(Unaudited)NOTE 1 â€” BASIS OF PRESENTATIONThe consolidated financial statements of the Company at DecemberÂ 31, 2024 and 2023 and for the three and nine months then ended were prepared in accordance with the instructions for Form 10-Q and are unaudited; however, in the opinion of management, all adjustments (consisting only of items of a normal, recurring nature) necessary for a fair presentation of the financial position at DecemberÂ 31, 2024,

and the results of operations and cash flows for the periods ended DecemberÂ 31, 2024 and 2023, have been included.Â The results for the interim periods are not necessarily indicative of the results that may be expected for the full year or any other interim period.The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent liabilities at the date of the consolidated financial statements and the reported amount of revenue and expenses during the reporting period.Â Actual results could differ from those estimates.The consolidated financial statements do not include all disclosures required by GAAP and should be read in conjunction with the Companyâ€™s audited consolidated financial statements and related notes for the fiscal year ended MarchÂ 31, 2024, included in the Companyâ€™s Annual Report on Form 10-K for the fiscal year ended MarchÂ 31, 2024, as filed with the SEC (the "fiscal 2024 Annual Report"). The Company applies the accounting policies contained in Note 1 to the Consolidated Financial Statements included in fiscal 2024 Annual Report. The Company believes that the disclosures are adequate to make the information presented not misleading.NOTE 2 â€“ SUMMARY OF SIGNIFICANT POLICIESNature of OperationsThe Company is a small-loan consumer finance company headquartered in Greenville, South Carolina that offers short-term small loans, medium-term larger loans, related credit insurance products and ancillary products and services to individuals who have limited access to other sources of consumer credit.Â The Company offers income tax return preparation services to its loan customers and other individuals.SeasonalityThe Company's loan volume and corresponding loans receivable follow seasonal trends. The Company's highest loan demand generally occurs from October through December, its third fiscal quarter. Loan demand is generally lowest and loan repayment highest from January to March, its fourth fiscal quarter. Loan volume and average balances remain relatively level during the remainder of the year. Consequently, the Company experiences significant seasonal fluctuations in its operating results and cash needs. Operating results for the Company's third fiscal quarter are generally lower than in other quarters, and operating results for its fourth fiscal quarter are generally higher than in other quarters.Loans receivable, netLoans receivable are carried at amortized cost, which is the gross amount outstanding, reduced by unearned interest and insurance income, net of deferred origination fees and direct costs, and an allowance for credit losses. Fees received and direct costs incurred for the origination of loans are deferred and amortized to interest income over the contractual lives of the loans using the interest method. Unamortized amounts are recognized in income at the time that loans are refinanced or paid in full except for those refinancings that do not constitute a more than minor modification. Net unamortized deferred origination costs were $6.6Â million and $5.0Â million as of DecemberÂ 31, 2024 and MarchÂ 31, 2024, respectively.From time to time, the Company will sell charged off loans receivable, which are accounted for as a sale in accordance with ASC 860, Transfers and Servicing. See Note 4 to the Consolidated Financial Statements for further information.Allowance for credit lossesRefer to Note 4 to the Consolidated Financial Statements for information regarding the Company's CECL allowance model and a description of the policies and methodology utilized.11Table of ContentsReclassificationFrom time to time, prior period amounts will be reclassified to conform to the current presentation. Such reclassifications have no impact on previously reported net income or shareholders' equity.Recently Issued Accounting Standards Not Yet AdoptedImprovements to Reportable Segment DisclosuresIn November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, which improves reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. The amendments are effective for fiscal years beginning after December 15, 2023, and for interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The amendments should be applied retrospectively to all prior periods presented in the financial statements. Management is currently evaluating this ASU to determine its impact on the Company's consolidated financial statements and related disclosures.Improvements to Income Tax DisclosuresIn December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which modifies the rules on income tax disclosures to require entities to expand annual disclosures to 1) include specific categories in the rate reconciliation and additional information for reconciling items that meet a quantitative threshold and 2) disclose the amount of income taxes paid (net of refunds received) disaggregated by federal, state and foreign taxes. ASU 2023-09 also requires entities to disclose income (or loss) from continuing operations before income tax expense (or benefit) disaggregated between domestic and foreign, and income tax expense (or benefit) from continuing operations disaggregated by federal, state and foreign, among other changes. The amendments are effective for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. ASU 2023-09 should be applied on a prospective basis, but retrospective application is permitted. Management is currently evaluating this ASU to determine its impact on the Company's consolidated financial statements and related disclosures.Disaggregation of Income Statement Expenses In November 2024, the FASB issued ASU 2024-03, Disaggregation of Income Statement Expenses, which requires additional disclosure, in the notes to financial statements, about specific types of expenses included in the expense captions presented on the face of the income statement as well as disclosures about selling expenses. The amendments in this update are effective for annual reporting periods beginning after December 15, 2026, and interim periods within annual reporting periods beginning after December 15, 2027, which was clarified by ASU 2025-01, Clarifying the Effective Date. Early adoption is permitted. ASU 2024-03 should be applied either (1) prospectively to financial statements issued for reporting periods after the effective date of this update or (2) retrospectively to any or all prior periods presented in the financial statements. Management is currently evaluating this ASU to determine its impact on the Company's consolidated financial statements and related disclosures.We reviewed all other newly issued accounting pronouncements and concluded that they are either not applicable to our business or are not expected to have a material effect on the consolidated financial statements and related disclosures as a result of future adoption.12Table of ContentsNOTE 3 â€“ FAIR VALUEFair Value DisclosuresThe Company may carry certain financial instruments and derivative assets and liabilities at fair value measured on a recurring or nonrecurring basis. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Company measures the fair values of its financial instruments based on the fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.Fair value measurements are grouped in three levels. The levels prioritize the inputs used to measure the fair value of the assets or liabilities.Â These levels are:â€¢Level 1 â€“ Quoted prices (unadjusted) in active markets for identical assets or liabilities.â€¢Level 2 â€“ Inputs other than quoted prices that are observable for assets and liabilities, either directly or indirectly. These inputs include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are less active.â€¢Level 3 â€“ Unobservable inputs for assets or liabilities reflecting the reporting entityâ€™s own assumptions.The Companyâ€™s financial instruments consist of cash and cash equivalents, loans receivable, net, the senior notes payable, and the senior unsecured notes payable. Loans receivable are originated at prevailing market rates and have an average life of up to twelve months. Given the short-term nature of these loans, they are continually repriced at current market rates. The Companyâ€™s senior notes payable, consisting of a senior revolving credit facility, has a variable rate based on a margin over SOFR and reprices with any changes in SOFR. The fair value of the senior unsecured notes payable is estimated based on quoted prices in markets that are not active. The Company also considers its creditworthiness in its estimation of fair value.The carrying amounts and estimated fair values of financial assets and liabilities disclosed but not carried at fair value and their level within the fair value hierarchy are summarized below.

The Companyâ€™s payment performance buckets are as follows: current, 30-60 days past due, 61-90 days past due, 91 days or more past due. All loans, except for TALs, that are greater than 90 days past due on a recency basis and not written off as of the reporting date are reserved for at 100% of the outstanding balance, net of a calculated Rehab Rate. The weighted average Rehab Rate at DecemberÂ 31, 2024 and MarchÂ 31, 2024 was 4.7% and 4.9%, respectively. A loan is charged off within the allowance for credit losses in the month following when an account reaches 120 days past due on a recency basis, subject to certain exceptions. Specifically, the Companyâ€™s customer accounts in a confirmed bankruptcy are generally charged off in the month after they reach 60 days past due on a recency basis. The accounts of deceased or incarcerated customers are also generally charged off in the month after they reach 60 days past due on a recency basis, with the exception of deceased customers with credit life insurance. Subsequent recoveries of amounts charged off, if any, are credited to the allowance for credit losses.The following table provides a breakdown of the Companyâ€™s gross loans receivable by current payment performance on a recency basis and year of origination at DecemberÂ 31, 2024:

The allowance for credit losses is an estimate of expected losses inherent within the Companyâ€™s gross loans receivable portfolio. In estimating the allowance for credit losses, loans with similar risk characteristics are aggregated into pools and collectively assessed. The Companyâ€™s loan products have generally the same terms therefore the Company looks to borrower characteristics as a way to disaggregate loans into pools sharing similar risks.In determining the allowance for credit losses, the Company examined four borrower risk metrics as noted below.1.Borrower type2.Active months3.Prior loan performance4.Customer TenureTo determine how well each metric predicts default risk the Company used loss rate data over an observation period of twelve months at the loan level.The information value was then calculated for each metric. From this analysis management determined the metric that had the strongest predictor of default risk was Customer Tenure. The Customer Tenure buckets used in the allowance for credit loss calculation are:1.0 to 5 months2.6 to 17 months3.18 to 35 Â Â Â Â months4.36 to 59 months5.60+ monthsManagement will continue to monitor this credit metric on a quarterly basis.Management estimates an allowance for each Customer Tenure bucket by performing a historical migration analysis of loans in that bucket for the twelve most recent historical twelve-month migration periods. Management considers whether current credit conditions might suggest a change is needed to the allowance for credit losses by monitoring trends in first pay success for new borrowers, 60-89 day delinquencies on a recency basis, percent of loan balances that are paying and percentage of gross loans that are acquired loans. If management determines that historical migration rates should be adjusted to reflect expected credit losses, a qualitative adjustment is made to reflect management's judgment regarding observable changes in recent or expected economic trends and conditions, portfolio composition, or other significant events or conditions that affect the current estimate. The increase in the allowance for credit losses from MarchÂ 31, 2024 to DecemberÂ 31, 2024 was primarily due to loan growth during the period.Due to the short term nature of the loan portfolio, forecasted changes in macroeconomic variables such as unemployment levels, general inflation and commodity prices, typically do not have a significant impact on loans outstanding at the end of a particular reporting period, unless those changes are particularly severe and sudden in nature. Therefore, management develops a reasonable and

