PART I

Item 1. Business

Introduction

Bausch Health Companies Inc. ("we", "us", "our", the "Company" or "Bausch Health") is a **multinational, global, diversified** specialty pharmaceutical and medical device company that develops, manufactures and markets, primarily in the therapeutic areas of gastroenterology ("GI"), **hepatology, neurology** and dermatology, a broad range of branded, generic and branded generic pharmaceuticals, over-the-counter ("OTC") products and **aesthetic medical aesthetic** devices and, through its **majority approximately 88%** ownership of Bausch + Lomb Corporation ("Bausch + Lomb"), branded, and branded generic pharmaceuticals, OTC products and medical devices (contact lenses, intraocular lenses, ophthalmic surgical equipment) in the therapeutic area of eye health. The Company's products are marketed directly or indirectly in approximately **100 90** countries.

Our portfolio of products falls into five reportable segments: (i) Salix, (ii) International, (iii) Solta Medical, (iv) Diversified **Products** and (v) Bausch + Lomb. These segments are discussed in detail in Note 22, "SEGMENT INFORMATION" to our audited Consolidated Financial Statements. The following is a brief description of the Company's segments:

- **The Salix segment** consists of sales in the U.S. of GI products. Sales of the Xifaxan® product line represented approximately 80% of **the Salix segment's segment** revenues.

- **The International segment** consists of sales, with the exception of sales of Bausch + Lomb products and Solta Medical aesthetic medical devices, outside the U.S and Puerto Rico of branded pharmaceutical products, branded generic pharmaceutical products and OTC products.
- **The Solta Medical segment** consists of global sales of Solta Medical ("Solta") aesthetic medical devices.
- **The Diversified Products segment** consists of sales in the U.S. of: (i) pharmaceutical products in the areas of neurology and certain other therapeutic classes, (ii) generic dermatology products, (iii) Ortho Dermatologics (dermatological products) generic pharmaceutical products and (iv) dentistry products.
- **The Bausch + Lomb segment** consists of global sales of Bausch + Lomb Vision Care, Surgical and Ophthalmic Pharmaceuticals products.

For additional discussion of our reportable segments, see the discussion in Item 1. "Business — Segment Information" and Note 22, "SEGMENT INFORMATION" to our audited Consolidated Financial Statements for further details on these reportable segments.

Separation of the Bausch + Lomb Eye Health Business

On August 6, 2020, we announced our plan to separate our eye health business consisting of our Bausch + Lomb Global Vision Care, (formerly Vision Care/Consumer Health), Global Surgical and Global Pharmaceuticals (formerly known as Ophthalmic Pharmaceuticals) businesses into an independent publicly traded entity, Bausch + Lomb, separate from the remainder of Bausch Health Companies Inc. (the "B+L Separation"). During May 2022, On May 5, 2022, the registration statement related to the initial public offering of Bausch +Lomb (the "B+L IPO") was declared effective, and Bausch + Lomb's common stock began trading on the New York Stock Exchange and the Toronto Stock Exchange, in each case under the ticker symbol "BLCO" on May 6, 2022. Prior to the effectiveness of the registration statement, Bausch + Lomb was an indirect wholly-owned subsidiary of Bausch Health. On May 10, 2022, a wholly owned subsidiary of the Company (the "Selling Shareholder") Bausch Health sold 35,000,000 common shares of Bausch + Lomb pursuant to the initial public offering ("IPO") B+L IPO. Upon the closing of Bausch + Lomb (the "B+L IPO"). The underwriters partially exercised IPO and after giving effect to the subsequent partial exercise of the over-allotment option granted by the Selling Shareholder.

The Company underwriters, Bausch Health indirectly holds 310,449,643 common shares of Bausch + Lomb, which represents approximately 89% 88% of Bausch + Lomb's B+L's outstanding common shares. shares as of February 16, 2024.

We continue to believe that completing the B+L Separation, which includes the transfer of all or a portion of our remaining direct or indirect equity interest in Bausch + Lomb to our shareholders, makes strategic sense. The completion of the B+L Separation is subject to the achievement of targeted debt leverage ratios and the receipt of applicable shareholder and other necessary approvals. We continue to evaluate all factors and considerations related to the B+L Separation, including the effect of the Norwich Legal Decision (see "Xifaxan® Paragraph IV Proceedings" of Note 20, "LEGAL PROCEEDINGS" to our audited Consolidated Financial Statements) on the B+L Separation.

The B+L Separation, if consummated, will result in two separate, independent companies:

- **Bausch Health excluding Bausch + Lomb** - a diversified pharmaceutical company with leading positions in gastroenterology, hepatology, dermatology, neurology and international pharmaceuticals, and aesthetic medical

devices. The remaining pharmaceutical entity will comprise a diversified portfolio of our leading durable brands across the Salix, International, dentistry, neurology, medical dermatology, and generics, and aesthetic medical devices businesses; and

- **Bausch + Lomb** - a fully integrated "pure play" eye health company built on the iconic Bausch + Lomb brand and its long history of innovation.

We believe the B+L IPO was a large step in creating two attractive but dissimilar businesses. As independent entities, management believes that each company will be better positioned to individually focus on its core businesses to drive additional growth, more effectively allocate capital and better manage its respective capital needs. Further, the B+L Separation will allow us and the market to compare the operating results of each entity with other "pure play" peer companies. Although management believes the B+L Separation will unlock value, there can be no assurance that it will be successful in doing so.

At the time of our announcement of the B+L Separation, we emphasized that it is important that the post-separation entities be well capitalized, with appropriate leverage and with access to additional capital, if and when needed, to provide each entity with the ability to independently allocate capital to areas that will strengthen their own competitive positions in their respective lines of business and position each entity for sustainable growth. Therefore, we see the appropriate capitalization and leverage of these businesses post-separation as a key to maximizing value across our portfolio of assets and, as such, it is a primary objective of our plan of separation. For additional details on the B+L Separation, see "Separation of the Bausch + Lomb Eye Health Business" in Note 2, "SIGNIFICANT ACCOUNTING POLICIES" to our audited Consolidated Financial Statements. Statements and Item 1A. "Risk Factors — Risk Relating to the B+L Separation" of this Form 10-K.

Business Strategy

Our strategy is to focus our business on core therapeutic classes and geographies that offer attractive growth opportunities. Within our chosen therapeutic classes, we prioritize durable products which we believe have the potential for strong operating margins and evidence of growth opportunities. We have found and continue to believe there is significant opportunity in each of our businesses and we believe our existing portfolio, commercial footprint and pipeline of product development projects position us to successfully compete in these markets and provide us with the greatest opportunity to build value for our shareholders.

We believe we have a well-established diversified product portfolio across all our businesses that provides a sustainable revenue stream to fund our operations. Our continued success is dependent upon our ability to refresh our pipeline on an ongoing basis and bring new product solutions to the market that meet changing demands and replace other products that have lost momentum. We have a robust pipeline that we believe not only provides for the next generation of our existing products but is also poised to bring new and innovative solutions to market.

We have focused our research and development ("R&D") to advance development programs that we believe will drive growth in our core businesses, while creating efficiencies in our R&D efforts and expenses. Although we primarily rely on our R&D organization to build-out and refresh our product portfolio, to supplement those efforts, we continually seek out opportunities, such as co-promotions, licensing agreements and strategic acquisitions, to leverage our commercial footprint, particularly our sales force, by strategically aligning ourselves with other innovative product solutions that, when coupled with our existing product portfolio, address specific needs in the market. See Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations — Overview — Focus on Value and Core Businesses" of this Form 10-K.

- Siliq® was launched in the U.S. in 2017 and is an IL-17 receptor blocker monoclonal antibody for patients with moderate-to-severe plaque psoriasis.
- Targretin® (bexarotene) capsules and gel are prescription medicines used to treat the skin problems arising from the disease cutaneous T-cell lymphoma, or CTCL, in patients who have not responded well to other treatments.
- Bryhali® was launched in the U.S. in November 2018 and is a novel product that contains a unique, lower concentration of halobetasol propionate for the treatment of moderate-to-severe psoriasis.
- An acne franchise, which includes Altreno® (tretinoin 0.05%), launched in the U.S. in October 2018 and is a lotion approved for the topical treatment of acne vulgaris in patients 9 years of age and older, and Solodyn®, a prescription oral antibiotic approved to treat only the red, pus-filled pimples of moderate to severe acne in patients 12 years of age and older, as well as Retin-A®, Clindagel® and Onexton® Gel, a fixed combination 1.2% clindamycin phosphate and 3.75% benzoyl peroxide medication for the once-daily treatment of comedonal (non-inflammatory) and inflammatory acne in patients 12 years of age and older.

Generics

The Company utilizes the Generics business to extend the long-term cash flows from a number of assets that are expected to decline over time due to the loss of exclusivity, by launching and selling authorized generic versions of certain branded assets. Principal products include:

- Diastat® authorized generic ("AG") (diazepam rectal gel) is a gel formulation of diazepam intended for rectal administration for certain patients with epilepsy who are already taking antiepileptic medications, and who require occasional use of diazepam to control bouts of increased seizure activity.
- Uceris® AG(budesonide) extended release tablets are a prescription corticosteroid medicine used to help get mild to moderate ulcerative colitis under control (induce remission).
- Elidel® AG (pimecrolimus) is a second-line therapy for short term and intermittent long-term therapy of mild to moderate atopic dermatitis.

Dentistry

- Arestin® (minocycline (minocycline hydrochloride) is a subgingival sustained-release antibiotic, antibiotic and accounted for approximately 90% of the Dentistry business revenues for 2023 and 2022. Arestin® is indicated as an adjunct to scaling and root planing ("SRP") procedures for reduction of pocket depth in patients with adult periodontitis. Arestin® may be used as part of a periodontal maintenance program, which includes good oral hygiene and SRP.
- NeutraSal® is indicated for dryness of the mouth (hyposalivation, xerostomia) and dryness of the oral mucosa due to drugs that suppress salivary secretion.
- OSSIX® is a line of cross-linked collagen regenerative products that provide biocompatibility and bio-durability to perform a diverse range of guided bone and tissue regeneration procedures.

Bausch + Lomb

Our Bausch + Lomb segment includes our global Bausch + Lomb eye health business. Our global Bausch + Lomb eye health business includes our Vision Care, Surgical and Ophthalmic Pharmaceuticals products, which in aggregate accounted for approximately 46%, 45% and 42% of our Company's revenues for 2022, 2021 and 2020, respectively, products.

Our Bausch + Lomb business is a fully integrated eye health business with a portfolio of established lines of contact lenses, intraocular lenses and other medical devices, surgical systems and devices, vitamin and mineral supplements, lens care products, prescription eye-medications and other consumer products. Bausch + Lomb takes a holistic approach to solving eye health problems, including by investing in physician training, patient and customer education, disease prevention and other initiatives through both traditional and digital platforms to continue to advance eye health.

Currently our principal products in this segment include:

- SiHy Daily, a silicone hydrogel daily disposable contact lens designed to provide outstanding comfort and clear vision throughout the day. To date SiHy Daily has been launched in approximately 50 countries, under the brand names INFUSE®, Bausch + Lomb ULTRA® ONE DAY and AQUALOX® ONE DAY. Bausch + Lomb launched our first silicone hydrogel daily disposable multifocal contact lens in May 2023, and plan to launch a toric lens in 2024.
- XIIDRA® (lifitegrast ophthalmic solution) 5% is a non-steroid eye health business include: drop specifically approved to treat the signs and symptoms of dry eye disease focusing on inflammation associated with dry eye.
- MIEBO® (perfluorohexyloctane ophthalmic solution) is the first and only FDA-approved eye drop that directly targets the leading cause of dry eye: tear evaporation and is used to treat the signs and symptoms of dry eye disease. Bausch + Lomb launched MIEBO® in the U.S. during the third quarter of 2023.
- PreserVision® AREDS 2 is a patented eye vitamin formula and mineral supplement that contains the exact nutrient formula recommended by the National Eye Institute for people with moderate to advanced age-related macular degeneration ("AMD") following the landmark AREDS 2 clinical study.
- Ocuvite® is a family of nutritional supplements that contain antioxidant vitamins and minerals and other nutrients beneficial for eye health, including lutein and zeaxanthin (antioxidant carotenoids), nutrients that support macular health by helping filter harmful blue light.
- Biotrue® multi-purpose solution helps prevent certain tear proteins from denaturing and fights germs for healthy contact lens wear. Biotrue® multi-purpose solution contains hyaluronic acid (sodium hyaluronate) a lubricant naturally found in eyes and is pH balanced to match healthy tears.
- Bausch + Lomb Renu® Advanced Formula multi-purpose solution was launched in 2017 and is a novel soft and silicone hydrogel contact lens solution that makes use of three disinfectants and two moisture agents.
- LUMIFY Lumify® (brimonidine tartrate ophthalmic solution, 0.025%) is an OTC redness reliever eye drop developed as an ocular that significantly reduces redness reliever.
- Bausch + Lomb INFUSE® (known as BAUSCH + LOMB ULTRA® ONE DAY in Canada, Australia and Hong Kong), a silicone hydrogel daily disposable contact lens designed with a next generation material infused with ProBalance Technology™ to help maintain ocular surface homeostasis eyes look whiter and help reduce symptoms of contact lens dryness. Bausch + Lomb INFUSE® was launched in the United States in August 2020 and BAUSCH + LOMB ULTRA® ONE DAY was launched in Canada, Australia, and Hong Kong in November 2020 and in Europe during 2022. brighter.
- Bausch + Lomb ULTRA®, a silicone hydrogel frequent replacement contact lens for patients with myopia or hyperopia that uses our proprietary MoistureSeal® technology, which allows the contact lens to retain 95% of moisture after 16 hours of wear, limiting lens dryness and resulting symptoms.
- Biotrue® ONeday daily disposable contact lenses for patients with myopia or hyperopia, which are made of a unique material inspired by the natural biology of the eye and feature Surface Active Technology™, a patented dehydration barrier. The lens contains 78% water, more moisture than any other soft contact lens and the same water content as the cornea and maintains nearly 100% of its moisture for up to 16 hours.
- Vitreoretinal Surgery
 - Stellaris Elite® vision enhancement system, is a combined system with cataract and vitreoretinal capability featuring the Bi-Blade vitrectomy handpiece.
 - Synergetics® instruments include reusable and single use devices and are marketed for use in vitreoretinal surgery.
- Cataract Surgery and Laser Systems
 - The Stellaris Elite® vision enhancement system configured for cataract procedures is our latest generation phacoemulsification cataract platform, Stellaris Elite® is the first phacoemulsification platform on the market to offer Adaptive Fluidics™, which combines aspiration control with predictive infusion management to create a responsive and controlled surgical environment for efficient cataract lens removal. Our Stellaris Elite® vision enhancement system was launched in the United States in 2017 and internationally in 2018.

- VICTUS® femtosecond laser for cataract and corneal refractive surgery, which delivers multi- mode versatility for cataract and corneal procedures on a single platform. This single laser platform enables surgeons to perform capsulotomies, fragmentation, arcuate incisions, corneal incisions and LASIK flaps.
- Lotemax® SM (loteprednol etabonate ophthalmic gel 0.38%), a new gel drop formulation of loteprednol etabonate, which was designed with novel SubMicron (SM) technology for efficient penetration to key ocular tissues at a low

preservative (BAK) level (3.5-10) and a pH close to human tears, indicated for the treatment of postoperative inflammation and pain following ocular surgery.

Research and Development

Our R&D organization focuses on the development of products through clinical trials. Currently, we have approximately 140 over 90 R&D projects in our pipeline. As of December 31, 2022 December 31, 2023, approximately 1,300 1,450 dedicated R&D and quality assurance employees in 25 24 R&D facilities were involved in our R&D efforts.

Our R&D expenses for 2023, 2022 and 2021, were \$604 million, \$529 million and 2020, were \$529 million, \$465 million and \$452 million, respectively. R&D expenses as a percentage of revenue were approximately 7% in 2022 as compared to approximately, 7% and 6% in 2023, 2022 and 2021, and 2020, respectively. We have rebalanced our portfolio to better align with our long-term plans and focus on core businesses. Our investment in R&D reflects our commitment to drive organic growth through internal development of new products, a pillar of our strategy. We further supplement these efforts by continually seeking out other opportunities, such as co-promotions, licensing agreements and strategic acquisitions. See Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations — Overview — Focus on Value and Core Businesses" of this Form 10-K.

Trademarks Patents, and Patent Exclusivity and Proprietary Know-How

We rely on a combination of contractual provisions, confidentiality policies and procedures and patent, trademark, copyright and trade secrecy laws to protect the proprietary aspects of our technology and business. Our policy is to vigorously protect, enforce and defend our rights to our intellectual property and proprietary rights, as appropriate. See Item 1A. "Risk Factors" of this Form 10-K for additional information on the risks associated with our intellectual property and proprietary rights.

Trademarks

We believe that trademark protection is an important part of establishing product and brand recognition. We own or license a number of registered trademarks and trademark applications in the U.S., Canada and in various other countries throughout the world. U.S. federal registrations for trademarks remain in force for 10 years and may be renewed every 10 years after issuance, provided the mark is still being used in commerce. Trademark registrations in Canada issued on or before June 17, 2019 remain in force for 15 years and may be renewed for 10-year terms, provided that, as in the case of U.S. federal trademark registrations, the mark is still being used in commerce. Trademark registrations in Canada issued after June 17, 2019 remain in force for 10 years and may be renewed every 10 years after issuance, provided that, as in the case of U.S. federal trademark registrations, the mark is still being used in commerce. Other countries generally have similar but varying terms and renewal policies with respect to trademarks registered in those countries.

Data and Patent Exclusivity

For certain of our products, we rely on a combination of regulatory and patent rights to protect the value of our investment in the development of these products.

A patent is the grant of a property right which allows its holder to exclude others from, among other things, selling the subject invention in, or importing such invention into, the jurisdiction that granted the patent. In the U.S., Canada and the European Union ("EU"), generally patents expire 20 years from the date of application. We have obtained, acquired or in-licensed a number of patents and patent applications covering key aspects of certain of our principal products. In the aggregate, our patents are of material importance to our business taken as a whole.

Government Regulations

Government authorities in the U.S., at the federal, state and local level, in Canada, in the EU and in all other countries extensively regulate, among other things, the research, development, testing, approval, manufacturing, labeling, post-approval monitoring and reporting, packaging, advertising and promotion, storage, distribution, marketing and export and import of pharmaceutical products and medical devices. As such, our products and product candidates are subject to extensive regulation both before and after approval. The process of obtaining regulatory approvals and the subsequent compliance with applicable federal, state, local and foreign statutes and regulations require the expenditure of substantial time and financial resources. Failure to comply with these regulations could result in, among other things, warning letters, civil penalties, delays in approving or refusal to approve a product candidate, product recall, product seizure, interruption of production, operating restrictions, suspension or withdrawal of product approval, injunctions or criminal prosecution.

Prior to human use, the FDA approval or marketing clearance must be obtained in the U.S., approval by Health Canada must be obtained in Canada, EMA European Medicines Agency (the "EMA") approval (drugs) or a CE Marking (devices) and/or registration under the European Commission's Medical Device Regulation ("MDR"), must be obtained for countries that are part of the EU and approval must be obtained

from comparable agencies in other countries prior to manufacturing or marketing new pharmaceutical products or medical devices. Generally, preclinical studies and clinical trials of the products must first be conducted and the results submitted to the applicable regulatory agency (such as the FDA) for approval.

Regulation by other federal agencies, such as the Drug Enforcement Administration, and state and local authorities in the U.S., and by comparable agencies in certain foreign countries, is also required. In the U.S., the Federal Trade Commission (the "FTC"), the U.S. Food and Drug Administration (the "FDA") FDA and state and local authorities regulate the advertising of medical devices, prescription drugs, OTC drugs and cosmetics. The Federal Food, Drug and Cosmetic Act, as amended and the regulations promulgated thereunder, and other federal and state statutes and regulations, govern, among other things, the testing, manufacture, safety, effectiveness, labeling, storage, record keeping, approval, sale, distribution, advertising and promotion of our products. The FDA requires a Boxed Warning (sometimes referred to as a "Black Box" Warning) for products that have shown a significant risk of severe or life-threatening adverse events and similar warnings are also required to be displayed on the product in certain other jurisdictions.

In addition, with respect to medical devices, in April 2017, the European Commission adopted the MDR, which replaced the Medical Device Directive. Pursuant to the terms of the new regulations, in order to continue to market medical device products in the EU, such products must achieve compliance with these new regulations and be re-registered in the EU within a specified transition period, which, for a portion of products, ended as early as May 26, 2021. While EU law is applicable in Northern Ireland, the UK Medical Devices Regulations 2002/68 also needs to be complied with in Great Britain. Medical Before July 1, 2023, medical device manufacturers who have had CE marked devices will be were able to continue to place them on the market in the whole of the United Kingdom (the "UK") until July 1, 2023 without a change in labeling. After that, As of July 1, 2023, devices destined for Great Britain will be are required to follow the UK regulatory regime and to be labeled with the UKCA mark. Northern Ireland will, however, continue to accept CE marked devices. There are some additional requirements for manufacturers who are based outside the UK, such as the requirement to appoint a UK Responsible Person ("UKRP") to take on certain regulatory responsibilities with respect to the Medicines and Healthcare products Regulatory Agency ("MHRA") and users or customers in the UK. To enable devices to be placed on the market in the UK after January 1, 2021 (even for CE marked devices), a UK manufacturer must register with the MHRA, as must a UKRP for an overseas manufacturer. Such registering entity will then register each of the devices for which they are responsible for placing on the market in the UK, whether in Great Britain or Northern Ireland. Until May 25, 2021, our products bearing a CE mark could be exported from the EEA to Switzerland. However, as of May 26, 2021, the EU no longer applies the Mutual Recognition Agreement between the EEA and Switzerland. Accordingly, legal manufacturers in Switzerland will be are now required to appoint a European Union authorized representative, and manufacturers outside of Switzerland will be are required to appoint a Swiss authorized representative in compliance with the Medical Device Ordinance. As a consequence, beginning in January 2022 through August 2022 (depending on the class of the device or system in question), we have been required to appoint an authorized representative in Switzerland in order to export our CE-marked medical devices to Switzerland. Additionally, the name and address of the Swiss authorized representative must be placed on the packaging.

Manufacturers of pharmaceutical products and medical devices are required to comply with manufacturing regulations, including current good manufacturing practices and quality system management requirements, enforced by the FDA and Health Canada, in the U.S. and Canada, respectively, and similar regulations enforced by regulatory agencies in other countries and we face periodic audits of our facilities and plants and those of our contract manufacturers by the FDA and such other regulatory agencies. In addition, we are subject to price control restrictions on our pharmaceutical products in many countries in which we operate.

We are also subject to extensive U.S. federal and state health care marketing and fraud and abuse regulations, such as the federal False Claims Act, federal and provincial marketing regulations in Canada and similar regulations in foreign countries in which we may conduct our business. The federal False Claims Act imposes civil and criminal liability on individuals or entities who submit (or cause the submission of) false or fraudulent claims for payment to the government. The U.S. federal Anti-Kickback Anti-

Kickback Statute prohibits persons or entities from knowingly and willfully soliciting, receiving, offering or providing remuneration, directly or indirectly, to induce either the referral of an individual, or the furnishing, recommending, or arranging for a good or service, for which payment may be made under a

federal or state health care program such as the Medicare and Medicaid programs. Some state anti-kickback laws also prohibit such conduct where commercial insurance, rather than federal or state, programs are involved. Due to recent legislative changes, violations of the U.S. federal Anti-Kickback Statute also carry potential federal False Claims Act liability. In addition, in the U.S., Canada and various other countries, companies may not promote drugs or medical devices for "off-label" uses - that is, uses that are not described in the product's labeling and that differ from those that were approved or cleared by the FDA, Health Canada or applicable regulatory agency in such other countries -- and "off-label promotion" in the U.S. has also formed the predicate for False Claims Act liability resulting in significant financial settlements. These and other laws and regulations, rules and policies may significantly impact the manner in which we are permitted to market our products. If our operations are found to be in violation of any of these laws, regulations, rules or policies or any other law or governmental regulation, or if interpretations of the foregoing change, we may

be subject to civil and criminal penalties, damages, fines, exclusion from the Medicare and Medicaid programs, the curtailment or restructuring of our operations or other sanctions, including consent orders or corporate integrity agreements.

In addition, the U.S. Department of Health and Human Services Office of Inspector General recommends, and increasingly states require pharmaceutical companies to have comprehensive compliance programs. Moreover, the Physician Payment Sunshine Act enacted in 2010 imposes reporting and disclosure requirements on device and drug manufacturers for any "transfer of value" made or distributed to prescribers and other health care providers. Failure to submit this required information may result in significant civil monetary penalties.

We are also subject to the U.S. Foreign Corrupt Practices Act ("FCPA"), the Canadian Corruption of Foreign Public Officials Act and similar worldwide anti-bribery laws, which generally prohibit companies and their intermediaries from making improper payments to officials for the purpose of obtaining or retaining business. Violations of these laws could result in criminal or civil penalties or remedial measures.

We are also subject to various state, federal and international laws and regulations governing the collection, transmission, dissemination, use, privacy, confidentiality, security, retention, availability, integrity and other processing of health-related and other sensitive and personal information, including, but not limited to, the Health Insurance Portability and Accountability Act of 1996, as amended by the Health Information Technology for Economic and Clinical Health Act of 2009 (collectively, "HIPAA"). HIPAA mandates, among other things, the adoption of uniform standards for the electronic exchange of information in common health care transactions (e.g., health care claims information and plan eligibility, referral certification and authorization, claims status, plan enrollment, coordination of benefits and related information), as well as standards relating to the privacy and security of individually identifiable health information. These standards require the adoption of administrative, physical and technical safeguards to protect such information. Many states in which we operate have laws that protect the privacy and security of sensitive and personal information, including health-related information. Certain state laws may be more stringent or broader in scope, or offer greater individual rights, with respect to sensitive and personal information than federal, international or other state laws, and such laws may differ from each other, which may complicate compliance efforts. For example, the California Consumer Privacy Act (the "CCPA"), which went into effect on January 1, 2020, imposes and the California Privacy Rights Act (the "CPRA") impose stringent data privacy and security requirements and obligations with respect to the personal information of California residents, including, among other things, new disclosures to California consumers and providing such consumers new data protection and privacy rights, including the ability to opt out of certain sales of personal information. The CCPA provides and CPRA provide for civil penalties for violations, as well as a private right of action for certain data breaches that result in the loss of personal data that may increase the likelihood of, and risks associated with, data breach litigation. The CCPA has been amended from time to time, and, further a new privacy law, the California Privacy Rights Act ("CPRA"), which took effect on January 1, 2023, significantly modifies the CCPA, including by expanding consumers' rights with respect to certain sensitive personal information. The CPRA also creates a new state agency that will be vested with authority to implement and enforce the CCPA and the CPRA. It remains unclear how various provisions of the CCPA and CPRA will be interpreted and enforced, and multiple states have enacted or are expected to enact similar laws. The effects on our business of the CCPA, CPRA and other similar state laws are potentially significant, and may require us to modify our data processing practices and policies and to incur substantial costs and expenses in an effort to comply. State laws are changing rapidly and there is discussion in Congress of a new federal data protection and privacy law to which we may be subject.

Additionally, some statutory requirements, both in the U.S. and abroad, include obligations for companies to notify individuals of security breaches involving particular personal information, which could result from breaches experienced by us or our service providers. For example, laws in all 50 U.S. states require businesses to provide notice to customers whose personal data has been disclosed as a result of a data breach. The laws are not consistent, and compliance in the event of a widespread data breach is difficult and may be costly. Moreover, states have been frequently amending existing laws, requiring attention to changing regulatory requirements.

Internationally, laws and regulations in many jurisdictions apply broadly to the collection, transmission, dissemination, use, privacy, confidentiality, security, retention, availability, integrity and other processing of health-related and other sensitive

and personal information. For example, in the European Economic Area (the "EEA"), the collection and use of personal data, including clinical trial data, is governed by the provisions of the General Data Protection Regulation (the "GDPR"). The GDPR became effective on May 25, 2018, repealing its predecessor directive and increasing responsibility and liability of companies in relation to the processing of personal data of EU data subjects. The GDPR, together with

national legislation, regulations and guidelines of the EU member states and the United Kingdom governing the processing of personal data, impose strict obligations and restrictions on the ability to collect, analyze, store, transfer and otherwise process personal data, including health data from clinical trials and adverse event reporting. In particular, the GDPR includes obligations and restrictions concerning the consent and rights of the individuals to whom the personal data relates, the transfer of personal data out of the EEA, security breach notifications and the security and confidentiality of personal data. In July 2020, the Court of Justice of the European Union issued a decision that struck down the EU-U.S. Privacy Shield framework, which provided companies with a

mechanism to comply with data protection requirements when transferring personal data from the EU to the United States. The United States subsequently implemented a Data Privacy Framework (DPF) program, overseen by the Department of Commerce's International Trade Administration, which is intended to replace the Privacy Shield framework and additionally called into question the validity of has been recognized with an adequacy decision by the European Commission's Standard Contractual Clauses, on which U.S. companies rely to transfer personal data from EU member states to Commission. Bausch Health has self-certified and is a participant in the United States and elsewhere. In September 2020, DPF program. However, the Swiss Federal Data Protection and Information Commissioner issued an opinion that stated it no longer considers DPF program is the Swiss-U.S. Privacy Shield adequate for the purposes subject of personal data transfers from Switzerland to the United States, threatened litigation. These developments may result in European data protection regulators applying differing standards for, and requiring ad hoc verification of, transfers of personal data from EU member states to the United States. The GDPR authorizes fines for certain violations of up to 4% of global annual revenue or €20 million, whichever is greater. European data protection authorities may interpret the GDPR and national laws differently and impose additional requirements, which contributes to the complexity of processing personal data in or from the EEA or United Kingdom. Guidance on implementation and compliance practices is often updated or otherwise revised.

Further, following the United Kingdom's withdrawal from the EU and the EEA, and the expiry of the transition period, companies have to comply with both the GDPR and the GDPR as incorporated into the United Kingdom national law, the Data Protection Act of 2018, the latter regime having the ability to separately fine up to the greater of £17.5 million or 4% of global turnover. The relationship between the United Kingdom and the EU in relation to certain aspects of data protection law remains unclear, for example around how data can lawfully be transferred between each jurisdiction, which exposes us to further compliance risk. Beginning in 2021, the United Kingdom is a "third country" under the GDPR. We may incur liabilities, expenses, costs and other operational losses under the GDPR and privacy laws of the applicable EU and EEA Member States and the United Kingdom in connection with any measures we take to comply with them.

We are also subject to Canada's federal *Personal Information Protection and Electronic Documents Act* and substantially similar equivalents at the provincial level with respect to the collection, use and disclosure of personal information in Canada. Such federal and provincial legislation impose data privacy and security obligations on our processing of personal information of Canadian residents. The federal and Alberta legislation include mandatory data breach notification requirements. Canada's Anti-Spam Legislation ("CASL") also applies to the extent that we send commercial electronic messages from Canada or to electronic addresses in Canada. CASL contains prescriptive consent, form, content and unsubscribe mechanism requirements. Penalties for non-compliance with CASL are up to CAD 10 million per violation. These laws and regulations may be interpreted and applied differently over time and from jurisdiction to jurisdiction, and it is possible they will be interpreted and applied in ways that will materially and adversely affect our business. The regulatory framework for data privacy, data security and data transfers worldwide is rapidly evolving and is likely to remain uncertain for the foreseeable future. Complying with all of these laws and regulations involves costs to our business, and failure to comply with these laws and regulations can result in the imposition of significant civil and criminal penalties, as well as litigation.

In addition, in China, the Personal Information Protection Law (the "PIPL") came into force effect in November 2021. The PIPL is the first national-level law comprehensively regulating issues in relation to personal information protection. The PIPL provides for very specific administrative requirements and security controls when transferring personal data outside the Peoples Republic of China. These transfer requirements come came into effect on March 1, 2023.

Successful commercialization of our products may depend, in part, on the availability of governmental and third-party payor reimbursement for the cost of our products. Third-party payors may include government health administration authorities, private health insurers and other organizations. In the U.S., the E.U. and other significant or potentially significant markets for our products and product candidates, government authorities and third-party payors are increasingly attempting to limit or regulate the price of medical products and services, which has resulted in lower average realized prices. In the U.S., these pressures can arise from rules and practices of managed care groups, judicial decisions and governmental laws and regulations related to Medicare, Medicaid and health care reform, pharmaceutical reimbursement policies and pricing in general. In particular, sales of our products may be subject to discounts from list price and rebate obligations, as well as formulary coverage decisions impacting or limiting the types of patients for whom coverage will be provided. Various U.S. health care and other laws regulate our interactions with government agencies, private insurance companies and other third-party payors regarding coverage and reimbursement for our products. Failure to comply with these laws could subject us to civil, criminal and administrative sanctions. In countries outside the U.S., the success of our products may depend, at least in part, on obtaining and maintaining government reimbursement because, in many countries, patients are unlikely to use prescription drugs that are not reimbursed by their governments. In addition, negotiating prices with certain governmental authorities for

newly developed products can delay commercialization. In Canada and many international markets, governments control the prices of prescription pharmaceuticals, including through the implementation of reference pricing, price cuts, rebates, revenue-related taxes, tenders and profit control, and they expect prices of prescription pharmaceuticals to decline over the life of the product or as volumes increase.

In the U.S. and certain foreign jurisdictions, there have been a number of legislative and regulatory proposals to change the health care system in ways that could impact our ability to sell our products profitably. The Patient Protection and

Affordable Care Act (the "PPACA"), as amended by the Health Care Reform Act, may affect the operational results of companies in the pharmaceutical and medical device industries, including the Company and other health care related industries, by imposing on them additional costs. Effective January 1, 2010, the Health Care Reform Act increased the minimum Medicaid drug rebates for pharmaceutical companies, expanded the 340B drug discount program, and made changes to affect the Medicare Part D coverage gap, or "donut hole." The law also revised the definition of "average manufacturer price" for reporting purposes, which may affect the amount of our Medicaid drug rebates to states. Beginning in 2011, the law imposed a significant annual fee on companies that manufacture or import branded prescription drug products. More recently, the Bipartisan Budget Act of 2018 amended the Patient Protection and Affordable Care Act, effective January 1, 2019, to close the donut hole in most Medicare drug plans. In addition, in April 2018, the Centers for Medicare & Medicaid Services published a final rule that gives states greater flexibility in setting benchmarks for insurers in the individual and small group marketplaces, which may have the effect of relaxing the essential health benefits required under the Patient Protection and Affordable Care Act for plans sold through such marketplaces.

In August 2022, the Inflation Reduction Act ("IRA") was signed into law, which includes implementation of a new corporate alternative minimum tax ("CAMT"), among other provisions. The CAMT imposes a minimum tax on the adjusted financial statement income ("AFSI") for "applicable corporations" with average annual AFSI over a three-year period in excess of \$1 billion. A corporation that is a member of a foreign-parented multinational group, as defined, must include the AFSI (with certain modifications) of all members of the group in applying the \$1 billion test, but would only be subject to CAMT if the three-year average AFSI of its U.S. members, US trades or business of foreign group members that are not subsidiaries of U.S. members, and foreign subsidiaries of U.S. members exceeds \$100 million.

The IRA also made significant changes to how drugs are covered and paid for under the Medicare program, including imposing financial penalties if drug prices are increased at a rate faster than inflation, redesigning Medicare Part D benefits to shift a greater portion of the costs to manufacturers and allowing the U.S. government to set prices for certain drugs in Medicare. We continue to evaluate the impact of the IRA and other legislation on our results of operations and it is possible that these changes may result in a material impact on our business and results of operations.

Although efforts at replacing the Health Care Reform Act have stalled in Congress, there could still be changes to this legislation in the near term. Additionally, policy efforts designed specifically to reduce patient out-of-pocket costs for medicines could result in new mandatory rebates and discounts or other pricing restrictions. Legislative efforts relating to drug pricing, the cost of prescription drugs under Medicare, the relationship between pricing and manufacturer patient programs, and government program reimbursement methodologies for drugs have been proposed and considered at the U.S. federal and state level. Congress and the Biden Administration have each indicated an intent to continue to seek new legislative or administrative measures to control drug costs. At the state level, legislatures have increasingly passed legislation and implemented regulations designed to control pharmaceutical product pricing, including price or patient reimbursement constraints, discounts, restrictions on certain product access and marketing cost disclosure and transparency measures, and, in some cases, designed to encourage importation from other countries and bulk purchasing. We also anticipate that Congress, state legislatures, and third-party payors may continue to review and assess alternative health care delivery and payment systems and may in the future propose and adopt legislation or policy changes or implementations effecting additional fundamental changes in the health care delivery system.

See Item 1A. "Risk Factors" of this Form 10-K for additional information on the risks associated with these regulations and related matters.

Environmental and Other Regulation

Our facilities and operations are subject to a broad range of federal, state and local environmental and occupational health and safety laws and regulations in both the U.S. and countries outside the U.S. (including Canada), including those governing the discharge of substances into the air, water and land, the handling, treatment, storage and disposal of hazardous substances and wastes, wastewater and solid waste, the cleanup of contaminated properties and other environmental matters. Certain of our development and manufacturing activities involve the use of hazardous substances. If we fail to comply with these environmental, health and safety laws and regulations, including failing to obtain any necessary permits, we could incur substantial civil or criminal fines or penalties or enforcement actions, including regulatory or judicial orders enjoining or curtailing our operations or requiring us to conduct or fund remedial or corrective measures, install pollution control equipment,

reformulate or cease the marketing of our products or perform other actions. Under certain laws, we may be subject to joint and several liability for environmental investigations and cleanups, including at properties that we currently or previously owned or operated, or at sites at which waste we generated was disposed, even if the contamination was not caused by us or was legal at the time it occurred. We are also subject to extensive and evolving regulations regarding the manufacturing, processing, distribution, importing, exporting and labeling of our products and their raw materials. In the EU, the REACH

regulations Regulation on the Registration, Evaluation, Authorisation and Restriction of Chemicals ("REACH") came into effect in 2007, with implementation rolling out over time. Registered chemicals then can be subject to further evaluation and potential restrictions. Since the promulgation of REACH, other countries have enacted or are in the process of

implementing similar comprehensive chemical regulations. These laws and regulations may materially affect our operations by subjecting our products or raw materials to testing or reporting requirements or restrictions, moratoria, phase outs or other limitations on their sale or use. In particular, some of our products might be characterized as nanomaterials and then be subject to evolving, new nanomaterial regulations.

We believe we are in compliance in all material respects with applicable environmental and occupational health and safety laws and regulations. We are not aware of any pending environmental or occupational health and safety litigation or significant liabilities that are likely to have a material adverse effect on our financial position. We cannot assure, however, that environmental liabilities relating to us or facilities owned, leased or operated by us will not develop in the future, and we cannot predict whether any such liabilities, if they were to develop, would require significant expenditures on our part. In addition, we are unable to predict what environmental or and occupational health and safety legislation or regulations may be adopted or enacted in the future. See Item 1A. "Risk Factors" of this Form 10-K for additional information.

Customers and Marketing

In 2022, 2023, the U.S. and Puerto Rico accounted for approximately 60% 59% and China accounted for approximately 5% of our total revenue, respectively. No other country accounted for more than 5%. See Note 22, "SEGMENT INFORMATION" to our audited Consolidated Financial Statements for revenues by geographic area.

Customers that accounted for 10% or more of our total revenue for 2023, 2022 2021 and 2020 2021 are as follows:

	2022	2021	2020
AmerisourceBergen Corporation	18%	18%	17%

2023	2023	2022	2021
Cencora Inc. (formerly AmerisourceBergen Corporation)	Cencora Inc. (formerly AmerisourceBergen Corporation)	19%	18%
McKesson Corporation	McKesson Corporation	15%	16%
Cardinal Health, Inc.	Cardinal Health, Inc.	13%	12%

We currently promote our pharmaceutical products to physicians, hospitals, pharmacies and wholesalers through our own sales force and sell through wholesalers. In some markets, we additionally sell directly to physicians, hospitals and large drug store chains and we sell through distributors in countries where we do not have our own sales staff. As part of our marketing program for pharmaceuticals, we use direct to customer consumer advertising, direct mailings, advertise in trade, social media and medical periodicals, exhibit products at medical conventions and sponsor medical education symposia.

Competition

Competitive Landscape for Products and Products in Development

The pharmaceutical and medical device industries are highly competitive. Our competitors include specialty and other large pharmaceutical companies, medical device companies, biotechnology companies, OTC companies and generic manufacturers, in the U.S., Canada, Europe, Asia, Latin America, Middle East, Africa and in other countries in which we market our products. The dermatology competitive landscape is highly fragmented, with a large number of mid-size and smaller companies competing in both the prescription sector and the OTC and cosmeceutical sectors. With respect to the GI market, generic entrants continue to capture significant share for treatment of many GI conditions. In the area of irritable bowel syndrome ("IBS") and opioid induced constipation, ("OIC"), competitors have recently launched new competing products, which should increase the size of these markets and intensify competition. The market for Bausch + Lomb products is very competitive, both across product categories and geographies. In addition to larger diversified pharmaceutical and medical device companies, we face competition in the eye health market from mid-size and smaller, regional and entrepreneurial companies with fewer products in niche areas or regions.

Our competitors are pursuing the development and/or acquisition of pharmaceuticals, medical devices and OTC products that target the same diseases and conditions that we are targeting in dermatology, GI, eye health and other therapeutic areas. Academic and other research and development institutions may also develop products or technologies that compete with our products, which technologies and products may be acquired or licensed by our competitors. These competitors may have greater financial, R&D or marketing resources than we do. If competitors introduce new products, delivery systems or

processes with therapeutic or cost advantages, our products can be subject to progressive price reductions or decreased volume of sales, or both. Most new products that we introduce must compete with other products already on the market or products that are later developed by competitors.

We sell a broad range of products, and competitive factors vary by product line and geographic area in which the products are sold. The principal methods of competition for our products include quality, efficacy, market acceptance, price and marketing and promotional efforts.

Generic Competition and Loss of Exclusivity

We face increased competition from manufacturers of generic pharmaceutical products when patents covering certain of our currently marketed products expire or are successfully challenged or when the regulatory exclusivity for our products expires or is otherwise lost. Generic versions are generally significantly less expensive than branded versions, and, where available, may be required to be utilized before or in preference to the branded version under third-party reimbursement programs, or substituted by pharmacies. Accordingly, when a branded product loses its market exclusivity, it normally faces intense price competition from generic forms of the product. To successfully compete for business with managed care and pharmacy benefits management organizations, we must often demonstrate that our products offer not only medical benefits, but also cost advantages as compared with other forms of care.

For details regarding products that are facing generic competition, products that could potentially face generic competition, the corresponding potential revenue impact and infringement proceedings we initiated against potential generic competition, see Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations — Business Trends — Generic Competition and Loss of Exclusivity" of this Form 10-K. See Note 20, "LEGAL PROCEEDINGS" to our audited Consolidated Financial Statements for further details regarding certain infringement proceedings. See Item 1A. "Risk Factors" of this Form 10-K for additional information on our competition risks.

Manufacturing

We currently operate approximately 3537 manufacturing sites worldwide, of which 2425 are Bausch + Lomb facilities. We continue to make capital investments in these facilities as discussed in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations — Overview — Focus on Value and Core Businesses" of this Form 10-K.

In the normal course of business, our products, devices and facilities are the subject of ongoing oversight and review by regulatory and governmental agencies, including general, for cause and pre-approval inspections by the relevant competent authorities where we have business operations. In August 2022, we received a non-compliant rating from Health Canada related to our pharmaceutical manufacturing facility in Laval, Quebec. This rating was received without any restrictive conditions on plant operations so the production of important treatments for Canadians and for export continues without interruption as we work on remediating the non-compliant rating.

Through the date of this filing, except as discussed below, all of our global operations and facilities have the relevant operational good manufacturing practices certificates and all Company products and all other operating sites are in good compliance standing with all relevant notified bodies and global health authorities. Further, all sites under FDA jurisdiction are rated as either No Action Indicated (where there was no Form 483 observation) or Voluntary Action Indicated ("VAI") (where there was a Form 483 with one or more observations). In the case of VAI inspection outcomes, the FDA has accepted our responses to the issues cited, which will be verified when the agency makes its next inspection of those specific facilities. A Form 483 is issued at the end of each inspection when FDA investigators have observed any condition that in their judgment may constitute violations of current

In October 2023, following a good manufacturing practices inspection of our Tecnofarma manufacturing facility in Mexico, the Mexico regulatory authority COFEPRIS suspended all cephalosporin manufacturing operations as a result of their observation that the cephalosporin manufacturing facility design no longer complies with current standards. No other manufacturing areas of our Tecnofarma facility are impacted. This action is not expected to have a material impact to the Company, as revenues from production of the impacted products were not material for 2023.

We also subcontract the manufacturing of certain of our products, including products manufactured under the rights acquired from other pharmaceutical companies. Products representing approximately 22% 25% of our product sales for 2022 2023 are produced in total, or in part, by third-party manufacturers under manufacturing arrangements.

In some cases, the principal raw materials, including active pharmaceutical ingredients, used by us (or our third-party manufacturers) for our various products are purchased in the open market or are otherwise available from several sources. However, some of the active pharmaceutical ingredients and other raw materials used in our products and some of the finished products themselves are currently only available from a single source; or others may in the future become available from only one source. For example, with respect to some of our largest or most significant products, the supply of the finished product for each of our Siliq®, Duobrii®, Bryhali®, Lumify®, Trulance®, Vyzulta®, SofLens®, MEIBO®, XIIDRA®, Wellbutrin XL®, Renu®, Xenazine Jublia®, Aplenzin®, Relistor® Oral, Arestin® and PureVision® products are only available from a single source (either one of our internal manufacturing sites or third party manufacturers) and the supply of active pharmaceutical ingredient for each of our Siliq®, Duobrii®, Bryhali®, Trulance®, Vyzulta®, Xenazine MEIBO®, Preservision® Aplenzin®, and Relistor® Oral, Arestin® and Bedoyecta® products are also only

available from a single source. Any disruption in the supply of any such single-sourced active pharmaceutical ingredient, other raw material or finished product or an increase in the cost of such materials or products could adversely impact our ability to manufacture or sell such products, the ability of our third-party manufacturers to supply us with such products, or our profitability. We attempt to manage the risks associated with reliance on single sources of active pharmaceutical ingredient, other raw materials or finished products by carrying additional inventories or, where possible, developing second sources of supply. See Item 1A. "Risk Factors" for additional information on the risks associated with our manufacturing arrangements.

Our global supply team worked diligently to stay ahead of the challenges presented by the COVID-19 pandemic. See Item 7. "Management's Discussion and Analysis — [Impacts of Business Trends — COVID-19 Pandemic Update](#)" for further information.

Human Capital Resources

In order to achieve our vision of being a trusted health care partner, we strive to ensure our employees around the world feel proud to be a part of Bausch Health Companies Inc. and champion our purpose to enrich lives through our relentless drive to improve healthcare outcomes for our patients and customers.

As of [December 31, 2022](#) [December 31, 2023](#), we had approximately [19,900](#) [20,270](#) employees, of which approximately [12,900](#) [13,300](#) were Bausch + Lomb employees. We had approximately [10,300](#) [10,520](#) employees in production, [6,600](#) [6,725](#) in sales and marketing, [1,700](#) [1,575](#) in general and administrative positions and [1,300](#) [1,450](#) in R&D. These employees are located around the world, with [7,600](#) [7,910](#) in the United States and Canada, [6,920](#) [7,050](#) in Europe, [2,440](#) [2,420](#) in Asia-Pacific countries, [2,110](#) [2,100](#) in Latin America, [630](#) [570](#) in Russia and Commonwealth of Independent State countries and [200](#) [220](#) in the Middle East and Africa.

Collective bargaining exists for some employees in several countries in which Bausch + Lomb does business. We consider our relations with our employees to be good and have not experienced any work stoppages, slowdowns or other serious labor problems that have materially impeded our business operations.

In [2022](#) [2023](#), our turnover [trended higher](#) [was modestly lower](#) than our [target](#) [2022](#) turnover [rate, but we](#) [rate](#). We have not experienced any significant disruption to date as a result of turnover.

Health, Safety and Wellness

Our employees' health, safety, and wellness are important to us. On an ongoing basis, Bausch Health [excluding](#) [\(excluding](#) Bausch + [Lomb](#) [Lomb\)](#) and Bausch + Lomb measure how well we are fostering the health and safety of our employees through our Days Away Rate ("DAR"), which is a standard used in our industry to capture the number of days that our employees are away from work as a result of a work-related injury or illness. For the year [2022](#), [2023](#), Bausch Health excluding Bausch + Lomb's DAR was [17](#) [12](#) days per 100 employees. This was higher than the goal we established for DAR of less than [7](#) [9](#) days per 100 employees but was favorable to our industry's average DAR of [24](#) [22](#) days per 100 employees. [The higher than target DAR was primarily attributable to two extended absences and DAR stabilized and trended downward in the 2nd half of 2022.](#) In [2022](#), [2023](#), Bausch + Lomb's DAR was [5.6](#), [6](#), which met its goal of not to exceed [7.17](#) [exceeding 6](#) on an annual basis and is far below similar industry standard DAR of [21.7](#), [22](#).

[We also recognize that](#) [In 2023 we introduced a new global wellness initiative with activities aimed at improving the physical, emotional and financial wellbeing](#) [are significant contributors to](#) [of our employees' success at work and home.](#) We aim to support our employees in their everyday life by centering programs and activities around these three pillars [employees.](#) [The initiative includes designating the month of wellbeing, May for mental health wellness.](#) Across each of these pillars, we offer a range of resources to help our employees be healthy and feel successful in both their professional and personal [lives, including through employee assistance programs.](#) [lives.](#)

Diversity and Inclusion

We are dedicated to fostering an inclusive work environment where everyone feels welcomed, supported and valued for their talents and contributions. Our Bausch Health Diversity, Equity & Inclusion ("DE&I") strategy centers on connecting our employees to our Company, each other, and our communities to cultivate a sense of trust, respect and belonging for all.

[We strive to advance candid conversations among employees regarding such key topics as inclusion, racism and gender equality.](#) [Through our diversity and inclusion training and education efforts, all employees have been provided with educational tools and resources to understand how to talk about these topics at work and how to become more aware of unconscious biases they may have.](#) [During 2022, all employees were invited to participate in interactive workshops on various topics including equitable leadership, understanding and managing conflict styles, building awareness, skills and confidence to support LGBTQ+ colleagues, and creating and fostering inclusive environments.](#)

Talent Development

We are committed to the development of our employees and believe that our success coincides with our employees' achievements of personal and professional goals.

Through our Employee Development Framework, we endeavor to support our employees' interests to grow to their full potential, achieve career goals, and contribute to the success of our Company. We empower employees to explore roles that are of interest and

gain insights into their strengths and development needs. We provide a variety of development programs to support our employees at every stage of their career and incorporate individual development plans that aim to help our employees reach their career goals.

We also have a robust, global succession planning process that allows us to define talent needs based on business strategy, identify talent and drive their development and growth, strengthen the pipeline for critical leadership positions, and

optimize talent deployment across the business. As detailed in its charter, the Talent and Compensation Committee of the Board of Directors assists the Board with oversight of our Company's talent management and succession planning process. The Board of Directors reviews succession planning progress and specifically the plans for Executive Committee roles. To support this

process, the Board interacts with leaders and managers throughout the organization during the year to get to know these employees and their work.

Total Rewards

Our total rewards philosophy is designed to attract, retain, motivate and engage our employees. We provide comprehensive and market competitive compensation and benefit programs across our geographies, aligning these programs with the interests of our shareholders and balancing appropriate risk taking. Collectively, these programs comprise our Total Rewards package.

Our compensation program includes base pay, short-term incentives and long-term incentives. We provide the opportunity for our employees to earn more when we deliver against objectives – both as a total company and individually. We also provide competitive benefit programs based on local practice in the countries where our employees work. Our programs include medical coverage, retirement benefits, paid time off, and life and other insurances.

Corporate Social Responsibility

We are proud to support the communities in which we live and work with their charitable initiatives. Bausch Health provides monetary and product donations to **not for profit** **not-for-profit** organizations for use in indigent care, public education, advocacy efforts, disaster relief or other charitable efforts. Bausch Health also provides grants to organizations that deliver independent, professional education initiatives for healthcare providers, including continuing medical education, as well as requests to provide funding or free product for investigator initiated studies.

We understand that some patients may face financial obstacles that can keep them from obtaining the prescription products they need. Bausch Health is committed to improving access to medications through our patient assistance programs. The purpose of the Bausch Health Patient Assistance Program is to provide eligible patients in the U.S. with certain of our prescription products where their financial circumstances or insurance status would otherwise interfere with their ability to access such products. If approved, patients receive their Bausch Health Companies Inc. prescription product(s) at no cost to them for up to one year and may be able to reapply to the program annually if they continue to meet eligibility requirements and have a valid prescription.

See Item 7. "Management's Discussion and Analysis — Overview — Focus on **Value and** Core Businesses — Improve Patient Access" for additional discussion regarding Company programs to address the affordability and availability of our products.

Product Liability Insurance

Since March 31, 2014, we have self-insured substantially all of our product liability risk for claims arising after that date. In the future, we will continue to re-evaluate our decision to self-insure and may purchase additional product liability insurance to cover product liability risk. See Item 1A. "Risk Factors" of this Form 10-K for additional information.

Seasonality of Business

Historically, revenues from our business tend to be weighted toward the second half of the year. Sales in the first quarter tend to be lower as patient co-pays and deductibles reset at the beginning of each year. Sales in the fourth quarter tend to be higher based on consumer and customer purchasing patterns associated with health care reimbursement programs. However, there are no assurances that these historical trends will continue in the future.

Geographic Areas

A significant portion of our revenues is generated from operations or otherwise earned outside the U.S. and Canada. All of our foreign operations are subject to risks inherent in conducting business abroad, including price and currency exchange controls, fluctuations in the relative values of currencies, political and economic instability and restrictive governmental actions including possible

nationalization or expropriation. Changes in the relative values of currencies may materially affect our results of operations. For a discussion of these risks, see Item 1A. "Risk Factors" of this Form 10-K.

See Note 22, "SEGMENT INFORMATION" to our audited Consolidated Financial Statements for revenues and long-lived assets by geographic area.

A portion of our revenue and income was earned in Canada and Ireland, which have low effective tax rates. See Item 1A. "Risk Factors" of this Form 10-K relating to tax rates for more information.

Available Information

on Form 10-Q, current reports on Form 8-K and any amendment to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended. All such filings are available through our website free of charge. The information on our Internet website is not incorporated by reference into this Form 10-K or our other securities filings and is not a part of such filings. The SEC also maintains an Internet website at www.sec.gov that contains reports, proxy and information statements, and other information regarding issuers, including us, that file electronically with the SEC.

We are also required to file reports and other information with the securities commissions in all provinces in Canada. You are invited to read and copy any reports, statements or other information, other than confidential filings, that we file with the provincial securities commissions. These filings are also electronically available from the Canadian System for Electronic Document Analysis and Retrieval ("SEDAR" SEDAR+) at www.sedar.com www.sedarplus.ca, the Canadian equivalent of the SEC's electronic document gathering and retrieval system.

Item 1A. Risk Factors

Our business, financial condition, cash flows and results of operations are subject to various risks and uncertainties. You should carefully consider the risks and uncertainties described below, together with all of the other information in this Form 10-K, including those risks set forth under the heading entitled "Forward-Looking Statements" and in other documents that we file with the SEC and the CSA, before making any investment decision with respect to our common shares or debt securities. If any of the risks or uncertainties actually occur or develop, our business, financial condition, cash flows, results of operations and/or future growth prospects could change, and such change could be materially adverse. Under these circumstances, the market value of our common shares and/or debt securities could decline, and you could lose all or part of your investment in our common shares and/or debt securities.

Summary of Risk Factors

The following is a summary of the risk factors our business faces. The list below is not exhaustive, and investors should read this "Risk Factors" section in full. Some of the risks we face include:

- risks associated with the ongoing conflict between Russia impact of the current market and Ukraine and the export controls, sanctions and other restrictive actions that have been economic conditions in one or may be imposed by the U.S., Canada and other countries against governmental entities in Russia, Belarus and parts more of Ukraine; our markets on our ability to grow our business;
 - the effect impact of the COVID-19 pandemic inflation and other macroeconomic factors on our business financial condition, cash flows, and results of operations;
 - the ongoing litigation and potential additional litigation, claims, challenges and/or regulatory investigations challenging or otherwise relating to the B+L IPO and the B+L Separation and the costs, expenses, use of resources, diversion of management time and efforts, liability and damages that may result therefrom;
 - the impact on our business from the closing of the B+L IPO, the uncertainties with respect to the expected timing of completion of the B+L Separation, including the impact of a failure to maintain the tax-free treatment of such transaction, the continued reliance on Bausch + Lomb employees for certain transitional services, a failure to obtain replacement contracts, any actual or perceived conflict of interest of our directors and officers who also serve roles in Bausch + Lomb and the cross-indemnification obligations on us and Bausch + Lomb;
 - the impacts on our business related to the suspension of the Solta IPO;
 - the ongoing legal proceedings, investigations, and inquiries respecting certain of our historical distribution, marketing, pricing, disclosure and accounting practices;
 - the impact of changes to our pricing practices, whether imposed, legislated or voluntary;
 - the potential adverse impact of legal and governmental proceedings that are uncertain, costly and time-consuming;
 - our dependence on third parties to meet their contractual, legal, regulatory, and other obligations;
 - the impact of product recalls and related product liability claims;
 - our ability to comply with extensive regulation concerning marketing, promotional and business practices;
 - our ability to comply with restrictive covenants in our debt agreements;
 - our ability to generate cash in order to service our debt;
 - the impact on our business of restrictions imposed by our significant indebtedness;
 - the effect of interest rate changes, including the discontinuation of the London Interbank Offered Rate ("LIBOR");
 - our ability to manage the transition of our key management positions;
 - our ability to recruit and retain executives and key personnel;
 - the potential increase of our effective tax rates, including as a result of proposed changes to applicable tax laws;
 - our ability to compete with generic competitors in products that represent a significant amount of our revenue;
 - our ability to obtain, maintain, enforce or defend the intellectual property rights required to conduct our business;
 - the impact of current and potential intellectual property litigation;
-
- our ability to develop or acquire more effective or less costly pharmaceutical or OTC products or medical devices than our competitors;
 - the effect of our commitment to the cessation of or limitation on pricing increases for certain of our products;

- the impact of divestitures of certain of our assets and business;
 - the potential adverse effect of acquisitions of assets, products and businesses;
 - our ability to maintain and provide appropriate training in our products to our health care providers;
 - our ability to successfully commercialize our pipeline products;
 - our ability to comply with ongoing regulatory review of our marketed drugs, including our dietary products;
 - the impact on our revenues and profits from generic products as a result of changes to regulatory policy;
 - the impact on our business of interruptions in our manufacturing processes;
 - our dependence on a limited number of sources for certain of our finished products and raw materials;
 - the effect of changes in inventory levels or fluctuations in buying patterns by our large distributor and retail customers;
 - our ability to achieve or maintain expected levels of market acceptance for our new products;
 - our dependence on reimbursements from governmental and other third-party payors;
 - the impact of a failure to be included in formularies developed by managed care organizations and third-party payors;
 - the impact of pricing controls, social or governmental pressure to lower the cost of drugs, and consolidation across the supply chain;
 - the failure of our fulfillment arrangements with Walgreens and our dermatology cash-pay prescription program;
 - the impact of catastrophic events that may disrupt our business;
 - the illegal distribution and sale of counterfeit versions of our products;
 - the reduction of profits due to imports from countries where our products are available at lower prices;
 - the reduction of revenues in future fiscal periods due to our policies regarding returns, allowances, and chargebacks;
 - the decline in sales volumes or prices of our products as the result of the concentration of sales to wholesalers;
 - the decline in pricing and/or volume of our products in our distribution agreements with other companies;
 - risks associated with the international scope of our operations;
 - foreign currency exposure on the translation into U.S. dollars of the financial results of our international operations;
 - risks associated with the ongoing conflict between Russia and Ukraine;
 - risks associated with the disruption in the global economy caused by the ongoing conflict between Israel and Hamas;
 - the breakdown, interruption, breach or other compromise of our information technology systems;
 - our ability to comply with applicable laws and regulations and prevail in any litigation related to noncompliance;
 - the impact that reforms of the health care system may have on our ability to sell our products profitably;
 - our ability to comply with environmental laws and regulations and environmental remediation obligations;
 - risks associated with climate change;
 - our ability to maintain adequate internal controls and to provide an assertion as to the effectiveness of such controls on an annual basis;
 - the potential adverse effect of shareholder activism;
 - the impact on our profitability from the potential impairment of goodwill and other intangible assets;
-
- our ability to effectively monitor and respond to expectations regarding environmental, social and governance matters;
 - our potential obligations under our indemnity agreements and arrangements; and

- the fluctuation of our operating results and financial condition from quarter to quarter.

Risks Relating to Economic and Market Conditions

Current market and economic conditions in one or more of our markets could impact our ability to grow our business.

Over the Russia last few years in the U.S. and Ukraine conflict

As globally, market and economic conditions have been challenging, particularly in light of the COVID-19 pandemic and, more recently, as a result of uncertainty concerning government shutdowns, debt ceilings and government funding. Any negative impact on economic conditions and international markets, continued volatility or deterioration in the current conflict between Russia debt and Ukraine, including the recent invasion of Ukraine by Russia, the current and any future responses by the global community to such conflict and any counter responses by the Russian government equity capital markets, inflation, deflation or other entities or individuals, and the potential expansion of the conflict to other countries, we have begun to experience and adverse economic conditions may continue to experience an adverse impact on adversely affect our business, liquidity, financial condition, cash flows and results of operations in this region, as well as on and could cause the market value of our common shares and/or debt securities to decline. Ongoing uncertain economic and financial market conditions may also adversely affect the financial condition of our customers, suppliers and other business partners. When our customers' financial conditions are adversely affected, it could materially and operations generally, adversely affect our sales and financial results, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares to decline.

On February 24, 2022, Russia launched a military invasion of Ukraine. The ongoing military conflict between Ukraine and Russia has provoked strong reactions from the United States, the UK, the EU, Canada and various other countries around the world, including the imposition of export controls and broad financial and economic sanctions against Russia, Belarus and specific areas of Ukraine. Additional sanctions or other measures may be imposed by the global community, and counteractive measures may be taken by the Russian government, other entities in Russia or governments or other entities outside of Russia.

For 2022 and 2021, we derived approximately 2% of our revenues from sales of our products in Russia, less than 1% of our revenues from sales of our products in both Ukraine and Belarus. The conflict between Ukraine and Russia has begun to impact our business in the region, and we are continuously monitoring developments to assess any potential future impact that may arise. Given the nature of our products, we do not believe that the current sanctions and other measures imposed by the United States and other countries preclude us from conducting business in the region. However, we anticipate that the ongoing conflict in this region and the sanctions and other actions by the global community in response may continue to hinder our ability to conduct business with customers and vendors in this region. For example, we have experienced and may in the future experience disruption and delays in the supply of our products to our customers in Russia, Belarus and Ukraine. We have experienced and may in the future also experience decreased demand for our products in these countries as a result of the conflict and invasion. In addition, we may experience difficulties in collecting receivables from such customers. If we are hampered in our ability to conduct business with new or existing customers and vendors in this region, our business, and operations, including our revenues, profitability and cash flows, could be adversely impacted. Furthermore, if the sanctions and other retaliatory measures imposed by the global community change, we may be required to cease or suspend our operations in the region or, should the conflict worsen, we may voluntarily elect to do so. We cannot provide assurance that current sanctions or potential future changes in these sanctions or other measures will not have a material impact on our operations in Russia, Belarus and Ukraine. The disruption to, or suspension of, our business and operations in Russia, Belarus and Ukraine would adversely impact our business, financial condition, cash flows and results of operations in this region which may, in turn, materially adversely impact our overall business, financial condition, cash flows and results of operations, which impact could be material, and could cause the market value of our common shares to decline. Finally, we are also subject to risks if exchange controls were to be imposed that would limit the repatriation of profits from our operations in Russia. While we do not rely on profits or dividends from our Russian operations to fund our debt repayment or other business activities generally, as our operations from Russia primarily involve the sale of products purchased from our affiliates located outside of Russia, any exchange controls that would limit the purchase of or payment for products or goods from outside of Russia may have an adverse impact on our operations in Russia or the way we conduct business in Russia.

While the precise effects of the ongoing military conflict and sanctions on the Russian and global economies remain uncertain, they have already resulted in significant volatility in financial markets and depreciation of the Russian ruble and the Ukrainian hryvnia against the U.S. dollar, as well as in an increase in energy and commodity prices globally. Should the conflict continue or escalate, there may be various economic and security consequences including, but not limited to, supply shortages of different kinds, further increases in prices of commodities, including piped gas, oil and agricultural goods, reduced consumer purchasing power, significant disruptions in logistics infrastructure, telecommunications services and risks relating to the unavailability of information technology systems and infrastructure. The resulting impacts to the global economy, financial markets, inflation, interest rates and unemployment, among others, could adversely impact economic and financial conditions, and may disrupt the global economy's ongoing recovery following the COVID-19 pandemic. Other potential consequences include, but are not limited to, growth in the number of popular uprisings in the region, increased political discontent, especially in the regions most affected by the conflict or economic sanctions, increase in cyberterrorism activities and attacks, displacement of persons to regions close to the areas of conflict and an increase in the number of refugees fleeing across Europe, among other unforeseen social and humanitarian effects.

In addition, as a result of the ongoing conflict between Russia and Ukraine, we may experience other risks, difficulties and challenges in the way we conduct our business and operations generally. For example, there may be an increased risk of cybersecurity attacks due to the current conflict between Russia and Ukraine, including cyber security attacks perpetrated by Russia or others at its direction in response to economic sanctions and other actions taken against Russia as a result of its invasion of Ukraine. Any increase in such attacks on us or our third-party providers or other systems could adversely affect our network systems or other operations. In order to address the risks associated with cybersecurity attacks from the region (including state-sponsored cybersecurity attacks), we have taken action to consolidate network traffic from Russia and Belarus through a single point, which is designed to allow us to more closely inspect that traffic. In addition, if required, this consolidation provides a single point to quickly and efficiently disconnect the region from our corporate network. At this time, to the best of our knowledge, we do not believe we have experienced any cyberattacks that are related to the conflict between Russia and Ukraine. Although we have taken steps to enhance our protections against such attacks, we may not be able to address these cybersecurity threats proactively or implement adequate preventative measures and there can be no assurance that we will promptly detect and address any such disruption or security breach, if at all. In addition, as a result of the risk of collectability of receivables from our customers in Russia, Belarus and Ukraine, we may be required to adjust our accounting practices relating to revenue recognition in this region, with the result that we may not be able to recognize revenue from these customers until collected. We may also suffer reputational harm as a result of our continued operations in Russia, which may adversely impact our sales and other businesses in other countries. Finally, we have one global clinical trial involving Russia, Ukraine and Belarus with patients enrolled. We continue to support the existing patients, but have no plans to enroll new patients at this time. Plans for any additional trials involving Russia, Ukraine and Belarus have been postponed.

A protracted conflict between Ukraine and Russia, any escalation of that conflict, and the financial and economic sanctions and import and/or export controls imposed on Russia by the U.S., the UK, the EU, Canada and others, and the above-mentioned adverse effect on our operations (both in this region and generally) and on the wider global economy and market conditions could, in turn, have a material adverse impact on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Risks Relating to COVID-19

The ongoing impact of the COVID-19 pandemic, the rapidly evolving reaction of governments, private sector participants and the public to that pandemic and/or the associated economic impact of the pandemic and the reactions to it, currency exchange rate fluctuations, which could adversely affect our cost to manufacture and materially impact provide our business, financial condition, cash flows and results of operations.

The ongoing impact of the COVID-19 pandemic, and the rapidly evolving reaction of governments, private sector participants and the public in an effort to contain the spread of COVID-19 (and variants thereof) and/or address its impacts have had significant direct and indirect effects on businesses and commerce generally, including disruption to supply chains, employee base and transactional activity, facilities closures and production suspensions, and significantly increased demand for certain goods and services and revenues generated through sales of such as pandemic-related medical services and supplies, alongside decreased demand services. There is no guarantee that we will be able to fully absorb any such additional costs or revenue declines in the prices for others, such as retail, hospitality, travel and elective surgery.

As a result of the impact of COVID-19, we have experienced and may experience delays in and postponement of our clinical trial programs, reduced demand for certain of our products due to the deferral of elective medical procedures and of doctor and dentist visits and restrictions on outpatient surgery and other medical procedures, and if such issues recur in the future, our results of operations may be adversely impacted as a result. In addition, certain of our facilities were temporarily closed in connection with the COVID-19 pandemic, and we have also experienced some disruptions to our supply chain as a result of challenges associated with the COVID-19 pandemic. Although we are not currently experiencing these effects, depending on future developments with respect to COVID-19, we may continue to experience those effects as a result of the pandemic, the emergence of new variants, the reactions of governments, private sector participants and the public to the pandemic and the associated disruption to business and commerce generally.

The extent and duration of the pandemic, the reactions of governments, private sector participants and the public to that pandemic and the associated disruption to business and commerce generally, and the extent to which these may impact our business, financial condition, cash flows and results of operations in particular, will depend on future developments which are highly uncertain and many of which are outside our control and cannot be predicted with confidence. Such developments include the ultimate geographic spread and duration of the pandemic, the availability and effectiveness of vaccines for COVID-19, vaccine hesitancy, the extent and duration of a resurgence of the COVID-19 virus and variant and subvariant strains thereof in order to timely address new information which may emerge concerning issues if and when they arise. To the severity of extent the COVID-19 pandemic persists, with surges in infection and intensity of measures to contain COVID-19 and/or address its impacts, and the economic impact of the pandemic and the reactions to it. Such developments, among others, depending on their nature, duration and intensity, associated government responses, it could have a significant adverse effect on our business, financial condition, cash flows, and results of operations and could cause the market value of our common shares and/or debt securities to decline and may exacerbate other risk factors disclosed elsewhere in this Item 1A. "Risk Factors."

Factors" section.

Inflation and other macroeconomic factors could materially adversely affect our business and operations.

Developments such as Our operating results could be materially impacted by changes in the overall global macroeconomic environment and other economic factors that impact our cost structure and revenue results. Changes in economic conditions, including supply chain constraints, logistics challenges, labor shortages, and steps taken by governments and central banks, particularly in response to the COVID-19 pandemic, as those described above, among others, depending well as other stimulus and spending programs, have, in the past, led to (and could, in the future, lead to) higher inflation, resulting in an increase in costs and changes in fiscal and monetary policy, including increased interest rates. In a higher inflationary environment, we may be unable to raise the prices of our products and services sufficiently to keep up with the rate of inflation. Moreover, negative macroeconomic conditions could adversely impact our ability to obtain financing in the future on their nature, duration terms acceptable to us, or at all. In addition, geopolitical instability (such as the ongoing conflict between Russia and intensity, Ukraine and the ongoing conflict in the Middle East involving Israel and Hamas) and related sanctions could continue to have significant ramifications on global financial markets, including volatility in the U.S. and global financial markets. These inflationary pressures and other negative macroeconomic conditions could impact our revenues and resulting margins and could have a significant adverse effect impact on the Company's business, financial condition, cash flows and results of operations. operations and could cause the market value of our common shares and/or debt securities to decline.

Risks Relating to the B+L Separation

The B+L Separation is subject to challenge and could be subject to further challenges in the future, any of which could delay or prevent the consummation of such transactions or cause them to occur on worse terms that are different or less favorable than we currently expect. originally anticipated.

The B+L Separation, including a distribution of all or a portion of our remaining equity interest in Bausch + Lomb to our shareholders, is subject to challenge, which could delay or prevent the consummation of such transactions or cause them to occur on worse terms than we currently expect. For example, in March 2022, the Company and Bausch + Lomb were named in a declaratory judgment action in the Superior Court of New Jersey, Somerset County, Chancery Division, brought by certain individual investors in the Company's common shares and debt securities who are also maintaining individual securities fraud claims against the Company and certain of its current or former officers and directors. This action seeks a declaratory judgment that alleged transfers of certain Company assets to Bausch + Lomb would constitute a voidable transfer under the New Jersey Voidable Transactions Act and that Bausch + Lomb would be liable for damages, if any, awarded against the Company in the individual opt-out actions. In addition, the Company could, in the future, face additional legal proceedings and investigations

and inquiries by governmental agencies relating to these or similar matters. For more information regarding legal proceedings, see Note 20, "LEGAL PROCEEDINGS" to our audited Consolidated Financial Statements elsewhere in this Form 10-K.

We are unable to predict the outcome of any such proceedings, investigations and inquiries, but we may incur significant costs and diversion of management attention as a result of these matters, regardless of the outcome. Some or all of these proceedings, investigations and inquiries may lead to damages, settlement payments, fines, penalties, consent orders or other administrative sanctions against us. Furthermore, publicity surrounding these proceedings, investigations and inquiries or any enforcement action as a result thereof, even if ultimately resolved favorably for us could result in additional investigations and legal proceedings. As a result, these proceedings, investigations and inquiries could have a material adverse effect on our reputation, business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

The B+L Separation is subject to uncertainties

Unanticipated developments including disruptions and other challenges could delay or prevent the completion of the B+L Separation (including the Distribution, as defined below), result in changes to business the anticipated structure of the B+L Separation (whether by way of "butterfly reorganization" rules in Section 55 of the Canadian Tax Act, return of capital or otherwise), cause the B+L Separation to occur on terms or conditions that are different or less favorable than originally anticipated or affect our ability to realize some or all of the anticipated benefits of the B+L Separation. Such developments and commerce induced by the COVID-19 pandemic, changes in market conditions, other challenges may include possible delays in obtaining any necessary shareholder, stock exchange, regulatory or other approval or the failure to obtain any such approvals, possible delays in obtaining any required tax opinions or rulings or the failure to obtain any such tax opinions or rulings, that a failure to satisfy conditions, complications arising from the portion of Bausch Health's ownership of Bausch + Lomb that is pledged as collateral securing the 9.00% Intermediate Holdco Secured Notes (as defined below), negotiating challenges, the uncertainty of the financial markets, disruptions to business and commerce induced by changes in global markets, financial and economic conditions (such as the COVID-19 pandemic and international conflicts) and changes in the law, law.

The Company continues to evaluate the structure of any Distribution and other challenges could delay related details, and, subject to the terms of the Company's agreements with Bausch + Lomb, the Company may consider undertaking the Distribution through one or prevent more distributions effected as a dividend or a tax-free reduction of capital, one or more distributions in exchange for Bausch Health shares or other securities, or any combination thereof. Prior to the completion of any Distribution, the B+L Separation (including the Distribution, as defined below), result Company may also sell a portion of its remaining direct or indirect equity interest in changes Bausch + Lomb through an offering to the anticipated structure of the B+L Separation, or cause the B+L Separation to occur on terms or conditions that are different or less favorable than expected. Any changes to the B+L Separation or delay in completing the B+L Separation could cause us not to realize some or all of the expected benefits or realize them on a different timeline than expected. third parties.

Further, our Board of Directors could decide, either because of a failure to satisfy conditions or because of market or other factors, to delay, abandon or alter the structure or terms of the B+L Separation. Additionally, Bausch + Lomb may terminate the existing arrangement agreement between the Company and Bausch + Lomb in accordance with its terms as of the outside date of December 31, 2024 (unless the parties otherwise agree). No assurance can be given as to whether and when the full B+L Separation will occur, on what terms or structure the B+L Separation will occur or whether the B+L Separation will achieve the benefits we expect. originally anticipated. As a result, there can be no assurance as to the timing of the completion of the B+L Separation or its structure or terms.

Even if the B+L Separation is completed, we may not realize all of the benefits that we originally anticipated.

Even if the B+L Separation is completed, we may not be able to achieve the full strategic and financial benefits expected originally anticipated to result from the B+L Separation. The B+L Separation is expected intended to unlock value by creating an independent business and distinct investment identity with enhanced strategic and management focus that allows more efficient allocation of resources and capital. In addition, though the proceeds from the B+L IPO facilitated further reductions in the aggregate amount of our outstanding indebtedness, we may not achieve these and other anticipated benefits for a variety of reasons, including, among others: (i) Bausch + Lomb may prove to be less valuable on an independent basis than we anticipate, including because it is more susceptible to economic downturns and other adverse events than if it were still a part of the Company and because its business will be less diversified than the Company's business prior to the B+L Separation and (ii) other actions required to separate the respective businesses could disrupt our operations.

We have and will continue to expend significant resources in pursuing the B+L Separation

The completion of the B+L Separation has and will continue to require significant resources, time and attention from our senior management and employees, which could cause distractions and divert attention and resources away from other projects and the day-to-day operation of our business. We may also experience increased difficulties in attracting, retaining, and motivating management and employees during the pendency of in connection with the B+L Separation and following its completion. Separation. For more information on these and other related risks, see Item 1A. "Risk Factors—Employment-related Risks" of this Form 10-K. The

B+L Separation, whether or not completed, may also have an adverse impact on our relationships with our customers, suppliers and other business counterparties. The price of our common shares could also fluctuate significantly in response to developments or market speculation related to the B+L

Separation. The B+L Separation, if completed, may also have the effect of exacerbating other risk factors disclosed in this Item 1A. "Risk Factors."

We have already incurred significant expenses in connection with the B+L Separation, and currently expect that the process of completing the B+L Separation process will continue to be time-consuming and involve significant additional costs resources and expenses, which may not yield a discernible benefit if the B+L Separation is not completed on the timeline and terms currently anticipated or at all. In addition, if the B+L Separation is not completed or if it is delayed or restructured, we will still be required to pay certain costs and expenses incurred in connection therewith, such as legal, accounting, and other professional and advisory fees. Furthermore, the B+L Separation, if completed, is expected to result in dysynergy costs, which may be greater than we anticipate and/or may be significant. In addition, we could be subject to legal proceedings or other claims challenging the B+L Separation, which could result in substantial costs and liability and also divert management's attention and resources, any of which could harm our business.

Any of the above factors could cause the B+L Separation process (or the failure to consummate the B+L Separation) to have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

If the distribution of the shares in Bausch + Lomb (the "Distribution") proceeds pursuant to the Arrangement, existing arrangement agreement between the Company and Bausch + Lomb, to preserve the tax-free treatment of certain transactions related to the Distribution, we may not be able to engage in certain transactions. In such case, we could incur significant tax liabilities, or be liable to Bausch + Lomb, if certain transactions occur which result in these transactions or the Distribution being subject to tax. The application of certain requirements of the public company "butterfly reorganization" rules in Section 55 of the Canadian Tax Act depend on events that may not be within our control.

We currently expect that the Our initial intent was to effectuate any potential Distribution will be effected pursuant to the public company "butterfly reorganization" rules in Section 55 of the Income Tax Act (Canada) (the "Canadian Tax Act"). We continue to

evaluate the structure of any potential Distribution and its other related details, and we have determined that any potential Distribution could also be implemented through a tax-free reduction of capital, which could provide us and Bausch + Lomb additional flexibility with respect to strategic alternatives following the completion of a Distribution. If the Distribution is effected pursuant to the public company "butterfly reorganization" rules in Section 55 of the Canadian Tax Act, as currently anticipated, we and Bausch + Lomb will would recognize a taxable gain on the Distribution if, (a) within three years prescribed periods following the completion of the Distribution, Bausch + Lomb engages in a subsequent spin-off or split-up transaction certain transactions specified under Section 55 of the Canadian Tax Act or the Company engages in a split-up (but not spin-off) transaction under Section 55 of the Canadian Tax Act; (b) a "specified shareholder" as defined for purposes of the "butterfly reorganization" rules in Section 55 of the Canadian Tax Act disposes of our shares or shares of Bausch + Lomb, or property that derives 10% or more of its value from such shares and an unrelated person or partnership acquires such property or property substituted therefore as part of the "series of transactions" which includes the Distribution; (c) there is (including an acquisition of control of the Company or Bausch + Lomb that is part of the "series of transactions" that includes the Distribution; Distribution) are undertaken by us or (d) certain persons acquire shares in the capital of Bausch + Lomb (other than in specified permitted transactions) in contemplation of and or a "specified shareholder" as part defined for purposes of the "series of transactions" that includes, the Distribution. If any "butterfly reorganization" rules in Section 55 of the above events, Canadian Tax Act. If such transactions, certain of which are outside the control of the Company and Bausch + Lomb, were to occur and to cause the Distribution to be taxable to us and/or to Bausch + Lomb, then we or Bausch + Lomb, as applicable, and, in some cases, both us and Bausch + Lomb, would be liable for a substantial amount of tax.

Given these potentially significant tax consequences, if the Arrangement "butterfly reorganization" structure is pursued, it is anticipated that we will agree with Bausch + Lomb to certain tax-related covenants, which may restrict us from taking certain actions that we might otherwise choose to take, some of which could be material, and the nature, extent and effect of these restrictions will depend on the manner in which the Distribution is effected. material. Furthermore, if we breach any of these tax-related covenants, we may be required to indemnify Bausch + Lomb against any taxes or other losses suffered or incurred from or in connection with such breach, which loss may include the taxable gain recognized by Bausch + Lomb if the Separation were to be taxable, as further described above. breach.

In connection with the any B+L Separation, we will continue to rely on Bausch + Lomb for certain services, which services may not be sufficient to meet our needs, which may result in increased costs and otherwise adversely affect our business.

In connection with the any B+L Separation, we anticipate that we and Bausch + Lomb will would provide to each other certain services for a transitional period in exchange for certain agreed-upon fees. If we no longer receive these services from Bausch + Lomb due to the termination or expiration of these transitional services, we may not be able to perform these services ourselves and/or find appropriate third-party arrangements at a reasonable cost (and any such costs may be higher than those charged by Bausch + Lomb). In addition, in connection with the any B+L Separation, we expect that a number of the employees that support our business (which number of employees may be significant) will would be employed by legal entities that are owned by Bausch + Lomb and not by us.

Certain contracts used in our business may need to be replaced in connection with the any B+L Separation and failure to obtain such replacement contracts could increase our expenses or otherwise adversely affect our results of operations.

In connection with the any B+L Separation, we may be required to replace certain shared contracts. It is possible that, in connection with the replacement process, some parties may seek more favorable contractual terms from us. If we are unable to obtain such replacement contracts, the loss of these contracts could increase our expenses or otherwise materially adversely affect our business, results of operations and financial condition.

In connection with the any B+L Separation, some of our directors and officers may have actual or potential conflicts of interest because of their equity ownership in Bausch + Lomb, and/or because they also serve as officers or directors of Bausch + Lomb.

Because of their positions with Bausch + Lomb, in connection with the any B+L Separation, some of our directors and executive officers may own common shares of Bausch + Lomb or have options to acquire shares of Bausch + Lomb, and the individual holdings may be significant for some of these individuals compared to their total assets. In addition, in connection with the any B+L Separation, certain of our current or former officers and directors will would also serve as officers or directors of Bausch + Lomb. A director who has a material interest in a matter before our Board of Directors or any committee on which he or she serves is required to disclose such interest as soon as the director becomes aware of it in accordance with applicable law. In situations where a director has a material interest in a matter to be considered by our Board of Directors or any committee on which he or she serves, such director may be

required to excuse himself or herself from the meeting while discussions and voting with respect to the matter are taking place. Although all transactions with related parties will be approved by independent members of our Board of Directors that may meet in the absence of senior executive officers or non-independent directors, the ownership of Bausch + Lomb equity or service to Bausch + Lomb may create the appearance of conflicts of interest when the Bausch + Lomb-affiliated directors and officers are faced with decisions that could have different implications for Bausch + Lomb or us. For example, potential conflicts of interest could arise in connection with the resolution of any dispute that may arise between Bausch + Lomb and us regarding the terms of the any B+L Separation. Potential conflicts of interest could also arise if we enter into commercial arrangements with Bausch + Lomb in the future. As a result of these actual or apparent conflicts, we may be precluded from pursuing certain growth initiatives. While the Board of Directors believes that, given its size and structure, such actual or potential conflicts of interest can be managed adequately, including that the independent members of our Board of Directors may meet in the absence of senior executive officers or non-independent directors in respect of the relevant matter, the actual or perceived conflicts of interest that may arise could cause reputational or other harm.

In connection with the any B+L Separation and the various separation-related agreements entered into by us and Bausch + Lomb, in connection with the proposed transaction, we have agreed to indemnify Bausch + Lomb, for certain liabilities, and Bausch + Lomb has agreed to indemnify us for certain liabilities. However, there can be no assurance that Bausch + Lomb's indemnity will be sufficient to insure us against the full amount of such liabilities, or that Bausch + Lomb's ability to satisfy its indemnification obligation will not be impaired in the future.

In connection with the various separation-related agreements entered into between Bausch + Lomb and us in connection with the any B+L Separation, Bausch + Lomb agreed to indemnify us for certain liabilities. However, there can be no assurance that the indemnity from Bausch + Lomb will be sufficient to protect us against the full amount of such liabilities, or that Bausch + Lomb will be able to fully satisfy its indemnification obligations in the future. Even if we ultimately succeed in recovering from Bausch + Lomb any amounts for which we are held liable, we may be temporarily required to bear these losses. Each of these risks could negatively affect our business, financial condition, results of operations and cash flows. Furthermore, any indemnification claim against us by Bausch + Lomb, including for a breach of the tax-related covenants described above, could be substantial, may not be able to be satisfied and may have a material adverse effect on us. Each of these risks could also negatively affect our business, financial condition, results of operations and cash flows.

We suspended our plan to pursue an IPO of our Solta Medical device aesthetics business.

On August 3, 2021, we announced that we intended to pursue an IPO of Solta Medical. The proposed Solta IPO would establish Solta Medical as a separate publicly traded company that consists of our medical aesthetics business. On June 16, 2022, we announced the suspension of the Solta IPO. Accordingly, the Solta IPO will not be completed in accordance with the previously-anticipated timeline and if resumed, will involve significant time, expense, and distraction, any of which could disrupt or have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Legal and Reputational Risks

We are the subject of a number of ongoing legal proceedings, investigations and inquiries respecting certain of our historical distribution, marketing, pricing, disclosure and accounting practices, including our former relationship with Philidor, which have had and could continue to have a material adverse effect on our reputation, business, financial condition, cash flows and results of operations, could result in additional claims and material liabilities, and could cause the market value of our common shares and/or debt securities to decline.

While we have successfully settled or otherwise resolved a number of legacy legal proceedings, investigations and inquiries relating to, among other things, our disclosure and accounting practices and our former relationship with Philidor, including the securities class action litigation matters in both the U.S. and Canada, the investigation by the SEC, the investigation order from the Autorité des marchés financiers (the "AMF") (our principal securities regulator in Canada) and certain derivative lawsuits, we are currently still the subject of a number of other ongoing legal proceedings and investigations and inquiries by governmental agencies, including, but not limited to, the following: (i) a number of pending securities litigations, including certain opt-out actions in the U.S. (related to the U.S. Securities Litigation which has been settled), and in Canada (related to the securities class action litigation in Canada which has been settled), the allegations of which relate to, among other things, allegedly false and misleading statements by the Company and/or failures to disclose information about our business and prospects, including relating to drug pricing, our policies and accounting practices, our use of specialty pharmacies, and our former relationship with Philidor and (ii) a lawsuit brought against the Company in the Superior Court of New Jersey asserting claims for common law fraud, negligent misrepresentation, and violations of the New Jersey Racketeer

Influenced and Corrupt Organizations Act. In addition, we could, in the future, face additional legal proceedings and investigations and inquiries by governmental agencies relating to these or similar matters. For more information regarding legal proceedings, see Note 20, "LEGAL PROCEEDINGS" to our audited Consolidated Financial Statements.

We are unable to predict how long such proceedings, investigations and inquiries will continue, but we anticipate that we will continue to incur significant costs in connection with some or all of these matters and that some or all of these proceedings, investigations and inquiries will result in a substantial distraction of management's time, regardless of the outcome. Some or all of these proceedings, investigations and inquiries will likely result in damages, settlement payments (such as the \$1,210 million payment made by the Company in connection with the previously settled U.S. Securities Litigation), fines, penalties, consent orders or other administrative sanctions (including exclusion from federal programs) against the Company and/or certain of our directors and officers, any of which could be material, or in changes to our business practices, which, in turn, may result in or may contribute to an inability by us to meet the financial covenant contained in our 2022 Amended Credit Agreement (as defined below). Furthermore, publicity surrounding these proceedings, investigations and inquiries or any enforcement action as a result thereof, even if ultimately resolved favorably for us could result in additional investigations and legal proceedings. As a result, these proceedings, investigations and inquiries could have a material adverse effect on our reputation, business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Our historical business practices, including with respect to past pricing practices, are under scrutiny. Any changes to our practices relating to pricing or the current prices of products, whether imposed, legislated or voluntary, could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We are under scrutiny with respect to our historical business practices (including with respect to past pricing practices), including various securities litigations, including certain opt-out actions in the U.S. (related to the previously settled securities class action) and in Canada (related to the settled securities class action), and certain other lawsuits. We are unable to predict how such proceedings, investigations and inquiries will impact our current business practices, including with respect to pricing, or the prices of our products, including whether we will be required to impose pricing freezes or controls, pricing reductions (including on a retroactive basis) or other price regulation for some or all of our products.

In addition, in recent years, in the U.S., state and federal governments have considered implementing legislation that would control or regulate the prices of drugs. Other countries have announced or implemented measures on pricing, including suspensions on price increases, prospective and possibly retroactive price reductions and other recoupments. These measures and proposed measures vary by country. These measures and these proposed measures and legislation, if implemented, could lead to impairment of certain of our intangible assets which could be significant, and/or could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We are involved in or may become subject to various other legal and governmental proceedings that are uncertain, costly and time-consuming and could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We are involved in a number of other legal and governmental proceedings and may be involved in additional litigation in the future. These proceedings are complex and extended and occupy the resources of our management and employees. These proceedings are also costly to prosecute and defend and may involve substantial awards or damages payable by us if not found in our favor. We may also be required to pay substantial amounts or grant certain rights on unfavorable terms in order to settle such proceedings. Defending against or settling such claims and any unfavorable legal decisions, settlements or orders could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline. For more information regarding legal proceedings, see Note 20, "LEGAL PROCEEDINGS" to our audited Consolidated Financial Statements.

For example, the pharmaceutical industry, including our Company, has been the focus of both private payor and governmental concern regarding pricing of pharmaceutical products. Related actions, including Congressional and other governmental investigations and litigation, are costly and time-consuming, and adverse resolution of such actions or changes in our business practices, such as our approach to the pricing of our pharmaceutical products, could adversely affect our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Further, the pharmaceutical and medical device industries historically have generated substantial litigation concerning the manufacture, use and sale of products and we expect this litigation activity to continue. As a result, we expect that patents related to our products will be routinely challenged, and the validity or enforceability of our patents may not be upheld. In order

to protect or enforce patent rights, we may initiate litigation against third parties. Our patents may also be challenged in administrative proceedings in the United States Patent and Trademark Office and patent offices outside of the United States. If we are not successful in defending an attack on our patents and maintaining exclusive rights to market one or more of our products still under patent protection, we could lose a significant portion of sales in a very short period. Even in cases where we prevail in an infringement claim, legal remedies available for harm caused to us may not be sufficient to make us whole. We may also become subject to, or threatened with, legal proceedings and infringement claims by third parties and may have to defend against charges that we infringed, misappropriated or otherwise violated patents or the intellectual property or proprietary rights of third parties. Third parties may also request a preliminary or permanent injunction from a court of law to prevent us from marketing a product. Even if we believe third-party intellectual property claims are without merit, there is no assurance that a court would find in our favor on questions of infringement, validity, enforceability or priority. If we are found to infringe, misappropriate or otherwise violate the intellectual property rights of others, we could lose our right to develop, manufacture or sell products, including our generic products, or could be required to pay monetary damages or royalties to license proprietary rights from third parties, which could be substantial and include treble damages and attorneys' fees, if we are found to willfully infringe any intellectual property rights of others. However, we may not be able to obtain any required license on commercially reasonable terms or at all. Any of the foregoing events could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

In addition, in the U.S., it has become increasingly common for patent infringement actions to prompt claims that antitrust laws have been violated during the prosecution of the patent or during litigation involving the defense of that patent. Such claims by direct and indirect purchasers and other payers are typically filed as class actions. The relief sought may include treble damages and restitution claims. Similarly, antitrust claims may be brought by government entities or private parties following settlement of patent litigation, alleging that such settlements are anti-competitive and in violation of antitrust laws. In the U.S. and Europe, regulatory authorities have continued to challenge as anti-competitive so-called "reverse payment" settlements between branded and generic drug manufacturers. We may also be subject to other antitrust litigation involving competition claims unrelated to patent infringement and prosecution. For more information regarding legal proceedings, see Note 20, "LEGAL PROCEEDINGS" to our audited Consolidated Financial Statements. A successful antitrust claim by a private party or government entity against us could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We depend on third parties to meet their contractual, legal, regulatory, and other obligations.

We rely on distributors, suppliers, contract research organizations, vendors, service providers, business partners and other third parties to research, develop, manufacture, distribute, market and sell many of our products, as well as perform other services relating to our business. We rely on these third parties to meet their contractual, legal, regulatory and other obligations. A failure to maintain these relationships or poor performance by these third parties could negatively impact our business. In addition, we cannot guarantee that the contractual terms and protections and compliance controls, policies and procedures we have put in place will be sufficient to ensure that such third parties will meet their legal, contractual and regulatory obligations or that these terms, controls, policies, procedures and other protections will protect us from acts committed by our agents, contractors, distributors, suppliers, service providers or business partners that violate contractual obligations or the laws or regulations of the jurisdictions in which we operate, including matters respecting anti-corruption, fraud, bribery and kickbacks

and false claims, pricing, sales and marketing practices, privacy laws and other legal obligations. Any failure of such third parties to meet these legal, contractual and regulatory obligations or any improper actions by such third parties or even allegations of such non-compliance or actions could damage our reputation, adversely impact our ability to conduct business in certain markets and subject us to civil or criminal legal proceedings and regulatory investigations, monetary and non-monetary damages and penalties and could cause us to incur significant legal and investigatory fees and, as a result, could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline. For example, the allegations about the activities of Philidor and our former relationship with Philidor have resulted in a number of investigations, inquiries and legal proceedings against us, which have damaged and may further damage our reputation and result in damages, fines, penalties or administrative sanctions against the Company and/or certain of our officers. For more information regarding legal proceedings, see Note 20, "LEGAL PROCEEDINGS" to our audited Consolidated Financial Statements.

If our products cause, or are alleged to cause, serious or widespread personal injury, we may have to withdraw those products from the market and/or incur significant costs, including payment of substantial sums in damages, and we may be

subject to exposure relating to product liability claims. In addition, our product liability self-insurance program may not be adequate to cover future losses.

We face an inherent business risk of exposure to significant product liability and other claims in the event that the use of our products caused, or is alleged to have caused, adverse effects. These product liability proceedings may be costly to prosecute and defend and may involve substantial awards or damages payable by us if not found in our favor.

Furthermore, our products may cause, or may appear to have caused, cause, adverse side effects (including death) or potentially dangerous drug interactions that we may not learn about or understand fully until the drug has been administered to patients for some time. The withdrawal of a product following complaints and/or incurring significant costs, including the requirement to pay substantial damages in personal injury cases or product liability cases, could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

In addition, since March 31, 2014, we have self-insured substantially all of our product liability risk for claims arising after that date. We periodically evaluate and adjust our claims reserves to reflect trends in our own experience, as well as industry trends. However, historical loss trends may not be adequate to cover future losses, as historical trends may not be indicative of future losses. If ultimate results exceed our estimates, this would result in losses in excess of our reserved amounts. If we were required to pay a significant amount on account of these liabilities for which we self-insure, this could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Our marketing, promotional and business practices, as well as the manner in which sales forces interact with purchasers, prescribers and patients, are subject to extensive regulation and any material failure to comply could result in significant sanctions against us.

The marketing, promotional and business practices of pharmaceutical and medical device companies, as well as the manner in which companies' in-house or third-party sales forces interact with purchasers, prescribers, and patients, are subject to extensive regulation, enforcement of which may result in the imposition of civil, regulatory and/or criminal penalties, injunctions, and/or limitations on marketing practice for some of our products and/or pricing restrictions or mandated price reductions for some of our products. Many companies, including us, have been the subject of claims related to these practices asserted by federal authorities. These claims have resulted in fines and other consequences, such as entering into corporate integrity agreements with the U.S. government. Companies may not promote drugs or devices for "off-label" uses—that is, uses that are not described in the product's labeling and that differ from those approved by the FDA, Health Canada, EMA or other applicable regulatory agencies. A company that is found to have improperly promoted off-label uses may be subject to significant liability, including civil and administrative remedies (such as entering into corporate integrity agreements with the U.S. government), as well as criminal sanctions. In addition, management's attention could be diverted from our business operations and our reputation could be damaged. For more information regarding legal proceedings, see Note 20, "LEGAL PROCEEDINGS" to our audited Consolidated Financial Statements.

Debt-related Risks

Our 2022 Amended Credit Agreement and the indentures governing our senior notes impose restrictive covenants on us. Our failure to comply with these covenants could trigger events, which could result in the acceleration of the related debt, a cross-default or cross-acceleration to other debt, foreclosure upon any collateral securing the debt and termination of any commitments to lend, each of which would have a material adverse effect on our business, financial condition, cash flows

and results of operations and would cause the market value of our common shares and/or debt securities to decline and could lead to bankruptcy or liquidation.

Our 2022 Amended Credit Agreement (as defined below) and the various indentures governing our senior notes contain covenants that restrict the way we conduct business and require us to satisfy certain financial tests in order to incur debt or take other actions. For example, the 2022 Amended Credit Agreement contains a financial covenant that requires us to maintain a certain financial ratio at fiscal quarter end.

The Company's 2022 Amended Credit Agreement contains a specified quarterly financial maintenance covenant (consisting of a first lien leverage ratio). As of December 31, 2022 December 31, 2023, we were in compliance with this financial maintenance covenant. However, we can make no assurance that we will be able to comply with the restrictive covenants contained in the 2022 Amended Credit Agreement and indentures in the future. Based on our current forecast for the next twelve months from the date of issuance of this Form 10-K, we expect to remain in compliance with this financial maintenance covenant and meet our debt obligations over that same period. In the event that we perform below our forecasted levels, we may also implement certain additional cost-

efficiency initiatives, such as rationalization of selling, general and administrative expenses ("SG&A") and R&D spend, which would allow us to continue to comply with the financial maintenance covenant. The Company may consider

taking other actions, including divesting other businesses, refinancing debt, issuing equity or equity-linked securities as deemed appropriate, to provide additional coverage in complying with the financial maintenance covenant and meeting its debt service obligations, or may negotiate with the applicable lenders for an amendment or modification to such covenant, as deemed appropriate. However, we cannot guarantee that any of the above-noted actions would be achieved. If we perform below our forecasted levels and the actions referenced above are not effective, we would fail to comply with our financial maintenance covenant. In that instance, we would be in default, and our lenders would be permitted to accelerate our debt unless we could obtain an amendment. If our debt was accelerated, we would not have sufficient funds to repay our debt absent a refinancing, and we cannot provide assurance that we would be able to obtain a refinancing.

In addition, the AR Facility Agreement (as defined below) contains affirmative and negative covenants applicable primarily to the borrower subsidiaries thereunder, including, among other things, restrictions on indebtedness, liens, investments, mergers, dispositions, dividends and other distributions, and engaging in any business other than as set forth in the AR Facility Agreement. Other debt instruments we may enter into in the future may contain additional restrictions and covenants.

Our inability to comply with the covenants in our debt instruments could lead to a default or an event of default under the terms thereof, for which we may need to seek relief from our lenders and noteholders in order to waive the associated default or event of default and avoid a potential acceleration of the related indebtedness or cross-default or cross-acceleration to other debt. There can be no assurance that we would be able to obtain such relief on commercially reasonable terms or otherwise and we may be required to incur significant additional costs. In addition, the lenders under our 2022 Amended Credit Agreement and holders of our senior notes may impose additional operating and financial restrictions on us as a condition to granting any such waiver. If an event of default is not cured or is not otherwise waived, a majority of lenders in principal amount under our 2022 Amended Credit Agreement or the trustee or holders of at least 25% in principal amount of a series of our senior notes may accelerate the maturity of the related debt under these agreements, foreclose upon any collateral securing the debt and terminate any commitments to lend, any of which would have a material adverse effect on our business, financial condition, cash flows and results of operations and would cause the market value of our common shares and/or debt securities to decline. Furthermore, under these circumstances, we may not have sufficient funds or other resources to satisfy all of our obligations and we may be unable to obtain alternative financing on terms acceptable to us or at all. In such circumstances, we could be forced into bankruptcy or liquidation and, as a result, investors could lose all or a portion of their investment in our securities.

On May 10, 2022, the Company and certain of its subsidiaries entered into a Second Amendment (the "Second Amendment") to the Fourth Amended and Restated Credit and Guaranty Agreement (as amended by the Second Amendment, the "2022 Amended Credit Agreement"). The 2022 Amended Credit Agreement provides for a new term loan facility with an aggregate principal amount of \$2,500 million ("the 2027 Term Loan B Facility") maturing on February 1, 2027 and a new \$975 million revolving credit facility (the "2027 Revolving Credit Facility") that will mature on the earlier of February 1, 2027 and the date that is 91 calendar days prior to the scheduled maturity of indebtedness for borrowed money of the Company and Bausch Health Americas, Inc. ("BHA") ("BHA") in an aggregate principal amount in excess of \$1,000 million. After giving effect to the Second Amendment, the 2023 Revolving Credit Facility, June 2025 Term Loan B Facility and November 2025 Term Loan B Facility were refinanced (such refinancing, the "Credit Agreement Refinancing"), along with certain of the Company's existing senior notes, using net proceeds from the borrowings under the 2027 Term Loan B Facility, the B+L IPO and the B+L Debt Financing (as defined below) and available cash on hand. As of December 31, 2022, the Company had drawn \$470 million on the 2027 Revolving Credit Facility. The Credit Agreement Refinancing, among other things, permitted us to designate Bausch + Lomb as an "unrestricted" subsidiary of the 2022 Amended Credit Agreement covenants upon achievement of a 7.60:1.00 pro forma "Remainco Total Leverage Ratio." On November 29, 2022 As of December 31, 2023, the Company designated 1261229 B.C. Ltd., the entity that directly or indirectly holds 88.7% held 88% of the issued and outstanding shares of Bausch + Lomb, as an unrestricted subsidiary of the Company in accordance with the terms of the Company's debt documents. In connection therewith, all of the subsidiaries of 1261229 B.C. Ltd., including Bausch + Lomb and its subsidiaries, are also now unrestricted subsidiaries of the Company and, as a result, are no longer subject to the covenants under the Bausch Health debt documents, and the earnings and debt of Bausch + Lomb, as defined in the relevant debt documents, are also not included in the calculation of the Company's financial maintenance covenant.

To service our debt, we will be required to generate a significant amount of cash. Our ability to generate cash depends on a number of factors, some of which are beyond our control, and any failure to meet our debt obligations would have a material

adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We have a significant amount of indebtedness. For details regarding our debt and the maturity dates thereof, see Note 10, "FINANCING ARRANGEMENTS" to our audited Consolidated Financial Statements. **As of December 31, 2023, maturities and mandatory payments of our principal balances of debt obligations were as follows:**

(in millions)	2024	2025	2026	2027	2028	2029	Thereafter	Total
Total debt obligations	\$ 155	\$ 2,790	\$ 892	\$ 6,748	\$ 7,219	\$ 1,609	\$ 1,593	\$ 21,006

Our ability to satisfy our debt obligations will depend principally upon our future operating **performance, performance, as well as our continuing efforts to improve our balance sheet.** As a result, prevailing economic conditions and financial, business and other factors, many of which are beyond our control, may affect our ability to make payments on our debt. If we do not generate sufficient cash flow to satisfy our debt obligations, we may have to undertake alternative financing plans, such as refinancing or restructuring our debt, **selling issuing new debt instruments, divesting of assets or businesses and issuing equity or equity-linked securities (including secondary offerings of a portion of our holdings of common shares of Bausch + Lomb),** reducing or delaying capital investments or seeking to raise additional capital. Alternatively, as we have done in the past, we may also elect to refinance certain of our debt, for example, to extend maturities. Our ability to restructure or refinance our debt will depend on the capital markets and our financial condition at such time. If we are unable to access the capital markets, whether because of the condition of those capital markets or our own financial condition or reputation within such capital markets, we may be unable to refinance our debt. In addition, any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict our business operations. Further, given our capital structure, any refinancing of our senior unsecured debt may be with secured debt, thereby increasing our first lien and/or secured leverage ratios. Our inability to generate sufficient cash flow to satisfy our debt obligations or to refinance our obligations on commercially reasonable terms, or at all, could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Repayment of our indebtedness is dependent on the generation of cash flow by our subsidiaries and their ability to make such cash available to us, by dividend, debt repayment or otherwise. Our subsidiaries may not be able to, or may not be permitted to, make distributions to enable us to make payments in respect of our indebtedness. Each subsidiary is a distinct legal entity and, under certain circumstances, legal and contractual restrictions may limit our ability to obtain cash from our subsidiaries. Certain subsidiaries include non-U.S. subsidiaries that may be prohibited by law or other regulations from distributing funds to us and/or we may be subject to payment of taxes and withholdings on such distributions. In the event that we do not receive distributions from our subsidiaries or receive cash via services rendered, loans and intellectual property licensed, we may be unable to make required principal and interest payments on our indebtedness.

Our ability to continue to reduce our indebtedness will depend upon factors including our future operating performance, our ability to access the capital markets to refinance existing debt and prevailing economic conditions and financial, business and other factors, many of which are beyond our control. We can provide no assurance of the amount by which we will reduce our debt, if at all. In addition, servicing our debt will result in a reduction in the amount of our cash flow available for other purposes, including operating costs and capital expenditures that could improve our competitive position and results of operations.

We have incurred significant indebtedness, which restricts the manner in which we conduct business.

We have incurred significant indebtedness, including in connection with our prior acquisitions. We may incur additional long-term debt and working capital lines of credit to meet future financing needs, subject to certain restrictions and prohibitions under the agreements governing our indebtedness, which would increase our total debt. This additional debt may be substantial and some of this indebtedness may be secured.

The agreements governing our indebtedness contain restrictive covenants which impose certain limitations on the way we conduct our business, including limitations on the amount of additional debt we are able to incur, prohibitions on incurring additional debt if certain financial covenants are not met and restrictions on our ability to make certain investments and other restricted payments. Any additional debt, to the extent we are able to incur it, may further restrict the manner in which we conduct business. Such restrictions, prohibitions and limitations could impact our ability to implement elements of our strategy, including in the following ways:

- our flexibility to plan for, or react to, competitive challenges in our business and the pharmaceutical and medical device industries may be compromised;
 - we may be put at a competitive disadvantage relative to competitors that do not have as much debt as we have, and competitors that may be in a more favorable position to access additional capital resources;
 - our ability to make acquisitions and execute business development activities through acquisitions will be limited and may, in future years, continue to be limited; and
 - our ability to resolve regulatory and litigation matters may be limited.

In the past, our credit ratings have been downgraded. Any further downgrade in our corporate credit ratings or other credit ratings may increase our cost of borrowing and may negatively impact our ability to raise additional debt capital.

We are exposed to risks related to interest rates.

Our senior secured credit facilities bear interest based on a term Secured Overnight Financing Rate ("SOFR") or U.S. Prime Rate, or Federal Funds effective rate (for U.S. dollar loans) and Canadian Prime Rate or Canada Bankers' Acceptance Rate (for Canadian dollar loans). Thus, a change in the short-term interest rate environment (especially a material change) could have an adverse effect on our business, financial condition, cash flows and results of operations (which adverse effect could be material) and could cause the market value of our common shares and/or debt securities to decline. As of December 31, 2022 December 31, 2023, we did not have any outstanding interest rate swap contracts.

Employment-related Risks

The transition of our key management positions in connection with the B+L IPO will be critical to our success, and the failure to successfully manage this transition could adversely impact our business.

In connection with the B+L IPO, we appointed a new chief executive officer ("CEO"), chief financial officer ("CFO"), general counsel and other executives and key employees. On September 18, 2023, we announced the resignation of the CFO effective October 13, 2023, and the appointment of an interim CFO. In addition, the current CEO of Bausch + Lomb is expected to depart pursuant to the previously announced separation agreement. Bausch + Lomb recently announced that they have appointed a new Chairman of the Board of Directors and CEO, effective March 6, 2023. The transition These transitions may be difficult to manage and Bausch + Lomb we cannot guarantee that the interim CFO, nor can Bausch + Lomb guarantee that its new CEO and Chairman of the Board will efficiently transition into these new roles or ultimately be successful in such roles. The In addition, there can be no assurance that a permanent replacement CFO will be found on a timely basis, or at all. In such a case, our inability to find a suitable permanent replacement may have a detrimental impact on our Company and impede the progress of our objectives. Further, the departure of key leadership personnel often results in the loss of significant knowledge and experience, and the ability of our new management to quickly expand their knowledge of our business will be critical to their ability to make informed decisions about our strategy and operations.

Any significant leadership change or senior management transition involves inherent risks, and any future changes to our management that may occur during the transition could cause significant disruption to the Company and its operations. The failure to adequately manage succession of senior management and other key personnel or the failure of key employees to successfully transition into new roles could cause further disruption to our business. In addition, changes in senior management may create uncertainty among investors, employees, business partners and others concerning the Company's future direction and performance. Any disruption in our operations or adverse impacts from such uncertainty could have a material adverse effect on our business, financial condition, cash flows and results of operations.

The loss of the services of, or our inability to recruit, retain or motivate, our executives and other key employees could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We must continue to retain and motivate our executives and other key employees, and to recruit other executives and employees, in order to strengthen our management team and workforce. Our ability to retain or recruit executive and other key employees may be hindered or delayed by, among other things, competition from other employers who may be able to offer more attractive compensation packages, the reputational challenges the Company has faced as a result of historical issues and may in the future continue to face and the perceived or actual uncertainty created by the B+L Separation and/or the changes to our executive team in connection with the B+L IPO. A failure by us to retain, motivate and recruit executives and other key employees or the unanticipated loss of the services of any of these executives or key employees for any reason, whether temporary or permanent, could create disruptions in our business, could cause concerns and instability for management and employees, current and potential customers, credit rating agencies and other third parties with whom we do business and our shareholders and debt holders and could cause concern regarding our ability to execute our business strategy or to manage operations in the manner previously conducted and, as a result, could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline. Furthermore, as a result of any failure to retain, or loss of, any executives or key employees, we may experience increased costs in order to identify and recruit a suitable replacement in a timely manner (and, even if we are able to hire a qualified successor, the search process and transition period may be difficult to manage and result in additional periods of uncertainty), which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause

the market value of our common shares and/or debt securities to decline. In addition, once identified and recruited, the transition of new executives and key employees may be difficult to manage, and we cannot guarantee that new executives and employees will efficiently transition into their roles or ultimately be successful in their roles. Finally, as a result of changes in our executives and key employees, there may be changes in the way we conduct our business, as well as changes to our business strategy. We cannot predict what these changes may involve or the timing of any such changes and how they will impact our product sales, revenue, business, financial condition, cash flows or results of operations, but any such changes could have a material adverse effect on our business, financial condition, cash flows and results of operations and

could cause the market value of our common shares and/or debt securities to decline. Any of these factors could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Tax-related Risks

Our effective tax rates may increase.

We have operations in various countries that have differing tax laws and rates. Our tax reporting is supported by current domestic tax laws in the countries in which we operate and the application of tax treaties between the various countries in which we operate. Our income tax reporting is subject to audit by domestic and foreign authorities. Our effective tax rate may change from year to year based on changes in the mix of activities and income earned among the different jurisdictions in which we operate; changes in tax laws in these jurisdictions; changes in the tax treaties between various countries in which we operate; changes in our eligibility for benefits under those tax treaties; and changes in the estimated values of deferred tax assets and liabilities. Tax laws, regulations, and administrative practices in various jurisdictions may be subject to significant change, with or without notice, due to economic, political, and other conditions, and significant judgment is required in evaluating and estimating our provision and accruals for these taxes. Such changes could result in a substantial increase in the effective tax rate on all or a portion of our income.

Changes to tax law in the U.S. and outside of the U.S. could affect our corporate tax rate.

On August 16, 2022, President Biden signed the Inflation Reduction Act (the "IRA") into law, which includes implementation of a new corporate alternative minimum tax, an excise tax on stock buybacks and significant tax incentives for energy and climate initiatives, (the "CAMT"), among other provisions. The corporate alternative minimum tax ("CAMT") imposes a minimum tax on the adjusted financial statement income ("AFSI") for "applicable corporations" with average annual AFSI over a three-year period in excess of \$1 billion. A corporation that is a member of a foreign-parented multinational group, as defined, must include the AFSI (with certain modifications) of all members of the group in applying the \$1 billion test, but would only be subject to the CAMT if the three-year average AFSI of its U.S. members, US trades or business of foreign group members that are not subsidiaries of U.S. members, and foreign subsidiaries of U.S. members exceeds \$100 million. We Although we currently do not believe this that the CAMT will have a significant impact on our tax results, but will continue there are a number of uncertainties as to evaluate the law interpretation and its provisions. application of the CAMT, and it is possible that any future guidance with respect to the interpretation and application of the CAMT could result in the CAMT having a material effect on our liability for corporate taxes and our consolidated effective tax rate.

On October 8, 2021, the Organisation for Economic Co-operation and Development ("OECD") published a statement that outlined the key components of a two-pillar plan to address the tax challenges arising from the digitalisation of the economy. The statement was agreed by the OECD/G20 inclusive framework on Base Erosion and Profit Shifting (the "Inclusive Framework") published a statement updating and finalizing the key components of a two-pillar plan on global tax reform originally agreed on July 1, 2021, and a which now includes 145 member jurisdictions. The timetable for implementation by 2023. The Inclusive Framework of the two-pillar plan was initially proposed for 2023, but has now since been agreed extended to by 141 OECD members, including several countries which did not agree 2024 and, with respect to certain components of the initial plan, plan, 2025. Under the pillar one taxing rights over proposals, a portion of the residual profits of multinational businesses enterprise ("MNE") groups with global turnover above €20 billion and a profit margin above 10% will generally be re-allocated allocated to market jurisdictions, jurisdictions where such allocated profits would be taxed. Under pillar two the Inclusive Framework has agreed on proposals, a global minimum corporate tax rate of 15% for companies will apply to undertaxed profits of MNE groups with consolidated revenue above of at least €750 million, calculated on a country-by-country basis. On October 30, 2021, the G20 formally endorsed the new global minimum corporate tax rate rules. The Inclusive Framework agreement must now be implemented by the OECD Members who have agreed to the plan, effective in 2023. On December 20, 2021, the OECD published released model rules on the global minimum tax under pillar two, followed by the

OECD'S commentaries, examples, three sets of administrative guidance and certain other documents relating to implement the operation and application of the model rules. On December 18, 2023, the OECD announced plans to release additional guidance on model rules and to start the peer review process in 2024. Many members of the Inclusive Framework have either introduced or announced their intention to introduce certain components of the global minimum tax in line with the model rules for fiscal year beginning on or after December 31, 2023. In particular, on December 15, 2022, the Council of the European Union ("EU") adopted a directive to require the implementation of the pillar two rules which are generally consistent with agreement reached by the Inclusive Framework in October 2021. On December 13 2022, the European Union EU member states, reached an agreement to implement pillar two rules. The rules are expected to be transposed into domestic laws in 2023 with certain elements becoming effective for fiscal years beginning on or after December 31, 2023. On February 1, 2023 August 4, 2023, the Inclusive Framework Canada released a package draft legislation to enact certain components of technical and administrative guidance on the implementation of pillar two including the scope of companies that will be subject to proposals into Canadian law as the Global Anti-Base Erosion Rules, transition Minimum Tax Act ("GMTA"). The GMTA is generally aligned with the model rules and guidance on domestic minimum taxes that countries may choose to adopt, among other topics. We will continue to monitor the implementation of the Inclusive Framework agreement proposed by the countries in which we operate. While we are unable OECD and is expected to predict when and how become effective for fiscal years beginning on or after December 31, 2023. The United States did not announce plans to enact the Inclusive Framework agreement will be enacted into law in these countries, it is possible that tax measures under the implementation of the Inclusive Framework agreement, including the global minimum corporate tax rate, could have a material effect on our liability for corporate taxes and our consolidated effective tax rate, two-pillar plan. On February 1, 2023, the US Financial Accounting Standards Board indicated that they believe the minimum tax imposed under pillar two by other jurisdictions is an alternative minimum tax, and, accordingly, deferred tax assets and liabilities associated with the minimum tax would not be recognized or adjusted for the estimated future effects of the minimum tax but would be recognized in the period incurred. On April 19, 2021, the Canadian federal government delivered its 2021 budget which contained proposed measures related to limitations on interest deductibility and changes in relation to international taxation. Draft legislative proposals pertaining to interest deductibility were initially released for public comment on February 4, 2022, with revised legislative proposals subsequently released on November 3, 2022. The proposed rules on interest deductibility are expected to be effective no earlier than January 1, 2024. The proposed rules and their application are complex and could have a material adverse impact on our consolidated effective tax rate and financial results in future years if enacted as drafted. We will continue to monitor the implementation of the Inclusive Framework agreement two-pillar plan by the countries in which we operate, and such to consider the impact of these measures. Many jurisdictions in which the Company operates have adopted the global minimum tax provision of the OECD pillar two effective for tax years beginning in January 2024. We currently do not expect the provisions of the Inclusive Framework, as currently adopted, to have a material impact on our liability for corporate taxes or our consolidated tax rate. However, it is possible that the further implementation of the Inclusive Framework agreement,

including the global minimum corporate tax rate could have a material effect on our liability for corporate taxes and or our consolidated effective tax rate, rate in the future.

Our provision for income taxes is based on certain estimates and assumptions made by management. Our consolidated income tax rate is affected by the amount of pre-tax income earned in our various operating jurisdictions, the availability of benefits under tax treaties, and the rates of taxes payable in respect of that income. We enter into many transactions and arrangements in the ordinary course of business in respect of which the tax treatment is not entirely certain. We therefore make estimates and judgments based on our knowledge and understanding of applicable tax laws and tax treaties, and the application of those tax laws and tax treaties to our business, in determining our consolidated tax provision. For example, certain countries could seek to tax a greater share of income than we will allocate to our business in such countries. The final outcome of any audits by taxation authorities may differ from the estimates and assumptions that we may use in determining our consolidated tax provisions and accruals. This could result in a material adverse effect on our consolidated income tax provision, financial condition and the net income for the period in which such determinations are made. See Note 17, "INCOME TAXES" to our audited Consolidated Financial Statements for a discussion of the tax audits, examinations, and other proceedings currently being conducted with respect to the Company and its subsidiaries.

Our deferred tax liabilities, deferred tax assets and any related valuation allowances are affected by events and transactions arising in the ordinary course of business, acquisitions of assets and businesses, and non-recurring items. The assessment of the appropriate amount of a valuation allowance against the deferred tax assets is dependent upon several factors, including estimates of the realization of deferred income tax assets, which realization will be primarily based on future taxable income, including the reversal of existing taxable temporary differences. Significant judgment is applied to determine the appropriate amount of valuation allowance to record. Changes in the amount of any valuation allowance required could materially increase or decrease our provision for income taxes in a given period.

See Note 17, "INCOME TAXES" to our audited Consolidated Financial Statements.

Risks Relating to Intellectual Property and Exclusivity

The expiration or loss of patent protection or regulatory exclusivity rights for our key products could adversely impact our business. In addition, we have faced generic competition in the past and expect to face additional generic competition in the future. Competitors (including generic and biosimilar competitors) of our products could have a material adverse effect on

our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

The development of new and innovative products, as well as protecting the underlying intellectual property of our product portfolio, is important to our success in all areas of our business. A significant number of the products we sell either: (i) have no meaningful exclusivity protection via patent or marketing or data exclusivity rights or (ii) are protected by patents or

regulatory exclusivity periods that will be expiring in the near future. These products represent a significant amount of our revenues (See Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations — Business Trends — Generic Competition and Loss of Exclusivity" in this Form 10-K for a list of some of these products). The expiration or loss of patent protection or regulatory exclusivity rights for our key products could adversely impact our business. In addition, even for our products that have patent protection or exclusivity rights, we face competition from similar products in the markets in which we participate. As a result, we face significant competition with respect to a substantial majority of our products.

Without exclusivity protection, competitors and other third parties (including generics and biosimilars) face fewer barriers in introducing competing products. Upon the expiration or loss of patent exclusivity or regulatory exclusivity for our products or otherwise upon the introduction of generic, biosimilar or other competitors (which may be sold at significantly lower prices than our products), we could lose a significant portion of sales and market share of the applicable products in a very short period and, as a result, our revenues could be lower. In addition, the introduction of generic and biosimilar competitors may have a significant downward pressure on the pricing of our branded products which compete with such generics and biosimilars. Where we have the rights, we may elect to launch an authorized generic of such product (either ourselves or through a third party) prior to, upon or following generic entry, which may mitigate a portion of the anticipated decrease in product sales; however, even with the launch of an authorized generic, the decline in product sales of such product would still be expected to be significant, and the effect on our future revenues could be material. The introduction of competing products (including generic products and biosimilars) could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We may fail to obtain, maintain, license, enforce or defend the intellectual property and proprietary rights required to conduct our business, or third parties may allege that we are infringing, misappropriating or otherwise violating their intellectual property rights, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We strive to acquire, maintain, enforce and defend patent, trademark and other intellectual property and proprietary protections over our products and the processes used to manufacture these products. However, we may not be successful in obtaining such protections, or the patent, trademark and other intellectual property and proprietary rights we do obtain may not be sufficient in breadth and scope to fully protect our products or prevent competing products, or such rights may be susceptible to third-party challenges, which could result in the loss of such intellectual property rights or the narrowing of scope of protection afforded by such rights. Our intellectual property and proprietary rights may also be circumvented by third parties. The failure to obtain, maintain, enforce or defend such intellectual property and proprietary rights, for any reason, could allow third parties to manufacture and sell products that compete with our products or may impact our ability to develop, manufacture and market our own products, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Further, the pharmaceutical and medical device industries historically have generated substantial litigation concerning the manufacture, use and sale of products and we expect this litigation activity to continue. As a result, we expect that patents related to our products will be routinely challenged, and the validity or enforceability of our patents may not be upheld. In order to protect or enforce patent rights, we may initiate litigation against third parties. Our patents may also be challenged in administrative proceedings in the United States Patent and Trademark Office and patent offices outside of the United States. If we are not successful in defending an attack on our patents and maintaining exclusive rights to market one or more of our products still under patent protection, we could lose a significant portion of sales in a very short period. Even in cases where we prevail in an infringement claim, legal remedies available for harm caused to us may not be sufficient to make us whole. We may also become subject to, or threatened with, legal proceedings and infringement claims by third parties and may have to defend against charges that we infringed, misappropriated or otherwise violated patents or the intellectual property or proprietary rights of third parties. Third parties may also request a preliminary or permanent injunction from a court of law to prevent us from marketing a product. Even if we believe third-party intellectual property

claims are without merit, there is no assurance that a court would find in our favor on questions of infringement, validity, enforceability or priority. If we are found to infringe, misappropriate or otherwise violate the intellectual property rights of others, we could lose our right to develop, manufacture or sell products, including our generic products, or could be required to pay monetary damages or royalties to license proprietary rights from third parties, which could be substantial and include treble damages and attorneys' fees, if we are found to willfully infringe any intellectual property rights of others. However, we may not be able to obtain any required license from any third party on commercially reasonable terms or at all. Any of the foregoing events could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline. For more information, see Note 20, "LEGAL PROCEEDINGS" to our audited Consolidated Financial Statements.

