Certain information and footnote disclosures required by United States Generally Accepted Accounting Principles (“U.S. GAAP”) have been condensed or omitted as permitted by such rules. However, the Company believes that the disclosures included are adequate to make the information presented not misleading. In the opinion of management, all adjustments (including normal recurring adjustments) and disclosures necessary for a fair presentation of these interim financial statements have been included. The results reported in these interim financial statements do not necessarily indicate the results that may be reported for the entire year. These interim financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2023, included in the Company’s annual report on Form 10-K (the “2023 Annual Report”). The year-end balance sheet data was derived from the audited financial statements. Unless otherwise noted, there have been no material changes to the footnotes from those accompanying the audited consolidated financial statements contained in the 2023 Annual Report. </p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;text-indent:27.35pt;margin:0pt 0pt 12pt 0pt;">In the presentation, certain current liabilities in the <i style="font-style:italic;">Condensed Consolidated Interim Balance Sheet</i> for 2023 and certain operating cashflows in the <i style="font-style:italic;">Condensed Consolidated Interim Statement of Cash Flows</i> for 2023 have been reclassified to conform with current year presentation. These had no impact on total current liabilities and total operating cashflows previously presented. </p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;margin:0pt 0pt 12pt 0pt;"><b style="font-weight:bold;">2. Among the disclosure enhancements are new disclosures regarding significant segment expenses that are regularly provided to the chief operating decision-maker and included within each reported measure of segment profit or loss, as well as other segment items bridging segment revenue to each reported measure of segment profit or loss. The amendments in ASU 2023-07 are effective for fiscal years beginning after December 15, 2023, and for interim periods within fiscal years beginning after December 15, 2024, and are applied retrospectively. Early adoption is permitted. The Company will retrospectively adopt the segment disclosures required under this amendment in the year ended December 31, 2024 financial statements. The Company’s financial position and operating results, along with the Company’s inability to achieve its production estimates, raise substantial doubt about the Company’s ability to continue as a going concern, as reflected by </p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;margin:0pt;">the net losses of $42.3 million for the nine months ended September 30, 2024 and the cash and cash equivalents balance of $1.4 million as of September 30, 2024. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. Management is presently seeking financing to raise cash to provide for working capital. Failure to raise some form of long-term debt arrangement or additional equity capital will cause the Company to further reduce its working capital, and the Company may be compelled to place the mine on “care and maintenance” status and cease operations until sufficient capital is available. Additionally, even if the Company does raise sufficient capital to support its operating expenses and generate revenues, there can be no assurances that the revenue will be sufficient to enable it to achieve a level where it will generate profits and positive cash flows from operations.</p>-423000001400000<p style="font-family:'Times New Roman','Times','serif';font-size:10pt;margin:14pt 0pt 12pt 0pt;"><b style="font-weight:bold;">4. Income Taxes</b></p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;text-indent:27pt;margin:0pt 0pt 12pt 0pt;">The Company recorded an income tax benefit of $3.6 million and an income tax expense of $11.0 million, respectively, for the three and nine months ended September 30, 2024. For the three and nine months ended September 30, 2023, the Company recorded an income tax benefit of $2.7 million and $4.7 million, respectively. In accordance with applicable accounting rules, the interim provision for taxes is calculated using the estimated consolidated annual effective tax rate. The consolidated effective tax rate is a function of the combined effective tax rates for the jurisdictions in which the Company operates. Variations in the relative proportions of jurisdictional income could result in fluctuations to the Company’s consolidated effective tax rate. At the federal level, the Company’s income in the U.S. is taxed at 21%, and a 5% withholding tax applies to dividends received from Mexico. Income in Mexico is taxed at 37.5% (30% income tax and 7.5% mining tax), and Canada’s income is taxed at 26.5%, which results in a consolidated effective tax rate above statutory U.S. Federal rates. The U.S. and certain Canadian jurisdictions do not currently generate taxable income.