supportable forecast of losses by comparing the most recent six-month loss curves as compared to historical loss curves to see if there are significant changes in borrower behavior that may indicate the historical migration rates should be adjusted. If a change is determined necessary, then the Company has elected to immediately revert back to historical experience past the forecast period. As of DecemberÂ 31, 2024 and MarchÂ 31, 2024, there were no conditions or other factors considered significant enough to warrant a forecast adjustment.18Table of ContentsThe following table presents a roll forward of the allowance for credit losses for the three and nine months ended DecemberÂ 31, 2024 and 2023:Three months ended December 31,Nine months ended December 31,202402320242023Beginning balance$114,455,495Â $128,892,192Â $102,962,811Â $125,552,733Â Provision for credit losses44,103,495Â 40,631,994Â 136,191,023Â 127,697,072Â Charge-offs(48,822,970)(54,734,982)(139,390,477)(157,228,614)Recoveries16,374,926Â 6,292,864Â 16,347,589Â 25,060,877Â Net charge-offs(42,448,044)(48,442,118)(123,042,888)(132,167,737)Ending Balance$116,110,946Â $121,082,068Â $116,110,946Â $121,082,068Â The following table is an aging analysis on a recency basis at amortized cost of the Companyâ€™s gross loans receivable at DecemberÂ 31, 2024:Days Past Due - Recency BasisCustomer TenureCurrent30 - 6061 - 90Over 90Total Past DueTotal Loans0 to 5 months$97,729,708Â $8,178,732Â $5,850,084Â $8,447,701Â $22,476,517Â $120,206,225Â 6 to 17 months71,894,285Â 4,123,710Â 2,957,998Â 4,816,581Â 11,898,289Â 83,792,574Â 18 to 35 months104,818,028Â 5,232,991Â 3,486,649Â 5,481,633Â 14,201,273Â 119,019,301Â 36 to 59 months135,845,513Â 6,391,258Â 3,906,289Â 6,147,231Â 16,444,778Â 152,290,291Â 60+ months840,799,168Â 27,617,871Â 15,401,333Â 21,055,701Â 64,074,905Â 904,874,073Â TALs191,926Â 71,880Â 56,193Â 959,439Â 1,087,512Â 1,279,438Â Total gross loans1,251,278,628Â 51,616,442Â 31,658,546Â 46,908,286Â 130,183,274Â 1,381,461,902Â Unearned interest, insurance and fees(331,428,164)(9,525,813)(8,350,208)(12,139,963)(30,015,984)(361,444,148)Total net loans$919,850,464Â $42,090,629Â $23,308,338Â $34,768,323Â $100,167,290Â $1,020,017,754Â Percentage of period-end gross loans receivable3.7%2.3%3.4%9.4%The following table is an aging analysis on a recency basis at amortized cost of the Companyâ€™s gross loans receivable at MarchÂ 31, 2024:1 Recoveries during the three months ended December 31, 2024 include $2.6Â million and $1.5Â million in proceeds related to the recurring sales of charge-offs and bulk sale of charge-offs from prior periods, respectively. Loans are placed on nonaccrual status when management determines that the full payment of principal and collection of interest according to contractual terms is no longer likely. The accrual of interest is discontinued when a loan is 61 days or more past the contractual due date. When the interest accrual is discontinued, all unpaid accrued interest is reversed against interest income. While a loan is on nonaccrual status, interest income is recognized only when a payment is received. Once a loan moves to nonaccrual status, it remains in nonaccrual status until it is paid out, charged off or refinanced.The following table presents unpaid accrued interest reversed against interest income by Customer Tenure for the three and nine months ended DecemberÂ 31, 2024 and 2023:Three months ended December 31,Nine months ended December 31,202402320242023Customer Tenure0 to 5 months$(1,513,556)$(1,364,409)$(3,943,143)$(3,910,003)6 to 17 months(802,513)(779,642)(2,201,034)(2,653,697)18 to 35 months(789,715)(949,250)(2,378,004)(2,612,375)36 to 59 months(829,641)(1,068,613)(2,553,282)(3,214,245)60+ months(3,227,592)(2,828,677)(8,869,807)(7,977,412)Total$(7,163,017)$(6,990,591)$(19,945,270)$(20,367,732)The following table presents the amortized cost basis of loans on nonaccrual status as of the beginning of the reporting period and the end of the reporting period, as well as interest income recognized on nonaccrual loans for the three and nine months ended DecemberÂ 31, 2024 and 2023:21Table of ContentsNonaccrual Loans ReceivableCustomer TenureAs of December 31, 2024As of March 31, 2024Interest IncomeRecognized for the three months ended December 31, 2024Interest IncomeRecognized for the three months ended December 31, 2023Interest IncomeRecognized for the nine months ended December 31, 2024Interest IncomeRecognized for the nine months ended December 31, 20230 to 5 months$14,404,816Â $13,971,062Â $152,639Â $197,470Â $521,894Â $769,418Â 6 to 17 months9,047,425Â 8,507,503Â 217,517Â 319,474Â 661,265Â 1,168,253Â 18 to 35 months11,964,366Â 12,569,729Â 346,761Â 396,720Â 1,057,869Â 1,249,102Â 36 to 59 months13,915,169Â 15,250,596Â 402,275Â 547,608Â 1,315,569Â 1,728,965Â 60+ months51,333,978Â 45,091,589Â 1,507,229Â 1,497,757Â 4,463,586Â 4,785,842Â Unearned interest, insurance and fees(26,362,491)(24,643,778)â€”Â â€”Â â€”Â â€”Â Total$74,303,263Â $70,746,701Â $2,626,421Â $2,959,029Â $8,020,183Â $9,701,580Â As of December 31, 2024 and MarchÂ 31, 2024, there were no loans receivable 61 days or more past due, not on nonaccrual status, and no loans receivable on nonaccrual status with no related allowance for credit losses.22Table of ContentsNOTE 5 â€“ LEASESAccounting Policies and Matters Requiring Management's JudgmentThe Company uses its senior notes payable's effective annual interest rate to determine the discount rate when evaluating leases under Topic 842. Specifically, Management applies its senior notes payable's effective annual interest rate at the end of the prior fiscal year to leases entered into in the following year. For example, the senior notes payable's annual effective interest rate of 9.9% at March 31, 2024 was used as the discount rate when determining the lease type and the present value of lease payments for leases entered into in fiscal 2025.Based on its historical practice, the Company believes it is reasonably certain to exercise a given option associated with a given office space lease. Therefore, the Company classifies all lease options for office space as â€œreasonably certainâ€ unless it has specific knowledge to the contrary for a given lease. The Company does not believe it is reasonably certain to exercise any options associated with its office equipment leases.Periodic DisclosuresThe Company's operating leases consist of real estate leases for office space as well as office equipment. Both the branch real estate and office equipment lease terms generally range from three years to five years, and generally contain options to extend which mirror the original terms of the lease. As of DecemberÂ 31, 2024 and 2023, the Company had no finance leases.The following table reports information about the Company's lease cost for the three and nine months ended DecemberÂ 31, 2024 and 2023:Three months ended December 31,Nine months ended December 31,Â 202402320242023Lease CostOperating lease cost$6,387,738Â $6,163,762Â $18,846,686Â $19,000,163Â Variable lease cost940,465Â 888,119Â 2,949,878Â 2,808,845Â Total lease cost$7,328,203Â $7,051,881Â $21,796,564Â $21,809,008Â The following table reports other information about the Company's leases for the three and nine months ended DecemberÂ 31, 2024 and 2023:Three months ended December 31,Nine months ended December 31,Â 20242023202420230Other Lease InformationOperating cash flows for amounts included in the measurement of lease liabilities â€“ operating leases$6,301,091Â $6,265,527Â $18,884,883Â $18,965,468Â Right-of-use assets obtained in exchange for new operating lease liabilities$3,247,250Â $4,568,169Â $13,812,021Â $13,560,648Â Weighted average remaining lease term â€“ operating leases6.5 years6.9 years6.5 years6.9 yearsWeighted-average discount rate â€“ operating leases6.8Â %6.3Â %6.8Â %6.3Â %23Table of ContentsThe aggregate annual lease obligations as of DecemberÂ 31, 2024 are as follows:Operating LeasesRemainder of 2025$6,160,520Â 202622,367,057Â 202717,961,935Â 202814,520,255Â 202910,573,915Â Thereafter29,343,439Â Total undiscounted lease liability$100,927,121Â Imputed interest19,719,824Â Total discounted lease liability$81,207,297Â The Company had no leases with related parties as of DecemberÂ 31, 2024 or MarchÂ 31, 2024.24Table of ContentsNOTE 6 â€“ AVERAGE SHARE INFORMATIONThe following is a summary of the basic and diluted average common shares outstanding:Three months ended December 31,Nine months ended December 31,202402320242023Basic:Â Â Weighted average common shares outstanding (denominator)5,436,688Â 5,772,503Â 5,461,990Â 5,775,108Â Diluted:Â Â Weighted average common shares outstanding5,436,688Â 5,772,503Â 5,461,990Â 5,775,108Â Dilutive potential common shares27,529Â 87,614Â 64,794Â 121,608Â Weighted average diluted shares outstanding (denominator)5,464,217Â 5,860,117Â 5,526,784Â 5,896,716Â Â Options to purchase 246,111 and 291,826 shares of common stock at various prices were outstanding during the three months ended DecemberÂ 31, 2024 and 2023, respectively, but were not included in diluted shares outstanding because the option exercise price exceeded the market value of the shares.Options to purchase 250,034 and 299,904 shares of common stock at various prices were outstanding during the nine months ended DecemberÂ 31, 2024 and 2023, respectively, but were not included in diluted shares outstanding because the option exercise price exceeded the market value of the shares.25Table of ContentsNOTE 7 â€“ STOCK-BASED COMPENSATIONStock Incentive PlansThe Company maintains the 2008 Plan, the 2011 Plan and the 2017 Plan for the benefit of certain non-employee directors, officers, and key employees.Â Under these plans, a total of 3,350,000 shares of authorized common stock have been reserved for issuance pursuant to grants approved by the Compensation Committee.Â Stock options granted under these plans have a maximum term of 10 years, may be subject to certain vesting requirements, which are generally three to six years for officers, non-employee directors, and key employees, and are priced at the market value of the Company's common stock on the option's grant date.Â At DecemberÂ 31, 2024, there were a total of 187,020 shares of common stock remaining available for grant under the 2017 Plan.Stock-based compensation is recognized as provided under FASB ASC Topic 718-10 and FASB ASC Topic 505-50.Â FASB ASC Topic 718-10 requires all share-based payments to employees, including grants of employee stock options, to be recognized as compensation expense over the requisite service period (generally the vesting period) in the consolidated financial statements based on their grant date fair values. Stock-based compensation related to restricted stock is based on the number of shares expected to vest and the fair market value of the common stock on the grant date. Stock-based compensation related to stock option awards is based on the number of shares expected to vest and the estimated fair value of the awards on the grant date using the Black-Scholes valuation model. Under the Black-Scholes valuation method, the assumptions used to determine the fair value are expected volatility, expected life, average risk-free rate, and dividend yield, if any. The expected stock price volatility is based on the historical volatility of the Company's common stock for a period approximating the expected life. The expected life represents the period of time that options are expected to be outstanding after the grant date. The risk-free rate reflects the interest rate at grant date on zero coupon U.S. governmental bonds having a remaining life similar to the expected option term.2018 Long-term Incentive Program and Non-Employee Director AwardsOn October 15, 2018, the Compensation Committee and Board of Directors approved and adopted a long-term incentive program that seeks to motivate and reward certain employees and to align managementâ€™s interest with shareholdersâ€™ interest by focusing executives on the achievement of long-term results. The program is comprised of four components: Service Options, Performance Options, Restricted Stock, and Performance Shares.Pursuant to this program, in fiscal 2019, the Compensation Committee approved certain grants of Service Options, Performance Options, Restricted Stock and Performance Shares under the 2011 Plan and the 2017 Plan to certain employee directors, vice presidents of operations, vice presidents, senior vice presidents, and executive officers. Separately, the Compensation Committee approved certain grants of Service Options and Restricted Stock to certain non-employee directors of the Company.Under the long-term incentive program, up to 100% of the shares of restricted stock subject to the Performance Shares will vest, if at all, based on the achievement of two trailing EPS performance targets established by the Compensation Committee that are based on EPS (measured at the end of each calendar quarter, commencing with the calendar quarter ending September 30, 2019) for the previous four calendar quarters. The Performance Shares are eligible to vest over the 2018 Performance Share Measurement Period, subject to each respective employeeâ€™s continued employment at the Company through the last day of the 2018 Performance Share Measurement Period (or as otherwise provided under the terms of the applicable award agreement or applicable employment agreement).The Performance Share performance targets are set forth below.Trailing 4-Quarter EPS Targets forSeptember 30, 2018 through March 31, 2025Restricted Stock Eligible for Vesting(Percentage of Award)$16.3540%$20.4560%During the second quarter of fiscal 2025, it was determined that the $20.45 Performance Share performance target was no longer probable of being achieved and that the $20.45 Performance Shares would likely be forfeited as of the last day of the performance period in accordance with their terms. As a result and in accordance with ASC 718, the Company reversed $18.5Â million in previously recognized stock-based compensation related to the $20.45 Performance Shares during the second quarter of fiscal 2025.26Table of ContentsThe Restricted Stock awards typically vest in three to six equal annual installments, beginning on the first anniversary of the grant date, subject to each respective employeeâ€™s continued employment at the Company through each applicable vesting date or otherwise provided under the terms of the applicable award agreement or applicable employment agreement.The Service Options typically vest in three equal annual installments, beginning on the first anniversary of the grant date, subject to each respective employeeâ€™s continued employment at the Company through each applicable vesting date or otherwise provided under the terms of the applicable award agreement or applicable employment agreement. In such cases, the Company typically retains the existing employees and the branch location from the acquisition.Â The purchase price is allocated to the tangible assets and intangible assets acquired based upon their estimated fair market values at the acquisition date.Â The remainder is allocated to goodwill.Acquisitions that are accounted for as asset purchases are typically limited to acquisitions of loan portfolios. The purchase price is allocated to the tangible assets and intangible assets acquired based upon their estimated fair values at the acquisition date.Â In an asset purchase, no goodwill is recorded. When the cost of an asset acquisition is less than the fair value of the net assets acquired, the benefit is allocated to nonmonetary long-lived assets acquired on a relative fair value basis. However, any assets for which the subsequent application of GAAP would result in an immediate gain (e.g., financial assets, assets held for sale) are not allocated a portion of the cost below fair value. Any remaining benefit is recorded as a discount on purchase, which is a component of Unearned interest, insurance and fees in the Company's Consolidated Balance Sheets, and is amortized over the life of loans receivable acquired. During the nine months ended DecemberÂ 31, 2024, the Company recorded a $1.0Â million discount on loans acquired in asset purchases.The Companyâ€™s acquisitions include tangible assets (generally loans and furniture and equipment) and intangible assets (generally non-compete agreements, customer lists, and goodwill), both of which are recorded at their fair values, which are estimated pursuant to the processes described below.Acquired loans are valued at the net loan balance.Â Given the short-term nature of these loans, generally less than twelve months, and that these loans are priced at current rates, management believes the net loan balances approximate their fair value. Under CECL, acquired loans are included in the reserve calculations for all loan types (excluding TALs). Management includes recent acquisition activity compared to historical activity when considering reasonable and supportable forecasts as it relates to assessing the adequacy of the allowance for expected credit losses. The Company did not acquire any loans that would qualify as PCDs during the nine months ended DecemberÂ 31, 2024 and 2023.Furniture and equipment are valued at the specific purchase price as agreed to by both parties at the time of acquisition, which management believes approximates their fair values.Non-compete agreements are valued at the stated amount paid to the other party for these agreements, which the Company believes approximates their fair values. Customer lists are valued with a valuation model that utilizes the Companyâ€™s historical data to estimate the value of any acquired customer lists.The results of all acquisitions are included in the Companyâ€™s consolidated financial statements since the respective acquisition date. The pro forma impact of these branches as though they had been acquired at the beginning of the periods presented would not have a material effect on the results of operations as reported.NOTE 9 â€“ INTANGIBLE ASSETS30Table of ContentsThe following table provides the gross carrying amount and related accumulated amortization of definite-lived intangible assets:Â December 31, 2024March 31, 2024Â Gross CarryingAmountAccumulatedAmortizationNet Intangible Asset Gross CarryingAmountAccumulatedAmortizationNet Intangible Asset Customer lists$55,858,615Â $(47,593,700)$8,264,915Â $55,730,620Â $(44,796,996)$10,933,624Â Non-compete agreements10,534,749Â (10,498,178)36,571Â 10,528,143Â (10,392,034)136,109Â Total$66,393,364Â $(58,091,878)$8,301,486Â $66,258,763Â $(55,189,030)$11,069,733Â The estimated amortization expense for intangible assets for future fiscal years ended March 31 is as follows: $0.9 million for the remainder of 2025; $3.2 million for 2026; $2.7 million for 2027; $0.9 million for 2028; $0.4 million for 2029; and an aggregate of $0.2 million for the years thereafter.NOTE 10 â€“ DEBTSenior Notes Payable; Revolving Credit FacilityAt DecemberÂ 31, 2024, the Company's senior notes payable consisted of a $580.0 million senior revolving credit facility, which has an accordion feature permitting the maximum aggregate commitments to increase to $730.0 million provided that certain conditions are met.At DecemberÂ 31, 2024, $335.9 million was outstanding under the Company's credit facility, not including $725.8 thousand in outstanding standby letters of credit, which include (i) $300.0Â thousand related to worker's compensation expiring on December 31, 2025 and (ii) $425.8Â thousand related to the Company's investment in captive insurance expiring on April 12, 2025. Both letters of credit automatically extend for one year on their expiration dates. To the extent that the letter of credit is drawn upon, the disbursement will be funded by the credit facility. There are no amounts due related to the letters of credit as of DecemberÂ 31, 2024. Subject to a borrowing base formula, the Company may borrow at the rate of one month SOFR plus 0.10% and an applicable margin of 3.5% with a minimum rate of 4.5%. The revolving credit facility has a commitment fee of 0.50% per annum on the unused portion of the commitment. Commitment fees on the unused portion of the borrowing totaledÂ $1.2 million and $1.3 million for the nine months endedÂ DecemberÂ 31, 2024 andÂ 2023, respectively.For the nine months ended DecemberÂ 31, 2024 and fiscal year ended MarchÂ 31, 2024, the Companyâ€™s effective interest rate, including the commitment fee and amortization of debt issuance costs, was 9.7% annualized and 9.9%, respectively. At DecemberÂ 31, 2024, the unused amount available under the revolving credit facility was $243.3 million and borrowings under the revolving credit facility mature on JuneÂ 7, 2026.Substantially all of the Companyâ€™s assets are pledged as collateral for borrowings under the revolving credit agreement.Senior Unsecured Notes PayableOn September 27, 2021, we issued $300Â million in aggregate principal amount of 7.0% senior notes due November 2026. The Notes were sold in a private placement in reliance on Rule 144A and Regulation S under the Securities Act of 1933, as amended (the "Securities Act"). The Notes are unconditionally guaranteed, jointly and severally, on a senior unsecured basis by all of the Companyâ€™s existing and certain of its future subsidiaries that guarantee the revolving credit facility. Interest on the Notes is payable semi-annually in arrears on May 1 and November 1 of each year, commencing May 1, 2022. At any time prior to November 1, 2023, the Company could have redeemed the Notes, in whole or in part, at a redemption price equal to 100% of the principal amount plus a make-whole premium, as described in the indenture, plus accrued and unpaid interest, if any, to, but not including, the date of redemption. At any time on or after November 1, 2023, the Company may redeem the Notes at redemption prices set forth in the indenture, plus accrued and unpaid interest, if any, to, but not including, the date of redemption. In addition, at any time prior to November 1, 2023, the Company could have used the proceeds of certain equity offerings to redeem up to 40.0% of the aggregate principal amount of the Notes issued under the indenture at a redemption price equal to 107.0% of the principal amount of Notes redeemed, plus accrued and unpaid interest, if any, to, but not including, the date of redemption.We used the net proceeds from this offering to repay a portion of the outstanding indebtedness under our revolving credit facility and for general corporate purposes.31Table of ContentsDuring the nine months ended DecemberÂ 31, 2024, the Company repurchased and extinguished $49.3Â million of its Notes, net of $0.4Â million unamortized debt issuance costs related to the extinguished debt, on the open market for a reacquisition price of $48.1Â million.During fiscal 2024, the Company repurchased and extinguished $15.7Â million of its Notes, net of $0.2Â million unamortized debt issuance costs related to the extinguished debt, on the open market for a reacquisition price of $14.1Â million.For the three months ended DecemberÂ 31, 2024 and 2023, the Company recognized a $50.0Â thousand loss and a $0.6Â million gain on extinguishment, respectively. For each of the the nine months ended DecemberÂ 31, 2024 and 2023, the Company recognized a $1.2Â million gain on extinguishment. In accordance with ASC 470, the Company recognized the gain and loss on extinguishments as a component of interest expense in the Company's Consolidated Statements of Operations.Debt CovenantsThe agreement governing the Companyâ€™s revolving credit facility contains affirmative and negative covenants, including covenants that generally restrict the ability of the Company and its subsidiaries to, among other things, incur or guarantee indebtedness, incur liens, pay dividends and repurchase or redeem capital stock, dispose of assets, engage in mergers and consolidations, make acquisitions or other investments, redeem or prepay subordinated debt, amend subordinated debt documents, make changes in the nature of its business, and engage in transactions with affiliates. The agreement allows the Company to incur subordinated debt that matures after the termination date for the revolving credit facility and that contains specified subordination terms, subject to limitations on amount imposed by the financial covenants under the agreement. The agreement's financial covenants include (i) a minimum consolidated net worth of $325.0Â million on and after December 31, 2020; (ii) a maximum ratio of total debt to consolidated adjusted net worth of 2.25 to 1.0 for the fiscal quarter ended December 31, 2023 and each fiscal quarter thereafter; (iii) a maximum collateral performance indicator of 26.0% as of the end of each calendar month; and (iv) a minimum fixed charges coverage ratio of 2.0 to 1.0 for the fiscal quarters ending December 31, 2023 through December 31, 2024, and 2.25 to 1.0 for each fiscal quarter thereafter, where the ratio for the most recent four consecutive fiscal quarters (other than for the fiscal quarter ended September 30, 2023) must be at least 2.0 to 1.0 in order for the Company to declare dividends or purchase any class or series of its capital stock or other equity.The collateral performance indicator is equal to the sum of (a) a three-month rolling average rate of receivables at least sixty days past due and (b) an eight-month rolling average net charge-off rate. The Company was in compliance with these covenants at DecemberÂ 31, 2024 and does not believe that these covenants will materially limit its business and expansion strategy.The agreement contains events of default including, without limitation, nonpayment of principal, interest or other obligations, violation of covenants, misrepresentation, cross-default to other debt, bankruptcy and other insolvency events, judgments, certain ERISA events, actual or asserted invalidity of loan documentation, invalidity of subordination provisions of subordinated debt, certain changes of control of the Company, and the occurrence of certain regulatory events, (including the entry of any stay, order, judgment, ruling or similar event related to the Companyâ€™s or any of its subsidiariesâ€™ originating, holding, pledging, collecting or enforcing its eligible loans receivable that is material to the Company or any subsidiary) which remains unvacated, undischarged, unbonded or unstayed by appeal or otherwise for a period of 60 days from the date of its entry and is reasonably likely to cause a material adverse change.The indenture governing the Notes contains certain covenants that, among other things, limit the Companyâ€™s ability and the ability of its restricted subsidiaries to (i) incur additional indebtedness or issue certain disqualified stock and preferred stock; (ii) pay dividends or distributions or redeem or purchase capital stock; (iii) prepay subordinated debt or make certain investments; (iv) transfer and sell assets; (v) create or permit to exist liens; (vi) enter into agreements that restrict dividends, loans and other distributions from their subsidiaries; (vii) engage in a merger, consolidation or sell, transfer or otherwise dispose of all or substantially all of their assets; and (viii) engage in transactions with affiliates. However, these covenants are subject to a number of important detailed qualifications and exceptions.Debt Maturities32Table of ContentsThe aggregate annual maturities of the Company's debt arrangements for future fiscal years ended March 31 are as follows:AmountRemainder of 2025$â€”Â 2026â€”Â 2027561,249,020Â 2028â€”Â 2029â€”Â Thereafterâ€”Â Total future debt payments$561,249,020Â NOTE 11 â€“ INCOME TAXESAs of DecemberÂ 31, 2024 and MarchÂ 31, 2024, the Company had $1.1 million of total gross unrecognized tax benefits including interest.Â Approximately $0.8 million represents the amount of net unrecognized tax benefits

