NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (CONTINUED)
(UNAUDITED)

We consolidate all subsidiaries in which we have a controlling financial interest and variable interest entities ("VIEs") for which we or one of our consolidated subsidiaries is the primary beneficiary. Control generally equates to ownership percentage, whereby (i) affiliates that are more than 50% owned are consolidated; (ii) investments in affiliates of 50% or less but greater than 20% are generally accounted for using the equity method where we have determined that we have significant influence over the entities; and (iii) investments in affiliates of 20% or less are generally accounted for as investments in equity securities.

We consider ourselves the primary beneficiary of a VIE when we have both the power to direct the activities that most significantly affect the results of the VIE and the right to receive benefits or the obligation to absorb losses of the entity that could be potentially significant to the VIE. We review investments for VIE consideration if a reconsideration event occurs to determine if the investment qualifies, or continues to qualify, as a VIE. If we determine an investment qualifies, or no longer qualifies, as a VIE, there may be a material effect to our Financial Statements.

Transactions with Horseshoe Baltimore Fair Value Measurements

On July 10, 2023, we completed The Company measures certain of its financial assets and liabilities at fair value, on a recurring basis, which is the acquisition price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. - Level 1: Observable inputs such as quoted prices in Horseshoe Baltimore, utilizing cash on hand, for a total of \$66 million, active markets.

Litigation

General

We are party to various legal proceedings, which have arisen in the normal course of our business. Such proceedings can be costly, time consuming and unpredictable and, therefore, no assurance can be given that the final outcome of such proceedings will not materially impact our consolidated financial condition or results of operations. Estimated losses are accrued for these proceedings when the loss is probable and can be estimated. While we maintain insurance coverage that we believe is adequate to mitigate the risks of such proceedings, no assurance can be given that the amount or scope of existing insurance coverage will be sufficient to cover losses arising from such matters. The current liability for the estimated losses associated with these proceedings is not material to our consolidated financial condition and those estimated losses are not expected to have a material impact on our results of operations.

COVID-19 Insurance Claims

The COVID-19 public health emergency had a significant impact on the Company's business and employees, as well as the communities where the Company operates and serves. The Company purchased broad property insurance coverage to protect against "all risk of physical loss or damage" and resulting business interruption, unless specifically excluded by policies. The Company submitted claims for losses incurred as a result of the COVID-19 public health emergency which exceed \$2 billion. The insurance carriers under the Company's insurance policies have asserted that the policies do not cover losses incurred by the Company as a result of the COVID-19 public health emergency and have refused to make payments under the applicable policies.

In March of 2021, the Company filed a lawsuit against certain of its insurance carriers in the state court in Clark County, Nevada relating to insurance policies that were potentially governed by Nevada law. The Company's lawsuit was stayed pending the outcome of a separate but similar lawsuit pending in the Nevada Supreme Court. In September of 2023, the Nevada Supreme Court issued an adverse ruling in the separate but similar lawsuit. The Nevada Supreme Court decision negatively affects the Company's claims in its Nevada lawsuit and will likely result in a dismissal of the Company's claims with respect to insurance policies that are governed by Nevada law. There are other insurance policies issued to the Company that are governed by other state laws, including, but not limited to, New York and New Jersey. The viability of potential claims under those policies will depend on the result of decisions from the courts in those jurisdictions in lawsuits brought by other claimants. There can be no assurance as to the outcome of any such proceedings.

Cybersecurity Incident

On September 14, 2023, we announced that an unauthorized actor had gained access to our information technology network as a result of a social engineering attack on an outsourced IT support vendor used by the Company, and acquired a copy of, among other data, our loyalty program database ("Data Incident").

As a result of the Data Incident, we have become subject to multiple lawsuits. Between September 15 and October 26, 2023, thirteen class actions have been filed against us in U.S. federal and state courts in Nevada, New Jersey, and California, purporting to represent various classes of persons whose personal information was affected by the Data Incident. These class actions assert a variety of common law and statutory claims based on allegations that the Company failed to use reasonable security procedures and practices to safeguard customers' personal information, and seek monetary and statutory damages, injunctive relief and other related relief. Caesars is seeking consolidation of the cases that have been filed into a single case.

In addition, the Company has received inquiries from state regulators related to the Data Incident. We are responding to these inquiries and cooperating fully with regulators.

While we believe it is reasonably possible that we may incur losses associated with the above described proceedings, it is not possible to estimate the amount of loss or range of loss, if any, that might result from adverse judgments, settlements, or other resolution given the stage of these proceedings, the absence of specific allegations regarding the alleged

damages, the uncertainty as to the certification of a class or classes and the size of any certified class, if applicable, and/or the lack of resolution of significant factual and legal issues.

Additional lawsuits and claims related to the Data Incident may be asserted by or on behalf of customers, shareholders or others seeking damages or other related relief, and governmental agencies may open additional inquiries or investigations into the Data Incident. The Company is pursuing insurance coverage in relation to costs and liabilities incurred due to the Data Incident.

We have incurred, and may continue to incur, certain expenses related to the Data Incident, including expenses to respond to, remediate and investigate this matter. The full scope of the costs and related impacts of this incident, including the extent to which these costs will be offset by our cybersecurity insurance or potential indemnification claims against third parties, has not been determined. We are unable to predict the full impact of this incident and its impact on guest behavior in the future, including whether a change in our guests' behavior could negatively impact our financial condition and results of operations on an ongoing basis. As of the date of this report, there has not been a material effect on the Company's financial condition and results of operations and we currently do not expect that it will have such an effect in the future.

These liabilities are generally expected to be recognized as revenue within one year of being purchased, earned, or

deposited and are recorded within Accrued other liabilities on the Company's Balance Sheets. Liabilities expected to be recognized as revenue beyond one year of being purchased, earned, or deposited are recorded within Other long-term liabilities on the Company's Balance Sheets.

Lease Revenue

Lodging Arrangements

Lodging arrangements are considered short-term and generally consist of lease and nonlease components. The lease component is the predominant component of the arrangement and consists of the fees charged for lodging. The nonlease components primarily consist of resort fees and other miscellaneous items. As the timing and pattern of transfer of both the lease and nonlease components are over the course of the lease term, we have elected to combine the revenue generated from lease and nonlease components into a single lease component based on the predominant component in the arrangement. During the three months ended **September 30, 2023** **March 31, 2024** and **2022**, **2023**, we recognized approximately **\$553 million** **\$493 million** and **\$544 million**, respectively, and during the nine months ended **September 30, 2023** and **2022**, we recognized approximately **\$1.6 billion** and **\$1.4 billion** **\$503 million**, respectively, which is included in Hotel revenues in the Statements of Operations.

Conventions

Convention arrangements are considered short-term and generally consist of lease and nonlease components. The lease component is the predominant component of the arrangement and consists of fees charged for the use of meeting space. The nonlease components primarily consist of food and beverage and audio/visual services. Revenue from conventions is included in Food and beverage revenue in the Statements of Operations and during the three months ended **September 30, 2023** **March 31, 2024** and **2022**, **2023**, lease revenue related to conventions was approximately **\$5** **\$13 million** and **\$4 million**, respectively, and during the nine months ended **September 30, 2023** and **2022**, lease revenue related to conventions was approximately **\$31 million** and **\$23** **\$14 million**, respectively.

