The cash flows related to repayments of principals are included in cash flows from financing activities, while the cash flows related to interest paid are included in cash flows from operating activities.Revenue arising from the other sources primarily includes lease revenues recognized under IFRS 16 and interest recognized under IFRS 9.On March 31, 2025, the National Diet of Japan approved amendments to existing income tax laws. Upon the change in the laws, the statutory income tax rate in Japan for fiscal years beginning on and after April 1, 2026 was changed to approximately 31%.Honda has adopted â€œDeferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12)â€ with a date of initial application of April 1, 2023 and the comparative information has been retrospectively adjusted.The tables above represent the gross amounts of retail receivables by stages of ECL model since the expected credit losses are measured collectively by our finance subsidiaries and the balances of those receivables are not directly allocated to the risk ratings. 0000715153 2023-04-01 2024-03-31 0000715153 2022-04-01 2023-03-31 0000715153 2024-04-01 2025-03-31 0000715153 2024-03-31 Item 1. Identity of Directors, Senior Management and Advisers Not applicable. Item 2. Offer Statistics and Expected Timetable Not applicable. Item 3. Key Information A. [Reserved] B. Capitalization and Indebtedness Not applicable. C. Reason for the Offer and Use of Proceeds Not applicable. D. Risk Factors You should carefully consider the risks described below before making an investment decision. If any of the risks described below actually occurs, Hondaâ€™s business, financial condition or operating results could be adversely affected. In that event, the trading prices of Hondaâ€™s common shares and American Depositary Shares could decline, and you may lose all or part of your investment. Additional risks not currently known to Honda or that Honda now deems immaterial may also harm Honda and affect your investment. Geopolitical Risk Honda conducts business operations in countries worldwide and is exposed to a variety of risks including changes in local laws and regulations, agreements, institutions, and business practices, such as tariffs, import and export regulations, taxes, wars, terrorism, political uncertainty, worsening security situation, change in political regime and labor strikes in those countries or neighboring regions. If such unforeseeable events occur, and operations are delayed or suspended, including supply chain disruptions due to heightened political, military, or social tensions, Hondaâ€™s business and operating results could be adversely affected. Particularly among them, Honda recognizes three major geopolitical risks: 1) economic security, 2) conflicts between nations or regional conflicts, and 3) laws and regulations concerning human rights. Strategies for mitigating and reducing exposure to these geopolitical risks are gaining importance because these geopolitical risks have a significant effect on Hondaâ€™s initiatives for its Five Key Themes described in Item 4. â€œInformation on the Companyâ€”B. Business Overviewâ€”Preparing for the Futureâ€”Challenges to be Addressed Preferentiallyâ€, particularly in realizing a zero environmental impact society, realizing a zero traffic collision society, the evolution of human capital management, and creation of innovative technologies. Â 1 Table of Contents For the scale of business in each region that may be affected by such geopolitical risks in the future, see Item 5. â€œOperating and Financial Review and Prospectsâ€”A. Operating Resultsâ€”Geographical Information Based on the Location of the Company and Its Subsidiaries.â€ 1. Economic Security Many countries are tightening import and export controls and adopting policies to encourage the blocking of critical resources, components, and parts, as well as advanced technologies. Since the inauguration of the new administration in the United States, there have been various policy changes, including the proposal or imposition of additional tariffs, and we are closely monitoring these trends. The situation relating to tariffs is subject to constant change, and it is difficult to predict with certainty when, how and in what manner tariffs may be implemented, and therefore the impact on Hondaâ€™s business and operating results. However, we currently expect to incur significant additional costs in the fiscal year ending March 31, 2026 arising from tariffs, including on completed vehicles and parts, despite our planned efforts to mitigate such effects, which we expect will negatively impact Hondaâ€™s business and operating results compared to the fiscal year ended March 31, 2025. Changes in governmental policy concerning environmental or import and export regulations could possibly result in stoppages or delays in Hondaâ€™s production activities or lead us to incur countermeasure costs associated with development, purchasing, sales, and other business activities, which could adversely affect Hondaâ€™s business and operating results. 2. Conflicts Between Nations or Regional Conflicts The outlook for the international situation remains uncertain, including the situations in Ukraine, the Middle East and the South China Sea. If new conflicts occur, these could possibly result in humanitarian crisis, material and property damage, and supply chain disruptions, not only in the countries and regions where they occur, but also in other countries, which could adversely affect Hondaâ€™s business and operating results. 3. Laws and Regulations Concerning Human Rights Laws and regulations requiring companies to address human rights are being enacted in many countries, and the need to address human rights risks throughout the supply chain is growing rapidly. Failure to respond to such laws and regulations in a timely and appropriate manner could damage Hondaâ€™s brand image and social credibility, and result in stoppages or delays in Hondaâ€™s production activities or lead us to incur countermeasure costs associated with development, purchasing, sales, and other business activities, which could adversely affect Hondaâ€™s business and operating results. Purchasing and Procurement Risk Honda is aiming for sustainability in the procurement of good products at reasonable prices in a timely manner by purchasing raw materials and parts from numerous external suppliers. However, Honda still relies on certain suppliers for some of the raw materials and parts which it uses to manufacture its products. Hondaâ€™s ability to continue to secure these supplies in an efficient manner at appropriate cost levels is subject to a number of factors, some of which are outside of Hondaâ€™s control. These factors include the ability of its suppliers to provide a continued supply of raw materials and parts and Hondaâ€™s ability to compete with other users in securing the supplies. If it becomes impossible to secure the supply of materials and parts from suppliers on a continuous basis, the prices of materials and parts rise, or we lose any key supplier, these could lead to delays in or the suspension of Hondaâ€™s manufacturing operations and a loss of Hondaâ€™s competitiveness, which could adversely affect Hondaâ€™s business and operating results. For example, Honda has already experienced price increase for some raw materials and components, and there are concerns that battery prices will soar due to a shortage of mineral resources and other supplies as demand for nickel, lithium and cobalt, which are used in batteries, grows rapidly due to the accelerating shift to electrification. In particular, we are closely examining the impact on our group with regard to export restrictions on rare earths in China. Â 2 Table of Contents Additionally, in a case quality-related issue occurs due to parts supplied by business partner, it may threaten the safety and security of our customers, damage Hondaâ€™s brand image, and potentially adversely impact Hondaâ€™s business and operating results. Strategies for mitigating and reducing exposure to these purchasing and procurement risks are gaining importance because these purchasing and procurement risks have a significant effect on Hondaâ€™s initiatives for its Five Key Themes described in Item 4. â€œInformation on the Companyâ€”B. Business Overviewâ€”Preparing for the Futureâ€”Challenges to be Addressed Preferentiallyâ€, particularly in realizing a zero environmental impact society, realizing a zero traffic collision society, and creation of innovative technologies. Information Security Risk Honda uses a wide range of information systems and networks relating to information services and driving support in its business activities and its products, including in areas managed by subcontractors. There is an increasing demand for software solutions, particularly in the areas of automated driving/advanced driver-assistance systems and other digital services, including the utilization of artificial intelligence (hereinafter referred to as â€œAIâ€) technologies. While we expect AI to improve production efficiency, it may also lead to unintentional infringement of third-party rights, proliferation of erroneous information, and information leaks. In addition, the means of cyber-attacks that take place have become more advanced and sophisticated, targeting organizations worldwide. Moreover, cyber-attacks could also significantly affect Hondaâ€™s initiatives for its 5 Key Themes described in Item 4. â€œInformation on the Companyâ€”B. Business Overviewâ€”Preparing for the Futureâ€”Challenges to be Addressed Preferentiallyâ€, particularly in realizing a zero traffic collision society and creation of innovative technologies. Accordingly, the strategies for mitigating and reducing exposure to this risk are gaining importance. In addition, in recent years, personal information protection rules have been rapidly developed in countries worldwide. In creating Hondaâ€™s initiatives for the creation of new value, measures protecting personal information are also gaining importance due to possible differences in the amount and quality of the personal information handled in comparison to existing operations. There is a possibility that, in addition to cyber-security risk, any equipment malfunction, any management deficiency or human error at Honda or any of our business partners or subcontractors, or any natural disaster, infrastructure failure or any other unforeseen circumstances could also result in the suspension of important operations and services at Honda, leakage of confidential or personal information, inappropriate processing of documents and information, or the destruction or falsification of important data. If such an event occurs, Hondaâ€™s business and operating results could be adversely affected in terms of damage to its brand image or social reputation, liability to customers or parties affected, payment of financial penalties, delays in or suspension of Hondaâ€™s manufacturing operations, and a loss of Hondaâ€™s competitiveness. Business Alliances and Joint Ventures Risk Honda engages in business operations through alliances and joint ventures with other companies in expectation of synergy effects and increased efficiency, or to meet the requirements of the countries in which business development is being undertaken. As Honda advances its initiatives for its Five Key Themes described in Item 4. â€œInformation on the Companyâ€”B. Business Overviewâ€”Preparing for the Futureâ€”Challenges to be Addressed Preferentiallyâ€, particularly in realizing a zero environmental impact society, realizing a zero traffic collision society, and creation of innovative technologies, the utilization of partnerships such as alliances and joint ventures are essential. If disagreements among partners regarding business, leakage of profit or technology, delays in decision-making or poor operating results at business partners occur in the context of an alliance or joint venture, or if conditions to an alliance or joint venture are changed or cancelled, it may have an adverse effect on Hondaâ€™s business and operating results. Â 3 Table of Contents Environmental Risk With business operations in countries worldwide, Honda recognizes wide-ranging potential risks related to environmental issues, as exemplified by the risks concerning climate change, resource depletion, air pollution, water pollution, and biodiversity, among other issues, and Honda is subject to wide-ranging policies and regulations covering these issues. For the policies and regulations concerning climate change and fuel efficiency and exhaust gas in particular, countries worldwide have implemented or are planning for their revisions around the world. Depending on the trends for the revisions and the substance of the revised regulations, Hondaâ€™s measures in response and related expenses could possibly weigh on its production, development, purchasing and sales activities, etc., in the Motorcycle, Automobile, Power products and other businesses operations. This could adversely affect Hondaâ€™s business and operating results. Moreover, these risks could also significantly affect Hondaâ€™s initiatives for its Five Key Themes described in Item 4. â€œInformation on the Companyâ€”B. Business Overviewâ€”Preparing for the Futureâ€”Challenges to be Addressed Preferentiallyâ€, particularly in realizing a zero environmental impact society and creation of innovative technologies. Accordingly, the strategies for mitigating and reducing exposure to this risk are gaining importance. For information on risks and opportunities related to climate change, please refer to â€œClimate Change-related Disclosures (Response to the TCFD Recommendations)â€ in Item 4. â€œInformation on the Companyâ€”B.Â Business overviewâ€”Concepts and Approaches to Sustainabilityâ€. Intellectual Property Risk Honda owns or otherwise has rights in a number of patents and trademarks relating to the products it manufactures. Honda has designated carbon neutrality of power units, energy management systems, resource circulation, autonomous driving/advanced driver-assistance systems, and internet of things/connected as key focus areas in order to support the evolution to enterprise capable of forging new growth trajectories and fostering innovative value creation. Related patents and trademarks that could significantly affect Hondaâ€™s initiatives for its 5 Key Themes described in Item 4. â€œInformation on the Companyâ€”B. Business Overviewâ€”Preparing for the Futureâ€”Challenges to be Addressed Preferentiallyâ€, particularly in realizing a zero traffic collision society and creation of innovative technologies. Accordingly, the strategies for mitigating and reducing exposure to these risks are gaining importance. The inability to protect its intellectual property generally, the illegal infringement of some or a large group of Hondaâ€™s intellectual property rights that may cause declines in Hondaâ€™s competitive advantage, or the suspension of manufacturing and/or sales activities and the payment of large amounts of damages as a result of lawsuits (including arising from unintentional infringement of third party intellectual property rights due to the introduction of AI) on infringement of patent rights and license fees, could have an adverse effect on Hondaâ€™s business and operating results. Natural Disasters Risk The suspension and delay in business activities such as production, development, purchasing and sales as results of damage caused to Hondaâ€™s operation sites and employees by earthquakes, floods, windstorms, infectious diseases, and other natural disasters may adversely affect Hondaâ€™s business and operating results. Also, if any of Hondaâ€™s business partners suffer any such damage, or if there is any disruption of the infrastructure due to a natural disaster, this may adversely affect Hondaâ€™s business and operating results. In addition, under the effects of climate change and other factors, weather-related disasters have intensified and have become more frequent in various countries worldwide, and it is projected that this trend could continue going forward. As a result, these disasters may adversely affect Hondaâ€™s business and operating results. Â 4 Table of Contents FinancialÂ & Economic Risk 1. Economic Trends and Economic Fluctuations Honda conducts business operations in countries throughout the world, with manufacturing operations and sells products in various regions and countries. These business activities may be affected by economic slowdowns, economic fluctuation, or other factors, which could result in decreased sales due to market contractions, increase in component procurement prices and product sales prices, higher credit risk for Hondaâ€™s business, and higher financing interest rates, among others. Accordingly, these changes may have an adverse effect on Hondaâ€™s business and operating results. 2. Currency Fluctuations Honda has manufacturing operations throughout the world, including Japan, and exports products and components to various countries. Honda purchases materials and components and sells its products and components in foreign currencies. Therefore, currency fluctuations could affect

Hondaâ€™s pricing of materials purchased and products sold. Accordingly, currency fluctuations may have an adverse effect on Hondaâ€™s business and operating results. Relating to Industry Market Risk Honda conducts its operations in Japan and countries throughout the world. Extended economic slowdown, recession, changes in consumer preferences and needs, rising fuel prices, financial crisis, and rise in product prices due to increased material costs or decreased supply volume are all factors which may cause decline in market demands and intensify competition with other companies that could trigger a decline in demand for Hondaâ€™s products that may adversely affect Hondaâ€™s business and operating results, or its plans for the future. In particular, the automotive industry is undergoing a period of major change, including intensifying competition due to the rise of emerging Chinese EV companies, changes in environmental policies in North America and Europe, and global trade wars arising from the imposition of additional tariffs by various countries. Such trends are difficult to predict with certainty, and if developments do not match our expectations, we may be required to revise our business plans, such as has occurred with our respective sales targets for EVs and FCEVs for 2030 in light of slower-than-expected EV adoption, as we announced in May 2025. If we are unable to respond competitively and appropriately to these changes in markets and demand, Hondaâ€™s business performance may be adversely affected. Hondaâ€™s Financial services business conducts business under highly competitive conditions in an industry with inherent risks Hondaâ€™s Financial services business offers various financing plans to its customers designed to increase the opportunity for sales of its products. However, customers can also obtain financing for the lease or purchase of Hondaâ€™s products through a variety of other sources that compete with our financing services, including commercial banks and finance and leasing companies. The financial services offered by Honda involve credit risk as well as risks relating to lease residual values, cost of capital and access to funding. Competition for customers and/or these risks may adversely affect Hondaâ€™s business and operating results. Legal Risk Honda could be subject to lawsuits, various investigations and legal proceedings under relevant laws and regulations of various jurisdictions. A negative outcome in any such current or future legal proceedings brought against Honda could adversely affect Hondaâ€™s business and operating results. Â 5 Table of Contents Honda is subject to risks relating to its obligations to provide post-employment benefits Honda has various pension plans and provides other post-employment benefits, in which the amount of benefits is basically determined based on the level of salary, service years, and other factors. Contributions are also regularly reviewed and adjusted as necessary to the extent permitted by laws and regulations. Defined benefit obligations and defined benefit costs are based on assumptions of a variety of factors, including the discount rate and the rate of salary increase. Changes in assumptions could affect Hondaâ€™s defined benefit costs and obligations, including Hondaâ€™s cash requirements to fund such obligations in the future, which could adversely affect Hondaâ€™s operating results. Hondaâ€™s success depends in part on the value of its brand image, which could be diminished by product defect One of the important factors behind corporate sustainability is trust and support for the Honda brand from our customers, society and the communities in which Honda conducts business operations. In order to support this brand image, Honda endeavors to gain the trust of society in all types of corporate activities, including ensuring product quality and compliance with laws and regulations, conducting risk management, and enhancing internal controls related to corporate governance. However, if for some unforeseeable reason the Honda brand image is damaged or Honda is unable to communicate information in a timely manner and deal with such information appropriately, this could adversely affect Hondaâ€™s business and operating results. This brand image related risk could also significantly affect Hondaâ€™s initiatives for its Five Key Themes described in Item 4. â€œInformation on the Companyâ€”B. Business Overviewâ€”Preparing for the Futureâ€”Challenges to be Addressed Preferentiallyâ€, particularly in brand value enhancement. Accordingly, the strategies for mitigating and reducing exposure to this risk are gaining importance. We have confirmed that there had been some inappropriate cases relating to the certification test when applying for type designation for four-wheeled vehicles sold in the past, and reported this to Japanâ€™s Ministry of Land, Infrastructure, Transport and Tourism (MLIT) on MayÂ 31, 2024. We will continue to strengthen compliance and governance as we conduct our corporate activities. However, if similar matters occur in the future, Hondaâ€™s brand image could be damaged and Hondaâ€™s business and operating results could be adversely affected. See â€œLegal Riskâ€ for a description of legal risks that could arise as a result of such matters. Risks Relating to Hondaâ€™s ADSs A holder of ADSs will have fewer rights than a shareholder has and such holder will have to act through the depositary to exercise those rights The rights of shareholders under Japanese law to take various actions, including exercising voting rights inherent in their shares, receiving dividends and distributions, bringing derivative actions, examining a companyâ€™s accounting books and records, and exercising appraisal rights, are available only to holders of record. Because the depositary, through its custodian agents, is the record holder of the Shares underlying the ADSs, only the depositary can exercise those rights in connection with the deposited Shares. The depositary will make efforts to exercise votes regarding the Shares underlying the ADSs as instructed by the holders and will pay to the holders the dividends and distributions collected from the Company. However, in the capacity as an ADS holder, such holder will not be able to bring a derivative action, examine our accounting books or records or exercise appraisal rights through the depositary. Rights of shareholders under Japanese law may be more limited than under the laws of other jurisdictions The Companyâ€™s Articles of Incorporation, Regulations of the Board of Directors, Regulations of the Nominating Committee, Regulations of the Audit Committee, Regulations of the Compensation Committee, and the Company Law of Japan (the â€œCompany Lawâ€) govern corporate affairs of the Company. Legal principles Â 6 Table of Contents relating to such matters as the validity of corporate procedures, directorsâ€™ and officersâ€™ fiduciary duties, and shareholdersâ€™ rights may be different from those that would apply if the Company were a U.S. company. Shareholdersâ€™ rights under Japanese law may not be as extensive as shareholdersâ€™ rights under the laws of the United States. An ADS holder may have more difficulty in asserting his/her rights as a shareholder than such an ADS holder would as a shareholder of a U.S. corporation. In addition, Japanese courts may not be willing to enforce liabilities against the Company in actions brought in Japan that are based upon the securities laws of the United States or any U.S. state. Because of daily price range limitations under Japanese stock exchange rules, a holder of ADSs may not be able to sell his/her shares of the Companyâ€™s Common Stock at a particular price on any particular trading day, or at all Stock prices on Japanese stock exchanges are determined on a real-time basis by the equilibrium between bids and offers. These exchanges are order-driven markets without specialists or market makers to guide price formation. To prevent excessive volatility, these exchanges set daily upward and downward price fluctuation limits for each stock, based on the previous dayâ€™s closing price. Although transactions may continue at the upward or downward limit price if the limit price is reached on a particular trading day, no transactions may take place outside these limits. Consequently, an investor wishing to sell at a price above or below the relevant daily limit may not be able to sell his or her shares at such price on a particular trading day, or at all. U.S. investors may have difficulty in serving process or enforcing a judgment against the Company, its directors or executive officers The Company is a limited liability, joint stock corporation incorporated under the laws of Japan. Most of its directors and executive officers reside in Japan. All or substantially all of the Companyâ€™s assets and the assets of these persons are located in Japan and elsewhere outside the United States. It may not be possible, therefore, for U.S. investors to effect service of process within the United States upon the Company or these persons or to enforce against the Company or these persons judgments obtained in U.S. courts predicated upon the civil liability provisions of the federal securities laws of the United States. There is doubt as to the enforceability in Japan, in original actions or in actions for enforcement of judgment of U.S. courts, of liabilities predicated solely upon the federal securities laws of the United States. The Companyâ€™s shareholders of record on a record date may not receive the dividend they anticipate The customary dividend payout practice and relevant regulatory regime of publicly listed companies in Japan may differ from that followed in foreign markets. The Companyâ€™s dividend payout practice is no exception. While the Company may announce forecasts of year-end and interim dividends prior to the record date, these forecasts are not legally binding. The actual payment of year-end dividends requires a resolution of the Companyâ€™s Board of Directors. If the Board of Directors adopt such a resolution, the year-end dividend payment is made to shareholders as of the applicable record date, which is currently specified as MarchÂ 31 by the Companyâ€™s Articles of Incorporation. However, such a resolution of the Board of Directors is usually made at a meeting of the Board of Directors held in April. The payment of interim dividends also requires a resolution of the Companyâ€™s Board of Directors. If the board adopts such a resolution, the dividend payment is made to shareholders as of the applicable record date, which is currently specified as SeptemberÂ 30 by the Articles of Incorporation. However, the board usually does not adopt a resolution with respect to an interim dividend until after the record date. Shareholders of record as of an applicable record date may sell shares after the record date in anticipation of receiving a certain dividend payment based on the previously announced forecasts. However, since these forecasts are not legally binding and resolutions to pay dividends are usually not adopted until after the record date, our shareholders of record on record dates for year-end and interim dividends may not receive the dividend they anticipate. Â 7 Table of Contents Cautionary Statement with Respect to Forward-Looking Statements in This Annual Report This Annual Report includes â€œforward-looking statementsâ€ within the meaning of SectionÂ 27A of the Securities Act of 1933, as amended, and SectionÂ 21E of the Securities Exchange Act of 1934, as amended. The forward-looking statements included in this Annual Report are based on the current assumptions and beliefs of Honda in light of the information currently available to it, and involve known and unknown risks, uncertainties, and other factors. Such risks, uncertainties and other factors may cause Hondaâ€™s actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by such forward-looking statements. Such risks, uncertainties and other factors are generally set forth in Item 3.D â€œRisk Factorsâ€ and include, without limitation: Â Â â€¢ Â the political, economic and social conditions in Japan and throughout the world including North America, Europe and Asia, including economic slowdowns, recessions, changes in consumer preferences, rising fuel prices, financial crises, exchange rates and other factors, as well as the relevant governmentsâ€™ specific policies with respect to trade policy (including tariffs), economic growth, inflation, taxation, currency conversion, sources of supplies and the availability of credit, particularly to the extent such current or future conditions and policies affect the automobile, motorcycle and power product industries and markets in Japan and other markets throughout the world in which Honda conducts its business, and the demand, sales volume and sales prices for Hondaâ€™s automobiles, motorcycles and power products; Â Â â€¢ Â the effects of competition in the automobile, motorcycle and power product markets on the demand, sales volume and sales prices for Hondaâ€™s automobiles, motorcycles and power products; Â Â â€¢ Â Hondaâ€™s ability to finance its working capital and capital expenditure requirements, including obtaining any required external debt or other financing upon favorable interest rates or other terms; Â Â â€¢ Â the effects of environmental, personal information and other governmental regulations and legal proceedings; and Â Â â€¢ Â the effects of events such as environmental or man-made disasters, pandemics, cyber-attacks or other events affecting Honda, its suppliers, customers or the economy as a whole. Honda undertakes no obligation and has no intention to publicly update any forward-looking statement after the date of this Annual Report. Investors are advised to consult any further disclosures by Honda in its subsequent filings pursuant to the Securities Exchange Act of 1934. Item 4. Information on the Company A. History and Development of the Company Honda Motor Co., Ltd. is a limited liability, joint stock corporation incorporated on SeptemberÂ 24, 1948, under the Commercial Code of Japan as Honda Giken Kogyo Kabushiki Kaisha. It was formed as a successor to the unincorporated enterprise established in 1946 by the late Soichiro Honda to manufacture motors for motorized bicycles. Since its establishment, Honda has remained on the leading edge by creating new value and providing products of the highest quality at a reasonable price for worldwide customer satisfaction. Honda develops, manufactures and markets motorcycles, automobiles and power products globally. Hondaâ€™s principal executive office is located at No.2-3, Toranomon 2-chome, Minato-ku, Tokyo 105-8404, Japan. Its telephone number is +81-3-3423-1111. We maintain a website at https://global.honda/en/investors/ that contains information about our Company. The United States Securities and Exchange Commission (the â€œSECâ€) maintains a website at https://www.sec.gov/ which contains in electronic form each of the reports and other information that we have filed electronically with the SEC. Â 8 Table of Contents Principal Capital Investments In the fiscal years ended MarchÂ 31, 2023, 2024 and 2025, Hondaâ€™s capital expenditures were Â¥2,233.5Â billion, Â¥3,141.1Â billion and Â¥4,036.8 billion, respectively, on an accrual basis. Also, capital expenditures excluding those with respect to equipment on operating leases were Â¥690.0Â billion, Â¥692.7Â billion and Â¥902.7 billion, respectively, on an accrual basis. For further details of Hondaâ€™s capital expenditures during the fiscal year ended MarchÂ 31, 2025, see Item 4.D â€œProperty, Plants and Equipmentâ€ of this Annual Report. B. Business Overview General Hondaâ€™s business segments are the Motorcycle business operations, Automobile business operations, Financial services business operations, and Power products and other businesses operations. The following tables show the breakdown of Hondaâ€™s revenue from external customers by category of business and by geographical markets based on the location of the customer for the fiscal years ended MarchÂ 31, 2023, 2024 and 2025: Â Â Â Â Fiscal years ended MarchÂ 31, Â Â Â Â 2023 Â Â Â 2024 Â Â Â 2025 Â Â Â Â Yen (billions) Â Motorcycle Business Â Â Â¥ 2,908.9 Â Â Â Â¥ 3,220.1 Â Â Â Â¥ 3,626.6 Â Automobile Business Â Â Â 10,593.5 Â Â Â Â 13,567.5 Â Â Â Â 14,169.2 Â Financial Services Business Â Â Â 2,954.0 Â Â Â Â 3,248.8 Â Â Â Â 3,507.7 Â Power Products and Other Businesses Â Â Â 451.1 Â Â Â Â 392.2 Â Â Â Â 385.1 Â Â Â Â Â Â Â Â Â Â Â Â Â Â Total Â Â Â¥ â€‡16,907.7 Â Â Â¥ â€‡20,428.8 Â Â Â¥ â€‡21,688.7â€‚Â Fiscal years ended MarchÂ 31, Â Â Â Â 2023 Â Â Â 2024 Â Â Â 2025 Â Â Â Â Yen (billions) Â Japan Â Â Â¥ 2,013.0 Â Â Â Â¥ 2,242.2 Â Â Â Â¥ 2,477.6 Â North America Â Â Â 8,945.9 Â Â Â Â 11,713.6 Â Â Â Â 12,798.3 Â Europe Â Â Â 690.6 Â Â Â Â 961.1 Â Â Â Â 938.4 Â Asia Â Â Â 4,335.7 Â Â Â Â 4,313.8 Â Â Â Â 4,108.9 Â Other Regions Â Â Â 922.2 Â Â Â Â 1,197.9 Â Â Â Â 1,365.2 Â Â Â Â Â Â Â Â Â Â Â Â Â Â Total Â Â Â¥ 16,907.7 Â Â Â¥ 20,428.8 Â Â Â¥ 21,688.7 Â Motorcycle Business In 1949, Honda began mass production of motorcycles with the Dream D-Type, followed by other models such as the Benly and the Cub F-Type. By 1957, Honda became the top Japanese manufacturer in terms of motorcycle production volume. Honda expanded its business overseas by establishing American Honda Motor Co., Inc. in the United States in 1959. Honda first started overseas production in Belgium in 1963. Honda produces a wide range of motorcycles, with engine displacement ranging from the 50cc class to the 1,800cc class. Hondaâ€™s motorcycle lineup uses internal combustion engine of air- or water-cooled, and in single, two, four or six-cylinder configurations. Honda also has electric vehicles in its lineup. Hondaâ€™s motorcycle lineup consists of sports, business and commuter models. Honda also produces a range of off-road vehicles, including all-terrain vehicles (ATVs) and side-by-sides (SxS). Â 9 Table of Contents The following table sets out unit sales for Hondaâ€™s Motorcycle business, including motorcycles, all-terrain vehicles (ATVs) and side-by-sides (SxS) and revenue from Motorcycle business, and the breakdown by geographical markets based on the location of the customer for the fiscal years ended MarchÂ 31, 2023, 2024 and 2025: Â Â Â Fiscal years ended MarchÂ 31, Â Â Â 2023 Â Â 2024 Â Â 2025 Â Â Â Â HondaÂ GroupUnit Sales* Â Â ConsolidatedUnit Sales* Â Â Revenue Â Â HondaÂ GroupUnit Sales* Â Â ConsolidatedUnit Sales* Â Â Revenue Â Â HondaÂ GroupUnit Sales* Â Â ConsolidatedUnit Sales* Â Â Revenue Â Â Â Units(thousands) Â Â Units(thousands) Â Â Yen(billions) Â Â Units(thousands) Â Â Units(thousands) Â Â Yen(billions) Â Â Units(thousands) Â Â Units(thousands) Â Â Yen(billions) Â Japan Â Â 246 Â Â Â 246 Â Â Â¥ 109.3 Â Â Â 241 Â Â Â 241 Â Â Â¥ 113.7 Â Â Â 224 Â Â Â 224 Â Â Â¥ 106.6 Â North America Â Â 459 Â Â Â 459 Â Â Â 306.7 Â Â Â 498 Â Â Â 498 Â Â Â 335.5 Â Â Â 548 Â Â Â 548 Â Â Â 347.5 Â Europe Â Â 347 Â Â Â 347 Â Â Â 250.0 Â Â Â 440 Â Â Â 440 Â Â Â 351.8 Â Â Â 475 Â Â Â 475 Â Â Â 379.4 Â Asia Â Â 16,108 Â Â Â 9,512 Â Â Â 1,739.7 Â Â Â 16,016 Â Â Â 9,416 Â Â Â 1,793.3 Â Â Â 17,478 Â Â Â 10,591 Â Â Â 2,078.4 Â Other Regions Â Â 1,597 Â Â Â 1,597 Â Â Â 503.0 Â Â Â 1,624 Â Â Â 1,624 Â Â Â 625.6 Â Â Â 1,847 Â Â Â 1,847 Â Â Â 714.5 Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â

Hondaâ€™s unit sales of automobiles and revenue from Automobile business and the breakdown by geographical markets based on the location of the customer for the fiscal years ended MarchÂ 31, 2023, 2024 and 2025: Â Â Â Fiscal years ended MarchÂ 31, Â Â Â 2023 Â Â 2024 Â Â 2025 Â Â Â HondaÂ GroupUnit Sales* Â Â ConsolidatedUnit Sales* Â Â Revenue Â Â HondaÂ GroupUnit Sales* Â Â ConsolidatedUnit Sales* Â Â Revenue Â Â HondaÂ GroupUnit Sales* Â Â ConsolidatedUnit Sales* Â Â Revenue Â Â Â Units(thousands) Â Â Units(thousands) Â Â Yen(billions) Â Â Units(thousands) Â Â Units(thousands) Â Â Yen(billions) Â Â Units(thousands) Â Â Yen(billions) Â Â Units(thousands) Â Â Yen(billions) Â Japan Â Â 550 Â Â Â 484 Â Â Â¥ 1,385.8 Â Â Â 595 Â Â Â 525 Â Â Â¥ 1,600.6 Â Â Â 630 Â Â Â 539 Â Â Â¥ 1,807.3 Â NorthÂ America Â Â 1,195 Â Â Â 1,195 Â Â Â 5,990.5 Â Â Â 1,628 Â Â Â 1,628 Â Â Â 8,510.2 Â Â Â 1,654 Â Â Â 1,654 Â Â Â 9,384.6 Â Europe Â Â 84 Â Â Â 84 Â Â Â 332.9 Â Â Â 103 Â Â Â 103 Â Â Â 506.7 Â Â Â 93 Â Â Â 93 Â Â Â 459.7 Â Asia Â Â 1,744 Â Â Â 505 Â Â Â 2,523.8 Â Â Â 1,651 Â Â Â 468 Â Â Â 2,449.8 Â Â Â 1,182 Â Â Â 397 Â Â Â 1,954.4 Â OtherÂ Regions Â Â 114 Â Â Â 114 Â Â Â 360.3 Â Â Â 132 Â Â Â 132 Â Â Â 500.1 Â Â Â 157 Â Â Â 157 Â Â Â 563.0 Â Â Â

GHG / CAFE regulations. The SAFE Vehicles Rule Part 1 clarified that federal law supersedes state law and withdrew a preemption waiver (Federal Priority) previously granted to allow the state of California to set its own GHG emission standards different from the federal standards set by EPA. In March 2020, the EPA and the NHTSA jointly published the SAFE Vehicles Rule Part 2. Under the new SAFE rule, both GHG and CAFE requirements will increase in stringency by 1.5% per year during 2021-2026 model years. The CO2 standard for the 2026 model year is industry average of 199 g-CO2/mile. In September 2020, the Governor of California signed an executive order stating that 100% of in-state sales of new cars and light trucks would be ZEV by 2035. Following the California Governorâ€™s announcement, a number of states have followed suit. In January 2021, President Biden issued an executive order on Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis which called for such as review of SAFE Vehicles Rule and other regulations. In accordance with this executive order, in December 2021, the EPA issued the revised GHG emissions standards which are more stringent than the SAFE rule standards in each model year from 2023 through 2026. Moreover, in December 2021, the NHTSA repealed â€œSAFE Vehicles Rule Part One: One National Programâ€ and withdrew federal lawâ€™s preemption over state laws in CAFE regulation. In May 2022, the NHTSA issued revised CAFE standards for model years from 2024 through 2026, which increase in stringency by 8% each year relative to the prior year for model years 2024, 2025 and 10% for 2026 model year. The CAFE standards will reach approximately 49 MPG in the 2026 model year (U.S. fleet average), up from 36 MPG in the 2021 model year. In April 2023, EPA announced proposed GHG regulations together with multi-pollutant standards (Tier 4) to be effective from 2027 to 2032 model years. The finalization of GHG regulation was announced on MarchÂ 20, 2024. The projected combined fleet target of CO2 is 85 g/mile for model year 2032. The final rule that followed was published in the Federal Register in April 2024. Â 17 Table of Contents In August 2023, NHTSA proposed CAFE standards for model years from 2027 through 2032. The CAFE standards will reach approximately 57.8 MPG in the 2032 model year (U.S. fleet average). Following in change in administration, in January 2025, President Trump issued Executive Order 14148 entitled â€œInitial Rescissions of Harmful Executive Orders and Actionsâ€, rescinding the Executive Order on Protecting Public Health and the Environment and Restoring Science to tackle the Climate Crisis. Separately, in January 2025, the Secretary of the U.S. Department of Transportation (DOT) signed and issued a memorandum directing the reset of CAFE standards. This directed the immediate review and reconsideration of CAFE standards for all vehicle models produced after model year 2022, including in particular rules covering 2024-2026 model year passenger cars and light trucks, passenger cars and light trucks for model year 2027 and beyond and heavy-duty pickup trucks and vans for model year 2030 and beyond. Canada The government of Quebec in Canada finalized the standard to mandate each automaker to sell a certain minimum number of ZEVs starting from the 2018 model year. In May 2019, the government of British Columbia also adopted a bill to mandate ZEV sales from 2025. In June 2019, the Environment and Climate Change Canada signed an agreement with the CARB in the United States to promote cooperation in reducing GHG emissions. In September 2023, the government of Quebec adopted regulatory amendments to the Quebecâ€™s ZEV regulations which increase the percentage of ZEV sales that a manufacturer must achieve each year from 2025 to 2035. The percentages in 2025 are 32.5%, in 2030 are 85%, and in 2035 are 100%. In December 2023, the federal government adopted a national ZEV mandate from model year 2026 as a part of greenhouse gas regulation. The regulation mandates sales of new vehicles to be ZEVs at the rate of 20% in 2026, 60% in 2030, and 100% in 2035 model year. Europe In 2014, a new regulation was issued, requiring EU fleet-wide target of 95 g CO2/km for 2020 based on NEDC testing procedure. The current European type-approval procedure for fuel consumption and CO2 emissions of cars based on NEDC has been gradually replaced with WLTP beginning from September 2017. During the transitional years, WLTP-measured CO2 values are calculated to NEDC CO2 values to check compliance to the NEDC based CO2 target. On NovemberÂ 8, 2017, the European Commission proposed a new CO2 standard beyond 2025. The European Parliament and Council reached a provisional inter institutional agreement on the European Commission proposal during the fifth trilogue meeting on DecemberÂ 17, 2018. The agreed target beyond 2025 is negative 15%. The agreed target beyond 2030 is negative 37.5% for new passenger cars and negative 31% for light commercial vehicles, respectively, compared to the 2021 average of all manufacturersâ€™ EU fleet-wide target. The agreement also provides that, for zero- and low-emission vehicles, a benchmark equal to 15% share of the respective fleets of newly registered passenger cars and light commercial vehicles has been applied from JanuaryÂ 1, 2025, and a benchmark equal to 35% share of the fleet of newly registered passenger cars and a benchmark equal to 30% share of the fleet of newly registered light commercial vehicles shall apply from JanuaryÂ 1, 2030. Â 18 Table of Contents On DecemberÂ 11, 2019, the European Commission released its communication on the EU Green Deal. See â€œâ€”Outline of Environmental and Safety Regulation for Automobilesâ€”1. Emissionsâ€”Europe.â€ One policy in the EU Green Deal (EUâ€™s climate ambition for 2030 and 2050) includes â€œCO2 performance of cars.â€ On AprilÂ 25, 2023, regulation (EU) 2023/851 was issued in the EU Official Journal, setting CO2 emission targets for newly registered passenger cars and light commercial vehicles, which contains a new provision establishing a 100% reduction of EU fleet-wide targets compared to 2021 from 2035 onwards. Furthermore, the European Commission will issue the methodology for the assessment and the consistent data reporting of the full life-cycle CO2 emissions of passenger cars and light commercial vehicles by 2025. China China adopted a fuel consumption regulation for passenger vehicles in 2004. Step 5 of this regulation was implemented in 2021. The Standards Center of the China Automotive Technology and Research Center (CATARC), which is in charge of vehicle carbon emission management policies, is proceeding with research and formulation of a new carbon emission management system throughout the entire vehicle life cycle. The implementation is scheduled to begin in 2026. Some of the GB standards (Chinese national standards issued by the China Administration of Standardization) related to the â€œNew Carbon Emission Management Systemâ€ include the new â€œFuel consumption limits for passenger carsâ€ issued in November 2024. India India has promulgated rules to introduce fuel economy / CO2 regulations in 2017 and 2022 in a phased manner. 3. Recycling / End-of-Life Vehicles (ELV) / Chemicals and hazardous substances Japan Japan enacted the Automobile Recycling Law in July 2002, which required manufacturers to take back air bags, fluorocarbon and shredder residue derived from end-of-life vehicles (ELV), which became effective on JanuaryÂ 1, 2005. ELV processing costs are collected from owners of cars currently in use and purchasers of new cars. Europe On DecemberÂ 30, 2006, the European Union adopted the Regulation concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), which became effective on JuneÂ 1, 2007. From JuneÂ 1, 2008, any manufacturer or importer of chemical substances is required to submit a registration to the European Chemicals Agency, based on annual production or import quantity levels. Submitting a pre-registration between JuneÂ 1 and DecemberÂ 1, 2008, will allow the manufacturer or importer to extend the deadline for submitting the registration for existing chemical substances. The list of Substances of Very High Concern (SVHC) is amended periodically to include new substances. Upon a request by a consumer, a supplier of a product containing SVHC must provide the consumer with sufficient information, including at least the name of the substance, within 45 days. On FebruaryÂ 18, 2011, the first set of substances which require authorization for use after specified dates were announced. Manufacturers using these substances in Europe must either be authorized for use after submitting an application or use substitute substances. Substances which require authorization will be added periodically. Â 19 Table of Contents The European Union has issued a regulation amending the EU Battery Directive to the EU Battery Regulation in 2023. This regulation adds requirements related to carbon footprints and information disclosure of remaining life for recycling, among others. The EU Battery Regulation came into force in 2024. The European Union has published a draft regulation amending the ELV Directive to the ELV Regulation. The proposed regulations would add requirements for recycled content and expanded producer responsibility. China On JuneÂ 23, 2017, China implemented automobile recycling laws partially following the regulations established by the European Union. India India has a plan to implement automobile recycling laws in the near future. India has issued a regulation called Battery Waste Management Rules on AugustÂ 24, 2022. This regulation requires the achievement of certain recovery targets for waste batteries and sets targets for minimum use of domestically recycled materials in new batteries. All batteries are required to display an Extended Producer Responsibility (EPR) number. With the revision on February 24, 2025, it has been decided that the EPR number can also be displayed in the form of a QR code. 4. Safety Japan Japan Automobile Standards Internationalization Center (JASIC), which is organized by the MLIT and Japan Automobile Manufacturers Association (JAMA), among others, has started to review a proposal for the unification of Safety/Environment Standards, vehicle categories and certification in order to promote further internationalization of standards and certifications. JASIC made the proposal to other contracting parties of the 58 / 98 Agreement in 2009 and reached an agreement among the contracting parties by 2017. In January 2021, the MLIT adopted UN R153, which regulates fuel system integrity and electric power train safety in rear-end collisions. In January 2021, the MLIT adopted UN R155, which regulates cyber security and cyber security management. In January 2021, the MLIT adopted UN R156, which regulates software updates and software update management systems. In January 2021, the MLIT adopted UN R157, which regulates automated lane keep systems (ALKS). To achieve the highest level of traffic safety in Japan, MLIT developed a strategy to introduce fully automated driving in the latter half of the 2020s. To develop harmonized regulations for automated driving, MLIT is joining ITS / AD Informal Working Group under WP29 of the United Nations. MLIT is co-chairman of Informal Working Group together with the United Kingdom. MLIT is considering introducing a regulation regarding â€œAccident Emergency Call Systems (AECS).â€ Inspection of on-board diagnostics (OBD) will be required from October 2024 for inspections of vehicles with electronic control devices. In 2021, the MLIT adopted UN R158, which regulates â€œrear view devices.â€ Â 20 Table of Contents In 2021, the MLIT adopted UN R160, which regulates â€œEvent Data Recorders (EDRs).â€ In 2022, the MLIT adopted UN R161, which regulates â€œDevices against Unauthorized Use.â€ In 2022, the MLIT adopted UN R162, which regulates â€œImmobilizers.â€ In 2022, the MLIT adopted UN R163, which regulates â€œVehicles Alarm systems.â€ In 2023, the MLIT adopted UN R165, which regulates â€œReverse warning devices and signals.â€ In 2023, the MLIT adopted UN R166, which regulates â€œVulnerable Road Users in Front and Side Close Proximity.â€ In 2024, the MLIT adopted UN R171, which regulates â€œDriver Control Assistance System.â€ The United States In September 2016, the NHTSA issued the Federal Automated Vehicles Policy for safety testing and deployment of automated vehicles. This policy comprises four sections: vehicle performance guidance for automated vehicles, model state policy, current regulatory tools, and modern regulatory tools. The vehicle performance guidance section outlines a 15 point â€œsafety assessmentâ€ for the safe design, development, testing and deployment of automated vehicles. In December 2016, the NHTSA issued a final rule to newly establish Federal Motor Vehicle Safety Standard (FMVSS) 141, a standard for minimum sound requirements for hybrid and electric vehicles. The purpose of FMVSS141 is to reduce the number of injuries that result from electric and hybrid vehicle crashes with pedestrians by providing a sound level and sound characteristics necessary for these vehicles to be detected and recognized by pedestrians. Manufacturers must comply with the new requirements for 50% of all hybrid and electric vehicles produced from September 2018, and all hybrid and electric vehicles in or after September 2019. In February 2018, the NHTSA issued another final rule amending FMVSS141. The purpose of this amendment is to clarify the details of technical requirements and reschedule the phase-in schedule (1 year delay). In September 2017, the NHTSA issued a voluntary guidance â€œA Vision for Safetyâ€ to update the Federal Automated Vehicle Policy issued in 2016. Manufacturers may demonstrate how they address the safety elements contained in this guidance by publishing a Voluntary Safety Assessment for automated driving system (SAE LevelÂ 3 through 5). In September 2020, the NHTSA amended FMVSS141 again to extend phase-in timing, responding to a petition from manufacturers citing the challenges in complying with FMVSS141 due to the supply chain disruptions caused by the COVID-19 pandemic. The application date of FMVSS141 was extended until MarchÂ 1, 2021, a half year later than the previous phase-in schedule (September 1, 2020). In July 2022, the NHTSA issued a final rule to amend FMVSS 141 â€œMinimum Sound Regulations for Hybrid and Electric Vehicles,â€ with an implementation date of August 12, 2022. In October 2020, the NHTSA proposed to revise the child restraint system (CRS) concerning FMVSS208 â€œOccupant crash protectionâ€ to improve the CRS safety in crashes and proposed to revise the CRS lists in line with the currently in-production CRSs. In January 2021, the NHTSA issued â€œFMVSS Considerations for Vehicles with Automated Driving Systems: Volume 2â€ to provide interpretation verifying the legality of ADS-DV (an SAE International level 4 or level 5) which are not equipped with manually operated driving controls against FMVSS regulations on the premise of existing manually operated driving controls. This Volume 2 mainly covered FMVSS that were not studied in Volume 1 which was issued in April 2020. Â 21 Table of Contents In June 2021, the NHTSA issued a general order that requires vehicle manufacturers to report accident information (General Order 2021-01). The NHTSA has mandated that if any vehicle (including prototype and modified vehicles as well as production vehicles) equipped with an automated driving system (ADS) and SAE LevelÂ 2 or higher Advanced Driving Assistant System (ADAS) causes an accident on publicly accessible roads in the United States while or immediately after the ADS and ADAS are activated, vehicle manufacturers must report such accident to the NHTSA within one day, update the report within 10 days, and report additional information once a month for three years from the accident. The reporting requirement is in effect from JuneÂ 2021. In November 2021, President Biden signed Infrastructure Investment and Jobs Act (H.R.3684). The Act requires government agencies in the United States to enact various rules and regulations. In particular, the Act mandates agencies to implement rules regarding vehicle safety, mandatory installation of collision avoidance systems and drunk driving prevention technology, as well as surveys on connected vehicles. However, in January 2025, President Trump issued Executive Order 14148 entitled â€œInitial Rescissions of Harmful executive Orders and Actionsâ€ and, accordingly, the Infrastructure Investment and Jobs Act (H.R. 3684) was withdrawn. In February 2022, the NHTSA issued a final rule to revise FMVSS108 â€œLamps, Reflective Devices, and Associated Equipment.â€ This amendment enables the adoption of adaptive driving beam (ADB) systems, an advanced headlamp technology that optimizes the beam pattern without driver action, specifies track testing requirements for vehicles and lab testing requirements at the component level. In March 2022, the NHTSA issued a final rule to revise FMVSS200 series (201/203/204/205/206/207/208/212/214/216a/219/225/226) for occupant protection in ADS-equipped vehicles. ADS-equipped vehicles without seats that are not intended to carry people are excluded from the application of the FMVSS200 series for occupant protection in the event of a collision. ADS-equipped vehicles without conventional steering control systems are partially excluded from the application of the FMVSS200 series (as it relates to protection from steering control systems), and new requirements for occupant protection in the event of a collision have been added. In December 2024, the NHTSA issued a final rule that amends time series data requirements of 49 CFR Part 563 EDR (Event Data Recorders). This final rule changed the recording time of EDR time-series measurement data from 5 seconds to 20 seconds for pre-collision data, and change the data sampling frequency from 2 Hz to 10 Hz. The purpose of this revision is to increase the recording time and recording frequency of pre-collision data in order to analyze the behavior of the vehicle before a collision occurs. The application applies to the vehicles manufactured after the first September 1st of the year following the publication of the final rule. The effective date of this final rule is September 1, 2027. In September 2022, the NHTSA issued a final version of â€œCybersecurity Best Practices for the Safety of Modern Vehiclesâ€ to update non-binding and voluntary guidance. This 2022 revision reflects comments received on the 2020 version of the Guidance which itself was a revision of the first edition issued in 2016, and clarifies and adds terminology in the scope, updated reference ISO/SAE 21434, and general cybersecurity best practices. In the United States, state laws stipulate privacy protection laws aimed at protecting the privacy of consumers within the state, and as of April 2025, California, Virginia, Colorado, Utah, Connecticut, NewÂ Hampshire, Maryland, Minnesota, Rhode Island, Delaware, Nebraska, Texas, Tennessee, and Oregon have enacted such privacy protection laws. In May 2024, the NHTSA issued a new FMVSS that would require all new light vehicles to be equipped with automatic emergency braking (AEB) systems. It provided mandatory installation of forward collision alarms and AEB for lead vehicles and pedestrians by newly establishing FMVSS 127 â€œAutomatic emergency braking systems for light vehiclesâ€ and 49 CFR Part 596 â€œAutomatic Emergency Braking Test Devices.â€ The final rule permits manufacturers to allow the AEB system to be temporarily disabled under specific conditions, compared to the proposed rule which did not address temporary disablement. The final rule mandates compliance beginning September 1, 2029, except for vehicles produced by small-volume manufacturers, final-stage manufacturers, and alterers, which must comply by September 1, 2030. Â 22 Table of Contents In November 2024, NHTSA issued a technical amendment to the May 2024 final rule on AEB systems for light vehicles in response to petitions for reconsideration. The effective date of this amendment was delayed from the original effective date of January 27, 2025 to March 20, 2025 due to the Presidential Regulatory Freeze issued JanuaryÂ 20, 2025 (which delayed effectiveness of then-pending U.S. federal regulations by 60 days, or until March 20, 2025, the â€œPresidential Regulatory Freezeâ€), but the compliance deadlines for FMVSS No. 127 remain unchanged. In January 2025, the Alliance for Automotive Innovation (AFAI) initiated litigation in the U.S. Court of Appeals for the D.C. Circuit challenging the final rule on AEB systems, which challenge remains pending. In January 2025, the NHTSA issued a final rule to revise FMVSS101 â€œControls and displaysâ€ and FMVSS208 â€œOccupant crash protection.â€ In addition to driverâ€™s seat, it provided to install a seatbelt reminder system in the passenger and rear seats and a stringent audio-visual warning system for driver and front passenger seat which keeps the alert active until the seatbelts are fastened. Vehicles manufactured on or after SeptemberÂ 1, 2026, will be subject to the front seat requirement, and vehicles manufactured on or after SeptemberÂ 1, 2027, will be subject to the rear seat requirement. The effective date was originally set for March 4, 2025, but was changed to March 20, 2025, as a result of the Presidential Regulatory Freeze. In September 2023, the Senate proposed AM Radio for Every Vehicle Act of 2023, a bill that would require the Secretary of Transportation to issue a rule requiring access to AM broadcast stations in motor vehicles. According to the bill, the Secretary of Transportation rule must be issued within one year after the enactment of this Act (if passed), and the requirement to install radios will take effect in two to three years after the rule is issued. However, the bill did not pass

