GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Â 6 Â Â Fair Value of Financial Instrumentsâ€”The carrying values of the Companyâ€™s financial instruments, including cash, accounts receivable and accounts payable approximate their fair value due to the short-term nature of these financial instruments.Â Accounting Standards Codification ("ASC") 820, Fair Value Measurements ("ASC 820")Â defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. It also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: Â Level 1:Â Â Â Â Â Â Â Â Â Â Observable inputs such as quoted prices in active markets; Â Level 2:Â Â Â Â Â Â Â Â Â Â Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and Â Level 3:Â Â Â Â Â Â Â Â Â Â Unobservable inputs that are supported by little or no market data and that require the reporting entity to develop its own assumptions. Â The Company does not have any assets or liabilities that are required to be measured and recorded at fair value on a recurring basis other than the options liability disclosed in Note 4 - Debt, in which the Company has elected the fair value option. Â Revenue Recognitionâ€”The Company recognizes revenue from the sales of zero-emission electric vehicles and vehicle maintenance and inspection services. The Company recognizes revenue in accordance with ASC 606, Revenue from Contracts with Customers ("ASC 606"), which requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. At September 30, 2024, the Company did have a concentration of customers; oneÂ customerÂ balanceÂ accounts for approximately 74%Â of the outstanding accounts receivable. The Company did not record any revenue from the sale of vehicles for the threeÂ months ended September 30, 2024. OneÂ customerÂ accounted for 73% or $1,179,000 of the reported revenue of $1,623,260 for the nineÂ months ended September 30, 2024.Â The Company had accounts receivable, net of $1,090,399Â and $692,102Â on SeptemberÂ 30, 2024Â andÂ December 31, 2023,Â respectively. Â Â In applying ASC 606, the Company is required to: Â Â (1) identify any contracts with customers; Â Â (2) determine if multiple performance obligations exist; Â Â (3) determine the transaction price; Â Â (4) allocate the transaction price to the respective obligation; and Â Â (5) recognize the revenue as the obligation is satisfied. Â Product revenue includes the sale of electric trucks and cargo vans. These sales represent a single performance obligation and revenue is recognized when the vehicle is delivered and the customer has accepted the vehicle and signed the appropriate documentation acknowledging receipt of the vehicle. At this time, the title of the vehicle is transferred to the customer. Â Cash and Cash Equivalentsâ€”The Company considers all highly liquid investments purchased with an original or remaining maturity of three months or less to be cash equivalents. The recorded value of our restricted cash and cash equivalents approximates their fair value. The Company had $0Â restricted cash atÂ September 30, 2024 andÂ December 31, 2023, respectively.Â See Concentration of Credit Risk below in this Note. Â Marketable Securitiesâ€”The Company invests in short-term, highly liquid, marketable securities, such as U.S. Treasury notes, U.S. Treasury bonds, and other government-backed securities. The Company classifies these marketable securities as held-to-maturity, as the intent is not to liquidate them prior to the respective stated maturity date. The Company had $0Â marketable securities at SeptemberÂ 30, 2024 and December 31, 2023, respectively. Â Â 7 Â Â Accounts Receivable and Allowance for Doubtful Accountsâ€”The Company establishes an allowance for bad debts through a review of several factors, including historical collection experience, current aging status of the customer accounts, and financial condition of its customers. The Company does not generally require collateral for its accounts receivable. The Company had trade accounts receivable of $1,108,010Â as ofÂ September 30, 2024 and a recorded allowance for doubtful accounts of $17,611, resulting in a net trade accounts receivable balance of $1,090,399. The Company had trade accounts receivable of $713,031 as ofÂ December 31, 2023 and an allowance for doubtful accounts of $20,929, resulting in a net trade receivable balance of $692,102. A significant portion of the Companyâ€™s sales are made to customers who qualify for state-sponsored grant programs which can cover a significant portion, up to all of a vehicleâ€™s purchase price. Grant monies are paid directly to vehicle dealers like the Company after the customer and the dealer meet state requirements related to the transaction; reimbursements to the Company may take two to nine months from the date of request before being received. The Company does not provide an allowance for doubtful accounts related to sales made utilizing state grant funds, as those funds are guaranteed by the state(s) once awarded. The trade accounts receivable balance atÂ September 30, 2024 is from credit-worthy customers, many of whom are fully or partially funded through state government sponsored programs. Â Inventory and Inventory Valuation Allowanceâ€”The Company records inventory at the lower of cost or market, and uses a First In, First OutÂ accounting valuation methodology and establishes an inventory valuation allowance for vehicles that it does not intend to sell in the future. The Company had finished goods inventory on hand of $6,715,650Â and recorded an inventory valuation allowance of $12,429 related to three vehicles that the Company does not intend to sell in the future, resulting in a net inventory balance of $6,703,221Â atÂ September 30, 2024. The Company had finished goods inventory on hand and a related inventory valuation of $6,843,022Â and $12,429 allowance as of December 31, 2023, resulting in a net inventory balance of $6,830,593. Â Inventory Depositsâ€”Certain of our vendors require the Company to pay upfront deposits before theyÂ commence manufacturing our vehicles, and then require progress deposits through the production cycle and before the finished vehicles are shipped. These deposits are classified as inventory deposits in the consolidated balance sheet. Upon completion of production acceptance by the Company, and passage of title to the Company, deposits are reclassified to inventory. The Company had inventory deposits of $2,857,314Â and $3,300,388 as ofÂ September 30, 2024 and December 31, 2023, respectively. Deposits paid to oneÂ vendorÂ accounted for 97%Â of the deposits outstanding at September 30, 2024. Â Income Taxesâ€”The Company uses the liability method, where deferred tax assets and liabilities are determined based on the expected future tax consequences of temporary differences between the carrying amounts of assets and liabilities for financial and income tax reporting purposes. Â Accounting for Uncertainty in Income Taxesâ€”The Company evaluates its uncertain tax positions and will recognize a loss contingency when it is probable that a liability has been incurred as of the date of the financial statements and the amount of the loss can be reasonably estimated. The amount recognized is subject to estimate and management judgment with respect to the likely outcome of each uncertain tax position. The amount that is ultimately sustained for an individual uncertain tax position or for all uncertain tax positions in the aggregate could differ from the amount recognized. AtÂ September 30, 2024 and December 31, 2023, respectively, management did not identify any uncertain tax positions. Â Net Income (Loss) Per Shareâ€”Basic net income (loss) per share is calculated by dividing the Companyâ€™s net income (loss) applicable to common stockholders by the weighted average number of shares of common stock outstanding during the period. Â Diluted net loss per share is calculated by dividing the Companyâ€™s net loss applicable to common stockholders by the diluted weighted average number of shares of common stock outstanding during the period. The diluted weighted average number of shares of common stock outstanding is the basic weighted number of shares of common stock adjusted for any potentially dilutive debt or equity securities. As of September 30, 2024, 5,641,252Â shares of the Companyâ€™s common stock were subject to issuance upon the exercise of stock options then outstanding and 1,901,631Â shares of the Companyâ€™s common stock were subject to issuance upon the exercise of warrants then outstanding. Â Concentration of Credit Riskâ€”The Company has credit risks related to cash and cash equivalents on deposit with a federally insured bank, as at times it exceeds the $250,000 maximum amount insured by the Federal Deposit Insurance Corporation (â€œFDICâ€). Additionally, the Company may maintainÂ cash and short-term securities invested at Arvest Bank, National Association (â€œArvestâ€). Between FDIC and the Securities Investor Protection Corporation (â€œSIPCâ€) coverage, funds up to $750,000, which may include cash up to $500,000, are insured. In addition, Arvest provides excess insurance acquired by them from SIPC for unlimited per customer securities up to a $1 billion cap. There were no short-term securities invested at Arvest Bank at September 30, 2024. Â 8 Â Â Impairment of Long-Lived Assetsâ€”Long-lived assets, including property and equipment, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company evaluates these assets to determine potential impairment by comparing the carrying amount to the undiscounted estimated future cash flows of the related assets. If the estimated undiscounted cash flows are less than the carrying value of the assets, the assets are written down to their fair value. There was no impairment of long-lived assets, or property and equipment, atÂ September 30, 2024 and December 31, 2023, respectively. Â Goodwillâ€”Goodwill represents the excess acquisition cost over the fair value of the net tangible and intangible assets acquired. Goodwill is not amortized and is subject to annual impairment testing on or between annual tests if an event or change in circumstance occurs that would more likely than not reduce the fair value of a reporting unit below its carrying value. In testing for goodwill impairment, the Company has the option to first assess qualitative factors to determine whether the existence of events or circumstances lead to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events and circumstances, the Company concludes that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, it can conclude the assessment. If the Company concludes otherwise, the Company is required to perform a quantitative analysis to determine the amount of impairment, if any.Â Â The Company has determined that it has one reporting unit, and based on both qualitative and quantitative analysis, it is managementâ€™s assessmentÂ at September 30, 2024, that $9,583,836Â in goodwill did not experience impairment. The Company recorded a non-cash goodwillÂ impairment charge of $5,098,784Â for the year ended December 31, 2023 resultingÂ in a goodwill balance of $9,583,836 on that date. Â Research and Developmentâ€”Costs incurred in connection with the development of new products and manufacturing methods are charged to operating expenses as incurred. Research and development costs were $20,470Â and $152,351Â during the three and nineÂ months ended SeptemberÂ 30, 2024, respectively. Research and development costs were $46,734Â and $175,546Â during the three and nineÂ months ended SeptemberÂ 30, 2023, respectively. Â Stock-Based Compensationâ€”The Company accounts for employee stock-based compensation in accordance with the guidance ofÂ ASC 718, Stock-Based Compensation ("ASC 718"), which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. The fair value of the equity instrument is charged directly to compensation expense and credited

to additional paid-in capital over the period during which services are rendered. Non-cash stock-based compensation expense of $17,962Â and $1,871,386Â was recorded for the three and nineÂ months ended SeptemberÂ 30, 2024, respectively.Â Non-cash stock-based compensation expense of $1,105,074Â and $1,297,384Â was recorded for the three and nineÂ months ended SeptemberÂ 30, 2023, respectively. Â Property and Equipmentâ€” Property and equipment are stated at cost, less accumulated depreciation and amortization. The Company provides for depreciation using the straight-line method over the estimated useful lives of the assets, which range from three to five years, except leasehold improvements, which are being amortized over the life of the lease term. Property and equipment qualify for capitalization if the purchase price exceeds $2,000. Major repairs and replacements, which extend the useful lives of equipment, are capitalized and depreciated over the estimated useful lives of the property. All other maintenance and repairs are expensed as incurred. Â Leasesâ€”The Company accounts for leases in accordance with ASC 842, Leases (â€œASC 842â€). At the inception or modification of a contract, the Company determines whether a lease exists and classifies its leases as an operating or finance lease at commencement. Right-of-use ("ROU") assets represent the Companyâ€™s right to use an underlying asset for the lease term and lease liabilities represent their obligation to make lease payments arising from the lease. See Note 11Â - Leases. Â As most of the Companyâ€™s leases do not provide an implicit interest rate, the lease liability is calculated at lease commencement as the present value of unpaid lease payments using the Companyâ€™s estimated incremental borrowing rate. The incremental borrowing rate represents the rate of interest that the Company would have to pay to borrow an amount equal to the lease payments on a collateralized basis over a similar term and is determined using a portfolio approach based on information available at the commencement date of the lease. Â The lease asset also reflects any prepaid rent, initial direct costs incurred, and lease incentives received. The Companyâ€™s lease terms may include optional extension periods when it is reasonably certain that those options will be exercised. Â Leases with an initial expected term of 12 months or less are not recorded in the Company's consolidated balance sheets and the related lease expense is recognized on a straight-line basis over the lease term. For certain classes of underlying assets, the Company has elected to not separate fixed lease components from the fixed non-lease components. Â Recent Accounting Pronouncements Â ASU No. 2024-03, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses Â On November 4, 2024,Â the Financial Accounting Standards Board (â€œFASBâ€) issued Accounting Standards Update (â€œASUâ€)Â 2024-03, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses," that improves financial reporting by requiring public companies to disclose additional information about certain expenses in the notes to the financial statements. The amendments in the ASU are effective for annual reporting periods beginning after December 15, 2026, and interim periods beginning after December 15, 2027. Early adoption is permitted.Â The Company is currently evaluating the impact of adopting ASU 2023-07 and intends to adopt and report on this topic as required by this ASU. Â ASU No. 2023-07, â€œSegment Reporting (Topic 280): Improvements to Reportable Segment Disclosureâ€ Â On November 27, 2023, the Financial Accounting Standards Board (â€œFASBâ€) issued ASUÂ 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures," which requires public entities to disclose information about their reportable segments' significant expenses and other segment items on an interim and annual basis. Public entities with a single reportable segment are required to apply the disclosure requirements in ASU 2023-07, as well as existing segment disclosures and reconciliation required under Accounting Standard Codification (â€œASCâ€) 280 on an interim and annual basis. ASU 2023-07 is effective for fiscal years beginning after December 15, 2023, and for the interim periods beginning after December 15, 2024, with early adoption permitted. The Company is currently evaluating the impact of adopting ASU 2023-07 and intends to adopt and report on this topic within the Companyâ€™s Annual Report on Form 10-K for the year ending December 31, 2024. Debt Â Notes Payable Â On July 15, 2022, the Company entered into an equipment financing agreement with Wells Fargo Bank, N.A.Â in connection with the purchase of facility grounds equipment. The $25,007 loan is payable over 36 months, beginning in August 2022, with monthly payments of $521. The balance of this note is $11,983Â of which $6,252 is classified as Notes Payable - current and $5,731Â is classified as Notes Payable - long term on the Company's consolidated balance sheets on September 30, 2024. Â Effective August 20, 2023, the Company entered into aÂ premium financing agreement with First Insurance Funding to finance insurance coverages other than its directors' and officers' insurance coverages. The $467,074 loan is payable over nine months, beginning in September 2023, and bears interest at 8.2% with monthly payments of $53,675. The balance of this note, including accrued interest, is $0Â on September 30, 2024. Â Effective June 15, 2024, the Company entered into a premium financing agreement with First Insurance Funding to finance its directors' and officers' insurance coverages.Â The $232,067Â loan is payable over nine months, beginning in July 2024, and bears interest at 8.25% with monthly payments of $24,093. The balance of this note, including accrued interest, is $164,108Â on September 30, 2024. Â Effective August 20, 2024, the Company entered into aÂ premium financing agreement with AFCO Insurance Premium Finance to finance insurance coverages other than its directors' and officers' insurance coverages. The $417,051Â loan is payable over elevenÂ months, beginning in September 2024, and bears interest at 8.24% with monthly payments of $39,493. The balance of this note, including accrued interest, is $419,913Â on September 30, 2024. Â Convertible Note Â On January 18, 2024, the CompanyÂ entered into a convertible promissory note agreement ("Note") for $1,000,000 with an unrelated third-party investor ("Investor"). The origination fee of theÂ Note was $99,000 and the maturity date of theÂ Note wasÂ September 30, 2024. The Investor was entitled to convert the Note into common stock at the greater of $1.50 per share or at 90% of the share price of the Company's common stock on the maturity date. The Investor also hadÂ a security interest in the assets of the Company in the event of non-payment of the Note. In addition, the Investor received optionsÂ to purchase 800,000 share of the Company's common stock at $1.50 per share. These options expire two years from the date of theÂ Note. On May 6, 2024, the Note was cancelled and replaced with a short-term note. During the third quarter of 2024, the short-term note was converted into 505,051 shares of common stock. Â The Company has elected to measure the Note and options at fair value. In estimating the fair value of the Note, a Monte Carlo simulation model is applied. The required inputs include the current stock price, the risk-free rate and volatility of the common stock. The Note's fair value is classified as Level 2 under the fair value hierarchy as provided by ASC 820. In estimating the fair value of the options, the Black-Scholes Merton Model is used. The required inputs include the current stock price, the exercise price, the term of the options, the risk-free rate and the volatility of the common stock. The options' fair value is classified a Level 2 under the air value hierarchy as provided by ASC 820. The fair valuation of the Note and options uses inputs other than quoted prices that are observable either directly or indirectly. Â The net proceeds of $901,000 are bifurcated between the Note and the options. The amount allocated to the options is $431,405 which is the fair value on the date of the Note. The remaining proceeds received are allocated to the Note. Under the fair valuation election, both the Note and options are remeasured to their respective fair values at the reporting date. Changes in fair values for the Note and options are recorded as an unrealized gain or loss on convertible note fair value in Other (Expense)/Income in the Company's consolidated statements of operations for the three and nineÂ months ended SeptemberÂ 30, 2024. As a result of this election, the Company recorded an unrealized gain of $0Â and an unrealized loss $556,174Â for the three and nineÂ months ended SeptemberÂ 30, 2024 for the Note, respectively, and an unrealized gainÂ of $403,625Â andÂ an unrealized loss of $39,609 for the three and nineÂ months ended SeptemberÂ 30, 2024 for the Options, respectively. Â GreenPower Litigation Â On December 17, 2019, GreenPower Motor Company Inc., a public company incorporated under the laws of British Columbia (â€œGreenPowerâ€), of which Phillip W. Oldridge, the Companyâ€™s Chief Executive Officer and Chairman of the Board,Â previously served as a senior officer and a member of its board of directors, filed a notice of civil claim, captioned GreenPower Motor Company Inc. v. Phillip Oldridge et al., Action No. S-1914285, in the Supreme Court of British Columbia, against Phillip Oldridge, his trust, Envirotech Drive Systems, Inc.Â and certain other companies affiliated therewith. On

