Organization and Summary of Significant Accounting Policies Organization and Nature of Operations Chain Bridge Bancorp, Inc. (the â€œCompanyâ€) is a Delaware corporation and is the registered bank holding company for Chain Bridge Bank, National Association (the â€œBankâ€). Both the Company and Bank have their headquarters and sole executive office in McLean, Virginia. The Bank operates a model that combines electronic banking channels with its physical banking headquarters in McLean, Virginia, allowing it to serve clients nationally. The Bank provides a wide range of commercial and personal banking services, including deposit accounts, mortgage financing, various loan products, trust administration, wealth management, and asset custody. The core deposit products offered by the Bank include noninterest-bearing and interest-bearing checking accounts, along with savings accounts. The Bankâ€™s lending portfolio is comprised primarily of mortgage-related loans, with the majority being consumer residential mortgages in the Washington, D.C. area. The Bank offers tailored solutions to individuals, families, businesses, non-profit organizations, and political organizations. The term â€œpolitical organizationsâ€ refers to campaign committees, party committees, separate segregated funds (including trade association political action committees (â€œPACsâ€) and corporate PACs), non-connected committees (including independent expenditure-only committees (â€œSuper PACsâ€), committees maintaining separate accounts for direct contributions and independent expenditures (â€œHybrid PACsâ€), and committees other than authorized campaign committees, or those affiliated therewith, maintained or controlled by a candidate or federal officeholder (â€œLeadership PACsâ€)), and other tax-exempt 527 organizations.The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (â€œGAAPâ€) for interim financial information. The statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of the Companyâ€™s management, all adjustments, consisting only of normal recurring adjustments, which are necessary for a fair presentation of the consolidated financial statements, have been included. These unaudited interim consolidated financial statements should be read in conjunction with the Companyâ€™s audited consolidated financial statements for the year ended DecemberÂ 31, 2023 and the notes thereto. The results of operations for the nine months ended SeptemberÂ 30, 2024 are not necessarily indicative of the results to be expected for any other interim period or for the full year. Principles of Consolidation The consolidated financial statements include the accounts of Chain Bridge Bancorp, Inc. and its wholly-owned subsidiary, Chain Bridge Bank, National Association. All significant intercompany balances and transactions have been eliminated in consolidation. Reclassification Certain amounts reported in prior years may be reclassified to conform to the current yearâ€™s presentation. There were no reclassifications for the periods reported. Significant Accounting Policies The accounting and reporting policies of the Company are in accordance with GAAP and conform to general practices within the banking industry. The Companyâ€™s significant accounting policies are described in the Note 1 of the â€œNotes to the Consolidated Financial Statementsâ€ included in the audited consolidated financial statements for the fiscal year ended DecemberÂ 31, 2023. There have been no significant changes to the application of significant accounting policies since DecemberÂ 31, 2023. 12Table of ContentsNotes to Unaudited Consolidated Financial Statements In preparing financial statements in conformity with GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Estimates are evaluated on an ongoing basis. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for credit losses (â€œACLâ€) on loans and held to maturity debt securities. Recent Accounting Pronouncements In December 2023, the Financial Accounting Standards Board (â€œFASBâ€) issued ASU 2023-09, â€œIncome Taxes (Topic 740): Improvements to Income Tax Disclosures.â€ The amendments in this ASU require an entity to disclose specific categories in the rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold, which is greater than five percent of the amount computed by multiplying pretax income by the entityâ€™s applicable statutory rate, on an annual basis. Additionally, the amendments in this ASU require an entity to disclose the amount of income taxes paid (net of refunds received) disaggregated by federal, state, and foreign taxes and the amount of income taxes paid (net of refunds received) disaggregated by individual jurisdictions that are equal to or greater than five percent of total income taxes paid (net of refunds received). Lastly, the amendments in this ASU require an entity to disclose income (or loss) from continuing operations before income tax expense (or benefit) disaggregated between domestic and foreign and income tax expense (or benefit) from continuing operations disaggregated by federal, state, and foreign. This ASU is

effective for annual periods beginning after December 15, 2024. Early adoption is permitted. The amendments should be applied on a prospective basis; however, retrospective application is permitted. The Company does not expect the adoption of ASU 2023-09 to have a material impact on its consolidated financial statements. In November 2024, the FASB issued ASU 2024-03, â€œIncome Statementâ€”Reporting Comprehensive Incomeâ€”Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses.â€ ASU 2024-03 requires public companies to disclose, in the notes to the financial statements, specific information about certain costs and expenses at each interim and annual reporting period. This includes disclosing amounts related to employee compensation, depreciation, and intangible asset amortization. In addition, public companies will need to provide qualitative description of the amounts remaining in relevant expense captions that are not separately disaggregated quantitatively. ASU 2024-03 is effective for public business entities for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. Implementation of ASU 2024-03 may be applied prospectively or retrospectively. The Company does not expect the adoption of ASU 2024-03 to have a material impact on its consolidated financial statements.Other accounting standards that have been issued by the FASB or other standard setting bodies are not currently expected to have material effect on the Companyâ€™s financial position, results of operations or cash flows. 13Table of ContentsNotes to Unaudited Consolidated Financial Statements Noteâ€‰2. Capital StructureOn September 13, 2024, the Company filed a Registration Statement on Form S-1 with the U.S. Securities and Exchange Commission (â€œSECâ€) in connection with its initial public offering (â€œIPOâ€), as amended on September 30, 2024, and declared effective by the SEC on October 3, 2024 (the â€œRegistration Statementâ€). On October 7, 2024, the Company issued 1,850,000 shares of Class A common stock, par value of $0.01 (â€œClass A Common Stockâ€), at a public offering price of $22.00 per share. On October 7, 2024, the Company completed its IPO and received total net proceeds of $37.1Â million, after deducting the underwritersâ€™ discount and reimbursements for the underwritersâ€™ legal and other out of pocket expenditures. The net proceeds less other related expenses, including audit fees, legal fees, listing fees, and other expenses, totaled $33.6Â million. On October 10, 2024, the Company used a portion of the net proceeds to fully repay $10.0Â million in short-term borrowings. The Company subsequently closed the line of credit on October 11, 2024. On November 1, 2024, the Company issued an additional 142,897 shares of Class A Common Stock as a result of the underwriters' exercise of their 30-day option to purchase up to an additional 277,500 shares of its Class A Common Stock. The issuance resulted in net proceeds to the Company of approximately $2.9Â million, after deducting underwriting discounts and commissions.In connection with the IPO, on October 3, 2024, the Company filed an Amended and Restated Certificate of Incorporation with the Secretary of State of the State of Delaware, which established two new classes of common stock, the Class A Common Stock and Class B common stock, par value $0.01 per share (â€œClass B Common Stockâ€), and reclassified and converted each outstanding share of the Companyâ€™s existing common stock, par value $1.00 per share (â€œOld Common Stockâ€), into 170 shares of Class B Common Stock (the â€œReclassificationâ€). The Amended and Restated Certificate of Incorporation with the Secretary of State of the State of Delaware also changed the number of authorized shares of Preferred Stock from 100,000 to 10,000,000. As of SeptemberÂ 30, 2024, the Company had 26,876 shares of Old Common Stock issued and outstanding and no shares of Class A Common Stock and Class B Common Stock issued and outstanding. After giving effect to the Reclassification, which was retroactively applied to the financial statements, the Company had no shares of Old Common Stock and Class A Common Stock issued and outstanding and 4,568,920 shares of Class B Common Stock issued and outstanding. Because the Reclassification was applied retroactively to all periods presented, a share that was previously reported as Old Common stock at $1.00 par value and Additional Paid in Capital, is now reported as 170 shares of Class B Common Stock at $0.01 par value and Additional Paid in Capital. The following table sets forth selected balance sheet components as of September 30, 2024:â€¢On an unadjusted basis, giving no effect to the Reclassification; â€¢On an as adjusted basis, giving effect to the Reclassification transactions described above; andâ€¢On an as further adjusted basis after giving effect to (1) the Reclassification, (2) the Companyâ€™s receipt of Â Â Â Â the net proceeds from the IPO, after deducting underwriting discounts and commission and other direct expenses of the offering, and (3) the use of a portion of the net proceeds to repay the outstanding principal balance of $10.0Â million of borrowings under the Companyâ€™s unsecured line of credit with a correspondent bank. 14Table of ContentsNotes to Unaudited Consolidated Financial Statements As of September 30, 2024UnadjustedAs adjusted for ReclassificationAs further Adjusted for IPO(dollars in thousands, except per share data)Cash and cash equivalents$639,767Â $639,767Â $666,293Â Debt: Short-term borrowings$10,000Â $10,000Â $â€”Â Stockholdersâ€™ equity:Preferred Stock, no par value; 100,000 shares authorized, none issued and outstanding, unadjusted; no par value, 10,000,000 shares authorized, none issued and outstanding, as adjusted for Reclassification and as further adjusted for IPO$â€”Â $â€”Â $â€”Â Old Common Stock, $1.00 par value; 200,000 shares authorized, 26,876 shares issued and outstanding, unadjusted; no shares authorized, no shares issued and outstanding, as adjusted for Reclassification and as further adjusted for IPO$27Â $â€”Â $â€”Â Class A Common Stock, $0.01 par value; no shares authorized, no shares issued and outstanding, unadjusted; 20,000,000 shares authorized, no shares issued and outstanding, as adjusted for Reclassification; 20,000,000 shares authorized, 1,992,897 shares issued and outstanding, as further adjusted for IPO$â€”Â $â€”Â $20Â Class B Common Stock, $0.01 par value; no shares authorized, no shares issued and outstanding, unadjusted; 10,000,000 shares authorized, 4,568,920 shares issued and outstanding, as adjusted for Reclassification and as further adjusted for IPO$â€”Â $46Â $46Â Additional paid-in capital$38,295Â $38,276Â $74,782Â Retained earnings$73,901Â $73,901Â $73,901Â Accumulated other comprehensive loss$(7,380)$(7,380)$(7,380)Total stockholdersâ€™ equity$104,843Â $104,843Â $141,369Â 15Table of ContentsNotes to Unaudited Consolidated Financial Statements Noteâ€‰3. Securities & Allowance for Securities Credit Losses The Company invests in a variety of debt securities, principally obligations of the U.S. government and federal agencies, mortgage backed securities, state and municipal agencies, and corporations. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, all debt securities were classified as held to maturity (â€œHTMâ€) or available for sale (â€œAFSâ€). Management considers the appropriateness of the accounting treatment applied to the Companyâ€™s debt securities portfolio on an ongoing basis. During a prior year, certain AFS bonds were transferred to the HTM portfolio. Bonds selected for transfer included U.S. government and federal agencies, corporate bonds, and state and municipal bonds. The unrealized loss at the time of transfer is being amortized monthly over the remaining lives of the debt securities with an increase to the carrying value of the debt securities and a decrease to the related accumulated other comprehensive loss, which is included in the stockholdersâ€™ equity section of the consolidated balance sheets. Proceeds from calls, maturities, paydowns and sales of debt securities available for sale totaled $81.0 million for the nine months ended SeptemberÂ 30, 2024 and $28.4 million for the nine months ended SeptemberÂ 30, 2023. Proceeds from calls, maturities, and paydowns of debt securities held to maturity totaled $5.5 million and $248 thousand for the nine month periods ended SeptemberÂ 30, 2024 and 2023, respectively. During the nine months ended SeptemberÂ 30, 2024, the Bank sold an AFS bond that was charged off during a prior year for $210 thousand. The proceeds were recorded as a recapture of credit loss. Because this sale did not result in a realized gain or loss on sale of securities, it is excluded from the related tables below. However, there are limited situations, including evidence of deterioration in the issuerâ€™s creditworthiness, in which the Company could sell an HTM bond without tainting the remaining HTM portfolio. During the third quarter of 2024, the Company sold two HTM bonds from a single issuer due to significant documented deterioration of the issuerâ€™s creditworthiness evidenced by the downgrading of the issuerâ€™s public credit rating. The sales are included in the tables above. Under these circumstances, the sale did not taint the HTM portfolio.The amortized cost and fair value of debt securities by contractual maturity at SeptemberÂ 30, 2024 is as follows (dollars in thousands): 17Table of ContentsNotes to Unaudited Consolidated Financial Statements Available for SaleHeld to MaturityAmortizedCostFairValueAmortizedCostFairValueWithin one year$166,593Â $166,033Â $16,873Â $16,668Â After one year through five years98,391Â 95,808Â 189,090Â 181,392Â After five years through ten years29,950Â 27,843Â 92,329Â 83,923Â Over ten years5,419Â 5,070Â 4,317Â 3,797Â Total$300,353Â $294,754Â $302,609Â $285,780Â Expected maturities may differ from contractual maturities if issuers have the right to call or repay obligations with or without prepayment penalties. All of the Companyâ€™s investment portfolio was evaluated under the monitoring process described in Note 1 of the audited consolidated financial statements for the year ended DecemberÂ 31, 2023, and all investments were deemed investment grade. All of the unrealized losses are attributed to changes in market interest rates, and are not a result of deterioration of creditworthiness among any of the issuers. Of the total AFS and HTM portfolio at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, 792 and 880 debt securities had unrealized losses with aggregate impairment of 3.8% and 6.0%, respectively, of the Companyâ€™s amortized cost basis. These unrealized losses related principally to interest rate movements and not the creditworthiness of the issuer. In analyzing an issuerâ€™s financial condition, management considers whether the debt securities are issued by the federal government or its 18Table of ContentsNotes to Unaudited Consolidated Financial Statements agencies, whether downgrades by bond rating agencies have occurred, and industry analystsâ€™ reports. Credit loss allowances for the AFS and HTM portfolios are described in the following sections. Allowance for Credit Lossesâ€”AFS Securities Management evaluates debt securities to determine whether the unrealized loss is due to credit-related factors or non-credit-related factors. This analysis occurs on a quarterly basis. Consideration is given to the extent to which fair value is less than cost, the financial condition and near-term prospects of the issuer, and the intent and ability of the Company to retain its investment in the security for a period of time sufficient to allow for full recovery of its amortized cost. If the assessment reveals that a credit loss exists, the present value of the expected cash flows of the security is compared to the amortized cost basis of the security. If the present value of future cash flows expected to be collected is less than the amortized cost, an allowance for the credit loss is recorded. The loss is limited by the amount that the amortized cost exceeds fair value. As of the reporting date, the Company did not intend to sell any of the AFS debt securities, did not expect to be required to sell these debt securities, and expected to recover the entire amortized cost basis of all of the debt securities. The Company did not record an ACL on the AFS debt securities at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. The Company has evaluated these debt securities for credit-related impairment at the reporting date and concluded that no impairment existed. In analyzing an issuerâ€™s financial condition, management considers whether the debt securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, industry analystsâ€™ reports, and correlations between fair value changes and interest rate changes among instruments that are not credit sensitive. All AFS debt securities were current with no debt securities past due or on non-accrual as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. The Company considers the unrealized losses on the debt securities as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 to be related to fluctuations in market conditions, primarily interest rates, and is not reflective of deterioration in credit. The entire ACL provision recorded for the AFS portfolio during 2023 was recorded in the first quarter and pertained to a holding from a single corporate issuer whose business was ultimately closed by a regulatory authority. The bond, initially classified as HTM, was transferred to the AFS portfolio based on the unlikely collectability of the unsecured bond and significant documented credit deterioration. A portion of the bond was subsequently sold at a loss, and the remaining unsold portion was written off entirely. Credit Quality Indicators and Allowance for Credit Losses - HTM Securities The Company evaluates the credit risk of its HTM debt securities on a quarterly basis. The Company estimates expected credit losses on HTM debt securities using an instrument -level process described in Note 1 of the audited consolidated financial statements for the year ended DecemberÂ 31, 2023. The primary indicators of credit quality for the Companyâ€™s HTM portfolio are security type, time remaining to maturity, and credit rating. Credit ratings may be influenced by a number of factors

including obligor cash flows, geography, seniority and others. The HTM portfolio includes debt securities issued by the U.S. Treasury and agencies of the federal government, and mortgage-backed securities issued by government agencies. These types of investments carry implicit or explicit backing of the U.S. Treasury, and therefore are deemed to carry no credit risk for purposes of the ACL evaluation. $â€”Â $â€”Â Collateral Dependent Loans FASB ASC Topic 326 describes a collateral-dependent asset as a financial asset for which the repayment is expected to be provided substantially through the operation or sale of the collateral when the borrower, based on managementâ€™s assessment, is experiencing financial difficulty as of the reporting date. Whether the underlying collateral is expected to be a substantial source of repayment for an asset depends on the availability, reliability, and capacity of sources other than the collateral to repay the debt. Collateral-dependent loans are individually evaluated for expected credit losses as of the reporting date, and they are removed from their respective pools of collectively evaluated assets. Expected credit losses for these types of assets are based on the fair value of the collateral at the measurement date, adjusted for estimated selling costs. There were no collateral-dependent loans that were individually evaluated for purposes of determining the allowance for credit loss under FASB ASC Topic 326 as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. Modifications to Borrowers Experiencing Financial Difficulty The Company may modify loans to borrowers in financial distress by providing principal forgiveness, term extension, and other-than-insignificant payment delay or interest rate reduction. When principal forgiveness is provided, the amount of forgiveness is charged-off against the allowance for credit losses. There were no loan modifications provided to borrowers exhibiting financial distress during the nine months ended SeptemberÂ 30, 2024 and 2023, and there were no such prior modifications in existence during the periods reported. During the reported periods, there were no payment defaults from any such loans during the twelve months preceding the modification because no such modifications were in existence during the periods. Related Party Loan Transactions Officers, directors and their affiliates had loans outstanding with the Company of $8.6 million and $6.9 million as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. The increase in loans outstanding relates to the cumulative effect of changes in the composition of related parties, due to the hiring of a new officer. These transactions occurred in the ordinary course of business on substantially the same terms as those prevailing at the time for comparable transactions with unrelated persons. Noteâ€‰5. Deposits The Bank held no deposits classified as brokered as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. To achieve full insurance from the Federal Deposit Insurance Corporation (â€œFDICâ€), some of the Bankâ€™s depositors have enrolled in the 26Table of ContentsNotes to Unaudited Consolidated Financial Statements IntraFi Cash ServiceÂ® (â€œICSÂ®â€) program offered by the Bank through the IntraFiÂ® network. When accounts are enrolled in this service, the Bank must elect, for each account, whether it will receive a reciprocal deposit balance or sell the deposit balance. There were no reciprocal deposits held as of September 30, 2024. At DecemberÂ 31, 2023, the Bank held $177.3 million of reciprocal deposits through ICSÂ® on its consolidated balance sheets. Total ICSÂ® One-Way SellÂ® deposits of $432.3 million and $130.1 million as of SeptemberÂ 30, 2024, and DecemberÂ 31, 2023, respectively, were sold to the network and excluded from the Companyâ€™s consolidated balance sheets. The Company receives fee income for sold accounts, which is included in deposit placement services income on the consolidated statements of income. The Bankâ€™s deposit balances have consistently followed the trend of historic seasonality surrounding federal election cycles, where political organization deposits generally increase in the quarters leading up to federal elections and decline in the quarters during and after the elections. Consistent with this trend, as of September 30, 2024, the Bank maintained elevated deposit levels ahead of the November 2024 federal elections, with deposits reported on the balance sheet totaling $1.4Â billion, and One-Way SellÂ® deposits totaling $432.3Â million. Entering the fourth quarter of 2024â€”the quarter of the 2024 presidential electionâ€”between October 1, 2024 and November 12, 2024, the date prior to the filing of this quarterly report, total deposits, including reciprocal ICSÂ® deposits, have ranged from approximately $1.1Â billion to $1.4Â billion, and ICSÂ® One-Way SellÂ® accounts have approximately ranged from a minimum of $85.4Â million to a maximum of $462.5Â million. At the close of business on November 12, 2024, total deposits were $1.2Â billion and ICSÂ® One-Way SellÂ® accounts were $85.4Â million. Declines in the volume of deposits retained on the balance sheet will cause net interest income to decrease, and declines in ICSÂ® One-Way SellÂ® balances will cause noninterest income to decrease. The amount and timing of these deposit inflows and outflows are difficult to predict and may differ from historical patterns. FDIC deposit insurance covers $250 thousand per depositor, per FDIC-insured bank, for each account ownership category. The Company estimates uninsured deposits held at the Bank as of SeptemberÂ 30, 2024 are $1.2 billion, which is 81.4% of total deposits. The Company estimated uninsured deposits as of DecemberÂ 31, 2023 were $648.0 million, which is 58.3% of total deposits. There were two clients with an individual deposit balance exceeding 5.0% of total deposits as of SeptemberÂ 30, 2024. The total deposit balance related to these clients as of SeptemberÂ 30, 2024 was $226.6 million or 15.8% of total deposits. There were no clients whose individual deposit balances exceeded 5.0% of total deposits as of DecemberÂ 31, 2023. Noteâ€‰6. Borrowings Federal Home Loan Bank Advance The Bank has a secured line of credit with the Federal Home Loan Bank, which is renewed annually in December. The Bank has historically pledged 1-4 family residential real estate loans within the Bankâ€™s loan portfolio to establish credit availability. At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the secured line of credit had no collateral pledged and therefore no available or outstanding balance. Short-Term Borrowings At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the Company had an unsecured line of credit from a correspondent bank totaling $10.0 million with an outstanding balance of $10.0 million as of SeptemberÂ 30, 2024 and $5.0 million as of DecemberÂ 31, 2023. On October 10, 2024, the Company used a portion of the net proceeds from the IPO to fully repay the $10.0 million outstanding balance. The Company subsequently closed the line on October 11, 2024. The interest rate on the line of credit was 7.85% and 7.95% at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. As of DecemberÂ 6, 2023, the agreement was amended to require payment of a quarterly unused commitment fee at the rate of 1.00% per annum on the undisbursed and uncanceled daily balance during the preceding quarter. The Bank has unsecured federal fund purchase lines of credit with Community Bankersâ€™ Bank totaling $8.0 million maturing MarchÂ 12, 2025, First National Bankersâ€™ Bank totaling $10.0 million maturing on JuneÂ 30, 2025, and Pacific Coast Bankersâ€™ Bank totaling $50.0 million maturing JuneÂ 30, 2025. The federal funds lines renew annually and balances may remain outstanding for period of up to 10 to 90 consecutive days. The use of the facilities is subject to certain terms and conditions, including those related to the Bankâ€™s financial condition. There were no outstanding federal funds purchased balances as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. 27Table of ContentsNotes to Unaudited Consolidated Financial Statements Noteâ€‰7. Fair Value Measurements Determination of Fair Value Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value measurements and disclosure topic specifies a hierarchy of valuation techniques based on whether the inputs to these valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Companyâ€™s market assumptions. U.S. GAAP requires that valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. Fair Value HierarchyU.S. GAAP establishes a fair value hierarchy which categorizes the valuation inputs into three broad levels. Based on the underlying inputs, each fair value measurement in its entirety is reported in one of the three levels. These levels are: Level 1 - Valuation is based on quoted prices in active markets for identical assets and liabilities that the reporting entity has the ability to access at the measurement date. Level 1 assets and liabilities generally include debt and equity securities that are traded in an active exchange market. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities. Level 2 -

