Form 10-K Summary 68 Â i Â Â As used in this Annual Report on Form 10-K, unless otherwise indicated, Hanryu Holding, Inc, together with its consolidated subsidiaries, is hereinafter referred to as â€œHanryu Holdingsâ€ â€œus,â€ â€œwe,â€ â€œour,â€ or the â€œCompany.â€ Â SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS Â This Annual Report on Form 10-K contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that are based on our managementâ€™s beliefs and assumptions and on information currently available to management, and which statements involve substantial risk and uncertainties. All statements contained in this Annual Report on Form 10-K other than statements of historical fact, including statements regarding our future operating results and financial position, our business strategy and plans, market growth and trends, and objectives for future operations are forward-looking statements. Forward-looking statements generally relate to future events or our future financial or operating performance. In some cases, you can identify forward-looking statements because they contain words such as â€œmay,â€ â€œwill,â€ â€œshould,â€ â€œexpects,â€ â€œplans,â€ â€œanticipates,â€ â€œcould,â€ â€œintends,â€ â€œtarget,â€ â€œprojects,â€ â€œcontemplates,â€ â€œbelieves,â€ â€œestimates,â€ â€œpredicts,â€ â€œpotential,â€ or â€œcontinueâ€ or the negative of these words or other similar terms or expressions that concern our expectations, strategy, plans or intentions. Â Although we believe that we have a reasonable basis for each forward-lookingÂ statement contained in this Report, we caution you that these statements are based on a combination of facts and factors currently known by us and our expectations of the future, about which we cannot be certain. Forward-lookingÂ statements include statements about: Â â—overall strength and stability of general economic conditions and of the social media platform and content creation industry in the UnitedÂ States and globally; Â â—changes in consumer demand for, and acceptance of, our services, including our platform, as well as social media platforms in general; Â â—changes in the competitive environment, including adoption of technologies, services and products that compete with our own; Â â—our expectations regarding our future operating and financial performance; Â â—our ability to effectively execute our business plan and continue to expand internationally; Â â—our ability to recruit, retain, and motivate skilled personnel, including key members of senior management; Â â—changes in the price of equipment, network infrastructure, hosting and maintenance; Â â—uncertainties around the successful improvement and modification of our existing applications and development of new products and services, which may require significant expenditures and time; Â â—changes in laws or regulations governing our business and operations; Â â—our ability to maintain adequate liquidity and financing sources and an appropriate level of debt on terms favorable to us; Â â—our ability to effectively market our services; Â â—costs and risks associated with litigation brought against us; Â â—our ability to obtain and protect our existing intellectual property protections, including trademarks and copyrights; Â â—changes in accounting principles, or their application or interpretation, and our ability to make estimates and the assumptions underlying the estimates, which could have an effect on earnings; Â â—our ability to list our shares on the Nasdaq Capital Market or any other exchange and maintain such listing; and Â â—other risks described from time to time in periodic and current reports that we file with the SEC. Â This list of factors that may affect future performance and the accuracy of forward-lookingÂ statements is illustrative, but not exhaustive. New risk factors and uncertainties not described here or elsewhere in this Report, including in the sections entitled â€œRisk Factors,â€ may emerge from time to time. Moreover, because we operate in a competitive and rapidly changing environment, it is not possible for our management to predict all risk factors and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-lookingÂ statements we may make. Â The forward-lookingÂ statements are also subject to the risks and uncertainties specific to our Company, including but not limited to the fact that we have no operating history as a public company. In light of these risks, uncertainties and assumptions, the future events and trends discussed in this Report may not occur, and actual results could differ materially and adversely from those anticipated or implied in the forward-lookingÂ statements. Â You should not rely upon forward-looking statements as predictions of future events. We have based the forward-looking statements contained in this Annual Report on Form 10-K primarily on our current expectations and projections about future events and trends that we believe may affect our business, financial condition, results of operations, and prospects. The outcome of the events described in these forward-looking statements is subject to risks, uncertainties, and other factors described in the section titled â€œRisk Factorsâ€ and elsewhere in this Annual Report on Form 10-K. We undertake no obligation to update any forward-looking statements after the date of this Annual Report on Form 10-K or to conform such statements to actual results or revised expectations, except as required by law. Â ii Â Â PART I Â Item 1. Business. Â Overview Â Hanryu Holdings, Inc., a Delaware corporation (â€œHanryu Holdingsâ€), along with our wholly owned operating subsidiaries, Hanryu Bank Co., Ltd. (â€œHBCâ€), FNS Co., Ltd. (â€œFNSâ€), and Marine Island Co., Ltd. (â€œMarine Islandâ€), incorporated under the laws of the Republic of Korea (collectively, the â€œCompanyâ€, â€œweâ€, â€œusâ€, or â€œourâ€), is the creator of the engaging and innovative social media platform, â€œFANTOOâ€. FANTOO connects users around the world that share similar interests by providing distinctive service offerings, technologies, applications, and websites. Through FANTOO, we provide a global multi-media platform for our users to interact with other like-minded users, to share their appreciation of various types of entertainment and cultures, create their own content, enjoy other usersâ€™ content, engage in commerce, and experience a â€œfandomâ€ community we believe is unlike any other. Â FANTOO leverages the growing groups of fans with similar interests, known as â€œfandoms,â€ in order to tap into the â€œFandom Economyâ€ and monetize the growing fandom community. Through fandoms, fans have expanded the scope of their spending on their interests in a variety of ways, including purchasing advertisements, manufacturing and/or purchasing merchandise, and enthusiastic social media promotion. With the rise of social media platforms, fans are no longer passive consumers of content, but are actively sharing ideas and acting as producers and content creators. Furthermore, fandom is now easier to access than ever due to connectivity through social media platforms provided by mobile devices and applications. We believe these characteristics of fandoms have opened up the possibility for FANTOO to make an impact in this market, both for the Company and FANTOOâ€™s users. Â While the majority of our current users are enthusiasts of Korean culture (â€œK-Cultureâ€), also known as the â€œKorean Wave,â€ or â€œHanryu,â€ we do anticipate expanding into additional entertainment genres as the FANTOO platform grows. The growing popularity of the Korean Wave has historically been driven by social networking services and online video sharing platforms. Through these channels, the dispersion and exportation of Korean arts, music and entertainment has grown rapidly from a regional influence, into a global appreciation of K-Culture. The expansion of the Korean Wave into a global phenomenon provides a significant opportunity to unite fans across the globe within the FANTOO platform. Through FANTOO, we aim to become a leading global platform, connecting fans across the globe, allowing fans to consume, create, and be rewarded for their activity related to their â€œfandomâ€ within the FANTOO platform. Â We believe an opportunity exists for FANTOO to become an industry leader in fandom platforms and content creation by exploiting the current market sentiment that we believe treats fandoms and fans only as a group of passive consumers, despite the fansâ€™ contributions. Other platforms and social networks often fail to meet the needs of their users, as such platforms offer limited products and services. We believe that this failure to meet user needs causes other platformâ€™s users to look elsewhere for products and services that reflect their interests. Furthermore, other platforms and applications either do not provide rewards for user contributions, or do not provide rewards to users simply for being active within the application or platform. FANTOO is an all-in-one platform that fills this void. Through its well-designed ecosystem, FANTOO not only supports fansâ€™ interests in entertainment and entertainers, but also provides in-platform economic rewards in return for usersâ€™ contributions. These in-platform rewards, called FP can then be accumulated and used to pay FANTOO or other users for goods and services within the FANTOO platform. We believe the services and offerings within the FANTOO Platform will result a growing â€œFandom Economyâ€ that benefits both our Company and fans across the globe. Â In July 31, 2023, the Company consummated its initial public offering (the â€œIPOâ€) of 877,328 shares of its class A common stock at a public offering price of $10.00 per share, generating gross proceeds of $8,773,280. Net proceeds from the IPO were approximately $7,708,016 after deducting underwriting discounts and commissions and other offering expenses of approximately $1,065,264. Â The Company granted the underwriters a 45-day option to purchase up to 131,599 additional shares (equal to 15% of the shares of class A common stock sold in the IPO) to cover over-allotments, if any, which the underwriters did not exercise. In addition, the Company issued to the representative of the underwriters warrants to purchase a number of shares of class A common stock equal to 5.0% of the aggregate number of shares of Class A common stock sold in the IPO (including shares of Class A common stock sold upon exercise of the over-allotment option). The representativeâ€™s warrants will be exercisable at any time and from time to time, in whole or in part, during the four-and-Â½-year period commencing six months from the date of commencement of the sales of the shares of Class A common stock in connection with the IPO, at an initial exercise price per share of $12.5 (equal to 125% of the initial public offering price per share of class A common stock). No representativeâ€™s warrants have been exercised. Â On August 1, 2023, the Companyâ€™s stock began trading on the Nasdaq Capital Market under the symbol â€œHRYUâ€ Â On December 28, 2023, HBC sold owned whole shares of Hanryu Times, Fantoo Entertainment, and K-Commerce, Â FANTOO Â FANTOO has become a globally recognized platform for providing an amazing and active community among people that have an interest in K-POP and modern Korean culture. The multifaceted nature of the Companyâ€™s operations has solidified the businessâ€™ reputation as one of the preeminent platforms for fandom. FANTOOâ€™s users are able to seamlessly interact with each other to discuss exciting K-POP topics. Â 1 Â Â FANTOO allows fans to interact within their fandoms and discuss these interests, create and share content, and interact through a number of channels, including (i)Â secure, direct messaging, (ii)Â open social pages, and (iii)Â virtual spaces (â€œFANTOO Clubsâ€ or â€œClubsâ€). FANTOO Clubs concentrate on a specific topic, allowing moderators to control the Club functions, and the Club members to aggregate their FP rewards. Integrated within each FANTOO Club is a â€œClub Vault,â€ a service provided by FANTOO that allows the individual members of a Club to donate their personal FP to an account held by the Club. The Club Vault allows the Clubâ€™s members to aggregate their FP and increase their purchasing power. This increase in purchasing power allows the Clubâ€™s individual users to more rapidly accumulate FP and pool their rewards with other users, in order to purchase services such as fan events or the ability to live stream a concert from their favorite band. Decisions regarding the use of the accumulated FP within the Club Vault are determined by a vote of the Club members. Â Â Our users are the core of our business. We provide our users with customized experiences, including unique interactions within the FANTOO community. FANTOO algorithms curate individual user experiences, recommending content, clubs to join, users to connect with, and enabling users to subscribe to keywords and access automatic content geared toward their interests. Through these services, FANTOO provides the fandom community a way to stay connected and up to date with their fandom communities. Â FANTOO further offers each user the ability to freely create, upload, and monetize their own content by earning in-platform rewards of FP.Â FANTOO removes language barriers, providing live chat ability between users worldwide, and global access to platform content, as the FANTOO platform supports automatic, real-time translation services for 17 languages. FANTOO also offers a fast, secure, and easy-to-use commerce and user-to-user transaction system. These unique features will allow FANTOO to generate user loyalty, maintain user interest in the platform, and attract new users. Â For growth, we intend to develop short content (two minutes) that will focus on interesting pop music and cultural topics. These videos will be distributed through FANTOO while concurrently being shown on third party social media platforms and video sharing websites. This new aspect of growth is important for a few reasons. First, it will further enhance the strength of the FANTOO community by fostering a greater degree of engagement. Second, it will allow for greater visibility for K-POP on a global basis. Management will continue to expand this aspect operations through the life of the business. Â 2 Â Â THE FANTOO ECOSYSTEM Â We designed FANTOO as an ecosystem that is easy for users to adapt and use all features throughout the platform, and for us to develop and roll-out new technologies and functionality. FANTOOâ€™s launch included a rollout of our messenger, community and club technologies, along with our reward system for users, as described below. Since FANTOOâ€™s launch in MayÂ 2021, the FANTOO platform has attracted more than 26.6Â million users, as of December 31, 2023, from the regions in the chart below: Â Â The main age groups that compose our use base are the 20-29-year age group, andÂ 30-39-year age group, as set forth in the chart below: Â Â The combined age groups ofÂ 20-39Â years have the highest purchasing power among commercial and entertainment industries, and accounts for more than 80% of all FANTOO users, with a median age of 27Â years old. FANTOO is available to individuals 12 years and older and has an age restriction set that will not allow users under the age of 12 to sign up. Â 3 Â Â User Reward System Â Â The reward system is the

basis of FANTOO ecosystem. Users earn FP based on: (i)Â the level of each userâ€™s activity within the FANTOO platform; and (ii)Â the revenue we derive from FANTOOâ€™s advertising sales. At midnight of eachÂ day, all advertising revenue for thatÂ day is accumulated, and 50% of thatÂ dayâ€™s total net advertising profits are distributed as FP to users, based upon their level of contribution within the FANTOO platform. From the 50% of profits that are distributed to users as FP, approximately 30% of the distribution of rewards will go to users who areÂ content creators, and the remaining 20% will be issued to general users who participate on the platform. For the purposes of calculating advertising profits allocated for user rewards, the amount of FP issued will be exchanged at a ratio of one FP for every 100 Korean Won. For the avoidance of doubt, the issuance of FP from advertising revenue is limited to advertising revenue generated within the FANTOO platform, and the Company may earn revenue from advertising outside of the FANTOO platform that would not result in the issuance of FP. Â Fantoo Point (â€œFPâ€) Â FP is a measurement of reward points within the FANTOO platform. Accruing FP allows users to redeem FP for a wide variety of products and services within FANTOO, including content from other users and artists available on FANTOO, K-Culture merchandise, and more. FP will be stored and quantified as rewards point within the FANTOO platform under the in-platform reward system structure that consists of (i)Â the Companyâ€™s FP reserve account, (ii)Â the Companyâ€™s active account for collected advertising revenue which was converted into FP and ready to distribute to users based on user contributions to the FANTOO platform, (iii)Â the Companyâ€™s recycled FP account, which stores FP after being spent by users to make purchases within the application, and (iv)Â each userâ€™s individual account stores. The value of FP is set at a fixed ratio of 1:100 FP to Korean Won. The Company does not intend to repurchase FP from users now or in the future. FP does not expire, and FP that is not redeemed by a user will accumulate in such userâ€™s account unless and until such user deactivates their account, at which time such FP will be forfeited and moved to the Companyâ€™s reserve account for redistribution. Â FP Storage and Security Â FP are stored and managed through a database that is separate and apart from other databases used to store and manage other FANTOO app data. The separate FP database is operated to ensure maximum data confidentiality by minimizing access to the database and limiting the number of individuals who are able to access such database. Access to the database is limited to permitted IP bands, and the backup function of the cloud service used to store data can be restored within a few hours in the event of a disaster recovery event such as a server failure. Â 4 Â Â User-to-User Interactions Â We developed FANTOO to include numerous opportunities for our users to engage with the platform, including clubs, community forums, chat functions, and functionality to create user-generated content, each of which are intended to build the FANTOO brand and deepen the loyalty of our users. Â Â FANTOO Clubs Â FANTOO Clubs are user-created based upon areas of interest in order to link users across the globe and create friendships. Users have the ability to create clubs based upon topics of their own choosing, such as favorite artists, television series, movies, video games, sports, and more. A club can be customized by its moderator according to various policies and preferences to cultivate a close group of users based upon a shared culture. Integrated within each FANTOO Club is a â€œClub Vault,â€ a service provided by FANTOO that allows the individual members of a Club to donate their personal FP to an account held by the Club. The Club uVault allows the Clubâ€™s members to aggregate their FP and increase their purchasing power. This increase in purchasing power allows the Clubâ€™s users to more rapidly accumulate FP and pool their rewards, in order to purchase services such as fan events or the ability to live stream a concert from their favorite band.Â Decisions regarding the use of accumulated FP within the Club Vault are determined by a vote of the Club members. Â FANTOO Communities Â FANTOO communities are open forums where user-generated content is socially promoted and curated by FANTOO users. Once user requests for a community based around a certain topic exceed a pre-determined threshold, the FANTOO platform will create such a community based upon the users submitting the requests. Â FANTOO Chats Â Real-time multilingual translation capability, currently offered in 17 languages, allows both private messages and open chats via the FANTOO chats function without language barriers. Messages and chats are protected utilizing end-to-end encryption to prevent leakage of personal information. End-to-end encryption is a system of secured communication to prevent third parties from accessing chat messages, increasing the level of security. Â Content Â User-Created Content. Core to our business is moving into a user-based content creation model that allows users varying ways to create and sell fandom content to other FANTOO users, including the content types described below: Â Â â— Fanart is artwork created by fans relating to artists, movies, and dramas they like. Â Â Â Â â— Web Novels are user written novels, uploaded by users to the FANTOO platform. Readers can make comments at very specific areas within the novel. Novels can be viewed in the language of each userâ€™s choice. If the desired language is not available, users can request or suggest the corresponding language translation. Through the process of â€œtranslation matchingâ€, writers can search for translators while translators can ask writers for permissions to obtain the right to translate their stories. Once the writer and translator approve and consent, these translated stories can be sold to users. Any profit will be distributed automatically by FANTOO based on their prior agreement. Â Â Â Â â— Webtoons are user-created digital comics, uploaded by users to the FANTOO platform. Users can also buy and sell user-translated copies of these webtoons through the â€œtranslation matchingâ€ services referenced above, allowing users across the globe to enjoy their favorite webtoons in their own language. Â Â Â Â â— User-generated content also includes any other content created and sold by FANTOO users, such as the FANTOO shop offerings described below. Â 5 Â Â Company-Created Content. FANTOO original content. The Company also creates and distributes its own content. Content is distributed within the FANTOO platform both for free and for sale for premium content. The Company currently has 25 key employees broken up into a number of content-creating teams that cast entertainers for creating original video content, primarily uploaded on FANTOO TV within the FANTOO platform. As the business grows, the Company intends to hire more employees and produce high-quality content that engages the users into the FANTOO platform. In addition to the content types similar to the categories listed above for user-generated content, FANTOO original content also includes: Â Â â— FANTOO original shows and web series are shows and web series produced by FANTOO. This original content is exclusively available on the FANTOO platform. From time-to-time, we may sell such content for distribution on other third-party channels and platforms. Â Â Â Â â— Concerts are hosted by FANTOO for its users across numerous musical genres, from Korean pop to independent music, in venues of all sizes, from stadiums to small stages. Users that cannot attend these concerts in person can access these concerts on FANTOO via our online streaming service, and tickets can be purchased, using FP or cash, in the FANTOO Shop, also known as the â€œFanshop.â€ Â Third Party Content. Third party content includes content from trusted third-party media companies. Third party content can be uploaded to FANTOO pursuant to certain agreements between the Company and third-party providers. These articles and videos are provided in real time, with automatic translation support in 17 languages. Â FANTOO Fanshop Â The FANTOO Fanshop is the e-commerce service provided through the FANTOO platform to its users. Through the Fanshop, users can purchase various items directly from FANTOO, such as gifts for artists, pre-paid cards, concert tickets, and other fandom goods using FP or cash. To the extent that items are purchased by the Company to sell within the FANTOO Fanshop, the Company uses cash to purchase the products and then lists the items in the Fanshop. The Fanshop will also offer a video commerce service, intended to be an online version of traditional home shopping networks on cable television. For example, users can purchase items relating to their favorite K-pop artist, such as the artistâ€™s latest album, at the same time such user is streaming the artistâ€™s live event. Â Â Within the Fanshop, FANTOO users can also participate in user-to-user transactions, such as selling or purchasing the following: Â Â â— Emojis used within chats on the FANTOO platform. Users have the ability to create emojis and register them in the Fanshop to generate sales by selling them to other users, generating FP in such transactions. Â Â Â Â â— Augmented reality (â€œARâ€) filters used in videos within the FANTOO platform. Users have the ability to create and sell registered AR filters within the Fanshop to other users. Â Â Â Â â— Digital stickers used within the FANTOO platform. Users have the ability to create and sell registered digital stickers within the Fanshop to other users. Â 6 Â Â For both user-to-user transactions and transactions with the Company, payment can be made either by credit card through a secure, third-party payment system built into the FANTOO platform, or by settling the total with the use of FP.Â Sales settled in FP will be charged a transaction fee based upon the specific item sold, ranging between 7% to 15% of the sale price. For user-to-user transactions, the selling user receives the proceeds upon the purchaserâ€™s confirmation of receipt of the good sold. Â If the item sold in the user-to-user transaction requires shipping, the Company intends on partnering with providers such as Qxpress to provide shipping services for which the fee will be bundled into the total transaction cost. Alternatively, users can ship the item directly using another third-party shipping service. Â Also, Hanryu Holdings set up international logistic service for FANTOO with partners. The operations of the Epic eCommerce platform will catapult the income of Hanryu Holdings. This is state -of-the-art eCommerce marketplace will allow for substantial revenues to be produced by facilitating sales among companies that want to provide their inventories to the FANTOO user base. The platform will provide a complete end-to-end sales and logistics solution for enrolled users. Â Â This new Business unit will integrate a full ordering management system (OMS), cross border shipping management tools, and seller shipping tools, It will fine an immense audience, on a global basis, among companies and independent entre preneurs that are seeking to target younger demographics with their products. The benefits of using this system include: Â â—Sell globally with one origin Â â—Duty-free for eCommerce orders Â â—Provide guidelines for eCommerce customs clearance Â â—Various shipping options to choose and create last-mile labels from our system Â â—Fast international shipping and reduced costs Â â—Provide local fulfillment services to various countries Â â—Customs clearance status Â â—Shipment tracking system Â The key markets that Management will target for Epicâ€™s operations include: Â â—South Korea Â â—Hong Kong Â â—Japan Â â—Malaysia Â â—Singapore Â â—Thailand Â â—Indonesia Â â—Taiwan Â 7 Â Â OUR OPPORTUNITY Â With the global explosion of the Korean Wave, K-Culture has become widely influential throughout the world, creating a significant and sustainable industry in which the Company operates. According to a study by the Korea Foundation and the Korean Ministry of Foreign Affairs (â€œKMFAâ€) regarding the growing economic effects of the K-Culture industry, K-Culture generated approximately $21.5Â billion in global revenue in 2019, prior to the occurrence of the COVID-19 pandemic. This study further found that K-Culture influence was ranked No. 7 worldwide in 2021, and that the number of K-Culture fans increased from approximately 35.6Â million in 2015 to 156.6Â million in 2021. The chart below sets forth the location and approximate growth and numbers of K-Culture fans globally. Â Â Currently, China has the largest number of K-Culture fans with 86.32Â million, followed by the UnitedÂ States with 16.69Â million K-Culture fans. Due to regulatory concerns regarding data protection and privacy within China, the Company will not expand its business into China in order to protect the privacy of the Companyâ€™s users. For the avoidance of any doubt, the Company does not have customers in, does not otherwise provide products or services in, and restricts user access to individuals in China (including Hong Kong and Macau). See â€œRisk Factors â€" Our decision not to provide products and services and to restrict user access in China (including Hong Kong and Macau) will limit our total addressable market and may limit our ability to grow our businessâ€ for additional information. Following China and the UnitedÂ States in K-Culture fans are: Thailand with 14.8Â million fans, Russia with 5.69Â million fans, Vietnam with 4.12Â million fans, Argentina with 2.9Â million fans, Canada with 1.96Â million fans, India with 1.35Â million fans, Chile with 1.12Â million fans, Turkey with 0.98Â million fans, Jordan with 0.98Â million fans, Australia with 0.93Â million fans, Italy with 0.75Â million fans, France with 0.57Â million fans, Egypt with 0.55Â million fans, Japan with 0.34Â million fans, Saudi Arabia with 0.30Â million fans, and other countries spread throughout the globe with a total of 16.2Â million fans. Â The continued and multifaceted spread of K-Culture is exemplified by the approximately 100Â million people that practice the Korean traditional martial arts of Taekwondo. According to a study by the Korean Foundation for International Cultural Exchange (â€œKOFICEâ€), K-Culture contributed over $10.0Â billion in Korean exports in 2020, representing an increase of 8.8% over 2019, even with the damaging economic effects of the COVID-19 pandemic. The global purchasing power of K-Culture was at $124.3Â billion in 2020, based on the 2021 report by Korea Creative Content Agency (â€œKOCCAâ€) Â Further propelling K-Culture is the significant number of the global population using mobile phones with access to social media platforms. The consistent and ongoing growth of mobile users globally provides an ever-increasing potential user-base for the FANTOO platform. More than two-thirds of the worldâ€™s population uses a mobile phone today, with an increase in mobile phone users of 4Â million over the past 12Â months. Studies by the KMFA and KOFICE show that online and mobile platforms were the most common channels for global fans to access K-Culture content. As such, FANTOO is positioned to capture the opportunity of a market that is both increasing in the number of users and the amount of content each user consumes. Â 8 Â Â With the ongoing COVID-19 pandemic and associated restrictions on travel and attendance at live performances, the FANTOO platform can provide fandom users access to virtual concerts, for which attendees must pay admission to â€œattendâ€ by viewing online. Among the virtual concerts held across a number of platforms, BTSâ€™s first online concert, entitled Bang Con: The Live, received 756,000 views from over 107 countries, which according to the Guinness Book of World Records, set a new world-record for the most live-stream attendees at a virtual music concert on a custom social media platform. According to Grand View Research, these remarkable achievements led to the rapid expansion of the global virtual events market, resulting in a global market value of approximately $94.0Â billion in 2020, with the market value of the global virtual events expected to reach approximately $504.8Â billion by 2028. We believe our strong partnerships with the largest associations within the Korean entertainment industry will increase our visibility and market share within the virtual events market, providing even more value to users of FANTOO. Â OUR VALUE Â We focus on providing user-centric services to provide a single platform that can address and satisfy the interests of fans within FANTOO.Â FANTOO will enrich users fandom experience by providing an all-in-one platform for fandom content, including news, popular culture, discussions, live shows, and fan creativity. FANTOO is currently available in 17 languages, with real-time translation services. These real time translation services enable our users to communicate with each other across the globe without language barriers. For languages that are not available for real-time translation, FANTOO provides a solution through the use of translation matching services among users. Through the translation matching services, FANTOO ensures that content is accurately translated and available to a greater number of global fans in their own languages. In addition, FANTOO further allows users to freely create and monetize their own content, enabling fast and secure user-to-user sales. Â Within FANTOO, our reward system ensures users are rewarded with FP for staying active and creative within the platform, as well as attracting new users. The more FP a user earns, the more purchasing power the user has within the FANTOO platform, allowing users to purchase goods and/or services within the FANTOO platform either directly from us or from other users. Â OUR STRENGTHS Â We differentiate ourselves from competing social networks through the power of a fully-integrated platform and established partnerships with leaders in the entertainment industry within South Korea. Our platform and partnerships enable our users to create clubs, communities, and gather over similar fandoms, all while monetizing their content and contributing to the FANTOO platform experience. Our core strengths include the following: Â Â â— Value Creation Through Direct Sales Revenue. We intend to derive revenue from multiple revenue sources, including: (i) advertising revenue, which includes advertisement sales through the placement of banners, splash advertising, pop-up advertisement within the platform, in-platform promotions, branded content productions, and other FANTOO produced programs; (ii) content sales revenue as FANTOO continues to produce original content, such as web series, sold to FANTOO users or otherwise licensed to other third party media services; and (iii) the sale of e-commerce goods through FANTOOâ€™s Fanshop, including the latest fandom goods and concert tickets. Â Â Â Â â— Value Creation Through Revenue Derived From User Activity. We intend to generate revenue from the sale of goods and/or services within the FANTOO platform from one user to another. Revenue is derived from user-to-user sales as follows: (i) from the sale of emojis and online stickers, from which we will collect 30% of the price paid by the purchaser, with the remaining 70% being remitted to the seller; (ii) from web novels and webtoons. If posted for free, the creator will only receive rewards in FP in relation to the number of views and likes; however, if the creator charges for the content, we intend to collect 30% of the price paid by the user, with the remaining 70% being remitted to the seller; (iii) users can offer the service of translation matching, where a user offers to translate another userâ€™s content for a commission (in either cash or FP), and the parties agree to split the sales revenue from the translated content at a pre-determined ratio, for which we will collect 30% of each sale, and remit the remainder to the creator and translator based on a split determined by the parties; and (iv) for transactions between users involving tangible goods or other non-platform based fandom items (such as concert tickets), we intend to charge a fee of 3.5% of the total value of the transaction at the time of sale. Â Â Â Â â— FANTOOâ€™s Direct Advertising Platform. We intend to directly engage with our advertisers. Without the need for third-party engagement, we can leverage the FANTOO platform to better understand advertisers and their expectations, ensuring we can create highly curated advertising products that will promote high levels of engagement and sales conversions for advertisers. We believe this will increase advertising revenue and build sustainable relationships with advertisers, while concurrently increasing the attractiveness of the FANTOO platform to new advertisers and users interested in the products advertised within the FANTOO platform. Â Â Â Â â— Industry Leading Privacy and Safety. Privacy and safety is provided by the FANTOO platform through the implementation of artificial intelligence (â€œAIâ€). Â Â Â Â â— High User Engagement. We intend to drive user engagement by offering a one-stop fandom platform and by offering an in-platform reward system. These features are intended to allow the FANTOO platform to keep and maintain a highly engaged user-base, loyal to the FANTOO platform and its brand. This brand loyalty will assist by reducing the Companyâ€™s advertising costs by replacing it with non-paid platform promotion through the word-of-mouth of its current user base. Â 9 Â Â OUR GROWTH STRATEGY Â Our core strategy is to pursue initiatives that promote the viral growth of our user base, and in doing so, drive advertising revenue, user-generated revenue, and create other revenue streams. Our focus on user acquisition and retention provides the primary lens to view our plans for community growth, engagement, and long-term brand equity. Â Â â— Attracting Global Users. Our core business

strategy is to promote the FANTOO platform and grow our global user base, which will drive revenue growth by increasing advertising revenue and user activity-based revenue. Â Â Â Â â— Broaden Product and Service Offerings. Within the FANTOO platform our objective is for users to benefit from a wide range of products and services offered, and we intend to continuously expand our product and service offerings as the user-base and revenue grow. Broadening our product offerings will ensure FANTOO grows along with the fandom community in which it operates, eventually creating a one-stop platform for our users across all fandoms. Â Â Â Â â— Continued Research and Development. We intend to continue to invest in developing and implementing the newest technologies to ensure a better and more secure user experience compared to other social media platforms. Â Â Â Â â— Development of Intellectual Property. We intend to develop our own intellectual property assets based upon user-demand and data analysis from the FANTOO platform. Since the intellectual property developed from user-data will be based on user-demand, we believe that any new intellectual property will facilitate user engagement and growth. Â Â Â Â â— Expansion to Other Fandoms. We intend to expand FANTOO outside of the K-Culture fandom, and into other fandoms across an expansive number of entertainment types and cultures. Users will be able to easily transition between different fandom clubs and communities, and seamlessly access the newest trends and popular cultures. This anticipated expansion is intended to make FANTOO a platform that can evolve with, and fully integrate, all fans utilizing the FANTOO platform, regardless of the continuous rise and fall of popular culture trends. Â Our growth strategy, based on the current services offered on FANTOO and scheduled future services, is illustrated as follows: Â Â 10 Â Â OUR MARKETING STRATEGY Â We intend to market our platform to users through media ads, promotions, campaigns, referrals, and other similar initiatives. Currently, we focus on our core target in K-Culture, and specifically, the K-pop fandom. We intend to achieve user growth by utilizing the following strategies: Â Â â— Localized Marketing Efforts. As we intend to capture a larger percentage of the global fandom market, we will need to effectively develop marketing for each regionâ€™s fandom community. This will require localized marketing efforts for regional marketing to be successful. We believe we can successfully develop regional marketing results by: (i) partnering with local content creators to create regional-specific marketing; and (ii) partnering with local advertising agencies to develop advertising campaigns that will attract regional users. It is important for us to localize our services and marketing strategies in order to expand our business in the U.S. Therefore, we plan to set up branches in the U.S. in the first half of 2023, and plan to hire around 20 developers to localize the services of FANTOO. We also plan to work with U.S. marketing experts and cooperate with marketing agencies to reach U.S. audiences through online marketing, sponsoring advertisements, and holding various user-engagement events and promotions in the major cities in the U.S. When we believe the operation in the U.S. is settled, we will set up a branch office in the United Kingdom for further expansion into Europe. The Company currently has no intention of expanding into China due to the Chinese governmentâ€™s unofficial ban on K-Culture as well as official ban on all foreign social media platforms. Additionally, due to regulatory concerns regarding data protection and privacy within China, the Company will not expand its business into China in order to protect the privacy of the Companyâ€™s users. For the avoidance of any doubt, the Company does not have customers in, does not otherwise provide products or services in, and restricts user access to individuals in China (including Hong Kong and Macau). See â€œRisk Factors â€” Our decision not to provide products and services and to restrict user access in China (including Hong Kong and Macau) will limit our total addressable market and may limit our ability to grow our businessâ€ for additional information. Â Â Â Â â— Global Ambassador Program. We intend to engage with individuals in various countries (â€œGlobal Ambassadorsâ€) that will create theme-specific content aimed at potential users in the Global Ambassadorâ€™s region, and further communicate with fans and targeted users within their region, to increase the growth in the user-base, and attract fans of K-Culture within that region to the FANTOO platform. Our Global Ambassadors will focus on users who enjoy K-Culture while simultaneously promoting FANTOO and hosting localized events. Â Â Â Â â— Building Strong User-Relationships. We intend to build strong ties with our existing users to increase their loyalty. We communicate with our users through various channels including social media, surveys, direct messages, focus groups, and similar means of communication to improve our service offerings so that we can exceed current usersâ€™ expectations. We believe that our fully engaged and satisfied users will be more likely to promote our platform voluntarily, thereby promoting organic growth through a continuous flow of new users by way of current user referrals. The rate of organic growth that we can achieve will accelerate the growth of FANTOOâ€™s user-base. Â Â Â Â â— Special Event Hosting. In order to provide value to both our current users and targeted users, as well as promote activity within the FANTOO platform, we intend to host special themed events to which both current users and targeted users are invited. These events include K-pop concerts, dance performances, and other live shows. Generally, these events are driven by user input by way of voting for events that our users would prefer to attend. The participation of our users within our platform to determine upcoming events further encourages users to be active within the FANTOO platform. Â TECHNOLOGY Â FANTOO was designed and developed to connect fans across the globe. As a result, we have been developing and acquiring cutting edge technologies in order to deliver a smooth experience, regardless of location. These technologies include: Â Â â— AI-driven content curation through personalized searches and content delivery recommendations. Â Â Â Â â— AI speech synthesis that will allow our AI to learn from voice recordings through specialized vocabulary, that will eventually be able to read unrecorded sentences in the voice of whichever celebrity a user may choose. This will allow various literary works and written content to be spoken to the user in the userâ€™s favorite celebrityâ€™s voice. Â Â Â Â â— AI-powered nudity detection that automatically filters and blocks users from exposure to nudity if uploaded on the FANTOO platform. Â Â Â Â â— AI-enabled deepfake detection that performs verification services to identify whether images and/or videos uploaded on the FANTOO platform are actually authentic images/videos of the person depicted in the video, or if the image/video was falsified and computer generated through the use of â€œdeepfakeâ€ technology. Â 11 Â Â Infrastructure Â Through a wholly owned subsidiary, we currently lease property located on the central bank of the Han River in the Seoul Marina, the largest Korean Wave culture center in Korea. With large outdoor stages, sculpture gardens, and broadcast studios, Seoul Marina is not only used as FANTOOâ€™s headquarters, but is also used by FANTOO to host FANTOO concerts and other user events. Â Â Competition Â Our competitors include: Â Â â— Social platforms, such as Facebook, Instagram and Twitter(X) Â Â Â Â â— Community service platforms, such as Reddit Â Â Â Â â— K-pop fandom platforms, such as Lysn, Weverse and Universe Â Â Â Â â— Amateur content creating platforms, such as Whattpad, and Â Â Â Â â— eCommerce platforms, such as Amazon, eBay and Ticketmaster. Â While many of these platforms have achieved success in growing users and have greater financial resources than the Company, we believe the FANTOO platform is the only all-in-one global fandom platform that also offers a unique user reward system that incentivizes users to participate and engage within the platform. These features were developed to position FANTOO to successfully complete with the more established platforms and facilitate an active fandom experience. Â Partnerships Â On AprilÂ 19, 2021, HBC entered into a memorandum of understanding with the Federation of ArtisticÂ & Cultural Organization of Korea (â€œFACOâ€) (the â€œMOUâ€). Pursuant to the MOU, we were granted certain collaborative rights in which we can promote cultural events, while participating and taking advantage of FACOâ€™s infrastructure and network to develop and export South Koreaâ€™s popular culture around the globe. Â FACO was established as a non-profit business in 1961, organized for the purpose of contributing to the development of Korean art and culture, promoting the international exchange of Korean art and culture, and ensuring the well-being of affiliated artists. FACOâ€™s membership currently consists of over 1.3Â million artists from 10 different member associations, spread across 167 branches globally, including two branches in the UnitedÂ States and one in Japan. Â We have strategically developed this partnership with FACO due to their substantial contribution to the Korean entertainment and pop-culture industry. The partnership benefits FANTOO users through the synergy between these organizations and the FANTOO platform, such as content creation, hosting K-pop concerts, and much more. Â On SeptemberÂ 10, 2021, we entered into a partnership with the â€œMetaverse Alliance,â€ an initiative led by South Koreaâ€™s Ministry of Science and Information and Communication Technology (â€œMSITâ€) (the â€œMSIT Partnershipâ€), which is intended to facilitate our development of innovative technologies and advancements within the metaverse. The MSIT built the Metaverse Alliance to coordinate and facilitate the development of virtual and augmented reality platforms. Approximately 643 firms have joined MSIT to date, including Samsung, Hyundai Motors and Naver. Â Employees and Labor Relations Â We currently have 49 full-time and 3 full-time equivalent employees. Additionally, we occasionally enter into agreements with contractors, on an as-needed basis, to perform certain services, including contract workers. We believe that we maintain a good working relationship with our employees, and we have not experienced any labor disputes. None of our employees are represented by labor unions. Â 14 Â Â Seasonality Â We do not expect to experience any significant seasonality trends. However, seasonality trends may occur in the future. Â Governmental Regulation Â We are subject to a number of national, state/region, and local laws and regulations in the U.S.Â and Korea. These laws and regulations involve matters that are central to our business, including our interactions with users, suppliers, and merchants. These laws and regulations involve fair trade, competition, labor and employment, privacy, data protection, intellectual property, consumer protection, import and export regulations, and other subjects. Many of the laws and regulations to which we are subject are evolving and being tested in courts and could be interpreted in ways that could harm our business. In addition, the application and interpretation of these laws and regulations often are uncertain, particularly in the new and rapidly evolving industry in which we operate. Laws and regulations in each jurisdiction where we do business continue to develop and evolve rapidly. As a result, it is possible that we may not be, or may not have been, compliant with each such applicable law or regulation. Â Due to the extensive business we conduct in Korea, below are examples of Korean laws and regulations that govern our business, which include but are not limited to: Â Copyright Act Â Koreaâ€™s Copyright Act provides protections for various types of creative works, including certain copyrightable â€œcomputer programsâ€ and â€œdatabases.â€ The Copyright Act provides the creator of such works with rights to the economic benefits flowing from their creation and control over the worksâ€™ use and dissemination. The infringement of copyrights protected under the Copyright Act are subject to civil claims as well as criminal penalties. Â The Copyright Act implements the Korea U.S.Â Free Trade Agreement, by recognizing temporary storage as copying, introducing a system for fair use of copyrighted materials, and concept of statutory damages for copyright violations and adding conditions for online-service providers to be exempted from infringement liability and types of prohibited acts of infringement on the rights of copyright holders. Â Youth Protection Act Â The purpose of Youth Protection Act is to ensure juveniles grow up into persons of sound character by regulating the distribution of media products, drugs, etc. harmful to juveniles and juvenilesâ€™ access to harmful business establishments and by protecting and relieving juveniles from harmful environments. The term â€œmedia product harmful to juvenilesâ€ means any of the media products such as phonorecords, video products or other media products defined in the Music Industry Promotion Act and the Promotion of the Motion Pictures and Videos Products Acts, specified by Presidential Decree as likely to be harmful to the mental or physical health of juveniles. The Commission on Youth Protection shall examine each media product to find whether it is harmful to juveniles and shall determine the media product as harmful to juveniles. If the Commission on Youth Protection or an examining authority finds, as a result of the examination of a media product, that the distribution of content of the media product is prohibited by the Criminal Act or any other statute, it shall request relevant authorities, without delay, to impose criminal punishment or make an administrative disposition; provided, that if an examining authority has a different procedure prescribed by a relevant statute, the procedure shall apply to such cases. Â Content Industry Promotion Act Â The Content Industry Promotion Act prescribes matters necessary for promoting content industry, thereby contributing to the improvement of the lives of citizens and to the sound development of national economy through the establishment of foundation for the content industry and the reinforcement of its competitiveness. The term â€œcontentâ€ means data or information expressed in sign, text, graphic, color, voice, sound, image, video, etc. (including compounds thereof); The term â€œcontent industryâ€ means any industry related to the production, distribution, use, etc. of contents creating economic added value or services providing such contents (including compounds thereof). Â In order to protect users when contents are transacted, a content business operator shall prepare terms of service including the details of refund of excessively or erroneously paid amount, right to withdraw the subscription of contents or to cancel a contract for the use of contents, compensation for usersâ€™ damage occurring from defects in contents, etc., as prescribed by Presidential Decree, and notify users thereof. Â 15 Â Â Personal Information Protection Act Â The Personal Information Protection Act and related legislation, regulations, and orders (â€œPIPAâ€) governs the collection, use, dissemination, storage, and destruction of personal information. PIPA specifies the circumstances under which consent must be obtained to collect, use, or disseminate a personâ€™s personal information. PIPA places limits on the circumstances in which personal information can be required and on the collection of some types of personal information (such as identifiers granted by law for identification purposes). PIPA grants an individual right to request perusal, correction, or deletion of oneâ€™s own personal information, and specifies the methods to exercise such rights. Additionally, PIPA establishes requirements for information destruction, such as a requirement that personal information should be destroyed if it is no longer necessary to achieve the purpose for which it was collected. Â Under PIPA, in the event a leak of personal information is discovered, the processor of personal information is required to promptly notify the affected person(s). PIPA requires notification to the authorities and other measures in certain circumstances. Â PIPA imposes monetary remedies, penalties, and statutory damages for violations of its restrictions. Class-action relief for the leakage of personal data is available in certain circumstances, and some conduct, such as collection of personal information without consent, can be subject to criminal punishment. Â The Monopoly Regulation and Fair Trade Act Â In Korea, the Korean Fair Trade Commission (â€œKFTCâ€) designates an affiliated group of companies whose total assets of the preceding fiscal year exceeding 5.0Â trillion or more Korean Won as a business group subject to disclosure (ArticleÂ 14 of the Monopoly Regulation and Fair Trade Act, and ArticleÂ 21 of the Enforcement Decree of the Act). If a group of companies are designated a business group subject to disclosure, the companies will become subject to, among others, the following obligations under the Monopoly Regulation and Fair Trade Act: Â Â â— Resolutions by Board of Directors on Large-Scale Internal Trading and Disclosure. When a member company of a business group subject to disclosure wishes to engage in large scale internal trading (meaning either 5% or more of the larger of its total assets or its capital, or KRW 5.0 billion or more Korean Won), with or for a specially related party, the company should obtain a resolution of the board of directors and make certain disclosures. Â Â Â Â â— Obligation to Disclose Information About the Business Group: A business group subject to disclosure must publicly disclose on an annual basis, the general status of the company (such as the company name, certain business details, financial status, changes relating to affiliated companies, etc.), details on its executive employees and shareholders, and on a quarterly basis, cross shareholding between the affiliated companies, debt guarantees between the affiliated companies, and trading with specially related persons. Â Â Â Â â— Obligation to Report Shareholding Details: A business group subject to disclosure must report to the KFTC by May 31 every year certain information such as details about its shareholders, financial status, and holdings of shares in other domestic companies. Violation of the above restrictions may subject the company to a corrective order or an administrative fine of up to 100 million Korean Won imposed by the KFTC or criminal fine of up to 100 million Korean Won. Â Cost of Compliance with Environmental Laws Â We have not incurred any costs associated with compliance with environmental regulations, nor do we anticipate any future costs associated with environmental compliance; however, no assurances can be given that we will not incur such costs in the future.

Â Facilities Â Marine Island Co., Ltd. (â€œMarine Islandâ€), a wholly owned subsidiary of the Company, leases approximately 19,200 square feet of office space at the Seoul Marina, located at 160 Yeouiseo-ro, Yeungdeungpo-gu, Seoul, Korea (the â€œMarinaâ€), for a monthly payment of approximately $20,000. Marine Island subleases the Marina to HBCâ€™s wholly owned subsidiaries FNS at no cost. Â We anticipate no difficulty in extending the leases of our facilities or obtaining comparable facilities in suitable locations, as needed, and we consider our facilities to be adequate for our current needs. Â Legal Proceedings Â The Company is subject to various legal proceedings and claims that arise in the ordinary course of business. In the opinion of management, the outcome of these matters will not have a material adverse effect on the consolidated financial position or results of operations of the Company. For the year ended December 31, 2023, the Company two suspended legal cases as follows, and as of July 15, 2024, the result of the two cases are not certain. Â Case Number Â Opponent Â Case Summary Â Litigation Value Â Seoul South Federal Court ; 2023GADAN218067 Â Seoul Yacht Marina, Co.Ltd, and another Â Building Delivery Â $ 85,686 Â Seoul South Federal Court ; 2024GASO214189 Â Seoul Yacht Marina, Co.Ltd Â Compensation for damages Â $ 10,644 Â Â 16 Â Â Item 1A. Risk Factors. Â RISKS RELATED TO OUR BUSINESS Â We have incurred significant losses since our inception, and we intend to continue to invest in our business. As a result, we may continue to experience losses in the future. Â We incurred a net loss of approximately $(9.4) million and $(6.4) million for the years ended December 31, 2023 and for the periods ended December 31, 2022, respectively. As of December 31, 2023, we had an accumulated deficit of approximately $(38.9) million, and $(29.6) million as of December 31, 2022. The audited report of our independent registered public accounting firm to the financial statements for the years ended December 31, 2023, and 2022, included elsewhere in the Report, contains an explanatory paragraph stating that our recurring losses from operations, accumulated deficit and negative working capital raise substantial doubt about our ability to continue as a going concern. Â We expect to continue to invest heavily in our product development and operations, to focus on our FANTOO platform to increase our user base to support future growth, and to meet our expanded reporting and compliance obligations as a public company. We may not generate sufficient revenue to offset such costs to achieve or sustain profitability in the future. Â We believe our current cash, net proceeds from debt issuances and the amount available from future issuances of common stock will be sufficient to fund our working capital requirements beyond the next 12Â months. This belief assumes, among other things, that we will be able to raise additional equity financing, will continue to be successful in implementing our business strategy and that there will be no material adverse developments in the business, liquidity or capital requirements. If one or more of these factors do not occur as expected, it could have a material adverse impact on our activities, including (i)Â reduction or delay of our business activities, (ii)Â forced sales of material assets, (iii)Â defaults on our obligations, or (iv)Â insolvency. Our planned investments may not result in increased revenue or growth of our business. We cannot assure you that we will be able to generate revenue sufficient to offset our expected cost increases and planned investments in our business and platform. As a result, we may incur significant losses for the foreseeable future, and may not be able to achieve and/or sustain profitability. If we fail to achieve and sustain profitability, then we may not be able to achieve our business plan, fund our business or continue as a going concern. The financial statements included in this Report do not contain any adjustments which might be necessary if we were unable to continue as a going concern. Â Our auditor has included an explanatory paragraph in their opinion regarding our ability to continue as a going concern. If we are unable to continue as a going concern, our securities will have little or no value. Â OenStop Assurance, PAC, our independent registered public accounting firm for the fiscal year ended December 31, 2023 and December 31, 2022, has included an explanatory paragraph in their opinion that accompanies our audited consolidated financial statements as of and for the year ended December 31, 2023 and December 31, 2022, indicating that our recurring losses from operations and a working capital deficiency raises substantial doubt about our ability to continue as a going concern. If we are unable to obtain profitability or improve our liquidity position, we may not be able to continue as a going concern. Â We anticipate that we will continue to generate operating losses and use cash in operations through the foreseeable future. As further set forth below, we anticipate that we will need significant additional capital, or we may be required to curtail or cease operations. Â To continue as a going concern, we will require significant additional capital, which we may be unable to obtain. Â The revenues generated from our operations are not presently sufficient to sustain our operations. Therefore, we will need to raise additional capital in the future to continue our operations. We anticipate that our principal sources of liquidity will not be sufficient to fund our activities to obtain long-term, sustainable profitability. To have sufficient cash to fund our operations to obtain long-term, sustainable profitability, we will need to raise additional equity or debt capital. There can be no assurance that additional funds will be available when needed from any source or, if available, will be available on terms that are acceptable to us. We will be required to pursue sources of additional capital through various means, including debt or equity financing. Future financing through equity investments will be dilutive to existing stockholders. The terms of securities we may issue in future capital transactions may be more favorable for new investors. Newly issued securities may include preferences, superior voting rights, the issuance of warrants or other derivative securities, and the issuances of incentive awards under equity employee incentive plans, all of which will have additional dilutive effects. Further, we may incur substantial costs in pursuing future capital and/or financing, including investment banking fees, legal fees, accounting fees, printing and distribution expenses and other costs. We may also be required to recognize non-cash expenses in connection with certain securities we may issue, such as convertible notes and warrants, which may adversely impact our financial condition. Our ability to obtain needed financing may be impaired by such factors as the capital markets and our history of losses, which could impact the availability and cost of future financing. If the amount of capital we can raise from financing activities, together with our revenues and profits from operations, is not sufficient to satisfy our capital needs, even to the extent that we reduce our operations accordingly, we may be required to curtail or cease operations. Â We are a development stage company, and we may not be able to sustain our rapid growth, effectively manage our anticipated future growth or implement our business strategies. Â We have a limited operating history. Although we have experienced significant growth since FANTOO was launched, our historical growth rate may not be indicative of our future performance due to our limited operating history and the rapid evolution of our business model, including a focus on the FANTOO application. We may not be able to achieve similar results or accelerate growth at the same rate as we have historically. As our application offerings continue to develop, we may adjust our strategy and business model to adapt. These adjustments may not achieve expected results and may have a material and adverse impact on our financial condition and results of operations. Â In addition, our rapidÂ growth and expansion have placed, and continue to place, significant strain on our management and resources. This level of significant growth may not be sustainable or achievable at all in the future. We believe that our continued growth will depend on many factors, including our ability to develop new sources of revenues, diversify monetization methods including advertising revenue, attract and retain users, increase engagement on our FANTOO platform, continue developing innovative technologies and application uses in response to shifting demand in the market, increase brand awareness, and expand into new markets. We cannot assure you that we will achieve any of the above, and our failure to do so may materially and adversely affect our business and results of operations. Â Hanryu Holdings is a holding company with no business operations of its own and manages a network of South Korean subsidiaries, subject to South Korean regulation. Further, as we have no business operations of our own, we will depend on the cash flow and business of our subsidiaries to make payments to us and meet our obligations. Â Hanryu Holdings is aÂ holdingÂ companyÂ with no independent operations of our own. Our South Korean subsidiaries, including HBC, conduct substantially all of Hanryu Holdingsâ€™ business operations. Managing the regulatory compliance activities for each of these subsidiaries is a complicated task, and we may expend significant resources doing so. However, we cannot guarantee that we will be able to keep abreast of the changing legal and regulatory landscapes for each of the jurisdictions in which our subsidiaries exist. If any of the regulatory environments applicable to our subsidiaries change materially, and we fail to adapt to such change, our business and financial results may be harmed. Applicable tax laws may also subject such payments to us by our subsidiaries to further taxation. Â 17 Â Â Additionally, as a holding company, we may rely on our operating subsidiaries for distributions or payments for cash flow. Therefore, our ability to fund and conduct our business, service any debt, and pay dividends, if any, in the future may depend on the ability of our South Korean subsidiaries to make upstream cash distributions or payments to us, which may be impacted, for example, by their ability to generate sufficient cash flow or limitations on the ability to repatriate funds, whether as a result of currency liquidity restrictions, monetary or exchange controls, regulatory restrictions, or otherwise. Further, our subsidiariesâ€™ ability to make payments to us will depend on: Â â—their earnings; Â â—covenants contained in any debt agreements to which we may then be subject, including any debt agreements of our subsidiaries; Â â—covenants contained in other agreements to which we or our subsidiaries are or may become subject; Â â—business and tax considerations; and Â â—applicable law, including any restrictions under South Korean law that may be imposed on our subsidiaries, including HBC or its subsidiaries and affiliates, that would restrict its ability to make payments to Hanryu Holdings. Â We cannot assure that the operating results of our subsidiaries at any given time will be sufficient to make distributions or other payments to us. Â We are subject to risks associated with operating in a rapidly developing industry and a relatively new market. Â Many elements of our business are unique, evolving and relatively unproven. Our business and prospects depend on the continuing development of the social media market, which is relatively new, rapidly developing and subject to significant challenges. Our business relies upon our ability to cultivate and grow an active online community, and our ability to successfully monetize such community through methods that include, without limitation, advertising revenue. In addition, our continued growth depends, in part, on our ability to respond to constant changes in the industry, including rapid technological evolution, continued shifts in user trends. Developing and integrating new content, products, services or infrastructure could be expensive and time-consuming, and these efforts may not yield the benefits we expect to achieve at all. We cannot assure you that we will succeed in any of these aspects or that the industry will continue to grow as rapidly as it has in the past. Â Our success depends on our ability to develop products and services to address the rapidly evolving market for the content creation and social media platform industry, and, if we are not able to implement successful enhancements and new features for our products and services, our business could be materially and adversely affected. Â We expect that new services and technologies applicable to the content creation and social media platform industry in which we operate will continue to emerge and evolve. Rapid and significant technological changes continue to confront the industries in which we operate, including developments in the social media platform and content creation industry. Incorporating new technologies into our products and services may require substantial expenditures and take considerable time, and we may not be successful in realizing a return on these development efforts in a timely manner or at all. There can be no assurance that any new products or services we develop and offer to our customers will achieve significant commercial acceptance. Our ability to develop new products and services may be inhibited by industry-wide standards, laws and regulations, resistance to change from buyers or sellers, or third partiesâ€™ intellectual property rights. Our success will depend on our ability to develop new technologies and to adapt to technological changes and evolving industry standards. If we are unable to provide enhancements and new features for our products and services or to develop new products and services that achieve market acceptance or that keep pace with rapid technological developments and evolving industry standards, our business would be materially and adversely affected. Â The success of enhancements, new features, and products and services depends on several factors, including the timely completion, introduction, and market acceptance of the enhancements or new features or services. We often rely not only on our own initiatives and innovations, but also on third parties, including some of our competitors, for the development of and access to new technologies. Â 18 Â Â In addition, because our products and services are designed to operate with a variety of systems, infrastructures, and devices, we need to continuously modify and enhance our products and services to keep pace with changes in mobile, software, communication, and database technologies. We may not be successful in either developing these modifications and enhancements or in bringing them to market in a timely and cost-effective manner. Any failure of our products and services to continue to operate effectively with third-party infrastructures and technologies could reduce the demand for our products and services, result in dissatisfaction of our sellers or their customers, and materially and adversely affect our business. Â As a creator and a distributor of digital media content, we face liability and expenses for legal claims based on the nature and content of the materials that we create or distribute, including materials provided by third parties. If we are required to pay damages or expenses in connection with these legal claims, our business and results of operations may be harmed. Â We display original content andÂ third-partyÂ contentÂ on our websites and in our marketing messages. As a result, we have faced and will continue toÂ face potential liability based on a variety of theories, including deceptive advertising and copyright or trademark infringement. We generally rely onÂ the â€œfair useâ€ exception for our use of third-party brand names and marks, but these third parties may disagree, and the laws governing the fair use of these third-party materials are imprecise and adjudicated on a case-by-case basis. We also create content we believe to be original for our websites.Â While we do not believe that this contentÂ infringes on any third-party copyrights or other intellectual property rights, owners of competitive websites that present similar content have taken and may take the position that our content infringes on their intellectual property rights.Â We are also exposed to risk that content provided by third parties is inaccurate or misleading, and for material posted to our websites by users and other third parties. These claims could divert management time and attention away from our business and result in significant costs to investigate and defend, regardless of the merit of these claims. The general liability insurance we maintainÂ may not cover potential claims of this type or may not be adequate to indemnify us for all liability that may be imposed. Any imposition of liability that is not covered by insurance, or is in excess of insurance coverage, could materially adversely affect our business, financial condition and results of operations. Â Our dependence on third-party relationships with content producers and distribution channels to develop and distribute entertainment content is critical to the success of the FANTOO Platform. Â We rely on third party relationships with content producers and distribution channels to develop and distribute entertainment content. Our financial performance may be adversely affected by our relationships with content producers and distribution channels. Some of our content producers may have their own or other distribution capabilities in the markets in which we operate. TheseÂ third-partyÂ contentÂ producers and distribution channels may decide, or be required by their respective parent companies, to use their intracompany distribution or content production capabilities rather than posting such content with us. Our business may be harmed if the content producers and distribution channels with which we work stop or reduce the amount of content they produce for us, or otherwise demand less favorable terms to us. Â Our decision not to provide products and services and to restrict user access in China (including Hong Kong and Macau) will limit our total addressable market and may limit our ability to grow our business. Â China and Hong Kong could represent a large market opportunity for our business. However, and although we believe that such a decision may benefit the Company in the long run, by choosing not to provide products and services, and restricting user access in China (including Hong Kong and Macau), we are sacrificing potential business opportunities that may negatively impact the Company. As a result, the Companyâ€™s total addressable market and potential growth may be limited and, as a result, the market price of our common stock may significantly decrease or become worthless. Â If our content streaming initiatives are unsuccessful, our business, financial condition or results of operations could be adversely affected. Â Content streaming is intensely competitive and cash intensive and there can be no assurance that our content creation initiatives will be profitable or otherwise successful. Our ability to attract, engage and retain users within the FANTOO platform, as well as the corresponding advertising revenues they generate, will depend on our ability to consistently provide appealing and differentiated content globally, effectively market our content and services and provide a quality experience for selecting and viewing that content. Our success will require significant investments to produce original content and acquire the rights toÂ third-partyÂ content, as well as the establishment and maintenance of key content and distribution partnerships. Â 19 Â Â We must continually add new users and meaningfully engage with existing users to manage turnover, or â€œchurn,â€ to grow our business. If we are unable to successfully compete with competitors in attracting, engaging with and retaining users as well as creative talent, our business, financial condition or results of operations could be adversely affected. The relative service levels, content offerings, promotions and pricing and related features of our competitorsâ€™ services may adversely impact our ability to attract, engage and retain users. If consumers do not consider our platform to be of value compared to our competitorsâ€™ platforms, including because we fail to introduce attractive new content and features, do not maintain competitive pricing, terminate or modify promotional or trial period offerings, experience technical issues, or change the mix of content in a manner that is unfavorably received, we may not be able to attract, engage and retain users. If we are not able to attract new users, or our existing users decide to not continue using our services for any reason, including a perception that they do not use our platform sufficiently, the need to cut household expenses, unsatisfactory content, promotions or offers expire or are modified, competitive platforms provide a better value or experience or customer service or technical issues are not satisfactorily resolved, our business, financial condition or results of operations could be adversely affected. Â We are dependent on the continued services and on the performance of key third party content contributors, the loss of which could adversely affect our business. Â We rely on content contributed by third party providers, which has in turn attracted users that drive advertising revenue. The loss of the services of any of such key contributors could have a material adverse effect on our business, operating results, and financial condition. We also depend on our ability to identify, attract, and retain other highly skilled third-party content contributors. Competition for such contributors is intense, and there can be no assurance that we will be able to successfully attract, assimilate or retain them. The loss or limitation of the services of any of our key third party contributors, or the inability to attract and retain additional qualified key contributors, could have a material adverse effect on our business, financial condition or results of operations. Â Substantial and

