Form 10-K Summary 83 Signatures 84 16.1 PART I Unless the context otherwise requires, references in this Annual Report on Form 10-K to the terms "aeregistrantâ or "âaeregNNNâ or the "âaeregCompanyâ refer to NNN REIT, Inc., and all of its consolidated subsidiaries. NNN may elect to treat certain of its subsidiaries as taxable real estate investment trust subsidiaries ("âaeregTRSâ). Forward-Looking Statements Statements contained in this Annual Report on Form 10-K, including the documents that are incorporated by reference, that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 (the "âaeregExchange Actâ). Also, when NNN uses any of the words "âaereganticipateâ, "âaeregassumeâ, "âaeregbelieveâ, "âaeregestimateâ, "âaeregexpectâ, "âaeregintendâ, or similar expressions, NNN is making forward-looking statements. Although management believes that the expectations reflected in such forward-looking statements are based upon present expectations and reasonable assumptions, NNN's actual results could differ materially from those set forth in the forward-looking statements. Further, forward-looking statements speak only as of the date they are made, and NNN undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results over time, unless required by law. NNN describes risks and uncertainties that could cause actual results and events to differ materially in "Item 1A. Risk Factors," "Item 7A. Quantitative and Qualitative Disclosures About Market Risk," and "Item 7. Management's Discussion and Analysis of Financial Conditions and Results of Operations" of this Annual Report on Form 10-K. 1 16.2 PART I Business The Company NNN, a Maryland corporation, is a fully integrated real estate investment trust ("REIT") formed in 1984. NNN's assets are primarily real estate assets. NNN's consolidated financial statements are included in "Item 8. Financial Statements and Supplementary Data" of this Annual Report on Form 10-K. The common shares of NNN REIT, Inc. are traded on the New York Stock Exchange (the "NYSE") under the ticker symbol "NNN." Real Estate Assets NNN acquires, owns, invests in and develops properties that are leased primarily to retail tenants under long-term net leases and are primarily held for investment ("Properties" or "Property Portfolio," or individually a "Property"). NNN owned 3,568 Properties with an aggregate gross leasable area of approximately 36,557,000 square feet, located in 49 states, with a weighted average remaining lease term of 10 years as of December 31, 2024. Approximately 98 percent of the Properties were leased as of December 31, 2024. Competition NNN faces active competition from many sources, both domestically and internationally, for net-lease investment opportunities in commercial real estate. Competitors may be willing to accept rates of return, prices, lease terms, other transaction terms, or levels of risk that NNN finds unacceptable. Qualification as a REIT NNN has made an election to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code"), and related regulations and intends to continue to operate so as to remain qualified as a REIT for federal income tax purposes. NNN generally will not be subject to federal income taxes on taxable income it distributes to stockholders, provided it meets certain other requirements for qualifying as a REIT. If NNN fails to qualify as a REIT in any taxable year, it will be subject to federal income tax on its taxable income at regular corporate rates and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for the four years following the year during which qualification is lost. Such an event could materially adversely affect NNN's income and ability to pay dividends. NNN believes it has been structured as, and its past and present operations qualify NNN as, a REIT. Business Strategies and Policies The following is a discussion of NNN's operating strategy and certain of its investment, financing and other policies. These strategies and policies have been set by management and the Board of Directors and, in general, may be amended or revised from time to time by management and the Board of Directors without a vote of NNN's stockholders. Operating Strategies NNN's strategy is to invest primarily in retail real estate that is typically well located within each local market for its tenants' retail lines of trade. Management believes that these types of properties, generally leased pursuant to triple-net leases, provide attractive opportunities for stable current returns and the potential for increased returns and capital appreciation. Triple-net leases typically require the tenant to pay all utilities and real estate taxes and assessments, to maintain the interior and exterior of the property, and to carry property and liability insurance coverage. Initial lease terms are generally 10 to 20 years. 2 16.3 NNN holds each Property until it determines that the sale of such Property is advantageous in view of NNN's investment objectives. In deciding whether to sell a Property, factors NNN may consider include, but are not limited to, potential capital appreciation, net cash flow, tenant credit quality, tenant's line of trade, tenant's lease renewal probability, the composition of the Property Portfolio, market lease rates, local market conditions, future uses of the Property, potential use of sale proceeds and federal income tax considerations. NNN's management team focuses on certain key indicators to evaluate the financial condition and operating performance of NNN. Key indicators include items such as: the composition of the Property Portfolio (such as tenant, line of trade and geographic diversification), the occupancy rate of the Property Portfolio, certain financial performance metrics and profitability measures, industry trends and industry performance compared to that of NNN. NNN evaluates the creditworthiness of its significant current and prospective tenants. This evaluation may include reviewing available financial statements, store level financial performance, press releases, public credit ratings from major credit rating agencies, industry news publications and financial market data (debt and equity pricing). NNN may also evaluate the business and operations of its significant tenants, including past payment history and periodically meeting with senior management of certain tenants. The operating strategies employed by NNN have allowed NNN to increase the annual dividend (paid quarterly) per common share for 35 consecutive years. NNN has the third longest record of consecutive annual dividend increases of all publicly traded REITs. Investment in Real Estate or Interests in Real Estate NNN's management believes that single-tenant, freestanding net lease retail properties will continue to provide attractive investment opportunities and that NNN is well suited to take advantage of these opportunities because of its experience in accessing capital markets, and its ability to source, underwrite and acquire such properties. In evaluating a particular acquisition, management may consider a variety of factors, including but not limited to: "âaeregthe location, visibility, accessibility, zoning and use restrictions of the property, "âaeregthe geographic area and demographic characteristics of the community, "âaeregthe local real estate market conditions, including potential for growth, redevelopment, market rents and existing or potential competing properties or retailers, "âaeregthe title status of the property, "âaeregthe quality of construction and design of the improvements on the property and the current physical condition of the property, including the size and age of the improvements on the property, "âaeregthe potential for, and current extent of, any environmental issues on or around the property, "âaeregthe environmental sustainability related factors pertaining to the property, "âaeregthe purchase price, "âaeregthe non-financial lease terms of the proposed acquisition, "âaeregthe availability of funds or other consideration for the proposed acquisition and the cost thereof, "âaeregthe compatibility of the property with NNN's existing Property Portfolio, "âaeregthe property-level operating history, "âaeregthe financial and other characteristics of the existing tenant, "âaeregthe tenant's business plan, operating history and management team, "âaeregthe tenant's industry, "âaeregthe terms of any lease, including the rent to be paid by the tenant, "âaeregany existing debt encumbering the property which may be assumed in connection with acquiring or refinancing these investments, and "âaeregthe merits relative to other opportunities. 3 16.4 NNN intends to engage in future investment activities in a manner that is consistent with the maintenance of its status as a REIT for federal income tax purposes. Additionally, NNN does not intend to engage in activities that will make NNN an investment company under the Investment Company Act of 1940, as amended. Investments in Real Estate Mortgages and Securities of or Interests in Entities Engaged in Real Estate Activities While NNN's primary business objectives emphasize retail properties, NNN may invest in (i) a wide variety of property and tenant types, (ii) leases, mortgages and other types of real estate interests, (iii) loans secured by personal property, (iv) loans secured by partnership or membership interests in partnerships or limited liability companies, respectively, or (v) securities of other REITs, or other issuers, including for the purpose of exercising control over such entities. Financing Strategy NNN's financing objective is to manage its capital structure effectively in order to provide sufficient capital to execute its operating and investing strategies while servicing its debt requirements, maintaining its investment grade credit ratings, staggering debt maturities and providing value to NNN's stockholders. NNN's capital resources have and will continue to include, if available, (i) proceeds from issuing debt or equity in the capital markets; (ii) secured or unsecured borrowings from banks or other lenders; (iii) proceeds from the sale of Properties; and (iv) to a lesser extent, by internally generated funds as well as undistributed funds from operations. However, there can be no assurance that additional financing or capital will be available, or that the terms will be acceptable or advantageous to NNN. NNN typically expects to fund both its short-term and long-term liquidity requirements, including investments in additional properties, with cash and cash equivalents, cash provided from operations, borrowings from its unsecured revolving credit facility ("Credit Facility"), or proceeds from the sale of Properties. As of December 31, 2024, NNN had \$9,062,000 of cash, cash equivalents and restricted cash or cash held in escrow and \$1,200,000,000 was available for future borrowings under the Credit Facility. NNN may also fund liquidity requirements with new debt or equity issuances, although newly issued debt may be at higher interest rates than the rates on NNN's existing outstanding debt. NNN also has the ability to limit future property acquisitions and strategically increase property dispositions. NNN expects these sources of liquidity and the discretionary nature of its property acquisition funding needs will allow NNN to meet its financial obligations over the long term. As of December 31, 2024, NNN's ratio of total debt, none of which was secured debt, to total gross assets (before accumulated depreciation and amortization) was approximately 40 percent. The ratio of total debt to total market capitalization was approximately 37 percent. Certain financial agreements, to which NNN is a party, contain covenants that limit NNN's ability to incur additional debt under certain circumstances. The organizational documents of NNN do not limit the absolute amount or percentage of debt that NNN may incur. Strategies and Policy Changes Any of NNN's strategies or policies described above may be changed at any time by NNN without notice to or a vote of NNN's stockholders. Corporate Sustainability Matters NNN is focused on achieving success for its stockholders, providing a world-class working environment for NNN associates, enriching the community and preserving environmental resources. NNN operates its business in accordance with the highest ethical standards and strives to have class-leading corporate governance standards. Holding NNN to such standards is critical to the long-term success of NNN's stockholders, associates, and community. 4 16.5 Corporate Sustainability Team. In 2022, NNN created a Corporate Sustainability Team, which reports directly to the Executive Vice President, General Counsel and Secretary, with oversight by the Governance and Nominating Committee of the Board of Directors. The Corporate Sustainability Team, led by the Corporate Sustainability Manager, is comprised of associates from a broad spectrum of seniority levels and departments of the Company. The team has both internal and external projects, including, but not limited to engaging with NNN's tenants on environmental data collection and property level sustainability, creating the annual sustainability report, and regularly engaging with raters and rankers. Materiality. NNNâs process for assessing materiality includes compiling a range of topics found within global standards, refined based on best corporate responsibility practices published by the National Association of Real Estate Investment Trusts ("âaeregNareitâ) and on the practices of similar companies identified through a peer benchmarking exercise. The Corporate Sustainability Team then reviews the resulting categories, topics and definitions to create a Materiality Assessment Survey which is administered to key stakeholders, including all associates, executive management and the Board of Directors. The survey results inform company practices, policies, goals and data tracking mechanisms for relevant impacts. Impacts that occur along NNNâs value chain are also analyzed to understand NNNâs ability to manage or influence others to implement best corporate responsibility practices within their organizations with the goal of working collectively to mitigate impacts on the community and environment. The process is periodically revisited and refined to proactively engage key stakeholders and to keep NNNâs materiality assessment meaningful to stakeholders while monitoring the ever-changing landscape. Human Capital Development. As of January 31, 2025, the Company employed 83 associates whose hard work and expertise drive the Company's success. Engrained in NNN's talent philosophy is ensuring associates have access to continuing professional and personal development opportunities that are meaningful and relevant to them as they engage in all aspects of NNN's business. Additionally, NNN offers associate mentoring and training programs and formalized talent development programs at all levels within the Company. The success of NNN's efforts to nurture the growth and development of its associates is evident in NNN's average tenure, with nearly half of its associates having been with the Company for 10 or more years. The Company's gender representation has also continued to reflect balance and diversity, with a workforce comprising 57% female and 43% male as of January 31, 2025. More information can also be found in NNN's Human Capital Policy available on the Company's website at www.nnnreit.com. Total Rewards, Benefits & Work-Life Balance. NNN focuses on additional benefits for its associates in an effort to ensure associates are not only well compensated, but also engaged, developed and satisfied with their work-life balance. There are six key elements to NNN's total rewards system: Compensation, Benefits, Wellness, Work-Life Balance, Professional Development and Recognition. NNN's programs include, but are not limited to, a 401(k) plan with a company match, flexible work schedules, college saving plans, an educational assistance program, parental leave and adoption benefits, flexible spending and health savings accounts, health and wellness events, and access to a state-of-the-art online wellness platform. Community Service and Partnerships. NNN is committed to expanding educational opportunities, strengthening neighborhoods, and encouraging volunteer service in the communities where associates live and work. NNN sponsors specific volunteer days throughout the year at various charities and organizations, including Ronald McDonald House of Central Florida and Orange County Animal Services. In addition to NNN's donation of time, NNN is also a meaningful benefactor to numerous charities in the Central Florida community, including the Boys and Girls Clubs of Central Florida and Elevate Orlando (a teacher mentor program for high-risk urban youth that help young women and men graduate high school with a plan for the future). Environmental Practices and Impact. As an owner of a large number of properties throughout the United States, it is important that NNN be a good steward of the environment. NNN demonstrates its commitment in a variety of ways both at NNN's headquarters and at NNN's Properties across the country. Many of NNN's tenants have programs that address environmental stewardship of the Properties they occupy and control. 5 16.6 NNN Corporate Headquarters. NNN's corporate headquarters is located in a building that meets the Environmental Protection Agency's ("âaeregEPAâ) strict energy performance standards to achieve ENERGY STARâ certification. As stated by the EPA, on average, ENERGY STAR certified buildings use 35 percent less energy and generate 35 percent fewer greenhouse gas emissions than typical buildings. Property Portfolio. NNN's Properties are generally leased to tenants under long-term triple-net leases with initial lease terms of 10 to 20 years (plus option terms), which gives NNN's tenants exclusive control over the ability to institute energy conservation and environmental management programs at the Properties. The majority of NNN's tenants are large companies with sophisticated conservation and sustainability programs designed to conserve environmental resources and limit the impact of the use of NNN's Properties on the environment through, among other initiatives, the implementation of green building and lighting standards, emission reduction programs and recycling programs. NNN's leases generally require tenants to fully comply with all environmental laws, rules and regulations, including any remediation requirements. NNN's risk management associates actively monitor any environmental conditions on NNN's Properties to ensure that the tenants meet their obligations to remediate and/or mitigate any open environmental matters. NNN's acquisition process includes obtaining an environmental assessment from a

licensed environmental consultant to understand any environmental risks and liabilities associated with a Property and to ensure that the tenant will address any environmental issues. NNN also researches and reviews climate change metrics primarily related to wildfire, water stress and depletion, flooding and sea level rise risks. Furthermore, NNN maintains a portfolio environmental insurance policy that covers substantially all of NNN's Properties for certain environmental risks. Additionally, NNN's form leases contain "green lease clauses" (to require the tenants to report energy usage and emissions), which NNN encourages tenants to accept during negotiations. Climate Preparedness. NNN regularly monitors the status of impending natural disasters and the impact of such disasters on its Property Portfolio. In the substantial majority of leases, NNN's tenants are required to carry full replacement cost coverage on all improvements located on the Properties. For those Properties located in a nationally designated flood zone, NNN typically requires the tenants to carry flood insurance pursuant to the federal flood insurance program. For those Properties located in an area of high earthquake risk, NNN aims to require its tenants carry earthquake insurance above what is generally covered in an extended coverage policy. In addition, NNN also carries a contingent extended coverage policy on the Property Portfolio, which provides coverage for certain casualty events, including fire and windstorm. In cases where NNN's tenants do not provide coverage, or if a Property is vacant, NNN carries the necessary direct insurance coverage. Property Portfolio As of December 31, 2024, NNN owned 3,568 Properties in 49 states with an aggregate gross leasable area of approximately 36,557,000 square feet, and a weighted average remaining lease term of 10 years. Approximately 98 percent of total Properties were leased as of December 31, 2024. The following table summarizes NNN's Property Portfolio as of December 31, 2024 (in thousands):

Size	Total Dollars Invested	High	Low	Average	High	Low	Average	Land	Area	102	\$	5,71	\$	5	\$	829	Building	Area	313	Area	1
10	4	45,286	4	30	4	2,240	4	(1)	Approximate square feet.	(2)	Costs vary depending upon size, improvements, local market conditions and other factors.	6									

Leases The following is a summary of the typical structure of the leases in the Property Portfolio, although the specific terms of each lease can vary significantly. Typically, the Property leases provide for initial terms of 10 to 20 years. As of December 31, 2024, the weighted average remaining lease term of the Property Portfolio was approximately 10 years. The Properties are generally leased under triple-net leases, which require the tenant to pay all utilities and real estate taxes and assessments, to maintain the interior and exterior of the Property, and to carry property and liability insurance coverage. NNN's leases provide for annual base rental payments (generally payable in monthly installments) ranging from \$7,000 to \$4,085,000 (average of \$245,000), and generally provide for limited increases in rent as a result of increases in the Consumer Price Index or fixed increases. Generally, NNN's leases provide the tenant with one or more multi-year renewal options subject to generally the same terms and conditions provided under the initial lease term. Some of the leases also provide that in the event NNN wishes to sell the Property subject to that lease, NNN first must offer the lessee the right to purchase the Property on the same terms and conditions as any offer which NNN intends to accept for the sale of the Property. See "Results of Operations" and "Property Analysis." Governmental Regulations Affecting Properties Property Environmental Considerations Subject to a determination of the level of risk and potential cost of remediation, NNN may acquire a property with some level of environmental contamination. Investments in real property create a potential for substantial environmental liability for the owner of such property from the presence or discharge of hazardous materials on the property or the improper disposal of hazardous materials emanating from the property, regardless of fault. In order to mitigate exposure to environmental liability, NNN maintains an environmental insurance policy which provides some environmental liability coverage for substantially all of its Properties. As a part of its acquisition due diligence process, NNN obtains an environmental site assessment for each property. In such cases where NNN intends to acquire a property where some level of contamination may exist, NNN generally requires the seller or tenant to (i) remediate the problem, (ii) indemnify NNN for environmental liabilities, and/or (iii) agree to other arrangements deemed appropriate by NNN, including, under certain circumstances, the purchase of environmental insurance to address environmental conditions at the property. NNN may incur costs if the seller or tenant does not comply with these requirements. As of January 31, 2025, NNN had 66 Properties currently under some level of environmental remediation and/or monitoring. In general, the responsible party (which may include the seller, a previous owner, the tenant or an adjacent or former land owner) is liable for the cost of the environmental remediation for each of these Properties. Americans with Disabilities Act of 1990 and Similar Local and State Laws The Properties, as commercial facilities, are required to comply with Title III of the Americans with Disabilities Act of 1990 and similar state and local laws and regulations (collectively, the "ADA"). NNN's tenants will typically have primary responsibility for complying with the ADA, but NNN may incur costs if the tenant does not comply. As of January 31, 2025, NNN had not been notified by any governmental authority of, nor is NNN's management aware of, any non-compliance with the ADA that NNN's management believes would have a material adverse effect on its business, financial position or results of operations. 7

