ESAB CORPORATION
NOTES TO CONSOLIDATED AND CONDENSED FINANCIAL STATEMENTS
(Unaudited)

1. Organization and Basis of Presentation

Founded in 1904, ESAB Corporation ("ESAB" or the "Company") is a focused premier industrial compounder. ESAB provides its partners with fabrication technology advanced equipment, consumables, gas control equipment, robotics, and digital solutions. The Company's rich history of innovative products and workflow solutions and its business system ESAB Business Excellence ("EBX") enables the Company's purpose of *Shaping the world we imagine*™. The Company conducts its operations through two reportable segments. These segments consist of the "Americas," which includes operations in North America and South America, and "EMEA & APAC," which includes Europe, Middle East, India, Africa and Asia Pacific. On April 4, 2022, ESAB Corporation completed its spin-off from Colfax Corporation ("Colfax," "Enovis" or "Former Parent") and became an independent, public-traded company (the "Separation").

The Company's fiscal year ends December 31. The Company's second quarter ends on the last business day of the 13th week after the end of the prior quarter. As used herein, the second quarter results for 2024 and 2023 refer to the 13-week periods ended June 28, 2024 and June 30, 2023, respectively.

Russia and Ukraine Conflict

The invasion of Ukraine by Russia and the sanctions imposed in response have increased the level of economic and political uncertainty. While ESAB continues to closely monitor the situation and evaluate options, the Company is meeting current contractual obligations while addressing applicable laws and regulations. For the three and six months ended June 28, 2024, Russia represented approximately 6% and 5% of the Company's total revenue, respectively, and approximately \$5 million and \$10 million of its Net income, respectively. Russia also has approximately 5% of the Company's total net assets excluding any goodwill allocation as of June 28, 2024. In case of a disposition of the Russia business, a portion of goodwill would need to be allocated and disposed of at the relative fair value attributable to the Russia business. Russia has a cumulative translation loss of approximately \$113 million as of June 28, 2024, which could be realized upon a transition out. The Company is closely monitoring developments in Ukraine and Russia. Changes in laws and regulations or other factors impacting the Company's ability to fulfill contractual obligations could have an adverse effect on the results of operations.

Basis of Presentation

The Consolidated and Condensed Financial Statements included herein have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Certain information and footnote disclosures normally included in the financial statements prepared in accordance with the accounting principles generally accepted in the United States ("U.S. GAAP") have been condensed or omitted pursuant to SEC rules and regulations; however the Company believes that the disclosures are adequate to make the information presented not misleading.

The Consolidated and Condensed Financial Statements reflect, in the opinion of management, all adjustments, which consist solely of normal recurring adjustments, necessary to present fairly the Company's financial position and results of operations as of and for the periods indicated. Intercompany transactions and accounts are eliminated in consolidation.

In the normal course of business, the Company incurs research and development costs related to new product development, which are expensed as incurred and included in Selling, general and administrative expenses on the Company's Consolidated and Condensed Statements of Operations. Research and development costs were \$9.7 million and \$19.8 million during the three and six months ended June 28, 2024, respectively, and \$ 9.5 million and \$19.1 million during the three and six months ended June 30, 2023, respectively. These amounts do not include development and application engineering costs incurred in conjunction with fulfilling customer orders and executing customer projects, nor do they include costs related to securing third party product rights. The Company expects to continue making significant expenditures for research and development to maintain and improve its competitive positions.

The accompanying interim Consolidated and Condensed Financial Statements and the related notes should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2023 (the "2023 Form 10-K"), filed with the SEC on February 29, 2024.

2. Discontinued Operations

The Company holds certain asbestos-related contingencies and insurance coverages from divested businesses for which it does not have an interest in the ongoing operations. The Company has classified asbestos-related activity in its Consolidated and Condensed Statements of Operations as part of Loss from discontinued operations, net of taxes. This activity consists primarily of expected settlements, legal and administrative expenses associated with the above liabilities.

Loss from discontinued operations, net of taxes was \$1.2 million and \$2.5 million for the three and six months ended June 28, 2024, respectively, and \$1.6 million and \$2.5 million for the three and six months ended June 30, 2023, respectively. See Note 14, "Commitments and Contingencies" for further information.

Cash used in operating activities related to discontinued operations for the three and six months ended June 28, 2024 was \$4.8 million and \$8.5 million, respectively, and for the three and six months ended June 30, 2023 it was \$4.4 million and \$9.7 million, respectively.

3. Acquisitions

On April 30, 2024, the Company reached an agreement to acquire SUMIG Soluções para Solda e Corte Ltda, a South American light automation and equipment business for approximately \$74 million of cash consideration. This acquisition is expected to be completed during the second half of 2024, subject to the receipt of applicable regulatory approvals and customary closing conditions.

On February 26, 2024, the Company completed the acquisition of Sager S.A., a welding repair and maintenance product and service leader in South America, for \$18.1 million, net of cash received.

On January 11, 2023, the Company completed the acquisition of Therapy Equipment Limited, a regional leader in oxygen regulators, for \$18.7 million, net of cash received.

4. Revenue

The Company provides fabrication technology advanced equipment, consumables, gas control equipment, robotics and digital solutions. The Company's products are utilized to solve challenges in a wide range of industries. Substantially all revenue is recognized at a point in time. The Company disaggregates its revenue into the following product groups:

	Three Months Ended		Six Months Ended	
	June 28, 2024	June 30, 2023	June 28, 2024	June 30, 2023
	(In thousands)			
Equipment	\$ 231,659	\$ 226,049	\$ 446,518	\$ 426,268
Consumables	475,394	494,373	950,279	978,154
Total	\$ 707,053	\$ 720,422	\$ 1,396,797	\$ 1,404,422

The sales mix in the above table is relatively consistent across both reportable segments. The consumables product grouping generally has less production complexity and shorter production cycles than equipment products.

Given the nature of the business, the total amount of unsatisfied performance obligations with an original contract duration of greater than one year as of June 28, 2024 is immaterial. In some circumstances, customers are billed in advance of revenue recognition, resulting in contract liabilities. As of December 31, 2023 and December 31, 2022, total contract liabilities were \$31.2 million and \$25.9 million, respectively, and were included in Accrued liabilities on the Consolidated and Condensed Balance Sheets. During the three and six months ended June 28, 2024, revenue recognized that was included in the contract liabilities balance at the beginning of the year was \$5.1 million and \$21.3 million, respectively. During the three and six months ended June 30, 2023, revenue recognized that was included in the contract liabilities balance at the beginning of the year was \$3.3 million and \$14.4 million, respectively. As of June 28, 2024 and June 30, 2023, total contract liabilities were \$27.9 million and \$28.2 million, respectively.

⁽²⁾ Potentially dilutive securities include stock options, performance-based restricted stock units and non-performance-based restricted stock units.

6. Income Taxes

During the three and six months ended June 28, 2024, Income from continuing operations before income taxes was \$ 103.4 million and \$184.8 million, respectively, while Income tax expense was \$17.9 million and \$36.4 million, respectively. The effective tax rate was 17.3% and 19.7% for the three and six months ended June 28, 2024, respectively. The effective tax rate differed from the 2024 U.S. federal statutory rate of 21.0% primarily due to a favorable final ruling in a tax case in a foreign jurisdiction.

