Â Ness Ziona, Israel â€ February 14, 2025 - Foresight Autonomous Holdings Ltd. (Nasdaq and TASE: FRSX)  
(â€œForesightâ€ or the â€œCompanyâ€), an innovator in 3D perception systems, announced today the signing of a  
development service agreement with a leading Japanese manufacturer of road traffic, hazard management and  
monitoring solutions. The agreement was signed through the Companyâ€™s Japanese distributor, Cornes Technologies  
Limited, to establish a framework for future project collaborations and commercialization, aimed at enhancing the  
safety and efficiency of road traffic and hazard management, while driving cost-effectiveness in product development  
and production. Â The initial project will focus on implementing and optimizing Foresightâ€™s advanced 3D perception  
system to detect, in real time, vehicles merging onto highways from entrance ramps and service areas and determine  
the speed and direction of these detected vehicles. The next project will involve the development of advanced products  
equipped with dual stereoscopic camera systems. These systems will comprise a visible light camera set paired with a  
thermal long-wave infrared camera set, each independently mounted on service or patrol vehicles. Â The advanced  
sensor systems will monitor restricted road lanes, even in challenging conditions such as harsh weather and poor  
lighting. The systems will provide real-time notifications about potential hazards to on-site personnel, effectively  
creating a safe zone for road workers. This enhanced awareness aims to significantly improve workplace safety in high-  
risk road environments. Â According to the service agreement, the commercial terms for individual development  
projects will be determined according to specific technical requirements and scope of work for each product. The  
Company believes that this agreement will contribute to accelerating its revenue growth in the coming years. Â Â Â Â  
Â About Foresight Â Foresight Autonomous Holdings Ltd. (Nasdaq and TASE: FRSX) is a technology company  
developing smart multi-spectral vision software solutions and cellular-based applications. Through the Companyâ€™s  
wholly owned subsidiaries, Foresight Automotive Ltd., Foresight Changzhou Automotive Ltd. and Eye-Net Mobile Ltd.,  
Foresight develops both â€œin-line-of-sightâ€ vision systems and â€œbeyond-line-of-sightâ€ accident-prevention  
solutions. Â Foresightâ€™s vision solutions include modules of automatic calibration and dense three-dimensional (3D)  
point cloud that can be applied to different markets such as automotive, defense, autonomous vehicles and heavy  
industrial equipment. Eye-Net Mobileâ€™s cellular-based solution suite provides real-time pre-collision alerts to  
enhance road safety and situational awareness for all road users in the urban mobility environment by incorporating  
cutting-edge AI technology and advanced analytics. Â For more information about Foresight and its wholly owned
