Internal Rating	Definition
1	The borrower is performing above expectations, and the trends and risk factors for this investment since origination or acquisition are generally favorable
2	The borrower is generally performing as expected and the risk factors are neutral to favorable. All investments or acquired investments in new portfolio companies are initially assessed a rating of 2
3	The borrower is performing below expectations and the loan's risk has increased somewhat since origination or acquisition
4	The borrower is performing materially below expectations and the loan's risk has increased materially since origination or acquisition. In addition to the borrower being generally out of compliance with debt covenants, loan payments may be past due (but generally not more than 120 days past due)
5	The borrower is performing substantially below expectations and the loan's risk has increased substantially since origination or acquisition. Most or all of the debt covenants are out of compliance and payments are substantially delinquent. Loans rated 5 are not anticipated to be repaid in full and we will reduce the fair market value of the loan to the amount we anticipate will be recovered

Past performance is not a guarantee of future results.

NYSE: OBDC

# Endnotes

Note: Figures are as of the quarter-ended December 31, 2025 unless otherwise noted. Past performance is not a guarantee of future results. Totals may not sum due to rounding.

1. Please see non-GAAP disclosures on pages 19 and 20 for reconciliations.
2. Annualized quarterly net investment income or net income per share divided by beginning period net asset value per share.
3. Net funded investment activity includes net drawdown (repayments) on revolvers and delayed draw term loans.
4. Undrawn debt is based on committed debt less debt outstanding as of 12/31/25.
5. Based on principal value of debt outstanding net of cash.
6. Dividend yield based on annualized Q4'25 regular dividend of \$0.37 per share payable to shareholders of record as of December 31, 2025 and Q4'25 net asset value per share of \$14.81.
7. Source: Bloomberg as of 1/31/2026. Based on market capitalization.
8. A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time. For complete ratings definitions please visit [www.standardandpoors.com](http://www.standardandpoors.com), [www.fitchratings.com](http://www.fitchratings.com), [www.moodys.com](http://www.moodys.com), and [www.krollbondratings.com](http://www.krollbondratings.com).
9. Fair value.
10. Borrower financials are derived from the most recently available portfolio company financial statements, typically a quarter in arrears, have not been independently verified by Blue Owl, and may reflect a normalized or adjusted amount. Accordingly, Blue Owl makes no representation or warranty in respect of this information. This represents 92.9% of our total debt portfolio based on fair value as of 12/31/2025 (94.4% of our total debt portfolio based on fair value as of 09/30/2025) and excludes certain investments that fall outside of our typical borrower profile.
11. Weighted average total yield of debt and income producing securities at fair value. For non-stated rate income producing investments, computed based on (a) the dividend or interest income earned for the respective trailing twelve months ended on the measurement date, divided by (b) the ending fair value. In instances where historical dividend or interest income data is not available or not representative for the trailing twelve months ended, the dividend or interest income is annualized.
12. Average of the annual net realized gain/loss rates since inception (where the annual net realized gain/loss rate is calculated as the total net realized gains/losses for a particular year divided by the average quarterly investments at amortized cost in such year).
13. Based on period end shares.
14. Based on shares outstanding as of record date.
15. Net of debt issuance costs.
16. Weighted average total yield of the portfolio at fair value. Calculated based on the interest rate and the accretion of OID. OID represents OID earned on the investment by a Blue Owl BDC. Separately, a Blue Owl adviser may engage in certain origination activities and receive attendant arrangement, structuring or similar fees. As such OID could have been higher had the Blue Owl Advisers not collected this fee.
17. Excludes investments made through a joint venture in which OBDC is invested.
18. Assumes each floating rate commitment is subject to the greater of the interest rate floor (if applicable) or 3-month SOFR as of the applicable reporting date.
19. "Net LTV" represents the net ratio of "loan to value" for each portfolio company, weighted based on the fair value of OBDC's loan investment. The "attachment point" is the principal amount of debt that is senior to OBDC's loan investment, and that amount plus the principal amount of the loan in which OBDC invested and other equally ranked debt is the "last dollar" amount. "Value" represents an estimate of enterprise value of each portfolio company, a calculation that will vary by portfolio company.
20. Interest from Investments – Interest and Dividend Income includes accrued interest and dividend income, amortization of purchase discounts (premiums) and certain fees, and accelerated amortization of upfront fees from scheduled principal payments.
21. Interest from Investments – Income Associated with Unscheduled Paydowns includes prepayment fees and accelerated amortization of upfront fees from unscheduled paydowns.
22. Other Income includes amendment fees, syndication fees, loan origination and structuring fees, and other income.
23. Interest rate on debt outstanding includes the swap-adjusted interest expense related to our unsecured notes where applicable. Average interest rate on debt outstanding excludes net change in unrealized gain (loss) on effective interest rate swaps and hedged items.
24. Par value.
25. Amounts drawn under the Revolving Credit Facility with respect to the commitments maturing on November 22, 2029 will bear interest at the relevant rate (including any applicable credit adjustment spread) plus margin of either 1.775% per annum or, (x) if the gross borrowing base is greater than or equal to the product of 1.60 and the combined debt amount but less than the product of 2.00 and the combined debt amount, 1.650% per annum or (y) if the gross borrowing base is greater than or equal to the product of 2.00 and the combined debt amount, 1.525% per annum.
26. The Revolving Credit Facility will mature on 8/26/2027 with respect to \$50 million of commitments and on 11/22/2029 with respect to the remaining commitments.

