annual and interim basis, significant expense categories for each reportable segment. Significant expense categories are derived from expenses that are 1) regularly reported to an entityâ€™s chief operating decision-maker ("CODM"), and 2) included in a segmentâ€™s reported measure of profit or loss. The disclosures should include an amount for "other segment items," reflecting the difference between 1) segment revenue less significant segment expenses, and 2) the reportable segmentâ€™s profit or loss measures. It requires that a public entity disclose the title and position of the CODM and how the CODM uses the reported measure of profit or loss to assess segment 9 BYLINE BANCORP, INC. AND SUBSIDIARIESNOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS(Table dollars in thousands, except share and per share data) (Unaudited)Â performance and to allocate resources. Further it clarifies that entities with a single reportable segment must disclose both new and existing segment reporting requirements. The amendments are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Entities must adopt the guidance on a retrospective basis. The Company is evaluating the internal control and disclosure requirements of this update and the impact of adopting the new guidance on the consolidated financial statements. Income Taxes â€“ Improvements to Income Tax Disclosures (Topic 740) â€“ In December 2023, the FASB issued ASU 2023-09 to provide additional transparency into an entityâ€™s income tax disclosures primarily related to the rate reconciliation and income taxes paid information. The standard requires that public business entities disclose, on an annual basis, specific categories in the rate reconciliation and additional information for reconciling items meeting a certain quantitative threshold. The amendments also require that entities disclose on an annual basis: 1) income taxes paid (net of refunds received) disaggregated by federal (national), state, and foreign taxes and 2) the income taxes paid (net of refunds received) disaggregated by individual jurisdictions exceeding 5% of total income taxes paid (net of refunds received). The amendments are effective for public business entities for annual periods beginning after December 15, 2024. The Company is evaluating the accounting and disclosure requirements of this update and the impact of adopting the new guidance on the consolidated financial statements. Note 3â€”Acquisition of a BusinessOn July 1, 2023, the Company acquired all of the outstanding common stock of Inland Bancorp, Inc. ("Inland") and its subsidiaries pursuant to an Agreement and Plan of Merger, dated as of November 30, 2022 (the "Merger Agreement"). Inland was merged with and into Byline. As a result of the merger, Inlandâ€™s wholly owned subsidiary bank, Inland Bank and Trust, was merged with and into Byline Bank, with Byline Bank as the surviving bank. The acquisition improves the Companyâ€™s footprint in the Chicagoland market, diversifies its commercial banking business, and strengthens the core deposit base. In a related but separate transaction, on March 31, 2023, Byline entered into a side letter agreement with the majority shareholder of Inland in which Byline agreed to purchase 2,408,992 shares of Inland common stock. The purchase price was calculated based on the terms of the Merger Agreement. The transaction was completed on June 30, 2023, which resulted in the payment of cash in the amount of $9.9 million.At the effective time of the merger (the "Effective Time"), each share of Inlandâ€™s common stock was converted into the right to receive: (1) 0.19 shares of Bylineâ€™s common stock, par value $0.01 per share, and (2) a cash payment in the amount of $0.68 per share, with cash paid in lieu of any fractional shares. The per share cash consideration was based on the total $21.2 million divided by the outstanding shares of Inland common stock. Based on the closing price of shares of the Companyâ€™s common stock of $18.09, as reported by the New York Stock Exchange, and 5,932,323 shares of common stock issued with respect to the outstanding shares of Inland common stock, the stock consideration was valued at $107.3 million. Options to acquire 288,200 shares of Inland common stock that were outstanding at the Effective Time were canceled, at the option holders' election, in exchange for a cash payment in accordance with the Merger Agreement of $424,000, to be paid after the closing date. In addition, the 2,408,992 shares of Inland common stock purchased on June 30, 2023 were canceled as of the effective time of the transaction. The value of the total merger consideration at closing was $138.9 million. Stock issuance costs were $299,000. The transaction resulted in goodwill of $33.4 million, which is nondeductible for tax purposes, as this acquisition was a nontaxable transaction. Goodwill represents the premium paid over the fair value of the net tangible and intangible assets acquired and reflects related synergies expected from the combined operations. Merger-related expenses, including acquisition advisory expenses of $653,000, core system conversion expenses of $640,000, salaries and employee benefits of $17,000, and other non-interest expenses of $81,000 related to the Inland acquisition are reflected in non-interest expense on the Consolidated Statements of Operations for the three months ended June 30, 2023. Merger-related expenses for the six months ended June 30, 2023, including acquisition advisory expenses of $909,000, core system conversion expenses of $839,000, salaries and employee benefits of $36,000, and other non-interest expenses of $96,000 related to the Inland acquisition are reflected in non-interest expense on the Consolidated Statements of Operations for the six months ended June 30, 2023.There were no merger related expenses in the three and six months ended June 30, 2024.The acquisition of Inland was accounted for using the acquisition method of accounting in accordance with ASC Topic 805. Assets acquired, liabilities assumed, and consideration exchanged were recorded at their respective acquisition date fair values. Determining the fair value of assets and liabilities involves significant judgment regarding methods and assumptions 10 BYLINE BANCORP, INC. The Company evaluated the securities which had unrealized losses for potential credit losses and determined there were none. There were 338 securities available-for-sale with unrealized losses at June 30, 2024. There was one security held-to-maturity with unrealized losses at June 30, 2024. There was no allowance for credit losses for held-to-maturity debt securities at June 30, 2024 or December 31, 2023. The evaluation for potential credit losses is based upon factors such as the creditworthiness of the issuers/guarantors, the underlying collateral, if applicable, and the continuing payment performance of the securities.Management measures expected credit losses on held-to-maturity debt securities on a collective basis by major security types. The Companyâ€™s held-to-maturity portfolio contains municipal bonds that are typically rated by major rating agencies as â€˜Aaâ€™ or better. The Company uses industry historical credit loss information adjusted for current conditions to establish an allowance for credit losses. Accrued interest receivable on securities available-for-sale and held-to-maturity totaled $4.9 million and $4.5 million at June 30, 2024 and December 31, 2023, respectively, and are excluded from the estimate of credit losses. Risk ratings for all loans of $1.0 million or more are reviewed annually. The risk rating categories are described by the following groupings:Passâ€”1â€‘4, risk levels of borrowers and guarantors that offer a minimal to an acceptable level of risk.Watchâ€”5, credit exposure that presents higher than average risk and warrants greater than routine attention.Special Mentionâ€”6, potential weaknesses that if left uncorrected may result in deterioration of the repayment prospects. Substandard Accrualâ€”7, weaknesses in cash flow and collateral coverage resulting in a distinct possibility of losses if not corrected. Used in limited cases, where the borrower is current on payments and an agreed plan for credit remediation.Substandard Nonâ€‘Accrualâ€”8, wellâ€‘defined weakness or weaknesses in cash flow and collateral coverage resulting in the distinct possibility of losses if not corrected.Doubtfulâ€”9, weaknesses inherent in substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable.Lossâ€”10, is considered uncollectible and of such little value that its continuance as a realizable asset is not warranted.Revolving loans that are converted to term loans are treated as new originations and are presented by year of origination. Generally, existing term loans that are re-underwritten are reflected in the table in the year of renewal.The following tables summarize the risk rating categories of the loans and leases considered for inclusion in the allowance for credit losses - loans and leases calculation, as of June 30, 2024 and December 31, 2023: 17 BYLINE BANCORP, INC. Advances from the FHLB are collateralized by residential real estate loans, commercial real estate loans, and securities. The Bankâ€™s maximum borrowing capacity is limited to 35% of total assets. If the Company fails to provide timely notification, the interest rate will be Prime Rate minus 75 basis points. On May 24, 2024, we entered into the First Amendment to the Second Amended and restated Term Loan and Revolving Credit Agreement (the "Amendment") with the lender, which is effective May 26, 2024, and provides for: (1) the renewal of the revolving line-of-credit facility of up to $15.0 million, and (2) extending its maturity date to May 25, 2025, subject to the existing Negative Pledge Agreement dated October 11, 2018, as amended. The subordinated notes bear a fixed interest rate of 6.00% until July 1, 2025 and a floating interest rate equal to a benchmark rate, which is expected to be the three-month SOFR, plus 588 basis points thereafter until maturity. The transaction resulted in debt issuance costs of approximately $1.7 million that is being amortized over 10 years. As of June 30, 2024, the net liability outstanding of the subordinated notes was $74.0 million. The Company may, at its option, redeem the notes, in whole or in part, on a semi-annual basis beginning on July 1, 2025, subject to obtaining the prior approval of the Federal Reserve to the extent such approval is then required. Beginning on September 14, 2023, the interest rate reset to the three-month SOFR plus a tenor spread adjustment of 0.26161% plus 2.79% (8.39% and 8.43% at June 30, 2024 and December 31, 2023, respectively). Interest is paid on a quarterly basis. The Company has the right to redeem the debentures, in whole or in part, on any interest payment date on or after March 2009. As part of the First Evanston acquisition, the Company assumed the obligations to First Evanston Bancorp Trust I of $10.0 million in principal amount, which was formed for the issuance of trust preferred securities. Beginning on September 15, 2023, the interest rate reset to the three-month SOFR plus a tenor spread adjustment of 0.26161% plus 1.78% (7.38% and 7.43% at June 30, 2024 and December 31, 2023, respectively), which is in effect until the debentures mature in 2035. Interest is paid on a quarterly basis. The Company has the right to redeem the debentures, in whole or in part, on any interest payment date on or after March 2010. The Company has the option to defer interest payments on the debentures from time to time for a period not to exceed five consecutive years. As part of the Inland acquisition, the Company assumed the obligations to several trust preferred securities. Refer to Note 3â€”Acquisition of a Business for further details. Interest rates are calculated as the three-month SOFR plus a tenor spread adjustment of 0.26161% plus negotiated additional basis points. Refer to table above for contractual rates and interest rate spread calculation. Interest is paid on a quarterly basis.The Trusts are not consolidated with the Company. Accordingly, the Company reports the subordinated debentures held by the Trusts as liabilities. The Company owns all of the common securities of each trust. The junior subordinated debentures qualify, and are treated as, Tier 1 regulatory capital of the Company subject to regulatory limitations. The trust preferred securities issued by each trust rank equally with the common securities in right of payment, except that if an event of default under the indenture governing the notes has occurred and is continuing, the preferred securities will rank senior to the common securities in right of payment. 31 BYLINE BANCORP, INC. AND SUBSIDIARIESNOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS(Table dollars in thousands, except share and per share data) (Unaudited)Â Note 14â€”Commitments and Contingent LiabilitiesLegal contingenciesâ€”In the ordinary course of business, the Company and Bank have various outstanding commitments and contingent liabilities that are not recognized in the accompanying consolidated financial statements. In addition, the Company may be a defendant in certain claims and legal actions arising in the ordinary course of business. In the opinion of management, after consultation with legal counsel, the ultimate disposition of these matters is currently not expected to have a material adverse effect on the Companyâ€™s Consolidated Financial Statements.Operating lease commitmentsâ€”Refer to Note 8â€”Leases for discussion of operating lease commitments.Commitments to extend creditâ€”The Company is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the Condensed Consolidated Statements of Financial Condition. The contractual or notional amounts of those instruments reflect the extent of involvement the Company has in particular classes of financial instruments.The Companyâ€™s exposure to credit loss in the event of non-performance by the other party to the financial instrument for commitments to extend credit and letters of credit is represented by the contractual or notional amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for funded instruments. The Company does not anticipate any material losses as a result of the commitments and letters of credit.The following table summarizes the contract or notional amount of outstanding loan and lease commitments at June 30, 2024 and December 31, 2023: Â Â June 30, 2024 Â Â December 31, 2023 Â Â Â Fixed Rate Â Â Variable Rate Â Â Total Â Â Fixed Rate Â Â Variable Rate Â Â Total Â Commitments to extend credit Â $ 235,648 Â Â $ 2,011,724 Â Â $ 2,247,372 Â Â $ 269,325 Â Â $ 2,013,819 Â Â $ 2,283,144 Â Letters of credit Â Â 630 Â Â Â 65,467 Â Â Â 66,097 Â Â Â 612 Â Â Â 67,443 Â Â Â 68,055 Â Total Â $ 236,278 Â Â $ 2,077,191 Â Â $ 2,313,469 Â Â $ 269,937 Â Â $ 2,081,262 Â Â $ 2,351,199 Â Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. The Company evaluates each customerâ€™s creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on managementâ€™s credit evaluation of the counterparty. Collateral is primarily obtained in the form of commercial and residential real estate (including income producing commercial properties).Letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support public and private borrowing arrangements, bond financing and similar transactions. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers.Commitments to make loans are generally made for periods of 90 days or less. The fixed rate loan commitments have interest rates ranging from 1.00% to 15.00% and maturities up to 2052. Variable rate loan commitments have interest rates ranging from 4.00% to 18.50% and maturities up to 2053. Note 15â€”Fair Value MeasurementFair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. In addition, the Company has the ability to obtain fair values for markets that are not accessible. These types of inputs create the following fair value hierarchy:Level 1â€”Quoted prices in active markets for identical assets or liabilities.Level 2â€”Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant value drivers are observable.32 BYLINE BANCORP, INC. AND SUBSIDIARIESNOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS(Table dollars in thousands, except share and per share data) (Unaudited)Â Level 3â€”Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the asset or liability. Unobservable inputs are used to measure fair value to the extent that observable inputs are not available. The Companyâ€™s own data used to develop unobservable inputs may be adjusted for market considerations when reasonably available.The categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The Companyâ€™s assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to assets and liabilities.The Company used the following methods and significant assumptions to estimate fair value for certain assets measured and carried at fair value on a recurring basis:Securities available-for-saleâ€”The Company obtains fair value measurements from an independent pricing service. Management reviews the procedures used by the third party, including significant inputs used in the fair value calculations. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bondâ€™s terms and conditions, among other things. When market quotes are not readily accessible or available, alternative approaches are utilized, such as matrix or model pricing.The Companyâ€™s methodology for pricing non-rated bonds focuses on three distinct inputs: equivalent rating, yield and other pricing terms. To determine the rating for a given non-rated municipal bond, the Company references a publicly issued bond by the same issuer if available as well as other additional key metrics to support the credit worthiness. Typically, pricing for these types of bonds would require a higher yield than a similar rated bond from the same issuer. A reduction in price is applied to the rating obtained from the comparable bond, as the Company believes if liquidated, a non-rated bond would be valued less than a similar bond with a verifiable rating. The reduction applied by the Company is one notch lower (i.e. a â€œAAâ€ rating for a comparable bond would be reduced to â€œAA-â€ for the Companyâ€™s valuation). In 2024 and 2023, all of the ratings derived by the Company were â€œBBB-â€ or better with and without comparable bond proxies. All of the ratings of non-Agency backed bonds derived by the Company were investment grade. The fair value measurement of municipal bonds is sensitive to the rating input, as a higher rating typically results in an increased valuation. The remaining pricing inputs used in the bond valuation are observable. Based on the rating determined, the Company obtains a corresponding current market yield curve available to market participants. Other terms including coupon, maturity date, redemption price, number of coupon payments per year, and accrual method are obtained from the individual bond term sheets.Equity and other securitiesâ€”The Company utilizes the same fair value measurement methodology for equity and other securities as detailed in the securities available-sale portfolio above.Servicing assetsâ€”Fair value is based on a loan-by-loan basis taking into consideration the original term to maturity, the current age of the loan and the remaining term to maturity. The valuation methodology utilized for the servicing assets begins with generating estimated future cash flows for each servicing asset, based on their unique characteristics and market-based assumptions for prepayment speeds and costs to service. The present value of the future cash flows are then calculated utilizing market-based discount rate assumptions. Derivative instrumentsâ€”Interest rate derivatives are valued by a third party, using models that primarily use market observable inputs, such as yield curves, and are validated by comparison with valuations provided by the respective counterparties. Derivative financial instruments are included in accrued interest receivable and other assets, and accrued interest payable and other liabilities in the Condensed Consolidated Statements of Financial Condition.33 BYLINE BANCORP, INC. Specific allowance for credit losses is measured based on a discounted cash flow of ongoing operations, discounted at the loan's original effective interest rate, or a calculation of the fair value of the underlying collateral less estimated selling costs. Valuations of individually assessed loans that are collateral dependent are supported by third party appraisals in accordance with the Bank's credit policy. Accordingly, individually evaluated loans are classified as Level 3.Assets held for saleâ€”Assets held for sale consist of former branch locations and real estate previously purchased for expansion. Assets are considered held for sale when management has approved to sell the assets following a branch closure or other events. The properties are being actively marketed and transferred to assets held for sale based on the lower of carrying value or its fair value, less estimated costs to sell. The Company records assets held for sale on the Condensed Consolidated Statements of Financial Condition within accrued interest receivable and other assets. Other real estate ownedâ€”Certain assets held within other real estate owned represent real estate or other collateral that has been adjusted to its estimated fair value, less cost to sell, as a result of transferring from the loan portfolio at the time of foreclosure or repossession and based on managementâ€™s periodic impairment evaluation. From time to time, non-recurring fair value adjustments to other real estate owned are recorded to reflect partial write-downs based on an observable market price or current appraised value of property.Adjustments to fair value based on such non-recurring transactions generally result from the application of lower-of-cost-or-market accounting or write-downs of individual assets due to impairment. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bondâ€™s terms and conditions, among other things. When market quotes are not readily accessible or available, alternative approaches are utilized, such as matrix or model pricing.Restricted stockâ€”The fair value has been determined to approximate cost.Loans held for saleâ€”The fair value of loans held for sale are based on quoted market prices, where available, and determined by discounted estimated cash flows using interest rates approximating the Companyâ€™s current origination rates for similar loans adjusted to reflect the inherent credit risk.Loan and lease receivables, netâ€”For certain variable rate loans that reprice frequently and with no significant changes in credit risk, fair value is estimated at carrying value. The fair value of other types of loans is estimated using an exit price notion. It is estimated by discounting future cash flows, using current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities.Depositsâ€”The fair value of demand deposits, savings accounts, and certain money market deposits is the amount payable on demand at the reporting date. The fair value of fixed-maturity certificates of deposit is estimated by discounting future cash flows, using rates currently offered for deposits of similar remaining maturities.Federal Home Loan Bank advancesâ€”The fair value of FHLB advances is estimated by discounting the agreements based on maturities using rates currently offered for FHLB advances of similar remaining maturities adjusted for prepayment penalties that would be incurred if the borrowings were paid off on the measurement date.Securities sold under agreements to repurchaseâ€”The carrying amount approximates fair value due to maturities of less than ninety days.Term Loanâ€”The carrying amount approximates fair value given the variable interest rate and repricing of interest.Bank Term Funding Programâ€”The carrying amount approximates fair value given the short-term nature of the instrument. Line of creditâ€”The carrying amount approximates fair value given the variable interest rate and repricing of interest.Subordinated notesâ€”The fair value is based on available market prices. Junior subordinated debenturesâ€”The fair value of junior subordinated debentures, in the form of trust preferred securities, is determined using rates currently available to the Company for debt with similar terms and remaining maturities.Accrued interest receivable and payableâ€”The carrying amount approximates fair value.Commitments to extend credit and letters of creditâ€”The fair values of these off-balance sheet commitments to extend credit and commercial and letters of credit are not considered practicable to estimate because of the lack of quoted market prices and the inability to estimate fair value without incurring excessive costs.36 BYLINE BANCORP, INC. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether the Company has elected to designate a derivative in a hedging relationship and apply hedge accounting and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. The Company records derivative assets and derivative liabilities on the Condensed Consolidated Statements of Financial Condition within accrued interest receivable and other assets and accrued interest payable and other liabilities, respectively. Interest rate swap agreements previously designated as cash flow hedges of certain junior subordinated debentures issued to capital trusts had notional amounts of $42.0 million and had a fair value of $3.5 million included in accrued interest receivable and other assets. In July 2023, the Company terminated the interest rate swap agreements that resulted in a net gain of $6,000. Other interest rate swap agreements not designated as hedging instruments had notional amounts of $67.7 million and fair values of $6.2 million reported in accrued interest receivable and other assets and accrued interest payable and other liabilities. Interest rate swaps designated as cash flow hedgesâ€”Cash flow hedges of interest payments associated with certain financial instruments had notional amounts totaling $650.0 million as of June 30, 2024 and December 31, 2023, respectively. The Company assesses the effectiveness of each hedging relationship by comparing the changes in fair value of the derivatives hedging instrument with the fair value of the designated hedged transactions. As of June 30, 2024, the cash flow hedges aggregating $650.0 million in notional amounts are comprised of $450.0 million pay-fixed interest rate swaps associated with certain deposits and other borrowings, and $200.0 million receive-fixed interest rate swaps associated with certain variable rate loans.As of June 30, 2024, pay-fixed interest rate swaps are comprised of six effective hedges. Receive-fixed interest rate swaps totaling $200.0 million are comprised of three effective hedges totaling $150.0 million, and one $50.0 million forward-starting swaps that is effective in August of 2024. For derivatives designated and that qualify as cash flow hedges of interest rate risk, the unrealized gain or loss on the derivatives is recorded in accumulated other comprehensive income (loss) and subsequently reclassified into interest income or expense in the same period during which the hedged transaction affects earnings. Amounts reported in accumulated other comprehensive income (loss) related to derivatives will be reclassified to interest income or expense as interest payments are made on the hedged instruments. Interest recorded on these swap transactions included $4.7 million and $3.9 million of interest income recorded during the three months ended June 30, 2024, and 2023, respectively, and is reported as a component of interest expense on deposits and other borrowings. Interest recorded on these swap transactions included $9.6 million and $5.8 million of interest income recorded during the six months ended June 30, 2024, and 2023, respectively, and is reported as a component of interest expense on deposits and other borrowings. As of June 30, 2024, the Company estimates $16.4 million of the net unrealized gain to be reclassified as a net decrease to interest expense during the next twelve months. Accumulated other comprehensive income (loss) also includes the amortization of the remaining balance related to terminated interest rate swaps designated as cash flow hedges, which are over the original life of the cash flow hedge. In March 2023, the Company terminated interest rate swaps designated as cash flow hedges totaling $100.0 million, of which $50.0 million became effective in May 2023 and $50.0 million became effective in June 2023. The transaction resulted in a gain of $4.2 million, net of tax, which was the clean value at termination date and began amortizing as a decrease to interest expense 38 BYLINE BANCORP, INC. These instruments are inherently subject to market risk and credit risk. Market risk is associated with changes in interest rates and credit risk relates to the Companyâ€™s risk of loss when the counterparty to a derivative contract fails to perform according to the terms of the agreement. Market and credit risks are managed and monitored as part of the Companyâ€™s overall asset-liability management process. The credit risk related to derivatives entered into with certain qualified borrowers is managed through the Companyâ€™s loan underwriting process. The Companyâ€™s loan underwriting process also approves the Bankâ€™s swap counterparty used to mirror the borrowersâ€™ swap. The fair values of the credit derivatives is reflected in accrued interest receivable and other assets and accrued interest payable and other liabilities with corresponding gains or losses reflected in non-interest income or other comprehensive income. The Company has agreements with its derivative counterparties that contain a cross-default provision under which if the Company defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its derivative obligations. The Company also has agreements with certain derivative counterparties that

