Forward-looking statements are statements that include projections, predictions, expectations or beliefs about future events or results or otherwise are not statements of historical fact. Further, forward-looking statements are intended to speak only as of the date made. Such statements are often characterized by the use of qualifying words (and their derivatives) such as â€œexpect,â€ â€œbelieve,â€ â€œestimate,â€ â€œplan,â€ â€œproject,â€ or other statements concerning our opinions or judgment about future events. Our actual results may differ materially from those anticipated in any forward-looking statements, as they will depend on many factors about which we are unsure, including many factors which are beyond our control. Factors that could influence the accuracy of such forward-looking statements include, but are not limited to, the financial success or changing strategies of our customers, our level of success in integrating acquisitions, actions of government regulators, the level of market interest rates, geopolitical influences and general economic conditions. For additional information about factors that could affect the matters discussed in this paragraph, see the â€œRisk Factorsâ€ section of our 2023 Annual Report on Form 10-K ("2023 Annual Report") and Item 1A of Part II of this report. Page 10Index First Bancorp and SubsidiariesNotes to Consolidated Financial Statements(unaudited)Note 1. Organization and Basis of Presentation The consolidated financial statements include the accounts of First Bancorp (the â€œCompanyâ€) and its wholly owned subsidiary First Bank (the â€œBankâ€). The Bank has three wholly owned subsidiaries that are fully consolidated, SBA Complete, Inc. (â€œSBA Completeâ€), Magnolia Financial, Inc. ("Magnolia Financial"), and First Troy SPE, LLC. All significant intercompany accounts and transactions have been eliminated. During the second quarter of 2024, SBA Complete became inactive with certain activities transitioning to the Bank. The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all information and notes necessary for complete financial statements in accordance with GAAP. In the opinion of the Company, the accompanying unaudited consolidated financial statements contain all adjustments necessary to present fairly the consolidated financial position of the Company as of SeptemberÂ 30, 2024, the consolidated results of income, comprehensive income and shareholders' equity for the three and nine months ended SeptemberÂ 30, 2024 and 2023, and the consolidated cash flows for the nine months ended SeptemberÂ 30, 2024 and 2023. Any such adjustments were of a normal, recurring nature. These interim financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes in the 2023 Annual Report for the year ended DecemberÂ 31, 2023. Operating results for interim period are not necessarily indicative of the results that may be expected for the full year. In certain instances, amounts reported in prior yearsâ€™ consolidated financial statements have been reclassified to conform to the current presentation. Such reclassifications had no effect on previously reported shareholdersâ€™ equity or net income.Refer to Note 1 of the 2023 Annual Report filed with the Securities and Exchange Commission (â€œSECâ€) for a discussion of accounting policies and other relevant information with respect to the consolidated financial statements. The Company has evaluated all subsequent events through the date the consolidated financial statements were issued.Accounting Standards Adopted in 2024Accounting Standards Update ("ASU") 2023-02, â€œInvestments—Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Methodâ€ permits reporting entities to elect to account for their tax equity investments, regardless of the tax credit program from which the income tax credits are received, using the proportional amortization method if certain conditions are met. This update is effective for fiscal years beginning after December 15, 2023, including interim periods within those fiscal years. The adoption of ASU 2023-02 did not have a significant impact on the Company's consolidated financial statements.Accounting Standards Pending AdoptionASU 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures" amended existing guidance to improve disclosures about a public entityâ€™s reportable segments and provide more detailed information about a reportable segmentâ€™s expenses. ASU 2023-07 clarifies that an entity which has a single reportable segment is to provide all the disclosures required by Topic 280 and ASU 2023-07. The amendment is effective for fiscal years beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. The adoption of ASU 2023-07 is not expected to have a significant impact on the Company's consolidated

financial statements.ASU 2023-09, â€œIncome Taxes (Topic 740): Improvements to Income Tax Disclosuresâ€ amends existing guidance to improve the transparency of income tax disclosures, including disclosure of specific categories in the rate reconciliation, providing additional information for certain reconciling items, and providing details on income taxes Page 11Index paid. The amendments are effective for annual periods beginning after December 15, 2024. The adoption of ASU 2023-09 is not expected to have a significant impact on the Company's consolidated financial statements.Other accounting standards that have been issued or proposed by the Financial Accounting Standards Board ("FASB") or other standards-setting bodies are not expected to have a material impact on the Companyâ€™s consolidated financial statements.Note 2. AcquisitionsOn January 1, 2023, the Company completed its acquisition of GrandSouth Bancorporation ("GrandSouth"), in an all-stock transaction. The results of GrandSouth are included beginning on the January 1, 2023 acquisition date. This transaction was accounted for using the acquisition method of accounting for business combinations, and accordingly, the assets acquired, intangible assets identified, and liabilities assumed of GrandSouth were recorded based on estimates of fair values as of January 1, 2023. The operations of GrandSouth have been integrated into existing First Bank operations and therefore separate results of operations or balance sheet information is not presented.Note 3. As of DecemberÂ 31, 2023, the Company's securities portfolio included 657 securities of which 632 securities were in an unrealized loss position. In the above tables, all of the securities that were in an unrealized loss position at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 are bonds that the Company has determined are in a loss position due primarily to interest rate factors and not credit quality concerns. In arriving at this conclusion, the Company reviewed third-party credit ratings and considered the severity of the impairment. The state and local government investments are comprised almost entirely of highly-rated municipal bonds issued by state and local governments throughout the nation. The Company has no significant concentrations of bond holdings from one state or local government entity. Nearly all of our mortgage-backed securities were issued by Federal Home Loan Mortgage Corporation ("FHLMC"), Federal National Mortgage Association ("FNMA"), Government National Mortgage Association ("GNMA"), or the Small Business Administration ("SBA"), each of which is a government agency or GSE and guarantees the repayment of the securities.At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the Company determined that expected credit losses associated with held to maturity securities and available for sale debt securities were insignificant. The book values and fair values of investment securities at SeptemberÂ 30, 2024, by contractual maturity, are summarized in the table below. Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations with or without call or prepayment penalties.Â Securities Available for SaleSecurities Held to Maturity($ in thousands)AmortizedCostFairValueAmortizedCostFairValueDue after one year but within five years$39,996Â $35,320Â $5,394Â $5,289Â Due after five years but within ten years48,151Â 43,336Â 183,914Â 159,345Â Due after ten yearsâ€”Â â€”Â 322,570Â 274,102Â Mortgage-backed securities2,150,849Â 1,828,802Â 9,923Â 9,564Â Total securities$2,238,996Â $1,907,458Â $521,801Â $448,300Â At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, investment securities with carrying values of $924.8 million and $971.3 million, respectively, were pledged as collateral for public deposits. In addition, at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, investment securities with carrying values of $582.6 million and $679.0 million, respectively, were pledged as collateral for Federal Reserve Bank ("Federal Reserve") borrowings.At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, there were no holdings of securities of any one issuer, other than the U.S. Government and its agencies or GSEs, in an amount greater than 10% of shareholders' equity.There were no sales of investment securities during the three months ended SeptemberÂ 30, 2024. Page 13Index During the second quarter of 2024, the Company sold all of its holdings of Class B shares of Visa, Inc. (â€œVisaâ€) stock that were received upon Visaâ€™s initial public offering and recognized a gain of $4.5 million. As the Class B stock did not initially have a readily determinable fair value, it was carried at $0 prior to the sale. During the second quarter of 2024, the Company received proceeds from sales of securities of $138.2 million and recorded $4.7 million in gross losses from the sales. This loss was partially offset by the $4.5 million gain on the sale of the Visa stock discussed above. Included in "Securities losses, net" in the consolidated statements of income, during the first quarter of 2024, the Company received proceeds from the call of a security of $5.2 million and recorded a $975 thousand loss related to the unamortized premium balance at the time of the call. During the first quarter of 2023, the Company sold substantially all of the securities acquired from GrandSouth at their initially recorded fair values. Accordingly, there was no gain or loss recorded on the sale of acquired securities.Included in â€œOther assetsâ€ in the consolidated balance sheets are investments in Federal Home Loan Bank (â€œFHLBâ€) and Federal Reserve stock totaling $41.2 million and $54.5 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. These investments do not have readily determinable fair values. The FHLB stock had a cost of $8.5 million and $21.7 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, and serves as part of the collateral for the Companyâ€™s line of credit with the FHLB and is also a requirement for membership in the FHLB system. The Federal Reserve stock had a cost and fair value of $32.7 million and $32.8 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, and is a requirement for Federal Reserve member bank qualification. Periodically, both the FHLB and Federal Reserve recalculate the Companyâ€™s required level of holdings, and the Company either buys more stock or redeems a portion of the stock at cost. The Company determined that neither stock was impaired at either period end.Note 4. Page 14Index At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, loans in the amount of $6.6 billion and $6.5 billion, respectively, were pledged as collateral for certain borrowings. At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, total loans included loans to executive officers and directors of the Company, and their associates, totaling approximately $63.3 million and $63.7 million, respectively. While there was one new loan, advances on existing loans totaled approximately $1.3 million for the nine months ended SeptemberÂ 30, 2024, and repayments amounted to $1.6 million for that period. Available credit on related party loans totaled $1.0 million and $2.7 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively.As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, unamortized discounts on all acquired loans totaled $17.3 million and $24.0 million, respectively. Loan discounts are generally amortized as yield adjustments over the respective lives of the loans, so long as the loans perform. There was no impairment of acquired loans during the three and nine months ended SeptemberÂ 30, 2024 that would require acceleration of amortization or charge off of unamortized discount. Nonperforming assets ("NPAs") are defined as nonaccrual loans, modifications to borrowers in financial distress, loans past due 90 or more days and still accruing interest, and foreclosed real estate. Fluctuations in the ACL each period are based on loan mix and growth, changes in the levels of nonperforming loans, economic forecasts impacting loss drivers, other assumptions and inputs to the current expected credit loss ("CECL") model, and as occurred in 2023, adjustments for acquired loan portfolios. The change to the level of ACL during the nine months ended SeptemberÂ 30, 2024 was determined based primarily on updated economic forecasts, which are a key assumption in the CECL model and which indicated improvement in certain economic forecasts along with reductions in loan balances during the period, partially offset by a continued reduction of the commercial real estate pricing index. Other than the impact from Hurricane Helene, there was little change to the ACL for the quarter or year to date. Various types of modification may be offered including principal forgiveness, term extension, payment delays, or interest rate reductions. In some cases, the Company will modify a certain loan by providing multiple types of concessions. Typically, one type of concession, such as a term extension, is granted initially. If the borrower continues to experience financial difficulty, another concession may be granted. For loans included in the â€œcombinationâ€ columns below, multiple types of modifications have been made on the same loan within the current reporting period. The followings tables present the amortized cost basis at SeptemberÂ 30, 2024 and SeptemberÂ 30, 2023 of the loans modified during the three and nine months then ended for borrowers experiencing financial difficulty, by loan category and type of concession granted. Therefore, the amortized cost basis of the loan is reduced by the uncollectible amount and the ACL is adjusted by the same amount. Concentration of Credit Risk Most of the Company's business activity is with customers located within the markets where it has banking operations. Therefore, the Companyâ€™s exposure to credit risk is significantly affected by changes in the economy within its markets. Approximately 88% of the Company's loan portfolio is secured by real estate and is therefore susceptible to changes in real estate valuations. There have been no material changes to the primary loan markets (as identified by counties) from year end. Impact of Hurricane HeleneWithin the portions of Western North and South Carolina that were significantly impacted by Hurricane Helene, the Company identified borrowers with approximately $755 million of loans outstanding. The following is a summary of the categories of those loans outstanding as of SeptemberÂ 30, 2024:($ in thousands)BalanceCommercial and industrial$10,481Â Construction, development & other land loans29,429Â Commercial real estate - owner occupied98,958Â Commercial real estate - non owner occupied284,825Â Multi-family real estate25,677Â Residential 1-4 family real estate266,554Â Home equity loans/lines of credit39,470Â Consumer loansâ€”Â Total$755,394Â Given that the storm impacted the area just prior to SeptemberÂ 30, 2024 and recovery continues in many communities, the Company performed analyses to identify possible impacts from the storm and has reserved accordingly based upon the information available at this time. The Company applied increased reserve rates based upon severe economic factors to the approximately $755 million of loans in the most impacted path of Hurricane Helene. Additionally, the Company performed an initial evaluation of the largest commercial loans in that area and applied incremental reserves to those loans that were suspected of having higher potential property damage or economic impact from the storm. Due to the potential exposure from Hurricane Helene, the ACL on these impacted loans increased by $13.0 million, expanding the ACL as a percent of loans in the impacted geography from 1.29% to 3.01% as of SeptemberÂ 30, 2024 and adding 16 basis points to the overall ACL as a percent of total loans, which was 1.53% as of SeptemberÂ 30, 2024.Allowance for Unfunded Loan CommitmentsIn addition to the ACL on loans, the Company maintains an allowance for lending-related commitments such as unfunded loan commitments and letters of credit. The Company estimates expected credit losses over the contractual period in which the Company is exposed to credit risk via a contractual obligation to extend credit, unless that obligation is unconditionally cancellable by the Company. The allowance for lending-related commitments on off-balance sheet

