Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Summary of significant accounting policies

1.1. Description of business

CRH plc (the Company) is a multinational company that operates in the building materials industry, providing essential products and services for construction projects primarily in North America and Europe. The Company is one of the largest suppliers of building materials globally. The Company is a major producer of aggregates, cement, readymixed concrete, asphalt, paving and construction services, and value-added building products. The Company provides solutions to a wide range of customers, including contractors, builders, engineers, infrastructure developers, and the residential market.

1.2. Basis of presentation and use of estimates

The accompanying unaudited Condensed Consolidated Financial Statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP) for interim financial information and with the instructions to the Quarterly Report on Form 10-Q and in Article 10 of Regulation S-X. The Company has continued to follow the accounting policies set forth in the audited Consolidated Financial Statements and related notes thereto included in the Company's 2023 Form 10-K. In the opinion of our management, these statements reflect all adjustments, consisting of only normal recurring adjustments, necessary for a fair statement of our results of operations and financial condition for the periods and at the dates presented. Operating results for the three months ended March 31, 2024 are not necessarily indicative of the results that may be expected for the year ending December 31, 2024. The Condensed Consolidated Balance Sheet at December 31, 2023 has been derived from the audited Consolidated Financial Statements at that date but does not include all of the information and notes required by U.S. GAAP for complete financial statements. These Condensed Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and notes thereto included in the Company's 2023 Form 10-K.

The preparation of the Company's Condensed Consolidated Financial Statements requires management to make certain estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosures about contingent assets and liabilities and reported amounts of revenues and expenses. Such estimates include impairment of long-lived assets, impairment of goodwill, pension and other postretirement benefits, tax matters and litigation, including insurance and environmental compliance costs. These estimates and assumptions are based on management's judgment.

Estimates and underlying assumptions are reviewed on an ongoing basis. Changes in accounting estimates may be necessary if there are changes in the circumstances or experiences on which the estimate was based or as a result of new information.

Changes in estimates, including those resulting from changes in the economic environment, are reflected in the period in which the change in estimate occurs.

1.3. Restricted cash

The Company had restricted cash of \$ 6 million, \$ 6 million and \$ 5 million at March 31, 2024, December 31, 2023 and March 31, 2023, respectively, included within Cash and cash equivalents in the Condensed Consolidated Balance Sheets. The Company is restricted from utilizing the cash for purposes other than with government approval as it is linked to the awarding of government licenses for quarrying.

1.4. New accounting standards

Refer to note 1.25 in the 2023 Form 10-K for impacts of new accounting standards. There were no material impacts from the adoption of new accounting standards for the three months ended March 31, 2024.

2. Revenue

The Company disaggregates revenue based on its operating and reportable segments. The Company's reportable segments are: (1) Americas Materials Solutions, (2) Americas Building Solutions, (3) Europe Materials Solutions, and (4) Europe Building Solutions.

Revenue is disaggregated by principal activities and products. Business lines are reviewed and evaluated as follows: (1) Essential Materials, (2) Road Solutions, (3) Building & Infrastructure Solutions, and (4) Outdoor Living Solutions.

The vertically integrated *Essential Materials* businesses manufacture and supply aggregates and cement for use in a range of construction and industrial applications.

Road Solutions support the manufacturing, installation and maintenance of public highway infrastructure projects and commercial infrastructure.

Building & Infrastructure Solutions connect, protect and transport critical water, energy and telecommunications infrastructure and deliver complex commercial building projects.

Outdoor Living Solutions integrate specialized materials, products and design features to enhance the quality of private and public spaces.

(ii) Revenue from contracts with customers in the Building & Infrastructure Solutions principal activities and products category that is recognized over time for the three months ended March 31 were:

in \$ millions	2024	2023
Americas Building Solutions	23	16
Europe Building Solutions	132	149
Total revenue from contracts with customers	155	165

Contract assets were \$ 637 million, \$ 716 million and \$ 622 million and contract liabilities were \$ 430 million, \$ 439 million and \$ 337 million, at March 31, 2024, December 31, 2023 and March 31, 2023, respectively. The decrease in contract assets during the three months ended March 31, 2024 was primarily attributed to the timing of billings and retentions received. The decrease in contract liabilities during the three months ended March 31, 2024 was due to the timing of billings in excess of revenue recognized. The Company recognized revenue of \$ 265 million and \$ 191 million for the three months ended March 31, 2024, and March 31, 2023, respectively, which was previously included in the contract liability balance at December 31, 2023 and December 31, 2022, respectively.

Contract assets include unbilled revenue and retentions held by customers in respect of construction contracts at March 31, 2024, December 31, 2023 and March 31, 2023 amounting to \$ 416 million and \$ 221 million, \$ 471 million and \$ 245 million, and \$ 449 million and \$ 173 million, respectively. Unbilled receivables represent the estimated value of unbilled work for projects with performance obligations recognized over time. Retentions represent amounts that have been billed to customers but payment is withheld until final acceptance of the performance obligation by the customer. Retentions that have been billed, but are not due until completion of performance and acceptance by customers, are generally expected to be collected within one year. The Company applies the practical expedient and does not adjust any of its transaction prices for the time value of money.

On March 31, 2024, the Company had \$ 4,385 million of transaction price allocated to remaining performance obligations. The majority of open contracts at March 31, 2024 will close and revenue will be recognized within 12 months of the balance sheet date.

3. Assets held for sale and divestitures

In November 2023, the Company entered into a sales agreement with SigmaRoc plc. to divest of its Lime operations in Europe for consideration of \$ 1.1 billion. The transaction was structured in three phases. The first phase of the transaction, comprising the Company's Lime operations in Germany, Czech Republic and Ireland, closed on January 1, 2024 and the second phase comprising the operations in the United Kingdom, closed on March 27, 2024. The divestitures resulted in a pretax gain of \$ 115 million which was included in Other nonoperating income, net. The results of the divested operations and the gain on divestiture were reported in the Europe Materials Solutions segment. The third phase comprising the operations in Poland, is expected to close in the second half of 2024.

In December 2023, the Company entered into a sales agreement to dispose of certain of its cement and materials assets in Canada, which closed on April 1, 2024.

The Lime operations in Poland and the cement and materials assets in Canada comprise part of the Company's Europe Materials Solutions and Americas Materials Solutions segments, respectively, and the relevant assets and liabilities have accordingly been reclassified as assets and liabilities held for sale.

The major classes of assets and liabilities classified as held for sale were:

<i>in \$ millions</i>	March 31	December 31

4. Acquisitions

The Company strategically acquires companies in order to increase its footprint and offer products and services that enhance its existing offerings. These acquisitions are accounted for as business combinations using the acquisition method, whereby the purchase price is allocated to the assets acquired and liabilities assumed, based on their estimated fair values at the date of the acquisition with the remaining amount recorded in goodwill.

On February 9, 2024, the Company acquired a portfolio of cement and readymixed concrete assets and operations in Texas, United States (the 'Hunter' acquisition) for a total consideration of \$ 2,106 million.

During the three months ended March 31, 2024, the Company completed the acquisition of eight companies, each individually immaterial except for the aforementioned Hunter acquisition in the Americas Materials Solutions segment. The total cash consideration for these acquisitions net of cash acquired, was \$ 2,206 million. The estimated fair values of assets acquired and liabilities assumed are provisional and are based on the information that was available as of the acquisition dates. The Company expects to finalize the valuation and complete the purchase price allocations as soon as practical but no later than one year from the acquisition dates.

The provisional amounts for assets acquired, liabilities assumed, and consideration related to the acquisitions at March 31, 2024 were:

in \$ millions	Hunter	Other acquisitions (i)	Total

Cash consideration	2,106	100	2,206
Total outflow in the Condensed Consolidated Statements of Cash Flows	2,106	100	2,206

(i) Other acquisitions are aggregated on the basis of individual immateriality.

As a result of the 2024 acquisitions, the Company recognized \$ 20 million of amortizable intangible assets and \$ 1,025 million of goodwill. Goodwill represents the excess of the consideration paid over the fair value of net assets acquired and includes the expected benefit of cost savings and synergies within the Company's segments and intangible assets that do not qualify for separate recognition. Of the goodwill recognized in respect of the acquisitions completed in the three months ended March 31, 2024, \$ 980 million is expected to be deductible for tax purposes. The amortizable intangible assets will be amortized against earnings over a weighted average of eight years.

There have been no other acquisitions completed subsequent to the balance sheet date which would be individually material to the Company.

Acquisition-related costs

Acquisition-related costs have been included in Selling, general and administrative expenses in the Condensed Consolidated Statements of Income. These costs include legal and consulting expenses incurred in connection with acquisitions completed during the applicable period. The Company incurred the following acquisition-related costs:

(i) The \$ 300 million bond was issued in September 2003, and at the time of issuance the bond was partially swapped to floating interest rates. In August 2009 and December 2010, \$ 87 million of the issued notes were acquired by CRH plc as part of liability management exercises undertaken and the interest rate hedge was closed out. The remaining fair value hedge adjustment on the hedged item in the Condensed Consolidated Balance Sheets was \$ 29 million, \$ 30 million, and \$ 32 million at March 31, 2024, December 31, 2023, and March 31, 2023, respectively.