February 2, 2020, the Company and the other companies affiliated therewith named in the notice of civil claim filed a response to the civil claim in which they denied certain of the allegations. Fact discovery, through document disclosure and examinations for discoveries, in this matter remains ongoing. The Company believes it has meritorious defenses against GreenPower's claims and intends to vigorously defend itself against those claims. Â On or about July 18, 2021, GreenPower and GP GreenPower Industries Inc. (collectively â€œthe GreenPower entitiesâ€), filed a counterclaim against David Oldridge, Phillip Oldridge, the Company and other companies in Supreme Court of British Columbia Action No. S207532. The pleadings in this lawsuit have not closed and the Company intends to vigorously defend itself against the counterclaim. Â On February 8, 2022, GreenPower Motor Company, Inc., a Delaware corporation, and GreenPower Motor Company Inc., a Canadian corporation, filed a complaint captioned GreenPower Motor Company, Inc. v. Phillip Oldridge, et al., Case No. 5:22-cv-00252 in the United States District Court for the Central District of California. The complaintâ€™s allegations are centered around the same assertions in the pending Canadian litigation. Â On May 10, 2022, the Company, together with other defendants, filed a Motion to Dismiss and/or Stay the lawsuit in the United States District Court for the Central District of CaliforniaÂ pending the outcome of the Canadian litigation. The Court issued stay of this case pending resolution of parallel litigation in Canada between similar parties. GreenPower and defendants have agreed that the U.S. GreenPower case will not proceed while Canadian litigation is pending. The Company believes that it has meritorious defenses against the Greenpower entities' claims and intends to vigorously defend itself against such claims. Â 13 Â Â Â Â 11. Leases Â Operating leases Â The Company has active operating lease arrangements for office space and warehouse facilities. The Company is typically required to make fixed minimum rent payments relating to its right to use the underlying leased assets. Although these leases have terms that are either month-to-month or terms that are one year or less (with renewal options), the Company concluded in the fourth quarter of 2023 that the term renewal options are reasonably certain to be exercised. As a result of changes in certain circumstances related to some of the Company'sÂ short-term leases, the Company was required to classify such leasesÂ as operating leases in accordance with the provisions of ASC 842. Therefore, the Company recognizedÂ operating lease liabilitiesÂ withÂ corresponding ROUÂ assets based on the present value of the minimum rental payments of such leases.Â Â OnÂ March 28, 2023,Â the Company entered into the Berthaphil Sublease with Berthaphil to sublease approximatelyÂ 3,600Â squareÂ yards of a warehouse building based in the Clark Freeport Zone in the Philippines. The term of the Berthaphil Sublease isÂ twoÂ years andÂ twoÂ months with a turnover date ofÂ July 1, 2023 (the "turnover date") and a rental commencement ofÂ September 1, 2023.Â However, the warehouse building wasÂ notÂ available for use to the Company untilÂ the early part of theÂ fourthÂ quarter ofÂ 2023.Â Therefore, the commencement date was deferred untilÂ theÂ fourthÂ quarter ofÂ 2023,Â which is when the Company was given access to use the warehouse building.Â There was a grace period ofÂ twoÂ months for rental payments starting from the turnover date. The monthly rent for theÂ firstÂ year is $15,000, escalating to $15,750Â for theÂ secondÂ year and $16,530Â for the remaining term. In addition to the monthly rent, the Company is required to pay an additionalÂ 5% of the monthly rent as common area maintenance costs.Â The Berthaphil SubleaseÂ mayÂ be renewed for an additional period that is mutually agreed upon subject to certain terms and conditions. The Company intends to use the leased space as a production facility as it seeks to expand its business presence in the region and the United States. The Company accounted for this lease as an operating lease under ASC 842 and recorded an operating lease liability and a corresponding ROU asset for this lease. Â On July 1, 2024, the Company entered into a month-to-month lease contract with Southern Management Corporation to lease a residence in Osceola, Arkansas for the purpose of housing certain of the Company's employees. The monthly lease cost is $3,000. This lease is treated as a short-term lease expense. Â On August 26, 2024, the Company entered into a one-year lease contract with 120 Park SD, LLC to lease a location in Manalapan, New Jersey with the purpose of servicing the Company's New Jersey customers. The monthly lease cost is $2,900 and at the end of the one-year lease term, the lease converts into a month-to-month arrangement. This lease is treated as a short-term lease expense. Â The Company's lease agreements do not provide an implicit borrowing rate. Therefore, the Company used a benchmark approach to derive an appropriate incremental borrowing rate. The Company benchmarked itself against other companies of similar credit ratings and comparable credit quality and derived an incremental borrowing rate to discount each of its lease liabilities based on the remaining lease terms. Â ROU assets at SeptemberÂ 30, 2024Â were $316,767. Short-term and long-term operating lease liabilities were $313,479Â and $0Â at SeptemberÂ 30, 2024, respectively. Â 14 Â Â Â Quantitative information regarding the Companyâ€™s leases is as follows: Â Â Â Nine Months Ended Â Â Â September 30, Â Â Â 2024 Â Â 2023 Â Lease expenses Â Â Â Â Â Â Â Â Â Operating lease expenses Â $267,803Â Â $â€”Â Short-term lease expenses Â Â 66,831Â Â Â 177,397Â Total lease cost Â $334,634Â Â $177,397Â Other information Â Â Â Â Â Â Â Â Â Cash paid for the amounts included in the measurement of lease liabilities for operating leases: Â Â Â Â Â Â Â Â Â Operating cash flows Â $259,048Â Â $â€”Â Weighted-average remaining lease term (in years): Â Â Â Â Â Â Â Â Â Operating leases Â Â 1.00Â Â Â â€”Â Weighted-average discount rate: Â Â Â Â Â Â Â Â Â Operating leases Â Â 14%Â Â â€”% Â Future minimum payments under operating leases are as follows: Â 2024 Â $87,924Â 2025 Â Â 248,873Â Total payments Â $336,797Â Â Â Â 12. Subsequent Events Â The Company evaluates subsequent events that have occurred after the balance sheet date but before the consolidated financial statements are issued. There are two types of subsequent events: (1) recognized, or those that provide additional evidence with respect to conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing financial statements, and (2) non-recognized, or those that provide evidence with respect to conditions that did not exist at the date of the balance sheet but arose subsequent to that date.Â Â Amended and Restated Standby Equity Purchase Agreement Â On October 31, 2024 (the "Effective Date"), the Company entered into an amended and restated standby equity purchase agreement (the "A&R SEPA") that amends and restates in its entirety the Original SEPA with Yorkville. The terms of the A&R SEPA are substantially consistent with the terms of the Original SEPA, except that, pursuant to the A&R SEPA, Yorkville agreed to advance to the Company, subject to certain conditions, the principal amount of $3,000,000 (the "Prepaid Advance") whichÂ be evidenced by convertible promissory notes in two tranches. The first tranche of the Prepaid Advance was disbursed on October 31, 2024 in the principal amount of $2,000,000. Pursuant to the A&R SEPA, a discount of 5% was applied to the principal amount. The net cash amount received (less discount and fees) was approximately $1,752,000. Â Maddox acquisition Â On October 30, 2024, the Company entered into a membership interest purchase agreement (the â€œMIPAâ€) with Â Maddox Industries, LLC (â€œMaddox Industriesâ€), a provider of government contracting solutions based in Puerto Rico, and Jason Maddox, the sole member of Maddox Industries, to acquire all of the outstanding membership interests in Maddox Industries from Mr. Maddox. As consideration for the acquisition of Maddox Industries, at the closing, the Company will issue 3,100,000 shares of the Companyâ€™s common stock to Mr. Maddox (the â€œStock Considerationâ€), provided that the number of shares of common stock constituting the Stock Consideration will be reduced by any number of whole shares of common stock exceeding 19.99% of the outstanding shares of common stock as of immediately prior to the closing. As additional consideration for the acquisition, during the six-month period following the closing (the â€œEarnout Periodâ€), Mr. Maddox will be eligible to receive up to six monthly cash payments in an aggregate amount of up to $1 million (each such monthly payment, an â€œEarnout Paymentâ€) in accordance with the terms of the MIPA. The Earnout Payment payable to Mr. Maddox for each calendar month during the Earnout Period, if any, will be equal to the aggregate amount of gross revenue received by Maddox Industries in respect of any accounts receivable from any existing customer outstanding as of the closing during such calendar month, provided that all Earnout Payments payable by the Company to Mr. Maddox under the MIPA may not exceed $1 million. The acquisition includes a three-year contract manufacturing agreement to be executed at the Companyâ€™s expansive 580,000 square-foot facility in Osceola, Arkansas. The Earnout Payment payable to Mr. Maddox for each calendar month during the Earnout Period, if any, will be equal to the aggregate amount of gross revenue received by Maddox Industries in respect of any accounts receivable from any existing customer outstanding as of the closing during such calendar month, provided that all Earnout Payments payable by us to Mr. Maddox under the MIPA may not exceed $1 million. The acquisition includes a three-year contract manufacturing agreement to be executed at our expansive 580,000 square-foot facility in Osceola, Arkansas. The Board appointed Jason Maddox our President effective as of October 16, 2024. Â Factors Affecting Our Performance Â We believe that the growth and future success of our business depend on various opportunities, challenges and other factors, including the following: Â Availability of government subsidies, rebates and economic incentives. We believe that the availability of government subsidies, rebates, and economic incentives is currently a critical factor considered by our customers when purchasing our zero-emission systems or converting their existing vehicles to zero-emission-electric or hybrids, and that our growth depends in large part on the availability and amounts of these subsidies and economic incentives. As an alternative to being dependent on such funding, however, we are exploring the possibility of leasing our vehicles to our customers as well. Â New customers. We are competing with other companies and technologies to help fleet managers and their districts/companies more efficiently and cost-effectively manage their fleet operations. Once these fleet managers have decided they want to buy from us, we still face challenges with helping them to obtain financing options to reduce the cost barriers to purchasing. We may also encounter customers with inadequate electrical services at their facilities that may delay their ability to purchase from us. Â 16 Â Â Dependence on external sources of financing of our operations. We have historically depended on external sources ofÂ capital to finance our operations. Accordingly, our future performance will depend in part upon our ability to achieve independence from external sources for the financing of our operations. Â Investment in growth. We plan to continue to invest for long-term growth. We anticipate that our operating expenses will continue increasing forÂ the foreseeable future as we invest in research and development to enhance our zero-emission electric vehicles and systems; design, develop and manufacture our commercial fleet vehicles and their components; increase our sales and marketing to acquire new customers; and increase our general and administrative functions to support our growing operations. We believe that these investments will contribute to our long-term growth, although they will adversely affect our results of operations in the near term. In addition, the timing of these investments can result in fluctuations in our annual and quarterly operating results. Â Zero-emission electric vehicle experience. Our dealer and service network is not currently completely established, although we do have certain agreements in place. One issue they may have, and we may encounter, is finding appropriately trained technicians with zero-emission electric fleet vehicle experience. Our performance will depend on having a robust dealer and service network, which will require appropriately trained technicians to be successful. Because vehicles that utilize our technology are based on a different technology platform than traditional internal combustion engines, individuals with sufficient training in zero-emission electric vehicles may not be available to hire, and we may need to expend significant time and expense training the employees we do hire. If we are not able to attract, assimilate, train or retain additional highly qualified personnel in the future, or do so cost-effectively, our performance would be significantly and adversely affected. Â Market growth. We believe the market for all-electric solutions for alternative fuel technology, specifically all-electric vehicles, will continue to grow as more purchases of new zero-emission vehicles and as more conversions of existing fleet vehicles to zero-emission vehicles are made. However, unless the costs to produce such vehicles decrease dramatically, purchasers of our products will continue to depend in large part on financing subsidies from government agencies. We cannot be assured of the continued availability, the amounts of such assistance to our customers, or our ability to access such funds. Â Sales revenue growth from additional products. We seek to add to our product offerings additional zero-emission vehicles of all sizes to be marketed, sold, warrantied and serviced through our developing distribution and service network, as well as add other ancillary products discussed elsewhere in this report. Â Third-party contractors, suppliers and manufacturers. We rely upon third parties to supply us with raw materials, parts, components and services in adequate quantity in a timely manner and at reasonable prices, quality levels, and volumes acceptable to us. Â Components of Results of Operations Â Sales Â Sales are recognized from the sales of new, purpose-built zero-emission electric vehicles and from providing vehicle maintenance and safety inspection services. Sales are recognized in accordance with ASCÂ 606, as discussed in Note 2 to our unaudited consolidated financial statements included in this Quarterly Report. Â Cost of Sales Â Cost of sales includes those costs related to the development, manufacture, and distribution of our products. Specifically, we include in cost of sales each of the following: material costs (including commodity costs); freight costs; labor and other costs related to the development and manufacture of our products; and other associated costs. Cost of sales also includes costs related to the valuation of inventory due to impairment, obsolescence, or shrinkage. Â General and Administrative Expenses Â Selling, general and administrative expenses include all corporate and administrative functions that support our company, including personnel-related expense and stock-based compensation costs; costs related to investor relations activities; including product recall and customer satisfaction program costs; consulting costs; marketing-related expenses; and other expenses that cannot be included in cost of sales. Â Consulting and Research and Development Costs Â These expenses are related to our consulting and research and development activity. Â Other (Expense)Income, Net Â Other (expense)/incomeÂ include non-operating income and expenses, including interest income and expense. Â 17 Â Â Â Provision for Income Taxes Â We account for income taxes in accordance with ASC 740Â which requires the recognition of deferred income tax assets and liabilities for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under ASC 740, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that we will not realize tax assets through future operations. Because we have incurred only losses to this point, no provision for income taxes has been made in 2024. Â Results of Operations Â The following discussion compares our results of operationsÂ for the three and nine months ended September 30, 2024 to the corresponding periods ended September 30, 2023: Â Sales Â Sales for the three months endedÂ September 30, 2024 and 2023 wereÂ $0Â andÂ $100,024, respectively. Sales for the three months ended SeptemberÂ 30, 2023Â consisted of logistics cargo vans. The decrease in sales was primarily due to among other things, less favorable market conditions in 2024 as compared to 2023 andÂ our focus during the third quarter of 2024 on building up our facility for future anticipated sales.Â Â Sales for the nineÂ months endedÂ September 30, 2024 and 2023 wereÂ $1,623,260Â andÂ $2,756,103, respectively. Sales for the nine months ended September 30, 2024 consisted primarily of 11Â logistics cargo van, three cab and chassis trucks, one passenger van, two zippers, one sweeper and one forklift. Sales for the nine months ended September 30, 2023 consisted of 25Â logistics cargo vans and one cab and chassis truck. The decrease in sales was primarily due to among other things, lower number of units sold, unfavorable product mix and less favorable market conditions in 2024 as compared toÂ 2023. Â Cost of Sales Â Cost of sales for the three months ended September 30, 2024 and 2023 wereÂ $133,931Â and $80,283, respectively. Cost of sales for the nineÂ months ended September 30, 2024 and 2023 wereÂ $1,245,149Â and $1,739,005, respectively. Cost of sales for the three months ended September 30, 2024 consisted primarily of certain service costs related to our vehicles. Â Gross margin percentage wasÂ 20% for the three months ended SeptemberÂ 30, 2023.Â Gross margin percentage wasÂ 23% and 37% for the nineÂ months ended SeptemberÂ 30, 2024 and 2023, respectively. The decrease in gross margin percentage was primarily due to less favorable product mix. Â General and Administrative ("G&A") Expenses Â G&A expenses were $1,395,921Â and $2,578,727Â for the three months ended September 30, 2024 and 2023, respectively. G&A expenses decreased by $1,182,806 primarily due to aÂ decrease of $1,087,112Â in stock compensation expense as a result of equity awards that vested immediately during the three months ended September 30, 2023, and lowerÂ costs of $95,694Â during the three months ended September 30, 2024. Â G&A expenses were $6,056,919 and $6,785,405Â for the nineÂ months ended September 30, 2024 and 2023, respectively. G&A expenses decreased by $728,486 primarily due lower legal and litigation costs of $489,484, lower marketing costs of $251,888, lower travel costs of $310,224, lower contract labor costs of $291,235, lower payrollÂ costs of $115,231, lower investor relations costs and lower other expenses of $37,223, mostÂ of which were due to our cost savings initiative implemented to conserve spending, partially offset byÂ an increase of $574,007 in stock compensation expense due to equity awarded during the firstÂ quarter of 2024Â that vested immediately, andÂ higher insurance costs of $192,792 due to higher overall premiums during the nine months ended September 30, 2024. Â 18 Â Â Consulting Expenses Â Consulting expenses were $55,000Â and ($13,312)Â for the three months ended September 30, 2024 and 2023, respectively. Consulting expenses were $55,000Â and $207,930Â for the nineÂ months ended September 30, 2024 and 2023, respectively. The increase in consulting expenses for the three months ended September 30, 2024 versus the same period in 2023 was due to search and other labor costs for employees in anticipation of future expansion in the Osceola, Arkansas region. The decrease in consulting expenses for the nine months ended September 30, 2024 compared to the same period in 2023 was due to a decrease in search costs for key employees. Â Research and Development ("R&D") Expenses Â R&D expenses were $20,470Â and $46,734Â for the threeÂ months ended September 30, 2024 and 2023, respectively, as the level of activity was significantly reduced.Â R&D expenses were $152,351Â and $175,546Â for the nineÂ months ended September 30, 2024 and 2023, respectively as the level of activity wasÂ significantly reduced. Â Goodwill Impairment Charge Â Due to our declining stock price, we conducted an impairment test related to our goodwill. As a result of this test, we recorded an impairment charge of $3,392,129 related to our goodwill for the three and nine months ended September 30, 2023. No impairment charges were recorded for the three and nine months ended September 30, 2024. Â Unrealized loss on financial instruments at fair value Â We recorded a non-cash unrealized gainÂ of $403,625Â and an unrealized loss of $595,783 for the three and nineÂ months ended SeptemberÂ 30, 2024, respectively, on our financial instruments that we elected to measureÂ at fair value.Â Â Cash Flows Â The following table summarizes our cash flows from operating, investing, and financing activities for the nine months ended September 30, 2024