Valuation is based on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The valuation may be based on quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability. Level 3 - Valuation is based on unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which determination of fair value requires significant management judgment or estimation. An asset or liabilityâ€™s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Assets and Liabilities Measured at Fair Value on a Recurring Basis The following describes the valuation techniques used by the Company to measure certain financial assets and liabilities recorded at fair value on a recurring basis in the financial statements: Securities Available for Sale & Equity SecuritiesDebt securities available for sale and equity securities are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted market prices, when available (Level 1). If quoted market prices are not available, fair values are measured utilizing independent valuation techniques of identical or similar securities for which significant assumptions are derived primarily from or corroborated by observable market data (Level 2). If the inputs used to provide the evaluation for certain securities are unobservable and/or there is little, if any, market activity then the security would fall to the lowest level of the hierarchy (Level 3). The Companyâ€™s investment portfolio is valued using fair value measurements that are considered to be Level 1 or Level 2 but may also use Level 3 measurements if required by the composition of the portfolio. The Bank has contracted with a securities portfolio accounting service provider for valuation of its securities portfolio. Most security types are priced using the securities accounting providerâ€™s internally developed pricing software which appraises securities from an online real-time database. Subscription pricing services such as ICE Data Services and Bloomberg Valuation Services may be used to supplement the internal pricing system for security types where the underlying collateral, cash flow projections or trade data is not readily available. If Level 1 or Level 2 inputs are not available, the software may rely upon a discounted cash flow analysis based on the net present value of a securityâ€™s projected cash flow to arrive at fair market value. Valuations for direct obligations of the U.S. Treasury, exchange listed stock and preferred stock are obtained from on-line real-time databases. 28Table of ContentsNotes to Unaudited Consolidated Financial Statements The securities accounting service provider utilizes proprietary valuation matrices for valuing all municipal securities. The initial curves for determining the price, movement, and yield relationships within the municipal matrices are derived from industry benchmark curves or sourced from a municipal trading desk. The securities are further broken down according to issuer, credit support, state of issuance and rating to incorporate additional spreads to the industry benchmark curves. Adjustments to the fair value of these assets usually result from the application of lower-of-cost-or-market accounting or write-downs of individual assets. Collateral Dependent LoansIndividually evaluated loans are analyzed to determine whether they are collateral dependent. Any individually evaluated loans, which are deemed to be collateral dependent, with an allocation to the ACL are measured at fair value on a non-recurring basis. Any fair value adjustments are recorded in the period incurred as provision for credit losses on the consolidated statements of income. The measurement of loss associated with collateral dependent loans can be based on either the observable market price of the loan or fair value of the collateral. Fair value is measured based on the value of the collateral securing the loans. Collateral may be in the form of real estate or business assets including equipment, inventory, and accounts receivable. The vast majority of the collateral is real estate. The value of real estate collateral is determined utilizing a market valuation approach based on an appraisal conducted by an independent, licensed appraiser outside of the Company using observable market data (Level 2). However, if the collateral is a house or building in the process of construction or if an appraisal of the real estate property using an income approach or is over two years old, then the fair value is considered Level 3. The value of business equipment is based upon an outside appraisal if deemed significant, or the net book value on the applicable businessâ€™s financial statements if not considered significant using observable market data. Likewise, values for inventory and accounts receivables collateral are based on financial statement balances or aging reports (Level 3). Any fair 29Table of ContentsNotes to Unaudited Consolidated Financial Statements value adjustments are recorded in the period incurred as a provision for loan credit losses on the consolidated statements of income. There were no collateral dependent loans with a recorded reserve as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. Other Real Estate OwnedOther real estate owned (â€œOREOâ€) is measured at fair value less costs to sell. Valuation of OREO is determined using current appraisals from independent parties, a Level 2 input. If current appraisals cannot be obtained, or if declines in value are identified after a recent appraisal is received, appraisal values may be discounted, resulting in a Level 3 estimate. If the Company markets the property with a realtor, estimated selling costs reduce the fair value, resulting in a valuation based on Level 3 inputs. Fair value adjustments are recorded in the period incurred and expensed against current earnings. The Bank held no OREO at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. Loans Held for SaleLoans held for sale are carried at the lower of cost or fair value. These loans currently consist of 1-4 family residential loans originated for sale in the secondary market. Fair value is based on the price secondary markets are currently offering for similar loans using observable market data which is not materially different than cost due to the short duration between origination and sale (Level 2). As such, the Company records any fair value adjustments on a nonrecurring basis. No nonrecurring fair value adjustments were recorded on loans held for sale at SeptemberÂ 30, 2024 or DecemberÂ 31, 2023. There were no assets measured at fair value on a nonrecurring basis at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. We strive to maintain high liquidity and low loan-to-deposit ratios. Higher rates generally increase our net interest income because of our high levels of liquid interest-earning assets and low levels of interest-bearing deposits and borrowings. Conversely, if short-term interest rates fall, our net interest income would likely decrease due to our high levels of cash. The Federal Reserve began reducing its target federal funds rate in September 2024, and as short-term rates decline, our net interest income will be adversely affected. This relationship between our revenue and the yield curve may differ from that of banks that have lower levels of cash and liquidity and higher loan-to-deposit ratios. Political organizations and federal election cycles: We provide deposit services to a wide range of political organizations, including political committees registered with the Federal Election Commission (â€œFECâ€), such as campaign committees, party committees, and PACs and Super PACs, and other tax-exempt 527 organizations. These accounts are often associated with firms that provide treasury, legal or regulatory compliance services to political organizations. We estimate that at least a majority of our deposits were sourced from political organizations as of September 30, 2024. 4 All earnings are attributed to Class B shares because no Class A shares were outstanding during the periods presented. 36Table of ContentsFederal election cycles significantly affect our deposit levels. These cycles also impact revenue-generating activities, such as wire transfers, payments, check processing, debit card usage, and treasury management services. Historically, in the quarters leading up to federal elections, especially presidential elections, our deposits, net interest income, and noninterest income generally increase. In the quarters during and after a federal election, we usually experience an outflow of our political organization deposits, causing our balance sheet and revenue to decline until clients resume fundraising for the next election cycle. As of September 30, 2024, the Bank experienced elevated deposit levels ahead of the November 2024 presidential election, consistent with patterns observed in previous election cycles. Between October 1, 2024, and November 12, 2024, deposits from political organizations declined. The Bank expects deposit outflows to continue through the end of the fourth quarter of 2024 and into early 2025. The deposit outflows observed between October 1, 2024, and November 12, 2024, occurred at levels consistent with patterns we have experienced during prior federal election cycles. See Note 5â€”Deposits in the Notes to Unaudited Consolidated Financial Statements contained within this Form 10-Q. However, future deposit levels and the timing of deposit fluctuations are difficult to predict and may differ from historical patterns. Our political organization clients are overwhelmingly affiliated with the Republican Party, and, as a result of the November 2024 federal elections, our clientsâ€™ post-election fundraising activities and deposit trajectories may be impacted. While we have previously provided banking services to certain key political organizations during election cycles, there is no assurance that we will be selected to provide such services in the future. Changes in deposit levels could materially impact our financial condition and results of operations, as discussed in the â€œRisk Factorsâ€ section in our Prospectus. To mitigate the risks associated with deposit seasonality, we aim to maintain a relatively high level of cash reserve deposits at the Federal Reserve. Lending approach: Our lending policies are designed to manage credit risk. We seek borrowers with a strong capacity to repay, who have good financial habits, are generally debt averse, and prefer to repay loans quickly. We aim to mitigate credit risk on commercial loans with appropriate structuring, reasonably margined collateral, personal guarantees, a primary deposit relationship, and sometimes compensating balances. Our lending policies typically attract borrowers who may qualify for lower borrowing rates, which may result in lower yields for us. Economic conditions: General economic conditions, including conditions in the Washington, D.C. metropolitan area, and government spending influence our deposit levels and earnings. As of September 30, 2024, we estimate that at least a majority of our deposit balances were sourced from political organizations, which we believe makes us less dependent on the broader economy. However, if the economy worsens, some political donors may contribute less, negatively impacting our deposit levels and income. In addition, a national or regional recession could increase the risk of loan defaults and negatively affect our municipal and corporate bonds, potentially leading to defaults. In particular, significant changes in government spending, particularly federal budget cuts, could adversely affect the Washington, D.C. metropolitan area economy and, consequently, our loan performance and deposit levels. Such changes may also impact the value of our investment securities portfolio, which includes U.S. government, municipal, and corporate bonds. Finally, rising inflation can increase our operational costs, including labor and technology expenses, while also potentially diminishing the purchasing power of our clients, further impacting our deposit and loan levels. Monetary Policy: We rely on the Federal Reserveâ€™s payment of interest on reserve balances as a source of interest income. The rate of interest on reserve balances is determined by the Federal Reserve. The Federal Reserve has historically adjusted its interest on reserves rate in conjunction with the federal funds rate. Because this rate affects other money market yields, it can have a significant impact on our interest income. We are most exposed to monetary policy during federal election years such as in 2024 when campaign-related deposits rise and we match those liabilities with short-term assets such as Federal Reserve cash balances, which reprice immediately, and Treasury bills. Although higher interest rates decrease the value of our investment securities portfolio, they increase our interest income. While we have recently benefited from high short-term rates, the Federal Reserve began reducing its target federal funds rate in 2024. To the extent short-term rates decline, our net interest income will be adversely affected. The Federal Reserve has additional monetary tools that can impact our interest income through changes in rates, such as the overnight reverse repo rate and open market operations. Regulatory and Supervisory Environment: We incur significant costs due to our regulation and supervision by the federal government. As a bank holding company, we are subject to comprehensive supervision and regulatory oversight by the Federal Reserve. The Bankâ€™s primary regulator and supervisor is the OCC, which through regular examinations oversees our operations, risk management, compliance, and corporate governance. The Bank is also subject to FDIC secondary regulatory oversight that focuses on insurance standards, risk management practices, and overall regulatory compliance. We pay assessments to the FDIC and the OCC for their insurance and supervision. In addition, we manage our balance sheet to meet regulatory standards, such as capital ratio requirements. Failure to meet these standards may result in corrective actions, restrictions, and increased scrutiny from federal regulators. By adhering to these requirements, we aim to maintain our financial health and strengthen our market position. See â€œSupervision and Regulation.â€ 37Table of ContentsUninsured Deposits: Most of our deposits come from commercial clients rather than retail clients, resulting in a relatively high level of account balances exceeding the FDIC coverage limits. As of September 30, 2024, we estimate that approximately 81.4% of our total deposits were not insured by the FDIC. To manage the associated risks, we aim to maintain high levels of liquidity, asset quality, and financial strength. For clients with uninsured balances, we offer access to additional FDIC insurance coverage by placing their deposits in increments within the insurance limits at other banks through the ICSÂ® network. We typically earn fee income from ICSÂ® for deposits that are placed at other banks as One-Way SellÂ® deposits, or we earn interest income when we choose to receive reciprocal deposits through ICSÂ®. Using the ICSÂ® program helps us to manage the size of our balance sheet. See â€œâ€ Financial Condition â€ Depositsâ€ below. Public Company Costs: In preparation for, and following the completion of, our IPO, we have incurred, and expect to continue to incur, additional costs associated with operating as a public company. We expect that these costs will include additional personnel, legal, consulting, regulatory, insurance, accounting, investor relations and other expenses that we did not incur as a private company. The Sarbanes-Oxley Act, as well as rules adopted by the SEC and national securities exchanges, requires public companies to implement specified corporate governance practices that are now applicable to us as a public company. These additional rules and regulations will increase our legal, regulatory and financial compliance costs and will make some activities more time consuming and costly. Primary Factors Used to Evaluate Our Business The most significant factors we use to evaluate our business and results of operations are net income, return on average equity, return on average assets and return on average risk-weighted assets. We also use net interest income, noninterest income and noninterest expense. Net Income. Our net income depends substantially on net interest income, which is the difference between interest earned on interest-earning assets (usually interest-bearing cash, investment securities and loans) and the interest expense incurred in connection with interest-bearing liabilities (usually interest-bearing deposits and borrowings). Our net income also depends on noninterest income, which is income generated other than by our interest-earning assets. Other factors that influence our net income include our provisions for credit losses, income taxes, and noninterest expenses, which include our fixed and variable overhead costs and other miscellaneous operating expenses. Return on Average Equity. We use return on average equity to assess our effectiveness in utilizing stockholdersâ€™ equity to generate net income. In determining return on average equity for a given period, net income is divided by the average stockholdersâ€™ equity for that period. Return on Average Assets. We monitor return on average assets to measure our operating performance and to determine how efficiently our assets are being used to generate net income. In determining return on average assets for a given period, net income is divided by the average total assets for that period. Return on Average Risk-Weighted Assets. We use return on average risk-weighted assets to measure how efficiently our assets are being used to generate net income on a risk-adjusted basis. Return on average risk-weighted assets is calculated as annualized net income divided by the average of quarter end risk-weighted assets over the period observed.Net Interest Income. Net interest income, representing interest income less interest expense, is the largest component of our net income. The level of net interest income is primarily a function of the average balance of interest-earning assets, the average balance of interest-bearing liabilities and the spread between the realized yield on such assets and the cost of such liabilities. Net interest income is impacted by the relative mix of interest-earning assets and interest-bearing liabilities and movements in market interest rates. Net interest income and net interest margin in any one period can be significantly affected by a variety of factors, including the mix and overall size of our earning assets portfolio and the cost of funding those assets. Management calculates the cost of funds performance indicator to monitor funding costs. Cost of funds is calculated as total interest expense divided by the sum of average total interest-bearing liabilities and average demand deposits. Noninterest Income. Noninterest income consists primarily of service charge income earned from deposit placement services, service charges on accounts, revenue from trust and wealth management services, gains on sale of mortgage loans, net gains or losses on sales of securities and other income. The Company records as noninterest income deposit placement services income for One-Way SellÂ® deposits which are sold into the ICSÂ® network. See â€œâ€ Financial Condition 38Table of Contentsâ€ Depositsâ€ for more information on these deposits. Service charges on deposit accounts include fees earned from monthly service charges, account analysis charges and interchange fee income. It also includes fees charged for transaction activities such as wire transfers, cash letters and overdrafts. Trust and wealth management income represents monthly service charges due from clients for managing and administering clientsâ€™ assets. Services include investment management and advisory services, custody of assets, trust services, and financial planning. Other income primarily relates to rental income and other minor items. Noninterest Expense. Noninterest expense relates to fixed and variable overhead costs, the largest component of which is personnel expenses, including salaries and employee benefits. Certain expenses tend to vary based on the volume of activity and other factors, including data processing and communication expenses, occupancy, equipment expense, regulatory assessments and fees, marketing and business development costs, insurance expenses and other operating expenses. Data processing and communication expenses primarily relate to expenses paid to third party providers of core processing, cloud computing and cybersecurity, a substantial component of which is paid to a core technology provider we rely on for the banking software used by our clients and back office functions. Professional services expenses include internal and external audit, legal, loan review, compliance audit and compliance monitoring fees. Occupancy and equipment expenses include depreciation for buildings and improvements, fixtures and furniture, equipment, and technology related items as well as building related expenses such as utilities and maintenance costs. The Commonwealth of Virginia levies a capital-based franchise tax on banks operating within the state, replacing the state income tax. FDIC and regulatory assessments represent costs incurred to cover quarterly or semi-annual payments to the FDIC or OCC for their insurance or supervision. FDIC assessments are based on a complicated matrix of factors to form an assessment rate, which is then applied to a base of quarterly average assets less quarterly tangible equity. Directorsâ€™ fees represent fees paid to our directors for board or committee meetings. Marketing and business development costs include sponsorships, membership dues, as well as marketing and advertising costs, which are subject to normal variability based on the volume and cost of sponsorship and business development activities. Insurance expenses include costs for coverage of fidelity bond, professional liability, property and casualty, workers compensation and cyber liability policies. Other operating costs include other operating and administrative costs such as other vendor and employee costs, postage and printing, office supplies, and subscriptions. As discussed above, we expect our noninterest expenses to increase as a result of the additional costs associated with being a public company. Primary Factors Used to Evaluate Our Financial Condition The most significant factors we use to evaluate and manage our financial condition include liquidity, asset quality and capital. Liquidity. Maintaining an adequate level of liquidity depends on our ability to efficiently meet both expected and unexpected cash flows and collateral needs without adversely affecting our daily operations or the financial condition of the Bank. Because transaction account deposits form a primary source of our funding, and generally can be withdrawn on demand, managing our liquidity is a top priority. Our account at the Federal Reserve, which held $627.0 million as of September 30, 2024, is a primary source of our liquidity for daily and ongoing activities. Asset Quality. We monitor the quality of our assets based upon several factors, including the level and severity of deterioration in borrower cash flows and asset quality. We aim to adjust the allowance for credit losses to reflect loan volumes, identified credit and collateral conditions, economic conditions and other qualitative factors. Capital. We manage capital to comply with our internal planning targets and regulatory capital standards. We monitor capital levels on an ongoing basis, perform periodic evaluations under stress scenarios and project capital levels in connection with our strategic goals to ensure appropriate capital levels. We evaluate a number of capital ratios, including Tier 1 capital to total quarterly average assets (the leverage ratio) and total Tier 1 capital to risk weighted assets. Critical Accounting Policies and Estimates We prepare our consolidated financial statements according to generally accepted accounting principles in the United States (â€œGAAPâ€). Preparing these statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities on the balance sheet and the reported amounts of revenues and expenses during 39Table of Contentsthe reporting period. We believe that the estimates most susceptible to significant change in the near term relate to determining the allowance for credit losses on loans and held-to-maturity securities. Our significant accounting policies and the effects of new accounting pronouncements are detailed in Note 1, â€œOrganization and Summary of Significant Accounting Policies,â€ to our consolidated financial statements and the notes thereto included elsewhere in this Quarterly Report on Form 10-Q and our Prospectus. For the three months ended September 30, 2024, our net income increased by $4.6 million compared to the three months ended September 30, 2023, primarily due to a $6.5 million, or 89.9%, increase in net interest income. Earnings also benefited from a $1.9 million increase in noninterest income, derived primarily from fee income earned from One-Way SellÂ® deposit accounts. An increase of $2.6 million in noninterest expense, driven most notably by increases in employment and professional services costs, partially offset these positive earnings components. For the nine months ended September 30, 2024, our net income increased by $11.7 million compared to the nine months ended September 30, 2023, primarily due to a $13.0 million, or 65.3%, increase in net interest income. Earnings also benefited from a $5.4 million increase in noninterest income,

derived primarily from fee income earned from One-Way SellÂ® deposit accounts, and a $1.1 million reduction of the credit loss provision, primarily resulting from the partial recovery of a bond in the first quarter of 2024 that was charged off during the first quarter of 2023, and a recapture of the provision for bond credit losses as shorter maturity periods result in a lower credit risk rating. An increase of $4.7 million in noninterest expense, driven most notably by increases in employment and professional services costs associated with the stock Reclassification, partially offset these positive earnings components.40Table of ContentsNet Interest Income Analysis Our operating results depend primarily on our net interest income, which is calculated as the difference between interest income on interest-earning assets and interest expense on interest-bearing liabilities. Interest and dividend income consists of interest and fees on loans, interest and dividends on taxable and tax-exempt securities, and interest on interest-bearing deposits in banks. Interest expense consists of interest we pay on deposits and short-term borrowings. Volume and rate changes are allocated on a consistent basis using the respective percentage changes in average balances and average rates. This increase was primarily due to cyclical inflows of deposits from political organizations ahead of the 2024 federal elections, which started building in the second half of 2023 and were invested in interest-earning assets, such as reserves at the Federal Reserve. As a result, our net interest margin increased to 3.73% for the three months ended September 30, 2024, from 2.78% for the three months ended September 30, 2023. For the nine months ended September 30, 2024, our net interest income increased by $13.0 million, or 65.3%, compared to the nine months ended September 30, 2023, primarily driven by a $285.0 million increase in the average volume of interest-bearing deposits in other banks, principally at the Federal Reserve. This increase was primarily due to cyclical inflows of deposits from political organizations ahead of the 2024 federal elections, which started building in the second half of 2023 and were invested in interest-earning assets, such as reserves at the Federal Reserve. As a result, our net interest margin increased to 3.47% for the nine months ended September 30, 2024, from 2.64% for the nine months ended September 30, 2023. Interest Income Interest and fees on loans. Loan interest income is comprised of fixed and adjustable-rate structures related to residential and commercial real estate loan products, commercial loans and other consumer loan products. Deferred loan origination fees, net of deferred loan origination costs, accrete to the loanâ€™s yield over the life of the loan. For the three months ended September 30, 2024, our interest and fees on loans increased 0.8% to $3.4 million compared to the three months ended September 30, 2023 primarily driven by a 0.2% increase in average yield which was offset by a reduction of the average total loan balance of $11.4 million. The Company has strategically allowed a decline in the commercial real estate portfolio. Rising interest rates have increased the cost of borrowing and remote work trends continue to be a concern 44Table of Contentsfor this portfolio. These factors negatively impact the value of commercial properties, making commercial real estate loans less attractive. For the nine months ended September 30, 2024, our interest and fees on loans decreased 0.1% to $10.1 million compared to the nine months ended September 30, 2023 primarily driven by a 0.2% increase in average yield which was offset by a reduction of the average total loan balance of $14.5 million. The months following a general election, including the first nine months of 2023, often see elevated commercial and industrial loan balances, as political organizations typically utilize their lines of credit around election periods and may replay these balances over the subsequent six to twelve months, or as cash flows allow. In addition, rising interest rates caused a reduction in demand for consumer loans during the time between interim periods, and management has strategically allowed a decline in the commercial real estate portfolio. Rising interest rates have increased the cost of borrowing and remote work trends continue to be a concern for this portfolio. These factors negatively impact the value of commercial properties, making commercial real estate loans less attractive.See â€œâ€” Financial Condition â€” Loan Portfolioâ€ below for an analysis of the composition of our loan portfolio. Interest and dividends on securities, taxable. For the three months ended September 30, 2024, our interest and dividends on taxable securities increased 30.4% to $3.6 million from $2.7 million for the three months ended September 30, 2023. The average balance for all taxable securities increased $27.1 million when comparing the periods, and the yield improved 0.50%. As portions of maturing bonds have been reinvested, we have observed a steady increase in the average yield for the taxable securities portfolio. In addition to actively reinvesting maturing bonds during the second half of 2024, the Company invested funds from temporarily elevated deposit levels in short term U.S. Treasury bonds that will mature during the fourth quarter of 2024, which is intended to align with the timing of expected deposit outflows following the 2024 federal elections. For the nine months ended September 30, 2024, our interest and dividends on taxable securities increased 11.4% to $9.3 million from $8.4 million for the nine months ended September 30, 2023. The average balance for all taxable securities decreased $8.0 million when comparing the periods, although the decline was fully offset by a 0.27% increase in yield. As portions of maturing bonds have been reinvested, we have observed a steady increase in the average yield for the taxable securities portfolio. Interest on securities, tax-exempt. For the three months ended September 30, 2024, our interest on tax-exempt securities decreased 6.6% from the prior period due primarily to a $3.8 million decline in the average balance of tax-exempt securities. For the nine months ended September 30, 2024, our interest on tax-exempt securities decreased 6.0% from the prior period due primarily to a $3.7 million decline in the average balance of tax-exempt securities. In recent years, the attainable yields for any new investment in this segment and the investment landscape have left tax-exempt securities less attractive than their taxable counterparts. Accordingly, as tax-exempt securities have matured, those proceeds have been invested into taxable municipal securities. See â€œâ€” Financial Condition â€” Securitiesâ€ below for an analysis of the composition of the securities portfolio, including taxable and tax-exempt securities. Interest on interest-bearing deposits in banks. Chain Bridge earns interest for accounts held at certain correspondent banks, which are primarily reserves held at the Federal Reserve. The Federal Reserve has historically adjusted its interest on reserves rate in conjunction with the federal funds rate. The interest rate paid by the Federal Reserve on reserve balances increased from 5.15% to 5.40% on July 27, 2023 and decreased from 5.40% to 4.90% on September 29, 2024. For the three months ended September 30, 2024, our interest on interest-bearing deposits in banks increased by $5.7 million compared to the prior period, primarily driven by a $417.5 million increase in average balances. For the nine months ended September 30, 2024, our interest on interest-bearing deposits in banks increased by $11.9 million compared to the prior period, primarily driven by a $285.0 million increase in average balances, in addition to a 0.33% increase in the average yield for the period. Interest Expense Interest on deposits. The Bank pays a variable interest rate to depositors for their non-maturing savings, interest-bearing checking, and money market accounts. In addition, the Bank issues time deposits that pay a fixed rate of interest until the instrument matures. For the three months ended September 30, 2024, our interest expense on deposits decreased 5.6% compared to the prior period. The decrease was primarily driven by a $64.7 million decrease in average interest-bearing deposit balances, partially offset by a 0.27% increase in the average rate. For the nine months ended September 30, 45Table of Contents2024, our interest expense on deposits decreased 13.6% compared to the prior period. The decrease was primarily driven by a $75.0 million decrease in average interest-bearing deposit balances, partially offset by a 0.16% increase in the average rate. As of September 30, 2024 and December 31, 2023, approximately 87.2% and 69.0%, respectively, of our deposits were noninterest bearing. See â€œâ€” Financial Condition â€” Depositsâ€ for an analysis of the composition of the deposits portfolio, including its interest-bearing and noninterest-bearing components. Interest on short-term borrowings. As of September 30, 2024, the Company had an outstanding balance of $10.0 million on its $10.0 million unsecured line of credit with a correspondent bank. The interest rate applicable to advances under this unsecured line of credit is determined by the reference rate the Company elects to have applied to the advance, which may be the correspondent bankâ€™s base rate, the daily Secured Overnight Financing Rate (â€œSOFRâ€) or a term SOFR rate, plus a credit spread adjustment. This line of credit is held by the Company, not the Bank. On October 10, 2024, the Company used a portion of the net proceeds from the IPO to fully repay the $10.0 million outstanding principal balance on this line of credit and closed the line on October 11, 2024. Substantially all interest on short-term borrowings is related to this line of credit. The Bank currently has no borrowings, and there are no outstanding draws on its lines of credit with the FHLB, the Federal Reserve, or other third-party institutions. For the three months ended September 30, 2024, interest on short-term borrowings increased by 117.7% compared to the prior period, primarily due to a $5.0 million increase in the average outstanding balance as well as an increase in the average rate from 7.62% to 8.31%. For the nine months ended September 30, 2024, interest on short-term borrowings increased by 44.0% compared to the prior period, due to a $1.5 million increase in the average outstanding balance as well as an increase in the average rate from 7.27% to 8.09%. Provision for Credit Losses The allowance for credit losses (â€œACLâ€) represents an amount which, in managementâ€™s judgment, is adequate to absorb the lifetime expected credit losses that may be sustained on outstanding loans and investments at the balance sheet date. The provision for credit losses represents the amount of expense charged to current earnings to fund an increase in the ACL. Conversely, a recapture of credit loss is recorded to earnings when the ACL is reduced. Our provisions for or recaptures of credit losses arising from within the loan and securities portfolios were as follows: For the three months ended September 30,For the nine months ended September 30,(dollars in thousands)20242023$Change%Change20242023$Change%ChangeProvision for (recapture of) credit lossesProvision for (recapture of) loan credit losses$(131)$1Â $(132)NM$(113)$(82)$(31)37.8Â %Provision for (recapture of) securities credit losses13Â 6Â 7Â 116.7Â %(297)804Â (1,101)NMTotal provision for (recapture of) credit losses$(118)$7Â $(125)(1785.7Â %)$(410)$722Â $(1,132)(156.8Â %)_____NM â€” Comparisons from positive to negative values or to zero values are considered not meaningful. For the three months ended September 30, 2024, our provision for credit losses consisted of a net recapture of $118 thousand, primarily attributable to the reduction in our loan portfolio, compared to a net provision of $7 thousand for the three months ended September 30, 2023. For the nine months ended September 30, 2024, our provision for credit losses consisted of a net recapture of $410 thousand, compared to a net provision of $722 thousand for the nine months ended September 30, 2023. During the nine months ended September 30, 2024, we received proceeds totaling $210 thousand for a bond we wrote off in its entirety during the nine months ended September 30, 2023 related to a single corporate issuer whose business was ultimately closed by a regulatory authority. In addition, we recaptured provisions totaling $297 thousand because the shortening time to maturity of our held to maturity securities portfolio resulted in a lower required reserve in accordance with our ACL 46Table of Contentsmethodology, compared to the $804 thousand provision for securities credit losses recorded for the nine months ended September 30, 2023 which pertains to a single corporate bond discussed above. Noninterest Income Noninterest income consists of deposit placement services income, service charges on deposit accounts, trust and wealth management income, gains on sale of mortgage loans, net gains or losses on sales of securities and other income. For the three months ended September 30, 2024, our noninterest income increased by $1.9 million, or 152.3%, to $3.1 million compared to the three months ended September 30, 2023 primarily driven by an increase in deposit placement services income, which is fee income we earn on One-Way SellÂ® deposits sold through the ICSÂ® network. For the nine months ended September 30, 2024, our noninterest income increased by $5.4 million, or 279.1%, to 7.4 million compared to the prior period primarily driven by an increase in fee income on One-Way SellÂ® deposits sold through the ICSÂ® network, and partially offset by a loss on the sale of corporate bonds. Deposit placement services income. For the three months ended September 30, 2024, our deposit placement services income increased by $1.6 million compared to the three months ended September 30, 2023 on account of higher One-Way SellÂ® deposit balances. As of September 30, 2024 and September 30, 2023, One-Way SellÂ® deposits totaled $432.3 million and $106.3 million, respectively. For the three months ended September 30, 2024 and September 30, 2023, our average One-Way SellÂ® deposits were $491.3 million and $178.1 million, respectively. For the nine months ended September 30, 2024, our deposit placement services income increased by $4.5 million to $5.6 million compared to the nine months ended September

