AND SUBSIDIARY Notes to Consolidated Financial Statements (Unaudited) 1. BASIS OF PRESENTATION The accompanying unaudited consolidated financial statements were prepared in accordance with instructions for Quarterly Reports on Form 10-Q and, therefore, do not include all disclosures necessary for a complete presentation of financial condition, results of operations and cash flows in conformity with accounting principles generally accepted in the United States of America (generally accepted accounting principles or GAAP). However, all adjustments that are, in the opinion of management, necessary for a fair presentation of the interim unaudited consolidated financial statements have been included. All such adjustments are of a normal recurring nature. The accompanying unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Riverview Bancorp, Inc. Annual Report on Form 10-K for the year ended March 31, 2024 (2024 Form 10-K). The unaudited consolidated results of operations for the six months ended September 30, 2024 are not necessarily indicative of the results which may be expected for the entire fiscal year ending March 31, 2025. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Certain prior period amounts have been reclassified to conform to the current period presentation; such reclassifications had no effect on previously reported net income or total shareholders' equity. 2. PRINCIPLES OF CONSOLIDATION The accompanying consolidated financial statements include the accounts of Riverview Bancorp, Inc., its wholly-owned subsidiary, Riverview Bank (the Bank), and the Bank's wholly-owned subsidiaries, Riverview Services, Inc. and Riverview Trust Company (collectively referred to as the Company). All inter-company transactions and balances have been eliminated in consolidation. 3. STOCK PLANS AND STOCK-BASED COMPENSATION Stock Option Plans - In July 2003, shareholders of the Company approved the adoption of the 2003 Stock Option Plan (2003 Plan). The 2003 Plan was effective in July 2003 and expired in July 2013. Accordingly, no further option awards may be granted under the 2003 Plan. Further, no options granted under the 2003 plan remain outstanding as of September 30, 2024, with all such awards having been either previously exercised or forfeited. Each option granted under the 2003 Plan had an exercise price equal to the fair value of the Company's common stock on the date of the grant, a maximum term of ten years and a vesting period from zero to five years. In July 2017, the shareholders of the Company approved the Riverview Bancorp, Inc. 2017 Equity Incentive Plan (2017 Plan). The 2017 Plan provides for the grant of incentive stock options, non-qualified stock options, restricted stock and restricted stock units. The Company reserved 1,800,000 shares of its common stock for issuance under the 2017 Plan. At September 30, 2024, there were 546,078 shares available for grant under the 2017 Plan. The 2003 Plan and the 2017 Plan are collectively referred to as the Stock Option Plans. The fair value of each stock option grant is estimated on the date of grant using the Black-Scholes stock option valuation model. The fair value of all awards is amortized on a straight-line basis over the requisite service periods, which are generally the vesting periods. The expected life of options granted represents the period of time that they are expected to be outstanding. The expected life is determined based on historical experience with similar options, considering the contractual terms and vesting schedules. Expected volatility is estimated at the date of grant based on the historical volatility of the Company's common stock. Expected dividends are based on dividend trends and the market value of the Company's common stock at the time of grant. The risk-free interest rate for periods within the contractual life of the 9 Table of Contents is based on the U.S. Treasury yield curve in effect at the time of the grant. There were no stock options granted under the 2017 Stock Option Plan during the six months ended September 30, 2024 and As of September 30, 2024, all outstanding stock options were fully vested and there was no remaining unrecognized compensation expense related to stock options granted under the Stock Option Plans. There was no stock-based compensation expense related to stock options for the six months ended September 30, 2024 and 2023 under the Stock Option Plans. There was no activity related to stock options for the six months ended September 30, 2024. The following table presents the activity related to stock options under the Stock Option Plans for the six months ended September 30, 2023: 6. Six Months Ended September 30, 2023 7. There were no stock options outstanding as of September 30, 2024 and 2023. There was no intrinsic value of stock options exercised for the six months ended September 30, 2024. The total intrinsic value of stock options exercised was \$28,000 for the six months ended September 30, 2023, under the Stock Option Plans. The Company may grant restricted stock pursuant to the 2017 Plan of which vesting can either be time based or performance based. Performance based awards are subject to attaining certain performance metrics and all, or a portion of, the performance based awards can subsequently be cancelled for not attaining the predetermined performance metrics. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the date of grant. The related stock-based compensation expense is recorded over the requisite service period. Stock-based compensation related to restricted stock grants was \$26,000 and (\$70,000) for the three months ended September 30, 2024 and 2023, respectively. Stock-based compensation related to restricted stock grants was \$52,000 and (\$8,000) for the six months ended September 30, 2024 and 2023, respectively. The negative amounts for the three and six months ended September 30, 2023 resulted from restricted stock forfeited during the corresponding periods. The unrecognized stock-based compensation related to restricted stock was \$119,000 and \$371,000 at September 30, 2024 and 2023, respectively. The weighted average vesting period for the restricted stock was 0.94 years and 1.79 years at September 30, 2024 and 2023, respectively. 10 Table of Contents Summary of changes in nonvested restricted stock awards for the periods shown: 11. possible loss and management’s estimates may change over time. Determining the future resolution of legal matters involves significant judgment and uncertainty, and it is usually difficult to determine whether a favorable or unfavorable outcome is remote, reasonably likely, or probable, or to estimate the amount or range of a probable or reasonably likely loss, until relatively late in the process. The Company was involved in litigation with a former business client concerning real estate investments offered by a business owned by that client. In May 2023, the parties participated in mediation, after which a stay of proceedings was issued to facilitate continued settlement discussions. As of March 31, 2024, based on available information, including the likelihood of a proposed global settlement, management determined that a loss was probable and could be reasonably estimated. Consequently, the Company recorded a \$2.3 million expense in other non-interest expense for the three months ended March 31, 2024. This amount reflected the Company’s estimate of litigation costs exceeding its insurance coverage. The settlement was subsequently approved by all relevant courts in July 2024 and the final settlement payment of \$2.3 million was made in August 2024, fully releasing the Company from all claims related to the litigation. In September 2024, the Company received approximately \$600,000 in legal expense recovery related to the settled litigation matter of which approximately \$500,000 was recorded in non-interest income and \$100,000 was recorded as a recovery of legal expenses through the line item of professional fees in non-interest expense.

