a basis consistent in all material respects with the accounting policies for the fiscal year ending December 31, 2023. In our opinion, all regular and recurring adjustments necessary for a fair presentation of our financial position and results of operation have been included. Operating results for interim periods are not necessarily indicative of the results that may be expected for a full fiscal year. Â The accompanying Condensed Consolidated Balance Sheet as of June 30, 2024, does not include all the disclosures required by GAAP. These interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements as of December 31, 2023, and the related notes included in our Form 10-K for the fiscal year ending December 31, 2023. Â Use of Estimates Â The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates, and the differences could be material. Â The Company Â BT Brands, Inc. (the â€œCompanyâ€) was incorporated as Hartmax of NY Inc. on January 19, 2016. Effective July 30, 2018, the Company acquired 100% of BTND, LLC. Â As of June 30, 2024, including our approximately 40% owned Bagger Daveâ€™s business, we operated eighteen restaurants comprising the following: Â Â Â· Eight Burger Time fast-food restaurants located in the North Central region of the United States, collectively (â€œBTNDâ€), including our former Dairy Queen franchise located in Ham Lake, Minnesota, which commenced operations as a Burger Time effective July 1, 2024; Â Â· Bagger Daveâ€™s Burger Tavern, Inc., an approximately 40% owned affiliate, operates six Bagger Daveâ€™s restaurants in Michigan, Ohio, and Indiana (â€œBagger Daveâ€™sâ€ or â€œBDâ€); Â Â· Keeganâ€™s Seafood Grille in Indian Rocks Beach, Florida (â€œKeeganâ€™sâ€); Â Â· Pie In The Sky Coffee and Bakery in Woods Hole, Massachusetts (â€œPIEâ€); Â Â· Schnitzel Haus in Hobe Sound, Florida (â€œSchnitzelâ€); Â Â· Village Bier Garten is a German-themed restaurant, bar, and entertainment venue in Cocoa, Florida (â€œVBGâ€).Â Â See Note 8 for information regarding our related party investment in NGI. Â Business Â In addition to eight Burger Time restaurants, collectively ("BTND"), we own and operate Keegan's Seafood Grille ("Keegan's"), a dine-in restaurant located in Florida, Pie In The Sky Coffee and Bakery ("PIE"), a casual dining coffee shop bakery located in Woods Hole, Massachusetts, Schnitzel Haus (â€œSchnitzelâ€), a German-themed restaurant in Hobe Sound, Florida and the Village Bier Garten (â€œVBGâ€), a German-themed restaurant in Cocoa, Florida. Our Burger Time restaurants feature a variety of burgers and other affordable foods, sides, and soft drinks. Keegan's has operated in Indian Rocks Beach, Florida, for more than thirty-five years, offering a variety of traditional fresh seafood items for lunch and dinner. The menu at Keegan's includes beer and wine. PIE features an array of fresh baked goods, freshly made sandwiches, and our locally roasted coffee. Schnitzel is a full-service restaurant and bar featuring a German-themed menu with specialty imported European beers. Our revenues are derived from food and beverages at our restaurants, retail goods such as apparel, private-labeled "Keegan's Hot Sauce," and other souvenir items, which account for an insignificant portion of our income. Â Â Page 9 of 27 Table of Contents Â On June 2, 2022, BT Brands purchased 11,095,085 common shares of Bagger Daveâ€™s Burger Tavern, Inc. â€œBaggerâ€). At the time of the purchase, our ownership represented 41.2% ownership of Bagger and currently represents approximately 40% ownership. We acquired the shares from the founder of Bagger Daveâ€™s for $1,390,000, or approximately $.114 per share. Following the investment, two representatives of BT Brands were appointed to comprise the Board of Directors of Bagger. The Bagger concept offers burgers, hand-cut fries, locally crafted beers on draft, milkshakes, salads, chili, and pizza. The first Bagger Dave's opened in January 2008 in Berkley, Michigan. There are six Bagger Dave's restaurants, including four in Michigan and single units in Ft. Wayne, Indiana, and Centerville, Ohio. Fiscal 2023 was the 52 weeks ending December 31, 2023, and Fiscal 2024 is comprised of the 52 weeks ending December 29, 2024. Â Cash and Cash Equivalents Â Cash and cash equivalents may include money market mutual funds and United States Treasury Bills with original maturities at the time of purchase of three months or less. Our bank deposits often exceed the amount insured by the Federal Deposit Insurance Corporation. In addition, we maintain cash deposits in brokerage accounts, including money market funds above the insured amount. We do not believe there is a significant risk related to cash. Â Investments Â As of June 30, 2024, noncurrent investments include our net equity method investment of $544,023 in Bagger Daveâ€™s, our $304,000 investment in NGI Corporation (NGI), and a $25,000 short-term demand loan to NGI made on June 27, 2024. As of June 30, 2024, NGI is engaged in private funding raising, and