Other Regulations, Rules and Laws State and local governmental entities regulate the use of the Properties. NNN's leases generally require each tenant to undertake primary responsibility for complying with all regulations, rules and laws, but failure to comply could result in fines by governmental authorities, awards of damages to private litigants, or restrictions on the ability to conduct business on such Properties. Additional Information NNN's corporate headquarters is located at 450 South Orange Avenue, Suite 900, Orlando, Florida 32801, and its telephone number is (407) 265-7348. NNN's website can be accessed at www.nnnreit.com. NNN intends to comply with the requirements of Item 5.05 of Form 8-K regarding amendments to and waivers under the code of business conduct and ethics applicable to its Chief Executive Officer, Principal Financial Officer and Principal Accounting Officer by providing such information on its website within four days after effecting any amendment to, or granting any waiver under, that code, and NNN will maintain such information on its website for at least twelve months. The information contained on NNN's website does not constitute part of this Form 10-K. On NNN's website you can also obtain, free of charge, a copy of this Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act, as amended, as soon as reasonably practicable, after NNN files such material electronically with, or furnishes it to, the Securities and Exchange Commission ("Commission" or "SEC"). The public may read and obtain a copy of any materials NNN files electronically with the Commission at www.sec.gov. Additional information on NNN's website includes the guiding policies adopted by NNN, which include NNN's Corporate Governance Guidelines, Code of Business Conduct, Supplier Code of Conduct and Whistleblower Policy, as well as NNN's position on corporate governance and risk management, social responsibility and environmental practices and their impact in the 2023-24 Corporate Responsibility Report. 8

A. Risk Factors Carefully consider the following risks and all of the other information set forth in this Annual Report on Form 10-K, including the consolidated financial statements and the notes thereto. If any of the events or developments described below were actually to occur, NNN's business, financial condition or results of operations could be adversely affected. This "Risk Factors" section contains references to NNN's stockholders. Unless expressly stated otherwise, the references represent NNN's common stock and any class or series of preferred stock which may be outstanding from time to time. Risks Related to NNN's Business and Operations Changes in financial and economic conditions, including inflation, may have an adverse impact on NNN, its tenants, and commercial real estate in general. Financial and economic conditions can be challenging and volatile and any worsening of such conditions, including any disruption in the capital markets, or an inflationary economic environment, both real or anticipated, could adversely affect NNN's business and results of operations. Such conditions could also affect the financial condition of NNN's tenants, developers, borrowers, lenders or the institutions that hold NNN's cash balances and short-term investments, which may expose NNN to increased risks of default by these parties. There can be no assurance that actions of the United States Government, the Federal Reserve or other government and regulatory bodies attempting to stabilize the economy or financial markets will achieve their intended effect. Additionally, some of these actions may adversely affect financial institutions, capital providers, retailers, consumers, NNN's financial condition, NNN's results of operations or the trading price of NNN's shares. Potential consequences of challenging and volatile financial and economic conditions include:

- the financial condition of NNN's tenants may be adversely affected, which may result in tenant defaults under the leases due to bankruptcy, lack of liquidity, operational failures or for other reasons;
- the ability to raise equity capital or borrow on terms and conditions that NNN finds acceptable may be limited or unavailable, which could reduce NNN's ability to pursue acquisition and development opportunities and refinance existing debt, reduce NNN's returns from acquisition and development activities, reduce NNN's ability to make cash distributions to its stockholders and increase NNN's future interest expense;
- the recognition of impairment charges on or reduced values of the Properties or tenant receivables, may adversely affect NNN's results of operations;
- reduced values of the Properties may limit NNN's ability to dispose of assets at attractive prices and reduce the availability of buyer financing, and
- the value and liquidity of NNN's short-term investments and cash deposits could be reduced as a result of (i) a deterioration of the financial condition of the institutions that hold NNN's cash deposits or the institutions or assets in which NNN has made short-term investments, (ii) the dislocation of the markets for NNN's short-term investments, (iii) increased volatility in market rates for such investments or (iv) other factors.

9

Loss of rent from tenants would reduce NNN's cash flow. NNN's tenants encounter significant macroeconomic, governmental and competitive forces. Adverse changes in consumer spending or consumer preferences for particular goods, services or store-based retailing could severely impact their ability to pay rent. Shifts from in-store to online shopping could increase due to changing consumer shopping patterns as well as the increase in consumer adoption and use of mobile electronic devices. This expansion of e-commerce could have an adverse impact on NNN's tenants' ongoing viability and the size, type and location of space tenants lease in the future. NNN cannot predict with certainty what tenants will want or what the impact will be on market rents. The default, financial distress, bankruptcy or liquidation of one or more of NNN's tenants could cause substantial vacancies in the Property Portfolio. Vacancies reduce NNN's revenues, increase property expenses and could decrease the value of each vacant Property. Upon the expiration of a lease, the tenant may choose not to renew the lease and NNN may not be able to re-lease the vacant Property at a comparable lease rate. Furthermore, NNN may incur additional expenditures in connection with such renewal or re-leasing. A significant portion of the source of the Property Portfolio annual base rent is concentrated in specific industry classifications, tenants and geographic locations. As of December 31, 2024, approximately 57.3% of the Property Portfolio annual base rent is generated from tenants in five retail lines of trade: convenience stores (17.0%), automotive service (16.9%), full-service and limited-service restaurants (16.2%) and family entertainment centers (7.2%). 19.0% of the Property Portfolio annual base rent is generated from five tenants: 7-Eleven (4.5%), Mister Car Wash (4.1%), Dave & Buster's (3.8%), Camping World (3.8%) and GPM Investments (convenience stores) (2.8%), and 41.3% of the Property Portfolio annual base rent is generated from properties located in five states: Texas (18.8%), Florida (8.7%), Illinois (5.1%), Georgia (4.5%) and Ohio (4.2%). Any financial hardship and/or economic changes in these lines of trade, tenants or states could have an adverse effect on NNN's results of operations. NNN may not be able to successfully execute its acquisition or development strategies. NNN may not be able to implement its investment strategies successfully. Additionally, NNN cannot ensure that its Property Portfolio will expand at all, or if it will expand at any specified rate or to any specified size. In addition, investment in additional real estate assets is subject to a number of risks. Because NNN expects to invest in markets other than the ones in which its current Properties are located or properties which may be leased to tenants other than those to which NNN has historically leased properties, NNN will also be subject to the risks associated with investment in new markets, new lines of trade or with new tenants that may be relatively unfamiliar to NNN's management team. NNN's development activities are subject to, without limitation, risks relating to the availability and timely receipt of zoning and other regulatory approvals, the cost and timely completion of construction (including risks from factors beyond NNN's control, such as weather, labor conditions or material shortages), the risk of finding tenants for the properties and the ability to obtain both construction and permanent financing on favorable terms. These risks could result in substantial unanticipated delays or expenses and, under certain circumstances, could prevent completion of development activities once undertaken or provide a tenant the opportunity to delay rent commencement, reduce rent or terminate a lease. Any of these situations may delay or eliminate proceeds or cash flows NNN expects from these projects, which could have an adverse effect on NNN's financial condition. 10

NNN may not be able to dispose of Properties consistent with its operating strategy. NNN may be unable to sell Properties targeted for disposition under favorable terms due to adverse market conditions or possible prohibitive tax liability. This may adversely affect, among other things, NNN's ability to sell under favorable terms, execute its operating strategy, achieve target earnings or returns, retire or repay debt or pay dividends. Certain provisions of NNN's leases or loan agreements may be unenforceable. NNN's rights and obligations with respect to its leases and loans are governed by written agreements. A court could determine that one or more provisions of such an agreement are unenforceable, such as a particular remedy, a master lease covenant, a loan prepayment provision or a provision governing NNN's security interest in the underlying collateral of a borrower or lessee. NNN could be adversely impacted if this were to happen with respect to an asset or group of assets. Competition from numerous other REITs, commercial developers, real estate limited partnerships and other investors or a lack of properties for sale may impede NNN's ability to grow. NNN may not complete suitable property acquisitions or developments on advantageous terms, if at all, due to competition for such properties with others engaged in real estate investment activities or a lack of properties for sale on terms deemed acceptable to NNN. NNN's inability to successfully acquire or develop new properties may affect NNN's ability to achieve anticipated return on investment or realize its investment strategy, which could have an adverse effect on its results of operations. A natural disaster or impacts of weather or other event resulting in an uninsured loss may adversely affect the operations of NNN's tenants and therefore the ability of NNN's tenants to pay rent. NNN's operating results and asset values of NNN's Property Portfolio. The impacts of a natural disaster or weather event on NNN's Property Portfolio are highly uncertain. Such impacts may result from natural disasters, including floods, droughts, wind and fire. The Properties are generally covered by comprehensive liability, fire and extended insurance coverage. NNN believes that the insurance carried on its Properties is adequate and in accordance with industry standards. There are, however, types of losses (such as from hurricanes, floods, earthquakes or other types of natural disasters or wars, terrorism or other acts of violence) which may be uninsurable, self-insured by tenants, or the cost of insuring against these losses may not be economically justifiable in the opinion of tenants or NNN. If an uninsured loss occurs or a loss exceeds policy limits, NNN could lose both its invested capital and anticipated revenues from the Property, thereby reducing NNN's cash flow and asset value. NNN's ability to fully control the management of its net-leased Properties may be limited. The tenants of net-leased Properties are responsible for maintenance and other day-to-day management of the Properties. If a Property is not adequately maintained in accordance with the terms of the applicable lease, NNN may incur expenses for deferred maintenance expenditures or other liabilities when the lease expires. While NNN's leases generally provide for recourse against the tenant in these instances, a bankrupt or financially troubled tenant may be more likely to defer maintenance and it may be more difficult to enforce remedies against such a tenant. Although NNN endeavors to monitor compliance by tenants with their lease obligations, NNN may not always be able to ascertain or forestall deterioration in the condition of a property or the financial circumstances of a tenant. 11

Bankrupt tenants or vacant Properties could adversely affect NNN's business or financial condition. The occurrence of a tenant bankruptcy or insolvency could diminish or eliminate the income NNN receives from its tenant. A bankruptcy court might authorize a tenant to terminate one or more of its leases with NNN. If that happens, NNN's claim against the bankrupt tenant for unpaid future rent would be subject to statutory limitations that most likely would result in rent payments that would be substantially less than the remaining rent NNN is owed under the lease(s) or NNN may elect not to pursue claims against a tenant for a terminated lease(s). Any claims NNN has for unpaid past rent, may not be paid in full, or at all. Moreover, in the case of a tenant's lease(s) that are not terminated as the result of its bankruptcy, NNN may be required or elect to reduce the rent payable under those leases or provide other concessions, reducing amounts NNN receives under such lease(s). As a result, tenant bankruptcies may have a material adverse effect on NNN's results of operations and financial condition. Any of these events could adversely affect NNN's cash flow from operations. As of January 31, 2025, less than one percent of total annualized base rent, less than one percent of total Properties and less than one percent of aggregate gross leasable area held in the Property Portfolio, was leased to three tenants that are currently in bankruptcy under Chapter 11 of the U.S. Bankruptcy Code. As a result, these tenants have the right to reject or affirm their leases with NNN. As of December 31, 2024, NNN owned 54 vacant, un-leased Properties, which accounted for less than two percent of total Properties, and approximately two percent of aggregate gross leasable area held in the Property Portfolio. NNN is actively marketing these Properties for sale or lease but may not be able to sell or lease these Properties on favorable terms or at all. Cybersecurity risks and cyber incidents as well as other significant disruptions of NNN's information technology networks and related systems and resources, or those of NNN's vendors or other third-parties, could adversely affect NNN's business, disrupt operations and expose NNN to liabilities to tenants, associates, capital providers, governmental regulators and other third parties. NNN uses information technology and other computer resources to carry out important operational activities and to maintain its business records. This includes the use of third-party software, technologies, tools and a broad array of services and functions. As part of NNN's normal business activities, NNN (i) maintains operational and financial information related to NNN's business, (ii) collects, processes, stores and transmits certain personal identifying and confidential information relating to its tenants, associates and vendors, within NNN's systems and utilizing those of third-party providers, and (iii) allows associates to perform some or all of their business activities remotely. NNN faces risks associated with security breaches through cyber-attacks or cyber-intrusions, malware, computer viruses and malicious codes, ransomware, attachments to e-mail, unauthorized access attempts, denial of service