(ii) Of the Company's nominal fixed rate debt at March 31, 2024 and December 31, 2023, \$ 1,375 million, was hedged to daily compounded Secured Overnight Financing Rate (SOFR) using interest rate swaps. Of the Company's nominal fixed rate debt at March 31, 2023, \$ 1,782 million was hedged to a mix of U.S. Dollar London Interbank Offered Rate (LIBOR) and Euro Interbank Offered Rate (EURIBOR) floating rates using interest rate swaps.

(iii) Excludes borrowings from bank overdrafts of \$ 118 million, \$ 107 million and \$ 156 million, which are recorded within Current portion of long-term debt in the Condensed Consolidated Balance Sheets at March 31, 2024, December 31, 2023, and March 31, 2023, respectively.

Senior Notes:

The Senior Notes are issued by wholly owned subsidiaries of the Company and carry full and unconditional guarantees from the Company, as defined in the indentures that govern them. These Senior Notes represent senior unsecured obligations of the Company and hold an equal standing in payment priority with the Company's existing and future unsubordinated indebtedness.

The Senior Notes can be redeemed before their respective par call dates, with the exception of the 6.40 % Senior Notes due in 2033, at a make-whole redemption price. Post par call dates and before the respective maturity dates, the Senior Notes can be redeemed at a price equal to 100 % of the principal amount.

In the event of a change-of-control repurchase event, the Company is obligated to offer repurchase options for the 3.875 % Senior Notes due in 2025, 3.40 % Senior Notes due in 2027, 3.95 % Senior Notes due in 2028, 5.125 % Senior Notes due in 2045, 4.40 % Senior Notes due in 2047, and 4.50 % Senior Notes due in 2048. This repurchase involves a cash payment equal to 101 % of the principal amount, along with any accrued and unpaid interest.

If the Company's credit rating falls below investment-grade, the Company would be required to make an additional coupon step-up payment on the 3.875 % Senior Notes due in 2025 and 5.125 % Senior Notes due in 2045. The increase is 25 basis points per rating notch per agency, capped at 100 basis points per agency. However, this coupon step-up would reverse if the Company returns to an investment-grade rating.

On January 9, 2024 the Company utilized available cash to fully redeem € 600 million of outstanding 1.875 % euro Senior Notes due January 2024.

Philippines (PHP) Debt:

In March 2017, the Company's subsidiary, Republic Cement & Building Materials, Inc., entered a credit arrangement with the Bank of the Philippine Islands. The Company does not provide a guarantee for this facility. The initial credit agreement provided for total commitments of PHP 12.5 billion for a ten-year term, which was later expanded to PHP 22.5 billion. The funds drawn from this facility carry a combination of fixed and floating interest rates.

Bank Credit:

The Company maintains a multi-currency Revolving Credit Facility (the 'RCF') with a syndicate of lenders. The RCF offers a senior unsecured revolving facility of € 3,500 million over five years. Borrowings under the RCF bear interest at rates based upon an underlying base rate, plus a margin determined in accordance with a ratings-based pricing grid. Base rates include SOFR for U.S. Dollar, EURIBOR for euros, Sterling Overnight Index Average (SONIA) for Sterling, and Swiss Average Rate Overnight (SARON) for Swiss Francs, respectively. The facility entails an annual commitment fee calculated as a percentage of the applicable margin.

During April 2024, the Company completed a one-year extension option on the undrawn committed facilities extending the maturity date to May 11, 2029. The terms of the facility allow for one further plus-1 (+1) extension option which, if successfully exercised with the agreement of the Lenders, would extend the maturity to May 11, 2030. The deferred financing costs associated with the RCF were \$ 7 million at March 31, 2024. The total potential credit available through this arrangement is € 3,500 million, inclusive of the ability to issue letters of credit.

At March 31, 2024, December 31, 2023, and March 31, 2023, there were no outstanding borrowings or letters of credit issued under this facility and the undrawn committed facilities available to be drawn by the Company at March 31, 2024 were \$ 3,781 million (€ 3,500 million equivalent).

The RCF includes customary terms and conditions for investment-grade borrowers. There are no financial covenants.

At March 31, 2024, the Company had a \$ 2,000 million U.S. Dollar Commercial Paper Program and a € 1,500 million Euro Commercial Paper Program. In April 2024, the Company increased the size of its existing U.S. Dollar Commercial Paper Program to \$ 4,000 million. The purpose of these programs is to provide short-term liquidity as required. The Company's RCF supports the commercial paper programs with a separate € 750 million swingline sublimit which allows for same-day drawing in either euro or U.S. Dollar. The amount of commercial paper outstanding does not reduce available capacity under the RCF. Commercial paper borrowings may vary during the period, largely as a result of fluctuations in funding requirements.

The long-term debt maturities, net of the unamortized discounts and debt issuance costs, for the periods subsequent to March 31, 2024 are as follows:

in \$ millions	Remainder of 2024	2025	2026	2027	2028	2029 and thereafter	Total
Long-term debt maturities	2,874	1,219	814	1,431	1,516	4,700	12,554

10. Fair value measurement

Fair value is defined as the amount that would be received for selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and is measured using inputs in one of the following three categories:

Level 1 measurements are based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation of these items does not entail a significant amount of judgment.

Level 2 measurements are based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active or market data other than quoted prices that are observable for the assets or liabilities.

Level 3 measurements are based on unobservable data that are supported by little or no market activity and are significant to the fair value of the assets or liabilities.

Considerable judgment may be required in interpreting market data used to develop the estimates of fair value.

The carrying values of the Company's Long-term debt were \$ 12,554 million, \$ 11,535 million, and \$ 9,678 million at March 31, 2024, December 31, 2023, and March 31, 2023, respectively. The fair values of the Company's Long-term debt were \$ 12,244 million, \$ 11,337 million, and \$ 9,159 million at March 31, 2024, December 31, 2023, and March 31, 2023, respectively. The Company's Long-term debt obligations are Level 2 instruments whose fair value is derived from quoted market prices.

The redeemable noncontrolling interests included in the Condensed Consolidated Balance Sheets are marked to fair value on a recurring basis using Level 3 inputs. The redemption value of redeemable noncontrolling interests approximates the fair value and is based on a range of estimated potential outcomes of the expected payment amounts primarily dependent on underlying performance metrics. The unobservable inputs in the valuation include a discount rate determined using a Capital Asset Pricing Model methodology with ranges of between 6.54 % and 7.47 %.

See Note 17 for the changes in the fair value of redeemable noncontrolling interests.

The carrying values of the Company's Cash and cash equivalents, Accounts receivable, net, Current portion of long-term debt, Accounts payable, Accrued expenses, and Other current liabilities approximate their fair values because of the short-term nature of these instruments.

11. Income taxes

The Company's tax provision for the interim period is calculated using an estimated annual effective tax rate based on the expected full-year results which is applied to ordinary year-to-date income or loss. The tax provision is adjusted for discrete items that occur in the applicable interim period to arrive at the effective income tax rate.

The summary of the income tax benefit from operations was:

in \$ millions	Three months ended	
	March 31	
	2024	2023
Total tax benefit	(19)	(14)
Effective income tax rate	(19)%	36 %

The movement in the effective tax rate compared with the corresponding period in the prior year was primarily driven by the impact of the movement in tax provisions, a tax deduction for share-based compensation and the largely tax-exempt divestiture of phases one and two of the European Lime operations.

12. Earnings per share (EPS)

The calculation of basic and diluted earnings per share was as follows:

in \$ millions, except share and per share data	Three months ended	
	March 31	
	2024	2023
Numerator		
Net income (loss)	114	(31)
Net (income) attributable to redeemable noncontrolling interests	(2)	(2)

Earnings (loss) per share attributable to CRH plc		
Basic	\$ 0.16	(\$ 0.05)
Diluted	\$ 0.16	(\$ 0.05)

(i) The weighted average number of common shares included in the computation of basic and diluted earnings per share has been adjusted to exclude shares repurchased and held by the Company as Treasury Stock given that these shares do not rank for dividend.

(ii) Common shares that would only be issued contingent on certain conditions totaling 4,045,950 at March 31, 2024 are excluded from the computation of diluted earnings per share where the conditions governing exercisability have not been satisfied as of the end of the reporting period or they are antidilutive for the period presented. In periods of loss, shares that otherwise would have been included in the diluted weighted average common shares outstanding computation have been excluded. Due to the net loss for the three months ended March 31, 2023, contingently issuable common shares representing 6,928,751 , are excluded from the computation of diluted net loss per share as their inclusion would have been antidilutive .

13. Accumulated other comprehensive loss

The changes in the balances for each component of Accumulated other comprehensive loss, net of tax, were as follows:

14. Segment information

The Company has the following four reportable segments:

Americas Materials Solutions;
Americas Building Solutions;
Europe Materials Solutions; and
Europe Building Solutions.