Managementâ€™s Discussion and Analysis of Financial Condition and Results of Operations The following is a discussion and analysis of Byline Bancorp, Inc.â€™s financial condition and results of operations and should be read in conjunction with our Unaudited Interim Condensed Consolidated Financial Statements and notes thereto included elsewhere in this report. The words â€œthe Company,â€ â€œwe,â€ â€œByline,â€ â€œmanagement,â€ â€œourâ€ and â€œusâ€ refer to Byline Bancorp, Inc. and its consolidated subsidiaries, unless we indicate otherwise. In addition to historical information, this discussion contains forward looking statements that involve risks, uncertainties and assumptions that could cause actual results to differ materially from managementâ€™s expectations. Factors that could cause such differences are discussed in the sections entitled â€œSpecial Note Regarding Forward Looking Statementsâ€ and â€œRisk Factorsâ€. Byline assumes no obligation to update any of these forward looking statements. Forward-Looking Statements Statements contained in this report and in other documents we file with or furnish to the Securities and Exchange Commission (â€œSECâ€) that are not historical facts may constitute â€œforward-looking statementsâ€ within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Any statements about our expectations, beliefs, plans, strategies, predictions, forecasts, objectives or assumptions of future events or performance are not historical facts and may be forward-looking. These statements are often, but not always, made through the use of words or phrases such as â€œanticipates,â€ â€œbelieves,â€ â€œexpects,â€ â€œcan,â€ â€œcould,â€ â€œmay,â€ â€œpredicts,â€ â€œpotential,â€ â€œopportunity,â€ â€œshould,â€ â€œwill,â€ â€œestimate,â€ â€œplans,â€ â€œprojects,â€ â€œcontinuing,â€ â€œongoing,â€ â€œexpects,â€ â€œseeks,â€ â€œintendsâ€ and similar words or phrases. Accordingly, these statements involve estimates, known and unknown risks, assumptions and uncertainties that could cause actual strategies, actions or results to differ materially from those expressed in such statements, and are not guarantees of future results or other events or performance. Because forward-looking statements are necessarily only estimates of future strategies, actions or results, based on managementâ€™s current expectations, assumptions and estimates on the date hereof, and there can be no assurance that actual strategies, actions or results will not differ materially from expectations, readers are cautioned not to place undue reliance on such statements. Our ability to predict results or the actual effects of future plans, strategies or events is inherently uncertain. Factors which could cause actual results or conditions to differ materially from those reflected in forward-looking statements include: â€¢uncertainty regarding domestic, foreign, and geopolitical developments and the United States and global economic outlook that may impact market conditions or affect demand for certain banking products and services, and the impact on our customers, which could impair the ability of our borrowers to repay outstanding loans and leases, impair collateral values and further increase our allowance for credit losses - loans and leases, as well as result in possible asset impairment charges; â€¢unforeseen credit quality problems or changing economic conditions that could result in charge-offs greater than we have anticipated in our allowance for credit losses - loans and leases or changes in the value of our investments; â€¢commercial real estate market