before the end of the 118th Congress. In February 2025, the AM Radio for Every Vehicle Act of 2025, a bill that would also require the Secretary of Transportation to issue rules requiring all new passenger vehicles to have AM radio capability as standard equipment, was introduced in the House of Representatives. There was no change to the requirement that the Secretary of Transportationâ€™s rule must be issued the rules within one year after the enactment of this Act (if passed), and the requirement for manufacturers to install AM radios will take effect in two to three years after the rule is issued. In December 2023, the NHTSA issued a final rule revising FMVSS213 â€œChild restraint systems; Applicable unless a vehicle or child restraint system is certified to Â§ 571.213bâ€ and established FMVSS213b â€œChild restraint systems; Mandatory applicability beginning DecemberÂ 5, 2026.â€ FMVSS213 is applicable to products manufactured before DecemberÂ 5, 2024, and FMVSS213b applicable to products manufactured on or after DecemberÂ 5, 2026. In October 2024, NHTSA issued a final rule in response to a petition for reconsideration of the December amendments to child restraint system rules, which among other changes, formally established FMVSS No. 213a, clarified the applicability of FMVSS No. 213b, and aligned the compliance dates of FMVSS Nos. 213 and 226. As a result, the effective dates of FMVSS 213 and 213a are June 30, 2025, and FMVSS 213b will become mandatory for applicable products manufactured on or after December 5, 2026, with optional early compliance permitted. In January 2024, the NHTSA issued an initial rulemaking document providing for the gathering of information necessary to develop performance requirements and require that new passenger motor vehicles be equipped with advanced drunk and impairment driving prevention technology. The purpose of this information collection is to develop new FMVSS to reduce crashes and fatalities caused by alcohol-impairment driving. In January 2025, the NHTSA issued a final rule FMVSS307 â€œFuel system integrity of Hydrogen vehiclesâ€ and FMVSS308 â€œCompressed hydrogen storage system integrity.â€ These safety standards are informed by GTR No.13, but differ in some requirements and test procedures. The effective date is July 16, 2025 and the applicable date is September 1, 2028. Â 23 Table of Contents In December 2024, the NHTSA issued a new FMVSS305a â€œElectric-powered vehicles: Electrolyte spillage and electrical shock protectionâ€ to replace FMVSS 305. NHTSA proposed compliance date would be two years after the publication of the final rule in the Federal Register. For FMVSS 305a, in addition to lightweight vehicles, heavy vehicles with GVWR over 4,536 kg (10,000 pounds) have been added to the scope of application. New safety requirements for batteries (Rechargeable Energy Storage System (REESS) requirements) and test procedures have also been introduced. Europe In August 2018, the EU commission issued a regulation to significantly revise the legal framework for the EU type-approval. This regulation introduces a market surveillance system for managing the conformity of motor vehicles available on the market and adds a requirement of an expiration date for vehicle type approval. This EU type-approval came into effect on SeptemberÂ 1, 2020. In March 2019, the Committee of the Permanent Representatives of the Governments of the Member States to the European Union approved amendments to the â€œGeneral Safety Regulation.â€ Road traffic safety in the EU has improved during the last decade, but recently the decrease in the number of road fatalities has stagnated. To address this issue, the revised General Safety Regulation came into force in January 2020 and has been applied to vehicles from July 2022, which is 30 months after the enforcement. The revised General Safety Regulation includes mandatory equipment such as advanced driver assistance systems (ADAS). In addition to making ADAS equipment mandatory, the revised General Safety Regulation will also enact legislation for self-driving cars in 2026. As a response, rules for cyber security management systems formulated by UNECE WP29 in June 2020 has been incorporated into the revised General Safety Regulation, and have been mandatory from July 2022 as with other items of the revised General Safety Regulation. In addition, software updates will become more important with advanced electronic controls, so software update management systems have also been required from July 2022 to check whether appropriate updates have been made to the vehicle. For the first time, process approval has been introduced into cyber security management systems and software update management systems for vehicle type approval. This is not only for vehicles, but for everything from development to production and sales. This is to ensure that manufacturers are taking protective measures against cyber-attacks in the scene. As an important block of the European Data Strategy of February 2020, the Data Act was announced as the primary regulation governing the assurance of data value and management. On DecemberÂ 22, 2023, the EU Data Act (EU) 2023/2854 was finalized and published in the EU Official Journal. This Data Act applies to manufacturers and service co-owners, users and providers of products in the EU market with the aim of ensuring data management and accessibility of data between the private and public sectors. For vehicles, the European Commission has issued an impact assessment on access to vehicle data, features and resources. With regards to access to in-vehicle data for the purpose of providing vehicle related mobility services, the European Commission started public consultation for the revision of â€œWhole Vehicle Type Approval (WVTA) and market surveillanceâ€ (EU) 2018/858 in March 2022, a proposed regulation for which was issued in February 2022. China Vehicle safety regulations in China were drafted with reference to the UNECE standards and cover almost the same matters as the UNECE standards. However, these regulations also include unique provisions that take into account the distinctive characteristics of the Chinese market environment and the rules differ from the latest UNECE regulations. In addition, as rulemaking related to autonomous vehicles accelerates, in November 2023, â€œNotification of Intelligent and connected vehicle entry and road traffic pilot business activitiesâ€ was published, making road tests and test operations of intelligent connected vehicles (ICV) possible. Â 24 Table of Contents In June 2022, the Shenzhen Special Economic Zone ICV Management Ordinance has been issued, in August 2023, local standards of Shenzhen were published specifying technical requirements for ICV products. In February 2025, the Ministry of Industry and Information Technology (MIIT) issued the â€œNotice of the Ministry of Industry and the General Administration of Market Supervision on the Entry of Intelligent Connected Car Productsâ€ (Notification No. 45 of 2025), which strengthened the entry control and recall supervision management of intelligent connected car products. Future safety regulations are described as follows: Newly published GB and GB/T standards (Chinese national standards issued by the Standardization Administration of China) include: Â Â + Motor vehicles â€“ Devices for indirect vision â€“ Requirements of performance and installation Â Â + Amendment to connection set for conductive charging of electric vehicles â€“ Part 1: General requirements Â Â + Amendment to test methods for power performance of fuel cell electric vehicles Â Â + Amendment to fuel cell electric vehicles â€“ Onboard hydrogen system specifications Â Â + Establishment of security requirements for automobile data collection and requirements for cross-border data transfers Â + Establishment of technical requirements related to cyber security, and Â Â + General technical requirements for software updates of vehicles Â Â + Amendment to measurement methods of net power for automotive engines and electric drive trains Â Â + Amendment to hybrid electric vehicles â€“ Power performance â€“ Test method Â Â + Amendment to battery electric vehicles â€“ Power performance â€“ Test method Â Â + Protective device against unauthorized use of motor vehicles Â Â + Intelligent and connected vehicle â€“ Data storage system for automated driving Newly established GB and GB/T standards (not yet published) include: Â Â + Amendment to battery electric passenger cars-specifications. Â Â + Technical requirements and testing methods for advanced emergency braking system (AEBS) of light-duty vehicles Â Â + Electric vehicles traction battery safety requirements Â Â + Electric vehicles safety requirements Â Â + Technical specifications of remote service and management system for electric vehicles â€“ Part 2: On-board terminal Â Â + Basic requirements of security processing for intelligent and connected vehicle spatio-temporal data Â Â + Basic security requirements of spatio-temporal data sensing system of intelligent and connected vehicle Â Â + On-board accident emergency call system (AECS) India In December 2022, the MoRTH issued the 25th amendment of the Central Motor Vehicles Rules (CMVR), which requires traction battery for electric power train vehicles manufactured on and from AprilÂ 1, 2023 to be approved by the Annex IX-K to Automotive Industry Standards (AIS)-038. Â 25 Table of Contents MoRTH issued regulations on August 14, 2024 that require the installation of seat belt reminders on rear seats in M1 category vehicles manufactured on or after April 1, 2025. This regulation requires the seat belt reminders that comply with the Indian standard AIS-145-2018. Outline of Environmental and Safety Regulation for Motorcycles 1. Emissions Europe Euro 5 requirements other than catalyst monitoring of Onboard Diagnostics Regulation (OBD) started to apply to new vehicle models from January 2020 and started to apply to all vehicles registered from January 2021. Catalyst monitoring has applied to new vehicle models from January 2024 and has applied to all vehicles registered from January 2025. On DecemberÂ 11, 2019, the European Commission released its communication on the EU Green Deal. See â€œâ€Outline of Environmental and Safety Regulation for Automobilesâ€”1. Emissionsâ€”Europe.â€ China China is considering the introduction of Euro 5 level emission regulation from June 2027. India India published BS VI regulation (Euro 5 level exhaust emission regulation), which became effective from April 2020. OBD II is introduced in two stages, Stage II-A and II-B. Stage II-A became effective from April 2023 and Stage II-B became effective from April 2025. Other Asian Countries Thailand published the 7th phase (Euro 4) level emission regulation to be implemented from March 2020. The Ministry of Transport of Vietnam has announced that Level 4 (Euro 4) will commence in July 2026. Indonesia and Philippines are implementing emission regulations based on European regulations (Euro 3). In addition, consideration of the introduction of Euro 4 has started. Brazil Brazil published a new emission regulation called PROMOT 5 (Euro 5 level exhaust emission regulation), which has applied to new motorcycles from January 2023 and to all motorcycles registered from January 2025. The OBD stage 2 requirement has applied to new models of motorcycles from January 2025 and will apply to all motorcycles registered from January 2027. 2. Recycling / Chemicals and hazardous substances Europe The same REACH compliance required for motor vehicles is required for motorcycles. The European Union has a plan to implement motorcycle recycling laws in near future. The European Union has issued a regulation amending the EU Battery Directive to the EU Battery Regulation in 2023. This regulation adds requirements related to carbon footprints and information disclosure of remaining life for recycling, among others. The EU Battery Regulation came into force in 2024. Â 26 Table of Contents The European Union has published a draft regulation amending the ELV Directive to the ELV Regulation. The proposed regulations would add requirements for recycled content and expanded producer responsibility. Furthermore, the regulation is expected to apply not only to passenger cars but also to large vehicles and motorcycles, and discussions are continuing in Europe. China China has a plan to implement motorcycle recycling laws in near future. India India has announced a plan to implement motorcycle recycling laws in near future. India has issued a final regulation called Battery Waste Management Rules on AugustÂ 22, 2022. This final regulation requires the achievement of certain recovery targets for waste batteries and sets targets for value of use of recycled materials in new batteries. All batteries are required to display an EPR number. With the revision on February 24, 2025, it has been decided that the EPR number can also be displayed in the form of a QR code. Vietnam Vietnam implemented motorcycle recycling laws on JanuaryÂ 1, 2018. 3. Safety Europe In January 2019, the EU Commission issued a regulation complementing Union type-approval legislation with regard to Brexit. China Newly established GB standards (mandatory national standards) and GB/T standards (voluntary national standards) include: Â Â + Technical requirements related to cyber security. Â Â + Security requirements for automotive data collection. India The Ministry of Road Transport and Highways, Government of India, has promulgated technical requirements for batteries that include Indiaâ€™s own requirements called AIS-156 (Amd3). The standard was enforced in two phases, item by item, with Phase 1 coming into effect on DecemberÂ 1, 2022, and Phase 2 on MarchÂ 31, 2023. Other Asian Countries The Department of Land Transport of Thailand has applied the safety regulations for electric two-wheeled vehicles (UN R136) from January 2023 and the regulations for the fitting of lighting fixtures (UN R53) from January 2024. The Determination of Identification of Controls, Telltales and Indicators (UN R60) has been adopted and will be enforced from January 2026. Indonesia and Vietnam have been introducing various regulations regarding lighting and braking based on UN Regulations. Recently, Indonesia is considering the introduction of various regulations based on UN regulations, including horns (UN R28), speedometers (UN R39), lighting installation (UN R53), and brake systems (UN R78). Â 27 Table of Contents The Philippines has begun considering additional regulations to include an AHO function that automatically turns on the headlamps when the engine is running (From June 2023). Outline of Environmental and Safety Regulation for Power Products 1. Emissions The United States In April 2016, CARB has published an evaporative emission regulation applicable to outboard engines implementing from the 2018 model year and later. In September 2022, CARB published a final regulation to accelerate the transition of equipment using small off-road engines to zero-emission equipment, requiring most small off-road engines sold in California on or after JanuaryÂ 1, 2024, to be zero emissions. In accordance with this, the evaporative (EVAP) emission standard value has also been changed. In April 2023, the U.S. Consumer Product Safety Commission (CPSC) initiated a rule-making process to establish safety standards regulations, including CO2 emissions (g/h) limits for portable generators. Europe The European Commission has finalized strengthened exhaust emission regulation for non-road small spark-ignition engines (commonly known as Stage 5 regulation). Its limit values of exhaust emission follow the U.S. EPA phase 3 and the effective date is January 2018 for new certifications and JanuaryÂ 1, 2019, for the engines newly placed in the market. On DecemberÂ 11, 2019, the European Commission released its communication on the EU Green Deal. See â€œâ€Outline of Environmental and Safety Regulation for Automobilesâ€”1. Emissionsâ€”Europe.â€ In December 2022, the European Commission published an amendment to Delegated Reg. Monitoring Non-Road Mobile Machinery (NRMM) in service engines of less than 56kW or more than 560kW. China An exhaust emission standard was introduced in China on MarchÂ 1, 2011. Its requirements are based on the European exhaust emission regulations and are applicable to small spark-ignition engines for non-road mobile machinery with 19 kW or less. The phase 2 regulation with durability requirement started from JanuaryÂ 1, 2014. The phase 3 regulation is under development. India The Central Pollution Control Board regulates generator emissions through the Environment (Protection) Third Amendment Rules, 2022, which introduced enhanced Phase 3 emission standards commencing in JulyÂ 2023. 2. Recycling / Chemicals and hazardous substances The United States The Toxic Substances Control Act (TSCA) is the US hazardous substances legislation restricting Phenol, Isopropylated Phosphate (PIP) (3:1) for the first time in the world. PIP (3:1) is mainly used as a flame retardant. The first rule implementing this restriction was issued in January 2021, but relevant industrial associations Â 28 Table of Contents objected that the transitional period, which was to last only 60 days, would make it impossible to comply in a timely manner. As a result, the compliance date has been extended to November 2024. Subsequently, EPA reconsidered the PIP (3:1) rules based on industry comments, and on November 19, 2024, EPA finalized revisions to exempt PIP (3:1) and products containing PIP (3:1) for the use in circuit boards and wire harnesses from the prohibition. On February 21, 2025, a Senate Bill 682 which proposes a phased ban on sale and distribution of products that contain intentionally added Perfluoroalkyl and polyfluoroalkyl substances (PFAS) was submitted to the California legislature. If enacted, the bill would phase out the sale of products intentionally added PFAS in stages, with the broadest prohibition taking effect by January 1, 2040. Europe The same REACH compliance required for motor vehicles is required for power products. In June 2011, the European Union Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS) had been wholly revised and most power products were within its scope after 2019. The European Union has issued a regulation amending the EU Battery Directive to the EU Battery Regulation in 2023. This regulation adds requirements related to carbon footprints and information disclosure of remaining life for recycling, among others. The EU Battery Regulation came into force in 2024. China On JulyÂ 1, 2016, a regulation similar to European RoHS has entered into force. The first list of target products was published on MarchÂ 12, 2018. India India has issued a final regulation called Battery Waste Management Rules on AugustÂ 22, 2022. This final regulation requires the achievement of certain recovery targets for waste batteries and sets targets for value of use of recycled materials in new batteries. All batteries are required to display an EPR number. With the revision on February 24, 2025, it has been decided that the EPR number can also be displayed in the form of a QR code. 3. Safety Japan The Agricultural Technology Innovation Engineering Research Center of National Agriculture and Food Research Organization has decided to conduct safety inspection of agricultural machinery that has replaced agricultural machinery safety appraisal from JulyÂ 31, 2018. In June 2021, the Snow Thrower Safety Council revised safety standards to add performance criteria allowing snow throwers to stop safely when moving backwards. In April 2023, the MLIT expanded the certified output of shipbuilding businesses to 92 kW based on the provisions of the Ship Safety Act. In March 2025, the Agricultural Technology Innovation Engineering Research Center of National Agriculture and Food Research Organization issued a revision to the scope of agricultural machinery subject to safety inspections and updated related standards. The scope of application has been clarified, and notably excluding rotary axle tillers from the category of agricultural tractors (walk-behind). The new standards has come into effect in April 2025. Â 29 Table of Contents The United States In November 2016, the CPSC promulgated a notice of proposed rule-making in the Federal Register, which proposes to restrict the carbon monoxide emission from portable generator rated 19kW and below. This regulation was proposed to address the carbon monoxide poisoning injuries occurring from portable generators. In April 2018, an American National Standard Institute (ANSI) Standard for portable generators were amended. In December 2023, the Portable Generator Manufacturersâ€™ Association (PGMA), a trade association that seeks to develop and influence safety and performance standards for the industry, revised ANSI/PGMA G300-2018 and approved a new standard by ANSI, G300-2023. It became effective in January 2025. In June 2024, the Outdoor Power Equipment Institute (OPEI) published new safety requirements for combustion engine powered rotary lawnmowers and cylinder lawnmowers (ANSI/OPEI 5395-1/-2/-3). These requirements apply to consumer and commercial combustion engine powered rotary lawnmowers and cylinder lawnmowers, depending on operation type. These standards will be effective two years after the June 6, 2024 publication date. Europe The EU Commission plans to enhance existing noise regulation applicable to equipment intended to be used outdoors. This is a comprehensive rulemaking including expansion of the scope of regulation, enhanced noise limits, change to the conformity assessment system, among other things. In 2020, discussions to revise the Low Voltage Directive, Battery Directive and Recreational Craft Directive have been initiated. In January 2022, the European Commission issued a regulation on cybersecurity to supplement the Radio Equipment Directive. In June 2023, the European

Commission has adopted Regulation (EU) 2023/1230 on machinery safety. The new Regulation expands the scope of the Machinery Directive, and introduces requirements addressing new areas such as emerging technologies, including AI and machine learning, cybersecurity, and digital documentation. It will be applicable from January 2027. As of June 2025, the list of harmonized standards to be used for making declarations of conformity has not been published. In November 2024, the European Commission published proposals to revise eco-design requirements for external power supplies, wireless chargers, general-use portable battery chargers, and among others. In December 2024, the European Commission adopted the Regulation (EU) 2024/2847 (Cyber Resilience Act). The requirements apply to products with digital elements and such products must comply with cybersecurity requirements. As of June 2025, no harmonized standards are available to assess compliance. In January 2025, the European Commission published an Official Journal Decision to introduce harmonized standards that address the cybersecurity requirements under the Radio Equipment Directive. China The publication of a new â€œSafety technical specification for agricultural machinery,â€ which specifies safety requirements for agricultural machinery in general, is under consideration. Â 30 Table of Contents Preparing for the Future Please note that the forward-looking statements contained herein are judgments made by Honda as of the filing date of this Annual Report and may differ materially from actual results because of uncertainties that may arise in the future, including those discussed under â€œItem 3. Key Informationâ€”D. Risk Factors.â€ Management Policies and Strategies Honda has two fundamental beliefs: â€œRespect for the Individual,â€ and â€œThe Three Joysâ€ (the Joy of Buying, the Joy of Selling, and the Joy of Creating). â€œRespect for the Individualâ€ calls on Honda to nurture and promote these characteristics in our company by respecting individual differences and trusting each other as equal partners. â€œThe Three Joysâ€ is based on â€œRespect for the Individual,â€ and is the philosophy of creating joy for everyone involved in Hondaâ€™s activities, with the joy of our customers as the driving force. Based on these fundamental beliefs, Honda strives to improve its corporate value by sharing joy with all people, and with its shareholders in particular, by practicing its mission statement: â€œMaintaining a global viewpoint, we are dedicated to supplying products of the highest quality, yet at a reasonable price for worldwide customer satisfaction.â€ As a comprehensive mobility company, Honda aims to become the power that advances people and society by delivering around the world essential value we offer of â€œenabling people to transcend various constraints such as time and placeâ€ and â€œenabling people to augment their abilities and possibilities,â€ as stated in the Honda Global Brand Slogan, â€œThe Power of Dreams,â€ redefined in 2023, as well as realizing society with â€œzero environmental impactâ€ and â€œzero traffic collisionsâ€ through mobility full of dreams and various other services that are generated by creativity of each and every one of us at Honda. Honda will continue to take on bold challenges with innovative technologies and ideas, powered by the dreams, to realize our vision. Â Â Â Â Business Environment and Direction of Our Responses The business environment surrounding Honda has come to a major turning point. Values are diversifying, the population is aging, urbanization is accelerating, climate change is worsening, and the industrial structure is changing due to progress in technologies such as the use of electric-powered motors, autonomous driving and IoT, all on a global basis. Additionally, the international situation remains uncertain, including the situations in Ukraine, the Middle East and the South China Sea, and, including ongoing uncertainty in the trade policies of various countries, geopolitical risks have also become heightened. In these circumstances, in order to achieve future growth, Honda believes that it needs to build positive relationships with all stakeholders involved in our corporate activities to solve long-term social issues, as well as constantly working to improve the quality of value we offer. In the Automobile business, we consider EVs (electric vehicles) to be the optimal solution to achieve carbon neutrality from a long-term perspective. Meanwhile, the environment surrounding electrification of automobiles is facing significant changes. Progress in the adoption of electrification varies widely from one region to another, and there are fluctuations in the speed of adoption in the early phases. Honda plans to maintain a flexible and adaptive strategy to ensure effective resource allocation while closely monitoring developments in the EV market. Â 31 Table of Contents We believe that the Motorcycle business can sustain its market expansion, particularly in emerging countries characterized by higher young population ratios. On the other hand, in India, which is the largest motorcycle market in the world, the demand for electric vehicles is also expanding rapidly partly due to government policy measures. We believe the expansion trend of EVs will continue over the long term in other countries as well, while each country faces different challenges on the infrastructure side, including stable power supply and the development of charging networks, and there are differences in governmentsâ€™ sales promotion measures and their capability to execute industry development measures. In light of these circumstances, Honda will harness its strengths to roll out measures against rapidly growing emerging electric vehicle manufacturers, as well as ensuring effective resource allocation, while closely monitoring the pace of expansion of internal combustion engine (ICE) vehicles and EV by market. In Power Products and Other businesses, the shift towards carbon neutrality is accelerating in construction machinery, industrial machinery and other industry sectors, led by both public and private sectors, and the demand for environmentally-conscious products is growing. Honda plays the role of accelerating the shift towards carbon-neutral society by expanding the lineup of electric-powered products for corporate clients including finished products manufacturers in those industry sectors. Challenges to be Addressed Preferentially Honda has comprehensively identified social issues from sustainability point of view and has selected challenges to be addressed preferentially aligning with the companyâ€™s strategic direction. Specifically, the Group has selected five non-financial areas as key themes: â€œenvironmentâ€ and â€œsafety,â€ which are the key management themes the Group has long committed to; â€œhumanâ€ and â€œtechnology,â€ which are our engines for growth; and â€œbrand,â€ which could be regarded as the sum of all corporate activities. By linking these themes with our financial strategies, Honda will create social values and economic values. â€œFive Key Themesâ€ 1. Realization of a zero environmental impact of society Honda, aiming for sustainable business practices, has set achieving a â€œZero Environmental Impact Societyâ€ as one of its company-wide priority issues to address environmental impacts comprehensively. In our efforts to achieve a â€œZero Environmental Impact Society,â€ we are working towards the concept of â€œTriple Action to ZERO,â€ a concept that consolidates three key initiatives: â€œCarbon Neutrality,â€ â€œClean Energy,â€ and â€œResource Circulationâ€. We are focusing on the concept of â€œTriple Action to ZEROâ€ as the core of our efforts. Carbon neutrality For small-size mobility products including passenger vehicles, Honda believes that EVs are the optimal solution for achieving carbon neutrality from a long-term perspective. Based on this belief, Honda made the strategic decision to make a major shift toward the popularization of EVs and has been making progress with various initiatives. In the meantime, the environment surrounding the automobile industry is changing day by day. Uncertainty in the business environment is increasing, due particularly to the slowdown in the expansion of EV the market due to several factors, including changes in environmental regulations, which had been the premise for the widespread adoption of EVs, as well as changes in trade policies of various countries. In such a business environment, we have decided to withdraw our initial target of a 30% global EV/FCEV (fuel cell electric vehicles) sales ratio by 2030, although Honda plans to continue to steadily work to build a strong EV brand and business foundation from a long-term perspective in order to reach our goal of â€œincreasing the ratio of EV and FCEV sales to 100% globally by 2040â€. Moreover, Honda plans to position its HEVs as the powertrain that will play a key role during the transition period toward the popularization of EVs and further enhance its HEV (hybrid electric vehicles) lineup. Â 32 Table of Contents In the Motorcycle business, Honda is striving to realize carbon neutrality for all of its motorcycle products during the 2040s, as the primary focus of environmental strategies for motorcycle business. To that end, Honda plans to accelerate electrification, while also continuing to advance ICE. (Enhancement of the product lineup) Honda has been strategically proceeding with plans to introduce 30 electric models globally by 2030 to achieve the goal to increase its global annual sales of electric motorcycle models to 4Â million units by 2030. To this end, Honda positioned 2024 as the first year of electric globalization and made full-fledged entry into the market. By offering a wide variety of electric models that accommodate the increasingly diverse customer needs, Honda will strive to become the leading company also in the electric motorcycle market. (Establishment and enhancement of charging and usage environment) For the popularization of electric motorcycles, Honda has not only been enhancing its product lineup but also implementing initiatives to improve the environment for their usage. In addition to Japan, Indonesia and Thailand, Honda began offering a battery sharing service in India through its local subsidiary, Honda Power Pack Energy India Pvt. Ltd. (HEID), for the further popularization of electric motorcycle models powered by swappable batteries. Moreover, Honda plans to strengthen after-sales services and maintenance by leveraging the industryâ€™s largest sales network* consisting of 6,000 dealership locations throughout India. In addition, with the plan to continue introducing more electric models powered by a fixed battery, Honda plans to leverage its broad sales network to enhance the battery charging network, which will eliminate customer anxiety of running out of battery power. Â *Â according to Honda research (as of January 2025) In the Power Products business, we plan to position the power unit and garden sectors as key domains for electrification and strengthen our efforts to enhance product capabilities, thereby leading the industry in this transformation. Additionally, leveraging Hondaâ€™s strength in diverse mobility, we plan to enhance development and cost competitiveness by sharing core parts necessary for electrification with the motorcycle business, thus reducing costs and maximizing synergies across business areas. In the Power Unit Sector, in addition to our existing B2B customers developed through our core business of general-purpose engines, Honda plans to actively expand the deployment of eGX (an electric version of Hondaâ€™s GX series of general-purpose engines) in areas expected to electrify. To support this, we plan to strengthen collaboration with power unit suppliers, focusing on Japan and Europe. To meet our customersâ€™ diverse needs more precisely, we plan to prepare a wide range of variations within the eGX series. In Garden Sector, in the U.S. market, Honda plans to offer a full lineup of electric products for landscaping professionals, aiming to expand the adoption of electric equipment among professional customers. To achieve this, we have moved to the mass production preparation phase for large models such as electric riding lawn mowers and robotic lawn mowers, which were showcased as prototypes at North American trade shows. Furthermore, for small electric products such as push lawn mowers and brush cutters, we plan to leverage external partnerships to accelerate electrification through efficient development and production schemes. We plan to also expand the framework of these collaborations to target additional customer acquisition. For more details regarding â€œcleanenergyâ€ and â€œresource circulationâ€, please see â€œConcepts and Approaches to Sustainability.â€ Â 33 Table of Contents 2. To realize a zero traffic collision society Honda aims to achieve zero traffic collision fatalities involving Honda motorcycles and automobiles worldwide by 2050*1. As a milestone, Honda aims to halve the number of global traffic collision fatalities involving Honda motorcycles and automobiles worldwide by 2030*2. All motorcycles and automobiles registered, not limited to new vehicles, are included in the scope. Â *1Â Traffic collision involving Honda motorcycles and automobiles (rider, driver and passengers), as well as pedestrians and bicycles as other involved parties (excluding intentional violation of traffic rules with malicious intent and cases of willful incapacitated status due to use of alcohol, drugs, or other substances) *2Â To halve the number of traffic collision fatalities per 10,000 vehicles involving Honda motorcycles and automobiles worldwide by 2030 compared to 2020 For more details, please refer to â€œConcepts and Approaches to Sustainability.â€ 3. The evolution of human capital management Hondaâ€™s management of human capital involves developing its talent portfolio by backcasting from the desired future state, with the goal of becoming a â€œcomprehensive mobility company that advances people and society driven by the dreams of each individual,â€ as outlined in the company-wide policies. To achieve this, we have identified two key human capital â€œmaterialitiesâ€* to be addressed from both medium- to long-term and short- to medium-term perspectives. Furthermore, we have identified two main themes for each human capital materiality, for a total of four main themes. Â Â * Materialities: We select â€œPriority Issuesâ€ by comprehensively analyzing social issues from the perspective of sustainability, aligning them with Hondaâ€™s strategic direction, and defining the particularly focused issues for each priority issue as â€œmaterialitiesâ€. For more details, please refer to â€œConcepts and Approaches to Sustainability.â€ 4. Creation of innovative technologies In pursuit of providing the values of â€œTranscendâ€ and â€œAugmentâ€, Honda is committed to strengthening innovation management, grounded in the belief that â€œcreating core technologies is the source of a sustainable business foundation and competitive edge for the future.â€ Honda is committed to achieving a â€œsociety with zero environmental impactâ€ and â€œzero traffic collision fatalitiesâ€ in the future, as well as expanding the concept of mobility fields. Having defined key focus areas, resources are strategically allocated, and experts in each field lead technology development to realize these goals. Furthermore, Honda collaborates with various research institutions worldwide to explore and integrate global knowledge. The development of new technologies requires repeated trials and extensive resources before they can be commercialized. Guided by the belief that the â€œpursuit of new technologiesâ€ is the driving force behind the Groupâ€™s future, by making bold resource investments, we aim to sustain strong competitiveness and pursue sustainable business development. Amid ongoing development of new technologies, Honda plans to continue to enhance application of intelligent technologies and improve the competitiveness of its HEV models. In the application of intelligent technologies, Honda is currently developing its proprietary next-generation ADAS (Advanced Driver Assistance Systems) which assists the driver with vehicle operations such as acceleration and steering throughout the entire route, on both expressways and surface roads, based on the destination the driver inputs into the navigation system. In addition, in HEV models, Honda plans to further advance its proprietary two-motor hybrid system, the e:HEV hybrid system, and platforms in all aspects. Moreover, Honda strives to improve fuel economy and further advance a driving experience that reflect Hondaâ€™s distinctive approach to maintain both high quality and driver engagement. Â 34 Table of Contents 5. Brand value enhancement The Honda brand has been shaped by a continuous accumulation of corporate activities alongside our customers, from its founding to the present day. We recognize enhancing the Honda brand, which has been woven over 75 years, and increasing its value for the future is recognized as one of the most important challenges Honda. In brand management, we believe it is crucial to create synergies between â€œconsistency in brand communication as a companyâ€ and â€œthe diversity and uniqueness of products and services.â€ As part of this, we have focused on developing and expanding â€œbrand assetsâ€ that serve as guidelines for various communications and branding practices to ensure valuable consistency on a global scale. We will seek to further expand these brand assets and evolve the content, aiming to increase global utilization. We believe that this will support the creativity driven by the â€œdreamsâ€ of all associates and strive to establish an attractive brand that resonates with our stakeholders. â€œFinancial Strategyâ€ 6. Economic value enhancement To enhance corporate value, we recognize the need to utilize both financial and non-financial capital to achieve sustainable cash flow growth and improve capital efficiency. To realize this aim, we will work on â€œstrategic resource allocation aligned with business transformation phases,â€ â€œstrengthening management with an awareness of capital costs and responding to environmental changesâ€ and â€œimproving management quality and transparency through proactive dialogue.â€ Â a. Strategic resource allocation aligned with business transformation phases (Capital generation) Toward 2030, Honda will seek to improve profitability with 1) continuous expansion of the Motorcycle business, 2) cost reduction effects in the Automobile business associated with the adoption of the next-generation e:HEV system and platforms, and 3) an increase in unit sales of HEV models, and will aim to keep making progress toward achieving the company-wide ROIC*1 target of 10% for the fiscal year ending MarchÂ 31, 2031. Â *1Â [Profit for the year attributable to owners of the parent + Interest expenses (excluding the financial services businesses)] /Deployed Capital*2 Â 35 Table of Contents *2Â Equity attributable to owners of the parent + Interest-bearing liabilities (excluding those from the financial services business sector). Deployed capital is calculated using the average of the beginning and end of the period. (Resource investment) As for the plan announced in May 2024 to invest the total of Â¥10 trillion in capital expenditures, investment and research and development expenditures to pursue its electrification strategy, Honda decided to reduce the amount by Â¥3 trillion, to a total of Â¥7 trillion, over the period through the fiscal year ending MarchÂ 31, 2031, based on its decision to postpone the project to establish, among other things, a comprehensive EV value chain in Canada. Regarding the changes in capital allocation over the five-year period starting from the fiscal year ending March 31, 2027, in light of the reduction in the resource investment amount, Honda will strive to generate more than Â¥12 trillion of operating cash flows after R&D adjustment* in cash, combining its ability to generate cash stably from its Motorcycle business and an increase in unit sales of HEV models. As for resource allocation through fiscal year ending March 31, 2031, while reducing EV-related investment by Â¥3 trillion, Honda expects a minimal increase in investment related to HEV business. Â * Cash flows from operating activities (CFO) excluding R&D expenses (CFO of non-financial services businesses + R&D expenditures â€“ amount transferred to capitalized development cost) (Shareholder returns) We position returning benefits to shareholders as one of the most important management priorities. Revising its resource allocation by responding to market changes swiftly and flexibly, Honda will seek to establish automobile business that can prepare for the future while also improving profitability. Until the current fiscal year, Honda has committed to achieving steady and consistent dividend payments using a consolidated payout ratio of 30% as a reference. However, in light of the uncertainty in the business environment, Honda has made a decision to introduce DOE (Ratio of dividend on adjusted equity attributable to owners of the parent)* as the metric for determining dividend level going forward, as an expression of its ongoing commitment to maintain shareholder returns in line with business growth by capitalizing on Hondaâ€™s inherent strengths in generating cash. In this way, Honda plans to achieve growth through further strengthening of its business structure while maintaining stable and continuous shareholder returns. Â * Adjusted â€œequity attributable to owners of the parentâ€, which serves as the basis for DOE (Ratio of dividend on adjusted equity attributable to owners of the parent), is based on adjusted figures that exclude â€œother components of equityâ€, which are highly volatile due to the effects of currency rates and market conditions. b. Strengthening management with an awareness of capital costs and responding to environmental changes To enhance corporate value by flexibly and appropriately responding to environmental changes, we aim to infuse management with a heightened sensitivity of capital costs, maintain multiple options based on timeframes, and manage risks through flexible resource allocation. During the upcoming