increasingly intense competition in the social media platform and content creation industry may harm our business. Â We compete in markets characterized by vigorous competition, changing technology, evolving industry standards, and frequent introductions of new products and services. We expect competition to intensify in the future as existing and new competitors introduce new services or enhance existing services. We compete against many companies to attract customers, and some of these companies have greater financial resources and substantially larger bases of customers than we do, which may provide them with significant competitive advantages. These companies may devote greater resources to the development, promotion, and sale of products and services, and they may introduce their own innovative products and services that adversely impact our growth. Mergers and acquisitions by these companies may lead to even larger competitors with more resources. We also expect new entrants to offer competitive products and services. If we are unable to differentiate ourselves from and successfully compete with our competitors, our business will be materially and adversely affected. Â We may also face pressures from competitors for user engagement and, in the future, advertising revenues. Some potential competitors are able to offer greater returns on content sales to content creators for similar services by cross-subsidizing their payments services through other services they offer. Such competition may result in the need for us to alter the amount we charge creators in content-sales transactions, and could reduce our gross profit. In addition, as we grow, influential creators may demand more customized and favorable pricing from us, and competitive pressures may require us to agree to such pricing, further reducing our gross profit. Â Systems failures, interruptions, delays in service, catastrophic events, and resulting interruptions in the availability of our products or services could harm our business and our brand, and subject us to substantial liability. Â Our systems and those of our third-party data center facilities may experience service interruptions, denial-of-service and other cyber-attacks, human error, earthquakes, hurricanes, floods, fires, natural disasters, power losses, disruptions in telecommunications services, fraud, military or political conflicts, terrorist attacks and other geopolitical unrest, computer viruses, or other events. Our systems are also subject to break-ins, sabotage, and acts of vandalism. Some of our systems are not fully redundant, and our disaster-recovery planning is not sufficient for all eventualities. In addition, as a provider of payments solutions, we are subject to increased scrutiny by regulators that may require specific business continuity and disaster recovery plans and more rigorous testing of such plans. This increased scrutiny may be costly and time-consuming and may divert our resources from other business priorities. Â 20 Â Â We may, and are likely to, experience denial-of-service attacks, system failures, and other events or conditions that interrupt the availability or reduce the speed or functionality of our products and services. These events, should they occur, would likely result in loss of revenue. In addition, they could result in significant expense to repair or replace damaged equipment and remedy resultant data loss or corruption. A prolonged interruption in the availability or reduction in the speed or other functionality of our products or services could materially harm our reputation and business. Frequent or persistent interruptions in our products and services could cause users to believe that our products and services are unreliable, leading them to switch to our competitors or to avoid our products and services, and could permanently harm our reputation and business. Moreover, to the extent that any system failure or similar event results in damages to customers or their businesses, these customers could seek compensation from us for their losses, and those claims, even if unsuccessful, would likely be time-consuming and costly for us to address. Â Our success depends largely on the continued service and availability of key personnel. Â Much of the Companyâ€™s future success depends on the continued availability and service of key personnel, including its Chief Executive Officer, executive team and other highly skilled employees. Since the technology industry is characterized by high demand and intense competition for talents, we cannot assure you that we will be able to attract or retain qualified staff or other highly skilled employees. In addition, as the Company is relatively young, our ability to train and integrate new employees into our operations may not meet the growing demands of our business which may materially and adversely affect our ability to grow our business and hence our results of operations. Â From time to time, we may become involved in legal proceedings. Â From time to time, we may become subject to legal proceedings, claims, litigation and government investigations or inquiries, which could be expensive, lengthy, disruptive to normal business operations and occupy a significant amount of our employeesâ€™ time and attention. In addition, the outcome of any legal proceedings, claims, litigation, investigations, or inquiries may be difficult to predict and could have a material adverse effect on our business, operating results, or financial condition. Â The preparation of our financial statements involves the use of good faith estimates, judgments and assumptions, and our financial statements may be materially affected if such good faith estimates, judgments or good faith assumptions prove to be inaccurate. Â Financial statements prepared in accordance with accounting principles generally accepted in the UnitedÂ States of America (â€œGAAPâ€) typically require the use of good faith estimates, judgments and assumptions that affect the reported amounts. Often, different estimates, judgments and assumptions could reasonably be used that would have a material effect on such financial statements, and changes in these estimates, judgments and assumptions may occur from period to period over time. Significant areas of accounting requiring the application of managementâ€™s judgment include, but are not limited to, determining the fair value of assets, share-based compensation and the timing and amount of cash flows from assets. These estimates, judgments and assumptions are inherently uncertain and, if our estimates were to prove to be wrong, we would face the risk that charges to income or other financial statement changes or adjustments would be required. Any such charges or changes would require a restatement of our financial statements and could harm our business, including our financial condition and results of operations and the price of our securities. See â€œManagementâ€™s Discussion and Analysis of Financial Condition and Results of Operationsâ€ for a discussion of the accounting estimates, judgments and assumptions that we believe are the most critical to an understanding of our financial statements and our business. Â We believe we currently have ineffective internal control over financial reporting as evidenced by the restatement of our financial statements in this Registration Statement. Â We believe we currently have ineffective internal control over financial reporting as evidenced by the restatement of our financial statements in this Registration Statement. We have historically outsourced our accounting to small firms and also replaced our accounting firm with another small firm, the transition of which has caused a lack of continuity and loss of efficiency in the preparation of our financial statements. We intend to remediate this weakness after we become publicly traded by hiring more permanent, qualified and experienced accounting personnel at the Company and/or to hire a larger accounting firm with more resources and expertise. Â 21 Â Â RISKS RELATED TO GOVERNMENT REGULATION Â Our business is subject to regulation, and changes in applicable regulations may negatively impact our business. Â We are subject to a number of foreign and domestic laws and regulations relating to user privacy, data collection, retention, electronic commerce, virtual items and currency, consumer protection, content, advertising, localization, and information security which have been adopted or are being considered for adoption by many jurisdictions and countries throughout the world. These laws could harm our business by limiting the products and services we can offer consumers or the manner in which we offer them. The costs of compliance with these laws may increase in the future as a result of changes in interpretation. Furthermore, any failure on our part to comply with these laws or the application of these laws in an unanticipated manner may harm our business and result in penalties or significant legal liability. Â Actions by governments that restrict access to FANTOO in their countries, or that otherwise impair our ability to sell advertising in their countries, could substantially harm our business and financial results. Â Governments from time to time seek to censor content available on social media platforms, or restrict access to social media platforms from their country entirely, or impose other restrictions that may affect the accessibility of our products in their country for an extended period of time or indefinitely. For example, user access to certain other company social media platforms has been or is currently restricted in whole or in part in China, Iran, and North Korea. In addition, government authorities in other countries may seek to restrict user access to our products if they consider us to be in violation of their laws or a threat to public safety or for other reasons, and certain of our products have been restricted by governments in other countries from time to time. It is also possible that government authorities could take action that impairs our ability to sell advertising, including in countries where access to our consumer-facing products may be blocked or restricted. In the event that content shown on FANTOO is subject to censorship, access to our products is restricted, in whole or in part, in one or more countries, we are required to or elect to make changes to our operations, or other restrictions are imposed on our products, or our competitors are able to successfully penetrate new geographic markets or capture a greater share of existing geographic markets that we cannot access or where we face other restrictions, our ability to retain or increase our user base, user engagement, or the level of advertising by marketers may be adversely affected, we may not be able to maintain or grow our revenue as anticipated, and our financial results could be adversely affected. Â Our business is subject to complex and evolving U.S.Â and foreign laws and regulations regarding privacy, data use and data protection, content, competition, consumer protection, and other matters. Many of these laws and regulations are subject to change and uncertain interpretation, and could result in claims, changes to our business practices, monetary penalties, increased cost of operations, or declines in user growth or engagement, or otherwise harm our business. Â We are subject to a variety of laws and regulations that involve matters central to our business, including privacy, data use, data protection and personal information, rights of publicity, content, intellectual property, advertising, marketing, distribution, data security, data retention and deletion, data localization and storage, data disclosure, artificial intelligence, electronic contracts and other communications, competition, protection of minors, consumer protection, telecommunications, product liability, e-commerce, taxation, economic or other trade prohibitions or sanctions, anti-corruption and political law compliance, securities law compliance, and online payment services. The introduction of new products, expansion of our activities in certain jurisdictions, or other actions that we may take may subject us to additional laws, regulations, or other government scrutiny. In addition, foreign data protection, privacy, content, competition, and other laws and regulations can impose different obligations or be more restrictive than those in the UnitedÂ States. Â Since our operations are based in Korea, where most of our users are domiciled, we are subject to, among others, the Personal Information Protection Act and related legislation, regulations and orders (the â€œPIPAâ€), the Act on the Promotion of Information and Communications Network Utilization and Protection of Information Act (Korea), and the Credit Information Act in Korea that specifically regulates certain sensitive personal information. PIPA requires consent by the consumer with respect to the use of his or her data and requires the persons responsible for management of personal data to take the necessary technological and managerial measures to prevent data breaches and, among other duties, to notify the Personal Information Protection Commission of any data breach incidents within 24Â hours. Failure to comply with PIPA in any manner may subject these persons responsible to personal liability for not obtaining such consent in an appropriate manner or for such breaches, including even negligent breaches, and violators face varying penalties ranging from monetary penalties to imprisonment. We strive to take the necessary technological and managerial measures to comply with PIPA, including the implementation of privacy policies concerning the collection, use, and disclosure of subscriber data on our apps and websites, and we regularly review and update our policies and practices. Despite these efforts to comply with PIPA, these rules are complex and evolving, subject to interpretation by government regulators which may change over time and therefore we are subject to the risk of claims by regulators of failure to comply with PIPA.Â Any failure, or perceived failure, by us to comply with such policies, laws, regulations, and other legal obligations and regulatory guidance could adversely affect our reputation, brand, and business, and may result in claims, proceedings, or actions, including criminal proceedings, against us and certain of our executive officers by governmental entities or others or other liabilities. Any such claim, proceeding, or action, could hurt our reputation, brand, and business, force us to incur significant expenses in defense of such proceedings, distract our management, increase our costs of doing business, result in a loss of customers and merchants, and could have an adverse effect on our business, financial condition, and results of operations. Â 22 Â Â These U.S.Â federal and state and foreign laws and regulations, which in some cases can be enforced by private parties in addition to government entities, are constantly evolving and can be subject to significant change. As a result, the application, interpretation, and enforcement of these laws and regulations are often uncertain, particularly in the new and rapidly evolving industry in which we operate, and may be interpreted and applied inconsistently from country to country and inconsistently with our current policies and practices. For example, regulatory or legislative actions affecting the manner in which we display content to our users or obtain consent to various practices could adversely affect user growth and engagement. Such actions could affect the manner in which we provide our services or adversely affect our financial results. Â We are also subject to evolving laws and regulations that dictate whether, how, and under what circumstances we can transfer, process and/or receive certain data that is critical to our operations, including data shared between countries or regions in which we operate and data shared among our products and services. If we are unable to transfer data between and among countries and regions in which we operate, or if we are restricted from sharing data among our products and services, it could affect our ability to provide our services, the manner in which we provide our services or our ability to target ads, which could adversely affect our financial results. Â Proposed or new legislation and regulations could also significantly affect our business. Laws and regulations are evolving and subject to interpretation, and resulting limitations on our advertising services, or reductions of advertising by marketers, have to some extent adversely affected, and will continue to adversely affect, our advertising business. Changes to our products or business practices as a result of these developments may adversely affect our advertising business. Similarly, there are a number of legislative proposals in the European Union, the UnitedÂ States, at both the federal and state level, as well as other jurisdictions that could impose new obligations or limitations in areas affecting our business. In addition, some countries are considering or have passed legislation implementing data protection requirements or requiring local storage and processing of data or similar requirements that could increase the cost and complexity of delivering our services. Â For example, the European Union traditionally has imposed stricter obligations under its laws and regulations relating to privacy, data protection and consumer protection than the UnitedÂ States. In MayÂ 2018, the European Unionâ€™s new regulation governing data practices and privacy called the General Data Protection Regulation, or GDPR, became effective and substantially replaced the data protection laws of the individual European Union member states. The law requires companies to meet more stringent requirements regarding the handling of personal data of individuals in the EU than were required under predecessor EU requirements. In the United Kingdom, a Data Protection Bill that substantially implements the GDPR also became law in MayÂ 2018. The law also increases the penalties for non-compliance, which may result in monetary penalties of up to â‚¬20.0Â million or 4% of a companyâ€™s worldwide turnover, whichever is higher. The GDPR and other similar regulations require companies to give specific types of notice and in some cases seek consent from consumers and other data subjects before collecting or using their data for certain purposes, including some marketing activities. Outside of the European Union, many countries have laws, regulations, or other requirements relating to privacy, data protection, information security, and consumer protection, and new countries are adopting such legislation or other obligations with increasing frequency. Many of these laws may require consent from consumers for the use of data for various purposes, including marketing, which may reduce our ability to market our products. There is no harmonized approach to these laws and regulations globally. Consequently, we increase our risk of non-compliance with applicable foreign data protection laws by operating internationally. We may need to change and limit the way we use personal information in operating our business and may have difficulty maintaining a single operating model that is compliant. In addition, various federal, state and foreign legislative and regulatory bodies, or self-regulatory organizations, may expand current laws or regulations, enact new laws or regulations or issue revised rules or guidance regarding privacy, data protection, information security and consumer protection. For example, California recently adopted the California Consumer Privacy ActÂ ofÂ 2018 (â€œCCPAâ€), which provides new data privacy rights for consumers and new operational requirements for businesses. The CCPA includes a statutory damages framework and private rights of action against businesses that fail to comply with certain CCPA terms or implement reasonable security procedures and practices to prevent data breaches. The CCPA went into effect in JanuaryÂ 2020. The effects of the CCPA potentially are significant, however, and may require us to modify our data processing practices and policies and to incur substantial costs and expenses in an effort to comply. As a general matter, compliance with laws, regulations, and any applicable rules or guidance from self- regulatory organizations relating to privacy, data protection, information security and consumer protection, may result in substantial costs and may necessitate changes to our business practices, which may compromise our growth strategy, adversely affect our ability to acquire customers, and otherwise adversely affect our business, financial condition and operating results. Â These laws and regulations, as well as any associated claims, inquiries, or investigations or any other government actions, have in the past led to, and may in the future lead to, unfavorable outcomes including increased compliance costs, delays or impediments in the development of new products, negative publicity and reputational harm, increased operating costs, diversion of management time and attention, and remedies that harm our business, including fines or demands or orders that we modify or cease existing business practices. Â Payment transactions may subject us to additional regulatory requirements and other risks that could be costly and difficult to comply with or that could harm our business. Â Our users can purchase virtual and digital goods from creators and developers within our platform and infrastructure on FANTOO.Â In addition, certain of our users can use our FANTOO infrastructure, including within Clubs and communities, for other activities, such as sending money to other users or purchasing goods and/or services from other users. We are subject to a variety of laws and regulations in the UnitedÂ States, Europe, and elsewhere, including those governing anti-money laundering and counter-terrorist financing, money transmission, gift cards and other prepaid access instruments, electronic funds transfer, charitable fundraising, and import and export restrictions.Â Depending on how our payments product evolves, we may also be subject to other laws and regulations including those governing gambling, banking, and lending. In some jurisdictions, the application or interpretation of these laws and regulations is not clear. Our efforts to comply with these laws and regulations could be costly and result in diversion of

management time and effort and may still not guarantee compliance. In the event that we are found to be in violation of any such legal or regulatory requirements, we may be subject to monetary fines or other penalties such as a cease and desist order, or we may be required to make product changes, any of which could have an adverse effect on our business and financial results. Â 23 Â Â In addition, we are subject to a variety of additional risks as a result of payments transactions, including: increased costs and diversion of management time and effort and other resources to deal with bad transactions or customer disputes; potential fraudulent or otherwise illegal activity by users, developers, employees, or third parties; restrictions on the investment of consumer funds used to transact payments; and additional disclosure and reporting requirements. We have also launched/have announced plans to develop digital payments products and services, which may subject us to many of the foregoing risks and additional licensing requirements. Â Changes in tax laws or regulations that are applied adversely to us or our customers may have a material adverse effect on our business, cash flow, financial condition or results of operations. Â New income, sales, use or other tax laws, statutes, rules, regulations or ordinances could be enacted at any time, which could affect the tax treatment of our earnings and adversely affect our operations, and our business and financial performance. Further, existing tax laws, statutes, rules, regulations or ordinances could be interpreted,Â changed, modified or applied adversely to us. There may be material adverse effects resulting from the legislation that we have not yet identified. No estimated tax provision has been recorded in the financial statements included herein for tax attributes that are incomplete or subject to change. Â The foregoing items could have a material adverse effect on our business, cash flow, financial condition or results of operations. In addition, it is unclear how these U.S.Â federal income tax changes will affect state and local taxation, which often uses federal taxable income as a starting point for computing state and local tax liabilities. The impact of this tax legislation on holders of our common stock is also uncertain and could be adverse. We urge our stockholders and investors to consult with our legal and tax advisors with respect to this legislation and the potential tax consequences of investing in or holding our common stock. Â Failure to comply with the U.S.Â Foreign Corrupt Practices Act could result in fines, criminal penalties and an adverse effect on our business. Â We may operate in a number of countries throughout the world, including countries known to have a reputation for corruption. We are committed to doing business in accordance with applicable anti-corruption laws and have adopted a code of business conduct and ethics which is consistent and in full compliance with the U.S.Â Foreign Corrupt Practices ActÂ ofÂ 1977, or the FCPA.Â We are subject, however, to the risk that we, our affiliated entities or our or their respective officers, directors, employees and agents may take actions determined to be in violation of such anti- corruption laws, including the FCPA.Â Any such violation could result in substantial fines, sanctions, civil and/or criminal penalties, curtailment of operations in certain jurisdictions, and might adversely affect our business, results of operations or financial condition. In addition, actual or alleged violations could damage our reputation and ability to do business. Furthermore, detecting, investigating, and resolving actual or alleged violations is expensive and can consume significant time and attention of our senior management. Â RISKS RELATED TO DOING BUSINESS IN KOREA Â Fluctuations in exchange rates could result in foreign currency exchange losses to us. Â The value of the Korean Won and other currencies against the U.S.Â dollar has fluctuated, and may continue to fluctuate and is affected by, among other things, changes in political and economic conditions. It is difficult to predict how market forces or Korean or U.S.Â government policy, including any interest rate increases by the Federal Reserve, may impact the exchange rate between the Korean Won and the U.S.Â dollar in the future. Â A substantial percentage of our revenue and costs are denominated in Korean Won, and a significant portion of our financial assets are also denominated in Korean Won, while we anticipate that a substantial portion of any debt incurred will be denominated in U.S.Â dollars. We are a holding company and we may receive dividends, loans and other distributions on equity paid by our operating subsidiaries in Korea. Any significant fluctuations in the value of the Korean Won may materially and adversely affect our liquidity and cash flows. For example, the depreciation of the Korean Won and other foreign currencies against the U.S.Â dollar typically results in a material increase in the cost of hosting services and equipment purchased from outside of Korea and the cost of servicing debt denominated in currencies other than the Korean Won. As a result, any significant depreciation of the Korean Won or other major foreign currencies against the U.S.Â dollar may have a material adverse effect on our results of operations. If we decide to convert our Korean Won into U.S.Â dollars for the purpose of repaying principal or interest expense on any future U.S.Â dollar-denominated debt, making payments for dividends on our common stock, or other business purposes, depreciation of the Korean Won or other foreign currencies against the U.S.Â dollar would have a negative effect on the U.S.Â dollar amount we would receive. Conversely, to the extent that we need to convert U.S.Â dollars into Korean Won for our operations, appreciation of the Korean Won against the U.S.Â dollar would have an adverse effect on the Korean Won amount we would receive. Â 24 Â Â Tensions with North Korea could have an adverse effect on our business, financial condition, and results of operations, and the price per share of our common stock. Â Relations between Korea and North Korea have fluctuated over theÂ years. Tension between Korea and North Korea may increase or change abruptly as a result of current and future events. In particular, there have been heightened security concerns in recentÂ years stemming from North Koreaâ€™s nuclear weapon and ballistic missile programs as well as its hostile military actions against Korea. Â North Koreaâ€™s economy also faces severe challenges, which may further aggravate social and political pressures within North Korea. Since AprilÂ 2018, North Korea has held a series of bilateral summit meetings with Korea and the UnitedÂ States to discuss peace and denuclearization of the Korean peninsula. However, North Korea has since resumed its missile testing, heightening tensions, and the outlook of such discussions remains uncertain. Â Further tensions in North Korean relations could develop due to a leadership crisis, breakdown in high-level inter-Korea contacts or military hostilities. Alternatively, tensions may be resolved through reconciliatory efforts, which may include peace talks, alleviation of sanctions or reunification. We cannot assure you that future negotiations will result in a final agreement on North Koreaâ€™s nuclear program, including critical details such as implementation and timing, or that the level of tensions between Korea and North Korea will not escalate. Any increase in the level of tension between Korea and North Korea, an outbreak in military hostilities or other actions or occurrences, could adversely affect our business, prospects, financial condition, and results of operations and could lead to a decline in the price per share of our common stock. Â There are special risks involved with investing in Korean companies, including the possibility of restrictions being imposed by the Korean government in emergency circumstances, accounting and corporate disclosure standards that differ from those in other jurisdictions, and the risk of direct or vicarious criminal liability for executive officers of our Korean affiliates. Â Our wholly owned subsidiary, Hanryu Bank Co., Ltd. (â€œHBCâ€), is a Korean company, and HBC and its Korean affiliates and subsidiaries operate in a business and cultural environment that is different from that of other countries. For example, under the Foreign Exchange Transaction ActÂ ofÂ Korea, if the Korean government determines that in certain emergency circumstances, including sudden fluctuations in interest rates or exchange rates, extreme difficulty in stabilizing the balance of payments or substantial disturbance in the Korean financial and capital markets are likely to occur, it may impose any necessary restriction such as requiring Korean or foreign investors to obtain prior approval from the Minister of Economy and Finance of Korea prior to entering into a capital markets transaction, repatriating interest, dividends or sales proceeds arising from Korean securities or from the disposition of such securities or other transactions involving foreign exchange. Although investors will hold shares of our common stock, HBC may experience adverse risks and in turn could adversely impact our business, prospects, financial condition, and results of operations and could lead to a decline in the price per share of our common stock. Â In addition, under Korean law, there are circumstances in which certain executive officers of a company may be investigated or held criminally liable either directly or vicariously for the actions of the company and its executives and employees. For example, complaints alleging infringement of intellectual property rights, breaches of certain Korean laws (e.g., labor standards laws and fair trade laws), and product-related claims may be investigated and prosecuted as criminal offenses with both the company and the companyâ€™s executive officers being named as defendants in such proceedings. These risks change over time. Â As a result of these current and changing risks, HBC and its Korean affiliatesâ€™ executive officers may be named in the future in criminal investigations or proceedings stemming from our operations. In Korea, company executive officers being named in such investigations or proceedings is a common occurrence, even though in practice many such cases result in no liability to the individual. If HBC and its Korean affiliatesâ€™ executive officers were to be named in such criminal proceedings or held either directly or vicariously criminally liable for the actions of the company and its executives and employees, our business, financial condition, and results of operations may be harmed. Â 25 Â Â HBCâ€™s transactions with its subsidiaries and affiliates may be restricted under Korean fair trade regulations. Â HBC enters into business relationships and transactions with its subsidiaries and affiliates, which are subject to scrutiny by the Korean Fair Trade Commission (â€œKFTCâ€) as to, among other things, whether such relationships and transactions constitute undue financial support among companies in the same business group. If, in the future, the KFTC determines that HBC has engaged in transactions that violate the fair trade laws and regulations, it may be subject to an administrative and/or criminal fine, surcharge or other actions, which may have an adverse effect on our business, financial condition, and results of operations. Â Our Korean subsidiary, HBC, and a group of companies affiliated with it may be designated an affiliated group under Korean law, which would require that group of companies to make certain disclosures and implement additional corporate governance requirements. Â Our Korean subsidiary, HBC, and a group of companies affiliated with it are likely to be designated as a business group subject to disclosure under the Korean Monopoly Regulation and Fair Trade Act. As described in greater detail in the section titled â€œGovernment Regulation-The Monopoly Regulation and Fair Trade Actâ€, such a designation would impose additional corporate governance and public disclosure requirements on this group of affiliated companies. These requirements would create additional costs of compliance and could subject this group of affiliated companies to greater regulatory scrutiny and risk of penalties for any failure to comply with the additional obligations imposed. Â HBC is subject to certain requirements and restrictions under Korean law that may, in certain circumstances, require it to act in a manner that may not be in our or our stockholdersâ€™ best interest. Â Under applicable Korean law, directors of a Korean company, such as HBC, owe a fiduciary duty to the company itself rather than to its stockholders. This fiduciary duty obligates directors of a Korean company to perform their duties faithfully for the good of the company as a whole. As a result, if circumstances arise in which the good of HBC conflicts with the good of Hanryu Holdings or our stockholders, HBC may not be permitted under applicable Korean law to act in a manner that is in the best interest of Hanryu Holdings, as its parent, or our stockholders. For example, providing guarantees or collateral by HBC in favor of Hanryu Holdings, as its parent, without a justifiable cause and on other than armâ€™s length terms may cause breach of a fiduciary duty of directors to HBC. Â Approval by the board of directors of a Korean company is required for, among other things, all transactions between a director or major stockholder (including a 10% or more stockholder) and the company for the directorâ€™s or the major stockholderâ€™s account. As a result, intercompany transactions between us and HBC (or any other Korean subsidiary we may own, from time to time), could arise in the future in which the directors of the Korean subsidiary are not able to act in ours or our stockholdersâ€™ best interest as a result of competing interests of the subsidiary. Since substantially all of our operations are conducted by HBC, any such occurrence with respect to HBC could adversely affect our business, financial condition, and results of operations. Â HBCâ€™s transactions with related parties are subject to close scrutiny by the Korean tax authorities, which may result in adverse tax consequences. Â Under Korean tax law, there is an inherent risk that HBCâ€™s transactions with its subsidiaries, affiliates or any other person or company that is related to us may be challenged by the Korean tax authorities if such transactions are viewed as having been made on terms that were not on an armâ€™s-length basis. If the Korean tax authorities determine that any of its transactions with related parties were on other than armâ€™s-length terms, it may not be permitted to deduct as expenses, or may be required to include as taxable income, any amount which is found to be undue financial support between related parties in such transaction, which may have adverse tax consequences for us and, in turn, may adversely affect our business, financial condition, and results of operations. Â 26 Â Â If we are deemed to have a â€œplace of effective managementâ€ in Korea, we will be treated as a Korean company for the purpose of Korean corporate income tax with regards to our worldwide income. Â Under the Corporate Tax Act (â€œCTAâ€), as amended on AugustÂ 17, 2021, a corporation having a â€œplace of effective managementâ€ in Korea will be treated as a Korean company for the purposes of Korean corporate income tax. However, the CTA does not clearly define what constitutes â€œplace of effective managementâ€ and, to date, there has not been any court precedent. If we are deemed to have a â€œplace of effective managementâ€ in Korea, we will be required to file annual corporate income tax returns with the Korean tax authorities and be subject to Korean corporate income tax. Currently, the applicable rates are 9.9% (inclusive of local corporate taxes) for taxable income up to 200Â million Korean Won, 23.1% (inclusive of local corporate taxes) for taxable income exceeding 200Â million Korean Won and less than 20Â billion Korean Won, 24.2% (inclusive of local corporate taxes) for taxable income greater than 20Â billion won and less than 300Â billion Korean Won, and 26.4% (inclusive of local corporate tax) for taxable income greater than 300Â billion Korean Won. Taxable income would include any worldwide income, such as dividends we receive from our Korean operating company and any interest income earned outside of Korea. If we are required to pay Korean corporate income tax, it may reduce our cash flow and negatively impact the returns to investors. Â If we are deemed to have a â€œpermanent establishmentâ€ in Korea, we will be subject to Korean corporate income tax with regards to any Korean source income attributable to or effectively connected with such permanent establishment. Â If we are deemed to have a â€œpermanent establishmentâ€ as defined under Korean tax law, we would be required to file annual corporate income tax returns with the Korean tax office and be subject to Korean corporate income tax. The applicable rates are 9.9% (inclusive of local corporate taxes) for taxable income up to 200Â million Korean Won, 20.9% (inclusive of local corporate taxes) for taxable income exceeding 200Â million Korean Won and less than 20Â billion Korean Won, 23.1% (inclusive of local corporate taxes) for taxable income greater than 20Â billion won and less than 300Â billion Korean Won, and 26.4% (inclusive of local corporate tax) for taxable income greater than 300Â billion Korean Won. Taxable income includes any Korean source income attributable to or effectively connected with such permanent establishment, such as dividends we receive from our Korean operating company. If we are required to pay Korean corporate income tax, it may reduce our cash flow and negatively impact the returns to investors. Â A focus on regulating copyright and patent infringement by the Korean government subjects us to extra scrutiny in our operations and could subject us to sanctions, fines, or other penalties, which could adversely affect our business and operations in Korea. Â The Korean government has recently focused on addressing copyright and patent infringement in Korea, particularly with respect to luxury and brand name merchandise. Despite measures we have taken to address copyright and patent infringement, the Korean government may subject us to sanctions, fines, or other penalties, which could adversely affect our business and operations in Korea. Â Our business may be adversely affected by developments that negatively impact the Korean economy and uncertainties in economic conditions that impact spending patterns of our customers in Korea. Â We have historically generated a substantial majority of our revenue from sales in Korea. Our future performance will depend in large part on Koreaâ€™s future economic growth. Adverse developments in Koreaâ€™s economy as a result of various factors, including economic, political, legal, regulatory, and social conditions in Korea may have an adverse effect on customer spending, which may not allow us to achieve our desired revenue growth. The economic indicators in Korea in recentÂ years have shown mixed signs of growth and uncertainty, and in 2020, the Korean and global economies were affected as a result of the COVID-19 pandemic. As a result, future growth of the Korean economy is subject to many factors beyond our control, including developments in the global economy. Â The Korean economy is closely tied to, and is affected by developments in, the global economy. In recentÂ years, adverse conditions and volatility in the worldwide financial markets, fluctuations in oil and commodity prices, and the COVID-19 pandemic, have contributed to the uncertainty of global economic prospects in general and have adversely affected, and may continue to adversely affect, the Korean economy. Due to liquidity and credit concerns and volatility in the global financial markets, the value of the Korean Won relative to the U.S.Â dollar and other foreign currencies and the stock prices of Korean companies have fluctuated significantly in recentÂ years. Further declines in the Korea Composite Stock Price Index, and large amounts of sales of Korean securities by foreign investors and subsequent repatriation of the proceeds of such sales may adversely affect the value of the Won, the foreign currency reserves held by financial institutions in Korea, and the ability of Korean companies to raise capital. Any future deterioration of the Korean economy or the global economy could adversely affect our business, financial condition, and results of operations. Â 27 Â Â New legislative proposals may expose our business to additional risks from litigation, regulation, and government investigations. Â We are subject to changing laws and regulations everywhere we do business, including in Korea. For example, on SeptemberÂ 28, 2020, the Korean Ministry of Justice announced (i)Â a proposed amendment to the Korean Commercial Code to adopt a punitive damages system that would apply generally to all areas of business, and (ii)Â a proposed bill to introduce a class action litigation system in Korea. Â Previously, punitive or exemplary damages have been available in Korea only in specific business fields. The proposed legislation would broaden the potential availability of such damages. Similarly, the proposal relating to class actions would make such litigation applicable to a broader scope of cases, would allow for a Korean style discovery process, jury trials in many cases, and would apply to claims whose cause arose before the billâ€™s enactment. Â Additionally, on SeptemberÂ 28, 2020, the KFTC introduced a proposed bill entitled the â€œFair Online Platform Intermediary Transactions Act.â€ This proposed act is intended to augment the existing legal framework under the Monopoly Regulation and Fair Trade ActÂ ofÂ Korea to regulate competition and fairness issues arising in the business of online platforms. This proposed act would enhance liability of online platform operators to merchants, suppliers, and customers. Â Also, on JanuaryÂ 8, 2021, the main session of the Korean National Assembly passed a draft Bill on Punishment for Serious Accidents, etc. (the â€œSerious Accidents Actâ€), which came into effect JanuaryÂ 27, 2022. The Serious Accidents Act imposes enhanced liability (including

criminal liability) on businesses, managers, and individuals who are responsible for causing loss of life by failing to fulfill duties relating to workplace safety and health or risk prevention. The Serious Accidents Act provides the potential for criminal punishment, public disclosure of punishment, and monetary damages, including punitive damages up to five times the actual damages suffered. The Serious Accidents Act extends potential liability to a wider group of persons than under existing law, including those who oversee safety and health matters for the business concerned and also general managers of the business. Â These are just some examples of how our business could be affected by changing regulations. If these proposals are enacted and implemented, our Korean subsidiary, HBC (and its Korean subsidiaries), could face substantial costs and management could be required to spend significant time and attention on these matters, which would divert our focus from our core business. This could adversely affect our business, financial condition, and results of operations. Â As HBC is incorporated in Korea, it may be more difficult to enforce judgments obtained in courts outside Korea. Â Our operations are primarily conducted outside of the UnitedÂ States. In addition, all of our directors and officers are non-residents of the UnitedÂ States, and all or a substantial portion of the assets of these non-residents are located outside the UnitedÂ States. As a result, it may be difficult or impossible for U.S.Â investors to serve process within the UnitedÂ States upon us, our subsidiaries or our directors and officers or to enforce a judgment against us for civil liabilities in U.S.Â courts. In addition, you should not assume that courts in the countries in which we or our subsidiaries are incorporated or where our or the assets of our subsidiaries are located (1)Â would enforce judgments of U.S.Â courts obtained in actions against us or our subsidiaries based upon the civil liability provisions of applicable U.S.Â federal and state securities laws or (2)Â would enforce, in original actions, liabilities against us or our subsidiaries based on those laws. Â RISKS RELATED TO OUR TECHNOLOGY Â Technology changes rapidly in our business and if we fail to anticipate or successfully implement new technologies or adopt new business strategies, technologies or methods, the quality and competitiveness of our service offerings may suffer. Â Technology changes rapidly in the social media market which requires us to anticipate which technologies we must develop, implement and take advantage of in order to remain competitive. We have invested, and in the future may invest, in new business strategies including technologies, products, and to continue to persistently deliver the best product. Such endeavours may involve significant risks and uncertainties, and no assurance can be given that the technology we choose to adopt and the features that we pursue will be successful. If we do not successfully implement these new technologies, our reputation may be materially adversely affected and our financial condition and operating results may be impacted. We also may miss opportunities to adopt technology, or develop new technologies, which could adversely affect our financial results. It may take significant time and resources to shift our focus to new technologies, putting us at a competitive disadvantage. Â 28 Â Â There may be losses or unauthorized access to or releases of confidential information, including personally identifiable information (â€œPIIâ€), that could subject the Company to significant reputational, financial, legal and operational consequences. Â The Companyâ€™s business requires it to use and store confidential information including, among other things, PII, with respect to the Companyâ€™s customers and employees. The Company devotes significant resources to network and data security, including through the use of encryption and other security measures intended to protect its systems and data. However, these measures cannot provide absolute security, and losses or unauthorized access to or releases of confidential information occur and could materially adversely affect the Companyâ€™s reputation, financial condition and operating results. Â The Companyâ€™s business also requires it to share confidential information with suppliers and other third parties. Although the Company takes steps to secure confidential information that is provided to third parties, such measures are not always effective and losses or unauthorized access to or releases of confidential information occur and could materially adversely affect the Companyâ€™s reputation, financial condition and operating results. Â For example, the Company may experience a security breach impacting the Companyâ€™s information technology systems, which, for the avoidance of doubt, includes the Companyâ€™s separate FP database, that compromises the confidentiality, integrity or availability of confidential information. Such an incident could, among other things, impair the Companyâ€™s ability to attract and retain customers for its products and services, impact the Companyâ€™s stock price, materially damage supplier relationships, and expose the Company to litigation or government investigations, which could result in penalties, fines or judgments against the Company. Â The Company has implemented systems and processes intended to secure its information technology systems and prevent unauthorized access to or loss of sensitive data, including through the use of encryption and authentication technologies. As with all companies, these security measures may not be sufficient for all eventualities and may be vulnerable to hacking, employee error, malfeasance, system error, faulty password management or other irregularities. Â In addition to the risks relating to general confidential information described above, the Company is also subject to specific obligations relating to payment card data. Under payment card rules and obligations, if cardholder information is potentially compromised, the Company could be liable for associated investigatory expenses and could also incur significant fees or fines if the Company fails to follow payment card industry data security standards. The Company could also experience a significant increase in payment card transaction costs or lose the ability to process payment cards if it fails to follow payment card industry data security standards, which would materially adversely affect the Companyâ€™s reputation, financial condition and operating results. Â While the Company maintains insurance coverage that is intended to address certain aspects of data security risks, such insurance coverage may be insufficient to cover all losses or all types of claims that may arise. Â We use third-party services and technologies in connection with our business, and any disruption to the provision of these services and technologies to us could result in negative publicity and a slowdown in the growth of our users, which could materially and adversely affect our business, financial condition and results of operations. Â Our business partially depends on services provided by, and relationships with, various third parties, including cloud hosting and broadband providers, among others. To this end, when our cloud hosting and broadband vendors experience outages, our services offered through FANTOO and related applications will be negatively impacted and alternative resources will not be immediately available. We exercise no control over the third-party vendors that we rely upon for cloud hosting, broadband and software service. If such third parties increase their prices, fail to provide their services effectively, terminate their service or agreements or discontinue their relationships with us, we could suffer service interruptions, reduced revenues or increased costs, any of which may have a material adverse effect on our business, financial condition and results of operations. Â 29 Â Â Growth of our client base depends upon effective interoperability with mobile operating systems, networks, mobile devices and standards that we do not control. Â We are dependent on the interoperability of our services with popular mobile devices and mobile operating systems that we do not control, such as Android and iOS.Â Any changes in such mobile operating systems or devices that degrade the functionality of our services or give preferential treatment to competitive services could adversely affect usage of our services. In order to deliver high quality services, it is important that our services work well across a range of mobile operating systems, networks, mobile devices and standards that we do not control. We may not be successful in developing relationships with key participants in the mobile industry or in developing services that operate effectively with these operating systems, networks, devices and standards. In the event that it is difficult for our users to access and use our services, particularly on their mobile devices, our user growth and user engagement could be harmed, and our business and operating results could be adversely affected. Â Security breaches, improper access to or disclosure of our data or user data, other hacking and phishing attacks on our systems, or other cyber incidents could harm our reputation and adversely affect our business. Â Our industry is prone to cyber-attacks by third parties seeking unauthorized access to our data or usersâ€™ data or to disrupt our ability to provide service. Our products and services involve the collection, storage, processing, and transmission of a large amount of data, including FP stored in the Companyâ€™s separate FP database. Any failure to prevent or mitigate security breaches and improper access to or disclosure of our data or user data, including personal information, content, or payment information from users, or information from marketers, could result in the loss, modification, disclosure, destruction, or other misuse of such data, including FP stored in the Companyâ€™s separate FP database, which could harm our business and reputation and diminish our competitive position. In addition, computer malware, viruses, social engineering (predominantly spear phishing attacks), scraping, and general hacking have become more prevalent in our industry, have occurred on our systems in the past, and will occur on our systems in the future. Our efforts to protect our company data or the information we receive, and to disable undesirable activities on our platform, may also be unsuccessful due to software bugs or other technical malfunctions; employee, contractor, or vendor error or malfeasance, including defects or vulnerabilities in our vendorsâ€™ information technology systems or offerings; government surveillance; breaches of physical security of our facilities or technical infrastructure; or other threats that evolve. In addition, third parties may attempt to fraudulently induce employees or users to disclose information in order to gain access to our data or our usersâ€™ data. Cyber-attacks continue to evolve in sophistication and volume, and inherently may be difficult to detect for long periods of time. Although we have developed systems and processes that are designed to protect our data and user data, to prevent data loss, to disable undesirable accounts and activities on our platform, and to prevent or detect security breaches, we cannot assure you that such measures will provide absolute security, that we will be able to react in a timely manner, or that our remediation efforts will be successful. Â We may experience such cyber-attacks and other security incidents of varying degrees from time to time, and we may incur significant costs in protecting against or remediating such incidents. In addition, we are subject to a variety of laws and regulations in the UnitedÂ States and abroad relating to cybersecurity and data protection. As a result, affected users or government authorities could initiate legal or regulatory actions against us in connection with any actual or perceived security breaches or improper access to or disclosure of data, which could cause us to incur significant expense and liability or result in orders or consent decrees forcing us to modify our business practices. Such incidents or our efforts to remediate such incidents may also result in a decline in our active users base or engagement levels. Any of these events could have a material and adverse effect on our business, reputation, or financial results. Â We anticipate that our ongoing efforts related to privacy, safety, security, and content review will identify instances of misuse of user data or other undesirable activity by third parties on our platform. Â In addition to our efforts to mitigate cybersecurity risks, we are making significant investments in privacy, safety, security, and content review efforts to combat misuse of our services and user data by third parties, including investigations and audits of platform applications. As a result of these efforts, we anticipate that we may discover incidents of misuse of user data or other undesirable activity by third parties. We may not discover all such incidents or activity, whether as a result of our data or technical limitations, including our lack of visibility over our encrypted services, the scale of activity on our platform, challenges related to our personnel working remotely during the COVID-19 pandemic, the allocation of resources to other projects, or other factors, and we may be notified of such incidents or activity by the media or other third parties. Such incidents and activities may, in the future, include the use of user data or our systems in a manner inconsistent with our terms, contracts or policies, the existence of false or undesirable user accounts, improper advertising practices, activities that threaten peopleâ€™s safety on- or offline, or instances of spamming, scraping, data harvesting, unsecured datasets, or spreading misinformation. We may also be unsuccessful in our efforts to enforce our policies or otherwise remediate any such incidents. Any of the foregoing developments may negatively affect user trust and engagement, harm our reputation and brands, require us to change our business practices in a manner adverse to our business, and adversely affect our business and financial results. Any such developments may also subject us to litigation and regulatory inquiries, which could subject us to monetary penalties and damages, divert managementâ€™s time and attention, and lead to enhanced regulatory oversight. Â 30 Â Â Our products and internal systems rely on software and hardware that is highly technical, and any errors, bugs, or vulnerabilities in these systems, or failures to address or mitigate technical limitations in our systems, could adversely affect our business. Â Our products and internal systems rely on software and hardware, including software and hardware developed or maintained internally and/or by third parties, that is highly technical and complex. In addition, our products and internal systems depend on the ability of such software and hardware to store, retrieve, process, and manage immense amounts of data. The software and hardware on which we rely may contain, and will in the future may further contain, errors, bugs, or vulnerabilities, and our systems are subject to certain technical limitations that may compromise our ability to meet our objectives. Some errors, bugs, or vulnerabilities inherently may be difficult to detect and may only be discovered after the code has been released for external or internal use. Errors, bugs, vulnerabilities, design defects, or technical limitations within the software and hardware on which we rely have in the past led to, and may in the future lead to, outcomes including a negative experience for users and marketers who use our products, compromised ability of our products to perform in a manner consistent with our terms, contracts, or policies, delayed product introductions or enhancements, targeting, measurement, or billing errors, compromised ability to protect the data of our users and/or our intellectual property or other data, or reductions in our ability to provide some or all of our services. For example, we make commitments to our users as to how their data will be used within and across our products, and our systems are subject to errors, bugs and technical limitations that may prevent us from fulfilling these commitments reliably. In addition, any errors, bugs, vulnerabilities, or defects in our systems or the software and hardware on which we rely, failures to properly address or mitigate the technical limitations in our systems, or associated degradations or Â interruptions of service or failures to fulfil our commitments to our users may in the future lead to outcomes including damage to our reputation, loss of users, loss of marketers, loss of revenue, regulatory inquiries, litigation, or liability for fines, damages, or other remedies, any of which could adversely affect our business and financial results. Â RISKS RELATED TO DIGITAL ASSETS Â Regulatory changes or actions may restrict the use of digital assets in a manner that adversely affects our business, prospects or operations. Â FP may be considered a digital asset.Â Although FP is not offered on a public blockchain and its value is derived primarily from its utility exclusively within its closed network community, it may also be subject to increasingly restrictive, complex and evolving U.S.Â and foreign laws and regulations regarding digital assets, including commodities and securities, anti-money laundering and counter-terrorist financing, money transmission, consumer protection, taxation, intellectual property, property rights and other matters (for the purposes of this section, the â€œDigital Asset Lawsâ€). Many of these laws and regulations are subject to change and uncertain interpretation, and could result in outright bans in certain jurisdictions, sanctions, monetary penalties, claims, increased compliance costs, or declines in adoption that could impede user growth or engagement, or otherwise harm our business. Â For example, in the UnitedÂ States, the SEC has been particularly active in pursuing digital asset issuers for unregistered security offerings to U.S.Â residents. In Korea, the Financial Services Commission has banned initial coin offerings within Korea. We have not offered KDC in jurisdictions where it was be prohibited or in a manner that is prohibited. The initial public offering of KDC was conducted on centralized digital asset exchanges that excluded subscribers from prohibited jurisdictions. Further, we conducted no public solicitation for the offering of KDC in the UnitedÂ States or South Korea. Nonetheless, because KDC is available on the public blockchain it may be possible for residents in such jurisdictions to acquire KDC in peer to peer transactions, as most jurisdictions, including the UnitedÂ States and South Korea, do not prohibit private parties from engaging in peer to peer digital asset transactions. With respect to resales or secondary digital asset transactions, jurisdictions generally regulate intermediaries for such transactions dependent on the extent and nature of an intermediaryâ€™s role in a transaction. Decentralized finance (â€œdefiâ€) applications that are connected to the public blockchain have substantially minimized the role of the intermediary. Given the emerging nature of such defi applications, the regulatory landscape pertaining to such applications is still evolving and consequently, numerous defi applications are available to transaction parties, often irrespective of the physical location of a party and irrespective of the actions or inactions of the issuers of such digital assets. To date, we do not monitor for such defi transactions, nor do we have any prospective plans to do so. Furthermore, given that we would never have access to the personal information of the parties to such transactions, even if we had the ability to restrict private defi transactions we would not have the ability to identify whether any particular transaction should be restricted under the Digital Asset Laws of any given jurisdiction or whether we would be under any obligation to endeavour to enforce such restrictions, to the extent possible. To the extent government enforcement authorities or regulators seek to enforce current or future Digital Asset Laws against us for these transactions, we may be subject to investigation, administrative or court proceedings, and civil or criminal monetary fines and penalties, all of which could harm our reputation and negatively impact our business operations. Â Regulation of digital assets and digital asset exchanges is currently undeveloped and likely to evolve rapidly, vary significantly among international regulatory agencies, and is subject to significant uncertainty. A failure by the Company to comply with any laws, rules and regulations, some of which may not exist yet or are subject to interpretation and may be subject to change, could result in a variety of adverse consequences, including civil penalties and fines imposed by governmental authorities. Under certain circumstances, such failure to comply by the Company could also result in criminal sanctions. Â 31 Â Â As blockchain networks and digital assets have grown in popularity and in market size, governments and regulatory agencies have begun to take interest in, and in some cases regulate, their use and operation. To the extent that a government or quasi-governmental agency exerts regulatory authority over a blockchain network or asset upon which our business relies, our business could be adversely affected. Blockchain networks currently face an uncertain regulatory landscape in many jurisdictions. The effect of any future legal or regulatory change is impossible to predict, but such laws, regulations or directives may directly and negatively impact our business. Â Governments may in the future curtail or outlaw the acquisition, use or redemption of digital assets. Ownership of, holding or trading in digital assets may then be considered illegal and subject to sanction. Governments may also take regulatory action that may increase the cost and/or subject digital asset companies to additional regulation. Judicial determinations may also have an adverse impact on the trading of digital assets. Â Users of FANTOO are issued FP for engaging and transacting within the Companyâ€™s ecosystem. FP may be subject to various regulations in South Korea that restrict or limit the use of FP on FANTOO. Â In

addition to the application of the Digital Asset Laws arising as a result of the use of FP in various jurisdictions, our operation of the FANTOO platform within South Korea and the issuance of FP to users engaging with theÂ FANTOO platform may subject us to various regulations in South Korea, including the Financial Investment Services and Capital Markets ActÂ (â€œFISCMâ€) and the Act on Reporting and Using Specified Financial Transaction Information (â€œRSFTIâ€). The FISCM was enactedÂ to advance the Korean financial marketÂ by improving the competitive edge of the nationâ€™s capital market and financial investment industry, and the RSFTI provides for the regulation of matters concerning reporting on and use of specified financial transaction information necessary to regulate money laundering and financing of terrorism through financial transactions, such as foreign exchange transactions, thereby contributing to preventing crimes and further establishing a sound and transparent financial system. Although FP is not currently classified as a financial investment instrument as such term is defined in the FISCM, or a virtual asset, as such term is defined by the RSFTI, any amendments to or interpretations of the FISCM, RSFTI or FP in the future may subject the Company to regulation, including among other requirements, providing financial transaction information in order to, among others, prevent money laundering and financing of terrorism. Â We may have security laws exposure relating to the previous issuances of Kingdom Coin. Â While we no longer hold or otherwise possess KC, we are subject to compliance with securities laws, which could expose us to potentialÂ liabilities, including potential rescission rights. In August of 2021, we issued to certain creditors of HBC an aggregate total of 348,679,380 KDC in exchange for the cancellation of an aggregate value of $9,428,664 in HBC debt (the â€œKDC Exchangeâ€). KDC was further listed on LBank.com in August, 2021, and XT.com in SeptemberÂ 2021 (LBank.com and XT.com are collectively, the â€œListing Platformsâ€). The current market price of KDC ($0.00011) is significantly lower than the valuation of KDC used to extinguish the HBC debt. Â At the time of the KDC Exchange, and subsequently at the time of listing of KDC on the Listing Platforms, HBC was operated solely under the jurisdiction of the ROK. During the KDC Exchange, and subsequently upon the listing of KDC on the Listing Platforms, the Company did not direct any sales efforts in the UnitedÂ States or to U.S.Â Persons. Further, pursuant to the terms and conditions of each Listing Platform, neither Listing Platform permits U.S.Â Persons as customers. While the Company therefore believes there were no sales of KDC to or by a U.S.Â person, or efforts to sell KDC to U.S.Â persons that would be subject to U.S.Â federal securities laws, we relied on each of the Listing Platforms to prevent offers and sales in the UnitedÂ States and to U.S.Â persons. As such, the Company may be subject to the risks below in the event that the policies and procedures of the Listing Platforms are not effective and/or sufficient to prevent such offers and sales or that persons may have been able to circumvent such policies and procedures. Â While we do not believe that we were subject to U.S.Â federal securities laws at the time of the KDC Exchange and the listing of KDC on the Listing Platforms, and therefore did not need to conduct the offerings pursuant to an available exemption under the U.S.Â federal securities laws, the analysis of such jurisdictional question is factual. The applicability of jurisdiction under the Securities Act, and the availability of any exemptions thereunder, depends upon our conduct and that of those persons contacting potential investors and making the offering. We further relied on the terms and conditions of the Listing Platforms to ensure that no offers or sales were made in the UnitedÂ States or to U.S.Â persons. As such, if the KDC Exchange, the listing of KDC on the Listing Platforms, or any other suchÂ offering of securities by the CompanyÂ is determined by either judicial decision or by the SEC to fall under the jurisdiction of U.S.Â federal securities laws, and does not qualify for an exemption from registration under the Securities Act, an investor would have the right to rescind its purchase of the securities if it so desired. It is possible that if an investor should seek rescission, such investor would succeed. If investors were successful in seeking rescission, we would face severe financial demands that could adversely affect our business and operations. Additionally, if we did in fact fall under the jurisdiction of U.S.Â federal securities laws, or alternatively, if such offerings do not qualify for an exemption thereunder, we may become subject to significant fines and penalties imposed by the SEC and state securities agencies. Â 32 Â Â RISKS RELATED TO INTELLECTUAL PROPERTY Â We may be subject to claims of infringement of third-party intellectual property rights. Â From time to time, third parties may claim that we have infringed their intellectual property rights. For example, patent holding companies may assert patent claims against us in which they seek to monetize patents they have purchased or otherwise obtained. Although we take steps to avoid knowingly violating the intellectual property rights of others, it is possible that third parties still may claim infringement. Existing or future infringement claims against us, whether valid or not, may be expensive to defend and divert the attention of our employees from business operations. Such claims or litigation could require us to pay damages, royalties, legal fees and other costs. We also could be required to stop offering, distributing or supporting the FANTOO application, or other features or services which incorporate the affected intellectual property rights, redesign products, features or services to avoid infringement, or obtain a license, all of which could be costly and harm our business. Â Our technology, content and brands are subject to the threat of piracy, unauthorized copying and other forms of intellectual property infringement. Â We regard our technology, content and brands as proprietary and take measures to protect our technology, content and brands and other confidential information from infringement. Piracy and other forms of unauthorized copying and use of our technology, content and brands may become persistent, and policing is difficult. Further, the laws of some countries in which our products are or may be distributed either do not protect our intellectual property rights to the same extent as the laws of the UnitedÂ States, or are poorly enforced. Legal protection of our rights may be ineffective in such countries. In addition, although we take steps to enforce and police our rights, factors such as the proliferation of technology designed to circumvent the protection measures used by our business partners or by us, the availability of broadband access to the Internet, the refusal of Internet service providers or platform holders to remove infringing content in certain instances, and the proliferation of online channels through which infringing product is distributed all have contributed to a general expansion in unauthorized copying of technology, content and brands. Â We may not be able to prevent others from unauthorized use of our intellectual property, which could harm our business and competitive position. Â We regard our registered trademark and pending trademarks, service marks, domain names, trade secrets, proprietary technologies and similar intellectual property as critical to our success. We rely on trademark law, trade secret protection and confidentiality and license agreements with our employees and others to protect our proprietary rights. Â We have invested significant resources to develop our own intellectual property and acquire licenses to use and distribute the intellectual property of others in the operation of the FANTOO platform. Failure to maintain or protect these rights could harm our business. In addition, any unauthorized use of our intellectual property by third parties may adversely affect our current and future revenues and our reputation. Â Policing unauthorized use of proprietary technology is difficult and expensive. We rely on a combination of copyright, trademark and trade secret laws and restrictions on disclosure to protect our intellectual property rights. Further, we require every employee and consultant to execute proprietary information and invention agreements prior to commencing work. Despite our efforts to protect our proprietary rights, third parties may attempt to copy or otherwise obtain and use our intellectual property or seek court declarations that they do not infringe upon our intellectual property rights. Monitoring unauthorized use of our intellectual property is difficult and costly, and we cannot assure you that the steps we have taken will prevent misappropriation of our intellectual property. From time to time, we may have to resort to litigation to enforce our intellectual property rights, which could result in substantial costs and diversion of our resources. Â 33 Â Â GOVERNANCE RISKS AND RISKS RELATED TO OUR COMMON STOCK Â We received a notice from Nasdaq that our common stock may be delisted from trading on the Nasdaq Capital Market if we fail to comply with the continued listing requirements, including the minimum bid price requirement and timely filing requirements of all required periodic reports with the SEC. A delisting of our common stock is likely to reduce the liquidity of our common stock and may inhibit or preclude our ability to raise additional financing. Â We are required to comply with certain Nasdaq continued listing requirements, including a minimum bid price for our common stock and timely filing requirements of all required periodic reports with the SEC. If we fail to maintain compliance with any of those requirements, our common shares could be delisted from Nasdaq. Â On May 21, 2024, we received a delinquency compliance alert notice (the â€œNoticeâ€) from the Listing Qualifications Department of The Nasdaq Stock Market LLC (â€œNasdaqâ€) advising the Company that due to the Companyâ€™s failure to timely file its Quarterly Report on Form 10-Q for the period ended March 31, 2024 and because the Company remains delinquent in filing its Form 10-K for the year ended December 31, 2023 with the Securities and Exchange Commission (the â€œSECâ€), the Company is not in compliance with Nasdaqâ€™s continued listing requirements under Nasdaq Listing Rule 5250(c)(1), which requires the timely filing of all required periodic reports with the SEC. Â On April 18, 2024, we received a delinquency compliance alert notice from Nasdaq advising the Company that due to the Companyâ€™s failure to timely file its Annual Report on Form 10-K for the fiscal year ended December 31, 2023, with the Securities and Exchange Commission (the â€œSECâ€), the Company is not in compliance with Nasdaqâ€™s continued listing requirements under Nasdaq Listing Rule 5250(c)(1), which requires the timely filing of all required periodic reports with the SEC. Â Nasdaq provided the Company until June 17, 2024, to submit a plan to regain compliance with the Rule (the â€œPlanâ€) related to Notices of Mar 21, 2024 and April 28, 2024, and the Company submitted its plan of compliance to Nasdaq at June 14, 2024. If Nasdaq accepts the Plan, the Company may be granted an extension of up to 180 calendar days from the due date of the Form 10-K, or until October 14, 2024, to regain compliance with the Rule. In the event the Plan is not accepted by Nasdaq, the Company may appeal that decision to a Hearings Panel. We are diligently working to file all delinquent periodic reports to resolve such noncompliance as soon as possible, but there can be no assurance that we will be able to successfully resolve such noncompliance. Â On February 5, 2024, we received a delinquency compliance alert notice from Nasdaq, advising that, based upon the closing bid price of our common stock for the prior 30 consecutive business days, were not in compliance with the requirement to maintain a minimum bid price of $1.00 per share for continued listing on the Nasdaq Capital Market, as set forth in Nasdaq Listing Rule 5550(a)(2). To regain compliance, the closing bid price of our common stock must be at least $1.00 per share for 10 consecutive business days (the â€œMinimum Bid Price Requirementâ€) during the 180-day period from February 5, 2024 to August 4, 2024. As a result, unless the closing bid of our common stock trades in such manner, we will need to solicit stockholder approval to authorize an amendment to its Certificate of Incorporation, as amended, to effect a reverse stock split of our issued and outstanding shares of common stock at a ratio calculated to maintain listing on the Nasdaq Capital Market, as determined by the Board in its sole discretion (the â€œReverse Stock Splitâ€).Â There is no guarantee that the Companyâ€™s stockholders will approve the Reverse Stock Split. If our stockholders fail to approve the Reverse Stock Split in such event, and our closing bid price does not meet or exceed $1.00 by the end of the compliance period and Nasdaq does not grant us an additional compliance period, or we fail to regain compliance by the end of such additional compliance period, our Board of Directors will weigh the available alternatives to regain compliance. However, there can be no assurance that we will be able to successfully resolve such noncompliance. Â If, for any reason, Nasdaq should delist our common stock from trading on its exchange and we are unable to obtain listing on another national securities exchange or take action to restore our compliance with the Nasdaq continued listing requirements, a reduction in some or all of the following may occur, each of which could have a material adverse effect on our stockholders: Â â—the liquidity of our common stock; Â â—the market price of our common stock; Â â—we will become a â€œpenny stockâ€, which will make trading of our common stock much more difficult; Â â—our ability to obtain financing for the continuation of our operations; Â â—the number of institutional and general investors that will consider investing in our common stock; Â â—the number of investors in general that will consider investing in our common stock; Â â—the number of market makers in our common stock; Â â—the availability of information concerning the trading prices and volume of our common stock; and Â â—the number of broker-dealers willing to execute trades in shares of our common stock. Â Our stock price may be volatile, and you could lose all or part of your investment. Â The trading price of our common stock following our offering may fluctuate substantially and may be higher or lower than the initial public offering price. This may be especially true for companies with a small public float. The trading price of our common stock following our offering will depend on several factors, including those described in this â€œRisk Factorsâ€ section, many of which are beyond our control and may not be related to our operating performance. These fluctuations could cause you to lose all or part of your investment in our common stock since you might be unable to sell your shares at or above the price you paid in the offering. Â In addition, the stock market in general, and the market for technology companies in particular, have experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of those companies. Broad market and industry factors, as well as general economic, political and market conditions such as recessions or interest rate changes, may seriously affect the market price of our common stock, regardless of our actual operating performance. These fluctuations may be even more pronounced in the trading market for our stock shortly following our offering. If the market price of our common stock after our offering does not exceed the initial public offering price, you may not realize any return on your investment in us and may lose some or all of your investment. Â 34 Â Â In addition, in the past, following periods of volatility in the overall market and the market prices of particular companiesâ€™ securities, securities class action litigations have often been instituted against these companies. Litigation of this type, if instituted against us, could result in substantial costs and a diversion of our managementâ€™s attention and resources. Any adverse determination in any such litigation or any amounts paid to settle any such actual or threatened litigation could require that we make significant payments. Â If securities industry analysts do not publish research reports on us, or publish unfavourable reports on us, then the market price and market trading volume of our common stock could be negatively affected. Â Any trading market for our common stock will be influenced in part by any research reports that securities industry analysts publish about us. We may not obtain any future research coverage by securities industry analysts. In the event we are covered by research analysts, and one or more of such analysts downgrade our securities, or otherwise reports on us unfavourably, or discontinues coverage of us, the market price and market trading volume of our common stock could be negatively affected. Â You will experience dilution as a result of future equity offerings. Â We may in the future offer additional shares of our common stock or other securities convertible into or exchangeable for our common stock. Although no assurances can be given that we will consummate a future financing, in the event we do, or in the event we sell shares of common stock or other securities convertible into shares of our common stock in the future, additional and potentially substantial dilution will occur. In addition, investors purchasing shares or other securities in the future could have rights superior to future investors. Â We have not paid cash dividends in the past and do not expect to pay dividends in the future. Any return on investment will likely be limited to the value of our common stock. Â We have never paid cash dividends on our common stock and do not anticipate doing so in the foreseeable future. The payment of dividends on our common stock will depend on earnings, financial condition and other business and economic factors affecting us at such time as our board of directors may consider relevant. If we do not pay dividends, our common stock may be less valuable because a return on your investment will only occur if our stock price appreciates. Â Since we do not anticipate paying any cash dividends on our capital stock in the foreseeable future, stock price appreciation, if any, will be your sole source of gain. Â We currently intend to retain all of our future earnings, if any, to finance the growth and development of our business. In addition, the terms of any future debt agreements may preclude us from paying dividends. As a result, appreciation, if any, in the market price of our common stock will be your sole source of gain for the foreseeable future. Â Future issuances of debt securities, which would rank senior to our common stock upon our bankruptcy or liquidation, and future issuances of preferred stock, which would rank senior to our common stock for the purposes of dividends and liquidating distributions, may adversely affect the level of return you may be able to achieve from an investment in our common stock. Â In the future, we may attempt to increase our capital resources by offering debt securities. In the event of a bankruptcy or liquidation, holders of our debt securities, and lenders with respect to other borrowings we may make, would receive distributions of our available assets prior to any distributions being made to holders of our common stock. Moreover, if we issue preferred stock in the future, the holders of such preferred stock could be entitled to preferences over holders of common stock in respect of the payment of dividends and the payment of liquidating distributions. Because our decision to issue debt or preferred securities in any future offering, or borrow money from lenders, will depend in part on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of any such future offerings or borrowings. Holders of our common stock must bear the risk that any such future offerings we conduct or borrowings we make may adversely affect the level of return they may be able to achieve from an investment in our common stock. Â 35 Â Â We may need to implement additional finance and accounting systems, procedures and controls as we grow our business and organization and to satisfy new reporting requirements. Â Upon becoming subject to reporting requirements of the Securities ExchangeÂ ActÂ ofÂ 1934, as amended (the â€œExchangeÂ Actâ€), we will be required to comply with a variety of extensive reporting, accounting, and other rules and regulations. Compliance with each of these requirements is expensive, time consuming and intricate. Further requirements may increase our costs and require additional management time and resources. We may need to implement additional finance and accounting systems, procedures and controls to satisfy our reporting requirements. We intend to remediate this weakness when we become a public company by adding additional, qualified and experienced accounting personnel. Â If our internal controls over financial reporting remain ineffective, such failure could cause investors to lose confidence in our reported financial information, negatively affect the market price of our common stock, subject us to regulatory investigations and penalties, cause us to have to restate our financial statements, and adversely impact our business and financial condition. Â We are anÂ emerging growth company, and any decision on our part to comply only with certain reduced reporting and disclosure requirements applicable to emerging growth companies could make our common stock less attractive to investors. Â We are anÂ emerging growth company, and, for as long as we continue to be anÂ emerging growth company, we may choose to take advantage of exemptions from various reporting requirements applicable to other public companies that are not â€œemerging growth

companies,â€ including: Â â—not being required to have our independent registered public accounting firm audit our internal control over financial reporting under SectionÂ 404 of the Sarbanes-Oxley Act; Â â—reduced disclosure obligations regarding executive compensation in our periodic reports and annual report on FormÂ 10-K;Â and Â â—exemptions from the requirements of holding aÂ non-bindingÂ advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. Â We could be anÂ emerging growth companyÂ for up to fiveÂ years following the listing of our common stock on the Nasdaq Market. Our status as anÂ emerging growth companyÂ will end as soon as any of the following takes place: Â â—the lastÂ day of the fiscal year in which we have more than $1.07Â billion in annual revenue; Â â—the date we qualify as a â€œlarge accelerated filer,â€Â with at least $700Â million of equity securities held byÂ non-affiliates as of the prior June 30; Â â—the date on which we have issued, in any three-year period, more than $1.0Â billion inÂ non-convertibleÂ debt securities; or Â â—the lastÂ day of the fiscal year ending after the fifth anniversary of the listing of our common stock on the Nasdaq Market. Â We cannot predict if investors will find our common stock less attractive if we choose to rely on the exemptions afforded emerging growth companies. If some investors find our common stock less attractive because we rely on any of these exemptions, there may be a less active trading market for our common stock and the market price of our common stock may be more volatile. Â Under the JOBS Act, emerging growth companies can also delay adopting new or revised accounting standards until such time as those standards apply to private companies. We have elected to use this extended transition period for complying with new or revised accounting standards that have different effective dates for public and private companies until the earlier of the date we (i)Â are no longer anÂ emerging growth companyÂ or (ii)Â affirmatively and irrevocably opt out of the extended transition period provided in the JOBS Act. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates. Â 36 Â Â We will incur increased costs as a result of being a public company, particularly after we cease to qualify as an â€œemerging growth company.â€ Â As a public company, we expect to incur significant legal, accounting and other expenses that we did not incur as a private company, particularly after we are no longer an â€œemerging growth companyâ€ as defined under the JOBS Act. In addition, new and changing laws, regulations and standards relating to corporate governance and public disclosure, including the Dodd-Frank Act and the rules and regulations promulgated and to be promulgated thereunder, as well as under the Sarbanes-Oxley Act and the JOBS Act, have created uncertainty for public companies and increased costs and time that boards of directors and management must devote to complying with these rules and regulations. The Sarbanes-Oxley Act and related rules of the SEC and the Nasdaq Stock Market regulate corporate governance practices of public companies. We expect compliance with these rules and regulations to increase our legal and financial compliance costs and lead to a diversion of management time and attention from sales-generating activities. For example, we will be required to adopt new internal controls and disclosure controls and procedures. In addition, we will incur additional expenses associated with our SEC reporting requirements and increased compensation for our management team. We cannot predict or estimate the amount of additional costs we will incur as a public company or the specific timing of such costs. Â Because of our status as an emerging growth company, you will not be able to depend on any attestation from our independent registered public accounting firm as to our internal control over financial reporting for the foreseeable future. Â Our independent registered public accounting firm will not be required to attest to the effectiveness of our internal control over financial reporting pursuant to SectionÂ 404 of the Sarbanes-Oxley Act until the later of the year following our first annual report required to be filed with the SEC or the date we are no longer an â€œemerging growth companyâ€ as defined in the JOBS Act. Accordingly, you will not be able to depend on any attestation concerning our internal control over financial reporting from our independent registered public accounting firm for the foreseeable future. Subsequent to the time frame above, our independent registered public accounting firm will not be required to attest to the effectiveness of our internal control over financial reporting pursuant to the Sarbanes-Oxley Act until such time that the Company becomes an â€œaccelerated filer,â€ as defined by the SEC. Â If our shares become subject to the penny stock rules, it would become more difficult to trade our shares. Â The SEC has adopted rules that regulate broker-dealer practices in connection with transactions in penny stocks. Penny stocks are generally equity securities with a price of less than $5.00, other than securities registered on certain national securities exchanges or authorized for quotation on certain automated quotation systems, provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system. If we do not obtain or retain a listing on the Nasdaq Capital Market or if the price of our common stock falls below $5.00, our common stock will be deemed a penny stock. The penny stock rules require a broker-dealer, before a transaction in a penny stock not otherwise exempt from those rules, to deliver a standardized risk disclosure document containing specified information. In addition, the penny stock rules require that before effecting any transaction in a penny stock not otherwise exempt from those rules, a broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive (i)Â the purchaserâ€™s written acknowledgment of the receipt of a risk disclosure statement; (ii)Â a written agreement to transactions involving penny stocks; and (iii)Â a signed and dated copy of a written suitability statement. These disclosure requirements would likely have the effect of reducing the trading activity in the secondary market for our common stock, and therefore stockholders may have difficulty selling their shares. Â FINRA sales practice requirements may limit a stockholderâ€™s ability to buy and sell our stock. Â In addition to the â€œpenny stockâ€ rules described above, the Financial Industry Regulatory Authority, Inc. (â€œFINRAâ€), has adopted rules that require that in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that customer. Prior to recommending speculative, low-priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customerâ€™s financial status, tax status, investment objectives and other information. The FINRA requirements may make it more difficult for broker-dealers to recommend that their customers buy our common stock, which may have the effect of reducing the level of trading activity in our common stock. As a result, fewer broker-dealers may be willing to make a market in our common stock, reducing a stockholderâ€™s ability to resell shares, as well as overall liquidity, of our common stock. Â 37 Â Â We will incur increased costs as a result of operating as a listed public company and our management will be required to devote substantial time to new compliance initiatives and corporate governance practices. Â If at some point in the future we are no longer an â€œemerging growth company,â€ we will incur significant legal, accounting and other expenses that we have not incurred in the past. The Sarbanes-Oxley Act, the JOBS Act, the listing requirements of the Nasdaq Capital Market and other applicable securities rules and regulations impose various requirements on public companies beyond what management has experienced in operating a privately held company. Our management and other personnel will need to devote a substantial amount of time to comply with these requirements. Moreover, these rules and regulations will increase our legal and financial compliance costs and will make some activities more time-consuming and costly. For example, we expect that these rules and regulations may make it more difficult and more expensive for us to obtain directorsâ€™ and officersâ€™ liability insurance, which could make it more difficult for us to attract and retain qualified members of our board of directors. We cannot predict or estimate the amount of additional costs we will incur as a listed public company, or the timing of such costs, but such costs will be significant. Â We are evaluating these rules and regulations, and cannot predict or estimate the amount of additional costs we may incur or the timing of such costs. These rules and regulations are often subject to varying interpretations, in many cases due to their lack of specificity, and, as a result, their application in practice may evolve over time as new guidance is provided by regulatory and governing bodies. This could result in continuing uncertainty regarding compliance matters and higher costs necessitated by ongoing revisions to disclosure and governance practices. Â We may be considered a smaller reporting company and will be exempt from certain disclosure requirements, which could make our common stock less attractive to potential investors. Â We are also a smaller reporting company as defined in the ExchangeÂ Act. We may continue to be a smaller reporting company even after we are no longer an emerging growth company. We may take advantage of certain of the scaled disclosures available to smaller reporting companies and will be able to take advantage of these scaled disclosures for so long as (i)Â the market value of our voting and non-voting common stock held by non-affiliates is less than $250Â million measured on the last businessÂ day of our second fiscal quarter or (ii)Â our annual revenue is less than $100Â million during the most recently completed fiscal year and the market value of our voting and non-voting common stock held by non-affiliates is less than $700Â million measured on the last businessÂ day of our second fiscal quarter. Specifically, as a smaller reporting company, we may choose to present only the two most recent fiscalÂ years of audited financial statements in our Annual Report on FormÂ 10-K and have reduced disclosure obligations regarding executive compensation, and, similar to emerging growth companies, if we are a smaller reporting company with less than $100Â million in annual revenue, we would not be required to obtain an attestation report on internal control over financial reporting issued by our independent registered public accounting firm. Â If we fail to remediate our internal control weakness and maintain an effective system of internal controls over financial reporting, we may be unable to accurately report our results of operations, meet our reporting obligations or prevent fraud, and investor confidence and the market price of our common stock may be materially and adversely affected. Â We have historically operated as a private company with limited accounting personnel and other resources with which to address our internal controls and procedures. Management has reviewed our current internal controls over financial reporting and concluded that our internal controls are ineffective as evidenced by the restatement of our financial statements in this Registration Statement. Our independent registered public accounting firm has not conducted an audit of our internal control over financial reporting. In addition, after we become a public company, our reporting obligations will place a significant strain on our management, operational and financial resources and systems for the foreseeable future and we may be unable to timely complete our evaluation testing and any required remediation. Â During the course of documenting and testing our internal control procedures, we identified weaknesses and deficiencies in our internal control over financial reporting. In addition, if we fail to remediate these weaknesses and maintain the adequacy of our internal control over financial reporting, as these standards are modified, supplemented, or amended from time to time, we will not be able to conclude on an ongoing basis that we have effective internal control over financial reporting. Generally, if we continue to fail to achieve and maintain an effective internal control environment, we could suffer material misstatements in our financial statements and fail to meet our reporting obligations, which would likely cause investors to lose confidence in our reported financial information. This could in turn limit our access to capital markets, harm our results of operations, and lead to a decline in the trading price of our common stock. Additionally, ineffective internal control over financial reporting could expose us to increased risk of fraud or misuse of corporate assets and subject us to potential delisting from the stock exchange on which we list, regulatory investigations and civil or criminal sanctions. Â 38 Â Â We may need additional capital, and we may be unable to obtain such capital in a timely manner or on acceptable terms, or at all. Furthermore, our future capital needs may require us to sell additional equity or debt securities that may dilute our stockholders or introduce covenants that may restrict our operations or our ability to pay dividends. Â To grow our business and remain competitive, we may require additional capital from time to time for our daily operation. Our ability to obtain additional capital is subject to a variety of uncertainties, including: Â â—our market position and competitiveness in the content creation and social media platform market; Â â—our future profitability, overall financial condition, results of operations and cash flows; and Â â—economic, political and other conditions in the U.S.Â and internationally. Â We may be unable to obtain additional capital in a timely manner or on acceptable terms or at all. In addition, our future capital needs and other business reasons could require us to sell additional equity or debt securities or obtain a credit facility. The sale of additional equity or equity-linked securities could dilute our stockholders. The incurrence of indebtedness would result in increased debt service obligations and could result in operating and financing covenants that would restrict our operations or our ability to pay dividends to our stockholders. Â Our existing stockholders have substantial influence over our company and their interests may not be aligned with the interests of our other stockholders, which may discourage, delay or prevent a change in control of our company, which could deprive our stockholders of an opportunity to receive a premium for their securities. Â As of the date of this Report, MunJoong Kang controls approximately 14.99% of the voting power in the Company. As a result, Mr.Â Kang may have substantial influence over our business, including decisions regarding mergers, consolidations and the sale of all or substantially all of our assets, election of directors and other significant corporate actions. This concentration of ownership may discourage, delay or prevent a change in control of the Company, which could deprive our stockholders of an opportunity to receive a premium for their shares as part of any contemplated sale of our company and may reduce the price of our common stock. Â Because we do not expect to pay dividends in the foreseeable future, you must rely on price appreciation of our common stock for return on your investment. Â We currently intend to retain most, if not all, of our available funds and any future earnings to fund the development and growth of our business. As a result, we do not expect to pay any cash dividends in the foreseeable future. Therefore, you should not rely on an investment in our common stock as a source for any future dividend income. Â Our board of directors has complete discretion as to whether to distribute dividends, subject to certain requirements of Delaware General Corporation Law. Even if our board of directors decides to declare and pay dividends, the timing, amount and form of future dividends, if any, will depend on, among other things, our future results of operations and cash flow, our capital requirements and surplus, the amount of distributions, if any, received by us from our subsidiaries, our financial condition, contractual restrictions and other factors deemed relevant by our board of directors. Accordingly, the return on your investment in our common stock will likely depend entirely upon any future price appreciation of our common stock. There is no guarantee that our common stock will appreciate in value or even maintain the price at which you purchase the common stock. You may not realize a return on your investment in our common stock and you may even lose your entire investment in our common stock. Â Substantial future sales or perceived potential sales of our common stock in the public market could cause the price of our common stock to decline. Â We have 52,808,589 shares of common stock outstanding as of July 15, 2024. All common stock registered hereby will be freely transferable without restriction or additional registration under the Securities Act. Sales of our common stock in the public market by our Registered Stockholders, or the perception that these sales could occur, could cause the price of our common stock to decline and have a material adverse effect on our business, financial condition and results of operations. Â 39 Â Â Our certificate of incorporation designates a state or federal court located within the State of Delaware as the exclusive forum for certain litigation that may be initiated by our stockholders, which could limit our stockholdersâ€™ ability to obtain a favorable judicial forum for disputes with us. Â Pursuant to our certificate of incorporation and our bylaws, unless we consent in writing to the selection of an alternative forum, the sole and exclusive forum for (i)Â any derivative action or proceeding brought on our behalf, (ii)Â any action asserting a claim of breach of a fiduciary duty owed by any of our directors, officers or other employees to us or our stockholders, (iii)Â any action asserting a claim against us arising pursuant to any provision of the Delaware General Corporation Law, (iv)Â any action asserting a claim against the Corporation governed by the internal affairs doctrine, in each case subject to the Court of Chancery of the State of Delaware having jurisdiction over the subject matter and personal jurisdiction over the indispensable parties name as defendants therein, or (v)Â any action asserting an â€œinternal corporate claimâ€ as that term is defined in SectionÂ 115 of the DGCL.Â Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed to have notice of and consented to this provision. TheÂ forum selectionÂ clause in our bylaws may have the effect of discouraging lawsuits against us or our directors and officers and may limit our stockholdersâ€™ ability to obtain a favorable judicial forum for disputes with us. These choice of forum provisions will not apply to suits brought to enforce a duty or liability created by the Securities Act, the ExchangeÂ Act, or any other claim for which federal courts have exclusive jurisdiction. Â These exclusive forum provisions may limit the ability of our stockholders to bring a claim in a judicial forum that such stockholders find favorable for disputes with us or our directors, officers, or employees, if any, which may discourage such lawsuits against us and our directors, officers, and employees, if any. Alternatively, if a court were to find the choice of forum provisions contained in our certificate of incorporation to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could materially adversely affect our business, financial condition, and operating results. For example, under the Securities Act, federal courts have concurrent jurisdiction over all suits brought to enforce any duty or liability created by the Securities Act, and investors cannot waive compliance with the federal securities laws and the rules and regulations thereunder. In addition, the exclusive forum provisions described above do not apply to any actions brought under the ExchangeÂ Act. Â Item 1B. Unresolved Staff Comments. Â Not applicable. Â Item 1C. Cybersecurity Â Risk Management and Strategy Â We have an information security program designed to identify, protect, detect and respond to, and manage reasonably foreseeable cybersecurity risks and threats. To protect our information systems from cybersecurity threats, we utilize various security tools that help prevent, identify, escalate, investigate, resolve, and recover from identified vulnerabilities and security incidents in a reasonably timely manner. These include, but are not limited to, internal reporting and tools for monitoring and detecting cybersecurity threats. Â We evaluate the risks associated with technology and cybersecurity threats and monitor our information systems for potential weaknesses. We review and test our information technology system on an as-needed basis and also utilize internal team personnel to evaluate and assess the efficacy of our information technology system and enhance our controls and procedures. The results of these assessments are reported to our Audit Committee and, from time to time, our Board of Directors. Â There can be no assurances that our cybersecurity risk management program and processes, including our policies, controls, or procedures, will be fully implemented, complied with or are effective in protecting our systems and information. Â As of the date of this report, we are not aware of any cybersecurity incidents, that have had a materially adverse effect on our operations, business,