conditions in the Chicago metropolitan area and southern Wisconsin; â€¢deterioration in the financial condition of our borrowers resulting in significant increases in our loan and lease losses and provisions for those losses and other related adverse impacts to our results of operations and financial condition; â€¢fair value estimates of certain of our assets and liabilities, which could change in value significantly from period to period; â€¢competitive pressures in the financial services industry in our market areas relating to both pricing and loan and lease structures, which may impact our growth rate; â€¢demand for loan products and deposit flows; â€¢unanticipated developments in pending or prospective loan and/or lease transactions or greater-than-expected paydowns or payoffs of existing loans and leases; â€¢inaccurate information and assumptions in our analytical and forecasting models used to manage our balance sheet; â€¢unanticipated changes in monetary policies of the Federal Reserve or significant adjustments in the pace of, or market expectations for, future interest rate changes; â€¢availability of sufficient and cost-effective sources of liquidity, funding, and capital as and when needed; â€¢our ability to attract, retain or the loss of key personnel or an inability to recruit appropriate talent cost-effectively; â€¢adverse effects on our information technology systems resulting from failures, human error or cyberattack, including the potential impact of disruptions or security breaches at our third-party service providers, any of which could result in an information or security breach, the disclosure or misuse of confidential or proprietary information, significant legal and financial losses and reputational harm; â€¢greater-than-anticipated costs to support the growth of our business, including investments in new lines of business, products and services, or technology, process improvements or other infrastructure enhancements, or greater-than-anticipated compliance or regulatory costs and burdens; â€¢the impact of possible future acquisitions, if any, including the costs and burdens of integration efforts; 46 Â â€¢the ability of the Company to receive dividends from Byline Bank; â€¢legislative or regulatory changes, particularly changes in regulation of financial services companies and/or the products and services offered by financial services companies; â€¢changes in Small Business Administration ("SBA") and U.S. Department of Agriculture ("USDA") U.S. government guaranteed lending rules, regulations, loan and lease products and funding limits, including specifically the SBA Section 7(a) program, as well as changes in SBA or USDA standard operating procedures or changes to the status of Byline Bank as an SBA Preferred Lender; â€¢changes in accounting principles, policies and guidelines applicable to bank holding companies and banking generally; â€¢the impact of a possible change in the federal or state income tax rates on our deferred tax assets and provision for income tax expense; â€¢our ability to implement our growth strategy, including via acquisitions; â€¢the possibility that any of the anticipated benefits of acquisitions will not be realized or will not be realized within the expected time period; â€¢the risk that the integration of acquisition operations will be materially delayed or will be more costly or difficult than expected; â€¢the effect of mergers on customer relationships and operating results; and â€¢other risks detailed from time to time in filings we make with the SEC. These risks and uncertainties should be considered in evaluating any forward-looking statements, and undue reliance should not be placed on such statements. Forward looking statements speak only as of the date they are made. You should also consider the risks, assumptions and uncertainties set forth in the â€œRisk Factorsâ€ section in our Annual Report on Form 10-K for the year ended December 31, 2023 that was filed with the SEC on March 4, 2024, as well as those set forth in the reports we file with the SEC. We assume no obligation to update any of these statements in light of new information, future events or otherwise unless required under the federal securities laws. Overview Our Business We are a bank holding company headquartered in Chicago, Illinois, and conduct all our business activities through our subsidiary, Byline Bank, a full service commercial bank, and Byline Bankâ€™s subsidiaries. Through Byline Bank, we offer a broad range of banking products and services to small and medium sized businesses, commercial real estate and financial sponsors and to consumers who generally live or work near our branches. We also offer online account opening to consumer and business customers through our website and provide trust and wealth management services to our customers. In addition to our traditional commercial banking business, we provide small ticket equipment leasing solutions through Byline Financial Group, a wholly-owned subsidiary of Byline Bank, headquartered in Bannockburn, Illinois, with sales offices in Illinois, and sales representatives in Illinois, Michigan, New Jersey, and New York. We participate in U.S. government guaranteed lending programs and originate U.S. government guaranteed loans. Byline Bank is a leading originator of SBA loans and was the second most active 7(a) and 504 lender in Illinois for the quarter ended June 30, 2024. Our results of operations depend substantially on net interest income, which is the difference between interest income on interest-earning assets, consisting primarily of interest income on loans and lease receivables, including accretion income on loans, investment securities and other short-term investments, and interest expense on interest-bearing liabilities, consisting primarily of deposits and borrowings. Our results of operations are also dependent upon our generation of non-interest income, consisting primarily of income from fees and service charges on deposits, loan servicing revenue, wealth management and trust income, ATM and interchange fees, and net gains on sales of investment securities and loans. Other factors contributing to our results of operations include our provision for credit losses, provision for income taxes, and non-interest expenses, such as salaries and employee benefits, occupancy and equipment expenses, and other miscellaneous operating costs. We reported consolidated net income of $29.7 million, or $0.68 per basic and diluted common share, and $60.1 million or $1.39 per basic and $1.37 per diluted share for the three and six months ended June 30, 2024, compared to net income of $26.1 million, or $0.70 per basic and diluted common share, and $50.1 million or $1.35 per basic and $1.34 per diluted share and for the three and six months ended June 30, 2023, an increase of $3.6 million and $10.1 million for the three and six month periods. The increase in net income was attributable to a $10.4 million and $20.2 million increase in net interest income for the three and six months ended June 30, 2024. The increase in net interest income during the three and six months ended June 30, 2024 was primarily driven by higher yields on loans and leases, and organic growth in the loan and lease portfolio, as well as growth in the portfolio as a result of the Inland acquisition. Dividends declared on common shares were $4.0 million and $3.4 million for the three months ended June 30, 2024 and 2023, respectively. Dividends paid on common shares were $4.0 million and $3.3 million for the three months ended June 30, 2024 and 2023, respectively. Dividends declared on common shares were $7.9 million and $6.8 million for the six months ended June 30, 2024 and 2023, respectively. Dividends paid on common shares were $8.0 million and $6.7 million for the six months ended June 30, 2024 and 2023, respectively. 47 Â Our results of operations for the three months ended June 30, 2024 and 2023 yielded an annualized return on average assets of 1.31% and 1.41% and an annualized return on average stockholdersâ€™ equity of 11.83% and 12.99%, respectively. Our results of operations for the six months ended June 30, 2024 and 2023 yielded an annualized return on average assets of 1.33% and 1.37% and an annualized return on average stockholdersâ€™ equity of 12.04% and 12.69%, respectively. As of June 30, 2024, we had consolidated total assets of $9.6 billion, total gross loans and leases outstanding of $6.9 billion, total deposits of $7.3 billion, and total stockholdersâ€™ equity of $1.0 billion. Inland Bancorp, Inc. Acquisition On July 1, 2023, we completed our acquisition of Inland Bancorp, Inc., ("Inland") under the terms of a definitive merger agreement. As a result of the merger, Inland's wholly owned bank subsidiary, Inland Bank and Trust, was merged with and into Byline Bank. Refer to Note 3â€”Acquisition of a Business of our Unaudited Interim Condensed Financial Statements as of June 30, 2024, which is included in this report, for additional information. Critical Accounting Policies and Significant Estimates Our accounting and reporting policies conform to GAAP and to general practices within the Banking industry. To prepare financial statements and interim financial statements in conformity with GAAP, management makes estimates, assumptions and judgments based on available information. These estimates, assumptions and judgments affect the amounts reported in the financial statements and accompanying notes, which are based on information available as of the date of the financial statements. As this information changes, actual results could differ from the estimates, assumptions and judgments reflected in the financial statements. In particular, management has identified several accounting policies that, due to the estimates, assumptions and judgments inherent in those policies, are critical in understanding our financial statements. These critical accounting policies and estimates include (i) determination of the allowance for credit losses, (ii) the valuation of intangible assets such as goodwill, and assessment of impairment, (iii) fair value estimations, and (iv) the determination and assessment of impairment for other intangible assets. The following is a discussion of the critical accounting policies and significant estimates that require us to make complex and subjective judgments. Additional information about these policies can be found in Note 1 of our audited Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2023, that we filed with the SEC on March 4, 2024. Allowance for credit losses The allowance for credit losses ("ACL") represents managementâ€™s estimate of current expected credit losses over the life of a financial asset carried at amortized cost at an appropriate level based upon managementâ€™s evaluation of the adequacy of collectively and individually evaluated loss reserves. The ACL is maintained at a level that management believes is appropriate to provide for current expected credit losses as of the dates of the Consolidated Statements of Financial Condition, and we have established methodologies for the determination of its adequacy. The methodologies are set forth in a formal policy and take into consideration relevant available information, from internal and external sources, relating to past events, current conditions, and reasonable and supportable forecasts. We increase our ACL by recording provisions for credit losses against our income and decrease by chargeâ€‘offs, net of recoveries. The evaluation is inherently subjective, as it requires estimates that are susceptible to significant revision as more information becomes available. While management uses available information to recognize losses on loans and leases, changes in economic or other conditions may necessitate revision of the estimate in future periods. For each portfolio, management estimates expected credit losses over the life of each loan and lease utilizing lifetime or cumulative loss rate methodology. The lifetime loss rates are estimated by analyzing a combination of internal and external data related to historical performance of each loan and lease pool over a complete economic cycle. Loss rates are based on historical averages for each loan and lease pool, adjusted to reflect the impact of a forward-looking forecast of certain macroeconomic variables, primarily unemployment rates, which management considers to be both reasonable and supportable. Various economic scenarios are considered and weighted to arrive at the forecast that most reflects managementâ€™s expectation of future conditions. After a one-year forecast period, a one-year reversion period adjusts loss experience to the historical average on a straight-line basis. Management also considers qualitative risk factor adjustments that are intended to capture internal and external trends not reflected in historical loss history. Each risk factor is assigned an allowance level based on managementâ€™s judgment as to the expected impact of each risk factor on each loan and lease portfolio and is monitored quarterly. All loans and leases of $500,000 or greater with an internal risk rating of substandard or below, or on nonaccrual status are individually evaluated for impairment on a quarterly basis. The Company also maintains an allowance for credit losses on off-balance sheet credit exposures for unfunded loan commitments. The estimate includes consideration of the likelihood that funding will occur and an estimate of expected credit losses on commitments expected to be funded over its estimated life based on managementâ€™s consideration of past events, current conditions, and reasonable and supportable economic forecasts. Management tracks the level and trends in unused commitments and takes into consideration the same factors as those considered for purposes of the allowance for credit losses on outstanding loans. 48 Â Goodwill Goodwill represents the excess of the purchase consideration over the fair value of net assets acquired in connection with our recapitalization and acquisitions using the acquisition method of accounting. Goodwill is not amortized but is periodically evaluated for impairment under the provisions of ASC 350. Impairment testing is performed using either a qualitative or quantitative approach at the reporting unit level. Our goodwill is allocated to Byline Bank, which is our only applicable reporting unit for the purposes of testing goodwill for impairment. We have selected November 30 as the date to perform the annual goodwill impairment test. Additionally, we perform a goodwill impairment evaluation on an interim basis when events or circumstances indicate impairment potentially exists. Other intangible assets Other intangible assets primarily consist of core deposit intangible assets and customer relationship intangible. In valuing intangible assets, we consider variables such as servicing costs, attrition rates and market discount rates. Intangible assets are reviewed annually, or more frequently when events or changes in circumstances occur that indicate that their carrying values may not be recoverable. If the recoverable amount of the intangible asset is determined to be less than its carrying value, we would then measure the amount of impairment based on an estimate of the fair value at that time. We also evaluate whether the events or circumstances have occurred that warrant a revision to the remaining useful lives of intangible assets. In cases where a revision is deemed appropriate, the remaining carrying amounts of the intangible assets are amortized over the revised remaining useful life. Core deposit intangibles are currently amortized over an approximate ten-year period and customer intangibles are amortized over a twelve-year period. Fair value of Financial Instruments ASC Topic 820, Fair Value Measurement, defines fair value as the price that would be received to sell a financial asset or paid to transfer a financial liability in an orderly transaction between market participants at the measurement date. The degree of management judgment involved in determining the fair value of assets and liabilities is dependent upon the availability of quoted market prices or observable market parameters. For financial instruments that trade actively and have quoted market prices or observable market parameters, there is minimal subjectivity involved in measuring fair value. When observable market prices and parameters are not available, management judgment is necessary to estimate fair value. In addition, changes in market conditions may reduce the availability of quoted prices or observable data. For example, reduced liquidity in the capital markets or changes in secondary market activities could result in observable market inputs becoming unavailable. Therefore, when market data is not available, we would use valuation techniques requiring more management judgment to estimate the appropriate fair value measurement. See Note 15 of our Unaudited Interim Condensed Consolidated Financial Statements as of June 30, 2024, included in this report, for a complete discussion of our use of fair value of financial assets and liabilities and their related measurement practices. Recently Issued Accounting Pronouncements Refer to Note 2 of our Unaudited Interim Condensed Consolidated Financial Statements as of June 30, 2024, which is included in this report, for a description of recent accounting pronouncements, including the effective dates of adoption and anticipated effects on our results of operations and financial condition. Primary Factors Used to Evaluate Our Business As a financial institution, we manage and evaluate various aspects of both our results of operations and our financial condition. We evaluate the levels and trends of the line items included in our consolidated financial statements as well as various financial ratios that are commonly used in our industry. We analyze these ratios and financial trends against our own historical performance, our budgeted performance, and the final condition and performance of comparable financial institutions in our region. Comparison of our financial performance against other financial institutions is impacted by the accounting for acquired nonâ€‘credit-deteriorated and purchased credit deteriorated loans. Results of Operations Overview Our results of operations depend substantially on net interest income, which is the difference between interest income on interest-earning assets, consisting primarily of interest income on loans and lease receivables, including accretion income on loans, investment securities and other short-term investments, and interest expense on interest-bearing liabilities, consisting primarily of deposits and borrowings. Our results of operations are also dependent upon our generation of non-interest income, consisting primarily of income from fees and service charges on deposits, loan servicing revenue, wealth management and trust income, ATM and interchange fees, and net gains on sales of investment securities and loans. Other factors contributing to our results of operations include our provisions for credit losses, provision for income taxes, and non-interest expenses, such as salaries and employee benefits, occupancy and equipment expenses, and other miscellaneous operating costs. Provision for Credit Losses The provision for credit losses reflects the amount required to maintain the ACL at an appropriate level based upon managementâ€™s evaluation of collectively and individually evaluated loss reserves. The provision for credit losses represents a charge to earnings necessary to establish an allowance for credit losses that, in managementâ€™s evaluation, is appropriate to provide coverage for current expected credit losses in the loan and lease portfolio. The ACL is increased by the provision for credit losses and is decreased by charge-offs, net of recoveries on prior charge-offs. The provision for credit losses was $6.0 million for the three months ended June 30, 2024, compared to $5.8 million for the three months ended June 30, 2023, an increase of $255,000 and is comprised of a provision for credit losses - loans and leases and a provision for credit losses - unfunded commitments. Provision for credit losses - loans and leases was $6.9 million for the three months ended June 30, 2024, and $6.5 million for the three months ended June 30, 2023, an increase of $411,000. The provision for credit losses - unfunded commitments was a recapture of $833,000 and a recapture of $677,000 for the three months ended June 30, 2024 and 2023, respectively. The provision for credit losses was $12.7 million for the six months ended June 30, 2024, compared to $15.6 million for the six months ended June 30, 2023, a decrease of $2.9 million. Provision for credit losses - loans and leases was $13.8 million for the six months ended June 30, 2024, and $16.2 million for the six months ended June 30, 2023, a decrease of $2.4 million. We anticipate full recovery of amortized cost with respect to these securities by maturity, or sooner in the event of a more favorable market interest rate environment. We do not intend to sell these securities and it is not more likely than not that we will be required to sell them before recovery of their amortized cost basis, which may be at maturity. We evaluate impairment of our investment in FHLB and Bankersâ€™ Bank based on the ultimate recoverability of the par value rather than by recognizing temporary declines in value. We did not identify any indicators of impairment of FHLB and Bankersâ€™ Bank stock as of June 30, 2024 and December 31, 2023. Â 60 Â Loan and Lease Portfolio Lending-related income is the most important component of our net interest income and is the main driver of the results of our operations. Total loans and leases at June 30, 2024 and December 31, 2023 were $6.9 billion and $6.7 billion, respectively, an increase of $206.9 million, or 3.1%. Originated loans and leases were $6.1 billion at June 30, 2024, an increase of $308.8 million, or 5.4%, compared to $5.8 billion at December 31, 2023. Purchased credit deteriorated loans and acquired non-credit-deteriorated loans and leases were $815.3 million at June 30, 2024, a decrease of $101.9 million, or 11.1%, compared to $917.3 million at December 31, 2023. The increase in our originated portfolio was primarily attributed to organic loan and lease growth, and renewals of acquired loans and leases that are now reflected with originated loans. The decrease in the purchased credit deteriorated and acquired non-credit-deteriorated loan and lease portfolio was driven by renewals of acquired loans and leases as well as resolutions and charge-offs. We strive to maintain a relatively diversified loan portfolio to help reduce the risk inherent in concentration in certain types of collateral. Loans, excluding leases, are typically made to real estate, manufacturing, wholesale, retail and service businesses for working capital needs, business expansions and operations. As of June 30, 2024, the loan portfolio included $414.4 million of unguaranteed 7(a) SBA and USDA loans with exposure to the following top three industries: 17.6% retail trade, 13.9% accommodation and food services, and 10.8% manufacturing. The expected life of our loan portfolio will differ from contractual maturities because borrowers may have the right to curtail or prepay their loans with or without penalties. Because a portion of the portfolio is accounted for under ASC 326, the carrying value is significantly affected by estimates and it is impracticable to allocate scheduled payments for those loans based on those estimates. Consequently, the tables presented include information limited to contractual maturities of the underlying loans. Allowance for Credit Losses - Loans and Leases The ACL is determined by us on a quarterly basis, although we are engaged in monitoring the appropriate level of the allowance on a more frequent basis. The ACL reflects managementâ€™s estimate of current expected credit losses inherent in the loan and lease portfolios. The computation includes elements of judgment and high levels of subjectivity. Factors considered by us include, but are not limited to, actual loss experience, peer loss experience, changes in size and risk profile of the portfolio, identification of individual problem loan and lease situations that may affect a borrowerâ€™s ability to repay, application of a 63 Â reasonable and supportable forecast, and evaluation of the prevailing economic conditions. Changes in conditions may necessitate revision of the estimate in future periods. We assess the ACL based on three categories: (i) originated loans and leases, (ii) acquired non-credit-deteriorated loans and leases, and (iii) purchased credit deteriorated loans. Total ACL was $99.7 million at June 30, 2024 compared to $101.7 million at December 31, 2023, a decrease of $2.0, or 1.9%. The decrease was primarily due to an increase in qualitative adjustments and growth in the loan and lease portfolio, offset by charge-offs on individually evaluated loans. Total ACL to total loans and leases held for investment, net before ACL, was 1.45% and 1.52% of total loans and leases at June 30, 2024 and December 31, 2023, respectively. As of June 30, 2024, approximately $36.1 million of the ACL was allocated to the unguaranteed portion of SBA 7(a) and USDA loans. 64 Â The following tables present an analysis of the allowance for Securities sold under agreements to repurchase decreased by $6.9 million, from $40.6 million at December 31, 2023 to $33.7 million at June 30, 2024. Liquidity We manage liquidity based upon factors that include the amount of core deposits as a percentage of total deposits, the level of diversification of our funding sources, the amount of non-deposit funding used to fund assets, the availability of unused funding sources, off-balance sheet obligations, the availability of assets to be readily converted into cash without undue loss, the amount of cash and liquid securities we hold and the re-pricing characteristics and maturities of our assets when compared to the re-pricing characteristics of our liabilities, the ability to securitize and sell certain pools of assets and other factors. Our liquidity needs are primarily met by cash and investment securities positions, growth in deposits, cash flow from amortizing loan portfolios, and borrowings from the FHLB. For additional information regarding our operating, investing, and financing cash flows, see Consolidated Statements of Cash Flows in our Unaudited Interim Condensed Consolidated Financial Statements included elsewhere in this report. As of June 30, 2024, Byline Bank had maximum advance potential from the FHLB of $3.3 billion and $764.6 million from the FRB. As of June 30, 2024, Byline Bank had open FHLB advances of $670.0 million and open letters of credit of $13.5 million. Based on collateral and securities pledged, our available aggregate borrowing capacity at June 30, 2024 was $1.1 billion. In addition, Byline Bank had uncommitted federal funds lines available of $127.5 million available at June 30, 2024. As of December 31, 2023, Byline Bank had maximum borrowing capacity from the FHLB of $3.1 billion and $866.5 million from the FRB. As of December 31, 2023, Byline Bank had open advances of $325.0 million and open letters of credit of $19.7 million. Based on collateral and securities pledged, our available aggregate borrowing capacity at December 31, 2023 was $1.6 billion. In addition, Byline Bank had an uncommitted federal funds line available of $135.0 million available at December 31, 2023. On October 13, 2016, we entered into a $30.0 million revolving credit agreement with a correspondent bank. Through subsequent amendments, the revolving credit agreement was reduced to $15.0 million. The amended revolving line of credit bears interest at either SOFR plus 205 basis points or Prime Rate minus 75 basis points, not to be less than 2.00%, based on our election, which is required to be communicated at least three business days prior to the commencement of an interest period. If we fail to provide timely notification, the interest rate will be Prime Rate minus 75 basis points. On May 24, 2024, we entered into the First Amendment to the Second Amended and restated Term Loan and Revolving Credit Agreement (the "Amendment") with the lender, which is effective May 26, 2024, and provides for: (1) the renewal of the revolving line-of-credit facility of up to $15.0 million, and (2) extending its maturity date to May 25, 2025, subject to the existing Negative Pledge Agreement dated October 11, 2018, as amended. At June 30, 2024, the variable term loan had an interest rate of 7.63% and an outstanding balance of $15.0 million. At December 31, 2023, the variable term loan had an interest rate of 7.64% and an outstanding balance of $18.3 million. At June 30, 2024, the line of credit had a no outstanding balance. At December 31, 2023, the line of credit had a $11.3 million outstanding balance and an interest rate of 7.39% There are regulatory limitations that affect the ability of Byline Bank to pay dividends to the Company. See Note 21 of our Consolidated Financial Statements, included in our Annual Report on Form 10-K for the year ended December 31, 2023 for additional information. Management believes that such limitations will not impact our ability to meet our ongoing short-term cash obligations. We expect that our cash and liquidity resources will be generated by the operations of Byline Bank, which we expect to be sufficient to satisfy our liquidity and capital requirements for at least the next twelve months. Capital Resources Stockholdersâ€™ equity at June 30, 2024 was $1.0 billion compared to $990.2 million at December 31, 2023, an increase of $42.9 million, or 4.3%. The increase was primarily driven by an increase in retained earnings, offset by an increase in accumulated other comprehensive loss during the six months ended June 30, 2024, reflecting the unrealized losses in our available-for-sale securities portfolio of $139.1 million compared to $130.2 million as of December 31, 2023. The Company and Byline Bank are subject to various regulatory capital requirements administered by federal banking regulators. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by federal banking regulators that, if undertaken, could have a direct material effect on our financial statements. Under applicable bank regulatory capital requirements, each of the Company and Byline Bank must meet specific capital guidelines that involve quantitative measures of their assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. Byline Bank must also meet certain specific capital guidelines under the prompt corrective action framework. The capital amounts and classification are subject to qualitative judgments by the federal banking regulators about components, risk weightings and other factors. Quantitative measures established by regulation to ensure capital adequacy require the Company and Byline Bank to maintain minimum 72 Â amounts and ratios of CET1 capital, Tier 1 capital and total capital to risk-weighted assets and of Tier 1 capital to average consolidated assets, (referred to as the â€œleverage ratioâ€), as defined under these capital requirements. As of June 30, 2024, Byline Bank exceeded all applicable regulatory capital requirements and was considered â€œwell-capitalized.â€ There have been no conditions or events since June 30, 2024 that management believes have changed Byline Bankâ€™s classifications. The regulatory capital ratios for the Company and Byline Bank to meet the minimum capital adequacy standards and for Byline Bank to be considered well capitalized under the prompt corrective action framework and the Companyâ€™s and Byline Bankâ€™s actual capital amounts and ratios are set forth in the following tables as of the periods indicated (dollars in thousands): Â Â Actual Â Â Minimum CapitalRequired Â Â Required to beConsideredWell Capitalized Â June 30, 2024 Â Amount Â Â Ratio Â Â Amount Â Â Ratio Â Â Amount Â Â Ratio Â Total capital to risk weighted assets: Â Company Â $ 1,181,194 Â Â Â 13.86 % Â $ 681,657 Â Â Â 8.00 % Â N/A Â Â N/A Â Bank Â Â 1,135,095 Â Â Â 13.36 % Â Â 679,661 Â Â Â 8.00 % Â $ 849,577 Â Â Â 10.00 % Tier 1 capital to risk weighted assets: Â Company Â $ 1,010,763 Â Â Â 11.86 % Â $ 511,243 Â Â Â 6.00 % Â N/A Â Â N/A Â Bank Â Â 1,039,663 Â Â Â 12.24 % Â Â 509,746 Â Â Â 6.00 % Â $ 679,661 Â Â Â 8.00 % Common Equity Tier 1 (CET1) to risk weighted assets: Â Company Â $ 923,763 Â Â Â 10.84 % Â $ 383,432 Â Â Â 4.50 % Â N/A Â Â N/A Â Bank Â Â 1,039,663 Â Â Â 12.24 % Â Â 382,310 Â Â Â 4.50 % Â $ 552,225 Â Â Â 6.50 % Tier 1 capital to average assets: Â Company Â $ 1,010,763 Â Â Â 11.08 % Â $ 364,801 Â Â Â 4.00 % Â N/A Â Â N/A Â Bank Â Â 1,039,663 Â Â Â 11.41 % Â Â 364,325 Â Â Â 4.00 % Â $ 455,406 Â Â Â 5.00 % Â Â Â Actual Â Â Minimum CapitalRequired Â Â Required to beConsideredWell Capitalized Â December 31, 2023 Â Amount Â Â Ratio Â Â Amount Â Â Ratio Â Â Amount Â Â Ratio Â Total capital to risk weighted assets: Â Company Â $ 1,123,568 Â Â Â 13.38 % Â $ 671,576 Â Â Â 8.00 % Â N/A Â Â N/A Â Bank Â Â 1,085,915 Â Â Â 12.97 % Â Â 669,904 Â Â Â 8.00 % Â $ 837,380 Â Â Â 10.00 % Tier 1 capital to risk weighted assets: Â Company Â $ 956,027 Â Â Â 11.39 % Â $ 503,682 Â Â Â 6.00 % Â N/A Â Â N/A Â Bank Â Â 993,375 Â Â Â 11.86 % Â Â 502,428 Â Â Â 6.00 % Â $ 669,904 Â Â Â 8.00 % Common Equity Tier 1 (CET1) to risk weighted assets: Â Company Â $ 869,027 Â Â Â 10.35 % Â $ 377,762 Â Â Â 4.50 % Â N/A Â Â N/A Â Bank Â Â 993,375 Â Â Â 11.86 % Â Â 376,821 Â Â Â 4.50 % Â $ 544,297 Â Â Â 6.50 % Tier 1 capital to average assets: Â Company Â $ 956,027 Â Â Â 10.86 % Â $ 352,089 Â Â Â 4.00 % Â N/A Â Â N/A Â Bank Â Â 993,375 Â Â Â 11.30 % Â Â 351,735 Â Â Â 4.00 % Â $ 439,669 Â Â Â 5.00 % The ratios above reflect the Companyâ€™s election to opt into the regulatorsâ€™ joint CECL transition provision, which allows the Company to phase in the capital impact of the adoption of CECL over the three years beginning January 1, 2022. Accordingly, capital ratios as of June 30, 2024 reflect 75% of the CECL impact and December 31, 2023 reflect 50% of the CECL impact. The Company and Byline Bank must maintain a capital conservation buffer consisting of CET1 capital greater than 2.5% of risk-weighted assets above the required minimum risk-based capital levels in order to avoid limitations on paying dividends, repurchasing shares, and paying discretionary bonuses. The conservation buffers for the Company and Byline Bank exceed the minimum capital requirement as of June 30, 2024. Provisions of state and federal banking regulations may limit, by statute, the amount of dividends that may be paid to the Company by Byline Bank without prior approval of Byline Bankâ€™s regulatory agencies. The Company is economically dependent on the cash dividends received from Byline Bank. These dividends represent the primary cash flow from operating activities used to service obligations. For the six months ended June 30, 2024 the Company received $23.0 million in cash dividends from Byline Bank, in order to pay the required interest on its outstanding subordinated note, junior subordinated debentures in connection with its trust preferred securities interest, principal and interest payments related to its term note and revolving line of credit, and to fund other Company-related activities. For the year ended December 31, 2023, the Company received $35.0 million in cash dividends from Byline Bank, in order to pay the required interest on its outstanding subordinated note and junior subordinated debentures in connection with its trust preferred securities interest, principal and interest on its term loan and revolving line of credit, and to fund other Company-related activities. Â 73 Â On December 12, 2022, we announced that our Board of Directors approved a stock repurchase program authorizing the purchase of up to an aggregate of 1,250,000 shares of our outstanding common stock. The program was in effect from January 1, 2023 until December 31, 2023. No shares were repurchased under this program. On December 6, 2023, we announced that our Board of Directors approved a new stock repurchase program authorizing the purchase of up to an aggregate of 1,250,000 shares of the Companyâ€™s outstanding common stock. The program will be effect from January 1, 2024 until December 31, 2024, unless terminated earlier. The shares may, at the discretion of management, be repurchased from time to time in open market purchases as market conditions warrant or in privately negotiated transactions. The Company is not obligated to purchase any shares under the program, and the program may be discontinued at any time. The actual timing, number and share price of shares purchased under the repurchase program will be determined by the Company at its discretion and will depend on a number of factors, including the market price of the Companyâ€™s stock, general market and economic conditions and applicable legal requirements. The shares authorized to be repurchased represented approximately 2.9% of the Companyâ€™s outstanding common stock at December 31, 2023. No shares were repurchased under this program during the three or six months ended June 30, 2024. On July 23, 2024, our Board of Directors declared a cash dividend of $0.09 per share payable on August 20, 2024 to stockholders of record of our common stock as of August 6, 2024. Off-Balance Sheet Items and Other Financing Arrangements We are a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of our customers. These financial instruments include commitments to extend credit, commercial letters of credit and standby letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the Condensed Consolidated Statements of Financial Condition. The contractual or notional amounts of those instruments reflect the extent of involvement we have in particular classes of financial instruments. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. We evaluate each customerâ€™s creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by Byline Bank upon extension of credit, is based on managementâ€™s credit evaluation of the counterparty. Collateral is primarily obtained in the form of commercial and residential real estate (including income producing commercial properties). Letters of credit are conditional commitments issued by Byline Bank to guarantee the performance of a customer to a third-party. Those guarantees are primarily issued to support public and private borrowing arrangements, bond financing and similar transactions. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. Commitments to make loans are generally made for periods of 90 days or less. The fixed rate loan commitments have interest rates ranging from 1.00% to 15.00% and maturities up to 2052. Variable rate loan commitments have interest rates ranging from 4.00% to 18.00% and maturities up to 2053. Our exposure to credit loss in the event of non-performance by the other party to the financial instrument for commitments to extend credit and standby letters of credit is represented by the contractual or notional amount of those instruments. We use the same credit policies in making commitments and conditional obligations as for funded instruments. We do not anticipate any material losses as a result of the commitments and standby letters of credit. We enter into interest rate swaps that are used to manage differences in the amount, timing, and duration of our known or expected cash receipts and its known or expected cash payments principally related to certain variable rate loans, money market accounts and variable rate borrowings. We also enter into interest rate swaps with certain qualified borrowers to facilitate the borrowersâ€™ risk management strategies and concurrently entered into mirror-image derivatives with a third party counterparty. We recognize derivative financial instruments at fair value regardless of the purpose or intent for holding the instrument. We record derivative assets and derivative liabilities on the Condensed Consolidated Statements of Financial Condition within accrued interest receivable and other assets, and accrued interest payable and other liabilities, respectively. Because the derivative assets and liabilities recorded on the balance sheet at June 30, 2024 do not represent the amounts that may ultimately be paid under these contracts, these assets and liabilities are listed in the table below (dollars in thousands): Â Â June 30, 2024 Â Â Â Â Â Â Fair Value Â Â Â Notional Â Â Asset Â Â Liability Â Interest rate swaps designated as cash flow hedges Â $ 650,000 Â Â $ 35,297 Â Â $ (822) Other interest rate derivatives Â Â 734,434 Â Â Â 22,126 Â Â Â (21,931) Other credit derivatives Â Â 12,833 Â Â Â 3 Â Â Â (19) See Note 16 of our Unaudited Interim Condensed Consolidated Financial Statements as of June 30, 2024, included in this report, and Note 21 of our Consolidated Financial Statements, included in our Annual Report on Form 10-K for the year ended December 31, 2023 for additional information on derivatives. 74 Â GAAP Reconciliation and Management Explanation of Non-GAAP Financial Measures Some of the financial measures included in our â€œSelected Financial Dataâ€ are not measures of financial performance in accordance with GAAP. Our management uses the nonâ€‘GAAP financial measures set forth below in its analysis of our performance: â€¢â€œAdjusted net incomeâ€ and â€œadjusted diluted earnings per shareâ€ exclude certain significant items, which include impairment charges on assets held for sale and right-of-use assets, and merger-related expenses, adjusted for applicable income tax. Management believes the significant items are not indicative of or useful to measure the Companyâ€™s operating performance on an ongoing basis. â€¢â€œNet interest income, fully taxable-equivalentâ€ and â€œnet interest margin, fully taxable-equivalentâ€ are adjusted to reflect tax-exempt interest income on an equivalent before-tax basis using tax rates effective as of the end of the period. Management believes the metric provides useful comparable information to investors and that these measures may be useful for peer comparison. â€¢â€œTotal revenueâ€ is the combination of net interest income and non-interest income. Management believes the metric is an important measure of the Company's operating performance on an ongoing basis. â€¢â€œAdjusted non-interest expenseâ€ is non-interest expense excluding certain significant items, which include impairment charges on assets held for sale and right-of-use assets, and merger-related expenses. â€¢â€œAdjusted efficiency ratioâ€ is adjusted non-interest expense less amortization of intangible assets divided by net interest income and non-interest income. Management believes the metric is an important measure of the Companyâ€™s operating performance on an ongoing basis. â€¢â€œAdjusted non-interest expense to average assetsâ€ is adjusted non-interest expense divided by average assets. Management believes the metric is an important measure of the Companyâ€™s operating performance on an ongoing basis. â€¢â€œAdjusted return on average stockholdersâ€™ equityâ€ is adjusted net income divided by average stockholdersâ€™ equity. Management believes the metric is an important measure of the Companyâ€™s operating performance on an ongoing basis. â€¢â€œAdjusted return on average assetsâ€ is adjusted net income divided by average assets. Management believes the metric is an important measure of the Companyâ€™s operating performance on an ongoing basis. â€¢â€œNon-interest income to total revenuesâ€ is non-interest income divided by net interest income plus non-interest income. Management believes that it is standard practice in the industry to present non-interest income as a percentage of total revenue. Accordingly, management believes providing these measures may be useful for peer comparison. â€¢â€œPreâ€‘tax preâ€‘provision net incomeâ€ is preâ€‘tax income plus the provision for credit losses. Management believes this metric demonstrates income excluding the tax provision or benefit and the provision for credit losses, and enables investors and others to assess the Companyâ€™s ability to generate capital to cover credit losses through a credit cycle. â€¢â€œAdjusted pre-tax pre-provision net incomeâ€ is pre-tax pre-provision net income excluding certain significant items, which include impairment charges on assets held for sale and right-of-use assets, and merger-related expenses. Management believes the metric is an important measure of the Companyâ€™s operating performance on an ongoing basis. â€¢â€œPreâ€‘tax preâ€‘provision return on average assetsâ€ is pre-tax income plus the provision for credit losses, divided by average assets. Management believes this ratio demonstrates profitability excluding the tax provision or benefit and excludes the provision for credit losses. â€œAdjusted pre-tax pre-provision return on average assetsâ€ excludes certain significant items, which include impairment charges on assets held for sale and right-of-use assets, and merger-related expenses. â€¢â€œTangible common equityâ€ is defined as total stockholdersâ€™ equity reduced by preferred stock and goodwill and other intangible assets. Management does not consider servicing assets as an intangible asset for purposes of this calculation. â€¢â€œTangible assetsâ€ is defined as total assets reduced by goodwill and other intangible assets. Management does not consider servicing assets as an intangible asset for purposes of this calculation. 75 Â â€¢â€œTangible book value per common shareâ€ is calculated as tangible common equity, which is stockholdersâ€™ equity reduced by preferred stock and goodwill and other intangible assets, divided by total shares of common stock outstanding. Management believes this

