

# Investor Presentation

Q2 2025 Update

# Disclaimer

## Forward-Looking Statements

Certain statements in this presentation may be considered forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements generally relate to future events or Offerpad's future financial or operating performance. For example, statements regarding Offerpad's financial outlook, including homes sold, revenue and Adjusted EBITDA, for the first quarter of 2025, and expectations regarding market conditions, strategic imperatives and long-term sustainability and growth are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "pro forma," "may," "should," "could," "might," "plan," "possible," "project," "strive," "budget," "forecast," "expect," "intend," "will," "estimate," "anticipate," "believe," "predict," "potential" or "continue," or the negatives of these terms or variations of them or similar terminology. Such forward-looking statements are subject to risks, uncertainties, and other important factors that could cause actual results to differ materially from those expressed or implied by such forward-looking statements. Factors that may impact such forward-looking statements include, but are not limited to, Offerpad's ability to respond to general economic conditions; the health of the U.S. residential real estate industry; Offerpad's ability to grow market share in its existing markets or any new markets it may enter; Offerpad's ability to grow effectively; Offerpad's ability to accurately value and manage real estate inventory, maintain an adequate and desirable supply of real estate inventory, and manage renovations; Offerpad's ability to successfully launch new product and service offerings, and to manage, develop and refine its technology platform; Offerpad's ability to maintain and enhance its products and brand, and to attract customers; Offerpad's ability to achieve and maintain profitability in the future; and the success of strategic relationships with third parties; Offerpad's ability to regain compliance with New York Stock Exchange ("NYSE") Rule 802.01B, or failure to comply with other NYSE continued listing rules. These and other important factors discussed under the caption "Risk Factors" in Offerpad's Annual Report on Form 10-K for the year ended December 31, 2024 filed with the Securities and Exchange Commission on February 25, 2025, and Offerpad's other reports filed with the Securities and Exchange Commission could cause actual results to differ materially from those indicated by the forward-looking statements made in this presentation. These forward-looking statements are based upon estimates and assumptions that, while considered reasonable by Offerpad and its management, are inherently uncertain. Nothing in this presentation should be regarded as a representation by any person that the forward-looking statements set forth herein will be achieved or that any of the contemplated results of such forward-looking statements will be achieved. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made. Offerpad undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

## Financial Information: Non-GAAP Financial Measures

This Presentation also includes certain financial measures not presented in accordance with generally accepted accounting principles ("GAAP") including, but not limited to, Contribution Margin, Adjusted EBITDA, Adjusted Net (Loss) Income, Adjusted Gross (Loss) Profit and certain ratios and other metrics derived therefrom. Contribution Margin means net sale proceeds less holding and selling costs, plus other services. Adjusted EBITDA includes adjustments for amortization of share based compensation and other non-cash expense. The Company calculates Adjusted Net Income (Loss) as GAAP Net Income (Loss) adjusted for the change in fair value of warrant liabilities. The Company calculates Adjusted Gross Profit as gross profit under GAAP adjusted for (1) net inventory valuation adjustment plus (2) interest expense associated with homes sold in the presented period and recorded in cost of revenue. Net inventory valuation adjustment is calculated by adding back the inventory valuation adjustment charges recorded during the period on homes that remain in inventory at period end and subtracting the inventory valuation adjustment charges recorded in prior periods on homes sold in the current period. These non-GAAP financial measures are not measures of financial performance in accordance with GAAP and may exclude items that are significant in understanding and assessing the Company's financial results. Therefore, these measures should not be considered in isolation or as an alternative to net income, cash flows from operations or other measures of profitability, liquidity or performance under GAAP. You should be aware that the Company's presentation of these measures may not be comparable to similarly-titled measures used by other companies. The Company believes these non-GAAP measures of financial results provide useful information to management and investors regarding certain financial and business trends relating to the Company's financial condition and results of operations. The Company believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends in and in comparing the Company's financial measures with other similar companies, many of which present similar non-GAAP financial measures to investors. These non-GAAP financial measures are subject to inherent limitations as they reflect the exercise of judgments by management about which expense and income are excluded or included in determining these non-GAAP financial measures.