attacks, phishing, social engineering, persons with access to systems inside NNN's organization, and other significant disruptions of NNN's information technology networks and related systems. The risk of a security breach has generally increased as the frequency, intensity and sophistication of attempted attacks and intrusions from around the world have increased. Even the most well protected information, networks, systems and facilities remain potentially vulnerable because the techniques, tools and tactics used in such attempted security breaches evolve and generally are not recognized until launched against a target, and in some cases are designed to not be detected and, in fact, may not be detected. Accordingly, NNN may be unable to anticipate these techniques or to implement adequate security barriers, disaster recovery or other preventative or corrective measures, and thus it is impossible for NNN to entirely counteract this risk or fully mitigate the harms after such an attack. 12. NNN has implemented systems and processes intended to address ongoing and evolving cybersecurity risks, secure its information technology, applications and computer systems, and prevent unauthorized access to or loss of sensitive, confidential and personal data. Although NNN and its service providers employ what NNN believes are adequate security, disaster recovery and other preventative and corrective measures, NNN's security measures, taken as a whole, may not be sufficient for all possible situations and may be vulnerable to, among other things, fraud, hacking, associate error, system error, vendors' use of generative artificial intelligence technologies, and faulty password management. NNN's ability to conduct its business may be impaired if its information technology networks, systems or resources, including its websites or e-mail systems, are compromised, degraded, damaged or fail, whether due to a virus or other harmful circumstance, fraud, intentional penetration or disruption of its information technology resources by: a third party, a natural disaster, a failure of hardware or software due to a design or programmatic flaw, a failure of hardware or software security controls, a telecommunications system failure, a service provider error or failure, fraudulent transactions, intentional or unintentional personnel actions, lost connectivity to NNN's networked resources, a failure of disaster recovery system, a denial of service attacks, an office intrusion due to office or building security failures, a data center cooling failure, a fire or other catastrophic damage to equipment or facilities, a water intrusion to equipment, a supply chain attacks, or a zero-day attacks. A significant and extended disruption or other material cyber incident could damage NNN's business or reputation and cause: a loss of revenues or tenant relationships, an unintended and/or unauthorized public disclosure or the misappropriation of proprietary, personal identifying and confidential information, and a NNN to incur significant expenses to address and remediate or otherwise resolve these kinds of issues. The release of confidential information may also lead to litigation or other proceedings against NNN by affected individuals, business partners and/or regulators, and the outcome of such proceedings, which could include losses, penalties, fines, injunctions, expenses and charges recorded against NNN's earnings and cause NNN reputational harm, could have a material and adverse effect on NNN's business, financial position or results of operations. In addition, the costs of maintaining adequate protection against data security threats, based on considerations of their evolution, increasing sophistication, pervasiveness and frequency and/or government-mandated standards or obligations regarding protective efforts, could be material to NNN's financial position, results of operations, cash flows, and the market price of NNN's common stock in a particular period or over various periods. 13. NNN relies upon cloud computing services to operate certain aspects of its business and any disruption could have an adverse effect on its financial condition and results of operations. NNN's business depends upon cloud computing services provided by third-parties to provide a distributed computing infrastructure platform for certain NNN business operations, including data processing, storage capabilities, communications, disaster recovery and other services. Such third-party cloud computing services are vulnerable to damage or interruption from infrastructure changes, natural disasters, cybersecurity attacks, power outages, terrorist attacks and other events or acts. NNN expects that in the future it will experience interruptions, delays and outages in service and availability from its third-party cloud computing providers from time to time due to a variety of factors, including, but not limited to, infrastructure changes, human or software errors, website hosting disruptions and capacity constraints. Because NNN cannot easily switch its cloud computing operations to other third-party providers without significant costs, any disruption of or interference with its use of third-party cloud computing service providers could have a materially negative impact on NNN's business and results of operations. Future investment in international markets could subject NNN to additional risks. If NNN expands its operating strategy to include investment in international markets, NNN could face additional risks, including foreign currency exchange rate fluctuations, operational risks due to local economic and political conditions and laws and policies of the United States affecting foreign investment. NNN may suffer a loss in the event of a default or bankruptcy of a borrower. As of December 31, 2024, NNN held mortgages receivable of \$454,000, which represented less than one percent of total assets. If a borrower defaults on a mortgage or other loan made by NNN, and does not have sufficient assets to satisfy the loan, NNN may suffer a loss of principal and interest. In the event of the bankruptcy of a borrower, NNN may not be able to recover against all or any of the assets of the borrower, or the collateral may not be sufficient to satisfy the balance due on the loan. In addition, certain of NNN's loans may be subordinate to other debt of a borrower. These investments are typically loans secured by a borrower's pledge of its ownership interests in the entity that owns the real estate or other assets and are typically subordinated to senior loans encumbering the underlying real estate or assets. Subordinated positions are generally subject to a higher risk of nonpayment of principal and interest than the more senior loans. If a borrower defaults on the debt senior to NNN's loan, or in the event of the bankruptcy of a borrower, NNN's loan will be satisfied only after the borrower's senior creditors' claims are satisfied. Where debt senior to NNN's loans exists, the presence of intercreditor arrangements may limit NNN's ability to amend loan documents, assign the loans, accept prepayments, exercise remedies and control decisions made in bankruptcy proceedings relating to borrowers. Bankruptcy proceedings and litigation can significantly increase the time needed for NNN to acquire underlying collateral, if any, in the event of a default, during which time the collateral may decline in value. In addition, there are significant costs and delays associated with the foreclosure process. Property ownership through joint ventures and partnerships could limit NNN's control of those investments. Joint ventures or partnerships involve risks not otherwise present for direct investments by NNN. It is possible that NNN's co-venturers or partners may have different interests or goals than NNN at any time, and they may take actions contrary to NNN's requests, policies or objectives, including NNN's policy with respect to maintaining its qualification as a REIT. Other risks of joint venture or partnership investments include impasses on decisions because in some instances no single co-venturer or partner has full control over the joint venture or partnership, respectively, or the co-venturer or partner may become insolvent, bankrupt or otherwise unable to contribute to the joint venture or partnership, respectively. Further, disputes may develop with a co-venturer or partner over decisions affecting the property, joint venture or partnership that may result in litigation, arbitration or some other form of dispute resolution. 14. Risks Related to Financing NNN's Business NNN may be unable to obtain debt or equity capital on favorable terms, if at all. NNN may be unable to obtain capital on favorable terms, if at all, to further its business objectives or meet its existing obligations. Nearly all of NNN's debt, including the Credit Facility, is subject to balloon principal payments due at maturity. These maturities range from 2025 to 2052. NNN's ability to make these scheduled principal payments may be adversely impacted by NNN's inability to extend or refinance the Credit Facility, the inability to dispose of assets at an attractive price or the inability to obtain additional debt or equity capital. Capital that may be available may be materially more expensive or available under terms that are materially more restrictive which would have an adverse impact on NNN's business, financial condition and results of operations. The amount of debt NNN has and the restrictions imposed by that debt could adversely affect NNN's business and financial condition. As of December 31, 2024, NNN had outstanding debt, including total unsecured notes payable of \$4,373,803,000 and no outstanding balance on the Credit Facility. NNN's organizational documents do not limit the level or amount of debt that it may incur. If NNN incurs additional debt and permits a higher degree of leverage, debt service requirements would increase and could adversely affect NNN's financial condition and results of operations, as well as NNN's ability to pay principal and interest on the outstanding debt or cash dividends to its stockholders. In addition, increased leverage could increase the risk that NNN may default on its debt obligations. The amount of outstanding debt at any time could have important consequences to NNN's stockholders. For example, it could: require NNN to dedicate a substantial portion of its cash flow from operations to payments on its debt, thereby reducing funds available for operations, real estate investments and other business opportunities that may arise in the future, increase NNN's vulnerability to general adverse economic and industry conditions, limit NNN's ability to obtain any additional financing it may need in the future for working capital, debt refinancing, capital expenditures, real estate investments, development or other general corporate purposes, make it difficult to satisfy NNN's debt service requirements, limit NNN's ability to pay dividends in cash on its outstanding stock, limit NNN's flexibility in planning for, or reacting to, changes in its business and the factors that affect the profitability of its business, and limit NNN's flexibility in conducting its business, which may place NNN at a disadvantage compared to competitors with less debt or debt with less restrictive terms. NNN's ability to make scheduled payments of principal or interest on its debt, or to retire or refinance such debt will depend primarily on its future performance, which to a certain extent is subject to the creditworthiness of its tenants, competition, and economic, financial, and other factors beyond its control. There can be no assurance that NNN's business will continue to generate sufficient cash flow from operations in the future to service its debt or meet its other cash needs. If NNN is unable to generate sufficient cash flow from its business, it may be required to refinance all or a portion of its existing debt, sell assets or obtain additional financing to meet its debt obligations and other cash needs. NNN cannot assure stockholders that any such refinancing, sale of assets or additional financing would be possible or, if possible, on terms and conditions, including but not limited to the interest rate, which NNN would find acceptable or would not result in a material decline in earnings. 15. NNN is obligated to comply with financial and other covenants in its debt instruments that could restrict its operating activities, and the failure to comply with such covenants could result in defaults that accelerate the payment of such debt. As of December 31, 2024, NNN had approximately \$4,373,803,000 of outstanding debt, none of which was secured debt. NNN's unsecured debt instruments contain various restrictive covenants which include, among others, provisions restricting NNN's ability to: incur or guarantee additional debt, make certain distributions, investments and other restricted payments, enter into transactions with certain affiliates, create certain liens, consolidate, merge or sell NNN's assets, and prepay debt. Secured debt instruments generally contain customary covenants, including, among others, provisions: requiring the maintenance of the property securing the debt, restricting its ability to sell, assign or further encumber the properties securing the debt, restricting its ability to incur additional debt on the property securing the debt, restricting modifications to property improvements, restricting its ability to amend or modify existing leases on the property securing the debt, and establishing certain prepayment restrictions. In addition, NNN's debt instruments may contain cross-default provisions, in which case a default of NNN under one debt instrument will be a default of NNN under multiple or all debt instruments of NNN. NNN's ability to meet some of its debt covenants, including covenants related to the condition of the property or payment of real estate taxes, may be dependent on the performance by NNN's tenants under their leases. In addition, certain covenants in NNN's debt instruments, including its Credit Facility, require NNN, among other things, to: limit certain leverage ratios, maintain certain minimum interest and debt service coverage ratios, and limit investments in certain types of assets. NNN's failure to comply with certain of its debt covenants could result in defaults that accelerate the payment under such debt and limit the dividends paid to NNN's stockholders which would likely have a material adverse impact on NNN's financial condition and results of operations. In addition, these defaults could impair its access to the debt and equity markets. NNN's ability to pay dividends in the future is subject to many factors. NNN's ability to pay dividends may be impaired if any of the risks described in this section were to occur. In addition, payment of NNN's dividends depends upon NNN's earnings, financial condition, maintenance of NNN's REIT status and other factors as NNN's Board of Directors may deem relevant from time to time. Future issuances of NNN's equity securities could dilute the interest of NNN's common stockholders. Raising additional capital through the issuance of common or preferred equity securities can dilute or otherwise adversely affect the interests of holders of NNN's common stock and in the case of certain series of preferred equity securities, create a priority interest for holders of such series of preferred equity securities. The interests of NNN's common stockholders could also be diluted by the issuance of shares of common stock pursuant to NNN's performance incentive plan. 16. Risks Related to Real Estate Ownership Owning real estate and indirect interests in real estate carries inherent risks. NNN's financial performance and the value of its real estate assets are subject to the risk that if the Properties do not generate revenues sufficient to meet its operating expenses, and debt service, NNN's cash flow and ability to pay distributions to its stockholders will be adversely affected. NNN is susceptible to the following real estate industry risks, which are beyond its control: changes in national, regional and local economic conditions and outlook, decreases in consumer spending and retail sales or adverse changes in consumer preferences for particular goods, services or store-based retailing, economic downturns in the areas where the Properties are located, adverse changes in local real estate market conditions, such as an oversupply of space, reduction in demand for space, loss of a large employer, intense competition for tenants, or a demographic change, changes in tenant or consumer preferences that reduce the attractiveness of the Properties to tenants, a decrease in demand for fossil fuels, changes in zoning, regulatory restrictions, or tax laws, and changes in interest rates or availability of financing. All of these factors could result in decreases in market rental rates and increases in vacancy rates, which could adversely affect NNN's results of operations. NNN's real estate investments are illiquid. Because real estate investments are relatively illiquid, NNN's ability to adjust the Property Portfolio promptly in response to economic or other conditions is limited. Certain significant expenditures generally do not change in response to economic or other conditions, including: (i) debt service, (ii) real estate taxes, and (iii) operating and maintenance costs. This combination of variable revenue and relatively fixed expenditures may result, under certain market conditions, in reduced earnings and could have an adverse effect on NNN's financial condition. NNN may be subject to known or unknown environmental liabilities and risks, including but not limited to liabilities and risks resulting from the existence of hazardous materials on or under Properties owned by NNN. There may be known or unknown environmental liabilities associated with Properties owned or acquired in the future by NNN. Certain particular uses of some Properties may also have a heightened risk of environmental liability because of the hazardous materials used in performing services on those Properties, such as convenience stores with underground petroleum storage tanks or auto parts and auto service businesses using petroleum products, paint and machine solvents. Some of the Properties may contain asbestos or asbestos-containing materials, or may contain or may develop mold or other bio-contaminants. Asbestos-containing materials must be handled, managed and removed in accordance with applicable governmental laws, rules and regulations. Mold and other bio-contaminants can produce airborne toxins, may cause a variety of health issues in individuals and must be remediated in accordance with applicable governmental laws, rules and regulations. 17. As part of its due diligence process, NNN generally obtains an environmental site assessment for each property it acquires. In cases where NNN intends to acquire real estate where evidence of some level of known contamination may exist, NNN generally requires the seller or tenant to (i) remediate the contamination in accordance with applicable laws, rules and regulations, (ii) indemnify NNN for environmental liabilities, and/or (iii) agree to other arrangements deemed appropriate by NNN, including, under certain circumstances, the purchase of environmental insurance. Although sellers or tenants may be contractually responsible for remediating hazardous materials on a property and may be responsible for indemnifying NNN for any liability resulting from the use of a Property and for any failure to comply with any applicable environmental laws, rules or regulations, NNN has no assurance that sellers, tenants or any other responsible party shall be able to meet their remediation and indemnity obligations to NNN. A tenant, seller or any other responsible party may not have the financial ability to meet its remediation and indemnity obligations to NNN when required. Furthermore, NNN may have strict liability to governmental agencies or third parties as a result of the existence of hazardous materials on Properties, whether or not NNN knew about or caused such hazardous materials to exist. As of January 31, 2025, NNN had 66 Properties currently under some level of environmental remediation and/or monitoring. In general, the responsible party (which may include the seller, a previous owner, the tenant or an adjacent or former land owner) is liable for the cost of the environmental remediation for each of these Properties. If NNN is responsible for hazardous materials located on its Properties, NNN's liability may include investigation and remediation costs, property damage to third parties, personal injury to third parties, and governmental fines and penalties. Furthermore, the presence of hazardous materials on a Property may adversely impact the Property value or NNN's ability to sell the Property. Significant environmental liability could impact NNN's results of operations, ability to make distributions to stockholders, and its ability to meet its debt obligations. In order to mitigate exposure to environmental liability, NNN maintains an environmental insurance policy which provides environmental insurance coverage for substantially all of its Properties. However, the policy is subject to exclusions and limitations and does not cover all of the Properties owned by NNN. For those Properties covered under the policy, insurance may not fully compensate NNN for any environmental liability. NNN has no assurance that the insurer on its environmental insurance policy will be able to meet its obligations under the policy. NNN may not desire to renew the environmental insurance policy in place upon expiration or a replacement policy may not be available at a reasonable cost, if at all. Risks Related to Tax Matters NNN's failure to qualify as a REIT for federal income tax purposes could result in significant tax liability. NNN intends to operate in a manner that will allow NNN to continue to qualify as a REIT. NNN believes it has been organized as, and its past and present operations qualify NNN as a REIT. However, the Internal Revenue Service (the IRS) could successfully assert that NNN is not qualified as such. In addition, NNN may not remain qualified as a REIT in the future. Qualification as a REIT involves the application of highly technical and complex provisions of the Code for which there are only limited judicial or administrative interpretations and involves the

determination of various factual matters and circumstances not entirely within NNN's control. Furthermore, new tax legislation, administrative guidance or court decisions, in each instance potentially with retroactive effect, could make it more difficult or impossible for NNN to qualify, or desirable to continue, as a REIT or avoid significant tax liability. If NNN fails to qualify as a REIT, it would not be allowed a deduction for dividends paid to stockholders in computing taxable income and would become subject to federal income tax at regular corporate rates. In this event, NNN could be subject to potentially significant tax liabilities and penalties. Unless entitled to relief under certain statutory provisions, NNN would also be disqualified from treatment as a REIT for the four taxable years following the year during which the qualification was lost. 18 A Compliance with REIT requirements, including distribution requirements, may limit NNN's flexibility and may negatively affect NNN's operating decisions. To maintain its status as a REIT for United States federal income tax purposes, NNN must meet certain requirements on an ongoing basis, including requirements regarding its sources of income, the nature and diversification of its assets, the amounts NNN distributes to its stockholders and the ownership of its shares. NNN may also be required to make distributions to its stockholders when it does not have funds readily available for distribution or at times when NNN's funds are otherwise needed to fund expenditures or debt service requirements. NNN generally will not be subject to federal income taxes on taxable income it distributes to stockholders, providing it meets certain other requirements for qualifying as a REIT. For each of the years in the three-year period ended December 31, 2024, NNN believes it has qualified as a REIT. Notwithstanding NNN's qualification for taxation as a REIT, NNN is subject to certain state and local income, franchise and excise taxes. The share ownership restrictions of the Code for REITs and the 9.8% share ownership limit in NNN's charter may inhibit market activity in NNN's shares of stock and restrict NNN's business combination opportunities. In order to qualify as a REIT, five or fewer individuals, as defined in the Code, may not own, actually or constructively, more than 50 percent in value of NNN's issued and outstanding shares of stock at any time during the last half of each taxable year, other than the first year for which a REIT election is made. Attribution rules in the Code determine if any individual or entity actually or constructively owns NNN's shares of stock under this requirement. Additionally, at least 100 persons must beneficially own NNN's shares of stock during at least 335 days of a taxable year for each taxable year, other than the first year for which a REIT election is made. To help ensure that NNN meets these tests, among other purposes, NNN's charter restricts the acquisition and ownership of NNN's shares of stock. NNN's charter, with certain exceptions, authorizes NNN's Board of Directors to take such actions as are necessary and desirable to preserve NNN's qualification as a REIT while NNN so qualifies. Unless exempted by the Board of Directors, for so long as NNN qualifies as a REIT, NNN's charter prohibits, among other limitations on ownership and transfer of shares of NNN's stock, any person from beneficially or constructively owning (applying certain attribution rules under the Code) more than 9.8% in value of the aggregate of NNN's outstanding shares of stock and more than 9.8% (in value or in number of shares, whichever is more restrictive) of any class or series of NNN's shares of stock. The Board of Directors, in its sole discretion and upon receipt of certain representations and undertakings, may exempt a person (prospectively or retrospectively) from the ownership limits. However, the Board of Directors may not, among other limitations, grant an exemption from these ownership restrictions to any proposed transferee whose ownership, direct or indirect, in excess of the 9.8% ownership limit would result in the termination of NNN's qualification as a REIT. These restrictions on transferability and ownership will not apply, however, if the Board of Directors determines that it is no longer in NNN's best interest to continue to qualify as a REIT or that compliance with the restrictions is no longer required in order for NNN to continue to so qualify as a REIT. These ownership limits could delay or prevent a transaction or a change in control that might involve a premium price for NNN's common stock or otherwise be in the best interest of NNN's stockholders. Risks Related to a Governmental Laws and Regulations Costs of complying with changes in governmental laws and regulations may adversely affect NNN's results of operations. NNN cannot predict what laws or regulations will be enacted in the future, how future laws or regulations will be administered or interpreted, or how future laws or regulations will affect NNN, its Properties or its tenants, including, but not limited to environmental laws and regulations. Compliance with new laws or regulations, or stricter interpretation of existing laws, may require NNN, its tenants, or consumers to incur significant expenditures, impose significant liability, restrict or prohibit business activities and could cause a material adverse effect on NNN's results of operation. 19 A Non-compliance with Title III of the Americans with Disabilities Act of 1990 and similar state and local laws could have an adverse effect on NNN's business and operating results. The Properties, as commercial facilities, are required to comply with the ADA. NNN's tenants will typically have primary responsibility for complying with the ADA, but NNN may incur costs if the tenant does not comply. As of January 31, 2025, NNN had not been notified by any governmental authority of, nor is NNN's management aware of, any non-compliance with the ADA that NNN's management believes would have a material adverse effect on its business, financial position or results of operations. General Risks NNN's loss of key management personnel could adversely affect performance and the value of its securities. NNN is dependent on the efforts of its key management. As of January 31, 2025, the executive team and senior managers average over 20 years of experience with NNN. Competition for senior management personnel can be intense and NNN may not be able to retain its key management. Although NNN believes qualified replacements could be found for any departures of key management, the loss of their services could adversely affect NNN's performance and the value of its securities. NNN's failure to maintain effective internal control over financial reporting could have a material adverse effect on its business, operating results and the market value of NNN's securities. Section 404 of the Sarbanes-Oxley Act of 2002 requires annual management assessments of the effectiveness of the Company's internal control over financial reporting. If NNN fails to maintain the adequacy of its internal control over financial reporting, as such standards may be modified, supplemented or amended from time to time, NNN may not be able to ensure that it can conclude on an ongoing basis that it has effective internal control over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act of 2002. Moreover, effective internal control over financial reporting, particularly those related to revenue recognition, are necessary for NNN to produce reliable financial reports and to maintain its qualification as a REIT and are important in helping to prevent financial fraud. If NNN cannot provide reliable financial reports or prevent fraud, its business and operating results could be harmed, REIT qualification could be jeopardized, investors could lose confidence in the Company's reported financial information, the company's access to capital could be impaired, and the trading price of NNN's shares could drop significantly. An epidemic or pandemic and/or the measures that international, federal, state and local governments, agencies, law enforcement and/or health authorities implement to address it, may precipitate or materially exacerbate one or more of the other risks, and may significantly disrupt NNN's tenants' ability to operate their businesses and/or pay rent to NNN or prevent NNN from operating its business in the ordinary course for an extended period. An epidemic or pandemic, or the government mandates implemented to address such epidemic or pandemic, could have a material and adverse effect on or cause disruption to NNN's business or financial condition, results of operations, cash flows and the market value and trading price of NNN's securities due to, among other factors: a complete or partial closure of, or other operational issues with, NNN's Property Portfolio as a result of government or tenant action; the declines in or instability of the economy or financial markets may result in a recession or negatively impact consumer discretionary spending, which could adversely affect retailers and consumers; The reduction of economic activity may severely impact NNN's tenants' business operations, financial condition, liquidity and access to capital resources and may cause one or more of NNN's tenants to be unable to meet their obligations to NNN in full, or at all, to default on their lease, or to otherwise seek modifications of such obligations; The inability to access debt and equity capital on favorable terms, if at all, or a severe disruption and instability in the global financial markets or deteriorations in credit and financing conditions may affect NNN's access to capital necessary to fund business operations, pursue acquisition and development opportunities, refinance existing debt, reduce NNN's ability to make cash distributions to its stockholders and increase NNN's future interest expense; A general decline in business activity and demand for real estate transactions would adversely affect NNN's ability to successfully execute investment strategies or expand the Property Portfolio; A significant reduction in NNN's cash flows could impact NNN's ability to continue paying cash dividends to NNN stockholders at expected levels or at all; The financial impact could negatively affect NNN's future compliance with financial and other covenants of NNN's Credit Facility and other debt instruments, and the failure to comply with such covenants could result in a default that accelerates the payment of such debt; and The potential negative impact on the health of NNN's associates or Board of Directors, particularly if a significant number are impacted, or the impact of government actions or restrictions, including stay-at-home orders, restricting access to NNN's headquarters located in Orlando, Florida, could result in a deterioration in NNN's ability to ensure business continuity during a disruption. A prolonged continuation of or repeated temporary business closures, reduced capacity at businesses or other social-distancing practices, and quarantine orders may adversely impact NNN's tenants' ability to generate sufficient revenues to meet financial obligations, and could force tenants to default on their leases, or result in the bankruptcy of tenants, which would diminish the rental revenue NNN receives under its leases. Additionally, an increase in the number of vacant properties would increase NNN's real estate expenses, including expenses associated with ongoing maintenance and repairs, utilities, real estate taxes and assessments, and property and liability insurance. The rapid development and fluidity of an epidemic or pandemic precludes any prediction as to the ultimate adverse impact on NNN. Nevertheless, an epidemic or pandemic would present a material uncertainty and risk with respect to NNN's performance, business or financial condition, results of operations and cash flows. While NNN's leases generally do not allow tenants to withhold rent if the tenants are not operating on its Properties, some tenants may pay rent under protest, not pay rent at all, request rent deferrals, and assert legal or equitable claims in the courts that such tenants are not obligated to pay rent while closed or while operating at reduced capacity, because of an epidemic or pandemic. While NNN believes such claims would be without merit it has no assurances on how courts would rule on such claims, if any. Acts of violence, terrorist attacks or war may affect NNN's Properties, the markets in which NNN operates and NNN's results of operations. Terrorist attacks or other domestic acts of violence may negatively affect NNN's operations. There can be no assurance that there will not be attacks against businesses within the United States. These attacks may directly or indirectly impact NNN's physical facilities or the businesses or the financial condition of its tenants, developers, borrowers, lenders or financial institutions with which NNN has a relationship. The United States is engaged in armed conflict, which could have an impact on these parties. The consequences of armed conflict are unpredictable, and NNN may not be able to foresee events that could have an adverse effect on its business or be insured for such. More generally, any of these events or threats of these events could cause consumer confidence and spending to decrease or result in increased volatility in the United States and worldwide financial markets and economies. They also could result in, or cause a deepening of, economic recession in the United States or abroad. Any of these occurrences could have an adverse impact on NNN's financial condition or results of operations. 21 A Changes in accounting pronouncements could adversely impact NNN's or NNN's tenants' reported financial performance. Accounting policies and methods are fundamental to how NNN records and reports its financial condition and results of operations. From time to time the Financial Accounting Standards Board (FASB) and the Commission, who create and interpret appropriate accounting standards, may change the financial accounting and reporting standards or their interpretation and application of these standards that govern the preparation of NNN's financial statements. These changes could have a material impact on NNN's reported financial condition and results of operations. In some cases, NNN could be required to apply a new or revised standard retroactively, resulting in restating prior period financial statements. Similarly, these changes could have a material impact on NNN's tenants' reported financial condition or results of operations and affect their preferences regarding leasing real estate. The market value of NNN's equity and debt securities is subject to various factors that may cause significant fluctuations or volatility. As with other publicly traded securities, the market price of NNN's equity and debt securities depends on various factors, which may change from time-to-time and/or may be unrelated to NNN's financial condition, operating performance or prospects that may cause significant fluctuations or volatility in such prices. These factors, among others, include: general economic and financial market conditions, level and trend of interest rates, changes in government fiscal, monetary, regulatory, or taxation policies, NNN's ability to access the capital markets to raise additional capital, the issuance of additional equity or debt securities, changes in NNN's funds from operations or earnings estimates, changes in NNN's debt ratings or analyst ratings, NNN's financial condition and performance, market perception of NNN compared to other REITs, and market perception of REITs compared to other investment sectors. Even if NNN remains qualified as a REIT, NNN faces other tax liabilities that reduce operating results and cash flow. Even if NNN remains qualified for taxation as a REIT, NNN is subject to certain federal, state and local taxes on its income and assets, including taxes on any undistributed income, tax on income from some activities conducted as a result of a foreclosure, and state or local income, franchise, property and transfer taxes. Any increase of these taxes would decrease earnings and cash available for distribution to stockholders. In addition, in order to meet certain REIT qualification requirements, NNN may elect to own some of its assets in a TRS. Adverse legislative or regulatory tax changes could reduce NNN's earnings and cash flow and the market value of NNN's securities. At any time, the federal and state tax laws or the administrative interpretations of those laws may change. Any such changes may have current and retroactive effects, and could adversely affect NNN or its stockholders. Legislation could cause shares in non-REIT entities to be a more attractive investment to individual investors than shares in REITs, and could have an adverse effect on the value of NNN's securities. 22 A Item 1B. Unresolved Staff Comments None. Item 1C. Cybersecurity With oversight from the Board of Directors, NNN's management is responsible for managing all cyber risks and overseeing NNN's security programs. Primary cybersecurity risk oversight has been delegated to the Audit Committee. The Chief Accounting and Technology Officer (the "CATO") oversees NNN's security programs and its Incident Response Policy and Plan and provides direct oversight and guidance to the technology team that manages NNN's day-to-day technology and cybersecurity operations. The CATO has been with NNN for over 25 years and has overseen NNN's information systems, including its cyber risk management program, for the last 15 years. The technology team has the appropriate educational background and certifications in the area of information security governance and technical controls, penetration testing and vulnerability assessments, incident response and digital forensics and secure systems design and architecture. The Audit Committee cybersecurity risk oversight role includes: (i) reviewing and approving technology security policies and internal cybersecurity controls, (ii) monitoring cybersecurity and information security exposures, and (iii) confirming management has adequate procedures in place to not only control and limit these exposures but also to timely respond to any cyber incident. NNN's cybersecurity risk profile and cybersecurity program status, including results of any third-party evaluations are reported to the Audit Committee by the CATO. NNN's information systems process and store critical and sensitive NNN data. Management and the Board of Directors are committed to protecting NNN systems and data through layered perimeter, interrogation and access controls, as well as following a constant process of researching, assessing, patching and remediating. Processes to assess, identify, isolate, remediate and manage cybersecurity risks have been integrated into NNN's overall risk management system. Below are examples of actions NNN takes to protect NNN's information systems and data from cybersecurity risk: Align systems and processes with best practices, including the National Institute of Standards and Technology Cybersecurity Framework, for securing NNN information systems and data; Perform continuous systems monitoring and tactical measures for impending viruses, malware, tampering, exploits and other cyber threats; Deploy systems tools to detect, prevent and neutralize cyber threats; Engage independent third-party consultants to assist in evaluating cybersecurity risks and response profile and plans; Identify, oversee and evaluate the risks associated with third-party service providers and consultants; Continuously educate and provide procedural training to all associates and the Board of Directors regarding cybersecurity awareness and risks such as enterprise security, malware, data protection best practices, anti-phishing exercises and updates with respect to other implemented information security measures; Periodically measure the effectiveness of associate training; Cybersecurity risk management is periodically reviewed with NNN's Enterprise Risk Management Team; Perform ongoing internal and external penetration testing and vulnerability assessments with a high priority for timely remediation; and Establish reporting deadlines and hierarchies so that data regarding an incident or possible incident is communicated in a timely manner to NNN's management, to the Audit Committee of the Board of Directors, and, if appropriate or required by law, to the Commission. 23 A Management is aware that preventive measures cannot prevent all cyber incidents. The CATO has direct oversight over the Company's security programs on a daily basis. When a cyber incident occurs, NNN's actions are guided by an incident response plan decision tree to (i) detect, contain and eradicate any threats, (ii) assess materiality, (iii) notify internal parties and the Audit Committee Chairperson, (iv) recover any compromised NNN data and information systems, (v) limit impacts of any such incident on NNN's operations, and (vi) report any such incident as require by law or as otherwise necessary. For a detailed discussion of risks from cybersecurity threats, please see Item 1A. Risk Factors. 24 A Item 2. Properties Please refer to Item 1. Business and Item 7. Management's Discussion and Analysis of Financial Conditions and Results of Operations. Item 3. Legal Proceedings In the ordinary course of its business, NNN is a party to various legal actions that management believes are routine in nature and incidental to the operation of the business of NNN. Management does not believe that any of these proceedings are material. Item 4. Mine Safety Disclosures None. A 24 A PART II Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities Market Information The common stock of NNN currently is traded on the NYSE under the symbol NNN. Performance Graphs Set forth below is a line graph comparing the cumulative total stockholder return on NNN's common stock, based on the market price of the common stock and assuming reinvestment of dividends, with the FTSE National Association of Real Estate Investment Trusts Equity Index (FNER) and the S&P 500 Index (S&P 500) for the five-year period