that are permanent in nature and, if recognized, would affect the annual effective tax rate.Â At DecemberÂ 31, 2024, approximately $0.4 million of gross unrecognized tax benefits are expected to be resolved during the next twelve months through the expiration of the statute of limitations and settlement with taxing authorities. The Companyâ€™s continuing practice is to recognize interest and penalties related to income tax matters in income tax expense.Â The Company had approximately $327.9 thousand accrued for gross interest as of DecemberÂ 31, 2024, and accrued $10.9 thousand during the nine months ended DecemberÂ 31, 2024.Investment in HTC was $18.7Â million and $24.8Â million as of DecemberÂ 31, 2024 and MarchÂ 31, 2024, respectively, which is included as a component of Other assets, net in the Consolidated Balance Sheets. The Company recognized net amortization from these investments of $4.2Â million and $1.2Â million during the three months ended DecemberÂ 31, 2024 and 2023, respectively, and $12.4Â million and $3.2Â million during the nine months ended DecemberÂ 31, 2024 and 2023, respectively, in income tax expense. The Company recognized tax benefits from these investments of $4.3Â million and $1.2Â million for the three months ended DecemberÂ 31, 2024 and 2023, respectively, and $13.6Â million and $3.6Â million for the nine months ended DecemberÂ 31, 2024 and 2023, respectively, in income tax expense and in Income taxes payable in the Consolidated Statements of Cash Flows. The Company did not recognize any non-tax related activity or have any significant modifications in the investments during the current period.Â The Company is subject to U.S. income taxes, as well as taxes in various other state and local jurisdictions.Â With the exception of a few states, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2021, although carryforward attributes that were generated prior to 2021 may still be adjusted upon examination by the taxing authorities if they either have been or will be used in a future period.The Companyâ€™s effective income tax rate increased to 16.4% for the three months ended DecemberÂ 31, 2024 compared to 14.6% for the prior year quarter. The increase is primarily due to the effects of provision to return adjustments treated as discrete items in the prior year quarter, which were partially offset by pretax book earnings relative to the effects of various permanent items including a decrease in the disallowed executive compensation under Section 162(m) and the recognition of additional HTCs when compared to the prior year.NOTE 12 â€“ COMMITMENTS AND CONTINGENCIESFrom time to time the Company is involved in litigation matters relating to claims arising out of its operations in the normal course of business.Estimating an amount or range of possible losses resulting from litigation, government actions and other legal proceedings is inherently difficult and requires an extensive degree of judgment, particularly where the matters involve indeterminate claims for monetary damages, may involve fines, penalties or damages that are discretionary in amount, involve a large number of claimants or significant discretion by regulatory authorities, represent a change in regulatory policy or interpretation, present novel legal theories, are in the early stages of the proceedings, are subject to appeal or could result in a change in business practices. In addition, because most legal proceedings are resolved over extended periods of time, potential losses are subject to change due to, among other things, new developments, changes in legal strategy, the outcome of intermediate procedural and substantive rulings and other partiesâ€™ settlement posture and their evaluation of the strength or weakness of their case against us. For these reasons, we are currently unable to predict the ultimate timing or outcome of, or reasonably estimate the possible33Table of Contentslosses or a range of possible losses resulting from, any currently pending claims. Based on information currently available, theCompany does not believe that any reasonably possible losses arising from currently pending legal matters will be material tothe Companyâ€™s results of operations or financial conditions. However, in light of the inherent uncertainties involved in such matters, an adverse outcome in one or more of these matters could materially and adversely affect the Companyâ€™s financial condition, results of operations or cash flows in any particular reporting period.NOTE 13 â€“ SUBSEQUENT EVENTSManagement is not aware of any significant events occurring subsequent to the balance sheet date that would have a material effect on the financial statements thereby requiring adjustment or disclosure.34Table of ContentsItem 2. Management's Discussion and Analysis of Financial Condition and Results of OperationsCautionary Note Regarding Forward-Looking InformationThis report on Form 10-Q, including "Managementâ€™s Discussion and Analysis of Financial Condition and Results of Operations," contains various "forward-looking statements," within the meaning of The Private Securities Litigation Reform Act of 1995, that are based on managementâ€™s beliefs and assumptions, as well as information currently available to management.Â Statements other than those of historical fact, including those identified by words such as â€œanticipate,â€ â€œestimate,â€ â€œintend,â€ â€œplan,â€ â€œexpect,â€ "project," â€œbelieve,â€ â€œmay,â€ â€œwill,â€ â€œshould,â€ "would," "could," "continue," "probable," "forecast," and any variation of the foregoing and similar expressions, are forward-looking statements.Â Although the Company believes that the expectations reflected in any such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to be correct.Â Any such statements are subject to certain risks, uncertainties and assumptions.Â Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, the Companyâ€™s actual financial results, performance or financial condition may vary materially from those anticipated, estimated or expected.Â Therefore, you should not rely on any of these forward-looking statements.Among the key factors that could cause our actual financial results, performance or condition to differ from the expectations expressed or implied in such forward-looking statements are the following: recently enacted, proposed or future legislation and the manner in which it is implemented, including pursuant to policies of the new U.S. administration; changes in the U.S. tax code; the nature and scope of regulatory authority, particularly discretionary authority, that is or may be exercised by regulators, including, but not limited to, the U.S. Consumer Financial Protection Bureau, and individual state regulators having jurisdiction over the Company; the unpredictable nature of regulatory examinations, proceedings and litigation; employee misconduct or misconduct by third parties; uncertainties associated with management turnover and the effective succession of senior management; media and public characterization of consumer installment loans; labor unrest; the impact of changes in accounting rules and regulations, or their interpretation or application, which could materially and adversely affect the Companyâ€™s reported consolidated financial statements or necessitate material delays or changes in the issuance of the Companyâ€™s audited consolidated financial statements; the Company's assessment of its internal control over financial reporting; changes in interest rates; the impact of inflation; risks relating to the acquisition or sale of assets or businesses or other strategic initiatives, including increased loan delinquencies or net charge-offs, the loss of key personnel, integration or migration issues, the failure to achieve anticipated synergies, increased costs of servicing, incomplete records, and retention of customers; risks inherent in making loans, including repayment risks and value of collateral; cybersecurity threats or incidents, including the potential or actual misappropriation of assets or sensitive information, corruption of data or operational disruption and the costs of the associated response thereto; our dependence on debt and the potential impact of limitations in the Companyâ€™s amended revolving credit facility or other impacts on the Company's ability to borrow money on favorable terms, or at all; the timing and amount of revenues that may be recognized by the Company; changes in current revenue and expense trends (including trends affecting delinquency and charge-offs); the impact of extreme weather events and natural disasters; changes in the Companyâ€™s markets and general changes in the economy (particularly in the markets served by the Company).These and other risks are discussed in more detail in Part I, Item 1A â€œRisk Factorsâ€ in the Company's fiscal 2024 Annual Report, and in the Companyâ€™s other reports filed with, or furnished to, the SEC from time to time. The Company does not undertake any obligation to update any forward-looking statements it may make, except to the extent required by law.Results of OperationsThe following table sets forth certain information derived from the Company's Consolidated Statements of Operations and Consolidated Balance Sheets (unaudited), as well as operating data and ratios, for the periods indicated:35Table of ContentsThree months ended December 31,Nine months ended December 31,Â 202420230242023Â (Dollars in thousands)Gross loans receivable$1,381,462Â $1,400,622Â $1,381,462Â $1,400,622Â Average gross loans receivable (1)1,336,375Â 1,383,194Â 1,299,519Â 1,388,752Â Net loans receivable (2)1,020,018Â 1,028,311Â 1,020,018Â 1,028,311Â Average net loans receivable (3)987,833Â 1,014,113Â 961,767Â 1,015,237Â Expenses as a percentage of total revenue:Provision for credit losses31.8Â %29.5Â %34.1Â %30.8Â %General and administrative48.5Â %47.8Â %43.8Â %47.6Â %Interest expense8.1Â %8.5Â %7.9Â %8.8Â %Operating income as a % of total revenue (4)19.7Â %22.7Â %22.1Â %21.6Â %Loan volume (5)$777,197Â $744,193Â $2,161,632Â $2,133,642Â Net charge-offs as percent of average net loans receivable on an annualized basis17.2Â %19.1Â %17.1Â %17.4Â %Return on average assets (trailing 12 months)7.5Â %6.0Â %7.5Â %6.0Â %Return on average equity (trailing 12 months)19.2Â %17.3Â %19.2Â %17.3Â %Branches opened or acquired (merged or closed), net(10)(1)(13)(21)Branches open (at period end)1,035Â 1,052Â 1,035Â 1,052Â _____(1) Average gross loans receivable has been determined by averaging month-end gross loans receivable over the indicated period, excluding TALs.(2) Net loans receivable is defined as gross loans receivable less unearned interest and deferred fees.(3) Average net loans receivable has been determined by averaging month-end gross loans receivable less unearned interest and deferred fees over the indicated period, excluding TALs.(4) Operating income is computed as total revenue less provision for credit losses and general and administrative expenses.(5) Loan volume includes all loan balances originated by the Company. It does not include loans purchased through acquisitions.Comparison of three months ended DecemberÂ 31, 2024 versus three months ended DecemberÂ 31, 2023 Gross loans outstanding decreased to $1.38 billion as of DecemberÂ 31, 2024, a 1.4% decrease from the $1.40 billion of gross loans outstanding as of DecemberÂ 31, 2023. During the most recent quarter, gross loans outstanding increased sequentially 6.6%, or $85.6 million, from $1.30 billion as of September 30, 2024, compared to an increase of 1.5%, or $21.1 million, in the comparable quarter of the prior year. During the most recent quarter, we saw improvement in borrowing from new, former and existing customers compared to the same quarter of fiscal year 2024. Specifically, new, former and refinance loan customer volume during the quarter increased 22.6%, 13.9% and 1.5%, respectively, compared to the same quarter of fiscal year 2024. Our customer base increased by 3.7% during the twelve-month period ended December 31, 2024, compared to a decrease of 2.4% for the comparable period ended December 31, 2023. During the three months ended DecemberÂ 31, 2024 our unique borrowers increased by 6.2% compared to an increase of 2.4% during the three months ended DecemberÂ 31, 2023. We continued to improve the gross yield to expected loss ratio for all new, former and refinance customer originations and will continue to monitor performance indicators and intend to adjust underwriting accordingly.Net income for the three months ended DecemberÂ 31, 2024 decreased to $13.4 million, a 19.7% decrease from net income of $16.7 million for the same period of the prior year. Operating income, which is revenue less provision for credit losses and general and administrative expenses, decreased by $3.9 million, or 12.5%, compared to the same period of the prior year.36Table of ContentsRevenues for the three months ended DecemberÂ 31, 2024 increased by $0.9 million, or 0.6%, to $138.6 million from $137.7 million for the same period of the prior year. Interest and fee income for the three months ended DecemberÂ 31, 2024 increased by $3.7 million, or 3.1%, from the same period of the prior year mostly due to an increase in interest yields.Insurance and other income for the three months ended DecemberÂ 31, 2024 decreased by $2.8 million, or 14.9%, from the same period of the prior year.Â Insurance income decreased by approximately $2.0 million, or 14.1%, during the three months ended DecemberÂ 31, 2024 when compared to the three months ended DecemberÂ 31, 2023. Insurance commissions decreased primarily due to a decrease in loans where our insurance products are available to our customer. The large loan portfolio decreased from 55.2% of the overall portfolio as of December 31, 2023, to 48.2% as of December 31, 2024. Other income decreased by $0.8 million primarily due to lower motor club sales driven by fewer large loan customers.The provision for credit losses increased $3.5 million, or 8.5%, to $44.1 million from $40.6 million when comparing the third quarter of fiscal 2025 to the third quarter of fiscal 2024. The table below itemizes the key components of the CECL allowance and provision impact during the quarter. Specifically, expected loss rates were negatively impacted by an increase in our 0-5 month customers, our riskiest customers, as a percentage of the portfolio during the current quarter.Net charge-offs for the quarter decreased $6.0 million, from $48.4Â million in the third quarter of fiscal 2024 to $42.4Â million in the third quarter of fiscal 2025. Net charge-offs as a percentage of average net loan receivables on an annualized basis decreased from 19.1% in the third quarter of fiscal 2024 to 17.2% in the third quarter of fiscal 2025.The Company's allowance for credit losses as a percentage of net loans was 11.4% at DecemberÂ 31, 2024 compared to 11.8% at DecemberÂ 31, 2023. Accounts that were 61 days or more past due on a recency basis decreased to 5.7% at DecemberÂ 31, 2024 compared to 5.8% at DecemberÂ 31, 2023.We experienced an improvement in recency delinquency on accounts at least 90 days past due, improving from 3.7% at DecemberÂ 31, 2023, to 3.4% at DecemberÂ 31, 2024.G&A expenses for the three months ended DecemberÂ 31, 2024 increased by $1.3 million, or 2.0%, from the corresponding period of the previous year. As a percentage of revenues, G&A expenses increased from 47.8% during the three months ended DecemberÂ 31, 2023 to 48.5% during the three months ended DecemberÂ 31, 2024. G&A expenses per average open branch increased by 3.3% when comparing the two three-month periods. The change in G&A expense is explained in greater detail below.Personnel expense totaled $41.1 million for the three months ended DecemberÂ 31, 2024, a $1.2 million, or 3.0%, increase over the three months ended DecemberÂ 31, 2023. Salary expense increased approximately $0.4 million, or 1.1%, during the quarter ended December 31, 2024, compared to the quarter ended December 31, 2023. Our headcount as of December 31, 2024, decreased 3.1% compared to December 31, 2023. Benefit expense decreased approximately $0.7 million, or 8.8%, when comparing the quarterly periods ended DecemberÂ 31, 2024 and 2023. Incentive expense increased $1.9 million in the third quarter of fiscal 2025 compared to the third quarter of fiscal 2024. The increase in incentive expense is mostly due to an increase in bonuses paid.37Table of ContentsOccupancy and equipment expense totaled $12.3 million for the three months ended DecemberÂ 31, 2024, a $0.2 million, or 1.7%, increase over the three months ended DecemberÂ 31, 2023. Occupancy and equipment expense is generally a function of the number of branches the Company has open throughout the period.Advertising expense increased $0.7Â million, or 19.5%, in the third quarter of fiscal 2025 compared to the third quarter of fiscal 2024 due to increased spending on customer acquisition programs.Amortization of intangible assets totaled $0.9 million for the three months ended DecemberÂ 31, 2024, a $0.1 million, or 10.7%, decrease over the three months ended DecemberÂ 31, 2023.Other expense totaled $8.5 million for the three months ended DecemberÂ 31, 2024, a $0.7 million, or 7.5%, decrease over the three months ended DecemberÂ 31, 2023. Interest expense for the three months ended DecemberÂ 31, 2024 decreased by $0.4 million, or 3.4%, from the corresponding three months of the previous year. The decrease in interest expense was due to a 5.8% decrease in the average debt outstanding from $567.1 million to $534.0 million and a 2.4% decrease in the effective interest rate from 8.6% to 8.4%. The Companyâ€™s debt-to-equity ratio decreased from 1.4:1 at DecemberÂ 31, 2023 to 1.3:1 at DecemberÂ 31, 2024. The Company repurchased and extinguished $15.6 million of its Notes, net of $0.1 million unamortized debt issuance costs related to the extinguished debt, on the open market for a reacquisition price of $15.6Â million during the third quarter of fiscal 2025.Other key return ratios for the three months ended DecemberÂ 31, 2024 included a 7.5% return on average assets and a return on average equity of 19.2% (both on a trailing 12-month basis), as compared to a 6.0% return on average assets and a return on average equity of 17.3% (both on a trailing 12-month basis) for the three months ended DecemberÂ 31, 2023. The Companyâ€™s effective income tax rate increased to 16.4% for the three months ended DecemberÂ 31, 2024 compared to 14.6% for the corresponding period of the previous year. The increase is primarily due to the effects of provision to return adjustments treated as discrete items in the prior year quarter, which were partially offset by pretax book earnings relative to the effects of various permanent items including a decrease in the disallowed executive compensation under Section 162(m) and the recognition of additional HTCs when compared to the prior year.Comparison of nine months ended DecemberÂ 31, 2024 versus nine months ended DecemberÂ 31, 2023 Gross loans outstanding decreased to $1.38 billion as of DecemberÂ 31, 2024, a 1.4% decrease from the $1.40 billion of gross loans outstanding as of DecemberÂ 31, 2023.Net income for the nine months ended DecemberÂ 31, 2024 increased to $45.5 million from the $42.3 million net income reported for the same period of the prior year. Operating income, which is revenue less provision for credit losses and general and administrative expenses, decreased by $0.9 million, or 1.0%.Revenues decreased by $14.4 million, or 3.5%, to $399.6 million during the nine months ended DecemberÂ 31, 2024 from $413.9 million for the same period of the prior year. The decrease was primarily due to a decrease in average net loans outstanding. Interest and fee income for the nine months ended DecemberÂ 31, 2024 decreased by $4.8 million, or 1.4%, from the same period of the prior year. Net loans outstanding at DecemberÂ 31, 2024 decreased by 0.8% over the balance at DecemberÂ 31, 2023. Average net loans outstanding decreased by 5.3% for the nine months ended DecemberÂ 31, 2024 compared to the nine-month period ended DecemberÂ 31, 2023.38Table of ContentsInsurance commissions and other income for the nine months ended DecemberÂ 31, 2024 decreased by $9.6 million, or 15.6%, from the same period of the prior year.Â Insurance commissions decreased by approximately $8.3 million, or 18.1%, during the nine months ended DecemberÂ 31, 2024 when compared to the nine months ended DecemberÂ 31, 2023. Insurance commissions decreased primarily due to a decrease in loans where our insurance products are available to our customer. Other income decreased by $1.3 million. Sales of our motor club product decreased by $2.0 million as sales opportunities decreased with lower originations. This decrease was offset by a $0.8 million increase in revenue from the Company's tax preparation.The provision for credit losses increased $8.5 million, or 6.7%, to $136.2 million from $127.7 million when comparing the first three quarters of

