**Securities registered pursuant to Section 12(b) of the Act:**

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.01 per share	INTZ	Nasdaq Capital Market

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (\$232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large, accelerated filer   
Non-accelerated filer

Accelerated filer   
Smaller reporting company   
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act): Yes  No

The number of shares outstanding of the Registrant's Common Stock, \$0.01 par value, on August 14, 2024, was 6,641,525.

**INTRUSION INC. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**1. Description of Business**

Intrusion Inc. (together with its condensed consolidated subsidiaries, the "Company", "Intrusion", "Intrusion Inc.", "we", "us", "our", or similar terms) was organized in Texas in September 1983 and reincorporated in Delaware in October 1995. Our principal executive offices are located at 101 East Park Boulevard, Suite 1200, Plano, Texas 75074, and our telephone number is (972) 234-6400. Our website URL is [www.intrusion.com](http://www.intrusion.com).

The Company develops, sells, and supports products that protect any-sized company or government organization by fusing advanced threat intelligence with real-time mitigation to kill cyberattacks as they occur – including Zero-Days. The Company markets and distributes the Company's solutions through value-added resellers, managed service providers and a direct sales force. The Company's end-user customers include United States ("U.S.") federal government entities, state and local government entities, and companies ranging in size from mid-market to large enterprises.

**TraceCop ("TraceCop™")** and **Savant ("Savant™")** are registered trademarks of Intrusion Inc. The Company has applied for trademark protection for the Company's new **INTRUSION Shield** cybersecurity solution.

**2. Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with Generally Accepted Accounting Principles in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Item 10-01 of Regulation S-X. Accordingly, they do not include all the information and disclosures required by GAAP for complete financial statements. All adjustments that, in the opinion of management, are necessary for a fair presentation of the results of operations for the interim periods have been made and are of a recurring nature unless otherwise disclosed herein. The results of operations for such interim periods are not necessarily indicative of the results of operations for a full year. These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the year ended December 31, 2023, filed with the U.S. Securities and Exchange Commission (the "SEC") on April 1, 2024. All significant intercompany balances and transactions have been eliminated in consolidation.

The Company calculates the fair value of its assets and liabilities which qualify as financial instruments and includes this additional information in the notes to condensed consolidated financial statements when the fair value is different from the carrying value of these financial instruments. The estimated fair value of accounts receivable, accounts payable and accrued expenses approximate their carrying amounts due to the relatively short maturity of these instruments. Notes payable and financing and operating leases approximate fair value as they bear market rates of interest. None of these instruments are held for trading purposes.

## Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As of June 30, 2024, the Company had cash and cash equivalents of \$1.5 million and a working capital deficit of \$ 0.5 million. In addition, the Company has incurred net operating losses during the last four years. These conditions raise substantial doubt about the Company's ability to continue as a going concern within one year after the date of these financial statements. The Company's principal source of funding operations in 2024 has been proceeds received from the issuance of common stock in a series of transactions which include \$3.3 million from ATM sales, \$ 2.6 million from a private placement, and \$ 0.6 million from the exercise of warrants. Management plans to continue to fund the operations of the Company through the issuance of common stock using a combination of the ATM and equity financings. If the Company is not able to raise adequate funds under the Company's ATM program or obtain additional equity financing, the Company may be unable to implement the Company's business plan, fund its liquidity needs or even continue its operations. The financial statements do not include any adjustments relating to the recoverability and classification of assets and liabilities that may be necessary if the Company is unable to continue as a going concern.

The audit opinion that accompanied the Company's financial statements as of and for the year ended December 31, 2023, was qualified in that the Company's auditors expressed substantial doubt about the Company's ability to continue as a going concern.

## Reverse Stock Split

The Company effected a reverse stock split of 1-for-20 on March 22, 2024. Unless otherwise stated, all share and per share amounts for all periods presented have been adjusted to reflect the reverse stock split.

### **3. Right-of-use Asset and Leasing Liabilities**

The Company has operating and finance leases where it records the right-of-use assets and a related lease liabilities as required under the Financial Accounting Standard Board's ("FASB") Accounting Standards Codification ("ASC") 842. The lease liabilities are determined by the net present value of total lease payments and amortized over the life of the lease. The Company's leases are for the following types of assets:

- Computer hardware and copy machines- The Company's finance lease right-of-use assets consist of computer hardware and copy machines. These leases have a three-year life and are near completion.
- Office space - The Company's operating lease right-of-use assets include its rental agreements for its offices in Plano, TX, and a data service center in Allen, TX. The Plano offices operating lease expired on September 30, 2023. In October 2023, the Company signed a new lease with a term of eleven years and one month and commenced upon completion of tenant improvements in April 2024. The data service center operating lease liability has a life of one year and three months as of June 30, 2024.

In accordance with ASC 842, the Company has elected practical expedients to combine lease and non-lease components, which consist principally of common area maintenance charges, for all classes of underlying assets and to exclude leases with an initial term of 12 months or less.

As the implicit rate is not readily determinable for the Company's lease agreements, the Company uses an estimated incremental borrowing rate to determine the initial present value of lease payments. This discount rate for the leases approximates the federal reserve's prime rate.

For the three and six months ended June 30, 2024, the Company had \$ 32 thousand and \$37 thousand, respectively, in lease payments related to operating leases and had \$0.2 million and \$0.3 million, respectively, in lease payments related to financing leases.

## **Schedule of Items Appearing on the Unaudited Condensed Consolidated Statements of Operations (in thousands):**

	Three Months Ended		Six Months Ended	
	June 30, 2024	June 30, 2023	June 30, 2024	June 30, 2023
Operating expense:				
Amortization expense – Finance ROU	\$ 163	\$ 167	\$ 329	\$ 333

Less Interest*	(\$84)	–	
	\$ 1,680	\$ 122	

\* Interest is imputed for operating ROU leases and classified as lease expense and is included in operating expenses in the accompanying unaudited condensed consolidated statements of operations.

### **4. Notes Payable**

#### Security Purchase Agreement

On March 10, 2022, Intrusion Inc. entered into an unsecured loan agreement ("SPA") with Streeterville Capital, LLC ("Streeterville") whereby the Company issued two separate promissory notes of \$5.4 million each with an initial rate of 7%. On March 10, 2022, the Company received \$ 4.6 million in net funds from the first tranche (Note 1) pursuant to a promissory note executed contemporaneously with the execution of the loan agreement. On June 29, 2022, the Company received an additional \$4.7 million in net funds from the second tranche (Note 2) pursuant to a promissory note. Each note has

an 18-month maturity, may be prepaid subject to varying prepayment premiums, and may be redeemed at any time after six months into the term of such note in amounts up to \$0.5 million per calendar month upon the noteholder's election. On January 11, 2023, the Company amended the promissory notes issued pursuant to the unsecured loan agreement with Streeterville whereby the noteholder agreed to waive their redemption rights through March 31, 2023, in exchange for a fee equal to 3.75% of the outstanding principal balance which increased the outstanding indebtedness due at maturity with Streeterville and increased the associated debt issuance costs recorded on the condensed consolidated balance sheets by \$0.4 million. On August 2, 2023, the Company entered into a Forbearance Agreement with Streeterville which was subsequently amended on August 7, 2023. The Forbearance Agreement and amendment extended the maturity dates for each Note by twelve months to September 2024 and December 2024. In consideration of the extension of the maturity dates, the Company entered into a Security Agreement with Streeterville, dated August 2, 2023 (the "Security Agreement"), under which Streeterville was granted a first-position security interest in all assets of the Company.

