Preliminary Note Regarding Forward-Looking Statements.

This Quarterly Report on Form 10-Q, together with other statements and information publicly disseminated by us, contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The words or phrases “anticipate,” “estimate,” “believe,” “budget,” “continue,” “could,” “intend,” “may,” “plan,” “potential,” “predict,” “seek,” “should,” “will,” “would,” “expect,” “objective,” “projection,” “forecast,” “goal,” “guidance,” “outlook,” “effort,” “target” and similar expressions identify forward-looking statements. Such statements reflect management’s current views with respect to financial results related to future events and are based on assumptions and expectations that may not be realized and are inherently subject to risks and uncertainties, many of which cannot be predicted with accuracy and some of which might not even be anticipated. Future events and actual results, financial or otherwise, may differ, perhaps materially, from the results discussed in the forward-looking statements. Risk factors discussed in Item 1A of this Form 10-Q and other factors that might cause differences, some of which could be material, include, but are not limited to: the possibility that we may be unable to find appropriate investment opportunities; levels of construction activity in the markets served by our mining properties; demand for flexible warehouse/office facilities in the MidAtlantic and Florida; multifamily demand in Washington D.C., and Greenville, South Carolina; our ability to obtain zoning and entitlements necessary for property development; the impact of lending and capital market conditions on our liquidity, our ability to finance projects or repay our debt; general real estate investment and development risks; vacancies in our properties; risks associated with developing and managing properties in partnership with others; competition; our ability to renew leases or re-lease spaces as leases expire; illiquidity of real estate investments; bankruptcy or defaults of tenants; the impact of restrictions imposed by our credit facility; the level and volatility of interest rates; environmental liabilities; inflation risks; cyber security risks; as well as other risks listed from time to time in our SEC filings, including but not limited to, our annual and quarterly reports. We have no obligation to revise or update any forward-looking statements, other than as imposed by law, as a result of future events or new information. Readers are cautioned not to place undue reliance on such forward-looking statements. Additional information regarding these and other risk factors may be found in the Company’s other filings made from time to time with the Securities and Exchange Commission.

FRP HOLDINGS, INC. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2024
(Unaudited)

(1) Description of Business and Basis of Presentation.

FRP Holdings, Inc. is a holding company engaged in the real estate business, namely (i) leasing and management of commercial properties owned by the Company, (ii) leasing and management of mining royalty land owned by the Company, (iii) real property acquisition, entitlement, development and construction primarily for apartment, retail, warehouse, and office, (iv) leasing and management of residential apartment buildings.

The accompanying consolidated financial statements include the accounts of FRP Holdings, Inc. (the "Company" or "FRP") inclusive of our operating real estate subsidiaries, FRP Development Corp. ("Development"), Florida Rock Properties, Inc. ("Properties"), Riverfront Investment Partners I, LLC, and Riverfront Investment Partners II, LLC. Our investments accounted for under the equity method of accounting are detailed in Note 11. Our ownership of Riverfront Investment Partners I, LLC and Riverfront Investment Partners II, LLC includes a non-controlling interest representing the ownership of our partners.

These statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and the instructions to Form 10-Q and do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (primarily consisting of normal recurring accruals) considered necessary for a fair statement of the results for the interim periods have been included. Operating results for the six months ended June 30, 2024 are not necessarily indicative of the results that may be expected for the year ending December 31, 2024. The accompanying consolidated financial statements and the information included under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations" should be read in conjunction with the Company's consolidated financial statements and related notes included in the Company's Form 10-K for the year ended December 31, 2023.

During the 4th quarter of 2023, the Company renamed two of its reportable segments in order to clearly define projects within those segments. The Asset Management segment was renamed the Industrial and Commercial segment and the Stabilized Joint Venture segment was renamed the Multifamily Segment. There was no impact on consolidated total revenues, total cost of operations, operating profit, net earnings per share, or segment operating results as a result of these changes.

On April 12, 2024, the Company effected a 2-for-1 forward split of its common stock in the nature of a dividend. All share and per share information, including share-based compensation, throughout this report have been retroactively adjusted to reflect the stock split. The shares of common stock retain a par value of \$0.10 per share. Accordingly, an amount equal to the par value of the increased shares resulting from the stock split was reclassified from capital in excess of par value to common stock.

(2) Recently Issued Accounting Standards.

In June 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016 - 13, "Financial Instruments - Credit Losses," which introduced new guidance for an approach based on expected losses to estimate credit losses on certain types of financial instruments. This standard was effective for the Company as of January 1, 2023. There was no impact on our financial statements at adoption.

(3) Business Segments.

The Company is reporting its financial performance based on four reportable segments, Industrial and Commercial (previously named Asset Management), Mining Royalty Lands, Development, and Multifamily (previously named Stabilized Joint Venture), as described below.

The Industrial and Commercial Segment owns, leases and manages in-service commercial properties. Currently this includes nine warehouses in two business parks, an office building partially occupied by the Company, and two ground leases all wholly owned by the Company. This segment will also include joint ventures of commercial properties when they are stabilized.

Our Mining Royalty Lands Segment owns several properties totaling approximately 16,650 acres currently under lease for mining rents or royalties (this does not include the 4,280 acres owned in our Brooksville joint venture with Vulcan Materials). Other than one location in Virginia, all of these properties are located in Florida and Georgia.

Through our Development Segment, we own and are continuously assessing the highest and best use of several parcels of land that are in various stages of development. Our overall strategy in this segment is to convert all of our non-income producing lands into income production through (i) an orderly process of constructing new buildings for us to own and operate or (ii) a sale to, or joint venture with, third parties. Additionally, our Development segment will form joint ventures on new developments of land not previously owned by the Company.