credit exposures is adjusted as a provision for unfunded commitments expense. The estimate includes consideration of the likelihood that funding will occur, which is based on a historical funding study derived from internal information, and an estimate of expected credit losses on commitments expected to be funded over its estimated life, which are the same loss rates that are used in computing the ACL on loans. The allowance for unfunded loan commitments of $9.3 million and $11.4 million at SeptemberÂ 30, 2024 and Page 25Index DecemberÂ 31, 2023, respectively, were separately classified on the consolidated balance sheets within "Other liabilities."The following table presents the balance and activity in the allowance for unfunded loan commitments for the three and nine months ended SeptemberÂ 30, 2024 and 2023:Three months ended September 30,Nine months ended September 30,($ in thousands)20242023202420232023Beginning balance$9,860Â $13,019Â $11,369Â $13,306Â Initial provision for credit losses on unfunded commitments acquired from GrandSouthâ€”Â â€”Â 1,921Â Charge-offsâ€”Â â€”Â â€”Â â€”Â Recoveriesâ€”Â â€”Â â€”Â â€”Â Reversal of provision for unfunded commitments(583)(1,200)(2,092)(3,408)Ending balance$9,277Â $11,819Â $9,277Â $11,819Â Allowance for Credit Losses - Securities Held to MaturityThe ACL for securities held to maturity was insignificant at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023.Note 5. Goodwill is also evaluated for impairment any time there is a triggering event indicating that impairment may have occurred. No triggering events were identified during 2024 to date and, therefore, the Company did not perform interim impairment evaluations. The Company's most recent evaluation of goodwill, which occurred in the fourth quarter of 2023, indicated that there was no goodwill impairment. There was no change to carrying amounts of goodwill during 2024.The following table presents the estimated amortization expense schedule related to acquisition-related amortizable intangible assets. These amounts will be recorded as "Intangibles amortization expense" within the noninterest expense section of the consolidated statements of income. LeasesThe Company enters into leases in the normal course of business. As of SeptemberÂ 30, 2024, the Company leased 14 bank branch offices for which the land and buildings are leased and ten branch offices for which the land is leased but the buildings are owned. The Company also leases office space for several operational departments. The lease agreements have maturity dates ranging from November 2024 through May 2076, some of which include options for multiple five- and ten-year extensions. The weighted average remaining life of the lease term for these leases was 21.1 years as of SeptemberÂ 30, 2024. Certain of the Company's lease agreements include variable lease payments based on changes in inflation, with the impact of that factor being insignificant to the Company's total lease expense. As permitted by applicable accounting standards, the Company has elected not to recognize leases with original lease terms of twelve months or less (short-term leases) on the Company's consolidated balance sheets. The short-term lease cost for each period presented was insignificant. Leases are classified as either operating or finance leases at the lease commencement date and all of the Company's leases have been determined to be operating leases. Lease expense for operating leases and short-term leases is recognized on a straight-line basis over the applicable lease term. Right-of-use assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. Right-of-use assets and lease liabilities are recognized at the lease commencement date based on the estimated present value of lease payments over the lease term. Page 29Index The Company uses its incremental borrowing rate, on a collateralized basis, at lease commencement to calculate the present value of lease payments when the rate implicit in the lease is not known. The weighted average discount rates for leases were 3.32% and 3.19% as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively.The right-of-use assets, included in "Other assets" on the Company's consolidated balance sheet, and lease liabilities, included in "Other liabilities" on the Company's consolidated balance sheet, were $14.1 million and $14.9 million as of SeptemberÂ 30, 2024, respectively, and were $17.1 million and $17.8 million as of DecemberÂ 31, 2023, respectively.Total operating lease expenses, included in "Other operating expenses" in the Company's consolidated statement of income, were $0.6 million and $0.8 million for the three months ended September 30, 2024 and 2023, respectively, and $1.8 million and $2.3 million for the nine months ended SeptemberÂ 30, 2024 and 2023, respectively. Note 9. Fair Value of Financial InstrumentsFair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal and most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair value:Level 1: Quoted prices (unadjusted) of identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.Level 3: Significant unobservable inputs that reflect a reporting entityâ€™s own assumptions about the assumptions that market participants would use in pricing an asset or liability. If quoted market prices are not available, but fair values can be estimated by observing quoted prices of securities with similar characteristics, the securities are classified as Level 2 on the valuation hierarchy. Most of the fair values for the Companyâ€™s Level 2 securities are determined by the Company's third-party bond accounting provider using matrix pricing. Matrix pricing is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securitiesâ€™ relationship to other benchmark quoted securities. For the Company, Level 2 securities include U.S Treasury bonds, mortgage-backed securities, commercial mortgage-backed obligations, government-sponsored enterprise securities, and corporate bonds. In cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. Page 31Index The Company reviews the pricing methodologies utilized by the bond accounting provider to ensure the fair value determination is consistent with the applicable accounting guidance and that the investments are properly classified in the fair value hierarchy.Presold Mortgages in Process of Settlement - The fair value is based on the committed price that an investor has agreed to pay for the loan which is considered a Level 2 input.Derivative financial assets and liabilities - The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. These are considered a Level 2 input.Individually evaluated loans â€” Fair values for individually evaluated loans are measured on a non-recurring basis and are based on the underlying collateral values securing the loans, adjusted for estimated selling costs, or the net present value of the cash flows expected to be received for such loans. Collateral may be in the form of real estate or business assets including equipment, inventory and accounts receivable. The vast majority of the collateral is real estate. The value of real estate collateral is generally determined by third-party appraisers using an income or market valuation approach based on an appraisal conducted by an independent, licensed third party appraiser (Level 3). The value of business equipment is based upon an outside appraisal if deemed significant, or the net book value on the applicable borrowerâ€™s financial statements if not considered significant. Likewise, values for inventory and accounts receivable collateral are based on borrower financial statement balances or aging reports on a discounted basis as appropriate (Level 3). Appraisals used in this analysis are generally obtained at least annually based on when the loans first became impaired, and thus the appraisals are not necessarily as of the period ends presented. Any fair value adjustments are recorded in the period incurred as provision for credit losses on the consolidated statements of income. There were no significant changes in the reported amount of Level 3 assets and liabilities measured at fair value on either a recurring or a non-recurring basis as of SeptemberÂ 30, 2024. The carrying amounts and estimated fair values of financial instruments not carried at fair value at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 were as follows:Â Â September 30, 2024December 31, 2023($ in thousands)Level in FairValueHierarchyCarryingAmountEstimatedFair ValueCarryingAmountEstimatedFair ValueCash and due from banks, noninterest-bearingLevel 1$74,034Â $74,034Â $100,891Â $100,891Â Due from banks, interest-bearingLevel 1670,407Â 670,407Â 136,964Â 136,964Â Securities held to maturityLevel 2521,801Â 448,300Â 533,678Â 449,623Â Total loans, net of allowanceLevel 237,890,820Â 7,232,306Â 8,040,249Â 7,379,079Â SBA Servicing AssetLevel 32,960Â 3,946Â 3,351Â 4,049Â Demand deposits, money market and savingsLevel 19,507,268Â 9,507,268Â 9,052,905Â 9,052,905Â Time depositsLevel 2997,661Â 994,002Â 978,694Â 972,513Â BorrowingsLevel 291,694Â 80,268Â 630,158Â 615,614Â Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Companyâ€™s entire holdings of a particular financial instrument. Because no highly liquid market exists for a significant portion of the Companyâ€™s financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.Fair value estimates are based on existing on- and off-balance sheet financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. Significant assets and liabilities that are not considered financial assets or liabilities include Page 32Index net premises and equipment, intangible and other assets such as deferred income taxes, prepaid expense accounts, income taxes currently payable, and other various accrued expenses. In addition, the income tax ramifications related to the realization of the unrealized gains and losses can have a significant effect on fair value estimates and have not been considered in any of the estimates.Note 10. Stock-Based CompensationThe Company recorded total stock-based compensation expense of $1.4 million and $1.2 million for the three months ended September 30, 2024 and 2023, respectively, and $3.0 million and $3.4 million for the nine months ended SeptemberÂ 30, 2024 and 2023, respectively. These amounts are included in "Total personnel expense" on the accompanying consolidated statements of income. The Company recognized income tax benefits related to stock-based compensation expense in its income statement of $304,000 and $278,000 for the three months ended September 30, 2024 and 2023, respectively, and $675,000 and $798,000 for the nine months ended SeptemberÂ 30, 2024 and 2023, respectively. At SeptemberÂ 30, 2024, the sole equity-based compensation plan of the Company was the First Bancorp 2024 Equity Plan (the "Equity Plan"), which was approved by shareholders on May 31, 2024. As of SeptemberÂ 30, 2024, the Equity Plan had 1,929,731 shares remaining available for grant. During the second quarter, the First Bancorp 2014 Equity Plan

expired and was replaced by the Equity Plan. The Equity Plan is intended to serve as a means to attract, retain, and motivate key employees and directors and to associate the interests of the Equity Plan's participants with those of the Company and its shareholders. The Equity Plan allows for both grants of stock options and other types of equity-based compensation, including stock appreciation rights, restricted and unrestricted stock, restricted performance stock, and performance units. For the last several years, the only equity-based compensation granted by the Company has been shares of restricted stock, as it relates to employees, and unrestricted stock as it relates to non-employee directors.There have been no material changes to the treatment of stock awards and equity grants as discussed in Note 15 of the Company's Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023.In addition to employee equity awards, the Company's practice is to grant unrestricted common shares to each non-employee director (currently twelve in total) in June of each year. The grants were valued at approximately $37,500 in 2024. Compensation expense associated with these director awards is fully recognized by the date of the award since there are no vesting conditions. Page 36Index Item 2 - Management's Discussion and Analysis of Consolidated Results of Operations and Financial ConditionHighlights of the results for the quarter and year-to-date period are presented below (refer also to additional discussion in the "Results of Operations" and "Financial Condition" sections following). Comparisons for the financial periods presented are impacted by the GrandSouth acquisition which was completed on January 1, 2023 with the related core system conversion occurring in March 2023.Overview and Highlights at and for Three Months Ended September 30, 2024We earned net income of $18.7 million, or $0.45 diluted EPS, during the three months ended September 30, 2024 compared to net income of $29.9 million, or $0.73 diluted EPS, for the three months ended September 30, 2023. The decrease in net income in the current year period as compared to the prior year period was driven primarily by a $14.2 million increase in provision for credit losses, $13.0 million of which was related to anticipated impact from Hurricane Helene and a higher cost of funds, partially offset by a higher yield on interest earning assets, both of which were driven by the overall interest rate environment for the past year. Adjusting for the impact from Hurricane Helene, our adjusted net income was $29.0 million, or $0.70 per diluted share, for the third quarter.