14. A A A LEASES

The Company has a finance lease for the shell of the building constructed as the Company’s operations center which expires in November 2039. The Company is also obligated under various noncancelable operating lease agreements for land, buildings and equipment that require future minimum rental payments. For each operating lease with an initial term of more than 12 months, the Company records an operating lease right-of-use (ROU) asset (representing the right to use the underlying asset for the lease term) and an operating lease liability (representing the obligation to make lease payments required under the terms of the lease). Operating lease ROU assets and operating lease liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. The Company uses its estimated incremental borrowing rate derived from information available at the lease commencement date as the discount rate when determining the present value of lease payments. The Company does not have any operating leases with an initial term of 12 months or less. Certain operating leases contain various provisions for increases in rental rates, based either on changes in the published Consumer Price Index or a predetermined escalation schedule. Certain operating leases provide the Company with the option to extend the lease term one or more times following expiration of the initial term. Lease extensions are not reasonably certain and the Company generally does not include payments occurring during option periods in the calculation of its operating lease ROU assets and operating lease liabilities. The table below presents the ROU assets and lease liabilities recorded in the consolidated balance sheets at the dates indicated (in thousands):

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

This report contains certain financial information determined by methods other than in accordance with accounting principles generally accepted in the United States of America (GAAP). These measures include net interest income on a fully tax equivalent basis and net interest margin on a fully tax equivalent basis. Management uses these non-GAAP measures in its analysis of the Company’s performance. The tax equivalent adjustment to net interest income recognizes the income tax savings when comparing taxable and tax-exempt assets. Management believes that it is a standard practice in the banking industry to present net interest income and net interest margin on a fully tax equivalent basis, and accordingly believes that providing these measures may be useful for peer comparison purposes. These disclosures should not be viewed as substitutes for the results determined to be in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies.

Critical Accounting Policies and Estimates

Executive Overview

As a progressive, community-oriented financial services business, the Company emphasizes local, personal service to residents of its primary market area. The Company considers Clark, Klickitat and Skamania counties of Washington, and Multnomah, Washington and Marion counties of Oregon as its primary market area. The Company is engaged predominantly in the business of attracting deposits from the general public and using such funds in its primary market area to originate commercial business, commercial real estate, multi-family real estate, land, real estate construction, residential real estate and other consumer loans. Additionally, the Company, from time to time, will purchase commercial business loans as a way to supplement loan originations and diversify the commercial loan portfolio. These loans are originated by a third-party located outside the Company’s primary market area. The Company also purchases the guaranteed portion of SBA loans to help loan portfolio diversification, supplement loan originations and generate a higher yield than overnight cash investments or short-term investments. These SBA loans are originated through another financial institution located outside the Company’s primary market area and are purchased with servicing retained by the seller. The Company’s loans receivable, net, totaled \$1.05 billion at September 30, 2024 compared to \$1.01 billion at March 31, 2024. The Bank’s subsidiary, Riverview Trust Company (the “Trust Company”), is a trust and financial services company with one office located in downtown Vancouver, Washington and one office in Lake Oswego, Oregon. The Trust Company provides full-service brokerage activities, trust and asset management services. The Bank’s Business and Professional Banking Division, with two lending offices in Vancouver and one in Portland, offers commercial and business banking services. The Company’s strategic plan includes targeting the commercial banking customer base in its primary market area for loan originations and deposit growth, specifically small and medium size businesses, professionals and wealth building individuals. In pursuit of these goals, the Company will seek to increase the loan portfolio consistent with its strategic plan and asset/liability and regulatory capital objectives, which includes maintaining a significant amount of commercial business and commercial real estate loans in its loan portfolio which typically carry adjustable rates, higher yields and shorter terms, as well as higher credit risk compared to traditional fixed-rate consumer real estate one-to-four family loans.

The strategic plan also stresses increased emphasis on non-interest income, including increased fees for asset management services through the Trust Company and deposit service charges. The strategic plan is designed to enhance earnings, reduce interest rate risk and provide a more complete range of financial services to customers and the local communities the Company serves. We believe we are well positioned to attract new customers and to increase our market share through our 17 branches, including, among others, ten in Clark County, three in the Portland metropolitan area and three lending centers. Vancouver is located in Clark County, Washington, which is just north of Portland, Oregon. Many businesses are located in the Vancouver area because of the favorable tax structure and lower energy costs in Washington as compared to Oregon. Companies located in the Vancouver area include: Sharp Microelectronics, Hewlett Packard, Georgia Pacific, Underwriters Laboratory, WaferTech, Barrett Business Services, PeaceHealth and Banfield Pet Hospitals, as well as several support industries. In addition to this industry base, the Columbia River Gorge Scenic Area and the Portland metropolitan area are sources of tourism. Operating Strategy

Fiscal year 2025 marks the 101st anniversary since the Bank began operations in 1923. The primary business strategy of the Company is to provide comprehensive banking and related financial services within its primary market area focusing on commercial and real estate construction lending. At September 30, 2024, commercial and real estate construction loans represented 89.3% of total loans compared to 90.4% at March 31, 2024. Commercial lending, including commercial real estate loans, typically has higher credit risk, greater interest margins and shorter terms than residential lending which can increase the loan portfolio’s profitability. The Company’s goal is to deliver returns to shareholders by increasing higher-yielding assets (in particular, commercial real estate and commercial business loans), increasing core deposit balances, managing problem assets, reducing expenses, hiring experienced employees with a commercial lending focus and exploring expansion opportunities. The Company seeks to achieve these results by focusing on the following objectives.

Execution of our Business Plan. The Company is focused on increasing its loan portfolio, especially higher yielding commercial and real estate construction loans, and its core deposits by expanding its customer base throughout its primary market areas. By emphasizing total relationship banking, the Company intends to deepen the relationships with its customers and increase individual customer profitability through cross-marketing programs, which allows the Company to better identify lending opportunities and services for customers. To build its core deposit base, the Company will continue to utilize additional product offerings, technology and a focus on customer service in working toward this goal. The Company will also continue to seek to expand its franchise through de novo branches, the selective acquisition of individual branches, loan purchases and whole bank transactions that meet its investment and market objectives. In fiscal year 2021, the Company ceased originating residential real estate loans; however, it will from time to time purchase these loans consistent with asset/liability objectives.

Maintaining Strong Asset Quality. The Company believes that strong asset quality is a key to long-term financial success. The Company has actively managed delinquent loans and nonperforming assets by aggressively pursuing the collection of consumer debts, marketing saleable properties upon foreclosure or repossession, and through work-outs of classified assets and loan charge-offs. The Company’s approach to credit management uses well defined policies and procedures and disciplined underwriting criteria resulting in our strong asset quality and credit metrics. Although the Company intends to prudently increase the percentage of its assets consisting of higher-yielding commercial real estate, real estate construction and commercial business loans, which offer higher risk-adjusted returns, shorter maturities and more sensitivity to interest rate fluctuations, the Company intends to manage credit exposure using experienced bankers in these areas and a conservative approach to its lending.

