(2) The impact of the assumed conversion of our 5.75% Series A Mandatory Convertible Preferred Stock (“Preferred Stock”) to shares of common stock would have been antidilutive in the calculations of Reported EPS and Adjusted EPS for all periods presented prior to the conversion of all outstanding shares of our Preferred Stock into shares of our Class B Common Stock on April 1, 2024. When antidilutive, in the calculations of EPS the weighted average number of diluted shares outstanding does not include the assumed issuance of shares upon conversion of preferred stock, and preferred stock dividends for the applicable period are deducted from net earnings (loss) from continuing operations.

(3) For periods when we reported a net loss the dilutive impact to shares for Reported EPS is excluded because it would be antidilutive.

(1) Reflects programming charges associated with major strategic changes in our content strategy that resulted in the removal of significant levels of content from our platforms, abandonment of development projects and termination of certain programming agreements.

(2) The second quarter of 2024 includes a goodwill impairment charge for our Cable Networks reporting unit of \$5.98 billion, which resulted from a downward adjustment to the reporting unit's expected cash flows primarily as a result of indicators in the linear affiliate marketplace in the period, and the market value indicated by the Skydance transactions. The remaining impairment charge in the second quarter of 2024 and in the other periods presented reflects charges to reduce the carrying value of intangible assets to their fair value.

(3) Principally reflects severance costs, lease impairments, transaction-related items, and other corporate matters.

(4) Primarily reflects a gain recognized upon the disposition of a noncore business.

(5) Includes fair value adjustments and gains and losses associated with the sale of investments.

(6) The tax impact has been calculated by applying the tax rates applicable to the adjustments presented.

(7) Includes the net discrete tax expense or (benefit) related to valuation allowance changes, guidance from tax authorities, the reorganization of international operations, the resolution of income tax matters, amounts realized in connection with the filing of tax returns, and tax expense or (excess benefit) from the vesting of stock-based compensation awards, among others.