transformation period, investments for the future will proceed, but investment decisions will be made based on capital costs using Net Present Value (NPV). As a crucial management goal, we aim to maintain a company-wide ROIC that exceeds the cost of capital. Â 36 Table of Contents c. Improving management quality and transparency through proactive dialogue To ensure that our management direction is correctly understood and appreciated by stakeholders, including shareholders and investors, our management team plans to proactively pursue and engage in increased dialogue through events and individual interviews. Through these dialogues, our management and technical leaders directly conveyed our growth strategy. Coupled with an enhanced understanding of what the capital markets expect from Honda, we aim to leverage this insight in our management and business strategies. By doing so, we strive to achieve a price-to-book ratio (PBR) of more than 1 at an early stage and continuously enhance our corporate value. Through these company-wide activities, Honda aims to be a company that society, which includes our shareholders, our investors and our customers, wants to exist. Concepts and Approaches to Sustainability Please note that the forward-looking statements contained herein are judgments made by Honda as of the filing date of this Annual Report and may differ materially from actual results because of uncertainties that may arise in the future, including those discussed under â€œItem 3. Key Informationâ€”D. Risk Factors.â€ Governance and Risk management 1. Governance Honda is promoting corporate activities grounded in the Honda Philosophy. The Honda Philosophy consists of three components: the fundamental beliefs, the company principle, and the Management Policies. Hondaâ€™s long-term management policies and medium-term management plan are approved and resolved by the Executive Council (chaired by the Director, President, and Representative Executive Officer, and Chief Executive Officer) and the Board of Directors. The Board of Directors is the final supervisory body, covering actions to address sustainability issues, including climate change issues. The Executive Council deliberates in advance on matters to be resolved by the Board of Directors and discusses important management matters within the scope of authority delegated to it by the Board of Directors. In response to the need to address various risks associated with business activities and to oversee business operations for the sustainable development of society and Honda, Honda has designated knowledge in ESG and Sustainability, including ability in addressing climate change issues, as one of the necessary skills and appointed directors accordingly. Each Operation and Supervisory Unit and subsidiary formulates and promotes action plans and measures based on the company-wide long-term management policies and medium-term management plan, and important matters are reported and approved at the Executive Council as appropriate. In each area of environment, safety, human resources, human rights, occupational safety and health, quality, and supply chain (purchasing and logistics), conference bodies have been established to promote global management through information sharing and discussions. For important cross-departmental issues such as addressing climate change issues, a cross-departmental task force is formed under the direct supervision of management members to consider and propose action plans and measures as appropriate, and important matters are reported and approved at the Executive Council. Compliance and risk management related to each area are operated by the Companyâ€™s basic policies for the development of internal control systems. The Board of Directors and the Executive Council regularly monitor the progress of KGIs for which the Board of Directors is responsible for supervision and KPIs for which the Executive Council is responsible for execution, thereby reinforcing management governance. Please refer to Item 6 B. â€œCompensation.â€ for details of the executive remuneration system linked to financial and non-financial indicators. Â 37 Table of Contents 2. Risk management Honda has established the Honda Global Risk Management Policy and has been conducting activities that will lead to sustainable growth and stable corporate management by actively controlling risks. Under the supervision and monitoring of the Risk Management Officer elected by the Board of Directors, we categorize, manage and address risks defined as potentially inflicting significant damage or loss on Hondaâ€™s tangible and intangible assets, corporate activities and stakeholders of Honda and possibly affecting our corporate management. Each organization identifies and evaluates risks. Based on the results of its evaluation, the Operations Risk Management Officers identify priority risks for respective Operations. Based on the recognition of risks within Honda and reflecting external risk trends, we also identify, check and discuss the response status to the company-wide priority risks deemed particularly important for the entire corporate entity. Important matters related to risk management are discussed by the Risk Management Committee established within Honda, and details of their activities are reported to the Executive Council as appropriate. Strategies, Indicators and Targets 1. Strategy Honda views â€œenvironmentâ€ and â€œsafetyâ€ as the most critical societal issues that Honda, being a comprehensive mobility company, must address with the utmost sincerity. Under the theme of realizing a society with â€œzero environmental impactâ€ and â€œzero fatalities from traffic collisions,â€ we are committed to developing and implementing effective measures with speed. Â 38 Table of Contents (Environmental Strategy) Honda recognizes that all business activities have environmental impacts. To address these challenges, it is important to consider the environmental impacts of each stage of the product lifecycle. Honda identifies the main environmental impacts as: CO2 emissions, use of fossil fuel-derived energy, extensive resource extraction and waste and impacts on biodiversity. Â Honda, aiming for sustainable business practices, has set achieving a â€œZero Environmental Impact Societyâ€ as one of its company-wide priority issues. To address environmental impacts comprehensively, Honda has established four materialities* to guide its efforts. Â *Â We select â€œPriority Issuesâ€ by comprehensively analyzing social issues from the perspective of sustainability, aligning them with Hondaâ€™s strategic direction, and defining the particularly focused issues for each priority issue as â€œmaterialitiesâ€. Â Triple Action to ZERO In our efforts to achieve a â€œZero Environmental Impact Society,â€ we are working towards our vision by 2050 of net zero CO2, emissions, 100% utilization of carbon-free energy, and 100% use of sustainable materials. These visions are encapsulated in the concept of â€œTriple Action to ZERO,â€ a concept that consolidates three key initiatives: â€œCarbon Neutrality,â€ â€œClean Energy,â€ and â€œResource Circulationâ€. We position â€œTriple Action to ZEROâ€ as the core concept guiding our efforts. The three initiatives of â€œTriple Action to ZEROâ€ are closely related and we aim to maximize synergistic benefits by considering their linkages. Â 39 Table of Contents The â€œTriple Action to ZEROâ€ initiatives are also linked to the international demand for preserving biodiversity and fostering harmony with nature. In advancing these initiatives, we will consider â€œNature-based Solutions*â€ as well. Â *Â Nature-based Solutions (NbS) involve advancing societal challenges while conserving and restoring natural ecosystems. Â Â Efforts to Realize a Zero Environmental Impact Society Key Initiatives and Milestones for Achieving Materiality The Company aims for â€œcarbon neutrality by 2050â€ across the entire product lifecycle, and is focusing on the four materialities and is prioritizing â€œaddressing climate changeâ€ and â€œaddressing energy issues.â€ As priority actions, the Company is working on reducing CO2, emissions from product use and corporate activities, breaking these efforts down into more specific initiatives that the Company plans to implement as concrete actions. Specifically, CO2, emissions are tracked for various product groups within each business segment, as well as for individual product factories and manufacturing equipment. This approach helps in quantifying CO2, reduction amounts for each product and factory. For long-term impact reduction measures related to the materiality of â€œefficient utilization of resources,â€ Honda is in the initial phase of preparing initiatives that may require business transformation beyond existing frameworks to achieve carbon neutrality, including efforts aimed at reducing CO2, emissions in future upstream and downstream processes. We also recognize the importance of considering natural impacts, such as the materiality of â€œbiodiversity conservation,â€ while advancing these initiatives. Therefore, Honda is aiming not only to achieve â€œcarbon neutrality by 2050â€ but also to pursue a long-term perspective toward realizing a â€œzero environmental impact society.â€ Furthermore, to achieve carbon neutrality on a society-wide scale, Honda is taking on the challenge of multifaceted initiatives in addition to the electrification of mobility. Â 40 Table of Contents (Safety Strategy) Honda is addressing various factors leading to accidents by evolving and combining â€œHuman Ability (awareness-building activities)â€, â€œMobility Performance (technological development)â€, and â€œTraffic Ecosystem (collaboration, development of systems/services)â€. Honda recognizes the need to reduce fatal accidents involving motorcycles in emerging countries as a major challenge towards 2030. To address this issue, Honda will actively develop instructor training programs, corporate training at Traffic Education Centers*1, and schools for individuals in â€œHuman Ability (awareness-building activities).â€ In â€œMobility Performance (technological development),â€ for motorcycles, Honda will expand the application of advanced braking systems such as â€œABSâ€*2 and â€œCBS,â€*3 as well as lights with high visibility for both riders and other road users. For automobiles, Honda will actively promote the functional evolution and widespread use of advanced driver-assistance systems (ADAS), such as Honda SENSING with a motorcycle detection function in emerging countries and Honda SENSING 360 in developed countries, tailored to the local realities of each region. In â€œTraffic Ecosystem (collaboration, development of systems/services)â€, we are strengthening our collaboration with international organizations such as the United Nations in relation to traffic safety. We will support safety policies such as institutional reform, awareness-building and infrastructure development by providing the knowledge and know-how cultivated through Hondaâ€™s long-standing safety activities to countries around the world, with a focus on emerging countries, through such organizations. A major challenge for the year 2050 is to reduce traffic collision fatalities among pedestrians, bicyclists, and motorcycle riders, those considered as vulnerable road users worldwide. To address this challenge, Honda will accelerate the efforts of the â€œTraffic Ecosystem (collaboration, development of systems/services).â€ Specifically, we will promote research and development relating to â€œSafe and Sound Network Technologyâ€ and standardization of technologies for social implementation. Â *1Â Traffic Education Centers: Honda facilities where internal and external traffic safety instructors are trained and driving safety education is provided to corporations, schools and individual customers. *2Â ABS : Antilock Braking System *3Â CBS : Combined Braking System Â 41 Table of Contents 2. Indicators and targets (Environment) To realize a society with zero environmental impact, Honda will execute initiatives. Please refer to the chart below. Â Â Â Â Â Â Â Importantthemes Â Materiality Â ManagementÂ Indicators Â Category Â TargetsfiscalÂ yearendingÂ March31, 2031 Realization of Zero Environmental Impact Society Â -Challenging climate change issues -Challenging energy-related issues -Efficient utilization of resources -Biodiversity conservation Â KGI Â ReductionÂ rate ofÂ CO2 emissionsÂ from corporate activities (comparedÂ toÂ FYE Mar.Â 31, 2020) Â Consolidated Â â€”â€,*1 Â Total CO2 emissions from products Â Consolidated /Business Â â€”â€,*1 Â Waste reduction rate (compared to BAU*2) Â Consolidated Â Â Â Â â€”â€,*1 Â Water intake reduction rate (compared to BAU*2) Â â€”â€,*1 Â KPI Â Sales ratio of electrified products Â Business Â Motorcycles Automobiles PowerÂ products Â â€”â€,*1 Â Reduction rate of CO2 emissions intensity of product use (compared to FYE Mar. 31, 2020) Â â€”â€,*1 Â Â *1Â The previously disclosed management indicators (KGI and KPI) for the fiscal year ending March 31, 2031 are currently under review due to changes in the business environment. Honda is in the process of recalculating these targets and plans to disclose updated target figures in its integrated report, â€œHonda Report 2025. *2Â The estimated result for the fiscal year ended March 31, 2031 based on our production plans but without implementing our reduction strategies. (Business As Usual) Â 42 Table of Contents (Safety) Honda aims for zero [traffic collision fatalities involving Honda motorcycles and automobiles] globally by 2050*1. As a milestone, Honda targets reducing world-wide traffic fatalities involving its vehicles halving by 2030 compared to 2020 levels*2. This includes not only new vehicles but all registered Honda motorcycles and automobiles on the market. To realize the 2030 milestone, moving forward, Honda will particularly focus on enhancing collision safety performance and expanding the evolution and application of advanced driver-assistance systems (ADAS) for automobiles. For motorcycles, Honda will expand the application of advanced braking systems such as â€œABSâ€ and â€œCBSâ€, as well as lights with high visibility for both riders and other road users. To track the progress of these initiatives, Honda has defined key performance indicators (KPIs) for advanced safety equipment application rates such as of Honda SENSING 360 for automobiles in developed countries*3, Honda SENSING for four-wheel vehicles in emerging countries*4, and advanced braking systems (â€œABSâ€/â€œCBSâ€) for motorcycles in emerging countries*5 so as to set target to ensure steady progress. Human Capital Strategy, Indicators and Targets 1. Strategy (Hondaâ€™s Human Capital Strategy) Hondaâ€™s management of human capital involves developing its talent portfolio by backcasting from the desired future state, with the goal of becoming a â€œcomprehensive mobility company that advances people and society driven by the dreams of each individual,â€ as outlined in the company-wide policies. To achieve this, we have identified two key human capital â€œmaterialitiesâ€*1 to be addressed from both medium- to long-term and short- to medium-term perspectives. Furthermore, we have identified two main themes for each human capital materiality, for a total of four main themes. For each theme, we have established management indicators*2 and set goals to be achieved by the fiscal year ending March 31, 2031, along with key initiatives to focus on, and are executing them to achieve our goals. Starting from the fiscal year ended March 31, 2025, we have established an advisory body to the Executive Council to deliberate on key issues related to people and organizations, thereby enhancing the alignment between business strategy and human capital strategy. Â 43 Table of Contents Â Â Â Perspective Â Human capital materialities Â Main themes medium- to long-term Â Activating associatesâ€™ intrinsic motivations and fostering the integration of diverse individuals Â 1. Evolution of people management skills and organizational revitalization that activates intrinsic motivation Â 2. Cultivate an organizational culture where diverse individuals can fuse and thrive short- to medium-term Â Ensuring both sufficiency of both quantity and quality of human resources in focus areas Â 3. Global management of human capital contributing to business strategy Â 4. Investment in human resource development to continuously create new value in emerging fields Â *1Â Materialities: We select â€œPriority Issuesâ€ by comprehensively analyzing social issues from the perspective of sustainability, aligning them with Hondaâ€™s strategic direction, and defining the particularly focused issues for each priority issue as â€œmaterialitiesâ€. *2Â Management indicators: KGIs for which the Board of Directors is responsible for supervision and KPIs for which the Executive Council is responsible for execution. Prior to the fiscal year ending March 2025, the scope of the indicators associated with the main themes was limited to Japan (the Company and its subsidiaries in Japan subject to labor contracts with our union), but from the fiscal year ending March 2026 onward, the scope is determined for each indicator based on our strategy, and categorized into Global (including the Company and its subsidiaries in Japan subject to labor contracts with our union and overseas consolidated subsidiaries) and Japan (the Company and its subsidiaries in Japan subject to labor contracts with our union). 2. Indicators and Targets (Human Capital materialities (Medium- to Long-Term Perspective): Activating associatesâ€™ intrinsic motivations and fostering the integration of diverse individuals) - Main theme 1. Evolution of people management skills and organizational revitalization that activates intrinsic motivation â€¢ Management indicator (KGI) and Achievement/Target Â Â KGI Â Â Scope Â Â Achievement Â Â Target Â Â FiscalÂ yearÂ endedMarch 31, 2025 Â Â FiscalÂ yearÂ endingMarch 31, 2026 Â Â FiscalÂ yearÂ endingMarch 31, 2031 Associate engagement scores Â Â Global Â Â PercentageÂ of positiveÂ responses 46%* Â Â PercentageÂ of positiveÂ responses 60% or more Â Â PercentageÂ of positiveÂ responses 65% or more Â * Currently, the scope of this indicator is global (including the Company and its subsidiaries in Japan subject to labor contracts with our union and overseas consolidated subsidiaries). However, through the fiscal year ended March 2025, the scope was limited to the Company and its subsidiaries in Japan subject to labor contracts with our union, and the achievement for that fiscal year only reflect that scope. â€¢ Concept behind Management Indicator (KGI) At Honda, to embody the Global Brand Slogan (GBS), we regard a high level of associatesâ€™ intrinsic motivation toward challenges and goals and managementâ€™s willingness to provide support as a â€œhigh engagement score,â€ and set our indicators accordingly. Â 44 Table of Contents â€¢ Calculation Formula The average percentage of positive responses (rated 4 or 5 on a 5-point scale) among all responses to the two questions in the annual associate survey conducted in each region addressing the level of associatesâ€™ intrinsic motivation and managementâ€™s willingness to support and encourage. Â - Main themes 2. Cultivate an organizational culture where diverse individuals can fuse and thrive â€¢ Management indicators (KPI) and Achievement/Target Â KPI Â Scope Â Achievement Â Target Â Fiscal year ended March 31, 2025 Â Fiscal year ending March 31, 2026 Â Fiscal year ending March 31, 2031 Inclusion score Â Global Â 3.67Â Points(5-pointÂ scale) Â â€” Â â€” Ratio of women in management positions Â Japan*1 Â 1.7Â timesÂ comparedÂ to Fiscal year ended March 31, 2021 Â 2.1Â timesÂ comparedÂ to Fiscal year ended March 31, 2021*2 Â 4.0Â timesÂ comparedÂ to Fiscal year ended March 31, 2021 Â *1Â Scope: The Company and its subsidiaries in Japan subject to labor contracts with our union *2Â To steadily advance initiatives for the active participation of women, we have reviewed our annual plans based on current achievements and revised the target for the fiscal year ending March 2026 from 3.0 times to 2.1 times. The target for the fiscal year ending March 2031 remains unchanged, and we will continue to promote efforts toward achieving this goal. â€¢ Concept behind Management Indicator (KPI) (Inclusion score) In order to realize inclusion of all associates at Honda, we have established a new inclusion score to measure its penetration in the workplace. (Ratio of women in management positions) In Japan, we are promoting the advancement of women and have set the ratio of women in management positions as a key indicator. We comply with the action plan stipulated under Japanâ€™s Act on the Promotion of Womenâ€™s Active Engagement in Professional Life (Act No. 64 of 2015). â€¢ Calculation Formula (Inclusion score) Average scores of responses to questions addressing acceptance of diversity, sense of belonging and individuality in the organization, and

psychological safety in the annual associate survey conducted in each region. Â 45 Table of Contents (Ratio of women in management positions) Multiples of the number of women in management positions in Japan as of the fiscal year ended March 31, 2021. Â (Human Capital materialities (Short- to Medium-term Perspective): Ensuring sufficiency of both quantity and quality of human resources in focus areas) - Main themes 3. Global management of human capital contributing to business strategy â€¢ Management indicator (KPI) and Achievement/Target Â KPI Â Scope Â Achievement Â Target Â FiscalÂ yearÂ ended MarchÂ 31, 2025 Â FiscalÂ yearÂ ending MarchÂ 31, 2026 Â FiscalÂ yearÂ ending MarchÂ 31, 2031 Human resource sufficiency rate in focus areas Â Global Â AnnualÂ sufficiency rate: 97% Â AnnualÂ sufficiency rate: 100% Â AnnualÂ sufficiency rate: 100% Â Â â€¢ Â Concept behind Management Indicator (KPI) This indicator is used to monitor the sufficiency status of required personnel in focus areas. Currently, in addition to software development personnelâ€”who have long been positioned as a focusâ€”we have also included battery-related personnel* in the scope. Targets are set based on the total number of required personnel for both categories, and initiatives are being implemented accordingly. Â * Various personnel involved in the battery lifecycle and the battery value chain Â Â â€¢ Â Calculation Formula Identify target organizations in focus areas and calculate the human resource sufficiency rate using the number of required personnel based on the business plan as the denominator, and the number of associates engaged in target organizations as the numerator. Â - Main themes 4. Investment in human resource development to continuously create new value in emerging fields Â Â â€¢ Â Management indicator (KPI) and Achievement/Target Â KPI Â Scope Â Achievement Â Target Â FiscalÂ yearÂ endedMarchÂ 31, 2025 Â FiscalÂ yearÂ ending MarchÂ 31, 2026 Â FiscalÂ yearÂ ending MarchÂ 31, 2031 Financial investmentin human resource development in focus areas Â Global Â NotÂ disclosed Â AttainingÂ the highestÂ global marketÂ standards. Â AttainingÂ theÂ highest global market standards. Â 46 Table of Contents Â â€¢ Â Concept behind Management Indicator (KPI) To achieve human resources sufficiency in focus areas and secure top-tier technological advantage in new fields, we are set to implement more investments in human resources development than ever before. Currently, we are building a talent development system for focus areas and deploying education programs tailored to different levels of expertise. We will continue to aggressively expand our investment. Â Â â€¢ Â Calculation Formula Investment in the above initiatives in focus areas Climate Change-related Disclosures (Response to the TCFD Recommendations) In treating responses to climate change and energy-related issues as crucial in the environmental field, in April 2021, Honda announced, its vision to â€œrealize carbon neutrality for all products and corporate activities Honda is involved in by 2050.â€ Hence, Honda has declared our support to the Task Force on Climate related Financial Disclosures (TCFD), established by the Financial Stability Board (FSB), as well as disclosing information based on the information disclosure framework recommended by the TCFD. 1. Governance Honda is promoting Group-wide efforts to realize a society with zero environmental impact throughout its life cycle. Hondaâ€™s long-term management policies and medium-term management plan are approved and resolved by the Executive Council (chaired by the Director, President, and Representative Executive Officer, and Chief Executive Officer) and the Board of Directors. The Board of Directors is the final supervisory body, covering actions to address climate change issues. The Executive Council deliberates in advance on matters to be resolved by the Board of Directors and discusses important management matters within the scope of authority delegated to it by the Board of Directors. In response to the need to address various risks associated with business activities and to oversee business operations for the sustainable development of society and Honda, Honda has designated knowledge in ESG and Sustainability, including ability in addressing climate change issues, as one of the necessary skills and appointed directors accordingly. Each Operation and Supervisory Unit and subsidiary formulates and promotes action plans and measures based on the company-wide long-term management policies and medium-term management plan, and important matters are reported and approved at the Executive Council as appropriate. Respective Business Operations and Regional Operations formulate action plans and promote measures based on the global medium- to long-term environmental policies, based on information shared at the Global Environmental Secretariat Meeting (Secretariat: Corporate Strategy Operations). Each of Regional Operations holds a Regional Environmental Meeting to promote the PDCA cycle within Regional Operations. Each of Business Operations monitors regional progress and promotes the PDCA cycle within Business Operations. The Corporate Strategy Operations monitors the progress at Business Operations and Regional Operations and considers revisions to the medium- to long-term environmental policies and targets as necessary. Important matters are reported and approved at the Executive Council and reported and resolved at the Board of Directors. For important cross-departmental issues such as addressing climate change issues, a cross-departmental task force is formed to consider and propose action plans and measures as appropriate, and important matters are reported and approved at the Executive Council. Compliance and risk management related to the environment, including climate change, are operated by the Companyâ€™s basic policies for the development of internal control systems. Â 47 Table of Contents Toward the realization of a society with zero environmental impact, Hondaâ€™s Board of Directors and Executive Council regularly monitor the progress of KGIs for which the Board of Directors is responsible for supervision and KPIs for which the Executive Council is responsible for execution, thereby reinforcing management governance. Please refer to Item 6 B. â€œCompensation.â€ for details of the executive remuneration system linked to financial and non-financial indicators. Â 2. Risk management Honda has established the Risk Management Committee to identify, check and discuss the status of company-wide priority risks which are deemed important for the entire corporate entity. â€œClimate change-related risksâ€ such as risks related to environmental regulations and natural disasters caused by climate change are also managed and monitored by the Committee, which leads to promoting more effective risk management activities while considering the characteristics of respective Operations. The Corporate Strategy Operations evaluates and identifies climate change-related risks by conducting scenario analysis in line with TCFD recommendations, reflecting external and internal risk information which includes company-wide priority risks. The results of the scenario analysis of climate change-related risks are shared with the Risk Management Committee. Climate change-related risks are mainly addressed by the Corporate Strategy Operations, Business Operations and Regional Operations as well as by each respective Operation, Supervisory Unit, subsidiary and cross-departmental task force. Important matters related to risk management including the responses to the climate change-related risks are discussed by the Committee, and details of their activities are reported to the Executive Council as appropriate. For more explanation of the risk assessment and management process, please refer to â€œConcepts and Approaches to Sustainabilityâ€”Governance and Risk Managementâ€. Â 48 Table of Contents 3. Strategy To achieve more sustainable corporate management, Honda identifies and evaluates short-, medium-, and long-term climate change-related risks and opportunities, reflects them in the corporate strategy, and promotes initiatives to generate new business opportunities through advancing Hondaâ€™s technologies, products and services. Honda will continue its efforts to enhance the corporate resilience. (Scenario Analysis Overview) To evaluate and examine the impacts of climate change on our business, Honda has defined multiple scenarios and conducted the scenario analysis noted in the TCFD recommendations. In the scenario analysis, Honda has set multiple scenarios including a scenario with significant policy transition which is based on the target laid out in the Paris Agreement â€œto limit the temperature increase to 1.5Â°C above pre-industrial levelsâ€ (1.5Â°C scenario) and a scenario where environmental regulations are not strengthened, leading to physical risks increase (4Â°C scenario). In the scenario analysis, Honda has examined climate-related risks and opportunities for motorcycle, automobile, and power products businesses in accordance with the classification of the TCFD recommendations and quantified the medium- to long-term financial impact under the scenario to the extent possible for evaluation and analysis. For the scenario analysis based on the TCFD recommendations, we primarily used the following scenarios. â€¢ 1.5Â°C scenario Honda refers to the NZE (Net Zero Emissions by 2050 Scenario) and APS (Announced Pledges Scenario) of the IEA (International Energy Agency) and the IPCC (Intergovernmental Panel on Climate Change) AR6 SSP1-1.9. As part of the 1.5Â°C scenario, Honda assumes that measures to achieve carbon neutrality by 2050 will be promoted across the world in the long-term and that the development and use of new technologies will promote the widespread use of carbon-free products and renewable energy. Additionally, we have assumed that the transition to a circular economy will accelerate. In the automobile industry, despite uncertainties due to policy changes, we assume even more stringent regulations on fuel efficiency and zero-emission vehicles (ZEVs) in the long-term, and, as a result, producing a rise in demand for electric vehicles (EVs) and fuel cell electric vehicles (FCEVs) â€” although mainly in developed countries. Furthermore, in the motorcycle, automobile, and power products businesses, we assume that customersâ€™ sense of value will shift, with an increasing number developing a preference for carbon-free products and services. â€¢ 4Â°C Scenario Honda has developed our 4Â°C scenario by using IPCC AR6 SSP3-7.0. In the 4Â°C scenario, we assume that irreversible environmental changes will occur, leading to more frequent and more severe natural disasters. Â 49 Table of Contents (Risks and Opportunities and Hondaâ€™s Responses*1) Â Â Â

current slowdown in EV demand; Honda plans to announce more details including the specific timing of the resumption of the project once finalized. In the fiscal year ended MarchÂ 31, 2023, Honda Development and Manufacturing of America LLC, which is one of the Companyâ€™s consolidated subsidiaries, announced its plan to re-tool three existing plants in Ohio, the United States, which are the Marysville Auto Plant and East Liberty Auto Plant for automobile production, and Anna Engine Plant for automobile powertrain production, to prepare for full-scaled production of EVs in the future. The production equipment in these plants is planned to start operation in 2026. Honda will evolve these plants as its EV Hub in the coming years. Furthermore, in order to secure stable battery procurement in North America, the Company established an unconsolidated joint venture to manufacture lithium-ion batteries for electric vehicles in the United States during the fiscal year ended MarchÂ 31, 2023. The joint venture began construction of a new battery plant early in 2023 and completed construction in 2024. All batteries produced by the new joint venture will be supplied exclusively to Honda plants in North America. For details, see â€œUnrecognized commitmentâ€ of note â€œ(30) Related Partiesâ€ to the accompanying consolidated financial statements. For information on Hondaâ€™s funding policies, see Item 5.B â€œLiquidity and Capital Resourcesâ€”Overview of Capital Requirements, Sources and Usesâ€. Itemâ€‰4A. Unresolved Staff Comments We do not have any unresolved written comments provided by the staff of the SEC regarding our periodic reports under the Securities Exchange Act of 1934. Itemâ€‰5. Operating and Financial Review and Prospects You should read the following discussion of our financial positions and operating results together with our consolidated financial statements included in this Annual Report. A. Operating Results Overview Honda aims to achieve a zero environmental impact of society of not only its products but also the entire product life cycle, including its corporate activities, and zero traffic collision fatalities involving our motorcycles and automobiles globally by 2050. For more details, please see Item 4. â€œInformation on the Companyâ€”B. Business Overviewâ€”Preparing for the Futureâ€”Management Policies and Strategies.â€ To achieve these goals, it will be essential to make investments strategically at the appropriate timing. We will leverage the stable business foundation of Motorcycle business and Financial services business as well as ICE/hybrid products in Automobile business. As we invest in the field of intelligence, we will further shift resources to the electric business, while carefully assessing the level of EV adoption in the market. Our business is subject to a severe economic and social environment, and our profitability depends on various factors. Since the inauguration of the new administration in the United States, there have been various policy changes, including the proposal or impression of additional tariffs, and we are closely monitoring these trends. For details of these social issues and the risks we are subject to, please see Item 4. â€œInformation on the Companyâ€”B. Business Overviewâ€”Preparing for the Futureâ€”Challenges to be Addressed Preferentiallyâ€ and Item 3.D â€œRisk Factors.â€ In the process of, or as a result of, dealing with such social issues and risks, our sales volumes may be affected and additional costs may be incurred, which may have a significant effect on our future profitability. Â 54 Table of Contents Business Environment The economic environment surrounding Honda, its consolidated subsidiaries and its affiliates accounted for under the equity method in the fiscal year ended MarchÂ 31, 2025, picked up as inflation started to level off, although the future outlook remained uncertain due to uncertain international situations, including the situations in Ukraine, the Middle East and the South China Sea, trade policies of various countries and others. In the United States, the economy expanded due to increased consumer spending despite continued concerns over high interest rates. In Europe, the economy showed signs of recovery in some areas while at a standstill in others. In Asia, the economy expanded in India despite at a slower pace of growth, and moderately recovered in Indonesia. Thailandâ€™s economy weakened in the second half of the fiscal year ended March 31, 2025, while economy remained stagnant in China. In Japan, the economy recovered moderately due to an improved employment and income conditions, although there were signs of a standstill in some sectors. The trends, uncertainties, demands, commitments and events identified below may continue or recur, impacting the Companyâ€™s future financial results. Overview of FYE Mar. 31, 2025 Operating Performance Hondaâ€™s consolidated sales revenue for the fiscal year ended MarchÂ 31, 2025, increased from the fiscal year ended MarchÂ 31, 2024, due mainly to increased sales revenue in Motorcycle business as well as positive foreign currency translation effects. Operating profit decreased from the previous fiscal year, due mainly to decreased profit attributable to sales impacts, increased research and development expenses as well as the change in the estimation model for automobile product warranties, which was partially offset by increased profit attributable to price and cost impacts. Motorcycle Business Hondaâ€™s consolidated unit sales of motorcycles, all-terrain vehicles (ATVs), and side-by-sides (SxS) in the fiscal year ended MarchÂ 31, 2025 totaled 13,685 thousand units, increased by 12.0% from the previous fiscal year, mainly due to the increases in consolidated unit sales primarily in India, Vietnam, the Philippines, which were offset by a decrease in consolidated unit sales in Thailand. Automobile Business Hondaâ€™s consolidated unit sales of automobiles in the fiscal year ended MarchÂ 31, 2025 totaled 2,840 thousand units, decreased by 0.6% from the previous fiscal year, mainly due to a decrease in consolidated unit sales primarily in Asia. Power Products and Other Businesses Hondaâ€™s consolidated unit sales of power products in the fiscal year ended MarchÂ 31, 2025 totaled 3,700 thousand units, decreased by 2.9% from the previous fiscal year, mainly due to a decrease in consolidated unit sales primarily in Europe, which was offset by an increase in consolidated unit sales in Asia. FYE Mar. 31, 2025 Compared with FYE Mar. 31, 2024 Sales Revenue Hondaâ€™s consolidated sales revenue for the fiscal year ended MarchÂ 31, 2025, increased by Â¥1,259.9Â billion, or 6.2%, to Â¥21,688.7Â billion from the fiscal year ended MarchÂ 31, 2024, due mainly to increased sales revenue in Motorcycle business as well as positive foreign currency translation effects. Honda estimates that by applying Japanese yen exchange rates of the previous fiscal year to the current fiscal year, sales revenue for the year would have increased by approximately Â¥623.3Â billion, or 3.1%, compared to the increase as reported of Â¥1,259.9Â billion, which includes positive foreign currency translation effects. Â 55 Table of Contents Operating Costs and Expenses Operating costs and expenses increased by Â¥1,428.4 billion, or 7.5%, to Â¥20,475.2 billion from the previous fiscal year. Cost of sales increased by Â¥1,008.1 billion, or 6.3%, to Â¥17,024.7 billion from the previous fiscal year, due mainly to increased costs attributable to increased consolidated sales revenue in Motorcycle business as well as foreign currency effects. Selling, general and administrative expenses increased by Â¥244.4 billion, or 11.6%, to Â¥2,351.0 billion from the previous fiscal year, due mainly to increased expenses as well as the change in the estimation model for automobile product warranties. In addition, the change in the estimation model for automobile product warranties amounted to Â¥127.6 billion. For further detail, see note â€œ(17) Provisionsâ€ to the accompanying consolidated financial statements for a description of the change in the estimation model for automobile product warranties. Research and development expenses increased by Â¥175.8 billion, or 19.0%, to Â¥1,099.4 billion from the previous fiscal year. Operating Profit Operating profit decreased by Â¥168.4 billion, or 12.2%, to Â¥1,213.4 billion from the previous fiscal year, due mainly to decreased profit attributable to sales impacts, increased research and development expenses as well as the change in the estimation model for automobile product warranties, which was partially offset by increased profit attributable to price and cost impacts. Honda estimates that by excluding negative foreign currency effects of approximately Â¥93.6 billion, operating profit would have decreased by approximately Â¥74.8 billion. With respect to the discussion above of the changes, management identified factors and used what it believes to be a reasonable method to analyze the respective changes in such factors. Management analyzed changes in these factors at the levels of the Company and its material consolidated subsidiaries. (1) â€œForeign currency effectsâ€ consist of â€œtranslation adjustmentsâ€, which come from the translation of the currency of foreign subsidiariesâ€™ financial statements into Japanese yen, and â€œforeign currency adjustmentsâ€, which result from foreign-currency-denominated transaction. With respect to â€œforeign currency adjustmentsâ€, management analyzed foreign currency adjustments primarily related to the following currencies: U.S. dollar, Japanese yen and others at the level of the Company and its material consolidated subsidiaries. (2) With respect to â€œprice and cost impactsâ€, management analyzed effects of changes in sales price, cost reductions, effects of raw material cost fluctuations and others, excluding foreign currency effects. (3) With respect to â€œsales impactsâ€, management analyzed changes in sales volume and mix of product models sold that resulted in increases/decreases in profit, changes in sales revenue of Financial services business that resulted in increases/decreases in profit as well as certain other reasons for increases/decreases in sales revenue and cost of sales, excluding foreign currency effects. (4) With respect to â€œexpensesâ€, management analyzed reasons for an increase/decrease in selling, general and administrative expenses from the previous fiscal year excluding foreign currency translation effects. (5) With respect to â€œResearch and Development expensesâ€, management analyzed reasons for an increase/decrease in research and development expenses from the previous fiscal year excluding foreign currency translation effects. The estimates excluding the foreign currency effects are not on the same basis as Hondaâ€™s consolidated financial statements, and do not conform to IFRS. Furthermore, Honda does not believe that these measures are substitute for the disclosure required by IFRS. However, Honda believes that such estimates excluding the foreign currency effects provide financial statements users with additional useful information for understanding Hondaâ€™s results. Â 56 Table of Contents Profit before Income Taxes Profit before income taxes decreased by Â¥324.7 billion, or 19.8%, to Â¥1,317.6 billion from the previous fiscal year. The main factors behind this decrease, except factors relating to operating profit, are as follows: Share of profit (loss) of investments accounted for using the equity method had a negative impact of Â¥109.8Â billion, due mainly to decreased profit at affiliates and joint ventures in Asia. Finance income and finance costs had a negative impact of Â¥46.4 billion, due mainly to effect from gains or losses on foreign exchange, which was partially offset by increased interest income. For further details, see note â€œ(22) Finance Income and Finance Costsâ€ to the accompanying consolidated financial statements. Income Tax Expense Income tax expense decreased by Â¥45.1 billion, or 9.8%, to Â¥414.6 billion from the previous fiscal year. The average effective tax rate increased by 3.5 percentage points to 31.5% from the previous fiscal year. For further details, see â€œ(a) Income Tax Expenseâ€ of note â€œ(23) Income Taxesâ€ to the accompanying consolidated financial statements. Profit for the Year Profit for the year decreased by Â¥279.5 billion, or 23.6%, to Â¥903.0 billion from the previous fiscal year. Profit for the Year Attributable to Owners of the Parent Profit for the year attributable to owners of the parent decreased by Â¥271.3 billion, or 24.5%, to Â¥835.8Â billion from the previous fiscal year. Profit for the Year Attributable to Non-controlling Interests Profit for the year attributable to non-controlling interests decreased by Â¥8.2 billion, or 10.9%, to Â¥67.1Â billion from the previous fiscal year. Business Segments Motorcycle Business Hondaâ€™s consolidated unit sales of motorcycles, all-terrain vehicles (ATVs) and side-by-sides (SxS) totaled 13,685 thousand units, increased by 12.0% from the previous fiscal year, due mainly to increased consolidated unit sales in Asia. Sales revenue from external customers increased by Â¥406.4 billion, or 12.6%, to Â¥3,626.6 billion from the previous fiscal year, due mainly to increased consolidated unit sales. Despite changes in sales price, the impact of the price changes was immaterial on sales revenue. Honda estimates that by applying Japanese yen exchange rates of the previous fiscal year to the current fiscal year, sales revenue for the year would have increased by approximately Â¥440.7 billion, or 13.7%, compared to the increase as reported of Â¥406.4 billion, which includes negative foreign currency translation effects. Operating costs and expenses increased by Â¥299.2 billion, or 11.2%, to Â¥2,963.1 billion from the previous fiscal year. Cost of sales increased by Â¥267.2 billion, or 12.0%, to Â¥2,493.0 billion, due mainly to an increase in costs attributable to increased consolidated unit sales as well as foreign currency effects. Selling, general and administrative expenses increased by Â¥8.9 billion, or 2.5%, to Â¥365.4 billion, due mainly to increased expenses. Research and development expenses increased by Â¥22.9 billion, or 28.1%, to Â¥104.6 billion. Â 57 Table of Contents Operating profit increased by Â¥107.2 billion, or 19.3%, to Â¥663.4 billion from the previous fiscal year, due mainly to increased profit attributable to price and cost impacts, which was partially offset by negative foreign currency effects. Japan Total demand for motorcycles in Japan* decreased by around 6% from the previous fiscal year to approximately 370 thousand units in the fiscal year ended MarchÂ 31, 2025. Hondaâ€™s consolidated unit sales in Japan decreased by 7.1% from the previous fiscal year to 224 thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to the decreases in sales units of the Dax125 and CT125Â Hunter Cub, despite an increase in sales units of the Super Cub 50. Â *Â Source: JAMA (Japan Automobile Manufacturers Association) North America Total demand for motorcycles and all-terrain vehicles (ATVs) in the United States*, the principal market within North America, decreased by around 4% from the previous year to approximately 700 thousand units in calendar year 2024. Hondaâ€™s consolidated unit sales in North America increased by 10.0% from the previous fiscal year to 548Â thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to an increase in sales units of the Navi primarily in Mexico. Â *Â Source: MIC (Motorcycle Industry Council) â€‰ The total includes motorcycles and ATVs, but does not include side-by-sides (SxS). Europe Total demand for motorcycles in Europe*1 increased by around 5% from the previous year to approximately 1,240 thousand units in calendar year 2024. Hondaâ€™s consolidated unit sales in Europe increased by 8.0% from the previous fiscal year to 475 thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to an increase in sales units of the PCX. Â *1Â Based on Honda research. Only includes the following 10 countries: the United Kingdom, Germany, France, Italy, Spain, Switzerland, Portugal, the Netherlands, Belgium, and Austria. The total includes ICE vehicles, but does not include EVs, EMs and EBs*2. *2Â EM: Electric Moped with a maximum speed ranging from 25km/h to 50km/h â€‰ EB: Electric Bicycle with a maximum speed of 25 km/h or slower â€‰ Excluding battery-assisted bicycles Asia Total demand for motorcycles in India*1, the largest market within Asia, increased by around 15% from the previous year to approximately 19,160 thousand units in calendar year 2024. Total demand for motorcycles in the other countries in Asia*2 decreased by around 1% from the previous year to approximately 18,210 thousand units in calendar year 2024, mainly due to a decrease in sales units in China, which was offset by an increase in sales units in Indonesia. Hondaâ€™s consolidated unit sales in Asia increased by 12.5% from the previous fiscal year to 10,591 thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to the increases in sales units of the Activa and SP series in India. Â 58 Table of Contents Hondaâ€™s consolidated unit sales do not include sales by P.T. Astra Honda Motor in Indonesia, which is accounted for using the equity method. Unit sales increased by around 3% from the previous fiscal year to approximately 4,910 thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to the increases in sales units of the Stylo 160 and PCX. Â *1Â Based on Honda research. The total includes ICE vehicles, but does not include EVs, EMs and EBs. *2Â Based on Honda research. Only includes the following seven countries: Thailand, Indonesia, Malaysia, the Philippines, Vietnam, Pakistan, and China. The total includes ICE vehicles, but does not include EVs, EMs and EBs. Other Regions Total demand for motorcycles in Brazil*, the principal market within Other Regions, increased by around 12% from the previous year to approximately 1,710 thousand units in calendar year 2024. Hondaâ€™s consolidated unit sales increased by 13.7% from the previous fiscal year to 1,847 thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to the increases in sales units of the Biz series and the PopÂ 110iÂ ES in Brazil. Â *Â Source: ABRACICLO (Brazilian Association of Manufacturers of Motorcycle, Moped, Bicycles and Similar) Automobile Business Hondaâ€™s consolidated unit sales of automobiles totaled 2,840 thousand units, decreased by 0.6% from the previous fiscal year, due mainly to decreased consolidated unit sales in Asia. Sales revenue from external customers increased by Â¥601.6 billion, or 4.4%, to Â¥14,169.2 billion from the previous fiscal year, due mainly to positive foreign currency translation effects. Despite changes in sales price, the impact of the price changes was immaterial on sales revenue. Honda estimates that by applying Japanese yen exchange rates of the previous fiscal year to the current fiscal year, sales revenue for the year would have increased by approximately Â¥82.0 billion, or 0.6%, compared to the increase as reported of Â¥601.6 billion, which includes positive foreign currency translation effects. Sales revenue including intersegment sales increased by Â¥676.3 billion, or 4.9%, to Â¥14,467.8 billion from the previous fiscal year. Operating costs and expenses increased by Â¥993.1 billion, or 7.5%, to Â¥14,224.0 billion from the previous fiscal year. Cost of sales increased by Â¥645.9 billion, or 5.9%, to Â¥11,555.9 billion, due mainly to foreign currency effects. Selling, general and administrative expenses increased by Â¥200.5 billion, or 13.3%, to Â¥1,707.1Â billion, due mainly to an increase in expenses as well as the change in the estimation model for automobile product warranties. Research and development expenses increased by Â¥146.6 billion, or 18.0%, to Â¥960.9 billion. Operating profit decreased by Â¥316.7 billion, or 56.5%, to Â¥243.8 billion from the previous fiscal year, due mainly to decreased profit attributable to sales impacts, increased research and development expenses as well as the change in the estimation model for automobile product warranties, which was partially offset by increased profit attributable to price and cost impacts. Â 59 Table of Contents Proportion of retail unit sales by vehicle category and principal automobile products: Â Â Â Fiscal year endedMarchÂ 31, Â Â Â 2024 Â Â 2025 Â Passenger cars: Â Â 39 %Â Â Â 36 %Â ACCORD, CITY, CIVIC, FIT, INTEGRA, JAZZ Â Â Light trucks: Â Â 54 %Â Â Â 56 %Â BREEZE, CR-V, ELEVATE, FREED, HR-V, ODYSSEY, PILOT, VEZEL, WR-V, ZR-V Â Â Mini vehicles: Â Â 7 %Â Â Â 8 %Â N-BOX Â Â Although there are various factors that affect the profitability of each vehicle category, sales price is an important factor in determining profitability. In general, the weighted average sales price in the light trucks category is higher relative to the total average sales price, while the weighted average sales price in the mini vehicles category, which is unique to the Japanese market, is relatively lower, although sales price varies from model to model. In general, the contribution margin of the light trucks category tends to be higher relative to the total weighted average contribution margin because the sales price is higher, while the contribution margin of the mini vehicles category tends to be relatively lower because the sales price is lower, although the level of contribution margin varies from model to model. For example, in Japan and the United States, which are the main sales markets for our automobiles, the contribution margin of our light trucks category and passenger cars category were approximately 10% higher, and our mini vehicles category was approximately 70% lower compared with weighted average contribution margin for the fiscal year ended MarchÂ 31, 2025. It should be noted that we define contribution margin as an amount per unit of net sales minus material cost, which is thought to increase in almost direct proportion to net sales volume. Japan Total demand for automobiles in Japan*1 increased by around 1% from the previous fiscal year to approximately 4,570Â thousand units in the fiscal year ended MarchÂ 31, 2025. Hondaâ€™s consolidated unit sales in Japan*2 increased by 2.7% from the previous fiscal year to 539 thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to

