investment in Runway-Cadma 1 LLC, a joint venture between the Company and Cadma. This entity invests in secured loans to growth-stage companies that have been originated by the Company. See "Note 2 – Summary of Significant Accounting Policies" for further discussion. Derivative Financial Instruments In the normal course of business, the Company may utilize derivative contracts in connection with its investment activities. Investments in derivative contracts are subject to additional risks that can

result in a loss of all or part of an investment. The derivative activities and exposure to derivative contracts primarily involve equity price risks. In addition to the primary underlying risk, additional counterparty risk exists due to the potential inability of counterparties to meet the terms of their contracts. Warrants provide exposure and potential gains upon increases in the portfolio company's equity value. A warrant has a limited life and expires on a certain date. As a warrant's expiration date approaches, the time value of the warrant will decline. In addition, if the stock underlying the warrant declines in price, the intrinsic value of an "in the money" warrant will decline. Further, if the price of the stock underlying the warrant does not exceed the strike price of the warrant on the expiration date, the warrant will expire worthless. As a result, there is the potential for the entire value of an investment in a warrant to be lost. The Company's volume of warrant investment activity is closely correlated to its primary senior secured loans to portfolio companies. For the three and six months ended June 30, 2024, the Company had no realized gains or losses on investments and a net unrealized loss of $0.5 million and $0.8 million, respectively, from its investments in warrants. For the three months ended June 30, 2023, the Company had no realized gains or losses from its investments in warrants. For the six months ended June 30, 2023, the Company had a realized loss of $1.2 million from its investments in warrants. For the three and six months ended June 30, 2023, the Company had a net unrealized loss of <span style="color:#000000;white-space:pre-wrap;font-size:10pt;font-family:Times New Roman;min-width:fit-content;">$0.9 million and a net unrealized gain of $2.6 million, respectively, from its investments in warrants. Realized gains and losses from warrants are included in the respective control, affiliate, or non-control/non-affiliate "Net realized gain (loss) on investments" on the Consolidated Statements of Operations. Unrealized gains and losses from investments in warrants is included in the respective control, affiliate, or non-control/non-affiliate "Net change in unrealized gain (loss) on investments" on the Consolidated Statements of Operations. Counterparty risk exists from the potential failure of an issuer of warrants to settle its exercised warrants. The maximum risk of loss from counterparty risk is the fair value of the contracts and the purchase price of the warrants. The Board of Directors considers the effects of counterparty risk when determining the fair value of its investments in warrants. 0.05 0.25 0.50 The Company's affiliate and control investments as of June 30, 2024, along with the transactions during the six months ended June 30, 2024, are as follows (in thousands): <table style="margin-left:auto;border-spacing:0;table-layout:fixed;width:100.0%;border-collapse:separate;margin-right:auto;"> <tr style="visibility:collapse;"> <td style="width:1.14%;"></td> <td style="width:1.14%;"></td> <td style="width:11%;"></td> <td style="width:1%;"></td> <td style="width:9%;"></td> <td style="width:1%;"></td> <td style="width:11%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:6%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:5%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:6%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:4.7%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:5.44%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:4.44%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:5.14%;"></td> <td style="width:1%;"></td> </tr> <tr style="height:8pt;background-color:#ffffff;word-break:break-word;white-space:pre-wrap;"> <td style="vertical-align:bottom;"> </td> <td style="vertical-align:bottom;"> </td> <td style="vertical-align:bottom;"> </td> <td style="vertical-align:bottom;"> </td> <td style="vertical-align:bottom;"> </td> <td colspan="33" style="vertical-align:bottom;border-bottom:0.5pt solid #000000;text-align:left;"> For the Six Months Ended June 30, 2024 </td> <td style="vertical-align:bottom;border-bottom:0.5pt solid #ffffff03;text-align:left;"> </td> </tr> <tr style="height:8pt;background-color:#ffffff;word-break:break-word;white-space:pre-wrap;"> <td style="vertical-align:bottom;"> </td> <td style="vertical-align:bottom;"> </td> <td style="vertical-align:bottom;"> </td> <td style="vertical-align:bottom;"> </td> <td style="vertical-align:bottom;"> </td> <td style="vertical-align:bottom;"> </td> <td colspan="3" style="vertical-align:bottom;text-align:left;"> Investment Income Earned 2024 </td> <td style="vertical-align:bottom;text-align:left;"> </td> <td style="vertical-align:bottom;"> </td> <td colspan="3" style="vertical-align:bottom;text-align:left;"> Fair Value as of December 31, 2023 </td> <td style="vertical-align:bottom;text-align:left;"> </td> <td style="vertical-align:bottom;"> </td> <td colspan="3" style="vertical-align:bottom;text-align:left;"> Gross