the $25,000 loan is expected to be repaid upon closing the current round of funding with interest to be determined. In 2020, the Company received equity ownership in NGI as consideration for a loan to NGI. At the time of the loan, we attributed $75,000 to the value of equity received. On February 12, 2022, we invested $229,000 in Series A1 8% Cumulative Convertible Preferred Stock of NGI, including a five-year warrant to purchase 34,697 common shares of NGI at $1.65 per share. In August 2023, our preferred stock in NGI was converted into 157,496 common shares of NGI. Our current ownership of NGI represents less than 2% of its outstanding shares. Â Bagger Daveâ€™s common stock is traded on the OTC Pink Sheets market and files quarterly and annual financial reports with OTCMarkets, Inc. under the Alternative Reporting Standard. The listing with OTC Markets does not require the financial information to be audited.Â For the thirteen weeks ending June 30, 2024, Bagger Daveâ€™s had sales of $1,854,000 and a net loss of $211,000. For the second-quarter thirteen-week period, our approximately 40% equity share in the loss was approximately $81,000, which is included in the accompanying consolidated statements of operations. For the 26 weeks ended June 30, 2024, sales totaled $3,746,732, with a net loss of $438,750 and our share of the loss was $175,500. Â See Note 8 for information regarding our related party investment in NGI.Â Â Fair Value of Financial Instruments Â Our accounting for fair value measurements of assets and liabilities, including available-for-sale securities, is that they are recognized or disclosed at fair value in the statements on a recurring or nonrecurring basis, adhere to the Financial Accounting Standards Board (FASB) fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value. Â The hierarchy prioritizes unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). Â The three levels of the fair value hierarchy are as follows: Â Â Â· Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that we can access at the measurement date. Â Â· Level 2 inputs are inputs other than quoted prices included in Level 1 inputs that are observable for the asset or liability, either directly or indirectly, for substantially the entire term of the asset or liability. Â Â· Level 3 inputs are unobservable inputs for the asset or liability. Â Â Page 10 of 27 Table of Contents Â The carrying values of cash equivalents, receivables, accounts payable, and other financial working capital items approximate fair value due to the short maturity nature of these instruments. The following is a summary of the fair value of Level 1 investments.Â Â Â Â June 30, 2024 Â Â December 31, 2023 Â Â Â Fair value Carrying Amount Â Â Level 1 Â Â Fair value Carrying Amount Â Â Level 1 Â Corporate bond fund Â $ 176,250 Â Â $ 176,250 Â Â $ 178,500 Â Â $ 178,500 Â Common stocks Â Â 1,319,389 Â Â Â 1,319,389 Â Â Â 1,213,560 Â Â Â 1,213,560 Â Total Â $ 1,495,639 Â Â $ 1,495,639 Â Â $ 1,392,060 Â Â $ 1,392,060 Â Â Total cost ofÂ marketable securitiesÂ at June 30, 2024 and December 31, 2023Â was $1,180,708 and $1,477,178, respectively. Â Receivables Â Receivables consist of estimated rebates due from a primary vendor. Â Inventory Â Inventory consists of food, beverages, and supplies and is stated at a lower of cost (first-in, first-out method) or net realizable value. Â Property and Equipment Â Property and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives, ranging from three to thirty years. Â We review long-lived assets to determine if the carrying value of these assets is recoverable based on estimated cash flows. Assets are evaluated at the lowest level, for which cash flows can be identified at the restaurant level. In determining future cash flows, we estimate the future operating results of each restaurant. If such assets are considered impaired, the impairment to be recognized is measured by the amount by which the assets' carrying value exceeds the assets' fair value. Â Goodwill and other Intangible Assets and Other Assets Â Goodwill is not amortized and is assessed for impairment at least annually. The cost of other intangible assets is amortized over their expected useful lives. Â Asset Held for Sale Â We closed a Burger Time store in Richmond, Indiana, in 2018. The Richmond location is currently offered for sale. We believe the Richmond property will be sold at or above its current carrying value. In the first quarter of 2023, our former West St. Paul Burger Time location was sold, resulting in a gain of $313,688 during the 2023 period. Â Income Taxes Â The Company follows Accounting Standards Codification (ASC.), 740, Accounting for Income Taxes. ASC 740 using the asset and liability approach in accounting for income taxes. Deferred tax asset and liability account balances are determined based on differences between the financial reporting and tax bases of assets and liabilities. They are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. If