metric is important due to the relative changes in the book value per share exclusive of changes in intangible assets. â€¢â€œTangible common equity to tangible assetsâ€ is calculated as tangible common equity divided by tangible assets, which is total assets reduced by goodwill and other intangible assets. Management believes this metric is important to investors and analysts interested in relative changes in the ratio of total stockholdersâ€™ equity to total assets, each exclusive of changes in intangible assets. â€¢â€œTangible net income available to common stockholdersâ€ is net income available to common stockholders excluding after-tax intangible asset amortization. â€¢â€œAdjusted tangible net income available to common stockholdersâ€ is tangible net income available to common stockholders excluding certain significant items. Management believes the metric is an important measure of the Companyâ€™s operating performance on an ongoing basis. â€¢â€œReturn on average tangible common stockholdersâ€™ equityâ€ is tangible net income available to common stockholders divided by average tangible common stockholdersâ€™ equity. Management believes the metric is an important measure of the Companyâ€™s operating performance on an ongoing basis. â€¢â€œAdjusted return on average tangible common stockholdersâ€™ equityâ€ is adjusted tangible net income available to common stockholders divided by average tangible common stockholdersâ€™ equity. Management believes the metric is an important measure of the Companyâ€™s operating performance on an ongoing basis. Quantitative and Qualitative Disclosures About Market Risk. Our primary market risk is interest rate risk, which is defined as the risk of loss of net interest income or net interest margin because of changes in interest rates. We seek to measure and manage the potential impact of interest rate risk. Interest rate risk occurs when interest-earning assets and interest-bearing liabilities mature or re-price at different times, on a different basis or in unequal amounts. Interest rate risk also arises when our assets, liabilities and off-balance sheet contracts each respond differently to changes in interest rates, including as a result of explicit and implicit provisions in agreements related to such assets and liabilities and in off-balance sheet contracts that alter the applicable interest rate and cash flow characteristics as interest rates change. We are also exposed to interest rate risk through the retained portion of the U.S. government guaranteed loans we make and the related servicing rights. Our U.S. government guaranteed loan portfolio is comprised primarily of SBA 7(a) loans, virtually all of which are quarterly or monthly adjustable with the prime rate. The SBA portfolio reacts differently in a rising rate environment than our other non-guaranteed portfolios. Generally, when interest rates rise, the prepayments in the SBA portfolio tend to increase. Our management of interest rate risk is overseen by our Board of Directors and management asset liability committees based on a risk management infrastructure approved by our Board of Directors that outline reporting and measurement requirements. Our risk management infrastructure also requires a periodic review of all key assumptions used, such as identifying appropriate interest rate scenarios, setting loan prepayment rates based on historical analysis, non-interest-bearing and interest-bearing demand deposit lives based on historical analysis and the targeted investment term of capital. The committees closely monitor our interest sensitivity exposure, asset and liability allocation decisions, liquidity and capital positions, and local and national economic conditions and attempts to structure the loan and investment portfolios and funding sources to maximize earnings within acceptable risk tolerances. We manage the interest rate risk associated with our interest-bearing liabilities by managing the interest rates and tenors associated with our borrowings from the FHLB, and deposits from our customers that we rely on for funding. We manage the interest rate risk associated with our interest-earning assets by managing the interest rates and tenors associated with our investment and loan portfolios, from time to time purchasing and selling investment securities. We utilize interest rate derivatives to hedge our interest rate exposure on commercial loans when it meets our customersâ€™ and Byline Bankâ€™s needs. As of June 30, 2024, we had a notional amount of $1.4 billion of interest rate derivatives outstanding that includes customer swaps and those on Byline Bank's balance sheet. The overall effectiveness of our hedging strategies is subject to market conditions, the quality of our execution, the accuracy of our valuation assumptions, the associated counterparty credit risk and changes in interest rates. We do not engage in speculative trading activities relating to interest rates, foreign exchange rates, commodity prices, equities or credit. Â Evaluation of Interest Rate Risk We evaluate interest rate risk through the use of two different models: net interest income ("NII") simulations and economic value of equity ("EVE") simulations. The simulations provide an estimate of the impact of changes in interest rates on equity and net interest income based on a variety of assumptions. Changes in assumptions may significantly alter the results of our simulations. We use an NII simulation model to measure and evaluate potential changes in our net interest income. We run various hypothetical interest rate scenarios at least quarterly and compare these results against a scenario with no changes in interest rates. Our NII simulation model incorporates various assumptions, which we believe are reasonable but which may have a significant impact on results such as: (1) asset prepayment speed assumptions, (2) predefined credit spreads for both investment securities and loans, (3) re-pricing characteristics for market-rate-sensitive instruments on and off balance sheet, and (4) the effect of interest rate limitations in our assets, such as floors and caps. Because of limitations inherent in any approach used to measure interest rate risk, simulation results are not intended as a forecast of the actual effect of a change in market interest rates on our results but rather as a means to better plan and execute appropriate asset-liability management strategies and manage our interest rate risk. We use an EVE simulation to analyze the Company's long-term view of interest rate risk as it analyzes the Company's future cash flows. EVE is defined as the present value of the Company's assets, less the present value of its liabilities, adjusted for off-balance sheet items, with the results showing a theoretical change in the economic value of stockholders' equity as interest rates change. Our EVE simulation model incorporates various assumptions, which we believe are reasonable but which may have a significant impact on results such as: (1) asset prepayment speed assumptions, (2) deposit decay rate assumptions, (3) predefined credit spreads for both investment securities and loans (4) re-pricing characteristics for market-rate-sensitive instruments on and off balance sheet, (5) amortization schedule, and (6) discount rates associated with the products on balance sheet. Â Â Â 79 Â Potential changes to our net interest income and economic value of equity in hypothetical rising and declining interest rate scenarios calculated as of June 30, 2024 are presented below. Â Â Estimated Increase/Decrease in Â Â Net Interest Income Â Estimated PercentageChange in EVE Â Â Twelve Months Ending June 30, Â As of Basis Point Change in Interest Rates Â 2025 Â 2026 Â June 30, 2024 +300 Â 11.8% Â 13.6% Â (17.4)% +200 Â 8.4% Â 9.5% Â (11.8)% +100 Â 4.2% Â 4.7% Â (6.0)% -100 Â (3.2)% Â (4.1)% Â 5.6% -200 Â (6.5)% Â (9.0)% Â 10.7% -300 Â (8.3)% Â (12.2)% Â 14.8% For the dynamic balance sheet and rate shift scenarios, we assume a balance sheet that reflects management's growth outlook and interest rates follow a forward yield curve. The shocks are defined as gradual shifts up and down it by 1/12th of the total change in rates each month for 12 months. For dynamic balance sheet and rate shifts, a gradual shift downward of 100 and 200 basis points would result in a 1.9% and 3.7% decrease to net interest income, and a gradual shift upwards of 100 and 200 basis points would result in 1.9% and 4.0% increases to net interest income, respectively, over the next 12 months. The Bank's aggregate interest rate risk exposure is monitored and managed based on the economic outlook and under guidance of board-approved policy limits. The results of the simulations are hypothetical, and a variety of factors might cause actual results to differ substantially from what is depicted including the timing, magnitude, frequency of interest rate changes, changes in market conditions, depositor behavior changes, and management strategies. Item 4. Controls and Procedures. The Companyâ€™s management, including our Chief Executive Officer and our Chief Financial Officer, have evaluated the effectiveness of our â€œdisclosure controls and proceduresâ€ (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the â€œExchange Actâ€)), as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and our Chief Financial Officer have concluded that, as of June 30, 2024, the Companyâ€™s disclosure controls and procedures were effective to provide reasonable assurance that the information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and is accumulated and communicated to the Companyâ€™s management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Changes in Internal Control Over Financial Reporting There was no change in our internal control over financial reporting during the quarter ended June 30, 2024, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. The design of any system of controls and procedures is based in part upon certain assumptions about the likelihood of future events. There can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. 80 Â PART II-OTHER INFORMATION Item 1. Legal Proceedings. We operate in a highly regulated environment. From time to time we are a party to various litigation matters incidental to the conduct of our business. We are not presently party to any legal proceedings the resolution of which we believe would have a material adverse effect on our business, prospects, financial condition, liquidity, results of operation, cash flows or capital levels. Item 1A. Risk Factors. There have been no material changes to the risk factors previously disclosed in the â€œRisk Factorsâ€ section included in our Form 10-K for our fiscal year ended December 31, 2023 that was filed with the SEC on March 4, 2024. Â Item 2. Unregistered Sales of Equity Securities and Use of Proceeds. On December 6, 2023, we announced that our Board of Directors approved a new stock