</p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;text-indent:27pt;margin:14pt 0pt 0pt 0pt;"><span style="text-decoration-color:#000000;text-decoration-line:underline;text-decoration-style:solid;">Mexico Valuation Allowance </span></p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;text-indent:27pt;margin:14pt 0pt 0pt 0pt;">The Company recorded a valuation allowance on the Mexico Income Tax net deferred tax assets in 2024 for $17.9 million. In accordance with applicable accounting rules, a valuation allowance is recorded when it is more likely than not that some portion of the deferred tax assets will not be realized, after considering all available evidence, both positive and negative. The Company determined a valuation allowance on Mexico Income Tax deferred tax assets was necessary due primarily to the recent losses at the Mexico mine. </p><p style="font-family:'Calibri','Helvetica','sans-serif';font-size:10pt;text-indent:27pt;margin:14pt 0pt 12pt 0pt;"><span style="font-family:'Times New Roman','Times','serif';text-decoration-color:#000000;text-decoration-line:underline;text-decoration-style:solid;">Mexico Mining Taxation </span></p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;text-indent:27pt;margin:0pt 0pt 12pt 0pt;">Mining entities in Mexico are subject to two mining duties, in addition to the 30% Mexico corporate income tax: (i) a “special” mining duty of 7.5% of taxable income as defined under Mexican tax law (also referred to as “mining royalty tax”) on extraction activities performed by concession holders, and (ii) the “extraordinary” mining duty of 0.5% on gross revenue from the sale of gold, silver, and platinum. The mining royalty tax generally applies to earnings before income tax, depreciation, depletion, amortization, and interest. In calculating the mining royalty tax, there are no corporate deductions related to depreciable costs from operational fixed assets. However, prospecting and exploration expenses are amortized using a 10% rate in a 10-year straight line. Both duties are tax deductible for income tax purposes. As a result, the Company’s effective tax rate applicable to the Company’s Mexican operations is higher than Mexico’s statutory rate.</p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;text-indent:27pt;margin:0pt;">The Company periodically transfers funds from its Mexican wholly owned subsidiary to the U.S. as dividends, which are subject to a 10% Mexico withholding tax, unless otherwise provided per a tax treaty. The current U.S.-Mexico tax treaty limits the dividend withholding tax between these countries to 5%, as long as specific requirements are met. Based on the </p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;margin:0pt 0pt 12pt 0pt;">Company’s understanding that it meets these requirements, the Company pays a 5% withholding tax on dividends paid from Mexico. The estimated annual effective tax rate reflects the impact of the planned annual transfers for 2024.</p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;text-indent:27pt;margin:14pt 0pt 0pt 0pt;">In October 2023, the Company received a notification from the Mexican Tax Administration Services (“SAT”) with a sanction of 331 million pesos (approximately $17 million as of September 30, 2024) as the result of a 2015 tax audit that began in 2021. The 2015 tax audit performed by SAT encompassed various tax aspects, including but not limited to intercompany transactions, mining royalty tax, and extraordinary mining tax. Management is in process of disputing this tax notification and sent a letter of protest to the tax authorities along with providing all requested documentation. Management intends to pursue legal avenues of protest, including filing a lawsuit with the Mexico court system, if necessary, to ensure that these adjustments are removed. Management believes the position taken on the 2015 income tax return meets the more likely than not threshold and that as of September 30, 2024 and December 31, 2023, the Company has no liability for uncertain tax positions. If the Company were to determine there was an unrecognized tax benefit, the Company would recognize the liability and related interest and penalties within income tax (benefit) provision.</p>-360000011000000.0-2700000-47000000.210.050.3750.300.0750.265179000000.300.0750.0050.10P10Y0.100.050.053310000001700000000<p style="font-family:'Times New Roman','Times','serif';font-size:10pt;padding-left:24.5pt;text-indent:-24.5pt;margin:14pt 0pt 12pt 0pt;"><b style="font-weight:bold;">7. specify that the current year tax prepayments be calculated based on a coefficient for prior year earnings, regardless of current year results.
Starting in the third quarter of each year, these same statutes allow companies to request a reduction of the coefficient, which adjusts for losses
experienced in the current year. During 2023, DDGM had to prepay approximately $76 million pesos ($4 million) despite of the losses for the year.