Real Estate Operating Leases

Real estate lease revenue is included in Other revenue in the Statements of Operations. During the three months ended **September 30, 2023** **March 31, 2024** and **2022**, **2023**, we recognized approximately **\$42 million** for both periods, and during the nine months ended **September 30, 2023** and **2022**, we recognized approximately **\$122** **\$35 million** and **\$125** **\$37 million**, respectively, of real estate lease revenue, respectively.

Real estate lease revenue includes **\$14** **\$13 million** and **\$17** **\$14 million** of variable rental income for the three months ended **September 30, 2023** **March 31, 2024** and **2022**, and **\$44 million** and **\$45 million** for the nine months ended **September 30, 2023** and **2022**, **2023**, respectively.

Note 11.9. Stock-Based Compensation and Stockholders' Equity

Stock-Based Awards

The Company maintains long-term incentive plans which allow for granting stock-based compensation awards to directors, employees, officers, and consultants or advisers who render services to the Company or its subsidiaries, based on Company Common Stock, including stock options, restricted stock, restricted stock units ("RSUs"), performance stock units ("PSUs"), market-based performance stock units ("MSUs"), stock appreciation rights, and other stock-based awards or dividend equivalents. Forfeitures are recognized in the period in which they occur.

Total stock-based compensation expense in the accompanying Statements of Operations totaled \$26 million \$25 million and \$27 million during both of the three months ended September 30, 2023 March 31, 2024 and 2022 and \$82 million and \$77 million during the nine months ended September 30, 2023 and 2022, respectively. These amounts are included in Corporate expense in the Company's Statements of Operations.

2015 Equity Incentive Plan ("2015 Plan")

During the nine three months ended September 30, 2023 March 31, 2024, as part of the annual incentive program, the Company granted 1.51.7 million RSUs to eligible participants with an aggregate fair value of \$76 \$78 million and a ratable vesting period of one to three years. Each RSU represents the right to receive payment in respect of one share of the Company's Common Stock.

CAESARS ENTERTAINMENT, INC.
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (CONTINUED)
(UNAUDITED)

During the nine three months ended September 30, 2023 March 31, 2024, the Company also granted 192 107 thousand PSUs that are scheduled to cliff vest over a period of two one to three years. On the vesting date, recipients will receive between 0% and 200% of the target number of PSUs granted, in the form of Company Common Stock, based on the achievement of specified performance and service conditions. The fair value of the PSUs is based on the market price of our common stock when a mutual understanding of the key terms and conditions of the awards between the Company and recipient is achieved. The awards are remeasured each period until such an understanding is reached. The aggregate value of PSUs granted during the year quarter was \$9 \$4.7 million as of September 30, 2023 March 31, 2024.

In addition, during the nine three months ended September 30, 2023 March 31, 2024, the Company granted 379 429 thousand MSUs that are scheduled to cliff vest over a period of one to three years. On the vesting date, recipients will receive between 0% and 200% of the target number of MSUs granted, in the form of Company Common Stock, based on the achievement of specified market and service conditions. The grant date fair value of the MSUs was determined using a Monte-Carlo simulation model. Key assumptions for the Monte-Carlo simulation model are the risk-free interest rate, expected volatility, expected dividends and correlation coefficient. The effect of market conditions is considered in determining the grant date fair value, which is not subsequently revised based on actual performance. The aggregate value of MSUs granted during the nine three months ended September 30, 2023 March 31, 2024 was \$31 \$25 million.

During the nine three months ended September 30, 2023 March 31, 2024, there were no grants of stock options and 88 stock options were exercised. In addition, during the nine three months ended September 30, 2023 March 31, 2024, 1.1 million, 243 799 thousand, 99 thousand and 140 19 thousand of RSUs, PSUs and MSUs, respectively, vested under the 2015 Plan.

Share Repurchase Program

In November 2018, the Company's Board of Directors authorized a \$150 million common stock repurchase program (the "Share Repurchase Program") pursuant to which the Company may, from time to time, repurchase shares of common stock on the open market (either with or without a 10b5-1 plan) or through privately negotiated transactions. The Share Repurchase Program has no time limit and may be suspended or discontinued at any time without notice. There is no minimum number of shares of common stock that the Company is required to repurchase under the Share Repurchase Program.

As of **September 30, 2023** **March 31, 2024**, the Company has acquired 223,823 shares of common stock under the Share Repurchase Program at an aggregate value of \$9 million and an average of \$40.80 per share. No shares were repurchased during the **nine** **three** months ended **September 30, 2023** **March 31, 2024** and **2022** **2023**.

Note 12.10. Income Taxes

The Company's provision for income taxes during interim reporting periods has historically been calculated by applying an estimate of the annual effective tax rate for the full year to "ordinary" income or loss (pre-tax income or loss excluding unusual or infrequently occurring discrete items) for the reporting period. However, the Company utilized a discrete effective tax rate method, as allowed by ASC 740-270 "Income Taxes, Interim Reporting," to calculate taxes for the three **and nine** months ended **September 30, 2023**, **March 31, 2024** and **2023**. The Company determined that small changes in estimated "ordinary" income would result in significant changes in the estimated annual effective tax rate ("AETR"), and therefore, the historical AETR method would not provide a reliable estimate for the three and nine months ended **September 30, 2023**, estimate.

The Company classifies accruals for uncertain tax positions within Other long-term liabilities on the Balance Sheets, separate from any related income tax payable or deferred income taxes. Reserve amounts relate to any potential income tax liabilities resulting from uncertain tax positions as well as potential interest or penalties associated with those liabilities.

Management assesses the available positive and negative evidence to estimate if sufficient future taxable income will be generated to use existing deferred tax assets. During the second quarter of 2023, the Company evaluated its forecasted adjusted taxable income and objectively verifiable evidence and placed substantial weight on its 2022 and 2023 quarterly earnings, adjusted for non-recurring items, including the interest expense disallowed under current tax law. Accordingly, the Company determined it was more likely than not that a portion of the federal and state deferred tax assets will be realized and, as a result, during the second quarter of 2023, the Company reversed the valuation allowance related to these deferred tax assets and recorded an income tax benefit of \$940 million. The Company is still carrying a valuation allowance on certain federal and state deferred tax assets that are not more likely than not to be realized in the future. The Company has assessed the changes to the valuation allowance, including realization of the disallowed interest expense deferred tax asset, using the integrated approach.

The income tax provision for the three months ended **September 30, 2023** **March 31, 2024** differed from the expected income tax **provision benefit** based on the federal tax rate of 21% primarily due to an increase in federal and state valuation allowances against the deferred tax assets for excess business interest expense.

The income tax benefit for the **nine** **three** months ended **September 30, 2023** **March 31, 2023** differed from the expected income tax benefit based on the federal tax rate of 21% primarily due to the **partial release of federal and state valuation allowances**.