30, 2023. During both comparative periods, the increase in deposit placement services income is a direct result of the increase in the volume of One-Way SellÂ® deposits, and changes in the rate paid by ICSÂ® for those deposits which typically adjust in a manner parallel to federal funds rate adjustments. Accounts enrolled in the ICSÂ® network are further discussed under â€œâ€” Financial Condition â€” Depositsâ€ below. Service charges on accounts. For the three months ended September 30, 2024, our service charges on accounts increased by $149 thousand, or 65.6%, compared to the three months ended September 30, 2023 primarily driven by higher transaction volume, particularly among check processing, wire transfers and debit card usage. Our fee income is typically higher during the fiscal quarters prior to and during the general election as political organization deposit account activity causes an increase in bank transactions. For the nine months ended September 30, 2024, our service charges on accounts increased 54.8% compared to the nine months ended September 30, 2023 also due to the higher transaction volume associated with an election year. Trust and wealth management income. For the three and nine months ended September 30, 2024, our trust and wealth management income increased by 63.1% and 64.4%, respectively, compared to the corresponding periods in the prior year. These increases were primarily due to a rise in the volume of total assets under administration, which grew to $384.0 million at September 30, 2024 from $185.8 million at September 30, 2023. The size and mix of the assets under administration drove the income growth. Assets under management, which produce a higher rate of income under our fee structure, increased 56.9% from September 30, 2023, while assets under custody increased 137.3% over the same period. 47Table of ContentsOur trust and wealth management services utilize service charge structures for assets under management (â€œAUMâ€) and assets under custody (â€œAUCâ€) that are distinct with respect to the level and range of services used. Service charges for AUM are calculated as a percentage of the assets managed, with the rate varying based on the type of service provided, such as investment management or fiduciary services, and tiered based on the value of the assets under management. These service charges are not performance-based. Service charges for AUC are also tiered based on the value of the assets under custody, and are generally lower than the service charges for AUM, reflecting the more limited services provided, such as safekeeping and administrative functions. The service charges we collect for AUM are subject to fluctuations in the total value of assets managed, which can vary with changes in market conditions, including stock prices and bond yields. Therefore, any significant market volatility or changes in interest rates could impact the valuation of the assets we manage, thereby affecting the service fees we collect. The growth in AUC during the periods was largely driven by clients seeking higher interest rates. A material decline in interest rates could result in a reduction of custody balances, negatively impacting our revenue from these accounts. Additionally, a substantial portion of our custody account balances are related to political organizations, which are seasonal and are expected to decline following periods of high spending around federal elections. Gain on sale of mortgage loans. For the three and nine months ended September 30, 2024, the gain on sale of mortgages increased by $13 thousand and $25 thousand compared to the three and nine months ended September 30, 2023, which had no gains from sales of mortgage loans because there was no sales activity during the 2023 period. Loss on sale of securities. Because Chain Bridge historically has not actively engaged in bond sales, gains and losses from sales of securities are irregular. For the three months ended September 30, 2024, we incurred $65 thousand in losses on sales of securities compared to a $30 thousand loss for the three months ended September 30, 2023. For the nine months ended September 30, 2024, our loss on sale of securities was $65 thousand, compared to a $312 thousand loss for the nine months ended September 31, 2023. Sales for all periods in 2024 and 2023 were a result of decisions to divest of specific corporate issuers. Noninterest Expense Noninterest expense consists of salaries and employee benefits, data processing and communication expenses, professional services, occupancy and equipment expenses, Virginia bank franchise tax, FDIC and regulatory assessments, directorsâ€™ fees, marketing and business development costs, insurance expenses, and other operating expenses.Three Months Ended September 30,Nine Months Ended September 30,(dollars in thousands)20242023$Change%Change20242023$Change%ChangeNoninterest expensesSalaries and employee benefits$4,280Â $3,116Â $1,164Â 37.4Â %$11,553Â $9,237Â $2,316Â 25.1Â %Professional services1,206Â 207Â 999Â 482.6Â %2,154Â 623Â 1,531Â 245.7Â %Data processing and communication expenses669Â 570Â 99Â 17.4Â %1,928Â 1,683Â 245Â 14.6Â %Virginia bank franchise tax253Â 188Â 65Â 34.6Â %604Â 695Â (91)(13.1Â %)Occupancy and equipment expenses236Â 232Â 4Â 1.7Â %748Â 564Â 184Â 32.6Â %FDIC and regulatory assessments212Â 159Â 53Â 33.3Â %560Â 443Â 117Â 26.4Â %Directors fees191Â 100Â 91Â 91.0Â %523Â 286Â 237Â 82.9Â %Insurance expenses61Â 54Â 7Â 13.0Â 181Â 166Â 15Â 9.0Â %Marketing and business development costs47Â 48Â (1)(2.1Â %)169Â 170Â (1)(0.6Â %)Other operating expenses277Â 207Â 70Â 33.8Â %758Â 574Â 184Â 32.1Â %Total noninterest expenses$7,432Â $4,881Â $2,551Â 52.3Â %$19,178Â $14,441Â $4,737Â 32.8Â %For the three months ended September 30, 2024, our noninterest expense increased by $2.6 million, or 52.3%, compared to the three months ended September 30, 2023, primarily driven by increases in salaries and employee benefits and professional service expenses. For the nine months ended September 30, 2024, our noninterest expense increased by 48Table of Contents$4.7 million, or 32.8%, compared to the prior year, primarily driven by increases in salaries and employee benefits costs, as well as an increase in professional services costs related to the process of becoming a public company and costs associated with the Reclassification. Salaries and employee benefits. For the three months ended September 30, 2024, our salaries and employee benefits increased by $1.2 million, or 37.4%, compared to the three months ended September 30, 2023, resulting from higher headcount and salary increases. During the nine months ended September 30, 2024, our salaries and employee benefits increased $2.3 million, or 25.1%, compared to the corresponding period in the prior year driven by salary increases and higher employee benefits plan costs. Deferred loan origination costs have the effect of reducing salaries expense during the period when a loan is originated. When loan origination volume declines, so too does the amount of deferred loan origination costs. Professional services. For the three months ended September 30, 2024, our professional services expense increased $999 thousand, or 482.6%, compared to the three months ended September 30, 2023, primarily driven by legal and consulting expenses incurred in connection with the Reclassification and public company readiness. For similar reasons, our professional services expense for the nine months ended September 30, 2024 increased $1.5 million, or 245.7%. Data processing and communication expenses. For the three months ended September 30, 2024, our data processing and communication expenses increased $99 thousand, or 17.4%, compared to the three months ended September 30, 2023, driven by higher data processing expenses charged by our core provider, the installation of a new financial reporting tool, and increased costs associated with enhanced information technology (â€œITâ€) functionality. For the nine months ended September 30, 2024, our data processing and communication expenses increased $245 thousand, or 14.6%, compared to the nine months ended September 30, 2023, primarily driven by increased data processing fees charged by our core provider arising from periodic rate increases and purchases of new products, increased cloud computing and cybersecurity costs incurred with our IT-managed services provider, and an increase in core processing expenses incurred by the Trust & Wealth Department on account of growth in managed assets and custody accounts. Virginia bank franchise tax. For the three months ended September 30, 2024, our Virginia bank franchise tax increased $65 thousand, or 34.6%, compared to the three months ended September 30, 2023. Our Virginia bank franchise tax decreased 13.1% for the nine months ended September 30, 2024, compared to the corresponding period in the prior year. The franchise tax expense is based on estimated accruals throughout the year, and the Bank's adjusted capital serves as the basis for tax to be paid. Changes to capital expectations, total asset at each quarter end, and other factors that offset the taxable base cause the expense to fluctuate slightly throughout a year. Occupancy and equipment expenses. For the three months ended September 30, 2024, our occupancy and equipment expenses remained steady compared to the three months ended September 30, 2023. For the nine months ended September 30, 2024, our occupancy and equipment expenses increased $184 thousand, or 32.6%, compared to the nine months ended September 30, 2023, primarily driven by building maintenance costs. FDIC and regulatory assessments. For the three months ended September 30, 2024, our FDIC and regulatory assessments expense increased $53 thousand, or 33.3%, due to the growth in the Bankâ€™s assets between the comparative periods. For the nine months ended September 30, 2024, our FDIC and regulatory assessments increased $117 thousand, or 26.4%, compared to the nine months ended September 30, 2023, primarily driven by high year-over-year asset growth and a declining leverage ratio compared to 2023, a non-election year. Directorsâ€™ fees. In the three and nine months ended September 30, 2024, our directorsâ€™ fees increased by $91 thousand and $237 thousand, respectively, compared to the three and nine months ended September 30, 2023, primarily driven by an increase in the number of board and committee meetings and training for newly appointed members. Insurance expenses. For the three and nine months ended September 30, 2024, our insurance expenses were relatively unchanged, compared to the three and nine months ended September 30, 2023. Marketing and business development costs. For the three and nine months ended September 30, 2024, our marketing and business development costs were relatively unchanged, compared to the three and nine months ended September 30, 2023.Other operating costs. This segment includes other operating and administrative costs such as other vendor and employee costs, postage and printing, office supplies and subscriptions. None of the components or fluctuations are 49Table of Contentsindividually significant, and the increase in our other operating costs during both periods were driven primarily by increased administrative costs. Income Tax Expense Income tax expense incurred is based upon our pre-tax income adjusted for tax exempt income and temporary deferred tax assets or liabilities. For the three months ended September 30, 2024, our income tax expense was $1.9 million, representing an increase of 184.8%, compared to $676 thousand for the three months ended September 30, 2023. The increase was driven by the increase in pre-tax earnings, which increased 167.5% during the comparable period. For the nine months ended September 30, 2024, our income tax expense was $4.4 million, representing an increase of 255.1%, compared to $1.2 million for the nine months ended September 30, 2023. The increase was driven by the increase in pre-tax earnings, which increased 219.7% during the comparable period.Our effective income tax rate was 20.45% for the three months ended September 30, 2024, an increase of 1.24% from 19.21% for the three months ended September 30, 2023. Our effective income tax rate was 20.35% for the nine months ended September 30, 2024, an increase of 2.03% from 18.32% for the nine months ended September 30, 2023. During 2024, the effective income tax rate increased compared to the corresponding prior period because pre-tax income increased while tax-exempt income decreased, causing tax-exempt income to comprise a lower proportion of income before taxes. Financial Condition Securities Our securities portfolio is used to provide liquidity, manage risk, meet capital requirements, and generate interest income. Our securities portfolio consists of U.S. government and federal agencies, mortgage backed securities, corporate bonds, and state and municipal securities. Securities that management has the positive intent and ability to hold to maturity are classified as â€œheld to maturityâ€ (â€œHTMâ€) and recorded at amortized cost. Securities not classified as held to maturity or trading are classified as â€œavailable for saleâ€ (â€œAFSâ€) and recorded at fair value, with unrealized gains and losses excluded from earnings and reported in other comprehensive loss. We do not hold trading securities. 50Table of ContentsThe following table summarizes the amortized cost and weighted average yield of securities as of September 30, 2024 by contractual maturities. As of September 30, 2024, our total debt securities were $597.4 million excluding the allowance for credit loss, representing an increase of $30.8 million, or 5.4%, compared to $566.5 million as of December 31, 2023. The increase was primarily driven by investments of excess cash into U.S. government treasuries maturing in the fourth quarter of 2024, as well as a decrease in unrealized losses within the available for sale securities portfolio. U.S. government treasuries. U.S. government treasuries represent debt securities backed by the U.S. Treasury or the full faith and credit of the U.S. government and are guaranteed as to the timely payment of interest and principal when held to maturity. As of September 30, 2024, our U.S. government treasuries increased by $47.0 million, or 24.0%, compared to December 31, 2023. During 2024, we invested a portion of our excess cash reserves in short term U.S. Treasury securities that mature around the federal elections in the fourth quarter of 2024.U.S. federal agencies securities. U.S. federal agencies securities represent obligations issued by U.S. federal government agencies or government-sponsored enterprises that guarantee repayment of principal at maturity. As of September 30, 2024, our U.S. federal agencies securities decreased by $11.0 million, or 52.7%, compared to December 31, 2023. U.S. federal agency bonds were called or matured during 2024, and not replaced with like investments. Mortgage backed securities. Our mortgage backed securities portfolio consists of pass through and agency-issued collateralized mortgage obligations. As of September 30, 2024, our mortgage backed securities decreased by $437 thousand, or 4.4%, compared to December 31, 2023. During the period, mortgage backed securities represented less than 2.0% of our securities portfolio. Corporate bonds. Corporate bonds are debt obligations issued by companies to raise capital and refinance obligations of the issuer. As of September 30, 2024, our corporate bonds decreased by $4.1 million, or 3.6%, compared to December 31, 2023, due to maturities within the portfolio which have not been subsequently replaced with similar investments. State and municipal securities. State and municipal securities are debt obligations issued by state and local governments. As of September 30, 2024, our state and municipal securities remained unchanged compared to December 31, 2023 declining by only 0.2%. Allowance for Credit Losses â€” Securities Management measures expected credit losses on HTM debt securities on a collective basis by major security type (U.S. government and federal agencies, agency mortgage backed securities, corporate bonds and state and municipal securities). We estimate expected credit losses based on our historical credit loss information as adjusted for current conditions and reasonable and supportable forecasts. Securities issued by the U.S. Treasury or government agencies are not considered to be credit sensitive as they are explicitly or implicitly guaranteed by the U.S. government, and result in expectations of zero credit loss. Accordingly, managementâ€™s analysis of credit loss considers only the corporate and municipal segments. Accrued interest receivable on HTM debt securities totaled $1.9 million as of September 30, 2024 and as of December 31, 2023 and is excluded from the estimate of credit losses. For AFS debt securities in an unrealized loss position, management first assesses whether it intends to sell, or if it is more likely than not that it will be required to sell, the security before recovery of its amortized cost basis. If either of the 52Table of Contentscriteria regarding intent or requirement to sell is met, the securityâ€™s amortized cost basis is written down to fair value through income. For AFS debt securities that do not meet the aforementioned criteria, management evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, management considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency, and adverse conditions specifically related to the security, among other factors. If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis, a credit loss exists, and an allowance for credit loss is recorded for the credit loss, limited by the amount by which the fair value is less than the amortized cost basis. Any impairment that has not been recorded through an allowance for credit loss is recognized in other comprehensive income (loss). The following table presents an analysis of the allowance for credit losses on securities: Held to Maturity:As of and for the threemonths endedSeptember 30,As of and for the ninemonths endedSeptember 30,(dollars in thousands)20242023202420232023Average HTM debt securities outstanding$305,564Â $311,302Â $307,389Â $311,734Â Total outstanding HTM debt securities at end of each period302,609Â 311,251Â 302,609Â 311,251Â Allowance for credit losses at the beginning of period248Â 342Â 348Â â€”Â Impact of adopting ASC 326â€”Â â€”Â â€”Â 329Â Provision for (recapture of) for credit losses13Â 6Â (87)19Â Total charge-offsâ€”Â â€”Â â€”Â â€”Â Total recoveriesâ€”Â â€”Â â€”Â â€”Â Net (charge-offs) recoveriesâ€”Â â€”Â â€”Â â€”Â Allowance for credit losses at end of period261Â 348Â 261Â 348Â Ratio of allowance to total HTM debt securities outstanding at period end0.09Â %0.11Â %0.09Â %0.11Â %Ratio of nonaccrual HTM securities to total HTM securities outstanding at period