The *Americas Materials Solutions* segment provides solutions for the construction and maintenance of public infrastructure and commercial and residential buildings in North America. The primary materials produced by this segment include aggregates, cement, readymixed concrete and asphalt. This segment also provides paving and construction services for customers.

The *Americas Building Solutions* segment manufactures, supplies and delivers solutions for the built environment in communities across North America. Our subsidiaries within this segment offer building and infrastructure solutions serving complex critical utility infrastructure (such as water, energy, transportation and telecommunications projects) and outdoor living solutions for enhancing private and public spaces.

The *Europe Materials Solutions* segment provides solutions for the construction of public infrastructure and commercial and residential buildings to customers in construction markets in Europe. The primary materials produced in this segment include aggregates, cement, readymixed concrete, asphalt and concrete products.

The *Europe Building Solutions* segment combines materials, products and services to produce a wide range of architectural and infrastructural solutions for use in the building and renovation of critical utility infrastructure, commercial and residential buildings, and outdoor living spaces. This business serves the growing demand across the construction value chain for innovative and value-added products and services.

The Company's reportable segments are the same as the Company's operating segments and correspond with how the Chief Operating Decision Maker (CODM) regularly reviews financial information to allocate resources and assess performance under the Company's organizational structure.

The CODM monitors the operating results of segments separately in order to allocate resources between segments and to assess performance. Segment performance is evaluated using Adjusted EBITDA. Given that Interest expense and Income tax benefit are managed on a centralized basis, these items are not allocated between operating segments for the purposes of the information presented to the CODM and are accordingly omitted from the detailed segmental analysis below. There are no asymmetrical allocations to reporting segments which would require disclosure.

Adjusted EBITDA is defined as earnings from continuing operations before interest, taxes, depreciation, depletion, amortization, loss on impairments, gain/loss on divestitures and unrealized gain/loss on investments, income/loss from equity method investments, substantial acquisition-related costs and pension expense/income excluding current service cost component.

The key performance measures for the Company's reportable segments were:

(i) Settlement gain of \$ 3 million relates to pension plans divested as part of the sale of the Company's Lime operations in Europe and is included in gain on divestitures, within Other nonoperating income, net.

(ii) Includes net periodic benefit cost of \$ 1 million and \$ 1 million related to OPEB plans for the three months ended March 31, 2024 and March 31, 2023, respectively.

(iii) Service cost is included within Cost of revenues and Selling, general and administrative expenses while all other cost components are recorded within Other nonoperating income, net.

16. Variable interest entities

The Company's operations in the Philippines are conducted through a Variable Interest Entity (VIE), wherein the Company holds 40 % of the equity share capital and a 55 % share of earnings and distributions. The remaining noncontrolling interest of 60 % equity share capital and 45 % share of earnings and distributions is held by an unrelated party. The Company's voting rights are not proportional to its share of earnings and distributions, and substantially all of the activities of the Philippines business are conducted on behalf of the Company and controlled by the Company through contractual relationships. Therefore, the Philippines business meets the definition of a VIE for which the Company is the primary beneficiary and, therefore, is consolidated.

Further, the Company has provided subordinated debt to the intermediate parent of the Philippines business which exposes the Company to the profits and losses of the Philippines business. The debt is repayable only where the shareholder agreement of the intermediate parent of the Philippines business is terminated or where the Company transfers its shares in the intermediate parent to an unrelated entity (i.e., the debt exposure of the Company becomes in substance a residual interest in the intermediate parent).

The carrying amounts of assets and liabilities of the consolidated VIE, reported within the Condensed Consolidated Balance Sheets before intragroup eliminations with other CRH plc companies were:

17. Redeemable noncontrolling interests

The redeemable noncontrolling interests comprises the noncontrolling interests in two of the Company's North American subsidiaries, that are currently redeemable. The Company has the ability to exercise the call option for the noncontrolling interests on or after December 31, 2031. In addition to the call options, the noncontrolling interest holder has the right to sell the noncontrolling interests to the Company, which are currently exercisable. These noncontrolling interests have put and call options and both are redeemable based on multiples of EBITDA. The noncontrolling interests are considered redeemable noncontrolling equity interests, classified as temporary or mezzanine equity, as their redemption is not solely within the Company's control. The noncontrolling interests were recorded at their respective fair values as of the acquisition dates and are adjusted to their expected redemption values, with an offsetting entry to retained earnings, as of the reporting date as if that date was the redemption date, if those amounts exceed their respective carrying values.

The following table summarizes the redeemable noncontrolling interest for the following periods:

18. Commitments and contingencies

Guarantees

The Company has given letters of guarantee to secure obligations of subsidiary undertakings as follows: \$ 12.4 billion, \$ 11.3 billion, and \$ 9.5 billion in respect of loans and borrowings, bank advances and derivative obligations at March 31, 2024, December 31, 2023 and March 31, 2023 respectively, and \$ 0.4 billion, \$ 0.4 billion, and \$ 0.4 billion at March 31, 2024, December 31, 2023 and March 31, 2023, respectively, in respect of letters of credit due within one year .

Legal Proceedings

The Company is not involved in any proceedings that it believes could reasonably be expected to have a material adverse effect on the Company's financial condition, results of operations or liquidity.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Introduction

Our Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to convey management's perspective regarding operational and financial performance for the three months ended March 31, 2024. This MD&A should be read in conjunction with the unaudited Condensed Consolidated Financial Statements and related notes appearing in Part I, Item 1. "Financial Statements" of this Quarterly Report.

The following discussion contains trend information and forward-looking statements. Actual results could differ materially from those discussed in or implied by these forward-looking statements, as well as from our historical performance, due to various factors, including those discussed elsewhere in this Quarterly Report, particularly "Forward-Looking Statements," and Item 1A. "Risk Factors" in our 2023 Form 10-K and in our other filings with the SEC. Our operating results depend upon economic cycles, seasonal and other weather-related conditions, and trends in government expenditures, among other factors. Accordingly, financial results for any financial period presented, or period-to-period comparisons of reported results, may not be indicative of future operating results.

Overview

CRH is a leading provider of building materials solutions that build, connect and improve our world. Since formation in 1970, CRH has evolved from being a supplier of base materials to providing end-to-end value-added solutions that solve complex construction challenges for our customers. CRH works closely with customers across the entire project lifecycle from planning, design, manufacture, installation and maintenance through to end-of-life recycling, using our engineering and innovation expertise to provide superior materials, products and services.

The Company integrates essential materials (aggregates and cement), value-added building products and construction services to provide our customers with complete end-to-end solutions. CRH's capabilities, innovation and technical expertise enable it to be a valuable partner for transportation and critical utility infrastructure projects, complex non-residential construction and outdoor living solutions.

Operating in 28 countries, the Company has market leadership positions in North America and Europe. The United States is expected to be a key driver of future growth for CRH due to continued economic expansion, a growing population and significant public investment in construction. Our European business, which benefits from strong economic and construction growth prospects across Central and Eastern Europe as well as recurring repair and remodel demand in Western Europe, is an important strategic part of the Company and CRH intends to continue to expand its operations across the region. In both geographies there is significant government support for infrastructure and increasing demand for integrated solutions in major infrastructure and commercial projects.

CRH has a proven track record in value creation through acquisitions which over the last decade has accounted for approximately two-thirds of the Company's growth. We achieve this by acquiring businesses at attractive valuations and creating value by integrating them with our existing operations and generating synergies. The Company takes an active approach to portfolio management and continuously reviews the competitive landscape for attractive investment and divestiture opportunities to deliver further growth and value creation for shareholders.

Seasonality

Activity in the construction industry is dependent to a considerable extent on the seasonal impact of weather on the Company's operating locations, with periods of higher activity in some markets during spring and summer which may reduce significantly in winter due to inclement weather. In addition to impacting demand for our products and services, adverse weather can negatively impact the production processes for a variety of reasons. For example, workers may not be able to work outdoors in sustained high temperatures and heavy rainfall and/or other unfavorable weather conditions. Therefore, financial results for any particular quarter do not necessarily indicate the results expected for the full year.