This Presentation also includes certain projections of non-GAAP financial measures. The Company has not provided a quantitative reconciliation of forecasted Adjusted EBITDA to forecasted net income (loss) within this presentation because the Company is unable to calculate certain reconciling items without making unreasonable efforts. These items, which include, but are not limited to, stock-based compensation with respect to future grants and forfeitures, could materially affect the computation of forward-looking net income (loss), are inherently uncertain and depend on various factors, some of which are outside of the Company's control.

## Industry and Market Data

In this Presentation, the Company relies on and refers to certain information and statistics obtained from third-party sources which the Company believes to be reliable. The Company has not independently verified the accuracy or completeness of any such third-party information.

## Non-GAAP Financial Measures

In addition to Offerpad's results of operations above, Offerpad reports certain financial measures that are not required by, or presented in accordance with, U.S. generally accepted accounting principles ("GAAP"). These measures have limitations as analytical tools when assessing Offerpad's operating performance and should not be considered in isolation or as a substitute for GAAP measures, including gross profit and net income.

Offerpad may calculate or present its non-GAAP financial measures differently than other companies who report measures with similar titles and, as a result, the non-GAAP financial measures Offerpad reports may not be comparable with those of companies in Offerpad's industry or in other industries. Offerpad has not provided a quantitative reconciliation of forecasted Adjusted EBITDA to forecasted net income (loss) within this press release because Offerpad is unable to calculate certain reconciling items without making unreasonable efforts. These items, which include, but are not limited to, stock-based compensation with respect to future grants and forfeitures, could materially affect the computation of forward-looking net income (loss), are inherently uncertain and depend on various factors, some of which are outside of Offerpad's control.

### Adjusted Gross Profit, Contribution Profit, and Contribution Profit After Interest (and related margins)

To provide investors with additional information regarding Offerpad's margins, Offerpad has included Adjusted Gross Profit, Contribution Profit, and Contribution Profit After Interest (and related margins), which are non-GAAP financial measures. Offerpad believes that Adjusted Gross Profit, Contribution Profit, and Contribution Profit After Interest are useful financial measures for investors as they are used by management in evaluating unit level economics and operating performance across Offerpad's markets. Each of these measures is intended to present the economics related to homes sold during a given period. Offerpad does so by including revenue generated from homes sold (and ancillary services) in the period and only the expenses that are directly attributable to such home sales, even if such expenses were recognized in prior periods, and excluding expenses related to homes that remain in real estate inventory as of the end of the period presented. Contribution Profit provides investors a measure to assess Offerpad's ability to generate returns on homes sold during a reporting period after considering home acquisition costs, renovation and repair costs, and adjusting for holding costs and selling costs. Contribution Profit After Interest further impacts gross profit by including interest costs (including senior and mezzanine secured credit facilities) attributable to homes sold during a reporting period. Offerpad believes these measures facilitate meaningful period over period comparisons and illustrate Offerpad's ability to generate returns on assets sold after considering the costs directly related to the assets sold in a presented period.

Adjusted Gross Profit, Contribution Profit and Contribution Profit After Interest (and related margins) are supplemental measures of Offerpad's operating performance and have limitations as analytical tools. For example, these measures include costs that were recorded in prior periods under GAAP and exclude, in connection with homes held in real estate inventory at the end of the period, costs required to be recorded under GAAP in the same period.

Accordingly, these measures should not be considered in isolation or as a substitute for analysis of Offerpad's results as reported under GAAP. Offerpad includes a reconciliation of these measures to the most directly comparable GAAP financial measure, which is gross profit.

## Adjusted Gross Profit / Margin

Offerpad calculates Adjusted Gross Profit as gross profit under GAAP adjusted for (1) net real estate inventory valuation adjustment plus (2) interest expense associated with homes sold in the presented period and recorded in cost of revenue. Net real estate inventory valuation adjustment is calculated by adding back the real estate inventory valuation adjustment charges recorded during the period on homes that remain in real estate inventory at period end and subtracting the real estate inventory valuation adjustment charges recorded in prior periods on homes sold in the current period. Offerpad defines Adjusted Gross Margin as Adjusted Gross Profit as a percentage of revenue.