In March 2024, the Company entered into an agreement with Streeterville to exchange \$ 0.2 million in principal for 52.2 thousand shares of common stock. Also in March 2024, the Company exchanged \$9.3 million in Streeterville debt for 9.3 thousand shares of newly created Series A Preferred. The issuance of both common and preferred shares was made pursuant to the exemption from the registration requirements afforded by the Securities Act, as amended. The designations for the Series A Preferred preclude the Company from repaying any indebtedness for so long as any Series A Preferred shares are outstanding. The Series A Preferred have a stated value of \$1,100 per share and are subject to preferences and designations as more fully described in our Amended and Restated Articles of Incorporation filed on March 15, 2024, see also Note 6 Stockholders' Equity. Following the exchanges noted herein, the remaining balance on Note One was \$0.5 million. The maturity date for Note One is September 2024 which conflicts with the Series A Preferred designation prohibiting repayment of any indebtedness.

As a result of exchanging \$9.5 million principal in aggregate for equity, the Company reversed the interest accretion associated with the ability to stock-settle principal redemptions and wrote off the balance of unamortized debt issuance costs of \$1.0 million for the three months ended March 31, 2024. Simple interest of \$9 thousand \$153 thousand was incurred for the three and six months ended June 30, 2024.

#### Scott Notes Payable

During the period ended March 2024, the Company entered into two separate note purchase agreements with the Company's Chief Executive Officer, Anthony Scott. On January 2, 2024, Scott purchased a note payable in the principal amount of \$1.1 million in exchange for \$1.0 million in cash. The note called for weekly payments of \$40 thousand until maturity on June 15, 2024. Interest accrued on the balance of the note at 7% per annum compounding daily. During the period ended March 31, 2024, the Company made \$0.2 million in principal payments on the first note payable.

On March 20, 2024, Scott purchased a second note payable in the principal amount of \$ 343 thousand in exchange for \$340 thousand in cash. The note was non-interest bearing and matured on April 19, 2024. On April 2<sup>nd</sup>, the Company reduced the principal balance due under the note by \$101 thousand which reflected the amount due from Scott for the exercise of common stock purchase warrants.

On April 19, 2024, Scott entered into a private placement subscription agreement to convert the aggregate outstanding balance of \$ 1.1 million for both notes in exchange for common stock and common stock purchase warrants.

The Company recorded interest expense of \$20 thousand for both notes in the accompanying condensed consolidated statement of operations for the six months ended June 30, 2024. For the six months ended June 30, 2024, \$83 thousand in amortization of debt issuance cost was recorded.

#### **5. Commitments and Contingencies**

The Company is periodically involved in various litigation claims asserted in the normal course of its business. The Company believes these actions are routine and incidental to the business. While the outcome of these actions cannot be predicted with certainty, the Company does not believe that any will have a material adverse impact on the Company's business.

#### Stockholder Derivative Claim

On June 3, 2022, a verified stockholder derivative complaint was filed in U.S. District Court, District of Delaware (the "Court") by the Plaintiff Stockholder on behalf of Intrusion against certain of the Company's Defendants. Plaintiff alleges that Defendants through various actions breached their fiduciary duties, wasted corporate assets, and unjustly enriched Defendants by (a) incurring costs and expenses in connection with the ongoing SEC investigation, (b) incurring costs and expenses to defend the Company with respect to the consolidated class action, (c) settling class-wide liability with respect to the consolidated class action, as well as ancillary claims regarding sales of the Company's common stock by certain of the Defendants. On September 28, 2023, the Company agreed to settle the claim. On October 2, 2023, public notice of the settlement was given. The settlement agreement provides in part for (i) an amendment to the Company's Bylaws, committee Charters, and other applicable corporate policies to implement certain measures set forth more fully therein, to remain in effect for no less than three years; (ii) attorneys' fees and expenses to plaintiff's counsel of \$0.3 million; and (iii) the dismissal of all claims against the Defendants, including the Company, in connection with the action. The \$0.3 million settlement payment was made by the Company's insurance provider under its insurance policy since the Company's \$0.5 million retention was previously exhausted. On April 3, 2024, the Court approved the settlement.

In addition to these legal proceedings, the Company is subject to various other claims that may arise in the ordinary course of business. The Company does not believe that any claims exist where the outcome of such matters would have a material adverse effect on the Company's condensed consolidated financial position, operating results, or cash flows. However, there can be no assurance such legal proceedings will not have a material impact on the Company's future results.

#### **6. Stockholder's Equity**

##### ***Series A Preferred Stock***

On March 15, 2024, the Company filed a certificate of designation of preferences and rights (the "Certificate of Designation") of Series A Preferred Stock (the "Series A Stock"), with the Secretary of State of Delaware, designating 20,000 shares of preferred stock, par value \$ 0.01 of the Company, as Series A Preferred Stock. Each share of Series A Stock shall have a stated face value of \$1,100.00 ("Stated Value"). The Series A Stock is not convertible into common shares of capital stock of the Company and as such is non-dilutive to current stockholders.

Each share of Series A Stock shall accrue a rate of return on the Stated Value at the rate of 10% per year, compounded annually from the date of issuance and payable quarterly in cash or the issuance of additional shares of Series A Stock.

Commencing on the one-year anniversary of the issuance date of each share of Series A Stock to the two-year anniversary, each share of Series A Stock shall accrue an automatic quarterly dividend, calculated on the Stated Value at a rate of 2.5% per quarter. For all periods following the two-year anniversary of the issuance date of each share of Series A Stock, the quarterly dividend shall be 5%. The quarterly dividend shall be payable quarterly in cash or the issuance of additional shares of Series A Stock. In the event the Company is unable to pay the Quarterly Dividend or Preferred Return in cash and no remaining shares of Series A Stock are available for issuance, the Quarterly Dividend and Preferred Return will continue to accrue until such time the Company can make payment. The Company classified the Series A Preferred Stock as equity as all events that could trigger redemption are fully within the Company's control.

On March 15, 2024, the Company entered into an Exchange Agreement with Streeterville Capital that exchanged \$ 9.3 million in debt for 9,275 shares of newly created Series A Preferred Stock.