During nine months ended September 30, 2024, we received proceeds totaling $210 thousand for the bond and recorded a recovery of credit loss. A substantial portion of our loan portfolio is primarily represented by residential real estate and commercial real estate loans throughout the Washington, D.C. metropolitan area. The ability of our debtors to honor their contracts is dependent upon a number of factors, including the real estate and general economic conditions in this area. The decrease reflects the strategic reduction in our commercial real estate lending to reduce our exposure to this sector, which was partially offset by growing consumer demand for residential mortgages as interest rates decreased. Residential real estate loans, closed-end. Single family (1-4 units) residential mortgage loans are primarily secured by owner-occupied primary and secondary residences and are â€œclosed-endâ€ mortgage loans, which means that the loan amount is fixed at the outset and repaid over a set term without the ability to re-borrow. As of September 30, 2024, our residential real estate loans increased by $7.8 million, or 3.7%, compared to December 31, 2023 reflecting tempered demand by consumers and a lower prepayment level amid elevated interest rates. 55Table of ContentsCommercial real estate loans. Commercial real estate loans are generally long-term loans secured by a commercial property that is either owner-occupied or investor owned. This category also includes commercial construction loans and multifamily residential property loans. Management has strategically allowed a decline in the commercial real estate portfolio. Rising interest rates have increased the cost of borrowing and remote work trends continue to be a concern. These factors negatively impact the value of commercial properties, making commercial real estate loans less attractive. As of September 30, 2024, our commercial real estate loans decreased by $8.8 million, or 14.6%, compared to December 31, 2023. As of September 30, 2024, our commercial real estate portfolio included owner-occupied and non-owner-occupied commercial real estate loans and were concentrated in certain sectors and in the Washington, D.C. metropolitan area:â€¢Owner-Occupied vs. Non-Owner-Occupied Properties: Our commercial real estate loans include both owner-occupied and non-owner-occupied properties. As of September 30, 2024 and December 31, 2023, we had $15.0 million and $16.2 million, respectively, in owner-occupied loans and $32.7 million and $35.5 million, respectively, in non-owner-occupied loans. Non-owner-occupied properties depend on rental income for repayment. Factors such as market conditions, tenant defaults, and vacancies could reduce cash flow from these properties, leading to increased delinquencies and potential losses.â€¢Sector Concentration: Our commercial real estate loan portfolio is concentrated in the office, retail, multifamily, and hotels sectors. As of September 30, 2024, our non-owner-occupied office loans totaled $6.6 million, retail loans totaled $13.0 million, multifamily loans totaled $4.9 million, and hotel loans totaled $4.0 million. â€¢Geographic Concentration: Our commercial real estate loan portfolio is concentrated in the Washington, D.C. metropolitan area. This exposes us to risks tied to local economic conditions, property market trends, and regulatory changes. See â€œRisk Factors â€” Other Risks Related to Our Business â€” The geographic concentration of our business in the Washington, D.C. metropolitan area makes our business highly susceptible to local economic conditions and reductions or changes in government spending,â€ in our Prospectus.Commercial. Commercial loans are commercial and industrial (C&I) term loans or lines of credit and, due to the participation of political organizations in this segment, exhibit cyclicality when measured as a percentage of our loan portfolio. C&I loans include unsecured or UCC secured lending, accounts receivable, inventory or equipment financing loans or working capital loans. As of September 30, 2024, our commercial loans decreased by $1.3 million, or 10.4%, compared to December 31, 2023. Other consumer loans. Other consumer loans include residential construction loans, revolving loans secured by residential properties, commonly known as home equity lines of credit (â€œHELOCsâ€), and loans made directly to individuals for non-business purposes which may be secured or unsecured. As of September 30, 2024, other consumer loans decreased by $1.8 million, or 8.7%, from December 31, 2023. Renewal of these loans is subject to review and credit approval, as well as modification of terms upon maturity. Actual repayments of the loans may differ from the maturities reflected below because consumer borrowers and some commercial borrowers have the right to prepay obligations with or without prepayment penalties. As of September 30, 2024, variable rate loans, which include floating and adjustable rate structures, comprised 69.4% of our loan portfolio. Our variable rate loans primarily consist of adjustable residential real estate loans with initial fixed-rate periods of three, five, seven or ten years, which, depending on the loan program, reprice every one, three, or five years after the initial fixed-rate period. Variable rate loans provide a better match against our deposit liabilities and reduce our interest rate risk. 56Table of ContentsThe following table details maturities and sensitivity to interest rate changes for our loan portfolio as of September 30, 2024, and the contractual maturity and interest-rate profile of our loan portfolio: At September 30, 2024Remaining Contractual Maturity Held for Investment(dollars in thousands)One year orlessAfter oneyearthrough fiveyearsAfter fiveyears andthroughfifteen yearsAfter fifteenyearsTotalFixed rate loans:Commercial real estate$7Â $18,310Â $23,915Â $â€”Â $42,232Â Commercial103Â 281Â 1,199Â â€”Â 1,583Â Residential real estate, closed-end264Â 1,050Â 36,247Â 7,961Â 45,522Â Other consumer loans469Â 2,049Â â€”Â â€”Â 2,518Â Total fixed rate loans$843Â $21,690Â $61,361Â $7,961Â $91,855Â Variable rate loans:Commercial real estate$â€”Â $2,867Â $5,722Â $566Â $9,155Â Commercial8,761Â â€”Â 500Â 300Â 9,561Â Residential real estate, closed-endâ€”Â 2,179Â 2,726Â 167,702Â 172,607Â Other consumer loans3,046Â 5,316Â 7,153Â 1,339Â 16,854Â Total variable rate loans$11,807Â $10,362Â $16,101Â $169,907Â $208,177Â Total loans$12,650Â $32,052Â $77,462Â $177,868Â $300,032Â Credit Policies and Procedures Management employs a multi-pronged approach to address credit risk, guided by a defined risk appetite. The approach includes underwriting policies, loan risk classification grading, and an internal and external loan review process. In addition, it involves strategic portfolio management to address loan concentration and oversight by our Board. These policies and guidelines are designed with the intention of maintaining the quality of our loan portfolio while aiming to generate a return commensurate with the associated risks. However, it is important to recognize that all risk management strategies have inherent limitations. The commercial underwriting process involves an evaluation of the borrowerâ€™s ability to repay, the quality of the available collateral (if applicable), the financial character of the borrower and the nature of the credit. It also includes an analysis of the borrowerâ€™s needs and an industry analysis to understand relevant external factors that might affect the borrowerâ€™s financial stability and repayment capacity. Commercial borrowers are often asked to maintain their primary banking relationship with the Bank to attract both loans and transaction deposits. Residential mortgage loans and consumer loans are underwritten based on an evaluation of the borrowerâ€™s repayment ability, which typically includes a review of documentation to verify income and assets. Consumers are encouraged to maintain deposit accounts with the Bank, and pricing incentives may be offered. During the underwriting process, loans are assigned a loan risk classification grade. The risk rating scale is intended to provide a framework for analyzing risk across various credit exposures, regardless of their nature, type or location. The internal loan review process, performed by our credit administration staff, aims to verify that basic requirements for loan origination have been met. Ongoing internal loan review processes monitor commercial borrower performance using a risk-based approach, which may result in grade confirmations or change recommendations. Certain scenarios such as delinquent payments, overdue taxes, overdrafts, lack of borrower cooperation, delayed financial statements, or significant changes to the borrowerâ€™s financial position may be considered potential indicators of problem loans. In such cases, the loan risk classification may be re-evaluated.An external loan review is conducted annually by a third-party firm. This review examines a sample of the loan portfolio, focusing on areas such as underwriting practices, adherence to loan policies and banking regulations, loan documentation, watch list, and portfolio concentration. 57Table of ContentsCredit concentration policies are designed to address risk relative to our regulatory capital. Concentration limits are established for various categories including loans to individual borrowers or industries, specific loan types, collateral types, commercial real estate concentrations, and total real estate loans, among others. We have exposures to certain categories of loans that we believe represent relatively higher credit risk, such as commercial real estate loans. To manage our exposures to these loans, our policy is to require low loan-to-value ratios and high debt service coverage ratios, and to conduct borrower credit assessments. To manage our exposure to commercial real estate, we have set specific concentration limits for commercial real estate loans by property type, and our policy is to monitor these limits quarterly. Our risk management practices include annual internal reviews of commercial mortgages with balances over $500 thousand, focusing on early warning signs like payment delinquencies, property performance, and borrower financial condition. We also engage a third party to conduct an external loan review audit of the entire loan portfolio annually. Additionally, we perform quarterly stress tests on our loan portfolio, including the commercial real estate segment, to assess the potential impact of adverse economic conditions. In response to the inherent risks in higher-risk segments like commercial real estate, we may increase our loan loss reserves to mitigate potential losses due to changing market conditions. Asset Quality We seek to maintain a prudent lending approach, which has historically been associated with our asset quality performance. Our loan underwriters employ underwriting guidelines, and we assign a loan risk classification grade at origination. These practices are designed to help us evaluate potential risks throughout the life of the loan. The Bankâ€™s risk classification system utilizes a 10-grade risk-rating scale. The four lowest grade categories (7-10) correspond to the regulatory categories special mention, substandard, doubtful and loss. The risk classification grade is a key component of our risk management process. Certain grades may result in a loan being added to the watch list report, which is a tool used in monitoring loans or commitments that may present elevated risks. This report is overseen by our Chief Credit Officer and presented to the Board monthly. Loan officers are responsible for managing credit risk within their loan portfolios and are encouraged to be proactive in considering whether to add a loan to the watch list report. Management uses internal and external review processes, as described under â€œâ€” Credit Policies and Procedures,â€ to monitor adherence to loan and credit policies, evaluate the loan portfolio, and identify areas that may require additional attention. Non-performing Assets An asset is classified as non-performing when it ceases to yield interest or principal repayments for a specified period, usually 90 days or more. This classification includes loans that are 90 days or more past due on scheduled payments, or assets where full repayment of principal and interest is in doubt due to the borrowerâ€™s financial difficulties. Additionally, assets that have been restructured due to the borrowerâ€™s financial difficulties may also be classified as non-performing if the restructuring does not restore the asset to a performing status. A loan is considered non-performing when the borrower is 90 days or more past due on the scheduled payment of principal and interest, or if the loanâ€™s terms have been restricted due to the borrowerâ€™s financial difficulties. Additionally, a loan may be classified as non-performing even if it is less than 90 days past due if there is a reasonable doubt about the collectability of the loanâ€™s principal or interest. Loans are generally considered delinquent when the required principal and interest payments have not been received by the assigned due date. Loans are typically placed on non-accrual status when a loan becomes 90 days delinquent, unless the credit is well-secured and in the process of collection. Management may, at its discretion, place loans on non-accrual status prior to 90 days delinquency if it determines that interest may be uncollectible. Loans determined to be non-performing or potentially uncollectible may be placed in non-accrual status pending further collection efforts or charged off if collection of principal or interest is deemed doubtful. For loans placed in non-accrual status, all interest previously accrued but not collected is generally reversed against interest income. The interest on loans in non-accrual status is typically accounted for on the cash basis or cost recovery method until qualifying for return to accrual. Loans may be returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured. 58Table of ContentsAs of September 30, 2024 and December 31, 2023, based on our internal classifications, we did not identify any assets that met our criteria for classification as non-performing assets or OREO. Allowance for Credit Losses â€” Loans The ACL represents an amount that is intended to absorb the lifetime expected credit losses that may be sustained on outstanding loans at the balance sheet date. Additional information regarding the ACL evaluation can be found in Note 1 and Note 3 to our audited consolidated financial statements for the year ended December 31, 2023 and the notes thereto included elsewhere in our Prospectus. The estimate for expected credit losses is based on an evaluation of the various factors, including, but not limited to, size and current risk characteristics of the loan portfolio, past events, current conditions, reasonable and supportable forecasts of future economic conditions, and prepayment experience as related to credit contractual term information. The ACL is generally measured on a collective (pool) basis when similar risk characteristics exist and is typically recorded upon the initial recognition of a financial asset. The ACL may be adjusted by charge-offs, net of recoveries of previous losses, and may be increased or decreased by a provision for or recapture of credit losses, which is recorded in the consolidated statements of income. Management estimates the allowance balance using various information sources, both internal and external, relating to past events, current conditions, and reasonable and supportable forecasts. Historical credit loss experience typically provides a basis for the estimation of expected credit losses. Adjustments to historical loss information may be made for differences in current loan-specific risk characteristics and changes in environmental conditions. Expected credit losses are typically estimated over the contractual term of the loans, adjusted for expected prepayments when appropriate. The contractual term generally excludes expected extensions, renewals, and modifications. For loans that do not share risk characteristics with a pool of other loans, expected credit losses are measured on an individual loan basis. Management individually evaluates the expected credit loss for certain loans, such as those that are collateral-dependent, are graded substandard or doubtful, or are identified as having risk characteristics dissimilar to those of the established loan pools. For loans considered collateral-dependent, the Company has adopted a practical expedient to the ACL, which allows for recording an ACL based on the fair value of the collateral rather than by estimating expected losses over the life of the loan. While the ACL on loans follows these guidelines, and management believes the allowance is appropriate based on current information, the judgmental nature of the calculation could lead to fluctuations due to ongoing evaluations of the loan portfolio. These evaluations may be influenced by economic conditions in the Washington, D.C. metropolitan area, changes in asset quality, or loan portfolio growth, among other factors, which could potentially require additional provisions for the allowance for credit losses. The quality of the loan portfolio

and the adequacy of the allowance are subject to review by our internal and external auditors as well as our regulators. 59Table of ContentsThe following table presents an analysis of the allowance for credit losses: As of and for the ThreeMonths EndedSeptember 30,As of and for the NineMonths EndedSeptember 30,(dollars in thousands)20242023202420232Average loans outstanding$302,547Â $317,117Â $302,547Â $317,117Â Total loans outstanding at end of each period300,032Â 310,514Â 300,032Â 310,514Â Allowance for credit losses at the beginning of period4,337Â 4,399Â 4,319Â 4,482Â Provision for (recapture of) credit losses(131)1Â (113)(82)Charge-offsâ€”Â â€”Â â€”Â Recoveriesâ€”Â â€”Â â€”Â Allowance for credit losses at end of period4,206Â 4,400Â 4,206Â 4,400Â Ratio of allowance to total loans outstanding at period end1.40Â %1.42Â %1.40Â %1.42Â %Ratio of nonaccrual loans to total loans outstanding at period endâ€”Â â€”Â â€”Â â€”Â Ratio of allowance to nonaccrual loans at period endâ€”Â â€”Â â€”Â â€”Â The following table presents the allocation of the allowance for credit losses: As of September 30,As of December 31,20242023(dollars in thousands)Amount% oftotalloansAmount% oftotalloansCommercial real estate$1,022Â 0.34Â %$1,233Â 0.41Â %Commercial non-real estate164Â 0.05Â %189Â 0.06Â %Residential real estate2,774Â 0.92Â %2,668Â 0.88Â %Other consumer loans246Â 0.08Â %229Â 0.08Â %Total$4,206Â 1.40Â %$4,319Â 1.42Â %The allocations of the allowance between loan segments did not vary significantly during the periods presented. However, we note a modest migration of applied allowances from the commercial segment as of December 31, 2023 to the residential real estate segment as of September 30, 2024 caused by growth in the consumer residential segment contrasted to an overall balance decline in the commercial segment. There were no loan charge-offs for the interim period ended September 30, 2024 or the year ended December 31, 2023. As a result, the ratio of loan charge-offs to average loans outstanding is 0.00% for all reported periods. DepositsWe provide a wide range of commercial and personal deposit services. The deposit products we offer include noninterest-bearing and interest-bearing checking accounts, savings accounts, and money market accounts. We aim to attract transaction account deposits, particularly from commercial clients. Our deposit base is largely composed of funds from commercial entities, specifically federal political organizations, trade associations, non-profit organizations and business enterprises. As of September 30, 2024, we estimate that at least a majority of our deposit balances were sourced from political organizations. Deposits from political organizations generally exhibit more seasonality than typical commercial or consumer deposits as federal election cycles often influence deposit levels of political organizations. We are a member of the IntraFiÂ® Cash Services network, which allows our deposit clients to enroll in the ICSÂ® program. This program is designed to provide our clients with access to FDIC insurance beyond the standard maximum deposit insurance amount at a single insured depository institution. For accounts enrolled in this service, we select whether each account should be in a reciprocal position or a one-way sell position. A reciprocal position means that we receive an equal amount of network deposits for our enrolled accounts, and those deposits are reflected on our balance sheet. If we 60Table of Contentselect to receive reciprocal deposits, we are required to pay a fee to IntraFiÂ® equal to our reciprocal deposits balances multiplied by an annualized rate of 0.125% as of September 30, 2024. Conversely, we do not receive reciprocal network funding when accounts are positioned as One-Way SellÂ®, and therefore the deposits are not reported on the balance sheet. For deposits placed at other participating banks as One-Way SellÂ® deposits, we receive deposit placement services income, which is inversely related to the interest rate on the deposit account, meaning that we receive less deposit placement services income for placing deposits with a higher interest rate. During periods of increased political organization deposits, which typically occur in connection with election cycles, we may adjust the positioning of certain accounts enrolled in the ICSÂ® program. These adjustments can include changing some accounts from a reciprocal position to a One-Way SellÂ® position, which affects whether and how these deposits are reflected on our balance sheet. These adjustments are part of our overall asset and liability management strategy, which aims to maintain appropriate balance sheet metrics in accordance with regulatory guidelines and our risk management policies. As of September 30, 2024, our balance sheet reflected no reciprocal ICSÂ® deposits. Excess deposits totaling $432.3 million as of September 30, 2024 were placed at other participating banks as One-Way SellÂ® deposits. Our deposit placement services income was $2.5 million and $5.6 million, respectively, for the three and nine months ended September 30, 2024. If we were to convert some or all of these deposits into reciprocal deposits, bringing them back onto our balance sheet, we would expect to receive interest income by investing these deposits, but our deposit placement services income would decline and our interest on deposits, FDIC and regulatory assessments and the fee we pay to IntraFiÂ® would increase. Our participation in the ICSÂ® network is subject to certain terms and conditions, and there can be no assurances that we will be able to participate in the ICSÂ® network in the future. As of September 30, 2024, the terms and conditions for participation in the ICSÂ® network include a $265.0 million limit on the amount of each participating clientâ€™s ICSÂ® deposits that may be placed at other banks within the ICSÂ® network, a $3.5 billion and $6.5 billion limit on the maximum amount of savings account deposits and demand account deposits, respectively, that a bank may place at other banks as reciprocal deposits, and a $10.0 billion limit on the maximum amount of deposits that a bank may place at other banks as One-Way SellÂ® deposits. The terms and conditions also include limitations on a bankâ€™s ability to receive reciprocal deposits, place One-Way SellÂ® deposits, or receive One-Way BuyÂ® deposits if the bank is not â€œwell capitalizedâ€ under the applicable federal banking regulations. We are subject to various fees associated with the placement and management of deposits within the ICSÂ® network, as outlined in the IntraFiÂ® Participating Institution Agreement. When we elect to receive reciprocal deposits, which are network deposits that are matched with equivalent funds placed by other participating institutions, we incur an â€œIntraFi Placement Fee.â€ As of September 30, 2024, the annualized rate for this fee was 0.125%, which is applied to the reciprocal deposits balance to determine the amount of the fee incurred. This fee increases our overall operating expenses, impacting our net income. The fees associated with our participation in the ICSÂ® network require careful management. The IntraFi Placement Fee represents an additional cost that is not incurred with traditional deposit accounts. As such, this fee is factored into our overall asset and liability management strategy with the aim of ensuring that our participation in the ICSÂ® network remains financially advantageous. These fees, together with our interest expense on deposits and other operational costs, contribute to the overall cost structure associated with our deposit services. As of September 30, 2024, the Bank maintained elevated deposit levels ahead of the November 2024 federal elections. We estimate that at least a majority of our deposit balances as of September 30, 2024 were sourced from political organizations. Deposits from political organizations are currently experiencing outflows, which we expect to continue through the end of the fourth quarter of 2024 and into early 2025, as the 2024 election cycle concludes. The outflows to date have been consistent with the seasonal patterns we have historically observed during federal election cycles. Historically, deposits from political organizations have typically increased in the periods leading up to federal elections and declined in the quarters during and after federal elections. The amount and timing of these deposit inflows and outflows are difficult to predict and may differ from historical patterns. Federal Home Loan Bank Advance. The Bank has a secured line of credit with the FHLB, which is renewed annually in December, and which requires the Bank to pledge collateral to establish credit availability. The Bank has historically pledged single-family residential real estate loans within the Bankâ€™s loan portfolio to establish credit availability. As of September 30, 2024 and December 31, 2023, the secured line of credit had no collateral pledged and therefore no available or outstanding balance. 62Table of ContentsShort-Term Borrowings. As of September 30, 2024 and December 31, 2023, the Company had an unsecured line of credit from a correspondent bank totaling $10.0 million with an outstanding balance of $10.0 million as of September 30, 2024 and $5.0 million as of December 31, 2023. On October 10, 2024, the Company used a portion of the net proceeds from the IPO to fully repay the $10.0 million outstanding balance. The Company subsequently closed the line on October 11, 2024. The Bank also maintains federal funds lines of credit agreements with three correspondent banks totaling $68.0 million, which renew annually, are offered on an unsecured basis, and may remain outstanding for periods of up to 10 to 90 consecutive days. The three federal funds purchase lines of credit are for $8.0 million, expiring on March 12, 2025, $10.0 million, expiring on June 30, 2025, and $50.0 million, expiring on June 30, 2025, and the Bankâ€™s use of the facilities is subject to certain terms and conditions, including those related to the Bankâ€™s financial condition. There were no outstanding federal funds purchased balances as of September 30, 2024 or December 31, 2023. Off-Balance Sheet Arrangements We are party to credit-related financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of our clients. These financial instruments include commitments to extend credit and standby letters of credit. Such commitments involve, in varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheets. Our exposure to credit loss is represented by the contractual amount of these commitments. We follow the same credit policies in making commitments as we do for on-balance sheet instruments. The contractual amounts of financial instruments with off-balance sheet commitments are as follows: As of September 30,As of December 31,(dollars in thousands)20242023Commitments to grant loans$1,021Â $â€”Â Unfunded commitments under lines of credit37,758Â 22,947Â Standby letters of credit3,707Â 3,598Â Unfunded commitments under lines of credit increased $14.8 million, or 64.5% from December 31, 2023 to September 30, 2024 primarily due to a $17.5 million increase in renewed availability under two lines of credit issued to political organizations. These lines were fully drawn subsequent to quarter end on October 16, 2024. For information regarding the arrangement related to the ICSÂ® network and related One-Way SellÂ® deposits, see â€œâ€” Depositsâ€ above. Liquidity and Capital Management Liquidity Management Liquidity refers to our capacity to meet cash and collateral obligations in a timely manner. Maintaining appropriate levels of liquidity depends on our ability to address both expected and unexpected cash flows and collateral needs while aiming to avoid adverse effects on our daily operations or the financial condition of the Bank. Effective liquidity management is considered essential to our business model, as deposits, which can generally be withdrawn on demand, form a primary source of our funding. We employ various strategies intended to manage liquidity. Our account at the Federal Reserve, which held approximately $627.0 million as of September 30, 2024, serves as a primary source of liquidity for daily and ongoing activities. We also maintain additional supplemental sources of liquidity, as discussed below. For regulatory reporting purposes, the liquidity ratio is typically calculated as the sum of our cash and cash equivalents plus unpledged securities classified as investment grade divided by total liabilities. Based on this calculation method, as of September 30, 2024 and December 31, 2023, our reported liquidity ratios were 85.31% and 78.75%, respectively. As of September 30, 2024, we had $432.3 million in One-Way SellÂ® deposit accounts through the ICSÂ® platform that could be converted to a reciprocal position in order to provide additional near-term liquidity. It is important to note that these ratios and amounts are point-in-time measurements and may not be indicative of future liquidity positions. Deposit account balances received from federal political organizations fluctuate due to the seasonality of fundraising and spending around federal elections. Historically, in the quarters leading up to federal elections, especially presidential 63Table of Contentselections, our deposits generally increase, and decline in the quarters during and after federal elections. The amount and timing of these deposit inflows and outflows are difficult to predict and may differ from historical patterns. As of September 30, 2024, the Bankâ€™s deposits maintained an elevated level ahead of the November 2024 presidential election. Consistent with patterns observed in previous election cycles, deposits from political organizations are currently experiencing outflows, which we expect to continue through the end of the fourth quarter of 2024 and into early 2025, as the 2024 election cycle concludes. See Note 5â€”Deposits in the Notes to Unaudited Consolidated Financial Statements contained within this Form 10-Q. Management seeks to address liquidity needs related to seasonal outflows by identifying political organization accounts, tracking activity, communicating with clients and retaining high cash balances at the Federal Reserve to fund deposit outflows. In addition to traditional sources of liquidity, such as reciprocal deposits and lines of credit, we also utilize the ICSÂ® network for both One-Way BuyÂ® deposits and One-Way SellÂ® deposits, each serving distinct roles in our liquidity management strategy. One-Way SellÂ® deposits and reciprocal deposits involve placing deposits from our own clients with other participating banks through the ICSÂ® network. One-Way SellÂ® deposits help us manage excess deposits by moving them off our balance sheet, while reciprocal deposits allow us to exchange deposit balances with other banks, ensuring those deposits remain insured. Both strategies help us to optimize our liquidity position while earning deposit placement fees, which contribute to our noninterest income. Conversely, One-Way BuyÂ® deposits involve receiving deposits from other banksâ€™ customers through the ICSÂ® network. This mechanism can provide an additional source of liquidity by allowing us to increase our deposits without reciprocating. These transactions involve certain expenses, which include interest on the deposits and any associated fees, which we consider within our broader liquidity planning. Management estimates that up to 81.4% of deposits were uninsured as of September 30, 2024. To obtain FDIC insurance for deposits exceeding the $250 thousand threshold, some clients enroll in the ICSÂ®, which is described in greater detail under â€œâ€” Depositsâ€ above. As of September 30, 2024, deposit balances totaling $432.3 million were enrolled in the ICSÂ® program. All of these deposits were positioned as One-Way SellÂ® deposits and are therefore not reflected on the balance sheet. The Bank has the flexibility to convert these One-Way SellÂ® deposits into reciprocal deposits, which would then appear on the balance sheet. To fund the outflow of deposits during phases of the federal election cycle when campaigns and committees are actively spending, management will rely on the Bankâ€™s cash balances at the Federal Reserve and conversion of One-Way SellÂ® accounts to reciprocal as its primary sources of liquidity. Similar to other deposits, depositors may withdraw their One-Way SellÂ® deposits at any time, which could impact the volume of One-Way SellÂ® deposits available for conversion to reciprocal. In addition to the primary sources of liquidity discussed above, we maintain secured lines of credit with the FHLB and the Federal Reserve Discount Window, for which we can borrow up to the allowable amount of pledged collateral. The Bank can advance FHLB funds of up to 25% of assets as reported in its latest Federal Financial Institutions Examination Council (â€œFFIECâ€) Consolidated Reports of Condition and Income, which the Bank files with the FFIEC on a quarterly basis (â€œCall Reportâ€), using pledged collateral such as qualifying mortgages and investment securities. Based on the September 30, 2024 Call Report, 25% of total assets equates to credit availability of $388.8 million. As of September 30, 2024, we had no collateral pledged or outstanding balance with the FHLB or Federal Reserve. The Bank has access to additional unsecured funding through its account with ICSÂ®. The Bank can request funding of up to 10% of total assets, which equates to $155.5 million as of the Bankâ€™s September 30, 2024 Call Report, in a One-Way BuyÂ® of daily maturing or term deposit products. Requesting One-Way BuyÂ® deposits requires us to submit a bid including the rate we are willing to pay for the deposits, and such request may be fulfilled in whole, in part, or not at all. If demand for One-Way BuyÂ® deposits is high, then the rate required to successfully bid for One-Way BuyÂ® deposits would be expected to increase, and so One-Way BuyÂ® deposits may be a less reliable source of liquidity. As of September 30, 2024, there was no outstanding balance. The Bank maintains unsecured lines of credit with three correspondent banks that provide combined availability of $68.0 million. There were no outstanding balances as of September 30, 2024. As an intermediate source of liquidity, we may sell AFS securities or allow AFS and HTM securities to mature without reinvestment in the securities portfolio. As of September 30, 2024, our AFS securities portfolio had a fair value of $294.8 million, and our total AFS and HTM debt securities portfolio had a carrying value of $603.0 million, including $183.5 million of bonds maturing within a year and $287.5 million of bonds maturing between one and five years. Our bond portfolio is structured to provide liquidity when management anticipates it will be needed, and a portion of our AFS bonds are invested in liquid investments like U.S. Treasury securities. In the event liquidity is needed from the bond portfolio, management will take into consideration a number of factors when determining which investments to sell. Variables include the marketability of the bonds, current prices and estimated losses, and other factors. 64Table of ContentsLiquidity Risk Management Liquidity risk refers to the potential that the Bankâ€™s financial condition or overall safety and soundness could be adversely affected by a real or perceived inability to meet contractual obligations. This risk category includes potential challenges in managing unplanned decreases or changes in