commencing December 31, 2019 and ending December 31, 2024. The graph assumes an investment of \$100 on December 31, 2019. Comparison to Five-Year Cumulative Total Return 25 Å Set forth below is a line graph comparing the cumulative total stockholder return on NNN's common stock, based on the market price of the common stock and assuming reinvestment of dividends, with the FNER and the S&P 500 for the twenty-five-year period commencing December 31, 1999 and ending December 31, 2024. The graph assumes an investment of \$100 on December 31, 1999. Comparison to Twenty-Five-Year Cumulative Total Return Dividends NNN intends to pay regular quarterly dividends to its stockholders, although all future distributions will be declared and paid at the discretion of the Board of Directors and will depend upon cash generated by operating activities, NNN's financial condition, capital requirements, annual distribution requirements under the REIT provisions of the Code and such other factors as the Board of Directors deems relevant. In January 2025, NNN declared dividends payable to its stockholders of \$108,335,000, or \$0.580 per share, of common stock. Holders On January 31, 2025, there were 1,425 registered holders of record of NNN's common stock. Many of NNN's shares of common stock are held by brokers and institutions on behalf of stockholders, NNN is unable to estimate the total number of stockholders represented by these record holders. 26 Å Securities Authorized for Issuance Under Equity Compensation Plans None. Sale of Unregistered Securities None. Issuer Purchases of Equity Securities None. Item 6. [Reserved] 27 Å Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations This section generally discusses 2024 and 2023 and year-to-year comparisons. Discussions of 2023 and 2022 year-to-year comparisons that are not included in this annual report on Form 10-K can be found in æManagement's Discussion and Analysis of Financial Condition and Results of Operationsæ in Part II, Item 7 of the Annual Report on Form 10-K for the year ended December 31, 2023 filed with the Securities and Exchange Commission ("Commission" or "SEC") on February 8, 2024. The term "NNN" or the "Company" refers to NNN REIT, Inc. and all of its consolidated subsidiaries. NNN may elect to treat certain of its subsidiaries as taxable real estate investment trust subsidiaries ("TRS"). Forward-Looking Statements The following discussion and analysis should be read in conjunction with the consolidated financial statements and related notes included elsewhere in this Annual Report on Form 10-K. NNN makes statements in this section that are forward-looking statements within the meaning of the federal securities laws. For a complete discussion of forward-looking statements, see the section in this report entitled æForward-Looking Statements.æ Certain risks may cause NNN's actual results, performance or achievements to differ materially from those expressed or implied by the following discussion. For a discussion of such risk factors, see æItem 1A. Risk Factors.æ Overview NNN, a Maryland corporation, is a fully integrated real estate investment trust ("REIT") formed in 1984. NNN's assets are primarily real estate assets. NNN acquires, owns, invests in and develops properties that are leased primarily to retail tenants under long-term net leases and are primarily held for investment ("Properties," or "Property Portfolio," or individually a "Property"). As of December 31, 2024, NNN owned 3,568 Properties in 49 states, with an aggregate gross leasable area of approximately 36,557,000 square feet, and a weighted average remaining lease term of 10 years. Approximately 98 percent of the Properties were leased as of December 31, 2024. NNN's management team focuses on certain key indicators to evaluate the financial condition and operating performance of NNN. Key indicators include items such as: the composition of the Property Portfolio (such as tenant, line of trade and geographic diversification), the occupancy rate of the Property Portfolio, certain financial performance metrics and profitability measures, industry trends and industry performance compared to that of NNN. NNN evaluates the creditworthiness of its significant current and prospective tenants. This evaluation may include reviewing available financial statements, store level financial performance, press releases, public credit ratings from major credit rating agencies, industry news publications and financial market data (debt and equity pricing). NNN may also evaluate the business and operations of its significant tenants, including past payment history and periodically meeting with senior management of certain tenants. NNN continues to maintain its diversification by tenant, line of trade and geography. NNN's largest line of trade concentrations are the convenience store (17.0%), automotive service (16.9%), restaurant (16.2%) (including full and limited service) and family entertainment centers (7.2%) sectors. These sectors represent a large part of the freestanding retail property marketplace and NNN's management believes these sectors present attractive investment opportunities. The Property Portfolio is geographically concentrated in the southeast (25.5%) and south (24.7%) United States, which are regions of historically above-average population growth. Given these concentrations, any financial hardship within these sectors or geographic regions could have a material adverse effect on the financial condition and operating performance of NNN. 28 Å As of December 31, 2024 and 2023, the Property Portfolio remained at least 98 percent leased and had a weighted average remaining lease term of approximately 10 years. High occupancy levels coupled with a net lease structure, provides enhanced probability of achieving consistent operating results. Critical Accounting Estimates The preparation of NNN's consolidated financial statements in conformance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses as well as other disclosures in the financial statements. Estimates are sensitive to evaluations by management about current and future expectations of market and economic conditions. On an ongoing basis, management evaluates its estimates and assumptions; however, actual results may differ from these estimates and assumptions, which in turn could have a material impact on NNN's consolidated financial statements. A summary of NNN's accounting policies and procedures is included in Note 1 of the December 31, 2024 Consolidated Financial Statements. Management believes the following critical accounting policies, among others, affect its more significant estimates and assumptions used in the preparation of NNN's consolidated financial statements. Real Estate Portfolio. NNN records the acquisition of real estate at cost, including acquisition and closing costs. The cost of properties developed or funded by NNN includes direct and indirect costs of construction, property taxes, interest, third-party costs and other miscellaneous costs incurred during the development period until the project is substantially complete and available for occupancy. Purchase Accounting for Acquisition of Real Estate. In accordance with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") guidance on business combinations, consideration for the real estate acquired is allocated to the acquired tangible assets, consisting of land, building and tenant improvements and, if applicable, to identified intangible assets and liabilities, consisting of the value of above-market and below-market leases and value of in-place leases, as applicable, based on their respective fair values. The fair value estimate is sensitive to significant assumptions, such as establishing a range of relevant market assumptions for land, building and rent and where the acquired property falls within that range. These market assumptions for land, building and rent use the most relevant comparable properties for an acquisition. The final value relies upon ranking comparable properties' attributes from most to least similar. Lease Accounting. NNN records its leases on the Property Portfolio in accordance with FASB ASC Topic 842, Leases ("ASC 842"). NNN's real estate is typically leased to tenants under triple-net leases, whereby the tenant is responsible for all operating expenses relating to the Property, including utilities, real estate taxes and assessments, property and liability insurance, maintenance, repairs and capital expenditures. NNN's Property Portfolio primarily consists of leases accounted for using the operating method. Under the operating method, revenue is recognized as rentals are earned and expenses (including depreciation) are charged to operations as incurred. When scheduled rentals vary during the lease term, income is recognized on a straight-line basis so as to produce a constant periodic rent over the term of the lease. Accrued rental income is the aggregate difference between the scheduled rents which vary during the lease term and the income recognized on a straight-line basis. Å 29 Å Collectability. In accordance with ASC 842, NNN reviews the collectability of its lease payments on an ongoing basis. NNN considers collectability indicators when analyzing accounts receivable (and accrued rent) and historical bad debt levels, tenant credit-worthiness and current economic trends, all of which assists in evaluating the probability of outstanding and future rental income collections and the adequacy of the allowance for doubtful accounts. In addition, tenants in bankruptcy are analyzed and considerations are made in connection with the expected recovery of pre-petition and post-petition bankruptcy claims. When NNN deems the collection of rental income from a tenant not probable, uncollected previously recognized rental revenue and any related accrued rent are reversed as a reduction to rental income and, subsequently, any rental income is only recognized when cash receipts are received. At this point, a tenant is deemed cash basis for accounting purposes. If NNN subsequently deems the collection of rental income is probable, any related accrued rental income or expense is restored. NNN includes an allowance for doubtful accounts in rental income on the Consolidated Statements of Income and Comprehensive Income. Real Estate æ Held For Sale. Real estate held for sale is not depreciated and is recorded at the lower of cost or fair value, less cost to sell. On a quarterly basis, the Company evaluates its Properties for held for sale classification based on specific criteria as outlined in FASB ASC Topic 360, Property, Plant and Equipment, including management's intent to commit to a plan to sell the asset. NNN anticipates the disposition of Properties classified as held for sale to occur within 12 months. Impairment æ Real Estate. NNN periodically assesses its long-lived real estate assets for possible impairment whenever certain events or changes in circumstances indicate that the carrying value of the asset may not be recoverable. These indicators include, but are not limited to: changes in real estate market conditions, the ability of NNN to re-lease properties that are currently vacant or become vacant, properties reclassified as held for sale, persistent vacancies greater than one year, and properties leased to tenants in bankruptcy. Management evaluates whether an impairment in carrying value has occurred by comparing the estimated future cash flows (undiscounted and without interest charges) and the residual value of the real estate, with the carrying value of the individual asset. The future undiscounted cash flows are primarily driven by estimated future market rents. Future cash flow estimates are sensitive to the assumptions made by management regarding future market rents, which are affected by expectations about future market and economic conditions. If an impairment is indicated, a loss will be recorded for the amount by which the carrying value of the asset exceeds its estimated fair value. NNN's Properties are leased primarily to retail tenants under long-term net leases and primarily held for investment. Generally, NNN's Property leases provide for initial terms of 10 to 20 years, with cash flows provided over the entire term. Revenue Recognition. Rental revenues for properties under construction commence upon completion of construction of the leased asset and delivery of the leased asset to the tenant. Rental revenues for non-development real estate assets are recognized when earned in accordance with ASC 842, based on the terms of the lease of the leased asset. Lease termination fees are recognized when collected subsequent to the related lease that is cancelled and NNN no longer has continuing involvement with the former tenant with respect to that property. FASB ASC Topic 610-20, Gains and Losses from the Derecognition of Nonfinancial Assets ("ASC 610-20"), provides guidance for recognizing gains and losses from the transfer of nonfinancial assets in contracts with noncustomers. An entity that transfers a nonfinancial asset in the scope of ASC 610-20 follows a two-step derecognition model to determine whether (and when) to derecognize the asset. NNN determined the key revenue stream impacted by ASC 610-20 is gain on disposition of real estate reported on the Consolidated Statements of Income and Comprehensive Income. In accordance with ASC 610-20, NNN evaluates any separate contracts or performance obligations to determine proper timing and/or amount of revenue recognition, as well as, transfer of control and transaction price allocation in determining the amount of gain or loss to record. 30 Å New Accounting Pronouncements. Refer to Note 1 of the December 31, 2024, Consolidated Financial Statements for a summary and the anticipated impact of each accounting pronouncement on NNN's financial position and results of operations. Results of Operations Property Analysis General. The following table summarizes the Property Portfolio as of December 31: Å Å Å 2024 Å Å 2023 Å Properties Owned: Å Å Å Å Number Å Å 3,568 Å Å 3,532 Å Total gross leasable area (square feet) Å Å 36,557,000 Å Å 35,966,000 Å Properties: Å Å Å Å Å Leased and unimproved land Å Å 3,514 Å Å 3,514 Å Percent of Properties æ leased and unimproved land Å Å 98 % Å 99 % Weighted average remaining lease term (years) Å Å 10 Å Å 10 Å Total gross leasable area (square feet) æ leased Å Å 35,826,000 Å Å 35,683,000 Å Total annualized base rent Å \$ 860,562,000 Å \$ 818,749,000 Å (1) Annualized base rent is calculated by multiplying the monthly cash base rent in place on each respective date by 12. The following table summarizes the Property acquisitions for each of the years ended December 31 (dollars in thousands): Å Å Å 2024 Å Å 2023 Å Acquisitions: Å Å Å Å Number of Properties Å Å 75 Å Å 165 Å Gross leasable area (square feet)(1) Å Å 1,486,000 Å Å 1,281,000 Å Cap rate(2) Å Å 7.7 % Å 7.3 % Total dollars invested(3) Å Å \$65,416 Å Å \$19,710 Å (1) Includes additional square footage from completed construction on existing Properties. (2) The cap rate is a weighted average, calculated as the initial cash annual base rent divided by the total purchase price of the Properties. (3) Includes dollars invested in projects under construction or tenant improvements for each respective year. NNN typically funds Property acquisitions either through borrowings under NNN's Credit Facility (as defined in "Capital Structure æ Line of Credit Payable"), by issuing its debt or equity securities in the capital markets, with undistributed funds from operations or with proceeds from the sale of Properties. Property Dispositions. The following table summarizes the properties sold by NNN for each of the years ended December 31 (dollars in thousands): Å Å Å 2024 Å Å 2023 Å Number of properties Å Å 41 Å Å 45 Å Gross leasable area (square feet) Å Å 849,000 Å Å 293,000 Å Net sales proceeds Å \$ 148,658 Å \$ 115,716 Å Net gain on disposition of real estate Å \$ 42,290 Å \$ 47,485 Å Cap rate(1) Å Å 7.3 % Å 5.9 % (1) The cap rate is a weighted average of properties occupied at disposition, calculated as the cash annual base rent divided by the total gross proceeds received for the properties. NNN typically uses the disposition proceeds to either pay down the Credit Facility or reinvest in real estate. 33 Å Analysis of Revenues The following summarizes NNN's revenues for each of the years ended December 31 (dollars in thousands): Å Å Å 2024 Å Å 2023 Å 2024Versus2023 Å Rental Revenues(1) Å \$ 848,657 Å \$ 807,327 Å Å 5.1 % Real estate expenses reimbursed from tenants Å 18,811 Å Å 18,763 Å Å 0.3 % Rental income Å 867,468 Å Å 826,090 Å Å 5.0 % Interest and other income from real estate transactions Å 1,798 Å Å 2,021 Å Å (11.0) % Total revenues Å \$ 869,266 Å Å \$ 828,111 Å Å 5.0 % (1) Includes rental income from operating leases, earned income from direct financing leases and percentage rent ("Rental Revenues"). Rental Income. Rental income increased for the year ended December 31, 2024, as compared to the same period in 2023. The increase is primarily due to the Rental Revenues from NNN's recent Property acquisitions (see "Results of Operations æ Property Analysis æ Property Acquisitions"). Analysis of Expenses The following summarizes NNN's expenses for the year ended December 31 (dollars in thousands): Å Å Å 2024 Å Å 2023 Å 2024Versus2023 Å General and administrative Å \$ 44,287 Å \$ 43,746 Å Å 1.2 % Real estate: Å Å Å Å Å Reimbursed from tenants Å 18,811 Å Å 18,763 Å Å 0.3 % Non-reimbursed Å 13,506 Å Å 9,615 Å Å 40.5 % Total real estate Å 32,317 Å Å 28,378 Å Å 13.9 % Depreciation and amortization Å 249,681 Å Å 238,625 Å Å 4.6 % Leasing transaction costs Å 99 Å Å 299 Å Å (66.9) % Impairment losses æ real estate, net of recoveries Å 6,632 Å Å 5,990 Å Å 10.7 % Executive retirement costs Å 668 Å Å 3,454 Å Å (80.7) % Total operating expenses Å \$ 333,684 Å Å \$ 320,492 Å Å 4.1 % Å Å Å Å Å Interest and other income Å \$ (2,980) Å Å \$ (1,134) Å Å 162.8 % Interest expense Å 184,017 Å Å 163,898 Å Å 12.3 % Total other expenses Å \$ 181,037 Å Å \$ 162,764 Å Å 11.2 % Å Å Å Å Å As a percentage of total revenues: Å Å Å Å Å General and administrative Å 5.1 % Å 5.3 % Å Non-reimbursed real estate Å 1.6 % Å 1.2 % Å Å Å 34 Å Å Real Estate. Total real estate expenses increased for the year ended December 31, 2024, as compared to the same period in 2023. NNN focuses on non-reimbursed real estate expenses (total real estate expenses, net of reimbursements from tenants). These expenses are typically attributable to (i) Properties for which the lease terms do not obligate the tenant to pay certain operating expenses or (ii) vacant Properties. Non-reimbursed real estate expenses increased in amount and as a percentage of total revenues for the year ended December 31, 2024 as compared to the same period in 2023 primarily due to a minor increase in the number of vacant properties. Depreciation and Amortization. Depreciation and amortization expenses increased in amount for the

