performance stock units" or "PSUs") under the 2017 Plan.

Restricted Stock Awards

The Company has granted RSAs, which generally vest in three equal annual installments beginning on the first anniversary date of the grant. During the six months ended June 30, 2024, the Company granted approximately 372,800 RSAs, with an approximated aggregate value of $3.8 million. As of June 30, 2024, there was an aggregate $6.0 million of unrecognized expense related to restricted shares issued which is expected to be recognized over a weighted average period of 2.0 years.

Performance Stock Units

The performance criteria applicable to performance stock units that have been granted by the Company are based on relative total shareholder return, which measures the Company's total shareholder return as compared to the total shareholder return of a designated peer group, and absolute total shareholder return. Generally, the performance stock units are subject to an approximated three-year performance period. During the six months ended June 30, 2024, the Company granted approximately 123,600 target shares of market-based performance stock units, of which 61,800 were granted at a relative grant date fair value of approximately $14.13 per share and 61,800 were granted at an absolute grant date fair value of approximately $11.35 per share. XConnect is the manufacturer of a perforating gun system developed by the PerfX sellers alongside the PerfX wireline service business. The warrant requires the Company to maintain a specific minimum level of purchases of XConnect's manufactured products. As of June 30, 2024, Company failed to maintain the specified minimum level of purchases, resulting in a forfeiture event. The Company has elected not to cure the forfeiture event through a cash payment to XConnect, leading to a reduction in the ownership percentage to 15%. Income Tax Disclosure [Abstract]
Income Taxes

Note 12 — Income Taxes

Effective Tax Rate

The Company is a corporation and is subject to U.S. federal income tax. The Company uses an estimated annual effective tax rate for purposes of determining the income tax provision during interim reporting periods. In calculating the estimated annual effective tax rate, the Company considers forecasted annual pre-tax income and estimated permanent book versus tax differences. Adjustments to the effective tax rate and other income tax related estimates could occur during the year as information and assumptions change which could include, but are not limited to, changes to forecasted amounts, estimates of permanent book versus tax differences, and changes to tax laws and rates. The effective U.S. federal income tax rate applicable to the Company for the six months ended June 30, 2024 and 2023 was 27.5% and 23.8%, respectively. The Company is subject to the Texas Margin Tax, which requires tax payments at a maximum statutory effective rate of 0.75% on the taxable margin of each taxable entity that does business in Texas.

Tax Attributes

Historically, utilization of a portion of the Company's net operating loss carryforwards has been subject to limitations of utilization under Section 382 of the Internal Revenue Code of 1986 ("Section 382"), as amended. The Company incurred an ownership change, triggering another Section 382 loss limitation, during the three months ended June 30, 2023.

As the Company continues to experience increasing profits and no longer has a trailing 3-year cumulative taxable loss, we currently believe that it is more likely than not to fully utilize all deferred tax assets including those associated with the net operating loss carry-forward. Accordingly, the Company released all valuation allowances previously recorded resulting in a discrete tax benefit for the period ended September 30, 2023.

Other Tax Matters

Total income tax expense for the six months ended June 30, 2024 and 2023 differed from amounts computed by applying the U.S. federal statutory tax rates to pre-tax income or loss primarily due to the impact of state income taxes as well as certain non-deductible expenses offset by the benefit from the release of a previously recorded valuation allowance against deferred tax assets.

The Company is subject to the following material taxing jurisdictions: the United States and Texas. As of June 30, 2024, the Company has no current tax years under audit. The Company remains subject to examination for federal income taxes and state income taxes for tax years 2020 through 2023.

The Company has evaluated all tax positions for which the statute of limitations remains open and believes that the material positions taken would more likely than not be sustained upon examination. Therefore, as of June 30, 2024, the Company had not established any reserves for, nor recorded any unrecognized benefits related to, uncertain tax positions.

Segment Reporting

Note 15 — Segment Reporting

The Company's operations are located in the United States and organized into three reportable segments: High Specification Rigs, Wireline Services and Processing Solutions and Ancillary Services. The reportable segments comprise the structure used by the Chief Operating Decision Maker ("CODM") to make key operating decisions and assess performance during the years presented in the accompanying Condensed Consolidated Financial Statements. The CODM evaluates the segments' operating performance based on multiple measures including operating income, rig hours and stage counts. The tables below present the operating income measurement, as the Company believes this is most consistent with the principals used in measuring the Condensed Consolidated Financial Statements.

The following is a description of each operating segment:

High Specification Rigs. Provides high specification well service rigs and complementary equipment and services to facilitate operations throughout the lifecycle of a well.

Wireline Services. Provides services necessary to bring and maintain a well on production and consists of our completion, production and pump down service lines.