fiscal 2025 to the first three quarters of fiscal 2024. Net charge-offs as a percentage of average net loans receivable on an annualized basis decreased from 17.4% in the first three quarters of fiscal 2024 to 17.1% in the first three quarters of fiscal 2025. G&A expenses for the nine months ended DecemberÂ 31, 2024 decreased by $22.0 million, or 11.2%, from the corresponding period of the previous year. As a percentage of revenues, G&A expenses decreased from 47.6% during the first nine months of fiscal 2024 to 43.8% during the first nine months of fiscal 2025. G&A expenses per average open branch decreased by 10.1% when comparing the two nine-month periods. The change in G&A expense is explained in greater detail below.Personnel expense totaled $99.8 million for the nine months ended DecemberÂ 31, 2024, a $20.3 million, or 16.9%, decrease over the nine months ended DecemberÂ 31, 2023. Salary expense decreased approximately $0.4 million, or 0.5%, when comparing the nine month periods ended DecemberÂ 31, 2024 and 2023. Our headcount as of DecemberÂ 31, 2024, decreased 3.1% compared to DecemberÂ 31, 2023. Benefit expense decreased approximately $2.7 million, or 10.7%, when comparing the nine month periods ended DecemberÂ 31, 2024 and 2023. Incentive expense decreased $16.2 million, mostly due to the $18.5 million reversal of the expense associated with the $20.45 Performance Shares during the second quarter of fiscal 2025.Occupancy and equipment expense totaled $36.8 million for the nine months ended DecemberÂ 31, 2024, a $0.3 million, or 0.9%, decrease over the nine months ended DecemberÂ 31, 2023. Occupancy and equipment expense is generally a function of the number of branches the Company has open throughout the period.Advertising expense totaled $8.9 million for the nine months ended DecemberÂ 31, 2024, a $0.2 million, or 2.4%, increase over the nine months ended DecemberÂ 31, 2023 due to increased spending on customer acquisition programs.Amortization of intangible assets totaled $2.9 million for the nine months ended DecemberÂ 31, 2024, a $0.3 million, or 8.8%, decrease over the nine months ended DecemberÂ 31, 2023.Other expense totaled $26.6 million for the nine months ended DecemberÂ 31, 2024, a $1.3 million, or 4.5% decrease over the nine months ended DecemberÂ 31, 2023.Interest expense for the nine months ended DecemberÂ 31, 2024 decreased by $5.0 million, or 13.6%, from the corresponding nine months of the previous year. The decrease in interest expense was due to a 12.6% decrease in the average debt outstanding, from $581.0 million to $507.5 million. The Company repurchased and extinguished $49.3Â million of its Notes, net of $0.4Â million unamortized debt issuance costs related to the extinguished debt, on the open market for a reacquisition price of $48.1Â million, during the nine months ended DecemberÂ 31, 2024.Other key return ratios for the first nine months of fiscal 2025 included a 7.5% return on average assets and a return on average equity of 19.2% (both on a trailing 12-month basis), as compared to a 6.0% return on average assets and a return on average equity of 17.3% (both on a trailing 12-month basis) for the first nine months of fiscal 2024.The Companyâ€™s effective income tax rate increased to 20.1% for the nine months ended DecemberÂ 31, 2024 compared to 19.9% for the corresponding period of the previous year. The effective tax rate remained substantially unchanged from the prior year with the slight increase related to provision adjustments recorded as discrete items in the prior year.Regulatory MattersCFPB Rulemaking InitiativesOn October 5, 2017, the CFPB issued a final rule (the "Rule") imposing limitations on (i) short-term consumer loans, (ii) longer-term consumer installment loans with balloon payments, and (iii) higher-rate consumer installment loans repayable by a payment authorization. The Rule originally required lenders originating short-term loans and longer-term balloon payment 39Table of Contentsloans to evaluate whether each consumer has the ability to repay the loan along with current obligations and expenses (â€œability to repay requirementsâ€); however, the ability to repay requirements was rescinded in July 2020. The Rule also curtails repeated unsuccessful attempts to debit consumersâ€™ accounts for short-term loans, balloon payment loans, and installment loans that involve a payment authorization and an annual percentage rate over 36% (â€œpayment requirementsâ€). Implementation of the Ruleâ€™s payment requirements may require changes to the Companyâ€™s practices and procedures for such loans, which could materially and adversely affect the Companyâ€™s ability to make such loans, the cost of making such loans, the Companyâ€™s ability to, or frequency with which it could, refinance any such loans, and the profitability of such loans.In July 2020, the CFPB rescinded provisions of the Rule governing the ability to repay requirements. The payment requirements were scheduled to take effect in June 2022. However, on October 19, 2022, a three-judge panel of the U.S. Court of Appeals for the Fifth Circuit ruled, in Community Financial Services Association of America v. Consumer Financial Protection Bureau, that the funding mechanism for the CFPB violates the appropriations clause of the U.S. Constitution, and as a result, vacated the Rule. On October 3, 2023, the U.S. Supreme Court held oral argument to decide the constitutionality of the CFPB's funding mechanism. On May 16, 2024, the Supreme Court held that the funding mechanism for the CFPB complies with the appropriations clause of the U.S. Constitution, reversing the judgment of the Court of Appeals, and remanding the cause for further proceedings. In June 2024, the CFPB announced that the Rule would go into effect on March 30, 2025. Such regulatory changes could have effects beyond those currently contemplated that could further materially and adversely impact our business and operations. Unless rescinded or otherwise amended, the Company will have to comply with the Ruleâ€™s payment requirements if it continues to allow consumers to set up future recurring payments online for certain covered loans such that it meets the definition of having a â€œleveraged payment mechanismâ€ under the Rule. If the payment provisions of the Rule apply, the Company will have to modify its loan payment procedures to comply with the required notices and mandated timeframes set forth in the final rule.The CFPB also has stated that it expects to conduct separate rulemaking to identify larger participants in the installment lending market for purposes of its supervision program. This initiative was classified as â€œinactiveâ€ on the CFPBâ€™s Spring 2018 rulemaking agenda and has remained inactive since, but the CFPB indicated that such action was not a decision on the merits. Though the likelihood and timing of any such rulemaking is uncertain, the Company believes that the implementation of such rules would likely bring the Companyâ€™s business under the CFPBâ€™s supervisory authority which, among other things, would subject the Company to reporting obligations to, and on-site compliance examinations by, the CFPB. In addition, even in the absence of a â€œlarger participantâ€ rule, the CFPB has the power to order individual nonbank financial institutions to submit to supervision where the CFPB has reasonable cause to determine that the institution is engaged in â€œconduct that poses risks to consumersâ€ under 12 USC 5514(a)(1)(C). In 2022, the CFPB announced that it had begun using this â€œdormant authorityâ€ to examine nonbank entities and the CFPB is attempting to expand the number of nonbank entities it currently supervises. Specifically, the CFPB previously notified the Company that it was seeking to establish such supervisory authority over the Company. Since then, the CFPB issued a public designation order setting forth its determination that the Company has met the legal requirements for supervision (the "Order"). Pursuant to the terms of the Order, the CFPB has supervisory authority over the Company pursuant to section 1024(a)(1)(C) of the Consumer Financial Protection Act of 2010 until such time as the Order is terminated consistent with 12 C.F.R. 1091.113. Importantly, while the Order establishes that the CFPB has supervisory authority over the Company, it does not constitute a finding that the Company has engaged in wrongdoing, nor does it require any immediate action on the part of the Company. However, the outcome of such supervision could result in operational changes which could reduce our ability to operate profitably or increase compliance costs. The supervision could also result in additional examinations, investigations, litigation, consent orders or administrative proceedings, which could require considerable resources, time, effort and attention from our management, and may result in operational changes, monetary penalties or declines in our stock price.See Part I, Item 1, â€œBusiness Government Regulation Federal legislation,â€ for a further discussion of these matters and the federal regulations to which the Companyâ€™s operations are subject and Part I, Item 1A, â€œRisk Factors,â€ in each case, in the Companyâ€™s fiscal 2024 Annual Report for more information regarding these regulatory and related risks.Liquidity and Capital ResourcesThe Company has historically financed and continues to finance its operations, acquisitions and branch expansion primarily through a combination of cash flows from operations and borrowings from its institutional lenders.Â As discussed below, the Company has also issued debt securities to finance its operations and repay a portion of its outstanding indebtedness. The Company has generally applied its cash flows from operations to fund its loan volume, fund acquisitions, repay long-term indebtedness, and repurchase its common stock.Â Net cash provided by operating activities for the nine months ended DecemberÂ 31, 2024 was $163.2 million.The Company believes that attractive opportunities to acquire new branches or receivables from its competitors or to acquire branches in communities not currently served by the Company will continue to become available as conditions in local economies and the financial circumstances of owners change.40Table of ContentsOn September 27, 2021, we issued $300Â million in aggregate principal amount of 7.0% senior notes due November 2026. The Notes were sold in a private placement in reliance on Rule 144A and Regulation S under the Securities Act. The Notes are unconditionally guaranteed, jointly and severally, on a senior unsecured basis by all of the Companyâ€™s existing and certain of its future subsidiaries that guarantee the revolving credit facility. Interest on the Notes is payable semi-annually in arrears on May 1 and November 1 of each year, commencing May 1, 2022. At any time prior to November 1, 2023, the Company could have redeemed the Notes, in whole or in part, at a redemption price equal to 100% of the principal amount plus a make-whole premium, as described in the indenture, plus accrued and unpaid interest, if any, to, but not including, the date of redemption. At any time on or after November 1, 2023, the Company may redeem the Notes at redemption prices set forth in the indenture, plus accrued and unpaid interest, if any, to, but not including, the date of redemption. In addition, at any time prior to November 1, 2023, the Company could have used the proceeds of certain equity offerings to redeem up to 40% of the aggregate principal amount of the Notes issued under the indenture at a redemption price equal to 107.0% of the principal amount of Notes redeemed, plus accrued and unpaid interest, if any, to, but not including, the date of redemption.We used the net proceeds from this offering to repay a portion of the outstanding indebtedness under our revolving credit facility and for general corporate purposes.During the nine months ended DecemberÂ 31, 2024, the Company repurchased and extinguished $49.3 million of its Notes, net of $0.4 million unamortized debt issuance costs related to the extinguished debt, on the open market for a reacquisition price of $48.1 million.During fiscal 2024, the Company repurchased and extinguished $15.7Â million of its Notes, net of $0.2Â million unamortized debt issuance costs related to the extinguished debt, on the open market for a reacquisition price of $14.1Â million.The Company recognized a $50.0Â thousand loss and a $0.5Â million gain on extinguishment during the three months ended DecemberÂ 31, 2024 and 2023, respectively. For each of the nine months ended DecemberÂ 31, 2024 and 2023, the Company recognized a $1.2Â million gain on extinguishment. In accordance with ASC 470, the Company recognized the gain and loss on extinguishments as a component of interest expense in the Company's Consolidated Statements of Operations.The indenture governing the Notes contains certain covenants that, among other things, limit the Companyâ€™s ability and the ability of its restricted subsidiaries to (i) incur additional indebtedness or issue certain disqualified stock and preferred stock; (ii) pay dividends or distributions or redeem or purchase capital stock; (iii) prepay subordinated debt or make certain investments; (iv) transfer and sell assets; (v) create or permit to exist liens; (vi) enter into agreements that restrict dividends, loans and other distributions from their subsidiaries; (vii) engage in a merger, consolidation or sell, transfer or otherwise dispose of all or substantially all of their assets; and (viii) engage in transactions with affiliates. However, these covenants are subject to a number of important detailed qualifications and exceptions.The Company continues to believe stock repurchases are a viable component of the Companyâ€™s long-term financial strategy and an excellent use of excess cash when the opportunity arises. However, our revolving credit facility and the Notes limit share repurchases to up to 50% of consolidated adjusted net income for the period commencing January 1, 2019. As of DecemberÂ 31, 2024, subject to further approval from our Board of Directors, we could repurchase approximately $32.2Â million of shares under the terms of our debt facilities (subject to further board approval). Additional share repurchases can be made subject to compliance with, among other things, applicable restricted payment covenants under the revolving credit facility and the Notes.The Company has a revolving credit facility with a syndicate of banks. The revolving credit facility provides for revolving borrowings of up to the lesser of (a)Â the aggregate commitments under the facility and (b)Â a borrowing base, and it includes $725.8 thousand in outstanding standby letters of credit.Subject to a borrowing base formula, the Company may borrow at the rate of one month SOFR plus 0.10% and an applicable margin of 3.5% with a minimum rate of 4.5%. At DecemberÂ 31, 2024, the aggregate commitments under the revolving credit facility were $580.0Â million. The Company had $725.8 thousand in outstanding standby letters of credit which include (i) $300.0 thousand related to worker's compensation expiring on December 31, 2025 and (ii) $425.8 thousand related to the Company's investment in captive insurance expiring on April 12, 2025. Both letters of credit automatically extend for one year on their expiration dates. The borrowing base limitation is equal to the product of (a) the Companyâ€™s eligible finance receivables, less unearned finance charges, insurance premiums and insurance commissions applicable to such eligible finance receivables, and (b) an advance rate percentage that ranges from 70% to 80% based on a collateral performance indicator, as more completely described below. Further, under the amended and restated revolving credit agreement, the administrative agent has the right to set aside reasonable reserves against the available borrowing base in such amounts as it may deem appropriate, including, without limitation, reserves with respect to certain regulatory events or any increased operational, legal, or regulatory risk of the Company and its subsidiaries.41Table of ContentsFor the nine months ended DecemberÂ 31, 2024 and fiscal year ended MarchÂ 31, 2024, the Companyâ€™s effective interest rate, including the commitment fee and amortization of debt issuance costs, as it relates to the revolving credit facility was 9.7% annualized and 9.9%, respectively. At DecemberÂ 31, 2024, the unused amount available under the revolving credit facility was $243.3 million. Borrowings under the revolving credit facility mature on JuneÂ 7, 2026.The Companyâ€™s obligations under the revolving credit facility, together with treasury management and hedging obligations owing to any lender under the revolving credit facility or any affiliate of any such lender, are required to be guaranteed by each of the Companyâ€™s wholly-owned domestic subsidiaries. The obligations of the Company and the subsidiary guarantors under the revolving credit facility, together with such treasury management and hedging obligations, are secured by a first-priority security interest in substantially all assets of the Company and the subsidiary guarantors.The agreement governing the Companyâ€™s revolving credit facility contains affirmative and negative covenants, including covenants that restrict the ability of the Company and its subsidiaries to, among other things, incur or guarantee indebtedness, incur liens, pay dividends and repurchase or redeem capital stock, dispose of assets, engage in mergers and consolidations, make acquisitions or other investments, redeem or prepay subordinated debt, amend subordinated debt documents, make changes in the nature of its business, and engage in transactions with affiliates. The agreement allows the Company to incur subordinated debt that matures after the termination date for the revolving credit facility and that contains specified subordination terms, subject to limitations on amount imposed by the financial covenants under the agreement. The agreement's financial covenants include (i) a minimum consolidated net worth of $325 million on and after December 31, 2020; (ii) a maximum ratio of total debt to consolidated adjusted net worth of 2.25 to 1.0 for the fiscal quarter ended December 31, 2023 and each fiscal quarter thereafter; (iii) a maximum collateral performance indicator of 26.0% as of the end of each calendar month; and (iv) a minimum fixed charges coverage ratio of 2.0 to 1.0 for the fiscal quarters ending December 31, 2023 through December 31, 2024, and 2.25 to 1.0 for each fiscal quarter thereafter, where the ratio for the most recent four consecutive fiscal quarters (other than for the fiscal quarter ended September 30, 2023) must be at least 2.0 to 1.0, in order for the Company to declare dividends or purchase any class or series of its capital stock or other equity.The collateral performance indicator is equal to the sum of (a) a three-month rolling average rate of receivables at least sixty days past due and (b) an eight-month rolling average net charge-off rate.The Company was in compliance with these covenants at DecemberÂ 31, 2024 and does not believe that these covenants will materially limit its business and expansion strategy.The agreement contains events of default including, without limitation, nonpayment of principal, interest or other obligations, violation of covenants, misrepresentation, cross-default to other debt, bankruptcy and other insolvency events, judgments, certain ERISA events, actual or asserted invalidity of loan documentation, invalidity of subordination provisions of subordinated debt, certain changes of control of the Company, and the occurrence of certain regulatory events, (including the entry of any stay, order, judgment, ruling or similar event related to the Companyâ€™s or any of its subsidiariesâ€™ originating, holding, pledging, collecting or enforcing its eligible loans receivable that is material to the Company or any subsidiary) which remains unvacated, undischarged, unbonded or unstayed by appeal or otherwise for a period of 60 days from the date of its entry and is reasonably likely to cause a material adverse change.As of DecemberÂ 31, 2024, the Company's debt outstanding was $559.9 million, net of $1.4Â million unamortized debt issuance costs related to the unsecured senior notes payable, and its shareholders' equity was $428.2 million resulting in a debt-to-equity ratio of 1.3:1.0. Management will continue to monitor the Company's debt-to-equity ratio and is committed to maintaining a debt level that will allow the Company to continue to execute its business objectives, while not putting undue stress on its consolidated balance sheet.The Company believes that cash flow from operations and borrowings under its revolving credit facility or other sources will be adequate to fund the expected cost of opening or acquiring new branches, including funding initial operating losses of new branches and funding loans receivable originated by those branches and the Company's other branches (for the next 12 months and for the foreseeable future beyond that). Except as otherwise discussed in (i) this report including, but not limited to, any discussions in Part II, Item 1A, "Risk Factors" in this Quarterly Report on Form 10-Q and (ii) Part I, Item 1A, "Risk Factors" in the Company's fiscal 2024 Annual Report (as supplemented by any subsequent disclosures in information the Company files with or furnishes to the SEC from time to time), management is not currently aware of any trends, demands, commitments, events or uncertainties that it believes will or could result in, or are or could be reasonably likely to result in, any material adverse effect on the Companyâ€™s liquidity.42Table of ContentsShare Repurchase ProgramOn May 15, 2024, the Board of Directors authorized the Company to repurchase up to $20.0 million of the Companyâ€™s outstanding common stock, inclusive of the amount that remained available for repurchase under prior repurchase authorizations. As of DecemberÂ 31, 2024, the Company had $9.0 million in aggregate remaining repurchase capacity under its current share repurchase program. The timing and actual