On April 3, 2024, the Company exchanged 91 shares of Series A Preferred Stock for 32,248 shares of our common stock. On May 10, 2024, the Company exchanged 125 shares of Series A Preferred Stock for 90,460 shares of our common stock. On May 30, 2024, the Company exchanged 339 shares of Series A Preferred Stock for 243,725 shares of our common stock. All of these exchanges were made pursuant to the exemption from the registration requirements afforded by Section 3(a)(9) of the Securities Act of 1933, as amended.

Through June 30, 2024, the Company has paid a preferred return of \$ 290 thousand through the issuance of 265 additional shares of Series A Preferred Stock.

#### **Private Offering**

On April 22, 2024, the Company sold to certain purchasers 1,348,569 shares of the Company's common stock together with accompanying common stock purchase warrants to purchase 2,697,138 shares of common stock, at a purchase price of \$1.95 per share (or common stock equivalent) and two accompanying Common Stock Purchase Warrants, for net proceeds of approximately \$2.6 million. The Common Stock Purchase Warrants will be exercisable at any time following the date of issuance, expire five years following the date of issuance, and have an exercise price of \$1.70 per share. None of the shares of Common Stock and shares underlying the Common Stock Purchase Warrants have been registered under the Securities Act of 1933, as amended, and do not carry registration rights.

#### **ATM Offering**

B. Riley Securities, Inc. acts as sales agent for the Company's ATM program, which allows the Company to potentially sell up to \$50.0 million of the Company's common stock using a shelf registration statement on Form S-3 filed on August 5, 2021. On March 31, 2023, the date the Company filed its Annual Report on Form 10-K for the fiscal year ended December 31, 2022, the Company became subject to the offering limits in General Instruction I.B.6 of Form S-3. As a result, the Company filed a prospectus supplement to the prospectus relating to the registration of offerings under the program that reduced the amount the Company may sell to aggregate proceeds of up to \$15 million. For the period ended June 30, 2024, the Company received proceeds of approximately \$3.3 million net of fees from the sale of common stock pursuant to the program. As of June 30, 2024, the Company has received proceeds of approximately \$15.5 million net of fees from the sales of 4.3 million shares of common stock since the inception of the program.

#### **Common Stock Warrants**

On April 1, 2024, the Company's Board of Directors approved entry into a warrant inducement offering that provided, during the period beginning on April 2, 2024 and continuing through April 23, 2024, for the lowering of the exercise price of all outstanding warrants and, for each share of common stock exercised under the warrants, providing the participating warrant holder with a new warrant for that same number of shares of common stock. The reduced exercise price of the warrants was \$3.04. The new warrant exercise price is \$2.91 with an exercise period of five years. On April 8, 2024, certain holders of the warrants exercised 186 thousand shares of the Company's common stock resulting in gross proceeds of \$ 0.6 million and the issuance of 186 thousand new warrants. The issuance of the new Warrants was undertaken pursuant to the exemption from registration provided in Rule 506(b) under Regulation D pursuant to the Securities Act of 1933, as amended.

On June 30, 2024, the Company had 52,471 warrants to purchase one share of common stock at an exercise price of \$ 104.40, 257,604 warrants to purchase one share of common stock at an exercise price of \$12.00, 186,492 warrants to purchase one share of common stock at an exercise price of \$2.91, and 2,697,138 warrants to purchase one share of common stock at an exercise price of \$ 1.70.

#### **7. Revenue Recognition**

The Company recognizes product revenue upon shipment or after meeting certain performance obligations. These products can include hardware, software subscriptions and consulting services. The Company also offers software on a subscription basis subject to software as a service ("SaaS"). Warranty costs have not been material.

The Company recognizes sales of the Company's datasets in accordance with FASB ASC Topic 606 whereby revenue from contracts with customers are recognized once the criteria under the five steps below have been met:

- i) identification of the contract with a customer;
- ii) identification of the performance obligations in the contract;
- iii) determination of the transaction price;
- iv) allocation of the transaction price to the separate performance obligations; and
- v) recognize revenue upon satisfaction of a performance obligation.

Consulting services include reporting and are typically done monthly, and revenue is matched accordingly. Product sales may include maintenance and customer support allocated revenue in an arrangement using estimated selling prices of the delivered goods and services based on a selling price hierarchy using the relative selling price method. All product offering and service offering market values are readily determined based on current and prior stand-alone sales. The Company defers and recognizes maintenance, updates, and support revenue over the term of the contract period, which is generally one year.

Normal payment terms offered to customers, distributors and resellers are net 30 days domestically. The Company does not offer payment terms that extend beyond one year and rarely does it extend payment terms beyond its normal terms. If certain customers do not meet its credit standards, the Company typically requires payment in advance to limit its credit exposure.

With the Company's newest product, **INTRUSION Shield**, the Company began offering software on a subscription basis. **INTRUSION Shield** is a hosted arrangement subject to SaaS guidance under ASC 606. SaaS arrangements are accounted for as subscription services, not arrangements that transfer a license of intellectual property.

The Company utilizes the five-step process, mentioned above, per FASB ASC Topic 606 to recognize sales and will follow that directive, also, to define revenue items as individual and distinct. **INTRUSION Shield** services provided to its customers for a fixed monthly subscription fee include:

- access to Intrusion's proprietary software and database to detect and prevent unauthorized access to its clients' information networks;
- use of all software, associated media, printed materials, data, files, online documentation, and any equipment that Intrusion provides for customers to access the **INTRUSION Shield**; and
- tech support, post contract customer support (PCS) includes daily program releases or corrections provided by Intrusion without additional charge.

**INTRUSION Shield** contracts provide for no other services, and the Company's customers have no rebates or return rights, nor are any such rights anticipated to be offered as part of this service.

The Company satisfies its performance obligation when the **INTRUSION Shield** solution is available to detect and prevent unauthorized access to a client's information networks. Revenue should be recognized monthly over the term of the contract. The Company's standard initial contract terms automatically renew unless notice is given 30 days before renewal. Upfront payment of fees is deferred and amortized into income over the period covered by the contract.

The Company's accounts receivable represents unconditional contract billings for sales per contracts with customers and are classified as current assets. As of June 30, 2024, and December 31, 2023, the Company had accounts receivable balances of \$0.7 million and \$0.4 million, respectively. As of June 30, 2024, and December 31, 2023, the Company had an allowance for credit losses of \$0.1 million.

The Company classifies its contract assets as receivables because the Company generally has an unconditional right to payment for the Company's sales or services performed at the end of the reporting period.

Contract liabilities consist of cash payments in advance of the Company satisfying performance obligations and recognizing revenue. The Company currently classifies deferred revenue as a contract liability.

The following table presents changes in the Company's contract liability during the period ended June 30, 2024, and the year ended December 31, 2023 (in thousands):

	<b>June 30, 2024</b>	<b>December 31, 2023</b>
Balance at beginning of period	\$ 439	\$ 455
Additions	1,699	4,727
Revenue recognized	(1,560)	(4,743)
Balance at end of period	<b>\$ 578</b>	<b>\$ 439</b>

## 8. Capitalized Software Development

The Company capitalizes internally developed software using the Agile software development methodology which allows the Company to accurately track, and record costs associated with new software development and enhancements.