ended December 31, 2024, as compared to the same period in 2023. The increase is primarily attributable to the increase in NNN's Property Portfolio from recent acquisitions (see "Results of Operations" and "Property Analysis" and "Property Acquisitions"), and is partially offset by recent dispositions (see "Results of Operations" and "Property Analysis" and "Property Dispositions").

Impairment Losses. Real Estate, Net of Recoveries. As a result of NNN's review of long-lived real estate assets, including identifiable intangible assets, NNN recognized real estate impairments, net of recoveries for the years ended December 31, 2024 and 2023, which were less than one percent of NNN's total assets for the respective years as reported on the Consolidated Balance Sheets. Due to NNN's core business of investing in real estate leased primarily to retail tenants under long-term net leases, the inherent risks of owning commercial real estate, and unknown potential changes in financial and economic conditions that may impact NNN's tenants, NNN believes it is reasonably possible to incur real estate impairment charges in the future. Executive Retirement Costs. In April 2022, the former President and Chief Executive Officer retired from employment, as contemplated under the Company's long-term executive succession planning process and as previously announced in January 2022. In addition, in January 2024, the former Executive Vice President, General Counsel and Secretary retired from employment as previously announced in November 2023. During the years ended December 31, 2024 and 2023, NNN recorded executive retirement costs in connection with the long-term incentive compensation related to these retirement and transition agreements. Interest Expense. Interest expense increased for the year ended December 31, 2024, compared to the same period in 2023. The following represents the primary changes in fixed rate long-term debt that impacted interest expense (dollars in thousands): Transaction A Effective Date A Principal A Stated Rate A Original Maturity Issuance 2033 Notes A August 2023 A \$ 500,000 A 5.600% A October 2033 Issuance 2034 Notes A May 2024 A \$ 500,000 A 5.500% A June 2034 Redemption 2024 Notes A June 2024 A \$ (350,000) A 3.900% A June 2024 The increase in interest expense was partially offset by the Credit Facility having a weighted average outstanding balance of \$60,775,000 with a weighted average interest rate of 6.25% for the year ended December 31, 2024, compared to a weighted average outstanding balance of \$169,620,000 with a weighted average interest rate of 5.86% for the year ended December 31, 2023. 35 A Impact of Inflation NNN's leases typically contain provisions to mitigate the adverse impact of inflation on NNN's results of operations. Tenant leases generally provide for limited increases in rent as a result of fixed increases, capped increases in the Consumer Price Index, and/or, to a lesser extent, increases in the tenant's sales volume. As a result of limitations on rent increases, during times when inflation is high, rent increases may not meet or exceed the rate of inflation. Properties are leased to tenants under long-term triple-net leases which typically require the tenant to pay certain operating expenses for a Property, thus, NNN's exposure to inflation is reduced with respect to these expenses. Inflation may have an adverse impact on NNN's tenants and challenge their ability to meet lease obligations, including to pay rent. See "Item 1A. Risk Factors." Liquidity and Capital Resources NNN's demand for funds has been and will continue to be primarily for (i) payment of operating expenses and dividends, (ii) property acquisitions and construction commitments, (iii) capital expenditures, (iv) payment of principal and interest on its outstanding debt, and (v) other investments. Financing Strategy. NNN's financing objective is to manage its capital structure effectively in order to provide sufficient capital to execute its operating and investing strategies while servicing its debt requirements, maintaining its investment grade credit rating, staggering debt maturities and providing value to NNN's stockholders. NNN's capital resources have and will continue to include, if available (i) proceeds from issuing debt or equity in the capital markets; (ii) secured or unsecured borrowings from banks or other lenders; (iii) proceeds from the sale of Properties; and (iv) to a lesser extent, by internally generated funds as well as undistributed funds from operations. However, there can be no assurance that additional financing or capital will be available, or that the terms will be acceptable or advantageous to NNN. NNN typically expects to fund both its short-term and long-term liquidity requirements, including investments in additional properties, with cash and cash equivalents, cash provided from operations, borrowings from NNN's Credit Facility or proceeds from the sale of Properties. As of December 31, 2024, NNN had \$9,062,000 of cash, cash equivalents and restricted cash or cash held in escrow and \$1,200,000,000 was available for future borrowings under the Credit Facility. NNN may also fund liquidity requirements with new debt or equity issuances, although newly issued debt may be at higher interest rates than the rates on NNN's existing outstanding debt. NNN has the ability to limit future property acquisitions and strategically increase property dispositions. NNN expects these sources of liquidity and the discretionary nature of its property acquisition funding needs will allow NNN to meet its financial obligations over the long term. As of December 31, 2024, NNN's ratio of total debt, none of which was secured debt, to total gross assets (before accumulated depreciation and amortization) was approximately 40 percent. The ratio of total debt to total market capitalization was approximately 37 percent. Certain financial agreements to which NNN is a party contain covenants that limit NNN's ability to incur additional debt under certain circumstances. The organizational documents of NNN do not limit the absolute amount or percentage of debt that NNN may incur. 36 A Cash Flows. NNN had \$9,062,000 of cash, cash equivalents and restricted cash, of which \$331,000 was restricted cash or cash held in escrow at December 31, 2024. The table below summarizes NNN's cash flows for each of the years ended December 31 (dollars in thousands): A A A 2024 A A 2023 A Cash, cash equivalents and restricted cash: A A A A Provided by operating activities A \$ 635,504 A A \$ 612,410 A Used in investing activities A A (424,336) A A (680,660) A Provided by (used in) financing activities A A (207,261) A A 66,627 A Increase (decrease) in cash, cash equivalents and restricted cash A A 3,907 A A (1,623) A Cash, cash equivalents and restricted cash at the beginning of the year A A 5,155 A A 6,778 A Cash, cash equivalents and restricted cash at the end of the year A A \$ 9,062 A A \$ 5,155 A Cash flow activities include: Operating Activities. Cash provided by operating activities represents cash received primarily from rental income less cash used for general and administrative and interest expenses. NNN's cash flow from operating activities has been sufficient to pay the distributions for each year presented. The change in cash provided by operations for the years ended December 31, 2024 and 2023, is primarily the result of changes in revenues and expenses as discussed in "Results of Operations." Cash generated from operations is expected to fluctuate in the future. Investing Activities. Changes in cash for investing activities are primarily attributable to acquisitions and dispositions of Properties as discussed in "Results of Operations - Property Analysis." NNN typically uses cash on hand, borrowings from its Credit Facility or proceeds from the sale of Properties to fund the acquisition of its Properties. Financing Activities. NNN's financing activities for the year ended December 31, 2024, included the following significant transactions: A A \$132,000,000 in net repayments of NNN's Credit Facility, A A \$489,390,000 in net proceeds from the issuance in May of the 5.500% notes payable due in June 2034, A A \$350,000,000 payment in June for the redemption of the 3.900% notes payable due in June 2024, A A \$211,619,000 from the issuance of 4,652,100 shares of common stock in connection with the at-the-market equity program ("ATM"), A A \$2,634,000 from the issuance of 64,654 shares of common stock in connection with the Dividend Reinvestment and Stock Purchase Plan (the "DRIP"), and A A \$420,239,000 in dividends paid to common stockholders. 37 A Material Cash Requirements NNN's material cash requirements include (i) long-term debt maturities; (ii) interest on long-term debt; (iii) common stock dividends (although all future distributions will be declared and paid at the discretion of the Board of Directors); and (iv) to a lesser extent, Property construction and other Property related costs that may arise. The table presents material cash requirements related to NNN's long-term obligations outstanding as of December 31, 2024 (see "Capital Structure") (dollars in thousands): A A A Date of Obligation A A Total A A 2025 A A 2026 A A 2027 A A 2028 A A 2029 A A Thereafter A Long-term debt(1) A \$ 4,450,000 A A \$ 400,000 A A \$ 350,000 A A \$ 400,000 A A \$ 400,000 A A \$ A A \$ 2,900,000 A Long-term debt A A \$ 2,062,506 A A 176,250 A A 161,725 A A 146,733 A A 132,067 A A 118,450 A A 1,327,281 A Total contractual cash obligations A A \$ 6,512,506 A A \$ 576,250 A A \$ 511,725 A A \$ 546,733 A A \$ 532,067 A A \$ 118,450 A A \$ 4,227,281 A (1) Includes only principal amounts outstanding under notes payable and excludes unamortized note discounts and debt costs. (2) Interest calculation on notes payable based on stated rate of the principal amount. Property Construction. NNN has committed to fund construction of 15 Properties. The improvements of such Properties are estimated to be completed within 12 to 18 months. These construction commitments, at December 31, 2024, are outlined in the table below (dollars in thousands): A Total commitment(1) A \$ 165,550 A Less amount funded A A (116,767) A Remaining commitment A \$ 48,783 A (1) Includes land, construction costs, tenant improvements, lease costs, capitalized interest and third-party costs. A Management anticipates satisfying these obligations with a combination of NNN's cash provided from operations, current capital resources on hand, its Credit Facility, debt or equity financings and property dispositions. Properties. Typically, the Properties are leased under long-term triple-net leases, which require the tenant to pay all utilities and real estate taxes and assessments, to maintain the interior and exterior of the Property, and to carry property and liability insurance coverage. Therefore, management anticipates that capital demands to meet obligations with respect to these Properties will be modest for the foreseeable future and can be met with funds from operations and working capital. Certain Properties are subject to leases under which NNN retains responsibility for specific costs and expenses associated with the Property. Management anticipates the costs associated with these Properties, NNN's vacant Properties or those Properties that become vacant will also be met with funds from operations and working capital. NNN may be required to borrow under its Credit Facility or use other sources of capital in the event of significant capital expenditures or major repairs. The lost revenues and increased property expenses resulting from vacant Properties or the inability to collect lease payments could have a material adverse effect on the liquidity and results of operations if NNN is unable to re-lease the Properties at comparable rental rates and in a timely manner. As of December 31, 2024, NNN owned 54 vacant, un-leased Properties which accounted for less than two percent of total Properties and approximately two percent of aggregate gross leasable area held in the Property Portfolio. 38 A Additionally, as of January 31, 2025, less than one percent of total annualized base rent, less than one percent of total Properties, and less than one percent of aggregate gross leasable area held in the Property Portfolio, was leased to three tenants currently in bankruptcy under Chapter 11 of the U.S. Bankruptcy Code. As a result, these tenants have the right to reject or affirm their leases with NNN. NNN generally monitors the financial performance of its significant tenants on an ongoing basis. Dividends. One of NNN's primary objectives is to distribute a substantial portion of its funds available from operations to its stockholders in the form of dividends, while retaining sufficient cash for reserves and working capital purposes and maintaining its status as a REIT. The following table outlines the dividends declared and paid for NNN's common stock for the years ended December 31 (dollars in thousands, except per share data): A A A 2024 A A 2023 A Dividends A \$ 420,239 A A \$ 404,458 A Per share A A 2.290 A A 2.230 A The following table presents the characterizations for tax purposes of NNN's common stock dividends for the years ended December 31: A A A 2024 A A 2023 A Ordinary dividends(1) A A \$ 2,286,498 A A \$ 99,847 A A \$ 2,192,636 A A \$ 98,324 A A \$ 0.003502 A A 0.01529 A A 0.037364 A A 1.6755 A A \$ 2,290,000 A A 100.000% A A 100.000% A A 100.000% A A 100.000% A (1) Eligible for the 20% qualified business income deduction under section 199A of the Internal Revenue Code of 1986, as amended (the "Code"). On January 14, 2025, NNN declared a dividend of \$0.580 per share, payable February 14, 2025, to its common stockholders of record as of January 31, 2025. Capital Structure NNN has used, and expects to use in the future, various forms of debt and equity securities primarily to fund property acquisitions and construction on its Properties and to pay down or refinance its outstanding debt. The following is a summary of NNN's total outstanding debt as of December 31 (dollars in thousands): A A A 2024 A A Percentage of Total A A 2023 A A Percentage of Total A Line of credit payable A A \$ A A A A A % A A \$ 132,000 A A 3.0% A Notes payable A A 4,373,803 A A 100.0% A A 4,228,544 A A 97.0% A Total outstanding debt A A \$ 4,373,803 A A 100.0% A A \$ 4,360,544 A A 100.0% A A 39 A Line of Credit Payable. In April 2024, NNN amended and restated its credit agreement to increase borrowing capacity under its unsecured revolving credit facility from \$1,100,000,000 to \$1,200,000,000 and amended certain other terms under the former revolving credit facility (as the context requires, the previous and new credit facility, the "Credit Facility"). The Credit Facility had a weighted average outstanding balance of \$60,775,000 and a weighted average interest rate of 6.25% during the year ended December 31, 2024. The Credit Facility has a base interest rate of the Secured Overnight Financing Rate ("SOFR") plus a SOFR adjustment of 10 basis points ("Adjusted SOFR"). The Credit Facility bears interest at Adjusted SOFR plus 77.5 basis points; however, such interest rate may change pursuant to a tiered interest rate structure based on NNN's debt rating. Additionally, as part of NNN's environmental, social and governance ("ESG") initiative, pricing may be reduced if specified ESG metrics are achieved. The Credit Facility matures in April 2028, unless the Company exercises its options to extend maturity to April 2029. The Credit Facility also includes an accordion feature which permits NNN to increase the facility size up to \$2,000,000,000, subject to lender approval. In connection with the Credit Facility, loan costs are classified as debt costs on the Consolidated Balance Sheet. As of December 3