The Multifamily Segment includes joint ventures which own, lease and manage apartment projects that have met our initial lease-up criteria. Two of our joint ventures in the segment, Riverfront Investment Partners I, LLC ("Dock 79") and Riverfront Investment Partners II, LLC ("The Maren") are consolidated. The ownership of Dock 79 and The Maren attributable to our partners are reflected on our consolidated balance sheet as a noncontrolling interest. Such noncontrolling interests are reported on the Consolidated Balance Sheets within equity but separately from shareholders' equity. On the Consolidated Statements of Income, all of the revenues and expenses from Dock 79 and The Maren are reported in net income, including both the amounts attributable to the Company and the noncontrolling interest. The amounts of consolidated net income attributable to the noncontrolling interest is clearly identified on the accompanying Consolidated Statements of Income.

Operating results and certain other financial data for the Company's business segments are as follows (in thousands):

(4) Related Party Transactions.

The Company was a party to an Administrative Services Agreement which resulted from our January 30, 2015 spin-off of Patriot Transportation Holding, Inc. (Patriot). The Administrative Services Agreement set forth the terms on which Patriot provided FRP certain services that were shared prior to the Spin-off, including the services of certain shared executive officers. The boards of the respective companies amended and extended this agreement for one year effective April 1, 2023. Patriot was purchased by an unaffiliated company in December 2023 resulting in FRP and Patriot no longer being related parties. The previously shared executive officers became FRP employees as of January 1, 2024.

The consolidated statements of income reflect charges and/or allocation from Patriot for these services of \$51,000 for the six months ended June 30, 2023. These charges are reflected as part of general and administrative expense.

To determine these allocations between FRP and Patriot as set forth in the Administrative Services Agreement, we employ an allocation method to allocate said expenses and thus we believe that the allocations to FRP are a reasonable approximation of the costs related to FRP's operations, but any such related-party transactions cannot be presumed to be carried out on an arm's-length basis.

(5) Long-Term Debt.

The Company's outstanding debt, net of unamortized debt issuance costs, consisted of the following (in thousands):

	June 30, 2024	December 31, 2023
Fixed rate mortgage loans, 3.03% interest only, matures 4/1/2033	\$ 180,070	180,070
Unamortized debt issuance costs	(1,291)	(1,365)
Credit agreement	—	—
	<u>\$ 178,779</u>	<u>178,705</u>

On December 22, 2023, the Company entered into a 2023 Amended and Restated Credit Agreement (the "Credit Agreement") with Wells Fargo Bank, N.A. ("Wells Fargo"), effective December 22, 2023. The Credit Agreement modifies the Company's prior Credit Agreement with Wells Fargo dated January 30, 2015. The Credit Agreement establishes a three-year revolving credit facility with a maximum facility amount of \$35 million. The interest rate under the Credit Agreement will be 2.25% over the Daily Simple SOFR in effect. A commitment fee of 0.35% per annum is payable quarterly on the unused portion of the commitment. As of June 30, 2024, there was no debt outstanding on this revolver, \$548,000 outstanding under letters of credit and \$34,452,000 available for borrowing. The letters of credit were issued to guarantee certain obligations to state

agencies related to real estate development. Most of the letters of credit are irrevocable for a period of one year and typically are automatically extended for additional one-year periods. The letter of credit fee is 2.25% and applicable interest rate would have been 7.59% on June 30, 2024. The credit agreement contains affirmative financial covenants and negative covenants, including a minimum tangible net worth. As of June 30, 2024, these covenants would have limited our ability to pay dividends to a maximum of \$100.4 million combined.

On March 19, 2021, the Company refinanced Dock 79 and The Maren pursuant to separate Loan Agreements and Deed of Trust Notes entered into with Teachers Insurance and Annuity Association of America, LLC. Dock 79 and The Maren borrowed principal sums of \$92,070,000 and \$88,000,000 respectively, in connection with the refinancing. The loans are separately secured by the Dock 79 and The Maren real property and improvements, bear a fixed interest rate of 3.03% per annum, and require monthly payments of interest only with the principal due in full April 1, 2033. Either loan may be prepaid subsequent to April 1, 2024, subject to yield maintenance premiums. Either loan may be transferred to a qualified buyer as part of a one-time sale subject to a 60% loan to value, minimum of 7.5% debt yield and a 0.75% transfer fee.

Debt cost amortization of \$44,000 and \$37,000 was recorded during the three months ended June 30, 2024 and 2023, respectively. Debt cost amortization of \$89,000 and \$74,000 was recorded during the six months ended June 30, 2024 and 2023, respectively. During the three months ended June 30, 2024 and 2023 the Company capitalized interest costs of \$617,000 and \$283,000, respectively. During the six months ended June 30, 2024 and 2023 the Company capitalized interest costs of \$1,150,000 and \$689,000, respectively.

The Company was in compliance with all debt covenants as of June 30, 2024.

(6) Earnings per Share.

The following details the computations of the basic and diluted earnings per common share as adjusted for the 2 for 1 stock split that occurred in April 2024 (in thousands, except per share amounts):

	Three Months ended June 30,		Six Months ended June 30,	
	2024	2023	2024	2023
Weighted average common shares outstanding during the period – shares used for basic earnings per common share	18,879	18,864	18,871	18,848
Common shares issuable under share-based payment plans which are potentially dilutive	69	68	87	78
Common shares used for diluted earnings per common share	18,948	18,932	18,958	18,926
Net income attributable to the Company	\$ 2,044	598	\$ 3,345	1,163
Earnings per common share:				
-basic	\$.11	.03	\$.18	.06
-diluted	\$.11	.03	\$.18	.06

For the three and six months ended June 30, 2024, the Company had 3,236 shares of stock options outstanding which were not used in the calculation above because the effect would have been anti-dilutive.

(7) Stock-Based Compensation Plans.

The Company has two Stock Option Plans (the 2006 Stock Incentive Plan and the 2016 Equity Incentive Option Plan) under which stock options, restricted stock, and stock awards were granted to directors, officers and key employees. The 2016 plan permits the grant of stock options, stock appreciation rights, restricted stock awards, restricted stock units, or stock awards. The options awarded under the plans have similar characteristics. All stock options are non-qualified and expire ten years from the date of grant. Stock based compensation awarded to directors, officers and employees are exercisable immediately or become exercisable in cumulative installments of 20% or 25% at the end of each year following the date of grant. When stock options are exercised, the Company issues new shares after receipt of exercise proceeds and taxes due, if any, from the grantee. The number of common shares available for future issuance was 569,384 at June 30, 2024.

The Company utilizes the Black-Scholes valuation model for estimating fair value of stock compensation for options awarded to officers and employees. Each grant is evaluated based upon assumptions at the time of grant. The assumptions were no dividend yield, expected volatility between 28.5% and 41.2%, risk-free interest rate of 2.0% to 3.8% and expected life of 5.0 to 7.0 years.

The dividend yield of zero is based on the fact that the Company does not pay cash dividends and has no present intention to pay cash dividends. Expected volatility is estimated based on the Company's historical experience over a period equivalent to the expected life in years. The risk-free interest rate is based on the U.S. Treasury constant maturity interest rate at the date of grant with a term consistent with the expected life of the options granted. The expected life calculation is based on the observed and expected time to exercise options by the employees.

The Company recorded the following stock compensation expense in its consolidated statements of income (in thousands):

	Three Months ended June 30,		Six Months ended June 30,	
	2024	2023	2024	2023
Stock option grants	\$ 20	\$ 16	\$ 39	\$ 33

Vested during three months ended June 30, 2024	—			\$ —

The aggregate intrinsic value of exercisable in-the-money options was \$1,082,000 and the aggregate intrinsic value of outstanding in-the-money options was \$1,082,000 based on the market closing price of \$28.52 on June 28, 2024 less exercise prices.

The unrecognized compensation cost of options granted to FRP employees but not yet vested as of June 30, 2024 was \$11,000, which is expected to be recognized over a weighted-average period of 4.1 years.

A summary of changes in restricted stock awards is presented below (in thousands, except share and per share amounts):

Restricted stock	Number Of Shares	Weighted Average Exercise Price	Weighted Average Remaining Term (yrs)	Weighted Average Grant Date Fair Value(000's)
Non-vested at January 1, 2024	109,454	\$ 26.47	2.8	\$ 2,897

Total unrecognized compensation cost of restricted stock granted but not yet vested as of June 30, 2024 was \$3,061,000 which is expected to be recognized over a weighted-average period of 2.9 years.

(8) Contingent Liabilities.

The Company may be involved in litigation on a number of matters and is subject to certain claims which arise in the normal course of business. The Company has retained certain self-insurance risks with respect to losses for third party liability and property damage. In the opinion of management, none of these matters are expected

to have a material adverse effect on the Company's consolidated financial condition, results of operations or cash flows.

The Company is subject to numerous environmental laws and regulations. The Company believes that the ultimate disposition of currently known environmental matters will not have a material effect on its financial position, liquidity, or operations. The Company can give no assurance that previous environmental studies with respect to its properties have revealed all potential environmental contaminants; that any previous owner, occupant or tenant did not create any material environmental condition not known to the Company; that the current environmental condition of the properties will not be affected by tenants and occupants, by the condition of nearby properties, or by unrelated third parties; and that changes in applicable environmental laws and regulations or their interpretation will not result in additional environmental liability to the Company.

As of June 30, 2024, there was \$548,000 outstanding under letters of credit. The letters of credit were issued to guarantee certain obligations to state agencies related to real estate development.

The Company and MidAtlantic Realty Partners (MRP) provided a guaranty for the interest carry cost of \$10 million loan on the Bryant Street Partnerships issued in December 2023. The Company and MRP have a side agreement limiting the Company's guarantee to its proportionate ownership. The value of the guarantee was calculated at \$1.5 million based on the present value of our assumption of 0.8% interest savings over the anticipated 36-month term. This amount is included as part of the Company's investment basis and is amortized to expense over the 36 months. The Company will evaluate the guarantee liability based upon the success of the project and assuming no payments are made under the guarantee, the Company will have a gain for \$1.5 million when the loan is paid in full.

(9) Concentrations.

The mining royalty lands segment has a total offsite tenants currently leasing mining locations and one lessee that accounted for 22.3% of the Company's consolidated revenues during the six months ended June 30, 2024, and \$493,000 of accounts receivable at June 30, 2024. The termination of these lessees' underlying leases could have a material adverse effect on the Company. The Company places its cash and cash equivalents with Wells Fargo Bank, TD Bank, and First Horizon Bank. At times, such amounts may exceed FDIC limits.

(10) Fair Value Measurements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. Level 1 means the use of quoted prices in active markets for identical assets or liabilities. Level 2 means the use of values that are derived principally from or corroborated by observable market data. Level 3 means the use of inputs are those that are unobservable and significant to the overall fair value measurement.

At June 30, 2024, the Company was invested in U.S. Treasury notes valued at \$136,493,000 maturing in 2024. The unrealized gain on these investments of \$3,000 was recorded as part of comprehensive income and based on the estimated market value by Wells Fargo Bank, N.A. (Level 1).

At June 30, 2024 and December 31, 2023, the carrying amount reported in the consolidated balance sheets for cash and cash equivalents including U.S. Treasury notes was adjusted to fair value as described above.

The fair values of the Company's other mortgage notes payable were estimated based on current rates available to the Company for debt of the same remaining maturities. At June 30, 2024, the carrying amount and fair value of such other long-term debt was \$180,070,000 and \$141,880,000, respectively. At December 31, 2023, the carrying amount and fair value of such other long-term debt was \$180,070,000 and \$145,678,000, respectively.

(11) Investments in Joint Ventures.

The Company has investments in joint ventures, primarily with other real estate developers. Joint ventures where FRP is not the primary beneficiary are reflected in the line "Investment in joint ventures" on the balance sheet and "Equity in loss of joint ventures" on the income statement. The assets of these joint ventures are restricted to use by the joint ventures and their obligations can only be settled by their assets or additional contributions by the partners.