â€¢Net interest income for the third quarter of 2024 was $83.0 million, a 2.0% decrease from the $84.7 million recorded in the third quarter of 2023. The decrease in net interest income from the prior year period was driven by higher cost of funds, partially offset by higher yield on earning assets. â€¢Net interest margin ("NIM") on a tax-equivalent basis decreased in the third quarter of 2024 to 2.90% from 2.97% for the third quarter of 2023 as a result of the higher cost of funds and decreased loan accretion, partially offset by increases in market interest rates driving higher yields on loans and other earning assets.â€¢We remained well-capitalized by all regulatory standards. Capital grew during the quarter with a total common equity Tier 1 ratio of 14.37%, Tier 1 risk-based capital ratio of 15.19% and total risk-based capital ratio of 16.65% at SeptemberÂ 30, 2024, all growing for the quarter and from SeptemberÂ 30, 2023. â€¢The provision for credit losses for the third quarter of 2024 was $14.2 million, driven by an incremental provision of $13.0 million related to the potential exposure from Hurricane Helene and $2.1 million of net charge-off activity, partially offset by generally improving economic forecasts that lead to a reduction in the reserves required for unfunded commitments. See the "Allowance for Credit Losses, Allowance for Unfunded Commitments, and Loan Loss Experience" discussion in the Financial Condition section of Management's Discussion and Analysis. â€¢Noninterest income for the three months ended September 30, 2024 totaled $13.6 million which was a decrease of $1.6 million, or 10.5%, from the comparable period of 2023 and was primarily related to an decrease in Other income, net, related to the timing of the recognition of gain and loss from other investment activity, which does not include available for sale or held to maturity securities.â€¢Noninterest expense of $59.9 million for the quarter ended SeptemberÂ 30, 2024 decreased $2.4 million, or 3.8%, from the three months ended September 30, 2023. This decrease is attributable to a $2.4 million decrease in other operating expenses. â€¢These third quarter results include the potential impact of Hurricane Helene of $13.4 million, comprised of $13.0 million of provision for potential credit loss exposure in our footprint hardest hit by Helene, $0.3 million of estimated property damages and an additional $0.1 million of other impacts. After considering the tax effect of these items, our net income was reduced by $10.3 million.Overview and Highlights at and for Nine Months Ended September 30, 2024We earned net income of $72.7 million, or $1.76 diluted EPS, during the nine months ended SeptemberÂ 30, 2024 compared to net income of $74.5 million, or $1.81 diluted EPS, for the nine months ended SeptemberÂ 30, 2023. Adjusting for the potential impact from Hurricane Helene, our adjusted net income was $83.0 million, or $2.01 per diluted share, for the nine months ended SeptemberÂ 30, 2024. Page 37Index â€¢Net interest income for the nine months ended SeptemberÂ 30, 2024 was $243.4 million, a 7.9% decrease from the $264.2 million recorded for the comparable period of 2023. The decrease in net interest income was driven by higher cost of funds, partially offset by higher yields on interest earning assets. â€¢NIM on a tax-equivalent basis decreased to 2.86% for the nine months ended SeptemberÂ 30, 2024 from 3.12% for the nine months ended SeptemberÂ 30, 2023 related to higher cost of funds driven by increases in market rates and competition for deposits. Higher rates on interest-bearing liabilities and lower purchase accounting loan discount accretion were partially offset by increased loan yields from market rate increases and pricing on new loans. â€¢For the nine months ended SeptemberÂ 30, 2024, the Company recorded $15.9 million in provision for credit losses as compared to $14.9 million for the nine months ended SeptemberÂ 30, 2023. The higher provision in 2024 was significantly impacted by the $13.0 million provision related to Hurricane Helene. The 2023 provision was primarily driven by the GrandSouth acquisition as follows: (1) a one-time provision of $12.2 million for non-credit deteriorated loans; and (2) a one-time initial provision for unfunded commitments of $1.9 million.â€¢Noninterest income for the nine months ended SeptemberÂ 30, 2024 totaled $41.1 million, a decrease of $1.9 million, or 4.4%, from the comparable period of 2023 primarily related to decreased Other income, net of $1.9 million and increased securities losses of $1.2 million, partially offset by an increase in SBA loan sale gains of $1.3 million.â€¢Noninterest expense decreased $20.7 million, or 10.4%, to $177.3 million for the nine months ended SeptemberÂ 30, 2024 as compared to the prior year period, primarily driven by a $13.5 million decrease in merger expenses resulting from the GrandSouth acquisition along with a $4.7 million decrease in other operating expenses and a $1.6 million decrease in personnel expense. â€¢These 2024 year to date results include the potential impact of Hurricane Helene of $13.4 million. This comprised of $13.0 million of provision for potential credit loss exposure in our footprint hardest hit by Helene, $0.3 million of estimated property damages and an additional $0.1 million of other impacts. After considering the tax effect of these items, our net income was reduced by $10.3 million.Total assets at SeptemberÂ 30, 2024 amounted to $12.2 billion, a 0.3% increase from DecemberÂ 31, 2023, and was driven primarily by higher interest-bearing cash balances, partially offset by a short term strategy to intentional reduce investment securities and loan balances. The primary balance sheet changes are presented below.â€¢Total loans amounted to $8.0 billion at SeptemberÂ 30, 2024, reflecting a contraction of $136.6 million from DecemberÂ 31, 2023.â€¢Total deposits were $10.5 billion at SeptemberÂ 30, 2024, an increase of $473.3 million, or 4.72%, from DecemberÂ 31, 2023. â€¢Credit quality continued to be strong at SeptemberÂ 30, 2024, with NPAs of 0.38% of total assets as of SeptemberÂ 30, 2024, up slightly from 0.37% at DecemberÂ 31, 2023.â€¢On-balance sheet liquidity ratio was 17.7% at SeptemberÂ 30, 2024. Available off-balance sheet sources totaled $2.4 billion at quarter end, resulting in a total liquidity ratio of 35.2%.â€¢Capital grew during the quarter, keeping us well-capitalized by all regulatory standards. At SeptemberÂ 30, 2024, our total common equity Tier 1 ratio was 14.37%, our Tier 1 risk-based capital ratio was 15.19% and our total risk-based capital ratio was 16.65%. All capital ratios grew during the quarter and from SeptemberÂ 30, 2023. Critical Accounting EstimatesThe accounting principles we follow and our methods of applying these principles conform with GAAP and with general practices followed by the banking industry. Certain policies inherently have a greater reliance on the use of estimates, assumptions, or judgments and as such, have a greater possibility of producing results that could be materially different than originally reported. We have identified the determination of our ACL and related Allowance for Unfunded Commitments, as well as business combinations, related fair value measurements and goodwill determination to be the accounting areas that require the most subjective or complex judgments, estimates, and assumptions, and where changes in those judgments, estimates, and assumptions (based on new or additional Page 38Index information, changes in the economic climate and/or market interest rates, etc.) could have a significant effect on our financial statements. See the "Allowance for Credit Losses, Allowance for Unfunded Commitments, and Loan Loss Experience" discussion in the Financial Condition section of Management's Discussion and Analysis. There have been no material changes to the Company's significant accounting policies as discussed in Note 1 of the Company's Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023.Current Accounting MattersSee Note 1 to the consolidated financial statements for information about recently announced or adopted accounting standards. Page 39Index RESULTS OF OPERATIONSNet Interest IncomeNet interest income is our largest source of revenue and is the difference between the interest earned on interest-earning assets (generally loans and investment securities) and the interest expense incurred in connection with interest-bearing liabilities (generally deposits and borrowed funds). Changes in the net interest income are the result of changes in volume and the net interest spread which affects NIM. Volume refers to the average dollar levels of interest-earning assets and interest-bearing liabilities. Net interest spread refers to the difference between the average yield on interest-earning assets and the average cost of interest-bearing liabilities. NIM refers to net interest income divided by average interest-earning assets and is influenced by the level and relative mix of interest-earning assets and interest-bearing liabilities. Net interest income is also influenced by external factors such as local economic conditions, competition for loans and deposits, and market interest rates. Net interest income for the three months ended September 30, 2024 amounted to $83.0 million, a decrease of $1.7 million, or 2.0%, from the $84.7Â million recorded in the third quarter of 2023. The decrease was primarily driven by higher cost of funds, partially offset by higher yields on earning assets. While average interest-earning assets for the third quarter of 2024 increased $83.9Â million, or 0.7%, from the comparable period of the prior year, the mix of assets shifted to higher earning assets, with average loans growing $79.9 million and short term investments growing $400.0 million, while taxable securities decreased $391.5 million. The increase in the cost of interest bearing deposits of 64 basis points between the third quarter of 2023 and the third quarter of 2024 more than offset improvements from earning asset mix changes and higher yields. This resulted in the reduction in our tax-equivalent NIM (see discussion below) from 2.97% for the third quarter of 2023 to 2.90% for the third quarter of 2024. For internal purposes, we evaluate our NIM on a tax-equivalent basis by adding the tax benefit realized from tax-exempt loans and securities to reported interest income then dividing by total average earning assets. We believe that analysis of tax-equivalent NIM is useful and appropriate because it allows a comparison of net interest income in different periods without taking into account the different mix of taxable versus non-taxable loans and investments that may have existed during those periods.The following is a reconciliation of reported net interest income to tax-equivalent net interest income and the resulting NIM as reported and on a tax-equivalent basis. This amount has been computed assuming a 23% tax rate and is reduced by the related nondeductible portion of interest expense. Page 41Index Overall, as demonstrated in the table above, despite the change in the mix of earning assets to higher yielding assets, the compression in NIM drove the decrease in net interest income. â€¢During 2023, the Federal Reserve increased the fed funds rate four times for a total of 100 basis points, in addition to the substantial increases made during 2022. During 2024, the Federal Reserve did not change rates until mid September at which point the fed funds rate was reduced 50 basis points. These changes resulted in a decrease of 50 basis points in fed funds rates between September 2023 and September 2024, with an average prime rate of 8.43% for three months ended September 30, 2024, a slight decrease from the prior year period. During much of 2024, the market yield curve was inverted. â€¢Average loan volumes for the three months ended September 30, 2024 were $79.9Â million higher than the same period in 2023. In addition, interest rates on loans increased 19 basis points to 5.51% for the third quarter of 2024, resulting in an increase in interest income on loans of $4.6Â million.â€¢Due to the impact of the aforementioned fed funds increases in 2022 and 2023 and the resulting increased market rates along with higher average balances, deposit interest expense for the three months ended September 30, 2024 increased $13.8Â million compared to the same period in 2023. Average interest-bearing deposit balances increased $500.6 million while rates on those deposits increased 64 basis points as compared to the same period in the prior year.â€¢Average borrowings were $341.7 million lower in the third quarter of 2024 as compared to the third quarter of 2023 due in large part to the decreased utilization of short-term borrowings to fund loan growth and manage fluctuations in deposit balances. This decrease in volume of borrowings between periods was partially offset by higher rates on the remaining borrowings, with overall rates increasing 209 basis points in the third quarter of 2024 from the third quarter of 2023. These changes resulted in the $4.6 million decrease in interest expense on borrowings. â€¢The decrease in NIM was directly related to higher rates on interest-bearing liabilities driven by the aforementioned short-term Federal Reserve rate increases in 2022 and 2023, the inverted yield curve in 2024 and the repricing of our deposits during the last year occurring at a more rapid pace than the increase in yields on interest-earning assets.Net interest income for the nine months ended SeptemberÂ 30, 2024 amounted to $243.4 million, a decrease of $20.7 million, or 7.9%, from the $264.2 million recorded in the nine months ended SeptemberÂ 30, 2023. As described above, the Federal Reserve actions from 2022 through 2024 affected market rates which had resulting impacts on the rates we paid or received in 2023 and 2024. Similar to the impact during the three months ended SeptemberÂ 30, 2024, the decrease for the nine months ended SeptemberÂ 30, 2024 was also driven by higher cost of funds, partially offset by increased yields on interest-earning assets. Our tax-equivalent NIM fell to 2.86% for the nine months ended SeptemberÂ 30, 2024 from 3.12% for the nine months ended SeptemberÂ 30, 2023 as discussed further below. The following is a reconciliation of reported net interest income to tax-equivalent net interest income and the resulting NIM as reported and on a tax-equivalent basis. This amount has been computed assuming a 23% tax rate and is reduced by the related nondeductible portion of interest expense Page 43Index Overall, as demonstrated in the table above, the reduction in NIM, partially offset by higher earning asset volumes, drove the decrease in net interest income. â€¢During 2023, the Federal Reserve increased the fed funds rate four times for a total of 100 basis points, in addition to the substantial increases made during 2022. During 2024, the Federal Reserve did not change rates until mid September at which point the fed funds rate was reduced 50 basis points. These changes resulted in a decrease of 50 basis points in fed funds rates between September 2023 and September 2024, with an average prime rate of 8.48% for nine months ended September 30, 2024, compared to 8.09% for the prior year period. During much of 2024, the market yield curve was inverted.