During the three and six months ended June 30, 2023, Income from continuing operations before income taxes was \$ 89.8 million and \$161.0 million, respectively, while Income tax expense was \$21.0 million and \$58.0 million, respectively. The effective tax rate was 23.4% and 36.0% for the three and six months ended June 30, 2023, respectively. The effective tax rate differed from the 2023 U.S. federal statutory rate of 21.0% primarily due to discrete tax expenses in 2023 for dividend withholding taxes and an increase in the liability for uncertain tax positions.

During the six months ended June 30, 2023, the Company recorded total tax expense of \$ 10.9 million relating to a change in its indefinite reinvestment assertion on certain foreign undistributed earnings. Additionally, the Company increased the net liability for uncertain tax positions by \$9.4 million primarily relating to an adverse court ruling in a tax case in a foreign jurisdiction. During the three months ended June 28, 2024, a favorable final ruling in a tax case in a foreign jurisdiction was decided and the Company released the related liability for uncertain tax positions for a net tax benefit of \$7.9 million. As a result of the release in the uncertain tax position for the period ending June 28, 2024, the ending unrecognized tax balance decreased by \$17.7 million.

Senior Notes, Term Loans and Revolving Credit Facility

On April 4, 2022, the Company entered into a credit agreement (as amended and restated from time-to-time, the "Credit Agreement") in connection with the Separation. The Credit Agreement initially consisted of a \$750 million revolving credit facility (the "Revolving Facility") with a maturity date of April 4, 2027, a Term A-1 loan with an initial aggregate principal amount of \$400 million (the "Term Loan A-1 Facility"), with a maturity date of April 4, 2027; and a \$600 million 364-day senior term loan facility (the "Term Loan A-2 Facility") with a maturity date of April 3, 2023. The Revolving Facility contains a \$300 million foreign currency sublimit and a \$50 million swing line loan sub-facility.

On April 4, 2022, the Company drew down \$ 1.2 billion available under the credit facilities consisting of (i) \$ 200 million under the Revolving Facility, (ii) \$400 million under the Term Loan A-1 Facility and (iii) \$600 million under the Term Loan A-2 Facility. The Company used these proceeds to make payments to Enovis of \$1.2 billion, which was used as part of the consideration for the contribution of certain assets and liabilities to the Company by Enovis in connection with the Separation.

On June 28, 2022, the Company amended and restated the Credit Agreement by entering into Amendment No. 2 to the Credit Agreement ("Credit Agreement Amendment"). The Credit Agreement Amendment provides for a \$ 600 million term loan facility (the "Term Loan A-3 Facility") with a maturity date of April 3, 2025 to refinance the Company's existing Term Loan A-2 Facility. Also on June 28, 2022, the Company borrowed the entire \$ 600 million under Term Loan A-3 Facility to fund the repayment of the Term Loan A-2 Facility.

On April 9, 2024, the Company issued a \$ 700.0 million in aggregate principal amount of 6.25% senior notes due 2029 (the "Senior Notes"). The Senior Notes have a contractual interest rate of 6.25% and maturity date of April 15, 2029. The Company used the net proceeds from the Senior Notes offering to pay off its Term Loan A-3 Facility and pay fees associated with the offering.

As of June 28, 2024, the Company's long-term Debt consisted of the following facilities:

- A \$750 million Revolving Facility with a maturity date of April 4, 2027, with zero dollars drawn;
- A Term Loan A-1 Facility with an aggregate principal amount of \$390 million with a maturity date of April 4, 2027; and
- Senior Notes with an aggregate principal amount of \$700 million with a maturity date of April 15, 2029.

The Credit Agreement contains customary covenants limiting the ability of the Company and its subsidiaries to, among other things, incur debt or liens, merge or consolidate with others, dispose of assets, make investments or pay dividends. In addition, the Credit Agreement contains financial covenants requiring the Company to maintain (i) a maximum total leverage ratio of not more than 4.00:1.00, with step-downs to, commencing with the fiscal quarter ending June 30, 2023, 3.75:1.00, and commencing with the fiscal quarter ending June 30, 2024, 3.50:1.00, and (ii) a minimum interest coverage ratio of 3.00:1.00. The Credit Agreement contains various events of default (including failure to comply with the covenants under the Credit Agreement and related agreements) and upon an event of default the lenders may, subject to various customary cure rights, require the immediate payment of all amounts outstanding under the Term Facilities and the Revolving Facility. Certain United States subsidiaries of the Company have agreed to guarantee the obligations of the Company under the Credit Agreement.

Loans made under the Term Facilities will bear interest, at the election of the Company, at either the base rate (as defined in the Credit Agreement) or at the term Secured Overnight Financing Rate ("SOFR") rate plus an adjustment (as defined in the Credit Agreement), in each case, plus the applicable interest rate margin. Loans made under the Revolving Facility will bear interest, at the election of the Company, at either the base rate or, (i) in the case of loans denominated in dollars, the term SOFR rate plus an adjustment or the daily simple SOFR plus an adjustment, (ii) in the case of loans denominated in euros, the adjusted Euro Interbank Offered Rate ("EURIBOR") rate and, (iii) in the case of loans denominated in sterling, Sterling Overnight Index Average ("SONIA") plus an adjustment (as all such rates are defined in the Credit Agreement Amendment), in each case, plus the applicable interest rate margin. The applicable interest rate margin changes based upon the Company's total leverage ratio (consolidated total debt divided by EBITDA, as defined in the credit agreement and ranging from 1.125% to 1.750% or in the case of the base rate margin, 0.125% to 0.750%). Each swing line loan denominated in dollars will bear interest at the base rate plus the applicable interest rate margin.

(Unaudited)

To manage exposures to currency exchange rates and interest rates arising in Long-term debt, the Company entered into interest rate and cross currency swap agreements. Refer to Note 11, "Derivatives" for additional information.

As of June 28, 2024, the weighted-average interest rate of borrowings under the Credit Agreement and Senior Notes was 5.13%, including the net impact from the interest rate and cross currency swaps and excluding accretion of deferred financing fees, and there was \$750 million of borrowing capacity available under the Revolving Facility, subject to the Company meeting financial covenants and other requirements.

Other Indebtedness

In addition to the debt agreements discussed above, the Company also has the ability to incur approximately \$ 50 million of indebtedness pursuant to certain uncommitted credit lines, consisting of an uncommitted credit line that the Company has used from time to time in the past for short-term working capital needs.

The Company is party to letter of credit facilities with an aggregate capacity of \$ 108.6 million. Total letters of credit of \$ 27.9 million were outstanding as of June 28, 2024.

Deferred Financing Fees

The Company had total deferred financing fees of \$ 11.2 million included in its Consolidated and Condensed Balance Sheets as of June 28, 2024, which will be charged to Interest expense and other, net, over the term of the related debt instruments. The costs associated with the Term Facilities will be amortized over the contractual term of the Term Facilities, the costs associated with the Revolving Facility will be amortized over the life of the Credit Agreement and the costs associated with the Senior Notes will be amortized over the life of the Note. Of the \$11.2 million, \$0.8 million of deferred financing fees relating to the Revolving Facility are included in Other assets and \$10.4 million of deferred financing fees relating to the Term Facilities and Senior Notes are recorded as a contra-liability within long-term debt.