Financial performance highlights

CRH delivered a stronger first quarter performance compared to the first quarter of 2023, resulting in the following performance highlights for the three months ended March 31, 2024 (comparisons are versus the prior year's first quarter unless otherwise noted):

- Total revenues increased 2% to \$6.5 billion;
- Net income was \$114 million compared with a net loss of \$31 million. Adjusted EBITDA* was \$445 million, an increase of \$59 million, or 15%;
- Net income margin was 1.7% compared with a net loss margin of 0.5%. Adjusted EBITDA margin* was 6.8%, an increase of 80 basis points (bps) on the prior year's first quarter Adjusted EBITDA margin* of 6.0%; and
- Basic Earnings Per Share (EPS) was \$0.16 compared to a loss per share of \$0.05

Capital allocation highlights

- Cash paid to shareholders through dividends was \$0.8 billion, compared with \$nil in the prior year first quarter. CRH transitioned to quarterly dividends during the first quarter of 2024, with a quarterly dividend of \$0.35 per share declared in February 2024, and a second quarterly dividend of \$0.35 per share, representing an annualized increase of 5% on the prior year, announced on May 10, 2024;
- Cash returned to shareholders through share buybacks was \$0.4 billion, an increase of \$0.1 billion versus the prior year first quarter. On May 9, 2024, the latest tranche of the share buyback program was completed, bringing the year-to-date cash returned to \$0.6 billion. A further tranche has been announced, extending the ongoing share buyback program by an additional \$0.3 billion tranche to be completed no later than August 7, 2024; and
- Eight acquisitions were completed for total consideration of \$2.2 billion, compared with \$0.2 billion in the first quarter of the prior year. A further \$0.5 billion was invested in development and replacement capital expenditure projects, compared with \$0.3 billion for the comparable 2023 period.

* Represents a non-GAAP measure. See the discussion within 'Non-GAAP Reconciliation and Supplementary Information' on pages 28 to 29.

Development Review

In the three months ended March 31, 2024, CRH completed eight acquisitions for a total consideration of \$2.2 billion, compared with \$0.2 billion in the first quarter of 2023. The largest acquisition in the first quarter of 2024 was in our Americas Materials Solutions segment where the Company completed the acquisition of a portfolio of cement and readymixed concrete assets and operations in Texas for a total consideration of \$2.1 billion. In addition, Americas Materials Solutions completed a further two acquisitions, Americas Building Solutions completed three acquisitions, and Europe Materials Solutions completed two acquisitions, for a total first quarter 2024 spend of \$2.2 billion. On April 5, 2024, the Company also acquired a materials solutions business, including two hard rock quarries, in California. The acquisition represents an attractive entry point into California for Americas Materials Solutions, particularly due to its long-lived hard rock reserves and vertically integrated asphalt and readymixed concrete operations.

With respect to divestitures, CRH realized proceeds from divestitures and disposals of long-lived assets of \$0.7 billion, primarily related to the completed divestiture of phases one and two of its European Lime operations. The Lime transaction was structured in three phases with two phases of the divestiture, comprising CRH's Lime operations in Germany, Czech Republic, Ireland and the United Kingdom, completed in the three months ended March 31, 2024. The remaining phase, consisting of operations in Poland, is expected to complete in the second half of 2024. In the prior year, no divestitures occurred in the first quarter.

Full Year Outlook

The Company expects a favorable market backdrop and continued positive pricing momentum in 2024. Our operations in North America are expected to benefit from significant infrastructure activity in our markets and increased investment in key non-residential segments, while in Europe, we expect good underlying demand in infrastructure and key non-residential markets, further supported by disciplined cost control. Residential construction, particularly new-build activity, is expected to remain subdued across our markets in the near-term. Assuming normal seasonal weather patterns and no major dislocations in the macroeconomic environment, CRH remains well positioned for another year of growth in 2024.

Results of Operations

Revenues are derived from a range of products and services across four segments. The Materials Solutions segments in Americas and Europe utilize an extensive network of reserve-backed quarry locations to produce and supply a range of materials including aggregates, cement, readymixed concrete and asphalt, as well as providing paving and construction services. The Americas and Europe Building Solutions segments manufacture, supply and deliver high quality building products and solutions.

The table below summarizes the Company's unaudited Condensed Consolidated Statements of Income for the periods indicated.

Total revenues

Total revenues were \$6.5 billion for the three months ended March 31, 2024, an increase of \$0.1 billion, or 2%, compared with the first quarter of 2023, reflecting continued pricing progress and contributions from acquisitions offsetting lower volumes in Europe in the seasonally least significant quarter for the Company.

In Americas Materials Solutions total revenues increased by 16%, with total revenues in Essential Materials and Road Solutions increasing by 12% and 19%, respectively. In Americas Building Solutions total revenues increased by 2%, with total revenues in Building & Infrastructure Solutions decreasing by 4% and total revenues in Outdoor Living Solutions increasing by 5%.

In Europe Materials Solutions total revenues decreased by 8%, with total revenues in Essential Materials finishing 10% behind the three months ended March 31, 2023, while Road Solutions total revenues were 5% behind. In Europe Building Solutions total revenues decreased by 10%, with total revenues in Building & Infrastructure Solutions decreasing by 12%, while total revenues in Outdoor Living Solutions were 2% ahead.

For additional discussion on segment revenues, see "Segments" section on pages 26 to 27.

Gross profit

Gross profit for the three months ended March 31, 2024, was \$1.8 billion, an increase of \$0.2 billion, or 12%, from the same period in 2023, reflecting total revenues growth of 2%, with total cost of revenues decreasing by 2%. The gross profit margin of 27.7% increased 250bps from 25.2% for the first quarter of the prior year. Total cost of revenues decreased primarily as a result of energy costs decreasing 26% due to the impact of divestitures, lower volumes and a decline in energy prices, and lower volumes resulting in raw material costs reducing 5%. These cost decreases were partially offset by labor and subcontractor costs increases of 5% and 12%, respectively.

Selling, general and administrative expenses

Selling, general and administrative (SG&A) expenses, which are primarily comprised of haulage costs, labor costs, and other selling and administration expenses, were \$1.8 billion in the first quarter of 2024, an increase of \$0.2 billion, or 10%, from the comparable 2023 period. The increase in SG&A expenses primarily reflects labor cost increases of 12%, as a result of increased headcount and wage inflation; partially offset by lower haulage costs which decreased 3% compared with 2023 as a result of lower volumes.

Gain on disposal of long-lived assets

Gain on disposal of long-lived assets was \$8 million in the three months ended March 31, 2024, an increase of \$3 million compared with 2023.

Interest income

Interest income was \$43 million for the three months ended March 31, 2024, an increase of \$3 million on the comparable period in 2023.

Interest expense

Interest expense was \$133 million in the three months ended March 31, 2024, an increase of \$52 million from the comparable period in 2023. The increase was primarily due to an increase in gross debt balances and higher interest rates on new debt issued.

Other nonoperating income, net

Other nonoperating income, net, was \$161 million in the three months ended March 31, 2024, compared with \$nil in the comparable period for 2023. Other nonoperating income, net, includes pension and postretirement benefit costs (excluding service costs), gains and losses from divestitures, and other miscellaneous income and expenses. The increase in other nonoperating income, net was primarily related to gains on the completed divestiture of phases one and two of the European Lime operations, and unrealized gains on certain investments.

Income tax

In the three months ended March 31, 2024, the Company had an income tax benefit of \$19 million, compared to \$14 million for the comparable period in 2023. The effective tax rate was (19)% for the first quarter in 2024 compared with an effective tax rate of 36% for the first quarter in 2023. The movement in the effective tax rate was primarily driven by the impact of the movement in tax provisions, a tax deduction for share-based compensation and the largely tax-exempt divestiture of phases one and two of the European Lime operations.

Loss from equity method investments

In the three months ended March 31, 2024, a loss of \$4 million was recorded in equity method investments, a decrease of \$2 million from the comparable period in 2023.

Net income (loss)

Net income was \$114 million for the three months ended March 31, 2024, an increase of \$145 million from the comparable period in 2023. This result was primarily driven by higher gross profit and other nonoperating income, net, which offset higher SG&A and interest expenses compared with the first quarter of 2023.

Net income (loss) attributable to CRH plc and earnings per share

Net income attributable to CRH plc was \$116 million for the three months ended March 31, 2024, an increase of \$144 million from the comparable period in 2023. The increase in net income attributable to CRH plc was driven by increased net income of \$145 million and a decreased net loss attributable to noncontrolling interests of \$1 million. Basic EPS for the three months ended March 31, 2024, was \$0.16, compared with a loss per share of \$0.05 for the three months ended March 31, 2023.

Segments

CRH is organized through four reportable segments across two divisions. CRH's Americas Division comprises two segments: Americas Materials Solutions and Americas Building Solutions; and CRH's Europe Division comprises the other two segments: Europe Materials Solutions and Europe Building Solutions.

Within CRH's segments, revenue is disaggregated by principal activities and products. Business lines are reviewed and evaluated as follows: (1) Essential Materials, (2) Road Solutions, (3) Building & Infrastructure Solutions, and (4) Outdoor Living Solutions. The vertically integrated Essential Materials businesses manufacture and supply aggregates and cement for use in a range of construction and industrial applications. Road Solutions support the manufacturing, installation and maintenance of public highway infrastructure projects and commercial infrastructure. Building & Infrastructure Solutions connect, protect and transport critical water, energy and telecommunications infrastructure and deliver complex commercial building projects. Outdoor Living Solutions integrate specialized materials, products and design features to enhance the quality of private and public spaces.

The Company's measure of segment profit is Adjusted EBITDA, which is defined as earnings from continuing operations before interest, taxes, depreciation, depletion, amortization, loss on impairments, gain/loss on divestitures and unrealized gain/loss on investments, income/loss from equity method investments, substantial acquisition-related costs and pension expense/income excluding current service cost component.