an increase in sales units of the WR-V. Hondaâ€™s unit production of automobiles in Japan decreased by 2.0% from the previous fiscal year to 693Â thousand units in the fiscal year ended MarchÂ 31, 2025. Â *1Â Source: JAMA (Japan Automobile Manufacturers Association), as measured by the number of regular vehicle registrations (661cc or higher) and mini vehicles (660cc or lower) *2Â Certain sales of automobiles that are financed with residual value type auto loans and others by our Japanese finance subsidiaries and provided through our consolidated subsidiaries are accounted for as operating leases in conformity with IFRS and are not included in consolidated sales revenue to external customers in the Automobile business. Accordingly, they are not included in consolidated unit sales. North America Total demand for automobiles in the United States*, the principal market within North America, increased by around 3% from the previous year to approximately 16,040 thousand units in calendar year 2024. Â 60 Table of Contents Hondaâ€™s consolidated unit sales in North America increased by 1.6% from the previous fiscal year to 1,654Â thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to the increases in sales units of the PROLOGUE and CIVIC. Hondaâ€™s unit production of automobiles in North America increased by 0.6% from the previous fiscal year to 1,608 thousand units in the fiscal year ended MarchÂ 31, 2025. Â *Â Source: Autodata Europe Total demand for automobiles in Europe* increased by around 1% from the previous year to approximately 12,960 thousand units in calendar year 2024. Hondaâ€™s consolidated unit sales in Europe decreased by 9.7% from the previous fiscal year to 93 thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to a decrease in sales units of the ZR-V. Â *Â Source: ACEA (Association des Constructeurs Europeens dâ€™Automobiles (the European Automobile Manufacturersâ€™ Association)) New passenger car registrations cover 27 EU countries, three EFTA countries, and the U.K. Asia Total demand for automobiles in Asia*1 increased by around 1% from the previous year to approximately 8,900Â thousand units in calendar year 2024, mainly due to the increases in demand in India and the Philippines, which were offset by the decreases in Thailand and Indonesia. Total demand for automobiles in China*2 increased by around 4% from the previous year to approximately 31,430 thousand units in calendar year 2024. Hondaâ€™s consolidated unit sales in Asia decreased by 15.2% from the previous fiscal year to 397 thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to the decreases in sales units of the BR-V and WR-V in Indonesia. Hondaâ€™s consolidated unit sales do not include unit sales of Dongfeng Honda Automobile Co., Ltd. and GAC Honda Automobile Co., Ltd., both of which are joint ventures accounted for using the equity method in China. Unit sales substantially decreased by 33.7% from the previous fiscal year to 786 thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to a decrease in sales units of the CIVIC. Hondaâ€™s unit production by consolidated subsidiaries in Asia*3 decreased by 14.8% from the previous fiscal year to 476 thousand units in the fiscal year ended MarchÂ 31, 2025. Meanwhile, unit production by Chinese joint ventures Dongfeng Honda Automobile Co., Ltd. and GAC Honda Automobile Co., Ltd. substantially decreased by 33.9% from the previous fiscal year to 768Â thousand units in the fiscal year ended MarchÂ 31, 2025. Â *1Â The total is based on Honda research and includes the following markets: Thailand, Indonesia, Malaysia, the Philippines, Vietnam, India, Pakistan, and Taiwan. *2Â Source: CAAM (China Association of Automobile Manufacturers) *3Â The total includes the following markets: Thailand, Indonesia, Malaysia, Vietnam, India, Pakistan, and Taiwan. Other Regions Total demand for automobiles in Brazil*, the principal market within Other Regions, increased by around 14% from the previous year to approximately 2,480 thousand units in calendar year 2024. Â 61 Table of Contents Hondaâ€™s consolidated unit sales increased by 18.9% from the previous fiscal year to 157 thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to an increase in sales units of the CITY in Brazil. Unit production at Hondaâ€™s plant in Brazil substantially increased by 27.0% from the previous fiscal year to 99 thousand units in the fiscal year ended MarchÂ 31, 2025. Â *Â Source: ANFAVEA (AssociaÃ§Ã£o Nacional dos Fabricantes de Veiculos Automotores (the Brazilian Automobile Association)) The total includes passenger cars and light commercial vehicles. Financial Services Business To support the sale of its products, Honda provides retail lending and leasing to customers and wholesale financing to dealers through its finance subsidiaries in Japan, the United States, Canada, the United Kingdom, Germany, Brazil and Thailand. Total amount of receivables from financial services and equipment on operating leases of finance subsidiaries on MarchÂ 31, 2025, increased by Â¥1,298.7 billion, or 9.7%, to Â¥14,676.8 billion from MarchÂ 31, 2024. Honda estimates that by applying Japanese yen exchange rates as of MarchÂ 31, 2024, total amount of receivables from financial services and equipment on operating leases of finance subsidiaries as of MarchÂ 31, 2025 would have increased by approximately Â¥1,561.3 billion, or 11.7%, from MarchÂ 31, 2024. Sales revenue from external customers increased by Â¥258.9 billion, or 8.0%, to Â¥3,507.7 billion from the previous fiscal year, due mainly to increased revenue from retail loans as well as positive foreign currency translation effects. Honda estimates that by applying Japanese yen exchange rates of the previous fiscal year to the current fiscal year, sales revenue for the year would have increased by approximately Â¥115.9 billion, or 3.6%, compared to the increase as reported of Â¥258.9 billion, which includes positive foreign currency translation effects. Sales revenue including intersegment sales increased by Â¥260.4 billion, or 8.0%, to Â¥3,512.2 billion from the previous fiscal year. Operating costs and expenses increased by Â¥218.7 billion, or 7.3%, to Â¥3,196.5 billion from the previous fiscal year. Cost of sales increased by Â¥179.7 billion, or 6.4%, to Â¥2,985.1 billion from the previous fiscal year, due mainly to an increase in costs attributable to increased revenue from retail loans as well as foreign currency effects. Selling, general and administrative expenses increased by Â¥39.0 billion, or 22.7%, to Â¥211.4 billion from the previous fiscal year, due mainly to increased expenses. Operating profit increased by Â¥41.6 billion, or 15.2%, to Â¥315.6 billion from the previous fiscal year, due mainly to increased sales revenue. Power Products and Other Businesses Hondaâ€™s consolidated unit sales of power products totaled 3,700 thousand units, decreased by 2.9% from the previous fiscal year, due mainly to decreased consolidated unit sales in Europe, which was partially offset by increased consolidated unit sales in Asia. Sales revenue from external customers decreased by Â¥7.1 billion, or 1.8%, to Â¥385.1 billion from the previous fiscal year, due mainly to decreased consolidated unit sales. Honda estimates that by applying Japanese yen exchange rates of the previous fiscal year to the current fiscal year, sales revenue for the year would have decreased by approximately Â¥15.2 billion, or 3.9%, compared to the decrease as reported of Â¥7.1 billion, which includes positive foreign currency translation effects. Sales revenue including intersegment sales decreased by Â¥7.7 billion, or 1.8%, to Â¥414.6 billion from the previous fiscal year. Operating costs and expenses decreased by Â¥7.1 billion, or 1.7%, to Â¥424.0 billion from the previous fiscal year. Cost of sales decreased by Â¥9.2 billion, or 2.8%, to Â¥323.2 billion, due mainly to a decrease in costs Â 62 Table of Contents attributable to decreased consolidated unit sales in Power products business. Selling, general and administrative expenses decreased by Â¥4.0 billion, or 5.7%, to Â¥66.9 billion, due mainly to decreased expenses. Research and development expenses increased by Â¥6.1 billion, or 22.4%, to Â¥33.8 billion from the previous fiscal year. Operating loss was Â¥9.4 billion, an increase of Â¥0.5 billion from the previous fiscal year, due mainly to decreased profit attributable to sales impacts as well as negative foreign currency effects, which was partially offset by increased profit attributable to price and cost impacts. In addition, operating loss of aircraft and aircraft engines included in Power products and other businesses was Â¥38.8 billion, an increase of Â¥5.9 billion from the previous fiscal year. Japan Hondaâ€™s consolidated unit sales in Japan decreased by 7.9% from the previous fiscal year to 278 thousand units in the fiscal year ended March 31, 2025, mainly due to a decrease in sales units of generators. North America Hondaâ€™s consolidated unit sales in North America decreased by 5.8% from the previous fiscal year to 1,020 thousand units in the fiscal year ended March 31, 2025, mainly due to a decrease in sales units of lawn mowers. Europe Hondaâ€™s consolidated unit sales in Europe decreased by 18.0% from the previous fiscal year to 651 thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to a decrease in sales units of OEM engines*. Â *Â OEM (Original Equipment Manufacturer) engines refer to engines installed on products sold under a third-party brand. Asia Hondaâ€™s consolidated unit sales in Asia increased by 9.2% from the previous fiscal year to 1,413 thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to an increase in sales units of OEM engines. Other Regions Hondaâ€™s consolidated unit sales in Other Regions decreased by 0.3% from the previous fiscal year to 338 thousand units in the fiscal year ended MarchÂ 31, 2025, mainly due to a decrease in sales units of OEM engines. Geographical Information Based on the Location of the Company and Its Subsidiaries As of and for the year ended MarchÂ 31, 2024 Â Â Â Â Yen (millions) Â Â Â Japan Â Â NorthAmerica Â Â Europe Â Â Asia Â Â OtherRegions Â Â Total Â Â ReconcilingItems Â Â Consolidated Â Sales revenue Â Â¥ 5,392,760 Â Â Â¥ â€‚12,073,777 Â Â Â¥ 966,320 Â Â Â¥ 5,009,961 Â Â Â¥ â€‚1,081,946 Â Â Â¥ 24,524,764 Â Â Â¥ (4,095,962)Â Â Â¥ 20,428,802 Â Â Â Â

13.8%, to Â¥556.2Â billion from the previous fiscal year, due mainly to increased profit attributable to price and cost impacts, which was partially offset by increased expenses including product warranty expenses. Japan Total demand for motorcycles in Japan* decreased by around 3% from the previous fiscal year to approximately 390Â thousand units in the fiscal year ended MarchÂ 31, 2024. Hondaâ€™s consolidated unit sales in Japan decreased by 2.0% from the previous fiscal year to 241Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to the decreases in sales units of the PCX and Giorno, despite the effects of launching the new CL 250. Â *Â Source: JAMA (Japan Automobile Manufacturers Association) North America Total demand for motorcycles and all-terrain vehicles (ATVs) in the United States*, the principal market within North America, increased by around 1% from the previous year to approximately 730Â thousand units in calendar year 2023. Hondaâ€™s consolidated unit sales in North America increased by 8.5% from the previous fiscal year to 498Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to an increase in sales units of the Navi primarily in Mexico. Â *Â Source: MIC (Motorcycle Industry Council) The total includes motorcycles and ATVs, but does not include side-by-sides (SxS). Europe Total demand for motorcycles in Europe*1 increased by around 10% from the previous year to approximately 1,180Â thousand units in calendar year 2023. Hondaâ€™s consolidated unit sales in Europe substantially increased by 26.8% from the previous fiscal year to 440Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to the increases in sales units of the XL750 TRANSALP and CB750 HORNET. Â *1Â Based on Honda research. Only includes the following 10 countries: the United Kingdom, Germany, France, Italy, Spain, Switzerland, Portugal, the Netherlands, Belgium, and Austria. The total includes ICE vehicles, but does not include EVs, EMs and EBs*2. Â 67 Table of Contents *2Â EM: Electric Moped with a maximum speed ranging from 25km/h to 50km/h â€‰ EB: Electric Bicycle with a maximum speed of 25 km/h or slower â€‰ Excluding battery-assisted bicycles Asia Total demand for motorcycles in India*1, the largest market within Asia, increased by around 8% from the previous year to approximately 16,610Â thousand units in calendar year 2023. Total demand for motorcycles in other countries in Asia*2 decreased by around 4% from the previous year to approximately 18,470Â thousand units in calendar year 2023, mainly due to a decrease in sales units in Pakistan, which was offset by an increase in sales units in Indonesia. Hondaâ€™s consolidated unit sales in Asia decreased by 1.0% from the previous fiscal year to 9,416Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to the decreases in sales units of the Air Blade and Wave series in Vietnam. Hondaâ€™s consolidated unit sales do not include sales by P.T. Astra Honda Motor in Indonesia, which is accounted for using the equity method. Unit sales increased by around 7% from the previous fiscal year to approximately 4,770Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to the increases in sales units of the BeAT series and PCX. Â *1Â Based on Honda research. The total includes ICE vehicles, but does not include EVs, EMs and EBs. *2Â Based on Honda research. Only includes the following seven countries: Thailand, Indonesia, Malaysia, the Philippines, Vietnam, Pakistan, and China. The total includes ICE vehicles, but does not include EVs, EMs and EBs. Other Regions Total demand for motorcycles in Brazil*, the principal market within Other Regions, increased by around 13% from the previous year to approximately 1,530Â thousand units in calendar year 2023. Hondaâ€™s consolidated unit sales increased by 1.7% from the previous fiscal year to 1,624Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to the increases in sales units of the Biz and PCX series in Brazil. Â *Â Source: ABRACICLO (Brazilian Association of Manufacturers of Motorcycle, Moped, Bicycles and Similar) Automobile Business Hondaâ€™s consolidated unit sales of automobiles totaled 2,856Â thousand units, increased by 19.9% from the previous fiscal year, due mainly to increased consolidated unit sales in North America. Sales revenue from external customers increased by Â¥2,974.0Â billion, or 28.1%, to Â¥13,567.5Â billion from the previous fiscal year, due mainly to increased consolidated unit sales. Despite changes in sales price, the impact of the price changes was immaterial on sales revenue. Honda estimates that by applying Japanese yen exchange rates of the previous fiscal year to the current fiscal year, sales revenue for the year would have increased by approximately Â¥2,330.5Â billion, or 22.0%, compared to the increase as reported of Â¥2,974.0Â billion, which includes positive foreign currency translation effects. Sales revenue including intersegment sales increased by Â¥3,009.7billion, or 27.9%, to Â¥13,791.5Â billion from the previous fiscal year. Operating costs and expenses increased by Â¥2,432.5Â billion, or 22.5%, to Â¥13,230.8Â billion from the previous fiscal year. Cost of sales increased by Â¥2,131.7Â billion, or 24.3%, to Â¥10,909.9Â billion, due mainly to an Â 68 Table of Contents increase in costs attributable to increased consolidated unit sales. Selling, general and administrative expenses increased by Â¥268.3Â billion, or 21.7%, to Â¥1,506.5Â billion, due mainly to increased expenses. Research and development expenses increased by Â¥32.4Â billion, or 4.1%, to Â¥814.2Â billion. Operating profit was Â¥560.6Â billion, an increase of Â¥577.2Â billion from the previous fiscal year, due mainly to an increase in profit attributable to price and cost impacts as well as sales impacts, which was partially offset by increased expenses. Proportion of retail unit sales by vehicle category and principal automobile products: Â Â Â Fiscal year endedMarchÂ 31, Â Â Â 2023 Â Â 2024 Â Passenger cars: Â Â 42 %Â Â Â 39 %Â ACCORD, CITY, CIVIC, FIT, INTEGRA, JAZZ Â Â Light trucks: Â Â 50 %Â Â Â 54 %Â BREEZE, CR-V, FREED, HR-V, ODYSSEY, PILOT, VEZEL, ZR-V Â Â Mini vehicles: Â Â 8 %Â Â Â 7 %Â N-BOX Â Â Although there are various factors that affect the profitability of each vehicle category, sales price is an important factor in determining profitability. In general, the weighted average sales price in the light trucks category is higher relative to the total average sales price, while the weighted average sales price in the mini vehicles category, which is unique to the Japanese market, is relatively lower, although sales price varies from model to model. In general, the contribution margin of the light trucks category tends to be higher relative to the total weighted average contribution margin because the sales price is higher, while the contribution margin of the mini vehicles category tends to be relatively lower because the sales price is lower, although the level of contribution margin varies from model to model. For example, in Japan and the United States, which are the main sales markets for our automobiles, the contribution margin of our light trucks category was approximately 20% higher, our passenger cars category was at an equivalent level and our mini vehicles category was approximately 65% lower compared with weighted average contribution margin for the fiscal year ended MarchÂ 31, 2024. It should be noted that we define contribution margin as an amount per unit of net sales minus material cost, which is thought to increase in almost direct proportion to net sales volume. Japan Total demand for automobiles in Japan*1 increased by around 3% from the previous fiscal year to approximately 4,520Â thousand units in the fiscal year ended MarchÂ 31, 2024. Hondaâ€™s consolidated unit sales in Japan*2 increased by 8.5% from the previous fiscal year to 525Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to the effects of launching the new ZR-V and an increase in sales units of the VEZEL. Hondaâ€™s unit production of automobiles in Japan increased by 9.9% from the previous fiscal year to 707Â thousand units in the fiscal year ended MarchÂ 31, 2024. Â *1Â Source: JAMA (Japan Automobile Manufacturers Association), as measured by the number of regular vehicle registrations (661cc or higher) and mini vehicles (660cc or lower) *2Â Certain sales of automobiles that are financed with residual value type auto loans and others by our Japanese finance subsidiaries and provided through our consolidated subsidiaries are accounted for as operating leases in conformity with IFRS and are not included in consolidated sales revenue to external customers in the Automobile business. Accordingly, they are not included in consolidated unit sales. Â 69 Table of Contents North America Total demand for automobiles in the United States*, the principal market within North America, increased by around 12% from the previous year to approximately 15,600Â thousand units in calendar year 2023. Hondaâ€™s consolidated unit sales in North America substantially increased by 36.2% from the previous fiscal year to 1,628Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to the increases in sales units of the CR-V and CIVIC. Hondaâ€™s unit production of automobiles in North America substantially increased by 28.1% from the previous fiscal year to 1,600Â thousand units in the fiscal year ended MarchÂ 31, 2024. Â *Â Source: Autodata Europe Total demand for automobiles in Europe* increased by around 14% from the previous year to approximately 12,840Â thousand units in calendar year 2023. Hondaâ€™s consolidated unit sales in Europe substantially increased by 22.6% from the previous fiscal year to 103Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to the effects of launching the new ZR-V and an increase in sales units of the HR-V. Â *Â Source: ACEA (Association des Constructeurs Europeens dâ€™Automobiles (the European Automobile Manufacturersâ€™ Association)) New passenger car registrations cover 27 EU countries, three EFTA countries, and the U.K. Asia Total demand for automobiles in Asia*1 increased by around 6% from the previous year to approximately 8,850Â thousand units in calendar year 2023, mainly due to the increases in demand in India and Malaysia. Total demand for automobiles in China*2 increased by around 12% from the previous year to approximately 30,090Â thousand units in calendar year 2023. Hondaâ€™s consolidated unit sales in Asia decreased by 7.3% from the previous fiscal year to 468Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to the decreases in sales units of the BRIO and BR-V in Indonesia. Hondaâ€™s consolidated unit sales do not include unit sales of Dongfeng Honda Automobile Co., Ltd. and GAC Honda Automobile Co., Ltd., both of which are joint ventures accounted for using the equity method in China. Unit sales decreased by 4.4% from the previous fiscal year to 1,185Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to the decreases in sales units of the ACCORD and VEZEL. Hondaâ€™s unit production by consolidated subsidiaries in Asia*3 increased by 0.5% from the previous fiscal year to 559Â thousand units in the fiscal year ended MarchÂ 31, 2024. Meanwhile, unit production by Chinese joint ventures Dongfeng Honda Automobile Co., Ltd. and GAC Honda Automobile Co., Ltd. decreased by 11.0% from the previous fiscal year to 1,163Â thousand units in the fiscal year ended MarchÂ 31, 2024. Â *1Â The total is based on Honda research and includes the following markets: Thailand, Indonesia, Malaysia, the Philippines, Vietnam, India, Pakistan, and Taiwan. *2Â Source: CAAM (China Association of Automobile Manufacturers) *3Â The total includes the following markets: Thailand, Indonesia, Malaysia, Vietnam, India, Pakistan, and Taiwan. Â 70 Table of Contents Other Regions Total demand for automobiles in Brazil*, the principal market within Other Regions, increased by around 11% from the previous year to approximately 2,180Â thousand units in calendar year 2023. Hondaâ€™s consolidated unit sales increased by 15.8% from the previous fiscal year to 132Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to an increase in sales units of the HR-V in Brazil. Unit production at Hondaâ€™s plant in Brazil increased by 17.4% from the previous fiscal year to 77Â thousand units in the fiscal year ended MarchÂ 31, 2024. Â *Â Source: ANFAVEA (AssociaÃ§Ã£o Nacional dos Fabricantes de Veiculos Automotores (the Brazilian Automobile Association)) The total includes passenger cars and light commercial vehicles. Financial Services Business To support the sale of its products, Honda provides retail lending and leasing to customers and wholesale financing to dealers through its finance subsidiaries in Japan, the United States, Canada, the United Kingdom, Germany, Brazil and Thailand. Total amount of receivables from financial services and equipment on operating leases of finance subsidiaries on MarchÂ 31, 2024, increased by Â¥2,756.9Â billion, or 26.0%, to Â¥13,378.0Â billion from MarchÂ 31, 2023. Honda estimates that by applying Japanese yen exchange rates as of MarchÂ 31, 2023, total amount of receivables from financial services and equipment on operating leases of finance subsidiaries as of MarchÂ 31, 2024 would have increased by approximately Â¥1,343.9Â billion, or 12.7%, from MarchÂ 31, 2023. Sales revenue from external customers increased by Â¥294.7Â billion, or 10.0%, to Â¥3,248.8Â billion from the previous fiscal year, due mainly to increased revenue from retail loans as well as positive foreign currency translation effects. Honda estimates that by applying Japanese yen exchange rates of the previous fiscal year to the current fiscal year, sales revenue for the year would have increased by approximately Â¥123.9Â billion, or 4.2%, compared to the increase as reported of Â¥294.7Â billion, which includes positive foreign currency translation effects. Sales revenue including intersegment sales increased by Â¥295.6Â billion, or 10.0%, to Â¥3,251.7Â billion from the previous fiscal year. Operating costs and expenses increased by Â¥307.5Â billion, or 11.5%, to Â¥2,977.8Â billion from the previous fiscal year. Cost of sales increased by Â¥261.1Â billion, or 10.3%, to Â¥2,805.3Â billion from the previous fiscal year, due mainly to an increase in costs attributable to increased revenue from retail loans as well as foreign currency effects. Selling, general and administrative expenses increased by Â¥46.3Â billion, or 36.8%, to Â¥172.4Â billion from the previous fiscal year, due mainly to increased expenses. Operating profit decreased by Â¥11.8Â billion, or 4.2%, to Â¥273.9Â billion from the previous fiscal year, due mainly to increased expenses, which was partially offset by positive foreign currency effects. Power Products and Other Businesses Hondaâ€™s consolidated unit sales of power products totaled 3,812Â thousand units, decreased by 32.5% from the previous fiscal year, due mainly to decreased consolidated unit sales in North America. Sales revenue from external customers decreased by Â¥58.8Â billion, or 13.0%, to Â¥392.2Â billion from the previous fiscal year, due mainly to decreased consolidated unit sales in Power products business. Honda estimates that by applying Japanese yen exchange rates of the previous fiscal year to the current fiscal year, sales revenue for the year would have decreased by approximately Â¥74.8Â billion, or 16.6%, compared to the decrease as reported of Â¥58.8Â billion, which includes positive foreign currency translation effects. Sales revenue including intersegment sales decreased by Â¥54.1Â billion, or 11.4%, to Â¥422.3Â billion from the previous fiscal year. Â 71 Table of Contents Operating costs and expenses decreased by Â¥22.3Â billion, or 4.9%, to Â¥431.2Â billion from the previous fiscal year. Cost of sales decreased by Â¥36.7Â billion, or 9.9%, to Â¥332.5Â billion, due mainly to a decrease in costs attributable to decreased consolidated unit sales in Power products business. Selling, general and administrative expenses increased by Â¥13.8Â billion, or 24.2%, to Â¥71.0Â billion, due mainly to increased expenses. Research and development expenses increased by Â¥0.5Â billion, or 1.9%, to Â¥27.6Â billion from the previous fiscal year. Operating loss was Â¥8.8Â billion, a decrease of Â¥31.7Â billion from the previous fiscal year, due mainly to decreased profit attributable to sales impacts in Power products business. In addition, operating loss of aircraft and aircraft engines included in Power products and other businesses was Â¥32.9Â billion, an increase of Â¥7.1Â billion from the previous fiscal year. Japan Hondaâ€™s consolidated unit sales in Japan decreased by 19.7% from the previous fiscal year to 302Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to a decrease in sales units of OEM engines*. Â *Â OEM (Original Equipment Manufacturer) engines refer to engines installed on products sold under a third-party brand. North America Hondaâ€™s consolidated unit sales in North America substantially decreased by 52.4% from the previous fiscal year to 1,083Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to a decrease in sales units of OEM engines. Europe Hondaâ€™s consolidated unit sales in Europe substantially decreased by 32.0% from the previous fiscal year to 794Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to a decrease in sales units of OEM engines. Asia Hondaâ€™s consolidated unit sales in Asia decreased by 8.1% from the previous fiscal year to 1,294Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to a decrease in sales units of OEM engines. Other Regions Hondaâ€™s consolidated unit sales in Other Regions decreased by 19.1% from the previous fiscal year to 339Â thousand units in the fiscal year ended MarchÂ 31, 2024, mainly due to the decreases in sales units of lawn mowers and OEM engines. due mainly to increased sales revenue in the Motorcycle business and Automobile business. Operating profit increased by Â¥95.0Â billion, or 161.2%, to Â¥153.9Â billion from the previous fiscal year, due mainly to an increase in profit attributable to price and cost impacts as well as sales impacts, which was partially offset by increased expenses. B. Liquidity and Capital Resources Overview of Capital Requirements, Sources and Uses The policy of Honda is to support its business activities by maintaining sufficient capital resources, a sufficient level of liquidity and a sound balance sheet. Hondaâ€™s main business is the manufacturing and sale of motorcycles, automobiles and power products. To support this business, Honda also funds financial programs for customers and dealers. Honda requires working capital mainly to purchase parts and raw materials required for production, as well as to maintain inventory of finished products and cover receivables from dealers and for providing financial services. Honda also requires funds for capital expenditures, mainly to introduce new models, upgrade, rationalize and renew production facilities, as well as to expand and reinforce sales and R&D facilities. As a comprehensive mobility company, Honda aims to become the power that advances people and society by delivering around the world essential value we offer of â€œenabling people to transcend various constraints such as time and placeâ€ and â€œenabling people to augment their abilities and possibilities,â€ as stated in the Honda Global Brand Slogan, â€œThe Power of Dreams,â€ redefined in 2023, as well as realizing society with â€œzero environmental impactâ€ and â€œzero traffic collisionsâ€ through mobility full of dreams and various other services that are generated by creativity of each and every one of us at Honda. Honda plans to strategically allocate resources according to the business transformation phase to achieve the environment and safety values. As for the plan announced in May 2024 to invest the total of Â¥10 trillion in capital expenditures, investment and research and development expenditures to pursue its electrification strategy, Honda decided to reduce the amount by Â¥3 trillion, to a total of Â¥7 trillion, over the period through the fiscal year ending MarchÂ 31, 2031, based on its decision to postpone the project to establish a comprehensive EV value chain in Canada and so on. For a description of Hondaâ€™s current plans for resource allocation relating to its business strategies, see Item 4.B. â€œBusiness Overviewâ€”Preparing for the Futureâ€”Challenges to be Addressed Preferentiallyâ€”6. Economic value enhancementâ€”a. Strategic resource allocation according to the business transformation phase.â€ Honda meets its working capital requirements primarily through cash generated by operations, bank loans and corporate bonds. In the fiscal year ended March 31, 2022, the Company developed its Sustainable Finance Framework to raise a part of the funds for addressing our environmental and safety initiatives through issuing bonds and issued Green Bonds totaling US$2.75 billion thereunder. The proceeds from the issuance of the Green Bonds are used exclusively toward environmental initiatives in accordance with the Sustainable Finance Framework. The outstanding balance of the Green Bonds liabilities was US$ 1.75 billion as of March 31, 2025. Honda believes that its working capital is sufficient for the Companyâ€™s present requirements. The year-end balance of liabilities associated with the Company and its subsidiariesâ€™ funding for non-Financial services businesses was Â¥645.9 billion as of MarchÂ 31, 2025. In addition, the Companyâ€™s finance subsidiaries fund financial programs for customers and dealers primarily from medium-term notes, bank loans, securitization of finance receivables and equipment on operating leases, commercial paper and corporate bonds. The year-end balance of liabilities associated with these finance subsidiariesâ€™ funding for Financial services business was Â¥11,085.5 billion as of MarchÂ 31, 2025. There are no material seasonal variations in Hondaâ€™s borrowing requirements. Â 74 Table of Contents In light of the future situation of working capital requirements and cash on hand, the Company will consider raising funds as needed. Cash Flows FYE Mar. 31, 2025 Compared with FYE Mar. 31, 2024 Consolidated cash and cash equivalents on MarchÂ 31, 2025 decreased by Â¥425.7 billion from MarchÂ 31, 2024, to Â¥4,528.7 billion. The reasons for the increases or decreases for each cash flow activity, when compared with the previous fiscal year, are as follows: Net cash provided by operating activities amounted to Â¥292.1 billion of cash inflows. Cash inflows from operating activities decreased by Â¥455.1 billion compared with the previous fiscal year, due mainly to an increase in payments for parts and raw materials as well as in payments for purchase of equipment on operating leases, which was partially offset by increased cash received from customers. Net cash used in investing activities amounted to Â¥941.9 billion of cash outflows. Cash outflows from investing activities increased by Â¥74.6 billion compared with the previous fiscal year, due mainly to an increase in payments for additions to property, plant and equipment as well as in payments for acquisitions of other financial assets, which was partially offset by increased proceeds from sales and redemptions of other financial assets. Net cash provided by financing activities amounted to Â¥280.4 billion of cash inflows. Cash inflows from financing activities decreased by Â¥638.1 billion compared with the previous fiscal year, due mainly to an increase in purchases of treasury stock as well as in dividends paid. FYE Mar. 31, 2024 Compared with FYE Mar. 31, 2023 Consolidated cash and cash equivalents on MarchÂ 31, 2024 increased by Â¥1,151.5Â billion from MarchÂ 31, 2023, to Â¥4,954.5Â billion. The reasons for the increases or decreases for each cash flow activity, when compared with the previous fiscal year, are as follows: Net cash provided by operating activities amounted to Â¥747.2Â billion of cash inflows. Cash inflows from operating activities decreased by Â¥1,381.7Â billion compared with the previous fiscal year, due mainly to an increase in payments for parts and raw materials as well as in receivables from financial services, which was partially offset by increased cash received from customers. Net cash used in investing activities amounted to Â¥867.2Â billion of cash outflows. Cash outflows from investing activities increased by Â¥189.2Â billion compared with the previous fiscal year, due mainly to increased payments for acquisitions of investments accounted for using the equity method. Net cash provided by financing activities amounted to Â¥918.6Â billion of cash inflows. Cash inflows from financing activities increased by Â¥2,387.0Â billion compared with the previous fiscal year, due mainly to increased proceeds from financing liabilities. Liquidity The Â¥4,528.7 billion in cash and cash equivalents as of MarchÂ 31, 2025 is mainly denominated in U.S. dollars and in Japanese yen, with the remainder denominated in other currencies. Hondaâ€™s cash and cash equivalents as of MarchÂ 31, 2025 corresponds to approximately 2.5 months of sales revenue, and Honda believes it has sufficient liquidity for its business operations. Â 75 Table of Contents At the same time, Honda is aware of the possibility that various factors, such as recession-induced market contraction and financial and foreign exchange market volatility, may adversely affect liquidity. For this reason, as of MarchÂ 31, 2025, finance subsidiaries that carry total short-term borrowings of Â¥1,797.1 billion have committed lines of credit equivalent to Â¥1,433.9 billion that serve as alternative liquidity for the commercial paper issued regularly to replace debt. Honda believes it currently has sufficient credit limits, extended by prominent international banks, as of the date of the filing of Hondaâ€™s Form 20-F. Hondaâ€™s financing liabilities as of MarchÂ 31, 2025 are mainly denominated in U.S. dollars, with the remainder denominated in Japanese yen and in other currencies. For further information regarding financing liabilities, see note â€œ(15) Financing Liabilitiesâ€ and â€œ(25) Financial Risk Managementâ€ to the accompanying consolidated financial statements. Hondaâ€™s short- and long-term debt securities are rated by credit rating agencies, such as Moodyâ€™s Investors Service, Inc., StandardÂ & Poorâ€™s Global Ratings, and Rating and Investment Information, Inc. The following table shows the ratings of Hondaâ€™s unsecured debt securities by Moodyâ€™s, StandardÂ & Poorâ€™s and Rating and Investment Information as of MarchÂ 31, 2025. Â Â ÂÂ Credit ratings for Â Â ÂÂ Short-termunsecuredÂ debtÂ securities Â ÂÂ Long-termunsecuredÂ debtÂ securities Â Moodyâ€™s Investors Service ÂÂ Â P-2 Â ÂÂ A3 Â StandardÂ & Poorâ€™s Global Ratings ÂÂ Â A-2 Â ÂÂ Â A- Â Rating and Investment Information ÂÂ Â a-1+ Â ÂÂ Â AA Â The above ratings are based on information provided by Honda and other information deemed credible by the rating agencies. They are also based on the agenciesâ€™ assessment of credit risk associated with designated securities issued by Honda. Each rating agency may use different standards for calculating Hondaâ€™s credit rating, and also makes its own assessment. Ratings can be revised or nullified by agencies at any time. These ratings are not meant to serve as a recommendation for trading in or holding Hondaâ€™s unsecured debt securities. Off-Balance Sheet Arrangements Loan commitments Honda maintains unused balances on committed lines to dealers based on loan commitment contracts. The undiscounted maximum amount of this potential obligation as of MarchÂ 31, 2025 was Â¥127.3 billion. Although committed lines have been extended, they will not necessarily be withdrawn, as certain contracts contain terms and conditions of withdrawal that require screening of the obligorâ€™s credit standing. Guarantee of employee loans As of MarchÂ 31, 2025, we guaranteed Â¥4.2 billion of employee bank loans for their housing costs. If an employee defaults on his/her loan payments, we are required to perform under the guarantee. The undiscounted maximum amount of our potential obligation to make future payments in the event of defaults is Â¥4.2 billion. As of MarchÂ 31, 2025, no amount has been accrued for any estimated losses under the obligations, as it was probable that the employees would be able to make all scheduled payments. Â 76 Table of Contents Contractual Obligations The following table shows our contractual obligations as of MarchÂ 31, 2025: Â Â ÂÂ Yen (millions) Â Â ÂÂ Â Â ÂÂ Payments due by period Â Â ÂÂ Total Â Â ÂÂ Within1 year Â Â ÂÂ 1-3years Â Â ÂÂ 3-5years Â Â ÂÂ Thereafter Â Financing liabilities Â Â Â¥ 12,396,009 Â Â ÂÂ Â¥ 4,819,178 Â Â ÂÂ Â¥ 4,712,566 Â Â ÂÂ Â¥ 1,618,625 Â Â ÂÂ Â¥ 1,245,640 Â Other financial liabilities Â Â ÂÂ 662,395 Â Â ÂÂ 184,839 Â Â ÂÂ 172,181 Â Â ÂÂ 82,323 Â Â ÂÂ 223,052 Â Purchase and other commitments*1 Â Â ÂÂ 120,744 Â Â ÂÂ 112,482 Â Â ÂÂ 8,147 Â Â ÂÂ 115 Â Â ÂÂ â€”â€, Â Contributions to defined benefit pension plans*2 Â Â ÂÂ 45,504 Â Â ÂÂ 45,504 Â Â ÂÂ â€”â€, Â Â ÂÂ â€”â€, Â Â ÂÂ â€”â€, Â Â ÂÂ Â Â Â