results of operations, or financial condition. Â 40 Â Â Governance Â Our Board of Directors considers cybersecurity risk as part of its risk oversight function. It has delegated oversight of cybersecurity and other information technology risks to the Audit Committee of the Board of Directors. The Audit Committee oversees the implementation of the cybersecurity risk management program. Â The Audit Committee receives periodic reports from management on potential cybersecurity risks and threats. The Audit Committee reports to the full Board of Directors regarding its activities, including those related to cybersecurity. The full Board of Directors also receives briefings from management on the cybersecurity risk management program as needed. Â Management is responsible for assessing and managing our material risks from cybersecurity threats. Management has primary responsibility for our overall cybersecurity risk management program and supervises both the internal cybersecurity personnel and external cybersecurity consultants. Â The management team supervises efforts to prevent, detect, mitigate, and remediate cybersecurity risks and incidents through various means, which may include briefings from internal security personnel, threat intelligence and other information obtained from governmental, public or private sources, including external consultants; and alerts and reports produced by security tools deployed in the IT environment. Our cybersecurity incident response plan governs our assessment and response upon the occurrence of a material cybersecurity incident, including the process for informing senior management and our Board of Directors. Â Item 2. Properties. Â Our executive offices are located at 160, Yeouiseo-ro, Yeongdeungpo-gu, Seoul, Republic of Korea 07231, and out telephone number is +82-2-564-8588. We consider our current office space adequate for our current operations. Â Item 3. Legal Proceedings. Â The Company is subject to various legal proceedings and claims that arise in the ordinary course of business. In the opinion of management, the outcome of these matters will not have a material adverse effect on the consolidated financial position or results of operations of the Company. For the year ended December 31, 2023, the Company two suspended legal cases as follows, and as of July 15, 2024, the result of the two cases are not certain. Â You should read this discussion and analysis together with our audited financial statements, the notes to such statements and the other financial information included in this Form 10-K. This discussion contains forward-looking statements that involve risks and uncertainties. As a result of many factors, such as those set forth under the section entitled â€œRisk Factorsâ€ and elsewhere in this Form 10-K, our actual results may differ materially from those anticipated in these forward-looking statements. See â€œCAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING STATEMENTSâ€ for a discussion of the uncertainties, risks and assumptions associated with these statements. Â Overview Â Hanryu Holdings, Inc., a Delaware corporation (â€œHanryu Holdingsâ€), along with our wholly owned operating subsidiaries, Hanryu Bank Co., Ltd. (â€œHBCâ€), FNS Co., Ltd. (â€œFNSâ€), and Marine Island Co., Ltd. (â€œMarine Islandâ€),), all incorporated under the laws of the Republic of Korea (collectively, the â€œCompanyâ€, â€œweâ€, â€œusâ€, or â€œourâ€), is the creator of the engaging and innovative social media platform, â€œFANTOOâ€. FANTOO connects users around the world that share similar interests by providing distinctive service offerings, technologies, applications, and websites. Through FANTOO, we provide a global multi-media platform for our users to interact with other like-minded users, to share their appreciation of various types of entertainment and cultures, create their own content, enjoy other usersâ€™ content, engage in commerce, and experience a â€œfandomâ€ community unlike any other. Â Although we anticipate expanding into additional entertainment genres, currently, the majority of FANTOOâ€™s users are enthusiasts of Korean culture (â€œK-Cultureâ€), also known as the â€œKorean Wave.â€ The growing popularity of the Korean Wave has historically been driven by social networking services and online video sharing platforms. Through these channels, the dispersion and exportation of Korean arts, music and entertainment has grown rapidly from a regional influence into a global appreciation of South Korean culture. The expansion of the Korean Wave into a global phenomenon provides a significant opportunity to unite fans across the globe within the FANTOO platform. We aim to become a leading global platform for fans who are passionate about the Korean Wave, eventually expanding into other areas of fandom. Since the FANTOO platform launch in May, 2021, its user base has exceeded 26.6 million users as of December 31, 2023. Â We differentiate ourselves from potential competition through the power of a fully-integrated platform, and established partnerships with leaders in the K-Culture entertainment industry within South Korea. Our core strategy is to pursue initiatives that promote the viral growth of our user base, and in doing so, drive advertising revenue, user-generated revenue, and create other new revenue streams. Â FANTOO Business Model Â We focus on providing user-centric services to provide a single platform that can address and satisfy all the needs of fans within that platform. FANTOO will enrich usersâ€™ fandom experience by providing an all-in-one platform for fandom content, including news, popular culture, discussions, live shows, fan creativity. FANTOO is currently available in 17 languages, with real-time translation services. These real time translation services enable our users to communicate with each other across the globe without language barriers. For languages that are not available for real-time translation, the FANTOO platform provides a solution through the use of translation matching services among users. Through the translation matching services, the FANTOO platform ensures that content is accurately translated and available to a greater number of global fans in their own languages The FANTOO platform further allows users to freely create and monetize their own content, and enables fast and secure user-to-user sales on the FANTOO platform. Â We intend to create value for our shareholders through developing multiple revenue streams, including (1)Â direct sales revenue, driven by advertisement, content and commerce sales; and (2)Â revenue derived from collecting a percentage of user-to-user sales of emojis, online stickers, web novels, webtoons, translation matching, and other user-to-user transactions. Â In the long term, we expect the majority of our revenue will be generated from commissions from user-to-user transactions. Deriving revenue from user-to-user transactions gives our platform an advantage over other existing platforms that primarily rely on advertisement sales. We recognize both the creative power and purchasing power of our users and fans in general, and as such, we designed our platform to maximize the economic effects of FANTOO users. Since MayÂ 2021, we have experienced a significant growth in the number of FANTOO users, with our user base exceeding 26.6Â million users as of December 31, 2023. Â 43 Â Â Due to the surge in popularity of Korean culture (â€œK-Cultureâ€), we believe that we have great potential to continue growing our user base, while maintaining a high percentage ofÂ Monthly Active Users (â€œMAUsâ€). According to the Korea Foundation and Korean Ministry of Foreign Affairs, in 2021, Korean culture had 156.6Â million fans in 116 countries, and generated approximately $21.5Â billion in global revenue in 2019. Furthermore, K-Culture was ranked as the seventh most influential global culture in 2021, and contributed over $10Â billion in exports in 2020, as reported by the Korean Foundation for International Cultural Exchange. The global purchasing power of K-Culture was at $124.3Â billion in 2020, based on the 2021 report by the Organization for Economic Co-operation and Development. Â FANTOO Reward System Â Our user base is encouraged to interact with the FANTOO platform based on our user-reward system which rewards users with FP. FP is an in-platform reward-point styled system, only usable within the FANTOO platform, that can be utilized by users to purchase goods and services offered in the FANTOO platform, such as within the FANTOO shop or to purchase in-application content. Users earn FP based on: (i)Â the level of each userâ€™s activity within the FANTOO platform; and (ii)Â the revenue we derive from FANTOOâ€™s advertising sales. At midnight of eachÂ day, all advertising revenue for thatÂ day is accumulated, and 50% of thatÂ dayâ€™s total net advertising profits are distributed as FP to users, based upon their level of contribution within the FANTOO platform. From the 50% of profits that are distributed to users as FP, approximately 30% of the distribution of rewards will go to users who areÂ content creators, and the remaining 20% will be issued to general users who participate on the platform. By rewarding our users for interacting with the FANTOO platform, we believe we can promote a much more interactive user base, all while increasing our revenue by way of increased in-application purchasing power. For the purposes of calculating advertising profits allocated for user rewards, the amount of FP issued will be exchanged at a ratio of one FP for every 100 KRW. For the avoidance of doubt, the issuance of FP from advertising revenue is limited to advertising revenue generated within the FANTOO platform, and the Company may earn advertising revenue outside of the FANTOO platform that would not result in the issuance of FP. Although the Company has generated revenue from marketing services, product sales and content sales, because there has been no advertising revenue generated from the FANTOO platform, no FP has been issued as of the date of this Report. The Company does not intend to repurchase FP from users now or in the future. FP does not expire, and FP that is not redeemed by a user will accumulate in such userâ€™s account unless and until such user deactivates their account, at which time such FP will be forfeited and moved to the Companyâ€™s reserve account for redistribution. Â The Company initially created and mined Kingdom Coin (â€œKDCâ€), a public digital cryptocurrency separate and apart from the FANTOO platform, as a method of onboarding and offboarding FP to and from the FANTOO platform through the Kingdom Wallet. However, on JuneÂ 22, 2022, the Company entered into a Business Transfer Agreement (the â€œKDC Agreementâ€) with Kingdom Coin Holdings, a corporation incorporated in the Cayman Islands (the â€œKDC Foundationâ€), pursuant to which the Company transferred all of its KDC to the KDC Foundation, and no longer conducts or controls the operations, issuance, or sales of KDC in order to substantially reduce the Companyâ€™s involvement with blockchain technologies. This shift in our business plan was undertaken both to protect our users from potential risks associated with speculation in KDC, and because of the recent market and regulatory conditions surrounding cryptocurrency in general. As such, the Company no longer supports or operates Kingdom Wallet, and no longer allows, nor has the technology to allow, the conversion of FP into KDC, or KDC into FP. The KDC Foundation does not, has not, and will not coordinate any of its activities with the Company or the Companyâ€™s operation of FANTOO.Â Further, KDC will not be marketed to FANTOO users. Â Pursuant to the KDC Agreement, in exchange for the Company transferring (a)Â its then-existing outstanding KDC balance of 299,651,320,620, (b)Â blockchain mainnet known as the Fandomchain, and (c)Â the Kingdom Wallet to the KDC Foundation, the KDC Foundation will (y)Â assume all obligations and liabilities with respect to KDC and Kingdom Wallet, and (z)Â pay to the Company the following contingent amounts, if, at DecemberÂ 31, 2024: Â â—The KDC Foundation generates sales in excess of $74Â million from the assets transferred from the Company, the KDC Foundation shall pay 10% of such sales to the Company; Â â—The KDC Foundation generates sales in excess of $37Â million, but less than $74Â million, from the assets transferred from the Company, the KDC Foundation shall pay 15% of such sales to the Company; and Â â—The Company will receive no consideration from the KDC Foundation if the assets transferred from the Company generates sales under $37Â million. Â For the avoidance of doubt, sales generated from the transferred assets do not include any post-transfer newly created KDC. KDC Foundation planned to generate revenue by integrating KDC, FandomChain, and the Kingdom Wallet into Â mobile games, and monetizing such games. Due to current cryptocurrency-related market conditions, the Company does not expect to receive any payments from KDC Foundation through December 31, 2024 in accordance with the terms of the Business Transfer Agreement. Â 44 Â Â Key Performance Indicators (â€œKPIsâ€) Â In addition to the measures presented in our consolidated financial statements, our management regularly monitors certain KPIs for our business. The KPIs used by the Company are: (1)Â user base; (2)Â monthly active users; (3)Â average revenue per user; and (4)Â user acquisition cost (â€œUACâ€). Â User Base Â User base is defined by the Company as all registered users, regardless of the frequency they access the FANTOO platform. Â Monthly Active User AccountsÂ (â€œMAUsâ€) Â MAUs is defined by the Company as unique user accounts that access the FANTOO app during the prior 30Â days of the period. The number of MAUs does not correspond to the number of unique individuals who actively utilize the FANTOO platform or the number of devices associated with an account. For example, a single account may be used by more than one individual, such as a family, and one account may use multiple devices. We believe that the number of MAUs is a relevant measure to gauge the size of our user base and the opportunity to increase the FANTOO platformâ€™s revenue and gross profit. The table below sets forth the number of users compared to MAUs, and the respective percentage of MAUs to the entire FANTOO user base. The number of MAUs grew significantly in 2022, but the number of MAUs and the percentage of MAUs to user base havenâ€™t grown for the year ended December 31, 2023. This is because the Company focused on R&D and infrastructure investments to stabilize and monetize the FANTOO app. It is also due to a reduction in the Companyâ€™s marketing budget; however, the Company expects that the number of MAUs and the percentage of MAUs to user base will increase once the company has more capital and is able to increase marketing spend and invest in more technological developments. ARPU is defined as total revenue generated from the FANTOO platform during the period, divided by the average of the number of MAUs at the beginning and end. The average number of MAUs, for purposes of our calculation, is the sum of MAUs for the first month of a tyear and the MAUs for the last month of the same year divided by two. We measure progress in our platform using ARPU because it helps us understand the rate at which we are monetizing our user base. Â We believe ARPU is useful to investors in evaluating our operating performance and, more specifically, evaluating the monetization of the FANTOO platform. ARPU and similar measures with similar titles are common measures used by investors, analysts and peers to compare performance in our industry, although our measure of ARPU may not be directly comparable to similarly titled measures reported by other companies. Â ARPU was zero for the year ended DecemberÂ 31, 2022. For the year ended DecemberÂ 31, 2023, ARPU was zero. The Company intends to use ARPU as a key parameter to measure our FANTOO business performance in the future. The future growth will be attributable to the Companyâ€™s organic growth since the launch of the FANTOO platform in MayÂ 2021, as well as the results of the Companyâ€™s effective marketing and operations. Â User Acquisition Cost (â€œUACâ€) Â UAC is the total cost to acquire a new user, and is calculated by dividing sales and marketing expense by the number of new users. The Company believes UAC is important in understanding the Companyâ€™s effectiveness at acquiring each of its users. UAC was $0.17 for the year ended December 31, 2023. and, For the year ended December 31, 2022 was $0.02 respectively. This efficiencies are due to the Companyâ€™s organic growth since the launch of the FANTOO platform in May 2021, as well as the results of the Companyâ€™s marketing efforts. Â 45 Â Â Components of Results of Operations Â The Companyâ€™s functional currency for all operations is the KRW. The Companyâ€™s accounting records are maintained in KRW and translated into U.S. Dollars at year-end for the purposes of presentation. During 2023, there was in the exchange rates from KRW 1,291.95/USD $1 to KRW 1,305.41/USD $1. Â Revenue Â We anticipate that our primary source of revenue will be generated from FANTOO platform operations. Additionally, we have generated limited revenue from the Companyâ€™s other subsidiariesâ€™ operations, such as revenue from marketing services, retail sales, and content sales. We started generating revenue from FANTOO business, and we anticipate earning more steady revenue from the Companyâ€™s other businesses by 2024. Â Revenue from FANTOO business We expect that our primary sources of revenue on the FANTOO platform will be derived from (i) direct sales and (ii) commissions from user-to-user sales. We started generating revenue from FANTOO platform. Â (i) Direct Sales We started generating direct sales revenue through: (i)Â original content sales, such as FANTOO produced web series that can be purchased by users on our platform or licensed to distributors; (ii)Â e-commerce goods through FANTOOâ€™s Fanshop, which sells items such as the latest fandom goods and upcoming concert tickets; and (iii)Â advertising sales, including banner placements, splash advertising, pop-up advertisements within the platform, in-platform promotions, and branded content productions. For advertising sales, we act as an agent in arranging third-party promotions to our users. Our business model provides for the distribution of a percentage of our advertising revenue to FANTOO users in the form of FP as incentives for certain activities within the FANTOO platform. Users can then spend FP within the FANTOO platform to purchase goods and/or services, either directly from us or from other users. Â (ii) User-to-User Commissions We intend to generate commissions on user-to-user transactions when FANTOO users sell their own products, content, and services to other users. Users can sell: (i)Â items they have created or produced such as emojis, online stickers, web novels, and webtoons; and (ii)Â tangible goods or other non-FANTOO platform based fandom items, such as concert tickets. For each sale by a user of content and non-tangible goods, we intend to collect a percentage of the gross purchase price. For sales of tangible goods and non-FANTOO platform based fandom goods, transactions are processed through a secure escrow account, for which we will receive a commission based

upon the aggregate purchase price of the transaction. Â Revenue from Retail Sales Revenue from retail sales which offers a wide variety of products for purchase. Although we have generated limited revenue from such services in the past, we anticipate earning more steady revenue from this business model by 2024. Â Revenue from Marketing Services Revenue from marketing services provided by the Companyâ€™s other subsidiaries such as Hanryu Bank, which will include activities such as creating and distributing flyers, hosting events and giveaways, producing advertisement videos, and more. Although we have generated limited revenue from such services in the past, we anticipate earning more steady revenue from this business model by 2024. Â Revenue from News Agency Revenue from news agency content sales, which provides news articles and original content to other third-party media outlets. Although we have generated a de minimis amount of revenue from such services in the past, we anticipate earning more steady revenue from this business model by 2024. Â As we continue to diversify our product and service offerings, we anticipate additional revenue streams, including: Â 46 Â Â Revenue from Entertainment Agency Our entertainment agency business will assist influencers in growing their influence base both within and outside of the FANTOO platform. As each influencerâ€™s status grows, we expect to monetize their influencer status through entering into advertisement agreements or performance-based contracts. We anticipate earning revenue from this business model by 2024. Â While we anticipate generating revenue from sales of our entertainment agency business by the end of the year ended December 31, 2024, no assurances can be given that we will successfully launch such businesses, and if so, whether such businesses will be successful. Â Cost of Revenue Â Cost of revenue consists primarily of service costs, hosting costs, and production costs such as advertising costs, down payments, and royalty payments to artists under entertainment contracts for original FANTOO platform content, such as web series and concerts. We expect that cost of revenue will increase proportionately with the growth of the user base for the FANTOO platform. Â Sales, Marketing and Advertising Expense Â Sales and marketing expense consists of compensation and commission costs of the sales and related support teams, as well as travel, trade show, and other marketing related costs. Advertising costs are expensed to operations when incurred. Expense also includes the cost of creating and implementing marketing strategies, conducting market research, and producing advertisements. Those expenses are recognized as incurred based on the accrual basis of accounting. We expect that sales, advertising, and marketing expense will increase on a proportionate basis with user-growth, and will vary from period-to-period as a percentage of revenue for the foreseeable future. This variation is due to our plans to continue to invest in marketing in order to grow both sales and our user-base by way of increasing brand awareness. The trend and timing of our marketing costs will depend in part on the timing of marketing campaigns. Â Research and Development Expense Â Research and development expense includes costs to maintain and develop the FANTOO platform. Costs incurred for research and product development are expensed as incurred and include salaries, taxes and benefits, contracting, and travel expense related to research and development. Â General and Administrative Expense Â General and administrative expense consists primarily of personnel-related costs, including salaries and benefits, non-cash stock compensation expense, equipment expense, office and facilities costs, legal, accounting and other professional fees, public relations costs and other corporate and administrative costs. Â 47 Â Â Results of Operations Â Comparisons of the Fiscal Years Ended DecemberÂ 31, 2023 and 2022 Â The following table sets forth a summary of our statements of operations for the fiscal years ended DecemberÂ 31, 2023 and 2022: Â Â Â Fiscal Years Ended DecemberÂ 31,Â Â Â 2023Â Â 2022Â RevenueÂ $794,166Â Â $428,187Â Cost of RevenueÂ Â 68,592Â Â Â -Â Gross Profit (Loss)Â Â 725,574Â Â Â 428,187Â Â Â Â Â Â Â Â Â Â Operating ExpenseÂ Â Â Â Â Â Â Â Marketing and advertising expenseÂ Â 1,292,603Â Â Â 300,381Â Research and Development expenseÂ Â 309,941Â Â Â 114,476Â General and administrative expenseÂ Â 9,650,875Â Â Â 5,434,855Â Total operating expenseÂ Â 11,253,419Â Â Â 5,849,712Â Total Other IncomeÂ Â 2,335,862Â Â Â 217,434Â Net Loss from Continuing operationÂ Â (8,191,983)Â Â (5,204,091) Net Loss from discontinued operationsÂ Â (1,215,652)Â Â (1,182,412) Net LossÂ $(9,407,635)Â $(6,386,503) Â Revenue Â Â Â Fiscal Years Ended DecemberÂ 31,Â Â Â Â Â Â Â Â Â 2023Â Â 2022Â Â $ ChangeÂ Â % ChangeÂ Advertising salesÂ $702,547Â Â $-Â Â Â 702,547Â Â Â NAÂ Product salesÂ Â 71,242Â Â Â -Â Â $71,242Â Â Â NAÂ Content salesÂ Â 20,377Â Â Â 4,490Â Â Â 15,887Â Â Â 354% Service SalesÂ Â -Â Â Â 423,697Â Â Â (423,697)Â Â NAÂ Total RevenueÂ $794,166Â Â $428,187Â Â $365,979Â Â Â 86% Â Total revenue increased $0.4 million, or 86%, to $0.8 million, compared to $0.4 million in the comparable prior year period. The increase was primarily due to an increase in personal costs of $2,201,497, and depreciation and amortization expense of $213,068, and an increase in commissions and consulting costs of $1,609,042, and an increase in operating lease cost of $32,130, and an increase in other costs of $160,283. The increase in general and administrative expense is principally attributable to the increase in travel expenses required to support preparing IPO and spent as business trip to NewÂ York city, resulting in a substantial increase in other costs, and an increase in professional fees associated with this proposed offering. Â Other income Â Other income for the periods presented was comprised of the following: Â Â Â Fiscal Years Ended DecemberÂ 31,Â Â Â Â Â Â Â Â Â 2023Â Â 2022Â Â $ ChangeÂ Â % ChangeÂ Other incomeÂ $2,335,862Â Â $217,434Â Â $2,118,428Â Â Â 974% Â Other income for the fiscal year ended DecemberÂ 31, 2023 was $2,355,862, an increase of $2,118,428, or 974%, as compared to the fiscal year ended DecemberÂ 31, 2022, which was primarily driven by $3,390,323 in gain on disposal of subsidiaries recognized due to the selling of owned whole shares of Hanryu Times, Fantoo Entertainment, and K-Commerce. Â 49 Â Â Liquidity and Going Concern Â We have experienced recurring net losses and negative cash flows from operations since our inception. As of December 31, 2023, we had cash and cash equivalents of approximately $5,427,830, working capital of approximately $10,140,579, and sustained cumulative equity(deficit) to common stockholders of approximately $13,068,465, as compared to cash and cash equivalents of $118,262 as of DecemberÂ 31, 2022. Â As of DecemberÂ 31, 2022, we had cash and cash equivalents of approximately $118,262, working capital of approximately $(757,981), and sustained cumulative equity(deficit) to common stockholders of approximately $(1,340,515), as compared to cash and cash equivalents of $330,448 as of DecemberÂ 31, 2021. Â As of December 31, 2023, our principal sources of capital used to fund our operations were the net proceeds we received from the issuance of common stock by exercise of warrants, private placements and initial public offering. Since the fiscal year ended December 31, 2022, the Company has generated approximately $5.7 million from the exercise of warrants to purchase 5,514,319 shares of common stock of Hanryu Holdings by the HBC Warrantholders, $10 million from the private placement to purchase 1,000,000 shares of common stock of Hanryu Holdings, and $7.7 million from the initial public offering to purchase 877,328 shares of common stock of Hanryu Holdings. Â We expect to continue to incur substantial expenditures in the foreseeable future at rates consistent with expenditures incurred during fiscal 2024 for the development of our technologies and platform infrastructure. We will require additional financing to further develop and market our platform business, and otherwise execute our business plan. Our current financial condition raises substantial doubt about our ability to continue as a going concern. Our failure to raise capital as and when needed would have a material adverse impact on our financial condition, our ability to meet our obligations, and our ability to pursue our business strategies. We will seek funds through additional equity or debt financings, collaborative or other arrangements with corporate sources, or through other sources of financing. We believe that our cash on hand, along with current financing resources we have, and additional revenue we expect to receive through our business, will sustain our operations until at least December 31, 2024. Â We are focused on expanding our service offering through internal development, collaborations, and through strategic acquisitions. We are continually evaluating potential asset acquisitions and business combinations. To finance such acquisitions, we might raise additional equity capital, incur additional debt, or both. Â Cash Flows for the Fiscal Years Ended December 31, 2023 and 2022 Â The following table summarizes changes in cash for the fiscal years ended December 31, 2023 and 2022. Â Contractual Obligations Â We have no contractual obligations as of December 31, 2023. Â On SeptemberÂ 14, 2022, the Company entered into a one-year lease agreement which expired on SeptemberÂ 14, 2023. And the Company expand its lease term to September 14, 2024. Upon entering into the lease, the Company paid a deposit, which is recorded as Other Assets in the consolidated balance sheet in the amount of $116,333 as of DecemberÂ 31, 2023, and $118,362 as of DecemberÂ 31, 2022. Â

The Company has a lease agreement for a vehicle which was initially made on SeptemberÂ 16, 2021, and matures on SeptemberÂ 21, 2025. The deposit paid on the beginning date of the lease agreement is recorded as other asset in the consolidated balance sheet in the amount of $116,279 as of DecemberÂ 31, 2022. On December 28, 2023, the Company terminated the lease agreement earlier than the original contract, and the deposit amount of $64,725 was returned to the Company and the remaining of $51,554 was paid as the penalties. Â Expenses related to these leases totaled approximately $112,368 and $140,070 for the years ended December 31, 2023 and December 31, 2022. Â 52 Â Â Off-Balance Sheet Arrangements Â We have not entered into anyÂ off-balanceÂ sheet financial guarantees or otherÂ off-balanceÂ sheet commitments to guarantee the payment obligations of any third parties. We have not entered into any derivative contracts that are indexed to our shares and classified as stockholderâ€™s equity or that are not reflected in our financial statements included elsewhere in this Report. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or product development services with us. Â Quantitative and Qualitative Disclosures about Market Risk Â We are exposed to market risks in the ordinary course of our business. Market risk represents the risk of loss that may impact our financial position due to adverse changes in financial market prices and rates. Our market risk exposure is primarily the result of fluctuations in foreign currency and credit. Â Foreign Currency Risk Â We have accounts on our foreign subsidiariesâ€™ ledgers, which are maintained in the respective subsidiaryâ€™s local currency and translated into USD for reporting of our condensed consolidated financial statements. As a result, we are exposed to fluctuations in the exchange rates of various currencies against the USD and other currencies, including KRW. Â Transactional Â We generate the majority of our revenue from customers within Korea. Typically, we aim to align costs with revenue denominated in the same currency, but we are not always able to do so. As a result of the geographic spread of our operations and due to our reliance on certain products and services priced in currencies other than KRW, our business, results of operations, and financial condition have been and will continue to be impacted by the volatility of the KRW against foreign currencies. Â Translational Â Our functional currency and reporting currency is the USD.Â The local and functional currency for our Korean subsidiaries, Hanryu Bank, FNS, and Marine Island, which are our primary operating subsidiaries, is the KRW.Â Assets and liabilities of each subsidiary are translated into USD at the exchange rate in effect at the end of each period. Revenue and expenses for these subsidiaries are translated into USD using average rates that approximate those in effect during the period. Consequently, increases or decreases in the value of the USD affect the value of these items with respect to the non-USD-denominated businesses in the condensed consolidated financial statements, even if their value has not changed in their original currency. For example, a stronger USD will reduce the reported results of operations of non-USD-denominated businesses and conversely a weaker USD will increase the reported results of operations of non-USD-denominated businesses. At this time, we do not, but we may in the future, enter into derivatives or other financial instruments in an attempt to hedge our foreign currency risk. It is difficult to predict the impact hedging activities would have on our results of operations. Â Credit Risk Â Our cash and cash equivalents, deposits, and loans with banks and financial institutions are potentially subject to concentration of credit risk. We place cash and cash equivalents with financial institutions that management believes are of high credit quality. The degree of credit risk will vary based on many factors including the duration of the transaction and the contractual terms of the agreement. As appropriate, management evaluates and approves credit standards and oversees the credit risk management function related to investments. Â Critical Accounting Policies and Estimates Â The preparation of financial statements in conformity with GAAP requires our management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The Companyâ€™s significant estimates and assumptions include the fair value of the Companyâ€™s common stock, stock-based compensation, the recoverability and useful lives of long-lived assets, and the valuation allowance relating to the Companyâ€™s deferred tax assets. Â 53 Â Â Recent Accounting Pronouncements Â We have determined that all other issued, but not yet effective accounting pronouncements are inapplicable or insignificant to us and once adopted are not expected to have a material impact on our financial position. Â Item 7A. Quantitative and Qualitative Disclosures about Market Risk. Â We are a smaller reporting company as defined in Item 10(f)(1) of Regulation S-K and are not required to provide the information otherwise required under this item. Â Item 8. Financial Statements and Supplementary Data. Â The Financial Statements and Supplementary Data required by this Item 8 are incorporated by reference to information beginning on Page F-1 of this Form 10-K. Â Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure. Â None. Â Item 9A. Controls and Procedures. Â Evaluation of Disclosure Controls and Procedures Â Our management has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the â€œExchange Actâ€), as of December 31, 2023. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that as of December 31, 2023, our disclosure controls and procedures were ineffective to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act (a) is recorded, processed, summarized and reported within the time periods specified by Securities and Exchange Commission (â€œSECâ€) rules and forms and (b) is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding any required disclosure. Â Management has identified control deficiencies regarding inadequate accounting resources, the lack of segregation of duties and the need for a stronger internal control environment. Management of the Company believes that these material weaknesses are due to the small size of the Companyâ€™s accounting staff. The small size of the Companyâ€™s accounting outsourced staff may prevent adequate controls in the future due to the cost/benefit of such remediation. Â To mitigate the current limited resources and limited employees, we rely heavily on direct management oversight of transactions, along with the use of external legal and accounting professionals. As we grow, we expect to increase our number of employees, which will enable us to implement adequate segregation of duties within the internal control framework. Â These control deficiencies could result in a misstatement of account balances that would result in a reasonable possibility that a material misstatement to our financial statements may not be prevented or detected on a timely basis. In light of this material weakness, we performed additional analyses and procedures in order to conclude that our financial statements for the years Â Â ended December 31, 2023 and December 31, 2022 included in this Annual Report on Form 10-K were fairly stated in accordance with GAAP. Accordingly, management believes that despite our material weaknesses, our financial statements for the years ended December 31, 2023 and December 31, 2022 Â Â are fairly stated, in all material respects, in accordance with GAAP. Â Changes in Internal Control Over Financial Reporting Â Due to a transition period established by SEC rules applicable to newly public companies, our management is not required to evaluate the effectiveness of our internal control over financial reporting until after the filing of our Annual Report on Form 10-K for the years ending December 31, 2023 and December 31, 2022. As a result, this Annual Report does not address whether there have been any changes in our internal control over financial reporting. Â Limitations on Effectiveness of Controls and Procedures Â In designing and evaluating the disclosure controls and procedures and internal control over financial reporting, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures and internal control over financial reporting must reflect the fact that there are resource constraints and that management is required to apply judgment in evaluating the benefits of possible controls and procedures relative to their costs. Â Item 9B. Other Information. Â Not Applicable. Â Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections.Â Â 54 Â Â PART III Â Item 10. Â Mr.Â Morris was selected to be a director based on his background as a financial analysis executive with over 20Â years of experience in the financial services industry. Â Board Composition Â Our Board currently consists of four members. Each of our directors will serve until our next annual meeting of stockholders or until his or her successor is elected and duly qualified. Our Board is authorized to appoint persons to the offices of Chair of the Board of Directors, Vice Chair of the Board of Directors, Chief Executive Officer, President, one or more Vice Presidents, Chief Financial Officer, Treasurer, one or more Assistant Treasurers, Secretary, one or more Assistant Secretaries, and such other officers as may be determined by the Board. The Board may also empower the Chief Executive Officer, or in absence of a Chief Executive Officer, the President, to appoint such other officers and agents as our business may require. Any number of offices can be held by the same person. Â Director Independence Â Our Board has determined that three members of its directors qualify as independent directors, as determined in accordance with the rules of the Nasdaq Stock Market (â€œNasdaqâ€). Under the applicable Nasdaq listing requirements for the Nasdaq Capital Market, we are permitted to phase in our compliance with the majority independent board requirement of the Nasdaq rules within one year of our listing on the Nasdaq Capital Market. The director independence definition under the Nasdaq rule includes a series of objective tests, including that the director is not, and has not been for at least threeÂ years, one of our employees and that neither the director nor any of his family members has engaged in various types of business dealings with us. In addition, as required by Nasdaq rules, our Board has made a subjective determination as to each independent director that no relationships exist, which, in the opinion of our Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making these determinations, our Board reviewed and discussed information provided by the directors and us with regard to each directorâ€™s business and personal activities and relationships as they may relate to us and our management. Â There are no other family relationships among any of our directors or executive officers. Â Role of Board in Risk Oversight Process Â Our Board has responsibility for the oversight of the Companyâ€™s risk management processes and, either as a whole or through its committees, regularly discusses with management our major risk exposures, their potential impact on our business, and the steps we take to manage them. The risk oversight process includes receiving regular reports from Board committees and members of senior management to enable our Board to understand our risk identification, risk management and risk mitigation strategies with respect to areas of potential material risk, including operations, finance, legal, regulatory, strategic and reputational risk. Cybersecurity risk is a key consideration in our operational risk management capabilities. We are in the process of instituting a formal information security management program, which will be subject to oversight by, and reporting to, our Board. Given the nature of our operations and business, cybersecurity risk may manifest itself through various business activities and channels and is thus considered an enterprise-wide risk which is subject to control and monitoring at various levels of management throughout the business. Our Board will oversee and review reports on significant matters of corporate security, including cybersecurity. In addition, we maintain specific cyber insurance through our corporate insurance program, the adequacy of which is subject to review and oversight by our Board. Â Our audit committee reviews information regarding liquidity and operations and oversees our management of financial risks. Periodically, our audit committee reviews our policies with respect to risk assessment, risk management, loss prevention and regulatory compliance. Oversight by the audit committee includes direct communication with our external auditors, and discussions with management regarding significant risk exposures and the actions management has taken to limit, monitor or control such exposures. Our compensation committee is responsible for assessing whether any of our compensation policies or programs has the potential to encourage excessive risk-taking. Matters of significant strategic risk are considered by our Board as a whole. Â Board Committees and Independence Â Our Board has established the following three standing committees: audit committee, compensation committee, and nominating and governance committee. Our Board has adopted written charters for each of these committees. We made each committeeâ€™s charter available under the Corporate Governance section of our website at www.hanryuholdings.com/en. The reference to our website address does not constitute incorporation by reference of the information contained at or available through our website, and you should not consider it to be a part

of this Report. All members of the Audit and Compensation Committees will meet the criteria for independence. Â 57 Â Â Board Diversity Â Our nominating and governance committee will be responsible for reviewing with the Board, on an annual basis, the appropriate characteristics, skills and experience required for the Board as a whole and its individual members. In evaluating the suitability of individual candidates (both new candidates and current members), the nominating and governance committee, in recommending candidates for election, and the Board, in approving (and, in the case of vacancies, appointing) such candidates, will take into account many factors, including the following: Â â—personal and professional integrity, ethics and values; Â â—experience in corporate management, such as serving as an officer or former officer of a publicly-held company; Â â—experience as a board member or executive officer of another publicly-held company; Â â—strong finance experience; Â â—diversity of expertise and experience in substantive matters pertaining to our business relative to other board members; Â â—diversity of background and perspective, including, but not limited to, with respect to age, gender, race, place of residence and specialized experience; Â â—experience relevant to our business industry and with relevant social policy concerns; and Â â—relevant academic expertise or other proficiency in an area of our business operations. Â Our Board evaluates each individual in the context of the Board as a whole, with the objective of assembling a group that can best maximize the success of the business and represent stockholder interests through the exercise of sound judgment using its diversity of experience in these various areas. Â Compensation Committee Interlocks and Insider Participation Â None of the members of our compensation committee, at any time, have been one of our officers or employees. None of our executive officers currently serves, or in the past year has served, as a member of the board of directors or compensation committee of any other entity that has one or more executive officers on our Board of Directors or compensation committee. Â Code of Business Conduct and Ethics Â We have adopted a Code of Business Conduct and Ethics applicable to our employees, officers and directors. We made our Code of Business Conduct and Ethics available under the Corporate Governance section of our website at www.hanryuholdings.com/en. The reference to our website address does not constitute incorporation by reference of the information contained at or available through our website, and you should not consider it to be a part of this Report. We intend to disclose any future amendments to certain provisions of our Code of Business Conduct and Ethics, or waivers of these provisions, on our website or in our filings with the SEC under the ExchangeÂ Act. Â Limitation of Liability and Indemnification Â Our Certificate of Incorporation (â€œCharterâ€), and our bylaws (â€œBylawsâ€) provide the indemnification of our directors and officers to the fullest extent permitted under the Delaware General Corporation Law (â€œDGCLâ€). In addition, the Charter provides that our directors shall not be personally liable to us or our shareholders for monetary damages for breach of fiduciary duty as a director and that if the DGCL is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of our directors shall be eliminated or limited to the fullest extent permitted by the DGCL, as so amended. Â As permitted by the DGCL, we have entered into or plan to enter into separate indemnification agreements with each of our directors and certain of our officers that require us, among other things, to indemnify them against certain liabilities which may arise by reason of their status as directors, officers or certain other employees. We expect to obtain and maintain insurance policies under which our directors and officers are insured, within the limits and subject to the limitations of those policies, against certain expenses in connection with the defense of, and certain liabilities that might be imposed as a result of, actions, suits or proceedings to which they are parties by reason of being or having been directors or officers. The coverage provided by these policies may apply whether or not we would have the power to indemnify such person against such liability under the provisions of the DGCL. Â We believe that these provisions and agreements are necessary to attract and retain qualified persons as our officers and directors. At present, there is no pending litigation or proceeding involving our directors or officers for whom indemnification is required or permitted, and we are not aware of any threatened litigation or proceeding that may result in a claim for indemnification. Â 58 Â Â Item 11. Executive Compensation Â We are an emerging growth company for purposes of the SECâ€™s executive compensation disclosure rules. In accordance with such rules, we are required to provide a Summary Compensation table and an Outstanding Equity Awards at Fiscal Year End table, as well as limited narrative disclosures regarding executive compensation for our last two completed fiscalÂ years. Further, our reporting obligations extend only to our â€œnamed executive officers,â€ who are those individuals serving as our principal executive officer and our two other most highly compensated executive officers who were serving as executive officers at the end of the last completed fiscal year (the â€œNamed Executive Officersâ€). Â We have identified Chang-Hyuk Kang and Ju-Hyon Shin as our Named Executive Officers. Our Named Executive Officers for the fiscal year ending DecemberÂ 31, 2024 may change, as we may hire or appoint new executive officers. Â For the fiscalÂ years ended DecemberÂ 31, 2023 and December 31, 2022, compensation for NEO was as follows: Â NameÂ andÂ principalÂ positionÂ YearÂ CompensationÂ Salary ($)Â Â Bonus ($)Â Â Stock Awards ($)Â Â Option Awards ($)(1)Â Â All Other Compensation ($)Â Â Total ($)Â Chang-Hyuk KangÂ Â Â ReceivedÂ $â€”Â Â $Â Â â€”Â Â $Â Â â€”Â Â $Â Â â€”Â Â $Â Â Â Â Â Â â€”Â Â $â€”Â Chief Executive OfficerÂ 2023Â AccruedÂ $91,925Â Â $â€”Â Â $â€”Â Â $â€”Â Â $â€”Â Â $91,925Â Ju-Hyon ShinÂ Â Â ReceivedÂ $58,736Â Â $â€”Â Â $â€”Â Â $â€”Â Â $â€”Â Â $58.736Â Chief Financial OfficerÂ 2023Â AccruedÂ $75,213Â Â $â€”Â Â $â€”Â Â $â€”Â Â $â€”Â Â $75,213Â Chang-Hyuk KangÂ Â Â ReceivedÂ $31,563Â Â $â€”Â Â $â€”Â Â $â€”Â Â $â€”Â Â $31,563Â Chief Executive OfficerÂ 2022Â AccruedÂ $96,268Â Â $â€”Â Â $â€”Â Â $â€”Â Â $â€”Â Â $96,268Â Ju-Hyon ShinÂ Â Â ReceivedÂ $64,399Â Â $â€”Â Â $â€”Â Â $â€”Â Â $â€”Â Â $64,399Â Chief Financial OfficerÂ 2022Â AccruedÂ $66,832Â Â $â€”Â Â $â€”Â Â $â€”Â Â $66,832Â Â Â Â (1)This column represents the grant date fair value calculated in accordance with the Financial Accounting Standards Boardâ€™s Accounting Standards Codification TopicÂ 718, CompensationÂ â€”Â Stock Compensation (â€œASCÂ 718â€). These amounts do not represent the actual value, if any, that may be realized by the Named Executive Officers. (2)Accrued and unpaid salary expenses which were recorded for the years ended DecemberÂ 31, 2023 and December 31, 2022 will be paid and was paid during the year of 2024 and 2023. Â Elements of Compensation Â Our executive compensation program consisted of the following components of compensation in 2023 and 2022: Â Base Salary Â Each of our executive officers receives a base salary for the expertise, skills, knowledge and experience he or she offers to our management team. The base salary of each of our executive officers is re-evaluated annually, and may be adjusted to reflect: Â â—the nature, responsibilities, and duties of the officerâ€™s position; Â â—the officerâ€™s expertise, demonstrated leadership ability, and prior performance; Â â—the officerâ€™s salary history and total compensation, including annual equity incentive awards; and Â â—the competitiveness of the officerâ€™s base salary. Â Equity Incentive Awards Â Moving forward, we believe that to attract and retain management, key employees and non-management directors, the compensation paid to these persons should include, in addition to base salary, annual equity incentives. Our Compensation committee will determine the amount and terms of equity-based compensation granted to each individual. In determining whether to grant certain equity awards to our executive officers, the Compensation Committee will assess the level of the executive officerâ€™s achievement of meeting individual goals, as well as the executive officerâ€™s contribution towards goals of the Company. Whenever possible, equity incentive awards will be granted under our equity incentive plan, described below. Â 59 Â Â Employment Agreements and Potential Payments upon Termination or Change of Control Â On MayÂ 2, 2021, HBC entered into an employment agreement with Chang Hyuk Kang, HBCâ€™s Chief Executive Officer. The maximum number of shares of common stock issuable under the Plan is currently 1.5Â million shares, subject to adjustments for stock, stock dividends or other similar changes in our common stock or our capital structure. Â Our Plan provides for the grant of (a)Â Incentive Stock Options (within the meaning of SectionÂ 422 of the Code) to our full-time employees (â€œEmployeesâ€), subject to the requirements of SectionÂ 422(c)(6)Â where an Employee owns 10% or more of our voting stock outstanding; (b)Â Non-Qualified Options (together with Incentive Stock Options, â€œOptionsâ€); (c)Â stock awards; and (d)Â performance shares to any individual who is (i)Â an Employee, (ii)Â a member of our Board, or (iii)Â an independent contractor who provides services for the Company. Â Plan Administration Â Pursuant to the Plan, our Board has delegated the authority to administer the Plan to the Boardâ€™s Compensation Committee (the â€œCommitteeâ€). Subject to the provisions of our Plan, the Committee has the power to determine the terms of the awards, including the exercise price, the number of shares subject to each award, the exercisability of the awards, and the form of consideration, if any, payable upon exercise. The Committee also has the authority to amend, modify, extend renew or terminate outstanding Options, or may accept the cancellation of outstanding Options, whether or not granted under the Plan, in return for the grant of new Options at the same or a different price. Additionally, the Committee may shorten the vesting period, extend the exercise period, remove any or all restrictions or convert an Incentive Option to a Non-Qualified Option, if, at its sole discretion, it determines that such action is in the best interest of the Company; provided, however, that any modification made to outstanding Options requires the prior consent of the holder(s)Â of such Options, unless the Committee determines that the action would not materially and adversely affect such holder(s). Â Incentive Stock Options Â The exercise price of Incentive Stock Options granted under our Plan must at least be equal to 100% of the fair market value of our common stock on the date of grant. The term of an Incentive Stock Option may not exceed tenÂ years, except that with respect to any participant who owns more than 10% of the voting power of all classes of our outstanding stock, the term must not exceed fiveÂ years and the exercise price must equal at least 110% of the fair market value on the grant date. Â Non-Qualified Stock Options Â The exercise price of Non-Qualified Options granted under our Plan must at least be equal to 85% of the fair market value of our common stock on the date of grant. The term of a Non-Qualified Stock Option may not exceed tenÂ years. Â 61 Â Â Stock Awards or Sales Â Eligible individuals may be issued shares of common stock directly, upon the attainment of performance milestones or the completion of a specified period of service or as a bonus for past services. The purchase price for the shares shall not be less than 100% of the fair market value of the shares on the date of issuance, and payment may be in the form of cash or past services rendered. Eligible individuals shall have no stockholder rights with respect to any unvested restricted shares or restricted share units issued to them under the stock award or sales program, however, eligible individuals shall have the right to receive any regular cash dividends paid on such shares. Â Termination of Relationship Â Except as the Committee may otherwise determine with respect to a Non-Qualified Stock Option, if the holder of an Option ceases to have a Relationship (as defined in the Plan) with the Company for any reason other than death or permanent disability, any Options granted to him shall terminate 90Â days from the date on which such Relationship terminates; provided, however, that no Option may be exercised or claimed by the holder of an Option following the termination of his Relationship for Cause (as defined in the Plan). In the event that the Relationship terminates as a result of the death or permanent disability of the Option holder, any Options granted to him shall terminate one year from the date of his death or termination due to permanent disability. In no event may an option be exercised later than the expiration of its term. Â Certain Adjustments Â In the event of certain changes in our capitalization, to prevent diminution or enlargement of the benefits or potential benefits available under the Plan, the administrator will adjust the number and class of shares available for future grants under the Plan, the exercise price of outstanding Options, the number of shares covered by each outstanding award, or the purchase price of each outstanding award. Â Reorganization Â In the event we are a party to a merger or other corporate reorganization, all outstanding Options shall be subject to the agreement of merger or reorganization. Such agreement may provide for the assumption of the outstanding Options by the surviving corporation or its parent or for their continuation by the Company (if the Company is a surviving corporation); provided, however, that if the assumption or continuation is not [provided by/used in] such agreement, then the Committee, in its sole discretion, shall have the option of offering the payment of a cash settlement equal to the difference between the amount to be paid for one share under the agreement and the exercise price. Â Change of Control Â Under the Plan, a Change of Control is generally defined as: (i)Â the sale of all or substantially all of the assets of the Company, or (ii)Â any merger, consolidation or acquisition of the Company with, by or into another corporation, entity or third party, the result of which is a change in the ownership of more than 50% of the voting capital stock of the Company. Â In the event of a Change of Control, all restrictions on all awards or sales of shares will accelerate and vesting on all unexercised and unvested Options will occur on the Change of Control date. Â Director Compensation Â Each of our non-employee directors are entitled to receive a monthly retainer of $3,000 for serving on the Board, which fee may be paid either in cash, options or shares of common stock. As of July 15, 2024,, we have paid no compensation to non-employee directors. Â 62 Â Â Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Shareholder Matters Â The following table sets forth certain information known to us regarding beneficial ownership of our common stock as of December 31, 2023 for (i)Â each of our executive officers and directors individually, (ii)Â all of our executive officers and directors as a group, and (iii)Â each person, or group of affiliated persons, known by us to be the beneficial owner of more than 5% of our capital stock. Â Procedures for Approval of Related Party Transactions Â We do not currently have a formal, written policy or procedure for the review and approval of related party transactions. However, all related party transactions are currently reviewed and approved by our NEOs. Â Our board of directors has adopted a written related person transaction policy, effective upon the closing of the IPO, which sets forth the policies and procedures for the review and approval or ratification of related party transactions. This policy will be administrated by our Audit Committee. These policies will provide that, in determining whether or not to recommend the initial approval or ratification of a related party transaction, the relevant facts and circumstances available shall be considered, including, among other factors it deems appropriate, whether the interested transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances and the extent of the related partyâ€™s interest in the transaction. Â Changes in and Disagreements with Accountants on Accounting and Financial Disclosure Â Except as described below, there have been no changes in or disagreements with accountants on accounting and financial disclosure. Â On January 4, 2024, Hanryu Holdings, Inc (the â€œCompanyâ€) retained ONESTOP as its independent registered public accounting firm for the fiscal year ending December 31, 2023. Â On May 11, 2024, the Company retained ONESTOP as its independent registered public accounting firm for the fiscal year ending December 31, 2022 since the previous independent public accounting firm for the fiscal year ending December 31, 2022, BFB, is not currently permitted to appear or practice before the SEC for reasons described in the SECâ€™s Order Instituting Public Administrative and Cease-and-Desist Proceedings Pursuant to Section 8A of the Securities Act of 1933, Sections 4C and 21C of the Securities Exchange Act of 1934 and Rule 102(e) of the SECâ€™s Rules of Practice, Making Findings, and Imposing Remedial Sanctions and a Cease-and-Desist Order, dated May 3, 2024. BFBâ€™s audit reports on the Companyâ€™s consolidated financial statements as of and for the fiscal years ended December 31, 2022 did not contain an adverse opinion or a disclaimer of opinion and were not qualified or modified as to audit scope or accounting principles. There have been no â€œdisagreementsâ€ (as that term is defined in Item 304(a)(1)(iv) of Regulation S-K) and no â€œreportable eventâ€ occurred (as that term is defined in Item 304(a)(1)(v) of Regulation S-K during the fiscal years ended December 31, 2022 and the subsequent interim periods up to the date between the Company and BFB on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which, if not resolved to the satisfaction of BFB, would have caused them to make reference to the subject matter of the disagreement in connection with their report on the Companyâ€™s financial statements for those periods. Â Pre-Approval Policy Â Our Audit Committee has the authority to appoint or replace our independent registered public accounting firm (subject, if applicable, to stockholder ratification). Our Audit Committee is also responsible for the compensation and oversight of the work of the independent registered public accounting firm (including resolution of disagreements between management and the independent registered public accounting firm regarding financial reporting) for the purpose of preparing or issuing an audit report or related work. The independent registered public accounting firm was engaged by, and reports directly to, our Audit Committee. Â Our Audit Committee pre-approves all audit services and permitted non-audit services (including the fees and terms thereof) to be performed for us by our independent registered public accounting firm, subject to the de minimis exceptions for non-audit services described in SectionÂ 10A(i)(1)(B)Â of the ExchangeÂ Act and RuleÂ 2-01(c)(7)(i)(C)Â of RegulationÂ S-X, provided that all such excepted services are subsequently approved prior to the completion of the audit. We have complied with the procedures set forth above, and our Audit Committee has otherwise complied with the provisions of its charter. Â 67 Â Â PART IV Â Item 15. Exhibits which are incorporated herein by reference are available on the SEC website at www.sec.gov. Â Item 16. Form 10-K Summary. Â Not applicable. Â 68 Â Â Report of Independent Registered Public Accounting Firm Â To the Board of Directors and Stockholders of Hanryu Holdings, Inc.: Â Opinion on the Financial Statements Â We have audited the accompanying consolidated balance sheets of Hanryu Holdings, Inc. and its subsidiaries (â€œthe Companyâ€) as of December 31, 2023, and 2022, and the related consolidated statements of operations and comprehensive loss, stockholdersâ€™ equity, and cash flows forÂ each of the years in the two-year periodÂ ended December 31, 2023, and 2022, and the related notes (collectively referred to as the â€œfinancial statementsâ€). In our opinion, the financial statements present fairly, in all material respects, the financial positions of the Company as of December 31, 2023, and 2022, and the results of its operations and its cash flows forÂ each of the years in the two-year period ended December 31, 2023, and 2022, in conformity with accounting principles generally accepted in the United States of America. Â The Companyâ€™s Ability to Continue as a Going Concern Â The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has incurred recurring losses from operations, has a working capital deficiency, and has stated that substantial doubt exists about the Companyâ€™s ability to continue as a going concern. Managementâ€™s evaluation of the events and conditions and managementâ€™s plans regarding these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. Â Basis for Opinion Â These financial statements are the responsibility of the Companyâ€™s management. Our responsibility is to express an opinion on the Companyâ€™s financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (â€œPCAOBâ€) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. Â We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable

assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Companyâ€™s internal control over financial reporting. Accordingly, we express no such opinion. Â Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion. Â /s/Â Onestop Assurance PAC Â We have served as the Companyâ€™s auditor since 2023. wholly owned subsidiaries Hanryu Bank Co., Ltd (â€œHBCâ€), FNS Co., Ltd. (â€œFNSâ€), , and Marine Island Co., Ltd (â€œMarine Islandâ€), all incorporated under the laws of the Republic of Korea (â€œKoreaâ€ or â€œROKâ€) (collectively, the â€œCompanyâ€, â€œweâ€, or â€œusâ€), aims to be the leader in the global Korean entertainment market, also known as â€œHanryuâ€ or â€œK-Cultureâ€, through its engaging social-media platform, FANTOO.Â The FANTOO platform is an all-inclusive global playground for fans, where they can consume, create, and get rewarded for all things related to their interests, and interact with other like-minded fans. Â Corporate History Â Since the inception of HBC in 2018, we have accomplished a number of key objectives, as follows: Â Date Â Event/Milestone OctoberÂ 18, 2018 Â HBC is incorporated under the laws of the ROK with the idea of creating an all-in-one product to capture the growing global momentum and popularity of K-Culture. Â Â Â OctoberÂ 29, 2020 Â HBC establishes FNS,and begins the initial stages of designing and implementing a platform that can create a fandom networking system. Â Â Â MarchÂ 11, 2021 Â HBC establishes Hanryu Times. Hanryu Times begins operations as HBCâ€™s media outlet, reporting on and providing up-to-date K-Culture news within the FANTOO platform, across a number of languages, including English, Japanese, Chinese (simplified/traditional), Indonesian, Spanish, Russian, and Portuguese. Â Â Â MarchÂ 31, 2021 Â HBC consummates an agreement and plan of merger (the â€œMerger Agreementâ€) with RnDeep, Co. Ltd, a Korean corporation (â€œRnDeepâ€), pursuant to which RnDeep merged with and into HBC, with HBC continuing as the surviving corporation (the â€œRnDeep Acquisitionâ€). As consideration for the RnDeep Acquisition, HBC ratably issued a total 4,150,000 HBC common shares, par value $0.45 per share (â€œCommon Sharesâ€), to the former shareholders of RnDeep. Â As a result of the RnDeep Acquisition, HBC acquired the underlying technologies that the Company plans on utilizing in the future development of new functions and integrations within the FANTOO platform. Once the FANTOO platform is ready to integrate the technology acquired, this technology will support new functions and integrations including, without limitation, the Companyâ€™s enterprise resource planning solution, and its artificial intelligence (â€œAIâ€), which the Company plans on using to power many of FANTOOâ€™s upcoming features such as speech synthesis, curated content delivery, deepfake detection and blocking, and nudity detection and blocking. Â Â Â MayÂ 17, 2021 Â The FANTOO platform is launched and made available to the public. Â Â Â JuneÂ 30, 2021 Â HBC enters into an agreement to acquire all the issued and outstanding common shares of Marine Island (the â€œMarine Island Acquisitionâ€), which owns the right to use and occupy 19,200 square-feet of office space within the iconic Seoul Marina, located at 160 Yeouiseo-ro, Yeungdeungpo-gu, Seoul, Korea (the â€œSeoul Marinaâ€) from Sewang Co., Ltd. (â€œSewangâ€), for the purchase price of 3,500,000,000 Korean Won (â€œKRWâ€), along with the assumption of all Marine Islandâ€™s liabilities. Â F-7 Â Â HANRYU HOLDINGS, INC.Â AND SUBSIDIARIES Notes to Consolidated Financial Statements Â NOTE 1Â â€”Â NATURE OF OPERATIONS AND BASIS OF PRESENTATION (cont.) Â Date Â Event/Milestone AugustÂ 30, 2021 Â HBC establishes FANTOO Entertainment. FANTOO Entertainment provides a variety of content to the Companyâ€™s FANTOO platform, which contributes to the spread of the Korean Wave by promoting new entertainers and artists. Â Â Â OctoberÂ 3, 2021 Â HBC consummates the Marine Island Acquisition, making it the owner of 100% of the issued and outstanding common shares of Marine Island. Â Â Â OctoberÂ 3, 2021 Â HBC consummates a strategic acquisition of 50.8% of the outstanding commonÂ shares of K-Commerce. In consideration for the shares of K-Commerce, HBC forgave a short-term loan of $270,530 (KRWÂ 309,600,000) owed to HBC by K-Commerce. Â HBCâ€™s investment into K-Commerce was a strategic acquisition in order to integrate K-Commerceâ€™s retail platform, â€œSelloveLiveâ€Â into the FANTOO ecosystem as the FANTOO Fanshop. When launched as the FANTOO Fanshop, K-Commerceâ€™s platform will offer combined services of shopping and live broadcasting, allowing users to easily live-stream travel and share local attractions, local festivals, cultures, and news from around the world. Â Prior to HBCâ€™s acquisition of its shares in K-Commerce, K-Commerce was 100% owned by Changhyuk Kang, the Companyâ€™s Chief Executive Officer and Donghoon Park, the Companyâ€™s Chief Marketing Officer. Â Â Â OctoberÂ 20, 2021 Â Hanryu Holdings is incorporated in the State of Delaware. Â Â Â FebruaryÂ 25, 2022 through MayÂ 10,Â 2022 Â Hanryu Holdings, HBC, and the shareholders of HBC (the â€œHBC Shareholdersâ€) enter into a share exchange agreement (the â€œShare Exchange Agreementâ€), pursuant to which the HBC Shareholders agreed to assign, transfer, and deliver, free and clear of all liens, 100% of the issued and outstanding Common Shares, representing 100% of the voting securities in HBC, to the Company in exchange for the Company issuing 42,565,786 restricted shares of the Companyâ€™s common stock, par value $0.001 per share (â€œCommon Stockâ€) to the HBC Shareholders (the â€œShare Exchangeâ€). Â Concurrently with entering into the Share Exchange Agreement, the Company, HBC, and the holders (the â€œHBC Warrantholdersâ€) of all outstanding warrants to purchase Common Shares (â€œHBC Warrantsâ€) enter into a warrant exchange agreement, pursuant to which the HBC Warrantholders agreed to assign, transfer, and delivery, free and clear of any liens, 100% of the outstanding HBC Warrants to the Company in exchange for the Company issuing to the HBC Warrantholders 10,046,666Â warrants to purchase restricted shares of Common Stock (the â€œWarrant Exchangeâ€). Â The Warrants and Common Shares of HBC transferred to the Company in the Share Exchange and the Warrant Exchange constituted 100% of the outstanding equity securities of HBC. Â Â Â JuneÂ 16, 2022 Â Â JuneÂ 22, 2022 Â Â Â Â Â Â Â Â Â Â Â Â Â August 1, 2023 Â December 28, 2023 Â Hanryu Holdings, HBC, the HBC Shareholders, and the HBC Warrantholders consummate the Share Exchange and Warrant Exchange concurrently, pursuant to which HBC became a wholly owned subsidiary of the Company, and the HBC Stockholders and HBC Warrantholders, collectively, acquired a controlling interest in the Company. Â The Company divests itself of all Kingdom Coin (â€œKDCâ€) holdings and terminates all crypto-currency-related activity, including, without limitation, the operation of the MainNet (FandomChain) and the Kingdom Wallet, pursuant to a Business Transfer Agreement (the â€œDivestiture Agreementâ€) between HBC and an unaffiliated and unrelated third party, Kingdom Coin Holdings, a Cayman Islands Foundation Company (the â€œKDC Foundationâ€) (the â€œKDC Divestitureâ€), to substantially reduce its involvement with