Pursuant to ASC Topic 350-40 Internal Use Software Accounting Capitalization, certain development costs related to the Company's products during the application development stage are capitalized as part of property and equipment. Costs incurred in the preliminary stages of development are expensed as incurred. The preliminary stage includes such activities as conceptual formulation of alternatives, evaluation of alternatives, determination of existence of needed technology, and the final selection of alternatives. Once the application development stage is reached, internal and external costs are capitalized until the software is complete and ready for its intended use. Capitalized internal use software is amortized on a straight-line basis over its estimated useful life, which is generally three years.

## 9. Net Loss Per Share

The Company reports two separate net loss per share numbers, basic and diluted. Basic net loss attributable to common stockholders per share is computed by dividing net loss attributable to common stockholders for the period by the weighted average number of common shares outstanding for the period. Diluted net loss attributable to common stockholders per share is computed by dividing the net loss attributable to common stockholders for the period by the weighted average number of common shares and dilutive common stock equivalents outstanding for the period. The common stock equivalents include all common stock issuable upon exercise of outstanding warrants, options and vesting of restricted stock awards. The aggregate number of common stock equivalents excluded from the diluted loss per share calculation for the three months ended June 30, 2024, and 2023 totaled 3,117 and 125 thousand shares, respectively. The aggregate number of common stock equivalents excluded from the diluted loss per share calculation for the six months ended June 30, 2024, and 2023 totaled 1,743 and 114 thousand shares, respectively. Since the Company is in a net loss position for the periods ended June 30, 2024, and 2023, basic and dilutive net loss per share is the same.

## 10. Related Party Transactions

On January 2, 2024, the Company entered into an invoice financing arrangement pursuant to a note purchase agreement with Anthony Scott, President, and Chief Executive Officer of the Company ("Scott"), according to which, among other things, Scott purchased from the Company a promissory note (the "Promissory Note") in the aggregate principal amount of \$1.1 million in exchange for \$1.0 million to the Company. Under the Promissory Note, the Company shall make Weekly Payments to Scott in the amount of \$40 thousand per week. Interest accrues on the balance of the Promissory Note at a rate of 7.0% per annum, compounded daily. In connection with the issuance of the Promissory Note, the Company and Scott also entered into a security agreement, which provides, according to its terms, a security interest in all accounts receivable or other receivables now existing or subsequently created prior to the payment of the Promissory Note, subject to prior permitted liens. During the six months ended June 20, 2024, the Company made \$0.2 million in principal payments on the Promissory Note.

On March 20, 2024, the Company entered into an additional invoice financing arrangement pursuant to a note purchase agreement with Scott, according to which, among other things, Scott purchased from the Company a second Promissory Note 2 in the aggregate principal amount of \$343 thousand in exchange for \$340 thousand to the Company. The Promissory Note 2 is non-interest bearing and matures on April 19, 2024.

On April 2, 2024 the Company reduced the principal balance due under the Promissory Note by \$0.1 million which reflected the amount due from Scott for the exercise of common stock purchase warrants.

On April 19, 2024, Scott entered into a private placement subscription agreement to convert the aggregate outstanding balance of \$ 1.1 million for both notes in exchange for common stock and common stock purchase warrants.

The Company recorded interest expense of \$20 thousand for both notes in the accompanying condensed consolidated statement of operations for the six months ended June 30, 2024. For the six months ended June 30, 2024, \$83 thousand in amortization of debt issuance cost was recorded.

## 11. Subsequent Events

On July 3, 2024, the Company entered into a \$10 million Standby Equity Purchase Agreement ("SEPA") with Streeterville Capital, LLC ("Streeterville") pursuant to which the Company has the right to direct Streeterville during the 24 month term of the agreement to purchase common stock subject to certain limitations and conditions set forth in the SEPA.

## Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### Forward-Looking Statements

This Quarterly Report on Form 10-Q, including, without limitation, the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations," contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), which statements involve substantial risks and uncertainties. All statements other than statements of historical facts contained in this Quarterly Report on Form 10-Q, including statements regarding our financial position; our ability to continue our business as a going concern; our business, sales, and marketing strategies and plans; our ability to successfully market, sell, and deliver our **INTRUSION Shield** commercial product and solutions to an expanding customer base; and our ability to secure additional financing; are forward-looking statements. In some cases, you can identify forward-looking statements because they contain words such as "anticipate," "believe," "contemplate," "continue," "could," "estimate," "expect," "intend," "may," "plan," "potential," "predict," "project," "should," "target," "will," or "would" or the negative of these words or other similar terms or expressions. Forward-looking statements contained in this Quarterly Report on Form 10-Q include, but are not limited to, such statements.

You should not rely on forward-looking statements as predictions of future events. We have based the forward-looking statements contained in this Quarterly Report on Form 10-Q primarily on our current expectations and projections about future events and trends that we believe may affect our business, financial condition, and operating results. The outcome of the events described in these forward-looking statements is subject to risks, uncertainties, and other factors described in the section titled "Risk Factors" in this Quarterly Report on Form 10-Q and our most recent Annual Report on Form 10-K as the same may be amended or updated from time to time.

In addition, statements such as "we believe" and similar statements reflect our beliefs and opinions on the relevant subject. These statements are based on information available to us as of the date of this Quarterly Report on Form 10-Q. While we believe that such information provides a reasonable basis for these statements, that information may be limited or incomplete. Our statements do not indicate that we have conducted an exhaustive inquiry into, or review of, all relevant information. These statements are inherently uncertain, and investors are cautioned not to unduly rely on these statements.

The forward-looking statements made in this Quarterly Report on Form 10-Q relate only to events as of the date on which the statements are made. We undertake no obligation to update any forward-looking statements made in this Quarterly Report on Form 10-Q to reflect events or circumstances after the date of this Quarterly Report on Form 10-Q or to reflect new information or the occurrence of unanticipated events, except as required by law.

### Overview

Intrusion offers businesses of all sizes and industries products and services that leverage the Company's exclusive threat intelligence database of over 8.5 billion IP addresses and domain names. After many years of gathering intelligence and providing our **INTRUSION TraceCop** and **Savant** solutions exclusively to government entities, we released our first commercial product in 2021, the **INTRUSION Shield**. **INTRUSION Shield** was designed to allow businesses to incorporate a Zero Trust, reputation-based security solution into their existing infrastructure to observe traffic flow and instantly block known malicious or unknown connections from both entering or exiting a network, making it an ideal solution for protecting from Zero-Day and ransomware attacks.

As discussed in more detail below on June 30, 2024, we had \$1.5 million in cash. If we are not able to raise adequate funds under the Company's ATM program or obtain additional equity financing, the Company may be unable to implement the Company's business plan, fund its liquidity needs or even continue its operations.