â€¢Average loan volumes for the nine months ended September 30, 2024 were $224.1Â million higher than the same period in 2023 due to organic loan growth. In addition, interest rates on loans increased 22 basis points to 5.49% for the nine months ended September 30, 2024, resulting in an increase in loan interest income of $22.5Â million.â€¢Primarily due to higher market rates as well as the increase in average balances, deposit interest expense for the nine months ended September 30, 2024 increased $51.4Â million compared to the same period in 2023. Average interest-bearing deposit balances increased $467.0 million while rates on those deposits increased 87 basis points as compared to the same period in the prior year.â€¢Interest expense on borrowings decreased $6.0 million for the nine months ended September 30, 2024 as compared to the same period in 2023 due to the $173.3 million decrease in the average volume of borrowings between periods, partially offset by a 61 basis point increase in the rates on those borrowings. The lower balances were due in large part to a decreased reliance on short-term borrowings during 2024 as deposit growth provided additional liquidity. The remaining borrowings are longer term in nature and carry higher interest rates than those that were paid off. â€¢NIM decreased 26 basis points between the comparable periods as higher loan yields and reduced cost of borrowings were more than offset by the higher cost of deposits, also driven by the increases in Fed funds rates during 2022 and 2023 and competition for deposits. Our NIM for all periods presented benefited from the net accretion income arising from purchase accounting premiums/discounts associated with acquisitions. Presented in the table below is the amount of accretion which increased net interest income in each time period presented. Generally, the level of loan discount accretion will decline each year due to the natural reduction in outstanding balance of acquired loans.At SeptemberÂ 30, 2024 and 2023, unaccreted loan discounts on purchased loans amounted to $17.3 million and $26.5 million, respectively. The GrandSouth acquired portfolio comprised the majority of the remaining unaccreted loan discount at SeptemberÂ 30, 2024.In addition to the loan discount accretion recorded on acquired loans, we recorded accretion on the discounts associated with the retained unguaranteed portions of SBA loans sold in the secondary market. The level of SBA Page 44Index loan discount accretion will fluctuate relative to the SBA loan portfolio balances. At SeptemberÂ 30, 2024 and 2023, the unaccreted loan discounts on SBA loans amounted to $3.3 million and $4.0 million, respectively.Provision for Credit Losses and Provision for Unfunded CommitmentsThe provision for credit losses is comprised of the provision for loan losses and the provision for unfunded commitments. The provision recorded in each period represents the amount required such that the total ACL reflects the current estimate of life of loan credit losses in the loan portfolio and the allowance for unfunded commitments reflects the current expected losses on unfunded loan commitments that are expected to result in outstanding loan balances. Our estimate of credit losses is determined using a complex model that relies on reasonable and supportable forecasts and historical loss information to determine the balance of the ACL and allowance for unfunded commitments. Refer also to â€œCritical Accounting Estimatesâ€ in Item 7 of the 2023 Annual Report on Form 10-K filed with the SEC for more information.The provision for credit losses was $14.2Â million and zeroÂ for the three months ended September 30, 2024 and 2023, respectively, and $15.9Â million and $14.9Â million for the nine months ended SeptemberÂ 30, 2024 and 2023, respectively. For the three months ended SeptemberÂ 30, 2024 as compared to the same period in 2023, the higher provision was primarily due to the $13.0Â million provision specifically attributed to Hurricane Helene. Generally improving economic forecasts that lead to a reduction in the reserves required for unfunded commitments during the three months ended SeptemberÂ 30, 2024, but the effect was not as impactful as was the case in the three months ended SeptemberÂ 30, 2023 by $0.6Â million. For the nine months ended SeptemberÂ 30, 2024 as compared to the same period in 2023, the higher provision was primarily due to the $13.0Â million provision specifically attributed to Hurricane Helene and a $0.4Â million increase in net charge off activity for the period, partially offset by generally improving economic forecasts that lead to a reduction in the reserves required for unfunded commitments. The provision for the nine months ended SeptemberÂ 30, 2023 was directly related to the GrandSouth acquisition, which consisted of: (1) a one-time provision of $12.2 million for non-credit deteriorated loans; and (2) a one-time initial provision for unfunded commitments of $1.9 million.Within the portions of Western North and South Carolina that were significantly impacted by Hurricane Helene, the Company identified borrowers with approximately $755Â million of loans outstanding. Given that the storm impacted the area just prior to SeptemberÂ 30, 2024 and recovery continues in many communities, the Company performed analyses to identify possible impacts from the storm and has reserved accordingly based upon the information available at this time. The Company applied increased reserve rates based upon severe economic factors to the approximately $755Â million of loans in the path of Helene. Additionally, the Company performed an initial evaluation of the largest commercial loans in its impacted markets and applied incremental reserves to those loans that were suspected of having higher potential property damage or economic impact from the storm The incremental provision related to the potential exposure from Hurricane Helene added 0.16% to the ACL as of SeptemberÂ 30, 2024.Additional discussion of the CECL method and our asset quality and credit metrics, which impact our provision for credit losses, is provided in the "Nonperforming Assets" and "Allowance for Credit Losses, Allowance for Unfunded Commitments, and Loan Loss Experience" sections following. Page 45Index Noninterest Income Our noninterest income amounted to $13.6 million and $15.2 million for the three months ended September 30, 2024 and 2023, respectively, and $41.1 million and $42.9 million for the nine months ended SeptemberÂ 30, 2024 and 2023, respectively. The lower noninterest income in the current quarter as compared to the same prior year period is primarily the result of lower "Other income, net," partially offset by an increase in "Presold mortgage loan fees and gains on sale." The decreased noninterest income for the nine months ended SeptemberÂ 30, 2024 as compared to the same period in 2023 is a result of "Securities losses, net" in 2024 and lower "Other income, net," partially offset by increased "SBA loan sale gains." Details of the more significant components of noninterest income are presented in the table below. For the three and nine months ended SeptemberÂ 30, 2024, the change in "Other income, net" was related to the timing of the recognition of gain and loss from other investment activity, which does not include available for sale or held to maturity securities. The primary contributors to the $2.4 million, or 3.8%, decrease in noninterest expense for the third quarter of 2024 as compared to the same period of 2023 were the $1.4 million decrease in "Other operating expenses", the $0.6 million decrease in "Non-credit losses," and the $0.5 million decrease in "Equipment related expenses," partially offset by an increase in "Total personnel expense" of $0.5 million. The primary contributors to the $20.7 million decrease for the nine months ended SeptemberÂ 30, 2024 as compared to the same period in 2023 were the $13.5 million decrease in "Merger and acquisition expenses," the $2.7 million decrease in "Other operating expenses," the $1.7 million decrease in "Non-credit losses," and the $1.6 million decrease in "Total personnel expenses." The decline in "Other operating expenses" was primarily related to a $2.4 million charge in 2023 for the estimated termination costs associated with the Company's pension plan. For the three and nine months ended SeptemberÂ 30, 2024, there was an overall effort my management to cut costs and control expenses. Our effective tax rate was 17.2% and 20.6% for the three months ended SeptemberÂ 30, 2024 and 2023, respectively. The lower effective tax rate for 2024 was attributable primarily to decreased pretax income driven by the potential impact of Hurricane Helene. For the nine months ended SeptemberÂ 30, 2024 and 2023, we recorded tax expense of $18.6 million and $19.8 million, respectively. Our effective tax rate was 20.4% and 21.0% for the nine months ended SeptemberÂ 30, 2024 and 2023, respectively. FINANCIAL CONDITIONTotal assets at SeptemberÂ 30, 2024 amounted to $12.2 billion, a $38.5 million, or 0.3%, increase from DecemberÂ 31, 2023 and was primarily related to higher interest-bearing cash balances, partially offset

by reductions in investment securities and loan balances.Total loans at SeptemberÂ 30, 2024 amounted to $8.0 billion, a decrease of $136.6 million, or 1.7%, from DecemberÂ 31, 2023. The mix of our loan portfolio remained substantially the same at SeptemberÂ 30, 2024 as compared to DecemberÂ 31, 2023, with the exception of "Construction, development & other land loans," which, as a percentage of the loan portfolio, fell from 12% at DecemberÂ 31, 2023 to 9% at SeptemberÂ 30, 2024. The majority of our real estate loans were personal mortgages and commercial loans where real estate provides additional security for the loan. Note 4 to the consolidated financial statements presents additional detail regarding our mix of loans. At SeptemberÂ 30, 2024, we had no notable concentrations in geographies or industries, including in office or hospitality categories. The Company's exposure to non-owner occupied commercial office loans represented approximately 5.7% of the total portfolio at SeptemberÂ 30, 2024, with the largest loan being $26.6 million and the average loan outstanding balance being $1.3 million. Non-owner occupied office loans were generally in non-metro markets and the 10 largest loans in this category represented less than 2% of the total loan portfolio at SeptemberÂ 30, 2024.Total investment securities were $2.4 billion at SeptemberÂ 30, 2024, a decrease of $293.8 million from DecemberÂ 31, 2023. During the three and nine months ended SeptemberÂ 30, 2024, the Company made no purchases of investment securities. There were no sales of investment securities during the third quarter of 2024. Page 47Index During the second quarter of 2024, the Company sold $142.9 million of available for sale investment securities at a $4.7 million loss that was substantially offset by the $4.5 million gain on sale of the VISA B shares during that quarter. The call of a security during the first quarter of 2024 resulted in a loss of $975 thousand related to the unamortized premium balance. In addition, the Company continues to utilize cash flows from investment securities to fund earning assets and repay borrowings and brokered deposits. The composition of our investment portfolio remained substantially the same at SeptemberÂ 30, 2024 as at DecemberÂ 31, 2023, with the exception of U.S. Treasuries, of which $175.9 million was sold or matured during the first nine months of 2024 and Mortgage-backed securities, of which $34.6 million and $169.3 million were sold, matured or were paid down during the three and nine months ended SeptemberÂ 30, 2024, respectively. The composition of the investment portfolio continued to reflect our investment strategy of maintaining an appropriate level of liquidity while providing a stable source of income. The investment portfolio also provides a balance to interest rate risk and credit risk in other categories of the balance sheet while providing a vehicle for the investment of available funds, furnishing liquidity, and supplying securities to pledge as required collateral for certain deposits. The unrealized loss on available for sale securities totaled $331.5 million at SeptemberÂ 30, 2024. Refer to Note 3 to the consolidated financial statements for additional detailed information regarding our mix of investments and the unrealized losses for each category. We evaluated the unrealized losses on individual securities at SeptemberÂ 30, 2024 and determined them to be of a temporary nature due primarily to interest rate factors and not credit quality concerns. In arriving at this conclusion, we reviewed third-party credit ratings and considered the severity of the impairment. Total deposits amounted to $10.5 billion at SeptemberÂ 30, 2024, an increase of $473.3 million, or 4.7%, from DecemberÂ 31, 2023. Brokered deposits decreased $3.1 million from year end, while organic growth from customer deposits totaled $476.4 million. We continue to have a diversified and granular deposit base which has remained stable with continued growth in customer deposits, primarily money market accounts. Our deposit mix has remained relatively consistent and has not changed significantly and there has been no notable shift in deposits from noninterest-bearing to interest-bearing. Included in various loan categories are nonaccrual SBA loans totaling $21.7Â million at SeptemberÂ 30, 2024, or 63.5% of total nonaccrual loans, and which have $11.8Â million in guarantees from the SBA. As reflected in Note 4 to the accompanying consolidated financial statements, total classified loans decreased 4.9% to $51.5Â million at SeptemberÂ 30, 2024 compared to $54.2Â million at DecemberÂ 31, 2023. The decrease resulted primarily from improvements in "Home equity loans/lines of credit" loans of $1.9Â million and "Commercial real estate - owner occupied" loans of $1.8Â million, partially offset by an increase in "Residential 1-4 family real estate" of $2.0Â million. Special mention loans increased 34.2% from $44.1Â million at DecemberÂ 31, 2023 to $59.2Â million at SeptemberÂ 30, 2024. The majority of the increase was attributable to "Commercial real estate - owner occupied" loans, which increased $14.7Â million.Allowance for Credit Losses, Allowance for Unfunded Commitments, and Loan Loss ExperienceThe total allowance for credit losses amounted to $122.7 million at SeptemberÂ 30, 2024 compared to $109.9 million at DecemberÂ 31, 2023. Fluctuations in the ACL are based on loan mix and growth, changes in the levels ofnonperforming loans, economic forecasts impacting loss drivers, other assumptions and inputs to the CECL model,and as occurred in 2023, adjustments for acquired loan portfolios. As discussed previously in the "Provision for Credit Losses and Provision for Unfunded Commitments" section, much of the change to the level of ACL during the period ended SeptemberÂ 30, 2024 was primarily related to the provision of $13.0 million related to potential impact from Hurricane Helene, slower prepayment assumptions and