The allowance for credit losses is increased by

recording an expense for the provision for bad debts for retail customers, and through decreases to revenue at the time of billing for wholesale customers. The allowance is decreased when customer accounts are written off, or when customers are given credits. The provision for bad debts was $20 million and $16 million for the six months ended June 30, 2024 and 2023, respectively. Approximately $252 million and $143 million of credits related to customers are included in other current liabilities on our consolidated balance sheets as of June 30, 2024, and December 31, 2023, respectively.</p><p dir="ltr" style="font-family: 'Arial', 'sans-serif';font-size: 8pt;line-height: 108%;margin-bottom: .001pt;margin-left: 0.38in;margin-right: 0;margin-top: 0;text-align: justify;"> </p><p dir="ltr" style="font-family: 'Arial', 'sans-serif';font-size: 10pt;line-height: 108%;margin-bottom: .001pt;margin-left: 0.38in;margin-right: 0;margin-top: 0;text-align: justify;">In accordance with ASC 326, we performed calculations to estimate expected credit losses, utilizing rates that are consistent with our write offs (net of recoveries) because such events affect the entity's loss given default experience.</p><p dir="ltr" style="font-family: 'Arial', 'sans-serif';font-size: 8pt;line-height: 108%;margin-bottom: .001pt;margin-left: 0.38in;margin-right: 0;margin-top: 0;text-align: justify;"> </p><p dir="ltr" style="font-family: 'Arial', 'sans-serif';font-size: 10pt;line-height: 108%;margin-bottom: .001pt;margin-left: 0.38in;margin-right: 0;margin-top: 0;text-align: justify;">Activity in the allowance for credit losses for the three months ended June 30, 2024 was as follows: </p><p dir="ltr" style="font-family: 'Arial', 'sans-serif';font-size: 8pt;line-height: 108%;margin-bottom: .001pt;margin-left: 0.38in;margin-right: 0;margin-top: 0;text-align: justify;"> </p><p dir="ltr" style="font-family: 'Arial', 'sans-serif';font-size: 1pt;line-height: 108%;margin-bottom: .001pt;margin-left: 0.38in;margin-right: 0;margin-top: 0;text-align: justify;"> </p><div style="text-align:left"><table dir="ltr" style="border: none;border-collapse: collapse;margin-bottom: .001pt;margin-left: 0;margin-right: auto;width: 100%;"><tr><td style="background: #FFFFFF;border-bottom-style: none;border-left-style: none;border-right-style: none;border-top-style: none;padding-bottom: 0;padding-left: 0;padding-right: 0;padding-top: 0;vertical-align: bottom;width: 3.0%;"><p dir="ltr" style="text-align:left; The fair value of our total long-term debt is estimated based upon quoted market prices at the reporting date for those financial instruments. <table dir="ltr" style="border: none;border-collapse: collapse;margin-bottom: .001pt;margin-left: 0;margin-right: auto;width: 100%;"><tr><td style="background:

  ⁽¹⁾Upon emergence, we adjusted the carrying value of our debt to fair value. The adjustment consisted of the elimination of the existing unamortized debt issuance costs and unamortized discounts and recording a balance of $236 million as a fair value adjustment. The fair value accounting adjustment is being amortized into interest expense using the effective interest method.

  ⁽¹⁾Upon emergence, we adjusted the carrying value of our debt to fair value. The adjustment consisted of the elimination of

the existing unamortized debt issuance costs and unamortized discounts and recording a balance of $236 million as a fair value adjustment. The fair value accounting adjustment is being amortized into interest expense using the effective interest method.