Americas Materials Solutions

in \$ millions	Analysis of Change						31, 2024	% change
	Three months ended March		Acquisitions	Divestitures	Organic	Three months ended March		
	31, 2023	Currency				31, 2024		
Total revenues	1,895	-	+69	-	+238	2,202	+16%	
Adjusted EBITDA	(35)	-	+25	-	+25	15	n/m ¹	
Adjusted EBITDA margin	(1.8)%						0.7%	

Americas Materials Solutions' total revenues were 16% ahead of the first quarter of 2023 in a seasonally small quarter, driven primarily by price increases, higher volumes across all lines of business and a positive contribution from acquisitions, including the acquisition of cement and readymixed concrete assets in Texas which closed in early February 2024. Organic total revenues* were 13% ahead.

In Essential Materials, total revenues increased by 12%. This reflects an 8% increase in aggregates pricing which was adversely impacted by geographic mix and a 9% increase in cement pricing. Aggregates volumes increased by 8% and cement volumes increased by 6%, due to favorable weather in the West and Great Lakes regions which enabled early commencement of projects, together with the positive impact from acquisitions.

In Road Solutions, total revenues increased by 19% driven by higher pricing and increased activity levels through continued funding support relating to the Infrastructure Investment and Jobs Act. Asphalt prices increased by 5% while volumes were 11% ahead of the comparable period in 2023 due to favorable weather in key regions and early-season project activity. Paving and construction revenues for the first quarter of 2024 increased by 20%. Readymixed concrete pricing was 8% higher than the first quarter of 2023, while volumes were 9% ahead. We have seen continued positive momentum in bidding activity, with construction backlog ahead of the prior year comparable period.

First quarter 2024 Adjusted EBITDA for Americas Materials Solutions of \$15 million was ahead of the first quarter of 2023 as increased pricing and operational efficiencies mitigated the impact of higher labor, subcontractor and raw materials costs. Organic Adjusted EBITDA* was ahead of the first quarter of 2023. Adjusted EBITDA margin increased by 250bps.

Americas Building Solutions

in \$ millions	Analysis of Change						31, 2024	% change

Adjusted EBITDA	301	-	+5	-	+2	308	+2%	
Adjusted EBITDA margin	18.1%						18.2%	

Americas Building Solutions recorded total revenues growth of 2%, driven by positive acquisition performance and increased pricing. Organic total revenues* were in line with the first quarter of 2023.

In Building & Infrastructure Solutions, total revenues declined by 4% due to unfavorable weather in certain markets as well as the impact of subdued residential demand which negatively impacted activity levels. The non-residential and infrastructure construction backdrop remains supported through increased funding for critical water, energy and telecommunications infrastructure.

In Outdoor Living Solutions, total revenues increased by 5%, with growth across most regions, driven by strong sales into the retail channel, particularly in lawn and garden products, along with increased demand in the professional business channel.

First quarter 2024 Adjusted EBITDA for Americas Building Solutions was 2% ahead of the comparable period in 2023, 1% ahead on an organic* basis, driven by higher pricing and cost containment initiatives which offset the impact of lower volumes and cost inflation, particularly in labor. As a result, Adjusted EBITDA margin was 10bps ahead of the first quarter of 2023.

Adjusted EBITDA	68	+1	+4	(24)	+41	90	+32%
Adjusted EBITDA margin	3.1%						4.5%

Total revenues in Europe Materials Solutions declined by 8%, or 5% on an organic* basis, driven by lower volumes across Western Europe, partly offset by volume growth in Central and Eastern Europe and continued pricing progress.

In Essential Materials, total revenues were 10% behind the comparable period in 2023 due to the completed divestiture of phases one and two of our European Lime operations and lower volumes. Aggregates pricing was 3% ahead and overall cement pricing, which was adversely impacted by geographic mix, was in line with the first quarter of 2023, or 2% ahead excluding the Philippines. Aggregates volumes declined by 6% while cement volumes were 2% behind due to lower activity levels, particularly in Western Europe which was impacted by unfavorable weather in several key markets. This was partly offset by volume growth in Central and Eastern Europe.

In Road Solutions, pricing progress was offset by reduced volumes due to adverse weather which resulted in total revenues being 5% behind the 2023 comparable period. Asphalt pricing increased by 1%, while volumes declined by 9%. Paving and construction revenues decreased by 3%. Readymixed concrete pricing was in line with the first quarter of 2023, while volumes decreased by 13%.

Adjusted EBITDA in Europe Materials Solutions was \$90 million, 32% ahead of the comparable period in 2023, and 59% ahead on an organic* basis, primarily driven by increased pricing, lower energy costs and operational efficiencies. Adjusted EBITDA margin increased by 140bps compared with the first quarter of 2023.

Adjusted EBITDA margin	7.5%						5.1%

Total revenues in Europe Building Solutions declined by 10%, or 12% on an organic* basis, versus the first quarter of 2023, with subdued new-build residential activity continuing in the first quarter of 2024.

Within Building & Infrastructure Solutions, total revenues declined by 12% compared with the first quarter of 2023. Infrastructure Products revenues increased, benefiting from acquisitions offsetting lower activity levels and project delays in key markets. Revenues in Precast and Construction Accessories were negatively impacted by adverse weather conditions and muted new-build residential activity in several markets.

Revenues in Outdoor Living Solutions were 2% ahead of the comparable period in 2023 through pricing increases, however volumes were impacted by prolonged winter weather in certain key markets.

Adjusted EBITDA in Europe Building Solutions declined by 38% versus the comparable prior year period, a 40% decrease on an organic* basis. Organic volume declines were partially offset by disciplined commercial management, cost saving initiatives and lower raw materials costs. Adjusted EBITDA margin decreased by 240bps compared with the first quarter of 2023.

* Represents a non-GAAP measure. See the discussion within 'Non-GAAP Reconciliation and Supplementary Information' on pages 28 to 29.

Non-GAAP Reconciliation and Supplementary Information

CRH uses a number of non-GAAP performance measures to monitor financial performance. These measures are referred to throughout the discussion of our reported financial position and operating performance on a continuing operations basis unless otherwise defined and are measures which are regularly reviewed by CRH management. These performance measures may not be uniformly defined by all companies and accordingly may not be directly comparable with similarly titled measures and disclosures by other companies.

Certain information presented is derived from amounts calculated in accordance with U.S. GAAP but is not itself an expressly permitted GAAP measure. The non-GAAP performance measures as summarized below should not be viewed in isolation or as an alternative to the equivalent GAAP measure.

Adjusted EBITDA: Adjusted EBITDA is defined as earnings from continuing operations before interest, taxes, depreciation, depletion, amortization, loss on impairments, gain/loss on divestitures and unrealized gain/loss on investments, income/loss from equity method investments, substantial acquisition-related costs and pension expense/income excluding current service cost component. It is quoted by management in conjunction with other GAAP and non-GAAP financial measures to aid investors in their analysis of the performance of the Company. Adjusted EBITDA by segment is monitored by management in order to allocate resources between segments and to assess performance. *Adjusted EBITDA margin* is calculated by expressing Adjusted EBITDA as a percentage of total revenues.

Reconciliation to its nearest GAAP measure is presented below:

<i>in \$ millions</i>	Three months ended	
	March 31	2023
Net income (loss)	114	(31)
Loss from equity method investments	4	6

Adjusted EBITDA	445	386
 Total revenues	6,533	6,427
Net income (loss) margin	1.7%	(0.5)%
Adjusted EBITDA margin	6.8%	6.0%

(i) Gain on divestitures and unrealized gains on investments and pension income excluding current service cost component have been included in Other nonoperating income, net in the Condensed Consolidated Statements of Income.

(ii) Represents expenses associated with non-routine substantial acquisitions, which are not bolt-on in nature and are separately reported in Note 4 "Acquisitions" of the unaudited financial statements. Expenses in the first quarter of 2024 include legal and consulting expenses related to the acquisition of the portfolio of cement and readymixed concrete assets and operations in Texas.

Net Debt: Net Debt is used by management as it gives additional insight into the Company's current debt position less available cash. Net Debt is provided to enable investors to see the economic effect of gross debt, related hedges and cash and cash equivalents in total. Net Debt comprises short and long-term debt, finance lease liabilities, cash and cash equivalents and current and noncurrent derivative financial instruments (net).

Reconciliation to its nearest GAAP measure is presented below:

<i>in \$ millions</i>	March 31	December 31	March 31
	2024	2023	2023
Short and long-term debt	(12,672)	(11,642)	(9,834)
Cash and cash equivalents (i)	3,309	6,390	4,650

Derivative financial instruments (net)	(92)	(37)	(32)
Net Debt	(9,600)	(5,406)	(5,301)

(i) Cash and cash equivalents at March 31, 2024, includes \$1 million cash and cash equivalents reclassified as held for sale. Cash and cash equivalents at December 31, 2023 includes \$49 million cash and cash equivalents reclassified as held for sale.

