With more than three decades of accomplishments in the international oil and gas industry, he is widely recognized as one of Latin America's most respected energy executives. From 2017 to 2023, he served as CEO of Ecopetrol, where he led 18,000 employees, managed production of approximately 700,000 barrels of oil equivalent per day and oversaw revenues exceeding \$30 billion. During his tenure, Ecopetrol delivered record financial, operational, and safety results and expanded into the U.S. Permian Basin in partnership with Occidental, into Brazil's ultra-deepwater pre-salt fields with Shell, and became a leader in the Latin American power transmission sector. He also led strategic investments in renewable energy, water management, and climate-focused solutions. Felipe began his career at Shell before joining BP, where he spent 21 years in senior operational and executive roles across Colombia, Argentina, Brazil, Bolivia, the United States, and the United Kingdom. From 2005 to 2010, he served as CEO of Pan American Energy, one of Argentina's leading private oil and gas companies. Felipe has served on multiple Boards of Directors across the energy, utilities, education, and technology sectors. With deep, first-hand knowledge of the regions where GeoPark operates, he brings the operational expertise and strategic vision to drive the Company's growth, strengthen its regional leadership, and advance its long-term goals. Felipe holds a bachelor's degree in mechanical engineering from Universidad de los Andes in Colombia. Ernst & Young S.A.S. (a member of Ernst & Young Global) was appointed at the 2024 AGM as independent auditor of the Company until the close of the next AGM. Every year the Audit Committee analyzes the performance and independence of the external auditor of the Company. Upon the recommendation of the Audit Committee, Resolution 10 proposes to appoint Ernst & Young S.A.S. (a member of Ernst & Young Global) as independent auditor to the Company for the fiscal year ending 31 December 2025 to hold office until the close of the next AGM. Independent Auditors Remuneration (Resolution 11) Resolution 11 proposes to authorize the Audit Committee to fix the remuneration of the independent auditors of the Company. Recommendation The Board considers that the proposals described in this letter are in the best interest of the Company and therefore of the Shareholders as a whole, and recommend Shareholders vote in favor of all the resolutions to be proposed at the AGM. Additionally, at the AGM we will also present the Company's financial statements for the year ended 31 December 2024, and the respective Auditors' report and present them to the Shareholders in accordance with Bermuda law. The Company's Annual Report on Form 20-F for the fiscal year ended 31 December 2024 (including the Company's financial statements and Auditors' report thereon) is available at our website (www.geo-park.com), and at our online voting platform (www.envisionreports.com/GPRK). If you would like to receive a hard copy of the financial statements and auditors' report, please request one by email to: investorvote@computershare.com. The Board has established 10 June 2025, as the record date of the AGM (the "Record Date") and only holders of record of common shares of the Company on such date will be entitled to receive notice of, to attend and to vote at the AGM or any adjournment or postponement thereof. Only Shareholders and their legal proxyholders may attend the AGM. Yours sincerely, 10 ANNUAL GENERAL MEETING Sylvia Escovar Gómez Chair of the Board Mónica Jiménez Secretary À À ANNUAL GENERAL MEETING WWW.GEO-PARK.COM 30 July 2025 À À À À Item 5 À À À À Letter from our Chief Executive Officer À Dear Fellow Shareholders, À It is a privilege to write to you as the new CEO of GeoPark. I want to start by thanking our Board of Directors for the trust they have placed in me to lead this great company forward. During my first few weeks in the role, I have had the pleasure of meeting with each of our Directors, holding in-depth discussions with our leadership, and speaking with many of the talented members of the GeoPark team - and all have reinforced what I believed when I accepted the job: GeoPark is a dynamic company with an entrepreneurial culture and a compelling market opportunity. Over 22 years ago, GeoPark was founded with the vision of being the leading independent energy company in Latin America, and I am fully committed to making that vision a reality. À Despite some operational challenges and a lower oil price environment, the Company remained nimble and made strong achievements in 2024. Thanks to disciplined focus and execution, we were able to sustain our cash generation capacity and deliver the highest annual shareholder cash return in our history. We also continued to make progress on our sustainability goals, achieving continued recognition for our dedication to operating responsibly. À We entered 2025 with strong momentum. In the first quarter, Adjusted EBITDA rose to \$87.9 million as we drove further reductions in operating costs and captured over 90% of targeted savings from our efficiency program. Rapid well interventions, waterflooding, and shorter cycle times using state-of-the-art drilling rigs at Llanos 34, along with workovers in CPO-5, helped take first quarter production to over 29,000 boepd, despite natural declines. À Our exploration efforts this past year delivered results, with a new oil discovery at the Currucutu-1 well in Colombia's Llanos 123 Block, contributing to a new production record in the area. We also announced the divestment of certain non-core assets in Colombia and Brazil as we focus activity and capital allocation on high-impact, high-materiality assets, in alignment with GeoPark's growth strategy. À Just before I took the reins as CEO, we shared an update regarding our previously announced plans to enter the Vaca Muerta shale play in Argentina. Phoenix Global Resources, our counterparty in the transaction, exercised its contractual right to withdraw from the agreement in the absence of regulatory approvals. As a result, the acquisition did not move forward. À Despite this outcome, we will not be deterred - our conviction about Argentina's potential remains unchanged. In fact, I have already had encouraging meetings with key stakeholders in Argentina and am continuing to explore, with our Board, all avenues to reinvigorate growth. While we expect some continued volatility in the macro environment, the outlook for the remainder of 2025 stands robust. À Strategic Priorities À On my first day at GeoPark, I addressed the entire team with this key message: what worked in the past is not necessarily what will take us to the next level. GeoPark was built on a strong foundation, with a tremendous core business and legacy in the region. While GeoPark has much to be proud of, we must make important changes within our company to maximize the value of our current portfolio, including arresting the decline of our mature assets, delivering on new exploration and inorganic À À À À À opportunities - potentially in new geographies - and charting a path towards sustainable growth and expansion. À I intend to be an agent of change. À À I have been working diligently with the Board and leadership team on advancing our next chapter of growth. À We will do this by challenging the status quo and taking a hard look at all aspects of our business - all with an eye toward returning GeoPark to profitable growth. À À I look forward to sharing more about our 2025 work plan and evolving long-term strategy in the months ahead. À In the meantime, we are focused on advancing the following core priorities: À À Strengthening the Core Business À GeoPark remains focused on executing the 2025 Work Program to drive organic growth, prioritizing high-return projects to maximize returns and cash generation from our core portfolio while targeting further reductions in operating costs. We remain committed to profitable, dependable, and sustainable growth through the development of big assets, in big plays, within big basins. À À Pursuing Value-Accretive Growth À We continue to evaluate inorganic growth opportunities - both within GeoPark's previously defined geographies of interest and in new geographies - with a laser focus on compelling opportunities that complement the existing portfolio and support long-term value creation. This strategy is underpinned by a strong cash position of around \$330 million, a conservative net leverage ratio below 1.0x, and a robust hedging program that now covers approximately 87% of 2025 volumes.