The income tax benefit for the three months ended **September 30, 2022** differed from the expected income tax provision based on the federal tax rate of 21% primarily due to a decrease in the state deferred tax liabilities benefits generated from net operating losses becoming available due to elections to treat certain subsidiary corporations as a result of a reduction in tax rates in Pennsylvania and Iowa. The disregarded entities for income tax benefit for the **nine** months ended **September 30, 2022** differed from the expected income tax benefit based on the federal tax rate of 21% primarily due to a deferred tax adjustment related to the tax impact of the settlement of preexisting relationships upon the acquisition of William Hill PLC in 2021 and nondeductible expenses, purposes.

The Company, including its subsidiaries, files tax returns with federal, state, and foreign jurisdictions. The Company does not have tax sharing agreements with the other members within its consolidated group. The Company is subject to exam by various state and foreign tax authorities. With few exceptions, the Company is no longer subject to US federal or state and local tax assessments by tax authorities for years before **2019, 2020**, and it is possible that the amount of the liability for unrecognized tax benefits could change during the next 12 months.

In May 2023, the Company entered into a joint venture, CVA Holdco, LLC, with the Eastern Band of Cherokee Indians ("EBCI") EBCI and an additional minority partner, to construct, own and operate a gaming facility in Danville, Virginia ("Caesars Virginia"). Caesars Virginia opened in a temporary facility on May 15, 2023 which will be replaced by a permanent facility that is currently under construction and is estimated to open in late December 2024. As the managing member, the Company will operate the business and manage the development, construction, financing, marketing, leasing, maintenance and day-to-day operation of the various phases of the project.

Subsequent to March 31, 2024, Caesars Virginia, LLC, a subsidiary of CVA Holdco, LLC, entered into a five-year term loan and revolving credit facility agreement totaling \$425 million on April 26, 2024.

Pompano Joint Venture

In April 2018, the Company entered into a joint venture with Cordish Companies ("Cordish") to plan and develop a mixed-use entertainment and hospitality destination expected to be located on unused land adjacent to the casino and racetrack at the Company's Pompano property. As the managing member, Cordish will operate the business and manage the development, construction, financing, marketing, leasing, maintenance and day-to-day operation of the various phases of the project. Additionally, Cordish will be responsible for the development of the master plan for the project with the Company's input and EBCI will submit it for the Company's review and approval. While the Company holds a 50% variable interest in the joint venture, it is not the primary beneficiary; as such, the investment in the joint venture is accounted for using the equity method and is recorded in Investment in and advances to unconsolidated affiliates on the Balance Sheet. The Company participates evenly with Cordish in the profits and losses of the joint venture, which are included in Transaction and other minority partners are obligated costs, net on the Statements of Operations.

As of March 31, 2024, the Company has contributed a total of \$7 million in cash contributions since inception of the joint venture, which includes capital calls totaling \$3 million in October 2023 that the Company elected to participate in. Additionally, the Company has contributed approximately 209 acres of land with a total fair value of approximately \$69 million. The Company has no further obligation to contribute additional cash totaling \$24 real estate or cash. During the year ended December 31, 2023, the Company recorded \$64 million of income related to the investment, primarily due to the joint venture's gain on the sale of a land parcel. As of both March 31, 2024 and December 31, 2023, the Company's investment in the joint venture was \$147 million and is recorded in Investments in and advances to unconsolidated affiliates on the Balance Sheets.

The executive decision maker of the Company reviews operating results, assesses performance and makes decisions on a "significant market" basis. Management views each of the Company's casinos as an operating segment. Operating segments are aggregated based on their similar economic characteristics, types of customers, types of services and products provided, and their management and reporting structure. The Company's principal operating activities occur in four reportable segments. The reportable segments are based on the similar characteristics of the operating segments with the way management assesses these results and allocates resources, which is a consolidated view that adjusts for the effect of certain transactions between these reportable segments within Caesars: (1) Las Vegas, (2) Regional, (3) Caesars Digital, and (4) Managed and Branded, in addition to Corporate and Other. See table below for a summary of these segments. Also, see Note 3 and Note 4 and Note 5 for a discussion of any impairment of intangible assets or long-lived assets related to certain segments, when applicable.

Reconciliation of Net Income (Loss) Attributable to Caesars to Adjusted EBITDA by Segment

Adjusted EBITDA is presented as a measure of the Company's performance. Adjusted EBITDA is defined as revenues less certain operating expenses and is comprised of net income (loss) before (i) interest income and interest expense, net of interest capitalized, (ii) income tax (benefit) provision, (iii) depreciation and amortization, and (iv) certain items that we do not consider indicative of our ongoing operating performance at an operating property level.

In evaluating Adjusted EBITDA you should be aware that, in the future, we may incur expenses that are the same or similar to some of the adjustments in this presentation. The presentation of Adjusted EBITDA should not be construed as an inference that future results will be unaffected by unusual or unexpected items.

Adjusted EBITDA is a financial measure commonly used in our industry and should not be construed as an alternative to net income (loss) as an indicator of operating performance or as an alternative to cash flow provided by operating activities as a measure of liquidity (as determined in accordance with GAAP). Adjusted EBITDA may not be comparable to similarly titled measures reported by other companies within the industry. Adjusted EBITDA is included because management uses Adjusted EBITDA to measure performance and allocate resources, and believes that Adjusted EBITDA provides investors with additional information consistent with that used by management.

Overview

We are a geographically diversified gaming and hospitality company that was founded in 1973 by the Carano family with the opening of the Eldorado Hotel Casino in Reno, Nevada. Beginning in 2005, we grew through a series of acquisitions, including the acquisition of MTR Gaming Group, Inc. in 2014, Isle of Capri Casinos, Inc. in 2017, Tropicana Entertainment, Inc. in 2018, Caesars Entertainment Corporation in 2020 and William Hill PLC on April 22, 2021, in 2021. Our ticker symbol on the NASDAQ Stock Market is "CZR."

We own, lease, brand, or manage an aggregate of 53 domestic properties in 18 states with approximately **52,500** **50,500** slot machines, video lottery terminals and e-tables, approximately 2,700 table games and approximately **46,900** **45,000** hotel rooms as of **September 30, 2023** **March 31, 2024**. In addition, we have other domestic and international properties **in North America** that are authorized to use the brands and marks of Caesars Entertainment, Inc., as well as other non-gaming properties. Our primary source of revenue is generated by our casino properties' gaming operations, our retail and online sports betting, as well as our and online gaming, and we utilize our hotels, restaurants, bars, entertainment, racing, retail shops and other services to attract customers to our properties.

As of **September 30, 2023** **March 31, 2024**, we owned 22 of our casinos and leased **25** **24** casinos in the U.S. We lease 18 casinos from VICI Properties L.P., a Delaware limited partnership ("VICI"), pursuant to a regional lease, a Las Vegas lease and a Joliet lease (the "VICI Leases"). In addition, we lease six casinos from GLP Capital, L.P., the operating partnership of Gaming and Leisure Properties, Inc. ("GLPI") pursuant to a Master Lease (as amended, the "GLPI Master Lease") and a Lumière lease associated with our Horseshoe St. Louis property (together with the GLPI Master Lease, the "GLPI Leases") and leased the Rio All-Suite Hotel & Casino from a separate third party until October 2, 2023, at which time operations were assumed by the lessor.