11. Derivatives

The Company uses derivative instruments to manage exposures to currency exchange rates and interest rates arising in connection with long-term debt and the normal course of business. The Company has established policies and procedures that govern the risk management of these exposures. Both at inception and on an ongoing basis, the derivative instruments that qualify for hedge accounting are assessed as to their effectiveness, when applicable.

The Company is subject to the credit risk of counterparties to derivative instruments. Counterparties include a number of major banks and financial institutions. None of the concentrations of risk with an individual counterparty was considered significant as of June 28, 2024. The Company does not expect any counterparties to fail to meet their obligations. The Company records derivatives in the Consolidated and Condensed Balance Sheets at fair value.

Cash Flow Hedges

On July 14, 2022, the Company entered into two interest rate swap agreements to manage interest rate risk exposure. The aggregate notional amount of these contracts was \$600 million and they mature in April 2025. These interest rate swap agreements utilized by the Company effectively modify the Company's exposure to interest rate risk by converting a portion of the Company's floating-rate debt to a fixed rate of 3.293%, plus a spread, thus reducing the impact of interest-rate changes on future interest expense. The applicable spread may vary between 1.125% to 1.750%, depending on the total leverage ratio of the Company.

In March 2024, the Company settled one of the interest rate swaps associated with the Company's floating-rate debt and received \$ 5.5 million in connection with that settlement. The termination of the interest rate swap was related to the repayment of the Term A-3 Facility in April 2024. Refer to Note 10, "Debt" for further information. As this interest rate swap was designated as a cash flow hedge, \$5.5 million was deferred in accumulated other comprehensive income (loss) ("AOCL") and will be recognized in earnings over the period the originally forecasted hedged transaction impacts earnings. The remaining \$300 million swap is expected to continue to be hedged against the remaining floating-rate debt.

ESAB CORPORATION
NOTES TO CONSOLIDATED AND CONDENSED FINANCIAL STATEMENTS — (Continued)
(Unaudited)

For the remaining swap, the spread was 1.250% as of June 28, 2024. This agreement involves the receipt of floating-rate amounts in exchange for fixed-rate interest payments over the life of the agreement without an exchange of the underlying principal amount. This interest rate swap agreement is designated and qualifies as a cash flow hedge and as such, the gain or loss on the derivative instrument due to the change in fair value is reported as a component of AOCI and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. If a derivative is deemed to be ineffective, the change in fair value of the derivative is recognized directly in earnings. The Company did not have any ineffectiveness related to the cash flow hedges during the six months ended June 28, 2024.

The cash inflows and outflows associated with the Company's interest rate swap agreement designated as cash flow hedges are classified in cash flows from operating activities in the accompanying Consolidated and Condensed Statements of Cash Flows.

The Company expects a gain of \$ 3.4 million, net of tax, related to interest rate swap agreements to be reclassified from AOCI to earnings over the next 12 months as the hedged transactions are realized. The expected gain to be reclassified is based on current forward rates in active markets as of June 28, 2024.

The effects of designated cash flow hedges on the Company's Consolidated and Condensed Statements of Operations consisted of the following:

Derivative Type	(Gain) Recognized in the Consolidated and Condensed Statements of Operations:	Three Months Ended		Six Months Ended

Net Investment Hedges

On July 22, 2022, the Company entered into two cross-currency swap agreements, set to mature in April 2025, to partially hedge its net investment in its Euro-denominated subsidiaries against adverse movements in exchange rates between the U.S. Dollar and the Euro. The cross-currency swap agreements include provisions to exchange fixed-rate payments in U.S. Dollar for fixed-rate payments in Euro and are designated and qualify as a net investment hedge. These contracts have a Euro aggregate notional amount of approximately €270 million and a U.S. Dollar aggregate notional amount of \$275 million.

Prior to the maturity of these two cross-currency swaps, on June 25, 2024 the Company de-designated these swaps and entered into four new cross-currency swaps for the same above notional amounts that mature in October 2026. These swaps are designated and accounted for as a net investment hedge.

The changes in the spot rate of these instruments are recorded in AOCI in equity, partially offsetting the foreign currency translation adjustment of the Company's related net investment that is also recorded in AOCI. The Company uses the spot method of assessing hedge effectiveness and as such, the initial value of the hedge components excluded from the assessment of effectiveness is recognized in the Interest expense and other, net line item in the Consolidated and Condensed Statements of Operations under a systematic and rational method over the life of the cross-currency swap agreements. Any ineffective portions of net investment hedges are reclassified from AOCI into earnings during the period of change. Due to the de-designation transaction above on June 25, 2024, the Company will keep the balance in AOCI related to the original derivative for the duration that the investment is held. The Company did not have any ineffectiveness related to net investment hedges during the six months ended June 28, 2024 .

The cash inflows and outflows associated with the excluded components of the Company's cross-currency swap agreements designated as net investment hedges are classified in operating activities in the accompanying Consolidated and Condensed Statements of Cash Flows.

Derivatives Not Designated as Hedging Instruments

The Company has certain foreign currency contracts that are not designated as hedges. As of June 28, 2024 and December 31, 2023, the Company had foreign currency contracts related to purchases and sales with notional values of \$258.5 million and \$232.5 million, respectively.

The table below shows the fair value of derivative instruments not designated in a hedging relationship recognized in the Consolidated and Condensed Balance Sheets:

Not designated as hedging instruments	June 28, 2024		December 31, 2023	
	Accrued Liabilities	Other Current Assets	Accrued Liabilities	Other Current Assets
(In thousands)				
Foreign currency contracts	\$ 1,227	\$ 2,348	\$ 596	\$ 1,08

The amounts in the table above as of June 28, 2024 reflect the fair value of the Company's foreign currency contracts on a net basis where allowable under master netting agreements. Had these amounts been recognized on a gross basis, the impact would have been a \$1.3 million increase in Other current assets with a corresponding increase in Accrued liabilities.

The Company recognized the following in its Consolidated and Condensed Financial Statements related to its derivative instruments not designated in a hedging relationship:

Foreign currency contracts	Three Months Ended		Six Months Ended

12. Financial Instruments and Fair Value Measurements

The carrying values of financial instruments, including Trade receivables and Accounts payable, approximate their fair values due to their short-term maturities. The estimated fair values may not represent actual values of the financial instruments that could be realized as of the balance sheet date or that will be realized in the future.

A summary of the Company's assets and liabilities that are measured at fair value for each fair value hierarchy level for the periods presented is as follows:

The Company measures the fair value of foreign currency contracts, cross currency swap agreements and interest rate swap agreements using Level Two inputs based on observable spot and forward rates in active markets. Additionally, the fair value of derivatives designated in hedging relationships includes a credit valuation adjustment to appropriately incorporate nonperformance risk for the Company and the respective counterparty. For the six months ended June 28, 2024, the impact of the credit valuation adjustment on the Company's derivatives is immaterial. Refer to Note 11, "Derivatives" for additional information.