and 2023: Â Â Â Nine months ended September 30, Â Â Â 2024 Â Â 2023 Â Cash flows used in operating activities Â $ (2,848,876) Â $ (4,039,576) Cash flows (used in) provided by investing activities Â Â (229,029) Â Â 2,306,312 Â Cash flows provided by (used in) financing activities Â Â 3,303,840 Â Â Â (213,161) Net change in cash, restricted cash and cash equivalents Â $ 225,935 Â Â $ (1,946,425) Â Operating Activities Â Net cash used in operating activities for the nineÂ months ended SeptemberÂ 30, 2024Â was $2,848,876, primarily due to a net loss of $6,644,237, partially offset by changes in operating assets and liabilities, net of $1,094,222Â andÂ non-cash operating charges of $2,701,139. The changes in operating assets and liabilities, net was due to a decrease in inventory deposits of $443,074, a decrease in inventory ofÂ $127,372, a decrease in other assets of $232,102, an increase in accounts payable of $317,456 and an increase in accrued liabilities of $700,014,Â partially offset by an increase in accounts receivable of $398,297, a decrease in other liabilities of $215,109 and an increase in prepaid expenses of $112,390. Â Net cash used in operating activities for the nineÂ months ended SeptemberÂ 30, 2023 was $4,039,576, primarily due to a net loss of $9,510,360, partially offset by changes in operating assets and liabilities, net of $677,631 andÂ non-cash operating charges of $4,793,153, of which $3,392,192 was related to a non-cash goodwill impairment charge and $1,297,384 was related to non-cash stock-based compensation expense. The changes in operating assets and liabilities, net was due to aÂ decrease in accounts receivable of $449,322 as cash collections outpaced sales, a decrease of $1,696,180 in inventory deposits, a decrease in prepaid expenses of $3,190, an increase in accounts payable of $90,272, partiallyÂ offset by an increase in inventory of $1,210,921, an increase in other assets of $112,382 and decrease in accrued liabilities of $238,030. Â We expect cash used in operating activities to fluctuate significantly in future periods as a result of a number of factors, some of which are outside of our control, including, among others: the success we achieve in generating revenue; the success we have in helping our customers obtain financing and government incentives to subsidize their purchases of our products; our ability to efficiently develop our dealer and service network; the costs of batteries and other materials utilized to make our products; the extent to which we need to invest additional funds in research and development; and the amount of expenses we incur to satisfy future warranty claims. Â Investing Activities Â Net cash used inÂ investing activities during the nineÂ months ended SeptemberÂ 30, 2024 was $229,029, primarily from the purchase of property and equipment used in our current operations. Â Net cash provided by investing activities duringÂ the nineÂ months ended SeptemberÂ 30, 2023 was $2,306,312, primarily due to the sale of our marketable securities of $2,342,643, partially offset by $36,331 of capital expenditures.Â Â Financing Activities Net cash provided byÂ financing activities during the nineÂ months ended September 30, 2024 was $3,303,840, primarily due to proceeds from the issuance of our common stock of $1,799,248,Â proceeds from the issuance of a convertible note of $901,000, proceeds from the Oldridge loan of $300,000 and proceeds from issuance of debt for $648,937, partially offset by the repayment of debt of $345,345.Â Â Net cash usedÂ inÂ financingÂ activities duringÂ the nineÂ months ended SeptemberÂ 30, 2023 was $213,161, primarily due to the principal repayments on debt.Â Â 19 Â Â Liquidity and Capital Resources Â As of September 30, 2024, we had cash and cash equivalents of $682,654Â and working capital of approximately $8,666,627. We believe that our existing cash andÂ cash equivalentsÂ will be sufficient to fund our operations during the next twelve months and beyond. However, we may not successfully execute our business plan, and if we do not, we may need additional capital to continue our operations and support the increased working capital requirements associated with the fulfillment of purchase orders. Â In February 2022, we announced Osceola, Arkansas as the site of ourÂ state-of-the-art manufacturing facility and new corporate offices. The facility of approximately 580,000 square feet is currently our headquarters and is planned to become ourÂ primary manufacturing facility. We areÂ currently in final stages of due diligence and contract negotiation with the City of Osceola and the Arkansas Economic Development Commission.Â However, additional debt and/or equity capital will be required in order to purchase related equipment and set up production lines and is expected to require significant investment through the foreseeable future. We expect that investments and employee hiring requirements over the next 10 years will provide an opportunity for usÂ to obtain significant local tax incentives, provided that the qualifying expenditures are made, and other related conditions are met. We are not currentlycontractually obligated to make these expenditures. Â Line of Credit Â Effective August 4, 2022, we secured a line of credit from Centennial Bank. Borrowings under the line of credit boreÂ interest at 2.75% annually. There wasÂ no maturity date for the line, but Centennial Bank couldÂ at any time, in its sole discretion and without cause, demand usÂ to immediately repay any and all outstanding obligations under the line of credit in whole or in part. The line wasÂ secured by the cash and cash equivalents maintained by us in ourÂ Centennial Bank accounts. Borrowings under the line couldÂ not exceed cash, cash equivalents, and marketable securities balances up to $1,000,000. This line was closed during the third quarter of 2023 and there was no principal amount outstanding at the time of closing. Â Equity Line of Credit Â On the Effective Date, we entered into the Original SEPA with Yorkville which was amended and restated on October 31, 2024 pursuant to the A&R SEPA (together with the Original SEPA, the â€œSEPAâ€). Pursuant to the SEPA, Yorkville will advance to us, subject to the satisfaction of certain conditions as set forth therein, the principal amount of $3 million (the â€œPre-Paid Advanceâ€), which will be evidenced by convertible promissory notes (the â€œPromissory Notesâ€) in two tranches. The Promissory Notes will accrue interest on the outstanding principal balance at an annual rate equal to 0%, which will increase to an annual rate of 18% upon the occurrence of an Event of Default (as defined in the Promissory Notes) or a Registration Event (as defined in the Promissory Notes) for so long as such event remains uncured. The Promissory Notes will mature on November 13, 2025, which may be extended at the option of Yorkville. The Promissory Notes are convertible at a conversion price equal to the lower of (i) $2.1480 per share or (ii) 93% of the lowest daily volume weighted average price of our common stock on Nasdaq as reported by Bloomberg L.P. (â€œVWAPâ€) during the five consecutive trading days immediately preceding the conversion date (but no lower than the â€œfloor priceâ€ then in effect, which is $0.3580 per share, subject to adjustment from time to time in accordance with the terms contained in the Promissory Notes). Â The first tranche of the Pre-Paid Advance was disbursed on October 31, 2024 in the principal amount of $2 million. The second tranche of the Pre-Paid Advance will be in the principal amount of $1 million and advanced on the second trading day after the effectiveness of the registration statement filed for resale of all shares of common stock that are to be offered and sold to Yorkville pursuant to the SEPA. At the closing of each Pre-Paid Advance, Yorkville will advance to the Company the principal amount of the applicable tranche of the Pre-Paid Advance, less a discount in the amount equal to 5% of the principal amount of such tranche of the Pre-Paid Advance netted from the purchase price due and structured as an original issue discount. SeeNote 5 - Stockholders' Equity and Note 12 - Subsequent Events for additional information related to the SEPA. Â Â Capital Expenditures Â We do not have any contractual obligations for ongoing capital expenditures at this time. We do, however, purchase equipment necessary to conduct our operations on an as needed basis and will continue increasing those expenditures as we transferÂ assembly and corporate functions to theÂ Osceola Arkansas facility. Â Contractual Obligations Â Other than as disclosed in the unaudited consolidated financial statements in Item 1 of this Quarterly Report on Form 10-Q for the period ended September 30, 2024, we haveÂ no contractual obligations. Â Critical Accounting Policies and Significant Judgments and Estimates Â Our consolidated financial statements are prepared in accordance with GAAP. The preparation of our consolidated financial statements and related disclosures requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, costs and expenses, and the disclosure of contingent assets and liabilities in our financial statements. We base our estimates on historical experience, known trends and events and various other factors that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. We evaluate our estimates and assumptions on an ongoing basis. Our actual results may differ from these estimates under different assumptions or conditions. Â We define our critical accounting policies as those accounting principles under GAAP that require us to make subjective estimates and judgments about matters that are uncertain and are likely to have a material impact on our financial condition and results of operations as well as the specific manner in which we apply those principles. Â Smaller Reporting Company Status Â We are a â€œsmaller reporting companyâ€ as defined in Rule 12b-2 under the Exchange Act. We may continue to be a smaller reporting company if either (i) the market value of our shares held by non-affiliates is less than $250 million or (ii) our annual revenue is less than $100 million during the most recently completed fiscal year and the market value of our shares held by non-affiliates is less than $700 million as of the last business day of our most recently completed second fiscal quarter. We may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not smaller reporting companies, including reduced disclosure about our executive compensation arrangements. Â 20 Â Â ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK Â We are exposed to market risks in the ordinary course of our business. We do not currently face material market risks such as interest rate fluctuation risk and foreign currency exchange risk. Our cash and cash equivalents include cash in readily available checking and money market accounts. These investments are not dependent on interest rate fluctuations that may cause the principal amount of these investments to fluctuate, and we do not expect such fluctuation will have a material impact on our financial conditions. If we issue additional debt in the future, we will be subject to interest rate risk. The majority of our expenses are denominated in the U.S. dollar. Â We may face risks associated with the costs of raw materials, primarily batteries, as we go into production. To the extent these and other risks materialize, they could have a material effect on our operating results or financial condition. We currently anticipate that our international selling, marketing and administrative costs related to foreign sales, if any, will be largely denominated in United States dollars, which may create foreign currency exchange risk exposure. Â ITEM 4. CONTROLS AND PROCEDURES Â Limitations on Effectiveness of Controls and Procedures Â In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, cannot provide absolute assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints, and that management is required to apply judgment in evaluating the benefits of possible controls and procedures relative to their costs. Similarly, an evaluation of controls cannot provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, have been detected. Â Â Evaluation of Disclosure Controls and Procedures Â Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act