Investments and Partnerships

Pompano Joint Venture

In April 2018, we entered into a joint venture with Cordish Companies ("Cordish") to plan and develop a mixed-use entertainment and hospitality destination expected to be located on unused land adjacent to the casino and racetrack at our Pompano property. As the managing member, Cordish will operate the business and manage the development, construction, financing, marketing, leasing, maintenance and day-to-day operation of the various phases of the project. Additionally, Cordish will be responsible for the development of the master plan for the project with our input and will submit it for our review and approval.

While we hold a 50% variable interest in the joint venture, we are not the primary beneficiary; as such, the investment in the joint venture is accounted for using the equity method. We participate evenly with Cordish in the profits and losses of the joint venture, which are included in Transaction and other costs, net on our the Statements of Operations.

As of March 31, 2024, we have contributed a total of \$7 million in cash contributions since inception of the joint venture, which include capital calls totaling \$3 million in October 2023 that we elected to participate in. Additionally, we have contributed approximately 209 acres of land with a total fair value of approximately \$69 million. We have no further obligation to contribute additional real estate or cash. During the year ended December 31, 2023, we recorded \$64 million of income related to the investment, primarily due to the joint venture's gain on the sale of a land parcel. As of both September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, our investment in the joint venture was \$80 \$147 million and is recorded in Investments in and advances to unconsolidated affiliates on the Balance Sheets. We have no further obligation to contribute additional real estate or cash as of September 30, 2023.

NeoGames

We held an investment in NeoGames S.A., a global leader of iLottery solutions and services to national and state-regulated lotteries, and other investments. On March 14, 2022, we sold our investment at fair value for \$26 million and recorded a loss of \$34 million during the nine months ended September 30, 2022, which is included within Other income (loss) on the Statements of Operations.

Reportable Segments

Segment results in this MD&A are presented consistent with the way our management reviews operating results, assesses performance and makes decisions on a "significant market" basis. Management views each of the Company's casinos as an operating segment. Operating segments are aggregated based on their similar economic characteristics, types of customers, types of services and products provided, and their management and reporting structure. Our principal operating activities occur in four reportable segments: (1) Las Vegas, (2) Regional, (3) Caesars Digital, and (4) Managed and Branded, in addition to Corporate and Other.

Presentation of Financial Information

The presentation of financial information herein for the periods after the sale of our completed divestitures, described above, divestiture of Rio All-Suite Hotel & Casino ("Rio") in the third quarter of 2023 is not fully comparable to the periods prior to their respective sale dates. such divestiture.

This MD&A is intended to provide information to assist in better understanding and evaluating our financial condition and results of operations. Our historical operating results may not be indicative of our future results of operations because of the factors described in the preceding paragraph and the changing competitive landscape in each of our markets,

Key Performance Metrics

Our primary source of revenue is generated by our gaming operations, our retail and online sports betting, as well as our online gaming. Additionally, we utilize our hotels, restaurants, bars, entertainment venues, retail shops, racing and other services to attract customers to our properties. Our operating results are highly dependent on the volume and quality of customers staying at, or visiting, our properties and using our sports betting and iGaming applications.

Key performance metrics include volume indicators such as drop or handle, which refer to amounts wagered by our customers. The amount of volume we retain, which is not fully controllable by us, is recognized as casino revenues and is referred to as our win or hold. Slot win percentage is typically in the range of approximately 9% to 11% of slot handle for both the Las Vegas and Regional segments. Table game hold percentage is typically in the range of approximately 16% to 23% of table game drop in both the Las Vegas and Regional segments. Sports betting hold is typically in the range of 5% to 10% and iGaming hold typically ranges from 3% to 5%. In addition, hotel occupancy, which is the average percentage of available hotel rooms occupied during a period, is a key indicator for our hotel business in the Las Vegas segment. See "Results of Operations" section below. Complimentary and discounted rooms are treated as occupied rooms in our calculation of hotel occupancy. The key metrics we utilize to measure our profitability and performance are Adjusted EBITDA and Adjusted EBITDA margin.

Significant Factors Impacting Financial Results

The following summary highlights the significant factors impacting our financial results for the three **and nine** months ended **September 30, 2023** **March 31, 2024** and **2022**; **2023**:

- **New Developments and Re-openings** – During the construction of the permanent facilities for Caesars Virginia and Harrah's Columbus Nebraska, we opened temporary gaming facilities during the second quarter of 2023. Caesars Virginia's temporary facility opened on May 15, 2023 and the permanent facility is scheduled to open in December 2024. Harrah's Columbus Nebraska's temporary facility was opened on June 12, 2023. In addition to the temporary facilities, the reopening of Horseshoe Lake Charles through March 20, 2024 when it was closed in December 2022 has contributed to the Regional segment's performance when compared to the prior year period.
- **Economic Factors Impacting Discretionary Spending** – Gaming and other leisure activities we offer represent discretionary expenditures which may be sensitive to economic downturns, such as the resurgence anticipation of the Omicron variant of COVID-19 that negatively impacted the first quarter of 2022. We also monitor recent trends, including higher inflation and interest rates, and the related effects on our customers, and our operations permanent facility opening in May 2024.
- **Caesars Sportsbook, Caesars Racebook and iGaming mobile apps** – During the three months ended September 30, 2023, we launched We continue to launch Caesars Sportsbook and Caesars Racebook in new jurisdictions, we migrated and our sports betting platform to Liberty in the state of Nevada, and we launched our new online and mobile iGaming application, Caesars Palace Online Casino. During Casino, launched in the nine months ended September 30, 2023, promotional and marketing expenses have significantly decreased as compared to the prior year period. summer of 2023. As new states and jurisdictions have legalized sports betting, we have made varying degrees of upfront investments which have been executed through marketing campaigns and promotional incentives to

acquire new customers and establish our presence in the new state or jurisdiction. In connection During the three months ended March 31, 2024 and 2023, we increased our promotional spend with the launch of our Caesars Sportsbook app in the state of New York North Carolina in March 2024 and Louisiana Ohio and Massachusetts in January 2022, we experienced negative net revenue in the first quarter of 2022 resulting from a substantial amount of bonus cash and matched deposits issued to customers as sign-on incentives, which exceeded our gaming win. March 2023, respectively. We continue to adjust our level of investment during the launch period in new jurisdictions based, in part, on prior experience and do not expect such investment to continue at elevated levels subsequent to the initial launch period. periods.