repurchase program authorizing the purchase of up to an aggregate of 1,250,000 shares of our outstanding common stock. The program is in effect from January 1, 2024 until December 31, 2024 unless terminated earlier. The shares may, at the discretion of management, be repurchased from time to time in open market purchases as market conditions warrant or in privately negotiated transactions. We are not obligated to purchase any shares under the program, and the program may be discontinued at any time. The actual timing, number and share price of shares purchased under the repurchase program will be determined by us at our discretion and will depend on a number of factors, including the market price of our stock, general market and economic conditions and applicable legal requirements. The table below includes information regarding purchases of our common stock during the quarter ended June 30, 2024. We did not purchase any shares of our common stock during the second quarter of 2024 under our stock repurchase program. Â Issuer Purchases of Equity Securities Â Â Â

Accounting Changes and Error Corrections [Abstract]	
Accounting Pronouncements Recently Adopted or Issued	

Note 2—Accounting Pronouncements Recently Adopted or Issued

The following reflect recent accounting pronouncements that have been adopted or are pending adoption by the Company.

Adopted Accounting Pronouncements

Fair Value Measurement (Topic 820) - In June 2022, the FASB issued ASU No. 2022-03, Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions. The guidance in the ASU clarifies that a contractual restriction on the sale of an equity security is not considered part of the unit of account on the equity security and, therefore, is not considered in measuring fair value. The ASU also requires additional disclosures about the restriction. The amendments in this update are effective for fiscal years beginning after December 15, 2023, and interim periods within those fiscal years. The Company evaluated the accounting and disclosure requirements of this update and they did not have a material effect on the consolidated financial statements.

Issued Accounting Pronouncements Pending Adoption

Business Combinations (Topic 805) - In August 2023, the FASB issued ASU 2023-05, Business Combinations—Joint Venture (JV) Formations: Recognition and Initial Measurement. The guidance requires newly-formed JVs to apply a new basis of accounting to all of its contributed net assets, which results in the JV initially measuring its contributed net assets under ASC 805-20, Business Combinations. The new guidance would be applied prospectively and is effective for all newly-formed joint venture entities with a formation date on or after January 1, 2025, with early adoption permitted. The Company is evaluating the accounting and disclosure requirements of this update and the impact of adopting the new guidance on the consolidated financial statements.

Segment Reporting – Improvements to Reportable Segment Disclosures (Topic 280) – In November 2023, the FASB issued ASU 2023-07 to enhance disclosures about significant segment expenses for public entities reporting segment information under Topic 280. It requires that a public entity disclose, on an annual and interim basis, significant expense categories for each reportable segment. Significant expense categories are derived from expenses that are 1) regularly reported to an entity’s chief operating decision-maker ("CODM"), and 2) included in a segment’s reported measure of profit or loss. The disclosures should include an amount for "other segment items," reflecting the difference between 1) segment revenue less significant segment expenses, and 2) the reportable segment’s profit or loss measures. It requires that a public entity disclose the title and position of the CODM and how the CODM uses the reported measure of profit or loss to assess segment performance and to allocate resources. Further it clarifies that entities with a single reportable segment must disclose both new and existing segment reporting requirements. The amendments are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Entities must adopt the guidance on a retrospective basis. The Company is evaluating the internal control and disclosure requirements of this update and the impact of adopting the new guidance on the consolidated financial statements.

Income Taxes – Improvements to Income Tax Disclosures (Topic 740) – In December 2023, the FASB issued ASU 2023-09 to provide additional transparency into an entity’s income tax disclosures primarily related to the rate reconciliation and income taxes paid information. The standard requires that public business entities disclose, on an annual basis, specific categories in the rate reconciliation and additional information for reconciling items meeting a certain quantitative threshold. The amendments also require that entities disclose on an annual basis: 1) income taxes paid (net of refunds received) disaggregated by federal (national), state, and foreign taxes and 2) the income taxes paid (net of refunds received) disaggregated by individual jurisdictions exceeding 5% of total income taxes paid (net of refunds received). The amendments are effective for public business entities for annual periods beginning after December 15, 2024. The Company is evaluating the accounting and disclosure requirements of this update and the impact of adopting the new guidance on the consolidated financial statements.

Acquisition of a Business	**6 Months Ended** **Jun. 30, 2024**
Business Combinations [Abstract]	
Acquisition of a Business	

Note 3—Acquisition of a Business

On July 1, 2023, the Company acquired all of the outstanding common stock of Inland Bancorp, Inc. ("Inland") and its subsidiaries pursuant to an Agreement and Plan of Merger, dated as of November 30, 2022 (the "Merger Agreement"). Inland was merged with and into Byline. As a result of the merger, Inland’s wholly owned subsidiary bank, Inland Bank and Trust, was merged with and into Byline Bank, with Byline Bank as the surviving bank. The acquisition improves the Company’s footprint in the Chicagoland market, diversifies its commercial banking business, and strengthens the core deposit base.

In a related but separate transaction, on March 31, 2023, Byline entered into a side letter agreement with the majority shareholder of Inland in which Byline agreed to purchase 2,408,992 shares of Inland common stock. The purchase price was calculated based on the terms of the Merger Agreement. The transaction was completed on June 30, 2023, which resulted in the payment of cash in the amount of $9.9 million.

At the effective time of the merger (the "Effective Time"), each share of Inland’s common stock was converted into the right to receive: (1) 0.19 shares of Byline’s common stock, par value $0.01 per share, and (2) a cash payment in the amount of $0.68 per share, with cash paid in lieu of any fractional shares. The per share cash consideration was based on the total $21.2 million divided by the outstanding shares of Inland common stock. Based on the closing price of shares of the Company’s common stock of $18.09, as reported by the New York Stock Exchange, and 5,932,323 shares of common

stock issued with respect to the outstanding shares of Inland common stock, the stock consideration was valued at $107.3 million. Options to acquire 288,200 shares of Inland common stock that were outstanding at the Effective Time were canceled, at the option holders' election, in exchange for a cash payment in accordance with the Merger Agreement of $424,000, to be paid after the closing date. In addition, the 2,408,992 shares of Inland common stock purchased on June 30, 2023 were canceled as of the effective time of the transaction. The value of the total merger consideration at closing was $138.9 million. Stock issuance costs were $299,000.