Organic Revenue and Organic Adjusted EBITDA: CRH pursues a strategy of growth through acquisitions and investments, with total consideration spent on acquisitions and investments of \$2.2 billion in the three months ended March 31, 2024, compared with \$0.2 billion for the same period in 2023. Acquisitions completed in 2023 and the first quarter of 2024 contributed incremental total revenues of \$140 million and Adjusted EBITDA of \$35 million for the three months ended March 31, 2024. Cash proceeds from divestitures and disposals of long-lived assets amounted to \$0.7 billion for the three months ended March 31, 2024, compared with \$6 million for the three months ended March 31, 2023. The total revenues impact of divestitures was a negative \$(117) million and the impact at an Adjusted EBITDA level was a negative \$(24) million.

The U.S. Dollar weakened against most major currencies during the three months ended March 31, 2024, from the comparable period in 2023, resulting in an overall positive currency exchange impact.

Because of the impact of acquisitions, divestitures, currency exchange translation and other non-recurring items on reported results each reporting period, CRH uses organic revenue and organic Adjusted EBITDA as additional performance indicators to assess performance of pre-existing (also referred to as underlying, heritage, like-for-like or ongoing) operations each reporting period.

Organic revenue and organic Adjusted EBITDA are arrived at by excluding the incremental revenue and Adjusted EBITDA contributions from current and prior year acquisitions and divestitures, the impact of exchange translation, and the impact of any one-off items. In the Part I, Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations" section on pages 26 and 27, changes in organic revenue and organic Adjusted EBITDA are presented as additional measures of revenue and Adjusted EBITDA to provide a greater understanding of the performance of the Company. Organic change % is calculated by expressing the organic movement as a percentage of the prior year reporting period (adjusted for currency exchange effects). A reconciliation of the changes in organic revenue and organic Adjusted EBITDA to the changes in total revenues and Adjusted EBITDA by segment, is presented with the discussion within each segment's performance in tables contained in the segment discussion in Part I, Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations" commencing on page 23.

Liquidity and Capital Resources

The Company's primary source of incremental liquidity is cash flows from operating activities, which combined with the cash and cash equivalents balance, the U.S. Dollar and Euro Commercial Paper Programs, and committed credit lines, is expected to be sufficient to meet the Company's working capital needs, capital expenditures, dividends, share repurchases, upcoming debt maturities, and other liquidity requirements associated with our operations for the foreseeable future. In addition, the Company believes that it will have the ability to fund additional acquisitions via cash flows from internally available cash, cash flows from operating activities and, subject to market conditions, via obtaining additional borrowings and/or issuing additional debt or equity securities.

Total short and long-term debt was \$12.7 billion at March 31, 2024, compared with \$11.6 billion at year-end 2023, and \$9.8 billion at March 31, 2023. In the three months ended March 31, 2024, \$1.8 billion of commercial paper was issued across the U.S. Dollar and Euro Commercial Paper Programs. In January 2024, €600 million of euro-denominated notes were repaid on maturity. Net Debt* at March 31, 2024, was \$9.6 billion, compared with \$5.4 billion at December 31, 2023, and \$5.3 billion at March 31, 2023. The increase in Net Debt* compared with December 31, 2023, reflects outflows from operating activities, the significant acquisition of a portfolio of cement and readymixed concrete assets and operations in Texas, cash returns to shareholders through dividends and continued share buybacks, and the purchase of property, plant and equipment, partially offset by proceeds from the completed divestiture of phases one and two of the European Lime operations.

CRH continued its ongoing share buyback program in the first quarter of 2024 repurchasing approximately five million ordinary shares for a total consideration of \$0.4 billion and the Company is commencing an additional \$0.3 billion tranche to be completed no later than August 7, 2024. The Company also made cash dividend payments of \$0.8 billion in the first quarter of 2024.

Other than items updated in this Quarterly Report, the nature and composition of the Company's material cash requirements, which include debt service and related interest payments, operating lease obligations, share repurchase commitments and other purchase obligations arising in the normal course of business, have not materially changed from those disclosed in the 2023 Form 10-K.

Cash flows

At March 31, 2024, CRH had cash and cash equivalents of \$3.3 billion compared with \$4.7 billion at March 31, 2023.

At March 31, 2024, CRH had outstanding total short and long-term debt of \$12.7 billion compared with \$9.8 billion at March 31, 2023. Total lease liabilities were \$1.5 billion compared with \$1.3 billion at March 31, 2023.

At March 31, 2024, CRH had \$3.8 billion of undrawn committed facilities which were available until May 2028. During April 2024, the Company completed a one-year extension option on the undrawn committed facilities extending the maturity date to May 2029. Also during April 2024, the U.S. Dollar Commercial Paper Program was increased from \$2.0 billion to \$4.0 billion. At March 31, 2024, CRH had sufficient cash balances to meet all maturing debt obligations for the next 1.3 years and the weighted average maturity of the remaining term debt was 7.8 years.

Cash flows from operating activities

in \$ millions	Three months ended	
	2024	2023
Net cash used in operating activities	(712)	(671)

The seasonal impact on the Company's operations disproportionately negatively impacts the quarterly operating cash flow results when compared with the full year. Net cash used in operating activities was \$0.7 billion for the three months ended March 31, 2024, broadly in line with the same period in 2023. The increase in net cash used in operating activities was primarily due to adjustments relating to gains on disposals from businesses and long-lived assets and deferred tax, offsetting an increase in net income of \$0.1 billion and lower outflows related to working capital.

Cash flows from investing activities

in \$ millions	Three months ended	
	March 31	
	2024	2023
Net cash used in investing activities	(2,096)	(492)

Net cash used in investing activities was \$2.1 billion for the three months ended March 31, 2024, compared to \$0.5 billion in the same period for 2023, an increase of \$1.6 billion. During the three months ended March 31, 2024, the Company invested \$2.2 billion on acquisitions, an increase of \$2.0 billion on the same period in 2023. This outflow was partially offset by proceeds from divestitures and disposals of long-lived assets of \$0.7 billion, primarily related to the completed divestiture of phases one and two of the European Lime operations. Further to this, capital expenditure totaled \$0.5 billion in the first quarter of 2024, resulting in an increased outflow of \$0.2 billion versus the comparable prior year period.

Cash flows from financing activities

in \$ millions	Three months ended	
	March 31	
	2024	2023
Net cash used in financing activities	(176)	(191)

Net cash used in financing activities was \$0.2 billion for the three months ended March 31, 2024, in line with the prior year. Net inflows from debt issuances were \$1.8 billion compared to \$0.1 billion for the first quarter of 2023, an increase of \$1.7 billion, which was primarily related to the issuance of \$1.8 billion under the Company's U.S. Dollar and Euro Commercial Paper Programs in the first quarter of 2024. Offsetting the inflow in the first quarter of 2024 was a repayment of debt of \$0.7 billion, which was the repayment of a €600 million euro-denominated bond on maturity in January 2024. The first quarter of 2024 also saw the payment of the final dividend for 2023 of \$0.8 billion, with no similar payment in the comparable prior year period. Outflows related to the purchases of common stock were \$0.6 billion in the first quarter of 2024 compared to \$0.2 billion for the same period in 2023.

Debt Facilities

The following section summarizes certain material provisions of our debt facilities and long-term debt obligations. The following description is only a summary, does not purport to be complete and is qualified in its entirety by reference to the documents governing such indebtedness (available in the Investors section on www.crh.com).

At March 31, 2024, we expect maturities for the next three quarters as follows:

2024 Debt Maturities

Second Quarter (i)	\$2.9 billion
Third Quarter	-
Fourth Quarter	-

(i) Of which \$2.8 billion is related to the U.S. Dollar and Euro Commercial Paper Programs.

Unsecured Senior Notes

The main sources of Company debt funding are public bond markets in North America and Europe. See Note 9 "Debt" in Part I, Item 1. "Financial Statements" for further details regarding our debt obligations. A €600 million euro-denominated bond was repaid on maturity in January 2024 from existing cash resources.

Revolving Credit Facilities

The Company manages its borrowing ability by entering into committed borrowing agreements. The Company's multi-currency RCF, dated May 2023, is made available from a syndicate of lenders, consisting of a €3.5 billion unsecured, revolving loan facility. During April 2024, the Company completed a one-year extension option on the undrawn committed facilities extending the maturity date to May 11, 2029. See Note 9 "Debt" in Part I, Item 1. "Financial Statements" for further details regarding the RCF. At March 31, 2024, the RCF was undrawn.

Guarantees

The Company has given letters of guarantee to secure obligations of subsidiary undertakings as follows: \$12.4 billion in respect of loans and borrowings, bank advances and derivative obligations, and \$0.4 billion in respect of letters of credit due within one year at March 31, 2024.