The following table summarizes the Company's investments in unconsolidated joint ventures (in thousands):

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the accompanying unaudited consolidated financial statements and related notes in Item 1 and with the audited consolidated financial statements and the related notes included in our annual report on Form 10-K. The statements in this discussion regarding industry outlook, our expectations regarding our future performance, liquidity and capital resources and other non-historical statements in this discussion are forward-looking statements. These forward-looking statements are subject to risks and uncertainties, including the risks and uncertainties described in "Forward-Looking Statements" below and "Risk Factors" on page 5 of our annual report on Form 10-K. Our actual results may differ materially from those contained in or implied by any forward-looking statements. We assume no obligation to revise or publicly release any revision to any forward-looking statements contained in this quarterly report on Form 10-Q, unless required by law.

The following discussion includes a non-GAAP financial measure within the meaning of Regulation G promulgated by the Securities and Exchange Commission to supplement the financial results as reported in accordance with GAAP. The non-GAAP financial measure discussed is pro rata net operating income (NOI). The Company uses this metric to analyze its continuing operations and to monitor, assess, and identify meaningful trends in its operating and financial performance. This measure is not, and should not be viewed as, a substitute for GAAP financial measures. Refer to "Non-GAAP Financial Measure" below in this quarterly report for a more detailed discussion, including reconciliations of this non-GAAP financial measure to its most directly comparable GAAP financial measure.

Executive Overview - FRP Holdings, Inc. is a real estate development, asset management and operating company businesses. Our properties are located in the Mid-Atlantic and southeastern United States and consist of:

Residential apartments in Washington, D.C. and Greenville, SC;

Warehouse or office properties in Maryland or Florida either existing or under development;

Mining royalty lands, some of which will have second lives as development properties;

Mixed use properties under development in Washington, D.C., Greenville, SC or Florida; and

Properties held for sale.

We believe our present capital structure, liquidity and land provide us with years of opportunities to increase recurring revenue and long-term value for our shareholders. We intend to focus on our core business activity of real estate development, asset management and operations. We are developing a broad range of asset types that we believe will provide acceptable rates of return, grow recurring revenues and support future business. Capital commitments will be funded with cash proceeds from completed projects, existing cash, owned-land, partner capital and financing arrangements. Timing of projects may be subject to delays caused by factors beyond our control.

Reportable Segments

We conduct primarily all of our business in the following four reportable segments: (1) multifamily (2) industrial and commercial (3) mining royalty lands and (4) development.

Multifamily Segment.

At quarter end, the segment included five stabilized joint ventures which own and manage apartment buildings and any retail associated with a development. These assets create revenue and cash flows through tenant rental

payments, and reimbursements for building operating costs. The Company's residential units typically lease for 12 – 15-month lease terms. 90 days prior to the expiration, as long as there is no balance due, the tenant is offered a renewal. If no notice to move out or renew is made, then the leases go month-to-month until notification of termination or renewal is received. Renewal terms are typically 9 – 12 months. The Company also leases retail spaces at apartment/mixed-use properties. The retail leases are typically 10 -15-year leases with options to renew for another five years. Retail leases at these properties also include percentage rents which collect on average 3-6% of annual sales when a tenant exceeds a breakpoint stipulated by each individual lease. All base rent revenue is recognized on a straight-line basis. The major cash outlays incurred in this segment are for property taxes, full service maintenance, property management, utilities and marketing. The five multifamily properties are as follows:

Property and Occupancy	JV Partners	Method of Accounting	% Ownership
Dock 79, Washington, D.C., 305 apartment units and 14,430 square feet of retail	MRP Realty & Steuart Investment Company	Consolidated	52.8%
The Maren, Washington, D.C., 264 residential units and 6,811 square feet of retail	MRP Realty & Steuart Investment Company	Consolidated	56.33%
Riverside, Greenville, SC, 200 apartment units	Woodfield Development	Equity Method	40%
Bryant Street, Washington D. C., 487 apartment units and 91,520 square feet of retail	MRP Realty	Equity Method	72.10%
.408 Jackson, Greenville, SC, 227 apartment units and 4,539 square feet of retail.	Woodfield Development	Equity Method	40%

Industrial and Commercial Segment.

The Industrial and Commercial segment owns, leases and manages commercial properties. These assets create revenue and cash flows through tenant rental payments, lease management fees and reimbursements for building operating costs. The Company's industrial warehouses typically lease for terms ranging from 3 – 10 years often with one or two renewal options. All base rent revenue is recognized on a straight-lined basis. All of the commercial warehouse leases are triple net leases. Common area maintenance costs (CAM Revenue) are billed monthly, and insurance and real estate taxes are billed annually. 34 Loveton is the only office product wherein all leases are full service therefore there is no CAM revenue. Office leases are also recognized on a straight-lined basis. The major cash outlays incurred in this segment are for operating expenses, real estate taxes, building repairs, lease commissions and other lease closing costs, construction of tenant improvements, capital to acquire existing operating buildings and closing costs related thereto and personnel costs of our property management team.

As of June 30, 2024, the Industrial and Commercial Segment includes four commercial properties owned by the Company in fee simple as follows:

- 1) 34 Loveton Circle in suburban Baltimore County, MD consists of one office building totaling 33,708 square feet which is 90.8% occupied (16% of the space is occupied by the Company for use as our Baltimore headquarters). The property is subject to commercial leases with various tenants.
- 2) 155 E. 21st Street in Duval County, FL was an office building property that remains under lease through March 2026. We permitted the tenant to demolish all structures on the property during 2018.

- 3) Cranberry Run Business Park in Harford County, MD consists of five industrial buildings totaling 267,737 square feet which are 92.1% occupied and 92.1% leased. The property is subject to commercial leases with various tenants.
- 4) Hollander 95 Business Park in Baltimore City, MD consists of three industrial buildings totaling 247,340 square feet and two ground leases that are 100.0% leased and 100.0% occupied.

Management focuses on and compares several measures of success in this segment (1) net operating income growth, (2) average annual occupancy rate (defined as the occupied square feet at the end of each month during a fiscal year divided by the number of months to date in that fiscal year as a percentage of the average number of square feet in the portfolio over that same time period), and (3) tenant retention success rate (as a percentage of total square feet to be renewed). Among the ways we improve these metrics are focusing on tenant retention and occupancy growth, building and refurbishing assets to meet Class A and Class B institutional grade classifications, and minimizing deferred capital expenditures and asset complexities.