of 1934, as amended (the â€œExchange Actâ€)) as of SeptemberÂ 30, 2024. Based on this evaluation, our Chief Executive Officer and our Chief Financial Officer have concluded that our disclosure controls and procedures were not effective as of such time due to the material weakness described below: Â We have been unable to maintain appropriate segregation of duties. We have yet to fully resolve such deficiencies as of the date of this filing. We have engaged, and continue to seek additional, experienced accounting professionals with relevant expertise to provide additional accounting services to supplement our efforts and mitigate the negative effects of our limited accounting staff. Â Changes in Internal Control over Financial Reporting Â There was no change in the Companyâ€™s internal control over financial reporting during the most recent three-month period covered by this report that has materially affected, or is reasonably likely to materially affect, the Companyâ€™s internal control over financial reporting. Â 21 Â Â PART II. OTHER INFORMATION Â ITEM 1. LEGAL PROCEEDINGS Â Except as described in Note 10 - Contingencies, there were no material developments during the quarter ended September 30, 2024 in the legal proceedings described in our Annual Report on Form 10-K for the year ended December 31, 2023 Â ITEM 1A. RISK FACTORS Â There were no material changesÂ from the risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2023.Â Â ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS Â On September 16, 2024, the Company, through a private placement exempt from registration under the Securities Act, sold 60,241 shares of Common Stock at a price of $1.66 per share and a warrant to purchase up to 60,241 shares of Common Stock to a private investor for a purchase price of $1.66 (exclusive of proceeds from any future exercise of the warrant). The warrant has a term of two years and is exercisable at any time after September 16, 2024, at an exercise price of $1.66 per share. Â ITEM 3. DEFAULTS UPON SENIOR SECURITIES Â None. Â ITEM 4. MINE SAFETY DISCLOSURES Â Not applicable. Â Â Â Â ITEM 5. OTHER INFORMATION Â None. Â 22 Â Â Â Â Â ITEM 6. Summary of Significant Accounting Policies Â Basis of Presentationâ€”The consolidated financial statements and related disclosuresÂ include the consolidated balance sheet accounts as ofÂ September 30, 2024 and the consolidated results of operations for the three and nine months ended September 30, 2024 of Envirotech Vehicles, Inc.Â and subsidiaries.Â These consolidated financial statements are unaudited, pursuant to the rules and regulations of the SEC. Certain information and footnote disclosures normally included in financial statements prepared in accordance with United States ("U.S.")Â generally accepted accounting principles (â€œGAAPâ€) have been condensed or omitted pursuant to such rules and regulations. In the Companyâ€™s opinion, these unaudited financial statements include all adjustments (consisting only of normal recurring adjustments) necessary for the fair statement of the results for the interim periods. These unaudited financial statements should be read in conjunction with the Company'sÂ audited financial statements for the years endedÂ December 31, 2023 and 2022 included in the Companyâ€™s Annual Report on Form 10-K filed with the SEC on MarchÂ 28, 2024. The results of operations for the three and nine months ended September 30, 2024 are not necessarily indicative of the results to be expected for the full year. Â Principles of Consolidationâ€”The accompanying financial statements reflect the consolidation of the financial statements of Envirotech Vehicles, Inc. and its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated. Â Use of Estimatesâ€”The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Â Fair Value of Financial Instrumentsâ€”The carrying values of the Companyâ€™s financial instruments, including cash, accounts receivable and accounts payable approximate their fair value due to the short-term nature of these financial instruments.Â Accounting Standards Codification ("ASC") 820, Fair Value Measurements ("ASC 820")Â defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. It also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: Â Level 1:Â Â Â Â Â Â Â Â Â Â Observable inputs such as quoted prices in active markets; Â Level 2:Â Â Â Â Â Â Â Â Â Â Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and Â Level 3:Â Â Â Â Â Â Â Â Â Â Unobservable inputs that are supported by little or no market data and that require the reporting entity to develop its own assumptions. Â The Company does not have any assets or liabilities that are required to be measured and recorded at fair value on a recurring basis other than the options liability disclosed in Note 4 - Debt, in which the Company has elected the fair value option. Â Revenue Recognitionâ€”The Company recognizes revenue from the sales of zero-emission electric vehicles and vehicle maintenance and inspection services. The Company recognizes revenue in accordance with ASC 606, Revenue from Contracts with Customers ("ASC 606"), which requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. At September 30, 2024, the Company did have a concentration of customers; oneÂ customerÂ balanceÂ accounts for approximately 74%Â of the outstanding accounts receivable. The Company did not record any revenue from the sale of vehicles for the threeÂ months ended September 30, 2024. OneÂ customerÂ accounted for 73% or $1,179,000 of the reported revenue of $1,623,260 for the nineÂ months ended September 30, 2024.Â The Company had accounts receivable, net of $1,090,399Â and $692,102Â on SeptemberÂ 30, 2024Â andÂ December 31, 2023,Â respectively. Â Â In applying ASC 606, the Company is required to: Â Â (1) identify any contracts with customers; Â Â (2) determine if multiple performance obligations exist; Â Â (3) determine the transaction price; Â Â (4) allocate the transaction price to the respective obligation; and Â Â (5) recognize the revenue as the obligation is satisfied. Â Product revenue includes the sale of electric trucks and cargo vans. These sales represent a single performance obligation and revenue is recognized when the vehicle is delivered and the customer has accepted the vehicle and signed the appropriate documentation acknowledging receipt of the vehicle. At this time, the title of the vehicle is transferred to the customer. Â Cash and Cash Equivalentsâ€”The Company considers all highly liquid investments purchased with an original or remaining maturity of three months or less to be cash equivalents. The recorded value of our restricted cash and cash equivalents approximates their fair value. The Company had $0Â restricted cash atÂ September 30, 2024 andÂ December 31, 2023, respectively.Â See Concentration of Credit Risk below in this Note. Â Marketable Securitiesâ€”The Company invests in short-term, highly liquid, marketable securities, such as U.S. Treasury notes, U.S. Treasury bonds, and other government-backed securities. The Company classifies these marketable securities as held-to-maturity, as the intent is not to liquidate them prior to the respective stated maturity date. The Company had $0Â marketable securities at SeptemberÂ 30, 2024 and December 31, 2023, respectively. Â Â Accounts Receivable and Allowance for Doubtful Accountsâ€”The Company establishes an allowance for bad debts through a review of several factors, including historical collection experience, current aging status of the customer accounts, and financial condition of its customers. The Company does not generally require collateral for its accounts receivable. The Company had trade accounts receivable of $1,108,010Â as ofÂ September 30, 2024 and a recorded allowance for doubtful accounts of $17,611, resulting in a net trade accounts receivable balance of $1,090,399. The Company had trade accounts receivable of $713,031 as ofÂ December 31, 2023 and an allowance for doubtful accounts of $20,929, resulting in a net trade receivable balance of $692,102. A significant portion of the Companyâ€™s sales are made to customers who qualify for state-sponsored grant programs which can cover a significant portion, up to all of a vehicleâ€™s purchase price. Grant monies are paid directly to vehicle dealers like the Company after the customer and the dealer meet state requirements related to the transaction; reimbursements to the Company may take two to nine months from the date of request before being received. The Company does not provide an allowance for doubtful accounts related to sales made utilizing state grant funds, as those funds are guaranteed by the state(s) once awarded. The trade accounts receivable balance atÂ September 30, 2024 is from credit-worthy customers, many of whom are fully or partially funded through state government sponsored programs. Â Inventory and Inventory Valuation Allowanceâ€”The Company records inventory at the lower of cost or market, and uses a First In, First OutÂ accounting valuation methodology and establishes an inventory valuation allowance for vehicles that it does not intend to sell in the future. The Company had finished goods inventory on hand of $6,715,650Â and