There were no transfers in or out of Level One, Two or Three during the six months ended June 28, 2024.

14. Commitments and Contingencies

Asbestos Contingencies

Certain entities that became subsidiaries of ESAB Corporation in connection with the Separation are the legal obligor, or owner, for certain asbestos obligations including long-term asbestos insurance assets, long-term asbestos insurance receivables, accrued asbestos liabilities, long-term asbestos liabilities, asbestos indemnity expenses, asbestos-related defense costs and asbestos insurance recoveries related to the asbestos obligations from the Former Parent's other legacy industrial businesses. As a result, the Company holds certain asbestos-related contingencies and insurance coverages.

These subsidiaries are each one of many defendants in a large number of lawsuits that claim personal injury as a result of exposure to asbestos from products manufactured or used with components that are alleged to have contained asbestos. Such components were acquired from third-party suppliers, and were not manufactured by any of the Company's, or Former Parent's, subsidiaries, nor were the subsidiaries, producers or direct suppliers of asbestos. The manufactured products that are alleged to have contained or used asbestos generally were provided to meet the specifications of the subsidiaries' customers, including the U.S. Navy. The subsidiaries settle asbestos claims for amounts the Company considers reasonable given the facts and circumstances of each claim. The annual average settlement payment per asbestos claimant has fluctuated during the past several years while the number of cases has steadily declined. The Company expects such settlement value fluctuations to continue in the future based upon, among other things, the number and type of claims settled in a particular period and the jurisdictions in which such claims arise. To date, the majority of settled claims have been dismissed for no payment to plaintiffs.

The Company has classified asbestos-related activity in Loss from discontinued operations, net of taxes in the Consolidated and Condensed Statements of Operations. This is consistent with the Former Parent's classification on the basis that, pursuant to the purchase agreement from the Former Parent's Fluid Handling business divestiture, the Former Parent retained its asbestos-related contingencies and insurance coverages. However, as the Former Parent did not retain an interest in the ongoing operations of the business subject to the contingencies, asbestos-related activity was classified as part of Loss from discontinued operations, net of taxes in the Consolidated and Condensed Statements of Operations of the Former Parent.

The Company has projected each subsidiary's future asbestos-related liability costs with regard to pending and future unasserted claims based upon the Nicholson methodology. The Nicholson methodology is a standard approach used by experts and has been accepted by numerous courts. Consistent with the Former Parent, it is ESAB's policy to record a liability for asbestos-related liability costs for the longest period of time that ESAB management can reasonably estimate.

The Company believes that it can reasonably estimate the asbestos-related liability for pending and future claims that will be resolved in the next 15 years and has recorded that liability as its best estimate. While it is reasonably possible that the subsidiaries will incur costs after this period, the Company does not believe the reasonably possible loss or a range of reasonably possible losses is estimable at the current time. Accordingly, no accrual has been recorded for any costs that may be paid after the next 15 years. Defense costs associated with asbestos-related liabilities as well as costs incurred related to efforts to recover insurance from the subsidiaries' insurers are expensed as incurred.

Each subsidiary has separate insurance coverage acquired prior to Company ownership. The Company estimates the insurance assets for each subsidiary based upon the applicable policy language, expected recoveries and allocation methodologies, and law pertaining to the affected subsidiary's insurance policies.

Asbestos-related claims activity since December 31 is as follows:

	Six Months Ended	
	June 28, 2024	June 30, 2023
	(Number of claims)	
Claims unresolved, beginning of period	13,648	14,106

Claims resolved ⁽²⁾	(1,447)	(1,551)
Claims unresolved, end of period	<u>14,718</u>	<u>14,764</u>

⁽¹⁾ Claims filed include all asbestos claims for which notification have been received or a file has been opened.

⁽²⁾ Claims resolved include all asbestos claims that have been settled, dismissed or that are in the process of being settled or dismissed based upon agreements or understandings in place with counsel for the claimants.

The Company's Consolidated and Condensed Balance Sheets included the following amounts related to asbestos-related litigation:

	June 28, 2024	December 31, 2023	
	(In thousands)		
Long-term asbestos insurance asset ⁽¹⁾	\$ 204,672	\$ 221,489	
Long-term asbestos insurance receivable ⁽¹⁾	19,524	17,868	
Accrued asbestos liability ⁽²⁾	35,254	32,908	
Long-term asbestos liability ⁽³⁾	211,970	234,796	

⁽¹⁾ Included in Other assets in the Consolidated and Condensed Balance Sheets.

⁽²⁾ Represents current accruals for probable and reasonably estimable asbestos-related liability costs that the Company believes the subsidiaries will pay, and unpaid legal costs related to defending themselves against asbestos-related liability claims and legal action against the Company's insurers, which is included in Accrued liabilities in the Consolidated and Condensed Balance Sheets.

⁽³⁾ Included in Other liabilities in the Consolidated and Condensed Balance Sheets.

Management's analyses are based on currently known facts and assumptions. Projecting future events, such as new claims to be filed each year, the average cost of resolving each claim, coverage issues among layers of insurers, the method in which losses will be allocated to the various insurance policies, interpretation of the effect on coverage of various policy terms and limits and their interrelationships, the continuing solvency of various insurance companies, the amount of remaining insurance available, as well as the numerous uncertainties inherent in asbestos litigation could cause the actual liabilities and insurance recoveries to be higher or lower than those projected or recorded that could materially affect the Company's financial condition, results of operations or cash flow.

General Litigation

The Company is involved in various pending legal proceedings arising out of the ordinary course of the Company's business. None of these legal proceedings is expected to have a material adverse effect on the financial condition, results of operations or cash flow of the Company. With respect to these proceedings, and the litigation and claims described in the preceding paragraphs, management of the Company believes that it will either prevail, has adequate insurance coverage or has established appropriate accruals to cover potential liabilities. Legal costs related to proceedings or claims are recorded when incurred. Other costs that management estimates may be paid related to the claims are accrued when the liability is considered probable and the amount can be reasonably estimated. There can be no assurance, however, as to the ultimate outcome of any of these matters, and if all or substantially all of these legal proceedings were to be determined adverse to the Company, there could be a material adverse effect on the financial condition, results of operations or cash flow of the Company.

15. Segment Information

16. Subsequent Events

The dividend of \$4.9 million included in Accrued liabilities in the Consolidated and Condensed Balance Sheets at June 28, 2024 was paid on July 12, 2024 to stockholders of record as of June 28, 2024.