blockchain technologies. Pursuant to the Divestiture Agreement, as of JuneÂ 22, 2022, the Company no longer owns any KDC, and no longer conducts or controls the operations, issuances, or sales of KDC.Â In connection with the KDC Divestiture, the Company revised its procedures regarding FP and no longer allows, nor has the technology to allow, for the transfer of FP outside of the FANTOO platform or the exchange of FP and KDC Â The shares of the Company are listed at NASDAQ exchange market. Â HBC sold owned whole shares of Hanryu Times, Fantoo Entertainment, and K-Commerce, so the business from the three companies became the discontinued operations. Â F-8 Â Â HANRYU HOLDINGS, INC.Â AND SUBSIDIARIES Notes to Consolidated Financial Statements Â NOTE 1Â â€”Â NATURE OF OPERATIONS AND BASIS OF PRESENTATION (cont.) Â Risks and Uncertainties Â The Company is subject to a number of risks similar to other companies in its industries, including rapid technological change and transitions in Hanryu trends. The extent of the impact of the COVID-19 pandemic on the Companyâ€™s business continues to be highly uncertain and difficult to predict, as the responses that the Company, other businesses and governments are taking continue to evolve. Furthermore, capital markets and economies worldwide have also been negatively impacted by the COVID-19 pandemic, and it is possible that it could cause a lasting national and/or global economic recession. Policymakers around the globe have responded with fiscal policy actions to support the entertainment industry and economy as a whole. Â To date, the Company has experienced significant changes in the business as a result of the COVID-19 pandemic. The impact has delayed the Companyâ€™s ability to generate revenue as result of the diversification of potential customer budgets towards the COVID-19 pandemic. The extent to which the COVID-19 pandemic may in the future materially impact the Companyâ€™s financial condition, liquidity or results of operations is uncertain. Â Going Concern Â The Company has experienced recurring losses from operations and has a stockholdersâ€™ equity(deficit) and working capital of Â Â $13,068,465 and $10,140,579 respectively, as of December 31, 2023 and Â Â $(1,340,515), Â Â and $(757,981) as of December 31, 2022. Also, the Company has operating losses of $10,527,845 and $5,421,525 for the years ended December 31, 2023 and December 31, 2022, respectively. These uncertainties raise substantial doubt about the Companyâ€™s ability to continue as a going concern for twelve (12)Â months after the issuance date of these financial statements. The accompanying financial statements have been prepared under the assumption that we will continue as a going concern. The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of us to continue as a going concern. Â Our future operations are dependent upon multiple factors, including (i)Â the success of our FANTOO platform business; (ii)Â competition from existing and future services from other companies; and (iii)Â securing new sources of capital to fund operations and develop markets. We will maintain an ongoing effort to improve and innovate FANTOO platform business to generate funds for our operations. For instance, we recently launched FANTOO House which is located in Seoul, and at FANTOO platform, we will launch (i) Epic branded ecommerce platform that we will expect it as a major source of new income, and (ii) dedicated video production operations that will create short episodic content that focuses on K-POP fandom. In addition, we maintain an ongoing effort to raise funds for our operations from current investors and new sources of capital through the issuance of additional common stock and/or short-term notes. However, there can be no assurance as to the outcome of these factors or that future funding efforts will generate sufficient capital to maintain our operations. Â F-9 Â Â HANRYU HOLDINGS, INC.Â AND SUBSIDIARIES Notes to Consolidated Financial Statements Â NOTE 2Â â€”Â SIGNIFICANT ACCOUNTING POLICIES Â A summary of the significant accounting policies followed by the Company in the preparation of the accompanying consolidated financial statements follows: Â Principles of Consolidation Â The consolidated financial statements of the Company include the financial statements of Hanryu Holdings, and its three wholly owned subsidiaries, HBC, FNS, and Marine Island in 2023, and its five wholly owned subsidiaries, HBC, FNS, Hanryu Times, Fantoo Entertainment, and Marine Island and majority-owned subsidiary (50.8%), K-Commerce in 2022. All significant intercompany transactions and balances have been eliminated in consolidation. Â Non-controlling interests are measured at their proportionate share of the acquireeâ€™s identifiable net assets at the acquisition date. Â Changes in the consolidated groupâ€™s interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Â The ownership of non-controlling interests of K-Commerce, out significant consolidated subsidiary as of December 31, 2022, was 49.2%. Since HBC sold owned whole shares of Hanryu Times, Fantoo Entertainment, and K-Commerce, at December 28, 2023, they are not consolidated from December 28, 2024, and N the controlling interests of K-Commerce become $0 Â Foreign Currency Â The Companyâ€™s functional currency for all operations is the KRW.Â The Companyâ€™s accounting records are maintained in KRW, and translated into U.S.Â Dollars at year-end for the purposes of presentation. During the translation process, the year-end closing exchange rate is used for the valuation of all assets and liabilities, historical exchange rate is used to value stockholderâ€™s equity, and the average exchange rate for the year is used for the calculation of the consolidated financial statements. The net impact of the translation into the U.S.Â Dollar is included in the accumulated other comprehensive income (loss) of the Companyâ€™s consolidated balance sheet as of December 31, 2023 and DecemberÂ 31, 2022. During the year ended December 31, 2023, there was a fluctuation in the exchange rates ranging from KRW 1,219.30/USD $1 to KRWÂ 1,340.20/USD $1. Also, cash flows are also translated at average translation rates for the periods, therefore, amounts reported on the statement of cash flows will not necessarily agree with changes in the corresponding balances on the consolidated balance sheets Â Use of Estimates Â The preparation of the Companyâ€™s consolidated financial statements and related disclosures in conformity with U.S.Â Generally Accepted Accounting Principles (â€œUS GAAPâ€) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Management evaluates its estimates on an ongoing basis. Although estimates are based on the Companyâ€™s historical experience, knowledge of current events and actions it may undertake in the future, actual results may materially differ from these estimates and assumptions. Â Cash and Cash Equivalents Â The Company considers all highly liquid investments with maturities of threeÂ months or less at the date of purchase to be cash equivalents. The Company maintains its cash in bank deposit accounts which, at times, may exceed the federal insurance limit, and the balance of deposit accounts of the Company exceed the federal insurance limit as of December 31, 2023.Â F-10 Â Â HANRYU HOLDINGS, INC.Â AND SUBSIDIARIES Notes to Consolidated Financial Statements Â NOTE 2Â â€”Â SIGNIFICANT ACCOUNTING POLICIES (cont.) Â Accounts Receivable Â Accounts receivables are recorded at the invoiced amount and do not bear interest. Amounts collected on trade accounts receivable are included in net cash provided by operating activities in the consolidated statements of cash flows. The Company maintains an allowance for doubtful accounts for estimated losses inherent in its accounts receivable portfolio. In establishing the required allowance, management considers historical losses adjusted to take into account current market conditions and customersâ€™ financial condition in dispute, and the current receivables aging and current payment patterns. The Company reviews its allowance for doubtful accounts quarterly. Past-due balances over 90Â days and over a specified amount are reviewed individually for collectability. Account balances are written off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company recorded the allowance of $0 on the accompanying consolidated balance sheets as of December 31, 2023 and DecemberÂ 31, 2022. The Company does not have any off-balance-sheet credit exposure related to its customers. Â Non-Trade Receivables Â Non-trade receivables are recorded at the invoiced amount and do not bear interest. Amounts collected on non-trade receivables are included in net cash provided by operating activities in the consolidated statements of cash flows. The Company maintains an allowance for doubtful accounts for estimated losses inherent in its non-trade receivables portfolio. In establishing the required allowance, management considers historical losses adjusted to take into account current market conditions and customersâ€™ financial condition in dispute, and the current receivables aging and current payment patterns. The Company reviews its allowance for doubtful accounts quarterly. Past-due balances over 90Â days and over a specified amount are reviewed individually for collectability. Account balances are written off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company recorded the allowance of $0 and $12,941 on the accompanying consolidated balance sheets as of December 31, 2023 and DecemberÂ 31, 2022 respectively. The Company does not have any off-balance-sheet credit exposure related to its customers. Â Revenue Recognition Â The Company anticipates generating revenues from (i)Â FANTOO platform through advertising, direct sales, and user to user commissions, and (ii)Â other businesses. Revenue billed or collected in advance will be recorded as deferred revenue until the event occurs or until applicable performance obligations are satisfied. Â Revenue is recognized when the Company transfers promised goods or services to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods and services. In this regard, revenue is recognized when: (i)Â the parties to the contract have approved the contract (in writing, orally, or in accordance with other customary business practices) and are committed to perform their respective obligations; (ii)Â the entity can identify each partyâ€™s rights regarding the goods or services to be transferred; (iii)Â the entity can identify the payment terms for the goods or services to be transferred; (iv)Â the contract has commercial substance (that is, the risk, timing, or amount of the entityâ€™s future cash flows is expected to change as a result of the contract); and (v)Â it is probable that the entity will collect substantially all of the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. Â Transaction prices are based on the amount of consideration to which we expect to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties, if any. We consider the explicit terms of the revenue contract, which are typically written and executed by the parties, our customary business practices, the nature, timing, and the amount of consideration promised by a customer in connection with determining the transaction price for our revenue arrangements. Refunds and sales returns historically have not been material.Â F-11 Â Â HANRYU HOLDINGS, INC.Â AND SUBSIDIARIES Notes to Consolidated Financial Statements Â NOTE 2Â â€”Â SIGNIFICANT ACCOUNTING POLICIES (cont.) Â For the years ended December 31, 2023 and December 31, 2022, the Company recognized product sales revenue amounting to $71,242 and $0. Revenue is derived at the point in time when merchandise is sold and shipped or delivered to customers. Merchandise sales are fulfilled with inventory sourced from our owned inventory. Although the Company does not currently have any inventory as of the balance sheet date, the Company, from time to time, may hold products in inventory for an abbreviated amount of time before shipping such inventory and recognizing the corresponding revenue. Â Revenue is recognized when control of the product passes to the customer, typically at the date of delivery of the merchandise to the customer, or the date a service is provided and is recognized in an amount that reflects the expected consideration to be received in exchange for such goods or services. As such, customer orders are recorded as unearned revenue prior to delivery of products or services ordered. If the Company ships high volumes of packages through multiple carriers, the Company will use estimates to determine which shipments are to be delivered and, therefore, recognized as revenue at the end of the period. Delivery date estimates are based on average shipping transit times, which are calculated using the following factors: (i)Â the type of shipping carrier (as carriers have different in-transit times); (ii)Â the fulfilment source; (iii)Â the delivery destination; and (iv)Â actual transit time experience, which shows that delivery date is typically one to eightÂ businessÂ days from the date of shipment. The Company reviews and updates our estimates on a quarterly basis based on our actual transit time experience. However, actual shipping times may differ from our estimates. Â Generally, the Company requires authorization from credit cards or other payment vendors whose services the Company offers to customers or verification of receipt of payment, before the Company ships products to purchasers. The Company generally receives payments from our customers before our payments to our suppliers are due. The Company does not recognize assets associated with costs to obtain or fulfill a contract with a customer. Â Shipping and handling is considered a fulfillment activity, as it takes place prior to the customer obtaining control of the merchandise, and fees charged to customers are included in net revenue upon completion of our performance obligations. The Company presents revenue net of sales taxes, discounts, and expected refunds. Â Merchandise sales contracts include terms that could cause variability in the transaction price for items such as discounts, credits, or sales returns. Accordingly, the transaction price for product sales includes estimates of variable consideration to the extent it is probable that a significant reversal of revenue recognized will not occur. At the time of sale, the Company estimates a sales return liability for the variable consideration based on historical experience, which is recorded within â€œAccrued Liabilitiesâ€ in the consolidated balance sheet. The Company records an allowance for returns based on current period revenues and historical returns experience. The Company analyzes actual historical returns, current economic trends and changes in order volume, and acceptance of our products when evaluating the adequacy of the sales returns allowance in any accounting period. Â The Company evaluates the criteria outlined in the Financial Accounting Standards Board (â€œFASBâ€) Accounting Standards Codification (â€œASCâ€)Â 606-10-55, Principal versus Agent Considerations, in determining whether it is appropriate to record the gross amount of merchandise sales and related costs or the net amount earned as commissions. When the Company is the principal in a transaction and controls the specific good or service before it is transferred to the customer, revenue is recorded gross; otherwise, revenue is recorded on a net basis. Currently, the Company records all advertising revenue as a net basis, and other revenues are recorded as a gross basis, and the revenues as a gross basis for the years ended December 31, 2023 and December 31, 2022 are $1,014,266 and $889,045. Through contractual terms with our partners, we have the ability to control the promised goods or services and as a result record the majority of the revenue on a gross basis. Â The customers and sales amount with more than 10% of total revenue as a gross basis for the years ended December 31, 2023 and December 31, 2022 are as follows, and they are the advertising revenue. Â Fiscal Year Â Customer Â Sales Amount Â Â % Â 2023 Â A Â $ 191,511 Â Â Â 19 % 2023 Â B Â $ 696,403 Â Â Â 69 % 2022 Â C Â $ 774,024 Â Â Â 87 % Â F-12 Â Â HANRYU HOLDINGS, INC.Â AND SUBSIDIARIES Notes to Consolidated Financial Statements Â NOTE 2Â â€”Â SIGNIFICANT ACCOUNTING POLICIES (cont.) Â Cost of Revenue Â Cost of revenue is recognized at the time the products or services are delivered to the customers. Cost of revenue includes all direct labor, material, shipping and handling cost and other direct costs such as travel, postage, telecommunication, vehicle charge, printing, and training, and allocated indirect costs related to revenue such as supplies, utilities, office equipment rental, and computers. Â Property Plant and Equipment Â Property plant and equipment are carried at cost (see NoteÂ 5). Depreciation expense is provided over the estimated useful lives of the assets using the straight line method for vehicles and the declining balance method for fixtures and equipment. A summary of the estimated useful lives is as follows: Â ClassificationÂ Estimated Useful Life inÂ Years VehiclesÂ 5 FixturesÂ 5 EquipmentÂ 5 Â Maintenance and repairs are charged to expense as incurred, while any additions or improvements are capitalized. Â The Company evaluates property and equipment for impairment when facts and circumstances indicate that the carrying values of such assets may not be recoverable. When evaluating for impairment, the Company first compare the carrying value of the asset to the assetâ€™s estimated future undiscounted cash flows. If the estimated undiscounted future cash flows are less than the carrying value of the asset, the Company determines if there is an impairment loss by comparing the carrying value of the asset to the assetâ€™s estimated fair value and recognizes an impairment charge when the assetâ€™s carrying value exceeds its estimated fair value. The fair value of the asset is estimated using a discounted cash flow model based on forecasted future revenues and operating costs, using internal projections. There were no significant property and equipment asset impairment charges recorded during theÂ year ended December 31, 2023, and the year ended DecemberÂ 31, 2022. Â Impairment of Long-Lived Assets Â The Company assesses the recoverability of long-lived assets whenever events or changes in circumstances indicate that their carrying value may not be recoverable. If the cost basis of a long-lived asset is greater than the projected future undiscounted net cash flows from such asset, an impairment loss is recognized. Impairment losses are calculated as the difference between the cost basis of an asset and its estimated fair value. There were no significant long-lived assets impairment charges recorded during the year ended December 31, 2023 and the year ended December 31, 2022.Â F-13 Â Â HANRYU HOLDINGS, INC.Â AND SUBSIDIARIES Notes to Consolidated Financial Statements Â NOTE 2Â â€”Â SIGNIFICANT ACCOUNTING POLICIES (cont.) Â Concentrations of Credit Risk Â Cash and cash equivalents are financial instruments that potentially subject the Company to concentrations of credit risk. The Company may maintain deposits in financial institutions in excess of government insured limits. The Company believes that it is not exposed to significant credit risk as its deposits are held at financial institutions that management believes to be of high credit quality and the Company has not experienced any losses on these deposits. The Company is also potentially subject to concentrations of credit risk in its accounts receivable and loans. Credit risk with respect to receivables is limited due to the number of companies comprising the Companyâ€™s customer base. Credit risk with respect to loans is limited since they are made principally related to the collaborative activities between the Company and loan holders. Since the Company is directly affected by the financial condition of its customers and loan holders, management carefully watch if any significant credit risks exist, and they will make actions to remove or mitigate such risks if there are any. For the years ended December 31, 2023 and December 31, 2022, over 10% of the revenues are from two customers and one customer, but there are no receivable balances from them. Also, over 10% of the account receivable for the year ended December 31, 2023 is from Hanryu Times, which was the affiliated company by December 28, 2023, and Hanryu Times and the company already agreed to the payment plan that Hanryu Times would pay back all by the end of December 31, 2024. Therefore, as of December 31, 2023 and December 31, 2022, the Company believes that the credit risk for the account receivables is manageable and controllable. Generally, the Company does not require collateral or other securities to support its accounts receivable and loans. Â Fair Value of Financial Instruments Â The fair value of Companyâ€™s financial instruments, consisting of cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities, debt receivables, debt payables approximate their recorded amounts due to their relatively short settlement terms. Â Fair Value Measurements Â The Company applies a three-levelÂ valuation hierarchy for fair value

measurements. The categorization of assets and liabilities within the valuation hierarchy is based on the lowest level of input that is significant to the measurement of fair value. Â Level 1 Â Inputs to the valuation methodology utilize unadjusted quoted market prices in active markets for identical assets and liabilities. Â Â Â Level 2 Â Inputs to the valuation methodology are other observable inputs, including quoted market prices for similar assets and liabilities, quoted prices for identical and similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data. Â Â Â Level 3 Â Inputs to the valuation methodology are unobservable inputs based on managementâ€™s best estimate of the inputs that market participants would use in pricing the asset or liability at the measurement date, including assumptions about risk. Â A change to the level of an asset or liability within the fair value hierarchy is determined at the end of a reporting period. Â Investments Â The Companyâ€™s investments are carried at historical cost. As of DecemberÂ 31, 2023 and DecemberÂ 31, 2022, there is no balance of investments. Â Earning (Loss) Per Share Â Basic earning (loss) per share is computed by dividing the income or loss by the weighted-average number of outstanding shares of Common Stock for the applicable period. Diluted earning (loss) per share is computed by dividing the income or loss by the weighted-average number of outstanding shares of Common Stock for the applicable period, including the dilutive effect of Common Stock equivalents. Potentially dilutive Common Stock equivalents primarily consist of warrants issued in connection with financings. For purposes of computing both basic and diluted earning (loss) per share, income or loss shall exclude the income or loss attributable to the non-controlling interest. The Company calculates net loss per share in accordance with FASB ASC TopicÂ 260, Earnings Per Share. Basic net loss per share amounts have been computed by dividing net loss excluded loss attributable to the non-controlling interest by the weighted-average number of common shares outstanding during the period. For the years ended December 31, 2023 and 2022, the Company reported net losses and, accordingly, potential common shares were not included since such inclusion would have been anti-dilutive. As a result, our basic and diluted net loss per share are the same because the Company generated a net loss in all periods presented.Â F-14 Â Â HANRYU HOLDINGS, INC.Â AND SUBSIDIARIES Notes to Consolidated Financial Statements Â NOTE 2Â â€”Â SIGNIFICANT ACCOUNTING POLICIES (cont.) Â Income Taxes Â Deferred income tax assets and liabilities are determined based on differences between the financial statement reporting and tax basis of assets and liabilities and are measured using the enacted tax rates and laws in effect when the differences are expected to reverse. The measurement of deferred income tax assets is reduced, if necessary, by a valuation allowance for any tax benefits which are not expected to be realized. The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in the period that such tax rate changes are enacted. We have determined that all of our deferred tax benefits are not likely to be realized due to our historical and expected future taxable losses. Accordingly, we have maintained a full valuation allowance. Â The Company applies the provisions of FASB ASC TopicÂ 740-10, Uncertainty in Income Taxes. The Company has evaluated our tax positions, and there are none as of December 31, 2023 and DecemberÂ 31, 2022. Â Income taxes on the Companyâ€™s taxable income from operating activities are subject to various tax laws and determinations of the authority in the ROK.Â Regarding taxes payable in the ROK, if a certain portion of taxable income is not used for investments or for increases in wages or dividends, in accordance with the Tax System for Recirculation of Corporate Income, the Company is liable to pay additional income tax calculated based on Korean tax law. Â The Company assesses uncertainty over a tax treatment. When the Company concludes it is not probable that the taxation authority will accept an uncertain tax treatment, the Company will reflect the effect of uncertainty for each uncertain tax treatment by using either of the following methods, depending on which method the Company expects to better predict the resolution of the uncertainty; Â â—The most likely amount: The single most likely amount in a range of possible outcomes. Â â—The expected value: The sum of the probability-weighted amounts in a range of possible outcomes. Â Lease Â Under ASCÂ 842, the determination of whether an arrangement is a lease is made at the leaseâ€™s inception and a contract is (or contains) a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is defined under the standard as having both the right to obtain substantially all of the economic benefits from use of the asset and the right to direct the use of the asset. Management only reassesses its determination if the terms and conditions of the contract are changed. Operating leases are included in operating lease right-of-use (â€œROUâ€) assets, other current liabilities, and operating lease liabilities in our balance sheets. Finance leases are included in property and equipment, other current liabilities, and other long-term liabilities in our balance sheets. Â ROU assets represent our right to use an underlying asset for the lease term, and lease liabilities represent our obligation to make lease payments. Operating lease ROU assets and liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. The Company uses the implicit rate when it is readily determinable. Since most of the Companyâ€™s leases do not provide an implicit rate, to determine the present value of lease payments, management uses the Companyâ€™s incremental borrowing rate based on the information available at lease commencement. Operating lease ROU assets also includes any lease payments made and excludes any lease incentives. Lease expense for lease payments is recognized on a straight-line basis over the lease term. Leases with an initial term of 12Â months or less are not recorded on the balance sheet.Â F-15 Â Â HANRYU HOLDINGS, INC.Â AND SUBSIDIARIES Notes to Consolidated Financial Statements Â NOTE 2Â â€”Â SIGNIFICANT ACCOUNTING POLICIES (cont.) Â The Company has lease agreements with lease and non-lease components, which are generally accounted for separately with amounts allocated to the lease and non-lease components based on stand-alone prices or for which it has made an accounting policy election to account for these as a single lease component. For certain equipment leases, like vehicles, the Company accounts for the lease and non-lease components as a single lease. Refer to NoteÂ 7 for additional disclosures required as a result of the adoption of this new standard. Â Recently Issued Accounting Standards Â In AugustÂ 2020, the FASB issued ASU No.Â 2020-06,Â DebtÂ â€”Â Debt with Conversion and Other Options (SubtopicÂ 470-20) and Derivatives and HedgingÂ â€”Â Contracts in Entityâ€™s Own Equity (SubtopicÂ 815-40) Accounting for Convertible Instruments and Contracts in an Entityâ€™s Own Equity (â€œASUÂ 2020-06â€). ASUÂ 2020-06 changes how entities account for convertible instruments and contracts in an entityâ€™s own equity and simplifies the accounting for convertible instruments by removing certain separation models for convertible instruments. ASUÂ 2020-06 also modifies the guidance on diluted earnings per share calculations. ASUÂ 2020-06 is effective for fiscalÂ years, and interim periods within those fiscalÂ years, beginning after DecemberÂ 15, 2023. Â In November 2019, the FASB issued ASU 2019-10, â€œFinancial Instruments - Credit Losses (Topic 326), Derivatives and Hedging (Topic 815), and Leases (Topic 842): Effective Datesâ€, which amended the effective date of the various topics. As the Company is a smaller reporting company, the provisions of ASU 2016-13 and the related amendments are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2022 (quarter ending September 30, 2023 for the Company). Entities are required to apply these changes through a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective. Â In June 2016, the Financial Accounting Standards Board (â€œFASBâ€) issued ASU 2016-13, â€œFinancial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instrumentsâ€ (â€œASU 2016-13â€), which requires an entity to assess impairment of its financial instruments based on its estimate of expected credit losses. Since the issuance of ASU 2016-13, the FASB released several amendments to improve and clarify the implementation guidance. Â The Company is reviewing the effects of following recent updates.Â The Company has no expectation that any of these items will have a material effect upon the financial statements.Â Â NOTE 3Â â€”Â SHORT-TERM LOAN RECEIVABLES Â The following table summarizes information with regard to short-term loan receivables outstanding as of December 31, 2023 and DecemberÂ 31, 2022, and the interest income from short-term loan receivables is $30,613 and $0 for the year ended December 31, 2023 and December 31, 2022. (â€œSetopiaâ€), for total consideration of $1,687,052 (the â€œSetopia Bonds with warrantsâ€). The form of consideration was a mix of: (i)Â warrants to purchase 666,666 Common Shares of HBC, valued at $873,805; and (ii)Â distribution of 100,000 KDC. Â The transaction with Setopia as a beneficial owner of more than 10% of the Companyâ€™s outstanding securities, was a related-party transaction. However, neither Setopia nor the Company control the other by any methods including, without limitation, contract, lease, agreements between shareholders, or court decree. Further, each of Setopia and HBC have different principal owners, management, and there have been no transactions between any members of the principal ownersâ€™ or managementsâ€™ immediate families. On OctoberÂ 27, 2022, Setopia became an unaffiliated and unrelated third party of theÂ Company since, as of that date, Setopia is a stockholder who owns less than 10% of the Companyâ€™s outstanding securities.Â F-17 Â Â HANRYU HOLDINGS, INC.Â AND SUBSIDIARIES Notes to Consolidated Financial Statements Â NOTE 6 â€”Â INVESTMENTS (cont.) Â The Company accounted for the investment in Setopia at fair value. The Company determined this investment to be a â€œdebt securityâ€ classified into trading debt securities under ASCÂ 320-10-20, as the Company intended to sell it in the near term at the time of acquisition. There has been no unrealized holding gains and losses for trading securities included in earnings since the value of the Setopia Bonds with warrants did not change until it is sold to the third party for theÂ year ended DecemberÂ 31, 2022. Prior to the acquisition of the Setopia Bonds with warrants, the Company owned no interest in Setopia. After the acquisition the Setopia Bonds with warrants, the Company became the owner of record or known beneficial owner of 2.06% of the voting interest of Setopia. Â The acquisition of the Setopia Bonds with warrants is a related-party transaction under ASCÂ 850-10-05-3(d). Â On FebruaryÂ 11, 2022, the Company sold the acquired Setopia Bonds with warrants to an unaffiliated and unrelated third party in exchange for the consideration of cash totaling $696,621 and a non-trade receivable for $851,426 due by DecemberÂ 30, 2022, which resulted in a decrease of the investment balance of $1,687,052 including the currency translation adjustment of ($139,004) as of DecemberÂ 31, 2022. The Company and a third party entered into an extension agreement for a non-trade receivable due by AprilÂ 30, 2023. Â On OctoberÂ 4, 2022, the Company purchased convertible bonds issued by Setopia, for total consideration of $635,000 (the â€œSetopia Convertible Bondsâ€). The Setopia Convertible Bonds were initially issued on JanuaryÂ 27, 2022, with no annual interest and a maturity date of JanuaryÂ 27, 2025. The form of consideration was to accept the consideration of warrants with an exercise price of $1.27 to purchase 500,000 shares of Common Stock. On OctoberÂ 4, 2022, warrants were exercised with an exercise price of $1.27 to purchase 500,000 shares of common stock. Â On DecemberÂ 30, 2022, the Company sold the Setopia Convertible Bonds to an unaffiliated and unrelated party by receiving non-trade receivables of $710,171 due by FebruaryÂ 28, 2023, which resulted in a decrease of the investment balance of $635,000 including the currency translation adjustment of $75,171 as of DecemberÂ 31, 2022. The Company collected such non-trade receivables by cash in full on MarchÂ 23, 2023. There was no gain or loss realized on this transaction during the year ended DecemberÂ 31, 2022. Â On JuneÂ 30, 2021, HBC and Sewang entered into the Contract and Share Assignment, pursuant to which HBC acquired: (i)Â the Marine Island Shares, and thereby the Lien, which gave Marine Island the right to use and occupy the Seoul Marina until the Lien is repaid; (ii)Â the SMC Shares; and (iii)Â the SMC Receivable. Â The aggregate consideration paid to Sewang for the rights and assets under the Contract was $2,943,905, initially allocated as follows: (1)Â $8,247 to the purchase SMC Shares at a price of $0.87 per share, constituting 24.53% of the issued and outstanding common shares of SMC; and (2)Â $2,935,658 to SMC Receivable and the Lien, calculated by determining the present value of leasing the Seoul Marina facilities for free over 10Â years. Sewang received $2,009,752 in the form of 23,000,000 KDC, and the remaining $934,153 in the form of cash. Â On DecemberÂ 30, 2022, the Company sold the SMC shares to an unaffiliated and unrelated third party in exchange for the consideration of cash totaling $774, which resulted in a decrease of the investment balance of $8,247 including the currency translation adjustment of ($679) as of DecemberÂ 31, 2022 and loss on sale of investments of $6,794 for theÂ year ended DecemberÂ 31, 2022. Â The Company recorded the Marine Island Shares as affiliated stocks, and the SMC Shares as an investment, and the remaining SMC Receivable and Lien as Operating Lease Right-Of-Use Asset which is being amortized over a ten year period under the guidelines of ASCÂ 842. See NoteÂ 7 â€œLeaseâ€. The SMC Shares and the Marine Island Shares were calculated by the number of shares multiplied by the par value of $0.87 and $0.44. The value of SMC Receivable and the Lien was calculated by determining the present value of the Lien on the assumption the Company would lease the Seoul Marina facilities for free for at least 10Â years. Â The Company is not a principal owner of SMC.Â In addition, neither SMC nor the Company control the other by any methods including, without limitation, contract, lease, agreements between shareholders, or court decree. Further, each of SMC and HBC have different principal owners, management, and there have been no transactions between any members of the principal ownersâ€™ or managementsâ€™ immediate families. Â For the Marine Island Shares, the Company applied ASCÂ 805 as the Company owns more than 50% of the issued and outstanding shares of Marine Island, and the Company consolidates the financial statements. For the SMC Shares, the Company applies ASC TopicÂ 321-10-20 andÂ 321-10-35-2, and it is recorded as an equity investment by the cost method. For SMC right, the Company recorded these rights as Operating Lease Right-Of-Use Asset-see NoteÂ 7. Â F-18 Â Â HANRYU HOLDINGS, INC.Â AND SUBSIDIARIES Notes to Consolidated Financial Statements Â NOTE 7 â€”Â LEASE Â The Company uses approximately 19,200 square feet of office space at the Seoul Marina described in in NoteÂ 6Â â€”Â Investments, at no cost. Although no formal lease exists, the Company believes that ASCÂ 842 accounting guidelines apply to determine the fair market value of tenÂ years of free rent as well as recording rent expense on its Statement of Operations. Using the following variables: Â Annual lease costÂ â€”Â 300,000,000 Korean Won Â 10-year present value calculation Â Assumed annual rent increase -4.96% Â Interest cost -3% Â 10-year bond rate on Korean Bonds 2.11% Â Exchange rate: 1188.5 Korean Won to the US dollar Â The Company determined that the present value of tenÂ years of free rent amount to $2,775,512 which was recorded as a long-term ROU asset as of JuneÂ 30, 2021. Since there were no liabilities associated with this asset since the Company is receiving free rent, the ROU assets is being amortized at a rate of approximately $23,000 per month over a ten year term. Since the Company had initially allocated a value of $2,935,658 to SMC Receivable and the Lien, the Company recorded an impairment of $158,278 on its Right-of-Use Asset for theÂ year ended DecemberÂ 31, 2021. Â As of December 31, 2023 and DecemberÂ 31, 2022, the balances of the Right-of-Use-Asset was $1,918,966 and $2,212,754, respectively. Â Lease cost consists of approximately $287,487 and $255,357, for the years ended December 31, 2023 and December 31, 2022, respectively. The weighted average remaining lease term inÂ years for operating leases is 8Â years and the weighted average discount rate for operating leases is 3%. Â NOTE 10 â€”Â BONDS WITH WARRANTS Â Bonds with warrants were issued by HBC from DecemberÂ 17, 2018 through JulyÂ 2, 2021. The terms and conditions of the bonds with warrants at the time of acquiring bonds and issuance of such bonds are set forth below. Currently, the Company and all bondholders have entered into an agreement that the bondholders will waive all interest payments due for the life of the bonds. Â The entire face amount of the bonds is the maximum number of Common Shares for which the attached warrants can be exercised by each bondholder, with exercise prices from $0.42 to $1.27 per common share. Â On MarchÂ 31, 2021, HBC issued 4,150,000 Common Shares to the shareholders of RnDeep pursuant to the RnDeep Merger. As the surviving company in the RnDeep Merger, HBC assumed the RnDeep Warrants, therefore allowing the RnDeep Warrants to be exercised for Common Shares of HBC, in the following amounts: Â â—RnDeep Warrants issued on MarchÂ 17, 2020, for an aggregate purchase price of $2,586,850. The bonds have a maturity date of MarchÂ 17, 2023 and accrue interest at a rate of 3% annually. The warrants have an exercise price of $0.42, and can be exercised at any time after the date that is fourÂ months after the date the bond was issued, and expire theÂ day immediately preceding the maturity date of the bonds. Â â—RnDeep Warrants issued on AprilÂ 13, 2020, for an aggregate purchase price of $1,687,052. The bonds have a maturity date of AprilÂ 13, 2023, and accrue interest at a rate 3% annually. The warrants have an exercise price of $0.42, and can be exercised at any time after the date that is fourÂ months after the date the bond was issued, and expire theÂ day immediately preceding the maturity date of the bonds. Â â—RnDeep Warrants issued on MayÂ 6, 2020, for an aggregate purchase price of $3,880,220. The bonds have a maturity date of MayÂ 6, 2023, and accrue interest at a rate of 3% annually. The warrants have an exercise price of $1.27, and can be exercised at any time after the date that is fourÂ months after the date the bond was issued, and expire theÂ day immediately preceding the maturity date of the bonds. Â After the RnDeep Merger, HBC and the RnDeep Holders entered into an agreement that the RnDeep Holders would waive the interest accruing on the RnDeep Warrants. Therefore, the Company recognized the RnDeep Warrants acquired at the respective face value of each respective RnDeep Warrant. Furthermore, HBC held RnDeep Warrants an aggregate value of $2,586,850, and offset such value against HBCâ€™s assets. Â On AprilÂ 7, 2021, HBC issued bonds with warrants for an aggregate purchase price of $3,153,714. The bonds accrue interest at an annual rate of 1% and mature on MarchÂ 31, 2022. The warrants have an exercise price of $0.42 and can be exercised at any time after the date that is threeÂ months after the date the bond was issued, and expire if not exercised prior to the maturity date of the bonds. Â On JulyÂ 1, 2021, HBC issued bonds with warrants for an aggregate purchase price of $1,096,584. The bond accrues no annual interest and matures on JulyÂ 1, 2024. The warrants have an exercise price of $0.42, and can be exercised at any time after the issuance date, and expire the month preceding the maturity date of the bonds. Â On JulyÂ 2, 2021, HBC issued bonds with warrants for an aggregate purchase price of $3,795,867. The bond accrues no annual interest and mature on JulyÂ 2, 2024. The warrants have an exercise price of $1.27 and can be exercised at any time after the issuance date, and expire the month preceding the maturity date of the bonds. Â HBC has the right to make early repayments before maturity for these bonds with warrants and has exercised its right to do so in the amounts of $11,420,268 and $919,118 for the Year ended DecemberÂ 31, 2021 and the year ended DecemberÂ 31, 2020, respectively. Â On MarchÂ 31, 2021, holders of certain bonds and warrants with an aggregate value of $1,687,906 exercised their warrants to purchase common shares of HBC.Â As of DecemberÂ 31, 2021 and 2020, the fair value of bonds with warrants was $3,795,867 and $6,709,559, respectively. Â There is not a viable market for the Companyâ€™s Common Stock to determine its fair value, therefore management is required to estimate the fair value to be utilized in the determining warrant costs and value. In estimating the fair value, management considers the comparable value of public companies from the same industry. Considerable management judgment is necessary to estimate the fair value.Â Accordingly, actual results could vary significantly from managementâ€™s estimates. Â Option valuation models require the input of highly subjective assumptions. The fair value of warrants was estimated using the Black-Scholes option model with a volatility figure derived from public companies in the same industry.Â Management determined this assumption to be a more accurate indicator of value. The Company accounts for the expected life of warrants based on the maturity of warrants. The risk-free interest rate was determined from the implied yields of U.S.Â Treasury zero-coupon bonds with a remaining life consistent with the expected term of the options.Â The fair value of warrants during theÂ years ended DecemberÂ 31, 2021 and DecemberÂ 31, 2020 was estimated using the Black-Scholes pricing model. Â On MarchÂ 31 2021, HBC acquired an aggregate of 12,066,666Â warrants to purchase HBC Common Shares in connection with RnDeep Merger at the exercise prices of $0.42 (9,000,000Â warrants) and $1.27 (3,666,666Â warrants) per share for a term of one to twoÂ years, exercisable immediately. Â The fair value of the issued warrants were determined using the Black Scholes option pricing model with the following assumptions: Â Dividend yield:Â 0% VolatilityÂ 43.36% Risk free rate:Â 0.08% Expected life:Â 1Â â€”Â 2 years Estimated fair value of the Companyâ€™s Common StockÂ $0.47 Â The fair value of $691,267 was charged to operations as financing costs for theÂ year ended DecemberÂ 31, 2021. For the year ended December 31, 2022, investment of $635,000 was increased by exercising warrants to purchase 500,000 shares of common stock, and investments of $1,578,158 were reduced by receiving non-trade receivables with an aggregate value of $1,578,158. Â NOTE 13 â€”Â OTHER INCOME Â The Company entered into an agreement with a creditor of HBC to pay such creditor 3,000,000 KDC in exchange for the extinguishment of $232,207 in debt. The Company accounts for such non-cash consideration at the effective date of agreement in accordance with the non-cash consideration guidance included in FASB ASC TopicÂ 470, Debt (â€œASCÂ 470â€), and FASB ASC TopicÂ 606, Revenue from Contracts with Customers (â€œASCÂ 606â€). As a result, the Company recognized gain of settlement of debt of $232,207 for the year ended December 31, 2022. Â NOTE 14 â€”Â OTHER Â The Company believes that KDC meets the definition of indefinite-lived intangible assets under ASCÂ 350, as it is nonfinancial asset that lacks physical substance. Therefore, KDC was recognized and measured at historical cost. In addition, the Company determined that KDC has an indefinite life since there is no legal, regulatory, contractual, competitive, economic, or other factors that limit the useful life of KDC, in accordance with ASCÂ 350-30-35-4.Â F-24 Â Â HANRYU HOLDINGS, INC.Â AND SUBSIDIARIES Notes to Consolidated Financial Statements Â NOTE 14 â€”Â OTHER (cont.) Â The Company initially created KDC, a public digital cryptocurrency separate and apart from the FANTOO platform, as a method of onboarding and offboarding FP to and from the FANTOO platform through the Kingdom Wallet. However, on JuneÂ 22, 2022, the Company entered into a Business Transfer Agreement (the â€œKDC Agreementâ€) with Kingdom Coin Holdings, a corporation incorporated in the Cayman Islands (the â€œKDC Foundationâ€), pursuant to which the Company transferred all of its KDC to the KDC Foundation, and no longer conducts or controls the operations, issuance, or sales of KDC in order to substantially reduce our involvement with blockchain technologies. This shift in our business plan was undertaken both to protect our users from potential risks associated with speculation in KDC, and because of the recent market and regulatory conditions surrounding cryptocurrency in general. As such, the Company no longer supports or operates Kingdom Wallet, and no longer allows the conversion of FP into KDC (and vice-versa). Neither Hanryu Holdings, nor any of its subsidiaries, have any affiliation with the KDC Foundation. Â Additionally, and for the avoidance of doubt, the control person of Plus Meta PTE Ltd., KDC Foundationâ€™s management company, is not an affiliate, and is not in any way related to, any officer, director, or shareholder of the Company. The KDC Foundation does not, has not, and will not coordinate any of its activities with the Company or the Companyâ€™s operation of FANTOO.Â Further, KDC will not be marketed to FANTOO users. Â Pursuant to the KDC Agreement, in exchange for the Company transferring (a)Â its then-existing outstanding KDC balance of 299,651,320,620, (b)Â blockchain mainnet known as the Fandomchain, and (c)Â the Kingdom Wallet to the KDC Foundation, the KDC Foundation will (y)Â assume all obligations and liabilities with respect to KDC and Kingdom Wallet, and (z)Â pay to the Company the following contingent amounts, if, at DecemberÂ 31, 2024: Â â—The KDC Foundation generates sales in excess of $74Â million from the assets transferred from the Company, the KDC Foundation shall pay 10% of such sales to the Company; Â â—The KDC Foundation generates sales in excess of $37Â million, but less than $74Â million, from the assets transferred from the Company, the KDC Foundation shall pay 15% of such sales to the Company; and Â â—The Company will receive no consideration from the KDC Foundation if the assets transferred from the Company generates sales under $37Â million. Â For the avoidance of doubt, sales generated from the transferred assets do not include any post-transfer newly created KDC.Â KDC Foundation planned to generate revenue by integrating KDC, FandomChain, and the Kingdom Wallet into mobile games, and monetizing such games. Due to current cryptocurrency-related market conditions, the Company does not expect to receive any payments from KDC Foundation through DecemberÂ 31, 2024 in accordance with the terms of the Business Transfer Agreement. Â The KDC agreement included contingent earn-out consideration, the fair value of which was estimated on JuneÂ 22, 2022, as the present value of the expected future contingent receivables which the Company determined using a probability-weighted discounted cash flow model for probabilities of possible future receivables. The Company determined the fair value of contingent consideration as zero on JuneÂ 22, 2022. Contingent consideration is remeasured to fair value at each reporting date until the contingency is resolved, with changes in fair value recognized in profit or loss in most circumstances. The Company recorded zero value of the contingent consideration on the accompanying consolidated balance sheets as of DecemberÂ 31, 2022. Â The Company believes that the transfer of KDC meets the definition of a â€œComponent of an Entityâ€ under FASB ASC TopicÂ 205-20, Discontinued Operations, and as such can be disposed of by a means other than sale. The divestiture of KDC and its associated operations does not represent a strategic shift, nor has (and will not have), a major effect on the Companyâ€™s operations and financial results because the blockchain/KDC operations did not represent: Â â—15% of the Companyâ€™s total revenue; Â â—Geographical area that represents 20% of the Companyâ€™s total assets; or Â â—30% of the Companyâ€™s historic net income and 15% of the current periodâ€™s income. Â The Company did not present the divestiture of its holdings of KDC and KDC-related activity as discontinued operations because there was no revenue, asset value, or net income from the divestiture of KDC and the related operations. of 760,000 shares of common stock for $10.00 per share, resulting in gross proceeds of $7,600,000. Â On July 31 2023, the Company consummated its initial public offering (the â€œIPOâ€) of 877,328 shares of Comon stock at a public offering price of $10.00 per share, generating gross proceeds of $8,773,280. Net proceeds from the IPO was approximately $7.7 million after deducting underwriting discounts and commissions and other offering expenses of approximately $1.1 million. Â The Company also granted the underwriters a 45-day option to purchase up to 131,599 additional shares (equal to 15% of the shares of Common stock sold in the IPO) to cover over-allotments, if any, which the underwriters did not exercise. In addition, the Company issued to the representative of the underwriters warrants to purchase a number of shares of Common stock equal to 5.0% of the aggregate number of Common stocks sold in the IPO (including shares of Common stock sold upon exercise of the over-allotment option). The representativeâ€™s warrants will be exercisable at any time and from time to time, in whole or in part, during the four-and-Â½-year period commencing six months from the date of commencement of the sales of the shares of Common stock in connection with the IPO, at an initial exercise price per share of $10.00 (equal to 125% of the initial public offering price per share of class A common stock). No representativeâ€™s warrants have been exercised. Â As a result, the total number of issued and outstanding shares of Common Stock issued increased from 45,416,942 to 52,808,589. Each holder of Common Stock is entitled to one vote for each share of Common Stock held at all meetings of stockholders. A delaware corporation Â ARTICLE I NAME Â The name of this corporation shall be Hanryu Holdings, Inc. (the â€œCorporationâ€). Â ARTICLE II REGISTERED OFFICE Â The address of the registered office of the Corporation in the State of Delaware is 1013 Centre Road, Suite 403-B, in the City of Wilmington, County of New Castle. The name of its registered agent at such address is VCorp Services, LLC. Â ARTICLE III CORPORATE PURPOSE Â The purpose or purposes of the corporation shall be to carry on any and all business and to engage in any lawful act or activity for which corporations may be organized under the General Corporation Law of Delaware. Â ARTICLE IV AUTHORIZED CAPITAL STOCK Â The total number of shares of stock which the Corporation shall have authority to issue is one hundred ten million (110,000,000), consisting of one hundred million (100,000,000) shares of Common Stock, par value $0.001 per share, and ten million (10,000,000) shares of Preferred Stock, par value $0.001 per share. Â 1. Common Stock. Each share of Common Stock shall be equal to every other share of Common Stock in every respect. The holders of the Common Stock are entitled to one vote for each share of Common Stock held at all meetings of stockholders (and written actions in lieu of meetings); provided, however, that, except as otherwise required by law, holders of Common Stock, as such, shall not be entitled to vote on any amendment to the Certificate of Incorporation that relates solely to the terms of one or more outstanding series of Preferred Stock if the holders of such affected series are entitled, either separately or together with the holders of one or more other such series, to vote thereon pursuant to the Certificate of Incorporation or pursuant to the General Corporation Law. There shall be no cumulative voting. The number of authorized shares of Common Stock may be increased or decreased (but not below the number of shares thereof then outstanding) by (in addition to any vote of the holders of one or more series of Preferred Stock that may be required by the terms of the Certificate of Incorporation) the affirmative vote of the holders of shares of capital stock of the Corporation representing a majority of the votes represented by all outstanding shares of capital stock of the Corporation entitled to vote, irrespective of the provisions of Section 242(h)(2) of the General Corporation Law. Â 2. Preferred Stock. The Board of Directors of the Corporation may divide the Preferred Stock into any number of series, fix the designation and number of each such series, and determine or change the designation, relative rights, preferences, and limitations of any series of Preferred Stock. The Board of Directors (within the limits and restrictions of the adopting resolutions) may also increase or decrease the number of shares of Preferred Stock initially fixed for any series, but no decrease may reduce the number below the shares of Preferred Stock then outstanding and duly reserved for issuance. Â Â Â Â ARTICLE V BYLAWS PROVISIONS Â 1. Amendment of Bylaws. Subject to any additional vote required by this Certificate or bylaws of the Corporation (the â€œBylawsâ€), in furtherance and not in limitation of the powers conferred by statute, the Board is expressly authorized to make, repeal, alter, amend and rescind any or all of the Bylaws. Â 2. Number of Directors. Subject to any additional vote required by this Certificate, the number of directors of the Corporation will be determined in the manner set forth in the Bylaws. Â 3. Ballot. Elections of directors need not be by written ballot unless the Bylaws so provide. Â 4. Meeting and Books. Meetings of stockholders may be held within or without the State of Delaware, as the Bylaws may provide. The books of the Corporation may be kept outside the State of Delaware at such place or places as may be designated from time to time by the Board or in the Bylaws. Â ARTICLE VI LIMITATION OF DIRECTORSâ€™ LIABILITY Â A Director of the Corporation shall not be personally liable to the Corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability (i) for any breach of the Directorâ€™s duty of loyalty to the Corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the DGCL, or (iv) for any transaction from which the Director derived any improper personal benefit. If the DGCL is amended after the effective date of this Certificate of Incorporation to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of a director of the corporation shall be eliminated or limited to the fullest extent permitted by the DGCL. Â ARTICLE VII INDEMNIFICATION Â (A) To the fullest extent permitted by applicable law, the Corporation is authorized to provide indemnification of, and advancement of expenses to, directors, officers, employees, other agents of the corporation and any other persons to which the DGCL permits the corporation to provide all indemnification. Such right to indemnification shall continue as to a person who has ceased to be a Director or officer of the Corporation and shall inure to the benefit of his or her heirs, executors and personal legal representatives. Â (B) The rights to indemnification and to the advance of expenses conferred in this Article X shall not be exclusive of any other right which any person may have or hereafter acquire under this Certificate of Incorporation, the Bylaws, any statute, agreement, vote of stockholders or disinterested Directors or otherwise. Â (C) Any repeal or modification of this Article X, by amendment of such section or by operation of law, shall not adversely effect any right or protection of a director, officer, employee or other agent of the corporation existing at the time of, or increase the liability of any such person with respect to acts or omissions in their capacity as a director, officer, employee, or other agent of the corporation occurring prior to, such repeal or modification. Â 2 Â Â ARTICLE VIII EXCLUSIVE FORUM Â Unless the Corporation consents in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware or. as further provided below, the United States District Court for the District of Delaware, shall, to the fullest extent permitted by law, be the sole and exclusive forum for (i) any derivative action or proceeding brought on behalf of the Corporation, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director, officer or employee of the Corporation to the Corporation or the Corporationâ€™s stockholders, (iii) any action asserting a claim against the Corporation arising pursuant to any provision of the DGCL or this Certificate of Incorporation or the Bylaws of the Corporation, (iv) any action asserting a claim against the Corporation governed by the internal affairs doctrine, in each case subject to the Court of Chancery of the State of Delaware having jurisdiction over the subject matter and personal jurisdiction over the indispensable parties name as defendants therein, or (v) any action asserting an â€œinternal corporate claimâ€ as that term is defined in Section 115 of the DGCL. Cases involving claims for which the Court of Chancery lacks jurisdiction shall, to the fullest extent permitted by law, be brought in the United States District Court for the District of Delaware. This Article VIII shall not apply to actions arising under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934. Â ARTICLE IX AMENDMENT OF THE CERTIFICATE OF INCORPORATION Â The Corporation reserves the right to amend, alter, change or repeal any provision contained in this Certificate of Incorporation, in the manner now or hereafter prescribed by statute, and all rights conferred upon stockholders herein are granted subject to this reservation. Â ARTICLEX ARRANGEMENTS BETWEEN CREDITORS Â Whenever a compromise or arrangement is proposed between this corporation and its creditors or any class of them and/or between this corporation and its stockholders or any class of them, any court of equitable jurisdiction within the State of Delaware may, on the application in a summary way of this corporation or of any creditor or stockholder thereof or on the application of any receiver or receivers appointed for this corporation under the provisions of Section 291 of Title 8 of the Delaware Code or on the application of trustees in dissolution or of any receiver or receivers appointed for this corporation under the provisions of Section 279 of Title 8 of the Delaware Code order a meeting of the creditors or class of creditors, and/or of the stockholders or class of stockholders of this corporation, as the case may be, to be summoned in such manner as the said court directs. If a majority in number representing three-fourths in value of the creditors or class of creditors, and/or of the stockholders or class of stockholders of this corporation, as the case may be, agree to any compromise or arrangement and to any reorganization of this corporation as consequence of such compromise or arrangement, the said compromise or arrangement and the said reorganization shall, if sanctioned by the court to which the said application has been made, be binding on all the creditors or class of creditors, and/or on all the stockholders or class of stockholders, of this corporation, as the case may he, and also on this corporation. Â ARTICLE XI STOCK REPURCHASES Â For purposes of Section 500 of the California Corporations Code (to the extent applicable), in connection with any repurchase of shares of Common Stock permitted under this Certificate of Incorporation from employees, officers, directors or consultants of the Company in connection with a termination of employment or services pursuant to agreements or arrangements approved by the Board of Directors (in addition to any other consent required under this Certificate of lncorporation), such repurchase may be made without regard to any â€œpreferential dividends arrears amountâ€ or â€œpreferential rights amountâ€ (as those terms are defined in Section 500 of the California Corporations Code). Accordingly, for purposes of making any calculation under California Corporations Code Section 500 in connection with such repurchase, the amount of any â€œpreferential dividends arrears amountâ€ or â€œpreferential rights amountâ€ (as those terms are defined therein) shall be deemed to be zero (0). Â 3 Â Â IN WITNESS WHEREOF, Hanryu Holdings, Inc. has caused this certificate to be signed by _____, its _____, on this_____ day of December, 2022. Â Â Â Â Â By: Â Title: Â Â 4 Â EX-3.2 3 ea020920901ex3-2_hanryuhold.htm BYLAWS OF REGISTRANT Exhibit 3.2 Â BYLAWS OF HANRYU HOLDINGS, INC. Â ARTICLE I Â Offices Â Section 1.1 Registered Office. Â The registered office of the corporation in the State of Delaware shall be set forth in the Certificate of Incorporation of the corporation (as amended, modified or restated, the â€œCertificate of Incorporationâ€). Â Section 1.2 Other Offices. Â The corporation may also have offices at such other places, both within and without the State of Delaware as the Board of Directors may from time to time determine or the business of the corporation may require. Â ARTICLE II Â STOCkHOLDERSâ€™ MEETINGS Â Section 2.1 Place of Meetings. Â (a) Meetings of stockholders may be held at such place, either within or without this State, as may be designated by or in the manner provided in these Bylaws or, if not so designated, as determined by the Board of Directors. The Board of Directors may, in its sole discretion, determine that the meeting shall not be held at any place, but may instead be held solely by means of remote communication as authorized by paragraph (b) of this Section 2.1. Â (b) If authorized by the Board of Directors in its sole discretion, and subject to such guidelines and procedures as the Board of Directors may adopt, stockholders and proxyholders not physically present at a meeting of stockholders may, by means of remote communication: Â (1) Participate in a meeting of stockholders; and Â (2) Be deemed present in person and vote at a meeting of stockholders whether such meeting is to be held at a designated place or solely by means of remote communication, provided that (A) the corporation shall implement reasonable measures to verify that each person deemed present and permitted to vote at the meeting by means of remote communication is a stockholder or proxyholder, (B) the corporation shall implement reasonable measures to provide such stockholders and proxyholders a reasonable opportunity to participate in the meeting and to vote on matters submitted to the stockholders, including an opportunity to read or hear the proceedings of the meeting substantially concurrently with such proceedings, and (C) if any stockholder or proxyholder votes or takes other action at the meeting by means of remote communication, a record of such vote or other action shall be maintained by the corporation. Â Â Â Â (c) For purposes of this Section 2.1, â€œremote communicationâ€ shall include(1) telephone or other voice communications and (2) electronic mail or other form of written or visual electronic communications satisfying the requirements of Section 2.11(b). Â Section 2.2 Annual Meetings. Â The annual meetings of the stockholders of the corporation, for the purpose of election of directors and for such other business as may lawfully come before it, shall be held on such date and at such time as may be designated from time to time by the Board of Directors, or, if not so designated, then at 10:00 a.m. on April 30 in each year if not a legal holiday, and, if a legal holiday, at the same hour and place on the next succeeding day not a holiday. Â Section 2.3 Special Meetings. Â Special Meetings of the stockholders of the corporation may be called, for any purpose or purposes, by the Chairman of the Board or the President or the Board of Directors at any time. Upon written request of any stockholder or stockholders holding in the aggregate one-fifth of the voting power of all stockholders delivered in person or sent by registered mail to the Chairman of the Board, President or Secretary of the Corporation, the Secretary shall call a special meeting of stockholders to be held as provided in Section 2.1 at such time as the Secretary may fix, such meeting to be held not less than 10 nor more than 60 days after the receipt of such request, and if the Secretary shall neglect or refuse to call such meeting within seven days after the receipt of such request, the stockholder making such request may do so. Â Section 2.4 Notice of Meetings. Â (a) Except as otherwise provided by law or the Certificate of Incorporation, written notice of each meeting of stockholders, specifying the place, if any, date and hour and purpose or purposes of the meeting, and the means of remote communication, if any, by which stockholders and proxyholders may be deemed to be present in person and vote at such meeting, shall be given not less than 10 nor more than 60 days before the date of the meeting to each stockholder entitled to vote thereat, directed to his address as it appears upon the books of the corporation; except that where the matter to be acted on is a merger or consolidation of the Corporation or a sale, lease or exchange of all or substantially all of its assets, such notice shall be given not less than 20 nor more than 60 days prior to such meeting. Â (b) If at any meeting action is proposed to be taken which, if taken, would entitle shareholders fulfilling the requirements of section 262(d) of the Delaware General Corporation Law to an appraisal of the fair value of their shares, the notice of such meeting shall contain a statement of that purpose and to that effect and shall be accompanied by a copy of that statutory section. Â (c) When a meeting is adjourned to another time or place, notice need not be given of the adjourned meeting if the time, place, if any, thereof, and the means of remote communication, if any, by which stockholders and proxyholders may be deemed to be present in person and vote at such adjourned meeting, are announced at the meeting at which the adjournment is taken unless the adjournment is for more than thirty days, or

unless after the adjournment a new record date is fixed for the adjourned meeting, in which event a notice of the adjourned meeting shall be given to each stockholder of record entitled to vote at the meeting. Â 2 Â Â (d) Notice of the time, place and purpose of any meeting of stockholders may be waived in writing, either before or after such meeting, and, to the extent permitted by law, will be waived by any stockholder by his attendance thereat, in person or by proxy. Any stockholder so waiving notice of such meeting shall be bound by the proceedings of any such meeting in all respects as if due notice thereof had been given. Â (e) Without limiting the manner by which notice otherwise may be given effectively to stockholders, any notice to stockholders given by the corporation under any provision of Delaware General Corporation Law, the Certificate of Incorporation, or these Bylaws shall be effective if given by a form of electronic transmission consented to by the stockholder to whom the notice is given. Any such consent shall be revocable by the stockholder by written notice to the corporation. Any such consent shall be deemed revoked if (i) the corporation is unable to deliver by electronic transmission two consecutive notices given by the corporation in accordance with such consent, and (ii) such inability becomes known to the secretary or an assistant secretary of the corporation or to the transfer agent or other person responsible for the giving of notice; provided, however, the inadvertent failure to treat such inability as a revocation shall not invalidate any meeting or other action. Notice given pursuant to this subparagraph (e) shall be deemed given: (1) if by facsimile telecommunication, when directed to a number at which the stockholder has consented to receive notice; (2) if by electronic mail, when directed to an electronic mail address at which the stockholder has consented to receive notice; (3) if by a posting on an electronic network together with separate notice to the stockholder of such specific posting, upon the later of (A) such posting and (B) the giving of such separate notice; and (4) if by any other form of electronic transmission, when directed to the stockholder. An affidavit of the secretary or an assistant secretary or of the transfer agent or other agent of the corporation that the notice has been given by a form of electronic transmission shall, in the absence of fraud, be prima facie evidence of the facts stated therein. For purposes of these Bylaws, â€œelectronic transmissionâ€ means any form of communication, not directly involving the physical transmission of paper, that creates a record that may be retained, retrieved and reviewed by a recipient thereof, and that may be directly reproduced in paper form by such a recipient through an automated process. Â Section 2.5 Quorum and Voting. Â (a) At all meetings of stockholders except where otherwise provided by law, the Certificate of Incorporation or these Bylaws, the presence, in person or by proxy duly authorized, of the holders of a majority of the outstanding shares of stock entitled to vote shall constitute a quorum for the transaction of business. Shares, the voting of which at said meeting have been enjoined, or which for any reason cannot be lawfully voted at such meeting, shall not be counted to determine a quorum at said meeting. In the absence of a quorum, any meeting of stockholders may be adjourned, from time to time, by vote of the holders of a majority of the shares represented thereat, but no other business shall be transacted at such meeting. At such adjourned meeting at which a quorum is present or represented, any business may be transacted which might have been transacted at the original meeting. The stockholders present at a duly called or convened meeting at which a quorum is present may continue to transact business until adjournment, notwithstanding the withdrawal of enough stockholders to leave less than a quorum. Â 3 Â Â (b) Except as otherwise provided by law, the Certificate of Incorporation or these Bylaws, all action taken by the holders of a majority of the voting power represented at any meeting at which a quorum is present shall be valid and binding upon the corporation. Â (c) Where a separate vote by a class or classes is required, a majority of the outstanding shares of such class or classes present in person or represented by proxy shall constitute a quorum entitled to take action with respect to that vote on that matter, and the affirmative vote of the majority of shares of such class or classes present in person or represented by proxy at the meeting shall be the act of such class. Â Section 2.6 Voting Rights. Â (a) Except as otherwise provided by law, only persons in whose names shares entitled to vote stand on the stock records of the corporation on the record date for determining the stockholders entitled to vote at said meeting shall be entitled to vote at such meeting. Shares standing in the names of two or more persons shall be voted or represented in accordance with the determination of the majority of such persons, or, if only one of such persons is present in person or represented by proxy, such person shall have the right to vote such shares and such shares shall be deemed to be represented for the purpose of determining a quorum. Â (b) Every person entitled to vote or to execute consents shall have the right to do so either in person or by an agent or agents authorized by a written proxy executed by such person or his duly authorized agent, which proxy shall be filed with the Secretary of the corporation at or before the meeting at which it is to be used. Said proxy so appointed need not be a stockholder. No proxy shall be voted on after three (3) years from its date unless the proxy provides for a longer period. Unless and until voted, every proxy shall be revocable at the pleasure of the person who executed it or of his legal representatives or assigns, except in those cases where an irrevocable proxy permitted by statute has been given. Â (c) Without limiting the manner in which a stockholder may authorize another person or persons to act for him as proxy pursuant to subsection (b) of this section, the following shall constitute a valid means by which a stockholder may grant such authority: Â (1) A stockholder may execute a writing authorizing another person or persons to act for him as proxy. Execution may be accomplished by the stockholder or his authorized officer, director, employee or agent signing such writing or causing his or her signature to be affixed to such writing by any reasonable means including, but not limited to, by facsimile signature. Â (2) A stockholder may authorize another person or persons to act for him as proxy by transmitting or authorizing the transmission of a telephone, telegram, cablegram or other means of electronic transmission to the person who will be the holder of the proxy or to a proxy solicitation firm, proxy support service organization or like agent duly authorized by the person who will be the holder of the proxy to receive such transmission, provided that any such telephone, telegram, cablegram or other means of electronic transmission must either set forth or be submitted with information from which it can be determined that the telephone, telegram, cablegram or other electronic transmission was authorized by the stockholder. Such authorization can be established by the signature of the stockholder on the proxy, either in writing or by a signature stamp or facsimile signature, or by a number or symbol from which the identity of the stockholder can be determined, or by any other procedure deemed appropriate by the inspectors or other persons making the determination as to due authorization. Â If it is determined that such telegrams, cablegrams or other electronic transmissions are valid, the inspectors or, if there are no inspectors, such other persons making that determination shall specify the information upon which they relied. Â 4 Â Â (d) Any copy, facsimile telecommunication or other reliable reproduction of the writing or transmission created pursuant to subsection (c) of this section may be substituted or used in lieu of the original writing or transmission for any and all purposes for which the original writing or transmission could be used, provided that such copy, facsimile telecommunication or other reproduction shall be a complete reproduction of the entire original writing or transmission. Â Section 2.7 Voting Procedures and Inspectors of Elections. Â (a) The corporation shall, in advance of any meeting of stockholders, appoint one or more inspectors to act at the meeting and make a written report thereof. The corporation may designate one or more persons as alternate inspectors to replace any inspector who fails to act. If no inspector or alternate is able to act at a meeting of stockholders, the person presiding at the meeting shall appoint one or more inspectors to act at the meeting. Each inspector, before entering upon the discharge of his duties, shall take and sign an oath faithfully to execute the duties of inspector with strict impartiality and according to the best of his ability. Â (b) The inspectors shall (i) ascertain the number of shares outstanding and the voting power of each, (ii) determine the shares represented at a meeting and the validity of proxies and ballots, (iii) count all votes and ballots, (iv) determine and retain for a reasonable period a record of the disposition of any challenges made to any determination by the inspectors, and (v) certify their determination of the number of shares represented at the meeting and their count of all votes and ballots. The inspectors may appoint or retain other persons or entities to assist the inspectors in the performance of the duties of the inspectors. Â (c) The date and time of the opening and the closing of the polls for each matter upon which the stockholders will vote at a meeting shall be announced at the meeting. No ballot, proxies or votes, nor any revocations thereof or changes thereto, shall be accepted by the inspectors after the closing of the polls unless the Court of Chancery upon application by a stockholder shall determine otherwise. Â (d) In determining the validity and counting of proxies and ballots, the inspectors shall be limited to an examination of the proxies, any envelopes submitted with those proxies, any information provided in accordance with Sections 211(e) or 212(c)(2) of the Delaware General Corporation Law, or any information provided pursuant to Section 211(a)(2)(B)(i) or (iii) thereof, ballots and the regular books and records of the corporation, except that the inspectors may consider other reliable information for the limited purpose of reconciling proxies and ballots submitted by or on behalf of banks, brokers, their nominees or similar persons which represent more votes than the holder of a proxy is authorized by the record owner to cast or more votes than the stockholder holds of record. If the inspectors consider other reliable information for the limited purpose permitted herein, the inspectors at the time they make their certification pursuant to subsection (b)(v) of this section shall specify the precise information considered by them including the person or persons from whom they obtained the information, when the information was obtained, the means by which the information was obtained and the basis for the inspectorsâ€™ belief that such information is accurate and reliable. Â 5 Â Â Section 2.8 List of Stockholders. Â The officer who has charge of the stock ledger of the corporation shall prepare and make, at least ten days before every meeting of stockholders, a complete list of the stockholders entitled to vote at said meeting, arranged in alphabetical order, showing the address of and the number of shares registered in the name of each stockholder. The corporation need not include electronic mail addresses or other electronic contact information on such list. Such list shall be open to the examination of any stockholder for any purpose germane to the meeting for a period of at least 10 days prior to the meeting: (i) on a reasonably accessible electronic network, provided that the information required to gain access to such list is provided with the notice of the meeting, or (ii) during ordinary business hours at the principal place of business of the corporation. In the event that the corporation determines to make the list available on an electronic network, the corporation may take reasonable steps to ensure that such information is available only to stockholders of the corporation. If the meeting is to be held at a place, then the list shall be produced and kept at the time and place of the meeting during the whole time thereof, and may be inspected by any stockholder who is present. If the meeting is to be held solely by means of remote communication, then the list shall also be open to the examination of any stockholder during the whole time of the meeting on a reasonably accessible electronic network, and the information required to access such list shall be provided with the notice of the meeting. Â Section 2.9 Stockholder Proposals at Annual Meetings. Â At an annual meeting of the stockholders, only such business shall be conducted as shall have been properly brought before the meeting. To be properly brought before an annual meeting, business must be specified in the notice of meeting (or any supplement thereto) given by or at the direction of the Board of Directors, otherwise properly brought before the meeting by or at the direction of the Board of Directors, or otherwise properly brought before the meeting by a stockholder. In addition to any other applicable requirements for business to be properly brought before an annual meeting by a stockholder, the stockholder must have given timely notice thereof in writing to the Secretary of the corporation. To be timely a stockholderâ€™s notice must be delivered to or mailed and received at the principal executive offices of the corporation not less than 45 days nor more than 75 days prior to the date on which the corporation first mailed its proxy materials for the previous yearâ€™s annual meeting of stockholders (or the date on which the corporation mails its proxy materials for the current year if during the prior year the corporation did not hold an annual meeting or if the date of the annual meeting was changed more than 30 days from the prior year). A stockholderâ€™s notice to the Secretary shall set forth as to each matter the stockholder proposes to bring before the annual meeting (i) a brief description of the business desired to be brought before the annual meeting and the reasons for conducting such business at the annual meeting, (ii) the name and record address of the stockholder proposing such business, (iii) the class and number of shares of the corporation which are beneficially owned by the stockholder, and (iv) any material interest of the stockholder in such business. Â 6 Â Â Notwithstanding anything in the Bylaws to the contrary, no business shall be conducted at the annual meeting except in accordance with the procedures set forth in Section 2.1 and this Section 2.9, provided, however, that nothing in this Section 2.9 shall be deemed to preclude discussion by any stockholder of any business properly brought before the annual meeting in accordance with said procedure. Â The Chairman of an annual meeting shall, if the facts warrant, determine and declare to the meeting that business was not properly brought before the meeting in accordance with the provisions of Section 2.1 and this Section 2.9, and if he should so determine he shall so declare to the meeting, and any such business not properly brought before the meeting shall not be transacted. Â Nothing in this Section 2.9 shall affect the right of a stockholder to request inclusion of a proposal in the corporationâ€™s proxy statement to the extent that such right is provided by an applicable rule of the Securities and Exchange Commission. Â Section 2.10 Nominations of Persons for Election to the Board of Directors. Â In addition to any other applicable requirements, only persons who are nominated in accordance with the following procedures shall be eligible for election as directors. Nominations of persons for election to the Board of Directors of the corporation may be made at a meeting of stockholders by or at the direction of the Board of Directors, by any nominating committee or person appointed by the Board of Directors or by any stockholder of the corporation entitled to vote for the election of directors at the meeting who complies with the notice procedures set forth in this Section 2.10. Such nominations, other than those made by or at the direction of the Board of Directors, shall be made pursuant to timely notice in writing to the Secretary of the corporation. To be timely, a stockholderâ€™s notice must be delivered to or mailed and received at the principal executive offices of the corporation, not less than 45 days nor more than 75 days prior to the date on which the corporation first mailed its proxy materials for the previous yearâ€™s annual meeting of shareholders (or the date on which the corporation mails its proxy materials for the current year if during the prior year the corporation did not hold an annual meeting or if the date of the annual meeting was changed more than 30 days from the prior year). Such stockholderâ€™s notice shall set forth (a) as to each person whom the stockholder proposes to nominate for election or re-election as a director, (i) the name, age, business address and residence address of the person, (ii) the principal occupation or employment of the person, (iii) the class and number of shares of the corporation which are beneficially owned by the person, and (iv) any other information relating to the person that is required to be disclosed in solicitations for proxies for election of directors pursuant to Rule 14a under the Securities Exchange Act of 1934; and (b) as to the stockholder giving the notice, (i) the name and record address of the stockholder, and (ii) the class and number of shares of the corporation which are beneficially owned by the stockholder. The corporation may require any proposed nominee to furnish such other information as may reasonably be required by the corporation to determine the eligibility of such proposed nominee to serve as a director of the corporation. No person shall be eligible for election as a director of the corporation unless nominated in accordance with the procedures set forth herein. These provisions shall not apply to nomination of any persons entitled to be separately elected by holders of preferred stock. Â The Chairman of the meeting shall, if the facts warrant, determine and declare to the meeting that a nomination was not made in accordance with the foregoing procedure, and if he should so determine, he shall so declare to the meeting and the defective nomination shall be disregarded. Â 7 Â Â Section 2.11 Action Without Meeting. Â (a) Unless otherwise provided in the Certificate of Incorporation, any action required by statute to be taken at any annual or special meeting of stockholders of the corporation, or any action which may be taken at any annual or special meeting of such stockholders, may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing setting forth the action so taken are signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted. To be effective, a written consent must be delivered to the corporation by delivery to its registered office in Delaware, its principal place of business, or an officer or agent of the corporation having custody of the book in which proceedings of meetings of stockholders are recorded. Delivery made to a corporationâ€™s registered office shall be by hand or by certified or registered mail, return receipt requested. Every written consent shall bear the date of signature of each stockholder who signs the consent, and no written consent shall be effective to take the corporate action referred to therein unless, within 60 days of the earliest dated consent delivered in the manner required by this Section to the corporation, written consents signed by a sufficient number of holders to take action are delivered to the corporation in accordance with this Section. Prompt notice of the taking of the corporate action without a meeting by less than unanimous written consent shall be given to those stockholders who have not consented in writing. Â (b) A telegram, cablegram or other electronic transmission consent to an action to be taken and transmitted by a stockholder or proxyholder, or by a person or persons authorized to act for a stockholder or proxyholder, shall be deemed to be written, signed and dated for the purposes of this section, provided that any such telegram, cablegram or other electronic transmission sets forth or is delivered with information from which the corporation can determine (i) that the telegram, cablegram or other electronic transmission was transmitted by the stockholder or proxyholder or by a person or persons authorized to act for the stockholder or proxyholder, and (ii) the date on which such stockholder or proxyholder or authorized person or persons transmitted such telegram, cablegram or electronic transmission. The date on which such telegram, cablegram or electronic transmission is transmitted shall be deemed to be the date on which such consent was signed. No consent given by telegram, cablegram or other electronic transmission shall be deemed to have been delivered until such consent is reproduced in paper form and until such paper form shall be delivered to the corporation by delivery to its registered office in this State, its principal place of business or an officer or agent of the corporation having custody of the book in which proceedings of meetings of stockholders are recorded. Delivery made to a corporationâ€™s registered office shall be made by hand or by certified or registered mail, return receipt requested. Notwithstanding the foregoing limitations on delivery, consents given by telegram, cablegram or other electronic transmission may be otherwise delivered to the principal place of business of the corporation or to an officer or agent of the corporation having custody of the book in which proceedings of meetings of stockholders are recorded if to the extent and in the manner provided