Commercial Paper Programs

As at March 31, 2024, the Company had a \$2.0 billion U.S. Dollar Commercial Paper Program and a €1.5 billion Euro Commercial Paper Program. In April 2024, the Company increased the size of its existing U.S. Dollar Commercial Paper Program to \$4.0 billion, providing added flexibility to support the Company's short-term liquidity needs. As at March 31, 2024, there was \$1.9 billion of outstanding issued notes on the U.S. Dollar Commercial Paper Program and \$0.9 billion of outstanding issued notes on the Euro Commercial Paper Program. The purpose of these programs is to provide short-term liquidity as required.

Off-Balance Sheet Arrangements

CRH does not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on CRH's financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that may be material to investors.

Debt Ratings

Our debt ratings and outlooks at March 31, 2024, were as follows:

	Short-Term	Long-Term	Outlook
S&P	A-2	BBB+	Stable
Moody's	P-2	Baa1	Stable
Fitch	F1	BBB+	Stable

Contractual Obligations

An analysis of the maturity profile of debt, leases capitalized, purchase obligations, deferred and contingent acquisition consideration and pension scheme contribution commitments at March 31, 2024, is as follows:

Payments due by period <i>in \$ millions</i>	Total	Less than 1 year	2-3 years	4-5 years	More than 5 years
Short and long-term debt (i)	12,762	3,000	2,377	2,689	4,696
Lease liabilities (ii)	1,949	297	467	296	889
Estimated interest payments on contractually committed debt (iii)	3,370	457	669	499	1,745
Deferred and contingent acquisition consideration	29	21	5	1	2
Purchase obligations (iv)	2,234	1,274	527	197	236
Retirement benefit obligation commitments (v)	20	3	6	5	6
Total (vi)	20,364	5,052	4,051	3,687	7,574

(i) Of the \$12.8 billion total gross debt, \$0.1 billion is drawn on revolving facilities which may be repaid and redrawn up to the date of maturity.

(ii) Lease liabilities are presented on an undiscounted basis.

(iii) These interest payments have been estimated on the basis of the following assumptions: (a) no change in variable interest rates; (b) no change in exchange rates; (c) that all debt is repaid as if it falls due from future cash generation; and (d) that none is refinanced by future debt issuance.

(iv) Purchase obligations include contracted-for capital expenditure. These expenditures for replacement and new projects are in the ordinary course of business and will be financed from internal resources.

(v) These retirement benefit commitments comprise the contracted payments related to our pension schemes in the United Kingdom.

(vi) Over the long term, CRH believes that our available cash and cash equivalents, cash from operating activities, along with the access to borrowing facilities will be sufficient to fund our long-term contractual obligations, maturing debt obligations and capital expenditures.

Supplemental Guarantor Information

Guarantor Financial Information

As of March 31, 2024, CRH plc (the 'Guarantor') has fully and unconditionally guaranteed registered debt securities issued by CRH America, Inc. (the 'Issuer'), comprising U.S. \$300 million 6.40% Notes due 2033 – listed on NYSE (i) (the 'Notes').

Forward-Looking Statements

In order to utilize the "Safe Harbor" provisions of the United States Private Securities Litigation Reform Act of 1995, CRH is providing the following cautionary statement.

This document, and the documents incorporated by reference herein, contain statements that are, or may be deemed to be, forward-looking statements with respect to the financial condition, results of operations, business, viability, and future performance of CRH and certain of the plans and objectives of CRH. These forward-looking statements may generally, but not always, be identified by the use of words such as "will", "anticipates", "should", "could", "would", "targets", "aims", "may", "continues", "expects", "is expected to", "estimates", "believes", "intends" or similar expressions. These forward-looking statements include all matters that are not historical facts or matters of fact at the date of this document.

In particular, the following, among other statements, are all forward looking in nature: plans and expectations regarding drivers of CRH's performance in 2024, demand outlook, macroeconomic trends in CRH's markets, government funding initiatives and manufacturing trends, pricing trends, costs and weather patterns; plans and expectations regarding business strategy and cash returns for shareholders, including expectations regarding dividends and share buybacks; plans and expectations regarding CRH's financial capacity, including our ability to fund acquisitions and meet working capital needs, capital expenditures, dividends, share repurchases, upcoming debt maturities and other liquidity requirements; plans and expectations regarding the timing of our acquisitions and divestments, including with respect to valuation and purchase price allocation; and plans and expectations regarding the strategic risks and uncertainties facing CRH.

By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that may or may not occur in the future and reflect our current expectations and assumptions as to such future events and circumstances that may not prove accurate. You are cautioned not to place undue reliance on any forward-looking statements. These forward-looking statements are made as of the date of this document. We expressly disclaim any obligation or undertaking to publicly update or revise these forward-looking statements other than as required by applicable law.

A number of material factors could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements, certain of which are beyond our control, and which include, among other factors: economic and financial conditions, including changes in interest rates, inflation, price volatility and/or labor and materials shortages; demand for infrastructure, residential and non-residential construction and our products in geographic markets in which we operate; increased competition and its impact on prices and market position; increases in energy, labor and/or other raw materials costs; adverse changes to laws and regulations, including in relation to climate change; the impact of unfavorable weather; investor and/or consumer sentiment regarding the importance of sustainable practices and products; availability of public sector funding for infrastructure programs; political uncertainty, including as a result of political and social conditions in the jurisdictions CRH operates in, or adverse political developments, including the ongoing geopolitical conflicts in Ukraine and the Middle East; failure to complete or successfully integrate acquisitions or make timely divestments; cyberattacks and exposure of associates, contractors, customers, suppliers and other individuals to health and safety risks, including due to product failures. Additional factors, risks and uncertainties that could cause actual outcomes and results to be materially different from those expressed by the forward-looking statements in this report including, but not limited to, the risks and uncertainties described herein and under "Risk Factors" in our 2023 Form 10-K and in our other filings with the SEC.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

CRH is exposed to market risks relating to fluctuations in foreign exchange risks, interest rates, and commodity prices. Changes in those factors could impact the Company's results of operations and financial condition. Financial risk management at the Company seeks to minimize the negative impact of foreign exchange, interest rate and commodity price fluctuations on the Company's earnings, cash flows and equity. Management provides oversight for risk management and derivative activities, determines certain of the Company's financial risk policies and objectives, and provides guidelines for derivative instrument utilization.

To manage these risks, CRH uses various derivative financial instruments, including interest rate swaps, foreign exchange forwards and swaps, and commodity contracts. CRH only uses commonly traded and non-leveraged instruments. These contracts are entered into primarily with major banking institutions and utility companies, while CRH actively monitors its exposure to counterparty risk through the use of counterparty approvals and credit limits, thereby minimizing the risk of counterparty loss.

The following discussion presents the sensitivity of the market value, earnings and cash flows of the Company's financial instruments to hypothetical changes in interest and exchange rates assuming these changes occurred at March 31, 2024.

Interest Rate Risk

CRH may be impacted by interest rate volatility with respect to existing debt and future debt issuances as well as cash balances. For fixed rate debt instruments, interest rate changes affect the fair market value but do not impact earnings or cash flows. Conversely, for floating rate debt instruments, interest rate changes generally do not affect the fair market value of the instrument but impact future earnings and cash flows, assuming that other factors are held constant. Cash balances are held on short-term deposits and changing interest rates will impact deposit interest income earned. The Company uses interest rate swaps to convert a portion of its fixed rate debt to floating rate debt and these may be designated and qualify as fair value hedges. Under these arrangements, the Company agrees to exchange, at specified intervals, the difference between fixed and benchmark floating interest rates calculated by reference to an agreed-upon notional principal amount.

At March 31, 2024, the Company had fixed rate debt of \$8.3 billion and floating rate debt of \$4.6 billion, representing 65% and 35%, respectively, of total debt, including overdrafts, finance leases and the impact of derivatives. At March 31, 2023, the Company had fixed rate debt of \$7.8 billion and floating rate debt of \$2.2 billion, representing 78% and 22%, respectively, of total debt, including overdrafts, finance leases and the impact of derivatives. The Company's interest rate swaps at March 31, 2024, was \$1.4 billion, compared to \$1.8 billion as at March 31, 2023. Cash and cash equivalents at March 31, 2024, were \$3.3 billion, compared to \$4.7 billion at March 31, 2023, which was all held on short-term deposits and investments.

Sensitivity to interest rate moves

At March 31, 2024, the before-tax earnings and cash flows impact of a 100bps increase in interest rates, including the offsetting impact of derivatives, on the variable rate cash and debt portfolio would be approximately \$13 million unfavorable (\$25 million favorable at March 31, 2023).

Foreign Exchange Rates Risk

CRH's exchange rate exposures result primarily from its investments and ongoing operations in countries outside of the United States and other business transactions such as the procurement of products and equipment from foreign sources. Fluctuations in foreign currency exchange rates may affect (i) the carrying value of the Company's net investment in foreign subsidiaries; (ii) the translation of foreign currency earnings; and (iii) the cash flows related to foreign currency denominated transactions.

Where economically feasible, the Company maintains Net Debt* in the same relative ratio as capital employed to act as an economic hedge of the underlying currency assets. Where it is not feasible to do so, the Company may enter into foreign exchange forward contracts to hedge a portion of the net investment against the effect of exchange rate fluctuations. These transactions are designated as net investment hedges.