## Results of Operations

### Comparison of the Three and Six Months Ended June 30, 2024 and June 30, 2023

(in thousands)	Three Months Ended June 30,				Six Months Ended June 30,			
	2024	2023	Change		2024	2023	Change	
Revenue	\$ 1,460	\$ 1,468	\$ (8)	-1%	\$ 2,591	\$ 2,777	\$ (186)	-7%
Cost of revenue	350	330	20	6%	576	643	(67)	-10%
Gross profit	1,110	1,138	(28)	-2%	2,015	2,134	(119)	-6%
Gross profit percentage	76.0%	77.5%			77.8%	76.8%		
Operating expenses:								
Sales and marketing	1,158	1,423	(265)	-68%	2,335	3,161	(826)	-26%
Research and development	1,035	1,451	(416)	-29%	2,054	3,247	(1,193)	-37%
General and administrative	950	1,185	(235)	-20%	2,131	2,691	(560)	-21%
Total operating expenses	3,143	4,059	(916)	-23%	6,520	9,099	(2,579)	-28%
Operating Loss	(2,033)	(2,921)	888	30%	(4,505)	(6,965)	2,460	35%
Interest expense	(34)	(233)	199	-85%	(262)	(518)	256	-49%
Interest accretion and amortization of debt issuance costs, net	-	25	(25)	-100%	990	(421)	1,399	-334%
Other (expense) income, net	-	-	-	0%	(6)	41	(47)	115%
Net loss	<u>\$ (2,067)</u>	<u>\$ (3,129)</u>	<u>\$ 1,062</u>	<u>34%</u>	<u>\$ (3,783)</u>	<u>\$ (7,863)</u>	<u>\$ 4,080</u>	<u>52%</u>

**Revenues.** Revenue for the three and six month periods ended June 30, 2024, was \$1.5 and \$2.6 million compared to \$1.5 and \$2.8 million for the same periods in 2023. Revenue from consulting totaled \$1.2 and \$1.9 million for the three and six month periods ended June 30, 2024, compared to \$1.1 and \$2.1 million for the three and six month periods ended June 30, 2023. The continuing resolution and delay in the approval of a federal budget for the 2024 year which did not occur until March 22, 2024, impacted the timing of renewals and task orders received for long-standing contracts which resulted in a decline in consulting revenues for the six month period ended June 30, 2024. **INTRUSION Shield** revenues were \$0.3 and \$0.7 million for the three and six month periods ended June 30, 2024, compared to \$0.4 million and \$0.7 million for the three and six month periods ended June 30, 2023. The decline in Shield revenues for the three month period resulted from the loss of a large early **INTRUSION Shield** customer that had implemented a highly customized and non-standard configuration of the product. The loss of revenues from this customer was partially offset by revenues from new customers signed in recent quarters. We believe the revenues from these new customers and several transactions that we anticipate will close in the second half of this year will fully offset this loss and drive **INTRUSION Shield** revenue growth in 2024.

**Concentration of Revenues.** For the three and six month periods ended and June 30, 2024, revenues from sales to various U.S. government entities totaled \$1.3 and \$2.0 million, or 89.0% and 75.7% of revenues compared to \$0.7 and \$1.3 million, or 46.7% and 47.5% of revenues, for the same periods in 2023. Although we expect our concentration of revenues to vary among customers in future periods depending upon the timing of certain sales, we anticipate that sales to government customers will continue to account for a significant portion of our revenues in future periods. Sales to the government present risks in addition to those involved in sales to commercial customers which could adversely affect our revenues, including, without limitation, potential disruption to appropriation and spending patterns and the government's reservation of the right to cancel contracts and purchase orders for its convenience. Although we do not anticipate that any of our revenues from government customers will be renegotiated, any cancelled or renegotiated government orders could have a material adverse effect on our financial results. We had one commercial customer in the six months ended June 30, 2024, and two commercial customers in the 2023 period, that each contributed individually to more than 10% of our total revenue. Our similar product and service offerings are not viewed as individual segments, as its management analyzes the business as a whole and expenses are not allocated to each product offering.

**Gross Profit.** Gross profit was \$1.1 and \$2.0 million or 76.0% and 77.8% of revenues for the three and six month periods ended June 30, 2024, compared to \$1.1 and \$2.1 million or 77.5% and 76.8% of revenues for the three and six months ended June 30, 2023. The gross profit margin will vary depending on product mix. **INTRUSION Shield** revenues represented 20.5% and 28.3% of revenues for the three and six month periods ended June 30, 2024, compared to 28.6% and 26.3% in the same periods 2023.

**Operating Expenses.** Operating expenses for the three and six months ended June 30, 2024, totaled \$3.1 and \$6.5 million, representing a decrease of 23% and 28% when compared to \$4.1 and \$9.1 million for the same periods in 2023. The decrease was most notably due to a reduction in staffing and contract labor expenses in addition to reduced spend on sales and marketing and reduced litigation defense costs.

In late March 2023 we implemented cost reduction measures that resulted in the reduction of sixteen permanent positions, the reduced use of contractors and renegotiating or replacing spend on certain sales support and marketing services with less costly programs. Headcount at June 30, 2024, and 2023 was fifty and forty-nine, respectively. Many of the reductions were in Research and Development, which will impact the number and frequency of product releases. As we grow our customer base and increase our revenues, we may choose to accelerate our product development in future periods, which would result in increased spending.

**Sales and Marketing.** Sales and marketing expenses decreased to \$1.2 and \$2.3 million for the three and six months ended June 30, 2024, compared to \$1.4 and \$3.2 million for the three and six month periods ended June 30, 2023. The 2024 six month period includes approximately \$0.2 million in one-time negotiated contract savings. Certain discretionary spend, inclusive of participation in trade shows, utilization of third-party contractors for content and product messaging and travel, are likely to vary over time based on savings initiatives that may be necessary.

**Research and Development.** Research and development expenses totaled \$1.0 and \$2.1 million for the three and six months ended June 30, 2024, a \$0.4 and \$1.2 million decrease compared to the same periods in 2023. The savings are a result of cost reduction measures implemented in late March 2023 which included the reduction of 13 FTEs and the reduced use of contractors. Research and development costs may vary over time as we determine the frequency of new releases, improved functionality and enhancements needed to be competitive with our product offering.

**General and Administrative.** General and administrative expenses totaled \$1.0 and \$2.1 million for the three and six months ended June 30, 2024, compared to \$1.2 and \$2.7 million for the three and six months ended June 30, 2023. The \$0.6 million reduction in the six month period relates to

the elimination of two positions, reduced share-based compensation and one-time negotiated cost savings of \$0.1 million.