by resolution of the Board of Directors of the corporation. Â (c) Any copy, facsimile or other reliable reproduction of a consent in writing may be substituted or used in lieu of the original writing for any and all purposes for which the original writing could be used, provided that such copy, facsimile or other reproduction shall be a complete reproduction of the entire original writing. Â 8 Â Â ARTICLE III Â DIRECTORS Â Section 3.1 Number and Term of Office. Â The number of directors of the corporation shall be fixed exclusively by resolutions adopted by a majority of the authorized number of directors constituting the Board of Directors, until changed by amendment of the Certificate of Incorporation or by a Bylaw amending this Section 3.1 duly adopted by the vote or written consent of holders of a majority of the outstanding shares or by the Board of Directors. Subject to the foregoing provisions for changing the number of directors, the initial number of directors of the corporation has been fixed at One. Â With the exception of the first Board of Directors, which shall be elected by the incorporator or incorporators, and except as provided in Section 3.3 of this Article III, the directors shall be elected by a plurality vote of the shares represented in person or by proxy, at the stockholders annual meeting in each year and entitled to vote on the election of directors. Elected directors shall hold office until the next annual meeting and until their successors shall be duly elected and qualified. Directors need not be stockholders. If, for any cause, the Board of Directors shall not have been elected at an annual meeting, they may be elected as soon thereafter as convenient at a special meeting of the stockholders called for that purpose in the manner provided in these Bylaws. Â Section 3.2 Powers. Â The powers of the corporation shall be exercised, its business conducted and its property controlled by or under the direction of the Board of Directors. Â Section 3.3 Vacancies. Â Vacancies and newly created directorships resulting from any increase in the authorized number of directors may be filled by a majority of the directors then in office, although less than a quorum, or by a sole remaining director, and each director so elected shall hold office for the unexpired portion of the term of the director whose place shall be vacant and until his successor shall have been duly elected and qualified. A vacancy in the Board of Directors shall be deemed to exist under this section in the case of the death, removal or resignation of any director, or if the stockholders fail at any meeting of stockholders at which directors are to be elected (including any meeting referred to in Section 3.4 below) to elect the number of directors then constituting the whole Board. Â 9 Â Â Section 3.4 Resignations and Removals. Â (a) Any director may resign at any time by delivering his resignation to the Secretary in writing or by electronic transmission, such resignation to specify whether it will be effective at a particular time, upon receipt by the Secretary or at the pleasure of the Board of Directors. If no such specification is made it shall be deemed effective at the pleasure of the Board of Directors. When one or more directors shall resign from the Board effective at a future date, a majority of the directors then in office, including those who have so resigned, shall have power to fill such vacancy or vacancies, the vote thereon to take effect when such resignation or resignations shall become effective, and each director so chosen shall hold office for the unexpired portion of the term of the director whose place shall be vacated and until his successor shall have been duly elected and qualified. Â (b) At a special meeting of stockholders called for the purpose in the manner hereinabove provided, the Board of Directors or any individual director may be removed from office, with or without cause, and a new director or directors elected by a vote of stockholders holding a majority of the outstanding shares entitled to vote at an election of directors. Â 1. Unless the Certificate of Incorporation otherwise provides, if the Board of Directors is classified, shareholders may effect removal only for cause. Â 2. If the corporation has cumulative voting for directors, if less than the entire board is to be removed, no director may be removed without cause if the votes cast against his removal would be sufficient to elect him if voted cumulatively at an election of the entire board. Â Section 3.5 Meetings. Â (a) The annual meeting of the Board of Directors shall be held immediately after the annual stockholdersâ€™ meeting and at the place where such meeting is held or at the place announced by the Chairman at such meeting. No notice of an annual meeting of the Board of Directors shall be necessary, and such meeting shall be held for the purpose of electing officers and transacting such other business as may lawfully come before it. Â (b) Except as hereinafter otherwise provided, regular meetings of the Board of Directors shall be held in the office of the corporation required to be maintained pursuant to Section 1.2 of Article I hereof. Regular meetings of the Board of Directors may also be held at any place, within or without the State of Delaware, which has been designated by resolutions of the Board of Directors or the written consent of all directors. Â (c) Special meetings of the Board of Directors may be held at any time and place within or without the State of Delaware whenever called by the Chairman of the Board or, if there is no Chairman of the Board, by the President, or by any of the directors. Â (d) Written notice of the time and place of all regular and special meetings of the Board of Directors shall be delivered personally to each director or sent by telegram or facsimile transmission or other form of electronic transmission at least 48 hours before the start of the meeting, or sent by first class mail at least 120 hours before the start of the meeting. Notice of any meeting may be waived in writing at any time before or after the meeting and will be waived by any director by attendance thereat. Â 10 Â Â Section 3.6 Quorum and Voting. Â (a) A quorum of the Board of Directors shall consist of a majority of the exact number of directors fixed from time to time in accordance with Section 3.1 of Article III of these Bylaws, but not less than one; provided, however, at any meeting whether a quorum be present or otherwise, a majority of the directors present may adjourn from time to time until the time fixed for the next regular meeting of the Board of Directors, without notice other than by announcement at the meeting. Â (b) At each meeting of the Board at which a quorum is present, all questions and business shall be determined by a vote of a majority of the directors present, unless a different vote be required by law, the Certificate of Incorporation, or these Bylaws. Â (c) Any member of the Board of Directors, or of any committee thereof, may participate in a meeting by means of conference telephone or other communication equipment by means of which all persons participating in the meeting can hear each other, and participation in a meeting by such means shall constitute presence in person at such meeting. Â (d) The transactions of any meeting of the Board of Directors, or any committee thereof, however called or noticed, or wherever held, shall be as valid as though had at a meeting duly held after regular call and notice if a quorum be present and if, either before or after the meeting, each of the directors not present shall sign a written waiver of notice, or a consent to holding such meeting, or an approval of the minutes thereof. All such waivers, consents or approvals shall be filed with the corporate records or made a part of the minutes of the meeting. Â Section 3.7 Action Without Meeting. Â Unless otherwise restricted by the Certificate of Incorporation or these Bylaws, any action required or permitted to be taken at any meeting of the Board of Directors or of any committee thereof may be taken without a meeting, if all members of the Board or of such committee, as the case may be, consent thereto in writing or by electronic transmission, and such writing or writings or electronic transmission or transmissions are filed with the minutes of proceedings of the Board or committee. Such filing shall be in paper form if the minutes are maintained in paper form and shall be in electronic form if the minutes are maintained in electronic form. Â Section 3.8 Fees and Compensation. Â Directors and members of committees may receive such compensation, if any, for their services, and such reimbursement for expenses, as may be fixed or determined by resolution of the Board of Directors. Â Section 3.9 Committees. Â (a) Executive Committee: The Board of Directors may appoint an Executive Committee of not less than one member, each of whom shall be a director. The Executive Committee, to the extent permitted by law, shall have and may exercise when the Board of Directors is not in session all powers of the Board in the management of the business and affairs of the corporation, except such committee shall not have the power or authority to amend these Bylaws or to approve or recommend to the stockholders any action which must be submitted to stockholders for approval under the General Corporation Law. Â 11 Â Â (b) Other Committees: The Board of Directors may, by resolution passed by a majority of the whole Board, from time to time appoint such other committees as may be permitted by law. Such other committees appointed by the Board of Directors shall have such powers and perform such duties as may be prescribed by the resolution or resolutions creating such committee, but in no event shall any such committee have the powers denied to the Executive Committee in these Bylaws. Â (c) Term: The members of all committees of the Board of Directors shall serve a term coexistent with that of the Board of Directors which shall have appointed such committee. The Board, subject to the provisions of subsections (a) or (b) of this Section 3.9, may at any time increase or decrease the number of members of a committee or terminate the existence of a committee; provided that no committee shall consist of less than one member. The membership of a committee member shall terminate on the date of his death or voluntary resignation, but the Board may at any time for any reason remove any individual committee member and the Board may fill any committee vacancy created by death, resignation, removal or increase in the number of members of the committee. The Board of Directors may designate one or more directors as alternate members of any committee, who may replace any absent or disqualified member at any meeting of the committee, and, in addition, in the absence or disqualification of any member of a committee, the member or members thereof present at any meeting and not disqualified from voting, whether or not he or they constitute a quorum, may unanimously appoint another member of the Board of Directors to act at the meeting in the place of any such absent or disqualified member. Â (d) Meetings: Unless the Board of Directors shall otherwise provide, regular meetings of the Executive Committee or any other committee appointed pursuant to this Section 3.9 shall be held at such times and places as are determined by the Board of Directors, or by any such committee, and when notice thereof has been given to each member of such committee, no further notice of such regular meetings need be given thereafter; special meetings of any such committee may be held at the principal office of the corporation required to be maintained pursuant to Section 1.2 of Article I hereof; or at any place which has been designated from time to time by resolution of such committee or by written consent of all members thereof, and may be called by any director who is a member of such committee upon written notice to the members of such committee of the time and place of such special meeting given in the manner provided for the giving of written notice to members of the Board of Directors of the time and place of special meetings of the Board of Directors. Notice of any special meeting of any committee may be waived in writing at any time after the meeting and will be waived by any director by attendance thereat. A majority of the authorized number of members of any such committee shall constitute a quorum for the transaction of business, and the act of a majority of those present at any meeting at which a quorum is present shall be the act of such committee. Â 12 Â Â ARTICLE IV Â OFFICERS Â Section 4.1 Officers Designated. Â The officers of the corporation shall be a President, a Secretary and a Treasurer. The Board of Directors or the President may also appoint a Chairman of the Board, one or more Vice- Presidents, assistant secretaries, assistant treasurers, and such other officers and agents with such powers and duties as it or he shall deem necessary. The order of the seniority of the Vice- Presidents shall be in the order of their nomination unless otherwise determined by the Board of Directors. The Board of Directors may assign such additional titles to one or more of the officers as they shall deem appropriate. Any one person may hold any number of offices of the corporation at any one time unless specifically prohibited therefrom by law. The salaries and other compensation of the officers of the corporation shall be fixed by or in the manner designated by the Board of Directors. Â Section 4.2 Tenure and Duties of Officers. Â (a) General: All officers shall hold office at the pleasure of the Board of Directors and until their successors shall have been duly elected and qualified, unless sooner removed. Any officer elected or appointed by the Board of Directors may be removed at any time by the Board of Directors. If the office of any officer becomes vacant for any reason, the vacancy may be filled by the Board of Directors. Nothing in these Bylaws shall be construed as creating any kind of contractual right to employment with the corporation. Â (b) Duties of Chairman of the Board of Directors: The Chairman of the Board of Directors (if there be such an officer appointed) when present shall preside at all meetings of the stockholders and the Board of Directors. The Chairman of the Board of Directors shall perform such other duties and have such other powers as the Board of Directors shall designate from time to time. Â (c) Duties of President: The President shall preside at all meetings of the stockholders and at all meetings of the Board of Directors, unless the Chairman of the Board of Directors has been appointed and is present. The President shall perform such other duties and have such other powers as the Board of Directors shall designate from time to time. Â (d) Duties of Vice-Presidents: The Vice-Presidents, in the order of their seniority, may assume and perform the duties of the President in the absence or disability of the President or whenever the office of the President is vacant. The Vice-President shall perform such other duties and have such other powers as the Board of Directors or the President shall designate from time to time. Â (e) Duties of Secretary: The Secretary shall attend all meetings of the stockholders and of the Board of Directors and any committee thereof, and shall record all acts and proceedings thereof in the minute book of the corporation, which may be maintained in either paper or electronic form. The Secretary shall give notice, in conformity with these Bylaws, of all meetings of the stockholders and of all meetings of the Board of Directors and any Committee thereof requiring notice. The Secretary shall perform such other duties and have such other powers as the Board of Directors shall designate from time to time. The President may direct any assistant secretary to assume and perform the duties of the Secretary in the absence or disability of the Secretary, and each assistant secretary shall perform such other duties and have such other powers as the Board of Directors or the President shall designate from time to time. Â 13 Â Â (f) Duties of Treasurer: The Treasurer shall keep or cause to be kept the books of account of the corporation in a thorough and proper manner, and shall render statements of the financial affairs of the corporation in such form and as often as required by the Board of Directors or the President. The Treasurer, subject to the order of the Board of Directors, shall have the custody of all funds and securities of the corporation. The Treasurer shall perform all other duties commonly incident to his office and shall perform such other duties and have such other powers as the Board of Directors or the President shall designate from time to time. The President may direct any assistant treasurer to assume and perform the duties of the Treasurer in the absence or disability of the Treasurer, and each assistant treasurer shall perform such other duties and have such other powers as the Board of Directors or the President shall designate from time to time. Â ARTICLE V Â ExECUTION OF CORPORATE INSTRUMENTS, AND Voting of Securities Owned by the Corporation Â Section 5.1 Execution of Corporate Instruments. Â (a) The Board of Directors may in its discretion determine the method and designate the signatory officer or officers, or other person or persons, to execute any corporate instrument or document, or to sign the corporate name without limitation, except where otherwise provided by law, and such execution or signature shall be binding upon the corporation. Â (b) Unless otherwise specifically determined by the Board of Directors or otherwise required by law, formal contracts of the corporation, promissory notes, deeds of trust, mortgages and other evidences of indebtedness of the corporation, and other corporate instruments or documents requiring the corporate seal, and certificates of shares of stock owned by the corporation, shall be executed, signed or endorsed by the Chairman of the Board (if there be such an officer appointed) or by the President; such documents may also be executed by any Vice- President and by the Secretary or Treasurer or any assistant secretary or assistant treasurer. All other instruments and documents requiring the corporate signature but not requiring the corporate seal may be executed as aforesaid or in such other manner as may be directed by the Board of Directors. Â (c) All checks and drafts drawn on banks or other depositaries on funds to the credit of the corporation or in special accounts of the corporation shall be signed by such person or persons as the Board of Directors shall authorize so to do. Â (d) Execution of any corporate instrument may be effected in such form, either manual, facsimile or electronic signature, as may be authorized by the Board of Directors. Â Section 5.2 Voting of Securities Owned by Corporation. Â All stock and other securities of other corporations owned or held by the corporation for itself or for other parties in any capacity shall be voted, and all proxies with respect thereto shall be executed, by the person authorized so to do by resolution of the Board of Directors or, in the absence of such authorization, by the Chairman of the Board (if there be such an officer appointed), or by the President, or by any Vice-President. Â 14 Â Â ARTICLE VI Â SHARES OF STOCk Â Section 6.1 Form and Execution of Certificates. Â The shares of the corporation shall be represented by certificates, provided that the Board of Directors may provide by resolution or resolutions that some or all of any or all classes or series of its stock shall be uncertificated shares. Any such resolution shall not apply to shares represented by a certificate until such certificate is surrendered to the corporation. Certificates for the shares of stock of the corporation shall be in such form as is consistent with the Certificate of Incorporation and applicable law. Every holder of stock in the corporation shall be entitled to have a certificate signed by, or in the name of the corporation by, the Chairman of the Board (if there be such an officer appointed), or by the President or any Vice-President and by the Treasurer or assistant treasurer or the Secretary or assistant secretary, certifying the number of shares owned by him in the corporation. Any or all of the signatures on the certificate may be a facsimile. In case any officer, transfer agent, or registrar who has signed or whose facsimile signature has been placed upon a certificate shall have ceased to be such officer, transfer agent, or registrar before such certificate is issued, it may be issued with the same effect as if he were such officer, transfer agent, or registrar at the date of issue. If the corporation shall be authorized to issue more than one class of stock or more than one series of any class, the powers, designations, preferences and relative, participating, optional or other special rights of each class of stock or series thereof and the qualifications, limitations or restrictions of such preferences and/or rights shall be set forth in full or summarized on the face or back of the certificate which the corporation shall issue to represent such class or series of stock, provided that, except as otherwise provided in section 202 of the Delaware General Corporation Law, in lieu of the foregoing requirements, there may be set forth on the face or back of the certificate which the corporation shall issue to represent such class or series of stock, a statement that the corporation will furnish without charge to each stockholder who so requests the powers, designations, preferences and relative, participating, optional or other special rights of each class of stock or series thereof and the qualifications, limitations or restrictions of such preferences and/or rights. Â Section 6.2 Lost Certificates. Â The Board of Directors may direct a new certificate or certificates to be issued in place of any certificate or certificates theretofore issued by the corporation alleged to have been lost or destroyed, upon the making of an affidavit of that fact by the person claiming the certificate of stock to be lost or destroyed. When authorizing such issue of a new certificate or certificates, the Board of Directors may, in its discretion and as a condition precedent to the issuance thereof, require the owner of such lost or destroyed certificate or certificates, or his legal representative, to indemnify the corporation in such manner as it shall require and/or to give the corporation a surety bond in such form and amount as it may direct as indemnity against any claim that may be made against the corporation with respect to the certificate alleged to

have been lost or destroyed. Â 15 Â Â Section 6.3 Transfers. Â Transfers of record of shares of stock of the corporation shall be made only upon its books by the holders thereof, in person or by attorney duly authorized, and upon the surrender of a certificate or certificates for a like number of shares, properly endorsed. Â Section 6.4 Fixing Record Dates. Â (a) In order that the corporation may determine the stockholders entitled to notice of or to vote at any meeting of stockholders or any adjournment thereof, the Board of Directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board of Directors, and which record date shall not be more than 60 nor less than 10 days before the date of such meeting. If no record date is fixed by the Board of Directors, the record date for determining stockholders entitled to notice of or to vote at a meeting of stockholders shall be at the close of business on the day next preceding the day on which notice is given, or, if notice is waived, at the close of business on the day next preceding the date on which the meeting is held. A determination of stockholders of record entitled notice of or to vote at a meeting of stockholders shall apply to any adjournment of the meeting; provided, however, that the Board of Directors may fix a new record date for the adjourned meeting. Â (b) In order that the corporation may determine the stockholders entitled to consent to corporate action in writing or by electronic transmission without a meeting, the Board of Directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board of Directors, and which date shall not be more than 10 days after the date upon which the resolution fixing the record date is adopted by the Board of Directors. If no record date has been fixed by the Board of Directors, the record date for determining stockholders entitled to consent to corporate action in writing or by electronic transmission without a meeting, when no prior action by the Board of Directors is required by the Delaware General Corporation Law, shall be the first date on which a signed written consent or electronic transmission setting forth the action taken or proposed to be taken is delivered to the corporation by delivery to its registered office in Delaware, its principal place of business, or an officer or agent of the corporation having custody of the book in which proceedings of meetings of stockholders are recorded; provided that any such electronic transmission shall satisfy the requirements of Section 2.11(b) and, unless the Board of Directors otherwise provides by resolution, no such consent by electronic transmission shall be deemed to have been delivered until such consent is reproduced in paper form and until such paper form shall be delivered to the corporation by delivery to its registered office in Delaware, its principal place of business or an officer or agent of the corporation having custody of the book in which proceedings of meetings of stockholders are recorded. Delivery made to a corporationâ€™s registered office shall be by hand or by certified or registered mail, return receipt requested. If no record date has been fixed by the Board of Directors and prior action by the Board of Directors is required by law, the record date for determining stockholders entitled to consent to corporate action in writing or by electronic transmission without a meeting shall be at the close of business on the day on which the Board of Directors adopts the resolution taking such prior action. Â 16 Â Â (c) In order that the corporation may determine the stockholders entitled to receive payment of any dividend or other distribution or allotment of any rights or the stockholders entitled to exercise any rights in respect of any change, conversion or exchange of stock, or for the purpose of any other lawful action, the Board of Directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted, and which record date shall be not more than 60 days prior to such action. If no record date is fixed, the record date for determining stockholders for any such purpose shall be at the close of business on the day on which the Board of Directors adopts the resolution relating thereto. Â Section 6.5 Registered Stockholders. Â The corporation shall be entitled to recognize the exclusive right of a person registered on its books as the owner of shares to receive dividends and to vote as such owner, and shall not be bound to recognize any equitable or other claim to or interest in such share or shares on the part of any other person, whether or not it shall have express or other notice thereof, except as otherwise provided by the laws of Delaware. Â ARTICLE VII Â Other Securities of the Corporation Â All bonds, debentures and other corporate securities of the corporation, other than stock certificates, may be signed by the Chairman of the Board (if there be such an officer appointed), or the President or any Vice-President or such other person as may be authorized by the Board of Directors and the corporate seal impressed thereon or a facsimile of such seal imprinted thereon and attested by the signature of the Secretary or an assistant secretary, or the Treasurer or an assistant treasurer; provided, however, that where any such bond, debenture or other corporate security shall be authenticated by the manual signature of a trustee under an indenture pursuant to which such bond, debenture or other corporate security shall be issued, the signature of the persons signing and attesting the corporate seal on such bond, debenture or other corporate security may be the imprinted facsimile of the signatures of such persons. Interest coupons appertaining to any such bond, debenture or other corporate security, authenticated by a trustee as aforesaid, shall be signed by the Treasurer or an assistant treasurer of the corporation, or such other person as may be authorized by the Board of Directors, or bear imprinted thereon the facsimile signature of such person. In case any officer who shall have signed or attested any bond, debenture or other corporate security, or whose facsimile signature shall appear thereon has ceased to be an officer of the corporation before the bond, debenture or other corporate security so signed or attested shall have been delivered, such bond, debenture or other corporate security nevertheless may be adopted by the corporation and issued and delivered as though the person who signed the same or whose facsimile signature shall have been used thereon had not ceased to be such officer of the corporation. Â 17 Â Â ARTICLE VIII Â Indemnification of Officers, Directors, Employees and Agents Â Section 8.1 Right to Indemnification. Â Each person who was or is a party or is threatened to be made a party to or is involved (as a party, witness, or otherwise), in any threatened, pending, or completed action, suit, or proceeding, whether civil, criminal, administrative, or investigative (hereinafter a â€œProceedingâ€), by reason of the fact that he, or a person of whom he is the legal representative, is or was a director or officer of the corporation or is or was serving at the request of the corporation as a director or officer of another corporation or of a partnership, joint venture, trust, or other enterprise, including service with respect to employee benefit plans, whether the basis of the Proceeding is alleged action in an official capacity as a director or officer or in any other capacity while serving as a director or officer, shall be indemnified and held harmless by the corporation to the fullest extent authorized by the Delaware General Corporation Law, as the same exists or may hereafter be amended or interpreted (but, in the case of any such amendment or interpretation, only to the extent that such amendment or interpretation permits the corporation to provide broader indemnification rights than were permitted prior thereto) against all expenses, liability, and loss (including attorneysâ€™ fees, judgments, fines, ERISA excise taxes or penalties, and amounts paid or to be paid in settlement, and any interest, assessments, or other charges imposed thereon, and any federal, state, local, or foreign taxes imposed on any director or officer as a result of the actual or deemed receipt of any payments under this Article) reasonably incurred or suffered by such person in connection with investigating, defending, being a witness in, or participating in (including on appeal), or preparing for any of the foregoing in, any Proceeding (hereinafter â€œExpensesâ€); provided, however, that except as to actions to enforce indemnification rights pursuant to Section 8.3 of this Article, the corporation shall indemnify any director or officer seeking indemnification in connection with a Proceeding (or part thereof) initiated by such person only if the Proceeding (or part thereof) was authorized by the Board of Directors of the corporation. The right to indemnification conferred in this Article shall be a contract right. Â Section 8.2 Authority to Advance Expenses. Â Expenses incurred by an officer or director (acting in his capacity as such) in defending a Proceeding shall be paid by the corporation in advance of the final disposition of such Proceeding, provided, however, that if required by the Delaware General Corporation Law, as amended, such Expenses shall be advanced only upon delivery to the corporation of an undertaking by or on behalf of such director or officer to repay such amount if it shall ultimately be determined that he is not entitled to be indemnified by the corporation as authorized in this Article or otherwise. Expenses incurred by other employees or agents of the corporation (or by the directors or officers not acting in their capacity as such, including service with respect to employee benefit plans) may be advanced upon such terms and conditions as the Board of Directors deems appropriate. Any obligation to reimburse the corporation for Expense advances shall be unsecured and no interest shall be charged thereon. Â Section 8.3 Right of Claimant to Bring Suit. Â If a claim under Section 8.1 or 8.2 of this Article is not paid in full by the corporation within 90 days after a written claim has been received by the corporation, the claimant may at any time thereafter bring suit against the corporation to recover the unpaid amount of the claim and, if successful in whole or in part, the claimant shall be entitled to be paid also the expense (including attorneysâ€™ fees) of prosecuting such claim. It shall be a defense to any such action (other than an action brought to enforce a claim for expenses incurred in defending a Proceeding in advance of its final disposition where the required undertaking has been tendered to the corporation) that the claimant has not met the standards of conduct that make it permissible under the Delaware General Corporation Law for the corporation to indemnify the claimant for the amount claimed. The burden of proving such a defense shall be on the corporation. Neither the failure of the corporation (including its Board of Directors, independent legal counsel, or its stockholders) to have made a determination prior to the commencement of such action that indemnification of the claimant is proper under the circumstances because he has met the applicable standard of conduct set forth in the Delaware General Corporation Law, nor an actual determination by the corporation (including its Board of Directors, independent legal counsel, or its stockholders) that the claimant had not met such applicable standard of conduct, shall be a defense to the action or create a presumption that claimant has not met the applicable standard of conduct. Â 18 Â Â Section 8.4 Provisions Nonexclusive. Â The rights conferred on any person by this Article shall not be exclusive of any other rights that such person may have or hereafter acquire under any statute, provision of the Certificate of Incorporation, agreement, vote of stockholders or disinterested directors, or otherwise, both as to action in an official capacity and as to action in another capacity while holding such office. To the extent that any provision of the Certificate of Incorporation, agreement, or vote of the stockholders or disinterested directors is inconsistent with these Bylaws, the provision, agreement, or vote shall take precedence. Â Section 8.5 Authority to Insure. Â The corporation may purchase and maintain insurance to protect itself and any director, officer, employee or agent (hereafter an â€œAgentâ€) against any Expense, whether or not the corporation would have the power to indemnify the Agent against such Expense under applicable law or the provisions of this Article. Â Section 8.6 Survival of Rights. Â The rights provided by this Article shall continue as to a person who has ceased to be an Agent and shall inure to the benefit of the heirs, executors, and administrators of such a person. Â Section 8.7 Settlement of Claims. Â The corporation shall not be liable to indemnify any Agent under this Article (a) for any amounts paid in settlement of any action or claim effected without the corporationâ€™s written consent, which consent shall not be unreasonably withheld; or (b) for any judicial award if the corporation was not given a reasonable and timely opportunity, at its expense, to participate in the defense of such action. Â Section 8.8 Effect of Amendment. Â Any amendment, repeal, or modification of this Article shall not adversely affect any right or protection of any Agent existing at the time of such amendment, repeal, or modification. Â Section 8.9 Subrogation. Â In the event of payment under this Article, the corporation shall be subrogated to the extent of such payment to all of the rights of recovery of the Agent, who shall execute all papers required and shall do everything that may be necessary to secure such rights, including the execution of such documents necessary to enable the corporation effectively to bring suit to enforce such rights. Â Section 8.10 No Duplication of Payments. Â The corporation shall not be liable under this Article to make any payment in connection with any claim made against the Agent to the extent the Agent has otherwise actually received payment (under any insurance policy, agreement, vote, or otherwise) of the amounts otherwise indemnifiable hereunder. Â 19 Â Â ARTICLE Ix Â NOTICES Â Whenever, under any provisions of these Bylaws, notice is required to be given to any stockholder, the same shall be given either (1) in writing, timely and duly deposited in the United States Mail, postage prepaid, and addressed to his last known post office address as shown by the stock record of the corporation or its transfer agent, or (2) by a means of electronic transmission that satisfies the requirements of Section 2.4(e) of these Bylaws, and has been consented to by the stockholder to whom the notice is given. Any notice required to be given to any director may be given by either of the methods hereinabove stated, except that such notice other than one which is delivered personally, shall be sent to such address or (in the case of electronic communication) such e-mail address, facsimile telephone number or other form of electronic address as such director shall have filed in writing or by electronic communication with the Secretary of the corporation, or, in the absence of such filing, to the last known post office address of such director. If no address of a stockholder or director be known, such notice may be sent to the office of the corporation required to be maintained pursuant to Section 1.2 of Article I hereof. An affidavit of mailing, executed by a duly authorized and competent employee of the corporation or its transfer agent appointed with respect to the class of stock affected, specifying the name and address or the names and addresses of the stockholder or stockholders, director or directors, to whom any such notice or notices was or were given, and the time and method of giving the same, shall be conclusive evidence of the statements therein contained. All notices given by mail, as above provided, shall be deemed to have been given as at the time of mailing and all notices given by means of electronic transmission shall be deemed to have been given as at the sending time recorded by the electronic transmission equipment operator transmitting the same. It shall not be necessary that the same method of giving notice be employed in respect of all directors, but one permissible method may be employed in respect of any one or more, and any other permissible method or methods may be employed in respect of any other or others. The period or limitation of time within which any stockholder may exercise any option or right, or enjoy any privilege or benefit, or be required to act, or within which any director may exercise any power or right, or enjoy any privilege, pursuant to any notice sent him in the manner above provided, shall not be affected or extended in any manner by the failure of such a stockholder or such director to receive such notice. Whenever any notice is required to be given under the provisions of the statutes or of the Certificate of Incorporation, or of these Bylaws, a waiver thereof in writing signed by the person or persons entitled to said notice, or a waiver by electronic transmission by the person entitled to notice, whether before or after the time stated therein, shall be deemed equivalent thereto. Whenever notice is required to be given, under any provision of law or of the Certificate of Incorporation or Bylaws of the corporation, to any person with whom communication is unlawful, the giving of such notice to such person shall not be required and there shall be no duty to apply to any governmental authority or agency for a license or permit to give such notice to such person. Any action or meeting which shall be taken or held without notice to any such person with whom communication is unlawful shall have the same force and effect as if such notice had been duly given. In the event that the action taken by the corporation is such as to require the filing of a certificate under any provision of the Delaware General Corporation Law, the certificate shall state, if such is the fact and if notice is required, that notice was given to all persons entitled to receive notice except such persons with whom communication is unlawful. Â ARTICLE x Â AMENDMENTS Â These Bylaws may be repealed, altered or amended or new Bylaws adopted by written consent of stockholders in the manner authorized by Section 2.11 of Article II, or at any meeting of the stockholders, either annual or special, by the affirmative vote of a majority of the stock entitled to vote at such meeting, unless a larger vote is required by these Bylaws or the Certificate of Incorporation. The Board of Directors shall also have the authority to repeal, alter or amend these Bylaws or adopt new Bylaws (including, without limitation, the amendment of any Bylaws setting forth the number of directors who shall constitute the whole Board of Directors) by unanimous written consent or at any annual, regular, or special meeting by the affirmative vote of a majority of the whole number of directors, subject to the power of the stockholders to change or repeal such Bylaws and provided that the Board of Directors shall not make or alter any Bylaws fixing the qualifications, classifications, or term of office of directors. EX-4.3 5 ea020920901ex4-3_hanryuhold.htm DESCRIPTION OF REGISTRANT'S SECURITIES Exhibit 4.3 Â DESCRIPTION OF SECURITIES Â Under â€œDescription of Securities,â€ â€œwe,â€ â€œus,â€ â€œour,â€ the â€œCompanyâ€ and â€œour Companyâ€ refer to Hanryu Holdings, Inc. and not to any of its subsidiaries. Â General Â The following description of our capital stock and certain provisions of our certificate of incorporation and bylaws are

summaries and are qualified by reference to the certificate of incorporation and the bylaws. Â Authorized Capitalization Â Â The total amount of our authorized share capital consists of 100,000,000 shares of common stock, par value $0.001 per share, and 10,000,000 shares of preferred stock, par value $0.001 per share. Â Common Stock Â Holders of shares of our common stock are entitled to one vote for each share held of record on all matters on which stockholders are entitled to vote generally, including the election or removal of directors. The holders of our common stock do not have cumulative voting rights in the election of directors. Â Holders of shares of our common stock are entitled to receive dividends at the same rate when, as and if declared by our board of directors out of funds legally available therefor, subject to any statutory or contractual restrictions on the payment of dividends and to the rights of the holders of one or more outstanding series of our preferred stock. Â Â Â Upon our liquidation, dissolution or winding up, and after payment in full of all amounts required to be paid to creditors, the holders of shares of our common will be entitled to receive pro rata our remaining assets available for distribution. Â All shares of our common stock that are outstanding are fully paid and non-assessable. The common stock is to be subject to further calls or assessments by us. Holders of shares of our common stock do not have preemptive, subscription, redemption or conversion rights. There will be no redemption or sinking fund provisions applicable to the common stock. The rights, powers, preferences and privileges of holders of our common stock will be subject to those of the holders of any shares of our preferred stock or any other series or class of stock we may authorize and issue in the future. Â No shares of common stock are subject to redemption or have preemptive rights to purchase additional shares of common stock. Holders of shares of our common stock do not have subscription, redemption or conversion rights. There are no redemption or sinking fund provisions applicable to the common stock. Â Anti-Takeover Provisions Â Because our stockholders do not have cumulative voting rights, stockholders holding a majority of the voting power of our shares of common stock will be able to elect all our directors. A special meeting of stockholders may be called by a majority of our board of directors, the chair of our board of directors, or our chief executive officer. Our bylaws establish an advance notice procedure for stockholder proposals to be brought before an annual meeting of our stockholders, including proposed nominations of persons for election to our board of directors. Â This will make it more difficult for another party to obtain control of us by replacing our board of directors. Since our board of directors has the power to retain and discharge our officers, these provisions could also make it more difficult for existing stockholders or another party to effect a change in management. This intended to preserve our existing control structure following this offering, facilitate our continued product innovation and the risk-taking that it requires, permit us to continue to prioritize our long-term goals rather than short-term results, enhance the likelihood of continued stability in the composition of our board of directors and its policies and to discourage certain types of transactions that may involve an actual or threatened acquisition of us. These provisions are also designed to reduce our vulnerability to an unsolicited acquisition proposal and to discourage certain tactics that may be used in proxy fights. However, such provisions could have the effect of discouraging others from making tender offers for our shares and may have the effect of deterring hostile takeovers or delaying changes in our control or management. As a consequence, these provisions may also inhibit fluctuations in the market price of our stock that could result from actual or rumored takeover attempts. Â Â Â Â Section 203 of the Delaware General Corporation Law Â We are subject to Section 203 of the Delaware General Corporation Law, which prohibits a Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years after the date that such stockholder became an interested stockholder, subject to certain exceptions. Â Exclusive Forum Â Our bylaws contain an exclusive forum provision providing that the Court of Chancery of the State of Delaware will be the sole and exclusive forum for: (1) any derivative action or proceeding brought on our behalf, (2) any action asserting a claim of breach of a fiduciary duty owed by, or other wrongdoing by, any of our directors, officers, employees, agents or stockholders, (3) any action asserting a claim arising pursuant to any provision of the Delaware General Corporation Law, our certificate of incorporation or our bylaws, or (4) any action asserting a claim that is governed by the internal affairs doctrine. However, the exclusive forum provision states that it shall not apply to actions arising under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934. Â In addition, Section 22 of the Securities Act creates concurrent jurisdiction for federal and state courts over all suits brought to enforce any duty or liability created by the Securities Act or the rules and regulations thereunder. As a result, the exclusive forum provision will not apply to suits brought to enforce any duty or liability created by the Securities Act or any other claim for which the federal and state courts have concurrent jurisdiction, and our stockholders will not be deemed to have waived our compliance with the federal securities laws and the rules and regulations thereunder. Â Any person purchasing or otherwise acquiring any interest in any shares of our capital stock shall be deemed to have notice of and to have consented to this provision included in our bylaws. The exclusive forum provision, if enforced, may limit a stockholderâ€™s ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our directors, officers or other employees, which may discourage such lawsuits. Alternatively, if a court were to find the exclusive forum provision to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could have a material adverse effect on our business, financial condition, results of operations and growth prospects. For example, the Court of Chancery of the State of Delaware recently determined that a provision stating that U.S. federal district courts are the exclusive forum for resolving any complaint asserting a cause of action arising under the Securities Act is not enforceable. Â Corporate Opportunities Â Our certificate of incorporation provides that we renounce any interest or expectancy in the business opportunities of our its officers, directors, agents, stockholders, members, partners, affiliates and subsidiaries and each such party shall not have any obligation to offer us those opportunities unless presented to one of our directors or officers in his or her capacity as a director or officer. Â Transfer Agent and Registrar Â Our transfer agent and registrar is Colonial Stock Transfer Company. Â Â Â Â Â EX-10.1 6 ea020920901ex10-1_hanryuhold.htm FORM OF IPO LOCK-UP AGREEMENT Exhibit 10.1 Â Form of Lock-Up Agreement Â _____, 2023 Â Aegis Capital Corp. 1345 Avenue of the Americas 27th Floor New York, NY 10105 Â Ladies and Gentlemen: Â The undersigned understands that Aegis Capital Corp. (the â€œUnderwriterâ€), proposes to enter into an Underwriting Agreement (the â€œUnderwriting Agreementâ€) with Hanryu Holdings, Inc., a Delaware corporation (the â€œCompanyâ€), providing for the public offering (the â€œPublic Offeringâ€) of shares of common stock, $0.001 par value, of the Company (the â€œSharesâ€). Â To induce the Underwriter to continue its efforts in connection with the Public Offering, the undersigned hereby agrees that, without the prior written consent of the Underwriter, the undersigned will not, during the period commencing on the date hereof and ending one hundred eighty (180) days after the date of the Underwriting Agreement (the â€œLock-Up Periodâ€), (1) offer, pledge, sell, contract to sell, grant, lend, or otherwise transfer or dispose of, directly or indirectly, any Shares or any securities convertible into or exercisable or exchangeable for Shares, whether now owned or hereafter acquired by the undersigned or with respect to which the undersigned has or hereafter acquires the power of disposition (collectively, the â€œLock-Up Securitiesâ€); (2) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the Lock-Up Securities, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of Lock-Up Securities, in cash or otherwise; (3) make any demand for or exercise any right with respect to the registration of any Lock- Up Securities; or (4) publicly disclose the intention to make any offer, sale, pledge or disposition, or to enter into any transaction, swap, hedge or other arrangement relating to any Lock-Up Securities. Notwithstanding the foregoing, and subject to the conditions below, the undersigned may transfer Lock-Up Securities without the prior written consent of the Underwriter in connection with (a) transactions relating to Lock-Up Securities acquired in open market transactions after the completion of the Public Offering; provided that no filing under Section 13 or Section 16(a) of the Securities Exchange Act of 1934, as amended (the â€œExchange Actâ€), or other public announcement shall be required or shall be voluntarily made in connection with subsequent sales of Lock-Up Securities acquired in such open market transactions; (b) transfers of Lock-Up Securities as a bona fide gift, by will or intestacy or to a family member or trust for the benefit of the undersigned (for purposes of this lock-up agreement, â€œfamily memberâ€ means any relationship by blood, marriage or adoption, not more remote than first cousin); (c) transfers of Lock-Up Securities to a charity or educational institution; (d) if the undersigned is a corporation, partnership, limited liability company or other business entity, (i) any transfers of Lock-Up Securities to another corporation, partnership or other business entity that controls, is controlled by or is under common control with the undersigned or (ii) distributions of Lock-Up Securities to members, partners, stockholders, subsidiaries or affiliates (as defined in Rule 405 promulgated under the Securities Act of 1933, as amended) of the undersigned; (e) if the undersigned is a trust, to a trustee or beneficiary of the trust; provided that in the case of any transfer pursuant to the foregoing clauses (b), (c) (d) or (e), (i) any such transfer shall not involve a disposition for value, (ii) each transferee shall sign and deliver to the Underwriter a lock-up agreement substantially in the form of this lock-up agreement and (iii) no filing under Section 13 or Section 16(a) of the Exchange Act or other public announcement shall be required or shall be voluntarily made during the Lock-Up Period; (f) the receipt by the undersigned from the Company of Shares upon the vesting of restricted stock awards or stock units or upon the exercise of options to purchase the Companyâ€™s Shares issued under an equity incentive plan of the Company or an employment arrangement described in the Pricing Prospectus (as defined in the Underwriting Agreement) (the â€œPlan Sharesâ€) or the transfer or withholding of Shares or any securities convertible into Shares to the Company upon a vesting event of the Companyâ€™s securities or upon the exercise of options to purchase the Companyâ€™s securities, in each case on a â€œcashlessâ€ or â€œnet exerciseâ€ basis or to cover tax obligations of the undersigned in connection with such vesting or exercise, provided that if the undersigned is required to file a report under Section 13 or Section 16(a) of the Exchange Act reporting a reduction in beneficial ownership of Shares during the Lock-Up Period, the undersigned shall include a statement in such schedule or report to the effect that the purpose of such transfer was to cover tax withholding obligations of the undersigned in connection with such vesting or exercise and, provided further, that the Plan Shares shall be subject to the terms of this lock-up agreement; (g) the transfer of Lock-Up Securities pursuant to agreements described in the Pricing Prospectus under which the Company has the option to repurchase such securities or a right of first refusal with respect to the transfer of such securities, provided that if the undersigned is required to file a report under Section 13 or Section 16(a) of the Exchange Act reporting a reduction in beneficial ownership of Shares during the Lock-Up Period, the undersigned shall include a statement in such schedule or report describing the purpose of the transaction; (h) the establishment of a trading plan pursuant to Rule 10b5-1 under the Exchange Act for the transfer of Lock-Up Securities, provided that (i) such plan does not provide for the transfer of Lock-Up Securities during the Lock-Up Period and (ii) to the extent a public announcement or filing under the Exchange Act, if any, is required of or voluntarily made by or on behalf of the undersigned or the Company regarding the establishment of such plan, such public announcement or filing shall include a statement to the effect that no transfer of Lock-Up Securities may be made under such plan during the Lock-Up Period; (i) the transfer of Lock-Up Securities that occurs by operation of law, such as pursuant to a qualified domestic order or in connection with a divorce settlement, provided that the transferee agrees to sign and deliver a lock-up agreement substantially in the form of this lock-up agreement for the balance of the Lock-Up Period, and provided further, that any filing under Section 13 or Section 16(a) of the Exchange Act that is required to be made during the Lock-Up Period as a result of such transfer shall include a statement that such transfer has occurred by operation of law; and (j) the transfer of Lock- Up Securities pursuant to a bona fide third party tender offer, merger, consolidation or other similar transaction made to all holders of the Shares involving a change of control (as defined below) of the Company after the closing of the Public Offering and approved by the Companyâ€™s board of directors; provided that in the event that the tender offer, merger, consolidation or other such transaction is not completed, the Lock-Up Securities owned by the undersigned shall remain subject to the restrictions contained in this lock-up agreement. For purposes of clause (j) above, â€œchange of controlâ€ shall mean the consummation of any bona fide third party tender offer, merger, amalgamation, consolidation or other similar transaction the result of which is that any â€œpersonâ€ (as defined in Section 13(d)(3) of the Exchange Act), or group of persons, becomes the beneficial owner (as defined in Rules 13d-3 and 13d- 5 of the Exchange Act) of a majority of total voting power of the voting stock of the Company. The undersigned also agrees and consents to the entry of stop transfer instructions with the Companyâ€™s transfer agent and registrar against the transfer of the undersignedâ€™s Lock-Up Securities except in compliance with this lock-up agreement. Â Â Â Â If the undersigned is an officer or director of the Company, (i) the undersigned agrees that the foregoing restrictions shall be equally applicable to any issuer-directed or â€œfriends and familyâ€ securities that the undersigned may purchase in the Public Offering; (ii) the Underwriter agrees that, at least three (3) Business Days before the effective date of any release or waiver of the foregoing restrictions in connection with a transfer of Lock-Up Securities, the Underwriter will notify the Company of the impending release or waiver; and (iii) the Company has agreed in the Underwriting Agreement to announce the impending release or waiver by press release through a major news service at least two (2) Business Days before the effective date of the release or waiver. Any release or waiver granted by the Underwriter hereunder to any such officer or director shall only be effective two (2) Business Days after the publication date of such press release. The provisions of this paragraph will not apply if (a) the release or waiver is effected solely to permit a transfer of Lock-Up Securities not for consideration and (b) the transferee has agreed in writing to be bound by the same terms described in this lock-up agreement to the extent and for the duration that such terms remain in effect at the time of such transfer. Â The undersigned understands that the Company and the Underwriter are relying upon this lock-up agreement in proceeding toward consummation of the Public Offering. The undersigned further understands that this lock-up agreement is irrevocable and shall be binding upon the undersignedâ€™s heirs, legal representatives, successors and assigns. Â The undersigned understands that, if the Underwriting Agreement is not executed by [â—], 2023 or if the Underwriting Agreement (other than the provisions thereof which survive termination) shall terminate or be terminated prior to payment for and delivery of the Shares to be sold thereunder, then this lock-up agreement shall be void and of no further force or effect. Â Whether or not the Public Offering actually occurs depends on a number of factors, including market conditions. Any Public Offering will only be made pursuant to an Underwriting Agreement, the terms of which are subject to negotiation between the Company and the Underwriter. PURPOSE Â The Plan is intended to enhance the Companyâ€™s and its Affiliatesâ€™ (as defined herein) ability to attract and retain highly qualified officers, Non-Employee Directors (as defined herein), key employees, consultants and advisors, and to motivate such officers, Non-Employee Directors, key employees, consultants and advisors to serve the Company and its Affiliates and to expend maximum effort to improve the business operations, prospects and results of the Company, by providing to such persons an opportunity to acquire or increase a direct proprietary interest in the operations and future success of the Company.Â To this end, the Plan provides for the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, other stock-based awards and cash awards. Any of these awards may, but need not, be made as performance incentives to reward attainment of performance goals in accordance with the terms hereof. Stock options granted under the Plan may be non-qualified stock options or incentive stock options, as provided herein.Â Upon becoming effective, the Plan replaces, and no further awards shall be made under, the Predecessor Plans (as defined herein). Â 2. DEFINITIONS Â For purposes of interpreting the Plan and related documents (including Award Agreements), the following definitions shall apply: Â 2.1 â€œAffiliateâ€Â means any company or other trade or business that â€œcontrols,â€ is â€œcontrolled byâ€ or is â€œunder common controlâ€ with the Company within the meaning of Rule 405 of Regulation C under the Securities Act, including, without limitation, any Subsidiary. Â 2.2 â€œAwardâ€ means a grant of an Option, Stock Appreciation Right, Restricted Stock, Restricted Stock Unit, or Other Stock-based Award under the Plan. Â 2.3 â€œAward Agreementâ€ means a written agreement between the Company and a Grantee, or notice from the Company or an Affiliate to a Grantee that evidences and sets forth the terms and conditions of an Award. Â 2.4 â€œBeneficial Ownerâ€ means â€œBeneficial Ownerâ€ as defined in Rule 13d-3 and Rule 13d-5 under the Exchange Act; except that, in calculating the beneficial ownership of any particular Person, such Person shall be deemed to have beneficial ownership of all securities that such Person has the right to acquire by conversion or exercise of other securities, whether such right is currently exercisable or is exercisable only after the passage of time. The term â€œBeneficial Ownershipâ€ has a corresponding meaning. Â 2.5 â€œBoardâ€ means the Board of Directors of the Company. Â 2.6 â€œChange in Controlâ€ shall have the meaning set forth in Section 14.3.2. Â 2.7 â€œCodeâ€ means the Internal Revenue Code of 1986, as now in effect or as hereafter amended. References to the Code shall include the valid and binding governmental regulations, court decisions and other regulatory and judicial authority issued or rendered thereunder. Â Â Â Â 2.8 â€œCommitteeâ€ means the Compensation Committee of the Board or any committee or other person or persons designated by the Board to administer the Plan.Â The Board will cause the Committee to satisfy the applicable requirements of any stock exchange on which the Common Stock may then be listed.Â For purposes of Awards to Grantees who are subject to Section 16 of the Exchange Act, Committee means all of the members of the Committee who are â€œnon-employee directorsâ€ within the meaning of Rule 16b-3 adopted under the Exchange

Act.Â All references in the Plan to the Board shall mean such Committee or the Board. Â 2.9 â€œCompanyâ€ means Hanryu Holdings, Inc., a Delaware corporation, or any successor corporation. Â 2.10 â€œCommon Stockâ€ or â€œStockâ€ means a share of common stock of the Company, par value $0.001 per share. Â 2.11 â€œCorporate Transactionâ€ means a reorganization, merger, statutory share exchange, consolidation, sale of all or substantially all of the Companyâ€™s assets, or the acquisition of assets or stock of another entity by the Company, or other corporate transaction involving the Company or any of its Subsidiaries. Â 2.12 â€œEffective Dateâ€ means February 14, 2022, the date the Plan was approved by the Board. Â 2.13 â€œExchange Actâ€ means the Securities Exchange Act of 1934, as now in effect or as hereafter amended. Â 2.14 â€œFair Market Valueâ€ of a share of Common Stock as of a particular date means (i) if the Common Stock is listed on a national securities exchange, the closing or last price of the Common Stock on the composite tape or other comparable reporting system for the applicable date, or if the applicable date is not a trading day, the trading day immediately preceding the applicable date, or (ii) if the shares of Common Stock are not then listed on a national securities exchange, the closing or last price of the Common Stock quoted by an established quotation service for over-the-counter securities, or (iii) if the shares of Common Stock are not then listed on a national securities exchange or quoted by an established quotation service for over-the-counter securities, or the value of such shares is not otherwise determinable, such value as determined by the Board in good faith in its sole discretion. Â 2.15 â€œFamily Memberâ€ means a person who is a spouse, former spouse, child, stepchild, grandchild, parent, stepparent, grandparent, niece, nephew, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother, sister, brother-in-law, or sister-in-law, including adoptive relationships, of the applicable individual, any person sharing the applicable individualâ€™s household (other than a tenant or employee), a trust in which any one or more of these persons have more than fifty percent of the beneficial interest, a foundation in which any one or more of these persons (or the applicable individual) control the management of assets, and any other entity in which one or more of these persons (or the applicable individual) own more than fifty percent of the voting interests. Â 2.16 â€œGrant Dateâ€ means, as determined by the Board, the latest to occur of (i) the date as of which the Board approves an Award, (ii) the date on which the recipient of an Award first becomes eligible to receive an Award under Section 6 hereof, or (iii) such other date as may be specified by the Board in the Award Agreement. Â 2.17 â€œGranteeâ€ means a person who receives or holds an Award under the Plan. Â 2.18 â€œIncentive Stock Optionâ€ means an â€œincentive stock optionâ€ within the meaning of Section 422 of the Code, or the corresponding provision of any subsequently enacted tax statute, as amended from time to time. Â 2 Â Â 2.19 â€œNon-Employee Directorâ€ means a member of the Board who is not an officer or employee of the Company or any Subsidiary. Â 2.20 â€œNon-qualified Stock Optionâ€ means an Option that is not an Incentive Stock Option. Â 2.21 â€œOptionâ€ means an option to purchase one or more shares of Stock pursuant to the Plan. Â 2.22 â€œOption Priceâ€ means the exercise price for each share of Stock subject to an Option. Â 2.23 â€œOther Stock-based Awardsâ€ means Awards consisting of Stock units, or other Awards, valued in whole or in part by reference to, or otherwise based on, Common Stock, other than Options, Stock Appreciation Rights, Restricted Stock, and Restricted Stock Units. Â 2.24 â€œPersonâ€ means an individual, entity or group within the meaning of Section 13(d)(3) or 14(d)(2) of the Exchange Act. Â 2.25 â€œPlanâ€ means this Hanryu Holdings, Inc. 2022 Omnibus Equity Incentive Plan, as amended from time to time. Â 2.26 â€œPurchase Priceâ€ means the purchase price for each share of Stock pursuant to a grant of Restricted Stock. Â 2.27 â€œRestricted Periodâ€ shall have the meaning set forth in Section 10.1 hereof. Â 2.28 â€œRestricted Stockâ€ means shares of Stock, awarded to a Grantee pursuant to Section 10 hereof. Â 2.29 â€œRestricted Stock Unitâ€ means a bookkeeping entry representing the equivalent of shares of Stock, awarded to a Grantee pursuant to Section 10 hereof. Â 2.30 â€œSAR Exercise Priceâ€ means the per share exercise price of a SAR granted to a Grantee under Section 9 hereof. Â 2.31 â€œSECâ€ means the United States Securities and Exchange Commission. Â 2.32 â€œSection 409Aâ€ means Section 409A of the Code. Â 2.33 â€œSecurities Actâ€ means the Securities Act of 1933, as now in effect or as hereafter amended. Â 2.34 â€œSeparation from Serviceâ€ means a termination of Service by a Service Provider, as determined by the Board, which determination shall be final, binding and conclusive; provided if any Award governed by Section 409A is to be distributed on a Separation from Service, then the definition of Separation from Service for such purposes shall comply with the definition provided in Section 409A. Â 2.35 â€œServiceâ€ means service as a Service Provider to the Company or an Affiliate. Unless otherwise stated in the applicable Award Agreement, a Granteeâ€™s change in position or duties shall not result in interrupted or terminated Service, so long as such Grantee continues to be a Service Provider to the Company or an Affiliate. Â 2.36 â€œService Providerâ€ means an employee, officer, Non-Employee Director, consultant or advisor of the Company or an Affiliate. Â 3 Â Â 2.37 â€œStock Appreciation Rightâ€ or â€œSARâ€ means a right granted to a Grantee under Section 9 hereof. Â 2.38 â€œSubsidiaryâ€ means any â€œsubsidiary corporationâ€ of the Company within the meaning of Section 424(f) of the Code. Â 2.39Â Â â€œSubstitute Awardâ€ means any Award granted in assumption of or in substitution for an award of a company or business acquired by the Company or a Subsidiary or with which the Company or an Affiliate combines. Â 2.40Â Â â€œTen Percent Stockholderâ€ means an individual who owns more than ten percent (10%) of the total combined voting power of all classes of outstanding stock of the Company, its parent or any of its Subsidiaries. In determining stock ownership, the attribution rules of Section 424(d) of the Code shall be applied. Â 2.41 â€œTermination Dateâ€ means the date that is ten (10) years after the Effective Date, unless the Plan is earlier terminated by the Board under Section 5.2 hereof. Â 3. ADMINISTRATION OF THE PLAN Â 3.1 General. Â The Board shall have such powers and authorities related to the administration of the Plan as are consistent with the Companyâ€™s articles of incorporation and bylaws and applicable law. The Board shall have the power and authority to delegate its responsibilities hereunder to the Committee, which shall have full authority to act in accordance with its charter, and with respect to the authority of the Board to act hereunder, all references to the Board shall be deemed to include a reference to the Committee, to the extent such power or responsibilities have been delegated.Â Except as otherwise may be required by applicable law, regulatory requirement or the articles of incorporation or the bylaws of the Company, the Board shall have full power and authority to take all actions and to make all determinations required or provided for under the Plan, any Award or any Award Agreement, and shall have full power and authority to take all such other actions and make all such other determinations not inconsistent with the specific terms and provisions of the Plan that the Board deems to be necessary or appropriate to the administration of the Plan.Â The Committee shall administer the Plan; provided that, the Board shall retain the right to exercise the authority of the Committee to the extent consistent with applicable law and the applicable requirements of any securities exchange on which the Common Stock may then be listed.Â The interpretation and construction by the Board of any provision of the Plan, any Award or any Award Agreement shall be final, binding and conclusive. Without limitation, the Board shall have full and final authority, subject to the other terms and conditions of the Plan, to: Â (i) designate Grantees; Â (ii) determine the type or types of Awards to be made to a Grantee; Â (iii) determine the number of shares of Stock to be subject to an Award; Â (iv) establish the terms and conditions of each Award (including, but not limited to, the Option Price of any Option, the nature and duration of any restriction or condition (or provision for lapse thereof) relating to the vesting, exercise, transfer, or forfeiture of an Award or the shares of Stock subject thereto, and any terms or conditions that may be necessary to qualify Options as Incentive Stock Options); Â 4 Â Â (v) prescribe the form of each Award Agreement; and Â (vi) amend, modify, or supplement the terms of any outstanding Award including the authority, in order to effectuate the purposes of the Plan, to modify Awards to foreign nationals or individuals who are employed outside the United States to recognize differences in local law, tax policy, or custom. Â 3.2 Clawbacks. Â Awards shall be subject to the requirements of (i) Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (regarding recovery of erroneously awarded compensation) and any implementing rules and regulations thereunder, (ii) similar rules under the laws of any other jurisdiction, (iii) any compensation recovery policies adopted by the Company to implement any such requirements or (iv) any other compensation recovery policies as may be adopted from time to time by the Company, all to the extent determined by the Committee in its discretion to be applicable to a Grantee. Â 3.3 Minimum Vesting Conditions. Â Notwithstanding any other provision of the Plan to the contrary, no more than 25% of any equity-based Awards granted under the Plan shall vest on the date the Award is granted, excluding, for this purpose, any (i) Substitute Awards and (ii) shares delivered in lieu of fully vested cash incentive compensation under any applicable plan or program of the Company; and, provided, however, for the avoidance of doubt, that the foregoing restriction does not apply to the Boardâ€™s discretion to provide for accelerated exercisability or vesting of any Award, including in cases of retirement, death, disability or a Change in Control, in the terms of the Award or otherwise. Â 3.4 Deferral Arrangement. Â The Board may permit or require the deferral of any Award payment into a deferred compensation arrangement, subject to such rules and procedures as it may establish and in accordance with Section 409A, which may include provisions for the payment or crediting of interest or dividend equivalents, including converting such credits into deferred Stock units. Â 3.5 No Liability. Â No member of the Board or of the Committee shall be liable for any action or determination made in good faith with respect to the Plan, any Award or Award Agreement. Â 3.6 Book Entry. Â Notwithstanding any other provision of this Plan to the contrary, the Company may elect to satisfy any requirement under this Plan for the delivery of stock certificates through the use of book-entry. Â 4.Â STOCK SUBJECT TO THE PLAN Â 4.1 Authorized Number of Shares Â Subject to adjustment under Section 14, the total number of shares of Common Stock authorized to be awarded under the Plan shall not exceed 1,500,000.Â In addition, shares of Common Stock authorized and/or underlying any outstanding award granted under the Predecessor Plans that, following the Effective Date, expires, or is terminated, surrendered or forfeited for any reason without issuance of such shares shall be available for the grant of new Awards under this Plan.Â As provided in Section 1, no new awards shall be granted under the Predecessor Plans following the Effective Date.Â Shares issued under the Plan may consist in whole or in part of authorized but unissued shares, treasury shares, or shares purchased on the open market or otherwise, all as determined by the Company from time to time. Â 5 Â Â 4.2 Share Counting Â 4.2.1 General Â Each share of Common Stock granted in connection with an Award shall be counted as one share against the limit in Section 4.1, subject to the provisions of this Section 4.2. Â 4.2.2 Cash-Settled Awards Â Any Award settled in cash shall not be counted as shares of Common Stock for any purpose under this Plan. Â 4.2.3 Expired or Terminated Awards Â If any Award under the Plan expires, or is terminated, surrendered or forfeited, in whole or in part, without issuance or delivery of vested shares, the unissued or surrendered Common Stock covered by such Award shall again be available for the grant of Awards under the Plan. Â 4.2.4 Payment of Option Price or Tax Withholding in Shares Â The full number of shares of Common Stock with respect to which an Option or SAR is granted shall count against the aggregate number of shares available for grant under the Plan.Â Accordingly, if in accordance with the terms of the Plan, a Grantee pays the Option Price for an Option by either tendering previously owned shares or having the Company withhold shares, then such shares surrendered to pay the Option Price shall continue to count against the aggregate number of shares available for grant under the Plan set forth in Section 4.1 above.Â In addition, if in accordance with the terms of the Plan, a Grantee satisfies any tax withholding requirement with respect to any taxable event arising as a result of this Plan for any Award (including Restricted Stock and Restricted Stock Units) by either tendering previously owned shares or having the Company withhold shares, then such shares surrendered to satisfy such tax withholding requirements shall continue to count against the aggregate number of shares available for grant under the Plan set forth in Section 4.1 above.Â Any shares of Common Stock repurchased by the Company with cash proceeds from the exercise of Options shall not be added back to the pool of shares available for grant under the Plan set forth in Section 4.1 above. Â 4.2.5 Substitute Awards Â In the case of any Substitute Award, such Substitute Award shall not be counted against the number of shares reserved under the Plan. Â 5.Â EFFECTIVE DATE, DURATION, AND AMENDMENTS Â 5.1 Term. Â The Plan shall be effective as of the Effective Date, provided that it has been approved by the Companyâ€™s stockholders. The Plan shall terminate automatically on the ten (10) year anniversary of the Effective Date and may be terminated on any earlier date as provided in Section 5.2. Â 6 Â Â 5.2 Amendment and Termination of the Plan. Â The Board may, at any time and from time to time, amend, suspend, or terminate the Plan as to any Awards which have not been made. An amendment shall be contingent on approval of the Companyâ€™s stockholders to the extent stated by the Board, required by applicable law or required by applicable stock exchange listing requirements.Â No Awards shall be made after the Termination Date. The applicable terms of the Plan, and any terms and conditions applicable to Awards granted prior to the Termination Date shall survive the termination of the Plan and continue to apply to such Awards.Â No amendment, suspension, or termination of the Plan shall, without the consent of the Grantee, materially impair rights or obligations under any Award theretofore awarded. Â 6.Â AWARD ELIGIBILITY AND LIMITATIONS Â 6.1 Service Providers. Â Subject to this Section 6.1, Awards may be made to any Service Provider, including any Service Provider who is an officer, Non-Employee Director, consultant or advisor of the Company or of any Affiliate, as the Board shall determine and designate from time to time in its discretion. Â 6.2 Successive Awards. Â An eligible person may receive more than one Award, subject to such restrictions as are provided herein. Â 6.3 Stand-Alone, Additional, Tandem, and Substitute Awards. Â Awards may, in the discretion of the Board, be granted either alone or in addition to, in tandem with, or in substitution or exchange for, any other Award or any award granted under another plan of the Company, any Affiliate, or any business entity to be acquired by the Company or an Affiliate, or any other right of a Grantee to receive payment from the Company or any Affiliate. Such additional, tandem, and substitute or exchange Awards may be granted at any time. If an Award is granted in substitution or exchange for another Award, the Board shall have the right to require the surrender of such other Award in consideration for the grant of the new Award. The Board shall have the right, in its discretion, to make Awards in substitution or exchange for any other award under another plan of the Company, any Affiliate, or any business entity to be acquired by the Company or an Affiliate. In addition, Awards may be granted in lieu of cash compensation, including in lieu of cash amounts payable under other plans of the Company or any Affiliate, in which the value of Stock subject to the Award is equivalent in value to the cash compensation (for example, Restricted Stock Units or Restricted Stock). Â 7.Â AWARD AGREEMENT Â Each Award shall be evidenced by an Award Agreement, in such form or forms as the Board shall from time to time determine, consistent with the terms of the Plan.Â Without limiting the foregoing, an Award Agreement may be provided in the form of a notice which provides that acceptance of the Award constitutes acceptance of all terms of the Plan and the notice.Â Award Agreements granted from time to time or at the same time need not contain similar provisions but shall be consistent with the terms of the Plan.Â Each Award Agreement evidencing an Award of Options shall specify whether such Options are intended to be Non-qualified Stock Options or Incentive Stock Options, and in the absence of such specification such options shall be deemed Non-qualified Stock Options. Â 7 Â Â 8.Â TERMS AND CONDITIONS OF OPTIONS Â 8.1 Option Price. Â The Option Price of each Option shall be fixed by the Board and stated in the related Award Agreement. The Option Price of each Option (except those that constitute Substitute Awards) shall be at least the Fair Market Value on the Grant Date of a share of Stock;Â provided,Â however, that in the event that a Grantee is a Ten Percent Stockholder as of the Grant Date, the Option Price of an Option granted to such Grantee that is intended to be an Incentive Stock Option shall be not less than 110 percent of the Fair Market Value of a share of Stock on the Grant Date.Â In no case shall the Option Price of any Option be less than the par value of a share of Stock. Â 8.2 Vesting. Â Subject to Section 8.3Â hereof, each Option shall become exercisable at such times and under such conditions (including, without limitation, performance requirements) as shall be determined by the Board and stated in the Award Agreement. Â 8.3 Term. Â Each Option shall terminate, and all rights to purchase shares of Stock thereunder shall cease, upon the expiration of tenÂ (10)Â years from the Grant Date, or under such circumstances and on such date prior thereto as is set forth in the Plan or as may be fixed by the Board and stated in the related Award Agreement;Â provided,Â however, that in the event that the Grantee is a Ten Percent Stockholder, an Option granted to such Grantee that is intended to be an Incentive Stock Option at the Grant Date shall not be exercisable after the expiration of five (5) years from its Grant Date. Â 8.4 Limitations on Exercise of Option. Â Notwithstanding any other provision of the Plan, in no event may any Option be exercised, in whole or in part, (i) prior to the date the Plan is approved by the stockholders of the Company as provided herein or (ii) after the occurrence of an event which results in termination of the Option. Â 8.5 Method of Exercise. Â An Option that is exercisable may be exercised by the Granteeâ€™s delivery of a notice of exercise to the Company, setting forth the number of shares of Stock with respect to which the Option is to be exercised, accompanied by full payment for the shares.Â To be effective, notice of exercise must be made in accordance with procedures established by the Company from time to time. Â 8.6 Rights of Holders of Options. Â Unless otherwise stated in the related Award Agreement, an individual holding or exercising an Option shall have none of the rights of a stockholder (for example, the right to receive cash or dividend payments or distributions attributable to the subject shares of Stock or to direct the voting of the subject shares of Stock) until the shares of Stock covered thereby are fully paid and issued to her/him. Except as provided in Section 14 hereof or the related Award Agreement, no adjustment shall be made for dividends, distributions or other rights for which the record date is prior to the date of such issuance. Â 8 Â Â 8.7 Delivery of Stock Certificates. Â Promptly after the exercise of an Option by a Grantee and the payment in full of the Option Price, such Grantee shall be entitled, subject to any transaction fees, as required, to the issuance of a stock certificate or certificates evidencing his or her ownership of the shares of Stock subject to the Option. Â 8.8 Limitations on Incentive Stock Options. Â An Option shall constitute an Incentive Stock Option only (i) if the Grantee of such Option is an employee of the Company or any Subsidiary of the Company; (ii) to the extent specifically provided in the related Award Agreement; and (iii) to the extent that the aggregate Fair Market Value (determined at the time the Option is granted) of the shares of Stock with respect to which all Incentive Stock Options held by such Grantee become exercisable for the first time during any calendar year (under the Plan and all other plans of the Granteeâ€™s employer and its Affiliates) does not exceed $100,000. This limitation shall be applied by taking Options into account in the order in which they were granted. Â 9.Â TERMS AND CONDITIONS