The origination yield is defined as the initial market price of an investment in a hypothetical market to hypothetical market participants where buyers and sellers are willing participants. The discount rate is related to company-specific characteristics such as underlying investment performance, projected cash flows, and other characteristics of the investment. Significant increases or decreases in the inputs in isolation may result in a significantly higher or lower fair value measurement, depending on the materiality of the investment. The Equity Allocation model and the Black Scholes model were the main OPMs used during the period ended June 30, 2024. Probability Weighted Expected Return Models (“PWERM”) and other techniques were used as determined appropriate. Significant increases (decreases) in the inputs in isolation would result in a significantly higher (lower) fair value measurement, depending on the materiality of the investment. However, a significantly higher or lower fair value measurement of any of the Company’s portfolio investments may occur regardless of whether there is a significant increase (decrease) in the unobservable inputs. For some investments, additional consideration may be given to data from the last round of financing or merger/acquisition events near the measurement date.</div></div><div class="item-list-element-wrapper" style="margin-left:3.333%;display:flex;margin-top:0;justify-content:flex-start;align-items:baseline;margin-bottom:0;min-width:3.333%;text-align:justify;">(3)<div style="width:100%;display:inline;">Warrant investments using a PWERM valuation technique contain success fees, in which case the inputs are not applicable because the nature of a success fee is a fixed payout dependent on certain liquidation events. </div></div><p style="font-size:10pt;margin-top:12pt;font-family:Times New Roman;margin-bottom:12pt;text-align:justify;">The following table provides quantitative information regarding Level 3 fair value measurements as of December 31, 2023 (in thousands):</p> <table style="margin-left:auto;border-spacing:0;table-layout:fixed;width:100.0%;border-collapse:separate;margin-right:auto;"> <tr style="visibility:collapse;"> <td style="width:22.256%;"></td> <td style="width:1.4%;"></td> <td style="width:1%;"></td> <td style="width:1%;"></td> <td style="width:14.737%;"></td> <td style="width:1%;"></td> <td style="width:1.5%;"></td> <td style="width:18.036%;"></td> <td style="width:1.5%;"></td> <td style="width:18.036%;"></td> <td style="width:1.5%;"></td> <td style="width:18.036%;"></td> </tr> <tr style="height:8pt;background-color:#ffffff;word-break:break-word;white-space:pre-wrap;"> <td style="vertical-align:bottom;border-bottom:0.5pt solid #000000;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;">Description</p></td> <td style="vertical-align:bottom;border-bottom:0.5pt solid #ffffff03;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;"> </p></td> <td colspan="3" style="vertical-align:bottom;border-bottom:0.5pt solid #000000;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;">Fair Value</p></td> <td style="vertical-align:bottom;border-bottom:0.5pt solid #ffffff03;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;"> </p></td> <td style="vertical-align:bottom;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;"> </p></td> <td style="vertical-align:bottom;border-bottom:0.5pt solid #000000;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;">Valuation Technique</p></td> <td style="vertical-align:bottom;border-bottom:0.5pt solid #ffffff03;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;"> </p></td> <td style="vertical-align:bottom;border-bottom:0.5pt solid #000000;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;">Unobservable Inputs</p></td> <td style="vertical-align:bottom;border-bottom:0.5pt solid #ffffff03;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;"> </p></td> <td style="vertical-align:bottom;border-bottom:0.5pt solid #000000;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;">Range (Weighted Average)</p></td> </tr> <tr style="height:8pt;background-color:#cff0fc;word-break:break-word;"> <td style="white-space:pre-wrap;vertical-align:top;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;">Senior Secured Term Loans(1)</p></td> <td style="white-space:pre-wrap;vertical-align:bottom;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;"> </p></td> <td style="white-space:pre-wrap;vertical-align:bottom;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;"><span style="color:#000000;white-space:pre-wrap;min-width:fit-content;">$ </td> <td style="white-space:nowrap;vertical-align:bottom;"> </td> <td style="white-space:pre-wrap;vertical-align:bottom;text-align:center;"> 904,739 </td> <td style="white-space:nowrap;vertical-align:bottom;"> </td> <td style="white-space:pre-wrap;vertical-align:bottom;"> </td> <td style="white-space:pre-wrap;vertical-align:bottom;text-align:left;"> <span style="color:#000000;white-space:pre-wrap;min-width:fit-