necessary, we provide a valuation allowance to reduce deferred tax assets to their estimated realizable value. The deferred tax assets are reviewed periodically for recoverability, and valuation allowances are adjusted as necessary. Â As of June 30, 2024, we estimated our annual tax provision using a net combined federal and state rate for the year of approximately 27.5%. Â The Company has no accrued interest or penalties related to income tax obligations. No federal or state examinations are in progress, and the company has not had any examinations since its inception. Â Â Page 11 of 27 Table of Contents Â Per Common Share Amounts Â Net income per common share is computed by dividing net income or loss by the weighted average number of shares of common stock outstanding during the period. Diluted net income or loss per share is calculated by dividing net income by the weighted average number of shares of common stock and potentially outstanding shares of common stock during each period. Common stock equivalents are excluded from the computation of diluted per-share amounts if their effect is anti-dilutive. There were no dilutive shares for the periods ending in 2024 and 2023. Â TheÂ Company's Board of DirectorsÂ has authorized a stock repurchase program of up to 625,000 shares. Based on current estimates, we project that approximately $136,000 in stock-based compensation expense for current stock options will be recognized over the next five years: $62,000 in 2024, $60,000 in 2025, $10,000 in 2026, $3,000 in 2027 and $1,000 in 2028. Â Â· Exercise price â€“ The stated exercise price of the stock option. Â Â· Expected life â€“ The simplified method Â Â· Expected dividend â€“ The rate of dividends expected to be paid over the term of the stock option. Â Â· Volatility â€“ Estimated volatility. Variable lease expenses primarily are property taxes and insurance. Â The Keeganâ€™s lease is for approximately 2,800 square feet of restaurant space. The 131-month Keeganâ€™s lease provides for an initial rent of $5,000 per month with an annual escalation equal to the greater of 3% or the Consumer Price Index. The lease is being accounted for as an operating lease. At the inception of the lease, we recorded an operating lease obligation and a right-of-use asset of $624,000. The present value of future lease payments discounted at 3.75% of the remaining lease obligation of $527,001 is reflected as a liability in the accompanying financial statements. The VBG lease is accounted for as an operating lease. At its inception, we recorded an operating lease obligation and a right-of-use asset of $469,949. The present value, discounted at 4.5% of the remaining lease obligation of $309,271, is reflected as a liability in the accompanying financial statements. Â Concurrent with the May 2024 acquisition of assets and our commencing operations, we assumed the remaining 44 months on the restaurantâ€™s lease obligation for approximately $5,400 per month. The Schnitzel Hause lease is accounted for as an operating lease. At its inception, we recorded an operating lease obligation and a right-of-use asset of $182,878. In June 2024, BT Brands, Inc. advanced $25,000 to NGI on a demand note. Â Â Page 15 of 27 Table of Contents Â NOTE 9 â€“ ACQUISITION Â On May 13, 2024, our 1519BT, LLC subsidiary completed the purchase of certain assets from LC Food Concepts. The acquired assets comprised a business operating as a high-end German-themed restaurant with approximately 175 seats located in Hobe Sound, Florida, doing business as â€œSchnitzel Haus. The aggregate purchase price was $943,000, including $850,000 paid at closing as payment for certain assets, separate payments of $65,000 for inventory on hand at closing, and $23,000 for the purchase of a utility vehicle used in the business. Concurrent with acquiring the assets, we assumed the sellerâ€™s remaining lease obligation of $5,400 monthly for 44 months. Aside from the lease obligation, no liabilities of the seller were assumed in the purchase of assets. A summary of the assets acquired is as follows: Â Property, including leasehold improvements and equipment Â $ 625,000 Â Intangible covenant not to compete Â Â 100,000 Â Inventory Â Â 65,000 Â Vehicle and other Â Â 28,000 Â Operating lease right-of-use asset Â Â 182,878 Â Total assets acquired Â Â 1,000,878 Â Operating lease liability Â Â (182,878) Net assets acquired Â Â 818,000 Â Goodwill Â Â 125,000 Â Net purchase price Â $ 943,000 Â Â NOTE 10 â€“ CONTINGENCIES Â In the course of its business, the Company may be a party to claims and legal or regulatory actions arising from the conduct of its business. Â Introduction Â As of June 30, 2024, including our partially owned Bagger Daveâ€™s business, we owned and operated eighteen restaurants comprising the following: Â Â Â· Eight Burger Time fast-food restaurants (â€œBTNDâ€); Â Â· Village Bier Garten is a German-themed restaurant, bar, and entertainment venue in Cocoa, Florida. (â€œVBGâ€): Â Â· Keeganâ€™s Seafood