Introduction of New Products and Services

The Company continuously reviews new products and services to provide its customers with more financial options. All new technology and services are generally reviewed for business development and cost saving purposes. The Company continues to experience growth in customer use of its online banking services, where the Bank provides a full array of traditional cash management products as well as online banking products including mobile banking, mobile deposit, bill pay, e-statements, and text banking. The products are tailored to meet the needs of small to medium size businesses and households in the markets we serve. The Company intends to selectively add other products to further diversify revenue sources and to capture more of each customer’s banking relationship by cross selling loan and deposit products and additional services, including services provided through the Trust Company to increase its fee income. Assets under management by the Trust Company totaled \$871.6 million and \$961.8 million at September 30, 2024 and March 31, 2024, respectively. Attracting Core Deposits and Other Deposit Products. The Company offers personal checking, savings and money-market accounts, which generally are lower-cost sources of funds than certificates of deposit and are less likely to be withdrawn when interest rates fluctuate. To build its core deposit base, the Company has sought to reduce its dependence on traditional higher cost deposits in favor of stable lower cost deposits to fund loan growth and decrease its reliance on other wholesale funding sources, including FHLB and FRB advances. The Company believes that its continued focus on building customer relationships will help to increase the level of core deposits and locally-based retail certificates of deposit. In addition, the Company intends to increase demand deposits by growing business banking relationships through expanded product lines tailored to meet its target business customers’ needs. The Company maintains technology-based products, such as personal financial management and business remote deposit products, to encourage the growth of lower cost deposits which enable it to meet its customers’ cash management needs and compete effectively with banks of all sizes. Recruiting and Retaining Highly Competent Personnel with a Focus on Commercial Lending. The Company’s ability to continue to attract and retain banking professionals with strong community relationships and significant knowledge of its markets will be a key to its success. The Company believes that it enhances its market position and adds profitable growth opportunities by focusing on hiring and retaining experienced bankers focused on owner occupied commercial real estate and commercial lending, and the deposit balances that accompany these relationships. The Company emphasizes to its employees the importance of delivering exemplary customer service and seeking opportunities to build further relationships with its customers. The goal is to compete with other financial service providers by relying on the strength of the Company’s customer service and relationship banking approach. The Company believes that one of its strengths is that its employees are also shareholders through the Company’s employee stock ownership (ESOP) and 401(k) plans.

Comparison of Financial Condition at September 30, 2024 and March 31, 2024	Cash and cash equivalents, including interest-earning deposits in other banks, totaled \$31.0 million at September 30, 2024 compared to \$23.6 million at March 31, 2024. The Company’s cash balances typically fluctuate based upon funding needs, deposit activity and investment securities activity. Based on the Company’s asset/liability management program and liquidity objectives, the Company may deploy excess cash to purchase investment securities depending on the rate environment and other considerations. As a part of this strategy, the Company may choose to invest in short-term certificates of deposit held for investment, all of which are fully insured by the Federal Deposit Insurance Corporation (the FDIC). Investment securities totaled \$354.9 million and \$372.7 million at September 30, 2024 and March 31, 2024, respectively. The decrease was due to normal pay downs, calls and maturities of investment securities. The Company had no sales of investment securities during the six months ended September 30, 2024. The Company’s	

investment securities primarily consist of a combination of securities backed by government agencies (FHLB, FNMA, SBA or GNMA). At September 30, 2024, the Company determined that none of its investment securities required an allowance for credit losses (ACL). For additional information on the Company's investment securities, see Note 5 of the Notes to the Consolidated Financial Statements contained in Item 1 of this Form 10-Q. The Company's investment securities portfolio, net, totaled \$1.05 billion at September 30, 2024, compared to \$1.01 billion at March 31, 2024, an increase of \$36.9 million. The increase was primarily attributable to increases in real estate construction loans of \$15.0 million, other installment loans of \$14.5 million, multi-family loans of \$7.9 million and commercial business loans of \$7.5 million. These increases were partially offset by a decrease in commercial real estate loans of \$10.0 million. The Company no longer originates one-to-four family mortgage loans; however, will from time to time purchase these loans consistent with its asset/liability objectives. Additionally, the Company will purchase commercial business loans and consumer loans to supplement loan originations and diversify the loan portfolio. Purchased loans are originated by a third-party located outside the Company's primary market area. Commercial business loans purchased at September 30, 2024 totaled \$24.7 million compared to \$27.2 million at March 31, 2024. Consumer loans purchased at September 30, 2024 totaled \$14.6 million compared to none at March 31, 2024. The Company also purchases the guaranteed portion of SBA loans to help loan portfolio diversification, supplement loan originations and generate a higher yield than overnight cash investments or short-term investments. These SBA loans are originated through another financial institution located outside the Company's primary market area and are purchased with servicing retained by the seller. At September 30, 2024, the Company purchased SBA loan portfolio was \$50.0 million compared to \$51.0 million at March 31, 2024. Deposits increased \$5.8 million to \$1.24 billion at September 30, 2024, compared to \$1.23 billion at March 31, 2024 due to a concentrated effort by the Company to retain and increase deposits in light of the strong competition for deposits in its market area. Certificates of deposit and money market accounts increased \$38.2 and \$18.3 million, respectively. As these increases were partially offset by decreases of \$22.6 million in interest bearing accounts, \$20.2 million in regular savings accounts and \$8.0 million in non-interest-bearing accounts. The Company had no wholesale-brokered deposits at September 30, 2024 and March 31, 2024. Core branch deposits accounted for 98.4% of total deposits at September 30, 2024 compared to 98.0% at March 31, 2024. The Company plans to continue its focus on core deposits and on building customer relationships as opposed to obtaining deposits through the wholesale markets. Accrued expenses and other liabilities increased \$1.6 million to \$17.8 million at September 30, 2024 compared to \$16.2 million at March 31, 2024. The increase was primarily due to an outstanding balance in Trust sweep funds of \$4.7 million at September 30, 2024 that were subsequently disbursed the following business day. As this increase was partially offset by decreases of \$1.5 million in other accrued expenses and \$845,000 in dividends payable. A FHLB advances increased \$14.0 million to \$102.3 million at September 30, 2024 compared to \$88.3 million at March 31, 2024. FHLB advances at September 30, 2024 were comprised of overnight advances and short-term borrowings of \$77.3 million and \$25.0 million, respectively. A FHLB advances at March 31, 2024 were comprised of overnight advances. A FHLB advances were utilized to fund new loan originations. Shareholders' equity increased \$5.2 million to \$160.8 million at September 30, 2024 compared to \$155.6 million at March 31, 2024. The increase was mainly attributable to net income of \$2.5 million and a decrease in the accumulated other comprehensive loss related to the change in unrealized holding losses on securities available for sale, net of tax, of \$3.5 million for the six months ended September 30, 2024. As these increases were partially offset by the payment of cash dividends totaling \$843,000. Capital Resources The Bank is a state-chartered, federally insured institution subject to various regulatory capital requirements administered by the FDIC and Washington State Department of Financial Institutions, Division of Banks. Failure to meet minimum capital requirements can result in the initiation of certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of the Bank's assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors. Table of Contents Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios of total and tier I capital to risk-weighted assets, core capital to total assets and tangible capital to tangible assets (set forth in the table below). Management believes the Bank met all capital adequacy requirements to which it was subject as of September 30, 2024. As of September 30, 2024, the Bank was categorized as "well capitalized" under the FDIC's regulatory framework for prompt corrective action. The Bank's actual and required minimum capital amounts and ratios were as follows at the dates indicated (dollars in thousands):