# Endnotes (Cont'd.)

27. Interest rates represent the weighted average spread over 3-month or 6-month SOFR for the various floating rate tranches of issued notes within each CLO, excluding tranches retained by the company in each respective CLO. The weighted average interest rate for each CLO excludes tranches with a fixed interest rate.
28. In connection with the note offering, OBDC entered into an interest rate swap to continue to align the interest rates of our liabilities with our investment portfolio, which consists of predominately floating rate loans. As a result of the swap, our effective interest rate on the notes was one-month SOFR plus CSA plus 176.9 basis points, which reflects the current terms.
29. In connection with the initial note offering, OBDC entered into an interest rate swap to continue to align the interest rates of our liabilities with our investment portfolio, which consists of predominately floating rate loans. As a result of the swap, our effective interest rate on the notes was one-month SOFR plus CSA plus 212.2 basis points, which reflects the current terms. In connection with the re-opening of the note offering, OBDC entered into an interest rate swap to continue to align the interest rates of our liabilities with our investment portfolio, which consists of predominately floating rate loans. As a result of the swap, our effective blended interest rate on the notes was one-month SOFR plus 203.9 basis points, which reflects the current terms.
30. In connection with the note offering, OBDC entered into an interest rate swap to continue to align the interest rates of our liabilities with our investment portfolio, which consists of predominately floating rate loans. As a result of the swap, our effective interest rate on the notes was one-month SOFR plus CSA plus 239.15 basis points, which reflects the current terms.
31. Totals at the top of each bar represents the total quarterly dividend per share (including any supplemental dividends per share) divided by the period end net asset value per share. The Board of Directors must approve each quarter's dividend. In quarters where there was a supplemental dividend, period end net asset value per share is adjusted down by the amount of the supplemental dividend.
32. Amounts round to less than \$1 million and per share amounts round to less than \$0.01.

# Non-GAAP Disclosures

On a supplemental basis, the Company is disclosing certain adjusted financial measures, each of which is calculated and presented on a basis of methodology other than in accordance with GAAP (“non-GAAP”). The Company’s management utilizes these non-GAAP financial measures to internally analyze and assess financial results and performance. These measures are also considered useful by management as an additional resource for investors to evaluate the Company’s ongoing results and trends, as well as its performance, excluding non-cash income or gains related to the Merger with Blue Owl Capital Corporation III, completed on January 13, 2025. The presentation of non-GAAP measures is not intended to be a substitute for financial results prepared in accordance with GAAP and should not be considered in isolation.

- “Adjusted Total Investment Income” and “Adjusted Total Investment Income Per Share”: represents total investment income excluding any amortization or accretion of interest income resulting solely from the cost basis established by ASC 805 (see below) for the assets acquired in connection with the Merger.
- “Adjusted Net Investment Income” and “Adjusted Net Investment Income Per Share”: represents net investment income, excluding any amortization or accretion of interest income resulting solely from the cost basis established by ASC 805 (see below) for the assets acquired in connection with the Merger.
- “Adjusted Net Realized and Unrealized Gains (Losses)” and “Adjusted Net Realized and Unrealized Gains (Losses) Per Share”: represents net realized and unrealized gains (losses) excluding any net realized and unrealized gains (losses) resulting solely from the cost basis established by ASC 805 (see below) for the assets acquired in connection with the Merger.
- “Adjusted Net Increase (Decrease) in Net Assets Resulting from Operations” and “Adjusted Net Increase (Decrease) in Net Assets Resulting from Operations Per Share”: represents the sum of (i) Adjusted Net Investment Income and (ii) Adjusted Net Realized and Unrealized Gains (Losses).