Grille in Indian Rocks Beach, Florida (â€œKeeganâ€™sâ€); Â Â· Pie In The Sky Coffee and Bakery in Woods Hole, Massachusetts (â€œPIEâ€). Â Â· Schnitzel Haus in Hobe Sound, Florida (â€œSchnitzelâ€). Â Â· Unconsolidated affiliate 40% owned Bagger Daveâ€™s Burger Tavern, Inc., operates six Bagger Daveâ€™s restaurants in Michigan, Ohio, and Indiana (â€œBDâ€). Â Our business environment is challenging, as competition is intense. We operate through a central management organization that provides continuity across our restaurant base by utilizing the efficiencies of a central management team. Â Â Page 17 of 27 Table of Contents Â Notable Recent Events Â Our recent acquisitions have allowed us to diversify our operations into new restaurant segments and new geographic regions, reducing our dependency on the financial performance of our Burger Time restaurants. During 2022, we acquired three operating restaurants and approximately a 40% ownershipÂ interest in Bagger Daveâ€™s, an operator of six casual restaurants. During the second quarter of 2024, we acquired assets and assumed the remaining lease obligation related to the Schnitzel Haus restaurant in Hobe Sound, Florida. We continue to consider new acquisition opportunities. Â Material Trends and Uncertainties Â Industry trends have a direct impact on our business. Current trends include difficulties attracting food service workers and rapid inflation in the cost of input items. Recent trends also include the rapidly changing area of technology and food delivery. The major companies in the restaurant industry have rapidly adopted and developed smartphone and mobile delivery applications, aggressively expanded drive-through operations, and developed loyalty programs and database marketing supported by a robust technology platform. We expect these trends to continue as restaurants aggressively compete for customers. Competitors will continue to discount prices through aggressive promotions. Â Food costs have increased over the last two years, and we expect to see moderation of inflationary pressure during the remainder of 2024. Beef and egg costs trended down slightly in 2023. Given the competitive nature of the restaurant industry, raising menu prices to fully cover cost increases may be challenging. As a result, future margin improvements may be difficult to achieve. Margin improvement will be achieved through operational enhancements, equipment advances, and increased volumes offsetting food cost increases. Â Labor is a critical factor in operating our stores. Securing staff to run our locations at full capacity has become more challenging in most areas where we operate our restaurants. The current labor market has resulted in higher wages as the competition for employees intensifies, not only in the restaurant industry but in practically all retail and service industries. To succeed, we must identify, develop, and retain quality employees. Â Â Page 18 of 27 Table of Contents Â Results of Operations for the Thirteen Weeks Ended June 30, 2024, and the Thirteen Weeks Ended July 2, 2023 Â The following table sets forth our Condensed Statements of Operations and percentages of total revenues for the thirteen-week fiscal periods. Â The increase in sales was principally the result of improved sales performance at Burger Time. The increase reflects strong sales performance at Pie in the Sky, which experienced a 16.5% sales increase over the prior yearâ€™s 13-week period. The increase also reflects sales increases at the majority of our Burger Time locations net of the impact of ourÂ Ham Lake, Minnesota location, which was closed for approximately four weeks during the period as the location was repurposed to a Burger Time store, which opened July 1, 2024. Sales also reflect the addition of the operations of Schnitzel Haus on May 13, 2024. Â Restaurant unit sales for Burger Time for the 13 weeks ranged from a low of approximately $161,000 to a high of approximately $348,000. The average sales for each Burger Time unit were approximately $276,000 in 2024, approximately $34,000 above the same period in 2023. The average customer transaction at our Burger Time restaurants increased by approximately 10% in 2024. The results reflect a significant menu price increase, particularly in our â€œDeal of the Dayâ€ offering. The average check is currently about $18.00. Â Our various restaurants all experience unique seasonal sales patterns. Â Costs of Sales - food and paper: Â The cost of salesâ€”food and paperâ€”for the fiscal 2024 period declined to 38.1% from 40.2% of restaurant sales in the second quarter of fiscal 2023. This percentage was the net result of moderating inflationary pressures, including the cost of key inputs from a year ago and the impact of menu price increases at all locations, particularly at Burger Time, where the menu price of the popular â€œDeal of the Dayâ€ was increased approximately 10%. Â Restaurant Operating Costs: Â Restaurant operating costs (which refer to all the costs