The transaction resulted in goodwill of $33.4 million, which is nondeductible for tax purposes, as this acquisition was a nontaxable transaction. Goodwill represents the premium paid over the fair value of the net tangible and intangible assets acquired and reflects related synergies expected from the combined operations.

Merger-related expenses, including acquisition advisory expenses of $653,000, core system conversion expenses of $640,000, salaries and employee benefits of $17,000, and other non-interest expenses of $81,000 related to the Inland acquisition are reflected in non-interest expense on the Consolidated Statements of Operations for the three months ended June 30, 2023.

Merger-related expenses for the six months ended June 30, 2023, including acquisition advisory expenses of $909,000, core system conversion expenses of $839,000, salaries and employee benefits of $36,000, and other non-interest expenses of $96,000 related to the Inland acquisition are reflected in non-interest expense on the Consolidated Statements of Operations for the six months ended June 30, 2023.

There were no merger related expenses in the three and six months ended June 30, 2024.

The acquisition of Inland was accounted for using the acquisition method of accounting in accordance with ASC Topic 805. Assets acquired, liabilities assumed, and consideration exchanged were recorded at their respective acquisition date fair values. Determining the fair value of assets and liabilities involves significant judgment regarding methods and assumptions

used to calculate estimated fair values. Fair value adjustments associated with this transaction were finalized during the second quarter of 2024.

The following table presents a summary of the fair values of assets acquired and liabilities assumed as of the acquisition date:

The following table provides the unaudited pro forma information for the results of operations for the three and six months ended June 30, 2023, as if the acquisition had occurred on January 1, 2023. The pro forma results combine the historical results of Inland into the Company's Consolidated Statements of Operations, including the impact of certain acquisition accounting adjustments, which includes loan discount accretion, intangible assets amortization, deposit premium accretion, fixed assets amortization, and borrowing discount amortization. The pro forma results have been prepared for comparative purposes only and are not necessarily indicative of the results that would have been obtained had the acquisition actually occurred on January 1, 2023. No assumptions have been applied to the pro forma results of operations regarding possible revenue enhancements, provision for credit losses, expense efficiencies or asset dispositions. Recognized acquisition-related expenses and other adjustments related to the timing of expenses, are included in net income in the following table:

Certain securities have fair values less than amortized cost and, therefore, contain unrealized losses. The Company evaluated the securities which had unrealized losses for potential credit losses and determined there were none. There were 338 securities available-for-sale with unrealized losses at June 30, 2024. There was one security held-to-maturity with unrealized losses at June 30, 2024. There was no allowance for credit losses for held-to-maturity debt securities at June 30, 2024 or December 31, 2023. The evaluation for potential credit losses is based upon factors such as the creditworthiness of the issuers/guarantors, the underlying collateral, if applicable, and the continuing payment performance of the securities.

Management measures expected credit losses on held-to-maturity debt securities on a collective basis by major security types. The Company's held-to-maturity portfolio contains municipal bonds that are typically rated by major rating agencies as 'Aa' or better. The Company uses industry historical credit loss information adjusted for current conditions to establish an allowance for credit losses. Accrued interest receivable on securities available-for-sale and held-to-maturity totaled $4.9 million and $4.5 million at June 30, 2024 and December 31, 2023, respectively, and are excluded from the estimate of credit losses.

The Company anticipates full recovery of amortized cost with respect to these securities by maturity. The Company does not intend to sell these securities and it is not more likely than not that the Company will be required to sell them before recovery of their amortized cost basis, which may be at maturity.

There were no proceeds from sales of securities available-for-sale, nor associated gains and losses on sales and calls of securities, for the three and six months ended June 30, 2024 and 2023, respectively.

Securities posted and pledged as collateral were $727.6 million and $464.5 million at June 30, 2024 and December 31, 2023. At June 30, 2024 and December 31, 2023, of those pledged, the carrying amounts of securities pledged as collateral for public fund deposits were $471.1 million and $390.3 million, respectively, and for customer repurchase agreements of $37.6 million and $47.8 million, respectively. At June 30, 2024, there were $192.0 million of securities pledged to the Federal Reserve Bank ("FRB"). At December 31, 2023, no securities were pledged to the FRB. At June 30, 2024 and December 31, 2023, there were no securities pledged for advances from the Federal Home Loan Bank. Other securities were pledged for letters of credit and for purposes required or permitted by law. At June 30, 2024 and December 31, 2023, there were no holdings of securities of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10% of stockholders' equity.

At June 30, 2024, the amortized cost and fair value of debt securities are shown by contractual maturity. Expected maturities may differ from contractual maturities if borrowers have the right to call or prepay obligations with or without call or prepayment penalties. Securities not due at a single maturity date are shown separately.

Originated loans and leases represent originations excluding loans initially acquired in a business combination. However, once an acquired loan reaches its maturity date, and is re-underwritten and renewed, it is internally classified as an originated loan. PCD loans are those acquired from a business combination with evidence of credit quality deterioration and are accounted for under ASC Topic 326. Acquired non-credit-deteriorated loans and leases represent loans and leases acquired with an outstanding balance from a business combination without more than insignificant evidence of credit quality deterioration and are accounted for under ASC Topic 310-20. The following tables summarize the balances for each respective loan and lease category as of June 30, 2024 and December 31, 2023:

Allowance for Credit Losses

Loans and leases considered for inclusion in the allowance for credit losses include acquired non-credit-deteriorated loans and leases, purchased credit deteriorated loans, and originated loans and leases.

The Bank's credit risk rating methodology assigns risk ratings from 1 to 10, where a higher rating represents higher risk. Risk ratings for all loans of $1.0 million or more are reviewed annually. The risk rating categories are described by the following groupings:

Pass—1-4, risk levels of borrowers and guarantors that offer a minimal to an acceptable level of risk.

Watch—5, credit exposure that presents higher than average risk and warrants greater than routine attention.

Special Mention—6, potential weaknesses that if left uncorrected may result in deterioration of the repayment prospects.

Substandard Accrual—7, weaknesses in cash flow and collateral coverage resulting in a distinct possibility of losses if not corrected. Used in limited cases, where the borrower is current on payments and an agreed plan for credit remediation.

Substandard Non-Accrual—8, well-defined weakness or weaknesses in cash flow and collateral coverage resulting in the distinct possibility of losses if not corrected.

Doubtful—9, weaknesses inherent in substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable.

Loss—10, is considered uncollectible and of such little value that its continuance as a realizable asset is not warranted.

Revolving loans that are converted to term loans are treated as new originations and are presented by year of origination. Generally, existing term loans that are re-underwritten are reflected in the table in the year of renewal.

The Company increased the allowance for credit losses - loans and leases by $2.2 million and $10.7 million for the three and six months ended June 30, 2023, respectively.

For loans individually evaluated for impairment, the Company increased allowance for credit losses - loans and leases by $1.9 million and recaptured $3.7 million for the three and six months ended June 30, 2024, and increased the allowance for credit losses for loans individually evaluated by $3.9 million and $10.6 million for the three and six months ended June 30, 2023.

For loans and leases collectively evaluated for impairment, the Company recaptured $4.5 million and increased the allowance by $1.7 million for the three and six months ended June 30, 2024. For loans and leases collectively evaluated for impairment, the Company recaptured $1.7 million and increased the allowance by $124,000 for three and six months ended June 30, 2023, respectively.

The decrease in allowance for credit losses - loans and leases was mainly due to charge-offs of individually assessed loans previously reserved for and improvement in macro-economic factors impacting the collectively assessed portfolio.

There were no borrowers receiving loan modifications during the three months ended March 31, 2024. The following table presents loans with modified terms for the three and six months ended June 30, 2024:

June 30, 2024	Term Modification	Total Modified by Class	% of Class of Loans and Leases
Commercial real estate	$ 2,501	$ 2,501	0.1 %
Commercial and industrial	1,470	1,470	0.1 %
Total loans and leases	$ 3,971	$ 3,971	0.1 %

The financial effect of the loan modifications presented above reflects a three-month weighted average extension of maturity date.

The following table presents the amortized cost basis of loans that were both experiencing financial difficulty and modified during the three and six months ended June 30, 2023, by type of modification:

Three Months Ended June 30, 2023	Payment Delay	Term Modification	Combination Term Modification and Interest Rate Reduction	Total Modified by Class	% of Class of Loans and Leases
Commercial real estate	$ 110	$ —	$ —	$ 110	0.0 %
Commercial and industrial	—	11,210	—	11,210	0.5 %
Total modified loans	$ 110	$ 11,210	$ —	$ 11,320	0.2 %

Six Months Ended June 30, 2023	Payment Delay	Term Modification	Combination Term Modification and Interest Rate Reduction	Total Modified by Class	% of Class of Loans and Leases
Commercial real estate	$ 110	$ —	$ —	$ 110	0.0 %
Commercial and industrial	8,719	51,370	385	60,474	2.9 %
Total modified loans	$ 8,829	$ 51,370	$ 385	$ 60,584	1.1 %

Loans reflected as having a payment delay included a general adjustment in loan terms similar to those of pass-rated credits. Loans having term modifications included extension of term as a result of a new borrower structure and other miscellaneous term adjustments. Loans having a combination of term modification and interest rate reduction reflect a longer amortization period and a reduced weighted average contractual rate from 8.85% to 7.01%.

As of June 30, 2024, the amortized cost of commercial real estate loans that had a payment default and were modified in the twelve months prior to default was $2.8 million, which represented 0.14% of outstanding commercial estate loans.

As of December 31, 2023, the amortized cost of commercial and industrial loans that had a payment default and were modified in the twelve months prior to default was $406,000, which represented 0.02% of outstanding commercial and industrial loans.

Modified loans are either collectively assessed based on portfolio risk segment and risk rating or individually assessed for loans exceeding $500,000. Upon the Company's determination that a modified loan has subsequently been deemed uncollectible, the loan (or a portion of the loan) is written off. Therefore, the amortized cost basis of the loan is reduced by the uncollectible amount and the allowance for credit losses is adjusted by the same amount.

The following table presents the amortized cost basis of collateral-dependent loans and leases, which are individually evaluated to determine expected credit losses as of June 30, 2024 and December 31, 2023:

Loan servicing revenue totaled $3.2 million and $3.4 million for the three months ended June 30, 2024 and 2023, respectively. Loan servicing revenue totaled $6.6 million and $6.8 million for the six months ended June 30, 2024 and 2023, respectively.

Loan servicing asset revaluation, which represents the changes in fair value of servicing assets, resulted in a downward valuation adjustment of $2.5 million and $865,000 for the three months ended June 30, 2024 and 2023, respectively. Loan servicing asset revaluation resulted in a downward valuation adjustment of $3.2 million and $209,000 for the six months ended June 30, 2024 and 2023, respectively.

The fair value of servicing rights is highly sensitive to changes in underlying assumptions. Changes in secondary market premiums and prepayment speed assumptions have the most significant impact on the fair value of servicing rights. Generally, as interest rates rise on variable rate loans, loan prepayments increase due to an increase in refinance activity, which may result in a decrease in the fair value of servicing assets. Measurement of fair value is limited to the conditions existing and the assumptions used as of a particular point in time, and those assumptions may change over time. Refer to Note 15—Fair Value Measurement for further details.

Leases

Leases [Abstract]

Leases

Note 8—Leases

The Company enters into leases in the normal course of business primarily for its banking facilities and branches. The Company's operating leases have varying maturity dates through year end 2036, some of which include renewal or termination options to extend the lease. In addition, the Company leases or subleases real estate to third parties. The Company includes lease extension and termination options in the lease term if, after considering relevant economic factors, it is reasonably certain the Company will exercise the option. In addition, the Company has elected to account for any non-lease components in its real estate leases as part of the associated lease component. The Company has also elected not to recognize leases with original lease terms of 12 months or less ("short-term leases") on the Company's Condensed Consolidated Statements of Financial Condition.

Leases are classified at the lease commencement date. Lease expense for operating leases and short-term leases is recognized on a straight-line basis over the lease term. Right-of-use assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Right-of-use assets and lease liabilities are recognized at the lease commencement date based on the estimated present value of lease payments over the lease term.

The following table summarizes the amount and balance sheet line item for our operating lease right-of-use asset and liability as of the periods indicated:

	Balance Sheet Line Item	June 30, 2024	December 31, 2023
Operating lease right-of-use asset	Accrued interest receivable and other assets	$ 10,274	$ 12,474
Operating lease liability	Accrued interest payable and other liabilities	11,729	14,268

The Company uses its incremental borrowing rate at lease commencement to calculate the present value of lease payments when the rate implicit in a lease is not known. The Company's incremental borrowing rate is based on the Federal Home Loan Bank regular advance rate, adjusted for the lease term and other factors. At June 30, 2024, the weighted average discount rate of operating leases was 2.98% and the weighted average remaining life of operating leases was 5.2 years, compared to 2.90% and 6.1 years as of December 31, 2023.

The following table presents components of total lease costs included as a component of occupancy expense on the Condensed Consolidated Statements of Operations for the following periods:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023
Operating lease cost	$ 658	$ 621	$ 1,385	$ 1,244
Short-term lease cost	179	99	266	168
Variable lease cost	411	357	834	769
Less: Sublease income	(130)	(159)	(260)	(315)
Total lease cost, net	$ 1,118	$ 918	$ 2,225	$ 1,866

Operating cash flows paid for operating lease amounts included in the measure of lease liabilities were $1.2 million and $821,000 for the three months ended June 30, 2024 and 2023, respectively. Operating cash flows paid for operating lease amounts included in the measure of lease liabilities were $2.1 million and $1.7 million for the six months ended June 30, 2024 and 2023, respectively.

The Company recorded $693,000 and $619,000 of right-of-use lease assets in exchange for operating lease liabilities for the three months ended June 30, 2024 and 2023, respectively. The Company recorded $1.1 million and $932,000 of right-of-use lease assets in exchange for operating lease liabilities for the six months ended June 30, 2024 and 2023, respectively.

During the six months ended June 30, 2024, the Company recorded $194,000 of impairment related to two branch facilities that were closed in the of the second quarter of 2024. Impairments were recognized on operating lease right-of-use assets and are reflected in other non-interest expense.

The future minimum lease payments for operating leases, subsequent to June 30, 2024, as recorded on the Condensed Consolidated Statements of Financial Condition, are summarized as follows:

	Operating Lease Commitments
2024	$ 1,898
2025	3,212
2026	2,371
2027	1,461
2028	1,136
Thereafter	2,877
Total undiscounted lease payments	12,955
Less: Imputed interest	(1,226)

The total amount of minimum rentals to be received in the future on these subleases is approximately $1.1 million, and the leases have contractual lives extending through 2028. In addition to the above required lease payments, the Company has contractual obligations related primarily to information technology contracts and other maintenance contracts.

Income Taxes

Note 10—Income Taxes

The Company uses an estimated annual effective tax rate method in computing its interim tax provision. This effective tax rate is based on forecasted annual pre-tax income, permanent tax differences and statutory tax rates.

The effective tax rate for the six months ended June 30, 2024 and 2023 was 25.5% and 25.9%, respectively. The Company recorded discrete income tax benefit of $564,000 and $140,000 related to the exercise of stock options and vesting of restricted shares for the six months ended June 30, 2024 and 2023, respectively.

Net deferred tax assets decreased to $48.9 million at June 30, 2024 compared to $50.1 million at December 31, 2023. The net decrease in the total net deferred tax assets was a result of a decreases in the allowance for credit losses - loans and leases, and loan basis and net operating losses, partially offset by an increase in unrealized losses on available-for-sale securities.