recorded an inventory valuation allowance of $12,429 related to three vehicles that the Company does not intend to sell in the future, resulting in a net inventory balance of $6,703,221Â atÂ September 30, 2024. The Company had finished goods inventory on hand and a related inventory valuation of $6,843,022Â and $12,429 allowance as of December 31, 2023, resulting in a net inventory balance of $6,830,593. Â Inventory Depositsâ€”Certain of our vendors require the Company to pay upfront deposits before theyÂ commence manufacturing our vehicles, and then require progress deposits through the production cycle and before the finished vehicles are shipped. These deposits are classified as inventory deposits in the consolidated balance sheet. Upon completion of production acceptance by the Company, and passage of title to the Company, deposits are reclassified to inventory. The Company had inventory deposits of $2,857,314Â and $3,300,388 as ofÂ September 30, 2024 and December 31, 2023, respectively. Deposits paid to oneÂ vendorÂ accounted for 97%Â of the deposits outstanding at September 30, 2024. Â Income Taxesâ€”The Company uses the liability method, where deferred tax assets and liabilities are determined based on the expected future tax consequences of temporary differences between the carrying amounts of assets and liabilities for financial and income tax reporting purposes. Â Accounting for Uncertainty in Income Taxesâ€”The Company evaluates its uncertain tax positions and will recognize a loss contingency when it is probable that a liability has been incurred as of the date of the financial statements and the amount of the loss can be reasonably estimated. The amount recognized is subject to estimate and management judgment with respect to the likely outcome of each uncertain tax position. The amount that is ultimately sustained for an individual uncertain tax position or for all uncertain tax positions in the aggregate could differ from the amount recognized. AtÂ September 30, 2024 and December 31, 2023, respectively, management did not identify any uncertain tax positions. Â Net Income (Loss) Per Shareâ€”Basic net income (loss) per share is calculated by dividing the Companyâ€™s net income (loss) applicable to common stockholders by the weighted average number of shares of common stock outstanding during the period. Â Diluted net loss per share is calculated by dividing the Companyâ€™s net loss applicable to common stockholders by the diluted weighted average number of shares of common stock outstanding during the period. The diluted weighted average number of shares of common stock outstanding is the basic weighted number of shares of common stock adjusted for any potentially dilutive debt or equity securities. As of September 30, 2024, 5,641,252Â shares of the Companyâ€™s common stock were subject to issuance upon the exercise of stock options then outstanding and 1,901,631Â shares of the Companyâ€™s common stock were subject to issuance upon the exercise of warrants then outstanding. Â Concentration of Credit Riskâ€”The Company has credit risks related to cash and cash equivalents on deposit with a federally insured bank, as at times it exceeds the $250,000 maximum amount insured by the Federal Deposit Insurance Corporation (â€œFDICâ€). Additionally, the Company may maintainÂ cash and short-term securities invested at Arvest Bank, National Association (â€œArvestâ€). Between FDIC and the Securities Investor Protection Corporation (â€œSIPCâ€) coverage, funds up to $750,000, which may include cash up to $500,000, are insured. In addition, Arvest provides excess insurance acquired by them from SIPC for unlimited per customer securities up to a $1 billion cap. There were no short-term securities invested at Arvest Bank at September 30, 2024. Â Impairment of Long-Lived Assetsâ€”Long-lived assets, including property and equipment, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company evaluates these assets to determine potential impairment by comparing the carrying amount to the undiscounted estimated future cash flows of the related assets. If the estimated undiscounted cash flows are less than the carrying value of the assets, the assets are written down to their fair value. There was no impairment of long-lived assets, or property and equipment, atÂ September 30, 2024 and December 31, 2023, respectively. Â Goodwillâ€”Goodwill represents the excess acquisition cost over the fair value of the net tangible and intangible assets acquired. Goodwill is not amortized and is subject to annual impairment testing on or between annual tests if an event or change in circumstance occurs that would more likely than not reduce the fair value of a reporting unit below its carrying value. In testing for goodwill impairment, the Company has the option to first assess qualitative factors to determine whether the existence of events or circumstances lead to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events and circumstances, the Company concludes that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, it can conclude the assessment. If the Company concludes otherwise, the Company is required to perform a quantitative analysis to determine the amount of impairment, if any.Â Â The Company has determined that it has one reporting unit, and based on both qualitative and quantitative analysis, it is managementâ€™s assessmentÂ at September 30, 2024, that $9,583,836Â in goodwill did not experience impairment. The Company recorded a non-cash goodwillÂ impairment charge of $5,098,784Â for the year ended December 31, 2023 resultingÂ in a goodwill balance of $9,583,836 on that date. Â Research and Developmentâ€”Costs incurred in connection with the development of new products and manufacturing methods are charged to operating expenses as incurred. Research and development costs were $20,470Â and $152,351Â during the three and nineÂ months ended SeptemberÂ 30, 2024, respectively. Research and development costs were $46,734Â and $175,546Â during the three and nineÂ months ended SeptemberÂ 30, 2023, respectively. Â Stock-Based Compensationâ€”The Company accounts for employee stock-based compensation in accordance with the guidance ofÂ ASC 718, Stock-Based Compensation ("ASC 718"), which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. The fair value of the equity instrument is charged directly to compensation expense and credited to additional paid-in capital over the period during which services are rendered. Non-cash stock-based compensation expense of $17,962Â and $1,871,386Â was recorded for the three and nineÂ months ended SeptemberÂ 30, 2024, respectively.Â Non-cash stock-based compensation expense of $1,105,074Â and $1,297,384Â was recorded for the three and nineÂ months ended SeptemberÂ 30, 2023, respectively. Â Property and Equipmentâ€” Property and equipment are stated at cost, less accumulated depreciation and amortization. The Company provides for depreciation using the straight-line method over the estimated useful lives of the assets, which range from three to five years, except leasehold improvements, which are being amortized over the life of the lease term. Property and equipment qualify for capitalization if the purchase price exceeds $2,000. Major repairs and replacements, which extend the useful lives of equipment, are capitalized and depreciated over the estimated useful lives of the property. All other maintenance and repairs are expensed as incurred. Â Leasesâ€”The Company accounts for leases in accordance with ASC 842, Leases (â€œASC 842â€). At the inception or modification of a contract, the Company determines whether a lease exists and classifies its leases as an operating or finance lease at commencement. Right-of-use ("ROU") assets represent the Companyâ€™s right to use an underlying asset for the lease term and lease liabilities represent their obligation to make lease payments arising from the lease. See Note 11Â - Leases. Â As most of the Companyâ€™s leases do not provide an implicit interest rate, the lease liability is calculated at lease commencement as the present value of unpaid lease payments using the Companyâ€™s estimated incremental borrowing rate. The incremental borrowing rate represents the rate of interest that the Company would have to pay to borrow an amount equal to the lease payments on a collateralized basis over a similar term and is determined using a portfolio approach based on information available at the commencement date of the lease. Â The lease asset also reflects any prepaid rent, initial direct costs incurred, and lease incentives received. The Companyâ€™s lease terms may include optional extension periods when it is reasonably certain that those options will be exercised. Â Leases with an initial expected term of 12 months or less are not recorded in the Company's consolidated balance sheets and the related lease expense is recognized on a straight-line basis over the lease term. For certain classes of underlying assets, the Company has elected to not separate fixed lease components from the fixed non-lease components. Â Recent Accounting Pronouncements Â ASU No. 2024-03, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses Â On November 4, 2024,Â the Financial Accounting Standards Board (â€œFASBâ€) issued Accounting Standards Update (â€œASUâ€)Â 2024-03, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses," that improves financial reporting by requiring public companies to disclose additional information about certain expenses in the notes to the financial statements. The amendments in the ASU are effective for annual reporting periods beginning after December 15, 2026, and interim periods beginning after December 15, 2027. Early adoption is permitted.Â The Company is currently evaluating the impact of adopting ASU 2023-07 and intends to adopt and report on this topic as required by this ASU. Â ASU No. 2023-07, â€œSegment Reporting (Topic 280): Improvements to Reportable Segment Disclosureâ€ Â On November 27, 2023, the Financial Accounting Standards Board (â€œFASBâ€) issued ASUÂ 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures," which requires public entities to disclose information about their reportable segments' significant expenses and other segment items on an interim and annual basis. Public entities with a single reportable segment are required to apply the disclosure requirements in ASU 2023-07, as well as existing segment disclosures and reconciliation required under Accounting Standard Codification (â€œASCâ€) 280 on an interim and annual basis. ASU 2023-07 is effective for fiscal years beginning after December 15, 2023, and for the interim periods beginning after December 15, 2024, with early adoption permitted. Debt Â Notes Payable Â On July 15, 2022, the Company entered into an equipment financing agreement with Wells Fargo Bank, N.A.Â in connection with the purchase of facility grounds equipment. The $25,007 loan is payable over 36 months, beginning in August 2022, with monthly payments of $521. The balance of this note is $11,983Â of which $6,252 is classified as Notes Payable - current and $5,731Â is classified as Notes Payable - long term on the Company's consolidated balance sheets on September 30, 2024. Â Effective August 20, 2023, the Company entered into aÂ premium financing agreement with First Insurance Funding to finance insurance coverages other than its directors' and officers' insurance coverages. The $467,074 loan is payable over nine months, beginning in September 2023, and bears interest at 8.2% with monthly payments of $53,675. The balance of this note, including accrued interest, is $0Â on September 30, 2024. Â Effective June 15, 2024, the Company entered into a premium financing agreement with First Insurance Funding to finance its directors' and officers' insurance coverages.Â The $232,067Â loan is payable over nine months, beginning in July 2024, and bears interest at 8.25% with monthly payments of $24,093. The balance of this note, including accrued interest, is $164,108Â on September 30, 2024. Â Effective August 20, 2024, the Company entered into aÂ premium financing agreement with AFCO Insurance Premium Finance to finance insurance coverages other than its directors' and officers' insurance coverages. The $417,051Â loan is payable over elevenÂ months, beginning in September 2024, and bears interest at 8.24% with monthly payments of $39,493. The balance of this note, including accrued interest, is $419,913Â on September 30, 2024. Â Convertible Note Â On January 18, 2024, the CompanyÂ entered into a convertible promissory note agreement ("Note") for $1,000,000 with an unrelated third-party investor ("Investor"). The origination fee of theÂ Note was $99,000 and the maturity date of theÂ Note wasÂ September 30, 2024. The Investor was entitled to convert the Note into common stock at the greater of $1.50 per share or at 90% of the share price of the Company's common stock on the maturity date. The Investor also hadÂ a security interest in the assets of the Company in the event of non-payment of the Note. In addition, the Investor received optionsÂ to purchase 800,000 share of the Company's common stock at $1.50 per share. These options expire two years from the date of theÂ Note. On May 6, 2024, the Note was cancelled and replaced with a short-term note. During the third quarter of 2024, the short-term note was converted into 505,051 shares of common stock. Â The Company has elected to measure the Note and options at fair value. In estimating the fair value of the Note, a Monte Carlo simulation model is applied. The required inputs include the current stock price, the risk-free rate and volatility of the common stock. The Note's fair value is classified as Level 2 under the fair value hierarchy as provided by ASC 820. In estimating the fair value of the options, the Black-Scholes Merton Model is used. The required inputs include the current stock price, the exercise price, the term of the options, the risk-free rate and the volatility of the common stock. The options' fair value is classified a Level 2 under the air value hierarchy as provided by ASC 820. The fair valuation of the Note and options uses inputs other than quoted prices that are observable either directly or indirectly. Â The net proceeds of $901,000 are bifurcated between the Note and the options. The amount allocated to the options is $431,405 which is the fair value on the date of the Note. The remaining proceeds received are allocated to the Note. Under the fair valuation election, both the Note and options are remeasured to their respective fair values at the reporting date. Changes in fair values for the Note and options are recorded as an unrealized gain or loss on convertible note fair value in Other (Expense)/Income in the Company's consolidated statements of operations for the three and nineÂ months ended SeptemberÂ 30, 2024. As a result of this election, the Company recorded an unrealized gain of $0Â and an unrealized loss $556,174Â for the three and nineÂ months ended SeptemberÂ 30, 2024 for the Note, respectively, and an unrealized gainÂ of $403,625Â andÂ an unrealized loss of $39,609 for the three and nineÂ months ended SeptemberÂ 30, 2024 for the Options, respectively. Â Related Party Loan Â On August 13, 2024, the Company entered into a long-term loan arrangement (the "Oldridge Loan") with Phillip W. Oldridge ("Mr. Oldridge")Â whereby Mr. Oldridge loaned $300,000 to EVTV. The loan carries an interest rate of 8% and matures on January 1, 2026. The term of the lease isÂ twoÂ years andÂ twoÂ months with a turnover date ofÂ July 1, 2023 and a rental commencement ofÂ September 1, 2023. The Company intends to use the leased space as a production facility as it seeks to expand its business presence in thatÂ region and the United States. See Note 11Â - Leases for further information. Â On March 18, 2024, the Company entered into a Sale and Purchase Agreement (the "PlugD Agreement") with PlugD Commercial Electric Leasing and Rentals Inc. ("PlugD"), a Texas-based commercial electric vehicle leasing company. Under the terms of the PlugD Agreement, the Company will deliver 200 electric high roof vans and trucks to PlugD for a total of approximately $16.2 million. Â GreenPower Litigation Â On December 17, 2019, GreenPower Motor Company Inc., a public company incorporated under the laws of British Columbia (â€œGreenPowerâ€), of which Phillip W. Oldridge, the Companyâ€™s Chief Executive Officer and Chairman of the Board,Â previously served as a senior officer and a member of its board of directors, filed a notice of civil claim, captioned GreenPower Motor Company Inc. v. Phillip Oldridge et al., Action No. S-1914285, in the Supreme Court of British Columbia, against Phillip Oldridge, his trust, Envirotech Drive Systems, Inc.Â and certain other companies affiliated therewith. On February 2, 2020, the Company and the other companies affiliated therewith named in the notice of civil claim filed a response to the civil claim in which they denied certain of the allegations. Fact discovery, through document disclosure and examinations for discoveries, in this matter remains ongoing. The Company believes it has meritorious defenses against GreenPower's claims and intends to vigorously defend itself against those claims. Â On or about July 18, 2021, GreenPower and GP GreenPower Industries Inc. (collectively â€œthe GreenPower entitiesâ€), filed a counterclaim against David Oldridge, Phillip Oldridge, the Company and other companies in Supreme Court of British Columbia Action No. S207532. The pleadings in this lawsuit have not closed and the Company intends to vigorously defend itself against the counterclaim. Â On February 8, 2022, GreenPower Motor Company, Inc., a Delaware corporation, and GreenPower Motor Company Inc., a Canadian corporation, filed a complaint captioned GreenPower Motor Company, Inc. v. Phillip Oldridge, et al., Case No. 5:22-cv-00252 in the United States District Court for the Central District of California. The complaintâ€™s allegations are centered around the same assertions in the pending Canadian litigation. Â On May 10, 2022, the Company, together with other defendants, filed a Motion to Dismiss and/or Stay the lawsuit in the United States District Court for the Central District of CaliforniaÂ pending the outcome of the Canadian litigation. The Court issued stay of this case pending resolution of parallel litigation in Canada between similar parties. GreenPower and defendants have agreed that the U.S. GreenPower case will not proceed while Canadian litigation is pending. Leases Â Operating leases Â The Company has active operating lease arrangements for office space and warehouse facilities. The Company is typically required to make fixed minimum rent payments relating to its right to use the underlying leased assets. Although these leases have terms that are either month-to-month or terms that are one year or less (with renewal options), the Company concluded in the fourth quarter of 2023 that the term renewal options are reasonably certain to be exercised. As a result of changes in certain circumstances related to some of the Company'sÂ short-term leases, the Company was required to classify such leasesÂ as operating leases in accordance with the provisions of ASC 842. Therefore, the Company recognizedÂ operating lease liabilitiesÂ withÂ corresponding ROUÂ assets based on the present value of the minimum rental payments of such leases.Â Â OnÂ March 28, 2023,Â the Company entered into the Berthaphil Sublease with Berthaphil to sublease approximatelyÂ 3,600Â squareÂ yards of a warehouse building based in the Clark Freeport Zone in the Philippines. The term of the Berthaphil Sublease isÂ twoÂ years andÂ twoÂ months with a turnover date ofÂ July 1, 2023 (the "turnover date") and a rental commencement ofÂ September 1, 2023.Â However, the warehouse building wasÂ notÂ available for use to the Company untilÂ the early part of theÂ fourthÂ quarter ofÂ 2023.Â Therefore, the commencement date was deferred untilÂ theÂ fourthÂ quarter ofÂ 2023,Â which is when the Company was given access to use the warehouse building.Â There was a grace period ofÂ twoÂ months for rental payments starting from the turnover date. The monthly rent for theÂ firstÂ year is $15,000, escalating to $15,750Â for theÂ secondÂ year and $16,530Â for the remaining term. In addition to the monthly rent, the Company is required to pay an additionalÂ 5% of the monthly rent as common area maintenance costs.Â The Berthaphil SubleaseÂ mayÂ be renewed for an additional period that is mutually agreed upon subject to certain terms and conditions. The Company intends to use the leased space as a production facility as it seeks to expand its business presence in the region and the United States. The Company accounted for this lease as an operating lease under ASC 842 and recorded an operating lease liability and a corresponding ROU asset for this lease. Â On July 1, 2024, the Company entered into a month-to-month lease contract with Southern Management Corporation to lease a residence in Osceola, Arkansas for the purpose of housing certain of the Company's employees. The monthly lease cost is $3,000. This lease is treated as a short-term lease expense. Â On August 26, 2024, the Company entered into a one-year lease contract with 120 Park SD, LLC to lease a location in Manalapan, New Jersey with the purpose of servicing the Company's New Jersey customers. The monthly lease cost is $2,900 and at the end of the one-year lease term, the lease converts into a month-to-month arrangement. This lease is treated as a short-term lease expense. Â The Company's lease agreements do not provide an implicit borrowing rate. Therefore, the Company used a benchmark approach to derive an appropriate incremental borrowing rate. The Company benchmarked itself against other companies of similar credit ratings and comparable credit quality and derived an incremental borrowing rate to discount each of its lease liabilities based on the remaining lease terms. Â ROU assets at SeptemberÂ 30, 2024Â were $316,767. Short-term and long-term operating lease liabilities were $313,479Â and $0Â at SeptemberÂ 30, 2024, respectively. There are two types of subsequent events: (1) recognized, or those that provide additional evidence with respect to conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing financial statements, and (2) non-recognized, or those that provide evidence with respect to conditions that did not exist at the date of the

The terms of the A&R SEPA are substantially consistent with the terms of the Original SEPA, except that, pursuant to the A&R SEPA, Yorkville agreed to advance to the Company, subject to certain conditions, the principal amount of $3,000,000 (the "Prepaid Advance") whichÂ be evidenced by convertible promissory notes in two tranches. The first tranche of the Prepaid Advance was disbursed on October 31, 2024 in the principal amount of $2,000,000. Pursuant to the A&R SEPA, a discount of 5% was applied to the principal amount. The net cash amount received (less discount and fees) was approximately $1,752,000. Â Maddox acquisition Â On October 30, 2024, the Company entered into a membership interest purchase agreement (the â€œMIPAâ€) with Â Maddox Industries, LLC (â€œMaddox Industriesâ€), a provider of government contracting solutions based in Puerto Rico, and Jason Maddox, the sole member of Maddox Industries, to acquire all of the outstanding membership interests in Maddox Industries from Mr. Maddox. As consideration for the acquisition of Maddox Industries, at the closing, the Company will issue 3,100,000 shares of the Companyâ€™s common stock to Mr. Maddox (the â€œStock Considerationâ€), provided that the number of shares of common stock constituting the Stock Consideration will be reduced by any number of whole shares of common stock exceeding 19.99% of the outstanding shares of common stock as of immediately prior to the closing. As additional consideration for the acquisition, during the six-month period following the closing (the â€œEarnout Periodâ€), Mr. Maddox will be eligible to receive up to six monthly cash payments in an aggregate amount of up to $1 million (each such monthly payment, an â€œEarnout Paymentâ€) in accordance with the terms of the MIPA. The Earnout Payment payable to Mr. Maddox for each calendar month during the Earnout Period, if any, will be equal to the aggregate amount of gross revenue received by Maddox Industries in respect of any accounts receivable from any existing customer outstanding as of the closing during such calendar month, provided that all Earnout Payments payable by the Company to Mr. Maddox under the MIPA may not exceed $1 million. The acquisition includes a three-year contract manufacturing agreement to be executed at the Companyâ€™s expansive 580,000 square-foot facility in Osceola, Arkansas. Certain information and footnote disclosures normally included in financial statements prepared in accordance with United States ("U.S.")Â generally accepted accounting principles (â€œGAAPâ€) have been condensed or omitted pursuant to such rules and regulations. In the Companyâ€™s opinion, these unaudited financial statements include all adjustments (consisting only of normal recurring adjustments) necessary for the fair statement of the results for the interim periods. These unaudited financial statements should be read in conjunction with the Company'sÂ audited financial statements for the years endedÂ December 31, 2023 and 2022 included in the Companyâ€™s Annual Report on Form 10-K filed with the SEC on MarchÂ 28, 2024. The results of operations for the three and nine months ended September 30, 2024 are not necessarily indicative of the results to be expected for the full year. Â Consolidation, Policy [Policy Text Block] Principles of Consolidationâ€”The accompanying financial statements reflect the consolidation of the financial statements of Envirotech Vehicles, Inc. and its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated. Â Use of Estimates, Policy [Policy Text Block] Use of Estimatesâ€”The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Â Fair Value of Financial Instruments, Policy [Policy Text Block] Fair Value of Financial Instrumentsâ€”The carrying values of the Companyâ€™s financial instruments, including cash, accounts receivable and accounts payable approximate their fair value due to the short-term nature of these financial instruments.Â Accounting Standards Codification ("ASC") 820, Fair Value Measurements ("ASC 820")Â defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. It also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: Â Level 1:Â Â Â Â Â Â Â Â Â Â Observable inputs such as quoted prices in active markets; Â Level 2:Â Â Â Â Â Â Â Â Â Â Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and Â Level 3:Â Â Â Â Â Â Â Â Â Â Unobservable inputs that are supported by little or no market data and that require the reporting entity to develop its own assumptions. Â The Company does not have any assets or liabilities that are required to be measured and recorded at fair value on a recurring basis other than the options liability disclosed in Note 4 - Debt, in which the Company has elected the fair value option. Â Revenue from Contract with Customer [Policy Text Block] Revenue Recognitionâ€”The Company recognizes revenue from the sales of zero-emission electric vehicles and vehicle maintenance and inspection services. The Company recognizes revenue in accordance with ASC 606, Revenue from Contracts with Customers ("ASC 606"), which requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. At September 30, 2024, the Company did have a concentration of customers; oneÂ customerÂ balanceÂ accounts for approximately 74%Â of the outstanding accounts receivable. The Company did not record any revenue from the sale of vehicles for the threeÂ months ended September 30, 2024. OneÂ customerÂ accounted for 73% or $1,179,000 of the reported revenue of $1,623,260 for the nineÂ months ended September 30, 2024.Â The Company had accounts receivable, net of $1,090,399Â and $692,102Â on SeptemberÂ 30, 2024Â andÂ December 31, 2023,Â respectively. Â Â In applying ASC 606, the Company is required to: Â Â (1) identify any contracts with customers; Â Â (2) determine if multiple performance obligations exist; Â Â (3) determine the transaction price; Â Â (4) allocate the transaction price to the respective obligation; and Â Â (5) recognize the revenue as the obligation is satisfied. Â Product revenue includes the sale of electric trucks and cargo vans. These sales represent a single performance obligation and revenue is recognized when the vehicle is delivered and the customer has accepted the vehicle and signed the appropriate documentation acknowledging receipt of the vehicle. At this time, the title of the vehicle is transferred to the customer. Â Cash and Cash Equivalents, Policy [Policy Text Block] Cash and Cash Equivalentsâ€”The Company considers all highly liquid investments purchased with an original or remaining maturity of three months or less to be cash equivalents. The recorded value of our restricted cash and cash equivalents approximates their fair value. The Company had $0Â restricted cash atÂ September 30, 2024 andÂ December 31, 2023, respectively.Â See Concentration of Credit Risk below in this Note. Â Marketable Securities, Policy [Policy Text Block] Marketable Securitiesâ€”The Company invests in short-term, highly liquid, marketable securities, such as U.S. Treasury notes, U.S. Treasury bonds, and other government-backed securities. The Company classifies these marketable securities as held-to-maturity, as the intent is not to liquidate them prior to the respective stated maturity date. The Company had $0Â marketable securities at SeptemberÂ 30, 2024 and December 31, 2023, respectively. Â Â Accounts Receivable [Policy Text Block] Accounts Receivable and Allowance for Doubtful Accountsâ€”The Company