mm*1 due to the installation of the e:HEV two-motor hybrid system. In addition, the shape of the first-row seats has been modified to further enhance usability by improving the walk-through and accessibility to the second-row seats. The all-new Freed was awarded the â€œJapan Car of the Yearâ€ at the 2024-2025 Japan Car of the Year Awards (organized by the Japan Car of the Year Executive Committee). We held the Honda e:HEV Business and Technology in December 2024, where the Next-generation e:HEV Technologies of its original 2-motor hybrid system was presented. The next-generation e:HEV will feature Honda S+ Shift, a new function designed to pursue the â€œjoy of drivingâ€ that further accentuates the sense of oneness between the driver and the vehicle, while fully leveraging the characteristics of the e:HEV system, and Â 79 Table of Contents we plan to install Honda S+ Shift in all of its FCEV models, starting with the all-new Honda Prelude scheduled to go on sale in 2025. In addition, for the next-generation e:HEV, component parts, including engine and drive unit, and control technology will be renewed respectively for both the small-size system (with a 1.5-liter engine) and the mid-size system (with a 2.0-liter engine) to further improve environmental performance and a high-quality and exhilarating driving experience of e:HEV models. As part of our initiatives to realize zero environmental impact of society, we target to make EVs and FCEVs represent 100% of its global vehicle sales by 2040 and plan to introduce EV products tailored to the market characteristics of each region. We began sales in Japan of a new commercial-use mini-EV, the N-VAN e:, in October 2024. The N-VAN e: realized both a sufficient practical range and a large cargo space required for commercial use through the adoption of a large-capacity battery, downsizing of the eAxle, and by minimizing the space occupied by components through a centralized layout of high-voltage components. In addition to realizing a range of 245 km*2 (152 miles) on a single charge in WLTC mode, which is sufficient for a delivery service, one of the main commercial uses of EVs, customer convenience was pursued with charging time of approximately 4.5 hours for normal charging (6.0 kW output) *3 and approximately 30 minutes for fast charging (50 kW output)*4. Moreover, the battery cooling and heating system inhibits battery performance degradation caused by the high or low temperatures, contributing to shorter charging time and longer range, especially during winter. In North America, we presented the world premiere of two prototype models at CES 2025 which was held in Las Vegas, Nevada, the United States in January 2025, Honda 0 Saloon and Honda 0 SUV, representing two Honda 0 Series that will be introduced to global markets starting in 2026. Honda also introduced its original vehicle operating system (OS), the ASIMO OS, for Honda 0 Series. The Honda 0 Saloon, the flagship model of the Honda 0 Series, will be based on the newly-developed dedicated EV architecture and will feature a number of next-generation technologies that will embody the â€œThin, Light, and Wiseâ€ development approach of the Honda 0 Series. At CES 2025, Honda is focusing on introducing certain technologies and features that contribute to the â€œWiseâ€ value of the Honda 0 Saloon. This includes the highly reliable AD (automated driving) technologies backed by the Level 3 AD technology, which Honda put into practical use for the first time in the world, as well as â€œultra-personal optimizationâ€ that will offer a mobility experience customized for each individual user, which will become possible with the ASIMO OS. The production model of the Honda 0 Saloon is scheduled to be introduced first in the North American market in the future, then in global markets, including Japan and Europe. In addition, the prototype of a mid-size EV SUV, which will be the first Honda 0 Series, achieved with an outstandingly clear and unrestricted field of view and great flexibility the interior space was further increased, and a spacious cabin by applying the â€œThin, Light, and Wiseâ€ approach to an SUV. This model will offer the value of an â€œever-advancingâ€ space through the â€œultra-personal optimizationâ€ and digital UX made possible by the ASIMO OS. Moreover, the Honda 0 SUV will apply high-precision attitude estimation and stabilization control based on 3D gyro sensors, technology Honda has amassed through the development of its original robotics technologies, to enable dynamics at the will of the driver on various types of road surfaces. The production model of the Honda 0 SUV is scheduled to be introduced first in North American market in the future, then in global markets, including Japan and Europe. As a software platform, ASIMO OS will apply integrated control of electronic control units (ECUs) for vehicle systems such as automated driving/advanced driver assistance systems (AD/ADAS) and in-vehicle infotainment (IVI) system. By constantly updating the in-vehicle software based on the ASIMO OS through over the air (OTA) updates even after the purchase of the vehicle, functions and services will be continuously advanced in accordance with the preferences and needs of each individual user. The functions and services subject to constant updates include Â 80 Table of Contents those which enhance the value of space and the digital UX, that ensures fun and comfortable mobility experience, and integrated control of dynamics unique to Honda, that determines the joy of driving, enabling the driver to feel at one with the vehicle. For example, in AD technology, Honda 0 Series will be equipped with a system that enables the expansion of the range of driving conditions where driver assistance and Level 3 AD will be available. This expansion will start with eyes-off technology available in traffic congestion on highways, then will continue through the OTA updates of the functions. With Level 3 AD, the vehicle will be in charge of driving, which will enable â€œa human driver to perform a second task while en route to their destinationâ€, whether watching a movie or remotely joining a meeting. Honda will further advance its technologies and become the first automaker to expand the application of eyes-off functions to all driving situations, opening up new possibilities for mobility. We are planning to install ASIMO OS to Honda 0 Series, including production models of the Honda 0 SUV and Honda 0 Saloon. Honda will continue to work to advance our efforts toward achieving carbon neutrality. R&D expenditures in this segment incurred during the fiscal years ended MarchÂ 31, 2023, 2024 and 2025 were Â¥754.1Â billion, Â¥869.9Â billion and Â¥1,074.2 billion, respectively. Â *1Â For the 3-row variant *2Â Range per charge is measured under the specified test conditions. WLTC (Worldwide harmonized Light vehicle Test Cycles) mode: Internationally standardized driving mode consisting of city, suburban and highway driving modes, with time allocated according to average use time. *3Â Regular charging: Approximate time it takes to fully charge the battery from the time the low charge warning light comes on. *4Â Fast charging: Approximate time it takes to charge the battery to 80% from the time the low charge warning light comes on. Power Products and Other Businesses In the Power products and other businesses, Honda is engaged in research and development activities based on the policy of â€œcreating the lifestyles of the future, taking usefulness and joy to the next level.â€ Among major technological achievements, we presented the world premiere of refreshed models of seven of its large-size outboard motors, BF250, BF225, BF200, BF150, BF140, BF135 and BF115, at the Miami International Boat Show 2025, in Miami, the United States in February 2025. In terms of functionality, these refreshed models are equipped with enhanced support features for boat operation, including the addition of the all-new flash mount electronic remote-control system (DBW) and the 7-inch large-size multifunction display. The ergonomic design of the remote grip and the large display enable more intuitive operation. In addition to the â€œcruise control functionâ€ and the â€œtrim support function,â€ which automatically controls the outboard based on the engine rpm and boat speed to maintain a pre-set trim angle (boat attitude), these refreshed models also feature the â€œautomatic tilt function,â€ which fully tilts the outboard motor up/down automatically*1. This enables the customer to enjoy a boating experience as smooth and comfortable at that realized. Moreover, the all-new BF250, BF225 and BF200 adopt an oxygen sensor to realize more precise control of the air-fuel ratio, which further improves fuel economy and environmental performance compared to the respective existing models, which were already at a top in class level*2. Furthermore, the workability during maintenance is enhanced by adding a mechanism that prevents oil from leaking into the engine cover when changing the oil filter. These new models are scheduled to go on sale sequentially in Japan, North America, Europe, and Asia regions starting from mid-2025. Other than outboard motors, we launched the improved Miimo HRM2500 Live and Grass Miimo HRM4000 Live models of the Miimo series of robot lawnmowers/grasscutters in July 2024. While maintaining the mowing performance and driving performance that have been well received by previous models, the new models have increased the number of area wire identification signals from one to four, enabling them to identify multiple adjacent work areas. This eliminates the mowing residue that used to occur when two or more Miimo series were used at the same time, and meets the need for more extensive lawn and grass mowing without hassle. Â 81 Table of Contents Moreover, we announced battery-powered walk-behind lawn mowers-HRN, HRX and HRC at â€œ Equip Exposition 2024â€ where was held in Louisville in the United States in October 2024. HRN, HRX and HRC has Air-cooled, brushless electric motors. The motors feature a forced air system that drives fresh air over key components inside the motors allowing them to stay cooler and perform well in demanding outdoor operating conditions. The motors provide high torque that maintains RPMs. In addition, the motors are designed to combine high-power delivery with mid-level power consumption while providing a superior cut and bag fill. HRN, HRX and HRC are scheduled to go on sale in 2025. Also, as for general-purpose engines, production of the GX430, a high-end model of the single-cylinder GX series, commenced in October 2024. With a displacement of 425 cm3, the GX430 realized class-leading output performance while maintaining the durability and reliability of the GX series and a size compatible with the conventional GX390 for installation. Designed for general use in construction machinery, agricultural machinery, generators, etc., it achieves a 10% increase in power output compared with the current GX390 through a higher compression ratio and revised intake and exhaust port geometry. Furthermore, the increase in fuel consumption due to the higher displacement has been reduced to the same level as the current GX390 through the intake and exhaust systems, cooling fan and other cooling system innovations. In terms of compliance with emission regulations, the GX430 has already been approved for the second stage of Chinaâ€™s emission regulations and is scheduled to comply with the Japanese Land Internal Combustion Engine Associationâ€™s Tier III regulations for domestic use in the future. In addition, a higher output version is available for use exclusively with long-tail boats, which have been well received in South East Asia and South America, particularly in Thailand and the Philippines. As part of our initiatives to achieve zero environmental impact, Honda and GoCimo, a Swedish start-up that operates rental and sharing service of electric motorcycles with swappable batteries, together have commenced a battery sharing service verification test in MalmÃ¶, Sweden in February 2025 for a period of one year. The test consists of Honda Power Pack Exchanger e: (battery swap station), located at three locations in MalmÃ¶, to be used to exchange Honda Mobile Power Pack e: (batteries) for the EMI e: (electric scooter commuter) sold by Honda in Europe. Beginning with this initiative, Honda aims to promote the electrification of motorcycles and the widespread use of swappable batteries in Europe by expanding battery sharing services using Honda products, mainly for business users, in major European cities, thus supporting the electrification of mobility and contributing to the realization of a low-carbon society. In the aircraft business, Honda has created new value with uniquely developed leading-edge technologies. We have been building an operating base in order to grow our aircraft business from a long-term perspective. In October 2024, the latest HondaJet Elite II became the worldâ€™s first production model twin turbine Very Light Jet equipped with autothrottle, following certification of the system by the Federal Aviation Administration (FAA), which now authorizes Honda to enable autothrottle functionality on production aircraft. Autothrottle is a system that automatically adjusts engine output and aircraft speed according to conditions set by the pilot. The systemâ€™s control supports the pilotâ€™s throttle operation across various phase of flight, from take-off to landing, greatly reducing the pilotâ€™s workload and increasing passenger comfort. Following the FAA approval, the autothrottle will first be newly introduced on aircraft destined for the United States. In the future, the introduction of the autothrottle will also be considered for other countries and regions, including Japan. In addition, in February 2025, Honda officially began production of the first HondaJet Echelon test unit with the start of assembly of the aircraftâ€™s wing structure in Greensboro, North Carolina, the United States. Hondaâ€™s production department began introducing specialized assembly lines, with tooling installation completed at the end of 2024, in anticipation of the future production of test aircraft for HondaJet Echelon type approval and the start of mass production in the future. Furthermore, in January 2025, the first flight was conducted using the flight simulator in the Advanced Systems Integration Test Facility (ASITF), and verification of key aircraft systems, including the flight control system, has commenced. In the future, Honda will accelerate its efforts to conduct the first flight of the test aircraft for type approval and to obtain type certification. Â 82 Table of Contents R&D expenditures in this segment during the fiscal years ended MarchÂ 31, 2023, 2024 and 2025 were Â¥27.5Â billion, Â¥26.4Â billion and Â¥32.8 billion, respectively. Â *1Â Operation to lift the outboard motor from the water surface or tilt it to the angle at which the boat can be operated. *2 Honda internal research as of February 2025. Research for next-generation technologies In research for next-generation technologies, Honda unveiled the demonstration production line for all-solid-state batteries in November 2024, which is being developed independently by Honda toward mass production. The line was constructed on the property of Honda R&D Co., Ltd. (Sakura), located in Sakura City, Tochigi Prefecture, Japan. The demonstration line has a total floor area of approximately 27,400 mÂ² (295,000 ftÂ²), and is equipped with facilities and equipment that enable verification of each production process, including weighing and mixing of electrode materials, coating and roll pressing of electrode assembly and the formation of cells, and assembly of the module. Based on the conventional production process for liquid lithium-ion batteries, the Honda all-solid-state battery production process adopts a roll-pressing technique which will contribute to an increase in the density of the solid electrolyte layers, a process unique only to the production of all-solid-state batteries, and makes continuous pressing possible. With the adoption of the roll-pressing technique, Honda will strive to increase the degree of interfacial contact between the electrolyte and the electrodes and also increase overall productivity. Moreover, by consolidating and speeding up a series of assembly processes, including the bonding of positive and negative electrodes, Honda will strive to significantly reduce the production time per cell. Furthermore, Honda is also working to reduce indirect costs of battery production, including power consumption, by implementing various measures, including the establishment of production control technology that minimizes the low dew point environment necessary to ensure work safety and battery performance. While conducting technical verification to establish a mass production process on this demonstration line, Honda will determine the basic specifications of the battery cells, with an aim to begin applying its all-solid-state batteries to electrified models that will be introduced to market in the second half of the 2020s. Honda made its first global release of specifications for Honda Next Generation Fuel Cell Module and Honda Fuel Cell Power Generator at H2 & FC EXPO â€“ the 23rd Intâ€™l Hydrogen & Fuel Cell Expo â€“ which was held in February 2025 at Tokyo Big Sight, Japan. Mass production of the Honda Next Generation Fuel Cell Module is scheduled to begin in 2027 (fiscal year ending March 31, 2028), with mass production of the Honda Fuel Cell Power Generator scheduled to begin in 2026. The Honda Next Generation Fuel Cell Module is being independently developed by Honda as a successor to the current model Honda jointly developed with General Motors (GM). In addition to achieving a rated output of 150 kW, the Honda Next Generation Fuel Cell Module will feature half of the production cost and more than double the durability compared to the current model. Moreover, the module was downsized by increasing the volumetric power density* by more than three times, which increased the flexibility of installation layouts. By further expanding domains for application of the system and sales regions of this next-generation fuel cell module, Honda is striving to make a greater contribution to the realization of a sustainable, energy-oriented society. Furthermore, the Honda Fuel Cell Power Generator, scheduled for mass production in 2026, is a stationary power storage system capable of supplying hydrogen-derived, clean electricity to large facilities such as factories and offices. It utilizes the fuel cell also being used for the Honda CR-V e:FCEV fuel cell electric vehicle. The compact size of the Honda Fuel Cell Power Generator realized through the optimization of the design of its cooling system and internal layout enables flexible fit to the installation environments of each customer. Moreover, to promptly provide highly reliable backup power, the Honda Fuel Cell Power Generator is being developed to feature high responsiveness that enables it to begin supplying power within 10 seconds of startup. In addition to supplying power that accommodates the diverse power needs of customers through this product, Honda will contribute to the decarbonization initiatives of customers by offering comprehensive support ranging from product installation to after-sales service. Â 83 Table of Contents R&D expenditures incurred in research for next-generation technologies are distributed among Hondaâ€™s business segments. Â * The amount of electrical energy that can be output per unit volume. Patents and Licenses As of MarchÂ 31, 2025, Honda owned more than 11,800 patents in Japan and more than 25,400 patents abroad. Honda also had applications pending for more than 4,700 patents in Japan and for more than 10,600 patents abroad. While Honda considers that, in the aggregate, Hondaâ€™s patents are important, it does not consider any one of such patents, or any related group of them, to be of such importance that the expiration or termination thereof would materially affect Hondaâ€™s business. D. Trend Information See Item 5.A â€œOperating Resultsâ€ for information required by this item. E. Critical Accounting Estimates Not applicable. Â 84 Table of Contents Item 6. Directors, Senior Management and Employees A. Directors and Senior Management Under a â€œcompany with three committeesâ€ corporate governance system (the â€œThree Committees systemâ€) pursuant to the Company Law, Honda has no Board of Corporate Auditors and the function of corporate audit is implemented by the Audit Committee within the Board of Directors. For Japanese companies which employ the Three Committees system, including Honda, the Company Law requires that such companies have a board of directors and one or more executive officers, and within the board of directors, a nominating committee (the â€œNominating Committeeâ€), an audit committee (the â€œAudit Committeeâ€), and a compensation committee (the â€œCompensation Committeeâ€) shall be established. Each of these three committees shall consist of three or more directors, a majority of which shall be outside directors. The members of each of the three committees as well as executive officers are elected by the resolution of the board of directors. In addition, Hondaâ€™s regulations of each of the three committees provide that the chairperson of each committee shall be elected from the Outside Directors who are members of the relevant committee by the resolution of the Board of Directors. For the Audit Committee, Hondaâ€™s regulations of the committee provide that full-time member of the Audit Committee shall be assigned by the resolution of the Board of Directors. The normal term of office of a director and an executive officer is one year. Directors and executive officers may serve any number of consecutive terms. Hondaâ€™s Articles of Incorporation provide for the Board of Directors of not more than 15 Directors. Hondaâ€™s Board of Directors may appoint one Chairperson of the Board of Directors from among Directors. Also, Hondaâ€™s Board of Directors appoints one President and Executive Officer and may appoint several Executive Vice Presidents and Executive Officers, Senior Managing Executive Officers and Managing Executive Officers from among executive officers. The President

and Executive Officer represents the Company. In addition, the Board of Directors may appoint, pursuant to its resolutions, Executive Officers who shall each represent the Company. Under the Company Law, a representative executive officer individually has authority to represent the company generally in the conduct of its affairs. The Board of Directors has an authority to determine the execution of business of the Company and to supervise the execution of duties of Directors and Executive Officers. Executive Officers are entitled to determine the execution of business of the Company which is entrusted by the Board of Directors and to execute business of the Company. Under the Company Law, the Nominating Committee has the responsibility to determine the content of proposals regarding the election and dismissal of directors to be submitted to a general meeting of shareholders. The Audit Committee has the following responsibilities: (i)Â auditing the execution of duties by directors and executive officers and preparing audit reports and (ii)Â determining the content of proposals regarding the election and dismissal of accounting auditors and the refusal to reelect accounting auditors to be submitted to a general meeting of shareholders. The Compensation Committee has the responsibility to determine the content of the financial benefits as consideration for the execution of the duties, such as remuneration and bonuses, of directors and executive officers. As described above, not less than half of the members of each of the three committees must be outside directors. Each of the outside directors is required to meet all of the following independence requirements: the relevant person must be (1)Â a person who is not an executive director, executive officer, manager or any other employee of the company or any of its subsidiaries and has not been in such position for ten years prior to the assumption of office; (2)Â if the relevant person assumed an office of a non-executive director, accounting councilor or corporate auditor of the company or any of its subsidiaries during the ten years mentioned in (1)Â above, a person who had not been an executive director, executive officer, manager or any other employee of the company or any of its subsidiaries for further ten years prior to the assumption of such office; (3)Â a person who is not a director, corporate auditor, executive officer, manager or any other employee of the parent company or who is not a natural person controlling the company; (4)Â a person who is not an executive director, executive officer, manager or any other employee of a company which is controlled by the parent company or by the natural person controlling the company; and (5)Â a person who is not a spouse or one of a certain kinds of relatives of (a)Â a director, executive officer, manager or any other important employee of the Â 85 Table of Contents company or (b)Â the natural person controlling the company. In addition, Honda has established additional independence requirements for the Outside Directors, the â€œCriteria for Independence of Outside Directorsâ€ as described in Exhibit 1.4 by the resolution of the Board of Directors, and all of Outside Directors meet the criteria. With respect to audit reports prepared by the audit committee, each member of the committee may note his or her opinion in the audit report if his or her opinion is different from the opinion expressed in the audit report. In addition, the Company is required to appoint independent certified public accountants or audit corporations as accounting auditors. Such accounting auditors have as their primary statutory duties to audit the consolidated and non-consolidated financial statements of the Company prepared in accordance with the Company Law to be submitted by a director to general meetings of shareholders and to prepare an accounting audit report thereon and to notify the contents of such report to the specified member of the audit committee (or, if such member is not specified, any member of the committee) and the specified director in charge. The following table provides the names, date of birth, current positions held and brief biographies, term of office and number of shares owned of all the members of the Board of Directors and composition of the Three Committees. Also the names, date of birth, current positions held and brief biographies, term of office and number of shares owned of the Executive Officers (who are not concurrently the members of the Board of Directors) of the Company are provided below. The status of members of the Board of Directors as of the date of filing of this Form 20-F is as follows: Members of the Board of Directors Â Name(Date of birth) Â Current Positions and Biographies with Registrant Â Term Â Â Number ofSharesÂ Owned Â Director and Representative Executive Officers Â Â Â Toshihiro Mibe (July 1, 1961) Â Joined Honda Motor Co., Ltd. in April 1987 Â Â *2 Â Â Â 122,800 Directors meeting held after the Ordinary General Meeting of Shareholders of the fiscal year ended March 31, 2025 after his/her appointment to office. The Company expects that each of its Executive Officers to be reappointed at the first Board of Directors meeting held after the Ordinary General Meeting of Shareholders of the fiscal year ended March 31, 2025. If reappointed, the term of office of each Executive Officer will extend until the conclusion of the first Board of Directors meeting held following the Ordinary General Meeting of Shareholders of the fiscal year ending March 31, 2026. *6 The Company introduced the Operating Executive position effective April 1, 2020, with the aim of advancing its corporate executive structure and enabling the Company to address changes in the business environment with greater speed and flexibility. Operating Executives will engage in company operations, with responsibility for business execution in their respective areas under the direction and supervision of management. Operating Executives are not statutory positions under the Company Law and do not conform to the definition of â€œDirectors and Senior Managementâ€ as defined in Form 20-F. There is no family relationship between any Director or Executive Officer and any other Director or Executive Officer. None of Hondaâ€™s members of the Board of Directors or Executive Officers is party to a service contract with Honda or any of its subsidiaries that provides for benefits upon termination of employment. Â 105 Table of Contents B. Compensation Methods of determining the policy for determining individual remuneration of Directors and Executive Officers The Company views remuneration for Directors and Executive Officers, the key to its corporate governance, as an important driving force in realizing our fundamental beliefs, management policies, and aspirations. The Compensation Committee has established the following decision-making policy in order to encourage appropriate risk-taking and accurately reflect management responsibility in an effort to promote speedy reforms to achieve our vision amidst a drastically changing environment. Â 1. The Companyâ€™s remuneration structure for Directors and Executive Officers is designed to motivate officers to contribute to the improvement of the Companyâ€™s business performance not only over the short-term, but also over the mid- to long-term, so that the Company can continuously enhance its corporate value, and it consists of monthly remuneration, a fixed amount paid each month as remuneration for the execution of duties, STI (Short Term Incentive) based on business performance for the relevant fiscal year, and LTI (Long Term Incentive) based on the mid- to long-term business performance. Â 2. Monthly remuneration shall be paid as a fixed amount each month based on remuneration standards resolved by the Compensation Committee. Â 3. STI shall be determined and paid by resolution of the Compensation Committee, taking into consideration the business performance of each fiscal year. Â 4. Based on standards and procedures approved by the Compensation Committee, LTI is based on the mid- to long-term performance and paid in the form of the Companyâ€™s shares and cash, in order to function as a sound incentive for sustainable growth. Â 5. Remuneration paid to Directors who concurrently serve as Executive Officers and Executive Officers shall consist of monthly remuneration, STI and LTI, and the composition rate shall be determined based on the remuneration standards resolved by the Compensation Committee. The composition ratio of variable compensation is increased according to the weight of management responsibility attributed to each position. Â 6. Remuneration paid to Outside Directors and other Directors who do not concurrently serve as Executive Officers shall consist only of monthly remuneration. Â 7. In order to advance the Companyâ€™s sustainable growth and enhance its corporate value over the mid-to long-term by achieving the management from the perspective of shareholders through having a shareholding in the Company, even Directors and Executive Officers who are not eligible for LTI shall acquire the Companyâ€™s stock by contributing a certain portion of their remuneration to the Officers Shareholding Association. Â 8. Directors and Executive Officers shall continuously hold, throughout their term of office and for one year after their retirement, any stock of the Company acquired as LTI or acquired through the Officers Shareholding Association. Â 106 Table of Contents Approach to remuneration level The remuneration levels for Directors and Executive Officers are set at a level that is highly competitive in order to secure diverse and talented human resources based on objective remuneration data from an outside research organization and information provided by outside consultants, as well as research and analysis of a peer group of approximately 20 to 30 global Japanese companies of similar size. The Company also reviews remuneration from time to time in response to changes in the business environment. In setting remuneration levels from the fiscal year ending March 31, 2026 onwards, in order to respond to accelerating changes in the global environment, the Company revised the peer group to include global companies in the automobile and software industries that compete with the Company in terms of business and human resources. Remuneration structure Remuneration paid to Executive Officers consists of monthly remuneration, STI and LTI, and the ratio of STI and LTI is set according to the weight of management responsibility attributed to each position, with a view to providing an incentive to continuously improve corporate value. Â 1. Monthly remuneration Monthly remuneration is paid each month as a fixed monthly amount in cash based on positions as consideration for the execution of duties. Â 3. STI STI is a performance-based remuneration that is paid once a year in cash, taking into account the Companyâ€™s performance each fiscal year and the individual performance of each Executive Officer. The final payment amount is determined by multiplying the standard STI amount by the individual performance coefficient after determining the payment level using the Companyâ€™s performance coefficient. The Companyâ€™s performance coefficient fluctuates between 0 and 150% depending on the achievement of key performance indicators (KPIs), which are operating profit margin and profit attributable to owners of the parent of consolidated accounting, both of which are important indicators that measure the contribution to corporate value during each fiscal year. The individual performance coefficient fluctuates between 80 and 120% depending on the achievement of individual targets set for each Executive Officerâ€™s role. The Presidentâ€™s performance is evaluated by the Compensation Committee, while those of the Executive Officers, excluding the President, are evaluated by the

Compensation Committee following an evaluation by the President. LTI LTI is a non-monetary performance-based remuneration that provides shares based on financial and non-financial performance through a trust structure, aiming to further enhance mindfulness toward contributing to the sustained improvement of corporate value of the Company over the mid- to long-term, as well as to share profits with shareholders. Points are granted according to the base amount for each position in April each year, and shares equivalent to the points based on performance are granted one year after the points are awarded. Furthermore, a restriction period on transfer is placed on the granted shares. In principle, such restriction on transfer is lifted at the time of retirement from both of the Companyâ€™s Director and Executive Officer. Any share of the Company acquired as LTI shall be continuously held, throughout their term of office and for one year after their retirements. Â 108 Table of Contents Performance evaluations are based on key indicators that measure the degree of contribution to increasing corporate value over the mid- to long-term aiming to accelerate commitment to the key themes and further support the creation of both social and economic value . KPIs for financial indicators are the consolidated operating profit margin and profit for the year attributable to owners of the parent, which are important indicators that should be addressed to achieve the ROIC target set for the fiscal year ending March 31, 2031 described in Item 4. â€œInformation on the Company-B. Business Overview-Preparing for the Future-â€˜Financial Strategy.â€ KPIs for non-financial indicators are directly linked to key themes: brand value, total CO2 emissions, and associate engagement. KPIs for stock indicators are the total shareholder return, which is an indicator that reflects the market evaluation of our creation of both social and economic value. Remuneration varies from 40 to 240% depending on the performance of each evaluation year. Â KPIs Â Evaluation method Â Weight Â Fluctuation Â Â Â Â Â FinancialÂ indicators Â Consolidated operating profit margin Â Evaluated based on degree of achievement of targets Â 60% Â 40 to 240% Â Profit for the year attributable to owners of the parent Non-financialÂ indicators Â Brand value Â 20% Â Total CO2 emissions Â Associate Engagement Stock indicator Â Total Shareholder Return Â Evaluation based on relative comparison with the dividend-inclusive TOPIX growth rate for the fiscal year Â 20% Â * Non-financial indicators are evaluated based on the following indicators: Â - Brand value: Survey of the Companyâ€™s brand value by a third-party research firm Â - Total CO2 emissions: The amount of CO2 emissions from corporate activities and products based on CO2 emissions calculation methods used commonly in Japan (and globally) Â - Associate Engagement: Survey of employee activeness in each region by a third-party research firm (LTI before the fiscal year ended March 31, 2024) Points are granted according to the base amount for each position in April each year, and shares equivalent to the points linked to performance are granted three years after the points are awarded. Therefore, the Companyâ€™s performance up to the fiscal year ending March 31, 2026, will be reflected in LTI up to the fiscal year ended March 31, 2024. Furthermore, a restriction period on transfer is placed on the granted shares. In principle, such restriction on transfer is lifted at the time of retirement from both Companyâ€™s Director and Executive Officer. Any share of the Company acquired as LTI shall be continuously held, throughout their term of office and for one year after their retirement. Performance evaluations are based on key indicators that measure the degree of contribution to increasing corporate value over the medium to long term. KPIs for financial indicators are consolidated operating profit margin and consolidated profit before income taxes, which vary from 50 to 150% depending on the level of growth over the past three fiscal years. KPIs for non-financial indicators are brand value, SRI indicators, and employee activeness, which vary from 50 to 150% depending on the degree of achievement of the target values for the year under evaluation. Â 109 Table of Contents KPIs Â EvaluationÂ method Â Weight Â Fluctuation Â Â Â Â Â Financial indicators Â Consolidated operating profit margin Â EvaluatedÂ basedÂ onÂ growth over the past three fiscal years Â 35% Â 50Â toÂ 150% Â Consolidated profit before income taxes Â 35% Non-financialÂ indicators Â Brand value Â Evaluated based on degree of achievement of targets Â 30% Â SRI index Â Employee activeness Â * Non-financial indicators are evaluated based on the following indicators: Â - Brand value: Survey of motorcycle/automobile/power products businesses by a third-party research firm Â - SRI index: Dow Jones Sustainability World Index Â - Employee activeness: Survey of employee activeness in each region by a third-party research firm In addition, Executive Officers who are nonresidents of Japan are not eligible for LTI, but shall be eligible for the same addition to or subtraction from the remuneration based on the performance evaluation used in LTI. As a result of the evaluation for the fiscal year ended MarchÂ 31, 2025, STI was increased by 11.1% compared to the base amount. For LTI, the evaluation period is from the fiscal year ended March 31, 2023 to the fiscal year ended March 31, 2025, and the points granted in the fiscal year ended March 31, 2023 were paid with a performance-linked coefficient of 105%, while the points granted in the fiscal year ended March 31, 2025 were paid with a performance-linked coefficient of 84%. Recovery of Erroneously Awarded Compensation In accordance with the rules of the United Sates Securities and Exchange Commission and the New York Stock Exchange, the Company has implemented a policy to recover erroneously awarded incentive-based compensation. Under this policy, in the event that the Company is required to prepare a restatement of the financial statements, the Company shall, in principle, reasonably and promptly cause the return of all of the portion of the STI and LTI paid or granted to the Companyâ€™s Executive Officers exceeding what would have been paid or granted based on the restated financial statements. In addition, in the event that an Executive Officer of the Company commits certain misconduct, derelictions of duty, violations of the laws, or similar actions, the Company shall reasonably and promptly, as determined by the Compensation Committee, cause the return of part or all of the STI and LTI paid or granted to such Executive Officer. The compensation subject to recovery includes STI and LTI paid or granted during the fiscal year in which a restatement of the financial statements is required or other causes for recovery arose, and the preceding three fiscal years. The Companyâ€™s policy to recover extends to Executive Officers who served as such during such period, even if they have since resigned from the position. Furthermore, LTI subject to recovery includes points awarded before the issuance of shares and shares during the transfer restriction period. Matters related to non-monetary remuneration In order to function as a sound incentive for sustainable growth, in accordance with the criteria and procedures approved by the Compensation Committee, the Company delivers and provides the Companyâ€™s shares and dividends accruing on the Companyâ€™s shares, in conjunction with the mid- to long-term business performance. Â 110 Table of Contents Overview of the Compensation Committee and its activities The Compensation Committee determines the details of remuneration, for each individual Director and Executive Officer and undertakes other duties as required by laws and regulations and the Articles of Incorporation. The Compensation Committee consists of four Directors, including three Outside Directors, and the Chairperson is selected from among the independent Outside Directors. The Compensation Committee met seven times for the fiscal year ended MarchÂ 31, 2025, with all members present at each meeting. The main matters discussed during the fiscal year ended MarchÂ 31, 2025 are as follows. Â Â - Â Basic policies and annual activity plans Â Â - Â Compensation evaluation for Directors and Executive Officers Â Â - Â LTI and share delivery rules Â Â - Â Policy to recover erroneously awarded compensation Â Â - Â Remuneration level, etc. Reasons for the Compensation Committee to determine that the details of individual remuneration for Directors and Executive Officers are in line with the determination policy The Company examines and deliberates the consistency of remuneration levels, the composition of remuneration, and the setting of targets for performance-based remuneration, etc., with the Companyâ€™s basic policy on the determination of remuneration for officers from various perspectives, based on comparisons with the external environment and information provided by external consultants. Therefore, the Compensation Committee believes that the individual remuneration for Directors and Executive Officers for the fiscal year ended MarchÂ 31, 2025 is in line with the determination policy. The total amount of fixed monthly remuneration paid to the Companyâ€™s Directors and Executive Officers during the fiscal year ended MarchÂ 31, 2025 was Â¥1,176 million. This amount includes fixed monthly remuneration paid to two Directors who retired during the fiscal year ended March 31, 2025. This also includes the amounts paid to one Director who had concurrently served as Executive Officer and resigned as of April 7, 2025. However, with respect to this individual, the Compensation Committee resolved at its meeting held on April 24, 2025, that, in accordance with the Companyâ€™s clawback policy, STI and LTI for the fiscal year ended March 31, 2025 being the period of the execution of duties will not be paid to the Director who had concurrently served as Executive Officer. Further, LTI for which the performance evaluation period had not ended at the time of resignation, was forfeited in accordance with the terms of the Stock Grant Regulations governing such LTI. The amount of fixed monthly remuneration paid to Executive Officers includes the amount of fixed monthly remuneration paid to the Executive Officers who were also Directors of subsidiaries of the Company. The total amount of STI and LTI for the Companyâ€™s Directors and Executive Officers accrued for the fiscal year ended MarchÂ 31, 2025 were Â¥471 million and Â¥380 million, respectively. The total amount of LTI includes LTI paid to one Executive Officer who retired during the fiscal year ended March 31, 2025. Â 111 Table of Contents The amounts of fixed monthly remuneration paid, STI and LTI accrued during the fiscal year ended MarchÂ 31, 2025 are as follows: Â Â Â Â Fixed remuneration Â Â Â Performance-based remuneration Â Â Â Total Â Â Â Â Remuneration Â Â Â STI Â Â Â LTI Â Â Â Â Â Â Â Â Â NumberofÂ persons Â Â Â Yen(millions) Â Â Â NumberofÂ persons Â Â Â Yen(millions) Â Â Â NumberofÂ persons Â Â Â Yen(millions) Â Â Â Yen(millions) Â Directors excluding Outside Directors Â Â Â 4 Â Â Â Â¥ 151 Â Â Â Â â€” Â Â Â Â Â¥ â€” Â Â Â Â â€” Â Â Â Â Â¥ â€” Â Â Â Â Â¥ 151 Â Outside Directors Â Â Â 6 Â Â Â Â 103 Â Â Â Â â€” Â Â Â Â â€” Â Â Â Â â€” Â Â Â Â â€” Â Â Â Â 103 Â Executive Officers Â Â Â 16 Â Â Â Â 922 Â Â Â Â 15 Â Â Â Â 471 Â Â Â Â 14 Â Â Â Â 380 Â Â Â Â 1,773 Â Â Â Â Â Â Â Â Â

Major Shareholders As of MarchÂ 31, 2025, 5,280,000,000 shares of Hondaâ€™s Common Stock were issued and 4,346,509,571Â shares were outstanding. The following table shows the shareholders of record that owned 5% or more of the issued shares of Hondaâ€™s Common Stock as of MarchÂ 31, 2025: Â Name Â Â SharesÂ owned(thousands) Â Â Â Ownership(%) Â The Master Trust Bank of Japan, Ltd. (Trust Account) Â Â Â 773,501 Â Â Â Â 17.8 Â Custody Bank of Japan, Ltd. (Trust Account) Â Â Â 282,587 Â Â Â Â 6.5 Â MoxleyÂ & Co. LLC* Â Â Â 247,552 Â Â Â Â 5.7 Â Â * MoxleyÂ & Co., LLC is the nominee of JPMorgan Chase Bank, N.A., which acts as the Depositary for the Hondaâ€™s ADSs. None of the above shareholders has voting rights that are different from those of our other shareholders. According to a statement on Schedule 13G (Amendment No. 9) filed by BlackRock, Inc. with the SEC on February 6, 2024, BlackRock, Inc. directly and indirectly held, as of December 31, 2023, 386,567,082, or 7.1% of the then issued shares, of Hondaâ€™s Common Stock. ADSs representing American Depositary Shares are issued by JPMorgan Chase Bank, N.A., as Depositary. The normal trading unit is 100 American Depositary Shares. Total issued shares of Honda as of the close of business on MarchÂ 31, 2025 were 5,280,000,000 shares of Common Stock, of which 247,552,149 shares represented by ADSs and 844,659,322 shares not represented by ADSs were owned by residents of the UnitedÂ States. The number of holders of record of the Companyâ€™s shares of Common Stock in the United States was 181Â on MarchÂ 31, 2025. To the knowledge of Honda, it is not directly or indirectly owned or controlled by any other corporation, by any government, or by any other natural or legal person or persons severally or jointly. As far as is known to the Company, there are no arrangements, the operation of which may at a subsequent date, result in a change in control of the Company. B. Related Party Transactions Honda purchases materials, supplies and services from numerous suppliers throughout the world in the ordinary course of business, including firms with which Honda is affiliated. During the fiscal year ended MarchÂ 31, 2025, Honda had sales of Â¥717.4 billion and purchases of Â¥2,093.8Â billion with affiliates and joint ventures accounted for using the equity method. As of MarchÂ 31, 2025, Honda had receivables of Â¥263.0 billion from affiliates and joint ventures, and had payables of Â¥312.9 billion to affiliates and joint ventures. Honda does not consider the amounts involved in such transactions to be material to its business. Â 117 Table of Contents C. Interests of Experts and Counsel Not applicable. Item 8. Financial Information A. Consolidated Statements and Other Financial Information 1 â€“ 3. Consolidated Financial Statements Hondaâ€™s audited consolidated financial statements are included under â€œItem 18â€”Financial Statementsâ€. 4. Not applicable. 5. Not applicable. 6. Export Sales See â€œItem 4â€”Information on the Companyâ€”Marketing and Distributionâ€. 7. Legal Proceedings Various legal proceedings are pending against us. We believe that such proceedings constitute ordinary routine litigation incidental to our business. Honda is subject to potential liability under various lawsuits and claims. Honda recognizes a provision for loss contingencies when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Honda reviews these pending lawsuits and claims periodically and adjusts the amounts recognized for these contingent liabilities, if necessary, by considering the nature of lawsuits and claims, the progress of the case and the opinions of legal counsel. With respect to product liability, personal injury claims or lawsuits, Honda believes that any judgment that may be recovered by any plaintiff for general and special damages and court costs will be adequately covered by Hondaâ€™s insurance and provision. Punitive damages are claimed in certain of these lawsuits. After consultation with legal counsel, and taking into account all known factors pertaining to existing lawsuits and claims, Honda believes that the ultimate outcome of such lawsuits and pending claims should not result in liability to Honda that would be likely to have an adverse material effect on its consolidated financial position or results of operations. 8. Profit Redistribution Policy The Company strives to carry out its operations worldwide from a global perspective and to increase its corporate value. With respect to the redistribution of profits to its shareholders, which we consider to be one of the most important management issues, the Companyâ€™s basic policy is to determine such distributions after taking into account, among others, its retained earnings for future growth and consolidated earnings performance based on a long-term perspective. With respect to dividends, the Company pays stable and continuous dividends aiming at a consolidated dividend payout ratio of approximately 30%. From the fiscal year ending March 2026 onward, the Company will adopt DOE (dividend on adjusted equity attributable to owners of the parent*) as its shareholder redistribution indicator, with a target of approximately 3.0%, in order to achieve more stable and continuous dividends. We will strive to further improve our capital efficiency and enhance the level of dividends. Â 118 Table of Contents The Company may also acquire its own shares at a timing that it deems optimal, with the goal of implementing a flexible capital strategy. Retained earnings will be allocated toward financing R&D activities that are essential for the future growth of the Company as well as for capital expenditures and investment programs that will expand its operations for the purpose of improving business results and maintaining the Companyâ€™s sound financial condition. The Companyâ€™s basic policy for dividends is to make semiannual distributions (an interim dividend and a year-end dividend). The Company may determine dividends from surplus by a resolution of the Board of Directors. The Company determined total dividends for the year ended March 31, 2025 were Â¥68 per share. Semiannual dividends per share for the year ended MarchÂ 31, 2025 were as follows: the interim Â¥34, the year-end Â¥34 per share. Details of Distribution of Surplus (Record dates of the fiscal year ended MarchÂ 31, 2025) Â Â Â Â ResolutionÂ oftheÂ Board ofDirectors Â Â Â ResolutionÂ oftheÂ Board ofDirectors Â Â Â Â NovemberÂ 6,Â 2024 Â Â Â MayÂ 13,Â 2025 Â Dividend per Share of Common Stock (yen) Â Â Â 34.00 Â Â Â Â 34.00 Â Total Amount of Dividends (millions of yen) Â Â Â 159,386 Â Â Â Â 147,960 Â Â * Adjusted â€œequity attributable to owners of the parentâ€, which is the basis for DOE (dividend on adjusted equity attributable to owners of the parent), is based on adjusted amounts that exclude â€œOther components of equityâ€, which fluctuate significantly due to the effects of foreign exchange and market conditions. B. Significant Changes Except otherwise disclosed in this Annual Report on Form 20-F, no significant change has occurred since the date of the annual financial statements. Item 9. The Offer and Listing A. Offer and Listing Details Hondaâ€™s shares have traded on the Tokyo Stock Exchange (TSE) since its shares were first listed on the TSE in 1957. Our ordinary shares are traded on the TSE under the symbol â€œ7267â€. Since FebruaryÂ 11, 1977, American Depositary Shares (each representing three shares of Common Stock and evidenced by American Depositary Receipts (ADRs)) have been listed and traded on the New York Stock Exchange (the NYSE) under the symbol â€œHMCâ€, having been traded on the over-the-counter markets in the United States since 1962. B. Plan of Distribution Not applicable. C. Markets See Item 9.A, â€œOffer and Listing Detailsâ€. D. Selling Shareholders Not applicable. Â 119 Table of Contents E. Dilution Not applicable. F. Expenses of the Issue Not applicable. Item 10. Additional Information A. Share Capital Not applicable. B. Memorandum and Articles of Association Set forth below is certain information relating to Hondaâ€™s Common Stock, including brief summaries of the relevant provisions of Hondaâ€™s Articles of Incorporation and Share Handling Regulations as currently in effect, and of the Company Law and related legislation. Additionally, the information called for by Items 10.B.3, 4, 5, 6, 7, 8, 9 and 10 of Form 20-F is included in Exhibit 2.4 to this Annual Report â€œDescription of rights of each class of securities registered under SectionÂ 12 of the Securities Exchange Act of 1934â€”Common Stockâ€ and is incorporated by reference herein. Objects and Purposes Article 2 of the Articles of Incorporation of Honda states that its purpose is to engage in the following businesses: Â Â â€¢ Â Manufacture, sale, lease and repair of motor vehicles, ships and vessels, aircraft and other transportation machinery and equipment. Â Â â€¢ Â Manufacture, sale, lease and repair of prime movers, agricultural machinery and appliances, generators, processing machinery and other general machinery and apparatus, electric machinery and apparatus and precision machinery and apparatus. Â Â â€¢ Â Manufacture and sale of fiber products, paper products, leather products, lumber products, rubber products, chemical industry products, ceramic products, metal products and other products. Â Â â€¢ Â Overland transportation business, marine transportation business, air transportation business, warehousing business, travel business and other transport business and communication business. Â Â â€¢ Â Sale of sporting goods, articles of clothing, stationery, daily sundries, pharmaceuticals, drink and foodstuffs and other goods. Â Â â€¢ Â Financial business, nonlife insurance agency business, life insurance agency business, construction business including building construction work and real estate business, including real estate brokerage. Â Â â€¢ Â Publishing business, advertising business, translation business, interpretation business, management consultancy business, information services including information processing, information communication and information provision, industrial planning and design, comprehensive security business and labor dispatch services. Â Â â€¢ Â Management of parking garages, driving schools, training and education facilities, racecourses, recreation grounds, sporting facilities, marina facilities, hotels, restaurants and other facilities. Â Â â€¢ Â Electricity generation and supply and sale of electricity. Â Â â€¢ Â Manufacture, sale and licensing of equipment, parts and supplies and all other relevant business activities and investments relating to each of the foregoing items. Â 120 Table of Contents Provisions Regarding Directors and Executive Officers There is no provision in Hondaâ€™s Articles of Incorporation as to a Directorâ€™s power to vote on a proposal, arrangement or contract in which the Director is materially interested, but the Company Law and Hondaâ€™s regulations of the Board of Directors provide that such Director is required to refrain from voting on such matters at the Board of Directorâ€™s meetings. The Company Law provides that compensation for directors and executive officers of a company which adopts a â€œcompany with three committeesâ€ corporate governance system, including Honda, is determined at the compensation committee within the board of directors, and the Articles of Incorporation of the Company also include the equivalent provisions. The compensation committee shall establish the compensation policy as well as determine the compensation for directors and executive officers. The Company Law provides that a significant loan from a third party to a company should be approved by the board of directors. There is no mandatory retirement age for directors under the Company Law or Hondaâ€™s Articles of Incorporation. The Company Law provides that any articles of incorporation of a company having no restriction on a transfer of its shares, including Honda, may not provide any requirement concerning the number of shares one individual must hold in order to qualify him or her as a director. Shareholdersâ€™ Register Manager With effect from JuneÂ 20, 2020, Mitsubishi UFJ Trust and Banking Corporation, located at 4-5, Marunouchi 1-chome, Chiyoda-ku, Tokyo, 100-8212, Japan, is the Shareholdersâ€™ Register Manager for Hondaâ€™s shares. Mitsubishi UFJ Trust and Banking Corporation maintains Hondaâ€™s register of shareholders and records the names and addresses of its shareholders and other relevant information in its register of shareholders upon notice thereof from JASDEC, as described in Exhibit 2.4 to this Annual Report â€œDescription of rights of each class of securities registered under SectionÂ 12 of the Securities Exchange Act of 1934â€”Common Stockâ€”Rights of the Sharesâ€”Record Dateâ€. C. Material Contracts All contracts concluded by Honda during the two years preceding this filing were entered into in the ordinary course of business. D. Exchange Controls There are no laws, decrees, regulations or other legislation of Japan which materially affect our ability to import or export capital for our use or our ability to pay dividends or other payments to non-resident holders of our shares. E. Taxation Japanese Taxes The following is a summary of the principal Japanese tax consequences as of the date of filing of this FormÂ 20-F to owners of Hondaâ€™s shares or ADSs who are non-resident individuals or non-Japanese corporations without a permanent establishment in Japan to which income from Hondaâ€™s shares is attributable. The tax treatment is subject to possible changes in the applicable Japanese laws or double taxation conventions occurring Â 121 Table of Contents after that date. This summary is not exhaustive of all possible tax considerations that may apply to a particular investor. Potential investors should consult their own tax advisers as to: Â Â â€¢ Â the overall tax consequences of the acquisition, ownership and disposition of shares or ADSs, including specifically the tax consequences under Japanese law; Â Â â€¢ Â the laws of the jurisdiction of which they are resident; and Â Â â€¢ Â any tax treaty between Japan and their country of residence. Generally, a non-resident of Japan or a non-Japanese corporation is subject to Japanese withholding tax on dividends paid by Japanese corporations. In the absence of any applicable tax treaty, convention or agreement reducing the maximum rate of withholding tax, the rate of Japanese withholding tax applicable to dividends paid by Japanese corporations to a non-resident of Japan or a non-Japanese corporation is (a) 20.42% for dividends to be paid on or before DecemberÂ 31, 2037, and (b) 20% for dividends to be paid thereafter. With respect to dividends paid on listed shares issued by Japanese corporations (such as Hondaâ€™s shares) to a non-resident of Japan or a non-Japanese corporation, the aforementioned 20.42% or 20% withholding tax rate is reduced to (i) 15.315% for dividends to be paid on or before DecemberÂ 31, 2037, and (ii) 15% for dividends to be paid thereafter, except for dividends paid to any individual shareholder who holds 3% or more of the issued shares of that corporation. Japan has entered into income tax treaties, conventions or agreements with various countries, whereby the maximum withholding tax rate is generally set at 15% or 10% for portfolio investors. Under the income tax treaty between Japan and the United States, the maximum withholding tax rate is generally set at 10% for portfolio investors. Pursuant to the Convention Between the United States of America and Japan for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income (the â€œU.S.-Japan Tax Treatyâ€), a portfolio investor that is a U.S. holder is generally subject to Japanese withholding tax on dividends on shares at a rate of 10%. Under Japanese tax law, the maximum rate applicable under the tax treaties, conventions or agreements shall be applicable except when such maximum rate is more than the Japanese statutory rate. Gains derived from the sale outside Japan of common stock or Depositary Receipts by a non-resident of Japan or a non-Japanese corporation, or from the sale of common stock within Japan by a non-resident of Japan or by a non-Japanese corporation not having a permanent establishment in Japan, are in general not subject to Japanese income or corporation taxes. Japanese inheritance and gift taxes at progressive rates may be payable by an individual who has acquired common stock or Depositary Receipt as a legatee, heir or donee, even if the individual is not a Japanese resident. United States Taxes This section describes the material U.S. federal income tax consequences of the ownership of shares or ADSs by U.S. holders, as defined below. It applies only to persons who hold shares or ADSs as capital assets for tax purposes. This section is based on the Internal Revenue Code of 1986, as amended (the â€œCodeâ€), its legislative history, existing and proposed regulations, published rulings and court decisions, all as currently in effect, as well as on the U.S.-Japan Tax Treaty (the â€œTreatyâ€). These authorities are subject to change, possibly on a retroactive basis. In addition, this section is based in part upon the representations of the Depositary and the assumption that each obligation in the Deposit Agreement and any related agreement will be performed in accordance with its terms. For purposes of the Treaty and the Code, U.S. holders of ADRs evidencing ADSs will be treated as the owners of the shares represented by those ADRs. Exchanges of shares for ADRs and ADRs for shares generally will not be subject to U.S. federal income tax. For purposes of this discussion, a â€œU.S. holderâ€ is a beneficial owner of shares or ADSs that is, for U.S. federal income tax purposes, (i)Â a citizen or resident individual of the Â 122 Table of Contents United States, (ii)Â a domestic corporation, (iii)Â an estate whose income is subject to United States federal income tax regardless of its source, or (iv)Â a trust if a United States court can exercise primary supervision over the trustâ€™s administration and one or more United States persons are authorized to control all substantial decisions of the trust; and that, for purposes of the Treaty, is not ineligible for benefits under the Treaty with respect to income and gain from the shares or ADSs. This section does not apply to a person who is a member of a special class of holders subject to special rules, including a dealer in securities, a trader in securities that elects to use a mark-to-market method of accounting for its securities holdings, a tax-exempt organization, a life insurance company, a person liable for alternative minimum tax, a person that actually or constructively owns 10% or more of the combined voting power of the voting stock or of the total value of the stock of Honda, a person that holds shares or ADSs as part of a straddle or a hedging or conversion transaction, a person that purchases or sells shares or ADSs as part of a wash sale for tax purposes, or a person whose functional currency is not the U.S. dollar. If a partnership holds the shares or ADSs, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. A partner in a partnership holding the shares or ADSs should consult its tax advisor with regard to the U.S. federal income tax treatment of an investment in the shares or ADSs. This summary is not a comprehensive description of all the tax considerations that may be relevant with respect to a U.S. holderâ€™s shares or ADSs. Each beneficial owner of shares or ADSs should consult its own tax advisor regarding the U.S. federal, state and local and other tax consequences of owning and disposing of shares and ADSs in its particular circumstances. Taxation of Dividends Under the U.S. federal income tax laws, and subject to the passive foreign investment company, or PFIC, rules discussed below, the gross amount of any dividend paid by Honda out of its current or accumulated earnings and profits (as determined for U.S. federal income tax purposes) to a U.S. holder is subject to U.S. federal income taxation. A U.S. holder must include any Japanese tax withheld from the dividend payment in this gross amount even though it does not in fact receive it.