In 2024, these overpayments can be used to offset the required 2024 tax prepayments, and as a result, no income tax payments are expected in
2024.</p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;text-indent:27.35pt;margin:0pt 0pt 12pt 0pt;">

(“IVA”) tax in Mexico is assessed on the sales of products and purchases of materials and services. Businesses owe IVA taxes as the business sells a
product and collects IVA taxes from its customers. Likewise, businesses are generally entitled to recover the taxes they have paid related to
purchases of materials and services, either as a refund or credit to IVA tax payable. Amounts recorded as IVA taxes in the consolidated financial
statements represent the net estimated IVA tax payable or receivable, since there is a legal right of offset of IVA taxes. As of September 30, 2024
and December 31, 2023, this resulted in an asset balance of $1.3 million and $0.4 million, respectively, included in Other current assets.</p><p

In June 2020, Aquila amended its agreement with OBL, reducing the total committed amount to $50 million, as well as adjusting certain milestone dates under the gold stream to align with the current project development timeline. Aquila had received a total of $20 million of the committed funds at the time of the Company's acquisition. Remaining deposits from OBL are $5 million upon receipt of permits required for the development and operation of the Back Forty Project and $25 million upon the first drawdown of an appropriate project debt finance facility. OBL has been provided a general security agreement over the Back Forty Project, which consists of the subsidiaries of Gold Resource Acquisition Sub. Inc., a 100% owned subsidiary of the Company. The initial term of the agreement is for 40 years, automatically renewable for successive ten-year periods. The agreement is subject to certain operating and financial covenants, which are in good standing as of September 30, 2024. Employee Benefits</b></p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;text-indent:27pt;margin:0pt 0pt 12pt 0pt;">Effective October 2012, the Company adopted a profit-sharing plan (the “Plan”), which covers all U.S. employees. The Plan meets the requirements of a qualified retirement plan pursuant to the provisions of Section 401(k) of the Internal Revenue Code. The Plan also allows eligible employees to make tax deferred contributions to a retirement trust account up to 90% of their qualified wages, subject to the IRS annual maximums.</p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;text-indent:27pt;margin:0pt 0pt 12pt 0pt;">On April 23, 2021, a decree that reforms labor outsourcing in Mexico was published in the Federation’s Official Gazette. This decree amended the outsourcing provisions, whereby operating companies can no longer source their labor resources used to carry out the core business functions from service entities or third-party providers. Under Mexican law, employees are entitled to receive statutory profit sharing (Participacion a los Trabajadores de las Utilidades or “PTU”) payments. The required cash payment to employees in the aggregate is equal to 10% of their employer’s profit subject to PTU, which differs from profit determined under U.S. GAAP. Net Loss per Common Share </b></p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;text-indent:27pt;margin:0pt 0pt 12pt 0pt;">Basic net income or loss per common share is calculated based on the weighted average number of common shares outstanding for the period. Diluted earnings or loss per common share are~~

calculated based on the assumption that stock options and other dilutive securities outstanding, which have an exercise price less than the average
market price of the Company’s common shares during the period, would have been exercised on the later of the beginning of the period or the date
granted and that the funds obtained from the exercise were used to purchase common shares at the average market price during the period. All of
the Company’s RSUs are anti-dilutive due to the Company’s net loss for the period. Since PSUs and DSUs are expected to be cash settled, they are
not included in the dilutive calculation.</p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;text-
indent:27pt;margin:0pt 0pt 12pt 0pt;">The effect of the Company’s dilutive securities is calculated using the treasury stock method, and only
those instruments that result in a reduction in net income per common share are included in the calculation. Options to purchase 0.8 million
shares of common stock at weighted average exercise price of $2.99 were outstanding as of September 30, 2024, but had no dilutive effect due to
the net loss for the period. Options to purchase 1.1 million shares of common stock at a weighted average exercise price of $2.98 were outstanding
as of September 30, 2023, but it had no dilutive effect due to the net loss for the period.</p><p style="font-family:'Times New

Accounts receivable, net include amounts due to the Company for deliveries of concentrates and doré sold to customers. Concentrate sales
contracts provide for provisional pricing as specified in such contracts. These sales contain an embedded derivative related to the provisional
pricing mechanism which is bifurcated and accounted for as a derivative. At the end of each reporting period, the Company records an adjustment
to sales to reflect the mark-to-market of outstanding provisional invoices based on the forward price curve. Because these provisionally priced
sales have not yet settled as of the reporting date, the mark-to-market adjustment related to these invoices is included in accounts receivable as of
each reporting date.</p><p style="font-family:'Times New Roman','Times','serif';font-size:10pt;text-align:justify;text-