- **Debt Transactions** – During the three months ended March 31, 2024 and 2023, we refinanced \$4.4 billion of debt for both periods. See Liquidity and Capital Resources below for 2024 transaction. As a result of these transactions, we recorded loss on early extinguishment of debt on the Statements of Operations of \$48 million and \$197 million, for the three months ended March 31, 2024 and 2023, respectively.
- **Income Taxes** – Management assesses the available positive and negative evidence to estimate if sufficient future taxable income will be generated to use existing deferred tax assets. During the second quarter of 2023, we evaluated our forecasted adjusted taxable income and objectively verifiable evidence and placed substantial weight on our 2022 and 2023 quarterly earnings, adjusted for non-recurring items, including the interest expense disallowed under current tax law. Accordingly, we determined it was more likely than not that a portion of the federal and state deferred tax assets will be realized and, as a result, during the second quarter of 2023, we reversed the valuation allowance related to these deferred tax assets and recorded an income tax benefit of \$940 million. We are still carrying a valuation allowance on certain federal and state deferred tax assets that are not more likely than not to be realized in the future. We have assessed the changes to the valuation allowance, including realization of the disallowed interest expense deferred tax asset, using the integrated approach.

- **Divestitures and Discontinued Operations Economic Factors Impacting Discretionary Spending** – See “Overview” section above for detail. Gaming and other leisure activities we offer represent discretionary expenditures which may be sensitive to economic downturns which impacts our customer mix differently. We also monitor recent trends, including higher inflation, interest rates, and global hostilities, and the related effects on properties divested, including related discontinued travel, our customers, and our operations.

Net revenues

Consolidated net revenues increased decreased for the three months ended September 30, 2023 as March 31, 2024 primarily due to a decline in casino revenues in our Las Vegas segment driven by lower table game hold in addition to the decrease in gaming volume associated with the divestiture of Rio in the third quarter of 2023 and unfavorable timing of major city-wide conventions for the current quarter compared to the same prior year period primarily due to the period. Additionally, our Regional segment which benefited was impacted by inclement weather in several of our regional property locations during the current quarter causing declines in gaming volume. These results were partially offset by improved performance in our Caesars Digital segment and net revenues generated from the opening of two our temporary gaming facilities at Caesars Virginia on May 15, 2023 and Harrah's Columbus Nebraska on June 12, 2023, as well as the reopening of Horseshoe Lake Charles in December 2022. Net revenues for the nine months ended September 30, 2023 improved primarily due to gaming revenues in the Caesars Digital segment from additional state launches of our online and retail Caesars Sportsbooks. Promotional allowances offered during launches in new jurisdictions have been significantly reduced year over year. In addition, hotel occupancy rates within the Las Vegas segment continue to improve as compared to the prior year periods. Notably, the Omicron variant of COVID-19 negatively impacted prior year results during the first second quarter of 2022 across substantially all of our properties, including disruptions to group and conventions, banquets, and scheduled concert events. These results were

35

partially offset by increased competition associated with new casino resorts opening in some of our regional markets, construction disruptions, and inclement weather across the country, particularly in northern Nevada, which restricted travel in the first quarter of 2023. The Company continues to expand partnerships with iconic entertainers to host concerts and performances, and celebrity chefs to offer new food and beverage venues.

Interest expense, net increased decreased for the three and nine months ended September 30, 2023 March 31, 2024, as compared to the same prior year period primarily due to annual escalators in our financing obligations related to our VICI Leases, including escalators based on the Consumer Price Index ("CPI") that take effect in November of each year. In addition, rising interest rates have negatively impacted our borrowing rates, however, our efforts to reduce outstanding debt has resulted in a decrease of interest expense related to debt service from our efforts to reduce outstanding debt and additional capitalized interest resulting from the ongoing construction of our new permanent facilities. This was slightly offset by the increase from the annual rent escalator associated with our VICI Leases.

For the three months ended September 30, 2023 compared to the same prior year period.

For the three and nine months ended September 30, 2023 and 2022, March 31, 2024, loss on extinguishment of debt was primarily related to the prepayments of the CEI Senior Secured Notes due 2025 and the Caesars Resort Collection ("CRC") Senior Secured Notes. The income tax benefit for the nine three months ended September 30, 2023 March 31, 2023 differed from the expected income tax benefit based on the federal tax rate of 21% primarily due to the partial release of federal and state valuation allowances.

Our Las Vegas segment's net revenues, increased net income, Adjusted EBITDA, and Adjusted EBITDA margin decreased for the three months ended September 30, 2023 March 31, 2024, as compared to the same prior year period. Net revenues were negatively impacted by lower casino volumes associated with the divestiture of Rio in the third quarter of 2023 and unfavorable timing of major city-wide conventions for the current quarter compared to the same prior year period. In addition, table game hold decreased significantly from the high end of our typical range for the same prior year period primarily related to the lower end of our expected range. The Las Vegas segment was also negatively impacted by higher operating costs associated with (a) higher union and non-union wages, (b) increased employee head count associated with new food and beverage offerings and entertainment. Food and beverage revenues are driven by higher restaurant covers and improved product mix (c) increased promotional costs associated with additions of casual and premier dining venues, special events held over the Super Bowl weekend. Other revenue increased decreased primarily due to lower entertainment related revenues from a reduction in headliner performances in the current year compared to prior year. These increases have been offset, in part, by increases in overall wages and headcount within union and non-union team members. Additionally, our Las Vegas segment continues to face access challenges related to construction disruption and roadwork on and around the Las Vegas Strip. As a result, Las Vegas segment's net income and Adjusted EBITDA margin decreased slightly and Adjusted EBITDA remained consistent for the three months ended September 30, 2023 quarter, compared to the prior year period.

Las Vegas segment's net revenues, net income and Adjusted EBITDA increased for the nine months ended September 30, 2023. In addition to the third quarter results described above, during the first quarter of 2022, the resurgence of the Omicron variant of COVID-19 had a significant negative impact on visitation, group and conventions, and scheduled concert events. As a result, on a year-to-date basis, Las Vegas segment has experienced increased visitation which has driven higher hotel occupancy, improved room rates, higher food and beverage revenues and additional entertainment revenues as compared to the same prior year period.

For the three and nine months ended September 30, 2023 March 31, 2024, slot win percentage in the Las Vegas segment was within our typical range.

Our Regional segment's net revenues increased/decreased slightly for the three and nine months ended September 30, 2023/March 31, 2024, as compared to the same prior year period, primarily related due to incremental net revenues generated from the reopening of Horseshoe Lake Charles inclement weather in the fourth quarter of 2022 and the opening several of our temporary regional property locations that negatively impacted visitor volume. The Regional segment has also experienced declines in gaming facilities at Caesars Virginia on May 15, 2023 volume from a shift in customer mix as our higher rated play has remained steady with some growth, offset slightly by a reduction in lower tiered and Harrah's Columbus Nebraska on June 12, 2023. These increases were partially offset by unrated play. Additionally, the continued impact of competition associated with new casino resorts opening in some of our regional markets and ongoing construction disruption from renovation projects at certain of our properties and inclement weather across within the country, particularly in northern Nevada, which restricted travel in the first quarter of 2023. In addition, wage and headcount increases resulted in higher labor costs for the three and nine months ended September 30, 2023. As a result, Adjusted EBITDA remained relatively consistent as compared segment contributed to the prior year periods. Increased interest expense associated with decline in casino revenues. These negative factors were partially offset by the opening of our VICI Leases and additional depreciation expense related to our new temporary gaming facilities led to a decline at Caesars Virginia and Harrah's Columbus Nebraska during the second quarter in net income for the three and nine months ended September 30, 2023 as compared to prior year, 2023.