funding sources. Liquidity risk management involves efforts to identify, measure, monitor and control liquidity events. The Bankâ€™s Asset/Liability Committee (â€œALCOâ€) of the Board typically reviews current and projected liquidity scenarios, including stressed scenarios, at its quarterly meetings. The ALCO seeks to ensure that measurement systems are designed to identify and quantify the Bankâ€™s liquidity exposure, and that reporting systems and practices are intended to communicate relevant information about the level and sources of that exposure. Management is responsible for implementing board-approved policies, strategies, and procedures, and for monitoring liquidity on both a daily and long-term basis. Capital Resources Capital adequacy is generally considered an important indicator of financial stability and performance. Our objectives include maintaining capitalization at levels that we believe are sufficient to support asset growth and to promote confidence among our depositors, investors, and regulators. We recognize that robust capital management practices are integral to addressing various financial and operational challenges, which may include managing credit risk, liquidity risk, balance sheet growth, new products, regulatory changes and competitive pressures. Stockholdersâ€™ equity as of September 30, 2024 was $104.8 million, an increase of $21.4 million compared to $83.4 million as of December 31, 2023. Net income for the nine months ended September 30, 2024 contributed $17.2 million to the increase in stockholdersâ€™ equity. Forming the remaining balance of the change, accumulated other comprehensive loss decreased $4.2 million during the nine months ended September 30, 2024, which is primarily related to the improvement in the market value of the AFS securities portfolio. The Company has a $10.0 million line of credit from a correspondent bank that it uses to provide capital to the Bank. As of September 30, 2024, $10.0 million was outstanding on this line of credit. On October 10, 2024, the Company used a portion of the net proceeds from the IPO to fully repay the $10.0 million outstanding balance. The Company subsequently closed the line on October 11, 2024.Giving effect to the stock Reclassification completed on October 3, 2024, book value per share as of September 30, 2024 and December 31, 2023 was $22.95 and $18.26, respectively. The increase between periods is primarily the result of earnings, which were $3.77 per share during the nine months ended September 30, 2024. The remaining increase is due to the improvement in the market value of the AFS securities portfolio which caused the accumulated other comprehensive loss to decline. Because total assets on a consolidated basis are less than $3.0 billion, we are not subject to the consolidated capital requirements imposed by federal regulations. However, the Bank is subject to various regulatory capital requirements administered by the federal banking agencies. Certain regulatory measurements of capital adequacy are â€œrisk based,â€ meaning they utilize a formula that considers the individual risk profile of the financial institutionâ€™s assets. For example, certain assets, such as cash at the Federal Reserve and investments in U.S. Treasury securities, are deemed to carry zero risk by the regulators because of explicit or implied federal government guarantees. As of September 30, 2024 and December 31, 2023, respectively, 56.3% and 42.5% of the Bankâ€™s total assets were invested in such zero-risk assets. The tier 1 leverage ratio, another regulatory capital measurement, does not consider the riskiness of assets. The leverage ratio is computed as tier 1 capital divided by total average assets for the quarter. 65Table of ContentsThe Bankâ€™s capital level is characterized as â€œwell capitalizedâ€ under the Basel III Capital Rules. A summary of the Bankâ€™s regulatory capital ratios, and minimum requirement to be considered â€œwell capitalizedâ€ are presented below: Well-capitalizedrequirementSeptember 30, 2024December 31, 2023($ in thousands)AmountRatioAmountRatioRatioTotal risk-based capital ratio$127,080Â 31.90Â %$104,523Â 25.44Â %10.00Â %Tier 1 risk-based capital ratio122,613Â 30.78Â %99,856Â 24.30Â %8.00Â %Common equity tier one risk-based capital ratio122,613Â 30.78Â %99,856Â 24.30Â %6.50Â %Tier 1 leverage ratio122,613Â 8.29Â %99,856Â 9.21Â %5.00Â %During periods of growth in deposits due to seasonality, our assets could reach a level that would require the Bank to control the level of these deposits or require the Company to obtain additional capital to maintain a Tier 1 leverage ratio that exceeds our internal regulatory capital policies or targets and satisfies regulatory requirements. We use the ICSÂ® network to help manage our Tier 1 leverage ratio by moving certain deposit accounts off our balance sheet by placing the deposits at other banks as One-Way SellÂ® deposits. As of September 30, 2024, our deposits enrolled in the ICSÂ® program totaled $432.3 million, and were all in a One-Way SellÂ® position. If these deposits were included on our balance sheet as of September 30, 2024, we estimate the Bankâ€™s Tier 1 leverage ratio would have been 6.22%. Item 3. Quantitative and Qualitative Disclosures About Market RiskInterest Rate Sensitivity and Market Risk Our business activities include attracting deposits and using those deposits to invest in cash, securities, and loans. These activities involve interest rate risk, which arises from factors such as timing and volume differences in the repricing of our rate-sensitive assets and liabilities, changes in credit spreads, fluctuations in the general level of market interest rates, and shifts in the shape and level of market yield curves. Changes in interest rates affects our current and future earnings by impacting our net interest income and the level of other interest-sensitive income and operating expenses. Interest rate fluctuations also influence the underlying economic value of our assets, liabilities and off-balance sheet items. This is because the present value of future cash flows, and in some cases the cash flows themselves, may change when interest rates vary. Interest rate risk is generally considered a significant market risk for financial institutions. We have developed an interest rate risk policy that aims to provide management with guidelines for funds management. We have also established a system for monitoring our net interest rate sensitivity position. However, itâ€™s important to note that despite these measures, significant changes in interest rates could potentially impact our earnings, liquidity and capital positions. We had a total one-year cumulative gap in rate-sensitive assets and rate-sensitive liabilities of $787.8 million and $319.4 million as of September 30, 2024 and December 31, 2023, respectively, indicating that, overall, our assets will reprice before our liabilities. Generally, when interest-earning assets mature or reprice more quickly than interest-bearing liabilities, decreasing interest rates could reduce net interest income and increasing interest rates could increase net interest income. Our ALCO is composed of our CEO and at least two independent directors and meets at least quarterly to manage interest rate risk in accordance with policies approved by the Bankâ€™s board of directors. Members of management from various departments also participate in the ALCO meetings. The board of directors receives monthly interest rate risk measurement results. The ALCO monitors the volume, maturities, pricing and mix of assets and funding sources with the objective of managing assets and funding sources to provide results that are consistent with liquidity, growth, risk limits and profitability goals. We use interest rate risk models and rate shock simulations to assess the interest rate risk (â€œIRRâ€) sensitivity of net interest income and the economic value of equity over a variety of parallel and non-parallel rate scenarios. Many assumptions are used to calculate the impact of interest rate fluctuations on our net interest income, such as asset prepayments, non-maturity deposit price sensitivity and decay rates, and rate drivers. Due to the inherent use of estimates and assumptions in the model, our actual results may, and most likely will, differ from our simulated results. Management reviews the assumptions on an as-needed basis and at least annually through a thorough examination. Key changes are presented to the ALCO. 66Table of ContentsThe table below summarizes the results of our IRR analysis in simulating the change in net interest income over a 12-month horizon as of the indicated dates. The â€œrampedâ€ scenario below presents the anticipated percentage change in net interest income when rates are increased or decreased in a parallel manner evenly over the 12-month time horizon, and the â€œimmediateâ€ scenario assumes that the parallel rate shift occurs immediately. Interest rates do not normally move all at once or evenly over time, but this analysis assists in our understanding of the potential direction and magnitude of net interest income changes due to changing interest rates. The following table illustrates the results of our interest rate risk analysis in simulating the change in fair value of equity as of the indicated dates. The changes in our balance sheet over the course of a two-year election cycle causes a degree of variability among our interest rate risk results over time. Item 4. Unregistered Sales of Equity Securities and Use of ProceedsUse of ProceedsOn October 7, 2024, the Company completed the issuance and sale of 1,850,000 shares of Class A Common Stock, at a public offering price of $22.00 per share. The Company received net proceeds of approximately $33.6 million, after deducting underwriting discounts and commissions of approximately $2.8 million, and estimated offering expenses, including legal, accounting, and other expenses, of approximately $4.3 million. On October 10, 2024, the Company used a portion of the net proceeds to fully repay the $10.0 million outstanding principal balance on its unsecured line of credit with a correspondent bank. On November 1, 2024, the Company issued an additional 142,897 shares of Class A Common Stock as a result of the underwritersâ€™ exercise of their 30-day option to purchase up to an additional 277,500 shares of its Class A Common Stock at the public offering price less underwriting discounts and commissions, or $20.46 per share. The issuance resulted in net proceeds to the Company of approximately $2.9 million, after deducting underwriting discounts and commissions of approximately $220 thousand. The Company intends to use the remaining net proceeds for general corporate purposes, which may include supporting continued organic deposit growth and funding potential strategic expansion.All shares sold were registered pursuant to a registration statement on Form S-1 (File No. 333-282102), as amended, which was declared effective by the SEC on October 3, 2024 and registered 2,127,500 shares of our Class A Common Stock with a maximum aggregate offering price of $55.3 million. Piper Sandler & Co., Raymond James & Associates, Inc., and Hovde Group, LLC acted as representatives of the underwriters for the offering. The offering terminated after the sale of all securities registered pursuant to the Registration Statement. No payments for the offering expenses were made directly or indirectly to (i) any of our officers or directors or their associates, (ii) any persons owning 10% or more of any class of our equity securities, or (iii) any of our affiliates. (the â€œCorporationâ€).2.ADDRESS; REGISTERED OFFICE AND AGENTThe address of the Corporationâ€™s registered office in the State of Delaware is Corporation Trust Center, 1209 Orange Street, Wilmington, County of New Castle, Delaware 19801, and the name of its registered agent at such address is The Corporation Trust Company.Â Â Â Â -1-3.PURPOSEThe purpose of the Corporation is to engage in any lawful act or activity for which a corporation may be organized under the Delaware General Corporation Law (as amended from time to time, the â€œDGCLâ€).4.AUTHORIZED STOCK4.1.Capital Stock. The total number of shares of all classes of stock that the Corporation shall have authority to issue is 40,000,000 shares, consisting of the following three classes:(1)20,000,000 shares of Class A common stock, par value $0.01 per share (â€œClass A Common Stockâ€);(2)10,000,000 shares of Class B common stock, par value $0.01 per share (â€œClass B Common Stockâ€ and, together with the Class A Common Stock, â€œCommon Stockâ€); and(3)10,000,000 shares of preferred stock, no par value per share (â€œPreferred Stockâ€).4.2.Reclassification. Immediately upon the effectiveness of this Amended and Restated Certificate of Incorporation (as amended, the â€œCertificate of Incorporationâ€) (the â€œEffective Timeâ€), each share of common stock, par value $1.00 per share, of the Corporation (â€œOld Common Stockâ€) (consisting of 26,876 shares in the aggregate outstanding immediately prior to the Effective Time) shall automatically, without any further action on part of the Corporation or any holder of Old Common Stock, and whether or not the certificates representing such shares of Old Common Stock are surrendered to the Corporation or its transfer agent, be reclassified as and converted into 170 shares of validly issued, fully paid and non-assessable Class B Common Stock (consisting of an aggregate of 4,568,920 shares of Class B Common Stock), which ClassÂ B Common Stock shall have the rights, preferences, privileges and restrictions set forth in this Certificate of Incorporation. Subject to the rights, if any, of the holders of any outstanding shares of Preferred Stock, the number of authorized shares of Class A Common Stock, Class B Common Stock or Preferred Stock may be increased or decreased, in each case without the separate class vote of such stock that otherwise would be required by Section 242(b)(2) of the DGCL, and no vote of the holders of Class A Common Stock, Class B Common Stock or Preferred Stock voting separately as a class will be required therefor (including, for the avoidance of doubt, pursuant to proviso in Section 8.01). Notwithstanding the immediately preceding sentence, the number of authorized shares of any particular class or series may not be Â Â Â Â -2-decreased below the number of shares of such class or series then outstanding, and, in the case of Class A Common Stock, the number of authorized but not issued shares of Class A Common Stock may not be decreased to the extent that it would cause the Corporation to be unable to fulfill its obligations to reserve a certain number of shares of Class A Common Stock under Section 5.07(e) of this Certificate of Incorporation. For the avoidance of doubt and notwithstanding anything herein to the

contrary, subject to the rights, if any, of the holders of any outstanding shares of Preferred Stock, Section 242(d) of the DGCL shall apply to amendments to the Certificate of Incorporation.5.CAPITAL STOCKCOMMON STOCKThe rights, preferences, privileges, restrictions and other matters related to the Common Stock are as follows:5.1.Identical Rights. Except as set forth in this Article V, the Class A Common Stock and the Class B Common Stock shall have the same rights and privileges and shall rank equally, share ratably and be identical in all respects as to all matters.5.2.Voting Rights. 5.2.1.Subject to the rights, if any, of the holders of any outstanding shares of Preferred Stock, and except as otherwise required by the DGCL or the provisions of this Certificate of Incorporation, the holders of Common Stock shall have the sole right and power to vote and shall at all times vote together as a single class on all matters (including the election of directors) submitted to a vote of the stockholders of the Corporation generally. At every meeting of the stockholders and on all matters submitted to a vote of stockholders of the Corporation, each holder of Class A Common Stock shall have the right to one (1) vote in person or by proxy for each share of Class A Common Stock held of record by such stockholder and each holder of Class B Common Stock shall have the right to ten (10) votes in person or by proxy for each share of Class B Common Stock held of record by such stockholder. Stockholders shall not be permitted to cumulate their votes in the election of directors. Except as otherwise required by the DGCL or provided in the resolution or resolutions of the Board of Directors or a duly authorized committee thereof establishing the terms of a series of Preferred Stock, no holder of Common Stock, as such, shall be entitled to vote on any amendment or alteration of the Certificate of Incorporation that alters, amends or changes the powers, preferences, rights or other terms of one or more outstanding series of Preferred Stock if the holders of such affected series are entitled, either separately or together with the holders of one or more other series of Preferred Stock, to vote thereon pursuant to the Certificate of Incorporation or pursuant to the DGCL.5.2.2.Notwithstanding any other provision of this Certificate of Incorporation or any provision of law that might otherwise permit a lesser vote or no vote, any merger (including any merger effected pursuant to Section 253 of the DGCL or Section 251(h) of the DGCL), Â Â Â Â -3-consolidation or business combination of the Corporation with or into another Person, whether or not the Corporation is the surviving Person, in which any Founder, or a Person or Persons that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, any Founder, is part of the purchaser group or is otherwise a counterparty to such merger, consolidation or business combination, shall require the affirmative vote of the holders of a majority of the then-outstanding shares of Class A Common Stock, voting as a separate class.5.3.Dividends or Property Distributions. Subject to applicable law and the rights, if any, of the holders of any outstanding series of Preferred Stock, the holders of Common Stock shall be entitled to receive such dividends and other distributions, in cash, stock of any entity or property of the Corporation, when and as may be declared thereon by the Board of Directors from time to time out of assets or funds of the Corporation legally available therefor, and shall be treated equally, identically and ratably on a per share basis in all such dividends and other distributions; provided, however, that, in the event a distribution is paid in the form of shares of Class A Common Stock or Class B Common Stock (or rights to acquire such shares), then holders of Class A Common Stock shall receive shares of Class A Common Stock (or rights to acquire such shares, as the case may be), and holders of Class B Common Stock shall receive shares of Class B Common Stock (or rights to acquire such shares, as the case may be), with holders of shares of Class A Common Stock and Class B Common Stock receiving, on a per share basis, an identical number of shares of Class A Common Stock or Class B Common Stock (or rights to acquire such shares, as the case may be).5.4.Subdivisions, Combinations or Reclassifications. Neither the Class A Common Stock nor the Class B Common Stock may be subdivided, combined, reclassified or otherwise changed unless contemporaneously therewith the other class of Common Stock is subdivided, combined, reclassified or otherwise changed in a manner that maintains the same proportionate equity ownership and voting power between the holders of the outstanding shares of Class A Common Stock and Class B Common Stock on the record date for such subdivision, combination reclassification or similar change.5.5.Liquidation, Dissolution or Winding Up. In the event of any liquidation, dissolution or winding up (whether voluntary or involuntary) of the Corporation, the holders of Class A Common Stock and Class B Common Stock shall be treated equally, identically and ratably, on a per share basis, with respect to amounts paid upon such liquidation, dissolution or winding up. 5.6.Mergers, Consolidations, Conversions or Business Combinations. In any merger, consolidation, conversion or business combination of the Corporation with or into another Person, whether or not the Corporation is the surviving Person, the shares of the Class A Common Stock and the ClassÂ B Common Stock shall be treated equally, identically and ratably, on a per share basis, with respect to any consideration into which such shares are converted or any consideration paid or otherwise distributed to stockholders of the Corporation. Notwithstanding the foregoing, in any such merger, consolidation, conversion or business combination in which shares of capital stock are distributed, such shares may differ as to voting Â Â Â Â -4-rights to the extent and only to the extent that the voting rights of the Class A Common Stock and Class B Common Stock differ as provided herein.5.7.Conversion of Class B Common Stock; Future Issuances.5.7.1.Optional Conversion of Class B Common Stock. Subject to the terms and conditions of this Section 5.07, each share of Class B Common Stock shall be convertible at any time and from time to time, at the option of the holder thereof into one (1) fully paid and non-assessable share of Class A Common Stock. Each holder of Class B Common Stock who elects to convert the same into Class A Common Stock shall deliver such instrument or other documentation as the Corporation may require to the office of any transfer agent for such Class B Common Stock or, if the Board of Directors so designates, at the principal office of the Corporation (attention of the Secretary of the Corporation) or at such other place or places, if any, as the Board of Directors may designate, and shall give written notice to the Corporation at said office that such stockholder elects irrevocably so to convert said Class B Common Stock in accordance with the terms of this Section 5.07, and shall state in writing therein the number of shares of Class B Common Stock being converted and the name or names in which the shares of Class A Common Stock issued upon conversion are to be registered in book-entry form. The Corporation will as soon as practicable thereafter issue the number of full shares of Class A Common Stock to which such holder shall be entitled as aforesaid and deliver a notice of issuance of uncertificated shares or other evidence of shares held in book-entry form to the person for whose account such Class B Common Stock was so surrendered.5.7.2.Automatic Conversion of Class B Common Stock. 5.7.2.1.Automatic Conversion Upon Transfer. Subject to the provisions of subsection (c) of this Section 5.07, each share of Class B Common Stock shall automatically, without any further action on the part of the Corporation, any holder of Class B Common Stock or any other party, convert into one (1) fully paid and non-assessable share of Class A Common Stock if there is a Transfer (as defined herein) of such shares, other than an Exempt Transfer (as defined herein); provided, however, that each share of Class B Common Stock transferred to an Exempt Transferee (as defined herein) pursuant to an Exempt Transfer shall automatically convert into one (1) fully paid and non-assessable share of Class A Common Stock if any event occurs, or any state of facts arises or exists, that causes such Exempt Transferee subsequently to no longer qualify as a â€œExempt Transfereeâ€ within the meaning of subsection (g) of this Section 5.07.5.7.2.2.Sunset Provision. Subject to the provisions of subsection (c) of this Section 5.07, each share of Class B Common Stock shall automatically, without any further action on the part of the Corporation, any holder of Class B Common Stock or any other party, convert into one (1) fully paid and non-assessable share of Class A Common Stock if the number of Â Â Â Â -5-outstanding shares of Class B Common Stock equals less than ten percent (10%) of the total number of outstanding shares of Common Stock.5.7.3.Policies and Procedures. The Corporation, may, from time to time, establish such policies and procedures relating to the conversion of a share or shares of Class B Common Stock into a share or shares of Class A Common Stock and the general administration of this dual class common stock structure as it may deem necessary or advisable, and, to the fullest extent permitted by law, may request or require that holders of a share or shares of Class B Common Stock furnish affidavits or other proof to the Corporation as it may deem necessary or advisable to verify the ownership of such share or shares of Class B Common Stock and to confirm that an automatic conversion into a share or shares of Class A Common Stock has or has not occurred. If the Corporation determines that a share or shares of Class B Common Stock have been inadvertently Transferred in a Transfer that is not an Exempt Transfer, or any other event shall have occurred, or any state of facts arisen or come into existence, that would inadvertently cause the automatic conversion of such shares into Class A Common Stock pursuant to subsection (b) of this Section 5.07, and the registered holder shall have cured or shall promptly cure such inadvertent Transfer or the event or state of facts that would inadvertently cause such automatic conversion, then the Corporation may determine that such share or shares of Class B Common Stock shall not have been automatically converted into Class A Common Stock pursuant to subsection (b) of this Section 5.07.5.7.4.Timing of Conversion. If a share of Class B Common Stock is converted into a share of Class A Common Stock pursuant to this Section 5.07, such conversion shall be deemed to have been made (i) in the case of a voluntary conversion pursuant to subsection (a) of this Section 5.07, at the close of business Eastern Time on the business day on which written notice of such voluntary conversion is received by the transfer agent of the Corporation (or other place as provided above in subsection (a) of this Section 5.07) or (ii) in the case of an automatic conversion upon a Transfer or if any other event occurs, or any state of facts arises or exists, that would cause an automatic conversion pursuant to subsection (b) of this Section 5.07, at the time that the Transfer of such share or shares occurred or at the time that such other event occurred, or state of facts arose, as applicable. Upon any conversion of a share or shares of Class B Common Stock to a share or shares of Class A Common Stock, subject only to rights to receive any dividends or other distributions payable in respect of such share or shares of Class B Common Stock with a record date prior to the date of such conversion, all rights of the holder of such share or shares of Class B Common Stock shall cease with respect to such share or shares of Class B Common Stock and such Person shall be treated for all purposes as having become the registered holder of such share or shares of Class A Common Stock. Shares of Class B Common Stock that are converted into shares of Class A Common Stock as provided in this Section 5.07 shall be retired and may not be reissued.5.7.5.Reservation of Stock. The Corporation will at all times reserve and keep available, solely for the purpose of issue upon conversion of the outstanding shares of Class B Common Stock, such number of shares of Class A Common Stock as shall be issuable upon the conversion of all such outstanding shares of Class B Common Stock. The Corporation covenants that all shares of Class A Common Stock which shall be issued upon conversion of the shares of Â Â Â Â -6-Class B Common Stock will, upon issue, be fully paid and non-assessable and not entitled to any preemptive rights.5.7.6.Future Issuances. Except as otherwise provided in or contemplated by this Certificate of Incorporation, the Corporation shall not issue additional shares of Class B Common Stock after the Effective Time unless such issuance is approved by a duly authorized committee of the Board of Directors of the Corporation consisting solely of independent and disinterested directors.5.7.7.Definitions. As used in this Certificate of Incorporation, the following terms shall have the meanings set forth below: â€œBeneficial Ownershipâ€ shall mean, with respect to any security, the ownership of such security by any â€œbeneficial owner,â€ as such term is defined in Rules 13d-3 and 13d-5 under the Securities Exchange Act of 1934, as amended (the â€œExchange Actâ€). Where a separate vote by class or classes is required, the affirmative vote of the holders of a majority of the shares cast of such class or classes present in person or represented by proxy at the meeting shall be the act of such class or classes, except as otherwise provided by applicable law, the Certificate of Incorporation or these Bylaws.1.9.Fixing Date for Determination of Stockholders of Record.1.9.1.In order that the Corporation may determine the stockholders entitled to notice of any meeting of stockholders, the Board may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board, and which record date shall not be more than 60 nor less than ten days before the date of such meeting. The Board is hereby empowered, by majority vote of a quorum of disinterested directors, to cause the Corporation to indemnify or contract in advance to indemnify any person not specified in this Section 6.4 against liabilities, fines, penalties and claims imposed upon or asserted against him or her (including amounts paid in settlement) by reason of having been an employee, agent or consultant of the Corporation, whether or not then continuing so to be, and against all expenses (including counsel fees) reasonably incurred by him or her in connection therewith, to the same extent as if such person were specified as one to whom indemnification is granted. 6.4.2.Expenses reasonably incurred by an Indemnitee in defending any Proceeding shall be promptly advanced or reimbursed by the Corporation upon receipt of (i) a written request therefor and (ii) a written undertaking of such Indemnitee to repay such Expenses if it shall ultimately be determined that he or she is not entitled to be indemnified by the Corporation or, where indemnification is granted, to the extent the Expenses so advanced or reimbursed exceed the amount to which such Indemnitee is entitled; provided that such Indemnitee shall cooperate in good faith with any request by the Corporation that common counsel be utilized by the parties to an action or proceeding who are similarly situated unless to do so would be inappropriate due to actual or potential differing interests between or among such parties. An Indemniteeâ€™s obligation to reimburse the Corporation shall be unsecured and no interest shall be charged thereon. 6.4.3.The Corporation shall not indemnify an Indemnitee or advance or reimburse an Indemniteeâ€™s Expenses in connection with any Proceeding (or any part of any Proceeding): 6.4.3.1.for which payment has actually been made to or on behalf of such Indemnitee under any statute, insurance policy, indemnity provision, vote or otherwise, except with respect to any excess beyond the amount paid; 6.4.3.2.for an accounting or disgorgement of profits pursuant to Section 16(b) of the Exchange Act, or similar provisions of federal, state or local statutory law or common law, if such Indemnitee is held liable therefor (including pursuant to any settlement arrangements); 6.4.3.3.relating to violations of the Corporationâ€™s Code of Conduct and Ethics or Insider Trading Policy; or6.4.3.4.relating to violations of Federal or state insider trading laws, Â Â Â Â -22-4861-3069-5119 v.5unless, in each case, such Indemnitee has been successful on the merits, received the written consent to incur the Expense or settled the case with the written consent of the Corporation, in which case the Corporation shall indemnify and reimburse the Expenses of such Indemnitee. In addition, the Corporation shall not indemnify an Indemnitee or advance or reimburse Indemniteeâ€™s Expenses if such indemnification or payment would constitute a â€œprohibited indemnification