	September 30, 2024	March 31, 2024
Capital: Total Capital (To Risk-Weighted Assets)	\$176,525.56	\$176,525.56
Capital: Common equity tier 1 (To Risk-Weighted Assets)	\$162,824.46	\$162,824.46
Capital: Tier 1 Capital (To Risk-Weighted Assets)	\$162,824.46	\$162,824.46
Capital: Tier 2 Capital (To Risk-Weighted Assets)	\$13,701.10	\$13,701.10
Capital: Total Capital (To Average Tangible Assets)	\$162,824.46	\$162,824.46
Capital: Common equity tier 1 (To Average Tangible Assets)	\$160,197.15	\$160,197.15
Capital: Tier 1 Capital (To Average Tangible Assets)	\$160,197.15	\$160,197.15
Capital: Tier 2 Capital (To Average Tangible Assets)	\$12,627.31	\$12,627.31

The Bank is required to maintain a capital conservation buffer consisting of additional CET1 capital in order to avoid limitations on paying dividends, engaging in share repurchases, and paying discretionary bonuses based on percentages of eligible retained income that could be utilized for such actions. The capital conservation buffer is required to be an amount greater than 2.5% of risk-weighted assets. As of September 30, 2024, the Bank's CET1 capital exceeded the required capital conservation buffer at an amount greater than 2.5%. For a bank holding company, such as the Company, the capital guidelines apply on a bank only basis. The Federal Reserve expects the holding company's subsidiary banks to be well capitalized under the prompt corrective action regulations. If the Company was subject to regulatory guidelines for bank holding companies at September 30, 2024, the Company would have exceeded all regulatory capital requirements. At periodic intervals, the Company's banking regulators routinely examine the Company's financial condition and risk management processes as part of their legally prescribed oversight. Based on their examinations, these regulators can direct that the Company's consolidated financial statements be adjusted in accordance with their findings. A future examination could include a review of certain transactions or other amounts reported in the Company's fiscal 2025 consolidated financial statements. Liquidity Liquidity is essential to our business. The objectives of the Bank's liquidity management are to maintain ample cash flows to meet obligations for depositor withdrawals, to fund the borrowing needs of loan customers, and to fund ongoing operations. Core relationship deposits are the primary source of the Bank's liquidity. As such, the Bank focuses on deposit relationships with local consumer and business clients who maintain multiple accounts and services at the Bank. Table of Contents Liquidity management is both a short and long-term responsibility of the Company's management. The Company adjusts its investments in liquid assets based upon management's assessment of (i) expected loan demand, (ii) projected loan sales, (iii) expected deposit flows, (iv) yields available on interest-bearing deposits and (v) its asset/liability management program objectives. Excess liquidity is invested generally in interest-bearing overnight deposits and other short-term government and agency obligations. If the Company requires funds beyond its ability to generate them internally, it has additional diversified and reliable sources of funds with the FHLB, the FRB and other wholesale facilities. These sources of funds may be used on a long or short-term basis to compensate for a reduction in other sources of funds or on a long-term basis to support lending activities. The Company's primary sources of funds are customer deposits, proceeds from principal and interest payments on loans, proceeds from the sale of loans, maturing securities, FHLB advances and FRB borrowings. While maturities and scheduled amortization of loans and securities are a predictable source of funds, deposit flows and prepayment of mortgage loans and mortgage-backed securities are greatly influenced by general interest rates, economic conditions and competition. Management believes that its focus on core relationship deposits coupled with access to borrowings through reliable counterparties provides reasonable and prudent assurance that ample liquidity is available. However, depositor or counterparty behavior could change in response to competition, economic or market situations or other unforeseen circumstances, which could have liquidity implications that may require different strategic or operational actions. The Company must maintain an adequate level of liquidity to ensure the availability of sufficient funds for loan originations, deposit withdrawals, continuing operations, satisfaction of financial commitments, and to take advantage of investment opportunities. During the six months ended September 30, 2024, the Bank used its sources of funds primarily to fund loan commitments. At September 30, 2024, cash and cash equivalents and available for sale investment securities totaled \$164.0 million, or 10.6% of total assets. Management believes that the Company's security portfolio is of high quality and its securities would therefore be marketable. The levels of these assets are dependent on the Company's operating, financing, lending, and investing activities during any given period. The Bank generally maintains sufficient cash and short-term investments to meet short-term liquidity needs; however, its primary liquidity management practice is to manage short-term borrowings, consistent with its asset/liability objectives. In addition to these primary sources of funds, the Bank has several secondary borrowing sources available to meet potential funding requirements, including FRB borrowings and FHLB advances. At September 30, 2024, the Bank had no advances from the FRB and maintains a credit facility with the FRB with an available borrowing capacity of \$299.5 million, subject to sufficient collateral. At September 30, 2024, the Bank had advances totaling \$102.3 million from the FHLB and had an additional borrowing capacity of \$167.5 million with the FHLB, subject to sufficient collateral and stock investment. At September 30, 2024, the Bank had sufficient unpledged collateral to allow it to utilize its available borrowing capacity from the FRB and the FHLB. Borrowing capacity may, however, fluctuate based on acceptability and risk rating of loan collateral and counterparties could adjust discount rates applied to such collateral at their discretion. An additional source of wholesale funding includes brokered certificates of deposit. While the Company has utilized brokered deposits from time to time, historically it has not extensively relied on brokered deposits to fund its operations. At September 30, 2024 and March 31, 2024, the Bank had no wholesale brokered deposits. The Bank also participates in the Certificate of Deposit Account Registry Services (CDARS) and Insured Cash Sweep (ICS) deposit products, which allow the Company to accept deposits in excess of the FDIC insurance limit for depositors while obtaining FDIC insurance for total deposits. The Bank's CDARS and ICS balances were \$37.4 million, or 3.0% of total deposits, and \$39.6 million, or 3.2% of total deposits, at September 30, 2024 and March 31, 2024, respectively. The combination of all the Bank's funding sources gives the Bank available liquidity of \$820.8 million, or 53.0% of total assets at September 30, 2024. At September 30, 2024, the Company had total commitments of \$128.8 million, which includes commitments to extend credit of \$14.9 million, unused lines of credit totaling \$82.1 million, undisbursed real estate construction loans totaling \$30.3 million, and standby letters of credit totaling \$1.6 million. The Company anticipates that it will have sufficient funds available to meet current loan commitments. Certificates of deposit that are scheduled to mature in less than one year from September 30, 2024 totaled \$220.1 million. Historically, the Bank has been able to retain a significant amount of its deposits as they mature. Offsetting these cash outflows are scheduled loan and investment securities maturities of less than one year totaling \$41.4 million and \$24.4 million, respectively, at September 30, 2024. Table of Contents The Company incurs capital expenditures on an ongoing basis to expand and improve our product offerings, enhance and modernize our technology infrastructure, and to introduce new technology-based products to compete effectively in our markets. We evaluate capital expenditure projects based on a variety of factors, including expected strategic impacts (such as forecasted impact on revenue growth, productivity, expenses, service levels and customer retention) and our expected return on investment. The amount of capital investment is influenced by, among other things, current and projected demand for our services and products, cash flow generated by operating activities, cash required for other purposes and regulatory considerations. Based on our current capital allocation objectives, during the remainder of fiscal 2025 we expect cash expenditures of approximately \$339,000 for capital investment in premises and equipment. For further information regarding the Company's off-balance sheet arrangements and other contractual obligations, see Notes 13 and 14 of the Notes to Consolidated Financial Statements contained in Item 1 of this Form 10-Q. Riverview Bancorp, Inc., as a separate legal entity from the Bank, must provide for its own liquidity. Sources of capital and liquidity for Riverview Bancorp, Inc. include distributions from the Bank and the issuance of debt or equity securities. Dividends and other capital distributions from the Bank are subject to regulatory notice. Management currently expects to continue the Company's current practice of paying quarterly cash dividends on its common stock subject to the Board of Directors' discretion to modify or terminate this practice at any time and for any reason without prior notice. The current quarterly common stock dividend rate is \$0.02 per share, as approved by the Board of Directors, which management believes is a dividend rate per share that will enable the Company to balance multiple objectives of managing and investing in the Bank, and returning a substantial portion of the Company's cash to its shareholders. Assuming continued payment during fiscal 2025 at this rate of \$0.02 per share, average total dividends paid each quarter would be approximately \$422,000 based on the number of the Company's outstanding shares as of September 30, 2024. At September 30, 2024, Riverview Bancorp, Inc. had \$8.1 million in cash to meet its liquidity needs. Asset Quality Nonperforming assets were \$450,000 or 0.03% of total assets at September 30, 2024, compared to \$178,000 or 0.01% of total assets at March 31, 2024. At September 30, 2024, SBA and United States Department of Agriculture (USDA) government guaranteed loans that were 90 days or more past due and still accruing interest included in nonperforming assets totaled \$301,000 compared to \$5,000 at March 31, 2024. The Company expects to receive all principal and interest since the Company purchased the guaranteed portion of these loans which is backed by government guaranteed interest certificates. The Company had no other real estate owned or foreclosed assets at September 30, 2024 or March 31, 2024. The following table sets forth information regarding the Company's nonperforming loans, consisting of nonaccrual loans and accruing