During the second quarter 2024, Illinois House Bill 4951 was enacted, which amends numerous Illinois tax law provisions, including a temporary limitation on Net Loss Deduction ("NLD") usage. For tax years 2024, 2025, and 2026, C Corporations are limited to applying a maximum of $500,000 of NLD to taxable income.

On January 17, 2024, we entered into a Letter Agreement with the Federal Reserve Bank of Chicago ("FRB") that allows the Bank to access the Bank Term Funding Program ("BTFP"). On January 22, 2024, we opened an advance of $200.0 million from the FRB as part of the BTFP. Under the terms of the BTFP, the Bank pledges securities to the FBR as collateral for available advances. The advance carries a fixed interest rate of 4.91%, and matures on January 22, 2025. Advances under the BTFP are prepayable at any time without a prepayment penalty.

Required investment in FHLB stock is $4.50 for every $100 in advances thereafter.

Securities sold under agreements to repurchase represent a demand deposit product offered to customers that sweep balances in excess of the Federal Deposit Insurance Corporation ("FDIC") insurance limit into overnight repurchase agreements. The Company pledges securities as collateral for the repurchase agreements. Refer to Note 4—Securities for additional discussion.

On October 13, 2016, we entered into a $30.0 million revolving credit agreement with a correspondent bank. Through subsequent amendments, the revolving credit agreement was reduced to $15.0 million. The amended revolving line of credit bears interest at either the Secured Overnight Financing Rate ("SOFR") plus 205 basis points or Prime Rate minus 75 basis points, not to be less than 2.00%, based on the Company's election, which is required to be communicated at least three business days prior to the commencement of an interest period. If the Company fails to provide timely notification, the interest rate will be Prime Rate minus 75 basis points. On May 24, 2024, we entered into the First Amendment to the Second Amended and restated Term Loan and Revolving Credit Agreement (the "Amendment") with the lender, which is effective May 26, 2024, and provides for: (1) the renewal of the revolving line-of-credit facility of up to $15.0 million, and (2) extending its maturity date to May 25, 2025, subject to the existing Negative Pledge Agreement dated October 11, 2018, as amended.

Subordinated Notes and Junior Subordinated Debentures

Note 13—Subordinated Notes and Junior Subordinated Debentures

In 2020, the Company issued $75.0 million in fixed-to-floating subordinated notes that mature on July 1, 2030. The subordinated notes bear a fixed interest rate of 6.00% until July 1, 2025 and a floating interest rate equal to a benchmark rate, which is expected to be the three-month SOFR, plus 588 basis points thereafter until maturity. The transaction resulted in debt issuance costs of approximately $1.7 million that is being amortized over 10 years.

As of June 30, 2024, the net liability outstanding of the subordinated notes was $74.0 million. The Company may, at its option, redeem the notes, in whole or in part, on a semi-annual basis beginning on July 1, 2025, subject to obtaining the prior approval of the Federal Reserve to the extent such approval is then required. The subordinated notes qualify as Tier 2 capital for regulatory capital purposes.

At June 30, 2024 and December 31, 2023, the Company's junior subordinated debentures by issuance were as follows:

(1) SOFR is three-month SOFR and the spread adjustment is 0.26161%

In 2004, the Company's predecessor, Metropolitan Bank Group, Inc., issued $35.0 million floating rate junior subordinated debentures to Metropolitan Statutory Trust I, which was formed for the issuance of trust preferred securities. Beginning on September 14, 2023, the interest rate reset to the three-month SOFR plus a tenor spread adjustment of 0.26161% plus 2.79% (8.39% and 8.43% at June 30, 2024 and December 31, 2023, respectively). Interest is paid on a quarterly basis. The Company has the right to redeem the debentures, in whole or in part, on any interest payment date on or after March 2009.

As part of the First Evanston acquisition, the Company assumed the obligations to First Evanston Bancorp Trust I of $10.0 million in principal amount, which was formed for the issuance of trust preferred securities. Beginning on September 15, 2023, the interest rate reset to the three-month SOFR plus a tenor spread adjustment of 0.26161% plus 1.78% (7.38% and 7.43% at June 30, 2024 and December 31, 2023, respectively), which is in effect until the debentures mature in 2035. Interest is paid on a quarterly basis. The Company has the right to redeem the debentures, in whole or in part, on any interest payment date on or after March 2010. The Company has the option to defer interest payments on the debentures from time to time for a period not to exceed five consecutive years.

As part of the Inland acquisition, the Company assumed the obligations to several trust preferred securities. Refer to Note 3—Acquisition of a Business for further details. Interest rates are calculated as the three-month SOFR plus a tenor spread adjustment of 0.26161% plus negotiated additional basis points. Refer to table above for contractual rates and interest rate spread calculation. Interest is paid on a quarterly basis.

The Trusts are not consolidated with the Company. Accordingly, the Company reports the subordinated debentures held by the Trusts as liabilities. The Company owns all of the common securities of each trust. The junior subordinated debentures qualify, and are treated as, Tier 1 regulatory capital of the Company subject to regulatory limitations. The trust preferred securities issued by each trust rank equally with the common securities in right of payment, except that if an event of default under the indenture governing the notes has occurred and is continuing, the preferred securities will rank senior to the common securities in right of payment.

Commitments and Contingent Liabilities

Commitments and Contingencies Disclosure [Abstract]

Commitments and Contingent Liabilities

6 Months Ended
Jun. 30, 2024

Note 14—Commitments and Contingent Liabilities

Legal contingencies—In the ordinary course of business, the Company and Bank have various outstanding commitments and contingent liabilities that are not recognized in the accompanying consolidated financial statements. In addition, the Company may be a defendant in certain claims and legal actions arising in the ordinary course of business. In the opinion of management, after consultation with legal counsel, the ultimate disposition of these matters is currently not expected to have a material adverse effect on the Company's Consolidated Financial Statements.

Operating lease commitments—Refer to Note 8—Leases for discussion of operating lease commitments.

Commitments to extend credit—The Company is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the Condensed Consolidated Statements of Financial Condition. The contractual or notional amounts of those instruments reflect the extent of involvement the Company has in particular classes of financial instruments.

The Company's exposure to credit loss in the event of non-performance by the other party to the financial instrument for commitments to extend credit and letters of credit is represented by the contractual or notional amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for funded instruments. The Company does not anticipate any material losses as a result of the commitments and letters of credit.

The following table summarizes the contract or notional amount of outstanding loan and lease commitments at June 30, 2024 and December 31, 2023:

	June 30, 2024			December 31, 2023

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the counterparty. Collateral is primarily obtained in the form of commercial and residential real estate (including income producing commercial properties).

Letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support public and private borrowing arrangements, bond financing and similar transactions. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers.

Commitments to make loans are generally made for periods of 90 days or less. The fixed rate loan commitments have interest rates ranging from 1.00% to 15.00% and maturities up to 2052. Variable rate loan commitments have interest rates ranging from 4.00% to 18.50% and maturities up to 2053.

Fair Value Measurement

Fair Value Disclosures [Abstract]

Fair Value Measurement

Note 15—Fair Value Measurement

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. In addition, the Company has the ability to obtain fair values for markets that are not accessible.

These types of inputs create the following fair value hierarchy:

Level 1—Quoted prices in active markets for identical assets or liabilities.

Level 2—Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3—Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the asset or liability. Unobservable inputs are used to measure fair value to the extent that observable inputs are not available. The Company's own data used to develop unobservable inputs may be adjusted for market considerations when reasonably available.

The categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to assets and liabilities.

The Company used the following methods and significant assumptions to estimate fair value for certain assets measured and carried at fair value on a recurring basis:

Securities available-for-sale—The Company obtains fair value measurements from an independent pricing service. Management reviews the procedures used by the third party, including significant inputs used in the fair value calculations. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond's terms and conditions, among other things. When market quotes are not readily accessible or available, alternative approaches are utilized, such as matrix or model pricing.

The Company's methodology for pricing non-rated bonds focuses on three distinct inputs: equivalent rating, yield and other pricing terms. To determine the rating for a given non-rated municipal bond, the Company references a publicly issued bond by the same issuer if available as well as other additional key metrics to support the credit worthiness. Typically, pricing for these types of bonds would require a higher yield than a similar rated bond from the same issuer. A reduction in price is applied to the rating obtained from the comparable bond, as the Company believes if liquidated, a non-rated bond would be valued less than a similar bond with a verifiable rating. The reduction applied by the Company is one notch lower (i.e. a "AA" rating for a comparable bond would be reduced to "AA-" for the Company's valuation). In 2024 and 2023, all of the ratings derived by the Company were "BBB-" or better with and without comparable bond proxies. All of the ratings of non-Agency backed bonds derived by the Company were investment grade. The fair value measurement of municipal bonds is sensitive to the rating input, as a higher rating typically results in an increased valuation. The remaining pricing inputs used in the bond valuation are observable. Based on the rating determined, the Company obtains a corresponding current market yield curve available to market participants. Other terms including coupon, maturity date, redemption price, number of coupon payments per year, and accrual method are obtained from the individual bond term sheets.

Equity and other securities—The Company utilizes the same fair value measurement methodology for equity and other securities as detailed in the securities available-sale portfolio above.

Servicing assets—Fair value is based on a loan-by-loan basis taking into consideration the original term to maturity, the current age of the loan and the remaining term to maturity. The valuation methodology utilized for the servicing assets begins with generating estimated future cash flows for each servicing asset, based on their unique characteristics and market-based assumptions for prepayment speeds and costs to service. The present value of the future cash flows are then calculated utilizing market-based discount rate assumptions.

Derivative instruments—Interest rate derivatives are valued by a third party, using models that primarily use market observable inputs, such as yield curves, and are validated by comparison with valuations provided by the respective counterparties. Derivative financial instruments are included in accrued interest receivable and other assets, and accrued interest payable and other liabilities in the Condensed Consolidated Statements of Financial Condition.

The following tables summarize the Company's financial assets and liabilities that were measured at fair value on a recurring basis at June 30, 2024 and December 31, 2023:

The Company did not have any transfers to or from Level 3 of the fair value hierarchy during the six months ended June 30, 2024 and 2023.

The following table presents additional information about the unobservable inputs used in the fair value measurements on recurring basis that were categorized within Level 3 of the fair value hierarchy as of June 30, 2024:

		Expected weighted average loan life	0.0 - 8.3 Years	3.6 Years	Increase

The Company used the following methods and significant assumptions to estimate fair value for certain assets measured and carried at fair value on a non-recurring basis:

Individually Evaluated Loans—The Company individually evaluates loans that do not share similar risk characteristics, including non-accrual loans. Specific allowance for credit losses is measured based on a discounted cash flow of ongoing operations, discounted at the loan's original effective interest rate, or a calculation of the fair value of the underlying collateral less estimated selling costs. Valuations of individually assessed loans that are collateral dependent are supported by third party appraisals in accordance with the Bank's credit policy. Accordingly, individually evaluated loans are classified as Level 3.

Assets held for sale—Assets held for sale consist of former branch locations and real estate previously purchased for expansion. Assets are considered held for sale when management has approved to sell the assets following a branch closure or other events. The properties are being actively marketed and transferred to assets held for sale based on the lower of carrying value or its fair value, less estimated costs to sell. The Company records assets held for sale on the Condensed Consolidated Statements of Financial Condition within accrued interest receivable and other assets.

Other real estate owned—Certain assets held within other real estate owned represent real estate or other collateral that has been adjusted to its estimated fair value, less cost to sell, as a result of transferring from the loan portfolio at the time of foreclosure or repossession and based on management’s periodic impairment evaluation. From time to time, non-recurring fair value adjustments to other real estate owned are recorded to reflect partial write-downs based on an observable market price or current appraised value of property.

Adjustments to fair value based on such non-recurring transactions generally result from the application of lower-of-cost-or-market accounting or write-downs of individual assets due to impairment. The following tables summarize the Company’s assets that were measured at fair value on a non-recurring basis, as of June 30, 2024 and December 31, 2023:

The following methods and assumptions were used by the Company in estimating fair values of other assets and liabilities for disclosure purposes:

Cash and cash equivalents and interest bearing deposits with other banks—For these short-term instruments, the carrying amount is a reasonable estimate of fair value.

Securities held-to-maturity—The Company obtains fair value measurements from an independent pricing service. Management reviews the procedures used by the third party, including significant inputs used in the fair value calculations. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond’s terms and conditions, among other things. When market quotes are not readily accessible or available, alternative approaches are utilized, such as matrix or model pricing.

Restricted stock—The fair value has been determined to approximate cost.

Loans held for sale—The fair value of loans held for sale are based on quoted market prices, where available, and determined by discounted estimated cash flows using interest rates approximating the Company’s current origination rates for similar loans adjusted to reflect the inherent credit risk.

Loan and lease receivables, net—For certain variable rate loans that reprice frequently and with no significant changes in credit risk, fair value is estimated at carrying value. The fair value of other types of loans is estimated using an exit price notion. It is estimated by discounting future cash flows, using current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities.

Deposits—The fair value of demand deposits, savings accounts, and certain money market deposits is the amount payable on demand at the reporting date. The fair value of fixed-maturity certificates of deposit is estimated by discounting future cash flows, using rates currently offered for deposits of similar remaining maturities.

Federal Home Loan Bank advances—The fair value of FHLB advances is estimated by discounting the agreements based on maturities using rates currently offered for FHLB advances of similar remaining maturities adjusted for prepayment penalties that would be incurred if the borrowings were paid off on the measurement date.

Securities sold under agreements to repurchase—The carrying amount approximates fair value due to maturities of less than ninety days.

Term Loan—The carrying amount approximates fair value given the variable interest rate and repricing of interest.

Bank Term Funding Program—The carrying amount approximates fair value given the short-term nature of the instrument.

Line of credit—The carrying amount approximates fair value given the variable interest rate and repricing of interest.

Subordinated notes—The fair value is based on available market prices.

Junior subordinated debentures—The fair value of junior subordinated debentures, in the form of trust preferred securities, is determined using rates currently available to the Company for debt with similar terms and remaining maturities.

Accrued interest receivable and payable—The carrying amount approximates fair value.

Commitments to extend credit and letters of credit—The fair values of these off-balance sheet commitments to extend credit and commercial and letters of credit are not considered practicable to estimate because of the lack of quoted market prices and the inability to estimate fair value without incurring excessive costs.

The estimated fair values of financial instruments not carried at fair value and levels within the fair value hierarchy are as follows:

Derivative Instruments and Hedging Activities Disclosure [Abstract]

Derivative Instruments and Hedge Activities

Note 16—Derivative Instruments and Hedge Activities

As required by ASC 815, the Company records all derivatives on the Condensed Consolidated Statements of Financial Condition at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether the Company has elected to designate a derivative in a hedging relationship and apply hedge accounting and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. The Company records derivative assets and derivative liabilities on the Condensed Consolidated Statements of Financial Condition within accrued interest receivable and other assets and accrued interest payable and other liabilities, respectively. The following tables present the fair value of the Company's derivative financial instruments and classification on the Condensed Consolidated Statements of Financial Condition as of June 30, 2024 and December 31, 2023:

	June 30, 2024			December 31, 2023		
		Fair Value			Fair Value

Derivatives not designated as hedging instruments						
Other interest rate derivatives	734,434	22,126	(21,931)	706,126	19,447	(19,345)

As of the effective time of the transaction reported in Note 3—Acquisition of a Business, Byline acquired and assumed two types of derivative instruments. Interest rate swap agreements previously designated as cash flow hedges of certain junior subordinated debentures issued to capital trusts had notional amounts of $42.0 million and had a fair value of $3.5 million included in accrued interest receivable and other assets. In July 2023, the Company terminated the interest rate swap agreements that resulted in a net gain of $6,000. Other interest rate swap agreements not designated as hedging instruments had notional amounts of $67.7 million and fair values of $6.2 million reported in accrued interest receivable and other assets and accrued interest payable and other liabilities.