For certain of our products and manufacturing processes, we rely on trade secrets and other proprietary information, which we seek to protect, in part, through information technology systems discussed in more detail in the following section, and, in part, by confidentiality and nondisclosure agreements with our employees, consultants, advisors and partners. Trade secrets and proprietary information are difficult to protect. We also attempt to enter into agreements whereby such employees, consultants, advisors and partners assign to us the rights in any intellectual property they develop in the course of their engagement with us. These agreements may be breached, and we may not have adequate remedies for any breach. There can be no assurance that these agreements will be self-executing or otherwise provide meaningful protection for our trade secrets or other intellectual property or proprietary information. These agreements may not effectively prevent disclosure or misappropriation of such information and disputes may still arise with respect to the ownership of intellectual property. In addition, third parties may independently develop the same or similar proprietary information or otherwise gain access to our trade secrets or disclose our technology. Further, we have employed and expect to employ individuals who were previously employed at universities or other companies, including our competitors or potential competitors. Although we try to ensure that our employees, consultants, advisors and partners do not use the proprietary information or know-how of others in their work for us, we may be subject to claims that we or such persons have inadvertently or otherwise used or disclosed intellectual property, including trade secrets or other proprietary information of their former employers or other third parties, or to claims that we have improperly used or obtained such trade secrets. Litigation may be necessary to defend against these claims. If we fail in defending any such claims, in addition to paying monetary damages, we may lose valuable intellectual property rights and face increased competition to our business. The unauthorized access to or disclosure of our proprietary information or the loss of such intellectual property rights may impact our ability to develop, manufacture and market our own products or may assist competitors in the development, manufacture and sale of competing products, which could have a material adverse effect on our revenues, financial condition, cash flows or results of operations and could cause the market value of our common shares and/or debt securities to decline.

For a number of our commercialized products and pipeline products, including Xifaxan®, Siliq®, Lumify®, Plenvu®, Vyzulta®, Relistor®, Jublia® and the pipeline products that are the subject of our **recently announced** licenses with Eyenovia, Inc., Novaliq GmbH, BHVI and Clearside Biomedical, Inc., we rely on licenses to patents and other technologies, know-how and intellectual property and proprietary rights held by third parties. Any loss, expiration, termination or suspension of our rights to such licensed intellectual property would result in our inability to continue to develop, manufacture and market the applicable products or product candidates and, as a result, could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline. If these licenses are terminated, or if the underlying patents fail to provide the intended exclusivity, third parties, including our competitors, could have the freedom to seek regulatory approval of, and to market, products identical or similar to ours, and we may be required to cease our development and commercialization of certain of our products. Under some license agreements, we may not control the preparation, filing, prosecution or maintenance of the licensed intellectual property, or may not have the first right to enforce the intellectual property. In those cases, we may not be able to adequately influence patent prosecution or enforcement, or prevent inadvertent lapses of coverage due to failure to pay maintenance fees and we cannot be certain that these patents and patent applications will be prepared, filed, prosecuted, maintained, enforced and defended in a manner consistent with the best interests of our business and that does not compromise the patent rights. In the future, we may also need to obtain such licenses from third parties to develop, manufacture, market or continue to develop, manufacture or market our products. If we are unable to timely obtain these licenses on commercially reasonable terms or at all, our ability to develop, manufacture and market our products may be inhibited or prevented, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Intellectual property litigation could cause us to spend substantial resources, distract our personnel from their normal responsibilities and cause the value of our common shares to decline.

Even if resolved in our favor, litigation or other legal proceedings relating to intellectual property claims may cause us to incur significant expenses and could distract our technical and management personnel from their normal responsibilities. Furthermore, because of the substantial amount of discovery required in connection with intellectual property litigation, there is a risk that some of our confidential information could be compromised by disclosure during this type of litigation. In addition, there could be public announcements of the results of hearings, motions or other interim proceedings or developments and if securities analysts or investors perceive these results to be negative, it could have a substantial adverse effect on the value of our common shares. Such litigation or proceedings could substantially increase our operating losses and reduce the resources available for development activities or any future sales, marketing or distribution activities. We may not have sufficient financial or other resources to conduct such litigation or proceedings adequately. Some of our competitors or other third parties may be able to sustain the costs of such litigation or proceedings more effectively than we can because of their greater financial resources. Uncertainties resulting from the initiation and continuation of patent litigation or other proceedings could compromise our ability to compete in the marketplace, including compromising our ability to raise the funds necessary to continue our clinical trials, continue our research programs, license necessary technology from third parties or enter into

development collaborations that would help us commercialize our product candidates, if approved. Any of the foregoing events would harm our business, financial condition, results of operations and prospects and could cause the market value of our common shares and/or debt securities to decline.

Competitive Risks

We operate in extremely competitive industries. If competitors develop or acquire more effective or less costly pharmaceutical or OTC products or medical devices for our target indications, it could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

The pharmaceutical, OTC and medical device industries are extremely competitive. Our success and future growth depend, in part, on our ability to develop, license or acquire products that are more effective than those of our competitors or that incorporate the latest technologies and our ability to effectively manufacture and market those products. New market entrants and existing competitors are also challenging distribution models with innovation in non-traditional, disruptive models such as direct-to-consumer, Internet and other e-commerce sales opportunities. Many of our competitors, particularly larger pharmaceutical, OTC and medical device companies, have substantially greater financial, technical and human resources than we do.

Many of our competitors spend significantly more on research and development related activities than we do. Others may succeed in developing or acquiring products and technologies that are more effective, more advanced or less costly than those currently marketed or proposed for development by us. In addition, academic institutions, government agencies and other public and private organizations conducting research may seek patent protection with respect to potentially competitive products and may also establish exclusive collaborative or licensing relationships with our competitors. These competitors and

the introduction of competing products (that may be more effective or less costly than our products) could make our products less competitive or obsolete, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We cannot predict the timing or impact of the introduction of competitive products, including new market entries, "generic" versions of our approved products, or private label products that treat the same conditions as those of our products. In addition, the introduction of alternatives in medical devices and medical prescriptions could also alter the market and impede our sales growth. Our ability to respond to these competitive pressures will depend on our ability to decrease our costs and maintain gross margins and operating results and to introduce new products successfully and on a timely basis, and to achieve manufacturing efficiencies and sufficient manufacturing capacity and capabilities for such products.

Risks Relating to Our Business Strategy

We have previously made commitments and public statements with respect to limitations on pricing increases for certain of our products. These pricing decisions, or decisions to increase prices, could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We formed a Patient Access and Pricing Team which is committed to maintaining **patients patients'** ability to access our branded prescription pharmaceutical products. All future pricing actions will be subject to review by the Patient Access and Pricing Team.

At this time, we cannot predict what specific pricing changes the **Patient Access and Pricing Team** will make for the remainder of **2023 2024** or beyond nor can we predict what other changes in our business practices we may implement with respect to pricing (such as imposing limits or prohibitions on the amount of pricing increases we may take on certain of our products or taking retroactive or future price reductions). We also cannot predict the impact such pricing decisions or changes will or would have on our business. However, any such changes could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

For example, any pricing changes and programs could affect the average realized prices for our products and may have a significant impact on our revenue trends. In addition, limiting or eliminating price increases on certain of our products will result in fewer or lower price appreciation credits from certain of our wholesalers. Price appreciation credits are generated when we increase a product's wholesaler acquisition cost ("WAC") under our contracts with certain wholesalers. Under such contracts, we are entitled to credits from such wholesalers for the impact of that WAC increase on inventory currently on hand at the wholesalers. In wholesaler contracts, such credits, which can be significant, are offset against the total distribution service fees we pay on all of our products to each wholesaler. As a result, to the extent we decide to cease or limit price increases, we will have fewer or lower price appreciation credits to use to offset against our distribution fees owing to these wholesalers. In addition, under certain of our agreements with our wholesaler customers, we have price protection or price depreciation

provisions, pursuant to which we have agreed to adjust the value of any on-hand or in-transit inventory with such customers in the event we reduce the price of any of our products. As a result, to the extent we reduce the WAC price for any of our products, we may owe a payment to such customers (or such customers may earn a credit to be offset against any amounts owing to us) equal to the amount of such inventory multiplied by the difference between the price at which they acquired the product inventory and the new reduced price.

In prior years, we have undertaken a number of divestitures of certain of our assets and **business. businesses.** We may, in the future, seek to divest additional assets and/or businesses, some of which may be material and/or transformative, which could adversely affect our business, prospects and opportunities for growth.

In **recent past** years, we have completed a number of divestitures of our assets, products or businesses that were not considered core to our ongoing operations or the needs of our primary-customer base, including the divestitures of our Obagi Medical Products business, our iNova Pharmaceuticals business, our Dendreon Pharmaceuticals subsidiary, our Sprout Pharmaceuticals subsidiary, the CeraVe®, AcneFree™ and AMBI® skincare brands and our Amoun Pharmaceutical subsidiary. We may, in the future, seek to complete additional divestitures.

Each of these divestitures has been time-consuming and has diverted management's attention. As a result of these divestitures (and others we may complete in the future), we may experience lower revenue and lower cash flows from operations. In addition, as was the case with our sale of our Sprout Pharmaceuticals subsidiary, we may recognize a loss on sale in connection with such divestitures. We may also suffer adverse tax consequences as a result of such divestitures, including capital gains tax or the accelerated use of NOLs or other attributes. Furthermore, divesting certain of our businesses or assets may require us to incur restructuring charges, and we may not be able to achieve the cost savings that we expect from any such restructuring efforts or divestitures. Any such divestiture could reduce the size or scope of our business, our market share in particular markets, our opportunities with respect to certain markets, products or therapeutic categories or our ability to compete

in certain markets and therapeutic categories. Furthermore, we will be required to use the net proceeds (or substantial portions thereof) from certain asset sales to repay the term loans under the 2022 Amended Credit Agreement, subject to certain reinvestment rights.

In addition, should we seek to divest other of our assets and business, we may be unable to dispose of such businesses and assets on satisfactory or commercially reasonable terms within our anticipated timeline. In addition, our ability to identify, enter into and/or consummate divestitures may be limited by competition we face from other companies in pursuing similar transactions in the pharmaceutical industry. Any divestiture or other disposition we pursue, whether we are able to complete it or not, may be complex, time consuming and expensive, may divert the management's attention, have a negative impact on our customer relationships, cause us to incur costs associated with maintaining the business of the targeted divestiture during the disposition process and also to incur costs of closing and disposing the affected business or transferring the operations of the business to other facilities. The divestiture

process may also further expose us to operational inefficiencies. In addition, if such transactions are not completed for any reason, the market price of our common shares may reflect a market assumption that such transactions will occur, and a failure to complete such transactions could result in a negative perception by the market of us generally and a decline in the market price of our common shares.

As a result of these factors, any divestiture (whether or not completed) could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

As part of our business strategy, we seek to identify and acquire certain assets, products and businesses.

Historically, part of our business strategy included acquiring and integrating complementary businesses, products, technologies or other assets. As part of our current business strategy, we again are seeking to complete certain acquisitions of assets, products and businesses, including by way of in-license arrangements, although not at the volume and pace that we did historically. Acquisitions or similar arrangements may be complex, time consuming and expensive. We may not consummate some negotiations for acquisitions or other arrangements, which could result in significant diversion of management and other employee time, as well as substantial out-of-pocket costs. In addition, there are a number of risks and uncertainties relating to our closing transactions. If such transactions are not completed for any reason, we will be subject to several risks, including the following: (i) the market price of our common shares may reflect a market assumption that such transactions will occur, and a failure to complete such transactions could result in a negative perception by the market of us generally and a decline in the market price of our common shares and (ii) many costs relating to such transactions may be payable by us whether or not such transactions are completed.

If an acquisition is consummated, the integration of the acquired business, product or other assets into our Company may also be complex and time-consuming and, if such businesses, products and assets are not successfully integrated, we may not achieve the anticipated benefits, cost-savings or growth opportunities. Potential difficulties that may be encountered in the

integration process include the following: integrating personnel, operations and systems, while maintaining focus on selling and promoting existing and newly-acquired products; coordinating geographically dispersed organizations; distracting management and employees from operations; retaining existing customers and attracting new customers; maintaining the business relationships the acquired company has established, including with health care providers; and managing inefficiencies associated with integrating the operations of the Company and the acquired business, product or other assets.

Furthermore, we may incur restructuring and integration costs and a number of non-recurring transaction costs associated with these acquisitions, combining the operations of the Company and the acquired company and achieving desired synergies. These fees and costs may be substantial. Non-recurring transaction costs include, but are not limited to, fees paid to legal, financial and accounting advisors, filing fees and printing costs. Additional unanticipated costs may be incurred in the integration of the businesses of the Company and the acquired company. There can be no assurance that the elimination of certain duplicative costs, as well as the realization of other efficiencies related to the integration of the acquired business, will offset the incremental transaction-related costs over time. Therefore, any net benefit may not be achieved in the near term, the long term or at all.

Finally, these acquisitions and other arrangements, even if successfully integrated, may fail to further our business strategy as anticipated or to achieve anticipated benefits and success, expose us to increased competition or challenges with respect to our products or geographic markets, and expose us to additional liabilities associated with an acquired business, product, technology or other asset or arrangement. Any one of these challenges or risks could impair our ability to realize any benefit from **our** an acquisition or arrangement after we have expended resources on them.

Bausch + Lomb has recently completed a number of acquisitions and in-licensing transactions and may, in the future, seek to identify and acquire certain other assets, products and businesses. Bausch + Lomb may experience difficulties in integrating any acquired assets, products and businesses and Bausch + Lomb may fail to realize the anticipated benefits of any such acquisitions.

Bausch + Lomb has recently completed a number of acquisitions and in-licensing transactions, including the recent acquisition of XIIDRA® (lifitegrast ophthalmic solution) and certain other ophthalmology assets from Novartis Pharma AG and Novartis Finance Corporation (the "XIIDRA Acquisition"). Bausch + Lomb may in the future seek to identify and acquire complementary businesses, products, technologies or other assets to augment its pipeline. Such transactions may be complex, time consuming and expensive. There can be no guarantee that Bausch + Lomb will be able to successfully consummate acquisitions or other arrangements, which could result in significant diversion of management and other employee time, as well as substantial out-of-pocket costs. If such transactions are not completed for any reason, Bausch + Lomb may incur significant costs and the market price of its common shares may decline.

In addition, even if an acquisition is consummated, the integration of the acquired business, product or other assets into Bausch + Lomb may be complex and time-consuming, and Bausch + Lomb may not achieve the anticipated benefits, cost-savings or growth opportunities it expects. Potential difficulties that may be encountered in the integration process include the following: integrating personnel (such as the XIIDRA salesforce brought on as part of the XIIDRA Acquisition), operations and systems, while maintaining

focus on selling and promoting existing and newly-acquired products; coordinating geographically dispersed organizations; distracting management and employees from operations; retaining existing customers and attracting new customers; maintaining the business relationships the acquired company has established, including with health care providers; and managing inefficiencies associated with integrating the operations of Bausch + Lomb and the acquired business, product or other assets. In addition, delays encountered in the integration process could result in a failure to realize the anticipated benefits on the anticipated timeline, or at all.

Finally, these acquisitions and other arrangements, even if successfully integrated, may fail to further Bausch + Lomb's business strategy as anticipated or to achieve anticipated benefits and success, expose Bausch + Lomb to increased competition or challenges with respect to its products or geographic markets, and expose Bausch + Lomb to additional liabilities associated with an acquired business, product, technology or other asset or arrangement. Any one of these challenges or risks could impair Bausch + Lomb's ability to realize any benefit from our acquisition or arrangement after it has expended resources on them.

With respect to the XIIDRA Acquisition, in addition to the integration challenges Bausch + Lomb faces, the anticipated benefits Bausch + Lomb expects from this acquisition are subject to numerous assumptions, including assumptions derived from its diligence efforts concerning the status of and prospects for the XIIDRA business and the pipeline assets. Bausch + Lomb cannot provide any assurances with respect to the accuracy of its assumptions, including its assumptions with respect to future revenues of the XIIDRA products or assumptions regarding its ability to successfully develop and obtain regulatory approval for the acquired pipeline assets. There are a variety of risks and uncertainties, some of which are outside of Bausch + Lomb's control, which could cause actual results to differ materially from these anticipated benefits. As a result, there can be no assurance that Bausch + Lomb will realize the anticipated benefits from the XIIDRA Acquisition in the anticipated timelines, or at all.

In addition, as described above, Bausch + Lomb may expend significant expenses in connection with the consummation of these transactions and the integration of the acquired business with the Bausch + Lomb business. These expenses may include, but are not limited to, fees paid to legal, financial and accounting advisors, filing fees and fees associated with any debt financing required in connection with the funding for such transactions. Many of these expenses must be paid regardless of whether the transaction is consummated. Additional unanticipated costs may be incurred in the integration of the acquired business with the Bausch + Lomb business. In addition, as was the case with the XIIDRA Acquisition, Bausch + Lomb may also incur additional indebtedness to finance the transaction, which indebtedness may be material and may limit its operating or financial flexibility relative to its then current position.

If we fail to maintain our relationships with, and provide appropriate training in our products to, health care providers, including physicians, eyecare professionals, hospitals, large drug store chains, wholesale distributors, pharmacies,

government entities and group purchasing organizations, customers may not buy certain of our products and our sales and profitability may decline.

We market our pharmaceutical products to physicians, hospitals, pharmacies and wholesalers through our own sales force and sell through wholesalers. In some markets, we additionally sell directly to physicians, hospitals and large drug store chains and we sell through distributors in countries where we do not have our own sales staff. We have developed and strive to maintain strong relationships with members of each of these groups who assist in product research and development and advise us on how to satisfy the full range of consumer needs. We rely on these groups to educate their patients and other members of their organizations regarding our products. Consumers in the pharmaceutical industry, particularly the contact lens and lens care customers in the eye health industry, have a tendency not to switch products regularly and are repeat consumers.

We have historically benefitted from our strong relationships with these physicians, hospitals, pharmacies and wholesalers. Our ability to maintain strong relationships is essential to our future performance; however, we may not be able to maintain these relationships in the future. The success of certain of our products, particularly our vision care products, is impacted by a physician's initial recommendation of such products and a consumer's initial choice to use such products. As a result, the failure of certain of our products, particularly in our vision care business, to retain the support of pharmaceutical professionals, hospitals or group purchasing organizations and to retain the support of the end-users and the distributors and retailers to whom we sell such products, could have a material adverse effect on our sales and profitability.

Development and Regulatory Risks

The successful development of our pipeline products is highly uncertain and requires significant expenditures and time. In addition, obtaining necessary government approvals is time-consuming and not assured. The failure to commercialize certain

of our pipeline products could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We currently have a number of pipeline products in development. We and our development partners, as applicable, conduct extensive preclinical studies and clinical trials to demonstrate the safety and efficacy in humans of our pipeline products in order to obtain regulatory approval for the sale of our pipeline products. Preclinical studies and clinical trials are expensive, complex, can take many years and have uncertain outcomes. None of, or only a small number of, our research and development programs may actually result in the commercialization of a product. We will not be able to commercialize our pipeline products if preclinical studies do not produce successful results or if clinical trials do not demonstrate safety and efficacy in humans. Furthermore, success in preclinical studies or early-stage clinical trials does not ensure that later stage clinical trials will be successful nor does it ensure that regulatory approval for the product candidate will be obtained. In addition, the process for the completion of pre-clinical and clinical trials is lengthy and may be subject to a number of delays for various reasons, which would delay the commercialization of any successful product. If our development projects are not successful or are significantly delayed, we may not recover our substantial investments in the pipeline product and our failure to bring these pipeline products to market on a timely basis, or at all, could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

In addition, FDA and Health Canada approval must be obtained in the U.S. and Canada, respectively, EMA approval (drugs) and CE Marking (devices) and/or registration under the European Commission's Medical Device Regulation ("MDR") 2017/745 must be obtained in countries in the EU and similar approvals must be obtained from comparable agencies in other countries, prior to marketing or manufacturing new pharmaceutical and medical device products for use by humans. Obtaining such regulatory approvals for new products and devices and manufacturing processes can take a number of years and involves the expenditure of substantial resources. We may face additional challenges with respect to EMA approval and CE Marking in the EU as a result of additional requirements for approval in the EU that may be more burdensome than those required by the FDA and Health Canada.

Even if such products appear promising in development stages, regulatory approval may not be achieved and no assurance can be given that we will obtain approval in those countries where we wish to commercialize such products. Nor can any assurance be given that if such approval is secured, the approved labeling will not have significant labeling limitations, including limitations on the indications for which we can market a product, or require onerous risk management programs. Furthermore, from time to time, changes to the applicable legislation, regulations or policies may be introduced that change these review and approval processes for our products, which changes may make it more difficult and costly to obtain or maintain regulatory approvals.

Our marketed products will be subject to ongoing regulatory review.

Following initial regulatory approval of any products, we or our partners may develop or acquire, we will be subject to continuing regulatory review by various government authorities in those countries where our products are marketed or intended

to be marketed, including the review of adverse drug events and clinical results that are reported after product candidates become commercially available. In addition, we are subject to ongoing audits and investigations of our facilities and products by the FDA, as well as other regulatory agencies in and outside the U.S.

If we fail to comply with the regulatory requirements in those countries where our products are sold, we could lose our marketing approvals or be subject to fines or other sanctions. Also, as a condition to granting marketing approval of a product, the applicable regulatory agencies may require a company to conduct additional clinical trials or remediate Current Good Manufacturing Practice ("CGMP") issues, the results of which could result in the subsequent loss of marketing approval, changes in product labeling or new or increased concerns about side effects or efficacy of a product.

In April 2017, the European Union adopted **MDR, Medical Device Regulation ("MDR")**, which repeals and replaces the Medical Device Directive ("MDD") and Active Implantable Medical Devices Directive ("AIMDD") 90/385/EEC. The MDR, for most parts, became applicable on May 26, 2021. Under the MDR, several transitional measures apply to medical devices that are certified under the MDD or AIMDD prior to May 26, 2021 or, for class I devices, for which a declaration of conformity was drawn up prior to May 26, 2021, allowing these devices to be placed on the market after May 26, 2021 under certain conditions for a transitional period. However, if we make any significant changes in the design or intended purpose of our devices, they will no longer benefit from such transitional periods. Generally, the MDR imposes stricter requirements on manufacturers, importers and distributors of medical devices. Moreover, the requirements to provide clinical data for medical devices has become stricter and as a result we may need to conduct new time consuming and costly clinical investigations with our existing medical devices to meet the new requirements, including to obtain CE

certificates under the MDR. We may, or may not, be able to provide this data in time to obtain MDR certifications in a timely fashion when our existing certificates expire. These new regulations impact all of our existing and pipeline medical device products being sold in the EEA for which we are legal manufacturer, importer and/or distributor, including contact lens, lens care, eye health, aesthetic and surgical areas, as well as certain of our products outside the EEA, which rely on the EEA registration to support registration in those other countries. These products, in the aggregate, account for a meaningful portion of our net revenue in this region. While we are working to ensure compliance with these new regulations for all impacted products, we may not be able to achieve compliance for all products within the applicable transition period. If we fail to achieve compliance, we will not be able to market and sell the non-compliant products in the EEA, nor will we be able to rely on the non-compliant registration for such products in regions outside of the EEA, which could have a material adverse effect on our business, financial condition, cash flows and results of operations in the EEA and, possibly, on a consolidated basis, and could cause the market value of our common shares to decline.

While EU law is applicable in Northern Ireland, the UK Medical Devices Regulations 2002/68 also need to be complied with in Great Britain. **Medical** **Before July 1, 2023**, **medical** device manufacturers who have CE marked devices **will be were** able to continue to place them on the market in the whole of the United Kingdom (the "UK") **until July 1, 2023** without a change in labeling. **After that, As of July 1, 2023**, devices destined for Great Britain **will be are** required to follow the UK regulatory regime and to be labeled with the UKCA mark. Northern Ireland will, however, continue to accept CE marked devices. There are some additional requirements for manufacturers who are based outside the UK such as the requirement to appoint a UK Responsible Person ("UKRP") to take on certain regulatory responsibilities with respect to the Medicines and Healthcare products Regulatory Agency ("MHRA") and users or customers in the UK. To enable devices to be placed on the market in the UK after January 1, 2022 (even for CE marked devices), a UK manufacturer must register with the MHRA, as must a UKRP for an overseas manufacturer. Such registering entity will then register each of the devices for which they are responsible for placing on the market in the UK, whether in Great Britain or Northern Ireland. This may create added expense and challenges as explained below.

Until May 25, 2021, our products bearing a CE mark could be exported from the EEA to Switzerland. However, as of May 26, 2021, the EU no longer applies the Mutual Recognition Agreement between the EEA and Switzerland. Accordingly, legal manufacturers in Switzerland are required to appoint a European Union authorized representative, and manufacturers outside of Switzerland are required to appoint a Swiss authorized representative in compliance with the Medical Device Ordinance. As a consequence, we have been required to appoint an authorized representative in Switzerland in order to export

our CE-marked medical devices to Switzerland. Additionally, the name and address of the Swiss authorized representative must be placed on the packaging. This has created added expenses and challenges.

In addition, incidents of adverse drug reactions, unintended side effects or misuse relating to our products could result in additional regulatory controls or restrictions, or even lead to the regulatory authority requiring us to recall or withdraw the product from the market. Further, if faced with these incidents of adverse drug reactions, unintended side effects or misuse relating to our products, we may elect to voluntarily implement a recall or market withdrawal of our product. A recall or market withdrawal, whether voluntary or required by a regulatory authority, may involve significant costs to us, potential disruptions in the supply of our products to our customers and reputational harm to our products and business, all of which could harm our ability to market our products and could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Complying with existing government regulation of dietary supplements, including our eye vitamins and mineral supplements, in the U.S., Canada and elsewhere could increase our costs significantly and adversely affect our financial results.

The manufacturing, formulation, packaging, labeling and advertising of the Company's dietary supplement products are also subject to regulation by certain federal, state and foreign agencies, including the FDA, the Federal Trade Commission (the "FTC"), and the Consumer Product Safety Commission, in the U.S., and by Health Canada in Canada. The FDA has authority in the U.S. over the adulteration or misbranding of dietary supplements. There are requirements relating to ingredient safety, new dietary ingredient notifications, labeling, claims notifications, and adverse event reporting among other requirements. While we believe our products comply with those requirements, the FDA may challenge positions we have taken with respect to the formulation or labeling of a dietary supplement product. We are also subject to risks relating to evolving regulations of dietary supplement products, including our eye vitamins and mineral supplements, as the FDA and other applicable agencies have in the past and may in the future consider additional or more stringent regulations of dietary supplements and other products. Such developments could require reformulation of certain of our products to meet new standards, additional record-keeping obligations, increased documentation of the properties of certain products, additional or different labeling, additional scientific substantiation, adverse event reporting or similar obligations, or could

result in recalls or the discontinuance of certain of our products that are not able to be reformulated. Any such developments could increase our costs significantly. In addition, the FDA also has comprehensive regulations for CGMP for those who manufacture, package or hold dietary supplement products. These regulations focus on practices that ensure the identity, purity, quality, strength and composition of dietary supplements that are manufactured. We or our contract manufacturers may not be able to comply with such regulations without incurring additional expenses, which could be significant.

Our revenues and profits from generic products may decline as a result of changes in regulatory policy.

In addition, the U.S. Congress and various state legislatures in the U.S. have passed, or have proposed passing, legislation that could have an adverse impact on pharmaceutical manufacturers' ability to: (i) settle litigation initiated pursuant to the Hatch-Waxman Act and Biologics Price Competition and Innovation Act ("BPCIA"), (ii) secure the full benefit of first-to-file regulatory approval status secured under the Hatch-Waxman Act and (iii) change the value of the brand products prior to the launch of generic versions. The Hatch-Waxman Act and BPCIA create various pathways for generic drug manufacturers to secure accelerated approvals of their abbreviated new drug applications and abbreviated biologics license applications. The new laws and proposals from the federal and state governments could serve to change, directly and indirectly, the Hatch-Waxman Act and BPCIA, including the incentives to develop generic and biosimilar products, as well as the ability of generic manufacturers to accelerate the launch of their new generic and biosimilar products. They also could impact the ability of brand manufacturers to protect their investments in the intellectual property associated with their branded specialty and innovative biologic products. We continue to monitor these legislative developments and advocate for policies that support both innovation and access to high quality medicines for patients.

Manufacturing and Supply Risks

If we or our third-party manufacturers are unable to manufacture our products or the manufacturing process is interrupted due to failure to comply with regulations or for other reasons, the interruption of the manufacture of our products could adversely affect our business. Other manufacturing and supply difficulties or delays may also have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Our manufacturing facilities and those of our contract manufacturers must be inspected and found to be in full compliance with CGMP, quality system management requirements or similar standards before approval for marketing. Compliance with CGMP regulations requires the dedication of substantial resources and requires significant expenditures. In addition, while we attempt to build in certain contractual obligations on our third-party manufacturers, we may not be able to

ensure that such third-parties comply with these obligations. Our failure or that of our contract manufacturers to comply with CGMP regulations, quality system management requirements or similar regulations outside of the U.S. could result in enforcement action by the FDA or its foreign counterparts, including, but not limited to, warning letters, fines, injunctions, civil or criminal penalties, recall or seizure of products, total or partial suspension of production or importation, suspension or withdrawal of regulatory approval for approved or in-market products, refusal of the government to renew marketing applications or approve pending applications or supplements, refusal of certificates for export to foreign jurisdictions, suspension of ongoing clinical trials, imposition of new manufacturing requirements, closure of facilities and criminal prosecution. These enforcement actions could lead to a delay or suspension in production, which could have a material adverse effect on our competitive position, business, financial condition, results of operations and cash flows and could cause the market value of our common shares and/or debt securities to decline.

In addition, our manufacturing and other processes use complicated and sophisticated equipment, which sometimes requires a significant amount of time to obtain and install. Manufacturing complexity, testing requirements and safety and security processes combine to increase the overall difficulty of manufacturing these products and resolving manufacturing problems that we may encounter. Although we endeavor to properly maintain our equipment (and require our contract manufacturers to properly maintain their equipment), including through on-site quality control and experienced manufacturing supervision, and have key spare parts on hand, our business could suffer if certain manufacturing or other equipment, or all or a portion of our or their facilities, were to become inoperable for a period of time. We could experience substantial production delays or inventory shortages in the event of any such occurrence until we or they repair such equipment or facility or we or they build or locate replacement equipment or a replacement facility, as applicable, and seek to obtain necessary regulatory approvals for such replacement. For example, in 2021, a third-party supplier of sterilization services for our lens care solution bottles and caps at our Milan, Italy facility notified us of inconsistencies in the sterilization data versus certificates of conformance previously submitted to us by that supplier. Although we determined that this issue did not affect the safety or performance of any of our products and was limited to a specific number of lots for certain of our products,

out of an abundance of caution, in conjunction with the appropriate notified body and responsible health authorities, we contained and/or recalled down to the consumer level the limited number of affected lots of products, which resulted in \$8 million of manufacturing variances and \$6 million of returns. Further, due to the limited availability of qualified materials caused by this issue, production at the Milan facility could not keep up with demand (even with leveraging increased production at another of our manufacturing facilities to support some of the demand), which negatively impacted our sales for the affected products in this region during 2021. Any interruption in our manufacture of products could adversely affect the sales of our current products or introduction of new products and could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

The supply of our products to our customers (or, in some cases, supply from our contract manufacturers to us) is subject to and dependent upon the use of transportation services. Disruption of transportation services (including as a result of weather conditions) could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline. In addition, any prolonged disruption in the operations of our existing distribution facilities, whether due to technical, labor or other difficulties, weather conditions, equipment malfunction, contamination, failure to follow specific protocols and procedures, destruction of or damage to any facility or other reasons, could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

For some of our finished products and raw materials, we obtain supply from one or a limited number of sources. If we are unable to obtain components or raw materials, or products supplied by third parties, our ability to manufacture and deliver our products to the market would be impeded, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Some components and raw materials used in our manufactured products, and some finished products sold by us, are currently available only from one or a limited number of domestic or foreign suppliers. For example, with respect to some of our largest or most significant products, the supply of the finished product for each of our Siliq®, Duobrii®, Bryhali®, Lumify®, Trulance®, Vyzulta®, SofLens®, MEIBO®, XIIDRA®, Wellbutrin XL®, Renu Jublia®, Aplenzin®, Xenazine Relistor® Oral, Arestin®, Relistor® Oral and PureVision® products are only available from a single source (either one of our internal manufacturing sites or third party manufacturers) and the supply of active pharmaceutical ingredient for each of our Siliq®, Duobrii®, Bryhali®, Trulance®, Vyzulta®, Xenazine MEIBO®, Preservision® Aplenzin®, Relistor® Oral, Arestin® and Relistor Bedoyecta® Oral products are also only available from a single source. In the event an existing supplier fails to supply product on a timely basis and/or in the requested amount, supplies product that fails to meet regulatory requirements, becomes unavailable through business interruption or financial insolvency or loses its regulatory status as an approved source or we are unable to renew current supply agreements when such agreements expire and we do not have a second supplier, we may be unable to obtain the required components, raw materials or products on a timely basis or at commercially reasonable prices. We attempt to mitigate these risks by maintaining safety stock of these products, but such

safety stock may not be sufficient. In addition, in some cases, only a single source of active pharmaceutical ingredient is identified in filings with regulatory agencies, including the FDA, and cannot be changed without prior regulatory approval, which would involve time and expense to us. A prolonged interruption in the supply of a single-sourced raw material, including the active pharmaceutical ingredient, or single-sourced finished product could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline. In addition, these third-party manufacturers may have the ability to increase the supply price payable by us for the manufacture and supply of our products, in some cases without our consent.

As a result, our dependence upon others to manufacture and supply our products may adversely affect our profit margins and our ability to obtain approval for and produce our products on a timely and competitive basis, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Changes in inventory levels or fluctuations in buying patterns by our large distributor and retail customers may adversely affect our sales and earnings and add to sales variability from quarter to quarter.

We balance the need to maintain inventory levels that are sufficient to ensure competitive lead times against the risk of inventory obsolescence because of changing customer requirements, fluctuating commodity prices, changes to our products, product transfers or

the life-cycle of our products. In order to successfully manage our inventories, we must estimate demand from our customers and produce products that substantially correspond to that demand. If we fail to adequately forecast demand for any new or existing product or fail to determine the appropriate product mix for production purposes, we may face production capacity issues in manufacturing sufficient quantities of a given product. In addition, failures in our information technology systems or human error could also lead to inadequate forecasting of our overall demand or product mix.

We have a significant number of unique products, and we anticipate that number will continue to grow over time. As a result, the demand forecasting precision required for us to avoid production capacity issues will also increase, which could increase the risk of product unavailability and lost sales. Additionally, an increasing number of unique products could increase global inventory requirements, negatively impacting our working capital performance and leading to write-offs due to obsolescence and expired products.

Due to the lead times necessary to obtain and install new equipment and ramp up production of product lines, if we fail to adequately forecast the need for additional manufacturing capacity, whether for new or existing products, we may be unable to scale production in a timely manner to meet demand for our products. In addition, the technically complex manufacturing processes required to manufacture many of our products increase the risk of production failures and can increase the cost of producing our goods. As a result, because the production process for many of our products is complex and sensitive, the cost of production and the chance of production failures and lengthy supply interruptions is increased, which can have a substantial impact on our inventory levels.

Finally, a significant portion of our products are sold to major health care distributors and major retail chains in Canada, the United States and abroad. Consequently, our sales and quarterly growth comparisons, as well as our estimates for required inventory levels, may be affected by fluctuations in the buying patterns of major distributors, retail chains and other trade buyers. These fluctuations may result from seasonality, pricing, large retailers' and distributors' buying decisions or other factors. If we overestimate demand and produce too much of a particular product, we face a risk of inventory obsolescence, leaving us with inventory that we cannot sell profitably or at all. In addition, we may have to write down such inventory if we are unable to sell it for its recorded value. Conversely, if we underestimate demand and produce insufficient quantities of a product, we could be forced to produce that product at a higher price and forego profitability in order to meet customer demand. For example, if a competitor initiates a recall and there is an unexpected increase in the demand for our products, we may not be able to meet such increased demand. Insufficient inventory levels may lead to shortages that result in loss of sales opportunities altogether as potential end-customers turn to competitors' products that are readily available. If any of these situations occur frequently or in large volumes or if we are unable to effectively manage our inventory and that of our distribution partners, this could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Commercialization Risks

Our approved products may not achieve or maintain expected levels of market acceptance.

Even if we are able to obtain and maintain regulatory approvals for our pharmaceutical and medical device products, generic or branded, the success of these products is dependent upon achieving and maintaining market acceptance. Launching and commercializing products is time consuming, expensive and unpredictable. The commercial launch of a product takes significant time, resources, personnel and expertise, which we may not have in sufficient levels to achieve success, and is subject to various market conditions, some of which may be beyond our control. There can be no assurance that we will be able to, either by ourselves or in collaboration with our partners or through our licensees or distributors, successfully launch and commercialize new products or gain market acceptance for such products. New product candidates that appear promising in development may fail to reach the market or may have only limited or no commercial success. While we have been successful in launching some of our products, we may not achieve the same level of success with respect to all of our new products. Our inability to successfully launch our new products may negatively impact the commercial success of such product, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline. Our inability to successfully launch our new products could also lead to material impairment charges.

Levels of market acceptance for our new products could be impacted by several factors, some of which are not within our control, including but not limited to the following:

- safety, efficacy, convenience and cost-effectiveness of our products compared to products of our competitors;
- scope of approved uses and marketing approval;
- availability of patent or regulatory exclusivity;

- timing of market approvals and market entry;
- ongoing regulatory obligations following approval, such as the requirement to conduct Risk Evaluation and Mitigation Strategy ("REMS") programs;
- any restrictions or "black box" warnings required on the labeling of such products;
- availability of alternative products from our competitors;
- acceptance of the price of our products;
- effectiveness of our sales forces and promotional efforts;
- the level of reimbursement of our products;
- acceptance of our products on government and private formularies;
- ability to market our products effectively at the retail level or in the appropriate setting of care; and
- the reputation of our products.

Further, the market perception and reputation of our products and their safety and efficacy are important to our business and the continued acceptance of our products. Any negative publicity about our products, such as the discovery of safety issues with our products, adverse events involving our products, or even public rumors about such events, could have a material adverse effect on our business, financial condition, cash flows or results of operation or could cause the market value of our common shares and/or debt securities to decline. In addition, the discovery of significant problems with a product similar to one of our products that implicate (or are perceived to implicate) an entire class of products or the withdrawal or recall of such similar products could have a material adverse effect on sales of our products. Accordingly, new data about our products, or products similar to our products, could cause us reputational harm and could negatively impact demand for our products due to real or perceived side effects or uncertainty regarding safety or efficacy and, in some cases, could result in product withdrawal.

If our products fail to gain, or lose, market acceptance, our revenues would be adversely impacted and we may be required to take material impairment charges, all of which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

For certain of our products, we depend on reimbursement from governmental and other third-party payors and a reduction in reimbursement could reduce our product sales and/or revenue. In addition, failure to be included in formularies developed by managed care organizations and coverage by other organizations may negatively impact the utilization of our products, which could harm our market share and could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Sales of certain of our products are dependent, in part, on the availability and extent of reimbursement from government health administration authorities, private health insurers, pharmacy benefit managers and other organizations of the costs of our products and the continued reimbursement and coverage of our products in such programs. Changes in government regulations

or private third-party payors' reimbursement policies may reduce reimbursement for our products. In addition, such third-party payors may otherwise make the decision to reduce reimbursement of some or all our products or fail to cover some or all our products in such programs or assert that reimbursements were not in accordance with applicable requirements. For example, these decisions may be based on the price of our products or our current or former pricing practices and decisions. Any reduction or elimination of such reimbursement or coverage could result in a negative impact on the utilization of our products and, as a result, could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Managed care organizations and other third-party payors try to negotiate the pricing of medical services and products to control their costs. Managed care organizations and pharmacy benefit managers typically develop formularies to reduce their cost for medications. Formularies can be based on the prices and therapeutic benefits of the available products. Due to their lower costs, generic products are often favored. The breadth of the products covered by formularies varies considerably from one managed care organization to another, and many formularies include alternative and competitive products for treatment of particular medical conditions. Failure to be included in such formularies or to achieve favorable formulary status may negatively impact the utilization and market share of our products. If our products are not included within an adequate number of formularies or adequate reimbursement levels are not provided, or if those policies increasingly favor generic products, this could have a material adverse effect on our business, financial condition, cash flows and results of operations or result in additional pricing pressure on our products and could cause the market value of our common shares and/or debt securities to decline.

We have and may continue to experience pressure on the pricing of certain of our products due to pricing controls, social or government pressure to lower the cost of drugs, and consolidation across the supply chain.

We face numerous cost-containment measures by governments and other payors, including certain government-imposed industry-wide price reductions, mandatory rebates or pricing, international reference pricing (i.e., the practice of a country linking its regulated medicine prices to those of other countries), volume-based procurement, tender systems, shifting of the payment burden to patients through higher co-payments and requirements for increased transparency on pricing, all of which may have an adverse impact on the pricing of our products.

Many markets in which we operate have implemented or may implement tender systems for generic and biosimilar pharmaceuticals in an effort to lower prices. Under such tender systems, manufacturers submit bids which establish prices for generic pharmaceutical products. Upon winning the tender, the winning company will receive a preferential reimbursement for a period of time. If our bids do not win, we may not be able to participate in the given market or may lose out on market share. While criteria other than price can be included in tenders, tender systems often select the lowest bid, which often results in companies underbidding one another by proposing low pricing in order to win the tender. Other markets may also consider the implementation of a tender system and even if a tender system or other price controls are ultimately not implemented, the anticipation of such could result in price reductions.

In the EU, U.K. and some other international markets, the government provides healthcare at low cost to consumers and regulates pharmaceutical prices, patient eligibility and/or reimbursement levels to control costs for the government-sponsored healthcare system. These systems of price regulations may lead to inconsistent and lower prices. Within the EU and in other countries, the availability of our products in some markets at lower prices undermines our sales in other markets with higher prices. Additionally, certain countries set prices by reference to the prices in other countries where our products are marketed. Thus, our inability to secure adequate prices in a particular country may also impair our ability to obtain acceptable prices in existing and potential new markets and may create the opportunity for third party cross-border trade. In addition to the impacts of these government-sponsored healthcare systems, in the EU, U.K. and other international markets, certain governmental agencies have or are considering enacting further measures to decrease the costs of providing healthcare, including government mandated price reductions and/or other forms of price controls, including retrospective "clawback" price reductions. as a result of the COVID-19 pandemic and the changing healthcare landscape in those markets.

There has also been increasing U.S. federal and state legislative and enforcement interest with respect to drug pricing, as well as from international organizations like the United Nations, World Health Organization and Organization for Economic Cooperation and Development, in addition to intense publicity and scrutiny regarding such matters, including publicity and pressure resulting from prices charged by competitors and peer companies for new products as well as price increases by competitors and peer companies on older products that some have deemed excessive.

In addition, there have been executive orders, legislation, and legislative and regulatory proposals, including in connection with government programs such as Medicare, concerning drug prices and related issues, including the perceived need to bring more transparency to drug pricing, reviewing the relationship between pricing and manufacturer patient programs, and reforming government program reimbursement methodologies for drugs. These include legislation promulgated by the [Inflation Reduction Act of 2022 \(IRA\)](#) that enables the U.S. government to impose penalties if drug prices are increased at a rate faster than inflation, redesigns

Medicare Part D benefits to shift a greater portion of the costs to manufacturers and allows for the U.S. government to set prices for certain drugs in Medicare.

Although we expect to see continued focus in regulating pricing, we cannot predict what, if any, additional legislative or regulatory developments may transpire at the state or country level, or what the ultimate impact may be.

Our fulfillment arrangements with Walgreens and our dermatology cash-pay prescription program may not be successful.

At the beginning of 2016, we launched a brand fulfillment arrangement with Walgreens, pursuant to which we have made certain of our dermatology and ophthalmology products available to eligible patients through a patient access and co-pay program available at Walgreens U.S. retail pharmacy locations, as well as participating independent retail pharmacies. We have, in the past, experienced certain operational and other issues respecting this arrangement, including lower than anticipated average realized prices associated with these products through this arrangement. In July 2019, we entered into an amendment to the existing fulfillment agreement to address some of these issues. We cannot guarantee this arrangement will continue to be successful in the future, nor can we guarantee that additional operational issues will not be encountered, nor can we guarantee that we will be able to successfully negotiate with Walgreens any improvements or amendments to this arrangement we identify as necessary or desired. In addition, we cannot predict how the market, including customers, doctors, patients, pharmacy benefit managers and third-party payors, or governmental agencies, will continue to react to these arrangements and programs. If this arrangement or program fails, if they do not achieve sufficient success and market acceptance, if we face retaliation from third parties as a result of this arrangement and program (for example, in the form of limitations on or exclusions from the

reimbursement of our products) or if any part of this arrangement is found to be non-compliant with applicable law or regulations, this could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

In addition, in February 2019, we launched Dermatology.com, a cash-pay product acquisition program offering certain branded Ortho Dermatologics products directly to patients. In March 2020, the name Dermatology.com was removed as the cash-pay product program name, with the name Dermatology.com limited to only online usage, including future digital tele dermatology and e-commerce offerings. This program is designed to address the affordability and availability of certain branded dermatology products, when insurers and pharmacy benefit managers are no longer offering those branded prescription pharmaceutical products under their designated pharmacy benefit offerings. We cannot guarantee that this program will be successful or that we will continue to add new products to the program. In addition, we cannot predict how the market, including customers, doctors and patients will react to this program. If this program fails, if it does not achieve sufficient success and market acceptance or if any part of this program is found to be non-compliant with applicable law or regulations, this could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Catastrophic events may disrupt our business.

We have operations and facilities which sell and distribute our products in many parts of the world. Natural events (such as a hurricane or major earthquake), terrorist attacks, pandemics, epidemics, outbreaks of an infectious disease or other catastrophic events, including adverse weather events associated with global climate change which have increased in severity and frequency in recent years, could cause delays in developing, manufacturing or selling our products. Such events that occur in major markets where we sell our products could reduce the demand for our products in those areas and, as a result, impact our sales into those markets. In either case, any such disruption could have a material adverse effect on our business, financial condition and results of operations and could cause the market value of our common shares and/or debt securities to decline.

The illegal distribution and sale of counterfeit versions of our products may reduce demand for our products or have a negative impact on the reputation of our products, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Third parties may illegally distribute and sell counterfeit versions of our products, which do not meet or adhere to the rigorous quality, safety, manufacturing, storage and handling standards and regulations that apply to our products. The prevalence of counterfeit products is a growing industry-wide issue due to the widespread use of the Internet, which has greatly facilitated the ease by which counterfeit products can be advertised, purchased and delivered. The discovery of safety or efficacy issues, adverse events or even death or personal injury associated with or caused by counterfeit products may be attributed to our products and may cause reputational harm to our products or the Company. We may not be able to detect or, if detected, prevent or prohibit the sale of such counterfeit products. As a result, the illegal sale or distribution of counterfeit products may negatively impact the demand for and sales of our products, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Our revenues and profits could be reduced by imports from countries where our products are available at lower prices.

Prices for our products are based on local market economics and competition and differ from country to country. Our sales in countries with relatively higher prices may be reduced if products can be imported into those or other countries from lower price markets. If this happens with our products, our revenues and profits may be adversely affected, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Our policies regarding returns, allowances and chargebacks, and marketing programs adopted by wholesalers, may reduce our revenues in future fiscal periods.

We provide certain rebates, allowances, chargebacks and other credits to our customers with respect to certain of our products. For example, we make payments or give credits to certain wholesalers for the difference between the invoice price paid to us by our wholesaler customer for a particular product and the negotiated price that such wholesaler sells such products to its hospitals, group purchasing organizations, pharmacies or other retail customers. We also give certain of our customers credits on our products that such customers hold in inventory after we have decreased the WAC prices of such products, such credit being for the difference between the old and new price. In addition, we also implement and maintain returns policies, pursuant to which our customers may return product to us in certain circumstances in return for a credit. Although we establish reserves based on our prior experience, wholesaler data, then-current on-hand inventory, our best estimates of the impact that these policies may have in subsequent periods and certain other considerations, we cannot ensure that our reserves are adequate

or that actual product returns, rebates, allowances and chargebacks will not exceed our estimates, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We may experience declines in sales volumes or prices of certain of our products as the result of the concentration of sales to wholesalers and the continuing trend towards consolidation of such wholesalers and other customer groups and this could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

For certain of our products, a significant portion of our sales are to a relatively small number of customers. If our relationship with one or more of such customers is disrupted or changes adversely or if one or more of such customers experience financial difficulty or other material adverse changes in their businesses, it could materially and adversely affect our sales and financial results, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

In addition, wholesalers and retail drug chains have undergone, and are continuing to undergo, significant consolidation. This consolidation may result in these groups gaining additional purchasing leverage and consequently increasing the product pricing pressures facing our business. The result of these developments could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We have entered into distribution agreements with other companies to distribute certain of our products at supply prices based on net sales. Declines in the pricing and/or volume, over which we have no or limited control, of such products, and therefore the amounts paid to us, could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Certain of our products are the subject of third-party distribution or sublicense agreements, pursuant to which we may manufacture and sell products to other companies, which distribute such products in return for a royalty or a supply price, in both cases which are often based on net sales. Our ability to control pricing and volume of these products may be limited and, in some cases, these companies make all distribution and pricing decisions independently of us. If the pricing or volume of such products declines, our revenues would be adversely impacted which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Risks Relating to the International Scope of our Business

Our business, financial condition, cash flows and results of operations are subject to risks arising from the international scope of our operations.

We conduct a significant portion of our business outside the U.S. and Canada and may, in the future, expand our operations into new countries, including emerging markets. We sell our pharmaceutical and medical device products in many countries around the world. All of our foreign operations are subject to risks inherent in conducting business abroad, including, among other things:

- difficulties in coordinating and managing foreign operations, including ensuring that foreign operations comply with foreign laws as well as Canadian and U.S. laws applicable to Canadian companies with U.S. and foreign operations, such as export and sanctions laws and the U.S. Foreign Corrupt Practices Act ("FCPA"), the Canadian Corruption of Foreign Public Officials Act, and other applicable worldwide anti-bribery laws;
 - price and currency exchange controls;
 - restrictions on the repatriation of funds;
 - scarcity of hard currency, including the U.S. dollar, which may require a transfer or loan of funds to the operations in such countries, which they may not be able to repay on a timely basis;
 - political and economic instability;
-
- compliance with multiple regulatory regimes;
 - compliance with economic sanctions laws and other laws that apply to our activities in the countries where we operate;
 - less established legal and regulatory regimes in certain jurisdictions, including as relates to enforcement of anti-bribery and anti-corruption laws and the reliability of the judicial systems;

- differing degrees of protection for intellectual property;
- unexpected changes in foreign regulatory requirements, including quality standards and other certification requirements;
- new export license requirements;

- adverse changes in tariff and trade protection measures;
- differing labor regulations;
- potentially negative consequences from changes in or interpretations of tax laws;
- restrictive governmental actions;
- possible nationalization or expropriation;
- credit market uncertainty;
- restrictions on business activities and other challenges associated with pandemics, including the ongoing lingering COVID-19 pandemic; pandemic, epidemics, outbreaks of an infectious disease or similar events;
- differing local practices, customs and cultures, some of which may not align or comply with our Company practices and policies or U.S. or Canadian laws and regulations;
- difficulties with licensees, contract counterparties, or other commercial partners; and
- differing local product preferences and product requirements.

As a result of changes to U.S. trade policy, there may be changes to existing trade agreements and greater restrictions on trade generally. On For example, on November 30, 2018, the United States, Canada and Mexico signed the United States-Mexico-Canada Agreement ("USMCA") as an overhaul and update to the North American Free Trade Agreement. The USMCA was subsequently revised on December 10, 2019 and fully ratified on March 13, 2020.

Notwithstanding the USMCA, support for protectionism and rising anti-globalization sentiment in the United States and other countries may slow global growth. In particular, a protracted and wide-ranging trade conflict between the United States and China could adversely affect global economic growth. Concerns also remain around the social, political and economic impacts of the changing political landscape in Europe. In addition, there are growing concerns over an economic slowdown in emerging markets in light of capital outflows in favor of developed markets and expected interest rate increases. Broader geopolitical tensions remained remain high amongst the U.S., Russia, Ukraine, China, and across the Middle East. For example, in response to potential conflict between Russia and Ukraine, the U.S. and/or other countries in which we operate may impose sanctions or other restrictive actions against governmental or other entities in Russia.

Given the international scope of our operations, any of the above factors, including sanctions, export controls, tariffs, trade wars and other governmental actions, could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Similarly, adverse economic conditions impacting our customers in these countries or uncertainty about global economic conditions could cause purchases of our products to decline, which would adversely affect our revenues and operating results. In addition, accelerating rates of inflation may continue in the near future and have resulted, and may continue to result, in increased costs of labor, raw materials, other supplies and freight and distribution costs, among others. For the pharmaceutical industry and the healthcare systems in the markets in which we participate, the pricing dynamics of our products generally does not provide the opportunity to pass on such costs to customers. Inflation may also result in higher interest rates and increased costs of capital. Moreover, our projected revenues and operating results are based on assumptions concerning certain levels of customer spending. Any failure to attain our projected revenues and operating results as a result of adverse economic or market conditions could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Due to the large portion of our business conducted in currency other than U.S. dollars, we have significant foreign currency risk.

We face foreign currency exposure on the translation into U.S. dollars of the financial results of our operations in Europe, Canada, Latin America, Asia, Africa and the Middle East and other regions. Where possible, we manage foreign currency risk by managing same currency revenue in relation to same currency expenses. We may also use derivative financial instruments from time to time to mitigate our foreign currency risk and not for trading or speculative purposes. We face foreign currency exposure in those countries where we have revenue denominated in the local foreign currency and expenses denominated in other currencies. Both favorable and unfavorable foreign currency impacts to our foreign currency-denominated operating expenses are mitigated to a certain extent by the natural, opposite impact on our foreign currency-denominated revenue. In

addition, the repurchase of our U.S. dollar denominated debt may result in foreign exchange gains or losses for Canadian income tax purposes. One half of any foreign exchange gains or losses will be included in our Canadian taxable income. Any foreign exchange gain will result in a corresponding reduction in our available Canadian tax attributes. Further strengthening of the U.S. dollar and/or the devaluation of other countries' currencies could have a negative impact on our reported international revenue.

As a result of the ongoing conflict between Russia and Ukraine, the current and any future responses by the global community to such conflict and any counter responses by the Russian government or other entities or individuals, and the potential expansion of the conflict to other countries, we have begun to experience and may continue to experience an adverse impact on our business and operations in this region, as well as on our business and operations generally, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares to decline.

The ongoing military conflict between Ukraine and Russia has provoked strong reactions from the United States, the UK, the EU, Canada and various other countries around the world, including the imposition of export controls and broad financial and economic sanctions against Russia, Belarus and specific areas of Ukraine. Additional sanctions or other measures may be imposed by the global community, and counteractive measures may be taken by the Russian government, other entities in Russia or governments or other entities outside of Russia.

For 2023 and 2022, we derived approximately 2% of our revenues from sales of our products in Russia and less than 1% of our revenues from sales of our products in both Ukraine and Belarus. The conflict between Ukraine and Russia has begun to impact our business in the region, and we are continuously monitoring developments to assess any potential future impact that may arise. Given the nature of our products, we do not believe that the current sanctions and other measures imposed by the United States and other countries preclude us from conducting business in the region. However, we anticipate that the ongoing conflict in this region and the sanctions and other actions by the global community in response may continue to hinder our ability to conduct business with customers and vendors in this region. For example, we have experienced and may in the future experience disruption and delays in the supply of our products to our customers in Russia, Belarus and Ukraine. We have experienced and may in the future also experience decreased demand for our products in these countries as a result of the conflict and invasion. In addition, we may experience difficulties in collecting receivables from such customers. If we are hampered in our ability to conduct business with new or existing customers and vendors in this region, our business, and operations, including our revenues, profitability and cash flows, could be adversely impacted. Furthermore, if the sanctions and other retaliatory measures imposed by the global community change, we may be required to cease or suspend our operations in the region or, should the conflict worsen, we may voluntarily elect to do so. We cannot provide assurance that current sanctions or potential future changes in these sanctions or other measures will not have a material impact on our operations in Russia, Belarus and Ukraine. The disruption to, or suspension of, our business and operations in Russia, Belarus and Ukraine would adversely impact our business, financial condition, cash flows and results of operations in this region which may, in turn, materially adversely impact our overall business, financial condition, cash flows and results of operations, which impact could be material, and could cause the market value of our common shares to decline. Finally, we are also subject to risks if exchange controls were to be imposed that would limit the repatriation of profits from our operations in Russia. While we do not rely on profits or dividends from our Russian operations to fund our debt repayment or other business activities generally, as our operations from Russia primarily involve the sale of products purchased from our affiliates located outside of Russia, any exchange controls that would limit the purchase of or payment for products or goods from outside of Russia may have an adverse impact on our operations in Russia or the way we conduct business in Russia.

While the precise effects of the ongoing military conflict and sanctions on the Russian and global economies remain uncertain, they have already resulted in significant volatility in financial markets and depreciation of the Russian ruble and the Ukrainian hryvnia against the U.S. dollar, as well as in an increase in energy and commodity prices globally. Should the conflict continue or escalate, there may be various economic and security consequences including, but not limited to, supply shortages of different kinds, further increases in prices of commodities, including piped gas, oil and agricultural goods, reduced consumer purchasing power, significant disruptions in logistics infrastructure, telecommunications services and risks relating to the unavailability of information technology systems and infrastructure. The resulting impacts to the global economy, financial markets, inflation, interest rates and unemployment, among others, could adversely impact economic and financial conditions. Other potential consequences include, but are not limited to, growth in the number of popular uprisings in the region, increased political discontent, especially in the regions most affected by the conflict or economic sanctions, increase in cyberterrorism activities and attacks, displacement of persons to regions close to the areas of conflict and an increase in the number of refugees fleeing across Europe, among other unforeseen social and humanitarian effects.

In addition, as a result of the ongoing conflict between Russia and Ukraine, we may experience other risks, difficulties and challenges in the way we conduct our business and operations generally. For example, there may be an increased risk of cybersecurity attacks due to the current conflict between Russia and Ukraine, including cyber security attacks perpetrated by

Russia or others at its direction in response to economic sanctions and other actions taken against Russia as a result of its invasion of Ukraine. Any increase in such attacks on us or our third-party providers or other systems could adversely affect our network systems or other operations. In order to address the risks associated with cybersecurity attacks from the region (including state-sponsored cybersecurity attacks), we have taken action to consolidate network traffic from Russia and Belarus through a single point, which is

designed to allow us to more closely inspect that traffic. In addition, if required, this consolidation provides a single point to quickly and efficiently disconnect the region from our corporate network. At this time, to the best of our knowledge, we do not believe we have experienced any cyberattacks that are related to the conflict between Russia and Ukraine. Although we have taken steps to enhance our protections against such attacks, we may not be able to address these cybersecurity threats proactively or implement adequate preventative measures and there can be no assurance that we will promptly detect and address any such disruption or security breach, if at all. In addition, as a result of the risk of collectability of receivables from our customers in Russia, Belarus and Ukraine, we may be required to adjust our accounting practices relating to revenue recognition in this region, with the result that we may not be able to recognize revenue from these customers until collected. We may also suffer reputational harm as a result of our continued operations in Russia, which may adversely impact our sales and other businesses in other countries. Finally, we have one global clinical trial involving Russia, Ukraine and Belarus with patients enrolled. We continue to support the existing patients, but have no plans to enroll new patients at this time. Plans for any additional trials involving Russia, Ukraine and Belarus have been postponed.

The continuation of the conflict between Ukraine and Russia, any escalation of that conflict, and the financial and economic sanctions and import and/or export controls imposed on Russia by the U.S., the UK, the EU, Canada and others, and the above-mentioned adverse effect on our operations (both in this region and generally) and on the wider global economy and market conditions could, in turn, have a material adverse impact on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Our business, financial condition and results of operations could be adversely affected by disruptions in the global economy caused by the ongoing conflict between Israel and Hamas.

The global economy has been negatively impacted by the military conflict between Israel and Hamas. There could be an expansion of the countries involved, which could lead to significant detrimental effects to the global economy. Although we do not have significant customers or suppliers in the Middle East region, we do have customers and suppliers in surrounding regions which may be affected. Further escalation of the Israel and Hamas conflict and geopolitical tensions related to such military conflict, including increased trade barriers or restrictions on global trade, could result in, among other things, cyber attacks, supply disruptions, lower consumer demand, and changes to foreign exchange rates and financial markets, any of which may adversely affect our business, financial condition and results of operations. The effects of the ongoing conflict could heighten many of our known risks described in these "Risk Factors."

Risks Relating to Information Technology

We have become increasingly dependent on information technology systems and infrastructure and any breakdown, interruption, breach or other compromise of our or our third-party service providers' information technology systems could compromise sensitive information related to our business or prevent us from accessing critical information and subject us to liability or interrupt the operation of our business, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We are increasingly dependent upon our information technology systems and infrastructure, as well as those of third parties with whom we interact, and internal and public internet sites, data hosting and processing facilities, cloud-based services and hardware, social media sites and mobile technology, in connection with the conduct of our business.

We must constantly update our information technology systems and infrastructure and undertake investments in new information technology systems and infrastructure. However, we cannot provide assurance that the information technology systems and infrastructure on which we depend, including those of third parties, will continue to meet our current and future business needs or adequately safeguard our operations. Furthermore, modification, upgrade or replacement of such systems and infrastructure may be costly or out of our control.

Any failure to so modify, upgrade or replace such systems and infrastructure, any disruptions that occur during the process of such modification, upgrade or replacement and/or any breakdown, interruption or corruption of the information technology systems and infrastructure on which we rely could create system disruptions, shutdowns, delays in generating or the corruption of data and information or other disruptions that could result in negative financial, operational, business or reputational consequences for us.

The size and complexity of the information technology systems and infrastructure on which we rely makes such systems and infrastructure potentially vulnerable to internal or external inadvertent or intentional security breaches, including as a result

of private or state-sponsored cybercrimes, terrorism, war, malware, ransomware, human error, system malfunction, telecommunication and electrical failures, natural disaster, fire, misplaced or lost data, socially engineered breaches or other similar events.

In addition, during the normal course of our business operations, including through the use of information technology systems and infrastructure, we are involved in the collection, transmission, use, retention and other processing of sensitive, confidential, non-public or personal data and information in Canada, the United States and abroad.

Cyber-attacks are increasing in frequency, sophistication and intensity and are made by groups and individuals with a wide range of motives and expertise. Cyber-attacks could include the deployment of harmful malware, ransomware, denial-of-service attacks, worms, social engineering, improper modification of information, fraudulent "phishing" e-mails and other means to affect service reliability or threaten data confidentiality, integrity or availability. Techniques used in these attacks are often highly sophisticated, change frequently and may be difficult to detect for long periods of time.

We have established (i) physical, electronic and organizational measures intended to safeguard and secure our systems to prevent a compromise and (ii) policies and procedures designed to provide for the timely investigation of cybersecurity incidents and the timely disclosure of cybersecurity incidents consistent with our legal and contractual obligations. We also rely on commercially available systems, software, tools and monitoring to provide security for the processing, transmission and storage of digital information.

We and our suppliers, partners, customers and vendors have experienced, and may continue to experience cybersecurity incidents, although to our knowledge we have not experienced any material incident or interruption to date. While we attempt to take appropriate security and cybersecurity measures to protect our information technology systems and infrastructure (including any trade secrets, confidential or other sensitive information) and to prevent and detect breakdowns, unauthorized breaches and cyber-attacks, we cannot guarantee that such measures will be successful and that breakdowns and breaches of, or attacks on, our systems and data, or those of third parties upon which we rely, will be prevented. Such breakdowns and breaches of, or attacks on, our systems and infrastructure, or the public perception that we or any third party upon which we rely have suffered a cybersecurity incident or breakdown, may cause business interruption and could have a material adverse effect on our business, financial condition, cash flows and results of operations, damage our reputation with customers, employees and third parties with whom we do business and cause the market value of our common shares and/or debt securities to decline, and we may suffer financial damage or other loss, including fines or criminal penalties or may be subject to litigation, including potentially class action lawsuits because of lost or misappropriated information.

While we maintain insurance against some of these risks, this insurance may not be sufficient to cover the financial, legal, business or reputational losses that may result from a breakdown, breach, cyber-attack or other compromise of or interruption to our information technology systems and infrastructure or confidential and other sensitive information.

In addition, we provide confidential and other sensitive information to third parties when necessary to pursue our business objectives. While we obtain assurances that these third parties will protect this information and, where appropriate, monitor the protections employed by these third parties, there is a risk that the confidentiality of information held by third parties, including trade secrets and sensitive personal information, may be compromised, including as a result of cybersecurity breaches, breakdowns or other incidents. If personal information of our customers or employees is misappropriated, our reputation with our customers and employees may be injured, resulting in loss of business and/or morale. Any such incidents could require us to incur costs to remediate possible injury to our customers and employees, to further improve our protective measures or to pay fines or take other action with respect to litigation, judicial or regulatory actions arising out of such incidents, which may be significant. We also cannot ensure that any limitation of liability or indemnity provisions in our contracts, including with vendors and service providers, for a security lapse or breach or other security incident would be enforceable or adequate or would otherwise protect us from any liabilities or damages with respect to any particular claim.

Any of the foregoing could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Risks Relating to Specific Legislation and Regulations

We are subject to various laws and regulations, including "fraud and abuse" laws, anti-bribery laws, environmental laws and privacy and security laws, and a failure to comply with such laws and related regulations or prevail in any litigation related to noncompliance could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

Pharmaceutical and medical device companies have faced lawsuits and investigations pertaining to violations of health care "fraud and abuse" laws, such as the federal False Claims Act, the federal Anti-Kickback Statute ("AKS") and other state and federal laws and regulations. The AKS prohibits, among other things, knowingly and willfully offering, paying, soliciting

or receiving remuneration to induce or in return for purchasing, leasing, ordering or arranging for the purchase, lease or order of any health care item or service reimbursable under federally financed health care programs. This statute has been interpreted to apply to

arrangements between pharmaceutical or medical device manufacturers, on the one hand, and prescribers, purchasers, formulary managers and other health care related professionals, on the other hand. More generally, the federal False Claims Act, among other things, prohibits any person from knowingly presenting, or causing to be presented, a false claim for payment to the federal government. Pharmaceutical and medical device companies have been prosecuted or faced civil liability under these laws for a variety of alleged promotional and marketing activities, including engaging in off-label promotion that caused claims to be submitted for non-covered off-label uses. If we are in violation of any of these requirements or any such actions are instituted against us, and we are not successful in defending ourselves or asserting our rights, this could have a significant impact on our business, including the imposition of significant criminal and civil fines and penalties, exclusion from federal health care programs or other sanctions, including consent orders or corporate integrity agreements.

In addition, the U.S. Department of Health and Human Services Office of Inspector General recommends, and increasingly states require pharmaceutical companies to have comprehensive compliance programs. Moreover, the Physician Payment Sunshine Act enacted in 2010 imposes reporting and disclosure requirements on device and drug manufacturers for any "transfer of value" made or distributed to prescribers and other health care providers. Failure to submit this required information may result in significant civil monetary penalties. While we have developed corporate compliance programs based on what we believe to be current best practices, we cannot provide assurance that we or our employees or agents are or will be in compliance with all applicable federal, state or foreign regulations and laws. If we are in violation of any of these requirements or any such actions are instituted against us, and we are not successful in defending ourselves or asserting our rights, those actions could have a significant impact on our business, including the imposition of significant criminal and civil fines and penalties, exclusion from federal health care programs or other sanctions, including consent orders or corporate integrity agreements.

The U.S. FCPA, the Canadian Corruption of Foreign Public Officials Act and similar worldwide anti-bribery laws generally prohibit companies and their intermediaries from making improper payments to officials for the purpose of obtaining or retaining business. Our policies mandate compliance with these anti-bribery laws. We operate in many parts of the world that have experienced governmental corruption and in certain circumstances, strict compliance with anti-bribery laws may conflict with local customs and practices or may require us to interact with doctors and hospitals, some of which may be state controlled, in a manner that is different than in the U.S. and Canada. We cannot provide assurance that our internal control policies and procedures will protect us from reckless or criminal acts committed by our employees, consultants, distributors, third party contractors or agents. Violations of these laws, or allegations of such violations, could disrupt our business and result in criminal or civil penalties or remedial measures, any of which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We are also subject to various state, federal and international laws and regulations governing the collection, transmission, dissemination, use, privacy, confidentiality, security, retention, availability, integrity and other processing of health-related and other sensitive and personal information, including HIPAA. Many states in which we operate have laws that protect the privacy and security of sensitive and personal information, including health-related information. Certain state laws may be more stringent or broader in scope, or offer greater individual rights, with respect to sensitive and personal information than federal, international or other state laws, and such laws may differ from each other, which may complicate compliance efforts. For example, the California Consumer Privacy Act of 2018 ("CCPA") imposes stringent data privacy and security requirements and obligations with respect to the personal information of California residents and provides for civil penalties for violations, as well as a private right of action for certain data breaches that result in the loss of personal data that may increase the likelihood of, and risks associated with, data breach litigation. The effects on our business of the CCPA and other similar state laws are potentially significant. State laws are changing rapidly and there is discussion in Congress of a new federal data protection and privacy law to which we may be subject. For instance, the California Privacy Rights Act ("CPRA") which was passed in November 2020. When it takes 2020 and took effect in January 2023, it will maintain on January 1, 2023, maintains the core framework of the CCPA, while also making a number of substantive changes. Since these data security regimes are evolving, uncertain and complex, especially for a global business such as ours, we will need to update or enhance our compliance measures from time to time and these updates or enhancements will require further implementation costs. Any failure, or perceived failure, by us to comply with current and future regulatory or customer-driven privacy, data protection, and information security requirements, or to prevent or mitigate security breaches, cyberattacks, or improper access to, use of, or disclosure of data, or any security issues or cyber-attacks affecting our business, could result in significant liability, costs (including the costs of mitigation and recovery), a material loss of revenue resulting from the adverse impact on its reputation and brand, loss of proprietary information and data, disruption to its business and relationships, and diminished ability to retain or attract customers and business partners. Such events may result in governmental enforcement actions and prosecutions, private litigation, fines and penalties or adverse publicity, and could cause customers and business partners to lose trust in us, which could have an adverse effect on our reputation and business.

Internationally, laws and regulations in many jurisdictions apply broadly to the collection, transmission, dissemination, use, privacy, confidentiality, security, retention, availability, integrity and other processing of health-related and other sensitive and personal information. For example, the EU's General Data Protection Regulation ("GDPR"), and the UK's General Data Protection Regulation ("UK GDPR") together with national legislation, regulations and guidelines of the EU member states and the UK governing the processing of personal data, impose strict obligations and restrictions on the ability to collect, analyze, store, transfer and otherwise process personal data, including health data from clinical trials and adverse event reporting. The GDPR authorizes fines for certain violations of up to 4% of global annual revenue or €20 million, (or GBP 17.5 million under the UK GDPR), whichever is greater. European data protection authorities may interpret the GDPR and national laws differently and impose additional requirements, which contributes to the complexity of processing personal data in or from the EEA or the UK. Guidance on implementation and compliance practices is often updated or otherwise revised. These laws require data controllers to implement stringent operational requirements, including, for example, transparent and expanded disclosure to data subjects about how their personal data is collected and processed, grant rights for data subjects to access, delete or object to the processing of their data, mandatory data breach notification requirements (and in certain cases, affected individuals), set limitations on retention of information and outline significant documentary requirements to demonstrate compliance through policies, procedures, training and audits. The GDPR also provides that EU member states may introduce further conditions, including limitations, and make their own laws and regulations, further limiting the processing of 'special categories of personal data,' including personal data related to health, biometric data used for unique identification purposes and genetic information, which could limit our ability to collect, use and share EU data, and could cause our compliance costs to increase, ultimately having an adverse impact on our business, and harm our business and financial condition.

The withdrawal of the UK from the European Union ("Brexit") also has created uncertainty with regard to the regulation of data protection in the UK. Since January 1, 2021, when the transitional period following Brexit expired, we have been required to comply with the GDPR as well as the UK GDPR (combining the GDPR and the UK's Data Protection Act of 2018), which exposes us to two parallel regimes, each of which authorizes similar fines and may subject us to increased compliance risk based on differing, and potentially inconsistent or conflicting, interpretation and enforcement by regulators and authorities (particularly, if the laws are amended in the future in divergent ways). With respect to transfers of personal data from the EEA, on June 28, 2021, the European Commission issued an adequacy decision in respect of the UK's data protection framework, enabling data transfers from EU member states to the UK to continue without requiring organizations to put in place contractual or other measures in order to lawfully transfer personal data between the territories. While it is intended to last for at least four years, the European Commission may unilaterally revoke the adequacy decision at any point, and if this occurs, it could lead to additional costs and increase our overall risk exposure.

In addition, in China, the Personal Information Protection Law (the "PIPL") came into **force effect** in November 2021. The PIPL is the first national-level law comprehensively regulating issues in relation to personal information protection. The PIPL provides for very specific administrative requirements and security controls when transferring personal data outside the Peoples Republic of China. These transfer requirements **come came** into effect on March 1, 2023.

We are also subject to Canada's federal *Personal Information Protection and Electronic Documents Act* and substantially similar equivalents at the provincial level with respect to the collection, use and disclosure of personal information in Canada. Such federal and provincial legislation impose data privacy and security obligations on our processing of personal information of Canadian residents. The federal and Alberta legislation include mandatory data breach notification requirements. Canada's Anti-Spam Legislation ("CASL") also applies to the extent that we send commercial electronic messages from Canada or to electronic addresses in Canada. CASL contains prescriptive consent, form, content and unsubscribe mechanism requirements. Penalties for non-compliance with CASL are up to CAD \$10 million per violation. These laws and regulations may be interpreted and applied differently over time and from jurisdiction to jurisdiction, and it is possible they will be interpreted and applied in ways that will materially and adversely affect our business. The regulatory framework for data privacy, data security and data transfers worldwide is rapidly evolving and is likely to remain uncertain for the foreseeable future. Complying with all of these laws and regulations involves costs to our business, and failure to comply with these laws and regulations can result in the imposition of significant civil and criminal penalties, as well as litigation, all of which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline. For more information regarding applicable data privacy and security laws and regulations, see Item 1. "Business — Government Regulations" of this Form 10-K.

We are also subject to U.S. federal laws regarding reporting and payment obligations with respect to our participation in federal health care programs, including Medicare and Medicaid. Because our processes for calculating applicable government prices and the judgments involved in making these calculations involve subjective decisions and complex methodologies, these calculations are subject to risk of errors and differing interpretations. In addition, they are subject to review and challenge by the applicable governmental agencies, and it is possible that such reviews could result in changes that could have material adverse legal, regulatory, or economic consequences.

Legislative or regulatory reform of the health care system may affect our ability to sell our products profitably and could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

In the U.S. and certain foreign jurisdictions, there have been a number of legislative and regulatory proposals to change the health care system in ways that could impact our ability to sell our products profitably. The Patient Protection and Affordable Care Act, as amended by the Health Care Reform Act, may affect the operational results of companies in the pharmaceutical and medical device industries, including the Company and other health care related industries, by imposing on them additional costs. Effective January 1, 2010, the Health Care Reform Act increased the minimum Medicaid drug rebates for pharmaceutical companies, expanded the 340B drug discount program, and made changes to affect the Medicare Part D coverage gap, or “donut hole.” The law also revised the definition of “average manufacturer price” for reporting purposes, which may affect the amount of our Medicaid drug rebates to states. Beginning in 2011, the law imposed a significant annual fee on companies that manufacture or import branded prescription drug products. More recently, the Bipartisan Budget Act of 2018 amended the Patient Protection and Affordable Care Act, effective January 1, 2019, to close the donut hole in most Medicare drug plans. In addition, in April 2018, the Centers for Medicare & Medicaid Services published a final rule that gives states greater flexibility in setting benchmarks for insurers in the individual and small group marketplaces, which may have the effect of relaxing the essential health benefits required under the Patient Protection and Affordable Care Act for plans sold through such marketplaces.

Although efforts at replacing the Health Care Reform Act have stalled in Congress, there could still be changes to this legislation. We cannot predict what those changes will be or when they will take effect, and we could face additional risks arising from such changes. Because of this continued uncertainty, including the potential for further legal challenges or repeal of that legislation, we cannot quantify or predict with any certainty the likely impact of this legislation or its repeal on our business model, prospects, financial condition or results of operations, in particular on the pricing, coverage or reimbursement of any of our product candidates that may receive marketing approval. Additionally, policy efforts designed specifically to reduce patient out-of-pocket costs for medicines could result in new mandatory rebates and discounts or other pricing restrictions. Legislative efforts relating to drug pricing, the cost of prescription drugs under Medicare, the relationship between pricing and manufacturer patient programs, and government program reimbursement methodologies for drugs have been proposed and considered at the U.S. federal and state level. Congress and the administration have each indicated an intent to continue to seek new legislative or administrative measures to control drug costs such as the Inflation Reduction Act, which, among other things, enables the U.S. government to impose penalties if drug prices are increased at a rate faster than inflation. At the state level, legislatures have increasingly passed legislation and implemented regulations designed to control pharmaceutical product pricing, including price or patient reimbursement constraints, discounts, restrictions on certain product access and marketing cost disclosure and transparency measures, and, in some cases, designed to encourage importation from other countries and bulk purchasing. We also anticipate that Congress, state legislatures, and third-party payors may continue to review and assess alternative health care delivery and payment systems and may in the future propose and adopt legislation or

policy changes or implementations effecting additional fundamental changes in the health care delivery system. We cannot provide assurance as to the ultimate content, timing, or effect of changes, nor is it possible at this time to estimate the impact of any such potential legislation.

In 2019, the U.S. Department of Health and Human Services Administration (“HHS”) announced a preliminary plan to allow for the importation of certain lower-cost drugs, from Canada. The preliminary plan excludes excluding insulin, biological drugs, controlled substances and intravenous drugs, drugs, from Canada. The preliminary plan relies on individual states to develop proposals for safe importation of those drugs from Canada and submit those proposals to the federal government for approval. Although In 2020, HHS issued a final rule allowing states to submit importation proposals to the preliminary plan has some support FDA, which was reinforced in 2021 by an executive order from the current administration, at Biden Administration directing the FDA to work with the states to import prescription drugs from Canada. After a three-year effort by the state of Florida to gain approval to implement an importation plan, on January 5, 2024, the FDA authorized the state of Florida to import certain prescription drugs from Canada. Even with this FDA approval, Florida must meet additional requirements before the plan can be implemented, including the filing of a pre-import request for each drug they seek to import and quality testing. There may be additional barriers to implementation, such that the benefits may not be realized for some time studies and, even if they are, the reach and impact of Florida’s plan may be limited. It is unclear whether other states will follow Florida’s lead or what the impact of the FDA’s novel decision to allow a state to import prescription drugs from another country will be. Studies to evaluate the related costs and benefits, evaluate the reasonableness of the logistics, and measure the public reaction of such a plan have not been performed. We cannot provide assurance as to the ultimate content, timing, effect or impact of such a plan.

In 2019, the Government of Canada (Health Canada) published in the Canada Gazette the new pricing regulation for patented drugs. These regulations became effective on July 1, 2022. The new regulations, among other things, change the mechanics of

establishing the pricing for products submitted for approval after August 21, 2019 and the number and composition of reference countries used to determine if a drug's price is excessive. While we do not believe this will have a

significant impact on our future cash flows, as additional facts materialize, we cannot provide assurance as to the ultimate content, timing, effect or impact of such regulations.

The Health Care Reform Act and further changes to health care laws or regulatory framework that reduce our revenues or increase our costs could also have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We are subject to a broad range of environmental laws and regulations and may be subject to environmental remediation obligations under such safety and related laws and regulations. The impact of these obligations and the Company's ability to respond effectively to them may have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We are subject to a broad range of federal, state, provincial and local environmental laws and regulations concerning the environment, safety matters, regulation of chemicals and product safety in the countries where we manufacture and sell our products or otherwise operate our business. These requirements include, among other matters, regulation of the handling, manufacture, transportation, storage, use and disposal of materials, including the discharge of pollutants, hazardous substances and waste into the environment. Compliance with environmental, health and safety laws and regulations could require us to incur significant operating or capital expenditures or result in significant restrictions on our operations. If we fail to comply with these environmental, health and safety laws and regulations, including failing to obtain or comply with any necessary permits, we could incur substantial civil or criminal fines or penalties or enforcement actions, including regulatory or judicial orders enjoining or curtailing our operations or requiring us to conduct or fund remedial or corrective measures, install pollution control equipment, reformulate or cease the marketing of our products or perform other actions. In the normal course of our business, regulated substances and waste may be released into the environment, which could cause environmental or property damage or personal injuries, and which could subject us to remediation obligations regarding contaminated soil and groundwater, potential liability for damage claims or to social or reputational harm and other similar adverse impacts. Under certain laws, we may be subject to joint and several liability for environmental investigations and cleanups, including at properties that we currently or previously owned or operated, or at sites at which waste we generated was disposed, even if the contamination was not caused by us or was legal at the time it occurred.

We are subject to extensive and evolving regulations regarding the manufacturing, processing, distribution, importing, exporting and labeling of our products and their raw materials. In the EU, the REACH regulations came into effect in 2007, with implementation rolling out over time. Registered chemicals then can be subject to further evaluation and potential restrictions. Since the promulgation of REACH, other countries have enacted or are in the process of implementing similar comprehensive chemical regulations. These laws and regulations may materially affect our operations by subjecting our products or raw materials to testing or reporting requirements or restrictions, moratoria, phase outs or other limitations on their sale or use. In particular, some of our products might be characterized as nanomaterials and then be subject to evolving, new nanomaterial regulations.

In recent years, legislation and regulation related to environmental protection have become increasingly stringent. Such legislation and regulations are complex and constantly changing. On July 14, 2021, the European Commission adopted a set of proposals to ensure policies are aligned with the goal of reducing net greenhouse gas emissions by at least 55% by 2030 (the "EU Green Deal"). There is a growing focus on environmental impact of self-care products, their ingredients, components, packaging, manufacturing and disposal. This focus could lead to new requirements and restrictions in the coming years across all product categories. In particular, legislation and regulation relating to climate change, sustainability and product stewardship including greenhouse gas emissions, are at various stages of consideration and implementation. Future events, such as changes

in existing laws or regulations or the enforcement thereof or the discovery of contamination at our facilities may, among other things, require us to install additional controls for certain of our emission sources, undertake changes in our manufacturing processes, remediate soil or groundwater contamination at facilities where such cleanup is not currently required, take action to address social expectations or concerns from or relating to such changes and our response to such changes or adversely impact our suppliers. These impacts may be significant and could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

The consequences of climate change, such as extreme weather and water scarcity, could pose risks to our facilities and disruption of our activities.

Natural disasters and extreme weather events resulting from climate change, such as floods, heatwaves, blizzards, hurricanes, wildfires, the rise of sea level and water stress, could impact our business activities and our ability to deliver our products to customers. We evaluate these risks in our supply planning, loss prevention and business continuity planning. The implementation of an Environmental, Health and Safety Management System across our facilities has resulted in the development of processes to prepare and respond to a range of natural emergencies that may occur, including extreme weather

events. We have been placing increased attention on water management, implementing a scarcity-focused approach to water conservation to align with community needs and advance toward sustainable operations. If our planning and risk management regarding natural disasters and extreme weather events fail, our facilities could be impacted and our activities could be significantly disrupted.

Other Risks

We must maintain adequate internal controls and be able to provide an assertion as to the effectiveness of such controls on an annual basis.

Effective internal controls are necessary for us to provide reasonable assurance with respect to our financial reports. We spend a substantial amount of management and other employee time and resources to comply with laws, regulations and standards relating to corporate governance and public disclosure. In the U.S., such regulations include the Sarbanes-Oxley Act of 2002, SEC regulations and the NYSE listing standards, and in Canada, applicable securities laws. In particular, Section 404 of the Sarbanes-Oxley Act of 2002 requires management's annual review and evaluation of our internal control over financial reporting and attestation as to the effectiveness of these controls by our independent registered public accounting firm. If we fail to maintain the adequacy of our internal controls, we may not be able to ensure that we can conclude on an ongoing basis that we have effective internal control over financial reporting. Additionally, internal control over financial reporting may not prevent or detect misstatements because of its inherent limitations, including the possibility of human error, the circumvention or overriding of controls, or fraud. Therefore, even effective internal controls can provide only reasonable assurance with respect to the preparation and fair presentation of financial statements. In addition, projections of any evaluation of effectiveness of internal control over financial reporting to future periods are subject to the risk that the control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. If we fail to maintain the adequacy of our internal controls, including any failure to implement required new or improved controls, this could have a material adverse effect on our business, financial condition, results of operations, cash flows and/or stock price.

Our business and operations could be negatively affected by shareholder activism, which could cause us to incur significant expenses, hinder execution of our business strategy and impact our share price.

In recent years, shareholder activism involving corporate governance, fiduciary duties of directors and officers, strategic direction and operations has become increasingly prevalent. One of our investors, which currently owns approximately 9.59% 9.5% of our outstanding common shares, filed a Schedule 13D with the SEC in February 2021 (and subsequently amended), in which it was indicated that the investor intended to engage in discussions with our management and board regarding ways to enhance shareholder value, including our ongoing strategic review and that it may also seek board representation. We subsequently entered into a Director Appointment and Nomination Agreement with such investor, pursuant to which they have appointed two members to our Board of Directors. Another of our investors, which currently owns approximately 4.75% of our outstanding common shares, filed a Schedule 13D with the SEC in July 2020, in which it indicated that it intended to consider, explore and/or develop plans and/or make proposals respecting, among other things, our businesses, assets, operations, and strategy, and to explore ways to strengthen the Company and enhance shareholder value. In February 2021, this investor also sent the Company a public letter, in which it stated its views on the timing of the completion of the B+L Separation and recommended, among other things, the divestiture of certain of our businesses and assets.

In the event such investors continue to pursue such proposals or we become the subject of additional shareholder activism, this may create a significant distraction for our management and employees. This could negatively impact our ability

to execute our business plans (including the full B+L Separation) and may require our management to expend significant time, resources and costs, including legal fees and other expenses incurred in connection with any proxy contest that may result from any such shareholder activism. Furthermore, when individuals are elected to our Board with a specific agenda, it may adversely affect our

ability to effectively implement our business strategy and create additional value for our shareholders and could lead us to adopt other plans that we cannot predict and which could focus on short-term benefits with longer-term costs or that may not be in the best interests of the Company. Such shareholder activism may also create uncertainties with respect to our financial position and operations, may adversely affect our ability to attract and retain key employees and may result in loss of potential business opportunities with our current and potential customers and business partners, any of which could have a material adverse effect on our business, financial condition, cash flows and results of operations. In addition, such shareholder activism may cause significant fluctuations in our share price based on temporary or speculative market perceptions, uncertainties or other factors that do not necessarily reflect the underlying fundamentals and prospects of our business, and could cause the market value of our common shares to decline. While we will remain responsive to shareholder demands, there is no assurance that we will achieve their objectives, or that doing so will decrease the likelihood of activist shareholder engagement in the future.

We have significant goodwill and other intangible assets and potential impairment of goodwill and other intangibles may have a significant adverse impact on our profitability.

Goodwill and intangible assets represent a significant portion of our total assets. Finite-lived intangible assets are subject to an impairment analysis whenever events or changes in circumstances indicate the carrying amount of the asset may not be recoverable. Goodwill and indefinite-lived intangible assets are tested for impairment annually, or more frequently if events or

changes in circumstances indicate that the asset may be impaired. If impairment exists, we would be required to take an impairment charge with respect to the impaired asset.

For example, for 2023, 2022, 2021 and 2020, we recognized impairments to finite-lived and indefinite-lived intangible assets of \$15 million, \$54 million, \$146 million and \$15 million, respectively. These asset impairments were primarily attributable to revisions in sales forecasts associated with discontinuances, generic competition and other market forces. In addition to impairments to finite-lived and indefinite-lived intangible assets, for 2023, 2022 and 2021, we recognized \$493 million, \$824 million and \$469 million, respectively, in impairments to the goodwill of our Neurology and Other and Ortho Dermatologics reporting units and \$469 million in impairments to the goodwill of our Ortho Dermatologics reporting unit. These impairments to goodwill were primarily the result of revisions to our long-term forecasts as well as increases in market interest rates which resulted in higher discount rates used in the impairment analysis for the reporting units due to changing business dynamics and market conditions. There were no goodwill impairments for the year 2020.

The Company We conducted its annual goodwill impairment test as of October 1, 2023, which included performing separate quantitative fair value tests for the Neurology and Other International reporting unit, in the Generics reporting unit of the Diversified Products segment and the Vision Care, Surgical and Ophthalmic Pharmaceuticals reporting units of the Bausch + Lomb segment. For its remaining Our quantitative fair value testing resulted in an impairment of \$91 million to the goodwill of our Generics reporting units, no unit. No impairment to the goodwill of any other reporting unit was identified. identified as of October 1, 2023. If market conditions deteriorate, or if the Company is unable to execute its strategies, it may be necessary to record impairment charges in the future.

See Note 8, "INTANGIBLE ASSETS AND GOODWILL" to our audited Consolidated Financial Statements for further information on these impairment charges.

Events giving rise to impairment are difficult to predict, including the uncertainties associated with the launch of new products, and are an inherent risk in the pharmaceutical and medical device industries. As a result of the significance of goodwill and intangible assets, our financial condition and results of operations in a future period could be negatively impacted should such an impairment of goodwill or intangible assets occur, which could cause the market value of our common shares and/or debt securities to decline. We may be required to take additional impairment charges in the future and such impairment charges may be material.

The Company's ability to effectively monitor and respond to the rapid and ongoing developments and expectations relating to environmental, social and governance ("ESG") matters, including related social expectations and concerns, may impose unexpected costs on the Company or result in reputational or other harm to the Company that could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

There are rapid and ongoing developments and changing expectations relating to ESG matters and factors such as the impact of our operations on climate change, water and waste management, our practices relating to sustainability and product stewardship, product safety, access to health care and affordable drugs, management of business ethics and human capital development, which may result in increased regulatory, social, investor or other scrutiny on us. If we are not able to adequately recognize and respond to such developments and governmental, investor and social expectations, including expectations of

lenders, investors and other stakeholders relating to ESG matters, we may miss corporate opportunities for the Company, become subject to additional regulatory, social, investor or other scrutiny, incur unexpected costs or experience damage to the reputation of the Company or its various brands with governments, customers, employees, investors, third parties and the communities in which we operate, in each case that could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline.

We have various indemnity agreements and indemnity arrangements in place, which may result in an obligation to indemnify or reimburse the relevant counterparty, which amounts may be material.

All directors and/or officers of the Company, and each of its various subsidiary entities, are indemnified by the Company in respect of their service as directors and/or officers, subject to certain restrictions. We have also purchased directors' and officers' liability insurance to mitigate the cost of any potential future lawsuits or actions. The maximum amount of any potential future payment cannot be reasonably estimated but could have a material adverse effect on the Company.

In the normal course of business, we have entered or may enter into agreements that include indemnities in favor of third parties, such as purchase and sale agreements, license agreements, engagement letters with advisors and consultants and various product and service agreements. These indemnification arrangements may require us to compensate counterparties for losses incurred by the counterparties as a result of breaches in representations, covenants and warranties provided by us or as a result of litigation or other third-party claims or statutory sanctions that may be suffered by the counterparties as a consequence of the relevant transaction. In some instances, the terms of these indemnities are not explicitly defined. We, whenever possible, try to limit this potential liability within the particular agreement or contract, but due to the unpredictability of future events the maximum amount of any potential reimbursement cannot be reasonably estimated, but could have a material adverse effect on the Company.

General Risk Factors

Our operating results and financial condition may fluctuate.

Our operating results and financial condition may fluctuate from quarter to quarter for a number of reasons. In addition, our stock price can be volatile. The following events or occurrences, among others, could cause fluctuations in our financial performance and/or stock price from period to period:

- the impact of COVID-19;
 - development and launch of new competitive products;
 - the timing and receipt of FDA and other regulatory approvals or lack of approvals;
 - costs related to business development transactions;
 - changes in the amount we spend to promote our products;
 - delays between our expenditures to acquire new products, technologies or businesses and the generation of revenues from those acquired products, technologies or businesses;
 - changes in treatment practices of physicians that currently prescribe certain of our products;
 - increases in the cost of raw materials used to manufacture our products;
 - actions by the FDA or other regulatory agencies relating to our manufacturers or suppliers;
 - manufacturing and supply interruptions;
 - our responses to price competition;
 - new legislation that would control or regulate the prices of drugs;
 - a protracted and wide-ranging trade conflict between the United States and China;
 - expenditures as a result of legal actions (and settlements thereof), including the defense of our patents and other intellectual property;
 - market acceptance of our products;
 - the timing of wholesaler and distributor purchases and success of our wholesaler and distributor arrangements;
 - general economic and industry conditions, including potential fluctuations in interest rates;
- the impact of COVID-19;
- geo-political conditions, including armed conflicts and wars;
- changes in seasonality of demand for certain of our products;
- foreign currency exchange rate fluctuations;
- the timing, structure and terms of the B+L Separation;
- changes to, or the confidence in, our business strategy;
- changes to, or the confidence in, our management; and
- expectations for future growth.

As a result, quarter-to-quarter comparisons of results from operations, or any other similar period-to-period comparisons, may not be reliable indicators of our future performance. In any quarterly period, our results may be below the expectations of market analysts and investors, which could cause the market value of our common shares and/or debt securities to decline.

Item 1C. Cybersecurity

Risk Management and Strategy

We have established a set of policies and procedures to assess, identify, and manage material risks from cybersecurity threats, codified in the Bausch Health Cybersecurity Program (the "Program"). The purpose of the Program is to establish a comprehensive framework intended to identify, manage, and where possible mitigate risks; prevent or identify and manage security incidents; protect our information assets, systems, and networks from potential threats; and enable a prompt response and recovery from cyber-attacks.

The Program is based on the National Institute of Standards and Technology ("NIST") Cybersecurity Framework ("CSF"). The NIST CSF offers a framework for cybersecurity management, including asset identification, systems protection, threat detection, and incident response and recovery. In particular, our cybersecurity strategy, as set forth in the Program, uses NIST Special Publication 800-53, which covers the steps in the CSF that address security safeguards across five dimensions of information security (Identification, Protection, Detection, Response, and Recovery). The Program guides the execution of our cybersecurity responsibilities for our digital infrastructure, including network security, endpoint security, data protection, incident response, awareness and training, compliance, and risk management.

The policies and procedures established pursuant to the Program include:

- Risk Identification – Seeking to identify and manage cybersecurity risk to systems, assets, data, people, and capabilities using measures such as asset management and assessment of suppliers and third-party partners, including using audits and testing.
- Protection – Implementation of safeguards designed to ensure delivery of critical infrastructure services, including identity management and access control, security training, and use of protective technology.
- Detection – Detection of the occurrence of anomalies and cybersecurity events through monitoring and communication to appropriate personnel.
- Response – Establishing appropriate responses when cybersecurity events are detected, including through response planning and establishment of communications channels.
- Recovery – Seeking to ensure resilience and restore any capabilities or services that were impaired due to a cybersecurity incident, through recovery planning and other measures.

Pursuant to the Program, the Bausch Health Information Technology Security Department develops specific cybersecurity policies, procedures and guidelines. Key cybersecurity risk drivers, mitigation strategies, and key updates are incorporated as part of our ongoing Enterprise Risk Management processes. Our executive management team is responsible and accountable for the Program, cybersecurity risks generally, and ensuring that appropriate resources are allocated to addressing such risks, with Board-level oversight from the Audit and Risk Committee of the Board of Directors. We review and seek to improve the Program through assessments from external, independent third parties, who review documentation, conduct interviews with key stakeholders, assess security roadmap progression and maturity against industry benchmarks, report on our internal incident response preparedness and help identify areas for continued focus. We also have insurance coverage for potential losses arising from a cybersecurity incident and to provide professional services that mitigate potential business impacts during cybersecurity incidents.

Impact of cybersecurity risks on business strategy, results of operations or financial condition

As of the date of this Form 10-K, there have been no cybersecurity incidents that have materially affected, or are likely to materially affect the Company's business strategy, results of operations or financial condition. Please refer to "Risk Factors— Risks Relating to Information Technology—We have become increasingly dependent on information technology systems and infrastructure and any breakdown, interruption, breach or other compromise of our or our third-party service providers' information technology systems could compromise sensitive information related to our business or prevent us from accessing critical information and subject us to liability or interrupt the operation of our business, which could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline." under Item 1A. of this Form 10-K for additional description of cybersecurity risks and potential related impacts on our Company.

Governance

The Audit and Risk Committee of the Board, comprised fully of independent directors, is responsible for assisting the Board in oversight of risk, including cybersecurity risks. As part of that responsibility, the Audit and Risk Committee regularly reviews our enterprise risk assessment results, including the results of any cybersecurity risk assessments or audits, reports of investigations into any significant cybersecurity risks, and assessments of our insurance coverage for significant operational risks, including cybersecurity.

In addition, we have established a Global Cybersecurity Disclosure Committee, a senior-level, cross-functional governance committee comprised of representatives from our Information Technology, Compliance, Finance, and Legal departments, which is engaged during certain cybersecurity incidents to determine further response, escalation and reporting needs. The Global Cybersecurity Disclosure Committee meets quarterly to review information technology risk metrics and as needed in the event of a potentially material security incident, including at the discretion of Vice President of Information Security. The Global Cybersecurity Disclosure Committee is responsible for oversight of the implementation of appropriate remediation for security incidents where required, as well as determining whether to discuss any information security incidents with the Audit and Risk Committee of the Board of Directors and if external reporting is required under relevant laws, regulations or SEC rules. Members of our Global Cybersecurity Disclosure Committee have work experience managing cybersecurity and information security risks, an understanding of the cybersecurity threat landscape and/or knowledge of emerging cybersecurity and data privacy risks.

Item 2. Properties

We own and lease a number of important properties. Our headquarters and one of our manufacturing facilities are located in Laval, Quebec. We own several manufacturing facilities throughout the U.S. We also own or have an interest in manufacturing plants or other properties outside the U.S., including in Canada, Mexico, and certain countries in Europe, Asia and South America.

We consider our facilities to be in satisfactory condition and suitable for their intended use. Our administrative, marketing, research/laboratory, distribution and warehousing facilities are located in various parts of the world. We co-locate our R&D activities with our manufacturing at the plant level in a number of facilities. Our scientists, engineers, quality assurance/quality control professionals and manufacturing technicians work side-by-side in designing and manufacturing products that fit the needs and requirements of our customers, regulators and business units.

We believe that we have sufficient facilities to conduct our operations. Our facilities in aggregate are approximately 10 million square feet and include, among others, the following principal properties:

Bausch Health Location	Purpose	Owned or Leased	Approximate Square Footage
Laval, Quebec, Canada	Corporate headquarters, R&D, manufacturing and warehouse facility	Owned	338,000

(1) — A lease for a second building in Bridgewater, New Jersey was signed in 2015 and was not included in the square footage shown in the table above as the Company has never occupied the second building. In 2016, the Company concluded that it would not occupy the second building and recognized the appropriate charge for all future rents due, net of the anticipated sub-let income associated with the second building. In 2023, the Company decided to exercise an option to early terminate the lease period. As a result, the Company recognized an impairment to the right-of-use asset and a charge for the required termination payment.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market Information

Our common shares are traded on the New York Stock Exchange ("NYSE") and on the Toronto Stock Exchange ("TSX") under the symbol "BHC".

Market Price Volatility of Common Shares

Market prices for the securities of pharmaceutical, medical devices and biotechnology companies, including our securities, have historically been highly volatile, and the market has experienced significant price and volume fluctuations that are unrelated to the operating performance of particular companies. Factors such as fluctuations in our operating results, the aftermath of public announcements by us or by others about us, changes in our executive management, changes in our business strategy, concern as to the safety of drugs and medical devices, the commencement or outcome of legal or governmental proceedings, changes in our ability to access credit markets, changes in the cost of capital, investigations or inquiries, and general market conditions can have an adverse effect on the market price of our common shares and other securities. For example, during 2015 and 2016, we experienced significant fluctuations and decreases in the market price of our common shares as a result of, among other things, legal and governmental proceedings and investigations with respect to certain of our distribution, marketing, pricing, disclosure and accounting practices, rising interest rates and certain public allegations made by short sellers and other third parties relating to certain of these matters. See Item 1A. "Risk Factors" of this Form 10-K for additional information.

Holders

The approximate number of holders of record of our common shares as of February 17, 2023 February 16, 2024 was 1,800 1,790.

Dividends

No dividends were declared or paid in 2023, 2022 2021 or 2020. 2021. While our Board of Directors will review our dividend policy periodically, we currently do not intend to pay any cash dividends in the foreseeable future. In addition, our 2022 Amended Credit Agreement and indentures include restrictions on the payment of dividends. See Note 10, "FINANCING ARRANGEMENTS" to our audited Consolidated Financial Statements for further details regarding these restrictions.

Restrictions on Share Ownership by Non-Canadians

There are no limitations under the laws of Canada or in our organizational documents on the right of foreigners to hold or vote securities of our Company, except that the *Investment Canada Act (Canada)* (the "Investment Canada Act") may require review and approval by the Minister of Innovation, Science and Industry (Canada) (the "Minister") of an acquisition of "control" of our Company by a "non-Canadian"; as those terms are defined under the Investment Canada Act.

Investment Canada Act

An acquisition of control of a Canadian business by a non-Canadian is either reviewable (a "Reviewable Transaction"), in which case it is subject to both a reporting obligation and an approval process, or notifiable, in which case it is subject to only a reporting obligation. In the case of a Reviewable Transaction, the non-Canadian acquirer must submit an application for review with the prescribed information. The Minister is then required to determine whether the Reviewable Transaction is likely to be of net benefit to Canada, taking into account the assessment factors specified in the Investment Canada Act and any written undertakings that may have been given by the non-Canadian acquirer.

The Investment Canada Act also provides that any investment by a non-Canadian in a Canadian business, even where control has not been acquired, can be reviewed on grounds of whether it may be injurious to national security. Where an investment is determined to be injurious to national security, Cabinet the federal cabinet of the Canadian government ("Cabinet") can prohibit closing or, if closed, can order the investor to divest control. Short of a prohibition or divestment order, Cabinet can impose terms or conditions on the investment or can require the investor to provide binding undertakings to remove the national security concern.

Competition Act

Part IX of the *Competition Act (Canada)* (the "Competition Act") requires that a pre-merger notification filing be submitted to the Commissioner of Competition (the "Commissioner") in respect of certain classes of merger transactions that exceed certain prescribed share ownership and financial thresholds. If a proposed transaction exceeds such thresholds, subject to certain exceptions, the notification filing must be submitted to the Commissioner and the statutory waiting period must expire or be terminated early or waived by the Commissioner before the transaction can be completed.

All mergers, regardless of whether they are subject to Part IX of the Competition Act, are subject to the substantive mergers merger review provisions under Section 92 of the Competition Act. In particular, the Commissioner may challenge a transaction before the Competition Tribunal where the transaction prevents or lessens, or is likely to prevent or lessen, competition substantially in a market. The Commissioner may not make an application to the Competition Tribunal under Section 92 of the Competition Act more than one year after the merger has been substantially completed.

Exchange Controls

Canada has no system of exchange controls. There are no Canadian exchange restrictions on the repatriation of capital or earnings of a Canadian public company to non-resident investors. There are no Canadian exchange restrictions affecting the remittance of dividends, profits, interest, royalties and other payments to non-resident holders of our securities.

Taxation

Canadian Federal Income Taxation

The following discussion is a summary of the principal Canadian federal income tax considerations generally applicable to a holder of our common shares who, at all relevant

times, for purposes of the Income Tax Act (Canada) and the Income Tax Regulations (collectively, the "Canadian Tax Act") deals at arm's-length with, and is not affiliated with, our Company, beneficially owns its common shares as capital property, does not use or hold and is not deemed to use or hold such common shares in carrying on a business in Canada, does not with respect to common shares enter into a "derivative forward agreement" as defined in the Canadian Tax Act, and who, at all relevant times, for purposes of the application of the Canadian Tax Act and the Canada-U.S. Income Tax Convention (1980, as amended) (the "U.S. Treaty"), is resident in the U.S., is not, and is not deemed to be, resident in Canada and is eligible for benefits under the U.S. Treaty (a "U.S. Holder"). Special rules, which are not discussed in the summary, may apply to a non-resident holder that is an insurer that carries on an insurance business in Canada and elsewhere or that is an "authorized foreign bank" as defined in the Canadian Tax Act.

The U.S. Treaty includes limitation on benefits rules that restrict the ability of certain persons who are resident in the U.S. to claim any or all benefits under the U.S. Treaty. Furthermore, limited liability companies ("LLCs") that are not taxed as corporations pursuant to the provisions of the U.S. Internal Revenue Code of 1986, as amended do not generally qualify as resident in the U.S. for purposes of the U.S. Treaty. Under the U.S. Treaty, a resident of the U.S. who is a member of such an LLC and is otherwise eligible for benefits under the U.S. Treaty may generally be entitled to claim benefits under the

U.S. Treaty in respect of income, profits or gains derived through the LLC. Residents of the U.S. should consult their own tax advisors with respect to their eligibility for benefits under the U.S. Treaty, having regard to these rules.

This summary is based upon the current provisions of the U.S. Treaty and the Canadian Tax Act and our understanding of the current administrative policies and assessing practices of the Canada Revenue Agency published in writing prior to the date hereof. This summary takes into account all specific proposals to amend the U.S. Treaty and the Canadian Tax Act publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof. This summary does not otherwise take into account or anticipate changes in law or administrative policies and assessing practices, whether by judicial, regulatory, administrative or legislative decision or action, nor does it take into account provincial, territorial or foreign tax legislation or considerations, which may differ from those discussed herein.

This summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or tax advice generally or to any particular holder. Holders should consult their own tax advisors with respect to their own particular circumstances.

Gains on Disposition of Common Shares

In general, a U.S. Holder will not be subject to tax under the Canadian Tax Act on capital gains arising on the disposition of such holder's common shares unless the common shares are "taxable Canadian property" to the U.S. Holder and are not "treaty-protected property".

As long as the common shares are then listed on a "designated stock exchange", which currently includes the NYSE and TSX, the common shares generally will not constitute taxable Canadian property of a U.S. Holder, unless: (a) at any time during the 60-month period preceding the disposition, the U.S. Holder, persons not dealing at arm's length with such U.S. Holder or the U.S. Holder together with all such persons, owned 25% or more of the issued shares of any class or series of the capital stock of the Company and

(b) more than 50% of the fair market value of the common shares was derived, directly or indirectly, from any combination of: (i) real or immovable property situated in Canada, (ii) "Canadian resource property" (as such term is defined in the Canadian Tax Act), (iii) "timber resource property" (as such term is defined in the Canadian Tax Act) or (iv) options in respect of, or interests in, or for civil law rights in, any such properties whether or not the property exists or the common shares are otherwise deemed to be taxable Canadian property.

Common shares will be treaty-protected property where the U.S. Holder is exempt from income tax under the Canadian Tax Act on the disposition of common shares because of the U.S. Treaty. Common shares owned by a U.S. Holder will generally be treaty-protected property where the value of the common shares is not derived principally from real property situated in Canada, as defined in the U.S. Treaty.

Dividends on Common Shares

Dividends paid or credited on the common shares or deemed to be paid or credited on the common shares to a U.S. Holder that is the beneficial owner of such dividends will generally be subject to non-resident withholding tax under the Canadian Tax Act and the U.S. Treaty at the rate of: (a) 5% of the amounts paid or credited if the U.S. Holder is a company that owns (or is deemed to own) at least 10% of our voting stock or (b) 15% of the amounts paid or credited in all other cases. The rate of withholding under the Canadian Tax Act in respect of dividends paid to non-residents of Canada is 25% where no tax treaty applies.

OVERVIEW

Bausch Health Companies Inc. ("we", "us", "our", the "Company" or "Bausch Health") is a multinational, global, diversified specialty pharmaceutical and medical device company that develops, manufactures and markets, primarily in the therapeutic areas of

gastroenterology ("GI"), **hepatology, neurology** and dermatology, a broad range of branded, generic and branded generic pharmaceuticals, over-the-counter ("OTC") products and **aesthetic medical aesthetic** devices and, through its **majority approximately 88%** ownership of Bausch + Lomb Corporation ("Bausch + Lomb"), branded, and branded generic pharmaceuticals, OTC products and medical devices (contact lenses, intraocular lenses, ophthalmic surgical equipment) in the therapeutic area of eye health. The Company's products are marketed directly or indirectly in approximately **10090** countries.

We generated revenues for **2023, 2022 and 2021, of \$8,757 million, \$8,124 million and 2020, of \$8,124 million, \$8,434 million and \$8,027 million**, respectively. Our portfolio of products falls into five reportable segments: (i) Salix, (ii) International, (iii) Solta Medical, (iv) Diversified Products and (v) Bausch + Lomb. The following is a brief description of the Company's segments:

- **The Salix segment** consists of sales in the U.S. of GI products. Sales of the Xifaxan® product line represented approximately 80% of **the Salix segment's segment** revenues.
- **The International segment** consists of sales, with the exception of sales of Bausch + Lomb products and Solta **Medical aesthetic** medical devices, outside the U.S. and Puerto Rico of branded pharmaceutical products, branded generic pharmaceutical **products** and OTC products.
- The Solta Medical segment consists of global sales of Solta Medical ("**Solta**") aesthetic medical devices.
- **The Diversified Products segment** consists of sales in the U.S. of: (i) pharmaceutical products in the areas of neurology and certain other therapeutic classes, (ii) **generic dermatology** products, (iii) **Ortho Dermatologics (dermatological products) generic pharmaceutical products** and (iv) dentistry products.
- **The Bausch + Lomb segment** consists of global sales of Bausch + Lomb Vision Care, Surgical and **Ophthalmic** Pharmaceuticals products.

For additional discussion of our reportable segments, see the discussion in Item 1. "Business — Segment Information" and Note 22, "SEGMENT INFORMATION" to our audited Consolidated Financial Statements for further details on these reportable segments.

Separation of the Bausch + Lomb Eye Health Business

On August 6, 2020, we announced our plan to separate our eye health business consisting of our Bausch + Lomb **Global global** Vision Care, **(formerly Vision Care/Consumer Health), Global** Surgical and **Global Pharmaceuticals (formerly known as Ophthalmic Pharmaceuticals Pharmaceuticals)** businesses into an independent publicly traded entity, Bausch + Lomb, from the remainder of Bausch Health **Companies Inc.** (the "B+L Separation"). **During May 2022, On May 5, 2022, the registration statement related to the initial public offering of Bausch +Lomb (the "B+L IPO") was declared effective, and Bausch + Lomb's common stock began trading on the New York Stock Exchange and the Toronto Stock Exchange, in each case under the ticker symbol "BLCO" on May 6, 2022. Prior to the effectiveness of the registration statement, B+L was an indirect wholly-owned subsidiary of Bausch Health. On May 10, 2022, a wholly owned subsidiary of the Company (the "Selling Shareholder") Bausch Health sold 35,000,000 common shares of Bausch + Lomb pursuant to the initial public offering ("IPO") B+L IPO. Upon the closing of Bausch + Lomb (the "B+ the B+L IPO"). The underwriters partially exercised IPO and after giving effect to the subsequent partial exercise of the over-allotment option granted by the Selling Shareholder.**

The Company underwriters, **Bausch Health** indirectly holds 310,449,643 common shares of Bausch + Lomb, which represents approximately **89%88%** of **Bausch + Lomb's B+L's** outstanding common **shares. shares as of the date of this filing.**

We continue to believe that completing the separation of B+L, Separation which includes the transfer of all or a portion of our remaining direct or indirect equity interest in B+L to our shareholders, makes strategic sense. The completion of the B+L Separation is subject to the achievement of targeted debt leverage ratios and the receipt of applicable shareholder and other necessary approvals. We continue to evaluate all factors and considerations related to the B+L Separation, including the effect of the Norwich Legal Decision (see "Xifaxan® Paragraph IV Proceedings" of Note 20, "LEGAL PROCEEDINGS" to our audited Consolidated Financial Statements) on the B+L Separation.

The B+L Separation, if consummated, will result in two separate, independent companies:

- **Bausch Health excluding Bausch + Lomb** - a diversified pharmaceutical company with leading positions in gastroenterology, hepatology, dermatology, neurology and international pharmaceuticals, and aesthetic medical devices. The remaining pharmaceutical entity will comprise a diversified portfolio of our leading durable brands across the Salix, International, dentistry, neurology, medical dermatology, Solta Medical and generics, and aesthetic medical devices Diversified businesses; and
- **Bausch + Lomb** - a fully integrated "pure play" eye health company built on the iconic Bausch + Lomb brand and its long history of innovation.

We believe the B+L IPO was a large step in creating two attractive but dissimilar businesses. As independent entities, management believes that each company will be better positioned to individually focus on its core businesses to drive additional growth, more effectively allocate capital and better manage its respective capital needs. Further, the B+L Separation will allow us and the market to compare the operating results of each entity with other "pure play" peer companies. Although management believes the B+L Separation will unlock value, there can be no assurance that it will be successful in doing so.

See Item 1A. "Risk Factors — Risks Relating to the B+L Separation" of this Form 10-K for additional risks relating to the B+L Separation.

Our Focus on Value and Core Businesses

Since 2016, we have been executing We continue to execute on a multi-year plan designed to transform and bring out value in our Company, which includes focus on, among other factors, our: product portfolio, infrastructure, geographic footprint, capital structure and risk management. As discussed below, we have taken actions that among other things include: (i) divesting non-core assets, (ii) making strategic investments in our core businesses and (iii) making measurable progress in improving our capital structure. These measures gave us operating flexibility and put us in a strong position to unlock the additional value to be found in our specific businesses. We believe that these and other actions we have taken have helped to focus our operations and improve our capital structure. These actions also presented us with an opportunity to unlock potential value across our portfolio of assets by separating our pharmaceutical and eye health businesses. Although management believes the B+L Separation will bring out additional value, there can be no assurance that it will be successful in doing so.

Focus on Core Businesses

To position ourselves to unlock the value we see in our individual businesses, we have sought to right-size our portfolio of assets and provide financial flexibility. In line with this focus on our core businesses, we have: (i) made measurable progress in effectively managing our capital structure, including taking actions to reduce the principal balances of our long-term debt, (ii) directed capital allocation to drive growth within these core businesses, (iii) divested assets to improve our capital structure and simplify our business,

(iv) resolved certain of the Company's legacy litigation matters originating back to 2015 and prior, (v) increased our efforts to improve patient access and (vi) (v) continued to invest in sustainable growth drivers to position us for long-term growth.

We believe that these and other actions we have taken to transform our Company, have helped focus our operations, unlocked value across our product portfolios, improved our capital structure and mitigated certain risks associated with legacy litigation matters. We believe that these measures, along with our continued commitment to improving people's lives through our health products, help position us to unlock potential value across our portfolio of assets by separating our eye health and pharmaceutical businesses. Although management believes the B+L Separation will unlock additional value, there can be no assurance that it will be successful in doing so.

Effectively Managing Our Capital Structure

At the time of our announcement of the B+L Separation, we emphasized that it is important that the post-separation entities be well appropriately capitalized, with appropriate leverage and with access to additional capital, if and when needed, to provide each entity with the ability to independently allocate capital to areas that will strengthen their own competitive positions in their respective lines of business and position each entity for sustainable growth. Therefore, we see the appropriate capitalization and leverage of these businesses post-separation as a key to maximizing value across our portfolio of assets and, as such, it is a primary objective of our plan of separation. For additional details on the B+L Separation, see "Separation of the Bausch + Lomb Eye Health Business" in Note 2, "SIGNIFICANT ACCOUNTING POLICIES" to our audited Consolidated Financial Statements.

Repurchases and Retirement of Senior Unsecured Notes in 2024

During January 2024, through a series of transactions we repurchased and retired outstanding senior unsecured notes with an aggregate par value of \$250 million in the open market for approximately \$238 million using cash on hand.

Managing Our Capital Structure 2016 through 2021 in 2023

Since 2016, we have been executing B+L Term Loan B Facility and continue Senior Secured Notes

On September 29, 2023, Bausch + Lomb entered into a new term loan facility ("B+L September 2028 Term Loan B Facility") of \$500 million and issued new Senior Secured Notes ("B+L October 2028 Secured Notes") of \$1,400 million to execute on finance the \$1,750 million upfront payment related to the acquisition of XIIDRA® and certain other ophthalmology assets from Novartis and associated acquisition-related transaction and financing costs (as discussed in "-Strategic Acquisitions" below and Note 10, "FINANCING ARRANGEMENTS" to our plan audited Consolidated Financial Statements).

Accounts Receivable Credit Facility

On June 30, 2023, certain of our subsidiaries entered into a Credit and Security Agreement (the "AR Facility Agreement") with certain third-party lenders, providing for a non-recourse financing facility collateralized by certain accounts receivable originated by a wholly-owned subsidiary of the Company (the "AR Credit Facility"). The AR Facility Agreement provides for an up to improve \$600 million facility, subject to certain borrowing base tests. Under the AR Credit Facility, a special purpose entity (the "Borrower"), as the borrower, purchases accounts receivable originated by a wholly-owned subsidiary of the Company, which collateralize borrowings under the AR Credit Facility. The Borrower is a bankruptcy remote entity that is unrestricted under the Company's debt covenants, and which is consolidated by the Company.

Borrowings under the AR Credit Facility are in U.S. dollars and bear interest at a rate per annum equal to the sum of the one month term SOFR plus 6.65%. The Company is required to pay commitment fees of 0.75% multiplied by the lesser of: (i) the unfunded portion of the lenders' commitments or (ii) 50% of the total lenders' commitments.

As of December 31, 2023, there were \$350 million in outstanding borrowings under the AR Credit Facility.

Maturities and Mandatory Payments

Maturities and mandatory payments of our Company's capital structure. As a result of a series principal balances of debt repayments and transactions from 2016 through 2021, the Company had positioned itself to add value through the B+L Separation while at the same time providing for the appropriate capitalization and leverage obligations as of these businesses post-separation. December 31, 2023 were as follows:

Excluding the impact of the \$1,210 million financing of the U.S. Securities Litigation settlement (discussed in the subsequent section titled "LIQUIDITY AND CAPITAL RESOURCES"), we repaid (net of additional borrowings) approximately \$10,000 million of long-term debt during the period January 1, 2016 through December 31, 2021 using the net cash proceeds from divestitures of non-core assets and cash generated from operations.

(in millions)	2024	2025	2026	2027	2028	2029	Thereafter	Total
Total debt obligations	\$ 155	\$ 2,790	\$ 892	\$ 6,748	\$ 7,219	\$ 1,609	\$ 1,593	\$21,006

Managing Our Capital Structure in 2022

As discussed further below, during 2022, we improved our capital structure and reduced the aggregate principal amount of our debt obligations by approximately \$3,800 million, as we: (i) utilized the net proceeds from the B+L IPO which closed on May 10, 2022, to make repayments of debt, (ii) reduced our debt through open market repurchases of debt with a principal value of approximately \$927 million for approximately \$550 million, (iii) extended the maturities of our debt through refinancing and (iv) completed an exchange offer which reduced the outstanding principal balance of our debt by \$2,469 million by exchanging \$5,594 million of aggregate principal value of existing unsecured senior notes (the "Existing Unsecured Senior Notes") for newly issued secured notes with an aggregate principal balance of \$3,125 million (the "Exchange Offer").

The B+L IPO, 2022 Notes Issuance and Credit Agreement Refinancing - In connection with the B+L IPO, we completed a series of transactions in support of our commitment to improve our liquidity, reduce our leverage and better capitalize the two business entities post-separation. These transactions included:

- On February 10, 2022, the Company issued (the "2022 Notes Issuance") \$1,000 million aggregate principal amount of 6.125% Senior Secured Notes due February 2027 (the "February 2027 Secured Notes").
- On May 10, 2022:
 - The B+L IPO closed, with aggregate net proceeds (including from the partial exercise of the over-allotment option by the underwriters), after deducting underwriting commissions, of approximately \$675 million.
 - The Company entered into the 2022 Amended Credit Agreement as defined and discussed in further detail below, under "— Liquidity and Capital Resources — Liquidity and Debt — Long-term Debt". Note 10, "FINANCING ARRANGEMENTS" to our audited Consolidated Financial Statements. The 2022 Amended Credit Agreement consists of new term loans of \$2,500 million and a revolving credit facility of \$975 million.

- Bausch + Lomb entered into the B+L Credit Agreement, as defined and discussed in further detail below under "— Liquidity and Capital Resources — Liquidity and Debt — Long-term Debt". Note 10, "FINANCING ARRANGEMENTS" to our audited Consolidated Financial Statements. The

B+L Credit Agreement provides for a five-year term loan facility in an initial principal amount of \$2,500 million and also provides for a five-year revolving credit facility of \$500 million.

The net proceeds from these transactions, along with cash on hand, allowed us to: (i) repay certain amounts outstanding under our then existing June 2025 Term Loan B Facility and November 2025 Term Loan B Facility (each as defined and discussed in further detail below under “— Liquidity and Capital Resources — Liquidity and Debt — Long-term Debt”) Note 10, “FINANCING ARRANGEMENTS” to our audited Consolidated Financial Statements), (ii) replace our existing revolving credit facility which was due to mature in 2023, with revolving credit facilities that mature in 2027, (iii) redeem in full all of our then outstanding 6.125% Senior Unsecured Notes due 2025 (the “April 2025 Unsecured Notes”) and (iv) replace our then remaining amounts outstanding under our June 2025 Term Loan B Facility and November 2025 Term Loan B Facility with term loan facilities that were to expire in 2027.

Early Extinguishment of Debt - During June 2022 and December 2022, through a series of transactions we repurchased and retired outstanding senior unsecured notes with an aggregate par value of \$927 million \$927 million in the open market for approximately \$550 million \$550 million using: (i) the net proceeds from the partial exercise of the over-allotment option in the B+L IPO by the underwriters, after deducting underwriting commissions, (ii) amounts available under our revolving credit facility and (iii) cash on hand.

The (i) repayment of the June 2025 Term Loan B Facility, November 2025 Term Loan B Facility and 2023 Revolving Credit Facility and (ii) redemption of the April 2025 Senior Unsecured notes were accounted for as an extinguishment of debt and the Company incurred a loss on extinguishment of debt of \$63 million representing the difference between the amount paid to settle the extinguished debt and the extinguished debt's carrying value. As a result of these transactions we recognized and the open market repurchases, the Company realized a net gain on the early extinguishment of debt of approximately \$369 million, net of write-offs of debt premiums, discounts and deferred issuance costs, representing the differences between the amounts paid to retire the senior unsecured notes and their carrying value. \$113 million.