The failure of its debt covenants could result in default of the loan which would accelerate the payment under such debt and limit the dividends paid to NNN's stockholders which would likely have a material adverse impact on NNN's financial condition and results of operations. In addition, these defaults could impair its access to the debt and equity markets. NNN does not use derivatives for trading or speculative purposes or currently have any derivatives that are not designated as hedges. NNN had no derivative financial instruments outstanding at December 31, 2024. Equity Securities At-The-Market Offerings. NNN has established an ATM which allows NNN to sell shares of common stock from time to time. The following table outlines NNN's ATM: A \$ 2023 ATM A 2020 ATM Shelf registration statement: A A A Effective date A August 2023 A August 2020 Termination date A August 2026 A August 2023 Total allowable shares A 17,500,000 A 17,500,000 Total shares issued as of December 31, 2024 A 4,652,100 A 7,722,511 The following table outlines the common stock issuances pursuant to NNN's ATM for the years ended December 31 (dollars in thousands, except per share data): A A A 2024 A A 2023 Shares of common stock A A 4,652,100 A A 650,135 Average price per share (net) A \$ 45.49 A A \$ 43.52 Net proceeds A \$ 211,619 A A \$ 28,292 Stock issuance costs(1) A \$ 3,242 A A \$ 858 A A (1) Stock issuance costs consist primarily of underwriters' and agent's fees and commissions, and legal and accounting fees. Dividend Reinvestment and Stock Purchase Plan. In February 2024, NNN filed a shelf registration statement for its DRIP with the Commission that was automatically effective, and permits NNN to issue up to 4,000,000 shares of common stock. NNN's DRIP provides an economical and convenient way for current stockholders and other interested new investors to invest in NNN's common stock. The following outlines the common stock issuances pursuant to NNN's DRIP for the years ended December 31 (dollars in thousands): A A 2024 A A 2023 Shares of common stock A A 64,654 A A 76,229 Net proceeds A \$ 2,634 A A \$ 3,082 A A 42 Item 7A. Quantitative and Qualitative Disclosures About Market Risk A NNN is exposed to interest rate risk primarily as a result of its variable rate Credit Facility and its fixed rate long-term debt which is used to finance NNN's Property acquisitions and development activities, as well as for general corporate purposes. NNN's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its objectives, NNN borrows at both fixed and variable rates on its long-term debt and periodically uses derivatives to hedge the interest rate risk of future borrowings. As of December 31, 2024, NNN had no outstanding derivatives. As of December 31, 2024, NNN's variable rate Credit Facility had no outstanding balance. For the year ended December 31, 2024, the Credit Facility had a weighted average outstanding balance of \$60,775,000 and a weighted average interest rate of 6.25% compared to a weighted average outstanding balance of \$169,620,000 and a weighted average interest rate of 5.86% for 2023. The information in the table below summarizes NNN's market risks associated with its outstanding debt obligations. The table presents, by year of expected maturity, principal payments and related interest rates for debt obligations outstanding as of December 31, 2024. The table incorporates only those debt obligations that existed as of December 31, 2024, and it does not consider those debt obligations or positions which could arise after this date and therefore has limited predictive value. As a result, NNN's ultimate realized gain or loss with respect to interest rate fluctuations will depend on the exposures that arise during the period, NNN's hedging strategies at that time and interest rates. If interest rates on NNN's variable rate debt increased by one percent, NNN's interest expense would have increased by less than one percent for the year ended December 31, 2024. Debt Obligations(1)(A (dollars in thousands)) A A A Variable Rate Debt A A Fixed Rate Debt A A Credit Facility A A Unsecured Debt(2) A A A DebtObligation A A WeightedAverageInterestRate A A PrincipalDebtObligation A A EffectiveInterestRate A A 2025 A \$ ac A A A ac A A \$ 400,000 A A 4.03 % A 2026 A A ac A A A A ac A A \$ 350,000 A A 3.73 % A 2027 A A ac A A ac A A \$ 400,000 A A 3.55 % A 2028 A A ac A A ac A A \$ 400,000 A A 4.39 % A 2029 A A ac A A A A ac A A \$ 400,000 A A Thereafter A A ac A A ac A A \$ 2,900,000 A A 4.22 % (3) Total A \$ ac A A ac A A \$ 4,450,000 A A 4.12 % Fair Value: A A A A A A A A A A A A December 31, 2024 A \$ ac A A A A \$ 3,894,030 A A A A December 31, 2023 A \$ 132,000 A A A \$ 3,801,367 A A A A (1) NNN's unsecured debt obligations have a weighted average interest rate of 4.1% and a weighted average maturity of 12.1 years. (2) Includes NNN's notes payable, each exclude unamortized discounts and debt costs. The fair value is based upon quoted market prices as of the close of the year, which is a Level 1 valuation since NNN's notes payable are publicly traded on the over-the-counter market. (3) Weighted average effective interest rate for years after 2029. A A 43 Item 8. Financial Statements and Supplementary Data Report of Independent Registered Public Accounting Firm To the Shareholders and the Board of Directors of NNN REIT, Inc. Opinion on Internal Control Over Financial Reporting We have audited NNN REIT, Inc., and subsidiariesac internal control over financial reporting as of December 31, 2024, based on criteria established in Internal Controlac Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, NNN REIT, Inc., and subsidiaries (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2024, based on the COSO criteria. We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of December 31, 2024 and 2023, the related consolidated statements of income and comprehensive income, equity and cash flows for each of the three years in the period ended December 31, 2024, and the related notes and financial statement schedules listed in the Index at Item 15(a) and our report dated February 11, 2025 expressed an unqualified opinion thereon. Basis for Opinion The Companyac management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Managementac Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Companyac internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Definition and Limitations of Internal Control Over Financial Reporting A companyac internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A companyac internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the companyac assets that could have a material effect on the financial statements. 44 Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. /s/ Ernst & Young LLP Orlando, Florida February 11, 2025 A 45 Report of Independent Registered Public Accounting Firm A To the Shareholders and the Board of Directors of NNN REIT, Inc. Opinion on the Financial StatementsWe have audited the accompanying consolidated balance sheets of NNN REIT, Inc., and subsidiaries (the Company) as of December 31, 2024 and 2023, the related consolidated statements of income and comprehensive income, equity and cash flows for each of the three years in the period ended December 31, 2024, and the related notes and financial statement schedules listed in the Index at Item 15 (collectively referred to as the acconsolidated financial statementsac). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2024 and 2023, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2024, in conformity with U.S. generally accepted accounting principles.We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2024, based on criteria established in Internal Controlac Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework), and our report dated February 11, 2025 expressed an unqualified opinion thereon. Basis for Opinion These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Companyac financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion. Critical Audit Matters The critical audit matters communicated below are matters arising from the current period audit of the financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate. A A 46 A Valuation of Real Estate Acquisitions Description of the Matter As discussed in Note 1 of the consolidated financial statements, real estate asset acquisitions require allocation of consideration to the acquired tangible assets, consisting of land, building and tenant improvements and, if applicable, to identified intangible assets and liabilities, based on their respective fair values. For the year ended December 31, 2024, the Company completed \$411 million of real estate acquisitions accounted for as asset acquisitions. Auditing managementac measurement of fair values and allocation of consideration to the acquired tangible assets was complex and involved subjectivity. In particular, the fair value estimates are sensitive to significant assumptions, such as establishing a range of relevant market assumptions for land, building and rent, and estimating where within that range the acquired property falls. Establishing the market assumptions for land, building and rent include identifying the relevant properties in the established range most comparable to the acquired property. The position within the range is a judgmental assumption that relies upon ranking comparable propertiesac attributes from most similar to least similar. How We Addressed the Matter in Our Audit We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over the Companyac s valuation of real estate acquisitions process. For example, we tested controls over the review and selection of inputs and assumptions used in the valuation estimates and the review of the final allocation of value among the tangible assets acquired. To test the estimated fair values of the Companyac s acquired tangible assets, we performed audit procedures that included, among others, reading the purchase agreements, assessing managementac s valuation techniques and testing the completeness and accuracy of the underlying data used by the Company in its analysis. For certain acquisitions, we involved our real estate valuation specialists to evaluate managementac s concluded ranges of values by benchmarking against comparable properties. We also compared certain of managementac s assumptions to current and comparable industry information for land, building, building improvements and market rents. A 47 A Impairment of Held and Used Real Estate Assets Description of the Matter At December 31, 2024, held and used real estate assets were \$8,746 million. As discussed in Notes 1 and 2 of the consolidated financial statements, the Company assesses held and used real estate assets for impairment when certain events or changes in circumstances indicate the carrying amount of the asset may not be recoverable through operations. When impairment indicators are determined to be present, the Company first performs a recoverability test by comparing the undiscounted future cash flows of the real estate asset to the net carrying value. If the undiscounted cash flows used in the test for recoverability are less than the carrying amount of the asset, the Company determines the fair value of the real estate asset and recognizes an impairment loss if the carrying amount of the asset exceeds its fair value. Auditing managementac s valuation of held and used real estate assets for impairment was complex and involved subjectivity due to the significant estimation required to determine the undiscounted future cash flows of held and used assets where impairment indicators were determined to be present and the fair value for those properties in which the net carrying value of the asset exceeds its undiscounted cash flows. In particular, future cash flow estimates were sensitive to the assumptions made by management regarding future market rents, which are affected by expectations about future market and economic conditions. How We Addressed the Matter in Our Audit We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over the Companyac s impairment of held and used real estate assets process. For example, we tested controls over managementac s review of the market rent assumption.To test the Companyac s impairment assessment over held and used real estate assets, our audit procedures included, among others, assessing the methodologies used by management, testing the market rent assumption used to develop the estimates of future cash flows, and testing the completeness and accuracy of the underlying data used by the Company in its analysis. We evaluated the historical accuracy of the Companyac s estimates by performing a historical look back on market rent assumptions. For certain properties, we involved our real estate valuation specialists to evaluate managementac s market rent assumptions by benchmarking against comparable properties. /s/ Ernst & Young LLP A We have served as the Companyac auditor since 2006. operating leases and the net investment for direct financing leases are removed from the accounts, and gains and losses from the dispositions are reflected in income. FASB ASC Topic 610-20, Gains and Losses from the Derecognition of Nonfinancial Assets ("ASC 610-20"), provides guidance for recognizing gains and losses from the transfer of nonfinancial assets in contracts with noncustomers. An entity that transfers a nonfinancial asset in the scope of ASC 610-20 follows a two-step derecognition model to determine whether (and when) to derecognize the asset. NNN determined the key revenue stream impacted by ASC 610-20 is gain on disposition of real estate reported on the Consolidated Statements of Income and Comprehensive Income. In accordance with ASC 610-20, NNN evaluates any separate contracts or performance obligations to determine proper timing and/or amount of revenue recognition, as well as, transfer of control and transaction price allocation in determining the amount of gain or loss to record. 59 Å Impairment Å Real Estate. NNN periodically assesses its long-lived real estate assets for possible impairment whenever certain events or changes in circumstances indicate that the carrying value of the asset may not be recoverable. These indicators include, but are not limited to: changes in real estate market conditions, the ability of NNN to re-lease properties that are currently vacant or become vacant, properties reclassified as held for sale, persistent vacancies greater than one year, and properties leased to tenants in bankruptcy. Management evaluates whether an impairment in carrying value has occurred by comparing the estimated future cash flows (undiscounted and without interest charges), and the residual value of the real estate, with the carrying value of the individual asset. The future undiscounted cash flows are primarily driven by estimated future market rents. Future cash flow estimates are sensitive to the assumptions made by management regarding future market rents, which are affected by expectations about future market and economic conditions. If an impairment is indicated, a loss will be recorded for the amount by which the carrying value of the asset exceeds its estimated fair value. NNN's Properties are leased primarily to retail tenants under long-term net leases and primarily held for investment. Generally, NNN's Property leases provide for initial terms of 10 to 20 years, with cash flows provided over the entire term. Credit Losses on Financial Instruments. FASB ASC Topic 326, Financial Instruments Å Credit Losses requires entities to estimate an expected lifetime credit loss on financial assets ranging from short-term trade accounts receivable to long-term financings. The guidance requires a lifetime credit loss expected at inception and requires pooling of assets, which share similar risk characteristics. NNN is required to evaluate current economic conditions, as well as, make future expectations of economic conditions. In addition, the measurement of the expected credit loss is over the asset's contractual term.NNN held mortgages receivable, including accrued interest, of \$454,000 and \$1,002,000 included in other assets on the Consolidated Balance Sheets as of December 31, 2024 and 2023, respectively, net of \$9,000 and \$64,000 allowance for credit loss, respectively. NNN periodically evaluates the allowance for credit loss based on the fair value of the collateral and a 15-year historical collectability trend analysis. Cash and Cash Equivalents. NNN considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents consist of cash and money market accounts. Cash equivalents are stated at cost plus accrued interest, which approximates fair value. Cash accounts maintained on behalf of NNN in demand deposits at commercial banks and money market funds may exceed federally insured levels or may be held in accounts without any federal insurance or any other insurance or guarantee. However, NNN has not experienced any losses in such accounts.Restricted Cash and Cash Held in Escrow. Restricted cash and cash held in escrow may include (i) cash proceeds from the sale of assets held by qualified intermediaries in anticipation of the acquisition of replacement properties in tax-deferred exchanges under Section 1031 of the Internal Revenue Code of 1986, as amended (the "Code"), (ii) cash that has been placed in escrow for the future funding of construction commitments, or (iii) cash that is not immediately available to NNN. NNN held \$331,000 and \$3,966,000 in restricted cash and cash held in escrow as of December 31, 2024 and 2023, respectively.Debt Costs Å Line of Credit Payable. Debt costs incurred in connection with NNN's \$1,200,000,000 unsecured revolving line of credit have been deferred and are being amortized to interest expense over the term of the loan commitment using the straight-line method, which approximates the effective interest method. NNN has recorded debt costs associated with the Credit Facility (as defined in "Note 3 Å Line of Credit Payable") as an asset, in debt costs on the Consolidated Balance Sheets. Debt Costs Å Notes Payable. Debt costs incurred in connection with the issuance of NNN's unsecured notes have been deferred and are being amortized to interest expense over the term of the respective debt obligation using the effective interest method. NNN had debt costs of \$43,820,000 and \$42,595,000 included in notes payable on the Consolidated Balance Sheets as of December 31, 2024 and 2023, respectively, net of accumulated amortization of \$14,060,000 and \$14,343,000, respectively.Å 60 Å Revenue Recognition. Rental revenues for properties under construction commence upon completion of construction of the leased asset and delivery of the leased asset to the tenant. Rental revenues for non-development real estate assets are recognized when earned in accordance with ASC 842, based on the terms of the lease of the leased asset. Leasehold interests are amortized on the straight-line method over the terms of their respective leases. When scheduled rentals vary during the lease term, income is recognized on a straight-line basis so as to produce a constant periodic rent over the term of the lease. Lease termination fees are recognized when collected subsequent to the related lease that is cancelled and NNN no longer has continuing involvement with the former tenant with respect to that property.FASB ASC Topic 610-20, Gains and Losses from the Derecognition of Nonfinancial Assets ("ASC 610-20"), provides guidance for recognizing gains and losses from the transfer of nonfinancial assets in contracts with noncustomers. An entity that transfers a nonfinancial asset in the scope of ASC 610-20 follows a two-step derecognition model to determine whether (and when) to derecognize the asset. NNN determined the key revenue stream impacted by ASC 610-20 is gain on disposition of real estate reported on the Consolidated Statements of Income and Comprehensive Income. In accordance with ASC 610-20, NNN evaluates any separate contracts or performance obligations to determine proper timing and/or amount of revenue recognition, as well as, transfer of control and transaction price allocation in determining the amount of gain or loss to record. Earnings Per Share. Earnings per share have been computed pursuant to the FASB guidance included in FASB ASC Topic 260, Earnings Per Share. The guidance requires classification of the Company's invested restricted share units which contain rights to receive nonforfeitable dividends, as participating securities requiring the two-class method of computing earnings per share. Under the two-class method, earnings per common share are computed by dividing the sum of distributed earnings to common stockholders and undistributed earnings allocated to common stockholders by the weighted average common shares outstanding for the period. In applying the two-class method, undistributed earnings are allocated to both common shares and participating securities based on the weighted average shares outstanding during the period. The following table is a reconciliation of the numerator and denominator used in the computation of basic and diluted earnings per share using the two-class method for the years ended December 31 (dollars in thousands): Å Å 2024 Å Å 2023 Å Å 2022 Å Basic and Diluted Earnings: Å Å Å Å Å Net earnings available to stockholders Å \$ 396,835 Å Å \$ 392,340 Å Å \$ 334,626 Å Less: Earnings allocated to unvested restricted shares Å Å (686) Å Å (609) Å Å (514) Å Net earnings used in basic and diluted earnings per share Å \$ 396,149 Å Å \$ 391,731 Å Å \$ 334,112 Å Å Å Å Å Basic and Diluted Weighted Average Shares Outstanding: Å Å Å Å Å Weighted average shares outstanding Å Å 184,723,988 Å Å 182,184,038 Å Å 177,332,094 Å Less: Unvested restricted shares Å Å (299,534) Å Å (273,077) Å Å (237,918) Å Less: Unvested contingent restricted shares Å Å (735,892) Å Å (710,921) Å Å (690,520) Å Weighted average shares outstanding used in basic earnings per share Å Å 183,688,562 Å Å 181,200,040 Å Å 176,403,656 Å Other dilutive securities Å Å 355,279 Å Å 489,683 Å Å 664,209 Å Weighted average shares outstanding used in diluted earnings per share Å Å 184,043,841 Å Å 181,689,723 Å Å 177,067,865 Å Å 61 Å Income Taxes. NNN has made an election to be taxed as a REIT under Sections 856 through 860 of the Code, and related regulations. NNN generally will not be subject to federal income taxes on taxable income it distributes to stockholders, provided it meets certain other requirements for qualifying as a REIT. For each of the years in the three-year period ended December 31, 2024, NNN believes it has qualified as a REIT. Notwithstanding NNN's qualification for taxation as a REIT, NNN is subject to certain state and local income, franchise and excise taxes.NNN may elect to treat certain subsidiaries as TRS pursuant to the provisions of the REIT Modernization Act. A TRS is able to engage in activities resulting in income that previously would have been disqualified from being eligible REIT income under the federal income tax regulations. As a result, certain activities of NNN which occur within its TRS entities are subject to federal and state or local income taxes. All provisions for federal income taxes in the accompanying consolidated financial statements are attributable to NNN's former TRS. The deferred tax asset consists only of net operating loss carryforwards of \$3,804,000 from the former TRS that begin to expire in 2026. Management believes it is unlikely that NNN will realize any of the benefits of these deductible differences and has taken a valuation allowance against them. The valuation allowance decreased by \$95,000 for the year ended December 31, 2024 as a result of the decrease in the deferred tax asset. There was no change to the valuation allowance for the years ended December 31, 2023 and 2022. NNN currently has no TRS entities.Income taxes are accounted for under the asset and liability method as required by FASB ASC Topic 740, Income Taxes ("ASC 740"). Deferred tax assets and liabilities are recognized for the temporary differences based on estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the applicable period.In accordance with ASC 740, NNN has analyzed its various federal and state filing positions. NNN believes that its income tax filing positions and deductions are well documented and supported. Additionally, NNN believes that its accruals for tax liabilities are adequate. Therefore, no reserves for uncertain income tax positions have been recorded.NNN has had no unrecognized tax benefits during any of the years presented. Further, no interest or penalties have been included since no reserves were recorded and no significant increases or decreases are expected to occur within the next 12 months. When applicable, such interest and penalties will be recorded in non-operating expenses. The periods that remain open under federal statute are 2021 through 2024. NNN also files in many states and localities with varying open years under statute.Fair Value Measurement. NNN's estimates of fair value of financial and non-financial assets and liabilities are based on the framework established in FASB ASC Topic 820, Fair Value Measurement. The framework specifies a hierarchy of valuation inputs which was established to increase consistency, clarity and comparability in fair value measurements and related disclosures. The guidance describes a fair value hierarchy based upon three levels of inputs that may be used to measure fair value, two of which are considered observable and one that is considered unobservable. The following describes the three levels:Å Level 1 Å Valuation is based upon quoted prices in active markets for identical assets or liabilities.Å Level 2 Å Valuation is based upon inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.Å Level 3 Å Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include option pricing models, discounted cash flow models and similar techniques. 62 Å Accumulated Other Comprehensive Income (Loss). The following table outlines the changes in accumulated other comprehensive income (loss) for the years ended December 31, 2024 and 2023 (dollars in thousands): Å Å Å Gain or Loss onCash FlowHedges(1) Å Å Beginning balance, December 31, 2022 Å \$ (12,582) Å Å Å Å Reclassifications from accumulated other comprehensive income to net earnings Å Å 2,471 Å (2) Ending balance, December 31, 2023 Å Å (10,111) Å Å Å Å Reclassifications from accumulated other comprehensive income to net earnings Å Å 2,152 Å (2) Ending balance, December 31, 2024 Å \$ (7,959) Å Å (1)Additional disclosure is included in "Note 4 Å Notes Payable and Derivatives."(2)Recorded in interest expense on the Consolidated Statements of Income and Comprehensive Income. There is no income tax expense (benefit) resulting from this reclassification.New Accounting Pronouncements. In December 2022, the FASB issued ASU 2022-06, Deferral of the Sunset Date of Topic 848 (Å ASU 2022-06Å) which was issued to defer the sunset date of ASU 2020-04, Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform to December 31, 2024. ASU 2022-06 is effective immediately for all companies. For the year ended December 31, 2024, ASU 2022-06 had no impact on NNN's financial position or results of operations.In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures ("ASU 2023-07"), effective for fiscal years, beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. The amendments in this update require public entities to provide enhanced disclosures primarily around segment expenses. On an annual and interim basis entities will disclose significant segment expenses that are regularly provided to the chief operating decision maker and included with each measure of segment profit or loss, an amount for Å other segment itemsÅ by reportable segment accompanied by a description of its composition, and all annual disclosures about segment profit and loss currently required by Topic 280 to be disclosed in interim periods. The adoption of ASU 2023-07 did not have a significant impact on NNN's financial statement disclosures. Additional disclosure required by ASU 2023-07 is included in Å Note 9 Å Segment Information.Å In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures ("ASU 2023-09"), effective for annual periods beginning after December 15, 2024. The amendments in the update require public business entities on an annual basis to disclose specific categories in the rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold of equal to or greater than five percent of the amount computed by multiplying pretax income by the statutory income tax rate. The amendments also require that entities disclose on an annual basis information about the amount of income taxes paid disaggregated by federal, state, and foreign taxes and the amount of income taxes paid disaggregated by individual jurisdictions in which income taxes paid is equal to or greater than five percent of total income taxes paid. The amendments eliminate some of the previous required disclosures for all entities relating to estimates of the change in unrecognized tax benefits reasonably possible within 12 months. NNN is currently evaluating the potential impact the adoption of ASU 2023-09 will have on its future disclosures. 63 Å In November 2024, the FASB issued ASU 2024-03, Income StatementÅ Reporting Comprehensive IncomeÅ Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expense ("ASU 2027-03"), effective for annual periods beginning after December 15, 2026, and interim periods beginning after December 15, 2027. The amendments in this update require disclosure, in the notes to the financial statements, of specified information about certain costs and expenses and a qualitative description of the amounts remaining in relevant expense captions that are not separately disaggregated quantitatively. NNN is currently evaluating the potential impact the adoption of ASU 2024-03 will have on its future disclosures. Use of Estimates. Additional critical accounting policies of NNN include management's estimates and assumptions relating to the reporting of assets and liabilities, revenues and expenses and the disclosure of contingent assets and liabilities which are required to prepare the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America. Significant accounting policies include management's estimates of the purchase accounting for acquisition of real estate, the recoverability of the carrying value of long-lived assets and management's evaluation of the probability of outstanding and future lease payment collections. Estimates are sensitive to evaluations by management about current and future expectations of market and economic conditions. Actual results could differ from those estimates. Note 2 Å Real Estate:Real Estate Å PortfolioLeases. At December 31, 2024, NNN's real estate portfolio has a weighted average remaining lease term of 10 years and consisted of 3,533 leases classified as operating leases and an additional four leases accounted for as direct financing leases.The following is a summary of the general structure of the leases in the Property Portfolio, although the specific terms of each lease can vary significantly. Typically, the Property leases provide for initial terms of 10 to 20 years. The Properties are generally leased under triple-net leases, pursuant to which the tenant typically bears responsibility for all operating expenses of the Property, including utilities, real estate taxes and assessments, property and liability insurance, maintenance, repairs and capital expenditures. Certain Properties are subject to leases under which NNN retains responsibility for specific costs and expenses associated with the Property. NNN's leases provide for annual base rental payments (generally payable in monthly installments), and generally provide for limited increases in rent as a result of increases in the Consumer Price Index ("CPI") or fixed increases.Generally, NNN's leases provide the tenant with one or more multi-year renewal options, subject to generally the same terms and conditions provided under the initial lease term, including rent increases. NNN's lease term is based on the non-cancellable base term unless economic incentives make it reasonably certain that an option period to extend the lease will be exercised, in which event NNN includes the renewal options. Some of the leases also provide that in the event NNN wishes to sell the Property subject to that lease, NNN first must offer the lessee the right to purchase the Property on the same terms and conditions as any offer which NNN intends to accept for the sale of the Property. 64 Å Real Estate Portfolio. NNN's real estate consisted of the following at December 31 (dollars in thousands): Å Å Å 2024 Å Å 2023 Å Land and improvements (1) Å \$ 2,919,976 Å Å \$ 2,878,400 Å Buildings and improvements Å Å 7,805,939 Å Å 7,368,873 Å Leasehold interests Å Å 355 Å Å 355 Å Å 10,726,270 Å Å 10,247,628 Å Less accumulated depreciation and amortization Å Å (2,065,316) Å Å (1,863,451) Å Å 8,660,954 Å Å 8,384,177 Å Work in progress and improvements Å Å 82,411 Å Å 144,068 Å Accounted for using the operating method Å Å 8,743,365 Å Å 8,528,245 Å Accounted for using the direct financing method Å Å 2,520 Å Å 3,033 Å Classified as held for sale(2) Å Å 283 Å Å 4,573 Å Å \$ 7,466,168 Å Å \$ 8,535,851 Å (1)Includes \$34,356 and \$96,464 in land for Properties under construction as of December 31, 2024 and 2023, respectively.(2)As of December 31, 2024, two Properties were classified as held for sale. The property classified as held for sale as of December 31, 2023 was sold during the year ended December 31, 2024. NNN recognized the following revenues in rental income for the