The increase in net income for the three months ended September 30, 2024, was primarily due to the overall increase in the loan portfolio. The lack of provision for credit losses for the three and six months ended September 30, 2023 reflects assumptions related to our forecast concerning the economic environment as a result of local, national and global events. In addition, expected loss estimates consider various factors, including customer-specific information, changes in risk ratings, projected delinquencies, and the impact of economic conditions on borrowers' ability to repay. Net recoveries totaled \$2,000 for the three and six months ended September 30, 2024, respectively. This compares to net recoveries of \$3,000 and net charge-offs of \$5,000 for the three and six months ended September 30, 2023, respectively. Annualized net charge-offs/recoveries were insignificant for both the three and six months ended September 30, 2024 and 2023. While we believe the estimates and assumptions used in our determination of the adequacy of the allowance for credit losses are reasonable, there can be no assurance that such estimates and assumptions will not be proven incorrect in the future, or that the actual amount of future provisions will not exceed the amount of past provisions or that any increased provisions that may be required will not have a material adverse impact on our financial condition and results of operations. A further decline in national and local economic conditions, as a result of the effects of inflation, and a potential recession or slowed economic growth, among other factors, could result in a material increase in the allowance for credit losses and have a material adverse impact on our financial condition and results of operations. In addition, the determination of the amount of our allowance for credit losses is subject to review by bank regulators as part of the routine examination process, which may result in the adjustment of reserves based upon their judgment of information available to them at the time of their examination and have a material adverse impact on our financial condition and results of operations.

Table of Contents

Nonperforming loans were \$450,000 at September 30, 2024, compared to \$178,000 at March 31, 2024. Included in the \$450,000 of nonperforming loans at September 30, 2024, were \$301,000 of SBA and USDA government guaranteed loans. The Company expects to receive all principal and interest on these SBA and USDA loans since the Company purchased the guaranteed portion of the loans which is backed by government guaranteed interest certificates. The ratio of the ACL for loans to nonperforming loans was 3436.89% at September 30, 2024 compared to 8631.46% at March 31, 2024. See Asset Quality above for additional information related to asset quality that management considers in determining the appropriate level of the ACL. Non-interest income increased \$434,000 and \$516,000 to \$3.8 million and \$7.2 million for the three and six months ended September 30, 2024, respectively, compared to \$3.4 million and \$6.7 million for the same periods in the prior year. The increase for both periods were primarily due to approximately \$500,000 in other non-interest income related to a legal expense recovery related to the settled litigation matter from the prior year. In addition, asset management fees income increased by \$160,000 and \$337,000 for the three and six months ended September 30, 2024, respectively, compared to the same periods in the prior year due to new client relationships and a strong equity market performance during the three and six months ended September 30, 2024. Other changes in non-interest income for the three and six months ended September 30, 2024 compared to the same periods in the prior year included a decrease of \$214,000 and \$274,000 in fees and service charges. The decrease in fees and service charges for the three and six months ended September 30, 2024 primarily resulted from a \$167,000 decrease in employee retention credit income and a decrease in interchange income of \$45,000 and \$68,000, respectively. Non-Interest Expense. Non-interest expense increased \$612,000 and \$1.6 million to \$10.7 million and \$21.7 million for the three and six months ended September 30, 2024, respectively, compared to \$10.1 million and \$20.1 million for the same periods in the prior year, respectively. Salaries and employee benefits increased \$632,000 and \$977,000 for the three and six months ended September 30, 2024, respectively, compared to the same periods in the prior year due to increases in compensation expense and bonus expense. Occupancy and depreciation expense increased by \$272,000 and \$584,000 for the three and six months ended September 30, 2024, respectively, compared to the same periods in the prior year due to increases in computer software, depreciation, repair and maintenance expenses as the Company continues to update and modernize branch locations, and a one-time lease termination fee incurred in September 2024 as a result of the Company purchasing the Orchards location. Other changes in non-interest expense was an increase of \$186,000 in professional fees for the six months ended September 30, 2024 compared to the same period in the prior year due to increases in consulting expense. Offsetting these fluctuations was a decrease in other non-interest expense of \$318,000 and \$201,000 for the three and six months ended September 30, 2024, respectively, compared to the same periods in the prior year due to excess accrued expenses related to litigation that was recognized in the prior year and an increase in fraud recoveries, partially offset by additional accruals for business and occupation taxes. For further information regarding the litigation, see Note 13. Commitments and Contingencies. Income Taxes. The provision for income taxes was \$425,000 and \$678,000 for the three and six months ended September 30, 2024, respectively, compared to \$697,000 and \$1.5 million for the same periods in the prior year. The decrease in the provision for income taxes was due to lower pre-tax income for the three and six months ended September 30, 2024, compared to the same periods in the prior year. The Company's effective tax rate for the three and six months ended September 30, 2024, was 21.4% and 21.2%, respectively, compared to 22.0% and 22.2% for the three and six months ended September 30, 2023, respectively. The lower effective tax rate for the three and six months ended September 30, 2024 is due to lower pretax income. At September 30, 2024, management deemed that a valuation allowance related to the Company's deferred tax asset was not necessary. At September 30, 2024, the Company had a net deferred tax asset of \$8.7 million compared to \$9.8 million at March 31, 2024. Table of Contents 3.A Quantitative and Qualitative Disclosures About Market Risk There has not been any material change in the market risk disclosures contained in the 2024 Form 10-K. Item 4.A Controls and Procedures An evaluation of the Company's disclosure controls and procedures (as defined in Rule 13(a)-15(e) of the Securities Exchange Act of 1934) as of September 30, 2024 was carried out under the supervision and with the participation of the Company's Chief Executive Officer (principal executive officer), Chief Financial Officer (principal financial officer) and several other members of the Company's senior management. The Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures as in effect on September 30, 2024 were effective in ensuring that the information required to be disclosed by the Company in the reports it files or submits under the Securities and Exchange Act of 1934 is (i) accumulated and communicated to the Company's management (including the Chief Executive Officer and Chief Financial Officer) in a timely manner, and (ii) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. In the quarter ended September 30, 2024, the Company did not make any changes in its internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, these controls. While the Company believes the present design of its disclosure controls and procedures is effective to achieve its goal, future events affecting its business may cause the Company to modify its disclosure controls and procedures. The Company does not expect that its disclosure controls and procedures and internal control over financial reporting will prevent all errors and fraud. A control procedure, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control procedure are met. Because of the inherent limitations in all control procedures, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns in controls or procedures can occur because of simple errors or mistakes. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any control procedure is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control procedure, misstatements attributable to errors or fraud may occur and not be detected. Table of Contents RIVERVIEW BANCORP, INC. AND SUBSIDIARY PART II. OTHER INFORMATION Item 1. Legal Proceedings The Company is a party to litigation arising in the ordinary course of business. In the opinion of management, these actions will not have a material effect on the Company's financial position, results of operations, or liquidity. For additional information on the Company's litigation, see Note 13 to the Consolidated Financial Statements contained in Item 1 of this Form 10-Q. Item 1A. Risk Factors There have been no material changes to the risk factors set forth in Part I. Item 1A of the Company's 2024 Form 10-K. Item 2. Unregistered Sales of Equity Securities and Use of Proceeds (a) Not applicable. (b) Not applicable. (c) The following table provides information about repurchases of common stock by the Company during the quarter ended September 30, 2024.