Mining Royalty Lands Segment.

Our Mining Royalty Lands segment owns several properties totaling approximately 16,650 acres currently under lease for mining rents or royalties (excluding the 4,280 acres owned by our Brooksville joint venture with Vulcan Materials). Other than one location in Virginia, all of these properties are located in Florida and Georgia. The Company leases land under long-term leases that grant the lessee the right to mine and sell sand and stone deposits from our property in exchange for royalty payments. A typical lease has an option to extend the lease for additional terms. The typical lease in this segment requires the tenant to pay us a royalty based on the number of tons of mined materials sold from our property during a given fiscal year multiplied by a percentage of the average annual sales price per ton sold. As a result of this royalty payment structure, we do not bear the cost risks associated with the mining operations, however, we are subject to the cyclical nature of the construction markets in these states as both volumes and prices tend to fluctuate through those cycles. In certain locations, typically where the sand and stone deposits on our property have been depleted but the tenant still has a need for the leased land, we collect a minimum annual rental amount. We believe strongly in the potential for future growth in construction in Florida, Georgia, and Virginia which would positively benefit our profitability in this segment.

The major expenses in this segment are comprised of collection and accounting for royalties, management's oversight of the mining leases, land entitlement for post-mining uses and property taxes at our non-leased locations and at our Grandin location which, unlike our other leased mining locations, are not entirely paid by the tenant. As such, our costs in this business are very low as a percentage of revenue, are relatively stable and are not affected by increases in production at our locations. Our current mining tenants include Vulcan Materials, Martin Marietta, Cemex, Argos and The Concrete Company.

Additionally, these locations provide us with opportunities for valuable "second lives" for these assets through proper land planning and entitlement.

Significant "Second life" Mining Lands:

<u>Location</u>	<u>Acreage</u>	<u>Status</u>
Brooksville, FL	4,280 +/-	Development of Regional Impact and County Land Use and Master Zoning in place for 5,800 residential unit, mixed-use development
Ft. Myers, FL	1,907 +/-	Seeking to rezone and obtain entitlements to allow residential development following mining operations and the extension of Alico Road
Total	6,187 +/-	

Development Segment.

Through our Development segment, we own and are continuously monitoring for “the highest and best use” of several parcels of land that are in various stages of development. Our overall strategy in this segment is to convert all our non-income producing lands into income production through (i) an orderly process of constructing new commercial and residential buildings for us to own and operate or (ii) a sale to, or joint venture with, outside parties. Additionally, our Development segment will purchase land or form joint ventures for new developments of land not previously owned by the Company.

Revenues in this segment are generated predominately from land sales and interim property rents. The significant cash outlays incurred in this segment are for land acquisition costs, entitlement costs, property taxes, design and permitting, the personnel costs of our in-house management team and horizontal and vertical construction costs.

Development Segment – Warehouse/Office Land.

At June 30, 2024, this segment owned the following future development parcels:

- 1) 54 acres of land that will be capable of supporting up to 635,000 square feet of industrial product located at 1001 Old Philadelphia Road in Aberdeen, MD.
- 2) 17 acres of land in Harford County, MD that accommodates a 258,000 square foot speculative warehouse project on Chelsea Road under construction due to be complete in the fourth quarter of 2024.
- 3) 170 acres of land in Cecil County, MD that can accommodate 900,000 square feet of industrial development.

We also have three properties that were either spun-off to us from Florida Rock Industries in 1986 or acquired by us from unrelated third parties. These properties, as a result of our “highest and best use” studies, are being prepared for income generation through sale or joint venture with third parties, and in certain cases we are leasing these properties on an interim basis for an income stream while we wait for the development market to mature.

Development Segment - Significant Investment Lands Inventory:

<u>Location</u>	<u>Approx. Acreage</u>	<u>Status</u>	<u>NBV</u>
Riverfront on the Anacostia Phases III-IV	2.25	Conceptual design program ongoing	\$7,196,000
Hampstead Trade Center, MD	118	Zoning applied for in preparation for sale	\$11,130,000

Total	122.4		\$25,601,000

Development Segment - Investments in Joint Ventures

The third leg of our Development Segment consists of investments in joint ventures for properties in development. The Company has investments in joint ventures, primarily with other real estate developers which are summarized below:

Property	JV Partner	Status	% Ownership
Brooksville Quarry, LLC near Brooksville, FL	Vulcan Materials Company	Future planned residential development of 4,280 acres which are currently subject to mining lease	50%
BC FRP Realty, LLC for 35 acres in Maryland	St John Properties	329,000 square-foot, multi-building business park in lease-up	50%

Executive Summary and Analysis – Net Income increased by 242% in the second quarter and 188% for the first six months compared to last year, despite operating profit remaining more or less flat. This increase is due both to the improved performance of the Verge during lease-up and increased net investment income from the steady sale of lots this year at Aberdeen Overlook, our most recent Lending Venture. In the second quarter, Aberdeen Overlook generated \$1.5 million in investment income compared to \$564,000 in the second quarter last year from a previous lending venture, Amber Ridge. In the first six months, Aberdeen Overlook generated \$2.1 million in investment income compared to \$614,000 last year from Amber Ridge. While Lending Ventures are not necessarily part of our long-term core business strategy, they have been an effective way to put our balance sheet to work to generate real cash at better returns than treasuries.