Dividends paid to a noncorporate U.S. holder that constitute qualified dividend income will be taxable to such U.S. holder at the preferential rates applicable to long-term capital gains provided that the noncorporate U.S. holder holds the shares or ADSs with respect to which the dividends are paid for more than 60 days during the 121-day period beginning 60 days before the ex-dividend date and meets other holding period requirements. Dividends that Honda pays with respect to the shares or ADSs generally will be qualified dividend income if, in the year you receive the dividend, the ADSs are readily tradable on an established securities market in the United States. Our ADSs are listed on the New York Stock Exchange and we therefore expect that dividends that you receive on the ADSs will be qualified dividend income. Dividends that Honda pays with respect to the shares generally will be qualified dividend income if we are eligible for the benefits of the Treaty in the year that you receive the dividend. We believe that we are currently eligible for the benefits of the Treaty, and we therefore believe that dividends on the shares are currently qualified dividend income. There can be no assurance, however, that we will continue to qualify under the Treaty in future taxable years. A U.S. holder must include the dividend in its taxable income when the holder, in the case of shares, or the Depositary, in the case of ADSs, receives the dividend, actually or constructively. The dividend will not be eligible for the dividends-received deduction generally allowed to U.S. corporations in respect of dividends received from other U.S. corporations. The amount of the dividend distribution that a U.S. holder must include in its income will be the U.S. dollar value of the Japanese yen payments made, determined at the spot Japanese yen/U.S. dollar rate on the date of the dividend distribution, regardless of whether the payment is in fact converted into U.S. dollars. Generally, any gain or loss resulting from currency exchange fluctuations during the period Â 123 Table of Contents from the date the dividend is distributed to the date payment is converted into U.S. dollars will be treated as ordinary income or loss and will not be eligible for the special tax rate applicable to qualified dividend income. The gain or loss generally will be income or loss from sources within the U.S. for foreign tax credit limitation purposes. Distributions in excess of current and accumulated earnings and profits, as determined for U.S. federal income tax purposes, will be treated as a non-taxable return of capital to the extent of U.S. holderâ€™s basis in the shares or ADSs and thereafter as capital gain. However, Honda does not expect to calculate earnings and profits in accordance with U.S. federal income tax principles. Accordingly, a U.S. holder should expect to generally treat distributions that Honda makes as dividends. Subject to certain limitations, the Japanese tax withheld in accordance with the Treaty and paid over to Japan will be creditable or deductible against a U.S. holderâ€™s United States federal income tax liability. Special rules apply in determining the foreign tax credit limitation with respect to dividends that are subject to the preferential tax rates. To the extent a refund of the tax withheld is available to a U.S. holder under Japanese law or under the Treaty, the amount of tax withheld that is refundable will not be eligible for credit against the U.S. holderâ€™s U.S. federal income tax liability. Dividends will generally be income from sources outside the U.S. and will generally be â€œpassiveâ€ income for purposes of computing the foreign tax credit allowable to such U.S. holder. Taxation of Capital Gains Subject to the PFIC rules discussed below, if a U.S. holder sells or otherwise disposes of its shares or ADSs, it will recognize capital gain or loss for U.S. federal income tax purposes equal to the difference between the U.S. dollar value of the amount that it realizes and its tax basis, determined in U.S. dollars, in its shares or ADSs. Capital gain of a noncorporate U.S. holder is generally taxed at preferential rates where the property is held for more than one year. The gain or loss will generally be income or loss from sources within the U.S. for foreign tax credit limitation purposes. Passive Foreign Investment Company (PFIC) Rules Honda believes its shares and ADSs should not be treated as stock of a PFIC for United States federal income tax purposes. This conclusion is a factual determination that is made annually and thus may be subject to change. In general, Honda will be a PFIC with respect to a U.S. holder if for any taxable year in which such holder held shares or ADSs of Honda: Â Â â€¢ Â at least 75% of Hondaâ€™s gross income for the taxable year is passive income; or Â Â â€¢ Â at least 50% of the value, determined on the basis of a quarterly average, of Hondaâ€™s assets is attributable to assets that produce or are held for the production of passive income. Passive income generally includes dividends, interest, royalties, rents (other than certain rents and royalties derived in the active conduct of a trade or business), annuities and gains from assets that produce passive income. If a foreign corporation owns at least 25% by value of the stock of another corporation, the foreign corporation is treated for purposes of the PFIC tests as owning its proportionate share of the assets of the other corporation and as receiving directly its proportionate share of the other corporationâ€™s income. If Honda is treated as a PFIC, and a U.S. holder does not make a mark-to-market election, as described below, that U.S. holder will be subject to special rules with respect to: Â Â â€¢ Â any gain it realizes on the sale or other disposition of its shares or ADSs; and Â Â â€¢ Â any excess distribution that Honda makes to the U.S. holder (generally, any distributions to it during a single taxable year that are greater than 125% of the average annual distributions received by it in respect of the shares or ADSs during the three preceding taxable years or, if shorter, the portion of its holding period for the shares or ADSs that preceded the current taxable year). Â 124 Table of Contents Under these rules: Â Â â€¢ Â the gain or excess distribution will be allocated ratably over the U.S. holderâ€™s holding period for the shares or ADSs, Â Â â€¢ Â the amount allocated to the taxable year in which it realized the gain or excess distribution will be taxed as ordinary income, Â Â â€¢ Â the amount allocated to each prior year, with certain exceptions, will be taxed at the highest tax rate in effect for that year, and Â Â â€¢ Â the interest charge generally applicable to underpayments of tax will be imposed in respect of the tax attributable to each such year. Special rules apply for calculating the amount of the foreign tax credit with respect to excess distributions by a PFIC. If a U.S. holder owns shares or ADSs in a PFIC that are treated as marketable stock, such U.S. holder may make a mark-to-market election. If a U.S. holder makes this election, it will not be subject to the PFIC rules described above. Instead, in general, a U.S. holder will include as ordinary income each year the excess, if any, of the fair market value of its shares or ADSs at the end of the taxable year over its adjusted basis in its shares or ADSs. These amounts of ordinary income will not be eligible for the favorable tax rates applicable to qualified dividend income or long-term capital gains. A U.S. holder will also be allowed to take an ordinary loss in respect of the excess, if any, of the adjusted basis of its shares or ADSs over their fair market value at the end of the taxable year (but only to the extent of the net amount of previously-included income as a result of the mark-to-market election). The U.S. holderâ€™s basis in the shares or ADSs will be adjusted to reflect any such income or loss amounts. Shares or ADSs held by a U.S. holder will be treated as stock in a PFIC if Honda was a PFIC at any time during the U.S. holderâ€™s holding period in its shares or ADSs, even if Honda is not currently a PFIC, unless a U.S. holder has made a mark-to-market election with respect to its shares or ADSs or the U.S. holder has otherwise made a â€œpurging electionâ€ with respect to its shares or ADSs. In addition, notwithstanding any election that a U.S. holder makes with regard to the shares or ADSs, dividends that a U.S. holder receives from Honda will not constitute qualified dividend income to such U.S. holder if Honda is a PFIC (or is treated as a PFIC with respect to such U.S. holder) in either the taxable year of the distribution or the preceding taxable year. Dividends that a U.S. holder receives that do not constitute qualified dividend income are not eligible for taxation at the preferential rates applicable to qualified dividend income. Instead, the U.S. holder must include the gross amount of any such dividend paid by Honda in the U.S. holderâ€™s gross income, and it will be subject to tax at rates generally applicable to ordinary income. If a U.S. holder owns shares or ADSs during any year that Honda is a PFIC with respect to such U.S. holder, it must file Internal Revenue Service Form 8621, subject to certain applicable exceptions set forth in Internal Revenue Service regulations. Each U.S. holder should consult its own tax advisors regarding the PFIC rules and potential filing and other requirements. F. Dividends and Paying Agents Not applicable. G. Statement by Experts Not applicable. Â 125 Table of Contents H. Documents on Display Honda is subject to the information requirements of the Securities Exchange Act of 1934 and, in accordance therewith, it will file annual reports on Form 20-F and furnish other reports and information on Form 6-K with the Securities and Exchange Commission. These reports and other information can be inspected without charge at the public reference room at the Securities and Exchange Commission at 100 F Street, N.E., Washington, D.C. 20549. You can also obtain copies of such material by mail from the public reference room of the Securities and Exchange Commission at prescribed fees. You may obtain information on the operation of the Securities and Exchange public reference room by calling the Securities and Exchange Commission in the United States at 1-800-SEC-0330. The Securities and Exchange Commission also maintains a web site at www.sec.gov that contains reports, proxy statements and other information regarding registrants that file electronically with the Securities and Exchange Commission. Also, as a foreign private issuer, Honda is exempt from the rules under the Securities Exchange Act of 1934 prescribing the furnishing and content of proxy statements to shareholders. I. Subsidiary Information Not applicable. J. Annual Report to Security Holders Not applicable. Item 11. Quantitative and Qualitative Disclosure about Market Risk The information required under this Item 11 is set forth in â€œ(b) Market Riskâ€ of note â€œ(25) Financial Risk Managementâ€ to the accompanying consolidated financial statements. Item 12. Description of Securities Other than Equity Securities A. Debt Securities Not applicable. B. Warrants and Rights Not applicable. C. Other Securities Not applicable. D. American Depositary Shares 3. Fees and charges JPMorgan Chase Bank, N.A., as ADR depositary, collects fees for delivery and surrender of ADSs directly from investors, or from intermediaries acting for them, depositing ordinary shares or surrendering ADSs for the purpose of withdrawal. The ADR depositary collects fees for making distributions to investors by deducting those fees from the amounts distributed or by selling a portion of the distributable property to pay the fees. Â 126 Table of Contents The charges of the ADR depositary payable by investors are as follows: Â Category(as defined by SEC) Â Â Depositary Actions Â Associated Fee (a) Depositing or substituting the underlying shares Â Â Each person to whom ADRs are issued against deposits of Shares, including without limitation, deposits and issuances in respect of: Â â€¢â€¢â€‰Share distributions, stock split, rights, merger Â â€¢â€¢â€‰Exchange of securities or any other transaction or event or other distribution affecting the ADSs or the deposited securities Â USD 5.00 for each 100 ADSs (or portion thereof) evidenced by the new ADRs delivered (b) Receiving or distributing dividends Â Â Any Cash distribution made, or for any elective cash/ stock dividend offered. Â USD 0.05 or less per ADS (c) Selling or exercising rights Â Â Distribution or sale of securities, the fee being in an amount equal to the fee for the execution and delivery of ADSs which would have been charged as a result of the deposit of such securities Â USD 5.00 for each 100 ADSs (or portion thereof) (d) Withdrawing an underlying security Â Â Acceptance of ADRs surrendered for withdrawal of deposited securities Â USD 5.00 for each 100 ADSs (or portion thereof) evidenced by the ADRs surrendered (e) Transferring, splitting or grouping receipts Â Â Transfers, combining or grouping of depositary receipts Â Not applicable (f) General depositary services, particularly those charged on an annual basis Â Â Services performed by the depositary in administering the ADSs Â An aggregate fee of USD 0.05 or less per ADS per calendar year (or portion thereof) which fee may be charged on a periodic basis during each calendar year and shall be assessed against holders as of the record date or record dates set by the depositary during each calendar year and shall be payable at the sole discretion of the depositary by billing such holders or by deducting such charge from one or more cash dividends or other cash distributions Â 127 Table of Contents Category Â Â Depositary Actions Â Associated Fee (g) Expenses of the depositary Â Â Expenses incurred on behalf of holders in connection with Â Â Â â€¢â€¢â€‰The servicing of the shares or other deposited securities, the sale of securities (including, without limitation, deposited securities), the delivery of deposited securities or otherwise in connection with the depositaryâ€™s or its custodianâ€™s compliance with applicable law, rule or regulation. Â Fees for the reimbursement of such fees, charges and expenses may be charged on a periodic basis during each calendar year and shall be assessed on a proportionate basis against holders as of the record date or record dates set by the depositary during each calendar year and shall be payable at the sole discretion of the depositary by billing such holders or by deducting such charge from one or more cash dividends or other cash distributions. Â Â â€¢â€¢â€‰Stock transfer or other taxes and other governmental charges. Â Fees for such charges to be payable by the holders or persons depositing shares. Â Â â€¢â€¢â€‰SWIFT, telex and facsimile transmission and delivery charges incurred at the request of persons depositing, or holders delivering shares, ADSs or deposited securities. Â Fees for such charges to be payable by the persons depositing or holders delivering shares, ADSs or deposited securities. Â Â â€¢â€¢â€‰Transfer or registration fees for the registration or transfer of deposited securities on any applicable register in connection with the deposit or withdrawal of deposited securities. Â Fees for such charges to be payable by the persons depositing shares or holders withdrawing deposited securities. Â Â â€¢â€¢â€‰In connection with the conversion of foreign currency into U.S. dollars, transferring foreign currency or U.S. dollars to the United States, obtaining any approval or license of any governmental authority required for such conversion or transfer or making any sale. Â To be deducted from cash distributed to holders. 4. Direct / Indirect Payment Disclosure The Depositary has agreed to contribute to Honda a portion of certain fees received by the Depositary under the deposit agreement. From AprilÂ 1, 2024 to MarchÂ 31, 2025, such contributions totaled US$4,359,504.53. Additionally, from AprilÂ 1, 2024 to MarchÂ 31, 2025, the Depositary waived US$258,651.20 in expenses related to the Ordinary General Meeting of Shareholders. Â 128 Table of Contents PART II Itemâ€‰13. Defaults, Dividend Arrearages and Delinquencies None. Itemâ€‰14. Material Modifications to the Rights of Security Holders and Use of Proceeds None. Itemâ€‰15. Controls and Procedures Disclosure Controls and Procedures Under the supervision and participation of our management, including our Chief Executive Officer and Chief Financial Officer, we performed an evaluation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the U.S. Securities Exchange Act of 1934) as of MarchÂ 31, 2025. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of that date. Managementâ€™s Report on Internal Control over Financial Reporting The management of Honda is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the U.S. Securities Exchange Act of 1934). The Companyâ€™s internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles, and includes those policies and procedures that (1)Â pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2)Â provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3)Â provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Companyâ€™s assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or because the degree of compliance with policies or procedures may deteriorate. Our management assessed the effectiveness of internal control over financial reporting as of MarchÂ 31, 2025 based on the criteria established in â€œInternal Control-Integrated Framework (2013)â€ published by the Committee of Sponsoring Organizations of the Treadway Commission (â€œCOSOâ€). Based on that assessment, our management concluded that our internal control over financial reporting was effective as of MarchÂ 31, 2025. KPMG AZSA LLC (PCAOB ID:1009), the Companyâ€™s independent registered public accounting firm, has audited the effectiveness of the Companyâ€™s internal control over financial reporting, as stated in their report which is included herein. Changes in Internal Control over Financial Reporting No significant changes were made in our internal control over financial reporting for the fiscal year ended MarchÂ 31, 2025 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Â 129Itemâ€‰16A. Audit Committee Financial Expert Hondaâ€™s Audit Committee has determined that Mr.Â Yoichiro Ogawa and Mr.Â Jiro Morisawa are each qualified as an â€œaudit committee financial expertâ€ as defined by the rules of the SEC. Additionally, Mr.Â Ogawa and Mr.Â Morisawa each meet the independence requirements applicable under SectionÂ 303A.06 of the New York Stock Exchange Listed Company Manual. Itemâ€‰16B. Code of Ethics Honda has adopted a code of ethics that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. A copy of Hondaâ€™s code of ethics is attached as an exhibit to this Annual Report on Form 20-F. Itemâ€‰16C. Principal Accountant Fees and Services KPMG AZSA LLC has served as Hondaâ€™s independent registered public accounting firm for each of the fiscal years in the three-year period ended MarchÂ 31, 2025, for which audited financial statements appear in this Annual Report on Form 20-F. The following table presents the aggregate fees for professional services and other services rendered by KPMG AZSA LLC and the various member firms of KPMG International to Honda in the fiscal years ended MarchÂ 31, 2024 and 2025: Â Â Â Â Yen (millions) Â Â Â Â 2024 Â Â Â 2025 Â Audit Fees Â Â Â¥ 5,624 Â Â Â Â¥ 6,060 Â Audit-Related Fees Â Â Â 171 Â Â Â Â 172 Â Â Â Â Â Â Â Â Â Â Â Â Total Â Â Â¥ 5,795 Â Â Â Â¥ 6,232 Â Â Â Â Â Â Â Â Â Â Â Â

principal accountant and its affiliates which are not specifically set forth in this list must be specifically pre-approved by the Audit Committee. Â 130 None of the services described above in this Item 16C. were waived from the pre-approval requirements pursuant to Rule 2-01(c)(7)(i)(C) of Regulation S-X. Itemâ€‰16D. Exemptions from the Listing Standards for Audit Committees Not applicable. Itemâ€‰16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers The following table sets forth certain information with respect to purchases by Honda of its own shares during the fiscal year ended MarchÂ 31, 2025. There were no purchases of Hondaâ€™s shares by its affiliated purchasers during that fiscal year. Â F-2 Report of Independent Registered Public Accounting Firm To the Stockholders and Board of Directors Honda Motor Co., Ltd.: Opinion on the Consolidated Financial Statements We have audited the accompanying consolidated statements of financial position of Honda Motor Co., Ltd. and subsidiaries (the â€œCompanyâ€) as of MarchÂ 31, 2025 and 2024, the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for each of the years in the three-year period ended MarchÂ 31, 2025, and the related notes (collectively, the â€œconsolidated financial statementsâ€). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of MarchÂ 31, 2025 and 2024, and the results of its operations and its cash flows for each of the years in the three-year period ended MarchÂ 31, 2025, in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board. We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Companyâ€™s internal control over financial reporting as of MarchÂ 31, 2025, based on criteria established in Internal Control â€“ Integrated Framework (2013)Â issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated June 18, 2025 expressed an unqualified opinion on the effectiveness of the Companyâ€™s internal control over financial reporting. Basis for Opinion These consolidated financial statements are the responsibility of the Companyâ€™s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion. Critical Audit Matters The critical audit matters communicated below are matters arising from the current period audit of the consolidated financial statements that were communicated or required to be communicated to the audit committee and that: (1)Â relate to accounts or disclosures that are material to the consolidated financial statements and (2)Â involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate. Evaluation of the provisions for specific warranty programs As discussed in Note 17 to the consolidated financial statements, the Companyâ€™s provisions for product warranties as of MarchÂ 31, 2025 amounted to Â¥858,103Â million, which included the provisions for specific Â F-3 warranty programs such as product recalls. During the year ended March 31, 2025, the Company changed the method to estimate the provisions for specific warranty programs of automobile products manufactured at major production bases, from individually estimating the provisions for each specific warranty program when it was probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation, to comprehensively estimating the provisions at the time products are sold to customers. The provisions for specific warranty programs are measured by number of units sold over the past fiscal years and expected specific warranty cost per unit to be incurred after vehicle sales over its product life. In addition to the provisions comprehensively accrued, certain warranty program cost is individually accrued when it is deemed appropriate by considering its nature and magnitude of each program. This change in accounting estimate resulted in the increase of the provisions for product warranties by Â¥127,554 million, which was included in selling, general and administrative expenses. We identified the evaluation of the provisions for specific warranty programs including the change in method used to develop the estimate as a critical audit matter as a high degree of auditor judgment was required to evaluate 1) the factors considered by management to change the method used to estimate the provisions and 2) the expected specific warranty cost per unit to develop the provisions comprehensively accrued for specific warranty programs. The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls related to the Companyâ€™s process of the provisions for specific warranty programs. This included controls related to the change in method to estimate the provisions and the determination of the expected specific warranty cost per unit to develop the provisions comprehensively accrued for specific warranty programs. We assessed the timing of the Companyâ€™s decision to change the method to estimate the provisions by considering newly obtained information and changes in the circumstances. We evaluated the expected specific warranty cost per unit by comparing it to historical trends of warranty costs and testing the reliability of data used to determine the expected specific warranty cost per unit. Allowance for expected credit losses on retail receivables at the finance subsidiary in the United States As discussed in Note 7 to the consolidated financial statements, the Companyâ€™s allowance for expected credit losses (ECL) related to receivables from financial services was Â¥82,125Â million as of MarchÂ 31, 2025, which included the allowance for ECL on retail receivables which amounted to Â¥78,450Â million. The allowance for ECL on retail receivables is measured at amounts according to the ECL methodology, including the determination on whether credit risk increased significantly since initial recognition. ECL is a probability-weighted estimate of the difference between the contractual cash flows and the cash flows that the Company expects to receive, which can be affected by forward-looking economic conditions. At the finance subsidiary in the United States, ECL on retail receivables is determined for groups of financial assets based on relevant risk characteristics including borrower, collateral and macroeconomic risk characteristics. We identified the assessment of the allowance for ECL on retail receivables at the finance subsidiary in the United States as a critical audit matter. A high degree of audit effort, including specialized skills and knowledge, and subjective and complex auditor judgment was involved in the assessment due to measurement uncertainty. Specifically, the assessment encompassed the evaluation of the ECL methodology, including (1)Â the methods and models used to derive the allowance for ECL and significant increases in credit risk since initial recognition and (2)Â the selection of the forward-looking economic conditions and the probability weightings. In addition, auditor judgment was required to evaluate the sufficiency of audit evidence obtained. The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls related to the allowance for ECL estimate, including controls related to: Â Â â€¢ Â continued use and appropriateness of the ECL methodology and models, including the determination of significant increases in credit risk since initial recognition and the selection of the forward-looking economic conditions and the probability weightings, Â F-4 Â Â â€¢ Â analysis of model results as compared to actual loss performance, and Â Â â€¢ Â re-evaluation of the model used to estimate expected credit losses. We evaluated the Companyâ€™s process to develop the allowance for ECL by testing certain sources of data, factors, and assumptions that the Company used, and considered the relevance and reliability of such data, factors, and assumptions. In addition, we involved credit risk professionals with specialized skills and knowledge, who assisted in: Â Â â€¢ Â evaluating the Companyâ€™s ECL methodology for compliance with International Financial Reporting Standards as issued by the International Accounting Standards Board, Â Â â€¢ Â assessing the conceptual soundness and performance testing of the models by inspecting model documentation to determine whether the models are consistent with the model methodology and are suitable for their intended use, Â Â â€¢ Â evaluating the Companyâ€™s method to measure significant increases in credit risk since initial recognition by performing a sensitivity analysis over the significant increase in credit risk threshold, Â Â â€¢ Â assessing the selection of the forward-looking economic conditions and the probability weightings by comparing them to the Companyâ€™s business environment and relevant industry practices, and Â Â â€¢ Â evaluating model back-testing results to verify model output is consistent with actual loss performance. We also assessed the sufficiency of the audit evidence obtained by evaluating the: Â Â â€¢ Â cumulative results of the audit procedures, Â Â â€¢ Â qualitative aspects of the Companyâ€™s accounting practices, and Â Â â€¢ Â potential bias in the accounting estimates. Estimated end of term residual values of lease vehicles at the finance subsidiary in the United States As discussed in Note 3(f) to the consolidated financial statements, depreciation of equipment on operating leases is calculated on the straight-line method over the lease term. The Companyâ€™s equipment on operating leases as of MarchÂ 31, 2025 was Â¥5,748,187Â million, which included leased vehicles at the finance subsidiary in the United States. Equipment on operating leases is depreciated to the lower of contract residual value or estimated end of term residual value, and adjustments to estimated end of term residual values are made prospectively on a straight-line basis over the remaining term of the lease. At the finance subsidiary in the United States, the primary factors that affect estimated end of term residual values of leased vehicles are the percentage of leased vehicles expected to be returned by the lessees and the expected market values of leased vehicles at the end of their lease terms. Factors considered in this evaluation include, among other factors, economic conditions, external market information on new and used vehicles, historical trends, and recent auction values. We identified the assessment of estimated end of term residual values of leased vehicles at the finance subsidiary in the United States as a critical audit matter. A high degree of audit effort, including specialized skills and knowledge, and subjective and complex auditor judgment was involved in the assessment due to measurement uncertainty. Specifically, complex auditor judgment was required to assess the residual value methodology, the model used to estimate the percentage of leased vehicles expected to be returned by the lessee at the end of the lease term and the expected market values of leased vehicles at the end of the lease term. In addition, auditor judgment was required to evaluate the sufficiency of audit evidence obtained. The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls related to the Companyâ€™s measurement of the end of term residual values of lease vehicles estimate, including controls related to the: Â Â â€¢ Â development of the residual value methodology, including the identification and determination of the expected market values of leased vehicles at the end of the lease term assumption, Â F-5 Â â€¢ Â continued use and appropriateness of the model used to estimate the percentage of leased vehicles expected to be returned, Â Â â€¢ Â evaluation of the percentage of lease vehicles expected to be returned by the lessees as compared to actual vehicles returned, and Â Â â€¢ Â analysis of the actual gain or loss recorded on the disposition of lease vehicles. We evaluated the Companyâ€™s process to develop the estimated end of term residual values of lease vehicles by testing certain sources of data, factors, and assumptions that the Company used, and considered the relevance and reliability of such data, factors, and assumptions. In addition, we involved valuation professionals with specialized skills and knowledge, who assisted in: Â Â â€¢ Â evaluating the Companyâ€™s residual value methodology for compliance with International Financial Reporting Standards as issued by the International Accounting Standards Board, Â Â â€¢ Â assessing the conceptual soundness and performance testing of the model by inspecting model documentation to determine whether the model is consistent with the model methodology and is suitable for their intended use, and Â Â â€¢ Â evaluating the Companyâ€™s expected market values of leased vehicles at the end of the lease term assumption by comparing it to specific portfolio risk characteristics and trends. We also assessed the sufficiency of the audit evidence obtained by evaluating the: Â Â â€¢ Â cumulative results of the audit procedures, Â Â â€¢ Â qualitative aspects of the Companyâ€™s accounting practices, and Â Â â€¢ Â potential bias in the accounting estimates. /s/ KPMG AZSA LLC We have served as the Companyâ€™s auditor since 1962. Tokyo, Japan June 18, 2025 Â F-6 Report of Independent Registered Public Accounting Firm To the Stockholders and Board of Directors Honda Motor Co., Ltd.: Opinion on Internal Control Over Financial Reporting We have audited Honda Motor Co., Ltd. and subsidiariesâ€™ (the â€œCompanyâ€) internal control over financial reporting as of MarchÂ 31, 2025, based on criteria established in Internal Control â€“ Integrated Framework (2013)Â issued by the Committee of Sponsoring Organizations of the Treadway Commission. In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of MarchÂ 31, 2025, based on criteria established in Internal Control â€“ Integrated Framework (2013)Â issued by the Committee of Sponsoring Organizations of the Treadway Commission. We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated statements of financial position of the Company as of MarchÂ 31, 2025 and 2024, the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for each of the years in the three-year period ended MarchÂ 31, 2025, and the related notes (collectively, the consolidated financial statements), and our report dated June 18, 2025 expressed an unqualified opinion on those consolidated financial statements. Basis for Opinion The Companyâ€™s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Managementâ€™s Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Companyâ€™s internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the

Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Definition and Limitations of Internal Control Over Financial Reporting A companyâ€™s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A companyâ€™s internal control over financial reporting includes those policies and procedures that (1)Â pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2)Â provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3)Â provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the companyâ€™s assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. /s/ KPMG AZSA LLC Tokyo, Japan June 18, 2025 Â F-7 HONDA MOTOR CO., LTD. and IFRIC). (b) Basis of Measurement The consolidated financial statements have been prepared on the historical cost basis, except for certain assets and liabilities separately stated in note 3. (c) Functional Currency and Presentation Currency The consolidated financial statements are presented in Japanese yen, which is the functional currency of the Company. All financial information presented in Japanese yen has been rounded to the nearest million Japanese yen, except when otherwise indicated. (d) New Accounting Standards and Interpretations Not Yet Adopted New or amended standards and interpretations that have been issued as of the date of approval of the consolidated financial statements but are not effective and have not yet been adopted by Honda as of MarchÂ 31, 2025Â are as follows. Honda is currently evaluating the impact of adoption of this standard on the Companyâ€™s consolidated financial statements. Â Standards andÂ interpretations Â Â MandatoryÂ adoption(fromÂ fiscalÂ yearsbeginningÂ onÂ orÂ after) Â Â
ReportingÂ periodsÂ inwhichÂ theÂ CompanyÂ isscheduledÂ toÂ adoptÂ thestandards Â Â OverviewÂ ofÂ newÂ orÂ amendedstandardsÂ andÂ interpretations IFRS 18 Â Presentation and Disclosure in Financial Statements Â Â JanuaryÂ 1, 2027 Â Â Fiscal year endingMarch 31, 2028 Â Â NewÂ standardÂ which supersedes current standard of presentation and disclosure in financial statements(e) Use of Estimates and Judgments The preparation of consolidated financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies, the reported amount of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. Actual results could differ from these estimates. Â F-13 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â These estimates and underlying assumptions are reviewed on a continuous basis. Changes in these accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Information about judgments that have been made in the process of applying accounting policies and that have significant effects on the amounts reported in the consolidated financial statements is as follows: Â Â â€¢ Â Scope of subsidiaries, affiliates and joint ventures (notes 3(a) and 3(b)) Â Â â€¢ Â Recognition of intangible assets arising from development (note 3(h)) Â Â â€¢ Â Accounting for contracts including lease (note 3(i)) Information about accounting estimates and assumptions that have significant effects on the amounts reported in the consolidated financial statements is as follows: Â Â â€¢ Â End of term residual values of operating lease vehicles (note 3(f)) Â Â â€¢ Â Valuation of financial assets measured at amortized cost and debt securities classified into financial assets measured at fair value through other comprehensive income (notes 6, 7 and 8) Â Â â€¢ Â Fair value of financial instruments (note 26) Â Â â€¢ Â Net realizable value of inventories (note 9) Â Â â€¢ Â Recoverable amount of non-financial assets (notes 11, 12 and 13) Â Â â€¢ Â Measurement of provisions (note 17) Â Â â€¢ Â Measurement of net defined benefit liabilities (assets) (note 18) Â Â â€¢ Â Recoverability of deferred tax assets (note 23) Â Â â€¢ Â Likelihood and magnitude of outflows of resources embodying economic benefits required to settle contingent liabilities (note 28) (3) Material Accounting Policies (a) Basis of Consolidation The consolidated financial statements include the accounts of the Company, its subsidiaries which are directly or indirectly controlled by the Company, and those structured entities which are controlled by Honda. All significant intercompany balances and transactions have been eliminated in consolidation. Honda controls an entity when Honda is exposed or has rights to variable returns from involvement with the entity, and has the ability to affect those returns by using its power, which is the current ability to direct the relevant activities, over the entity. To determine whether or not Honda controls an entity, status of voting rights or similar rights, contractual agreements and other specific factors are taken into consideration. Structured entities are entities designed so that voting or similar rights are not the dominant factor in deciding who controls the entity. Honda consolidates structured entities over which it has control, by comprehensively determining whether its control over the entity exists based on any contractual arrangements with such entity as well as the percentage of its voting or similar rights in the entity.The financial statements of subsidiaries are included in the consolidated financial statements from the date when the control is obtained until the date when the control is lost. The financial statements of subsidiaries have been adjusted in order to ensure consistency with the accounting policies adopted by the Company as necessary. Â F-14 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â Changes in the Companyâ€™s ownership interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. When control over a subsidiary is lost, the investment retained after the loss of control is remeasured at fair value as of the date of the loss of control, and any gain or loss on such remeasurement and disposal of the interest sold is recognized in profit or loss. (b) Investments in Affiliates and Joint Ventures (Investments Accounted for Using the Equity Method) Affiliates are entities over which Honda has a significant influence over the decisions on financial and operating policies, but does not have control or joint control. Joint ventures are joint arrangements whereby the parties including Honda that have joint control have rights to the net assets of the arrangement. Joint arrangements are arrangements of which two or more parties have joint control, and joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control. Investments in affiliates and joint ventures are accounted for using the equity method from the date when the investees are determined to be affiliates or joint ventures until the date when they ceased to be classified as affiliates or joint ventures. Under the equity method, the investment is initially recognized at cost, and the carrying amount is subsequently increased or decreased, to recognize Hondaâ€™s share of profit or loss and other comprehensive income of the affiliate or the joint venture after the date of initial recognition. The financial statements of affiliates and joint ventures have been adjusted in order to ensure consistency with the accounting policies adopted by the Company in applying the equity method, as necessary. The use of the equity method is discontinued from the date when the investees are determined to be no longer affiliates or joint ventures. The investment retained after cessation of the equity method is remeasured at fair value, and any gain or loss on such remeasurement and disposal of the investment is recognized in profit or loss. (c) Foreign Currency Translations 1) Foreign currency transactions Foreign currency transactions are translated into the respective functional currencies at the exchange rates prevailing when such transactions occur. All foreign currency receivables and payables are translated into the respective functional currencies at the applicable exchange rates at the end of the reporting period. Gains or losses on exchange differences arising on settlement of foreign currency receivables and payables or on their translations at the end of the reporting date are recognized in profit or loss and they are included in finance income and finance costs-other, net in the consolidated statements of income. 2) Foreign operations All assets and liabilities of foreign subsidiaries, affiliates and joint ventures (collectively â€œforeign operationsâ€), which use a functional currency other than Japanese yen, are translated into Japanese yen at the exchange rates at the end of the reporting period. All revenues and expenses of foreign operations are translated into Japanese yen at the average exchange rate for the period except when a functional currency is the currency of a hyperinflationary economy. Exchange differences arising from translation are recognized in other comprehensive income and accumulated in other components of equity in the consolidated statements of financial position. When a foreign operation is disposed of, and control, significant influence or joint control over the foreign operation is lost, the cumulative amount of exchange differences relating to the foreign operation is reclassified from equity to profit or loss. Â F-15 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â (d) Financial Instruments A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity security of another entity. When Honda becomes a party to the contractual provision of a financial instrument, the financial instrument is recognized either as a financial asset or as a financial liability. When Honda purchases or sells a financial asset, the financial asset is recognized or derecognized at the trade date. 1) Non-derivative financial assets Honda classifies financial assets other than derivatives into â€œfinancial assets measured at amortized costâ€, â€œfinancial assets measured at fair value through other comprehensive incomeâ€ or â€œfinancial assets measured at fair value through profit or lossâ€. Honda determines the classification of financial assets upon initial recognition. Financial assets are derecognized when the contractual rights to cash flows from the financial assets expire, or when the contractual rights to receive the cash flows from the financial assets are transferred and all risks and rewards of ownership of the financial assets are substantially transferred. Financial assets measured at amortized cost A financial asset is classified into financial assets measured at amortized cost when the asset is held within a business model whose objective is to hold the asset in order to collect the contractual cash flows, and the contractual term of the financial asset gives rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial assets measured at amortized cost except trade receivables arising from contracts with customers are initially measured at their fair value and trade receivables arising from contracts with customers are initially measured at their transaction price. Financial assets measured at amortized cost are subsequently measured at amortized cost using the effective interest method. Financial assets measured at fair value A financial asset other than a financial asset measured at amortized cost is classified into financial assets measured at fair value. The financial assets measured at fair value are further classified into the following categories: Financial assets measured at fair value through other comprehensive income A debt security is classified into financial assets measured at fair value through other comprehensive income when the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The debt securities are initially measured at their fair value, and subsequent changes in fair value are recognized in other comprehensive income except for impairment gain or loss and foreign exchange gain or loss. When the debt securities are derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss.Honda elects to designate investments in equity securities such as shares, held for maintaining and strengthening the trade relationship as financial assets measured at fair value through other comprehensive income. Equity securities designated as financial assets measured at fair value through other comprehensive income are initially measured at their fair value, and subsequent changes in fair value of the investment are recognized in other comprehensive income. However, dividends from the equity securities are principally recognized in profit or loss. When the equity securities are derecognized, the cumulative gain or loss previously recognized in other comprehensive income is directly reclassified to retained earnings. Â F-16 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â Financial assets measured at fair value through profit or loss Financial assets measured at fair value other than financial assets measured at fair value through other comprehensive income are classified into financial assets measured at fair value through profit or loss. Financial assets measured at fair value through profit or loss are initially measured at their fair value, and subsequent changes in fair value are recognized in profit or loss. (Cash and cash equivalents) Cash and cash equivalents consist of cash on hand, demand deposits, and short-term highly liquid investments that are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Honda includes all highly liquid debt instruments with original maturities of three months or less in cash equivalents. 2) Non-derivative financial liabilities Financial liabilities other than derivatives are initially measured at their fair value, and are subsequently measured at amortized cost using the effective interest method. Financial liabilities are derecognized, when the obligations specified in the contract are discharged, canceled or expire. 3) Derivatives Honda has entered into foreign exchange and interest rate agreements to manage currency and interest rate exposures. These agreements include foreign currency forward exchange contracts, currency option contracts, currency swap agreements and interest rate swap agreements. All these derivatives are initially recognized as assets or liabilities and measured at fair value, when Honda becomes a party to the contractual provision of the derivatives. Subsequent changes in fair value of derivatives are recognized in profit or loss in the period of the changes. Honda has not held any derivatives designated as hedging instruments for the years ended MarchÂ 31, 2023, 2024 and 2025. 4) Offsetting of financial assets and financial liabilities Financial assets and financial liabilities are offset and the net amount is presented in the consolidated statements of financial position, only when Honda currently has a legally enforceable right to offset the recognized amounts, and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.(e) Inventories Inventories are measured at the lower of cost and net realizable value. The cost of inventories includes purchase costs and conversion costs, and it is determined principally by using the first-in first-out method. Conversion cost includes an appropriate share of production overheads on the normal operation capacity. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Â F-17 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â (f) Equipment on Operating Leases Equipment on operating leases is measured based on the cost model and carried at its cost less accumulated depreciation and impairment losses. A vehicle subject to operating lease is initially measured at its cost. Depreciation of equipment on operating leases is calculated on the straight-line method over the lease term. The depreciable amount is the cost of the vehicle less its residual value. Our most significant finance subsidiary located in the United States determines contractual residual values of operating lease vehicles at lease inception based on expectations of used vehicle values at the end of their lease term. The finance subsidiary in the United States depreciates operating lease vehicles on a straight-line basis over the lease term to the lower of contract residual values or estimated end of term residual values. The finance subsidiary in the United States assesses its estimates for end of term residual values of lease vehicles, at minimum, on a quarterly basis. Adjustments to estimated residual values are made on a straight-line basis over the remaining term of the lease and are recognized as depreciation expense. Lease customers have the option at the end of the lease term to return the vehicle to the dealer or to buy the vehicle for the contractual residual value (or if purchased prior to lease maturity, for the outstanding contractual balance). Returned lease vehicles can be purchased by the grounding dealer for the contractual residual value (or if purchased prior to lease maturity, for the outstanding contractual balance) or a market based price. Returned lease vehicles that are not purchased by the grounding dealers are sold through online and physical auctions. Estimated end of term residual values are dependent on the percentage of leased vehicles expected to be returned by lessees and the expected market values of leased vehicles at the end of their lease terms. Factors considered in this evaluation include, among other factors, economic conditions, external market information on new and used vehicles, historical trends, and recent auction values. (g) Property, Plant and Equipment Property, plant and equipment is measured based on the cost model and carried at its cost less accumulated depreciation and impairment losses. Property, plant and equipment is initially measured at its cost. Subsequent expenditures on an item of property, plant and equipment acquired, are recognized in the carrying amount of the item, only when it is probable that the expenditure will generate a future economic benefit. Depreciation of property, plant and equipment, except for land that is not subject to depreciation, is calculated on the straight-line method over the estimated useful life. The depreciable amount is the cost of the asset less the respective estimated residual values. The estimated useful lives used in calculating depreciation of property, plant and equipment are mainly as follows: Â Â â€¢ Â Buildings and structures: 3 to 50 years Â Â â€¢ Â Machinery and equipment: 2 to 20 years The depreciation method, useful lives and residual values of property, plant and equipment are reviewed annually at each fiscal year end, and adjusted prospectively, if appropriate. Â F-18 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â Property, plant and equipment in the consolidated statements of financial position includes right-of-use assets under lease arrangements. For the accounting for the right-of-use assets, see note â€œ(3) Material Accounting Policies (i)Â Lease.â€ (h) Intangible Assets Intangible assets are measured based on the cost model and carried at their cost less accumulated amortization and impairment losses. (Research and development) Development expenditure for a product is capitalized only when there is a technical and commercial feasibility of completing the development, Honda has intention, ability and sufficient resources to use the outcome of the development, it is probable that the outcome will generate a future economic benefit, and the cost can be measured reliably. Capitalized development cost is measured at the sum of expenditures for development incurred between when the foregoing conditions for capitalization are initially met and when the development is completed, and includes all directly attributable costs to the development process. Capitalized development cost is amortized using the straight-line method over the expected product life cycle of the developed product ranging mainly from 2 to 6 years. Expenditures on research and other development expenditures which do not meet the foregoing conditions are expensed as incurred. (Other intangible asset) Other intangible assets are initially measured at cost and principally amortized using the straight-line method over their estimated useful lives. Other intangible assets are mainly comprised of software for internal use whose estimated useful lives range from 3 to 5 years. The amortization method and useful lives of intangible assets are reviewed annually at each fiscal year end, and adjusted prospectively, if appropriate. (i) Lease At inception of a contract, Honda assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. When Honda has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use and the right to direct the use of the identified asset, the contract conveys the right to control the use of the identified asset.1) Lease as a lessee A right-of-use asset and a lease liability are recognized at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the amount of initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date, any initial direct costs incurred by the lessee and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset. For a contract that contains a lease component and non-lease components, Honda has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component. Â F-19 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â The right-of-use asset is measured based on the cost model and carried at its cost less accumulated depreciation and impairment losses. After the initial recognition, depreciation of the right-of-use asset is subsequently calculated on the straight-line method from the commencement date to the earlier of