number of shares repurchased will depend on a variety of factors, including the stock price, corporate and regulatory requirements, available funds, alternative uses of capital, restrictions under the revolving credit agreement, and other market and economic conditions. The Companyâ€™s stock repurchase program may be suspended or discontinued at any time.The Company continues to believe stock repurchases are a viable component of the Companyâ€™s long-term financial strategy and an excellent use of excess cash when the opportunity arises. Additional share repurchases can be made subject to compliance with, among other things, applicable restricted payment covenants under the revolving credit facility and the Notes. Our first priority is to ensure we have enough capital to fund loan growth. As of DecemberÂ 31, 2024, subject to further approval from our Board of Directors, we could repurchase approximately $32.2Â million of shares under the terms of our debt facilities (subject to further board approval). To the extent we have excess capital, we may repurchase stock, if appropriate and as authorized by our Board of Directors.InflationThe Company does not believe that inflation will have a materially adverse effect on its financial condition, unless changes in inflation are particularly severe and sudden in nature.Â Although inflation would increase the Companyâ€™s operating costs in absolute terms, the Company expects that the same decrease in the value of money would result in an increase in the size of loans demanded by its customer base.Â It is reasonable to anticipate that such a change in customer preference would result in an increase in total loans receivable and an increase in absolute revenue to be generated from that larger amount of loans receivable.Â The Company believes that this increase in absolute revenue should offset any increase in operating costs.Â In addition, because the Companyâ€™s loans have a relatively short contractual term and average life, it is unlikely that loans made at any given point in time will be repaid with significantly inflated dollars.Quarterly Information and SeasonalitySee Note 2 to the Consolidated Financial Statements.Recently Adopted Accounting PronouncementsÂ There were no new accounting pronouncements recently adopted. See Note 2 to the Consolidated Financial Statements for information regarding recently issued accounting standards not yet adopted.Critical Accounting PoliciesÂ The Companyâ€™s accounting and reporting policies are in accordance with GAAP and conform to general practices within the finance company industry.Â Certain accounting policies involve significant judgment by the Companyâ€™s management, including the use of estimates and assumptions which affect the reported amounts of assets, liabilities, revenue, and expenses. As a result, changes in these estimates and assumptions could significantly affect the Companyâ€™s financial position and results of operations. The Company considers its policies regarding the allowance for credit losses, share-based compensation and income taxes to be its most critical accounting policies due to the significant degree of management judgment involved.Allowance for Credit LossesAccounting policies related to the allowance for credit losses are considered to be critical as these policies involve considerable subjective judgement and estimation by management. In the case of loans, the allowance for credit losses is a contra-asset valuation account, calculated in accordance with ASC 326 that is deducted from the amortized cost basis of loans to present the net amount expected to be collected. The amount of the allowance account represents managementâ€™s best estimate of current expected credit losses on these financial instruments considering available information, from internal and external sources, relevant to assessing exposure to credit loss over the contractual term of the instrument. Relevant available information includes historical credit loss experience, current conditions, qualitative factors, and reasonable and supportable forecasts.Â Share-Based Compensation43Table of ContentsThe Company measures compensation cost for share-based awards at fair value and recognizes compensation over the service period for awards expected to vest. The fair value of restricted stock is based on the number of shares granted and the quoted price of the Companyâ€™s common stock at the time of grant, and the fair value of stock options is determined using the Black-Scholes valuation model. The Black-Scholes model requires the input of assumptions, including expected volatility, risk-free interest rate and expected life.Income TaxesÂ Management uses certain assumptions and estimates in determining income taxes payable or refundable, deferred income tax liabilities and assets for events recognized differently in its financial statements and income tax returns, and income tax expense. Determining these amounts requires analysis of certain transactions and interpretation of tax laws and regulations. Management exercises considerable judgment in evaluating the amount and timing of recognition of the resulting income tax liabilities and assets. These judgments and estimates are re-evaluated on a periodic basis as regulatory and business factors change.No assurance can be given that either the tax returns submitted by management or the income tax reported on the consolidated financial statements will not be adjusted by either adverse rulings, changes in the tax code, or assessments made by the IRS,Â state, or foreign taxing authorities. The Company is subject to potential adverse adjustments, including but not limited to: an increase in the statutory federal or state income tax rates, the permanent non-deductibility of amounts currently considered deductible either now or in future periods, and the dependency on the generation of future taxable income in order to ultimately realize deferred income tax assets.Â Under FASB ASC Topic 740, the Company will include the current and deferred tax impact of its tax positions in the financial statements when it is more likely than not (likelihood of greater than 50%) that such positions will be sustained by taxing authorities, with full knowledge of relevant information, based on the technical merits of the tax position. While the Company supports its tax positions by unambiguous tax law, prior experience with the taxing authority, and analysis of what it considers to be all relevant facts, circumstances and regulations, management must still rely on assumptions and estimates to determine the overall likelihood of success and proper quantification of a given tax position.44Table of ContentsItem 3. Quantitative and Qualitative Disclosures about Market RiskInterest Rate RiskThe Companyâ€™s outstanding debt under its revolving credit facility was $335.9 million at DecemberÂ 31, 2024.Â Interest on borrowings under this facility is based on the greater of 4.5% or one month SOFR plus 0.10% and an applicable margin of 3.5%. Based on the outstanding balance under the Company's revolving credit facility at DecemberÂ 31, 2024, a change of 1.0% in the interest rate would cause a change in interest expense of approximately $3.4 million on an annual basis.Item 4. Controls and ProceduresChanges in Internal Control over Financial Reporting There were no changes to our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.Evaluation of Disclosure Controls and Procedures Based on managementâ€™s evaluation, with the participation of our CEO and CFO, as of the end of the period covered by this report, our CEO and CFO have concluded that our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, are effective to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and is accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.Our management is responsible for establishing and maintaining adequate â€œinternal control over financial reporting,â€ as defined in Exchange Act Rules 13a-15(f) and 15d-15(f). Our management, including the CEO and CFO do not expect that our internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.45Table of ContentsPART II.Â Â OTHER INFORMATIONItem 1. The Company's highest loan demand generally occurs from October through December, its third fiscal quarter. Loan demand is generally lowest and loan repayment highest from January to March, its fourth fiscal quarter. Loan volume and average balances remain relatively level during the remainder of the year. Consequently, the Company experiences significant seasonal fluctuations in its operating results and cash needs. Operating results for the Company's third fiscal quarter are generally lower than in other quarters, and operating results for its fourth fiscal quarter are generally higher than in other quarters.Loans receivable, netLoans receivable are carried at amortized cost, which is the gross amount outstanding, reduced by unearned interest and insurance income, net of deferred origination fees and direct costs, and an allowance for credit losses. Fees received and direct costs incurred for the origination of loans are deferred and amortized to interest income over the contractual lives of the loans using the interest method. Unamortized amounts are recognized in income at the time that loans are refinanced or paid in full except for those refinancings that do not constitute a more than minor modification. Net unamortized deferred origination costs were $6.6Â million and $5.0Â million as of DecemberÂ 31, 2024 and MarchÂ 31, 2024, respectively.From time to time, the Company will sell charged off loans receivable, which are accounted for as a sale in accordance with ASC 860, Transfers and Servicing. See Note 4 to the Consolidated Financial Statements for further information.Allowance for credit lossesRefer to Note 4 to the Consolidated Financial Statements for information regarding the Company's CECL allowance model and a description of the policies and methodology utilized.ReclassificationFrom time to time, prior period amounts will be reclassified to conform to the current presentation. Such reclassifications have no impact on previously reported net income or shareholders' equity.Recently Issued Accounting Standards Not Yet AdoptedImprovements to Reportable Segment DisclosuresIn November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, which improves reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. The amendments are effective for fiscal years beginning after December 15, 2023, and for interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The amendments should be applied retrospectively to all prior periods presented in the financial statements. Management is currently evaluating this ASU to determine its impact on the Company's consolidated financial statements and related disclosures.Improvements to Income Tax DisclosuresIn December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which modifies the rules on income tax disclosures to require entities to expand annual disclosures to 1) include specific categories in the rate reconciliation and additional information for reconciling items that meet a quantitative threshold and 2) disclose the amount of income taxes paid (net of refunds received) disaggregated by federal, state and foreign taxes. ASU 2023-09 also requires entities to disclose income (or loss) from continuing operations before income

tax expense (or benefit) disaggregated between domestic and foreign, and income tax expense (or benefit) from continuing operations disaggregated by federal, state and foreign, among other changes. The amendments are effective for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. ASU 2023-09 should be applied on a prospective basis, but retrospective application is permitted. Management is currently evaluating this ASU to determine its impact on the Company's consolidated financial statements and related disclosures.Disaggregation of Income Statement Expenses In November 2024, the FASB issued ASU 2024-03, Disaggregation of Income Statement Expenses, which requires additional disclosure, in the notes to financial statements, about specific types of expenses included in the expense captions presented on the face of the income statement as well as disclosures about selling expenses. The amendments in this update are effective for annual reporting periods beginning after December 15, 2026, and interim periods within annual reporting periods beginning after December 15, 2027, which was clarified by ASU 2025-01, Clarifying the Effective Date. Early adoption is permitted. ASU 2024-03 should be applied either (1) prospectively to financial statements issued for reporting periods after the effective date of this update or (2) retrospectively to any or all prior periods presented in the financial statements. Management is currently evaluating this ASU to determine its impact on the Company's consolidated financial statements and related disclosures.We reviewed all other newly issued accounting pronouncements and concluded that they are either not applicable to our business or are not expected to have a material effect on the consolidated financial statements and related disclosures as a result of future adoption. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Company measures the fair values of its financial instruments based on the fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.Fair value measurements are grouped in three levels. The levels prioritize the inputs used to measure the fair value of the assets or liabilities.Â These levels are:â€¢Level 1 â€“ Quoted prices (unadjusted) in active markets for identical assets or liabilities.â€¢Level 2 â€“ Inputs other than quoted prices that are observable for assets and liabilities, either directly or indirectly. These inputs include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are less active.â€¢Level 3 â€“ Unobservable inputs for assets or liabilities reflecting the reporting entityâ€™s own assumptions.The Companyâ€™s financial instruments consist of cash and cash equivalents, loans receivable, net, the senior notes payable, and the senior unsecured notes payable. Loans receivable are originated at prevailing market rates and have an average life of up to twelve months. Given the short-term nature of these loans, they are continually repriced at current market rates. The Companyâ€™s senior notes payable, consisting of a senior revolving credit facility, has a variable rate based on a margin over SOFR and reprices with any changes in SOFR. The fair value of the senior unsecured notes payable is estimated based on quoted prices in markets that are not active. The Company also considers its creditworthiness in its estimation of fair value.The carrying amounts and estimated fair values of financial assets and liabilities disclosed but not carried at fair value and their level within the fair value hierarchy are summarized below. The Companyâ€™s payment performance buckets are as follows: current, 30-60 days past due, 61-90 days past due, 91 days or more past due. All loans, except for TALs, that are greater than 90 days past due on a recency basis and not written off as of the reporting date are reserved for at 100% of the outstanding balance, net of a calculated Rehab Rate. The weighted average Rehab Rate at DecemberÂ 31, 2024 and MarchÂ 31, 2024 was 4.7% and 4.9%, respectively. A loan is charged off within the allowance for credit losses in the month following when an account reaches 120 days past due on a recency basis, subject to certain exceptions. Specifically, the Companyâ€™s customer accounts in a confirmed bankruptcy are generally charged off in the month after they reach 60 days past due on a recency basis. The accounts of deceased or incarcerated customers are also generally charged off in the month after they reach 60 days past due on a recency basis, with the exception of deceased customers with credit life insurance. The allowance for credit losses is an estimate of expected losses inherent within the Companyâ€™s gross loans receivable portfolio. In estimating the allowance for credit losses, loans with similar risk characteristics are aggregated into pools and collectively assessed. The Companyâ€™s loan products have generally the same terms therefore the Company looks to borrower characteristics as a way to disaggregate loans into pools sharing similar risks.In determining the allowance for credit losses, the Company examined four borrower risk metrics as noted below.1.Borrower type2.Active months3.Prior loan performance4.Customer TenureTo determine how well each metric predicts default risk the Company used loss rate data over an observation period of twelve months at the loan level.The information value was then calculated for each metric. From this analysis management determined the metric that had the strongest predictor of default risk was Customer Tenure. The Customer Tenure buckets used in the allowance for credit loss calculation are:1.0 to 5 months2.6 to 17 months3.18 to 35 Â Â Â Â months4.36 to 59 months5.60+ monthsManagement will continue to monitor this credit metric on a quarterly basis.Management estimates an allowance for each Customer Tenure bucket by performing a historical migration analysis of loans in that bucket for the twelve most recent historical twelve-month migration periods. Management considers whether current credit conditions might suggest a change is needed to the allowance for credit losses by monitoring trends in first pay success for new borrowers, 60-89 day delinquencies on a recency basis, percent of loan balances that are paying and

percentage of gross loans that are acquired loans. If management determines that historical migration rates should be adjusted to reflect expected credit losses, a qualitative adjustment is made to reflect management's judgment regarding observable changes in recent or expected economic trends and conditions, portfolio composition, or other significant events or conditions that affect the current estimate. The increase in the allowance for credit losses from MarchÂ 31, 2024 to DecemberÂ 31, 2024 was primarily due to loan growth during the period.Due to the short term nature of the loan portfolio, forecasted changes in macroeconomic variables such as unemployment levels, general inflation and commodity prices, typically do not have a significant impact on loans outstanding at the end of a particular reporting period, unless those changes are particularly severe and sudden in nature. Therefore, management develops a reasonable and supportable forecast of losses by comparing the most recent six-month loss curves as compared to historical loss curves to see if there are significant changes in borrower behavior that may indicate the historical migration rates should be adjusted. If a change is determined necessary, then the Company has elected to immediately revert back to historical experience past the forecast period. As of DecemberÂ 31, 2024 and MarchÂ 31, 2024, there were no conditions or other factors considered significant enough to warrant a forecast adjustment.The following table presents a roll forward of the allowance for credit losses for the three and nine months ended DecemberÂ 31, 2024 and 2023:Three months ended December 31,Nine months ended December 31,20242023Beginning balance$114,455,495Â $128,892,192Â $102,962,811Â $125,552,733Â Provision for credit losses44,103,495Â 40,631,994Â 136,191,023Â 127,697,072Â Charge-offs(48,822,970)(54,734,982)(139,390,477)(157,228,614)Recoveries16,374,926Â 6,292,864Â 16,347,589Â 25,060,877Â Net charge-offs(42,448,044)(48,442,118)(123,042,888)(132,167,737)Ending Balance$116,110,946Â $121,082,068Â $116,110,946Â $121,082,068Â The following table is an aging analysis on a recency basis at amortized cost of the Companyâ€™s gross loans receivable at DecemberÂ 31, 2024:Days Past Due - Loans are placed on nonaccrual status when management determines that the full payment of principal and collection of interest according to contractual terms is no longer likely. The accrual of interest is discontinued when a loan is 61 days or more past the contractual due date. When the interest accrual is discontinued, all unpaid accrued interest is reversed against interest income. While a loan is on nonaccrual status, interest income is recognized only when a payment is received. Once a loan moves to nonaccrual status, it remains in nonaccrual status until it is paid out, charged off or refinanced.The following table presents unpaid accrued interest reversed against interest income by Customer Tenure for the three and nine months ended DecemberÂ 31, 2024 and 2023:Three months ended December 31,Nine months ended December 31,2024202320242023Customer Tenure0 to 5 months$(1,513,556)$(1,364,409)$(3,943,143)$(3,910,003)6 to 17 months(802,513)(779,642)(2,201,034)(2,653,697)18 to 35 months(789,715)(949,250)(2,378,004)(2,612,375)36 to 59 months(829,641)(1,068,613)(2,553,282)(3,214,245)60+ months(3,227,592)(2,828,677)(8,869,807)(7,977,412)Total$(7,163,017)$(6,990,591)$(19,945,270)$(20,367,732)The following table presents the amortized cost basis of loans on nonaccrual status as of the beginning of the reporting period and the end of the reporting period, as well as interest income recognized on nonaccrual loans for the three and nine months ended DecemberÂ 31, 2024 and 2023:Nonaccrual Loans ReceivableCustomer TenureAs of December 31, 2024As of March 31, 2024Interest IncomeRecognized for the three months ended December 31, 2024Interest IncomeRecognized for the three months ended December 31, 2023Interest IncomeRecognized for the nine months ended December 31, 2024Interest IncomeRecognized for the nine months ended December 31, 20230 to 5 months$14,404,816Â $13,971,062Â $152,639Â $197,470Â $521,894Â $769,418Â 6 to 17 months9,047,425Â 8,507,503Â 217,517Â 319,474Â 661,265Â 1,168,253Â 18 to 35 months11,964,366Â 12,569,729Â 346,761Â 396,720Â 1,057,869Â 1,249,102Â 36 to 59 months13,915,169Â 15,250,596Â 402,275Â 547,608Â 1,315,569Â 1,728,965Â 60+ months51,333,978Â 45,091,589Â 1,507,229Â 1,497,757Â 4,463,586Â 4,785,842Â Unearned interest, insurance and fees(26,362,491)(24,643,778)â€”Â â€”Â â€”Â â€”Â Total$74,303,263Â $70,746,701Â $2,626,421Â $2,959,029Â $8,020,183Â $9,701,580Â As of December 31, 2024 and MarchÂ 31, 2024, there were no loans receivable 61 days or more past due, not on nonaccrual status, and no loans receivable on nonaccrual status with no related allowance for credit losses. Specifically, Management applies its senior notes payable's effective annual interest rate at the end of the prior fiscal year to leases entered into in the following year. For example, the senior notes payable's annual effective interest rate of 9.9% at March 31, 2024 was used as the discount rate when determining the lease type and the present value of lease payments for leases entered into in fiscal 2025.Based on its historical practice, the Company believes it is reasonably certain to exercise a given option associated with a given office space lease. Therefore, the Company classifies all lease options for office space as â€œreasonably certainâ€ unless it has specific knowledge to the contrary for a given lease. The Company does not believe it is reasonably certain to exercise any options associated with its office equipment leases.Periodic DisclosuresThe Company's operating leases consist of real estate leases for office space as well as office equipment. Both the branch real estate and office equipment lease terms generally range from three years to five years, and generally contain options to extend which mirror the original terms of the lease. Stock-based compensation related to restricted stock is based on the number of shares expected to vest and the fair market value of the common stock on the grant date. Stock-based compensation related to stock option awards is based on the number of shares expected to vest and the estimated fair value of the awards on the grant date using the Black-Scholes valuation model. Under the Black-Scholes valuation method, the assumptions used to determine the fair value are expected volatility, expected life, average risk-free rate, and dividend yield, if any. The expected stock price volatility is based on the historical volatility of the Company's common stock for a period approximating the expected life. The expected life represents the period of time that options are expected to be outstanding after the grant date. The risk-free rate reflects the interest rate at grant date on zero coupon U.S. governmental bonds having a remaining life similar to the expected option term.2018 Long-term Incentive Program and Non-Employee Director AwardsOn October 15, 2018, the Compensation Committee and Board of Directors approved and adopted a long-term incentive program that seeks to motivate and reward certain employees and to align managementâ€™s interest with shareholdersâ€™ interest by focusing executives on the achievement of long-term results. The program is comprised of four components: Service Options, Performance Options, Restricted Stock, and Performance Shares.Pursuant to this program, in fiscal 2019, the Compensation Committee approved certain grants of Service Options, Performance Options, Restricted Stock and Performance Shares under the 2011 Plan and the 2017 Plan to certain employee directors, vice presidents of operations, vice presidents, senior vice presidents, and executive officers. Separately, the Compensation Committee approved certain grants of Service Options and Restricted Stock to certain non-employee directors of the Company.Under the long-term incentive program, up to 100% of the shares of restricted stock subject to the Performance Shares will vest, if at all, based on the achievement of two trailing EPS performance targets established by the Compensation Committee that are based on EPS (measured at the end of each calendar quarter, commencing with the calendar quarter ending September 30, 2019) for the previous four calendar quarters. The Performance Shares are eligible to vest over the 2018 Performance Share Measurement Period, subject to each respective employeeâ€™s continued employment at the Company through the last day of the 2018 Performance Share Measurement Period (or as otherwise provided under the terms of the applicable award agreement or applicable employment agreement).The Performance Share performance targets are set forth below.Trailing 4-Quarter EPS Targets forSeptember 30, 2018 through March 31, 2025Restricted Stock Eligible for Vesting(Percentage of Award)$16.3540%$20.4560%During the second quarter of fiscal 2025, it was determined that the $20.45 Performance Share performance target was no longer probable of being achieved and that the $20.45 Performance Shares would likely