Performance Stock Units We currently have outstanding performance stock units ("PSU") that were granted in 2022, 2023 and 2024. Under these awards, a target number of PSUs are granted to each participant with respect to a three-year performance period ("The Measurement Period"). For the 2024 PSU awards, for example, the Measurement Period is from January 1, 2024, through December 31, 2026. The performance metrics under the 2024 PSU awards consist of (1) Adjusted Fiber EBITDA, (2) Fiber Revenue and (3) Relative Total Shareholder Return ("TSR"). Relative TSR is based on our total return to stockholders over the Measurement Period relative to the S&P 400 Mid Cap Index. Each performance metric is weighted 33.3%, the goals for the relative TSR metric have been fully set, and the goals for the remaining metrics have been set for the first portion of the Measurement Period. The performance metrics under the 2022 and 2023 PSU awards are (1) Adjusted Fiber EBITDA, (2) Fiber Locations Constructed and (3) Expansion Fiber Penetration with an overall relative TSR modifier. Each performance metric is weighted 33.3% and goals for each metric have been set for the full Measurement Period.   Achievement of the metrics for outstanding PSUs will be measured separately, and the number of awards earned will be determined based on actual performance relative to the targets of each performance metric. Achievement is measured on a cumulative basis for each performance metric individually at the end of the three-year Measurement Period with a TSR modifier for the 2022 and 2023 plans. The payout of the 2022, 2023 and 2024 PSUs can range from 0% to a maximum award payout of 200% of the target units. The 2021 PSU awards paid out at 126% of target on March 1, 2024. The number of PSUs earned at the end of the Measurement Period may be more or less than the number of target PSUs granted as a result of performance. An executive must maintain a satisfactory performance rating during the Measurement Period and, except for limited circumstances, must be employed by Frontier on the determination date in order for the award to vest. The Compensation and Human Capital Committee will determine the number of shares earned for the Measurement Period in the first quarter of the year following the end of the Measurement Period. PSUs awards, to the extent earned, will be paid out in the form of common stock on a one-for-one basis. Under ASC 718, Stock Based Compensation Expense, a grant date, and the fair value of a performance award are determined once the targets are finalized. For the 2022 and 2023 PSU awards, targets for all of the metrics have been fully set for each performance period and the related expense will be amortized over the appropriate performance period. For the 2024 PSU awards, the targets related to two of the three performance metrics have not been established. As a result, as of June 30, 2024, we have recognized associated expense with respect to 1/3 of the aggregate outstanding 2024 PSU awards. The following summary presents information regarding performance shares and changes during the period with regard to performance shares awarded under the 2024 Incentive Plan: <table dir="ltr" style="border: none;border-collapse: collapse;margin-bottom: .001pt;margin-left: 0;margin-right: auto;width: 100%;"><tr style="height: 0.01in;"><td style="background: #FFFFFF;border-bottom-style: none;border-left-style: none;border-right-style: none;border-top-style: none;padding-bottom: 0;padding-left: 0;padding-right: 0;padding-top: 0;vertical-align: middle;width: 57.3%;"> </td><td style="background: #FFFFFF;border-bottom-style: none;border-left-style: none;border-right-style: none;border-top-style: none;padding-bottom: 0;padding-left: 0;padding-right: 0;padding-top: 0;vertical-align: middle;width: 2.2%;"> </td><td style="background: #FFFFFF;border-bottom-style: none;border-left-style: none;border-right-style: none;border-top-style: none;padding-bottom: 0;padding-left: 0;padding-right: 0;padding-top: 0;vertical-align: middle;width: 15.9%;"> </td><td style="background: #FFFFFF;border-bottom-style: none;border-left-style: none;border-right-style: none;border-top-style: none;padding-bottom: 0;padding-left: 0;padding-right: 0;padding-top: 0;vertical-align: bottom;width: 2.2%;"> </td><td style="background: #FFFFFF;border-bottom-style: none;border-left-style: none;border-right-style: none;border-top-style: none;padding-bottom: 0;padding-left: 0;padding-right: 0;padding-top: 0;vertical-align: bottom;width: 2.2%;"> </td><td style="background: #FFFFFF;border-bottom-style: none;border-left-style: none;border-right-style: none;border-top-style: none;padding-bottom: 0;padding-left: 0;padding-right: 0;padding-top: 0;vertical-align: middle;width: 15.9%;"> </td><td style="background: #FFFFFF;border-bottom-style: none;border-left-style: none;border-right-style: none;border-top-style: none;padding-bottom: 0;padding-left: 0;padding-right: 0;padding-top: 0;vertical-align: middle;width: 2.2%;"> </td></tr><tr style="height: 0.17in;"><td style="background: #FFFFFF;border-bottom-style: none;border-left-style: none;border-right-style: none;border-top-style: none;padding-bottom: 0;padding-left: 0;padding-right: 0;padding-top: 0;vertical-align: middle;width: 57.3%;"> </td><td style="background: #FFFFFF;border-bottom-style: none;border-left-style: none;border-right-style: none;border-top-style: none;padding-bottom: 0;padding-left: 0;padding-right: 0;padding-top: 0;vertical-align: middle;width: 2.2%;"> </td><td style="background: #FFFFFF;border-bottom-style: none;border-left-style:

consolidated statements of operations. The value of our pension plan assets increased $50 million from $2,268 million at December 31, 2023 to $2,318 million at June 30, 2024. This increase primarily resulted from changes in the market value of investments of $80 million, net of plan expenses, and contributions of $77 million, offset by benefit payments to participants of $106<span style="white-space:pre-wrap; font-family:

As a result of special termination benefit enhancements related to a voluntary separation plan, Frontier remeasured its pension plan obligations, resulting in a remeasurement loss of $72 million for the three months ended June 30, 2024, and a remeasurement gain of $2 million for the six months ended June 30, 2024. The pension plan contains provisions that provide certain employees with the option of receiving a lump sum payment upon retirement. Frontier's accounting policy is to record these payments as a settlement only if, in the aggregate, they exceed the sum of the annual service and interest costs for the Pension Plan's net periodic pension benefit cost. In the first half of 2024, the Company recognized a charge of $10 million to reflect the cost of pension special termination benefit enhancements related to a voluntary separation plan.

Commitments and Contingencies: We are party to various legal proceedings (including individual actions, class and putative class actions, and governmental investigations) arising in the normal course of our business covering a wide range of matters and types of claims including, but not limited to, general contract disputes, billing disputes, rights of access, taxes and surcharges, consumer protection, advertising, sales and the provision of services, intellectual property, including, trademark, copyright, and patent infringement, employment, regulatory, environmental, tort, claims of competitors and disputes with other carriers. Litigation is subject to uncertainty and the outcome of individual matters is not predictable. However, we believe that the ultimate resolution of all such matters, after considering insurance coverage or other indemnities to which we are entitled, will not have a material adverse effect on our financial position, results of operations, or cash flows. Frontier has been named as a defendant in various intellectual property disputes. In each case, we have denied the allegations and are mounting a vigorous defense. We have accrued an amount for potential damages that we deem probable and reasonably estimable. We do not expect that any potential damages, if ultimately incurred, will be material. During the second quarter of 2024, Frontier reached a settlement with a net financial impact of $25 million resolving a dispute with the Chief Executive Officer of Frontier's predecessor company, who left his position with the company in 2004, concerning split-dollar life insurance benefits granted during his employment. In November 2021, Congress passed the IIJA which provides $65 billion to fund broadband connectivity programs, including broadband deployment to unserved and underserved locations. The National Telecommunications and Information Administration (NTIA) is administering the principal last mile infrastructure funding program in the amount of $42.5 billion, the Broadband Equity, Access & Deployment Program (BEAD), and will distribute funding through direct grants to states, who will then award the funds based on competitive grant programs. The NTIA has allocated approximately $25.5 billion to states in Frontier's footprint. We are closely tracking implementation of the BEAD program, including participating in state address challenge and pre-application processes. We are actively pursuing awards of these stimulus funds; however, we continue to evaluate