paymentâ€ under the regulations of the Federal Deposit Insurance Corporation (or any successor provisions) or any other applicable laws, rules or regulations.6.4.4.No claim for indemnification shall be paid by the Corporation unless the Corporation has determined that such Indemnitee acted in good faith and in a manner such Indemnitee reasonably believed to be in or not opposed to the best interests of the Corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe that his or her conduct was unlawful. The termination of any Proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that an Indemnitee did not act in good faith and in a manner which such Indemnitee reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal Proceeding, had reasonable cause to believe that such Indemniteeâ€™s conduct was unlawful. Unless ordered by a court of competent jurisdiction, such determinations shall be made by (i) a majority vote of the directors who are not parties to the Proceeding for which indemnification is sought, even though less than a quorum, (ii) by a committee of such directors designated by a majority vote of directors, even though less than a quorum, (iii) if there are no such directors, or if such directors so direct, by independent legal counsel in a written opinion, a copy of which shall be received by such Indemnitee or (iv) by a majority vote of the stockholders. If such determination is not made by the Corporation within 30 days of a demand by such Indemnitee for indemnification or advancement or reimbursement of Expenses, such Indemnitee shall be deemed to have met such standard. An Indemnitee shall submit to the Corporation such documentation and information as is reasonably available to such Indemnitee and is reasonably necessary to determine whether and to what extent such Indemnitee is entitled to indemnification pursuant to this Section 6.4. Notwithstanding the foregoing, to the extent that an Indemnitee has been successful on the merits or otherwise in defense of any Proceeding, or any claim, issue or matter therein, such Indemnitee shall be indemnified against Expenses (including attorneysâ€™ fees) actually and reasonably incurred by such Indemnitee in connection therewith, without the necessity of authorization in the specific case. 6.4.5.If a claim for indemnification or advancement of Expenses under this Section 6.4 is not paid in full within 90 days after receipt by the Corporation of the written request therefor, an Indemnitee shall be entitled to an adjudication by a court of competent jurisdiction of his or her entitlement to such indemnification or advancement of Expenses. The Corporation shall indemnify such Indemnitee against any and all Expenses that are incurred by such Indemnitee in connection with any action for indemnification or advancement of Expenses from the Corporation under this Section Â Â Â Â -23-4861-3069-5119 v.56.4(e), to the extent such Indemnitee is successful in such action, and to the extent not prohibited by applicable law. ParticipationEmployees of the Bank who are approved by the Board are eligible to participate in the Plan. Each Participant in the Plan shall be classified as a Tier I Officer, Tier II Officer, Tier III Officer, Tier IV Officer, or Tier V Employee for purposes of the Plan. In selecting and classifying Participants, the Board shall consider an individualâ€™s position and potential impact on the Companyâ€™s and Bankâ€™s business results and performance. The selection of Participants, their classification as a Tier I Officer, Tier II Officer, Tier III Officer, Tier IV Officer, or Tier V Employee and thus their respective portions of the target incentive compensation, shall be determined annually by the Board and promptly communicated in writing to Participants. Section 7. Awards7.1Total Incentive Compensation: The aggregate incentive compensation granted to all Participants within the present Award Year will be limited to 20% of the Planâ€™s net income used to calculate the Return on Average Equity for the Plan. This limit pertains to the incentive compensation award, excluding other amounts such as taxes and 401k contributions.7.2Incentive Compensation Components: Incentive compensation calculation is comprised of two elements: financial performance and risk management performance. Points from each category will be accumulated to compute the total points earned. Negative points in one component will offset points acquired in the other. Incentive compensation points can be obtained from each component as detailed below.7.3Incentive Compensation Financial Component: Participants can accrue incentive compensation points contingent on Chain Bridgeâ€™s financial performance, particularly Average Asset Growth and Return on Average Equity. A Grid, provided in Exhibit 1, details the potential points achievable based on various combinations of Average Asset Growth and Return on Average Equity, representing their respective importance to stockholders. Fractional points can be obtained in both categories, calculated on a pro-rated basis.7.4Incentive Compensation Risk Management Component: Participants can also accrue or forfeit incentive compensation points based on the Companyâ€™s risk management performance. Risk management performance is quantitatively measured by considering a mix of factors [***]. Points are assigned or deducted based on performance in each domain, with a summary of the calculation process provided in Exhibit 1. [***]. Points will be assigned or deducted on a pro-rated basis according to the fractional performance rating.7.8Incentive Compensation Calculation: The calculation of each Participantâ€™s incentive compensation involves adding financial compensation points and risk management component points for the Award year. The incentive compensation award for each Tier I to V Officer or Employee will be their respective salary paid multiplied by a certain percentage of the incentive compensation points divided by 100. For Tier I, it is 100%; Tier II, 85%; Tier III, 75%; Tier IV, 65%, and Tier V, 55%. Refer to Section 8 for payments to Participants not employed by the Bank for the entire Award Year.7.9Compliance Training Requirement: Participants must satisfactorily complete all training mandated by the Bankâ€™s compliance policy to be eligible for the incentive compensation award. Those failing to complete the required compliance training by December 31st of the current Plan year will be ineligible for the award.Section 8. Payment8.1Normal Payment. Incentive compensation awards shall be earned as of the last business day of the Award Year. Participants must be Chain Bridge employees in active status, or on approved leave of absence, on the last business day of the Award Year with the exception of situations described in Section 8.2. Payment of incentive compensation awards shall be made via payroll, less applicable tax and other withholding, in cash within sixty (60) days following the end of the Award Year, but in no event before the Bank has filed its year-end Call Report.8.2Payment Under Conditions of Termination. If termination of employment occurs during an Award Year due to retirement post the Retirement Date, death, or total disability, the Participant will be deemed to have earned an incentive award

proportional to their actual salary paid in the Award Year. The distribution of this payment will be in accordance with Section 8.1. However, if the termination of employment transpires for reasons other than retirement post the Retirement Date, death, total disability, or approved leave of absence, no incentive compensation will be considered earned for the Award Year in which the termination takes place.8.3Payment to Participants who are not Employees as of the first business day of the Award Year. Participants must be employed on or before December 1 of the current award year and must be employed continuously through the last day of the award year to be eligible for the incentive awards. All Participantsâ€™ incentive awards will be based on their actual salary paid in the Award Year. Section 9. Clawback Provision Incentive compensation awarded under this Plan shall be subject recovery or â€œclawbackâ€ as set forth in the Companyâ€™s Policy for Recoupment of Incentive Compensation, as adopted by the Board. Section 10. Dissolution or MergerIf the Company or the Bank should be liquidated and/or dissolved or if the Company or the Bank should become a party to a merger or consolidation in which it is not the surviving corporation, the Plan shall be frozen, and the amount of the Participantsâ€™ incentive compensation shall be determined based on results through the date of such dissolution, merger, or consolidation.Section 11. Amendment and TerminationThe Board may, at any time, terminate, modify or amend this Plan. No termination or amendment shall, without the consent of the Participants, adversely affect the rights of such Participants in previously earned incentive compensation awards. No awards may be made under this Plan at any time if, in the opinion of the Board, the overall financial condition of the Company or the Bank is unsound.Section 12. Other Conditions12.1Assignment. No right or interest of any Participant in the Plan shall be assignable or transferable, or subject to any lien, directly or indirectly, by operation of law, or otherwise, including execution, levy, garnishment, attachment, pledge, and bankruptcy. In the event of Participantâ€™s death, payment shall be made to the Participantâ€™s designated beneficiary, or in the absence of such designation, to the Participantâ€™s estate.12.2Right of Employment. The receipt of an award under the Plan shall not give any employee any right to continued employment by the Bank, and the right to dismiss any employee is specifically reserved to the Bank. The receipt of an award with respect to any one year shall not give an employee the right to receive an award with respect to any subsequent year.12.3Withholding for Taxes. The Bank shall have the right to deduct from all payments under this Plan any federal or state taxes required by law to be withheld with respect to such payments.12.4In the sole discretion of the Board, the Award may be reduced or eliminated if the Participant has not demonstrated satisfactory performance or conduct consistent with Chain Bridgeâ€™s Code of Business Ethics and Conduct, mission, shared values, and leadership skills.Section 13. Legal ConsiderationsIn the event that the terms of this Plan conflict with any law, the conflicting terms will be deemed to be modified to the minimum extent necessary to comply with that law. This Plan shall be governed and interpreted in accordance with the laws of the Commonwealth of Virginia.Section 14. Effective Date The effective date of this Plan shall be the date of its adoption by the Board.Acknowledgement:Employee acknowledges receipt of this Incentive Compensation Plan and further acknowledges that he or she has read and agrees to the terms outlined herein.By:_____Printed Name:_____Date:_____EX-31.1 5 cbna-20240930xex311.htm EX-31.1 DocumentExhibit 31.1CERTIFICATIONI, John J. Organization, Consolidation and Presentation of Financial Statements [Abstract] Â  Organization and Summary of Significant Accounting Policies Organization and Summary of Significant Accounting Policies Organization and Nature of Operations Chain Bridge Bancorp, Inc. (the â€œCompanyâ€) is a Delaware corporation and is the registered bank holding company for Chain Bridge Bank, National Association (the â€œBankâ€). Both the Company and Bank have their headquarters and sole executive office in McLean, Virginia. The Bank operates a model that combines electronic banking channels with its physical banking headquarters in McLean, Virginia, allowing it to serve clients nationally. The Bank provides a wide range of commercial and personal banking services, including deposit accounts, mortgage financing, various loan products, trust administration, wealth management, and asset custody. The core deposit products offered by the Bank include noninterest-bearing and interest-bearing checking accounts, along with savings accounts. The Bankâ€™s lending portfolio is comprised primarily of mortgage-related loans, with the majority being consumer residential mortgages in the Washington, D.C. area. The Bank offers tailored solutions to individuals, families, businesses, non-profit organizations, and political organizations. The term â€œpolitical organizationsâ€ refers to campaign committees, party committees, separate segregated funds (including trade association political action committees (â€œPACsâ€) and corporate PACs), non-connected committees (including independent expenditure-only committees (â€œSuper PACsâ€), committees maintaining separate accounts for direct contributions and independent expenditures (â€œHybrid PACsâ€), and committees other than authorized campaign committees, or those affiliated therewith, maintained or controlled by a candidate or federal officeholder (â€œLeadership PACsâ€)), and other tax-exempt 527 organizations.The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (â€œGAAPâ€) for interim financial information. The statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of the Companyâ€™s management, all adjustments, consisting only of normal recurring adjustments, which are necessary for a fair presentation of the consolidated financial statements, have been included. These unaudited interim consolidated financial statements should be read in conjunction with the Companyâ€™s audited consolidated financial statements for the year ended DecemberÂ 31, 2023 and the notes thereto. The results of operations for the nine months ended SeptemberÂ 30, 2024 are not necessarily indicative of the results to be expected for any other interim period or for the full year. Principles of Consolidation The consolidated financial statements include the accounts of Chain Bridge Bancorp, Inc. and its wholly-owned subsidiary, Chain Bridge Bank, National Association. All significant intercompany balances and transactions have been eliminated in consolidation. Reclassification Certain amounts reported in prior years may be reclassified to conform to the current yearâ€™s presentation. There were no reclassifications for the periods reported. Significant Accounting Policies The accounting and reporting policies of the Company are in accordance with GAAP and conform to general practices within the banking industry. The Companyâ€™s significant accounting policies are described in the Note 1 of the â€œNotes to the Consolidated Financial Statementsâ€ included in the audited consolidated financial statements for the fiscal year ended DecemberÂ 31, 2023. There have been no significant changes to the application of significant accounting policies since DecemberÂ 31, 2023. In preparing financial statements in conformity with GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Estimates are evaluated on an ongoing basis. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for credit losses (â€œACLâ€) on loans and held to maturity debt securities. Recent Accounting Pronouncements In December 2023, the Financial Accounting Standards Board (â€œFASBâ€) issued ASU 2023-09, â€œIncome Taxes (Topic 740): Improvements to Income Tax Disclosures.â€ The amendments in this ASU require an entity to disclose specific categories in the rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold, which is greater than five percent of the amount computed by multiplying pretax income by the entityâ€™s applicable statutory rate, on an annual basis. Additionally, the amendments in this ASU require an entity to disclose the amount of income taxes paid (net of refunds received) disaggregated by federal, state, and foreign taxes and the amount of income taxes paid (net of refunds received) disaggregated by individual jurisdictions that are equal to or greater than five percent of total income taxes paid (net of refunds received). Lastly, the amendments in this ASU require an entity to disclose income (or loss) from continuing operations before income tax expense (or benefit) disaggregated between domestic and foreign and income tax expense (or benefit) from continuing operations disaggregated by federal, state, and foreign. This ASU is effective for annual periods beginning after December 15, 2024. Early adoption is permitted. The amendments should be applied on a prospective basis; however, retrospective application is permitted. The Company does not expect the adoption of ASU 2023-09 to have a material impact on its consolidated financial statements. In November 2024, the FASB issued ASU 2024-03, â€œIncome Statementâ€”Reporting Comprehensive Incomeâ€”Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses.â€ ASU 2024-03 requires public companies to disclose, in the notes to the financial statements, specific information about certain costs and expenses at each interim and annual reporting period. This includes disclosing amounts related to employee compensation, depreciation, and intangible asset amortization. In addition, public companies will need to provide qualitative description of the amounts remaining in relevant expense captions that are not separately disaggregated quantitatively. ASU 2024-03 is effective for public business entities for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. Implementation of ASU 2024-03 may be applied prospectively or retrospectively. The Company does not expect the adoption of ASU 2024-03 to have a material impact on its consolidated financial statements.Other accounting standards that have been issued by the FASB or other standard setting bodies are not currently expected to have material effect on the Companyâ€™s financial position, results of operations or cash flows. On October 7, 2024, the Company issued 1,850,000 shares of Class A common stock, par value of $0.01 (â€œClass A Common Stockâ€), at a public offering price of $22.00 per share. On October 7, 2024, the Company completed its IPO and received total net proceeds of $37.1Â million, after deducting the underwritersâ€™ discount and reimbursements for the underwritersâ€™ legal and other out of pocket expenditures. The net proceeds less other related expenses, including audit fees, legal fees, listing fees, and other expenses, totaled $33.6Â million. On October 10, 2024, the Company used a portion of the net proceeds to fully repay $10.0Â million in short-term borrowings. The Company subsequently closed the line of credit on October 11, 2024. On November 1, 2024, the Company issued an additional 142,897 shares of Class A Common Stock as a result of the underwriters' exercise of their 30-day option to purchase up to an additional 277,500 shares of its Class A Common Stock. The issuance resulted in net proceeds to the Company of approximately $2.9Â million, after deducting underwriting discounts and commissions.In connection with the IPO, on October 3, 2024, the Company filed an Amended and Restated Certificate of Incorporation with the Secretary of State of the State of Delaware, which established two new classes of common stock, the Class A Common Stock and Class B common stock, par value $0.01 per share (â€œClass B Common Stockâ€), and reclassified and converted each outstanding share of the Companyâ€™s existing common stock, par value $1.00 per share (â€œOld Common Stockâ€), into 170 shares of Class B Common Stock (the â€œReclassificationâ€). The Amended and Restated Certificate of Incorporation with the Secretary of State of the State of Delaware also changed the number of authorized shares of Preferred Stock from 100,000 to 10,000,000. As of SeptemberÂ 30, 2024, the Company had 26,876 shares of Old Common Stock issued and outstanding and no shares of Class A Common Stock and Class B Common Stock issued and outstanding. After giving effect to the Reclassification, which was retroactively applied to the financial statements, the Company had no shares of Old Common Stock and Class A Common Stock issued and outstanding and 4,568,920 shares of Class B Common Stock issued and outstanding. Because the Reclassification was applied retroactively to all periods presented, a share that was previously reported as Old Common stock at $1.00 par value and Additional Paid in Capital, is now reported as 170 shares of Class B Common Stock at $0.01 par value and Additional Paid in Capital. The following table sets forth selected balance sheet components as of September 30, 2024:â€¢On an unadjusted basis, giving no effect to the Reclassification; â€¢On an as adjusted basis, giving effect to the Reclassification transactions described above; andâ€¢On an as further adjusted basis after giving effect to (1) the Reclassification, (2) the Companyâ€™s receipt of Â Â Â Â the net proceeds from the IPO, after deducting underwriting discounts and commission and other direct expenses of the offering, and (3) the use of a portion of the net proceeds to repay the outstanding principal balance of $10.0Â million of borrowings under the Companyâ€™s unsecured line of credit with a correspondent bank. Investments, Debt and Equity Securities [Abstract] Â  Securities & Allowance for Securities Credit Losses Securities & Allowance for Securities Credit Losses The Company invests in a variety of debt securities, principally obligations of the U.S. government and federal agencies, mortgage backed securities, state and municipal agencies, and corporations. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, all debt securities were classified as held to maturity (â€œHMâ€) or available for sale (â€œAFSâ€). Management considers the appropriateness of the accounting treatment applied to the Companyâ€™s debt securities portfolio on an ongoing basis. During a prior year, certain AFS bonds were transferred to the HTM portfolio. Bonds selected for transfer included U.S. government and federal agencies, corporate bonds, and state and municipal bonds. The unrealized loss at the time of transfer is being amortized monthly over the remaining lives of the debt securities with an increase to the carrying value of the debt securities and a decrease to the related accumulated other comprehensive loss, which is included in the stockholdersâ€™ equity section of the consolidated balance sheets. The following tables summarize the amortized cost, gross unrealized gains and losses, fair value and allowance for credit losses of AFS and HTM debt securities at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 (dollars in thousands): September 30, 2024AmortizedCostGrossUnrealizedGainsGrossUnrealized(Losses)FairValueAllowancefor CreditLossesSecurities available for sale:U.S. government and federal agencies$131,089Â $52Â $(1,416)$129,725Â $â€”Â Mortgage backed securities8,658Â â€”Â (429)8,229Â â€”Â Corporate bonds53,283Â 62Â (750)52,595Â â€”Â State and municipal securities107,323Â 88Â (3,206)104,205Â â€”Â Total securities available for sale$300,353Â $202Â $(5,801)$294,754Â $â€”Â Securities held to maturity:U.S. government and federal agencies$122,447Â $6Â $(7,236)$115,217Â $â€”Â Mortgage backed securities1,173Â â€”Â (1)1,172Â â€”Â Corporate bonds58,409Â 90Â (1,545)56,954Â (230)State and municipal securities120,580Â 23Â (8,166)112,437Â (31)Total securities held to maturity$302,609Â $119Â $(16,948)$285,780Â $(261)Total securities$602,962Â $321Â $(22,749)$580,534Â $(261)December 31, 2023AmortizedCostGrossUnrealizedGainsGrossUnrealized(Losses)FairValueAllowancefor CreditLossesSecurities available for sale:U.S. government and federal agencies$95,129Â $32Â $(2,864)$92,297Â $â€”Â Mortgage backed securities9,247Â 11Â (609)8,649Â â€”Â Corporate bonds57,304Â 5Â (1,837)55,472Â â€”Â State and municipal securities106,472Â 34Â (4,810)101,696Â â€”Â Total securities available for sale$268,152Â $82Â $(10,120)$258,114Â $â€”Â Securities held to maturity:U.S. government and federal agencies$123,938Â $â€”Â $(10,069)$113,869Â $â€”Â Mortgage backed securities1,190Â â€”Â (17)1,173Â â€”Â Corporate bonds59,629Â 59Â (3,027)56,661Â (322)State and municipal securities123,649Â 6Â (11,442)112,213Â (26)Total securities held to maturity$308,406Â $65Â $(24,555)$283,916Â $(348)Total securities$576,558Â $147Â $(34,675)$542,030Â $(348)There were no holdings of municipal or corporate debt that equaled or exceeded 10.0% of stockholdersâ€™ equity at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. There were no securities pledged to secure a line of credit with the Federal Reserve Bank of Richmond, Virginia at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. Proceeds from calls, maturities, paydowns and sales of debt securities available for sale totaled $81.0 million for the nine months ended SeptemberÂ 30, 2024 and $28.4 million for the nine months ended SeptemberÂ 30, 2023. Proceeds from calls, maturities, and paydowns of debt securities held to maturity totaled $5.5 million and $248 thousand for the nine month periods ended SeptemberÂ 30, 2024 and 2023, respectively. During the nine months ended SeptemberÂ 30, 2024, the Bank sold an AFS bond that was charged off during a prior year for $210 thousand. The proceeds were recorded as a recapture of credit loss. Because this sale did not result in a realized gain or loss on sale of securities, it is excluded from the related tables below. The proceeds, gross realized gains and losses from sales of debt securities during the three and nine months ended SeptemberÂ 30, 2024 and 2023 were as follows (dollars in thousands): Three Months Ended September 30, 2024Nine Months Ended September 30, 2024Available for SaleHeld to MaturityAvailable for SaleHeld to MaturityProceeds from sales of securities$â€”Â $953Â $â€”Â $953Â Gross gainsâ€”Â â€”Â â€”Â â€”Â Gross lossesâ€”Â (65)â€”Â (65)Net losses on sale of a securities$â€”Â $(65)$â€”Â $(65)Income tax benefit attributable to realized net losses on sale of securities$â€”Â $14Â $â€”Â $14Â Three Months Ended September 30, 2023Nine Months EndedSeptember 30, 2023Available for SaleHeld to MaturityAvailable for SaleHeld to MaturityProceeds from sales of securities$977Â $â€”Â $1,929Â $â€”Â Gross gainsâ€”Â â€”Â â€”Â â€”Â Gross losses(30)â€”Â (312)â€”Â Net losses on sale of a securities$(30)$â€”Â $(312)$â€”Â Income tax benefit attributable to realized net losses on sale of securities$6Â $â€”Â $66Â $â€”Â Management classifies bonds as HTM only when the Company has the ability and intent to hold the bond to maturity, and certain sales or transfers of HTM could call into question managementâ€™s ability or intent to hold the remaining HTM bond portfolio to maturity, thereby â€œtaintingâ€ the entire portfolio and triggering a reclassification of the entire portfolio to available for sale. However, there are limited situations, including evidence of deterioration in the issuerâ€™s creditworthiness, in which the Company could sell an HTM bond without tainting the remaining HTM portfolio. During the third quarter of 2024, the Company sold two HTM bonds from a single issuer due to significant documented deterioration of the issuerâ€™s creditworthiness evidenced by the downgrading of the issuerâ€™s public credit rating. The sales are included in the tables above. Under these circumstances, the sale did not taint the HTM portfolio.The amortized cost and fair value of debt securities by contractual maturity at SeptemberÂ 30, 2024 is as follows (dollars in thousands): Available for SaleHeld to MaturityAmortizedCostFairValueAmortizedCostFairValueWithin one year$166,593Â $166,033Â $16,873Â $16,668Â After one year through five years98,391Â 95,808Â 189,090Â 181,392Â After five years through ten years29,950Â 27,843Â 92,329Â 83,923Â Over ten years5,419Â 5,070Â 4,317Â 3,797Â Total$300,353Â $294,754Â $302,609Â $285,780Â Expected maturities may differ from contractual maturities if issuers have the right to call or repay obligations with or without prepayment penalties. All of the Companyâ€™s investment portfolio was evaluated under the monitoring process described in Note 1 of the audited consolidated financial statements for the year ended DecemberÂ 31, 2023, and all investments were deemed investment grade. All of the unrealized losses are attributed to changes in market interest rates, and are not a result of deterioration of creditworthiness among any of the issuers. Of the total AFS and HTM portfolio at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, 792 and 880 debt securities