The origination yield is defined as the initial market price of an investment in a hypothetical market to hypothetical market participants where buyers and sellers are willing participants. The discount rate is related to company-specific characteristics such as underlying investment performance, projected cash flows, and other characteristics of the investment. Significant increases or decreases in the inputs in isolation may result in a significantly higher or lower fair value measurement, depending on the materiality of the investment. However, a significantly higher or lower fair value measurement of any of the Company's portfolio investments may occur regardless of whether there is a significant increase or decrease in the unobservable inputs.</div></div><div class="item-list-element-wrapper" style="margin-left:3.333%;display:flex;margin-top:0;justify-content:flex-start;align-items:baseline;margin-bottom:0;min-width:3.333%;text-align:justify;">(2)<div style="width:100%;display:inline;">The significant unobservable inputs used in the fair value measurement of the Company's warrant and equity-related securities are inputs used in the OPM, which include industry volatility, risk free interest rate and estimated time to exit. The Equity Allocation model and the Black Scholes model were the main OPMs used during the year ended December 31, 2023. Probability Weighted Expected Return Models ("PWERM") and other techniques were used as determined appropriate. Significant increases (decreases) in the inputs in isolation would result in a significantly higher (lower) fair value measurement, depending on the materiality of the investment. However, a significantly higher or lower fair value measurement of any of the Company's portfolio investments may occur regardless of whether there is a significant increase (decrease) in the unobservable inputs. The origination yield is defined as the initial market price of an investment in a hypothetical market to hypothetical market participants where buyers and sellers are willing participants. The discount rate is related to company-specific characteristics such as underlying investment performance, projected cash flows, and other characteristics of the investment. Significant increases or decreases in the inputs in isolation may result in a significantly higher or lower fair value measurement, depending on the materiality of the investment. However, a significantly higher or lower fair value measurement of any of the Company's portfolio investments may occur regardless of whether there is a significant increase or decrease in the unobservable inputs. <span style="transform:scale(0.67);color:#000000;white-space:pre-wrap;vertical-align:super;font-size:8pt;font-family:Times New Roman;transform-origin:top left;min-width:3.447919145106397%;display:inline-flex;justify-content:flex-start;">(2) The significant unobservable inputs used in the fair value measurement of the Company's warrant and equity-related securities are inputs used in the OPM, which include industry volatility, risk free interest rate and estimated time to exit. The Equity Allocation model and the Black Scholes model were the main OPMs used during the period ended June 30, 2024. Probability Weighted Expected Return Models ("PWERM") and other techniques were used as determined appropriate. Significant increases (decreases) in the inputs in isolation would result in a significantly higher (lower) fair value measurement, depending on the materiality of the investment. However, a significantly higher or lower fair value measurement of any of the Company's portfolio investments may occur regardless of whether there is a significant increase (decrease) in the unobservable inputs. For some investments, additional consideration may be given to data from the last round of financing or merger/acquisition events near the measurement date. <span style="transform:scale(0.67);color:#000000;white-space:pre-wrap;vertical-align:super;font-size:8pt;font-family:Times New Roman;transform-origin:top left;min-width:3.447919145106397%;display:inline-flex;justify-content:flex-start;">(3) Warrant investments using a PWERM valuation technique contain success fees, in which case the inputs are not applicable because the nature of a success fee is a fixed payout dependent on certain liquidation events. The origination yield is defined as the initial market price of an investment in a hypothetical market to hypothetical market participants where buyers and sellers are willing participants. The discount rate is related to company-specific characteristics such as underlying investment performance, projected cash flows, and other characteristics of the investment. Significant increases or decreases in the inputs in isolation may result in a significantly higher or lower fair value measurement, depending on the materiality of the investment. However, a significantly higher or lower fair value measurement of any of the Company's portfolio investments may occur regardless of whether there is a significant increase or decrease in the unobservable inputs. <span style="transform:scale(0.67);color:#000000;white-space:pre-wrap;vertical-align:super;font-size:8pt;font-family:Times New Roman;transform-origin:top left;min-width:3.447919145106397%;display:inline-flex;justify-content:flex-start;">(2) The significant unobservable inputs used in the fair value measurement of the Company's warrant and equity-related securities are inputs used in the OPM, which include industry volatility, risk free interest rate and estimated time to exit. The Equity Allocation model and the Black Scholes model were the main OPMs used during the year ended December 31, 2023. Probability Weighted Expected Return Models ("PWERM") and other techniques were used as determined appropriate. Significant increases (decreases) in the inputs in isolation would result in a significantly higher (lower) fair value measurement, depending on the materiality of the investment. However, a significantly higher or lower fair value measurement of any of the Company's portfolio investments may occur regardless of whether there is a significant increase (decrease) in the unobservable inputs. The Company is subject to credit risk to the extent that any financial institution with which it conducts business is unable to fulfill contractual obligations on its behalf. The Company monitors the financial condition of those financial institutions and believes that risk of loss associated with any uninsured balance is remote. In the event that a portfolio company completely fails to perform according to the terms of their loan agreement, the amount of loss due to credit risk from the Company's investments would equal the sum of the Company's recorded investments in the portfolio company and the portion of unfunded commitments currently eligible to be drawn. Refer to "Note 8 – Commitments and Contingencies" for a summary of the aggregate balance of unfunded commitments as of June 30, 2024. The Company predominantly collateralizes its investments by obtaining a first priority security interest in a portfolio company's assets, which may include its intellectual property. As of June 30, 2024 and December 31, 2023, the Company's five largest debt investments in portfolio companies represented approximately 36.4% and 38.0%, respectively, of the total fair value of the Company's debt investments in portfolio companies. As of June 30, 2024 and December 31, 2023, the Company had debt investments in 17 and 14 portfolio companies, respectively, that represented 5% or more of the Company's net assets. style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:12pt;text-align:justify;">The Company elected to be treated as a RIC under Subchapter M of the Code starting with its taxable year ended December 31, 2016. The Company currently qualifies and intends to qualify annually for the tax treatment applicable to RICs. A RIC generally is not subject to U.S. federal income taxes on distributed income and gains so long as it meets certain source-of-income and asset diversification requirements and it distributes at least 90% of its net ordinary income and net short-term capital gains in excess of its net long-term capital losses, if any, to its stockholders. So long as the Company maintains its status as a RIC, it generally will not be subject to U.S. federal income tax on any ordinary income or capital gains that it distributes at least annually to its stockholders as dividends. Rather, any tax liability related to income earned by the Company represents obligations of the Company's investors and will not be reflected in the consolidated financial statements of the Company. The Company intends to make sufficient distributions to maintain its RIC status each year and it does not anticipate paying any material United States federal income taxes in the future.</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:12pt;text-align:justify;">Federal income tax regulations differ from U.S. GAAP, therefore distributions in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Differences may be permanent or temporary in nature. Permanent differences are reclassified among capital accounts in the consolidated financial statements to reflect their appropriate tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future.</p><div style="font-size:10pt;font-family:Times New Roman;"><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:12pt;text-align:justify;">The following table sets forth the tax cost basis and the estimated aggregate gross unrealized gain (loss) on investments for federal income tax purposes as of and for the period ended June 30, 2024 and the year ended December 31, 2023 (in thousands):</p> <table style="margin-left:auto;border-spacing:0;table-layout:fixed;width:100.0%;border-collapse:separate;margin-right:auto;"> <tr style="visibility:collapse;"> <td style="width:56.64%;"></td> <td style="width:1.94%;"></td> <td style="width:1.36%;"></td> <td style="width:1%;"></td> <td style="width:16.38%;"></td> <td style="width:1%;"></td> <td style="width:1.94%;"></td> <td style="width:1.36%;"></td> <td style="width:1%;"></td> <td style="width:16.38%;"></td> <td style="width:1%;"></td> </tr> <tr style="height:8pt;background-color:#ffffff;word-break:break-word;white-space:pre-wrap;"> <td style="vertical-align:bottom;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;"> </p></td> <td style="vertical-align:bottom;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;"> </p></td> <td colspan="3" style="vertical-align:bottom;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;">June 30, 2024</p></td> <td style="vertical-align:bottom;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;"> </p></td> <td style="vertical-align:bottom;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;"> </p></td> <td colspan="3" style="vertical-align:bottom;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;">December 31, 2023</p></td> <td style="vertical-align:bottom;text-align:left;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:center;"> </p></td> </tr> <tr style="height:8pt;background-color:#cff0fc;word-break:break-word;"> <td style="white-space:pre-wrap;vertical-align:bottom;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;">Tax cost on investments</p></td> <td style="white-space:pre-wrap;vertical-align:bottom;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;"> </p></td> <td style="white-space:pre-wrap;vertical-align:bottom;border-bottom:2.25pt double #000000;"><p style="font-size:8pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;">$ </td> <td style="white-space:nowrap;vertical-align:bottom;border-bottom:2.25pt double #000000;"> </td> <td style="white-space:pre-wrap;vertical-align:bottom;border-bottom:2.25pt double #000000;text-align:center;"> 1,115,957 </td> <td style="white-space:nowrap;vertical-align:bottom;border-bottom:2.25pt double #ffffff03;"> </td> <td style="white-space:pre-wrap;vertical-align:bottom;"> </td> <td style="white-space:pre-wrap;vertical-align:bottom;border-

style="white-space:nowrap;vertical-align:bottom;border-bottom:2.25pt double #ffffff03;">) </td> </tr> </table> The Company accounts for income taxes in conformity with ASC Topic 740 —Income Taxes ("ASC 740"). ASC 740 provides guidelines for how uncertain tax positions should be recognized, measured, presented and disclosed in consolidated financial statements. ASC 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions deemed to meet a "more-likely-than-not" threshold would be recorded as a tax benefit or expense in the current period. The Company recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense on the Consolidated Statements of Operations. There were no material uncertain income tax positions at June 30, 2024 or December 31, 2023. Although the Company files federal and state tax returns, the Company's major tax jurisdiction is federal. The previous three tax year-ends and the interim tax period since then remain subject to examination by the Internal Revenue Service. If the Company does not distribute (or is not deemed to have distributed) each calendar year the sum of (1) 98% of its net ordinary income for each calendar year, (2) 98.2% of its capital gain net income for the one-year period ending October 31 in that calendar year and (3) any income recognized, but not distributed, in preceding years (the "Minimum Distribution Amount"), the Company will generally be required to pay a U.S. federal excise tax equal to 4% of the amount by which the Minimum Distribution Amount exceeds the distributions for the year. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such taxable income, the Company accrues excise taxes, if any, on estimated excess taxable income as taxable income is earned using an annual effective excise tax rate. The annual effective U.S. federal excise tax rate is determined by dividing the estimated annual excise tax by the estimated annual taxable income. If the Company does not qualify to be treated as a RIC for any taxable year, the Company will be taxed as a regular corporation (a "C corporation") under subchapter C of the Code for such taxable year. If the Company has previously qualified as a RIC but is subsequently unable to qualify, and certain amelioration provisions are not applicable, the Company would be subject to U.S. federal income tax on all of its taxable income (including its net capital gains) at regular corporate rates. The Company would not be able to deduct distributions to stockholders, nor would it be required to make distributions. In order to requalify as a RIC, in addition to the other requirements discussed above, the Company would be required to distribute all of its previously undistributed earnings attributable to the period it failed to qualify by the end of the first year that it intends to requalify. If the Company fails to requalify for a period greater than two taxable years, it may be subject to U.S. federal income tax at corporate tax rates on any net built-in gains with respect to certain of its assets (i.e., the excess of the aggregate gains, including items of income, over aggregate losses that would have been realized with respect to such assets if the Company had been liquidated) that it elects to recognize on requalification or when recognized over the next five years. 0.90 The following table sets forth the tax cost basis and the estimated aggregate gross unrealized gain (loss) on investments for federal income tax purposes as of and for the period ended June 30, 2024 and the year ended December 31, 2023 (in thousands): <table style="margin-left:auto;border-spacing:0;table-layout:fixed;width:100.0%;border-collapse:separate;margin-right:auto;"> <tr style="visibility:collapse;"> <td style="width:56.64%;"></td> <td style="width:1.94%;"></td> <td style="width:1.36%;"></td> <td style="width:1%;"></td> <td style="width:16.38%;"></td> <td style="width:1%;"></td> <td style="width:1.94%;"></td> <td style="width:1.36%;"></td> <td style="width:1%;"></td> <td style="width:16.38%;"></td> <td style="width:1%;"></td> </tr> <tr style="height:8pt;background-color:#ffffff;word-break:break-word;white-space:pre-wrap;"> <td style="vertical-align:bottom;"> </td> <td style="vertical-align:bottom;"> </td> <td colspan="3" style="vertical-align:bottom;text-align:left;"> June 30, 2024 </td> <td style="vertical-align:bottom;text-align:left;"> </td> <td style="vertical-align:bottom;text-align:left;"> </td> <td colspan="3" style="vertical-align:bottom;text-align:left;"> <span style="color:#000000;white-space:pre-wrap;font-