be forfeited as of the last day of the performance period in accordance with their terms. As a result and in accordance with ASC 718, the Company reversed $18.5Â million in previously recognized stock-based compensation related to the $20.45 Performance Shares during the second quarter of fiscal 2025.The Restricted Stock awards typically vest in three to six equal annual installments, beginning on the first anniversary of the grant date, subject to each respective employeeâ€™s continued employment at the Company through each applicable vesting date or otherwise provided under the terms of the applicable award agreement or applicable employment agreement.The Service Options typically vest in three equal annual installments, beginning on the first anniversary of the grant date, subject to each respective employeeâ€™s continued employment at the Company through each applicable vesting date or otherwise provided under the terms of the applicable award agreement or applicable employment agreement. The option price is equal to the fair market value of the common stock on the grant date and the Service Options have a 10-year term.The Performance Options will fully vest if the Company attains the trailing EPS target over four consecutive calendar quarters occurring between September 30, 2018 and March 31, 2025 as described below. Such performance target was established by the Compensation Committee and will be measured at the end of each calendar quarter commencing on September 30, 2019. Acquisitions meeting the definition of a business are accounted for as business combinations while all other acquisitions are accounted for as asset purchases.The following table sets forth the Company's acquisition activity for the nine months ended DecemberÂ 31, 2024 and 2023:Â Nine months ended December 31,20242023Acquisitions:Number of loan portfolios acquired through asset purchases6Â â€”Â Purchase price$18,947,294Â $â€”Â Tangible assets:Â Loans receivable, net18,812,693Â â€”Â Purchase price amount over carrying value of net tangible assets$134,601Â $â€”Â Customer lists$127,995Â $â€”Â Non-compete agreements$6,606Â $â€”Â Acquisitions that are accounted for as business combinations typically result in one or more new branches. In such cases, the Company typically retains the existing employees and the branch location from the acquisition.Â The purchase price is allocated to the tangible assets and intangible assets acquired based upon their estimated fair market values at the acquisition date.Â The remainder is allocated to goodwill.Acquisitions that are accounted for as asset purchases are typically limited to acquisitions of loan portfolios. The purchase price is allocated to the tangible assets and intangible assets acquired based upon their estimated fair values at the acquisition date.Â In an asset purchase, no goodwill is recorded. When the cost of an asset acquisition is less than the fair value of the net assets acquired, the benefit is allocated to nonmonetary long-lived assets acquired on a relative fair value basis. However, any assets for which the subsequent application of GAAP would result in an immediate gain (e.g., financial assets, assets held for sale) are not allocated a portion of the cost below fair value. Any remaining benefit is recorded as a discount on purchase, which is a component of Unearned interest, insurance and fees in the Company's Consolidated Balance Sheets, and is amortized over the life of loans receivable acquired. During the nine months ended DecemberÂ 31, 2024, the Company recorded a $1.0Â million discount on loans acquired in asset purchases.The Companyâ€™s acquisitions include tangible assets (generally loans and furniture and equipment) and intangible assets (generally non-compete agreements, customer lists, and goodwill), both of which are recorded at their fair values, which are estimated pursuant to the processes described below.Acquired loans are valued at the net loan balance.Â Given the short-term nature of these loans, generally less than twelve months, and that these loans are priced at current rates, management believes the net loan balances approximate their fair value. Under CECL, acquired loans are included in the reserve calculations for all loan types (excluding TALs). Management includes recent acquisition activity compared to historical activity when considering reasonable and supportable forecasts as it relates to assessing the adequacy of the allowance for expected credit losses. The Company did not acquire any loans that would qualify as PCDs during the nine months ended DecemberÂ 31, 2024 and 2023.Furniture and equipment are valued at the specific purchase price as agreed to by both parties at the time of acquisition, which management believes approximates their fair values.Non-compete agreements are valued at the stated amount paid to the other party for these agreements, which the Company believes approximates their fair values. Customer lists are valued with a valuation model that utilizes the Companyâ€™s historical data to estimate the value of any acquired customer lists.The results of all acquisitions are included in the Companyâ€™s consolidated financial statements since the respective acquisition date. The pro forma impact of these branches as though they had been acquired at the beginning of the periods presented would not have a material effect on the results of operations as reported. Both letters of credit automatically extend for one year on their expiration dates. To the extent that the letter of credit is drawn upon, the disbursement will be funded by the credit facility. There are no amounts due related to the letters of credit as of DecemberÂ 31, 2024. Subject to a borrowing base formula, the Company may borrow at the rate of one month SOFR plus 0.10% and an applicable margin of 3.5% with a minimum rate of 4.5%. The revolving credit facility has a commitment fee of 0.50% per annum on the unused portion of the commitment. Commitment fees on the unused portion of the borrowing totaledÂ $1.2 million and $1.3 million for the nine months endedÂ DecemberÂ 31, 2024 andÂ 2023, respectively.For the nine months ended DecemberÂ 31, 2024 and fiscal year ended MarchÂ 31, 2024, the Companyâ€™s effective interest rate, including the commitment fee and amortization of debt issuance costs, was 9.7% annualized and 9.9%, respectively. At DecemberÂ 31, 2024, the unused amount available under the revolving credit facility was $243.3 million and borrowings under the revolving credit facility mature on JuneÂ 7, 2026.Substantially all of the Companyâ€™s assets are pledged as collateral for borrowings under the revolving credit agreement.Senior Unsecured Notes PayableOn September 27, 2021, we issued $300Â million in aggregate principal amount of 7.0% senior notes due November 2026. The Notes were sold in a private placement in reliance on Rule 144A and Regulation S under the Securities Act of 1933, as amended (the "Securities Act"). The Notes are unconditionally guaranteed, jointly and severally, on a senior unsecured basis by all of the Companyâ€™s existing and certain of its future subsidiaries that guarantee the revolving credit facility. Interest on the Notes is payable semi-annually in arrears on May 1 and November 1 of each year, commencing May

1, 2022. At any time prior to November 1, 2023, the Company could have redeemed the Notes, in whole or in part, at a redemption price equal to 100% of the principal amount plus a make-whole premium, as described in the indenture, plus accrued and unpaid interest, if any, to, but not including, the date of redemption. At any time on or after November 1, 2023, the Company may redeem the Notes at redemption prices set forth in the indenture, plus accrued and unpaid interest, if any, to, but not including, the date of redemption. In addition, at any time prior to November 1, 2023, the Company could have used the proceeds of certain equity offerings to redeem up to 40.0% of the aggregate principal amount of the Notes issued under the indenture at a redemption price equal to 107.0% of the principal amount of Notes redeemed, plus accrued and unpaid interest, if any, to, but not including, the date of redemption.We used the net proceeds from this offering to repay a portion of the outstanding indebtedness under our revolving credit facility and for general corporate purposes.During the nine months ended DecemberÂ 31, 2024, the Company repurchased and extinguished $49.3Â million of its Notes, net of $0.4Â million unamortized debt issuance costs related to the extinguished debt, on the open market for a reacquisition price of $48.1Â million.During fiscal 2024, the Company repurchased and extinguished $15.7Â million of its Notes, net of $0.2Â million unamortized debt issuance costs related to the extinguished debt, on the open market for a reacquisition price of $14.1Â million.For the three months ended DecemberÂ 31, 2024 and 2023, the Company recognized a $50.0Â thousand loss and a $0.6Â million gain on extinguishment, respectively. For each of the the nine months ended DecemberÂ 31, 2024 and 2023, the Company recognized a $1.2Â million gain on extinguishment. In accordance with ASC 470, the Company recognized the gain and loss on extinguishments as a component of interest expense in the Company's Consolidated Statements of Operations.Debt CovenantsThe agreement governing the Companyâ€™s revolving credit facility contains affirmative and negative covenants, including covenants that generally restrict the ability of the Company and its subsidiaries to, among other things, incur or guarantee indebtedness, incur liens, pay dividends and repurchase or redeem capital stock, dispose of assets, engage in mergers and consolidations, make acquisitions or other investments, redeem or prepay subordinated debt, amend subordinated debt documents, make changes in the nature of its business, and engage in transactions with affiliates. The agreement allows the Company to incur subordinated debt that matures after the termination date for the revolving credit facility and that contains specified subordination terms, subject to limitations on amount imposed by the financial covenants under the agreement. The agreement's financial covenants include (i) a minimum consolidated net worth of $325.0Â million on and after December 31, 2020; (ii) a maximum ratio of total debt to consolidated adjusted net worth of 2.25 to 1.0 for the fiscal quarter ended December 31, 2023 and each fiscal quarter thereafter; (iii) a maximum collateral performance indicator of 26.0% as of the end of each calendar month; and (iv) a minimum fixed charges coverage ratio of 2.0 to 1.0 for the fiscal quarters ending December 31, 2023 through December 31, 2024, and 2.25 to 1.0 for each fiscal quarter thereafter, where the ratio for the most recent four consecutive fiscal quarters (other than for the fiscal quarter ended September 30, 2023) must be at least 2.0 to 1.0 in order for the Company to declare dividends or purchase any class or series of its capital stock or other equity.The collateral performance indicator is equal to the sum of (a) a three-month rolling average rate of receivables at least sixty days past due and (b) an eight-month rolling average net charge-off rate. The Company was in compliance with these covenants at DecemberÂ 31, 2024 and does not believe that these covenants will materially limit its business and expansion strategy.The agreement contains events of default including, without limitation, nonpayment of principal, interest or other obligations, violation of covenants, misrepresentation, cross-default to other debt, bankruptcy and other insolvency events, judgments, certain ERISA events, actual or asserted invalidity of loan documentation, invalidity of subordination provisions of subordinated debt, certain changes of control of the Company, and the occurrence of certain regulatory events, (including the entry of any stay, order, judgment, ruling or similar event related to the Companyâ€™s or any of its subsidiariesâ€™ originating, holding, pledging, collecting or enforcing its eligible loans receivable that is material to the Company or any subsidiary) which remains unvacated, undischarged, unbonded or unstayed by appeal or otherwise for a period of 60 days from the date of its entry and is reasonably likely to cause a material adverse change.The indenture governing the Notes contains certain covenants that, among other things, limit the Companyâ€™s ability and the ability of its restricted subsidiaries to (i) incur additional indebtedness or issue certain disqualified stock and preferred stock; (ii) pay dividends or distributions or redeem or purchase capital stock; (iii) prepay subordinated debt or make certain investments; (iv) transfer and sell assets; (v) create or permit to exist liens; (vi) enter into agreements that restrict dividends, loans and other distributions from their subsidiaries; (vii) engage in a merger, consolidation or sell, transfer or otherwise dispose of all or substantially all of their assets; and (viii) engage in transactions with affiliates. However, these covenants are subject to a number of important detailed qualifications and exceptions.Debt MaturitiesThe aggregate annual maturities of the Company's debt arrangements for future fiscal years ended March 31 are as follows:AmountRemainder of 2025â€”Â 2026â€”Â 2027561,249,020Â 2028â€”Â 2029â€”Â Thereafterâ€”Â Total future debt payments$561,249,020Â X - ReferencesNo definition 2024, the Company had $1.1 million of total gross unrecognized tax benefits including interest.Â Approximately $0.8 million represents the amount of net unrecognized tax benefits that are permanent in nature and, if recognized, would affect the annual effective tax rate.Â At DecemberÂ 31, 2024, approximately $0.4 million of gross unrecognized tax benefits are expected to be resolved during the next twelve months through the expiration of the statute of limitations and settlement with taxing authorities. The Companyâ€™s continuing practice is to recognize interest and penalties related to income tax matters in income tax expense.Â The Company had approximately $327.9 thousand accrued for gross interest as of DecemberÂ 31, 2024, and accrued $10.9 thousand during the nine months ended DecemberÂ 31, 2024.Investment in HTC was $18.7Â million and $24.8Â million as of DecemberÂ 31, 2024 and MarchÂ 31, 2024, respectively, which is included as a component of Other assets, net in the Consolidated Balance Sheets. The Company recognized net amortization from these investments of $4.2Â million and $1.2Â million during the three months ended DecemberÂ 31, 2024 and 2023, respectively, and $12.4Â million and $3.2Â million during the nine months ended DecemberÂ 31, 2024 and 2023, respectively, in income tax expense. The Company recognized tax benefits from these investments of $4.3Â million and $1.2Â million for the three months ended DecemberÂ 31, 2024 and 2023, respectively, and $13.6Â million and $3.6Â million for the nine months ended DecemberÂ 31, 2024 and 2023, respectively, in income tax expense and in Income taxes payable in the Consolidated Statements of Cash Flows. The Company did not recognize any non-tax related activity or have any significant modifications in the investments during the current period.Â The Company is subject to U.S. income taxes, as well as taxes in various other state and local jurisdictions.Â With the exception of a few states, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2021, although carryforward attributes that were generated prior to 2021 may still be adjusted upon examination by the taxing authorities if they either have been or will be used in a future period.The Companyâ€™s effective income tax rate increased to 16.4% for the three months ended DecemberÂ 31, 2024 compared to 14.6% for the prior year quarter. The increase is primarily due to the effects of provision to return adjustments treated as discrete items in the prior year quarter, which were partially offset by pretax book earnings relative to the effects of various permanent items including a decrease in the disallowed executive compensation under Section 162(m) and the recognition of additional HTCs when compared to the prior year. In addition, because most legal proceedings are resolved over extended periods of time, potential losses are subject to change due to, among other things, new developments, changes in legal strategy, the outcome of intermediate procedural and substantive rulings and other partiesâ€™ settlement posture and their evaluation of the strength or weakness of their case against us. For these reasons, we are currently unable to predict the ultimate timing or outcome of, or reasonably estimate the possiblelosses or a range of possible losses resulting from, any currently pending claims. Based on information currently available, theCompany does not believe that any reasonably possible losses arising from currently pending legal matters will be material tothe Companyâ€™s results of operations or financial conditions. However, in light of the inherent uncertainties involved in such matters, an adverse outcome in one or more of these matters could materially and adversely affect the Companyâ€™s financial condition, results of operations or cash flows in any particular reporting period. Accounting Policies [Abstract] Â Nature of Operations Nature of OperationsThe Company is a small-loan consumer finance company headquartered in Greenville, South Carolina that offers short-term small loans, medium-term larger loans, related credit insurance products and ancillary products and services to individuals who have limited access to other sources of consumer credit.Â The Company offers income tax return preparation services to its loan customers and other individuals. Seasonality SeasonalityThe Company's loan volume and corresponding loans receivable follow seasonal trends. The Company's highest loan demand generally occurs from October through December, its third fiscal quarter. Loan demand is generally lowest and loan repayment highest from January to March, its fourth fiscal quarter. Loan volume and average balances remain relatively level during the remainder of the year. Consequently, the Company experiences significant seasonal fluctuations in its operating results and cash needs. Operating results for the Company's third fiscal quarter are generally lower than in other quarters, and operating results for its fourth fiscal quarter are generally higher than in other quarters. Loans receivable, net Loans receivable, netLoans receivable are carried at amortized cost, which is the gross amount outstanding, reduced by unearned interest and insurance income, net of deferred origination fees and direct costs, and an allowance for credit losses. Fees received and direct costs incurred for the origination of loans are deferred and amortized to interest income over the contractual lives of the loans using the interest method. Unamortized amounts are recognized in income at the time that loans are refinanced or paid in full except for those refinancings that do not constitute a more than minor modification. Net unamortized deferred origination costs were $6.6Â million and $5.0Â million as of DecemberÂ 31, 2024 and MarchÂ 31, 2024, respectively.From time to time, the Company will sell charged off loans receivable, which are accounted for as a sale in accordance with ASC 860, Transfers and Servicing. See Note 4 to the Consolidated Financial Statements for further information. Allowance for credit losses Allowance for credit lossesRefer to Note 4 to the Consolidated Financial Statements for information regarding the Company's CECL allowance model and a description of the policies and methodology utilized. Reclassification ReclassificationFrom time to time, prior period amounts will be reclassified to conform to the current presentation. Such reclassifications have no impact on previously reported net income or shareholders' equity Recently Issued Accounting Standards Not Yet Adopted Recently Issued Accounting Standards Not Yet AdoptedImprovements to Reportable Segment DisclosuresIn November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, which improves reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. The amendments are effective for fiscal years beginning after December 15, 2023, and for interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The amendments should be applied retrospectively to all prior periods presented in the financial statements. Management is currently evaluating this ASU to determine its impact on the Company's consolidated financial statements and related disclosures.Improvements to Income Tax DisclosuresIn December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which modifies the rules on income tax disclosures to require entities to expand annual disclosures to 1) include specific categories in the rate reconciliation and additional information for reconciling items that meet a quantitative threshold and 2) disclose the amount of income taxes paid (net of refunds received) disaggregated by federal, state and foreign taxes. ASU 2023-09 also requires entities to disclose income (or loss) from continuing operations before income tax expense (or benefit) disaggregated between domestic and foreign, and income tax expense (or benefit) from continuing operations disaggregated by federal, state and foreign, among other changes. The amendments are effective for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. ASU 2023-09 should be applied on a prospective basis, but retrospective application is permitted. Management is currently evaluating this ASU to determine its impact on the Company's consolidated financial statements and related disclosures.Disaggregation of Income Statement Expenses In November 2024, the FASB issued ASU 2024-03, Disaggregation of Income Statement Expenses, which requires additional disclosure, in the notes to financial statements, about specific types of expenses included in the expense captions presented on the face of the income statement as well as disclosures about selling expenses. The amendments in this update are effective for annual reporting periods beginning after December 15, 2026, and interim periods within annual reporting periods beginning after December 15, 2027, which was clarified by ASU 2025-01, Clarifying the Effective Date. Early adoption is permitted. ASU 2024-03 should be applied either (1) prospectively to financial statements issued for reporting periods after the effective date of this update or (2) retrospectively to any or all prior periods presented in the financial statements. Management is currently evaluating this ASU to determine its impact on the Company's consolidated financial statements and related disclosures.We reviewed all other newly issued accounting pronouncements and concluded that they are either not applicable to our business or are not expected to have a material effect on the consolidated financial statements and related disclosures as a result of future adoption. Volatility also may be defined as a probability-weighted measure of the dispersion of returns about the mean. The volatility of a share price is the standard deviation of the continuously compounded rates of return on the share over a specified period. That is the same as the standard deviation of the differences in the natural logarithms of the stock prices plus dividends, if any, over the period. + ReferencesReference 1: http://www.xbrl.org/2003/role/disclosureRef -Topic 718 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Subparagraph (f)(2)(ii) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-2 + Details Name: us-gaap_ShareBasedCompensationArrangementByShareBasedPaymentAwardFairValueAssumptionsExpectedVolatilityRate Namespace Prefix: us-gaap_ Data Type: dtr-types:percentItemType Balance Type: na Period Type: duration X - DefinitionThe risk-free interest rate assumption that is used in valuing an option on its own shares. + ReferencesReference 1: http://www.xbrl.org/2003/role/disclosureRef -Topic 718 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Subparagraph (f)(2)(iv) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-2 + Details Name: us-gaap_ShareBasedCompensationArrangementByShareBasedPaymentAwardFairValueAssumptionsRiskFreeInterestRate Namespace Prefix: us-gaap_ Data Type: dtr-types:percentItemType Balance Type: na Period Type: duration X - DefinitionExpected term of award under share-based payment arrangement, in 'PnYnMnDTnHnMnS' format, for example, 'P1Y5M13D' represents reported fact of one year, five months, and thirteen days. + ReferencesReference 1: http://www.xbrl.org/2003/role/disclosureRef -Topic 718 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Subparagraph (f)(2)(i) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-2 + Details Name: us-gaap_ShareBasedCompensationArrangementBySharebasedPaymentAwardFairValueAssumptionsExpectedTerm1 Namespace Prefix: us-gaap_ Data Type: xbrli:durationItemType Balance Type: na Period Type: duration XML 60 R49.htm IDEA: XBRL DOCUMENT v3.25.0.1 STOCK-BASED COMPENSATION (Stock Option Activity and Intrinsic Value) (Details) - USD ($) 3 Months Ended 9 Months Ended Dec. 31, 2024 Dec. 31, 2023 Dec. 31, 2024 Dec. 31, 2023 Share-based Compensation Arrangement by Share-based Payment Award [Line Items] Â Â Â Â Weighted-average fair value at the grant date (in dollars per share) $ 58.29 $ 68.52 $ 58.29 $ 69.00 Stock Options Plans Â Â Â Â Options Activity [Roll Forward] Â Â Â Â Options outstanding, beginning of year (in shares) Â Â 267,947 Â Granted (in shares) Â Â 38,661 Â Exercised (in shares) Â Â (20,310) Â Forfeited (in shares) Â Â (8,212) Â Expired (in shares) Â Â (1,549) Â Options outstanding, end of period (in shares) 276,537 Â 276,537 Â Options exercisable, end of period (in shares) 131,659 Â 131,659 Â Weighted Average Exercise Price Â Â Â Â Options outstanding, beginning of year (in dollars per share) Â Â $ 105.77 Â Granted (in dollars per share) Â Â 111.68 Â Exercised (in dollars per share) Â Â 92.64 Â Forfeited (in dollars per share) Â Â 102.62 Â Expired (in dollars per share) Â Â 206.52 Â Options outstanding, end of period (in dollars per share) $ 107.09 Â 107.09 Â Options exercisable, end of period (in dollars per share) $ 110.58 Â $ 110.58 Â Stock Option Activity Additional Disclosures [Abstract] Â Â Â Â Weighted-average remaining contractual term, options outstanding, end of period Â Â 5 years 1 month 6 days Â Weighted-average remaining contractual terms, options exercisable, end of period Â Â 4 years 7 months 6 days Â Aggregate intrinsic value, options outstanding, end of period $ 2,850,363 Â $ 2,850,363 Â Aggregate intrinsic value, options exercisable, end of period 1,594,728 Â 1,594,728 Â Intrinsic value of options exercised 215,599 $ 369,543 732,318 $ 810,853 Tax benefit of options exercised $ 52,822 $ 90,538 $ 179,418 $ 198,659 X - DefinitionAmount of tax benefit from exercise of option under share-based payment arrangement. + ReferencesReference 1: http://www.xbrl.org/2003/role/disclosureRef -Name Accounting Standards Codification -Section 50 -Paragraph 2A -Subparagraph (a) -SubTopic 10 -Topic 718 -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-2A + Details Name: us-gaap_EmployeeServiceShareBasedCompensationTaxBenefitFromExerciseOfStockOptions Namespace Prefix: us-gaap_ Data Type: xbrli:monetaryItemType Balance Type: credit Period Type: duration X - DefinitionLine items represent financial concepts included in a table. The results for the interim periods are not necessarily indicative of the results that may be expected for the full year or any other interim period.
 The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent liabilities at the date of the consolidated financial statements and the reported amount of revenue and expenses during the reporting period. Actual results could differ from those estimates.
 The consolidated financial statements do not include all disclosures required by GAAP and should be read in conjunction with the Company's audited consolidated financial statements and related notes for the fiscal year ended March 31, 2024, included in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2024, as filed with the SEC (the "fiscal 2024 Annual Report"). The Company applies the accounting policies contained in Note 1 to the Consolidated Financial Statements included in fiscal 2024 Annual Report. The Company believes that the disclosures are adequate to make the information presented not misleading. SUMMARY OF SIGNIFICANT POLICIES Nature of Operations
 The Company is a small-loan consumer finance company headquartered in Greenville, South Carolina that offers short-term small loans, medium-term larger loans, related credit insurance products and ancillary products and services to individuals who have limited access to other sources of consumer credit. The Company offers income tax return preparation services to its loan customers and other individuals.
 Seasonality
 The Company's loan volume and corresponding loans receivable follow seasonal trends. The Company's highest loan demand generally occurs from October through December, its third fiscal quarter. Loan demand is generally lowest and loan repayment highest from January to March, its fourth fiscal quarter. Loan volume and average balances remain relatively level during the remainder of the year. Consequently, the Company experiences significant seasonal fluctuations in its operating results and cash needs. Operating results for the Company's third fiscal quarter are generally lower than in other quarters, and operating results for its fourth fiscal quarter are generally higher than in other quarters.
 Loans receivable, net
 Loans receivable are carried at amortized cost, which is the gross amount outstanding, reduced by unearned interest and insurance income, net of deferred origination fees and direct costs, and an allowance for credit losses. Fees received and direct costs incurred for the origination of loans are deferred and amortized to interest income over the contractual lives of the loans using the interest method. Unamortized amounts are recognized in income at the time that loans are refinanced or paid in full except for those refinancings that do not constitute a more than minor modification. Net unamortized deferred origination costs were $6.6 million and $5.0 million as of December 31, 2024 and March 31, 2024, respectively.
 From time to time, the Company will sell charged off loans receivable, which are accounted for as a sale in accordance with ASC 860, Transfers and Servicing. See Note 4 to the Consolidated Financial Statements for further information.
 Allowance for credit losses
 Refer to Note 4 to the Consolidated Financial Statements for information regarding the Company's CECL allowance model and a description of the policies and methodology utilized. Reclassification
 From time to time, prior period amounts will be reclassified to conform to the current presentation. Such reclassifications have no impact on previously reported net income or shareholders' equity.