the end of the useful life of the underlying asset or the end of the lease term. The estimated useful lives of underlying assets, see note â€œ(3) Material Accounting Policies (g)Â Property, Plant and Equipment.â€ The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, Hondaâ€™s incremental borrowing rate. Lease payments included in the measurement of the lease liability comprise mainly the fixed payments (including the lease payments in an optional renewal period if Honda is reasonably certain to exercise the extension option) and the penalties for termination of a lease unless Honda is reasonably certain not to terminate early. After the initial recognition, the lease liability is measured by increasing the carrying amount to reflect interest that produces a constant periodic rate of interest on the remaining balance of the lease liability and reducing the carrying amount to reflect the lease payments. The lease liability is remeasured if Honda changes its assessment of whether it will exercise an extension or termination option. When the lease liability is remeasured, the amount of the remeasurement of the lease liability is recognized as an adjustment to the right-of-use asset. However, if the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, any remaining amount of the remeasurement is recognized in profit or loss. 2) Lease as a lessor For a contract that is, or contains a lease, the lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset and the lease other than finance lease is classified as an operating lease. Honda assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. The finance subsidiaries of the Company engage in the business of leasing vehicles as a lessor. A receivable from customer held under a finance lease is initially recognized at the amount of net investment in the lease which is the gross investment in the lease discounted at the interest rate implicit in the lease, and included in receivables from financial services in the consolidated statements of financial position. Vehicles subject to operating leases are presented as equipment on operating leases in the consolidated statements of financial position.If a contract contains lease and non-lease components, Honda applies IFRS 15 to allocate the consideration in the contract. Â F-20 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â (j) Impairment 1) Financial assets measured at amortized cost and debt securities classified into financial assets measured at fair value through other comprehensive income The allowance for impairment losses of financial assets measured at amortized cost other than trade receivables and debt securities classified into financial assets measured at fair value through other comprehensive income is measured at amounts according to the three-stage expected credit loss (ECL) model: Â Â Stageâ€‰1 12-month ECL for financial assets without a significant increase in credit risk since initial recognition Â Â Stageâ€‰2 Lifetime ECL for financial assets with a significant increase in credit risk since initial recognition but that are not credit-impaired Â Â Stageâ€‰3 Lifetime ECL for credit-impaired financial assets The allowance for impairment losses of trade receivables is continuously measured at amounts equal to lifetime ECL. Lifetime ECL represents ECL that results from all possible default events over the expected life of a financial asset. 12-month ECL is the portion of lifetime ECL that results from default events that are possible within 12 months after the reporting date. ECL is a probability-weighted estimate of the difference between the contractual cash flows and the cash flows that the entity expects to receive, discounted at the original effective interest rates. Receivables from financial services â€“ Allowance for credit losses The allowance for credit losses is managementâ€™s estimate of ECL on receivables from financial services. To determine whether credit risk has increased significantly, consumer finance receivables are assessed both individually and collectively. Individual assessments are based on delinquencies. Consumer finance receivables 30 days or greater past due have historically experienced increased default rates and therefore are considered to have a significant increase in credit risk. Collective assessments are performed for groups of consumer finance receivables with shared risk characteristics such as the period of initial recognition, collateral type, original term, and credit score considering relative changes in expected default rates since initial recognition. Dealer finance receivables are assessed at the individual dealership level to determine whether credit risk has increased significantly considering payment performance and other factors such as changes in the financial condition of the dealership and compliance with debt covenants. Our definition of default on receivables from financial services varies depending on internal risk management practices of each of our finance subsidiaries. Our most significant finance subsidiary located in the United States considers delinquencies of 60 days past due to be in default. Collection efforts on consumer finance receivables are escalated after becoming 60 days past due including repossession of the underlying vehicles if it has been determined that the borrower is unable to perform on their obligations. Defaulted consumer finance receivables are considered to be credit-impaired. Dealer finance receivables are considered to be credit-impaired when there is evidence we will be unable to collect all amounts due in accordance with the original contractual terms including significant financial difficulty of the dealership, a breach of contract, such as a default or delinquency, or bankruptcy. Â F-21 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â At the finance subsidiary in the United States, the estimated uncollectible portion of consumer finance receivables are written-off at 120 days past due or upon repossession of the underlying vehicle. Although various statutory regulations limit the length of time and circumstances when enforcement activities can be taken, in general, the outstanding contractual balances continue to be subject to enforcement activities for several years after write-offs. The portion of outstanding contractual balances that is estimated to be uncollectible reflects our expectations of collections from enforcement activities. Dealer finance receivables are written-off when there is no reasonable expectation of recovery. At the finance subsidiary in the United States, ECL of consumer finance receivables is measured for groups of financial assets with shared risk characteristics by reflecting historical results, current conditions and forward-looking factors such as unemployment rates, used vehicles prices, and consumer debt service burdens. 2) Non-financial assets and investments accounted for using the equity method At the end of the reporting period, the carrying amount of non-financial assets other than inventories and deferred tax assets (which are comprised mainly of equipment on operating leases, property, plant and equipment, and intangible assets) is assessed to determine whether or not there is any indication of impairment. If there is such an indication, the recoverable amount of such asset is estimated and compared with the carrying amount of the asset, as test of impairment. For investments accounted for using the equity method, the entire carrying amount of each investment in affiliates and joint ventures is tested for impairment as a single asset, when there is objective evidence that the investments accounted for using the equity method may be impaired. The recoverable amount of an individual asset or a cash-generating unit is the higher of fair value less costs to sell and value in use. Value in use is determined as the present value of future cash flows expected to be derived from an asset or a cash-generating unit. A cash-generating unit is determined as the smallest identifiable group of assets that generate cash inflows which are largely independent of cash inflows from other assets or a group of assets. When it is not possible to estimate the recoverable amount of the individual asset, the recoverable amount of the cash-generating unit to which the asset belongs is estimated. When the carrying amount of an asset or a cash-generating unit exceeds the recoverable amount, the carrying amount is reduced to the recoverable amount and an impairment loss is recognized in profit or loss. An impairment loss for a cash-generating unit is allocated to the assets on the basis of the relative carrying amount of each asset in the unit. An impairment loss recognized for an asset or a cash-generating unit in prior period is reversed, if there is any indication that the impairment loss may have decreased or may no longer exist, and when the recoverable amount of the asset exceeds the carrying amount. If this is the case, the carrying amount of the asset is increased to its recoverable amount, but the increased carrying amount does not exceed the carrying amount (net of depreciation or amortization) calculated on the basis that no impairment loss had occurred in the prior period. (k) Provisions Provisions are recognized when Honda has present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are measured based on the best estimate of expenditure required to settle the present obligation at the end of the reporting period. Where the effect of the time value of money is material, a provision is measured at the present value of the expenditures required to settle the obligation. In calculating the present value, a pre-tax rate that reflects current market assessment of the time value of money and the risks specific to the liability is used as the discount rate. Â F-22 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â (l) Employee Benefits 1) Short-term employee benefits For short-term employee benefits including salaries, bonuses and paid annual leave, when the employees render related services, the amounts expected to be paid in exchange for those services are recognized as expenses. 2) Post-employment benefits Honda has various post-employment benefit plans including defined benefit plans and defined contribution plans. Defined benefit plans For defined benefit plans, the present value of defined benefit obligations less the fair value of plan assets is recognized as either liability or asset in the consolidated statements of financial position. In the case that an entity has a surplus in a defined benefit plan, the recognized asset is limited to present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan. The present value of defined benefit obligations and service cost are principally determined for each plan using the projected unit credit method. The discount rate is determined by reference to market yields at the end of the reporting period on high quality corporate bonds that are consistent with the currency and estimated term of the post-employment benefit obligation. Net interest on the net defined benefit liability (asset) for the reporting period is determined by multiplying the net defined benefit liability (asset) by the discount rate. Past service cost defined as the change in the present value of the defined benefit obligation resulting from a plan amendment or curtailment is recognized in profit or loss upon occurrence of the plan amendment or curtailment. Honda recognizes the difference arising from remeasurement of present value of the defined benefit obligations and the fair value of the plan assets in other comprehensive income when it is incurred, and reclassifies it immediately to retained earnings. Defined contribution plans For defined contribution plans, when the employees render related services, the contribution payables to defined contribution plan are recognized as expenses. (m) Equity 1) Common share Common share issued by the Company is classified as equity, and the proceeds from issuance of common share are included in common stock and capital surplus.2) Treasury stock Treasury stock acquired by Honda is recognized at cost and deducted from equity. When treasury stock is sold, the consideration received is recognized as equity with the difference between the carrying amount and the consideration received included in capital surplus. Â F-23 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â (n) Revenue Recognition 1) Sale of products Sales of products are reported by Motorcycle business, Automobile business, Power products and other businesses. For details of the information on each business, see note 4. Honda recognizes revenue when control over products is transferred to customers. This transfer generally corresponds to the date of delivery of products to customers. Revenue is measured based on consideration specified in a contract with customer and excludes amounts collected on behalf of third parties. The total consideration in the contract is allocated to all products and services based on their stand-alone selling prices. The stand-alone selling prices are determined with reference to the selling prices of similar products or services and other reasonably available information. Honda provides dealer incentives, which generally represent discounts provided from Honda to the dealer. Honda also provides incentive programs generally in the form of below-market interest rate loans or lease programs for the retail customers to enhance dealerâ€™s sales activities. The amount incurred for these programs is calculated based on the difference between the interest or lease rate offered to retail customers and the market-based interest or lease rate. These incentives are considered variable consideration when determining the transaction price and they are deducted from sales revenue recognized when products are sold to the dealers. Sales revenue is recognized only to the extent that it is highly probable that a significant reversal will not occur when the uncertainty associated with the variable consideration is subsequently resolved. Customers usually pay consideration for sales of products within 30 days from the transfers of control over the products to customers. In addition, product sales contracts with customers include warranty clauses to guarantee that the products comply with agreed-upon specifications and Honda recognizes provisions for product warranties to meet these guarantees. For more information on product warranties, see note 17. 2) Rendering of financial services Interest income from receivables from financial services is recognized using the effective interest method. Finance receivable origination fees and certain direct origination costs are included in the calculation of the effective interest rate, and the net fee or cost is amortized using the effective interest method over the contractual term of the finance receivables. The finance subsidiaries of the Company offer financial services that contain a lease. Interest income from receivables held under a finance lease is recognized using the effective interest method. When Honda is the manufacturer or dealer lessor, sales revenue and the corresponding cost for a portion identified as sale of products is recognized in profit or loss in accordance with the policy on revenue recognition for sale of products. Revenue from operating leases is recognized on a straight-line basis over the term of the lease.(o) Income Taxes Income tax expenses are presented as the aggregate amount of current taxes and deferred taxes. Current taxes and deferred taxes are recognized in profit or loss, except for the tax arising from a transaction which is recognized either in other comprehensive income or directly in equity. Â F-24 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â Current taxes are measured at the amount expected to be paid to (or recovered from) the taxation authorities in respect of the taxable profit (or tax loss) for the reporting period, using the tax rates and tax laws enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are recognized for future tax consequences attributable to temporary differences between the carrying amount of assets or liabilities in the consolidated statements of financial position and the tax base of the assets or liabilities and carryforward of unused tax losses and tax credits. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses, and unused tax credits can be utilized. Deferred tax liabilities for taxable temporary differences related to investments in subsidiaries and affiliates, and interest in joint ventures are not recognized to the extent that Honda is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future. Deferred tax assets for deductible temporary differences arising from investments in subsidiaries and affiliates, and interest in joint ventures are recognized to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which they can be utilized. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the assets are realized or the liabilities are settled, based on the tax rates and tax laws enacted or substantively enacted at the end of the reporting period. The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which Honda expects, at the end of reporting period, to recover or settle the carrying amount of its assets and liabilities. Honda reviews the carrying amount of deferred tax assets at the end of each reporting period, and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax assets to be utilized. Deferred tax assets and deferred tax liabilities are offset, only when Honda has a legally enforceable right to set off current tax assets against current tax liabilities, and the same taxation authority levies income taxes either on the same taxable entity or on different taxable entity which intends either to settle current tax liabilities and assets on a net basis or to realize the assets and settle the liabilities simultaneously. Honda reflects the effect of uncertainty in the consolidated financial statements if Honda concludes it is not probable that the taxation authority will accept the tax treatment. Honda has adopted amendments to IAS 12 â€œInternational Tax Reformâ€”Pillar Two Model Rulesâ€ issued on MayÂ 23, 2023, and has neither recognized nor disclosed information about deferred tax assets and liabilities related to the income taxes arising from tax law enacted or substantively enacted to implement the Pillar Two model rules published by the Organisation for Economic Co-operation and Development(OECD), including tax law that implements qualified domestic minimum top-up taxes described in those rules. (p) Earnings per Share Basic earnings per share is calculated by dividing profit for the year attributable to owners of the parent by the weighted average number of common shares outstanding during the period. Â F-25 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â (4) Segment Information Based on Hondaâ€™s organizational structure and characteristics of products and services, Honda discloses segment information in four categories: Reportable segments of Motorcycle business, Automobile business and Financial services business, and other segments that are not reportable. The other segments are combined and disclosed in Power products and other businesses. Segment information is based on the components of Honda for which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The accounting policies used for segment information are consistent with the accounting policies used in the Companyâ€™s consolidated financial statements. Principal products and services, and functions of each segment are as follows: Â Segment Â PrincipalÂ productsÂ andÂ services Â Functions Motorcycle Business Â Motorcycles, all-terrain vehicles (ATVs), side-by-sides (SxS) and relevant parts Â Research and development Manufacturing Sales and related services Automobile Business Â Automobiles and relevant parts Â Research and development Manufacturing Sales and related services Financial Services Business Â Financial services Â Retail loan and lease related to Honda products Others Power Products and Other Businesses Â Power products and relevant parts, and others Â Research and development Manufacturing Sales and related services Others Â F-26 HONDA MOTOR CO., LTD. Â F-51 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â 2) Fair value of plan assets Hondaâ€™s investment policies for the Japanese and foreign pension plan assets are designed to maximize total medium-to-long term returns that are available to provide future payments of pension benefits to eligible participants under accepted risks. Plan assets are invested in well-diversified Japanese and foreign individual equity and debt securities using target asset allocations, consistent with accepted tolerance for risks. Honda sets target asset allocations for each asset category with future anticipated performance over medium-to-long term periods based on the expected returns, long-term risks and historical returns. Target asset allocations are adjusted as necessary when there are significant changes in the investment environment of plan assets. The fair value of the Japanese and foreign pension plan assets by asset category as of MarchÂ 31, 2024 and 2025 is as follows: As of MarchÂ 31, 2024 Â Â Â Yen (millions) Â Â Â Japanese plans Â Â Foreign plans Â Â Â MarketÂ priceÂ inÂ active market Â Â Â Â Â MarketÂ priceÂ inÂ active market Â Â Â Â Â Â Quoted Â Â Unquoted Â Â Total Â Â Quoted Â Â Unquoted Â Â Total Â Cash and cash equivalents Â Â¥ 14,251 Â Â Â¥â€”â€‰Â Â Â¥ 14,251 Â Â Â¥ 8,946 Â Â Â¥â€”â€‰Â Â Â¥ 8,946 Â Equity securities: Â Â Â Â Â Â Japan Â Â Â 25,610 Â Â Â â€”â€‰Â Â Â 25,610 Â Â Â 403 Â Â Â â€”â€‰Â Â Â 403 Â United States Â Â 211,349 Â Â Â â€”â€‰Â Â Â 211,349 Â Â Â 12,308 Â Â Â â€”â€‰Â Â Â 12,308 Â Other Â Â 176,452 Â Â Â 127 Â Â Â 176,579 Â Â Â 6,764 Â Â Â â€”â€‰Â Â Â 6,764 Â Debt securities: Â Â Â Â Â Â Japan Â Â 53,981 Â Â Â 1,042 Â Â Â 55,023 Â Â Â â€”â€‰Â Â Â 414 Â Â Â 414 Â United States Â Â 149,531 Â Â Â 16,055 Â Â Â 165,586 Â Â Â â€”â€‰Â Â Â 161,319 Â Â Â 161,319 Â Other Â Â 141,011 Â Â Â 114,569 Â Â Â 255,580 Â Â Â â€”â€‰Â Â Â 12,650 Â Â Â 12,650 Â Group annuity insurance: Â Â Â Â Â General accounts Â Â â€”â€‰Â Â Â 39,329 Â Â Â 39,329 Â Â Â â€”â€‰Â Â Â â€”â€‰Â Â Â â€”â€‰Â Separate accounts Â Â â€”â€‰Â Â Â 29,350 Â Â Â 29,350 Â Â Â â€”â€‰Â Â Â â€”â€‰Â Â Â Pooled funds: Â Â Â Â Â Â Real estate funds Â Â â€”â€‰Â Â Â 204 Â Â Â 204 Â Â Â â€”â€‰Â Â Â 78,832 Â Â Â 78,832 Â Private equity funds Â Â â€”â€‰Â Â Â â€”â€‰Â Â Â â€”â€‰Â Â Â â€”â€‰Â Â Â 171,660 Â Â Â 171,660 Â Hedge funds Â Â â€”â€‰Â Â Â 134,096 Â Â Â 134,096 Â Â Â â€”â€‰Â Â Â 31,495 Â Â Â 31,495 Â Commingled and other mutual funds Â Â 1,289 Â Â Â 152,466 Â Â Â 153,755 Â Â Â â€”â€‰Â Â Â 464,649 Â Â Â 464,649 Â Other Â Â 19 Â Â Â (13,672)Â Â Â (13,653)Â Â Â 424 Â Â Â 43,537 Â Â Â 43,961 Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â

AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â (26) Fair Value (a) Definition of Fair Value Hierarchy Honda uses a three-level hierarchy when measuring fair value. The following is a description of the three hierarchy levels: Â Â Levelâ€‰1 Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date Â Â Levelâ€‰2 Inputs other than quoted prices included within LevelÂ 1 that are observable for the assets or liabilities, either directly or indirectly Â Â Levelâ€‰3 Unobservable inputs for the assets or liabilities The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest input that is significant to the fair value measurement in its entirety. Honda recognizes the transfers between the levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. (b) Method of Fair Value Measurement The fair values of assets and liabilities are determined based on relevant market information and through the use of an appropriate valuation method. The measurement methods and assumptions used in the measurement of assets and liabilities are as follows: (Cash and cash equivalents, trade receivables and trade payables) The fair values approximate their carrying amounts due to their short-term maturities. (Receivables from financial services) The fair value of receivables from financial services is measured primarily by discounting future cash flows using the current interest rates applicable for these receivables of similar remaining maturities. Fair value measurement for receivables from financial services is classified as LevelÂ 3. (Debt securities) Debt securities consist mainly of mutual funds, corporate bonds, local bonds and auction rate securities. The fair value of mutual funds with an active market is measured by using quoted market prices. Fair value measurement for mutual funds with an active market is classified as LevelÂ 1. The fair values of corporate bonds and local bonds are measured based on proprietary pricing models provided by specialists and/or market makers and the models obtain a wide array of market observable inputs such as credit ratings and discount rates. Fair value measurements for corporate bonds and local bonds are classified as LevelÂ 2. Â F-76 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â The subsidiaryâ€™s auction rate securities are A to AAA rated and are insured by qualified guarantee agencies, and reinsured by the Secretary of Education and the United States government, and guaranteed at approximatelyÂ 95% by the United States government. To measure fair value of auction rate securities, Honda uses a third-party-developed valuation model which obtains a wide array of market observable inputs, as well as unobservable inputs including probability of passing or failing auction at each auction. Fair value measurement for auction rate securities is classified as LevelÂ 3. (Equity securities) The fair value of equity securities with an active market is measured by using quoted market prices. Fair value measurement for equity securities with an active market is classified as LevelÂ 1. The fair value of equity securities with no active market is measured mainly by using a discounted cash flow method, a comparable company valuation method and other appropriate valuation methods. Fair value measurement for equity securities with no active market is classified as LevelÂ 3. In addition, in the case that cost represents the best estimate of fair value, fair value for the equity securities with no active market is measured at cost. Cash flow forecasts and discount rate for the discounted cash flow model and price book-value ratio (PBR) of a comparable company for the comparable company valuation method are used as significant unobservable inputs in the fair value measurement of equity securities classified as LevelÂ 3. The fair value increases (decreases) as Cash flow forecasts increase (decrease), discount rate decline (rise) and PBR of a comparable company rise (decline). Such fair value measurements are conducted in accordance with the group accounting policy approved by the appropriate person of authority and based upon valuation methods determined by personnel in accounting divisions of Honda. (Derivatives) Derivatives consist mainly of foreign currency forward exchange contracts, foreign currency option contracts, currency swap agreements and interest rate swap agreements. The fair values of foreign currency forward exchange contracts and foreign currency option contracts are measured by using market observable inputs such as spot exchange rates, discount rates and implied volatility. The fair values of currency swap agreements and interest rate swap agreements are measured by discounting future cash flows using market observable inputs such as interest rates and foreign exchange rates. Fair value measurements for these derivatives are classified as LevelÂ 2. The credit risk of the counterparties is considered in the valuation of derivatives. (Financing liabilities) The fair value of financing liabilities is measured by discounting future cash flows using interest rates currently available for liabilities of similar terms and remaining maturities. Fair value measurement of financing liabilities is mainly classified as LevelÂ 2. F-77 HONDA MOTOR CO., LTD. AND SUBSIDIARIES Notes to Consolidated Financial Statementsâ€”(Continued) Â (c) Assets and Liabilities Measured at Fair Value on a recurring basis Assets and liabilities measured at fair value on a recurring basis as of MarchÂ 31, 2024 and 2025 consist of the following: Â Â Â Â Yen (millions) Â As of MarchÂ 31, 2024 Â Â LevelÂ 1 Â Â Â LevelÂ 2 Â Â Â LevelÂ 3 Â Â Â Total Â Other financial assets: Â Â Â Â Â Â Financial assets measured at fair value through profit or loss: Â Â Â Â Â Â Derivatives Â Â Â Â Â Â Foreign exchange instruments Â Â Â¥ â€”â€‚ Â Â Â¥ 80,347 Â Â Â Â¥ â€”â€‚ Â Â Â¥ 80,347 Â Interest rate instruments Â Â Â â€”â€‚ Â Â Â 108,034 Â Â Â Â â€”â€‚ Â Â Â 108,034 Â Other Â Â Â â€”â€‚ Â Â Â â€”â€‚ Â Â Â 5,806 Â Â Â 5,806 Â Â Â Â Â Â

Â -1- REGULATIONS OF THE BOARD OF DIRECTORS Article 1.â€ƒ(Purpose) These regulations set out matters concerning the Board of Directors of the Company in accordance with Article 23 of the Articles of Incorporation of the Company. Article 2.â€ƒ(Composition) The Board of Directors shall consist of all the Directors of the Company. Article 3.â€ƒ(Convocation) Meetings of the Board of Directors shall be convened at least once every three (3)Â months and at least seven (7)Â times a year, and whenever necessary. Article 4.â€ƒ(Authority to Convene Meetings of the Board of Directors and the Chairperson) The Director who has been determined in advance by the Board of Directors shall convene meetings of the Board of Directors and shall act as the chairperson thereat. If such Director is prevented from so doing, one of the other Directors shall assume their role in the order which has been determined in advance by the Board of Directors. Notwithstanding the foregoing, in the case where any laws and regulations provide otherwise, one of the other Directors or Executive Officers shall convene the meeting of the Board of Directors. Article 5.â€ƒ(Notice of Convocation) 1. A notice of convocation of a meeting of the Board of Directors shall be sent to each Director three (3)Â days prior to the date of the meeting. 2. If all the Directors consent in advance, a meeting of the Board of Directors may be held without following the procedures for convening a meeting. Article 6.â€ƒ(Method of Resolutions) 1. Resolutions of a meeting of the Board of Directors shall be adopted by a vote of a majority of the Directors present thereat who constitute a majority of the Directors. 2. Any Director who has any special interests in any matter which is put to a vote may not participate in the voting on any resolution that is described in the preceding paragraph. 3. Any Director who cannot participate in the voting on a resolution due to the provision of the preceding paragraph will not be counted in the number of Directors mentioned in Paragraph 1 of this article. 4. If the requirements set out in Article 370 of the Company Law are satisfied, those matters that are the object of the resolution of the Board of Directors shall be deemed to have been resolved by the Board of Directors. Article 7.â€ƒ(Matters to be Resolved) The matters to be resolved by the Board of Directors are as follows: (1) Matters with respect to the Company Group (meaning the corporate group consisting of the Company and its subsidiaries): Â Â (i) basic management policies of the Company Group and other equivalent matters; and Â Â (ii) other important matters with respect to the Company Group. Â -2- (2) Matters with respect to the Company: Â Â (i) the convocation of a general meeting of the Shareholders and the objectives thereof and the matters to be submitted thereto; Â Â (ii) the matters concerning the Directors; Â Â (iii) the matters concerning the members of the nominating committee, the audit committee, and the compensation committee (â€œNominating Committee, Etc.â€); Â Â (iv) the matters concerning the Executive Officers; Â Â (v) any conflict of interest transactions and transactions by a Director or an Executive Officer competing with the Companyâ€™s business; Â Â (vi) the issue of new shares; Â Â (vii) the matters to be submitted to relating to financial reports and business reports, and schedules attached thereto; Â Â (viii) the disposition of surplus; Â Â (ix) the matters concerning the development of internal control systems; Â Â (x) the matters concerning internal audit; Â Â (xi) the matters necessary for the performance of the duties of the audit committee; and Â Â (xii) other matters prescribed by laws and regulations or in the Articles of Incorporation. Article 8.â€ƒ(Matters to be Reported) 1. Directors and Executive Officers shall report to the Board of Directors without delay if any of the matters set forth below occurs: Â Â (1) a conflict of interest transaction or a transaction by a Director or an Executive Officer competing with the Companyâ€™s business is undertaken; Â Â (2) a Director or an Executive Officer becomes an unlimited-liability partner, director, corporate auditor or manager of another company; or Â Â (3) Article 331, Paragraph 1 of the Company Law is applicable. 2. The Executive Officers shall report to the Board of Directors on the state of the performance of the business at least once every three (3)Â months. 3. The Nominating Committee, Etc. shall report to the Board of Directors on the state of the performance of duties of the committees without delay. 4. If a Director or an Executive Officer notifies all of the Directors of any matter that should be reported to the Board of Directors, that matter shall not be required to be reported to the Board of Directors. 5. The provision of the preceding paragraph does not apply to any reporting that is set out in Paragraph 2 of this article. Article 9.â€ƒ(Minutes) The substance of the proceedings of the meeting of the Board of Directors, the results thereof, and any matter prescribed by laws and regulations shall be recorded in minutes, to which the Directors present thereat shall affix their names and seals or electronically sign. Â -3- Article 10.â€ƒ(Amendment) Any amendment of these regulations shall be subject to a resolution of the Board of Directors. Supplementary Provision Came into effect on OctoberÂ 1, 1982 Partly amended on AprilÂ 18, 1983 Partly amended on MayÂ 28, 1987 Partly amended on AprilÂ 27, 2001 Partly amended on JuneÂ 25, 2002 Partly amended on AprilÂ 21, 2003 Partly amended on JuneÂ 24, 2003 Partly amended on JuneÂ 23, 2004 Partly amended on FebruaryÂ 25, 2005 Partly amended on JuneÂ 23, 2005 Partly amended on JuneÂ 23, 2006 Partly amended on FebruaryÂ 1, 2008 Partly amended on JuneÂ 23, 2009 Partly amended on JuneÂ 23, 2011 Partly amended on AprilÂ 1, 2014 Partly amended on JuneÂ 15, 2017 Partly amended on AprilÂ 1, 2019 Partly amended on JuneÂ 23, 2021 Partly amended on AprilÂ 1, 2022 Partly amended on AprilÂ 1, 2023 Partly amended on JanuaryÂ 1, 2025 Partly amended on AprilÂ 1, 2025 -End- Â -4- EX-2.4 3 d877523dex24.htm DESCRIPTION OF RIGHTS OF EACH CLASS OF SECURITIES DESCRIPTION OF RIGHTS OF EACH CLASS OF SECURITIES Exhibit 2.4 Description of rights of each class of securities registered under SectionÂ 12 of the Securities Exchange Act of 1934 American Depositary Shares (â€œADSsâ€) representing three shares of Hondaâ€™s Common Stock (the â€œCommon Stockâ€) are listed and traded on the New York Stock Exchange and, in connection with this listing (but not for trading), Hondaâ€™s Common Stock is registered under SectionÂ 12(b) of the Exchange Act. This exhibit contains a description of the rights of (i)Â the holders of shares of Common Stock and (ii)Â ADS holders. Shares of Common Stock underlying the ADSs are held by JPMorgan Chase Bank, N.A., as depositary, and holders of ADSs will not be treated as holders of the shares of Common Stock. Disclosures under the following items are not applicable to Honda and have been omitted: debt securities (Item 12.A of Form 20-F), warrants and rights (Item 12.B of Form 20-F) and other securities (Item 12.C of FormÂ 20-F). Common Stock Type and ClassÂ of Securities (Item 9.A.5 of Form 20-F) The respective number of shares of Common Stock authorized and outstanding as of the last day of the fiscal year is given on the cover page of the annual report to which this description is attached or incorporated by reference as an exhibit. Preemptive Rights (Item 9.A.3 of Form 20-F) See â€œâ€”Rights of the Shares (Item 10.B.3 of Form 20-F)â€”Subscription Rights and Stock Acquisition Rightsâ€ below. Limitations or Qualifications (Item 9.A.6 of Form 20-F) Not applicable. Other Rights (Item 9.A.7 of Form 20-F) Not applicable. Rights of the Shares (Item 10.B.3 of Form 20-F) Set forth below is information relating to Hondaâ€™s Common Stock, including brief summaries of the relevant provisions of Hondaâ€™s Articles of Incorporation and Share Handling Regulations as currently in effect, and of the Company Law of Japan (the â€œCompany Lawâ€) and related legislation. General The current central clearing system for shares of Japanese listed companies was established in 2009 pursuant to the Law Concerning Book-Entry Transfer of Corporate Bonds, Shares, Etc. of Japan (including the cabinet order and ministerial ordinances promulgated thereunder; the â€œBook-Entry Lawâ€). The shares of all Japanese companies listed on any Japanese financial instruments exchange, including Hondaâ€™s shares, are subject to the system. Under the Book-Entry Law, all shares are dematerialized and all share certificates for such shares are null and void. At present, the Japan Securities Depository Center, Inc. (â€œJASDECâ€) is the sole institution that is designated by the relevant authorities as a book-entry transfer institution which is permitted to engage in the Â -1- clearing operations of shares of Japanese listed companies under the Book-Entry Law. Under the clearing system, in order for any person to hold, sell or otherwise dispose of shares of Japanese listed companies, such person must have an account at an account management institution unless such person has an account directly at JASDEC. â€œAccount management institutionsâ€ are, in general, financial instruments firms engaged in type 1 financial instruments business (i.e., securities brokers/dealers), banks, trust companies and certain other financial institutions which meet the requirements prescribed by the Book-Entry Law. Under the Book-Entry Law, any transfer of shares of Japanese listed companies is effected through book entry, and title to the shares passes to the transferee at the time when the transferred number of the shares is by an application for book entry recorded in the transfereeâ€™s account at an account management institution. The holder of an account at an account management institution is presumed to be the legal owner of the shares recorded in such account. A registered shareholder is generally entitled to exercise its rights as a shareholder, such as voting rights and to receive dividends (if any). Under the Company Law and the Book-Entry Law, in order to assert shareholdersâ€™ rights against Honda, a shareholder must have its name and address registered in the register of shareholders, except in limited circumstances. Although, in general, holders of an account with shares recorded are to be registered in the register of shareholders on the basis of an all-shareholders notice from JASDEC to Honda at certain prescribed times, in order to exercise minority shareholdersâ€™ rights (other than those the record dates for which are fixed) against Honda, a holder of an account with shares needs to (a)Â make an application through an account management institution to JASDEC, which will then give a notice of the name and address of such holder, the number of shares held by such holder and other requisite information to Honda, and (b)Â exercise the rights within four weeks from such notice. Non-resident shareholders are required to appoint a standing proxy in Japan or provide a mailing address in Japan. Each such shareholder must give notice of such standing proxy or mailing address to the relevant account management institution. Such notice will be forwarded to Honda through JASDEC. Japanese financial instruments firms and commercial banks customarily act as standing proxies and provide related services for standard fees. Notices from Honda to non-resident shareholders are delivered to such standing proxies or mailing addresses. Dividends Under its Articles of Incorporation, Hondaâ€™s financial accounts will be closed on MarchÂ 31 of each year. The record dates for dividends are SeptemberÂ 30 and MarchÂ 31 of each year. In addition, Honda may distribute dividends from surplus by determining any record date. Under the Company Law, a company is permitted to make distributions of surplus to the shareholders any number of times per fiscal year pursuant to resolutions of a general meeting of shareholders, subject to certain limitations provided by the Company Law and the Ordinances of the Ministry of Justice thereunder. Distributions of surplus are required, in principle, to be authorized by a resolution of a general meeting of shareholders. However, if the articles of incorporation so provide and certain other requirements under the Company Law are met, distributions of surplus may be made pursuant to a board resolution. Pursuant to the provisions of the Company Law and its Articles of Incorporation, the Board of Directors of Honda may determine distributions of its surplus. Distributions of surplus may be made in cash or in-kind in proportion to the number of shares held by each shareholder. If a distribution of surplus is to be made in-kind, a special resolution of a general meeting of shareholders is required, except in the case that a right to receive cash distribution instead of distribution in-kind is granted to shareholders. If such right is granted, distributions in-kind may be made pursuant to an ordinary resolution of a general meeting of shareholders or, as the case may be, a board resolution. Â -2- Under the Company Law, Honda is permitted to prepare non-consolidated extraordinary financial statements consisting of a balance sheet as of any date subsequent to the end of the previous fiscal year and an income statement for the period from the first day of the