On July 2, 2024, the Company completed the acquisition of Linde Industries Private Limited, a leading welding company in Bangladesh, for approximately \$77 million, net of cash received.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of the financial condition and results of operations of ESAB Corporation ("ESAB," the "Company," "we," "our" and "us") should be read in conjunction with the Consolidated and Condensed Financial Statements and related footnotes included in Part I. Item 1. "Financial Statements" of this Quarterly Report on Form 10-Q for the quarterly period ended June 28, 2024 (this "Form 10-Q") and the Consolidated Financial Statements and related footnotes included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2023 (the "2023 Form 10-K"). You should review the discussion titled "Special Note Regarding Forward-Looking Statements" for a discussion of forward-looking statements. Our actual results, outcomes or the timing of results or outcomes could differ materially from those discussed in the forward looking statements.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

All statements contained in this Form 10-Q that are not historical facts are forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 21E of the Exchange Act. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date this Form 10-Q is filed with the Securities and Exchange Commission (the "SEC"). Statements that could be deemed to be forward-looking statements, include statements regarding: the impact of the wars in Ukraine and the Middle East and the resulting escalating geopolitical tensions on our business; projections of revenue, profit margins, expenses, tax provisions and tax rates, earnings or losses from operations, impact of foreign exchange rates, cash flows, pension and benefit obligations and funding requirements, synergies or other financial items; plans, strategies and objectives of our management for future operations, including statements relating to potential acquisitions, compensation plans or purchase commitments; developments, performance or industry or market rankings relating to products or services; future economic conditions or performance, including the impact of inflationary pressures, foreign exchange fluctuations and commodity prices; the outcome of outstanding claims or legal proceedings, including asbestos-related liabilities and insurance coverage litigation; potential gains and recoveries of costs; assumptions underlying any of the foregoing; and any other statement that addresses activities, events or developments that we intend, expect, project, believe or anticipate will or may occur in the future. Forward-looking statements may be, but are not always, characterized by terminology such as "believe," "anticipate," "should," "would," "could," "intend," "plan," "will," "expect," "estimate," "project," "positioned," "strategy," "targets," "aims," "seeks," "sees," and similar expressions. These statements are based on assumptions and assessments made by our management as of the filing date of this Form 10-Q in light of their experience and perception of historical trends, current conditions, expected future developments and other factors they believe to be appropriate. These forward-looking statements are subject to a number of risks and uncertainties and actual results or outcomes, or the timing of results or outcomes, could differ materially due to numerous factors, including but not limited to the following:

- the wars in Ukraine and the Middle East, escalating geopolitical tensions and the related impact on energy supplies and prices;
- changes in the general economy, including disruptions caused by geopolitical conflicts, as well as the cyclical nature of the markets we serve;
- supply chain constraints and backlogs, including risks affecting raw material, part and component availability, labor shortages and inefficiencies, freight and logistical challenges and inflation in raw material, part, component, freight and delivery costs and our ability to increase our prices to account for increased costs;
- volatility in the commodity markets and certain commodity prices, including oil and steel;
- our ability to identify, finance, acquire and successfully integrate attractive acquisition targets;
- our exposure to unanticipated liabilities resulting from acquisitions;
- significant movements in foreign currency exchange rates or inflation rates;
- the impact of natural or man-made disasters, adverse or extreme weather events or conditions, epidemics, pandemics and other global health events;

- our ability and the ability of our customers to access required capital at a reasonable cost;
- our ability to accurately estimate the cost of or realize savings from our restructuring programs;
- the amount of, and our ability to estimate and manage, our asbestos-related liabilities;
- the solvency of our insurers and the likelihood of their payment for asbestos-related costs;
- material disruptions at any of our manufacturing facilities;
- noncompliance with various laws and regulations associated with our international operations, including anti-bribery laws, export control regulations and sanctions and embargoes;
- risks associated with our international operations, including risks from trade protection measures and other changes in trade relations;
- risks associated with the representation of our employees by trade unions and works councils;
- our exposure to product liability claims;
- potential costs and liabilities associated with environmental, health and safety laws and regulations;
- failure to maintain, protect and defend our intellectual property rights;
- our ability to attract and retain our employees, including the loss of key members of our leadership team;
- restrictions in our financing arrangements that may limit our flexibility in operating our business;
- impairment in the value of intangible assets;
- the funding requirements or obligations of our defined benefit pension plans and other postretirement benefit plans;
- new regulations and customer preferences reflecting an increased focus on environmental, social and governance issues, including regulations related to climate change and the use of conflict minerals;
- service interruptions, data corruption, cyber-based attacks or network security breaches affecting our electronic information systems;
- risks arising from changes in technology;
- the competitive environment in our industries;
- changes in our tax rates, realizability of deferred tax assets, or exposure to additional income tax liabilities;
- our ability to manage and grow our business and execution of our business and growth strategies;
- the level of capital investment and expenditures by our customers in our strategic markets;
- our financial performance;
- difficulties and delays in integrating or fully realizing projected cost savings and benefits of our acquisitions; and
- other risks and factors set forth under “Risk Factors” in Part I. Item 1A. in our 2023 Form 10-K.

See Part I. Item 1.A. “Risk Factors” in our 2023 Form 10-K for a further discussion regarding reasons that actual results and outcomes, and the timing of results and outcomes, may differ materially from the results, developments and business

decisions contemplated by our forward-looking statements. Forward-looking statements speak only as of the date this form 10-Q. We do not assume any obligation to update or revise any forward-looking statement, whether because of new information, future events and developments or otherwise.

Overview

Please see Part I. Item 1. "Business" in our 2023 Form 10-K, for a discussion of ESAB's objectives and methodologies for delivering stockholder value.

General

We are a focused premier industrial compounder. Our rich history of innovative products, workflow solutions and our business system, ESAB Business Excellence ("EBX"), enables our purpose of *Shaping the world we imagine™*.

We conduct our operations through two reportable segments. These segments consist of the "Americas," which includes operations in North America and South America, and "EMEA & APAC," which includes Europe, Middle East, India, Africa and Asia Pacific. We serve a global customer base across multiple markets through a combination of direct sales and third-party distribution channels. Our customer base is highly diversified in the industrial end markets.

Integral to our operations is EBX, our business management system. EBX is our culture and includes our values, a comprehensive set of tools, and repeatable, teachable processes that we use to drive continuous improvement and create superior value for our customers, stockholders and associates. We believe that our management team's access to, and experience in, the application of the EBX methodology is one of our primary competitive strengths.

Outlook

We believe that we are well positioned to grow our businesses organically over the long term by enhancing our product offerings and expanding our customer base. We believe our business mix is well balanced between sales in emerging and developed markets, and equipment and consumables. We intend to continue to utilize our strong global presence and worldwide network of salespeople and distributors to capitalize on growth opportunities by selling regionally-developed and/or marketed products and solutions throughout our served markets. We believe our geographic and end market diversity helps mitigate the effects from cyclical industrial market exposures. Given this balance, management does not use indices other than general economic trends and business initiatives to predict the overall outlook for the Company. Instead, our individual businesses monitor key competitors and customers, including to the extent possible their sales, to gauge relative performance and outlook for the future.

We expect strategic acquisitions to contribute to our growth. We believe that the extensive experience of our leadership team in acquiring and effectively integrating acquisition targets should enable us to capitalize on future opportunities. We believe that the recent acquisitions of Linde Industries Private Limited on July 2, 2024, Sager S.A. on February 26, 2024 and Therapy Equipment Limited ("Therapy Equipment") on January 11, 2023 as well as the April 30, 2024 agreement to acquire SUMIG Soluções para Solda e Corte Ltda are aligned with this strategic direction. Refer to Note 3, "Acquisitions" and Note 16, "Subsequent Events" in the accompanying Notes contained elsewhere in this Form 10-Q for additional information.