associated with the operation of our restaurants but do not include general and administrative expenses and depreciation and amortization) as a percentage of restaurant sales increased to 89.4% of sales in the fiscal quarter of 2024 from 84.2% in the similar period of fiscal 2023. This increase was the result of increases in labor costs, additional occupancy costs, and stabilizing commodity costs and the matters discussed in the "Cost of Sales, - food and paper," "Labor Costs," and "Occupancy and Other Operating Costs" sections below. Â Â Page 19 of 27 Table of Contents Â Labor Costs Â For the second quarter of fiscal 2024, labor and benefits costs increased as a percentage of restaurant sales to 37.7% from 35.3% in fiscal 2023. The increase in the percentage cost resulted from the continued tightness of labor markets, higher-than-historical costs to train new employees and continued upward competitive pressure on hourly wage costs. These costs were offset by leveraging existing staffing and labor costs associated with the Schnitzel Haus acquisition. Payroll costs are semi-variable, meaning they do not increase proportionally to increases in revenue. Â Occupancy and Other Operating Expenses Â For the second fiscal quarter of 2024, occupancy and other expenses increased to 13.6% of sales from 8.7% in 2023, partly reflecting a spike in maintenance expense, inflationary increases in utility costs and the lease expense related to the Schnitzel Haus acquisition. The increase in 2024 from occupancy expense in 2023 also reflects the 2023 second-quarter reversal of previously accrued property taxes related to a property in the St. Louis, Missouri, area. The St. Louis property was deeded to the taxing authority as settlement of the amount due. Â Depreciation and Amortization Expense: Â For the second fiscal quarter of 2024, depreciation and amortization expenses were $171,351 (4.2% of sales), a decrease from $192,520 (4.8% of sales) in the prior year as more of the Companyâ€™s assets reached the fully depreciated amount. Â General and Administrative Costs Â General and administrative costs in the second fiscal quarter of 2024 were $454,805, a decline of $64,272 from $519,077 in the second quarter of 2023. Due to increased sales, general and administrative expenses decreased slightly as a percentage of sales to 11.1% of sales from 13.0% in the same period of the previous year. Â Income from Operations Â The loss from operations for the second quarter of fiscal 2024 was $188,543, compared to a loss of $79,548 in the prior yearÂ fiscal quarter. This reflects higher hourly and increases in manager wages in virtually all of the companyâ€™s businesses, as well as the items discussed in the "Net Sales" and "Restaurant Operating Costs" sections above.Â Â Restaurant-level EBITDAÂ Â To supplement the condensed consolidated financial statements, which are prepared and presented in accordance with GAAP. The Company uses restaurant-level EBITDA, which is not a measure defined by GAAP. This non-GAAP operating measure is useful to both management and, we believe, investors because it represents one means of gauging the overall profitability of our recurring and controllable core restaurant operations. This measure is not indicative of our overall results, nor does restaurant-level profit accrue directly to the benefit of stockholders, primarily due to the exclusion of corporate-level expenses. Restaurant-level EBITDA should not be considered a substitute or superior to operating income calculated under GAAP. The reconciliations to operating income set forth below should be carefully evaluated. Â Â Page 20 of 27 Table of Contents Â We define restaurant-level EBITDA as operating income before pre-opening costs, including general and administrative costs, depreciation and amortization, and impairment charges. General and administrative expenses are excluded as they are generally not specifically identifiable as restaurant-specific costs. Depreciation, amortization, and impairment charges are excluded because they are not ongoing controllable cash expenses and are not related to the health of ongoing operations. Â The increase in sales was principally the result of improved sales performance at Burger Time. The average customer transaction at our Burger Time restaurants increased by approximately 10% inÂ 2024, including a