Slot win percentage in the Regional segment for the three and nine months ended September 30, 2023/March 31, 2024 was within our typical range.

Hold related to these operations was **8.9%** **9.8%** and **14.0%** **10.4%**, for the three months ended **September 30, 2023** **March 31, 2024** and **2022**, respectively, and **10.1%** for both of the nine months ended **September 30, 2023** and **2022, 2023**, respectively. Caesars Digital reflects the operations for retail and mobile online sports betting, online casino, iGaming, poker, and horse racing, which includes our Caesars Sportsbook, Caesars Racebook and iGaming mobile apps.

Caesars Digital's net revenues, net loss, Adjusted EBITDA, and Adjusted EBITDA margin improved increased for the three months ended **September 30, 2023** as compared to the same prior year period. During the third quarter of 2023, we completed the migration of sports betting operations in the state of Nevada to the Liberty platform and launched our new Caesars Palace Online Casino application in states and territories where we operate iGaming. In addition, we completed the launch of mobile sports betting in Kentucky and Puerto Rico. Strong sports betting and iGaming handle was slightly offset by decreased hold during the period and we significantly reduced marketing expenses which drove the improvement in net loss, Adjusted EBITDA and Adjusted EBITDA margin during the third quarter of 2023.

Caesars Digital's net revenues, net loss, Adjusted EBITDA, and Adjusted EBITDA margin improved for the nine months ended **September 30, 2023** **March 31, 2024**, as compared to the same prior year period, primarily due to higher iGaming handle and hold. Sports betting hold improved for the three months ended **March 31, 2024** compared to prior year, however, it remains at the lower year over year promotional and marketing expenses for launches in new states and jurisdictions, coupled with higher sports betting hold. We experienced negative net revenue end of our expected range due to less favorable hold during large sporting events in the first quarter of 2022 as a result of current quarter. Both current year and prior year periods were negatively impacted with increased promotional offerings for new state launches in New York and Louisiana. We have refined our promotional intensity spend during the launch period of Caesars Sportsbook in new jurisdictions based, North Carolina in part, on prior experience March of 2024 and do not expect such investments to continue at elevated levels subsequent to initial launch periods, Ohio and Massachusetts in January and March of 2023, respectively.

As sports betting and online casinos expand through increased state or jurisdictional legalization, new product launches, and customer adoption, variations in hold percentages and increases in promotional and marketing expenses in highly competitive markets during promotional periods may negatively impact Caesars Digital's net revenues, net income, Adjusted EBITDA and Adjusted EBITDA margin in comparison to current or prior periods.

Sports betting and iGaming hold percentages in the Caesars Digital segment for the three and nine months ended **September 30, 2023** **March 31, 2024** were within our typical range.

We manage several properties and license rights to the use of certain of our brands. These revenue agreements typically include reimbursement of certain costs that we incur directly. Such costs are primarily related to payroll costs incurred on behalf of the properties under management. The revenue related to these reimbursable management costs has a direct impact on our evaluation of Adjusted EBITDA margin which, when excluded, reflects margins typically realized from such agreements. The table below presents the amount included in net revenues and total operating expenses related to these reimbursable costs. In September 2023, we recorded \$25 million of additional other revenue related to the termination of the Caesars Dubai management agreement, which has been excluded from Adjusted EBITDA.

Supplemental Unaudited Presentation of Consolidated Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization ("Adjusted EBITDA") for the Three and Nine Months Ended September 30, 2023 March 31, 2024 and 2022 2023

Adjusted EBITDA (described below), a non-GAAP financial measure, has been presented as a supplemental disclosure because it is a widely used measure of performance and basis for valuation of companies in our industry and we believe that this non-GAAP supplemental information will be helpful in understanding our ongoing operating results. Management has historically used Adjusted EBITDA when evaluating operating performance because we believe that the inclusion or exclusion of certain recurring and non-recurring items is necessary to provide a full understanding of our core operating results and as a means to evaluate period-to-period results. Adjusted EBITDA represents net income (loss) before interest income or interest expense net of interest capitalized, (benefit) provision for income taxes, depreciation and amortization, stock-based compensation expense, (gain) loss on investments and marketable securities, stock-based compensation, extinguishment of debt, impairment charges, equity in other (income) loss, of unconsolidated affiliates, (gain) loss on the sale or disposal of property and equipment, (gain) loss related net income (loss) attributable to divestitures, changes in the fair value of certain derivatives and noncontrolling interests, transaction costs associated with our acquisitions, developments, and divestitures, such as (gain) loss on sale, sign-on

41

and retention bonuses, severance expense, business integration and optimization costs, contract exit or termination costs, certain litigation awards and settlements, and certain regulatory settlements, non-cash changes in equity method investments. Adjusted EBITDA also excludes the expense associated with certain of our leases as these transactions were accounted for as financing obligations and the associated expense is included in interest expense. Adjusted EBITDA is not a measure of performance or liquidity calculated in accordance with accounting principles generally accepted in the United States ("GAAP"). It Adjusted EBITDA is unaudited and should not be considered an alternative to, or more meaningful than, net income (loss) as an indicator of our operating performance. Uses of cash flows that are not reflected in Adjusted EBITDA include capital expenditures, interest payments, income taxes, debt principal repayments, and payments under our leases with

33

affiliates of GLPI VICI Properties Inc. and VICI and certain regulatory gaming assessments, GLPI, which can be significant. As a result, Adjusted EBITDA should not be considered as a measure of our liquidity. Other companies that provide EBITDA information may calculate Adjusted EBITDA differently than we do. The definition of Adjusted EBITDA may not be the same as the definitions used in any of our debt agreements.

The following tables summarizes our Adjusted EBITDA for the three and nine months ended September 30, 2023 March 31, 2024 and 2022, 2023, respectively, in addition to reconciling net income (loss) to Adjusted EBITDA in accordance with GAAP (unaudited):

Liquidity and Capital Resources

We are a holding company, and our only significant assets are ownership interests in our subsidiaries. Our ability to fund our obligations depends on existing cash on hand, cash flows from our subsidiaries and our ability to raise capital. Our primary sources of liquidity and capital resources are existing cash on hand, cash flows from operations, availability of borrowings under our revolving credit facility and proceeds from the issuance of debt and equity securities and proceeds from completed asset sales. Our cash requirements may fluctuate significantly depending on our decisions with respect to business acquisitions or divestitures and strategic capital and marketing investments.

As of **September 30, 2023** **March 31, 2024**, our cash on hand and revolving borrowing capacity was as follows:

The CEI Term Loan B-1 requires **scheduled** **quarterly** **amortization** **principal** payments in amounts equal to 0.25% of the original aggregate principal amount of the CEI Term Loan B, with the balance payable at maturity. The amount and timing of any repurchase will be based on business and market conditions, capital availability, compliance with debt covenants and other considerations.