 Improvements to Reportable Segment Disclosures
 In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, which improves reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. The amendments are effective for fiscal years beginning after December 15, 2023, and for interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The amendments should be applied retrospectively to all prior periods presented in the financial statements. Management is currently evaluating this ASU to determine its impact on the Company's consolidated financial statements and related disclosures.
 Improvements to Income Tax Disclosures
 In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which modifies the rules on income tax disclosures to require entities to expand annual disclosures to 1) include specific categories in the rate reconciliation and additional information for reconciling items that meet a quantitative threshold and 2) disclose the amount of income taxes paid (net of refunds received) disaggregated by federal, state and foreign taxes. ASU 2023-09 also requires entities to disclose income (or loss) from continuing operations before income tax expense (or benefit) disaggregated between domestic and foreign, and income tax expense (or benefit) from continuing operations disaggregated by federal, state and foreign, among other changes. The amendments are effective for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. ASU 2023-09 should be applied on a prospective basis, but retrospective application is permitted. Management is currently evaluating this ASU to determine its impact on the Company's consolidated financial statements and related disclosures.
 Disaggregation of Income Statement Expenses
 In November 2024, the FASB issued ASU 2024-03, Disaggregation of Income Statement Expenses, which requires additional

*disclosure, in the notes to financial statements, about specific types of expenses included in the expense captions presented on the face of the income statement as well as disclosures about selling expenses. The amendments in this update are effective for annual reporting periods beginning after December 15, 2026, and interim periods within annual reporting periods beginning after December 15, 2027, which was clarified by ASU 2025-01, Clarifying the Effective Date. Early adoption is permitted. ASU 2024-03 should be applied either (1) prospectively to financial statements issued for reporting periods after the effective date of this update or (2) retrospectively to any or all prior periods presented in the financial statements. Management is currently evaluating this ASU to determine its impact on the Company's consolidated financial statements and related disclosures.
 We reviewed all other newly issued accounting pronouncements and concluded that they are either not applicable to our business or are not expected to have a material effect on the consolidated financial statements and related disclosures as a result of future adoption. Nature of Operations

 We reviewed all other newly issued accounting pronouncements and concluded that they are either not applicable to our business or are not expected to have a material effect on the consolidated financial statements and related disclosures as a result of future adoption. FAIR VALUE Fair Value Disclosures
 The Company may carry certain financial instruments and derivative assets and liabilities at fair value measured on a recurring or nonrecurring basis. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Company measures the fair values of its financial instruments based on the fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.
 <span style="color:#000000;font-family:'Times New Roman',sans-serif;font-*

size:10pt;font-weight:400;line-height:120%">Fair value measurements are grouped in three levels. The levels prioritize the inputs used to measure the fair value of the assets or liabilities. These levels are:
 •Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities. •Level 2 – Inputs other than quoted prices that are observable for assets and liabilities, either directly or indirectly. These inputs include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are less active. •Level 3 – Unobservable inputs for assets or liabilities reflecting the reporting entity's own assumptions.
 The Company's financial instruments consist of cash and cash equivalents, loans receivable, net, the senior notes payable, and the senior unsecured notes payable. Loans receivable are originated at prevailing market rates and have an average life of up to twelve months. Given the short-term nature of these loans, they are continually repriced at current market rates. The Company's senior notes payable, consisting of a senior revolving credit facility, has a variable rate based on a margin over SOFR and reprices with any changes in SOFR. The fair value of the senior unsecured notes payable is estimated based on quoted prices in markets that are not active. The Company also considers its creditworthiness in its estimation of fair value.

 Current payment performance is used to assess the capability of the borrower to repay contractual obligations of the loan agreements as scheduled, which is monitored by management on a daily basis. The Company's payment performance buckets are as follows: current, 30-60 days past due, 61-90 days past due, 91 days or more past due.
 All loans, except for TALs, that are greater than 90 days past due on a recency basis and not written off as of the reporting date are reserved for at 100% of the outstanding balance, net of a calculated Rehab Rate. The weighted average Rehab Rate at December 31, 2024 and March 31, 2024 was 4.7% and 4.9%, respectively. A loan is charged off within the allowance for credit losses in the month following when an account reaches 120 days past due on a recency basis, subject to certain exceptions. Specifically, the Company's customer accounts in a confirmed bankruptcy are generally charged off in the month after they reach 60 days past due on a recency basis. The accounts of deceased or incarcerated customers are also generally charged off in the month after they reach 60 days past due on a recency basis, with the exception of deceased customers with credit life insurance. Subsequent recoveries of amounts charged off, if any, are credited to the allowance for credit losses.
 The following table provides a breakdown of the Company's gross loans receivable by current payment performance on a recency basis and year of origination at December 31, 2024: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:12.788%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.057%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.057%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.619%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.034%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:9.864%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:8.841%"></td><td style="width:0.1%"></td><td colspan="3" style="display:none"></td><td style="width:1.0%"></td><td style="width:12.356%"></td><td style="width:0.1%"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td></tr><tr style="height:14pt"><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="18" style="padding:0 1pt"></td><td colspan="3" style="display:none"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="18" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Term Loans By Origination</td><td colspan="3" style="display:none"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="display:none"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Loans</td><td

style="background-color:#ffffff;border-top:3pt double #000;padding:0 1pt"></td></tr></table> Credit risk is inherent in the business of extending loans to borrowers and is continuously monitored by management and reflected within the allowance for credit losses for loans. The allowance for credit losses is an estimate of expected losses inherent within the Company's gross loans receivable portfolio. In estimating the allowance for credit losses, loans with similar risk characteristics are aggregated into pools and collectively assessed. The Company's loan products have generally the same terms therefore the Company looks to borrower characteristics as a way to disaggregate loans into pools sharing similar risks.
 In determining the allowance for credit losses, the Company examined four borrower risk metrics as noted below.
 1.Borrower type 2.Active months 3.Prior loan performance 4.Customer Tenure
 To determine how well each metric predicts default risk the Company used loss rate data over an observation period of twelve months at the loan level.
 The information value was then calculated for each metric. From this analysis management determined the metric that had the strongest predictor of default risk was Customer Tenure. The Customer Tenure buckets used in the allowance for credit loss calculation are:
 1.0 to 5 months 2.6 to 17 months 3.18 to 35 months 4.<span style="color:#000000;font-family:'Times New Roman',sans-serif;font-

size:10pt;font-weight:400;line-height:107%;padding-left:10.5pt">36 to 59 months 5. 60+ months
 Management will continue to monitor this credit metric on a quarterly basis.
 Management estimates an allowance for each Customer Tenure bucket by performing a historical migration analysis of loans in that bucket for the twelve most recent historical twelve-month migration periods. Management considers whether current credit conditions might suggest a change is needed to the allowance for credit losses by monitoring trends in first pay success for new borrowers, 60-89 day delinquencies on a recency basis, percent of loan balances that are paying and percentage of gross loans that are acquired loans. If management determines that historical migration rates should be adjusted to reflect expected credit losses, a qualitative adjustment is made to reflect management's judgment regarding observable changes in recent or expected economic trends and conditions, portfolio composition, or other significant events or conditions that affect the current estimate. The increase in the allowance for credit losses from March 31, 2024 to December 31, 2024 was primarily due to loan growth during the period.
 Due to the short term nature of the loan portfolio, forecasted changes in macroeconomic variables such as unemployment levels, general inflation and commodity prices, typically do not have a significant impact on loans outstanding at the end of a particular reporting period, unless those changes are particularly severe and sudden in nature. Therefore, management develops a reasonable and supportable forecast of losses by comparing the most recent six-month loss curves as compared to historical loss curves to see if there are significant changes in borrower behavior that may indicate the historical migration rates should be adjusted. If a change is determined necessary, then the Company has elected to immediately revert back to historical experience past the forecast period. As of December 31, 2024 and March 31, 2024, there were no conditions or other factors considered significant enough to warrant a forecast adjustment. The following table presents a roll forward of the allowance for credit losses for the three and nine months ended December 31, 2024 and 2023: <table  The Company elected not to record an allowance for credit losses for accrued interest as outlined in ASC 326-20-30-5A. Loans are placed on nonaccrual status when management determines that the full payment of principal and collection of interest according to contractual terms is no longer likely. The accrual of interest is discontinued when a loan is 61 days or more past the contractual due date. When the interest accrual is discontinued, all unpaid accrued interest is reversed against interest income. While a loan is on nonaccrual status, interest income is recognized only when a payment is received. Once a loan moves to nonaccrual status, it remains in nonaccrual status until it is paid out, charged off or refinanced.
 The following table presents unpaid accrued interest reversed against interest income by Customer Tenure for the three and nine months ended December 31, 2024 and 2023:

 The Company uses its senior notes payable's effective annual interest rate to determine the discount rate when evaluating leases under Topic 842. Specifically, Management applies its senior notes payable's effective annual interest rate at the end of the prior fiscal year to leases entered into in the following year. For example, the senior notes payable's annual effective interest rate of 9.9% at March 31, 2024 was used as the discount rate when determining the lease type and the present value of lease payments for leases entered into in fiscal 2025.
 Based on its historical practice, the Company believes it is reasonably certain to exercise a given option associated with a given office space lease. Therefore, the Company classifies all lease options for office space as “reasonably certain” unless it has specific knowledge to the contrary for a given lease. The Company does not believe it is reasonably certain to exercise any options associated with its office equipment leases.
 Periodic Disclosures
 The Company's operating leases consist of real estate leases for office space as well as office equipment. Both the branch real estate and office equipment lease terms generally range from three years to five years, and generally contain options to extend which mirror the original terms of the lease.
 As of December 31, 2024

*and 2023, the Company had no finance leases.