The discussion that follows includes a comparison of our results of operations and liquidity and capital resources for the three and six months ended June 28, 2024 and June 30, 2023.

Results of Operations

The following discussion of our Results of Operations addresses the comparison of the periods presented. Our management evaluates the operating results of each of its reportable segments based upon Net sales, Adjusted EBITDA and Core adjusted EBITDA as defined in the "Non-GAAP Measures" section.

Items Affecting Comparability of Reported Results

The comparability of our operating results for the three and six months ended June 28, 2024 and June 30, 2023 is affected by the following significant factors:

Russia and Ukraine conflict

The invasion of Ukraine by Russia and the sanctions and other actions taken by governments in response to this crisis have increased the level of economic and political uncertainty. Refer to Note 1, "Organization and Basis of Presentation" in the accompanying Notes contained elsewhere in this Form 10-Q as well as Part I. Item 1.A. "Risk Factors" section of the 2023 Form 10-K for additional information.

Acquisitions

We complement our organic growth with acquisitions and other investments. Acquisitions can significantly affect our reported results, and we report the change in our Net sales between periods both from existing and acquired businesses. The change in Net sales due to acquisitions for the periods presented in this filing represents the incremental sales as a result of acquisitions.

On February 26, 2024, the Company completed the acquisition of Sager S.A., a welding repair and maintenance product and service leader in South America. For additional information on this acquisition, refer to Note 3, "Acquisitions" in the accompanying Notes contained elsewhere in this Form 10-Q.

During the first quarter of 2023, we completed the acquisition of Therapy Equipment, a regional leader in oxygen regulators. For additional information on this acquisition, refer to Note 3, "Acquisitions" in the accompanying Notes contained elsewhere in this Form 10-Q.

Foreign Currency Fluctuations

A significant portion of our Net sales, 77% and 78%, for the three and six months ended June 28, 2024, respectively, are outside the United States, with the majority of those sales denominated in currencies other than the U.S. Dollar. Because much of our manufacturing and employee costs are outside the United States, a significant portion of our costs are also denominated in currencies other than the U.S. Dollar. Changes in foreign exchange rates can impact our results of operations and are quantified when significant.

For the three months ended June 28, 2024 compared to the three months ended June 30, 2023, fluctuations in foreign currencies reduced Net sales by 3.4% and Gross profit by 3.6% and Selling, general and administrative expenses by 1.4%.

For the six months ended June 28, 2024 compared to the six months ended June 30, 2023, fluctuations in foreign currencies reduced Net sales by 2.6% and Gross profit by 2.7% and Selling, general and administrative expenses by 0.7%.

Seasonality

Our European operations typically experience a slowdown during the July and August vacation seasons.

Non-GAAP Measures

Adjusted EBITDA is a non-GAAP performance measure that we include in this Form 10-Q because it is a key metric used by our management to assess our operating performance. ESAB presents this non-GAAP financial measure including and excluding Russia due to economic and political volatility caused by the Russia and Ukraine conflict, which we believe results in enhanced investor interest in these alternative presentations. Adjusted EBITDA excludes from Net income from continuing operations the effect of Income tax expense, Interest expense and other, net, Pension settlement (loss), Restructuring and other related charges, acquisition-amortization and other related charges and depreciation and other amortization. We also present Adjusted EBITDA margin, which is subject to the same adjustments as Adjusted EBITDA. Further, we present these non-GAAP performance measures on a segment basis, where we exclude the impact of Restructuring and other related charges, acquisition-amortization and other related charges and depreciation and other amortization from operating income. We also present Core adjusted EBITDA and Core adjusted EBITDA margins, which are subject to the same adjustments as Adjusted EBITDA and Adjusted EBITDA margins, respectively, and which removes the impact of Russia for the three and six months ended June 28, 2024 and June 30, 2023. Adjusted EBITDA and Core adjusted EBITDA assist management in comparing our operating performance over time because certain items may obscure underlying business trends and make comparisons of long-term performance difficult, as they are of a nature and/or size that occur with inconsistent frequency or relate to unusual events or discrete restructuring plans and other initiatives that are fundamentally different from our ongoing productivity and core business. Management also believes that presenting these measures allows investors to view our performance using the same measures that we use in evaluating our financial and business performance and trends.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information calculated in accordance with U.S. GAAP. Investors are encouraged to review the reconciliation of these non-GAAP measures to their most directly comparable U.S. GAAP financial measures.

The following tables set forth a reconciliation of Net income from continuing operations, the most directly comparable GAAP financial measure, to Adjusted EBITDA, Adjusted EBITDA margin, Core adjusted EBITDA and Core adjusted EBITDA margin by segment for the three and six months ended June 28, 2024 and June 30, 2023.

⁽³⁾ Represents the difference between prior year sales valued at the actual prior year foreign exchange rates and prior year sales valued at current year foreign exchange rates.

Net sales from existing businesses increased \$8.4 million during the three months ended June 28, 2024, compared to the prior year period, due to an increase in sales volumes and new product initiatives for a combined \$6.9 million and customer pricing increases of \$1.5 million. During the three months ended June 28, 2024, the increase in net sales from acquisitions was attributable to Sager S.A. The strengthening of the U.S. Dollar relative to other currencies caused a \$24.4 million unfavorable currency translation impact during the three months ended June 28, 2024.

Net sales from existing businesses increased \$25.0 million during the six months ended June 28, 2024, compared to the prior year period, due to an increase in sales volumes of \$16.7 million and customer pricing increases of \$8.3 million. During the six months ended June 28, 2024, the increase in net sales from acquisitions was attributable to Therapy Equipment and Sager S.A. The strengthening of the U.S. Dollar relative to other currencies caused a \$36.3 million unfavorable currency translation impact during the six months ended June 28, 2024.

Sales excluding Russia

Sales excluding Russia ("Core Sales") decreased for the three and six months ended June 28, 2024 as compared with the three and six months ended June 30, 2023. The following table presents the components of changes in our Core Sales.

Second Quarter of 2024 Compared to Second Quarter of 2023

Gross profit increased \$6.4 million in the second quarter of 2024, which resulted in gross profit margin expanding 160 basis points to 38.2% compared with the prior year period. This increase was primarily attributable to lower overall material costs and favorable product mix partially offset by unfavorable currency translation.

Selling, general and administrative expense decreased \$3.9 million in the second quarter of 2024, compared to the prior year period. This decrease was primarily driven by savings from restructuring initiatives and currency translation.

The effective tax rate of 17.3% for the quarter ended June 28, 2024 differed from the effective tax rate of 23.4% for the same period ended June 30, 2023 due to a favorable ruling in a tax case in a foreign jurisdiction in 2024.

Net income from continuing operations increased \$16.7 million in the second quarter of 2024, compared with the prior year period primarily due to the aforementioned factors. Net income margin from continuing operations increased by 250 basis points due to the aforementioned factors.