The Merger was accounted for as an asset acquisition in accordance with the asset acquisition method of accounting as detailed in ASC 805-50, Business Combinations—Related Issues (“ASC 805”). The consideration paid to the stockholders of OBDE was allocated to the individual assets acquired and liabilities assumed based on the relative fair values of the net identifiable assets acquired other than “non-qualifying” assets, which established a new cost basis for the acquired investments under ASC 805 that, in aggregate, was different than the historical cost basis of the acquired investments prior to the Merger. Additionally, immediately following the completion of the Merger, the acquired investments were marked to their respective fair values under ASC 820, Fair Value Measurements, which resulted in unrealized appreciation/depreciation. The new cost basis established by ASC 805 on debt investments acquired will accrete/amortize over the life of each respective debt investment through interest income, with a corresponding adjustment recorded to unrealized appreciation/depreciation on such investment acquired through its ultimate disposition. The new cost basis established by ASC 805 on equity investments acquired will not accrete/amortize over the life of such investments through interest income and, assuming no subsequent change to the fair value of the equity investments acquired and disposition of such equity investments at fair value, the Company will recognize a realized gain/loss with a corresponding reversal of the unrealized appreciation/depreciation on disposition of such equity investments acquired.

The Company’s management uses the non-GAAP financial measures described above internally to analyze and evaluate financial results and performance and to compare its financial results with those of other business development companies that have not adjusted the cost basis of certain investments pursuant to ASC 805. The Company’s management believes “Adjusted Total Investment Income”, “Adjusted Total Investment Income Per Share”, “Adjusted Net Investment Income” and “Adjusted Net Investment Income Per Share” are useful to investors as an additional tool to evaluate ongoing results and trends for the Company without giving effect to the income resulting from the new cost basis of the investments acquired in the Merger because these amounts do not impact the fees payable to Blue Owl Credit Advisors LLC (the “Adviser”) under the fourth amended and restated investment advisory agreement (the “Investment Advisory Agreement”) between the Company and the Adviser, and specifically as it relates to “Adjusted Net Investment Income” and “Adjusted Net Investment Income Per Share”. In addition, the Company’s management believes that “Adjusted Net Realized and Unrealized Gains (Losses)”, “Adjusted Net Realized and Unrealized Gains (Losses) Per Share”, “Adjusted Net Increase (Decrease) in Net Assets Resulting from Operations” and “Adjusted Net Increase (Decrease) in Net Assets Resulting from Operations Per Share” are useful to investors as they exclude the non-cash income and gain/loss resulting from the Merger and are used by management to evaluate the economic earnings of its investment portfolio. Moreover, these metrics more closely align the Company’s key financial measures with the calculation of incentive fees payable to the Adviser under the Investment Advisory Agreement (i.e., excluding amounts resulting solely from the lower cost basis of the acquired investments established by ASC 805 that would have been to the benefit of the Adviser absent such exclusion).

# Non-GAAP Reconciliation Tables

The following table provides a reconciliation of total investment income (the most comparable U.S. GAAP measure) to adjusted total investment income for the periods presented:

(\$ in millions, except per share amounts)	For the Three Months Ended									
	2024		2025							
	December 31,	Amount	March 31,	Amount	June 30,	Amount	September 30,	Amount	December 31,	Per Share
<b>Total Investment Income</b>	\$394	\$1.01	\$465	\$0.94	\$486	\$0.95	\$453	\$0.89	\$448	\$0.88
Less: Purchase discount amortization	\$—	\$—	(\$8)	\$—	(\$11)	(\$0.02)	(\$7)	(\$0.01)	(\$8)	(\$0.02)
<b>Adjusted, non-GAAP, Total Investment Income</b>	<b>\$394</b>	<b>\$1.01</b>	<b>\$457</b>	<b>\$0.92</b>	<b>\$475</b>	<b>\$0.93</b>	<b>\$446</b>	<b>\$0.87</b>	<b>\$440</b>	<b>\$0.87</b>

The following table provides a reconciliation of net investment income (the most comparable U.S. GAAP measure) to adjusted net investment income for the periods presented:

(\$ in millions, except per share amounts)	For the Three Months Ended									
	2024		2025							
	December 31,	Amount	March 31,	Amount	June 30,	Amount	September 30,	Amount	December 31,	Per Share
<b>Net Investment Income</b>	\$184	\$0.47	\$201	\$0.41	\$217	\$0.42	\$190	\$0.37	\$192	\$0.38
Less: Purchase discount amortization	\$—	\$—	(\$8)	(\$0.02)	(\$11)	(\$0.02)	(\$7)	(\$0.01)	(\$8)	(\$0.02)
<b>Adjusted, non-GAAP, Net Investment Income</b>	<b>\$184</b>	<b>\$0.47</b>	<b>\$193</b>	<b>\$0.39</b>	<b>\$206</b>	<b>\$0.40</b>	<b>\$183</b>	<b>\$0.36</b>	<b>\$184</b>	<b>\$0.36</b>

The following table provides a reconciliation of net realized and unrealized gains (losses) (the most comparable U.S. GAAP measure) to adjusted net realized and unrealized gains (losses) for the periods presented:

(\$ in millions, except per share amounts)	For the Three Months Ended									
	2024		2025							
	December 31,	Amount	March 31,	Amount	June 30,	Amount	September 30,	Amount	December 31,	Per Share