The Company continued to grow Pro rata Net Operating Income (NOI) at the same meaningful clip that we have achieved over the last 36 months (21.6% CAGR since the same period in 2021). In the second quarter, we saw a 21.2% improvement in NOI compared to the same period last year, and a 21.7% increase in NOI in the first six months compared to the same period last year. The Industrial and Commercial and Multifamily Segments were the primary drivers of this increase. We grew our Industrial and Commercial NOI by 41% in

the second quarter and 44% in the first six months when compared to the same periods last year as we burned through a rent abatement period (unrealized revenue) at two buildings at Hollander Business Park in 2023 and started generating real cash flow. Multifamily pro rata NOI increased by 84% this quarter and 88% for the first six months when compared to the same periods last year, mostly due to the stabilization of .408 Jackson and Bryant Street. The addition of the Verge to this segment later this year should only serve to increase the performance of this segment on an NOI basis.

In keeping with our strategy to grow our industrial footprint, in July, we closed on the purchase of the land for our industrial joint venture in Broward County, FL for a total purchase price of \$24.5 million, of which we contributed \$12.25 million. Per our partnership agreement, we represent 80% of the equity capital in this 182,000 square-foot class A building. We also closed on the land for our other industrial JV in Lakeland, FL at the end of the first quarter of this year for a total purchase price of \$2.8 million. We will account for 90% of the equity capital for this 200,000 square-foot industrial project. Total expected capex for these projects is \$57 million and \$28 million respectively with total equity capital of \$26 million and \$13 million and an expected start of construction by March of 2025 for both projects. We are in the home stretch on finishing shell construction on our Chelsea project in Harford County, MD. This 258,000 square-foot industrial building should be complete in the fourth quarter of this year with an expected total project cost, including land, of \$30 million. We have underwritten all these projects at an unlevered 6-7% yield on cost but expect to outperform these assumptions.

Second Quarter Highlights

- 242% increase in Net Income (\$2.0 million vs \$598,000)
- 21% increase in pro rata NOI (\$9.2 million vs \$7.6 million)
- 84% increase in the Multifamily segment's pro rata NOI due to the transfer of Bryant St. and .408 Jackson to this segment from our Development segment at the beginning of this fiscal year
- 41% increase in Industrial and Commercial segment NOI

Net income for the second quarter of 2024 was \$2,044,000 or \$.11 per share versus \$598,000 or \$.03 per share in the same period last year. Pro rata NOI for the second quarter of 2024 was \$9,230,000 versus \$7,614,000 in the same period last year. The second quarter of 2024 was impacted by the following items:

- Operating profit increased slightly as favorable results in Multifamily, Industrial and Commercial, and Development were partially offset by lower Mining royalties and higher General and administrative costs.
- Net investment income increased \$583,000 due to increased earnings on cash equivalents (\$408,000) and increased income from our lending ventures (\$781,000), partially offset by decreased preferred interest (\$606,000) due to the conversion of FRP preferred equity to common equity at Bryant Street.
- Interest expense decreased \$300,000 compared to the same quarter last year due to \$334,000 more capitalized interest partially offset by increased costs related to our larger credit agreement. More interest was capitalized due to increased in-house and joint venture projects under development this quarter compared to last year.

- Equity in loss of Joint Ventures improved \$1,323,000 due to improved results of our unconsolidated joint ventures. Results improved at The Verge (\$891,000), .408 Jackson (\$225,000), Bryant Street (\$159,000), and BC Realty (\$55,000).

Riverside achieved stabilization in 2022 while Bryant Street and .408 Jackson moved from our Development Segment to this segment upon stabilization as of the beginning of 2024.

Total revenues for our two consolidated joint ventures were \$5,496,000, a decrease of \$49,000 versus \$5,545,000 in the same period last year. Total operating profit for the consolidated joint ventures was \$1,130,000, an increase of \$218,000, or 24% versus \$912,000 in the same period last year primarily because of less depreciation expense.

For our three unconsolidated joint ventures, pro rata revenues were \$3,865,000, an increase of \$905,000 or 31% compared to \$2,960,000 in the same period last year. Pro rata operating profit was \$508,000, an increase of \$455,000 or 858% versus \$53,000 in the same period last year. For ease of comparison these figures and the

tables include the results for Bryant Street and .408 Jackson from the same period last year (when these projects were still in our Development segment).

The combined consolidated and unconsolidated pro rata net operating income this quarter for this segment was \$3,970,000, up \$1,818,000 or 84% compared to \$2,152,000 in the same quarter last year. Substantially all of this increase was from the transfer of Bryant Street and .408 Jackson from Development to this segment at the beginning of 2024 as same store NOI was more or less flat. These two projects contributed \$1,900,000 of pro rata NOI to this segment compared to \$1,218,000 in the Development segment in the same quarter last year, an increase of \$682,000.

Operating profit	\$ 490	33.9 %	410	28.9 %	80	19.5 %

Total revenues in this segment were \$1,445,000, up \$25,000 or 2%, over the same period last year. Operating profit was \$490,000, up \$80,000 or 20% over the same quarter last year. We now have nine buildings in service at three different locations totaling 515,077 square feet of industrial and 33,708 square feet of office. These assets were 95.6% leased and occupied during the entire quarter. Net operating income in this segment was \$1,187,000, up \$344,000 or 41% compared to the same quarter last year primarily due to \$335,000 more unrealized rental revenue in the prior year due to rent abatements that expired in 2023.

Total revenues in this segment were \$3,231,000, a decrease of \$33,000 or 1% versus \$3,264,000 in the same period last year. Royalty tons were down 5%. Total operating profit in this segment was \$2,643,000, a decrease of \$89,000 versus \$2,732,000 in the same period last year. Net Operating Income this quarter for this segment was \$3,028,000, down \$97,000 or 3% compared to the same quarter last year. The primary reason for these decreases is the deduction of royalties to resolve an \$842,000 overpayment, as referenced in our 10-Q from the quarter ended June 30, 2023. As part of the ongoing resolution of this overpayment, this quarter, the tenant withheld \$277,000 in royalties otherwise due the Company. The outstanding balance on this overpayment credit is \$53,000 which we expect will be exhausted in the first month of the third quarter of this year.