significant percentage increase in our â€œDeal of the Dayâ€ offering. The average check is currently about $18.00. This recent increase is principally the result of menu price increases. Burger Time unit sales for the 26 weeks ranged from a low of approximately $286,000 to a high of approximately $616,000. Average sales for each Burger Time unit were approximately $471,000 in 2024, an increase from approximately $404,200 in the same 26-week period in 2023. Â Sales at PIE for the six months also continued to be strong, increasing 16% over the prior year, well above an estimated 8% menu price increase. Keeganâ€™s and the Village Bier Garten combined results were flat with 2023 first-half sales. Â Costs of Sales - food and paper: Â Cost of sales - food and paper for the first half of fiscal 2024 declined to 39.0% from 41.0% in the 2023 period due to menu price increases, particularly at Burger Time, where menu price increases contributed to improved margins. Â Restaurant Operating Costs: Â Restaurant operating costs, which are associated with operations, not including general and administrative expenses, and depreciation and amortization, increased as a percentage of restaurant sales to 94.2% in 2024 from 90.7% in fiscal 2023. This increase was due to the increase in sales activity from new locations and its impact, as further discussed in the "Cost of Sales," "Labor Costs," and "Occupancy and Other Operating Costs" sections below. Â Â Page 21 of 27 Table of Contents Â Labor Costs: Â For the first half of fiscal 2024, labor and benefits costs increased to 40.2% of restaurant sales from 37.0% in fiscal 2023. Shortages in staffing levels combined with higher hourly wage rates at all locations increased the overall labor percentage. Additional management labor at the Companyâ€™s PIE business. Overall hiring markets have continued to be challenging in terms of filling open positions. Payroll costs are semi-variable, with most locations requiring minimal staffing level, and generally, labor costs do not change directly with changes in revenue. Â Occupancy and Other Operating Expenses: Â For the first 26 weeks of fiscal 2024, occupancy and other expenses increased to 15.0% of sales from 12.8% in 2023, partly due to higher repair and maintenance costs. Â The increase in 2024 from occupancy expense in 2023 also reflects the 2023 second-quarter reversal of previously accrued property taxes related to a property in the St. Louis, Missouri, area. The St. Louis property was deeded to the taxing area as settlement of the amount due. Â Depreciation and Amortization Expense: Â Depreciation and amortization expenses in the first half of fiscal 2024 decreased to $331,893 (4.5% of sales) from $356,027 (5.0% of sales) in the first half of fiscal 2023 as a result of lower depredation expense. Â General and Administrative Costs: Â General and administrative costs decreased $35,572, or 3.8%, to $909,420 from $944,992 (13.4% of sales) in the first half of fiscal 2023. The year-over-year change was insignificant as many components are fixed costs. Â Loss from Operations: Â The operating loss was $819,372 in the first half of fiscal 2024, compared to a loss of $330,306 in the first half of fiscal 2023. The 2023 operating loss is net of a $313,688 gain on the sale of one of the Companyâ€™s properties. The change in loss from operations in the first half of fiscal 2024 compared to fiscal 2023 was due primarily to the increase in labor and occupancy costs, including the "Net Sales" and "Restaurant Operating Costs" sections above. Â Restaurant-level EBITDA: Â To supplement the consolidated financial statements, which are prepared and presented in accordance with GAAP, we use restaurant-level EBITDA (earnings before interest, taxes, depreciation, and amortization), which is not a measure defined by GAAP. This non-GAAP operating measure is useful to both management and investors because it represents one means of gauging the overall profitability of our recurring and controllable core restaurant operations. However, this measure is not indicative of our overall results, nor does restaurant-level profit accrue directly to the benefit of stockholders, primarily due to the exclusion of corporate-level expenses. Accordingly, restaurant-level EBITDA should not be considered a substitute for or superior to operating income, which is calculated in accordance with GAAP, and the reconciliations to operating income set forth below should be carefully evaluated. Â Â Page 22 of 27 Table of Contents Â We define restaurant-level EBITDA as operating income before pre-opening costs, if any, general and administrative costs, depreciation and amortization and gains on sales of assets. General and administrative expenses are excluded because they are generally unrelated to restaurant-specific costs, and depreciation and amortization are excluded because they are not ongoing controllable cash expenses and are unrelated to ongoing operationsâ€™ health. Our operations do not require significant working capital, and, like many restaurant companies, we generally operate with negative working capital. We anticipate that working capital deficits may be incurred in the future and possibly increase. Our primary liquidity and cash flow sources are operating cash flows and cash on hand. We use this to service debt, maintain our stores to operate efficiently and increase our working capital. Our working capital position benefits from the fact that we collect cash from sales from our customers at the point of purchase or within a few days from our credit card processor; generally, payments to our vendors are not due for thirty days. Â