September 2022 Exchange Offer - As discussed in further detail below under “— Liquidity and Capital Resources — Liquidity and Debt — Long-term Debt”, we made the strategic decision based on the fair value of our Senior Unsecured Notes to undertake the Exchange Offer in September 2022. We exchanged certain validly tendered existing senior unsecured notes, with an aggregate outstanding principal balance of approximately \$5,594 million with maturities of 2025 through 2031 for newly issued senior secured notes, with an aggregate principal balance of approximately \$3,125 million with maturities of 2028 and 2030. After fees and expenses, the Exchange Offer reduced the principal balances of our outstanding debt obligations by \$2,469 million and extended the maturities of approximately \$2,400 million of principal balances coming due during the years 2025 through 2027 to the years 2028 and 2030. We also recorded a net gain

The secured notes issued in the Exchange Offer consist of: (i) \$1,774 million in aggregate principal amount of \$570 million as the future undiscounted cash flows of certain New new 11.00% First Lien Secured Notes (as defined due 2028 (the “11.00% First Lien Secured Notes”) issued by the Company, (ii) \$352 million in aggregate principal amount of new 14.00% Second Lien Secured Notes due 2030 (the “14.00% Second Lien Secured Notes”, and, together with the 11.00% First Lien Secured Notes, the “New BHC Secured Notes”) issued by the Company and (iii) \$999 million in aggregate principal amount of new 9.00% Senior Secured Notes due 2028 (the “9.00% Intermediate Holdco Secured Notes”, and, together with the New BHC Secured Notes, the “New Secured Notes”) issued by 1375209 B.C. Ltd. (“Intermediate Holdco”), an existing wholly-owned unrestricted subsidiary of the Company that held 38.5% of the issued and outstanding common shares of Bausch + Lomb as of December 31, 2023.

See Note 10, "FINANCING ARRANGEMENTS" to our audited Consolidated Financial Statements and "— Liquidity and Capital Resources — Liquidity and Debt — Long-term Debt") were less than the net carrying value below for additional discussion of the Existing Unsecured Senior Notes which were exchanged.

As a result of: (i) the 2022 Notes Issuance and Credit Agreement Refinancing (as defined below under "—Senior Secured Credit Facilities under the 2022 Amended Credit Agreement"), (ii) the early extinguishment of debt, (iii) the Exchange Offer and (iv) other these matters. Cash requirements for future debt repayments (net of additional borrowings under our Revolving Credit Facility) we reduced the principal balances of our contractual debt obligations including interest can be found in 2022 by approximately \$3,800 million. The contractual principal amount of our debt obligations as of December 31, 2022 "— Liquidity and 2021 were as follows:

These transactions also had the effect of reducing our cash debt service requirements over the next five years thereby providing us with additional flexibility as it relates to liquidity to operate. Prior to these transactions, our aggregate principal contractual debt repayment requirements through the year 2026 were approximately \$11,500 million. As a result of these transactions, as of December 31, 2022, we have reduced our aggregate principal contractual debt repayment requirements through the year 2026 to approximately \$4,000 million. Maturities of our principal balances of debt obligations as of December 31, 2022 and 2021, were as follows:

We believe these transactions improve our overall capitalization and leverage.

Continue to Manage our Capital Structure

We continue to monitor our capital structure and to evaluate other opportunities to simplify our business and improve our capital structure, giving us the ability to better focus on our core businesses. The Company regularly evaluates market conditions, its liquidity profile and various financing alternatives for opportunities to enhance its capital structure. If the Company determines that conditions are favorable, the Company may refinance or repurchase existing debt or issue additional debt, equity or equity-linked securities.

See Note 10, "FINANCING ARRANGEMENTS" to our audited Consolidated Financial Statements and Item "— Liquidity and Capital Resources — Liquidity and Debt — Long-term Debt" for further details and additional discussion regarding these matters. Cash requirements for future debt repayments including interest can be found in this Item "— Off-Balance Sheet Arrangements and Contractual Obligations."

Direct Capital Allocation to Drive Growth Within Our Core Businesses

Our capital allocation is also driven by our long-term growth strategies. We allocate resources to promote our core businesses globally through: (i) strategic acquisitions, (ii) R&D investment, (iii) strategic licensing agreements and (iv) strategic investments in our infrastructure. **The We believe that the** outcome of this process allows us to better drive value in our product portfolio and generate operational efficiencies.

R&D Investment

We search for new product opportunities through internal development and strategic licensing agreements, that, if successful, will allow us to leverage our commercial footprint, particularly our sales force, and supplement our existing product portfolio and address specific unmet needs in the market.

Our internal R&D organization focuses on the development of products through clinical trials. As of **December 31, 2022** **December 31, 2023**, approximately **1,300** **1,450**

dedicated R&D and quality assurance employees in 25 24 R&D facilities were involved in our R&D efforts internally.

Strategic Licensing Agreements

To supplement our internal R&D initiatives and to build-out and refresh our product portfolio, we also search for opportunities to augment our pipeline through arrangements that allow us to gain access to unique products and investigational treatments, by strategically aligning ourselves with other innovative product solutions.

In the normal course of business, the Company will enter into select licensing and collaborative agreements for the commercialization and/or development of unique products primarily in the U.S. and Canada. These products are sometimes investigational treatments in early stage development that target unique conditions. The ultimate outcome, including whether the product will be: (i) fully developed, (ii) approved by the FDA or other regulators, (iii) covered by third-party payors or (iv) profitable for distribution, is highly uncertain. Under certain agreements, the Company may be required to make payments contingent upon the achievement of specific developmental, regulatory, or commercial milestones.

Strategic Acquisitions

We remain very selective when considering any acquisition and pursue only those opportunities that we believe align well with our current organization and strategic plan. We sometimes refer to these opportunities as "bolt on" acquisitions. In being selective, we seek to enter into only those acquisitions that provide us with significant synergies with our existing business, thereby minimizing risks to our core businesses and providing long-term growth opportunities.

During November 2022, September 2023, Bausch + Lomb acquired Paragon BioTeck, Inc. XIIDRA®, an eye-care focused drug development company, having a primary emphasis the first and only non-steroid eye drop specifically approved to treat the signs and symptoms of dry eye disease focusing on the early detection of ocular diseases. This acquisition allows inflammation associated with dry eye, which Bausch + Lomb expects to maximize begin facing loss of exclusivity ("LOE") in the revenues second quarter of 2032, and margins associated certain other ophthalmology assets from Novartis Pharma AG and Novartis Finance Corporation (together with Paragon's products, Novartis Pharma AG, "Novartis") (the "XIIDRA Acquisition"). As part of the XIIDRA Acquisition, Bausch + Lomb also acquired libvatrep (also known as SAF312), an investigational compound being studied for which it had previously had commercialization rights, the treatment of chronic ocular surface pain, and AcuStream® technology, an investigational device that may have the potential to facilitate precise dosing and accurate delivery of certain topical ophthalmic medications to the eye, and OJL332, a noncompetitive antagonist (inhibitor) of TRPV1 that is still in the pre-clinical stage. Bausch + Lomb believes the XIIDRA Acquisition will complement and grow its existing dry eye franchise.

During December 2022, July 2023, Bausch + Lomb acquired Total Titanium Inc., an ophthalmic microsurgical instrument the Blink® OTC product line of eye and machined parts manufacturing company, contact lens drops from Johnson & Johnson Vision, which consists of Blink® Tears Lubricating Eye Drops, Blink® Tears Preservative Free Lubricating Eye Drops, Blink GelTears® Lubricating Eye Drops, Blink® Triple Care Lubricating Eye Drops, Blink Contacts® Lubricating Eye Drops, and Blink-N-Clean® Lens Drops (collectively, the "Blink® Product Line"). Bausch + Lomb believes that this acquisition is an

important step in continuing will enable it to expand the surgical portfolio as it provides the opportunity continue to increase grow its manufacturing capacity and more specifically bolster its position in the ophthalmic microsurgical instrumentation market, global OTC business.

During January 2023, Bausch + Lomb acquired AcuFocus, Inc. ("AcuFocus"), an ophthalmic medical device company that has delivered breakthrough small aperture intraocular technology to address the diverse unmet needs in eye care. The IC-8® Aphera™ IOL, which was approved by the FDA in July 2022 as the first and only small aperture non-toric EDOF IOL for certain cataract patients who have as much as 1.5 diopters of corneal astigmatism and wish to address presbyopia at the same time. Bausch + Lomb believes the IC-8® Aphera™ EDOF IOL will bolster its surgical portfolio by enhancing the IOL offerings, which is a strategic area of focus for the Company.

During December 2022, Bausch + Lomb acquired Total Titanium Inc., an ophthalmic microsurgical instrument and machined parts manufacturing company. Bausch + Lomb believes that this acquisition was an important step in continuing to expand the surgical portfolio as it provides the opportunity to increase its manufacturing capacity and more specifically bolster its position in the ophthalmic microsurgical instrumentation market.

During November 2022, Bausch + Lomb acquired Paragon BioTeck, Inc. ("Paragon BioTeck"), an eye-care focused drug development company, having a primary emphasis on the early detection of ocular diseases. This acquisition allows Bausch + Lomb to maximize the revenues and margins associated with Paragon BioTeck's products, for which it had previously had commercialization rights.

Divest Assets to Improve Our Capital Structure and Simplify Our Business

In order to better focus on our core businesses, we continue to evaluate opportunities to simplify our operations and improve our capital structure, including divesting non-core assets in order to narrow the Company's activities to our core businesses where we believe we have an existing and sustainable competitive edge and the ability to generate operational efficiencies. To date, we received approximately \$4,100 million in net proceeds from these divestitures, which includes the sale of Amoun Pharmaceutical Company S.A.E. ("Amoun") discussed below.

On July 26, 2021, we completed the sale of Amoun for total gross consideration of approximately \$740 million, subject to certain adjustments (the "Amoun Sale"). Amoun manufactures, markets and distributes branded generics of human and animal health products. The Amoun business was part of the International segment (previously included within the former Bausch + Lomb/International segment). Revenues associated with Amoun were \$157 million for the period of January 1, 2021 through July 26, 2021 and were \$247 million for the year 2020. Following the completion of the Amoun Sale, the Company made aggregate payments of \$600 million, to repay \$469 million of its June 2025 Term Loan B Facility and \$131 million of its November 2025 Term Loan B Facility, using the net proceeds from the Amoun Sale and cash on hand.

We will continue to consider further dispositions of various assets in line with this strategy. While we anticipate that any future divestiture activities will be on non-core assets, consistent with our duties to our shareholders and other stakeholders, we will consider dispositions in core areas that we believe represent attractive opportunities for the Company. See Note 3, "ACQUISITIONS, LICENSING AGREEMENTS AND DIVESTITURE" to our audited Consolidated Financial Statements for additional information.

Resolved Legacy Legal Matters

In 2020 and 2021, we resolved certain of the Company's legacy legal matters originating back to 2015 and prior, including settling the U.S. Securities Litigation (see "U.S. Securities Litigation - Opt -Out Litigation" of Note 20, "LEGAL PROCEEDINGS"). The Securities Class Action Settlement resolves the most significant of the Company's remaining legacy legal matters and eliminates a material uncertainty regarding the Company.

Improve Patient Access

Improving patient access to our products, as well as making them more affordable, is a key element of our business strategy.

Patient Access and Pricing Team - We formed the Patient Access and Pricing Team which is committed to maintaining patients' ability to access our branded prescription pharmaceutical products. All future pricing actions will be subject to review by the Patient Access and Pricing Team. Future pricing changes and programs could affect the average realized pricing for our products and may have a significant impact on our revenues and profits.

Bausch Health Patient Assistance Program - We are committed to supporting patients through our Patient Assistance Program which offers free medication for patients who meet income and other eligibility criteria. If approved, patients receive their Bausch Health Companies Inc. prescription product(s) at no cost to them for up to one year, and may be able to reapply to the program annually if they continue to meet eligibility requirements and have a valid prescription.

Cash-pay Prescription Program - The cash-pay program was conceived adopted to address the affordability and availability of certain branded dermatology products when insurers and pharmacy benefit managers are no longer offering those branded prescription pharmaceutical products under their designated pharmacy benefit offerings. This program is currently limited to a select group of our brands and offered through our unique telemedicine and fulfillment platform which allows for patients to choose direct delivery to their home or to use a pharmacy of their choice. This program is designed to connect patients with dermatologists and provide patients both a predictable customer experience and a predictable cost for their dermatology health care needs.

Walgreens Fulfillment Arrangements - In the beginning of 2016, we launched a Under our brand fulfillment arrangement with Walgreen Co. ("Walgreens"). Under the terms of the brand fulfillment arrangement, as amended in July 2019, we made certain dermatology and ophthalmology products available to eligible patients through patient access and co-pay assistance programs at Walgreens U.S. retail pharmacy locations, as well as participating independent retail pharmacies.

Invest in Sustainable Growth Drivers to Position us for Long-Term Growth

We are constantly challenged by the changing dynamics of our industry to innovate and bring new products to market. We have divested certain businesses where we saw limited growth opportunities, so that we can be more aggressive in redirecting our R&D spend and other corporate investments to innovate within our core businesses where we believe we can be most profitable and where we aim to be an industry leader.

We believe that we have a well-established product portfolio that is diversified within our core businesses and provides a sustainable revenue stream to fund our operations. However, our future success is also dependent upon our ability to continually

refresh our pipeline, to provide a rotation of product launches that meet new and changing demands and replace other products that have lost momentum. We believe we have a robust pipeline that not only provides for the next generation of our existing products but is also poised to bring new products to market.

Leveraging our Salix Infrastructure - We strongly believe in our GI product portfolio and we have implemented initiatives, including increasing our marketing presence and identifying additional opportunities outside our existing GI portfolio, investment in Xifaxan®, to further capitalize on the value of the infrastructure we have built around these products to extend our market share. We have increased our investment in Xifaxan

In the first quarter of 2017, we hired approximately 250 trained DTC advertising and experienced new sales force representatives capabilities. We also continue to invest in our product line. Our rifaximin SSD formulation, is under development for the prevention of OHE and other complications in patients with early decompensation in liver cirrhosis (RED-C). The drug candidate is administered orally, and is a next-generation rifaximin formulation that acts by targeting the beta-subunit of bacterial DNA-dependent RNA polymerase.

International - Our International product portfolio includes certain newly launched products like Ryaltris® for moderate to severe seasonal allergic rhinitis and sustain deep relationships with primary care physicians ("PCP"). With approximately 70% of IBS-D patients initially presenting symptoms to a PCP, Uceris® Foam, an aerosol foam for distal ulcerative colitis in Canada. We are also pursuing opportunities in the dermatology markets globally for products that address acne, atopic dermatitis, psoriasis and onychomycosis. To address these and other opportunities we continue to invest in the training and expansion of our sales and marketing teams.

Solta Medical - More than 70% of our Solta Medical business revenues has historically come from consumables, which we believe that results in a durable business model. We continue to invest in expanding our presence in key markets, including broadening the dedicated PCP reach of our DTC campaigns in the U.S., the expansion of Thermage® FLX which was approved by China's National Medical Products Administration as a medical device in January 2024 and the strengthening of our sales force is well positioned to reach more patients in need of IBS-D treatment, the U.S. and Europe.

Our sales force has been successful in delivering consistent growth in demand for our GI products, demonstrated by our growth in Salix revenues of 33% when comparing 2022 to 2017. **Diversified** - We continue to seek ways to bring out further value through leveraging in our existing sales force.

Investment in Our Solta Aesthetic Medical Device Business - Next generation Thermage FLX®, a fourth-generation non-invasive treatment option using a radio frequency platform designed to optimize key functional characteristics promoted and improve patient outcomes, has been on sale since 2017 nonpromoted products within our Diversified portfolios. In 2023, we increased our investments in the U.S., Hong Kong, Japan, Korea, Taiwan,

Philippines, Singapore, Indonesia, Malaysia, China, Thailand, Vietnam, Australia marketing and various parts advertising of Europe as part of our Solta aesthetic medical devices portfolio. We plan to continue to expand into other regions, paced by country-specific regulatory registrations. Consistent with our business strategy to continually update and improve our technology, in 2021, we launched, in the U.S., our next generation Clear + Brilliant Aplenzi[®] Touch system which is designed to deliver a customized and more comprehensive treatment protocol by providing patients of all ages and skin types as the benefits of two wavelengths. The launch of our next generation Clear + Brilliant[®] Touch system in the U.S. is expected to serve as a foundation only approved major depressive disorder product for future launches in Asia and Europe.

Reposition the Ortho Dermatologics Business to Generate Additional Value - Our Ortho Dermatologics business continues to work towards improving the treatment options for medical dermatology patients needing topical acne and psoriasis products. We continue to explore additional strategic e-commerce and partnership expansion opportunities which can enable increased accessibility for patients Seasonal Affective Disorder, and we continue to invest in also expanded our on-market products and evaluate various opportunities consumer awareness campaign for our key medical dermatology pipeline products.

The Ortho Dermatologics business is our medical dermatology business dedicated to the treatment of a range of therapeutic areas, including aesthetics, psoriasis, actinic keratosis, acne, atopic dermatitis, onychomycosis and other dermatoses. As part of our business strategy for the Ortho Dermatologics segment, we continue to look for investments to build out our product portfolios, where we see the greatest opportunities, with a focus on topical gel and lotion products over injectable biologics. We continue to support the use of injectable biologics; however, we believe some patients prefer topical products as an alternative to injectable biologics. Further, as topical products can, in many cases, defer the use of injectable biologics that often come with associated risk/benefit profiles, a topical product is usually readily adopted by payors, is less expensive and can be more cost-effective than injectable biologics. Therefore, we believe topical products represent alternative treatments for physicians, payors and patients, and as the preferred choice of treatment, have the potential to drive greater volumes, generate better margins and potentially be a key contributing factor of our Ortho Dermatologics business.

In support of the complete dermatology portfolio, we continue to take a number of actions that we believe will help our efforts to stabilize our dermatology business. These actions include: (i) building on our brands including Jublia[®], Duobrii[®], Bryhali[®], Arazlo[®], Altreno[®], and Retin-A[®] Micro 0.06%. Adding to improve and meet today's physician relevance and customer service, (ii) making key investments in our core dermatological products portfolios, (iii) optimizing our go to market strategy by building on our relationships with prescribers of our products to balance our sales portfolio with the business' profitability, (iv) refocusing our operational and promotional resources and (v) improving patient access to our Ortho Dermatologics products through our cash-pay prescription program previously discussed. In addition, in support of our established acne product portfolio, we also have a unique project launched CABTREO[™] Topical Gel in the U.S. in the first quarter of 2024. In our pipeline, IDP-126, which is an acne product with a fixed combination generics portfolio, we are focused on effectively managing this portfolio of benzoyl non-promoted products. In our Dentistry business, we are increasing our investments in Arestin

peroxide, clindamycin phosphate, direct to patient activation and adapalene. We filed an NDA for IDP-126 in December 2022, and if approved by the FDA, we believe this product will further innovate and advance the treatment of acne. awareness campaigns.

Business Trends

In addition to the actions previously outlined, the events described below have affected and may affect our business trends. The matters discussed in this section contain Forward-Looking Statements. Please see "Forward-Looking Statements" for additional information.

Russia-Ukraine War

In February 2022, Russia invaded Ukraine. As military activity and sanctions against Russia, Belarus and specific areas of Ukraine have continued, the war has increasingly affected economic and global financial markets and exacerbated ongoing economic challenges, including issues such as rising inflation and global supply-chain disruption.

Our revenues attributable to Russia, Ukraine and Belarus for 2022, 2021 and 2020, were as follows:

(in millions)	2022	2021	2020
Russia	\$ 181	\$ 160	\$ 137
Ukraine	7	16	19
Belarus	9	9	8

As the geopolitical situation in Eastern Europe continues to intensify, political events and sanctions are continually changing, and we continue to assess the impact that the Russia-Ukraine war has had and will have on our businesses. These impacts may include but are not limited to: (i) interruptions or stoppage of production, (ii) damage or loss of inventories, (iii) supply-chain and product distribution disruptions in Eastern Europe, (iv) volatility in commodity prices and currencies, (v) disruption in banking systems and capital markets, (vi) reductions in sales and earnings of business in affected areas, (vii) increased costs and (viii) cyberattacks.

To date, these challenges Our revenues attributable to Russia, Ukraine and Belarus for 2023, 2022 and 2021 were approximately 2% of our total revenues in each period. In addition, we do not have not yet had a material impact on our operations; however, any research or manufacturing facilities in Russia, Ukraine or Belarus. While we anticipate that the ongoing have been monitoring this conflict, in this region and the sanctions and other actions by the global community in response will continue to affect do so as this conflict continues to evolve, we are unable to predict the impact of this conflict on our ability business.

Israel-Hamas Conflict

The conflict between Israel and Hamas began during October 2023. Our revenues attributable to conduct business with customers Israel for 2023, 2022 and vendors in this region. For example, we expect to experience further disruption and delays in the supply 2021 were less than 1% of our products to our customers total revenues in Russia, Belarus each period. While we have been monitoring this conflict, and Ukraine. We may also experience further decreased demand for our products in these countries as a result of the conflict. In addition, we expect to experience difficulties in collecting receivables from such customers.

If we continue to be hampered in our ability to conduct business with new or existing customers and vendors in this region, our business, and operations, including our revenues, profitability and cash flows, could be adversely impacted. Furthermore, if the sanctions and other retaliatory measures imposed by the global community change, we may be required to cease or suspend our operations in the region or, should the conflict worsen, we may voluntarily elect to do so. We cannot provide assurance that current sanctions or potential future changes in these sanctions or other measures will not have a material impact on our operations in Russia, Belarus and Ukraine. The disruption to or suspension of our business and operations in Russia, Belarus and Ukraine may have a material adverse impact on our business, financial condition, cash flows and results of operations. We will continue to monitor do so as this conflict continues to evolve, we are unable to predict the impacts of the Russia-Ukraine war on macroeconomic conditions and continually assess the effect these matters may have this conflict on our businesses, business.

Impacts

For a further discussion of COVID-19 Pandemic

The unprecedented nature of the COVID-19 pandemic has, and continues to, adversely impact the global economy. The COVID-19 pandemic and the reactions of governments, private sector participants and the public in an effort to contain the spread of the COVID-19 virus and/or address its impacts have had significant direct and indirect effects on businesses and commerce. This includes, but is not limited to, disruption to supply chains, employee base and transactional activity, facility closures and production suspensions. We believe we responded quickly to these and other human and commercial challenges brought on by the COVID-19 pandemic and that our actions allowed us to: (i) maintain a reliable supply of our products, (ii) protect the health, safety and well-being of our employees, (iii) reduce operating expenses and preserve cash through profit protection measures initiated in response to the COVID-19 pandemic, (iv) limit the disruptions risks relating to our product development pipeline and (v) ensure affordability international business, see Item 1A. "Risk Factors" of and access to our products. We will continue to monitor this Form 10-K.

COVID-19 Update

During 2022, the impacts of the COVID-19 pandemic and related responses from governments and private sector participants on the Company, our customers, supply chain, third-party suppliers, project development timelines, costs, revenue, margins, liquidity and financial condition and our planned actions and responses to this pandemic.

The outbreak of the omicron variant in China in 2022 resulted in government enforced lockdowns and other social restrictions, which impacted our ability to conduct business as usual in certain regions in China, particularly Shanghai. The

lockdowns in China have impacted the demand for certain products, particularly our consumer, vision B+L's Vision care and our Solta Medical products, as shelter in place orders limit limited the demand and need for the use of contact lenses and related products as well as for aesthetic medical treatments. Our revenues in China for 2022 and 2021 were \$413 million and \$490 million, respectively, a decrease of \$77 million and, in part, reflects the impact of the surge of the omicron variant in China. During the third quarter of 2022, the impact on our revenues from the headwinds from China's COVID-19 policies and lockdowns that we saw during the first half of 2022 began to normalize and we began to see growth in volumes in this region. Additionally, government enforced lockdowns have caused certain businesses to suspend operations, creating distribution and other logistic issues for the distribution of our products and the sourcing for a limited number of raw materials. Through These lockdowns began to ease during the date fourth quarter of this filing, 2022. Our revenues in China for 2023 and 2022 were \$441 million and \$413 million, respectively, an increase of \$28 million. To date, we have dealt with these issues in China with only a minimal impact on our manufacturing and distribution processes. However, as the impacts of global reaction to the COVID-19 pandemic remains a fluid situation, processes and we continue to monitor the impacts impact of COVID-19 on all aspects of our businesses of the COVID-19 virus and variant and subvariant strains thereof in order to timely address new issues if and when they arise, business.

For a further discussion of these and other COVID-19 related risks, see Item 1A. "Risk Factors— Risks Relating to COVID-19" of this Form 10-K.

Inflation Reduction Act

In August 2022, the Inflation Reduction Act (the "IRA") was signed into law, which includes implementation of a new corporate alternative minimum tax ("CAMT"), among other provisions. The CAMT imposes a minimum tax on the adjusted financial statement income ("AFSI") for "applicable corporations" with average annual AFSI over a three-year period in excess of \$1 billion. A corporation that is a member of a foreign-parented multinational group, as defined, must include the AFSI (with certain modifications) of all members of the group in applying the \$1 billion test, but would only be subject to CAMT if the three-year average AFSI of its U.S. members, US trades or business of foreign group members that are not subsidiaries of U.S. members, and foreign subsidiaries of U.S. members exceeds \$100 million.

The IRA also made significant changes to how drugs are covered and paid for under the Medicare program, including imposing financial penalties if drug prices are increased at a rate faster than inflation, redesigning Medicare Part D benefits to shift a greater portion of the costs to manufacturers and allowing the U.S. government to set prices for certain drugs in Medicare. We continue to evaluate the impact of the IRA legislation on our results of operations and it is possible that these changes may result in a material impact on our business and results of operations.

Global Minimum Corporate Tax Rate

On October 8, 2021, the Organisation for Economic Co-operation and Development ("OECD") published a statement that outlined the key components of a two-pillar plan to address the tax challenges arising from the digitalisation of the economy. The statement was agreed by the OECD/G20

inclusive framework on Base Erosion and Profit Shifting (the "Inclusive Framework") published a statement updating and finalizing the key components of a two-pillar plan on global tax reform originally agreed on July 1, 2021, and which now includes 145 member jurisdictions. The timetable for implementation by 2023. The timetable of the two-pillar plan was initially proposed for implementation 2023, but has since been extended to 2024. The Inclusive Framework 2024 and, with respect to certain components of the plan, has now been agreed to by 141 OECD members, including several countries which did not agree to 2025. Under the initial plan. Under pillar one proposals, a portion of the residual profits of multinational businesses enterprise ("MNE") groups with global turnover above €20 billion and a profit margin above 10% will be allocated to market countries jurisdictions where such allocated profits would be taxed. Under pillar two the Inclusive Framework has agreed on proposals, a global minimum corporate tax rate of 15% for companies will apply to undertaxed profits of MNE groups with consolidated revenue above of at least €750 million, calculated on a country-by-country basis. On October 30, 2021 December 20, 2021, the G20 formally endorsed OECD released model rules on the new global minimum corporate tax rate under pillar two, followed by the OECD'S commentaries, examples, three sets of administrative guidance and certain other documents relating to the operation and application of the model rules. The On December 18, 2023, the OECD announced plans to release additional guidance on model rules and to start the peer review process in 2024. Many members of the Inclusive Framework agreement must now be implemented by have either introduced or announced their intention to introduce certain components of the OECD Members who have agreed to global minimum tax in line with the plan, effective in 2024. On December 13, 2022 model rules for fiscal year beginning on or after December 31, 2023. In particular, on December 15, 2022, the Council of the European Union member states unanimously ("EU") adopted the a directive to implement pillar two rules. According to require the directive, implementation of the member states are expected to enact pillar two rules into domestic law in 2023, by EU member states, with certain elements becoming effective for fiscal years beginning on or after December 31, 2023. On August 4, 2023, Canada released draft legislation to enact certain components of the pillar two proposals into Canadian law as the Global Minimum Tax Act ("GMTA"). The OECD has published GMTA is generally aligned with the model rules and other guidance with respect to pillar two, which are generally consistent with the agreement reached proposed by the Inclusive Framework in October 2021. OECD

and is expected to become effective for fiscal years beginning on or after December 31, 2023. The United States did not announce plans to enact the tax measures under the two-pillar plan. On February 1, 2023, the Inclusive Framework released a package of technical and administrative guidance on the implementation of pillar two, including the scope of companies that will be subject to the Global Anti-Base Erosion Rules, transition rules, and guidance on domestic minimum taxes that countries may choose to adopt, among other topics. We will continue to monitor the implementation of the Inclusive Framework agreement by the countries in which we operate. While we are unable to predict when and how the Inclusive Framework agreement will be enacted into law in these countries, it is possible that the implementation of the Inclusive Framework agreement, including the global minimum corporate tax rate, could have a material effect on our liability for corporate taxes and our consolidated effective tax rate. On February 1, 2023, the US, US Financial Accounting Standards Board indicated that they believe the minimum tax imposed under pillar two by other jurisdictions is an alternative minimum tax, and, accordingly, deferred tax assets and liabilities associated with the minimum tax would not be recognized or adjusted for the estimated future effects of the minimum tax but would be recognized in the period incurred. On April 19, 2021, the Canadian federal government delivered its 2021 budget which contained proposed measures related to limitations on interest deductibility and changes in relation to international taxation. Draft legislative proposals pertaining to interest deductibility were initially released for public comment on February 4, 2022, with revised legislative proposals subsequently released on November 3, 2022. The proposed rules on interest deductibility are expected to be effective no earlier than January 1, 2024. The proposed rules and their application are complex and could have a material adverse impact on our consolidated effective tax rate and financial results in future years if enacted as drafted.

We will continue to monitor the implementation of the Inclusive Framework agreement two-pillar plan by the countries in which we operate. Although we are unable operate, and to predict when and how consider the impact of these measures. Many

jurisdictions in which the Company operates have adopted the global minimum tax provision of the OECD pillar two effective for tax years beginning in January 2024. We currently do not expect the provisions of the Inclusive Framework, agreement will be enacted into law in these countries, as currently adopted, to have a material impact on our liability for corporate taxes or our consolidated tax rate. However, it is possible that the further implementation of the Inclusive Framework agreement, including the global minimum corporate tax rate, could have a material effect on our liability for corporate taxes and/or our consolidated effective tax rate. On February 1, 2023, the U.S. Financial Accounting Standards Board indicated that they believe the minimum tax imposed under pillar two is an alternative minimum tax, and, accordingly, deferred tax assets and liabilities associated with the minimum tax would not be recognized or adjusted for the estimated future effects of the minimum tax but would be recognized rate in the period incurred, future.

Health Care Reform

The U.S. federal and state governments continue to propose and pass legislation designed to regulate the health care industry. Many of these changes focus on health care cost containment, which result in pricing pressures relating to the sales and reimbursements of healthcare products. The Biden Administration and Congress continue to focus on health care cost containment which could result in legislative and regulatory changes.

In addition, we continue to face various proposed health care pricing changes and regulations from governments throughout the world in locations in which we operate our business. These proposed changes may also continue to result in pricing pressures relating to sales, promotions and reimbursement of our product portfolio.

We continually review newly enacted and proposed U.S. federal and state legislation, as well as proposed rule making and guidance published by the U.S. Department of Health and Human Services, the FDA, and applicable foreign governments in locations in which we operate; however, at this time, it is unclear the effect these matters may have on our businesses.

Generic Competition and Loss of Exclusivity

Certain of our products face the expiration of their patent or regulatory exclusivity in 2023 2024 or in later years, following which we anticipate generic competition of these products. In addition, in certain cases, as a result of negotiated

settlements of some of our patent infringement proceedings against generic competitors, we have granted licenses to such generic companies,

which will permit them to enter the market with their generic products prior to the expiration of our applicable patent or regulatory exclusivity. Finally, for certain of our products that lost patent or regulatory exclusivity in prior years, we anticipate that generic competitors may launch in 2023 2024 or in later years. Following a loss of exclusivity ("LOE") of and/or generic competition for a product, we would anticipate that product sales for such product would decrease significantly shortly following the LOE or entry of a generic competitor. Where we have the rights, we may elect to launch an authorized generic ("AG") of such product (either ourselves or through a third-party) prior to, upon or following generic entry, which may mitigate the anticipated decrease in product sales; however, even with launch of an authorized generic, the decline in product sales of such product would still be expected to be significant, and the effect on our future revenues could be material.

A number of our products already face generic competition. Prior to and during 2021, in the U.S., these products include, among others, Ammonul®, Apriso®, Benzaclin®, Bepreve®, Bupap®, Cuprimine®, Demser®, Edecrin®, Elidel®, Glumetza®, Istalol®, Isuprel®, Locoid® Lotion, Lotemax® Gel, Lotemax® Suspension, Mephyton®, Migranal®, MoviPrep®, Nitropress®, Solodyn®, Syprine®, Timoptic® in Ocudose®, Uceris® Tablet, Virazole®, Wellbutrin XL®, Xenazine®, Zegerid® and Zovirax® cream. In Canada, these products include, among others, Glumetza®, Wellbutrin® XL and Zovirax® ointment.

2022 LOE Branded Products - Branded products that began facing generic competition in the U.S. during 2022 included Lotemax® Gel, Bepreve®, Targretin® Gel and Clindagel®. We believe the entry into the market of generic competition generally would have an adverse impact on the volume and/or pricing of the affected products, however we are unable to predict the magnitude or timing of this impact.

2023 2024 through 2027 LOE Branded Products - Based on current patent expiration dates, settlement agreements and/or competitive information, we have identified

branded products that we believe could begin facing potential LOE and/or generic competition in the U.S. during the years 2023 through 2027. These products and year of expected LOE include, but are not limited to, Aplenzin® (2026), and Bryhali® (2026), Noritate® (2023), Onexton® (2023), Prolensa® (2023) and Xerese® (2023). These dates may change based on, among other things, successful challenge to our patents, settlement of existing or future patent litigation and at-risk generic launches. We believe the entry into the market of generic competition generally would have an adverse impact on the volume and/or pricing of the affected products, however we are unable to predict the magnitude or timing of this impact.

In addition, for a number of our products (including Xifaxan® 550 mg, Arazlo®, Colazal®, Duobrii®, Trulance®, and Lumify® in the U.S. and Jublia® in Canada U.S.), we have commenced (or anticipate commencing) and have (or may have) ongoing infringement proceedings against potential generic competitors in the U.S. and Canada. If we are not successful in these proceedings, we may face increased generic competition for these products.

See Note 20, "LEGAL PROCEEDINGS" to our audited Consolidated Financial Statements for further details regarding certain infringement proceedings.

The risks of generic competition are a fact of the health care industry and are not specific to our operations or product portfolio. These risks are not avoidable, but we believe they are manageable. To manage these risks, our leadership team continually evaluates the impact that generic competition may have on future profitability and operations. In addition to aggressively defending the Company's patents and other intellectual property, our leadership team makes operational and investment decisions regarding these products and businesses at risk, not the least of which are decisions regarding our pipeline. Our leadership team actively manages the Company's pipeline in order to identify innovative and realizable projects aligned with our core businesses that are expected to provide incremental and sustainable revenues and growth into the future. We believe that our current pipeline is strong enough to meet these objectives and provide future sources of revenues, in our core businesses, sufficient enough to sustain our growth and corporate health as other products in our established portfolio face generic competition and lose momentum.

We believe that we have a well-established product portfolio that is diversified within our core businesses. We also believe that we have a robust pipeline that not only provides for the next generation of our existing products, but also brings new solutions into the market.

See Item 1A. "Risk Factors" of this Form 10-K for additional information on our competition risks.

Financial Performance

Summary of 2023 Compared with 2022

Revenues for 2023 and 2022 were \$8,757 million and \$8,124 million, respectively, an increase of \$633 million, or 8%. The increase was primarily driven by growth in the Bausch + Lomb, Salix, International and Solta Medical segments driven by: (i) higher volumes, (ii) improved net pricing and (iii) incremental sales attributable to acquisitions, partially offset by: (i) the unfavorable impact of foreign currencies, primarily in Europe and Asia, (ii) lower revenues in our Diversified segment and (iii) the impact of divestitures and discontinuations. The changes in our segment revenues and segment profits are discussed in further detail in the subsequent section titled "Reportable Segment Revenues and Profits".

Operating income was \$963 million and \$454 million for 2023 and 2022, respectively, and included non-cash charges for Depreciation and amortization of intangible assets of \$1,264 million and \$1,394 million, Asset impairments of \$54 million and \$15 million, Goodwill impairments of \$493 million and \$824 million and Share-based compensation of \$132 million and \$126 million, respectively. The increase in our operating results of \$509 million reflects, among other factors:

- an increase in contribution (product sales revenue less cost of goods sold, exclusive of amortization and impairments of intangible assets) of \$435 million and was primarily driven by the increase in revenues as discussed above;
- an increase in Selling, general, and administrative expenses of \$292 million, primarily attributable to higher compensation and higher selling, advertising and promotion expenses, including for XIIDRA, and certain administrative expenses;
- an increase in R&D of \$75 million primarily attributable to higher spend on certain Salix projects;
- a decrease in Amortization of intangible assets of \$138 million primarily attributable to fully amortized intangible assets no longer being amortized in 2023;
- a decrease in Goodwill impairments of \$331 million. In 2023, we recognized impairments aggregating \$493 million to the goodwill of our Dermatology, Neurology and Generics reporting units, while in 2022, we recognized impairments aggregating \$824 million to the goodwill of our Dermatology and Neurology businesses;
- an increase in Asset impairments of \$39 million, primarily attributable to the launch of a generic competitor to our Uceris® Foam product in 2023; and
- a favorable change in Other expense, net of \$7 million, primarily attributable to insurance recoveries in 2023, partially offset by: (i) adjustments to reflect changes in estimates of the liability for Acquisition-related contingent consideration and (ii) Acquisition related transaction costs incurred in 2023.

Loss before income taxes for 2023 and 2022 was \$390 million and \$129 million, respectively, an increase in our loss of \$261 million. This increase is primarily attributable to: (i) a decrease in Gain on extinguishment of debt of \$874 million and (ii) the unfavorable net change in Foreign exchange and other of \$44

million, partially offset by: (i) the increase in our operating results of \$509 million, as previously discussed, (ii) a decrease in Interest expense of \$136 million and (iii) an increase in Interest income of \$12 million. The decrease in interest expense is primarily due to the impact of the accounting treatment for a portion of interest payments on the New Secured Notes, which reduced reported interest expense by \$282 million relative to contractual interest cost. See Note 10, "FINANCING ARRANGEMENTS" to our audited Consolidated Financial Statements

and the section below titled "LIQUIDITY AND CAPITAL RESOURCES - Liquidity and Debt" for further details on the accounting for the Exchange Offer.

Net loss attributable to Bausch Health for 2023 and 2022 was \$592 million and \$225 million, respectively, an increase of \$367 million. The increase was primarily due to the increase in our Loss before income taxes of \$261 million, as previously discussed, and the unfavorable change in our provision for income taxes of \$138 million, partially offset by increase in Net loss (income) attributable to noncontrolling interest of \$32 million.

Summary of 2022 Compared with 2021

Revenues for 2022 and 2021 were \$8,124 million and \$8,434 million, respectively, a decrease of \$310 million, or 4%. The decrease was primarily driven by: (i) the unfavorable impact of foreign currencies, (ii) the impact of our divestiture of Amoun on July 26, 2021 and (iii) a decrease in volumes primarily attributable to our Diversified Products and Salix segments partially offset by the increase in volumes in our Bausch + Lomb and International segments. These decreases were partially offset by an increase in net realized pricing, primarily in our Salix, Bausch + Lomb and International segments. The changes in our segment revenues and segment profits are discussed in further detail in the subsequent section titled "Reportable Segment Revenues and Profits".

Operating income was \$454 million and \$450 million for 2022 and 2021, respectively, and includes non-cash charges for Depreciation and amortization of intangible assets of \$1,394 million and \$1,552 million, Asset impairments, including loss on assets held for sale of \$15 million and \$234 million, Goodwill impairments of \$824 million and \$469 million and Share-based compensation of \$126 million and \$128 million for 2022 and 2021, respectively. The increase in our operating results of \$4 million which reflects, among other factors:

- a decrease in contribution (product sales revenue less cost of goods sold, exclusive of amortization and impairments of intangible assets) of \$271 million. The decrease was primarily driven by: (i) the unfavorable impact of foreign currencies, (ii) the impact of our divestiture of Amoun on July 26, 2021 and (iii) the decrease in volumes, as previously discussed, partially offset by the increase in net realized pricing;
- an increase in Selling, general, and administrative ("SG&A") expenses of \$1 million;
- an increase in R&D of \$64 million primarily attributable to lower R&D spend in 2021, as certain R&D activities and clinical trials which were suspended in response to the

COVID-19 pandemic and did not normalize until later in 2021;

- a decrease in Amortization of intangible assets of \$160 million primarily attributable to fully amortized intangible assets no longer being amortized in 2022;
- an increase in Goodwill impairments of \$355 million as we recognized impairments of \$824 million and \$469 million for 2022 and 2021, respectively, associated with our Neurology and Other and Ortho Dermatologics Dermatology reporting units;
- a decrease in Asset impairments, including loss on assets held for sale of \$219 million, primarily attributable to adjustments to the loss on assets held for sale in connection with the Amoun Sale during 2021; and
- a favorable change in Other expense, net of \$338 million, primarily attributable: (i) to higher adjustments related to the settlements of certain litigation matters during 2021 and (ii) the loss on the completion of the Amoun Sale 2021, partially offset by insurance recoveries related to certain litigation matters.

Operating income was \$454 million and \$450 million for 2022 and 2021, respectively, and includes non-cash charges for Depreciation and amortization of intangible assets of \$1,394 million and \$1,552 million, Asset impairments, including loss on assets held for sale of \$15 million and \$234 million, Goodwill impairments of \$824 million and \$469 million and Share-based compensation of \$126 million and \$128 million for 2022 and 2021, respectively.

Our Loss before income taxes for 2022 and 2021 was \$129 million and \$1,024 million, respectively, a decrease in our loss of \$895 million. This was primarily attributable to: (i) the favorable change in Gain (loss) on extinguishment of debt of \$937 million primarily driven by the Exchange Offer and open market repurchases of senior notes and (ii) the increase in our

operating results of \$4 million, partially offset by: (i) an increase in Interest expense of \$38 million and (ii) an unfavorable net change in Foreign exchange and other of \$15 million.

Net loss attributable to Bausch Health for 2022 and 2021 was \$225 million and \$948 million, respectively, a decrease in our loss of \$723 million. This was primarily due to the decrease in our Loss before income taxes of \$895 million, as previously discussed, partially offset by the unfavorable change in our provision for income taxes of \$170 million.

Summary of 2021 Compared with 2020

Revenues for 2021 and 2020 were \$8,434 million and \$8,027 million, respectively, an increase of \$407 million, or 5%. The increase was primarily driven by: (i) a net increase in volumes and (ii) the favorable impact of foreign currencies, primarily in Europe, Asia and Canada. These increases were partially offset by: (i) our divestiture of Amoun on July 26, 2021 and (ii) a decrease in net realized pricing. The net increase in volumes was primarily due to the positive impacts from the recovery from the COVID-19 pandemic and the easing of certain social restrictions, as previously discussed.

primarily during the three months ended June 30, 2021, partially offset by the impact of the loss of exclusivity of certain products. The changes in our segment revenues and segment profits are discussed in further detail in the subsequent section titled "Reportable Segment Revenues and Profits".

Operating income was \$450 million and \$676 million for 2021 and 2020, respectively, a decrease in our operating results of \$226 million which reflects, among other factors:

- an increase in contribution (product sales revenue less cost of goods sold, exclusive of amortization and impairments of intangible assets) of \$259 million. The increase was primarily driven by: (i) the increase in volumes, as previously discussed, and (ii) the favorable impact of foreign currencies, partially offset by: (i) the impact of our divestiture of Amoun on July 26, 2021 and (ii) the decrease in net realized pricing;
- an increase in SG&A expenses of \$257 million, primarily attributable to: (i) the impacts of the non-recurrence of certain profit protection measures taken in 2020 to manage and reduce operating expenses during the COVID-19 pandemic, as previously discussed, (ii) Separation-related and IPO-related costs incurred in 2021 and (iii) the impact of foreign currencies;
- an increase in R&D of \$13 million primarily attributable to the non-recurrence of the temporary suspension in certain R&D activities and clinical trials in 2020, partially offset by a rebalancing of our portfolio within the Ortho Dermatologics business;
- a decrease in Amortization of intangible assets of \$270 million primarily attributable to fully amortized intangible assets no longer being amortized in 2021;
- Goodwill impairments of \$469 million related to the impairment to the goodwill of the Ortho Dermatologics reporting unit during the three months ended March 31, 2021 as a result of revised forecasts due to: (i) certain products that continued to experience longer launch cycles than originally anticipated, in part due to COVID-19 pandemic factors, and (ii) other changes to its product pipeline;
- an increase in Asset impairments, including loss on assets held for sale of \$120 million, primarily attributable to: (i) higher impairments to certain products and (ii) additional losses during 2021 related to assets classified as held for sale; and
- a decrease in Other expense, net of \$129 million, primarily attributable: (i) higher insurance recoveries related to certain litigation matters in 2021 as compared to 2020 and (ii) decreases in charges for Acquisition-related contingent consideration and Acquired in-process research and development costs.

Operating income was \$450 million and \$676 million for 2021 and 2020, respectively, and includes non-cash charges for Depreciation and amortization of intangible assets of \$1,552 million and \$1,825 million, Asset impairments, including loss on assets held for sale of \$234 million and \$114 million, Goodwill impairments of \$469 million and \$0 and Share-based compensation of \$128 million and \$105 million for 2021 and 2020, respectively.

Our Loss before income taxes for 2021 and 2020 was \$1,024 million and \$934 million, respectively, an increase in our Loss before income taxes of \$90 million. The increase in our Loss before income taxes is primarily attributable to the decrease in our operating results of \$226 million, as previously discussed, partially offset by: (i) a decrease in Interest expense of \$108 million and (ii) the favorable net change in Foreign exchange and other of \$37 million.

Net loss attributable to Bausch Health Companies Inc. for 2021 and 2020 was \$948 million and \$560 million, respectively, an increase in our loss of \$388 million. This was primarily due to: (i) a decrease in the Benefit from income taxes

of \$288 million, primarily attributable to the release of a portion of our valuation allowance against deferred tax assets in 2020 and (ii) the increase in Loss before income taxes of \$90 million, as previously discussed.

A detailed discussion of the year-over-year changes of the Company's 2021 2022 results compared with that of 2020 2021 can be found under "Management's Discussion and Analysis of Financial Condition and Results of Operations with Retrospective Segment Changes of Operations" in our Annual Report on Form 10-K for the 2021 Form 10-K" in Exhibit 99.1 of our Form 8-K year ended December 31, 2022 filed on May 10, 2022 February 23, 2023.

2022 2023 Compared with 2021 2022

Revenues

The Company's revenues are primarily generated from product sales, principally in the therapeutic areas of GI, neurology, dermatology and eye health, that consist of: (i) branded pharmaceuticals, (ii) generic and branded generic pharmaceuticals, (iii) OTC products and (iv) medical devices (contact lenses, intraocular lenses, ophthalmic surgical equipment and aesthetic medical devices). Other revenues include alliance and service revenue from the licensing and co-promotion of products and contract service revenue primarily in the areas of dermatology and topical medication. Contract service revenue is derived primarily from contract manufacturing for third parties and is not material. See Note 22, "SEGMENT INFORMATION" to our audited Consolidated Financial Statements for the disaggregation of revenues which depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by the economic factors of each category of customer contracts.

Our revenues were \$8,757 million and \$8,124 million for 2023 and \$8,434 million for 2022, and 2021, respectively, a decrease an increase of \$310 million \$633 million, or 4% 8%. The decrease increase was due to: (i) an increase in volumes of \$335 million, in our Bausch + Lomb, Salix, Solta Medical and International segments partially offset by lower volumes in our Diversified segment, (ii) improved net pricing of \$224 million across all our segments and (iii) incremental sales attributable to acquisitions of \$141 million, partially offset by: (i) the

unfavorable impact of foreign currencies of \$264 million \$45 million primarily in Europe and Asia and (ii) the impact of divestitures and discontinuations of \$178 million, primarily attributable to our divestiture of Amoun on July 26, 2021 and (iii) a decrease in volumes of \$88 million primarily in our Diversified, Salix and Solta segments partially offset by an increase in volumes in our Bausch + Lomb and International segments. These decreases were partially offset by an increase in net realized pricing of \$220 million, primarily in our Salix, Bausch + Lomb and International segments. \$22 million.

The changes in our segment revenues and segment profits including the impacts of COVID-19 pandemic related matters, are discussed in further detail in the respective subsequent section " — Reportable Segment Revenues and Profits".

Cash Discounts and Allowances, Chargebacks and Distribution Fees

As is customary in the pharmaceutical industry, gross product sales are subject to a variety of deductions in arriving at net product

sales. Provisions for these deductions are recognized concurrently with the recognition of gross product sales. These provisions include cash discounts and allowances, chargebacks and distribution fees, which are paid or credited to direct customers, as well as rebates and returns, which can be paid or credited to direct and indirect customers. As more fully discussed in Note 2, "SIGNIFICANT ACCOUNTING POLICIES" to our audited Consolidated Financial Statements, the Company continually monitors the provisions for these deductions and evaluates the estimates used as additional information becomes available. Price appreciation credits are generated when we increase a product's wholesaler acquisition cost ("WAC") under our contracts with certain wholesalers. Under such contracts, we are entitled to credits from such wholesalers for the impact of that WAC increase on inventory on hand at the wholesalers. In wholesaler contracts, such credits are offset against the total distribution service fees we pay on all of our products to each such wholesaler. In addition, some payor contracts require discounting if a price increase or series of price increases in a contract period exceeds a negotiated threshold. Provision Returns provision balances relating to amounts payable and volume discounts to direct customers are netted against trade included in Accrued and other current liabilities. All other provisions related to direct customers are included in Trade receivables, and net, while provision balances relating related to indirect customers are included in accrued Accrued and other current liabilities.

We actively manage these offerings, focusing on the incremental costs of our patient assistance programs, the level of discounting to non-retail accounts and identifying opportunities to minimize product returns. We also concentrate on managing our relationships with our payors and wholesalers, reviewing the ranges of our offerings and being disciplined as to the amount and type of incentives we negotiate.

Provisions recorded to reduce gross product sales to net product sales and revenues for 2022 2023 and 2021 2022 were as follows:

Discounts and allowances, returns, rebates, chargebacks and distribution service fees as a percentage of gross product sales were 40.9% 41.0% in 2023 and 39.4% 2022, in 2022 and 2021, respectively, an increase of 1.5% percentage points each period and includes:

- discounts and allowances as a percentage of gross product sales were lower primarily due to lower gross product sales for certain generic products such as Glumetza® AG and Apriso® AG and lower discount rates for certain other generic products, such as Uceris® AG, Migranal® AG and Elidel® AG; unchanged;
- returns as a percentage of gross product sales was unchanged as: (i) the result of the Company's improving return experience and (ii) the favorable year over year impact due to the recall of certain Bausch + Lomb consumer products as a result of a quality issue at a third-party supplier during the three months ended June 30, 2021, as discussed below, were offset by increases in our International segment of approximately \$11 million during the three months ended June 30, 2022, to reflect a change in estimated future returns in one market, driven by lower estimated demand following the easing of local COVID-19 lockdown restrictions and a change of distributors. Included in the product returns provision for 2022 and 2021 are reductions in variable consideration for sales returns related to past sales of approximately \$21 million and \$28 million, respectively. Further, we estimate that a 1% change in our return experience would have impacted our pre-tax earnings by approximately \$97 million for the year 2022. See Note 2, "SIGNIFICANT ACCOUNTING POLICIES" to our audited Consolidated Financial Statements regarding further details related to product sales provisions; unchanged;
- rebates as a percentage of gross product sales were higher primarily due to the acquisition of XIIDRA® by Bausch + Lomb, the impact of an increase in gross product sales of and higher rebate rates for certain branded products with higher rebate rates, such as Jublia®, Xifaxan®, Aplenzin Trulance® and Trulance Jublia®, partially offset by lower gross product sales and lower rebate rates for certain branded products such as Wellbutrin®, Retin-A® Microsphere .06% and, Retin-A® and Microsphere .08%. We estimate that a 1% change in our estimated rates used in determining the Medicaid rebate reserve would have impacted our pre-tax earnings by approximately \$83 \$88 million for 2022; 2023;
- chargebacks as a percentage of gross product sales were higher lower primarily due the impact of an increase into lower gross product sales of certain branded generic products with such as Apriso® AG, Targretin® AG, Syprine® AG and Cuprimine® AG. These decreases were

partially offset by: (i) increased gross product sales of our GI products Xifaxan® and Glumetza® SLX and (ii) higher chargeback rates for certain generics and branded products such as Glumetza® SLX, Xifaxan® and Trulance®, partially

offset by lower gross product sales for certain generic products such as Glumetza® AG, Apriso® AG and Targretin® AG and by lower chargeback rates and gross product sales for certain branded products such as Mysoline® and Ativan®; generics; and

- distribution service fees as a percentage of gross product sales were higher primarily due to higher gross product sales of Xifaxan®, unchanged. Price appreciation credits were \$10 million \$11 million and \$17 \$10 million for 2022 2023 and 2021, 2022, respectively.

Operating Expenses

Cost of Goods Sold (excluding amortization and impairments of intangible assets)

Cost of goods sold primarily includes: manufacturing and packaging; the cost of products we purchase from third parties; royalty payments we make to third parties; depreciation of manufacturing facilities and equipment; and lower of cost or net realizable value adjustments to inventories. Cost of goods sold typically vary between periods as a result of product mix, volume, royalties, changes in foreign currency and inflation. Cost of goods sold excludes the amortization and impairments of intangible assets.

Cost of goods sold was \$2,336 million \$2,519 million and \$2,361 million \$2,316 million for 2023 and 2022, and 2021, respectively, a decrease an increase of \$25 million \$203 million, or 1% 9%. The decrease increase was primarily driven by: (i) the impact increase in volumes as previously discussed, (ii) charges related to the Injector recall, as discussed below, and (iii) costs of sales associated with Bausch + Lomb's acquisitions entered into in 2023, which includes the amortization of an interim contract and inventory step-up as part of the divestiture of Amoun on July 26, 2021 purchase accounting, partially offset by: (i) favorable manufacturing variances and (ii) the favorable impact of foreign currencies, partially offset by increase in volumes and higher manufacturing variances, driven by inflationary pressures related to certain manufacturing costs. currencies.

In 2021, Bausch + Lomb Incorporated ("B&L Inc.") May 2023 we initiated a voluntary recall in EMEA and Canada of our Emerade epinephrine auto-injectors (0.3 mg and 0.5 mg) (the "Injector") was notified by a third-party supplier used to deliver an emergency treatment of sterilization services epinephrine to patients who are at risk of serious allergic reactions (anaphylaxis). The recall resulted in inventory provisions of approximately \$9 million, product return provisions of approximately \$2 million and other costs of approximately \$3 million for its lens care solution bottles and caps at its Milan, Italy facility, of inconsistencies in the sterilization data versus certificates of conformance previously submitted to B&L Inc. by 2023. It is possible that supplier. Based additional charges may be incurred based on B&L Inc.'s internal Health and Safety Analysis, it was determined that future developments associated with this issue did not affect the safety or performance of any of its products and was limited to a specific number of lots for certain Consumer products within our Bausch + Lomb segment. However, out of an abundance of caution and working with the appropriate notified body and responsible health authorities, B&L Inc. has contained and/or recalled down to the consumer level the limited number of affected lots of products resulting in \$8 million of manufacturing variances and \$6 million of returns. voluntary recall.

Cost of goods sold as a percentage of Product sales revenue was 29.0% 29.1% and 28.3% 28.9% for 2022 2023 and 2021, 2022, respectively, an increase of 0.7 0.2 percentage points primarily attributable to: (i) to higher manufacturing variances and (ii) year-over-year changes in product mix. Cost of goods sold, as discussed above.

Selling, General and Administrative Expenses

SG&A expenses primarily include: employee compensation associated with sales and marketing, finance, legal, information technology, human resources and other administrative functions; certain outside legal fees and consultancy costs; product promotion expenses; overhead and occupancy costs; depreciation of corporate facilities and equipment; separation-related and IPO-related costs; and other general and

administrative costs. The Company has incurred, and **will expects to continue to incur**, Separation-related and IPO-related incremental costs which are with respect to the B+L Separation. During 2022, the Company also incurred incremental costs indirectly related to the B+L Separation and, for 2022 and 2021, has incurred costs associated with the suspended initial public offering of its aesthetic medical device business, Solta IPO. Separation-related Medical (the "Solta IPO"). These separation-related and IPO-related costs include, but are not limited to: (i) IT infrastructure and software licensing costs, (ii) rebranding costs, (iii) costs associated with facility relocation and/or modification and (iv) costs to operating two public companies as a result of the B+L IPO, research and development costs.

SG&A expenses were \$2,917 million and \$2,625 million for 2023 and \$2,624 million for 2022, and 2021, respectively, an increase of \$1 million \$292 million, or 11%. The increase was primarily attributable to: to higher: (i) higher compensation, (ii) selling, advertising and promotion expenses, primarily related to freight including for XIIDRA and (ii) higher compensation expenses (iii) certain administrative expenses. These increases were partially offset by: (i) lower professional fees associated with the separation of certain functions in connection with the B+L Separation and (ii) the favorable impact of foreign currencies, (ii) the impact of our divestiture of Amoun on July 26, 2021 and (iii) lower Separation-related and IPO-related costs, currencies.

Research and Development Expenses

Included in Research and development are costs related to our product development and quality assurance programs. Expenses related to product development include: employee compensation costs; overhead and occupancy costs; depreciation of research and development facilities and equipment; clinical trial costs; clinical manufacturing and scale-up costs; and other third-party development costs. Quality assurance are the costs incurred to meet evolving customer and regulatory standards and include: employee compensation costs; overhead and occupancy costs; amortization of software; and other third-party costs.

R&D expenses were \$604 million and \$529 million for 2023 and \$465 million for 2022, and 2021, respectively, an increase of \$64 million \$75 million, or 14%. The increase was primarily attributable to: (i) the result of lower R&D spend in early 2021 as certain R&D activities and clinical trials which were suspended in response to the COVID-19 pandemic and did not normalize until later in 2021, as previously discussed, and (ii) higher spend on certain Solta and Bausch + Lomb projects. R&D expenses as a percentage of Product sales were approximately 7% for 2023 and 6% for 2022, and 2021, respectively, in each period. The increase was primarily attributable to higher spend on certain Salix projects, primarily our rifaximin SSD formulation, as previously discussed.

Amortization of Intangible Assets

Intangible assets with finite lives are amortized using the straight-line method over their estimated useful lives, generally 1 to 20 years. Management continually assesses the useful lives related to the Company's long-lived assets to reflect the most current assumptions.

Amortization of intangible assets was \$1,077 million and \$1,215 million for 2023 and \$1,375 million for 2022, and 2021, respectively, a decrease of \$160 million \$138 million, or 12% 11%. The decrease was primarily attributable to fully amortized intangible assets no longer being amortized in 2022, 2023.

See Note 8, "INTANGIBLE ASSETS AND GOODWILL" to our audited Consolidated Financial Statements for further details related to our intangible assets.

Goodwill Impairments

Goodwill is not amortized but is tested for impairment at least annually at the reporting unit level. An interim goodwill impairment test in advance of the annual impairment assessment may be required if events occur that indicate an impairment might be present. A reporting unit is the same as, or one level below, an operating segment. We test reporting units for impairment by comparing the estimated fair value of each reporting

unit with its carrying amount. If the carrying amount of a reporting unit exceeds its estimated fair value, we record an impairment based on the difference between fair value and carrying amount of the reporting unit as a reduction to goodwill. The fair value of a reporting unit refers to the price that would be received to sell the reporting unit in an orderly transaction between market participants. We estimate the fair values of our reporting units using a discounted cash flow model, which utilizes Level 3 unobservable inputs.

Goodwill impairments were \$493 million and \$824 million for 2023 and \$469 million 2022, respectively, a decrease of \$331 million, or 40%.

2023 Assessment

Dermatology and Neurology

Through the nine months ended September 30, 2023, the Dermatology and Neurology reporting units had performed largely in line with the forecasted results used in their long term forecasts prepared as of September 30, 2022 and October 1, 2022, respectively, when a fair value quantitative test for each of these reporting units was last performed. During the third quarter of 2023, for reasons discussed in Note 8, "INTANGIBLE ASSETS AND GOODWILL" to our audited Consolidated Financial Statements, the Company's preliminary assessment of future business performance indicated that the future financial results of these reporting units were expected to be below the assumptions used in their last quantitative fair value tests. After considering the limited headroom as a result of the impairment to goodwill of the Dermatology reporting unit (September 30, 2022) and the Neurology reporting unit (October 1, 2022) when last tested, the Company determined that these changes in facts and circumstances, as well as increases in market interest rates during the three months ended September 30, 2023, suggested that the fair values of these reporting units could be less than their respective carrying amounts, and therefore a quantitative fair value test for each of these reporting units was performed. Based on the quantitative fair value tests, the carrying values of the Dermatology and Neurology reporting units exceeded their fair values at September 30, 2023 by \$151 million and \$251 million, respectively, and we recognized goodwill impairments of \$402 million during the three months ended September 30, 2023.

Generics

The Generics reporting unit operates in the United States, where shifting market dynamics, including changes in payer demands, health care legislation, and other regulations are contributing to increasing pressure for the reduction of healthcare costs, through pricing of pharmaceutical products. The Generics reporting unit's product portfolio is by its nature impacted by these changing market dynamics. As a result, the Company revised its long-term forecasts for the Generics reporting unit to reflect these developments.

The Company's annual goodwill impairment test as of October 1, 2023, included performing a quantitative fair value test for the Generics reporting unit of our Diversified segment as discussed in Note 8, "INTANGIBLE ASSETS AND GOODWILL" to our audited Consolidated Financial Statements. Based on the quantitative fair value testing performed as of October 1, 2023, a \$91 million impairment to the goodwill of the Generics reporting unit was recognized.

2022 and 2021, respectively.

2022

Ortho Dermatologics Dermatology

During the second quarter of 2022, increases in interest rates and, to a lesser extent, higher than expected inflation in the U.S. and other macroeconomic factors impacted key assumptions used to value the Ortho Dermatologics Dermatology reporting unit at March 31, 2022 March 31,

2022 (the last time goodwill of the Ortho Dermatologics Dermatology reporting unit was tested). As a result of these market conditions and given the reporting unit's limited

headroom, goodwill for our Ortho Dermatologics Dermatology reporting unit was impaired

during the three month period ended June 30, 2022 reflecting our best estimate at that time of the outlook and risks of this business. Based on the quantitative fair value testing performed as of June 30, 2022, an \$83 million impairment to the goodwill of the Ortho Dermatologics Dermatology reporting unit was recognized. As a result, there was zero headroom in the Ortho Dermatologics Dermatology reporting unit as of June 30, 2022.

During the third quarter of 2022, the Company continued to monitor the market conditions impacting the Ortho Dermatologics Dermatology reporting unit. Continued increases in interest rates and, to a lesser extent, higher than expected inflation in the U.S. and other macroeconomic factors impacted key assumptions used to value the Ortho Dermatologics Dermatology reporting unit at June 30, 2022. As a result of these market conditions and given there was no headroom as a result of the impairment to goodwill in the previous quarter, goodwill for our Ortho Dermatologics Dermatology reporting unit was impaired during the three month months period ended September 30, 2022, reflecting our best estimate at that time of the outlook and risks of this business. Based on the quantitative fair value testing performed as of September 30, 2022, a \$119 million impairment to the goodwill of the Ortho Dermatologics Dermatology reporting unit was recognized.

Neurology and Other

The Neurology and Other reporting unit operates in the United States, where shifting market dynamics, including changes in payer demands (such as pharmaceutical market access and contractual pricing), health care legislation, and other regulations are contributing to increasing pressure for the reduction of healthcare costs, through both pricing of pharmaceutical products and/or directing patients to lower cost unbranded generic products. This includes recent changes related to pharmaceutical pricing by the Federal government, including the passage of the IRA in August 2022 and, effective in 2024, changes to Medicaid rebate caps (passed as part of the American Rescue Plan Act of 2021). The nature of the Neurology and Other reporting unit's product portfolio, which includes branded generic pharmaceuticals, is by its nature more directly impacted by these changing market dynamics, creating increased pressure on the reporting unit's long-term financial performance. In response to these pressures, as well as to consider anticipated increased competition from new market entrants in 2023, during the fourth quarter of 2022, we began taking steps to: (i) reassess our pricing strategies, (ii) re-evaluate our marketing and promotional efforts and (iii) reduce our cost structure and revised our long-term forecasts for the Neurology and Other reporting unit to reflect these developments. As a result of the revisions to our long-term expectations for these changes and other factors, goodwill for our Neurology and Other reporting unit was impaired during our most recent 2022 annual impairment test reflecting our best estimate at that time of the outlook and risks of this business. Based on the quantitative fair value testing performed as of October 1, 2022, a \$622 million impairment to the goodwill of the Neurology and Other reporting unit was recognized.

2021

Ortho Dermatologics

During the three months ended March 31, 2021, management identified launches of certain Ortho Dermatologics products which were not going to achieve their trajectories as forecasted once the social restrictions associated with the COVID-19 pandemic began to ease in the U.S. and offices of health care professionals could reopen. In addition, increased insurance coverage pressures within the U.S. were limiting patient access to topical acne and psoriasis products. In response to these developments, during the first quarter of 2021, we began taking steps to: (i) redirect our R&D spend to eliminate projects we had identified as high cost and high risk, (ii) redirect a portion of our marketing and product development outside the U.S. to geographies where there was better patient access and (iii) reduce our cost structure to be more competitive. As a result of these and other factors, goodwill for our Ortho Dermatologics reporting unit was impaired during the three month period ended March 31, 2021 reflecting our best estimate at that time of the outlook and risks of this business. Based on the quantitative fair value testing performed

as of March 31, 2021, a \$469 million impairment to the goodwill of the Ortho Dermatologics reporting unit was recognized.

See Note 8, "INTANGIBLE ASSETS AND GOODWILL" to our audited Consolidated Financial Statements and "CRITICAL ACCOUNTING POLICIES AND ESTIMATES — Goodwill" for further details related to our goodwill.

Asset impairments including loss on assets held for sale

Long-lived assets with finite lives are tested for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Impairment charges associated with these assets are included in Asset impairments in the Consolidated Statements of Operations. The Company continues to monitor the recoverability of its finite-lived intangible assets and tests the intangible assets for impairment if indicators of impairment are present.

Asset impairments including loss on were \$54 million and \$15 million for 2023 and 2022, respectively, an increase of \$39 million. Asset impairments for 2023 includes: (i) \$37 million related to the impairment to the intangible assets held associated with our Uceris® Foam product as discussed below, (ii) impairments of \$8 million, in aggregate, attributable to certain trade names no longer in use and (iii) impairments of \$9 million, in aggregate related to the discontinuance of certain product lines.

Uceris® Foam - On April 12, 2023, the FDA approved an ANDA submitted by a competitor, for sale were \$15 million and \$234 million for 2022 and 2021, respectively, a decrease budesonide (a steroid (cortisone-like) medicine) foam to help treat mild to moderate active ulcerative colitis. This product is a generic version of \$219 million. our Uceris® Foam product. As of June 30, 2023, the carrying value of the Uceris® Foam product related intangible assets exceeded the undiscounted expected cash flows from the Uceris® Foam. As a result, the Company recognized an impairment of \$37 million to reduce the carrying value of the Uceris® Foam product related intangible assets to their estimated fair value.

Asset impairments, including loss on assets held for sale for 2022 includes: (i) impairments of \$10 million, in aggregate, due to decreases in forecasted sales of certain product lines and (ii) impairments of \$5 million, in aggregate, related to the discontinuance of certain product lines. Asset impairments, including loss on assets held for sale for 2021 includes: (i) impairments of \$105 million, in aggregate, due to decreases in forecasted sales of certain product lines, (ii) an \$88 million loss on assets held for sale in connection with the Amoun Sale, (iii) impairments of \$23 million, in aggregate, related to the discontinuance of certain product lines and (iv) \$18 million related to a portion of an IT infrastructure improvement project no longer being utilized

See Note 8, "INTANGIBLE ASSETS AND GOODWILL" to our audited Consolidated Financial Statements for further details related to our intangible assets.

Restructuring, Integration, Separation and IPO Costs

Restructuring, integration, separation and IPO costs were \$62 million and \$63 million for 2023 and \$50 million for 2022, and 2021, respectively, an increase a decrease of \$13 million \$1 million.

Restructuring and integration costs

The Company evaluates opportunities to improve its operating results and implements cost savings programs to streamline its operations and eliminate redundant processes and expenses. Restructuring and integration costs are expenses associated with the implementation of these cost savings programs and include expenses associated with: (i) reducing headcount, (ii) eliminating real estate costs associated with unused or under-utilized facilities and (iii) implementing contribution margin improvement and other cost reduction initiatives.

Restructuring and integration costs were \$58 million and \$30 million for 2023 and \$18 million for 2022, and 2021, respectively, an increase of \$12 \$28 million. The Company continues to evaluate opportunities to streamline its operations and identify additional cost savings globally. Although a specific plan does not exist at this time, the Company may identify and take additional exit and cost-rationalization restructuring actions in the future, the costs of which could be material.

Separation and IPO costs

The Company has incurred, and expects to continue to incur costs associated with activities relating to the B+L Separation. The In 2022, the Company also incurred costs associated with activities relating to the Solta IPO, which was suspended in June 2022. These B+L Separation and Solta IPO activities include: (i) separating the Bausch + Lomb and, in 2022, Solta Medical businesses from the remainder of the Company, (ii) completing the B+L IPO and, in 2022, preparing for the suspended Solta IPO and (iii) the actions necessary for Bausch + Lomb to become an independent publicly traded entity. Separation and IPO costs are incremental costs directly related to the ongoing B+L Separation and, in 2022, the suspended Solta IPO and include, but are not limited to: (i) legal, audit and advisory fees, (ii) talent acquisition costs and (iii) costs associated with establishing a new board of directors and related board committees for the Bausch + Lomb and Solta Medical entities. Lomb. Separation and IPO costs were \$4 million and \$33 million for 2023 and \$32 million for 2022, and 2021, respectively. The extent and timing of future charges of these costs to complete the B+L Separation cannot be reasonably estimated at this time and could be material.

See Note 4, "RESTRUCTURING, INTEGRATION, SEPARATION AND IPO COSTS" to our audited Consolidated Financial Statements for further details regarding these actions.

Non-Operating Income and Expense

Interest Expense

Interest expense primarily consists of interest payments due, amortization and write-off of debt discounts, premiums and debt issuance costs under our credit facilities and notes as well as the amortization of amounts excluded from the assessment of hedge effectiveness over the term of the Company's cross-currency swaps. In November 2021, we entered into a transaction to unwind our cross-currency swaps. In July 2022, Bausch + Lomb entered into new cross-currency swaps with aggregate notional amounts of \$1,000 million. Following the completion of the debt exchange in September 2022, interest payments on certain of our debt will not be classified as interest expense but rather will be a reduction in premium recorded at the time of the debt exchange.

Interest expense was \$1,464 million \$1,328 million and \$1,426 million \$1,464 million and included non-cash amortization and write-offs of debt discounts, premiums and debt issuance costs of \$65 million and \$99 million for 2023 and \$55 million for 2022, and 2021, respectively. Interest expense increased \$38 million decreased \$136 million, or 3% 9%, in 2022 2023 as compared to 2021, 2022, primarily attributable due to higher write-offs of debt issuance costs in 2022 as well as higher interest rates partially offset by the impact of lower outstanding debt balances and the impact of the accounting treatment for contractual interest payments on the New Secured Notes, portions of which resulted in lower are recorded as a reduction of related premiums and not as interest expense, which had the impact of \$74 million in the fourth quarter of 2022 as compared reducing interest expense by \$282 million relative to the stated rate of contractual interest on the New Secured Notes. cost. This decrease was partially offset by higher interest rates.

The weighted average stated rate of interest as of December 31, 2022 December 31, 2023 and 2021 2022 was 7.74% 8.05% and 5.88% 7.74%, respectively. The increase in the weighted average stated rate of interest of 186 31 bps is primarily attributable to the New Secured Notes and term loan facilities. Due to the accounting treatment for the New Secured Notes, interest expense in the Company's financial statements in future periods will not be representative of the weighted average stated rate of interest.

See Note 10, "FINANCING ARRANGEMENTS" to our audited Consolidated Financial Statements for further details.

Gain (Loss) on Extinguishment of Debt

Gain (loss) on extinguishment of debt represents the differences between the amounts paid to settle extinguished debts and the carrying value of the related extinguished debt. The gain Gain on extinguishment of debt was approximately \$1 million and \$875 million for in 2023 and 2022, as compared to loss on extinguishment of debt of \$62 million for 2021, respectively, primarily associated with certain refinancing transactions that occurred each year and represents the differences between the amounts paid to settle the extinguished debt and its carrying value. See Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations — Overview — Focus on Value and Core Business" Businesses for additional information regarding our gain on extinguishment of debt.

During December 2023, through a series of transactions we repurchased and retired outstanding senior unsecured notes with an aggregate par value of \$8 million in the open market for approximately \$7 million using cash on hand.

The gain on extinguishment of debt for 2022 includes: (i) the gain associated with the Exchange Offer of \$570 million and (ii) the gains associated with the early retirement of certain senior unsecured notes of \$369 million discussed below, partially offset by \$64 million of losses associated with the refinancing and modification to certain debt obligations completed in connection with the B+L IPO, each as discussed in further detail below, under “— Liquidity and Capital Resources — Liquidity and Debt”.

During June 2022 and December 2022, through a series of transactions we repurchased and retired outstanding senior unsecured notes with an aggregate par value of \$927 million \$927 million in the open market for approximately \$550 million \$550 million using: (i) the net proceeds from the partial exercise of the over-allotment option in the B+L IPO by the underwriters, after deducting underwriting commissions, (ii) amounts available under our revolving credit facility and (iii) cash on hand. The senior notes retired had maturities of November 2025 through February 2031 and had a weighted average interest rate of approximately 5.60%. As a result of these transactions, we recognized a gain on the extinguishment of debt of approximately \$369 million. See Item 7. “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Focus on Value and Core Businesses — September 2022 Exchange Offer” Offer for details of maturities and principal balances debt obligations.

See Note 10, “FINANCING ARRANGEMENTS” to our audited Consolidated Financial Statements for further details.

Foreign Exchange and Other

Foreign exchange and other was a loss of \$8 \$52 million and a gain of \$7 million \$8 million for 2022 2023 and 2021, 2022, respectively, an unfavorable net change of \$15 million \$44 million primarily due to: (i) translation transaction gains/losses on intercompany loans balances and third-party liabilities and (ii) the gain/loss due to foreign currency exchange contracts.

Income Taxes

Income taxes are accounted for under the liability method. Deferred tax assets and liabilities are recognized for the temporary differences between the financial statement and income tax bases of assets and liabilities, and for operating losses and tax credit carryforwards. Deferred tax assets for outside basis differences in investments in subsidiaries are only recognized if the difference will be realized in the foreseeable future. Provision for income taxes was \$221 million and \$83 million in 2023 and 2022, and benefit from income taxes was \$87 million in 2021, respectively, an unfavorable net change of \$170 million \$138 million, primarily attributable to changes in our jurisdictional mix of earnings. In 2022, 2023, the Company’s valuation allowance decreased \$199 million increased \$231 million primarily attributable due to the impact of book taxable income loss in Canada and the expiration of an increase for state tax losses expected to be unusable in the United States.

Our consolidated foreign rate differential reflects the net total tax cost or benefit on income earned or losses incurred in jurisdictions outside of Canada as compared to the net total tax cost or benefit of such income (on a jurisdictional basis) at the Canadian statutory rate of 26.9%. Tax costs below the Canadian statutory rate generate a beneficial foreign rate differential as do tax benefits generated in jurisdictions where the statutory tax rate exceeds the Canadian statutory tax rate. The net total

foreign rate differentials generated in each jurisdiction in which we operate is not expected to bear a direct relationship to the net total amount of foreign income (or loss) earned outside of Canada.

In 2022 2023 and 2021, 2022, our effective tax rate differs from the statutory Canadian income tax rate primarily due to: (i) the recording of valuation allowance allowances on entities for which no tax benefit of losses is recorded, (ii) changes in uncertain impairment to goodwill which is non-deductible under tax positions, laws, (iii) changes in tax attributes, (iv) the tax provision generated from our mix of earnings by jurisdiction, (v) impairment to goodwill which is non-deductible under changes in uncertain tax laws positions and (vi) changes in the valuation allowance related to foreign tax credits and net operating losses.

We record a valuation allowance against our deferred tax assets to reduce their net carrying value to an amount that we believe is more likely than not to be realized. In determining our deferred tax asset valuation

allowance, we estimate our ability to utilize future sources of income to realize the benefits of our temporary income tax differences including: (i) net operating loss carryforwards in each jurisdiction, primarily in Canada, the U.S. and Ireland, (ii) research and development tax credit carryforwards, (iii) scientific research and experimental development pool carryforwards and (iv) investment tax credit carryforwards. When we establish/increase or reduce/decrease the valuation allowance, the provision for income taxes will increase or decrease, respectively, in the period such determination is made. Our valuation allowance against deferred tax assets as of **December 31, 2022** **December 31, 2023** and **2021** **2022** was **\$2,023 million** **\$2,254 million** and **\$2,222 million** **\$2,023 million**, respectively, **a decrease** **an increase** of **\$199 million** **\$231 million**, as discussed above.

See Note 17, "INCOME TAXES" to our audited Consolidated Financial Statements for further details.

Reportable Segment Revenues and Profits

Our portfolio of products falls into five reportable segments: (i) Salix, (ii) International, (iii) Solta Medical, (iv) Diversified **Products** and (v) Bausch + Lomb.

The following is a brief description of our segments:

- **The Salix segment** consists of sales in the U.S. of GI products. Sales of the Xifaxan® product line represented **approximately 80%** of **the Salix segment's segment** revenues.
- **The International segment** consists of sales, with the exception of sales of Bausch + Lomb products and Solta **Medical** aesthetic medical devices, outside the U.S and Puerto Rico of branded pharmaceutical products, branded generic pharmaceutical **products** and OTC products.
- **The Solta Medical segment** consists of global sales of Solta Medical ("**Solta**") aesthetic medical devices.
- **The Diversified **Products** segment** consists of sales in the U.S. of: (i) pharmaceutical products in the areas of neurology and certain other therapeutic classes, (ii) **generic dermatology** products, (iii) **Ortho Dermatologics (dermatological products)** **generic pharmaceutical products** and (iv) dentistry products.
- **The Bausch + Lomb segment** consists of global sales of Bausch + Lomb Vision Care, Surgical and **Ophthalmic** Pharmaceuticals products.

Segment profit is based on operating income after the elimination of intercompany transactions. Certain costs, such as Amortization of intangible assets, Asset impairments, including loss on assets held for sale, Restructuring, integration, separation and IPO costs, and Other expense, net, are not included in the measure of segment profit, as management excludes these items in assessing segment financial performance. See Note 22, "SEGMENT INFORMATION" to our audited Consolidated Financial Statements for a reconciliation of segment profit to Loss before income taxes.

The decrease increase was primarily attributable to: (i) the impact of divestitures and discontinuations of \$167 million, primarily attributable to our divestiture of Amoun on July 26, 2021 and (ii) the unfavorable impact of foreign currencies of \$65 million, primarily in Europe and Canada. The decreases were partially offset by: (i) an increase in net realized pricing of \$30 million \$47 million, (ii) the favorable impact of foreign currencies of \$31 million, primarily in Latin America and (iii) an increase in volumes of \$24 million. The increase in volumes is primarily attributable to Europe and was \$15 million, partially offset by the impact of divestitures and discontinuations of \$10 million. Revenues for 2022, also reflect charges for approximately \$15 million of returns in connection with a change in certain distribution agreements \$13 million representing a change in estimated future returns in one market, driven by lower estimated demand following the easing of local COVID-19 lockdown restrictions as well as a change of distributors, as previously discussed, in distributors.

International Segment Profit

The International segment profit for 2023 and 2022 was \$335 million and 2021 was \$324 million and \$403 million, respectively, a decrease an increase of \$79 million \$11 million, or 20% 3%. The decrease increase was primarily driven by the decrease in contribution primarily attributable due to: (i) our divestiture the favorable impact of Amoun on July 26, 2021 manufacturing variances and (ii) the unfavorable favorable impact of foreign currencies, partially offset by an the increase in net realized pricing selling expenses and higher volumes. advertising and promotion expenses.

Solta Medical Segment:

Solta Medical Segment Revenue

The Solta Medical segment includes the Thermage® product lines, which accounted for approximately 82% and 77% of the Solta Medical segment revenues for 2023 and 2022, respectively. No other single product group represents 10% or more of the Solta Medical segment revenues. The Solta Medical segment revenue was \$347 million and \$300 million for 2023 and \$308 million for 2022, and 2021, respectively, a decrease an increase of \$8 million \$47 million, or 3% 16%. The decrease increase was primarily attributable to: (i) an increase in volumes of \$50 million and (ii) increase in net decrease in volume realized pricing of \$16 million primarily driven by the impact of the government enforced COVID-19 pandemic related shutdowns in China, as previously discussed, \$5 million, partially offset by increases in volumes in other Asia Pacific countries and (ii) the unfavorable impact of foreign currencies of \$15 million, partially offset by an increase in net realized pricing of \$23 \$8 million.

Solta Medical Segment Profit

The Solta Medical segment profit was \$161 million and \$135 million for 2023 and \$167 million for 2022, and 2021, respectively, a decrease an increase of \$32 million \$26 million, or 19%. The decrease is increase was primarily attributable to an increase in R&D and contribution due to increase in revenues, as previously discussed, partially offset by: (i) the unfavorable impact of foreign currencies, currencies and (ii) higher selling, advertising and promotion expenses.

Diversified Products Segment:

Diversified Products Segment Revenue

The Diversified Products segment revenue was \$943 million and \$978 million for 2023 and \$1,121 million for 2022, and 2021, respectively, a decrease of \$143 million \$35 million, or 13% 4%. The decrease was primarily driven by: (i) a decrease in volume volumes of \$131 million \$42 million, primarily in our Neurology and Dermatology businesses and (ii) a decrease the impact of divestitures and discontinuations of \$2 million, partially offset by an increase in net realized pricing of \$11 million. The decrease \$9 million, primarily in volumes was primarily attributable to our Neurology and Other and Generics businesses due to: (i) decreases in several products attributable to the non-recurring pandemic related government mail order programs in 2021 and (ii) the impacts of more generic competitors. businesses.

Diversified Products Segment Profit

The Diversified Products segment profit was \$586 million and \$612 million for 2023 and \$722 million for 2022, and 2021, respectively, a decrease of \$110 million \$26 million, or 15% 4% and was primarily driven by lower contribution attributable to the net decrease in revenues, as previously discussed, discussed, partially offset by lower: (i) selling, general and administrative expenses and (ii) R&D.

Bausch + Lomb Segment:

Bausch + Lomb Segment Revenue

The Bausch + Lomb segment has a diversified product line with no single product group representing 10% or more of its segment revenues. Cash held by Bausch + Lomb legal entities and any future cash from the operations, investing and financing activities of Bausch + Lomb, is expected to be retained by Bausch + Lomb entities and are is generally not available to support the operations, investing and financing activities of other legal entities, including Bausch Health unless paid as a dividend which would be determined by the Board of Directors of Bausch + Lomb and paid pro rata to Bausch + Lomb's shareholders.

The Company As discussed in Note 10, "FINANCING ARRANGEMENTS" to our audited Consolidated Financial Statements, as of December 31, 2023, we had aggregate maturities and mandatory payments of our principal balances of debt obligations as follows:

(in millions)	2024	2025	2026	2027	2028	2029	Thereafter	Total
Total debt obligations	\$ 155	\$ 2,790	\$ 892	\$ 6,748	\$ 7,219	\$ 1,609	\$ 1,593	\$ 21,006

We regularly evaluates evaluate market conditions, its our liquidity profile and various available financing alternatives for opportunities to enhance its our capital structure. If opportunities are favorable, the Company structure and may refinance consider executing financing transactions, including but not limited to, issuing new debt instruments, divesting of assets or repurchase existing debt or issue businesses and issuing equity or equity-linked securities, securities (including secondary offerings of a portion of our holdings of common shares of Bausch + Lomb), as deemed appropriate, to improve our capital structure and liquidity.

Long-term Debt

Long-term debt, net of unamortized premiums, discounts and issuance costs was \$20,766 million \$22,388 million and \$22,654 million \$20,766 million as of December 31, 2022 December 31, 2023 and 2021, 2022, respectively. Aggregate contractual principal amounts due under our debt obligations were \$19,110 million \$21,006 million and \$22,870 million \$19,110 million as of December 31, 2022 December 31, 2023 and 2021, 2022, respectively, a decrease an increase of \$3,760 million \$1,896 million.

On September 30, 2022, we closed the Exchange Offer, pursuant to which existing unsecured senior notes as set forth in the table below (collectively, the "Existing Unsecured Senior Notes") with an aggregate outstanding principal balance of \$5,594 million were exchanged for \$3,125 million in aggregate principal balance of New Secured Notes (as defined below). The Exchange Offer reduced our then aggregate outstanding principal debt balance by \$2,469 million. In accordance with U.S. GAAP, we recognized a portion of this reduction as a gain of \$570 million, net of third-party fees and the write-off of the unamortized debt discounts and issuance costs related to the Existing Unsecured Senior Notes, and were required to record the balance of the reduction in our debt balance of \$1,835 million, as a premium on the New Secured Notes. This premium will be reduced as we make interest payments on the New Secured Notes in the amounts as presented in the previously provided table under the caption "Exchange Offer". Due to the accounting treatment for the New Secured Notes, interest expense in the Company's financial statements in future periods will not be representative of the contractual interest due at the New Secured Notes' stated rates of interest. Additionally, the portion of interest payments that reduce the premium recorded will be classified within Financing Activities in the Company's Consolidated Statement of Cash Flows.

See Note 10, "FINANCING ARRANGEMENTS" to our audited Consolidated Financial Statements for further details on the accounting for the Exchange Offer.

The secured notes issued in the Exchange Offer consist of: (i) \$1,774 million in aggregate principal amount of new 11.00% First Lien Secured Notes due 2028 (the "11.00% First Lien Secured Notes") issued by the Company, (ii) \$352 million in aggregate principal amount of new 14.00% Second Lien Secured Notes due 2030 (the "14.00% Second Lien Secured Notes", and, together with the 11.00% First Lien Secured Notes, the "New BHC Secured Notes") issued by the Company and (iii) \$999 million in aggregate principal amount of new 9.00% Senior Secured Notes due 2028 (the "9.00% Intermediate Holdco Secured Notes", and, together with the New BHC Secured Notes, the "New Secured Notes") issued by 1375209 B.C. Ltd. ("Intermediate Holdco"), an existing wholly-owned unrestricted subsidiary of the Company that holds 38.6% of the issued and outstanding common shares of Bausch + Lomb.

The aggregate principal amounts of the Existing Unsecured Senior Notes that were validly tendered and accepted by the Company in the Exchange Offer are set forth below:

(in millions)	Total Aggregate Principal Amount Validly Tendered	Percentage of Outstanding Existing Notes Validly Tendered
9.00% Senior Notes due 2025	\$ 541	36 %
9.25% Senior Notes due 2026	752	50 %
8.50% Senior Notes due 2027	1,099	63 %

7.25% Senior Notes due 2029	373	50 %
6.25% Senior Notes due 2029	540	38 %
5.00% Senior Notes due 2029	371	44 %
5.25% Senior Notes due 2030	332	28 %
5.25% Senior Notes due 2031	336	37 %

Total	\$	5,594

The Exchange Offer reduced the principal balances of our outstanding debt obligations by \$2,469 million. The Exchange Offer also had the effect of extending the maturities of approximately \$2,400 million of aggregate principal balances of senior notes coming due during the years 2025 through 2027 out to the years 2028 and 2030. Additionally, we have reduced our estimated interest requirements for the year 2023 by approximately \$65 million.

In addition to the Exchange Offer, we made debt repayments and completed refinancing transactions during 2022 that reduced our outstanding debt obligations and extended certain maturities of our remaining debt obligations as previously discussed under “— Liquidity and Capital Resources — Cash Flows — Financing Activities”.

Senior Secured Credit Facilities

Senior Secured Credit Facilities under the 2018 Restated Credit Agreement

On June 1, 2018, the Company and certain of its subsidiaries as guarantors entered into the “Senior Secured Credit Facilities” under the Company’s Fourth Amended and Restated Credit and Guaranty Agreement, as amended by the First Incremental Amendment to the Restated Credit Agreement, dated as of November 27, 2018 (the “2018 Restated Credit Agreement”) with a syndicate of financial institutions and investors as lenders. Prior to the 2022 Amended Credit Agreement (as defined below), the 2018 Restated Credit Agreement provided for a revolving credit facility of \$1,225 million, maturing on the earlier of June 1, 2023 and the date that is 91 calendar days prior to the scheduled maturity of indebtedness for borrowed money of the Company and Bausch Health Americas, Inc. (“BHA”) in an aggregate principal amount in excess of \$1,000 million (the “2023 Revolving Credit Facility”) and additional information regarding long term loan facilities of original principal amounts of \$4,565 million and \$1,500 million, maturing in June 2025 (the “June 2025 Term Loan B Facility”) and November 2025 (the “November 2025 Term Loan B Facility”), respectively.

Senior Secured Credit Facilities under the 2022 Amended Credit Agreement

On May 10, 2022, the Company and certain of its subsidiaries as guarantors entered into a Second Amendment (the “Second Amendment”) to the Fourth Amended and Restated Credit and Guaranty Agreement (as amended by the Second Amendment, the “2022 Amended Credit Agreement”). The 2022 Amended Credit Agreement provides for a new term loan facility with an aggregate principal amount of \$2,500 million (the “2027 Term Loan B Facility”) maturing on February 1, 2027 and a new revolving credit facility of \$975 million (the “2027 Revolving Credit Facility”) that will mature on the earlier of February 1, 2027 and the date that is 91 calendar days prior to the scheduled maturity of indebtedness for borrowed money of the Company and BHA in an aggregate principal amount in excess of \$1,000 million. Borrowings under the 2027 Revolving Credit Facility can be made in U.S. dollars, Canadian dollars or Euros. After giving effect to the Second Amendment, the 2023 Revolving Credit Facility, June 2025 Term Loan B Facility and November 2025 Term Loan B Facility were refinanced (such refinancing, the “Credit Agreement Refinancing”), along with certain of the Company’s existing senior notes, using net proceeds from the borrowings under the 2027 Term Loan B Facility, the B+L IPO and the B+L Debt Financing (as defined

below) and available cash on hand. As of December 31, 2022, the Company had drawn \$470 million on the 2027 Revolving Credit Facility.

Borrowings under the 2027 Term Loan B Facility bear interest at a rate per annum equal to, at the Company’s option, either: (a) a forward-looking term rate determined by reference to the financing rate for borrowing U.S. dollars overnight collateralized by U.S. Treasury securities (“term SOFR rate”) for the interest period relevant to such borrowing or (b) a base rate determined by reference to the highest of: (i) the prime rate (as defined in the 2022 Amended Credit Agreement), (ii) the federal funds effective rate plus 1/2 of 1.00% and (iii) the term SOFR rate for a period of one month plus 1.00% (or if such rate shall not be ascertainable, 1.50%) (provided, however that the term SOFR rate with respect to the 2027 Term Loan B Facility shall at no time be less than 0.50% per annum), in each case, plus an applicable margin.

Borrowings under the 2027 Revolving Credit Facility in: (i) U.S. dollars bear interest at a rate per annum equal to, at the Company’s option, either: (a) the term SOFR rate (subject to a floor of 0.00% per annum) or (b) a U.S. dollar base rate, (ii) Canadian dollars bear interest at a rate per annum equal to, at the Company’s option, either: (a) a Canadian dollar offer rate or (b) a Canadian dollar prime and (iii) euros bear interest at a rate per annum equal to a term benchmark rate determined by reference to the cost of funds for euro deposits (“EURIBOR”) for the interest period relevant to such borrowing (subject to a floor of 0.00% per annum), in each case, plus an applicable margin. Term SOFR rate loans are subject to a credit spread adjustment ranging from 0.10%-0.25%. The applicable interest rate margin for borrowings under the 2027 Term Loan B Facility is 5.25% for term SOFR rate loans and 4.25% for U.S. dollar base rate loans. The applicable interest rate margin for borrowings under the 2027 Revolving Credit Facility ranges from 4.75% to 5.25% for term SOFR rate loans, BA rate loans and EURIBOR loans and 3.75% to 4.25% for U.S. dollar base rate loans and Canadian prime rate loans.

In addition, the Company is required to pay commitment fees of 0.25%-0.50% per annum with respect to the unutilized commitments under the 2027 Revolving Credit Facility, payable quarterly in arrears. The Company also is required to pay: (i) letter of credit fees on the maximum amount available to be drawn under all outstanding letters of credit in an amount equal to the applicable margin on term SOFR rate borrowings under the 2027 Revolving Credit Facility on a per annum basis, payable quarterly in arrears, (ii) customary fronting fees for the issuance of letters of credit and (iii) agency fees.

Subject to certain exceptions and customary baskets set forth in the 2022 Amended Credit Agreement, the Company is required to make mandatory prepayments of the loans under the Senior Secured Credit Facilities under certain circumstances, including from: (i) 100% of the net cash proceeds of insurance and condemnation proceeds for property or asset losses (subject to reinvestment rights and net proceeds thresholds), (ii) 100% of the net cash proceeds from the incurrence of debt (other than permitted debt as described in the 2022 Amended Credit Agreement), (iii) 50% of Excess Cash Flow (as defined in the 2022 Amended Credit Agreement) subject to decrease based on leverage ratios and subject to a threshold amount and (iv) 100% of net cash

proceeds from asset sales (subject to reinvestment rights and net proceeds thresholds). These mandatory prepayments may be used to satisfy future amortization.

The amortization rate for the 2027 Term Loan B Facility is 5.00% per annum, or \$125 million, payable in quarterly installments beginning on September 30, 2022. The Company may direct that prepayments be applied to such amortization payments in order of maturity. As of December 31, 2022, the remaining mandatory quarterly amortization payments for the 2027 Term Loan B Facility were \$500 million through December 2026.

The 2022 Amended Credit Agreement permits the incurrence of incremental credit facility borrowings up to the greater of \$1,000 million and 40% of Consolidated Adjusted EBITDA (non-GAAP) (as defined in the 2022 Amended Credit Agreement), subject to customary terms and conditions, as well as the incurrence of additional incremental credit facility borrowings subject to, in the case of secured debt, a secured leverage ratio of not greater than 3.50:1.00, and, in the case of unsecured debt, either a total leverage ratio of not greater than 6.50:1.00 or an interest coverage ratio of not less than 2.00:1.00.

The 2022 Amended Credit Agreement provides that Bausch + Lomb shall initially be a "restricted" subsidiary subject to the terms of the 2022 Amended Credit Agreement covenants but does not require Bausch + Lomb to guarantee the obligations under the 2022 Amended Credit Agreement. The 2022 Amended Credit Agreement permits the Company to designate Bausch + Lomb as an "unrestricted" subsidiary under the 2022 Amended Credit Agreement and no longer subject to the terms of the covenants thereunder provided that no event of default is continuing or will result from such designation and the total leverage ratio of Remainco (as defined in the 2022 Amended Credit Agreement) will not be greater than 7.60:1.00 on a pro forma basis. The Credit Agreement Refinancing contains provisions designed to facilitate the B+L Separation, debt.

Senior Secured Credit Facilities under the B+L Credit Agreement

On May 10, 2022, Bausch + Lomb entered into a credit agreement (the "B+L Credit Agreement", and the credit facilities thereunder, the "B+L Credit Facilities") providing. Prior to the September 2023 Credit Facility Amendment (as defined below), the Credit Agreement provided for a term loan of \$2,500 million \$2,500 million with a five-year term to maturity (the "B+L May 2027 Term Loan B Facility") and a five-year revolving credit facility of \$500 million \$500 million (the "B+L Revolving Credit Facility").

financing. On September 29, 2023, Bausch + Lomb entered into an incremental term loan facility secured on a pari passu basis with its existing B+L May 2027 Term Loan B Facility. This incremental term loan facility was entered into in the form of an incremental amendment (the "September 2023 Credit Facility Amendment") to Bausch + Lomb's existing Credit Agreement (the Credit Agreement, as amended by the September 2023 Credit Facility Amendment, the "B+L Debt Financing" Amended Credit Agreement") and consisted of borrowings of \$500 million in new term B loans with a five-year term to maturity (the "B+L September 2028 Term Loan B Facility" and, together with the B+L May 2027 Term Loan B Facility and the B+L Revolving Credit Facility, the "B+L Senior Secured Credit Facilities"). A portion of the proceeds from the B+L September 2028 Term Loan B Facility and the B+L October 2028 Secured Notes were used to finance the \$1,750 million upfront payment related to the XIIDRA Acquisition (as discussed further in Note 3, "ACQUISITIONS, LICENSING AGREEMENTS AND DIVESTITURE" to our audited Consolidated Financial Statements) and related acquisition and financing costs.

The B+L Senior Secured Credit Facilities are secured by substantially all of the assets of Bausch + Lomb and its material, wholly-owned Canadian, U.S., Dutch and Irish subsidiaries, subject to certain exceptions. The term loan is B+L May 2027 Term Loan B Facility and B+L September 2028 Term Loan B Facility are denominated in U.S. dollars, and borrowings under the revolving credit facility will B+L Revolving Credit Facility may be made available in U.S. dollars, euros, pounds sterling and Canadian dollars. As of December 31, 2022 December 31, 2023, the principal amount outstanding under the B+L Term Facility was \$2,488 million and \$2,439 million net of issuance costs. The B+L Revolving Credit Facility remained undrawn.

Borrowings under the B+L Revolving Credit Facility in: (i) U.S. dollars bear had \$275 million of outstanding borrowings, \$26 million of issued and outstanding letters of credit and \$199 million of remaining availability.

On September 29, 2023, Bausch + Lomb issued \$1,400 million aggregate principal amount of 8.375% Senior Secured Notes due October 2028. A portion of the proceeds from the B+L October 2028 Secured Notes, along with the proceeds of B+L September 2028 Term Loan B Facility, were used to finance the \$1,750 million upfront payment related to the XIIDRA Acquisition (as discussed above) and related acquisition and financing costs. The B+L October 2028 Secured Notes accrue interest at a rate of 8.375% per annum equal year, payable semi-annually in arrears on each April 1 and October 1, commencing on April 1, 2024. See Note 10, "FINANCING ARRANGEMENTS" to at Bausch + Lomb's option, either: (a) our audited Consolidated Financial Statements for further details.

Accounting for the Exchange Offer

The Company performed an assessment of the Exchange Offer and determined that it met the criteria to be accounted for as a term troubled debt restructuring under Accounting Standards Codification 470-60. As a result of the application of this accounting, the difference between the principal amount of the New Secured Overnight Financing Rate ("SOFR")-based rate or (b) Notes and their carrying value was recorded as a U.S. dollar base rate, (ii) Canadian dollars bear premium and is included in long-term debt on the Company's Consolidated Balance Sheet.

The original premium recorded on the New Secured Notes was \$1,835 million, which will be reduced as contractual interest payments are made on the New Secured Notes. The portion of each contractual interest payment allocated to reduce the recorded premium is determined as the difference between the payment due and the calculated interest at a rate per annum equal to, at Bausch + Lomb's option, either: (a) Canadian Dollar Offered Rate ("CDOR") or (b) a Canadian dollar prime rate, (iii) euros bear interest at a rate per annum equal to EURIBOR and (iv) pounds sterling bear interest at a rate per annum equal to

Sterling Overnight Index Average ("SONIA") (provided, however, that the term SOFR-based rate, CDOR, EURIBOR and SONIA shall be no less than 0.00% per annum at any time and the U.S. dollar base rate and the Canadian dollar prime rate shall be no less than 1.00% per annum at any time), in each case, plus an applicable margin. Term SOFR-based loans are subject to a credit spread adjustment of 0.10%.

The applicable effective interest rate margins for borrowings under the B+L Revolving Credit Facility are: (i) between 0.75% to 1.75% with respect to U.S. dollar base rate or Canadian dollar prime rate borrowings and between 1.75% to 2.75% with respect to term SOFR, EURIBOR, SONIA or CDOR borrowings based on Bausch + Lomb's total net leverage ratio and (ii) after: (x) Bausch + Lomb's senior unsecured non-credit-enhanced long term indebtedness for borrowed money receives an investment grade rating from at least two of S&P, Moody's and Fitch and (y) the B+L Term Facility has been repaid in full in cash (the "IG Trigger"), between 0.015% to 0.475% with respect to U.S. dollar base rate or Canadian dollar prime rate borrowings and between 1.015% to 1.475% with respect to SOFR, EURIBOR, SONIA or CDOR borrowings based on Bausch + Lomb's debt rating. In addition, Bausch + Lomb is required to pay commitment fees of 0.25% per annum in respect of the unutilized commitments under the B+L Revolving Credit Facility, payable quarterly in arrears until the IG Trigger and a facility fee between 0.110% to 0.275% underlying carry amount of the total revolving commitments, whether used or unused, based on Bausch + Lomb's debt rating associated note. During 2023, contractual interest related to the New Secured Notes was \$321 million, of which \$282 million was recorded as a reduction of the recorded premium.

The following table presents the future scheduled contractual interest payments of the New Secured Notes. Contractual interest payments will be allocated to the reduction of the recorded premium and payable quarterly interest expense as presented below. The amount of interest which reduces the recorded premium will be reported as a financing activity in arrears. Bausch + Lomb is also required the Consolidated Statements of Cash Flows.

See Note 10, "FINANCING ARRANGEMENTS" to pay letter of credit fees our audited Consolidated Financial Statements for further details on the maximum amount available to be drawn under all outstanding letters of credit in an amount equal to the applicable margin on SOFR borrowings under the B+L Revolving Credit Facility on a per annum basis, payable quarterly in arrears, as well as customary fronting fees accounting for the issuance of letters of credit and agency fees.

Borrowings under the B+L Term Facility bear interest at a rate per annum equal to, at Bausch + Lomb's option, either (i) a term SOFR-based rate plus an applicable margin of 3.25% or (ii) a US dollar base rate plus an applicable margin of 2.25% (provided, however, that the term SOFR-based rate shall be no less than 0.50% per annum at any time and the U.S. dollar base rate shall not be lower than 1.50% per annum at any time). Term SOFR-based loans are subject to a credit spread adjustment of 0.10%.

Subject to certain exceptions and customary baskets set forth in the B+L Credit Agreement, Bausch + Lomb is required to make mandatory prepayments of the loans under the B+L Term Facility under certain circumstances, including from: (i) 100% of the net cash proceeds of insurance and condemnation proceeds for property or asset losses (subject to reinvestment rights, decrease based on leverage ratios and net proceeds threshold), (ii) 100% of the net cash proceeds from the incurrence of debt (other than permitted debt as described in the B+L Credit Agreement), (iii) 50% of Excess Cash Flow (as defined in the B+L Credit Agreement) subject to decrease based on leverage ratios and subject to a threshold amount and (iv) 100% of net cash proceeds from asset sales (subject to reinvestment rights, decrease based on leverage ratios and net proceeds threshold). These mandatory prepayments may be used to satisfy future amortization.

The amortization rate for the B+L Term Facility is 1.00% per annum and the first installment was paid on September 30, 2022. Bausch + Lomb may direct that prepayments be applied to such amortization payments in order of maturity. As of December 31, 2022, the remaining mandatory quarterly amortization payments for the Term Facility were \$106 million through March 2027, with the remaining term loan balance being due in May 2027. Exchange Offer.

Senior Secured Notes

The Senior Secured Notes are guaranteed by each of the Company's subsidiaries that is a guarantor under the 2022 Amended Credit Agreement and existing Senior Unsecured Notes (together, the "Note Guarantors"). The Senior Secured Notes and the guarantees related thereto are senior obligations and are secured, subject to permitted liens and certain other exceptions, by the same first priority liens that secure the Company's obligations under the 2022 Amended Credit Agreement under the terms of the indentures governing the Senior Secured Notes.

The Senior Secured Notes and the guarantees rank equally in right of repayment with all of the Company's and Note Guarantors' respective existing and future unsubordinated indebtedness and senior to the Company's and Note Guarantors' respective future subordinated indebtedness. The Senior Secured Notes and the guarantees related thereto are effectively *pari*

passu with the Company's and the Note Guarantors' respective existing and future indebtedness secured by a first priority lien on the collateral securing the Senior Secured Notes and effectively senior to the Company's and the Note Guarantors' respective existing and future indebtedness that is unsecured, including the existing Senior Unsecured Notes, or that is secured by junior liens, in each case to the extent of the value of the collateral. In addition, the Senior Secured Notes are structurally subordinated to: (i) all liabilities of any of the Company's subsidiaries that do not guarantee the Senior Secured Notes and (ii) any of the Company's debt that is secured by assets that are not collateral.

Upon the occurrence of a change in control (as defined in the indentures governing the Senior Secured Notes), unless the Company has exercised its right to redeem all of the notes of a series, holders of the Senior Secured Notes may require the Company to repurchase such holder's notes, in whole or in part, at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest.

New BHC Secured Notes

The 11.00% First Lien Secured Notes mature on September 30, 2028, and have a stated interest of 11.00% per year that is payable semi-annually in arrears on each March 30 and September 30. The 11.00% First Lien Secured Notes are redeemable, in whole or in part, at any time at a price equal to 100% of the principal amount thereof, plus accrued and unpaid interest to, but not including the date of redemption plus a "make-whole" premium as described in the 11.00% First Lien Secured Notes indenture.

The 14.00% Second Lien Secured Notes mature on October 15, 2030, and have a stated interest of 14.00% per year that is payable semi-annually in arrears on each April 15 and October 15. The 14.00% Second Lien Secured Notes will be redeemable, in whole or in part, at any time on or after October 15, 2025 at the applicable redemption prices set forth in the 14.00% Second Lien Secured Notes indenture. In addition, some or all of the 14.00% Second Lien Secured Notes may be redeemed prior to October 15, 2025 at a price equal to 100% of the principal amount thereof, plus accrued and unpaid interest to, but not including the date of redemption plus a "make-whole" premium as described in the 14.00% Second Lien Secured Notes indenture. At any time prior to October 15, 2025, up to 40% of the aggregate principal amount of the 14.00% Second Lien Secured Notes may be redeemed with the net proceeds of certain equity offerings at the redemption price set forth in the 14.00% Second Lien Secured Notes indenture.

9.00% Intermediate Holdco Secured Notes

The 9.00% Intermediate Holdco Secured Notes mature on January 30, 2028, and have a stated interest of 9.00% per year that is payable semi-annually in arrears on each January 30 and July 30. The 9.00% Intermediate Holdco Secured Notes are redeemable at the option of Intermediate Holdco, in whole or in part, at any time, at the redemption prices set forth in the 9.00% Intermediate Holdco Secured Notes indenture.

The 9.00% Intermediate Holdco Secured Notes are general senior secured obligations of Intermediate Holdco and secured by first priority liens (subject to permitted liens and certain other exceptions) on substantially all of the assets of Intermediate Holdco, which as of December 31, 2022 were comprised of 38.6% of the issued and outstanding common shares of Bausch + Lomb Corporation. The 9.00% Intermediate Holdco Secured Notes and Intermediate Holdco's other obligations under the indenture governing such notes are not obligations or responsibilities of, or guaranteed by, the Company, Bausch + Lomb or any of their respective affiliates or subsidiaries (other than the issuer Intermediate Holdco). The sole recourse of the holders of the 9.00% Intermediate Holdco Secured Notes under the 9.00% Intermediate Holdco Secured Notes and the indenture governing such notes is limited to Intermediate Holdco and its assets.

The aggregate principal amount of our Senior Secured Notes and 9.00% Intermediate Holdco Secured Notes as of December 31, 2022 and 2021 was \$7,905 million and \$3,850 million, respectively, an increase of \$4,055 million. The increase is attributable to: (i) the issuance of the New BHC Secured Notes and the issuance of the 9.00% Intermediate Holdco Secured Notes in connection with the Exchange Offer as previously discussed and (ii) the issuance of the February 2027 Secured Notes as previously discussed, partially offset by the repurchase of \$70 million of secured notes in the open market.

Senior Unsecured Notes

The Senior Unsecured Notes issued by the Company are the Company's senior unsecured obligations and are jointly and severally guaranteed on a senior unsecured basis by each of its subsidiaries that is a guarantor under the 2022 Amended Credit Agreement. The Senior Unsecured Notes issued by BHA are senior unsecured obligations of BHA and are jointly and severally guaranteed on a senior unsecured basis by the Company and each of its subsidiaries (other than BHA) that is a guarantor under the 2022 Amended Credit Agreement. Future subsidiaries of the Company and BHA, if any, may be required to guarantee the Senior Unsecured Notes. In connection with the closing of the B+L IPO, the discharge of the April 2025 Unsecured Notes Indenture

and the related release under the 2022 Amended Credit Agreement described above, the guarantees and related security provided by Bausch + Lomb and its subsidiaries in respect of the existing senior notes of the Company and BHA were released.

If the Company experiences The Senior Notes and Secured Notes are guaranteed by a change in control, the Company may be required to make an offer to repurchase each series of Senior Unsecured Notes, in whole or in part, at a purchase price equal to 101% portion of the aggregate principal amount Company's subsidiaries. On a non-consolidated basis, the non-guarantor subsidiaries had total assets of the Senior Unsecured Notes repurchased, plus accrued \$16,306 million and unpaid interest, \$12,800 million and total liabilities of \$9,497 million and \$5,401 million as of December 31, 2023 and 2022, and revenues of \$4,653 million and \$4,164 million and operating income of \$119 million and \$114 million for 2023 and 2022, respectively.

The aggregate principal amount of our Senior Unsecured Notes as of December 31, 2022 December 31, 2023 and 2021 2022 was \$5,798 million \$5,791 million and \$14,900 million \$5,798 million, respectively, a decrease of \$9,102 million \$7 million, attributable to: (i) Existing Unsecured Notes of \$5,594 million validly tendered and accepted in connection with the Exchange Offer, (ii) the redemption in full of \$2,650 million of April 2025 Unsecured Notes and (iii) to the repurchase and retirement of certain outstanding Senior Unsecured Notes in the open market with an aggregate par value of approximately \$857 \$8 million.

Accounts Receivable Credit Facility

On June 30, 2023, we entered into the AR Credit Facility with certain third-party lenders, providing for a non-recourse financing facility collateralized by certain of the Company's accounts receivable. The AR Facility Agreement provides for an up to \$600 million facility, subject to certain borrowing base tests. Under the AR Credit Facility, the Borrower purchases accounts receivable, originated by a wholly-owned subsidiary of Bausch Health, which collateralize borrowings under the AR Credit Facility. The Borrower is a bankruptcy remote entity that is unrestricted under the Company's debt covenants, and which is consolidated by the Company.

Borrowings under the AR Credit Facility are in U.S. dollars and bear interest at a rate per annum equal to, the sum of the one month term SOFR plus 6.65%. The Company is required to pay commitment fees of 0.75% multiplied by the lesser of: (i) the unfunded portion of the lenders' commitments or (ii) 50% of the total lenders' commitments.

See Note 10, "FINANCING ARRANGEMENTS" to our audited Consolidated Financial Statements for further additional details.

Availability Under Revolving Credit Facilities

As of the date of this filing, February 23, 2023 February 22, 2024, there were \$420 million of no outstanding borrowings, \$25 \$23 million of issued and outstanding letters of credit and approximately \$530 \$950 million of remaining availability under the 2027 Revolving Credit Facility.

As of February 22, 2024, we have \$325 million of outstanding borrowings, in the date aggregate, and the AR Facility Agreement provides for up to an additional \$275 million of this filing, February 23, 2023 availability, subject to certain borrowing base tests.

As of February 22, 2024, there were no \$225 million of outstanding borrowings, \$24 million \$26 million of issued and outstanding letters of credit and \$476 million \$249 million remaining availability under the B+L Revolving Credit Facility. Absent the payment of a dividend, which would be determined by the Board of Directors of Bausch + Lomb and paid pro rata to Bausch + Lomb's shareholders, proceeds from the B+L Revolving Credit Facility are not available to fund the operations, investing and financing activities of Bausch Health.

Covenant Compliance

As of December 31, 2023, the Company was in compliance with the financial maintenance covenant related to its outstanding debt. The Company, based on its current forecast for the next twelve months from the date of issuance of this Form 10-K, expects to remain in compliance with the financial maintenance covenant and meet its debt service obligations over that same period.

Any inability to comply with the covenants under the terms of our 2022 Amended Credit Agreement, Senior Secured Notes indentures or Senior Unsecured Notes indentures could lead to a default or an event of default for which we may need to seek relief from our lenders and noteholders in order to waive the associated default or event of default and avoid a potential acceleration of the related indebtedness or cross-default or cross-acceleration to other debt. There can be no assurance that we would be able to obtain such relief on commercially reasonable terms or otherwise and we may be required to incur significant additional costs. In addition, the lenders under our 2022 Amended Credit Agreement, holders of our Senior Secured Notes and holders of our Senior Unsecured Notes may impose additional operating and financial restrictions on us as a condition to granting any such waiver.

Since 2017 through the date As of this filing, the Company completed several actions which included repaying debt with proceeds from divestitures and cash flows from operations, as well as refinancing debt with near term maturities. These actions have reduced the Company's debt balance and positively affected the Company's ability to comply with its financial maintenance covenant.

On November 29, 2022 December 31, 2023, the Company designated 1261229 B.C. Ltd., the entity that directly or indirectly holds 89% held 88% of the issued and outstanding shares of Bausch + Lomb, as an unrestricted subsidiary of the Company in accordance with the terms of the Company's indentures. In connection therewith, Bausch + Lomb and its subsidiaries, are now unrestricted subsidiaries of the Company and, as a result, are no longer subject to the covenants under the relevant Bausch Health indentures, and the earnings and debt of Bausch + Lomb, as defined in the relevant indentures, are also not included in the calculation of the Company's financial maintenance covenant.

As of December 31, 2022, the Company was in compliance with the financial maintenance covenant related to its outstanding debt. The Company, based on its current forecast for the next twelve months from the date of issuance of this Form 10-K, expects to remain in compliance with the financial maintenance covenant and meet its debt service obligations over that same period.

The Company continues to take steps to seek to improve its operating results to ensure continual compliance with its financial maintenance covenant and take other actions to reduce its debt levels to align with the Company's long-term strategy. The Company may consider taking other actions, including divesting other businesses, refinancing debt and issuing equity or equity-linked securities including secondary offerings of the common shares of Bausch + Lomb, as deemed appropriate, to provide additional coverage in complying with the financial maintenance covenant and meeting its debt service obligations.

The Senior Notes and Secured Notes are guaranteed by a portion of the Company's subsidiaries. On a non-consolidated basis, the non-guarantor subsidiaries had total assets of \$12,800 million and \$2,161 million and total liabilities of \$5,401 million and \$942 million as of December 31, 2022 and 2021, respectively. On a non-consolidated basis, the non-guarantor subsidiaries had revenues of \$4,164 million and \$1,755 million for 2022 and 2021, respectively. On a non-consolidated basis, the non-guarantor subsidiaries had operating income of \$114 million and \$116 million for 2022 and 2021, respectively.

Weighted Average Interest Rate

The accounting for the Exchange Offer results in the New Secured Notes being carried at a premium relative to their principal amount and will result in no interest expense being recorded in our financial statements for a significant portion of the New Secured Notes. Therefore, interest expense recorded in our consolidated financial statements will differ significantly from the contractual interest rates of the New Secured Notes and term loan facilities. The weighted average interest rate of our debt as reported in our financial statements and the weighted average stated rate of interest was 6.13% 6.59% and 7.74% 8.05%, respectively, as of December 31, 2022 December 31, 2023.

The weighted average stated rate of interest of the Company's outstanding debt as of December 31, 2021 was 5.88%. The increase in the weighted average stated rate of interest of 186 bps is due to the issuance of the New Secured Notes in connection with the Exchange Offer.

See Note 10, "FINANCING ARRANGEMENTS" to our audited Consolidated Financial Statements for further details.

Focus on Capitalization of the Post-separation Entities

In connection with the B+L Separation, we have emphasized that it is important that the post-separation entities be well-capitalized, with appropriate leverage and with access to additional capital, if and when needed, to provide each entity with the ability to independently allocate capital to areas that will strengthen their own competitive positions in their respective lines of business and position each entity for sustainable growth. Therefore, we see the appropriate capitalization and leverage of these businesses post-separation as a key to bringing out the maximum value across our portfolio of assets and it continues to be a primary objective of our plan of separation.

Credit Ratings

As of February 23, 2023 February 22, 2024, the credit ratings and outlook from Moody's, Standard & Poor's and Fitch for certain outstanding obligations of the Company were as follows:

Rating Agency	Bausch Health Companies Inc.				Bausch + Lomb Corporation			
	Corporate Rating	Senior Secured Rating	Senior Unsecured Rating	Outlook	Corporate Rating	Senior Secured Rating	Outlook	
Moody's	Caa2	Caa1	Ca	Negative		B1	Negative	
Standard & Poor's	CCC	CCC+	CCC-	Negative	B-	CCC	Stable	B- B- Positive
Fitch	CCC	B	CC C	No Outlook	B-	BB-	Rating Watch Evolving	

Bausch Health Companies Inc. - On September 30, 2022 October 3, 2023, Moody's downgraded all ratings to: a corporate rating of Caa2, a senior secured rating of Caa1 and a Fitch lowered its senior unsecured rating of Ca. On October 4, 2022, S&P lowered its senior secured rating to B-. On October 6, 2022, Fitch downgraded all ratings to: a corporate rating of CCC, a senior secured rating of B and a senior unsecured rating of CC. These downgrades were a result of the Exchange Offer (see Note 10, "FINANCING ARRANGEMENTS" to our audited Consolidated Financial Statements). C.

Bausch + Lomb Corporation - During December 2022, S&P upgraded these There were no changes to the corporate credit ratings one notch from CCC+ to B-, as a result of BHC designating Bausch + Lomb Corporation during the fourth quarter of 2023, as an unrestricted subsidiary under compared to the BHC Credit Agreement and the BHC Indentures, third quarter of 2023.

Any downgrade in our corporate credit ratings or other credit ratings may increase our cost of borrowing and may negatively impact our ability to raise additional debt capital.

OFF-BALANCE SHEET ARRANGEMENTS AND CONTRACTUAL OBLIGATIONS

We have no off-balance sheet arrangements that have a material current effect or that are reasonably likely to have a material future effect on our results of operations, financial condition, capital expenditures, liquidity, or capital resources.

Our other future cash requirements relate to working capital, capital expenditures, business development transactions (contingent consideration), restructuring, integration, separation and IPO costs, benefit obligations and litigation settlements. In addition, we may use cash to enter into licensing arrangements and/or to make strategic acquisitions. We are considering further acquisition opportunities within our core therapeutic areas, some of which could be sizable.

In addition to our working capital requirements, as of ~~December 31, 2022~~ December 31, 2023, we expect our primary cash requirements for ~~2023~~ 2024 to include:

- *Debt repayments and interest payments*—Based on our debt portfolio, we expect to make mandatory amortization and interest payments of ~~\$1,649~~ approximately \$1,800 million during ~~2023~~, 2024. We have and, in the future, may also elect to make additional principal payments under certain circumstances. Further, in the ordinary course of business, we may borrow and repay additional amounts under our credit facilities using cash on hand, cash from operations and cash provided from the sale of common stock and additional debt financings in connection with the B+L Separation;
- *Capital expenditures*—We expect to make payments of approximately ~~\$275~~ \$320 million for property, plant and equipment during ~~2023~~;
- *Milestones*—As previously discussed, we filed an NDA for NOV03 with the FDA in June 2022. If approved, we anticipate launching NOV03 in the U.S. in the second half of 2023, upon which we expect to make a payment of \$45 million in 2023, under the terms of a December 2019 agreement with Novaliq GmbH, related to the future sales associated with NOV03, ~~2024~~;
- *Contingent consideration and milestone payments*—We expect to make contingent consideration and other development/approval/sales-based milestone payments of approximately ~~\$112~~ \$40 million during ~~2023~~, 2024 and;
- *Benefit obligations*—We expect to make aggregate payments under our pension and postretirement obligations of ~~\$8~~ \$11 million during ~~2023~~, 2024. See Note 11, "PENSION AND POSTRETIREMENT EMPLOYEE BENEFIT PLANS" to our audited Consolidated Financial Statements for further details of our benefit ~~obligations~~; and ~~obligations~~.

Future Costs of B+L Separation

The Company has incurred costs associated with activities to complete the B+L Separation and the suspended Solta IPO and will continue to incur costs associated with the B+L Separation. These activities include the costs of: (i) separating Bausch + Lomb businesses from the remainder of the Company and (ii) registering Bausch + Lomb as an independent publicly traded entity. Separation and IPO costs are incremental costs directly related to the B+L Separation and Solta IPO and include, but are not limited to: (i) legal, audit and advisory fees, (ii) talent acquisition costs and (iii) costs associated with establishing new boards of directors and related board committees for Bausch + Lomb. The Company has also incurred, and will incur, separation-related and IPO-related costs which are incremental costs indirectly related to the B+L Separation. These costs include, but are not limited to: (i) IT infrastructure and software licensing costs, (ii) rebranding costs and (iii) costs associated with facility relocation and/or modification. The extent and timing of future charges for these costs cannot be reasonably estimated at this time and could be material.

Litigation Payments

In the ordinary course of business, the Company is involved in litigation, claims, government inquiries, investigations, charges and proceedings. During 2022, we made \$1,572 million in payments of accrued legal settlements including payments related to the Securities Class Action Settlement, the Glumetza Antitrust Litigation and a RICO class action matter. As of ~~December 31, 2022~~ December 31, 2023, the Company's Consolidated Balance Sheet includes accrued loss contingencies of ~~\$326~~ \$344 million related to matters which are both probable and reasonably estimable, however, a reliable estimate of the period in which the remaining loss contingencies will be payable, if ever, cannot be made. Our ability to successfully defend the Company against pending and future litigation may impact future cash flows.

See Note 20, "LEGAL PROCEEDINGS" to our audited Consolidated Financial Statements for further details.

Future Cost Savings Programs

We continue to evaluate opportunities to improve our operating results and may initiate additional cost savings programs to streamline our operations and eliminate redundant processes and expenses. These cost savings programs may include, but are not limited to: (i) reducing headcount, (ii) eliminating real estate costs associated with unused or under-utilized facilities and

(iii) implementing contribution margin improvement and other cost reduction initiatives. The expenses associated with the implementation of these cost savings programs could be material and may impact our cash flows.