With respect to ongoing Development Segment projects:

- We entered into two new joint venture agreements in early 2024 with BBX Logistics. The first joint venture is a 200,000 square-foot warehouse development project in Lakeland, FL, and the second joint venture is a 182,000 square-foot warehouse redevelopment project in Broward County, FL. We anticipate construction to start on both projects in the first quarter of 2025.
- Last summer we broke ground on a new speculative warehouse project in Aberdeen, MD on Chelsea Road. Vertical construction is underway. This Class A, 258,000 square foot building is due to be complete in the 4th quarter of 2024.
- The Verge has achieved residential stabilization and will move to our Multifamily segment on July 1, 2024. At quarter end, the building was 93.3% leased and 90.7% occupied. This is our third mixed-use project in the Anacostia waterfront submarket in Washington, DC.
- We are the principal capital source to develop 344 residential lots on 110 acres in Harford County, MD. We have funded \$24.6 million of our \$31.1 million total commitment. A national homebuilder is under contract to purchase all 222 townhome lots and 122 single family lots. At quarter-end, 78 lots have been sold and \$12.7 million of preferred interest and principal has been returned to the company of which \$3.2 million was booked as profit to the Company.

Six Month Highlights

- 188% increase in Net Income (\$3.3 million vs \$1.2 million)
- 22% increase in pro rata NOI (\$17.8 million vs \$14.6 million)
- 88% increase in the Multifamily segment's pro rata NOI due to the transfer of Bryant St. and .408 Jackson to this segment from our Development segment at the beginning of the year
- 16% increase in Industrial and Commercial revenue and 44% increase in that segment's NOI

Net income for the first six months of 2024 was \$3,345,000 or \$.18 per share versus \$1,163,000 or \$.06 per share in the same period last year. Pro rata NOI for the first six months of 2024 was \$17,764,000 versus \$14,602,000 in the same period last year. The first six months of 2024 were impacted by the following items:

- Operating profit increased slightly as favorable results in Multifamily, Industrial and Commercial, and Development were partially offset by lower Mining royalties and higher General and administrative costs.
- Net investment income increased \$984,000 due to increased earnings on cash equivalents (\$960,000) and increased income from our lending ventures (\$1,230,000), partially offset by decreased preferred interest (\$1,206,000) due to the conversion of FRP preferred equity to common equity at Bryant Street.
- Interest expense decreased \$395,000 compared to the same period last year due to \$461,000 more capitalized interest partially offset by increased costs related to our larger credit agreement. More interest was capitalized due to increased in-house and joint venture projects under development this quarter compared to last year.

- Equity in loss of Joint Ventures improved \$1,929,000 due to improved results at our unconsolidated joint ventures. Results improved at The Verge (\$1,587,000), .408 Jackson (\$273,000), and BC Realty (\$110,000).

Total revenues in this segment were \$2,898,000, up \$408,000 or 16%, over the same period last year. Operating profit was \$1,052,000, up \$347,000 or 49% from \$705,000 in the same quarter last year. Revenues and operating profit are up because of full occupancy at 1841 62nd Street (which had only \$11,000 of revenue in the first quarter last year) and the addition of 1941 62nd Street to this segment in March 2023. We were 95.6% leased and occupied during the entire period. Net operating income in this segment was \$2,346,000, up \$716,000 or 44% compared to the same period last year partially due to \$401,000 more unrealized rental revenue in the prior year due to rent abatements that expired in 2023.

Total operating profit in this segment was \$5,089,000, a decrease of \$433,000 versus \$5,522,000 in the same period last year. Net operating income in this segment was \$5,788,000, down \$485,000 or 8% compared to the same period last year. The primary factor in the decrease is the deduction of royalties to resolve an \$842,000 overpayment which we referenced previously. Through the first two quarters of this year, the tenant has withheld \$566,000 in royalties otherwise due to the Company.

Liquidity and Capital Resources. The growth of the Company's businesses requires significant cash needs to acquire and develop land or operating buildings and to construct new buildings and tenant improvements. As of June 30, 2024, we had \$156,929,000 of cash and cash equivalents. As of June 30, 2024 we had no debt borrowed under our \$35 million Wells Fargo revolver, \$548,000 outstanding under letters of credit and \$34,452,000 available to borrow under the revolver. On March 19, 2021, the Company refinanced Dock 79 and The Maren projects pursuant to separate Loan Agreements and Deed of Trust Notes entered into with Teachers Insurance and Annuity Association of America, LLC. Dock 79 and The Maren borrowed principal sums of \$92,070,000 and \$88,000,000 respectively, in connection with the refinancing.

Cash Flows - The following table summarizes our cash flows from operating, investing and financing activities for each of the periods presented (in thousands of dollars):

	Six Months Ended June 30,	
	2024	2023
Total cash provided by (used for):		
Operating activities	\$ 15,082	12,853
Investing activities	(14,219)	(21,931)
Financing activities	(1,489)	(1,882)
Increase (decrease) in cash and cash equivalents	\$ (626)	(10,960)
Outstanding debt at the beginning of the period	178,705	178,557
Outstanding debt at the end of the period	178,779	178,631

Operating Activities - Net cash provided by operating activities for the six months ended June 30, 2024 was \$15,082,000 versus \$12,853,000 in the same period last year. Income and NOI increased substantially but net cash provided by operating activities of the company excludes the unconsolidated joint ventures where much of the increase occurred.

At June 30, 2024, the Company was invested in U.S. Treasury notes valued at \$136,493,000 maturing in 2024. The unrealized gain on these investments of \$3,000 was recorded as part of comprehensive income and was based on the estimated market value by Wells Fargo Bank, N.A. (Level 1).

Investing Activities - Net cash used in investing activities for the six months ended June 30, 2024 was \$14,219,000 versus \$21,931,000 in the same period last year. The \$7.7 million decrease was primarily due to a \$11.8 million decrease in investments in joint ventures due to lower capital calls and lending activity, a \$6.9 million increase in return of capital from joint ventures due to permanent financing at .408 Jackson and higher lending venture returns partially offset by a \$10.3 million increase in property due to active warehouse construction.

Financing Activities - Net cash required by financing activities was \$1,489,000 versus \$1,882,000 in the same period last year primarily due to \$1.0 million repurchase of stock mostly offset by the exercise of employee stock options in the same period last year.