Offerpad views this metric as an important measure of business performance, as it captures gross margin performance isolated to homes sold in a given period and provides comparability across reporting periods. Adjusted Gross Profit helps management assess performance across the key phases of processing a home (acquisitions, renovations, and resale) for a specific resale cohort.

## Contribution Profit / Margin

Offerpad calculates Contribution Profit as Adjusted Gross Profit, minus (1) direct selling costs incurred on homes sold during the presented period, minus (2) holding costs incurred in the current period on homes sold during the period recorded in sales, marketing, and operating, minus (3) holding costs incurred in prior periods on homes sold in the current period recorded in sales, marketing, and operating, plus (4) other income, net which is primarily comprised of interest income earned on our cash and cash equivalents and fair value adjustments of derivative financial instruments. The composition of Offerpad's holding costs is described in the footnotes to the reconciliation table below. Offerpad defines Contribution Margin as Contribution Profit as a percentage of revenue.

Offerpad views this metric as an important measure of business performance as it captures the unit level performance isolated to homes sold in a given period and provides comparability across reporting periods. Contribution Profit helps management assess inflows and outflow directly associated with a specific resale cohort.

## Contribution Profit / Margin After Interest

Offerpad defines Contribution Profit After Interest as Contribution Profit, minus (1) interest expense associated with homes sold in the presented period and recorded in cost of revenue, minus (2) interest expense associated with homes sold in the presented period, recorded in costs of sales, and previously excluded from Adjusted Gross Profit, and minus (3) interest expense under Offerpad's senior and mezzanine secured credit facilities and other senior secured debt incurred on homes sold during the period. This includes interest expense recorded in prior periods in which the sale occurred. Offerpad's senior and mezzanine secured credit facilities and other senior secured debt are secured by their homes in real estate inventory and drawdowns are made on a per-home basis at the time of purchase and are required to be repaid at the time the homes are sold. Offerpad defines Contribution Margin After Interest as Contribution Profit After Interest as a percentage of revenue.

Offerpad views this metric as an important measure of business performance. Contribution Profit After Interest helps management assess Contribution Margin performance, per above, when fully burdened with costs of financing.

Note: Current period represents adjustments for costs incurred on homes sold in the period presented and prior periods represents adjustments for costs incurred in prior periods on homes sold in the period presented. Numbers may not total due to rounding.

## Adjusted Net (Loss) Income and Adjusted EBITDA

Offerpad also presents Adjusted Net Income (Loss) and Adjusted EBITDA, which are non-GAAP financial measures, which the management team uses to assess Offerpad's underlying financial performance. Offerpad believes these measures provide insight into period over period performance, adjusted for non-recurring or non-cash items.

Offerpad calculates Adjusted Net Income (Loss) as GAAP Net Income (Loss) adjusted for the change in fair value of warrant liabilities. Offerpad defines Adjusted Net Income (Loss) Margin as Adjusted Net Income (Loss) as a percentage of revenue.

Offerpad calculates Adjusted EBITDA as Adjusted Net Income (Loss) adjusted for interest expense, amortization of capitalized interest, taxes, depreciation and amortization and stock-based compensation expense. Offerpad defines Adjusted EBITDA Margin as Adjusted EBITDA as a percentage of revenue.

Adjusted Net Income (Loss) and Adjusted EBITDA are supplemental to Offerpad's operating performance measures calculated in accordance with GAAP and have important limitations. For example, Adjusted Net Income (Loss) and Adjusted EBITDA exclude the impact of certain costs required to be recorded under GAAP and could differ substantially from similarly titled measures presented by other companies in Offerpad's industry or companies in other industries. Accordingly, these measures should not be considered in isolation or as a substitute for analysis of Offerpad's results as reported under GAAP.

The following table presents a reconciliation of Offerpad's Adjusted Net Income (Loss) and Adjusted EBITDA to their GAAP Net Income (Loss), which is the most directly comparable GAAP measure, for the periods indicated:
