Finance Corp. (the "Company"), is a Maryland corporation that was formed on August 31, 2015. On August 18, 2021, the Company changed its name to "Runway Growth Finance Corp." from "Runway Growth Credit Fund Inc." The Company is an externally managed, non-diversified, closed-end investment company that has elected to be regulated as a business development company ("BDC") under the Investment Company Act of 1940, as amended (the "1940 Act"). In addition, the Company has elected to be treated, currently qualifies, and intends to continue to qualify annually as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"). The Company was formed primarily to lend to, and selectively invest in, high growth-potential companies in technology, healthcare, business services, financial services, select consumer services and products in other high-growth industries in the United States. The Company's investment objective is to maximize its total return to its stockholders primarily through current income on its loan portfolio, and secondarily through capital gain (loss) on its warrants and other equity positions. The Company's investment activities are managed by its external investment adviser, Runway Growth Capital LLC ("RGC"). The Company's administrator, Runway Administrator Services LLC (the "Administrator"), is a wholly owned subsidiary of RGC and provides administrative services necessary for the Company to operate. On October 25, 2021, the Company closed its initial public offering ("IPO"), issuing 6,850,000 shares of its common stock at a public offering price of $14.60 per share. Net of underwriting fees and offering costs, the Company received net proceeds of $93.0 million. The Company's common stock began trading on the Nasdaq Global Select Market LLC on October 21, 2021, under the symbol "RWAY". 6850000 14.6 93000000 Note 2 – Summary of Significant Accounting Policies Basis of Presentation The accompanying interim unaudited consolidated financial statements of the Company are prepared on the accrual basis of accounting in conformity with U.S. Generally Accepted Accounting Principles ("U.S. GAAP") and pursuant to the requirements for reporting on Form 10-Q and Regulation S-X under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The Company is an investment company following the specialized accounting and reporting guidance specified in the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 946, Financial Services — Investment Companies. In the opinion of management, all adjustments, all of which were of a normal recurring nature, considered necessary for the fair presentation of financial statements for the interim period have been included. The results of operations for the current interim period are not necessarily indicative of results that ultimately may be achieved for any other interim period or for the year ending December 31, 2024. The interim unaudited consolidated financial statements and notes hereto should be read in conjunction with the audited consolidated financial statements and notes thereto contained in the Company's annual report on Form 10-K for the year ended December 31, 2023, filed with the Securities and Exchange Commission (the "SEC") on March 7, 2024. Certain items in the June 30, 2023, and December 31, 2023, consolidated financial statements have been reclassified to conform to the June 30, 2024, presentation with no effect on the "Total net assets" on the Consolidated Statements of Assets and Liabilities, no effect on the "Net increase (decrease) in net assets resulting from operations" on the Consolidated Statements of Operations, and no effect to the "Net increase (decrease) in cash and cash equivalents" on the Consolidated Statements of Cash Flows. Principles of Consolidation Under ASC 946, the Company is precluded from consolidating portfolio company investments, including those in which it has a controlling interest, unless the portfolio company is another investment company. An exception to this general principle occurs if the Company holds a controlling interest in an operating company that provides all or substantially all of its services directly to the Company or to its portfolio companies. None of the portfolio investments made by the Company qualify for this exception. Therefore, the Company's investment portfolio is carried on the Consolidated Statements of Assets and Liabilities at fair value, as discussed further in "Note 4 — Investments," with any adjustments to fair value recognized as "Net change in unrealized gain (loss) on investments" on the Consolidated Statements

of Operations. The Company's consolidated operations include the activities of its wholly owned subsidiary, P3 Holdco LLC ("P3 Holdco") and P3 Holdco's wholly owned subsidiary Pivot3, Inc. The subsidiaries are consolidated and included in the Company's consolidated financial statements and the assets of Pivot3, Inc. are recorded at fair value. All intercompany balances and transactions have been eliminated. Refer to the Schedule of Investments for the Company's equity interest in Pivot3, Inc. as of June 30, 2024 and December 31, 2023. Runway-Cadma I LLC As announced on March 7, 2024, effective March 6, 2024, the Company entered into a joint venture agreement with Cadma Capital Partners LLC ("Cadma") to create and co-manage Runway-Cadma I LLC ("Runway-Cadma LLC" or the "JV"). The JV may invest in secured loans to growth-stage companies that have been originated by the Company. The Company and Cadma committed to initially provide $35.0 million and $35.0 million, respectively, of equity capital to the JV. The JV is capitalized as investment transactions are completed. All portfolio decisions and generally all other actions in respect of the JV must be approved by the board of managers of the JV consisting of an equal number of representatives of the Company and Cadma. Capital contributions are called from the Company and Cadma on a pro-rata basis based on their total capital commitments. For more information, refer to "Note 3 – Related Parties." As permitted under Regulation S-X and consistent with the guidance in ASC 946-810-45-3, the Company will generally not consolidate its investment in a company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to the Company. As the Company's representatives do not comprise the majority of the board of managers of the JV and the Company does not hold a majority of the economic interests in the JV, the Company does not consolidate the JV in its consolidated financial statements. Use of Estimates The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of income and expense during the reporting period. Changes in the economic and regulatory environment, financial markets, the credit worthiness of our portfolio companies, and any other parameters used in determining these estimates and assumptions could cause actual results to differ from these estimates and assumptions. Cash and Cash Equivalents Cash consists solely of funds deposited with financial institutions, while cash equivalents consist of short-term liquid investments in money market funds. Cash and cash equivalents are carried at cost, which approximates fair value. As of June 30, 2024 and December 31, 2023, the Company did not have any cash invested in money market funds. Interest earned in money market funds are recorded in "Other income" on the Consolidated Statements of Operations. Debt and Deferred Debt Costs The debt of the Company is carried at amortized cost on the Consolidated Statements of Assets and Liabilities, which is comprised of the principal amount borrowed, net of unamortized debt issuance costs. Debt issuance costs are fees and other direct incremental costs incurred by the Company in relation to debt financing and are amortized over the life of the related debt instrument or the life of the cost respective service, if shorter, using the straight-line method, which closely approximates the effective yield method. Amortization of such debt issuance costs and interest expense on the outstanding principal balance are recorded in "Interest and other debt financing expenses" on the Consolidated Statements of Operations. Debt issuance costs that have not yet been amortized are recorded as "Unamortized deferred debt costs" on the Consolidated Statements of Assets and Liabilities. To the extent there are no outstanding borrowings, the deferred debt costs are presented as an asset on the Consolidated Statements of Assets and Liabilities. Accrued but unpaid interest is included within "Interest payable" on the Consolidated Statements of Assets and Liabilities. For more information, refer to "Note 7 – Borrowings." Segments The Company lends to and invests in customers in various industries. The Company separately evaluates the performance of each of its lending and investment relationships. However, because each of these loan and investment relationships has similar business and economic characteristics, they have been aggregated into a single reportable segment. All applicable segment disclosures are included in or can be derived from the Company's consolidated financial statements. Investment Transactions and Related Investment Income Security transactions, if any, are recorded on a trade-date basis. Realized gains or losses from the repayment or sale of investments are measured using the specific identification method. The amortized cost basis of investments represents the original cost adjusted for the accretion/amortization of discounts and premiums, accretion of contractual end of term payments ("ETP") and upfront loan origination fees. The Company reports changes from the prior period in fair value of investments that are measured at fair value as a component of "Net change in unrealized gain (loss) on investments" on the Consolidated Statements of Operations. Dividend income is recorded on an accrual basis to the extent that such amounts are payable and expected to be collected. Dividend income is recorded on the record date for private portfolio companies and on the ex-dividend date for publicly traded portfolio companies. Interest income, if any, adjusted for amortization of market premium and accretion of market discount, is recorded on an accrual basis to the extent that the Company expects to collect such amounts. Original issue discount ("OID"), principally representing any loan origination fees received in connection with the closing of investments, ETP, market discount or premium, and the estimated fair value of detachable equity, warrants or contractual success fees obtained in conjunction with the Company's debt investments, are capitalized and accreted or amortized into interest income over the life of the respective security using the effective interest method. Upon prepayment of a debt investment, any unamortized loan origination fees, end-of-term payments, and unamortized market discounts are recorded as interest income and any prepayment penalties are recorded as fee income. Upon amending terms of an existing investment, any amendment fees charged are recorded as fee income. The Company currently holds, and expects to hold in the future, some investments in its portfolio that contain PIK interest provisions. PIK interest is computed at the contractual rate specified in each loan agreement and is added to the principal balance of the loan, rather than being paid to the Company in cash, and is recorded as interest income. Thus, the actual collection of PIK interest may be deferred until the time of debt principal repayment. PIK interest, which is a non-cash source of income, is included in the Company's taxable income and therefore affects the amount of income the Company is required to distribute to stockholders to maintain its qualification as a RIC for U.S. federal income tax purposes, even though the Company has not yet collected the cash. For the three and six months ended June 30, 2024, approximately 6.8% and 8.8%, respectively, of the Company's total investment income was attributable to non-cash PIK interest. For the three and six months ended June 30, 2023, approximately 15.3% and 12.6%, respectively, of the Company's total investment income was attributable to non-cash PIK interest. Investments Denominated in Foreign Currency At each balance sheet date, portfolio company investments denominated in foreign currencies are translated into U.S. dollars using the spot exchange rate on the last business day of the period. Purchases and sales of foreign portfolio company investments, and any income from such investments, are translated into U.S. dollars using the rates of exchange prevailing on the respective dates of such transactions. As of June 30, 2024, the Company had two investments denominated in a foreign currency. As of December 31, 2023, the Company held one investment denominated in a foreign currency.   Although the fair values of foreign portfolio company investments and the fluctuation in such fair values are translated into U.S. dollars using the applicable foreign exchange rates described above, the Company does not distinguish the portion of the change in fair value resulting from foreign currency exchange rate fluctuations from the change in fair value of the underlying investment. All fluctuations in fair value are included in "Net change in unrealized gain (loss) on investments" on the Company's Consolidated Statements of Operations. <span style="color:#000000;white-space:pre-wrap;font-