our opportunities as the process is complex and any awards that we ultimately receive under the IIJA may require significant up-front capital expenditures or other costs.   On April 14, 2024, we detected that a third party had gained unauthorized access to portions of our information technology environment. Upon detection, the Company immediately activated its incident response plan, took action to contain the incident, launched an investigation with the assistance of leading cybersecurity experts, and notified law enforcement and applicable regulatory authorities. We worked with a leading e-discovery firm to undertake a thorough review of the impacted data to identify and provide notice to individuals whose information was impacted. Since the incident, the Company has also taken steps to further strengthen its information technology security. In October 2013, the California Attorney General's Office notified certain Verizon companies, including one of the subsidiaries that we acquired in the CTF transaction, of potential violations of California state hazardous waste statutes primarily arising from the disposal of electronic components, batteries, and aerosol cans at certain California facilities. We are cooperating with this investigation. We have accrued an amount for potential penalties that we deem to be probable and reasonably estimable, and we do not expect that any potential penalties, if ultimately incurred, will be material. We accrue an expense for pending litigation when we determine that an unfavorable outcome is probable, and the amount of the loss can be reasonably estimated. Legal defense costs are expensed as incurred. None of our existing accruals for pending matters, after considering insurance coverage, is material. We monitor our pending litigation for the purpose of adjusting our accruals and revising our disclosures accordingly, when required. Litigation is, however, subject to uncertainty, and the outcome of any particular matter is not predictable. We will vigorously defend our interests in pending litigation, and as of this date, we believe that the ultimate resolution of all such matters, after considering insurance coverage or other indemnities to which we are entitled, will not have a material adverse effect on our consolidated financial position, results of operations, or our cash flows.   In 2015, Frontier accepted the FCC's CAF Phase II offer, which provided $313 million in annual support through 2021 in our current 25 states in return for the Company's commitment to make broadband available to households within the CAF II eligible areas. The Company was required to complete the CAF II deployment by December 31, 2021. Thereafter, USAC and the FCC has been reviewing carriers' CAF II program completion data, and if USAC or the FCC determines that the Company did not satisfy applicable FCC CAF Phase II requirements, Frontier could be required to return a portion of the funds previously received and may be subject to certain fines, requirements and obligations. On January 30, 2020, the FCC adopted an order establishing the RDOF competitive reverse auction to provide support to serve high-cost areas. Under the FCCs RDOF Phase I auction, we were awarded approximately $371 million over ten years to build gigabit-capable broadband over a fiber-to-the-premises network to approximately 127,000 locations in eight states (California, Connecticut, Florida, Illinois, New York, Pennsylvania, Texas, and West Virginia). We began receiving RDOF funding in the second quarter of 2022 and we will be required to complete the buildout to the awarded locations by December 31, 2028, with interim target milestones over this period. To the extent Frontier is unable to meet the milestones or construct to all locations by the required deadlines, Frontier could be required to return a portion of funds previously received and may be subject to certain fines, requirements and obligations. Fines and penalties could also be assessed to the extent Frontier were ever to decide to surrender RDOF locations previously awarded.   The FCC previously classified consumer broadband internet services as information services, subject to light-touch regulation. On April 25, 2024, the FCC approved an order that would reclassify certain retail broadband internet access services as lightly regulated telecommunications services, thereby imposing certain network neutrality requirements on the reclassified internet services. Although the FCC order has been appealed to the courts, the majority of these rules were scheduled to take effect on July 22, 2022. On July 12, 2024, the U.S. Court of Appeals for the Sixth Circuit temporarily stayed the effective date of these rules until August 5, 2024 so it can consider the merits of a pending motion for stay. Unless overturned by the court, these rules could increase our regulatory and compliance obligations and associated costs. On July 24, 2024, the U.S. of Appeals for the Fifth Circuit held that certain delegations of authority in the USF contribution system are unconstitutional. The court remanded the case to the FCC. The precise impact of the case is unclear at this time, including the extent to which the decision applies to parties other than the petitioner. In addition, the FCC may seek further review of the order prior to the court's mandate being issued. We cannot predict how this or future court decisions will impact the company's ability to receive federal universal service funds in the future. 30 dollars per month (or $75 dollars per month for those on Tribal lands) to assist with their internet bill. Funding for the ACP program was exhausted in May, 2024 and Frontier ceased participation at the end of the last full month of support - April, 2024.   We conduct certain of our operations in leased premises and lease certain equipment and other assets pursuant to operating leases. The lease arrangements have terms ranging from 1 to 99 years and several contain rent escalation clauses providing for increases in monthly rent at specific intervals. When rent escalation clauses exist, we record annual rental expense based on the total expected rent payments on a straight-line basis over the lease term. Certain leases also have renewal options. Renewal options that are reasonably assured are included in determining the lease term. As of June 30, 2024, we had total "Accounts payable and accrued liabilities" of $963 million, of which $738 million is related to accounts payable. As of December 31, 2023, we had total "Accounts payable and accrued liabilities" of $1.1 billion, of which $857 million is related to accounts payable. <span style="white-space:pre-wrap; color: #000000;font-size:

*10pt;font-style: normal;font-weight: normal;margin: 0;padding: 0;"> Although from time to time we make short-term purchasing commitments to vendors with respect to capital expenditures, we generally do not enter into firm, written contracts for such activities. In connection with the fiber expansion build, we have prioritized diversifying our vendor base and solidifying partnership agreements with vendors for relevant labor and materials, to enable our build growth and customer expansion. Some of these key supplier agreements have multi-year terms and purchase commitments as we deem advisable in order to strengthen future supply. In addition, we have negotiated favorable payment terms with some of our vendors that allow for a longer payment period than our normal customary terms (referred to as vendor financing), which are excluded from capital expenditures and reported as financing activities on the statement of cash flows. As of June 30, 2024, we had $1 million of vendor financing liabilities included in "Other current liabilities" on our consolidated balance sheets. For the six months ended June 30, 2024 we made $415 million in vendor financing payments related to capital expenditures. We are party to contracts with several unrelated long-distance carriers. The contracts provide fees based on traffic they carry for us subject to minimum monthly fees. *
