<sup>1</sup> Excluding Natal for comparison purposes, total passenger traffic was up 9.5% in January.

### Monthly Passenger Traffic Performance

(In million PAX)

In **Argentina**, total passenger traffic increased by 12.8% YoY, an improvement from the 7.0% YoY growth recorded in December, marking another all-time high. This increase was primarily driven by a strong recovery in domestic traffic, which rose by 8.8% YoY, up from the 3.4% YoY growth recorded in December. As a reminder, domestic traffic YoY comparisons are no longer impacted by the 'Previale' incentive program, which was suspended in December 2023 following the swearing-in of the new government. International passenger traffic continued to perform well and increased by a robust 22.0% YoY, up from the 16.2% YoY growth recorded in December.

In **Italy**, passenger traffic grew by 5.6% compared to the same month in 2024. International passenger traffic, which accounted for over 75% of the total traffic, increased by 5.2% YoY, driven by an 8.1% increase at Pisa airport and a 2.0% increase at Florence airport. Domestic passenger traffic increased by 7.0% YoY, with strong performances at both Pisa and Florence airports.

In **Brazil**, total passenger traffic decreased by 14.3% YoY, or increased by 2.8% YoY when adjusting for the discontinuation of Natal Airport. These results reflect an improvement in traffic trends despite the still challenging aviation context and aircraft constraints in the country. Domestic traffic, which accounted for over 50% of the total traffic, was down 28.2% YoY, or 3.5% when excluding Natal, while transit passengers were up 9.7% YoY. As a reminder, following the friendly termination process concluded in February 2024, CAAP no longer operates Natal Airport, effective February 19, 2024. Therefore, statistics for Natal are available up to February 18, 2024.

In **Uruguay**, total passenger traffic, predominantly international, continued its recovery, rising by 4.7% YoY, driven by new routes launched for the summer season. In December, SKY Airline introduced a new route connecting Montevideo with Rio de Janeiro, while Azul Linhas Aéreas began operating flights to Florianópolis. At Punta del Este Airport, the company kicked off the summer season with the first direct flight from Santiago de Chile to Punta del Este, operated by LATAM, with three weekly flights from November to March.

In **Ecuador**, passenger traffic rose by 8.1% year-over-year, despite ongoing security concerns in the country. International passenger traffic increased by 13.1% YoY, while domestic traffic grew by 3.2% YoY, affected by high airfare prices, which have impacted travel demand.

In **Armenia**, passenger traffic increased by 6.7% YoY, following a strong recovery post-Covid. This growth was supported by the introduction of new airlines and routes, along with an increase in flight frequencies.

#### Cargo Volume and Aircraft Movements

**Cargo volume** increased by 12.2% compared to the same month in 2024, with positive YoY contributions from all countries of operation, except for Brazil and Ecuador: Argentina (+14.1%), Uruguay (+45.9%), Armenia (+28.8%), Italy (+4.3%), Ecuador (-4.8%) and Brazil (-4.7%). Argentina, Brazil, and Armenia accounted for almost 80% of the total cargo volume in January.

**Aircraft movements** increased by 1.2% YoY, with positive YoY contributions from all countries of operation, except for Brazil: Argentina (+4.5%), Uruguay (+1.7%), Armenia (+6.3%), Ecuador (+3.9%), Italy (+3.8%), and Brazil (-12.6%). Argentina, Brazil, and Ecuador accounted for more than 80% of total aircraft movements in January.
