Basis of Presentation

The accompanying unaudited consolidated financial statements were prepared by management based on accounting principles generally accepted in the United States ("GAAP") and are presented below.

The Company's business operations consist primarily of providing banking services through its subsidiaries, which include NewLane Finance Corporation ("NewLane"), NewLane Bank ("Bank"), NewLane Capital Management LLC ("Capital Management"), NewLane Wealth Management LLC ("Wealth Management"), NewLane Equipment Finance Corporation ("BEFC"), and NewLane Holdings, Inc. ("Holdings"). The Company also provides residential and commercial mortgage, commercial and consumer lending services, as well as consumer deposit and treasury management services. The Company's core banking business is commercial lending funded primarily by customer-generated deposits. In addition, the Company offers a variety of wealth management and trust services to individuals, institutions and corporations. The Federal Deposit Insurance Corporation (FDIC) insures the Company's customers' deposits to their legal maximums. The Company serves its customers primarily from 114 offices located in Pennsylvania (57), Delaware (39), New Jersey (14), Florida (2), Nevada (1) and Virginia (1). Its ATM network, website at www.wfsfbank.com and mobile app. Information on the website is not incorporated by reference into this Quarterly Report on Form 10-Q. The Company's leasing business is conducted by NewLane Finance Corp. NewLane Finance Corp originates small business leases and provides commercial financing to businesses nationwide, targeting various equipment categories including technology, software, office, medical, veterinary and other areas. In addition, NewLane Finance Corp offers captive insurance through its subsidiary, Prime Protect Basis of PresentationIn preparing the unaudited Consolidated Financial Statements, the Company is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. Amounts subject to significant estimates include the allowance for credit losses (including loans and leases held for investment, investment securities available-for-sale and held-to-maturity), loans held for sale, lending-related commitments, goodwill, intangible assets, post-retirement benefit obligations, the fair value of financial instruments, and income taxes. Among other effects, changes to these estimates could result in future impairments of investment securities, goodwill and intangible assets, the establishment of additional allowance and lending-related commitment reserves, changes in the fair value of financial instruments, as well as increased post-retirement benefits and income tax expense. The Company's accounting and reporting policies conform to Generally Accepted Accounting Principles in the U.S. (GAAP), prevailing practices within the banking industry for interim financial information and Rule 10-01 of SEC Regulation S-X (Rule 10-01). A Rule 10-01 does not require us to include all information and notes that would be required in audited financial statements. A Operating results for the periods presented are not necessarily indicative of the results that may be expected for any future quarters or for the year ending December 31, 2024. These unaudited, interim Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and related notes included in the Annual Report on Form 10-K for the year ended December 31, 2023 (the "2023 Annual Report on Form 10-K") that was filed with the SEC on February 29, 2024 and is available at www.sec.gov or on the website at www.wfsfbank.com. All significant intercompany accounts and transactions were eliminated in consolidation.12Table of Contents2. Baillment fees are earned from baillment arrangements with customers. Baillment arrangements are legal relationships in which property is delivered to another party without a transfer of ownership. The party who transferred the property (the bailor) retains ownership interest of the property. In the event that the bailees files for bankruptcy protection, the property is not included in the bailees' assets. The bailee pays an agreed-upon fee for the use of the bailor's property in exchange for the bailor allowing use of the assets at the bailee's site. Bailment fees are earned from cash that is made available for customers' use at an offsite location, such as cash located in an ATM at a customer's place of business. These fees are typically indexed to a market interest rate. This revenue stream generates fee income through monthly billing for baillment services.Credit/debit card and ATM income also includes interchange fees. Interchange fees are paid by a merchant's bank to a bank that issued a debit or credit card used in a transaction to compensate the issuing bank for the value and benefit the merchant receives from accepting electronic payments. These revenue streams generate fee income at the time a transaction occurs and are recorded as revenue at the time of the transaction.Investment management and fiduciary incomeThe following table presents the components of investment management and fiduciary income:Three Months Ended June 30,Six Months Ended June 30,(Dollars in thousands)20240220232024022023Trust

income\$37,606A \$32,379A \$70,534A \$62,855A Investment management and fiduciary income is composed of trust fees and wealth management and advisory fees. Trust fees are based on revenue earned from custody, escrow, trustee and trustee related services on structured finance transactions; indenture trustee, administrative agent and collateral agent services to individuals, institutions and corporations; commercial domicile and independent director services; and investment and trustee services to families and individuals. Most fees are flat fees, except for a portion of personal and corporate trustee fees where the Company earns a percentage on the assets under management or assets held within a trust. This revenue stream primarily generates fee income through monthly, quarterly and annual billings for services provided. Wealth management and advisory fees consists of fees from Bryn Mawr Trust (excluding BMT-DE), BMCM, Powdermill® and WSFS Wealth® Investments. Wealth management and advisory fees are based on revenue earned from services including asset management, financial planning, family office, and brokerage. The fees are based on the market value of assets, are assessed as a flat fee, or are brokerage commissions. This revenue stream primarily generates fee income through monthly, quarterly and annual billings for the services.14Table of ContentsDeposit service chargesThe following table presents the components of deposit service charges:Three Months Ended June 30,Six Months Ended June 30,(Dollars in thousands)2024202320242023Service fees\$4,522A \$4,315A \$8,884A \$8,451A Return and overdraft fees,648A 1,720A 3,448A 3,367A Other deposit service fees326A 242A 651A 498A Total deposit service charges\$6,496A \$6,277A \$12,983A \$12,316A Deposit service charges includes revenue earned from core deposit products, certificates of deposit, and brokered deposits. These fees are primarily generated through monthly billings or at the time of the transaction. Capital markets revenue consists of fees related to interest rate swaps, risk participation agreements, foreign exchange contracts, letters of credit, and trade finance products and services offered by the Bank.Arrangements with multiple performance obligationsThe Company's contracts with customers may include multiple performance obligations. For such arrangements, the Company allocates revenue to each performance obligation based on its relative standalone selling price. The Company generally determines standalone selling prices based on the prices charged to customers. Practical expedients and exemptionsThe Company does not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less and (ii) contracts for which the Company recognizes revenue at the amount to which it has the right to invoice for services performed. GOODWILL AND INTANGIBLE ASSETS In accordance with ASC 805, Business Combinations (ASC 805) and ASC 350, Intangibles – Goodwill and Other (ASC 350), all assets acquired and liabilities assumed in purchase acquisitions, including goodwill, indefinite-lived intangibles and other intangibles are recorded at fair value as of acquisition date.WSFS performs its annual goodwill impairment test on October 1, or more frequently if events and circumstances indicate that the fair value of a reporting unit is less than its carrying value. In between annual tests, management performs a qualitative review of goodwill quarterly as part of the Company’s review of the overall business to ensure no events or circumstances have occurred that would impact its goodwill evaluation. During the six months ended June 30, 2024, management determined based on its qualitative assessment that the fair values of our reporting units exceeded their carrying values, and no goodwill impairment existed during the six months ended June 30, 2024. Mortgage servicing rights and SBA loan servicing rights are included in Goodwill and intangible assets in the accompanying unaudited Consolidated Statements of Financial Condition. Mortgage loans which the Company services for others are not included in Loans and leases, net of allowance in the accompanying unaudited Consolidated Statements of Financial Condition. Servicing rights represent the present value of the future net servicing fees from servicing mortgage loans the Company acquires or originates, or that it services for others. The value of the Company’s mortgage servicing rights was \$1.6 million and \$1.7 million at June 30, 2024 and December 31, 2023, respectively, and the value of its SBA loan servicing rights was \$3.9 million and \$4.3 million at June 30, 2024 and December 31, 2023, respectively. Changes in the value of the Company’s servicing rights resulted in impairment losses of \$0.1 million and \$0.2 million for the three and six months ended June 30, 2024, respectively, and impairment losses of \$0.2 million for the three and six months ended June 30, 2023. Revenues from originating, marketing and servicing mortgage loans as well as valuation adjustments related to capitalized mortgage servicing rights are included in Mortgage banking activities, net in the unaudited Consolidated Statements of Income and revenues from the Company’s SBA loan servicing rights are included in Loan and lease fee income in the unaudited Consolidated Statements of Income.Besides the impairment on loan servicing rights noted above, there was no impairment of other intangible assets as of June 30, 2024 or December 31, 2023. The amortization of the low-income housing credit investments has been reflected as income tax expense of \$1.9 million and \$1.4 million for the three months ended June 30, 2024 and 2023, respectively, and \$3.8 million and \$2.7 million for the six months ended June 30, 2024 and 2023, respectively. The amount of affordable housing tax credits, amortization, and tax benefits recorded as income tax expense for the three months ended were \$1.7 million, \$1.9 million, and \$0.5 million, respectively. The amount of affordable housing tax credits, amortization, and tax benefits recorded as income tax expense for the six months ended June 30, 2024 were \$3.4 million, \$3.8 million and \$1.1 million, respectively. The carrying value of the investment in affordable housing credits is \$83.3 million at June 30, 2024, compared to \$87.1 million at December 31, 2023 and is included in the Other assets line item on the unaudited Consolidated Statements of Financial Condition.12. FAIR VALUE DISCLOSURES OF FINANCIAL ASSETS AND LIABILITIES FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIESASC 820-10, Fair Value Measurement (ASC 820-10) defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820-10 establishes a fair value hierarchy that prioritizes the use of inputs used in valuation methodologies into the following three levels:â€¢Level 1: Inputs to the valuation methodology are quoted prices, unadjusted, for identical assets or liabilities in active markets. A quoted price in an active market provides the most reliable evidence of fair value and shall be used to measure fair value whenever available.â€¢Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; inputs to the valuation methodology include quoted prices for identical or similar assets or liabilities in markets that are not active; or inputs to the valuation methodology that are derived principally from or can be corroborated by observable market data by correlation or other means.â€¢Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Level 3 assets and liabilities include financial instruments whose value is determined using discounted cash flow methodologies, as well as instruments for which the determination of fair value requires significant management judgment or estimation.35Table of ContentsThe following tables present financial instruments carried at fair value as of June 30, 2024 and December 31, 2023 by level in the valuation hierarchy (as described above):June 30, 2024(Dollars in thousands)QuotedPrices inActiveMarketsA forIdenticalAsset(Level 1)SignificantOtherObservableInputs(Level 2)SignificantUnobservableInputs(Level 3)Total FairValueAssets measured at fair value on a recurring basis:Available-for-sale securities:CMO\$â€”A \$449,398A \$â€”A \$449,398A FNMA MBS\$â€”A 2,872,121A \$â€”A 2,872,121A FHLMC MBS\$â€”A 109,212A \$â€”A 109,212A GNMA MBS\$â€”A 43,249A \$â€”A 43,249A GSE agency notes\$â€”A 177,933A \$â€”A 177,933A Other assets\$â€”A 175,035A 43A 175,078A Total assets measured at fair value on a recurring basis\$â€”A \$3,826,948A \$43A \$3,826,991A Liabilities measured at fair value on a recurring basis:Other liabilities\$â€”A \$160,873A \$8,902A \$169,775A Assets measured at fair value on a nonrecurring basis:Other investments\$â€”A \$â€”A \$14,320A \$14,320A Other real estate owned\$â€”A \$â€”A 1,342A 1,342A Loans held for sale\$â€”A \$4,608A \$â€”A \$4,608A Total assets measured at fair value on a nonrecurring basis\$â€”A \$54,608A \$15,662A \$70,270A December 31, 2023(Dollars in thousands)QuotedPrices inActiveMarkets forIdenticalAsset(Level 1)SignificantOtherObservableInputs(Level 2)SignificantUnobservableInputs(Level 3)Total FairValueAssets measured at fair value on a recurring basis:Available-for-sale securities:CMO\$â€”A \$464,619A \$â€”A \$464,619A FNMA MBS\$â€”A 3,042,350A \$â€”A 3,042,350A FHLMC MBS\$â€”A 115,532A \$â€”A 115,532A GNMA MBS\$â€”A 43,340A \$â€”A 43,340A GSE agency notes\$â€”A 180,696A \$â€”A 180,696A Other assets\$â€”A 153,569A 78A 153,647A Total assets measured at fair value on a recurring basis\$â€”A \$4,000,106A \$78A \$4,000,184A Liabilities measured at fair value on a recurring basis:Other liabilities\$â€”A \$137,616A \$14,026A \$151,642A Assets measured at fair value on a nonrecurring basis:Other investments\$â€”A \$â€”A \$15,206A \$15,206A Other real estate owned\$â€”A \$â€”A 1,569A 1,569A Loans held for sale\$â€”A \$29,268A \$â€”A \$29,268A Total assets measured at fair value on a nonrecurring basis\$â€”A \$29,268A \$16,775A \$46,043A 36Table of ContentsFair value is based on quoted market prices, where available. If such quoted market prices are not available, fair value is based on internally developed models or obtained from third parties that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. These adjustments may include unobservable parameters. The Company’s valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While the Company believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.Available-for-sale securitiesSecurities classified as available-for-sale are reported at fair value using Level 2 inputs. The Company believes that this Level 2 designation is appropriate under ASC 820-10, as these securities are GSEs and GNMA securities with almost all fixed income securities, none are exchange traded, and all are priced by correlation to observed market data.Â For these securities the Company obtains fair value measurements from an independent pricing service.Â The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, U.S. government and agency yield curves, live trading levels, trade execution data, market consensus prepayment speeds, credit information, and the security’s terms and conditions, among other factors.Other investmentsOther investments includes equity investments without readily determinable fair values, which are categorized as Level 3. The Company’s equity investments without readily determinable fair values are held at cost, and are adjusted for any observable price changes in orderly transactions for the identical or a similar investment of the same issuer during the reporting period. Other real estate ownedOther real estate owned consists of loan collateral which has been repossessed through foreclosure or other measures.Â Initially, foreclosed assets are recorded at the fair value of the collateral less estimated selling costs.Â Subsequent to foreclosure, valuations are updated periodically and the assets may be marked down further, reflecting a new cost basis.Â The fair value of other real estate owned was estimated using Level 3 inputs based on appraisals obtained from third parties.Loans held for saleThe fair value of loans held for sale is based on estimates using Level 2 inputs.Â These inputs are based on pricing information obtained from wholesale mortgage banks and brokers and applied to loans with similar interest rates and maturities.Other assetsOther assets include the fair value of interest rate products, derivatives on the residential mortgage held for sale loan pipeline, foreign exchange forward contracts, and risk participation agreements. Valuation of interest rate products is obtained from an independent pricing service and also from the derivative counterparty. Valuation of the derivative related to the residential mortgage held for sale loan pipeline is based on valuation of the loans held for sale portfolio as described above in Loans held for sale. Valuation of foreign exchange forward contracts and risk participation agreements are obtained from an independent pricing service.Other liabilitiesOther liabilities include the fair value of interest rate products, derivatives on the residential mortgage held for sale loan pipeline, foreign exchange forward contracts, risk participation agreements, and derivative related to the sale of certain Visa Class B common shares. Valuation of interest rate products is obtained from an independent pricing service and also from the derivative counterparty. Valuation of the derivative related to the residential mortgage held for sale loan pipeline is based on valuation of the loans held for sale portfolio as described above in Loans held for sale. Valuation of foreign exchange forward contracts and risk participation agreements are obtained from an independent pricing service. Valuation of the derivative related to the sale of certain Visa Class B common shares is based on: (i) the agreed upon graduated fee structure; (ii) the length of time until the resolution of the Visa covered