OF STOCK APPRECIATION RIGHTS Â 9.1 Right to Payment. Â A SAR shall confer on the Grantee a right to receive, upon exercise thereof, the excess of (i) the Fair Market Value of one share of Stock on the date of exercise over (ii) the SAR Exercise Price, as determined by the Board. The Award Agreement for a SAR (except those that constitute Substitute Awards) shall specify the SAR Exercise Price, which shall be fixed on the Grant Date as not less than the Fair Market Value of a share of Stock on that date.Â SARs may be granted alone or in conjunction with all or part of an Option or at any subsequent time during the term of such Option or in conjunction with all or part of any other Award. A SAR granted in tandem with an outstanding Option following the Grant Date of such Option shall have a grant price that is equal to the Option Price;Â provided,Â however, that the SARâ€™s grant price may not be less than the Fair Market Value of a share of Stock on the Grant Date of the SAR to the extent required by Section 409A. Â 9.2 Other Terms. Â The Board shall determine at the Grant Date, the time or times at which and the circumstances under which a SAR may be exercised in whole or in part (including based on achievement of performance goals and/or future service requirements), the time or times at which SARs shall cease to be or become exercisable following Separation from Service or upon other conditions, the method of exercise, whether or not a SAR shall be in tandem or in combination with any other Award, and any other terms and conditions of any SAR. Â 9.3 Term of SARs. Â The term of a SAR granted under the Plan shall be determined by the Board, in its sole discretion;Â provided, however, that such term shall not exceed ten (10) years. Â 9.4 Payment of SAR Amount. Â Upon exercise of a SAR, a Grantee shall be entitled to receive payment from the Company (in cash or Stock, as determined by the Board) in an amount determined by multiplying: Â (i) the difference between the Fair Market Value of a share of Stock on the date of exercise over the SAR Exercise Price; by Â (ii) the number of shares of Stock with respect to which the SAR is exercised.Â Â 9Â Â 10.Â TERMS AND CONDITIONS OF RESTRICTED STOCK AND RESTRICTED STOCK UNITS Â 10.1 Restrictions. Â At the time of grant, the Board may, in its sole discretion, establish a period of time (a â€œRestricted Periodâ€) and any additional restrictions including the satisfaction of corporate or individual performance objectives applicable to an Award of Restricted Stock or Restricted Stock Units as determined by the Board. Each Award of Restricted Stock or Restricted Stock Units may be subject to a different Restricted Period and additional restrictions. Neither Restricted Stock nor Restricted Stock Units may be sold, transferred, assigned, pledged or otherwise encumbered or disposed of during the Restricted Period or prior to the satisfaction of any other applicable restrictions. Â 10.2 Restricted Stock Certificates. Â The Company shall issue stock, in the name of each Grantee to whom Restricted Stock has been granted, stock certificates or other evidence of ownership representing the total number of shares of Restricted Stock granted to the Grantee, as soon as reasonably practicable after the Grant Date. The Board may provide in an Award Agreement that either (i) the Secretary of the Company shall hold such certificates for the Granteeâ€™s benefit until such time as the Restricted Stock is forfeited to the Company or the restrictions lapse, or (ii) such certificates shall be delivered to the Grantee;Â provided,Â however, that such certificates shall bear a legend or legends that comply with the applicable securities laws and regulations and make appropriate reference to the restrictions imposed under the Plan and the Award Agreement. Â 10.3 Rights of Holders of Restricted Stock. Â Unless the Board otherwise provides in an Award Agreement and subject toÂ Section 16.12, holders of Restricted Stock shall have rights as stockholders of the Company, including voting and dividend rights. Â 10.4 Rights of Holders of Restricted Stock Units. Â 10.4.1 Â Settlement of Restricted Stock Units. Â Restricted Stock Units may be settled in cash or Stock, as determined by the Board and set forth in the Award Agreement. The Award Agreement shall also set forth whether the Restricted Stock Units shall be settled (i) within the time period specified for â€œshort term deferralsâ€ under Section 409A or (ii) otherwise within the requirements of Section 409A, in which case the Award Agreement shall specify upon which events such Restricted Stock Units shall be settled. Â 10.4.2 Voting and Dividend Rights. Â Unless otherwise stated in the applicable Award Agreement and subject to Section 16.12, holders of Restricted Stock Units shall not have rights as stockholders of the Company, including no voting or dividend or dividend equivalents rights. Â 10.4.3 Creditorâ€™s Rights. Â A holder of Restricted Stock Units shall have no rights other than those of a general creditor of the Company. Restricted Stock Units represent an unfunded and unsecured obligation of the Company, subject to the terms and conditions of the applicable Award Agreement. Â 10Â Â Â 10.5 Purchase of Restricted Stock. Â The Grantee shall be required, to the extent required by applicable law, to purchase the Restricted Stock from the Company at a Purchase Price equal to the greater of (i) the aggregate par value of the shares of Stock represented by such Restricted Stock or (ii) the Purchase Price, if any, specified in the related Award Agreement. If specified in the Award Agreement, the Purchase Price may be deemed paid by Services already rendered. The Purchase Price shall be payable in a form described in Section 11Â or, in the discretion of the Board, in consideration for past Services rendered. Â 10.6 Delivery of Stock. Â Upon the expiration or termination of any Restricted Period and the satisfaction of any other conditions prescribed by the Board, the restrictions applicable to shares of Restricted Stock or Restricted Stock Units settled in Stock shall lapse, and, unless otherwise provided in the Award Agreement, a stock certificate for such shares shall be delivered, free of all such restrictions, to the Grantee or the Granteeâ€™s beneficiary or estate, as the case may be. Â 11.Â FORM OF PAYMENT FOR OPTIONS AND RESTRICTED STOCK Â 11.1 General Rule. Â Payment of the Option Price for the shares purchased pursuant to the exercise of an Option or the Purchase Price for Restricted Stock shall be made in cash or in cash equivalents acceptable to the Company, except as provided in this Section 11. Â 11.2 Surrender of Stock. Â To the extent the Award Agreement so provides, payment of the Option Price for shares purchased pursuant to the exercise of an Option or the Purchase Price for Restricted Stock may be made all or in part through the tender to the Company of shares of Stock, which shares shall be valued, for purposes of determining the extent to which the Option Price or Purchase Price for Restricted Stock has been paid thereby, at their Fair Market Value on the date of exercise or surrender.Â Notwithstanding the foregoing, in the case of an Incentive Stock Option, the right to make payment in the form of already owned shares of Stock may be authorized only at the time of grant. Â 11.3 Cashless Exercise. Â With respect to an Option only (and not with respect to Restricted Stock), to the extent permitted by law and to the extent the Award Agreement so provides, payment of the Option Price may be made all or in part by delivery (on a form acceptable to the Company) of an irrevocable direction to a licensed securities broker acceptable to the Company to sell shares of Stock and to deliver all or part of the sales proceeds to the Company in payment of the Option Price and any withholding taxes described inÂ Section 16.3. Â 11.4 Other Forms of Payment. Â To the extent the Award Agreement so provides, payment of the Option Price or the Purchase Price for Restricted Stock may be made in any other form that is consistent with applicable laws, regulations and rules, including, but not limited to, the Companyâ€™s withholding of shares of Stock otherwise due to the exercising Grantee.Â Â 11Â Â 12.Â OTHER STOCK-BASED AWARDS Â 12.1 Grant of Other Stock-based Awards. Â Other Stock-based Awards may be granted either alone or in addition to or in conjunction with other Awards under the Plan.Â Other Stock-based Awards may be granted in lieu of other cash or other compensation to which a Service Provider is entitled from the Company or may be used in the settlement of amounts payable in shares of Common Stock under any other compensation plan or arrangement of the Company.Â Subject to the provisions of the Plan, the Committee shall have the sole and complete authority to determine the persons to whom and the time or times at which such Awards shall be made, the number of shares of Common Stock to be granted pursuant to such Awards, and all other conditions of such Awards.Â Unless the Committee determines otherwise, any such Award shall be confirmed by an Award Agreement, which shall contain such provisions as the Committee determines to be necessary or appropriate to carry out the intent of this Plan with respect to such Award. Â 12.2 Terms of Other Stock-based Awards. Â Any Common Stock subject to Awards made under this Section 12 may not be sold, assigned, transferred, pledged or otherwise encumbered prior to the date on which the shares are issued, or, if later, the date on which any applicable restriction, performance or deferral period lapses. Â 13.Â REQUIREMENTS OF LAW Â 13.1 General. Â The Company shall not be required to sell or issue any shares of Stock under any Award if the sale or issuance of such shares would constitute a violation by the Grantee, any other individual exercising an Option, or the Company of any provision of any law or regulation of any governmental authority, including without limitation any federal or state securities laws or regulations. If at any time the Company shall determine, in its discretion, that the listing, registration or qualification of any shares subject to an Award upon any securities exchange or under any governmental regulatory body is necessary or desirable as a condition of, or in connection with, the issuance or purchase of shares hereunder, no shares of Stock may be issued or sold to the Grantee or any other individual exercising an Option pursuant to such Award unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Company, and any delay caused thereby shall in no way affect the date of termination of the Award. Specifically, in connection with the Securities Act, upon the exercise of any Option or the delivery of any shares of Stock underlying an Award, unless a registration statement under such Act is in effect with respect to the shares of Stock covered by such Award, the Company shall not be required to sell or issue such shares unless the Board has received evidence satisfactory to it that the Grantee or any other individual exercising an Option may acquire such shares pursuant to an exemption from registration under the Securities Act. Any determination in this connection by the Board shall be final, binding, and conclusive. The Company may, but shall in no event be obligated to, register any securities covered hereby pursuant to the Securities Act. The Company shall not be obligated to take any affirmative action in order to cause the exercise of an Option or the issuance of shares of Stock pursuant to the Plan to comply with any law or regulation of any governmental authority. As to any jurisdiction that expressly imposes the requirement that an Option shall not be exercisable until the shares of Stock covered by such Option are registered or are exempt from registration, the exercise of such Option (under circumstances in which the laws of such jurisdiction apply) shall be deemed conditioned upon the effectiveness of such registration or the availability of such an exemption. Â 12Â Â Â 13.2 Rule 16b-3. Â During any time when the Company has a class of equity security registered under Section 12 of the Exchange Act, it is the intent of the Company that Awards and the exercise of Options granted to officers and directors hereunder will qualify for the exemption provided by Rule 16b-3 under the Exchange Act. To the extent that any provision of the Plan or action by the Board or Committee does not comply with the requirements of Rule 16b-3, it shall be deemed inoperative to the extent permitted by law and deemed advisable by the Board, and shall not affect the validity of the Plan. In the event that Rule 16b-3 is revised or replaced, the Board may exercise its discretion to modify this Plan in any respect necessary to satisfy the requirements of, or to take advantage of any features of, the revised exemption or its replacement. Â 14.Â EFFECT OF CHANGES IN CAPITALIZATION Â 14.1 Changes in Stock. Â If (i) the number of outstanding shares of Stock is increased or decreased or the shares of Stock are changed into or exchanged for a different number or kind of shares or other securities of the Company on account of any recapitalization, reclassification, stock split, reverse split, combination of shares, exchange of shares, stock dividend or other distribution payable in capital stock, or other increase or decrease in such shares effected without receipt of consideration by the Company occurring after the Effective Date or (ii) there occurs any spin-off, split-up, extraordinary cash dividend or other distribution of assets by the Company, the number and kinds of shares for which grants of Awards may be made under the Plan (including the per-Grantee maximums set forth in Section 4) shall be equitably adjusted by the Company; provided that any such adjustment shall comply with Section 409A. In addition, in the event of any such increase or decrease in the number of outstanding shares or other transaction described in clause (ii) above, the number and kind of shares for which Awards are outstanding and the Option Price per share of outstanding Options and SAR Exercise Price per share of outstanding SARs shall be equitably adjusted; provided that any such adjustment shall comply with Section 409A. Â 14.2 Effect of Certain Transactions. Â Except as otherwise provided in an Award Agreement and subject to the provisions of Section 14.3, in the event of a Corporate Transaction, the Plan and the Awards issued hereunder shall continue in effect in accordance with their respective terms, except that following a Corporate Transaction either (i) each outstanding Award shall be treated as provided for in the agreement entered into in connection with the Corporate Transaction or (ii) if not so provided in such agreement, each Grantee shall be entitled to receive in respect of each share of Common Stock subject to any outstanding Awards, upon exercise or payment or transfer in respect of any Award, the same number and kind of stock, securities, cash, property or other consideration that each holder of a share of Common Stock was entitled to receive in the Corporate Transaction in respect of a share of Common stock;Â provided,Â however, that, unless otherwise determined by the Committee, such stock, securities, cash, property or other consideration shall remain subject to all of the conditions, restrictions and performance criteria which were applicable to the Awards prior to such Corporate Transaction.Â Without limiting the generality of the foregoing, the treatment of outstanding Options and SARs pursuant to this Section 14.2 in connection with a Corporate Transaction in which the consideration paid or distributed to the Companyâ€™s stockholders is not entirely shares of common stock of the acquiring or resulting corporation may include the cancellation of outstanding Options and SARs upon consummation of the Corporate Transaction as long as, at the election of the Committee, (i) the holders of affected Options and SARs have been given a period of at least fifteen days prior to the date of the consummation of the Corporate Transaction to exercise the Options or SARs (to the extent otherwise exercisable) or (ii) the holders of the affected Options and SARs are paid (in cash or cash equivalents) in respect of each Share covered by the Option or SAR being canceled an amount equal to the excess, if any, of the per share price paid or distributed to stockholders in the Corporate Transaction (the value of any non-cash consideration to be determined by the Committee in its sole discretion) over the Option Price or SAR Exercise Price, as applicable.Â For avoidance of doubt, (1) the cancellation of Options and SARs pursuant to clause (ii) of the preceding sentence may be effected notwithstanding anything to the contrary contained in this Plan or any Award Agreement and (2) if the amount determined pursuant to clause (ii) of the preceding sentence is zero or less, the affected Option or SAR may be cancelled without any payment therefore.Â The treatment of any Award as provided in this Section 14.2 shall be conclusively presumed to be appropriate for purposes of Section 14.1. Â 13Â Â Â 14.3 Change in Control Â 14.3.1 Consequences of a Change in Control Â In the event of a Change in Control of the Company, the Board, in its discretion, may, at any time an Award is granted, or at any time thereafter, (i) accelerate the time period relating to the exercise or vesting of the Award; or (ii) take one or more of the following actions, which may vary among individual Grantees: (A) provide for the purchase of the Award for an amount of cash or other property that could have been received upon the exercise or vesting of the Award (less any applicable Option Price or SAR Exercise Price in the cash of Options and SARs); (B) adjust the terms of the Awards in a manner determined by the Board to reflect the Change in Control; (C) cause the Awards to be assumed, or new rights substituted therefor, by another entity, through the continuance of the Plan and the assumption of outstanding Awards, or the substitution for such Awards of comparable value covering shares of a successor corporation, with appropriate adjustments as to the number and kind of shares and exercise prices, in which event the Plan and such Awards, or the new options and rights substituted therefor, shall continue in the manner and under the terms so provided; (D) accelerate the time at which Options or SARs then outstanding may be exercised so that such Options and SARs may be exercised for a limited period of time on or before a specified date fixed by the Board, after which specified date, all unexercised Options and SARs shall terminate; or (E) make such other provision as the Board may consider equitable. Â 14.3.2 Change in Control Defined Â Except as may otherwise be defined in an Award Agreement, a â€œChange in Controlâ€ shall mean the occurrence of any of the following events: (i) the acquisition, directly or indirectly, by any Person or group (within the meaning of Section 13(d)(3) of the Exchange Act) of the Beneficial Ownership of more than fifty percent of the outstanding securities of the Company; (ii) a merger or consolidation in which the Company is not the surviving entity, except for a transaction the principal purpose of which is to change the state in which the Company is incorporated; (iii) the sale, transfer or other disposition of all or substantially all of the assets of the Company; (i) a complete liquidation or dissolution of the Company; or (v) any reverse merger in which the Company is the surviving entity but in which securities possessing more than fifty percent of the total combined voting power of the Companyâ€™s outstanding securities are transferred to a Person or Persons different from the Persons holding those securities immediately prior to such merger. Â Notwithstanding the foregoing, if it is determined that an Award hereunder is subject to the requirements of Section 409A and payable upon a Change in Control, the Company will not be deemed to have undergone a Change in Control unless the Company is deemed to have undergone a â€œchange in control eventâ€ pursuant to the definition of such term in Section 409A. Â 14.4 Adjustments Â Adjustments under this Section 14 related to shares of Stock or securities of the Company shall be made by the Board, whose determination in that respect shall be final, binding and conclusive. No fractional shares or other securities shall be issued pursuant to any such adjustment, and any fractions resulting from any such adjustment shall be eliminated in each case by rounding downward to the nearest whole share. Â 14Â Â Â 15.Â NO LIMITATIONS ON COMPANY Â The making of Awards pursuant to the Plan shall not affect or limit in any way the right or power of the Company to make adjustments, reclassifications, reorganizations, or changes of its capital or business structure or to merge, consolidate, dissolve, or liquidate, or to sell or transfer all or any part of its business or assets. Â 16.Â TERMS APPLICABLE GENERALLY TO AWARDS GRANTED UNDER THE PLAN Â 16.1 Disclaimer of Rights. Â No provision in the Plan or in any Award Agreement shall be construed to confer upon any individual the right to remain in the employ or service of the Company or any Affiliate, or to interfere in any way with any contractual or other right or authority of the Company either to increase or decrease the compensation or other payments to any individual at any time, or to terminate any employment or other relationship between any individual and the Company. In addition, notwithstanding anything contained in the Plan to the contrary, unless otherwise stated in the applicable Award Agreement, no Award granted under the Plan shall be affected by any change of duties or position of the Grantee, so long as such Grantee continues to be a Service Provider. The obligation of the Company to pay any benefits pursuant to this Plan shall be interpreted as a contractual obligation to pay only those amounts described herein, in the manner and under the conditions prescribed herein. The Plan shall in no way be interpreted to require the Company to transfer any amounts to a third party trustee or otherwise hold any amounts in trust or escrow for payment to any Grantee or beneficiary under the terms of the Plan. Â 16.2 Nonexclusivity of the Plan. Â Neither the adoption

of the Plan nor the submission of the Plan to the stockholders of the Company for approval shall be construed as creating any limitations upon the right and authority of the Board to adopt such other incentive compensation arrangements (which arrangements may be applicable either generally to a class or classes of individuals or specifically to a particular individual or particular individuals), including, without limitation, the granting of stock options as the Board in its discretion determines desirable. Â 16.3 Withholding Taxes. Â The Company or an Affiliate, as the case may be, shall have the right to deduct from payments of any kind otherwise due to a Grantee any federal, state, or local taxes of any kind required by law to be withheld (i) with respect to the vesting of or other lapse of restrictions applicable to an Award, (ii) upon the issuance of any shares of Stock upon the exercise of an Option or SAR, or (iii) otherwise due in connection with an Award.Â At the time of such vesting, lapse, or exercise, the Grantee shall pay to the Company or the Affiliate, as the case may be, any amount that the Company or the Affiliate may reasonably determine to be necessary to satisfy such withholding obligation. Subject to the prior approval of the Company or the Affiliate, which may be withheld by the Company or the Affiliate, as the case may be, in its sole discretion, the Grantee may elect to satisfy such obligations, or the Company may require such obligations (up to maximum statutory rates) to be satisfied, in whole or in part, (i) by causing the Company or the Affiliate to withhold the number of shares of Stock otherwise issuable to the Grantee as may be necessary to satisfy such withholding obligation or (ii) by delivering to the Company or the Affiliate shares of Stock already owned by the Grantee. The shares of Stock so delivered or withheld shall have an aggregate Fair Market Value equal to such withholding obligations (up to maximum statutory rates).Â The Fair Market Value of the shares of Stock used to satisfy such withholding obligation shall be determined by the Company or the Affiliate as of the date that the amount of tax to be withheld is to be determined. A Grantee who has made an election pursuant to this Section 16.3 may satisfy his or her withholding obligation only with shares of Stock that are not subject to any repurchase, forfeiture, unfulfilled vesting, or other similar requirements. Â 15 Â Â 16.4 Captions. Â The use of captions in this Plan or any Award Agreement is for the convenience of reference only and shall not affect the meaning of any provision of the Plan or any Award Agreement. Â 16.5 Other Provisions. Â Each Award Agreement may contain such other terms and conditions not inconsistent with the Plan as may be determined by the Board, in its sole discretion.Â In the event of any conflict between the terms of an employment agreement and the Plan, the terms of the employment agreement govern. Â 16.6 Number and Gender. Â With respect to words used in this Plan, the singular form shall include the plural form, the masculine gender shall include the feminine gender, etc., as the context requires. Â 16.7 Severability. Â If any provision of the Plan or any Award Agreement shall be determined to be illegal or unenforceable by any court of law in any jurisdiction, the remaining provisions hereof and thereof shall be severable and enforceable in accordance with their terms, and all provisions shall remain enforceable in any other jurisdiction. Â 16.8 Governing Law. Â The Plan shall be governed by and construed in accordance with the laws of the State of Delaware without giving effect to the principles of conflicts of law, and applicable Federal law. Â 16.9 Section 409A. Â The Plan is intended to comply with Section 409A to the extent subject thereto, and, accordingly, to the maximum extent permitted, the Plan shall be interpreted and administered to be in compliance therewith. Any payments described in the Plan that are due within the â€œshort-term deferral periodâ€ as defined in Section 409A shall not be treated as deferred compensation unless applicable laws require otherwise. Notwithstanding anything to the contrary in the Plan, to the extent required to avoid accelerated taxation and tax penalties under Section 409A, amounts that would otherwise be payable and benefits that would otherwise be provided pursuant to the Plan during the six (6) month period immediately following the Granteeâ€™s Separation from Service shall instead be paid on the first payroll date after the six-month anniversary of the Granteeâ€™s Separation from Service (or the Granteeâ€™s death, if earlier). Notwithstanding the foregoing, neither the Company nor the Committee shall have any obligation to take any action to prevent the assessment of any excise tax or penalty on any Grantee under Section 409A and neither the Company nor the Committee will have any liability to any Grantee for such tax or penalty. Â 16 Â Â 16.10Â Separation from Service. Â The Board shall determine the effect of a Separation from Service upon Awards, and such effect shall be set forth in the appropriate Award Agreement.Â Without limiting the foregoing, the Board may provide in the Award Agreements at the time of grant, or any time thereafter with the consent of the Grantee, the actions that will be taken upon the occurrence of a Separation from Service, including, but not limited to, accelerated vesting or termination, depending upon the circumstances surrounding the Separation from Service. Â 16.11Â Transferability of Awards. Â 16.11.1 Â Transfers in General. Â Except as provided in Section 16.11.2, no Award shall be assignable or transferable by the Grantee to whom it is granted, other than by will or the laws of descent and distribution, and, during the lifetime of the Grantee, only the Grantee personally (or the Granteeâ€™s personal representative) may exercise rights under the Plan. Â 16.11.2 Â Â Family Transfers. Â If authorized in the applicable Award Agreement, a Grantee may transfer, not for value, all or part of an Award (other than Incentive Stock Options) to any Family Member.Â For the purpose of this Section 16.11.2, a â€œnot for valueâ€ transfer is a transfer which is (i) a gift, (ii) a transfer under a domestic relations order in settlement of marital property rights; or (iii) a transfer to an entity in which more than fifty percent of the voting interests are owned by Family Members (or the Grantee) in exchange for an interest in that entity.Â Following a transfer under this Section 16.11.2, any such Award shall continue to be subject to the same terms and conditions as were applicable immediately prior to transfer. Subsequent transfers of transferred Awards are prohibited except to Family Members of the original Grantee in accordance with this Section 16.11.2 or by will or the laws of descent and distribution. Â 16.12Â Dividends and Dividend Equivalent Rights. Â If specified in the Award Agreement, the recipient of an Award (other than Options or SARs) may be entitled to receive dividends or dividend equivalents with respect to the Common Stock or other securities covered by an Award.Â The terms and conditions of a dividend equivalent right may be set forth in the Award Agreement.Â Dividend equivalents credited to a Grantee may be reinvested in additional shares of Stock or other securities of the Company at a price per unit equal to the Fair Market Value of a share of Stock on the date that such dividend was paid to stockholders, as determined in the sole discretion of the Committee.Â Notwithstanding any provision herein to the contrary, in no event will dividends or dividend equivalents vest or otherwise be paid out prior to the time that the underlying Award (or portion thereof) has vested and, accordingly, will be subject to cancellation and forfeiture if such Award does not vest (including both time-based and performance-based Awards). Â The Plan was adopted by the Board of Directors on February 14, 2022. Â 4 Â Â ARTICLE VII COVENANTS Â 7.1.Â Access Information and Documents. The Seller shall afford to the Purchaser and its representatives (including Purchaserâ€™s agents, accountants, counsel, surveyors, financing sources and employees), reasonable access during regular business hours throughout the period from the date of this Agreement to the Closing Date to all their respective books, documents, records, properties and facilities that relate to the Acquired Assets and, during such period, shall furnish as promptly as reasonably practicable to Purchaser all available information as Purchaser reasonably may request to the extent relating to the Agreement. The Seller shall permit Purchaser, its representatives and financing sources reasonable access throughout the period from the date of this Agreement to the Closing Date to discuss matters related to the Business with the officers, directors, employees and auditors of Seller and its Subsidiaries. Notwithstanding the foregoing, no such access shall unreasonably interfere with the operation of the respective business of Seller. Â 7.2.Â Specific Performance. The parties hereto acknowledge and agree that damages along would not provide an adequate remedy for any breach or threatened breach of the provisions of this Agreement and therefore that, without prejudice to any and all other rights and remedies a party may have(including but not limited to damages), such party shall be entitled without proof of special damage to the remedies of injunction, specific performance and other equitable relief for any threatened or actual breach of such provisions. Â 7.3.Â Confidentiality. (a) At all times after

the Closing Date, The Seller shall keep confidential all data, trade secrets, proprietary secrets and any other confidential information regarding the Acquired Assets and not disclose such confidential information to anyone other than Purchaser, except with the express written consent of Purchaser or as required by Law, order or legal process. Confidential information shall not be deemed to include information (i) that is or becomes generally available to the public other than by breach of these confidentiality obligations by Seller, (ii) is or becomes available to Seller from any person who is not subject to any confidentiality obligation to Purchaser, (iii) is developed after the Closing by or on behalf of Seller without reliance on confidential information regarding the Business acquired prior to the Closing or (iv) to the extent Seller uses such information in the ordinary course of its business under any right or license to so use such information from Purchaser. In the event Seller is required by Law, order or legal process to disclose any such confidential information, such person will promptly notify Purchaser in writing so that Purchaser may, at its expense, seek a protective order and/or other motion to prevent or limit the production or disclosure of such confidential information; provided that in the absence of a protective order or the receipt of a waiver from Purchaser after a request in writing therefor is made by any such person, if any such person is legally required to disclose confidential information, such person will be entitled to disclose such information without liability under these confidentiality provisions. Â (b) The Purchaser shall keep confidential all data, trade secrets, proprietary secrets and any other confidential information of Seller disclosed heretofore or hereafter by Seller to Purchaser, other than any such information included in the Acquired Assets, and not disclose such confidential information to anyone other than Seller, except with the express written consent of Seller or as required by Law, order or legal process. Confidential information shall not be deemed to include information (i) that is or becomes generally available to the public other than by breach of these confidentiality obligations by Purchaser, (ii) is or becomes available to Purchaser or any of its Affiliates from any person who is not subject to any confidentiality obligation to Seller, (iii) is developed after the Closing by or on behalf of Purchaser or any of its Affiliates without reliance on confidential information of Seller acquired prior to the Closing or (iv) to the extent Purchaser uses such information in the ordinary course of its business under any right or license to so use such information from Seller. In the event Purchaser or any of its Affiliates or representatives is required by Law, order or legal process to disclose any such confidential information, such person will promptly notify Seller in writing so that Seller may, at its expense, seek a protective order and/or other motion to prevent or limit the production or disclosure of such confidential information; provided that in the absence of a protective order or the receipt of a waiver from Seller after a request in writing therefor is made by any such person, if any such person is legally required to disclose confidential information, such person will be entitled to disclose such information without liability under these confidentiality provisions. Â 5 Â Â ARTICLE VIII GOVERNING LAW and JURISDICTION Â 8.1.Â Governing Law. This Agreement shall be governed by and construed in accordance with the Laws of the Republic of Korea without giving effect to the rules of conflict of Laws of the Republic of Korea that would require application of any other Law. Â 8.2.Â Consent to Jurisdiction. The parties shall consent to and submit to the exclusive jurisdiction of the Seoul Central District Court located in the Republic of Korea in connection with any action, suit or proceeding arising out of or relating to this Agreement, and Seller and Purchaser shall irrevocably waive, to the fullest extent permitted by Law, any objection which it may have to the laying of the venue of any such proceeding brought in such court and any claim that any such proceeding brought in such court has been brought in an inconvenient forum. Â ARTICLE IX MISCELLANEOUS Â 9.1.Â Severability. The parties agree that (a) the provisions of this Agreement shall be severable in the event that any provision hereof is held by a court of competent jurisdiction to be invalid, void or otherwise unenforceable, (b) such invalid, void or otherwise unenforceable provision shall be automatically replaced by another provision which is as similar as possible in terms to such invalid, void or otherwise unenforceable provision but which is valid and enforceable and (c) the remaining provisions shall remain enforceable to the fullest extent permitted by Law. Â 9.2.Â Notices. All notices, requests, demands and other communications which are required or may be given pursuant to the terms of this Agreement shall be in writing and shall be deemed delivered (a) on the date of delivery when delivered by hand, (b) on the date of transmission when set by facsimile transmission during normal business hours with telephone confirmation of receipt, (c) three (3) days after dispatch when sent by a reputable courier service that maintains record of receipt. Â 9.3.Â Successors and Assigns. The Seller shall not assign this Agreement or any of their rights or obligations hereunder without the prior written consent of Purchaser. The Purchaser may at any time assign this Agreement and any of its rights and obligations hereunder to any affiliate of the Purchaser without the consent of the Seller, and to any other party by providing prior notice in writing to the Seller. Nothing in this Agreement, express or implied, is intended to confer upon any party other than the parties hereto or their respective successors and assigns any rights, remedies, obligations, or liabilities under or by reason of this Agreement, except as expressly provided herein. Â 9.4.Â Entire Agreement. This Agreement constitutes the entire understanding of the parties with respect to the subject matter hereof, supersedes any prior agreements or understandings, written or oral, between the parties with respect to the subject matter hereof, and is not intended to confer upon any Person other than the parties hereto any benefit, right or remedy. Â 9.5.Â Amendment and Waiver. The parties may, by mutual agreement, amend this Agreement in any respect, and any party, as to such party, may (i) extend the time for the performance of any of the obligations of the other party; (ii) waive any inaccuracies or omissions in representations and warranties by the other party; (iii) waive compliance by the other party with any of the provisions or agreements contained herein and performance of any obligations by the other party; and (iv) waive the fulfillment of any condition that is precedent to the performance by such party of any of its obligations under this Agreement. To be effective, any such amendment or waiver must be in writing and be signed by the party providing such waiver or extension, as the case may be. The rights and remedies herein provided are cumulative and are not exclusive of any rights or remedies which any party may otherwise have at law or in equity. The waiver by any party hereto of any breach by the other party of any provision of this Agreement shall not operate or be construed as a waiver of any subsequent breach by the other party, whether or not similar. Â 9.6.Â Construction. The language used in this Agreement shall be deemed to be the language chosen by the parties to express their mutual-intent, and no rule of strict construction shall be applied against-any Party. Â 9.7.Â Counterparts. This Agreement may be executed in counterparts, each of which shall be an original, but which together shall constitute one and the same Agreement. Â 9.8.Â Further Assurances and Assistance. The parties agree that each will execute and deliver to the other any and all documents, in addition to those expressly provided for herein, that may be necessary or appropriate to effectuate the provisions of this Agreement, whether before, at or after the Closing. The Seller agrees that, at any time and from time to time after the Closing, it will execute and deliver to the Purchaser such further assignments or other written assurances as Purchaser may reasonably request to perfect and protect the purchaserâ€™s title to the Acquired Assets. Â May 31, 2023 Â SUBSCRIBER: _____ _____ Â RE:Securities Subscription Agreement Â To whom it may concern: Â This agreement (the â€œAgreementâ€) is entered into effective May 31, 2023 by and between Hanryu Holdings, Inc., a Delaware corporation (the â€œCompanyâ€) and [AUTHORIZED PERSON], a natural person (the â€œSubscriberâ€). Pursuant to the terms hereof, the Company hereby accepts the offer the Subscriber has made to purchase 760,000 shares of the Companyâ€™s common stock $0.001 par value per share (the â€œSharesâ€), for a Purchase Price (as defined in Section 1.1) of $10.00 per share. Â 1.Â Purchase of Securities. Â 1.1.Â Â Purchase of Shares.Â For the sum of $7,600,000, or $10.00 per share purchased (the â€œPurchase Priceâ€), which the Company acknowledges receiving by wire of ready funds from the Subscriber on or prior to the date hereof, the Company hereby issues the Shares to the Subscriber, and the Subscriber hereby purchases the Shares from the Company on the terms and subject to the conditions set forth in this Agreement.Â Concurrently with the Subscriberâ€™s execution of this Agreement, the Company shall, at its option, deliver to the Subscriber a certificate registered in the Subscriberâ€™s name representing the shares (the â€œOriginal Certificateâ€), or effect such delivery in book-entry form, with such restrictive legends as are described in Section 5.3 hereof. Â 2.Â Deliveries. Â 2.1.Â Subscriberâ€™s Deliveries. On or prior to the date first written above, Subscriber shall deliver or cause to be delivered to the Company a duly executed copy of the investor questionnaire, attached hereto as Exhibit A to this Agreement (the â€œInvestor Questionnaireâ€). In addition, on or prior to the date hereof, Subscriber has paid the Purchase Price as provided in Section 1.1. Â 3.Â Representations, Warranties and Agreements. Â 3.1.Â Subscriberâ€™s Representations, Warranties and Agreements.Â To induce the Company to issue the Shares to the Subscriber, the Subscriber hereby represents and warrants to the Company and agrees with the Company as follows: Â 3.1.1.Â No Government Recommendation or Approval.Â The Subscriber understands that no federal or state agency has passed upon or made any recommendation or endorsement of the offering of the Shares. Â 3.1.2.Â No Conflicts.Â The execution, delivery and performance of this Agreement and the consummation by the Subscriber of the transactions contemplated hereby do not violate, conflict with or constitute a default under (i) the formation and governing documents of the Subscriber, (ii) any agreement, indenture or instrument to which the Subscriber is a party or (iii) any law, statute, rule or regulation to which the Subscriber is subject, or any agreement, order, judgment or decree to which the Subscriber is subject. Â 3.1.3.Â Organization and Authority.Â The Subscriber is a natural person, who possesses all requisite power and authority necessary to carry out the transactions contemplated by this Agreement. Upon execution and delivery by the Subscriber, this Agreement is a legal, valid and binding agreement of Subscriber, enforceable against Subscriber in accordance with its terms, except as such enforceability may be limited by applicable bankruptcy, insolvency, fraudulent conveyance or similar laws affecting the enforcement of creditorsâ€™ rights generally and subject to general principles of equity (regardless of whether enforcement is sought in a proceeding at law or in equity).Â Â Â Â Â 3.1.4.Â Experience, Financial Capability and Suitability.Â Subscriber is: (i) sophisticated in financial matters and is able to evaluate the risks and benefits of the investment in the Shares and (ii) able to bear the economic risk of its investment in the Shares for an indefinite period of time because the Shares have not been registered under the Securities Act (as defined below) and therefore cannot be sold unless subsequently registered under the Securities Act or an exemption from such registration is available. Subscriber is capable of evaluating the merits and risks of its investment in the Company and has the capacity to protect its own interests. Subscriber must bear the economic risk of this investment until the Shares are sold pursuant to: (i) an effective registration statement under the Securities Act or (ii) an exemption from registration available with respect to such sale. Subscriber is able to bear the economic risks of an investment in the Shares and to afford a complete loss of Subscriberâ€™s investment in the Shares. Â 3.1.5.Â Access to Information; Independent Investigation.Â Prior to the execution of this Agreement, the Subscriber has had the opportunity to ask questions of and receive answers from representatives of the Company concerning an investment in the Company, as well as the finances, operations, business and prospects of the Company, and the opportunity to obtain additional information to verify the accuracy of all information so obtained. In determining whether to make this investment, Subscriber has relied solely on Subscriberâ€™s own knowledge and understanding of the Company and its business based upon Subscriberâ€™s own due diligence investigation and the information furnished pursuant to this paragraph. Subscriber understands that no person has been authorized to give any information or to make any representations which were not furnished pursuant to this Section 2 and Subscriber has not relied on any other representations or information in making its investment decision, whether written or oral, relating to the Company, its operations and/or its prospects. Â 3.1.6.Â Regulation D Offering.Â Subscriber represents that it is an â€œaccredited investorâ€ as such term is defined in Rule 501(a) of Regulation D under the Securities Act of 1933, as amended (the â€œSecurities Actâ€) and acknowledges the sale contemplated hereby is being made in reliance on a private placement exemption to â€œaccredited investorsâ€ within the meaning of Section 501(a) of Regulation D under the Securities Act or similar exemptions under state law. Â 3.1.7.Â Investment Purposes.Â The Subscriber is purchasing the Shares solely for investment purposes, for the Subscriberâ€™s own account and not for the account or benefit of any other person, and not with a view towards the distribution or dissemination thereof. The Subscriber did not decide to enter into this Agreement as a result of any general solicitation or general advertising within the meaning of Rule 502 under the Securities Act. Â 3.1.8.Â Restrictions on Transfer.Â Subscriber understands the Shares are being offered and sold in a transaction not involving a public offering within the meaning of the Securities Act (including, without limitation, Section 4(a)(2) and/or Regulation 506(b)). Subscriber understands the Shares will be â€œrestricted securitiesâ€ within the meaning of Rule 144(a)(3) under the Securities Act, and Subscriber understands that the certificates or book-entries representing the Shares will contain a legend in respect of such restrictions. If in the future the Subscriber decides to offer, resell, pledge or otherwise transfer the Shares, such Shares may be offered, resold, pledged or otherwise transferred only pursuant to: (i) registration under the Securities Act, or (ii) an available exemption from registration. Subscriber agrees that if any transfer of its Shares or any interest therein is proposed to be made, as a condition precedent to any such transfer, Subscriber may be required to deliver to the Company an opinion of counsel satisfactory to the Company. Absent registration or an exemption, the Subscriber agrees not to resell the Shares. Â 3.1.9.Â No Governmental Consents.Â No governmental, administrative or other third party consents or approvals are required, necessary or appropriate on the part of Subscriber in connection with the transactions contemplated by this Agreement. Â 2 Â Â 3.2.Â Â Companyâ€™s Representations, Warranties and Agreements.Â To induce the Subscriber to purchase the Shares, the Company hereby represents and warrants to the Subscriber and agrees with the Subscriber as follows: Â 3.2.1.Â Organization and Corporate Power.Â The Company is a Delaware corporation and is qualified to do business in every jurisdiction in which the failure to so qualify would reasonably be expected to have a material adverse effect on the financial condition, operating results or assets of the Company. The Company possesses all requisite corporate power and authority necessary to carry out the transactions contemplated by this Agreement. Â 3.2.2.Â No Conflicts.Â The execution, delivery and performance of this Agreement and the consummation by the Company of the transactions contemplated hereby do not violate, conflict with or constitute a default under (i) the Certificate of Incorporation or Bylaws of the Company, (ii) any agreement, indenture or instrument to which the Company is a party or (iii) any law, statute, rule or regulation to which the Company is subject, or any agreement, order, judgment or decree to which the Company is subject. Â 3.2.3.Â Title to Securities.Â Upon issuance in accordance with, and payment pursuant to, the terms hereof, the Shares will be duly and validly issued, fully paid and nonassessable. Upon issuance in accordance with, and payment pursuant to, the terms hereof, the Subscriber will have or receive good title to the Shares, free and clear of all liens, claims and encumbrances of any kind, other than (a) transfer restrictions hereunder and other agreements to which the Shares may be subject which have been notified to the Subscriber in writing, (b) transfer restrictions under federal and state securities laws, and (c) liens, claims or encumbrances imposed due to the actions of the Subscriber. Â 3.2.4.Â No Adverse Actions.Â There are no actions, suits, investigations or proceedings pending, threatened against or affecting the Company which: (i) seek to restrain, enjoin, prevent the consummation of or otherwise affect the transactions contemplated by this Agreement or (ii) question the validity or legality of any transactions or seeks to recover damages or to obtain other relief in connection with any transactions. Â 4.Â [Intentionally Omitted] Â 5.Â Covenants. Â 5.1.Â Subscriberâ€™s Covenants.Â To induce the Company to issue the Shares to the Subscriber, the Subscriber hereby covenants and agrees with the Company as follows: Â 5.1.1.Â Accredited Investor Verification.Â Subscriber shall deliver to Company a letter from its legal counsel verifying its status as an accredited investor as such term is defined in Rule 501(a) of Regulation D under the Securities Act, and such letter to be made in a form acceptable to Company and its counsel. Â 3 Â Â 6.Â Restrictions on Transfer. Â 6.1.Â Securities Law Restrictions.Â Subscriber agrees not to sell, transfer, pledge, hypothecate or otherwise dispose of all or any part of the Shares unless, prior thereto (a) he/she it has received prior written consent of the Company, (b) a registration statement on the appropriate form under the Securities Act and applicable state securities laws with respect to the Shares proposed to be transferred shall then be effective or (c) the Company has received an opinion from counsel reasonably satisfactory to the Company, that such registration is not required because such transaction is exempt from registration under the Securities Act and the rules promulgated by the Securities and Exchange Commission thereunder and with all applicable state securities laws.Â Â 6.2.Â Â Lock-up. Subscriber agrees that it may be required to be bound by a lock-up agreement with an underwriter in connection with the initial public offering of the Company (or the Companyâ€™s successor or newly-organized parent entity) and therefore, Subscriber hereby agrees to execute any such agreement if requested to do so by the Company. Â 6.3.Â Restrictive Legends.Â Any certificates representing the Shares shall have endorsed thereon legends substantially as follows: Â â€œTHE SECURITIES REPRESENTED HEREBY HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, OR ANY STATE SECURITIES LAWS AND NEITHER THE SECURITIES NOR ANY INTEREST THEREIN MAY BE OFFERED, SOLD, TRANSFERRED, PLEDGED OR OTHERWISE DISPOSED OF EXCEPT PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER SUCH ACT OR SUCH LAWS OR AN EXEMPTION FROM REGISTRATION UNDER SUCH ACT AND SUCH LAWS WHICH, IN THE OPINION OF COUNSEL, IS AVAILABLE.â€ Â 6.4.Â Additional Shares or Substituted Securities.Â In the event of the declaration of a share dividend, the declaration of an extraordinary dividend payable in a form other than Shares, a spin-off, a share split, an adjustment in conversion ratio, a recapitalization or a similar transaction affecting the Companyâ€™s outstanding Shares without receipt of consideration, any new, substituted or additional securities or other property which are by reason of such transaction distributed with respect to any Shares subject to this Section 5 or into which such Shares thereby become convertible shall immediately be subject to this Section 5 and Section 3. Appropriate adjustments to reflect the distribution of such securities or property shall be made to the number and/or class of Shares subject to this Section 5 and Section 3. Â 6.5.Â Registration Rights.Â Subscriber acknowledges that the Shares are being purchased pursuant to an exemption from the registration

requirements of the Securities Act and will become freely tradable only after certain conditions are met. Â 6.6.Â General Solicitation.Â Subscriber and Company acknowledge that this offering does not allow, contemplate nor was made pursuant to a general solicitation or advertising under the meaning of Rule 506(b) of Regulation D under the Securities Act. Â 7.Â Other Agreements. Â 7.1.Â Further Assurances.Â Subscriber agrees to execute such further instruments and to take such further action as may reasonably be necessary to carry out the intent of this Agreement. Â 7.2.Â Notices.Â All notices, statements or other documents which are required or contemplated by this Agreement shall be: (i) in writing and delivered personally or sent by first class registered or certified mail, overnight courier service or facsimile or electronic transmission to the address designated in writing, (ii) by facsimile to the number most recently provided to such party or such other address or fax number as may be designated in writing by such party and (iii) by electronic mail, to the electronic mail address most recently provided to such party or such other electronic mail address as may be designated in writing by such party. Any notice or other communication so transmitted shall be deemed to have been given on the day of delivery, if delivered personally, on the business day following receipt of written confirmation, if sent by facsimile or electronic transmission, one (1) business day after delivery to an overnight courier service or five (5) days after mailing if sent by mail. Â 4 Â Â 7.3.Â Entire Agreement.Â This Agreement embodies the entire agreement and understanding between the Subscriber and the Company with respect to the subject matter hereof and supersedes all prior oral or written agreements and understandings relating to the subject matter hereof. No statement, representation, warranty, covenant or agreement of any kind not expressly set forth in this Agreement shall affect, or be used to interpret, change or restrict, the express terms and provisions of this Agreement.Â Â 7.4.Â Modifications and Amendments.Â The terms and provisions of this Agreement may be modified or amended only by written agreement executed by all parties hereto. Â 7.5.Â Waivers and Consents.Â The terms and provisions of this Agreement may be waived, or consent for the departure therefrom granted, only by a written document executed by the party entitled to the benefits of such terms or provisions. No such waiver or consent shall be deemed to be or shall constitute a waiver or consent with respect to any other terms or provisions of this Agreement, whether or not similar. Each such waiver or consent shall be effective only in the specific instance and for the purpose for which it was given, and shall not constitute a continuing waiver or consent. Â 7.6.Â Assignment.Â The rights and obligations under this Agreement may not be assigned by either party hereto without the prior written consent of the other party. Â 7.7.Â Benefit.Â All statements, representations, warranties, covenants and agreements in this Agreement shall be binding on the parties hereto and shall inure to the benefit of the respective successors and permitted assigns of each party hereto. Nothing in this Agreement shall be construed to create any rights or obligations except among the parties hereto, and no person or entity shall be regarded as a third-party beneficiary of this Agreement. Â 7.8.Â Governing Law.Â This Agreement and the rights and obligations of the parties hereunder shall be construed in accordance with and governed by the laws of Delaware, without giving effect to the conflict of law principles thereof. Â 7.9.Â Severability.Â In the event that any court of competent jurisdiction shall determine that any provision, or any portion thereof, contained in this Agreement shall be unreasonable or unenforceable in any respect, then such provision shall be deemed limited to the extent that such court deems it reasonable and enforceable, and as so limited shall remain in full force and effect. In the event that such court shall deem any such provision, or portion thereof, wholly unenforceable, the remaining provisions of this Agreement shall nevertheless remain in full force and effect. Â 7.10.Â No Waiver of Rights, Powers and Remedies.Â No failure or delay by a party hereto in exercising any right, power or remedy under this Agreement, and no course of dealing between the parties hereto, shall operate as a waiver of any such right, power or remedy of such party. No single or partial exercise of any right, power or remedy under this Agreement by a party hereto, nor any abandonment or discontinuance of steps to enforce any such right, power or remedy, shall preclude such party from any other or further exercise thereof or the exercise of any other right, power or remedy hereunder. The election of any remedy by a party hereto shall not constitute a waiver of the right of such party to pursue other available remedies. No notice to or demand on a party not expressly required under this Agreement shall entitle the party receiving such notice or demand to any other or further notice or demand in similar or other circumstances or constitute a waiver of the rights of the party giving such notice or demand to any other or further action in any circumstances without such notice or demand. Â 7.11.Â Survival of Representations and Warranties.Â All representations and warranties made by the parties hereto in this Agreement or in any other agreement, certificate or instrument provided for or contemplated hereby, shall survive the execution and delivery hereof and any investigations made by or on behalf of the parties. Â 5 Â Â 7.12.Â No Broker or Finder.Â Each of the parties hereto represents and warrants to the other that no broker, finder or other financial consultant has acted on its behalf in connection with this Agreement or the transactions contemplated hereby in such a way as to create any liability on the other. Each of the parties hereto agrees to indemnify and save the other harmless from any claim or demand for commission or other compensation by any broker, finder, financial consultant or similar agent claiming to have been employed by or on behalf of such party and to bear the cost of legal expenses incurred in defending against any such claim. Â 7.13.Â Headings and Captions.Â The headings and captions of the various subdivisions of this Agreement are for convenience of reference only and shall in no way modify or affect the meaning or construction of any of the terms or provisions hereof. Â 7.14.Â Counterparts.Â This Agreement may be executed in one or more counterparts, all of which when taken together shall be considered one and the same agreement and shall become effective when counterparts have been signed by each party and delivered to the other party, it being understood that both parties need not sign the same counterpart. In the event that any signature is delivered by facsimile transmission or any other form of electronic delivery, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such signature page were an original thereof. Â 7.15.Â Construction.Â The parties hereto have participated jointly in the negotiation and drafting of this Agreement. If an ambiguity or question of intent or interpretation arises, this Agreement will be construed as if drafted jointly by the parties hereto and no presumption or burden of proof will arise favoring or disfavoring any party hereto because of the authorship of any provision of this Agreement. The words â€œinclude,â€ â€œincludes,â€ and â€œincludingâ€ will be deemed to be followed by â€œwithout limitation.â€ Pronouns in masculine, feminine, and neuter genders will be construed to include any other gender, and words in the singular form will be construed to include the plural and vice versa, unless the context otherwise requires. The words â€œthis Agreement,â€ â€œherein,â€ â€œhereof,â€ â€œhereby,â€ â€œhereunder,â€ and words of similar import refer to this Agreement as a whole and not to any particular subdivision unless expressly so limited. The parties hereto intend that each representation, warranty, and covenant contained herein will have independent significance. If any party hereto has breached any representation, warranty, or covenant contained herein in any respect, the fact that there exists another representation, warranty or covenant relating to the same subject matter (regardless of the relative levels of specificity) which such party hereto has not breached will not detract from or mitigate the fact that such party hereto is in breach of the first representation, warranty, or covenant. Â 7.16.Â Mutual Drafting.Â This Agreement is the joint product of the Subscriber and the Company and each provision hereof has been subject to the mutual consultation, negotiation and agreement of such parties and shall not be construed for or against any party hereto. Â 8.Â Indemnification.Â Each party shall indemnify the other against any loss, cost or damages (including reasonable attorneyâ€™s fees and expenses) incurred as a result of such partyâ€™s breach of any representation, warranty, covenant or agreement in this Agreement. The purpose of this Questionnaire is to assure the Company that all such offers and purchases will meet the standards imposed by the Securities Act of 1933, as amended (the â€œActâ€), and applicable state securities laws. Â All answers will be kept confidential. However, by signing this Questionnaire, the undersigned agrees that this information may be provided by the Company to its legal and financial advisors, and the Company and such advisors may rely on the information set forth in this Questionnaire for purposes of complying with all applicable securities laws and may present this Questionnaire to such parties as it reasonably deems appropriate if called upon to establish its compliance with such securities laws.Â The undersigned represents that the information contained herein is complete and accurate and will notify the Company of any material change in any of such information prior to the undersignedâ€™s investment in the Company. Â For Individual Investors Â Accredited Investor Certification.Â The undersigned makes one of the following representations regarding its income, net worth, status as a â€œfamily clientâ€ of a â€œfamily office,â€ and/or certain professional certifications or designations and certain related mattersÂ and has checked the applicable representation: Â Â â˜ The undersignedâ€™s income1Â during each of the last two years exceeded $200,000 or, if the undersigned is married or has a spousal equivalent,2Â the joint income of the undersigned and the undersignedâ€™s spouse or spousal equivalent, as applicable, during each of the last two years exceed $300,000, and the undersigned reasonably expects the undersignedâ€™s income, from all sources during this year, will exceed $200,000 or, if the undersigned is married or has a spousal equivalent, the joint income of undersigned and the undersignedâ€™s spouse or spousal equivalent, as applicable, from all sources during this year will exceed $300,000. Â Â â˜ The undersignedâ€™s net worth,3Â including the net worth of the undersignedâ€™s spouse or spousal equivalent, as applicable, is in excess of $1,000,000 (excluding the value of the undersignedâ€™s primary residence). Â Â â˜ The undersigned is a holder in good standing of one or more of the following certifications or designations administered by the Financial Industry Regulatory Authority, Inc. (FINRA): the Licensed General Securities Representative (Series 7), Licensed Investment Adviser Representative (Series 65), or Licensed Private Securities Offerings Representative (Series 82). Â Â â˜ The undersigned is a â€œfamily client,â€ as defined in rule 202(a)(11)(G)-1 under the Investment Advisers Act of 1940, as amended (the â€œAdvisers Actâ€), of a family office as defined in rule 202(a)(11)(G)-1 under the Advisers Act, (i) with assets under management in excess of $5,000,000, (ii) that is not formed for the specific purpose of acquiring the securities offered, and (iii) whose prospective investment is directed by a person who has such knowledge and experience in financial and business matters that such family office is capable of evaluating the merits and risks of the prospective investment, and whose prospective investment is directed by such family office pursuant to clause (iii) of this sentence. Â Â â˜ The undersigned cannot make any of the representations set forth above. Â Â 1 For purposes of this Questionnaire, â€œincomeâ€ means adjusted gross income, as reported for federal income tax purposes, increased by the following amounts: (a)Â the amount of any tax exempt interest income received, (b)Â the amount of losses claimed as a limited partner in a limited partnership, (c)Â any deduction claimed for depletion, (d)Â amounts contributed to an IRA or Keogh retirement plan, (e)Â alimony paid, and (f)Â any amounts by which income from long-term capital gains has been reduced in arriving at adjusted gross income pursuant to the provisions of SectionÂ 1202 of the Code. Â Â 2 For purposes of this Questionnaire, â€œspousal equivalentâ€ means a cohabitant occupying a relationship generally equivalent to that of a spouse. Â Â 3 For purposes of this Questionnaire, â€œnet worthâ€ means the excess of total assets, excluding your primary residence, at fair market value over total liabilities, including your mortgage or any other liability secured by your primary residence only if and to the extent that it exceeds the value of your primary residence. Net worth should include the value of any other shares of stock or options held by you and your spouse or spousal equivalent and any personal property owned by you or your spouse or spousal equivalent (e.g.Â furniture, jewelry, other valuables, etc.). For the purposes of calculating joint net worth: joint net worth can be the aggregate net worth of you and your spouse or spousal equivalent; assets need not be held jointly to be included in the calculation. Â CLAWBACK POLICY Â A. OVERVIEW Â The Board of Directors (the â€œBoardâ€) of Hanryu Holdings, Inc. (the â€œCompanyâ€) believes that it is in the best interests of the Company and its shareholders to create and maintain a culture that emphasizes integrity and accountability. Accordingly, in accordance with the applicable rules of The Nasdaq Stock Market (the â€œNasdaq Rulesâ€), Section 10D and Rule 10D-1 of the Securities Exchange Act of 1934, as amended (the â€œExchange Actâ€) (â€œRule 10D-1â€), the Board has adopted this Policy (the â€œPolicyâ€) to provide for the recovery of erroneously awarded Incentive-based Compensation from Executive Officers. All capitalized terms used and not otherwise defined herein shall have the meanings set forth in Section H, below. Â B. RECOVERY OF ERRONEOUSLY AWARDED COMPENSATION Â (1) In the event of an Accounting Restatement, the Company will reasonably promptly recover the Erroneously Awarded Compensation Received in accordance with the Nasdaq American Rules and Rule 10D-1 as follows: Â (i)After an Accounting Restatement, the Compensation Committee (if composed entirely of independent directors, or in the absence of such a committee, a majority of independent directors serving on the Board) (the â€œCommitteeâ€) shall determine the amount of any Erroneously Awarded Compensation Received by each Executive Officer and shall promptly notify each Executive Officer with a written notice containing the amount of any Erroneously Awarded Compensation and a demand for repayment or return of such compensation, as applicable Â Â (a) For Incentive-based Compensation based on (or derived from) the Companyâ€™s stock price or total shareholder return, where the amount of Erroneously Awarded Compensation is not subject to mathematical recalculation directly from the information in the applicable Accounting Restatement: Â Â i. The amount to be repaid or returned shall be determined by the Committee based on a reasonable estimate of the effect of the Accounting Restatement on the Companyâ€™s stock price or total shareholder return upon which the Incentive-based Compensation was Received; and Â Â ii. The Company shall maintain documentation of the determination of such reasonable estimate and provide the relevant documentation as required to Nasdaq. Â (ii)The Committee shall have discretion to determine the appropriate means of recovering Erroneously Awarded Compensation based on the particular facts and circumstances. Notwithstanding the foregoing, except as set forth in Section B(2) below, in no event may the Company accept an amount that is less than the amount of Erroneously Awarded Compensation in satisfaction of an Executive Officerâ€™s obligations hereunder Â Â Â Â (iii)To the extent that the Executive Officer has already reimbursed the Company for any Erroneously Awarded Compensation Received under any duplicative recovery obligations established by the Company or applicable law, it shall be appropriate for any such reimbursed amount to be credited to the amount of Erroneously Awarded Compensation that is subject to recovery under this Policy. Â (iv)To the extent that an Executive Officer fails to repay all Erroneously Awarded Compensation to the Company when due, the Company shall take all actions reasonable and appropriate to recover such Erroneously Awarded Compensation from the applicable Executive Officer. The applicable Executive Officer shall be required to reimburse the Company for any and all expenses reasonably incurred (including legal fees) by the Company in recovering such Erroneously Awarded Compensation in accordance with the immediately preceding sentence.Â Â (2) Notwithstanding anything herein to the contrary, the Company shall not be required to take the actions contemplated by Section B(1) above if the Committee (which, as specified above, is composed entirely of independent directors or in the absence of such a committee, a majority of the independent directors serving on the Board) determines that recovery would be impracticableÂ andÂ any of the following three (3) conditions are met: Â (i)The Committee has determined that the direct expenses paid to a third party to assist in enforcing the Policy would exceed the amount to be recovered. Before making this determination, the Company must make a reasonable attempt to recover the Erroneously Awarded Compensation, document such attempt(s) and provide such documentation to Nasdaq; Â (ii)Recovery would violate home country law where that law was adopted prior to November 28, 2022, provided that, before determining that it would be impracticable to recover any amount of Erroneously Awarded Compensation based on violation of home country law, the Company has obtained an opinion of home country counsel, acceptable to Nasdaq, that recovery would result in such a violation and a copy of the opinion is provided to Nasdaq; or Â (iii)Recovery would likely cause an otherwise tax-qualified retirement plan, under which benefits are broadly available to employees of the Company, to fail to meet the requirements of Section 401(a)(13) or Section 411(a) of the Internal Revenue Code of 1986, as amended, and regulations thereunder. Â (3) The Board may also cancel or recoup Incentive-based Compensation if the Executive Officer, without the consent of the Company, (A) has engaged in or engages in activity that is in conflict with or adverse to the interests of the Company or any affiliate thereof while employed by or providing services to the Company or any affiliate thereof, including fraud or conduct intentionally contributing to any material financial restatements or irregularities, or (B) violates in any material respect a non-competition, non-solicitation, non-disparagement or non-disclosure covenant or agreement with the Company or any affiliate thereof, as determined by the Board, and fails to cure such violation in all material respects within thirty (30) days of demand by the Company, or if the Executive Officerâ€™s employment or service is terminated for cause. Â C. DISCLOSURE REQUIREMENTS Â The Company shall file all disclosures with respect to this Policy required by applicable U.S. Securities and Exchange Commission (â€œSECâ€) filings and rules, including without limitation, filing a copy of this Policy and any amendments thereto as an exhibit to the Companyâ€™s annual report on Form 10-K. Â 2 Â Â D. PROHIBITION OF INDEMNIFICATION Â The Company shall not be permitted to insure or indemnify any Executive Officer against (i) the loss of any Erroneously Awarded Compensation that is repaid, returned or recovered pursuant to the terms of this Policy, or (ii) any claims relating to the Companyâ€™s enforcement of its rights under this Policy. Further, the Company shall not enter into any agreement that exempts any Incentive-based Compensation that is granted, paid or awarded to an Executive Officer from the application of this Policy or that waives the Companyâ€™s right to recovery of any Erroneously Awarded Compensation, and this Policy shall supersede any such agreement (whether entered into before, on or after the Effective Date of this Policy). Â E. ADMINISTRATION AND INTERPRETATION Â This Policy shall be administered by the Committee, and any determinations made by the Committee shall be final and binding on all affected individuals. Â The Committee is authorized to interpret and construe this Policy and to make all determinations necessary, appropriate, or advisable for the administration of this Policy and for the Companyâ€™s compliance with Nasdaq Rules, Section 10D, Rule 10D-1 and any other applicable law, regulation, rule or interpretation of the SEC or Nasdaq promulgated or issued in connection therewith. Â F. AMENDMENT; TERMINATION Â The Committee may amend this Policy from time to time in its discretion and shall amend this Policy as it deems necessary. Notwithstanding anything in this Section F to the contrary, no amendment or termination of this Policy shall be effective if such amendment or termination would (after taking into account any actions taken by the Company contemporaneously with such amendment or termination) cause the Company to violate any federal securities laws, SEC rule or Nasdaq rule. Â G. OTHER RECOVERY RIGHTS Â This Policy shall be binding and enforceable against all Executive Officers and, to the extent required by applicable law or guidance from the SEC or Nasdaq, their beneficiaries, heirs, executors, administrators or other legal representatives. The Committee intends that this Policy will be applied to the fullest extent required by applicable law. Any employment agreement, equity award agreement, compensatory plan or any other agreement or arrangement with an Executive Officer shall be deemed to include, as a condition to the grant of any benefit thereunder, an agreement by the Executive Officer to abide by the terms of this Policy. Any right of recovery under this Policy is in addition to, and not in lieu of, any other remedies or rights of recovery that may be available to the Company under applicable law, regulation or rule or pursuant to the terms of any policy of the Company or any provision in any employment agreement, equity award agreement, compensatory plan, agreement or other arrangement. Â H. DEFINITIONS Â For purposes of this Policy, the following capitalized terms shall have the meanings set forth below. Â (1) â€œAccounting Restatementâ€ means an accounting restatement due to the material noncompliance of the Company with any financial reporting requirement under the securities laws, including any required accounting restatement to correct an error in previously issued financial statements that is material to the previously issued financial statements (a â€œBig Râ€ restatement), or that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period (a â€œlittle râ€ restatement). Â 3 Â Â (2) â€œClawback Eligible Incentive Compensationâ€ means all Incentive-based Compensation Received by an Executive Officer (i) on or after the effective date of the applicable Nasdaq Rules, (ii) after beginning service as an Executive Officer, (iii) who served as an Executive Officer at any time during the applicable performance period relating to any Incentive-based Compensation (whether or not such Executive Officer is serving at the time the Erroneously Awarded Compensation is required to be repaid to the Company), (iv) while the Company has a class of securities listed on a national securities exchange or a national securities association, and (v) during the applicable Clawback Period (as defined below). Â (3) â€œClawback Periodâ€ means, with respect to any Accounting Restatement, the three (3) completed fiscal years of the Company immediately preceding the Restatement Date (as defined below), and if the Company changes its fiscal year, any transition period of less than nine (9) months within or immediately following those three (3) completed fiscal years. Â (4) â€œErroneously Awarded Compensationâ€ means, with respect to each Executive Officer in connection with an Accounting Restatement, the amount of Clawback Eligible Incentive Compensation that exceeds the amount of Incentive-based Compensation that otherwise would have been Received had it been determined based on the restated amounts, computed without regard to any taxes paid. Â (5) â€œExecutive Officerâ€ means each individual who is currently or was previously designated as an â€œofficerâ€ of the Company as defined in Rule 16a-1(f) under the Exchange Act. For the avoidance of doubt, the identification of an executive officer for purposes of this Policy shall include each executive officer who is or was identified pursuant to Item 401(b) of Regulation S-K or Item 6.A of Form 20-F, as applicable, as well as the principal financial officer and principal accounting officer (or, if there is no principal accounting officer, the controller). Â (6) â€œFinancial Reporting Measuresâ€ means measures that are determined and presented in accordance with the accounting principles used in preparing the Companyâ€™s financial statements, and all other measures that are derived wholly or in part from such measures. Stock price and total shareholder return (and any measures that are derived wholly or in part from stock price or total shareholder return) shall, for purposes of this Policy, be considered Financial Reporting Measures. For the avoidance of doubt, a Financial Reporting Measure need not be presented in the Companyâ€™s financial statements or included in a filing with the SEC. Â (7) â€œIncentive-based Compensationâ€ means any compensation that is granted, earned or vested based wholly or in part upon the attainment of a Financial Reporting Measure. Â (8) â€œNasdaqâ€ means the The Nasdaq Stock Market. Â (9)Â â€œReceivedâ€ means, with respect to any Incentive-based Compensation, actual or deemed receipt, and Incentive-based Compensation shall be deemed received in the Companyâ€™s fiscal period during which the Financial Reporting Measure specified in the Incentive-based Compensation award is attained (even if the payment or grant of the Incentive-based Compensation to the Executive Officer occurs after the end of that period). Â (10) â€œRestatement Dateâ€ means the earlier to occur of (i) the date the Board, a committee of the Board or the officers of the Company authorized to take such action if Board action is not required, concludes, or reasonably should have concluded, that the Company is required to prepare an Accounting Restatement, or (ii) the date a court, regulator or other legally authorized body directs the Company to prepare an Accounting Restatement. Â I. EFFECTIVE DATE Â This Policy shall be effective as of the date it is adopted by the Board. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

NOTE 1 — NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Business

Hanryu Holdings, Inc., a Delaware corporation ("*Hanryu Holdings*"), together with its wholly owned subsidiaries Hanryu Bank Co., Ltd ("*HBC*"), FNS Co., Ltd. ("*FNS*"), , and Marine Island Co., Ltd ("*Marine Island*"), all incorporated under the laws of the Republic of Korea ("*Korea*" or "*ROK*") (collectively, the "*Company*", "*we*", or "*us*"), aims to be the leader in the global Korean entertainment market, also known as "*Hanryu*" or "*K-Culture*", through its engaging social-media platform, FANTOO. The FANTOO platform is an all-inclusive global playground for fans, where they can consume, create, and get rewarded for all things related to their interests, and interact with other like-minded fans.

Corporate History

Since the inception of HBC in 2018, we have accomplished a number of key objectives, as follows:

Date	Event/Milestone
October 18, 2018	HBC is incorporated under the laws of the ROK with the idea of creating an all-in-one product to capture the growing global momentum and popularity of K-Culture.
October 29, 2020	HBC establishes FNS,and begins the initial stages of designing and implementing a platform that can create a fandom networking system.
March 11, 2021	HBC establishes Hanryu Times. Hanryu Times begins operations as HBC's media outlet, reporting on and providing up-to-date K-Culture news within the FANTOO platform, across a number of languages, including English, Japanese, Chinese (simplified/traditional), Indonesian, Spanish, Russian, and Portuguese.
March 31, 2021	HBC consummates an agreement and plan of merger (the "*Merger Agreement*") with RnDeep, Co. Ltd, a Korean corporation ("*RnDeep*"), pursuant to which RnDeep merged with and into HBC, with HBC continuing as the surviving corporation (the "*RnDeep Acquisition*"). As consideration for the RnDeep Acquisition, HBC ratably issued a total 4,150,000 HBC common shares, par value $0.45 per share ("*Common Shares*"), to the former shareholders of RnDeep. As a result of the RnDeep Acquisition, HBC acquired the underlying technologies that the Company plans on utilizing in the future development of new functions and integrations within the FANTOO platform. Once the FANTOO platform is ready to integrate the technology acquired, this technology will support new functions and integrations including, without limitation, the Company's enterprise resource planning solution, and its artificial intelligence ("*AI*"), which the Company plans on using to power many of FANTOO's upcoming features such as speech synthesis, curated content delivery, deepfake detection and blocking, and nudity detection and blocking.
May 17, 2021	The FANTOO platform is launched and made available to the public.
June 30, 2021	HBC enters into an agreement to acquire all the issued and outstanding common shares of Marine Island (the "*Marine Island Acquisition*"), which owns the right to use and occupy 19,200 square-feet of office space within the iconic Seoul Marina, located at 160 Yeouiseo-ro, Yeungdeungpo-gu, Seoul, Korea (the "*Seoul Marina*") from Sewang Co., Ltd. ("*Sewang*"), for the purchase price of 3,500,000,000 Korean Won ("*KRW*"), along with the assumption of all Marine Island's liabilities.

Date	Event/Milestone
August 30, 2021	HBC establishes FANTOO Entertainment. FANTOO Entertainment provides a variety of content to the Company's FANTOO platform, which contributes to the spread of the Korean Wave by promoting new entertainers and artists.
October 3, 2021	HBC consummates the Marine Island Acquisition, making it the owner of 100% of the issued and outstanding common shares of Marine Island.
October 3, 2021	HBC consummates a strategic acquisition of 50.8% of the outstanding common shares of K-Commerce. In consideration for the shares of K-Commerce, HBC forgave a short-term loan of $270,530 (KRW 309,600,000) owed to HBC by K-Commerce. HBC's investment into K-Commerce was a strategic acquisition in order to integrate K-Commerce's retail platform, "SelloveLive" into the FANTOO ecosystem as the FANTOO Fanshop. When launched as the FANTOO Fanshop, K-Commerce's platform will offer combined services of shopping and live broadcasting, allowing users to easily live-stream travel and share local attractions, local festivals, cultures, and news from around the world. Prior to HBC's acquisition of its shares in K-Commerce, K-Commerce was 100% owned by Changhyuk Kang, the Company's Chief Executive Officer and Donghoon Park, the Company's Chief Marketing Officer.
October 20, 2021	Hanryu Holdings is incorporated in the State of Delaware.
February 25, 2022 through May 10, 2022	Hanryu Holdings, HBC, and the shareholders of HBC (the "*HBC Shareholders*") enter into a share exchange agreement (the "*Share Exchange Agreement*"), pursuant to which the HBC Shareholders agreed to assign, transfer, and deliver, free and clear of all liens, 100% of the issued and outstanding Common Shares, representing 100% of the voting securities in HBC, to the Company in exchange for the Company issuing 42,565,786 restricted shares of the Company's common stock, par value $0.001 per share ("*Common Stock*") to the HBC

	Shareholders (the "*Share Exchange*").
	Concurrently with entering into the Share Exchange Agreement, the Company, HBC, and the holders (the "*HBC Warrantholders*") of all outstanding warrants to purchase Common Shares ("*HBC Warrants*") enter into a warrant exchange agreement, pursuant to which the HBC Warrantholders agreed to assign, transfer, and delivery, free and clear of any liens, 100% of the outstanding HBC Warrants to the Company in exchange for the Company issuing to the HBC Warrantholders 10,046,666 warrants to purchase restricted shares of Common Stock (the "*Warrant Exchange*").
	The Warrants and Common Shares of HBC transferred to the Company in the Share Exchange and the Warrant Exchange constituted 100% of the outstanding equity securities of HBC.
June 16, 2022	Hanryu Holdings, HBC, the HBC Shareholders, and the HBC Warrantholders consummate the Share Exchange and Warrant Exchange concurrently, pursuant to which HBC became a wholly owned subsidiary of the Company, and the HBC Stockholders and HBC Warrantholders, collectively, acquired a controlling interest in the Company.
June 22, 2022	The Company divests itself of all Kingdom Coin ("*KDC*") holdings and terminates all crypto-currency-related activity, including, without limitation, the operation of the MainNet (FandomChain) and the Kingdom Wallet, pursuant to a Business Transfer Agreement (the "*Divestiture Agreement*") between HBC and an unaffiliated and unrelated third party, Kingdom Coin Holdings, a Cayman Islands Foundation Company (the "*KDC Foundation*") (the "*KDC Divestiture*"), to substantially reduce its involvement with blockchain technologies. Pursuant to the Divestiture Agreement, as of June 22, 2022, the Company no longer owns any KDC, and no longer conducts or controls the operations, issuances, or sales of KDC. In connection with the KDC Divestiture, the Company revised its procedures regarding FP and no longer allows, nor has the technology to allow, for the transfer of FP outside of the FANTOO platform or the exchange of FP and KDC
	The shares of the Company are listed at NASDAQ exchange market.
	HBC sold owned whole shares of Hanryu Times, Fantoo Entertainment, and K-Commerce, so the business from the three companies became the discontinued operations.

Risks and Uncertainties

The Company is subject to a number of risks similar to other companies in its industries, including rapid technological change and transitions in Hanryu trends. The extent of the impact of the COVID-19 pandemic on the Company's business continues to be highly uncertain and difficult to predict, as the responses that the Company, other businesses and governments are taking continue to evolve. Furthermore, capital markets and economies worldwide have also been negatively impacted by the COVID-19 pandemic, and it is possible that it could cause a lasting national and/or global economic recession. Policymakers around the globe have responded with fiscal policy actions to support the entertainment industry and economy as a whole.

To date, the Company has experienced significant changes in the business as a result of the COVID-19 pandemic. The impact has delayed the Company's ability to generate revenue as result of the diversification of potential customer budgets towards the COVID-19 pandemic. The extent to which the COVID-19 pandemic may in the future materially impact the Company's financial condition, liquidity or results of operations is uncertain.

Going Concern

The Company has experienced recurring losses from operations and has a stockholders' equity(deficit) and working capital of $13,068,465 and $10,140,579 respectively, as of December 31, 2023 and $(1,340,515), and $(757,981) as of December 31, 2022. Also, the Company has operating losses of $10,527,845 and $5,421,525 for the years ended December 31, 2023 and December 31, 2022, respectively. These uncertainties raise substantial doubt about the Company's ability to continue as a going concern for twelve (12) months after the issuance date of these financial statements. The accompanying financial statements have been prepared under the assumption that we will continue as a going concern. The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of us to continue as a going concern.

Our future operations are dependent upon multiple factors, including (i) the success of our FANTOO platform business; (ii) competition from existing and future services from other companies; and (iii) securing new sources of capital to fund operations and develop markets. We will maintain an ongoing effort to improve and innovate FANTOO platform business to generate funds for our operations. For instance, we recently launched FANTOO House which is located in Seoul, and at FANTOO platform, we will launch (i) Epic branded ecommerce platform that we will expect it as a major source of new income, and (ii) dedicated video production operations that will create short episodic content that focuses on K-POP fandom. In addition, we maintain an ongoing effort to raise funds for our operations from current investors and new sources of capital through the issuance of additional common stock and/or short-term notes. However, there can be no assurance as to the outcome of these factors or that future funding efforts will generate sufficient capital to maintain our operations.

Significant Accounting Policies	**12 Months Ended Dec. 31, 2023**
Significant Accounting Policies [Abstract]	
SIGNIFICANT ACCOUNTING POLICIES	**NOTE 2 — SIGNIFICANT ACCOUNTING POLICIES**

A summary of the significant accounting policies followed by the Company in the preparation of the accompanying consolidated financial statements follows:

Principles of Consolidation

The consolidated financial statements of the Company include the financial statements of Hanryu Holdings, and its three wholly owned subsidiaries, HBC, FNS, and Marine Island in 2023, and its five wholly owned subsidiaries, HBC, FNS, Hanryu Times, Fantoo Entertainment, and Marine Island and majority-owned subsidiary (50.8%), K-Commerce in 2022. All significant intercompany transactions and balances have been eliminated in consolidation.

Non-controlling interests are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date.

Changes in the consolidated group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

The ownership of non-controlling interests of K-Commerce, out significant consolidated subsidiary as of December 31, 2022, was 49.2%. Since HBC sold owned whole shares of Hanryu Times, Fantoo Entertainment, and K-Commerce, at December 28, 2023, they are not consolidated from December 28, 2024, and N the controlling interests of K-Commerce become $0

Foreign Currency

The Company's functional currency for all operations is the KRW. The Company's accounting records are maintained in KRW, and translated into U.S. Dollars at year-end for the purposes of presentation. During the translation process, the year-end closing exchange rate is used for the valuation of all assets and liabilities, historical exchange rate is used to value stockholder's equity, and the average exchange rate for the year is used for the calculation of the consolidated financial statements. The net impact of the translation into the U.S. Dollar is included in the accumulated other comprehensive income (loss) of the Company's consolidated balance sheet as of December 31, 2023 and December 31, 2022. During the year ended December 31, 2023, there was a fluctuation in the exchange rates ranging from KRW 1,219.30/USD $1 to KRW 1,340.20/USD $1. Also, cash flows are also translated at average translation rates for the periods, therefore, amounts reported on the statement of cash flows will not necessarily agree with changes in the corresponding balances on the consolidated balance sheets

Use of Estimates

The preparation of the Company's consolidated financial statements and related disclosures in conformity with U.S. Generally Accepted Accounting Principles ("*US GAAP*") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Management evaluates its estimates on an ongoing basis. Although estimates are based on the Company's historical experience, knowledge of current events and actions it may undertake in the future, actual results may materially differ from these estimates and assumptions.

Cash and Cash Equivalents

The Company considers all highly liquid investments with maturities of three months or less at the date of purchase to be cash equivalents. The Company maintains its cash in bank deposit accounts which, at times, may exceed the federal insurance limit, and the balance of deposit accounts of the Company exceed the federal insurance limit as of December 31, 2023.

Accounts Receivable

Accounts receivables are recorded at the invoiced amount and do not bear interest. Amounts collected on trade accounts receivable are included in net cash provided by operating activities in the consolidated statements of cash flows. The Company maintains an allowance for doubtful accounts for estimated losses inherent in its accounts receivable portfolio. In establishing the required allowance, management considers historical losses adjusted to take into account current market conditions and customers' financial condition in dispute, and the current receivables aging and current payment patterns. The Company reviews its allowance for doubtful accounts quarterly. Past-due balances over 90 days and over a specified amount are reviewed individually for collectability. Account balances are written off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company recorded the allowance of $0 on the accompanying consolidated balance sheets as of December 31, 2023 and December 31, 2022. The Company does not have any off-balance-sheet credit exposure related to its customers.

Non-Trade Receivables

Non-trade receivables are recorded at the invoiced amount and do not bear interest. Amounts collected on non-trade receivables are included in net cash provided by operating activities in the consolidated statements of cash flows. The Company maintains an allowance for doubtful accounts for estimated losses inherent in its non-trade receivables portfolio. In establishing the required allowance, management considers historical losses adjusted to take into account current market conditions and customers' financial condition in dispute, and the current receivables aging and current payment patterns. The Company reviews its allowance for doubtful accounts quarterly. Past-due balances over 90 days and over a specified amount are reviewed individually for collectability. Account balances are written off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company recorded the allowance of $0 and $12,941 on the accompanying consolidated balance sheets as of December 31, 2023 and December 31, 2022 respectively. The Company does not have any off-balance-sheet credit exposure related to its customers.

Revenue Recognition

The Company anticipates generating revenues from (i) FANTOO platform through advertising, direct sales, and user to user commissions, and (ii) other businesses. Revenue billed or collected in advance will be recorded as deferred revenue until the event occurs or until applicable performance obligations are satisfied.

Revenue is recognized when the Company transfers promised goods or services to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods and services. In this regard, revenue is recognized when: (i) the parties to the contract have approved the contract (in writing, orally, or in accordance with other customary business practices) and are committed to perform their respective obligations; (ii) the entity can identify each party's rights regarding the goods or services to be transferred; (iii) the entity can identify the payment terms for the goods or services to be transferred; (iv) the contract has commercial substance (that is, the risk, timing, or amount of the entity's future cash flows is expected to change as a result of the contract); and (v) it is probable that the entity will collect substantially all of the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer.

Transaction prices are based on the amount of consideration to which we expect to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties, if any. We consider the explicit terms of the revenue contract, which are typically written and executed by the parties, our customary business practices, the nature, timing, and the amount of consideration promised by a customer in connection with determining the transaction price for our revenue arrangements. Refunds and sales returns historically have not been material.

For the years ended December 31, 2023 and December 31, 2022, the Company recognized product sales revenue amounting to $71,242 and $0. Revenue is derived at the point in time when merchandise is sold and shipped or delivered to customers. Merchandise sales are fulfilled with inventory sourced from our owned inventory. Although the Company does not currently have any inventory as of the balance sheet date, the Company, from time to time, may hold products in inventory for an abbreviated amount of time before shipping such inventory and recognizing the corresponding revenue.

Revenue is recognized when control of the product passes to the customer, typically at the date of delivery of the merchandise to the customer, or the date a service is provided and is recognized in an amount that reflects the expected consideration to be received in exchange for such goods or services. As such, customer orders are recorded as unearned revenue prior to delivery of products or services ordered. If the Company ships high volumes of packages through multiple carriers, the Company will use estimates to determine which shipments are to be delivered and, therefore, recognized as revenue at the end of the period. Delivery date estimates are based on average shipping transit times, which are calculated using the following factors: (i) the type of shipping carrier (as carriers have different in-transit times); (ii) the fulfilment source; (iii) the delivery destination; and (iv) actual transit time experience, which shows that delivery date is typically one to eight business days from the date of shipment. The Company reviews and updates our estimates on a quarterly basis based on our actual transit time experience. However, actual shipping times may differ from our estimates.

Generally, the Company requires authorization from credit cards or other payment vendors whose services the Company offers to customers or verification of receipt of payment, before the Company ships products to purchasers. The Company generally receives payments from our customers before our payments to our suppliers are due. The Company does not recognize assets associated with costs to obtain or fulfill a contract with a customer.

Shipping and handling is considered a fulfillment activity, as it takes place prior to the customer obtaining control of the merchandise, and fees charged to customers are included in net revenue upon completion of our performance obligations. The Company presents revenue net of sales taxes, discounts, and expected refunds.

Merchandise sales contracts include terms that could cause variability in the transaction price for items such as discounts, credits, or sales returns. Accordingly, the transaction price for product sales includes estimates of variable consideration to the extent it is probable that a significant reversal of revenue recognized will not occur. At the time of sale, the Company estimates a sales return liability for the variable consideration based on historical experience, which is recorded within “Accrued Liabilities” in the consolidated balance sheet. The Company records an allowance for returns based on current period revenues and historical returns experience. The Company analyzes actual historical returns, current economic trends and changes in order volume, and acceptance of our products when evaluating the adequacy of the sales returns allowance in any accounting period.

The Company evaluates the criteria outlined in the Financial Accounting Standards Board (“*FASB*”) Accounting Standards Codification (“*ASC*”) 606-10-55, *Principal versus Agent Considerations*, in determining whether it is appropriate to record the gross amount of merchandise sales and related costs or the net amount earned as commissions. When the Company is the principal in a transaction and controls the specific good or service before it is transferred to the customer, revenue is recorded gross; otherwise, revenue is recorded on a net basis. Currently, the Company records all advertising revenue as a net basis, and other revenues are recorded as a gross basis, and the revenues as a gross basis for the years ended December 31, 2023 and December 31, 2022 are $1,014,266 and $889,045. Through contractual terms with our partners, we have the ability to control the promised goods or services and as a result record the majority of the revenue on a gross basis.

The customers and sales amount with more than 10% of total revenue as a gross basis for the years ended December 31, 2023 and December 31, 2022 are as follows, and they are the advertising revenue.

Fiscal Year	Customer	Sales Amount	%
2023	**A**	**$ 191,511**	**19%**
2023	**B**	**$ 696,403**	**69%**
2022	**C**	**$ 774,024**	**87%**

Cost of Revenue

Cost of revenue is recognized at the time the products or services are delivered to the customers. Cost of revenue includes all direct labor, material, shipping and handling cost and other direct costs such as travel, postage, telecommunication, vehicle charge, printing, and training, and allocated indirect costs related to revenue such as supplies, utilities, office equipment rental, and computers.

Property Plant and Equipment

Property plant and equipment are carried at cost (see Note 5). Depreciation expense is provided over the estimated useful lives of the assets using the straight line method for vehicles and the declining balance method for fixtures and equipment. A summary of the estimated useful lives is as follows:

Classification	Estimated Useful Life in Years
Vehicles	5
Fixtures	5
Equipment	5

Maintenance and repairs are charged to expense as incurred, while any additions or improvements are capitalized.

The Company evaluates property and equipment for impairment when facts and circumstances indicate that the carrying values of such assets may not be recoverable. When evaluating for impairment, the Company first compare the carrying value of the asset to the asset’s estimated future undiscounted cash flows. If the estimated undiscounted future cash flows are less than the carrying value of the asset, the Company determines if there is an impairment loss by comparing the carrying value of the asset to the asset’s estimated fair value and recognizes an impairment charge when the asset’s carrying value exceeds its estimated fair value. The fair value of the asset is estimated using a discounted cash flow model based on forecasted future revenues and operating costs, using internal projections. There were no significant property and equipment asset impairment charges recorded during the year ended December 31, 2023, and the year ended December 31, 2022.

Impairment of Long-Lived Assets

The Company assesses the recoverability of long-lived assets whenever events or changes in circumstances indicate that their carrying value may not be recoverable. If the cost basis of a long-lived asset is greater than the projected future undiscounted net cash flows from such asset, an impairment loss is recognized. Impairment losses are calculated as the difference between the cost basis of an asset and its estimated fair value. There were no significant long-lived assets impairment charges recorded during the year ended December 31, 2023 and the year ended December 31, 2022.

Concentrations of Credit Risk

Cash and cash equivalents are financial instruments that potentially subject the Company to concentrations of credit risk. The Company may maintain deposits in financial institutions in excess of government insured limits. The Company believes that it is not exposed to significant credit risk as its deposits are held at financial institutions that management believes to be of high credit quality and the Company has not experienced any losses on these deposits. The Company is also potentially subject to concentrations of credit risk in its accounts receivable and loans. Credit risk with respect to receivables is limited due to the number of companies comprising the Company’s customer base. Credit risk with respect to loans is limited since they are made principally related to the collaborative activities between the Company and loan holders. Since the Company is directly affected by the financial condition of its customers and loan holders, management carefully watch if any significant credit risks exist, and they will make actions to remove or mitigate such risks if there are any. For the years ended December 31, 2023 and December 31, 2022, over 10% of the revenues are from two customers and one customer, but there are no receivable balances from them. Also, over 10% of the account receivable for the year ended December 31, 2023 is from Hanryu Times, which was the affiliated company by December 28, 2023, and Hanryu Times and the company already agreed to the payment plan that Hanryu Times would pay back all by the end of December 31, 2024. Therefore, as of December 31, 2023 and December 31, 2022, the Company believes that the credit risk for the account receivables is manageable and controllable. Generally, the Company does not require collateral or other securities to support its accounts receivable and loans.

Fair Value of Financial Instruments

The fair value of Company’s financial instruments, consisting of cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities, debt receivables, debt payables approximate their recorded amounts due to their relatively short settlement terms.

Fair Value Measurements

The Company applies a three-level valuation hierarchy for fair value measurements. The categorization of assets and liabilities within the valuation hierarchy is based on the lowest level of input that is significant to the measurement of fair value.

Level 1 — Inputs to the valuation methodology utilize unadjusted quoted market prices in active markets for identical assets and liabilities.

Level 2 — Inputs to the valuation methodology are other observable inputs, including quoted market prices for similar assets and liabilities, quoted prices for identical and similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 — Inputs to the valuation methodology are unobservable inputs based on management’s best estimate of the inputs that market participants would use in pricing the asset or liability at the measurement date, including assumptions about risk.

A change to the level of an asset or liability within the fair value hierarchy is determined at the end of a reporting period.

Investments

The Company’s investments are carried at historical cost. As of December 31, 2023 and December 31, 2022, there is no balance of investments.

Earning (Loss) Per Share

Basic earning (loss) per share is computed by dividing the income or loss by the weighted-average number of outstanding shares of Common Stock for the applicable period. Diluted earning (loss) per share is computed by dividing the income or loss by the weighted-average number of outstanding shares of Common Stock for the applicable period, including the dilutive effect of Common Stock equivalents. Potentially dilutive Common Stock equivalents primarily consist of warrants issued in connection with financings. For purposes of computing both basic and diluted earning (loss) per share, income or loss shall exclude the income or loss attributable to the non-controlling interest. The Company calculates net loss per share in accordance with FASB ASC Topic 260, *Earnings Per Share*. Basic net loss per share amounts have been computed by dividing net loss excluded loss attributable to the non-controlling interest by the weighted-average number of common shares outstanding during the period. For the years ended December 31, 2023 and 2022, the Company reported net losses and, accordingly, potential common shares were not included since such inclusion would have been anti-dilutive. As a result, our basic and diluted net loss per share are the same because the Company generated a net loss in all periods presented.

Income Taxes

Deferred income tax assets and liabilities are determined based on differences between the financial statement reporting and tax basis of assets and liabilities and are measured using the enacted tax rates and laws in effect when the differences are expected to reverse. The measurement of deferred income tax assets is reduced, if necessary, by a valuation allowance for any tax benefits which are not expected to be realized. The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in the period that such tax rate changes are enacted. We have determined that all of our deferred tax benefits are not likely to be realized due to our historical and expected future taxable losses. Accordingly, we have maintained a full valuation allowance.

The Company applies the provisions of FASB ASC Topic 740-10, *Uncertainty in Income Taxes*. The Company has evaluated our tax positions, and there are none as of December 31, 2023 and December 31, 2022.

Income taxes on the Company’s taxable income from operating activities are subject to various tax laws and determinations of the authority in the ROK. Regarding taxes payable in the ROK, if a certain portion of taxable income is not used for investments or for increases in wages or dividends, in accordance with the Tax System for Recirculation of Corporate Income, the Company is liable to pay additional income tax calculated based on Korean tax law.

The Company assesses uncertainty over a tax treatment. When the Company concludes it is not probable that the taxation authority will accept an uncertain tax treatment, the Company will reflect the effect of uncertainty for each uncertain tax treatment by using either of the following methods, depending on which method the Company expects to better predict the resolution of the uncertainty;

- The most likely amount: The single most likely amount in a range of possible outcomes.
- The expected value: The sum of the probability-weighted amounts in a range of possible outcomes.

Lease

Under ASC 842, the determination of whether an arrangement is a lease is made at the lease's inception and a contract is (or contains) a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is defined under the standard as having both the right to obtain substantially all of the economic benefits from use of the asset and the right to direct the use of the asset. Management only reassesses its determination if the terms and conditions of the contract are changed. Operating leases are included in operating lease right-of-use ("ROU") assets, other current liabilities, and operating lease liabilities in our balance sheets. Finance leases are included in property and equipment, other current liabilities, and other long-term liabilities in our balance sheets.

ROU assets represent our right to use an underlying asset for the lease term, and lease liabilities represent our obligation to make lease payments. Operating lease ROU assets and liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. The Company uses the implicit rate when it is readily determinable. Since most of the Company's leases do not provide an implicit rate, to determine the present value of lease payments, management uses the Company's incremental borrowing rate based on the information available at lease commencement. Operating lease ROU assets also includes any lease payments made and excludes any lease incentives. Lease expense for lease payments is recognized on a straight-line basis over the lease term. Leases with an initial term of 12 months or less are not recorded on the balance sheet.

The Company has lease agreements with lease and non-lease components, which are generally accounted for separately with amounts allocated to the lease and non-lease components based on stand-alone prices or for which it has made an accounting policy election to account for these as a single lease component. For certain equipment leases, like vehicles, the Company accounts for the lease and non-lease components as a single lease. Refer to Note 7 for additional disclosures required as a result of the adoption of this new standard.

Recently Issued Accounting Standards

In August 2020, the FASB issued ASU No. 2020-06, *Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40) Accounting for Convertible Instruments and Contracts in an Entity's Own Equity* ("*ASU 2020-06*"). ASU 2020-06 changes how entities account for convertible instruments and contracts in an entity's own equity and simplifies the accounting for convertible instruments by removing certain separation models for convertible instruments. ASU 2020-06 also modifies the guidance on diluted earnings per share calculations. ASU 2020-06 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2023.

In November 2019, the FASB issued ASU 2019-10, "*Financial Instruments - Credit Losses (Topic 326), Derivatives and Hedging (Topic 815), and Leases (Topic 842): Effective Dates*", which amended the effective date of the various topics. As the Company is a smaller reporting company, the provisions of ASU 2016-13 and the related amendments are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2022 (quarter ending September 30, 2023 for the Company). Entities are required to apply these changes through a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective.

In June 2016, the Financial Accounting Standards Board ("FASB") issued ASU 2016-13, "*Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*" ("ASU 2016-13"), which requires an entity to assess impairment of its financial instruments based on its estimate of expected credit losses. Since the issuance of ASU 2016-13, the FASB released several amendments to improve and clarify the implementation guidance.

The Company is reviewing the effects of following recent updates. The Company has no expectation that any of these items will have a material effect upon the financial statements.

INVESTMENTS

NOTE 6 — INVESTMENTS

The following table summarizes information with regard to investments outstanding as of December 31, 2023 and December 31, 2022.

Changes in investments, for the years ended December 31, 2023 and December 31, 2022, are as follows

	December 31, 2023	December 31, 2022
Beginning	$ —	$ 1,695,299

Increase	—	635,000
Decrease	—	(2,183,822)
Loss on sale of investments	—	(6,794)
Translation Adjustment	—	(139,683)
Total Investments	$ —	$ —

On October 18, 2021, the Company purchased bonds with warrants issued by Setopia Co., Ltd. ("*Setopia*"), for total consideration of $1,687,052 (the "*Setopia Bonds with warrants*"). The form of consideration was a mix of: (i) warrants to purchase 666,666 Common Shares of HBC, valued at $873,805; and (ii) distribution of 100,000,000 KDC.

The transaction with Setopia as a beneficial owner of more than 10% of the Company's outstanding securities, was a related-party transaction. However, neither Setopia nor the Company control the other by any methods including, without limitation, contract, lease, agreements between shareholders, or court decree. Further, each of Setopia and HBC have different principal owners, management, and there have been no transactions between any members of the principal owners' or managements' immediate families. On October 27, 2022, Setopia became an unaffiliated and unrelated third party of the Company since, as of that date, Setopia is a stockholder who owns less than 10% of the Company's outstanding securities.

The Company accounted for the investment in Setopia at fair value. The Company determined this investment to be a "debt security" classified into trading debt securities under ASC 320-10-20, as the Company intended to sell it in the near term at the time of acquisition. There has been no unrealized holding gains and losses for trading securities included in earnings since the value of the Setopia Bonds with warrants did not change until it is sold to the third party for the year ended December 31, 2022. Prior to the acquisition of the Setopia Bonds with warrants, the Company owned no interest in Setopia. After the acquisition the Setopia Bonds with warrants, the Company became the owner of record or known beneficial owner of 2.06% of the voting interest of Setopia.

The acquisition of the Setopia Bonds with warrants is a related-party transaction under ASC 850-10-05-3(d).

On February 11, 2022, the Company sold the acquired Setopia Bonds with warrants to an unaffiliated and unrelated third party in exchange for the consideration of cash totaling $696,621 and a non-trade receivable for $851,426 due by December 30, 2022, which resulted in a decrease of the investment balance of $1,687,052 including the currency translation adjustment of ($139,004) as of December 31, 2022. The Company and a third party entered into an extension agreement for a non-trade receivable due by April 30, 2023.

On October 4, 2022, the Company purchased convertible bonds issued by Setopia, for total consideration of $635,000 (the "Setopia Convertible Bonds"). The Setopia Convertible Bonds were initially issued on January 27, 2022, with no annual interest and a maturity date of January 27, 2025. The form of consideration was to accept the consideration of warrants with an exercise price of $1.27 to purchase 500,000 shares of Common Stock. On October 4, 2022, warrants were exercised with an exercise price of $1.27 to purchase 500,000 shares of common stock.

On December 30, 2022, the Company sold the Setopia Convertible Bonds to an unaffiliated and unrelated party by receiving non-trade receivables of $710,171 due by February 28, 2023, which resulted in a decrease of the investment balance of $635,000 including the currency translation adjustment of $75,171 as of December 31, 2022. The Company collected such non-trade receivables by cash in full on March 23, 2023. There was no gain or loss realized on this transaction during the year ended December 31, 2022.

On June 30, 2021, HBC and Sewang entered into the Contract and Share Assignment, pursuant to which HBC acquired: (i) the Marine Island Shares, and thereby the Lien, which gave Marine Island the right to use and occupy the Seoul Marina until the Lien is repaid; (ii) the SMC Shares; and (iii) the SMC Receivable.

The aggregate consideration paid to Sewang for the rights and assets under the Contract was $2,943,905, initially allocated as follows: (1) $8,247 to the purchase SMC Shares at a price of $0.87 per share, constituting 24.53% of the issued and outstanding common shares of SMC; and (2) $2,935,658 to SMC Receivable and the Lien, calculated by determining the present value of leasing the Seoul Marina facilities for free over 10 years. Sewang received $2,009,752 in the form of 23,000,000 KDC, and the remaining $934,153 in the form of cash.

On December 30, 2022, the Company sold the SMC shares to an unaffiliated and unrelated third party in exchange for the consideration of cash totaling $774, which resulted in a decrease of the investment balance of $8,247 including the currency translation adjustment of ($679) as of December 31, 2022 and loss on sale of investments of $6,794 for the year ended December 31, 2022.

The Company recorded the Marine Island Shares as affiliated stocks, and the SMC Shares as an investment, and the remaining SMC Receivable and Lien as Operating Lease Right-Of-Use Asset which is being amortized over a ten year period under the guidelines of ASC 842. See Note 7 "Lease". The SMC Shares and the Marine Island Shares were calculated by the number of shares multiplied by the par value of $0.87 and $0.44. The value of SMC Receivable and the Lien was calculated by determining the present value of the Lien on the assumption the Company would lease the Seoul Marina facilities for free for at least 10 years.

The Company is not a principal owner of SMC. In addition, neither SMC nor the Company control the other by any methods including, without limitation, contract, lease, agreements between shareholders, or court decree. Further, each of SMC and HBC have different principal owners, management, and there have been no transactions between any members of the principal owners' or managements' immediate families.

For the Marine Island Shares, the Company applied ASC 805 as the Company owns more than 50% of the issued and outstanding shares of Marine Island, and the Company consolidates the financial statements. For the SMC Shares, the Company applies ASC Topic 321-10-20 and 321-10-35-2, and it is recorded as an equity investment by the cost method. For SMC right, the Company recorded these rights as Operating Lease Right-Of-Use Asset-see Note 7.

Lease [Abstract]

LEASE

NOTE 7 — LEASE

The Company uses approximately 19,200 square feet of office space at the Seoul Marina described in in Note 6 — Investments, at no cost. Although no formal lease exists, the Company believes that ASC 842 accounting guidelines apply to determine the fair market value of ten years of free rent as well as recording rent expense on its Statement of Operations. Using the following variables:

Annual lease cost — 300,000,000 Korean Won

10-year present value calculation

Assumed annual rent increase -4.96%

Interest cost -3%

10-year bond rate on Korean Bonds 2.11%

Exchange rate: 1188.5 Korean Won to the US dollar

The Company determined that the present value of ten years of free rent amount to $2,775,512 which was recorded as a long-term ROU asset as of June 30, 2021. Since there were no liabilities associated with this asset since the Company is receiving free rent, the ROU assets is being amortized at a rate of approximately $23,000 per month over a ten year term. Since the Company had initially allocated a value of $2,935,658 to SMC Receivable and the Lien, the Company recorded an impairment of $158,278 on its Right-of-Use Asset for the year ended December 31, 2021.

As of December 31, 2023 and December 31, 2022, the balances of the Right-of-Use-Asset was $1,918,966 and $2,212,754, respectively.

Lease cost consists of approximately $287,487 and $255,357, for the years ended December 31, 2023 and December 31, 2022, respectively. The weighted average remaining lease term in years for operating leases is 8 years and the weighted average discount rate for operating leases is 3%.

Bonds With Warrants [Abstract]

BONDS WITH WARRANTS

NOTE 10 — BONDS WITH WARRANTS

Bonds with warrants were issued by HBC from December 17, 2018 through July 2, 2021. The terms and conditions of the bonds with warrants at the time of acquiring bonds and issuance of such bonds are set forth below. Currently, the Company and all bondholders have entered into an agreement that the bondholders will waive all interest payments due for the life of the bonds.

The entire face amount of the bonds is the maximum number of Common Shares for which the attached warrants can be exercised by each bondholder, with exercise prices from $0.42 to $1.27 per common share.

On March 31, 2021, HBC issued 4,150,000 Common Shares to the shareholders of RnDeep pursuant to the RnDeep Merger. As the surviving company in the RnDeep Merger, HBC assumed the RnDeep Warrants, therefore allowing the RnDeep Warrants to be exercised for Common Shares of HBC, in the following amounts:

- RnDeep Warrants issued on March 17, 2020, for an aggregate purchase price of $2,586,850. The bonds have a maturity date of March 17, 2023 and accrue interest at a rate of 3% annually. The warrants have an exercise price of $0.42, and can be exercised at any time after the date that is four months after the date the bond was issued, and expire the day immediately preceding the maturity date of the bonds.
- RnDeep Warrants issued on April 13, 2020, for an aggregate purchase price of $1,687,052. The bonds have a maturity date of April 13, 2023, and accrue interest at a rate 3% annually. The warrants have an exercise price of $0.42, and can be exercised at any time after the date that is four months after the date the bond was issued, and expire the day immediately preceding the maturity date of the bonds.
- RnDeep Warrants issued on May 6, 2020, for an aggregate purchase price of $3,880,220. The bonds have a maturity date of May 6, 2023, and accrue interest at a rate of 3% annually. The warrants have an exercise price of $1.27, and can be exercised at any time after the date that is four months after the date the bond was issued, and expire the day immediately preceding the maturity date of the bonds.

After the RnDeep Merger, HBC and the RnDeep Holders entered into an agreement that the RnDeep Holders would waive the interest accruing on the RnDeep Warrants. Therefore, the Company recognized the RnDeep Warrants acquired at the respective face value of each respective RnDeep Warrant. Furthermore, HBC held RnDeep Warrants an aggregate value of $2,586,850, and offset such value against HBC's assets.

On April 7, 2021, HBC issued bonds with warrants for an aggregate purchase price of $3,153,714. The bonds accrue interest at an annual rate of 1% and mature on March 31, 2022. The warrants have an exercise price of $0.42 and can be exercised at any time after the date that is three months after the date the bond was issued, and expire if not exercised prior to the maturity date of the bonds.

On July 1, 2021, HBC issued bonds with warrants for an aggregate purchase price of $1,096,584. The bond accrues no annual interest and matures on July 1, 2024. The warrants have an exercise price of $0.42, and can be exercised at any time after the issuance date, and expire the month preceding the maturity date of the bonds.

On July 2, 2021, HBC issued bonds with warrants for an aggregate purchase price of $3,795,867. The bond accrues no annual interest and mature on July 2, 2024. The warrants have an exercise price of $1.27 and can be exercised at any time after the issuance date, and expire the month preceding the maturity date of the bonds.

HBC has the right to make early repayments before maturity for these bonds with warrants and has exercised its right to do so in the amounts of $11,420,268 and $919,118 for the Year ended December 31, 2021 and the year ended December 31, 2020, respectively.

On March 31, 2021, holders of certain bonds and warrants with an aggregate value of $1,687,906 exercised their warrants to purchase common shares of HBC. As of December 31, 2021 and 2020, the fair value of bonds with warrants was $3,795,867 and $6,709,559, respectively.

The following two tables summarizes information with regard to bonds with warrant outstanding as of December 31, 2023 and December 31, 2022.

Amount as of December 31, 2021	$ 3,795,867
Translation adjustment	(245,011)
Amount as of December 31, 2022	$ 3,550,856
Translation adjustment	(60,861)
Amount as of December 31, 2023	$ 3,489,995

Terms and conditions of bonds with warrants at the inception are as follows:

No.	Issue Date	Maturity	Amount	Nominal Interest Rate	Interest Rate of Return
11	7/2/2021	7/2/2024	$ 3,489,995	0%	3%
Total			$ 3,489,995		

* Nominal interest rate and interest rate of return are waived by the separate agreements between the Company and the bondholders.

Warrants

There are no remaining outstanding warrants as of December 31, 2023.

There is not a viable market for the Company's Common Stock to determine its fair value, therefore management is required to estimate the fair value to be utilized in the determining warrant costs and value. In estimating the fair value, management considers the comparable value of public companies from the same industry. Considerable management judgment is necessary to estimate the fair value. Accordingly, actual results could vary significantly from management's estimates.

Option valuation models require the input of highly subjective assumptions. The fair value of warrants was estimated using the Black-Scholes option model with a volatility figure derived from public companies in the same industry. Management determined this assumption to be a more accurate indicator of value. The Company accounts for the expected life of warrants based on the maturity of warrants. The risk-free interest rate was determined from the implied yields of U.S. Treasury zero-coupon bonds with a remaining life consistent with the expected term of the options. The fair value of warrants during the years ended December 31, 2021 and December 31, 2020 was estimated using the Black-Scholes pricing model.

On March 31 2021, HBC acquired an aggregate of 12,066,666 warrants to purchase HBC Common Shares in connection with RnDeep Merger at the exercise prices of $0.42 (9,000,000 warrants) and $1.27 (3,666,666 warrants) per share for a term of one to two years, exercisable immediately.

The fair value of the issued warrants were determined using the Black Scholes option pricing model with the following assumptions:

Dividend yield:	0%
Volatility	43.36%
Risk free rate:	0.08%
Expected life:	1 – 2 years
Estimated fair value of the Company's Common Stock	$0.47

The fair value of $691,267 was charged to operations as financing costs for the year ended December 31, 2021.

On July 1, 2021 and July 2, 2021, HBC issued an aggregate of 13,077,455 warrants to purchase HBC Common Shares at the exercise prices of $0.42 (10,077,455 warrants) and $1.27 (3,000,000 warrants) per share for a term of nine months to three years exercisable immediately.

The fair value of the issued warrants were determined using the Black Scholes option pricing model with the following assumptions:

Dividend yield:	0%
Volatility	43.36%
Risk free rate:	0.05 – 0.07%
Expected life:	0.5 – 3 years
Estimated fair value of the Company's Common Stock	$0.47

The fair value of $1,065,018 was charged to operations as financing costs for the year ended December 31, 2021.

A summary of the warrant activity for the year ended December 31, 2023 and the year ended December 31, 2022 is as follows:

	Shares	Weighted-Average Exercise Price	Weighted Average Remaining Contractual Term
Outstanding at December 31, 2021	11,404,121	$ 0.87	1.72

Other [Abstract]

OTHER

NOTE 14 — OTHER

The Company believes that KDC meets the definition of indefinite-lived intangible assets under ASC 350, as it is nonfinancial asset that lacks physical substance. Therefore, KDC was recognized and measured at historical cost. In addition, the Company determined that KDC has an indefinite life since there is no legal, regulatory, contractual, competitive, economic, or other factors that limit the useful life of KDC, in accordance with ASC 350-30-35-4.

The Company initially created KDC, a public digital cryptocurrency separate and apart from the FANTOO platform, as a method of onboarding and offboarding FP to and from the FANTOO platform through the Kingdom Wallet. However, on June 22, 2022, the Company entered into a Business Transfer Agreement (the "*KDC Agreement*") with Kingdom Coin Holdings, a corporation incorporated in the Cayman Islands (the "*KDC Foundation*"), pursuant to which the Company transferred all of its KDC to the KDC Foundation, and no longer conducts or controls the operations, issuance, or sales of KDC in order to substantially reduce our involvement with blockchain technologies. This shift in our business plan was undertaken both to protect our users from potential risks associated with speculation in KDC, and because of the recent market and regulatory conditions surrounding cryptocurrency in general. As such, the Company no longer supports or operates Kingdom Wallet, and no longer allows the conversion of FP into KDC (and vice-versa). Neither Hanryu Holdings, nor any of its subsidiaries, have any affiliation with the KDC Foundation.

Additionally, and for the avoidance of doubt, the control person of Plus Meta PTE Ltd., KDC Foundation's management company, is not an affiliate, and is not in any way related to, any officer, director, or shareholder of the Company. The KDC Foundation does not, has not, and will not coordinate any of its activities with the Company or the Company's operation of FANTOO. Further, KDC will not be marketed to FANTOO users.

Pursuant to the KDC Agreement, in exchange for the Company transferring (a) its then-existing outstanding KDC balance of 299,651,320,620, (b) blockchain mainnet known as the Fandomchain, and (c) the Kingdom Wallet to the KDC Foundation, the KDC Foundation will (y) assume all obligations and liabilities with respect to KDC and Kingdom Wallet, and (z) pay to the Company the following contingent amounts, if, at December 31, 2024:

- The KDC Foundation generates sales in excess of $74 million from the assets transferred from the Company, the KDC Foundation shall pay 10% of such sales to the Company;
- The KDC Foundation generates sales in excess of $37 million, but less than $74 million, from the assets transferred from the Company, the KDC Foundation shall pay 15% of such sales to the Company; and
- The Company will receive no consideration from the KDC Foundation if the assets transferred from the Company generates sales under $37 million.

For the avoidance of doubt, sales generated from the transferred assets do not include any post-transfer newly created KDC. KDC Foundation planned to generate revenue by integrating KDC, FandomChain, and the Kingdom Wallet into mobile games, and monetizing such games. Due to current cryptocurrency-related market conditions, the Company does not expect to receive any payments from KDC Foundation through December 31, 2024 in accordance with the terms of the Business Transfer Agreement.

The KDC agreement included contingent earn-out consideration, the fair value of which was estimated on June 22, 2022, as the present value of the expected future contingent receivables which the Company determined using a probability-weighted discounted cash flow model for probabilities of possible future receivables. The Company determined the fair value of contingent consideration as zero on June 22, 2022. Contingent consideration is remeasured to fair value at each reporting date until the contingency is resolved, with changes in fair value recognized in profit or loss in most circumstances. The Company recorded zero value of the contingent consideration on the accompanying consolidated balance sheets as of December 31, 2022.

The Company believes that the transfer of KDC meets the definition of a "Component of an Entity" under FASB ASC Topic 205-20, *Discontinued Operations*, and as such can be disposed of by a means other than sale. The divestiture of KDC and its associated operations does not represent a strategic shift, nor has (and will not have), a major effect on the Company's operations and financial results because the blockchain/KDC operations did not represent:

- 15% of the Company's total revenue;
- Geographical area that represents 20% of the Company's total assets; or
- 30% of the Company's historic net income and 15% of the current period's income.

The Company did not present the divestiture of its holdings of KDC and KDC-related activity as discontinued operations because there was no revenue, asset value, or net income from the divestiture of KDC and the related operations.

SHARE CAPITAL

NOTE 15 — SHARE CAPITAL

As of December 31, 2023, and December 31, 2022, Hanryu Holdings' total authorized capital stock is 110,000,000 shares, consisting of 100,000,000 shares of Common Stock, par value $0.001 per share, and 10,000,000 shares of undesignated preferred stock, par value $0.001 per share.

On January 4, 2023, through March 8, 2023, warrants of $1,813,120 were exercised with an exercise price of $1.27 to purchase 1,427,653 shares of Common Stock by cash of $1,420,144 and debt conversion of $392,776.

In February and March of 2023, the Company closed two private placements solely to accredited investors (as defined by Rule 501(a) of Regulation D of the Securities Act) pursuant to which the Company sold an aggregate amount of 240,000 shares of common stock for $10.00 per share, resulting in gross proceeds of $2,400,000. The purchase price of the common stock purchased in the private placements is subject to adjustment to the price of the common stock sold in the Company's IPO, such that additional common stock shall be issued to the purchasers if the price of common stock sold in the IPO is less than $10.00 per share, or the purchasers shall return common stock to the Company if the price of the common stock sold in the IPO is greater than $10.00 per share, in each case resulting in the purchasers purchasing an aggregate amount of $2,400,000 of Company common stock at the IPO price. The offerings were exempt from registration under Section 4(a)(2) of the Securities Act. The subscription agreements pursuant to which the common stock was sold to accredited investors contain customary representations and warranties of the Company and the investors and customary indemnification rights and obligations of the parties.

On March 24, 2023, warrants of $8,400 were exercised with an exercise price of $0.42 to purchase 20,000 shares of Common Stock by cash.

Accounting Policies, by Policy (Policies)	12 Months Ended Dec. 31, 2023
Significant Accounting Policies [Abstract]	

Principles of Consolidation

Principles of Consolidation

The consolidated financial statements of the Company include the financial statements of Hanryu Holdings, and its three wholly owned subsidiaries, HBC, FNS, and Marine Island in 2023, and its five wholly owned subsidiaries, HBC, FNS, Hanryu Times, Fantoo Entertainment, and Marine Island and majority-owned subsidiary (50.8%), K-Commerce in 2022. All significant intercompany transactions and balances have been eliminated in consolidation.

Non-controlling interests are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date.

Changes in the consolidated group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

The ownership of non-controlling interests of K-Commerce, out significant consolidated subsidiary as of December 31, 2022, was 49.2%. Since HBC sold owned whole shares of Hanryu Times, Fantoo Entertainment, and K-Commerce, at December 28, 2023, they are not consolidated from December 28, 2024, and N the controlling interests of K-Commerce become $0

Foreign Currency

Foreign Currency

The Company's functional currency for all operations is the KRW. The Company's accounting records are maintained in KRW, and translated into U.S. Dollars at year-end for the purposes of presentation. During the translation process, the year-end closing exchange rate is used for the valuation of all assets and liabilities, historical exchange rate is used to value stockholder's equity, and the average exchange rate for the year is used for the calculation of the consolidated financial statements. The net impact of the translation into the U.S. Dollar is included in the accumulated other comprehensive income (loss) of the Company's consolidated balance sheet as of December 31, 2023 and December 31, 2022. During the year ended December 31, 2023, there was a fluctuation in the exchange rates ranging from KRW 1,219.30/USD $1 to KRW 1,340.20/USD $1. Also, cash flows are also translated at average translation rates for the periods, therefore, amounts reported on the statement of cash flows will not necessarily agree with changes in the corresponding balances on the consolidated balance sheets

Use of Estimates

Use of Estimates

The preparation of the Company's consolidated financial statements and related disclosures in conformity with U.S. Generally Accepted Accounting Principles ("*US GAAP*") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Management evaluates its estimates on an ongoing basis. Although estimates are based on the Company's historical experience, knowledge of current events and actions it may undertake in the future, actual results may materially differ from these estimates and assumptions.

Cash and Cash Equivalents

Cash and Cash Equivalents

The Company considers all highly liquid investments with maturities of three months or less at the date of purchase to be cash equivalents. The Company maintains its cash in bank deposit accounts which, at times, may exceed the federal insurance limit, and the balance of deposit accounts of the Company exceed the federal insurance limit as of December 31, 2023.

Accounts Receivable

Accounts Receivable

Accounts receivables are recorded at the invoiced amount and do not bear interest. Amounts collected on trade accounts receivable are included in net cash provided by operating activities in the consolidated statements of cash flows. The Company maintains an allowance for doubtful accounts for estimated losses inherent in its accounts receivable portfolio. In establishing the required allowance, management considers historical losses adjusted to take into account current market conditions and customers' financial condition in dispute, and the current receivables aging and current payment patterns. The Company reviews its allowance for doubtful accounts quarterly. Past-due balances over 90 days and over a specified amount are reviewed individually for collectability. Account balances are written off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company recorded the allowance of $0 on the accompanying consolidated balance sheets as of December 31, 2023 and December 31, 2022. The Company does not have any off-balance-sheet credit exposure related to its customers.

Non-Trade Receivables

Non-Trade Receivables

Non-trade receivables are recorded at the invoiced amount and do not bear interest. Amounts collected on non-trade receivables are included in net cash provided by operating activities in the consolidated statements of cash flows. The Company maintains an allowance for doubtful accounts for estimated losses inherent in its non-trade receivables portfolio. In establishing the required allowance, management considers historical losses adjusted to take into account current market conditions and customers' financial condition in dispute, and the current receivables aging and current payment patterns. The Company reviews its allowance for doubtful accounts quarterly. Past-due balances over 90 days and over a specified amount are reviewed individually for collectability. Account balances are written off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company recorded the allowance of $0 and $12,941 on the accompanying consolidated balance sheets as of December 31, 2023 and December 31, 2022 respectively. The Company does not have any off-balance-sheet credit exposure related to its customers.

Revenue Recognition

Revenue Recognition

The Company anticipates generating revenues from (i) FANTOO platform through advertising, direct sales, and user to user commissions, and (ii) other businesses. Revenue billed or collected in advance will be recorded as deferred revenue until the event occurs or until applicable performance obligations are satisfied.

Revenue is recognized when the Company transfers promised goods or services to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods and services. In this regard, revenue is recognized when: (i) the parties to the contract have approved the contract (in writing, orally, or in accordance with other customary business practices) and are committed to perform their respective obligations; (ii) the entity can identify each party's rights regarding the goods or services to be transferred; (iii) the entity can identify the payment terms for the goods or services to be transferred; (iv) the contract has commercial substance (that is, the risk, timing, or amount of the entity's future cash flows is expected to change as a result of the contract); and (v) it is probable that the entity will collect substantially all of the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer.

Transaction prices are based on the amount of consideration to which we expect to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties, if any. We consider the explicit terms of the revenue contract, which are typically written and executed by the parties, our customary business practices, the nature, timing, and the amount of consideration promised by a customer in connection with determining the transaction price for our revenue arrangements. Refunds and sales returns historically have not been material.

For the years ended December 31, 2023 and December 31, 2022, the Company recognized product sales revenue amounting to $71,242 and $0. Revenue is derived at the point in time when merchandise is sold and shipped or delivered to customers. Merchandise sales are fulfilled with inventory sourced from our owned inventory. Although the Company does not currently have any inventory as of the balance sheet date, the Company, from time to time, may hold products in inventory for an abbreviated amount of time before shipping such inventory and recognizing the corresponding revenue.

Revenue is recognized when control of the product passes to the customer, typically at the date of delivery of the merchandise to the customer, or the date a service is provided and is recognized in an amount that reflects the expected consideration to be received in exchange for such goods or services. As such, customer orders are recorded as unearned revenue prior to delivery of products or services ordered. If the Company ships high volumes of packages through multiple carriers, the Company will use estimates to determine which shipments are to be delivered and, therefore, recognized as revenue at the end of the period. Delivery date estimates are based on average shipping transit times, which are calculated using the following factors: (i) the type of shipping carrier (as carriers have different in-transit times); (ii) the fulfilment source; (iii) the delivery destination; and (iv) actual transit time experience, which shows that delivery date is typically one to eight business days from the date of shipment. The Company reviews and updates our estimates on a quarterly basis based on our actual transit time experience. However, actual shipping times may differ from our estimates.

Generally, the Company requires authorization from credit cards or other payment vendors whose services the Company offers to customers or verification of receipt of payment, before the Company ships products to purchasers. The Company generally receives payments from our customers before our payments to our suppliers are due. The Company does not recognize assets associated with costs to obtain or fulfill a contract with a customer.

Shipping and handling is considered a fulfillment activity, as it takes place prior to the customer obtaining control of the merchandise, and fees charged to customers are included in net revenue upon completion of our performance obligations. The Company presents revenue net of sales taxes, discounts, and expected refunds.

Merchandise sales contracts include terms that could cause variability in the transaction price for items such as discounts, credits, or sales returns. Accordingly, the transaction price for product sales includes estimates of variable consideration to the extent it is probable that a significant reversal of revenue recognized will not occur. At the time of sale, the Company estimates a sales return liability for the variable consideration based on historical experience, which is recorded within "Accrued Liabilities" in the consolidated balance sheet. The Company records an allowance for returns based on current period revenues and historical returns experience. The Company analyzes actual historical returns, current economic trends and changes in order volume, and acceptance of our products when evaluating the adequacy of the sales returns allowance in any accounting period.

The Company evaluates the criteria outlined in the Financial Accounting Standards Board ("*FASB*") Accounting Standards Codification ("*ASC*") 606-10-55, *Principal versus Agent Considerations*, in determining whether it is appropriate to record the gross amount of merchandise sales and related costs or the net amount earned as commissions. When the Company is the principal in a transaction and controls the specific good or service before it is transferred to the customer, revenue is recorded gross; otherwise, revenue is recorded on a net basis. Currently, the Company records all advertising revenue as a net basis, and other revenues are recorded as a gross basis, and the revenues as a gross basis for the years ended December 31, 2023 and December 31, 2022 are $1,014,266 and $889,045. Through contractual terms with our partners, we have the ability to control the promised goods or services and as a result record the majority of the revenue on a gross basis.

The customers and sales amount with more than 10% of total revenue as a gross basis for the years ended December 31, 2023 and December 31, 2022 are as follows, and they are the advertising revenue.

Fiscal Year	Customer	Sales Amount	%
2023	**A**	**$ 191,511**	**19%**
2023	**B**	**$ 696,403**	**69%**
2022	**C**	**$ 774,024**	**87%**

Cost of Revenue

Cost of Revenue

Cost of revenue is recognized at the time the products or services are delivered to the customers. Cost of revenue includes all direct labor, material, shipping and handling cost and other direct costs such as travel, postage, telecommunication, vehicle charge, printing, and training, and allocated indirect costs related to revenue such as supplies, utilities, office equipment rental, and computers.

Property Plant and Equipment

Property Plant and Equipment

Property plant and equipment are carried at cost (see Note 5). Depreciation expense is provided over the estimated useful lives of the assets using the straight line method for vehicles and the declining balance method for fixtures and equipment. A summary of the estimated useful lives is as follows:

	Estimated Useful Life

Classification	in Years
Vehicles	5
Fixtures	5
Equipment	5

Maintenance and repairs are charged to expense as incurred, while any additions or improvements are capitalized.

The Company evaluates property and equipment for impairment when facts and circumstances indicate that the carrying values of such assets may not be recoverable. When evaluating for impairment, the Company first compare the carrying value of the asset to the asset's estimated future undiscounted cash flows. If the estimated undiscounted future cash flows are less than the carrying value of the asset, the Company determines if there is an impairment loss by comparing the carrying value of the asset to the asset's estimated fair value and recognizes an impairment charge when the asset's carrying value exceeds its estimated fair value. The fair value of the asset is estimated using a discounted cash flow model based on forecasted future revenues and operating costs, using internal projections. There were no significant property and equipment asset impairment charges recorded during the year ended December 31, 2023, and the year ended December 31, 2022.

Impairment of Long-Lived Assets

Impairment of Long-Lived Assets

The Company assesses the recoverability of long-lived assets whenever events or changes in circumstances indicate that their carrying value may not be recoverable. If the cost basis of a long-lived asset is greater than the projected future undiscounted net cash flows from such asset, an impairment loss is recognized. Impairment losses are calculated as the difference between the cost basis of an asset and its estimated fair value. There were no significant long-lived assets impairment charges recorded during the year ended December 31, 2023 and the year ended December 31, 2022.

Concentrations of Credit Risk

Concentrations of Credit Risk

Cash and cash equivalents are financial instruments that potentially subject the Company to concentrations of credit risk. The Company may maintain deposits in financial institutions in excess of government insured limits. The Company believes that it is not exposed to significant credit risk as its deposits are held at financial institutions that management believes to be of high credit quality and the Company has not experienced any losses on these deposits. The Company is also potentially subject to concentrations of credit risk in its accounts receivable and loans. Credit risk with respect to receivables is limited due to the number of companies comprising the Company's customer base. Credit risk with respect to loans is limited since they are made principally related to the collaborative activities between the Company and loan holders. Since the Company is directly affected by the financial condition of its customers and loan holders, management carefully watch if any significant credit risks exist, and they will make actions to remove or mitigate such risks if there are any. For the years ended December 31, 2023 and December 31, 2022, over 10% of the revenues are from two customers and one customer, but there are no receivable balances from them. Also, over 10% of the account receivable for the year ended December 31, 2023 is from Hanryu Times, which was the affiliated company by December 28, 2023, and Hanryu Times and the company already agreed to the payment plan that Hanryu Times would pay back all by the end of December 31, 2024. Therefore, as of December 31, 2023 and December 31, 2022, the Company believes that the credit risk for the account receivables is manageable and controllable. Generally, the Company does not require collateral or other securities to support its accounts receivable and loans.

Fair Value of Financial Instruments

Fair Value of Financial Instruments

The fair value of Company's financial instruments, consisting of cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities, debt receivables, debt payables approximate their recorded amounts due to their relatively short settlement terms.

Fair Value Measurements

Fair Value Measurements

The Company applies a three-level valuation hierarchy for fair value measurements. The categorization of assets and liabilities within the valuation hierarchy is based on the lowest level of input that is significant to the measurement of fair value.

Level 1	Inputs to the valuation methodology utilize unadjusted quoted market prices in active markets for identical assets and liabilities.
Level 2	Inputs to the valuation methodology are other observable inputs, including quoted market prices for similar assets and liabilities, quoted prices for identical and similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.
Level 3	Inputs to the valuation methodology are unobservable inputs based on management's best estimate of the inputs that market participants would use in pricing the asset or liability at the measurement date, including assumptions about risk.

A change to the level of an asset or liability within the fair value hierarchy is determined at the end of a reporting period.

Investments

Investments

The Company's investments are carried at historical cost. As of December 31, 2023 and December 31, 2022, there is no balance of investments.

Earning (Loss) Per Share

Earning (Loss) Per Share

Basic earning (loss) per share is computed by dividing the income or loss by the weighted-average number of outstanding shares of Common Stock for the applicable period. Diluted earning (loss) per share is computed by dividing the income or loss by the weighted-average number of outstanding shares of Common Stock for the applicable period, including the dilutive effect of Common Stock equivalents. Potentially dilutive Common Stock equivalents primarily consist of warrants issued in connection with financings. For purposes of computing both basic and diluted earning (loss) per share, income or loss shall exclude the income or loss attributable to the non-controlling interest. The Company calculates net loss per share in accordance with FASB ASC Topic 260, *Earnings Per Share*. Basic net loss per share amounts have been computed by dividing net loss excluded loss attributable to the non-controlling interest by the weighted-average number of common shares outstanding during the period. For the years ended December 31, 2023 and 2022, the Company reported net losses and, accordingly, potential common shares were not included since such inclusion would have been anti-dilutive. As a result, our basic and diluted net loss per share are the same because the Company generated a net loss in all periods presented.

Income Taxes

Income Taxes

Deferred income tax assets and liabilities are determined based on differences between the financial statement reporting and tax basis of assets and liabilities and are measured using the enacted tax rates and laws in effect when the differences are expected to reverse. The measurement of deferred income tax assets is reduced, if necessary, by a valuation allowance for any tax benefits which are not expected to be realized. The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in the period that such tax rate changes are enacted. We have determined that all of our deferred tax benefits are not likely to be realized due to our historical and expected future taxable losses. Accordingly, we have maintained a full valuation allowance.