establishes an allowance for bad debts through a review of several factors, including historical collection experience, current aging status of the customer accounts, and financial condition of its customers. The Company does not generally require collateral for its accounts receivable. The Company had trade accounts receivable of $1,108,010Â as ofÂ September 30, 2024 and a recorded allowance for doubtful accounts of $17,611, resulting in a net trade accounts receivable balance of $1,090,399. The Company had trade accounts receivable of $713,031 as ofÂ December 31, 2023 and an allowance for doubtful accounts of $20,929, resulting in a net trade receivable balance of $692,102. A significant portion of the Companyâ€™s sales are made to customers who qualify for state-sponsored grant programs which can cover a significant portion, up to all of a vehicleâ€™s purchase price. Grant monies are paid directly to vehicle dealers like the Company after the customer and the dealer meet state requirements related to the transaction; reimbursements to the Company may take two to nine months from the date of request before being received. The Company does not provide an allowance for doubtful accounts related to sales made utilizing state grant funds, as those funds are guaranteed by the state(s) once awarded. The trade accounts receivable balance atÂ September 30, 2024 is from credit-worthy customers, many of whom are fully or partially funded through state government sponsored programs. Â Inventory, Policy [Policy Text Block] Inventory and Inventory Valuation Allowanceâ€”The Company records inventory at the lower of cost or market, and uses a First In, First OutÂ accounting valuation methodology and establishes an inventory valuation allowance for vehicles that it does not intend to sell in the future. The Company had finished goods inventory on hand of $6,715,650Â and recorded an inventory valuation allowance of $12,429 related to three vehicles that the Company does not intend to sell in the future, resulting in a net inventory balance of $6,703,221Â atÂ September 30, 2024. The Company had finished goods inventory on hand and a related inventory valuation of $6,843,022Â and $12,429 allowance as of December 31, 2023, resulting in a net inventory balance of $6,830,593. Â Inventory Depositsâ€”Certain of our vendors require the Company to pay upfront deposits before theyÂ commence manufacturing our vehicles, and then require progress deposits through the production cycle and before the finished vehicles are shipped. These deposits are classified as inventory deposits in the consolidated balance sheet. Upon completion of production acceptance by the Company, and passage of title to the Company, deposits are reclassified to inventory. The Company had inventory deposits of $2,857,314Â and $3,300,388 as ofÂ September 30, 2024 and December 31, 2023, respectively. Deposits paid to oneÂ vendorÂ accounted for 97%Â of the deposits outstanding at September 30, 2024. Â Income Tax, Policy [Policy Text Block] Income Taxesâ€”The Company uses the liability method, where deferred tax assets and liabilities are determined based on the expected future tax consequences of temporary differences between the carrying amounts of assets and liabilities for financial and income tax reporting purposes. Â Accounting for Uncertainty in Income Taxesâ€”The Company evaluates its uncertain tax positions and will recognize a loss contingency when it is probable that a liability has been incurred as of the date of the financial statements and the amount of the loss can be reasonably estimated. The amount recognized is subject to estimate and management judgment with respect to the likely outcome of each uncertain tax position. The amount that is ultimately sustained for an individual uncertain tax position or for all uncertain tax positions in the aggregate could differ from the amount recognized. AtÂ September 30, 2024 and December 31, 2023, respectively, management did not identify any uncertain tax positions. Â Earnings Per Share, Policy [Policy Text Block] Net Income (Loss) Per Shareâ€”Basic net income (loss) per share is calculated by dividing the Companyâ€™s net income (loss) applicable to common stockholders by the weighted average number of shares of common stock outstanding during the period. Â Diluted net loss per share is calculated by dividing the Companyâ€™s net loss applicable to common stockholders by the diluted weighted average number of shares of common stock outstanding during the period. The diluted weighted average number of shares of common stock outstanding is the basic weighted number of shares of common stock adjusted for any potentially dilutive debt or equity securities. As of September 30, 2024, 5,641,252Â shares of the Companyâ€™s common stock were subject to issuance upon the exercise of stock options then outstanding and 1,901,631Â shares of the Companyâ€™s common stock were subject to issuance upon the exercise of warrants then outstanding. Â Concentration Risk, Credit Risk, Policy [Policy Text Block] Concentration of Credit Riskâ€”The Company has credit risks related to cash and cash equivalents on deposit with a federally insured bank, as at times it exceeds the $250,000 maximum amount insured by the Federal Deposit Insurance Corporation (â€œFDICâ€). Additionally, the Company may maintainÂ cash and short-term securities invested at Arvest Bank, National Association (â€œArvestâ€). Between FDIC and the Securities Investor Protection Corporation (â€œSIPCâ€) coverage, funds up to $750,000, which may include cash up to $500,000, are insured. In addition, Arvest provides excess insurance acquired by them from SIPC for unlimited per customer securities up to a $1 billion cap. There were no short-term securities invested at Arvest Bank at September 30, 2024. Â Impairment or Disposal of Long-Lived Assets, Policy [Policy Text Block] Impairment of Long-Lived Assetsâ€”Long-lived assets, including property and equipment, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company evaluates these assets to determine potential impairment by comparing the carrying amount to the undiscounted estimated future cash flows of the related assets. If the estimated undiscounted cash flows are less than the carrying value of the assets, the assets are written down to their fair value. There was no impairment of long-lived assets, or property and equipment, atÂ September 30, 2024 and December 31, 2023, respectively. Â Goodwill and Intangible Assets, Goodwill, Policy [Policy Text Block] Goodwillâ€”Goodwill represents the excess acquisition cost over the fair value of the net tangible and intangible assets acquired. Goodwill is not amortized and is subject to annual impairment testing on or between annual tests if an event or change in circumstance occurs that would more likely than not reduce the fair value of a reporting unit below its carrying value. In testing for goodwill impairment, the Company has the option to first assess qualitative factors to determine whether the existence of events or circumstances lead to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events and circumstances, the Company concludes that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, it can conclude the assessment. If the Company concludes otherwise, the Company is required to perform a quantitative analysis to determine the amount of impairment, if any.Â Â The Company has determined that it has one reporting unit, and based on both qualitative and quantitative analysis, it is managementâ€™s assessmentÂ at September 30, 2024, that $9,583,836Â in goodwill did not experience impairment. The Company recorded a non-cash goodwillÂ impairment charge of $5,098,784Â for the year ended December 31, 2023 resultingÂ in a goodwill balance of $9,583,836 on that date. Â Research and Development Expense, Policy [Policy Text Block] Research and Developmentâ€”Costs incurred in connection with the development of new products and manufacturing methods are charged to operating expenses as incurred. Research and development costs were $20,470Â and $152,351Â during the three and nineÂ months ended SeptemberÂ 30, 2024, respectively. Research and development costs were $46,734Â and $175,546Â during the three and nineÂ months ended SeptemberÂ 30, 2023, respectively. Â Share-Based Payment Arrangement [Policy Text Block] Stock-Based Compensationâ€”The Company accounts for employee stock-based compensation in accordance with the guidance ofÂ ASC 718, Stock-Based Compensation ("ASC 718"), which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. The fair value of the equity instrument is charged directly to compensation expense and credited to additional paid-in capital over the period during which services are rendered. Non-cash stock-based compensation expense of $17,962Â and $1,871,386Â was recorded for the three and nineÂ months ended SeptemberÂ 30, 2024, respectively.Â Non-cash stock-based compensation expense of $1,105,074Â and $1,297,384Â was recorded for the three and nineÂ months ended SeptemberÂ 30, 2023, respectively. Â Property, Plant and Equipment, Policy [Policy Text Block] Property and Equipmentâ€” Property and equipment are stated at cost, less accumulated depreciation and amortization. The Company provides for depreciation using the straight-line method over the estimated useful lives of the assets, which range from three to five years, except leasehold improvements, which are being amortized over the life of the lease term. Property and equipment qualify for capitalization if the purchase price exceeds $2,000. Major repairs and replacements, which extend the useful lives of equipment, are capitalized and depreciated over the estimated useful lives of the property. All other maintenance and repairs are expensed as incurred. Â Lessee, Leases [Policy Text Block] Leasesâ€”The Company accounts for leases in accordance with ASC 842, Leases (â€œASC 842â€). At the inception or modification of a contract, the Company determines whether a lease exists and classifies its leases as an operating or finance lease at commencement. Right-of-use ("ROU") assets represent the Companyâ€™s right to use an underlying asset for the lease term and lease liabilities represent their obligation to make lease payments arising from the lease. See Note 11Â - Leases. Â As most of the Companyâ€™s leases do not provide an implicit interest rate, the lease liability is calculated at lease commencement as the present value of unpaid lease payments using the Companyâ€™s estimated incremental borrowing rate. The incremental borrowing rate represents the rate of interest that the Company would have to pay to borrow an amount equal to the lease payments on a collateralized basis over a similar term and is determined using a portfolio approach based on information available at the commencement date of the lease. Â The lease asset also reflects any prepaid rent, initial direct costs incurred, and lease incentives received. The Companyâ€™s lease terms may include optional extension periods when it is reasonably certain that those options will be exercised. Â Leases with an initial expected term of 12 months or less are not recorded in the Company's consolidated balance sheets and the related lease expense is recognized on a straight-line basis over the lease term. For certain classes of underlying assets, the Company has elected to not separate fixed lease components from the fixed non-lease components. Â New Accounting Pronouncements, Policy [Policy Text Block] Recent Accounting Pronouncements Â ASU No. 2024-03, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses Â On November 4, 2024,Â the Financial Accounting Standards Board (â€œFASBâ€) issued Accounting Standards Update (â€œASUâ€)Â 2024-03, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses," that improves financial reporting by requiring public companies to disclose additional information about certain expenses in the notes to the financial statements. The amendments in the ASU are effective for annual reporting periods beginning after December 15, 2026, and interim periods beginning after December 15, 2027. Early adoption is permitted.Â The Company is currently evaluating the impact of adopting ASU 2023-07 and intends to adopt and report on this topic as required by this ASU. Â ASU No. 2023-07, â€œSegment Reporting (Topic 280): Improvements to Reportable Segment Disclosureâ€ Â On November 27, 2023,

the Financial Accounting Standards Board (â€œFASBâ€) issued ASUÂ 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures," which requires public entities to disclose information about their reportable segments' significant expenses and other segment items on an interim and annual basis. Public entities with a single reportable segment are required to apply the disclosure requirements in ASU 2023-07, as well as existing segment disclosures and reconciliation required under Accounting Standard Codification (â€œASCâ€) 280 on an interim and annual basis. ASU 2023-07 is effective for fiscal years beginning after December 15, 2023, and for the interim periods beginning after December 15, 2024, with early adoption permitted. The Company is currently evaluating the impact of adopting ASU 2023-07 and intends to adopt and report on this topic within the Companyâ€™s Annual Report on Form 10-K for the year ending December 31, 2024. Warrants and rights outstanding are derivative securities that give the holder the right to purchase securities (usually equity) from the issuer at a specific price within a certain time frame. Warrants are often included in a new debt issue to entice investors by a higher return potential. The main difference between warrants and call options is that warrants are issued and guaranteed by the company, whereas options are exchange instruments and are not issued by the company. Also, the lifetime of a warrant is often measured in years, while the lifetime of a typical option is measured in months. Disclose the title of issue of securities called for by warrants and rights outstanding, the aggregate amount of securities called for by warrants and rights outstanding, the date from which the warrants or rights are exercisable, and the price at which the warrant or right is exercisable. + ReferencesReference 1: http://fasb.org/us-gaap/role/ref/legacyRef -Name Accounting Standards Codification -Topic 718 -SubTopic 10 -Section 50 -Paragraph 1 -Subparagraph (a) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-1 + Details Name: us-gaap_ScheduleOfStockholdersEquityNoteWarrantsOrRightsTextBlock Namespace Prefix: us-gaap_ Data Type: dtr-types:textBlockItemType Balance Type: na Period Type: duration X - ReferencesNo definition available. + Details Name: us-gaap_TableTextBlock Namespace Prefix: us-gaap_ Data Type: xbrli:stringItemType Balance Type: na Period Type: duration XML 35 R24.htm IDEA: XBRL DOCUMENT v3.24.3 Note 7 - Stock Options and Restricted Shares (Tables) 9 Months Ended Sep. 30, 2024 Notes Tables Â Share-Based Compensation Arrangements by Share-Based Payment Award, Options, Vested and Expected to Vest, Outstanding [Table Text Block] Â Â Â

(the “Company”), including its consolidated subsidiaries, is a provider of purpose-built zero-emission electric vehicles focused on reducing the total cost of vehicle ownership and helping fleet operators unlock the benefits of green technology. The Company serves commercial and last-mile fleets, school districts, public and private transportation service companies, and colleges and universities to meet the increasing demand for light to heavy-duty electric vehicles. The Company’s vehicles address the challenges of traditional fuel price cost instability and local, state, and federal regulatory compliance. <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; text-indent: 0px;"><tbody><tr style="vertical-align: top;"><td style="width: 27pt;"> 2. </td><td style="width: auto;"> Summary of Significant Accounting Policies </td></tr> </tbody></table>   Basis of Presentation—The consolidated financial statements and related disclosures include the consolidated balance sheet accounts as of September 30, 2024 and the consolidated results of operations for the three and nine months ended September 30, 2024 of Envirotech Vehicles, Inc. and subsidiaries. These consolidated financial statements are unaudited, pursuant to the rules and regulations of the SEC. Certain information and footnote disclosures normally included in financial statements prepared in accordance with United States ("U.S.") generally accepted accounting principles (“GAAP”) have been condensed or omitted pursuant to such rules and regulations. In the Company’s opinion, these unaudited financial statements include all adjustments (consisting only of normal recurring adjustments) necessary for the fair statement of the results for the interim periods. These unaudited financial statements should be read in conjunction with the Company's audited financial statements for the years ended December 31, 2023 and 2022 included in the Company’s Annual Report on Form 10-K filed with the SEC on March 28, 2024. The results of operations for the three and nine months ended September 30, 2024 are not necessarily indicative of the results to be expected for the full year.   Principles of Consolidation—The accompanying financial statements reflect the consolidation of the financial statements of Envirotech Vehicles, Inc. and its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated.   Use of Estimates—The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.   Fair Value of Financial Instruments—The carrying values of the Company’s financial instruments, including cash, accounts receivable and accounts payable approximate their fair value due to the short-term nature of these financial instruments. Accounting Standards Codification ("ASC") 820, Fair Value Measurements ("ASC 820") defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. It also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: Level 1: Observable inputs such as quoted prices in active markets;   Level 2: Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and   Level 3: Unobservable inputs that are supported by little or no market data and that require the reporting entity to develop its own assumptions.   The Company does not have any assets or liabilities that are required to be measured and recorded at fair value on a recurring basis other than the options liability disclosed in Note 4 - Debt, in which the Company has elected the fair value option.   <p style="font-family: "Times New Roman"; font-size: 10pt; font-variant: normal; margin: 0pt 0pt 0pt 27pt; text-align:

These deposits are classified as inventory deposits in the consolidated balance sheet. Upon completion of production acceptance by the Company, and passage of title to the Company, deposits are reclassified to inventory. The Company had inventory deposits of $2,857,314 and $3,300,388 as of September 30, 2024 and December 31, 2023, respectively. Deposits paid to one vendor accounted for 97% of the deposits outstanding at September 30, 2024.   Income Taxes—The Company uses the liability method, where deferred tax assets and liabilities are determined based on the expected future tax consequences of temporary differences between the carrying amounts of assets and liabilities for financial and income tax reporting purposes.   Accounting for Uncertainty in Income Taxes—The Company evaluates its uncertain tax positions and will recognize a loss contingency when it is probable that a liability has been incurred as of the date of the financial statements and the amount of the loss can be reasonably estimated. The amount recognized is subject to estimate and management judgment with respect to the likely outcome of each uncertain tax position. The amount that is ultimately sustained for an individual uncertain tax position or for all uncertain tax positions in the aggregate could differ from the amount recognized. At September 30, 2024 and December 31, 2023, respectively, management did not identify any uncertain tax positions.   Net Income (Loss) Per Share—Basic net income (loss) per share is calculated by dividing the Company's net income (loss) applicable to common stockholders by the weighted average number of shares of common stock outstanding during the period.   Diluted net loss per share is calculated by dividing the Company's net loss applicable to common stockholders by the diluted weighted average number of shares of common stock outstanding during the period. Concentration of Credit Risk—The Company has credit risks related to cash and cash equivalents on deposit with a federally insured bank, as at times it exceeds the $250,000 maximum amount insured by the Federal Deposit Insurance Corporation ("FDIC"). Additionally, the Company may maintain cash and short-term securities invested at Arvest Bank, National Association ("Arvest"). Between FDIC and the Securities Investor Protection Corporation ("SIPC") coverage, funds up to $750,000, which may include cash up to $500,000, are insured. In addition, Arvest provides excess insurance acquired by them from SIPC for unlimited per customer securities up to a $1 billion cap. There were no short-term securities invested at Arvest Bank at September 30, 2024.   Impairment of Long-Lived Assets—Long-lived assets, including property and equipment, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company evaluates these assets to determine potential impairment by comparing the carrying amount to the undiscounted estimated future cash flows of the related assets. If the estimated undiscounted cash flows are less than the carrying value of the assets, the assets are written down to their fair value. There was no impairment of long-lived assets, or property and equipment, at September 30, 2024 and December 31, 2023, respectively.   Goodwill—Goodwill represents the excess acquisition cost over the fair value of the net tangible and intangible assets acquired. Goodwill is not amortized and is subject to annual impairment testing on or between annual tests if an event or change in circumstance occurs that would more likely than not reduce the fair value of a reporting unit below its carrying value. In testing for goodwill impairment, the Company has the option to first assess qualitative factors to determine whether the existence of events or circumstances lead to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events and circumstances, the Company concludes that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, it can conclude the assessment. If the Company concludes otherwise, the Company is required to perform a quantitative analysis to determine the amount of impairment, if any.   <p style="font-family: "Times New Roman"; font-size: 10pt; font-variant: normal; margin: 0pt 0pt 0pt

The Company provides for depreciation using the straight-line method over the estimated useful lives of the assets, which range from three to five years, except leasehold improvements, which are being amortized over the life of the lease term. Property and equipment qualify for capitalization if the purchase price exceeds $2,000. Major repairs and replacements, which extend the useful lives of equipment, are capitalized and depreciated over the estimated useful lives of the property. All other maintenance and repairs are expensed as incurred.   Leases—The Company accounts for leases in accordance with ASC 842, Leases ("ASC 842"). At the inception or modification of a contract, the Company determines whether a lease exists and classifies its leases as an operating or finance lease at commencement. Right-of-use ("ROU") assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent their obligation to make lease payments arising from the lease. See Note 11 - Leases.   As most of the Company's leases do not provide an implicit interest rate, the lease liability is calculated at lease commencement as the present value of unpaid lease payments using the Company's estimated incremental borrowing rate. The incremental borrowing rate represents the rate of interest that the Company would have to pay to borrow an amount equal to the lease payments on a collateralized basis over a similar term and is determined using a portfolio approach based on information available at the commencement date of the lease.   The lease asset also reflects any prepaid rent, initial direct costs incurred, and lease incentives received. The Company's lease terms may include optional extension periods when it is reasonably certain that those options will be exercised.   Leases with an initial expected term of 12 months or less are not recorded in the Company's consolidated balance sheets and the related lease expense is recognized on a straight-line basis over the lease term. For certain classes of underlying assets, the Company has elected to not separate fixed lease components from the fixed non-lease components.   Recent Accounting Pronouncements   ASU No. 2024-03, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses   On November 4, 2024, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2024-03, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses," that improves financial reporting by requiring public companies to disclose additional information about certain expenses in the notes to the financial statements. The amendments in the ASU are effective for annual reporting periods beginning after December 15, 2026, and interim periods beginning after December 15, 2027. Early adoption is permitted. The Company is currently evaluating the impact of adopting ASU 2023-07 and intends to adopt and report on this topic as required by this ASU.   <div style="font-size: 10pt; text-indent:

27pt;"> ASU No. 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosure"   On November 27, 2023, the Financial Accounting Standards Board ("FASB") issued ASU 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures," which requires public entities to disclose information about their reportable segments' significant expenses and other segment items on an interim and annual basis. Public entities with a single reportable segment are required to apply the disclosure requirements in ASU 2023-07, as well as existing segment disclosures and reconciliation required under Accounting Standard Codification ("ASC") 280 on an interim and annual basis. ASU 2023-07 is effective for fiscal years beginning after December 15, 2023, and for the interim periods beginning after December 15, 2024, with early adoption permitted. The Company is currently evaluating the impact of adopting ASU 2023-07 and intends to adopt and report on this topic within the Company's Annual Report on Form 10-K for the year ending December 31, 2024. Basis of Presentation—The consolidated financial statements and related disclosures include the consolidated balance sheet accounts as of September 30, 2024 and the consolidated results of operations for the three and nine months ended September 30, 2024 of Envirotech Vehicles, Inc. and subsidiaries. These consolidated financial statements are unaudited, pursuant to the rules and regulations of the SEC. Certain information and footnote disclosures normally included in financial statements prepared in accordance with United States ("U.S.") generally accepted accounting principles ("GAAP") have been condensed or omitted pursuant to such rules and regulations. In the Company's opinion, these unaudited financial statements include all adjustments (consisting only of normal recurring adjustments) necessary for the fair statement of the results for the interim periods. These unaudited financial statements should be read in conjunction with the Company's audited financial statements for the years ended December 31, 2023 and 2022 included in the Company's Annual Report on Form 10-K filed with the SEC on March 28, 2024. The results of operations for the three and nine months ended September 30, 2024 are not necessarily indicative of the results to be expected for the full year.   Principles of Consolidation—The accompanying financial statements reflect the consolidation of the financial statements of Envirotech Vehicles, Inc. and its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated.   Use of Estimates—The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.   Fair Value of Financial Instruments—The carrying values of the Company's financial instruments, including cash, accounts receivable and accounts payable approximate their fair value due to the short-term nature of these financial instruments. Accounting Standards Codification ("ASC") 820, Fair Value Measurements ("ASC 820") defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. It also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: Level 1: Observable inputs such as quoted prices in active markets;   Level 2: Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and   Level 3: Unobservable inputs that are supported by little or no market data and that require the reporting entity to develop its own assumptions.   The Company does not have any assets or liabilities that are required to be measured and recorded at fair value on a recurring basis other than the options liability disclosed in Note 4 - Debt, in which the Company has elected the fair value option.   Revenue Recognition—The Company recognizes revenue from the sales of zero-emission electric vehicles and vehicle maintenance and inspection services. The Company recognizes revenue in accordance with ASC 606, Revenue from Contracts with Customers ("ASC 606"), which requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. At September 30, 2024, the Company did have a concentration of customers; one customer balance accounts for approximately 74% of the outstanding accounts receivable. The Company did not record any revenue from the sale of vehicles for the three months ended September 30, 2024. One customer accounted for 73% or $1,179,000 of the reported revenue of $1,623,260 for the <em style="font: inherit;">nine months ended <em style="font: inherit;"> September 30, 2024. The Company had accounts receivable, net of <b>$1,090,399 and $692,102 on September 30, 2024 and December 31, 2023, respectively.   In applying ASC 606, the Company is required to: <p style="font-family:'Times New

These sales represent a single performance obligation and revenue is recognized when the vehicle is delivered and the customer has accepted the vehicle and signed the appropriate documentation acknowledging receipt of the vehicle. At this time, the title of the vehicle is transferred to the customer.   0.74 0.73 1179000 1623260 1090399 692102 Cash and Cash Equivalents—The Company considers all highly liquid investments purchased with an original or remaining maturity of three months or less to be cash equivalents. The recorded value of our restricted cash and cash equivalents approximates their fair value. The Company had $0 restricted cash at September 30, 2024 and December 31, 2023, respectively. See Concentration of Credit Risk below in this Note.   0 Marketable Securities—The Company invests in short-term, highly liquid, marketable securities, such as U.S. Treasury notes, U.S. Treasury bonds, and other government-backed securities. The Company classifies these marketable securities as held-to-maturity, as the intent is not to liquidate them prior to the respective stated maturity date. The Company had $0 marketable securities at September 30, 2024 and December 31, 2023, respectively.   Accounts Receivable and Allowance for Doubtful Accounts—The Company establishes an allowance for bad debts through a review of several factors, including historical collection experience, current aging status of the customer accounts, and financial condition of its customers. The Company does not generally require collateral for its accounts receivable. The Company had trade accounts receivable of $1,108,010 as of September 30, 2024 and a recorded allowance for doubtful accounts of $17,611, resulting in a net trade accounts receivable balance of $1,090,399. The Company had trade accounts receivable of $713,031 as of December 31, 2023 and an allowance for doubtful accounts of $20,929, resulting in a net trade receivable balance of $692,102. A significant portion of the Company's sales are made to customers who qualify for state-sponsored grant programs which can cover a significant portion, up to all of a vehicle's purchase price. Grant monies are paid directly to vehicle dealers like the Company after the customer and the dealer meet state requirements related to the transaction; reimbursements to the Company may take two to nine months from the date of request before being received. The Company does not provide an allowance for doubtful accounts related to sales made utilizing state grant funds, as those funds are guaranteed by the state(s) once awarded. The trade accounts receivable balance at September 30, 2024 is from credit-worthy customers, many of whom are fully or partially funded through state government sponsored programs.   1108010 17611 1090399 713031 20929 692102 Inventory and Inventory Valuation Allowance—The Company records inventory at the lower of cost or market, and uses a First In, First Out accounting valuation methodology and establishes an inventory valuation allowance for vehicles that it does not intend to sell in the future. The Company had finished goods inventory on hand of $6,715,650 and recorded an inventory valuation allowance of $12,429 related to three vehicles that the Company does not intend to sell in the future, resulting in a net inventory balance of $6,703,221 at September 30, 2024. The Company had finished goods inventory on hand and a related inventory valuation of $6,843,022 and $12,429 allowance as of December 31, 2023, resulting in a net inventory balance of $6,830,593.   Inventory Deposits—Certain of our vendors require the Company to pay upfront deposits before they commence manufacturing our vehicles, and then require progress deposits through the production cycle and before the finished vehicles are shipped. These deposits are classified as inventory deposits in the consolidated balance sheet. Upon completion of production acceptance by the Company, and passage of title to the Company, deposits are reclassified to inventory. The Company had inventory deposits of $2,857,314 and $3,300,388 as of September 30, 2024 and December 31, 2023, respectively. Deposits paid to one vendor accounted for 97% of the deposits outstanding at September 30, 2024.   6715650 12429 6703221 6843022 12429 6830593 2857314 3300388 1 0.97 Income Taxes—The Company uses the liability method, where

deferred tax assets and liabilities are determined based on the expected future tax consequences of temporary differences between the carrying amounts of assets and liabilities for financial and income tax reporting purposes.   Accounting for Uncertainty in Income Taxes—The Company evaluates its uncertain tax positions and will recognize a loss contingency when it is probable that a liability has been incurred as of the date of the financial statements and the amount of the loss can be reasonably estimated. The amount recognized is subject to estimate and management judgment with respect to the likely outcome of each uncertain tax position. The amount that is ultimately sustained for an individual uncertain tax position or for all uncertain tax positions in the aggregate could differ from the amount recognized. At September 30, 2024 and December 31, 2023, respectively, management did not identify any uncertain tax positions.   Net Income (Loss) Per Share—Basic net income (loss) per share is calculated by dividing the Company's net income (loss) applicable to common stockholders by the weighted average number of shares of common stock outstanding during the period.   Diluted net loss per share is calculated by dividing the Company's net loss applicable to common stockholders by the diluted weighted average number of shares of common stock outstanding during the period. The diluted weighted average number of shares of common stock outstanding is the basic weighted number of shares of common stock adjusted for any potentially dilutive debt or equity securities. As of September 30, 2024, 5,641,252 shares of the Company's common stock were subject to issuance upon the exercise of stock options then outstanding and 1,901,631 shares of the Company's common stock were subject to issuance upon the exercise of warrants then outstanding.   5641252 1901631 Concentration of Credit Risk—The Company has credit risks related to cash and cash equivalents on deposit with a federally insured bank, as at times it exceeds the $250,000 maximum amount insured by the Federal Deposit Insurance Corporation ("FDIC"). Additionally, the Company may maintain cash and short-term securities invested at Arvest Bank, National Association ("Arvest"). Between FDIC and the Securities Investor Protection Corporation ("SIPC") coverage, funds up to $750,000, which may include cash up to $500,000, are insured. In addition, Arvest provides excess insurance acquired by them from SIPC for unlimited per customer securities up to a $1 billion cap. There were no short-term securities invested at Arvest Bank at September 30, 2024.   750000 500000 1000000000 Impairment of Long-Lived Assets—Long-lived assets, including property and equipment, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company evaluates these assets to determine potential impairment by comparing the carrying amount to the undiscounted estimated future cash flows of the related assets. If the estimated undiscounted cash flows are less than the carrying value of the assets, the assets are written down to their fair value. There was no impairment of long-lived assets, or property and equipment, at September 30, 2024 and December 31, 2023, respectively.   0 Goodwill—Goodwill represents the excess acquisition cost over the fair value of the net tangible and intangible assets acquired. Goodwill is not amortized and is subject to annual impairment testing on or between annual tests if an event or change in circumstance occurs that would more likely than not reduce the fair value of a reporting unit below its carrying value. In testing for goodwill impairment, the Company has the option to first assess qualitative factors to determine whether the existence of events or circumstances lead to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events and circumstances, the Company concludes that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, it can conclude the assessment. If the Company concludes otherwise, the Company is required to perform a quantitative analysis to determine the amount of impairment, if any.   The Company has determined that it has one reporting unit, and based on both qualitative and quantitative analysis, it is management's assessment at September 30, 2024, that $9,583,836 in goodwill did not experience impairment. The Company recorded a non-cash goodwill impairment charge of $5,098,784 for the year ended December 31, 2023 resulting in a goodwill balance of $9,583,836 on that date.   9583836 5098784 9583836 Research and Development—Costs incurred in connection with the development of new products and manufacturing methods are charged to operating expenses as incurred. Research and development costs were $20,470 and $152,351 during the three and nine months ended September 30, 2024, respectively. Research and development costs were $46,734 and $175,546 during the three and nine months ended September 30, 2023, respectively.   20470 152351 46734 175546 Stock-Based Compensation—The Company accounts for employee stock-based compensation in accordance with the guidance of ASC 718, Stock-Based Compensation ("ASC 718"), which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. The fair value of the equity instrument is charged directly to compensation expense and credited to additional paid-in capital over the period during which services are rendered. Non-cash stock-based compensation expense of $17,962 and $1,871,386 was recorded for the three and nine months ended September 30, 2024, respectively. Non-cash stock-based compensation expense of $1,105,074 and $1,297,384 was recorded for the three and nine months ended September 30, 2023, respectively. <p style="font-family: "Times New Roman"; font-size: 10pt; font-