Date	Total Value	Average Price	Purchased Shares	Number of Shares	Price per Share	Part of Publicly Announced Program
July 1, 2024 - July 31, 2024	\$6,458,000	\$6.45	1,000,000	1,000,000	\$6.45	Yes

On September 26, 2024, the Company's Board of Directors announced the adoption of a stock repurchase program, authorizing the Company to purchase up to \$2.0 million of the Company's outstanding shares of common stock, in the open market, based on prevailing market prices, or in privately negotiated transactions. The repurchase program became effective on October 30, 2024 and will continue until the earlier of the completion of the repurchase or 12 months after the effective date, depending upon market conditions. Item 3. Defaults Upon Senior Securities Not applicable. Item 4. Mine Safety Disclosures Not applicable. Item 5. Other Information (a) None. (b) None. (c) Trading Plans. During the quarter ended September 30, 2024, no director or officer (as defined in Rule 16a-1(f) under the Exchange Act) of the Company adopted or terminated a trading arrangement or a non-Rule 10b5-1 trading arrangement, as each term is defined in Item 408(a) of Regulation S-K. 50 Table of Contents 6. Financing Receivable, Excluding Accrued Interest, Nonaccrual, Allowance Non-accruals, Allowance Interest income foregone on loans not accruing. In general, when a loan is 90 days delinquent or when collection of principal or interest appears doubtful, it is placed on non-accrual status, at which time the accrual of interest ceases and a reserve for unrecoverable accrued interest is established and charged against operations. Payments received on non-accrual loans are applied to reduce the outstanding principal balance on a cash-basis method. As a general practice, a loan is not removed from non-accrual status until all delinquent principal, interest and late fees have been brought current and the borrower has demonstrated a history of performance based upon the contractual terms of the note. The largest portion of the Company's revenue is from interest income, which is not within the scope of ASC 606. All of the Company's revenue from contracts with customers within the scope of ASC 606 is recognized in non-interest income except for gains on sales of REO and premises and equipment, which are included in non-interest expense.If a contract is determined to be within the scope of ASC 606, the Company recognizes revenue as it satisfies a performance obligation. Payments from customers are generally collected at the time services are rendered, monthly, or quarterly. For contracts with customers within the scope of ASC 606, revenue is either earned at a point in time or revenue is earned over time. Examples of revenue earned at a point in time are automated teller machine (ATM) transaction fees, wire transfer fees, overdraft fees and interchange fees. Revenue earned at a point in time is primarily based on the number and type of transactions that are generally derived from transactional information accumulated by the Company's systems and is recognized immediately as the transactions occur or upon providing the service to complete the customer's transaction. The Company is generally the principal in these contracts, except for interchange fees, in which case the Company is acting as the agent and records revenue net of expenses paid to the principal. Examples of revenue earned over time, which generally occur monthly, are deposit account maintenance fees, investment advisory fees, merchant revenue, trust and investment management fees and safe deposit box fees. Revenue is generally derived from transactional information accumulated by the Company's systems or those of third-parties and is recognized as the related transactions occur or services are rendered to the customer. For the six months ended September 30, 2024 and 2023, substantially all of the Company's revenues within the scope of ASC 606 are for performance obligations satisfied at a point in time.Disaggregation of RevenueThe following table includes the Company's non-interest income, net disaggregated by type of service for the periods shown (in thousands):

	Three Months Ended	Six Months Ended
September 30, 2024	\$ 1,433.4	\$ 1,273.4

Deposit related fees	\$ 1,692.2	\$ 449.6
Other	\$ 455.6	\$ 910.6
Total	\$ 2,949.4	\$ 2,486.8

The Company also has other revenue streams, including loan fees, which are not within the scope of ASC 606. Loan fees include prepayment fees, late charges, brokered loan fees, maintenance fees and others. These fees are recognized on a daily, monthly, quarterly or annual basis, depending on the type of service.Other: Fees earned on other services, such as merchant services or occasional non-recurring type services, are recognized at the time of the event or the applicable billing cycle.Contract BalancesAs of September 30, 2024, the Company had no significant contract liabilities where the Company had an obligation to transfer goods or services for which the Company had already received consideration. In addition, the Company had no material unsatisfied performance obligations as of September 30, 2024 and 2023. These financial instruments generally include commitments to originate mortgage, commercial and consumer loans, and involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the consolidated balance sheets. The Company's maximum exposure to credit loss in the event of nonperformance by the borrower is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments as it does for on-balance sheet instruments. Commitments to originate loans are conditional and are honored for up to 45 days subject to the Company's usual terms and conditions. Collateral is not required to support commitments.Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third-party. These guarantees are primarily used to support public and private borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. Collateral held varies and is required in instances where the Company deems it necessary.Significant off-balance sheet commitments at September 30, 2024 are listed below (in thousands):

	September 30, 2024	September 30, 2023
Standby letters of credit	\$ 1,600	\$ 112,389
Unfunded loan commitments	\$ 128,807	\$ 128,807
Other contractual obligations	\$ 14,818	\$ 14,818