litigation; and (iii) the estimated impact of dilution in the conversion ratio of Class B shares resulting from changes in the Visa covered litigation. 37Table of ContentsFAIR VALUE OF FINANCIAL INSTRUMENTSThe reported fair values of financial instruments are based on a variety of factors. In certain cases, fair values represent quoted market prices for identical or comparable instruments. In other cases, fair values have been estimated based on assumptions regarding the amount and timing of estimated future cash flows that are discounted to reflect current market rates and varying degrees of risk. Accordingly, the fair values may not represent actual values of the financial instruments that could have been realized as of period-end or that will be realized in the future. The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value: Cash, cash equivalents, and restricted cashFor cash and short-term investment securities, including due from banks, federal funds sold or purchased under agreements to resell and interest-bearing deposits with other banks, the carrying amount is a reasonable estimate of fair value. Investment securitiesInvestment securities include debt securities classified as held-to-maturity or available-for-sale. Fair value is estimated using quoted prices for similar securities, which the Company obtains from a third party vendor. A The Company uses one of the largest providers of securities pricing to the industry and management periodically assesses the inputs used by this vendor to price the various types of securities owned by the Company to validate the vendor's methodology as described above in available-for-sale securities. Other investmentsOther investments includes equity investments without readily determinable fair values (see discussion in the Fair Value of Financial Assets and Liabilities section above) as well as equity method investments. Loans held for saleLoans held for sale are carried at their fair value (see discussion in the Fair Value of Financial Assets and Liabilities section above). Loans and leasesLoans and leases are segregated by portfolio segments with similar financial characteristics. The fair values of loans and leases, with the exception of reverse mortgages, are estimated by discounting expected cash flows using the current rates at which similar loans would be made to borrowers with comparable credit ratings and for similar remaining maturities. The fair values of reverse mortgages are based on the net present value of the expected cash flows using a discount rate specific to the reverse mortgages portfolio. The fair value of nonperforming loans is based on recent external appraisals of the underlying collateral, if the loan is collateral dependent. Estimated cash flows, discounted using a rate commensurate with current rates and the risk associated with the estimated cash flows, are used if appraisals are not available. A This technique does not contemplate an exit price. Stock in the Federal Home Loan Bank (FHLB) of PittsburghThe fair value of FHLB stock is assumed to be equal to its cost basis, since the stock is non-marketable but redeemable at its par value. Accrued interest receivableThe carrying amounts of interest receivable approximate fair value. Other assetsOther assets include the fair value of interest rate products, derivatives on the residential mortgage held for sale loan pipeline, foreign exchange forward contracts, and risk participation agreements (see discussion in the Fair Value of Financial Assets and Liabilities section above). DepositsThe fair value of deposits with no stated maturity, such as noninterest-bearing demand deposits, money market and A interest-bearing demand deposits, is assumed to be equal to the amount payable on demand. A The fair value of time deposits is based on the discounted value of contractual cash flows. A The discount rate is estimated using rates currently offered for deposits with comparable remaining maturities. 38Table of ContentsBorrowed fundsRates currently available to the Company for debt with similar terms and remaining maturities are used to estimate the fair value of existing debt. Off-balance sheet instrumentsThe fair value of off-balance sheet instruments, including swap guarantees of \$6.5 million at June 30, 2024 and \$7.3 million at December 31, 2023, respectively, and standby letters of credit, approximates the recorded net deferred fee amounts. Because letters of credit are generally not assignable by either the Company or the borrower, they only have value to the Company and the borrower. In determining the fair value of the swap guarantees, the Company assesses the underlying credit risk exposure for each borrower in a paying position to the third-party financial institution. Accrued interest payableThe carrying amounts of interest payable approximate fair value. Other liabilitiesOther liabilities include the fair value of interest rate products, derivatives on the residential mortgage held for sale loan pipeline, foreign exchange forward contracts, risk participation agreements, and derivative related to the sale of certain Visa Class B common shares (see discussion in the Fair Value of Financial Assets and Liabilities section above). DERIVATIVE FINANCIAL INSTRUMENTS Risk Management Objective of Using Derivatives The Company is exposed to certain risks arising from both economic conditions and its business operations. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risks, including interest rate, liquidity, and credit risk, primarily by managing the amount, sources, and duration of its assets and liabilities. The Company manages a matched book with respect to its derivative instruments in order to minimize its net risk exposure resulting from such transactions. The Company does not use derivative financial instruments for trading purposes. To accomplish this objective, the Company primarily uses interest rate options, including floors, caps, collars, or swaps as part of its interest rate risk management strategy. Interest rate options designated as cash flow hedges involve the receipt of fixed amounts from a counterparty in exchange for the Company making variable-rate payments over the life of the agreements without exchange of the underlying notional amount. The Company has agreements with certain derivative counterparties that contain a provision under which, if it defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its derivative obligations. The Company also has agreements with certain derivative counterparties that contain a provision where if it fails to maintain its status as a well-capitalized or adequately capitalized institution, then the counterparty could terminate the derivative positions and the Company would be required to settle its obligations under the agreements. As of June 30, 2024, the Company had 15 interest rate floors purchased at an aggregate premium of \$23.4 million with an aggregate notional amount of \$1.2 billion to hedge variable cash flows associated with a variable rate loan pool through the second quarter of 2027. Changes to the fair value of derivatives designated and that qualify as cash flow hedges are recorded in accumulated other comprehensive income (loss) and is subsequently reclassified into earnings in the period that the hedged forecast transaction affects earnings. If the Company determines that a cash flow hedge is no longer highly effective, future changes in the fair value of the hedging instrument would be reported in earnings. As of June 30, 2024, the Company determined the cash flow hedges remain highly effective. During the three and six months ended June 30, 2024, \$1.0 million and \$1.9 million, respectively, of amortization expense on the premium was reclassified into interest income compared to \$0.1 million and \$0.2 million during the three and six months ended June 30, 2023, respectively. The Company does not expect any unrealized gains or losses related to cash flow hedges to be reclassified into earnings in the next twelve months. Derivatives Not Designated as Hedging Instruments: Customer Derivatives A Interest Rate Swaps The Company enters into interest rate swaps with commercial loan customers wishing to manage interest rate risk. The Company then enters into corresponding swap agreements with swap dealer counterparties to economically hedge the exposure arising from these contracts. The interest rate swaps with both the customers and third parties are not designated as hedges under ASC 815, Derivatives and Hedging (ASC 815) and are marked to market through earnings. As the interest rate swaps are structured to offset each other, changes to the underlying benchmark interest rates considered in the valuation of these instruments do not result in an impact to earnings; however, there may be fair value adjustments related to credit quality variations between counterparties, which may impact earnings as required by ASC 820. As of June 30, 2024, there were no fair value adjustments related to credit quality. Derivative Financial Instruments from Mortgage Banking Activities Derivative financial instruments related to mortgage banking activities are recorded at fair value and are not designated as accounting hedges. This includes commitments to originate certain fixed-rate residential mortgage loans to customers, also referred to as interest rate lock commitments. The Company may also enter into forward sale commitments to sell loans to investors at a fixed price at a future date and trade asset-backed securities to mitigate interest rate risk. Foreign Exchange Forward Contracts The Company enters into foreign exchange forward contracts (FX forwards) with customers to exchange one currency for another on an agreed date in the future at an agreed exchange rate. The Corporation then enters into corresponding FX forwards with swap dealer counterparties to economically hedge its exposure on the exchange rate component of the customer agreements. The FX forwards with both the customers and third parties are not designated as hedges under ASC 815 and are marked to market through earnings. Exposure to gains and losses on these contracts increase or decrease over their respective lives as currency exchange and interest rates fluctuate. As the FX forwards are structured to offset each other, changes to the underlying term structure of currency exchange rates considered in the valuation of these instruments do not result in an impact to earnings; however, there may be fair value adjustments related to credit quality variations between counterparties, which may impact earnings as required by ASC 820. As of June 30, 2024, there were no fair value adjustments related to credit quality. 43Table of ContentsRisk Participation Agreements The Company may enter into a risk participation agreement (RPA) with another institution as a means to assume a portion of the credit risk associated with a loan structure which includes a derivative instrument, in exchange for fee income commensurate with the risk assumed. This type of derivative is referred to as an A RPA sold. A In addition, in an effort to reduce the credit risk associated with an interest rate swap agreement with a borrower for whom the Corporation has provided a loan structured with a derivative, the Corporation may purchase an RPA from an institution participating in the facility in exchange for a fee commensurate with the risk shared. This type of derivative is referred to as an A RPA purchased. A Swap Guarantees The Company entered into agreements with one unrelated financial institution whereby that financial institution entered into interest rate derivative contracts (interest rate swap transactions) directly with customers referred to them by the Company. A Under the terms of the agreements, the financial institution has recourse to us for any exposure created under each swap transaction, only in the event that the customer defaults on the swap agreement and the agreement is in a paying position to the third-party financial institution. A This is a customary arrangement that allows us to provide access to interest rate swap transactions for our customers without creating the swap ourselves. A These swap guarantees are accounted for as credit derivatives. At June 30, 2024 and December 31, 2023, there were 175 and 188 variable-rate to fixed-rate swap transactions between the third-party financial institutions and the Company's customers, respectively. A The initial notional aggregate amount was approximately \$0.7 billion at June 30, 2024 and December 31, 2023. A At June 30, 2024, the swap transactions remaining maturities ranged from under 1 year to 11 years. At June 30, 2024, none of these customer swaps were in a paying position to third parties, with the Company's swap guarantees having a fair value of \$7.3 million. However, for both periods, none of the Company's customers were in default of the swap agreements. Credit-risk-related Contingent Features The Company has agreements with certain derivative counterparties that contain a provision under which, if it defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its derivative obligations. The Company has minimum collateral posting thresholds with certain of its derivative counterparties, and has posted collateral of \$2.3 million in cash against its obligations under these agreements which meets or exceeds the minimum collateral posting requirements. If the Company has breached any of these provisions at June 30, 2024, it could have been required to settle its obligations under the agreements at the termination value. 44Table of Contents14. SEGMENT INFORMATION As defined in ASC 280, Segment Reporting (ASC 280), an operating segment is a component of an enterprise that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the enterprise's chief operating decision makers to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial

information is available. The Company evaluates performance based on pretax net income relative to resources used, and allocate resources based on these results. The accounting policies applicable to the Company's segments are those that apply to its preparation of the accompanying unaudited Consolidated Financial Statements.Â Based on these criteria, the Company has identified three segments: WSFS Bank, Cash ConnectÂ®, and Wealth Management. The WSFS Bank segment provides financial products to commercial and consumer customers. Commercial and Consumer Banking, Commercial Real Estate Lending and other banking business units are operating departments of WSFS Bank. These departments share the same regulators, the same market, many of the same customers and provide similar products and services through the general infrastructure of the Bank. Accordingly, these departments are not considered discrete segments and are appropriately aggregated in the WSFS Bank segment. The Company's Cash ConnectÂ® segment provides ATM vault cash, smart safe and other cash logistics services through strategic partnerships with several of the largest networks, manufacturers and service providers in the ATM industry. Cash ConnectÂ® services non-bank and WSFS-branded ATMs and smart safes nationwide. The balance sheet category Cash in non-owned ATMs includes cash from which fee income is earned through bailment arrangements with customers of Cash ConnectÂ®. The Wealth Management segment provides a broad array of planning and advisory services, investment management, trust services, and credit and deposit products to individual, corporate, and institutional clients. Bryn Mawr TrustÂ® is our predominant Private Wealth Management brand, providing advisory, investment management and trustee services to institutions, affluent and high-net-worth individuals. Private Wealth Management, which includes Private Banking, serves high-net-worth clients and institutions by providing trustee and advisory services, financial planning, customized investment strategies, brokerage products such as annuities and customized banking services including credit and deposit products tailored to its clientele. Private Wealth Management includes businesses that operate under the bankâ€™s charter, through a broker/dealer and as a registered investment advisor (RIA). It generates revenue through fee-only arrangements, net interest income and other fee-only services such as estate administration, trust tax planning and custody. PowdermillÂ® is a multi-family office specializing in providing independent solutions to high-net-worth individuals, families and corporate executives through a coordinated, centralized approach. The Bryn Mawr Trust Company of Delaware provides personal trust and fiduciary services to families and individuals across the U.S. and internationally. WSFS Institutional ServicesÂ® provides trustee, agency, bankruptcy administration, custodial and commercial domicile services to institutional, corporate clients and special purpose vehicles.Â

15. COMMITMENTS AND CONTINGENCIES

Secondary Market Loan Sales

The Company typically sells newly originated residential mortgage loans in the secondary market to mortgage loan aggregators and to GSEs such as FHLMC, FNMA, and on a more limited basis, the FHLB. Loans held for sale are reflected on the unaudited Consolidated Statements of Financial Condition at fair value with changes in the value reflected in the unaudited Consolidated Statements of Income. Gains and losses are recognized at the time of sale. The Company periodically retains the servicing rights on residential mortgage loans sold which results in monthly service fee income. The mortgage servicing rights are included in Goodwill and intangible assets on the unaudited Consolidated Statements of Financial Condition. Otherwise, the Company sells loans with servicing released on a nonrecourse basis. Rate-locked loan commitments that the Company intends to sell in the secondary market are accounted for as derivatives under ASC 815. The Company does not sell loans with recourse, except for standard loan sale contract provisions covering violations of representations and warranties and, under certain circumstances, early payment default by the borrower. These are customary repurchase provisions in the secondary market for residential mortgage loan sales.Â These provisions may include either an indemnification from loss or the repurchase of the loans. Repurchases and losses have been rare and no provision is made for losses at the time of sale. There were two repurchases during the six months ended June 30, 2024 for an aggregate of \$0.5 million and one repurchase for \$0.8 million during the same period in 2023. Unfunded Lending Commitments

At June 30, 2024 and December 31, 2023, the allowance for credit losses of unfunded lending commitments was \$11.5 million and \$12.1 million, respectively. A provision release of \$0.3 million and \$0.6 million was recognized during the three and six months ended June 30, 2024, respectively, compared to a provision expense of \$0.4 million and \$0.2 million during the three and six months ended June 30, 2023, respectively.Â

16. CHANGE IN ACCUMULATED OTHER COMPREHENSIVE LOSS

Accumulated other comprehensive loss includes unrealized gains and losses on available-for-sale investments, unrealized gains and losses on cash flow hedges, as well as unrecognized prior service costs and actuarial gains and losses on defined benefit pension plans. Changes to accumulated other comprehensive loss are presented, net of tax, as a component of stockholders' equity. Amounts that are reclassified out of accumulated other comprehensive loss are recorded on the unaudited Consolidated Statements of Income either as a gain or loss. Changes to accumulated other comprehensive loss by component are shown, net of taxes, in the following tables for the period indicated: (Dollars in thousands)

This increase is primarily comprised of the following:—Net loans and leases held for investment increased \$362.7 million, primarily due to increases of \$99.1 million in commercial and industrial and \$94.3 million in consumer loans primarily from Spring EQ home equity loans. Commercial mortgages increased \$233.6 million with a corresponding decrease of \$156.3 million in construction due to the migration of construction loans to permanent commercial mortgages. Additionally, owner-occupied commercial loans increased \$54.6 million and residential mortgage loans increased \$29.7 million.—Other assets increased \$59.5 million, primarily due to increases of \$23.7 million in derivatives from our capital markets business due to changes in fair value, \$13.1 million in our deferred tax asset primarily related to unrealized losses on available-for-sale securities, and \$8.4 million in lease right of use asset due to additional leases entered into in 2024.—Total investment securities decreased \$214.3 million.—Investment securities, available-for-sale decreased \$194.6 million, primarily due to repayments, maturities and calls of \$169.5 million and decreased market values of \$64.6 million, partially offset by purchases of \$41.1 million.—Investment securities, held-to-maturity decreased \$19.7 million, primarily due to repayments, maturities and calls of \$28.6 million, partially offset by \$7.3 million of amortization of net unrealized losses on available-for-sale securities transferred to held-to-maturity.—Total cash and cash equivalents decreased \$71.2 million, primarily due to a shift to external funding sources in our Cash Connect business.—Goodwill and intangible assets decreased \$8.4 million due to scheduled amortization of intangible assets. Total liabilities increased \$141.3 million to \$18.3 billion at June 30, 2024 compared to December 31, 2023. This increase is primarily comprised of the following: —Other borrowed funds increased \$224.7 million, primarily due to \$235.0 million borrowed from the Bank Term Funding Program (BTFP) as a result of favorable terms and pricing.—Other liabilities increased \$67.1 million, primarily due to increases of \$70.2 million in collateral held on derivatives and derivative liabilities, partially offset by a decrease of \$5.1 million due to the reduction of our Visa B derivative liability.—Customer deposits decreased \$131.3 million primarily due to transactional accounts, which drive notable inflows and outflows of deposits in our Trust and Commercial businesses, offset by growth in our Private Wealth Management and Consumer businesses.For further information, see "Notes to the Consolidated Financial Statements (Unaudited).LIQUIDITY AND CAPITAL RESOURCESCapital ResourcesStockholders' equity of WSFS increased \$11.9 million between December 31, 2023 and June 30, 2024. This increase was primarily due to \$135.0 million of earnings, partially offset by \$60.7 million from the repurchase of shares of common stock under our stock repurchase plan, an increase of \$48.9 million in accumulated other comprehensive loss driven by market value decreases on available-for-sale mortgage-backed securities, and the payment of dividends on our common stock of \$18.1 million. During the three months ended June 30, 2024, our Board of Directors approved a quarterly cash dividend of \$0.15 per share of common stock. This dividend will be paid on August 23, 2024 to stockholders of record as of August 9, 2024.53Table of ContentsBook value per share of common stock was \$42.01 at June 30, 2024, an increase of \$1.08 from \$40.93 at December 31, 2023. Tangible book value per share of common stock (a non-GAAP financial measure) was \$25.20 at June 30, 2024, an increase of \$0.87 from \$24.33 at December 31, 2023. We believe tangible book value per common share helps management and investors better understand and assess changes from period to period in stockholders' equity exclusive of changes in intangible assets. This non-GAAP measure should be considered in addition to results prepared in accordance with Generally Accepted Accounting Principles in the U.S. (GAAP), and is not a substitute for, or superior to, GAAP results. For a reconciliation of tangible book value per common share to book value per share in accordance with GAAP, see "Reconciliation of Non-GAAP Measure to GAAP Measure."The table below compares the Bank's and the Company's consolidated capital position to the minimum regulatory requirements as of June 30, 2024.4 ConsolidatedCapitalMinimum For CapitalAdequacyPurposesTo a Well-CapitalizedUnder Prompt Corrective ActionProvisions(Dollars in thousands)AmountPercentAmountPercentAmountPercentTotal Capital (to Risk-Weighted Assets)Wilmington Savings Fund Society, FSB\$2,333,593A 14.32A %\$1,303,890A 8.00A %\$1,629,863A 10.00A %WSFS Financial Corporation2,500,508A 15.34A 1,304,346A 8.00A 1,630,433A 10.00A Tier 1 Capital (to Risk-Weighted Assets)Wilmington Savings Fund Society, FSB2,129,779A 13.07A 977,918A 6.00A 1,303,890A 8.00A WSFS Financial Corporation2,166,672A 13.29A 978,260A 6.00A 1,304,346A 8.00A Common Equity Tier 1 Capital (to Risk-Weighted Assets)Wilmington Savings Fund Society, FSB2,129,779A 13.07A 733,438A 4.50A 1,059,411A 6.50A WSFS Financial Corporation2,166,672A 13.29A 733,695A 4.50A 1,059,781A 6.50A Tier 1 Leverage CapitalWilmington Savings Fund Society, FSB2,129,779A 10.44A 815,873A 4.00A 1,019,841A 5.00A WSFS Financial Corporation2,166,672A 10.61A 816,469A 4.00A 1,020,587A 5.00A Under the prompt corrective action regime, regulators have established five capital tiers: well-capitalized, adequately-capitalized, under-capitalized, significantly under-capitalized, and critically under-capitalized. A depository institution's capital tier depends on its capital levels in relation to various relevant capital measures, which include leverage and risk-based capital measures and certain other factors. A depository institutions that are not classified as well-capitalized are subject to various restrictions, which may include restrictions on capital distributions, payment of management fees, acceptance of brokered deposits and other operating activities.Regulatory capital requirements for the Bank and the Company include a minimum common equity Tier 1 capital ratio of 4.50% of risk-weighted assets, a Tier 1 capital ratio of 6.00% of risk-weighted assets, a minimum total capital ratio of 8.00% of risk-weighted assets and a minimum Tier 1 leverage capital ratio of 4.00% of average assets. In order to avoid limits on capital distributions and discretionary bonus payments, the Bank and the Company must maintain a capital conservation buffer of 2.5% of common equity Tier 1 capital over each of the risk-based capital requirements. As of June 30, 2024, the Bank and the Company were in compliance with the regulatory capital requirements and met or exceeded the amounts required to be considered "well-capitalized" as defined in the regulations. Not included in the Bank's capital, WSFS separately held \$330.5 million in cash to support share repurchases, potential dividends, acquisitions, strategic growth plans and other general corporate purposes.54Table of ContentsLiquidityWe manage our liquidity and funding needs through our Treasury function and our Asset/Liability Committee. A We have a policy that separately addresses liquidity, and management monitors our adherence to policy limits. A Also, liquidity risk management is a primary area of examination by the banking regulators.Funding sources to support growth and meet our liquidity needs include cash from operations, commercial, consumer, wealth and trust deposits, loan repayments, FHLB borrowings, repurchase agreements, access to the Federal Reserve Discount Window, and access to the brokered deposit market as well as other wholesale funding avenues. A In addition, we have a large portfolio of high-quality, liquid investments, primarily short-duration mortgage-backed securities, that provide a near-continuous source of cash flow to meet current cash needs, or can be sold to meet larger discrete needs for cash. A We believe these sources are sufficient to meet our funding needs as well as maintain required and prudent levels of liquidity over the next twelve months and beyond.As of June 30, 2024, the Company had \$1.0 billion in cash, cash equivalents, and restricted cash. As of June 30, 2024, our estimated uninsured deposits were \$6.0 billion, or 37% of total customer deposits, and our estimated unprotected deposits (uninsured and uncollateralized) were \$5.2 billion, or 32% of total customer deposits.As of June 30, 2024, the Company had a readily available, secured borrowing capacity of \$5.3 billion from the FHLB and \$1.8 billion through the Federal Reserve Discount Window. In addition, the Company had \$1.7 billion in unpledged securities that could be used to support additional borrowings and \$0.4 billion of cash deposited with the Federal Reserve Bank. Our primary cash contractual obligations relate to operating leases, long-term debt, credit obligations, and data processing. At June 30, 2024, we had \$224.7 million in total contractual payments for ongoing leases that have remaining lease terms of less than one year to 21 years, which includes renewal options that are exercised at our discretion. For additional information on our operating leases, see Note 8 to the unaudited Consolidated Financial Statements. At June 30, 2024, we had obligations for principal payments on long-term debt including \$67.0 million for our trust preferred borrowings, due June 1, 2035, \$70.0 million in aggregate principal amount of fixed-to-floating rate subordinated notes due 2027, and \$150.0 million for our senior debt, due December 15, 2030. At June 30, 2024, we had advances of \$800 million under the BTFP, due January 2025. Royal Bankshares Capital Trust I (Trust I) and Royal Bankshares Capital Trust II (Trust II) (collectively, the RBC Trusts), which were acquired from Bryn Mawr Bank Corporation, were utilized for the sole purpose of issuing and selling capital securities representing preferred beneficial interests. Although WSFS owns an aggregate of \$0.8 million of the common securities of Trust I and Trust II, the RBC Trusts are not consolidated into the Company's Consolidated Financial Statements. Inclusive of the fair value marks, WSFS assumed junior subordinated debentures owed to the RBC Trusts with a current carrying value of \$11.9 million each, totaling \$23.7 million. The Company records its investments in the RBC Trusts' common securities of \$0.4 million each as investments in unconsolidated entities and records dividend income upon declaration by Trust I and Trust II. The Company has fully and unconditionally guaranteed all of the obligations of the RBC Trusts, including any distributions and payments on liquidation or redemption of the capital securities. We are also contractually obligated to make interest payments on our long-term debt through their respective maturities. Commitments to extend credit provide for financing on predetermined terms as long as the customer continues to meet specific criteria. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being completely drawn upon, the total commitment amounts do not necessarily represent future cash requirements. At June 30, 2024, the Company had total commitments to extend credit of \$4.0 billion, which are generally one year commitments.55Table of ContentsNONPERFORMING ASSETSNonperforming assets include nonaccruing loans, OREO and restructured loans. Nonaccruing loans are those on which we no longer accrue interest. Loans are placed on nonaccrual status immediately if, in the opinion of management, collection is doubtful, or when principal or interest is past due 90 days or more and the value of the collateral is insufficient to cover principal and interest. Interest accrued but not collected at the date a loan is placed on nonaccrual status is reversed and charged against interest income. In addition, the amortization of net deferred loan fees is suspended when a loan is placed on nonaccrual status. Subsequent cash receipts are applied either to the outstanding principal balance or recorded as interest income, depending on management's assessment of the ultimate collectability of principal and interest. Past due loans are defined as loans contractually past due 90 days or more as to principal or interest payments but which remain in accrual status because they are considered well secured and in the process of collection. The following table shows our nonperforming assets and past due loans at the dates indicated: (Dollars in thousands)June 30, 2024December 31, 2023Nonaccruing loans(1):Commercial and industrial\$39,230A \$29,389A Owner-occupied commercial\$939A 4,862A Commercial mortgages\$8,989A 22,292A Construction\$3,887A 12,617A Residential\$5,086A 2,579A Consumer\$2,903A 2,446A Total nonaccruing loans(2)64,034A 74,185A Other real estate owned1,342A 1,569A Total nonperforming assets\$65,376A \$75,754A Past due loans:Commercial\$855A \$1,552A Residential\$8A \$6A Consumer\$38,935A 10,032A Total past due loans\$9,798A \$11,584A Troubled loans:Commercial\$124,353A \$85,330A Residential\$205A 777A Consumer\$8,522A 9,161A Total troubled loans\$133,080A \$95,268A Ratio of allowance for credit losses to total loans and leases(4)1.51A 1.46A %Ratio of nonaccruing loans to total gross loans and leases(5)0.49A 0.58A Ratio of nonperforming assets to total assets0.32A 0.37A Ratio of allowance for credit losses to nonaccruing loans\$10A 251A Ratio of allowance for credit losses to total nonperforming assets(6)303A 246A (1)Includes nonaccruing troubled loans.(2)Includes nonaccrual loans held-for-sale as of December 31, 2023(3)Includes U.S. government guaranteed student loans with little risk of credit loss.(4)Represents amortized cost basis for loans and leases.(5)Total loans exclude loans held for sale and reverse mortgages.(6)Excludes acquired PCD loans.Nonperforming assets decreased \$10.4 million between December 31, 2023 and June 30, 2024. This decrease was primarily driven by favorable resolutions and paydowns of multiple loans during the year and a charge-off on a commercial mortgage relationship. The ratio of nonperforming assets to total assets decreased from 0.37% at December 31, 2023 to 0.32% at June 30, 2024.56Table of ContentsThe following table summarizes the changes in nonperforming assets during the periods indicated:Six Months Ended June 30,(Dollars in thousands)20242023Beginning balances\$75,754A \$43,372A Additions\$64,648A 37,483A Collections(55,521)(10,983)Transfers to accrual(1)(216)(19,903)Charge-offs(19,289)(16,439)Ending balances\$65,376A \$33,530A (1)Includes impact of ASU No. 2022-02 adoption in 2023.The timely identification of problem loans is a key element in our strategy to manage our loan portfolio. Problem loans are all criticized, classified and nonperforming loans and other real estate owned. Timely identification enables us to take appropriate action and accordingly, minimize losses. An asset review system established to monitor the asset quality of our loans and investments in real estate portfolios facilitates the identification of problem assets. In general, this system uses guidelines established by federal regulation.57Table of ContentsINTEREST RATE SENSITIVITYOur primary objective in managing interest rate risk is to minimize the adverse impact of changes in interest rates on net interest income and capital, while maximizing the yield/cost spread on our asset/liability structure. Interest rates are partly a function of decisions by the Federal Open Market Committee (FOMC) on the target range for the federal funds rate, and these decisions are sometimes difficult to anticipate. The FOMC raised the federal funds target rate four times in 2023 for a total of 100 basis points and has suggested it may lower interest rates in 2024. In order to manage the risks associated with changes or possible changes in interest rates, we rely primarily on our asset/liability structure. Our primary tool for achieving our asset/liability management strategies is to match maturities or repricing periods of interest rate-sensitive assets and liabilities to promote a favorable interest rate spread and mitigate exposure to fluctuations in interest rates. We regularly review our interest rate sensitivity and adjust the sensitivity within acceptable tolerance ranges. At June 30, 2024, interest-bearing liabilities exceeded interest-earning assets that mature or reprice within one year (interest-sensitive gap) by \$62.0 million. Our interest-sensitive assets as a percentage of interest-sensitive liabilities within the one-year window was 99.32% at June 30, 2024 compared with 99.67% at December 31, 2023. Likewise, the one-year interest-sensitive gap as a percentage of total assets was (0.30%) at June 30, 2024 compared with (0.14%) at December 31, 2023.Market risk is the risk of loss from adverse changes in market prices and rates. Our market risk arises primarily from interest rate risk inherent in our lending, investing, and funding activities. To that end, we actively monitor and manage our interest rate risk exposure. One measure evaluates the impact of an immediate change in interest rates in 100 basis point increments on the economic value of equity ratio. The economic value of the equity ratio is defined as the economic value of the estimated cash flows from assets and liabilities as a percentage of economic value of cash flows from total assets.The following table shows the estimated impact of immediate changes in interest rates on our net interest margin and economic value of equity ratio at the specified levels at June 30, 2024 and December 31, 2023.4 June 30, 2024December 31, 2023% Change in Interest Rate (Basis Points)%A Change in Net Interest Margin(1)Economic Value of Equity(2)%A Change in Net Interest Margin(1)Economic Value of Equity(2)+30016.3%22.39%15.7%22.44%+20010.8%21.54%10.4%21.46%+1005.4%20.62%5.2%20.41%+502.7%20.13%6.2%19.85%+251.3%19.88%1.3%19.56%+20.13%19.63%+20.13%19.26%20.13%

Â Net interest income decreased \$7.4 million, primarily due to lagging increases in deposit pricing following rate hikes in 2023 and a continued shift to customer time deposits. See Â Net Interest IncomeÂ for further information.Â Our provision for credit losses increased \$4.0 million, primarily due to a higher provision on our commercial mortgages portfolio. See Â Allowance for Credit LossesÂ for further information. Â Noninterest income increased \$24.7 million, primarily due to increases in income from Cash ConnectÂ due to additional customers added during the fourth quarter of 2023 and first half of 2024 and the higher rate environment. Wealth Management fee income, a gain on our Visa B derivative liability, post-close distributions from our investment in Spring EQ, and capital markets income. See Â Noninterest IncomeÂ for further information. Â Noninterest expense increased \$14.5 million, primarily due to higher salaries and benefits and Cash ConnectÂ funding costs associated with a shift towards external funding, partially offset by decreases in net corporate development and restructuring costs, loan workout and OREO expenses, and professional fees.Â Income tax provision decreased \$1.8 million, primarily due to the \$1.2 million decrease in pre-tax income, the benefit from solar and other tax credit investments, and lower state income taxes.Six months ended JuneÂ 30, 2024: Net income for the six months ended JuneÂ 30, 2024 was \$135.0 million, compared to \$131.1 million for the six months ended JuneÂ 30, 2023. Â Net interest income decreased \$14.6 million during the six months ended JuneÂ 30, 2024 compared to the six months ended JuneÂ 30, 2023, primarily due to the reasons described above. See Â Net Interest IncomeÂ for further information. Â Our provision for credit losses for the six months ended JuneÂ 30, 2024 decreased \$9.9 million compared to the six months ended JuneÂ 30, 2023, due to lower losses across most of our commercial loan portfolios and our consumer portfolio, partially offset by higher losses on our commercial mortgages portfolio. See Â Allowance for Credit LossesÂ for further information. Â Noninterest income for the six months ended JuneÂ 30, 2024 increased \$37.5 million compared to the six months ended JuneÂ 30, 2023, primarily due to increases from Cash ConnectÂ, Wealth Management fee income, a gain on our Visa B derivative liability, capital markets income, post-close distributions from our investment in Spring EQ, and mortgage banking activities. See Â Noninterest IncomeÂ for further information. Â Noninterest expense increased \$30.5 million during the six months ended JuneÂ 30, 2024 compared to the six months ended JuneÂ 30, 2023, primarily due to an increase in Cash ConnectÂ funding costs associated with a shift towards external funding and salaries and benefits, partially offset by decreases in net corporate development and restructuring costs, occupancy expense, and professional fees.Â Income tax provision for the six months ended JuneÂ 30, 2024 decreased \$1.5 million compared to the six months ended JuneÂ 30, 2023, primarily due to the benefit from solar and other tax credit investments and lower state income taxes.59Table of ContentsNet Interest IncomeThe following tables provide information concerning the balances, yields and rates on interest-earning assets and 30, 2024, net interest income decreased \$7.4 million from the three months ended June 30, 2023 primarily due to lagging deposit pricing increases following rate hikes in 2023 and a continued shift to customer time deposits. Net interest margin was 3.85% for the second quarter of 2024, a 26 basis point decrease compared to 4.11% for the second quarter of 2023. The decrease was due to an unfavorable decrease of 40 basis points from the lagging deposit pricing increases mentioned above and 4 basis points from purchase accounting accretion, partially offset by an increase of 18 basis points from our balance sheet size and mix.Six months ended June 30, 2024: During the six months ended June 30, 2024, net interest income decreased \$14.6 million from the six months ended June 30, 2023 due to the reasons noted above. Net interest margin was 3.85% for the six months ended June 30, 2024, a 33 basis point decrease compared to 4.18% for the six months ended June 30, 2023. The decrease was due to a 44 basis point decrease from the lagging deposit pricing increases noted above and a 4 basis point decrease from purchase accounting accretion, partially offset by a 15 basis point increase from our balance sheet size and mix.Allowance for Credit LossesWe maintain the allowance for credit losses at an appropriate level based on our assessment of estimable and expected losses in the loan portfolio. Our allowance for credit losses is based on our historical loss experience that includes the inherent risk of our loans and various other factors including but not limited to, collateral values, trends in asset quality, level of delinquent loans and concentrations.Â Further, regional and national economic forecasts are considered in our expected credit losses. Our evaluation is based on a review of the portfolio and requires significant, complex and difficult judgments.During the three months ended JuneÂ 30, 2024, we recorded a provision for credit losses of \$19.8 million, an increase of \$4.0 million, as compared with the provision for credit losses of \$15.8 million for the three months ended JuneÂ 30, 2023. This increase was primarily due to a higher provision on our commercial mortgages portfolio. During the six months ended JuneÂ 30, 2024, we recorded a provision for credit losses of \$35.0 million, a decrease of \$9.9 million, as compared with the provision for credit losses of \$44.8 million for the six months ended JuneÂ 30, 2023. This decrease was primarily due to lower losses across most of our commercial loan portfolios and our consumer portfolio, partially offset by higher losses on our commercial mortgages portfolio. The allowance for credit losses increased to \$198.3 million at JuneÂ 30, 2024 from \$186.1 million at DecemberÂ 31, 2023. The ratio of allowance for credit losses to total loans and leases was 1.51% at JuneÂ 30, 2024 and 1.46% at DecemberÂ 31, 2023.62Table of ContentsThe following tables detail the allocation of the ACL and show our net charge-offs (recoveries) by portfolio category:(Dollars in thousands)Commercial and IndustrialOwner-occupiedCommercialCommercial/MortgagesConstructionCommercial Small Business LeasesResidential(1)Consumer(2)TotalAs of JuneÂ 30, 2024Allowance for credit losses\$56,516Â \$9,668Â \$46,831Â \$9,198Â \$16,218Â \$5,057Â \$54,765Â \$198,253Â % of ACL to total ACL28Â %4Â %24Â %5Â %8Â %3Â %28Â %100Â %Loan portfolio balances\$2,639,152Â \$1,940,677Â \$4,034,818Â \$879,217Â \$643,520Â \$897,573Â \$2,106,433Â \$13,141,390Â % to total loans and leases19Â %15Â %30Â %6Â %5Â %7Â %16Â %100Â %Three months ended June 30, 2024Charge-offs\$1,906Â \$414Â \$4,907Â \$46Â \$4,888Â \$51Â \$5,820Â \$17,572Â Recoveries(1,736)(4)(102)Â (831)(43)(665)(3,381)Net charge-offs (recoveries) \$170Â \$(4)\$4,805Â \$46Â \$4,057Â \$84Â \$5,155Â \$14,191Â Average loan balances\$2,583,882Â \$1,892,519Â \$3,931,305Â \$1,037,542Â \$638,616Â \$889,502Â \$2,088,180Â \$13,061,546Â Ratio of net charge-offs (recoveries) to average gross loans0.03Â %NMFO.49Â %Â 62.56Â %NMFO.99Â %0.44Â %Six months ended June 30, 2024Charge-offs\$2,382Â \$46Â \$4,932Â \$46Â \$9,740Â \$101Â \$12,766Â \$29,431Â Recoveries(3,502)(205)(104)Â (1,422)(132)(1,240)(6,605)Net (recoveries) charge-offs \$(1,120)\$(205)\$4,828Â \$46Â \$8,318Â \$(31)\$11,036Â \$22,826Â Average loan balance\$2,556,878Â \$1,892,340Â \$3,873,510Â \$1,054,655Â \$632,032Â \$880,661Â \$2,064,785Â \$12,954,861Â Ratio of net (recoveries) charge-offs to average gross loans(0.09)%(0.02)%0.25Â %62.65Â % (0.01)%1.07Â %0.35Â % (1)Excludes reverse mortgages.(2)Includes home equity lines of credit, installment loans unsecured lines of credit and education loans. The increase was primarily driven by \$11.0 million from Cash ConnectÂ due to the addition of customers during the fourth quarter of 2023 and first half of 2024 and the higher rate environment, \$5.3 million in Wealth Management fees, a \$3.4 million gain due to the reduction of our Visa B derivative liability established from our previous sale of 360,000 shares in 2Q 2020, a \$2.0 million gain from post-close distributions from our investment in Spring EQ, and \$1.8 million in capital markets income.Six months ended JuneÂ 30, 2024: During the six months ended June 30, 2024, noninterest income was \$167.5 million, an increase of \$37.5 million from \$130.0 million during the six months ended June 30, 2023. This increase was primarily driven by \$19.2 million from Cash ConnectÂ due to the reason mentioned above, \$7.7 million in Wealth Management fees, the \$3.4 million gain on our Visa B derivative liability mentioned above, \$2.0 million in capital markets income, the \$2.0 million gain related to Spring EQ mentioned above, and \$1.4 million from mortgage banking activities.For further information, see Note 3 to the unaudited Consolidated Financial Statements.Noninterest ExpenseThree months ended June 30, 2024: During the three months ended June 30, 2024, noninterest expense was \$155.8 million, an increase of \$14.5 million from \$141.3 million for the three months ended June 30, 2023. The increase was primarily due to \$10.9 million from salaries and benefits costs and \$9.5 million from other operating expense driven by higher funding costs from Cash ConnectÂ due to a shift towards external funding, partially offset by decreases of \$2.6 million in net corporate development and restructuring costs, \$1.8 million in loan workout and OREO expenses, and \$1.3 million in professional fees. Six months ended JuneÂ 30, 2024: During the six months ended June 30, 2024, noninterest expense was \$304.8 million, an increase of \$30.5 million from \$274.3 million for the six months ended June 30, 2023. The increase was primarily due to \$20.8 million in other operating expense driven by higher funding costs from Cash ConnectÂ due to a shift towards external funding and \$13.8 million in salaries and benefits, partially offset by a \$2.4 million decrease in net corporate development and restructuring costs, \$1.7 million in occupancy expense, and \$1.3 million in professional fees. Income TaxesWe and our subsidiaries file a consolidated federal income tax return and separate state income tax returns. Income taxes are accounted for in accordance with ASC 740, Income Taxes, which requires the recording of deferred income taxes for tax consequences of temporary differences. We recorded income tax expense of \$21.3 million and \$42.5 million during the three and six months ended June 30, 2024, respectively, compared to income tax expense of \$23.0 million and \$44.0 million for the same periods in 2023, respectively. Our effective tax rate was 23.5% and 23.9% for the three and six months ended June 30, 2024, respectively, compared to 25.1% for both the three and six months ended June 30, 2023.Â The effective tax rate for the three and six months ended June 30, 2024 decreased primarily due to an increase in projected tax benefits from our low-income housing tax credit investments, solar tax credit investments made during the current quarter, as well as a reduction in state income taxes.The effective tax rate reflects the recognition of certain tax benefits in the financial statements including those benefits from tax-exempt interest income, federal low-income housing tax credits, solar tax credits, research and development tax credits, and excess tax benefits from recognized stock compensation. These tax benefits are offset by the tax effect of stock-based compensation expense related to incentive stock options, tax deficiencies from recognized stock compensation, and a provision for state income tax expense. We frequently analyze our projections of taxable income and make adjustments to our provision for income taxes accordingly.64Table of ContentsRECONCILIATION OF NON-GAAP MEASURE TO GAAP MEASUREThe following table provides a reconciliation of tangible book value per share of common stock to book value per share of common stock, the most directly comparable GAAP

financial measure. We believe this measure helps management and investors better understand and assess changes from period to period in stockholdersâ€™ equity exclusive of changes in intangible assets. We regularly evaluate these estimates and assumptions including those related to the allowance for credit losses, business combinations, deferred taxes, fair value measurements and goodwill and other intangible assets. We base our estimates on historical experience and various other factors and assumptions that are believed to be reasonable under the circumstances. These form the basis for making judgments on the carrying value of certain assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. Although our current estimates contemplate current economic conditions and how we expect them to change in the future, for the remainder of 2024, it is possible that actual conditions may be worse than anticipated in those estimates, which could materially affect our results of operations and financial condition.Â Actual results may differ from these estimates under different assumptions or conditions.Critical accounting estimates at JuneA 30, 2024 did not significantly change from our critical accounting estimates at DecemberA 31, 2023, which are disclosed in our Annual Report on Form 10-K for the year ended DecemberA 31, 2023.RECENT REGULATORY DEVELOPMENTSRecent regulatory developments at JuneA 30, 2024 did not significantly change from our recent regulatory developments at DecemberA 31, 2023, which are disclosed in our Annual Report on Form 10-K for the year ended DecemberA 31, 2023.ItemA 3. BASIS OF PRESENTATIONGeneralThese unaudited Consolidated Financial Statements include the accounts of WSFS Financial Corporation (WSFS, and together with its subsidiaries, the Company), and its consolidated subsidiaries. WSFSâ€™ primary subsidiary is Wilmington Savings Fund Society, FSB (WSFS Bank or the Bank). As of JuneÂ 30, 2024, the other subsidiaries of WSFS include The Bryn Mawr Trust Company of Delaware (BMT-DE), Bryn Mawr Capital Management, LLC (BMCML), WSFS Wealth Management, LLC (PowdermillA®), WSFS SPE Services, LLC, and 601 Perkasie, LLC. The Company also has three unconsolidated subsidiaries: WSFS Capital Trust III, Royal Bancshares Capital Trust I, and Royal Bancshares Capital Trust II. WSFS Bank has two wholly-owned subsidiaries: Beneficial Equipment Finance Corporation (BEFC) and 1832 Holdings, Inc., and one majority-owned subsidiary, NewLane Finance Company (NewLane FinanceA®).OverviewFounded in 1832, the Bank is one of the ten oldest bank and trust companies continuously operating under the same name in the United States (U.S.). The Company provides residential and commercial mortgage, commercial and consumer lending services, as well as consumer deposit and treasury management services. The Company's core banking business is commercial lending funded primarily by customer-generated deposits. In addition, the Company offers a variety of wealth management and trust services to individuals, institutions and corporations. The Federal Deposit Insurance Corporation (FDIC) insures the Company's customers' deposits to their legal maximums. The Company serves its customers primarily from 114 offices located in Pennsylvania (57), Delaware (39), New Jersey (14), Florida (2), A Nevada (1) and Virginia (1), its ATM network, website at www.wsfsbank.com and mobile app. Information on the website is not incorporated by reference into this Quarterly Report on Form 10-Q.The Company's leasing business is conducted by NewLane FinanceA®. NewLane FinanceA® originates small business leases and provides commercial financing to businesses nationwide, targeting various equipment categories including technology, software, office, medical, veterinary and other areas. In addition, NewLane FinanceA® offers captive insurance through its subsidiary, Prime Protect.Basis of PresentationIn preparing the unaudited Consolidated Financial Statements, the Company is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. Amounts subject to significant estimates include the allowance for credit losses (including loans and leases held for investment, investment securities available-for-sale and held-to-maturity), loans held for sale, lending-related commitments, goodwill, intangible assets, post-retirement benefit obligations, the fair value of financial instruments, and income taxes. Among other effects, changes to these estimates could result in future impairments of investment securities, goodwill and intangible assets, the establishment of additional allowance and lending-related commitment reserves, changes in the fair value of financial instruments, as well as increased post-retirement benefits and income tax expense. The Company's accounting and reporting policies conform to Generally Accepted Accounting Principles in the U.S. (GAAP), prevailing practices within the banking industry for interim financial information and Rule 10-01 of SEC Regulation S-X (Rule 10-01). A Rule 10-01 does not require us to include all information and notes that would be required in audited financial statements.A Operating results for the periods presented are not necessarily indicative of the results that may be expected for any future quarters or for the year ending DecemberÂ 31, 2024.A These unaudited, interim Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and related notes included in the Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023 (the 2023 Annual Report on Form 10-K) that was filed with the SEC on FebruaryÂ 9, 2024 and is available at www.sec.gov or on the website at www.wsfsbank.com. All significant intercompany accounts and transactions were eliminated in consolidation. NONINTEREST INCOME Credit/debit card and ATM incomeThe following table presents the components of credit/debit card and ATM income:Three Months Ended June 30, Six Months Ended June 30, (Dollars in thousands)2024202320242023Bailment fees\$18,819A \$9,385A \$33,783A \$18,069A Interchange fees\$3,971A 3,993A 7,724A 7,879A Other card and ATM fees\$1,085A 1,052A 2,037A 1,843A Total credit/debit card and ATM income\$23,875A \$14,430A \$43,544A \$27,791A Credit/debit card and ATM income is composed of bailment fees, interchange fees, and other card and ATM fees. Bailment fees are earned from bailment arrangements with customers. Bailment arrangements are legal relationships in which property is delivered to another party without a transfer of ownership. The party who transferred the property (the bailor) retains ownership interest of the property. In the event that the bailee files for bankruptcy protection, the property is not included in the bailee's assets. The bailee pays an agreed-upon fee for the use of the bailor's property in exchange for the bailor allowing use of the assets at the bailee's site. Bailment fees are earned from cash that is made available for customers' use at an offsite location, such as cash located in an ATM at a customer's place of business. These fees are typically indexed to a market interest rate. This revenue stream generates fee income through monthly billing for bailment services.Credit/debit card and ATM income also includes interchange fees. Interchange fees are paid by a merchant's bank to a bank that issued a debit or credit card used in a transaction to compensate the issuing bank for the value and benefit the merchant receives from accepting electronic payments. These revenue streams generate fee income at the time a transaction occurs and are recorded as revenue at the time of the transaction.Investment management and fiduciary incomeThe following table presents the components of investment management and fiduciary income:Three Months Ended June 30, Six Months Ended June 30, (Dollars in thousands)2024202320242023Trust fees\$26,143A \$21,936A \$48,004A \$42,452A Wealth management and advisory fees\$11,463A 10,443A 22,530A 20,403A Total investment management and fiduciary income\$37,606A \$32,379A \$70,534A \$62,855A Investment management and fiduciary income is composed of trust fees and wealth management and advisory fees. Trust fees are based on revenue earned from custody, escrow, trustee and trustee related services on structured finance transactions; indenture trustee, administrative agent and collateral agent services to individuals, institutions and corporations; commercial domicile and independent director services; and investment and trustee services to families and individuals. Most fees are flat fees, except for a portion of personal and corporate trustee fees where the Company earns a percentage on the assets under management or assets held within a trust. This revenue stream primarily generates fee income through monthly, quarterly and annual billings for services provided.Wealth management and advisory fees consists of fees from Bryn Mawr Trust (excluding BMT-DE), BMCM, Powdermill® , and WSFS Wealth® Investments. Wealth management and advisory fees are based on revenue earned from services including asset management, financial planning, family office, and brokerage. The fees are based on the market value of assets, are assessed as a flat fee, or are brokerage commissions. This revenue stream primarily generates fee income through monthly, quarterly and annual billings for the services.Deposit service chargesThe following table presents the components of deposit service charges:Three Months Ended June 30, Six Months Ended June 30, (Dollars in thousands)2024202320242023Service fees\$4,522A \$4,315A \$8,884A \$8,451A Return and overdraft fees\$1,648A 1,720A 3,448A 3,367A Other deposit service fees\$326A 242A 651A 498A Total deposit service charges\$6,496A \$6,277A \$12,983A \$12,316A Deposit service charges includes revenue earned from core deposit products, certificates of deposit, and brokered deposits. The Company generates fee revenues from deposit service charges primarily through service charges and overdraft fees. Service charges consist primarily of monthly account maintenance fees, treasury management fees, foreign ATM fees and other maintenance fees. All of these revenue streams generate fee income through service charges for monthly account maintenance and similar items, transfer fees, late fees, overdraft fees, and stop payment fees. Revenue is recorded at the time of the transaction.Other incomeThe following table presents the components of other income:Three Months Ended June 30, Six Months Ended June 30, (Dollars in thousands)2024202320242023Managed service fees\$5,861A \$5,216A \$11,447A \$10,015A Currency preparation\$1,924A 1,342A 3,599A 2,624A ATM loss protection\$884A 647A 1,743A 1,295A Capital markets revenue\$3,378A 1,710A 6,379A 4,589A Miscellaneous products and services\$4,728A 1,616A 6,010A 1,259A Total other income\$16,775A \$10,531A \$29,178A \$19,782A Other income consists of managed service fees, which are primarily courier fees related to treasury management and are partially offset in noninterest expense, currency preparation, ATM loss protection, capital markets revenue, and other miscellaneous products and services offered by the Bank. These fees are primarily generated through monthly billings or at the time of the transaction. Capital markets revenue consists of fees related to interest rate swaps, risk participation agreements, foreign exchange contracts, letters of credit, and trade finance products and services offered by the Bank.Arrangements with multiple performance obligationsThe Company's contracts with customers may include multiple performance obligations. For such arrangements, the Company allocates revenue to each performance obligation based on its relative standalone selling price. The Company generally determines standalone selling prices based on the prices charged to customers. Practical expedients and exemptionsThe Company does not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less and (ii) contracts for which the Company recognizes revenue at the amount to which it has the right to invoice for services performed.See Note 14 for further information about the disaggregation of noninterest income by segment.

The unrealized losses are the result of changes in market interest rates subsequent to purchase, not credit loss, as these are highly rated agency securities with no expected credit loss, in the event of a default. As a result, there is no allowance for credit losses recorded for available-for-sale debt securities as of June30, 2024. At June30, 2024 and December31, 2023, held-to-maturity debt securities had an amortized cost basis of \$1.0 billion and \$1.1 billion, respectively. The held-to-maturity debt security portfolio primarily consists of mortgage-backed securities which were issued or guaranteed by U.S. government-sponsored entities and agencies and highly rated municipal bonds. The Company monitors credit quality of its non-government and non-agency securities through credit ratings. Loan modifications are offered on a case-by-case basis and are generally term extension, payment delay, and interest rate reduction modification types. Forbearance (due to hardship) programs result in modification types including payment delay and/or term extension. In addition, certain reorganization bankruptcy judgments may result in interest rate reduction, term extension, or principal forgiveness modification types.The following tables show the period-end amortized cost basis of troubled loans modified during the three and six months ended June30, 2024 and 2023, disaggregated by portfolio segment and type of modification granted:Three Months Ended June 30, 2024(Dollars in thousands)Term ExtensionMore-Than-Insignificant Payment DelayCombination- Term Extension and Payment DelayTotal% of Total Loan CategoryCommercial and industrial\$30,075A \$606A \$92A \$30,773A 1.17A %Owner-occupied commercial493A \$4A \$4A 493A 0.03A %Commercial mortgages83A \$4A \$4A 83A \$4A %Construction10,620A \$4A \$4A 10,620A 1.21A %Consumer(1)256A 784A 1,270A 2,310A 0.11A %Total\$41,527A 1,390A 1,362A \$44,279A 0.34A %Six Months Ended June 30, 2024(Dollars in thousands)Term ExtensionMore-Than-Insignificant Payment DelayCombination- Term Extension and Payment DelayTotal% of Total Loan CategoryCommercial and industrial\$61,803A \$955A \$805A \$63,563A 2.41A %Owner-occupied commercial493A \$4A \$4A 493A 0.03A %Commercial mortgages83A \$4A \$4A 83A \$4A %Construction10,620A \$4A \$4A 10,620A 1.21A %Consumer(1)502A 1,389A 2,886A 4,777A 0.23A %Total\$73,501A \$2,344A \$3,691A \$79,536A 0.61A % (1)Includes home equity lines of credit, installment loans and unsecured lines of credit.Three months ended June 30, 2023(Dollars in thousands)Term ExtensionMore-Than-Insignificant Payment DelayCombination- Term Extension and Payment DelayCombination- Term Extension and Interest Rate ReductionCombination- Payment Delay and Interest Rate ReductionTotal% of Total Loan CategoryCommercial and industrial\$8,819A \$4A \$4A \$10,164A \$4A \$4A \$18,983A 0.72A %Owner-occupied commercial\$4A \$4A 1,062A \$4A \$4A 1,062A 0.06A %Commercial mortgages9,468A \$4A \$4A \$4A 9,468A 0.27A %Construction3,305A \$4A \$4A \$4A \$4A 3,305A 0.35A %Consumer(1)172A 720A 1,967A \$4A 75A 2,934A 0.15A %Total\$21,764A \$720A Months Ended June 30, 2023(Dollars in thousands)Term ExtensionMore-Than-Insignificant Payment DelayCombination- Term Extension and Payment DelayCombination- Term Extension and Interest Rate ReductionCombination- Payment Delay and Interest Rate ReductionTotal% of Total Loan CategoryCommercial and industrial(1)\$21,530A \$4A \$4A \$10,164A \$4A \$4A \$31,694A 1.21A %Owner-occupied commercial\$4A \$4A 1,062A 144A \$4A 1,206A 0.06A %Commercial mortgages9,468A \$4A \$4A \$4A 9,468A 0.27A %Construction3,305A \$4A \$4A \$4A \$4A 3,305A 0.35A %Consumer(2)888A 871A 3,344A 158A 195A 5,456A 0.29A %Total\$35,191A \$871A (1)Includes home equity lines of credit, installment loans and unsecured lines of credit.The following table describes the financial effect of the modifications made to troubled loans during the three and six months ended June30, 2024 and 2023:Three Months Ended June 30, 2024Six Months Ended June 30, 2024Term Extension(1)More-Than-Insignificant Payment Delay(2)Term Extension(1)More-Than-Insignificant Payment Delay(2)Commercial and industrial\$0.594%0.594%Construction0.604%0.604%Consumer0.4800.2040.037Three Months Ended June 30, 2023Six Months Ended June 30, 2023Term Extension(1)More-Than-Insignificant Payment Delay(2)Term Extension(1)More-Than-Insignificant Payment Delay(2)Commercial and industrial1.1100.081%0.08%Owner-occupied commercial1.3400.1292.5700.1Commercial mortgages1.334%1.334%Construction0.254%0.254%Consumer0.4400.24352.6500.04(1)Represents the weighted-average increase in the life of modified loans measured in years, which reduces monthly payment amounts for borrowers.(2)Represents the percentage of loans deferred over the total loan portfolio excluding reverse mortgages at fair value.(3)Represents the weighted-average decrease in the contractual interest rate on the modified loans.As of June30, 2024 and December31, 2023, the Company had commitments to extend credit of \$31.8 million and \$18.4 million, respectively, to borrowers experiencing financial difficulty whose terms had been modified.Upon the Company's determination that a modified loan (or portion of a loan) has subsequently been deemed uncollectible, the loan (or a portion of the loan) is written off. Therefore, the amortized cost basis of the loan is reduced by the uncollectible amount and the allowance for credit losses is adjusted by the same amount.The following table shows the amortized cost of loans that received a modification that had a payment default during the six months ended June30, 2024 and were modified in the 12 months before default to borrowers experiencing financial difficulty. There were no loans that received a modification that had a payment default during the three months ended June30, 2024 and were modified in the 12 months before default to borrowers experiencing financial difficulty. counterparty. Valuation of the derivative related to the residential mortgage held for sale loan pipeline is based on valuation of the loans held for sale portfolio as described above in Loans held for sale. Valuation of foreign exchange forward contracts and risk participation agreements are obtained from an independent pricing service. Other liabilities Other liabilities include the fair value of interest rate products, derivatives on the residential mortgage held for sale loan pipeline, foreign exchange forward contracts, risk participation agreements, and derivative related to the sale of certain Visa Class B common shares. Valuation of interest rate products is obtained from an independent pricing service and also from the derivative counterparty. Valuation of the derivative related to the residential mortgage held for sale loan pipeline is based on valuation of the loans held for sale portfolio as described above in Loans held for sale. Valuation of foreign exchange forward contracts and risk participation agreements are obtained from an independent pricing service. Valuation of the derivative related to the sale of certain Visa Class B common shares is based on: (i) the agreed upon graduated fee structure; (ii) the length of time until the resolution of the Visa covered litigation; and (iii) the estimated impact of dilution in the conversion ratio of Class B shares resulting from changes in the Visa covered litigation. FAIR VALUE OF FINANCIAL INSTRUMENTS The reported fair values of financial instruments are based on a variety of factors. In certain cases, fair values represent quoted market prices for identical or comparable instruments. In other cases, fair values have been estimated based on assumptions regarding the amount and timing of estimated future cash flows that are discounted to reflect current market rates and varying degrees of risk. Accordingly, the fair values may not represent actual values of the financial instruments that could have been realized as of period-end or that will be realized in the future. The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value: Cash, cash equivalents, and restricted cash For cash and short-term investment securities, including due from banks, federal funds sold or purchased under agreements to resell and interest-bearing deposits with other banks, the carrying amount is a reasonable estimate of fair value. Investment securities Investment securities include debt securities classified as held-to-maturity or available-for-sale. Fair value is estimated using quoted prices for similar securities, which the Company obtains from a third party vendor. A The Company uses one of the largest providers of securities pricing to the industry and management periodically assesses the inputs used by this vendor to price the various types of securities owned by the Company to validate the vendor's methodology as described above in available-for-sale securities. Other investments Other investments includes equity investments without readily determinable fair values (see discussion in Fair Value of Financial Assets and Liabilities section above) as well as equity method investments. Loans held for sale Loans held for sale are carried at their fair value (see discussion in Fair Value of Financial Assets and Liabilities section above). Loans and leases Loans and leases are segregated by portfolio segments with similar financial characteristics. The fair values of loans and leases, with the exception of reverse mortgages, are estimated by discounting expected cash flows using the current rates at which similar loans would be made to borrowers with comparable credit ratings and for similar remaining maturities. The fair values of reverse mortgages are based on the net present value of the expected cash flows using a discount rate specific to the reverse mortgages portfolio. The fair value of nonperforming loans is based on recent external appraisals of the underlying collateral, if the loan is collateral dependent. Estimated cash flows, discounted using a rate commensurate with current rates and the risk associated with the estimated cash flows, are used if appraisals are not available. A This technique does contemplate an exit price. Stock in the Federal Home Loan Bank (FHLB) of Pittsburgh The fair value of FHLB stock is assumed to be equal to its cost basis, since the stock is non-marketable but redeemable at its par value. Accrued interest receivable The carrying amounts of interest receivable approximate fair value. Other assets Other assets include the fair value of interest rate products, derivatives on the residential mortgage held for sale loan pipeline, foreign exchange forward contracts, and risk participation agreements (see discussion in Fair Value of Financial Assets and Liabilities section above). Deposits The fair value of deposits with no stated maturity, such as noninterest-bearing demand deposits, money market and interest-bearing demand deposits, is assumed to be equal to the amount payable on demand. A The fair value of time deposits is based on the discounted value of contractual cash flows. A The discount rate is estimated using rates currently offered for deposits with comparable remaining maturities. Borrowed funds Rates currently available to the Company for debt with similar terms and remaining maturities are used to estimate the fair value of existing debt. Off-balance sheet instruments The fair value of off-balance sheet instruments, including swap guarantees of \$6.5 million at June 30, 2024 and \$7.3 million at December 31, 2023, respectively, and standby letters of credit, approximates the recorded net deferred fee amounts. Because letters of credit are generally not assignable by either the Company or the borrower, they only have value to the Company and the borrower. In determining the fair value of the swap guarantees, the Company assesses the underlying credit risk exposure for each borrower in a paying position to the third-party financial institution. Accrued interest payable The carrying amounts of interest payable approximate fair value. Other liabilities Other liabilities include the fair value of interest rate products, derivatives on the residential mortgage held for sale loan pipeline, foreign exchange forward contracts, risk participation agreements, and derivative related to the sale of certain Visa Class B common shares (see discussion in Fair Value of Financial Assets and Liabilities section above). three and six months ended June30, 2023, respectively. The Company does not expect any unrealized gains or losses related to cash flow hedges to be reclassified into earnings in the next twelve months.Derivatives Not Designated as Hedging Instruments:Customer Derivatives â€” Interest Rate SwapsThe Company enters into interest rate swaps with commercial loan customers wishing to manage interest rate risk. The Company then enters into corresponding swap agreements with swap dealer counterparties to economically hedge the exposure arising from these contracts. The interest rate swaps with both the customers and third parties are not designated as hedges under ASC 815, Derivatives and Hedging (ASC 815) and are marked to market through earnings. As the interest rate swaps are structured to offset each other, changes to the underlying benchmark interest rates considered in the valuation of these instruments do not result in an impact to earnings; however, there may be fair value adjustments related to credit quality variations between counterparties, which may impact earnings as required by ASC 820. As of June30, 2024, there were no fair value adjustments related to credit quality.Derivative Financial Instruments from Mortgage Banking ActivitiesDerivative financial instruments related to mortgage banking activities are recorded at fair value and are not designated as accounting hedges. This includes commitments to originate certain fixed-rate residential mortgage loans to customers, also referred to as interest rate lock commitments. The Company may also enter into forward sale commitments to sell loans to investors at a fixed price at a future date and trade asset-backed securities to mitigate interest rate risk.Foreign Exchange Forward ContractsThe Company enters into foreign exchange forward contracts (FX forwards) with customers to exchange one currency for another on an agreed date in the future at an agreed exchange rate. The Corporation then enters into corresponding FX forwards with swap dealer counterparties to economically hedge its exposure on the exchange rate component of the customer agreements. The FX forwards with both the customers and third parties are not designated as hedges under ASC 815 and are marked to market through earnings. Exposure to gains and losses on these contracts increase or decrease over their respective lives as currency exchange and interest rates fluctuate. As the FX forwards are structured to offset each other, changes to the underlying term structure of currency exchange rates considered in the valuation of these instruments do not result in an impact to earnings; however, there may be fair value adjustments related to credit quality variations between counterparties, which may impact earnings as required by ASC 820. As of June30, 2024, there were no fair value adjustments related to credit quality.Risk Participation AgreementsThe Company may enter into a risk participation agreement (RPA) with another institution as a means to assume a portion of the credit risk associated with a loan structure which includes a derivative instrument, in exchange for fee income commensurate with the risk assumed. This type of derivative is referred to as an â€œRPA sold.â€ In addition, in an effort to reduce the credit risk associated with an interest rate swap agreement with a borrower for whom the Corporation has provided a loan structured with a derivative, the Corporation may purchase an RPA from an institution participating in the facility in exchange for a fee commensurate with the risk shared. This type of derivative is referred to as an â€œRPA purchased.â€Swap GuaranteesThe Company entered into agreements with one unrelated financial institution whereby that financial institution entered into interest rate derivative contracts (interest rate swap transactions) directly with customers referred to them by the Company.Â Under the terms of the agreements, the financial institution has recourse to us for any exposure created under each swap transaction, only in the event that the customer defaults on the swap agreement and the agreement is in a paying position to the third-party financial institution.Â This is a customary arrangement that allows us to provide access to interest rate swap transactions for our customers without creating the swap ourselves.Â These swap guarantees are accounted for as credit derivatives. At June30, 2024 and DecemberÂ 31, 2023, there were 175 and 188 variable-rate to fixed-rate swap transactions between the third-party financial institutions and the Company's customers, respectively.Â The initial notional aggregate amount was approximately \$0.7 billion at June30, 2024 and DecemberÂ 31, 2023.Â At June30, 2024, the swap transactions remaining maturities ranged from under 1 year to 11 years. At June30, 2024, noneÂ of these customer swaps were in a paying position to third parties, with our swap guarantees having a fair value of \$6.5 million. At DecemberÂ 31, 2023, none of these customer swaps were in a paying position to third parties, with the Company's swap guarantees having a fair value of \$7.3 million. However, for both periods, none of the Company's customers were in default of the swap agreements.Credit-risk-related Contingent FeaturesThe Company has agreements with certain derivative counterparties that contain a provision under which, if it defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its derivative obligations. The Company has minimum collateral posting thresholds with certain of its derivative counterparties, and has posted collateral of \$2.3 million in cash against its obligations under these agreements which meets or exceeds the minimum collateral posting requirements. If the Company had breached any of these provisions at June30, 2024, it could have been required to settle its obligations under the agreements at the termination value. SEGMENT INFORMATION As defined in ASC 280, Segment Reporting (ASC 280), an operating segment is a component of an enterprise that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the enterpriseâ€™s chief operating decision makers to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. The Company evaluates performance based on pretax net income relative to resources used, and allocate resources based on these results. The accounting policies applicable to the Company's segments are those that apply to its preparation of the accompanying unaudited Consolidated Financial Statements.Â Based on these criteria, the Company has identified three segments: WSFS Bank, Cash ConnectÂ®, and Wealth Management. The WSFS Bank segment provides financial products to commercial and consumer customers. Commercial and Consumer Banking, Commercial Real Estate Lending and other banking business units are operating departments of WSFS Bank. These departments share the same regulators, the same market, many of the same customers and provide similar products and services through the general infrastructure of the Bank. Accordingly, these departments are not considered discrete segments and are appropriately aggregated in the WSFS Bank segment.The Company's Cash ConnectÂ® segment provides ATM vault cash, smart safe and other cash logistics services through strategic partnerships with several of the largest networks, manufacturers and service providers in the ATM industry. Cash ConnectÂ® services non-bank and WSFS-branded ATMs and smart safes nationwide. The balance sheet category Cash in non-owned ATMs includes cash from which fee income is earned through bailment arrangements with customers of Cash ConnectÂ®. The Wealth Management segment provides a broad array of planning and advisory services, investment management, trust services, and credit and deposit products to individual, corporate, and institutional clients. Bryn Mawr TrustÂ® is our predominant Private Wealth Management brand, providing advisory, investment management and trustee services to institutions, affluent and high-net-worth individuals. Private Wealth Management, which includes Private Banking, serves high-net-worth clients and institutions by providing trustee and advisory services, financial planning, customized investment strategies, brokerage products such as annuities and customized banking services including credit and deposit products tailored to its clientele. Private Wealth Management includes businesses that operate under the bankâ€™s charter, through a broker/dealer and as a registered investment advisor (RIA). It generates revenue through fee-only arrangements, net interest income and other fee-only services such as estate administration, trust tax planning and custody. PowdermillÂ® is a multi-family office specializing in providing independent solutions to high-net-worth individuals, families and corporate executives through a coordinated, centralized approach. The Bryn Mawr Trust Company of Delaware provides personal trust and fiduciary services to families and individuals across the U.S. and internationally. WSFS Institutional ServicesÂ® provides trustee, agency, bankruptcy administration, custodial and commercial domicile services to institutional, corporate clients and special purpose vehicles.The following tables show segment results for the three and six months ended June30, 2024 and 2023:Â Three Months Ended June 30, 2024Three Months Ended June 30, 2023(Dollars in thousands)WSFS BankCashConnectÂ®WealthManagementTotalWSFS BankCashConnectÂ®WealthManagementTotalStatements of IncomeExternal customer revenues:Interest incomes\$259,387Â \$6e+5Â \$5,850Â \$265,237Â \$236,405Â \$â€”Â \$5,364Â \$241,769Â Noninterest income22,640Â \$1,000Â \$7,958Â 91,598Â 14,089Â 19,992Â 32,790Â 66,871Â Total external customer revenues282,027Â \$1,310,000Â \$4,808Â 356,835Â 250,494Â 19,992Â 38,154Â 308,640Â Inter-segment revenues:Interest income7,979Â 386Â 27,321Â 35,686Â 6,725Â 323Â 24,948Â 31,996Â Noninterest income8,488Â 478Â 264Â 9,230Â 7,261Â 495Â 94Â 7,850Â Total inter-segment revenues16,467Â 864Â 27,585Â 44,916Â 13,986Â 818Â 25,042Â 31,984Â Total revenue298,494Â \$1,864Â 71,393Â 401,751Â 264,480Â 20,810Â 63,196Â 348,486Â External customer expenses:Interest expense79,681Â \$â€”Â 11,107Â 90,788Â 53,962Â \$â€”Â 5,965Â 59,927Â Noninterest expenses110,637Â 23,942Â 21,189Â 155,768Â 108,147Â 14,538Â 18,568Â 141,253Â Provision for credit losses19,800Â \$â€”Â 14Â 19,814Â 16,328Â \$â€”Â (498)15,830Â Total external customer expenses210,118Â 23,942Â 32,310Â 266,370Â 178,437Â 14,538Â 24,035Â 217,010Â Inter-segment expenses:Interest expense27,707Â 4,294Â 3,685Â 35,686Â 25,271Â 3,851Â 2,874Â 31,996Â Noninterest expenses742Â 1,650Â 6,838Â 9,230Â 589Â 1,484Â 5,777Â 7,850Â Total inter-segment expenses28,404Â 5,944Â 10,523Â 44,916Â 25,860Â 5,335Â 8,651Â 39,846Â Total expenses238,567Â 29,886Â 42,833Â 311,286Â 204,297Â 19,873Â 32,686Â 256,856Â Income before taxes\$59,927Â \$1,978Â \$28,560Â \$90,465Â \$60,183Â \$937Â \$30,510Â \$91,630Â Income tax provision21,257Â 23,035Â Consolidated net income69,208Â 68,595Â Net (loss) income attributable to noncontrolling interest(65)(83)Net income attributable to WSFS\$69,273Â \$68,678Â Supplemental InformationCapital expenditures for the period ended\$2,173Â \$123Â \$428Â \$2,724Â \$956Â \$â€”Â \$â€”Â \$956Â Six Months Ended June 30, 2024Six Months Ended June 30, 2023(Dollars in thousands)WSFS BankCashConnectÂ®WealthManagementTotalWSFS BankCashConnectÂ®WealthManagementTotalStatements of IncomeExternal customer revenues:Interest incomes\$515,520Â \$â€”Â \$11,339Â \$526,859Â \$457,690Â \$â€”Â \$10,462Â \$468,152Â Noninterest income38,860Â \$7,350Â 71,245Â 167,455Â 28,239Â 38,171Â 63,588Â 129,998Â Total external customer revenues554,380Â \$7,350Â 82,584Â 694,314Â 485,929Â 38,171Â 74,050Â 598,150Â Inter-segment revenues:Interest income14,545Â 826Â 56,192Â 71,563Â 12,824Â 718Â 45,675Â 59,217Â Noninterest income15,761Â 913Â 471Â 17,145Â 14,161Â 956Â 199Â 15,316Â Total inter-segment revenues30,306Â 1,739Â 56,663Â 88,708Â 26,985Â 1,674Â 45,874Â 74,533Â Total revenue584,686Â 59,089Â 139,247Â 783,022Â 512,914Â 39,845Â 119,924Â 672,683Â External customer expenses:Interest expense154,760Â \$â€”Â 22,372Â 177,132Â 92,449Â \$â€”Â 11,329Â 103,778Â Noninterest expenses217,269Â 45,877Â 41,694Â 304,840Â 209,096Â 28,038Â 37,164Â 274,298Â Provision for credit losses34,620Â \$â€”Â 332Â 34,952Â 44,045Â \$â€”Â 796Â 44,841Â Total external customer expenses406,649Â 45,877Â 64,398Â 516,924Â 345,590Â 28,038Â 49,289Â 422,917Â Inter-segment expenses:Interest expense57,018Â 7,423Â 7,122Â 71,563Â 46,393Â 7,410Â 5,414Â 59,217Â Noninterest expenses1,384Â 3,059Â 12,702Â 17,145Â 1,155Â 2,830Â 11,331Â 15,316Â Total inter-segment expenses58,402Â 10,482Â 19,248Â 88,708Â 47,548Â 10,240Â 16,745Â 74,533Â Total expenses465,051Â 56,359Â 84,222Â 605,632Â 393,138Â 38,278Â 66,034Â 497,450Â Income before taxes\$119,635Â \$2,730Â \$55,025Â \$177,390Â \$119,776Â \$1,567Â \$53,890Â \$175,233Â Income tax provision42,459Â 43,976Â Consolidated net income134,931Â 131,257Â Net income attributable to noncontrolling interest(103)175Â Net income attributable to WSFS\$135,034Â \$131,082Â Supplemental InformationCapital expenditures for the period ended\$6,393Â \$123Â \$441Â \$6,957Â \$1,812Â \$â€”Â \$â€”Â \$1,812Â The following table shows significant components of segment net assets as of June30, 2024 and DecemberÂ 31, 2023:Â June 30, 2024December 31, 2023(Dollars in thousands)WSFS BankCashConnectÂ®WealthManagementTotalWSFS BankCashConnectÂ®WealthManagementTotalStatements of Financial ConditionCash and cash equivalents\$609,850Â \$371,122Â \$40,744Â \$1,021,716Â \$600,483Â \$443,431Â \$48,986Â \$1,092,900Â Goodwill753,586Â \$â€”Â 132,312Â 885,898Â 753,586Â \$â€”Â 132,312Â 885,898Â Other segment assets18,393,939Â 20,302Â 422,675Â 18,836,916Â 18,191,585Â 15,654Â 408,635Â 18,615,874Â Total segment assets\$19,575,375Â \$391,424Â \$595,731Â \$20,744,530Â \$19,545,654Â \$1589,933Â \$20,594,672Â X - COMMITMENTS AND CONTINGENCIES Secondary Market Loan SalesThe Company typically sells newly originated residential mortgage loans in the secondary market to mortgage loan aggregators and to GSEs such as FHLMC, FNMA, and on a more limited basis, the FHLB. Loans held for sale are reflected on the unaudited Consolidated Statements of Financial Condition at fair value with changes in the value reflected in the unaudited Consolidated Statements of Income. Gains and losses are recognized at the time of sale. The Company periodically retains the servicing rights on residential mortgage loans sold which results in monthly service fee income. The mortgage servicing rights are included in Goodwill and intangible assets on the unaudited Consolidated Statements of Financial Condition. Otherwise, the Company sells loans with servicing released on a nonrecourse basis. Rate-locked loan commitments that the Company intends to sell in the secondary market are accounted for as derivatives under ASC 815. The Company does not sell loans with recourse, except for standard loan sale contract provisions covering violations of representations and warranties and, under certain circumstances, early payment default by the borrower. These are customary repurchase provisions in the secondary market for residential mortgage loan sales.Å These provisions may include either an indemnification from loss or the repurchase of the loans. Repurchases and losses have been rare and no provision is made for losses at the time of sale. There were two repurchases during the six months ended June 30, 2024 for an aggregate of \$0.5 million and one repurchase for \$0.8 million during the same period in 2023.Unfunded Lending CommitmentsAt JuneÅ 30, 2024 and DecemberÅ 31, 2023, the allowance for credit losses of unfunded lending commitments was \$11.5 million and \$12.1 million, respectively. A provision release of \$0.3 million and \$0.6 million was recognized during the three and six months ended JuneÅ 30, 2024, respectively, compared to a provision expense of \$0.4 million and \$0.2 million during the three and six months ended JuneÅ 30, 2023 X - ReferencesNo definition available. + Details Name: us-gaap_CommitmentsAndContingenciesDisclosureAbstract Namespace Prefix: us-gaap_Data Type: xbrli:stringItemType Balance Type: na Period Type: duration X - DefinitionThe entire disclosure for commitments and contingencies. + ReferencesReference 1: [http://www.xbrl.org/2009/role/commonPracticeRef -Topic 405 -SubTopic 30 -Name Accounting Standards Codification -Publisher FASB -URI https://asc.fasb.org/405-30/tableOfContentReference 2: http://www.xbrl.org/2003/role/disclosureRef -Topic 440 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 4 -Subparagraph \(a\) -Publisher FASB -URI https://asc.fasb.org/1943274/2147482648/440-10-50-4](http://www.xbrl.org/2009/role/commonPracticeRef -Topic 405 -SubTopic 30 -Name Accounting Standards Codification -Publisher FASB -URI https://asc.fasb.org/405-30/tableOfContentReference 2: http://www.xbrl.org/2003/role/disclosureRef -Topic 440 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 4 -Subparagraph (a) -Publisher FASB -URI https://asc.fasb.org/1943274/2147482648/440-10-50-4)Reference 3: [http://www.xbrl.org/2003/role/disclosureRef -Topic 954 -SubTopic 440 -Name Accounting Standards Codification -Section 50 -Paragraph 1 -Subparagraph \(a\) -Publisher FASB -URI https://asc.fasb.org/1943274/2147478522/954-440-50-1](http://www.xbrl.org/2009/role/commonPracticeRef -Topic 450 -Name Accounting Standards Codification -Publisher FASB -URI https://asc.fasb.org/450/tableOfContentReference 4: http://www.xbrl.org/2003/role/disclosureRef -Topic 954 -SubTopic 440 -Name Accounting Standards Codification -Section 50 -Paragraph 1 -Subparagraph (a) -Publisher FASB -URI https://asc.fasb.org/1943274/2147478522/954-440-50-1)Reference 5: [http://www.xbrl.org/2003/role/disclosureRef -Topic 440 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 4 -Subparagraph \(c\) -Publisher FASB -URI https://asc.fasb.org/1943274/2147482648/440-10-50-4](http://www.xbrl.org/2003/role/disclosureRef -Topic 440 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 4 -Subparagraph (c) -Publisher FASB -URI https://asc.fasb.org/1943274/2147482648/440-10-50-4)Reference 6: [http://www.xbrl.org/2003/role/disclosureRef -Topic 220 -SubTopic 10 -Name Accounting Standards Codification -Section S99 -Paragraph 2 -Subparagraph \(SX 210.5-03\(21\)\) -Publisher FASB -URI https://asc.fasb.org/1943274/2147483621/220-10-599-2](http://fasb.org/us-gaap/role/ref/legacyRef -Topic 440 -Name Accounting Standards Codification -Publisher FASB -URI https://asc.fasb.org/440/tableOfContent + Details Name: us-gaap_CommitmentsAndContingenciesDisclosureTextBlock Namespace Prefix: us-gaap_Data Type: dtr-types:textBlockItemType Balance Type: na Period Type: duration XML 35 R25.htm IDEA: XBRL DOCUMENT v3.24.2.u1 CHANGE IN ACCUMULATED OTHER COMPREHENSIVE LOSS 6 Months Ended Jun. 30, 2024 Equity [Abstract] Å CHANGE IN ACCUMULATED OTHER COMPREHENSIVE LOSS 16. Amounts subject to significant estimates include the allowance for credit losses (including loans and leases held for investment, investment securities available-for-sale and held-to-maturity), loans held for sale, lending-related commitments, goodwill, intangible assets, post-retirement benefit obligations, the fair value of financial instruments, and income taxes. Among other effects, changes to these estimates could result in future impairments of investment securities, goodwill and intangible assets, the establishment of additional allowance and lending-related commitment reserves, changes in the fair value of financial instruments, as well as increased post-retirement benefits and income tax expense. The Company's accounting and reporting policies conform to Generally Accepted Accounting Principles in the U.S. (GAAP), prevailing practices within the banking industry for interim financial information and Rule 10-01 of SEC Regulation S-X (Rule 10-01). A Rule 10-01 does not require us to include all information and notes that would be required in audited financial statements. A Operating results for the periods presented are not necessarily indicative of the results that may be expected for any future quarters or for the year ending December 31, 2024. A These unaudited, interim Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and related notes included in the Annual Report on Form 10-K for the year ended December 31, 2023 (the 2023 Annual Report on Form 10-K) that was filed with the SEC on February 29, 2024 and is available at www.sec.gov or on the website at www.wfsfbank.com. All significant intercompany accounts and transactions were eliminated in consolidation. Recent Accounting Pronouncements RECENT ACCOUNTING PRONOUNCEMENTSThe following accounting pronouncements were adopted by the Company during the six months ended June 30, 2024, but did not have a material impact on the unaudited Consolidated Financial Statements. A ASC 842, Leases (Topic 842) A Common Control Agreements A ASC 842, Investments A Equity Method and Joint Ventures (Topic 323) Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method There were no other applicable material accounting pronouncements adopted by the Company since December 31, 2023. Accounting Guidance Pending Adoption as of June 30, 2024 ASU No. 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures (ASU 2023-07): In November 2023, the Financial Accounting Standards Board (FASB) issued ASU 2023-07 to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss. The amendments are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. Adoption is required retrospectively for all prior periods presented in the financial statements. The Company is currently evaluating this update to determine the impact on the Company's disclosures. ASU No. 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures (ASU 2023-09): In December 2023, the FASB issued ASU 2023-09 to enhance the transparency and decision usefulness of income tax disclosures primarily related to the effective tax rate reconciliation and income taxes paid. The amendments are effective for fiscal years beginning after December 15, 2024. Early adoption is permitted. The Company is currently evaluating this update to determine the impact on the Company's disclosures Fair Value Measurement Available-for-sale securities Securities classified as available-for-sale are reported at fair value using Level 2 inputs. The Company believes that this Level 2 designation is appropriate under ASC 820-10, as these securities are GSEs and GNMA securities with almost all fixed income securities, none are exchange traded, and all are priced by correlation to observed market data. A For these securities the Company obtains fair value measurements from an independent pricing service. A The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, U.S. government and agency yield curves, live trading levels, trade execution data, market consensus prepayment speeds, credit information, and the security's terms and conditions, among other factors. Other investments Other investments includes equity investments without readily determinable fair values, which are categorized as Level 3. The Company's equity investments without readily determinable fair values are held at cost, and are adjusted for any observable price changes in orderly transactions for the identical or a similar investment of the same issuer during the reporting period. Other real estate owned Other real estate owned consists of loan collateral which has been repossessed through foreclosure or other measures. A Initially, foreclosed assets are recorded at the fair value of the collateral less estimated selling costs. A Subsequent to foreclosure, valuations are updated periodically and the assets may be marked down further, reflecting a new cost basis. A The fair value of other real estate owned was estimated using Level 3 inputs based on appraisals obtained from third parties. Loans held for sale The fair value of loans held for sale is based on estimates using Level 2 inputs. A These inputs are based on pricing information obtained from wholesale mortgage banks and brokers and applied to loans with similar interest rates and maturities. Other assets Other assets include the fair value of interest rate products, derivatives on the residential mortgage held for sale loan pipeline, foreign exchange forward contracts, and risk participation agreements. Valuation of interest rate products is obtained from an independent pricing service and also from the derivative counterparty. Valuation of the derivative related to the residential mortgage held for sale loan pipeline is based on valuation of the loans held for sale portfolio as described above in Loans held for sale. Valuation of foreign exchange forward contracts and risk participation agreements are obtained from an independent pricing service. Other liabilities Other liabilities include the fair value of interest rate products, derivatives on the residential mortgage held for sale loan pipeline, foreign exchange forward contracts, risk participation agreements, and derivative related to the sale of certain Visa Class B common shares. Valuation of interest rate products is obtained from an independent pricing service and also from the derivative counterparty. Valuation of the derivative related to the residential mortgage held for sale loan pipeline is based on valuation of the loans held for sale portfolio as described above in Loans held for sale. Valuation of foreign exchange forward contracts and risk participation agreements are obtained from an independent pricing service. Valuation of the derivative related to the sale of certain Visa Class B common shares is based on: (i) the agreed upon graduated fee structure; (ii) the length of time until the resolution of the Visa covered litigation; and (iii) the estimated impact of dilution in the conversion ratio of Class B shares resulting from changes in the Visa covered litigation. FAIR VALUE OF FINANCIAL INSTRUMENTS The reported fair values of financial instruments are based on a variety of factors. In certain cases, fair values represent quoted market prices for identical or comparable instruments. In other cases, fair values have been estimated based on assumptions regarding the amount and timing of estimated future cash flows that are discounted to reflect current market rates and varying degrees of risk. Accordingly, the fair values may not represent actual values of the financial instruments that could have been realized as of period-end or that will be realized in the future. The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value: Cash, cash equivalents, and restricted cash For cash and short-term investment securities, including due from banks, federal funds sold or purchased under agreements to resell and interest-bearing deposits with other banks, the carrying amount is a reasonable estimate of fair value. Investment securities Investment securities include debt securities classified as held-to-maturity or available-for-sale. Fair value is estimated using quoted prices for similar securities, which the Company obtains from a third party vendor. A The Company uses one of the largest providers of securities pricing to the industry and management periodically assesses the inputs used by this vendor to price the various types of securities owned by the Company to validate the vendor's methodology as described above in available-for-sale securities. Other investments Other investments includes equity investments without readily determinable fair values (see discussion in A Fair Value of Financial Assets and Liabilities A section above) as well as equity method investments. Loans held for sale Loans held for sale are carried at their fair value (see discussion in A Fair Value of Financial Assets and Liabilities A section above). Loans and leases Loans and leases are segregated by portfolio segments with similar financial characteristics. The fair values of loans and leases, with the exception of reverse mortgages, are estimated by discounting expected cash flows using the current rates at which similar loans would be made to borrowers with comparable credit ratings and for similar remaining maturities. The fair values of reverse mortgages are based on the net present value of the expected cash flows using a discount rate specific to the reverse mortgages portfolio. The fair value of nonperforming loans is based on recent external appraisals of the underlying collateral, if the loan is collateral dependent. Estimated cash flows, discounted using a rate commensurate with current rates and the risk associated with the estimated cash flows, are used if appraisals are not available. A This technique does contemplate an exit price. Stock in the Federal Home Loan Bank (FHLB) of Pittsburgh The fair value of FHLB stock is assumed to be equal to its cost basis, since the stock is non-marketable but redeemable at its par value. Accrued interest receivable The carrying amounts of interest receivable approximate fair value. Other assets Other assets include the fair value of interest rate products, derivatives on the residential mortgage held for sale loan pipeline, foreign exchange forward contracts, and risk participation agreements (see discussion in A Fair Value of Financial Assets and Liabilities A section above). Deposits The fair value of deposits with no stated maturity, such as noninterest-bearing demand deposits, money market and A interest-bearing demand deposits, is assumed to be equal to the amount payable on demand. A The fair value of time deposits is based on the discounted value of contractual cash flows. A The discount rate is estimated using rates currently offered for deposits with comparable remaining maturities. Borrowed funds Rates currently available to the Company for debt with similar terms and remaining maturities are used to estimate the fair value of existing debt. Off-balance sheet instruments The fair value of off-balance sheet instruments, including swap guarantees of \$6.5 million at June 30, 2024 and \$7.3 million at December 31, 2023, respectively, and standby letters of credit, approximates the recorded net deferred fee amounts. Because letters of credit are generally not assignable by either the Company or the borrower, they only have value to the Company and the borrower. In determining the fair value of the swap guarantees, the Company assesses the underlying credit risk exposure for each borrower in a paying position to the third-party financial institution. Accrued interest payable The carrying amounts of interest payable approximate fair value. Other liabilities Other liabilities include the fair value of interest rate products, derivatives on the residential mortgage held for sale loan pipeline, foreign exchange forward contracts, risk participation agreements, and derivative related to the sale of certain Visa Class B common shares (see discussion in A Fair Value of Financial Assets and Liabilities A section above). Records mortgage servicing rights on its mortgage loan servicing portfolio, which includes mortgages that it acquires or originates as well as mortgages that it services for others, and servicing rights on Small Business Administration (SBA) loans. Mortgage servicing rights and SBA loan servicing rights are included in

Goodwill and intangible assets:

Mortgage loans which the Company services for others are not included in loans and leases, net of allowance in the accompanying unaudited Consolidated Statements of Financial Condition. Servicing rights represent the present value of the future net servicing fees from servicing mortgage loans the Company acquires or originates, or that it services for others.

The value of the Company's mortgage servicing rights was \$1.6 million and \$1.7 million at June 30, 2024 and December 31, 2023, respectively, and the value of its SBA loan servicing rights was \$3.9 million and \$4.3 million at June 30, 2024 and December 31, 2023, respectively. Changes in the value of the Company's servicing rights resulted in impairment losses of \$0.1 million and \$0.2 million for the three and six months ended June 30, 2024, and impairment losses of \$0.2 million for the three and six months ended June 30, 2023. Revenues from originating, marketing and servicing mortgage loans as well as valuation adjustments related to capitalized mortgage servicing rights are included in

Mortgage banking activities.

In the unaudited Consolidated Statements of Income and revenues from the Company's SBA loan servicing rights are included in

Besides the impairment on loan servicing rights noted above, there was no impairment of other intangible assets as of June 30, 2024 or December 31, 2023. Changing economic conditions that may adversely affect the Company's performance and could result in impairment, which could adversely affect earnings in the future.

The following table shows the allocation of goodwill to the reportable operating segments for purposes of goodwill impairment testing:

Segment	Goodwill	Intangible Assets
Commercial Banking	\$1.1 billion	\$1.1 billion
Consumer Banking	\$0.5 billion	\$0.5 billion
SBA Lending	\$0.4 billion	\$0.4 billion

estimated using level 3 inputs based on appraisals obtained from third parties.

Loans held for sale

The fair value of loans held for sale is based on estimates using level 2 inputs. These inputs are based on pricing information obtained from wholesale mortgage banks and brokers and applied to loans with similar interest rates and maturities.

Other assets

Other assets include the fair value of interest rate products, derivatives on the residential mortgage held for sale loan pipeline, foreign exchange forward contracts, and risk participation agreements. Valuation of interest rate products is obtained from an independent pricing service and also from the derivative counterparty. Valuation of the derivative related to the residential mortgage held for sale loan pipeline is based on valuation of the loans held for sale portfolio as described above.

Valuation of foreign exchange forward contracts, risk participation agreements, and derivative related to the sale of certain Visa Class B common shares

Valuation of the derivative related to the residential mortgage held for sale loan pipeline is based on valuation of the loans held for sale portfolio as described above.

Valuation of the derivative related to the sale of certain Visa Class B common shares is based on:

- (i) the agreed upon graduated fee structure;
- (ii) the length of time until the resolution of the Visa covered litigation; and
- (iii) the estimated impact of dilution in the conversion ratio of Class B shares resulting from changes in the Visa covered litigation.

The reported fair values of financial instruments are based on a variety of factors. In certain cases, fair values represent quoted market prices for identical or comparable instruments. In other cases, fair values have been estimated based on assumptions regarding the amount and timing of estimated future cash flows that are discounted to reflect current market rates and varying degrees of risk. Accordingly, the fair values may not represent actual values of the financial instruments that could have been realized as of period-end or that will be realized in the future.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash, cash equivalents, and restricted cash

For cash and short term investment securities, including due from banks, federal funds sold or purchased under agreements to resell and interest-bearing deposits with other banks, the carrying amount is a reasonable estimate of fair value.

Investment securities

Investment securities include debt securities classified as held-to-maturity or available-for-sale. Fair value is estimated using quoted prices for similar securities, which the Company obtains from a third party vendor. The Company uses one of the largest providers of securities pricing to the industry and management periodically assesses the inputs used by this vendor to price the various types of securities owned by the Company to validate the vendor's methodology as described above in available-for-sale securities.

Other investments

Other investments includes equity investments without readily determinable fair values (see discussion in "Fair Value of Financial Assets and Liabilities" section above) as well as equity method investments.

Loans held for sale

The fair value of loans held for sale is based on the fair value of the loans held for sale portfolio as described above.

Loans and leases

Loans and leases are segregated by portfolio segments with similar financial characteristics. The fair values of loans and leases, with the exception of reverse mortgages, are estimated by discounting expected cash flows using the current rates at which similar loans would be made to borrowers with comparable credit ratings and for similar remaining maturities. The fair values of reverse mortgages are based on the net present value of the expected cash flows using a discount rate specific to the reverse mortgages portfolio. The fair value of nonperforming loans is based on recent external appraisals of the underlying collateral, if the loan is collateral dependent. Estimated cash flows, discounted using a rate commensurate with current rates and the risk associated with the estimated cash flows, are used if appraisals are not available. This technique does not contemplate an exit price.

Stock in the Federal Home Loan Bank (FHLB) of Pittsburgh

The fair value of FHLB stock is assumed to be equal to its cost basis, since the stock is non-marketable but redeemable at its par value.

Accrued interest receivable

The carrying amounts of interest receivable approximate fair value.

Other assets

Other assets include the fair value of interest rate products, derivatives on the residential mortgage held for sale loan pipeline, foreign exchange forward contracts, and risk participation agreements (see discussion in "Fair Value of Financial Assets and Liabilities" section above).

Deposits

Deposits with no stated maturity, such as noninterest-bearing demand deposits, money market and interest-bearing demand deposits, is assumed to be equal to the amount payable on demand. The fair value of time deposits is based on the discounted value of contractual cash flows. The discount rate is estimated using rates currently offered for deposits with comparable remaining maturities.

Borrowed funds

Rates currently available to the Company for debt with similar terms and remaining maturities are used to estimate the fair value of existing debt.

Rates currently available to the Company for debt with similar terms and remaining maturities are used to estimate the fair value of existing debt.

Accrued interest payable

The carrying amounts of interest payable approximate fair value.

Other liabilities

Other liabilities include the fair value of interest rate products, derivatives on the residential mortgage held for sale loan pipeline, foreign exchange forward contracts, risk participation agreements, and derivative related to the sale of certain Visa Class B common shares (see discussion in "Fair Value of Financial Assets and Liabilities" section above).

Financial instruments measured at fair value using significant unobservable inputs (level 3)

The following tables provide a description of the valuation techniques and significant unobservable inputs for the Company's financial instruments classified as Level 3 as of June 30, 2024 and December 31, 2023.

	June 30, 2024	December 31, 2023
Accrued interest payable	\$1.0 million	\$1.0 million
Accrued interest receivable	\$1.0 million	\$1.0 million
Other assets	\$1.0 million	\$1.0 million
Other liabilities	\$1.0 million	\$1.0 million