variant: normal; margin: 0pt 0pt 0pt 27pt; text-align: justify;">   17962 1871386 1105074 1297384 Property and Equipment— Property and equipment are stated at cost, less accumulated depreciation and amortization. The Company provides for depreciation using the straight-line method over the estimated useful lives of the assets, which range from three to five years, except leasehold improvements, which are being amortized over the life of the lease term. Property and equipment qualify for capitalization if the purchase price exceeds $2,000. Major repairs and replacements, which extend the useful lives of equipment, are capitalized and depreciated over the estimated useful lives of the property. All other maintenance and repairs are expensed as incurred.   Leases—The Company accounts for leases in accordance with ASC 842, Leases (“ASC 842”). At the inception or modification of a contract, the Company determines whether a lease exists and classifies its leases as an operating or finance lease at commencement. Right-of-use ("ROU") assets represent the Company’s right to use an underlying asset for the lease term and lease liabilities represent their obligation to make lease payments arising from the lease. See Note 11 - Leases.   As most of the Company’s leases do not provide an implicit interest rate, the lease liability is calculated at lease commencement as the present value of unpaid lease payments using the Company’s estimated incremental borrowing rate. The incremental borrowing rate represents the rate of interest that the Company would have to pay to borrow an amount equal to the lease payments on a collateralized basis over a similar term and is determined using a portfolio approach based on information available at the commencement date of the lease.   The lease asset also reflects any prepaid rent, initial direct costs incurred, and lease incentives received. The Company’s lease terms may include optional extension periods when it is reasonably certain that those options will be exercised.   Leases with an initial expected term of 12 months or less are not recorded in the Company's consolidated balance sheets and the related lease expense is recognized on a straight-line basis over the lease term. For certain classes of underlying assets, the Company has elected to not separate fixed lease components from the fixed non-lease components. The amendments in the ASU are effective for annual reporting periods beginning after December 15, 2026, and interim periods beginning after December 15, 2027. Early adoption is permitted. The Company is currently evaluating the impact of adopting ASU 2023-07 and intends to adopt and report on this topic as required by this ASU.   ASU No. 2023-07, “Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosure”   On November 27, 2023, the Financial Accounting Standards Board (“FASB”) issued ASU 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures," which requires public entities to disclose information about their reportable segments' significant expenses and other segment items on an interim and annual basis. Public entities with a single reportable segment are required to apply the disclosure requirements in ASU 2023-07, as well as existing segment disclosures and reconciliation required under Accounting Standard Codification (“ASC”) 280 on an interim and annual basis. ASU 2023-07 is effective for fiscal years beginning after December 15, 2023, and for the interim periods beginning after December 15, 2024, with early adoption permitted. The Company is currently evaluating the impact of adopting ASU 2023-07 and intends to adopt and report on this topic within the Company’s Annual Report on Form 10-K for the year ending December 31, 2024. <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; text-indent: 0px;"><tbody><tr style="vertical-align: top;"><td style="width: 27pt;"> 3. </td><td style="width: auto;"> Property and Equipment, Net </td></tr> </tbody></table>   Components of property and equipment, net, consist of the following as of September 30, 2024 and December 31, 2023:   <table border="0" cellpadding="0" cellspacing="0" class="finTable" style="margin-right: 7.5%; margin-left: 7.5%; width: 85%; font-size: 10pt; font-family: Times New Roman; text-indent: 0px;"><tbody><tr style="background-color: rgb(255, 255, 255); vertical-align: bottom"><td style="font-family: Times New Roman; font-size: 10pt;"> </td><td style="font-family: Times New Roman; font-size: 10pt;"> </td><td colspan="2" style="text-align: center; font-family: Times New Roman; font-size: 10pt; margin-left: 0pt;"> September 30, </td><td style="font-family: Times New Roman; font-size: 10pt;"> </td><td style="font-family: Times New Roman; font-size: 10pt;"> </td><td colspan="2" style="text-align: center; font-family: Times New Roman; font-size: 10pt; margin-left: 0pt;"> December 31, </td><td style="font-family: Times New Roman; font-size: 10pt;"> </td></tr> <tr style="background-color: rgb(255, 255, 255); vertical-align: bottom"><td style="font-family: Times New Roman; font-size:

The required inputs include the current stock price, the exercise price, the term of the options, the risk-free rate and the volatility of the common stock. The options' fair value is classified a Level 2 under the air value hierarchy as provided by ASC 820. The fair valuation of the Note and options uses inputs other than quoted prices that are observable either directly or indirectly.   The net proceeds of $901,000 are bifurcated between the Note and the options. The amount allocated to the options is $431,405 which is the fair value on the date of the Note. The remaining proceeds received are allocated to the Note. Under the fair valuation election, both the Note and options are remeasured to their respective fair values at the reporting date. Changes in fair values for the Note and options are recorded as an unrealized gain or loss on convertible note fair value in Other (Expense)/Income in the Company's consolidated statements of operations for the three and nine months ended September 30, 2024. As a result of this election, the Company recorded an unrealized gain of $0 and an unrealized loss $556,174 for the three and nine months ended September 30, 2024 for the Note, respectively, and an unrealized gain of $403,625 and an unrealized loss of $39,609 for the three and nine months ended September 30, 2024 for the Options, respectively.   <p style="font-family:

The total monthly payment obligation of the Company under the SRI Equipment Leases is $7,771. As a result of the SRI Equipment Leases, the Company recorded rent expense of $23,312 and $69,936 for the three and nine months ended September 30, 2024, respectively.   The Company has entered into a commercial lease agreement (the “ABCI Office Lease”) with Alpha Bravo Charlie, Inc. According to the Emry Agreement, effective on January 1, 2022, Mrs. Emry would receive an annual base salary of $200,000 and was eligible for a bonus at the sole discretion of the Board. Mrs. Emry would also receive participation in medical insurance, dental insurance, and the Company’s other benefit plans. Ms. Emry terminated her employment with the Company on October 15, 2024.   On March 28, 2023, the Company entered into an agreement with Berthaphil, Inc. ("Berthaphil") to sublease approximately 3,600 square yards of a warehouse building based in the Clark Freeport Zone in the Philippines (the "Berthaphil

The Company intends to use the leased space as a production facility as it seeks to expand its business presence in that region and the United States. See Note 11 - Leases for further information. GreenPower Litigation   On December 17, 2019, GreenPower Motor Company Inc., a public company incorporated under the laws of British Columbia (“GreenPower”), of which Phillip W. Oldridge, the Company’s Chief Executive Officer and Chairman of the Board, previously served as a senior officer and a member of its board of directors, filed a notice of civil claim, captioned GreenPower Motor Company Inc. v. Phillip Oldridge et al., Action No. S-1914285, in the Supreme Court of British Columbia, against Phillip Oldridge, his trust, Envirotech Drive Systems, Inc. and certain other companies affiliated therewith. On February 2, 2020, the Company and the other companies affiliated therewith named in the notice of civil claim filed a response to the civil claim in which they denied certain of the allegations. Fact discovery, through document disclosure and examinations for discoveries, in this matter remains ongoing. The Company believes it has meritorious defenses against GreenPower's claims and intends to vigorously defend itself against those claims.   On or about July 18, 2021, GreenPower and GP GreenPower Industries Inc. (collectively “the GreenPower entities”), filed a counterclaim against David Oldridge, Phillip Oldridge, the Company and other companies in Supreme Court of British Columbia Action No. S207532. The pleadings in this lawsuit have not closed and the Company intends to vigorously defend itself against the counterclaim.   On February 8, 2022, GreenPower Motor Company, Inc., a Delaware corporation, and GreenPower Motor Company Inc., a Canadian corporation, filed a complaint captioned GreenPower Motor Company, Inc. v. Phillip Oldridge, et al., Case No. 5:22-cv-00252 in the United States District Court for the Central District of California. The complaint’s allegations are centered around the same assertions in the pending Canadian litigation.   On May 10, 2022, the Company, together with other defendants, filed a Motion to Dismiss and/or Stay the lawsuit in the United States District Court for the Central District of California pending the outcome of the Canadian litigation. The Court issued stay of this case pending resolution of parallel litigation in Canada between similar parties. GreenPower and defendants have agreed that the U.S. GreenPower case will not proceed while Canadian litigation is pending. The Company believes that it has meritorious defenses against the Greenpower entities' claims and intends to vigorously defend itself against such claims.   <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; text-indent: 0px;"><tbody><tr style="vertical-align: top;"><td style="width: 27pt;"> 11. </td><td style="width: auto;"> Leases </td></tr> </tbody></table>   Operating leases   The Company has active operating lease arrangements for office space and warehouse facilities. The Company is typically required to make fixed minimum rent payments relating to its right to use the underlying leased assets. Although these leases have terms that are either month-to-month or terms that are one year or less (with renewal options), the Company concluded in the fourth quarter of 2023 that the term renewal options are reasonably certain to be exercised. As a result of changes in certain circumstances related to some of the Company's short-term leases, the Company was required to classify such leases as operating leases in accordance with the provisions of ASC 842. Therefore, the Company recognized operating lease liabilities with corresponding ROU assets based on the present value of the minimum rental payments of such leases.   On March 28, 2023, the Company entered into the Berthaphil Sublease with Berthaphil to sublease approximately 3,600 square yards of a warehouse building based in the Clark Freeport Zone in the Philippines. The term of the Berthaphil Sublease is two years and two months with a turnover date of July 1, 2023 (the "turnover date") and a rental commencement of September 1, 2023. However, the warehouse building was not available for use to the Company until the early part of the fourth quarter of 2023. Therefore, the commencement date was deferred until the fourth quarter of 2023, which is when the Company was given access to use the warehouse building. There was a grace period of two months for rental payments starting from the turnover date. The monthly rent for the first year is $15,000, escalating to $15,750 for the second year and $16,530 for the remaining term. In addition to the monthly rent, the Company is required to pay an additional 5% of the monthly rent as common area maintenance costs. The Berthaphil Sublease may be renewed for an additional period that is mutually agreed upon subject to certain terms and conditions. The Company intends to use the leased space as a

production facility as it seeks to expand its business presence in the region and the United States. The Company accounted for this lease as an operating lease under ASC 842 and recorded an operating lease liability and a corresponding ROU asset for this lease.   On July 1, 2024, the Company entered into a month-to-month lease contract with Southern Management Corporation to lease a residence in Osceola, Arkansas for the purpose of housing certain of the Company's employees. The monthly lease cost is $3,000. This lease is treated as a short-term lease expense.   On August 26, 2024, the Company entered into a one-year lease contract with 120 Park SD, LLC to lease a location in Manalapan, New Jersey with the purpose of servicing the Company's New Jersey customers. The monthly lease cost is $2,900 and at the end of the one-year lease term, the lease converts into a month-to-month arrangement. This lease is treated as a short-term lease expense.   The Company's lease agreements do not provide an implicit borrowing rate. Therefore, the Company used a benchmark approach to derive an appropriate incremental borrowing rate. The Company benchmarked itself against other companies of similar credit ratings and comparable credit quality and derived an incremental borrowing rate to discount each of its lease liabilities based on the remaining lease terms.   ROU assets at September 30, 2024 were $316,767. Short-term and long-term operating lease liabilities were $313,479 and $0 at <em style="font: inherit;"> September <em style="font: inherit;">30, <em style="font: inherit;">2024, respectively.</p> <p style="font-family: "Times New Roman"; There are two types of subsequent events: (1) recognized, or those that provide additional evidence with respect to conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing financial statements, and (2) non-recognized, or those that provide evidence with respect to conditions that did not exist at the date of the balance sheet but arose subsequent to that date.   Amended and Restated Standby Equity Purchase Agreement   On October 31, 2024 (the "Effective Date"), the Company entered into an amended and restated standby equity purchase agreement (the "A&R SEPA") that amends and restates in its entirety the Original SEPA with Yorkville. The terms of the A&R SEPA are substantially consistent with the terms of the Original SEPA, except that, pursuant to the A&R SEPA, Yorkville agreed to advance to the Company, subject to certain conditions, the principal amount of $3,000,000 (the "Prepaid Advance") which be evidenced by convertible promissory notes in two tranches. The first tranche of the Prepaid Advance was disbursed on October 31, 2024 in the principal amount of $2,000,000. Pursuant to the A&R SEPA, a discount of 5% was applied to the principal amount. The net cash amount received (less discount and fees) was approximately $1,752,000.   Maddox acquisition   On October 30, 2024, the Company entered into a membership interest purchase agreement (the "MIPA") with Maddox Industries, LLC ("Maddox Industries"), a provider of government contracting solutions based in Puerto Rico, and Jason Maddox, the sole member of Maddox Industries, to acquire all of the outstanding membership interests in Maddox Industries from Mr. Maddox. As consideration for the acquisition of Maddox Industries, at the closing, the Company will issue 3,100,000 shares of the Company's common stock to Mr. Maddox (the "Stock Consideration"), provided that the number of shares of common stock constituting the Stock Consideration will be reduced by any number of whole shares of common stock exceeding 19.99% of the outstanding shares of common stock as of immediately prior to the closing. As additional consideration for the acquisition, during the six-month period following the closing (the "Earnout Period"), Mr. Maddox will be eligible to receive up to six monthly cash payments in an aggregate amount of up to $1 million (each such monthly payment, an "Earnout Payment") in accordance with the terms of the MIPA. The Earnout Payment payable to Mr. Maddox for each calendar month during the Earnout Period, if any, will be equal to the aggregate amount of gross revenue received by Maddox Industries in respect of any accounts receivable from any existing customer outstanding as of the closing during such calendar month, provided that all Earnout Payments payable by the Company to Mr. Maddox under the MIPA may not exceed $1 million. The acquisition includes a three-year contract manufacturing agreement to be executed at the Company's expansive 580,000 square-foot facility in Osceola, Arkansas. The Board appointed Jason Maddox the President of the Company effective as of October 16, 2024.   3000000 2000000 0.05 1752000 3100000 1000000 1000000 580000 ITEM 5. OTHER INFORMATION   <p