In connection with certain asset sales, the Company typically makes representations and warranties about the underlying assets conforming to specified guidelines. If the underlying assets do not conform to the specifications, the Company may have an obligation to repurchase the assets or indemnify the purchaser against loss. At September 30, 2024, loans under warranty totaled \$29.9 million, which substantially represents the unpaid principal balance of the Company's loans serviced for the FHLMC. The Company believes that the potential for loss under these arrangements is remote. At September 30, 2024, the Company had an ACL for FHLMC loans of \$12,000. The Bank is a public depository and, accordingly, accepts deposit and other public funds belonging to, or held for the benefit of, Washington and Oregon states, political subdivisions thereof, and municipal corporations. In accordance with applicable state law, in the event of default of a participating bank, all other participating banks in the state collectively assure that no loss of funds are suffered by any public depositor. Generally, in the event of default by a public depository, the assessment attributable to all public depositories is allocated on a pro rata basis in proportion to the maximum liability of each depository as it existed on the date of loss. The Company did not incur any losses related to public depository funds for the six months ended September 30, 2024 and 2023.The Bank has entered into employment contracts with certain key employees, which provide for contingent payments subject to future events.Litigation The Company is periodically involved in litigation arising from the ordinary course of business, some of which may involve claims for substantial or uncertain amounts. At least quarterly, we assess liabilities and contingencies related to all outstanding or new legal matters based on the most recent information available. If a loss is not probable, or the amount cannot be estimated, no accrual is established. When a loss is determined to be probable and can be reasonably estimated, an accrual for the loss is established and adjusted as necessary to reflect any subsequent developments. Estimating the amount of loss is inherently difficult and there may be cases where a loss is probable or reasonably possible but not currently estimable. Actual losses may exceed any established accrual or the range of reasonably possible loss and management's estimates may change over time. Determining the future resolution of legal matters involves significant judgment and uncertainty, and it is usually difficult to determine whether a favorable or unfavorable outcome is remote, reasonably likely, or probable, or to estimate the amount or range of a probable or reasonably likely loss, until relatively late in the process.The Company was involved in litigation with a former business client concerning real estate investments offered by a business owned by that client. In May 2023, the parties participated in mediation, after which a stay of proceedings was issued to facilitate continued settlement discussions. As of March 31, 2024, based on available information, including the likelihood of a proposed global settlement, management determined that a loss was probable and could be reasonably estimated. Consequently, the Company recorded a \$2.3 million expense in other non-interest expense for the three months ended March 31, 2024. This amount reflected the Company's estimate of litigation costs exceeding its insurance coverage. The settlement was subsequently approved by all relevant courts in July 2024 and the final settlement payment of \$2.3 million was made in August 2024, fully releasing the Company from all claims related to the litigation. In September 2024, the Company received approximately \$600,000 in legal expense recovery related to the settled litigation matter of which approximately \$500,000 was recorded in non-interest income and \$100,000 was recorded as a recovery of legal expenses through the line item of professional fees in non-interest expense. In general, when a loan is 90 days delinquent or when collection of principal or interest appears doubtful, it is placed on non-accrual status, at which time the accrual of interest ceases and a reserve for unrecoverable accrued interest is established and charged against operations. Payments received on non-accrual loans are applied to reduce the outstanding principal balance on a cash-basis method. As a general practice, a loan is not removed from non-accrual status until all delinquent principal, interest and late fees have been brought current and the borrower has demonstrated a history of performance based upon the contractual terms of the note. + ReferencesNo definition available. + Details Name: rvsb_InterestIncomeForegoneOnNonAccrualLoans Namespace Prefix: rvsb Data Type: xbrli:monetaryItemType Balance Type: debit Period Type: duration X - DefinitionThe number to one borrower that are over the regulatory limit. + ReferencesNo definition available. + Details Name: rvsb_NumberOfLoansToOneBorrowerOverRegulatoryLimit Namespace Prefix: rvsb Data Type: xbrli:integerItemType Balance Type: na Period Type: duration X - DefinitionRepresent percentage of loans and extensions of credit outstanding. + ReferencesNo definition available. + Details Name: rvsb_PercentageOfLoansAndExtensionsOfCreditOutstanding Namespace Prefix: rvsb Data Type: dtr-types:percentItemType Balance Type: na Period Type: duration X - DefinitionLine items represent financial concepts included in a table. The 2003 Plan was effective in July 2003 and expired in July 2013. Accordingly, no further option awards may be granted under the 2003 Plan. Further, no options granted under the 2003 plan remain outstanding as of September 30, 2024, with all such awards having been either previously exercised or forfeited. Each option granted under the 2003 Plan had an exercise price equal to the fair value of the Company's common stock on the date of the grant, a maximum term often years and a vesting period fromsecixHidden. The fair value of all awards is amortized on a straight-line basis over the requisite service periods, which are generally the vesting periods. The expected life of options granted represents the period of time that they are expected to be outstanding. The expected life is determined based on historical experience with similar options, considering the contractual terms and vesting schedules. Expected volatility is estimated at the date of grant based on the

The ACL for loans is an estimate of the expected credit losses on financial assets measured at amortized cost.

The ACL for loans is evaluated and calculated on a collective basis for those loans which share similar risk characteristics.

The Company estimates the expected credit losses over the loans' contractual terms, adjusted for expected prepayments.

The ACL for loans is calculated for loan segments utilizing loan level information and relevant information from internal and external sources related to past events and current conditions.

In addition, the Company incorporates a reasonable and supportable forecast.

For loans that are individually evaluated, an allowance is established when the discounted cash flows or collateral value (less estimated selling costs, if applicable) of the loan is lower than its carrying value.

When available information confirms that specific loans or portions thereof are uncollectible, identified amounts are charged against the allowance for credit losses.

The existence of some or all of the following criteria will generally confirm that a loss has been incurred:

- the loan is significantly delinquent and the borrower has not demonstrated the ability or intent to bring the loan current;
- the Company has no recourse to the borrower, or if it does, the borrower has insufficient assets to pay the debt; and/or
- the estimated fair value of the loan collateral is significantly below the current loan balance, and there is little or no near-term prospect for improvement.

Management's evaluation of the ACL for loans is based on ongoing quarterly assessments of the known and inherent risks in the loan portfolio.

Loss factors are based on the Company's historical loss experience with additional consideration and adjustments made for changes in economic conditions, changes in the amount and composition of the loan portfolio, delinquency rates, changes in collateral values, seasoning of the loan portfolio, duration of the current business cycle, a detailed analysis of individually evaluated loans and other factors as deemed appropriate.

These factors are evaluated on a quarterly basis.

Loss rates used by the Company are affected as changes in these factors increase or decrease from quarter to quarter.

In addition, regulatory agencies, as an integral part of their examination process, periodically review the Company's ACL for loans and may require the Company to make additions to the ACL for loans based on their judgment about information available to them at the time of their examinations.