Interest rate swaps designated as cash flow hedges—Cash flow hedges of interest payments associated with certain financial instruments had notional amounts totaling $650.0 million as of June 30, 2024 and December 31, 2023, respectively. The Company assesses the effectiveness of each hedging relationship by comparing the changes in fair value of the derivatives hedging instrument with the fair value of the designated hedged transactions. As of June 30, 2024, the cash flow hedges aggregating $650.0 million in notional amounts are comprised of $450.0 million pay-fixed interest rate swaps associated with certain deposits and other borrowings, and $200.0 million receive-fixed interest rate swaps associated with certain variable rate loans.

As of June 30, 2024, pay-fixed interest rate swaps are comprised of six effective hedges. Receive-fixed interest rate swaps totaling $200.0 million are comprised of three effective hedges totaling $150.0 million, and one $50.0 million forward-starting swaps that is effective in August of 2024.

For derivatives designated and that qualify as cash flow hedges of interest rate risk, the unrealized gain or loss on the derivatives is recorded in accumulated other comprehensive income (loss) and subsequently reclassified into interest income or expense in the same period during which the hedged transaction affects earnings. Amounts reported in accumulated other comprehensive income (loss) related to derivatives will be reclassified to interest income or expense as interest payments are made on the hedged instruments. Interest recorded on these swap transactions included $4.7 million and $3.9 million of interest income recorded during the three months ended June 30, 2024, and 2023, respectively, and is reported as a component of interest expense on deposits and other borrowings. Interest recorded on these swap transactions included $9.6 million and $5.8 million of interest income recorded during the six months ended June 30, 2024, and 2023, respectively, and is reported as a component of interest expense on deposits and other borrowings. As of June 30, 2024, the Company estimates $16.4 million of the net unrealized gain to be reclassified as a net decrease to interest expense during the next twelve months.

Accumulated other comprehensive income (loss) also includes the amortization of the remaining balance related to terminated interest rate swaps designated as cash flow hedges, which are over the original life of the cash flow hedge. In March 2023, the Company terminated interest rate swaps designated as cash flow hedges totaling $100.0 million, of which $50.0 million became effective in May 2023 and $50.0 million became effective in June 2023. The transaction resulted in a gain of $4.2 million, net of tax, which was the clean value at termination date and began amortizing as a decrease to interest expense
on the effective dates. The remaining unamortized balance was $3.3 million and $3.7 million as of June 30, 2024 and December 31, 2023, respectively.

The following table reflects the cash flow hedges as of June 30, 2024:

Notional amounts	$ 650,000
Derivative assets fair value	35,297
Derivative liabilities fair value	822
Weighted average remaining maturity	2.5 years

Receive rates are determined at the time the swaps become effective. As of June 30, 2024, the weighted average pay rates of the six effective pay-fixed hedges for $450.0 million were 1.04% and the weighted average receive rates were 5.33%. As of June 30, 2024, the weighted average pay rates of the receive-fixed interest rate swaps of $150.0 million were 8.50% and the weighted average receive rates were 7.31%.

The following table reflects the net gains (losses) recorded in accumulated other comprehensive income (loss) and the Condensed Consolidated Statements of Operations relating to the cash flow derivative instruments for the three months ended:

	June 30, 2024			June 30, 2023		
	Amount of Gain Recognized in AOCI	Amount of Net Gain Reclassified from AOCI to Income as an Increase to Net Interest Income	Amount of Gain (Loss) Recognized in Other Non-Interest Income	Amount of Gain Recognized in OCI	Amount of Gain Reclassified from OCI to Income as a Decrease to Interest Expense	Amount of Gain (Loss) Recognized in Other Non-Interest Income
Interest rate swaps	$ 1,670	$ 4,719	$ —	$ 8,709	$ 5,819	$ —

Derivatives not designated as hedges are not speculative and are used to manage the Company's exposure to interest rate movements and other identified risks but do not meet the strict hedge accounting requirements and/or the Company has not elected to apply hedge accounting. Changes in the fair value of derivatives not designated in hedging relationships are recorded directly in earnings.

Other interest rate derivatives—The total combined notional amount was $734.4 million as of June 30, 2024 with maturities ranging from August 2024 to March 2033. The fair values of the interest rate derivative agreements are reflected in other assets and other liabilities with corresponding gains or losses reflected in non-interest income. During the three months ended June 30, 2024, there were $110,000 of net transaction fees, included in other non-interest income, related to these derivative instruments. There were no transaction fees during the three months ended June 30, 2023. During the six months ended June 30, 2024 and 2023, there were $114,000 and $472,000 of net transaction fees, included in other non-interest income, related to these derivative instruments.

These instruments are inherently subject to market risk and credit risk. Market risk is associated with changes in interest rates and credit risk relates to the Company's risk of loss when the counterparty to a derivative contract fails to perform according to the terms of the agreement. Market and credit risks are managed and monitored as part of the Company's overall asset-liability management process. The credit risk related to derivatives entered into with certain qualified borrowers is managed through the Company's loan underwriting process. The Company's loan underwriting process also approves the Bank's swap counterparty used to mirror the borrowers' swap. The Company has a bilateral agreement with each swap counterparty that provides that fluctuations in derivative values are to be fully collateralized with either cash or securities.

The following table reflects other interest rate derivatives as of June 30, 2024:

Notional amounts	$ 734,434
Derivative assets fair value	22,126
Derivative liabilities fair value	21,931
Weighted average pay rates	4.23%
Weighted average receive rates	6.15%
Weighted average remaining maturity	4.0 years

Other derivatives—The Company has entered into risk participation agreements with counterparty banks to assume a portion of the credit risk related to borrower transactions. As of June 30, 2024 and December 31, 2023, for each period, the notional amount of risk participated in was $1.2 million and the notional amount of risk participated out was $2.6 million and $2.4 million, respectively. The credit risk related to these other derivatives is managed through the Company's loan underwriting process. Additionally, the Company enters into foreign currency contracts to manage foreign exchange risk associated with certain customer foreign currency transactions. These transactions were not material to the consolidated financial statements as of June 30, 2024 and December 31, 2023. The fair values of the credit derivatives is reflected in accrued interest receivable and other assets and accrued interest payable and other liabilities with corresponding gains or losses reflected in non-interest income or other comprehensive income.

The Company has agreements with its derivative counterparties that contain a cross-default provision under which if the Company defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its derivative obligations. The Company also has agreements with certain derivative counterparties that contain a provision where if the Company fails to maintain its status as a well or adequately capitalized institution, then the counterparty could terminate the derivative positions and the Company would be required to settle its obligations resulted in a net asset position.

The following table reflects amounts included in non-interest income in the Condensed Consolidated Statements of Operations relating to derivative instruments that are not designated in a hedging relationship for the six months ended June 30, 2024 and 2023:

Share-Based Payment Arrangement [Abstract]

Share-Based Compensation

Note 17 – Share-Based Compensation

In June 2017, the Company's Board of Directors adopted, and the Company's stockholder approved, the 2017 Omnibus Incentive Compensation Plan (the “Omnibus Plan”). The Omnibus Plan provides for the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, dividend equivalent rights and other equity-based, equity-related or cash-based awards. A total of 2,600,000 shares of our common stock have been reserved for issuance under the Omnibus Plan. As of June 30, 2024, there were 806,210 shares available for future grants under the Omnibus Plan.

The Company primarily grants time-based restricted share awards that vest over a one to four year period, subject to continued employment. The Company also grants performance-based restricted share awards. The number of shares which may be earned under the award is dependent upon the Company’s return on average assets, weighted equally over a three-year

period and measured against a peer group consisting of publicly-traded bank holding companies. Results will be measured cumulatively at the end of the three years. Any earned shares will vest on the third anniversary of the grant date.

During 2024, the Company granted 376,799 shares of restricted common stock, par value $0.01 per share. Of this total, 294,819 restricted shares will vest ratably over three years on each anniversary of the grant date, 12,861 restricted shares will cliff vest on the third anniversary of the grant date, and 3,083 restricted shares will vest on the first anniversary of the grant date, all subject to continued employment. In addition, 66,036 performance-based restricted shares were included in the 2024 grant. The number of performance-based shares which may be earned under the award is dependent upon the Company’s total stockholder return and return on average assets, weighted equally, over a three-year period ending December 31, 2026, measured against the KBW Regional Bank Index. Results will be measured cumulatively at the end of the three years and any earned shares will vest on the third anniversary of the grant date.

The following table discloses the changes in restricted shares for the six months ended June 30, 2024:

	Omnibus Plan	
	Number of Shares	Weighted Average Grant Date Fair Value
Beginning balance, January 1, 2024	627,271	$ 24.24

Vested	(234,308)	22.57
Forfeited	(15,148)	24.28
Ending balance outstanding at June 30, 2024	768,246	$ 23.04

A total of 234,308 restricted shares vested during the six months ended June 30, 2024. A total of 238,638 restricted shares vested during the year ended December 31, 2023. The fair value of restricted shares that vested during the six months ended June 30, 2024 was $4.9 million. The fair value of restricted shares that vested during the year ended December 31, 2023 was $5.7 million.

The Company recognizes share-based compensation based on the estimated fair value of the restricted stock at the grant date. Share-based compensation expense is included in non-interest expense in the Condensed Consolidated Statements of Operations. The fair value of the total stock return performance-based awards granted in 2024 and 2023 were calculated based on a Monte Carlo simulation, using the following assumptions:

	Performance Based Grants	
	2024	2023
Risk-free interest rate	4.47%	4.42%
Expected term (years)	2.85 years	2.85 years
Expected stock price volatility	29.28% - 33.68%	38.11% - 39.80%
Weighted average grant date fair value	$ 20.18	$ 25.20

The following table summarizes restricted stock compensation expense for the six months ended June 30, 2024 and 2023:

	Six Months Ended June 30,	
	2024	2023
Total share-based compensation - restricted stock	$ 3,687	$ 3,217

Weighted average remaining amortization period	2.1 years	2.3 years

The fair value of the unvested restricted stock awards at June 30, 2024 was $18.2 million.

In October 2014, the Company adopted the Byline Bancorp, Inc. Equity Incentive Plan (“BYB Plan”). The maximum number of shares available for grants under this plan was 2,476,122 shares. The Company granted 1,846,968 options to purchase shares under this plan. In June 2017, the Board of Directors terminated the BYB Plan and no future grants can be made under this plan. Options to purchase a total of 537,270 shares remain outstanding under the BYB Plan at June 30, 2024.

The types of stock options granted under the BYB Plan were Time Options and Performance Options. The exercise price of each option is equal to the fair value of the stock as of the date of grant. These option awards have vesting periods ranging from one to five years and have 10-year contractual terms. Stock volatility was computed as the average of the volatilities of peer group companies. All outstanding stock options were fully vested and exercisable at June 30, 2024.

The fair values of the stock options were determined using the Black-Scholes-Merton model for Time Options and a Monte Carlo simulation model for Performance Options.

Accounting Policies [Abstract]
Basis of Presentation

These unaudited interim condensed consolidated financial statements include the accounts of Byline Bancorp, Inc., a Delaware corporation (the "Company," "Byline," "we," "us," "our"), a bank holding company whose principal activity is the ownership and management of its Illinois state chartered subsidiary bank, Byline Bank (the "Bank"), based in Chicago, Illinois.

These unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X as promulgated by the Securities and Exchange Commission ("SEC"). In preparing these financial statements, the Company has evaluated events and transactions subsequent to June 30, 2024 for potential recognition or disclosure. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the financial position and results of operations for the periods presented have been included. Certain information in footnote disclosures normally included in financial statements prepared in accordance with GAAP has been condensed or omitted pursuant to the rules and regulations of the SEC and the accounting standards for interim financial statements. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Consolidated Financial Statements as of December 31, 2023 and 2022 and for each of the three years in the period ended December 31, 2023.

The Company has one reportable segment. The Company's chief operating decision makers evaluate the operations of the Company using consolidated information for purposes of allocating resources and assessing performance. Therefore, segments disclosures are currently not required.
In accordance with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 855, "Subsequent Events," the Company's management has evaluated subsequent events for potential recognition or disclosure through the date of the issuance of these condensed consolidated financial statements. No subsequent events were identified that would have required a change to the condensed consolidated financial statements or disclosure in the notes to the condensed consolidated financial statements.

Accounting Pronouncements Recently Adopted or Issued

The following reflect recent accounting pronouncements that have been adopted or are pending adoption by the Company.

Adopted Accounting Pronouncements

Fair Value Measurement (Topic 820) - In June 2022, the FASB issued ASU No. 2022-03, Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions. The guidance in the ASU clarifies that a contractual restriction on the sale of an equity security is not considered part of the unit of account on the equity security and, therefore, is not considered in measuring fair value. The ASU also requires additional disclosures about the restriction. The amendments in this update are effective for fiscal years beginning after December 15, 2023, and interim periods within those fiscal years. The Company evaluated the accounting and disclosure requirements of this update and they did not have a material effect on the consolidated financial statements.

Issued Accounting Pronouncements Pending Adoption

Business Combinations (Topic 805) - In August 2023, the FASB issued ASU 2023-05, Business Combinations—Joint Venture (JV) Formations: Recognition and Initial Measurement. The guidance requires newly-formed JVs to apply a new basis of accounting to all of its contributed net assets, which results in the JV initially measuring its contributed net assets under ASC 805-20, Business Combinations. The new guidance would be applied prospectively and is effective for all newly-formed joint venture entities with a formation date on or after January 1, 2025, with early adoption permitted. The Company is evaluating the accounting and disclosure requirements of this update and the impact of adopting the new guidance on the consolidated financial statements.

Segment Reporting – Improvements to Reportable Segment Disclosures (Topic 280) – In November 2023, the FASB issued ASU 2023-07 to enhance disclosures about significant segment expenses for public entities reporting segment information under Topic 280. It requires that a public entity disclose, on an annual and interim basis, significant expense categories for each reportable segment. Significant expense categories are derived from expenses that are 1) regularly reported to an entity's chief operating decision-maker ("CODM"), and 2) included in a segment's reported measure of profit or loss. The disclosures should include an amount for "other segment items," reflecting the difference between 1) segment revenue less significant segment expenses, and 2) the reportable segment's profit or loss measures. It requires that a public entity disclose the title and position of the CODM and how the CODM uses the reported measure of profit or loss to assess segment

performance and to allocate resources. Further it clarifies that entities with a single reportable segment must disclose both new and existing segment reporting requirements. The amendments are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Entities must adopt the guidance on a retrospective basis. The Company is

evaluating the internal control and disclosure requirements of this update and the impact of adopting the new guidance on the consolidated financial statements.

Income Taxes – Improvements to Income Tax Disclosures (Topic 740) – In December 2023, the FASB issued ASU 2023-09 to provide additional transparency into an entity's income tax disclosures primarily related to the rate reconciliation and income taxes paid information. The standard requires that public business entities disclose, on an annual basis, specific categories in the rate reconciliation and additional information for reconciling items meeting a certain quantitative threshold. The amendments also require that entities disclose on an annual basis: 1) income taxes paid (net of refunds received) disaggregated by federal (national), state, and foreign taxes and 2) the income taxes paid (net of refunds received) disaggregated by individual jurisdictions exceeding 5% of total income taxes paid (net of refunds received). The amendments are effective for public business entities for annual periods beginning after December 15, 2024. The Company is evaluating the accounting and disclosure requirements of this update and the impact of adopting the new guidance on the consolidated financial statements.