had unrealized losses with aggregate impairment of 3.8% and 6.0%, respectively, of the Companyâ€™s amortized cost basis. These unrealized losses related principally to interest rate movements and not the creditworthiness of the issuer. In analyzing an issuerâ€™s financial condition, management considers whether the debt securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, and industry analystsâ€™ reports. Credit loss allowances for the AFS and HTM portfolios are described in the following sections. Allowance for Credit Lossesâ€”AFS Securities Management evaluates debt securities to determine whether the unrealized loss is due to credit-related factors or non-credit-related factors. This analysis occurs on a quarterly basis. Consideration is given to the extent to which fair value is less than cost, the financial condition and near-term prospects of the issuer, and the intent and ability of the Company to retain its investment in the security for a period of time sufficient to allow for full recovery of its amortized cost. If the assessment reveals that a credit loss exists, the present value of the expected cash flows of the security is compared to the amortized cost basis of the security. If the present value of future cash flows expected to be collected is less than the amortized cost, an allowance for the credit loss is recorded. The loss is limited by the amount that the amortized cost exceeds fair value. As of the reporting date, the Company did not intend to sell any of the AFS debt securities, did not expect to be required to sell these debt securities, and expected to recover the entire amortized cost basis of all of the debt securities. The Company did not record an ACL on the AFS debt securities at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. The Company has evaluated these debt securities for credit-related impairment at the reporting date and concluded that no impairment existed. In analyzing an issuerâ€™s financial condition, management considers whether the debt securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, industry analystsâ€™ reports, and correlations between fair value changes and interest rate changes among instruments that are not credit sensitive. All AFS debt securities were current with no debt securities past due or on non-accrual as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. The Company considers the unrealized losses on the debt securities as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 to be related to fluctuations in market conditions, primarily interest rates, and is not reflective of deterioration in credit. The table below presents a rollforward by major security type of the allowance for credit losses on AFS debt securities for the nine months ended SeptemberÂ 30, 2024 and 2023 (dollars in thousands): September 30, 2024For the nine months endedU.S.Governmentand FederalAgenciesMortgageBackedSecuritiesCorporateBondsState andMunicipalSecuritiesTotal AFSSecuritiesAllowance for credit losses:Beginning balance, December 31, 2023$â€”Â $â€”Â $â€”Â $â€”Â Provision for (recapture of) credit lossesâ€”Â â€”Â (210)â€”Â (210)Write offs charged against the allowanceâ€”Â â€”Â â€”Â â€”Â Recoveries of amounts previously written offâ€”Â â€”Â 210Â â€”Â 210Â Ending balance, September 30, 2024$â€”Â $â€”Â $â€”Â $â€”Â $â€”Â At SeptemberÂ 30, 2024, there was no allowance for credit losses on AFS debt securities recorded. The entire ACL provision recorded for the AFS portfolio during 2023 was recorded in the first quarter and pertained to a holding from a single corporate issuer whose business was ultimately closed by a regulatory authority. The bond, initially classified as HTM, was transferred to the AFS portfolio based on the unlikely collectability of the unsecured bond and significant documented credit deterioration. A portion of the bond was subsequently sold at a loss, and the remaining unsold portion was written off entirely. Credit Quality Indicators and Allowance for Credit Losses - HTM Securities The Company evaluates the credit risk of its HTM debt securities on a quarterly basis. The Company estimates expected credit losses on HTM debt securities using an instrument -level process described in Note 1 of the audited consolidated financial statements for the year ended DecemberÂ 31, 2023. The primary indicators of credit quality for the Companyâ€™s HTM portfolio are security type, time remaining to maturity, and credit rating. Credit ratings may be influenced by a number of factors including obligor cash flows, geography, seniority and others. The HTM portfolio includes debt securities issued by the U.S. Treasury and agencies of the federal government, and mortgage-backed securities issued by government agencies. These types of investments carry implicit or explicit backing of the U.S. Treasury, and therefore are deemed to carry no credit risk for purposes of the ACL evaluation. Whether the underlying collateral is expected to be a substantial source of repayment for an asset depends on the availability, reliability, and capacity of sources other than the collateral to repay the debt. Collateral-dependent loans are individually evaluated for expected credit losses as of the reporting date, and they are removed from their respective pools of collectively evaluated assets. Expected credit losses for these types of assets are based on the fair value of the collateral at the measurement date, adjusted for estimated selling costs. There were no collateral-dependent loans that were individually evaluated for purposes of determining the allowance for credit loss under FASB ASC Topic 326 as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. Modifications to Borrowers Experiencing Financial Difficulty The Company may modify loans to borrowers in financial distress by providing principal forgiveness, term extension, and other-than-insignificant payment delay or interest rate reduction. When principal forgiveness is provided, the amount of forgiveness is charged-off against the allowance for credit losses. There were no loan modifications provided to borrowers exhibiting financial distress during the nine months ended SeptemberÂ 30, 2024 and 2023, and there were no such prior modifications in existence during the periods reported. During the reported periods, there were no payment defaults from any such loans during the twelve months preceding the modification because no such modifications were in existence during the periods. Related Party Loan Transactions Officers, directors and their affiliates had loans outstanding with the Company of $8.6 million and $6.9 million as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. The increase in loans outstanding relates to the cumulative effect of

changes in the composition of related parties, due to the hiring of a new officer. These transactions occurred in the ordinary course of business on substantially the same terms as those prevailing at the time for comparable transactions with unrelated persons. To achieve full insurance from the Federal Deposit Insurance Corporation (â€œFDICâ€), some of the Bankâ€™s depositors have enrolled in the IntraFi Cash ServiceÂ® (â€œICSÂ®â€) program offered by the Bank through the IntraFiÂ® network. When accounts are enrolled in this service, the Bank must elect, for each account, whether it will receive a reciprocal deposit balance or sell the deposit balance. There were no reciprocal deposits held as of September 30, 2024. At DecemberÂ 31, 2023, the Bank held $177.3 million of reciprocal deposits through ICSÂ® on its consolidated balance sheets. Total ICSÂ® One-Way SellÂ® deposits of $432.3 million and $130.1 million as of SeptemberÂ 30, 2024, and DecemberÂ 31, 2023, respectively, were sold to the network and excluded from the Companyâ€™s consolidated balance sheets. The Company receives fee income for sold accounts, which is included in deposit placement services income on the consolidated statements of income. The Bankâ€™s deposit balances have consistently followed the trend of historic seasonality surrounding federal election cycles, where political organization deposits generally increase in the quarters leading up to federal elections and decline in the quarters during and after the elections. Consistent with this trend, as of September 30, 2024, the Bank maintained elevated deposit levels ahead of the November 2024 federal elections, with deposits reported on the balance sheet totaling $1.4Â billion, and One-Way SellÂ® deposits totaling $432.3Â million. Entering the fourth quarter of 2024â€”the quarter of the 2024 presidential electionâ€”between October 1, 2024 and November 12, 2024, the date prior to the filing of this quarterly report, total deposits, including reciprocal ICSÂ® deposits, have ranged from approximately $1.1Â billion to $1.4Â billion, and ICSÂ® One-Way SellÂ® accounts have approximately ranged from a minimum of $85.4Â million to a maximum of $462.5Â million. At the close of business on November 12, 2024, total deposits were $1.2Â billion and ICSÂ® One-Way SellÂ® accounts were $85.4Â million. Declines in the volume of deposits retained on the balance sheet will cause net interest income to decrease, and declines in ICSÂ® One-Way SellÂ® balances will cause noninterest income to decrease. The amount and timing of these deposit inflows and outflows are difficult to predict and may differ from historical patterns. FDIC deposit insurance covers $250 thousand per depositor, per FDIC-insured bank, for each account ownership category. The Company estimates uninsured deposits held at the Bank as of SeptemberÂ 30, 2024 are $1.2 billion, which is 81.4% of total deposits. The Company estimated uninsured deposits as of DecemberÂ 31, 2023 were $648.0 million, which is 58.3% of total deposits. There were two clients with an individual deposit balance exceeding 5.0% of total deposits as of SeptemberÂ 30, 2024. The total deposit balance related to these clients as of SeptemberÂ 30, 2024 was $226.6 million or 15.8% of total deposits. There were no clients whose individual deposit balances exceeded 5.0% of total deposits as of DecemberÂ 31, 2023. Disclosures [Abstract] Â  Fair Value Measurements Fair Value Measurements Determination of Fair Value Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value measurements and disclosure topic specifies a hierarchy of valuation techniques based on whether the inputs to these valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Companyâ€™s market assumptions. U.S. GAAP requires that valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. Fair Value HierarchyU.S. GAAP establishes a fair value hierarchy which categorizes the valuation inputs into three broad levels. Based on the underlying inputs, each fair value measurement in its entirety is reported in one of the three levels. These levels are: Level 1 - Valuation is based on quoted prices in active markets for identical assets and liabilities that the reporting entity has the ability to access at the measurement date. Level 1 assets and liabilities generally include debt and equity securities that are traded in an active exchange market. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities. Level 2 - Valuation is based on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The valuation may be based on quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability. Level 3 - Valuation is based on unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which determination of fair value requires significant management judgment or estimation. An asset or liabilityâ€™s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Assets and Liabilities Measured at Fair Value on a Recurring Basis The following describes the valuation techniques used by the Company to measure certain financial assets and liabilities recorded at fair value on a recurring basis in the financial statements: Securities Available for Sale & Equity SecuritiesDebt securities available for sale and equity securities are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted market prices, when available (Level 1). If quoted market prices are not available, fair values are measured utilizing independent valuation techniques of identical or similar securities for which significant assumptions are derived primarily from or corroborated by observable market data (Level 2). If the inputs used to provide the evaluation for certain securities are unobservable and/or there is little, if any, market activity then the security would fall to the lowest level of the hierarchy (Level 3). The Companyâ€™s investment portfolio is valued using fair value measurements that are considered to be Level 1 or Level 2 but may also use Level 3 measurements if required by the composition of the portfolio. The Bank has contracted with a securities portfolio accounting service provider for valuation of its securities portfolio. Most security types are priced using the securities accounting providerâ€™s internally developed pricing software which appraises securities from an online real-time database. Subscription pricing services such as ICE Data Services and Bloomberg Valuation Services may be used to supplement the internal pricing system for security types where the underlying collateral, cash flow projections or trade data is not readily available. If Level 1 or Level 2 inputs are not available, the software may rely upon a discounted cash flow analysis based on the net present value of a securityâ€™s projected cash flow to arrive at fair market value. Valuations for direct obligations of the U.S. Treasury, exchange listed stock and preferred stock are obtained from on-line real-time databases. The securities accounting service provider utilizes proprietary valuation matrices for valuing all municipal securities. The initial curves for determining the price, movement, and yield relationships within the municipal matrices are derived from industry benchmark curves or sourced from a municipal trading desk. The securities are further broken down according to issuer, credit support, state of issuance and rating to incorporate additional spreads to the industry benchmark curves. Adjustments to the fair value of these assets usually result from the application of lower-of-cost-or-market accounting or write-downs of individual assets. Collateral Dependent LoansIndividually evaluated loans are analyzed to determine whether they are collateral dependent. Any individually evaluated loans,