updated economic forecasts which are a key assumption in the CECL model and which indicated improvement in some factors, but also to a continued reduction of the commercial real estate pricing index, thus projecting a higher allowance for credit losses balance, partially offset by reductions in loan balances during the period. The ACL as a percent of loans at SeptemberÂ 30, 2024 was 1.53%, 16 basis points of which was attributable to the potential impact from Hurricane Helene.Within the portions of Western North and South Carolina that were significantly impacted by Hurricane Helene, the Company identified borrowers with approximately $755Â million of loans outstanding. The Company applied increased reserve rates based upon severe economic factors to the approximately $755Â million of loans in the most impacted path of Helene. Additionally, the Company performed an initial evaluation of the largest commercial loans in that area and applied incremental reserves to those loans that were suspected of having higher potential property damage or economic impact from the storm. Due to the impact from from Hurricane Helene, the ACL on these impacted loans increased by $13.0 million, expanding the ACL as a percent of loans in the impacted markets from 1.29% to 3.01% as of SeptemberÂ 30, 2024 and adding 0.16% to the overall ACL as a percent of total loans as of SeptemberÂ 30, 2024.The ACL reflects our estimate of life of loan expected credit losses that will result from the inability of our borrowers to make required loan payments. We use systematic methodologies to determine the ACL for loans and the allowance for certain off-balance-sheet credit exposures. We consider the effects of past events, current conditions, and reasonable and supportable forecasts on the collectability of the loan portfolio. The ACL is calculated using collectively evaluated pools for loans with similar risk characteristics applying the discounted cash flow ("DCF") method. When a loan no longer shares similar risk characteristics with its segment, the loan is evaluated on an individual basis applying a DCF or asset approach for collateral-dependent loans. Our assessment of the ACL involves uncertainty and judgment and is subject to change in future periods. The amount of any changes could be significant if the assessment of loan quality or collateral values changes substantially with respect to one or more loan relationships or portfolios or if there is a significant change in the reasonable and supportable forecast or assumptions used to model our expected credit losses. No assurance can be given that we will not in any particular period sustain loan losses that are sizable in relation to the amounts reserved or that subsequent evaluations of the loan portfolio, in light of conditions and factors then prevailing, will not require significant changes in the ACL or future charges to earnings. In addition, various regulatory agencies, as an integral part of their examination process, periodically review our ACL and the value of our collateral-dependent Page 50Index loans. Such agencies may require us to recognize adjustments to the ACL based on their judgments about information available at the time of their examinations. Refer also to â€œCritical Accounting Policies â€” Allowance for Credit Losses on Loans and Allowance for Unfunded Commitmentsâ€ in Note 1 to the 2023 Annual Report on Form 10-K filed with the SEC for more information.In addition to the ACL on loans, we maintain an allowance for lending-related commitments such as unfunded loan commitments. We estimate expected credit losses associated with these commitments over the contractual period in which we are exposed to credit risk via a contractual obligation to extend credit, unless that obligation is unconditionally cancellable. The allowance for lending-related commitments on off-balance sheet credit exposures is adjusted as a component of the provision for credit losses expense. The estimate includes consideration of the likelihood that funding will occur and an estimate of expected credit losses on commitments expected to be funded over its estimated life. The allowance for unfunded commitments of $9.3 million and $11.4 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, is classified on the consolidated balance sheets within "Other liabilities." The decline in the level of the allowance between periods was driven by the reduction in reserve rates and balances of available lines of credit during the nine months ended SeptemberÂ 30, 2024. Liquidity, Commitments, and ContingenciesOur liquidity is determined by our ability to convert assets to cash or acquire alternative sources of funds to meet the needs of our customers who are withdrawing or borrowing funds, and to maintain required reserve levels, pay expenses and operate the Company on an ongoing basis. Our primary liquidity sources are net income from operations, cash and due from banks, federal funds sold and other short-term investments. Our securities portfolio has a high percentage of amortizing mortgage-backed securities generating monthly cash flows. In addition, the portfolio is comprised almost entirely of readily marketable securities, which could also be sold to provide cash. We also maintain available lines of credit from the FHLB and the Federal Reserve, as well as federal funds lines from several correspondent banks which are summarized below. At SeptemberÂ 30, 2024, the Company had the following sources of readily available borrowing capacity:â€¢An existing borrowing capacity with the FHLB of approximately $1.3Â billion which can be structured as either short-term or long-term borrowings, depending on the particular funding or liquidity need, and is secured by a blanket lien on most of our real estate loan portfolio, select securities from our investment portfolio, and our FHLB stock (of which $0.8Â million and $280.9Â million were outstanding at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively); â€¢Federal funds lines with several correspondent banks totaling $265.0Â million, which provide for overnight unsecured federal funds purchased (of which none were outstanding at SeptemberÂ 30, 2024 or DecemberÂ 31, 2023); and,â€¢A line of credit with the Federal Reserve through its discount window borrowing program of approximately $799.6Â million which is secured by a blanket lien on a portion of our commercial and consumer loan portfolio (excluding real estate loans) and specific investment securities. All of this line was available at both SeptemberÂ 30, 2024 and DecemberÂ 31, 2023.Our overall on-balance sheet liquidity ratio was 17.7% at SeptemberÂ 30, 2024 compared to 14.6% at DecemberÂ 31, 2023. We define our liquidity ratio as net liquid assets (cash, unpledged securities and other marketable assets) as a percentage of our net liabilities (unpledged deposits and borrowings). Our total liquidity ratio, including the $2.4Â billion in available lines of credit at quarter end, was 35.2% as of SeptemberÂ 30, 2024. Not included in these ratios are the readily available sources of funds through brokered deposits. As of SeptemberÂ 30, 2024, our brokered deposits availability was $1.8Â billion per our internal policy.The amount and timing of our contractual obligations and commercial commitments have not changed materially since DecemberÂ 31, 2023, the detail of which is presented in the "Contractual Obligations and Other Commercial Commitments" table of our 2023 Annual Report on Form 10-K. In addition, we are not involved in any legal proceedings that, in our opinion, could have a material effect on our consolidated financial position.Off-Balance Sheet Arrangements and Derivative Financial InstrumentsOff-balance sheet arrangements include transactions, agreements, or other contractual arrangements pursuant to which we have obligations or provide guarantees on behalf of an unconsolidated entity. We have no off-balance Page 51Index sheet arrangements of this kind other than letters of credit and repayment guarantees associated with our trust preferred securities and subordinated debentures.In the normal course of business, we are exposed to certain risks arising from both our business operations and economic conditions. As an element of our risk management strategies, we may enter into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. Derivative financial instruments include futures, forwards, interest rate swaps, options contracts, and other financial instruments with similar characteristics. We do not engage in significant derivatives activities. However, in 2023 to accommodate customers, we implemented a program whereby we enter into interest rate swaps with certain commercial loan customers, with offsetting positions to dealers under a back-to-back swap program. At SeptemberÂ 30, 2024, the Company's derivative financial instruments consisted entirely of customer back-to-back interest rate swaps which are not designated as hedges. Under this program, the Company executes interest rate swaps with commercial banking customers to facilitate their risk management strategies. Those interest rate swaps are simultaneously economically hedged by offsetting derivatives that the Company executes with a third party, such that the Company minimizes its net risk exposure resulting from such transactions. As the interest rate derivatives associated with this program are not designated as hedging instruments, changes in the fair value of both the customer derivatives and the offsetting derivatives are recognized directly in earnings. There have been no material changes from the derivative positions discussed in Note 13 of the Company's Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023. Capital ResourcesThe Company is regulated by the Federal Reserve and is subject to the securities registration and public reporting regulations of the SEC. Our Bank is also regulated by the Federal Reserve and the North Carolina Office of the Commissioner of Banks ("NCCOB"). We must comply with regulatory capital requirements established by the Federal Reserve and the NCCOB. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary, actions by regulators that, if undertaken, could have a direct material effect on our financial statements. We are not aware of any recommendations of regulatory authorities or otherwise which, if they were to be implemented, would have a material effect on our liquidity, capital resources, or operations.Under Basel III standards and capital adequacy guidelines and the regulatory framework for prompt corrective action, we must meet specific capital guidelines that involve quantitative measures of our assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. Our capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.The Federal Reserve's capital standards require us to maintain minimum ratios of â€œcommon equity tier 1â€ capital to total risk-weighted assets, â€œtier 1â€ capital to total risk-weighted assets, and total capital to risk-weighted assets of 4.50%, 6.00% and 8.00%, respectively. Common equity tier 1 capital is comprised of common stock and related surplus, plus retained earnings, and is reduced by goodwill and other intangible assets, net of associated deferred tax liabilities. Tier 1 capital is comprised of common equity tier 1 capital plus "additional tier 1 capital", which includes non-cumulative perpetual preferred stock and trust preferred securities. Total risk-based capital is comprised of tier 1 capital plus qualifying subordinated debentures, and certain adjustments, the largest of which is our ACL and allowance for unfunded commitments. The Company has elected to exclude AOCI related primarily to available for sale securities from common equity tier 1 capital. Risk-weighted assets refer to our on- and

off-balance sheet exposures, adjusted for their related risk levels using formulas set forth in Federal Reserve regulations.In addition to the risk-based capital requirements described above, we are subject to a leverage capital requirement, which calls for a minimum ratio of Tier 1 capital (as defined above) to quarterly average total assets of 3.00% to 5.00%, depending upon the institutionâ€™s composite ratings as determined by its regulators. The Federal Reserve has not advised us of any requirement specifically applicable to us.At SeptemberÂ 30, 2024, our capital ratios exceeded the regulatory minimum ratios discussed above. The capital ratios at SeptemberÂ 30, 2024 increased as compared to 2023 year end ratios related primarily to retention of earnings increasing capital, combined with loan reductions and shifts in asset mix to lower risk-weighted assets. Page 52Index The following table presents the capital ratios for the Company and the regulatory minimums discussed above for the periods indicated:September 30, 2024December 31, 2023Minimum requiredRisk-based capital ratios:Â Â Common equity Tier 1 to Tier 1 risk weighted assets14.37Â %13.20Â %7.00Â %Tier I capital to Tier 1 risk weighted assets15.19Â %13.99Â %8.50Â %Total risk-based capital to Tier II risk weighted assets16.65Â %15.54Â %10.50Â %Leverage capital ratio:Tier 1 capital to quarterly average total assets11.29Â %10.91Â %4.00Â %The Bank is also subject to capital requirements that do not vary materially from the Companyâ€™s capital ratios presented above. At SeptemberÂ 30, 2024, the Bank exceeded the minimum ratios established by the regulatory authorities. In addition to regulatory capital ratios, we also closely monitor our ratio of tangible common equity ("TCE") to tangible assets, which is a non-GAAP financial measure. The TCE ratio was 8.47% at SeptemberÂ 30, 2024 compared to 7.56% at DecemberÂ 31, 2023.The following table reconciles common equity to TCE and provides the calculation of the TCE ratio:($ in thousands)September 30, 2024December 31, 2023Reconciliation of Common Equity to TCETotal shareholders' common equity$1,477,525Â $1,372,380Â Less: Goodwill and other intangibles, net of related taxes(489,139)(493,211)Tangible common equity$988,386Â $879,169Â Reconciliation of Total Assets to Tangible AssetsTotal assets$12,153,430Â $12,114,942Â Less: Goodwill and other intangibles, net of related taxes(489,139)(493,211)Tangible assets$11,664,291Â $11,621,731Â TCE divided by Tangible Assets8.47Â %7.56Â %Stock Repurchase PlansOn January 30, 2024, the Board of Directors of the Company authorized the repurchase of up to $40 million in shares of the Companyâ€™s common stock. Any such repurchases would be made pursuant to a plan approved by and containing provisions about the timing, purchase prices and quantities purchased determined by management in its discretion. During the quarter ended SeptemberÂ 30, 2024, the Company did not make any such purchases. Item 3 â€“ Quantitative and Qualitative Disclosures About Market RiskMarket RiskMarket risk is the risk of loss arising from adverse changes in the fair value of financial instruments due to changes in interest rates, exchange rates, and equity prices. The Companyâ€™s market risk is composed primarily of interest rate risk inherent in the normal course of lending and deposit-taking activities. We are also exposed to market risk in our investing activities. We do not have any trading assets or activities. Interest Rate RiskNet interest income is our most significant component of earnings and we