Future Licensing Payments

In the ordinary course of business, the Company may enter into select licensing and collaborative agreements for the commercialization and/or development of unique products primarily in the U.S. and Canada. In connection with these agreements, the Company may pay an upfront fee to secure the agreement. See Note 3, "ACQUISITIONS, LICENSING AGREEMENTS AND DIVESTITURE" to our audited Consolidated Financial Statements. Payments associated with the upfront fee for these agreements cannot be reasonably estimated at this time and could be material.

Unrecognized Tax Benefits

As of **December 31, 2022** **December 31, 2023**, the Company had unrecognized tax benefits totaling **\$4 million** **\$30 million** which are expected to be realized within the next twelve months.

Future Repurchases of Debt

The Company regularly evaluates market conditions, its liquidity profile, and various financing alternatives for opportunities to enhance its capital structure. If opportunities are favorable, we may, from time to time, purchase outstanding debt for cash in open market purchases or privately negotiated transactions. Such repurchases or exchanges, if any, will depend on prevailing market conditions, future liquidity requirements, contractual restrictions and other factors.

OUTSTANDING SHARE DATA

Our common shares are listed on the TSX and the NYSE under the ticker symbol "BHC".

At **February 17, 2023** **February 16, 2024**, we had **362,037,191** **365,411,953** issued and outstanding common shares. In addition, as of **February 17, 2023** **February 16, 2024**, we had **10,688,071** **10,346,362** stock options and **8,868,404** **8,529,834** time-based restricted share units ("RSUs") that each represent the right of a holder to receive one of the Company's common shares and **1,467,680** **574,684** performance-based RSUs that represent the right of a holder to receive a number of the Company's common shares up to a specified maximum. A maximum of **1,100,234** **941,045** common shares could be issued upon vesting of the performance-based RSUs outstanding.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our business and financial results are affected by fluctuations in world financial markets, including the impacts of foreign currency exchange rate and interest rate movements. We evaluate our exposure to such risks on an ongoing basis and seek ways to manage these risks to an acceptable level, based on management's judgment of the appropriate trade-off between risk, opportunity and cost. We may use derivative financial instruments from time to time as a risk management tool and not for trading or speculative purposes.

Inflation; Seasonality

We are subject to price control restrictions on our pharmaceutical products in a number of countries in which we now operate. As a result, our ability to raise prices in a timely fashion in anticipation of inflation may be limited in some markets.

Historically, revenues from our business tend to be weighted toward the second half of the year. Sales in the first quarter tend to be lower as patient co-pays and deductibles reset at the beginning of each year. Sales in the fourth quarter tend to be higher based on consumer and customer purchasing patterns associated with health care reimbursement programs. However, there are no assurances that these historical trends will continue in the future.

Foreign Currency Risk

In **2022**, **2023**, a majority of our revenue and expense activities and capital expenditures were denominated in U.S. dollars. We have exposure to multiple foreign currencies, including, among others, the Euro, Chinese yuan, Polish zloty, Canadian dollar and

Mexican peso. Our operations are subject to risks inherent in conducting business abroad, including price and currency exchange controls and fluctuations in the relative values of currencies. In addition, to the extent that we require, as a source of debt repayment, earnings and cash flows from some of our operations located in foreign countries, we are subject to risk of changes in the value of the U.S. dollar, relative to all other currencies in which we operate, which may materially affect our results of operations. Where possible, we manage foreign currency risk by managing same currency revenues in relation to same currency expenses. Further strengthening of the U.S. dollar and/or further devaluation of foreign currencies will have a negative impact on our reported revenue and reported results. As of ~~December 31, 2022~~ ~~December 31, 2023~~, a 1% change in foreign currency exchange rates would have impacted our shareholders' deficit by approximately ~~\$39~~ ~~\$62~~ million.

As of ~~December 31, 2022~~ ~~December 31, 2023~~, the unrealized foreign exchange loss on the translation of the remaining principal amount of U.S. denominated credit facility, senior secured and unsecured notes was ~~\$585~~ ~~\$181~~ million, for Canadian income tax purposes. Additionally, as of ~~December 31, 2022~~ ~~December 31, 2023~~, the unrealized foreign exchange gain on certain intercompany balances was equal to ~~\$207~~ ~~\$2~~ million. One-half of any realized foreign exchange gain or loss will be included in our Canadian taxable income. Any resulting gain will result in a corresponding reduction in our available Canadian Losses, Scientific Research and Experimental Development Pool, and/or Investment Tax Credit carryforward balances. However, the repayment of the credit facility, senior notes and the intercompany loans denominated in U.S. dollars does not result in a foreign exchange gain or loss being recognized in our Consolidated Financial Statements, as these statements are prepared in U.S. dollars.

Interest Rate Risk

We currently do not hold financial instruments for speculative purposes. Our financial assets are not subject to significant interest rate risk due to their short duration. The primary objective of our policy for the investment of temporary cash surpluses is the protection of principal, and accordingly, we generally invest in high quality, money market investments and time deposits with varying maturities, but typically less than three months. As it is our intent and policy to hold these investments until maturity, we do not have a material exposure to interest rate risk.

As of ~~December 31, 2022~~ ~~December 31, 2023~~, we had ~~\$13,715 million~~ ~~\$15,108 million~~ and ~~\$5,395~~ ~~\$5,899~~ million principal amount of issued fixed rate debt and variable rate debt, respectively. The estimated fair value of our issued fixed rate debt as of ~~December 31, 2022~~ ~~December 31, 2023~~ was ~~\$9,317~~ ~~\$10,837~~ million. If interest rates were to increase by 100 basis-points, the fair value of our issued fixed rate debt would decrease by approximately ~~\$323~~ ~~\$300~~ million. If interest rates were to decrease by 100 basis-points, the fair value of our issued fixed rate debt would increase by approximately ~~\$332~~ ~~\$300~~ million. We are subject to interest rate risk on our variable rate debt as changes in interest rates could adversely affect earnings and cash flows. A 100 basis-points increase in interest rates, would have an annualized pre-tax effect of approximately ~~\$54~~ ~~\$59~~ million in our Consolidated Statements of Operations and Consolidated Statements of Cash Flows, based on current outstanding borrowings and effective interest rates on our variable rate debt. While our variable-rate debt may impact earnings and cash flows as interest rates change, it is not subject to changes in fair value.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Critical accounting policies and estimates are those policies and estimates that are most important and material to the preparation of our Consolidated Financial Statements, and which require management's most subjective and complex judgments due to the need to select policies from among alternatives available, and to make estimates about matters that are

inherently uncertain. We base our estimates on historical experience and other factors that we believe to be reasonable under the circumstances. On an ongoing basis, we review our estimates to ensure that these estimates appropriately reflect changes in our business and new information as it becomes available. If historical experience and other factors we use to make these estimates do not reasonably reflect future activity, our results of operations and financial condition could be materially impacted.

Revenue Recognition

The Company's revenues are primarily generated from product sales, primarily in the therapeutic areas of eye health, GI and dermatology that consist of: (i) branded pharmaceuticals, (ii) generic and branded generic pharmaceuticals, (iii) OTC products and (iv) medical devices (contact lenses, intraocular lenses, ophthalmic surgical equipment and aesthetics devices). Other revenues include alliance and service revenue from the licensing and co-promotion of products and contract service revenue primarily in the areas of dermatology and topical medication.

The Company recognizes revenue when the customer obtains control of promised goods or services and in an amount that reflects the consideration to which the Company expects to be entitled to receive in exchange for those goods or services. To achieve

this core principle, the Company applies the five-step revenue model to contracts within its scope: (i) identify the contract(s) with a customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract and (v) recognize revenue when (or as) the entity satisfies a performance obligation.

As is customary in the pharmaceutical industry, gross product sales are subject to a variety of deductions in arriving at reported net product sales. The transaction price for product sales is typically adjusted for variable consideration, which may be in the form of cash discounts, allowances, returns, rebates, chargebacks and distribution fees paid to customers. Provisions for variable consideration are established to reflect the Company's best estimates of the amount of consideration to which it is entitled based on the terms of the contract. The amount of variable consideration included in the transaction price may be constrained, and is included in the net sales price only to the extent that it is probable that a significant reversal in the amount of the cumulative revenue recognized will not occur in the future period.

Provisions for these deductions are recorded concurrently with the recognition of gross product sales revenue and include cash discounts and allowances, chargebacks, and distribution fees, which are paid to direct customers, as well as rebates and returns, which can be paid to direct and indirect customers.

The development and application of the critical accounting policies associated with the revenue recognition guidance, including the policies associated with each of our product sales provisions and the table showing the activity and ending balances for our product sales provisions, are discussed in more detail in Note 2, "SIGNIFICANT ACCOUNTING POLICIES" to our audited Consolidated Financial Statements.

Acquisition-Related Contingent Consideration

Some of the business combinations that we have consummated include contingent consideration to be potentially paid based upon the occurrence of future events, such as sales performance and the achievement of certain future development, regulatory and sales milestones. Acquisition-related contingent consideration associated with a business combination is initially recognized at fair value and remeasured each reporting period, with changes in fair value recorded in the Consolidated Statements of Operations. The estimates of fair value involve the use of acceptable valuation methods, such as probability-weighted discounted cash flow analysis and Monte Carlo Simulation (when appropriate), and contain uncertainties as they require assumptions about the likelihood of achieving specified milestone criteria, projections of future financial performance and assumed discount rates. Changes in the fair value of the acquisition-related contingent consideration result from several factors including changes in the timing and amount of revenue estimates, changes in probability assumptions with respect to the likelihood of achieving specified milestone criteria and changes in discount rates. A change in any of these assumptions could produce a different fair value, which could have a material impact on our results of operations. At **December 31, 2022** **December 31, 2023**, the fair value measurements of acquisition-related contingent consideration were determined using risk-adjusted discount rates ranging from 6% to **18%** **28%**.

Acquisitions

To determine if an acquisition should be accounted for as a business combination or an asset acquisition, the Company first determines whether the set of assets acquired and/or liabilities assumed constitutes a business. If substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or a group of similar assets acquired are not a business. To be considered a business, set of assets acquired and/or liabilities assumed must include the minimum inputs and substantive processes necessary to significantly contribute to the ability to produce outputs exist.

If the set of assets acquired and/or liabilities assumed are deemed to constitute a business, the Company accounts for the acquisition as a business combination. Under a business combination, the Company measures the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree at their acquisition-date fair values.

- The fair value of the identifiable intangible assets is determined primarily using the "income approach," which primarily consists of the following estimates and inputs: (i) a forecast of the expected future cash flows, which includes an estimated amount and timing of projected cash flows (including revenue growth rates, cost of goods sold, and operating expenses) and (ii) the risk-adjusted discount rate used to present value the cash flows. The fair value of acquired in-process research and development ("IPR&D") is also recognized at fair value using an income approach and consists of the following estimates and inputs: (i) each asset's probability-adjusted future cash flows, which reflect the different stages of development of each

product and the associated probability of successful completion and (ii) the risk-adjusted discount rate used to present value the cash flows.

- Acquisition-related contingent consideration, which primarily consists of potential milestone payments, is determined in accordance with the acquisition method of accounting. The fair value of the acquisition-related contingent consideration is remeasured each reporting period, with changes in fair value recorded in the Consolidated Statements of Operations. The fair value measurement of contingent consideration obligations arising from business combinations is determined via a probability-weighted discounted cash flow analysis, using unobservable (Level 3) inputs. These inputs may include: (i) the estimated amount and timing of projected cash flows, (ii) the probability of the achievement of the factor(s) on which the contingency is based and (iii) the risk-adjusted discount rate used to present value the probability-weighted cash flows.
- Goodwill is recorded with the acquisition and is calculated as the difference between the acquisition date fair value of the consideration transferred and the values assigned to the assets acquired and liabilities assumed.

Transaction costs and costs to restructure the acquired company are expensed as incurred and the operating results of the acquired business are reflected in the Company's audited Consolidated Financial Statements from the date of acquisition.

If the set of assets acquired and/or liabilities assumed are deemed to not constitute a business, the transaction is accounted for as an asset acquisition. Under an asset acquisition, the cost accumulation model is used to recognize the assets acquired and liabilities assumed. In this model, the cost of acquisition, including certain transaction costs, is allocated to the assets acquired on the basis of relative fair values. Goodwill is not recognized in an asset acquisition. The amount allocated to acquired IPR&D with no alternative future use is charged to Other expense at the acquisition date and any future contingent consideration is not recorded until it becomes probable.

Intangible Assets

We evaluate potential impairments of amortizable intangible assets acquired through asset acquisitions or business combinations if events or changes in circumstances indicate that the carrying amounts of these assets may not be recoverable. Our evaluation is based on an assessment of potential indicators of impairment, such as:

- an adverse change in legal factors or in the business climate that could affect the value of an asset. For example, a successful challenge of our patent rights resulting in earlier than expected generic competition;
- an adverse change in the extent or manner in which an asset is used or is expected to be used. For example, a decision not to pursue a product line-extension strategy to enhance an existing product due to changes in market conditions and/or technological advances; or
- current or forecasted reductions in revenue, operating income, or cash flows associated with the use of an asset. For example, the introduction of a competing product that results in a significant loss of market share.

Impairment exists when the carrying value of the asset exceeds the related estimated undiscounted future cash flows expected to be derived from the asset, which include the amount and timing of the projected future cash flows. If impairment exists, the carrying value of the asset is adjusted to its fair value. A discounted cash flow analysis is typically used to determine an asset's fair value, using estimates and assumptions that market participants would apply. Some of the estimates and assumptions inherent in a discounted cash flow model include the amount and timing of the projected future cash flows, and the discount rate used to reflect the risks inherent in the future cash flows. A change in any of these estimates and assumptions could produce a different fair value, which could have a material impact on our results of operations. In addition, an intangible asset's expected useful life can increase estimation risk, as longer-lived assets necessarily require longer-term cash flow forecasts, which for some of our intangible assets can be up to 20 years. In connection with an impairment evaluation, we also reassess the remaining useful life of the intangible asset and modify it, as appropriate.

Management continually assesses the useful lives of the Company's long-lived assets.

Indefinite-lived intangible assets, including Acquired in-process research and development and the B&L corporate trademark, are tested for impairment annually, or more frequently if events or changes in circumstances between annual tests indicate that the asset may be impaired. Impairment losses on indefinite-lived intangible assets are recognized based solely on a comparison of their fair value to carrying value, without consideration of any recoverability test. In particular, we will continue to monitor closely the progression of our R&D programs as their likelihood of success is contingent upon the achievement of future milestones. See Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations — Overview — Focus on Value and Core Business" Businesses for additional information regarding our R&D programs.

Goodwill

During the years 2023, 2022 2021 and 2020, 2021, we recorded goodwill impairment charges of \$824 million \$493 million, \$469 million \$824 million and \$0, \$469 million, respectively. As of December 31, 2022 December 31, 2023, we maintain 10 reporting units, eight nine of which comprise our goodwill balance.

We test our reporting units for impairment annually as of October 1, or more frequently if events or circumstances indicate it is more likely than not that the fair value of a reporting unit is less than its carrying amount. Such events and circumstances could include increased competition and unexpected loss of market share, increased input costs relative to our projections (for example due to regulatory or industry changes), disposals of significant products or components of our business, unexpected business disruptions (for example due to a natural disaster, pandemic, unexpected changes in the regulatory environment, unexpected loss of exclusivity to a significant product, loss of a supplier, or other significant business relationship), unexpected significant declines in operating results, significant adverse changes in the markets in which we operate, or changes in management strategy. During our assessment, we consider each of the above potential events and circumstances, as well as the existence of any positive and/or mitigating events and circumstances, including the difference between a reporting unit's fair value and carrying amount if determined in a recent fair value calculation ("headroom"), giving more weight to those events and circumstances that impact most significantly a reporting unit's fair value or carrying amount.

We test reporting units for impairment by comparing the estimated fair value of each reporting unit with its carrying amount. If the carrying amount of a reporting unit exceeds its estimated fair value, we record an impairment based on the difference between the fair value and carrying amount of the reporting units as a reduction to goodwill. Fair value determinations require considerable judgment and are sensitive to changes in underlying assumptions, estimates, and market factors. Estimating the fair value of individual reporting units requires us to make assumptions and estimates regarding our business strategies, as well as industry, economic, and regulatory conditions. These assumptions and estimates include estimated future annual net cash flows, income tax considerations, discount rates, growth rates and other market factors.

During 2022, 2023, we performed interim impairment assessments of our Ortho Dermatologics reporting unit within the Diversified Products segment, our Salix reporting unit, Dermatology and our Vision Care, Surgical and Ophthalmic Neurology reporting units within the Bausch + Lomb Diversified segment. Our annual goodwill impairment test as of October 1, 2022 October 1, 2023, included performing separate quantitative fair value tests for the Neurology and Other International reporting unit, the Generics reporting unit within our Diversified segment and the Diversified Products segment, as well as the Vision Care, Surgical and Ophthalmic three reporting units within the our Bausch + Lomb segment. For our remaining reporting units, we conducted our annual goodwill impairment test as of October 1, 2022 October 1, 2023, by first assessing qualitative factors. Based on our qualitative assessment as of October 1, 2022 October 1, 2023, management we believed that it was more likely than not that the carrying amounts of its the remaining reporting units were less than their respective fair values and therefore concluded that a quantitative fair value test for those reporting units was not required.

Ortho Dermatologics Dermatology

As part of our 2021 annual testing, we determined that the Ortho Dermatologics Dermatology reporting unit had approximately 10% headroom as of October 1, 2021. Given its limited headroom, we continued to monitor the market conditions impacting the Ortho Dermatologics Dermatology reporting unit during each quarterly reporting period and performed quantitative fair value testing as of March 31, 2022, June 30, 2022 and September 30, 2022. The quantitative fair value tests utilized our most recent cash flow projections for the Ortho Dermatologics Dermatology reporting unit as revised at each testing date to reflect current market conditions and current trends in business performance. Our discounted cash flow models for the reporting unit also considered among other matters, volatility in many of the equity markets and pressures on market interest rates and macroeconomic factors such as changes in inflation for many commodities. As a result of these market conditions, trends in business performance, the revisions to our long-term expectations and other factors, our Ortho Dermatologics Dermatology reporting unit was impaired during our interim testing reflecting our best estimate at that time of the outlook and risks of this business. Based on the quantitative fair value testing performed no impairment was identified during the three months ended March 31, 2022, however goodwill impairments of \$83 million and \$119 million were recorded during the three months ended June 30, 2022 and September 30, 2022, respectively. As a result, there was zero headroom in the Ortho Dermatologics Dermatology reporting unit as of September 30, 2022.

During the fourth quarter of 2022, we evaluated the reporting unit's performance as well as our revised long-term forecasts in light of current market conditions, current trends in business performance and the expected impacts of management's latest business strategies. This evaluation supported management's previous expectations for long-term business performance. Additionally, based on corporate bond rates as of December 31, 2022, we concluded that discount rates would not

have increased during the fourth quarter as compared to the discount rate used in determining the fair value of the reporting unit as of September 30, 2022. As a result, no facts or circumstances were identified which indicate indicated that additional fair value quantitative testing during the period October 1, 2022 through December 31, 2022 was necessary.

Through the nine months ended September 30, 2023, the Dermatology reporting unit performed largely in line with the forecast used in its last quantitative fair value test (September 30, 2022). During the third quarter of 2023, as a result of lower realized pricing attributable to shifts in the coverage mix for certain products, discontinuation of certain products as a result of the impact of recent legislation, and revised expectations of future selling, advertising, and promotion costs required to mitigate further revenue erosion, the Company's assessment of future business performance indicated that the reporting unit's future financial results were below the assumptions used in the last quantitative fair value test. After considering the limited headroom as a result of the impairment to goodwill of the Dermatology reporting unit when last tested (September 30, 2022), the Company determined that these changes in facts and circumstances, as well as increases in market interest rates during the three months ended September 30, 2023, the Dermatology reporting unit was impaired. The quantitative assessment utilized a long-term growth rate of 0.0% and a discount rate of 10.75% in the estimation of the reporting unit's fair value. Based on the quantitative fair value testing, a goodwill impairment of \$151 million was recognized.

Neurology

The Neurology reporting unit operates in the United States, where shifting market dynamics, including changes in payer demands (such as pharmaceutical market access and contractual pricing), health care legislation, and other regulations are contributing to increasing pressure for the reduction of healthcare costs, through both pricing of pharmaceutical products and/or directing patients to lower cost unbranded generic products. This includes recent changes related to pharmaceutical pricing by the Federal government, including the passage of the Inflation Reduction Act (IRA) in August 2022 and, effective in 2024, changes to Medicaid rebate caps (passed as part of the American Rescue Plan Act of 2021). The nature of the Neurology reporting unit's product portfolio, which includes branded generic pharmaceuticals, is by its nature more directly impacted by these changing market dynamics, creating increased pressure on the reporting unit's long-term financial performance. In response to these pressures, as well as to consider current market conditions and anticipated increased competition from new market entrants in 2023, we took steps to: (i) reassess our pricing strategies, (ii) re-evaluate our marketing and promotional efforts and (iii) reduce our cost structure, and we have revised our long-term forecasts for the Neurology reporting unit to reflect these developments. As a result of the revisions to our long-term expectations for these and other factors, goodwill for our Neurology reporting unit was impaired during our 2022 annual impairment test reflecting our best estimate at that time of the outlook and risks of this business. Based on the quantitative fair value testing performed as October 1, 2022, a \$622 million impairment to the goodwill of the Neurology reporting unit was recognized.

Through the nine months ended September 30, 2023, the Neurology reporting unit performed largely in line with the forecast used in its last quantitative fair value test (October 1, 2022). During the third quarter of 2023, as a result of actions taken by management in response to changing market dynamics driven by recent legislation, changes to the future expected commercial insurance coverage for certain key products, and a projected shift in the channels of business, the Company's assessment of future business performance indicated that the reporting unit's future financial results were below the assumptions used in the last quantitative fair value test. After considering the limited headroom as a result of the impairment to goodwill of the Neurology reporting unit when last tested (October 1, 2022), the Company determined that these changes in facts and circumstances, as well as increases in market interest rates during the three months ended September 30, 2023, the Neurology reporting unit was impaired. The quantitative assessment utilized a long-term growth rate of -2.5% and a discount rate of 10.50% in the estimation of the reporting unit's fair value. Based on the quantitative fair value testing, a goodwill impairment of \$121 million was recognized.

Generics

The Generics reporting unit operates in the United States, where shifting market dynamics have led to increased competition with respect to generic pharmaceuticals which impacts both pricing and potential market share. We expect these dynamics to intensify in the future, and as such have revised our long-term forecasts, including for the sale of Company branded products when they reach loss of exclusivity in the future to reflect these developments.

The quantitative fair value test for the Generics reporting unit utilized the most recent cash flow projections for the reporting unit as revised in the fourth quarter of 2023 to reflect current market conditions and current trends in business performance. The quantitative assessment utilized a long-term growth rate of 1.0% and a discount rate of 10.25% in the estimation of the reporting unit's fair value. As a result of the revisions to its long-term expectations for these and other factors, and based on the quantitative fair value test, goodwill for the Generics reporting unit was impaired reflecting the Company's best estimate at that time of the outlook and risks of this business. The carrying value of the Generics reporting unit exceeded its fair value as of October 1, 2023, and the Company recognized a goodwill impairment of \$91 million. As of December 31, 2023, the Generics reporting unit had remaining goodwill of \$227 million.

International

The quantitative fair value test for the International reporting unit utilized the most recent cash flow projections for the reporting unit as revised in the fourth quarter of 2023 which reflected current market conditions and current trends in business performance. The quantitative assessment utilized a long-term growth rate of 3.0% and discount rate of 12.50%, in the estimation of the fair value of the reporting unit. After completing the testing, the fair value of the reporting unit exceeded its carrying value by more than 45%, and, therefore, there was no impairment to goodwill.

Salix

On August 10, 2022, the Norwich Legal Decision was issued that held, among other matters, that certain U.S. Patents protecting the composition and use of Xifaxan® for treating IBS-D were invalid. On August 16, 2022, the Company appealed the Norwich Legal Decision and intends to vigorously defend its Xifaxan® intellectual property. See "Xifaxan® Paragraph IV Proceedings" of Note 20, "LEGAL PROCEEDINGS" to our audited Consolidated Financial Statements for further details of this litigation matter and our response.

Xifaxan® revenues represent approximately 80% of the Salix reporting unit's revenue. The ultimate outcome of the Norwich Legal Decision and other potential future related developments, including a competitor's ability to launch a successful generic version to Xifaxan®, could impact the timing and extent of future revenues and cash flows associated with Xifaxan®. As a result of the uncertainty of the possible outcomes of the Norwich Legal Decision and the potential impact on Xifaxan® revenues cash flows, we performed a quantitative fair value test as of September 30, 2022. Our quantitative fair value test used a probability-weighted discounted cash flow analysis, with a base case representing the our most recent cash flow projections as revised in the third quarter of 2022, as well as different scenarios representing a range of different outcomes which address, among other things, the range of possible outcomes of the Norwich Legal Decision and the timing of when a competitor or competitors could be able to successfully launch a generic version of Xifaxan®, if they are able to launch one at all. We assigned a probability weighting to each scenario reflecting our best estimate of likelihood of the outcome and calculated a weighted average of the valuations derived from the discounted cash flows under each scenario using this probability weighting. Under our probability-weighted valuation model the carrying value of the Salix reporting unit was less than its fair value and therefore no impairment was recorded as of September 30, 2022. However, as our probability-weighted discount valuation includes certain scenarios under which the Company does not retain market exclusivity for Xifaxan® through January 2028, the headroom for the Salix reporting was less than 5%.

Given its limited headroom, we continued to monitor market conditions affecting the Salix reporting unit, as well as any developments in the Norwich Legal Decision. Through December 31, 2022, there were no material developments in the facts and circumstances of the Norwich Legal Decision, including management's assessment as to a competitor's ability to launch a successful generic version to Xifaxan® prior to January 2028, if they are able to launch one at all. During the fourth quarter of 2022, we evaluated the reporting unit's performance as well as our revised long-term forecasts in light of current market conditions, current trends in business performance and the expected impacts of management's latest business strategies. This evaluation supported our previous expectations for long-term business performance. Additionally, based on corporate bond rates as of December 31, 2022, the Company concluded that discount rates would not have increased during the fourth quarter as compared to the discount rates used in determining the fair value of the reporting unit as of September 30, 2022. As a result, no facts or circumstances were identified which would indicate that additional fair value quantitative testing during the period October 1, 2022 through December 31, 2022 was necessary.

Neurology and Other

The Neurology and Other reporting unit operates in the United States, where shifting market dynamics, including changes in payer demands (such as pharmaceutical market access and contractual pricing), health care legislation, and other regulations are contributing to increasing pressure for the reduction of healthcare costs, through both pricing of pharmaceutical products and/ During 2023, no facts or directing patients to lower cost unbranded generic products. This includes recent changes related to pharmaceutical pricing by the Federal government, including the passage of the Inflation Reduction Act (IRA) in August 2022 and, effective in 2024, changes to Medicaid rebate caps (passed as part of the American Rescue Plan Act of 2021). The nature of the Neurology and Other reporting unit's product portfolio, circumstances were identified which includes branded generic pharmaceuticals, is by its nature more directly impacted by these changing market dynamics, creating increased pressure on the reporting unit's long-term financial performance. In response to these pressures, as well as to consider current market conditions and anticipated increased competition from new market entrants in 2023, we have begun taking steps to: (i) reassess our pricing strategies, (ii) re-evaluate our marketing and promotional efforts and (iii) reduce our cost structure, and we have revised our long-term forecasts for the Neurology and Other reporting unit to reflect these developments. As a result of the revisions to our long-term expectations for these and other factors, goodwill for our Neurology and Other reporting unit was impaired during our most recent annual impairment test reflecting our best estimate at would indicate that time of the outlook and risks of this business. Based on the quantitative additional fair value quantitative testing performed as October 1, 2022, a \$622 million impairment to the goodwill of the Neurology and Other reporting unit was recognized. necessary.

Bausch + Lomb Reporting Units

The quantitative fair value test for the Vision Care, Surgical and Ophthalmic Pharmaceuticals reporting units of the Bausch + Lomb segment as of October 1, 2022 utilized the most recent cash flow projections for each of the reporting units as revised in the fourth quarter of 2022 which reflected current market conditions and current trends in business performance. After completing

the testing, the fair value of each of these reporting units had headroom in excess of 25%, and, therefore, there was no impairment to goodwill.

The quantitative fair value test for the Vision Care, Surgical and Pharmaceuticals reporting units of the Bausch + Lomb segment as of October 1, 2023 utilized the most recent cash flow projections for each of the reporting units as revised in the fourth quarter of 2022 which reflected current market conditions and current trends in business performance. After completing the testing, the fair value of each of these reporting units had headroom in excess of 25%, and, therefore, there was no impairment to goodwill.

During the period October 1, 2022 October 1, 2023 through December 31, 2022 December 31, 2023, we continued to monitor the market conditions and trends in business performance for all our reporting units, including the Salix, Dermatology, Neurology, International and Other and Ortho Dermatologics Generics reporting units, as discussed above. We determined that, no events occurred, or circumstances changed that would indicate that

the fair value of any reporting unit might be below its carrying value as of December 31, 2022 December 31, 2023.

Our reporting units that were impaired were written down to their respective fair values resulting in zero headroom as of the applicable impairment test dates. Accordingly, these reporting units and others that have 10% or less excess fair value over carrying amount have a heightened risk of future impairments if any assumptions, estimates, or market factors change in the future. Any such impairment could be material to our results of operations in the period in which it was to occur.

Market factors outside of our control, which could result in future impairment to our reporting units, include but are not limited to: additional government-mandated pricing actions, higher than expected inflation, continued interest rate pressures, changes in medical reimbursements by third-party payors, additional unforeseen market entrants, unforeseen loss or exclusivity to significant products, changes in foreign currency exchange rates, the resurgence of COVID-19 or additional variants, unforeseen challenges to our patents including the ultimate outcome to the Norwich Legal Decision, geopolitical factors, changes in tax legislation and other significant adverse changes in the markets in which we operate. Additionally, factors such as our inability to successfully execute our business strategies, failure to attain our assumed growth rates and margins or should we decide to divest certain non-strategic assets could lead to the impairment of one or more of our reporting units in the future.

As outlined above, our quantitative fair value testing procedures performed during the three months ended September 30, 2023 and as of October 1, 2023 represented in the aggregate, approximately \$7,820 million, or 70% of our \$11,183 million goodwill balance as of December 31, 2023. Our quantitative fair value testing procedures performed during the three months ended September 30, 2022 and as of October 1, 2022 represented in the aggregate, approximately \$10,325 million, or 89% of our \$11,547 million goodwill balance as of December 31, 2022.

See Note 8, "INTANGIBLE ASSETS AND GOODWILL" to our audited Consolidated Financial Statements for further details on the goodwill impairments recognized in 2023, 2022 and 2021.

Contingencies

In the normal course of business, we are subject to loss contingencies, such as claims and assessments arising from litigation and other legal proceedings, contractual indemnities, product and environmental liabilities and tax matters. Other than loss contingencies that are assumed in business combinations for which we can reliably estimate the fair value, we are required to accrue for such loss contingencies if it is probable that the outcome will be unfavorable and if the amount of the loss can be reasonably estimated. We evaluate our exposure to loss based on the progress of each contingency, experience in similar contingencies and consultation with our legal counsel. We re-evaluate all contingencies as additional information becomes available. Given the uncertainties inherent in complex litigation and other contingencies, these evaluations can involve significant judgment about future events. The ultimate outcome of any litigation or other contingency may be material to our results of operations, financial condition and cash flows. See Note 20, "LEGAL PROCEEDINGS" to our audited Consolidated Financial Statements for further details regarding our current legal proceedings. If no accrual is made for a loss contingency because the amount of loss cannot be reasonably estimated, the Company will disclose contingent liabilities when there is at least a reasonable possibility that a loss or an additional loss may have been incurred.

Income Taxes

We have operations in various countries that have differing tax laws and rates. Our tax structure is supported by current domestic tax laws in the countries in which we operate and the application of tax treaties between the various countries in which we operate. Our income tax reporting is subject to audit by domestic and foreign tax authorities. Our effective tax rate may change from year to year based on changes in the mix of activities and income earned under our intercompany arrangements among the different jurisdictions in which we operate, changes in tax laws in these jurisdictions, changes in tax treaties between various countries in which we operate, changes in our eligibility for benefits under those tax treaties and changes in the estimated values of deferred tax assets and liabilities. Such changes could result in an increase in the effective tax rate on all or a portion of our income and/or any of our subsidiaries.

Our provision for income taxes is based on a number of estimates and assumptions made by management. Our consolidated income tax rate is affected by the amount of income earned in our various operating jurisdictions, the availability of benefits under tax treaties and the rates of taxes payable in respect of that income. We enter into many transactions and arrangements in the ordinary course of business in which the tax treatment is not entirely certain. We must therefore make estimates and judgments based on our knowledge and understanding of applicable tax laws and tax treaties, and the application of those tax laws and tax treaties to our business, in determining our consolidated tax provision. For example, certain countries could seek to tax a greater share of income than has been provided for by us. The final outcome of any audits by taxation

authorities may differ from the estimates and assumptions we have used in determining our consolidated income tax provisions and accruals. This could result in a material effect on our consolidated income tax provision, results of operations, and financial condition for the period in which such determinations are made.

Our income tax returns are subject to audit in various jurisdictions. Existing and future audits by, or other disputes with, tax authorities may not be resolved favorably for us and could have a material adverse effect on our reported effective tax rate and after-tax cash flows. We record liabilities for uncertain tax positions, which involve significant management judgment. New laws and new interpretations of laws and rulings by tax authorities may affect the liability for uncertain tax positions. Due to the subjectivity and complex nature of the underlying issues, actual payments or assessments may differ from our estimates. To the extent that our estimates differ from amounts eventually assessed and paid our income and cash flows may be materially and adversely affected.

We assess whether it is more likely than not that we will realize the tax benefits associated with our deferred tax assets and establish a valuation allowance for assets that are not expected to result in a realized tax benefit. A significant amount of judgment is used in this process, including preparation of forecasts of future taxable income and evaluation of tax planning initiatives. If we revise these forecasts or determine that certain planning events will not occur, an adjustment to the valuation allowance will be made to tax expense in the period such determination is made.

NEW ACCOUNTING STANDARDS

Information regarding the recently issued new accounting guidance (adopted and not adopted as of **December 31, 2022** **December 31, 2023**) is contained in Note 2, "SIGNIFICANT ACCOUNTING POLICIES" to our audited Consolidated Financial Statements.

FORWARD-LOOKING STATEMENTS

Caution regarding forward-looking information and statements and "Safe-Harbor" statements under the U.S. Private Securities Litigation Reform Act of 1995 and applicable Canadian securities laws:

In addition, any statements that refer to expectations, intentions, projections or other characterizations of future events or circumstances are forward-looking statements. These forward-looking statements may not be appropriate for other purposes. All of the statements in this Form 10-K that contain forward-looking statements are qualified by these cautionary statements. These statements are based upon the current expectations and beliefs of management. Although we believe that the expectations reflected in such forward-looking statements are reasonable, such statements involve risks and uncertainties, and undue reliance should not be placed on such statements. Certain material factors or assumptions are applied

in making such forward-looking statements, including, but not limited to, factors and assumptions regarding the items previously outlined, those factors, risks and uncertainties outlined below and the assumption that none of these factors, risks and uncertainties will cause actual results or events to differ materially from those described in such forward-looking statements. Actual results may differ materially from those expressed or implied in such statements. Important factors, risks and

uncertainties that could cause actual results to differ materially from these expectations include, among other things, the following:

- the potential adverse impact of current market and economic conditions in one or more of our markets on our ability to grow our business;
- the impact of inflation and other macroeconomic factors on our business and operations resulting from the current conflict between Russia and Ukraine; operations;
- the risks ongoing litigation and uncertainties caused by potential additional litigation, claims, challenges and/or regulatory investigations challenging or otherwise relating to the evolving COVID-19 pandemic, the fear of that pandemic, the availability and effectiveness of vaccines for COVID-19 (including with respect to current or future variants and subvariants), COVID-19 vaccine immunization rates, the emergence of variant and subvariant strains of COVID-19, the resurgence of the COVID-19 virus and variant and subvariant strains thereof (including, but not limited to, the recent resurgence of COVID-19 cases) and any resulting reinstitution of lockdowns and other restrictions, the evolving reaction of governments, private sector participants B+L IPO and the public to that pandemic, B+L Separation and the potential effects costs, expenses, use of resources, diversion of management time and economic impact of the pandemic efforts, liability and the reaction to it, the severity, duration and future impact of which are highly uncertain and cannot be predicted, and which damages that may have a significant adverse impact on the Company, including, but not limited to, its supply chain, third-party suppliers, project development timelines, employee base, liquidity, stock price, financial condition, costs (which may increase) and revenue and margins (both of which may decrease);
- the challenges the Company faces as a result of the closing of the B+L IPO, including the transitional services being provided by and to Bausch + Lomb, any potential, actual or perceived conflict of interest of some of our directors and officers because of their equity ownership in Bausch + Lomb and/or because they also serve as directors or officers of Bausch + Lomb and our ability to timely consolidate the financial results of the Bausch + Lomb business; therefrom;
- with respect to the Company's B+L Separation, the risks and uncertainties include, but are not limited to, the expected benefits and costs of the B+L Separation, the expected timing of completion of the B+L Separation and its terms, the Company's ability to complete the B+L Separation considering the various conditions to the completion of the B+L Separation (some of which are outside the Company's control, including conditions related to regulatory matters and applicable shareholder and stock exchange approvals), that market or other conditions are no longer favorable to completing the B+L Separation, that a portion of Bausch Health's ownership of Bausch + Lomb is pledged as collateral securing the previously announced planned Solta IPO

In particular, the Company can offer no assurance that any B+L Separation will occur at all, or that any such transaction will occur on the timelines anticipated by the Company;

- ongoing litigation and potential additional litigation, claims, the challenges and/or regulatory investigations challenging or otherwise relating to the Company faces as a result of the closing of the B+L IPO, including the transitional services being provided by and to Bausch + Lomb, any potential, actual or perceived conflict of interest of some of our directors and officers because of their equity ownership in Bausch + Lomb and/or because they also serve as directors or officers of Bausch + Lomb and our ability to timely consolidate the B+L Separation and financial results of the costs, expenses, use of resources, diversion of management time and efforts, liability and damages that may result therefrom; Bausch + Lomb business;
- the expense, timing and outcome of legal and governmental proceedings, investigations and information requests relating to, among other matters, our past distribution, marketing, pricing, disclosure and accounting practices (including with respect to our former relationship with Philidor Rx Services, LLC ("Philidor")), including a number of pending non-class securities litigations (including certain pending opt-out actions in the U.S. related to the previously settled securities class action and certain opt-out actions in Canada relating to the previously settled class action in

Canada), certain pending lawsuits and other claims, investigations or proceedings that may be initiated or that may be asserted;

- potential additional litigation and regulatory investigations (and any costs, expenses, use of resources, diversion of management time and efforts, liability and damages that may result therefrom), negative publicity and reputational harm on our Company, products and business that may result from the past and ongoing public scrutiny of our past distribution, marketing, pricing, disclosure and accounting practices and from our former relationship with Philidor;
- the past and ongoing scrutiny of our legacy business practices, including with respect to pricing, and any pricing controls or price adjustments that may be sought or imposed on our products as a result thereof;
- ongoing or potential legal and governmental proceedings that are uncertain, costly and time-consuming and could have a material adverse effect on our business, financial condition, cash flows and results of operations and could cause the market value of our common shares and/or debt securities to decline;
- pricing decisions that we have implemented, or may in the future elect to implement, such as the Patient Access and Pricing Committee's historic practice of limiting the average annual price increase for our branded prescription pharmaceutical products to single digits, or any future pricing actions we may take in 2023 2024 or beyond following review by our Patient Access and Pricing Committee (which is responsible for the pricing of our drugs);

- legislative or policy efforts, including those that may be introduced and passed by the U.S. Congress, designed to reduce patient out-of-pocket costs for medicines, which could result in new mandatory rebates and discounts or other pricing restrictions, controls or regulations (including mandatory price reductions);
- ongoing oversight and review of our products and facilities by regulatory and governmental agencies, including periodic audits by the U.S. Food and Drug Administration (the "FDA") and equivalent agencies outside of the U.S. and the results thereof;
- actions, including inspections, by the FDA or other regulatory authorities with respect to our products or facilities;
- compliance with the legal and regulatory requirements of our marketed drugs, including our dietary products;
- our substantial debt (and potential additional future indebtedness) and current and future debt service obligations, our ability to reduce our outstanding debt levels and the resulting impact on our financial condition, cash flows and results of operations;
- our ability to comply with the financial and other covenants contained in our senior notes indentures, the 2027 Revolving Credit Facility, the 2022 Amended Credit Agreement, the B+L AR Credit Agreement Facility and other current or future credit and/or debt agreements or amendments thereto, including the ability of Bausch + Lomb to comply with its covenants and obligations under the B+L Senior Secured Credit Agreement, Facilities and the B+L October 2028 Secured Notes, restrictions and prohibitions such covenants impose or may impose on the way we conduct our business, including prohibitions on incurring additional debt if certain financial covenants are not met, limitations on the amount of additional obligations we are able to incur pursuant to other covenants, our ability to draw under our 2027 Revolving Credit Facility, Bausch + Lomb's ability to draw down under the revolving credit facility under the B+L Credit Agreement and restrictions on our ability to make certain investments and other restricted payments;
- any default under the terms of our senior notes indentures or the 2022 Amended Credit Agreement (and other current or future credit and/or debt agreements) agreements or amendments thereto and our ability, if any, to cure or obtain waivers of such default;
- any downgrade by rating agencies in our credit ratings, which may impact, among other things, our ability to raise debt and the cost of capital for additional debt issuances;
- our ability to generate cash in order to service our debt;
- any reductions in, or changes in the assumptions used in, our forecasts for fiscal year 2023 2024 or beyond, including as a result of the impacts current market and economic conditions in one or more of the COVID-19 pandemic on our business and operations, markets, which could lead to, among other things: (i) a failure to meet the financial and/or other covenants contained in the 2022 Amended Credit Agreement, senior notes indentures and/or the B+L Credit Agreement (and other current or future credit and/or debt agreements) and/or (ii) impairment in the goodwill associated with certain of our reporting units or impairment charges related to certain of our products or other intangible assets, which impairments could be material;
- changes in the assumptions used in connection with our impairment analyses or assessments, which would lead to a change in such impairment analyses and assessments and which could result in an impairment in the goodwill associated with any of our reporting units or impairment charges related to certain of our products or other intangible assets;
- risks and uncertainties relating to the XIIDRA Acquisition by Bausch + Lomb, including its ability to effectively and efficiently integrate the acquired XIIDRA® product, pipeline products, transferred sales force and other assets into its existing business, risks that such integration efforts will potentially divert the efforts and attention of Bausch + Lomb's management and other employees away from its ongoing business operations, the effect of the transaction on its ability to maintain relationships with customers, suppliers, and other business partners, risks relating to Bausch + Lomb's increased levels of debt as a result of debt incurred to finance such acquisition and risks that it may not realize the expected benefits of the acquisition on a timely basis or at all;
- the possibility that the pro forma financial information included in this Form 10-K may not necessarily be indicative of what the consolidated results of operations would have been, had the XIIDRA Acquisition been completed on January 1, 2022 and may differ materially from the future results of operations of the combined company;
- the uncertainties associated with the acquisition and launch of new products, assets and businesses (including Bausch + Lomb's recently acquired XIIDRA® product and Blink® product line and its recently launched MIEBO® product), including, but not limited to, our ability to provide the time, resources, expertise and funds required for the commercial

launch of new products, the acceptance and demand for new products, and the impact of competitive products and pricing, which could lead to material impairment charges;

- our ability or inability to extend the profitable life of our products, including through line extensions and other life-cycle programs;
- our ability to retain, motivate and recruit directors, executives and other key employees;
- our ability to implement effective succession planning for our executives and key employees;
- factors impacting our ability to stabilize and reposition our **Ortho Dermatologics Dermatology** business to generate additional value, including the success of recently launched products and the approval of pipeline products (and the timing of such approvals);
- factors impacting our ability to achieve anticipated revenues for our products, including changes in anticipated marketing spend on such products and launch of competing products;
- factors impacting our ability to achieve anticipated market acceptance for our products, including acceptance of the pricing, effectiveness of promotional efforts, reputation of our products and launch of competing products;
- the challenges and difficulties associated with managing a large complex business, which has, in the past, grown rapidly;
- our ability to compete against companies that are larger and have greater financial, technical and human resources than we do, as well as other competitive factors, such as technological advances achieved, patents obtained and new products introduced by our competitors;
- our ability to **develop or acquire more effective or less costly pharmaceutical or OTC products or medical devices than our competitors;**
- **our ability to** effectively operate and grow our businesses in light of the challenges that the Company has faced and market conditions, including with respect to its substantial debt, pending investigations and legal proceedings, scrutiny of our past pricing and other practices, limitations on the way we conduct business imposed by the covenants contained in our 2022 Amended Credit Agreement, **AR Facility Agreement, the B+L Senior Secured Credit Agreement, Facilities,** our senior notes indentures, **the senior notes indenture of B+L** and the agreements governing our other indebtedness, and the impacts of the COVID-19 pandemic;
- the extent to which our products are reimbursed by government authorities, pharmacy benefit managers ("PBMs") and other third-party payors; the impact our distribution, pricing and other practices may have on the decisions of such government authorities, PBMs and other third-party payors to reimburse our products; the impact of obtaining or maintaining such reimbursement on the price and sales of our products; and the launch and implementation of any new pharma-care or dental-care program or related spending by the Canadian federal government;
- the inclusion of our products on formularies or our ability to achieve favorable formulary status, as well as the impact on the price and sales of our products in connection therewith;
- the consolidation of wholesalers, retail drug chains and other customer groups and the impact of such industry consolidation on our business;
- **the impact of pricing controls, social or governmental pressure to lower the cost of drugs, and consolidation across the supply chain;**
- **our ability to maintain strong relationships with physicians and other healthcare professionals;**
- **our ability to maintain and provide appropriate training in our products to our health care providers;**
- our eligibility for benefits under tax treaties and the availability of low effective tax rates for the business profits of certain of our subsidiaries;

- the implementation of the Organisation for Economic Co-operation and Development inclusive framework on Base Erosion and Profit Shifting, including the global minimum corporate tax rate, by the countries in which we operate;
- the outcome of any audits by taxation authorities, which outcomes may differ from the estimates and assumptions that we may use in determining our consolidated tax provisions and accruals;
- the actions of our third-party partners or service providers of research, development, manufacturing, marketing, distribution or other services, including their compliance with applicable laws and contracts, which actions may be beyond our control or influence, and the impact of such actions on our Company;
- the risks associated with the international scope of our operations, including our presence in emerging markets and the challenges we face when entering and operating in new and different geographic markets (including the challenges created by new and different regulatory regimes in such countries and the need to comply with applicable anti-bribery and economic sanctions laws and regulations);
- adverse global economic conditions, including rates of inflation, and credit markets and foreign currency exchange uncertainty and volatility in certain of the countries in which we do business;
- the impact of the recent escalation in conflict in the Middle East, including attacks on Israel by Hamas and any related military conflict, including potential impact on our operations, sale of products and revenues in this region;
- the trade conflict between the U.S. and China;
- the impact of the ongoing conflict between Russia and Ukraine and the export controls, sanctions and other restrictive actions that have been or may be imposed by the U.S., Canada, the EU and other countries against governmental and other entities in Russia, Belarus and parts of Ukraine; Ukraine, including potential impact on sales, earnings, market conditions and the ability of the Company to manage its resources and operations in Russia;
- the impact of the United States-Mexico-Canada Agreement ("USMCA") and any potential changes to other trade agreements;
- the impact of the recent escalation in conflict in the Middle East, including attacks on Israel by Hamas and any related military conflict, including potential impact on our operations, sale of products and revenues in this region;
- our ability to obtain, maintain and license sufficient intellectual property rights over our products and enforce and defend against challenges to such intellectual property (such as in connection with the filing by Norwich Pharmaceuticals Inc. ("Norwich") of its Abbreviated New Drug Application ("ANDA") for Xifaxan® (rifaximin) 550 mg tablets and the Company's related lawsuit filed against Norwich in connection therewith) and the impact of the Norwich Legal Decision and related litigation on, among other things, our business results, financial results, and the B+L Separation;
- our ability to successfully appeal the decision of the U.S. District Court for the District of Delaware in the Company's lawsuit against Norwich in connection with Norwich's ANDA and challenge Norwich's ability to achieve a modified ANDA that avoids the August 10, 2022 final judgement by the District Court and omits the Xifaxan® hepatic encephalopathy ("HE") indication and HE safety data; ANDA;
- the fact that a substantial amount of our revenues are is derived from the Xifaxan® product line, and that we may be materially impacted by the entry of a generic rifaximin product earlier than January 2028,

including the risk of a competitor launching a generic rifaximin at risk prior to a final unappealable decision;

- the introduction of generic, biosimilar or other competitors of our branded products and other products, including the introduction of products that compete against our products that do not have patent or data exclusivity rights;
 - the impact on our revenues and profits from generic products as a result of changes to regulatory policy;
 - our ability to identify, finance, acquire, close and integrate acquisition targets successfully and on a timely basis and the difficulties, challenges, time and resources associated with the integration of acquired companies, businesses and products;
 - any divestitures of our assets or businesses and our ability to successfully complete any such divestitures on commercially reasonable terms and on a timely basis, or at all, and the impact of any such divestitures on our Company, including the reduction in the size or scope of our business or market share, loss of revenue, any loss on sale, including any resultant impairments of goodwill or other assets, or any adverse tax consequences suffered as a result of any such divestitures;
 - the expense, timing and outcome of pending or future legal and governmental proceedings, arbitrations, investigations, subpoenas, tax and other regulatory audits, examinations, reviews and regulatory proceedings against us or relating to us and settlements thereof;
 - our ability to negotiate the terms of or obtain court approval for the settlement of certain legal and regulatory proceedings;
-
- our ability to obtain components, raw materials or finished products supplied by third parties (some of which may be single-sourced) and other manufacturing and related supply difficulties, interruptions and delays;
 - the effect of changes in inventory levels or fluctuations in buying patterns by our large distributor and retail customers;
 - the disruption of delivery of our products and the routine flow of manufactured goods;
 - economic factors over which the Company has no control, including changes in inflation, interest rates, foreign currency rates, and the potential effect of such factors on revenues, expenses and resulting margins;
 - interest rate risks associated with our floating rate debt borrowings;
-
- our ability to effectively distribute our products and the effectiveness and success of our distribution arrangements;
 - our ability to effectively promote our own products and those of our co-promotion partners;
 - the success of our fulfillment arrangements with Walgreen Co., and our dermatology cash-pay prescription program, including market acceptance of, or market reaction to, such arrangements (including by customers, doctors, patients, PBMs, third-party payors and governmental agencies), and the continued compliance of such arrangements with applicable laws;
 - our ability to secure and maintain third-party research, development, manufacturing, licensing, marketing or distribution arrangements;

- the risk that our products could cause, or be alleged to cause, personal injury and adverse effects, leading to potential lawsuits, product liability claims and damages and/or recalls or withdrawals of products from the market;
- the mandatory or voluntary recall or withdrawal of our products from the market and the costs **and potential other impacts** associated therewith;

- the results of continuing safety and efficacy studies by industry and government agencies;
- the success of preclinical and clinical trials for our drug development pipeline or delays in clinical trials that adversely impact the timely commercialization of our pipeline products, as well as other factors impacting the commercial success of our products, which could lead to material impairment charges;
- uncertainties around the successful improvement and modification of our existing products and development of new products, which may require significant expenditures and efforts;
- the results of management reviews of our research and development portfolio (including following the receipt of clinical results or feedback from the FDA or other regulatory authorities), which could result in terminations of specific projects which, in turn, could lead to material impairment charges;
- the seasonality of sales of certain of our products;
- declines in the pricing and sales volume of certain of our products that are distributed or marketed by third parties, over which we have no or limited control;
- compliance by the Company or our third-party partners and service providers (over whom we may have limited influence), or the failure of our Company or these third parties to comply, with **applicable laws and regulations, including** health care "fraud and abuse" laws and other extensive regulation of our marketing, promotional and business practices (including with respect to pricing), worldwide anti-bribery laws (including the U.S. Foreign Corrupt

Practices Act and the Canadian Corruption of Foreign Public Officials Act), worldwide economic sanctions and/or export laws, worldwide environmental laws and regulation and privacy and security **regulations; regulations, and to prevail in any litigation related to noncompliance;**

- the impacts of the Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act of 2010 and potential amendment thereof and other legislative and regulatory health care reforms in the countries in which we operate, including with respect to recent government inquiries on pricing;
- the impact of any changes in or reforms to the legislation, laws, rules, regulation and guidance that apply to the Company and its businesses and products or the enactment of any new or proposed legislation, laws, rules, regulations or guidance that will impact or apply to the Company or its businesses or **products; products, and to the Company's ability to sell its products profitably;**
- the impact of changes in federal laws and policy that may be undertaken under the current administration;

- illegal distribution or sale of counterfeit versions of our products;
- the reduction of revenues in future fiscal periods due to our policies regarding returns, allowances, and chargebacks;
- the reduction of profits due to imports from countries where our products are available at lower prices;
- any plans for the Company's aesthetic medical business;
- interruptions, breakdowns or breaches in our information technology systems;
- the impact of catastrophic events that may disrupt our business;
- risks associated with climate change;
- our ability to maintain adequate internal controls and to provide an assertion as to the effectiveness of such controls on an annual basis;
- the potential adverse effect of shareholder activism;
- our ability to effectively monitor and respond to expectations regarding environmental, social and governance matters; and
- risks in Item 1A. "Risk Factors" in this Form 10-K.

Additional information about these factors and about the material factors or assumptions underlying such forward-looking statements may be found elsewhere in this Form 10-K, under Item 1A. "Risk Factors" and in the Company's other filings with the SEC and the CSA. When relying on our forward-looking statements to make decisions with respect to the Company, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. These forward-looking statements speak only as of the date made. We undertake no obligation to update or revise any of these forward-looking statements to reflect events or circumstances after the date of this Form 10-K or to reflect actual outcomes, except as required by law. We caution that, as it is not possible to predict or identify all relevant factors that may impact forward-looking statements, the foregoing list of important factors that may affect future results is not exhaustive and should not be considered a complete statement of all potential risks and uncertainties.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Information relating to quantitative and qualitative disclosures about market risk is detailed in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations — Quantitative and Qualitative Disclosures About Market Risk" and is incorporated herein by reference.

Item 8. Financial Statements and Supplementary Data

The information required by this Item is contained in the financial statements set forth in Item 15. "Exhibits and Financial Statement Schedules" as part of this Form 10-K and is incorporated herein by reference.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Not applicable.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of **December 31, 2022** **December 31, 2023**. Based on that evaluation, the Company's Chief Executive Officer and the Company's Chief Financial Officer have concluded that as of **December 31, 2022** **December 31, 2023**, the Company's disclosure controls and procedures were effective to provide reasonable assurance that the information required to be disclosed by the Company in the reports that it files or

submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control Over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and with the participation of management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, the Company conducted an evaluation of the effectiveness of its internal control over financial reporting as of **December 31, 2022** **December 31, 2023** based on the framework described in *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on that evaluation, management has concluded that the Company maintained effective internal control over financial reporting as of **December 31, 2022** **December 31, 2023**. In accordance with SEC staff guidance, which allows companies to exclude acquisitions from management's report on internal control over financial reporting for the first year after acquisition, management's evaluation and conclusion of internal control over financial reporting, as of December 31, 2023, did not include the internal controls related to the XIIDRA Acquisition, which was acquired during September 2023. Total assets and revenues attributable to the XIIDRA Acquisition, represented approximately 1% of the Company's consolidated assets and revenues, respectively, as of, and for the year ended December 31, 2023.

The effectiveness of the Company's internal control over financial reporting as of **December 31, 2022** **December 31, 2023** has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which appears herein.

Changes in Internal Control over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the last fiscal quarter of **2022** **2023** that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B. Other Information

Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensation Arrangements of Certain Officers

On **February 21, 2023** **November 6, 2023**, the Talent and Compensation Committee of the Board of Directors Ms. Seana Carson, Executive Vice President, General Counsel of the Company, (the "Committee") approved changes to adopted a trading arrangement for the compensation sale of Thomas J. Appio, securities of the Company's Chief Executive Officer, based common stock (a "Rule 10b5-1 Trading Plan") that is intended to satisfy the affirmative defense conditions of Securities Exchange Act Rule 10b5-1(c). Ms. Carson's Rule 10b5-1 Trading Plan, which is scheduled to expire on a review **December 31, 2024**, provides for the sale of market data and Mr. Appio's performance. The Committee increased Mr. Appio's annual base salary up to \$1,200,000 effective February 25, 2023 and his target annual cash bonus opportunity to 125% of his base salary commencing with his 2023 bonus.

In addition, the Committee also determined that Mr. Appio's annual aggregate target equity incentive compensation opportunity will be set at \$11,000,000 commencing with annual equity awards to be made in 2023. For 2023, Mr. Appio's annual equity award will be granted in the form of performance share units (subject to achievement of performance-based vesting conditions) and service-based restricted stock units. This amount reflects only the target value of Mr. Appio's annual equity incentive awards; the actual value that may be realized by Mr. Appio in connection with these equity incentive awards will depend on the level of achievement **30%** of the applicable performance goals and satisfaction number of shares of Company common stock that she will receive after the applicable service-vesting conditions. tax withholding obligations due upon vesting. The total number of

shares of Company common stock subject to Ms. Carson's Rule 10b5-1 Trading Plan before withholding taxes is 43,303 shares.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Bausch Health Companies Inc.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of Bausch Health Companies Inc. and its subsidiaries (the "Company") as of **December 31, 2022** **December 31, 2023** and **2021**, **2022**, and the related consolidated statements of operations, of comprehensive loss, of **shareholders' shareholders' (deficit) equity (deficit)** and of cash flows for each of the three years in the period ended **December 31, 2022** **December 31, 2023**, including the related notes (collectively referred to as the "consolidated financial statements"). We also have audited the Company's internal control over financial reporting as of **December 31, 2022** **December 31, 2023**, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of **December 31, 2022** **December 31, 2023** and **2021**, **2022**, and the results of its operations and its cash flows for each of the three years in the period ended **December 31, 2022** **December 31, 2023** in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of **December 31, 2022** **December 31, 2023**, based on criteria established in Internal Control - Integrated Framework (2013) issued by the COSO.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Annual Report on Internal Control **over Over** Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on the Company's consolidated financial statements and on the **Company's Company's** internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

As described in Management's Annual Report on Internal Control Over Financial Reporting, management has excluded the XIIDRA Acquisition ("XIIDRA") from its assessment of internal control over financial reporting as of December 31, 2023, because it was acquired by the Company in a purchase business combination during 2023. We have also excluded XIIDRA from our audit of internal control over financial reporting. XIIDRA is a wholly-owned business whose total assets and total revenues excluded from management's assessment and our audit of internal control over financial reporting represent approximately 1% and 1%, respectively, of the related consolidated financial statement amounts as of and for the year ended December 31, 2023.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit

preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current period audit of the consolidated financial statements that were communicated or required to be communicated to the audit committee and that (i) relate to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Medicaid Rebates and Sales Returns Allowances

As described in Note 2 to the consolidated financial statements, gross product sales are subject to a variety of deductions in arriving at reported net product sales. The transaction price for product sales is typically adjusted for variable consideration, which may be in the form of cash discounts, allowances, returns, rebates, chargebacks and distribution fees paid to customers. The provisions for these deductions are recorded concurrently with the recognition of gross product sales revenue as a reduction in revenue. The variable consideration provisions, either recognized within accrued and other current liabilities or as a reduction of trade

receivables, included \$427 million \$380 million related to returns allowances and \$1,023 million \$1,108 million related to rebates, including Medicaid rebates, as of December 31, 2022 December 31, 2023. For certain rebate programs, such as Medicaid, provisions recognized by management are based on the terms of state government-managed programs, estimates of outstanding and future claims for end-customer sales and the sales mix. For sales returns, management estimates provisions utilizing existing return policies with customers, historical return and exchange levels, external data with respect to inventory levels in the distribution channel, external data with respect to prescription demand for products, remaining shelf lives of products at the date of sale, and estimated returns liability to be processed by year of sale based on an analysis of lot information related to actual historical returns.

The principal considerations for our determination that performing procedures relating to Medicaid rebates and sales returns allowances is a critical audit matter are (i) the significant judgment by management when developing the estimate of Medicaid rebates and sales returns allowances which is based on the terms of state government-managed Medicaid programs and existing return policies with customers; (ii) a high degree of auditor judgment, subjectivity, and effort in performing procedures and evaluating the terms of state government-managed Medicaid programs and existing return policies with customers and in evaluating management's significant assumptions related to estimates of outstanding and future claims for end-customer sales; and (iii) the audit effort involved the use of professionals with specialized skill and knowledge.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to management's estimation of provisions for Medicaid rebates and sales returns allowances, including controls over the assumptions used to estimate these rebates and sales returns allowances. These procedures also included, among others (i) developing an independent estimate of Medicaid rebates by utilizing third-party information on inventory levels in the distribution channel, the terms of the specific Medicaid rebate programs, and the historical trends of actual Medicaid rebate claims paid, adjusted for price and projected market conditions; (ii) comparing the independent estimate for these Medicaid rebates to management's estimates to evaluate the reasonableness of management's estimate; (iii) testing management's process for developing the estimate of sales returns allowances; (iv) evaluating the appropriateness of the method for estimating the sales returns allowances; (v) testing the completeness and accuracy of underlying data used in the estimate of sales returns allowances; (vi) evaluating the reasonableness of the sales returns allowances by considering current and historical return trends and whether assumptions related to estimates of outstanding and future claims for end-user sales were consistent with evidence obtained in other areas of the audit; and (vii) testing, on a sample basis, Medicaid rebates and sales returns claims processed by the Company, including evaluating those claims for consistency with the contractual terms of the Company's arrangements and policies. Professionals with specialized skill and knowledge were used to assist in evaluating whether the Company's Medicaid rebate program policies and methodology for estimating Medicaid rebates are compliant with the Center for Medicare and Medicaid Services (CMS) and federal regulations.

Goodwill Impairment Assessments – Ortho Dermatologics, Dermatology, Neurology, Generics, Vision Care, Ophthalmic Pharmaceuticals, Surgical and Neurology and Other Surgical Reporting Units

As described in Notes 2 and 8 to the consolidated financial statements, the Company's goodwill balance was \$11,547 million \$11,183 million as of December 31, 2022 December 31, 2023, and the goodwill associated with the Ortho Dermatologics Dermatology reporting unit, the Neurology reporting unit, the Generics reporting unit, and the Bausch + Lomb segment was \$329 million, \$1,177 million, \$227 million and the Neurology and Other reporting unit was \$480 million, \$5,246 million, and \$1,439 million \$5,314 million, respectively. The Bausch + Lomb segment consists of the Vision Care, Ophthalmic Pharmaceuticals, and Surgical reporting units. Goodwill is not amortized but is tested for impairment at least annually as of October 1st at the reporting unit level. An interim goodwill impairment test in advance of the annual impairment assessment may be required if events occur that indicate an impairment might be present. Where the qualitative assessment suggested that it was more likely than not that the fair value of a reporting

unit was less than its carrying amount, a quantitative fair value test was is performed for that reporting unit. Goodwill impairment is measured by as the amount the by which a reporting unit's carrying value exceeds the its

fair value. Fair value of each reporting unit is estimated by management using a discounted cash flow model. During the first, second third quarter of 2023, as a result of lower realized pricing, discontinuation of certain products as a result of impact of recent legislation, revised expectations of future selling, advertising, and third quarters of 2022, increased promotion costs to mitigate further revenue erosion, and increases in market interest rates, and other macroeconomic factors suggested management determined that the fair value of the Ortho Dermatologics Dermatology reporting unit could be less than its carrying value, and therefore, a quantitative fair value tests were test was performed, resulting in no impairment to goodwill as of March 31, 2022, and the recognition of a goodwill impairments impairment of \$83 million and \$119 million as of June 30, 2022 and September 30, 2022, respectively, \$151 million. In addition, during the second same quarter, as a result of 2022, changing market dynamics driven by recent legislation, changes to the equity future expected commercial insurance coverage for certain key products, a projected shift in the channels of business, and bond markets were negatively impacted by various macroeconomic and geopolitical factors, increases in market interest rates, management determined that the fair value of the Neurology reporting unit could be less than its carrying amount, and therefore, separate a quantitative fair value tests were test was performed, for the Vision Care, Ophthalmic Pharmaceuticals, and Surgical reporting units of the Bausch + Lomb segment, resulting in no the recognition of a goodwill impairment to goodwill as of June 30, 2022 \$251 million. During the annual goodwill impairment test as of October 1, 2022 October 1, 2023, management performed separate quantitative fair value tests for the Neurology and Other, Generics, Vision Care, Ophthalmic Pharmaceuticals, and Surgical reporting units. As a result of revisions to long-term expectations forecasts to reflect changes shifting market dynamics that management expects to intensify in payer demands, health care legislation, the future, including increased competition with respect to generic pharmaceuticals which impacts both pricing and other regulations for potential market share, the Neurology and Other carrying value of the Generics reporting unit management determined goodwill was impaired exceeded its fair value and the Company recognized a goodwill impairment of \$622 million \$91 million for the Neurology and Other Generics reporting unit. Utilizing the most recent cash flow projections to reflect current market conditions and current trends in business performance for For the Vision Care, Ophthalmic Surgical, and Pharmaceuticals and Surgical reporting units, the fair value exceeded the carrying value and therefore, management determined there was no impairment to goodwill. Management's discounted cash flow model relies on assumptions regarding revenue growth rates, gross profit, projected working capital needs, selling, general and administrative expenses, research and development expenses, capital expenditures, income tax rates, discount rates and terminal growth rates.

The principal considerations for our determination that performing procedures relating to the goodwill impairment assessments of the Ortho Dermatologics, Dermatology, Neurology, Generics, Vision Care, Ophthalmic Pharmaceuticals, Surgical, and Neurology and Other Surgical reporting units is a critical audit matter are (i) the significant judgment by management when developing the fair value estimate of the reporting units; (ii) a high degree of auditor judgment, subjectivity, and effort in performing procedures and evaluating management's significant assumptions related to revenue growth rates, discount rates, and terminal growth rates; rates for the Dermatology, Neurology, Generics, and Surgical reporting units and revenue growth rates and discount rates for the Vision Care and Pharmaceuticals reporting units; and (iii) the audit effort involved the use of professionals with specialized skill and knowledge.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to management's goodwill impairment assessments, including controls over the valuation of the Ortho Dermatologics, Dermatology, Neurology, Generics, Vision Care, Ophthalmic Pharmaceuticals, Surgical, and Neurology and Other Surgical reporting units. These procedures also included, among others (i) testing management's process for developing the fair value estimate of the Ortho Dermatologics, Vision Care, Ophthalmic Pharmaceuticals, Surgical, and Neurology and Other reporting units; (ii) evaluating the appropriateness of the discounted cash flow model; model used by management; (iii) testing the completeness and accuracy of certain of the underlying data used in the discounted cash flow model; and (iv) evaluating the reasonableness of the significant assumptions used by management related to revenue growth rates, discount rates, and terminal growth rates. Evaluating management's significant assumptions related to revenue growth rates involved evaluating whether the assumptions used by management were reasonable considering (i) the current and past performance of the reporting units; (ii) the consistency with external market and industry data; and (iii) whether these assumptions were consistent with evidence obtained in other areas of the audit. Professionals with specialized skill and knowledge were used to assist in evaluating (i) the appropriateness of the Company's discounted cash flow model and (ii) the reasonableness of the discount rates rate and terminal growth rates significant rate assumptions.

Interim Finite-Lived Intangible Assets and Goodwill Impairment Assessments XIIDRA Acquisition - Xifaxan® Finite-Lived Intangible Assets and Salix Reporting Unit Valuation of a Product Brand

As described in Notes 2 and 8 Note 3 to the consolidated financial statements, on September 29, 2023, the Company's finite-lived Company consummated the XIIDRA acquisition for an aggregate consideration of approximately \$1,753 million. Of the intangible assets associated with Xifaxan® and goodwill associated with the Salix reporting unit acquired, \$1,595 million of product brand was \$2,693 million and \$3,159 million, respectively, as of December 31, 2022. Xifaxan® represents approximately 80% recorded. The fair value of the Salix reporting unit's revenue. Goodwill is not amortized but is tested for impairment at least annually as of October 1st at identifiable intangible asset was determined using the reporting unit level. Both goodwill and finite-lived

intangible assets are tested for impairment if events occur that indicate an impairment might be present. If indicators of impairment are present, impairment is measured by the amount the carrying value exceeds the fair value. During the third quarter of 2022, a court held, that among other findings, that certain U.S. patents protecting the composition and use of Xifaxan® were invalid (the "Norwich Legal Decision"). The ultimate outcome of this decision and other potential future related developments could impact the timing and extent of future revenues and cash flows associated with Xifaxan®. Therefore, management performed an assessment of the Xifaxan® finite-lived intangible assets and the Salix reporting unit's goodwill for potential impairment, resulting in no impairment as of September 30, 2022. Management performed the assessments of the Xifaxan® finite-lived intangible assets and Salix reporting unit using a probability-weighted undiscounted and discounted cash flow analyses, respectively. Management's probability-weighted undiscounted and discounted cash flow analyses have a base case and different scenarios representing a range of different outcomes which address the timing of loss of exclusivity for Xifaxan®. Management assigned a probability weighting to each scenario and calculated a weighted average of the valuations **income**

derived from **approach, which requires a forecast of the undiscounted and discounted expected future** cash flows, under each scenario. Management's probability-weighted undiscounted cash flow analysis for valuing the Xifaxan® finite-lived intangible assets also relies on assumptions regarding **including** revenue growth rates, gross profit, selling, general and administrative **cost of goods sold, operating** expenses, and research and development expenses. Management's probability-weighted discounted cash flow analysis for valuing the Salix reporting unit also relies on assumptions regarding revenue growth rates, gross profit, projected working capital needs, selling, general and administrative expenses, **research and development expenses, capital expenditures, income tax rate, discount rate and terminal growth rate.**

The principal considerations for our determination that performing procedures relating to the **interim finite-lived intangible assets and goodwill impairment assessments valuation** of the Xifaxan® finite-lived intangible assets and Salix reporting unit **product brand acquired in the XIIDRA acquisition** is a critical audit matter are (i) the significant judgment by management when developing the **undiscounted cash flows associated with the Xifaxan® finite-lived intangible assets and when developing the fair value estimate of the Salix reporting unit; acquired product brand;** (ii) a high degree of auditor judgment, subjectivity, and effort in performing procedures and evaluating **the probability weighting assigned to each scenario to address the estimated timing of the potential loss of exclusivity for the Xifaxan® product and in evaluating management's significant assumptions related to revenue growth rates, used in developing the undiscounted cash flows for the Xifaxan® finite-lived intangible assets cost of goods sold, operating expenses, and fair value of the Salix reporting unit and the discount rate and terminal growth rate used in developing the fair value of the Salix reporting unit; rate;** and (iii) the audit effort involved the use of professionals with specialized skill and knowledge.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to management's **finite-lived intangible assets and goodwill impairment assessments, acquisition accounting,** including controls over **the management's valuation of the Xifaxan® finite-lived intangible assets and Salix reporting unit, product brand.** These procedures also included, among others, (i) **reading the stock and asset purchase agreement;** (ii) testing management's process for developing the **undiscounted cash flows associated with the Xifaxan® finite-lived intangible assets and developing the fair value estimate of the Salix reporting unit; (ii) product brand;** (iii) evaluating the appropriateness of the **probability-weighted undiscounted and discounted cash flow analyses;** (iii) **income approach used by management;** (iv) testing the completeness and accuracy of **the underlying data used by management in the undiscounted and discounted cash flow analyses; income approach;** and (iv) evaluating the reasonableness of the **probability weighting assigned significant assumptions used by management related to each scenario to address the estimated timing revenue growth rates, cost of the potential loss of exclusivity for the Xifaxan® product goods sold, operating expenses, and discount rate. Evaluating management's significant assumptions related to revenue growth rates, used in developing the undiscounted cash flows for the Xifaxan® finite-lived intangible assets cost of goods sold, and fair value of the Salix reporting unit and the discount rate and terminal growth rate used in developing the fair value the Salix reporting unit. Evaluating the reasonableness of the probability weighting assigned to each scenario to address the estimated timing of the potential loss of exclusivity operating expenses involved considering (i) the consistency with reports issued by investment analysts related to the timing of when a generic version of Xifaxan® could potentially launch; (ii) the consistency with internal and external briefings; and (iii) whether the estimated timing of the potential loss of exclusivity was consistent with evidence obtained in other areas of the audit. Evaluating management's significant assumptions related to revenue growth rates for the Xifaxan® finite-lived intangible assets and Salix reporting unit involved evaluating whether the assumptions used by management were reasonable considering (i) the current and past performance of the Xifaxan® product line and Salix reporting unit; XIIDRA; (ii) the consistency with external market and industry data; and (iii) whether these assumptions were consistent with evidence obtained in other areas of the audit.**

Professionals with specialized skill and knowledge were used to assist in evaluating (i) the appropriateness of the Company's probability-weighted discounted cash flow analyses **income approach** and (ii) the reasonableness of the discount rate **and terminal growth rate significant assumptions for the Salix reporting unit.assumption.**

BAUSCH HEALTH COMPANIES INC. **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

1. DESCRIPTION OF BUSINESS

Bausch Health Companies Inc. (the "Company" or "Bausch Health") is a multinational, global, diversified specialty pharmaceutical and medical device company that develops, manufactures and markets, primarily in the therapeutic areas of gastroenterology ("GI"), hepatology, neurology and dermatology, a broad range of branded, generic and branded generic pharmaceuticals, over-the-counter ("OTC") products and aesthetic medical aesthetic devices, and, through its approximately 89% 88% ownership of Bausch + Lomb Corporation ("Bausch + Lomb" or "B+L"), branded, and branded generic pharmaceuticals, OTC products and medical devices (contact lenses, intraocular lenses, ophthalmic surgical equipment) in the therapeutic area areas of eye health. The Company's products are marketed directly or indirectly in approximately 100 90 countries. Effective August 9, 2013, the Company continued from the federal jurisdiction of Canada to the Province of British Columbia, meaning that the Company became a company registered under the laws of the Province of British Columbia as if it had been incorporated under the laws of the Province of British Columbia. As a result of this continuance, the legal domicile of the Company became the Province of British Columbia, the Canada Business Corporations Act ceased to apply to the Company and the Company became subject to the British Columbia Business Corporations Act.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Use of Estimates

The Consolidated Financial Statements have been prepared by the Company in United States ("U.S.") dollars and in accordance with U.S. generally accepted accounting principles ("U.S. GAAP"), applied on a consistent basis. The Consolidated Financial Statements include the accounts of the Company and those of its subsidiaries and any variable interest entities for which the Company is the primary beneficiary. All intercompany transactions and balances have been eliminated.

Separation of the Bausch + Lomb Eye Health Business

On August 6, 2020, the Company announced its intentions plan to separate its eye health business, consisting of its Bausch + Lomb global Vision Care, Surgical and Pharmaceuticals (formerly known as Ophthalmic Pharmaceuticals) businesses into an independent publicly traded entity, Bausch + Lomb, from the remainder of Bausch Health Companies Inc. (the "B+L Separation"). In January 2022, On May 5, 2022, the Company completed the internal organizational design and structure of the new eye health entity, Bausch + Lomb, as previously announced. The registration statement related to the initial public offering ("IPO") of Bausch + Lomb (the "B+L IPO") was declared effective, on May 5, 2022, and Bausch + Lomb's common stock began trading on the New York Stock Exchange and the Toronto Stock Exchange, in each case under the ticker symbol "BLCO" on May 6, 2022. Prior to the effectiveness of the registration statement, Bausch + Lomb was an indirect wholly-owned subsidiary of the Company, Bausch Health. On May 10, 2022, a wholly owned subsidiary of the Company (the "Selling Shareholder") Bausch Health sold 35,000,000 common shares of Bausch + Lomb at an offering price of \$18.00 per share, pursuant to the B+L IPO. In addition, the Selling Shareholder granted the underwriters an option for a period of 30 days from the date of the B+L IPO to purchase up to an additional 5,250,000 common shares to cover over-allotments at the IPO price less underwriting commissions. On May 31, 2022, the underwriters partially exercised the over-allotment option granted by the Selling Shareholder and, on June 1, 2022, the Selling Shareholder sold an additional 4,550,357 common shares of Bausch + Lomb at an offering price of \$18.00 per share (less applicable underwriting discount). The remainder of the over-allotment option granted to the underwriters expired.

Upon the closing of the B+L IPO and after giving effect to the partial exercise of the over-allotment option, Bausch Health indirectly holds 310,449,643 Bausch + Lomb common shares, which represent approximately 89% of Bausch + Lomb's outstanding common shares. The aggregate net proceeds from the B+L IPO and the subsequent partial exercise of the over-allotment option by the underwriters, after deducting underwriting commissions were Bausch Health indirectly holds 310,449,643 common shares of Bausch + Lomb, which represents approximately \$675 million. The Company continues to believe that completing the B+L Separation makes strategic sense. 88% of Bausch + Lomb's outstanding common shares as of December 31, 2023.

The completion of the full B+L Separation, which includes the transfer of all or a portion of the Company's remaining direct or indirect equity interest in Bausch + Lomb to its shareholders (the "Distribution"), is subject to the achievement of targeted debt leverage ratios and the receipt of applicable shareholder and other necessary approvals. The Company continues to evaluate all factors and considerations related to completing the B+L Separation, including the effect of the Norwich Legal Decision (see "Xifaxan® Paragraph IV Proceedings" of Note 20, "LEGAL PROCEEDINGS") on the B+L Separation.

The B+L IPO established two separate companies that include: (i) a diversified pharmaceutical company which includes comprised of the Company's Salix, International, Diversified (dentistry, neurology, medical dermatology and generic generics pharmaceutical) products, and Solta Medical aesthetic medical device businesses and (ii) a fully integrated eye health company which consists of the Bausch + Lomb Vision Care, Surgical and Ophthalmic Pharmaceuticals businesses. Other than the effects of the B+L IPO described above, these audited Consolidated Financial Statements do not include any adjustments to give effect to the B+L Separation.

Suspended Initial Public Offering of Solta Medical Business

On August 3, 2021, the Company announced its intentions to conduct an IPO of its aesthetic medical device business, Solta Medical (formerly Global Solta) (the "Solta IPO"). In January 2022, the Company completed the internal organizational design and structure of the new Solta Medical entity, Solta Medical Corporation ("Solta" or "Solta Solta Medical"). On June 16, 2022, as a result of challenging market conditions and other factors, the Company announced it was suspending its plans for the Solta IPO. IPO and Solta Medical will remain part of Bausch Health, as the Company plans to revisit alternate paths for its Solta medical aesthetic devices business. Health.

Impacts of COVID-19 Pandemic

The unprecedented nature of the COVID-19 pandemic has had, and continues to have, an adverse impact on the global economy. The COVID-19 pandemic and the reactions of governments, private sector participants and the public in an effort to contain the spread of the COVID-19 virus and/or address its impacts have had significant direct and indirect effects on businesses and commerce. This includes, but is not limited to, disruption to supply chains, employee base and transactional activity, facilities closures and production suspensions.

The extent to which these events may continue to impact the Company's business, financial condition, cash flows and results of operations, in particular, will depend on future developments which are highly uncertain and many of which are outside the Company's control. Such developments include the availability and effectiveness of vaccines for the COVID-19 virus, the ultimate geographic spread and duration of the pandemic, COVID-19 vaccine immunization rates, the extent and duration of a resurgence of the COVID-19 virus and variant strains thereof, such as the delta and omicron variants, new information concerning the severity of the COVID-19 virus, the effectiveness and intensity of measures to contain the COVID-19 virus, and the economic impact of the pandemic and the reactions to it. Such developments, among others, depending on their nature, duration and intensity, could have a significant adverse effect on the Company's business, financial condition, cash flows and results of operations.

To date, the Company has been able to continue its operations with limited disruptions in supply and manufacturing. Although it is difficult to predict the broad macroeconomic effects that the COVID-19 pandemic will have on industries or individual companies, the Company has assessed the possible effects and outcomes of the pandemic on, among other things, its supply chain, customers and distributors, discounts and rebates, employee base, product sustainability, research and development efforts, product pipeline and consumer demand and currently believes that its estimates are reasonable.

Use of Estimates

In preparing the Company's Consolidated Financial Statements, management is required to make estimates and assumptions. This includes estimates and assumptions regarding the nature, timing and extent of the impacts that the COVID-19 pandemic certain global macroeconomic conditions, including, but not limited to, those related to inflation and supply chain, will have on its operations and cash flows. The estimates and assumptions used by the Company affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Significant estimates made by management include: provisions for product returns, rebates, chargebacks, discounts and allowances and distribution fees paid to certain wholesalers; useful lives of amortizable intangible assets and property, plant and equipment; expected future cash flows used in evaluating intangible assets for impairment, assessing compliance with debt covenants and making going concern assessments; reporting unit fair values for testing goodwill for impairment and allocating goodwill to new reporting unit structure structures on a relative fair value basis; provisions for loss contingencies; provisions for income taxes, uncertain tax positions and realizability of deferred tax assets; fair value of cross-currency swaps; fair value of foreign currency exchange contracts; and the recognition of the fair value of assets and liabilities acquired in a business combination including the fair value of contingent consideration, or asset acquisition. Under certain product manufacturing and supply agreements, management uses information from the Company's commercialization counterparties to arrive at estimates for future returns, rebates and chargebacks.

On an ongoing basis, management reviews its estimates to ensure that these estimates appropriately reflect changes in the Company's business and new information as it becomes available. If historical experience and other factors used by management to make these estimates do not reasonably reflect future activity, the Company's Consolidated Financial Statements could be materially impacted.

Reclassifications

Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

Acquisitions

Acquired businesses are accounted for using the acquisition method of accounting, which requires that assets acquired and liabilities assumed be recorded at fair value, with limited exceptions. Transaction costs and costs to restructure the acquired company are expensed as incurred. The operating results of the acquired business are reflected in the Consolidated Financial Statements after the date of acquisition. Acquired in-process research and development ("IPR&D") is recognized at fair value and initially characterized as an indefinite-lived intangible asset, irrespective of whether the acquired IPR&D has an alternative future use. If the acquired net assets do not constitute a business, the transaction is accounted for as an asset acquisition and no goodwill is recognized. In an asset acquisition, the amount allocated to acquired IPR&D with no alternative future use is charged to Other expense at the acquisition date and any future contingent consideration is not recorded until it becomes probable.

Fair Value of Financial Instruments

The estimated fair values of cash and cash equivalents, trade receivables, accounts payable and accrued liabilities approximate their carrying values due to their short maturity periods. The fair value of acquisition-related contingent consideration is based on estimated discounted future cash flows or Monte Carlo Simulation (when appropriate) analyses and assessment of the probability of occurrence of potential future events.

Fair Value of Derivative Instruments

The accounting for changes in the fair value of a derivative instrument depends on whether the instrument has been designated and qualifies as part of a hedging relationship and on the type of hedging relationship. For derivative instruments designated and qualifying as hedging instruments, the hedging instrument must be designated, based upon the exposure being hedged, as a fair value hedge, cash flow hedge, or a hedge of the foreign currency exposure of a net investment in a foreign operation. For derivative instruments not designated as hedging instruments, the gain or loss is recognized in the Consolidated Statements of Operations during the current period.

Bausch + Lomb's cross-currency swaps qualified qualify for and have been designated as an accounting hedge of the foreign currency exposure of a net investment in a foreign operation and are remeasured at each reporting date to reflect changes in their fair values. The fair value was is determined via a mark-to-market analysis, using observable (Level 2) inputs. These inputs included: (i) the foreign currency exchange spot rate between the euro and U.S. dollar, (ii) the interest rate yield curves in the euro and U.S. dollar and (iii) the credit risk rating for each applicable counterparty. The net change in fair value of cross-currency swaps is reported as a gain or loss in the Consolidated Statements of Comprehensive Income (Loss) as part of Foreign currency translation adjustment to the extent they are effective, and remain in Accumulated other

comprehensive loss until either the sale or complete, or substantially complete, liquidation of the subsidiary. No portion of the cross-currency swaps was ineffective. Bausch + Lomb uses the spot method of assessing hedge effectiveness. Bausch + Lomb has elected to amortize amounts excluded from the assessment of effectiveness over the term of its cross-currency swaps as a reduction of Interest expense in the Consolidated Statements of Operations.

The Company uses foreign currency exchange contracts to economically hedge the foreign exchange exposure on certain of the Company's intercompany and third party balances. The Company's foreign currency exchange contracts are remeasured at each reporting date to reflect changes in their fair values determined using forward rates, which are observable market inputs, multiplied by the notional amount. These contracts have not been designated as an accounting hedge, and therefore the net change in their fair value is reported as a gain or loss in the Consolidated Statements of Operations as part of Foreign exchange and other. Settlements of the Company's foreign currency exchange contracts are reported as a gain or loss in the Consolidated Statements of Operations as part of Foreign exchange and other and reported as operating activities in the Consolidated Statements of Cash Flows.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash in bank accounts and highly liquid investments with maturities of three months or less when purchased.

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist primarily of cash and cash equivalents, marketable securities, trade receivables, cross-currency swaps and foreign currency exchange contracts.

The Company invests its excess cash in high-quality, money market instruments and term deposits with varying maturities, but typically less than three months. Cash deposited at banks may exceed the amount of insurance provided on such deposits. Generally, these cash deposits may be redeemed upon demand and are maintained with financial institutions with

reputable credit and therefore bear minimal credit risk. The Company seeks to mitigate such risks by spreading its risk across multiple counterparties and monitoring the risk profiles of these counterparties.

The Company's trade receivables primarily represent amounts due from wholesale distributors, retail pharmacies, government entities and group purchasing organizations. Outside of the U.S., concentrations of credit risk with respect to trade receivables, which are typically unsecured, are limited due to the number of customers using the Company's products, as well as their dispersion across many different geographic regions. The Company performs periodic credit evaluations of customers and does not require collateral. The Company monitors economic conditions, including volatility associated with international economies, and related impacts on the relevant financial markets and its business, especially in light of sovereign credit issues. The credit and economic conditions within Algeria, Argentina, Belarus, Brazil, Greece, Iran, Russia, Serbia, South Africa, Turkey, Ukraine and Venezuela have been weak in recent years. These conditions have increased, and may continue to increase, the average length of time that it takes to collect on the Company's trade receivables outstanding in these countries.

As of December 31, 2022 December 31, 2023, the Company's three largest U.S. wholesaler customers accounted for approximately 46% of net trade receivables. In addition, as of December 31, 2022 December 31, 2023 and 2021 2022, the Company's net trade receivable balance from Algeria, Argentina, Belarus, Brazil, Greece, Iran, Russia, Serbia, South Africa, Turkey, Ukraine and Venezuela amounted to \$136 million \$144 million and \$78 \$136 million, respectively, the majority of which is current or less than 90 days past due. The portion of the net trade receivable from these countries that is past due more than 90 days amounted to \$2 million, as of December 31, 2022 December 31, 2023, a portion of which is comprised of public hospitals. Based on an analysis of credit risk, including an analysis of bad debt experience and assessment of historical payment patterns for such customers, the Company has established a reserve covering more than half of the balance past due more than 90 days for such countries. Over the three-year period ended December 31, 2022 December 31, 2023, the Company has not experienced any material losses from uncollectible accounts in excess of the established reserves.

The Company does not enter into financial instruments for trading or speculative purposes. Further, the Company has a policy of only entering into contracts with parties that have at least an investment grade credit rating. The Company enters into cross-currency swaps and foreign currency exchange contracts with high credit quality financial institutions. The counter-parties to the Company's cross-currency swaps and foreign currency exchange contracts are major financial institutions, and there is no significant concentration of exposure with any one counter-party. To date, no counterparty has failed to meet its obligations to the Company and management believes the risk of loss associated with these contracts is remote. See Note 5, "FAIR VALUE MEASUREMENTS" for additional details regarding the Company's cross-currency swaps and foreign currency exchange contracts.

Allowance for Credit Losses

An allowance is maintained for potential credit losses. The Company estimates the current expected credit loss on its receivables based on various factors, including historical credit loss experience, customer credit worthiness, value of collaterals (if any), and any relevant current and reasonably supportable future economic factors. Additionally, the Company generally estimates the expected credit loss on a pool basis when customers are deemed to have similar risk characteristics. Trade receivable balances are written off against the allowance when it is deemed probable that the trade receivable will not be collected. Trade receivables, net are stated net of certain sales provisions and the allowance for credit losses. Allowance for credit losses were \$33 million \$34 million, \$35 million \$33 million and \$39 \$35 million as of December 31, 2022 December 31, 2023, 2021 2022 and 2020, 2021, respectively. The activity in the allowance for credit losses for trade receivables was as follows:

Inventories

Inventories comprise raw materials, work in process and finished goods, which are valued at the lower of cost or net realizable value, on a first-in, first-out basis. The cost value for work in process and finished goods inventories includes materials, direct labor and an allocation of overheads.

The Company evaluates the carrying value of inventories on a regular basis, taking into account such factors as historical and anticipated future sales compared with quantities on hand, the price the Company expects to obtain for products in their respective markets compared with historical cost and the remaining shelf life of goods on hand.

Property, Plant and Equipment

Property, plant and equipment are reported at cost, less accumulated depreciation. Costs incurred on assets under construction are capitalized as construction in progress. Depreciation is calculated using the straight-line method, commencing when the assets become available for productive use, based on the following estimated useful lives:

Land improvements	15 - 30 years
Buildings and improvements	Up to 40 years
Machinery and equipment	3 Up to - 20 years
Other equipment	3 - 10 years

Intangible Assets

Intangible assets are reported at cost, less accumulated amortization and impairments. Intangible assets with finite lives are amortized over their estimated useful lives. Amortization is calculated primarily using the straight-line method based on the following estimated useful lives:

Product brands	1 - 20 years
Corporate brands	95 - 20 years
Product rights/patents	41 - 15 years
Partner relationships	7 - 9 years
Out-licensed technology and other	83 - 9 years

Divestitures of Products

The net proceeds on the divestiture of products and the carrying amount of the related assets is recorded as a gain/loss on sale within Other expense, net. Any contingent payments that are potentially due to the Company as a result of these divestitures are recorded when realizable.

IPR&D

The fair value of IPR&D acquired through a business combination is capitalized as an indefinite-lived intangible asset until the completion or abandonment of the related research and development activities. When the related research and development is completed, the asset will be assigned a useful life and amortized. Acquired IPR&D assets are tested for impairment at least annually or when triggering events are identified.

The fair value of an acquired IPR&D intangible asset is typically determined using an income approach. This approach starts with a forecast of the net cash flows expected to be generated by the asset over its estimated useful life. The net cash flows reflect the asset's stage of completion, the probability of technical success, the projected costs to complete, expected market competition and an assessment of the asset's life-cycle. The net cash flows are then adjusted to present value by applying an appropriate discount rate that reflects the risk factors associated with the expected cash flow streams.

Impairment of Long-Lived Assets

Long-lived assets with finite lives are tested for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. If indicators of impairment are present, the asset is tested for recoverability by comparing the carrying value of the asset to the related estimated undiscounted future cash flows expected to be derived from the asset, which include the amount and timing of the projected future cash flows. If the expected undiscounted cash flows are less than the carrying value of the asset, then the asset is considered to be impaired and its carrying value is written down to fair value, based on the related estimated discounted future cash flows.

Indefinite-lived intangible assets, which includes acquired IPR&D and the corporate trademark acquired in the acquisition of Bausch & Lomb Holdings Incorporated (the "B&L Trademark"), are tested for impairment annually or more frequently if events or changes in circumstances between annual tests indicate that the asset may be impaired. Impairment losses on indefinite-lived intangible assets are recognized based on a comparison of the fair value of the asset to its carrying value.

Goodwill

Goodwill is recorded with the acquisition of a business and is calculated as the difference between the acquisition date fair value of the consideration transferred and the values assigned to the assets acquired and liabilities assumed. Goodwill is not amortized but is tested for impairment at least annually as of October 1st at the reporting unit level. Goodwill impairment is measured as the amount by which a reporting unit's carrying value exceeds its fair value. A reporting unit is the same as, or one level below, an operating segment. An entity is permitted to first assess qualitatively whether it is necessary to perform a quantitative impairment test for any of its reporting units. The quantitative impairment test is required only when the Company concludes that

it is more likely than not that a reporting unit's fair value is less than its carrying amount. In evaluating whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount, the Company considers the totality of all relevant events or circumstances that affect the fair value or carrying amount of a reporting unit.

An interim goodwill impairment test in advance of the annual impairment assessment may be required if events occur that indicate an impairment might be present. For example, a substantial decline in the Company's market capitalization, changes in reportable segments, unexpected adverse business conditions, economic factors, including rising interest rates and unanticipated competitive activities may signal that an interim impairment test is needed. Accordingly, among other factors, the Company monitors changes in its share price between annual impairment tests. The Company considers a decline in its share price that corresponds to an overall deterioration in stock market conditions to be less of an indicator of goodwill impairment than a unilateral decline in its share price reflecting adverse changes in its underlying operating performance, cash flows, financial condition and/or liquidity. In the event that the Company's market capitalization does decline below its book value, the Company would consider the length and severity of the decline and the reason for the decline when assessing whether potential goodwill impairment exists. The Company believes that short-term fluctuations in share prices may not necessarily reflect underlying values.

Debt Discounts and Premiums, Issuance Costs and Deferred Financing Costs

Debt discounts and premiums, issuance costs are presented in the Consolidated Balance Sheets as a direct deduction from or addition to the carrying amount of the related debt and are amortized or accreted, using the effective interest method, as interest expense over the contractual lives of the related credit facilities or notes. Deferred financing costs associated with

revolving credit facility arrangements are included in the balances of Prepaid expenses and other current assets and Other non-current assets in the Consolidated Balance Sheets and are amortized as interest expense over the contractual life of the related revolving credit facility.

The carrying value Company accounts for exchanges of modified debt accounted for in accordance with Accounting Standards Codifications 470-60 which has resulted in certain debt being carried at a premium relative to its principal amount as well as a troubled debt restructuring consists portion of all future undiscounted cash flows, both principal and contractual future interest associated with such debt. The excess of the carrying value over the principal amount of such debt is cost being recorded as a reduction of that premium and is reduced rather than as stated interest payments are made on such debt. expense.

Foreign Currency Translation

The assets and liabilities of the Company's foreign operations having a functional currency other than the U.S. dollar are translated into U.S. dollars at the exchange rate prevailing at the balance sheet date, and at the average exchange rate for the reporting period for revenue and expense accounts. The cumulative foreign currency translation adjustment is recorded as a component of Accumulated other comprehensive loss in the Consolidated Balance Sheets.

Foreign currency exchange gains and losses on transactions occurring in a currency other than an operation's functional currency are recognized as a component of Foreign exchange and other in the Consolidated Statements of Operations.

Revenue Recognition

The Company's revenues are primarily generated from product sales, primarily in the therapeutic areas of eye health, gastroenterology ("GI") and dermatology that consist of: (i) branded pharmaceuticals, (ii) generic and branded generic pharmaceuticals, (iii) OTC products and (iv) medical devices (contact lenses, intraocular lenses, ophthalmic surgical equipment and aesthetics devices). Other revenues include alliance and service revenue from the licensing and co-promotion of products and contract service revenue primarily in the areas of dermatology and topical medication. Contract service revenue is derived primarily from contract manufacturing for third parties and is not material. See Note 22, "SEGMENT INFORMATION" for the disaggregation of revenues which depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by the economic factors of each category of customer contracts.

The Company recognizes revenue when the customer obtains control of promised goods or services and in an amount that reflects the consideration to which the Company expects to be entitled to receive in exchange for those goods or services. To achieve this core principle, the Company applies the five-step revenue model to contracts within its scope: (i) identify the contract(s) with a customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract and (v) recognize revenue when (or as) the entity satisfies a performance obligation.

Product Sales

A contract with the Company's customers exists for each product sale. Where a contract with a customer contains more than one performance obligation, the Company allocates the transaction price to each distinct performance obligation based on its relative standalone selling price. The transaction price is adjusted for variable consideration which is discussed below. The Company generally recognizes revenue for product sales at a point in time when the customer obtains control of the products.

Product Sales Provisions

As is customary in the pharmaceutical industry, gross product sales are subject to a variety of deductions in arriving at reported net product sales. The transaction price for product sales is typically adjusted for variable consideration, which may be in the form of cash discounts, allowances, returns, rebates, chargebacks and distribution fees paid to customers. Provisions for variable consideration are established to reflect the Company's best estimates of the amount of consideration to which it is entitled based on the terms of the contract. The amount of variable consideration included in the transaction price may be constrained, and is included in the net sales price only to the extent that it is probable that a significant reversal in the amount of the cumulative revenue recognized will not occur in the future period.

Provisions for these deductions are recorded concurrently with the recognition of gross product sales revenue and include cash discounts and allowances, chargebacks, and distribution fees, which are paid to direct customers, as well as rebates and returns, which can be paid to direct and indirect customers. Returns provision balances and volume discounts to direct customers are included in Accrued and other current liabilities. All other provisions related to direct customers are included in Trade receivables, net, while provision balances related to indirect customers are included in Accrued and other current liabilities.

The following table presents the activity and ending balances of the Company's variable consideration provisions for the years 2022, 2023 and 2021, 2022.

The Company continually monitors its variable consideration provisions and evaluates the estimates used as additional information becomes available. Adjustments will be made to these provisions periodically to reflect new facts and circumstances that may indicate that historical experience may not be indicative of current and/or future results. The Company is required to make subjective judgments based primarily on its evaluation of current market conditions and trade inventory levels related to the Company's products. These judgments include the potential impact of the COVID-19 pandemic macroeconomic factors on, among other things, unemployment and related changes in customer health insurance levels, customer behaviors during the COVID-19 pandemic and government stimulus bills that focus on ensuring availability and access to lifesaving drugs during a public health crisis. This evaluation may result in an increase or decrease in the experience rate that is applied to current and future sales, or require an adjustment related to past sales, or both. If the trend in actual amounts of variable consideration varies from the Company's prior estimates, the Company adjusts these estimates when such trend is believed to be sustainable. At that time, the Company would record the necessary adjustments which would affect net product revenue and earnings reported in the current period. The Company applies this method consistently for contracts with similar characteristics. The following describes the major sources of variable consideration in the Company's customer arrangements and the methodology, estimates and judgments applied to estimate each type of variable consideration.

Cash Discounts and Allowances

Cash discounts are offered for prompt payment and allowances for volume purchases. Provisions for cash discounts and allowances are estimated at the time of sale and recorded as direct reductions to trade receivables and revenue. Management estimates the provisions for cash discounts and allowances based on contractual sales terms with customers, an analysis of unpaid invoices and historical payment experience. Estimated cash discounts and allowances have historically been predictable and less subjective, due to the limited number of assumptions involved, the consistency of historical experience and the fact that these amounts are generally settled within one month of incurring the liability.

Returns

Consistent with industry practice, customers are generally allowed to return a product within a specified period of time before and after its expiration date, excluding European businesses which generally do not provide a right of return. The returns provision is estimated utilizing historical sales and return rates over the period during which customers have a right of return, taking into account available information on competitive products and contract changes. The information utilized to estimate the returns provision includes: (i) historical return and exchange levels, (ii) external data with respect to inventory levels in the distribution channel, (iii) external data with respect to prescription demand for products, (iv) remaining shelf lives of products at the date of sale and (v) estimated returns liability to be processed by year of sale based on an analysis of lot information related to actual historical returns.

In determining the estimate for returns, management is required to make certain assumptions regarding the timing of the introduction of new products and the potential of these products to capture market share. In addition, certain assumptions with respect to the extent and pattern of decline associated with generic competition are necessary. These assumptions are formulated using market data for similar products, past experience and other available information. These assumptions are continually reassessed, and changes to the estimates and assumptions are made as new information becomes available.

The estimate for returns may be impacted by a number of factors, but the principal factor relates to the inventory levels in the distribution channel. When management becomes aware of an increase in such inventory levels, it considers whether the increase may be temporary or other-than-temporary. Temporary increases in wholesaler inventory levels will not warrant revision to the provision for returns. Other-than-temporary increases in wholesaler inventory levels, however, may be an indication that future product returns could be higher than originally anticipated, and, as a result, estimates for returns may need to be adjusted. Factors that suggest increases in wholesaler inventory levels are temporary include: (i) recently implemented or announced price increases for certain products, (ii) new product launches or expanded indications for existing products and (iii) timing of purchases by wholesale customers. Conversely, factors that suggest increases in wholesaler inventory levels are other-than-temporary include: (i) declining sales trends based on prescription demand, (ii) introduction of new products or generic competition, (iii) increasing price competition from generic competitors and (iv) changes to the U.S. National Drug Codes ("NDC") of products. Changes in the NDC of products could result in a period of higher returns related to products with the old NDC, as U.S. customers generally permit only one NDC per product for identification and tracking within their inventory systems.

Over the last several years, the Company increased its focus on maximizing operational efficiencies and continues to take actions to reduce product returns, including but not limited to: (i) monitoring and reducing customer inventory levels, (ii) instituting disciplined pricing policies and (iii) improving contracting. These actions have had the effect of improving sales return experience, primarily related to branded and generic products. Sales return provisions for 2023 and 2022 were \$146 million and 2021 were \$131 million, in each period, and include reductions in variable consideration for sales return provisions related to past sales of approximately \$21 million and \$28 million, respectively.

Rebates and Chargebacks

Product sales made under governmental and managed-care pricing programs in the U.S. are subject to rebates. The Company participates in state government-managed Medicaid programs, as well as certain other qualifying federal and state government programs whereby rebates are provided to participating government entities. Medicaid rebates are generally billed 45 days to 270 days after the quarter in which the product is dispensed to the Medicaid participant. As a result, the Medicaid rebate reserve includes an estimate of outstanding claims for end-customer sales that occurred, but for which the related claim has not been billed and/or paid, and an estimate for future claims that will be made when inventory in the distribution channel is sold through to plan participants. The calculation of the Medicaid rebate reserve also requires other estimates, such as estimates of sales mix, to determine which sales are subject to rebates and the amount of such rebates. Quarterly, the Medicaid rebate reserve is adjusted based on actual claims paid. Due to the delay in billing, adjustments to actual claims paid may incorporate revisions of that reserve for several periods.

Managed Care rebates relate to contractual agreements to sell products to managed care organizations and pharmacy benefit managers at contractual rebate percentages in exchange for volume and/or market share.

Chargebacks relate to contractual agreements to sell products to government agencies, group purchasing organizations and other indirect customers at contractual prices that are lower than the list prices the Company charges wholesalers. When these group purchasing organizations or other indirect customers purchase products through wholesalers at these reduced prices, the wholesaler charges the Company for the difference between the prices they paid the Company and the prices at which they sold the products to the indirect customers.

In estimating provisions for rebates and chargebacks, management considers relevant statutes with respect to governmental pricing programs and contractual sales terms with managed-care providers and group purchasing organizations. Management estimates the amount of product sales subject to these programs based on historical utilization levels. Changes in the level of utilization of products through private or public benefit plans and group purchasing organizations will affect the amount of rebates and chargebacks that the Company is obligated to pay. Management continually updates these factors based on new contractual or statutory requirements, and any significant changes in sales trends that may impact the percentage of products subject to rebates or chargebacks.

The amount of Managed Care, Medicaid and other rebates and chargebacks has become more significant as a result of a combination of deeper discounts implemented in each of the last three years, changes in the Company's product mix and increased Medicaid utilization due to expansion of government funding for these programs. Management's estimate for rebates and chargebacks may be impacted by a number of factors, but the principal factor relates to the level of inventory in the distribution channel.

Rebate provisions are based on factors such as timing and terms of plans under contract, time to process rebates, product pricing, sales volumes, amount of inventory in the distribution channel and prescription trends. Adjustments to actual for the years 2022 2023 and 2021 2022 were not material to the Company's revenues or earnings.

Patient Co-Pay Assistance programs, Consumer Rebates and Loyalty Programs are rebates offered on many of the Company's products. Patient Co-Pay Assistance Programs are patient discount programs offered in the form of coupon

cards or point of sale discounts, with which patients receive certain discounts off their prescription at participating pharmacies, as defined by the specific product program. An accrual for these programs is established, equal to management's estimate of the discount, rebate and loyalty incentives attributable to a sale. That estimate is based on historical experience and other relevant factors. The accrual is adjusted throughout each quarter based on actual experience and changes in other factors, if any.

Distribution Fees

The Company sells products primarily to wholesalers, and in some instances to large pharmacy chains such as CVS and Walmart. The Company has Distribution Services Agreements ("DSAs") with several large wholesale customers such as McKesson Corporation, Cencora Inc. (formerly AmerisourceBergen Corporation, Corporation), Cardinal Health, Inc. and McKesson Specialty. Under the DSAs, the wholesalers agree to provide services, and the Company pays the contracted DSA distribution service fees for these services based on product volumes. Additionally, price appreciation credits are generated when the Company increases a

product's wholesaler acquisition cost ("WAC") under contracts with certain wholesalers. Under such contracts, the Company is entitled to credits from such wholesalers for the impact of that WAC increase on inventory currently on hand at the wholesalers. Such credits are offset against the total distribution service fees paid to each such wholesaler. The variable consideration associated with price appreciation credits is reflected in the transaction price of products sold when it is determined to be probable that a significant reversal will not occur. Included as a reduction of current period provisions for Distribution Fees in the table above are price appreciation credits of \$10 million \$11 million and \$17 million \$10 million for the years 2022 2023 and 2021, 2022, respectively.

Contract Assets and Contract Liabilities

There are no contract assets for any period presented. Contract liabilities consist of deferred revenue, the balance of which is not material to any period presented.

Sales Commissions

Sales commissions are generally attributed to periods shorter than one year and therefore are expensed when incurred. Sales commissions are included in selling, general and administrative expenses.

Financing Component

The Company has elected not to adjust consideration for the effects of a significant financing component when the period between the transfer of a promised good or service to the customer and when the customer pays for that good or service will be one year or less. The Company's global payment terms are generally between thirty to ninety days.

Leases

The Company leases certain facilities, vehicles and equipment principally under multi-year agreements generally having a lease term of one to twenty years, some of which include termination options and options to extend the lease term from one to five years or on a month-to-month basis. The Company includes options that are reasonably certain to be exercised as part of the lease term. The Company may negotiate termination clauses in anticipation of changes in market conditions but generally, these termination options are not exercised. Certain lease agreements also include variable payments that are dependent on usage or may vary month-to-month such as insurance, taxes and maintenance costs. None of the Company's lease agreements contain material residual value guarantees or material restrictive covenants.

The Company is required to record a right-of-use asset and corresponding lease liability, equal to the present value of the lease payments at the commencement date of each lease. For all asset classes, in determining future lease payments, the Company has elected to aggregate lease components, such as payments for rent, taxes and insurance costs with non-lease components such as maintenance costs, and account for these payments as a single lease component. In limited circumstances, when the information necessary to determine the rate implicit in a lease is available, the present value of the lease payments is determined using the rate implicit in that lease. If the information necessary to determine the rate implicit in a lease is not available, the Company uses its incremental borrowing rate at the commencement of the lease, which represents the rate of interest that the Company would incur to borrow on a collateralized basis over a similar term.

All leases must be classified as either an operating lease or finance lease. The classification is determined based on whether substantive control has been transferred to the lessee. The classification governs the pattern of lease expense recognition. For leases classified as operating leases, total lease expense over the term of the lease is equal to the undiscounted payments due in accordance with the lease arrangement. Fixed lease expense is recognized periodically on a straight-line basis over the term of each lease and includes: (i) imputed interest during the period on the lease liability determined using the effective interest rate method plus (ii) amortization of the right-of-use asset for that period. Amortization of the right-of-use asset

of-use asset during the period is calculated as the difference between the straight-line expense and the imputed interest on the lease liability for that period. Variable lease expense is recognized when the achievement of the specific target is considered probable.

Research and Development Expenses

Costs related to internal research and development programs, including costs associated with the development of acquired IPR&D, are expensed as goods are delivered or services are performed. Under certain research and development arrangements with third parties, the Company may be required to make payments that are contingent on the achievement of specific developmental, regulatory and/or commercial milestones. Milestone payments made to third parties before a product receives regulatory approval, but after the milestone is determined to be probable, are expensed and included in Research and development expenses. Milestone payments made to third parties after regulatory approval is received are capitalized and amortized over the estimated useful life of the approved product.

Amounts due from third parties as reimbursement of development activities conducted under certain research and development arrangements are recognized as a reduction of Research and development expenses.

Legal Costs

Legal fees and other costs related to litigation and other legal proceedings or services are expensed as incurred and are included in Selling, general and administrative expenses. Certain legal costs associated with acquisitions are included in Acquisition-related costs and certain legal costs associated with divestitures, legal settlements and other business development activities are included in Litigation and other matters or Net gain on sale of assets within Other expense (income), net, as appropriate. Legal costs expensed are reported net of expected insurance recoveries. A claim for insurance recovery is recognized when realization becomes probable.

Advertising Costs

Advertising costs comprise product samples, print media, promotional materials and television advertising and are expensed on the first use of the advertisement. Included in Selling, general and administrative expenses are advertising costs of \$518 million \$625 million, \$515 million \$518 million and \$451 million \$515 million, for 2023, 2022 2021 and 2020, 2021, respectively.

Share-Based Compensation

The Company recognizes all share-based payments to employees, including grants of employee stock options and restricted share units ("RSUs"), at estimated fair value. The Company amortizes the fair value of stock option or RSU grants on a straight-line basis over the requisite service period of the individual stock option or RSU grant, which generally equals the vesting period. Stock option and RSU forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Share-based compensation is recorded in Research and development expenses and Selling, general and administrative expenses, as appropriate.

Acquisition-Related Contingent Consideration

Acquisition-related contingent consideration, which primarily consists of potential milestone payments and royalty obligations, is recorded in the Consolidated Balance Sheets at its acquisition date estimated fair value, in accordance with the acquisition method of accounting. The fair value of the acquisition-related contingent consideration is remeasured each reporting period, with changes in fair value recorded in the Consolidated Statements of Operations. The fair value measurement is based on significant inputs not observable in the market and thus represents a Level 3 measurement as defined in fair value measurement accounting.

Interest Expense

Interest expense includes standby fees, the amortization of debt discounts and deferred financing costs, accretion of debt premiums and the amortization of amounts excluded from the assessment of effectiveness related to the Company's cross-currency swaps. Interest costs are expense is generally expensed as incurred, except incurred. The Company accounts for exchanges of debt in accordance with Accounting Standards Codifications 470-60 which has resulted in certain debt being carried at a premium relative to its principal amount as well as a portion of contractual interest cost being recorded as a reduction of that premium rather than as interest expense. Therefore, interest expense recorded in the Company's consolidated financial statements differs significantly from the contractual interest rates of the debt subject to this accounting treatment. To the extent such interest is related to construction in progress, in which case interest is capitalized. Capitalized interest related to construction in progress as of December 31, 2022 December 31, 2023 and 2021 2022 was \$66 million \$71 million and \$60 \$66 million, respectively, and is included in Property, plant and equipment, net.

Income Taxes

Income taxes are accounted for under the liability method. Deferred tax assets and liabilities are recognized for the temporary differences between the financial statement and income tax bases of assets and liabilities, and for operating losses and tax credit carryforwards. A valuation allowance is provided for the portion of deferred tax assets that is more likely than not to remain unrealized. Deferred tax assets and liabilities are measured using enacted tax rates and laws. Deferred tax assets for outside basis differences in investments in subsidiaries are only recognized if the difference will be realized in the foreseeable future.

The tax benefit from an uncertain tax position is recognized only if it is more likely than not that the tax position will be sustained upon examination by the appropriate taxing authority, based on the technical merits of the position. The tax benefits recognized from such position are measured based on the amount for which there is a greater than 50% likelihood of being realized upon settlement. Liabilities associated with uncertain tax positions are classified as long-term unless expected to be paid within one year. Interest and penalties related to uncertain tax positions, if any, are recorded in the provision for income taxes and classified with the related liability on the consolidated balance sheets.

Loss Per Share Attributable to Bausch Health Companies Inc.

Basic loss per share attributable to Bausch Health Companies Inc. is calculated by dividing Net loss attributable to Bausch Health Companies Inc. by the weighted-average number of common shares outstanding during the reporting period.

Diluted loss per share attributable to Bausch Health Companies Inc. is calculated by dividing Net loss attributable to Bausch Health Companies Inc. by the weighted-average number of common shares outstanding during the reporting period after giving effect to dilutive potential common shares for stock options and RSUs, determined using the treasury stock method.

Comprehensive loss

Comprehensive loss comprises Net loss and Other comprehensive **loss, income (loss)**. Other comprehensive **loss income (loss)** includes items such as foreign currency translation adjustments, unrealized holding gains and losses on available-for-sale and other investments and certain pension and other postretirement benefit plan adjustments. Accumulated other comprehensive loss is recorded as a component of shareholders' equity.

Contingencies

In the normal course of business, the Company is subject to loss contingencies, such as claims and assessments arising from litigation and other legal proceedings, contractual indemnities, product and environmental liabilities and tax matters. Accruals for loss contingencies are recorded when the Company determines that it is both probable that a liability has been incurred and the amount of loss can be reasonably estimated. If the estimate of the amount of the loss is a range and some amount within the range appears to be a better estimate than any other amount within the range, that amount is accrued as a liability. If no amount within the range is a better estimate than any other amount, the minimum amount of the range is accrued as a liability. These accruals are adjusted periodically as assessments change or additional information becomes available.

If no accrual is made for a loss contingency because the amount of loss cannot be reasonably estimated, the Company will disclose contingent liabilities when there is at least a reasonable possibility that a loss or an additional loss may have been incurred.

Employee Benefit Plans

The Company sponsors various retirement and pension plans, including defined benefit pension plans, defined contribution plans and a participatory defined benefit postretirement plan. The determination of defined benefit pension and postretirement plan obligations and their associated expenses requires the use of actuarial valuations to estimate the benefits employees earn while working, as well as the present value of those benefits. Net actuarial gains and losses that exceed 10 percent of the greater of the plan's projected benefit obligations or the market-related value of assets are amortized to earnings over the shorter of the estimated average future service period of the plan participants (or the estimated average future lifetime of the plan participants if the majority of plan participants are inactive) or the period until any anticipated final plan settlements.

Adoption of

New Accounting Standards

There were no new accounting standards adopted during 2023.

In June 2016, December 2023, the Financial Accounting Standards Board ("FASB") (the "FASB") issued guidance on Accounting Standards Update ("ASU") 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which requires disclosures of disaggregated income taxes paid, prescribes standard categories for the impairment components of financial instruments requiring an impairment model based on expected losses rather than incurred losses. Under this guidance, an entity recognizes as an allowance its estimate of expected credit losses, the effective tax rate reconciliation, and modifies other income tax-related disclosures. The guidance was enhanced income tax related disclosures required by ASU 2023-09 are effective for the Company beginning January 1, 2020 and was applied using a modified retrospective approach through a cumulative-effect adjustment to accumulated deficit, which resulted in an increase to Accumulated deficit with its 2025 annual report. Early adoption is permitted. The Company is evaluating the impact of less than \$1 million. The application adoption of this guidance did not have a material effect on the Company's results of operations and cash flows, its disclosures.

In August 2018, November 2023, the FASB issued guidance modifying the ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. The ASU expands public entities' segment disclosures by requiring disclosure requirements for employers of significant segment expenses that sponsor defined benefit pension or other postretirement plans. The guidance was effective for annual periods ending after December 15, 2020. The application of this guidance did not have a material effect on the Company's disclosures.

In December 2019, the FASB issued guidance that simplifies the accounting for income taxes by eliminating certain exceptions are regularly provided to the guidance related to the approach chief operating decision maker and included within each reported measure of segment profit or loss, an amount and description of its composition for intraperiod tax allocation, the methodology for calculating income taxes other segment items, and interim disclosures of a reportable segment's profit or loss and assets. The amendments in an interim period and the recognition of deferred tax liabilities for outside basis differences. The new guidance also simplifies aspects of the accounting for franchise taxes and enacted changes in tax laws or rates and clarifies the accounting for transactions that result in a step-up in the tax basis of goodwill. The guidance was ASU 2023-07 are effective for the Company beginning

January 1, 2021, with its 2024 annual report, and its interim periods beginning in 2025. Early adoption is permitted. The application Company is currently evaluating the impact of adopting this guidance did not have a material effect ASU on the Company's financial position, results of operations and cash flows.

In March 2020, the FASB issued guidance providing optional expedients and exceptions for applying U.S. GAAP to contracts, hedging relationships, and other transactions that reference LIBOR or a reference rate that is expected to be discontinued as a result of reference rate reform. Optional expedients are provided for contract modification accounting within the areas of receivables, debt, leases, derivatives and hedging. The optional amendments are effective for all entities

as of March 12, 2020, through December 31, 2024. For the years presented, the Company has not entered into any contract modifications in which the optional expedients were applied. its disclosures.

3. ACQUISITIONS, LICENSING AGREEMENTS AND DIVESTITURE

Licensing Agreements

In the normal course of business, the Company may enter into select licensing and collaborative agreements for the commercialization and/or development of unique products. These products are sometimes investigational treatments in early stage development that target unique conditions. The ultimate outcome, including whether the product will be: (i) fully developed, (ii) approved by regulatory agencies, (iii) covered by third-party payors or (iv) profitable for distribution, is highly uncertain. The commitment periods under these agreements vary and include customary termination provisions. Expenses arising from commitments, if any, to fund the development and testing of these products and their promotion are recognized as incurred. Royalties due are recognized when earned and milestone payments are accrued when each milestone has been achieved and payment is probable and can be reasonably estimated.

Bausch + Lomb Acquisitions

Paragon BioTeck, Acquisition of XIIDRA®

On June 30, 2023, a wholly owned subsidiary of Bausch + Lomb, Bausch + Lomb Ireland Limited, entered into a Stock and Asset Purchase Agreement (the "Acquisition Agreement") with Novartis Pharma AG and Novartis Finance Corporation (together with Novartis Pharma AG, "Novartis") and, solely for purposes of guaranteeing certain obligations of the acquiring entity under the Acquisition Agreement, Bausch + Lomb, to acquire XIIDRA® (lifitegrast ophthalmic solution) and certain other ophthalmology assets (the "XIIDRA Acquisition").

On September 29, 2023, under the terms of the Acquisition Agreement, Bausch + Lomb, through its affiliate, consummated the XIIDRA Acquisition for: (i) an upfront cash payment of \$1,750 million, (ii) the assumption of certain pre-existing milestone payments and (iii) potential future milestone obligations of up to \$750 million, as discussed below. The strategic XIIDRA Acquisition is expected to complement Bausch + Lomb's existing dry eye franchise that includes eye and contact lens drops from Bausch + Lomb's consumer brand franchises and novel treatments within its pharmaceutical business such as MIEBO™ (perfluorohexyloctane ophthalmic solution). The assets acquired and liabilities assumed are included within Bausch + Lomb's Pharmaceuticals business.

The XIIDRA Acquisition has been accounted for as a business combination under the acquisition method of accounting. The estimated aggregate acquisition consideration of approximately \$1,753 million is calculated as follows:

(in millions)

Cash consideration paid to Novartis at closing, per the Acquisition Agreement	\$ 1,750
Estimated fair value of contingent consideration	3
Aggregate purchase consideration	\$ 1,753

The upfront cash payment of \$1,750 million was paid on September 29, 2023, using the proceeds received from the issuance of the B+L October 2028 Secured Notes and the establishment of the B+L September 2028 Term Facility, each as defined and further discussed in Note 10, "FINANCING ARRANGEMENTS".

Contingent consideration included as part of the consideration relates to potential future milestone obligations of up to \$750 million, including: (i) up to \$475 million in cash payable upon the achievement of specified commercialization and sales milestones for certain pipeline products and (ii) up to \$275 million in cash payable upon the achievement of specified sales milestones for XIIDRA®. The fair value of the contingent consideration recognized

on the acquisition date of \$3 million was estimated by using the inputs disclosed in Note 5, "FAIR VALUE MEASUREMENTS". The Company reassesses its acquisition-related contingent consideration liabilities each quarter for changes in fair value.

Assets Acquired and Liabilities Assumed

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed related to the XIIDRA Acquisition as of the acquisition date, inclusive of measurement period adjustments:

(in millions)

Intangible assets, net	\$ 1,600
Prepaid expenses and other current assets	162
Accrued and other current liabilities	(1)
Other non-current liabilities	(31)
Total identifiable net assets	1,730
Goodwill	23
Total fair value of consideration transferred	\$ 1,753

Since the date of acquisition, adjustments made during the measurement period have included an increase of \$5 million to Intangible assets, net with an offset to Prepaid expenses and other current assets, which is reflected in the table above.

The fair value of the identifiable intangible assets is determined primarily using the "income approach," which requires a forecast of the expected future cash flows (including revenue growth rates, cost of goods sold, operating expenses and discount rate). The intangible assets acquired, as well as their fair values and estimated useful life consist of the following:

(in millions)	Fair Value	Estimated Useful Life (In Years)
Product brand	\$ 1,595	8.75
Acquired in-process research and development intangible asset	5	N/A
Total Intangible assets, net	\$ 1,600	

Prepaid expenses and other current assets associated with the XIIDRA Acquisition represent the terms of an interim contract to purchase inventory, as embedded within the agreements associated with the XIIDRA Acquisition. The terms of the interim contract allowed Bausch + Lomb to acquire the remaining XIIDRA® inventory from Novartis at the end of the contractual term. The remaining inventory was acquired during December 2023 and the prepaid expenses and other current assets recognized were reclassified into Inventories, net, as of December 31, 2023. The balance of this interim contract will be released to Cost of goods sold (excluding amortization and impairments of intangible assets) as Bausch + Lomb sells the acquired inventory over an assumed inventory turnover cycle of approximately two years. Cost of goods sold for 2023 includes \$20 million related to the release of this interim contract.

Other non-current liabilities associated with the XIIDRA Acquisition represent the fair value of the historical contingent consideration liability assumed from Novartis by Bausch + Lomb as a part of the acquisition. The fair value of the assumed contingent consideration recognized on the acquisition date was \$31 million and was estimated by using a discount rate of 11%.

Goodwill associated with the XIIDRA Acquisition represents the workforce acquired as well as future operating efficiencies and cost savings. Substantially all of the goodwill associated with the XIIDRA Acquisition is deductible for income tax purposes.

The valuation of the assets acquired and liabilities assumed as part of the XIIDRA Acquisition has not been finalized as of December 31, 2023. The areas that could be subject to change primarily related to income tax matters. Bausch + Lomb will finalize these amounts no later than one year from the acquisition date.

Revenue and Operating Results

Net revenues and earnings attributable to the XIIDRA Acquisition from the date of acquisition through December 31, 2023 were \$106 million and \$17 million, respectively.