weight:bold;font-size:10pt;font-family:Times New Roman;font-style:italic;min-width:fit-content;">Current Expected Credit Losses</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;">The Company measures current expected credit losses ("CECL") for financial instruments held at amortized cost based on ASC No. 326, Financial Instruments - Credit Losses ("ASC 326"). The Company adopted ASC 326 on January 1, 2020. ASC 326 introduces a new allowance for credit losses methodology and requires earlier recognition of credit losses, while also providing additional transparency about credit risk. The CECL methodology utilizes a lifetime "expected credit loss" methodology for the recognition of credit losses for receivables and loans subject to CECL at the time the financial asset is originated or based on historical experience and current conditions, as well as reasonable and supportable forecasts incorporating forward-looking information. The allowance for credit losses (the "CECL Reserve") required under ASC 326 is deducted from the respective financial asset's amortized cost basis on the Company's Consolidated Statements of Assets and Liabilities. The expected credit losses are adjusted each period for changes in expected lifetime credit losses through a provision for current expected credit losses recognized on the Consolidated Statements of Operations. As permitted by ASC 326, the Company has elected not to measure an allowance for credit losses on accrued interest receivable, but rather write-off in a timely manner by reversing interest income that would likely be uncollectible. </p><p style="font-size:10pt;margin-top:12pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">As of June 30, 2024 and December 31, 2023, the amortized cost basis of financial assets subject to CECL recorded within "Interest and fees receivable" on the Consolidated Statements of Assets and Liabilities was $0.3 million and $2.3 million, respectively. As of June 30, 2024 and December 31, 2023, the Company's interest receivable excluded from the amortized cost basis of financial assets subject to CECL was $5.6 million and $6.0 million, respectively. As of June 30, 2024 and December 31, 2023, the Company had recorded a CECL reserve within "Interest and fees receivable" on the Consolidated Statements of Assets and Liabilities of $0.2 million, and $0, respectively.</p></div></div><div style="font-size:10pt;font-family:Times New Roman;"><p style="font-size:10pt;margin-top:18pt;font-family:Times New Roman;margin-bottom:12pt;text-align:left;">Non-Accrual of Investments</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:12pt;text-align:justify;">Debt investments are placed on non-accrual status when principal, interest, and other obligations become materially past due or when it is probable that principal, interest, or other obligations will not be collected in full. At the point of non-accrual, the Company will cease recognizing interest income on the debt investment until all principal and interest due have been paid or the Company believes the borrower has demonstrated the ability to repay its current and future contractual obligations. Additionally, any OID associated with the debt investment is no longer accreted to interest income as of the date the loan is placed on non-accrual status. Any payments received on non-accrual loans are first applied to principal prior to recovery of any foregone interest or end of term payment fees. Non-accrual loans are restored to accrual status when past due principal or interest are paid, and, in management's judgment are likely to remain current. The Company may make exceptions to this policy if the investment has sufficient collateral value and is in the process of collection such that the Company will be made whole on the investment, inclusive of interest and end of term payment fees.</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:12pt;text-align:justify;">As of June 30, 2024, the Company had two senior secured term loans on non-accrual status; one loan to Mingle Healthcare Solutions, Inc. with a cost basis of $5.0 million and a fair value of $3.1 million, and one loan to Snagajob, Inc., with a cost basis of $42.7 million and a fair value of $30.0 million, representing 3.1% of the Company's total investment portfolio. From being placed on non-accrual status through June 30, 2024, cumulative interest of $0.4 million would be receivable from Mingle Healthcare Solutions, Inc. and not recorded in "Interest income" on the Consolidated Statements of Operations. From being placed on non-accrual status through June 30, 2024, cumulative interest of $1.8 million would be receivable from Snagajob, Inc. and $0.1 million OID would be accreted into the cost basis, for a total of $1.9 million not recorded in "Interest income" on the Consolidated Statements of Operations. As of December 31, 2023, the Company did not have any loans on non-accrual status. As of June 30, 2024, the Company had reversed interest income of $0.3 million related to the senior secured term loans. As of December 31, 2023, the Company had not reversed any accrued and uncollected interest income related to the senior secured term loans.</p></div><div style="font-size:10pt;font-family:Times New Roman;"><p style="font-size:10pt;margin-top:18pt;font-family:Times New Roman;margin-bottom:12pt;text-align:left;">Fair Value Measurements</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:12pt;text-align:justify;">The Company measures the value of its financial instruments at fair value in accordance with ASC Topic 820, Fair Value Measurements and Disclosure ("ASC Topic 820"), issued by the FASB. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's investment portfolio is reported at fair value on the Consolidated Statements of Assets and Liabilities. All assets and liabilities approximate fair value on the Consolidated Statements of Assets and Liabilities, with the exception of the Company's borrowings, which are reported at amortized cost. For more information on financial instruments reported at cost, refer to "Note 5 – Fair Value of Financial Instruments."</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:6pt;text-align:justify;">ASC Topic 820 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. ASC Topic 820 also provides guidance regarding a fair value hierarchy, which prioritizes information used to measure fair value and the effect of fair value measurements on earnings and provides for enhanced disclosures determined by the level within the hierarchy of information used in the valuation. In accordance with ASC Topic 820, these inputs are summarized in the three levels listed below:</p><div class="item-list-element-wrapper" style="margin-left:3.333%;display:flex;margin-top:0;justify-content:flex-start;align-items:baseline;margin-bottom:6pt;min-width:3.333%;text-align:justify;">•<div style="width:100%;display:inline;">Level 1—Valuations are based on quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.</div></div><div class="item-list-element-wrapper" style="margin-left:3.333%;display:flex;margin-top:0;justify-content:flex-start;align-items:baseline;margin-bottom:6pt;min-width:3.333%;text-align:justify;">•<div style="width:100%;display:inline;"><span style="color:#000000;white-space:pre-wrap;font-size:10pt;font-family:Times New Roman;min-width:fit-content;">Level 2—Valuations are based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly and model-based valuation techniques for which all significant

inputs are observable. • Level 3—Valuations based on inputs that are unobservable and significant to the overall fair value measurement. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models incorporating significant unobservable inputs, such as discounted cash flow models and other similar valuations techniques. The valuation of Level 3 assets and liabilities generally requires significant management judgment due to the inability to observe inputs to valuation. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, a financial instrument's level within the fair value hierarchy is based on the lowest level of observable input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the instrument. Under ASC Topic 820, the fair value measurement also assumes that the transaction to sell an asset or liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset, which may be a hypothetical market, and excludes transaction costs. The principal market for any asset or liability is the market with the greatest volume and level of activity for such asset or liability in which the reporting entity would or could sell or transfer the asset or liability. In determining the principal market for an asset or liability under ASC Topic 820, it is assumed that the reporting entity has access to such market as of the measurement date. Market participants are defined as buyers and sellers in the principal or most advantageous market that are independent, knowledgeable and willing and able to transact. Rule 2a-5 under the 1940 Act established additional requirements for determining the fair value of a BDC's investments in good faith for purposes of the 1940 Act. Rule 2a-5 permits boards, in compliance with certain conditions, to designate certain parties to perform fair value determinations, subject to board oversight. Rule 2a-5 also defines when market quotations are "readily available" for purposes of the 1940 Act and the threshold for determining whether a fund must determine the fair value of a security. Rule 31a-4 under the 1940 Act established additional recordkeeping requirements related to fair value determinations. Although the Company adopted certain revisions to its valuation policies and procedures to comply with Rule 2a-5 and Rule 31a-4, the Company's board of directors (the "Board of Directors") has not elected to designate a valuation designee. Investment Valuation Techniques With respect to investments for which market quotations are not readily available, the Company undertakes a multi-step valuation process each quarter, as described below: • The quarterly valuation process begins with each portfolio company investment being initially valued by RGC's investment professionals that are responsible for the portfolio investment; • Preliminary valuation conclusions are then documented and discussed with RGC's senior investment team; • At least once annually, the valuation for each portfolio investment is reviewed by an independent valuation firm. Certain investments, however, may not be evaluated annually by an independent valuation firm if the net asset value and other aspects of such investments in the aggregate do not exceed certain thresholds; • The Audit Committee of the Board of Directors (the "Audit Committee") then reviews these preliminary valuations from RGC and the independent valuation firm, if any, and makes a recommendation to the Board of Directors regarding such valuations; and • The Board of Directors reviews the recommended preliminary valuations and determines the fair value of each investment in the Company's portfolio, in good faith, based on the input of RGC, the independent valuation firm(s) and the Audit Committee. The Company's investments are primarily loans made to and equity and warrants of small, fast-growing companies focused in technology, healthcare, business services, and other high-growth industries. These investments are considered Level 3 assets under ASC Topic 820 because there is no known or accessible market or market indices for these types of debt and equity instruments and, thus, RGC's senior investment team must estimate the fair value of these investment securities based on models utilizing unobservable inputs. The Audit Committee assists the Board of Directors in valuing investments that are not publicly traded or for which current market values are not readily available. Investments for which market quotations are readily available are valued using market quotations, which are generally obtained from independent pricing services, broker-dealers or market makers. With respect to portfolio investments for which market quotations are not readily available, the Board of Directors, with the assistance of the Audit Committee, RGC and its senior investment team and independent valuation agents, is responsible for determining, in good faith, the fair value in accordance with the valuation policy approved by the Board of Directors. If more than one valuation method is used to measure fair value, the results are evaluated and weighted, as appropriate, considering the reasonableness of the range indicated by those results. The Company considers a range of fair values based upon the valuation techniques utilized and selects the value within that range that was most representative of fair value based on current market conditions as well as other factors RGC's senior investment team considers relevant. The Board of Directors makes this fair value determination on a quarterly basis and any other time when a decision regarding the fair value of the portfolio investments is required. A determination of fair value involves subjective judgments and estimates and depends on the facts and circumstances. Due to the inherent uncertainty of determining the fair value of portfolio investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a readily available market value existed for such investments, and the differences could be material. Valuation methodologies involve a significant degree of judgment. There is no single standard for determining the fair value of investments that do not have an active public market. Valuations of privately held investments are inherently uncertain, as they are based on estimates, and their values may fluctuate over time. The determination of fair value may differ materially from the values that would have been used if an active market for these investments existed. In some cases, the fair value of such investments is best expressed as a range of values derived utilizing different methodologies from which a fair value may then be determined. Debt Investments To determine the fair value of the Company's debt investments, the Company compares the cost basis of the debt investment, which includes OID, to the resulting fair value determined using a discounted cash flow model, unless another model is more appropriate based on the circumstances at the measurement date. The discounted cash flow approach entails analyzing the interest rate spreads for recently completed financing transactions that are similar in nature to the Company's investments, in order to determine a comparable range of effective market interest rates for its investments. The range of interest rate spreads utilized is based on borrowers with similar credit profiles. All remaining expected cash flows of the investment are discounted using this range of interest rates to determine a range of fair values for the debt investment. This valuation process includes, among other things, evaluating the underlying investment performance, the portfolio company's current financial condition and ability to raise additional capital, as well as macro-economic events that may impact valuations. These events include, but are not limited to, current market yields and interest rate spreads of similar securities as of the measurement date. Significant increases (decreases) in these unobservable inputs could result in significantly higher (lower) fair value measurements. Under certain circumstances, the Company may use an alternative technique to value the debt investments to be acquired by the Company that better reflects the fair value of the investment, such as the price paid or realized in a recently completed transaction or a binding offer received in an arms-length transaction, the use of multiple probability-weighted cash flow models when the expected future cash flows contain elements of variability or estimates of proceeds that would be received in a liquidation scenario. Warrants Fair value of warrants is primarily determined using a Black Scholes option-pricing model. Privately held warrants and equity-related securities are valued based on an analysis of various factors including, but not limited to, the following: • Underlying enterprise value of the issuer is estimated based on information available, including any information regarding the most recent rounds of issuer funding. Valuation techniques to determine enterprise value include market multiple approaches, income approaches or approaches that utilize recent rounds of financing and the portfolio company's capital structure to determine enterprise value. Valuation techniques are also utilized to allocate the enterprise fair value of a portfolio company to the specific class of common or preferred stock exercisable in the warrant. Such techniques take into account the rights and preferences of the portfolio company's securities, expected exit scenarios, and volatility associated with such outcomes to allocate the fair value to the specific class of stock held in the portfolio. Such techniques include Option Pricing Models, or "OPM," including back-solve techniques, Probability Weighted Expected Return Models, or "PWERM," and other techniques as determined to be appropriate. • <span style="color:#000000;white-space:pre-

wrap;font-size:10pt;font-family:Times New Roman;min-width:fit-content;">Volatility, or the amount of uncertainty or risk about the size of the changes in the warrant price, is based on comparable publicly traded companies within indices similar in nature to the underlying company issuing the warrant. Significant increases (decreases) in this unobservable input could result in a significantly lower (higher) fair value, but a significantly higher or lower fair value measurement of any of the Company's portfolio investments may occur regardless of whether there is a significant increase or decrease in this unobservable input. • The risk-free interest rates are derived from the U.S. Treasury yield curve. The risk-free interest rates are calculated based on a weighted average of the risk-free interest rates that correspond closest to the expected remaining life of the warrant. Significant increases (decreases) in this unobservable input could result in a significantly higher (lower) fair value, but a significantly higher or lower fair value measurement of any of the Company's portfolio investments may occur regardless of whether there is a significant increase (decrease) in this unobservable input. • Other adjustments, including a marketability discount on private company warrants, are estimated based on judgment about the general industry environment. Significant increases (decreases) in this unobservable input could result in a significantly lower (higher) fair value, but a significantly higher or lower fair value measurement of any of the Company's portfolio investments may occur regardless of whether there is a significant increase (decrease) in this unobservable input. • Historical portfolio experience on cancellations and exercises of warrants are utilized as the basis for determining the estimated life of the warrants in each financial reporting period. Warrants may be exercised in the event of acquisitions, mergers or initial public offerings, and cancelled due to events such as bankruptcies, restructuring activities or additional financings. These events cause the expected remaining life assumption to be shorter than the contractual term of the warrants. Significant increases (decreases) in this unobservable input could result in a significantly higher (lower) fair value, but a significantly higher or lower fair value measurement of any of the Company's portfolio investments may occur regardless of whether there is a significant increase (decrease) in this unobservable input. Success fees are valued utilizing a scenario analysis. Fair value is determined based the potential success fee proceeds under varied timing of liquidity events during the life of the success fee agreement. At each potential exit scenario, a probability is ascribed based on the current expectations of an exit event for the portfolio company. The probability weighted value at each respective exit date is discounted to a present value and summed together to arrive at the fair value. Under certain circumstances, the Company may use an alternative technique to value warrants that better reflects the warrants' fair values, such as an expected settlement of a warrant in the near term, a model that incorporates a put feature associated with the warrant, or the price paid or realized in a recently completed transaction or binding offer received in an arms-length transaction. The fair value may be determined based on the expected proceeds to be received from such settlement or based on the net present value of the expected proceeds from the put option. Equity Investments The fair value of an equity investment in a privately held company is initially the face value of the amount invested. The Company adjusts the fair value of equity investments in private companies upon the completion of a new third-party round of equity financing subsequent to the Company's investment. The Company may make adjustments to fair value, absent a new equity financing event, based upon positive or negative changes in a portfolio company's financial or operational performance. The Company may also reference comparable transactions and/or secondary market transactions in connection with its determination of fair value. The fair value of an equity investment in a publicly traded company is based upon the closing public share price on the date of measurement. These assets are recorded at fair value on a recurring basis. Money market funds are valued based on the published net asset value per share on the day of valuation and are included in "Cash and cash equivalents" on the Consolidated Statements of Assets and Liabilities. Investment Classification The Company classifies its investments by level of affiliation and control. As defined in the 1940 Act, investee companies are deemed as affiliated investments when a company or individual possesses, or has the right to acquire within 60 days or less, beneficial ownership of 5.0% or more of the outstanding voting securities of an investee company. Control investments are those where the investor has the ability or power to exercise a controlling influence over the management or policies of an investee company. Control is generally deemed to exist when a company or individual possesses, or has the right to acquire within 60 days or less, beneficial ownership of more than 25.0% of the outstanding voting securities of an investee company, or maintains greater than 50% representation on the investee company's board of directors. Investments are recognized when the Company assumes an obligation to acquire a financial instrument and assumes the risks for gains or losses related to that instrument. Investments are derecognized when the Company assumes an obligation to sell a financial instrument and foregoes the risks for gains or losses related to that instrument. Specifically, the Company records all security transactions on a trade date basis. Investments in other, non-security financial instruments, such as limited partnerships or private companies, are recorded on the basis of subscription date or redemption date, as applicable. Amounts for investments recognized or derecognized but not yet settled will be reported as receivables for investments sold and payables for investments acquired, respectively, on the Consolidated Statements of Assets and Liabilities. Income Taxes The Company elected to be treated as a RIC under Subchapter M of the Code beginning with its taxable year ended December 31, 2016, currently qualifies as a RIC, and intends to qualify annually for the tax treatment applicable to RICs. A RIC generally is not subject to U.S. federal income taxes on distributed income and gains so long as it meets certain source-of-income and asset diversification requirements and it distributes at least 90% of its net ordinary income and net short-term capital gains in excess of its net long-term capital losses, if any, to its stockholders. So long as the Company maintains its status as a RIC, it generally will not be subject to U.S. federal income tax on any ordinary income or capital gains that it distributes at least annually to its stockholders as dividends. Rather, any tax liability related to income earned by the Company represents obligations of the Company's investors and will not be reflected in the consolidated financial statements of the Company. The Company intends to make sufficient distributions to maintain its RIC status each year and it does not anticipate paying any material U.S. federal income taxes in the future. Depending on the level of taxable income earned in a tax year, the Company may choose to carry forward such taxable income in excess of current year dividend distributions from such current year taxable income into the next tax year and pay a 4% excise tax on such income, as required. If the Company determines that the estimated current year taxable income will exceed the estimated dividend distributions for the current year from such income, the Company accrues excise tax on estimated excess taxable income as such taxable income is earned. Differences between taxable income and net increase in net assets resulting from operations either can be temporary, meaning they will reverse in the future, or permanent. In accordance with Section 946-205-45-3 of the ASC, permanent tax differences are reclassified from accumulated undistributed earnings to paid-in-capital at the end of each year and have no impact on total net assets. For more information, refer to "Note 10 – Income Taxes." Per Share Information Basic and diluted earnings (loss) per common share is calculated using the weighted-average number of common shares outstanding for the period presented. For the three and six months ended June 30, 2024 and 2023, basic and diluted earnings (loss) per share of common stock were the same because there were no potentially dilutive securities outstanding. Per share data is based on the weighted-average shares outstanding. Comprehensive Income The Company reports all changes in comprehensive income in the Consolidated Statements of Operations. The Company did not have any other comprehensive income in 2024 or 2023. The Company's comprehensive income is equal to its "Net increase (decrease) in net assets resulting from operations" on the Consolidated Statements of Operations. Distributions Distributions to common stockholders are recorded on the applicable record date. The amount, if any, to be distributed to common stockholders is determined by the Board of Directors each quarter and is generally based upon the Company's earnings estimated by management. Net realized capital gains, if any, are generally distributed at least annually. For more information, refer to "Note 9 – Net Assets." <p style="font-size:10pt;margin-top:16pt;font-family:Times New

Roman;margin-bottom:10pt;text-align:left;">Organization and Offering Costs Organization costs include, among other things, the cost of organizing as a Maryland corporation, including the cost of legal services and other fees pertaining to the Company's organization, all of which are expensed as incurred. Offering costs include, among other things, legal fees and other costs pertaining to the preparation of the Company's public and private offering materials as well as travel-related expenses related to the Company's public and private offerings. Pursuant to the Advisory Agreement (as defined in "Note 3 – Related Party Agreements and Transactions"), the Company and RGC agreed that organization and offering costs incurred in connection with the Initial Private Offering (as defined in "Note 9 – Net Assets") would be borne by the Company up to a maximum amount of $1.0 million, provided that the amount of such costs in excess of $1.0 million would be paid by RGC. In 2016, the Company incurred the maximum amount of $1.0 million in organization and offering costs incurred in connection with the Initial Private Offering. Offering costs related to the Second Private Offering (as defined in "Note 9 – Net Assets") were accumulated and charged to additional paid in capital at the time of each closing beginning in 2019. These offering costs related to the Second Private Offering were subject to a cap of $0.6 million, excluding placement agent fees which had no cap and therefore the Company will bear such cost. At the completion of the Second Private Offering, the Company had accumulated and recorded $0.7 million in offering costs and $0.2 million in placement agent fees related to the Second Private Offering. Under the terms of the Second Private Offering, offering costs in excess of $0.6 million, excluding placement agent fees, were reimbursed by RGC. The Company had accumulated and recorded $7.0 million of offering costs related to the IPO, which were charged to additional paid in capital at the time of closing in October 2021. The offering costs were fully born by the Company and included underwriting fees, legal fees, and other costs pertaining to the preparation of the Company's offering materials as well as travel-related expenses. Recently Adopted Accounting Pronouncements In June 2022, the FASB issued ASU 2022-03, "Fair Value Measurement (Topic 820) - Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions", which was issued to (1) clarify the guidance in Topic 820, Fair Value Measurement, when measuring the fair value of an equity security subject to contractual restrictions that prohibit the sale of an equity security, (2) to amend a related illustrative example, and (3) to introduce new disclosure requirements for equity securities subject to contractual sale restrictions that are measured at fair value in accordance with Topic 820. The new guidance is effective for interim and annual periods beginning after December 15, 2023. The Company adopted the guidance on January 1, 2024, and its adoption did not have a material impact on the Company's financial statements. Recently Issued Accounting Pronouncements In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures ("ASU 2023-07"). This change is intended to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses, allowing financial statement users to better understand the components of a segment's profit or loss and assess potential future cash flows for each reportable segment and the entity as a whole. The amendments expand a public entity's segment disclosures by requiring disclosure of significant segment expenses that are regularly provided to the chief operating decision maker, clarifying when an entity may report one or more additional measures to assess segment performance, requiring enhanced interim disclosures and providing new disclosure requirements for entities with a single reportable segment, among other new disclosure requirements. The amendments are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, and early adoption is permitted. Although the ASU only requires additional disclosure about the Company's operating segment, the Company is currently evaluating the impact of adopting this guidance with respect to the consolidated financial statements. In December 2023, the FASB issued ASU 2023-09 "Income Taxes (Topics 740): Improvements to Income Tax Disclosures" to expand the disclosure requirements for income taxes, specifically related to the rate reconciliation and income taxes paid. ASU 2023-09 is effective for our annual periods beginning January 1, 2025, with early adoption permitted. We are currently evaluating the potential effect that the updated standard will have on our financial statement disclosures. Basis of Presentation The accompanying interim unaudited consolidated financial statements of the Company are prepared on the accrual basis of accounting in conformity with U.S. Generally Accepted Accounting Principles ("U.S. GAAP") and pursuant to the requirements for reporting on Form 10-Q and Regulation S-X under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The Company is an investment company following the specialized accounting and reporting guidance specified in the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 946, Financial Services — Investment Companies. In the opinion of management, all adjustments, all of which were of a normal recurring nature, considered necessary for the fair presentation of financial statements for the interim period have been included. The results of operations for the current interim period are not necessarily indicative of results that ultimately may be achieved for any other interim period or for the year ending December 31, 2024. The interim unaudited consolidated financial statements and notes hereto should be read in conjunction with the audited consolidated financial statements and notes thereto contained in the Company's annual report on Form 10-K for the year ended December 31, 2023, filed with the Securities and Exchange Commission (the "SEC") on March 7, 2024. Certain items in the June 30, 2023, and December 31, 2023, consolidated financial statements have been reclassified to conform to the June 30, 2024, presentation with no effect on the "Total net assets" on the Consolidated Statements of Assets and Liabilities, no effect on the "Net increase (decrease) in net assets resulting from operations" on the Consolidated Statements of Operations, and no effect to the "Net increase (decrease) in cash and cash equivalents" on the Consolidated Statements of Cash Flows. Principles of Consolidation Under ASC 946, the Company is precluded from consolidating portfolio company investments, including those in which it has a controlling interest, unless the portfolio company is another investment company. An exception to this general principle occurs if the Company holds a controlling interest in an operating company that provides all or substantially all of its services directly to the Company or to its portfolio companies. None of the portfolio investments made by the Company qualify for this exception. Therefore, the Company's investment portfolio is carried on the Consolidated Statements of Assets and Liabilities at fair value, as discussed further in "Note 4 — Investments," with any adjustments to fair value recognized as "Net change in unrealized gain (loss) on investments" on the Consolidated Statements of Operations. The Company's consolidated operations include the activities of its wholly owned subsidiary, P3 Holdco LLC ("P3 Holdco") and P3 Holdco's wholly owned subsidiary Pivot3, Inc. The subsidiaries are consolidated and included in the Company's consolidated financial statements and the assets of Pivot3, Inc. are recorded at fair value. All intercompany balances and transactions have been eliminated. Refer to the Schedule of Investments for the Company's equity interest in Pivot3, Inc. as of June 30, 2024 and December 31, 2023. Runway-Cadma I LLC As announced on March 7, 2024, effective March 6, 2024, the Company entered into a joint venture agreement with Cadma Capital Partners LLC ("Cadma") to create and co-manage Runway-Cadma I LLC ("Runway-Cadma LLC" or the "JV"). The JV may invest in secured loans to growth-stage companies that have been originated by the Company. The Company and Cadma committed to initially provide $35.0 million and $35.0 million, respectively, of equity capital to the JV. The JV is capitalized as investment transactions are completed. All portfolio decisions and generally all other actions in respect of the JV must be approved by the board of managers of the JV consisting of an equal number of representatives of the Company and Cadma. Capital

contributions are called from the Company and Cadma on a pro-rata basis based on their total capital commitments. For more information, refer to "Note 3 – Related Parties." As permitted under Regulation S-X and consistent with the guidance in ASC 946-810-45-3, the Company will generally not consolidate its investment in a company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to the Company. As the Company's representatives do not comprise the majority of the board of managers of the JV and the Company does not hold a majority of the economic interests in the JV, the Company does not consolidate the JV in its consolidated financial statements.
35000000 35000000 Use of Estimates The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of income and expense during the reporting period. Changes in the economic and regulatory environment, financial markets, the credit worthiness of our portfolio companies, and any other parameters used in determining these estimates and assumptions could cause actual results to differ from these estimates and assumptions. Cash and Cash Equivalents Cash consists solely of funds deposited with financial institutions, while cash equivalents consist of short-term liquid investments in money market funds. Cash and cash equivalents are carried at cost, which approximates fair value. As of June 30, 2024 and December 31, 2023, the Company did not have any cash invested in money market funds. Interest earned in money market funds are recorded in "Other income" on the Consolidated Statements of Operations. 0 0 Debt and Deferred Debt Costs The debt of the Company is carried at amortized cost on the Consolidated Statements of Assets and Liabilities, which is comprised of the principal amount borrowed, net of unamortized debt issuance costs. Debt issuance costs are fees and other direct incremental costs incurred by the Company in relation to debt financing and are amortized over the life of the related debt instrument or the life of the cost respective service, if shorter, using the straight-line method, which closely approximates the effective yield method. Amortization of such debt issuance costs and interest expense on the outstanding principal balance are recorded in "Interest and other debt financing expenses" on the Consolidated Statements of Operations. Debt issuance costs that have not yet been amortized are recorded as "Unamortized deferred debt costs" on the Consolidated Statements of Assets and Liabilities. To the extent there are no outstanding borrowings, the deferred debt costs are presented as an asset on the Consolidated Statements of Assets and Liabilities. Accrued but unpaid interest is included within "Interest payable" on the Consolidated Statements of Assets and Liabilities. For more information, refer to "Note 7 – Borrowings." Segments The Company lends to and invests in customers in various industries. The Company separately evaluates the performance of each of its lending and investment relationships. However, because each of these loan and investment relationships has similar business and economic characteristics, they have been aggregated into a single reportable segment. All applicable segment disclosures are included in or can be derived from the Company's consolidated financial statements. Investment Transactions and Related Investment Income Security transactions, if any, are recorded on a trade-date basis. Realized gains or losses from the repayment or sale of investments are measured using the specific identification method. The amortized cost basis of investments represents the original cost adjusted for the accretion/amortization of discounts and premiums, accretion of contractual end of term payments ("ETP") and upfront loan origination fees. The Company reports changes from the prior period in fair value of investments that are measured at fair value as a component of "Net change in unrealized gain (loss) on investments" on the Consolidated Statements of Operations. Dividend income is recorded on an accrual basis to the extent that such amounts are payable and expected to be collected. Dividend income is recorded on the record date for private portfolio companies and on the ex-dividend date for publicly traded portfolio companies. Interest income, if any, adjusted for amortization of market premium and accretion of market discount, is recorded on an accrual basis to the extent that the Company expects to collect such amounts. Original issue discount ("OID"), principally representing any loan origination fees received in connection with the closing of investments, ETP, market discount or premium, and the estimated fair value of detachable equity, warrants or contractual success fees obtained in conjunction with the Company's debt investments, are capitalized and accreted or amortized into interest income over the life of the respective security using the effective interest method. Upon prepayment of a debt investment, any unamortized loan origination fees, end-of-term payments, and unamortized market discounts are recorded as interest income and any prepayment penalties are recorded as fee income. Upon amending terms of an existing investment, any amendment fees charged are recorded as fee income. The Company currently holds, and expects to hold in the future, some investments in its portfolio that contain PIK interest provisions. PIK interest is computed at the contractual rate specified in each loan agreement and is added to the principal balance of the loan, rather than being paid to the Company in cash, and is recorded as interest income. Thus, the actual collection of PIK interest may be deferred until the time of debt principal repayment. PIK interest, which is a non-cash source of income, is included in the Company's taxable income and therefore affects the amount of income the Company is required to distribute to stockholders to maintain its qualification as a RIC for U.S. federal income tax purposes, even though the Company has not yet collected the cash. For the three and six months ended June 30, 2024, approximately 6.8% and 8.8%, respectively, of the Company's total investment income was attributable to non-cash PIK interest. For the three and six months ended June 30, 2023, approximately 15.3% and 12.6%, respectively, of the Company's total investment income was attributable to non-cash PIK interest. 0.068 0.088 0.153 0.126 Investments Denominated in Foreign Currency At each balance sheet date, portfolio company investments denominated in foreign currencies are translated into U.S. dollars using the spot exchange rate on the last business day of the period. Purchases and sales of foreign portfolio company investments, and any income from such investments, are translated into U.S. dollars using the rates of exchange prevailing on the respective dates of such transactions. As of June 30, 2024, the Company had two investments denominated in a foreign currency. As of December 31, 2023, the Company held one investment denominated in a foreign currency. Although the fair values of foreign portfolio company investments and the fluctuation in such fair values are translated into U.S. dollars using the applicable foreign exchange rates described above, the Company does not distinguish the portion of the change in fair value resulting from foreign currency exchange rate fluctuations from the change in fair value of the underlying investment. All fluctuations in fair value are included in "Net change in unrealized gain (loss) on investments" on the Company's Consolidated Statements of Operations. Current Expected Credit Losses The Company measures current expected credit losses ("CECL") for financial instruments held at amortized cost based on ASC No. 326, Financial Instruments – Credit Losses ("ASC 326"). The Company adopted ASC 326 on January 1, 2020. ASC 326 introduces a new allowance for credit losses methodology and requires earlier recognition of credit losses, while also providing additional transparency about credit risk. The CECL methodology utilizes a lifetime "expected credit loss" methodology for the recognition of credit losses for receivables and loans subject to CECL at the time the financial asset is originated or based on historical experience and current conditions, as well as reasonable and supportable forecasts incorporating forward-looking information. The allowance for credit losses (the "CECL Reserve") required under ASC 326 is deducted from the respective financial asset's amortized cost basis on the Company's Consolidated Statements of Assets and Liabilities. The expected credit losses are adjusted each period for changes in expected lifetime credit losses through a provision for current expected credit losses recognized on the Consolidated Statements of Operations. As permitted by ASC 326, the Company has elected not to measure an allowance for credit losses on accrued interest receivable, but rather write-off in a timely manner by reversing interest income that would likely be uncollectible. As of June 30, 2024 and December 31, 2023, the amortized cost basis of financial assets subject to CECL recorded within "Interest and fees receivable" on the Consolidated Statements of Assets and Liabilities was $0.3 million and $2.3<span style="color:#000000;white-space:pre-wrap;font-size:10pt;font-family:Times

New Roman;min-width:fit-content;"> million, respectively. As of June 30, 2024 and December 31, 2023, the Company's interest receivable excluded from the amortized cost basis of financial assets subject to CECL was $5.6 million and $6.0 million, respectively. As of June 30, 2024 and December 31, 2023, the Company had recorded a CECL reserve within "Interest and fees receivable" on the Consolidated Statements of Assets and Liabilities of $0.2 million, and $0, respectively.</p></div> <p style="font-size:10pt;margin-top:18pt;font-family:Times New Roman;margin-bottom:12pt;text-align:left;">Current Expected Credit Losses</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:0;text-align:left;">The Company measures current expected credit losses ("CECL") for financial instruments held at amortized cost based on ASC No. 326, Financial Instruments - Credit Losses ("ASC 326"). The allowance for credit losses (the "CECL Reserve") required under ASC 326 is deducted from the respective financial asset's amortized cost basis on the Company's Consolidated Statements of Assets and Liabilities. The expected credit losses are adjusted each period for changes in expected lifetime credit losses through a provision for current expected credit losses recognized on the Consolidated Statements of Operations. As permitted by ASC 326, the Company has elected not to measure an allowance for credit losses on accrued interest receivable, but rather write-off in a timely manner by reversing interest income that would likely be uncollectible. </p><p style="font-size:10pt;margin-top:12pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">As of June 30, 2024 and December 31, 2023, the amortized cost basis of financial assets subject to CECL recorded within "Interest and fees receivable" on the Consolidated Statements of Assets and Liabilities was $0.3 million and $2.3 million, respectively. As of June 30, 2024 and December 31, 2023, the Company's interest receivable excluded from the amortized cost basis of financial assets subject to CECL was $5.6 million and $6.0 million, respectively. As of June 30, 2024 and December 31, 2023, the Company had recorded a CECL reserve within "Interest and fees receivable" on the Consolidated Statements of Assets and Liabilities of $0.2 million, and $0, respectively.</p> 300000 2300000 5600000 6000000 200000 0 <p style="font-size:10pt;margin-top:18pt;font-family:Times New Roman;margin-bottom:12pt;text-align:left;">Non-Accrual of Investments</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:12pt;text-align:justify;">Debt investments are placed on non-accrual status when principal, interest, and other obligations become materially past due or when it is probable that principal, interest, or other obligations will not be collected in full. At the point of non-accrual, the Company will cease recognizing interest income on the debt investment until all principal and interest due have been paid or the Company believes the borrower has demonstrated the ability to repay its current and future contractual obligations. Additionally, any OID associated with the debt investment is no longer accreted to interest income as of the date the loan is placed on non-accrual status. Any payments received on non-accrual loans are first applied to principal prior to recovery of any foregone interest or end of term payment fees. Non-accrual loans are restored to accrual status when past due principal or interest are paid, and, in management's judgment are likely to remain current. The Company may make exceptions to this policy if the investment has sufficient collateral value and is in the process of collection such that the Company will be made whole on the investment, inclusive of interest and end of term payment fees.</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:12pt;text-align:justify;">As of June 30, 2024, the Company had two senior secured term loans on non-accrual status; one loan to Mingle Healthcare Solutions, Inc. with a cost basis of $5.0 million and a fair value of $3.1 million, and one loan to Snagajob, Inc., with a cost basis of $42.7 million and a fair value of $30.0 million, representing 3.1% of the Company's total investment portfolio. From being placed on non-accrual status through June 30, 2024, cumulative interest of $0.4 million would be receivable from Mingle Healthcare Solutions, Inc. and not recorded in "Interest income" on the Consolidated Statements of Operations. From being placed on non-accrual status through June 30, 2024, cumulative interest of $1.8 million would be receivable from Snagajob, Inc. and $0.1 million OID would be accreted into the cost basis, for a total of $1.9 million not recorded in "Interest income" on the Consolidated Statements of Operations. As of December 31, 2023, the Company did not have any loans on non-accrual status. As of June 30, 2024, the Company had reversed interest income of $0.3 million related to the senior secured term loans. As of December 31, 2023, the Company had not reversed any accrued and uncollected interest income related to the senior secured term loans.</p> 2 1 5000000 3100000 1 42700000 30000000 0.031 400000 1800000 100000 1900000 300000 <p style="font-size:10pt;margin-top:18pt;font-family:Times New Roman;margin-bottom:12pt;text-align:left;">Fair Value Measurements</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:12pt;text-align:justify;"><span style="color:#000000;white-space:pre-wrap;font-size:10pt;font-family:Times New Roman;min-width:fit-content;">The Company measures the value of its financial instruments at fair value in accordance with ASC Topic 820, Fair Value Measurements and Disclosure ("ASC Topic 820"), issued by the FASB. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's investment portfolio is reported at fair value on the Consolidated Statements of Assets and Liabilities. All assets

and liabilities approximate fair value on the Consolidated Statements of Assets and Liabilities, with the exception of the Company's borrowings, which are reported at amortized cost. For more information on financial instruments reported at cost, refer to "Note 5 – Fair Value of Financial Instruments." ASC Topic 820 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. ASC Topic 820 also provides guidance regarding a fair value hierarchy, which prioritizes information used to measure fair value and the effect of fair value measurements on earnings and provides for enhanced disclosures determined by the level within the hierarchy of information used in the valuation. In accordance with ASC Topic 820, these inputs are summarized in the three levels listed below: • Level 1—Valuations are based on quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date. • Level 2—Valuations are based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly and model-based valuation techniques for which all significant inputs are observable. • Level 3—Valuations based on inputs that are unobservable and significant to the overall fair value measurement. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models incorporating significant unobservable inputs, such as discounted cash flow models and other similar valuations techniques. The valuation of Level 3 assets and liabilities generally requires significant management judgment due to the inability to observe inputs to valuation. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, a financial instrument's level within the fair value hierarchy is based on the lowest level of observable input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the instrument. Under ASC Topic 820, the fair value measurement also assumes that the transaction to sell an asset or liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset, which may be a hypothetical market, and excludes transaction costs. The principal market for any asset or liability is the market with the greatest volume and level of activity for such asset or liability in which the reporting entity would or could sell or transfer the asset or liability. In determining the principal market for an asset or liability under ASC Topic 820, it is assumed that the reporting entity has access to such market as of the measurement date. Market participants are defined as buyers and sellers in the principal or most advantageous market that are independent, knowledgeable and willing and able to transact. Rule 2a-5 under the 1940 Act established additional requirements for determining the fair value of a BDC's investments in good faith for purposes of the 1940 Act. Rule 2a-5 permits boards, in compliance with certain conditions, to designate certain parties to perform fair value determinations, subject to board oversight. Rule 2a-5 also defines when market quotations are "readily available" for purposes of the 1940 Act and the threshold for determining whether a fund must determine the fair value of a security. Rule 31a-4 under the 1940 Act established additional recordkeeping requirements related to fair value determinations. Although the Company adopted certain revisions to its valuation policies and procedures to comply with Rule 2a-5 and Rule 31a-4, the Company's board of directors (the "Board of Directors") has not elected to designate a valuation designee. Investment Valuation Techniques With respect to investments for which market quotations are not readily available, the Company undertakes a multi-step valuation process each quarter, as described below: • The quarterly valuation process begins with each portfolio company investment being initially valued by RGC's investment professionals that are responsible for the portfolio investment; • Preliminary valuation conclusions are then documented and discussed with RGC's senior investment team; • At least once annually, the valuation for each portfolio investment is reviewed by an independent valuation firm. Certain investments, however, may not be evaluated annually by an independent valuation firm if the net asset value and other aspects of such investments in the aggregate do not exceed certain thresholds; • The Audit Committee of the Board of Directors (the "Audit Committee") then reviews these preliminary valuations from RGC and the independent valuation firm, if any, and makes a recommendation to the Board of Directors regarding such valuations; and • The Board of Directors reviews the recommended preliminary valuations and determines the fair value of each investment in the Company's portfolio, in good faith, based on the input of RGC, the independent valuation firm(s) and the Audit Committee. The Company's investments are primarily loans made to and equity and warrants of small, fast-growing companies focused in technology, healthcare, business services, and other high-growth industries. These investments are considered Level 3 assets under ASC Topic 820 because there is no known or accessible market or market indices for these types of debt and equity instruments and, thus, RGC's senior investment team must estimate the fair value of these investment securities based on models utilizing unobservable inputs. The Audit Committee assists the Board of Directors in valuing investments that are not publicly traded or for which current market values are not readily available. Investments for which market quotations are readily available are valued using market quotations, which are generally obtained from independent pricing services, broker-dealers or market makers. With respect to portfolio investments for which market quotations are not readily available, the Board of Directors, with the assistance of the Audit Committee, RGC and its senior investment team and independent valuation agents, is responsible for determining, in good faith, the fair value in accordance with the valuation policy approved by the Board of Directors. If more than one valuation method is used to measure fair value, the results are evaluated and weighted, as appropriate, considering the reasonableness of the range indicated by those results. The Company considers a range of fair values based upon the valuation techniques utilized and selects the value within that range that was most representative of fair value based on current market conditions as well as other factors RGC's senior investment team considers relevant. The Board of Directors makes this fair value determination on a quarterly basis and any other time when a decision regarding the fair value of the portfolio investments is required. A determination of fair value involves subjective judgments and estimates and depends on the facts and circumstances. Due to the inherent uncertainty of determining the fair value of portfolio investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a readily available market value existed for such investments, and the differences could be material. Valuation methodologies involve a significant degree of judgment. There is no single standard for determining the fair value of investments that do not have an active public market. Valuations of privately held investments are inherently uncertain, as they are based on estimates, and their values may fluctuate over time. The determination of fair value may differ materially from the values that would have been used if an active market for these investments existed. In some cases, the fair value of such investments is best expressed as a range of values derived utilizing different methodologies from which a fair value may then be determined. Debt Investments To determine the fair value of the Company's debt investments, the Company compares the cost basis of the debt investment, which includes OID, to the resulting fair value determined using a discounted cash flow model, unless another model is more appropriate based on the circumstances at the measurement date. The discounted cash flow approach entails analyzing the interest rate spreads for recently completed financing transactions that are similar in nature to the Company's investments, in order to determine a comparable range of effective market interest rates for its investments. The range of interest rate spreads utilized is based on borrowers with similar credit profiles. All remaining expected cash flows of the investment are discounted using this range of interest rates to determine a range of fair values for the debt investment. This valuation process includes, among other things, evaluating the underlying investment performance, the portfolio company's current financial condition and ability to raise additional capital, as well as macro-economic events that may impact valuations. These events include, but are not limited to, current market yields and interest rate spreads of similar securities as of the measurement date. Significant increases (decreases) in these unobservable inputs could result in significantly higher (lower) fair value measurements. Under certain circumstances, the Company may use an alternative technique to value the debt investments to be acquired by the Company that better reflects the fair value of the investment, such as the price paid or realized in a recently completed transaction or a binding offer received in an arms-length transaction, the use of multiple probability-weighted cash flow models when the expected future cash flows contain elements of variability or estimates of proceeds that would be received in a liquidation scenario. Warrants <span style="color:#000000;white-space:pre-wrap;font-size:10pt;font-family:Times New

Roman;min-width:fit-content;">Fair value of warrants is primarily determined using a Black Scholes option-pricing model. Privately held warrants and equity-related securities are valued based on an analysis of various factors including, but not limited to, the following: • Underlying enterprise value of the issuer is estimated based on information available, including any information regarding the most recent rounds of issuer funding. Valuation techniques to determine enterprise value include market multiple approaches, income approaches or approaches that utilize recent rounds of financing and the portfolio company's capital structure to determine enterprise value. Valuation techniques are also utilized to allocate the enterprise fair value of a portfolio company to the specific class of common or preferred stock exercisable in the warrant. Such techniques take into account the rights and preferences of the portfolio company's securities, expected exit scenarios, and volatility associated with such outcomes to allocate the fair value to the specific class of stock held in the portfolio. Such techniques include Option Pricing Models, or "OPM," including back-solve techniques, Probability Weighted Expected Return Models, or "PWERM," and other techniques as determined to be appropriate. • Volatility, or the amount of uncertainty or risk about the size of the changes in the warrant price, is based on comparable publicly traded companies within indices similar in nature to the underlying company issuing the warrant. Significant increases (decreases) in this unobservable input could result in a significantly lower (higher) fair value, but a significantly higher or lower fair value measurement of any of the Company's portfolio investments may occur regardless of whether there is a significant increase or decrease in this unobservable input. • The risk-free interest rates are derived from the U.S. Treasury yield curve. The risk-free interest rates are calculated based on a weighted average of the risk-free interest rates that correspond closest to the expected remaining life of the warrant. Significant increases (decreases) in this unobservable input could result in a significantly higher (lower) fair value, but a significantly higher or lower fair value measurement of any of the Company's portfolio investments may occur regardless of whether there is a significant increase (decrease) in this unobservable input. • Other adjustments, including a marketability discount on private company warrants, are estimated based on judgment about the general industry environment. Significant increases (decreases) in this unobservable input could result in a significantly lower (higher) fair value, but a significantly higher or lower fair value measurement of any of the Company's portfolio investments may occur regardless of whether there is a significant increase (decrease) in this unobservable input. • Historical portfolio experience on cancellations and exercises of warrants are utilized as the basis for determining the estimated life of the warrants in each financial reporting period. Warrants may be exercised in the event of acquisitions, mergers or initial public offerings, and cancelled due to events such as bankruptcies, restructuring activities or additional financings. These events cause the expected remaining life assumption to be shorter than the contractual term of the warrants. Significant increases (decreases) in this unobservable input could result in a significantly higher (lower) fair value, but a significantly higher or lower fair value measurement of any of the Company's portfolio investments may occur regardless of whether there is a significant increase (decrease) in this unobservable input. Success fees are valued utilizing a scenario analysis. Fair value is determined based the potential success fee proceeds under varied timing of liquidity events during the life of the success fee agreement. At each potential exit scenario, a probability is ascribed based on the current expectations of an exit event for the portfolio company. The probability weighted value at each respective exit date is discounted to a present value and summed together to arrive at the fair value. Under certain circumstances, the Company may use an alternative technique to value warrants that better reflects the warrants' fair values, such as an expected settlement of a warrant in the near term, a model that incorporates a put feature associated with the warrant, or the price paid or realized in a recently completed transaction or binding offer received in an arms-length transaction. The fair value may be determined based on the expected proceeds to be received from such settlement or based on the net present value of the expected proceeds from the put option. Equity Investments The fair value of an equity investment in a privately held company is initially the face value of the amount invested. The Company adjusts the fair value of equity investments in private companies upon the completion of a new third-party round of equity financing subsequent to the Company's investment. The Company may make adjustments to fair value, absent a new equity financing event, based upon positive or negative changes in a portfolio company's financial or operational performance. The Company may also reference comparable transactions and/or secondary market transactions in connection with its determination of fair value. The fair value of an equity investment in a publicly traded company is based upon the closing public share price on the date of measurement. These assets are recorded at fair value on a recurring basis. Money market funds are valued based on the published net asset value per share on the day of valuation and are included in "Cash and cash equivalents" on the Consolidated Statements of Assets and Liabilities. Investment Classification The Company classifies its investments by level of affiliation and control. As defined in the 1940 Act, investee companies are deemed as affiliated investments when a company or individual possesses, or has the right to acquire within 60 days or less, beneficial ownership of 5.0% or more of the outstanding voting securities of an investee company. Control investments are those where the investor has the ability or power to exercise a controlling influence over the management or policies of an investee company. Control is generally deemed to exist when a company or individual possesses, or has the right to acquire within 60 days or less, beneficial ownership of more than 25.0% of the outstanding voting securities of an investee company, or maintains greater than 50% representation on the investee company's board of directors. Investments are recognized when the Company assumes an obligation to acquire a financial instrument and assumes the risks for gains or losses related to that instrument. Investments are derecognized when the Company assumes an obligation to sell a financial instrument and foregoes the risks for gains or losses related to that instrument. Specifically, the Company records all security transactions on a trade date basis. Investments in other, non-security financial instruments, such as limited partnerships or private companies, are recorded on the basis of subscription date or redemption date, as applicable. Amounts for investments recognized or derecognized but not yet settled will be reported as receivables for investments sold and payables for investments acquired, respectively, on the Consolidated Statements of Assets and Liabilities. 0.05 0.25 0.50 Income Taxes The Company elected to be treated as a RIC under Subchapter M of the Code beginning with its taxable year ended December 31, 2016, currently qualifies as a RIC, and intends to qualify annually for the tax treatment applicable to RICs. A RIC generally is not subject to U.S. federal income taxes on distributed income and gains so long as it meets certain source-of-income and asset diversification requirements and it distributes at least 90% of its net ordinary income and net short-term capital gains in excess of its net long-term capital losses, if any, to its stockholders. So long as the Company maintains its status as a RIC, it generally will not be subject to U.S. federal income tax on any ordinary income or capital gains that it distributes at least annually to its stockholders as dividends. Rather, any tax liability related to income earned by the Company represents obligations of the Company's investors and will not be reflected in the consolidated financial statements of the Company. The Company intends to make sufficient distributions to maintain its RIC status each year and it does not anticipate paying any material U.S. federal income taxes in the future. Depending on the level of taxable income earned in a tax year, the Company may choose to carry forward such taxable income in excess of current year dividend distributions from such current year taxable income into the next tax year and pay a 4% excise tax on such income, as required. If the Company determines that the estimated current year taxable income will exceed the estimated dividend distributions for the current year from such income, the Company accrues excise tax on estimated excess taxable income as such taxable income is earned. Differences between taxable income and net increase in net assets resulting from operations either can be temporary, meaning they will reverse in the future, or permanent. In accordance with Section 946-205-45-3 of the ASC, permanent tax differences are reclassified from accumulated undistributed earnings to paid-in-capital at the end of each year and have no impact on total net assets. For more information, refer to "Note 10 - Income Taxes." 0.04 Per Share Information Basic and diluted earnings (loss) per common share is calculated using the weighted-average number of common shares outstanding for the period presented. For the three and six months ended June 30, 2024 and 2023, basic and diluted earnings (loss) per share of common stock were the same because there were no potentially dilutive securities outstanding. Per share data is based on the weighted-average shares outstanding. 0 0 0 0 Comprehensive Income The Company reports all changes in comprehensive income in the Consolidated Statements of Operations. The Company did no<span style="color:#000000;white-space:pre-wrap;font-size:10pt;font-family:Times New

Roman;min-width:fit-content;">t have any other comprehensive income in 2024 or 2023. The Company's comprehensive income is equal to its "Net increase (decrease) in net assets resulting from operations" on the Consolidated Statements of Operations.   0 0 Distributions Distributions to common stockholders are recorded on the applicable record date. The amount, if any, to be distributed to common stockholders is determined by the Board of Directors each quarter and is generally based upon the Company's earnings estimated by management. Net realized capital gains, if any, are generally distributed at least annually. For more information, refer to "Note 9 – Net Assets." Organization and Offering Costs Organization costs include, among other things, the cost of organizing as a Maryland corporation, including the cost of legal services and other fees pertaining to the Company's organization, all of which are expensed as incurred. Offering costs include, among other things, legal fees and other costs pertaining to the preparation of the Company's public and private offering materials as well as travel-related expenses related to the Company's public and private offerings. Pursuant to the Advisory Agreement (as defined in "Note 3 – Related Party Agreements and Transactions"), the Company and RGC agreed that organization and offering costs incurred in connection with the Initial Private Offering (as defined in "Note 9 – Net Assets") would be borne by the Company up to a maximum amount of $1.0 million, provided that the amount of such costs in excess of $1.0 million would be paid by RGC. In 2016, the Company incurred the maximum amount of $1.0 million in organization and offering costs incurred in connection with the Initial Private Offering. Offering costs related to the Second Private Offering (as defined in "Note 9 – Net Assets") were accumulated and charged to additional paid in capital at the time of each closing beginning in 2019. These offering costs related to the Second Private Offering were subject to a cap of $0.6 million, excluding placement agent fees which had no cap and therefore the Company will bear such cost. At the completion of the Second Private Offering, the Company had accumulated and recorded $0.7 million in offering costs and $0.2 million in placement agent fees related to the Second Private Offering. Under the terms of the Second Private Offering, offering costs in excess of $0.6 million, excluding placement agent fees, were reimbursed by RGC. The Company had accumulated and recorded $7.0 million of offering costs related to the IPO, which were charged to additional paid in capital at the time of closing in October 2021. The offering costs were fully born by the Company and included underwriting fees, legal fees, and other costs pertaining to the preparation of the Company's offering materials as well as travel-related expenses. 1000000 1000000 1000000 600000 700000 200000 600000 7000000 Recently Adopted Accounting Pronouncements In June 2022, the FASB issued ASU 2022-03, "Fair Value Measurement (Topic 820) – Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions", which was issued to (1) clarify the guidance in Topic 820, Fair Value Measurement, when measuring the fair value of an equity security subject to contractual restrictions that prohibit the sale of an equity security, (2) to amend a related illustrative example, and (3) to introduce new disclosure requirements for equity securities subject to contractual sale restrictions that are measured at fair value in accordance with Topic 820. The new guidance is effective for interim and annual periods beginning after December 15, 2023. The Company adopted the guidance on January 1, 2024, and its adoption did not have a material impact on the Company's financial statements. Recently Issued Accounting Pronouncements In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures ("ASU 2023-07"). This change is intended to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses, allowing financial statement users to better understand the components of a segment's profit or loss and assess potential future cash flows for each reportable segment and the entity as a whole. The amendments expand a public entity's segment disclosures by requiring disclosure of significant segment expenses that are regularly provided to the chief operating decision maker, clarifying when an entity may report one or more additional measures to assess segment performance, requiring enhanced interim disclosures and providing new disclosure requirements for entities with a single reportable segment, among other new disclosure requirements. The amendments are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, and early adoption is permitted. Although the ASU only requires additional disclosure about the Company's operating segment, the Company is currently evaluating the impact of adopting this guidance with respect to the consolidated financial statements.   In December 2023, the FASB issued ASU 2023-09 "Income Taxes (Topics 740): Improvements to Income Tax Disclosures" to expand the disclosure requirements for income taxes, specifically related to the rate reconciliation and income taxes paid. ASU 2023-09 is effective for our annual periods beginning January 1, 2025, with early adoption permitted. We are currently evaluating the potential effect that the updated standard will have on our financial statement disclosures. true 2024-01-01 true Note 3 – Related Party Agreements and Transactions Advisory Agreement On November 29, 2016, the Board of Directors approved an investment advisory agreement between RGC and the Company, under which RGC, subject to the overall supervision of the Board of Directors, manages the day-to-day operations of and provides investment advisory services to the Company (together with a subsequent amendment thereto, the "Prior Advisory Agreement"). On August 3, 2017, the Board of Directors approved certain amendments to the Prior Advisory Agreement (the "First Amended and Restated Advisory Agreement") and recommended that the Company's stockholders approve the First Amended and Restated Advisory Agreement. The First Amended and Restated Advisory Agreement became effective on September 12, 2017 upon approval by the stockholders at a special meeting of stockholders of the Company. On April 7, 2021, the Board of Directors approved certain additional amendments to the First Amended and Restated Advisory Agreement (the "Advisory Agreement") at a virtual meeting and recommended that the Company's stockholders approve the Advisory Agreement. In reliance upon certain exemptive relief granted by the SEC in connection with the global COVID-19 pandemic, the Board of Directors undertook to ratify the Advisory Agreement at its next in-person meeting which was held in July 2021. The Advisory Agreement became effective on May 27, 2021 upon approval by the stockholders at a special meeting of stockholders of the Company. The Advisory Agreement amended the First Amended and Restated Advisory Agreement to include certain revisions to the management and incentive fee calculation mechanisms and clarify language relating to liquidity events. On April 30, 2024, the Board of Directors renewed the Advisory Agreement for a period of twelve months commencing May 27, 2024. Under the terms of the Advisory Agreement, RGC: • determines the composition of the Company's portfolio, the nature and timing of the changes to the portfolio and the manner of implementing such changes; • identifies, evaluates and negotiates the structure of the investments the Company makes; • executes, closes and monitors the investments the Company makes; • determines the securities and other assets that the Company will purchase, retain or sell; <div class="item-list-element-wrapper" style="margin-left:2.667%;display:flex;margin-top:0;justify-content:flex-start;align-items:baseline;margin-

bottom:6pt;min-width:3.333%;text-align:justify;">• performs due diligence on prospective investments; and • provides the Company with other such investment advisory, research and related services as the Company may, from time to time, reasonably require for the investment of its funds. Pursuant to the Advisory Agreement, the Company pays RGC a fee for its investment advisory and management services consisting of two components - a base management fee and an incentive fee. The cost of both the base management fee and incentive fee are ultimately borne by the Company's stockholders. Base Management Fee The base management fee is payable on the first day of each calendar quarter and is calculated on the Company's "Gross Assets" which, for purposes of the Advisory Agreement, is defined as the Company's gross assets, including assets purchased with borrowed funds or other forms of leverage, as well as any PIK interest, as of the end of the most recently completed fiscal quarter. The base management fee will be an amount equal to 0.375% (1.50% annualized) of the Company's average daily Gross Assets during the most recently completed calendar quarter, so long as the aggregate amount of the Company's Gross Assets as of the end of the most recently completed calendar quarter is equal to or greater than $1.0 billion. If the aggregate amount of the Company's Gross Assets as of the end of the most recently completed calendar quarter is less than $1.0 billion but equal to or greater than $500.0 million, the base management fee will be an amount equal to 0.40% (1.60% annualized) of the Company's average daily Gross Assets during the most recently completed calendar quarter. If the aggregate amount of the Company's Gross Assets as of the end of the most recently completed calendar quarter is less than $500.0 million, the base management fee will be an amount equal to 0.4375% (1.75% annualized) of the Company's average daily Gross Assets during the most recently completed calendar quarter.</p><p style="font-size:10pt;margin-top:0;font-family:Times New Roman;margin-bottom:12pt;text-align:justify;">For the three and six months ended June 30, 2024, RGC earned base management fees at a rate of 1.50% per annum, amounting to $3.9 million and $7.9 million, respectively. For the three and six months ended June 30, 2023, RGC earned base management fees at a rate of 1.50% per annum, amounting to <span style="color:#000000;white-space:pre-wrap;font-size:10pt;font-family:Times New Roman;min-width:fit-content;">$4.3 million and $8.3 million, respectively. Incentive Fee The incentive fee, which provides RGC with a share of the income that RGC generates for the Company, consists of an investment-income component and a capital-gains component, which are largely independent of each other, with the result that one component may be payable even if the other is not. Under the investment-income component (the "Income Incentive Fee"), the Company pays RGC each quarter an incentive fee with respect to the Company's pre-incentive fee net investment income ("Pre-Incentive Fee NII"). The Income Incentive Fee is calculated and payable quarterly in arrears based on the Pre-Incentive Fee NII for the immediately preceding fiscal quarter. Payments based on Pre-Incentive Fee NII will be based on the Pre-Incentive Fee NII earned for the quarter. For this purpose, "Pre-Incentive Fee NII" means interest income, dividend income and any other income (including any other fees, such as commitment, origination, structuring, diligence, managerial and consulting fees or other fees that the Company receives from portfolio companies) that the Company accrues during the fiscal quarter, minus the Company's operating expenses for the quarter (including the base management fee, expenses payable under the amended and restated administration were deferred incentive fees payable, both of which are included in "Incentive fees payable" on the Consolidated Statements of Assets and Liabilities agreement with the Administrator (the "Administration Agreement"), and any dividends paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-Incentive Fee NII includes, in the case of investments with a deferred interest feature (such as OID accretion, debt instruments with pay in kind interest and zero coupon securities), accrued income the Company has not yet received in cash; provided, however, that the portion of the Income Incentive Fee attributable to deferred interest features will be paid, only if and to the extent received in cash, and any accrual thereof will be reversed if and to the extent such interest is reversed in connection with any write off or similar treatment of the investment giving rise to any deferred interest accrual, applied in each case in the order such interest was accrued. Such subsequent payments in respect of previously accrued income will not reduce the amounts payable for any quarter pursuant to the calculation of the Income Incentive Fee described above. Pre-Incentive Fee NII does not include any realized or unrealized capital gains (losses). Pre-Incentive Fee NII, expressed as a rate of return on the value of the Company's net assets (defined as total assets less liabilities) at the end of the immediately preceding fiscal quarter, will be compared to a "hurdle rate" of 2.0% per quarter (8.0% annualized). The Company pays RGC an Income Incentive Fee with respect to the Company's Pre-Incentive Fee NII in each calendar quarter as follows: (1) no Income Incentive Fee in any calendar quarter in which the Company's Pre-Incentive Fee NII does not exceed the hurdle rate of 2.0%; (2) 80% of the Company's Pre-Incentive Fee NII with respect to that portion of such Pre-Incentive Fee NII, if any, that exceeds the hurdle rate but is less than 2.667% in any calendar quarter (10.668% annualized) (the portion of the Company's Pre-Incentive Fee NII that exceeds the hurdle but is less than 2.667% is referred to as the "catch-up"; the "catch-up" is meant to provide RGC with 20.0% of the Company's Pre-Incentive Fee NII as if a hurdle did not apply if the Company's Pre-Incentive Fee NII exceeds 2.667% in any calendar quarter (10.668% annualized)); and (3) 20.0% of the amount of the Company's Pre-Incentive Fee NII, if any, that exceeds 2.667% in any calendar quarter (10.668% annualized) payable to RGC (once the hurdle is reached and the catch-up is achieved, 20.0% of all Pre-Incentive Fee NII thereafter is allocated to RGC). <p style="font-size:10pt;margin-top:0;font-