**Interest Expense.** Interest expense for the three and six months ended June 30, 2024, was \$34 thousand and \$262 thousand consisting principally of the stated interest related to the Streeterville notes, interest associated with the note's payable issued to Scott, our CEO and finance leases. Interest expense for the three and six months ended June 30, 2023, was \$233 thousand and \$530 thousand. The decreased interest expense resulted principally from the aggregate exchange of the Streeterville debt to both common and preferred stock. At June 30, 2024, only \$511 thousand of Streeterville debt remains outstanding. Interest expense will vary in the future based on our cash flow and borrowing needs.

**Interest Accretion and Amortization of Debt Issuance Costs.** During the March 2024 quarter, the Company entered into exchange agreements to convert \$9.5 million in Streeterville debt to \$9.3 million of Series A preferred stock and \$0.2 million to common stock and, as a result, the Company reversed the interest accretion associated with the ability to stock-settle principal redemptions and wrote-off the remaining deferred debt issue costs resulting in a net credit to interest expense of \$1.0 million. For the six months ended June 30, 2023, the interest accretion and amortization of debt issuance costs totaled \$0.4 million.

**Other (Expense) Income, Net.** Other income and expense were nominal amounts for the three and six months ended June 30, 2024, and 2023.

#### Liquidity and Capital Resources

As of June 30, 2024, we had cash and cash equivalents of \$1.5 million and a working capital deficit of \$(0.5) million. Management plans to fund the operations of the Company through the continued use of the ATM and or additional equity financings. If the Company is not able to raise adequate funds, the Company may be unable to implement the Company's business plan, fund its liquidity needs or even continue its operations.

#### *Sources of Liquidity*

Our principal sources of cash for funding operations for the six months ended June 30, 2024, has been proceeds received from the issuance of common stock in a series of transactions which include \$3.3 million from ATM sales, \$2.6 million from a private placement, and \$0.6 million from the exercise of warrants. Our principal source of cash for funding operations in 2023 was \$1.3 million from sales of common stock utilizing the ATM program and changes in working capital which includes the receipt of \$1.2 million in Employee Retention Tax Credit refunds recorded in 2022.

#### Stand-by Equity Purchase Agreement

On July 3, 2024, we entered into a \$10 million Standby Equity Purchase Agreement ("SEPA") with Streeterville Capital, LLC ("Streeterville") pursuant to which the Company has the right to direct Streeterville during the 24 month term of the agreement to purchase common stock subject to certain limitations and conditions set forth in the SEPA.

The shares of common stock purchased pursuant to SEPA will be at a purchase price equal to 95% of the lowest daily VWAP of the shares of Common Stock during the three consecutive trading days commencing on the date of the delivery of an advance notice. "VWAP" is defined as the daily volume weighted average price of the shares of Common Stock for such trading day on the Nasdaq Stock Market during regular trading hours as reported by Bloomberg L.P.

Under applicable Nasdaq rules and the terms of the SEPA, in no event may the Company issue to Streeterville under the SEPA shares of Common Stock equal to greater than 19.99% of the shares of Common Stock outstanding immediately prior to the execution of the SEPA (the "Exchange Cap"), unless (i) the Company obtains stockholder approval to issue shares of Common Stock in excess of the Exchange Cap in accordance with applicable Nasdaq rules, or (ii) the average price per share paid by Streeterville for all of the shares of Common Stock that the Company directs Streeterville to purchase from the Company pursuant to the SEPA, if any, equals or exceeds the lower of (a) the official closing price of the Common Stock on Nasdaq immediately preceding the execution of the SEPA or (b) the average official closing price of the Common Stock on Nasdaq for the five consecutive trading days immediately preceding the execution of the SEPA, adjusted as required by Nasdaq. Moreover, the Company may not issue or sell any shares of Common Stock to Streeterville under the SEPA which, when aggregated with all other shares of Common Stock then beneficially owned by Streeterville and its affiliates (as calculated pursuant to Section 13(d) of the Exchange Act and Rule 13d-3 thereunder), would result in Streeterville beneficially owning more than 19.99% of the outstanding shares of Common Stock. The Company is seeking stockholder approval under Nasdaq Listing Rule 5635(d) for the sale, issuance or potential issuance by the Company of Common Stock (or securities convertible into or exercisable for our Common Stock) in excess of 20% of the shares of our Common Stock outstanding immediately prior to the SEPA at an exercise price less than the Minimum Price in connection with the SEPA.

Actual sales of shares of Common Stock to Streeterville as an advance under the SEPA will depend on a variety of factors to be determined by the Company from time to time, which may include, among other things, market conditions, the trading price of the Common Stock and determinations by the Company as to the appropriate sources of funding for our business and operations. The Company will use 10% of the proceeds associated with each Advance to redeem the outstanding Series A Preferred Stock held by Streeterville.

#### At-The-Market Program

B. Riley Securities, Inc. acts as sales agent under the Company's at-the-market program, which allowed us to potentially sell up to \$50.0 million of its common stock using the shelf registration statement on Form S-3 filed on August 5, 2021. On April 11, 2023, Instruction I.B.6 of Form S-3 and in agreement with the terms of the sales agreement, the company revised the aggregate offering price of shares of common stock that we can sell pursuant to the ATM program to \$15 million. For the six months ended June 30, 2024, we received \$3.3 million, net of fees for sales of common stock were made pursuant to the program. As of June 30, 2024, the remaining aggregate offering price of shares of common stock that we can sell pursuant to the ATM program based on gross proceeds was \$6.7 million.

#### Notes Payable

In March 2024, we entered into an agreement with Streeterville to exchange \$0.2 million in principal for 52.2 thousand shares of common stock. Also in March 2024, we exchanged \$9.3 million in Streeterville debt for 9,275 shares of our newly created Series A Preferred. The issuance of both common and preferred shares was made pursuant to the exemption from the registration requirements afforded by the Securities Act, as amended. The

designations for the Series A Preferred preclude the Company from repaying any indebtedness for so long as any Series A Preferred shares are outstanding. The Series A Preferred shares have a stated value of \$1,100 per share and are subject to preferences and designations as more fully described in our Amended and Restated Articles of Incorporation filed on March 15, 2024. Following the exchanges noted herein, the remaining balance on Note One was \$0.5 million at June 30, 2024. The maturity date for Note One is September 2024 which conflicts with the Series A Preferred designation prohibiting repayment of any indebtedness. We are in discussions with Streeterville to modify the terms of the Note One agreement.

During the March 2024 quarter we entered into two separate note purchase agreements with our Chief Executive Officer, Anthony Scott. On January 2, 2024, Scott purchased a note payable in the principal amount of \$1.1 million in exchange for \$1.0 million in cash. The note called for weekly payments of \$40,000 until maturity on June 15, 2024. Interest accrued on the balance of the note at 7% per annum compounding daily. During the March quarter we made \$200 thousand in principal payments. On March 20, 2024, Scott purchased a second note payable in the principal amount of \$343 thousand in exchange for \$340 thousand in cash. The note was non-interest bearing and matured on April 19, 2024. On April 2<sup>nd</sup>, we reduced the principal balance due under the note by \$101 thousand which reflected the amount due from Scott for the exercise of common stock purchase warrants. On April 19, 2024, Scott entered into a private placement subscription agreement to convert the aggregate remaining outstanding balance of \$1.1 million for both notes in exchange for common stock and common stock purchase warrants.