In the second quarter of 2024, Adjusted EBITDA increased \$8.9 million and Adjusted EBITDA margin increased by 160 basis points compared to the same period in 2023 benefiting from higher Gross profit and lower Selling, general and administrative expense. Core adjusted EBITDA increased \$7.5 million, and Core adjusted EBITDA margins expanded by 150 basis points compared to the same period in 2023.

Six Months Ended June 28, 2024 Compared to Six Months Ended June 30, 2023

Gross profit increased \$14.0 million in the six months ended June 28, 2024, which resulted in the gross profit margin expanding 120 basis points to 37.6% compared with the prior year period. This increase was primarily attributable to benefits from price, lower overall material costs and favorable product mix, partially offset by unfavorable currency translation.

Selling, general and administrative expense decreased \$8.8 million in the six months ended June 28, 2024, compared to the prior year period. This decrease was primarily driven by savings from restructuring initiatives and currency translation.

The effective tax rate of 19.7% for the six months ended June 28, 2024 differed from the effective tax rate of 36.0% for the same period ending June 30, 2023 due to discrete tax adjustments in 2023 for dividend withholding taxes and an increase in unrecognized tax benefits due to an adverse court ruling in a tax case in a foreign jurisdiction and a discrete tax adjustment in 2024 for a favorable final ruling in a tax case in a foreign jurisdiction.

Net income from continuing operations increased \$45.4 million in the six months ended June 28, 2024, compared with the prior year period primarily due to lower restructuring charges, currency translation and tax expense partially offset by a pension settlement loss. Net income margin from continuing operations increased by 330 basis points due to the aforementioned factors.

In the six months ended June 28, 2024, Adjusted EBITDA increased \$20.0 million and Adjusted EBITDA margin increased by 150 basis points compared to the same period in 2023 benefiting from higher Gross profit and lower Selling, general and administrative expense. In the six months ended June 28, 2024, Core adjusted EBITDA increased by \$18.0 million, and Core adjusted EBITDA margins expanded by 150 basis points.

Business Segments

We formulate, develop, manufacture, and supply consumable products and equipment, including cutting, joining, and welding robotics, as well as gas control equipment. Our products are marketed under several brand names, most notably ESAB, providing a wide range of products with innovative technologies to solve challenges in virtually any industry. ESAB's comprehensive range of welding consumables includes electrodes, cored and solid wires, and fluxes using a wide range of specialty and other materials, and cutting consumables including electrodes, nozzles, shields, and tips. ESAB's equipment ranges from portable welding machines, gas control equipment and customized automated cutting and welding systems. ESAB also offers a range of software and digital solutions to help its customers increase their productivity, remotely monitor their welding operations, and digitize their documentation. Products are sold into a wide range of end markets, including general industry, infrastructure, renewable energy, medical and life sciences, transportation, construction and energy.

We report results in two reportable segments: Americas and EMEA & APAC.

Second Quarter of 2024 Compared to Second Quarter of 2023

Net sales in our Americas segment decreased \$0.5 million in the second quarter of 2024, compared with the prior year period. Net sales from existing business increased \$12.5 million, and was offset by \$15.7 million in unfavorable currency translation. The increase in Net sales from existing business was mainly due to pricing increases. The acquisition of Sager S.A. contributed to \$2.7 million of the overall sales increase. Gross profit increased \$7.8 million and Gross profit margin expanded by 260 basis points to 39.7% in the second quarter of 2024. These increases were primarily due to price increases, lower material costs, ongoing product simplification and restructuring partially offset by an unfavorable currency impact. Adjusted EBITDA increased \$6.4 million to \$64.7 million and margins expanded 210 basis points to 20.9% primarily due to the aforementioned factors.

Six Months Ended June 28, 2024 Compared to Six Months Ended June 30, 2023

Net sales in our Americas segment increased \$4.0 million in the six months ended June 28, 2024 compared with the prior year period. Net sales from existing business increased \$21.4 million, and was partially offset by \$21.0 million in unfavorable currency translation. The increase in Net sales from existing business was primarily due to inflation-related pricing increases partially offset by a decrease in sales volumes. The Sager S.A. acquisition contributed to \$3.6 million of the overall sales increase. Gross profit increased \$13.0 million to \$233.9 million due to price increases, benefits from a product line simplification initiative, and the Sager S.A. acquisition, partially offset by an unfavorable currency impact. Gross profit margin increased 190 basis points to 38.6% primarily due to price increases, benefits from a product line simplification initiative, and the accretive impact of the Sager S.A. acquisition, partially offset by the impacts of inflation. Selling, general and administrative expense remained relatively consistent year over year. Adjusted EBITDA increased \$11.1 million to \$118.8 million and margins expanded 170 basis points to 19.6% primarily because of the aforementioned factors.

Second Quarter of 2024 Compared to Second Quarter of 2023

Net sales decreased for our EMEA & APAC segment by \$12.9 million in the second quarter of 2024, compared with the prior year period. This decrease was due to a \$4.1 million decrease in Net sales from existing business and a \$8.8 million unfavorable currency translation. The decrease in Net sales from existing business was primarily due to a decrease in customer pricing and unfavorable currency exchange impact. Gross profit decreased \$1.4 million in the second quarter of 2024 compared with the prior year period primarily due to lower pricing and an unfavorable currency impact partially offset by lower overall material costs and improved product mix. Gross profit margin expanded 80 basis points compared to the same period in 2023 primarily due to improved product mix and lower overall material costs. Selling, general and administrative expense decreased compared to the same period in 2023 mainly due to savings from restructuring initiatives. Core adjusted EBITDA increased to \$69.3 million and the related Core adjusted EBITDA margins expanded 110 basis points to 19.5% primarily because of the aforementioned factors.

Six Months Ended June 28, 2024 Compared to Six Months Ended June 30, 2023

Net sales in our EMEA & APAC segment decreased \$11.6 million in the six months ended June 28, 2024 compared with the prior year period. Net sales from existing business increased \$3.6 million, and was partially offset by \$15.3 million in unfavorable currency translation. The increase in Net sales from existing business was primarily due to an increase in sales volumes partially offset by decreases in customer pricing. The Therapy Equipment acquisition contributed to \$0.1 million of the overall sales increase. Gross profit and Gross profit margin increased \$0.9 million and 60 basis points, respectively, due to lower cost of materials and improved product mix partially offset by an unfavorable currency impact. Selling, general and administrative expense decreased \$8.8 million primarily due to lower employee costs, savings from restructuring initiatives and favorable currency translation. Adjusted EBITDA increased to \$151.3 million and margins expanded 140 basis points to 19.1% primarily because of the aforementioned factors. Adjusted Core EBITDA increased to \$138.5 million and margins expanded 120 basis points to 19.3% primarily because of the aforementioned factors.

Liquidity and Capital Resources

Overview

We expect to finance our working capital requirements through cash flows from operating activities. We expect that our primary ongoing requirements for cash will be for working capital, funding of acquisitions, capital expenditures and restructuring related cash outflows, asbestos-related cash outflows, and debt service and required amortization of principal and, pending approval from the Board of Directors, payment of cash dividends.