family:Times New Roman;margin-bottom:12pt;text-align:justify;">Until the consummation of a Spin-Off transaction (defined below), in the event that (a) the sum of the Company's cumulative net realized losses since the date of the Company's election to be regulated as a BDC exceeded 2.0% of the total non-control/non-affiliate investments made by the Company since the date of the Company's election to be regulated as a BDC through the end of the quarter and (b) the Pre-Incentive Fee NII adjusted to include any realized capital gains and losses ("Adjusted Pre-Incentive Fee NII"), expressed as an annualized rate of return on the value of the Company's average daily net assets (defined as total assets less liabilities), since the Company's election to be regulated as a BDC through the end of the quarter was less than 10.0%, no Income Incentive Fee would be payable for such quarter until the first subsequent quarter in which either (x) the sum of the Company's cumulative net realized losses since the date of the Company's election to be regulated as a BDC was equal to or less than 2.0% of the total non-control/non-affiliate investments made by the Company since the date of the Company's election to be regulated as a BDC through the end of such subsequent quarter or (y) the Adjusted Pre-Incentive Fee NII, expressed as an annualized rate of return on the value of the Company's average daily net assets (defined as total assets less liabilities), since the Company's election to be regulated as a BDC through the of the end of the quarter equals or exceeds 10.0%; provided, however, that in no event would any Income Incentive Fee be payable for any prior quarter after the three-year anniversary of the end of such quarter. For purposes of the Advisory Agreement, a "Spin-Off transaction" includes either a transaction whereby (a) the Company offers its stockholders the option to elect to either (i) retain their ownership of shares of the Company's common stock, or (ii) exchange their shares of the Company's common stock for shares of common stock in a newly formed entity (the "Public Fund") that will elect to be regulated as a BDC under the 1940 Act and treated as a RIC under Subchapter M of the Code (the "Public Fund Spin Off"); or (b) the Company completes a listing of the Company's securities on any securities exchange (an "Exchange Listing"). Under the capital gains component of the incentive fee (the "Capital Gains Fee"), the Company will pay RGC, as of the end of each calendar year, 20.0% of the Company's aggregate cumulative realized capital gains, if any, from the date of the Company's election to be regulated as a BDC through the end of that calendar year, computed net of the Company's aggregate cumulative realized capital losses and aggregate cumulative unrealized capital losses through the end of such year, less the aggregate amount of any previously paid Capital Gains Fee. For the foregoing purpose, the Company's "aggregate cumulative realized capital gains" will not include any unrealized gains. If such amount is negative, then no Capital Gains Fee will be payable for such year. For the three and six months ended June 30, 2024, RGC earned incentive fees of $3.6 million and $8.3, respectively, $2.9 million and $6.5 million of which were payable in cash, respectively, and $0.7 million and $1.8 million were accrued and generated from deferred interest, respectively. For the three and six months ended June 30, 2023, RGC earned incentive fees of $4.9 million and $9.5 million, respectively, of which $3.4 million and $6.9 million were payable in cash, respectively, and $1.5 million and $2.6 million were accrued and generated from deferred interest, respectively. All incentive fees accrued and generated from deferred interest (i.e., PIK and certain discount accretion) are not payable until receipt of respective cash by the Company. As of June 30, 2024, $2.9 million were payable in cash, and $11.0 million were deferred incentive fees payable, both of which are included in "Incentive fees payable" on the Statements of Assets and Liabilities. As of December 31, 2023, $3.3 million of incentive fees payable were payable in cash, and <span style="color:#000000;white-space:pre-wrap;font-size:10pt;font-family:Times New Roman;min-width:fit-content;">$9.2 million were deferred incentive fees payable, both of which are included in "Incentive fees payable" on the Consolidated Statements of Assets and Liabilities. The capital gains incentive fee consists of fees related to realized gains and losses and unrealized capital losses. With respect to the incentive fee expense accrual related to the capital gains incentive fee, U.S. GAAP requires that the capital gains incentive fee accrual consider the cumulative aggregate unrealized gains in the calculation, as a capital gains incentive fee would be payable if such unrealized gains were realized even though such unrealized gains are not permitted to be considered in calculating the fee actually payable under the Advisory Agreement. As of each of June 30, 2024 and December 31, 2023, there was no capital gains incentive fee accrued, earned or payable to RGC under the Advisory Agreement. Spin-Off Incentive Fee The Income Incentive Fee will be payable in connection with a Public Fund Spin-Off as follows. The Income Incentive Fee will be calculated as of the date of the completion of each Public Fund Spin-Off and will equal the amount of Income Incentive Fee that would be payable to RGC if (1) all of the Company's investments were liquidated for their current value and any unamortized deferred portfolio investment-related fees would be deemed accelerated, (2) the proceeds from such liquidation were used to pay all of the Company's outstanding liabilities, and (3) the remainder were distributed to the Company's stockholders and paid as incentive fee in accordance with the Income Incentive Fee described in clauses (1) and (2) above for determining the amount of the Income Incentive Fee; provided, however, that in no event will the Income Incentive Fee paid in

connection with the completion of the Public Fund Spin-Off (x) include the portion of the Income Incentive Fee attributable to deferred interest features of a particular investment that is not transferred pursuant to the Public Fund Spin-Off until such time as the deferred interest is received in cash, or (y) exceed 20.0% of the Company's Pre-Incentive Fee NII accrued by the Company for the fiscal quarter as of the date of the completion of the Public-Fund Spin-Off. The Company will make the payment of the Income Incentive Fee paid in connection with the completion of the Public Fund Spin-Off in cash on or immediately following the date of the completion of the Public-Fund Spin-Off. After the Public Fund Spin-Off, all calculations relating to the incentive fee payable will be made beginning on the day immediately following the completion of the Public Fund Spin-Off without taking into account the exchanged shares of the Company's common stock (or contributions, distributions or proceeds relating thereto). The Capital Gains Fee will be payable in respect of the exchanged shares of the Company's common stock in connection with the Public Fund Spin-Off and will be calculated as of the date of the completion of the Public Fund Spin-Off as if such date were a calendar year-end for purposes of calculating and paying the Capital Gains Fee. No Income Incentive Fee or Capital Gains Fee will be payable in connection with the Public Fund Spin-Off unless, on the date of the completion of the Public Fund Spin-Off, the sum of the Company's (i) Pre-Incentive Fee NII and (ii) realized capital gains less realized capital losses and unrealized capital losses from the date of the Company's election to be regulated as a BDC through, and including, the date of the completion of the Public Fund Spin-Off, is greater than 8.0% of the cumulative net investments made by the Company since the Company's election to be regulated as a BDC. Administration Agreement The Company reimburses the Administrator for the allocable portion of overhead expenses incurred by the Administrator in performing its obligations under the Administration Agreement, including furnishing the Company with office facilities, equipment and clerical, bookkeeping and recordkeeping services at such facilities, as well as providing other administrative services. In addition, the Company reimburses the Administrator for the fees and expenses associated with performing compliance functions, and the Company's allocable portion of the compensation of the Company's Chief Financial Officer, Chief Compliance Officer and their respective support staff, as well as any expenses paid by the Administrator on the Company's behalf. For the three months ended June 30, 2024, the Company incurred $0.5 million of Administration Agreement expenses, of which $0.2 million was payable to a third-party service provider and $0.3 million was overhead allocation expense, which are included in "Administration agreement expenses" on the Consolidated Statements of Operations. For the three months ended June 30, 2023, the Company incurred $0.6 million of Administration Agreement expenses, of which $0.3 million was payable to a third-party service provider and $0.3 million was overhead allocation expense. For the six months ended June 30, 2024, the Company incurred $1.0 million of Administration Agreement expenses, of which $0.4 million was payable to a third-party service provider and $0.6 million was overhead allocation expense, which are included in "Administration agreement expenses" on the Consolidated Statements of Operations. For the six months ended June 30, 2023, the Company incurred $1.2 million of Administration Agreement expenses, of which $0.6 million was payable to a third-party service provider and $0.6 million was overhead allocation expense. As of June 30, 2024, the Company had accrued a net payable to the Administrator of $0.3 million and a payable to the third-party service provider of $0.3 million, which are included in "Accrued expenses and other liabilities" on the Consolidated Statements of Assets and Liabilities. As of December 31, 2023, the Company had accrued a net payable to the Administrator of $0.4 million and a payable to the third-party service provider of $0.2 million. License Agreement The Company has entered into a license agreement with RGC (the "License Agreement") pursuant to which RGC has granted the Company a personal, non-exclusive, royalty-free right and license to use the name "Runway Growth Finance." Under the License Agreement, the Company has the right to use the "Runway Growth Finance" name for so long as RGC or one of its affiliates remains the Company's investment adviser. Other than with respect to this limited license, the Company has no legal right to the "Runway Growth Finance" name. Runway-Cadma I LLC During the three and six months ended June 30, 2024, the Company and Cadma had contributed $0.7 million and $0.7 million, respectively, of equity capital to the JV. As of June 30, 2024, the Company and Cadma's ownership of the JV were both 50%<span style="color:#000000;white-space:

space:pre-wrap;font-size:10pt;font-family:Times New Roman;min-width:fit-content;">. As of June 30, 2024, the JV had no debt or equity investments. As of June 30, 2024 and December 31, 2023, the Company's unfunded commitment to the JV was $34.4 million and $0 million, respectively. There were no receivables or payables due from the JV as of June 30, 2024 and December 31, 2023. During the three and six months ended June 30, 2024, the JV reimbursed the Company for $0.6 million of expenses attributable to the JV. As of June 30, 2024 and December 31, 2023, the fair value of the Company's equity interest in the JV was $0.5 million and $0, respectively. The JV's loan and security agreement with Apollo Capital Management, L.P., which is non-recourse to the Company, had $40 million in availability as of June 30, 2024. </p><p style="white-space:pre-wrap;vertical-align:bottom;text-align:center;"> — </td><td style="white-space:nowrap;vertical-align:bottom;"> </td></tr></table> Strategic Relationship In December 2016, the Company and RGC entered into a strategic relationship with Oaktree Capital Management, L.P. ("Oaktree"). In connection with the strategic relationship, OCM Growth Holdings ("OCM Growth"), an affiliate of Oaktree, purchased an aggregate of 14,571,334 shares of the Company's common stock for an aggregate purchase price of $219.3 million in the Company's Initial Private Offering and Second Private Offering. As of June 30, 2024, OCM Growth, an affiliate of Oaktree, owned 10,779,668 shares, or approximately 28.0%<span

style="color:#000000;white-space:pre-wrap;font-size:10pt;font-family:Times New Roman;min-width:fit-content;"> of the Company's outstanding shares. Pursuant to an irrevocable proxy, certain shares held by OCM Growth must be voted in the same proportion that the Company's other stockholders vote their shares. Of the 10,779,668 shares of Company's common stock owned by OCM Growth, 10,294,926 shares, or approximately 26.7% of the Company's outstanding shares, are subject to this proxy voting arrangement. In connection with OCM Growth's commitment, the Company entered into a stockholder agreement, dated December 15, 2016, with OCM Growth, pursuant to which OCM Growth has a right to nominate a member of the Board of Directors for election for so long as OCM Growth holds shares of the Company's common stock in an amount equal to, in the aggregate, at least one-third (33%) of OCM Growth's initial $125.0 million capital commitment. Gregory M. Share, Managing Director of Oaktree's Global Opportunities Group in Los Angeles, serves on the Board of Directors as OCM Growth's director nominee and is considered an interested director. OCM Growth also holds a minority interest in RGC and has the right to appoint a member of RGC's board of managers and a member of RGC's investment committee. Mr. Share is OCM Growth's appointee to RGC's board of managers and investment committee.</p> 2 0.00375 0.015 1000000000 1000000000 500000000 0.004 0.016 500000000 0.004375 0.0175 0.015 0.015 3900000 control in accordance with the requirements of the 1940 Act. As defined in the 1940 Act, investee companies are deemed as affiliated investments when a company or individual possesses, or has the right to acquire within 60 days or less, beneficial ownership of 5.0% or more of the outstanding voting securities of an investee company. Control investments are those where the investor has the ability or power to exercise a controlling influence over the management or policies of an investee company. Control is generally deemed to exist when a company or individual possesses, or has the right to acquire within 60 days or less, beneficial ownership of more than 25.0% of the outstanding voting securities of an investee company, or maintains greater than 50.0% representation on the investee company's board of directors.