#### Condensed Consolidated Statements of Cash Flows

Our cash flows for the six months ended June 30, 2024, and 2023 were:

	<b>Six Months Ended</b>	
	<b>June 30, 2024</b>	<b>June 30, 2023</b>
Net cash used in operating activities	\$ (4,036)	\$ (3,275)
Net cash used in investing activities	(697)	(717)
Net cash provided by financing activities	6,100	1,277
Change in cash and cash equivalents	<u>\$ 1,367</u>	<u>\$ (2,715)</u>

#### Operating Activities

Net cash used in operations for the six months ended June 30, 2024, was (\$4.0) million primarily resulting from 1) a net loss of (\$3.8) million offset partially offset by adjustments for non-cash items of \$0.4 million which are mostly comprised of depreciation, stock-based compensation and non-cash interest related to the Streeterville notes, and 2) changes in working capital of (\$0.7) million which consisted principally of increased accounts receivable and decreased vendor payables.

Net cash used in operations for the six months ended June 30, 2023, was (\$3.3) million due primarily to a net loss of (\$7.9) million partially offset by 1) adjustments for non-cash items of \$2.2 million which are mostly comprised of depreciation, stock-based compensation and interest related to Streeterville notes, and 2) changes in working capital of \$2.4 million consisting principally of the cash receipt of amounts due relating to Employee Retention Credit and amounts received as prepayment for a one year customer contract.

#### Investing Activities

For the six months ended June 30, 2024, net cash used in investing activities was \$0.7 million, which was comprised of capitalization of internally developed software and hardware purchases. Net cash used by investing activities, for the six months ended June 30, 2023, was \$0.7 million principally for capitalization of internally developed software.

#### Financing Activities

For six months ended June 30, 2024, net cash provided by financing activities totaled \$6.1 million which resulted from \$6.5 million in net proceeds from the sale of common stock through the use of our ATM program, private placement offering, and the exercise of warrants partially offset by finance lease payments. Net proceeds from financing activities of \$1.3 million for six months ended June 30, 2023, resulted principally from sales of common stock using our ATM program.

#### Critical Accounting Policies and Use of Estimates

Our condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The preparation of these condensed consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, expenses, and related disclosures. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances. We evaluate our estimates and assumptions on an ongoing basis. Actual results may differ from these estimates. To the extent that there are material differences between these estimates and our actual results, our future financial statements will be affected.

We believe the critical accounting policies and estimates discussed under "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Annual Report on Form 10-K for the year ended December 31, 2023, filed with the SEC on April 1, 2024, reflect our more significant judgments and estimates used in the preparation of the condensed consolidated financial statements. There have been no significant changes to our critical accounting policies and estimates as filed in such report.

#### Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

#### Item 4. CONTROLS AND PROCEDURES

We maintain "disclosure controls and procedures," as defined in Rule 13a-15(e) under the Exchange Act, that are designed to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within

the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognized that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable assurance of achieving the desired control objectives, and we must apply our reasonable judgment in evaluating the cost-benefit relationship of potential disclosure controls and procedures.

As of June 30, 2024, our management, including our principal executive officer and principal financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures and concluded that the disclosure controls and procedures were effective as of June 30, 2024.

There have not been any changes in our internal control over financial reporting that occurred during the quarter ended June 30, 2024, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II – OTHER INFORMATION

### Item 1. LEGAL PROCEEDINGS

#### Stockholder Derivative Claim

On June 3, 2022, a stockholder derivative complaint was filed in U.S. District Court, District of Delaware the Court by the Plaintiff Stockholder on behalf of Intrusion against Defendants. Plaintiff alleges that Defendants through various actions breached their fiduciary duties, wasted corporate assets, and unjustly enriched Defendants by (a) incurring costs and expenses in connection with the ongoing SEC investigation, (b) incurring costs and expenses to defend us with respect to the consolidated class action, (c) settling class-wide liability with respect to the consolidated class action, as well as ancillary claims regarding sales of our common stock by certain of the Defendants. On September 28, 2023, we agreed to settle the claim. On October 2, 2023, public notice of the settlement agreement was given. The settlement agreement provides in part for (i) an amendment to our Bylaws, committee Charters, and other applicable corporate policies to implement certain measures set forth more fully therein, to remain in effect for no less than three years; (ii) attorneys' fees and expenses to plaintiff's counsel of \$0.3 million; and (iii) the dismissal of all claims against the Defendants, including the Company, in connection with the action. The \$0.3 million settlement payment was made by our insurance provider under our insurance policy since our \$0.5 million retention was previously exhausted. On April 3, 2024, the Court approved the settlement.

In addition to these legal proceedings, we are subject to various other claims that may arise in the ordinary course of business. We do not believe that any claims exist where the outcome of such matters would have a material adverse effect on our condensed consolidated financial position, operating results, or cash flows. However, there can be no assurance such legal proceedings will not have a material impact on our future results.

### Item 1A. RISK FACTORS

In addition to the information set forth elsewhere in this Quarterly Report on Form 10-Q and the risk factor set forth below, you should carefully consider the risk factors we previously disclosed in our Annual Report on Form 10-K, filed with the SEC on April 1, 2024, as of and for the year ended December 31, 2023 (the "Annual Report"). These risks could materially and adversely affect our business, financial condition, results of operations, and cash flows. However, these risks are not the only risks we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may impair our business, financial condition, results of operations, and cash flows.

#### ***Our stock price is likely to be highly volatile because of several factors, including a limited public float.***

The market price of our common stock has been volatile in the past and the market price of our common stock is likely to be highly volatile in the future. You may not be able to resell shares of our common stock following periods of volatility because of the market's adverse reaction to volatility.

Other factors that could cause such volatility may include, among other things:

- actual or anticipated fluctuations in our operating results;
- the absence of securities analysts covering us and distributing research and recommendations about us;
- we may have a low trading volume for a number of reasons, including that a large portion of our stock is closely held;
- overall stock market fluctuations;
- announcements concerning our business or those of our competitors;

- actual or perceived limitations on our ability to raise capital when we require it, and to raise such capital on favorable terms;
- conditions or trends in the industry;

- litigation;
- changes in market valuations of other similar companies;
- future sales of common stock;
- departure of key personnel or failure to hire key personnel; and
- general market conditions.

Any of these factors could have a significant and adverse impact on the market price of our common stock. In addition, the stock market in general has at times experienced extreme volatility and rapid decline that has often been unrelated or disproportionate to the operating performance of particular companies. These broad market fluctuations may adversely affect the trading price of our common stock, regardless of our actual operating performance.

