These statements are subject to risks and uncertainties that could cause actual results to differ materially including, but not limited to: various political, economic and compliance risks associated with our international operations, adverse changes in economic conditions in our markets, natural disasters, volatility in currency exchange rates and illiquidity of certain local currencies in our markets, competition, consumer and small business spending patterns, political instability, increased costs associated with the integration of online commerce with our traditional business, whether the Company can successfully execute strategic initiatives, our reliance on third party service providers, including those who support transaction and payment processing, data security and other technology services, cybersecurity breaches that could cause disruptions in our systems or jeopardize the security of Member, employee or business information, cost increases from product and service providers, interruption of supply chains, novel coronavirus (COVID-19) related factors and challenges, exposure to product liability claims and product recalls, recoverability of moneys owed to PriceSmart from governments, and other important factors discussed in the Risk Factors section of the Company's most recent Annual Report on Form 10-K, and other factors discussed from time to time in other filings with the SEC, which are accessible on the SEC's website at www.sec.gov, including Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. Non-GAAP Financial Measures

In addition to relevant GAAP measures, we also provide non-GAAP measures including adjusted net income per diluted share, adjusted EBITDA, net merchandise sales - constant currency and comparable net merchandise sales - constant currency because management believes these metrics are useful to investors and analysts by excluding items that we do not believe are indicative of our core operating performance. These measures are customary for our industry and commonly used by competitors. These non-GAAP financial measures should not be reviewed in isolation or considered as an alternative to any other performance measure derived in accordance with GAAP. In addition, adjusted net income per diluted share, adjusted EBITDA, net merchandise sales - constant currency and comparable net merchandise sales - constant currency may not be comparable to similarly titled measures used by other companies in our industry or across different industries. A reconciliation of these non-GAAP financial measures to the most comparable GAAP financial measures are included in the Appendix to this presentation.

Our Mission

PriceSmart exists to improve the lives and businesses of our Members, our employees and our communities through the responsible delivery of the best quality goods and services at the lowest possible prices. We aim to serve as a model company, which operates profitably and provides a good return to our investors, by providing Members in emerging and developing markets with exciting, high-quality merchandise sourced from around the world and valuable services at compelling prices in safe U.S.-style clubs and through PriceSmart.com. We prioritize the well-being and safety of our Members and employees. We provide good jobs, fair wages and benefits and opportunities for advancement. We strive to treat our suppliers right and empower them when we can, including both our regional suppliers and those from around the world. We try to conduct ourselves in a socially responsible manner as we endeavor to improve the quality of the lives of our Members and their businesses, while respecting the environment and the laws of all the countries in which we operate. We also believe in facilitating philanthropic contributions to communities in which we do business. We charge Members an annual membership fee that enables us to operate our business with lower margins than traditional retail stores. As we continue to invest in technological capabilities, we are increasing our tools to drive sales and operational efficiencies. We believe we are well positioned to blend the excitement and appeal of our brick-and-mortar business with the convenience and additional benefits of online shopping and services and, meanwhile, enhance Member experience and engagement.

Our Warehouse Club Membership Model

Low Prices: Offering the lowest possible selling price is the foundation of our warehouse club.

Limited SKUs (Stock Keeping Unit): Helping keep the guesswork out of item selection by only stocking the highest quality products.

Private Label, National, and International Brands: We offer our Members low prices on a limited selection of national, international, and private label brands. Private label allows Clubs to offer Members higher quality products at a lower price per unit.

Quality: Clubs choose to have high-quality products in inventory at the lowest possible price. This creates the value proposition that encourages a Member pay their Membership fee each year.

Treasure Hunt: Clubs occasionally feature unique items categorized as “special purchases” due to their limited availability in inventory. These items are secured through exclusive savings, which are passed on to Members.

Online Sales: Members can shop on PriceSmart.com or the mobile app from their phone or computer and enjoy home delivery or Club pickup without leaving their car.