consider interest rate risk to be our most significant market risk. Our net interest income results from the difference between the yields we earn on our interest-earning assets, primarily loans and investments, and the rates that we pay on our interest-bearing liabilities, primarily deposits and borrowings. When interest rates change, the yields we earn on our interest-earning assets and the rates we pay on our interest-bearing liabilities do not necessarily move in tandem with each other because Page 53Index of the difference between their maturities and repricing characteristics and which can negatively impact net interest income.Interest rates are highly sensitive to many factors that are beyond our control, including general economic conditions and policies of various governmental and regulatory agencies and, in particular, the Federal Reserve. Changes in monetary policy, including changes in interest rates, influence not only the interest we receive on loans and investments and the amount of interest we pay on deposits and borrowings, but such changes could also affect the average duration of our mortgage portfolio, investment securities and other interest-earning assets.Our goal is to structure our asset/liability composition to maximize net interest income while managing interest rate risk so as to minimize the adverse impact of changes in interest rates on net interest income and capital in either a rising or declining interest rate environment. Profitability is affected by fluctuations in interest rates. A sudden and substantial change in interest rates may impact our earnings adversely because the interest rates of the underlying assets and liabilities do not change at the same speed, to the same extent or on the same basis.Interest rate risk is monitored through the use of several complementary modeling tools, primarily earnings simulation modeling, and economic value simulation (net present value estimation). These models measure changes in a variety of interest rate scenarios. While interest rate risk models have limitations, taken together they represent a reasonably comprehensive view of the magnitude of our interest rate risk, the level of risk through time, and the amount of exposure to changes in certain interest rate relationships. Earnings simulation and economic value models are utilized by management on a regular basis as they more effectively measure the cash flow and optionality impacts than does a static gap analysis. From the various model results and our expectations regarding future interest rate movements, the national, regional and local economies, and other financial and business risk factors, we quantify the overall magnitude of interest sensitivity risk and then determine appropriate strategies and practices governing asset growth and pricing, funding sources and pricing, and off-balance sheet commitments.Earnings Simulation AnalysisWe use net interest income simulations which measure the short-term earnings exposure from changes in market rates of interest. The model calculates an earnings estimate based on current and projected balances and rates, incorporating our current financial position with assumptions regarding future business to calculate net interest income under varying hypothetical rate scenarios. This method is subject to the accuracy of the assumptions that underlie the process, but it provides a better analysis of the sensitivity of earnings to changes in interest rates than other analyses, such as the static gap analysis.Assumptions used in the model are derived from historical trends and managementâ€™s outlook. The model assumes a static balance sheet with cash flows reinvested in similar instruments to maintain the balance sheet levels and current composition. Actual cash flows and repricing characteristics for our balance sheet instruments are input to the model. The model incorporates market-based assumptions regarding the impact of changing interest rates on the prepayment rate of certain assets and liabilities. Because these assumptions are inherently uncertain, actual results may differ from simulated results. Different interest rate scenarios and yield curves are used to measure the sensitivity of earnings to changing interest rates in both a "shocked" instantaneous move and a "ramped" move of rates. Interest rates on different asset and liability accounts move differently when the Federal Reserve changes rates and such assumptions are reflected in the different rate scenarios. The model does not take into account any future actions that management may take to mitigate the impact of interest rate changes, and it is our strategy to proactively change the volume and mix of our balance sheet in order to mitigate our interest rate risk.There has been no significant change in the Company's estimated net interest income sensitivity position from DecemberÂ 31, 2023. From a net interest income perspective, the Company generally has a fairly neutral interest sensitivity position in the short-term (within a twelve-month period) and within the lower ranges (+ - 100 to 200 basis points) of interest rate changes. With the current inverted interest rate yield curve, modeling of net interest income in changing rate environments presents particular challenges. As of SeptemberÂ 30, 2024, the net interest income sensitivity indicates a slight asset sensitive position in both rising and falling rates over a one year period; however, a steepening of the yield curve reduces the impact of a 200 basis point reduction in rates to less than 2% of net interest income over a one year period and less than a 1% reduction over a two year period. The interest rate yield curve remains flat/inverted as of SeptemberÂ 30, 2024. A flat or inverted interest rate yield curve is an unfavorable interest rate environment for many financial institutions, including the Bank, as short-term interest rates generally drive our deposit pricing and longer-term interest rates generally drive loan pricing. When these rates converge or Page 54Index invert, the profit spread we realize between loan yields and deposit rates narrows, which pressures our NIM, as was the case in 2022 and 2023. With regard to rising rates, with an immediate increase or shock of 200 basis points in market rates we would expect to realize an increase in net interest income of approximately 3% over both a one-year and two-year horizon. As previously noted, these assumptions are inherently uncertain, and actual results may differ from simulated results. Subsequent to September 30, 2024 market indications indicate that the yield curve may begin to normalize and steepen. In addition to the 50 basis points reduction in September 2024, the market consensus is that the Federal Reserve will continue to reduce short-term rates through late 2024 and into 2025. With reductions by the Federal Reserve, we are actively managing the cost of funds. Further, variable rate interest-earning assets will likely reprice to lower rates. Our ability to reduce cost of funds may be impacted by market competition for deposits. Economic Value SimulationEconomic value simulation is used to calculate the estimated fair value of assets and liabilities over different interest rate environments. Economic values are calculated based on discounted cash flow analysis. The net economic value of equity is the economic value of all assets minus the economic value of all liabilities assuming a liquidation of the current balance sheet. The change in net economic value over different rate environments is an indication of the longer-term earnings capability of the balance sheet. The same assumptions are generally used in the economic value simulation as in the earnings simulation, including immediate and parallel rate shocks and static assumptions for deposit average decay rate and average lives. As of DecemberÂ 31, 2023, the Companyâ€™s economic value of equity ("EVE") was generally liability sensitive in both a rising and falling interest rate environment, which continues to be the case as of SeptemberÂ 30, 2024. In the rising rate scenarios, EVE declines and in the falling rate scenarios, EVE improves. The decline in EVE under a rising rate environment is driven by the composition of the loans and investment portfolios, primarily related to fixed rate loans and fixed rate mortgage-backed securities as compared to a higher proportion of deposits having variable rates. In a rising rate environment, the fixed rate loan and securities portfolios tend to extend due to slower prepayments, thus lowering their relative valuation in the EVE calculation. In declining rate environments, these same loan and securities portfolios tend to prepay. As of September 30, 2024, the impact of increasing rates on EVE are less severe than at December 31, 2023. Further, at the same date, the benefit from declining rates on EVE remains positive in most declining rate scenarios, but at a lower level than at December 31, 2023. Additional discussion concerning our exposure to interest rate risk is presented in Item 7A of the 2023 Annual Report on Form 10-K filed with the SEC.InflationOur financial statements have been prepared in accordance with GAAP, which requires the financial position and operating results to be measured principally in terms of historic dollars without considering the change in the relative purchasing power of money over time due to inflation. Nearly all of the Companyâ€™s assets and liabilities are monetary in nature, and as such, changes in interest rates (as discussed above) generally affect the financial condition of the Company to a greater degree than changes in the rate of inflation. Although interest rates are influenced by changes in the inflation rate, they do not necessarily change at the same rate or in the same magnitude as the inflation rate. Inflation affects the Companyâ€™s results of operations mainly through increased operating costs, and the impact of inflation on banks in general is normally not as significant as its influence on those businesses that have large investments in plant and inventories. We review pricing of our products and services, as well as our controllable operating and labor costs in light of current and expected costs due to inflation, to mitigate the inflationary impact on financial performance to the extent possible.Item 4 â€“ Controls and ProceduresManagement, under the supervision of and with the participation of our Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of the design and operation of the Companyâ€™s disclosure controls and procedures, which are our controls and other procedures that are designed to ensure that information required to be disclosed in our periodic reports with the SEC is recorded, processed, summarized and reported within the required time periods. Disclosure controls and procedures include, without limitation, controls and procedures designed to Page 55Index ensure that information required to be disclosed is communicated to our management to allow timely decisions regarding required disclosure. Based on this assessment, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of SeptemberÂ 30, 2024 are effective in allowing timely decisions regarding disclosure to be made about material information required to be included in our periodic reports with the SEC. In addition, there has been no change in our internal control over financial reporting which has occurred during, or subsequent to, the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.Part II. Other InformationItem 1 â€“ Legal ProceedingsVarious legal proceedings may arise in the ordinary course of business and may be pending or threatened against the Company and its subsidiaries. Neither the Company nor any of its subsidiaries are involved in any pending legal proceedings that management believes are material to the Company or its consolidated financial position.Â If an exposure were to be identified, it is the Companyâ€™s policy to establish and accrue appropriate reserves during the accounting period in which a loss is deemed to be probable and the amount is determinable.Item 1A â€“ Risk FactorsInvesting in shares of our common stock involves certain risks, including those identified and described in Item 1A of our Annual Report on Form 10-K for the fiscal year ended DecemberÂ 31, 2023, as well as cautionary statements contained in this Form 10-Q, including those under the caption â€œForward-Looking Statementsâ€ set forth in the forepart of this Form 10-Q, risks and matters described elsewhere in this Form 10-Q and in our other filings with the SEC. There are no material changes from the risk factors set forth in the Companyâ€™s Annual Report on FormÂ 10-K for the year endedÂ DecemberÂ 31, 2023.Item 5 â€“ Other Information5(c) Trading Arrangements of Section 16 Reporting Persons.During the quarter ended SeptemberÂ 30, 2024, no person who is required to file reports pursuant to Section 16(a) of the Securities Exchange Act of 1934, as amended, with respect to holdings of, and transactions in, the Companyâ€™s common shares (i.e. directors and certain officers of the Company) maintained, adopted, modified or terminated a â€œRule 10b5-1 trading arrangementâ€ or â€œnon-Rule 10b5-1(c) arrangementâ€, as those terms are defined in Section 229.408 of the regulations of the SEC. The Bank has three wholly owned subsidiaries that are fully consolidated, SBA Complete, Inc. (â€œSBA Completeâ€), Magnolia Financial, Inc. ("Magnolia Financial"), and First Troy SPE, LLC. All significant intercompany accounts and transactions have been eliminated. During the second quarter of 2024, SBA Complete became inactive with certain activities transitioning to the Bank. The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all information and notes necessary for complete financial statements in accordance with GAAP. In the opinion of the Company, the accompanying unaudited consolidated financial statements contain all adjustments necessary to present fairly the consolidated financial position of the Company as of SeptemberÂ 30, 2024, the consolidated results of income, comprehensive income and shareholders' equity for the three and nine months ended SeptemberÂ 30, 2024 and 2023, and the consolidated cash flows for the nine months ended SeptemberÂ 30, 2024 and 2023. Any such adjustments were of a normal, recurring nature. These interim financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes in the 2023 Annual Report for the year ended DecemberÂ 31, 2023. Operating results for interim period are not necessarily indicative of the results that may be expected for the full year. In certain instances, amounts reported in prior yearsâ€™ consolidated financial statements have been reclassified to conform to the current presentation. Such reclassifications had no effect on previously reported shareholdersâ€™ equity or net income.Refer to Note 1 of the 2023 Annual Report filed with the Securities and Exchange Commission (â€œSECâ€) for a discussion of accounting policies and other relevant information with respect to the consolidated financial statements. The Company has evaluated all subsequent events through the date the consolidated financial statements were issued.Accounting Standards Adopted in 2024Accounting Standards Update ("ASU") 2023-02, â€œInvestmentsâ€”Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Methodâ€ permits reporting entities to elect to account for their tax equity investments, regardless of the tax credit program from which the income tax credits are received, using the proportional amortization method if certain conditions are met. This update is effective for fiscal years beginning after December 15, 2023, including interim periods within those fiscal years. The adoption of ASU 2023-02 did not have a significant impact on the Company's consolidated financial statements.Accounting Standards Pending AdoptionASU 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures" amended existing guidance to improve disclosures about a public entityâ€™s reportable segments and provide more detailed information about a reportable segmentâ€™s expenses. ASU 2023-07 clarifies that an entity which has a single reportable segment is to provide all the disclosures required by Topic 280 and ASU 2023-07. The amendment is effective for fiscal years beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. The adoption of ASU 2023-07 is not expected to have a significant impact on the Company's consolidated financial statements.ASU 2023-09, â€œIncome Taxes (Topic 740): Improvements to Income Tax Disclosuresâ€ amends existing guidance to improve the transparency of income tax disclosures, including disclosure of specific categories in the rate reconciliation, providing additional information for certain reconciling items, and providing details on income taxes paid. The amendments are effective for annual periods beginning after December 15, 2024. The adoption of ASU 2023-09 is not expected to have a significant impact on the Company's consolidated financial statements.Other accounting standards that have been issued or proposed by the Financial Accounting Standards Board ("FASB") or other standards-setting bodies are not expected to have a material impact on the Companyâ€™s consolidated financial statements. The results of GrandSouth are included beginning on the January 1, 2023 acquisition date. This transaction was accounted for using the acquisition method of accounting for business combinations, and accordingly, the assets acquired, intangible assets identified, and liabilities assumed of GrandSouth were recorded based on estimates of fair values as of January 1, 2023. The operations of GrandSouth have been integrated into existing First Bank operations and therefore separate results of operations or balance sheet information is not presented. As of DecemberÂ 31, 2023, the Company's securities portfolio included 657 securities of which 632 securities were in an unrealized loss position. In the above tables, all of the securities that were in an unrealized loss position at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 are bonds that the Company has determined are in a loss position due primarily to interest rate factors and not credit quality concerns. In arriving at this conclusion, the Company reviewed third-party credit ratings and considered the severity of the impairment. The state and local government investments are comprised almost entirely of highly-rated municipal bonds issued by state and local governments throughout the nation. The Company has no significant concentrations of bond holdings from one state or local government entity. Nearly all of our mortgage-backed securities were issued by Federal Home Loan Mortgage Corporation ("FHLMC"), Federal National Mortgage Association ("FNMA"), Government National Mortgage Association ("GNMA"), or the Small Business Administration ("SBA"), each of which is a government agency or GSE and guarantees the repayment of the securities.At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the Company determined that expected credit losses associated with held to maturity securities and available for sale debt securities were insignificant. The book values and fair values of investment securities at SeptemberÂ 30, 2024, by contractual maturity, are summarized in the table below. Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations with or without call or prepayment penalties.Â Securities Available for SaleSecurities Held to Maturity($ in thousands)AmortizedCostFairValueAmortizedCostFairValueDue after one year but within five years$39,996Â $35,320Â $5,394Â $5,289Â Due after five years but within ten years48,151Â 43,336Â 183,914Â 159,345Â Due after ten yearsâ€”Â â€”Â 322,570Â 274,102Â Mortgage-backed securities2,150,849Â 1,828,802Â 9,923Â 9,564Â Total securities$2,238,996Â $1,907,458Â $521,801Â $448,300Â At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, investment securities with carrying values of $924.8 million and $971.3 million, respectively, were pledged as collateral for public deposits. In addition, at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, investment securities with carrying values of $582.6 million and $679.0 million, respectively, were pledged as collateral for Federal Reserve Bank ("Federal Reserve") borrowings.At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, there were no holdings of securities of any one issuer, other than the U.S. Government and its agencies or GSEs, in an amount greater than 10% of shareholders' equity.There were no sales of investment securities during the three months ended SeptemberÂ 30, 2024.During the second quarter of 2024, the Company sold all of its holdings of Class B shares of Visa, Inc. (â€œVisaâ€) stock that were received upon Visaâ€™s initial public offering and recognized a gain of $4.5 million. As the Class B stock did not initially have a readily determinable fair value, it was carried at $0 prior to the sale. During the second quarter of 2024, the Company received proceeds from sales of securities of $138.2 million and recorded $4.7 million in gross losses from the sales. This loss was partially offset by the $4.5 million gain on the sale of the Visa stock discussed above. Included in "Securities losses, net" in the consolidated statements of income, during the first quarter of 2024, the Company received proceeds from the call of a security of $5.2 million and recorded a $975 thousand loss related to the unamortized premium balance at the time of the call. During the first quarter of 2023, the Company sold substantially all of the securities acquired from GrandSouth at their initially recorded fair values. Accordingly, there was no gain or loss recorded on the sale of acquired securities.Included in â€œOther assetsâ€ in the consolidated balance sheets are investments in Federal Home Loan Bank (â€œFHLBâ€) and Federal Reserve stock totaling $41.2 million and $54.5 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. These investments do not have readily determinable fair values. The FHLB stock had a cost of $8.5 million and $21.7 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, and serves as part of the collateral for the Companyâ€™s line of credit with the FHLB and is also a requirement for membership in the FHLB system. The Federal Reserve stock had a cost and fair value of $32.7 million and $32.8 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, and is a requirement for Federal Reserve member bank qualification. Periodically, both the FHLB and Federal Reserve recalculate the Companyâ€™s required level of holdings, and the Company either buys more stock or redeems a portion of the stock at cost. The Company determined that neither stock was impaired at either period end. At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, total loans included loans to executive officers and directors of the Company, and their associates, totaling approximately $63.3 million and $63.7 million, respectively. While there was one new loan, advances on existing loans totaled approximately $1.3 million for the nine months ended SeptemberÂ 30, 2024, and repayments amounted to $1.6 million for that period. Available credit on related party loans totaled $1.0 million and $2.7 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively.As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, unamortized discounts on all acquired loans totaled $17.3 million and $24.0 million, respectively. Loan discounts are generally amortized as yield adjustments over the respective lives of the loans, so long as

the loans perform. There was no impairment of acquired loans during the three and nine months ended SeptemberÂ 30, 2024 that would require acceleration of amortization or charge off of unamortized discount. Nonperforming assets ("NPAs") are defined as nonaccrual loans, modifications to borrowers in financial distress, loans past due 90 or more days and still accruing interest, and foreclosed real estate. Fluctuations in the ACL each period are based on loan mix and growth, changes in the levels of nonperforming loans, economic forecasts impacting loss drivers, other assumptions and inputs to the current expected credit loss ("CECL") model, and as occurred in 2023, adjustments for acquired loan portfolios. The change to the level of ACL during the nine months ended SeptemberÂ 30, 2024 was determined based primarily on updated economic forecasts, which are a key assumption in the CECL model and which indicated improvement in certain economic forecasts along with reductions in loan balances during the period, partially offset by a continued reduction of the commercial real estate pricing index. Other than the impact from Hurricane Helene, there was little change to the ACL for the quarter or year to date. Various types of modification may be offered including principal forgiveness, term extension, payment delays, or interest rate reductions. In some cases, the Company will modify a certain loan by providing multiple types of concessions. Typically, one type of concession, such as a term extension, is granted initially. If the borrower continues to experience financial difficulty, another concession may be granted. For loans included in the â€œcombinationâ€ columns below, multiple types of modifications have been made on the same loan within the current reporting period. Therefore, the amortized cost basis of the loan is reduced by the uncollectible amount and the ACL is adjusted by the same amount. Concentration of Credit Risk Most of the Company's business activity is with customers located within the markets where it has banking operations. Therefore, the Companyâ€™s exposure to credit risk is significantly affected by changes in the economy within its markets. Approximately 88% of the Company's loan portfolio is secured by real estate and is therefore susceptible to changes in real estate valuations. There have been no material changes to the primary loan markets (as identified by counties) from year end. Impact of Hurricane HeleneWithin the portions of Western North and South Carolina that were significantly impacted by Hurricane Helene, the Company identified borrowers with approximately $755 million of loans outstanding. The following is a summary of the categories of those loans outstanding as of SeptemberÂ 30, 2024:($ in thousands)BalanceCommercial and industrial$10,481Â Construction, development & other land loans29,429Â Commercial real estate - owner occupied98,958Â Commercial real estate - non owner occupied284,825Â Multi-family real estate25,677Â Residential 1-4 family real estate266,554Â Home equity loans/lines of credit39,470Â Consumer loansâ€”Â Total$755,394Â Given that the storm impacted the area just prior to SeptemberÂ 30, 2024 and recovery continues in many communities, the Company performed analyses to identify possible impacts from the storm and has reserved accordingly based upon the information available at this time. The Company applied increased reserve rates based upon severe economic factors to the approximately $755 million of loans in the most impacted path of Hurricane Helene. Additionally, the Company performed an initial evaluation of the largest commercial loans in that area and applied incremental reserves to those loans that were suspected of having higher potential property damage or economic impact from the storm. Due to the potential exposure from Hurricane Helene, the ACL on these impacted loans increased by $13.0 million, expanding the ACL as a percent of loans in the impacted geography from 1.29% to 3.01% as of SeptemberÂ 30, 2024 and adding 16 basis points to the overall ACL as a percent of total loans, which was 1.53% as of SeptemberÂ 30, 2024.Allowance for Unfunded Loan CommitmentsIn addition to the ACL on loans, the Company maintains an allowance for lending-related commitments such as unfunded loan commitments and letters of credit. The Company estimates expected credit losses over the contractual period in which the Company is exposed to credit risk via a contractual obligation to extend credit, unless that obligation is unconditionally cancellable by the Company. The allowance for lending-related commitments on off-balance sheet credit exposures is adjusted as a provision for unfunded commitments expense. The estimate includes consideration of the likelihood that funding will occur, which is based on a historical funding study derived from internal information, and an estimate of expected credit losses on commitments expected to be funded over its estimated life, which are the same loss rates that are used in computing the ACL on loans. The allowance for unfunded loan commitments of $9.3 million and $11.4 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, were separately classified on the consolidated balance sheets within "Other liabilities."The following table presents the balance and activity in the allowance for unfunded loan commitments for the three and nine months ended SeptemberÂ 30, 2024 and 2023:Three months ended September 30,Nine months ended September 30,($ in thousands)20242023202420232023Beginning balance$9,860Â $13,019Â $11,369Â $13,306Â Initial provision for credit losses on unfunded commitments acquired from GrandSouthâ€”Â â€”Â â€”Â 1,921Â Charge-offsâ€”Â â€”Â â€”Â â€”Â Recoveriesâ€”Â â€”Â â€”Â â€”Â Reversal of provision for unfunded commitments(583)(1,200)(2,092)(3,408)Ending balance$9,277Â $11,819Â $9,277Â $11,819Â Allowance for Credit Losses - Securities Held to MaturityThe ACL for securities held to maturity was insignificant at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. Goodwill is also evaluated for impairment any time there is a triggering event indicating that impairment may have occurred. No triggering events were identified during 2024 to date and, therefore, the Company did not perform interim impairment evaluations. The Company's most recent evaluation of goodwill, which occurred in the fourth quarter of 2023, indicated that there was no goodwill impairment. There was no change to carrying amounts of goodwill during 2024.The following table presents the estimated amortization expense schedule related to acquisition-related amortizable intangible assets. These amounts will be recorded as "Intangibles amortization expense" within the noninterest expense section of the consolidated statements of income. As of SeptemberÂ 30, 2024, the Company leased 14 bank branch offices for which the land and buildings are leased and ten branch offices for which the land is leased but the buildings are owned. The Company also leases office space for several operational departments. The lease agreements have maturity dates ranging