Credit Facilities - On December 22, 2023, the Company entered into a 2023 Amended and Restated Credit Agreement (the "Credit Agreement") with Wells Fargo Bank, N.A. ("Wells Fargo"). The Credit Agreement modifies the Company's prior Credit Agreement with Wells Fargo, dated January 30, 2015. The Credit Agreement establishes a three-year revolving credit facility with a maximum facility amount of \$35 million. The interest rate under the Credit Agreement will be 2.25% over Daily Simple SOFR. A commitment fee of 0.35% per annum is payable quarterly on the unused portion of the commitment. The credit agreement contains certain conditions and financial covenants, including a minimum tangible net worth and dividend restriction. As of June 30, 2024, these covenants would have limited our ability to pay dividends to a maximum of \$100.4 million combined.

On March 19, 2021, the Company refinanced Dock 79 and The Maren projects pursuant to separate Loan Agreements and Deed of Trust Notes entered into with Teachers Insurance and Annuity Association of America, LLC. Dock 79 and The Maren borrowed principal sums of \$92,070,000 and \$88,000,000 respectively, in connection with the refinancing. The loans are separately secured by the Dock 79 and The Maren real property and improvements, bear a fixed interest rate of 3.03% per annum, and require monthly payments of interest only with the principal in full due April 1, 2033. Either loan may be prepaid subsequent to April 1, 2024, subject to yield maintenance premiums. Either loan may be transferred to a qualified buyer as part of a one-time sale subject to a 60% loan to value, minimum of 7.5% debt yield and a 0.75% transfer fee.

On December 4, 2023 the Bryant Street partnership secured a \$110,000,000 loan with a floating rate equal to SOFR plus 2.9% from Rialto Capital Management, replacing the \$132,000,000 loan with Capital One. It is a three year loan with two one-year extensions. A SOFR rate cap was secured at 5.35% from Chatham Financial creating an effective interest rate ceiling of 8.25%. The loan has a floor interest rate of 6.90%. FRP will look to secure a fixed permanent loan in the future when interest rates are more favorable.

On January 30, 2024 the Greenville partnership at .408 Jackson secured a \$49,450,000 loan with a fixed rate of 5.59% from Fannie Mae, replacing the \$36,000,000 loan with First National Bank. It is a seven year loan maturing February 1, 2031. The interest rate was favorable given the current market conditions and the term coincides with when the opportunity zone holding period lapses in 2030, when a sale could take place and the tax on gain is forgiven. As a result of refinancing, the Company received a \$5 million return of capital.

On April 25, 2024 the Verge partnership secured a \$68,862,000 loan with a fixed rate of 5.72% from Fannie Mae, replacing the \$72,823,000 loan with Truist Bank. It is a seven year loan maturing May 1, 2031. The interest rate was favorable given the current market conditions and the term coincides with when the opportunity zone holding period lapses in 2030, when a sale could take place and the tax on gain is forgiven.

Cash Requirements – The Company expects to invest \$46 million into our existing real estate holdings and joint ventures during the remainder of 2024 and \$196 million beyond 2024 for projects currently in our pipeline, with such capital being funded from cash and investments on hand, cash generated from operations, property sales, distributions from joint ventures, or borrowings under our credit facilities.

Non-GAAP Financial Measure.

To supplement the financial results presented in accordance with GAAP, FRP presents certain non-GAAP financial measures within the meaning of Regulation G promulgated by the Securities and Exchange Commission. We believe these non-GAAP measures provide useful information to our Board of Directors, management and investors regarding certain trends relating to our financial condition and results of operations. Our management uses these non-GAAP measures to compare our performance to that of prior periods for trend analyses, purposes of determining management incentive compensation and budgeting, forecasting and planning purposes. We provide Pro rata net operating income (NOI) because we believe it assists investors and analysts in estimating our economic interest in our consolidated and unconsolidated partnerships, when read in conjunction with our reported results under GAAP. This measure is not, and should not be viewed as, a substitute for GAAP financial measures.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

Interest Rate Risk - We are exposed to the impact of interest rate changes through our variable-rate borrowings under our Credit Agreement with Wells Fargo.

Under the Wells Fargo Credit Agreement, the applicable margin for borrowings at June 30, 2024 was Daily simple SOFR plus 2.25%.

The Company did not have any variable rate debt at June 30, 2024, so a sensitivity analysis was not performed to determine the impact of hypothetical changes in interest rates on the Company's results of operations and cash flows.

ITEM 4. CONTROLS AND PROCEDURES

CONCLUSION REGARDING THE EFFECTIVENESS OF DISCLOSURE CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), as appropriate, to allow timely decisions regarding required disclosure.

The Company also maintains a system of internal accounting controls over financial reporting that are designed to provide reasonable assurance to the Company's management and Board of Directors regarding the preparation and fair presentation of published financial statements.

All control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance of achieving the desired control objectives.

As of June 30, 2024, the Company, under the supervision and with the participation of the Company's management, including the CEO, CFO and CAO, carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on this evaluation, the Company's CEO, CFO and CAO concluded that the Company's disclosure controls and procedures are effective in alerting them in a timely manner to material information required to be included in periodic SEC filings.

There have been no changes in the Company's internal controls over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2023, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 2. PURCHASES OF EQUITY SECURITIES BY THE ISSUER

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased As Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾

Total	—	\$ —	—	

(1) On February 4, 2015, the Board of Directors authorized management to expend up to \$5,000,000 to repurchase shares of the Company's common stock from time to time as opportunities arise. On December 5, 2018, the Board of Directors approved a \$10,000,000 increase in the Company's stock repurchase authorization. On August 5, 2019, the Board of Directors approved a \$10,000,000 increase in the Company's stock repurchase authorization. On May 6, 2020, the Board of Directors approved a \$10,000,000 increase in the Company's stock repurchase authorization. On August 26, 2020, the Board of Directors approved a \$10,000,000 increase in the Company's stock repurchase authorization.