The Company also enters into foreign exchange forward contracts to hedge against the effect of exchange rate fluctuations on cash flows denominated in foreign currencies. These transactions are designated as cash flow hedges. In addition, the Company may enter into foreign currency contracts that are not designated in hedging relationships to offset, in part, the impacts of changes in value of various non-functional currency denominated items including certain intercompany financing balances. The U.S. Dollar equivalent gross notional amount of the Company's foreign exchange forward contracts was \$4.5 billion at March 31, 2024, compared to \$1.6 billion at March 31, 2023.

Holding all other variables constant, if there was a 10% weakening in foreign currency exchange rates versus U.S. Dollar for the portfolio, the fair market value of foreign currency contracts outstanding at March 31, 2024, would decrease by approximately \$135 million, which would be largely offset by a gain on the foreign currency fluctuation of the underlying exposure being hedged. In comparison, the fair market value of foreign currency contracts outstanding at March 31, 2023, would increase by approximately \$4 million, largely offset by a loss on the underlying exposure being hedged.

Commodity Price Risk

Some of the Company's products contain significant amounts of commodity-priced materials, predominantly fuel oil, carbon credits, coal, and electricity, which are subject to price changes based upon fluctuations in the commodities market. This price volatility could potentially have a material impact on our financial condition and/or our results of operations. Where feasible, the Company manages commodity price risks through negotiated supply contracts and forward contracts to manage operating costs. The Company monitors commodity trends and where possible has alternative sourcing plans in place to mitigate the risk of supplier concentration and passing commodity-related inflation to customers or suppliers.

Where appropriate, the Company also has a number of derivative hedging programs in place to hedge commodity risks, with the aim of the programs being to neutralize variability arising from changes in associated commodity indices. The timeframe for such programs can be up to four years.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Management has evaluated the effectiveness of the design and operation of the disclosure controls and procedures as defined in Securities Exchange Act Rule 13a-15(e) as of March 31, 2024. Based on that evaluation, the Chief Executive and the Chief Financial Officer have concluded that these disclosure controls and procedures were effective as of such date at the level of providing reasonable assurance.

In designing and evaluating our disclosure controls and procedures, management, including the Chief Executive and the Chief Financial Officer, recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

CRH and its subsidiaries are from time to time parties to various legal proceedings that arise in the ordinary course of business, including some in which claims for damages have been asserted against CRH. Having taken appropriate advice, we believe that the aggregate outcome of such proceedings will not have a material effect on our financial condition, results of operations or liquidity.

CRH has elected to use a \$1 million threshold for disclosing certain proceedings under environmental laws to which a governmental authority is a party. Applying this threshold, there were no relevant legal proceedings to disclose for this period.

Item 1A. Risk Factors

There have been no material changes with respect to the risk factors disclosed in 'Item 1A. Risk Factors' of our 2023 Form 10-K.

Item 2. Unregistered Sales of Equity Securities, Use of Proceeds, and Issuer Purchases of Equity Securities

The following table presents the number and average price of shares purchased in each month of the first quarter of fiscal year 2024:

Period	(a)	(b)	(c)	(d)
	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (i)	Maximum Number of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
January 1 – January 31, 2024	4,613,696	\$68.59	1,988,696	15,444,204
February 1 – February 29, 2024	1,706,682	\$75.82	1,706,682	13,737,522
March 1 – March 31, 2024	1,346,883	\$84.15	1,346,883	12,390,639
Total	7,667,261		5,042,261	

(i) In May 2018, CRH announced its intention to introduce a share repurchase program to repurchase Ordinary Shares (the 'Program'). In the first quarter of 2024, the Company returned a further \$0.4 billion of cash to shareholders through the repurchase of 5,042,261 Ordinary Shares (equivalent to 0.1% of the Company's issued share capital). This brought total cash returned to shareholders under the Program to \$7.5 billion since its commencement in May 2018. The purchases in 2024 were completed under Tranches 19 and 20.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

The information concerning mine safety violations or other regulatory matters required by Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of Regulation S-K (17 CFR 229.104) is included in Exhibit 95 to this Quarterly Report.

Item 5. Other Information

During the three months ended March 31, 2024, no Director or Officer of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K.

Exhibit 95.1**Disclosure of Mine Safety and Health Administration (“MSHA”) Safety Data**

CRH is committed to the health and safety of its employees and to providing an incident free workplace. The Company maintains a comprehensive health and safety program that includes extensive training for all employees and contractors, site inspections, emergency response preparedness, crisis communications training, incident investigation, regulatory compliance training and process auditing.

CRH's US aggregate quarry and mine operations are subject to Mine Safety and Health Administration (MSHA) regulation under the Federal Mine Safety and Health Act of 1977 (the “Mine Act”). MSHA inspects our mines on a regular basis and issues various citations and orders when it believes a violation has occurred under the Mine Act. Whenever MSHA issues a citation or order, it also generally proposes a civil penalty, or fine, related to the alleged violation.

During the quarter ended March 31, 2024, one of our mining operations received orders under section 104(b); none of our mining operations received written notice from MSHA of a flagrant violation under section 110(b)(2), notice of pattern of violations under section 104(e) or potential to have pattern under section 104(e) of the Mine Act. For the quarter ended March 31, 2024, we experienced no mining related fatalities.

The information in the table below reflects citations and orders MSHA issued to CRH during the quarter ended March 31, 2024, as reflected in our records. The data in our system may not match or reconcile with the data MSHA maintains on its public website. In evaluating this information, consideration should also be given to factors such as: (i) the number of citations and orders may vary depending on the size and operation of the mine; (ii) the number of citations issued may vary from inspector to inspector and mine to mine; and (iii) citations and orders may be contested and appealed, and in that process, may be reduced in severity and amount, and may be dismissed.

(1) MSHA assigns an identification number to each mine or operation and may or may not assign separate identification numbers to related facilities. The information provided in this table is presented by mine identification number.

(2) The definition of mine under Section 3 of the Mine Act includes the mine, as well as other items used in, or to be used in, or resulting from, the work of extracting minerals, such as land, structures, facilities, equipment, machines, tools, and preparation facilities. Unless otherwise indicated, any of these other items associated with a single mine have been aggregated in the totals for that mine.

(3) Represents the total number of citations issued by MSHA, for violation of health or safety standards that could significantly and substantially contribute to a serious injury if left unabated. If MSHA determines that a violation of a mandatory health or safety standard is reasonably likely to result in a reasonably serious injury or illness under the unique circumstance contributed to by the violation, MSHA will classify the violation as a "significant and substantial" violation.

(4) Represents the total number of orders issued, which represents a failure to abate a citation under section 104(a) within the period prescribed by MSHA.

(5) Represents the total number of citations and orders issued by MSHA of the Mine Act for unwarrantable failure to comply with mandatory health or safety standards. These violations are similar to those described above, but the standard is that the violation could significantly and substantially contribute to the cause and effect of a safety or health hazard, but the conditions do not cause imminent danger, and the MSHA inspector finds that the violation is caused by an unwarranted failure of the operator to comply with the health and safety standards.

- (6) Represents the total number of imminent danger orders issued under section 107(a) of the Mine Act. These orders are issued for situations in which MSHA determines an imminent danger exists in the quarry or mine and results in orders of immediate withdrawal of all persons (except certain authorised persons) from the area of the quarry or mine affected by its condition until the imminent danger and the underlying conditions causing the imminent danger no longer exist.
- (7) Represents whether a mine has received a written notice of a pattern of violations of mandatory health or safety standards that are of such nature as could have significantly and substantially contributed to the cause and effect of our mine health or safety hazards under section 104(e) of the Mine Act.
- (8) Represents whether a mine has received a written notice of the potential to have a pattern of violations of mandatory health or safety standards that are of such nature as could have significantly and substantially contributed to the cause and effect of our mine health or safety hazards under section 104(e) of the Mine Act.
- (9) Total dollar value of proposed assessments from MSHA under the Mine Act. These are the amounts of proposed assessments issued by MSHA with each citation or order for the time period covered by the reports. Penalties are assessed by MSHA according to a formula that considers a number of factors, including the mine operator's history, size, negligence, gravity of the violation, good faith in trying to correct the violation promptly, and the effect of the penalty on the operator's ability to continue in business.
- (10) Pending legal actions before the Commission as required to be reported by Section 1503(a)(3) of the Dodd-Frank Act. All 16 pending legal actions are contests of proposed penalties referenced in Subpart C of 29 CFR Part 2700. There are no contests of citations and orders referenced in Subpart B of 29 CFR Part 2700; no complaints of discharge, discrimination or interference referenced in Subpart E of 29 CFR Part 2700; no complaints for compensation referenced in Subpart D of 29 CFR Part 2700; no applications for temporary relief referenced in Subpart F of 29 CFR Part 2700; and no appeals of judges' decisions or orders to the Federal Mine Safety and Health Review Commission referenced in Subpart H of 29 CFR Part 2700.