from November 2024 through May 2076, some of which include options for multiple five- and ten-year extensions. The weighted average remaining life of the lease term for these leases was 21.1 years as of SeptemberÂ 30, 2024. Certain of the Company's lease agreements include variable lease payments based on changes in inflation, with the impact of that factor being insignificant to the Company's total lease expense. As permitted by applicable accounting standards, the Company has elected not to recognize leases with original lease terms of twelve months or less (short-term leases) on the Company's consolidated balance sheets. The short-term lease cost for each period presented was insignificant. Leases are classified as either operating or finance leases at the lease commencement date and all of the Company's leases have been determined to be operating leases. Lease expense for operating leases and short-term leases is recognized on a straight-line basis over the applicable lease term. Right-of-use assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. Right-of-use assets and lease liabilities are recognized at the lease commencement date based on the estimated present value of lease payments over the lease term.The Company uses its incremental borrowing rate, on a collateralized basis, at lease commencement to calculate the present value of lease payments when the rate implicit in the lease is not known. The weighted average discount rates for leases were 3.32% and 3.19% as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively.The right-of-use assets, included in "Other assets" on the Company's consolidated balance sheet, and lease liabilities, included in "Other liabilities" on the Company's consolidated balance sheet, were $14.1 million and $14.9 million as of SeptemberÂ 30, 2024, respectively, and were $17.1 million and $17.8 million as of DecemberÂ 31, 2023, respectively.Total operating lease expenses, included in "Other operating expenses" in the Company's consolidated statement of income, were $0.6 million and $0.8 million for the three months ended September 30, 2024 and 2023, respectively, and $1.8 million and $2.3 million for the nine months ended SeptemberÂ 30, 2024 and 2023, respectively. There are three levels of inputs that may be used to measure fair value:Level 1: Quoted prices (unadjusted) of identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.Level 3: Significant unobservable inputs that reflect a reporting entityâ€™s own assumptions about the assumptions that market participants would use in pricing an asset or liability.The following table summarizes the Companyâ€™s financial instruments that were measured at fair value on a recurring and nonrecurring basis at SeptemberÂ 30, 2024:($ in thousands)Description of Financial InstrumentsFair Value at September 30, 2024Quoted Prices in Active Markets for Identical Assets(Level 1)Significant OtherObservable Inputs(Level 2)SignificantUnobservable Inputs(Level 3)RecurringSecurities available for sale:Government-sponsored enterprise securities$62,872Â $â€”Â $62,872Â $â€”Â Mortgage-backed securities1,828,802Â â€”Â 1,828,802Â â€”Â Corporate bonds15,784Â â€”Â 15,784Â â€”Â Total available for sale securities$1,907,458Â $â€”Â $1,907,458Â $â€”Â Derivative financial assets$551Â $â€”Â $551Â $â€”Â Presold mortgages in process of settlement$9,888Â $â€”Â $9,888Â $â€”Â Derivative financial liabilities$553Â $â€”Â $553Â $â€”Â NonrecurringIndividually evaluated loans$4,746Â $â€”Â $â€”Â $4,746Â The following table summarizes the Companyâ€™s financial instruments that were measured at fair value on a recurring and nonrecurring basis at DecemberÂ 31, 2023:($ in thousands)Description of Financial InstrumentsFair Value at December 31, 2023Quoted Prices in Active Markets for Identical Assets(Level 1)Significant OtherObservable Inputs(Level 2)SignificantUnobservableInputs(Level 3)RecurringSecurities available for sale:US Treasury securities$172,570Â $â€”Â $172,570Â $â€”Â Government-sponsored enterprise securities60,266Â â€”Â 60,266Â â€”Â Mortgage-backed securities1,937,784Â â€”Â 1,937,784Â â€”Â Corporate bonds18,759Â â€”Â 18,759Â â€”Â Total available for sale securities$2,189,379Â $â€”Â $2,189,379Â $â€”Â Derivative financial assets$295Â $â€”Â $295Â $â€”Â Presold mortgages in process of settlement$2,667Â $â€”Â $2,667Â $â€”Â Derivative financial liabilities$349Â $â€”Â $349Â $â€”Â NonrecurringIndividually evaluated loans$1,953Â $â€”Â $â€”Â $1,953Â The following is a description of the valuation methodologies used for financial instruments measured at fair value.Securities Available for Sale â€” When quoted market prices are available in an active market, the securities are classified as Level 1 in the valuation hierarchy. If quoted market prices are not available, but fair values can be estimated by observing quoted prices of securities with similar characteristics, the securities are classified as Level 2 on the valuation hierarchy. Most of the fair values for the Companyâ€™s Level 2 securities are determined by the Company's third-party bond accounting provider using matrix pricing. Matrix pricing is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securitiesâ€™ relationship to other benchmark quoted securities. For the Company, Level 2 securities include U.S Treasury bonds, mortgage-backed securities, commercial mortgage-backed obligations, government-sponsored enterprise securities, and corporate bonds. In cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.The Company reviews the pricing methodologies utilized by the bond accounting provider to ensure the fair value determination is consistent with the applicable accounting guidance and that the investments are properly classified in the fair value hierarchy.Presold Mortgages in Process of Settlement - The fair value is based on the committed price that an investor has agreed to pay for the loan which is considered a Level 2 input.Derivative financial assets and liabilities - The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. These are considered a Level 2 input.Individually evaluated loans â€” Fair values for individually evaluated loans are measured on a non-recurring basis and are based on the underlying collateral values securing the loans, adjusted for estimated selling costs, or the net present value of the cash flows expected to be received for such loans. Collateral may be in the form of real estate or business assets including equipment, inventory and accounts receivable. The vast majority of the collateral is real estate. The value of real estate collateral is generally determined by third-party appraisers using an income or market valuation approach based on an appraisal conducted by an independent, licensed third party appraiser (Level 3). The value of business equipment is based upon an outside appraisal if deemed significant, or the net book value on the applicable borrowerâ€™s financial statements if not considered significant. Likewise, values for inventory and accounts receivable collateral are based on borrower financial statement balances or aging reports on a discounted basis as appropriate (Level 3). Appraisals used in this analysis are generally obtained at least annually based on when the loans first became impaired, and thus the appraisals are not necessarily as of the period ends presented. Any fair value adjustments are recorded in the period incurred as provision for credit losses on the consolidated statements of income. There were no significant changes in the reported amount of Level 3 assets and liabilities measured at fair value on either a recurring or a non-recurring basis as of SeptemberÂ 30, 2024. The carrying amounts and estimated fair values of financial instruments not carried at fair value at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 were as follows:Â Â September 30, 2024December 31, 2023($ in thousands)Level in FairValueHierarchyCarryingAmountEstimatedFair ValueCarryingAmountEstimatedFair ValueCash and due from banks, noninterest-bearingLevel 1$74,034Â $74,034Â $100,891Â $100,891Â Due from banks, interest-bearingLevel 1670,407Â 670,407Â 136,964Â 136,964Â Securities held to maturityLevel 2521,801Â 448,300Â 533,678Â 449,623Â Total loans, net of allowanceLevel 37,890,820Â 7,232,306Â 8,040,249Â 7,379,079Â SBA Servicing AssetLevel 32,960Â 3,946Â 3,351Â 4,049Â Demand deposits, money market and savingsLevel 19,507,268Â 9,507,268Â 9,052,905Â 9,052,905Â Time depositsLevel 2997,661Â 994,002Â 978,694Â 972,513Â BorrowingsLevel 291,694Â 80,268Â 630,158Â 615,614Â Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Companyâ€™s entire holdings of a particular financial instrument. Because no highly liquid market exists for a significant portion of the Companyâ€™s financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.Fair value estimates are based on existing on- and off-balance sheet financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. Significant assets and liabilities that are not considered financial assets or liabilities include net premises and equipment, intangible and other assets such as deferred income taxes, prepaid expense accounts, income taxes currently payable, and other various accrued expenses. In addition, the income tax ramifications related to the realization of the unrealized gains and losses can have a significant effect on fair value estimates and have not been considered

in any of the estimates. At SeptemberÂ 30, 2024, the sole equity-based compensation plan of the Company was the First Bancorp 2024 Equity Plan (the "Equity Plan"), which was approved by shareholders on May 31, 2024. As of SeptemberÂ 30, 2024, the Equity Plan had 1,929,731 shares remaining available for grant. During the second quarter, the First Bancorp 2014 Equity Plan expired and was replaced by the Equity Plan. The Equity Plan is intended to serve as a means to attract, retain, and motivate key employees and directors and to associate the interests of the Equity Plan's participants with those of the Company and its shareholders. The Equity Plan allows for both grants of stock options and other types of equity-based compensation, including stock appreciation rights, restricted and unrestricted stock, restricted performance stock, and performance units. For the last several years, the only equity-based compensation granted by the Company has been shares of restricted stock, as it relates to employees, and unrestricted stock as it relates to non-employee directors.There have been no material changes to the treatment of stock awards and equity grants as discussed in Note 15 of the Company's Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023.In addition to employee equity awards, the Company's practice is to grant unrestricted common shares to each non-employee director (currently twelve in total) in June of each year. The grants were valued at approximately $37,500 in 2024. Compensation expense associated with these director awards is fully recognized by the date of the award since there are no vesting conditions. 2024 Organization, Consolidation and Presentation of Financial Statements [Abstract] Â Basis of Presentation In the opinion of the Company, the accompanying unaudited consolidated financial statements contain all adjustments necessary to present fairly the consolidated financial position of the Company as of SeptemberÂ 30, 2024, the consolidated results of income, comprehensive income and shareholders' equity for the three and nine months ended SeptemberÂ 30, 2024 and 2023, and the consolidated cash flows for the nine months ended SeptemberÂ 30, 2024 and 2023. Any such adjustments were of a normal, recurring nature. These interim financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes in the 2023 Annual Report for the year ended DecemberÂ 31, 2023. Operating results for interim period are not necessarily indicative of the results that may be expected for the full year. In certain instances, amounts reported in prior yearsâ€™ consolidated financial statements have been reclassified to conform to the current presentation. Such reclassifications had no effect on previously reported shareholdersâ€™ equity or net income.Refer to Note 1 of the 2023 Annual Report filed with the Securities and Exchange Commission (â€œSECâ€) for a discussion of accounting policies and other relevant information with respect to the consolidated financial statements. Accounting Standards Adopted in 2023 and Accounting Standards Pending Adoption Accounting Standards Adopted in 2024Accounting Standards Update ("ASU") 2023-02, â€œInvestmentsâ€”Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Methodâ€ permits reporting entities to elect to account for their tax equity investments, regardless of the tax credit program from which the income tax credits are received, using the proportional amortization method if certain conditions are met. This update is effective for fiscal years beginning after December 15, 2023, including interim periods within those fiscal years. The adoption of ASU 2023-02 did not have a significant impact on the Company's consolidated financial statements.Accounting Standards Pending AdoptionASU 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures" amended existing guidance to improve disclosures about a public entityâ€™s reportable segments and provide more detailed information about a reportable segmentâ€™s expenses. ASU 2023-07 clarifies that an entity which has a single reportable segment is to provide all the disclosures required by Topic 280 and ASU 2023-07. The amendment is effective for fiscal years beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. The adoption of ASU 2023-07 is not expected to have a significant impact on the Company's consolidated financial statements.ASU 2023-09, â€œIncome Taxes (Topic 740): Improvements to Income Tax Disclosuresâ€ amends existing guidance to improve the transparency of income tax disclosures, including disclosure of specific categories in the rate reconciliation, providing additional information for certain reconciling items, and providing details on income taxes paid. The amendments are effective for annual periods beginning after December 15, 2024. The adoption of ASU 2023-09 is not expected to have a significant impact on the Company's consolidated financial statements.Other accounting standards that have been issued or proposed by the Financial Accounting Standards Board ("FASB") or other standards-setting bodies are not expected to have a material impact on the Companyâ€™s consolidated financial statements. Fluctuations in the ACL each period are based on loan mix and growth, changes in the levels of nonperforming loans, economic forecasts impacting loss drivers, other assumptions and inputs to the current expected credit loss ("CECL") model, and as occurred in 2023, adjustments for acquired loan portfolios. The change to the level of ACL during the nine months ended SeptemberÂ 30, 2024 was determined based primarily on updated economic forecasts, which are a key assumption in the CECL model and which indicated improvement in certain economic forecasts along with reductions in loan balances during the period, partially offset by a continued reduction of the commercial real estate pricing index. Other than the impact from Hurricane Helene, there was little change to the ACL for the quarter or year to date.