Processing Solutions and Ancillary Services. Provides complimentary services often utilized in conjunction with our High Specification Rigs and Wireline Services segments. These services primarily include equipment rentals, plug and abandonment snubbing, and processing solutions.

Other. Other represents costs not allocable to the reporting segments and includes corporate general and administrative expense and depreciation of corporate furniture and fixtures, amortization, impairments, debt retirements and other items similar in nature.

Basis of Presentation	

Basis of Presentation

The unaudited Condensed Consolidated Financial Statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States ("U.S. GAAP") for interim financial information and the Securities and Exchange Commission's (the "SEC") instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain information and disclosures have been condensed or omitted. The Condensed Consolidated Financial Statements reflect all normal and recurring adjustments that are, in the opinion of management, necessary for the fair presentation of the results of operations for the interim periods. These interim financial statements should be read in conjunction with our audited consolidated financial statements and related notes included in the Annual Report. Interim results for the periods presented may not be indicative of results that will be realized for future periods.

Use of Estimates

Use of Estimates

The preparation of Condensed Consolidated Financial Statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Condensed Consolidated Financial Statements and the reported amounts of revenue and expenses during the reporting period. Management uses historical and other pertinent information to determine these estimates. Actual results could differ from such estimates.

Areas where critical accounting estimates are made by management include:

- Depreciation and amortization of property and equipment and intangible assets;

- Impairment of property and equipment and intangible assets;
- Collectability of accounts receivable and estimates of allowance for credit losses;
- Income taxes; and
- Equity-based compensation.

New Accounting Pronouncements

New Accounting Pronouncements

Recent Accounting Pronouncements Not Yet Adopted

In November 2023, the FASB issued Accounting Standards Update No. 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures" ("ASU 2023-07"), which is intended to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. The guidance is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The guidance is to be applied retrospectively to all prior periods presented in the financial statements. Upon transition, the segment expense categories and amounts disclosed in the prior periods should be based on the significant segment expense categories identified and disclosed in the period of adoption. We are currently evaluating the potential impact of adopting this new guidance on our consolidated financial statements and related disclosures.

In December 2023, the FASB issued Accounting Standards Update No. 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures" ("ASU 2023-09"), which modifies the rules on income tax disclosures to require entities to disclose (1) specific categories in the rate reconciliation, (2) the income or loss from continuing operations before income tax expense or benefit (separated between domestic and foreign) and (3) income tax expense or benefit from continuing operations (separated by federal, state and foreign). ASU 2023-09 also requires entities to disclose their income tax payments to international, federal, state and local jurisdictions, among other changes. The guidance is effective for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. ASU 2023-09 should be applied on a prospective basis, but retrospective application is permitted. We are currently evaluating the potential impact of adopting this new guidance on our consolidated financial statements and related disclosures.