which are deemed to be collateral dependent, with an allocation to the ACL are measured at fair value on a non-recurring basis. Any fair value adjustments are recorded in the period incurred as provision for credit losses on the consolidated statements of income. The measurement of loss associated with collateral dependent loans can be based on either the observable market price of the loan or fair value of the collateral. Fair value is measured based on the value of the collateral securing the loans. Collateral may be in the form of real estate or business assets including equipment, inventory, and accounts receivable. The vast majority of the collateral is real estate. The value of real estate collateral is determined utilizing a market valuation approach based on an appraisal conducted by an independent, licensed appraiser outside of the Company using observable market data (Level 2). However, if the collateral is a house or building in the process of construction or if an appraisal of the real estate property using an income approach or is over two years old, then the fair value is considered Level 3. The value of business equipment is based upon an outside appraisal if deemed significant, or the net book value on the applicable businessâ€™s financial statements if not considered significant using observable market data. Likewise, values for inventory and accounts receivables collateral are based on financial statement balances or aging reports (Level 3). Any fair value adjustments are recorded in the period incurred as a provision for loan credit losses on the consolidated statements of income. There were no collateral dependent loans with a recorded reserve as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. Other Real Estate OwnedOther real estate owned (â€œOREOâ€) is measured at fair value less costs to sell. Valuation of OREO is determined using current appraisals from independent parties, a Level 2 input. If current appraisals cannot be obtained, or if declines in value are identified after a recent appraisal is received, appraisal values may be discounted, resulting in a Level 3 estimate. If the Company markets the property with a realtor, estimated selling costs reduce the fair value, resulting in a valuation based on Level 3 inputs. Fair value adjustments are recorded in the period incurred and expensed against current earnings. The Bank held no OREO at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. Loans Held for SaleLoans held for sale are carried at the lower of cost or fair value. These loans currently consist of 1-4 family residential loans originated for sale in the secondary market. Fair value is based on the price secondary markets are currently offering for similar loans using observable market data which is not materially different than cost due to the short duration between origination and sale (Level 2). As such, the Company records any fair value adjustments on a nonrecurring basis. No nonrecurring fair value adjustments were recorded on loans held for sale at SeptemberÂ 30, 2024 or DecemberÂ 31, 2023. There were no assets measured at fair value on a nonrecurring basis at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. IDEA: XBRL DOCUMENT v3.24.3 Earnings Per Share 9 Months Ended Sep. 30, 2024 Earnings Per Share [Abstract] Â  Earnings Per Share Earnings Per ShareEffective October 3, 2024, and pursuant to the stock Reclassification described in Note 2 - Capital Structure, the Companyâ€™s stock is comprised of two classes: Class A Common Stock and Class B Common Stock. Except in regard to voting and conversion rights, the rights of Class A Common Stock and Class B Common Stock are identical, and the classes rank equally and share ratably with regard to all other matters. Each share of Class B Common Stock is convertible at any time into one share of Class A Common Stock. On October 3, 2024, 26,876 existing shares of Old Common Stock held by the companyâ€™s pre-IPO investors were reclassified into 4,568,920 shares of Class B Common Stock. In connection with the IPO, the Company issued 1,850,000 shares of Class A Common Stock on October 7, 2024 and 142,897 shares of Class A Common Stock on November 1, 2024. See Note 2â€”Capital Structure in the Notes to Unaudited Consolidated Financial Statements contained within this Form 10-Q for further information regarding the stock Reclassification and the IPO.When declared by the Companyâ€™s Board of Directors, holders of Class A Common Stock and Class B Common Stock are entitled to receive dividends equally and ratably on a per-share basis. The Company did not pay dividends to any stockholder during 2023 or the nine-month period ending September 30, 2024. Under the two-class method, earnings available to common stockholders are allocated ratably on a per-share basis between Class A Common Stock and Class B Common Stock. The table below provides a reconciliation of the combined Class A and Class B Common Stock numerators and denominators of the earnings per share computations. The table gives effect to the Reclassification of 26,876 shares of Old Common Stock into 4,568,920 shares of Class B Common Stock on October 3, 2024. It does not give effect to the issuance of 1,850,000 and 142,897 shares of Class A Common Stock issued in connection with the IPO on October 7, 2024 and November 1, 2024, respectively, and there were no shares of Class A Common Stock outstanding during any of the periods reported. The number of basic and diluted shares are the same because there are no potentially dilutive instruments.Three Months EndedNine Months EndedSeptember 30,September 30,September 30,September 30,2024202320242023Net Income$7,487Â $2,843Â $17,209Â $5,517Â Dividends declared on common stockClass A Common Stock$â€”Â $â€”Â $â€”Â $â€”Â Class B Common Stock$â€”Â $â€”Â $â€”Â $â€”Â Undistributed net income for basic and diluted earnings per share$7,487Â $2,843Â $17,209Â $5,517Â Weighted average shares outstandingClass A Common Stockâ€”Â â€”Â â€”Â â€”Â Class B Common Stock4,568,920Â 4,568,240Â 4,568,920Â 4,568,240Â Weighted average shares outstanding, basic and dilutive4,568,920Â 4,568,240Â 4,568,920Â 4,568,240Â Three Months EndedNine Months EndedSeptember 30,September 30,September 30,September 30,2024202320242023Earnings per common share, basic and dilutedClass A Common StockPer share dividends distributed$â€”Â $â€”Â $â€”Â $â€”Â Undistributed earnings per shareâ€”Â â€”Â â€”Â â€”Â Total basic and diluted earnings per share - Class A Common Stock$â€”Â $â€”Â $â€”Â $â€”Â Class B Common StockPer share dividends distributed$â€”Â $â€”Â $â€”Â $â€”Â Undistributed earnings per share1.64Â 0.62Â 3.77Â 1.21Â Total basic and diluted earnings per share - Class B Common Stock$1.64Â $0.62Â $3.77Â $1.21Â  X - ReferencesNo definition available. + Details Name: us-gaap_EarningsPerShareAbstract Namespace Prefix: us-gaap_ Data Type: xbrli:stringItemType Balance Type: na Period Type: duration X - DefinitionThe entire disclosure for earnings per share. + ReferencesReference 1: http://www.xbrl.org/2003/role/disclosureRef -Topic 260 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 1 -Subparagraph (c) -Publisher FASB -URI https://asc.fasb.org/1943274/2147482662/260-10-50-1Reference 2: http://www.xbrl.org/2003/role/disclosureRef -Topic 260 -Name Accounting Standards Codification -Publisher FASB -URI https://asc.fasb.org/260/tableOfContentReference 3: http://www.xbrl.org/2003/role/disclosureRef -Topic 260 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Publisher FASB -URI https://asc.fasb.org/1943274/2147482662/260-10-50-2Reference 4: http://www.xbrl.org/2003/role/disclosureRef -Topic 260 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 3 -Publisher FASB -URI https://asc.fasb.org/1943274/2147482662/260-10-50-3 + Details Name: us-gaap_EarningsPerShareTextBlock Namespace Prefix: us-gaap_ Data Type: dtr-types:textBlockItemType Balance Type: na Period Type: duration XML 32 R19.htm IDEA: XBRL DOCUMENT v3.24.3 Subsequent Events 9 Months Ended Sep. 30, 2024 Subsequent Events [Abstract] Â  Subsequent Events Subsequent EventsThere were no subsequent events other than those disclosed in Note 2. Months Ended Sep. 30, 2024 Organization, Consolidation and Presentation of Financial Statements [Abstract] Â  Principles of Consolidation Principles of Consolidation The consolidated financial statements include the accounts of Chain Bridge Bancorp, Inc. and its wholly-owned subsidiary, Chain Bridge Bank, National Association. All significant intercompany balances and transactions have been eliminated in consolidation. Reclassification Reclassification Certain amounts reported in prior years may be reclassified to conform to the current yearâ€™s presentation. There were no reclassifications for the periods reported. Significant Accounting Policies and Recent Accounting Pronouncements Significant Accounting Policies The accounting and reporting policies of the Company are in accordance with GAAP and conform to general practices within the banking industry. The Companyâ€™s significant accounting policies are described in the Note 1 of the â€œNotes to the Consolidated Financial Statementsâ€ included in the audited consolidated financial statements for the fiscal year ended DecemberÂ 31, 2023. There have been no significant changes to the application of significant accounting policies since DecemberÂ 31, 2023. In preparing financial statements in conformity with GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Estimates are evaluated on an ongoing basis. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for credit losses (â€œACLâ€) on loans and held to maturity debt securities. Recent Accounting Pronouncements In December 2023, the Financial Accounting Standards Board (â€œFASBâ€) issued ASU 2023-09, â€œIncome Taxes (Topic 740): Improvements to Income Tax Disclosures.â€ The amendments in this ASU require an entity to disclose specific categories in the rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold, which is greater than five percent of the amount computed by multiplying pretax income by the entityâ€™s applicable statutory rate, on an annual basis. Additionally, the amendments in this ASU require an entity to disclose the amount of income taxes paid (net of refunds received) disaggregated by federal, state, and foreign taxes and the amount of income taxes paid (net of refunds received) disaggregated by individual jurisdictions that are equal to or greater than five percent of total income taxes paid (net of refunds received). Lastly, the amendments in this ASU require an entity to disclose income (or loss) from continuing operations before income tax expense (or benefit) disaggregated between domestic and foreign and income tax expense (or benefit) from continuing operations disaggregated by federal, state, and foreign. This ASU is effective for annual periods beginning after December 15, 2024. Early adoption is permitted. The amendments should be applied on a prospective basis; however, retrospective application is permitted. The Company does not expect the adoption of ASU 2023-09 to have a material impact on its consolidated financial statements. In November 2024, the FASB issued ASU 2024-03, â€œIncome Statementâ€”Reporting Comprehensive Incomeâ€”Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses.â€ ASU 2024-03 requires public companies to disclose, in the notes to the financial statements, specific information about certain costs and expenses at each interim and annual reporting period. This includes disclosing amounts related to employee compensation, depreciation, and intangible asset amortization. In addition, public companies will need to provide qualitative description of the amounts remaining in relevant expense captions that are not separately disaggregated quantitatively. ASU 2024-03 is effective for public business entities for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. Implementation of ASU 2024-03 may be applied prospectively or retrospectively. The Company does not expect the adoption of ASU 2024-03 to have a material impact on its consolidated financial statements.Other accounting standards that have been issued by the FASB or other standard setting bodies are not currently expected to have material effect on the Companyâ€™s financial position, results of operations or cash flows. X - DefinitionDisclosure of accounting policy regarding (1) the principles it follows in consolidating or combining the separate financial statements, including the principles followed in determining the inclusion or exclusion of subsidiaries or other entities in the consolidated or combined financial statements and (2) its treatment of interests (for example, common stock, a partnership interest or other means of exerting influence) in other entities, for example consolidation or use of the equity or cost methods of accounting. The accounting policy may also address the accounting treatment for intercompany accounts and transactions, noncontrolling interest, and the income statement treatment in consolidation for issuances of stock by a subsidiary. + ReferencesReference 1: http://www.xbrl.org/2003/role/exampleRef -Topic 235 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 4 -Subparagraph (a) -Publisher FASB -URI https://asc.fasb.org/1943274/2147483426/235-10-50-4Reference 2: http://fasb.org/us-gaap/role/ref/legacyRef -Name Accounting Standards Codification -Topic 810 -SubTopic 10 -Section 50 -Paragraph 1 -Publisher FASB -URI https://asc.fasb.org/1943274/2147481203/810-10-50-1 + Details Name: us-gaap_ConsolidationPolicyTextBlock Namespace Prefix: us-gaap_ Data Type: dtr-types:textBlockItemType Balance Type: na Period Type: duration X - DefinitionDisclosure of accounting policy pertaining to new accounting pronouncements that may impact the entity's financial reporting. The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information. The statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of the Company's management, all adjustments, consisting only of normal recurring adjustments, which are necessary for a fair presentation of the consolidated financial statements, have been included. These unaudited interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2023 and the notes thereto. The results of operations for the nine months ended September 30, 2024 are not necessarily indicative of the results to be expected for any other interim period or for the full year. Principles of Consolidation The consolidated financial statements include the accounts of Chain Bridge Bancorp, Inc. and its wholly-owned subsidiary, Chain Bridge Bank, National Association. All significant intercompany balances and transactions have been eliminated in consolidation. Reclassification Certain amounts reported in prior years may be reclassified to conform to the current year's presentation. There were no reclassifications for the periods reported. Significant Accounting Policies The accounting and reporting policies of the Company are in accordance with GAAP and conform to general practices within the banking industry. The Company's significant accounting policies are described in the Note 1 of the "Notes to the Consolidated Financial Statements" included in the audited consolidated financial statements for the fiscal year ended December 31, 2023. There have been no significant changes to the application of significant accounting policies since December 31, 2023. In preparing financial statements in conformity with GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Estimates are evaluated on an ongoing basis. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for credit losses ("ACL") on loans and held to maturity debt securities. Recent Accounting Pronouncements In December 2023, the Financial Accounting Standards Board ("FASB") issued ASU 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures." The amendments in this ASU require an entity to disclose specific categories in the rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold, which is greater than five percent of the amount computed by multiplying pretax income by the entity's applicable statutory rate, on an annual basis. Additionally, the amendments in this ASU require an entity to disclose the amount of income taxes paid (net of refunds received) disaggregated by federal, state, and foreign taxes and the amount of income taxes paid (net of refunds received) disaggregated by individual jurisdictions that are equal to or greater than five percent of total income taxes paid (net of refunds received). Lastly, the amendments in this ASU require an entity to disclose income (or loss) from continuing operations before income tax expense (or benefit) disaggregated between domestic and foreign and income tax expense (or benefit) from continuing operations disaggregated by federal, state, and foreign. This ASU is effective for annual periods beginning after December 15, 2024. Early adoption is permitted. The amendments should be applied on a prospective basis; however, retrospective application is permitted. The Company does not expect the adoption of ASU 2023-09 to have a material impact on its consolidated financial statements. <br/> In November 2024, the FASB issued ASU 2024-03, "Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses." ASU 2024-03 requires public companies to disclose, in the notes to the financial statements, specific information about certain costs and expenses at each interim and annual reporting period. This includes disclosing amounts related to employee compensation, depreciation, and intangible asset amortization. In addition, public companies will need to provide qualitative description of the amounts remaining in relevant expense captions that are not separately disaggregated quantitatively. ASU 2024-03 is effective for public business entities for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. Implementation of ASU 2024-03 may be applied prospectively or retrospectively. The Company does not expect the adoption of ASU 2024-03 to have a material impact on its consolidated financial statements. Other accounting standards that have been issued by the FASB or other standard setting bodies are not currently expected to have material effect on the Company's financial position, results of operations or cash flows. On October 7, 2024, the Company issued 1,850,000 shares of Class A common stock, par value of $0.01 (“Class A Common Stock”), at a public offering price of $22.00 per share. On October 7, 2024, the Company completed its IPO and received total net proceeds of $37.1 million, after deducting the underwriters‘ discount and reimbursements for the underwriters‘ legal and other out of pocket expenditures. The net proceeds less other related expenses, including audit fees, legal fees, listing fees, and other expenses, totaled $33.6 million. <br/> On October 10, 2024, the Company used a portion of the net proceeds to fully repay $10.0 million in short-term borrowings. The Company subsequently closed the line of credit on October 11, 2024. <br/> On November 1, 2024, the Company issued an additional 142,897 shares of Class A Common Stock as a result of the underwriters' exercise of their 30-day option to purchase up to an additional 277,500 shares of its Class A Common Stock. The issuance resulted in net proceeds to the Company of approximately $2.9 million, after deducting underwriting discounts and commissions. <br/> In connection with the IPO, on October 3, 2024, the Company filed an Amended and Restated Certificate of Incorporation with the Secretary of State of the State of Delaware, which established two new classes of common stock, the Class A Common Stock and Class B common stock, par value $0.01 per share (“Class B Common Stock”), and reclassified and converted each outstanding share of the Company’s existing common stock, par value $1.00 per share (“Old Common Stock”), into 170 shares of Class B Common Stock (the “Reclassification”). The Amended and Restated Certificate of Incorporation with the Secretary of State of the State of Delaware also changed the number of authorized shares of Preferred Stock from 100,000 to 10,000,000. <br/> As of September 30, 2024, the Company had 26,876 shares of Old Common Stock issued and outstanding and no shares of Class A Common Stock and Class B Common Stock issued and outstanding. After giving effect to the Reclassification, which was retroactively applied to the financial statements, the Company had no shares of Old Common Stock and Class A Common Stock issued and outstanding and 4,568,920 shares of Class B Common Stock issued and outstanding. Because the Reclassification was applied retroactively to all periods presented, a share that was previously reported as Old Common stock at $1.00 par value and Additional Paid in Capital, is now reported as 170 shares of Class B Common Stock at $0.01 par value and Additional Paid in Capital. The following table sets forth selected balance sheet components as of September 30, 2024: •On an unadjusted basis, giving no effect to the Reclassification; •On an as adjusted basis, giving effect to the Reclassification transactions described above; and •On an as further adjusted basis after giving effect to (1) the Reclassification, (2) the Company’s receipt of  the net proceeds from the IPO, after deducting underwriting discounts and commission and other direct expenses of the offering, and (3) the use of a portion of the net proceeds to repay the outstanding principal balance of $10.0 million of borrowings under the Company’s unsecured line of credit with a correspondent bank. </span></div><div style="margin-bottom:6pt"><table As of September 30, 2024 and December 31, 2023, all debt securities were classified as held to maturity ("HTM") or available for sale ("AFS"). Management considers the appropriateness of the accounting treatment applied to the Company's debt securities portfolio on an ongoing basis. During a prior year, certain AFS bonds were transferred to the HTM portfolio. Bonds selected for transfer included U.S. government and federal agencies, corporate bonds, and state and municipal bonds. The unrealized loss at the time of transfer is being amortized monthly over the remaining lives of the debt securities with an increase to the carrying value of the debt securities and a decrease to the related accumulated other comprehensive loss, which is included in the stockholders' equity section of the consolidated balance sheets. The following tables summarize the amortized cost, gross unrealized gains and losses, fair value and allowance for credit losses of AFS and HTM debt securities at September 30, 2024 and December 31, 2023 (dollars in thousands): <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:35.869%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.021%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.021%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.021%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.021%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.023%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="27" style="padding:2px 1pt;text-align:center;vertical-align:bottom">September 30, 2024</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Amortized<br/>Cost</td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Gross<br/>Unrealized<br/>Gains</td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Gross<br/>Unrealized<br/>(Losses)</td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Fair<br/>Value</td><td colspan="3" style="border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Allowance<br/>for Credit<br/>Losses</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt 2px 11pt;text-align:left;text-indent:-10pt;vertical-align:top">Securities available for sale:</td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000000;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000000;padding:0 1pt"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt 2px 28.37pt;text-align:left;text-indent:-10pt;vertical-align:top">U.S. government and federal agencies</td><td style="background-color:#ffffff;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom"><span style="color:#000000;font-family:'Times

or transfers of HTM could call into question management's ability or intent to hold the remaining HTM bond portfolio to maturity, thereby "tainting" the entire portfolio and triggering a reclassification of the entire portfolio to available for sale. However, there are limited situations, including evidence of deterioration in the issuer's creditworthiness, in which the Company could sell an HTM bond without tainting the remaining HTM portfolio. During the third quarter of 2024, the Company sold two HTM bonds from a single issuer due to significant documented deterioration of the issuer's creditworthiness evidenced by the downgrading of the issuer's public credit rating. The sales are included in the tables above. Under these circumstances, the sale did not taint the HTM portfolio. September 30, 2024, 46 out of 61 debt securities of the U.S. government and federal agencies, 15 out of 20 mortgage backed securities, 89 out of 108 corporate bonds, and 269 out of 306 state and municipal securities were in an unrealized loss position. All of the Company's investment portfolio was evaluated under the monitoring process described in Note 1 of the audited consolidated financial statements for the year ended December 31, 2023, and all investments were deemed investment grade. All of the unrealized losses are attributed to changes in market interest rates, and are not a result of deterioration of creditworthiness among any of the issuers. Of the total AFS and HTM portfolio at September 30, 2024 and December 31, 2023, 792 and 880 debt securities had unrealized losses with aggregate impairment of 3.8% and 6.0%, respectively, of the Company's amortized cost basis. These unrealized losses related principally to interest rate movements and not the creditworthiness of the issuer. In analyzing an issuer's financial condition, management considers whether the debt securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have

*occurred, and industry analysts' reports. Credit loss allowances for the AFS and HTM portfolios are described in the following sections. Allowance for Credit Losses—AFS Securities Management evaluates debt securities to determine whether the unrealized loss is due to credit-related factors or non-credit-related factors. This analysis occurs on a quarterly basis. Consideration is given to the extent to which fair value is less than cost, the financial condition and near-term prospects of the issuer, and the intent and ability of the Company to retain its investment in the security for a period of time sufficient to allow for full recovery of its amortized cost. If the assessment reveals that a credit loss exists, the present value of the expected cash flows of the security is compared to the amortized cost basis of the security. If the present value of future cash flows expected to be collected is less than the amortized cost, an allowance for the credit loss is recorded. The loss is limited by the amount that the amortized cost exceeds fair value. As of the reporting date, the Company did not intend to sell any of the AFS debt securities, did not expect to be required to sell these debt securities, and expected to recover the entire amortized cost basis of all of the debt securities. The Company did not record an ACL on the AFS debt securities at September 30, 2024 and December 31, 2023. The Company has evaluated these debt securities for credit-related impairment at the reporting date and concluded that no impairment existed. In analyzing an issuer's financial condition, management considers whether the debt securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, industry analysts' reports, and correlations between fair value changes and interest rate changes among instruments that are not credit sensitive. All AFS debt securities were current with no debt securities past due or on non-accrual as of September 30, 2024 and December 31, 2023. The Company considers the unrealized losses on the debt securities as of September 30, 2024 and December 31, 2023 to be related to fluctuations in market conditions, primarily interest rates, and is not reflective of deterioration in credit. The table below presents a rollforward by major security type of the allowance for credit losses on AFS debt securities for the nine months ended September 30, 2024 and 2023 (dollars in thousands): The Company estimates expected credit losses on HTM debt securities using an instrument -level process described in Note 1 of the audited consolidated financial statements for the year ended December 31, 2023. The primary indicators of credit quality for the Company's HTM portfolio are security type, time remaining to maturity, and credit rating. Credit ratings may be influenced by a number of factors including obligor cash flows, geography, seniority and others. The HTM portfolio includes debt securities issued by the U.S. Treasury and agencies of the federal government, and mortgage-backed securities issued by government agencies. These types of investments carry implicit or explicit backing of the U.S. Treasury, and therefore are deemed to carry no credit risk for purposes of the ACL evaluation. </span></div><div reciprocal deposit balance or sell the deposit balance. There were no reciprocal deposits held as of September 30, 2024. At December 31, 2023, the Bank held $177.3 million of reciprocal deposits through ICS® on its consolidated balance sheets. Total ICS® One-Way Sell® deposits of $432.3 million and $130.1 million as of September 30, 2024, and December 31, 2023, respectively, were sold to the network and excluded from the Company's consolidated balance sheets. The Company receives fee income for sold accounts, which is included in deposit placement services income on the consolidated statements of income. The Bank's deposit balances have consistently followed the trend of historic seasonality surrounding federal election cycles, where political organization deposits generally increase in the quarters leading up to federal elections and decline in the quarters during and after the elections. Consistent with this trend, as of September 30, 2024, the Bank maintained elevated deposit levels ahead of the November 2024 federal elections, with deposits reported on the balance sheet totaling $1.4 billion, and One-Way Sell® deposits totaling $432.3 million. Entering the fourth quarter of 2024—the quarter of the 2024 presidential election—between October 1, 2024 and November 12, 2024, the date prior to the filing of this quarterly report, total deposits, including reciprocal ICS® deposits, have ranged from approximately $1.1 billion to $1.4 billion, and ICS® One-Way Sell® accounts have approximately ranged from a minimum of $85.4 million to a maximum of $462.5 million. At the close of business on November 12, 2024, total deposits were $1.2 billion and ICS® One-Way Sell® accounts were $85.4 million. Declines in the volume of deposits retained on the balance sheet will cause net interest income to decrease, and declines in ICS® One-Way Sell® balances will cause noninterest income to decrease. The amount and timing of these deposit inflows and outflows are difficult to predict and may differ from historical patterns. FDIC deposit insurance covers $250 thousand per depositor, per FDIC-insured bank, for each account ownership category. The Company estimates uninsured deposits held at the Bank as of September 30, 2024 are $1.2 billion, which is 81.4% of total deposits. The Company estimated uninsured deposits as of December 31, 2023 were $648.0 million, which is 58.3% of total deposits. There were two clients with an individual deposit balance exceeding 5.0% of total deposits as of September 30, 2024. The total deposit balance related to these clients as of September 30, 2024 was $226.6 million or 15.8% of total deposits. There were no clients whose individual deposit balances exceeded 5.0% of total deposits as of December 31, 2023.0001773000004323000001301000001400000000432300000110000000014000000008540000046250000012000000008540000012000000000.814648000000.00.58322260

Federal Home Loan Bank Advance The Bank has a secured line of credit with the Federal Home Loan Bank, which is renewed annually in December. The Bank has historically pledged 1-4 family residential real estate loans within the Bank's loan portfolio to establish credit availability. At September 30, 2024 and December 31, 2023, the secured line of credit had no collateral pledged and therefore no available or outstanding balance. Short-Term Borrowings At September 30, 2024 and December 31, 2023, the Company had an unsecured line of credit from a correspondent bank totaling $10.0 million with an outstanding balance of $10.0 million as of September 30, 2024 and $5.0 million as of December 31, 2023. On October 10, 2024, the Company used a portion of the net proceeds from the IPO to fully repay the $10.0 million outstanding balance. The Company subsequently closed the line on October 11, 2024. The interest rate on the line of credit was 7.85% and 7.95% at September 30, 2024 and December 31, 2023, respectively. As of December 6, 2023, the agreement was amended to require payment of a quarterly unused commitment fee at the rate of 1.00% per annum on the undisbursed and uncanceled daily balance during the preceding quarter. The Bank has unsecured federal fund purchase lines of credit with Community Bankers' Bank totaling $8.0 million maturing March 12, 2025, First National Bankers' Bank totaling $10.0 million maturing on June 30, 2025, and Pacific Coast Bankers' Bank totaling $50.0 million maturing June 30, 2025. The federal funds lines renew annually and balances may remain outstanding for period of up to 10 to 90 consecutive days. The use of the facilities is subject to certain terms and conditions, including those related to the Bank's financial condition. There were no outstanding federal funds purchased balances as of September 30, 2024 and December 31, 2023.10000000.010000000.010000000.05000000.010000000.00.07850.07950.01008000000.010000000.050000000.000Fair Value Measurements Determination of Fair Value Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value measurements and disclosure topic specifies a hierarchy of valuation techniques based on whether the inputs to these valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. U.S. GAAP requires that valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. Fair Value Hierarchy U.S. GAAP establishes a fair value hierarchy which categorizes the valuation inputs into three broad levels. Based on the underlying inputs, each fair value measurement in its entirety is reported in one of the three levels. These levels are; Level 1 - Valuation is based on quoted prices in active markets for identical assets and liabilities that the reporting entity has the ability to access at the measurement date. Level 1 assets and liabilities generally include debt and equity securities that are traded in an active exchange market. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities. Level 2 - Valuation is based on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The valuation may be based on quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability. Level 3 - Valuation is based on unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which determination of fair value requires significant management judgment or estimation. An asset or liability's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Assets and Liabilities Measured at Fair Value on a Recurring Basis The following describes the valuation techniques used by the Company to measure certain financial assets and liabilities recorded at fair value on a recurring basis in the financial statements: Securities Available for Sale & Equity Securities Debt securities available for sale and equity securities are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted market prices, when available (Level 1). If quoted market prices are not available, fair values are measured utilizing independent valuation techniques of identical or similar securities for which significant assumptions are derived primarily from or corroborated by observable market data (Level 2). If the inputs used to provide the evaluation for certain securities are unobservable and/or there is little, if any, market activity then the security would fall to the lowest level of the hierarchy (Level 3). The Company's investment portfolio is valued using fair value measurements that are considered to be Level 1 or Level 2 but may also use Level 3 measurements if required by the composition of the portfolio. The Bank has contracted with a securities portfolio accounting service provider for valuation of its securities portfolio. Most security types are priced using the securities accounting provider's internally developed pricing software which appraises securities from an online real-time database. Subscription pricing services such as ICE Data Services and Bloomberg Valuation Services may be used to supplement the internal pricing system for security types where the underlying collateral, cash flow projections or trade data is not readily available. If Level 1 or Level 2 inputs are not available, the software may rely upon a discounted cash flow analysis based on the net present value of a security's projected cash flow to arrive at fair market value. Valuations for direct obligations of the U.S. Treasury, exchange listed stock and preferred stock are obtained from on-line real-time databases. The securities accounting service provider utilizes proprietary valuation matrices for valuing all municipal securities. The initial curves for determining the price, movement, and yield relationships within the municipal matrices are derived from industry benchmark curves or sourced from a municipal trading desk. The securities are further broken down according to issuer, credit support, state of issuance and rating to incorporate additional spreads to the industry benchmark curves. Adjustments to the fair value of these assets usually result from the application of lower-of-cost-or-market accounting or write-downs of individual assets. Collateral Dependent Loans Individually evaluated loans are analyzed to determine whether they are collateral dependent. Any individually evaluated loans, which are deemed to be collateral dependent, with an allocation to the ACL are measured at fair value on a non-recurring basis. Any fair value adjustments are recorded in the period incurred as provision for credit losses on the consolidated statements of income. The measurement of loss associated with collateral dependent loans can be based on either the observable market price of the loan or fair value of the collateral. Fair value is measured based on the value of the collateral securing the loans. Collateral may be in the form of real estate or business assets including equipment, inventory, and accounts receivable. The vast majority of the collateral is real estate. The value of real estate collateral is determined utilizing a market valuation approach based on an appraisal conducted by an independent, licensed appraiser outside of the Company using observable market data (Level 2). However, if the collateral is a house or building in the process of construction or if an appraisal of the real estate property using an income approach or is over two years old, then the fair value is considered Level 3. The value of business equipment is based upon an outside appraisal if deemed significant, or the net book value on the applicable business's financial statements if not considered significant using observable market data. Likewise, values for inventory and accounts receivables collateral are based on financial statement balances or aging reports (Level 3). Any fair value adjustments are recorded in the period incurred as a provision for loan credit losses on the consolidated statements of income. There were no collateral dependent loans with a recorded reserve as of September 30, 2024 and December 31, 2023. Other Real Estate Owned Other real estate owned ("OREO") is measured at fair value less costs to sell. Valuation of OREO is determined using current appraisals from independent parties, a Level 2 input. If current appraisals cannot be obtained, or if declines in value are identified after a recent appraisal is received, appraisal values may be discounted, resulting in a Level 3 estimate. If the Company markets the property with a realtor, estimated selling costs reduce the fair value, resulting in a valuation based on Level 3 inputs. Fair value adjustments are recorded in the period incurred and expensed against current earnings. The Bank held no OREO at September 30, 2024 and December 31, 2023. Loans Held for Sale Loans held for sale are carried at the lower of cost or fair value. These loans currently consist of 1-4 family residential loans originated for sale in the secondary market. Fair value is based on the price secondary markets are currently offering for similar loans using observable market data which is not materially different than cost due to the short duration between origination and sale (Level 2). As such, the Company records any fair value adjustments on a nonrecurring basis. No nonrecurring fair value adjustments were recorded on loans held for sale at September 30, 2024 or December 31, 2023. There were no assets measured at fair value on a nonrecurring basis at September 30, 2024 and December 31, 2023. Events There were no subsequent events other than those disclosed in Note 2. Capital Structure, Note 5. Deposits, and Note 6. Borrowings. falsefalsefalsefalse Derived from audited financial statements. On October 3, 2024, the Company filed an Amended and Restated Certificate of Incorporation with the Secretary of State of the State of Delaware, which reclassified and converted each outstanding share of the Company's existing common stock, par value $1.00 per share ("Old Common Stock"), into 170 shares of Class B Common Stock, par value $0.01 per share (the "Reclassification"). The Reclassification also authorized 20,000,000 shares of Class A Common Stock, and 10,000,000 shares of Preferred Stock. Share information is presented on an as adjusted basis giving effect to the Reclassification. Accordingly, all shares and balances relating to Old Common Stock are reflected in Class B Common Stock. See Note 2—Capital Structure in the Notes to Unaudited Consolidated Financial Statements contained within this Form 10-Q. Share information for all periods presented gives effect to the Reclassification. All earnings are attributed to Class B shares because no Class A shares were outstanding during the periods presented. The number of basic and diluted shares are the same because there are no potentially dilutive instruments. See Note 2—Capital Structure and Note 9—Earnings Per Share in the Notes to Unaudited Consolidated Financial Statements contained within this Form 10-Q. Share information for all periods presented gives effect to the Company's share Reclassification. Accordingly, all shares and balances relating to Old Common Stock are reflected in Class B Common Stock. See Note 2—Capital Structure in the Notes to Unaudited Consolidated Financial Statements contained within this Form 10-Q.