The Company applies the provisions of FASB ASC Topic 740-10, *Uncertainty in Income Taxes*. The Company has evaluated our tax positions, and there are none as of December 31, 2023 and December 31, 2022.

Income taxes on the Company's taxable income from operating activities are subject to various tax laws and determinations of the authority in the ROK. Regarding taxes payable in the ROK, if a certain portion of taxable income is not used for investments or for increases in wages or dividends, in accordance with the Tax System for Recirculation of Corporate Income, the Company is liable to pay additional income tax calculated based on Korean tax law.

The Company assesses uncertainty over a tax treatment. When the Company concludes it is not probable that the taxation authority will accept an uncertain tax treatment, the Company will reflect the effect of uncertainty for each uncertain tax treatment by using either of the following methods, depending on which method the Company expects to better predict the resolution of the uncertainty;

- The most likely amount: The single most likely amount in a range of possible outcomes.
- The expected value: The sum of the probability-weighted amounts in a range of possible outcomes.

Lease

Lease

Under ASC 842, the determination of whether an arrangement is a lease is made at the lease's inception and a contract is (or contains) a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is defined under the standard as having both the right to obtain substantially all of the economic benefits from use of the asset and the right to direct the use of the asset. Management only reassesses its determination if the terms and conditions of the contract are changed. Operating leases are included in operating lease right-of-use ("ROU") assets, other current liabilities, and operating lease liabilities in our balance sheets. Finance leases are included in property and equipment, other current liabilities, and other long-term liabilities in our balance sheets.

ROU assets represent our right to use an underlying asset for the lease term, and lease liabilities represent our obligation to make lease payments. Operating lease ROU assets and liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. The Company uses the implicit rate when it is readily determinable. Since most of the Company's leases do not provide an implicit rate, to determine the present value of lease payments, management uses the Company's incremental borrowing rate based on the information available at lease commencement. Operating lease ROU assets also includes any lease payments made and excludes any lease incentives. Lease expense for lease payments is recognized on a straight-line basis over the lease term. Leases with an initial term of 12 months or less are not recorded on the balance sheet.

The Company has lease agreements with lease and non-lease components, which are generally accounted for separately with amounts allocated to the lease and non-lease components based on stand-alone prices or for which it has made an accounting policy election to account for these as a single lease component. For certain equipment leases, like vehicles, the Company accounts for the lease and non-lease components as a single lease. Refer to Note 7 for additional disclosures required as a result of the adoption of this new standard.

Recently Issued Accounting Standards

Recently Issued Accounting Standards

In August 2020, the FASB issued ASU No. 2020-06, *Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40) Accounting for Convertible Instruments and Contracts in an Entity's Own Equity* ("*ASU 2020-06*"). ASU 2020-06 changes how entities account for convertible instruments and contracts in an entity's own equity and simplifies the accounting for convertible instruments by removing certain separation models for convertible instruments. ASU 2020-06 also modifies the guidance on diluted earnings per share calculations. ASU 2020-06 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2023.

In November 2019, the FASB issued ASU 2019-10, "*Financial Instruments - Credit Losses (Topic 326), Derivatives and Hedging (Topic 815), and Leases (Topic 842): Effective Dates*", which amended the effective date of the various topics. As the Company is a smaller reporting company, the provisions of ASU 2016-13 and the related amendments are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2022 (quarter ending September 30, 2023 for the Company). Entities are required to apply these changes through a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective.

In June 2016, the Financial Accounting Standards Board ("FASB") issued ASU 2016-13, "*Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*" ("ASU 2016-13"), which requires an entity to assess impairment of its financial instruments based on its estimate of expected credit losses. Since the issuance of ASU 2016-13, the FASB released several amendments to improve and clarify the implementation guidance.

The Company is reviewing the effects of following recent updates. The Company has no expectation that any of these items will have a material effect upon the financial statements.

OPERATIONS AND BASIS OF PRESENTATION   Business   Hanryu Holdings, Inc., a Delaware corporation (“Hanryu Holdings”), together with its wholly owned subsidiaries Hanryu Bank Co., Ltd (“HBC”), FNS Co., Ltd. (“FNS”), , and Marine Island Co., Ltd (“Marine Island”), all incorporated under the laws of the Republic of Korea (“Korea” or “ROK”) (collectively, the “Company”, “we”, or “us”), aims to be the leader in the global Korean entertainment market, also known as “Hanryu” or “K-Culture”, through its engaging social-media platform, FANTOO. The FANTOO platform is an all-inclusive global playground for fans, where they can consume, create, and get rewarded for all things related to their interests, and interact with other like-minded fans.   Corporate History   Since the inception of HBC in 2018, we have accomplished a number of key objectives, as follows: <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; width: 100%; border-collapse: collapse"><tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: bottom"> <td style="padding-bottom: 0pt; border-top: Black 1.5pt solid; border-bottom: Black 1.5pt solid; font: 10pt Times New Roman, Times, Serif; width: 32%; padding-right: 3pt">Date</td> <td style="border-top: Black 1.5pt solid; border-bottom: Black 1.5pt solid; font: 10pt Times New Roman, Times, Serif; white-space: nowrap; width: 1%; padding-bottom: 0pt"> </td> <td style="padding-bottom: 0pt; border-top: Black 1.5pt solid; border-bottom: Black 1.5pt solid; font: 10pt Times New Roman, Times, Serif; width: 67%; text-align: center">Event/Milestone</td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="padding-bottom: 0pt; font: 10pt Times New Roman, Times, Serif; padding-left: 10pt; text-indent: -10pt">October 18, 2018</td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; padding-bottom: 0pt"> </td> <td style="padding-bottom: 0pt; font: 10pt Times New Roman, Times, Serif; text-align: justify">HBC is incorporated under the laws of the ROK with the idea of creating an all-in-one product to capture the growing global momentum and popularity of K-Culture.</td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="padding-bottom: 0pt; font: 10pt Times New Roman, Times, Serif; padding-left: 10pt; text-indent: -10pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; padding-bottom: 0pt"> </td> <td style="padding-bottom: 0pt; font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="padding-bottom: 0pt; font: 10pt Times New Roman, Times, Serif; padding-left: 10pt; text-indent: -10pt">October 29, 2020</td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; padding-bottom: 0pt"> </td> <td style="padding-bottom: 0pt; font: 10pt Times New Roman, Times, Serif; text-align: justify">HBC establishes FNS and begins the initial stages of designing and implementing a platform that can create a fandom networking system.</td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="padding-bottom: 0pt; font: 10pt Times New Roman, Times, Serif; padding-left: 10pt; text-indent: -10pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; padding-bottom: 0pt"> </td> <td style="padding-bottom: 0pt; font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="padding-bottom: 0pt; font: 10pt Times New Roman, Times, Serif; padding-left: 10pt; text-indent: -10pt">March 11, 2021</td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; padding-bottom: 0pt"> </td> <td style="padding-bottom: 0pt; font: 10pt Times New Roman, Times, Serif; text-align: justify">HBC establishes Hanryu Times. The Company divests itself of all Kingdom Coin (“KDC”) holdings and terminates all crypto-currency-related activity, including, without limitation, the operation of the MainNet (FandomChain) and the Kingdom Wallet, pursuant to a Business Transfer Agreement (the “Divestiture Agreement”) between HBC and an unaffiliated and unrelated third party, Kingdom Coin Holdings, a Cayman Islands Foundation Company (the “KDC Foundation”) (the “KDC Divestiture”), to substantially reduce its involvement with blockchain technologies. Pursuant to the Divestiture Agreement, as of June 22, 2022, the Company no longer owns any KDC, and no longer conducts or controls the operations, issuances, or sales of KDC. In connection with the KDC Divestiture, the Company revised its procedures regarding FP and no longer allows, nor has the technology to allow, for the transfer of FP outside of the FANTOO platform or the exchange of FP and KDC   The shares of the Company are listed at NASDAQ exchange market.   HBC sold owned whole shares of Hanryu Times, Fantoo Entertainment, and K-Commerce, so the business from the three companies became the discontinued operations. </td></tr> </table> Risks and Uncertainties   The Company is subject to a number of risks similar to other companies in its industries, including rapid technological change and transitions in Hanryu trends. The extent of the impact of the COVID-19 pandemic on the Company’s business continues to be highly uncertain and difficult to predict, as the responses that the Company, other businesses and governments are taking continue to evolve. Furthermore, capital markets and economies worldwide have also been negatively impacted by the COVID-19 pandemic, and it is possible that it could cause a lasting national and/or global economic recession. Policymakers around the globe have responded with fiscal policy actions to support the entertainment industry and economy as a whole.   To date, the Company has experienced significant changes in the business as a result of the COVID-19 pandemic. The impact has delayed the Company’s ability to generate revenue as result of the diversification of potential customer budgets towards the COVID-19 pandemic. The extent to which the COVID-19 pandemic may in the future materially impact the Company’s financial condition, liquidity or results of operations is uncertain.   Going Concern   The Company has experienced recurring losses from operations and has a stockholders’ equity(deficit) and working capital of $13,068,465 and $10,140,579 respectively, as of December 31, 2023 and <span style="font-family: Times New Roman, Times, Serif; font-size: 10pt">$(1,340,515),   and $(757,981) as of December 31, 2022. Also, the Company has operating losses of $10,527,845 and $5,421,525 for the years ended December 31, 2023 and December 31, 2022, respectively. These uncertainties raise substantial doubt about the Company’s ability to continue as a going concern for twelve (12) months after the issuance date of these financial statements. The accompanying financial statements have been prepared under the assumption that we will continue as a going concern. The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of us to continue as a going concern.   Our future operations are dependent upon multiple factors, including (i) the success of our FANTOO platform business; (ii) competition from existing and future services from other companies; and (iii) securing new sources of capital to fund operations and develop markets. We will maintain an ongoing effort to improve and innovate FANTOO platform business to generate funds for our operations. For instance, we recently launched FANTOO House which is located in Seoul, and at FANTOO platform, we will launch (i) Epic branded ecommerce platform that we will expect it as a major source of new income, and (ii) dedicated video production operations that will create short episodic content that focuses on K-POP fandom. In addition, we maintain an ongoing effort to raise funds for our operations from current investors and new sources of capital through the issuance of additional common stock and/or short-term notes. However, there can be no assurance as to the outcome of these factors or that future funding efforts will generate sufficient capital to maintain our operations.

All significant intercompany transactions and balances have been eliminated in consolidation.   Non-controlling interests are measured at their proportionate share of the acquiree’s identifiable net assets at the acquisition date.   Changes in the consolidated group’s interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.   The ownership of non-controlling interests of K-Commerce, out significant consolidated subsidiary as of December 31, 2022, was 49.2%. Since HBC sold owned whole shares of Hanryu Times, Fantoo Entertainment, and K-Commerce, at December 28, 2023, they are not consolidated from December 28, 2024, and N the controlling interests of K-Commerce become $0   Foreign Currency   The Company’s functional currency for all operations is the KRW. The Company’s accounting records are maintained in KRW, and translated into U.S. Dollars at year-end for the purposes of presentation. During the translation process, the year-end closing exchange rate is used for the valuation of all assets and liabilities, historical exchange rate is used to value stockholder’s equity, and the average exchange rate for the year is used for the calculation of the consolidated financial statements. The net impact of the translation into the U.S. Dollar is included in the accumulated other comprehensive income (loss) of the Company’s consolidated balance sheet as of December 31, 2023 and December 31, 2022. During the year ended December 31, 2023, there was a fluctuation in the exchange rates ranging from KRW 1,219.30/USD $1 to KRW 1,340.20/USD $1. Also, cash flows are also translated at average translation rates for the periods, therefore, amounts reported on the statement of cash flows will not necessarily agree with changes in the corresponding balances on the consolidated balance sheets   Use of Estimates   The preparation of the Company’s consolidated financial statements and related disclosures in conformity with U.S. Generally Accepted Accounting Principles (“US GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Management evaluates its estimates on an ongoing basis. Although estimates are based on the Company’s historical experience, knowledge of current events and actions it may undertake in the future, actual results may materially differ from these estimates and assumptions.   Cash and Cash Equivalents   The Company considers all highly liquid investments with maturities of three months or less at the date of purchase to be cash equivalents. The Company maintains its cash in bank deposit accounts which, at times, may exceed the federal insurance limit, and the balance of deposit accounts of the Company exceed the federal insurance limit as of December 31, 2023. Accounts Receivable <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt; padding: 0pt; text-align:

justify"> Accounts receivables are recorded at the invoiced amount and do not bear interest. Amounts collected on trade accounts receivable are included in net cash provided by operating activities in the consolidated statements of cash flows. The Company maintains an allowance for doubtful accounts for estimated losses inherent in its accounts receivable portfolio. In establishing the required allowance, management considers historical losses adjusted to take into account current market conditions and customers' financial condition in dispute, and the current receivables aging and current payment patterns. The Company reviews its allowance for doubtful accounts quarterly. Past-due balances over 90 days and over a specified amount are reviewed individually for collectability. Account balances are written off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company recorded the allowance of $0 on the accompanying consolidated balance sheets as of December 31, 2023 and December 31, 2022. The Company does not have any off-balance-sheet credit exposure related to its customers.   Non-Trade Receivables   Non-trade receivables are recorded at the invoiced amount and do not bear interest. Amounts collected on non-trade receivables are included in net cash provided by operating activities in the consolidated statements of cash flows. The Company maintains an allowance for doubtful accounts for estimated losses inherent in its non-trade receivables portfolio. In establishing the required allowance, management considers historical losses adjusted to take into account current market conditions and customers' financial condition in dispute, and the current receivables aging and current payment patterns. The Company reviews its allowance for doubtful accounts quarterly. Past-due balances over 90 days and over a specified amount are reviewed individually for collectability. Account balances are written off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company recorded the allowance of $0 and $12,941 on the accompanying consolidated balance sheets as of December 31, 2023 and December 31, 2022 respectively. The Company does not have any off-balance-sheet credit exposure related to its customers.   Revenue Recognition   The Company anticipates generating revenues from (i) FANTOO platform through advertising, direct sales, and user to user commissions, and (ii) other businesses. Revenue billed or collected in advance will be recorded as deferred revenue until the event occurs or until applicable performance obligations are satisfied.   Revenue is recognized when the Company transfers promised goods or services to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods and services. In this regard, revenue is recognized when: (i) the parties to the contract have approved the contract (in writing, orally, or in accordance with other customary business practices) and are committed to perform their respective obligations; (ii) the entity can identify each party's rights regarding the goods or services to be transferred; (iii) the entity can identify the payment terms for the goods or services to be transferred; (iv) the contract has commercial substance (that is, the risk, timing, or amount of the entity's future cash flows is expected to change as a result of the contract); and (v) it is probable that the entity will collect substantially all of the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer.   Transaction prices are based on the amount of consideration to which we expect to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties, if any. We consider the explicit terms of the revenue contract, which are typically written and executed by the parties, our customary business practices, the nature, timing, and the amount of consideration promised by a customer in connection with determining the transaction price for our revenue arrangements. Refunds and sales returns historically have not been material. For the years ended December 31, 2023 and December 31, 2022, the Company recognized product sales revenue amounting to $71,242 and $0. Revenue is derived at the point in time when merchandise is sold and shipped or delivered to customers. Merchandise sales are fulfilled with inventory sourced from our owned inventory. Although the Company does not currently have any inventory as of the balance sheet date, the Company, from time to time, may hold products in inventory for an abbreviated amount of time before shipping such inventory and recognizing the corresponding revenue.   Revenue is recognized when control of the product passes to the customer, typically at the date of delivery of the merchandise to the customer, or the date a service is provided and is recognized in an amount that reflects the expected consideration to be received in exchange for such goods or services. As such, customer orders are recorded as unearned revenue prior to delivery of products or services ordered. If the Company ships high volumes of packages through multiple carriers, the Company will use estimates to determine which shipments are to be delivered and, therefore, recognized as revenue at the end of the period. Delivery date estimates are based on average shipping transit times, which are calculated using the following factors: (i) the type of shipping carrier (as carriers have different in-transit times); (ii) the fulfilment source; (iii) the delivery destination; and (iv) actual transit time experience, which shows that delivery date is typically one to eight business days from the date of shipment. The Company reviews and updates our estimates on a quarterly basis based on our actual transit time experience. However, actual shipping times may differ from our estimates.   Generally, the Company requires authorization from credit cards or other payment vendors whose services the Company offers to customers or verification of receipt of payment, before the Company ships products to purchasers. The Company generally receives payments from our customers before our payments to our suppliers are due. The Company does not recognize assets associated with costs to obtain or fulfill a contract with a customer.   Shipping and handling is considered a fulfillment activity, as it takes place prior to the customer obtaining control of the merchandise, and fees charged to customers are included in net revenue upon completion of our performance obligations. The Company presents revenue net of sales taxes, discounts, and expected refunds.   Merchandise sales contracts include terms that could cause variability in the transaction price for items such as discounts, credits, or sales returns. Accordingly, the transaction price for product sales includes estimates of variable consideration to the extent it is probable that a significant reversal of revenue recognized will not occur. At the time of sale, the Company estimates a sales return liability for the variable consideration based on historical experience, which is recorded within "Accrued Liabilities" in the consolidated balance sheet. The Company records an allowance for returns based on current period revenues and historical returns experience. The Company analyzes actual historical returns, current economic trends and changes in order volume, and acceptance of our products when evaluating the adequacy of the sales returns allowance in any accounting period.   The Company evaluates the criteria outlined in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 606-10-55, Principal versus Agent Considerations, in determining whether it is appropriate to record the gross amount of merchandise sales and related costs or the net amount earned as commissions. When the Company is the principal in a transaction and controls the specific good or service before it is transferred to the customer, revenue is recorded gross; otherwise, revenue is recorded on a net basis. Currently, the Company records all advertising revenue as a net basis, and other revenues are recorded as a gross basis, and the revenues as a gross basis for the years ended December 31, 2023 and December 31, 2022 are $1,014,266 and $889,045. Through contractual terms with our partners, we have the ability to control the promised goods or services and as a result record the majority of the revenue on a gross basis.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt; padding: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt; padding: 0pt; text-align: justify">The customers and sales amount with more than 10% of total revenue as a gross basis for the years ended December 31, 2023 and December 31, 2022 are as follows, and they are the advertising revenue.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt; padding: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt; padding: 0pt; text-align: justify"></p> <table cellpadding="0" cellspacing="0" style="border-collapse: collapse; width: 100%; font: 10pt Times New Roman, Times, Serif"> <tr style="vertical-align: bottom"> <td style="border-bottom: black 1.5pt solid">Fiscal Year</td> <td> </td> <td style="border-bottom: black 1.5pt solid; text-align: center">Customer</td> <td> </td> <td colspan="2" style="border-bottom: black 1.5pt solid; text-align: center">Sales Amount</td> <td> </td> <td colspan="2" style="border-bottom: black 1.5pt solid; text-align: center">%</td> <td> </td></tr> <tr style="vertical-align: bottom; background-color: #CCEEFF"> <td style="text-align: left; width: 64%">2023</td> <td style="width: 1%"> </td> <td style="width: 11%; text-align: center">A</td> <td style="width: 1%"> </td> <td style="width: 1%">$</td> <td style="width: 9%; text-align: right">191,511</td> <td style="width: 1%"> </td> <td style="width: 1%"> </td> <td style="width: 1%"> </td> <td style="width: 9%; text-align: right">19</td> <td style="width: 1%">%</td></tr> <tr style="vertical-align: bottom; "> <td>2023</td> <td> </td> <td style="text-align: center">B</td> <td> </td> <td>$</td> <td style="text-align: right">696,403</td> <td> </td> <td> </td> <td> </td> <td> </td> <td style="text-align: right">69</td> <td>%</td></tr> <tr style="vertical-align: bottom; background-color: #CCEEFF"> <td>2022</td> <td> </td> <td style="text-align: center">C</td> <td> </td> <td><span style="font-family: Times New Roman, Times, Serif; font-size: 10pt"><b>$</td> <td style="text-align: right">774,024</td> <td> </td> <td> </td> <td> </td> <td style="text-align: right">87</td> <td>%</td></tr> </table> Cost of Revenue   Cost of revenue is recognized at the time the products or services are delivered to the customers. Cost of revenue includes all direct

labor, material, shipping and handling cost and other direct costs such as travel, postage, telecommunication, vehicle charge, printing, and training, and allocated indirect costs related to revenue such as supplies, utilities, office equipment rental, and computers.   Property Plant and Equipment   Property plant and equipment are carried at cost (see Note 5). Depreciation expense is provided over the estimated useful lives of the assets using the straight line method for vehicles and the declining balance method for fixtures and equipment. A summary of the estimated useful lives is as follows: <table cellpadding="0" cellspacing="0" style="border-collapse: collapse; width: 100%; font: 10pt Times New Roman, Times, Serif"> <tr style="vertical-align: bottom"> <td style="font-weight: bold; border-bottom: Black 1.5pt solid">Classification</td><td style="font-weight: bold; padding-bottom: 1.5pt"> </td> <td style="border-bottom: Black 1.5pt solid; font-weight: bold; text-align: center">Estimated

The Company evaluates property and equipment for impairment when facts and circumstances indicate that the carrying values of such assets may not be recoverable. When evaluating for impairment, the Company first compare the carrying value of the asset to the asset's estimated future undiscounted cash flows. If the estimated undiscounted future cash flows are less than the carrying value of the asset, the Company determines if there is an impairment loss by comparing the carrying value of the asset to the asset's estimated fair value and recognizes an impairment charge when the asset's carrying value exceeds its estimated fair value. The fair value of the asset is estimated using a discounted cash flow model based on forecasted future revenues and operating costs, using internal projections. There were no significant property and equipment asset impairment charges recorded during the year ended December 31, 2023, and the year ended December 31, 2022.   Impairment of Long-Lived Assets   The Company assesses the recoverability of long-lived assets whenever events or changes in circumstances indicate that their carrying value may not be recoverable. If the cost basis of a long-lived asset is greater than the projected future undiscounted net cash flows from such asset, an impairment loss is recognized. Impairment losses are calculated as the difference between the cost basis of an asset and its estimated fair value. There were no significant long-lived assets impairment charges recorded during the year ended December 31, 2023 and the year ended December 31, 2022. Concentrations of Credit Risk   Cash and cash equivalents are financial instruments that potentially subject the Company to concentrations of credit risk. The Company may maintain deposits in financial institutions in excess of government insured limits. The Company believes that it is not exposed to significant credit risk as its deposits are held at financial institutions that management believes to be of high credit quality and the Company has not experienced any losses on these deposits. The Company is also potentially subject to concentrations of credit risk in its accounts receivable and loans. Credit risk with respect to receivables is limited due to the number of companies comprising the Company's customer base. Credit risk with respect to loans is limited since they are made principally related to the collaborative activities between the Company and loan holders. Since the Company is directly affected by the financial condition of its customers and loan holders, management carefully watch if any significant credit risks exist, and they will make actions to remove or mitigate such risks if there are any. For the years ended December 31, 2023 and December 31, 2022, over 10% of the revenues are from two customers and one customer, but there are no receivable balances from them. Also, over 10% of the account receivable for the year ended December 31, 2023 is from Hanryu Times, which was the affiliated company by December 28, 2023, and Hanryu Times and the company already agreed to the payment plan that Hanryu Times would pay back all by the end of December 31, 2024. Therefore, as of December 31, 2023 and December 31, 2022, the Company believes that the credit risk for the account receivables is manageable and controllable. Generally, the Company does not require collateral or other securities to support its accounts receivable and loans.   Fair Value of Financial Instruments   The fair value of Company's financial instruments, consisting of cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities, debt receivables, debt payables approximate their recorded amounts due to their relatively short settlement terms.   Fair Value Measurements   The Company applies a three-level valuation hierarchy for fair value measurements. The categorization of assets and liabilities within the valuation hierarchy is based on the lowest level of input that is significant to the measurement of fair value.   <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; width: 100%; border-collapse: collapse"> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; width: 9%; padding-left: 10pt; text-indent: -10pt">Level 1</td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; width: 1%; padding-bottom: 2.25pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; width: 90%; text-align: justify">Inputs to the valuation methodology utilize unadjusted quoted market prices in active markets for identical assets and liabilities.</td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; padding-left: 10pt; text-indent: -10pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; padding-bottom: 2.25pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; padding-left: 10pt; text-indent: -10pt">Level 2</td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; padding-bottom: 2.25pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">Inputs to the valuation methodology are other observable inputs, including quoted market prices for similar assets and liabilities, quoted prices for identical and similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.</td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; padding-left: 10pt; text-indent: -10pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; padding-bottom: 2.25pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; padding-left: 10pt; text-indent: -10pt">Level 3</td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; padding-bottom: 2.25pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">Inputs to the valuation methodology are unobservable inputs based on management's best estimate of the inputs that market participants would use in pricing the asset or liability at the measurement date, including assumptions about risk.</td></tr> </table>   A change to the level of an asset or liability within the fair value hierarchy is determined at the end of a reporting period.   Investments   The Company's investments are carried at historical cost. As of December 31, 2023 and December 31, 2022, there is no balance of investments.   Earning (Loss) Per Share   Basic earning (loss) per share is computed by dividing the income or loss by the weighted-average number of outstanding shares of Common Stock for the applicable period. Diluted earning (loss) per share is computed by dividing the income or loss by the weighted-average number of outstanding shares of Common Stock for the applicable period, including the dilutive effect of Common Stock equivalents. Potentially dilutive Common Stock equivalents primarily consist of warrants issued in connection with financings. For purposes of computing both basic and diluted earning (loss) per share, income or loss shall exclude the income or loss attributable to the non-controlling interest. The Company calculates net loss per share in accordance with FASB ASC Topic 260, Earnings Per Share. Basic net loss per share amounts have been computed by dividing net loss excluded loss attributable to the non-controlling interest by the weighted-average number of common shares outstanding during the period. For the years ended December 31, 2023 and 2022, the Company reported net losses and, accordingly, potential common shares were not included since such inclusion would have been anti-dilutive. As a result, our basic and diluted net loss per share are the same because the Company generated a net loss in all periods presented. Income Taxes   Deferred income tax assets and liabilities are determined based on differences between the financial statement reporting and tax basis of assets and liabilities and are measured using the enacted tax rates and laws in effect when the differences are expected to reverse. The measurement of deferred income tax assets is reduced,

if necessary, by a valuation allowance for any tax benefits which are not expected to be realized. The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in the period that such tax rate changes are enacted. We have determined that all of our deferred tax benefits are not likely to be realized due to our historical and expected future taxable losses. Accordingly, we have maintained a full valuation allowance.   The Company applies the provisions of FASB ASC Topic 740-10, Uncertainty in Income Taxes. The Company has evaluated our tax positions, and there are none as of December 31, 2023 and December 31, 2022.   Income taxes on the Company's taxable income from operating activities are subject to various tax laws and determinations of the authority in the ROK. Regarding taxes payable in the ROK, if a certain portion of taxable income is not used for investments or for increases in wages or dividends, in accordance with the Tax System for Recirculation of Corporate Income, the Company is liable to pay additional income tax calculated based on Korean tax law.   The Company assesses uncertainty over a tax treatment. When the Company concludes it is not probable that the taxation authority will accept an uncertain tax treatment, the Company will reflect the effect of uncertainty for each uncertain tax treatment by using either of the following methods, depending on which method the Company expects to better predict the resolution of the uncertainty; ● <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; width: 100%"><tr style="vertical-align: top; text-align: justify"> <td style="width: 0.25in">●</td><td style="width: 0.25in; text-align: left">The most likely amount: The single most likely amount in a range of possible outcomes.</td> </tr></table> ● <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; width: 100%"><tr style="vertical-align: top; text-align: justify"> <td style="width: 0.25in">●</td><td style="width: 0.25in; text-align: left">The expected value: The sum of the probability-weighted amounts in a range of possible outcomes.</td> </tr></table>   Lease   Under ASC 842, the determination of whether an arrangement is a lease is made at the lease's inception and a contract is (or contains) a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is defined under the standard as having both the right to obtain substantially all of the economic benefits from use of the asset and the right to direct the use of the asset. Management only reassesses its determination if the terms and conditions of the contract are changed. Operating leases are included in operating lease right-of-use ("ROU") assets, other current liabilities, and operating lease liabilities in our balance sheets. Finance leases are included in property and equipment, other current liabilities, and other long-term liabilities in our balance sheets.   ROU assets represent our right to use an underlying asset for the lease term, and lease liabilities represent our obligation to make lease payments. Operating lease ROU assets and liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. The Company uses the implicit rate when it is readily determinable. Since most of the Company's leases do not provide an implicit rate, to determine the present value of lease payments, management uses the Company's incremental borrowing rate based on the information available at lease commencement. Operating lease ROU assets also includes any lease payments made and excludes any lease incentives. Lease expense for lease payments is recognized on a straight-line basis over the lease term. Leases with an initial term of 12 months or less are not recorded on the balance sheet. The Company has lease agreements with lease and non-lease components, which are generally accounted for separately with amounts allocated to the lease and non-lease components based on stand-alone prices or for which it has made an accounting policy election to account for these as a single lease component. For certain equipment leases, like vehicles, the Company accounts for the lease and non-lease components as a single lease. Refer to Note 7 for additional disclosures required as a result of the adoption of this new standard.   Recently Issued Accounting Standards   In August 2020, the FASB issued ASU No. 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40) Accounting for Convertible Instruments and Contracts in an Entity's Own Equity ("ASU 2020-06"). ASU 2020-06 changes how entities account for convertible instruments and contracts in an entity's own equity and simplifies the accounting for convertible instruments by removing certain separation models for convertible instruments. ASU 2020-06 also modifies the guidance on diluted earnings per share calculations. ASU 2020-06 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2023.   In November 2019, the FASB issued ASU 2019-10, "Financial Instruments - Credit Losses (Topic 326), Derivatives and Hedging (Topic 815), and Leases (Topic 842): Effective Dates", which amended the effective date of the various topics. As the Company is a smaller reporting company, the provisions of ASU 2016-13 and the related amendments are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2022 (quarter ending September 30, 2023 for the Company). Entities are required to apply these changes through a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective.   In June 2016, the Financial Accounting Standards Board ("FASB") issued ASU 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments" ("ASU 2016-13"), which requires an entity to assess impairment of its financial instruments based on its estimate of expected credit losses. Since the issuance of ASU 2016-13, the FASB released several amendments to improve and clarify the implementation guidance.   The Company is reviewing the effects of following recent updates. The Company has no expectation that any of these items will have a material effect upon the financial statements. Principles of Consolidation The consolidated financial statements of the Company include the financial statements of Hanryu Holdings, and its three wholly owned subsidiaries, HBC, FNS, and Marine Island in 2023, and its five wholly owned subsidiaries, HBC, FNS, Hanryu Times, Fantoo Entertainment, and Marine Island and majority-owned subsidiary (50.8%), K-Commerce in 2022. All significant intercompany transactions and balances have been eliminated in consolidation. Non-controlling interests are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date. Changes in the consolidated group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. The ownership of non-controlling interests of K-Commerce, out significant consolidated subsidiary as of December 31, 2022, was 49.2%. Since HBC sold owned whole shares of Hanryu Times, Fantoo Entertainment, and K-Commerce, at December 28, 2023, they are not consolidated from December 28, 2024, and N the controlling interests of K-Commerce become $0 0.5080.4920 Foreign Currency The Company's functional currency for all operations is the KRW. The Company's accounting records are maintained in KRW, and translated into U.S. Dollars at year-end for the purposes of presentation. During the translation process, the year-end closing exchange rate is used for the valuation of all assets and liabilities, historical exchange rate is used to value stockholder's equity, and the average exchange rate for the year is used for the calculation of the consolidated financial statements. The net impact of the translation into the U.S. Dollar is included in the accumulated other comprehensive income (loss) of the Company's consolidated balance sheet as of December 31, 2023 and December 31, 2022. During the year ended December 31, 2023, there was a fluctuation in the exchange rates ranging from KRW 1,219.30/USD $1 to KRW 1,340.20/USD $1. Also, cash flows are also translated at average translation rates for the periods, therefore, amounts reported on the statement of cash flows will not necessarily agree with changes in the corresponding balances on the consolidated balance sheets 1219.311340.21 Use of Estimates The preparation of the Company's consolidated financial statements and related disclosures in conformity with U.S. Generally Accepted Accounting Principles ("US GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Management evaluates its estimates on an ongoing basis. Although estimates are based on the Company's historical experience, knowledge of current events and actions it may undertake in the future, actual results may materially differ from these estimates and assumptions. Cash and Cash Equivalents The Company considers all highly liquid investments with maturities of three months or less at the date of purchase to be cash equivalents. The Company maintains its cash in bank deposit accounts which, at times, may exceed the federal insurance limit, and the balance of deposit accounts of the Company exceed the federal insurance limit as of December 31, 2023. Accounts Receivable Accounts receivables are recorded at the invoiced amount and do not bear interest. Amounts collected on trade accounts receivable are included in net cash provided by operating activities in the consolidated statements of cash flows. The Company maintains an allowance for doubtful accounts for estimated losses inherent in its accounts receivable portfolio. In establishing the required allowance, management considers historical losses adjusted to take into account current market conditions and customers' financial condition in dispute, and the current receivables aging and current payment patterns. The Company reviews its allowance for doubtful accounts quarterly. Past-due balances over 90 days and over a specified amount are reviewed individually for collectability. Account balances are written off against the allowance after all means of collection have been exhausted and the

potential for recovery is considered remote. The Company recorded the allowance of $0 on the accompanying consolidated balance sheets as of December 31, 2023 and December 31, 2022. The Company does not have any off-balance-sheet credit exposure related to its customers. 00 Non-Trade Receivables Non-trade receivables are recorded at the invoiced amount and do not bear interest. Amounts collected on non-trade receivables are included in net cash provided by operating activities in the consolidated statements of cash flows. The Company maintains an allowance for doubtful accounts for estimated losses inherent in its non-trade receivables portfolio. In establishing the required allowance, management considers historical losses adjusted to take into account current market conditions and customers' financial condition in dispute, and the current receivables aging and current payment patterns. The Company reviews its allowance for doubtful accounts quarterly. Past-due balances over 90 days and over a specified amount are reviewed individually for collectability. Account balances are written off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company recorded the allowance of $0 and $12,941 on the accompanying consolidated balance sheets as of December 31, 2023 and December 31, 2022 respectively. The Company does not have any off-balance-sheet credit exposure related to its customers. 012941 Revenue Recognition The Company anticipates generating revenues from (i) FANTOO platform through advertising, direct sales, and user to user commissions, and (ii) other businesses. Revenue billed or collected in advance will be recorded as deferred revenue until the event occurs or until applicable performance obligations are satisfied. Revenue is recognized when the Company transfers promised goods or services to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods and services. In this regard, revenue is recognized when: (i) the parties to the contract have approved the contract (in writing, orally, or in accordance with other customary business practices) and are committed to perform their respective obligations; (ii) the entity can identify each party's rights regarding the goods or services to be transferred; (iii) the entity can identify the payment terms for the goods or services to be transferred; (iv) the contract has commercial substance (that is, the risk, timing, or amount of the entity's future cash flows is expected to change as a result of the contract); and (v) it is probable that the entity will collect substantially all of the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. Transaction prices are based on the amount of consideration to which we expect to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties, if any. We consider the explicit terms of the revenue contract, which are typically written and executed by the parties, our customary business practices, the nature, timing, and the amount of consideration promised by a customer in connection with determining the transaction price for our revenue arrangements. Refunds and sales returns historically have not been material.   For the years ended December 31, 2023 and December 31, 2022, the Company recognized product sales revenue amounting to $71,242 and $0. Revenue is derived at the point in time when merchandise is sold and shipped or delivered to customers. Merchandise sales are fulfilled with inventory sourced from our owned inventory. Although the Company does not currently have any inventory as of the balance sheet date, the Company, from time to time, may hold products in inventory for an abbreviated amount of time before shipping such inventory and recognizing the corresponding revenue. Revenue is recognized when control of the product passes to the customer, typically at the date of delivery of the merchandise to the customer, or the date a service is provided and is recognized in an amount that reflects the expected consideration to be received in exchange for such goods or services. As such, customer orders are recorded as unearned revenue prior to delivery of products or services ordered. If the Company ships high volumes of packages through multiple carriers, the Company will use estimates to determine which shipments are to be delivered and, therefore, recognized as revenue at the end of the period. Delivery date estimates are based on average shipping transit times, which are calculated using the following factors: (i) the type of shipping carrier (as carriers have different in-transit times); (ii) the fulfilment source; (iii) the delivery destination; and (iv) actual transit time experience, which shows that delivery date is typically one to eight business days from the date of shipment. The Company reviews and updates our estimates on a quarterly basis based on our actual transit time experience. However, actual shipping times may differ from our estimates. Generally, the Company requires authorization from credit cards or other payment vendors whose services the Company offers to customers or verification of receipt of payment, before the Company ships products to purchasers. The Company generally receives payments from our customers before our payments to our suppliers are due. The Company does not recognize assets associated with costs to obtain or fulfill a contract with a customer. Shipping and handling is considered a fulfillment activity, as it takes place prior to the customer obtaining control of the merchandise, and fees charged to customers are included in net revenue upon completion of our performance obligations. The Company presents revenue net of sales taxes, discounts, and expected refunds. Merchandise sales contracts include terms that could cause variability in the transaction price for items such as discounts, credits, or sales returns. Accordingly, the transaction price for product sales includes estimates of variable consideration to the extent it is probable that a significant reversal of revenue recognized will not occur. At the time of sale, the Company estimates a sales return liability for the variable consideration based on historical experience, which is recorded within "Accrued Liabilities" in the consolidated balance sheet. The Company records an allowance for returns based on current period revenues and historical returns experience. The Company analyzes actual historical returns, current economic trends and changes in order volume, and acceptance of our products when evaluating the adequacy of the sales returns allowance in any accounting period. The Company evaluates the criteria outlined in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 606-10-55, Principal versus Agent Considerations, in determining whether it is appropriate to record the gross amount of merchandise sales and related costs or the net amount earned as commissions. When the Company is the principal in a transaction and controls the specific good or service before it is transferred to the customer, revenue is recorded gross; otherwise, revenue is recorded on a net basis. Currently, the Company records all advertising revenue as a net basis, and other revenues are recorded as a gross basis, and the revenues as a gross basis for the years ended December 31, 2023 and December 31, 2022 are $1,014,266 and $889,045. Through contractual terms with our partners, we have the ability to control the promised goods or services and as a result record the majority of the revenue on a gross basis.</p><p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt; padding: 0pt; text-align: justify">The customers and sales amount with more than 10% of total revenue as a gross basis for the years ended December 31, 2023 and December 31, 2022 are as follows, and they are the advertising revenue.</p><table cellpadding="0" cellspacing="0" style="border-collapse: collapse; width: 100%; font: 10pt Times New Roman, Times, Serif"> <tr style="vertical-align: bottom"> <td style="border-bottom: black 1.5pt solid">Fiscal Year</td> <td> </td> <td style="border-bottom: black 1.5pt solid; text-align: center">Customer</td> <td> </td> <td colspan="2" style="border-bottom: black 1.5pt solid; text-align: center">Sales Amount</td> <td> </td> <td> </td> <td colspan="2" style="border-bottom: black 1.5pt solid; text-align: center">%</td> <td></td></tr> <tr style="vertical-align: bottom; background-color: #CCEEFF"> <td style="text-align: left; width: 64%">2023</td> <td style="width: 1%"> </td> <td style="width: 11%; text-align: center">A</td> <td style="width: 1%"> </td> <td style="width: 1%">$</td> <td style="width: 9%; text-align: right">191,511</td> <td style="width: 1%"> </td> <td style="width: 1%"> </td> <td style="width: 9%; text-align: right">19</td> <td style="width: 1%">%</td></tr> <tr style="vertical-align: bottom; "> <td>2023</td> <td> </td> <td style="text-align: center">B</td> <td> </td> <td>$</td> <td style="text-align: right">696,403</td> <td> </td> <td> </td> <td> </td> <td> </td> <td> </td> <td style="text-align: right">69</td> <td>%</td></tr> <tr style="vertical-align: bottom; background-color: #CCEEFF"> <td>2022</td> <td> </td> <td style="text-align: center">C</td> <td> </td> <td>$</td> <td style="text-align: right">774,024</td> <td> </td> <td> </td> <td> </td> <td> </td> <td style="text-align: right">87</td> <td>%</td></tr> </table>   71242010142668890450The customers and sales amount with more than 10% of total revenue as a gross basis for the years ended December 31, 2023 and December 31, 2022 are as follows, and they are the advertising revenue.<table cellpadding="0" cellspacing="0" style="border-collapse: collapse; width: 100%; font: 10pt Times New Roman, Times, Serif"> <tr style="vertical-align: bottom"> <td style="border-bottom: black 1.5pt solid">Fiscal Year</td> <td> </td> <td style="border-bottom: black 1.5pt solid; text-align: center">Customer</td> <td> </td> <td colspan="2" style="border-bottom: black 1.5pt solid; text-align: center">Sales Amount</td> <td> </td> <td colspan="2" style="border-bottom: black 1.5pt solid; text-align: center">%</td> <td></td></tr> <tr style="vertical-align: bottom; background-color: #CCEEFF"> <td style="text-align: left; width: 64%">2023</td> <td style="width: 1%"> </td> <td style="width: 11%; text-align: center">A</td> <td style="width: 1%"> </td> <td style="width: 1%">$</td> <td style="width: 9%; text-align: right">191,511</td> <td style="width: 1%"> </td> <td style="width: 1%"> </td> <td style="width: 9%; text-align: right">19</td> <td style="width: 1%">%</td></tr> <tr style="vertical-align: bottom; "> <td>2023</td> <td> </td> <td style="text-align: center">B</td> <td> </td> <td><span style="font-family: Times New Roman, Times, Serif; font-size: 10pt"><b>$</td> <td style="text-align: right">696,403</td> <td> </td> <td> </td> <td> </td> <td> </td> <td> </td> <td style="text-align: right">69</td> <td>%</td></tr> <tr style="vertical-align: bottom; background-color: #CCEEFF"> <td>2022</td> <td> </td> <td style="text-align: center">C</td> <td> </td> <td>$</td> <td style="text-align: right">774,024</td> <td> </td> <td> </td> <td> </td> <td> </td> <td style="text-align: right">87</td> <td>%</td></tr> </table>   1915110.1969640030.697740240.87 Cost of Revenue <span style="font-family: Times New Roman, Times,

Property Plant and Equipment Property plant and equipment are carried at cost (see Note 5). Depreciation expense is provided over the estimated useful lives of the assets using the straight line method for vehicles and the declining balance method for fixtures and equipment. A summary of the estimated useful lives is as follows: <table cellpadding="0" cellspacing="0" style="border-collapse: collapse; width: 100%; font: 10pt Times New Roman, Times, Serif"> <tr style="vertical-align: bottom"> <td style="font-weight: bold; border-bottom: Black 1.5pt solid">Classification</td><td style="font-weight: bold; padding-bottom: 1.5pt"> </td> <td style="border-bottom: Black 1.5pt solid; font-weight: bold; text-align: center">Estimated

The Company evaluates property and equipment for impairment when facts and circumstances indicate that the carrying values of such assets may not be recoverable. When evaluating for impairment, the Company first compare the carrying value of the asset to the asset's estimated future undiscounted cash flows. If the estimated undiscounted future cash flows are less than the carrying value of the asset, the Company determines if there is an impairment loss by comparing the carrying value of the asset to the asset's estimated fair value and recognizes an impairment charge when the asset's carrying value exceeds its estimated fair value. The fair value of the asset is estimated using a discounted cash flow model based on forecasted future revenues and operating costs, using internal projections. There were no significant property and equipment asset impairment charges recorded during the year ended December 31, 2023, and the year ended December 31, 2022. If the cost basis of a long-lived asset is greater than the projected future undiscounted net cash flows from such asset, an impairment loss is recognized. Impairment losses are calculated as the difference between the cost basis of an asset and its estimated fair value. There were no significant long-lived assets impairment charges recorded during the year ended December 31, 2023 and the year ended December 31, 2022. Concentrations of Credit Risk Cash and cash equivalents are financial instruments that potentially subject the Company to concentrations of credit risk. The Company may maintain deposits in financial institutions in excess of government insured limits. The Company believes that it is not exposed to significant credit risk as its deposits are held at financial institutions that management believes to be of high credit quality and the Company has not experienced any losses on these deposits. The Company is also potentially subject to concentrations of credit risk in its accounts receivable and loans. Credit risk with respect to receivables is limited due to the number of companies comprising the Company's customer base. Credit risk with respect to loans is limited since they are made principally related to the collaborative activities between the Company and loan holders. Since the Company is directly affected by the financial condition of its customers and loan holders, management carefully watch if any significant credit risks exist, and they will make actions to remove or mitigate such risks if there are any. For the years ended December 31, 2023 and December 31, 2022, over 10% of the revenues are from two customers and one customer, but there are no receivable balances from them. Also, over 10% of the account receivable for the year ended December 31, 2023 is from Hanryu Times, which was the affiliated company by December 28, 2023, and Hanryu Times and the company already agreed to the payment plan that Hanryu Times would pay back all by the end of December 31, 2024. Therefore, as of December 31, 2023 and December 31, 2022, the Company believes that the credit risk for the account receivables is manageable and controllable. Generally, the Company does not require collateral or other securities to support its accounts receivable and loans. Fair Value of Financial Instruments The fair value of Company's financial instruments, consisting of cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities, debt receivables, debt payables approximate their recorded amounts due to their relatively short settlement terms. Fair Value Measurements The Company applies a three-level valuation hierarchy for fair value measurements. The categorization of assets and liabilities within the valuation hierarchy is based on the lowest level of input that is significant to the measurement of fair value. <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; width: 100%; border-collapse: collapse"> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; width: 9%; padding-left: 10pt; text-indent: -10pt">Level 1</td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; width: 1%; padding-bottom: 2.25pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; width: 90%; text-align: justify">Inputs to the valuation methodology utilize unadjusted quoted market prices in active markets for identical assets and liabilities.</td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; padding-left: 10pt; text-indent: -10pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; padding-bottom: 2.25pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; padding-left: 10pt; text-indent: -10pt">Level 2</td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; padding-bottom: 2.25pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">Inputs to the valuation methodology are other observable inputs, including quoted market prices for similar assets and liabilities, quoted prices for identical and similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.</td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; padding-left: 10pt; text-indent: -10pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; padding-bottom: 2.25pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; padding-left: 10pt; text-indent: -10pt">Level 3</td> <td style="font: 10pt Times New Roman, Times, Serif; white-space: nowrap; padding-bottom: 2.25pt"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">Inputs to the valuation methodology are unobservable inputs based on management's best estimate of the inputs that market participants would use in pricing the asset or liability at the measurement date, including assumptions about risk.</td></tr> </table> A change to the level of an asset or liability within the fair value hierarchy is determined at the end of a reporting period. Investments The Company's investments are carried at historical cost. As of December 31, 2023 and December 31, 2022, there is no balance of investments. Earning (Loss) Per Share Basic earning (loss) per share is computed by dividing the income or loss by the weighted-average number of outstanding shares of Common Stock for the applicable period. Diluted earning (loss) per share is computed by dividing the income or loss by the weighted-average number of outstanding shares of Common Stock for the applicable period, including the dilutive effect of Common Stock equivalents. Potentially dilutive Common Stock equivalents primarily consist of warrants issued in connection with financings. For purposes of computing both basic and diluted earning (loss) per share, income or loss shall exclude the income or loss attributable to the non-controlling interest. The Company calculates net loss per share in accordance with FASB ASC Topic 260, Earnings Per Share. Basic net loss per share amounts have been computed by dividing net loss excluded loss attributable to the non-controlling interest by the weighted-average number of common shares outstanding during the period. For the years ended December 31, 2023 and 2022, the Company reported net losses and, accordingly, potential common shares were not included since such inclusion would have been anti-dilutive. As a result, our basic and diluted net loss per share are the same because the Company generated a net loss in all periods presented. Income Taxes Deferred income tax assets and liabilities are determined based on differences between the financial statement reporting and tax basis of assets and liabilities and are measured using the enacted tax rates and laws in effect when the differences are expected to reverse. The measurement of deferred income tax assets is reduced, if necessary, by a valuation allowance for any tax benefits which are not expected to be realized. The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in the period that such tax rate changes are enacted. We have determined that all of our deferred tax benefits are not likely to be realized due to our historical and expected future taxable losses. Accordingly, we have maintained a full valuation allowance. The Company applies the provisions of FASB ASC Topic 740-10, Uncertainty in Income Taxes. The Company has evaluated our tax positions, and there are none as of December 31, 2023 and December 31, 2022. Income taxes on the Company's taxable income from operating activities are subject to various tax laws and determinations of the authority in the ROK. Regarding taxes payable in the ROK, if a certain portion of taxable income is not used for investments or for increases in wages or dividends, in accordance with the Tax System for Recirculation of Corporate Income, the Company is liable to pay additional income tax calculated based on Korean tax law. The Company assesses uncertainty over a tax treatment. When the Company concludes it is not probable that the taxation authority will accept an uncertain tax treatment, the Company will reflect the effect of uncertainty for each uncertain tax treatment by using either of the following methods, depending on which method the Company expects to better predict the resolution of the uncertainty; <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; width: 100%"><tr style="vertical-align: top; text-align: justify"> <td style="width: 0.25in"></td><td style="width: 0.25in; text-align: left">●</td><td style="text-align: justify"><span style="font-family:

Control is defined under the standard as having both the right to obtain substantially all of the economic benefits from use of the asset and the right to direct the use of the asset. Management only reassesses its determination if the terms and conditions of the contract are changed. Operating leases are included in operating lease right-of-use ("ROU") assets, other current liabilities, and operating lease liabilities in our balance sheets. Finance leases are included in property and equipment, other current liabilities, and other long-term liabilities in our balance sheets. ROU assets represent our right to use an underlying asset for the lease term, and lease liabilities represent our obligation to make lease payments. Operating lease ROU assets and liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. The Company uses the implicit rate when it is readily determinable. Since most of the Company's leases do not provide an implicit rate, to determine the present value of lease payments, management uses the Company's incremental borrowing rate based on the information available at lease commencement. Operating lease ROU assets also includes any lease payments made and excludes any lease incentives. Lease expense for lease payments is recognized on a straight-line basis over the lease term. Leases with an initial term of 12 months or less are not recorded on the balance sheet. The Company has lease agreements with lease and non-lease components, which are generally accounted for separately with amounts allocated to the lease and non-lease components based on stand-alone prices or for which it has made an accounting policy election to account for these as a single lease component. For certain equipment leases, like vehicles, the Company accounts for the lease and non-lease components as a single lease. Refer to Note 7 for additional disclosures required as a result of the adoption of this new standard. Recently Issued Accounting Standards In August 2020, the FASB issued ASU No. 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40) Accounting for Convertible Instruments and Contracts in an Entity's Own Equity ("ASU 2020-06"). ASU 2020-06 changes how entities account for convertible instruments and contracts in an entity's own equity and simplifies the accounting for convertible instruments by removing certain separation models for convertible instruments. ASU 2020-06 also modifies the guidance on diluted earnings per share calculations. ASU 2020-06 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2023. In November 2019, the FASB issued ASU 2019-10, "Financial Instruments - Credit Losses (Topic 326), Derivatives and Hedging (Topic 815), and Leases (Topic 842): Effective Dates", which amended the effective date of the various topics. As the Company is a smaller reporting company, the provisions of ASU 2016-13 and the related amendments are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2022 (quarter ending September 30, 2023 for the Company). Entities are required to apply these changes through a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective. In June 2016, the Financial Accounting Standards Board ("FASB") issued ASU 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments" ("ASU 2016-13"), which requires an entity to assess impairment of its financial instruments based on its estimate of expected credit losses. Since the issuance of ASU 2016-13, the FASB released several amendments to improve and clarify the implementation guidance. The Company is reviewing the effects of following recent updates. The Company has no expectation that any of these items will have a material effect upon the financial statements. (“Setopia”), for total consideration of $1,687,052 (the “Setopia Bonds with warrants”). The form of consideration was a mix of: (i) warrants to purchase 666,666 Common Shares of HBC, valued at $873,805; and (ii) distribution of 100,000,000 KDC.   The transaction with Setopia as a beneficial owner of more than 10% of the Company’s outstanding securities, was a related-party transaction. However, neither Setopia nor the Company control the other by any methods including, without limitation, contract, lease, agreements between shareholders, or court decree. Further, each of Setopia and HBC have different principal owners, management, and there have been no transactions between any members of the principal owners’ or managements’ immediate families. On October 27, 2022, Setopia became an unaffiliated and unrelated third party of the Company since, as of that date, Setopia is a stockholder who owns less than 10% of the Company’s outstanding securities. <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt; padding:

The Company determined this investment to be a "debt security" classified into trading debt securities under ASC 320-10-20, as the Company intended to sell it in the near term at the time of acquisition. There has been no unrealized holding gains and losses for trading securities included in earnings since the value of the Setopia Bonds with warrants did not change until it is sold to the third party for the year ended December 31, 2022. Prior to the acquisition of the Setopia Bonds with warrants, the Company owned no interest in Setopia. After the acquisition the Setopia Bonds with warrants, the Company became the owner of record or known beneficial owner of 2.06% of the voting interest of Setopia.   The acquisition of the Setopia Bonds with warrants is a related-party transaction under ASC 850-10-05-3(d).   On February 11, 2022, the Company sold the acquired Setopia Bonds with warrants to an unaffiliated and unrelated third party in exchange for the consideration of cash totaling $696,621 and a non-trade receivable for $851,426 due by December 30, 2022, which resulted in a decrease of the investment balance of $1,687,052 including the currency translation adjustment of ($139,004) as of December 31, 2022. The Company and a third party entered into an extension agreement for a non-trade receivable due by April 30, 2023.   On October 4, 2022, the Company purchased convertible bonds issued by Setopia, for total consideration of $635,000 (the "Setopia Convertible Bonds"). The Setopia Convertible Bonds were initially issued on January 27, 2022, with no annual interest and a maturity date of January 27, 2025. The form of consideration was to accept the consideration of warrants with an exercise price of $1.27 to purchase 500,000 shares of Common Stock. On October 4, 2022, warrants were exercised with an exercise price of $1.27 to purchase 500,000 shares of common stock.   On December 30, 2022, the Company sold the Setopia Convertible Bonds to an unaffiliated and unrelated party by receiving non-trade receivables of $710,171 due by February 28, 2023, which resulted in a decrease of the investment balance of $635,000 including the currency translation adjustment of $75,171 as of December 31, 2022. The Company collected such non-trade receivables by cash in full on March 23, 2023. There was no gain or loss realized on this transaction during the year ended December 31, 2022.   On June 30, 2021, HBC and Sewang entered into the Contract and Share Assignment, pursuant to which HBC acquired: (i) the Marine Island Shares, and thereby the Lien, which gave Marine Island the right to use and occupy the Seoul Marina until the Lien is repaid; (ii) the SMC Shares; and (iii) the SMC Receivable.   The aggregate consideration paid to Sewang for the rights and assets under the Contract was $2,943,905, initially allocated as follows: (1) $8,247 to the purchase SMC Shares at a price of $0.87 per share, constituting 24.53% of the issued and outstanding common shares of SMC; and (2) $2,935,658 to SMC Receivable and the Lien, calculated by determining the present value of leasing the Seoul Marina facilities for free over 10 years. Sewang received $2,009,752 in the form of 23,000,000 KDC, and the remaining $934,153 in the form of cash.   On December 30, 2022, the Company sold the SMC shares to an unaffiliated and unrelated third party in exchange for the consideration of cash totaling $774, which resulted in a decrease of the investment balance of $8,247 including the currency translation adjustment of ($679) as of December 31, 2022 and loss on sale of investments of $6,794 for the year ended December 31, 2022.   The Company recorded the Marine Island Shares as affiliated stocks, and the SMC Shares as an investment, and the remaining SMC Receivable and Lien as Operating Lease Right-Of-Use Asset which is being amortized over a ten year period under the guidelines of ASC 842. See Note 7 "Lease". The SMC Shares and the Marine Island Shares were calculated by the number of shares multiplied by the par value of $0.87 and $0.44. The value of SMC Receivable and the Lien was calculated by determining the present value of the Lien on the assumption the Company would lease the Seoul Marina facilities for free for at least 10 years. </p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt; padding: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt; padding: 0pt; text-align: justify">The Company is not a principal owner of SMC. Although no formal lease exists, the Company believes that ASC 842 accounting guidelines apply to determine the fair market value of ten years of free rent as well as recording rent expense on its Statement of Operations. Using the following variables: Annual lease cost — 300,000,000 Korean Won   10-year present value calculation   Assumed annual rent increase -4.96%   Interest cost -3%   10-year bond rate on Korean Bonds 2.11%   Exchange rate: 1188.5 Korean Won to the US dollar   The Company determined that the present value of ten years of free rent amount to $2,775,512 which was recorded as a long-term ROU asset as of June 30, 2021. Since there were no liabilities associated with this asset since the Company is receiving free rent, the ROU assets is being amortized at a rate of approximately $23,000 per month over a ten year term. Since the Company had initially allocated a value of $2,935,658 to SMC Receivable and the Lien, the Company recorded an impairment of $158,278 on its Right-of-Use Asset for the year ended December 31, 2021.   <p

The terms and conditions of the bonds with warrants at the time of acquiring bonds and issuance of such bonds are set forth below. Currently, the Company and all bondholders have entered into an agreement that the bondholders will waive all interest payments due for the life of the bonds.   The entire face amount of the bonds is the maximum number of Common Shares for which the attached warrants can be exercised by each bondholder, with exercise prices from $0.42 to $1.27 per common share.   On March 31, 2021, HBC issued 4,150,000 Common Shares to the shareholders of RnDeep pursuant to the RnDeep Merger. As the surviving company in the RnDeep Merger, HBC assumed the RnDeep Warrants, therefore allowing the RnDeep Warrants to be exercised for Common Shares of HBC, in the following amounts: <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; width: 100%"><tr style="vertical-align: top; text-align: justify"> <td style="width: 0.25in"> </td><td style="width: 0.25in; text-align: left">●</td><td style="text-align: justify">RnDeep Warrants issued on March 17, 2020, for an aggregate purchase price of $2,586,850. There is not a viable market for the Company's Common Stock to determine its fair value, therefore management is required to estimate the fair value to be utilized in the determining warrant costs and value. In estimating the fair value, management considers the comparable value of public companies from the same industry. Considerable management judgment is necessary to estimate the fair value. Accordingly, actual results could vary significantly from management's estimates.   Option valuation models require the input of highly subjective assumptions. The fair value of warrants was estimated using the Black-Scholes option model with a volatility figure derived from public companies in the same industry. Management determined this assumption to be a more accurate indicator of value. The Company accounts for the expected life of warrants based on the maturity of warrants. The risk-free interest rate was determined from the implied yields of U.S. Treasury zero-coupon bonds with a remaining life consistent with the expected term of the options. The fair value of warrants during the years ended December 31, 2021 and December 31, 2020 was estimated using the Black-Scholes pricing model.   On March 31 2021, HBC acquired an aggregate of 12,066,666 warrants to purchase HBC Common Shares in connection with RnDeep Merger at the exercise prices of $0.42 (9,000,000 warrants) and $1.27 (3,666,666 warrants) per share for a term of one to two years, exercisable immediately. The Company accounts for such non-cash consideration at the effective date of agreement in accordance with the non-cash consideration guidance included in FASB ASC Topic 470, Debt ("ASC 470"), and FASB ASC Topic 606, Revenue from Contracts with Customers ("ASC 606"). As a result, the Company recognized gain of settlement of debt of $232,207 for the year ended December 31, 2022. 3000000232207232207 NOTE 14 — OTHER   The Company believes that KDC meets the definition of indefinite-lived intangible assets under ASC 350, as it is nonfinancial asset that lacks physical substance. Therefore, KDC was recognized and measured at historical cost. In addition, the Company determined that KDC has an indefinite life since there is no legal, regulatory, contractual, competitive, economic, or other factors that limit the useful life of KDC, in accordance with ASC 350-30-35-4. The Company initially created KDC, a public digital cryptocurrency separate and apart from the FANTOO platform, as a method of onboarding and offboarding FP to and from the FANTOO platform through the Kingdom Wallet. However, on June 22, 2022, the Company entered into a Business Transfer Agreement (the "KDC Agreement") with Kingdom Coin Holdings, a corporation incorporated in the Cayman Islands (the "KDC Foundation"), pursuant to which the Company transferred all of its KDC to the KDC Foundation, and no longer conducts or controls the operations, issuance, or sales of KDC in order to substantially reduce our involvement with blockchain technologies. This shift in our business plan was undertaken both to protect our users from potential risks associated with speculation in KDC, and because of the recent market and regulatory conditions surrounding cryptocurrency in general. As such, the Company no longer supports or operates Kingdom Wallet, and no longer allows the conversion of FP into KDC (and vice-versa). Neither Hanryu Holdings, nor any of its subsidiaries, have any affiliation with the KDC Foundation.   Additionally, and for the avoidance of doubt, the control person of Plus Meta PTE Ltd., KDC Foundation's management company, is not an affiliate, and is not in any way related to, any officer, director, or shareholder of the Company. The KDC Foundation does not, has not, and will not coordinate any of its activities with the Company or the Company's operation of FANTOO. Further, KDC will not be marketed to FANTOO users.   Pursuant to the KDC Agreement, in exchange for the Company transferring (a) its then-existing outstanding KDC balance of 299,651,320,620, (b) blockchain mainnet known as the Fandomchain, and (c) the Kingdom Wallet to the KDC Foundation, the KDC Foundation will (y) assume all obligations and liabilities with respect to KDC and Kingdom Wallet, and (z) pay to the Company the following contingent amounts, if, at December 31, 2024:   <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; width: 100%"><tr style="vertical-align: top; text-align: justify"> <td style="width: 0.25in"></td> <td style="width: 0.25in; text-align: left">●</td><td style="text-align: justify">The KDC Foundation generates sales in excess of $74 million from the assets transferred from the Company, the KDC Foundation shall pay 10% of such sales to the Company;</td> </tr></table>   <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; width: 100%"><tr style="vertical-align: top; text-align: justify"> <td style="width: 0.25in"></td><td style="width: 0.25in; text-align: left">●</td><td style="text-align: justify">The KDC Foundation generates sales in excess of $37 million, but less than $74 million, from the assets transferred from the Company, the KDC Foundation shall pay 15% of such sales to the Company; and</td> </tr></table>   <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; width: 100%"><tr style="vertical-align: top; text-align: justify"> <td style="width: 0.25in"></td><td style="width: 0.25in; text-align: left">●</td><td style="text-align: justify">The Company will receive no consideration from the KDC Foundation if the assets transferred from the Company generates sales under $37 million.</td> </tr></table>   For the avoidance of doubt, sales generated from the transferred assets do not include any post-transfer newly created KDC. KDC Foundation planned to generate revenue by integrating KDC, FandomChain, and the Kingdom Wallet into mobile games, and monetizing such games. Due to current cryptocurrency-related market conditions, the Company does not expect to receive any payments from KDC Foundation through December 31, 2024 in accordance with the terms of the Business Transfer Agreement.   The KDC agreement included contingent earn-out consideration, the fair value of which was estimated on June 22, 2022, as the present value of the expected future contingent receivables which the Company determined using a probability-weighted discounted cash flow model for probabilities of possible future receivables. The Company determined the fair value of contingent consideration as zero on June 22, 2022. Contingent consideration is remeasured to fair value at each reporting date until the contingency is resolved, with changes in fair value recognized in profit or loss in most circumstances. The Company recorded zero value of the contingent consideration on the accompanying consolidated balance sheets as of December 31, 2022.   The Company believes that the transfer of KDC meets the definition of a "Component of an Entity" under FASB ASC Topic 205-20, Discontinued Operations, and as such can be disposed of by a means other than sale. The divestiture of KDC and its associated operations does not represent a strategic shift, nor has (and will not have), a major effect on the Company's operations and financial results because the blockchain/KDC operations did not represent: <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; width: 100%"><tr style="vertical-align: top; text-align: justify"> <td style="width: 0.25in"></td><td style="width: 0.25in; text-align: left">●</td><td style="text-align: justify">15% of the Company's total revenue;</td> </tr></table>   <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; width: 100%"><tr style="vertical-align: top; text-align: justify"> <td style="width: 0.25in"></td><td style="width: 0.25in; text-align: left">●</td><td style="text-align: justify">Geographical area that represents 20% of the Company's total assets; or</td> </tr></table>   <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; width: 100%"><tr style="vertical-align: top; text-align: justify"> <td style="width: 0.25in"></td><td style="width: 0.25in; text-align: left">●</td><td style="text-align: justify">30% of the Company's historic net income and 15% of the current period's income.</td> </tr></table>   The Company did not present the divestiture of its holdings of KDC and KDC-related activity as discontinued operations because there was no revenue, asset value, or net income from the divestiture of KDC and the related operations. 2996513206207400000000.10370000007400000000.15370000000.150.200.300.15 NOTE 15 — SHARE CAPITAL   As of December 31, 2023, and December 31, 2022, Hanryu Holdings' total authorized capital stock is 110,000,000 shares, consisting of 100,000,000 shares of Common Stock, par value $0.001 per share, and 10,000,000 shares of undesignated preferred stock, par value $0.001 per share.   On January 4, 2023, through March 8, 2023, warrants of $1,813,120 were exercised with an exercise price of $1.27 to purchase 1,427,653 shares of Common Stock by cash of $1,420,144 and debt conversion of $392,776.   In February and March of 2023, the Company closed two private placements solely to accredited investors (as defined by Rule 501(a) of Regulation D of the Securities Act) pursuant to which the Company sold an aggregate amount of 240,000 shares of common stock for $10.00 per share, resulting in gross proceeds of $2,400,000. The purchase price of the common stock purchased in the private placements is subject to adjustment to the price of the common stock sold in the Company's IPO, such that additional common stock shall be issued to the purchasers if the price of common stock sold in the IPO is less than $10.00 per share, or the purchasers shall return common stock to the Company if the price of the common stock sold in the IPO is greater than $10.00 per share, in each case resulting in the purchasers purchasing an aggregate amount of $2,400,000 of Company common stock at the IPO price. The offerings were exempt from registration under Section 4(a)(2) of the Securities Act. The subscription agreements pursuant to which the common stock was sold to accredited investors contain customary representations and warranties of the Company and the investors and customary indemnification rights and obligations of the parties.