Summary of Cash Flows Â Cash Flows Provided by Operating Activities Â Operating cash flow for the 26 weeks ending June 30, 2024, was negative $326,369. This was impacted by ongoing seasonal trading patterns in our business, which experienced increased labor costs and repair and maintenance expenses. Â Cash Flows Used in Investing Activities Â Â Â Â Â Â Â Â Â Â Â Â Â We have continued to make improvements in our existing businesses and to seek acquisitions in the food service and related industries. Â Cash Flows Used in Financing Activities Â A significant portion of our cash flow used in financing activities is allocated to service our debt. Â Contractual Obligations Â As of June 30, 2024, we had $4.3 million in contractual obligations relating to amounts due under mortgages on the real property where our stores are situated, including $1.9 million in lease obligations related to our recent acquisitions. Our monthly required payments on lease and mortgage obligations are approximately $47,000. Â Â Page 23 of 27 Table of Contents Â ITEM 3.Â QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK. Â As a smaller reporting company, as defined by Rule 12b-2 of the Exchange Act and Item 10(f)(1) of Regulation S-K, we have elected to comply with certain scaled disclosure reporting obligations and are not required to provide the information required by this item. Â ITEM 4. CONTROLS AND PROCEDURES. Â Disclosure Controls and Procedures Â (1) Evaluation of Disclosure Controls and Procedures Â We maintain a set of disclosure controls and procedures designed to ensure that information required to be disclosed by us in the reports we filed under the Exchange Act is recorded, processed, summarized, and reported within the periods specified by the SEC's rules and forms. Disclosure controls are also designed to ensure that this information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. Â As of June 30, 2024, our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15(b) promulgated under the Exchange Act. Based upon that evaluation and the material weakness in our internal control over financial reporting as disclosed in the Company's Form 10-K for the fiscal year ended December 31, 2023 our Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2024,, our disclosure controls and procedures were not effective at a reasonable assurance level in ensuring that material information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the periods specified in the rules, regulations, and forms of the SEC, including ensuring that such material information is accumulated by and communicated to our management, including our Chief Executive Officer, Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Â (2) Changes in Internal Control over Financial Reporting Â In addition to the matters discussed previously, the Company identified a consultant as an extension of management to assist in the accounting for acquisitions. Except for the items described above, there were no other changes in the Companyâ€™s internal control over financial reporting during our most recently completed fiscal quarter, which ended June 30, 2024, that have materially affected or are reasonably likely to materially affect our internal control over financial reporting. Â Â Page 24 of 27 Table of Contents Â PART II - OTHER INFORMATION Â ITEM 1. LEGAL PROCEEDINGS Â There are no pending legal proceedings to which the Company is a party or as to which any of its property is subject, and no such proceedings are known to be threatened or contemplated against it. Â ITEM 1A. RISK FACTORS Â We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information required under this item. Â ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS Â Unregistered Sales of Equity Securities Â On February 9, 2022, the independent members of the Board of Directors and the Compensation Committee of the Board of Directors approved a grant of 250,000 shares of common stock to each of Gary Copperud and Kenneth Brimmer, the Company's chief executive officer and chief financial officer, respectively, if, so long as the Company's publicly traded warrants are outstanding, the Company's common stock trades at $8.50 per share for 20 consecutive trading days. The award of the shares is tied directly to the price at which the common stock purchase warrants issued in the Company's initial public offering completed in November 2021 are redeemable by the Company. The warrants initially are exercisable at $5.50 per share (subject to adjustment under certain circumstances). The Company expects that if and when the warrants become redeemable, holders will exercise their warrants, and the Company will receive additional capital to fund acquisitions and growth. On July 5, 2023, the Company granted a seven-year option to purchase 100,000 shares of its common stock at $2.50 per share to a consultant. These options granted to the consultant vest monthly over a 60-month period so long as the consulting relationship continues.