New Accounting Pronouncements Recent Accounting Pronouncements Not Yet Adopted In November 2023, the FASB issued Accounting Standards Update No. 2023-07, “Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures” (“ASU 2023-07”), which is intended to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. The guidance is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The guidance is to be applied retrospectively to all prior periods presented in the financial statements. Upon transition, the segment expense categories and amounts disclosed in the prior periods should be based on the significant segment expense categories identified and disclosed in the period of adoption. We are currently evaluating the potential impact of adopting this new guidance on our consolidated financial statements and related disclosures. In December 2023, the FASB issued Accounting Standards Update No. 2023-09, “Income Taxes (Topic 740): Improvements to Income Tax Disclosures” (“ASU 2023-09”), which modifies the rules on income tax disclosures to require entities to disclose (1) specific categories in the rate reconciliation, (2) the income or loss from continuing operations before income tax expense or benefit (separated between domestic and foreign) and (3) income tax expense or benefit from continuing operations (separated by federal, state and foreign). ASU 2023-09 also requires entities to disclose their income tax payments to international, federal, state and local jurisdictions, among other changes. The guidance is effective for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. ASU 2023-09 should be applied on a prospective basis, but retrospective application is permitted. We are currently evaluating the potential impact of adopting this new guidance on our consolidated financial statements and related disclosures. Credit Agreement On May 31, 2023, the Company entered into a Credit Agreement with Wells Fargo Bank, N.A., providing the Company with a secured credit facility (“Wells Fargo Revolving Credit Facility”) in an aggregate principal amount of $75 million. Debt under the Credit Agreement is secured by a lien on substantially all of the Company’s assets. The Wells Fargo Credit Agreement requires the Company to maintain a Fixed Cost Coverage Ratio (“FCCR”) of greater than 1.0 and as of June 30, 2024, the Company had a Fixed Charge Coverage Ratio of 0.8. The ratio was primarily impacted by lower EBITDA in the first quarter of 2024 and concentrated share buybacks and dividends in the trailing twelve months. While the Company did not meet the minimum required ratio, a Covenant Testing Period begins only when the Company’s excess availability is 17.5% or less. As of June 30, 2023, the Company had no borrowings. The current forecast of the Company reflects future cash obligations and takes into account the increased operational activity and the Company believes future FCCR calculations will be above the minimum of 1.0 and reflective of those trends. In addition, on September 25, 2023, the Company entered into an agreement with Wells Fargo Bank, N.A. which designated an additional Letter of Credit in the amount of $1.6 million as part of incremental collateral requirements for the Company’s 2023 insurance renewal. This line of credit falls under the Wells Fargo Revolving Credit Facility aggregate principal amount and matures on September 25, 2024. The interest rate for this Letter of Credit was approximately 1.8% for the month ended June 30, 2024. The Wells Fargo Revolving Credit Facility was drawn in part on May 31, 2023, to repay the Revolving Credit Facility, M&E Term Loan Facility, and the Secured Promissory Note, as defined below. The undrawn portion of the Wells Fargo Revolving Credit Facility is available to fund working capital and other general corporate expenses and for other permitted uses, including the financing of permitted investments and restricted payments, such as dividends and share repurchases. The Wells Fargo Revolving Credit Facility is subject to a borrowing base that is calculated based upon a percentage of the Company’s eligible accounts receivable and eligible unbilled revenue less certain reserves. The Company’s eligible accounts receivable serve as collateral for the borrowings under the Wells Fargo Revolving Credit Facility, which is scheduled to mature on May 31, 2028. The Wells Fargo Revolving Credit Facility includes an acceleration clause and cash dominion provisions under certain circumstances that permits the administrative agent to sweep cash daily from certain bank accounts into an account of the administrative agent to repay the Company’s obligations under the Revolving Credit Facility. The borrowings of the Wells Fargo Revolving Credit Facility, therefore, will be classified as Long-term debt, current portion on the Condensed Consolidated Balance Sheet. Under the Wells Fargo Revolving Credit Facility, the total loan capacity was $66.7 million, which was based on a borrowing base certificate in effect as of June 30, 2024. On June 17, 2024, the Company entered into the First Amendment to the Wells Fargo Revolving Credit Facility, which allows for a percentage of unbilled revenue to be included in the calculation of the borrowing base. The Company did not have any borrowings under the Wells Fargo Revolving Credit Facility as of June 30, 2024. The Company does have $3.2 million in Letters of Credit open under the facility, leaving a residual $63.5 million available for borrowings as of June 30, 2024. Borrowings under the Revolving Credit Facility bear interest at a rate per annum ranging from 1.75% to 2.25% in excess of SOFR and 0.75% to 1.25% in excess of the Base Rate, dependent on the average excess availability. The weighted average interest rate for the loan was approximately 7.2% for the six months ended June 30, 2024. Eclipse Loan and Security Agreement On September 27, 2021, the Company entered into a Loan and Security Agreement with EBC and Eclipse Business Capital SPV, LLC, as administrative agent, providing the Company with a senior secured credit facility in an aggregate principal amount of $77.5 million (the “EBC Credit Facility”), consisting of (i) a revolving credit facility in an aggregate principal amount of up to $50.0 million (the “Revolving Credit Facility”), (ii) a machinery and equipment term loan facility in an aggregate principal amount of up to $12.5 million (the “M&E Term Loan Facility”) and (iii) a term loan B facility in an aggregate principal amount of up to $15.0 million (the “Term Loan B Facility”). On September 23, 2022, the Company entered into the Fourth Amendment to the Loan and Security Agreement pursuant to which, SOFR replaced LIBOR as the reference rate for interest on borrowings, effective October 1, 2022. On August 16, 2022, the Company fully repaid the Eclipse Term Loan B Facility and Eclipse M&E Term Loan Facility, making principal payments totaling $12.4 million and $1.5 million, respectively. On May 31, 2023, the Company extinguished the Eclipse Revolving Credit Facility and Eclipse M&E Term Loan Facility, paying the remaining principal amount of $8.4 million to extinguish the debt, using funds from the Wells Fargo Revolving Credit Facility. The Company recognized a loss on the retirement of debt of $2.4 million in connection with the initiation of the Wells Fargo Revolving Credit Facility. Secured Promissory Note On July 8, 2021, the Company acquired the assets of PerfX Wireline Services (“PerfX”), a provider of wireline services that operated in Williston, North Dakota and Midland, Texas. In connection with the PerfX acquisition, Bravo Wireline, LLC, a wholly owned subsidiary of Ranger, entered into a security agreement with Chief Investments, LLC, as administrative agent, for the financing of certain assets acquired (the “Secured Promissory Note”). On May 31, 2023, the Company made principal payments totaling $5.4 million to extinguish the debt, using funds from the Wells Fargo Revolving Credit Facility. Other Installment Purchases During the year ended December 31, 2021, the Company entered into various Installment and Security Agreements (collectively, the “Installment Agreements”) in connection with the purchase of certain ancillary equipment, where such assets are being held as collateral. As of June 30, 2024, the aggregate principal balance outstanding under the Installment Agreements was less than $0.1 million and is payable ratably over 36 months from the time of each purchase. For the six months ended June 30, 2024 and 2023, the Company paid down the Installment Agreements by $0.1 million and $0.2 million, respectively. The monthly installment payments contain an imputed interest rate that are consistent with the Company’s incremental borrowing rate and is not significant to the Company. The Company uses an estimated annual effective tax rate for purposes of determining the income tax provision during interim reporting periods. In calculating the estimated annual effective tax rate, the Company considers forecasted annual pre-tax income and estimated permanent book versus tax differences. Adjustments to the effective tax rate and other income tax related estimates could occur during the year as information and assumptions change which could include, but are not limited to, changes to forecasted amounts, estimates of permanent book versus tax differences, and changes to tax laws and rates. The effective U.S. federal income tax rate applicable to the Company for the six months ended June 30, 2024 and 2023 was 27.5% and 23.8%, respectively. The Company is subject to the Texas Margin Tax, which requires tax payments at a maximum statutory effective rate of 0.75% on the taxable margin of each taxable entity that does business in Texas. Tax Attributes Historically, utilization of a portion of the Company's net operating loss carryforwards has been subject to limitations of utilization under Section 382 of the Internal Revenue Code of 1986 ("Section 382"), as amended. The Company incurred an ownership change, triggering another Section 382 loss limitation, during the three months ended June 30, 2023. As the Company continues to experience increasing profits and no longer has a trailing 3-year cumulative taxable loss, we currently believe that it is more likely than not to fully utilize all deferred tax assets including those associated with the net operating loss carry-forward. Accordingly, the Company released all valuation allowances previously recorded resulting in a discrete tax benefit for the period ended September 30, 2023. Other Tax Matters Total income tax expense for the six months ended June 30, 2024 and 2023 differed from amounts computed by applying the U.S. federal statutory tax rates to pre-tax income or loss primarily due to the impact of state income taxes as well as certain non-deductible expenses offset by the benefit from the release of a previously recorded valuation allowance against deferred tax assets. The Company is subject to the following material taxing jurisdictions: the United States and Texas. As of June 30, 2024, the Company has no current tax years under audit. The Company remains subject to examination for federal income taxes and state income taxes for tax years 2020 through 2023. The Company has evaluated all tax positions for which the statute of limitations remains open and believes that the material positions taken would more likely than not be sustained upon examination. Therefore, as of June 30, 2024, the Company had not established any reserves for, nor recorded any unrecognized benefits related to, uncertain tax positions. 0.275 0.238 0.0075 Note 13 — Earnings per Share Earnings per share is based on the amount of earnings allocated to the shareholders and the weighted average number of shares outstanding during the period for each class of Common Stock. The Company does not believe that the ultimate resolution of these currently pending matters will have a material adverse effect on its condensed consolidated financial position or results of operations. We maintain insurance policies with insurers in amounts and with coverage and deductibles that we, with the advice of our insurance advisers and brokers, believe are reasonable and prudent. We cannot, however, assure you that this insurance will be adequate to protect us from all material expenses related to potential future claims for personal injury and property damage or that these levels of insurance will be available in the future at economical prices. Note 15 — Segment Reporting The Company's operations are located in the United States and organized into three reportable segments: High Specification Rigs, Wireline Services and Processing Solutions and Ancillary Services. The reportable segments comprise the structure used by the Chief Operating Decision Maker ("CODM") to make key operating decisions and assess performance during the years presented in the accompanying Condensed Consolidated Financial Statements. The CODM evaluates the segments' operating performance based on multiple measures including operating income, rig hours and stage counts. The tables below present the operating income measurement, as the Company believes this is most consistent with the principals used in measuring the Condensed Consolidated Financial Statements. The following is a description of each operating segment: High Specification Rigs. Provides high specification well service rigs and complementary equipment and services to facilitate operations throughout the lifecycle of a well. Wireline Services. Provides services necessary to bring and maintain a well on production and consists of our completion, production and pump down service lines. Processing Solutions and Ancillary Services. Provides complimentary services often utilized in conjunction with our High Specification Rigs and Wireline Services segments. These services primarily include equipment rentals, plug and abandonment snubbing, and processing solutions. Other. Other represents costs not allocable to the reporting segments and includes corporate general and administrative expense and depreciation of corporate furniture and fixtures, amortization, impairments, debt retirements and other items similar in nature.