BASED COMPENSATION Stock Incentive Plans
 The Company maintains the 2008 Plan, the 2011 Plan and the 2017 Plan for the benefit of certain non-employee directors, officers, and key employees. Under these plans, a total of 3,350,000 shares of authorized common stock have been reserved for issuance pursuant to grants approved by the Compensation Committee. Stock options granted under these plans have a maximum term of 10 years, may be subject to certain vesting requirements, which are generally three to six years for officers, non-employee directors, and key employees, and are priced at the market value of the Company's common stock on the option's grant date. At December 31, 2024, there were a total of 187,020 shares of common stock remaining available for grant under the 2017 Plan.
 Stock-based compensation is recognized as provided under FASB ASC Topic 718-10 and FASB ASC Topic 505-50. FASB ASC Topic 718-10 requires all share-based payments to employees, including grants of employee stock options, to be recognized as compensation expense over the requisite service period (generally the vesting period) in the consolidated financial statements based on their grant date fair values. Stock-based compensation related to restricted stock is based on the number of shares expected to vest and the fair market value of the common stock on the grant date. Stock-based compensation related to stock option awards is based on the number of shares expected to vest and the estimated fair value of the awards on the grant date using the Black-Scholes valuation model. Under the Black-Scholes valuation method, the assumptions used to determine the fair value are expected volatility, expected life, average risk-free rate, and dividend yield, if any. The expected stock price volatility is based on the historical volatility of the Company's common stock for a period approximating the expected life. The expected life represents the period of time that options are expected to be outstanding after the grant date. The risk-free rate reflects the interest rate at grant date on zero coupon U.S. governmental bonds having a remaining life similar to the expected option term.
 2018 Long-term Incentive Program and Non-Employee Director Awards
 On October 15, 2018, the Compensation Committee and Board of Directors approved and adopted a long-term incentive program that seeks to motivate and reward certain employees and to align management’s interest with shareholders’ interest by focusing executives on the achievement of long-term results. The program is comprised of four components: Service Options, Performance Options, Restricted Stock, and Performance Shares.
 Pursuant to this program, in fiscal 2019, the Compensation Committee approved certain grants of Service Options, Performance Options, Restricted Stock and Performance Shares under the 2011 Plan and the 2017 Plan to certain employee directors, vice presidents of operations, vice presidents, senior vice presidents, and executive officers. Separately, the Compensation Committee approved certain grants of Service Options and Restricted Stock to certain non-employee directors of the Company.
 Under the long-term incentive program, up to 100% of the shares of restricted stock subject to the Performance Shares will vest, if at all, based on the achievement of two trailing EPS performance targets established by the Compensation Committee that are based on EPS (measured at the end of each calendar quarter, commencing with the calendar quarter ending September 30, 2019) for the previous four calendar quarters. The Performance Shares are eligible to vest over the 2018 Performance Share Measurement Period, subject to each respective employee’s continued employment at the Company through the last day of the 2018 Performance Share Measurement Period (or as otherwise provided under the terms of the applicable award agreement or applicable employment agreement).
 The Performance Share performance targets are set forth below.<table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:99.707%"><tr><td style="width:1.0%"></td><td style="width:48.900%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:48.900%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Trailing 4-Quarter EPS Targets for

 During the second quarter of fiscal 2025, it was determined that the $20.45 Performance Share performance target was no longer probable of being achieved and that the $20.45 Performance Shares would likely be forfeited as of the last day of the performance period in accordance with their terms. As a result and in accordance with ASC 718, the Company reversed $18.5 million in previously recognized stock-based compensation related to the $20.45 Performance Shares during the second quarter of fiscal 2025. The Restricted Stock awards typically vest in three to six equal annual installments, beginning on the first anniversary of the grant date, subject to each respective employee's continued employment at the Company through each applicable vesting date or otherwise provided under the terms of the applicable award agreement or applicable employment agreement.
 The Service Options typically vest in three equal annual installments, beginning on the first anniversary of the grant date, subject to each respective employee's continued employment at the Company through each applicable vesting date or otherwise provided under the terms of the applicable award agreement or applicable employment agreement. The option price is equal to the fair market value of the common stock on the grant date and the Service Options have a 10-year term.
 The Performance Options will fully vest if the Company attains the trailing EPS target over four consecutive calendar quarters occurring between September 30, 2018 and March 31, 2025 as described below. Such performance target was established by the Compensation Committee and will be measured at the end of each calendar quarter commencing on September 30, 2019. The Performance Options are eligible to vest over the 2018 Performance Option Measurement Period, subject to each respective employee's continued employment at the Company through the last day of the 2018 Performance Option Measurement Period or as otherwise provided under the terms of the applicable award agreement or applicable employment agreement. The option price is equal to the fair market value of the common stock on the grant date and the Performance Options have a 10-year term. The Performance Option performance target is set forth below.

 During the second quarter of fiscal 2024, it was determined that the Performance Option performance target was no longer probable of being achieved and that the Performance Options would likely be forfeited as of the last day of the performance period in accordance with their terms. As a result and in accordance with ASC 718, the Company reversed $4.9 million in previously recognized stock-based compensation related to these Performance Options during the second quarter of fiscal 2024.
 2024 Long-term Incentive Program and Non-Employee Director Awards
 On December 18, 2024, the Compensation Committee and Board of Directors approved certain grants of Service Options, Performance Options, Restricted Stock and Performance Shares under the 2017 Plan to certain employee directors, vice presidents of operations, vice presidents, senior vice presidents, and executive officers. Separately, the Compensation Committee approved certain grants of Restricted Stock to certain non-employee directors of the Company.
 Up to 100% of the shares of restricted stock subject to the Performance Shares will vest, if at all, based on the achievement of certain performance goals established by the Compensation Committee related to company operational performance metrics during the 2024 Performance Share Measurement Period, for which achievement must be certified by the Compensation Committee. The Performance Shares are eligible to vest over the 2024 Performance Share Measurement Period, subject to each respective employee's continued employment at the Company through the last day of the 2024 Performance Share Measurement Period or otherwise provided under the terms of the applicable award agreement or applicable employment agreement.
 The Restricted Stock awards fully vest on the first anniversary of the grant date, subject to each respective employee's continued employment at the Company through the vesting date or otherwise provided under the terms of the applicable award agreement or applicable employment agreement.
 The Service Options vest in three equal annual installments, beginning on the first anniversary of the grant date, subject to each respective employee's continued employment at the Company through each applicable vesting date or otherwise provided under the terms of the applicable award agreement or applicable employment agreement. The option price is equal to the fair market value of the common stock on the grant date and the Service Options have a 10-year term.

 Acquisitions that are accounted for as business combinations typically result in one or more new branches. In such cases, the Company typically retains the existing employees and the branch location from the acquisition. The purchase price is allocated to the tangible assets and intangible assets acquired based upon their estimated fair market values at the acquisition date. The remainder is allocated to goodwill.
 Acquisitions that are accounted for as asset purchases are typically limited to acquisitions of loan portfolios. The purchase price is allocated to the tangible assets and intangible assets acquired based upon their estimated fair values at the acquisition date. In an asset purchase, no goodwill is recorded. When the cost of an asset acquisition is less than the fair value of the net assets acquired, the benefit is allocated to nonmonetary long-lived assets acquired on a relative fair value basis. However, any assets for which the subsequent application of GAAP would result in an immediate gain (e.g., financial assets, assets held for sale) are not allocated a portion of the cost below fair value. Any remaining benefit is recorded as a discount on purchase, which is a component of Unearned interest, insurance and fees in the Company's Consolidated Balance Sheets, and is amortized over the life of loans receivable acquired. During the nine months ended December 31, 2024, the Company recorded a $1.0 million discount on loans acquired in asset purchases.
 The Company’s acquisitions include tangible assets (generally loans and furniture and equipment) and intangible assets (generally non-compete agreements, customer lists, and goodwill), both of which are recorded at their fair values, which are estimated pursuant to the processes described below.
 Acquired loans are valued at the net loan balance. Given the short-term nature of these loans, generally less than*

*twelve months, and that these loans are priced at current rates, management believes the net loan balances approximate their fair value. Under CECL, acquired loans are included in the reserve calculations for all loan types (excluding TALs). Management includes recent acquisition activity compared to historical activity when considering reasonable and supportable forecasts as it relates to assessing the adequacy of the allowance for expected credit losses. The Company did not acquire any loans that would qualify as PCDs during the nine months ended December 31, 2024 and 2023.
 Furniture and equipment are valued at the specific purchase price as agreed to by both parties at the time of acquisition, which management believes approximates their fair values.
 Non-compete agreements are valued at the stated amount paid to the other party for these agreements, which the Company believes approximates their fair values.
 Customer lists are valued with a valuation model that utilizes the Company's historical data to estimate the value of any acquired customer lists.
 The results of all acquisitions are included in the Company's consolidated financial statements since the respective acquisition date. The pro forma impact of these branches as though they had been acquired at the beginning of the periods presented would not have a material effect on the results of operations as reported. Senior Notes Payable; Revolving Credit Facility

At December 31, 2024, the Company's senior notes payable consisted of a $580.0 million senior revolving credit facility, which has an accordion feature permitting the maximum aggregate commitments to increase to $730.0 million provided that certain conditions are met.
 At December 31, 2024, $335.9 million was outstanding under the Company's credit facility, not including $725.8 thousand in outstanding standby letters of credit, which include (i) $300.0 thousand related to worker's compensation expiring on December 31, 2025 and (ii) $425.8 thousand related to the Company's investment in captive insurance expiring on April 12, 2025. Both letters of credit automatically extend for one year on their expiration dates. To the extent that the letter of credit is drawn upon, the disbursement will be funded by the credit facility. There are no amounts due related to the letters of credit as of December 31, 2024. Subject to a borrowing base formula, the Company may borrow at the rate of one month SOFR plus 0.10% and an applicable margin of 3.5% with a minimum rate of 4.5%. The revolving credit facility has a commitment fee of 0.50% per annum on the unused portion of the commitment. Commitment fees on the unused portion of the borrowing totaled $1.2 million and $1.3 million for the nine months ended December 31, 2024 and 2023, respectively.
 For the nine months ended December 31, 2024 and fiscal year ended March 31, 2024, the Company's effective interest rate, including the commitment fee and amortization of debt issuance costs, was 9.7% annualized and 9.9%, respectively. At December 31, 2024, the unused amount available under the revolving credit facility was $243.3 million and borrowings under the revolving credit facility mature on June 7, 2026.
 Substantially all of the Company's assets are pledged as collateral for borrowings under the revolving credit agreement.
 Senior Unsecured Notes Payable
 On September 27, 2021, we issued $300 million in aggregate principal amount of 7.0% senior notes due November 2026. The Notes were sold in a private placement in reliance on Rule 144A and Regulation S under the Securities Act of 1933, as amended (the "Securities Act"). The Notes are unconditionally guaranteed, jointly and severally, on a senior unsecured basis by all of the Company's existing and certain of its future subsidiaries that guarantee the revolving credit facility. Interest on the Notes is payable semi-annually in arrears on May 1 and November 1 of each year, commencing May 1, 2022. At any time prior to November 1, 2023, the Company could have redeemed the Notes, in whole or in part, at a redemption price equal to 100% of the principal amount plus a make-whole premium, as described in the indenture, plus accrued and unpaid interest, if any, to, but not including, the date of redemption. At any time on or after November 1, 2023, the Company may redeem the Notes at redemption prices set forth in the indenture, plus accrued and unpaid interest, if any, to, but not including, the date of redemption. In addition, at any time prior to November 1, 2023, the Company could have used the proceeds of certain equity offerings to redeem up to 40.0% of the aggregate principal amount of the Notes issued under the indenture at a redemption price equal to 107.0% of the principal amount of Notes redeemed, plus accrued and unpaid interest, if any, to, but not including, the date of redemption.
 We used the net proceeds from this offering to repay a portion of the outstanding indebtedness under our revolving credit facility and for general corporate purposes. During the nine months ended December 31, 2024, the Company repurchased and extinguished $49.3 million of its Notes, net of $0.4 million unamortized debt issuance costs related to the extinguished debt, on the open market for a reacquisition price of $48.1 million.
 During fiscal 2024, the Company repurchased and extinguished $15.7 million of its Notes, net of $0.2 million unamortized debt issuance costs related to the extinguished debt, on the open market for a reacquisition price of $14.1 million.
 For the three months ended December 31, 2024 and 2023, the Company recognized a $50.0 thousand loss and a $0.6 million gain on extinguishment, respectively. For each of the the nine months ended December 31, 2024 and 2023, the Company recognized a $1.2 million gain on extinguishment. In accordance with ASC 470, the Company recognized the gain and loss on extinguishments as a component of interest expense in the Company's Consolidated Statements of Operations.
 Debt Covenants
 The agreement governing the Company's revolving credit facility contains affirmative and negative covenants, including covenants that generally restrict the ability of the Company and its subsidiaries to, among other things, incur or guarantee indebtedness, incur liens, pay dividends and repurchase or redeem capital stock, dispose of assets, engage in mergers and consolidations, make acquisitions or other investments, redeem or prepay subordinated debt, amend subordinated debt documents, make changes in the nature of its business, and engage in transactions with affiliates. The agreement allows the Company to incur subordinated debt that matures after the termination date for the revolving credit facility and that contains specified subordination terms, subject to limitations on amount imposed by the financial covenants under the agreement. The agreement's financial covenants include (i) a minimum consolidated net worth of $325.0 million on and after December 31, 2020; (ii) a maximum ratio of total debt to consolidated adjusted net worth of 2.25 to 1.0 for the fiscal quarter ended December 31, 2023 and each fiscal quarter thereafter; (iii) a maximum collateral performance indicator of 26.0% as of the end of each calendar month; and (iv) a minimum fixed charges coverage ratio of 2.0 to 1.0 for the fiscal quarters ending December 31, 2023 through December 31, 2024, and 2.25 to 1.0 for each fiscal quarter thereafter, where the ratio for the most recent four consecutive fiscal quarters (other than for the fiscal quarter ended September 30, 2023) must be at least 2.0 to 1.0 in order for the Company to declare dividends or purchase any class or series of its capital stock or other equity.
 The collateral performance indicator is equal to the sum of (a) a three-month rolling average rate of receivables at least sixty days past due and (b) an eight-month rolling average net charge-off rate.
 The Company was in compliance with these covenants at December 31, 2024 and does not believe that these covenants will materially limit its business and expansion strategy.
 The agreement contains events of default including, without limitation, nonpayment of principal, interest or other obligations, violation of covenants, misrepresentation, cross-default to other debt, bankruptcy and other insolvency events, judgments, certain ERISA events, actual or asserted invalidity of loan documentation, invalidity of subordination provisions of subordinated debt, certain changes of control of the Company, and the occurrence of certain regulatory events, (including the entry of any stay, order, judgment, ruling or similar event related to the Company's or any of its subsidiaries' originating, holding, pledging, collecting or enforcing its eligible loans receivable that is material to the Company or any subsidiary) which remains unvacated, undischarged, unbonded or unstayed by appeal or otherwise for a period of 60 days from the date of its entry and is reasonably likely to cause a material adverse change.
 The indenture governing the Notes contains certain covenants that, among other things, limit the Company's ability and the ability of its restricted subsidiaries to (i) incur additional indebtedness or issue certain disqualified stock and preferred stock; (ii) pay dividends or distributions or redeem or purchase capital stock; (iii) prepay subordinated debt or make certain investments; (iv) transfer and sell assets; (v) create or permit to exist liens; (vi) enter into agreements that restrict dividends, loans and other distributions from their subsidiaries; (vii) engage in a merger, consolidation or sell, transfer or otherwise dispose of all or substantially all of their assets; and (viii) engage in transactions with affiliates. However, these covenants are subject to a number of important detailed qualifications and exceptions.

The Company had approximately $327.9 thousand accrued for gross interest as of December 31, 2024, and accrued $10.9 thousand during the nine months ended December 31, 2024.
 Investment in HTC was $18.7 million and $24.8 million as of December 31, 2024 and March 31, 2024, respectively, which is included as a component of Other assets, net in the Consolidated Balance Sheets. The Company recognized net amortization from these investments of $4.2 million and $1.2 million during the three months ended December 31, 2024 and 2023, respectively, and $12.4 million and $3.2 million during the nine months ended December 31, 2024 and 2023, respectively, in income tax expense. The Company recognized tax benefits from these investments of $4.3 million and $1.2 million for the three months ended December 31, 2024 and 2023, respectively, and $13.6 million and $3.6 million for the nine months ended December 31, 2024 and 2023, respectively, in income tax expense and in Income taxes payable in the Consolidated Statements of Cash Flows. The Company did not recognize any non-tax related activity or have any significant modifications in the investments during the current period. The Company is subject to U.S. income taxes, as well as taxes in various other state and local jurisdictions. With the exception of a few states, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2021, although carryforward attributes that were generated prior to 2021 may still be adjusted upon examination by the taxing authorities if they either have been or will be used in a future period.
 The Company's effective income tax rate increased to 16.4% for the three months ended December 31, 2024 compared to 14.6% for the prior year quarter. The increase is primarily due to the effects of provision to return adjustments treated as discrete items in the prior year quarter, which were partially offset by pretax book earnings relative to the effects of various permanent items including a decrease in the disallowed executive compensation under Section 162(m) and the recognition of additional HTCs when compared to the prior year. 1100000011000008000008000004000003279001090018700000248000004200000120000012400000320000043000001200000136000003600000AND CONTINGENCIES From time to time the Company is involved in litigation matters relating to claims arising out of its operations in the normal course of business.
 Estimating an amount or range of possible losses resulting from litigation, government actions and other legal proceedings is inherently difficult and requires an extensive degree of judgment, particularly where the matters involve indeterminate claims for monetary damages, may involve fines, penalties or damages that are discretionary in amount, involve a large number of claimants or significant discretion by regulatory authorities, represent a change in regulatory policy or interpretation, present novel legal theories, are in the early stages of the proceedings, are subject to appeal or could result in a change in business practices. In addition, because most legal proceedings are resolved over extended periods of time, potential losses are subject to change due to, among other things, new developments, changes in legal strategy, the outcome of intermediate procedural and substantive rulings and other parties' settlement posture and their evaluation of the strength or weakness of their case against us. For these reasons, we are currently unable to predict the ultimate timing or outcome of, or reasonably estimate the possible losses or a range of possible losses resulting from, any currently pending claims. Based on information currently available, the Company does not believe that any reasonably possible losses arising from currently pending legal matters will be material to the Company's results of operations or financial conditions. However, in light of the inherent uncertainties involved in such matters, an adverse outcome in one or more of these matters could materially and adversely affect the Company's financial condition, results of operations or cash flows in any particular reporting period. SUBSEQUENT EVENTS Management is not aware of any significant events occurring subsequent to the balance sheet date that would have a material effect on the financial statements thereby requiring adjustment or disclosure. falsefalsefalsefalse*