Excluding joint venture capital expenditure, we estimate 2024 cash capital expenditure spend of Caesars Virginia approximately \$800 million.

A significant portion of our liquidity needs are for debt service and payments associated with our leases. Our estimated debt service (including principal and interest) is approximately \$116 million \$682 million for the remainder of 2023 2024. We also lease certain real property assets from third parties, including VICI and GLPI. The VICI Leases are subject to annual escalations, that take effect in November of each year, based on the CPI. The increase in the CPI over the prior year resulted in an increase in our annual lease payments to VICI. Consumer Price Index. We estimate our lease payments to VICI and GLPI to be approximately \$325 \$988 million for the remainder of 2023, 2024.

We have periodically divested assets to raise capital or, in previous cases, to comply with conditions, terms, obligations or restrictions imposed by antitrust, gaming and other regulatory entities. If an agreed upon selling price for future divestitures does not exceed the carrying value of the assets, we may be required to record additional impairment charges in future periods which may be material.

We expect that our current liquidity, including availability of borrowings under our committed credit facility and cash flows from operations will be sufficient to fund our operations, capital requirements and service our outstanding indebtedness for the next twelve months.

Long-term variable-rate borrowings under the CEI Term Loans represented approximately **26%** **49%** of consolidated long-term debt as of **September 30, 2023** **March 31, 2024**. As of **September 30, 2023** **March 31, 2024**, the weighted average interest rates on our variable and fixed rate debt were **8.33%** **8.16%** and **6.47%** **6.70%**, respectively.

45

All of our variable rate debt instruments are subject to Term SOFR interest rates plus a reasonable margin.

We evaluate our exposure to market risk by monitoring interest rates in the marketplace and have, on occasion, utilized derivative financial instruments to help manage this risk. We do not utilize derivative financial instruments for trading purposes. There **were** **have been** no other material quantitative changes in our market risk exposure, or how such risks are managed **for** **from** the **nine** months ended **September 30, 2023**. information previously reported under Part II, Item 7A of the 2023 Annual Report.

Item 1A. Risk Factors

A description of our risk factors can be found in "Part I, Item 1A. Risk Factors" included in our the 2023 Annual Report on Form 10-K for the year ended December 31, 2022. Except as set forth below, there Report. There have been no material changes to those risk factors during the nine three months ended September 30, 2023 March 31, 2024.

Compromises of our information systems or unauthorized access to confidential information or our customers' personal information could materially harm our reputation and business.

We collect and store confidential, personal information relating to our customers for various business purposes, including marketing and financial purposes, and credit card information for processing payments. For example, we handle, collect and store personal information in connection with our customers staying at our hotels and enrolling in Caesars Rewards. We may share this personal and confidential information with vendors or other third parties in connection with processing of transactions, operating certain aspects of our business, or for marketing purposes. Our collection and use of personal data are governed by state and federal privacy laws and regulations as well as the applicable laws and regulations in other countries in which we operate. Privacy law is subject to frequent changes and varies significantly by jurisdiction. We may incur significant costs in order to ensure compliance with the various applicable privacy requirements. In addition, privacy laws and regulations may limit our ability to market to our customers.

We assess and monitor the security of collection, storage, and transmission of customer information on an ongoing basis, including utilizing commercially available software and technologies to monitor, assess and secure our network. Further, some of the systems currently used for transmission and approval of payment card transactions and the technology utilized in payment cards themselves, all of which can put payment card data at risk, are determined and controlled by the payment card industry, and other such systems are determined and controlled by us. Although we had taken steps designed to safeguard our customers' confidential personal information and important internal company data, on September 14, 2023, we announced that we identified suspicious activity in our information technology network resulting from a social engineering attack on one of our outsourced IT support vendors and that we determined that the unauthorized actor acquired a copy of, among other data, our loyalty program database, which includes driver's license numbers and/or social security numbers for a significant number of members in the database (the "Data Incident"). We took steps to ensure that the stolen data was deleted by the unauthorized actor and we believe we have taken appropriate steps, working with industry-leading third-party IT advisors, to harden our systems and implement corrective measures to protect against future attacks that could pose a threat to our systems. We have also taken steps to ensure that the specific outsourced IT support vendor involved in this matter has implemented corrective measures to protect against future attacks that could pose a threat to our systems. While we took these actions, we cannot assure that the stolen data was deleted by the unauthorized actor or that our network and other systems and those of third parties, such as service providers, will not be compromised, damaged, or disrupted by a third-party breach of our system security or that of a third-party provider or as a result of purposeful or accidental actions of third parties, our employees, or those employees of a third party, power outages, computer viruses, system failures, natural disasters, or other catastrophic events in the future.

Our third-party information system service providers face risks relating to cybersecurity similar to ours, and we do not directly control any of such parties' information security operations. As an example, the Data Incident arose from a social engineering attack on one of our outsourced IT vendors. Advances in computer and software capabilities, encryption technology, new tools, and other developments may increase the risk of a future security breach. As a result of the Data Incident, customer information and other data was accessed by an unauthorized actor. Any future security breach, may also result in customer information or other proprietary data being accessed or transmitted by or to a third party. Despite the measures we have implemented to safeguard our information, including actions taken following the Data Incident, there can be no assurance that we are adequately protecting our information.

As a result of the Data Incident, we have become subject to multiple lawsuits and inquiries from state regulators and we may become subject to additional lawsuits, claims and inquiries related to the Data Incident. While the Data Incident did not impact our customer-facing operations, we are unable to predict the full impact of the Data Incident, including any regulatory effects or changes in guest behavior in the future, including whether a change in our guests' behavior could negatively impact our financial condition and results of operations on an ongoing basis.

4840

We have cybersecurity insurance to respond to a breach which is designed to cover expenses associated with a cybersecurity incident, including costs related to notification, credit monitoring, investigation, crisis management, public relations and legal advice. We also carry other insurance which may cover ancillary aspects of cybersecurity events. While we have submitted claims for insurance coverage relating to the costs incurred as a result of the Data Incident, we are not certain of the extent to which such coverage or third-party indemnification will cover such costs.

Any future data security breaches giving rise to a loss, disclosure of, misappropriation of, or access to customers' or other proprietary information or other breach of our information security could result in additional legal claims or legal proceedings, including regulatory investigations and actions, or liability for failure to comply with privacy and information security laws, including for failure to protect personal information or for misusing personal information could damage our reputation, and expose us to additional claims from customers, financial institutions, regulators, payment card associations, employees, and other persons, any of which could have an adverse effect on our financial condition, results of operations, and cash flow.

Any such damages and claims arising from a future breach may not be completely covered or may exceed the amount of any insurance available.

Our operations, and particularly our digital betting and gaming operations, are reliant on information technology and other systems and services, and any failures, errors, defects or disruptions in our systems or services could adversely affect our operations.