Pro Forma Financial Information

The following table presents the unaudited pro forma combined results of the Company and the acquired assets for the years ended December 31, 2023 and 2022 as if the XIIDRA Acquisition, and the related financing, had occurred on January 1, 2022:

(in millions)	2023	2022

Revenues	\$	9,006	\$	8,611
Net loss	\$	(822)	\$	(507)
Net loss attributable to Bausch Health Companies Inc.	\$	(762)	\$	(498)

The unaudited pro forma combined financial information was prepared using the acquisition method of accounting and was based on the historical financial information of the Company and the acquired assets. In order to reflect the occurrence of the acquisition on January 1, 2022 as required, the unaudited pro forma financial information includes adjustments to reflect incremental amortization expense incurred based on (i) the fair values of the identifiable intangible assets acquired, (ii) the incremental cost of products sold related to the release of an interim contract to purchase inventory, as embedded within the agreements associated with the XIIDRA Acquisition, (iii) the elimination of historical impairments and accretion expenses related to historical contingent considerations recorded by Novartis, (iv) the recording of new/assumed contingent consideration accretion expense, (v) the additional interest expense associated with the issuance of debt to finance the acquisition and (vi) the tax impact of each of the aforementioned adjustments.

Included in the Consolidated Statements of Operations for 2023 are: (i) acquisition-related transaction costs, included within Other expense, net, of \$20 million, which are directly related to the XIIDRA Acquisition, and include expenditures for representation and warranty insurance premiums, legal, valuation, accounting and other similar professional services and (ii) acquisition-related financing costs, included within Interest expense, of \$16 million, which are directly related to the XIIDRA Acquisition, and include expenditures for certain upfront financing commitment costs related to debt financing commitments in place prior to the XIIDRA Acquisition, the issuance of the B+L October 2028 Secured Notes and the establishment of the B+L September 2028 Term Facility, each as defined and further discussed in Note 10, "FINANCING ARRANGEMENTS". These acquisition-related transaction and financing costs are reflected in pro forma Net (loss) income attributable to Bausch Health Companies Inc., in the table above, for 2022.

The unaudited pro forma financial information is not necessarily indicative of what the consolidated results of operations would have been, had the XIIDRA Acquisition been completed on January 1, 2022. In addition, the unaudited pro forma financial information is not a projection of future results of operations of the combined company nor does it reflect the expected realization of any synergies or cost savings associated with the acquisition.

Acquisition of Blink® Product Line

On November 21, 2022 July 6, 2023, Bausch + Lomb announced that it had consummated a transaction with Johnson & Johnson Vision, pursuant to which Bausch + Lomb, through an affiliate, acquired the Blink® product line of eye and contact lens drops, which consists of Blink® Tears Lubricating Eye Drops, Blink® Tears Preservative Free Lubricating Eye Drops, Blink GelTears® Lubricating Eye Drops, Blink® Triple Care Lubricating Eye Drops, Blink Contacts® Lubricating Eye Drops and Blink-N-Clean® Lens Drops. This acquisition was made by Bausch + Lomb to continue to grow its global over-the-counter business. Under the terms of the purchase agreement, Bausch + Lomb, through an affiliate, acquired the Blink® product line of eye and contact lens drops for an upfront cash payment of \$107 million, which was paid on the closing of the transaction. The acquired assets are included within Bausch + Lomb's Vision Care business.

Bausch + Lomb accounted for the transaction as an asset acquisition. The acquired assets consist of inventory and intangible assets. The intangible assets acquired and estimated useful lives consist of the following:

(in millions)		Estimated Useful Life (In Years)
Corporate brands	\$ 73	12
Product brands	12	10
Technology and other	6	9
Total Intangible assets, net	\$ 91	

Acquisition of AcuFocus

On January 17, 2023, Bausch + Lomb acquired Paragon BioTeck, AcuFocus, Inc., an eye-care focused drug development ophthalmic medical device company, having a primary emphasis on for an upfront payment of \$35 million, \$31 million of which was paid in January 2023, with the early detection remaining purchase price to be paid within 18 months following the date of ocular diseases. the transaction, less any amounts that are the subject of any indemnification claims. The acquisition was made to acquire certain small aperture intraocular technology for the treatment of Paragon Biotech has been accounted for as an asset acquisition. The primary assets in the transaction, the trademarks, represented substantially all certain cataract conditions. Additional contingent payments may be payable upon achievement of the fair value of the gross assets acquired. There are no future sales milestones associated with milestones. Bausch + Lomb recorded an initial acquisition-related contingent consideration liability of approximately \$5 million.

As a result of this transaction, transaction, recorded within the Consolidated Balance Sheets are Intangibles, net of \$28 million, Goodwill of \$8 million, other assets of \$9 million and liabilities of \$6 million.

Acquisition of Total Titanium

On December 12, 2022, Bausch + Lomb acquired Total Titanium, Inc., a privately held ophthalmic microsurgical instrument and machined parts manufacturing company. The transaction was completed to assist in driving revenue growth as well as increasing manufacturing capacity. The fair value of the acquisition has been accounted for as a business combination. Additional contingent payments may be payable upon reaching key future milestone achievements related to sales and employee retention.

As a result of these transactions, recorded within the Consolidated Balance Sheet are Trade receivables, net of \$1 million, Inventories, net of \$1 million, Property, plant and equipment of \$2 million, Intangibles, net of \$43 million, Goodwill of \$5 million and Deferred tax liabilities, net of \$11 million. Supplemental pro forma information related to revenue and earnings for 2022 were not provided for the aforementioned transaction as they did not have a material impact on the Company's operations. Refer to Note 21, "COMMITMENTS AND CONTINGENCIES" for further detail regarding potential future milestone payments related to previously entered transactions and agreements.

Acquisition of Paragon BioTeck, Inc.

On November 21, 2022, Bausch + Lomb acquired Paragon BioTeck, Inc., an eye-care focused drug development company, having a primary emphasis on the early detection of ocular diseases. The acquisition of Paragon Biotech has been accounted for as an asset acquisition. The primary assets in the transaction, the trademarks, represented substantially all of the fair value of the gross assets acquired. There are no future sales milestones associated with this transaction.

Divestiture

On March 31, 2021, the Company announced that it and certain of its affiliates had entered into a definitive agreement to sell all of its equity interests in Amoun Pharmaceutical Company S.A.E. ("Amoun") for total gross consideration of approximately \$740 million (including the assignment to the purchasing entity of an intercompany loan granted by the Company to Amoun), subject to certain adjustments (the "Amoun Sale"). The Amoun Sale closed on July 26, 2021. As part of the Amoun Sale, cash generated by Amoun during the period from the locked-box date of January 1, 2021 through closing was for the benefit of the purchasing entity, subject to working capital during such period. Amoun manufactures, markets and distributes branded generics of human and animal health products. The Amoun business was part of the International Rx segment (previously included within the former Bausch + Lomb/International segment) and was reclassified as held for sale as of December 31, 2020. As a result of meeting the criteria for held for sale classification, the carrying value of the Amoun business, was adjusted to its estimated fair value, less costs to sell, and the Company recognized an impairment loss of \$96 million during the three months ended December 31, 2020 and an additional impairment loss of \$88 million during 2021, included within Asset impairments, including loss on assets held for sale in the Consolidated Statements of Operations. In connection with completing the Amoun Sale, the Company recognized an additional loss of \$26 million during 2021, included within Other (income) expense, net in the Consolidated Statements of Operations. The total loss of \$210 million includes the release of non-cash cumulative foreign currency translation losses of \$340 million, which were included as part of the carrying value of the Amoun business when measuring for impairment.

4. RESTRUCTURING, INTEGRATION, SEPARATION AND IPO COSTS

Restructuring and integration costs

The Company evaluates opportunities to improve its operating results and implements cost savings programs to streamline its operations and eliminate redundant processes and expenses. Restructuring and integration costs are expenses associated with the implementation of these cost savings programs and include expenses associated with: (i) reducing headcount, (ii) eliminating real estate costs associated with unused or under-utilized facilities and (iii) implementing contribution margin improvement and other cost reduction initiatives. The liability associated with restructuring and integration costs as of December 31, 2022 was \$12 million.

The Company incurred \$58 million, \$30 million \$18 million and \$11 \$18 million of restructuring and integration-related costs during 2023, 2022 and made payments of \$41 million, \$19 million and \$18 million during 2022, 2021, and 2020, respectively.

Separation costs, Separation-related costs, IPO Costs and IPO-related Costs

The Company has incurred, and will incur, costs associated with activities relating to the B+L Separation. In 2022 and 2021, the Company also incurred costs associated with activities relating to the Solta IPO, which was suspended in June 2022. These B+L Separation and Solta IPO activities include: (i) separating the Bausch + Lomb and Solta Medical businesses from the remainder of the Company, (ii) completing the B+L IPO and preparing for the suspended Solta IPO and (iii) the actions necessary for Bausch + Lomb to become an independent publicly traded entity. Separation and IPO costs are incremental costs directly related to the B+L Separation and the suspended Solta IPO and include, but are not limited to: (i) legal, audit and advisory fees, (ii) talent acquisition costs and (iii) costs associated with establishing a new board of directors and related board committees for Bausch + Lomb. Included in Restructuring, integration, separation and IPO costs for the years ended December 31, 2022 2023, 2022 and 2021 are Separation and IPO costs of \$4 million, \$33 million and \$32 million, respectively.

The Company has also incurred, and expects to continue to incur with respect to the B+L Separation, separation-related and IPO-related costs which are incremental costs indirectly related to the B+L Separation and the suspended Solta IPO including, but are not limited to: (i) IT infrastructure and software licensing costs, (ii) rebranding costs and (iii) costs associated with facility relocation and/or modification. Included in Selling, general and administrative for years ended December 31, 2022 2023, 2022 and 2021 are Separation-related and IPO-related costs of \$22 million, \$94 million and \$132 million, respectively.

The extent and timing of future charges for these costs cannot be reasonably estimated at this time and could be material.

5. FAIR VALUE MEASUREMENTS

Fair value measurements are estimated based on valuation techniques and inputs categorized as follows:

- Level 1 — Quoted prices in active markets for identical assets or liabilities;
- Level 2 — Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and
- Level 3 — Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using discounted cash flow methodologies, pricing models, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

If the inputs used to measure the financial assets and liabilities fall within more than one level described above, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The following fair value hierarchy table presents the components and classification of the Company's financial assets and liabilities measured at fair value on a recurring basis as of:

Cash equivalents consist of highly liquid investments, primarily money market funds, with maturities of three months or less when purchased, and are reflected in the Consolidated Balance Sheets at carrying value, which approximates fair value due to their short-term nature. Cash, cash equivalents and restricted cash and other settlements as presented in the Consolidated Balance Sheet as of **December 31, 2022** **December 31, 2023** includes **\$380** **\$334** million of cash, cash equivalents and restricted cash held by legal entities of Bausch + Lomb. Cash held by Bausch + Lomb legal entities and any future cash from the operations, investing and financing activities of Bausch + Lomb, is expected to be retained by Bausch + Lomb entities and are generally not available to support the operations, investing and financing activities of other legal entities, including Bausch Health unless paid as a dividend which would be determined by the Board of Directors of Bausch + Lomb and paid pro rata to Bausch + Lomb's shareholders.

As of December 31, 2021, Restricted cash and other settlement deposits included \$1,510 million of payments into escrow funds under the terms of settlement agreements regarding certain U.S. securities litigation, which was subject to one objector's appeal of the final court approval and the Glumetza Antitrust Litigation. With respect to the U.S. Securities Litigation, the period to file a petition for an appeal with the U.S. Supreme Court expired on August 10, 2022 and the objector did not file such a petition. The expiration of this deadline means the securities litigation settlement and judgment have become "final", as no more appeals can be filed. As a result, the Company's rights to the funds in escrow were extinguished and the Company reduced Restricted cash and other settlement deposits with a corresponding reduction to liabilities for legal settlements, included in Accrued and other current liabilities on the Company's Consolidated Balance Sheets, by \$1,210 million during the third quarter of 2022. See "U.S. Securities Litigation - Opt -Out Litigation" of Note 20, "LEGAL PROCEEDINGS" for additional details.

There were no transfers into or out of Level 3 during **2022** **2023** and **2021**, **2022**.

Cross-currency Swaps

During 2019, the Company entered into cross-currency swaps, with aggregate notional amounts of **\$1,250 million**, **\$1,250 million**, to mitigate fluctuation in the value of a portion of its euro-denominated net investment in its consolidated financial statements from adverse movements in exchange rates. The euro-denominated net investment being hedged was the Company's investment in certain euro-denominated subsidiaries.

During November 2021, the Company entered into a transaction to unwind its cross-currency swaps and received net proceeds of \$4 million, which included interest income of \$6 million, offset by the amount owed by the Company upon the unwinding of \$2 million. The gain arising from the transaction of the swaps has been included as a component of Other comprehensive loss. **As of December 31, 2021, there were no cross-currency swaps.**

During the third quarter of 2022, Bausch + Lomb entered into cross-currency swaps (the "2022 Cross-Currency Swaps"), with aggregate notional amounts of \$1,000 million, to mitigate fluctuation in the value of a portion of its euro-denominated net investment in its consolidated financial statements from fluctuation in exchange rates. The euro-denominated net investment being hedged is Bausch + Lomb's investment in certain Bausch + Lomb euro-denominated subsidiaries.

The assets and liabilities associated with the Company's cross-currency swaps as included in the Consolidated Balance Sheets as of **December 31, 2022** **December 31, 2023** and **2021**, **2022** are as follows:

Acquisition-related Contingent Consideration Obligations

The fair value measurement of contingent consideration obligations arising from business combinations is determined via a probability-weighted discounted cash flow analysis, using unobservable (Level 3) inputs. These inputs may include: (i) the estimated amount and timing of projected cash flows, (ii) the probability of the achievement of the factor(s) on which the contingency is based and (iii) the risk-adjusted discount rate used to present value the probability-weighted cash flows. Significant increases or decreases in any of

those inputs in isolation could result in a significantly higher or lower fair value measurement. At **December 31, 2022** **December 31, 2023**, the fair value measurements of acquisition-related contingent consideration were determined using risk-adjusted discount rates ranging from 6% to **18%** **28%**, and a weighted average risk-adjusted discount rate

of 7%. The weighted average risk-adjusted discount rate was calculated by weighting each contract's relative fair value at **December 31, 2022** **December 31, 2023**.

The following table presents a reconciliation of contingent consideration obligations measured on a recurring basis using significant unobservable inputs (Level 3) for the years **2022** **2023** and **2021**: **2022**:

Depreciation expense was \$179 million, \$187 million, \$179 million and \$177 million for 2023, 2022 and \$180 million for 2022, 2021, and 2020, respectively.

8. INTANGIBLE ASSETS AND GOODWILL

Intangible Assets

The major components of intangible assets as of December 31, 2022, December 31, 2023 and 2021, 2022 consist of:

Long-lived assets with finite lives are tested for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Impairment charges associated with these assets are included in Asset impairments in the Consolidated Statements of Operations. The Company continues to monitor the recoverability of its finite-lived intangible assets and tests the intangible assets for impairment if indicators of impairment are present. The Company estimates the fair values of long-lived assets with finite lives using an undiscounted cash flow model which utilizes Level 3 unobservable inputs. The undiscounted cash flow model relies on assumptions regarding revenue growth rates, gross profit, selling, general and administrative expenses, and research and development expenses. Impairment charges associated with these assets are included in

Asset impairments including loss on assets held in 2023 were \$54 million, and primarily related to: (i) \$37 million related to the Company's Uceris® Foam product, as discussed below, (ii) \$8 million, in aggregate, attributable to certain trade names no longer in use and (iii) \$9 million related to the discontinuance of certain product lines.

In the second quarter of 2023, the U.S. Food and Drug Administration ("FDA") approved an Abbreviated New Drug Application ("ANDA") submitted by a competitor for sale a budesonide (a steroid (cortisone-like) medicine) foam to help treat mild to moderate active ulcerative colitis. This product, which began to be sold by the competitor in the Consolidated Statement three months ended June 30, 2023, is a generic version of Operations. the Company's Uceris® Foam product. During the second quarter of 2023, the

Company revised its long-term outlook for the Uceris® Foam product to reflect the entrant of this, and potentially other, generic competitors. As a result, the Company recognized an impairment of \$37 million to reduce the carrying value of the Uceris® Foam product related intangible assets to their estimated fair value. The remaining carrying value of the Uceris® Foam product related intangible assets is not material.

Asset impairments including loss on assets held for sale in 2022 were \$15 million and included: (i) impairments of \$10 million, in aggregate, due to decreases in forecasted sales of certain product lines and (ii) impairments of \$5 million, in aggregate, related to the discontinuance of certain product lines.

Xifaxan® intangible assets had a carrying value of \$2,155 million and an estimated remaining useful life of 48 months as of December 31, 2023. On August 10, 2022, a court held, that among other findings, matters, that certain U.S. patents protecting the composition and use of Xifaxan® for treating inflammatory bowel syndrome with diarrhea ("IBS-D") were invalid (the "Norwich Legal Decision"). On August 16, 2022, the Company appealed the Norwich Legal Decision and intends to vigorously defend its Xifaxan® intellectual property. See "Xifaxan® Paragraph IV Proceedings" of Note 20, "LEGAL PROCEEDINGS" for details of this litigation matter and the Company's response.

Xifaxan® revenues were \$1,216 million and \$1,194 million for the nine months ended September 30, 2022 and 2021, respectively. As the ultimate outcome of the Norwich Legal Decision and other potential future related developments, including a competitor's ability to launch a successful generic version to Xifaxan®, could impact the timing and extent of future revenues and cash flows associated with Xifaxan®, the Company determined, in the third quarter of 2022, that the ruling in the Norwich Legal Decision constituted an event requiring assessment of the Xifaxan® finite-lived intangible assets for potential impairment. The Company performed this assessment impairment using a probability-weighted undiscounted cash flow analysis, with a base case representing the Company's most recent cash flow projections as revised in the third quarter of 2022, as well as different scenarios representing a range of different outcomes which address, among other things, the timing of when a competitor or competitors will be able to successfully launch a generic version to Xifaxan®, if they are able to launch one at all. This assessment resulted in no impairment of the carrying value of the Xifaxan® finite-lived intangible assets as of September 30, 2022.

During From September 30, 2022 through the fourth quarter end of 2022 2023 there were no material changes to the facts and circumstances of the Norwich Legal Decision or to actual or expected business performance for Xifaxan®. Based on these factors, no impairment to the carrying value of the Xifaxan® finite-lived intangible assets was identified as of December 31, 2022 December 31, 2023. The Company also determined that no change to the remaining useful lives of its Xifaxan® finite-lived intangible assets was required. Xifaxan® finite-lived intangible assets included in the audited Consolidated Balance Sheets had a carrying value of \$2,693 million and an estimated remaining useful life of 60 months as of December 31, 2022.

It is possible that the Norwich Legal Decision and other potential future developments: (i) may adversely impact the estimated future cash flows associated with these products, which could result in an impairment of the value of these intangible assets in one or more future periods and (ii) may result in shortened useful lives of the Xifaxan® finite-lived intangible assets, which would increase amortization expense in future periods. Any such impairment or shortening of the useful lives of Xifaxan® could be material to the results of operations of the Company in the period or periods in which they were to occur.

Asset impairments, including loss on assets held for sale in 2021 were \$234 million and included: (i) impairments of \$105 million, in aggregate, due to decreases in forecasted sales of certain product lines, (ii) an \$88 million loss on assets held for sale in connection with the Amoun Sale as discussed in Note 3, "ACQUISITIONS, LICENSING AGREEMENTS AND DIVESTITURE", (iii) impairments of \$23 million, in aggregate, related to the discontinuance of certain product lines and (iv) \$18 million related to a portion of an IT infrastructure improvement project no longer being utilized.

Asset impairments, including loss on assets held for sale in 2020 included impairments of: (i) \$96 million to reduce the carrying value of the Amoun business to its estimated fair value less costs to sell due to classifying the business as held for sale, (ii) \$16 million in aggregate, due to decreases in forecasted sales of certain product lines, (iii) \$1 million in aggregate, related to the discontinuance of certain product lines not aligned with the focus of the Company's core businesses and (iv) \$1 million related to Acquired IPR&D not in service.

The impairments to assets reclassified as held for sale were measured as the difference of the carrying value of these assets as compared to the estimated fair values of these assets less costs to sell determined using a discounted cash flow analysis which utilized Level 3 unobservable inputs. The other impairments and adjustments to finite-lived intangible assets were measured as the difference of the historical carrying value of these finite-lived assets as compared to the estimated fair value as determined using a discounted cash flow analysis using Level 3 unobservable inputs.

Periodically, the Company's products face the expiration of their patent or regulatory exclusivity. The Company anticipates that product sales for such product would decrease shortly following a loss of exclusivity ("LOE"), due to the possible entry of a generic competitor. Where the Company has the rights, it may elect to launch an authorized generic of such product (either as the Company's own branded generic or through a third-party). This may occur prior to, upon or following generic entry, which may mitigate the anticipated decrease in product sales; however, even with launch of an authorized generic, the decline in product sales of such product could still be significant, and the effect on future revenues could be material.

Management continually assesses the useful lives related to the Company's long-lived assets to reflect the most current assumptions.

Estimated amortization expense of finite-lived intangible assets for the five years ending December 31 and thereafter are as follows:

Goodwill is not amortized but is tested for impairment at least annually on October 1st at the reporting unit level. A reporting unit is the same as, or one level below, an operating segment. The Company performs its annual impairment test by first assessing qualitative factors. Where the qualitative assessment suggests that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, a quantitative fair value test is performed for that reporting unit (Step 1).

The fair value of a reporting unit refers to the price that would be received to sell the unit as a whole in an orderly transaction between market participants. The Company estimates the fair values of a reporting unit using a discounted cash flow model which utilizes Level 3 unobservable inputs. The discounted cash flow model relies on assumptions regarding revenue growth rates, gross profit, projected working capital needs, selling, general and administrative expenses, research and development expenses, capital expenditures, income tax rates, discount rates and terminal growth rates. To estimate fair value, the Company discounts the forecasted cash flows of each reporting unit. The discount rate the Company uses represents the estimated weighted average cost of capital, which reflects the overall level of inherent risk involved in its reporting unit operations and the rate of return a market participant would expect to earn. The quantitative fair value test is performed utilizing long-term growth rates and discount rates applied to the estimated cash flows in estimation of fair value. To estimate cash flows beyond the final year of its model, the Company estimates a terminal value by applying an in-perpetuity growth assumption and discount factor to determine the reporting unit's terminal value.

To forecast a reporting unit's cash flows the Company takes into consideration economic conditions and trends, estimated future operating results, management's and a market participant's view of growth rates and product lives, and anticipates future economic conditions. Revenue growth rates inherent in these forecasts are based on input from internal and external market research that compare factors such as growth in global economies, recent industry trends and product life-cycles. Macroeconomic factors such as changes in economies, changes in the competitive landscape including the unexpected **LOE loss of exclusivity** to the Company's product portfolio, changes in government legislation, product life-cycles, industry consolidations and other changes beyond the Company's control could have a positive or negative impact on achieving its targets. Accordingly, if market conditions deteriorate, or if the Company is unable to execute its strategies, it may be necessary to record impairment charges in the **future**.

2020

2020 Interim Impairment Assessment

The negative impacts of the COVID-19 pandemic on the global economy led to significant volatility in the global equity markets **future** and the Company was able to continue its operations with limited disruptions. In performing its assessment during 2020, the Company considered the possible effects and outcomes of the COVID-19 pandemic on, among other things, its supply chain, customers and distributors, employee base, product sustainability, research and development activities, product pipeline and consumer demand and related rebates and discounts and made adjustments to the long-term forecasts used in previous goodwill impairment assessments, for these and other matters. After completing this assessment, the Company believed that, with the exception of the Ortho Dermatologics reporting unit, its long-term forecasted cash flows, as adjusted for the possible outcome of the COVID-19 pandemic and other matters, did not indicate that the fair value of any reporting unit may **such charges could** be below its carrying value. **material**.

During the interim periods of 2020, after giving consideration to the nature and timing of the negative impacts of the COVID-19 pandemic on the Company's forecasted cash flows, with the exception of the Ortho Dermatologics reporting unit, no events occurred, or circumstances changed that would indicate that the fair value of any other reporting unit might be below its carrying value and therefore, no impairments were recorded.

During the three months ended March 31, 2020 and June 30, 2020, the operating results for the Ortho Dermatologics reporting unit were less than forecasted primarily due to certain products experiencing longer launch cycles than originally anticipated as a result of the COVID-19 pandemic. The Company revised its long-term forecasts as of March 31, 2020 and as of June 30, 2020 for these matters. Management believed that these events were indicators that there was less headroom as of March 31, 2020 and June 30, 2020 as compared to the headroom calculated on the date Ortho Dermatologics goodwill was previously tested for impairment. Therefore, a quantitative fair value test for impairment to the goodwill of the Ortho Dermatologics reporting unit was performed at March 31, 2020 and at June 30, 2020. The quantitative fair value tests utilized the Company's most recent cash flow projections for the Ortho Dermatologics reporting unit as revised in the then respective quarter of 2020 which reflected current market conditions and current trends in business performance. Based on the quantitative fair value tests, the fair value of the Ortho Dermatologics reporting unit continued to be greater than its carrying value and as a result there was no impairment to the goodwill of the reporting unit at March 31, 2020 and at June 30, 2020.

2020 Annual Impairment Test

The Company conducted its annual goodwill impairment test as of October 1, 2020 by first assessing qualitative factors. Based on its qualitative assessment as of October 1, 2020, management believed that, with the exception of the Ortho Dermatologics reporting unit, it was more likely than not that the carrying amounts of its reporting units were less than their respective fair values and therefore concluded that a quantitative fair value test for those reporting units was not required.

As part of its qualitative assessment of the Ortho Dermatologics reporting unit as of October 1, 2020, the Company considered, among other matters, a range of potential impacts of COVID-19 pandemic related matters and the limited headroom calculated on the date Ortho Dermatologics goodwill was last tested for impairment (June 30, 2020). The Company believed that these factors may suggest that it was more likely than not that the fair value of the Ortho Dermatologics reporting unit was less than its carrying amount, and therefore a quantitative fair value test was performed for the reporting unit.

The Company performed a quantitative fair value test for the Ortho Dermatologics reporting unit as of October 1, 2020. The quantitative fair value test utilized the Company's most recent cash flow projections as revised in the fourth quarter of 2020 which reflected current market conditions and current trends in business performance. The quantitative fair value test utilized a long-term growth rate of 2.0% and a range of discount rates between 9.50% and 9.75%, in estimation of the fair value of this reporting unit. Based on the quantitative fair value test, the fair value of the Ortho Dermatologics reporting unit was approximately 10% greater than its carrying value and as a result there was no impairment to the goodwill of the reporting unit.

2021

First Quarter 2021 - Realignment of Segments

Commencing in the first quarter of 2021, the Company began operating in the following reportable segments: (i) Bausch + Lomb, (ii) Salix, (iii) International Rx, (iv) Ortho Dermatologics Dermatology and (v) Diversified Products, Diversified. The Bausch + Lomb segment consisted of the: (i) U.S. Bausch + Lomb and (ii) International Bausch + Lomb reporting units. The Salix segment consisted of the Salix reporting unit. The International Rx segment consisted of the International Rx reporting unit. The Ortho Dermatologics Dermatology segment consisted of the: (i) Ortho Dermatologics Dermatology and (ii) Global Solta reporting units. The Diversified Products segment consisted of the: (i) Neurology, and Other, (ii) Generics and (iii) Dentistry reporting units. This realignment in segment structure resulted in a change in the Company's former International reporting unit, which was divided between the International Bausch + Lomb reporting unit and International Rx reporting unit. In addition, as part of this realignment of segment structure, certain products historically included in the Generics reporting unit were included in the U.S. Bausch + Lomb reporting unit.

As a result of this realignment, goodwill was reassigned to each of the aforementioned reporting units using a relative fair value approach. Goodwill previously reported in the former International reporting unit was reassigned to the International Bausch + Lomb and International Rx reporting units, and a portion of goodwill previously reported in the former Generics reporting unit was reassigned to the U.S. Bausch + Lomb reporting unit.

Immediately prior to the change in reporting units, the Company performed a qualitative fair value assessment for its former: (i) International and (ii) Generics reporting units. Based on the qualitative fair value assessment performed, management believed that it was more likely than not that the carrying values of its former: (i) International and (ii) Generics reporting units were less than their respective fair values and therefore, concluded a quantitative assessment was not required.

Immediately following the change in reporting units, as a result of the change in composition of the net assets for its current: (i) International Bausch + Lomb, (ii) International Rx and (iii) Generics reporting units, the Company performed a quantitative fair value test. The quantitative fair value test utilized the Company's most recent cash flow projections as revised in the first quarter of 2021 which reflected current market conditions and current trends in business performance. The quantitative fair value test utilized a range of long-term growth rates of 1.0% to 3.0% and a range of discount rates between 11.0% and 12.25%, in estimation of the fair value of the reporting units. After completing the testing, the fair value of each of these reporting units exceeded its carrying value by more than 40%, and, therefore, there was no impairment to goodwill. In addition, as the U.S. Bausch + Lomb reporting unit had a change in composition of its net assets related to certain products historically included in the Generics reporting unit now being included in the U.S. Bausch + Lomb reporting unit, the Company performed a qualitative assessment of this reporting unit. Based on the qualitative fair value assessment performed, management believed that it was more likely than not that the carrying value of its current U.S. Bausch + Lomb reporting unit was less than its fair value and therefore, concluded a quantitative assessment was not required.

March 31, 2021 Impairment

During the three months ended March 31, 2021, management identified launches of certain Ortho Dermatologics Dermatology products which were not going to achieve their trajectories as forecasted once the social restrictions associated with the COVID-19 pandemic began to ease in the U.S. and offices of health care professionals could reopen. In addition, insurance coverage pressures within the U.S. continued to persist limiting patient access to topical acne and psoriasis products. In light of these developments, during the first quarter of 2021, the Company began taking steps to: (i) redirect its R&D spend to eliminate projects it has identified as high cost and high risk, (ii) redirect a portion of its marketing and product development outside the U.S. to geographies where there is better patient access and (iii) reduce its cost structure to be more competitive. As a result, during the three months ended March 31, 2021, the Company revised its long-term forecasts for the Ortho Dermatologics Dermatology reporting unit. Management believed that these events were indicators that there is less headroom as of March 31, 2021 as compared to the headroom calculated on the date goodwill was last tested for impairment (October 1, 2020). Therefore, a quantitative fair value test for the Ortho Dermatologics Dermatology reporting unit was performed. The quantitative fair value test utilized the Company's most recent cash flow projections as revised in the first quarter of 2021 to reflect the business changes previously discussed, including a range of potential outcomes, along with a long-term growth rate of 1.0% and a range of discount rates between 9.0%

and 10.0%. Based on the quantitative fair value test, the carrying value of the Ortho Dermatologics Dermatology reporting unit exceeded its fair value as of March 31, 2021, and the Company recognized a goodwill impairment of \$469 million.

Second Quarter 2021 - Realignment of Bausch + Lomb Reporting Units

Commencing in the second quarter of 2021, the Company changed the way it reviews the financial information of its Bausch + Lomb segment. Beginning in the second quarter of 2021, management no longer reviews the financial information of its Bausch + Lomb segment on a geographic basis, but instead reviews this financial information on a business line basis. This change created a change in the reporting units of the Bausch + Lomb segment. After the change, under its business line view, the Bausch + Lomb segment consists of the global: (i) Vision Care (formerly Vision Care / Consumer Products, Products), (ii) Pharmaceuticals (formerly Ophthalmic Pharmaceuticals Pharmaceuticals) and (iii) Surgical reporting units. Prior to the second quarter of 2021, under the geographic view, the Bausch + Lomb segment consisted of the former: (i) U.S. Bausch + Lomb and (ii) International Bausch + Lomb reporting units. As a result of this realignment, goodwill was reassigned to each of the aforementioned reporting units using a relative fair value approach. The change in Bausch + Lomb reporting units does not impact the reported revenues and segment profits of the Bausch + Lomb segment for any prior periods.

Immediately prior to the change in its Bausch + Lomb reporting units, the Company performed a qualitative fair value assessment for its former reporting units. Based on the qualitative fair value assessment, management believed that it was more likely than not that the carrying values of its former: (i) U.S. Bausch + Lomb and (ii) International Bausch + Lomb

reporting units were less than their respective fair values and, therefore, concluded a quantitative assessment was not required.

As a result of the change in composition of net assets, the Company performed a quantitative fair value test of its new: (i) Vision Care, / Consumer Products, (ii) Ophthalmic Pharmaceuticals and (iii) Surgical reporting units immediately following the change in the Bausch + Lomb segment. The quantitative fair value test utilized the Company's most recent cash flow projections as revised in the second quarter of 2021 which reflected current market conditions and current trends in business performance. The quantitative fair value test utilized long-term growth rates of 2.0% and 3.0% and a range of discount rates between 7.0% and 10.0%, in estimation of the fair value of the reporting units. After completing the testing, the fair value of each of these reporting units exceeded its carrying value by more than 45%, and, therefore, there was no impairment to goodwill.

June 30, 2021 and September 30, 2021 Interim Assessment

The Company continued to monitor the market conditions impacting the Ortho Dermatologics Dermatology reporting unit. The Company's latest forecasts for the Ortho Dermatologics Dermatology reporting unit included a range of potential outcomes for, among other matters: (i) the impacts of the COVID-19 pandemic on operations, (ii) the impact of the loss of exclusivity of certain products, (iii) the impact of longer launch cycles for certain new products, (iv) progress of its product pipeline and (v) ongoing pricing pressures, which could negatively impact the reporting unit's results over the long term. The changes in the amounts and timing of revenues and expenses in the latest forecast as compared to the forecast used at March 31, 2021 (the last time goodwill of the Ortho Dermatologics Dermatology reporting unit was tested), were not substantial enough to materially adversely affect the recoverability of the Ortho Dermatologics Dermatology reporting unit's assets and were not material enough to indicate that the fair value of the Ortho Dermatologics Dermatology reporting unit might be below its carrying value as last tested at March 31, 2021.

No other events occurred or circumstances changed during the period October 1, 2020 (the earliest date goodwill was tested for all other reporting units) through December 31, 2021 that indicated that the fair value of any reporting unit, other than the Ortho Dermatologics Dermatology reporting unit, might be below its carrying value.

2021 Annual Impairment Test

The Company conducted its annual goodwill impairment test as of October 1, 2021 by first assessing qualitative factors. Based on its qualitative assessment as of October 1, 2021, management believed that, with the exception of the Ortho Dermatologics Dermatology reporting unit, it was more likely than not that the carrying amounts of its reporting units were less than their respective fair values and therefore concluded that a quantitative fair value test for those reporting units was not required.

As part of its qualitative assessment of the Ortho Dermatologics Dermatology reporting unit as of October 1, 2021, the Company considered, among other matters, the limited headroom as a result of the impairment to the goodwill of the Ortho Dermatologics Dermatology reporting unit when last tested (March 31, 2021) and macroeconomic factors such as higher than expected inflation for many commodities, volatility in many of the equity markets and pressures on market interest rates. The Company believed that these facts and circumstances may suggest that it was more likely than not that the fair value of the Ortho Dermatologics Dermatology reporting unit was less than its carrying amount, and therefore a quantitative fair value test was performed for the reporting unit.

The quantitative fair value test utilized the Company's most recent cash flow projections as revised in the fourth quarter of 2021 which reflected current market conditions and current trends in business performance. The quantitative fair value test utilized a long-term growth rate of 1.0% and a discount rate of 9.0%, in estimation of the fair value of this reporting unit. Based on the quantitative fair value test, the fair value of the **Ortho Dermatologics Dermatology** reporting unit was approximately **10% 10.0%** greater than its carrying value and as a result there was no impairment to the goodwill of the reporting unit.

2022

First Quarter 2022 - Realignment of Segments

Commencing in the first quarter of 2022, the Company began operating in the following reportable segments: (i) Salix, (ii) International, (iii) Diversified, **Products**, (iv) Solta Medical and (v) Bausch + Lomb. The Salix segment consists of the Salix reporting unit. The International segment consists of the International reporting unit. The Diversified **Products** segment consists of the: (i) Neurology, **and Other**, (ii) Generics, (iii) **Ortho Dermatologics Dermatology** and (iv) Dentistry reporting units. The Solta Medical segment consists of the Solta reporting unit. The Bausch + Lomb segment consists of the: (i) Vision Care, **(formerly Vision Care / Consumer Products)**, (ii) **Ophthalmic** Pharmaceuticals and (iii) Surgical reporting units. As such, the new segment structure does not impact the Company's reporting units but realigns the two reporting units of the former **Ortho Dermatologics Dermatology** segment whereby the **Ortho Dermatologics Dermatology** reporting unit is now part of the current Diversified **Products** segment and the Solta **Medical** reporting unit is now its own operating and reportable segment, and therefore management concluded that a quantitative fair value test was not required.

March 31, 2022 Interim Assessment

During the three months ended March 31, 2022, macroeconomic factors had impacted interest rates and the U.S. inflation rate was higher than previously expected. Given the limited headroom of the **Ortho Dermatologics Dermatology** reporting unit as calculated on October 1, 2021, the Company believed that these facts and circumstances suggested the fair value of the **Ortho Dermatologics Dermatology** reporting unit could be less than its carrying amount, and therefore a quantitative fair value test was performed for the reporting unit.

The quantitative fair value test utilized the Company's most recent cash flow projections as revised in the fourth quarter of 2022 which reflected current market conditions and current trends in business performance. The quantitative fair value test utilized a long-term growth rate of 1% and a discount rate of 9%. The discount rate contemplated changes in the current macroeconomic conditions noting certain inputs such as the risk-free rate increased over the three months ended March 31, 2022, and was offset by decreases in other reporting unit specific risks during the same period. Based on the quantitative fair value test, the fair value of the **Ortho Dermatologics Dermatology** reporting unit was less than 2% greater than its carrying value and as a result there was no impairment to the goodwill of the reporting unit.

June 30, 2022 Interim Assessment

Ortho Dermatologics Dermatology

During the three months ended June 30, 2022, increases in interest rates and, to a lesser extent, higher than expected inflation in the U.S. and other macroeconomic factors impacted key assumptions used to value the **Ortho Dermatologics Dermatology** reporting unit as of March 31, 2022. Given the limited headroom of the **Ortho Dermatologics Dermatology** reporting unit as calculated on March 31, 2022, the Company believed that these facts and circumstances suggested the fair value of the **Ortho Dermatologics Dermatology** reporting unit could be less than its carrying amount, and therefore a quantitative fair value test was performed for the reporting unit.

The quantitative fair value test utilized the Company's most recent cash flow projections for the **Ortho Dermatologics Dermatology** reporting unit as revised in the second quarter of 2022 which reflected current market conditions and current trends in business performance. The Company's discounted cash flow model for the **Ortho Dermatologics Dermatology** reporting unit included a range of potential outcomes for, among other matters, macroeconomic factors such as higher than expected inflation for many commodities, volatility in many of the equity markets and pressures on market interest rates. The quantitative fair value test utilized a long-term growth rate of **1% 1.0%** and a discount rate of **10% 10.0%**. The discount rate had increased **1% 1.0%** since the assessment performed as of March 31, 2022, as a result of changes in macroeconomic conditions, including an increase in the risk-free rate during the three months ended June 30, 2022. Based on the quantitative fair value test, the carrying value of the **Ortho Dermatologics Dermatology** reporting unit exceeded its fair value as of June 30, 2022, and the Company recognized a goodwill impairment of \$83 million.

Bausch + Lomb Reporting Units

During the period May 6, 2022 (the **time date** Bausch + Lomb's stock began trading publicly) through June 30, 2022, equity and bond markets were negatively impacted by various macroeconomic and geopolitical factors including, but not limited to:

rising inflation rates in the U.S. and abroad, uncertainties created by the Russia/Ukraine Russia-Ukraine conflict, interest rate volatility, COVID-19 related lockdowns and supply issues. The equity markets negatively impacted the market price for Bausch + Lomb's common stock which as of June 30, 2022 was trading below its IPO offering price. The Company believed that these facts and circumstances suggest the fair value of the three reporting units of the Bausch + Lomb segment could be less than their respective carrying amounts. Therefore, separate quantitative fair value tests were performed for the Vision Care, Surgical and Ophthalmic Pharmaceuticals reporting units of the Bausch + Lomb segment.

The quantitative fair value tests utilized the Company's most recent cash flow projections for each of its reporting units as revised in the second quarter of 2022 which reflected current market conditions and current trends in business performance. The quantitative fair value tests utilized long-term growth rates of 2% 2.0% and 3% 3.0% and discount rates of 9.0% and 11.5%. After completing the testing, the fair value of each of these reporting units exceeded their respective carrying values by more than 25%, and, therefore, there was no impairment to goodwill.

September 30, 2022 Interim Assessment

Ortho Dermatologics Dermatology

During the third quarter of 2022, the Company continued to monitor the market conditions impacting the Ortho Dermatologics Dermatology reporting unit. Continued increases in interest rates and, to a lesser extent, higher than expected inflation in the U.S. and other macroeconomic factors impacted key assumptions used to value the Ortho Dermatologics Dermatology reporting unit at June 30, 2022. Based on the impairment of goodwill recognized in the second quarter of 2022 for the Ortho Dermatologics Dermatology reporting unit, the reporting unit had no headroom as calculated on June 30, 2022, and as such, the Company believed that these facts and circumstances suggested the fair value of the Ortho Dermatologics Dermatology reporting unit could be less than its carrying amount, and therefore a quantitative fair value test was performed for the reporting unit.

The quantitative fair value test utilized the Company's most recent cash flow projections for the Ortho Dermatologics Dermatology reporting unit as revised in the third quarter of 2022 which reflected current market conditions and current trends in business performance. The Company's discounted cash flow model for the Ortho Dermatologics Dermatology reporting unit includes, included, among other matters, volatility in many of the equity markets and pressures on market interest rates and macroeconomic factors such as changes in inflation for many commodities. The quantitative fair value test utilized a long-term growth rate of 1% 1.0% and the discount rate increased from 10.0% at June 30, 2022 to 10.5% at September 30, 2022, which reflects reflected the increases in market interest rates. Based on the quantitative fair value test, the carrying value of the Ortho Dermatologics Dermatology reporting unit exceeded its fair value at September 30, 2022, and the Company recognized a goodwill impairment of \$119 million for the three months ended September 30, 2022. As of September 30, 2022, the Ortho Dermatologics Dermatology reporting unit had remaining goodwill of \$480 million.

Salix

On August 10, 2022, the Norwich Legal Decision was issued that held, among other matters, that certain U.S. Patents protecting the composition and use of Xifaxan® for treating IBS-D were invalid. On August 16, 2022, the Company appealed the Norwich Legal Decision and intends to vigorously defend its Xifaxan® intellectual property. See "Xifaxan® Paragraph IV Proceedings" of Note 20, "LEGAL PROCEEDINGS" for details of this litigation matter and the Company's response.

Xifaxan® revenues represent approximately 80% of the Salix reporting unit's revenue. The ultimate outcome of the Norwich Legal Decision and other potential future related developments, including a competitor's ability to launch a successful generic version to Xifaxan®, could impact the timing and extent of future revenues and cash flows associated with Xifaxan®. As such, the Company believes believed that the this uncertainty of the possible outcomes of the Norwich Legal Decision and the potential impact on Xifaxan® revenues are were indicators that the Salix reporting unit's fair value could be less than its carrying amount, and therefore a quantitative fair value test was performed for the reporting unit.

The Company performed its quantitative fair value test using a probability-weighted discounted cash flow analysis, with a base case representing the Company's most recent cash flow projections as revised in the third quarter of 2022, as well as different scenarios representing a range of different outcomes which address, among other things, the range of possible outcomes of the Norwich Legal Decision and the timing of when a competitor or competitors could be able to successfully launch a generic version of Xifaxan®, if they are able to launch one at all. The forecasted cash flows under each set of outcomes were discounted utilizing a long-term growth rate of 2.5% and discount rates of 9.75% and 10.0%. The Company assigned a probability weighting to each scenario reflecting its best estimate of likelihood of the outcome resulting in each scenario, and calculated a weighted average of the valuations derived from the discounted cash flows under each scenario using this probability weighting.

As of September 30, 2022, the carrying value of the Salix reporting unit was less than its fair value as determined by the Company's probability-weighted discount valuation model and therefore no impairment was recorded as of September 30, 2022. However, as the Company's probability-weighted discount valuation includes certain scenarios under which the Company does not retain market exclusivity for Xifaxan® through January 2028, these probability-weighted fair values of the Salix reporting unit exceeded its carrying value by less than 5% 5.0%.

During the interim periods of 2022, no events occurred, or circumstances changed during the period October 1, 2021 (the date of the last annual impairment test) through September 30, 2022, that indicated that the fair value of any reporting unit, other than the Ortho Dermatologics Dermatology reporting unit, the Salix reporting unit and the reporting units of the Bausch + Lomb segment, might be below their respective carrying values.

2022 Annual Impairment Test

The Company's annual goodwill impairment test as of October 1, 2022, included performing separate quantitative fair value tests for the Neurology and Other reporting unit and the Vision Care, Surgical and Ophthalmic Pharmaceuticals reporting units of the Bausch + Lomb segment. For its remaining reporting units, the Company conducted its annual goodwill impairment test as of October 1, 2022, by first assessing qualitative factors. Based on its qualitative assessment as of October 1, 2022, management believed that, it was more likely than not that the carrying amounts of its remaining reporting units were less than their respective fair values and therefore concluded that a quantitative fair value test for those reporting units was not required.

Neurology and Other

The Neurology and Other reporting unit operates in the United States, where shifting market dynamics, including changes in payer demands, health care legislation, and other regulations are contributing to increasing pressure for the reduction of healthcare costs, through both pricing of pharmaceutical products and/or directing patients to lower cost unbranded generic products. The nature of the Neurology and Other reporting unit's product portfolio, which includes branded generic pharmaceuticals, is by its nature impacted by these changing market dynamics. As a result, the Company has begun taking steps to: (i) reassess its pricing strategies, (ii) re-evaluate its marketing and promotional efforts and (iii) reduce its cost structure, and has revised its long-term forecasts for the Neurology and Other reporting unit to reflect these developments.

The quantitative fair value test for the Neurology and Other reporting unit utilized the most recent cash flow projections for the reporting unit as revised in the fourth quarter of 2022 to reflect current market conditions and current trends in business performance. The quantitative assessment utilized a long-term growth rate of -2.5% and a discount rate of 10.25%, in the estimation of the reporting unit's fair value. As a result of the revisions to its long-term expectations for these and other factors, goodwill for the Neurology and Other reporting unit was impaired during the Company's most recent annual impairment test reflecting its best estimate at that time of the outlook and risks of this business. Based on the quantitative fair value test, the carrying value of the Neurology and Other reporting unit exceeded its fair value as of October 1, 2022, and the Company recognized a goodwill impairment of \$622 million. As of December 31, 2022, the Neurology and Other reporting unit had remaining goodwill of \$1,439 million.

Bausch + Lomb Reporting Units

The quantitative fair value test for the Vision Care, Surgical and Ophthalmic Pharmaceuticals reporting units of the Bausch + Lomb segment utilized the most recent cash flow projections for each of the reporting units as revised in the fourth quarter of 2022 which reflected current market conditions and current trends in business performance. The quantitative assessment utilized long-term growth rates of 2.0% and 3.0% and discount rates of 9.50% and 12.25%, in estimation of the fair value of the reporting units. After completing the testing, the fair value of each of these reporting units exceeded its respective carrying value by more than 25% 25.0%, and, therefore, there was no impairment to goodwill.

December 31, 2022

During the period October 1, 2022 through December 31, 2022, the Company continued to monitor the market conditions and trends in business performance for all its reporting units, particularly as they pertain to the Ortho Dermatologics Dermatology and Salix reporting units, and determined that, no events occurred, or circumstances changed that would indicate that the fair value of any reporting unit might be below its carrying value. However, if market conditions deteriorate, or if the Company is unable to execute its strategies, it may be necessary to record impairment charges in the future and those charges could be material.

Ortho Dermatologics Dermatology

As a result of the impairment of goodwill in the third quarter of 2022, the Ortho Dermatologics Dermatology reporting unit had no headroom on September 30, 2022, and as such, the Company continued to monitor the market conditions impacting the Ortho Dermatologics Dermatology reporting unit during the period October 1, 2022 through December 31, 2022.

During the fourth quarter of 2022, the Company evaluated the reporting unit's performance as well as its revised long-term forecasts in light of current market conditions, current trends in business performance and the expected impacts of management's latest business strategies. This evaluation supported management's previous expectations for long-term business performance. Additionally, based on corporate bond rates as of December 31, 2022, the Company concluded that discount rates would not have increased during the fourth quarter as compared to the discount rate used in determining the fair value of the reporting unit as of September 30, 2022. Based on these factors, management concluded that it was more likely than not that the carrying value of its Ortho Dermatologics Dermatology reporting unit was less than its fair value and therefore, concluded a quantitative assessment was not required during the quarter ended December 31, 2022. However, given the reporting unit's limited headroom, any changes or other potential future developments may adversely impact the estimated fair value of the Ortho Dermatologics reporting unit in one or more future periods requiring an impairment to goodwill to be recognized. Any such impairment could be material to the Company's results of operations in the period in which it was to occur.

Salix

Based on the quantitative fair value testing performed in the third quarter of 2022, the Salix reporting unit had limited headroom as of September 30, 2022, and as such, the Company continued to monitor the potential impacts of changes in the Norwich Legal Decision and market conditions on the valuation of the Salix reporting unit during the period October 1, 2022 through December 31, 2022.

Through December 31, 2022, there were no material changes in the facts and circumstances of the Norwich Legal Decision, including management's assessment as to a competitor's ability to launch a successful generic version to Xifaxan® prior to January 2028, if they are able to launch one at all. The Company also evaluated the reporting unit's performance in the fourth quarter as well as its revised long-term forecasts in light of current market conditions, current trends in business performance and the expected impacts of management's latest business strategies. This evaluation supported management's previous expectations for long-term business performance. Additionally, based on corporate bond rates as of December 31, 2022, the Company concluded that discount rates would not have increased during the fourth quarter as compared to the discount rates used in determining the fair value of the reporting unit as of September 30, 2022. Based on these factors, management concluded that it was more likely than not that the carrying value of its Salix reporting unit was less than its fair value and therefore, concluded a quantitative assessment was not required during the quarter ended December 31, 2022. However, it is possible

2023 Interim Assessment

Dermatology

Through the nine months ended September 30, 2023, the Dermatology reporting unit performed largely in line with the forecast used in its last quantitative fair value test (September 30, 2022). During the third quarter of 2023, as a result of lower realized pricing attributable to shifts in the coverage mix for certain products, discontinuation of certain products as a result of the impact of recent legislation, and revised expectations of future selling, advertising, and promotion costs required to mitigate further revenue erosion, the Company's preliminary assessment of future business performance indicated that the Norwich Legal Decision reporting unit's future financial results were expected to be below the assumptions used in the last quantitative fair value test. After considering the limited headroom as a result of the impairment to goodwill of the Dermatology reporting unit when last tested (September 30, 2022), the Company determined that these changes in facts and other potential future developments may adversely impact circumstances, as well as increases in market interest rates during the estimated three months ended September 30, 2023, suggested that the fair value of the Salix Dermatology reporting unit in one or more future periods. Any such impairment could be material less than its carrying amount, and therefore a quantitative fair value test was performed for the reporting unit.

The quantitative fair value test utilized the Company's most recent cash flow projections for the Dermatology reporting unit as revised in the third quarter of 2023 which reflected current market conditions and current trends in business performance. The quantitative fair value test utilized a long-term growth rate of 0.0% and a discount rate of 10.75%. Based on the quantitative fair value test, the carrying value of the Dermatology reporting unit exceeded its fair value at September 30, 2023, and the Company recognized a goodwill impairment of \$151 million for the three months ended September 30, 2023. As of September 30, 2023 and December 31, 2023, the Dermatology reporting unit had remaining goodwill of \$329 million.

Neurology

Through the nine months ended September 30, 2023, the Neurology reporting unit performed largely in line with the forecast used in its last quantitative fair value test (October 1, 2022). During the third quarter of 2023, as a result of actions taken by management in response to changing market dynamics driven by recent legislation, changes to the Company's results of operations future expected commercial insurance coverage for certain key products, and a projected shift in the period channels of business, the Company's preliminary assessment of future business performance indicated that the reporting unit's future financial results were expected to be below the assumptions used in which it were the last quantitative fair value test. After considering the limited headroom as a result of the impairment to occur, goodwill of the Neurology reporting unit when last tested (October 1, 2022), the Company determined that these changes in facts and circumstances, as well as increases in market interest rates during the three months ended September 30, 2023, suggested that the fair value of the Neurology reporting unit could be less than its carrying amount, and therefore a quantitative fair value test was performed for the reporting unit.

The quantitative fair value test for the Neurology reporting unit utilized the most recent cash flow projections for the Neurology reporting unit as revised in the third quarter of 2023 to reflect current market conditions and current trends in business performance. The quantitative assessment utilized a long-term growth rate of -2.5% and a discount rate of 10.50%. Based on the quantitative fair value test, the carrying value of the Neurology reporting unit exceeded its fair value at September 30, 2023, and the Company recognized a goodwill impairment of \$251 million for the three months ended

September 30, 2023. As of September 30, 2023 and December 31, 2023, the Neurology reporting unit had remaining goodwill of \$1,192 million and \$1,177 million, respectively.

2023 Annual Impairment Test

The Company's annual goodwill impairment test as of October 1, 2023, included performing separate quantitative fair value tests for the International reporting unit, the Generics reporting unit of the Diversified segment and the Vision Care, Surgical and Pharmaceuticals reporting units of the Bausch + Lomb segment. For its remaining reporting units, the Company conducted its annual goodwill impairment test as of October 1, 2023, by first assessing qualitative factors. Based on its qualitative assessment as of October 1, 2023, management believed that, it was more likely than not that the carrying amounts of its remaining reporting units were less than their respective fair values and therefore concluded that a quantitative fair value test for those reporting units was not required.

Generics

The Generics reporting unit operates in the United States, where shifting market dynamics have led to increased competition with respect to generic pharmaceuticals which impacts both pricing and potential market share. The Company expects these dynamics to intensify in the future, and as such has revised its long-term forecasts, including for the sale of Company branded products when they reach loss of exclusivity in the future to reflect these developments.

The quantitative fair value test for the Generics reporting unit utilized the most recent cash flow projections for the reporting unit as revised in the fourth quarter of 2023 to reflect current market conditions and current trends in business performance. The quantitative assessment utilized a long-term growth rate of 1.0% and a discount rate of 10.25% in the estimation of the reporting unit's fair value. Based on the quantitative fair value test, the carrying value of the Generics reporting unit exceeded its fair value as of October 1, 2023, and the Company recognized a goodwill impairment of \$91 million. As of December 31, 2023, the Generics reporting unit had remaining goodwill of \$227 million.

International

The quantitative fair value test for the International reporting unit utilized the most recent cash flow projections for the reporting unit as revised in the fourth quarter of 2023 which reflected current market conditions and current trends in business performance. The quantitative assessment utilized a long-term growth rate of 3.0% and discount rate of 12.75%, in the estimation of the fair value of the reporting unit. After completing the testing, the fair value of the reporting unit exceeded its carrying value by more than 75%, and, therefore, there was no impairment to goodwill.

Bausch + Lomb Reporting Units

The annual goodwill impairment test for the Vision Care, Surgical and Pharmaceuticals reporting units of Bausch + Lomb was conducted as of October 1, 2023 by performing a quantitative assessment for each of the reporting units. The quantitative assessment utilized long-term growth rates of 2.0% and 3.0% and discount rates ranging from 10.25% and 11.50%, in estimation of the fair value of the reporting units. After completing the testing, the fair value of each of these reporting units exceeded its respective carrying value by more than 25%, and, therefore, there was no impairment to goodwill.

December 31, 2023

Accumulated goodwill impairment charges through December 31, 2022 December 31, 2023 were \$5,004 million \$5,497 million.

Covenant Compliance

The Senior Secured Credit Facilities (as defined below), the B+L Credit Facilities (as defined below), the AR Credit Facility (as defined below) and the indentures governing the Senior Secured Notes (as defined and described in the table above), the 9.00% Intermediate Holdco Secured Notes (as defined below) and Senior Unsecured Notes (as defined and described in the table above) contain customary affirmative and negative covenants and specified events of default. These affirmative and negative covenants include, among other things, and subject to certain qualifications and exceptions, covenants that restrict the Company's ability and the ability of its subsidiaries to: incur or guarantee additional indebtedness; create or permit liens

on assets; pay dividends

on capital stock or redeem, repurchase or retire capital stock or subordinated indebtedness; make certain investments and other restricted payments; engage in mergers, acquisitions, consolidations and amalgamations; transfer and sell certain assets; and engage in transactions with affiliates. As of December 31, 2022 December 31, 2023, the amount available for restricted payments under the "builder basket" in the Company's most restrictive indentures (as defined by those indentures) was approximately \$9,600 \$10,000 million (although such availability is subject to the Company's compliance with a 2.00:1.00 fixed charge coverage ratio). The 2027 Revolving Credit Facility (as defined below) also contains a financial maintenance covenant that, requires the Company to maintain a first lien net leverage ratio of not greater than 4.00:1.00. The financial maintenance covenant may be waived or amended without the consent of the term loan facility lenders and contains a customary term loan facility standstill.

As of December 31, 2022 December 31, 2023, the Company was in compliance with its financial maintenance covenant related to its debt obligations. The Company, based on its current forecast for the next twelve months from the date of issuance of these financial statements, expects to remain in compliance with its financial maintenance covenant and meet its debt service obligations over that same period.

On November 29, 2022, the Company designated 1261229 B.C. Ltd., the entity that directly or indirectly holds 89% of the issued and outstanding shares of Bausch + Lomb, as an unrestricted subsidiary of the Company in accordance with the terms of the Company's indentures. In connection therewith, Bausch + Lomb and its subsidiaries, are now unrestricted subsidiaries of the Company and, as a result, are no longer subject to the covenants under the relevant Bausch Health indentures, and the earnings and debt of Bausch + Lomb, as defined in the relevant indentures, are also not included in the calculation of the Company's financial maintenance covenant.

The Company continues to take steps to ensure compliance with its financial maintenance covenant and may take other actions to reduce its debt levels and improve its capital structure to align with the Company's long-term strategy, including divesting other businesses, refinancing debt and issuing equity or equity-linked securities as deemed appropriate.

Exchange Offer

On September 30, 2022, the Company closed a series of transactions whereby it exchanged (the "Exchange Offer") validly tendered senior unsecured notes with an aggregate outstanding principal balance of \$5,594 million as set forth in the table below (collectively, the "Existing Unsecured Senior Notes") for \$3,125 million in aggregate principal balance of newly issued secured notes, a reduction of outstanding principal of \$2,469 million.

In connection with the Exchange Offer and following receipt of the requisite number of consents from noteholders, the Company and the applicable notes trustee, executed supplemental indentures to amend each of the indentures governing the 9.25% Senior Notes due 2026, 8.50% Senior Notes due 2027, 5.00% Senior Notes due 2028, 7.00% Senior Notes due 2028 and 7.25% Senior Notes due 2029, which amendments eliminate substantially all of the restrictive covenants as well as certain events of default and related provisions applicable to such series of notes. December 31, 2023.

The Company performed an assessment of the Exchange Offer and determined that it met the criteria to be accounted for as a troubled debt restructuring under Accounting Standards Codification 470-60. For each series of the Existing Unsecured Senior Notes exchanged, the undiscounted cash flows associated with the New Secured Notes issued were compared to the carrying value of the Existing Unsecured Senior Notes exchanged for such New Secured Notes and the applicable exchange was accounted for as follows: (i) to the extent the undiscounted cash flows of the New Secured Notes in question were lower than the carrying value of the applicable Existing Unsecured Senior Notes exchanged, the carrying value of the applicable New Secured Notes was established at the total of these undiscounted cash flows, with a gain recorded for the remaining difference between this value and the carrying value of the applicable Existing Senior Unsecured Notes (as such, no interest expense will be recorded for the applicable New Secured Notes prospectively) and (ii) to the extent the undiscounted cash flows of the New Secured Notes in question exceeded the carrying value of the applicable Existing Unsecured Senior Notes exchanged, the carrying value of the applicable New Secured Notes was established at the carrying value of the applicable Existing Senior Unsecured Notes, and the Company established new effective interest rates based on the carrying value of the applicable Existing Unsecured Senior Notes prior to the Exchange Offer.

The difference between the principal amount of the New Secured Notes and their carrying value was recorded as a premium and is included in long-term debt on the Company's Consolidated Balance Sheet.

For In connection with the three months ended September 30, 2022, Exchange Offer during 2022, the Company recorded a gain of \$570 million, net of third party fees of \$25 million, in connection with the Exchange Offer. million.

The premium recorded on the New Secured Notes was \$1,835 million, which will be reduced as contractual interest payments are made on the New Secured Notes. Further details During 2023, the Company made contractual interest payments of \$321 million related to the New Secured Notes, are discussed below. of which \$282 million was recorded as a reduction of the premium.

Senior Secured Credit Facilities

Senior Secured Credit Facilities under the 2018 Restated Credit Agreement

On June 1, 2018, the Company and certain of its subsidiaries as guarantors entered into the "Senior Secured Credit Facilities" under the Company's Fourth Amended and Restated Credit and Guaranty Agreement, as amended by the First Incremental Amendment to the Restated Credit Agreement, dated as of November 27, 2018 (the "2018 Restated Credit Agreement") with a syndicate of financial institutions and investors as lenders. Prior to the 2022 Amended Credit Agreement (as defined below), the 2018 Restated Credit Agreement provided for a revolving credit facility of \$1,225 million, maturing on the earlier of June 1, 2023 and the date that is 91 calendar days prior to the scheduled maturity of indebtedness for borrowed money of the Company and Bausch Health Americas, Inc. ("BHA") in an aggregate principal amount in excess of \$1,000 million (the "2023 Revolving Credit Facility") and term loan facilities of original principal

amounts of \$4,565 million and \$1,500 million, maturing in June 2025 (the "June 2025 Term Loan B Facility") and November 2025 (the "November 2025 Term Loan B Facility"), respectively.

Senior Secured Credit Facilities under the 2022 Amended Credit Agreement

On May 10, 2022, the Company and certain of its subsidiaries as guarantors entered into a Second Amendment (the "Second Amendment") to the Fourth Amended and Restated Credit and Guaranty Agreement (as amended by the Second Amendment, the "2022 Amended Credit Agreement"). The 2022 Amended Credit Agreement provides for a new term loan facility with an aggregate principal amount of \$2,500 million (the "2027 Term Loan B Facility") maturing on February 1, 2027 and a new revolving credit facility of \$975 million (the "2027 Revolving Credit Facility") that will mature on the earlier of February 1, 2027 and the date that is 91 calendar days prior to the scheduled maturity of indebtedness for borrowed money of the Company and BHA in an aggregate principal amount in excess of \$1,000 million. Borrowings under the 2027 Revolving Credit Facility can be made in U.S. dollars, Canadian dollars or Euros. After giving effect to the Second Amendment, the 2023 Revolving Credit Facility, June 2025 Term Loan B Facility and November 2025 Term Loan B Facility were refinanced (such refinancing, the "Credit Agreement Refinancing"), along with certain of the Company's existing senior notes, using net proceeds from the borrowings under the 2027 Term Loan B Facility, the B+L IPO and the B+L Debt Financing (as defined below) and available cash on hand. As of December 31, 2022, the Company had drawn \$470 million no outstanding borrowings and \$25 had \$23 million of issued and outstanding letters of credit on the 2027 Revolving Credit Facility.

Borrowings under the 2027 Term Loan B Facility bear interest at a rate per annum equal to, at the Company's option, either: (a) a forward-looking term rate determined by reference to the financing rate for borrowing U.S. dollars overnight collateralized by U.S. Treasury securities ("term SOFR rate") for the interest period relevant to such borrowing or (b) a base rate determined by reference to the highest of: (i) the prime rate (as defined in the 2022 Amended Credit Agreement), (ii) the federal funds effective rate plus 1/2 of 1.00% and (iii) the term SOFR rate for a period of one month plus 1.00% (or if such rate shall not be ascertainable, 1.50%) (provided, however that the term SOFR rate with respect to the 2027 Term Loan B Facility shall at no time be less than 0.50% per annum), in each case, plus an applicable margin.

Borrowings under the 2027 Revolving Credit Facility in: (i) U.S. dollars bear interest at a rate per annum equal to, at the Company's option, either: (a) the term SOFR rate (subject to a floor of 0.00% per annum) or (b) a U.S. dollar base rate, (ii) Canadian dollars bear interest at a rate per annum equal to, at the Company's option, either: (a) a Canadian dollar offer rate or (b) a Canadian dollar prime and (iii) euros bear interest at a rate per annum equal to a term benchmark rate determined by reference to the cost of funds for euro deposits ("EURIBOR") for the interest period relevant to such borrowing (subject to a floor of 0.00% per annum), in each case, plus an applicable margin. Term SOFR rate loans are subject to a credit spread adjustment ranging from 0.10%-0.25%.

The applicable interest rate margin for borrowings under the 2027 Term Loan B Facility is 5.25% for term SOFR rate loans and 4.25% for U.S. dollar base rate loans. The applicable interest rate margin for borrowings under the 2027 Revolving Credit Facility ranges from 4.75% to 5.25% for term SOFR rate loans, BA rate loans and EURIBOR loans and 3.75% to 4.25% for U.S. dollar base rate loans and Canadian prime rate loans.

In addition, the Company is required to pay commitment fees of 0.25%-0.50% per annum with respect to the unutilized commitments under the 2027 Revolving Credit Facility, payable quarterly in arrears. The Company also is required to pay: (i) letter of credit fees on the maximum amount available to be drawn under all outstanding letters of credit in an amount equal to the applicable margin on term SOFR rate borrowings under the 2027 Revolving Credit Facility on a per annum basis, payable quarterly in arrears, (ii) customary fronting fees for the issuance of letters of credit and (iii) agency fees.

Subject to certain exceptions and customary baskets set forth in the 2022 Amended Credit Agreement, the Company is required to make mandatory prepayments of the loans under the Senior Secured Credit Facilities under certain circumstances, including from: (i) 100% of the net cash proceeds of insurance and condemnation proceeds for property or

asset losses (subject to reinvestment rights and net proceeds thresholds), (ii) 100% of the net cash proceeds from the incurrence of debt (other than permitted debt as described in the 2022 Amended Credit Agreement), (iii) 50% of Excess Cash Flow (as defined in the 2022 Amended Credit Agreement)

subject to decrease based on leverage ratios and subject to a threshold amount and (iv) 100% of net cash proceeds from asset sales (subject to reinvestment rights and net proceeds thresholds). These mandatory prepayments may be used to satisfy future amortization.

The amortization rate for the 2027 Term Loan B Facility is 5.00% per annum, or \$125 million, payable in quarterly installments beginning on September 30, 2022. The Company may direct that prepayments be applied to such amortization payments in order of maturity. As of **December 31, 2022** **December 31, 2023**, the remaining mandatory quarterly amortization payments for the 2027 Term Loan B Facility were **\$500** **\$375** million through December 2026.

The 2022 Amended Credit Agreement permits the incurrence of incremental credit facility borrowings up to the greater of \$1,000 million and 40% of Consolidated Adjusted EBITDA (non-GAAP) (as defined in the 2022 Amended Credit Agreement), subject to customary terms and conditions, as well as the incurrence of additional incremental credit facility borrowings subject to, in the case of secured debt, a secured leverage ratio of not greater than 3.50:1.00, and, in the case of unsecured debt, either a total leverage ratio of not greater than 6.50:1.00 or an interest coverage ratio of not less than 2.00:1.00.

The 2022 Amended Credit Agreement provides that Bausch + Lomb shall initially be a "restricted" subsidiary subject to the terms of the 2022 Amended Credit Agreement covenants, but does not require Bausch + Lomb to guarantee the obligations under the 2022 Amended Credit Agreement. The 2022 Amended Credit Agreement permits the Company to designate Bausch + Lomb as an "unrestricted" subsidiary under the 2022 Amended Credit Agreement and no longer subject to the terms of the covenants thereunder provided that no event of default is continuing or will result from such designation and the total leverage ratio of Remainco (as defined in the 2022 Amended Credit Agreement) will not be greater than 7.60:1.00 on a pro forma basis. The Credit Agreement Refinancing contains provisions **that were** designed to facilitate the B+L Separation.

On November 29, 2022 **As of December 31, 2023**, the Company designated 1261229 B.C. Ltd., the entity that directly or indirectly **holds held** approximately **89%** **88%** of the issued and outstanding shares of Bausch + Lomb, as an unrestricted subsidiary of the Company in accordance with the terms of the Company's debt documents. In connection therewith, all of the subsidiaries of 1261229 B.C. Ltd., including Bausch + Lomb and its subsidiaries, are **also now** unrestricted subsidiaries of the Company and, as a result, are **no longer not** subject to the covenants under the Bausch Health debt documents, and the earnings and **net** debt of Bausch + Lomb, as defined in the relevant debt documents, are also not included in the calculation of the Company's financial maintenance covenant.

Accounts Receivable Credit Facility

On June 30, 2023, certain subsidiaries of the Company entered into a Credit and Security Agreement (as amended, the "AR Facility Agreement") with certain third-party lenders, providing for a non-recourse financing facility collateralized by certain accounts receivable originated by a wholly-owned subsidiary of the Company (the "AR Credit Facility"). The AR Facility Agreement provides for an up to \$600 million facility, subject to certain borrowing base tests. Under the AR Credit Facility, a special purpose entity (the "Borrower"), as the borrower, purchases accounts receivable originated by a wholly-owned subsidiary of the Company, which collateralize borrowings under the AR Credit Facility. The Borrower is a bankruptcy remote entity that is unrestricted under the Company's debt covenants, and which is consolidated by the Company. Borrowings under the AR Credit Facility are for general corporate purposes.

Borrowings under the AR Credit Facility are in U.S. dollars and bear interest at a rate per annum equal to the sum of the one month term SOFR plus 6.65%. The Company is required to pay commitment fees of 0.75% multiplied by the lesser of: (i) the unfunded portion of the lenders' commitments or (ii) 50% of the total lenders' commitments. The AR Facility Agreement contains customary events of default, representations and warranties and affirmative and negative covenants primarily applicable to the borrower thereunder, including, among other things, restrictions on indebtedness, liens, investments, mergers, dispositions, dividends and other distributions, and engaging in any business other than as set forth in the AR Facility Agreement. Upon the occurrence and during the continuance of an Amortization Event (as defined in the AR Facility Agreement), including the occurrence of an Event of Default (under and as defined in the 2022 Amended Credit Agreement), and subsequent demand by the Administrative Agent (acting at the direction of the Lenders), the outstanding advances and all other obligations under the AR Facility Agreement will be due and payable. The AR Credit Facility matures on January 28, 2028.

As of December 31, 2023, there were \$350 million of outstanding borrowings under the AR Credit Facility at an all-in interest rate of 11.99%.

Fees incurred with the lenders, their affiliates and other third parties of approximately \$20 million associated with the AR Credit Facility were capitalized as deferred financing costs and will be amortized as interest expense over the term of the AR Facility Agreement.

Senior Secured Credit Facilities under the B+L Credit Agreement

On May 10, 2022, Bausch + Lomb entered into a credit agreement (the "B+L Credit Agreement", and the credit facilities thereunder, the "B+L Credit Facilities") providing. Prior to the September 2023 Credit Facility Amendment (as defined below), the Credit Agreement provided for a term loan of \$2,500 million with a five-year term to maturity (the "B+L May 2027 Term Loan B Facility") and a five-year revolving credit facility of \$500 million (the "B+L Revolving Credit Facility" and such financing,).

On September 29, 2023, Bausch + Lomb entered into an incremental term loan facility secured on a pari passu basis with its existing B+L May 2027 Term Loan B Facility. This incremental term loan facility was entered into in the form of an incremental amendment (the "September 2023 Credit Facility Amendment") to Bausch + Lomb's existing Credit Agreement (the Credit Agreement, as amended by the September 2023 Credit Facility Amendment, the "B+L Debt Financing" Amended Credit Agreement") and consisted of borrowings of \$500 million in new term B loans with a five-year term to maturity (the "B+L September 2028 Term Loan B Facility") and, together with the B+L May 2027 Term Loan B Facility and the B+L Revolving Credit Facility, the "B+L Senior Secured Credit Facilities"). A portion of the proceeds from the B+L September 2028 Term Loan B Facility and B+L October 2028 Secured Notes (as defined below) were used to finance the \$1,750 million upfront payment related to the XIIDRA Acquisition (as discussed further in Note 3, "ACQUISITIONS, LICENSING AGREEMENTS AND DIVESTITURE") and related acquisition and financing costs.

The B+L Senior Secured Credit Facilities are secured by substantially all of the assets of Bausch + Lomb and its material, wholly-owned Canadian, U.S., Dutch and Irish subsidiaries, subject to certain exceptions. The term loan is B+L May 2027 Term Loan B Facility and the B+L September 2028 Term Loan B Facility are denominated in U.S. dollars, and borrowings under the revolving credit facility B+L Revolving Credit Facility may be made available in U.S. dollars, euros, pounds sterling and Canadian dollars. As of December 31, 2022, December 31, 2023, the principal amount outstanding under the B+L Term Revolving Credit Facility was \$2,488 had \$275 million and \$2,439 million net of issuance costs. As of December 31, 2022, Bausch + Lomb had no outstanding borrowings, \$24 \$26 million of issued and outstanding letters of credit and \$199 million of remaining availability of \$476 million under its Revolving Credit Facility availability.

The B+L Revolving Credit Facility is a source of funding for Bausch + Lomb and its subsidiaries only. Absent the payment of a dividend, which would be determined by the Board of Directors of Bausch + Lomb and paid pro rata to Bausch + Lomb's shareholders, proceeds from the B+L Revolving Credit Facility are not available to fund the operations, investing and financing activities of any other subsidiaries of Bausch Health.

Borrowings under the B+L Revolving Credit Facility in: (i) U.S. dollars bear interest at a rate per annum equal to, at Bausch + Lomb's option, either: (a) a term Secured Overnight Financing Rate ("SOFR")-based rate or (b) a U.S. dollar base rate, (ii) Canadian dollars bear interest at a rate per annum equal to, at Bausch + Lomb's option, either: (a) a Canadian Dollar Offered Rate ("CDOR") or (b) a Canadian dollar prime rate, (iii) euros bear interest at a rate per annum equal to EURIBOR and (iv) pounds sterling bear interest at a rate per annum equal to Sterling Overnight Index Average ("SONIA") (provided, however, that the term SOFR-based rate, CDOR, EURIBOR and SONIA shall be no less than 0.00% per annum at any time and the U.S. dollar base rate and the Canadian dollar prime rate shall be no less than 1.00% per annum at any time), in each case, plus an applicable margin. Term SOFR-based loans borrowings under the Revolving Credit Facility are subject to a credit spread adjustment of 0.10%.

The applicable interest rate margins for borrowings under the B+L Revolving Credit Facility are: (i) between 0.75% to 1.75% with respect to U.S. dollar base rate or Canadian dollar prime rate borrowings and between 1.75% to 2.75% with respect to SOFR, EURIBOR, SONIA or CDOR borrowings based on Bausch + Lomb's total net leverage ratio and (ii) after: (x) Bausch + Lomb's senior unsecured non-credit-enhanced long term indebtedness for borrowed money receives an investment grade rating from at least two of S&P, Standard & Poor's, Moody's and Fitch and (y) the B+L May 2027 Term Loan B Facility has and the B+L September 2028 Term Loan B Facility have been repaid in full in cash (the "IG Trigger"), between 0.015% to 0.475% with respect to U.S. dollar base rate or Canadian dollar prime rate borrowings and between 1.015% to 1.475% with respect to SOFR, EURIBOR, SONIA or CDOR borrowings based on Bausch + Lomb's debt rating. The stated rate of interest for borrowings under the Revolving Credit Facility at December 31, 2023 ranges from 8.19% to 8.21% per annum. In addition, Bausch + Lomb is required to pay commitment fees of 0.25% per annum in respect of the unutilized commitments under the B+L Revolving Credit Facility, payable quarterly in arrears until the IG Trigger and, thereafter, a facility fee between 0.110% to 0.275% of the total revolving commitments, whether used or unused, based

on Bausch + Lomb's debt rating and payable quarterly in arrears. Bausch + Lomb is also required to pay letter of credit fees on the maximum amount available to be drawn under all outstanding letters of credit in an amount equal to the applicable margin on SOFR borrowings under the B+L Revolving Credit Facility on a per annum basis, payable quarterly in arrears, as well as customary fronting fees for the issuance of letters of credit and agency fees.

Borrowings under the B+L May 2027 Term Loan B Facility bear interest at a rate per annum equal to, at Bausch + Lomb's option, either either: (i) a term SOFR-based rate, plus an applicable margin of 3.25% or (ii) a U.S. dollar base rate, plus an applicable margin of 2.25% (provided, however, that the term SOFR-based rate shall be no less than 0.50% per annum at any time and the U.S. dollar base rate shall not be lower than 1.50% per annum at any time). Term SOFR-based loans are subject to a credit spread adjustment of 0.10%. The stated rate of interest under the B+L May 2027 Term Loan B Facility at December 31, 2023 was 8.71% per annum.

Borrowings under the B+L September 2028 Term Loan B Facility bear interest at a rate per annum equal to, at Bausch + Lomb's option, either: (i) a term SOFR-based rate, plus an applicable margin of 4.00%, or (ii) a U.S. dollar base rate, plus an applicable margin of 3.00% (provided, however, that the term SOFR-based rate shall be no less than 0.00% per annum at any time and the U.S. dollar base rate shall not be lower than 1.00% per annum at any time). Term SOFR-based borrowings under the B+L September 2028 Term Facility at December 31, 2022 are not subject to any credit spread adjustment. The stated rate of interest under the B+L September 2028 Term Loan B Facility as of December 31, 2023 was 7.84% 9.36% per annum.

Subject to certain exceptions and customary baskets set forth in the B+L Amended Credit Agreement, Bausch + Lomb is required to make mandatory prepayments of the loans under the B+L May 2027 Term Loan B Facility and the B+L September 2028 Term Loan B Facility under certain circumstances, including from: (i) 100% of the net cash proceeds of insurance and condemnation proceeds for property or asset losses (subject to reinvestment rights, decrease based on leverage ratios and net proceeds threshold), (ii) 100% of the net cash proceeds from the incurrence of debt (other than permitted debt as described in the B+L Amended Credit Agreement), (iii) 50% of Excess Cash Flow (as defined in the B+L Amended Credit Agreement) subject to decrease based on leverage ratios and subject to a threshold amount and (iv) 100% of net cash proceeds from asset sales (subject to reinvestment rights, decrease based on leverage ratios and net proceeds threshold). These mandatory prepayments may be used to satisfy future amortization.

The amortization rate for the B+L May 2027 Term Loan B Facility is 1.00% per annum, or \$25 million, and the first installment was paid on September 30, 2022, payable in quarterly installments. Bausch + Lomb may direct that prepayments be applied to such amortization payments in order of maturity. As of December 31, 2022 December 31, 2023, the remaining mandatory quarterly amortization payments for the B+L May 2027 Term Loan B Facility were \$106 \$81 million through March 2027, with the remaining term loan balance being due in May 2027.

The amortization rate for the B+L September 2028 Term Loan B Facility is 1.00% per annum, or \$5 million, payable in quarterly installments. Bausch + Lomb may direct that prepayments be applied to such amortization payments in order of maturity. As of December 31, 2023, the remaining mandatory quarterly amortization payments for the B+L September 2028 Term Loan B Facility were \$23 million through June 2028, with the remaining term loan balance being due in September 2028.

Senior Secured Notes

The Senior Secured Notes are guaranteed by each of the Company's subsidiaries that is a guarantor under the 2022 Amended Credit Agreement and existing Senior Unsecured Notes (together, the "Note Guarantors"). In connection with the closing of the B+L IPO, the redemption of the Company's 6.125% Senior Unsecured Notes due 2025 (the "April 2025 Unsecured Notes" and the related indenture, the "April 2025 Unsecured Notes Indenture") (as discussed below) and the related release in respect of the 2018 Restated Credit Agreement, the guarantees and related security provided by Bausch + Lomb and its subsidiaries in respect of the existing senior notes of the Company and BHA were released.

The Senior Secured Notes and the guarantees related thereto are senior obligations and are secured, subject to permitted liens and certain other exceptions, by the same first priority liens that secure the Company's obligations under the 2022 Amended Credit Agreement under the terms of the indentures governing the Senior Secured Notes.

The Senior Secured Notes and the guarantees rank equally in right of repayment with all of the Company's and Note Guarantors' respective existing and future unsubordinated indebtedness and senior to the Company's and Note Guarantors' respective future subordinated indebtedness. The Senior Secured Notes and the guarantees related thereto are effectively pari passu with the Company's and the Note Guarantors' respective existing and future indebtedness secured by a first priority lien on the collateral securing the Senior Secured Notes and effectively senior to the Company's and the Note Guarantors' respective existing and future indebtedness that is unsecured, including the existing Senior Unsecured Notes, or that is secured by junior liens, in each case to the extent of the value of the collateral. In addition, the Senior Secured Notes are structurally subordinated to: (i) all liabilities of any of the Company's subsidiaries that do not guarantee the Senior Secured Notes and (ii) any of the Company's debt that is secured by assets that are not collateral.

Upon the occurrence of a change in control (as defined in the indentures governing the Senior Secured Notes), unless the Company has exercised its right to redeem all of the notes of a series, holders of the Senior Secured Notes may require the Company to repurchase such holder's notes, in whole or in part, at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest.

6.500% Senior Secured Notes due 2022 and 7.00% Senior Secured Notes due 2024

In March 2017, the Company issued \$1,250 million aggregate principal amount of 6.500% senior secured notes due March 15, 2022 (the "March 2022 Secured Notes") and \$2,000 million aggregate principal amount of 7.000% senior secured notes due March 15, 2024 (the "March 2024 Secured Notes"), in a private placement. Interest on these notes is payable semi-annually in arrears on each March 15 and September 15.

The March 2022 Secured Notes were repaid in full as part of the May 2020 Refinancing Transactions (as defined below).

The March 2024 Secured Notes were repaid in full during 2021 with cash on hand and as part of the June 2021 Refinancing Transactions (as defined below).

5.500% Senior Secured Notes due 2025

On October 17, 2017, the Company issued \$1,000 million, and, on November 21, 2017, the Company issued \$750 million, aggregate principal amount of 5.500% Senior Secured Notes due November 2025 (the "November 2025 Secured Notes"), in a private placement. Interest on the November 2025 Secured Notes is payable semi-annually in arrears on each May 1 and November 1.

The November 2025 Secured Notes are redeemable at the option of the Company, in whole or in part, at any time, at the redemption prices set forth in the indenture.

5.750% Senior Secured Notes due 2027

On March 8, 2019, BHA and the Company issued: (i) \$1,000 million aggregate principal amount of 8.500% Senior Unsecured Notes due 2027 (the "January 2027 Unsecured Notes") and (ii) \$500 million aggregate principal amount of 5.750% Senior Secured Notes due August 2027 (the "August 2027 Secured Notes"), respectively, in a private placement. Interest on the August 2027 Secured Notes is payable semi-annually in arrears on each February 15 and August 15.

The August 2027 Secured Notes are redeemable at the option of the Company, in whole or in part, at the redemption prices set forth in the indenture, plus accrued and unpaid interest to the date of redemption.

4.875% Senior Secured Notes due 2028 - June 2021 Refinancing Transactions

On June 8, 2021, the Company issued \$1,600 million aggregate principal amount of 4.875% Senior Secured Notes due June 2028 (the "June 2028 Secured Notes") in a private placement. The proceeds and cash on hand were used to: (i) repurchase a portion and redeem the remainder of \$1,600 million of the March 2024 Secured Notes, representing the remaining outstanding principal balance of the March 2024 Secured Notes and (ii) pay all fees and expenses associated with these transactions (collectively, the "June 2021 Refinancing Transactions"). The June 2021 Refinancing Transactions were accounted for as an extinguishment of debt and the Company incurred a loss on extinguishment of debt of \$38 million representing the difference between the amount paid to settle the extinguished debt and the extinguished debt's carrying value. Interest on the June 2028 Secured Notes is payable semi-annually in arrears on each June 1 and December 1.

The June 2028 Secured Notes are redeemable at the option of the Company, in whole or in part, at any time on or after June 1, 2024, at the redemption prices set forth in the June 2028 Secured Notes indenture. The Company may redeem some or all of the June 2028 Secured Notes prior to June 1, 2024 at a price equal to 100% of the principal amount thereof, plus accrued and unpaid interest to, but not including, the date of the redemption plus a "make-whole" premium. In addition, at any time prior to June 1, 2024, the Company may redeem up to 40% of the aggregate principal amount of the June 2028 Secured Notes using the net proceeds of certain equity offerings at the redemption price set forth in the June 2028 Secured Notes indenture.

6.125% Senior Secured Notes due 2027 - February 2022 Financing

On February 10, 2022, the Company issued \$1,000 million aggregate principal amount of 6.125% Senior Secured Notes due February 2027 (the "February 2027 Secured Notes"). The proceeds from the February 2027 Secured Notes, along with proceeds from the B+L IPO, the 2027 Term Loans and the B+L Debt Financing and cash on hand, were used to redeem the April 2025 Unsecured Notes and the Credit Agreement Refinancing as discussed below. The February 2027 Secured Notes accrue interest at a rate of 6.125% per year, payable semi-annually in arrears on each February and August.

The February 2027 Secured Notes are redeemable at the option of the Company, in whole or in part, at any time on or after February 2024, at the redemption prices set forth in the indenture. The Company may redeem some or all of the February 2027 Secured Notes prior to February 2024 at a price equal to 100% of the principal amount thereof plus a "make-whole" premium. Prior to February 2024, the Company may redeem up to 40% of the aggregate principal amount of the February 2027 Secured Notes using the proceeds of certain equity offerings at the redemption price set forth in the indenture.

New BHC Secured Notes

The 11.00% First Lien Secured Notes mature on September 30, 2028, and have a stated interest of 11.00% per year that is payable semi-annually in arrears on each March 30 and September 30. The 11.00% First Lien Secured Notes are redeemable, in whole or in part, at any time at a price equal to 100% of the principal amount thereof, plus accrued and unpaid interest to, but not including, the date of redemption plus a "make-whole" premium as described in the 11.00% First Lien Secured Notes indenture.

The 14.00% Second Lien Secured Notes mature on October 15, 2030, and have stated interest of 14.00% per year that is payable semi-annually in arrears on each April 15 and October 15. The 14.00% Second Lien Secured Notes will be redeemable, in whole or in part, at any time on or after October 15, 2025 at the applicable redemption prices set forth in the 14.00% Second Lien Secured Notes indenture. In addition, some or all of the 14.00% Second Lien Secured Notes may be redeemed prior to October 15, 2025 at a price equal to 100% of the principal amount thereof, plus accrued and unpaid interest to, but not including, the date of redemption plus a "make-whole" premium as described in the 14.00% Second Lien Secured Notes indenture. At any time prior to October 15, 2025, up to 40% of the aggregate principal amount of the 14.00% Second Lien Secured Notes may be redeemed with the net proceeds of certain equity offerings at the redemption price set forth in the 14.00% Second Lien Secured Notes indenture.

9.00% Intermediate Holdco Senior Secured Notes

The 9.00% Intermediate Holdco Secured Notes mature on January 30, 2028, and have a stated interest of 9.00% per year that is **interest** payable semi-annually in arrears on each January 30 and July 30. The 9.00% Intermediate Holdco Secured Notes are redeemable at the option of Intermediate Holdco, in whole or in part, at any time, at the redemption prices set forth in the 9.00% Intermediate Holdco Secured Notes indenture.

The 9.00% Intermediate Holdco Secured Notes are general senior secured obligations of Intermediate Holdco and secured by first priority liens (subject to permitted liens and certain other exceptions) on substantially all of the assets of Intermediate Holdco, which as of **December 31, 2022** **December 31, 2023** were comprised of **38.6%** **38.5%** **(135,099,643 shares)** of the issued and outstanding common shares of Bausch + **Lomb Corporation**, **Lomb**. The 9.00% Intermediate Holdco Secured Notes and Intermediate Holdco's other obligations under the indenture governing such notes are not obligations or responsibilities of, or guaranteed by, the Company, Bausch + Lomb or any of their respective affiliates or subsidiaries (other than the issuer Intermediate Holdco). The sole recourse of the holders of the 9.00% Intermediate Holdco Secured Notes under the 9.00% Intermediate Holdco Secured Notes and the indenture governing such notes is limited to Intermediate Holdco and its assets.

B+L 8.375% Senior Secured Notes due 2028 - September 2023 Financing

On September 29, 2023, Bausch + Lomb issued \$1,400 million aggregate principal amount of 8.375% Senior Secured Notes due October 2028 (the "B+L October 2028 Secured Notes"). A portion of the proceeds from the B+L October 2028 Secured Notes, along with the proceeds of the September 2028 Term Loan B Facility, were used to finance the \$1,750 million upfront payment related to the acquisition of XIIDRA[®] and certain other ophthalmology assets from Novartis (as discussed in Note 3, "ACQUISITIONS, LICENSING AGREEMENTS AND DIVESTITURE") and related acquisition and financing costs. The B+L October 2028 Secured Notes accrue interest at a rate of 8.375% per year, payable semi-annually in arrears on each April 1 and October 1, commencing on April 1, 2024.

The B+L October 2028 Secured Notes are guaranteed by each of Bausch + Lomb's subsidiaries that is a guarantor under the B+L Amended Credit Agreement (the "Note Guarantors"). The B+L October 2028 Secured Notes and the guarantees related thereto are senior obligations and are secured, subject to permitted liens and certain other exceptions, by the same first priority liens that secure Bausch + Lomb's obligations under the B+L Amended Credit Agreement under the terms of the indentures governing the B+L October 2028 Secured Notes.

The B+L October 2028 Secured Notes and the guarantees related thereto rank equally in right of repayment with all of Bausch + Lomb's and Note Guarantors' respective existing and future unsubordinated indebtedness and senior to Bausch + Lomb's and Note Guarantors' respective future subordinated indebtedness. The Senior Secured Notes and the guarantees related thereto are effectively pari passu with Bausch + Lomb's and the Note Guarantors' respective existing and future indebtedness secured by a first priority lien on the collateral securing the B+L October 2028 Secured Notes and effectively senior to Bausch + Lomb's and the Note Guarantors' respective existing and future indebtedness that is unsecured, or that is secured by junior liens, in each case to the extent of the value of the collateral. In addition, the B+L October 2028 Secured Notes are structurally subordinated to: (i) all liabilities of any of Bausch + Lomb's subsidiaries that do not guarantee the B+L Senior Secured Notes and (ii) any of Bausch + Lomb's debt that is secured by assets that are not collateral.

Upon the occurrence of a change in control (as defined in the indentures governing the B+L October 2028 Secured Notes), unless Bausch + Lomb has exercised its right to redeem all of the notes of a series, holders of the B+L October 2028

Secured Notes may require Bausch + Lomb to repurchase such holder's notes, in whole or in part, at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, but not including, the date of purchase.

The B+L October 2028 Secured Notes are redeemable at the option of Bausch + Lomb, in whole or in part, at any time on or after October 1, 2025, at the redemption prices set forth in the indenture. Prior to October 1, 2025, Bausch + Lomb may redeem the B+L October 2028 Secured Notes in whole or in part at a redemption price equal to the principal amount of the Notes redeemed plus a make-whole premium. Prior to October 1, 2025, Bausch + Lomb may, on any one or more occasions redeem up to 40% of the aggregate principal amount of the October 2028 Secured Notes at a redemption price of 108.375% of the principal amount thereof, redeemed plus accrued and unpaid interest to, but not including, the date of redemption with the proceeds of one of more equity offerings.

Senior Unsecured Notes

The Senior Unsecured Notes issued by the Company are the Company's senior unsecured obligations and are jointly and severally guaranteed on a senior unsecured basis by each of its subsidiaries that is a guarantor under the Senior Secured Credit Facilities. The Senior Unsecured Notes issued by BHA are senior unsecured obligations of BHA and are jointly and severally guaranteed on a senior unsecured basis by the Company and each of its subsidiaries (other than BHA) that is a guarantor under the Senior Secured Credit Facilities. Future subsidiaries of the Company and BHA, if any, may be required to guarantee the Senior Unsecured Notes.

If the Company experiences a change in control, the Company may be required to make an offer to repurchase each series of Senior Unsecured Notes, in whole or in part, at a purchase price equal to 101% of the aggregate principal amount of the Senior Unsecured Notes repurchased, plus accrued and unpaid interest.

Redemption of April 2025 Unsecured Notes

On January 18, 2022, the Company issued conditional notices of redemption to redeem: (i) all of the April 2025 Unsecured Notes conditioned upon the completion of the Credit Agreement Refinancing and (ii) \$370 million in aggregate principal amount of the Company's outstanding 9.00% Senior Unsecured Notes due 2025 (the "December 2025 Unsecured Notes") conditioned upon the receipt of aggregate proceeds of at least \$7,000 million from: (a) the B+L IPO, (b) the B+L Debt Financing, (c) the Credit Agreement Refinancing and (d) the issuance of the February 2027 Secured Notes.

In connection with the closing of the B+L IPO, the conditions of the redemption of its April 2025 Unsecured Notes were satisfied and the Company discharged the April 2025 Unsecured Notes Indenture using: (i) the net proceeds from the issuance of the February 2027 Secured Notes, (ii) the net proceeds from the B+L IPO, (iii) the net proceeds from the borrowings under the B+L Debt Financing and (iv) cash on hand. On May 10, 2022, the Company caused sufficient funds for the redemption in full of its April 2025 Unsecured Notes at a redemption price of 101.021% of the principal amount then outstanding to be irrevocably deposited with the Bank of New York Mellon, N.A., as trustee under the April 2025 Unsecured Notes Indenture, and the April 2025 Unsecured Notes Indenture was discharged. The April 2025 Unsecured Notes were redeemed on May 16, 2022. The redemption was accounted for as an extinguishment of debt.

On May 10, 2022, the Company notified the Trustee and holders of its outstanding December 2025 Unsecured Notes that the conditions to its previously announced redemption would not be satisfied, and the conditional redemption was cancelled.

In connection with the closing of the B+L IPO, the discharge of the April 2025 Unsecured Notes Indenture and the related release in respect of the 2018 Restated Credit Agreement as described above, the guarantees and related security provided by Bausch + Lomb and its subsidiaries in respect of the existing senior notes of the Company and BHA were released.

Weighted Average Stated Rate of Interest

The weighted average stated rate of interest for the Company's outstanding debt obligations as of December 31, 2022, December 31, 2023 and 2021/2022 was 7.74%/8.05% and 5.88%/7.74%, respectively. Due to the accounting treatment for the New Secured Notes, interest expense in the Company's financial statements for 2023 and 2022, and in future periods will not be representative of the weighted average stated rate of interest.

Gain (Loss) on Extinguishment of Debt

In December 2023, the Company, through a series of transactions repurchased and retired outstanding senior unsecured notes with an aggregate par value of \$8 million in the open market, for an aggregate cost of \$7 million and recognized a net gain of approximately \$1 million.

In June 2022 and December 2022, the Company repurchased and retired certain outstanding Senior Notes with an aggregate par value of \$927 million in the open market, for an aggregate cost of \$550 million. In connection with these repurchases, the Company recognized a gain of \$369 million, net of write-offs of debt premiums, discounts and deferred

issuance costs, on extinguishment of debt which represents the differences between the amounts paid to settle the extinguished debt and its carrying value.

In September 2022, the Company completed the Exchange Offer and recorded a net gain on extinguishment of debt of \$570 million as described above.

In connection with (i) the repayment of the June 2025 Term Loan B Facility, November 2025 Term Loan B Facility and 2023 Revolving Credit Facility and (ii) the redemption of April 2025 Unsecured Notes, the Company incurred a loss on extinguishment of debt of \$64 million representing the difference between the amount paid to settle the extinguished debt and the extinguished debt's carrying value.

Maturities and Mandatory Payments

The Company may, from time to time, purchase outstanding debt for cash in open market purchases or privately negotiated transactions. Such repurchases or exchanges, if any, will depend on prevailing market conditions, future liquidity requirements, contractual restrictions and other factors.

Maturities and mandatory payments of debt obligations for the five succeeding years ending December 31 and thereafter are as follows:

Under the 2022 Amended Credit Agreement, there is no Excess Cash Flow payment due for 2022, 2023.

11. PENSION AND POSTRETIREMENT EMPLOYEE BENEFIT PLANS

The Company has defined benefit plans and a participatory defined benefit postretirement medical and life insurance plan, which covers a closed grandfathered group of legacy Bausch & Lomb Holdings Incorporated ("B&L") U.S. employees and employees in certain other countries. The U.S. defined benefit accruals were frozen as of December 31, 2004 and benefits that were earned up to December 31, 2004 were preserved. Participants continue to earn interest credits on their cash balance at an interest crediting rate that is equal to the greater of: (i) the average annual yield on 10-year treasury bonds in effect for the November preceding the plan year or (ii) 4.50%. The most significant non-U.S. plans are two defined benefit plans in Ireland. In 2011, both Ireland defined benefit plans were closed to future service benefit accruals; however, additional accruals related to annual salary increases continued. In December 2014, one of the Ireland defined benefit plans was amended effective August 2014 to eliminate future benefit accruals related to salary increases. All of the pension benefits accrued through the plan amendment date were preserved. As a result of the plan amendment, there are no active plan participants accruing benefits under the amended Ireland defined benefit plan. The U.S. postretirement benefit plan was amended effective January 1, 2005 to eliminate employer contributions after age 65 for participants who did not meet the minimum requirements of age and service on that date. The employer contributions for medical and prescription drug benefits for participants retiring after March 1, 1989 were frozen effective January 1, 2010. Effective January 1, 2014, the Company no longer offers medical and life insurance coverage to new retirees.

In addition to the B&L benefit plans, outside of the U.S., a limited group of the Company's employees are covered by defined benefit pension plans.

The Company uses December 31 as the year-end measurement date for all of its defined benefit pension plans and the postretirement benefit plan.

Accounting for Pension Benefit Plans and Postretirement Benefit Plan

The Company recognizes in its Consolidated Balance Sheets an asset or liability equal to the over- or under-funded benefit obligation of each defined benefit pension plan and postretirement benefit plan. Actuarial gains or losses and prior service costs or credits that arise during the period but are not recognized as components of net periodic benefit cost are recognized, net of tax, as a component of Other comprehensive income (loss).

The amounts included in Accumulated other comprehensive loss as of December 31, 2022, December 31, 2023 and 2021, 2022 were as follows:

Included in Settlement loss recognized and Settlements in the tables above are the costs and payments associated with the conversion of a portion of the Company's defined benefit plan in Ireland to a defined contribution plan.

A number of the Company's pension benefit plans were underfunded as of December 31, 2022, December 31, 2023 and 2021, 2022, having accumulated benefit obligations exceeding the fair value of plan assets. Information for the underfunded pension benefit plans is as follows:

		U.S. Plan		Non-U.S. Plans					
		U.S. Plan		Non-U.S. Plans

The Company's policy for funding its pension benefit plans is to make contributions that meet or exceed the minimum statutory funding requirements. These contributions are determined based upon recommendations made by the actuary under accepted actuarial principles. In 2023, 2024, the Company expects to contribute \$0, \$4 million, \$4 million, \$4 million and \$4 million, \$3 million to the U.S. pension benefit plan, the non-U.S. pension benefit plans and the U.S. postretirement benefit plan, respectively. The Company plans to use postretirement benefit plan assets and cash on hand, as necessary, to fund the U.S. postretirement benefit plan benefit payments in 2023, 2024.

Estimated Future Benefit Payments

Future benefit payments over the next 10 years for the pension benefit plans and the postretirement benefit plan, which reflect expected future service, as appropriate, are expected to be paid as follows:

The expected long-term rate of return on plan assets was developed based on a capital markets model that uses expected asset class returns, variance and correlation assumptions. The expected asset class returns were developed starting with current Treasury (for the U.S. pension plan) or Eurozone (for the Ireland pension plans) government yields and then adding corporate bond spreads and equity risk premiums to develop the return expectations for each asset class. The expected asset class returns are forward-looking. The variance and correlation assumptions are also forward-looking. They take into account historical relationships, but are adjusted to reflect expected capital market trends. The expected return on plan assets for the Company's U.S. pension plan for 2022 was 4.50%. The expected return on plan assets for the Company's Ireland pension plans was 2.75% for 2022.

The discount rate used to determine benefit obligations represents the current rate at which the benefit plan liabilities could be effectively settled considering the timing of expected payments for plan participants.

The 2023 2024 expected rate of return for the U.S. pension benefit plan will be 6.00%. The 2023 2024 expected rate of return for the Ireland pension benefit plans will be 4.25% 4.50%.

Pension Benefit Plan Assets

Pension benefit plan assets are invested in several asset categories. The following presents the actual asset allocation as of **December 31, 2022**, **December 31, 2023** and **2021, 2022**:

		2022	2021				
		2023		2023		2022

The investment strategy underlying pension plan asset allocation is to manage the assets of the plan to provide for the non-current liabilities while maintaining sufficient liquidity to pay current benefits. Pension plan assets are diversified to protect against large investment losses and to reduce the probability of excessive performance volatility. Diversification of assets is achieved by allocating funds to various asset classes and investment styles within asset classes, and retaining investment management firm(s) with complementary investment philosophies, styles and approaches.

The Company's pension plan assets are managed by outside investment managers using a total return investment approach, whereby a mix of equity and debt securities investments are used to maximize the long-term rate of return on plan assets. A significant portion of the assets of the U.S. and Ireland pension plans have been invested in equity securities, as equity portfolios have historically provided higher returns than debt and other asset classes over extended time horizons. Correspondingly, equity investments also entail greater risks than other investments. Equity risks are balanced by investing a significant portion of plan assets in broadly diversified fixed income securities.

Fair Value of Plan Assets

The Company measured the fair value of plan assets based on the prices that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5, "FAIR VALUE MEASUREMENTS" for details on the Company's fair value measurements based on a three-tier hierarchy.

The table below presents total plan assets by investment category as of **December 31, 2022**, **December 31, 2023** and **2021, 2022** and the classification of each investment category within the fair value hierarchy with respect to the inputs used to measure fair value. There were no transfers between Level 1 and Level 2 during **2022, 2023** and **2021, 2022**.

Cash equivalents consisted primarily of term deposits and money market instruments. The fair value of the term deposits approximates their carrying amounts due to their short term maturities. The money market instruments also have short maturities and are valued using a market approach based on the quoted market prices of identical instruments.

Commingled funds are not publicly traded. The underlying assets in these funds are publicly traded on the exchanges and have readily available price quotes. The Ireland pension plans held approximately 92% 93% and 95% 92% of the non-U.S. commingled funds in 2022 2023 and 2021, 2022, respectively. The commingled funds held by the U.S. and Ireland pension plans are primarily invested in index funds.

The underlying assets in the fixed income funds are generally valued using the net asset value per fund share, which is derived using a market approach with inputs that include broker quotes, benchmark yields, base spreads and reported trades.

Defined Contribution Plans

The Company sponsors defined contribution plans in the U.S., Ireland and certain other countries. Under these plans, employees are allowed to contribute a portion of their salaries to the plans and the Company matches a portion of the employee contributions. The Company contributed \$47 million \$49 million, \$44 million \$47 million and \$43 million \$44 million to these plans during the years ended December 31, 2022 December 31, 2023, 2022 and 2021, and 2020, respectively.

12. LEASES

Right-of-use assets and lease liabilities associated with the Company's operating leases are included in the Consolidated Balance Sheet Sheets as of December 31, 2022 December 31, 2023 and 2021 2022 as follows:

As of December 31, 2022 December 31, 2023, 2021 2022 and 2020 2021 the Company's finance leases were not material and for the years 2023, 2022 2021 and 2020 2021, sub-lease income and short-term lease expense were not material. In December 2023, the Company exercised an option to early terminate the lease period for an office building in Bridgewater, New Jersey. As a result, the Company recognized a net charge of \$12 million, representing adjustment to the lease liability to reduce it to the amount related to the remaining lease term, write-off of the right-of-use asset and a charge for a required termination payment.

13. SHARE-BASED COMPENSATION

Bausch Health's Long-Term Incentive Plan

In May 2014, shareholders approved Bausch Health's 2014 Omnibus Incentive Plan (the "2014 Plan"), which replaced the Company's Bausch Health's 2011 Omnibus Incentive Plan (the "2011 Plan") for future equity awards granted by the Company. The Company transferred the common shares available under the 2011 Plan to the 2014 Plan. The maximum number of common shares that may be issued to participants under the 2014 Plan was initially equal to 18,000,000 common shares, plus the number of common shares under the 2011 Plan reserved but unissued and not underlying outstanding awards and the

number of common shares becoming available for reuse after awards are terminated, forfeited, cancelled, exchanged or surrendered under the 2011 Plan and the Company's 2007 Equity Compensation Plan. The Company registered 20,000,000 common shares of common stock for issuance under the 2014 Plan. The 2014 Plan was amended and restated effective April 30, 2018, April 28, 2020 and June 21, 2022 to, among other things, increase the number of common shares authorized for issuance under the 2014 Plan.

Effective April 28, 2020, Bausch Health further amended and restated the Amended and Restated 2014 Plan (the "Further Amended and Restated 2014 Plan"). The Further Amended and Restated 2014 Plan includes the following amendments: (i) the number of common shares authorized for issuance under the Further Amended and Restated 2014 Plan has been increased by an additional 13,500,000 common shares, as approved by the requisite number of shareholders at the Company's annual general meeting held on April 28, 2020, (ii) the exercise price of stock options and share appreciation rights ("SARs") will be based on the closing price of the underlying common shares on the date such stock options or SARs are granted (rather than on the last preceding trading date), (iii) additional provisions clarifying that: (a) stock options and SARs will not be eligible for the payment of dividend or dividend equivalents and (b) the Talent and Compensation Committee of the Board of Directors of the Company cannot, without shareholder approval, seek to effect any repricing of any previously granted "underwater" stock option or SAR and (iv) other housekeeping and/or clerical changes.

Effective June 21, 2022 May 16, 2023, Bausch Health further amended and restated the 2014 Plan, as subsequently amended and restated (the "Amended and Restated 2014 Plan"). Such amendment and restatement increased the number of common shares authorized for issuance under the Amended and Restated 2014 Plan by an additional 11,500,000 7,500,000 common shares, among other things.

Approximately 18,226,000 18,664,000 common shares were available for future grants as of December 31, 2022 December 31, 2023. The Company uses reserved and unissued common shares to satisfy its obligation under its share-based compensation plans.

Bausch Health has a long-term incentive program with the objective of aligning the share-based awards granted to senior management with the Company's focus on improving its tangible capital usage and allocation, generating operating cash flow while maintaining focus on improving total shareholder return over the long-term. The share-based awards granted under this long-term incentive program consist of time-based stock options, time-based RSUs and performance-based RSUs. Performance-based RSUs are comprised of: (i) awards that vest upon achievement of certain share price appreciation conditions that are based on total shareholder return ("TSR"), (ii) awards that vest upon attainment of certain performance targets that are based on the Company's return on tangible capital ("ROTC"), (iii) awards that vest upon the attainment of certain targets that are based on the Company's adjusted operating cash flow ("Adjusted Operating Cash Flow") with a total shareholder return modifier and (iii) (iv) awards that vest fully or partially upon attainment of certain goals that are linked to the B+L Separation.

In order to retain and incentivize certain members of Bausch Health's senior leadership team, on September 5, 2022, the Talent and Compensation Committee of the Board of Directors approved a retention program for certain executive officers and other members of leadership. Under the retention program, certain executive officers and other members of leadership were granted a one-time award of restricted stock units (the "Retention RSU Grant") under the Amended and Restated 2014 Plan. The Retention RSU Grants will generally vest in 1/3 installments on each of the first three anniversaries of the grant date based on continuous employment with Bausch Health.

The following table summarizes the components and classification of the Company's share-based compensation expense related to stock options and RSUs for the years 2023, 2022 2021 and 2020 2021 were as follows:

Stock Options

Stock options granted under the 2011 Plan and the Amended and Restated 2014 Plan generally expire on tenth anniversary of the grant date. The exercise price of any stock option granted under the 2011 Plan and the Amended and Restated 2014 Plan will not be less than the closing price per common share on the date of grant. Stock options generally vest 33% and 25% each year over a three-year and four-year period, respectively, on the anniversary of the date of grant.

The fair values of all stock options granted for the years 2023, 2022, 2021 and 2020, 2021 were estimated as of the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions:

		2022	2021	2020			2023	2022	2021
		2023					2023	2022	2021
Expected stock option life (years)	Expected stock option life (years)	3.0	3.0	3.0	Expected stock option life (years)		3.0		
Expected volatility	Expected volatility	37.8 %	50.2 %	38.7 %	Expected volatility		76.1 %	37.8 %	50.2 %
Risk-free interest rate	Risk-free interest rate	1.8 %	0.4 %	1.2 %	Risk-free interest rate		4.8 %	1.8 %	0.4 %
Expected dividend yield	Expected dividend yield	— %	— %	— %	Expected dividend yield		— %	— %	— %

The expected stock option life was determined based on historical exercise and forfeiture patterns. The expected volatility was determined based on implied volatility in the market traded options of the Company's common stock. The risk-free interest rate was determined based on the rate at the time of grant for zero-coupon U.S. government bonds with maturity dates equal to the expected life of the stock option. The expected dividend yield was determined based on the stock option's exercise price and expected annual dividend rate at the time of grant.

The Black-Scholes option-pricing model used by the Company to calculate stock option values was developed to estimate the fair value of freely tradeable, fully transferable stock options without vesting restrictions, which significantly differ from the Company's stock option awards. This model also requires highly subjective assumptions, including future stock price volatility and expected time until exercise, which greatly affect the calculated values.

The following table summarizes stock option activity during 2022, 2023:

The weighted-average fair values of all stock options granted in 2023, 2022 and 2021 were \$4.87, \$6.60 and 2020 were \$6.60, \$10.92, and \$6.60, respectively. The total intrinsic values of stock options exercised in 2023, 2022 and 2021 were \$0, \$1 million and 2020 were \$1 million, \$15 million and \$2 million, respectively. Proceeds received on the exercise of stock options in 2023, 2022 and 2021 were \$0, \$3 million and 2020 were \$3 million, \$22 million and \$5 million, respectively.

As of December 31, 2022 December 31, 2023, the total remaining unrecognized compensation expense related to non-vested stock options amounted to \$14 million \$6 million, which will be amortized over the weighted-average remaining requisite service period of approximately 1.5 years. The total fair value of stock options vested in 2022, 2021 and 2020 were \$15 million, \$15 million and \$15 million, respectively.

RSUs

RSUs generally vest on the first or third anniversary date from the date of grant or 33% a year over a three-year period. Annual RSUs granted to non-management directors vest immediately prior to the next Annual Meeting of Shareholders. Pursuant to the applicable unit RSU agreement, certain RSUs may be subject to the attainment of any applicable performance goals specified by the Board of Directors. If the vesting of the RSUs is conditional upon the attainment of performance goals, any RSUs that do not vest as a result of a determination that the prescribed performance goals failed to be attained will be forfeited immediately upon such determination. RSUs are credited with dividend equivalents, in the form of additional RSUs, when dividends are paid on the Company's common shares. Such additional RSUs will have the same vesting dates and will vest under the same terms as the RSUs in respect of which such additional RSUs are credited.

To the extent provided for in a RSU agreement, the Company may, in lieu of all or a portion of the common shares which would otherwise be provided to a holder, elect to pay a cash amount equivalent to the market price of the Company's

common shares on the vesting date for each vested RSU. The amount of cash payment will be determined based on the average market price of the Company's common shares on the vesting date. The Company's current intent is to settle vested RSUs through the issuance of common shares.

Time-Based RSUs

Each vested time-based RSU represents the right of a holder to receive one of the Company's common shares. The fair value of each RSU granted is estimated based on the trading price of the Company's common shares on the date of grant.

The following table summarizes non-vested time-based RSU activity during 2022: 2023:

(in millions, except per share amounts)	(in millions, except per share amounts)	Weighted-Average Grant-Date	Weighted-Average Grant-Date
		Time-Based RSUs	Time-Based RSUs

As of ~~December 31, 2022~~ December 31, 2023, the total remaining unrecognized compensation expense related to non-vested time-based RSUs amounted to ~~\$94 million~~ \$41 million, which will be amortized over the weighted-average remaining requisite service period of approximately ~~1.7~~ 1.5 years. The total fair value of time-based RSUs vested in ~~2023, 2022 and 2021~~ were \$74 million, \$80 million and ~~2020~~ were \$80 million, \$69 million and \$66 million, respectively.

Performance-Based RSUs

Each vested performance-based RSU represents the right of a holder to receive a number of the Company's common shares up to a specified maximum. Performance-based RSUs vest upon ~~the attainment of certain performance targets and the~~ achievement of certain share price appreciation ~~conditions or attainment of certain performance targets.~~ conditions. If the Company's performance is below a specified performance level, no common shares will be paid.

The fair value of each ~~Adjusted Operating Cash Flow performance-based RSU and~~ TSR performance-based RSU granted during ~~2022, 2023 and 2021, and 2020~~ respectively, was estimated using a Monte Carlo Simulation model, which utilizes multiple input variables to estimate the probability that the performance condition will be achieved. ~~The fair value of~~ For the ROTC performance-based RSUs ~~is granted in 2022 and 2021, the fair value was~~ estimated based on the trading price of the Company's common shares on the date of grant. Expense recognized for the ~~ROTC~~ performance-based RSUs in each reporting period reflects the Company's latest estimate of the number of ~~ROTC~~ performance-based RSUs that are expected to vest. If the ~~ROTC~~ performance-based RSUs do not ultimately vest due to the ~~ROTC~~ targets not being met, no compensation expense is recognized and any previously recognized compensation expense is reversed.

There were no TSR performance-based RSUs granted in 2022. The fair values of TSR performance-based RSUs granted during ~~2021~~ 2023 and ~~2020~~ 2021 were estimated with the following assumptions:

		2022	2021	2020				
		2023						
					2023	2022	2021	
Contractual term (years)	Contractual term (years)	N/A	3.0	3.0	Contractual term (years)	3	N/A	3.0
Expected Company share volatility	Expected Company share volatility	N/A	52%	38.6%	Expected Company share volatility	76%	N/A	52%
Risk-free interest rate	Risk-free interest rate	N/A	0.4%	1.2%	Risk-free interest rate	5%	N/A	0.4%

The expected company share volatility was determined based on implied volatility in the market traded options of the Company's common stock. The risk-free interest rate was determined based on the rate at the time of grant for zero-coupon U.S. government bonds with maturity dates equal to the contractual term of the performance-based RSUs.

The following table summarizes non-vested performance-based RSU activity during ~~2022, 2023, 2024~~ 2023:

During 2022, the Company granted approximately 369,000 performance-based RSUs, consisting of ROTC performance-based RSUs with a weighted-average grant date fair value of \$9.40 per RSU.

	Performance-based RSUs	Weighted-Average Grant-Date Fair Value Per Share

Forfeited	(0.1)	\$ 16.24
Non-vested, December 31, 2023	0.7	\$ 10.57

As of December 31, 2022, the total remaining unrecognized compensation expense related to non-vested performance-based RSUs amounted to \$7 million, which will be amortized over the weighted-average remaining requisite service period of approximately 0.4 years. A maximum of approximately 1,104,000 common shares could be issued upon vesting of the performance-based RSUs outstanding as of December 31, 2022. The total fair value of performance-based RSUs vested in 2022 was \$31 million.

Bausch + Lomb Long-Term Incentive Plan

Prior to May 5, 2022, Bausch + Lomb participated in Bausch Health's long-term incentive program. Effective May 5, 2022, Bausch + Lomb established the Bausch + Lomb Corporation 2022 Omnibus Incentive Plan (the "B+L Plan"). A total Effective April 24, 2023, Bausch + Lomb's shareholders approved an amendment and restatement of the Plan to increase the number of shares authorized for issuance thereunder by an additional 10,000,000 common shares, resulting in an aggregate 38,000,000 common shares of Bausch + Lomb are authorized under the B+L Plan. The B+L Plan provides for the grant of various types of awards, including RSUs, restricted stock, stock appreciation rights, stock options, performance-based awards and cash awards. Under the B+L Plan,

the exercise price of awards, if any, is set on the grant date and may not be less than the fair market value per share on that date. Generally, stock options have a term of ten years and a three-year vesting period, subject to limited exceptions.

Share-based awards granted to senior management align with Bausch + Lomb's focus on enhancing its revenue growth while maintaining focus on total shareholder return over the long-term. The share-based awards granted under this long-term incentive program consist of time-based stock options, time-based RSUs and performance-based RSUs ("PSUs"). The PSUs are comprised of awards that vest upon: (i) achievement of certain share price appreciation conditions, including absolute and relative total shareholder return ("TSR") (the "TSR PSUs") and (ii) attainment of certain performance targets that are based on Bausch + Lomb's Organic Revenue Growth (the "Organic Revenue Growth PSUs"). If Bausch + Lomb's performance is below a specified performance level, no common shares will be paid. Each vested PSU represents the right of a holder to receive a number of Bausch + Lomb's common shares up to a specified maximum.

On May 5, 2022, in connection with the B+L IPO, Bausch + Lomb granted certain awards to certain eligible recipients (the "IPO Founder Grants"). Eligible recipients are individuals employed by Bausch + Lomb or employed by an affiliate of Bausch + Lomb. Approximately 3,900,000 IPO Founder Grants were issued to Bausch + Lomb executive officers and were awarded 50% in the form of stock options and 50% in the form of RSUs. Additionally, Bausch + Lomb granted approximately 5,700,000 stock options and RSUs to non-executive eligible recipients, of which approximately 4,300,000 were B+L IPO Founder Grants. The IPO Founder grants in the form of stock options have a three-year graded vesting period and the IPO Founder RSUs vest 50% in the second year and 50% in the third year after the grant. With the exception of the separation agreement and retention program, as discussed below, vesting of the IPO Founder Grants are linked to the completion of the B+L Separation and expense recognition will begin near the time of the B+L Separation.

On July 19, 2022, Bausch + Lomb entered into a separation agreement in connection with the departure of its Chief Executive Officer ("CEO"). Under the terms of the separation agreement, the CEO's IPO Founder Grants in the form of RSUs will vest upon his termination of service date (pro rated based on his period of service relative to the original three-year vesting period associated with such grants), but the shares received upon settlement will remain fully restricted and nontransferable until the earliest to occur of the distribution date, a change in control, the date the Board determines that Bausch Health will no longer pursue a distribution, and the two-year anniversary of the CEO's termination of service date (such applicable date, the "Unrestricted Date"). Under the terms of the separation agreement, the CEO's IPO Founder Grants in the form of stock options will vest and become exercisable (pro-

rated based on his period of service relative to the original three-year vesting period associated with such grants) upon the Unrestricted Date and will remain exercisable for two years following this date.

On December 22, 2022, Bausch + Lomb entered into an Amended and Restated Separation Agreement (the "A&R Separation Agreement") in connection with the departure of Bausch + Lomb's CEO. Under the A&R Separation Agreement, Bausch + Lomb's CEO agreed to continue serving as CEO until at least March 4, 2023 and lasting until such date as the Board determines in its discretion or his successor is appointed, but no later than June 30, 2023. On the CEO's termination date, in lieu of pro-rated vesting, partial vesting of a set number of the CEO's IPO Founder Grants, in the amount of: (a) 315,592 of the CEO's IPO Founder Grants in the form of restricted stock units will accelerate and vest, but the shares received upon settlement will still remain fully restricted and nontransferable until the Unrestricted Date and (b)

1,248,496 of the CEO's IPO Founder Grants in the form of stock options will remain eligible to vest upon the Unrestricted Date and remain exercisable for two years following the Unrestricted Date.

During the third quarter of 2022, the Talent and Compensation Committee of the Bausch + Lomb Board of Directors approved a retention program that includes Bausch + Lomb's named executive officers (other than the CEO) and certain other employees. This program provides these Executive Officers (other than the CEO), for among other benefits, pro-rata vesting of the IPO Founder Grants previously issued to these named executives, subject to certain restrictions, in the event of an involuntary termination of employment by Bausch + Lomb without "cause" or the executive's employee's resignation for "good reason", in each case within the one-year anniversary of Bausch + Lomb's appointment of the successor to the CEO (pro-rated based on the period of service relative to the original three-year vesting period associated with such grants). However, the IPO Founder Grants in the form of RSUs (while settled in connection with the termination of employment) will not be transferrable until, and the IPO Founder Grants in the form of stock options will not be exercisable until, the earliest to occur of: (i) the date the spinoff distribution is completed, (ii) a "change in control" (as defined in the applicable retention award letter), (iii) the date the Board of Directors of the Company determines that it will no longer pursue the spinoff distribution and (iv) the two-year anniversary of the executive's termination of employment and the IPO Founder Grants in the form of stock options will be exercisable for two years following the later of this date and the termination date. Additionally, these named executive officers (other than the CEO) and certain other employees were granted a one-time award of approximately 850,000 RSUs in the aggregate under the retention program pursuant to Bausch + Lomb's 2022 Omnibus Incentive Plan. The retention grant will generally vest in 1/3 installments on each of the first three anniversaries of the grant date based on continuous employment with Bausch + Lomb.

On February 15, 2023, Bausch + Lomb announced the appointment of Brent Saunders as its Chief Executive Officer and Chair of the Board of Directors of Bausch + Lomb, effective March 6, 2023. Pursuant to Mr. Saunders' employment agreement, on February 23, 2023, Mr. Saunders was granted the following equity grants under the B+L Plan: 750,000 PSUs, 1,318,681 stock options and 375,000 RSUs. The RSUs are scheduled to vest 50% on the second anniversary of the grant date and the remaining 50% on the third anniversary of the grant date. The stock options are scheduled to vest in equal one-third installments on each of the first three anniversaries of the grant date. The PSUs vest on the fourth anniversary of the grant date based on Bausch + Lomb's achievement of absolute share price hurdles, or upon achievement of absolute and relative TSR hurdles in relation to the S&P 500 Index during the four-year performance period.

Approximately 17,500,000 19,300,000 Bausch + Lomb common shares were available for future grants as of December 31, 2022 December 31, 2023 under the B+L Plan. Bausch + Lomb uses reserved and unissued common shares to satisfy its obligations under its share-based compensation plans.

Stock Options

Stock options granted under the B+L Plan generally expire on the tenth anniversary of the grant date. The exercise price of any stock option granted under the B+L Plan will not be less than the closing price per common share preceding the date of grant. Stock options generally vest 33% each year over a three-year period, on the anniversary of the date of grant.

The fair values of all stock options granted under the Bausch + Lomb Corporation 2022 Omnibus Incentive Plan for the year years 2023 and 2022 were estimated as of the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions:

	2022
Expected stock option life (years)	3.0
Expected volatility	31.5 %
Risk-free interest rate	3.1 %
Expected dividend yield	— %

	2023	2022
Expected stock option life (years)	3.0	3.0
Expected volatility	35.3 %	31.5 %
Risk-free interest rate	4.6 %	3.1 %
Expected dividend yield	— %	— %

The expected stock option life was determined based on historical exercise and forfeiture patterns associated with historical stock options granted to Bausch + Lomb employees under BHC's the Company's long-term incentive plan. The expected volatility was determined based on implied and historical volatility of Bausch + Lomb's selected peer companies. Bausch + Lomb will continue to leverage BHC's the Company's historical stock option experience and peer company data until it has sufficient experience with its own equity awards and market data. The risk-free interest rate was determined based on the rate at the time of grant for zero-coupon U.S. government bonds with maturity dates equal to the expected life of the stock option. The expected dividend yield was determined based on the stock option's exercise price and expected Bausch + Lomb annual dividend rate at the time of grant.