years ended December 31 (dollars in thousands):

2024	2023	2022	Rental income from operating leases	\$ 846,653	\$ 805,136	\$ 751,680	Earned income from direct financing leases	\$ 468	\$ 560	\$ 595	Percentage rent	\$ 1,536	\$ 1,631	\$ 1,541	Rental revenues	\$ 848,657	\$ 807,327	\$ 753,816	Real estate expense reimbursement from tenants	\$ 18,811	\$ 18,763	\$ 17,802	\$ 867,468	\$ 826,090	\$ 771,618	Some leases provide for a free rent period or scheduled rent increases throughout the lease term. Such amounts are recognized on a straight-line basis over the terms of the leases. For the years ended December 31, 2024, 2023 and 2022, NNN recognized \$294,000, \$7,453,000 and (\$3,559,000), respectively, of net-straight-line accrued rental income, net of reserves. During the year ended December 31, 2023, one tenant was reclassified to accrual basis for accounting purposes due to their improved qualitative and/or quantitative credit factors, which resulted in an increase of accrued rental income in the amount of \$5,573,000.

are met and the number of shares earned is determined, the shares vest immediately. Compensation expense is recognized over the requisite service period. 72

Å The following summaries of other grants made during the year ended December 31, 2024, pursuant to the 2017 Plan: Å Å Number of Shares Å Å WeightedAverageÅ Å Share Price Å Å Other share grants under the 2017 Plan: Å Å Å Å Å DirectorsÅ Å fees Å Å 6,720 Å Å \$ 43.15 Å Å Deferred directorsÅ Å fees Å Å 29,884 Å Å Å 43.19 Å Å Å 36,604 Å Å Å 43.19 Å Å Shares available under the 2017 Plan for grant, end of period Å Å 4,520,013 Å Å Å Å The total compensation expense for share-based payments for the years ended December 31, 2024, 2023 and 2022 totaled \$11,816,000, \$12,228,000 and \$15,449,000, respectively. At December 31, 2024, NNN had \$13,725,000 of unrecognized compensation cost related to non-vested share-based compensation arrangements under the 2017 Plan. This cost is expected to be recognized over a weighted average period of 2.04 years. Note 8 Å Å Fair Value of Financial Instruments: NNN believes the carrying value of its Credit Facility approximates fair value based upon its nature, terms and variable interest rate. At December 31, 2024 and 2023, the fair value of NNN's notes payable excluding unamortized discount and debt costs, were \$3,894,030,000 and \$3,801,367,000, respectively, based upon quoted market prices as of the close of the year, which is a Level 1 valuation since NNN's notes payable are publicly traded. Note 9 Å Å Segment Information: NNN's operations are reported within one reportable segment and constitutes all of the consolidated entities which are reported in the consolidated financial statements. NNN primarily derives its revenues from real estate leased to retail tenants under long-term net leases. NNNÅ Å Properties are located in the United States. NNNÅ Å's chief operating decision maker (Å Å CODMÅ Å) is the Chief Executive Officer. The CODM assesses entity-wide operating results and performance and decides how to allocate resources based on net earnings which is reported on the Consolidated Statements of Income and Comprehensive Income. Additionally, the measure of segment assets is reported on the Consolidated Balance Sheets as total assets. Included in the total assets are long-lived real estate assets which include land, buildings, improvements and right-of-use assets subject to operating leases. The CODM uses net earnings to evaluate income generated from assets (return on assets) in deciding whether to reinvest profits to grow the Property Portfolio or deploy into other aspects of the Company, such as to retire or repay debt or pay dividends. The CODM also uses net earnings to monitor the budget versus actual results, which is used in assessing NNNÅ Å's entity-wide operating results and performance. Significant expense categories, including general and administrative, real estate, depreciation and amortization and interest, are included on NNNÅ Å's Consolidated Statements of Income and Comprehensive Income. Asset information is included in the Consolidated Balance Sheets and Å Å Note 2 Å Å Real Estate. Å Å Note 10 Å Å Major Tenants: As of December 31, 2024, NNN had no tenants that accounted for ten percent or more of its rental income. Å 73 Å Å Note 11 Å Å Commitments and Contingencies: A summary of NNN's commitments are included in "Note 2 Å Å Real Estate." In the ordinary course of its business, NNN is a party to various other legal actions which management believes are routine in nature and incidental to the operation of the business of NNN. Management does not believe that any of these proceedings are material to NNN's consolidated financial statements. 74 Å Å Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure None. Å Å Item 9A. Controls and Procedures Process for Assessment and Evaluation of Disclosure Controls and Procedures and Internal Control over Financing Reporting NNN carried out an assessment as of December 31, 2024, of the effectiveness of the design and operation of its disclosure controls and procedures and its internal control over financial reporting. This assessment was done under the supervision and with the participation of management, including NNN's Chief Executive Officer, Chief Financial Officer and Chief Accounting and Technology Officer ("NNN's Chief Officers"). Rules adopted by the Commission require NNN to present the conclusions of NNN's Chief Officers about the effectiveness of NNN's disclosure controls and procedures and the conclusions of NNN's management about the effectiveness of NNN's internal control over financial reporting as of the end of the period covered by this annual report. CEO and CFO Certifications. Included as Exhibits 31.1 and 31.2 to this Annual Report on Form 10-K are forms of Å Å Certification Å Å of NNN's Chief Executive Officer and Chief Financial Officer. The forms of Certification are required in accordance with Section 302 of the Sarbanes-Oxley Act of 2002. This section of the Annual Report on Form 10-K that stockholders are currently reading is the information concerning the assessment referred to in the Section 302 certifications and this information should be read in conjunction with the Section 302 certifications for a more complete understanding of the topics presented. Disclosure Controls and Procedures and Internal Control over Financial Reporting. Disclosure controls and procedures are designed with the objective of providing reasonable assurance that information required to be disclosed in NNN's reports filed or submitted under the Exchange Act, such as this Annual Report on Form 10-K, is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures are also designed with the objective of providing reasonable assurance that such information is accumulated and communicated to NNN's management, including NNN's Chief Officers, as appropriate, to allow timely decisions regarding required disclosure. Internal control over financial reporting is a process designed by, or under the supervision of, NNN's Chief Officers, and affected by NNN's Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles (Å Å GAAPÅ Å) and includes those policies and procedures that: Å Å pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of NNN's assets; Å Å provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that NNN's receipts and expenditures are being made in accordance with authorizations of management or the Board of Directors; and Å Å provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of NNN's assets that could have a material adverse effect on NNN's financial statements. Scope of the Assessments. The assessment by NNN's Chief Officers of NNN's disclosure controls and procedures and the assessment by NNN's management, including NNN's Chief Officers, of NNN's internal control over financial reporting included a review of procedures and discussions with NNN's management and others at NNN. In the course of the assessments, NNN sought to identify data errors, control problems or acts of fraud and to confirm that appropriate corrective action, including process improvements, were being undertaken. 75 Å Å NNN's internal control over financial reporting is also assessed on an ongoing basis by personnel in NNN's Accounting department and by NNN's internal auditors in connection with their internal audit activities. The overall goals of these various assessment activities are to monitor NNN's disclosure controls and procedures and NNN's internal control over financial reporting and to make modifications as necessary. NNN's intent in this regard is that the disclosure controls and procedures and the internal control over financial reporting will be maintained and updated (including with improvements and corrections) as conditions warrant. Management also sought to deal with other control matters in the assessment, and in each case if a problem was identified, management considered what revision, improvement and/or correction was necessary to be made in accordance with NNN's ongoing procedures. The assessments of NNN's disclosure controls and procedures and NNN's internal control over financial reporting is done on a quarterly basis so that the conclusions concerning effectiveness of those controls can be reported in NNN's Quarterly Reports on Form 10-Q and Annual Report on Form 10-K. Assessment of Effectiveness of Disclosure Controls and Procedures Based upon the assessments, NNN's Chief Officers have concluded that, as of December 31, 2024, NNN's disclosure controls and procedures were effective. Management's Report on Internal Control over Financial Reporting Management, including NNN's Chief Officers, are responsible for establishing and maintaining adequate internal control over financial reporting for NNN. Management used the criteria issued by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control Å Å 2013 Integrated Framework to assess the effectiveness of NNN's internal control over financial reporting. Based upon the assessments, NNN's Chief Executive Officer and Chief Financial Officer have concluded that, as of December 31, 2024, NNN's internal control over financial reporting was effective. Attestation Report of the Registered Public Accounting Firm Ernst & Young LLP, NNN's independent registered public accounting firm, audited the financial statements included in this Annual Report on Form 10-K and in connection therewith has issued an attestation report on NNN's effectiveness of internal control over financial reporting as of December 31, 2024, which appears in this Annual Report on Form 10-K. Changes in Internal Control over Financial Reporting During the three months ended December 31, 2024, there were no changes in NNN's internal control over financial reporting that materially affected, or are reasonably likely to materially affect, NNN's internal control over financial reporting. 76 Å Å Limitations on the Effectiveness of Controls Management, including NNN's Chief Officers, do not expect that NNN's disclosure controls and procedures or NNN's internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within NNN have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management's override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected. Item 9B. Other Information None. Item 9C. [illegible]

(c) Mortgages held by NNN and its subsidiaries for federal income tax purposes for the year ended December 31, 2024, 2023 and 2022 were \$454, \$1,002 and \$1,530, respectively.

(d) Mortgages totaling \$3,000 were accepted in connection with real estate transactions for the year ended December 31, 2020. (e) In accordance with FASB ASC Topic 326, Financial Instruments - Credit Losses, NNN recorded an allowance for an estimated expected lifetime credit loss on its mortgage receivables based on the fair value of the collateral and a 15-year historical collectability trend analysis. See accompanying report of independent registered public accounting firm. F-4 EX-19 2 nnn-ex19.htm EX-19 Exhibit 19 NNN REIT, INC.

INSIDER TRADING POLICY A. I. INTRODUCTION The following Insider Trading Policy (the "Policy") of NNN REIT, Inc. and all of its subsidiaries (collectively, the "Company"), has been adopted by and is intended to govern the conduct of the Company's directors, officers, employees, and entities and other individuals that they control (the "Covered Persons").

II. PURPOSE The U.S. federal government, including the Securities and Exchange Commission (the "SEC") and the Justice Department, is concerned about maintaining the fairness and integrity of U.S. capital markets. The federal government and SEC have enacted laws and adopted rules and regulations (collectively, the "Insider Trading Laws") governing transactions in securities. Insider Trading Laws prohibit transactions in securities made on the basis of material non-public information ("MNPI") and market manipulation, in addition to other offenses. In addition to criminal and civil penalties for individuals who trade, or provide information to others who trade, while in possession of MNPI, Insider Trading Laws have placed the onus on companies, and possibly their controlling persons (e.g., supervisors), for violations by Covered Persons. This Policy is designed to assist Covered Persons and the Company with compliance with the applicable U.S. Insider Trading Laws.

III. OUR POLICY A. RESTRICTED SECURITIES As used throughout this Policy, the term "Restricted Securities" shall mean any publicly traded equity or debt securities of (i) the Company, and (ii) any other public company that does business with the Company, including tenants, borrowers, partners, or suppliers.

B. PROHIBITION ON TRADING WHILE IN POSSESSION OF MATERIAL NON-PUBLIC INFORMATION If a Covered Person possesses MNPI relating to a company with Restricted Securities, including the Company, then such Covered Person shall not execute a transaction in the Restricted Securities of such company and shall not engage in any other action to take advantage of, or pass on to others, the MNPI for the purposes of transacting in such Restricted Security. There are no exceptions to this Policy. Therefore, even if a transaction is motivated by legitimate considerations, the transaction is prohibited if it takes place while the individual is in possession of MNPI.

C. ADDITIONAL RESTRICTIONS 1. Pre-Clearance. In addition to the restrictions and requirements of the preceding paragraph, all transactions by Covered Persons (including acquisitions, dispositions, transfers by gift, sales, etc.) in Restricted Securities of the Company must be pre-cleared by the Chief Financial Officer before execution of the transaction (transactions by the Chief Financial Officer shall be pre-cleared by the General Counsel) (in such roles, the Chief Financial Officer and General Counsel are referred to herein as "Authorizing Officers"). Pre-clearance of a transaction in Restricted Securities of the Company must be obtained by contacting the 1st Authorizing Officer in writing at least one business day before execution of the transaction. When a request for pre-clearance is made, the requestor should carefully consider whether he or she may be aware of any MNPI, and shall provide any and all useful information to the Authorizing Officer in order for the Authorizing Officer to make the pre-clearance determination. A confidential, e-mailed response will be sent to the requesting individual in response to requests for pre-clearance. Each pre-clearance approval shall automatically expire after ten business days and must be renewed to be valid. No trade in securities of the Company shall be executed without pre-clearance. This pre-clearance requirement does not apply to the exercising of Company stock options, but it does apply to subsequent market sales of common stock of the Company. Pre-clearance does not relieve anyone of their responsibilities under the Insider Trading Laws. Further, persons subject to Section 16(a) of the Securities Exchange Act of 1934 shall make all required filings, including Forms 3, 4, and 5 and Schedules 13D and 13G, as applicable, with the SEC on a timely basis.

2. Prohibition of Short-Swing Trading and Hedges. We believe that it is inappropriate for any Covered Persons to engage in short-term or speculative transactions involving the Company. As a result, Covered Persons shall not:

- Execute opposite-way transactions (e.g., a purchase followed by a sale, or a sale followed by a purchase) within six months (the "Short-Swing Trading Rule"), except for certain exempt transactions, such as acquisitions due to the exercise of stock options; or
- Execute short sales of the Company's Restricted Securities; and
- Buy or sell puts or calls, or execute other hedged positions in the Company's Restricted Securities.

Note that SEC rules require disgorgement of deemed profits for any Short-Swing Trading by Section 16 officers and directors. Section 16 officers and directors should assume that each transaction can be matched with all other transactions within six months before or after the transaction unless he or she has received competent legal advice that it is an exempt transaction.