Our technology infrastructure is critical to the performance of our digital betting and gaming operations and to user satisfaction and we rely significantly on our computer systems and software to receive and properly process internal and external data, including data related to Caesars Rewards. We devote significant resources to our technology infrastructure, but our systems may not be adequate to avoid performance delays or outages that could be harmful to our online business. In addition, while we believe we have taken appropriate steps, working with industry-leading third-party IT advisors, to harden our systems following the Data Incident and implement corrective measures to protect against future attacks that could pose a threat to our systems, we cannot assure you that such measures or any additional measures we take to prevent cyber-attacks and protect our systems, data and user information and to prevent outages, data or information loss, fraud and to prevent or detect security breaches will be sufficient to ensure uninterrupted operation of our digital platform and provide absolute security. We have experienced, and we may in the future experience, website disruptions, outages and other performance problems due to a variety of factors, including infrastructure changes, human or software errors and capacity constraints. Disruptions from unauthorized access to, fraudulent manipulation of, or tampering with our computer systems and technological infrastructure, or those of third parties that provide support to our operations, could result in a wide range of negative outcomes, each of which could materially adversely affect the operation of our online business and our financial condition, results of operations and prospects.

Additionally, our computer systems and software may fail or may contain errors, bugs, flaws or corrupted data, and these defects may only become apparent after the launch of our online products. These types of issues could disrupt our operations or render a product unavailable when users attempt to access it or cause access to our offerings to be slower than our users expect. Inaccessibility or slow access to our products could make users less likely to return to our digital platform as often, if at all, or to recommend our offerings to other potential users, which could harm our brand perception, cause our users to stop utilizing our online offerings, divert our resources and delay market acceptance of our online offerings.

Our information systems are not fully redundant and our disaster recovery planning cannot account for all eventualities. If our systems are damaged, breached, attacked, interrupted, or otherwise cease to function properly, we may have to make a significant investment to repair or replace them, and may experience loss or corruption of critical data as well as suffer interruptions in our business operations in the interim.

We expect that we will continue to expand our online betting and gaming offerings as our user base grows and we enter into new markets, which will require an enhancement of our technical infrastructure, including network capacity and computing power, and may require additional reliance on third party providers to support the growth of our digital business and to satisfy our users' needs. Such infrastructure expansion may be complex and costly, and unanticipated delays in completing these projects or availability of components may lead to increased project costs, operational inefficiencies, or interruptions in the delivery or degradation of the quality of our offerings. In addition, there may be issues related to our online infrastructure that are not identified during the testing phases of design and implementation and become evident after we have started to fully use the underlying equipment or software, which could impact the user experience or increase our costs. An inability to effectively scale our technical infrastructure to accommodate increased demands could adversely impact our ability to grow our digital betting and gaming business.

49

Work stoppages and other labor problems could negatively impact our future profits.

As of December 31, 2022, we had collective bargaining agreements covering approximately 21,000 employees. The collective bargaining agreement with the Culinary Workers Union covering approximately 11,000 of our Las Vegas employees expired on September 15, 2023 and members of the Culinary Workers Union voted to authorize a strike. While we continue to negotiate the terms of a collective bargaining agreement with the Culinary Workers Union, there can be no assurance regarding the terms or the timing of such an agreement. A lengthy strike or other work stoppages at any of our casino properties could have an adverse effect on our business and results of operations. From time to time, we have also experienced attempts by labor organizations to organize certain of our non-union employees. These efforts have achieved some success to date. We cannot provide any assurance that we will not experience additional and successful union activity in the future. The impact of this union activity is undetermined and could negatively impact our results of operations.

TO THE
AMENDED AND RESTATED EXECUTIVE EMPLOYMENT AGREEMENT

RECITALS

WHEREAS, the Executive and the Company desire to amend the Amended and Restated Executive Employment Agreement, by and between Executive and the Company, dated as of August 10, 2022 (the “2022 Agreement”), as provided for herein;

WHEREAS, capitalized terms used but not otherwise defined herein shall have the meanings assigned to such terms in the 2022 Agreement; and

NOW, THEREFORE, in consideration and exchange for the foregoing, the parties hereto hereby amend the 2022 Agreement as follows, effective as of the date first written above:

1. The first sentence of Article 2 of the 2022 Agreement is hereby amended and restated in its entirety as follows:

The Term of Employment shall begin on the Effective Date, and shall extend until January 1, 2027 (the “Term”), with automatic one (1) year renewals (each a “Renewal Term”) upon the expiration of the Term or the current Renewal Term, as applicable, unless either Party notifies the other at least three (3) months before the scheduled expiration date of the Term or Renewal Term, as applicable, that this Agreement is not to renew; provided that in the event of a Change in Control the Term or then current Renewal Term shall automatically be extended an additional two (2) years from the date of consummation of such Change in Control (and such two (2) year extension period shall be a “Renewal Term” for purposes of this Agreement).

2. The first sentence of Article 4 of the 2022 Agreement is hereby amended and restated in its entirety as follows:

Effective as of January 1, 2024, the Executive shall be paid an annualized Base Salary, payable in accordance with the regular payroll practices of the Company, of not less than one million two hundred thousand dollars (\$1,200,000).

3. Article 9 of the 2022 Agreement is hereby amended and restated in its entirety as follows:

(a) Pursuant to the Prior Agreement, the Executive received a one-time special signing bonus in an amount equal to one million five hundred thousand dollars (\$1,500,000) (the “Signing Bonus”). If Executive’s employment with the Company terminates due to Executive’s resignation without Good Reason or by the Company for Cause, prior to January 1, 2025, the Executive agrees to repay a pro rata portion of the Signing Bonus to the Company, which shall be calculated based on the number of full calendar months remaining from the Date of Termination until January 1, 2025, divided by thirty-six (36) months (without reduction for any federal, state or local income and employment tax liability paid by the Executive).

(b) Subject to the approval of the Compensation Committee, the Executive will be granted a one-time sign-on award of 57,754 restricted stock units (“RSUs”). The RSUs will vest in equal one-third (1/3) installments on each of the first three (3) anniversaries of January 1, 2024 (i.e., January 1, 2025, January 1, 2026, and January 1, 2027), subject to the Executive’s continued service on each applicable vesting date. The sign-on RSU award will be subject to the terms, conditions and restrictions specified in the Parent’s Amended & Restated 2015 Equity Incentive Plan (as the same may be amended from time to time) and award agreement.

4. Article 31 of the 2022 Agreement is hereby amended and restated in its entirety as follows:

Notwithstanding any other provisions in this Agreement to the contrary, any incentive-based compensation, or any other compensation paid to the Executive pursuant to this Agreement or any other agreement or arrangement with the Parent, or any of its Subsidiaries or affiliates (including the Company), is subject to the Parent’s Policy for Recovery of Erroneously Awarded Compensation, effective as of December 1, 2023 (the “Clawback Policy”), and any amendments thereto (or any other policy adopted by the Parent or any of its Subsidiaries or affiliates (including the Company) pursuant to any such law, government regulation or stock exchange listing requirement). Executive acknowledges and agrees that Executive has no right to indemnification, insurance payments or other

5. Except as expressly amended by this Amendment, all of the terms of the 2022 Agreement shall remain in full force and effect.