As of June 28, 2024, we were in compliance with the covenants under the Credit Agreement and the Company's weighted average interest rate of Debt was 5.13%, excluding accretion of deferred financing fees and net of interest rate hedge impacts. As of the end of the second quarter, we had the capacity for additional indebtedness of up to \$750 million available on the Revolving Facility, subject to meeting financial covenants and other requirements. Additionally, we have the ability to incur \$50.0 million of indebtedness pursuant to certain uncommitted credit lines, consisting of an uncommitted credit line that we have used from time to time in the past for short-term working capital needs. Refer to Note 10, "Debt" and Note 11, "Derivatives" in the accompanying Notes contained elsewhere in this Form 10-Q for more information related to the Facilities and derivative instruments. We believe that we could raise additional funds in the form of debt or equity if it were determined to be appropriate for strategic acquisitions or other corporate purposes. We believe that our sources of liquidity between debt and cash flows from operating activities are adequate to fund our operations for the next twelve months and thereafter.

Cash Flows

As of June 28, 2024, we had \$228.5 million of Cash and cash equivalents, an increase of \$126.5 million from the balance of \$102.0 million as of December 31, 2023.

The following table summarizes the change in Cash and cash equivalents during periods indicated:

Cash flows from operating activities can fluctuate significantly from period to period due to changes in working capital and the timing of payments for items such as pension funding, asbestos-related costs and restructuring program funding. Changes in significant operating cash flow items are discussed below.

- Operating cash flow was positively impacted by increased operating income for the six months ended June 28, 2024, partially offset by higher working capital to support growth.
- Discontinued operations for the six months ended June 28, 2024 and June 30, 2023 included outflows of \$8.5 million and \$9.7 million, respectively, which were mainly asbestos-related.
- Restructuring initiative payments were \$5.4 million for the six months ended June 28, 2024 and \$10.2 million for the six months ended June 30, 2023, which included severance and other termination benefits, including outplacement services as well as the cost of relocating associates, relocating equipment and other costs in connection with the closure and optimization of facilities and product lines.

Cash flows used in investing activities include \$18.1 million of cash used primarily for the acquisition of Sager S.A. during the six months ended June 28, 2024.

Cash inflows provided by financing activities of \$46.3 million during the six months ended June 28, 2024 was primarily driven by proceeds from borrowings on long-term debt of \$905.0 million partially offset by net repayment of borrowings on the long-term debt of \$834.5 million, payment of debt issuance cost of \$10.4 million and cash dividends of \$7.3 million.

Our Cash and cash equivalents as of June 28, 2024 included \$217.8 million held in jurisdictions outside the United States. Cash repatriation of non-United States cash into the United States may be subject to withholding taxes, other local statutory restrictions and minority owner distributions.

Critical Accounting Policies and Estimates

The methods, estimates and judgments that we use in applying our critical accounting policies have a significant impact on our results of operations and financial position. We evaluate our estimates and judgments on an ongoing basis. Our estimates are based upon our historical experience, our evaluation of business and macroeconomic trends and information from other outside sources, as appropriate. Our experience and assumptions form the basis for our judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may vary from what our management anticipates, and different assumptions or estimates about the future could have a material impact on our results of operations and financial position.

There have been no other significant additions or changes to the methods, estimates and judgments included in "Management's Discussion and Analysis of Financial Condition and Results of Operations-Critical Accounting Policies" in the 2023 Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk from changes in foreign currency exchange rates and commodity prices that could impact our results of operations and financial condition. We address our exposure to these risks through our normal operating and financing activities. We do not enter into derivative contracts for trading purposes.

Interest Rate Risk

We entered into certain Term Loans and a Revolving Facility pursuant to the terms of the Credit Agreement. Please refer to Note 10, "Debt" in the accompanying Notes contained elsewhere in this Form 10-Q for additional information regarding our Facilities. We are exposed to interest rate risk on the variable-rate term loans under these Facilities. To mitigate our interest risk, in July 2022, we entered into two interest rate swaps to hedge approximately \$600 million of our floating-rate debt. In April 2024, the Company issued the Senior Notes, the proceeds of which paid off the Term A-3 Facility in April 2024. As a result, the Company terminated one of the two \$300 million swaps during March 2024. The other \$300 million swap is expected to continue to be hedged against our floating-rate debt as of the period ended June 28, 2024. See Note 11, "Derivatives" in our Notes contained elsewhere in this Form 10-Q for additional information. A hypothetical increase in interest rates of 1% during the six months ended June 28, 2024 would have increased interest expense by approximately \$0.9 million.

Exchange Rate Risk

We have manufacturing sites throughout the world and sell our products globally. As a result, we are exposed to movements in the exchange rates of various currencies against the U.S. Dollar and against the currencies of other countries in which we manufacture and sell products and services. During the six months ended June 28, 2024, approximately 78% of our sales were derived from operations outside the United States. We have significant manufacturing operations in European countries that are not part of the Eurozone. Sales are more highly weighted toward the Euro and U.S. Dollar. We also have significant contractual obligations in U.S. Dollars that are met with cash flows in other currencies as well as U.S. Dollars. To better match revenue and expense as well as cash needs from contractual liabilities, we regularly enter into currency swaps and forward contracts.

We also face exchange rate risk from our investments in subsidiaries owned and operated in foreign countries. The effect of a change in currency exchange rates on our net investment in international subsidiaries is reflected in the AOCI component of Equity. A 10% depreciation in major currencies relative to the U.S. Dollar as of June 28, 2024 would result in a reduction in Equity of approximately \$171 million. In 2022, we entered into two fixed-to-fixed cross-currency swaps, which was expected to provide a hedge to a portion of our European net asset position. During the six months ended June 28, 2024, the Company syndicated these two cross-currency swaps to extend the maturity date to October 2026. The resulting four cross-currency swaps is expected to provide a hedge to a portion of our European net asset position.

We also face exchange rate risk from intercompany transactions between affiliates. Although we use the U.S. Dollar as our functional currency for reporting purposes, we have manufacturing sites throughout the world, and a substantial portion of our costs are incurred and sales are generated in foreign currencies. Costs incurred and sales recorded by subsidiaries operating outside of the United States are translated into U.S. Dollars using exchange rates effective during the respective period. As a result, we are exposed to movements in the exchange rates of various currencies against the U.S. Dollar. Similarly, tax costs may increase or decrease as local currencies strengthen or weaken against the U.S. Dollar.

Commodity Price Risk

We are exposed to changes in the prices of raw materials used in our production processes. To manage commodity price risk, we periodically enter into fixed price contracts directly with suppliers.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of June 28, 2024. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective in providing reasonable assurance that the information required to be disclosed in this report on Form 10-Q has been recorded, processed, summarized and reported as of the end of the period covered by this report on Form 10-Q.

Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f)) identified in connection with the evaluation required by Rule 13a-15(d) of the Exchange Act that occurred during the period covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

A discussion of legal proceedings is incorporated by reference to Note 14, "Commitments and Contingencies," in the Notes included in Part I. Item 1. "Financial Statements" of this Quarterly Report on Form 10-Q.