The Black-Scholes option-pricing model used by the Company to calculate stock option values was developed to estimate the fair value of freely tradable, fully transferable stock options without vesting restrictions, which significantly differ from Bausch + Lomb's stock option awards. This model also requires highly subjective assumptions, including future stock price volatility and expected time until exercise, which greatly affect the calculated values.

The following table summarizes stock option activity under Bausch + Lomb's Plan during 2022: 2023:

	(in millions, except per share amounts)	Options	Weighted-Average Exercise Price Per Share	Weighted-Average Remaining Contractual Term (Years)	Weighted-Average Aggregate Intrinsic Value		Options	Weighted-Average Exercise Price Per Share	Weighted-Average Remaining Contractual Term (Years)	Weighted-Average Aggregate Intrinsic Value

The weighted-average fair values of all stock options granted to Bausch + Lomb employees in 2023 and 2022 were \$3.84, \$5.33 and \$3.84, respectively. There were no stock options exercised in 2023 or 2022.

As of December 31, 2022 December 31, 2023, the total remaining unrecognized compensation expense related to non-vested stock options amounted to \$4\$12 million, which will be amortized over the weighted-average remaining requisite service period of approximately 0.72.2 years. Unrecognized compensation does not include IPO Founder Grants as they are linked to the completion of the Separation and expense recognition will begin near the time of the separation. There were no stock options that vested during 2022.

Time-Based RSUs

RSUs under the Bausch + Lomb Corporation 2022 Omnibus Incentive Plan generally vest 33% a year over a three-year period with the exception of IPO Founder RSUs and the RSUs granted to Mr. Saunders in connection with his appointment, which vest in two equal installments, such that 50% in vest on the second year anniversary and 50% in vest on the third year after anniversary of the grant. grant date. RSUs are credited with dividend equivalents, in the form of additional RSUs, when dividends are paid on the Bausch + Lomb's common shares. Such additional RSUs will have the same vesting dates and will vest under the same terms as the RSUs in respect of which such additional RSUs are credited.

To the extent provided for in a RSU agreement, Bausch + Lomb may, in lieu of all or a portion of the common shares which would otherwise be provided to a holder, elect to pay a cash amount equivalent to the market price of the Company's Bausch + Lomb's common shares on the vesting date for each vested RSU. The amount of cash payment will be determined based on

the average market price of the Company's Bausch + Lomb's common shares on the vesting date. The Company's Bausch + Lomb's current intent is to settle vested RSUs through the issuance of common shares.

Each vested RSU represents the right of a holder to receive one of the Company's Bausch + Lomb's common shares. The fair value of each RSU granted is estimated based on the trading price of the Company's Bausch + Lomb's common shares on the date of grant.

The following table summarizes non-vested time-based RSU activity under Bausch + Lomb's Plan during 2022: 2023:

(in millions, except per share amounts)		(in millions, except per share amounts)	Performance-based RSUs	Weighted-Average Grant-Date Fair Value Per Share	(in millions, except per share amounts)		Restricted Stock Units (RSUs)	Weighted-Average Grant-Date Fair Value Per Share

Non-vested, December 31, 2023		

As of **December 31, 2022** December 31, 2023, the total remaining unrecognized compensation expense related to non-vested **time-based** RSUs amounted to **\$41** \$46 million, which will be amortized over the weighted-average remaining requisite service period of approximately **1.5** 1.8 years. Unrecognized compensation does not include IPO Founder Grants as they are linked to the completion of the Separation and expense recognition will begin near the time of the separation. The total fair value of **time-based** RSUs vested in 2023 was \$27 million. The total fair value of RSUs vested in 2022 was not material.

Performance-Based RSUs

Each vested PSU represents the right of a holder to receive a number of Bausch + Lomb's common shares up to a specified maximum. The performance-based PSUs are comprised of awards that vest upon: (i) achievement of certain share price appreciation conditions, including absolute and relative total shareholder return and (ii) attainment of certain performance targets that are based on Bausch + Lomb's Organic Revenue Growth. If Bausch + Lomb's performance is below a specified performance level, no common shares will be paid. The maximum level of achievement of the performance goals is 200% of the target.

The fair value of each TSR PSU granted during 2023 was estimated using a Monte Carlo Simulation model, which utilizes multiple input variables to estimate the probability that the performance condition will be achieved. The fair value of the Organic Revenue Growth PSUs is estimated based on the trading price of Bausch + Lomb's common shares on the date of grant. Expense recognized for the Organic Revenue Growth PSUs in each reporting period reflects Bausch + Lomb's latest estimate of Organic Revenue Growth in determining the number of PSUs that are expected to vest. If the Organic Revenue Growth PSUs do not ultimately vest due to the Organic Revenue Growth targets not being met, no compensation expense is recognized and any previously recognized compensation expense is reversed.

There were no TSR PSUs granted in 2022 and 2021. The fair values of TSR PSUs granted during 2023 were estimated with the following assumptions:

	2023
Contractual term (years)	3.6
Expected volatility	35.4%
Risk-free interest rate	4.5%

The expected volatility was determined based on implied and historical volatility of Bausch + Lomb's selected peer companies. The risk-free interest rate was determined based on the rate at the time of grant for zero-coupon U.S. government bonds with maturity dates equal to the contractual term of the TSR PSU.

The following table summarizes the performance-based PSU activity during 2023:

	Performance-based RSUs	Weighted-Average Grant-Date Fair Value Per Share
(in millions, except per share amounts)		
Non-vested, January 1, 2023	—	\$ —
Granted	1.3	\$ 26.61
Vested	—	\$ —
Forfeited	(0.1)	\$ 24.96
Non-vested, December 31, 2023	1.2	\$ 26.82

During 2023, Bausch + Lomb granted approximately 1,300,000 performance-based RSUs, consisting of: (i) approximately 1,200,000 TSR PSUs with an average grant date fair value of \$27.65 per RSU and (ii) approximately 100,000 Organic Revenue Growth PSUs with a weighted-average grant date fair value of \$17.96 per RSU.

As of December 31, 2023, the total remaining unrecognized compensation expense related to non-vested performance-based RSUs amounted to \$26 million, which will be amortized over the weighted-average remaining requisite service period of approximately 2.8 years. A maximum of approximately 3,100,000 common shares could be issued upon vesting of the performance-based RSUs outstanding as of December 31, 2023. There were no performance-based RSUs that vested during 2023.

In addition, while Bausch + Lomb did not grant performance-based RSUs during 2022, certain Bausch + Lomb employees continued to participate in **BHC's** the Company's performance-based RSUs granted prior to May 5, 2022. As of **December 31, 2022** December 31, 2023, the total remaining unrecognized compensation expense related to **the Company's** non-vested performance-based RSUs **amounted to \$4 million, which will be amortized over the weighted-average remaining requisite service period of approximately 0.2 years. was \$0.**

The Company's U.S. interest expense is subject to limitation rules which limit U.S. interest expense to 30% of adjusted taxable income, defined similar to EBITDA through 2021 and EBIT thereafter. Disallowed interest can be carried forward indefinitely and any unused interest deduction assessed for recoverability. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was signed into law. The CARES Act also amended the annual limitation on the deduction of interest in the following respects: (i) increasing the limitation to 50% of adjusted taxable income ("ATI"), (ii) providing a rule for a partnership's 2019 section 163(j)-disallowed interest expense and (iii) allowing an election to apply 2019 ATI to the 2020 section 163(j) computation. For corporations, the increase to 50% of ATI applies to all taxable years beginning in 2019 or 2020 and permits taxpayers whose 2020 income will decrease from its 2019 level, an election to apply their 2019 ATI, rather than their 2020 ATI, to their 2020 computation. The Company considered such provisions and expects to fully utilize any interest carry forwards in future periods.

The Company has provided for income taxes in accordance with guidance issued by accounting regulatory bodies, the U.S. Internal Revenue Service and state and local governments through the date of the issuance of these Consolidated Financial Statements. Additional guidance and interpretations can be expected and such guidance, if any, could impact future results. While management continues to monitor these matters, the ultimate impact, if any, as a result of the application of any guidance issued in the future cannot be determined at this time.

The realization of deferred tax assets is dependent on the Company generating sufficient domestic and foreign taxable income in the years that the temporary differences become deductible. A valuation allowance has been provided for the portion of the deferred tax assets that the Company determined is more likely than not to remain unrealized based on estimated future taxable income and tax planning strategies. In 2023, the valuation allowance increased \$231 million primarily due to book taxable loss in Canada and an increase for state tax losses expected to be unusable in the United States. In 2022, the valuation allowance decreased \$199 million by \$199 million primarily due to book taxable income in Canada and the expiration of tax losses in the United States. In 2021, the valuation allowance decreased by \$30 million primarily due to book taxable income in Canada, the change in deferred tax assets in Canada and the use of deferred tax assets in the U.S. in connection with internal restructurings.

As of December 31, 2022, December 31, 2023 and 2021, 2022, the Company had accumulated taxable losses available to offset future years' federal and provincial taxable income in Canada of approximately \$5,878 million, \$6,579 million and \$6,669 million, \$5,878 million, respectively. As of December 31, 2022, December 31, 2023 and 2021, 2022, unclaimed ITCs available to offset future federal taxes in Canada were approximately \$27 million, \$28 million and \$31 million, \$27 million, respectively, which expire in the years 2023 through 2043. In addition, as of December 31, 2022, December 31, 2023 and 2021, 2022, pooled SR&ED expenditures available to offset against future taxable income in Canada were approximately \$188 million, \$192 million and \$196 million, \$188 million, respectively, which may be carried forward indefinitely. As of December 31, 2022 and 2021, December 31, 2023, a full valuation allowance against the net Canadian deferred tax assets on the parent company (BHCL) and the Bausch + Lomb parent company (B+L Corporate Canada) has been provided of \$1,869 million, \$2,045 million and \$1,965 million, as of December 31, 2022, respectively, on BHCL of \$1,869 million.

As of **December 31, 2022** **December 31, 2023** and **2021, 2022**, the Company had accumulated taxable losses available to offset future years' federal taxable income in the U.S. of approximately **\$241 million** **\$491 million** and **\$266 million** **\$241 million**, respectively, including acquired losses which expire in the years **2023 2024** through 2033. While the remaining taxable losses are subject to multiple annual loss limitations as a result of previous ownership changes, the Company believes that the recoverability of the deferred tax assets associated with these taxable losses are more likely than not to be realized. As of **December 31, 2022** **December 31, 2023** and **2021 2022** U.S. research and development credits available to offset future years' federal income taxes in the U.S. were approximately **\$75 million** **\$31 million** and **\$119 million** **\$75 million**, respectively, which includes acquired research and development credits and which expire in the years **2023 2024** through 2042.

As of **December 31, 2022** **December 31, 2023** and **2021, 2022**, the Company had accumulated taxable losses available to offset future years' taxable income in Ireland of approximately **\$10,691 million** **\$12,164 million** and **\$10,040 million** **\$10,691 million**, respectively. As of **December 31, 2022**, the Company continues to have a capital loss which is offset by a valuation allowance on the portion of the loss for which a benefit is not expected to be realized.

The Company provides for income taxes on the unremitted earnings of its direct foreign affiliates except for its direct U.S. subsidiaries. The Company continues to assert that the unremitted earnings of its U.S. subsidiaries will be permanently reinvested and not repatriated. As of **December 31, 2022** **December 31, 2023**, the Company estimates that there will be no tax liability

attributable to unremitted earnings of its U.S. subsidiaries. However, future distributions could be subject to U.S. withholding tax.

As of **December 31, 2022** **December 31, 2023** and **2021, 2022**, unrecognized tax benefits (including interest and penalties) were **\$881 million** **\$918 million** and **\$927 million** **\$881 million**, of which **\$384 million** **\$414 million** and **\$217 million** **\$384 million** would affect the effective income tax rate, respectively. In **2022 2023** and **2021, 2022**, the remaining unrecognized tax benefits would not impact the effective tax rate as the tax positions are offset against existing tax attributes or are timing in nature. In **2022 2023** and **2021, 2022**, the Company recognized net increases to unrecognized tax benefits for current year tax positions of **\$156 million** **\$6 million** and **\$79 million** **\$156 million**, respectively. The Company recognized a net **reduction** **increase**

of **\$203 million** **\$31 million** during **2022 2023** and a net reduction of **\$177 million** **\$203 million** during **2021 2022** in the unrecognized tax benefits related to tax positions taken in the prior years.

The Company provides for interest and penalties related to unrecognized tax benefits in the provision for income taxes. As of **December 31, 2022** **December 31, 2023** and **2021, 2022**, accrued interest and penalties related to unrecognized tax benefits were approximately **\$32 million** **\$51 million** and **\$41 million** **\$32 million**, respectively. In **2022, 2023**, the Company recognized a net **increase** of approximately **\$19 million** and, in **2022**, recognized a decrease of **approximately** **\$9 million** and, in **2021**, recognized an **increase** of **\$8 million** of interest and penalties, respectively.

The Company and one or more of its subsidiaries file federal income tax returns in Canada, the U.S., and other foreign jurisdictions, as well as various provinces and states in Canada and the U.S. The Company and its subsidiaries have open tax years, primarily from **2013 2012** to **2021, 2023**, with significant taxing jurisdictions, respectively, including Canada and the U.S. These open years contain certain matters that could be subject to differing interpretations of applicable tax laws and regulations and tax treaties, as they relate to the amount, timing, or inclusion of revenues and expenses, or the sustainability of income tax positions of the Company and its subsidiaries. Certain of these tax years are expected to remain open indefinitely.

The Internal Revenue Service (the "IRS") completed its examinations of the Company's U.S. consolidated federal income tax returns for the years 2013 and 2014. There were no material adjustments to the Company's taxable income as a result of these examinations. However, the 2014 tax year remains open to the extent of a 2017 capital loss carried back to that year. The Company's annual tax filings for 2015 and 2016 and short period tax return for the period ended September 8, 2017, which was filed as a result of the Company's internal restructuring efforts during 2017 is currently under IRS examination. As part of its examination, the Company received a notice of proposed adjustment from the IRS that would disallow the 2017 Capital Loss resulting from its internal restructuring. The Company has contested this proposed tax deficiency through the IRS administrative appeals process, and if necessary, will continue to contest any proposed tax deficiency through appropriate litigation. Accordingly, no income tax provision has been recorded as of **December 31, 2022** **December 31, 2023**. If the Company were ultimately unsuccessful in defending its position, and all or a substantial portion of the 2017 capital loss deduction were disallowed, the Company estimates, in a worst-case scenario, that it could be liable for additional income taxes

(excluding penalties and interest) of up to \$2,100 million, which could have an adverse effect on the Company's financial condition and results of operations.

In January 2023, as part of an alternative dispute resolution process with the IRS, the Company has reached a tentative settlement on the 2017 Capital Loss. This tentative settlement is subject to further review and approvals before it is finalized. The Company expects that the tentative settlement, if finalized without further modification, will affect the Company's 2023 2024 income tax provision, and while such settlement may be material to the Company's results of operations or cash flows in the quarter in which it is recorded, will not be material to its results of operations or cash flows for the year ended December 31, 2023 December 31, 2024.

The Company is currently under examination by the Canada Revenue Agency ("CRA") for three five separate cycles: (a) years 2012 through 2013 (b) years 2014 through 2015, and (c) years 2016 through 2017. The Company believes that the CRA will open an audit cycle for the 2017, (d) years 2018 through 2019 in 2023. The Company settled the tax and (e) years from 2005 2020 through 2009 with the CRA. The Company had previously filed a Notice of Objection related to the assessment of these years and

reduced net operating losses with a full valuation allowance by CAD 44 million to close these years. The adjustment did not result in a material change to the provision for income taxes. The CRA audits of the 2010 and 2011 tax years were closed in 2016 and resulted in no material adjustments. 2021. The Company received an assessment for certain transfer pricing matters in 2012 and 2013 for CAD 85 million and CAD 90 million, respectively. The Company disagrees with the adjustments and has filed a Notice of Objection for 2012 and 2013. The Company settled certain transfer pricing matters relating the 2015 and 2016 tax years resulting in a reduction to its NOLs of approximately CAD 21 million for 2015 and CAD 23 million for 2016. The adjustments for 2015 and 2016 will reduce NOLs currently offset by a full valuation allowance. In December 2023, the Company settled certain transfer pricing matters related to 2017 and 2018 tax years resulting in a reduction of NOLs of approximately CAD 26 million for 2017 and CAD 15 million for 2018.

The Company's subsidiaries in Germany are under audit for tax years 2014 through 2016. At this time, the Company does not expect that proposed adjustments, if any, would be material to the Company's Consolidated Financial Statements. In

January 2023, the German tax authorities opened an audit of the Company's subsidiaries in Germany for tax years 2017 through 2019.

On November 8, 2022, the Company's affiliate in Netherlands received an assessment from the Luxembourg Tax Authorities as successor in interest to its affiliate in Luxembourg for tax years 2018 – 2019 for €271.7 million. The Company is vigorously defending its position and no reserves have been recorded.

The Company's subsidiaries in Australia were under audit by the Australian Tax Office for various years beginning in 2010. On August 8, 2017, the Australian Taxation Office ("ATO") issued a notice of assessment for the tax years 2011 through 2017 in the aggregate amount of \$117 million, which includes penalties and interest. On April 13, 2022, the Company and the ATO entered into a settlement agreement resulting in an immaterial income tax provision.

The Company's U.S. affiliates remain under examination for various state tax audits in the U.S. for years 2015 through 2021, 2022.

Certain affiliates of the Company in regions outside of Canada, the U.S., Germany, Luxembourg and Australia are currently under examination by relevant taxing authorities, and all necessary accruals have been recorded, including uncertain tax benefits. At this time, the Company does not expect that proposed adjustments, if any, would be material to the Company's Consolidated Financial Statements.

The following table presents a reconciliation of the unrecognized tax benefits for 2022, 2021 and 2020: benefits:

(in millions)	(in millions)	2022	2021	2020	(in millions)	2023	2022	2021

The Company believes it is reasonably possible that the total amount of unrecognized tax benefits at **December 31, 2022** **December 31, 2023** could decrease by approximately **\$4 million** **\$30 million** in the next twelve months as a result of the resolution of certain tax and transfer pricing audits and other events.

Basic and diluted loss per share attributable to Bausch Health Companies Inc.								
Basic and diluted loss per share attributable to Bausch Health Companies Inc.								

In 2023, 2022, 2021 and 2020, 2021, all potential common shares issuable for stock options and RSUs were excluded from the calculation of diluted loss per share, as the effect of including them would have been anti-dilutive. The dilutive effect of potential common shares issuable for stock options and RSUs on the weighted-average number of common shares outstanding would have been approximately 2,719,000, 1,851,000, 4,932,000 and 3,154,000, 4,932,000 common shares for 2023, 2022, 2021 and 2020, 2021, respectively.

Additionally, in 2023, 2022, 2021 and 2020, 2021, stock options, time-based RSUs and performance-based RSUs to purchase approximately 14,461,000, 14,396,000, 3,428,000 and 9,551,000, 3,428,000 common shares of the Company, respectively, were not included in the computation of diluted earnings per share because the effect would have been anti-dilutive under the treasury stock method. During 2022 and 2021, an additional 156,000 performance-based RSUs were not included in the computation of diluted earnings per share as the required performance conditions had not been met.

19. SUPPLEMENTAL CASH FLOW DISCLOSURES

Supplemental cash flow disclosures for 2023, 2022, 2021 and 2020, 2021 are as follows:

20. LEGAL PROCEEDINGS

From time to time, the Company becomes involved in various legal and administrative proceedings, which include product liability, intellectual property, commercial, tax, antitrust, governmental and regulatory investigations, related private litigation and ordinary course employment-related issues. From time to time, the Company also initiates actions or files counterclaims. The Company could be subject to counterclaims or other suits in response to actions it may initiate. The Company believes that the prosecution of these actions and counterclaims is important to preserve and protect the Company, its reputation and its assets. Certain of these proceedings and actions are described below. Going forward, in the Company's subsequent Quarterly Reports on Form 10-Q, the Company will only include a description of these matters to the extent there has been a material update with respect thereto during the applicable quarter or to the extent otherwise required by law.

On a quarterly basis, the Company evaluates developments in legal proceedings, potential settlements and other matters that could increase or decrease the amount of the liability accrued. As of December 31, 2022, December 31, 2023, the Company's Consolidated Balance Sheets includes accrued current loss contingencies of \$326 million, \$344 million related to matters which are both probable and reasonably estimable. For all other matters, unless otherwise indicated, the Company cannot reasonably predict the outcome of these legal proceedings, nor can it estimate the amount of loss, or range of loss, if any, that may result from these proceedings. An adverse outcome in certain of these proceedings could have a material adverse effect on the Company's business, financial condition and results of operations, and could cause the market value of its common shares and/or debt securities to decline.

Governmental and Regulatory Inquiries

Investigation by the U.S. Attorney's Office for the District of Massachusetts - re OraPharma

In August 2019, the Company received a subpoena from the U.S. Attorney's Office for the District of Massachusetts (Department of Justice), requesting materials including documents concerning the sales, marketing, coverage and reimbursement of Arestin®, including related support services, and other matters. In February 2023, the Company's subsidiary OraPharma, Inc. entered into a civil settlement agreement with the Department of Justice fully resolving this investigation. Under the terms of the settlement, OraPharma, Inc. has paid a settlement payment of \$100,000, plus payment of additional immaterial amounts in applicable interest and other related costs, to resolve the civil False Claims Act ("FCA") investigation. A related complaint brought by a former OraPharma employee pursuant to the FCA and certain state statutes will be dismissed.

Investigation by the U.S. Attorney's Office for the Northern District of Iowa – re OrthoDerm

The Company received a Civil Investigative Demand in May 2021 from the Civil Division of the United States Department of Justice and the United States Attorney's Office for the Northern District of Iowa, requesting documents and other information concerning the sales and marketing of Bryhali®, Duobrii®, Jublia®, and Siliq®. The Company is cooperating with this

investigation. The Company cannot predict the outcome or the duration of this investigation or any other legal proceedings or any enforcement actions or other remedies that may be imposed on the Company arising out of this investigation.

Securities and RICO Class Actions and Related Matters

U.S. Securities Litigation - Opt-Out Litigation

On December 16, 2019, the Company announced that it had agreed to settle, subject to final court approval, the consolidated securities class action filed in the U.S. District Court for the District of New Jersey (In re Valeant Pharmaceuticals International, Inc. Securities Litigation, Case No. 15-cv-07658) (the "Securities Class Action Settlement"). As part of the settlement, the Company and the other settling defendants admitted no liability as to the claims against them and denied all allegations of wrongdoing. On January 31, 2021, the District Court issued an order granting final approval of this settlement. On February 4, 2021, Timber Hill LLC ("Timber Hill") filed a notice of appeal. After various appeals, and with passage of appeal of the Court's final approval order, which overruled its objections to the allocation of settlement proceeds as between common stock and options. On March 1, 2021, Cathy Lochridge filed a notice of appeal of the Court's final approval order, which overruled her objections as to the attorneys' fees awarded to class counsel. On October 14, 2021, Timber Hill dismissed its appeal of the final approval order. On December 20, 2021, the Third Circuit denied Lochridge's appeal. On January 3, 2022, Lochridge filed a petition for rehearing of the appeal en banc. On May 12, 2022, the Third Circuit denied Lochridge's petition for rehearing en banc. The deadline for Lochridge to file a petition for a writ of certiorari with the U.S. Supreme Court was August 10, 2022 and no petition was filed. As such, the deadline for further appeals has passed and the time, this settlement has become final pursuant to the stipulation of settlement. The matter is now concluded with respect to the Company and all claims have been resolved and discharged as to the Company and its current/former officers and directors.

In October 2015, four putative securities class actions were filed in the U.S. District Court for the District of New Jersey against the Company and certain current or former officers and directors. The allegations related to, among other things, allegedly false and misleading statements and/or failures to disclose information about the Company's business and prospects, including relating to drug pricing, the Company's use of specialty pharmacies, and the Company's relationship with Philidor Rx Services, LLC ("Philidor"). On May 31, 2016, the court entered an order consolidating the four actions under the caption In re Valeant Pharmaceuticals International, Inc. Securities Litigation, Case No. 15-cv-07658. On December 16, 2019, the Company, the current or former officers and directors, ValueAct, and the underwriters announced that they agreed to resolve the securities action for \$1,210 million, subject to final court approval. This settlement received final approval from the court on January 31, 2021 and resolved and discharged all claims against the Company in the class action. As part of the settlement, the Company and the other settling defendants admitted no liability as to the claims against it and deny all allegations of wrongdoing. The settlement was subject to appeal of the final court approval (as such appeal is further described above). In order to qualify for a settlement payment all persons and entities that purchased or otherwise acquired the Company securities during the class period must have submitted a proof of claim and release form by May 6, 2020. The settlement payments were paid into an escrow account in accordance with the payment schedule outlined in the settlement agreement. During 2022, the Company's rights to the funds previously paid into the escrow account have been extinguished in accordance with the settlement agreement.

On June 6, 2018, a putative class action was filed in the U.S. District Court for the District of New Jersey against the Company and certain current or former officers and directors. This action, captioned Timber Hill LLC, v. Valeant Pharmaceuticals International, Inc., et al., (Case No. 18-cv-10246), asserts securities fraud claims under Sections 10(b) and 20(a) of the Exchange Act on behalf of a putative class of persons who purchased call options or sold put options on the Company's common stock during the period January 4, 2013 through August 11, 2016. On June 11, 2018, this action was consolidated with In re Valeant Pharmaceuticals International, Inc. Securities Litigation, (Case No. 15-cv-07658). On January 14, 2019, the defendants filed a motion to dismiss the Timber Hill complaint. Briefing on that motion was completed on February 13, 2019. On August 15, 2019, the Court denied the motion to dismiss the Timber Hill action, holding that this complaint was a legal nullity as a result of the June 11, 2018 consolidation order.

In addition to the consolidated putative class action, thirty-seven groups of individual investors in the Company's stock and debt securities have chosen to opt out of the consolidated putative class action and filed securities actions in the U.S. District Court for the District of New Jersey against the Company and certain current or former officers and directors. These actions are captioned: T. Rowe Price Growth Stock Fund, Inc. v. Valeant Pharmaceuticals International, Inc. (Case No. 16-cv-5034) ("T. Rowe."); Equity Trustees Limited as Responsible Entity for T. Rowe Price Global Equity Fund v. Valeant Pharmaceuticals International Inc. (Case No. 20-cv-05478); USAA Mutual Funds Trust, et al. v. Valeant Pharmaceuticals International, Inc., et al., (Case No. 20-cv-07462); and GIC Private Ltd. v. Valeant Pharmaceuticals International, Inc., (Case No. 20-cv-07460). Sixteen of the thirty-seven opt-out actions have been dismissed; and the total number of remaining opt-out actions pending in the District of New Jersey is twenty-one actions.

These individual shareholder actions assert claims under Sections 10(b) and 20(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Certain of these individual actions assert additional claims, including claims under Section 18 of the Exchange Act, Sections 11, 12(a)(2) and 15 of the Securities Act, common law fraud, negligent misrepresentation and claims under the New Jersey Racketeer Influenced and Corrupt Organizations Act. These claims are based on alleged purchases of Company stock, options, and/or debt at various times between January 3, 2013 and August 10, 2016. The allegations in the complaints are similar to those made by plaintiffs in the putative class action. Motions to dismiss were filed in many of these individual actions and the Court has dismissed state law claims including New Jersey Racketeer Influenced and Corrupt Organizations Act, common law fraud and negligent misrepresentation claims in certain cases. On January 7, 2019, the Court entered a stipulation of voluntary dismissal in the Senzar opt-out action, closing the case. On September 10, 2019, the Court granted defendants' motion to dismiss all claims in the Aly opt-out action. On October 9, 2019, the Aly Plaintiffs filed a notice of appeal to the United States Court of Appeals for the Third Circuit. On June 16, 2021, the Court of Appeals granted plaintiffs' appeal in the Aly action. This action has been remanded to the District Court. On June 19, 2020, the Court entered stipulations of voluntary dismissal in the Catalyst, Mississippi, Connecticut and Delaware actions. On July 13, 2020, the Court entered a stipulation of voluntary dismissal in the NYCERS action. On December 30, 2020, the Court entered a stipulation of voluntary dismissal in the BlueMountain action. On February 18, 2021, and March 10, 2021, the Court entered stipulations of voluntary dismissal in the T. Rowe, BloombergSen, Principal Funds, Pentwater, Lord Abbett, Equity Trustees and UC Regents actions. On April 30, 2021, the Court entered a stipulation of voluntary dismissal in the Florida SBA action. On July 20, 2021, the Court entered a stipulation of voluntary dismissal in the Janus action.

Discovery in the opt-out actions has concluded. Motions for summary judgment were filed on August 1, 2022. On May 22, 2023, the Special Master overseeing the opt-out litigation issued reports and recommendations on all pending summary judgment motions. The Special Master recommended denying Plaintiffs' motions in their entirety, denying all motions filed by the Company and granting in part certain other defendants' motions for summary judgment on subparts of their defenses. On June 26, 2023, the Parties filed motions to adopt and objections to the Special Master's May 22, 2023 reports and recommendations. On January 2, 2024, the District Court issued decisions affirming in part and overruling in part the

Special Master's recommendations and granting partial summary judgment in favor of defendants on additional subparts of their defenses. On January 16, 2024, Plaintiffs filed a motion requesting that the Court reconsider a portion of its January 2, 2024 decisions. No defendants have been fully dismissed from the opt-out actions as a result of the District Court's decisions. Trial dates have not been set in any of the opt-out actions.

The Company disputes the claims against it in the remaining individual opt-out complaints and intends to defend itself vigorously.

U.S. Securities Litigation – Kelk Complaint

On July 26, 2023, a purported class action complaint captioned Kelk v. Bausch Health Companies Inc., et al. (No. 23-cv-03996), was filed in the U.S. District Court for the District of New Jersey against the Company and certain of its current or former officers. The action alleges claims under Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and Rule 10b-5 promulgated thereunder. Plaintiffs allege that defendants made various misrepresentations and omissions regarding the Company's proposed spin-off of Bausch + Lomb, and allege that those purported misrepresentations and omissions concealed that the spin-off was executed as part of a strategy to subvert the pending opt-out lawsuits and leave plaintiffs in those actions without viable means to a potential recovery. An amended complaint was filed on January 19, 2024. The amended complaint also alleges that defendants

made various misrepresentations and omissions regarding the strength of the Company's patents protecting its product, Xifaxan®, from generic competitors. Pursuant to the operative scheduling order, defendants will move to dismiss the amended complaint by March 20, 2024.

The Company disputes the claims against it and intends to defend itself vigorously.

Derivative Lawsuit – Powers Complaint

On October 2, 2023, a derivative lawsuit captioned Powers v. Papa, et al. (Index No. 159699/2023) was filed in the Supreme Court of the State of New York, County of New York by an alleged stockholder of the Company. The action purports to assert derivative claims on behalf of the Company against the Company's Board of Directors and certain of its current or former officers and directors. The action asserts claims for, inter alia, breach of fiduciary duty and waste of corporate assets and alleges that the defendants breached their fiduciary duties of loyalty and good faith by causing the Company to issue false and/or misleading statements regarding the Company's proposed spin-off of Bausch + Lomb. On January 23, 2024, the Court entered a stipulation and order staying this action until the resolution of the forthcoming motion to dismiss in the Kelk action referenced above.

Canadian Securities Litigation

In 2015, six putative class actions were filed and served against the Company and certain current or former officers and directors in Canada in the provinces of British Columbia, Ontario and Quebec. These actions are captioned: (a) Alladina v.

Valeant, et al. (Case No. S-1594B6) (Supreme Court of British Columbia) (filed November 17, 2015); (b) Kowalyshyn v. Valeant, et al. (CV-15-540593-00CP) (Ontario Superior Court) (filed November 16, 2015); (c) Kowalyshyn et al. v. Valeant, et al. (CV-15-541082-00CP) (Ontario Superior Court) (filed November 23, 2015); (d) O'Brien v. Valeant et al. (CV-15-543678-00CP) (Ontario Superior Court) (filed December 30, 2015); (e) Catucci v. Valeant, et al. (Court File No. 540-17-011743159, then Court File No. 500-06-000783-163) (Quebec Superior Court) (filed October 26, 2015) and (f) Rousseau-Godbout v. Valeant, et al. (Court File No. 500-06-000770-152) (Quebec Superior Court) (filed October 27, 2015). The Company is also aware of two additional putative class actions that were filed with the applicable court but which have not been served on the Company and the factual allegations made in these actions are substantially similar to those outlined herein. These actions are captioned: (i) Okeley v. Valeant, et al. (Case No. S-159991) (Supreme Court of British Columbia) (filed December 2, 2015) and (ii) Sukenaga v Valeant et al. (CV-15-540567-00CP) (Ontario Superior Court) (filed November 16, 2015).

The actions generally allege violations of Canadian provincial securities legislation on behalf of putative classes of persons who purchased or otherwise acquired securities of the Company for periods commencing as early as January 1, 2013 and ending as late as November 16, 2015. The alleged violations relate to the same matters described in the U.S. Securities Litigation description above.

Each of these putative class actions, other than the Catucci action in the Quebec Superior Court, was discontinued. In the Catucci action, on August 29, 2017, the judge granted the plaintiffs leave to proceed with their claims under the Quebec Securities Act and authorized the class proceeding. On October 26, 2017, the plaintiffs issued their Judicial Application Originating Class Proceedings.

After a hearing on November 11, 2019, the court approved a settlement in the Catucci action between the class members and the Company's auditors and the action was dismissed as against them, the Company's auditors.

On August 4, 2020, the Company entered into a settlement agreement with the plaintiffs in Catucci, on behalf of the class, pursuant to which it agreed to resolve the Catucci action for the amount of CAD 94,000,000 plus payment of an additional amount to cover notice and settlement administration costs and disbursements. As part of the settlement, the Company and the other defendants admitted no liability as to the claims against it and deny all allegations of wrongdoing. Court approval of the settlement was granted after a hearing on November 16, 2020. The Catucci action has now been dismissed against the Company, its current and former directors and officers, its underwriters and its insurers.

In addition to the class proceedings described above, on April 12, 2018, the Company was served with an application for leave filed in the Quebec Superior Court of Justice to pursue an action under the Quebec Securities Act against the Company and certain current or former officers and directors. This proceeding is captioned BlackRock Asset Management Canada Limited et al. v. Valeant, et al. (Court File No. 500-11-054155-185). The allegations in the proceeding are similar to those made by plaintiffs in the Catucci class action. On June 18, 2018, the same BlackRock entities filed an originating application (Court File No. 500-17-103749-183) against the same defendants asserting claims under the Quebec Civil Code in respect of the same alleged misrepresentations.

The Company is aware that certain other members of the Catucci class exercised their opt-out rights prior to the June 19, 2018 deadline. On February 15, 2019, one of the entities which exercised its opt-out rights, the California State Teachers' Retirement System ("CalSTRS"), served the Company with an application in the Quebec Superior Court of Justice for leave to pursue an action under the Quebec Securities Act against the Company, certain current or former officers and directors of the Company and its auditor. That proceeding is captioned California State Teachers' Retirement System v. Bausch Health Companies Inc. et al. (Court File No. 500-11-055722-181). The allegations in the proceeding are similar to those made by the plaintiffs in the Catucci

class action and in the BlackRock opt-out proceedings. On that same date, CalSTRS also served the Company with proceedings (Court File No. 500-17-106044-186) against the same defendants asserting claims under the Quebec Civil Code in respect of the same alleged misrepresentations.

On February 3, 2020, the Quebec Superior Court granted the applications of CalSTRS and BlackRock for leave to pursue their respective actions asserting claims under the Quebec Securities Act. On June 16, 2020, the Quebec Court of Appeal granted the defendants leave to appeal that decision. The appeal was heard on September 29, 2021 and, by judgment dated October 29, 2021, the appeals were dismissed.

On October 8 and 9, 2020, respectively, CalSTRS amended its proceedings to, among other things, include a new alleged misrepresentation concerning the accounting treatment of "price appreciation credits" in respect of Glumetza® during the period covered by the claims. A hearing was held on February 17, 2021 with respect to whether CalSTRS would be permitted to file the proposed amended proceedings. On June 9, 2021, the Quebec Superior Court granted the Company's application to strike the new allegations from its Quebec Securities Act claim, but permitted the amendments to its claim under the Quebec Civil Code. On December 8, 2021, CalSTRS delivered its amended pleadings.

On March 17, 2021, four additional opt-outs from the Catucci class issued a Statement of Claim in the Ontario Superior Court of Justice. That proceeding is captioned The Bank of Korea et al. v. Valeant Pharmaceuticals International Inc. et al. (Court File No. 21-006589666-0000). In addition, these plaintiffs also served and filed a motion for leave to pursue claims under the Ontario Securities Act. The allegations in this proceeding are similar to those made by the plaintiffs in the Catucci class action and the plaintiffs in the opt-out actions described above.

The Company believes that it has viable defenses in each of these actions. In each case, the Company intends to defend itself vigorously.

Other Securities and RICO Class Actions Related Matters

Between May 27, 2016 and September 16, 2016, three actions were filed in the U.S. District Court for the District of New Jersey against the Company and various third-parties (these actions were subsequently consolidated), alleging claims under the federal Racketeer Influenced Corrupt Organizations Act ("RICO") on behalf of a putative class of certain third-party payors that paid claims submitted by Philidor for certain Company-branded drugs between January 2, 2013 and November 9, 2015. The consolidated complaint alleges, among other things, that the defendants committed predicate acts of mail and wire fraud by submitting or causing to be submitted prescription reimbursement requests that misstated or omitted facts regarding: (1) the identity and licensing status of the dispensing pharmacy; (2) the resubmission of previously denied claims; (3) patient co-pay waivers; (4) the availability of generic alternatives; and (5) the insured's consent to renew the prescription. The complaint further alleges that these acts constitute a pattern of racketeering or a racketeering conspiracy in violation of the RICO statute and caused plaintiffs and the putative class unspecified damages, which may be trebled under the RICO statute. On August 4, 2021, the Company executed a stipulation of settlement for this action and, on August 17, 2021, the Court preliminarily approved the settlement. On December 6, 2021 the Special Master overseeing this litigation issued a report and recommendation recommending final approval of the settlement, and on February 22, 2022 the settlement was approved by the district court. The time to appeal the district court's final approval order expired on March 24, 2022, and the settlement has resolved and discharged all claims against the Company in this action.

Insurance Coverage Lawsuit

On December 7, 2017, the Company filed a lawsuit against its insurance companies that issued insurance policies covering claims made against the Company, its subsidiaries, and its directors and officers during two distinct policy periods, (i) 2013-14 and (ii) 2015-16. The lawsuit is currently pending was brought in the United States District Court for the District of New Jersey (Valeant Pharmaceuticals International, Inc., et al. v. AIG Insurance Company of Canada, et al.; Case No. 3:18-CV-00493). In the lawsuit, the Company seeks coverage for: (i) the costs of defending and resolving claims brought by former shareholders and debtholders of Allergan, Inc. in *In re Allergan, Inc. Proxy Violation Securities Litigation* and *Timber Hill LLC*, individually and on behalf of all others similarly situated v. *Pershing Square Capital Management, L.P.*, et al. (the "Allergan Securities Litigation") (under the 2013-2014 coverage period) and (ii) costs incurred and to be incurred in connection with, *inter alia*, *In re Valeant Pharmaceutical International, Inc. Securities Litigation*, the securities class actions *Securities Class Action Settlement*, the U.S. Securities Litigation – Opt-Out Litigation, and opt-out cases the Canadian Securities Litigation described in this section and the SEC Investigation and certain of the other investigations described under "Complete or Inactive (collectively, "the Securities Matters" in Note 20, "LEGAL PROCEEDINGS," to the Company's Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2020, filed with the SEC and the CSA on February 24, 2021 and under "Governmental and Regulatory Inquiries" and "Complete or Inactive Matters" in Note 21, "LEGAL PROCEEDINGS," to the Company's Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2019, filed with the SEC and the CSA on February 19, 2020) (under the 2015-2016 coverage period).

On July 20, 2021, the Company entered into settlement agreements with the insurers in the 2015-2016 coverage period in which the Company agreed to resolve its claims for insurance coverage in connection with the U.S. Securities Litigation Matters, and with two insurers in the Canadian 2013-2014

coverage period to resolve its claims against those two insurers for insurance coverage in connection with the Allergan Securities Litigation and related opt-out litigation and related investigations matters described above. On that same day, Litigation. As of June 30, 2023, the Company has entered into settlement agreements with two of its the remaining insurers in the 2013-2014 coverage period in which the Company agreed to resolve its remaining claims against those two insurers only for insurance coverage in connection with the Allergan Securities Litigation. As a result of all of the settlement agreements entered into with the insurers on July 20, 2021 through June 30, 2023, the Company has received an aggregate sum of \$213 million. The Company's insurance \$313 million for its claims with respect to the Allergan Securities Litigation against the remaining insurers in the 2013-2014 and 2015-2016 coverage period remain pending. periods. This matter has now concluded.

Hound Partners Lawsuit

In October 2018, Hound Partners Offshore Fund, LP, Hound Partners Long Master, LP and Hound Partners Concentrated Master, LP, filed a lawsuit against the Company in the Superior Court of New Jersey Law Division/Mercer County that asserts claims for common law fraud, negligent misrepresentation, and violations of the New Jersey Racketeer Influenced and Corrupt Organizations Act. The Company disputes the claims and intends to vigorously defend this matter.

Antitrust

Glumetza Antitrust Litigation

Between August 2019 and July 2020, eight (8) putative antitrust class actions and four (4) non-class complaints naming the Company, Salix Pharmaceuticals, Ltd., Salix Pharmaceuticals, Inc. and Santarus, Inc. (for purposes of this subsection, collectively, the "Company"), among other defendants, were filed or transferred to the Northern District of California. Three (3) of the class actions were filed by plaintiffs seeking to represent a class of direct purchasers. The purported classes of direct purchasers filed a consolidated first amended complaint and a motion for class certification in April 2020. The court certified a direct purchaser class in August 2020. The putative class action complaints filed by end payer purchasers have all been voluntarily dismissed. Three (3) of the non-class complaints were filed by direct purchasers. The fourth non-class complaint, asserting claims based on both direct and indirect purchases, was filed by an insurer plaintiff in July 2020 and subsequently amended in September 2020. In December 2020, the court denied the Company's motion to dismiss as to the insurer plaintiff's direct claims but dismissed the insurer plaintiff's indirect claims. On February 2, 2021, the insurer plaintiff's motion for leave to amend its complaint was denied.

These actions were consolidated and coordinated in *In re Glumetza Antitrust Litigation*, Case No. 3:19-cv-05822-WHA (the "*In re Glumetza Antitrust Litigation*"). The lawsuits alleged that a 2012 settlement of a patent litigation regarding Glumetza® delayed generic entry in exchange for an agreement not to launch an authorized generic of Glumetza® or grant any other company a license to do so. The complaints alleged that the settlement agreement resulted in higher prices for Glumetza® and its generic equivalent both prior to and after generic entry. Both the class and non-class plaintiffs sought damages under federal antitrust laws for claims based on direct purchases.

On February 8, 2021, the insurer plaintiff filed an action asserting its indirect (state law) claims in the Superior Court of Alameda County, California against the Company and others (the "State Court Action") (discussed in further detail below, see *Glumetza State-Law Insurer Litigations*).

On July 26, 2021, the Company reached an agreement in principle and, thereafter, on September 14, 2021, executed a final settlement agreement to resolve the class plaintiffs' claims for \$300 million, subject to court approval. On August 1, 2021, the Company also reached an agreement in principle to resolve the non-class direct purchaser plaintiffs' claims, described above, for additional consideration. A final settlement agreement with the non-class direct purchaser plaintiffs was executed on August 6, 2021. As part of the settlements, the Company admitted no liability as to the claims against it and denied all allegations of wrongdoing. On September 20, 2021, the insurer plaintiff voluntarily dismissed its claims in the consolidated federal action. By stipulation, the insurer plaintiff has asserted its direct opt-out claims in the State Court Action, resulting in the consolidation of all of its opt-out claims in the State Court Action.

On September 22, 2021, the court granted preliminary approval of the class settlement agreement and vacated the October 2021 trial date and all other pre-trial deadlines in the consolidated actions. On February 3, 2022, the court granted final approval of the class settlement and ordered dismissal of the class plaintiffs' claims. The deadline to appeal the final approval of the class settlement has now passed, and the settlements have resolved and discharged all asserted class and direct purchaser non-class claims against the Company in the *In re Glumetza Antitrust Litigation*.

Generic Pricing Antitrust Litigation

The Company's subsidiaries, Oceanside Pharmaceuticals, Inc. ("Oceanside"), Bausch Health US, LLC (formerly Valeant Pharmaceuticals North America LLC) ("Bausch Health US") and Bausch Health Americas, Inc. (formerly Valeant Pharmaceuticals International) ("Bausch Health Americas") (for the purposes of this paragraph, collectively, the "Company"), are defendants in multidistrict antitrust litigation ("MDL") entitled *In re: Generic Pharmaceuticals Pricing Antitrust Litigation*, pending in the United States District Court for the Eastern District of Pennsylvania (MDL 2724, 16- MD-2724). The lawsuits seek damages under federal and state antitrust laws, state consumer protection and unjust enrichment laws and allege that the Company's subsidiaries entered into a conspiracy to fix, stabilize, and raise prices, rig bids and engage in market and customer allocation for generic pharmaceuticals. The lawsuits, which have been brought as putative class actions by direct purchasers, end payers, and indirect resellers, and as direct actions by direct purchasers, end payers, insurers, States, and various Counties, Cities, and Towns, have been consolidated into the MDL. There are also additional, separate complaints which have been consolidated in the same MDL that do not name the Company or any of its subsidiaries as a defendant. There are cases pending in the Court of Common Pleas of Philadelphia County against the Company and other defendants related to the multidistrict litigation, but

no complaint has been filed in the cases. The cases have been placed in deferred status. The Company disputes the claims against it and continues to defend itself vigorously.

Additionally, Bausch Health Companies Inc. and certain U.S. and Canadian subsidiaries (for the purposes of this paragraph, collectively the "Company") have been named as defendants in a proposed class proceeding entitled *Kathryn Eaton v. Teva Canada Limited, et al.* in the Federal Court in Toronto, Ontario, Canada (Court File No. T-607-20). The

plaintiff seeks to certify a proposed class action on behalf of persons in Canada who purchased generic drugs in the private sector, alleging that the Company and other defendants violated the Competition Act by conspiring to allocate the market, fix prices, and maintain the supply of generic drugs, and seeking damages under federal law. The proposed class action contains similar allegations to the *In re: Generic Pharmaceuticals Pricing Antitrust Litigation* pending in the United States Court for the Eastern District of Pennsylvania. The Company disputes the claims against it and intends to defend itself vigorously.

These lawsuits cover products of both Bausch + Lomb and the Company's businesses. It is anticipated that Bausch + Lomb and the Company will split the fees and expenses associated with defending these claims, as well as any potential damages or other liabilities awarded in or otherwise arising from these claims, in the manner set forth in the Master Separation Agreement between Bausch Health and Bausch + Lomb.

Glumetza State-Law Insurer Litigations

On February 8, 2021, the insurer plaintiff from the federal *In re Glumetza Antitrust Litigation*, Case No. 3:19-cv-05822- WHA (N.D. Cal.) (the "*In re Glumetza Antitrust Litigation*") (discussed in further detail above), Humana Inc. ("Humana"),

filed an action asserting its indirect (state law) claims in the Superior Court of Alameda County, California against the Company and others (the "State Court Action"). The State Court Action alleges that a 2012 settlement of a patent litigation regarding Glumetza[®] delayed generic entry in exchange for an agreement not to launch an authorized generic of Glumetza[®] or grant any other company a license to do so. The State Court Action alleges that the settlement agreement resulted in higher prices for Glumetza[®] and its generic equivalent both prior to and after generic entry. On September 20, 2021, the parties stipulated that Humana's direct opt-out claims from *In re Glumetza Antitrust Litigation*, discussed above, were deemed asserted in the State Court Action.

Defendants' demurrer in the State Court Action was heard on September 22, 2021. On November 29, 2021, the court denied the motion in part and granted it in part as to certain state law claims, with leave to amend. Humana did not amend the complaint. Defendants' answers were filed on February 3, 2022.

On April 5, 2022, Health Care Service Corporation filed an action with similar substantive allegations and similar indirect (state law) claims in the Superior Court of Alameda County, California against the Company and others. Defendants' answers were filed on June 17, 2022. On November 28, 2022, the Court consolidated this action with the State Court Action for trial and pretrial purposes (the "Consolidated State Case"). Trial is currently scheduled to start in January/December 2024 in the Consolidated State Case.

The Company disputes the claims and intends to vigorously defend these matters.

Generic Pricing Antitrust Litigation

The Company's subsidiaries, Oceanside Pharmaceuticals, Inc. ("Oceanside"), Bausch Health US, LLC (formerly Valeant Pharmaceuticals North America LLC) ("Bausch Health US") and Bausch Health Americas, Inc. (formerly Valeant Pharmaceuticals International) ("Bausch Health Americas") (for the purposes of this paragraph, collectively, the "Company"), are defendants in multidistrict antitrust litigation ("MDL") entitled *In re: Generic Pharmaceuticals Pricing Antitrust Litigation*, pending in the United States District Court for the Eastern District of Pennsylvania (MDL 2724, 16- MD-2724). There are also additional, separate complaints which have been consolidated in the same MDL that do not name the Company or any of its subsidiaries as a defendant. On January 31, 2024, the United States Judicial Panel on Multidistrict Litigation entered a Remand Order remanding to the District of Connecticut, among other cases, *State of Connecticut, et al. v. Sandoz, Inc., et al.*, C.A. No. 2:20-03539 (D. CT, C.A. No. 3:20-00802), in which the Company is a defendant. There are cases pending in the Court of Common Pleas of Philadelphia County against the Company and other defendants related to the multidistrict litigation, but no complaint has been filed in these cases. The cases have been placed in deferred status. The Company disputes the claims against it and continues to defend itself vigorously.

Intellectual Property

Patent Litigation/Paragraph IV Matters

From time to time, the Company (and/or certain of its affiliates) is also party to certain intellectual property litigation proceedings in the United States and Canada, including as arising from claims filed against the Company or by the Company (or that the Company anticipates filing within the required time periods) related to certain products sold by or on

behalf of the Company, which may be in connection with Notices of Paragraph IV Certification (in the United States) and Notices of Allegation (in Canada) received from third-party generic manufacturers, where such products include Xifaxan® 200 mg and 550 mg, Arazlo®, Colazal®, Duobrii®, Lotemax® SM, Lumify®, Nuvessa Trulance® and Trulance Vyzulta® in the United States and Jublia® in Canada. States.

Xifaxan® Paragraph IV Proceedings

On February 17, 2020, the Company and Alfasigma S.p.A. ("Alfasigma") received a Notice of Paragraph IV Certification from Norwich Pharmaceuticals Inc. ("Norwich"), in which Norwich asserted that the U.S. patents listed in the FDA's Orange Book for the Company's Xifaxan® tablets, 550 mg, are either invalid, unenforceable and/or will not be infringed by the commercial manufacture, use or sale of Norwich's generic rifaximin tablets, 550 mg, for which an Abbreviated New Drug Application ("ANDA") ANDA has been filed by Norwich. The Company, through its subsidiaries Salix Pharmaceuticals, Inc. and Bausch Health Ireland Limited, holds the New Drug Application for Xifaxan® and owns or exclusively licenses (from Alfasigma) these patents. On March 26, 2020, certain of the Company's subsidiaries and Alfasigma filed suit against Norwich in the U.S. District Court for the District of Delaware (Case No. 20-cv-00430) pursuant to the Hatch-Waxman Act, alleging infringement by Norwich of one or more claims of the Xifaxan® Patents, thereby triggering a 30-month stay of the approval of Norwich's ANDA for rifaximin tablets, 550 mg. Xifaxan® is protected by 27 28 patents covering the composition of matter and the use of Xifaxan® listed in the FDA's Approved Drug Products with Therapeutic Equivalence Evaluations, or the Orange Book. Trial in this matter was held in March 2022. The court issued a final judgment on August

10, 2022, August 10, 2022, (the "Norwich Legal Decision"), finding that the U.S. Patents protecting the use of Xifaxan®(rifaximin) 550 mg tablets for the reduction in risk of hepatic encephalopathy ("HE") recurrence valid and infringed and the U.S. Patents protecting the composition, and use of Xifaxan® for treating IBS-D invalid. The Norwich Legal Decision prevents FDA approval of Norwich's 550 mg ANDA until October 2029. The Company appealed the Norwich Legal Decision to the U.S. Court of Appeals for the Federal Circuit on August 16, 2022. Following the Company's appeal, Norwich claimed to have removed the HE indication from its existing ANDA and then filed a motion in the District Court requesting modification of the Norwich Legal Decision to permit the FDA to approve their ANDA before October 2029. The Company opposed this the motion. On May 17, 2023, the District Court denied Norwich's motion and confirmed that the FDA remained enjoined from granting final approval to Norwich's ANDA until October 2029. Norwich filed its appeal to the U.S. Court of Appeals for the Federal Circuit on May 19, 2023. The Company's and Norwich's appeals are now consolidated (the "Norwich Appeal"). The Norwich Appeal has been fully briefed and the Federal Circuit heard oral arguments on January 8, 2024. The Company awaits a decision on the motion from the Federal Circuit.

In a letter to Norwich on June 2, 2023, the FDA granted tentative approval to Norwich's ANDA, but confirmed that it is enjoined from granting final approval until October 2029. On June 5, 2023, Norwich brought a lawsuit against the FDA in the U.S. District Court, Court for the District of Columbia (the "DC District Court"), alleging that the FDA acted improperly by only granting tentative approval to Norwich's ANDA rather than final approval (the "Norwich DC Lawsuit"). In June 2023, the Company intervened in the Norwich DC Lawsuit. A hearing was held on October 6, 2023. On November 1, 2023, the DC District Court granted the Company's and FDA's motions for summary judgment, thereby ending the lawsuit. In December 2023, Norwich appealed the DC District Court's November 1st decision to the U.S. Court of Appeals for the District of Columbia Circuit. In December 2023, Norwich appealed the DC

District Court's November 1st decision to the U.S. Court of Appeals for the District of Columbia Circuit (the "DC Circuit"). On February 2, 2024, the DC Circuit decided to hold the appeal in abeyance pending a decision from the Federal Circuit in the Norwich Appeal.

In January 2023 and October 2023, the U.S. Patent Office issued U.S. Patent Nos. 11,564,912 (the "'912 Patent") and 11,779,571 (the "'571 Patent") directed to IBS-D, which were then listed in the FDA's Orange Book for Xifaxan®. The Company received new Notices of Paragraph IV Certification from Norwich asserting that claims of the '912 and '571 Patents are invalid, unenforceable, and/or will not be infringed by the commercial manufacture, use, or sale of Norwich's generic rifaximin tablets, 550 mg, under the existing Norwich ANDA. Any suit brought against the existing Norwich ANDA under the '912 or '571 Patent is not believed to result in a new 30-month stay of approval.

The Company remains confident in the strength of the Xifaxan® patents and intends to vigorously defend its intellectual property.

Duobrii® Paragraph IV Proceedings

On July 23, 2020, the Company received a Notice of Paragraph IV Certification from Perrigo Israel Pharmaceuticals, Ltd. (now Padagis LLC) ("Padagis"), in which Padagis asserted that certain U.S. patents, each of which is listed in the FDA's Orange Book for Duobrii® (halobetasol propionate and tazarotene) lotion, are either invalid, unenforceable and/or will not be infringed by the commercial manufacture, use or sale of Padagis' generic lotion, for which an ANDA has been filed by Padagis. On August 28, 2020, the Company filed suit against Padagis pursuant to the Hatch-Waxman Act, alleging infringement by Padagis of one or more claims of the Duobrii® Patents, thereby triggering a 30-month stay of the approval of the Padagis ANDA. On September 3, 2020, this action was consolidated with the action between the Company and Padagis described below, regarding Padagis' ANDA for generic Bryhali® (halobetasol propionate) lotion. Following a three-day trial in October 2022, on December 1, 2022, the District Court issued a final decision in favor of Bausch, finding the Bryhali® and Duobrii® patents valid and infringed by Padagis. The District Court dismissed the lawsuit on February 3, 2023.

In June 2022, the Company received a Notice of Paragraph IV Certification from Taro Pharmaceuticals Inc. ("Taro"), in which Taro asserted that certain U.S. patents, each of which is listed in the FDA's Orange Book for Duobrii® (halobetasol propionate and tazarotene) lotion, are either invalid, unenforceable and/or will not be infringed by the commercial manufacture, use, sale, offer for sale, or importation of Taro's generic lotion, for which an ANDA has been filed by Taro. On July 21, 2022, the Company filed suit against Taro pursuant to the Hatch-Waxman Act, alleging infringement by Taro of one or more claims of the Duobrii® Patents and triggering a 30-month stay of the approval of the Taro ANDA.

The Company remains confident in the strength of the Duobrii® patents and intends to vigorously defend its intellectual property.

Bryhali® Paragraph IV Proceedings

On March 20, 2020, the Company received a Notice of Paragraph IV Certification from Padagis, in which Padagis asserted that certain U.S. patents, each of which is listed in the FDA's Orange Book for Bryhali® (halobetasol propionate) lotion, 0.01% are either invalid, unenforceable and/or will not be infringed by the commercial manufacture, use or sale of Padagis' generic halobetasol propionate lotion, for which an ANDA has been filed by Padagis. On May 1, 2020, the Company filed suit against Padagis pursuant to the Hatch-Waxman Act, alleging infringement by Padagis of one or more claims of the Bryhali® patents, thereby triggering a 30-month stay of the approval of the Padagis ANDA for halobetasol propionate lotion. On September 3, 2020, this action was consolidated with the action between the Company and Padagis described above, regarding Padagis' ANDA for generic Duobrii® (halobetasol propionate and tazarotene) lotion. Following a three-day trial in October 2022, on December 1, 2022, the District Court issued a final decision in favor of Bausch, finding the Bryhali® and Duobrii® patents valid and infringed by Padagis. The District Court dismissed the lawsuit on February 3, 2023.

Trulance® Paragraph IV Proceedings

In April 2021, the Company commenced litigation against MSN Laboratories Private Ltd. ("MSN") and Mylan Pharmaceuticals Inc., ("Mylan") alleging patent infringement by MSN's and Mylan's filing of their ANDA for generic Trulance® (plecanatide) 3mg 3 mg tablets. This suit had been filed following receipt of a Notice of Paragraph IV Certification from each of MSN and Mylan, in which they had each asserted that the U.S. patents listed in the FDA's Orange Book for the Company's Trulance® tablets, 3 mg, were invalid, unenforceable and/or would not be infringed by the commercial manufacture, use or sale of their respective generic plecanatide tablets, 3 mg. The filing of these suits triggered a 30-month stay of the approval of the MSN and Mylan ANDAs for plecanatide tablets.

In January 2023, the Company commenced litigation against Aurobindo Pharma Limited ("Auro") alleging patent infringement by Auro's filing of their ANDA for generic Trulance® (plecanatide) 3mg 3 mg tablets. This suit had been filed following receipt of a Notice of Paragraph IV Certification from Auro, in which it asserted that the U.S. patent listed in the

FDA's Orange Book for the Company's Trulance® tablets, 3 mg, were invalid, unenforceable and/or would not be infringed by the commercial manufacture, use or sale of Auro's generic plecanatide tablets, 3 mg. The filing of this suit triggered a 30-month stay of the approval of the Auro ANDA for plecanatide tablets. On October 30, 2023, the litigation with Auro was dismissed in accordance with a settlement between the Company and Auro.

The Company remains confident in the strength of the Trulance® patents and intends to vigorously pursue this matter and defend its intellectual property.

Xifaxan® Litigation with Curia IP Holdings, LLC

Curia IP Holdings, LLC ("Curia") filed a lawsuit against the Company on October 25, 2021, alleging that Xifaxan® 200 mg and 550 mg tablets infringe certain patents owned by Curia (U.S. Patent Nos. 9,186,355; 10,556,915; 10,745,415, and 10,961,257 (the "Curia Patents")). Each of the Curia Patents was filed years after the Company's launches of Xifaxan® 200 mg and 550 mg tablets. On August 17, 2022, the U.S. District Court for the District of New Jersey dismissed the complaint, without prejudice. Curia then filed an amended complaint on September 16, 2022, realleging infringement of its patents. On August 31, 2023, Curia filed a second lawsuit against the Company alleging that Xifaxan® 200 mg and 550 mg tablets infringe U.S. Patent No. 11,739,099 (the "099 Patent"). The '099 Patent is related to the Curia Patents and was also filed years after the Company's launches of Xifaxan 200 mg and 550 mg tablets. The first and second lawsuits filed by Curia are now consolidated (the "Curia Lawsuits"). On February 14, 2024, the court issued an order administratively terminating the case pending completion of mediation on or before April 14, 2024. The Company disputes Curia's infringement claims against Xifaxan® 200 mg and 550 mg tablets and will continue to defend this matter.

PreserVision® AREDS Patent Litigation

PreserVision® AREDS and PreserVision® AREDS 2 are over the counter OTC eye vitamin formulas for those with moderate-to-advanced age-related degeneration ("AMD"). AMD. The PreserVision® U.S. formulation patent expired in March 2021, but a patent covering methods of using the formulation remains in force into 2026. Bausch & Lomb Incorporated ("B&L Inc.") has filed patent infringement proceedings against 19 named defendants in 16 proceedings claiming infringement of these patents and, in certain circumstances, related unfair competition and false advertising causes of action. Twelve Thirteen of these proceedings were subsequently settled; two resulted in a default. As of the date of this filing, there are two is one ongoing actions: (1) Bausch & Lomb Inc. & PF Consumer Healthcare 1 LLC v. ZeaVision LLC, C.A. No. 6:20-cv-06452-CJS (W.D.N.Y.); and (2) action: Bausch & Lomb Inc. & PF Consumer Healthcare 1 LLC v. SBH Holdings LLC, C.A. No. 20-cv-01463-VAC-CJB 20-cv-01463-GBW-CJB (D. Del.). Bausch + Lomb remains confident in the strength of these patents and B&L Inc. intends to will continue to vigorously pursue these matters this matter and defend its intellectual property.

Patent Litigation against Certain Ocuville and PreserVision

On June 22, 2021, ZeaVision, LLC ("ZeaVision") filed a complaint for patent infringement against certain of the Ocuville® and PreserVision® products in the Eastern District of Missouri (Case No. 4:21-cv-00739-RWS). On June 29, 2021, ZeaVision amended its complaint to assert a second patent against certain of the Ocuville® and PreserVision® products. On November 16, 2021, ZeaVision filed an additional complaint for patent infringement to assert a third patent against certain of the PreserVision® products (Case No. 4:21-cv-01352-RWS). On March 1, 2022, the cases were consolidated. On March 10, 2022, the court granted Bausch + Lomb's motion to stay all proceedings pending inter partes review. On July 1, 2022, ZeaVision filed a motion to partially lift the stay to allow Case No. 4:21-cv-01352-RWS to proceed, and this motion was denied. The Company disputes the claims and intends to vigorously defend this matter.

Lumify® Paragraph IV Proceedings

On August 16, 2021, B&L Inc. received a Notice of Paragraph IV Certification from Slayback Pharma LLC ("Slayback"), in which Slayback asserted that certain U.S. patents, each of which is listed in the FDA's Orange Book for Lumify® (brimonidine tartrate solution) drops (the "Lumify Patents"), are either invalid, unenforceable and/or will not be infringed by the commercial manufacture, use or sale of Slayback's generic drops, for which an ANDA has been filed by Slayback. B&L Inc., through its affiliate Bausch + Lomb Ireland Limited, exclusively licenses the Lumify Patents from Eye Therapies, LLC ("Eye Therapies"). On September 10, 2021, B&L Inc., Bausch + Lomb Ireland Limited and Eye Therapies filed suit against Slayback pursuant to the Hatch-Waxman Act, alleging infringement by Slayback of one or more claims of the Lumify Patents, thereby triggering a 30-month stay of the approval of the Slayback ANDA. Since then, U.S. Patent No. 9,259,425 has been dismissed from the case.

On January 20, 2022 May 15, 2023, B&L Inc. received the United States Patent & Trademark Office's Patent Trial and Appeal Board issued a Notice Final Written Decision, finding all claims of Paragraph IV Certification from Lupin Ltd. ("Lupin"), in which Lupin asserted that certain U.S. Patent No. 8,293,742 unpatentable. This decision has been appealed to the United States Court of Appeals for the Federal Circuit and the appeal is ongoing. Furthermore, two additional patents each of which is (US. Patent Nos. 11,596,600 and 11,833,245) have issued and been listed in the FDA's Orange Book for as related to Lumify® (brimonidine tartrate solution) drops (the "Lumify Patents"), are either invalid, unenforceable and/or will not be infringed by the commercial manufacture, use or sale. Lawsuits alleging infringement of Lupin's generic brimonidine tartrate solution, for which these patents were filed against

Slayback and its ANDA No. 216716 has been filed by Lupin. On February 2, 2022 licensee, Dr. Reddy's Laboratories S.A. and Dr. Reddy's Laboratories, Inc. (collectively, "DRL"). Subsequently, on December 15, 2023, B&L Inc., Bausch + Lomb Ireland Limited, and Eye Therapies filed suit against Lupin pursuant a Motion for a Preliminary Injunction requesting the court to the Hatch-Waxman Act, alleging patent infringement enjoin any infringing activities by Lupin of one or more claims of the Lumify Patents, thereby triggering a 30-month stay of the approval of the Lupin ANDA, DRL.

Additionally, on December 18, 2023, B&L Inc., Bausch + Lomb Ireland Limited, and Eye Therapies amended its complaint to add claims for copyright infringement, as well as claims under the Lanham Act, including trademark and trade dress infringement.

The lawsuit against DRL is ongoing in the District of New Jersey, with no trial date set. Bausch + Lomb remains confident in the strength of the Lumify® related patents and B&L Inc. intends to vigorously defend its intellectual property.

In addition to the intellectual property matters described above, in connection with the Vyzulta® and Lotemax® SM products, the Company has commenced ongoing infringement proceedings against a potential generic competitor in the U.S.

Inter Partes Review Proceedings at the U.S. Patent and Trademark Office

In addition, patents covering the Company's branded pharmaceutical products may be challenged in proceedings other than court proceedings, including inter partes review ("IPR") at the U.S. Patent & Trademark Office. The proceedings operate under different standards from district court proceedings, and are often completed within 18 months of institution. IPR challenges have been brought against patents covering the Company's branded pharmaceutical products.

Following Acrux DDS's IPR petition, the U.S. Patent and Trial Appeal Board ("PTAB"), in May 2017, instituted inter partes review for an Orange Book-listed patent covering Jublia® (U.S. Patent No. 7,214,506 (the "506 Patent")) and, on

June 6, 2018, issued a written determination invalidating such patent. An appeal of this decision was filed on August 7, 2018. On March 13, 2020, the Court of Appeals for the Federal Circuit reversed this decision and remanded the matter back to the PTAB for further proceedings. As a result of a settlement, a joint motion to terminate the proceedings was filed on November 12, 2020 and, on January 8, 2021, the PTAB granted this motion. The '506 Patent, therefore, remains valid and enforceable and expires in 2026. Jublia® is covered by sixteen Orange Book-listed patents owned by the Company or its licensor, which expire in the years 2028 through 2035. In August and September 2018, the Company received notices of the filing of a number of ANDAs with paragraph IV certification, and has timely filed patent infringement suits against these ANDA filers, and, in addition, the Company has also commenced certain patent infringement proceedings in Canada. All cases in the U.S. regarding Jublia® have been settled. Three lawsuits are pending in Canada regarding Jublia® against Apotex Inc. and Pharmascience Inc.

Mylan and MSN have filed IPR petitions for certain U.S. patents listed in the FDA's Orange Book for Trulance® (plecanatide). On March 21, 2022, Mylan filed a petition for IPR of U.S. Patent No. 7,041,786, 7,041,786 (the "786 Patent"), which was then instituted on September 14, 2022. On October 12, 2022, MSN also filed a petition for IPR of U.S. the '786 Patent No. 7,041,786 and the PTAB then issued a decision on December 14, 2022, instituting MSN's IPR and joining it with Mylan's IPR. On June 10, 2022 September 8, 2023, Mylan filed petitions for IPR of U.S. Patent Nos. 9,610,321, 9,616,097, 9,919,024 and 9,925,231. In the Company's favor, the PTAB issued decisions on Jan. 4, 2022, denying Mylan's petitions, as decision finding that Mylan and MSN had not shown that the '786 Patent is unpatentable. On September 28, 2023, Mylan appealed the PTAB's September 8th decision to the U.S. Court of Appeals for the Federal Circuit.

On June 21, 2023, Padagis filed an IPR petition against U.S. Patent No. 11,311,482 (the "482 Patent"), which is Orange Book-listed for Arazlo®. In a decision dated January 12, 2024, the PTAB denied institution of an IPR against the '482 Patent.

The Company remains confident in the strength of these patents and intends to vigorously defend its intellectual property.

Product Liability

Shower to Shower® Products Liability Litigation

Since 2016, the Company has been named in a number of product liability lawsuits involving the Shower to Shower® body powder product acquired in September 2012 from Johnson & Johnson; due to dismissals, twenty-six (26) twenty-seven (27) of such product liability suits currently remain pending. In three (3) cases pending in the Atlantic County, New Jersey Multi-County Litigation, agreed stipulations of dismissal have been entered by the Court, thus dismissing the Company from those cases. Potential liability (including its attorneys' fees and costs) arising out of these remaining suits is subject to full indemnification obligations of Johnson & Johnson owed to the Company and its affiliates, and legal fees and costs will be paid by Johnson & Johnson. Twenty-five (25) Twenty-six (26) of these lawsuits filed by individual plaintiffs allege that the use of Shower to Shower® caused the plaintiffs to develop ovarian cancer, mesothelioma or breast cancer. The allegations in these cases include failure to warn, design defect, manufacturing defect, negligence, gross negligence, breach of express and implied warranties, civil conspiracy concert in action, negligent misrepresentation, wrongful death, loss of consortium and/or punitive damages. The damages sought include compensatory damages, including medical expenses, lost wages or earning capacity, loss of consortium and/or compensation for pain and suffering, mental anguish anxiety and discomfort, physical impairment and loss of enjoyment of life. Plaintiffs also seek pre- and post-judgment interest, exemplary and punitive damages, and attorneys' fees. Additionally, two proposed class actions have

been were filed in Canada against the Company and various Johnson & Johnson entities (one in the Supreme Court of British Columbia and one in the Superior Court of Quebec), on behalf of persons who have purchased or used Johnson & Johnson's Baby Powder or Shower to Shower®. The class actions allege the use of the product increases certain health risks (British Columbia) or negligence in failing to

properly test, failing to warn of health risks, and failing to remove the products from the market in a timely manner (Quebec). The plaintiffs in these actions are seeking awards of general, special, compensatory and punitive damages. On November 17, 2020, the British Columbia court issued a judgment declining to certify a class as to the Company or Shower to Shower®, and at this time no appeal of that judgment has been filed. On December 16, 2021, the plaintiff in the British Columbia class action filed a Second Amended Notice of Civil Claim and Application for Certification, removing the Company as a defendant; as a result, the British Columbia class action is concluded as to the Company.

In October 2021, Johnson & Johnson, through one or more subsidiaries, has purported to have completed complete a Texas divisional merger with respect to any talc liabilities at Johnson & Johnson Consumer, Inc. ("JJCI"). LTL Management, LLC ("LTL"), the resulting entity of the divisional merger, assumed JJCI's talc liabilities and thereafter filed for Chapter 11 bankruptcy protection in the United States Bankruptcy Court for the Western District of North Carolina. Pursuant to court orders entered Carolina, which in November 2021 the case was transferred to the United States District Court for the District of New Jersey (the "Bankruptcy Court"). The first bankruptcy case was dismissed on April 4, 2023, after a decision by the Third Circuit Court of Appeals, and LTL re-filed a new chapter 11 case in the Bankruptcy Court on the same day. Several motions to dismiss were again filed, and on August 11, 2023, the Bankruptcy Court dismissed the second chapter 11 case. On August 24, 2023, LTL and certain supporting creditors and tort claimants filed notices of appeal of the dismissal order. On October 20, 2023, the Third Circuit accepted the appeal, which remains pending. During the pendency of LTL's bankruptcy cases, the Bankruptcy Court extended a preliminary injunction that had stayed substantially all cases subject to the indemnification agreement related to Johnson & Johnson's talc liability, were which injunction was terminated in connection with the bankruptcy case dismissal.

After the dismissal of the Chapter 11 case, the Company's and Bausch + Lomb's position vis a vis Johnson & Johnson returned to the status quo prior to the filing. The litigation against the Company, Bausch + Lomb and other defendants is no longer stayed, and LTL and Johnson & Johnson continues to have indemnification obligations running to the Company and its affiliates, including Bausch + Lomb, for a period of sixty (60) days pursuant Shower to a preliminary injunction. Shower® related product liability litigation.

Notwithstanding the divisional merger and LTL's bankruptcy case, cases, the Company and its affiliates continue to have indemnification claims and rights against Johnson & Johnson and LTL pursuant to the terms of the indemnification agreement entered into between JJCI and its affiliates and the Company and its affiliates, which indemnification agreement remains in effect. As a result, it is the Company's current expectation that it will not incur any material impairments with respect to its indemnification claims as a result of the divisional merger or the bankruptcy. In December 2021, certain talc claimants filed motions to dismiss the bankruptcy case. Shortly thereafter, LTL

filed a motion in the Bankruptcy Court to extend the 60-day preliminary injunction. On February 25, 2022, the Bankruptcy Court entered orders denying the motions to dismiss and extending the preliminary injunction staying substantially all cases subject to the indemnification agreement related to Johnson & Johnson's talc liability through at least June 29, 2022, which it later extended indefinitely. The order denying the motions to dismiss and the order extending the preliminary injunction were subject to appeal and the Bankruptcy Court certified their appeals directly to the United States Court of Appeals for the Third Circuit. On May 11, 2022, the Third Circuit granted authorization for the parties to proceed with their direct appeals. Oral argument before the Third Circuit was held on September 19, 2022. On January 30, 2023, a unanimous three-judge Third Circuit Court of Appeals panel issued its decision directing the Bankruptcy Court to dismiss LTL's bankruptcy case, concluding that LTL was not in financial distress and could not file a bankruptcy case in good faith. LTL has filed a petition for rehearing *en banc* from the Third Circuit. If the bankruptcy case is ultimately dismissed, the Company's position vis a vis J&J would return to the status quo prior to the filing. The litigation against the Company and other defendants will no longer be stayed, and LTL and J&J will continue to have indemnification obligations running to the Company and its affiliates for Shower-to-Shower related product liability litigation.

During the pendency of the appeal, the Bankruptcy Court was considering competing motions by Debtor LTL to extend its exclusive period to file a chapter 11 plan and the talc claimants to terminate LTL's exclusivity. In light of the Third Circuit's decision, on January 31, 2023, the Bankruptcy Court adjourned any hearing on the exclusivity motions to March 20, 2023.

To the extent that any cases proceed during the pendency of the bankruptcy case, or if the case is ultimately dismissed, it is the Company's expectation that Johnson & Johnson, in accordance with the indemnification agreement, will continue to vigorously defend the Company in each of the remaining actions.

General Civil Actions

On March 24, 2022, the Company and Bausch + Lomb were named in a declaratory judgment action in the Superior Court of New Jersey, Somerset County, Chancery Division, brought by certain individual investors in the Company's common shares and debt securities who are also maintaining individual securities fraud claims against the Company and certain current or former officers and directors as part of the U.S. Securities Litigation. This action seeks a declaratory judgment that alleged transfers of certain Company assets to Bausch + Lomb would constitute a voidable transfer under the New Jersey Voidable Transactions Act and that Bausch + Lomb would be liable for damages, if any, awarded against the Company in the individual opt-out actions. The declaratory judgment action also alleges that the potential future potential separation of Bausch + Lomb from the Company by distribution of Bausch + Lomb stock to the Company's shareholders would leave the Company with inadequate financial resources to satisfy these plaintiffs' alleged securities fraud damages in the underlying individual opt-out actions. None of the plaintiffs in this declaratory judgment action have obtained a judgment against the Company in the underlying individual opt-out actions and the Company disputes the claims against it in those underlying actions. The underlying individual opt-out actions assert claims under Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 (the "Exchange Act"), and certain actions assert claims under Section 18 of the Exchange Act. The allegations in those underlying individual opt out actions are made against the Company and several of its former officers and directors only and relate to, among other things, allegedly false and misleading statements made during the 2013-2016 time period by the Company and/or failures to disclose information about the Company's business and prospects including relating to drug pricing and the use of specialty pharmacies. On March 31, 2022, the Company and Bausch + Lomb removed the declaratory judgment action to the U.S. District Court for the District of New Jersey. On April 29, 2022, Plaintiffs filed a motion to remand. On November 29, 2022, the District Court granted Plaintiffs' remand motion and the case was remanded to the New Jersey Superior Court, Court Chancery Division. On December 8, 2022, Plaintiffs filed a proposed Order to Show Cause and motion for a preliminary injunction, and sought interim relief including expedited discovery. On December 13, 2022, the Court denied Plaintiffs' proposed Order to Show Cause and stayed discovery pending the resolution of the Company and Bausch + Lomb's forthcoming motions to dismiss, while instructing the Company to provide certain notice to Plaintiffs of the intended completion of the a potential future distribution referenced above under certain circumstances. On December 22, 2022, Plaintiffs filed an amended complaint, complaint which, among other things, added claims seeking injunctive relief. On January 11, 2023, the Company and Bausch + Lomb moved to dismiss the amended

complaint. That Briefing was complete on February 24, 2023, and the motion is pending. to dismiss was heard on March 3, 2023. On April 3, 2023, the Court issued a decision granting in part and denying in part the motion to dismiss.

Both the Company and Bausch + Lomb dispute the claims in this declaratory judgment action and intend to vigorously defend this matter.

California Proposition 65 Related Matter

On June 19, 2019, plaintiffs filed a proposed class action in California state court against Bausch Health US and Johnson & Johnson (Gutierrez, et al. v. Johnson & Johnson, et al., Case No. 37-2019-00025810-CU-NP-CTL), asserting claims for purported violations of the California Consumer Legal Remedies Act, False Advertising Law and Unfair Competition Law in connection with their sale of talcum powder products that the plaintiffs allege violated Proposition 65 and/or the

California Safe Cosmetics Act. This lawsuit was served on Bausch Health US in June 2019 and was subsequently removed to the United States District Court for the Southern District of California, where it is currently pending. Plaintiffs seek damages, disgorgement of profits, injunctive relief, and reimbursement/restitution. Bausch Health US filed a motion to dismiss Plaintiffs' claims, which was granted in April 2020 without prejudice. In May 2020, Plaintiffs filed an amended complaint and in June 2020, filed a motion for leave to amend the complaint further, which was granted. In August 2020, Plaintiffs filed the Fifth Amended Complaint. On January 22, 2021, the Court granted the motion to dismiss with prejudice. On February 19, 2021, Plaintiffs filed a Notice of Appeal with the Ninth Circuit Court of Appeals. On July 1, 2021, Appellants (Plaintiffs) filed their opening brief; Appellees' response briefs were filed on October 8, 2021. This matter was stayed by the Ninth Circuit on December 7, 2021, due to the preliminary injunction entered by the Bankruptcy Court in the LTL bankruptcy proceeding. This stay included Appellants' reply brief deadline, which was previously due to be filed on or before December 2, 2021. On March 9, 2022, the Ninth Circuit issued an order extending the stay through July 29, 2022. On July 29, 2022, Johnson & Johnson filed a status report in the Gutierrez appeal, outlining the developments since the last status report and the imposition of the stay. Johnson & Johnson noted that following a July 26, 2022, hearing, the Bankruptcy Court left the preliminary injunction in place, and asked the Ninth Circuit to continue to stay this action while the bankruptcy preliminary injunction remained in place. On January 20, 2023, the Ninth Circuit extended the stay until February 17, 2023. On February 17, 2023, Johnson & Johnson requested the court afford it sixty (60) days – until April 18, 2023, or seven (7) days following any lifting of the LTL Bankruptcy Court's preliminary injunction – whichever comes earliest – to provide an additional status report about the bankruptcy proceeding and the Third Circuit dismissal for which LTL has requested a rehearing. On April 7, 2023, Johnson & Johnson Consumer Inc. filed a status report regarding the bankruptcy proceeding advising the Court of the dismissal of the prior bankruptcy proceeding and the filing of the second bankruptcy proceeding, as well as the preliminary injunction and stay order, and requesting the stay of the appeal remain in place until May 10, 2023, which was granted. Following the entry of a preliminary injunction applicable to this case, which was extended until August 26, 2023, the Ninth Circuit extended the stay to June 15, 2023. On June 22, 2023, Johnson & Johnson/ LTL filed a status report requesting the stay be extended to August 26, 2023, consistent with the extension of the preliminary injunction by the bankruptcy court. On August 15, 2023, Johnson & Johnson filed a supplemental status report notifying the Ninth Circuit that the second bankruptcy proceeding was dismissed on August 11, 2023, so the stay could be lifted and briefing could

proceed to conclusion and setting of oral argument. On September 13, 2023, the Ninth Circuit lifted the stay. On January 28, 2024, the Ninth Circuit issued a notice of oral argument setting the argument for Monday, April 8, 2024.

The Company and Bausch Health US dispute disputes the claims against them and intend to defend in this lawsuit and will defend it vigorously.

New Mexico Attorney General Consumer Protection Action

The Company and Bausch Health US were named in an action brought by State of New Mexico ex rel. Hector H. Balderas, Attorney General of New Mexico, in the County of Santa Fe New Mexico First Judicial District Court (New Mexico ex rel. Balderas v. Johnson & Johnson, et al., Civil Action No. D-101-CV-2020-00013, filed on January 2, 2020), alleging consumer protection claims against Johnson & Johnson and Johnson & Johnson Consumer, Inc., the Company and Bausch Health US related to Shower to Shower® and its alleged causal link to mesothelioma and other cancers. In April 2020, Bausch Health US filed a motion to dismiss, which in September 2020, the Court granted in part as to the New Mexico Medicaid Fraud Act and New Mexico Fraud Against Taxpayers Act claims and denied as to all other claims. The State of New Mexico brings claims against all defendants under the New Mexico Unfair Practices Act and other common law and equitable causes of action, alleging defendants engaged in wrongful marketing, sale and promotion of talcum powder products. The lawsuit seeks to recover the cost of the talcum powder products as well as the cost of treating asbestos-related cancers allegedly caused by those products. Bausch Health US filed its answer on November 16, 2020. On December 30, 2020 Johnson & Johnson filed a Motion for Partial Judgment on the Pleadings and on January 4, 2021, Bausch Health US filed a joinder to that motion, which was denied on March 8, 2021. Trial is was scheduled to begin on May 30, 2023, until the case was stayed by an interlocutory appeal to the New Mexico Supreme Court by Johnson & Johnson.

On July 14, 2022, LTL filed an adversary proceeding in the Bankruptcy Court (Case No. 21-30589, Adv. Pro. No. 22-01231) against the State of New Mexico ex rel. Hector H. Balderas, Attorney General, and a motion seeking obtained an injunction from the Bankruptcy Court barring the New Mexico Attorney General from continuing to prosecute the action while the bankruptcy case is was pending. A hearing was held on September 14, 2022, and on October 4, 2022, Because the Bankruptcy Court entered an order granting the injunction. The New Mexico has ultimately dismissed both LTL's first and Mississippi Attorneys General appealed the order granting the preliminary injunction and sought direct appeal second bankruptcy cases, this suit has returned to the Third Circuit. The Bankruptcy Court certified the matter for direct appeal its status quo prior to the Third Circuit Court of Appeals. LTL's filing.

The Company and Bausch Health US dispute the claims against them, and this lawsuit will be defended vigorously.

California Consumer Protection Action

On October 31, 2023, Plaintiff County of Los Angeles filed an action on behalf of the state of California against the Company and Johnson & Johnson, seeking injunctive relief, restitution and damages in California state court (People of the State of California, by and through County of Los Angeles v. Johnson & Johnson, et al., Case No. 23STCV27015). The lawsuit asserts claims for purported violations of the California False Advertising Law, Unfair Competition Law, and public nuisance claims, against multiple manufacturers of talcum powder products, including Shower to Shower®, that the plaintiffs allege caused or contributed to development of ovarian cancer and mesothelioma in residents of California. The lawsuit seeks injunctive relief, restitution, statutory penalties and damages. The Company and its affiliates dispute the claims against them, and this lawsuit will be defended vigorously.

Litigation with Former Salix CEO

On January 28, 2019, former Salix Pharmaceuticals, Ltd. ("Salix Ltd.") CEO and director Carolyn Logan filed a lawsuit in the Delaware Court of Chancery, asserting claims for breach of contract and declaratory relief. On November 19, 2021, Logan amended her complaint to add a claim for breach of the implied covenant of good faith and fair dealing. The lawsuit arose out of the contractual termination of approximately \$30 million in unvested equity awards following the determination by the Salix Ltd. Board of Directors that Logan intentionally engaged in wrongdoing that resulted, or would reasonably be expected to result, in material harm to Salix Ltd., or to the business or reputation of Salix Ltd. Logan sought the restoration of the unvested equity awards and a declaration regarding certain rights related to indemnification. On September 8, 2023, Salix Ltd. and Bausch Health Americas reached an agreement in principle and, thereafter, executed, a final settlement agreement effective December 11, 2023, to resolve the matter, which includes no admission of wrongdoing or liability as to the claims asserted. On December 14, 2023, the parties filed a stipulation dismissing the case, with prejudice.

Rifaximin Breach of Contract Litigation

On September 8, 2022, Lupin filed a lawsuit in the U.S. District Court for the Southern District of New York against Salix Pharmaceuticals, Inc., and the Company, asserting breach of contract claims relating to a 2009 manufacturing and supply agreement between Lupin and Salix Pharmaceuticals, Inc. concerning rifaximin. On November 18, 2022, Lupin filed an Amended Complaint, which added Bausch Health US as a defendant. On March 28, 2023, the Company was dismissed without prejudice. On October 10, 2023, Salix Pharmaceuticals, Inc. asserted counterclaims against Lupin for breach of contract. No trial date has been set. Salix Pharmaceuticals, Inc. and Bausch Health US dispute Lupin's claims, and intend to defend this lawsuit matter vigorously.

Other General Civil Actions

Doctors Allergy Formula Lawsuit

In April 2018, Doctors Allergy Formula, LLC ("Doctors Allergy"), filed a lawsuit against Bausch Health Americas in the Supreme Court of the State of New York, County of New York, asserting breach of contract and related claims under a 2015 Asset Purchase Agreement, which purports to include milestone payments that Doctors Allergy alleges should have been paid by Bausch Health Americas. Doctors Allergy claims its damages are not less than \$23 million. Bausch Health Americas has asserted counterclaims against Doctors Allergy. Bausch Health Americas filed a motion seeking an order granting Bausch Health Americas summary judgment on its counterclaims against Plaintiff and dismissing Plaintiff's claims against it. The motion was fully briefed as of May 2021. The Court held a hearing on the motion on January 25,

2022. The motion remains pending. January 25, 2022. On May 12, 2023, the Court issued a Decision and Order denying Bausch Health Americas' motion. On June 14, 2023, Bausch Health Americas filed a Notice of Appeal as to the Decision and Order. Bausch Health Americas disputes the claims against it and intends this lawsuit will be defended vigorously.

Apriso® Qui Tam Litigation

In 2018, a qui tam complaint, captioned *United States ex rel. Silbersher v. Valeant Pharmaceuticals Int'l, Inc., et al.* (No. 4:18-cv-01496), was filed in the U.S. District Court for the Northern District of California against the Company, certain of its subsidiaries (collectively, the "Company"), and a third party, claiming that their alleged misrepresentations before the U.S. Patent Office ultimately resulted in false claims for payment being made to continue federal and state healthcare payors for

Apriso®. The complaint asserts claims seeking, *inter alia*, damages, civil penalties and attorneys' fees under the federal False Claims Act and the false claims acts of several states.

In May 2020, the District Court granted defendants' motion to defend itself vigorously.

Litigation with Former Salix CEO

On January 28, 2019, former Salix Ltd. CEO dismiss, holding that Plaintiff-relator's qui tam action was precluded by the False Claims Act's public disclosure bar. Plaintiff-relator appealed to the U.S. Court of Appeals for the Ninth Circuit. In August 2023, the Court of Appeals reversed the District Court's order and director Carolyn Logan remanded to the District Court for further proceedings. In September 2023, the Company filed a lawsuit in petition for rehearing or rehearing en banc with the Delaware Court of Chancery, asserting claims for breach of contract and declaratory relief. Appeals. On November 19, 2021, Logan amended her complaint to add a claim for breach of the implied covenant of good faith and fair dealing. The lawsuit arises out of the contractual termination of approximately \$30 million in unvested equity awards following the determination by the Salix Ltd. Board of Directors that Logan intentionally engaged in wrongdoing that resulted, or would reasonably be expected to result, in material harm to Salix Ltd., or to the business or reputation of Salix Ltd. Logan seeks the restoration of the unvested equity awards and a declaration regarding certain rights related to indemnification. On June 20, 2019 January 5, 2024, the Court entered of Appeals panel denied the petition and issued an amended opinion, still reversing the District Court's order staying and remanding the claim case to the District Court for declaratory relief pending further proceedings. On January 26, 2024, the final resolution Court of Appeals granted the Company's motion to stay issuance of the breach of contract claim. Trial is scheduled to commence on April 10, 2023.

mandate in this case for 90 days. The Company disputes the claims against it in each of these matters and intends to vigorously defend the matters. itself vigorously.

21. COMMITMENTS AND CONTINGENCIES

The Company has commitments related to capital expenditures of approximately \$42 million \$110 million as of December 31, 2022 December 31, 2023.

Under certain agreements, the Company may be required to make payments contingent upon the achievement of specific developmental, regulatory, or commercial milestones. As of December 31, 2022 December 31, 2023, the Company believes it is reasonably possible that it may potentially make milestone and license fee payments, including sales-based milestone payments, of approximately \$250 million \$180 million over time, in the aggregate, to third parties for products currently under development or being marketed, primarily consisting of the following:

- Under the terms of a June 2013 distribution and supply agreement with Mylan Pharmaceuticals Inc. (as assignee of Spear Pharmaceuticals, Inc and Spear Dermatology Products Inc.), the Company may be required to make sales-based milestone payments. The Company believes it is reasonably possible that these payments over time may approximate \$35 million, in the aggregate.
- Under the terms of an April 2019 agreement with Mitsubishi Tanabe Pharma Corporation, the Company has acquired an exclusive license to develop and commercialize MT-1303 (amiselimod), a late-stage oral compound that targets the sphingosine 1-phosphate receptor that plays a role in

autoimmune diseases, such as Inflammatory Bowel Disease and ulcerative colitis. The Company may be required to make development and sales-based milestone payments over time of up to \$60 million, in the aggregate, as well as royalties on future sales.

- Under the terms of a December 2019 agreement with Novaliq GmbH, Bausch + Lomb has acquired an exclusive license for the commercialization and development in the U.S. and Canada of **NOV03 MIEBO** (perfluorohexyloctane), **an investigational drug to treat Dry Eye Disease associated with Meibomian gland dysfunction formerly known as NOV03, for the treatment of the signs and symptoms of dry eye disease** and may be required to make sales-based milestone payments. The Company believes it is reasonably possible that these payments over time may approximate **\$48 million \$38 million**, in the aggregate, as well as royalties on future sales.
- Under the terms of an October 2020 agreement with Eyenovia, Inc., Bausch + Lomb has acquired an exclusive license in the U.S. and Canada for the development and commercialization of an investigational microdose formulation of atropine ophthalmic solution, which is being investigated for the reduction of pediatric myopia progression, also known as nearsightedness, in children ages 3-12. Under the terms of the agreement, the Company may be required to make development and sales-based milestone payments. The Company believes it is reasonably possible that these payments over time may approximate **\$35 million**, in the aggregate.
- Under the terms of a May 2020 agreement with STADA Arzneimittel AG and its development partner, Xbrane Biopharma AB, to commercialize in the U.S. and Canada a biosimilar candidate to Lucentis (ranibizumab), Bausch + Lomb may be required to make development and sales-based milestone payments.

Due to the nature of these arrangements, the future potential payments related to the attainment of the specified milestones over a period of several years are inherently uncertain. As of **December 31, 2022** **December 31, 2023**, no accruals related to the aforementioned agreements exist because the milestone targets are not yet probable of being achieved.

Indemnification Provisions

In the normal course of business, the Company enters into agreements that include indemnification provisions for product liability and other matters. These provisions are generally subject to maximum amounts, specified claim periods and other conditions and limits. In addition, the Company is obligated to indemnify its officers and directors in respect of any legal claims or actions initiated against them in their capacity as officers and directors of the Company in accordance with applicable law. Pursuant to such indemnities, the Company is indemnifying certain former officers and directors in respect of certain litigation and regulatory matters. As of **December 31, 2022** **December 31, 2023** and **2021, 2022**, no material amounts were accrued for the Company's obligations under these indemnification provisions.

22. SEGMENT INFORMATION

Reportable Segments

The following is a brief description of the Company's segments:

- **The Salix segment** consists of sales in the U.S. of GI products. Sales of the Xifaxan® product line represented approximately 80% of **the Salix segment's segment** revenues.
- **The International segment** consists of sales, with the exception of sales of Bausch + Lomb products and Solta **Medical** aesthetic medical devices, outside the U.S and Puerto Rico of branded pharmaceutical products, branded generic pharmaceutical **products** and OTC products.
- **The Solta Medical segment** consists of global sales of Solta Medical (**"Solta"**) aesthetic medical devices.
- **The Diversified Products segment** consists of sales in the U.S. of: (i) pharmaceutical products in the areas of neurology and certain other therapeutic classes, (ii) **generic dermatology** products, (iii) **Ortho Dermatologics (dermatological products)** **generic pharmaceutical products** and (iv) dentistry products.
- **The Bausch + Lomb segment** consists of global sales of Bausch + Lomb Vision Care, Surgical and **Ophthalmic** Pharmaceuticals products.

Segment profit is based on operating income after the elimination of intercompany transactions. Certain costs, such as Amortization of intangible assets, Asset impairments, including loss on assets held for sale, Restructuring, integration, separation and IPO costs, and Other expense, net, are not included in the measure of segment profit, as management excludes these items in assessing segment financial performance.

Corporate includes the finance, treasury, certain research and development programs, tax and legal operations of the Company's businesses and incurs certain expenses, gains and losses related to the overall management of the Company, which are not allocated to the other business segments. In assessing segment performance and managing operations, management does not review segment assets. Furthermore, a portion of share-based compensation is considered a corporate cost, since the amount of such expense depends on company-wide performance rather than the operating performance of any single segment.

Segment Revenues and Profit

Segment revenues and profits for the years 2023, 2022, 2021 and 2020 were as follows:

FIRST AMENDMENT TO CREDIT AND SECURITY AGREEMENT

This First Amendment to Credit and Security Agreement (this "**Amendment**"), dated as of August 9, 2023 amends the Credit and Security Agreement (as amended to date, the "**Credit and Security Agreement**"), dated as of June 30, 2023, by and among Bausch Receivables Funding LP, a limited partnership organized under the laws of the Province of Ontario, Canada (the "**Company**"), Bausch Receivables Funding GP ULC, an unlimited liability company incorporated under the laws of the Province of Nova Scotia, Bausch Health US, LLC, a Delaware limited liability company, as master servicer (in such capacity, the "**Master Servicer**"), GLAS USA LLC, as administrative agent (the "**Administrative Agent**"), GLAS Americas LLC, as collateral agent (the "**Collateral Agent**"), KKR Credit Advisors (US) LLC, as structuring advisor, KKR Capital Markets LLC, as left lead arranger and the entities set forth on Schedule I thereto as initial lenders (the "**Lenders**"). Capitalized terms used herein without definition shall have the meanings assigned thereto in the Credit and Security Agreement. All capitalized terms used herein and not otherwise defined herein shall have the respective meanings assigned thereto in the Credit and Security Agreement.

WITNESSETH:

WHEREAS, the parties hereto have entered into the Credit and Security Agreement;

WHEREAS, Section 12.1(b) of the Credit and Security Agreement provides that the Borrower, the Master Servicer, the Administrative Agent, the Collateral Agent and the Requisite Lenders may make certain amendments, supplements, waivers and other modifications to the provisions of the Credit and Security Agreement, including the amendments set forth in this Amendment;

WHEREAS, the execution and delivery of this Amendment has been duly authorized and all conditions and requirements necessary to make this Amendment a valid and binding agreement have been duly performed and complied with;

WHEREAS, the parties hereto desire to amend certain defined terms in Exhibit I of the Credit and Security Agreement as provided for herein; and

ACCORDINGLY, the Credit and Security Agreement is hereby amended as follows:

Section 1. AMENDMENTS TO THE CREDIT AND SECURITY AGREEMENT

The Credit and Security Agreement is hereby amended to delete the stricken text (indicated textually in the same manner as the following example: ~~stricken text~~) and to add the bold and double-underlined text (indicated textually in the same manner as the following example: **bold and double-underlined text**) as set forth on the pages of the Credit and Security Agreement attached as Exhibit A hereto. Exhibit A hereto constitutes a conformed copy of the Credit and Security Agreement including amendments made pursuant to this Amendment.

Section 2. MISCELLANEOUS.

(a) Effect on Credit and Security Agreement. The parties hereto hereby agree that, except as specifically amended herein, the Credit and Security Agreement is and shall continue to be in full force and effect and is hereby ratified and confirmed in all respects. Except as specifically provided herein, the execution, delivery and effectiveness of this Amendment

shall not operate as a waiver of any right, power or remedy of any party hereto under the Credit and Security Agreement, or constitute a waiver of any provision of any other agreement.

(b) Binding Effect. This Amendment shall inure to the benefit of and be binding on the respective successors and assigns of the parties to the Credit and Security Agreement.

(c) Governing Law. THIS AMENDMENT SHALL BE GOVERNED BY AND CONSTRUED AND INTERPRETED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK.

(d) Counterparts. This Amendment may be executed in any number of counterparts by facsimile or other written form of communication, each of which shall be deemed to be an original as against any party whose signature appears thereon, and all of which shall together constitute one and the same instrument.

(e) Amendments. This Amendment may not be modified or amended except in accordance with the terms of the Credit and Security Agreement.

(f) Agent Direction. By their signature below, the undersigned Lenders, certify that they represent 100 percent of the Lenders, and hereby authorize and direct the Administrative Agent and the Collateral Agent to execute this Amendment. The Administrative Agent and the Collateral Agent may conclusively rely upon such signatures in entering into and performing its obligations under this Amendment and shall in no instance be liable for any loss or damages resulting from its reliance upon the same.

CREDIT AND SECURITY AGREEMENT

THIS CREDIT AND SECURITY AGREEMENT, dated as of June 30, 2023 (the “**Closing Date**”), is entered into by and among:

(a) Bausch Receivables Funding LP, a limited partnership organized under the laws of the Province of Ontario, Canada, as borrower (the “**Borrower**”), by its general partner, Bausch Receivables Funding GP ULC, an unlimited company incorporated under the laws of the Province of Nova Scotia,

(b) Bausch Receivables Funding GP ULC (the “**Borrower GP**”), an unlimited liability company incorporated under the laws of the Province of Nova Scotia,

(c) Bausch Health US, LLC, a Delaware limited liability company, as the Master Servicer,

(d) FS KKR Capital Corp., KKR FS Income Trust, Cliffwater Corporate Lending Fund and KKR Corporate Lending LLC, as the Initial Lenders and the other Lenders (each as defined below) from time to time party hereto,

(e) GLAS USA LLC, in its capacity as administrative agent for the Lenders (in such capacity, together with its successors and assigns in such capacity, the “**Administrative Agent**”),

(f) GLAS Americas LLC, in its capacity as collateral agent for the Secured Parties (in such capacity, together with its successors and assigns in such capacity, the “**Collateral Agent**”),

(g) KKR Capital Markets LLC, in its capacity as Left Lead Arranger (in such capacity, the “**Left Lead Arranger**”), and

(gh) KKR Credit Advisors (US) LLC in its capacity as structuring advisor (in such capacity, the “**Structuring Advisor**”).

Unless defined elsewhere herein, capitalized terms used in this Agreement shall have the meanings assigned to such terms in Exhibit I hereto.

PRELIMINARY STATEMENTS

WHEREAS, the Borrower has requested, and the Lenders have agreed to make available to the Borrower, a revolving loan facility under which the Lenders may from time to time make Advances to the Borrower for the purposes of financing the acquisition by the Borrower of Eligible Receivables and for the other purposes permitted under the terms hereof.

NOW, THEREFORE, in consideration of the above premises and the agreements hereinafter set forth, the parties hereto hereby agree as follows:

1

ARTICLE I.

THE FACILITY

Section 1.1. **The Commitments.** On the terms and subject to the conditions set forth in this Agreement, including, without limitation, the conditions set forth in Article IV and in reliance upon the representations and warranties contained herein, each of the Lenders, severally and not jointly, agrees to make Advances from time to time and with respect to each Advance in the principal amount equal to such Lender's Percentage of the requested Advance on the applicable Borrowing Date; **provided** that (i) the aggregate principal amount of any Lender's Advance at any one time outstanding may not exceed the lesser of (A) the amount of such Lender's Revolving Commitment and (B) such Lender's Percentage of the Borrowing Base and (ii) in no event shall an Overadvance exist at any time prior to or after giving effect to any such Advance; **provided, further**, that the Administrative Agent shall not have any duty, liability or obligation regarding the Borrowing Base, the calculation thereof or the compliance with the previous proviso, or regarding the Borrowing Base Certificate delivered by the Borrower. Within the foregoing limits and subject to the terms, conditions and limitations set forth in this Agreement, the Borrower may borrow, pay or prepay and reborrow Advances. Each Lender's several Revolving Commitment shall automatically terminate on the Facility Termination Date and no new Advances shall be made after such date.

Section 1.2. **Requesting the Advances.**

(a) The Borrower may request the initial Advance to be made on the Initial Funding Date by delivering to the Administrative Agent a written notice in the form set forth as Exhibit II hereto (a "**Borrowing Notice**") by 10:00 a.m. (New York City time), not less than three (3) Business Days (or such shorter time as the Structuring Advisor and the Administrative Agent may agree in their sole and absolute discretion) prior to the date of the proposed Initial Funding Date. The initial Advance shall be subject to Sections 4.1 and 4.2.

(b) The Borrowing Notice for each Advance (including the initial Advance) shall be irrevocable and (A) certify that as of the Borrowing Date, no Overadvance exists or will result from such Advance and be prepared based on the numbers set forth in the Borrowing Base Certificate delivered in connection with such Borrowing Notice, (B) specify the amount of the requested Advance, (C) specify the amount of Borrowing Availability after giving *pro forma* effect to the requested Advance and (D) specify the applicable Borrowing Date, which, in the case of the initial Advance shall be the Initial Funding Date.

(c) After the initial Advance is made hereunder, if, based on any Borrowing Base Certificate delivered by the Borrower pursuant to the terms hereof during the Revolving Period, there is Borrowing Availability as of the applicable Borrowing Date, the Borrower may request subsequent Advances by delivering to the Administrative Agent a Borrowing Notice by 10:00 a.m. (New York City time) not less than three (3) Business Days (or such shorter time as the Structuring Advisor and the Administrative Agent may agree in their sole and absolute discretion) prior to the date on which such Advance is requested to be made; **provided** that the Borrower shall not request any Advances after October 30, 2027 and **provided** that the Borrower may not request more than one Advance in any given calendar week during the Revolving Period. All subsequent Advances shall be subject to Section 4.2. The aggregate principal amount of each borrowing of Advances shall not be less than \$10,000,000 (or such lesser amount as the Structuring Advisor may agree in its sole and absolute discretion from time to time) or an integral multiple of \$100,000 in excess thereof.

(d) The Administrative Agent shall give each Lender prompt notice of the Administrative Agent's receipt of a Borrowing Notice and the applicable Interest Rate

2

determined pursuant to Section 1.7. Each applicable Lender shall, before 11:00 a.m. (New York City time) on the date of the requested Advance, make available to the Administrative Agent at its address referred to in Section 12.2, in immediately available funds, such Lender's Percentage of the principal amount of the Advance requested. After the Administrative Agent's receipt of such funds and upon fulfillment of the applicable conditions set forth in Article IV, the Administrative Agent will make such funds available to the Borrower in accordance with the payment instructions set forth in the Borrowing Notice. All payments made by any Lender under this Section 1.2 shall be made without setoff or counterclaim of any kind.

(e) The failure of any Lender to make the Advance required by it on the date specified shall not relieve any other Lender of its obligations to make its Advance on such date and the proceeds of the Advances made by such other Lenders shall be disbursed as directed by the Borrower in accordance with the payment instructions set forth in the applicable Borrowing Notice, but no such other Lender or the Administrative Agent shall be responsible for the failure of any other Lender to make its Advance (as applicable) or payment required under this Agreement. If an Advance is not made on the proposed Borrowing Date therefor, in each case because any condition precedent to such requested Advance herein specified has not been met, the Administrative Agent shall return any amounts received to the respective Lenders without interest.

Section 1.3. Repayment of the Aggregate Revolving Principal

(a) To the extent not previously repaid, the Borrower shall repay the Aggregate Revolving Principal in full in cash on the Contractual Maturity Date or upon earlier demand by the Administrative Agent (acting at the direction of the Requisite Lenders), upon the acceleration of the Borrower Obligations following the occurrence and during the continuance of an Amortization Event.

(b) The Borrower shall have no right to prepay or repay the Aggregate Revolving Principal other than as provided in this Section 1.3.

(c) The Borrower, in accordance with Section 2.1(b), may prepay (i) the Aggregate Revolving Principal in part on any Payment Date, by including such prepayment in a Withdrawal/Transfer Certificate delivered pursuant to Section 2.3 or (ii) in full on any Business Day in connection with a termination of the Revolving Commitments and the Facility Limit in full pursuant to Section 1.4; **provided** that each partial prepayment of the Aggregate Revolving Principal (or part thereof) shall be in an aggregate amount not less than \$1,000,000 (or such lesser amount as the Lenders may agree in their sole and absolute discretion from time to time) or an integral multiple of \$500,000 in excess thereof. Upon the giving of notice of such

prepayment pursuant to a Withdrawal/Transfer Certificate, such principal amount or amounts specified to be prepaid shall become due and payable on the applicable date specified in such notice.

(d) If on any Interim Withdrawal Date an Overadvance exists, the Borrower shall prepay the Aggregate Revolving Principal in an aggregate amount equal to such Overadvance on such Interim Withdrawal Date. For the purposes of any prepayments or cure of Overadvances made under this Section 1.3, the Borrower shall provide written notice to the Administrative Agent and the Lenders of the amount of Aggregate Revolving Principal to be prepaid, as applicable. If an Overadvance exists on any Payment Date, available funds shall be paid to the Lenders in accordance with Section 2.1 or Section 2.2, as applicable.

(e) In the event that an Overadvance exists on any date of determination as determined by the Administrator or the Structuring Advisor (such calculations and determinations to be binding absent manifest error), the Borrower shall prepay the Aggregate

Revolving Principal in an amount equal to such Overadvance promptly following written notice of such Overadvance from the Structuring Advisor. Notwithstanding the provisions of Sections 2.2 and 2.3 or any other provision herein to the contrary, the Borrower may withdraw funds from the Collection Account to make such prepayment.

(f) The Borrower may also cure an Overadvance on any date by pledging additional Eligible Receivables or depositing additional funds in the Collection Account.

Section 1.4. Reduction and Termination of Commitments. The Revolving Commitments shall terminate on the Contractual Maturity Date. The Borrower may, upon at least five (5) Business Days' (or, in the case of a termination of the Revolving Commitments and the Facility Limit in whole, ninety (90) days) irrevocable written notice to the Administrative Agent (with a copy to the Lenders), terminate the Revolving Commitments and the Facility Limit (x) in whole or in part at any time after the seven-month anniversary of the Closing Date or (y) in part, at any time, if the Borrowing Base is less than 50% of the Facility Limit; **provided** that, in the case of clause (y), such termination reduces the Facility Limit to an amount equal to the greater of (1) \$200,000,000 and (2) Borrowing Base as of such date; **provided further** that, in the case of clauses (x) and (y), any such termination shall be made in conjunction with a repayment of any Aggregate Revolving Principal pursuant to Section 1.3 in excess of the Facility Limit after giving effect to such termination. The applicable Call Premium shall become due and payable to the Lenders at any time the Revolving Commitment and/or the receivables purchase facility is terminated, in whole or in part, prior to the Contractual Maturity Date (whether resulting from (i) a refinancing or other repayment of the Borrower Obligations hereunder, (ii) the occurrence of an Amortization Event, (iii) the acceleration of the Borrower Obligations by notice or automatically or (iv) otherwise) (each such date the Revolving Commitments are terminated, a "**Commitment Reduction Date**" and the aggregate principal amount of the Revolving Commitments reduced, the "**Commitment Reduction Amount**"), which for the avoidance of doubt shall be in addition to, without limitation, any accrued and unpaid interest on the amount of any Advance prepaid. The Borrower and the Master Servicer expressly agree that: (A) the Call Premium referenced herein are intended to be liquidated damages (and not unmatured interest), are reasonable under the circumstances and are the product of an arm's length transaction between sophisticated business people, ably represented by counsel, (B) the Call Premium shall be payable notwithstanding the then prevailing market rates at the time payment is made, (C) there has been a course of conduct between the Lenders and the Bausch Parties giving specific consideration in this transaction for such agreement to pay the Call Premium referenced in this Agreement and (D) the Borrower and the other Bausch Parties shall be estopped hereafter from claiming differently than as agreed to in this clause. The Borrower and the other Bausch Parties expressly acknowledge that its agreement to pay the Call Premium referenced herein to the Lenders as herein described is a material inducement for the Lenders to make the Advances in exchange for the consideration therefor.

Section 1.5. Payment Requirements. The Borrower or the Master Servicer, as the case may be, shall initiate a wire transfer from the Collection Account to the Administrative Agent's Account of amounts payable by it to the Administrative Agent or the Lenders pursuant to Section 2.1 or Section 2.2 no later than 1:00 p.m. (New York City time) on the Payment Date when due in immediately available funds, and the Administrative Agent shall promptly forward to the Lenders their respective shares of the funds so received. All computations of Interest, Call Premiums, Unused Facility Fees and per annum Fees under the Transaction Documents shall be made on the basis of a year consisting of three hundred sixty-five (365) days or, in the case of a leap year, three hundred sixty-six (366) days).

Section 1.6. Deemed Collections. Upon the occurrence of any Dilution, the Borrower shall be deemed to have received a Deemed Collection in the amount specified in the definition of "Deemed Collection," and the Outstanding Balance of each Pool Receivable affected thereby

shall be immediately reduced by the amount of such Dilution. If, after giving effect to any Dilution (and the reduction of each such Pool Receivable affected thereby) an Overadvance shall exist, the Borrower shall prepay the Aggregate Revolving Principal to the extent of such Overadvance in accordance with Sections 1.3 and 2.1(b)(iv).

Section 1.7. Interest.

(a) Prior to the occurrence of an Amortization Event, the Aggregate Revolving Principal shall accrue Interest for each day at a rate per annum equal to the Interest Rate. Upon the occurrence of an Amortization Event and during the continuance thereof, the Aggregate Revolving Principal shall accrue Interest for each day at a rate per annum equal to (i) the Interest Rate plus (ii) the Default Rate.

(b) At least two (2) Business Days before each Monthly Reporting Date, the Administrative Agent shall calculate the aggregate amount of Interest owing for the calendar month then most recently ended and shall notify the Borrower of such aggregate amount.

(c) The Borrower shall pay to the Administrative Agent for distribution to the Lenders in accordance with Article II their respective Percentages of such accrued and unpaid Interest, which Interest shall be payable monthly in cash in arrears on the first Payment Date following the last day of each calendar month.

(d) In connection with the use or administration of Term SOFR or ABR, the Administrative Agent (at the direction of, or with prior written consent of, the Requisite Lenders) will have the right to make Conforming Changes from time to time, in consultation with the Borrower, and, notwithstanding anything to the contrary herein or in any other Transaction Document, any amendments implementing such Conforming Changes will become effective without any further action or consent of any other party to this Agreement or any other Transaction Document. The Administrative Agent will promptly notify the Borrower and the Lenders of the effectiveness of any Conforming Changes in connection with the use or administration of Term SOFR or ABR.

Section 1.8. Benchmark Replacement Setting.

(a) Benchmark Replacement. Notwithstanding anything to the contrary herein or in any other Transaction Document, if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred prior to any setting of the then-current Benchmark, then (x) if a Benchmark Replacement is determined in accordance with clause (a) of the definition of "Benchmark Replacement" for such Benchmark Replacement Date, such Benchmark Replacement shall replace such Benchmark for all purposes hereunder and under any Transaction Document in respect of such Benchmark setting and subsequent Benchmark settings without any amendment to, or further action or consent of any other party to, this Agreement or any other Transaction Document and (y) if a Benchmark Replacement is determined in accordance with clause (b) of the definition of "Benchmark Replacement" for such Benchmark Replacement Date, such Benchmark Replacement shall replace such Benchmark for all purposes hereunder and under any Transaction Document in respect of any Benchmark setting at or after 5:00 p.m. (New York City time) on the fifth (5th) Business Day after the date notice of such Benchmark Replacement is provided to the Lenders without any amendment to, or further action or consent of any other party to, this Agreement or any other Transaction Document so long as the Administrative Agent has not received, by such time, written notice of objection to such Benchmark Replacement from the Requisite Lenders.

(b) Benchmark Replacement Conforming Changes. In connection with the use, administration, adoption or implementation of a Benchmark Replacement, the

Administrative Agent (at the direction of, or with prior written consent of, the Requisite Lenders) may make Conforming Changes from time to time, in consultation with the Borrower, and, notwithstanding anything to the contrary herein or in any other Transaction Document, any amendments implementing such Conforming Changes shall become effective without any further action or consent of any other party to this Agreement or any other Transaction Document.

(c) **Notices; Standards for Decisions and Determinations.** The Administrative Agent shall promptly notify the Borrower and the Lenders of (i) the implementation of any Benchmark Replacement and (ii) the effectiveness of any Conforming Changes in connection with the use, administration, adoption, or implementation of a Benchmark Replacement. The Administrative Agent shall notify the Borrower and the Lenders of (x) the removal or reinstatement of any tenor of a Benchmark pursuant to paragraph (d) below and (y) the commencement of any Benchmark Unavailability Period. Any determination, decision or election that may be made by the Administrative Agent or, if applicable, any Lender (or group of Lenders) pursuant to this Section 1.8, including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, shall be conclusive and binding absent manifest error and may be made in its or their sole discretion and without consent from any other party to this Agreement or any other Transaction Document, except, in each case, as expressly required pursuant to this Section 1.8.

(d) **Benchmark Unavailability Period.** Upon the Borrower's receipt of notice of the commencement of a Benchmark Unavailability Period, the Borrower may (i) revoke any pending request for an Advance to be made during any Benchmark Unavailability Period or (ii) request that such Advance be based on ABR.

Section 1.9. **Reserved.**

Section 1.10. **Designated Funding Offices.** Each Lender at its option may make any Advance or otherwise perform its obligations hereunder through any funding office (each, a "**Designated Funding Office**"); **provided** that any exercise of such option shall not affect the obligation of the Borrower to turn over Collections in accordance with the terms of this Agreement. Any Designated Funding Office shall be considered part of the applicable Lender; **provided** that such provisions that would be applicable with respect to the Advances actually provided by an Affiliate or branch of such Lender shall apply to such Affiliate or branch of such Lender to the same extent as such Lender.

Section 1.11. **Fees.**

(a) **Closing Date Fees.** The Borrower has agreed to pay such fees, in the amounts and on the dates, as set forth in the Structuring Fee Letter.

(b) **Agent Fees.** The Borrower has agreed to pay to the Administrative Agent and Collateral Agent such fees in the amounts and on the dates as set forth in the Agent Fee Letter.

(c) **Unused Facility Fees.** Commencing on the earlier of (i) the Initial Funding Date and (ii) August 1, 2023, the Borrower has agreed to pay to each Lender, through the Administrative Agent, an Unused Facility Fee for each day, which Unused Facility Fee shall accrue on each day from the earlier of (i) the Initial Funding Date and (ii) August 1, 2023, to (but excluding) the earlier of (A) the date which is one month prior to the Contractual Maturity Date or (B) such other date on which the Revolving Commitments have been terminated, and Unused Facility Fees accrued during any calendar month shall be due and payable in arrears on the first

Payment Date following such calendar month; **provided** that all accrued and unpaid Unused Facility Fees shall be due and payable on the Contractual Maturity Date.

Section 1.12. **Interim Withdrawals.** After the initial Advance is made hereunder but before October 30, 2027, the Borrower may withdraw funds from the Collection Account on any Business Day (each such withdrawal, an "**Interim Withdrawal**") in order to pay (A) the cash purchase price for Receivables purchased by the Borrower on such date in accordance with the terms of the Transfer Agreement, (B) **first**, any IG Deferred Purchase Price owing to the Originator pursuant to the Transfer Agreement and then, **second**, any Non-IG Deferred Purchase Price owing to the Originator pursuant to the Transfer Agreement or (C) so long as there is no unpaid Non-IG Deferred Purchase Price that has been identified as outstanding, any dividends or other distributions validly declared under the Borrower's organizational documents; **provided** that no Interim Withdrawal shall be

permitted to occur unless (i) the Borrower maintains an amount in the Collection Account (after transferring any amount to the Interest Reserve Account required under clause (ii) of this proviso) not less than the aggregate amount of Aggregate Revolving Principal for which the Borrower has delivered a notice under Section 1.3(c), all accrued but unpaid Interest (including Shortfall Interest), fees (including, without limitation, Unused Facility Fees), expenses and indemnified amounts (excluding any third party legal fees), in each case, calculated by the Administrator to be due and payable on or before the next Payment Date; (ii) to the extent any Interest Reserve Account Deficit exists with respect to the immediately preceding Monthly Reporting Date, the amount of such Interest Reserve Account Deficit shall have been transferred from the Collection Account to the Interest Reserve Account; (and the Borrower may transfer such amount from the Collection Account to the Interest Reserve Account); and (iii) each of the conditions set forth in Section 4.3 herein are satisfied with respect to such Interim Withdrawal.

Section 1.13. Interest on Past Due Amounts. The Borrower shall pay interest on all Borrower Obligations that are not paid on the applicable Monthly Payment Date when due for the period from such Monthly Payment Date until the date the same is paid in full at a rate equal to the sum of (x) the Interest Rate plus (y) the Default Rate (and without duplication of any other Default Interest that might be charged on such amounts for such period).

Section 1.14. Borrower Payments without Setoff or Counterclaim. All payments to be made by or on behalf of the Borrower, the Master Servicer or the Originator under the Transaction Documents shall be calculated and be made without (and free and clear of any deduction for) set-off or counterclaim.

Section 1.15. Interest Act (Canada). ~~(a)~~ For purposes of the Interest Act (Canada), (i) whenever any interest or fee under this Agreement or any other Transaction Document is calculated using a rate based on a year of 360 days or 365 days (or such other period that is less than a calendar year), as the case may be, the rate determined pursuant to such calculation, when expressed as an annual rate, is equivalent to (x) the applicable rate based on a year of 360 days or 365 days (or such other period that is less than a calendar year), as the case may be, (y) multiplied by the actual number of days in the calendar year in which the period for which such interest or fee is payable (or compounded) ends, and (z) divided by 360 or 365 (or such other period that is less than a calendar year), as the case may be, (ii) the principle of deemed reinvestment of interest does not apply to any interest calculation under this Agreement or any other Transaction Document, and (iii) the rates of interest stipulated in this Agreement or any other Transaction Document are intended to be nominal rates and not effective rates or yields.

Section 1.16. Maximum Interest. If any provision of this Agreement or any other Transaction Document would obligate the Borrower or the Borrower GP to make any payment of interest or other amount payable to any Secured Party in an amount or calculated at a rate which would be prohibited by applicable law or would result in a receipt by such Secured Party of

"interest" at a "criminal rate" (as such terms are construed under the Criminal Code (Canada)) then, notwithstanding such provisions, such amount or rate shall be deemed to have been adjusted with retroactive effect to the maximum amount or rate of interest, as the case may be, as would not be so prohibited by applicable law or so result in a receipt by such Secured Party of interest at a criminal rate, such adjustment to be effected, to the extent necessary, as follows: firstly, by reducing the amount or rate of interest required to be paid to such Secured Party under the applicable Transaction Document, and thereafter, by reducing any fees, commissions, premiums and other amounts required to be paid to such Secured Party which would constitute "interest" for purposes of Section 347 of the Criminal Code (Canada).

Section 1.17. Non-Recourse Nature of Deferred Purchase Price.

(a) The aggregate unpaid Deferred Purchase Price for all purchases pursuant to the Transfer Agreement shall be payable solely from Collections available thereof at the times and in the manner provided herein and therein.

(b) Notwithstanding any provision contained in this Agreement or any other Transaction Document to the contrary, the Administrative Agent and the Lenders shall not, and shall not be obligated to, pay any amount to the Originator in respect of any portion of the Deferred Purchase Price. Any amount that the Administrative Agent or any Lender is not obligated to pay pursuant to the prior sentence shall not constitute a claim (as defined in Section 101 of the Federal Bankruptcy Code) against, or corporate obligation of, the Administrative Agent or any Lender, as applicable, for any such insufficiency.

ARTICLE II.

PAYMENTS AND COLLECTIONS; WITHDRAWALS AND TRANSFERS; USE OF PROCEEDS

Section 2.1. Collections during the Revolving Period.

(a) On each Business Day during the Revolving Period, all Collections and Deemed Collections received by the Master Servicer or the Borrower (including any amounts deposited into the Collection Account and amounts remitted by the Master Servicer in accordance with Section 6.2) shall be administered in accordance with Section 6.2 and shall be (i) held in trust for the payment of the accrued and unpaid Aggregate Revolving Principal, if any, that is then due and owing, or (ii) distributed as otherwise set forth in this Agreement.