3. Trading Blackouts From time to time, the Company may require that members of the Board of Directors, officers, selected employees and others, identified on a case-by-case basis, suspend transactions in Restricted Securities because of developments known to the Company and not yet disclosed to the public. If such event occurs, the Company will notify all such individuals, and such individuals shall not engage in any transaction involving the purchase or sale of the Restricted Securities during such period, and should not disclose to others the fact that they have been suspended from trading. The Company also requires the cessation of all transactions in the Company's Restricted Securities during certain mandatory trading blackouts. These trading blackouts include:

- a. Quarterly Earnings Blackouts All members of the Board of Directors, officers, and certain employees in a position to have access to MNPI (as designated by the Chief Financial Officer or the General Counsel) are prohibited from transacting in the Company's Restricted Securities for the period beginning at 12:00 p.m. Eastern Time on the date that is two weeks prior to the close of the fiscal quarter until two full trading days have elapsed after the date of the Company's financial results are made public for that quarter. Further, in addition to the Company's directors, officers and other employees subject to the above trading blackout, all Covered Persons are restricted from engaging in transactions from the time the Company's financial results are made public for that quarter until two full trading days have elapsed after the Company's financial results are made public for that quarter.
- b. Event-Specific Blackouts. From time to time, an event may occur that is material to the Company and is known by only a limited number of directors, officers and/or employees. As long as the event remains material and non-public, certain persons designated by the Chief Financial Officer or the General Counsel may not transact in the Company's Restricted Securities, and the existence of an event-specific trading blackout period or extension of a blackout period will not be announced to the Company as a whole. The existence of an event-specific blackout shall not be communicated to any person by such designated persons. Even if the Chief Financial Officer or General Counsel has not designated you as a person who should not trade due to an event-specific trading blackout, you should not trade if you become aware of any MNPI.
- 4. Prohibition on Tipping. Any person in possession of MNPI about Restricted Securities shall not pass the information to others. It is illegal to advise others to trade on the basis of MNPI. All of the prohibitions and penalties described above apply whether or not you derive any benefit from the transactions in such Restricted Securities by the person that you provided the information.

IV. MATERIAL NON-PUBLIC INFORMATION MNPI, for the purposes of this Policy, is any information that could reasonably affect the value of a publicly traded security, or that a reasonable investor would consider important in deciding whether to buy, sell or hold such securities that has not been disclosed generally to the investing public in a manner that complies with applicable securities laws (e.g., by a press release or report filed with the SEC). Common examples of information that will frequently be regarded as material are: projections of future earnings or losses; news of a pending or proposed merger; acquisition or tender offer; news of a significant sale of assets or the disposition of the company or a subsidiary; changes in dividend policies; the declaration of a stock split; certain offerings of securities; changes in management or directors; significant new products or discoveries; impending bankruptcy or financial liquidity problems; pending litigation; a major cybersecurity breach; and the gain or loss of a substantial customer or tenant. Both positive and negative information can be material.

V. TRANSACTIONS BY FAMILY MEMBERS AND OTHERS The same restrictions that apply to Covered Persons also apply to their family members, including their spouse, others living in the same household, and entities under their control. Each person subject to this Policy is expected to be responsible for the compliance of his or her family and household, as well as any entities under his or her control.

3. This Policy does not, however, apply to personal securities transactions of family members where the purchase or sale decision is made by a third party not controlled by, influenced by, or related to the Covered Person or their family members.

VI. THE CONSEQUENCES OF INSIDER TRADING VIOLATIONS The consequences of insider trading violations can be severe. For an individual who trades on inside information or tips information to others, the following penalties may apply:

- A substantial civil penalty;
- A substantial criminal fine (no matter how small the profit); and
- A significant prison term.

For a company, including any supervisory person, who fails to take appropriate steps to prevent illegal trading, the following may apply:

- A substantial civil penalty;
- A substantial criminal fine. Moreover, an employee's violation of this Policy could result in Company-imposed sanctions, which may include dismissal. Please keep in mind that this Policy continues to apply to your transactions in Company Restricted Securities even after your employment with the Company has been terminated. If you are in possession of MNPI when your employment terminates, you may not trade in Company Restricted Securities until that information has become public or is no longer material.

VII. RULE 10b5-1 TRADING PLANS A. GENERAL Notwithstanding anything contained herein, Covered Persons may trade in the Company's Restricted Securities pursuant to Rule 10b5-1 Trading Plans. Any Covered Person who wishes to enter into a Rule 10b5-1 Trading Plan must contact the Chief Financial Officer for approval. Rule 10b5-1 provides a defense from insider trading liability. In order to be eligible to rely on this defense, a person must enter into a Rule 10b5-1 Trading Plan that meets the conditions specified in Rule 10b5-1. Rule 10b5-1 presents an opportunity for Covered Persons to establish plans to sell or purchase Company Restricted Securities without the restrictions imposed by trading blackouts even when in possession of MNPI concerning the Company. Rule 10b5-1 only provides an affirmative defense if there is an insider trading lawsuit. It does not prevent anyone from bringing a lawsuit, nor does it prevent the media from reporting on any transactions executed pursuant to a Rule 10b5-1 Plan. You have the ultimate and exclusive responsibility for adhering to Rule 10b5-1.

B. REQUIREMENTS FOR ESTABLISHING AND TRADING UNDER A RULE 10b5-1 TRADING PLAN 1. Minimum Plan Requirements. Your Rule 10b5-1 Trading Plan must:

- a. Be entered into in good faith and outside of a trading blackout at a time when you do not possess MNPI concerning the Company. Your Rule 10b5-1 Trading Plan may not be entered into as part of a plan or scheme to otherwise trade on the basis of MNPI concerning the Company. To comply with these requirements, you must complete a preclearance interview with the Chief Financial Officer prior to entering into your Rule 10b5-1 Trading Plan.
- b. Be in writing and preapproved by the Chief Financial Officer. The Chief Financial Officer Team must approve your written Rule 10b5-1 Trading Plan before you may enter into it.
- c. Include appropriate trading instructions. You may either specify the price, number of shares and date of trades ahead of time or provide a formula or other instructions by which your broker can determine the price, amount and date of trades. Alternatively, you may simply authorize your broker to make purchase and sale decisions on your behalf without any control or influence by you.
- d. For Section 16 officers and directors only, include closed trading windows for the five business days before and one business day after the release of the Company's quarterly financial results. Because transactions by Section 16 officers and directors are reported publicly, this proscription is intended to avoid the disclosure of trades in the immediate run up to and aftermath of the Company's announcement of quarterly financial results.
- e. Prohibit you from exercising any influence over the amount of securities to be traded, the price at which they are to be traded, or the date of the trade. You may delegate discretionary authority to your broker, but in no event may you consult with your broker regarding executing transactions, or otherwise disclose information to your broker concerning the Company that might influence the execution of transactions, under your Rule 10b5-1 Trading Plan after it commences.
- f. Include a cooling off period between your entry into your Rule 10b5-1 Trading Plan and the first possible transactions thereunder. The cooling off period is designed to minimize the risk that a claim will be made that you were aware of MNPI concerning the Company when you entered into the Rule 10b5-1 Trading Plan and that the plan was not entered into in good faith. For directors and officers of the Company, the cooling off period is the later of (a) 90 days following the date of the adoption of the Rule 10b5-1 Trading Plan, or (b) two business days following the date of disclosure in a periodic report (Form 10-Q or 10-K) filed with the SEC for the quarter in which the Rule 10b5-1 Trading Plan was adopted. For other Covered Persons, the cooling off period is 30 days following the date of 5th adoption of the Rule 10b5-1 Trading Plan.
- g. Include an expiration date that is at least six months but not more than 18 months from the effective date of your Rule 10b5-1 Trading Plan. We will not approve Rule 10b5-1 Plans with terms of less than 6 months or in excess of 18 months. Shorter-term plans may be viewed as an attempt to make advantageous short-term trades, and longer-term plans are likely to have to be amended or terminated, which defeats the ultimate purpose of Rule 10b5-1 Trading Plans.

2. Trading Outside Your Rule 10b5-1 Trading Plan. You may only purchase or sell the Company's Restricted Securities outside of your Rule 10b5-1 Trading Plan in accordance with this Policy. In addition, you may not buy or sell Company Restricted Securities in an effort to use a hedging strategy to offset your Rule 10b5-1 Plan trades while a Rule 10b5-1 Trading Plan is in effect. Any trading outside of your Rule 10b5-1 Trading Plan will be subject to heightened scrutiny for potential hedging and, depending on the circumstances, it may be advisable not to engage in any trading outside the Rule 10b5-1 Trading Plan.

3. Amendment, Suspension or Termination of the Rule 10b5-1 Trading Plan. In most instances, the SEC views the modification, amendment, or suspension of a Rule 10b5-1 Trading Plan as a termination of the Rule 10b5-1 Plan followed by an adoption of a new Rule 10b5-1 plan, triggering observation of the applicable cooling off period before trading commences under the new Rule 10b5-1 Plan. As a result, modifications, amendments, suspensions, and terminations of Rule 10b5-1 Trading Plans will require preapproval of the Chief Financial Officer, who shall inquire into the effects of the modification, amendment, suspension, and termination on trading activity. Scheduled sales or purchases of Company Restricted Securities pursuant to your Rule 10b5-1 Trading Plan will not be halted during the pendency of your amendment, suspension, or termination request. The Company has the right at any time to require additional and/or different requirements in connection with the amendment, suspension, or termination of a Rule 10b5-1 Trading Plan in order to protect you and the Company from potential liability. Further, your Rule 10b5-1 Trading Plan may be terminated or suspended by the Company at any time and for any reason. You may only voluntarily amend, suspend or terminate your Rule 10b5-1 Trading Plan with preapproval from the Chief Financial Officer, subject to the following conditions:

- a. You may only amend, suspend or terminate your Rule 10b5-1 Trading Plan outside of a trading blackout.
- b. You may not amend, suspend or terminate your Rule 10b5-1 Trading Plan if at the time of the amendment, suspension or termination you possess MNPI concerning the Company.
- c. You must sign a certificate in favor of the Company and your broker affirmatively stating that you do not possess MNPI concerning the Company at the time of the amendment, suspension or termination.
- d. Your amendment, suspension or termination must include a 30-day cooling off period between your commitment to such amendment, suspension or termination and its effectiveness. Trading under your Rule 10b5-1 Trading Plan will continue pursuant

Please note that, depending on the ai-frmation made, an item may require the Company to provide additional information or a link to the applicable document referenced therein. Please also note that specii-c types of entities may avail themselves of exemptions to or transition periods for, compliance with certain of the requirements. If the Company is availing itself of any of these exemptions or transition periods, it should select the corresponding ai-frmation for the applicable item. Item 1. Director Independence: Sections 303A.01 and 303A.02 of the Manual I hereby certify that the Companyae's board of directors is comprised of a majority of independent directors as required by Section 303A.01 and dei-need in Section 303A of the Manual. For business development companies only: I hereby certify that a majority of the Companyae's directors are not aeinterested personsae as dei-need in Section 2(a)(19) of the Investment Company Act of 1940. For companies relying on the transition period provided for in Section 303A.00 of the Manual only: I hereby certify that the Company is entitled to rely, and is relying, on the one year transition period provided for in Section 303A.00 of the Manual. I further hereby certify that the Companyae's board of directors will be comprised of a majority of independent directors as required by Section 303A.01 as dei-need in Section 303A of the Manual by the end of the one year transition period. For limited partnerships, controlled companies, and companies that are in bankruptcy only: I hereby certify that the Company is exempt from this requirement. The Company is unable to make one of the ai-frmations set forth in this Item 1 and is therefore non-compliant for the following reasons: Item 2. Executive Sessions, Presiding Director and Interested Party Communication: Section 303A.03 of the Manual I hereby certify that the Company has, or will have (in the case of an Initial Ai-frmation), regularly scheduled meetings of its non- management or independent directors and has also complied with all of the other relevant requirements as required by Section 303A.03 of the Manual. The Company is unable to make the aforementioned ai-frmation in this Item 2 and is therefore non-compliant for the following reasons: Item 3. Nominating/Corporate Governance Committee: Section 303A.04 of the Manual I hereby certify that the Company has a nominating/corporate governance committee (or a comparable committee to which such duties have been delegated) that meets the requirements of Section 303A.04 of the Manual. I further hereby certify that such committee has a written charter that meets the requirements of Section 303A.04 of the Manual. For an Initial Ai-frmation, I hereby certify that the nominating/corporate governance committee charter is currently available on the Companyae's website at the link provided in the box below, or will be available on the Companyae's website within the applicable timeline provided under Section 303A.00 of the Manual. For an Annual Ai-frmation, I hereby certify that the Company has disclosed in its Annual Proxy Statement that the nominating/corporate governance committee charter is available on the Companyae's website at the link provided in the box below. Link http://www.nnnreit.com For companies relying on the transition period provided for in Section 303A.00 of the Manual only: I hereby certify that the Company is entitled to rely, and is relying, on the transition period provided for in Section 303A.00 of the Manual and that the Company will be in full compliance at the end of the transition period. If the Company has already adopted a nominating/corporate governance committee charter, the charter is available on the Companyae's website at (insert link). Please provide a brief description for the basis for reliance on the exemption below. For limited partnerships, controlled companies, and companies that are in bankruptcy only: I hereby certify that the Company is exempt from this requirement. The Company is unable to make one of the ai-frmations set forth in this Item 3 and is therefore non-compliant for the following reasons: Item 4. Compensation Committee: Section 303A.05 of the Manual I hereby certify that the Company has a compensation committee (or a comparable committee to which such duties have been delegated) that meets the requirements of Section 303A.05 of the Manual(including the additional independence requirements applicable to compensation committee members under Section 303A.02 of the Manual). I further hereby certify that such committee has a written charter that meets the requirements of Section 303A.05 of the Manual. For an Initial Ai-frmation, I hereby certify that the compensation committee charter is currently available on the Companyae's website at the link provided in the box below, or will be available on the Companyae's website within the applicable timeline provided under Section 303A.00 of the Manual. For an Annual Ai-frmation, I hereby certify that the Company has disclosed in its Annual Proxy Statement that the compensation committee charter is available on the Companyae's website at the link provided in the box below. For companies relying on the transition period provided for in Section 303A.00 of the Manual only: I hereby certify that the Company is entitled to rely, and is relying, on the transition period provided for in Section 303A.00 of the Manual and that the Company will be in full compliance at the end of the transition period. If the Company has already adopted a compensation committee charter, the charter is available on the Companyae's website at (insert link). Please provide a brief description for the basis for reliance on the exemption below. For companies relying on the compensation committee cure period provided in Section 303A.00 of the Manual only: I hereby certify that the Company is entitled to rely, and is relying, on the transition period provided for in Section 303A.00 of the Manual because a member of the compensation committee ceases to be independent for reasons outside the memberae's reasonable control. Please provide a brief description for the basis for reliance and the names of any such committee member relying on the cure below. For limited partnerships, controlled companies, and companies that are in bankruptcy only: I hereby certify that the Company is exempt from this requirement. The Company is unable to make one of the ai-frmations set forth in this Item 4 and is therefore non-compliant for the following reasons: Item 5. Audit Committee: Section 303A.07 of the Manual I hereby certify that (i) the Company has an audit committee that meets the requirements of Section 303A.07 of the Manual and that the composition of such audit committee complies with (or is exempt therefrom) the independence requirements of Rule 10A-3(b)(1) of the Exchange Act and (ii) such audit committee has a written charter that meets the requirements of Section 303A.07 of the Manual. For an Initial Ai-frmation, I hereby certify that the audit committee charter is currently available on the Companyae's website at the link provided in the box below, or will be available on the Companyae's website within the applicable timeline provided under Section 303A.00 of the Manual. For an Annual Ai-frmation, I hereby certify that the Company has disclosed in its Annual Proxy Statement or Form 10-K, as applicable, that the audit committee charter is available on the Companyae's website at the link provided in the box below. Link http://www.nnnreit.com For business development companies only: I hereby certify that (i) the Company has an audit committee that meets the requirements of Section 303A.07 of the Manual (subject to the applicable exemptions set forth in Section 303A.00 of the Manual) and that the composition of such audit committee complies with (or is exempt from) the independence requirements of Rule 10A-3(b)(1) of the Exchange Act and (ii) such audit committee has a written charter that meets the requirements of Section 303A.07 of the Manual. For an Initial Ai-frmation, I hereby certify that the audit committee charter is currently available on the Companyae's website at the link provided in the box below, or will be available on the

Companyâ€™s website under the applicable time period provided under Section 303A.00 of the Manual. For an Annual AI-firmation, I hereby certify that the Company has disclosed its Annual Proxy Statement that the audit committee charter is available on the Companyâ€™s website at the link provided in the box below. For companies relying on the transition period provided for in Section 303A.00 of the Manual only: I hereby certify that the Company is entitled to rely, and is relying, on the transition period provided for in Section 303A.00 of the Manual and that the Company will be in full compliance by the end of the transition period. The Company is unable to make one of the ai-firmations set forth in this Item 5 and is therefore non-compliant for the following reasons: Item 6. Audit Committee Exemption: Section 303A.06 of the Manual for Rule 10A-3 of the Exchange Act I hereby certify that the Company is relying on an individual or company exemption under Rule 10A-3 in Item 5, above. Please state below which Rule 10A-3 exemption(s) the Company or any individual member is relying on and briefy describe the basis for such exemption below. Item 7. Internal Audit Function: Section 303A.07(c) of the Manual I hereby certify that the Company maintains an internal audit function that complies with Section 303A.07(c) of the Manual. For companies relying on the transition period provided for in Section 303A.00 of the Manual only: I hereby certify that the Company is entitled to rely, and is relying, on the transition period provided for in Section 303A.00 of the Manual and that the Company will be in full compliance by the end of the transition period. The Company is unable to make one of the ai-firmations set forth in this Item 8 and is therefore non-compliant for the following reasons: Item 8. Corporate Governance Guidelines: Section 303A.09 of the Manual I hereby certify that the Company has adopted corporate governance guidelines that comply with Section 303A.09 of the Manual. For an Initial AI-firmation, I hereby certify that the corporate governance guidelines are currently available on the Companyâ€™s website at the link provided in the box below, or will be available on the Companyâ€™s website within the applicable timeline provided under Section 303A.00 of the Manual. For an Annual AI-firmation, I hereby certify that the Company has disclosed in its Annual Proxy Statement or Form 10-K, as applicable, that the corporate governance guidelines are available on the Companyâ€™s website at the link provided in the box below. Link http://www.nnnreit.com For companies relying on the transition period provided for in Section 303A.00 of the Manual only: I hereby certify that the Company is entitled to rely, and is relying, on the transition period provided for in Section 303A.00 of the Manual and that the Company will be in full compliance by the end of the transition period. The Company is unable to make one of the ai-firmations set forth in this Item 8 and is therefore non-compliant for the following reasons: Item 9. Code of Business Conduct and Ethics: Section 303A.10 of the Manual I hereby certify that the Company has adopted a code of business conduct and ethics that complies with Section 303A.10 of the Manual. For an Initial AI-firmation, I hereby certify that the code of business conduct and ethics is currently available on the Companyâ€™s website at the link provided in the box below, or will be available on the Companyâ€™s website within the applicable timeline provided under Section 303A.00 of the Manual. For an Annual AI-firmation, I hereby certify that the Company has disclosed in its Annual Proxy Statement or Form 10-K, as applicable, that the code of business conduct and ethics is available on the Companyâ€™s website at the link provided in the box below. Link http://www.nnnreit.com For companies relying on the transition period provided for in Section 303A.00 of the Manual only: I hereby certify that the Company is entitled to rely, and is relying, on the transition period provided for in Section 303A.00 of the Manual and that the Company will be in full compliance by the end of the transition period. The Company is unable to make one of the ai-firmations set forth in this Item 9 and is therefore non-compliant for the following reasons: Item 10. Other Non Compliance: Section 303A of the Manual Apart from any non-compliance speci-c to the preceding sections, the Company is non-compliant with Section 303A of the Manual for the following reason(s): Item 11.