The following tables detail activity in the ACL for loans at or for the three and six months ended September 30, 2024 and September 30, 2023, by loan category (in thousands).

or United States Department of Agriculture – “USDA”) loans. These government guaranteed loans are classified as pass rated loans and are not considered to be either nonaccrual or classified loans because based on the guarantee, the Company expects to receive all principal and interest according to the contractual terms of the loan agreement and there are no well-defined weaknesses or risk of loss. As a result, these loans were omitted from the required calculation of the ACL for loans. Interest income foregone on non-accrual loans was \$4,000 and \$10,000 for the six months ended September 30, 2024 and the year ended March 31, 2024, respectively. For additional information, see Management’s Discussion and Analysis of Financial Condition and Results of Operations – Comparison of Financial Condition at September 30, 2024 and March 31, 2024 – Asset Quality, discussed below.

At September 30, 2024, the Company had \$116,000 of non-accrual loans with no ACL and \$33,000 of non-accrual loans with an ACL of \$1,000. The amortized cost of collateral dependent loans as of September 30, 2024, were \$48,000 and \$68,000 for commercial business and commercial real estate, respectively.

securities will also be deferred and the Company may not pay cash dividends to the holders of shares of the Company's common stock. The Company's common stock is classified as "common stock" in the consolidated balance sheets. The common securities issued by the grantor trusts were purchased by the Company, and the Company's investment in the common securities of \$836,000 at both September 30, 2024 and March 31, 2024, is included in prepaid expenses and other assets in the consolidated balance sheets. The Company records interest expense on the Debentures in the consolidated statements of income. The following table is a summary of the terms and the amounts outstanding of the Debentures at September 30, 2024 (dollars in thousands):

Debentures	Interest Rate	Maturity Date	Amount Outstanding
Senior Secured Debentures	5.50%	2029	\$27.0 million
Senior Unsecured Debentures	5.50%	2029	\$27.0 million
Subordinated Debentures	5.50%	2029	\$27.0 million

A point in time is primarily based on the number and type of transactions that are generally derived from transactional information accumulated by the Company's systems and is recognized immediately as the transactions occur or upon providing the service to complete the customer's transaction. The Company is generally the principal in these contracts, except for interchange fees, in which case the Company is acting as the agent and records revenue net of expenses paid to the principal. Examples of revenue earned over time, which generally occur monthly, are deposit account maintenance fees, investment advisory fees, merchant revenue, trust and investment management fees and safe deposit box fees. Revenue is generally derived from transactional information accumulated by the Company's systems or those of third parties and is recognized as the related transactions occur or services are rendered to the customer. For the six months ended September 30, 2024 and 2023, substantially all of the Company's revenues within the scope of ASC 606 are for performance obligations satisfied at a point in time.

	September 30, 2024	September 30, 2023
Disaggregation of Revenue	\$1,433	\$1,273
Non-interest income, net	\$9,580	\$9,580

The following table includes the Company's non-interest income, net disaggregated by type of service for the periods shown (in thousands):

The Bank earns interchange fees from debit cardholder transactions through the MasterCard® payment network. Interchange fees from cardholder transactions represent a percentage of the underlying transaction value and are recognized daily, concurrently with the transaction processing services provided to the cardholder. The performance obligation is satisfied and the fees are earned when the cost of the transaction is charged to the cardholders' debit card. Certain expenses directly associated with the debit cards are recorded on a net basis with the interchange income. <p> <p style="font-family:Times New Roman;Times',serif;font-size:10pt;text-align:justify;margin:0pt 0pt 10pt 0pt;"> Deposit related fees <p> Fees are earned on the Bank's deposit accounts for various products offered to or services performed for the Bank's customers. Fees include business account fees, non-sufficient fund fees, stop payment fees, wire services, safe deposit box and others. These fees are recognized on a daily, monthly or quarterly basis, depending on the type of service. <p> <p style="font-family:Times New Roman;Times',serif;font-size:10pt;text-align:justify;margin:0pt 0pt 10pt 0pt;"> Loan related fees <p> Non-interest loan fee income is earned on loans that the Bank services, excluding loans serviced for the FHLMC which are not within the scope of ASC 606. Loan related fees include prepayment fees, late charges, brokered loan fees, maintenance fees and others. These fees are recognized on a daily, monthly, quarterly or annual basis, depending on the type of service. <p> <p style="font-family:Times New Roman;Times',serif;font-size:10pt;text-align:justify;margin:0pt 0pt 10pt 0pt;"> Other <p> Fees earned on other services, such as merchant services or occasional non-recurring type services, are recognized at the time of the event or the applicable billing cycle. <p> <p style="font-family:Times New Roman;Times',serif;font-size:10pt;margin:2pt 0pt 10pt 0pt;"> Contract Balances <p> <p style="font-family:Times New Roman;Times',serif;font-size:10pt;text-align:justify;margin:0pt;"> As of September 30, 2024, the Company had no significant contract liabilities where the Company had an obligation to transfer goods or services for which the Company had already received consideration. Litigation

The Company is periodically involved in litigation arising from the ordinary course of business, some of which may involve claims for substantial or uncertain amounts. At least quarterly, we assess liabilities and contingencies related to all outstanding or new legal matters based on the most recent information available. If a loss is not probable, or the amount cannot be estimated, no accrual is established. When a loss is determined to be probable and can be reasonably estimated, an accrual for the loss is established and adjusted as necessary to reflect any subsequent developments. Estimating the amount of loss is inherently difficult and there may be cases where a loss is probable or reasonably possible but not currently estimable. Actual losses may exceed any established accrual or the range of reasonably possible loss and management's estimates may change over time. Determining the future resolution of legal matters involves significant judgment and uncertainty, and it is usually difficult to determine whether a favorable or unfavorable outcome is remote, reasonably likely, or probable, or to estimate the amount or range of a probable or reasonably likely loss, until relatively late in the process.

The Bank is a public depository and, accordingly, accepts deposit and other public funds belonging to, or held for the benefit of, Washington and Oregon states, political subdivisions thereof, and municipal corporations. In accordance with applicable state law, in the event of default of a participating bank, all other participating banks in the state collectively assure that no loss of funds are suffered by any public depositor. Generally, in the event of default by a public depository, the assessment attributable to all public depositories is allocated on a pro rata basis in proportion to the maximum liability of each depository as it existed on the date of loss. The Company did not incur any losses related to public depository funds for the six months ended September 30, 2024 and 2023.

The Company was involved in litigation with a former business client concerning real estate investments offered by a business owned by that client. In May 2023, the parties participated in mediation, after which a stay of proceedings was issued to facilitate continued settlement discussions. As of March 31, 2024, based on available information, including the likelihood of a proposed global settlement, management determined that a loss was probable and could be reasonably estimated. Consequently, the Company recorded a \$2.3 million expense in other non-interest expense for the three months ended March 31, 2024. This amount reflected the Company's estimate of litigation costs exceeding its insurance coverage. The settlement was subsequently approved by all relevant courts in July 2024 and the final settlement payment of \$2.3 million was made in August 2024, fully releasing the Company from all claims related to the litigation. In September 2024, the Company received approximately \$600,000 in legal expense recovery related to the settled litigation matter of which approximately \$500,000 was recorded in non-interest income and \$100,000 was recorded as a recovery of legal expenses through the line item of professional fees in non-interest expense.