***Substantial future sales of shares of common stock could cause the market price of our shares of common stock to decline.***

We have agreed, at our expense, to prepare and file with the SEC certain registration statements providing for the resale of shares of common stock, including this registration statement. The resale, or expected or potential resale, of a substantial number of our shares of common stock in the public market could adversely affect the market price for our shares of common stock and make it more difficult for you to sell your shares of common stock at times and prices that you feel are appropriate. In particular, as a result of the SEPA, Streeterville is an "underwriter" as such term is defined in Section 2(a)(11) of Securities Act, and the SEPA contemplates that Streeterville expects to resell any shares of common stock we may issue and sell pursuant thereto. Furthermore, we expect that, because there will be a large number of shares registered, Streeterville will continue to offer such covered securities for a significant period of time, the precise duration of which cannot be predicted. Accordingly, the adverse market and price pressures resulting from an offering pursuant to a registration statement may continue for an extended period of time.

***The issuances of additional shares of common stock under the SEPA may result in dilution of holders of common stock and have a negative impact on the market price of the common stock.***

Pursuant to the SEPA, we may issue and sell up to \$10 million worth of shares of common stock ("Advance Shares") to Streeterville. The price at which we may issue and sell shares is at 95% of the lowest daily VWAP of the common stock during the three trading days following a notice to sell to Streeterville. Assuming that (a) we issue and sell the full \$10 million worth of shares of common stock under the SEPA to Streeterville, (b) no beneficial ownership limitations, and (c) the issue price for such sales is \$1.08 per share, such additional issuances would represent in the aggregate approximately 1,195,666 additional shares of common stock or approximately 16.5% of the total number of shares of common stock outstanding as of the date hereof, after giving effect to such issuance. In addition, the Company issued 92,592 shares of common stock (the "Streeterville Commitment Shares") to Streeterville upon the effective date of the SEPA as consideration for its irrevocable commitment to purchase shares of common stock at our direction, from time to time after the date of this prospectus. Furthermore, the Company issued 216,921 shares of common stock (the "Pre-Delivery Shares") to Streeterville for the purchase price of \$0.01 per share upon the effective date of the SEPA as further consideration for its irrevocable commitment to purchase shares of common stock at our direction, from time to time after the date of this prospectus. If the beneficial ownership limitation is not waived, we may issue approximately 670,365 shares of common stock, or approximately 9.99% of the total number of shares of common stock outstanding as of the date hereof, after giving effect to such issuance. The timing, frequency, and the price at which we issue shares of common stock are subject to market prices and management's decision to sell shares of common stock, if at all.

Upon effectiveness of this registration statement, Streeterville may resell all, some or none of their shares of common stock beneficially owned by them from time to time in their discretion and at different prices subject to the terms of the SEPA. As a result, investors will likely pay different prices for those shares, and so may experience different levels of dilution (and in some cases substantial dilution) and different outcomes in their investment results. Investors may experience a decline in the value of the shares they purchase as a result of future issuances by the Company, whether to Streeterville or others at prices lower than the prices such investors paid for their shares. In addition, if we issue a substantial number of shares to such parties, or if investors expect that we will do so, the actual sales of shares or the mere existence of the SEPA may adversely affect the price of our common stock or make it more difficult for us to sell equity or equity-related securities in the future at a desirable time and price, or at all.

The issuance, if any, of common stock would not affect the rights or privileges of the Company's existing stockholders, except that the economic and voting interests of existing stockholders would be diluted. Although the number of shares of common stock that existing stockholders own would not decrease as a result of these additional issuances, the shares of common stock owned by existing stockholders would represent a smaller percentage of the total outstanding shares of common stock after any such issuance, potentially significantly smaller.

***Future sales of our common stock may depress our share price.***

As of August 14, 2024, we had 6,641,525 shares of our common stock outstanding. Sales of a number of shares of common stock in the public market or issuances of additional shares pursuant to the exercise of our outstanding warrants, or the expectation of such sales or exercises, could cause the market price of our common stock to decline. We may also sell additional shares of common stock or securities convertible into or exercisable or exchangeable for common stock in subsequent public or private offerings or other transactions, which may adversely affect the market price of our common stock.

**Item 2. UNREGISTERED SALES OF EQUITY SECURITIES USE OF PROCEEDS AND ISSUER PURCHASES OF EQUITY SECURITIES**

On March 7, 2024, we agreed to exchange \$0.2 million in aggregate principal on Streeterville Note 1 for fifty-two thousand shares of our common stock.

On March 15, 2024, we agreed to exchange \$9.3 million in aggregate Streeterville debt for 9,275 shares of newly created Series A of Preferred stock.

On April 3, 2024, we agreed to exchange ninety-one shares of Series A Preferred Stock for 32,248 shares of our common stock. On May 10, 2024, we agreed to exchange 125 shares of Series A Preferred Stock for 90,460 shares of our common stock. On May 30, 2024, we agreed to exchange 339 shares of Series A Preferred Stock for 243,725 shares of our common stock.

On April 22, 2024, we sold 1,348,569 shares of the Company's common stock, par value \$0.01 per share (the "Common Stock"), together with accompanying common stock purchase warrants (the "Common Stock Purchase Warrants") to purchase 2,697,138 shares of Common Stock, at a purchase price of \$1.95 per share (or common stock equivalent) and two accompanying Common Stock Purchase Warrants, for net proceeds of approximately \$2.6 million. The Common Stock Purchase Warrants will be exercisable at any time following the date of issuance, expire five years following the date of issuance, and have an exercise price of \$1.70 per share. None of the shares of Common Stock and shares underlying the Common

Stock Purchase Warrants have been registered under the Securities Act of 1933, as amended, and do not carry registration rights.

The above exchanges and sales were made pursuant to an exemption from registration as set forth as set forth in Section 4(a)(2) of the Securities Act and/or Rule 506 of Regulation D promulgated under the Securities Act.

**Item 3. DEFAULTS UPON SENIOR SECURITIES**

None.

**Item 4. MINE SAFETY DISCLOSURES**

Not applicable.

**Item 5. OTHER INFORMATION**

- (a) None.
- (b) There have been no material changes to procedures by which security holders may recommend nominees to the Company's Board of Directors since the Company last provided disclosure in response to the requirements of Item 407(c)(3) of Regulation S-K.
- (c) During the quarter ended June 30, 2024, no director or officer adopted or terminated any Rule 10b5-1 trading arrangement or non-Rule 10b5-1 trading arrangement, as each term is defined in Item 408(a) of Regulation S-K.

**Item 6. EXHIBITS**

The following Exhibits are filed with this report form 10-Q:

## CERTIFICATIONS

I, Anthony Scott, certify that:

- (1) I have reviewed this Quarterly Report on Form 10-Q of Intrusion Inc.:
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- (4) The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or cause such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an Annual Report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- (5) The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