(b) On each Monthly Payment Date during the Revolving Period, the Borrower shall instruct the Collection Bank to withdraw and transfer collected funds on deposit in the Collection Account in accordance with the Executed Withdrawal/Transfer Certificate delivered by the Borrower and accepted by the Lenders immediately prior to the applicable Monthly Payment Date in the following order of priority:

(i) **first**, to the Administrative Agent, the Collateral Agent and any Replacement Administrator for each of their own account, an amount equal to the Fees, and any invoiced out-of-pocket expenses, indemnities and any other amounts (if any) due and payable to the Administrative Agent, Collateral Agent and/or Replacement Administrator under the Transaction Documents;

(ii) **second**, to the Administrative Agent for distribution to the Lenders an amount equal to all fees to the Lenders under the Transaction Documents and

8

any invoiced out-of-pocket expenses (if any) of the Lenders under Section 8.4, in each case, that are then due and payable;

(iii) **third**, to the Administrative Agent for distribution to the Lenders an amount equal to all Interest, including any Shortfall Interest, Call Premium, and Unused Facility Fees, in each case due and payable on such Monthly Payment Date, plus any previously accrued Interest, including any Shortfall Interest, Call Premiums or Unused Facility Fees that remains unpaid;

(iv) **fourth**, to the Administrative Agent for distribution to the Lenders an amount sufficient to repay the Aggregate Revolving Principal to the extent required to eliminate any Overadvance pursuant to Section 1.3(d);

(v) **fifth**, to the Administrative Agent for distribution to the Secured Parties an amount equal to all other amounts (if any) then due and payable to the Secured Parties by the Borrower under the Transaction Documents;

(vi) **sixth**, to the Interest Reserve Account the amount of the Interest Reserve Account Deficit on the immediately preceding Monthly Reporting Date, if any, to the extent not otherwise transferred pursuant to Section 1.12;

(vii) **seventh**, to the Borrower to pay accrued and unpaid administrative fees;

(viii) **eighth**, to the Master Servicer to pay accrued and unpaid Servicing Fees that are then due and owing to the Master Servicer;

(ix) **ninth**, at the option of the Master Servicer, to pay to the Originator any amounts remaining as payment of the Deferred Purchase Price in accordance with the Transfer Agreement (**provided** that following any such payment of Deferred Purchase Price, no Overadvance shall result therefrom);

(x) **tenth**, to make any optional prepayment of Aggregate Revolving Principal which the Borrower elects to make pursuant to Section 1.3(c); and

(xi) **eleventh**, after giving effect to the withdrawals and transfers specified in clauses (i) through (x) above (A) so long as no Amortization Event or Potential Amortization Event has occurred and is continuing and no Overadvance would result therefrom, to pay to the Borrower and/or the Originator or such other payees as the Borrower may instruct, an amount set forth in the executed Withdrawal/Transfer Certificate and certified therein which equals or is less than the remaining Available Collections, to be released to, or

to the order of, the Borrower to use for any purposes not prohibited under the Transaction Documents (and any such release to Persons other than the Borrower shall be free and clear from the Security Interest of the Administrative Agent and the Lenders) or (B) otherwise, all remaining Available Collections for deposit into the Collection Account.

(c) In carrying out the foregoing payments under clause (b), amounts received shall be applied in the numerical order provided until exhausted prior to the application to the next succeeding category.

(d) On each Monthly Payment Date during the Revolving Period, the Borrower shall instruct the Collection Bank to withdraw the amount of the Interest Reserve

Account Surplus on the immediately preceding Monthly Reporting Date, if any, and pay such amount into the Collection Account.

Section 2.2. Collections during the Liquidation Period.

(a) On each Payment Date during the Liquidation Period, the Borrower shall instruct the Collection Bank to withdraw and transfer funds on deposit in the Collection Account and the Interest Reserve Account in accordance with the Executed Withdrawal/Transfer Certificate delivered by the Borrower immediately prior to the applicable Payment Date in the following order of priority:

(i) **first**, to the Administrative Agent, the Collateral Agent and any Replacement Administrator for each of their own account, an amount equal to the Fees, and any invoiced out-of-pocket expenses, indemnities and any other amounts (if any) due and payable to the Administrative Agent, Collateral Agent and/or Replacement Administrator under the Transaction Documents;

(ii) **second**, to the Administrative Agent for distribution to the Lenders an amount equal to all fees payable to the Lenders under the Transaction Documents and any invoiced out-of-pocket expenses (if any) of the Lenders under Section 8.4, in each case, that are then due and payable;

(iii) **third**, to the Administrative Agent for distribution to the Lenders an amount equal to any Interest, including any Shortfall Interest and Unused Facility Fees, in each case due and payable, plus any previously accrued Interest, including any Shortfall Interest, and Unused Facility Fees not paid on a prior Payment Date;

(iv) **fourth**, to the Administrative Agent for distribution to the Lenders an amount sufficient to reduce to \$0 the Aggregate Revolving Principal;

(v) **fifth**, to the Administrative Agent for distribution to the Secured Parties an amount equal to other amounts (if any) then due and owing by the Borrower to the Secured Parties under the Transaction Documents;

(vi) **sixth**, to the Borrower to pay accrued and unpaid administrative fees;

(vii) **seventh**, to the Master Servicer to pay accrued and unpaid Servicing Fees that are then due and owing to the Master Servicer;

(viii) **eighth**, to pay to the Originator any amounts remaining as payment of Deferred Purchase Price in accordance with the Transfer Agreement; and

(ix) **ninth**, if the Borrower Obligations have been reduced to zero, to pay to the Borrower or such other payees as the Borrower may instruct, free and clear of the Security Interest of the Collateral Agent and the other Secured Parties, the remaining Available Collections.

(b) In carrying out the foregoing payments under clause (a), amounts received shall be applied in the numerical order provided until exhausted prior to the application to the next succeeding category.

Section 2.3. Withdrawal and Transfer Procedure.

(a) Maintenance of Funds in Collection Account. All amounts deposited into the Collection Account shall be held therein until withdrawn and transferred pursuant to Sections 1.3(e), 1.12, 2.1, or 2.2.

(b) Withdrawal/Transfer Certificate. Other than Interim Withdrawals permitted under Section 1.12 and other than a remittance of funds not constituting Collateral in accordance with Section 5.2(l), the Borrower shall not be entitled to withdraw or transfer of monies from the Collection Account without having provided the Administrative Agent, the Collateral Agent and the Structuring Advisor a Withdrawal/Transfer Certificate authorizing such withdrawal or transfer. Withdrawals or transfers from the Collection Account (except as otherwise expressly provided herein) shall be made by the Collection Bank as instructed in accordance with a Withdrawal/Transfer Certificate signed by the Borrower, the receipt of which is acknowledged by the Administrative Agent and the Collateral Agent, and which has been "accepted" by the Requisite Lenders in accordance with clause (d) below (an "**Executed Withdrawal/Transfer Certificate**"); **provided** that no Withdrawal/Transfer Certificate shall be required to be "accepted" by the Requisite Lenders during the Liquidation Period. Each Withdrawal/Transfer Certificate shall request withdrawals and transfers to and from the Collection Account in the amounts, at the times and in the order of priority set out in Sections 2.1(b) and 2.2(a), as applicable.

(c) Delivery and Form of Withdrawal/Transfer Certificate. Other than in connection with any Interim Withdrawal pursuant to Section 1.12, by no later than 4:00 p.m. on the applicable Monthly Reporting Date, the Borrower shall deliver to the Administrative Agent, the Collateral Agent and the Structuring Advisor for purposes of any withdrawal or transfer on the succeeding Monthly Payment Date (unless no withdrawal or transfer is anticipated in respect of such Monthly Payment Date) a Withdrawal/Transfer Certificate signed by a Responsible Officer of the Borrower (unless no withdrawal or transfer is anticipated in respect of such Monthly Payment Date) specifying:

- (i) in the case of any transfer, the Person(s) to whom, such transfer is to be made;
- (ii) the amount requested to be withdrawn or transferred from the Collection Account (and the calculation thereof, if required, in accordance with the relevant provisions of Section 2.1(b) or Section 2.2(a));
- (iii) the date on which such withdrawal or transfer is to be made; and
- (iv) the purpose for which the amount so withdrawn or transferred is to be applied (if not evident from the nature of the payment or identity of the intended payee).

(d) Review of Certificates.

(i) In the event that, prior to the relevant Payment Date, the Structuring Advisor shall reasonably determine that any amounts specified in a Withdrawal/Transfer Certificate (or an amended Withdrawal/Transfer Certificate), as applicable, have been manifestly incorrectly calculated, the Administrative Agent (at the written direction of the Requisite Lenders) or the Structuring Advisor, as applicable, shall notify the Administrative Agent, the Collateral Agent and the Borrower in writing promptly but in no case later than the second Business

Day prior to the applicable Payment Date. The Requisite Lenders and the Borrower shall endeavor to agree and complete the final form Withdrawal/Transfer Certificate (or any amended or corrected certificate), as applicable, and deliver such certificate to the Administrative Agent, the Collateral Agent and the Structuring Advisor, no later than 10:00 a.m. (New York time) on the Business Day prior to the

Payment Date to which such certificate relates. For purposes hereof, an “accepted” Withdrawal/Transfer Certificate shall include any such certificate that has been deemed to have been consented to by the Requisite Lenders pursuant to Section 2.3(d)(iii).

(ii) The Administrative Agent’s and the Collateral Agent’s acknowledgement of receipt of any Withdrawal/Transfer Certificate (or any amended or corrected Withdrawal/Transfer Certificate) shall not constitute a review or verification of the information or calculations in any Withdrawal/Transfer Certificate by the Administrative Agent or the Collateral Agent and each of the Administrative Agent and the Collateral Agent shall have no liability for any such information or calculations or otherwise delivering or complying with any such Withdrawal/Transfer Certificate. The Administrative Agent and the Collateral Agent may (but shall not be required to) acknowledge receipt of a Withdrawal/Transfer Certificate without any further direction of the Lenders. The Borrower shall instruct the Collection Bank to implement the transfers described in each Executed Withdrawal/Transfer Certificate (or such amended or corrected certificate) on the applicable Payment Date in accordance with Section 2.3(e) and the other provisions of this Agreement.

(iii) Unless the Requisite Lenders provide written comments or an objection to the Administrative Agent, the Collateral Agent and the Borrower within one (1) Business Day of such Withdrawal/Transfer Certificate being furnished by Borrower as provided in clause (c) above, the Lenders shall be deemed to have consented to and accepted the Withdrawal/Transfer Certificate.

(e) Implementation of Withdrawal/Transfer Certificate.

(i) Except as otherwise provided in this Agreement, the Borrower shall instruct the Collection Bank to pay or transfer the amount(s) specified in each Executed Withdrawal/Transfer Certificate by initiating such payment or transfer on the applicable Payment Date set out in such Executed Withdrawal/Transfer Certificate for such payment or transfer.

(ii) If any payments made pursuant to the Transaction Documents (including this Section 2.3) are requested to be made by the Administrative Agent to any Person that is not a party to this Agreement, the Borrower shall provide to the Administrative Agent the documentation described in Section 8.5 in respect of such payee no later than 11:00 a.m. (New York time) (A) two (2) Business Days (in the case of a U.S. entity) or (B) five (5) Business Days (in the case of a non-U.S. entity) prior to the date on which such payment is to be made.

(f) Failure of Borrower to Submit Withdrawal/Transfer Certificate. Notwithstanding any other provision of this Agreement to the contrary, if at any time the Borrower fails to timely submit or cause to be timely submitted an Executed Withdrawal/Transfer Certificate for the withdrawal, transfer or payment of amounts from or to any Person or the Collection Account or the Interest Reserve Account, the Administrative Agent and the Collateral Agent, at the written direction of the Requisite Lenders, shall effect any withdrawal,

12

transfer or payment, as the case may be, or at the written direction of the Requisite Lenders, shall instruct the Collection Bank to effect any withdrawal, transfer or payment, of any amounts then due and payable or required to be transferred pursuant to the terms of this Agreement or any other Transaction Document.

Section 2.4. Payment Rescission. No payment of any of the Aggregate Revolving Principal shall be considered paid or applied hereunder to the extent that, at any time, all or any portion of such payment or application is rescinded by application of Law or judicial authority, or must otherwise be returned or refunded for any reason. The Borrower shall remain obligated for the amount of any payment or application so rescinded, returned or refunded, and shall promptly pay to the Administrative Agent for distribution to the Lenders the full amount thereof together with any Interest thereon from the date of any such rescission, return or refunding.

ARTICLE III.

REPRESENTATIONS AND WARRANTIES

Section 3.1. Representations and Warranties of Borrower. The Borrower and the Borrower GP each hereby represents and warrants to the Administrative Agent, the Collateral Agent and the Lenders as of the date hereof, as of each Monthly Payment Date, as of the date of each Interim Withdrawal and as of each Borrowing Date that:

(a) Special Purpose Entity. It is an entity formed for the purposes of entering into the transactions contemplated in the Transaction Documents and has not conducted any business or operations prior to the date hereof other than that which is incidental to those transactions and the Borrower is a limited partnership organized under the laws of the Province of Ontario, Canada and a “Canadian resident partnership” for the purposes of the Income Tax Act (Canada).

(b) Organization and Qualification. (i) It is duly organized, validly existing and in good standing under the laws of its jurisdiction of organization, (ii) it has (or, in the case of the Borrower, through the Borrower GP it has) all necessary power and capacity, and the legal right, to own and operate its property, to lease the property it operates as lessee and to conduct the business in which it is currently engaged, and (iii) it is duly qualified or licensed to do business and is in good standing in all jurisdictions in which the ownership of its properties or the nature of its activities or both makes such qualification or licensing necessary, except to the extent that the failure to be so qualified or licensed could not reasonably be expected to have a Material Adverse Effect.

(c) Authority; No Conflict or Violation. The execution and delivery by it of the Transaction Documents to which it is a party, the performance of its obligations under this Agreement and the other Transaction Documents to which it is a party, and the consummation of the transactions contemplated in this Agreement and the other Transaction Documents to which it is a party, (i) are within its power and capacity, (ii) have been duly authorized by all necessary action and (iii) do not and will not (A) require any authorization, consent, approval, order, filing, registration or qualification by or with any Governmental Authority, except those that have been obtained and are in full force and effect and except for the filings or notices as may be necessary to perfect the Security Interest granted pursuant to this Agreement and the Canadian Security Agreement, (B) violate any provision of (x) any applicable Law or of any order, writ, injunction or decree having applicability to it and in effect on the date of such representation or (y) its Organizational Documents, (C) result in a breach of or constitute a default under any indenture or loan or credit agreement or any other material agreement, lease or instrument to which it is a party or by which it or its properties may be bound or affected, or (D) result in, or require, the creation or imposition of any Lien or other charge or encumbrance of any nature upon or with

13

respect to any of the assets now owned or hereafter acquired by it; except, with respect to clauses (i) and (iii) above, where the failure to so comply with any of the foregoing could not reasonably be expected to have a Material Adverse Effect.

(d) Legal Agreements. This Agreement and each of the other Transaction Documents to which it is a party have been duly authorized, executed and delivered by it, and constitute the legal, valid and binding obligations of it, enforceable against it in accordance with their respective terms, except to the extent that such enforcement may be limited by bankruptcy, insolvency or similar Laws affecting the enforcement of creditors' rights generally or by general equitable principles.

(e) Compliance with Laws. It has complied with all applicable Laws, the non-compliance with which could reasonably be expected to have a Material Adverse Effect.

(f) Margin Regulations. It is not engaged in the business of extending credit for the purpose of purchasing or carrying margin stock (within the meaning of Regulations T, U and X of the Board of Governors of the Federal Reserve System), and no part of the proceeds of any Advance will be used to purchase or carry any margin stock or to extend credit to others for the purpose of purchasing or carrying any margin stock.

(g) Not an Investment Company; Volcker Rule. It (i) is not a “covered fund” under the Volcker Rule and (ii) is not required to register as an “investment company” within the meaning of the Investment Company Act. In determining that it is not a “covered fund” under the Volcker Rule, it relies on, and is entitled to rely on, an exemption from the definition of “investment company” set forth in Section 3(c)(5) of the Investment Company Act.

(h) Solvency. It is, and after giving effect to the transactions contemplated by this Agreement and the other Transaction Documents, will be, Solvent.

(i) Sanctions. (i) It (A) is not a Sanctioned Person, (B) does not have assets in a Sanctioned Country or in the possession, custody or control of a Sanctioned Person, or (C) does not do business in or with, or derives any of its operating income from investments in or transactions with, any Sanctioned Country or Sanctioned Person in violation of any Law or directive enforced by any Compliance Authority; and (ii) the proceeds of any

Advance will not be used to fund any operations in, finance any investments or activities in, or, make any payments to, a Sanctioned Country or Sanctioned Person in violation of any Law or directive enforced by any Compliance Authority.

(j) Anti-Terrorism Laws. It is not in violation of any Anti-Terrorism Laws and does not engage in or conspire to engage in any transaction that evades or avoids, or has the purpose of evading or avoiding, or attempts to violate, any of the prohibitions set forth in any Anti-Terrorism Laws. It is not (a **"Blocked Person"**): (i) a Person that is listed in the annex to, or is otherwise subject to the provisions of, the Executive Order No. 13224; (ii) a Person owned or controlled by, or acting for or on behalf of, any Person that is listed in the annex to, or is otherwise subject to the provisions of, the Executive Order No. 13224; (iii) a Person with which any Lender is prohibited from dealing with or otherwise engaging in any transaction by any Anti-Terrorism Laws; (iv) a Person that commits, threatens or conspires to commit or supports "terrorism" as defined in the Executive Order No. 13224; (v) a Person that is named as a "specially designated national" on the most current list published by the U.S. Treasury Department Office of Foreign Asset Control at its official website or any replacement website or other replacement official publication of such list; or (vi) a Person who is affiliated or associated with a Person listed above. It does not (A) conduct any business or engages in making or receiving any contribution of funds, goods or services to or for the benefit of any Blocked

14

Person, or (B) deals in, or otherwise engages in any transaction relating to, any property or interests in property blocked pursuant to the Executive Order No. 13224.

(k) Compliance with Anti-Corruption Laws and Sanctions. No use of proceeds of any Advance will violate any Anti-Corruption Laws or applicable Sanctions.

(l) Places of Business and Locations of Records. Its principal place of business, principal residence, chief executive office and the other locations (if any) where its Records are located are at the addresses listed on Exhibit III; **provided** that it may amend the addresses on Exhibit III hereto at any time upon fifteen (15) Business Days' prior written notice to the Administrative Agent and the Structuring Advisor.

(m) Names and Identification Numbers. It has not used any legal names, trade names or assumed names other than the name in which it has executed this Agreement. The Borrower's sole jurisdiction of organization is the Province of Ontario and such jurisdiction has not changed. The Borrower GP's sole jurisdiction of incorporation is the Province of Nova Scotia.

(n) Ownership of Borrower. The Parent owns, directly or indirectly, one hundred percent (100%) of the issued and outstanding Capital Stock and all other Equity Interests of the Borrower GP and the Borrower free and clear of any Adverse Claim. The Borrower's and Borrower GP's Capital Stock are validly issued and there are no options, warrants or other rights to acquire Capital Stock of the Borrower or the Borrower GP. For the avoidance of doubt, the foregoing shall in no way restrict the ability of (i) the Parent to make capital contributions to the Borrower or its partners, including the Borrower GP or (ii) the Borrower to make distributions to the Borrower GP and the Parent, in each case, in accordance with the terms of this Agreement.

(o) The Collection Account and the Interest Reserve Account.

(i) Nature of Accounts. Each of the Collection Account and the Interest Reserve Account constitutes a "deposit account" within the meaning of the applicable UCC.

(ii) Ownership. Each of the Collection Account and the Interest Reserve Account is in the name of the Borrower, and the Borrower owns and has good and marketable title to the Collection Account and the Interest Reserve Account free and clear of any Adverse Claim other than Permitted Liens.

(iii) Control Agreements. On and after the Initial Funding Date, each of the Collection Account and the Interest Reserve Account is subject to a Control Agreement. The Borrower has not granted any Person (other than the Collateral Agent, the Master Servicer and their respective assigns) access to or control of the Collection Account or the Interest Reserve Account, or the right to take dominion and control of the Collection Account or the Interest Reserve Account at a future time or upon the occurrence of a future event. To the extent that funds other than Collections are deposited into the Collection Account or the Interest Reserve Account, the Borrower or the Master Servicer can promptly trace and identify which funds constitute Collections.

(iv) Instructions. None of the Borrower, the Master Servicer or the Originator has consented to the applicable Collection Bank complying with instructions from any Person other than the Collateral Agent in respect of any Collection Account or the Interest Reserve Account.

15

(v) Eligible Bank. The Collection Account and the Interest Reserve Account is held at an Eligible Bank or at a Bank that was an Eligible Bank in the precedent thirty (30) days.

(p) Ordinary Course of Business. Each remittance of Collections by or on behalf of the Borrower to the Lenders and the Administrative Agent under this Agreement will have been (i) in payment of a debt incurred by the Borrower in the ordinary course of business or financial affairs of the Borrower and (ii) made in the ordinary course of business or financial affairs of the Borrower.

(q) Bulk Sales Act. No transaction contemplated by this Agreement requires compliance by it with any bulk sales act or similar law.

(r) Good Title. The Borrower is the legal and beneficial owner of each Pool Receivable, together with the Related Security and Collections, with respect thereto, free and clear of any Lien except for Permitted Liens.

(s) Perfection.

(i) All appropriate financing statements, financing statement amendments, continuation statements and other documents have been filed in the proper filing office in the appropriate jurisdictions under the applicable Law in order to perfect (and continue the perfection of) the sale of the Receivables and Related Security from the Originator to the Borrower pursuant to the Transfer Agreement.

(ii) This Agreement, the Canadian Security Agreement and each Control Agreement, together with a financing statement, is effective to create in favor of the Collateral Agent, for the benefit of the Secured Parties, a valid and, upon the filing of the applicable financing statements, perfected Security Interest in the Collateral, free and clear of any Lien except for Permitted Liens.

(iii) The Pool Receivables constitute "accounts" or "general intangibles" (other than "payment intangibles") within the meaning of Section 9-102 of the UCC.

(iv) Notwithstanding any other provision of this Agreement or any other Transaction Document, the representation contained in this Section 3.1(s) shall be continuing and remain in full force and effect until the Final Payout Date.

(t) Compliance with Credit and Collection Policy. The Borrower has complied in all material respects with the Credit and Collection Policy with regard to each Pool Receivable and the related Contract, other than any Pool Receivable and the related Contract with respect to which there has been a Deemed Collection payment in accordance with Section 1.6.

(u) Enforceability of Contracts. Each Contract with respect to each Pool Receivable (i) is valid and effective and the Originator has not received a notice of termination with respect to such Contract that affects the existence, validity or timely collectability of any Pool Receivable thereunder as of such date of termination and (ii) is effective to create, and has created, a valid and binding obligation of the related Obligor to pay the Outstanding Balance of such Receivable created thereunder, subject to ordinary course dilution consistent with Standard Business Practices (without regard to any cap specified in the definition of Standard Business Practices), and any accrued interest thereon, enforceable against such Obligor in accordance with

16

its terms, except as such enforcement may be limited by applicable bankruptcy, insolvency, reorganization or other similar laws relating to or limiting creditors' rights generally and by general principles of equity (regardless of whether enforcement is sought in a proceeding in equity or at law).

(v) **Accuracy of Information.** No written information (including, without limitation, all Monthly Reports) heretofore furnished by the Borrower to the Administrative Agent, the Collateral Agent or any of the Lenders for purposes of or in connection with this Agreement and the transactions contemplated hereby, when taken as a whole, contains any material misstatement of fact or omits to state any material fact necessary to make such information (taken as a whole) not materially misleading in light of the circumstances under which made, in each case, as of the date such information is furnished (it being recognized by the Administrative Agent, the Collateral Agent and the Lenders that (i) any projections and forecasts provided by the Borrower are based on good faith estimates and assumptions believed by the Bausch Parties to be reasonable as of the date of the applicable projections or assumptions and that actual results during the period or periods covered by any such projections and forecasts may materially differ from projected or forecasted results and (ii) no representation is made with respect to information of a general economic or general industry nature). All such written information heretofore furnished by the Borrower to the Administrative Agent, the Collateral Agent or any of the Lenders which pertains to the Pool Receivables was prepared in accordance with, and reflects practices and procedures that comply in all material respects with, the Credit and Collection Policy, and there has been no material change in the Credit and Collection Policy or application thereof since the date any such information was so furnished (other than any changes thereto expressly permitted under this Agreement).

(w) **Material Adverse Effect.** Since the Closing Date, no event has occurred and is continuing that could reasonably be expected to have a Material Adverse Effect.

(x) **Receivables.** With respect to each Pool Receivable sold or otherwise transferred by the Originator to the Borrower under the Transfer Agreement, on the date of such sale:

(i) Such Receivable was sold or otherwise transferred by the Originator to the Borrower pursuant to the Transfer Agreement on the relevant Transfer Date.

(ii) Such Receivable, to the extent designated as an Eligible Receivable in the Monthly Report last delivered before the relevant Transfer Date, was an Eligible Receivable as of the last day of the period covered by such Monthly Report, and the Outstanding Balance of each such Eligible Receivable as of the last day of the period covered by such Monthly Report was accurately set forth on such Monthly Report.

(iii) The Borrower has received each Receivable as a sale and absolute conveyance from the Originator in exchange for an amount that constitutes fair consideration and reasonably equivalent value therefor. No sale (x) has been made for or on account of an antecedent debt owed by the Originator to the Borrower or (y) has been made with the intent to hinder, defraud or delay any present or future creditors of the Originator or the Borrower.

(iv) Except for general knowledge that the Receivables are subject to ordinary course dilution consistent with Standard Business Practices, the Borrower has no actual knowledge of any fact (including any defaults by the Obligor under any Receivable) that causes it to expect that any payments on any Receivable

17

designated as an Eligible Receivable in any Borrowing Base Certificate will not be paid in full when due.

(v) No payment by an Obligor to the Borrower (or to the Originator for the account or benefit of the Borrower) under any Eligible Receivable is subject to a deduction or withholding for any Tax or if an Obligor is required by any Requirement of Law to deduct any Tax from such a payment, then, pursuant to the Contract under which the Eligible Receivable arose, the sum payable to the Borrower (or to the Originator for the benefit of the Borrower) shall be increased as necessary so that after the Obligor makes all required deductions or withholding (including deductions or withholding for any additional amounts paid for any reduction or withholding for any tax) the Borrower (or the Originator for the account or benefit of the Borrower) receives an amount equal to the sum it would have received had no such deductions or withholding been made.

(y) Opinions The facts regarding the Borrower GP, the Borrower, the Master Servicer, the Originator, the Receivables, the Related Security and the related matters set forth or assumed in each of the opinions of counsel delivered in connection with this Agreement and the Transaction Documents are true and correct in all material respects.

(z) Other Transaction Documents. Each representation and warranty made by it under each other Transaction Document to which it is a party is true and correct in all material respects as of the date when made, subject to the qualifications set forth in such Transaction Document.

(aa) Taxes. (i) It has timely filed all federal and material provincial, state, local and foreign income and franchise and other material Tax returns, reports and statements required to be filed by it with the appropriate Governmental Authorities in all jurisdictions in which such Tax returns are required to be filed and (ii) all material amounts of Taxes reflected therein or otherwise due and payable by it have been paid prior to the date on which any fine, penalty, interest or late charge may be added thereto for non-payment thereof except for any Taxes that are being contested in good faith by appropriate proceedings and as to which adequate reserves have been provided in accordance with GAAP.

(bb) Tax Status. The Borrower is, and at all relevant times has been since formation, a "Canadian partnership" and a "Canadian resident partnership" for the purposes of the Income Tax Act (Canada). Neither the Borrower nor the Borrower GP is subject to any Tax in any jurisdiction outside Canada. The Borrower is not and has not at any relevant time been a "SIFT partnership" as defined in Part IX.1 of the Income Tax Act (Canada). Neither the Borrower nor the Borrower GP has taken (or, to the extent so able, permitted any other Person to take) any action that would reasonably be expected to cause either the Borrower or the Borrower GP to become subject to any material amount of Taxes imposed by a federal, provincial, territorial, or municipal taxing authority, other than an action contemplated under the Transaction Documents.

(cc) ERISA Compliance.

(i) Except as could not reasonably be expected, individually or in the aggregate, to result in a Material Adverse Effect, (i) each Plan is in compliance with the applicable provisions of ERISA, the Code and other applicable federal and state laws and (ii) each Plan that is intended to be a qualified plan under Section 401(a) of the Code may rely upon an opinion letter for a prototype plan or has received a favorable determination letter from the IRS to the effect that the form of such Plan is qualified under Section 401(a) of the Code and the trust

18

related thereto has been determined by the IRS to be exempt from federal income tax under Section 501(a) of the Code, or an application for such a letter will be submitted to the IRS within the applicable required time period with respect thereto, and to the knowledge of the Borrower, nothing has occurred that would prevent, or cause the loss of, such tax-qualified status.

(ii) Except as could not reasonably be expected, individually or in the aggregate, to result in a Material Adverse Effect, (i) each Foreign Plan is in compliance in all material respects with all Requirements of Law applicable thereto and (ii) with respect to each Foreign Plan, none of the Borrower or any of its Subsidiaries or any of their respective directors, officers, employees or agents has engaged in a transaction that could subject the Borrower or any such Subsidiary, directly or indirectly, to any Tax or civil penalty.

(iii) There are no pending or, to the knowledge of the Borrower, threatened claims, actions or lawsuits, or action by any Governmental Authority, with respect to any Plan that could be reasonably be expected to have a Material Adverse Effect. There has been no "prohibited transaction" within the meaning of Section 4975 of the Code or Section 406 or 407 of ERISA and not otherwise exempt under Section 408 of ERISA with respect to any Plan that has resulted or could reasonably be expected to result in a Material Adverse Effect.

(iv) (i) No ERISA Event has occurred and neither any Bausch Party nor, to the knowledge of the Borrower, any ERISA Affiliate is aware of any fact, event or circumstance that could reasonably be expected to constitute or result in an ERISA Event, (ii) any Bausch Party and each ERISA Affiliate has met all applicable requirements under the Pension Funding Rules in respect of each Plan, and no waiver of the minimum funding standards under such Pension Funding Rules has been applied for or obtained, (iii) as of the most recent valuation date for any Plan, the present value of all accrued benefits under such Plan (based on the actuarial assumptions used to fund such Plan) did not exceed the value of the assets of such Plan allocable to such accrued benefits, (iv) neither any Bausch Party nor, to the knowledge of the Borrower, any ERISA Affiliate knows of any facts or circumstances that could reasonably be expected to cause the

funding target attainment percentage (as defined in Section 430(d)(2) of the Code) for any Plan, if applicable, to drop below 80% as of the most recent valuation date, (v) neither any Bausch Party nor any ERISA Affiliate has incurred any liability to the PBGC other than for the payment of premiums, and there are no premium payments which have become due that are unpaid, (vi) neither any Bausch Party nor any ERISA Affiliate has engaged in a transaction that could be subject to Sections 4069 or 4212(c) of ERISA and (vii) no Plan has been terminated by the plan administrator thereof or by the PBGC and no event or circumstance has occurred or exists that could reasonably be expected to cause the PBGC to institute proceedings under Title IV of ERISA to terminate any Plan or Multiemployer Plan, except with respect to each of the foregoing clauses (i) through (vii), as could not reasonably be expected, individually or in the aggregate, to result in a Material Adverse Effect.

(dd) Litigation and Other Proceedings. There are no actions, suits, proceedings, claims, investigations or disputes pending or, to its knowledge, threatened in writing, at law, in equity, in arbitration or before any Governmental Authority, by or on behalf of any creditor of Bausch or its Affiliates or any other Person against Bausch or its Affiliates, the Administrative Agent, the Collateral Agent or any Lender that either individually or in the aggregate, could reasonably be expected to (i) materially and adversely affect (A) the validity or enforceability of this Agreement or any other Transaction Document, (B) the consummation of any of the

19

transactions contemplated by this Agreement or any other Transaction Document, or (C) the performance by a Bausch Party of its obligations under this Agreement or any other Transaction Document, (ii) result in the Borrower and its assigns (including the Collateral Agent) failing to have a valid and perfected first priority Security Interest under the applicable laws of the United States of America or any applicable state or territory thereof, in the Pool Receivables and the Related Security or Collections with respect thereto, free and clear of any Adverse Claim other than Permitted Liens or (iii) except as disclosed in the Parent's public filings prior to the Closing Date, individually or in the aggregate for all such actions, suits, proceedings, claims, investigations and disputes could reasonably be expected to have a Material Adverse Effect on any of the Borrower, the Borrower GP or Bausch.

(ee) Non-consolidation. Notwithstanding any financial consolidation with the Parent's consolidated financial statements as permitted under GAAP, it is operated in such a manner that the separate existence of the Borrower GP and the Borrower, on the one hand, and Bausch and its Affiliates (other than the Borrower GP and the Borrower), on the other hand, would not be disregarded in the event of the bankruptcy or insolvency of Bausch or any of its Affiliates and, without limiting the generality of the foregoing, in accordance with (and at all times will comply with) the terms of its Organizational Documents.

(ff) Amortization Events. No event has occurred and is continuing that constitutes an Amortization Event or a Potential Amortization Event.

(gg) No Other Liens. On the Closing Date and on each Borrowing Date, none of the properties and assets (including the Pool Receivables and other Collateral) of the Borrower, or the Borrower GP Collateral, are subject to any Liens (other than Permitted Liens) not permitted by this Agreement.

(hh) Enforceable Obligations. The sale or other transfer of the Pool Receivables to the Borrower under the Transfer Agreement and the other transactions contemplated under the Transaction Documents will not result in a breach of any of the provisions of the Contracts relating to the Receivables (including provisions relating to confidentiality and assignability).

(ii) Ventures and Subsidiaries; Outstanding Debt. It owns no Capital Stock of, or other interest in, any Person, other than, in the case of the Borrower GP, its ownership as a general partner of Capital Stock of the Borrower. Other than the Indebtedness arising under this Agreement and the other Transaction Documents (including any Deferred Purchase Price) and Indebtedness permitted under Section 5.2(g), it has no outstanding Indebtedness.

(jj) Financial Information. All balance sheets, all statements of income and of cash flow and all other financial information of the Parent and its consolidated Affiliates (other than projections) furnished to the Administrative Agent or any of the Lenders and described in Section 5.1 have been or will be prepared in accordance with GAAP and do or will present fairly in all material respects the financial condition and results of operations of Bausch and its consolidated Affiliates, as applicable, as at such dates and for such periods in accordance with GAAP, subject, in the case of unaudited financial statements, to changes resulting from normal year-end audit adjustments and the absence of footnotes.

(kk) **Bank Accounts.** The only bank accounts maintained by the Borrower in its name are the Collection Account and the Interest Reserve Account. Each of the Collection Account and the Interest Reserve Account is free and clear of any Liens other than the Liens created by this Agreement and Permitted Liens. The Collateral Agent will have a first priority perfected Security Interest in the Collection Account, the Interest Reserve Account and all Collateral on deposit therein upon execution and delivery of a Control Agreement.

20

Section 3.2. **Representations and Warranties of the Master Servicer.** The Master Servicer hereby represents and warrants to the Administrative Agent and the Lenders as of the date hereof, as of each Monthly Payment Date, as of the date of each Interim Withdrawal and as of each Borrowing Date that:

(a) **Organization and Qualification.** The Master Servicer is a limited liability company duly organized, validly existing and in good standing under the Laws of Delaware and the Master Servicer has obtained all necessary licenses and approvals in all jurisdictions in which the conduct of its business or the servicing of the Pool Receivables as required by this Agreement requires such qualification, licenses or approvals, except to the extent that any such failure could not reasonably be expected to have a Material Adverse Effect.

(b) **Authority; No Conflict or Violation.** The execution and delivery by the Master Servicer of the Transaction Documents to which it is a party, the performance of its obligations under this Agreement and the other Transaction Documents to which it is a party, and the consummation of the transactions contemplated in this Agreement and the other Transaction Documents to which it is a party, have been duly authorized by all necessary corporate action on the part of the Master Servicer and do not and will not (A) require any consent or approval of its Sole Member or equivalent governing body, or any authorization, consent, approval, order, filing, registration or qualification by or with any Governmental Authority, except those that have been obtained and are in full force and effect, (B) violate any provision of (x) any applicable Law or of any order, writ, injunction or decree having applicability to the Master Servicer as of the date of the representation or (y) the Organizational Documents of the Master Servicer, (C) result in a breach of or constitute a default under any indenture or loan or credit agreement or any other material agreement, lease or instrument to which the Master Servicer is a party or by which it or its properties may be bound or affected, or (D) result in, or require, the creation or imposition of any Lien or other charge or encumbrance of any nature upon or with respect to any of the assets now owned or hereafter acquired by it (other than pursuant to the Transaction Documents) except, with respect to clauses (A) and (D) above, where the failure to so comply with any of the foregoing could not reasonably be expected to have a Material Adverse Effect.

(c) **Legal Agreements.** This Agreement and each of the other Transaction Documents to which the Master Servicer is a party have been duly authorized, executed and delivered by the Master Servicer, and constitute the legal, valid and binding obligations of the Master Servicer, enforceable against it in accordance with their respective terms, except to the extent that such enforcement may be limited by bankruptcy, insolvency or similar Laws affecting the enforcement of creditors' rights generally or by general equitable principles.

(d) **Information.** No Monthly Report or other written information furnished by the Master Servicer to the Administrative Agent, the Collateral Agent or any Lender for purposes of or in connection with this Agreement and the transactions contemplated hereby, when taken as a whole, contains any material misstatement of fact or omits to state any material fact necessary to make such information (taken as a whole) not materially misleading in light of the circumstances under which made, in each case, as of the date such information is furnished (it being recognized by the Administrative Agent, the Collateral Agent and the Lenders that (i) any projections and forecasts provided by the Master Servicer are based on good faith estimates and assumptions believed by the Master Servicer to be reasonable as of the date of the applicable projections or assumptions and that actual results during the period or periods covered by any such projections and forecasts may materially differ from projected or forecasted results and (ii) no representation is made with respect to information of a general economic or general industry nature).

21

(e) Collections. The Master Servicer has directed the Obligor, or has directed the Originator to direct the Obligor, to make payments on the Pool Receivables directly to the Collection Account. The conditions and requirements set forth in Section 5.1(bb) and Section 6.2 have at all times been satisfied and duly performed in all material respects by the Borrower or the Master Servicer. Exhibit IV hereto sets forth the name and addresses of the Collection Bank, together with the account number of the Collection Account and Interest Reserve Account. To the extent that funds other than Collections of Pool Receivables are deposited into the Collection Account, the Master Servicer can promptly trace and identify which funds constitute Collections of the Pool Receivables.

(f) Compliance with Credit and Collection Policy. The Master Servicer has complied in all material respects with the Credit and Collection Policy with regard to each Pool Receivable and the related Contract, other than any Pool Receivable, and the related Contract with respect to which there has been a Deemed Collection in accordance with Section 1.6.

(g) Compliance with Laws. The Master Servicer (i) shall duly satisfy all obligations on its part to be fulfilled under or in connection with the Pool Receivables and the related Contracts and (ii) has complied in all material respects with all applicable Laws.

(h) Other Transaction Documents. Each representation and warranty made by the Master Servicer under each other Transaction Document to which it is a party (including, without limitation, the Transfer Agreement) is true and correct in all material respects as of the date when made, subject to the qualifications set forth in such Transaction Document.

(i) Servicing Programs. No license or approval is required for the Administrative Agent's, the Collateral Agent's or the Lenders' use of any software or other computer program used by the Master Servicer, the Originator or any Sub-Servicer in the servicing of the Pool Receivables, other than those which have been obtained and are in full force and effect.

(j) Servicing of Receivables. Since the Closing Date, there has been no material adverse change in the ability of the Master Servicer or any Sub-Servicer to service the Receivables and the Related Security.

(k) Material Adverse Effect. Since the Closing Date, there has been no Material Adverse Effect on the Master Servicer.

(l) Material Debt Documents. The agreements included on the list of "Specified Agreements" in the opinion of White & Case LLP delivered on the Closing Date to, amongst others, the Administrative Agent, the Collateral Agent and the Structuring Advisor, with respect to certain corporate and enforceability matters represents a full and complete list of the material indebtedness of the Master Servicer and the Parent as of the Closing Date.

(m) Litigation and Other Proceedings. There are no actions, suits, proceedings, claims, investigations or disputes pending or, to the knowledge of the Master Servicer, threatened in writing, at law, in equity, in arbitration or before any Governmental Authority, by or on behalf of any creditor of Bausch or its Affiliates or any other Person against Bausch or its Affiliates, the Administrative Agent, the Collateral Agent or any Lender that either individually or in the aggregate, could reasonably be expected to materially and adversely affect (A) the validity or enforceability of this Agreement or any other Transaction Document, (B) the consummation of any of the transactions contemplated by this Agreement or any other Transaction Document, or (C) the performance by a Bausch Party of its obligations under this Agreement or any other Transaction Document or (iii) except as disclosed in the Parent's public filings prior to the Closing Date, individually or in the aggregate for all such actions, suits,

proceedings, claims, investigations and disputes could reasonably be expected to have a Material Adverse Effect.

(n) Taxes. (i) The Master Servicer has timely filed all federal and material state, local and foreign income and franchise and other material Tax returns, reports and statements required to be filed by it with the appropriate Governmental Authorities in all jurisdictions in which such Tax returns are required to be filed and (ii) all Taxes, charges and other impositions reflected therein or otherwise due and payable by it have been paid prior to the date on which any fine, penalty, interest or late charge may be added thereto for non-payment thereof, except (x) for any Taxes being contested in good faith by appropriate proceedings and as to which adequate reserves have been provided in accordance with GAAP or (y) to the extent that the failure to pay Taxes or file Tax returns would not reasonably be expected to result in a Material Adverse Effect.

(o) Adverse Selection. No selection procedures were used to allocate Receivables to the Borrower that would result in such Receivables being less desirable or valuable taken as a whole than other comparable Receivables originated by the Originator.

(p) Anti-Corruption Laws and applicable Sanctions. The Master Servicer has implemented and maintains in effect policies and procedures designed to ensure compliance by the Master Servicer, its Subsidiaries and their respective directors, officers, employees and agents with Anti-Corruption Laws and applicable Sanctions, and the Master Servicer, its Subsidiaries and their respective officers and directors and to the knowledge of the Master Servicer, its employees and agents, are in compliance with Anti-Corruption Laws and applicable Sanctions and are not engaged in any activity that would reasonably be expected to result in Bausch or any of its Affiliates being designated as a Sanctioned Person. None of the Master Servicer, any of its Subsidiaries or to the knowledge of the Master Servicer or such Subsidiary, any of their respective directors, officers or employees, or to the knowledge of the Master Servicer, any agent of the Master Servicer or any Subsidiary, that will act in any capacity in connection with or benefit from the receivables purchase facility established hereby, is a Sanctioned Person.

(q) Solvency. Each of the Master Servicer and the Parent is, and after giving effect to the transactions contemplated by this Agreement and the other Transaction Documents, will be, Solvent.

ARTICLE IV.

CONDITIONS OF CLOSING AND FUNDING AND CONDITIONS SUBSEQUENT

Section 4.1. Conditions Precedent to the Initial Funding Date. The obligation of the Initial Lenders to make the initial Advance on the Initial Funding Date is subject to the satisfaction (or waiver) of the following conditions precedent, except as otherwise agreed between the Borrower and the Initial Lenders:

(a) The Administrative Agent, the Structuring Advisor and the Initial Lenders shall have received on or before the Initial Funding Date a copy of this Agreement, duly executed by the Borrower, the Borrower GP, the initial Master Servicer, the Administrative Agent, the Collateral Agent, the Initial Lenders and the Structuring Advisor;

(b) Respective counsel for the Master Servicer, the Borrower, the Borrower GP, the Parent and the Originator will deliver the following legal opinions, as applicable, and under applicable Laws, in each case, addressed to the Administrative Agent, the Collateral

23

Agent, the Structuring Advisor and the Initial Lenders, in form and substance reasonably satisfactory to the Administrative Agent, the Structuring Advisor and the Initial Lenders:

(i) the transactions contemplated by the Transfer Agreement constitute “true sales” under the laws of the United States Bankruptcy Code;

(ii) in the event of a subsequent bankruptcy with respect to the Parent or Bausch, the Borrower would not be substantively consolidated with any of them;

(iii) customary opinions in respect of capacity, enforceability and validity of security interests in the Pool Receivables and other Collateral under applicable law;

(iv) no conflicts with documents evidencing material indebtedness of the Parent or the Originator; and

(v) such other opinions reasonably requested by the Administrative Agent or the Structuring Advisor.

(c) The Initial Lenders shall have received from the Borrower, the Master Servicer and the Originator a duly executed and delivered copy of the Transfer Agreement, in form and substance reasonably satisfactory to the Initial Lenders, and the conditions thereunder shall have been satisfied or waived in accordance with the terms thereof;

(d) The Administrative Agent, the Structuring Advisor and the Initial Lenders shall have received the Control Agreement(s), duly executed and delivered by the Borrower, the Collection Bank(s) and the Collateral Agent, in form and substance reasonably satisfactory to the

Collateral Agent, the Structuring Advisor and the Initial Lenders.;

(e) The Administrative Agent, the Structuring Advisor and the Initial Lenders shall have received from each party thereto a duly executed copy of each of the other Transaction Documents, each in form and substance reasonably satisfactory to the Initial Lenders;

(f) The Administrative Agent, the Structuring Advisor and the Initial Lenders shall have received from each of the Borrower, the Borrower GP, the Originator and the Master Servicer, a certificate of its officer attaching (i) a copy of the resolutions of its governing body (or a duly authorized committee thereof) authorizing the execution, delivery, and performance of the Transaction Documents (and any agreements relating thereto) to which it is a party, (ii) a copy of all of its Organizational Documents (including articles, bylaws, partnership declaration, limited partnership agreements, limited liability company agreement and/or shareholder agreements, as applicable), and (iii) incumbency certificates (or other comparable documents evidencing the same) of its authorized officers executing the Transaction Documents to which it is a party;

(g) The Administrative Agent, the Structuring Advisor and the Initial Lenders shall have received a certificate of good standing (or equivalent) from each of the Borrower, the Borrower GP, the Originator and the Master Servicer, from their respective jurisdiction of incorporation or formation;

(h) The Borrower shall have paid the fees specified in the Structuring Fee Letter, the Agent Fee Letter and all other fees and expenses (including legal fees and expenses) incurred by the Administrative Agent, the Collateral Agent, the Structuring Advisor and the Initial Lenders required to be paid by the Borrower on or prior to the Initial Funding Date;

24

(i) The Administrative Agent, the Structuring Advisor and the Initial Lenders shall have received fully executed versions of the definitive documentation for the First Lien Credit Agreement as of the Closing Date;

(j) The Administrative Agent, Structuring Advisor and the Initial Lenders shall have received a completed Borrowing Base Certificate and Borrowing Notice for the Advance to be made on the Initial Funding Date;

(k) The Interest Reserve Account Balance shall be no less than the Interest Reserve Account Required Balance after giving effect to the funding of the Interest Reserve Account from the proceeds of the initial Advance;

(l) The Administrative Agent, Structuring Advisor and the Initial Lenders shall have received a copy of the final version of the Due Diligence Report of Atlantic Risk Management in form and substance reasonably satisfactory to the Structuring Advisor;

(m) The Structuring Advisor and the Initial Lenders shall have received a projected budget of Bausch for 2023 calendar year with sufficient detail and in form and substance satisfactory to the Structuring Advisor and the Initial Lenders;

(n) Each of the Administrative Agent's Account, Collection Account and Interest Reserve Account shall have been established; and

(o) The Structuring Advisor and the Initial Lenders shall have received satisfactory evidence that the Master Servicer has directed each Obligor to make all payments in respect of the Pool Receivables directly to the Collection Account.

Section 4.2. Conditions Precedent to all Advances. Each Advance made after the Initial Funding Date shall be subject to the following conditions precedent (unless waived by the Administrative Agent acting at the direction of the Requisite Lenders):

(a) the Master Servicer shall have delivered to the Lenders and the Administrative Agent on or prior to the date of such Advance, in form reasonably satisfactory to the Lenders, all Monthly Reports as due on or before the applicable Monthly Reporting Date under Section 5.1(h)(i);

(b) the Borrower shall have delivered to the Administrative Agent and the Lenders (i) a completed Borrowing Base Certificate and (ii) a completed Borrowing Notice;

(c) the Facility Termination Date shall not have occurred; and

(d) on the applicable Borrowing Date the following statements shall be true (and acceptance of the proceeds of such Advance shall be deemed a representation and warranty by the Borrower that such statements are then true):

(i) the representations and warranties set forth in Article III are true and correct in all material respects on and as of the Borrowing Date of such Advance as though made on and as of such date, except to the extent such representations and warranties expressly relate to an earlier date, in which case such representations and warranties shall remain true and correct in all material respects as of such earlier date;

(ii) (A) no event has occurred and is continuing or would result from such Advance that constitutes a Potential Amortization Event and (B) no event has

25

occurred or would result from such Advance that constitutes an Amortization Event; and

(iii) no Overadvance exists or will result from such Advance.

Section 4.3. Conditions Precedent to Interim Withdrawals. Each Interim Withdrawal shall be subject to the following conditions precedent (unless waived by the Administrative Agent acting at the direction of the Requisite Lenders):

(a) after giving effect to such Interim Withdrawal, the Borrower will maintain an amount in the Collection Account (after transferring any amount to the Interest Reserve Account required under Section 4.3(b) below) not less than the aggregate amount of Aggregate Revolving Principal for which the Borrower has delivered a notice under Section 1.3(c), all accrued but unpaid Interest (including Shortfall Interest), fees (including, without limitation, Unused Facility Fees), expenses and indemnified amounts (excluding any third party legal fees), in each case, calculated by the Administrator to be due and payable on or before the next Payment Date;

(b) to the extent any Interest Reserve Account Deficit exists with respect to the immediately preceding Monthly Reporting Date, the amount of such Interest Reserve Account Deficit shall have been transferred from the Collection Account to the Interest Reserve Account; (and the Borrower may transfer such amount from the Collection Account to the Interest Reserve Account);

(c) the Borrower shall use the proceeds of such Interim Withdrawal to pay (A) the cash purchase price for Receivables purchased by the Borrower on such date in accordance with the terms of the Transfer Agreement, (B) **first**, any IG Deferred Purchase Price owing to the Originator pursuant to the Transfer Agreement and then, **second**, any Non-IG Deferred Purchase Price owing to the Originator pursuant to the Transfer Agreement or (C) so long as there is no unpaid Non-IG Deferred Purchase Price that has been identified as outstanding, any dividends or other distributions validly declared under the Borrower's organizational documents;

(d) the Master Servicer shall have delivered to the Lenders and the Administrative Agent on or prior to the date of such Interim Withdrawal, as applicable, in form reasonably satisfactory to the Lenders, all Monthly Reports as due on or before the applicable Interim Withdrawal Date under Section 5.1(h)(i);

(e) prior to 4:00 p.m. (New York City time) on the applicable Interim Withdrawal Date, the Borrower shall have delivered to the Administrative Agent and the Lenders a completed daily report calculated as of the close of business on the preceding Business Day and that has been prepared by the Administrator in accordance with the Administration Agreement;

(f) the Facility Termination Date shall not have occurred; and

(g) on the applicable Interim Withdrawal Date the following statements shall be true (and acceptance of the proceeds of such Interim Withdrawal shall be deemed a representation and warranty by the Borrower that such statements are then true):

(i) the representations and warranties set forth in Article III are true and correct in all material respects on and as of the Interim Withdrawal Date of such Interim Withdrawal as though made on and as of such date, except to the extent such representations and warranties expressly relate to an earlier date, in

which case such representations and warranties shall remain true and correct in all material respects as of such earlier date;

(ii) (A) no event has occurred and is continuing or would result from such Interim Withdrawal that constitutes a Potential Amortization Event and (B) no event has occurred or would result from such Interim Withdrawal that constitutes an Amortization Event; and

(iii) no Overadvance exists or will result from such Interim Withdrawal.

For the purpose of determining compliance with the conditions specified in this Article IV with respect to Advances, the Lenders shall be deemed to have consented to, approved and accepted each condition unless the Administrative Agent shall have received written notice from any Lender prior to the Initial Funding Date or the date of an Advance specifying its objection thereto, and by their funding of any Advance on such date the Lenders shall be deemed to direct the Administrative Agent that all conditions specified in this Article IV have been satisfied.

ARTICLE V.

COVENANTS

Section 5.1. Affirmative Covenants. Until the Final Payout Date each of the Borrower, the Borrower GP and the Master Servicer agrees, severally with respect to itself only, to comply with the following covenants, to the extent applicable to it:

(a) Financial Accounting Practices. It shall keep proper books of record and account, in which full and, in all material respects correct entries shall be made in conformity with GAAP of all financial transactions and the assets and business of the Borrower.

(b) [Reserved].

(c) [Reserved].

(d) Parent Financial Statements. At any time the Parent is not otherwise filing the following with the SEC:

(i) Parent Annual Reports. As soon as practicable, and in any event within ninety (90) days after the close of each fiscal year of the Parent, beginning with the fiscal year ended December 31, 2023, Bausch shall furnish to the Lenders a consolidated balance sheet of the Parent as at the end of such fiscal year, and the related consolidated statements of income or operations, stockholders' equity and cash flows for such fiscal year together with related notes thereto, setting forth in each case in comparative form the figures for the previous fiscal year, prepared in accordance with GAAP, audited and accompanied by a report and opinion of an independent certified public accountant of nationally recognized standing, which opinion shall be prepared in accordance with generally accepted auditing standards and shall not be subject to any "going concern" qualification or exception (other than any such qualification or exception resulting from (i) an actual or anticipated financial covenant default, (ii) an upcoming maturity date or (iii) solely in relation to the activities, operations, financial results, assets or liabilities of any

Unrestricted Subsidiary (as defined in the First Lien Credit Agreement) or any qualification or exception as to the scope of such audit.

(ii) **Parent Quarterly Reports.** Within forty-five (45) days after the end of each of the first three (3) Fiscal Quarters of each fiscal year, a condensed consolidated balance sheet of the Parent as at the end of such Fiscal Quarter and the related (i) condensed consolidated statements of income or operations for such Fiscal Quarter and for the portion of the fiscal year then ended and (ii) condensed consolidated statements of cash flows for the portion of the fiscal year then ended, setting forth, in each case of clauses (i) and (ii), in comparative form the figures for the corresponding Fiscal Quarter of the previous fiscal year and the corresponding portion of the previous fiscal year (if such previous Fiscal Quarter ends after the Closing Date, in the case of the balance sheet, or if such corresponding portion of the previous fiscal year elapsed in full after the Closing Date, in the case of such other financial statements), certified by a Responsible Officer of the Parent as fairly presenting in all material respects the financial condition, results of operations and cash flows of the Parent and its Subsidiaries in accordance with GAAP, subject to normal year-end adjustments and the absence of footnotes.

(e) **Compliance Certificates.**

(i) No later than ten (10) days after the Parent's financial statements have been delivered pursuant to Section 5.1(d) of this Agreement or filed with the SEC, the Borrower shall provide a certificate substantially the form set forth as Exhibit XI hereto (a "**Compliance Certificate**"), addressed to the Lenders, executed by a Responsible Officer of the Borrower, stating that no Amortization Event or Potential Amortization Event exists, or if any such event exists, such certificate shall specify in detail the nature and period of existence of such Amortization Event or Potential Amortization Event and any action taken or contemplated to be taken by the Borrower with respect thereto.

(ii) No later than ten (10) days after the Parent's financial statements have been delivered pursuant to Section 5.1(d) of this Agreement or filed with the SEC, Bausch shall provide a Compliance Certificate addressed to the Lenders, executed by a Responsible Officer of Bausch, stating that no Amortization Event or Potential Amortization Event exists under this Agreement, or if any such event exists, such certificate shall specify in detail the nature and period thereof and any action taken or contemplated to be taken by Bausch with respect thereto.

(f) **[Reserved].**

(g) **Collections Reporting.** The Master Servicer shall deliver to the Structuring Advisor and the Lenders, in substantially the form set forth as Exhibit IX hereto, on the fifth (5th) Business Day following the end of each applicable Collection Reporting Period, a report setting forth (i) for each Pool Receivable during such Collection Reporting Period, whether any Collections have been received in respect of such Pool Receivable, and (ii) for each amount of Collections received in respect of each such Pool Receivable or whether such Pool Receivables was subject to Dilution, the date of receipt thereof and whether such amount was (A) paid directly to the Collection Account or (B) paid otherwise (and, in such case, the recipient thereof, a description of the account into which such amount was paid, or whether the amount was made by check or other form of payment, and the date that such payment was made into the Collection Account).

28

(h) **Monthly Reports.** As soon as available, and in any event no later than 11:00 a.m. (New York time) on each Monthly Reporting Date, the Borrower shall provide to the Lenders and the Administrative Agent:

(i) a monthly report (a "**Monthly Report**") prepared by the Master Servicer and in substantially the form set forth as Exhibit X hereto, setting forth the following (in each case calculated as of the last day of the previous Calculation Period in reasonable detail, as determined by the Requisite Lenders in their sole and absolute discretion) and attaching a copy of the most recent Borrowing Base Certificate to be delivered pursuant to Section 5.1(n), that has been calculated by the Administrator in accordance with the Administration Agreement:

(A) a calculation of the Required Reserves, including the calculation of each component included in the Required Reserves;

(B) a roll-forward of the Outstanding Balances of all Pool Receivables, including the Dilution for the preceding six-month period;

- (C) an aging summary in respect of all Pool Receivables;
- (D) the Outstanding Balances (as may be reasonably requested by the Requisite Lenders) of all Receivables that were Eligible Receivables on the previous Monthly Reporting Date but were no longer Eligible Receivables as of the last day of the preceding Calculation Period; and
- (E) an aging summary of unpaid Deferred Purchase Price, including a breakdown between Non-IG Deferred Purchase Price and IG Deferred Purchase Price;
- (ii) A report showing (x) the aggregate amount of Collections in respect of Pool Receivables received by the Borrower in the Collection Account, (y) the aggregate amount of Collections in respect of Pool Receivables received by the Originator or the Master Servicer in any other account of the Master Servicer, the Originator or the Borrower and (z) the calculation of the Borrower's compliance with Section 7.1(g) hereunder, in each case since the prior Monthly Reporting Date.
- (i) [Reserved].
- (j) Notice of Certain Events. Promptly upon (and in any event within three (3) Business Days of) becoming aware of the occurrence of the following events, each of the Borrower and Master Servicer shall give the Lenders notice of such event, together with a written statement signed on behalf of the Borrower and Master Servicer setting forth the details of such event and any action taken or contemplated to be taken with respect thereto:
- (i) an Amortization Event or Potential Amortization Event under this Agreement;
- (ii) an ERISA Event that, together with all other ERISA Events that have occurred, would reasonably be expected to have a Material Adverse Effect;
- (iii) the occurrence of any declared or automatic event of default under the First Lien Credit Agreement or any other Material Indebtedness of Bausch or any of its Affiliates;
- 29
-
- (iv) any Xifaxan Price Decrease.
- (k) Notice under Related Documents. Promptly after the delivery, filing or receipt thereof, the Borrower shall deliver to the Lenders a copy of each written notice, certificate or report delivered pursuant to the Transfer Agreement.
- (l) Notice of Proceedings. Promptly upon becoming aware thereof, it will give the Lenders notice of (i) the commencement, existence or threat of all proceedings by or before any Governmental Authority against or affecting the Borrower or any of its Affiliates which, if adversely decided, could reasonably be expected to have a Material Adverse Effect, (ii) any action, suit, proceeding or investigation pending or threatened, against the Borrower before any Governmental Authority and (iii) any one or more actions, suits, proceedings or investigations pending or threatened in writing relating to Contracts in respect of which the amount in controversy, whether individually or in the aggregate, is equal to or greater than \$5,000,000.
- (m) Further Information. It will promptly furnish to the Lenders such additional information regarding (i) the business, legal, financial or corporate affairs of Bausch or any of its Affiliates, (ii) the Collateral, including, without limitation, aging, roll forward and eligibility information, in each case, as the Administrative Agent or Collateral Agent (in each case, at the written direction of the Requisite Lenders) or any Lender may from time to time reasonably request, and (iii) the ability of Borrower or the Originator to perform their respective obligations under this Agreement or any other Transaction Document; **provided** that Bausch and its Affiliates shall not be required to disclose or permit the inspection or discussion of, any document, information or other matter (i) that constitutes non-financial trade secrets or confidential or non-financial proprietary information, (ii) in respect of which disclosure to any Lender (or its respective representatives) is prohibited by law or any binding agreement, or (iii) that is subject to attorney-client or similar privilege or constitutes attorney work product.
- (n) Borrowing Base Determination.

(i) Not later than fifteen (15) Business Days following each calendar month end, the Borrower shall deliver to the Administrative Agent, the Structuring Advisor and the Lenders a Borrowing Base Certificate executed by a Responsible Officer of the Borrower.

(ii) The Requisite Lenders may make test verifications of the Pool Receivables in any manner and through any medium that the Requisite Lenders consider advisable, and the Borrower shall furnish all such commercially reasonable assistance and information as the Requisite Lenders and their advisors may require in connection therewith; **provided** that the Requisite Lenders shall not take any actions that could reasonably be expected to cause any disruption to the Obligors or their affiliates; **provided, further**, that the Requisite Lenders shall not make such test verifications under this clause (ii) on more than one occasion in any fiscal quarter unless an Amortization Event has occurred and is continuing.

(o) Maintenance of Records; Audits; and Field Exams. It shall, from time to time during regular business hours as requested by the Structuring Advisor and at the sole reasonable cost of the Borrower, permit the Administrative Agent (at the direction of the Requisite Lenders), the Structuring Advisor or its agents or representatives: (a) to examine and make copies of and abstracts from all Records in the possession or under the control of the Bausch Parties relating to the Pool Receivables and the Related Security, including, without limitation, the related Contracts; and (b) upon reasonable advance written notice, to visit the offices and properties of the Bausch Parties during reasonable business hours for the purpose of

30

examining such materials described in clause (a) above and a comprehensive audit and field exam, and to discuss matters relating to the Bausch Parties' financial condition or the Pool Receivables and the Related Security or any Bausch Party's performance under any of the Transaction Documents or any Bausch Party's performance under the Contracts and, in each case, with any of the officers or employees of such Bausch Party having knowledge of such matters (each such visit, a "**Review**"). Such Reviews may include a review of the Bausch Parties' compliance with the Credit and Collections Policy. In connection with such Reviews, the Bausch Parties shall not unreasonably oppose a request by the Lenders to communicate directly with the Bausch Parties' independent certified public accountants; **provided** that the Borrower shall have an opportunity to be present at or participate in any such discussion with the Bausch Parties' independent certified public accountants. So long as no Amortization Event has occurred and is continuing, only one (1) such Review is permitted to be conducted in any one (1) calendar year and the Borrower shall only be responsible for the cost of one (1) such Review under this Section 5.1(o) in any one (1) calendar year. Notwithstanding anything to the contrary in this Section 5.1(o), none of the Bausch Parties shall be required to disclose, permit the inspection, examination or making copies or abstracts of, or discussion of, any document, information or other matter (i) that constitutes non-financial trade secrets, (ii) in respect of which disclosure to the Administrative Agent, the Structuring Advisor or any Lender (or their respective representatives) is prohibited by law or any binding agreement, or (iii) that is subject to attorney-client or similar privilege or constitutes attorney work product.

(p) Separateness. The Borrower GP, the Borrower and Master Servicer acknowledge that the Administrative Agent, the Collateral Agent and the Lenders are entering into the transactions contemplated by this Agreement in reliance upon the Borrower GP's and the Borrower's identity as a legal entity that is separate from the Parent, the Originator, the Master Servicer and their respective other Affiliates (each, a "**Related Entity**"). Therefore, each of the Borrower GP, the Borrower and Master Servicer shall take all steps specifically required by this Agreement or reasonably required by the Requisite Lenders (it being understood that no Bausch Party shall have any obligation to maintain or preserve the Borrower GP's or the Borrower's financial condition or cause the Borrower or Borrower GP to achieve certain levels of operating results) to continue the Borrower's and Borrower GP's identity as a separate legal entity and to make it apparent to third Persons that the Borrower and the Borrower GP is an entity with assets and liabilities distinct from those of the Originator, the Master Servicer and any other Person, and is not a division of the Originator, the Master Servicer, its Affiliates or any other Person consistent with the terms of the Borrower GP's and the Borrower's Organizational Documents. Therefore, from and after the date of execution and delivery of this Agreement, the Master Servicer, the Borrower GP and the Borrower shall not take any action inconsistent with the "separateness covenants" set forth in the Borrower GP's and the Borrower's Organizational Documents.

(q) Preservation of Existence. Each of the Borrower GP, the Borrower and Master Servicer shall maintain its organizational existence in full force and effect in its jurisdiction of incorporation or organization, as the case may be. Each of the Borrower GP, the Borrower and Master Servicer will qualify and remain licensed or qualified as a corporation, limited liability company or limited partnership, as the case may be, in each jurisdiction in which the failure to receive or retain such licensing or qualification could reasonably be expected to have a Material Adverse Effect.

(r) Compliance with Laws. The Borrower GP, the Borrower and Master Servicer will comply with all applicable Laws, the non-compliance with which could reasonably be expected to have a Material Adverse Effect. Bausch will maintain in effect and enforce

31

policies and procedures designed to ensure compliance by Bausch, its Subsidiaries and their respective directors, managers, officers, employees and agents with Anti-Corruption Laws and applicable Sanctions.

(s) Conduct of Business.

(i) The Borrower and the Borrower GP shall: (A) continue to conduct its business substantially as now conducted or as otherwise permitted hereunder and in accordance with (1) the terms of its Organizational Documents and (2) the assumptions set forth in each opinion letters of counsel to the Borrower GP and the Borrower approved by the Requisite Lenders with respect to issues of substantive consolidation, and (B) at all times maintain, preserve and protect all of its assets and properties used or useful in the conduct of its business, including all licenses, permits, charters and registrations, except where the failure to do so, individually or in the aggregate, could not reasonably be expected to have a Material Adverse Effect.

(ii) The Master Servicer shall cause the Originator to continue to conduct its business substantially as now conducted or as otherwise permitted hereunder and in accordance with the terms of its Organizational Documents.

(t) Further Assurances. The Borrower GP, the Borrower and Master Servicer will, at their own cost and expense, cause to be promptly and duly taken, executed, acknowledged and delivered all such further acts, documents and assurances as the Lenders or the Administrative Agent and/or Collateral Agent (in each case, at the written direction of the Requisite Lenders) may reasonably request from time to time in order to perfect the Borrower's ownership interest in the Receivables and/or to perfect the security interest of the Collateral Agent in the Receivables.

(u) Anti-Money-Laundering/International Trade Law Compliance. The Borrower GP, the Borrower and Master Servicer shall immediately notify the Administrative Agent and each Lender in writing upon the occurrence of a Reportable Compliance Event.

(v) Anti-Terrorism Laws. The Borrower GP, the Borrower, the Master Servicer and its Affiliates and agents shall not (i) conduct any business or engage in any transaction or dealing with any Blocked Person, including making or receiving any contribution of funds, goods or services to or for the benefit of any Blocked Person in violation of applicable Anti-Terrorism Laws, (ii) deal in, or otherwise engage in any transaction relating to, any property or interests in property blocked pursuant to the Executive Order No. 13224; or (iii) engage in or conspire to engage in any transaction that evades or avoids, or has the purpose of evading or avoiding, or attempts to violate, any of the prohibitions set forth in the Executive Order No. 13224, the USA Patriot Act or any other Anti-Terrorism Laws. The Borrower shall deliver to the Administrative Agent and the Lenders any certification or other evidence requested from time to time by the Administrative Agent (at the written direction of the Requisite Lenders) in its sole and absolute discretion, confirming the Borrower's compliance with this Section 5.1(v).

(w) Change of Independent Director. At least five (5) days prior to any proposed change of any Independent Director of the Borrower GP (except when such election or appointment is necessary to fill a vacancy caused by the death, disability, or incapacity of the existing Independent Director, or the failure of such Independent Director to satisfy the criteria for an Independent Director set forth in the definition of "**Independent Director**", in which case the Borrower GP (or the Borrower on its behalf) shall provide written notice of such election or appointment within two (2) Business Days of such proposed change), the Borrower GP (or the Borrower on its behalf) shall deliver to the Administrative Agent and the Lenders notice of such

32

proposed change together with a certificate of the Borrower GP (or the Borrower on its behalf) certifying that the proposed replacement director satisfies the criteria set forth in the definition of “**Independent Director**”.

(x) **Performance and Enforcement of the Transfer Agreement.** The Borrower shall perform, and the Master Servicer shall require the Originator to perform, each of its obligations and undertakings under and pursuant to the Transfer Agreement. The Borrower shall purchase Pool Receivables under the Transfer Agreement in strict compliance with the terms thereof and of this Agreement and shall diligently enforce the rights and remedies accorded to it as the buyer or transferee under the Transfer Agreement. The Borrower shall take all actions to perfect and enforce its rights and interests (and the rights and interests of the Collateral Agent and the Lenders as assignees of the Borrower) under the Transfer Agreement as the Collateral Agent (at the written direction of the Requisite Lenders) may from time to time reasonably request, including, without limitation, making claims to which it may be entitled under any indemnity, reimbursement or similar provision contained in the Transfer Agreement.

(y) **Ownership.** The Borrower shall (or, to the extent required pursuant to the Transfer Agreement, shall require the Originator to) take all necessary action to (i) vest legal and equitable title to the Pool Receivables, the Related Security and the Collections irrevocably in the Borrower, free and clear of any Liens other than Permitted Liens, and (ii) establish and maintain, in favor of the Collateral Agent, for the benefit of the Secured Parties, a valid and perfected first priority Security Interest in the Collateral to the full extent contemplated herein, free and clear of any Liens other than Permitted Liens (including, without limitation, the filing of all financing statements or other similar instruments or documents necessary under the UCC and the PPSA (or any comparable law) of all appropriate jurisdictions) to perfect the Collateral Agent's (for the benefit of the Secured Parties) Security Interest in the Collateral and such other action to perfect, protect or more fully evidence the Security Interest of the Collateral Agent for the benefit of the Secured Parties as the Collateral Agent (at the written direction of the Requisite Lenders) or any Lender may reasonably request.

(z) **[Reserved].**

(aa) **Books and Records.** The Borrower and Master Servicer shall maintain and implement administrative and operating procedures (including an ability to recreate records evidencing Pool Receivables and related Contracts in the event of the destruction of the originals thereof) and keep and maintain all documents, books, records, computer tapes and disks and other information reasonably necessary or advisable for the collection of all Pool Receivables and all Collections of and adjustments to each existing Pool Receivable.

(bb) **Collections.** The Borrower and Master Servicer shall direct all Obligor to make payments of the Pool Receivables directly to the Collection Account, which at all times is subject to a Control Agreement.

(cc) **Information.** Bausch shall deliver to the Administrative Agent and each Lender a copy of any presentations, notices or reports containing operational or financial updates, in each case, that has been delivered, directly or indirectly, by Bausch or any of its Affiliates to all of the lenders under the First Lien Credit Agreement within five (5) Business Days of the delivery thereof to such Persons; **provided, however,** if such delivery relates solely to either (i) the collateral (or any portion thereof) under any Material Indebtedness which does not include any Collateral hereunder or (ii) any non-financial covenant (other than any covenant related to delivery of information), such delivery shall not be required under this clause (cc).

(dd) **Fiscal Calendar.** Prior to the end of each of the Borrower's fiscal years, the Borrower shall provide the Administrative Agent, each Lender, and the Master Servicer with a

copy of the Borrower's fiscal calendar for the following year which will (i) identify each fiscal month end to be used for reporting purposes and (ii) be the same fiscal calendar as Bausch.

(ee) **[Reserved].**

(ff) **Maintenance of Properties.** The Borrower GP and the Borrower shall maintain and preserve (a) all of its properties which are necessary in the conduct of its business in good working order and condition, and (b) all rights, permits, licenses, approvals and privileges (including all Permits) which are used or useful or necessary in the conduct of its business, except where the failure to so maintain and preserve could not reasonably be expected to have a Material Adverse Effect.

(gg) Use of Proceeds. The Borrower may use the proceeds of Advances made hereunder, in each case, subject to the availability of such funds pursuant to Sections 2.1(b) or 2.2(a), for (i) funding the Interest Reserve Account, (ii) transaction expenses incurred in connection with this Agreement and the Transaction Documents, (iii) the payment of interest, fees, expenses or other amounts due under this Agreement or under any other Transaction Document, (iv) purchasing Eligible Receivables in accordance with the terms of the Transfer Agreement and (v) to the extent that no obligations described in clauses (i), (ii) and (iii) above are due and unpaid, to make distributions to the Parent and its Affiliates for use for any purposes; **provided** that (A) no event has occurred and is continuing or would result from such distribution that constitutes a Potential Amortization Event and (B) no event has occurred or would result from such distribution that constitutes an Amortization Event.

(hh) Pool Receivables; Compliance with Credit and Collection Policy. Except as otherwise permitted in Section 6.2, the Borrower shall not, and shall not permit the Master Servicer to, alter the delinquency status or adjust the Outstanding Balance or otherwise modify the terms of any Pool Receivable in any material respect, or amend, modify or waive, in any material respect, any term or condition of any related Contract without the prior written consent of the Structuring Advisor.

(ii) Access to Account Information. The Borrower shall grant the Lenders and the Administrative Agent online viewing access to the account statements relating to the Collection Account and the Interest Reserve Account. Upon the request of any of the Lenders, the Structuring Advisor or the Administrator, the Master Servicer shall grant the requesting party online access (or such other access requested by such party) to the account statements relating to the bank accounts of the Master Servicer and the Originator for the purpose of determining the amounts, if any, of Obligor payments with respect to Pool Receivables that are being made to such accounts of the Master Servicer or the Originator.

(jj) Taxes. The Borrower GP and the Borrower will (i) timely file all federal and material provincial, state, local and foreign income and franchise and other material Tax returns, reports and statements required to be filed by it with the appropriate Governmental Authorities in all jurisdictions in which such Tax returns are required to be filed and (ii) pay, or cause to be paid, all material amounts of Taxes reflected therein or otherwise due and payable by it, if any, prior to the date on which any fine, penalty, interest, or late charge may be added thereto for non-payment thereof, except for any Taxes that are being contested in good faith by appropriate proceedings and as to which adequate reserves have been provided in accordance with GAAP.

(kk) Tax Status. No action will be taken that would result in (i) the Borrower not being a "Canadian partnership" and a "Canadian resident partnership" for the purposes of the Income Tax Act (Canada), (ii) the Borrower being a "SIFT partnership" as defined in Part IX.1 of the Income Tax Act (Canada) or becoming subject to Part IX.1 tax under the Income Tax Act

34

(Canada), or (iii) the Borrower or the Borrower GP being subject to any Tax in any jurisdiction outside Canada.

(ll) Rating. The Borrower and the Master Servicer shall cooperate with the Structuring Advisor in order to obtain and maintain a rating from the rating agency chosen by the Structuring Advisor to provide a rating on the Advances and/or the Deferred Purchase Price, and shall provide such rating agency (either directly or through distribution to the Structuring Advisor) any information such rating agency may reasonably require for purposes of providing, monitoring and maintaining such rating. The Master Servicer shall pay the initial and ongoing fees and expenses payable to such rating agency in connection with such rating.

Section 5.2. Negative Covenants. Until the Final Payout Date, each of the Borrower GP, the Borrower and the Master Servicer agrees, severally with respect to itself only, to comply with the following covenants, to the extent applicable to it:

(a) Name or Structural Changes. The Borrower shall not, in each case, without (x) the prior written consent of the Requisite Lenders, which consent shall not be unreasonably withheld, and (y) delivery to the Administrative Agent and Collateral Agent (with a copy to the Lenders) of all financing statements, instruments and other documents and opinions reasonably requested by the Requisite Lenders in connection with such change:

(i) change its name, identity or legal structure (within the meaning of Section 9-507(c) of any applicable enactment of the UCC) or make any other change in its name, identity or corporate structure that could impair or otherwise render any UCC or PPSA financing statement filed in connection with this Agreement or any other Transaction Document "seriously misleading" as such term (or similar term) is used in the UCC or PPSA;

(ii) permit itself to merge or consolidate with or into, or convey, transfer, lease or otherwise dispose of (whether in one transaction or in a series of transactions) all or substantially all of its assets (whether now owned or hereafter acquired) to, any Person;

(iii) permit any Person other than the Parent or the Borrower GP to own, or have an Adverse Claim against, any Capital Stock of the Borrower; or

(iv) change or relocate its chief executive office, principal place of business, principal residence or any office where Records are kept or change its jurisdiction of organization to any location other than the Province of Ontario or, in the case of the Borrower GP, the Province of Nova Scotia, unless it gives the Administrative Agent and Collateral Agent (copy to the Lenders) written notice of such change no later than fifteen (15) days thereafter.

(b) Changes in Payment Instructions to Obligor. Except as may be required by the Requisite Lenders pursuant to Section 6.2(c) during the Dominion Period, a Bausch Party shall not (i) replace any Bank as the Collection Bank, or (ii) replace the Collection Account, in each case, without the prior consent of the Administrative Agent (acting at the direction of the Requisite Lenders). In addition, except as may be required by the Requisite Lenders pursuant to Section 6.2(c) during the Dominion Period, the Borrower and the Master Servicer shall not, and shall cause the Originator not to, make any changes in the instructions to any Obligor as to where payments on the Pool Receivables should be made unless requested by the Administrative Agent (acting at the direction of the Requisite Lenders); **provided, however**, that the Master Servicer may make changes in instructions to Obligor regarding payments if such new instructions

35

require such Obligor to make payments to a replacement Collection Account that is subject to a Control Agreement.

(c) Modifications to Credit and Collection Policy. The Master Servicer will not make any change to the Credit and Collection Policy that would adversely affect the collectability of Pool Receivables, the timing of payment thereof or the collection procedures relating thereto without the prior written consent of the Structuring Advisor. Except as provided in Section 6.2(d) or to the extent that a Deemed Collection has been made in accordance with Section 1.6, no Bausch Party shall, or shall permit the Originator to, extend, amend or otherwise modify the payment terms of any Pool Receivable or any Contract related to such Pool Receivable in any material respect other than in accordance with the Credit and Collection Policy.

(d) Sales, Liens. Other than the ownership and Security Interests contemplated by the Transaction Documents, the Borrower shall not sell, assign (by operation of law or otherwise) or otherwise dispose of, or grant any option with respect to, or create or suffer to exist any Adverse Claim, other than Permitted Liens, upon (including, without limitation, the filing of any financing statement) or with respect to, any Pool Receivable, Related Security or Collections, or upon or with respect to any Contract under which any Pool Receivable arises, or the Collection Account or the Interest Reserve Account, or assign any right to receive income with respect thereto, and the Borrower shall defend the right, title and interest of the Collateral Agent and the other Secured Parties in, to and under any of the foregoing property, against all claims of third parties claiming through or under the Borrower or the Originator.

(e) Termination of Transfer Agreement. The Borrower shall not amend, modify or terminate the Transfer Agreement without the prior written consent of the Requisite Lenders, or waive or fail to enforce any of its rights or the obligations of the other parties thereto, or send any termination notice to the Originator in respect thereof, without the prior written consent of the Requisite Lenders.

(f) Indebtedness. The Borrower GP and the Borrower shall not incur or permit to exist any Indebtedness or liability on account of deposits except: (i) the Borrower Obligations, and (ii) other current accounts payable arising in the ordinary course of business and not overdue, unless such overdue accounts payable are disputed and being contested in good faith.

(g) Use of Proceeds. The Borrower shall not use the proceeds of any Advance (i) except as provided in Section 5.1(gg), and (ii), either directly or indirectly, for the purpose, whether immediate, incidental or ultimate, of "purchasing or carrying" any margin stock. No part of the proceeds of any Advance will be unlawfully used directly or indirectly to fund any operations in, finance any investments or activities in or make any payments to, a Sanctioned Person or a Sanctioned Country, or in any other manner that will result in any violation by any Person (including the Administrative Agent and the Lenders) of any Anti-Terrorism Laws. The Master Servicer will maintain in effect policies and procedures designed to ensure compliance by the Master Servicer, its Subsidiaries (if any), and their respective directors, managers, officers, employees and agents with Anti-

Corruption Laws and applicable Sanctions, and the Master Servicer, its Subsidiaries, and to their knowledge, their respective directors, officers, employees and agents, will remain in compliance with Anti-Corruption Laws and applicable Sanctions.

(h) Investments. Except as otherwise expressly permitted hereunder or under the other Transaction Documents, the Borrower shall not make any Investment in any Person, including any holder of Capital Stock of the Borrower, any director, officer or employee of the Borrower, Bausch or any of Bausch's Affiliates, through the direct or indirect lending of money, holding of securities or otherwise, except with respect to Pool Receivables.

36

(i) Sale of Capital Stock and Assets. Neither the Borrower GP nor the Borrower shall sell, transfer, convey, assign, pledge, or otherwise dispose of, or assign any of its properties or other assets or any of its Capital Stock, or any right to receive income in respect of any of the foregoing (whether in a public or a private offering or otherwise), any Pool Receivable or Contract or any of its rights with respect to any of the Collection Account or the Interest Reserve Account except as permitted by this Agreement or any of the other Transaction Documents; **provided** that, for the avoidance of doubt, the Borrower GP and the Borrower may make distributions solely to the extent permitted by this Agreement, its Organizational Documents and applicable law.

(j) Accounting Changes; Fiscal Year. The Borrower shall not change its (a) accounting treatment and reporting practices, except as required by GAAP or any Requirement of Law and disclosed to the Lenders and the Administrative Agent or (b) fiscal year. As of the date of this Agreement, the Borrower's fiscal year ends December 31.

(k) Sale Characterization; Transfer Agreement. Notwithstanding any financial consolidation with the Parent's consolidated financial statements as permitted under GAAP, the Borrower shall not, and shall not permit the Originator to, account for, or otherwise treat, each sale of Pool Receivables effected pursuant to the Transfer Agreement in any manner other than as a true sale (including for all applicable Tax purposes unless otherwise required by applicable Law) and absolute assignment of the title to and sole record and beneficial ownership interest in such Pool Receivables by such Originator to the Borrower. In addition, the Borrower shall, and shall cause the Originator to, disclose (in a footnote or otherwise) in all of its financial statements (including any such financial statements consolidated with any other Persons' financial statements) the existence and nature of the transactions contemplated hereby and by the Transfer Agreement.

(l) Commingling. If funds that are not Borrower Collateral are deposited into the Collection Account, the Borrower shall notify the Structuring Advisor and the Administrative Agent promptly upon discovery thereof and shall, after providing satisfactory evidence (as determined by the Structuring Advisor, in its reasonable discretion) to the Structuring Advisor and the Administrative Agent that such funds are not Borrower Collateral, instruct the Collection Bank to remit such funds to, or at the direction of, the Borrower, and notwithstanding anything in this Agreement to the contrary, such remittance may be made at any time from the Collection Account.

(m) Modification of other Documents. Neither the Borrower GP nor the Borrower shall amend, modify or waive any term or provision of the Transfer Agreement or any other Transaction Document or, to the extent the Borrower GP's or Borrower's consent is required, give its consent to any amendment, modification, or waiver of any term or provision of the Transfer Agreement or any other Transaction Document without the prior written consent of the Requisite Lenders. In addition, neither the Borrower GP nor the Borrower shall amend, modify, waive or otherwise change any of the terms of its Organizational Documents, in each case without the prior written consent of the Requisite Lenders.

(n) Eligible Bank. The Borrower shall not permit the Collection Account or the Interest Reserve Account to be held at a Bank other than an Eligible Bank, **provided** that if a Bank at which the Collection Account or the Interest Reserve Account is held ceases to be an Eligible Bank, the Master Servicer shall upon discovery thereof (i) promptly notify the Structuring Advisor thereof, and (ii) promptly (and in any event within 30 days) (x) instruct all Obligors to cease making payments to the Collection Account at such Bank and instead make payments to a new depository account, clearing account, collection account or similar account subject to a Control Agreement and at a Bank that is an Eligible Bank and (y) provide the

37

Administrative Agent and the Structuring Advisor all agreements and documents that any of them may reasonably request in connection therewith.

(o) **Distributions.** Neither the Borrower GP nor the Borrower shall declare or pay any dividends or distributions on any of its Capital Stock or make any purchase, redemption or other acquisition of, any of its Capital Stock; **provided, however**, that so long as no Amortization Event or Potential Amortization Event has occurred and is continuing, or would result therefrom, the Borrower GP and the Borrower may declare and pay distributions with funds released to the Borrower pursuant to Sections 2.1(b) or 2.2(a) or in connection with an Interim Withdrawal under Section 1.12, in each case, as permitted under applicable law.

(p) **Transactions with Affiliates.** It shall not enter into any transaction, including any purchase, sale, lease or exchange of property, the rendering of any service or the payment of any management, advisory or similar fees, with any Affiliate (other than as contemplated by the Transaction Documents) unless such transaction (i) is not prohibited in the Transaction Documents and (ii) is upon fair and reasonable terms no less favorable to it than it would obtain in a comparable arm's length transaction with a Person that is not an Affiliate.

(q) **No Other Business.** It shall not engage in any business other than financing, purchasing, owning, selling and managing the Pool Receivables and the Related Security with respect thereto or enter into any transaction or indenture, mortgage, instrument, agreement, contract, lease or other undertaking which is not directly or indirectly related to the transactions contemplated by the Transaction Documents.

(r) **Resignation of Borrower GP.** The Borrower GP shall not resign as the general partner of the Borrower without the prior written consent of the Requisite Lenders.

(s) **Allocation of Receivables.** The Master Servicer shall record the transfer of Receivables originated by the Originator in the order that each such Receivable is originated by the Originator, with the Receivables transferred on a single day being treated as one group. The Master Servicer shall not use any selection procedures to allocate Dilutions among Receivables owned by the Borrower, on the one hand, and Receivables owned by Bausch, on the other hand, that would result in the Receivables of the Borrower being adversely affected relative to the Receivables owned by Bausch.

ARTICLE VI.

ADMINISTRATION AND COLLECTION

Section 6.1. Designation of the Master Servicer.

(a) The servicing, administration and collection of the Pool Receivables shall be conducted by such Person (the "**Master Servicer**") so designated from time to time in accordance with this Section 6.1. Bausch is hereby designated as, and hereby agrees to perform the duties and obligations of, the Master Servicer pursuant to the terms of this Agreement. At any time after the occurrence and during the continuance of an Amortization Event resulting from an action or inaction of, or circumstance existing with respect to, the Master Servicer, for a period of forty-five (45) consecutive days (each, a "**Master Servicer Termination Event**"), the Requisite Lenders may, upon written notice to the current Master Servicer and Borrower, designate as the Master Servicer any Person reasonably acceptable to the Borrower (which consent shall not be unreasonably withheld or delayed) to succeed Bausch or any successor Master Servicer.

38

(b) The Master Servicer may delegate its duties and obligations hereunder to any Affiliate as a subservicer (each a "**Sub-Servicer**"); **provided**, that, in each such delegation: (i) the Master Servicer shall remain liable for the performance of the duties and obligations so delegated, (ii) the Borrower, the Administrative Agent and each Lender shall have the right to look solely to the Master Servicer for performance and (iii) such Sub-Servicer's right to subservice shall immediately terminate upon the termination of the Master Servicer hereunder (unless such Sub-Servicer is only servicing Receivables that have been, consistent with past practices, been written off as uncollectible, in which case such subservicing is not required to immediately terminate).

(c) Without the prior written consent of the Requisite Lenders, the Master Servicer shall not be permitted to delegate any of its duties or responsibilities as the Master Servicer to any Person other than as provided in [Section 6.1\(b\)](#) or to outside collection agencies in accordance with its customary practices with respect to certain Charged-Off Receivables. The Administrative Agent and the Lenders shall not be required to give notice, demand or other communication to any Person other than the Master Servicer in order for communication to the Master Servicer or other delegate with respect thereto to be accomplished. The Master Servicer shall be responsible for providing any other delegate of the Master Servicer with any notice given to the Master Servicer under this Agreement.

Section 6.2. Duties of the Master Servicer.

(a) The Master Servicer shall take or cause to be taken all such actions as may be necessary or advisable to collect each Pool Receivable from time to time, all in accordance with applicable laws, rules and regulations, with reasonable care and diligence, and in accordance with the Credit and Collection Policy, it being understood that the Master Servicer does not guarantee the collection of any Pool Receivables.

(b) The Master Servicer shall direct all Obligor to make payments of the Pool Receivables directly to the Collection Account, which shall at all times be subject to a Control Agreement. If, notwithstanding the foregoing, any Obligor makes payment to Bausch or any of its Affiliates with respect to a Pool Receivable, the Borrower or the Master Servicer, as the case may be, agrees to remit, or to cause such Person to remit any Collections (including any security deposits applied to the Outstanding Balance of any Pool Receivable) that it receives on Pool Receivables directly to the Collection Account within four (4) Business Days of the date of receipt of such payment, and further agrees that all such Collections shall be deemed to be received in trust for the exclusive benefit of the Administrative Agent and the Lenders; **provided** that if more than 5% of weekly Collections with respect to Pool Receivables for any calendar week occurring after the 60th day following the Initial Funding Date are paid by Obligor to an account other than the Collection Account, then the Borrower or the Master Servicer, as the case may be, agrees to remit such Collections directly to the Collection Account within two (2) Business Days of receipt thereof.

(c) The Master Servicer shall administer the Collections in accordance with the procedures described herein and in [Article II](#). The Master Servicer (and during the Dominion Period, unless and until remitted to the Master Servicer, the Administrative Agent) shall hold for the account of the Borrower, the Administrative Agent and each other Secured Party their respective shares of the Collections in accordance with [Article II](#). During the Dominion Period, to the extent any Collections come into the possession of the Master Servicer, the Master Servicer shall, upon the request of the Requisite Lenders, segregate, in a manner acceptable to the Requisite Lenders (at the direction of the Requisite Lenders), all such Collections from the general funds of the Master Servicer or the Borrower prior to the remittance thereof in accordance with [Article II](#). Subject to [Section 2.2](#), at all times while the Master Servicer is required to segregate Collections pursuant to the preceding sentence, the Master Servicer shall

segregate and deposit with a bank designated by the Administrative Agent such allocable share of Collections of Pool Receivables set aside for the Administrative Agent and the other Secured Parties on the second (2nd) Business Day following receipt by the Master Servicer of such Collections or transfer to the Administrative Agent pursuant to duly executed instruments of transfer.

(d) The Master Servicer may, in accordance with the Credit and Collection Policy, extend the maturity of any Pool Receivable or adjust the Outstanding Balance of any Receivable as the Master Servicer determines to be appropriate to maximize Collections thereof; **provided, however**, that such extension or adjustment shall not alter the status of such Pool Receivable as a Defaulted Receivable, Delinquent Receivable or Charged-Off Receivable or limit the rights of the Administrative Agent or the other Secured Parties under this Agreement. Notwithstanding anything to the contrary contained herein, following the occurrence and during the continuation of an Amortization Event, the Requisite Lenders shall have the absolute and unlimited right to direct the Master Servicer to commence or settle any legal action with respect to any Defaulted Receivable, Delinquent Receivable or to foreclose upon or repossess any Related Security to the extent not in contravention of the related Contracts or applicable Law.

(e) The Master Servicer shall hold in trust for the Borrower and the Administrative Agent and each other Secured Party all Records in its possession that (i) evidence or relate to the Receivables, the related Contracts and Related Security or (ii) are otherwise necessary or desirable to collect the Pool Receivables and shall, following the occurrence and during the continuance of an Amortization Event, as soon as practicable upon demand of the Requisite Lenders, deliver or make available to the Administrative Agent and the Lenders all such Records, at a place selected by the Requisite Lenders. The Master Servicer shall, in accordance with [Section 6.2\(b\)](#) and subject to the proviso therein, turn over (A) to the Borrower any

cash Collections or other cash proceeds in accordance with Article II and (B) to the applicable Person any cash collections or other cash proceeds received with respect to Indebtedness not constituting Pool Receivables.

(f) Any payment by an Obligor in respect of any Pool Receivable owed by it to the Originator or the Borrower shall be applied to the applicable invoice within three (3) Business Days after its receipt.

(g) If the Requisite Lenders designate a successor Master Servicer pursuant to the terms of this Agreement, the existing Master Servicer shall provide such successor Master Servicer with all relevant information, materials and reports that are necessary for such successor Master Servicer to perform its duties and obligations under this Agreement.

Section 6.3. Collection Accounts; Interest Reserve Account. The Borrower has granted to the Collateral Agent for the benefit of the Secured Parties "control" (within the meaning of the UCC) over the Collection Account and the Interest Reserve Account.

Section 6.4. Notice of Exclusive Control. The Collateral Agent (at the written direction of the Requisite Lenders) is authorized to date and to deliver to each Collection Bank a Notice of Exclusive Control at any time after the occurrence and during the continuance of an Amortization Event. Subject to the terms of the applicable Control Agreement, the Borrower has transferred to the Collateral Agent, for the benefit of the Secured Parties, exclusive "control" over the Collection Account and the Interest Reserve Account; **provided, however**, that the Borrower shall retain the right to direct dispositions of funds from the Collection Account so long as the Dominion Period is not continuing. Each of the Borrower and Master Servicer hereby authorizes the Collateral Agent, and agrees that the Collateral Agent shall be entitled (at the written direction of the Requisite Lenders), (a) at any time during the Dominion Period, to

40

endorse the applicable Bausch Party's (or the Originator's) name on checks and other instruments representing Collections, (b) at any time after an Amortization Event hereunder has occurred and is continuing, to enforce the Pool Receivables, the related Contracts, the Related Security and other Collateral, and (c) at any time during the Dominion Period, to take such action as shall be necessary or desirable to cause all cash, checks and other instruments constituting Collections of Pool Receivables to come into the possession of the Collateral Agent rather than any of the Bausch Parties or any other Affiliates of Bausch.

Section 6.5. Responsibilities under Contracts. Anything herein to the contrary notwithstanding, the exercise by the Administrative Agent and the other Secured Parties of their rights hereunder shall not release the Master Servicer, the Originator or the Borrower from any of their duties or obligations with respect to any Pool Receivables or under the related Contracts. The Administrative Agent, the Collateral Agent and the other Secured Parties shall have no obligation or liability with respect to any Pool Receivables or related Contracts, nor shall any of them be obligated to perform the obligations of the Borrower or the Originator.

Section 6.6. Servicing Fees. In consideration of Bausch's agreement to act as the Master Servicer hereunder, so long as Bausch shall continue to perform as the Master Servicer hereunder, Bausch shall be paid a fee (the "**Servicing Fee**"), plus applicable taxes, on each Monthly Payment Date, in arrears for the immediately preceding Calculation Period, an amount equal to either (i)(x) 1% of the aggregate Outstanding Balance of all Eligible Receivables as set forth in in the most recent Monthly Report delivered pursuant to Section 5.1(h) prior to such Monthly Payment Date divided by (y) 12 or (ii) such other amount as determined using the internationally recognized arm's length standard. At any time while the Master Servicer is not an Affiliate of the Borrower, the Servicing Fee shall be computed at such rate per annum as the Requisite Lenders, the Borrower and the substitute Master Servicer may mutually agree.

Section 6.7. Administrator Default. If the Administrator is unable to fulfill its duties and responsibilities pursuant to the Administration Agreement, including, but not limited to, the assistance and preparation of any Monthly Report, the Master Servicer shall promptly notify the Borrower, the Borrower GP, the Administrative Agent, the Lenders and the Structuring Advisor. Unless such failure is caused by the failure of the Borrower and/or the Master Servicer to provide information to the Administrator, the failure by the Administrator to fulfill its duties and responsibilities shall not restrict the Borrower from requesting Advances in accordance with the terms of this Agreement; **provided** that, the Borrower (or the Master Servicer on its behalf) shall be required to deliver any reports and/or information to the Administrative Agent, the Lenders and the Structuring Advisor that would have otherwise been provided by the Administrator. In the event that the Administrator fails to fulfill its duties and responsibilities under the

Administration Agreement, the Requisite Lenders shall have the right, at the sole cost and expense of the Borrower, to appoint a replacement Administrator (a “**Replacement Administrator**”).

ARTICLE VII.

AMORTIZATION EVENTS

Section 7.1. **Amortization Events.** The occurrence of any one or more of the following events shall constitute an “**Amortization Event**”:

(a) The Borrower shall fail to pay any Aggregate Revolving Principal or any Interest on the Aggregate Revolving Principal, any Call Premium, any Unused Facility Fees or any Fee payable pursuant to Section 1.11 on the date such Aggregate Revolving Principal, Interest, Call Premium, Unused Facility Fees or Fee is due, or, if such failure to pay is due to

41

some technical or administrative error, within five (5) Business Days after any Interest, Call Premium, Unused Facility Fees or Fees becomes due and payable hereunder; or

(b) Any Bausch Party shall fail to pay any other obligation (other than one referred to in clause (a) above) payable by it pursuant to this Agreement or any of the other Transaction Documents within five (5) Business Days after the earlier of the date on which a Responsible Officer of the Borrower or Master Servicer becomes aware of such failure or written notice thereof is given to such Bausch Party by the Administrative Agent or any Lender; or

(c) Any representation or warranty made by any Bausch Party under this Agreement or any of the other Transaction Documents or any written statement made by such Bausch Party in any financial statement, certificate, report, exhibit or document furnished by such Bausch Party to the Administrative Agent or any Lender pursuant to this Agreement or the other Transaction Documents shall prove to have been false in any material respect as of the time made and such incorrect or misleading representation, warranty or certification (if curable, including by a restatement of any relevant financial statements) shall remain incorrect for a period of five (5) Business Days; or

(d) Any Bausch Party shall default in the performance or observance of any covenant, agreement or duty set forth in Sections 5.1(n), (i) and (ii), 5.1(p), 5.1(q), 5.1(w), 5.1(x), 5.1(ee), 5.2 (other than with respect to the treatment of the sale of Pool Receivables for tax purposes), or 6.2(b) or (e) of this Agreement; or

(e) Any Bausch Party shall default in the performance or observance of any covenant, agreement or duty set forth in (x) Sections 5.1(g), (j), or (bb) of this Agreement or (y) Section 6.1(f) of the Transfer Agreement; **provided** that if such default does not result in adverse impact to the Lenders' enforcement rights with respect to the Collateral, no Amortization Event shall occur if the default is cured within five (5) Business Days after the earlier of the date on which a Responsible Officer of the Borrower or Master Servicer becomes aware of such default or written notice thereof is given to the Borrower by the Administrative Agent or any Lender; or

(f) Any Bausch Party shall default in the performance or observance of any other covenant, agreement or duty under this Agreement or any other Transaction Document (not constituting an Amortization Event under any other provision of this Section 7.1) and such default shall continue for a period of thirty (30) consecutive days after the earlier of the date on which a Responsible Officer of any Bausch Party becomes aware of such default or written notice thereof shall have been given to the Borrower by the Administrative Agent or any Lender; or

(g) One or more final judgments or decrees shall be entered against Bausch, the Borrower or any other Affiliates of Bausch involving in the aggregate a liability (not paid or to the extent not covered by a reputable and solvent insurance company) and such judgments and decrees shall not be vacated, discharged or stayed or bonded pending appeal by the date on which payment is due with respect thereof (or solely with respect to the Borrower, by the date that is 60 days after such judgement or decree), and the aggregate amount of all such judgments equals or exceeds \$50,000,000 (or solely with respect to the Borrower, \$1,000); or

(h) The Borrower shall be required to register as an “investment company” within the meaning of the Investment Company Act; or

(i) Any Insolvency Proceeding shall be instituted by or against Bausch, the Borrower or any other Affiliate of Bausch; or

(j) This Agreement shall terminate in whole or in part (except in accordance with its terms), or shall cease to be effective or to be the legally valid, binding and enforceable obligation of the Borrower or the Master Servicer; or

(k) The Transfer Agreement shall terminate or shall cease to be effective or to be the legally valid, binding and enforceable obligation of any party thereto; or

(l) The Collateral Agent for the benefit of the Secured Parties shall cease to have a valid and perfected first priority Security Interest under the applicable laws of the United States of America or the Province of Ontario or any applicable state or territory thereof, in any material part of the Pool Receivables, the Related Security or Collections with respect thereto, or the Collection Account or the Interest Reserve Account (or the Borrower, a Bausch Party or a creditor shall so allege in any pleading filed in any court); or

(m) The Borrower and its assigns shall cease to have a valid and perfected first priority ownership interest and Security Interest under the applicable laws of the United States of America, the Province of Ontario or any applicable state or territory thereof, in the Pool Receivables, the Related Security, the Collections with respect thereto or any of the other Borrower Collateral, free and clear of any Adverse Claim (other than Permitted Liens); or

(n) (i) Bausch or any of its Affiliates, individually or in the aggregate, shall fail to make any payment when due (whether by scheduled maturity, required prepayment, acceleration, demand, or otherwise) in respect of any Indebtedness (other than Indebtedness under the Transaction Documents) having an aggregate principal amount of greater than (A) in the case of Bausch individually, \$50,000,000, and (B) in the case of Bausch or any of its Affiliates, individually or in the aggregate, \$100,000,000. in each case beyond the applicable grace period with respect thereto if any; or (ii) Bausch or any of its Affiliates shall fail to observe or perform any other agreement or condition relating to any such Indebtedness or contained in any instrument or agreement evidencing, securing or relating thereto, or any other event occurs, the effect of which default or other event described in this clause (ii) is to cause, or to permit the holder or holders or beneficiary or beneficiaries of such Indebtedness (or a trustee or agent on behalf of such holder or holders or beneficiary or beneficiaries) to cause, with the giving of notice if required, such Indebtedness to become due or to be repurchased, prepaid, defeased or redeemed (automatically or otherwise), or an offer to repurchase, prepay, defease or redeem such Indebtedness to be made, prior to its stated maturity; or

(o) There shall occur a Change in Control; or

(p) Any Control Agreement is terminated for any reason, and the Borrower fails to enter into a new control agreement pertaining to the Collection Account or the Interest Reserve Account, in form and substance reasonably satisfactory to the Lenders within ten (10) days of such termination; or

(q) More than 5% of weekly Collections are paid by Obligors to an account other than the Collection Account with respect to more than five calendar weeks (consecutive or otherwise) occurring more than sixty (60) days after the Initial Funding Date; or

(r) The occurrence of a Transfer Termination Event; or

(s) The Borrower shall fail to pay in cash the Deferred Purchase Price obligation under the Transfer Agreement for any Receivable within thirty (30) days after the date of such Receivable was acquired by the Borrower; or

- (t) The occurrence of an Event of Default under and as defined in the First Lien Credit Agreement.

Section 7.2. **Remedies.** Upon the occurrence and during the continuation of an Amortization Event, the Administrative Agent and/or Collateral Agent (in each case, at the written direction of the Requisite Lenders) shall, take any of the following actions: (i) upon notice to the Borrower, declare the Amortization Date to have occurred, whereupon the Revolving Commitments shall terminate, Advances shall cease and the Amortization Date shall forthwith occur, and the Borrower Obligations (including the Call Premium and all accrued and unpaid Interest) shall immediately become forthwith due and payable, without demand, protest or further notice of any kind, all of which are hereby expressly waived by the Borrower; **provided, however,** that upon the occurrence of an Amortization Event described in Section 7.1(i), the Amortization Date shall automatically occur, the Revolving Commitments shall automatically terminate and the Borrower Obligations (including the Call Premium and all accrued and unpaid Interest) shall immediately become forthwith due and payable, without demand, protest or any notice of any kind, all of which are hereby expressly waived by the Borrower, (ii) deliver the Notices of Exclusive Control, and (iii) notify Obligors of the Collateral Agent's and Lenders' interest in the Pool Receivables and other Collateral. The aforementioned rights and remedies shall be without limitation, and shall be in addition to all other rights and remedies of the Administrative Agent, the Collateral Agent and the Lenders otherwise available under any other provision of this Agreement, by operation of law, at equity or otherwise, all of which are hereby expressly preserved, including, without limitation, all rights and remedies provided under the UCC, all of which rights shall be cumulative. For the avoidance of doubt, the occurrence of the Amortization Date shall result in the termination of the Advances under this Agreement, and, although it may change the rate of Interest and the handling and application of Collections pursuant to Article II, it shall not accelerate or permit the Administrative Agent or any Lender to accelerate, the due date for any amount payable under any Pool Receivable or under the Transaction Documents.

Section 7.3. **Application of Proceeds.** During the continuance of an Amortization Event, the Administrative Agent (acting at the direction of the Requisite Lenders) may apply any and all payments received, all funds from time to time on deposit in the Collection Account, and all proceeds received by the Administrative Agent or the Lenders in respect of any Borrower Obligations, in accordance with clauses (i) through (v) below. Notwithstanding any provision herein to the contrary, all amounts collected or received by the Administrative Agent or any of the Lenders after any or all of the Borrower Obligations have been accelerated (so long as such acceleration has not been rescinded), including proceeds of Collateral, shall be applied as follows:

- (i) **first**, to the Administrative Agent, in payment of Fees and expenses to the extent payable or reimbursable by the Borrower under the Transaction Documents;
- (ii) **second**, to payment of all accrued unpaid interest (including Default Interest) on the Advances and other Borrower Obligations, in such order as the Administrative Agent (acting at the direction of the Requisite Lenders) may determine;
- (iii) **third**, to payment of the outstanding principal of the Advances, in such order as Administrative Agent (acting at the direction of the Requisite Lenders) may determine;
- (iv) **fourth**, to payment of any other amounts owing constituting Borrower Obligations;

44

-
- (v) **fifth**, to the Master Servicer to pay accrued and unpaid Servicing Fees that are then due and owing to the Master Servicer;
- and
- (vi) **sixth**, any remainder shall be for the account of and paid to whoever may be lawfully entitled thereto.

In carrying out the foregoing, amounts received shall be applied in the numerical order provided until exhausted prior to the application to the next succeeding category.

ARTICLE VIII.

INDEMNIFICATION

Section 8.1. **Indemnities by Borrower.** (a) Without limiting any other rights that the Administrative Agent, the Collateral Agent, the Structuring Advisor or any of the Lenders may have hereunder or under applicable Law, the Borrower hereby agrees to indemnify (and pay upon demand to) the

Administrative Agent, the Collateral Agent, the Structuring Advisor, the Lenders and their respective successors, permitted assigns, officers, directors, agents and employees (each of the foregoing, an “**Indemnified Party**”) from and against any and all damages, losses, claims, liabilities, fees, reasonable and documented costs and expenses and for all other amounts payable (including without limitation any fees or reasonable and documented expenses (including out-of-pocket attorneys’ fees and expenses and court costs) incurred by any Indemnified Party in enforcing the indemnity), including reasonable and documented fees and disbursements of counsel (all of the foregoing being collectively referred to as “**Indemnified Amounts**”) asserted against or incurred by any of them arising out of or as a result of this Agreement, the other Transaction Documents, any agreement or instrument contemplated hereby or thereby, the performance by the parties of their respective obligations hereunder or thereunder, the enforcement or protection of its rights, the acquisition, either directly or indirectly, by the Administrative Agent, the Collateral Agent, the Structuring Advisor or any Lender of an interest in the Pool Receivables or any actual or prospective claim, litigation, investigation or proceeding relating to any of the foregoing, whether based on contract, tort or any other theory and regardless of whether an Indemnified Party is a party thereto excluding, however, in all of the foregoing instances (the following exclusions, the “**Indemnification Exclusions**”):

(A) Indemnified Amounts to the extent a final judgment of a court of competent jurisdiction holds that such Indemnified Amounts resulted from gross negligence or willful misconduct on the part of the Indemnified Party seeking indemnification (but any Indemnified Party shall be entitled to indemnification of all amounts incurred prior to any such determination; **provided** that the Indemnified Party shall be required to return such amounts upon such determination); or

(B) Taxes (which shall be governed by Sections 8.3 and 8.5) other than (i) any Taxes that represent losses, claims, damages or liabilities arising from any non-Tax claim and (ii) Taxes enumerated in clause (x) below;

provided, however, that nothing contained in this sentence shall limit the liability of the Borrower or limit the recourse of the Administrative Agent, the Collateral Agent, the Structuring Advisor or the Lenders to the Borrower for amounts otherwise specifically provided to be paid by the Borrower under the terms of the Transaction Documents. For the avoidance of doubt, to the extent that the Transfer Agreement or another agreement provides any obligation of the Originator with respect to any Indemnified Amount, such Indemnified Amount shall not include any losses in respect of Pool Receivables that are uncollectible on account of the insolvency,

45

bankruptcy or lack of creditworthiness or other financial or credit condition of the related Obligor.

Without limiting the generality of the foregoing indemnification, the Borrower shall indemnify the Indemnified Parties for Indemnified Amounts (including, without limitation, losses in respect of uncollectible Pool Receivables, regardless of whether reimbursement therefor would constitute recourse to the Borrower) to the extent relating to or resulting from:

(i) any representation or warranty made by the Borrower (or if applicable, any Bausch Party) (or any officers of any such Person) under or in connection with this Agreement or any other Transaction Document;

(ii) the failure by any Bausch Party to comply with any applicable Law with respect to any Pool Receivable or Contract related thereto, or the nonconformity of any Pool Receivable or Contract included therein with any such applicable Law or any failure of the Originator to keep or perform any of its obligations, express or implied, with respect to any Contract;

(iii) any failure of any Bausch Party to perform its duties, covenants or other obligations in accordance with the provisions of any Transaction Document to which it is party that is related to Pool Receivables or to timely and fully comply with the Credit and Collection Policy with regards to each Pool Receivable;

(iv) any environmental liability, products liability, personal injury or damage suit, or other similar claim arising out of or in connection with goods, insurance or services that are the subject of any Contract or any Pool Receivable;

(v) any dispute, claim, offset or defense (other than discharge in bankruptcy of the Obligor) of the Obligor to the payment of any Pool Receivable (including, without limitation, a defense based on such Pool Receivable or the related Contract not being a legal, valid and binding obligation of such Obligor enforceable against it in accordance with its terms, except as such enforcement may be limited by applicable bankruptcy, insolvency, reorganization or other similar laws relating to or limiting creditors’ rights generally and by

general principles of equity (regardless of whether enforcement is sought in a proceeding in equity or at law)) or any other claim resulting from the sale of the goods or service related to such Receivable or the furnishing or failure to furnish such goods or services;

- (vi) the commingling of Collections of Pool Receivables at any time with other funds;
- (vii) any claim brought by any Person arising from any activity by any Bausch Party in servicing, administering or collecting any Pool Receivable;
- (viii) any failure of the Borrower to acquire and maintain legal and equitable title to, and ownership of any Pool Receivable and the Related Security and Collections with respect thereto from the Originator, free and clear of any Adverse Claim, or any failure of the Borrower to give reasonably equivalent value to the Originator under the Transfer Agreement or, in each case, any attempt by any Person to void such sale under statutory provisions or common law or equitable action;

46

- (ix) any failure to vest and maintain vested in the Collateral Agent (for the benefit of the Secured Parties) a valid and perfected first priority perfected Security Interest in the Collateral, free and clear of any Adverse Claim;
- (x) the failure by any Bausch Party to pay when due any sales, excise or personal property Taxes payable by the applicable Bausch Party with respect to any Pool Receivable or Related Security;
- (xi) any action or omission by any Bausch Party which reduces or impairs the rights of the Collateral Agent or the Lenders with respect to any Collateral or the value of any Collateral (other than at the direction of the Collateral Agent or any Lender and except as contemplated by the Transaction Documents); and
- (xii) the failure of any Receivable included in the calculation of the Borrowing Base as an Eligible Receivable to be an Eligible Receivable at the time so included.

(b) For the avoidance of doubt but without limiting any of the Borrower's express obligations (including indemnification obligations) under any Transaction Document to which it is a party, there shall be no recourse to any Bausch Party (other than the Borrower) for the Borrower's indemnification obligations hereunder other than to the extent expressly provided for in this Agreement or in any other Transaction Document.

Section 8.2. Indemnities by the Master Servicer.

(a) Without limiting any other rights that the Administrative Agent, the Collateral Agent, the Structuring Advisor or any Lender may have hereunder or under applicable law, the Master Servicer hereby agrees to indemnify (and pay upon demand to) each Indemnified Party from and against any and all damages, losses, claims, liabilities, fees, reasonable costs and expenses and for all other amounts payable (including without limitation any fees or expenses (including out-of-pocket attorneys' fees and expenses and court costs) incurred by any Indemnified Party in enforcing the indemnity), including reasonable and documented fees and disbursements of counsel (all of the foregoing being collectively referred to as "**Master Servicer Indemnified Amounts**") asserted against or incurred by any of them arising out of or as a result of the Master Servicer's failure to duly and punctually perform its obligations under this Agreement **excluding, however,** in all of the foregoing instances (the following exclusions, the "**Master Servicer Indemnification Exclusions**"):

(A) Master Servicer Indemnified Amounts to the extent a final judgment of a court of competent jurisdiction holds that such Master Servicer Indemnified Amounts resulted from gross negligence or willful misconduct on the part of an Indemnified Party (but any Indemnified Party shall be entitled to indemnification of all amounts incurred prior to any such determination; **provided** that the Indemnified Party shall be required to return such amounts upon such determination);

(B) Master Servicer Indemnified Amounts to the extent the same includes losses in respect of Receivables that are uncollectible on account of the insolvency, bankruptcy or lack of creditworthiness or other financial or credit condition of the related Obligor; and

(C) Taxes (other than (i) any Taxes that represent losses, claims, damages or liabilities arising from any non-Tax claim and (ii) Taxes enumerated in clause (v) below);

provided, however, that nothing contained in this sentence shall limit the liability of the Master Servicer or limit the recourse of the Administrative Agent, the Collateral Agent, the Structuring Advisor or the Lenders to the Master Servicer for Collections received by the Master Servicer and required to be remitted by it under the terms of this Agreement. Without limiting the generality of the foregoing indemnification, the Master Servicer shall indemnify the Indemnified Parties for Master Servicer Indemnified Amounts to the extent relating to or resulting from, subject to the Master Servicer Indemnification Exclusions:

- (i) any representation or warranty made by the Master Servicer (or any officers of the Master Servicer) under or in connection with this Agreement or any other Transaction Document;
- (ii) the failure by the Master Servicer to comply with any applicable Law with respect to the collection of any Pool Receivable or Related Security;
- (iii) any failure of the Master Servicer to perform its duties, covenants or other obligations in accordance with the provisions of this Agreement or any other Transaction Document;
- (iv) the commingling of Collections of Receivables or funds or other assets arising therefrom at any time with other funds;
- (v) any liability of the Borrower under Section 8.5; and
- (vi) any breach of Section 3.1(bb) or Section 5.1(kk).

(b) For the avoidance of doubt but without limiting any of the Borrower's express obligations (including indemnification obligations) under any Transaction Document to which it is a party, there shall be no recourse to the Borrower for the Master Servicer's indemnification obligations hereunder other than to the extent expressly provided for in this Agreement or in any other Transaction Document

Section 8.3. Increased Cost and Reduced Return.

(a) If after the Closing Date, the Administrative Agent or any Lender shall be charged any fee, expense or increased cost on account of the introduction of or any change after the date hereof in applicable law or in the interpretation of any applicable Law by any Governmental Authority (a "**Regulatory Change**"): (a) that subjects the Administrative Agent or any Lender to any Taxes, other than (i) Indemnified Taxes, (ii) Taxes described in clauses (b) through (d) of the definition of "Excluded Taxes" and (iii) Connection Income Taxes, on its loans, loan principal, letter of credit commitments or other obligations, or its deposits, reserves, other liabilities or capital attributable thereto, (b) that imposes, modifies or deems applicable any reserve, assessment, liquidity requirement, compulsory loan, insurance or other insurance-related charge, special deposit or similar requirement against assets of, deposits with or for the account of the Administrative Agent or a Lender, or credit extended or any commitments to extend credit by the Administrative Agent or any Lender pursuant to this Agreement or any other Transaction Document, or (c) that imposes any other condition (other than Taxes) the result of which is to increase the cost to the Administrative Agent or any Lender of performing its obligations under the Transaction Documents, or to reduce the rate of return on the Administrative Agent's or any Lender's capital as a consequence of its obligations under the Transaction Documents, or to reduce the amount of any sum received or receivable by the Administrative Agent or any Lender under any Transaction Document to a level below that which such Administrative Agent or Lender could have achieved but for such Regulatory Change or to require any payment calculated by reference to the amount of interests in Collateral, then, upon demand by the

Administrative Agent or such Lender, the Borrower shall pay to the Administrative Agent or such Lender such amounts as are charged to such Person amounts as may otherwise be necessary to compensate such Person for such increased cost or such reduction; **provided** that notwithstanding anything herein to the contrary, (x) the Dodd-Frank Wall Street Reform and Consumer Protection Act adopted on July 21, 2010 and all requests, rules, guidelines or directives thereunder and (y) all requests, rules, guidelines or directives promulgated by the Bank for International Settlements, the Basel Committee on Banking Supervision (or any successor or similar authority) or the United States regulatory authorities, in each case pursuant to Basel III, shall in each case be deemed to be a **"Regulatory Change"**, regardless of the date enacted, adopted or issued. For the avoidance of doubt, payments under this Section 8.3 in respect of increased Taxes shall be without duplication of any Taxes payable pursuant to Section 8.5.

(b) If a Lender requests compensation under this Section 8.3, then such Lender will, if requested by the Borrower and at the Borrower's expense, use commercially reasonable efforts to designate another office of such Lender as the place for the booking and funding of such Lender's Revolving Commitment and Advances hereunder; **provided** that such efforts would not, in the good faith judgment of such Lender, be inconsistent with the internal policies of, or otherwise be materially disadvantageous in any legal, economic or regulatory respect to such Lender.

(c) The Administrative Agent or any Lender claiming compensation under this Section 8.3 shall deliver a certificate to the Borrower contemporaneously with the demand for payment, setting forth in reasonable detail a calculation of the additional amount or amounts to be paid to it hereunder which shall be conclusive in the absence of manifest error. In determining such amount, the Administrative Agent or such Lender may use any reasonable averaging and attribution methods.

(d) With respect to any claim for compensation under this Section 8.3, the Borrower shall not be required to compensate such Lender or Administrative Agent for any amount incurred more than one hundred eighty (180) days prior to the date that such Lender or Administrative Agent notifies the Borrower of the event that gives rise to such claim; **provided** that, if the circumstance giving rise to such claim is retroactive, then such one hundred eighty (180) day period referred to above shall be extended to include the period of retroactive effect thereof.

(e) Any demand for compensation made by any Lender or the Administrative Agent pursuant to this Section 8.3 shall be made only to the extent such Lender or Administrative Agent (in its capacity as such) is making similar demand with respect to its similarly situated commercial borrowers under comparable credit facilities.

Section 8.4. Other Costs and Expenses. The Borrower shall pay (a) all reasonable and documented out-of-pocket expenses incurred by the Administrative Agent, the Collateral Agent, the Structuring Advisor and the Lenders (including the reasonable and documented fees, charges and disbursements of counsel for the Administrative Agent and the Collateral Agent, of counsel for the Structuring Advisor and of counsel for the Lenders), in connection with the preparation, negotiation, execution, delivery and administration of this Agreement and the other Transaction Documents (including amounts incurred by the Administrative Agent, the Collateral Agent, or Structuring Advisor in connection with certificates, searches and reports ordered by the Administrative Agent, the Collateral Agent or the Structuring Advisor with respect to the Bausch Parties during the term of this Agreement) or any amendments, modifications or waivers of the provisions hereof or thereof (whether or not the transactions contemplated hereby or thereby shall be consummated), and (b) all reasonable and documented out-of-pocket expenses incurred by the Administrative Agent, the Collateral Agent, the Structuring Advisor or any Lender (including the fees, charges and disbursements of counsel), in connection with the enforcement

or protection of its rights in connection with this Agreement and the other Transaction Documents, including its rights under this Section 8.4.

Section 8.5. Taxes. (a) Any and all payments by or on account of any obligation of the Borrower under any Transaction Document (other than the Transfer Agreement) shall be made without deduction or withholding for any Taxes, except as required by applicable Law. If any applicable Law (as determined in the good faith discretion of the Borrower) requires the deduction or withholding of any Tax from any such payment by the Borrower, then the Borrower shall be entitled to make such deduction or withholding and shall timely pay the full amount deducted or withheld to the relevant Governmental Authority in accordance with applicable Law and, if such Tax is an Indemnified Tax, then the sum payable by Borrower shall be increased as necessary so that after such deduction or withholding has been made (including such deductions and withholdings applicable to additional sums payable under this Section 8.5) the applicable Recipient receives an amount equal to the sum it would have received had no such deduction or withholding been made.

(b) Without duplication of other amounts payable by the Borrower under this Section 8.5, the Borrower shall timely pay to the relevant Governmental Authority in accordance with applicable Law any Other Taxes.

(c) The Borrower shall indemnify each Recipient, on the first Settlement Date which is at least ten (10) days after demand therefor, for the full amount of any Indemnified Taxes (including Indemnified Taxes imposed or asserted on or attributable to amounts payable under this Section 8.5) payable or paid by such Recipient or required to be withheld or deducted from a payment to such Recipient and any reasonable out-of-pocket expenses arising therefrom or with respect thereto, whether or not such Indemnified Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate delivered to the Borrower (with a copy to the Administrative Agent) as to the amount to be paid to a Recipient shall be conclusive in the absence of manifest error.

(d) Each Recipient agrees that it will use reasonable efforts to reduce or eliminate any claim for indemnity pursuant to this Section 8.5, including, subject to applicable Law, a change in the funding office of such Recipient; **provided, however**, that nothing contained herein shall obligate any Recipient to take any action that imposes on such Recipient any additional unreimbursed costs or imposes material legal or regulatory burdens, or that would otherwise be disadvantageous to such Recipient. The Borrower hereby agrees to pay all reasonable costs and expenses incurred by a Recipient in connection with any such action.

(e) As soon as practicable after any payment of Taxes by the Borrower to a Governmental Authority pursuant to this Section 8.5, the Borrower shall deliver to the Administrative Agent the original or a certified copy of a receipt issued by such Governmental Authority evidencing such payment, a copy of the return reporting such payment or other evidence of such payment that is reasonably satisfactory to the Administrative Agent.

(f) If any Recipient determines, in good faith, that it has received a refund of any Taxes as to which it has been indemnified pursuant to this Section 8.5 (including by the payment of additional amounts pursuant to this Section 8.5), it shall pay to the Borrower an amount equal to such refund (but only to the extent of indemnity payments made, or additional amounts paid, under this Section 8.5 with respect to the Taxes giving rise to such refund), net of all out-of-pocket expenses (including Taxes) of such Recipient and without interest (other than any interest paid by the relevant Governmental Authority with respect to such refund). The Borrower, upon the request of such Recipient, shall repay to such Recipient the amount paid over pursuant to this Section 8.5(f) (plus any penalties, interest or other charges imposed by the relevant Governmental Authority) in the event that such Recipient is required to repay such

refund to such Governmental Authority. Notwithstanding anything to the contrary in this clause (f), in no event will the Recipient be required to pay any amount to the Borrower pursuant to this clause (f) the payment of which would place the Recipient in a less favorable net after-Tax position than the Recipient would have been in if the Tax subject to indemnification and giving rise to such refund had not been deducted, withheld or otherwise imposed and the indemnification payments or additional amounts with respect to such Tax had never been paid. This Section 8.5(f) shall not be construed to require any Recipient to make available its Tax returns (or any other information relating to its Taxes that it deems confidential) to the Borrower or any other Person.