Roman;min-width:fit-content;">On July 17, 2024 the Company increased its commitment to Elevate Services Inc. by $20.0 million, of which $3.0 million was funded at close. On July 30, 2024, the Board of Directors declared a regular distribution of $0.40 per share and a supplemental distribution of <span style="color:#000000;white-space:pre-wrap;font-size:10pt;font-family:Times New Roman;min-width:fit-content;">$0.05 per share for stockholders of record as of August 12, 2024 payable on or before August 26, 2024. On July 30, 2024, the Board of Directors approved a repurchase program (the "New Repurchase Program") under which the Company may repurchase up to $15.0 million of its outstanding common stock. Under the New Repurchase Program, purchases may be made at management's discretion from time to time in open-market transactions, in accordance with all applicable securities laws and regulations. If not renewed, the New Repurchase Program will terminate upon the earlier of (i) July 30, 2025 or (ii) the repurchase of $15.0 million of the Company's shares of common stock. On July 31, 2024, Cloudpay, Inc. prepaid its outstanding principal balance of $75.0 million on the Company's senior secured loan. 20000000 3000000 2024-07-30 0.4 0.05 2024-08-12 2024-08-26 15000000 15000000 75000000 Our investment objective is to maximize total return to our stockholders primarily through current income on our loan portfolio, and secondarily through capital gain on our warrants and other equity positions. We intend to achieve our investment objective by investing in high growth-potential, private companies. We typically invest in senior secured loans that generally fall into two strategies: Sponsored Growth Lending and Non-Sponsored Growth Lending. We generally receive warrants and/or other equity from our investments. We expect our investments in loans will generally range from between $10.0 million to $100.0 million, and the upper end of this range may increase as we raise additional capital. We generate revenue in the form of interest on the debt securities that we hold and distributions and capital gains on other interests that we acquire in our portfolio companies. We expect that the debt we invest in will generally have stated terms of 36 to 60 months. Interest on debt securities is generally payable monthly, primarily based on a floating rate index, and subject to certain floors determined by market rates at the time the investment is made. In some cases, some of our investments may provide for deferred interest payments or PIK interest. The principal amount of the debt securities and any accrued but unpaid interest will become due at the maturity date. Any original issue discount ("OID") or market discount or premium will be capitalized, and we will accrete or amortize such amounts as interest income. We record prepayment fees on debt investments as fee income. Dividend income, if any, will be recognized on an accrual basis to the extent that we expect to collect such amounts. Item 1A. Risk Factors. You should carefully consider the risks described below and all other information contained in this quarterly report on Form 10-Q, including our interim consolidated financial statements and the related notes thereto, before making a decision to purchase our securities. The risks and uncertainties described below are not the only ones we may face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. If any of the following risks actually occur, our business, financial condition or results of operations could be materially adversely affected. If that happens, you may lose all or part of your investment. There have been no material changes known to us during the period ended June 30, 2024 to the risk factors discussed in "Risk Factors" in Part I, Item 1A of our annual report on Form 10-K for the fiscal year ended December 31, 2023, filed with the SEC on March 7, 2024. The risks and uncertainties described in our annual report on Form 10-K are not the only ones we may face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. If any of the risks listed in our annual report on Form 10-K actually occur, our business, financial condition or results of operations could be materially adversely affected. If that happens, you may lose all or part of your investment. For the period covered by this Quarterly Report on Form 10-Q, no director or officer of the Company has entered into any (i) contract, instruction or written plan for the purchase or sale of securities of the registrant intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) under the Exchange Act or (ii) any non-Rule 10b5-1 trading arrangement. false false Gross additions include increases in the basis of investments resulting from new portfolio investments, PIK interest, accretion of OID, the exchange of one or more existing investments for one or more new investments and the movement of an existing portfolio company into this category from a different category. All investments in the portfolio companies, which as of June 30, 2024, represented 10.24% of the Company's net assets, may be deemed to be restricted securities under the Securities Act, and were valued at fair value as determined in good faith by the Company's Board of Directors. Gross additions include increases in the basis of investments resulting from new portfolio investments, PIK interest, accretion of OID, the exchange of one or more existing investments for one or more new investments and the movement of an existing portfolio company into this category from a different category. Gross reductions include decreases in the basis of investments resulting from principal collections related to investment repayments or sales, the exchange of one or more existing investments for one or more new investments and the movement of an existing portfolio company out of this category into a different category. All investments in the portfolio company, which as of December 31, 2023, represented 9.58% of the Company's net assets, may be deemed to be restricted securities under the Securities Act, and were valued at fair value as determined in good faith by the Company's Board of Directors.