(g) Each Lender shall deliver to the Borrower, the Master Servicer and the Administrative Agent, on or prior to the date on which such Lender becomes a party under this Agreement and as otherwise prescribed by applicable Law or reasonably requested by the Borrower or the Administrative Agent, such valid, properly completed and duly executed forms, certificates and documentation (including, as applicable, IRS Form W-8ECI, W-8BEN, W-8BEN-E, W-8IMY or W-9 or successor form of the foregoing), along with any applicable attachments (including, in case of a Person claiming the benefits of the exemption for portfolio interest under Section 881(c) of the Code, a certificate reasonably satisfactory to the Borrower to the effect that such Person is not a "bank" within the meaning of Section 881(c)(3)(A) of the Code, a "**10 percent shareholder**" of the Borrower (or its regarded owner(s) for U.S. federal income tax purposes) or Bausch (or its regarded owner(s) for U.S. federal income tax purposes) within the meaning of Section 881(c)(3)(B) of the Code, or a "controlled foreign corporation" related to the Borrower (or its regarded owner(s) for U.S. federal income tax purposes) or Bausch (or its regarded owner(s) for U.S. federal income tax purposes), as described in Section 881(c)(3)(C) of the Code), prescribed by applicable Law or reasonably requested by the Borrower, the Master Servicer or the Administrative Agent as will permit such payments to be made without or at a reduced rate of withholding and as will enable the Borrower, the Master Servicer or the Administrative Agent to determine whether or not such Lender is subject to backup withholding or information reporting requirements. Each Lender agrees that if any form or certification it previously delivered expires or becomes obsolete or inaccurate in any respect, it shall update such form or certification or promptly notify the Borrower, Master Servicer and Administrative Agent, in writing of its legal inability to do so. Each Lender shall replace or update such forms when

necessary to maintain any applicable exemption and as requested by the Administrative Agent or the Borrower, as applicable. Notwithstanding anything to the contrary in this [Section 8.5\(g\)](#), the completion, execution and submission of such documentation (other than, as applicable, IRS Form W-8ECI, W-8BEN, W-8BEN-E, W-8IMY or W-9 or successor form of the foregoing, and the certificate claiming the benefits of the exemption for portfolio interest referenced above) shall not be required if in such Lender's reasonable judgment such completion, execution or submission would subject such Lender to any material unreimbursed cost or expense or would materially prejudice the legal or commercial position of such Lender. Each Lender agrees to indemnify the Administrative Agent for and hold the Administrative Agent harmless from (i) any Indemnified Taxes attributable to such Lender (but only to the extent that the Borrower has not already indemnified the Administrative Agent for such Indemnified Taxes and without limiting the obligation of the Borrower to do so), (ii) any Taxes relating to payments by the Borrower to such Lender or such indemnitee arising from such Lender's failure to comply with this [Section 8.5\(g\)](#) or with the provisions of [Section 10.7\(a\)](#) relating to the maintenance of a Participant Register and (iii) any Excluded Taxes attributable to such Lender, in each case that are payable or paid by the Administrative Agent in connection with any Transaction Document, together with any reasonable expenses arising therefrom or with respect thereto, regardless of whether or not such Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. Any notice claiming indemnification under this [Section 8.5\(g\)](#) shall set forth in reasonable detail the additional amount or amounts to be paid to it hereunder and shall be conclusive in the absence of manifest error. Each Lender hereby authorizes the Administrative Agent to set off and apply any and all amounts at any time owing

to such Lender hereunder or otherwise payable by the Administrative Agent to such Lender from any other source against any amount due to the Administrative Agent under this [Section 8.5\(g\)](#).

(h) If a payment made to the Administrative Agent or any Lender under any Transaction Documents would be subject to U.S. federal withholding Tax imposed by FATCA if such payee were to fail to comply with the applicable reporting requirements of FATCA (including those contained in Section 1471(b) or 1472(b) of the Code, as applicable), such payee shall deliver to the Borrower and the Administrative Agent at the time or times prescribed by Law and at such time or times reasonably requested by the Borrower or the Administrative Agent, such documentation prescribed by applicable Law (including as prescribed by Section 1471(b)(3)(C)(i) of the Code) and such additional documentation reasonably requested by the Borrower or the Administrative Agent as may be necessary for the Borrower GP and the Borrower to comply with their obligations under FATCA and to determine that such payee has complied with such payee's obligations under FATCA or to determine the amount to deduct and withhold from such payment. Solely for purposes of this [clause \(h\)](#), the term "**FATCA**" shall include any amendments made to FATCA after the date of this Agreement.

(i) The Administrative Agent shall deliver to the Borrower prior to the date on which the first payment by the Borrower is due hereunder a properly completed and executed IRS Form W-9 certifying its exemption from U.S. federal backup withholding and, on or before the date on which any such previously delivered IRS Form W-9 expires or becomes obsolete or inaccurate in any respect, deliver promptly to the Borrower an updated IRS Form W-9 or other appropriate documentation. The Administrative Agent shall have the right to withhold amounts from any payments under the Transaction Documents, and shall not be liable for such withholding, to the extent such amounts are required by applicable Law to be withheld.

(j) Each party's obligations under this [Section 8.5](#) shall survive the resignation or replacement of the Administrative Agent or any assignment of rights by, or the replacement of, a Lender, the termination of the Revolving Commitments and the repayment, satisfaction or discharge of all obligations under any Transaction Document.

Section 8.6. Limitation of Recourse and No Petition. Notwithstanding any provision to the contrary herein or elsewhere in the Transaction Documents, each party to this agreement covenants and agrees as follows:

(a) Any recourse against the Borrower or the Borrower GP in respect of this Agreement or the other Transaction Documents will be limited to the assets of the Borrower or the Borrower GP, as applicable.

(b) The obligations of the Borrower and the obligations of the Borrower GP hereunder, are solely the respective partnership or corporate obligations of the Borrower or the Borrower GP, as applicable, and each of the parties hereto agrees that it shall not make any claims against assets other than those of the Borrower or the Borrower GP, as applicable, and, without limitation, no shareholder of the Borrower GP shall be

bound to contribute to the assets of the Borrower GP to allow the Borrower GP or the Borrower to satisfy any claim (acknowledging that this provision is, among other things, a provision described in subsection 135(f) of the *Companies Act of Nova Scotia*).

(c) It will not at any time prior to one year and one day following the Final Payout Date (a) seek or institute, or join with any other Person in seeking or instituting, against the Borrower or the Borrower GP, any bankruptcy, reorganization, arrangement, insolvency or liquidation proceedings under the Bankruptcy and Insolvency Act (Canada) or the Companies' Creditors Arrangement Act (Canada), (b) otherwise take any action to appoint a receiver of the Borrower or the Borrower GP or of all or any part of the property of the Borrower or the

52

Borrower GP, or (c) except as otherwise expressly contemplated herein, seek or institute, or join with any other Person in seeking or instituting, an order for the winding up or liquidation of the affairs of the Borrower or the Borrower GP.

(d) No recourse shall be had for the payment of any amount owing by the Borrower or the Borrower GP in respect of this Agreement or the other Transaction Documents or for the payment of any fee hereunder or for any other obligation or claim arising out of or based upon this Agreement against the Parent, the Master Servicer or any Affiliate of any of the foregoing (other than the Borrower and the Borrower GP), or any stockholder, employee, officer, director, incorporator or beneficial owner of any of the foregoing; **provided, however**, that the foregoing shall not in any manner affect, limit or waive any of the obligations of the Master Servicer or any Affiliate of any of the foregoing that such Person may have under any Transaction Document.

(e) The agreements in this Section 8.6 shall survive any termination of this Agreement.

ARTICLE IX.

THE AGENTS

Section 9.1. Appointment.

(a) Each Lender hereby irrevocably designates and appoints GLAS USA LLC as Administrative Agent hereunder, and GLAS AMERICAS LLC as Collateral Agent hereunder, and authorizes each of the Administrative Agent and Collateral Agent to take such action on its behalf and to exercise such powers and perform such duties as are expressly delegated to the Administrative Agent or Collateral Agent, as the case may be, by the terms of the Transaction Documents to which the Administrative Agent or Collateral Agent is a party. The Lenders hereby authorize, empower and direct each of the Administrative Agent and Collateral Agent to execute and deliver on their behalf the Transaction Documents and all related agreements, documents or instruments as shall be necessary or appropriate as determined by the Lenders in good faith and in the forms presented to the Administrative Agent or Collateral Agent, as the case may be, as of the date hereof in order to effectuate the purposes of the Transaction Documents and any such other related agreements, documents and instruments. Each of the Lenders hereby acknowledges that it has received a copy of the Transaction Documents and agrees that it will be bound by and will take no actions contrary to the provisions of the Transaction Documents to the extent then in effect. Notwithstanding any provision to the contrary elsewhere in the Transaction Documents, neither the Administrative Agent nor the Collateral Agent shall have (i) any duties or responsibilities, except those expressly set forth herein, or (ii) any fiduciary relationship with any Person, and no implied covenants, functions, responsibilities, duties, obligations or liabilities on the part of the Administrative Agent or Collateral Agent shall be read into the Transaction Documents or otherwise exist against the Administrative Agent or Collateral Agent. Without limiting the generality of the foregoing, the use of the term "agent" herein and in the other Transaction Documents with reference to the Administrative Agent or Collateral Agent is not intended to connote any fiduciary or other implied (or express) obligations arising under agency doctrine of any applicable law. Instead, such term is used merely as a matter of market custom, and is intended to create or reflect only an administrative relationship between independent contracting parties. The permissive authorizations, entitlements, powers and rights granted to the Administrative Agent and Collateral Agent in the Transaction Documents shall not be construed as duties.

(b) In performing its functions and duties hereunder, each of the Administrative Agent and Collateral Agent shall act solely as the Administrative Agent or

53

Collateral Agent, as the case may be, of the Lenders and does not assume nor shall be deemed to have assumed any obligation or relationship of trust or agency with or for any of the Bausch Parties or any of their respective successors and assigns. No provision of this Agreement, nor any of the Transaction Documents shall be construed to require an Administrative Agent to expend or risk its own funds or otherwise incur any personal liability, take any legal action hereunder, or to otherwise incur any financial liability in the performance of any of its duties hereunder or thereunder or in the exercise of any of its rights, privileges, and powers, if, in its sole judgment, it shall believe that repayment of such funds or indemnity satisfactory to it against such risk or liability is not assured to it.

(c) The parties hereto hereby direct each of the Administrative Agent and Collateral Agent to execute and deliver the Transaction Documents to which it was a party on the Closing Date. It is hereby expressly acknowledged and agreed that, in taking the foregoing actions, neither the Administrative Agent nor the Collateral Agent is not responsible for the terms or contents of such agreements, or for the validity or enforceability thereof, or the sufficiency thereof for any purpose. Whether or not so expressly stated therein, in entering into, or taking (or forbearing from) any action under or pursuant to, the Transaction Documents, each of the Administrative Agent and Collateral Agent shall have all of the rights, immunities, indemnities and other protections granted to it under this Agreement (in addition to those that may be granted to it under the terms of such other agreement or agreements). The Collateral Agent shall have no responsibility for the determination, preparing, recording, filing, re-recording, or re-filing of any financing statement, continuation statement or other instrument in any public office.

(d) The Administrative Agent hereby represents and warrants that it is a "U.S. person" and a "financial institution" and that it will comply with any "obligation to withhold," each within the meaning of Treasury Regulations Section 1.1441-1(b)(2)(ii).

(e) Without limiting the generality of the powers of the Collateral Agent, as set forth above, in the context of any bankruptcy, receivership or other insolvency proceeding involving the Borrower or any other Bausch Party, the Collateral Agent or the Administrative Agent, as the case may be, is hereby authorized to, at the written direction of Requisite Lenders: (i) file proofs of claim and other documents on behalf of the Lenders, (ii) object or consent to the use of cash collateral, (iii) object or consent to any proposed debtor-in-possession financing, whether provided by one or more of the Lenders or any other Person and whether secured by Liens with priority over the Liens securing the Borrower Obligations or otherwise, (iv) object or consent to any sale of Collateral, including sales for non-cash consideration in satisfaction of a portion of the Borrower Obligations, as may be agreed to by Requisite Lenders on behalf of all of the Lenders, (v) to be, or form an acquisition entity to be, the purchaser of any or all of such Collateral at any such sale under clause (iv) and to offset any of the Borrower Obligations against the purchase price payable by the Collateral Agent (or such acquisition entity) at such sale or to otherwise consent to a reduction of the Borrower Obligations as consideration to the Borrower in connection with such sale, and (vi) seek, object or consent to the Borrower's provision of adequate protection of the interests of the Collateral Agent and/or the Lenders in the Collateral.

Section 9.2. Delegation of Duties. The Administrative Agent and Collateral Agent may execute any of their respective duties under the applicable Transaction Documents by or through agents or attorneys-in-fact or their respective Affiliates or Related Parties and shall be entitled to advice of counsel concerning all matters pertaining to such duties. The exculpatory and indemnification provisions of this Article IX shall apply to any such Affiliate, Related Party, agent and attorney-in-fact and to their respective Affiliates and Related Parties, and shall apply, without limitation, to their activities as the Administrative Agent or Collateral Agent, as the case

may be. Neither the Administrative Agent nor the Collateral Agent shall be responsible for the negligence or misconduct of any agents or attorneys-in-fact selected by it with reasonable care.

Section 9.3. Exculpatory Provisions.

(a) Neither the Administrative Agent, the Collateral Agent, nor any of their respective officers, directors, employees, agents, advisors, attorneys-in-fact or affiliates shall be (i) liable for any action taken or omitted to be taken (including the making of (or omitting to make) any determination, calculations, selection, request or providing any approval or consent or enter into any amendments, modifications or supplements) by it or any Person under or in connection with this Agreement or any other Transaction Document (except to the extent that any of the foregoing are found by a final and nonappealable judgment of a court of competent jurisdiction to have resulted from its or such Person's own gross negligence or willful misconduct; **provided** that no action taken or not taken in accordance with the directions of the Structuring Advisor, Requisite Lenders or such other percentage of Lenders as shall be necessary hereunder, as applicable, shall be deemed to constitute gross negligence or willful misconduct) or (ii) responsible in any manner to any of the Lenders or the Structuring Advisor for (A) any recitals, statements, representations or warranties made by any Bausch Party or any officer thereof contained in this Agreement or any other Transaction Document or in any certificate, report, instrument, statement or other document referred to or provided for in, or received by the Agents or Lenders under or in connection with, this Agreement or any other Transaction Document or the transactions contemplated herein or therein, (B) the value, validity, effectiveness, genuineness, enforceability, execution, collectability or sufficiency of this Agreement or any other Transaction Document or for any failure of any Bausch Party party thereto to perform its obligations hereunder or thereunder, (C) the satisfaction of any condition specified in Article IV, except receipt of items required to be delivered to the Administrative Agent, as applicable, (D) the financial condition or business affairs of any Bausch Party or any other Person liable for the payment of any Borrower Obligations or (E) the attachment, creation and/or perfection of the Liens granted or purported to be granted in the Collateral pursuant hereto or the continuation and/or amendment of any financing statements filed to perfect the Liens in the applicable Collateral.

(b) None of the Structuring Advisor, the Administrative Agent nor Collateral Agent (a) shall be subject to any fiduciary or other implied duties, regardless of whether an Amortization Event or Potential Amortization Event has occurred or is continuing, and (b) shall have any duty to take any discretionary action or exercise any discretionary powers, except discretionary rights and powers expressly contemplated hereby or by the other Transaction Documents that the Administrative Agent or Collateral Agent is required to exercise as directed in writing by the Requisite Lenders (or such other number or percentage of the Lenders as shall be expressly provided for herein or in the other Transaction Documents), **provided** that neither the Administrative Agent nor the Collateral Agent shall be required to take any action that, in its opinion or the opinion of its counsel, may expose such Agent to liability or that is contrary to any Transaction Document or Requirement of Law. Each of the Administrative Agent and Collateral Agent shall be entitled to refrain from taking any discretionary action unless and until it shall have received instructions from the Requisite Lenders, and neither the Administrative Agent nor the Collateral Agent shall incur any liability to any Person by reason of so refraining and if, in performing its duties under this Agreement, the Administrative Agent or Collateral Agent is required to decide between alternative courses of action or has received conflicting directions or any other directions from Lenders, which instructions may be given in email or other writing as requested by the Administrative Agent or Collateral Agent, as the case may be, each of the Administrative Agent and Collateral Agent may refrain from taking any action until it receives instructions from the Requisite Lenders.

(c) The Agents shall not be under any obligation to any Lender (i) to ascertain or to inquire as to the observance or performance of any of the agreements, terms, covenants or provisions contained in, or conditions of, this Agreement or any other Transaction Document, (ii) to inspect the properties, books or records of any Bausch Party, (iii) to ascertain or to inquire as to the use of the proceeds of the Advances, (iv) to ascertain or to inquire as to the existence or possible existence of any Amortization Event or Potential Amortization Event, (v) to ascertain or to inquire as to any statement, warranty or representation made in or in connection with this Agreement or any other Transaction Document, (vi) to ascertain or to inquire as to the contents of any certificate, report or other document delivered hereunder or under any Transaction Documents or in connection herewith or therewith, (vii) to ascertain or to inquire as to the validity, enforceability, effectiveness or genuineness of this Agreement, any other Transaction Document or any other agreement, instrument or document, or the creation, perfection or priority of any Lien purported to be created under this Agreement, (viii) to ascertain or to inquire as to the value or the sufficiency of any Collateral, (ix) to ascertain or to inquire as to the satisfaction of any condition set forth in Article IV or elsewhere herein, other than to confirm receipt of items expressly required to be delivered to the Administrative Agent, the Collateral Agent or Structuring Advisor or (x) to ascertain or inquire as to whether any prospective assignee is an Affiliate of a Lender, or (xi) to make any disclosures with respect to the foregoing or otherwise relating to any Bausch Party unless expressly required herein. The only obligation of the Administrative Agent or Collateral Agent with respect to any notice, certificate, report or other document delivered to it is to deliver a copy of the same to the Lenders if such delivery is required by the terms of this Agreement. Neither the Administrative Agent nor the Collateral Agent shall have any liability or responsibility to review the contents of any such notice, certificate, report or other document or to take action in connection therewith absent a direction of the Requisite Lenders in accordance with this Agreement. It is expressly agreed and acknowledged that neither the

Administrative Agent nor the Collateral Agent is guaranteeing performance of the obligations of the Bausch Parties or other parties hereto or any parties to the Collateral. Anything contained herein to the contrary notwithstanding, neither the Administrative Agent nor the Collateral Agent shall have any liability arising from confirmations of the amount of outstanding Advances or the component amounts thereof. Additionally, neither the Administrative Agent nor the Collateral Agent shall have any liability with respect to or arising out of any assignment or participation of Advances, or disclosure of confidential information to any potential Lender in the absence of gross negligence or willful misconduct. For the avoidance of doubt, neither the Administrative Agent nor Collateral Agent shall be obligated to calculate or confirm the calculations of any Call Premium, Unused Facility Fee, or any covenants set forth herein or the other Transaction Documents or in any of the financial statements of the Bausch Parties.

(d) The powers conferred on the Administrative Agent and the Collateral Agent under the Transaction Documents are solely to protect each of the Administrative Agent's and Collateral Agent's interest in the Collateral, shall not impose any duty upon it to exercise any such powers and are subject to the provisions of this Agreement. The Administrative Agent and Collateral Agent shall be accountable only for amounts that it actually receives as a result of the exercise of such powers. The Collateral Agent's sole duty with respect to the custody, safekeeping and physical preservation of any Collateral in its possession, under the UCC or otherwise, shall be to deal with it in the same manner as the Collateral Agent deals with similar property for its own account. The Collateral Agent shall have no responsibility for taking any necessary steps to protect, preserve or exercise rights against any Person with respect to any of the Collateral and shall be relieved of all responsibility for the Collateral upon surrendering it to the Borrower. The Collateral Agent shall not be required to take any action to protect against any diminution in value of the Collateral.

(e) Notwithstanding any provision of this Agreement or the other Transaction Documents to the contrary, neither the Administrative Agent nor the Collateral Agent shall be

required to (i) make or give any determination (including whether a matter is satisfactory to the Administrative Agent or Collateral Agent, or whether to deem a matter necessary, desirable, proper or advisable), agreement, consent, approval, request, notice, consultation, designation, appointment, election, judgment or direction, (ii) file, record or prepare any UCC or PPSA financing or continuation statements or similar documents or instruments in any jurisdiction for purposes of creating, perfecting or maintaining any Lien or Security Interest, (iii) make any inspection or (iv) release or sell Collateral or otherwise exercise any rights or remedies of a secured party (including voting rights), in the case of (i), (iii) and (iv), without the written direction of the Requisite Lenders. For the avoidance of doubt, the Collateral Agent shall not be responsible to the Lenders for the perfection of any Lien or for the filing, form, content or renewal of any UCC or PPSA financing statements, fixture filings, mortgages, deeds of trust and such other documents or instruments, **provided, however**, that if instructed by the Requisite Lenders and at the expense of the Borrower, the Collateral Agent shall arrange for the filing and continuation, of financing statements or other filing or recording documents or instruments (collectively, the "**Financing Statements**") for the perfection of Security Interests in the Collateral; **provided**, that, the Collateral Agent shall not be responsible for the preparation, form, content, sufficiency or adequacy of any such Financing Statements, all of which shall be provided in writing to the Collateral Agent by the Requisite Lenders including the jurisdictions and filing offices where the Collateral Agent is required to file such Financing Statements.

(f) Notwithstanding any provision of this Agreement or the other Transaction Documents to the contrary, before taking or omitting any action to be taken or omitted by the Administrative Agent or Collateral Agent under the terms of this Agreement and the other Transaction Documents, each of the Administrative Agent and Collateral Agent may seek the written direction of the Requisite Lenders (which written direction may be in the form of an e-mail), and each of the Administrative Agent and Collateral Agent shall be entitled to rely (and shall be fully protected in so relying) upon such direction. Neither the Administrative Agent nor the Collateral Agent shall be liable with respect to any action taken or omitted to be taken by it in accordance with such direction. If either the Administrative Agent or Collateral Agent shall request such direction with respect to any action, such Agent shall be entitled to refrain from such action unless and until the Administrative Agent or Collateral Agent shall have received such direction, and neither the Administrative Agent nor Collateral Agent shall incur liability to any Person by reason of so refraining. Any provision of this Agreement or the other Transaction Documents authorizing the Administrative Agent or Collateral Agent to take any action shall not obligate the Administrative Agent or Collateral Agent to take such action.

(g) In no event shall the Collateral Agent have any duty, responsibility, obligation or liability with respect to monitoring the Collateral or the condition thereof, or with respect to the perfection of any Security Interest or the maintenance of any perfection or priority.

(h) In acting under the Transaction Documents to which it is a party, each of the Administrative Agent and Collateral Agent shall be entitled to all of the rights, protections, immunities and indemnities set forth in this Agreement.

(i) Neither the Administrative Agent nor the Collateral Agent shall be required to use, risk or advance its own funds or otherwise incur financial liability in the performance of any of its duties or the exercise of any of its rights and powers hereunder or under the other Transaction Documents (including, but not limited to, no obligation to grant any credit extension or to make any advance hereunder). Before acting hereunder, the Administrative Agent and Collateral Agent shall be entitled to request, receive and rely upon such certificates and opinions as it may reasonably determine are appropriate with respect to the satisfaction of any specified circumstances or conditions precedent to such action. Neither the Administrative Agent nor the Collateral Agent shall be responsible for delays or failures in performance resulting from acts beyond its control. Such acts shall include but not be limited to acts of God.

57

strikes, lockouts, riots, acts of war, epidemics or pandemics, government-mandated closures, governmental regulations superimposed after the fact, fire, communication line failures, computer viruses, power failures, earthquakes, terrorist attacks or other disasters. In no event shall the Administrative Agent nor the Collateral Agent be liable, directly or indirectly, for any special, indirect, punitive or consequential damages, even if such Agent has been advised of the possibility of such damages and regardless of the form of action.

(j) Each of the Administrative Agent and Collateral Agent shall be fully justified in failing or refusing to take any action under any Transaction Document unless it shall first receive such advice or concurrence of the Requisite Lenders (and shall not be liable for any loss or expense that arises as a result of its failure to act while awaiting such advice or concurrence) and, if it so requests, it shall first be indemnified to its satisfaction by the Lenders against any and all liability and expense which may be incurred by it by reason of taking or continuing to take any such action.

(k) The Structuring Advisor, the Administrative Agent and the Collateral Agent shall be entitled to rely upon advice of counsel concerning legal matters and such advice shall be full protection and authorization for any action taken by the Administrative Agent or Collateral Agent in good faith thereon.

(l) Delivery of reports, documents and other information to the Structuring Advisor and the Administrative Agent is for informational purposes only and the Structuring Advisor and the Administrative Agent's receipt of the foregoing shall not constitute constructive knowledge of any event or circumstance or any information contained therein or determinable from information contained therein.

(m) The Administrative Agent shall have no responsibility for interest or income on any funds held by it under the Transaction Documents and any funds so held shall be held uninvested pending distribution thereof.

(n) The Lenders and any transferees or assignees after the Closing Date will be required to provide to the Administrative Agent or its agents all information, documentation or certifications reasonably requested by the Administrative Agent to permit the Administrative Agent to comply with its tax reporting obligations under applicable laws, including any applicable cost basis reporting obligations.

(o) Notwithstanding any other provision of the Transaction Documents and without limiting the generality of the foregoing provisions, neither the Administrative Agent nor the Collateral Agent shall have any duty, liability or obligation to any party to this Agreement with respect to Receivables or with respect to the proceeds thereof, other than with respect to the standard of care applicable to the Collateral required under Section 9.3(d). The Lenders agree to provide any such direction requested by the Administrative Agent or Collateral Agent within two (2) Business Days of request therefor.

(p) Neither the Administrative Agent nor the Collateral Agent shall have any liability for any failure, inability or unwillingness on the part of any Bausch Party to provide accurate and complete information on a timely basis to the Administrative Agent, or otherwise on the part of any such party to comply with the terms of this Agreement, and neither such Agent shall have any liability for any inaccuracy or error in the performance or observance on the Administrative Agent's or Collateral Agent's part of any of its duties hereunder or under the other Transaction Documents that is caused by or results from any such inaccurate, incomplete or untimely information received by it, or other failure on the part of any such other party to comply with the terms hereof.

58

(q) For purposes of clarity, phrases such as “satisfactory to the Administrative Agent,” “approved by the Administrative Agent,” “acceptable to the Administrative Agent,” “as determined by the Administrative Agent,” “in the Administrative Agent’s discretion,” “selected by the Administrative Agent,” “elected by the Administrative Agent,” “requested by the Administrative Agent,” and phrases of similar import that authorize and permit the Administrative Agent to approve, disapprove, determine, act or decline to act in its discretion shall be subject to the Administrative Agent receiving written direction from the Requisite Lenders, to take such action or to exercise such rights (it being understood that nothing contained in this Agreement or any other Transaction Document shall impose a duty on the Administrative Agent to make any such determination or take any action independent of such written direction from the Requisite Lenders). For purposes of clarity, phrases such as “satisfactory to the Collateral Agent,” “approved by the Collateral Agent,” “acceptable to the Collateral Agent,” “as determined by the Collateral Agent,” “in the Collateral Agent’s discretion,” “selected by the Collateral Agent,” “elected by the Collateral Agent,” “requested by the Collateral Agent,” and phrases of similar import that authorize and permit the Collateral Agent to approve, disapprove, determine, act or decline to act in its discretion shall be subject to the Collateral Agent receiving written direction from the Requisite Lenders, to take such action or to exercise such rights (it being understood that nothing contained in this Agreement or any other Transaction Document shall impose a duty on the Collateral Agent to make any such determination or take any action independent of such written direction from the Requisite Lenders).

(r) Each of the Administrative Agent and Collateral Agent hereby disclaims any representation or warranty to the Lenders concerning and shall have no responsibility to Lenders for the existence, priority or perfection of the Liens and Security Interests granted hereunder or under any Transaction Document or in the value of any of the Collateral and shall not be responsible or liable to the Lenders for any failure to monitor or maintain any portion of the Collateral. The Collateral Agent makes no representation as to the value, sufficiency or condition of the Collateral or any part thereof, as to the title of the Borrower to the Collateral, as to the security afforded by this Agreement or any other Transaction Document. The Collateral Agent shall not be responsible for insuring the Collateral, for the payment of Taxes, charges, assessments or Liens upon the Collateral or otherwise as to the maintenance of the Collateral, except as provided in the immediately following sentence when the Collateral Agent has possession of the Collateral. The Collateral Agent shall not have any duty to the Lenders as to any Collateral in its possession or in the possession of someone under its control or in the possession or control of any agent or nominee of such Collateral Agent or any income thereon or as to the preservation of rights against prior parties or any other rights pertaining thereto, except the duty to accord such of the Collateral as may be in its possession substantially the same care as it accords its own assets and the duty to account for monies received by it. The Collateral Agent shall not be under an obligation independently to request or examine insurance coverage with respect to any Collateral. The Collateral Agent shall not be liable for the acts or omissions of any bank, depository bank, custodian, independent counsel of the Borrower or any other party selected by the Administrative Agent or the Collateral Agent, with reasonable care, or by the Requisite Lenders or selected by any other party hereto that may hold or possess Collateral or documents related to Collateral and shall not be required to monitor the performance of any such Persons holding Collateral.

(s) The Administrative Agent does not warrant or accept responsibility for, and shall not have any liability with respect to (a) the continuation of, administration of, submission of, calculation of or any other matter related to the Term SOFR Reference Rate, Term SOFR, ABR, or any component definition thereof or rates referred to in the definition thereof, or any alternative, successor or replacement rate thereto (including any Benchmark Replacement), including whether the composition or characteristics of any such alternative, successor or replacement rate (including any Benchmark Replacement) will be similar to, or produce the same value or economic equivalence of, or have the same volume or liquidity as, the

Term SOFR Reference Rate, Term SOFR or any other Benchmark prior to its discontinuance or unavailability, or (b) the effect, implementation or composition of any Conforming Changes. The Administrative Agent and its affiliates or other related entities may engage in transactions unrelated to this Agreement that affect the calculation of the Term SOFR Reference Rate, Term SOFR, any alternative, successor or replacement rate (including any Benchmark Replacement) or any relevant adjustments thereto, in each case, in a manner adverse to the Borrower. The Administrative Agent may (i) select information sources or services in its reasonable discretion to ascertain the Term SOFR Reference Rate, Term SOFR, Daily Simple SOFR, or any other Benchmark, Benchmark Replacement or Benchmark Replacement Adjustments, and to make any Conforming Changes, in each case pursuant to the terms of this Agreement, (ii) shall have no liability to the Borrower, any Lender, any Bausch Party or any other person or entity for

damages of any kind, including direct or indirect, special, punitive, incidental or consequential damages, costs, losses or expenses (whether in tort, contract or otherwise and whether at law or in equity), for any error or calculation of any such rate (or component thereof) provided by any such information source or service and (iii) in making any determination as to the Term SOFR Reference Rate, Term SOFR, Daily Simple SOFR, or any other Benchmark, Benchmark Replacement or Benchmark Replacement Adjustment, or the making of any Conforming Changes, shall be entitled to request and rely on direction from the Requisite Lenders prior to ascertaining or making such determination.

Section 9.4. Reliance by the Agent and the Lenders.

(a) Each of the Agents and the Lenders shall in all cases be entitled to rely, and shall be fully protected in relying, upon (and shall not be liable for so relying upon in the absence of bad faith, gross negligence or willful misconduct) any note, writing, resolution, notice, consent, certificate, affidavit, letter, cablegram, telegram, facsimile, telex or teletype message, statement, electronic transmission, order or other document or conversation believed by it to be genuine and correct and to have been signed (whether manual, facsimile, .pdf or other electronic signature), sent or made (or authenticated) by the proper Person or Persons, and shall be entitled to presume the genuineness and due authority of any signature (whether manual, facsimile, .pdf or other electronic signature) appearing thereon, and upon advice and statements of legal counsel (including, without limitation, counsel to the Bausch Parties), independent accountants and other experts selected by such Agent or such Lender. In determining compliance with any condition hereunder to the making of an Advance, that by its terms must be fulfilled to the satisfaction of a Lender, the Administrative Agent may presume that such condition is satisfactory to such Lender unless the Administrative Agent shall have received notice to the contrary from such Lender prior to the making of such Advance. Each of the Administrative Agent and Collateral Agent may request instructions from the Requisite Lenders (or such number or percentage of the Lenders as shall be necessary under the circumstances as provided for herein or in the other Transaction Documents) and/or the Structuring Advisor (as applicable) prior to taking any action or enter into any amendments, modifications or supplements, making any determination (including as to whether any agreement, document or instrument is in form and substance satisfactory to such Agent), making any calculation (which shall be computed by the Structuring Advisor or Requisite Lenders), sending any notice, making a selection or request (including failing to make a selection or request), exercising any voting rights or powers (including failing to exercise any voting rights or powers) or providing any consent or approval (including failing to provide any consent or approval) in connection with this Agreement or any of the other Transaction Documents and may refrain (and shall incur no liability from so refraining) from taking or omitting to take any act or making any such determination, calculation, selection, request, exercising such voting rights or powers or providing such notice, approval or consent or entering into or any amendments, modifications or supplements until it receives such instruction (or calculation, as applicable) from the Requisite Lenders (or such number or percentage of the Lenders as shall be necessary under the circumstances as provided for herein or in the other Transaction Documents) and/or the

Structuring Advisor (as applicable), in each case as it reasonably deems appropriate (and until such instructions and indemnity, as applicable, are received, each of the Administrative Agent and the Collateral Agent may (but shall not be obligated to) act, or refrain from acting, as it deems advisable in in good faith in the interests of the Lenders). Each of the Administrative Agent and Collateral Agent shall in all cases be fully protected in acting, or in refraining from acting, under this Agreement and the other Transaction Documents in accordance with a request of the Structuring Advisor or Requisite Lenders (or such number or percentage of the Lenders as shall be necessary under the circumstances as provided for herein or in the other Transaction Documents), and such request and any action taken or failure to act pursuant thereto shall be binding upon all the Lenders and all future holders of the Advances. Notwithstanding any other provisions set forth in this Agreement or any other Transaction Documents, each Agent shall not be required to take any action that is in its opinion contrary to applicable Law (including, for the avoidance of doubt, any action that may be in violation of the automatic stay under the United States Bankruptcy Code (or any similar laws)) or that may affect a forfeiture, modification or termination of property of a Lender in violation of United States Bankruptcy Code (or any similar laws) or the terms of any of the Transaction Documents or that would in its reasonable opinion subject it or any of its officers, employees or directors to personal liability. Each Lender, by delivering its signature page to this Agreement or an Assignment Agreement and/or funding its Advances, shall be deemed to have acknowledged receipt of, and consented to and approved, each Transaction Document and each other document required to be approved by any Agent, Requisite Lenders or Lenders, as applicable on the Closing Date or as of, or prior to, the date of funding such Advance. On any applicable date of determination, upon request, the Administrative Agent shall be required to calculate whether a particular group of Lenders constitutes the Requisite Lenders based upon the Register, but shall have no liability for such calculation absent gross negligence or willful misconduct. The Administrative Agent shall not be required to remit payments, the proceeds of Collateral or any other funds to the Lenders or any other Secured Parties herein other than in accordance with the Transaction Documents.

(b) Any action taken by the Administrative Agent or Collateral Agent in accordance with Section 9.4(a) shall be binding upon all Lenders.

Section 9.5. Notice of Amortization Events. The Agents and the Lenders shall not be deemed to have knowledge or notice of the occurrence of any Amortization Event or Potential Amortization Event, unless such Lender or an officer of such Agent in the corporate trust department who is responsible for this Agreement, as the case may be, has received written notice from another party referring to this Agreement, stating that an Amortization Event or Potential Amortization Event has occurred hereunder and describing such event. In the event that an Agent or one of the Lenders receives such a notice, it shall promptly give notice thereof to the other Lenders. The Administrative Agent shall take such action with respect to such Amortization Event or Potential Amortization Event as shall be directed by the Requisite Lenders (or, if so specified by this Agreement, all Lenders or such number or percentage of the Lenders as shall be necessary under the circumstances as provided for herein or in the other Transaction Documents).

Section 9.6. Non-Reliance on the Agents or Other Lender. Each of the Lenders expressly acknowledges that the Agents, the other Lenders, and the respective officers, directors, employees, agents, advisors, attorneys-in-fact or affiliates of any of the foregoing has made no representations or warranties to it and that no act by the Agents or any other Lender hereafter taken, including, without limitation, any review of the affairs of the Bausch Parties or any of their Affiliates, shall be deemed to constitute any representation or warranty by any Agent or such other Lender. Each of the Lenders also represents and warrants to the Agents and the other Lenders that it has, independently and without reliance upon any such Person (or any of their Affiliates) and based on such documents and information as it has deemed appropriate, made its own appraisal of, and investigation into, the business, operations, property, prospects, financial

and other conditions and creditworthiness of the Bausch Parties and their Affiliates and made its own decision to enter into this Agreement. Each of the Lenders also represents that it will, independently and without reliance upon any of the Agents or the other Lenders, and based on such documents and information as it shall deem appropriate at the time, continue to make its own credit analysis, appraisals and decisions in taking or not taking action under this Agreement, and to make such investigation as it deems necessary to inform itself as to the business, operations, property, prospects, financial and other condition and creditworthiness of the Bausch Parties. Except for notices, reports and other documents expressly required to be furnished to the Lenders by the Administrative Agent, the Agents, the Lenders and the respective Affiliates of the foregoing, shall have no duty or responsibility to provide any party to this Agreement with any credit or other information concerning the business, operations, property, prospects, financial and other condition or creditworthiness of the Bausch Parties which may come into the possession of such Person or any of its respective officers, directors, managers, employees, agents, advisors, attorneys-in-fact or affiliates.

Section 9.7. Indemnification of the Agents. The Lenders severally agree to indemnify each Agent and its officers, directors, employees, affiliates, agents, advisors and controlling persons (to the extent not timely reimbursed by the Bausch Parties and without limiting the obligation of the Bausch Parties to do so), ratably in accordance with their respective Percentages, from and against any and all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, fees, costs, expenses or disbursements of any kind or nature whatsoever that may at any time be imposed on, incurred by or asserted against such Agent or such Person as a result of, or arising out of, or in any way related to or by reason of, any of the transactions contemplated hereunder or the execution, delivery or performance of this Agreement, the other Transaction Documents or any other document furnished in connection herewith or therewith (but excluding any such liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements resulting solely from the gross negligence or willful misconduct of such Agent or such Person, as the case may be, as finally determined by a court of competent jurisdiction); **provided, however**, no action taken or not taken in accordance with the directions of the Structuring Advisor, Requisite Lenders or such other percentage of Lenders as shall be necessary hereunder, as applicable, shall be deemed to constitute gross negligence or willful misconduct. Without limiting the generality of the foregoing, if any amount shall be payable by the Collateral Agent to a Collection Bank under a Control Agreement, including without limitation any amounts for the fees, expenses or indemnities of a Collection Bank, or if a Collection Bank shall otherwise make any claim upon the Collateral Agent under such agreement, then each Lender shall be liable (jointly and severally) to pay such amount to the Collateral Agent promptly and in any event within five (5) days of demand therefor from the Collateral Agent, and the Collateral Agent shall not be required to demand payment of such amount from the Borrower prior to demanding payment of such amount from the Lenders. To the extent the Borrower or the Master Servicer, for any reason, fails to indefeasibly pay any amount required to be paid to the Administrative Agent or the Collateral Agent under Section 8.1, Section 8.2 or Section 8.4 of this Agreement, each Lender severally agrees to pay to the Administrative Agent or the Collateral Agent, as the case may be, such Lender's pro rata share (determined as of the time that the applicable

unreimbursed expense or indemnity payment is sought based on each Lender's share of the Revolving Commitment at such time) of such unpaid amount (including any such unpaid amount in respect of a claim asserted by such Lender), such payment to be made severally among them based on such pro rata share.

Section 9.8. Each Agent in Its Individual Capacity. Each Agent in its individual capacity and the affiliates thereof may make loans to, accept deposits from and generally engage in any kind of business with the Bausch Parties and their Affiliates as though such Agent were not an Agent hereunder. With respect to its Advances, if any, each Agent shall have the same rights and powers under this Agreement as any Lender and may exercise the same as though it

62

were not an Agent, and the terms "Lender" and "Lenders" shall include each Agent in its individual capacity, if applicable.

Section 9.9. Successor Administrative Agent; Successor Collateral Agent.

(a) The Administrative Agent and Collateral Agent may at any time give no less than thirty (30) days' written notice of its resignation to the Lenders and the Borrower. Upon receipt of any such notice of resignation, the Requisite Lenders shall have the right, with, prior to the occurrence of an Amortization Event, the consent of the Borrower, to appoint a successor, which shall be a bank or trust company with an office in the United States, or an Affiliate of any such bank or trust company with an office in the United States or another party acceptable to the Borrower and the Lenders. If no such successor shall have been so appointed by the Requisite Lenders and shall have accepted such appointment within thirty (30) days after the retiring Administrative Agent and Collateral Agent gives notice of its resignation (or such earlier day as shall be agreed by the Lenders) (the "**Resignation Closing Date**"), then the retiring Administrative Agent and Collateral Agent may (but shall not be obligated to) on behalf of the Lenders, appoint a successor Administrative Agent and Collateral Agent meeting the qualifications set forth above. If no such successor shall have been so appointed by the Requisite Lenders within sixty (60) days after the retiring Administrative Agent's and Collateral Agent's giving of notice of resignation, the departing Administrative Agent and Collateral Agent may, on behalf of the Secured Parties, petition a court of competent jurisdiction to appoint a successor Administrative Agent and Collateral Agent.

(b) Upon resignation or replacement of any Administrative Agent and Collateral Agent in accordance with this Section 9.9, the retiring Agent shall execute or authorize the filing of such UCC-3 assignments and amendments, PPSA financing change statements, and assignments and amendments of the Transaction Documents, as may be directed by the Requisite Lenders to give effect to its replacement by a successor Administrative Agent and Collateral Agent, but shall have no responsibility to file such documents. After any retiring Administrative Agent's and Collateral Agent's resignation hereunder as Administrative Agent and Collateral Agent, the provisions of Article VIII and this Article IX shall inure to its benefit as to any actions taken or omitted to be taken by it while it was Administrative Agent and Collateral Agent under this Agreement.

(c) If an Insolvency Proceeding is initiated by or against the Person serving as Administrative Agent or Collateral Agent, or if the Administrative Agent or Collateral Agent is generally unable to pay its debts as they come due or admits in writing its inability to pay its debts they become due or makes a general assignment for the benefit of creditors, then the Requisite Lenders may, to the extent permitted by applicable law, by written notice in writing to the Borrower and such Person remove such Person as Administrative Agent or Collateral Agent, as the case may be, and, in consultation with the Borrower, appoint a successor. If no such successor shall have been so appointed by the Requisite Lenders and shall have accepted such appointment within sixty (60) days after delivery of such notice (or such earlier day as shall be agreed by the Lenders) (the "**Removal Closing Date**"), then such removal shall nonetheless become effective in accordance with such notice on the Removal Closing Date and the Requisite Lenders may petition a court of competent jurisdiction to appoint a successor Administrative Agent and Collateral Agent.

(d) With effect from the Resignation Closing Date or the Removal Closing Date (as applicable), (1) the retiring or removed Administrative Agent and Collateral Agent shall be discharged from its duties and obligations hereunder and under the other Transaction Documents (except that in the case of any collateral security held by the Collateral Agent under any of the Transaction Documents, the retiring or removed Collateral Agent shall continue to hold such collateral security in a custodial capacity only until such time as a successor Collateral

63

Agent is appointed or such Administrative Agent may deposit such security with a court of competent jurisdiction (at the expense of Lenders)) and (2) except for any indemnity payments or other amounts then owed to the retiring or removed Administrative Agent and Collateral Agent, all payments, communications and determinations to be made by, to or through the Administrative Agent shall instead be made by or to each Lender directly, until such time, if any, as the Requisite Lenders appoint a successor Administrative Agent as provided for above. Upon the acceptance of a successor's appointment as Administrative Agent hereunder, such successor shall succeed to and become vested with all of the rights, powers, privileges and duties of the retiring (or removed) Administrative Agent (other than any rights to indemnity payments or other amounts owed to the retiring or removed Administrative Agent or Collateral Agent as of the Resignation Closing Date or the Removal Closing Date, as applicable), and the retiring or removed Administrative Agent and Collateral Agent shall be discharged from all of their duties and obligations hereunder or under the other Transaction Documents (if not already discharged therefrom as provided above in this [Section 9.9](#)). The fees payable by the Borrower to a successor Administrative Agent shall be the same as those payable to its predecessor unless otherwise agreed between the Borrower and such successor. After the retiring or removed Administrative Agent's and Collateral Agent's resignation or removal hereunder and under the other Transaction Documents, the provisions of [Article VIII](#) and this [Article IX](#) shall continue in effect for the benefit of such retiring or removed Administrative Agent and Collateral Agent, their sub agents and their respective Related Parties in respect of any actions taken or omitted to be taken by any of them while the retiring or removed Administrative Agent and Collateral Agent was acting as Administrative Agent or Collateral Agent, as applicable.

(e) Any Person into which the Administrative Agent or Collateral Agent may be merged or converted or with which it may be consolidated, or any Person resulting from any merger, conversion or consolidation to which the Administrative Agent shall be a party, or any Person succeeding to the corporate trust services business of the Administrative Agent or Collateral Agent shall be the successor of such Agent hereunder without the execution or filing of any paper with any party hereto or any further act on the part of any of the parties hereto.

Section 9.10. UCC and PPSA Filings. Each of the Lenders hereby expressly recognizes and agrees that the Collateral Agent may be designated as the secured party of record on the various UCC and PPSA filings required to be made under this Agreement and the party entitled to register, amend, release and terminate the UCC filings under the Transfer Agreement in order to perfect their respective interests in the Pool Receivables, Collections and Related Security and other Collateral, that such designation shall be for administrative convenience only in creating a record or nominee holder to take certain actions hereunder on behalf of the Lenders and that such listing will not affect in any way the status of the Lenders as the true parties in interest with respect to the Collateral. In addition, such listing shall impose no duties on the Collateral Agent other than those expressly and specifically undertaken in accordance with this [Article IX](#).

Section 9.11. Structuring Advisor; Left Lead Arranger. Neither the Structuring Advisor nor the Left Lead Arranger shall have any duties or responsibilities hereunder in their respective capacities as such unless otherwise expressly provided for herein.

Section 9.12. Erroneous Payments.

(a) If the Administrative Agent notifies a Lender or Secured Party, or any Person who has received funds on behalf of a Lender or Secured Party (any such Lender, Secured Party or other recipient, a "**Payment Recipient**") that the Administrative Agent has determined in its sole discretion (whether or not after receipt of any notice under immediately succeeding clause (b)) that any funds received by such Payment Recipient from the Administrative Agent or any of its Affiliates were erroneously transmitted to, or otherwise erroneously or mistakenly received by, such Payment Recipient (whether or not known to such

Lender Secured Party or other Payment Recipient on its behalf) (any such funds, whether received as a payment, prepayment or repayment of principal, interest, fees, distribution or otherwise, individually and collectively, an "**Erroneous Payment**") and demands the return of such Erroneous Payment (or a portion thereof), such Erroneous Payment shall at all times remain the property of the Administrative Agent and shall be segregated by the Payment Recipient and held in trust for the benefit of the Administrative Agent, and such Lender or Secured Party shall (or, with respect to any

Payment Recipient who received such funds on its behalf, shall cause such Payment Recipient to promptly, but in no event later than two (2) Business Days thereafter, return to the Administrative Agent the amount of any such Erroneous Payment (or portion thereof) as to which such a demand was made, in same day funds (in the currency so received). A notice of the Administrative Agent to any Payment Recipient under this clause (a) shall be conclusive, absent manifest error.

(b) Without limiting immediately preceding clause (a), each Lender or Secured Party, or any Person who has received funds on behalf of a Lender or Secured Party such Lender, hereby further agrees that if it receives a payment, prepayment or repayment (whether received as a payment, prepayment or repayment of principal, interest, fees, distribution or otherwise) from the Administrative Agent (or any of its Affiliates) (x) that is in a different amount than, or on a different date from, that specified in a notice of payment, prepayment or repayment sent by the Administrative Agent (or any of its Affiliates) with respect to such payment, prepayment or repayment, (y) that was not preceded or accompanied by a notice of payment, prepayment or repayment sent by the Administrative Agent (or any of its Affiliates), or (z) that such Lender or Secured Party, or other such recipient, otherwise becomes aware was transmitted, or received, in error or by mistake (in whole or in part) in each case:

(i) (A) in the case of immediately preceding clauses (x) or (y), an error shall be presumed to have been made (absent written confirmation from the Administrative Agent to the contrary) or (B) an error has been made (in the case of immediately preceding clause (z)), in each case, with respect to such payment, prepayment or repayment; and

(ii) such Lender or Secured Party shall (and shall cause any other recipient that receives funds on its respective behalf to) promptly (and, in all events, within one Business Day of its knowledge of such error) notify the Administrative Agent of its receipt of such payment, prepayment or repayment, the details thereof (in reasonable detail) and that it is so notifying the Administrative Agent pursuant to this Section 9.12(b).

(c) Each Lender or Secured Party hereby authorizes the Administrative Agent to set off, net and apply any and all amounts at any time owing to such Lender or Secured Party under any Transaction Document, or otherwise payable or distributable by the Administrative Agent to such Lender or Secured Party from any source, against any amount due to the Administrative Agent under immediately preceding clause (a), or under the indemnification provisions of this Agreement.

(d) In the event that an Erroneous Payment (or portion thereof) is not recovered by the Administrative Agent for any reason, after demand therefor by the Administrative Agent in accordance with immediately preceding clause (a), from any Lender that has received such Erroneous Payment (or portion thereof) (and/or from any Payment Recipient who received such Erroneous Payment (or portion thereof) on its respective behalf) (such unrecovered amount, an "**Erroneous Payment Return Deficiency**"), upon the Administrative Agent's notice to such Lender at any time, (i) such Lender shall be deemed to have assigned its Advances (but not its Revolving Commitments) with respect to which such Erroneous Payment was made (the "**Erroneous Payment Impacted Class**") in an amount equal to the Erroneous

Payment Return Deficiency (or such lesser amount as the Administrative Agent may specify) (such assignment of the Advances (but not Revolving Commitments) of the Erroneous Payment Impacted Class, the "**Erroneous Payment Deficiency Assignment**") at par plus any accrued and unpaid interest (with the assignment fee to be waived by the Administrative Agent in such instance), and is hereby (together with the Borrower) deemed to execute and deliver an Assignment Agreement with respect to such Erroneous Payment Deficiency Assignment, and such Lender shall deliver any notes evidencing such Advances to the Borrower or the Administrative Agent, (ii) the Administrative Agent as the assignee Lender shall be deemed to acquire the Erroneous Payment Deficiency Assignment, (iii) upon such deemed acquisition, the Administrative Agent as the assignee Lender shall become a Lender, as applicable, hereunder with respect to such Erroneous Payment Deficiency Assignment and the assigning Lender shall cease to be a Lender hereunder with respect to such Erroneous Payment Deficiency Assignment, excluding, for the avoidance of doubt, its obligations under the indemnification provisions of this Agreement and its applicable Revolving Commitments which shall survive as to such assigning Lender and (iv) the Administrative Agent may reflect in the Register its ownership interest in the Advances subject to the Erroneous Payment Deficiency Assignment. The Administrative Agent may, in its discretion, sell any Advances acquired pursuant to an Erroneous Payment Deficiency Assignment and upon receipt of the proceeds of such sale, the Erroneous Payment Return Deficiency owing by the applicable Lender shall be reduced by the net proceeds of the sale of such Advance (or portion thereof), and the Administrative Agent shall retain all other rights, remedies and claims against such Lender (and/or against any recipient that receives funds on its respective behalf). For the avoidance of doubt, no Erroneous Payment Deficiency Assignment will reduce the Revolving Commitments of any Lender and such Revolving Commitments shall remain available in accordance with the terms of this

Agreement. In addition, each party hereto agrees that, except to the extent that the Administrative Agent has sold an Advance (or portion thereof) acquired pursuant to an Erroneous Payment Deficiency Assignment, and irrespective of whether the Administrative Agent may be equitably subrogated, the Administrative Agent shall be contractually subrogated to all the rights and interests of the applicable Lender or Secured Party under the Transaction Documents with respect to each Erroneous Payment Return Deficiency (the "**Erroneous Payment Subrogation Rights**").

(e) The parties hereto agree that an Erroneous Payment shall not pay, prepay, repay, discharge or otherwise satisfy any obligations owed by the Borrower or any other Bausch Party, except, in each case, to the extent such Erroneous Payment is, and solely with respect to the amount of such Erroneous Payment that is, comprised of funds received by the Administrative Agent from the Borrower or any other Bausch Party, or comprises the proceeds of realization from the enforcement of one or more of the Transaction Documents against or in respect of the Borrower or Borrower GP or any other Bausch Party, in each case for the purpose of making such Erroneous Payment.

(f) To the extent permitted by applicable law, no Payment Recipient shall assert any right or claim to an Erroneous Payment, and hereby waives, and is deemed to waive, any claim, counterclaim, defense or right of set-off or recoupment with respect to any demand, claim or counterclaim by the Administrative Agent for the return of any Erroneous Payment received, including without limitation waiver of any defense based on "discharge for value" or any similar doctrine.

(g) Each party's obligations, agreements and waivers under this Section 9.12 shall survive the resignation or replacement of the Administrative Agent, any transfer of rights or obligations by, or the replacement of, a Lender, the termination of the Revolving Commitments and/or the repayment, satisfaction or discharge of all Borrower Obligations (or any portion thereof) under any Transaction Document.

66

(h) The parties hereto agree that this Section 9.12 shall not increase (or accelerate the due date for), or have the effect of increasing (or accelerating the due date for), the Borrower Obligations relative to the amount (and/or timing for payment) of the Borrower Obligations that would have been payable had such Erroneous Payment not been made by the Administrative Agent

ARTICLE X.

ASSIGNMENTS; PARTICIPATIONS

Section 10.1 Assignments and Transfer of Commitments. Each Lender shall have the right at any time or times to assign or transfer, at its own cost, without recourse, all or a portion of (a) that Lender's Revolving Commitments, and (b) all or a portion of the Advances made by that Lender; **provided, however**, in each such case, that the transferor and the transferee shall have complied with the following requirements:

(a) Minimum Amount. No transfer may be consummated pursuant to this Section 10.1 in an aggregate amount less than (a) one million and 00/100 Dollars (\$1,000,000.00) or (b) if such Lender's Revolving Commitment is at any time less than one million and 00/100 Dollars (\$1,000,000.00), the entire amount of such Revolving Commitment.

(b) Agreement; Transfer Fee. Unless the transfer shall be due to merger of the transferor or for regulatory purposes, the transferor (A) shall remit to the Administrative Agent, for its own account, an administrative fee of three thousand five hundred 00/100 Dollars (\$3,500.00) and (B) shall cause the transferee to execute and deliver to the Borrower, the Administrative Agent and each Lender an Assignment Agreement, in the form of Exhibit V attached hereto and made a part hereof (an "**Assignment Agreement**") together with the consents thereto in writing.

(c) Consent. Except for an assignment by a Lender to an Affiliate of such Lender, any other Lender or any Affiliate of such other Lender, each such assignment shall require the prior written consent of the Borrower (such consent not to be unreasonably withheld, conditioned or delayed); **provided, however**, that such consent shall not be required if an Amortization Event has occurred and is continuing.

Upon satisfaction of the requirements of this Section 10.1, including the payment of the fee and the delivery of the documents set forth above and the recording of the transfer or assignment in the Register, (A) the transferee shall become and thereafter be deemed to be a "Lender" for the purposes of this Agreement, (B) if the transferor transfers all of its interest, the transferor shall cease to be and thereafter shall no longer be deemed to be a "Lender" and shall have no further rights or obligations under or in connection herewith, and (C) the signature pages hereof and Schedule 1 hereto shall be automatically amended, without further action, to reflect the result of any such transfer.

Section 10.2 The Register. The Administrative Agent, acting solely for this purpose as a non-fiduciary agent of the Borrower, shall maintain a copy of each Assignment Agreement delivered to it and a register or similar list (the “**Register**”) for the recordation of the names and addresses of the Lenders and the Revolving Commitment, Percentage, and principal amount (and stated interest) of the Advances owing to, each Lender from time to time. Upon written request by the Borrower, the Administrative Agent shall deliver a current copy of the Register to the Borrower prior to the Initial Funding Date and promptly after the receipt of any Assignment Agreement. The entries in the Register shall be conclusive, in the absence of manifest error, with respect to such information, and the Borrower, the Administrative Agent and the Lenders shall treat each Person whose name is recorded in the Register pursuant to the terms hereof as the

67

owner of the Advances recorded therein for all purposes of this Agreement. The Register shall be available for inspection by the Borrower or any Lender at any reasonable time and from time to time upon reasonable prior notice. The parties intend that any interest in or with respect to the Advances under this Agreement be treated as being issued and maintained in “registered form” within the meaning of Sections 163(f), 871(h)(2), and 881(c)(2) of the Code and any regulations thereunder (and any successor provisions), including without limitation under United States Treasury Regulations Section 5f.103-1(c) and Proposed Regulations Section 1.163-5 (and any successor provisions), and the provisions of this Agreement shall be construed in a manner that gives effect to such intent.

Section 10.3 Certain Representations and Warranties; Limitations; Covenants. By executing and delivering an Assignment Agreement, the parties to the assignment thereunder confirm to and agree with each other and the other parties hereto as follows:

(a) Other than the representation and warranty that it is the legal and beneficial owner of the interest being assigned thereby free and clear of any adverse claim, the assigning Lender makes no representation and warranty and assumes no responsibility with respect to any statements, warranties or representations made in or in connection with this Agreement or the execution, legality, validity, enforceability, genuineness, sufficiency or value of this Agreement, the other Transaction Documents or any other instrument or document furnished pursuant hereto;

(b) The assigning Lender makes no representation or warranty and assumes no responsibility of the financial condition of any Bausch Party or any other Person primarily or secondarily liable in respect of any of the Indebtedness of the Borrower to the Lenders, or the performance or observance by any Bausch Party or any other Person primarily or secondarily liable in respect of any of the Indebtedness of the Borrower to the Lenders or any of their obligations under this Agreement or any of the other Transaction Documents or any other instrument or document furnished pursuant hereto or thereto;

(c) Such assignee confirms that it has received a copy of this Agreement, together with copies of the most recent financial statements referred to in Section 5.1 and such other documents and information as it has deemed appropriate to make its own credit analysis and decision to enter into the Assignment Agreement;

(d) Such assignee will, independently and without reliance upon the assigning Lender, the Administrative Agent or any other Lender and based on such documents and information as it shall deem appropriate at the time, continue to make its own credit decisions in taking or not taking action under this Agreement;

(e) Such assignee appoints and authorizes the Administrative Agent to take such action as agent on its behalf and to exercise such powers under this Agreement and the other Transaction Documents to which the Administrative Agent is a party as are delegated to the Administrative Agent by the terms hereof or thereof;

(f) Such assignee agrees that it will perform in accordance with their terms all of the obligations that by the terms of this Agreement are required to be performed by it as a Lender; and

(g) Such assignee represents and warrants that it is legally authorized to enter into such Assignment Agreement.

Section 10.4 No Assignment to Borrower. No such assignment shall be made to the Borrower or any of the Borrower’s Affiliates or Subsidiaries.

68

Section 10.5 No Assignment to Natural Persons. No such assignment shall be made to a natural Person.

Section 10.6 No Assignment to Bausch. No such assignment shall be made to Bausch or any of its Affiliates.

Section 10.7 Participations. Each Lender shall have the right at any time or times, without the consent of any other party, to sell one or more participations or sub-participations to one or more assignees, in all or any part of that Lender's Revolving Commitment and Advances made by that Lender other than to a natural Person.

(a) Rights Reserved. In the event any Lender shall sell any participation or sub-participation, that Lender shall, as between itself and the purchaser, retain all of its rights (including, without limitation, rights to enforce against any Bausch Party the Transaction Documents and any and all other documents in connection therewith) and duties pursuant to the Transaction Documents and any and all other documents in connection therewith, including, without limitation, that Lender's right to approve any waiver, consent or amendment pursuant to Section 12.1; **provided**, **however**, any such participation shall be in a minimum amount of two hundred fifty thousand and 00/100 Dollars (\$250,000.00) and (b) any agreement or instrument pursuant to which a Lender sells such a participation may provide that such Lender will not, without the consent of the Participant, agree to any amendment, modification or waiver described in the first proviso to Section 12.1(b) (other than clause (x) thereof, and clause (xi) as it relates to clause (x)) that directly that affects such Participant. The Borrower hereby acknowledges and agrees that the participant under each participation (the "**Participant**") shall for purposes of Sections 8.3 and 8.5 be considered to be a "Lender". Except as otherwise set forth herein, no participant shall have any rights or obligations hereunder, the Bausch Parties and the Administrative Agent shall continue to deal solely and directly with the Lenders in connection with the Lenders' rights and obligations under this Agreement. The Borrower agrees that each Participant shall be entitled to the benefits of Section 8.5 (subject to the requirements and limitations therein, including the requirements under Sections 8.5(e) and 8.5(g) (it being understood that the documentation required under Sections 8.5(e) and 8.5(g) shall be delivered to the participating Lender)) to the same extent as if it were a Lender and had acquired its interest by assignment pursuant to Section 10.1; **provided** that such Participant (A) agrees to be subject to the provisions of Section 8.5(d) as if it were an assignee under Section 10.1; and (B) shall not be entitled to receive any greater payment under Section 8.5, with respect to any participation, than its participating Lender would have been entitled to receive, except to the extent such entitlement to receive a greater payment results from a change in any applicable Law or interpretation of any applicable Law by any Governmental Authority that occurs after the Participant acquired the applicable participation. Each Lender that sells a participation shall, acting solely for this purpose as a non-fiduciary agent of the Borrower, maintain a register complying with the requirements of Sections 163(f), 871(h) and 881(c)(2) of the Code and the Treasury regulations issued thereunder on which is entered the name and address of each Participant and the principal amounts (and stated interest) of each Participant's interest in the Advances or other obligations under the Transaction Documents (the "**Participant Register**"); **provided** that no Lender shall have any obligation to disclose all or any portion of the Participant Register (including the identity of any Participant or any information relating to a Participant's interest in any commitments, loans, letters of credit or its other obligations under any Transaction Document) to any Person except to the extent that such disclosure is necessary to establish that such commitment, loan, letter of credit or other obligation is in registered form under the Code or Treasury Regulations, including without limitation Section 5f.103-1(c) or under Proposed Section 1.163-5 of the United States Treasury Regulations (or, in each case, any amended or successor version) or such Lender's compliance with this Section 10.7. The entries in the Participant Register shall be conclusive absent manifest error, and such Lender shall treat each Person whose name is recorded in the Participant Register as the owner of such participation for

all purposes of this Agreement notwithstanding any notice to the contrary. For the avoidance of doubt, the Administrative Agent (in its capacity as Administrative Agent) shall have no responsibility for maintaining a Participant Register.

(b) **No Delegation.** No participation shall operate as a delegation of any duty of the seller thereof. Under no circumstances shall any participation be deemed a novation in respect of all or any part of the seller's obligations pursuant to this Agreement.

Section 10.8 **Pledge by Lenders.** Notwithstanding any other provision of this **Article X**, any Lender may at any time pledge all or any portion of its interest and rights under the Transaction Documents to any of the federal reserve banks organized under Section 4 of the Federal Reserve Act, 12 U.S.C. §341. No such pledge or the enforcement thereof shall release the Lender from its obligations hereunder or under any of the other Transaction Documents.

ARTICLE XI.

GRANT OF SECURITY INTEREST

Section 11.1 **Grant of Security Interest.** In addition to the interests which the Lenders may from time to time acquire pursuant hereto, the Borrower hereby grants to the Collateral Agent for the ratable benefit of the Secured Parties, a continuing Security Interest in all of the Borrower's right, title and interest in, to and under all of its accounts, chattel paper, payment intangibles, deposit accounts, financial assets, general intangibles, instruments, investment property, letter-of-credit rights, money, commercial tort claims, goods and other supporting obligations relating to the foregoing (in each case, as defined in the UCC, including for the avoidance of doubt, any subcategory thereof) and all other property of any type or nature owned by the Borrower, including, but not limited to all Pool Receivables now existing or hereafter arising, all Related Security, all Collections, the Collection Account, the Interest Reserve Account and other rights and payments relating to such Pool Receivables and Related Security, each Transaction Document (other than this Agreement or the Canadian Security Agreement) and all rights, remedies, powers, privileges and claims thereunder or in respect thereto (whether arising pursuant to the terms thereof or otherwise available to the Borrower at law or equity), including the right to enforce each such Transaction Document and to give or withhold any and all consents, requests, notices, directions, approvals, extensions or waivers under or with respect thereto, to the same extent as the Borrower could but for the collateral assignment and Security Interest granted to the Collateral Agent under this Agreement or the Canadian Security Agreement, in each case, whether now existing or hereafter arising, and all proceeds of any of the foregoing (collectively, the **"Borrower Collateral"**), to secure the prompt and complete payment and performance of the Borrower Obligations. The Collateral Agent and the Structuring Advisor are hereby authorized (but not obligated) to file a financing statement in form and substance reasonably satisfactory to the Requisite Lenders naming the Borrower as the debtor and describing the collateral covered thereby as "all assets and the proceeds thereof, whether now existing or hereafter arising." The Collateral Agent, for the benefit of the Secured Parties, shall have, in addition to the rights and remedies that it may have under this Agreement, all other rights and remedies provided to a secured creditor under the UCC and other applicable law, which rights and remedies shall be cumulative.

Section 11.2 **Grant of Security Interest.** In addition to the interests which the Lenders may from time to time acquire pursuant hereto, to secure the prompt and complete payment and performance of the Borrower Obligations, the Borrower GP hereby grants to the Collateral Agent, for the ratable benefit of the Secured Parties, a continuing Security Interest in the following (collectively, the **"Borrower GP Collateral"**, and together with the Borrower Collateral, the **"Collateral"**): (i) all of the issued and outstanding Capital Stock of the Borrower that are now or from time to time hereafter held by the Borrower GP (collectively, the **"Pledged**

70

Borrower Interests"); (ii) all certificates and other instruments and agreements from time to time representing or evidencing the Pledged Borrower Interests, together with all claims, rights, privileges, authority and powers of the Borrower GP relating thereto, and all income, dividends, interest, distributions, cash, instruments and other property or proceeds from time to time received, receivable or otherwise distributed in respect of or in exchange for any or all of the Pledged Borrower Interests; (iii) all Pledged Borrower Interests issued in respect of the securities referred to in the foregoing clauses (i) and (ii) upon any consolidation, amalgamation or merger of the Borrower; and (iv) all proceeds of the foregoing. Notwithstanding the foregoing, any distributions made with respect to the Pledged Borrower Interests in accordance with **Section 5.1(q)** of this Agreement shall be made free of any Security Interest granted in favor of the Collateral Agent, for the benefit of the Secured Parties.

Section 11.3 **Attachment.** The Borrower and the Borrower GP agree that the Security Interests created by this Agreement are intended to attach (a) with respect to Collateral that is now in existence, upon execution of this Agreement, and (b) with respect to Collateral that comes into existence in the future, upon the Borrower or the Borrower GP, as applicable, acquiring rights in the Collateral or the power to transfer rights in the

Collateral to the Collateral Agent. In each case, the parties do not intend to postpone the attachment of any Security Interests created by this Agreement.

ARTICLE XII.

MISCELLANEOUS

Section 12.1 Waivers and Amendments.

(a) No failure or delay on the part of the Administrative Agent, the Collateral Agent or any of the Lenders in exercising any power, right or remedy under this Agreement shall operate as a waiver thereof, nor shall any single or partial exercise of any such power, right or remedy preclude any other further exercise thereof or the exercise of any other power, right or remedy. The rights and remedies herein provided shall be cumulative and nonexclusive of any rights or remedies provided by law. Any waiver of this Agreement shall be effective only in the specific instance and for the specific purpose for which given.

(b) No provision of this Agreement may be amended, supplemented, modified or waived except in writing in accordance with the provisions of this Section 12.1(b), except as set out in Section 1.8. This Agreement and the provisions hereof may only be amended, supplemented, modified or waived in a writing signed by the Borrower, the Master Servicer, the Administrative Agent, the Collateral Agent and the Requisite Lenders; **provided, however**, that no amendment, waiver or consent shall, unless in writing and signed by each Lender, do any of the following:

(i) waive any of the conditions specified in Sections 4.1, 4.2 or 4.3 except with respect to a condition based upon another provision hereof, the waiver of which requires only the concurrence of the Requisite Lenders; **provided** that any Lender may waive any of the conditions specified in Section 4.2 with respect to its own funding of Advances;

(ii) change the order of priority in which Collections are applied pursuant to Section 2.1;

(iii) increase any Revolving Commitment of any Lender or subject the Lenders to any additional obligations;

71

(iv) extend the scheduled final maturity of any Advance or postpone or extend any Payment Date;

(v) reduce the principal amount of any Advance (other than by the payment or prepayment thereof);

(vi) reduce the rate of interest on any Advance, any Call Premium or any fee payable hereunder;

(vii) reduce or postpone any scheduled date fixed for payment of Interest, Call Premiums or fees to such Lender;

(viii) release all or substantially all of the Collateral or subordinate any Lien securing the Borrower Obligations, except in connection with any sale or other disposition permitted by this Agreement or the Transfer Agreement (or permitted pursuant to a waiver or consent of a transaction otherwise prohibited by this Agreement);

(ix) change (directly or indirectly) the definitions of Defaulted Receivable, Eligible Receivable, Facility Limit, Final Payout Date or Required Reserves contained in this Agreement; **provided** that the foregoing shall not limit the discretion of the Administrative Agent or the Structuring Advisor to change, establish or eliminate any Required Reserves;

(x) change any Amortization Event; or

(xi) amend this Section 12.1 or the definition of the term "Requisite Lenders."

Section 12.2. Notices. Except as provided in this Section 12.2, all communications and notices provided for hereunder shall be in writing (including email, facsimile or electronic transmission or similar writing) and shall be given to the other parties hereto at their respective addresses, email addresses or facsimile numbers set forth on Schedule 12.2 hereto or at such other address, email address or facsimile number as such Person may hereafter specify in writing for the purpose of notice to each of the other parties hereto. Each such notice or other communication shall be

effective (a) if given by facsimile or email, upon the receipt thereof, (b) if given by mail, three (3) Business Days after the time such communication is deposited in the mail with first class postage prepaid or (c) if given by any other means, when received at the address specified in this [Section 12.2](#).

Section 12.3. [Setoff; Ratable Payments.](#)

(a) If an Amortization Event shall have occurred and be continuing, each Lender and each of its respective Affiliates is hereby authorized at any time and from time to time, to the fullest extent permitted by applicable Law, to set off and apply any and all deposits (general or special, time or demand, provisional or final, in whatever currency) at any time held and other obligations (in whatever currency) at any time owing by such Lender or any such Affiliate to or for the credit or the account of the Borrower against any and all of the obligations of the Borrower now or hereafter existing under this Agreement or any other Transaction Document to such Lender or its respective Affiliates, irrespective of whether or not such Lender or Affiliate shall have made any demand under this Agreement or any other Transaction Document and although such obligations of the Borrower may be contingent or unmatured or are

72

owed to a branch, office or Affiliate of such Lender different from the branch, office or Affiliate holding such deposit or obligated on such indebtedness.

(b) The rights of each Lender and its respective Affiliates under this [Section 12.3](#) are in addition to other rights and remedies (including other rights of setoff) that such Lender or its respective Affiliates may have. Each Lender agrees to notify the Borrower, the Master Servicer, the Administrative Agent and the Collateral Agent promptly after any such setoff and application, **provided** that the failure to give such notice shall not affect the validity of such setoff and application. The provisions of this [Section 12.3](#) shall not be construed to apply to any payment made by the Borrower or the Master Servicer pursuant to and in accordance with the express terms of this Agreement.

(c) If any Lender, whether by setoff or otherwise, has received payments (other than payments received pursuant to [Section 8.3](#)) in a greater proportion than that received by any other Lender entitled to receive a ratable share of such payments, such Lender agrees, promptly upon demand, to purchase for cash without recourse or warranty a portion of such payments held by the other Lenders so that after such purchase each Lender will hold its ratable proportion of such payment; **provided** that if all or any portion of such excess amount is thereafter recovered from such Lender, such purchase shall be rescinded and the purchase price restored to the extent of such recovery, but without interest.

Section 12.4. [Intended Tax Characterization.](#) The parties hereto intend and agree that, for the purposes of all Taxes, each Advance constitutes indebtedness that is secured by the Pool Receivables, all Related Security and all Collections with respect thereto (the “**Intended Tax Characterization**”). Except to the extent otherwise required pursuant to a “determination” (as defined in Section 1313(a) of the Code or any similar provision of U.S. state or local or non-U.S. tax Law), all parties hereto agree to report and otherwise to act for all applicable Tax purposes in a manner consistent with the Intended Tax Characterization.

Section 12.5. [Protection of Ownership and Security Interests.](#)

(a) Each of the Borrower and the Borrower GP agrees that from time to time, at its expense, it will promptly execute and deliver all instruments and documents, and take all actions, that may be reasonably necessary or desirable, or that the Collateral Agent (at the written direction of the Requisite Lenders) may reasonably request, to perfect, protect or more fully evidence the Collateral Agent's Security Interest (on behalf of the Secured Parties) in the Collateral, or to enable the Collateral Agent or the Lenders to exercise and enforce their rights and remedies hereunder. At any time after the occurrence of an Amortization Event, the Collateral Agent (at the written direction of the Requisite Lenders) may direct the Borrower or the Master Servicer to notify the Obligors of Pool Receivables, at the Borrower's expense, of the Security Interests of the Collateral Agent (on behalf of the Secured Parties) under this Agreement, and if such notification is not made within ten (10) days after the Collateral Agent has so directed the Borrower and the Master Servicer, the Collateral Agent (at the written direction of the Requisite Lenders) may make such notification. The Borrower or the Master Servicer (as applicable) shall, at the Collateral Agent's or any Lender's request, withhold the identity of the Collateral Agent or such Lender in any such notification.

(b) If the Borrower or Master Servicer fails to perform any of its obligations hereunder and the Borrower or the Master Servicer have failed to promptly comply with a request by the Administrative Agent to perform such obligation after the expiration of any grace period applicable thereto, the Administrative Agent (at the written direction of the Requisite Lenders) or any Lender may (but shall not be required to) perform, or cause

performance of, such obligations, and the Collateral Agent's or such Lender's fees, costs and expenses incurred in connection therewith shall be payable by the Borrower as provided in [Section 8.4](#).

73

Section 12.6. Confidentiality.

(a) Each Agent and each Lender agree to keep confidential all Confidential Information obtained from the Bausch Parties or the Originator, and to use such Confidential Information only in connection with this Agreement and for the purposes contemplated hereby. Each Agent and each Lender shall be permitted to disclose such Confidential Information (i) to outside legal counsel, accountants, other professional advisors, and Affiliates who need to know such Confidential Information in connection with the administration and enforcement of this Agreement, subject to agreement of such Persons to maintain the confidentiality of such Confidential Information in accordance with the terms hereof, (ii) to assignees and Participants as contemplated by [Section 10.7](#), and prospective assignees and Participants, subject to the agreement of such Persons to maintain the confidentiality of such Confidential Information in accordance with the terms hereof, (iii) to the extent permitted by applicable Law, with notice to the applicable Bausch Party, to the extent requested by any bank regulatory authority or as otherwise required by applicable Law or by any subpoena or similar legal process, or in connection with any investigation or proceeding arising out of the transactions contemplated by this Agreement or the other Transaction Documents, (iv) in connection with the exercise of any remedies hereunder or under any other Transaction Document or any action or proceeding relating to this Agreement or any other Transaction Document or the enforcement of rights hereunder or thereunder, (v) if it becomes publicly available other than as a result of a breach of this Agreement or becomes available from a source not known to be subject to confidentiality restrictions, (vi) to any rating agency rating the Advances or the Deferred Purchase Price or (vii) if the applicable Bausch Party or Originator shall have consented, in writing, to such disclosure. Notwithstanding anything herein to the contrary, the information subject to this [Section 12.6](#) shall not include, and each Agent and the Lenders may disclose without limitation of any kind, any information with respect to the "Tax treatment" and "Tax structure" (in each case, within the meaning of Treasury Regulation Section 1.6011-4) of the transactions contemplated hereby and all materials of any kind (including opinions or other tax analyses) that are provided to such Agent or such Lender relating to such Tax treatment and Tax structure; **provided** that with respect to any document or similar item that in either case contains information concerning the Tax treatment or Tax structure of the transaction as well as other information, this sentence shall only apply to such portions of the document or similar item that relate to the Tax treatment or Tax structure of the Advances and transactions contemplated hereby.

(b) The Lenders acknowledge that (i) the information obtained from the Bausch Parties or the Originator may include material non-public information concerning the Bausch Parties, (ii) it has developed compliance procedures regarding the use of material non-public information and (iii) it will handle such material non-public information in accordance with applicable Law, including United States Federal and state securities Laws.

Section 12.7. **CHOICE OF LAW.** THIS AGREEMENT AND ALL MATTERS ARISING OUT OF OR IN ANY WAY RELATED TO THIS AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAW OF THE STATE OF NEW YORK (WITHOUT GIVING EFFECT TO THE CONFLICT OF LAWS PRINCIPLES THEREOF OTHER THAN SECTIONS 5-1401 AND 5-1402 OF THE NEW YORK GENERAL OBLIGATIONS LAW WHICH SHALL APPLY HERETO).

Section 12.8. **CONSENT TO JURISDICTION.** EACH OF THE PARTIES HEREBY IRREVOCABLY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY UNITED STATES FEDERAL OR STATE COURT SITTING IN THE BOROUGH OF MANHATTAN, NEW YORK (OR ANY APPELLATE COURT THEREFROM), IN ANY ACTION OR PROCEEDING ARISING OUT OF OR RELATING TO THIS AGREEMENT OR ANY DOCUMENT EXECUTED BY SUCH PERSON PURSUANT TO THIS AGREEMENT, AND EACH OF THE PARTIES HEREBY IRREVOCABLY AGREES THAT ALL CLAIMS IN

74

RESPECT OF SUCH ACTION OR PROCEEDING MAY BE HEARD AND DETERMINED IN ANY SUCH COURT AND IRREVOCABLY WAIVES ANY OBJECTION IT MAY NOW OR HEREAFTER HAVE AS TO THE VENUE OF ANY SUCH SUIT, ACTION OR PROCEEDING BROUGHT IN SUCH A COURT OR THAT SUCH COURT IS AN INCONVENIENT FORUM. NOTHING HEREIN SHALL LIMIT THE RIGHT OF THE AGENTS OR THE LENDERS TO BRING PROCEEDINGS AGAINST THE BORROWER OR MASTER SERVICER IN THE COURTS OF ANY OTHER JURISDICTION. ANY JUDICIAL PROCEEDING BY THE BORROWER OR THE MASTER SERVICER AGAINST THE AGENTS OR THE LENDERS OR ANY AFFILIATE THEREOF INVOLVING, DIRECTLY OR INDIRECTLY, ANY MATTER IN ANY WAY ARISING OUT OF, RELATED TO, OR CONNECTED WITH THIS AGREEMENT OR ANY DOCUMENT EXECUTED BY SUCH PARTY PURSUANT TO THIS AGREEMENT SHALL BE BROUGHT ONLY IN A COURT IN THE BOROUGH OF MANHATTAN, NEW YORK.

Section 12.9. WAIVER OF JURY TRIAL. EACH PARTY HERETO HEREBY IRREVOCABLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE REQUIREMENTS OF LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN ANY SUIT, ACTION, PROCEEDING OR COUNTERCLAIM (WHETHER BASED ON CONTRACT, TORT OR ANY OTHER THEORY) DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO THIS AGREEMENT, ANY OTHER LOAN DOCUMENT OR THE TRANSACTIONS CONTEMPLATED HEREBY OR THEREBY. EACH PARTY HERETO (a) CERTIFIES THAT NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HERETO HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER AND (b) ACKNOWLEDGES THAT IT AND THE OTHER PARTIES HERETO HAVE BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION.

Section 12.10. Integration; Binding Effect; Survival of Terms.

(a) This Agreement and each other Transaction Document contain the final and complete integration of all prior expressions by the parties hereto with respect to the subject matter hereof and shall constitute the entire agreement among the parties hereto with respect to the subject matter hereof superseding all prior oral or written understandings.

(b) This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns (including any trustee in bankruptcy). This Agreement shall create and constitute the continuing obligations of the parties hereto in accordance with its terms and shall remain in full force and effect until terminated in accordance with its terms; **provided, however,** that the rights and remedies with respect to (i) the indemnification and payment provisions of Article VIII, (ii) Sections 12.6 through and including 12.9 and (iii) Sections 9.3, 9.7 and 12.13, shall be continuing and shall survive any termination of this Agreement or any resignation or removal of the Administrative Agent or Collateral Agent.

(c) In the event of any conflict between the rights of the Borrower or the Master Servicer to withdraw and transfer funds from the Collection Account or the Interest Reserve Account under this Agreement and the right the Borrower or the Master Servicer to withdraw and transfer funds from the Collection Account or the Interest Reserve Account under a Control Agreement, this Agreement shall govern.

Section 12.11. Counterparts; Severability; Section References. This Agreement may be executed in any number of counterparts and by different parties hereto in separate counterparts, each of which when so executed shall be deemed to be an original and all of which when taken

together shall constitute one and the same Agreement. To the fullest extent permitted by applicable law, delivery of an executed counterpart of a signature page of this Agreement by telefacsimile or electronic image scan transmission (such as a "pdf" file) will be effective to the same extent as delivery of a manually executed original counterpart of this Agreement. Any provisions of this Agreement which are prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining provisions hereof, and any such prohibition or unenforceability in any jurisdiction shall not invalidate or render unenforceable such provision in any other jurisdiction. Unless otherwise expressly indicated, all references herein to "Article," "Section," "Schedule" or "Exhibit" shall mean articles and sections of, and schedules and exhibits to, this Agreement.

Section 12.12. Mutual Negotiations. This Agreement and the other Transaction Documents are the product of mutual negotiations by the parties thereto and their counsel, and no party shall be deemed the draftsman of this Agreement or any other Transaction Document or any provision hereof or thereof or to have provided the same. Accordingly, in the event of any inconsistency or ambiguity of any provision of this Agreement or any other Transaction Document, such inconsistency or ambiguity shall not be interpreted against any party because of such party's involvement in the drafting thereof.

Section 12.13. Bankruptcy Petition. The Master Servicer hereby covenants and agrees that, prior to the date that is one (1) year and one (1) day after the date after the Final Payout Date, it will not institute against, or join any other Person in instituting against, the Borrower any bankruptcy, reorganization, arrangement, insolvency or liquidation proceedings or other similar proceeding under the Laws of the United States or any state of the United States, or the Laws of Canada or any province or territory of Canada.

Section 12.14. USA PATRIOT Act.

(a) Each Lender that is subject to the requirements of the USA PATRIOT Act hereby notifies the Borrower and the Master Servicer that pursuant to the requirements of the USA PATRIOT Act, it is required to obtain, verify and record information that identifies the Bausch Parties, the Originator and their respective Subsidiaries, which information includes the name and address of the Bausch Parties, the Originator and their respective Subsidiaries and other information that will allow such Lenders to identify such parties in accordance with the USA PATRIOT Act.

(b) The parties hereto acknowledge that in accordance with the Customer Identification Program (CIP) requirements under the USA PATRIOT Act and its implementing regulations, the Administrative Agent, in order to help fight the funding of terrorism and money laundering, is required to obtain, verify, and record information that identifies each person or legal entity that establishes a relationship or opens an account with the Administrative Agent. The Borrower hereby agrees that it shall provide the Administrative Agent with such information as it may request including, but not limited to, the Borrower's name, physical address, tax identification number and other information that will help the Administrative Agent to identify and verify the Borrower's identity such as Organizational Documents, certificate of good standing, license to do business, or other pertinent identifying information.

Section 12.15. Divisions. For all purposes under the Transaction Documents, in connection with any division or plan of division under Delaware law (or any comparable event under a different jurisdiction's laws), if any asset, right, obligation or liability of any Person becomes the asset, right, obligation or liability of a different Person, then it shall be deemed to have been transferred from the original Person to the subsequent Person.

Section 12.16. No Fiduciary Duty. The Administrative Agent, the Collateral Agent, the Structuring Advisor, each Lender and their Affiliates (collectively, solely for purposes of this paragraph, the "**Lenders**"), may have economic interests that conflict with those of the Borrower or its Affiliates. The Borrower agrees that nothing in the Transaction Documents or otherwise will be deemed to create an advisory, fiduciary or agency relationship or fiduciary or other implied duty between any Lender, on the one hand, and the Borrower or its Affiliates, on the other. The Borrower acknowledges and agrees that (i) the transactions contemplated by the Transaction Documents (including the exercise of rights and remedies hereunder and thereunder) are arm's length commercial transactions between the Lenders, on the one hand, and the Borrower, on the other, and (ii) in connection therewith and with the process leading thereto, (x) no Lender has assumed an advisory or fiduciary responsibility in favor of the Borrower or its Affiliates with respect to the transactions contemplated hereby (or the exercise of rights or remedies with respect thereto) or the process leading thereto (irrespective of whether any Lender has advised, is currently advising or will advise the Borrower or its Affiliates on other matters) or any other obligation to the Borrower except the obligations expressly set forth in the Transaction Documents and (y) each Lender is acting solely as principal and not as the agent or fiduciary of the Borrower, its management, creditors or any other Person. The Borrower acknowledges and agrees that it has consulted its own legal and financial advisors to the extent it deemed appropriate and that it is responsible for making its own independent judgment with respect to such transactions and the process leading thereto. The Borrower agrees that it will not claim that any Lender has rendered advisory services of any nature or respect, or owes a fiduciary or similar duty to the Borrower, in connection with such transaction or the process leading thereto.

Section 12.17. Third Party Beneficiaries. Except as expressly as set forth in this Agreement, nothing in the Transaction Documents shall give to any Person, other than the parties hereto, the Lenders, and their respective successors hereunder, any benefit or any legal or equitable right, remedy or claim under this Agreement.

Section 12.18. **Electronic Execution.** The words “execution,” “execute”, “signed,” “signature,” and words of like import in or related to this Agreement and any document to be signed in connection with this Agreement and the transactions contemplated hereby (including amendments or other waivers and consents) shall be deemed to include electronic signatures, the electronic matching of assignment terms and contract formations on electronic platforms approved by the Administrative Agent, or the keeping of records in electronic form, each of which shall be of the same legal effect, validity or enforceability as a manually executed signature or the use of a paper-based recordkeeping system, as the case may be, to the extent and as provided for in any applicable law, including the Federal Electronic Signatures in Global and National Commerce Act, the New York State Electronic Signatures and Records Act, or any other similar state laws based on the Uniform Electronic Transactions Act, and including applicable Canadian provincial law.

EXHIBIT I

DEFINITIONS

Except as otherwise specified in this Agreement, all references in this Agreement (i) to any Person (other than the Borrower) shall be deemed to include such Person's successors and permitted assigns, and (ii) to any law, agreement, statute or contract specifically defined or referred to in this Agreement shall be deemed references to such law, agreement, statute or contract as the same may be supplemented, amended, waived, consolidated, replaced or modified from time to time, but only to the extent permitted by, and effected in accordance with, the terms thereof. The words "herein," "hereof" and "hereunder" and words of similar import, when used in this Agreement, shall refer to this Agreement as a whole and not to any provision of this Agreement, and references to "Article," "Section," "clause," "Exhibit," "Schedule" and "Appendix" are references to this Agreement unless otherwise specified. Whenever the context so requires, words importing any gender include the other gender. Any of the defined terms may, unless the context otherwise requires, be used in the singular or the plural depending on the reference; the singular includes the plural and the plural includes the singular. The word "or" shall not be exclusive.

All accounting terms not otherwise defined in this Agreement shall have the meanings assigned them in conformity with GAAP. All terms used in Article 9 of the UCC and not specifically defined in this Agreement shall be defined herein and in the Transaction Documents as such terms are defined in the UCC as in effect in the State of New York. Each reference to this Agreement, any other Transaction Document, or any other agreement shall be a reference to such agreement together with all exhibits, schedules, attachments and appendices thereto, in each case as amended, restated, supplemented or otherwise modified from time to time in accordance with the terms thereof and hereof. References to "writing" include email, facsimile, printing, typing, lithography and other means of reproducing words in a tangible visible form including computer-generated information accessible in tangible visible form. References to "written" include faxed, printed, typed, lithographed and other means of reproducing words or symbols in a tangible visible form consistent with the preceding sentence. The words "including," "includes" and "include" shall be deemed to be followed by the words "without limitation".

Unless otherwise expressly provided herein, any period of time ending on a day which is not a Business Day shall end on the next succeeding Business Day. Unless otherwise stated in this Agreement, in the computation of a period of time from a specified date to a later specified date, the word "from" means "from and including" and the words "to" and "until" each means "to but excluding."

In addition, as used in this Agreement, the following terms shall have the following meanings (such meanings to be equally applicable to both the singular and plural forms of the terms defined):

"ABR" means, on any date of determination, a rate per annum equal to the higher as of such day of (i) the Prime Rate or (ii) one-half of one percent (0.50%) above the Federal Funds Rate; **provided, however**, if ABR as determined above would be less than the Floor, then such rate shall be deemed to be the Floor. For purposes of determining the ABR for any day, changes in the Prime Rate or the Federal Funds Rate shall be effective on the date of each such change.

Exhibit I-1

"Administration Agreement" means (i) the Administration Agreement, dated as of the Closing Date, between the Administrator and the Master Servicer and (ii) any administration agreement among the Borrower, a Replacement Administrator and any other parties thereto, entered into in connection the appointment of a Replacement Administrator pursuant to Section 6.7.

"Administrative Agent" has the meaning set forth in the preamble to this Agreement.

"Administrative Agent's Account" means any account or accounts as the Administrative Agent may indicate in writing to the Borrower and the Master Servicer from time to time and, by execution and delivery of its signature page hereto, each Lender hereby authorizes and directs the Administrative Agent to establish and maintain the Administrative Agent's Account.

"Administrator" means Finacity Corporation, in its capacity as administrator under the Administration Agreement, or any Replacement Administrator, as applicable.

"Advance" means an advance of funds by each Lender to the Borrower hereunder on a Borrowing Date. Each Advance will consist of an advance from each Lender in the amount of its Percentage thereof.

"Advance Rate" means, 92%; **provided** that, if any Rating Agency downgrades an Obligor to the S&P equivalent of BBB-, the Advance Rate applied to Receivables of such Obligor will decrease to 87%.

"Adverse Claim" means any claim of ownership or any Lien or any challenge in any pleading filed in any court by the Borrower or a Bausch Party to the Borrower's or the Borrower GP's ownership of any Collateral or the Collateral Agent's Lien thereon; it being understood that any such claim or Lien in favor of, or assigned to, the Collateral Agent (for the benefit of the Secured Parties) under the Transaction Documents shall not constitute an Adverse Claim.

"Affiliate" means, with respect to any Person, any Person that directly or indirectly controls, is controlled by or is under common control with such Person. The term "control" shall mean the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ownership of voting securities, by contract or otherwise.

"Agent" means the Structuring Advisor, the Administrative Agent and the Collateral Agent.

"Agent Fee Letter" means the fee letter, dated as of the date hereof, addressed to the Borrower from the Administrative Agent and Collateral Agent.

"Aggregate Revolving Principal" means, on any date of determination, the aggregate amount of principal of all Advances outstanding on such date.

"Aggregate Revolving Commitment" means, on any date of determination, the aggregate of all Lenders' Revolving Commitments.

Exhibit I-2

"Agreement" means this Credit and Security Agreement, as it may be amended, restated, supplemented or otherwise modified and in effect from time to time.

"Amortization Date" means the earliest to occur of (a) the Business Day immediately prior to the occurrence of an Amortization Event set forth in Section 7.1(i), (b) the Business Day specified in a written notice from the Administrative Agent (at the written direction of the Requisite Lenders) following the occurrence and during continuation of any other Amortization Event and (c) the date which is five (5) Business Days after the Administrative Agent's receipt of written notice from the Borrower that it wishes to repay the facility evidenced by this Agreement in its entirety (unless a later date is specified in such notice).

"Amortization Event" has the meaning specified in Section 7.1.

"Anti-Corruption Laws" means all Laws of any jurisdiction applicable to Bausch or any of its Affiliates from time to time concerning or relating to bribery or corruption, including the US Foreign Corrupt Practices Act 1977.

"Anti-Terrorism Laws" means any Laws relating to terrorism or money laundering, including Executive Order No. 13224, the USA PATRIOT Act, the laws comprising or implementing the Bank Secrecy Act, and the laws administered by the United States Treasury Department's Office of Foreign Asset Control (as any of the foregoing laws may from time to time be amended, renewed, extended, or replaced).

"Applicable Margin" has the meaning set forth in the Lender Fee Letter.

"Assignment Agreement" has the meaning set forth in Section 10.1(b).

"Available Collections" means, with respect to any Payment Date, funds in respect of Collections equal to the amounts on deposit in the Collection Account as of the last day of the immediately preceding Calculation Period.

"Average Default Ratio" means, as of any date of determination, the average of the Default Ratios calculated over the last twelve months preceding such date of determination.

"Average Dilution Ratio" means, as of any date of determination, the average of the Dilution Ratios calculated over the twelve preceding calendar months.

"Average Facility Balance" means, as of day of determination the average daily aggregate Advances outstanding over the two most recently ended calendar months.

"Average SOFR" means, as of any date of determination, the average Term SOFR with respect to the two most recently ended calendar months.

"Bank" means a bank or other financial institution that solicits, receives, or accepts money or its equivalent for deposit as a business under authority granted by the appropriate U.S. federal or state regulatory agency.

"Bausch" means Bausch Health US, LLC, a Delaware limited liability company.

Exhibit I-3

"Bausch Party" means the Borrower, the Borrower GP and Bausch.

"Benchmark" means, initially, the Term SOFR Reference Rate; **provided** that if a Benchmark Transition Event has occurred with respect to the Term SOFR Reference Rate or the then-current Benchmark, then "Benchmark" means the applicable Benchmark Replacement to the extent that such Benchmark Replacement has replaced such prior benchmark rate pursuant to Section 1.8.

"Benchmark Replacement" means, either of the following to the extent selected by Administrative Agent in consultation with the Borrower,

(a) Daily Simple SOFR plus 0.10 % (10basis points); or

(b) the sum of: (i) the alternate benchmark rate that has been selected by the Administrative Agent and the Borrower giving due consideration to (A) any selection or recommendation of a replacement benchmark rate or the mechanism for determining such a rate by the Relevant Governmental Body or (B) any evolving or then-prevailing market convention for determining a benchmark rate as a replacement to the then-current Benchmark for Dollar-denominated syndicated credit facilities and (ii) the related Benchmark Replacement Adjustment.

If the Benchmark Replacement as determined pursuant to clause (a) or (b) above would be less than the Floor, the Benchmark Replacement will be deemed to be the Floor for the purposes of this Agreement and the other Transaction Documents.

"Benchmark Replacement Adjustment" means, with respect to any replacement of the then-current Benchmark with an Unadjusted Benchmark Replacement, the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected by the Administrative Agent and the Borrower giving due consideration to (a) any selection or recommendation of a spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of such Benchmark with the applicable Unadjusted Benchmark Replacement by the Relevant Governmental Body or (b) any evolving or then-prevailing market convention for determining a spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of such Benchmark with the applicable Unadjusted Benchmark Replacement for Dollar-denominated syndicated credit facilities.

"Benchmark Replacement Date" means the earliest to occur of the following events with respect to the then-current Benchmark:

(a) in the case of clause (a) or (b) of the definition of "Benchmark Transition Event", the later of (i) the date of the public statement or publication of information referenced therein and (ii) the date on which the administrator of such Benchmark (or the published component used in the calculation thereof) permanently or indefinitely ceases to provide such Benchmark (or such component thereof); or

(b) in the case of clause (c) of the definition of "Benchmark Transition Event", the first date on which such Benchmark (or the published component used in the calculation thereof) has been determined and announced by or on behalf of the administrator of such Benchmark (or such component thereof) or the regulatory supervisor for the administrator of such Benchmark (or such component thereof) to be no longer representative; **provided** that such non-representativeness or non-compliance will be determined by reference to the most recent statement or publication referenced in such clause (c).

Exhibit I-4

"Benchmark Transition Event" means the occurrence of one or more of the following events with respect to the then-current Benchmark:

(a) a public statement or publication of information by or on behalf of the administrator of such Benchmark (or the published component used in the calculation thereof) announcing that such administrator has ceased or will cease to provide such Benchmark (or such component thereof), permanently or indefinitely, **provided** that, at the time of such statement or publication, there is no successor administrator that will continue to provide such Benchmark (or such component thereof);

(b) a public statement or publication of information by the regulatory supervisor for the administrator of such Benchmark (or the published component used in the calculation thereof), the Federal Reserve Board, the Federal Reserve Bank of New York, an insolvency official with jurisdiction over the administrator for such Benchmark (or such component), a resolution authority with jurisdiction over the administrator for such Benchmark (or such component) or a court or an entity with similar insolvency or resolution authority over the administrator for such Benchmark (or such component), which states that the administrator of such Benchmark (or such component) has ceased or will cease to provide such Benchmark (or such component thereof) permanently or indefinitely, **provided** that, at the time of such statement or publication, there is no successor administrator that will continue to provide such Benchmark (or such component thereof); or

(c) a public statement or publication of information by or on behalf of the administrator of such Benchmark (or the published component used in the calculation thereof) or the regulatory supervisor for the administrator of such Benchmark (or such component thereof) announcing that such Benchmark (or such component thereof) is no longer, or as of a specified future date will no longer be, representative.

"Benchmark Unavailability Period" means, the period (if any) (a) beginning at the time that a Benchmark Replacement Date has occurred if, at such time, no Benchmark Replacement has replaced the then-current Benchmark for all purposes hereunder and under any Transaction Document in accordance with Section 1.8 and (b) ending at the time that a Benchmark Replacement has replaced the then-current Benchmark for all purposes hereunder and under any Transaction Document in accordance with Section 1.8.

"Blocked Person" has the meaning set forth in Section 3.1(j).

"Borrower" has the meaning set forth in the preamble to this Agreement.

"Borrower GP" means Bausch Receivables Funding GP ULC.

Exhibit I-5

"Borrower Obligations" means all present and future indebtedness, reimbursement obligations, and other liabilities and obligations (howsoever created, arising or evidenced, whether direct or indirect, absolute or contingent, or due or to become due) of the Borrower and the Borrower GP to the Administrative Agent, the Collateral Agent any Lender, any Indemnified Party, the Administrator and/or any other party arising under or in connection with this Agreement or any other Transaction Document or the transactions contemplated hereby or thereby, and shall include, without limitation, the Aggregate Revolving Principal outstanding hereunder, all Interest, Call Premiums, fees and all other amounts due or to become due under the Transaction Documents (whether in respect of fees, costs, expenses, indemnifications or otherwise), including interest, call premiums, fees and other obligations that accrue after the commencement of any Event of Bankruptcy with respect to the Borrower (in each case whether or not allowed or allowable as a claim in such proceeding).

"Borrowing Availability" means, on any Business Day, the amount, if any, by which the Aggregate Revolving Principal outstanding hereunder will be less than the lesser of (a) the Facility Limit and (b) the Borrowing Base as of such day.

"Borrowing Base" means, on any date of determination, an amount in U.S. Dollars equal to the result of (a) the product, without duplication, of (i) the Advance Rate, as of such date, times (ii) aggregate Outstanding Balance of all Eligible Receivables (**provided** that, in accordance with the proviso in the definition of "Advance Rate", different Advance Rates may be applied to Eligible Receivables of different Obligor), as of such date, minus (b) the Required Reserves, as of such date, plus (c) Undistributed Collections, as of such date.

"Borrowing Base Certificate" means a certificate to be executed and delivered by the Borrower to the Administrative Agent, the Structuring Advisor and the Lenders at the times specified herein in the form of Exhibit VII; **provided** that the information included in such Borrowing Base Certificate is as of a date not earlier than one (1) Business Day prior to the date of such Borrowing Base Certificate.

"Borrowing Date" means the Business Day on which any Advance is made.

"Borrowing Notice" has the meaning set forth in Section 1.2(a).

"Business Day" means any day (other than a Saturday or Sunday) on which Banks are not authorized or required to close in New York City, New York, or in any location where the Collection Account is maintained.

"Calculation Period" means the fiscal month corresponding to the Borrower's monthly reporting cycle.

"Call Premium" means an amount determined by the Administrative Agent (in accordance with the terms of this Agreement) equal to 1.0% of the Commitment Reduction Amount as of the applicable Commitment Reduction Date.

"Canadian Security Agreement" means the security agreement dated the date hereof governed under Ontario law, granted by the Borrower and the Borrower GP in favor of the Collateral Agent, granting a security interest in the Collateral to secure the prompt and complete payment and performance of all of the Borrower Obligations.

Exhibit I-6

"Capital Stock" means, with respect to any Person, all shares, interests, participations or other equivalents (however designated, whether voting or non-voting) of such Person's capital, whether now outstanding or issued or acquired after the Closing Date, including common shares, preferred shares, membership interests in a limited liability company, limited or general partnership interests in a partnership, interests in a trust, interests in other unincorporated organizations, warrants, options or other rights for the purchase or acquisition from such Person of shares of capital stock of (or other ownership or profit interests in) such Person or warrants, rights or options for the purchase or acquisition from such Person of such shares (or such other interests) or any other equivalent of such ownership interest.

"Change in Control" means the occurrence of any of the following:

(a) the Parent or, subject to the consent of the Requisite Lenders (such consent not to be unreasonably withheld (it being understood that the Requisite Lenders may require the delivery of such legal opinions that they consider relevant and acceptable (in their sole and absolute discretion) in connection with such consent)) an Affiliate thereof, ceases to own directly 100% of the limited partnership interests of the Borrower free and clear of all Adverse Claims (other than Permitted Liens);

(b) the Borrower GP ceases to own directly 100% of the general partnership interests of the Borrower free and clear of all Adverse Claims (other than Permitted Liens);

(c) the Parent or, subject to the consent of the Requisite Lenders (such consent not to be unreasonably withheld (it being understood that the Requisite Lenders may require the delivery of such legal opinions that they consider relevant and acceptable (in their sole and absolute discretion) in connection with such consent)) an Affiliate thereof, ceases to own directly 100% of the Capital Stock of the Borrower GP, free and clear of all Adverse Claims (other than Permitted Liens);

(d) means at any time, (i) any Person or "group" (within the meaning of Rules 13d-3 and 13d-5 under the Exchange Act or Part XX of the Securities Act (Ontario)) (a) shall have acquired beneficial ownership of 40% or more on a fully diluted basis of the voting and/or economic interest in the Capital Stock of the Parent or (b) shall have obtained the power (whether or not exercised) to elect a majority of the members of the board of directors (or similar governing body) of the Parent;

(e) Parent shall cease, directly or indirectly, to beneficially own and control 51% on a fully diluted basis of the economic and voting interest in the Capital Stock of Bausch; or

(f) the majority of the seats (other than vacant seats) on the board of directors (or similar governing body) of the Parent shall cease to be occupied by Persons who either (i) were members of the board of directors (or similar governing body) of the Parent immediately following the Closing Date or (ii) were nominated for election by the board of directors (or similar governing body) of the Parent, a majority of whom were members of the board of directors (or similar governing body) of the Parent immediately following the Closing Date or whose election or nomination for election was previously approved by a majority of such members.

Exhibit I-7

"Charged-Off Receivable" means a Receivable: (a) as to which the Master Servicer has received notice or a Responsible Officer is otherwise aware that the Obligor thereof has taken any action, or suffered any event to occur, of the type described in the definition of "Insolvency Proceeding"; (b) which, consistent with the usual and customary credit and collection policy, would be written off the Originator's books as uncollectible; or (c) which has been identified by the Master Servicer as uncollectible.

"Closing Date" has the meaning specified in the Preamble.

"Code" means the U.S. Internal Revenue Code of 1986, and the rules and regulations thereunder, each as amended or modified from time to time.

"Collateral" has the meaning specified in [Section 11.2](#).

Exhibit I-11

(c) the Receivable shall represent the valid and binding right, title and interest of the Originator to receive an amount payable by the Obligor under an invoice, contract or other payment instrument, including any right to interest for late payment of which the Originator is the beneficiary;

(d) that arises under a Contract that (i) is in full force and effect, (ii) is governed by the laws of the United States of America or of any State thereof, and (iii) is a legal, valid and binding obligation of the related Obligor, enforceable against such Obligor in accordance with its terms, except as such enforceability may be limited by applicable bankruptcy, insolvency, reorganization or other similar laws affecting the enforcement of creditors' rights generally and by general principles of equity regardless of whether enforceability is considered in a proceeding in equity or at law;

(e) the Receivable shall be free from any right of setoff or commercial dispute, whether pending or threatened, or Adverse Claim asserting the invalidity of the Contract or Receivable, seeking payment of such Receivable or payment and performance of such Contract or seeking any determination that would reasonably be expected to materially and adversely affect the collectability of such Receivable or the validity or enforceability of such Receivable or such Contract;

(f) that does not have a Due Date which is more than 60 days after the original invoice date of such Receivable; **provided** that Receivables with respect to generic pharmaceutical products may have a Due Date up to 66 days after the original invoice date for such Receivables;

(g) for which an Insolvency Proceeding shall not have occurred with respect to the Obligor thereof or any other Person obligated thereon or owning any Related Security with respect thereto;

(h) the Receivable shall be evidenced by an invoice delivered by the related Originator to the related Obligor, and denominated and payable in U.S. Dollars;

(i) the Obligor of which is not a Sanctioned Person;

(j) the Obligor with respect to which has been instructed to remit Collections in respect thereof directly to the Collection Account;

(k) that (i) arises under a duly authorized Contract for the sale of goods or services in the ordinary course of the Originator's business and (ii) does not constitute a loan or other similar financial accommodation being provided by the Originator;

(l) that has been transferred by the Originator to the Borrower pursuant to the Transfer Agreement with respect to which transfers all conditions precedent under the Transfer Agreement have been met;

(m) that, together with the Contract related thereto, conforms in all material respects with all applicable Laws (including any applicable laws relating to usury, truth in lending, fair credit billing, fair credit reporting, equal credit opportunity, fair debt collection practices and privacy);

Exhibit I-12

(n) with respect to which all consents, licenses, approvals or authorizations of, or registrations or declarations with or notices to, any Governmental Authority or other Person required to be obtained, effected or given by the Originator in connection with the creation of such Receivable, the execution, delivery and performance by the Originator of the related Contract or the assignment thereof under the Transfer Agreement have been duly obtained, effected or given and are in full force and effect;

(o) the Obligor of which holds no right as against the Originator to cause the Originator to repurchase the goods, the sale of which shall have given rise to such Receivable;

(p) that satisfies all material requirements of the Credit and Collection Policy;

(q) that, together with the Contract related thereto, has not been modified, waived or restructured since its creation, except as permitted pursuant to Section 6.2 of this Agreement or in accordance with the Standard Business Practices (without regard to any cap specified in the definition of Standard Business Practices);

(r) in which the Borrower owns good and marketable title, free and clear of any Adverse Claims, and that is freely assignable (including without any consent of the related Obligor or any Governmental Authority), and the payments thereon are free and clear of any, or increased to account for any applicable, withholding Taxes;

(s) for which the Collateral Agent (on behalf of the Secured Parties) shall have a valid and enforceable first priority perfected Security Interest therein and in the Related Security with respect thereto and the proceeds thereof, in each case free and clear of any Adverse Claim;

(t) that (i) constitutes an "account" or "general intangible" (other than a "payment intangible") (as defined in the UCC), (ii) is not evidenced by instruments or chattel paper and (iii) does not constitute, or arise from the sale of, as-extracted collateral (as defined in the UCC);

(u) that represents amounts earned and payable by the Obligor that are not subject to the performance of additional services by the Originator or by the Borrower and the related goods shall have been delivered or services performed;

(v) which (i) does not arise from a sale of accounts made as part of a sale of a business or constitute an assignment for the purpose of collection only, (ii) is not a transfer of a single account made in whole or partial satisfaction of a preexisting indebtedness or an assignment of a right to payment under a contract to an assignee that is also obligated to perform under the contract and (iii) is not a transfer of an interest in or an assignment of a claim under a policy of insurance;

Exhibit I-13

(w) which does not relate to the sale of any consigned goods or finished goods which have incorporated any consigned goods into such finished goods;

(x) which the invoice or bill with respect thereto does not include any monetary obligation that does not constitute a Receivable, other than interest on past due amounts;

(y) for which the Originator has recognized the related revenue in its financial books and records in accordance with GAAP; and

(z) for which neither the Originator nor any Affiliate thereof is holding any deposits received by or on behalf of the related Obligor; **provided** that only the portion of such Pool Receivable in an amount equal to such deposits shall be ineligible.

1. I have reviewed this annual report on Form 10-K of Bausch Health Companies Inc. (the "Company");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Company as of, and for, the periods presented in this report;
4. The Company's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Company and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

- c. Evaluated the effectiveness of the Company's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter (the Company's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting; and
5. The Company's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Company's auditors and the audit committee of the Company's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Company's ability to record, process, summarize and report financial information; and b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the Company's internal control over financial reporting.

Exhibit 97

BAUSCH HEALTH COMPANIES INC.
COMPENSATION RECOUPMENT POLICY

This Bausch Health Companies Inc. Compensation Recoupment Policy (the "**Policy**") has been adopted by the Talent and Compensation Committee of the Board of Directors (the "**Board**") of Bausch Health Companies Inc. (the "**Company**") on July 20, 2023. This Policy provides for the recoupment of certain executive compensation in the event of an accounting restatement resulting from material noncompliance with financial reporting requirements under U.S. federal securities laws in accordance with the terms and conditions set forth herein. This Policy is intended to comply with the requirements of Section 10D of the Exchange Act (as defined below) and Section 303A.14 of the NYSE Listed Company Manual.

1. **Definitions.** For the purposes of this Policy, the following terms shall have the meanings set forth below.

(a) "**Committee**" means the Talent and Compensation Committee of the Board or any successor committee thereof. If there is no compensation committee of the Board, references herein to the Committee shall refer to the Company's committee of independent directors that is responsible for executive compensation decisions, or in the absence of such a compensation committee, the independent members of the Board.

(b) "**Covered Compensation**" means any Incentive-based Compensation "received" by a Covered Executive during the applicable Recoupment Period; **provided that:**

(i) such Covered Compensation was received by such Covered Executive (A) after the Effective Date, (B) after he or she commenced service as an Executive Officer and (C) while the Company had a class of securities publicly listed on a United States national securities exchange; and

(ii) such Covered Executive served as an Executive Officer at any time during the performance period applicable to such Incentive-based Compensation.

For purposes of this Policy, Incentive-based Compensation is "**received**" by a Covered Executive during the fiscal period in which the Financial Reporting Measure applicable to such Incentive-based Compensation (or portion thereof) is attained, even if the payment or grant of such Incentive-based Compensation is made

thereafter.

(c) **"Covered Executive"** means any (i) current or former Executive Officer and (ii) any other employee of the Company and its subsidiaries designated by the Committee as subject to this Policy from time to time.

(d) **"Effective Date"** means the date on which Section 303A.14 of the NYSE Listed Company Manual becomes effective.

(e) **"Exchange Act"** means the U.S. Securities Exchange Act of 1934, as amended.

(f) **"Executive Officer"** means, with respect to the Company, (i) its president, (ii) its principal financial officer, (iii) its principal accounting officer (or if there is no such accounting officer, its controller), (iv) any vice-president in charge of a principal business unit, division or function (such as sales, administration or finance), (v) any other officer who performs a policy-making function for the Company (including any officer of the Company's parent(s) or subsidiaries if they perform policy-making functions for the Company) and (vi) any other person who performs similar policy-making functions for the Company. Policy-making function is not intended to include policy-making functions that are not significant. The determination as to an individual's status as an Executive Officer shall be made by the Committee and such determination shall be final, conclusive and binding on such individual and all other interested persons.

(g) **"Financial Reporting Measure"** means any (i) measure that is determined and presented in accordance with the accounting principles used in preparing the Company's financial statements, (ii)

stock price measure or (iii) total shareholder return measure (and any measures that are derived wholly or in part from any measure referenced in clause (i), (ii) or (iii) above). For the avoidance of doubt, any such measure does not need to be presented within the Company's financial statements or included in a filing with the U.S. Securities and Exchange Commission to constitute a Financial Reporting Measure.

(h) **"Financial Restatement"** means a restatement of the Company's financial statements due to the Company's material noncompliance with any financial reporting requirement under U.S. federal securities laws that is required in order to correct:

(i) an error in previously issued financial statements that is material to the previously issued financial statements; or

(ii) an error that would result in a material misstatement if (A) the error were corrected in the current period or (B) left uncorrected in the current period.

For purposes of this Policy, a Financial Restatement shall not be deemed to occur in the event of a revision of the Company's financial statements due to an out-of-period adjustment (i.e., when the error is immaterial to the previously issued financial statements and the correction of the error is also immaterial to the current period) or a retrospective (1) application of a change in accounting principles; (2) revision to reportable segment information due to a change in the structure of the Company's internal organization; (3) reclassification due to a discontinued operation; (4) application of a change in reporting entity, such as from a reorganization of entities under common control; or (5) revision for stock splits, reverse stock splits, stock dividends or other changes in capital structure.

(j) **"Incentive-based Compensation"** means any compensation (including, for the avoidance of doubt, any cash or equity or equity-based compensation, whether deferred or current) that is granted, earned and/or vested based wholly or in part upon the achievement of a Financial Reporting Measure. For purposes of this Policy, "Incentive-based Compensation" shall also be deemed to include any amounts which were determined based on (or were otherwise calculated by reference to) Incentive-based Compensation (including, without limitation, any amounts under any long-term disability, life insurance or supplemental retirement or severance plan or agreement or any notional account that is based on Incentive-based Compensation, as well as any earnings accrued thereon).

(k) **"NYSE"** means the New York Stock Exchange, or any successor thereof.

(l) **"Recoupment Period"** means the three fiscal years completed immediately preceding the date of any applicable Recoupment Trigger Date. Notwithstanding the foregoing, the Recoupment Period additionally includes any transition period (that results from a change in the Company's fiscal year) within or immediately following those three completed fiscal years, provided that a transition period between the last day of the Company's previous fiscal year end and the first day of its new fiscal year that comprises a period of nine (9) to twelve (12) months would be deemed a completed fiscal year.

(m) **"Recoupment Trigger Date"** means the earlier of (i) the date that the Board (or a committee thereof or the officer(s) of the Company authorized to take such action if Board action is not required) concludes, or reasonably should have concluded, that the Company is required to prepare a Financial Restatement, and (ii) the date on which a court, regulator or other legally authorized body directs the Company to prepare a Financial Restatement.

2. Recoupment of Erroneously Awarded Compensation.

(a) In the event of a Financial Restatement, if the amount of any Covered Compensation received by a Covered Executive (the “**Awarded Compensation**”) exceeds the amount of such Covered Compensation that would have otherwise been received by such Covered Executive if calculated based on the Financial Restatement (the “**Adjusted Compensation**”), the Company shall reasonably promptly recover from such Covered Executive an amount equal to the excess of the Awarded Compensation over the Adjusted Compensation, each calculated on a pre-tax basis (such excess amount, the “**Erroneously Awarded Compensation**”).

(b) If (i) the Financial Reporting Measure applicable to the relevant Covered Compensation is stock price or total shareholder return (or any measure derived wholly or in part from either of such measures) and (ii) the amount of Erroneously Awarded Compensation is not subject to mathematical recalculation directly from the information in the Financial Restatement, then the amount of Erroneously Awarded Compensation shall be determined (on a pre-tax basis) based on the Company's reasonable estimate of the effect of the Financial Restatement on the Company's stock price or total shareholder return (or the derivative measure thereof) upon which such Covered Compensation was received.

(c) For the avoidance of doubt, the Company's obligation to recover Erroneously Awarded Compensation is not dependent on (i) if or when the restated financial statements are filed or (ii) any fault of any Covered Executive for the accounting errors or other actions leading to a Financial Restatement.

(d) Notwithstanding anything to the contrary in Sections 2(a) through (c) hereof, the Company shall not be required to recover any Erroneously Awarded Compensation if both (x) the conditions set forth in either of the following clauses (i) or (ii) are satisfied and (y) the Committee (or a majority of the independent directors serving on the Board) has determined that recovery of the Erroneously Awarded Compensation would be impracticable:

(i) the direct expense paid to a third party to assist in enforcing the recovery of the Erroneously Awarded Compensation under this Policy would exceed the amount of such Erroneously Awarded Compensation to be recovered; *provided* that, before concluding that it would be impracticable to recover any amount of Erroneously Awarded Compensation pursuant to this Section 2(d), the Company shall have first made a reasonable attempt to recover such Erroneously Awarded Compensation, document such reasonable attempt(s) to make such recovery and provide that documentation to the NYSE; or

(ii) recovery of the Erroneously Awarded Compensation would likely cause an otherwise tax-qualified retirement plan, under which benefits are broadly available to employees of the Company, to fail to meet the requirements of Sections 401(a)(13) or 411(a) of the U.S. Internal Revenue Code of 1986, as amended (the “**Code**”).

(e) The Company shall not indemnify any Covered Executive, directly or indirectly, for any losses that such Covered Executive may incur in connection with the recovery of Erroneously Awarded Compensation pursuant to this Policy, including through the payment of insurance premiums or gross-up payments.

(f) The Committee shall determine, in its sole discretion, the manner and timing in which any Erroneously Awarded Compensation shall be recovered from a Covered Executive in accordance with applicable law, including, without limitation, by (i) requiring reimbursement of Covered Compensation previously paid in cash; (ii) seeking recovery of any gain realized on the vesting, exercise, settlement, sale, transfer or other disposition of any equity or equity-based awards; (iii) offsetting the Erroneously Awarded Compensation amount from any compensation otherwise owed by the Company or any of its affiliates to the Covered Executive; (iv) cancelling outstanding vested or unvested equity or equity-based awards; and/or (v) taking any other remedial and recovery action permitted by applicable law. For the avoidance of doubt, except as set forth in Section 2(d), in no event may the Company accept an amount that is less than the amount of Erroneously Awarded Compensation; *provided* that, to the extent necessary to avoid any adverse tax consequences to the Covered Executive pursuant to Section

409A of the Code, any offsets against amounts under any nonqualified deferred compensation plans (as defined under Section 409A of the Code) shall be made in compliance with Section 409A of the Code.

3. Administration. This Policy shall be administered by the Committee. All decisions of the Committee shall be final, conclusive and binding upon the Company and the Covered Executives, their beneficiaries, executors, administrators and any other legal representative. The Committee shall have full power and authority to (i) administer and interpret this Policy, (ii) correct any defect, supply any omission and reconcile any inconsistency in this Policy and (iii) make any other determination and take any other action that the Committee deems necessary or desirable for the administration of this Policy and to comply with applicable law

(including Section 10D of the Exchange Act) and applicable stock market or exchange rules and regulations. Notwithstanding anything to the contrary contained herein, to the extent permitted by Section 10D of the Exchange Act and Section 303A.14 of the NYSE Listed Company Manual, the Board may, in its sole discretion, at any time and from time to time, administer this Policy in the same manner as the Committee.

4. **Amendment/Termination.** Subject to Section 10D of the Exchange Act and Section 303A.14 of the NYSE Listed Company Manual, this Policy may be amended or terminated by the Committee at any time. To the extent that any applicable law, or stock market or exchange rules or regulations require recovery of Erroneously Awarded Compensation in circumstances in addition to those specified herein, nothing in this Policy shall be deemed to limit or restrict the right or obligation of the Company to recover Erroneously Awarded Compensation to the fullest extent required by such applicable law, stock market or exchange rules and regulations. Unless otherwise required by applicable law, this Policy shall no longer be effective from and after the date that the Company no longer has a class of securities publicly listed on a United States national securities exchange.

5. **Interpretation.** Notwithstanding anything to the contrary herein, this Policy is intended to comply with the requirements of Section 10D of the Exchange Act and Section 303A.14 of the NYSE Listed Company Manual (and any applicable regulations, administrative interpretations or stock market or exchange rules and regulations adopted in connection therewith). The provisions of this Policy shall be interpreted in a manner that satisfies such requirements and this Policy shall be operated accordingly. If any provision of this Policy would otherwise frustrate or conflict with this intent, the provision shall be interpreted and deemed amended so as to avoid such conflict.

6. **Other Compensation Clawback/Recoupment Rights.** Any right of recoupment under this Policy is in addition to, and not in lieu of, any other remedies, rights or requirements with respect to the clawback or recoupment of any compensation that may be available to the Company pursuant to the terms of any other recoupment or clawback policy of the Company (or any of its affiliates) that may be in effect from time to time, any provisions in any employment agreement, offer letter, equity plan, equity award agreement or similar plan or agreement, and any other legal remedies available to the Company, as well as applicable law, stock market or exchange rules, listing standards or regulations; *provided, however*, that any amounts recouped or clawed back under any other policy that would be recoupable under this Policy shall count toward any required clawback or recoupment under this Policy and vice versa.

7. **Exempt Compensation.** Notwithstanding anything to the contrary herein, the Company has no obligation to seek recoupment of amounts paid to a Covered Executive which are granted, vested or earned based solely upon the occurrence or non-occurrence of nonfinancial events. Such exempt compensation includes, without limitation, base salary, time-vesting awards, compensation awarded on the basis of the achievement of metrics that are not Financial Reporting Measures or compensation awarded solely at the discretion of the Committee or the Board, *provided* that such amounts are in no way contingent on, and were not in any way granted on the basis of, the achievement of any Financial Reporting Measure performance goal.

8. **Miscellaneous.**

(a) Any applicable award agreement or other document setting forth the terms and conditions of any compensation covered by this Policy shall be deemed to include the restrictions imposed herein and incorporate this Policy by reference and, in the event of any inconsistency, the terms of this Policy will govern. For the avoidance of doubt, this Policy applies to all compensation that is received on or after the Effective Date, regardless of the date on which the award agreement or other document setting forth the

4

terms and conditions of the Covered Executive's compensation became effective, including, without limitation, compensation received under the Company's 2014 Omnibus Incentive Plan (as may be amended and restated from time to time) and any successor plan thereto.

(b) This Policy shall be binding and enforceable against all Covered Executives and their beneficiaries, heirs, executors, administrators or other legal representatives.

(c) All issues concerning the construction, validity, enforcement and interpretation of this Policy and all related documents, including, without limitation, any employment agreement, offer letter, equity award agreement or similar agreement, shall be governed by, and construed in accordance with, the laws of the Province of Ontario and the laws of Canada, without giving effect to any choice of law or conflict of law rules or provisions (whether of the Province of Ontario and Canada or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the Province of Ontario and Canada.

(d) If any provision of this Policy is determined to be unenforceable or invalid under any applicable law, such provision will be applied to the maximum extent permitted by applicable law and shall automatically be deemed amended in a manner consistent with its objectives to the extent necessary to conform to any limitations required under applicable law.