current fiscal year to the date of such balance sheet. If such extraordinary financial statements are prepared and approved in accordance with the provisions of the Company Law and the Ordinances of the Ministry of Justice thereunder, the results of such extraordinary financial statements may be considered in the calculation of distributable amount. Under its Articles of Incorporation, Honda is not obligated to pay any dividends which are left unclaimed for a period of three full years after the date on which they first became payable. Capital and Reserves The entire amount of the issue price of the shares to be issued in the future shall generally be accounted for as stated capital. However, Honda may account for an amount not exceeding one-half of such issue price as additional paid-in capital by resolution of the Board of Directors in accordance with the Company Law. Honda may at any time reduce the whole or any part of its additional paid-in capital or transfer them to stated capital by resolution of a General Meeting of Shareholders. The whole or any part of surplus may also be transferred to stated capital, additional paid-in capital or legal reserve by resolution of a General Meeting of Shareholders. Stock Splits Honda may at any time split its shares into a greater number of shares by resolution of the Board of Directors. When the Board of Directors approves a stock split, it may also amend the Articles of Incorporation of Honda without approval of shareholders to increase the number of its authorized shares to such number as it determines, provided such number is equal to or less than the then-current number multiplied by the ratio of the stock split, so long as Honda does not issue more than one class of shares. Under the Book-Entry Law, Honda must give notice to JASDEC regarding a stock split at least two weeks prior to the relevant effective date. On the effective date of the stock split, the numbers of shares recorded in all accounts held by its shareholders at account management institutions or at JASDEC will be increased in accordance with the applicable ratio. Consolidation of Shares Honda may at any time consolidate its shares into a smaller number of shares by a special resolution of the General Meeting of Shareholders. Director and Representative Executive Officer of Honda must disclose the reason for the consolidation of the shares at the General Meeting of Shareholders. If the consolidation of shares effected by Honda produces any fractional shares, any dissenting shareholder of such fractional shares may request that Honda purchase all of such fractional shares held by such holder, at a fair price. Under the Book-Entry Law, Honda must give notice to JASDEC regarding a consolidation of shares at least two weeks prior to the relevant effective date. On the effective date of the consolidation of shares, the numbers of shares recorded in all accounts held by its shareholders at account management institutions or at JASDEC will be decreased in accordance with the applicable ratio. Voting Rights Pursuant to the Articles of Incorporation, Honda holds its Ordinary General Meeting of Shareholders within three months of the end of each fiscal year (i.e., in June of each year), provided that applicable Japanese law allows, in emergency situations where it is not possible to hold such meeting as set forth in the Articles of Incorporation, for the date of the Ordinary General Meeting of Shareholders to be postponed until a reasonable date following the end of such emergency situation. In addition, Honda may hold an Extraordinary General Â -3- Meeting of Shareholders whenever necessary by giving at least two weeksâ€™ advance notice. Under the Company Law, notice of any shareholdersâ€™ meeting must be given to each shareholder having voting rights or, in the case of a non-resident shareholder, to his resident proxy or mailing address in Japan in accordance with Hondaâ€™s Share Handling Regulations, at least two weeks prior to the date of the meeting. Pursuant to the Articles of Incorporation, the record date for an Ordinary General Meeting of Shareholders is the last day of each fiscal year (i.e., MarchÂ 31 of each year). Under applicable Japanese law, however, the record date for a General Meeting of Shareholders must be within three months of the date on which such meeting is held. If the date of such meeting is postponed to a date that is greater than three months from the applicable record date (for example, in response to an emergency situation where it is not possible to hold such meeting as planned), a new record date must be set. A shareholder of Honda is generally entitled to one vote per voting unit of shares as described in this paragraph and under â€œâ€“Differences between the Law of Different Jurisdictions (Item 10.B.9 of Form 20-F)â€“Japanese Unit Share System.â€ In general, under the Company Law and the Articles of Incorporation of Honda, a resolution may be adopted at a General Meeting of Shareholders by a majority of the shares having voting rights represented at the meeting. The Company Law and Hondaâ€™s Articles of Incorporation require a quorum for the election of Directors of not less than one-third of the total number of voting rights of all shareholders and the resolution shall be adopted by majority voting. Hondaâ€™s shareholders are not entitled to cumulative voting in the election of directors. A corporate shareholder whose voting rights are in turn not less than one-quarter directly or indirectly owned by Honda does not have voting rights. Also, Honda does not have voting rights with respect to its own shares. Shareholders may exercise their voting rights through proxies, provided that those proxies are also shareholders who have voting rights. Shareholders who intend to be absent from a general meeting of shareholders may exercise their voting rights in writing. In addition, they may exercise their voting rights by electronic means if the Board of Directors decides to accept such means. Under the Company Law, in order to approve certain significant matters of a corporation, a more strict requirement for the quorum or the number of voting rights to approve is provided. The Articles of Incorporation of Honda provide that such resolution may be adopted at a General Meeting of Shareholders by at least two thirds of the voting rights of the shareholders present at the meeting representing at least one third of all the shareholders having voting rights. Such significant matters include, but are not limited to: Â Â â€¢ Â acquisition of its own shares by Honda from a specific shareholder other than its subsidiary, Â Â â€¢ Â acquisition of special shares all of which may be acquired by Honda (zembu shutoku joukou tsuki shurui kabushiki), Â Â â€¢ Â consolidation of the shares, Â Â â€¢ Â reduction of stated capital (with certain exceptions), Â Â â€¢ Â issuance or transfer of new shares or existing shares held by Honda as treasury stock to persons other than the shareholders at a â€œespecially favorableâ€ price, Â Â â€¢ Â issuance of stock acquisition rights (including those incorporated in bonds with stock acquisition rights) to persons other than the shareholders under â€œespecially favorableâ€ conditions, Â Â â€¢ Â discharge of a part of responsibilities of Directors, Executive Officers or accounting auditors, Â Â â€¢ Â distribution of surplus by property other than cash (only in the case that no cash distribution is allowed to shareholders), Â Â â€¢ Â amendments to the Articles of Incorporation, Â Â â€¢ Â transfer of whole or important part of business, Â -4- Â â€¢ Â dissolution of a corporation, Â Â â€¢ Â reorganization of a corporation. For a description of the process and procedures for the voting of ADRs representing Common Stock, see â€œAmerican Depositary Sharesâ€“Voting deposited securities.â€ Subscription Rights and Stock Acquisition Rights Holders of Hondaâ€™s shares have no preemptive rights under Hondaâ€™s Articles of Incorporation. Under the Company Law, the board of directors may, however, determine that shareholders be given subscription rights in connection with a particular issue of new shares. In this case, such rights must be given to all shareholders as of a specified record date by at least two weeksâ€™ prior public notice to shareholders of the record date. In addition, individual notice must be given to each of these shareholders at least two weeks prior to the date of expiration of the subscription rights. Honda also may decide to grant the stock acquisition rights (shinkabu-yoyakuken), with or without bonds, to any person including its shareholders, by resolution of its Board of Directors unless issued under specially favorable conditions. The holder of such rights may exercise its rights within the exercise period by paying subscription moneys all as prescribed in the terms of such rights. Liquidation Rights In the event of a liquidation of Honda, the assets remaining after payment of all debts, liquidation expenses and taxes will be distributed among the shareholders in proportion to the number of shares they own. Liability to Further Calls or Assessments All of Hondaâ€™s currently issued shares, including shares represented by the ADSs, are fully paid and nonassessable. Record Date As mentioned above, the record dates for Hondaâ€™s dividends are SeptemberÂ 30 and MarchÂ 31, if paid. Under the Articles of Incorporation, a holder of shares constituting one or more whole voting units who is registered as a holder on Hondaâ€™s register of shareholders at the close of business as of MarchÂ 31 is entitled to exercise its voting rights at the Ordinary General Meeting of Shareholders with respect to the fiscal year ended on March 31. In addition, Honda may set a record date for determining the shareholders entitled to other rights and for other purposes by giving at least two weeksâ€™ prior public notice. Under applicable Japanese law, however, the record date for a General Meeting of Shareholders must be within three months of the date on which such meeting is held. If the date of such meeting is postponed to a date that is greater than three months from the applicable record date (for example, in response to an emergency situation where it is not possible to hold such meeting as planned), a new record date must be set. Under the Book-Entry Law, Honda is required to give notice of each record date to JASDEC at least two weeks prior to such record date. JASDEC is required to promptly give notice to Honda of the names and addresses of all of its shareholders of record, the numbers of shares held by them and other relevant information as of such record date. The shares generally trade ex-dividend or ex-rights on the Japanese financial instruments exchanges on the first business day prior to a record date (or if the record date is not a business day, the second business day prior thereto). Â -5- Acquisition of Own Shares Under the Company Law, Honda is generally required to obtain authorization for any acquisition of its own shares by means of: Â Â (i) a resolution at a General Meeting of Shareholders, which may be effective for one year at the most from the date thereof; Â Â (ii) a resolution of the Board of Directors if the acquisition is in accordance with its Articles of Incorporation; or Â Â (iii) a resolution of the Board of Directors if the acquisition is to purchase its shares from its subsidiary. Honda may only dispose of shares so acquired in accordance with the procedures applicable to a new share issuance under the Company Law. Upon due authorization, Honda may acquire its own shares: Â Â â€¢ Â in the case of (i)Â and (ii) above, from stock markets or by way of tender offer; Â Â â€¢ Â in the case of (i)Â above, from a specific person, but only if its shareholders approve such acquisition by special resolution; and Â Â â€¢ Â in the case of (iii)Â above, from such subsidiary. In the event Honda is to acquire its own shares from a specific person other than its subsidiary at a price which is higher than the higher of (x)Â the final market price on the market trading such shares as of the date immediately preceding the date of the required resolution or (y)Â in the event that such shares are subject to a tender offer, etc., the price set in the contract regarding such tender offer, any shareholder may request that Honda includes such shareholderâ€™s shares in the proposed purchase. Acquisitions described in (i)Â through (iii) above must satisfy certain other requirements, including the restriction of the source of consideration in which the total amount of the purchase price of such own shares may not exceed the distributable amount of the corporation. Reports to Shareholders Honda currently furnishes shareholders with reference documents for a General Meeting of Shareholders such as notices of shareholdersâ€™ meetings, business reports including financial statements, and notices of resolutions adopted at the shareholdersâ€™ meetings, all of which are in Japanese. Under the Company Law and the Articles of Incorporation of Honda, business reports including financial statements may only be provided by electronic means, but shareholders have the right to request Honda to provide them in writing. As for the notices of shareholdersâ€™ meetings themselves, Honda is required to provide them in writing which include certain material information such as the date, place and subject matters of the meeting, and URL links to the other reference documents, but, also conversely, these notices may be provided by electronic means to those shareholders who have approved such means of notice provision. Further, pursuant to its Articles of Incorporation, Hondaâ€™s public notices to shareholders shall be given in Japanese by way of electronic public notice; provided, however, that if any public notice is unable to be given by electronic method due to any accident or for any other unavoidable reason, such public notice shall be given by publication in the Nihon Keizai Shimbun, a Japanese newspaper of general circulation. Requirements for Amendments (Item 10.B.4 of Form 20-F) Please refer to â€œâ€“Rights of the Shares (Item 10.B.3 of Form 20-F)â€“Voting Rightsâ€ above. None of the requirements for amendments are more significant than required by applicable law. Â -6- Limitations on the Rights to Own Shares (Item 10.B.6 of Form 20-F) In addition to the Japanese unit share system that is described under â€œâ€“Differences between the Law of Different Jurisdictions (Item 10.B.9 of Form 20-F)â€“Japanese Unit Share Systemâ€ below, the Foreign Exchange and Foreign Trade Law of Japan (the â€œForeign Exchange and Foreign Trade Lawâ€) and the cabinet orders and ministerial ordinances thereunder (collectively, the â€œForeign Exchange Regulationsâ€) govern the acquisition and holding of shares of Honda by â€œexchange non-residentsâ€ and by â€œforeign investorsâ€. Exchange non-residents are: Â Â â€¢ Â individuals who do not reside in Japan; and Â Â â€¢ Â corporations whose principal offices are located outside Japan. Generally, branches and other offices of non-resident corporations that are located within Japan are regarded as residents of Japan. Conversely, branches and other offices of Japanese corporations located outside Japan are regarded as exchange non-residents. Foreign investors are: Â Â (i) individuals who are exchange non-residents; Â Â (ii) corporations or other organizations that are organized under the laws of foreign countries or whose principal offices are located outside of Japan (excluding partnerships falling within (iv)Â below); Â Â (iii) corporations of which 50% or more of their voting rights are held directly or indirectly by individuals and/or corporations falling within (i)Â and/or (ii)Â above; Â Â (iv) general partnerships under the Civil Code of Japan established to invest in corporations, limited partnerships for investment under the Limited Partnership Act for Investment of Japan, or any other similar partnerships under the laws of foreign countries, where either (a) 50% or more of the contributions to such entities are made by exchange non-residents or certain other foreign investors or (b)Â a majority of the general partners who are delegated to execute the business of such general partnerships, general partners of such limited partnerships or other similar partners of the other similar partnerships are exchange non-residents or certain other foreign investors; or Â Â (v) corporations or other entities of which a majority of either (a)Â directors or other officers (including those who have the same degree or more control over such corporations or such other entities as directors or other officers) or (b)Â directors or other officers (including those who have the same degree or more control over such corporations or such other entities as directors or other officers) having the power of representation are individuals who are exchange non-residents. A foreign investor who plans to acquire 1% or more of issued shares or the total voting rights of Honda must, in principle, file a prior notification with the Minister of Finance and any other competent Ministers having jurisdiction. That is because Honda has been designated as a company conducting business activities in industries categorized as the core sectors in relation to the national security of Japan (the â€œCore Sectorsâ€) as defined under the Foreign Exchange and Foreign Trade Law. However, certain exemptions are provided for foreign investors other than, among others, those who have been subject to punitive measure within five years for violating the Foreign Exchange and Foreign Trade Law, foreign governments or foreign state-owned enterprises (excluding those accredited by the Minister of Finance) or investors who have obligation to cooperate with foreign governments in collecting information related to Japanâ€™s national security base on agreements with foreign governments or foreign laws and regulations (the â€œType-A investorsâ€), if they satisfy certain requirements described below. The foreign investors who satisfy the following conditions, among others, will be exempted from the prior notification requirement under the Foreign Exchange Regulations: (1)Â a foreign financial institution that (a)Â is located in the countries that are listed in the relevant schedule under the Foreign Exchange Regulations, (b)Â meets the conditions set by the Minister of Finance and any other competent Ministers having jurisdiction, and (2)Â a foreign investor other than a foreign financial institution, including Type-B investors, who are investors that do not fall under the definition of a Type-A investor but should be treated as a quasi-Type-A investor due to the circumstances, that, in addition to satisfying (a)Â and (b) above, (c)Â will not hold 10% or more of issued shares or the total voting rights of Honda after its acquisition. Â -7- The conditions mentioned in (1)(b) in the preceding paragraph include the following, among others: (1)Â in the case of a foreign financial institution, (i)Â not becoming a board member of Honda itself or through its closely-related person, (ii)Â not submitting any agenda proposing transfer or disposition of the business categorized as designated business sectors under the Foreign Exchange Regulations (the â€œDesignated Business Sectorsâ€) to a shareholdersâ€™ meeting, and (iii)Â not acquiring confidential technical information relating to business activities in the Designated Business Sectors or doing any act that causes disclosure of such information, and (2)Â in the case of a foreign investor other than foreign financial institution, in addition to satisfying (i), (ii) and (iii)Â above, (iv) not attending the meeting of board of directors or any committee of Honda which makes important decision in connection with business activities in the Core Sectors, and (v)Â not making any proposal to the board of directors or board members in writing requiring their responses and/or actions by certain deadlines in connection with the business activities in the Core Sectors and (3) in the case of a Type-B investor, in addition to satisfying (i) to (v) above, (vi) not accessing non-public information about business activities in the Core Sectors (excluding information about directors, other officers, and the financial condition of the investee corporation) and (vii) not sending employees to the investee corporation and will not recruit or solicit any of its directors, other officers or employees regarding business activities in the Core Sectors. Even if a foreign investor is exempted from the prior notification requirement under the Foreign Exchange Regulations, the foreign investor must file a report of the acquisition with the Minister of Finance and any other competent Ministers having jurisdiction within 45 days from the date of the acquisition (1)Â in the case of a foreign financial institution, each time when it acquires 10% or more of issued shares or the total voting rights of Honda, and (2)Â in the case of a foreign investor other than foreign financial institution, when it acquires 1% or more or 3% or more, respectively, of issued shares or the total voting rights of Honda for the first time (for the avoidance of doubt, an acquisition of 10% or more of issued shares or the total voting rights of Honda by a foreign investor other than foreign financial institution is subject to the prior notification requirement as mentioned above, and therefore a post fact report is not applicable to such acquisition). In addition, even if the acquisition of shares of Honda by an exchange non-resident from a resident of Japan is not subject to any prior filing requirements in general, in certain limited circumstances, the Minister of Finance may require prior approval of such acquisition. In addition, in case a resident of Japan transfers shares of Honda for consideration exceeding Â¥100Â million to an exchange non-resident, the resident of Japan who transfers the shares is required to report the transfer to the Minister of Finance within 20 days from the date of the transfer or the date of receipt of payment, whichever comes later, unless the transfer was made through a bank or financial instruments firms licensed or registered under Japanese law. Provisions Affecting Any Change of Control (Item 10.B.7 of Form 20-F) Not applicable. Ownership Threshold (Item 10.B.8 of Form 20-F) The Financial Instruments and Exchange Law of Japan and regulations under such law require any person other than the relevant corporation who has become a holder (together with its related persons) of more than 5% of the total issued shares of a corporation listed on any

Japanese financial instruments exchange or whose shares are traded on the over-the-counter market (including ADSs representing such shares) to file with the Director of a competent Local Finance Bureau, within five business days, in general, a report concerning those shareholdings. A similar report must also be filed to reflect any change of 1% or more in any shareholding or any change in material matters set out in reports previously filed. As of AprilÂ 1, 2014, any person who filed a report on or after that date to reflect a change in holding of 5% or less of the total issued shares is not required to file any further report for a change of 1% or more in shareholding (unless the holding exceeds 5%) or any change in material matters previously reported. Copies of any report must also be furnished to all Japanese financial instruments exchanges on which the corporationâ€™s shares are listed or in the case of shares traded on the over-the-counter market, the Japan Securities Dealers Association. For this purpose, shares issuable or transferable to such person upon exercise of exchangeable securities, conversion of convertible securities or exercise of warrants or stock acquisition rights are taken into account in determining both the number of shares held by that holder and the corporationâ€™s total issued share capital. Â -8- Differences Between the Law of Different Jurisdictions (Item 10.B.9 of Form 20-F) Japanese Unit Share System Consistent with the requirements of the Company Law, the Articles of Incorporation of Honda adopts a unit share system called â€œtan-gen-kabuâ€, under which 100 shares constitute one voting unit of shares. The Board of Directors of Honda by itself may reduce, but not increase, the number of shares that constitute one voting unit or abolish the unit share system entirely by amendments to the Articles of Incorporation by a board resolution without approval of shareholders. An increase in the number of shares that constitute one voting unit requires an amendment to the articles of incorporation by a special resolution of a general meeting of shareholders. In any case, the number of shares constituting one voting unit may not exceed 1,000 shares or 0.5% of the total issued shares. Under the Book-Entry Law, shares constituting less than one voting unit are transferable. Under the rules of the Japanese financial instruments exchanges, however, shares constituting less than one voting unit do not comprise a trading unit, except in limited circumstances, and accordingly may not be sold on the Japanese financial instruments exchanges. The holder of shares constituting less than one voting unit may at any time require Honda to purchase or sell such shares to constitute one voting unit at the market price in accordance with Hondaâ€™s Share Handling Regulations (see below). Because the transfer of ADRs does not require changes in the ownership of the underlying shares, holders of ADRs evidencing ADSs that constitute less than one voting unit of shares are not affected by these restrictions in their ability to transfer the ADRs. However, because transfers of less than one voting unit of the underlying shares are normally prohibited under the unit share system, under the Deposit Agreement, the right of ADR holders to surrender their ADRs and withdraw the underlying shares for sale in Japan may only be exercised as to whole voting units. Right of a Holder of Shares Representing Less Than One Voting Unit to Require Honda to Purchase or Sell Its Shares. A holder of Hondaâ€™s shares representing less than one voting unit may at any time require Honda to purchase its shares. These shares will be purchased at (a)Â the closing price of the shares reported by the Tokyo Stock Exchange on the day when the request for purchase reaches the share handling agent, or (b)Â if no sale takes place on the Tokyo Stock Exchange on that day, then the price at which the first sale of shares is effected on the Tokyo Stock Exchange thereafter. In each case, Honda will request the payment of an amount determined by Honda as an amount equal to the brokerage commission required for the sale and purchase of the shares. A holder of shares representing less than one voting unit may, in accordance with the provisions of Hondaâ€™s Share Handling Regulations, also make a request to the effect that such number of shares should be sold to it that will, when added to the shares less than one voting unit already held by that shareholder, constitute one voting unit. However, because holders of ADSs representing less than one unit are not able to withdraw the underlying shares from deposit, these holders will not be able to exercise many shareholder rights as a practical matter. Other Rights of a Holder of Shares Representing Less Than One Voting Unit. In addition to the rights described in the preceding paragraph, a holder of shares representing less than one voting unit also has the rights including the followings and these rights may not be restricted by the articles of incorporation: Â Â â€¢ Â rights to receive any consideration for acquisition by a corporation of special shares all of which may be acquired by such corporation (zembu shutoku joukou tsuki shurui kabushiki) as provided by Article 171, paragraph 1, item 1 of the Company Law, Â -9- Â â€¢ Â rights to receive any cash or other consideration for acquisition by a corporation of shares which may be acquired by such corporation on occurrence of certain event (shutoku joukou tsuki kabushiki) as provided by Article 107, paragraph 1, item 3 of the Company Law, Â Â â€¢ Â rights to be allocated any shares without consideration as provided by Article 185 of the Company Law, Â Â â€¢ Â rights to receive distribution of any residual assets of a corporation, and Â Â â€¢ Â any other rights provided in the relevant Ordinance of the Ministry of Justice, including rights to receive cash or other distribution derived from consolidation of shares, stock split, allocation of stock acquisition rights without consideration, distribution of surplus or reorganization of a corporation. Other rights of a holder of shares constituting less than one voting unit may be restricted if the articles of incorporation so provide. Voting rights under the unit share system. Under the unit share system, the shareholders shall have one voting right for each voting unit of shares that they hold. A shareholder who owns shares representing less than one voting unit will not be able to exercise voting rights and any other rights relating thereto. Daily Price Limits under Japanese Financial Instruments Exchange Rules Share prices on Japanese financial instruments exchanges are determined on a real-time basis by the equilibrium between bids and offers. These exchanges set daily price limits, which limit the maximum range of fluctuation within a single trading day. Daily price limits are set in absolute yen according to the previous dayâ€™s closing price or special quote. Although transactions may continue at the upward or downward limit price if the limit price is reached on a particular trading day, no transactions may take place outside these limits. Consequently, an investor wishing to sell at a price above or below the relevant daily limit may not be able to sell its shares at such price on a particular trading day, or at all. Changes in Capital (Item 10.B.10 of Form 20-F) Please refer to â€œRights of the Shares (Item 10.B.3 of Form 20-F)â€“Capital and Reservesâ€ and â€œRights of the Shares (Item 10.B.3 of Form 20-F)â€“Voting Rightsâ€ above. None of the requirements for changes in capital are more stringent than required by applicable law. American Depositary Shares (Items 12.D.1 and 12.D.2 of Form 20-F) Under the Amendment No.1 to Second Amended and Restated Deposit Agreement (the â€œDeposit Agreementâ€), JPMorgan Chase Bank, N.A, a national banking association organized under the laws of the United States, is the Depositary (the â€œDepositaryâ€) of Hondaâ€™s ADSs representing Hondaâ€™s Common Stock, including evidence of rights to receive such Common Stock. Each ADS represents three shares of Common Stock at the date of the applicable ADR, deposited at the principal office of MUFG Bank, Ltd., Tokyo (the â€œCustodianâ€), as agent of the Depositary. The address of the Depositaryâ€™s office is 383 Madison Avenue, Floor 11, New York, New York 10179 (the â€œDepositaryâ€™s Officeâ€). The rights of ADR holders, including their rights to corporate governance practices, are governed by the Deposit Agreement which is an exhibit to the annual report to which this description is attached or incorporated by reference as an exhibit. You may hold ADSs either directly or indirectly through your broker or other financial institution. If you hold ADSs directly, you are an ADR holder. This description assumes you hold your ADSs directly. If you hold Â -10- the ADSs indirectly, you must rely on the procedures of your broker or other financial institution to assert the rights of ADR holders described in this section. You should consult with your broker or financial institution to find out what those procedures are. Because JPMorgan Chase Bank, N.A. will actually hold the shares underlying your ADRs, you must rely on it to exercise the rights of a shareholder. The obligations of JPMorgan Chase Bank, N.A. are set out in an agreement among Honda, JPMorgan Chase Bank, N.A. and you, as an ADR holder. The agreement and the ADRs are generally governed by New York law. The following is a summary of the agreement. Because it is a summary, it does not contain all the information that may be important to you. For more complete information, you should read the entire agreement and the form of ADR, each of which is included as an exhibit to the annual report to which this description is attached or incorporated by reference as an exhibit. Fixing of the Record Date (Item 12.D.2.(b) of Form 20-F) The Depositary may, after consultation with Honda if practicable, fix a record date (which, to the extent applicable, shall be as near as practicable to any corresponding record date set by Honda) for the determination of the holders who shall be responsible for the fee assessed by the Depositary for administration of the ADR program and for any expenses provided for in paragraph (7)Â of the Form of ADR included in the Deposit Agreement as well as for the determination of the holders who shall be entitled to receive any distribution on or in respect of Deposited Securities, to give instructions for the exercise of any voting rights, to receive any notice or to act in respect of other matters and only such holders shall be so entitled or obligated. Voting deposited securities (Item 12.D.2.(b) and Item 12.D.2.(d) of Form 20-F) As soon as practicable after receipt of notice of any meeting at which the holders of shares are entitled to vote, or of solicitation of consents or proxies from holders of shares or other Deposited Securities, the Depositary shall fix the ADR record date in accordance with the Deposit Agreement, provided that if the Depositary receives a written request from Honda in a timely manner promptly after the approval by the Board of Directors of the convocation of such meeting or the solicitation of such consents or proxies, or promptly after any other party authorized to do so has called such meeting or initiated the solicitation of such consents or proxies, the Depositary shall, at Hondaâ€™s expense, distribute to holders a notice (the â€œVoting Noticeâ€) stating (i)Â final information particular to such vote and meeting and any solicitation materials, (ii)Â that each holder on the record date set by the Depositary will, subject to any applicable provisions of Japanese law, be entitled to instruct the Depositary as to the exercise of the voting rights, if any, pertaining to the Deposited Securities represented by the ADSs evidenced by such holderâ€™s ADRs and (iii)Â the manner in which such instructions may be given or deemed given, including instructions to give a discretionary proxy to a person designated by Honda. There is no guarantee that holders generally or any holder in particular will receive the notice described above or, to the extent any such notice is distributed, that such notice will be distributed or received with sufficient time to enable such holder to return any voting instructions to the Depositary in a timely manner. Following actual receipt by the ADR department of the Depositary responsible for proxies and voting of holdersâ€™ instructions, the Depositary shall, in the manner and on or before the time established by the Depositary for such purpose, endeavor to vote or cause to be voted the Deposited Securities represented by the ADSs evidenced by such holdersâ€™ ADRs in accordance with such instructions insofar as practicable and permitted under the provisions of or governing Deposited Securities. The Depositary will not itself exercise any voting discretion in respect of any Deposited Securities. Under current Japanese law and Hondaâ€™s Articles of Incorporation, voting rights can only be exercised with respect to units consisting of 100 Shares. Accordingly, the Depositary will only be able to endeavor to vote or cause to be voted such number of Deposited Securities that shall equal a multiple of 100 shares (or such other number as Hondaâ€™s Articles of Incorporation may specify from time to time) and, as a result, if the Depositary receives voting instructions for such number of Deposited Securities (the â€œInstructed Â -11- Sharesâ€) that is not a multiple of the requisite number of shares, then the Depositary shall only endeavor to vote, or cause to be voted, such number of Instructed Shares that represents the highest applicable multiple of the requisite number of shares, taking into account a pro-ration of the voting instructions received from holders, and any remaining Instructed Shares shall not be voted. To the extent that the Depositary (A)Â receives the Hondaâ€™s written request pursuant to the Deposit Agreement in a timely manner as provided therein, (B)Â reasonably believes that it has been provided with notice of a meeting in sufficient time to ensure that the Voting Notice will be received by all holders and beneficial owners no less than 10 days prior to the date of the meeting and/or the cut-off date for the solicitation of consents, and (C)Â does not receive instructions on a particular agenda item from a holder in a timely manner, such holder shall be deemed, and the Depositary is instructed to deem such holder, to have instructed the Depositary to give a discretionary proxy for such agenda item(s) to a person designated by Honda to vote the Deposited Securities represented by the ADRs for which actual instructions were not so given by all such holders on such agenda item(s), provided that no such instruction shall be deemed given and no discretionary proxy shall be given unless (1)Â to the best of Hondaâ€™s knowledge after reasonable inquiry, there is no substantial opposition existing with respect to such agenda item(s), and such agenda item(s), if approved, would not materially or adversely affect the rights of holders of shares, (2)Â Honda informs the Depositary in writing (and Honda agrees to provide the Depositary with such instruction promptly in writing) that (i)Â it wishes such proxy to be given with respect to such agenda item(s), (ii) to the best of Hondaâ€™s knowledge after reasonable inquiry, there is no substantial opposition existing with respect to such agenda item(s), and such agenda item(s), if approved, would not materially or adversely affect the rights of holders of shares, and (3)Â the Depositary has obtained an opinion of counsel, in form and substance satisfactory to the Depositary, confirming that (i)Â the granting of such discretionary proxy does not subject the Depositary to any reporting obligations in Japan, (ii)Â the granting of such proxy will not result in a violation of the laws, rules, regulations or permits of Japan, (iii)Â the voting arrangement and deemed instruction as contemplated herein will be given effect under the laws, rules and regulations of Japan, and (iv)Â the granting of such discretionary proxy will not under any circumstances result in the shares represented by the ADRs being treated as assets of the Depositary under the laws, rules or regulations of Japan. Notwithstanding anything contained in the Deposit Agreement or any ADR, the Depositary may, to the extent not prohibited by any law, rule or regulation or by the rules, regulations or requirements of the stock exchange on which the ADRs are listed, in lieu of distribution of the materials provided to the Depositary in connection with any meeting of or solicitation of consents or proxies from holders of Deposited Securities, distribute to the holders a notice that provides holders with or otherwise publicizes to holders instructions on how to retrieve such materials or receive such materials upon request (i.e., by reference to a website containing the materials for retrieval or a contact for requesting copies of the materials). Holders are strongly encouraged to forward their voting instructions as soon as possible. Voting instructions will not be deemed received until such time as the ADR department responsible for proxies and voting has received such instructions, notwithstanding that such instructions may have been physically received by the Depositary. Dividends and Other Distributions (Item 12.D.2.(c), Item 12.D.2(e) and Item 12.D.2.(f) of Form 20-F) Subject to terms of the Deposit Agreement, to the extent practicable, the Depositary will distribute to each holder entitled thereto on the record date set by the Depositary therefor at such holderâ€™s address shown on the ADR register, in proportion to the number of Deposited Securities (on which the following distributions on Deposited Securities are received by the Custodian): Â Â â€¢ Â Cash. Any U.S. dollars available to the Depositary resulting from a cash dividend or other cash distribution or the net proceeds of sales of any other distribution or portion thereof authorized by the Deposit Agreement, on an averaged or other practicable basis, subject the terms of the Deposit Agreement; Â Â â€¢ Â Shares. (i)Â Additional ADRs evidencing whole ADSs representing any shares available to the Depositary resulting from a dividend or free distribution on Deposited Securities consisting of shares Â -12- Â (aÂ â€œShare Distributionâ€) and (ii)Â U.S. dollars available to it resulting from the net proceeds of sales of shares received in a Share Distribution, which shares would give rise to fractional ADSs if additional ADRs were issued therefor, as in the case of cash. Â Â â€¢ Â Rights. (i)Â Warrants or other instruments in the discretion of the Depositary representing rights to acquire additional ADRs in respect of any rights to subscribe for additional shares or rights of any nature available to the Depositary as a result of a distribution on Deposited Securities (â€œRightsâ€), to the extent that Honda timely furnishes to the Depositary evidence satisfactory to the Depositary that the Depositary may lawfully distribute the same (Honda has no obligation to so furnish such evidence), or (ii)Â to the extent Honda does not so furnish such evidence and sales of Rights are practicable, any U.S. dollars available to the Depositary from the net proceeds of sales of Rights as in the case of cash, or (iii)Â to the extent Honda does not so furnish such evidence and such sales cannot practicably be accomplished by reason of the nontransferability of the Rights, limited markets therefor, their short duration or otherwise, nothing (and any Rights may lapse). Â Â â€¢ Â Other distributions: (i)Â Securities or property available to the Depositary resulting from any distribution on Deposited Securities other than cash, Share Distributions and Rights (â€œOther Distributionsâ€), by any means that the Depositary may deem equitable and practicable, or (ii)Â to the extent the Depositary deems distribution of such securities or property not to be equitable and practicable, any U.S. dollars available to the Depositary from the net proceeds of sales of Other Distributions as in the case of cash. Liability of Holder for Taxes (Item 12.D.2.(c) and Item 12.D.2.(i) of Form 20-F) If any tax or other governmental charges (including any penalties and/ or interest) shall become payable by or on behalf of the Custodian or the Depositary with respect to an ADR, any Deposited Securities represented by the ADSs evidenced thereby or any distribution thereon, such tax or other governmental charge shall be paid by the holder thereof to the Depositary. The Depositary may refuse to effect any registration, registration of transfer, split-up or combination of any ADR or any withdrawal of such Deposited Securities until such payment is made. The Depositary may also deduct from any distributions on or in respect of Deposited Securities, or may sell by public or private sale for the account of the holder of any ADR any part or all of such Deposited Securities, and may apply such deduction or the proceeds of any such sale in payment of such tax or other governmental charge, the holder thereof remaining liable for any deficiency, and shall reduce the number of ADSs evidenced by such ADR to reflect any such sales of Shares. Reports; Inspection of Transfer Books (Item 12.D.2.(d) and Item 12.D.2.(h) of Form 20-F) The Depositary shall make available for inspection by Holders at the Depositaryâ€™s Office, at the office of the Custodian, at any other designated transfer offices, on the website of the United States Securities and Exchange Commission (the â€œCommissionâ€), or upon request from the Depositary, the Deposit Agreement, the provisions of or governing Deposited Securities and any written communications, including any proxy solicitation material, received from Honda which are both (a)Â received by the Custodian or the nominee of either as the holder of Deposited Securities and (b)Â made generally available to the holders of Common Stock or Deposited Securities by Honda. The Depositary will distribute copies of such communications to record holders when furnished by Honda. The Depositary or its agent will keep, at a designated transfer office, a register for the registration, registration of transfer, combination and split-up of ADRs, which at all reasonable times will be open for inspection by holders and Honda for the purpose of communicating with holders in the interest of the business of Honda or a matter relating to the Deposit Agreement. Changes Affecting Deposited Securities (Item 12.D.2.(f) of Form 20-F) The Depositary may, in its discretion, and

shall if reasonably requested by Honda, amend the ADRs or distribute additional or amended ADRs (with or without calling existing ADRs for exchange) or cash, securities Â -13- or property on the record date set by the Depositary therefor to reflect any change in par value, split-up, consolidation, cancellation or other reclassification of Deposited Securities, any Share Distribution or Other Distribution not distributed to holders or any cash, securities or property available to the Depositary in respect of Deposited Securities from (and the Depositary is authorized under the Deposit Agreement to surrender any Deposited Securities to any person and, irrespective of whether such Deposited Securities are surrendered or otherwise cancelled by operation of law, rule, regulation or otherwise, to sell by public or private sale any property received in connection with) any recapitalization, reorganization, merger, consolidation, liquidation, receivership, bankruptcy or sale of all or substantially all the assets of Honda. To the extent the Depositary does not so amend the ADRs or make a distribution to holders to reflect any of the foregoing, or the net proceeds thereof, whatever cash, securities or property results from any of the foregoing shall constitute Deposited Securities and each ADS evidenced by the ADRs shall automatically represent its pro rata interest in the Deposited Securities as then constituted. Promptly upon the occurrence of any of the aforementioned changes affecting Deposited Securities, Honda shall notify the Depositary in writing of such occurrence and as soon as practicable after receipt of such notice from Honda, may instruct the Depositary to give notice thereof, at Hondaâ€™s expense, to holders in accordance with the provisions hereof. Upon receipt of such instruction, the Depositary shall give notice to the holders in accordance with the terms thereof, as soon as reasonably practicable. Amendment and Termination of Deposit Agreement (Item 12.D.2.(g) of Form 20-F) The ADRs and the Deposit Agreement may be amended by Honda and the Depositary, provided that any amendment that imposes or increases any fees or charges on a per ADS basis (other than stock transfer or other taxes and other governmental charges, transfer or registration fees, SWIFT, telex or facsimile transmission costs, delivery costs or other such expenses), or that shall otherwise prejudice any substantial existing right of holders or beneficial owners, shall become effective 30 days after notice of such amendment shall have been given to the holders. Every holder and beneficial owner at the time any amendment to the Deposit Agreement so becomes effective shall be deemed, by continuing to hold such ADR, to consent and agree to such amendment and to be bound by the Deposit Agreement as amended thereby. In no event shall any amendment impair the right of the holder of any ADR to surrender such ADR and receive the Deposited Securities represented thereby, except in order to comply with mandatory provisions of applicable law. Any amendments or supplements that (i)Â are reasonably necessary (as agreed by Honda and the Depositary) in order for (a)Â the ADSs to be registered on Form F-6 under the Securities Act of 1933 or (b)Â the ADSs or shares to be traded solely in electronic book-entry form and (ii)Â do not in either such case impose or increase any fees or charges to be borne by holders, shall be deemed not to prejudice any substantial rights of Holders or Beneficial Owners. Notwithstanding the foregoing, if any governmental body or regulatory body should adopt new laws, rules or regulations which would require amendment or supplement of the Deposit Agreement or the form of ADR to ensure compliance therewith, Honda and the Depositary may amend or supplement the Deposit Agreement and the form of ADR at any time in accordance with such changed laws, rules or regulations. Such amendment or supplement to the Deposit Agreement in such circumstances may become effective before a notice of such amendment or supplement is given to holders or within any other period of time as required for compliance. Notice of any amendment to the Deposit Agreement or form of ADRs shall not need to describe in detail the specific amendments effectuated thereby, and failure to describe the specific amendments in any such notice shall not render such notice invalid, provided, however, that, in each such case, the notice given to the holders identifies a means for holders and beneficial owners to retrieve or receive the text of such amendment (i.e., upon retrieval from the Commissionâ€™s, the Depositaryâ€™s or Hondaâ€™s website or upon request from the Depositary). The Depositary may, and shall at the written direction of Honda, terminate the Deposit Agreement and the ADRs by mailing notice of such termination to the holders at least 30 days prior to the date fixed in such notice for such termination; provided, however, if the Depositary shall have (i)Â resigned as Depositary under the Deposit Agreement, notice of such termination by the Depositary shall not be provided to holders unless a Â -14- successor depositary shall not be operating hereunder within 60 days of the date of such resignation, or (ii)Â been removed as Depositary under the Deposit Agreement, notice of such termination by the Depositary shall not be provided to holders unless a successor depositary shall not be operating hereunder on the 90th day after Hondaâ€™s notice of removal was first provided to the Depositary. Notwithstanding anything to the contrary in the Deposit Agreement, the Depositary may terminate the Deposit Agreement without notice to Honda, but subject to giving 30 daysâ€™ notice to the holders, under the following circumstances: (i)Â in the event of Hondaâ€™s bankruptcy or insolvency, (ii)Â if the shares cease to be listed on an internationally recognized stock exchange, (iii)Â if Honda effects (or will effect) a redemption of all or substantially all of the Deposited Securities, or a cash or share distribution representing a return of all or substantially all of the value of the Deposited Securities, or (iv)Â there occurs a merger, consolidation, sale of assets or other transaction as a result of which securities or other property are delivered in exchange for or in lieu of Deposited Securities. After the date so fixed for termination, the Depositary and its agents will perform no further acts under the Deposit Agreement and the ADRs, except to receive and hold (or sell) distributions on Deposited Securities and deliver Deposited Securities being withdrawn. As soon as practicable after the date so fixed for termination, the Depositary shall use its reasonable efforts to sell the Deposited Securities and shall thereafter (as long as it may lawfully do so) hold in an account (which may be a segregated or unsegregated account) the net proceeds of such sales, together with any other cash then held by it under the Deposit Agreement, without liability for interest, in trust for the pro rata benefit of the Holders of ADRs not theretofore surrendered. After making such sale, the Depositary shall be discharged from all obligations in respect of the Deposit Agreement and the ADRs, except to account for such net proceeds and other cash. After the date so fixed for termination, Honda shall be discharged from all obligations under the Deposit Agreement except for its obligations to the Depositary and its agents. Surrender of ADRs and Withdrawal of Common Stock (Item 12.D.2.(i) of Form 20-F) Subject to the terms of the Deposit Agreement, upon surrender of (a)Â a certificated ADR in a form satisfactory to the Depositary at the transfer office or (b)Â proper instructions and documentation in the case of a Direct Registration ADR, the holder of such ADR is entitled to delivery at, or to the extent in dematerialized form from, the Custodianâ€™s office of the Deposited Securities at the time represented by the ADSs evidenced by such ADR. At the request, risk and expense of the holder, the Depositary may deliver such Deposited Securities at such other place as may have been requested by the Holder. Notwithstanding the foregoing, to the extent Japanese law or Hondaâ€™s Articles of Incorporation limit the delivery of Deposited Securities in the Japanese market to a unit consisting of a specified number of Deposited Securities, cancellations of ADSs will only be permitted in a number that would allow for delivery of one or more multiples of such unit of Deposited Securities. Notwithstanding any other provision of the Deposit Agreement and subject to any limitations resulting from the immediately preceding sentence, the withdrawal of Deposited Securities may be restricted only for the reasons set forth in General Instruction I.A. (1)Â of Form F-6 (as such instructions may be amended from time to time) under the Securities Act of 1933. Conditions to Execution and Delivery, Registration of Transfer, etc. of ADRs (Item 12.D.2.(i) of Form 20-F) As a condition precedent to the execution and delivery, registration, registration of transfer, split-up or combination of any ADR, the delivery of any distribution in respect thereof or, subject to the terms of the Deposit Agreement, the withdrawal of any Deposited Securities, Honda, the Depositary, or any Custodian may require: (a)Â payment with respect thereto of (i)Â any Common Stock transfer or other tax or other governmental charge with respect thereto, (ii)Â any Common Stock transfer or registration fees for the registration of transfers of Common Stock or other Deposited Securities upon any applicable register and (iii)Â any charges of the Depositary upon delivery of ADRs; (b)Â the production of proof satisfactory to it of (i)Â the identity and genuineness of any signature and (ii)Â as to any other matter, including without limitation, information as to citizenship, residence, exchange control approval, beneficial or other ownership of, or interest in, any securities, compliance with applicable law, regulations, provisions of or governing Deposited Securities and terms of the Deposit Agreement Â -15- and the ADR, as it may deem necessary or proper; and (c)Â compliance with such reasonable regulations, if any, as the Depositary and Honda may establish consistent with the provisions of the Deposit Agreement. Suspension of Delivery, Transfer, etc. (Item 12.D.2.(i) of Form 20-F) The issuance of ADRs, the acceptance of deposits of shares, the registration, registration of transfer, split-up or combination of ADRs or, subject to the terms of the Deposit Agreement, the withdrawal of Deposited Securities may be suspended, generally or in particular instances, when the ADR Register or any register for Deposited Securities is closed or when any such action is deemed advisable by the Depositary. Transfers, Split-ups, Combinations of ADRs (Item 12.D.2.(i) of Form 20-F) An ADR is transferable on the books of the Depositary upon surrender of such ADR to the Depositary at such offices as it may designate properly endorsed or accompanied by a properly executed and duly stamped instrument of transfer, and upon such transfer the Depositary shall execute and deliver an ADR to or upon the order of the person entitled thereto, as provided in the Deposit Agreement. An ADR may be split into other ADRs or combined with other ADRs into one ADR. The Depositary may close the register at any time or from time to time, when deemed expedient by it. Liability and Obligations of Honda, the Depositary and the Custodian (Item 12.D.2.(j) of Form 20-F) Neither the Depositary nor Honda nor any of their respective directors, officers, employees, agents and affiliates and each of them shall incur any liability to any holder of an ADR, if by reason of any provision of any present or future law or regulation of Japan or any other country or jurisdiction, or of any action of any other governmental authority or any securities exchange or market or automated quotation system, or in the case of the Depositary or the Custodian, by reason of any provision, present or future, of the Articles of Incorporation or the Share Handling Regulations of Honda, or by reason of any act of God or war or other circumstance beyond its control, the Depositary, Honda or each of their respective directors, officers, employees, agents and affiliates and each of them shall be prevented or forbidden from, or subjected to any civil or criminal penalty on account of, doing any act which the Deposit Agreement provides shall be done; nor shall the Depositary, Honda or each of their respective directors, officers, employees, agents and affiliates and each of them incur any liability to any holder hereof by reason of any non-performance or delay, caused as aforesaid, in performance of any act which it is so provided shall or may be done, or by reason of any exercise of, or failure to exercise any discretion provided for in the Deposit Agreement. Neither the Depositary, nor Honda nor each of their respective directors, officers, employees, agents and affiliates and each of them assumes any obligation nor shall any of them be subject to any liability under the Deposit Agreement to holders of ADRs, except that each agrees to perform obligations and duties specifically set forth in the Deposit Agreement without gross negligence or willful misconduct and the Depositary shall not be a fiduciary or have any fiduciary duty to holders. Neither the Depositary nor its agent shall be under any obligation to appear in, prosecute or defend any action, suit or other proceeding in respect of any Deposited Securities or in respect of the ADRs. Neither Honda not its agent shall be under any obligation to appear in, prosecute or defend any action, suit or other proceeding in respect of any Deposited Securities or in respect of the ADRs, which in its opinion may involve it in expense or liability, unless satisfactory indemnity be furnished as often as may be required. Neither the Depositary, nor Honda shall be liable for any action or non-action by it in reliance upon the advice of or information from legal counsel, accountants, any person presenting Common Stock for deposit, any holder of an ADR, or any other person believed by it to be competent to give such advice or information. Neither the Depositary nor the Custodian will be responsible for any failure to carry out any instructions to vote any of the Deposited Securities, or for the manner or effect of any such vote, made either with or without request as long as any such action or non-action is in good faith. Honda will indemnify the Depositary, the Custodian and their Â -16- respective directors, officers, employees, agents and affiliates against any loss, liability or expense which may arise out of acts performed, in accordance with the provisions of the Deposit Agreement and of the ADRs (i)Â by the Depositary, the Custodian, or any of their respective directors, officers, employees, agents and affiliates, except for any liability arising out of its own negligence or willful misconduct or (ii)Â by Honda or any of its directors, officers, employees, agents and affiliates. The Depositary will indemnify Honda against any direct loss, liability or expenses which may arise out of acts performed or omitted by the Depositary or its agents (including the Custodian) due to negligence or willful misconduct. The Depositary and the Custodian may own and deal in any class of securities of Honda and its affiliates and in ADRs. Â -17- EX-12.1 4 d877523dex121.htm CERTIFICATION REQUIRED BY 17 C.F.R. 240. 13A-14(A) CERTIFICATION REQUIRED BY 17 C.F.R. 240. 13A-14(A) Exhibit 12.1 CERTIFICATION I, Toshihiro Mibe, certify that: Â 1. I have reviewed this Annual Report on Form 20-F of Honda Motor Co., Ltd.; Â 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report; Â 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the company as of, and for, the periods presented in this report; Â 4. The companyâ€™s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the company and have: Â Â (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the company, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared; Â Â (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Â Â (c) Evaluated the effectiveness of the companyâ€™s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and Â Â (d) Disclosed in this report any change in the companyâ€™s internal control over financial reporting that occurred during the period covered by the Annual Report that has materially affected, or is reasonably likely to materially affect, the companyâ€™s internal control over financial reporting; and Â 5. The companyâ€™s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the companyâ€™s auditors and the audit committee of the companyâ€™s board of directors (or persons performing the equivalent functions): Â Â (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the companyâ€™s ability to record, process, summarize and report financial information; and Â Â (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the companyâ€™s internal control over financial reporting. Date: June 18, 2025 Â By: Â /s/â€ƒToshihiro Mibeâ€‚â€‚â€‚â€‚, Name: Â Toshihiro Mibe Title: Â Director,Â PresidentÂ andÂ RepresentativeÂ ExecutiveÂ Officer, Chief Executive Officer Honda Motor Co., Ltd. Disclosure of other provisions [text block] Provisions Disclosure of employee benefits [text block] Employee Benefits Disclosure of share capital, reserves and other equity interest [text block] Equity Disclosure of revenue [text block] Sales Revenue Disclosure of research and development expense [text block] Research and Development Disclosure of finance income (cost) [text block] Finance Income and Finance Costs Disclosure of income tax [text block] Income Taxes Disclosure of earnings per share [text block] Earnings Per Share Disclosure of financial risk management [text block] Financial Risk Management Disclosure of fair value measurement [text block] Fair Value Disclosure of offsetting of financial assets and financial liabilities [text block] Offsetting of Financial Assets and Financial Liabilities Disclosure of commitments and contingent liabilities [text block] Commitments and Contingent Liabilities Investments accounted for using

the equity method [abstract] Disclosure of information about consolidated structured entities [text block] Structured Entities Disclosure of related party [text block] Related Parties Disclosure of authorisation of financial statements [text block] Approval of Release of Consolidated Financial Statements Disclosure of basis of consolidation [text block] Basis of Consolidation Description of accounting policy for investment in associates and joint ventures [text block] Investments in Affiliates and Joint Ventures (Investments Accounted for Using the Equity Method) Description of accounting policy for foreign currency translation [text block] Foreign Currency Translations Description of accounting policy for financial instruments [text block] Financial Instruments Description of accounting policy for measuring inventories [text block] Inventories Description of accounting policy for property, plant and equipment [text block] Property, Plant and Equipment Description of accounting policy for intangible assets and goodwill [text block] Intangible Assets Description of accounting policy for leases [text block] Lease Description of accounting policy for impairment of assets [text block] Impairment Description of accounting policy for provisions [text block] Provisions Description of accounting policy for employee benefits [text block] Employee Benefits Description of accounting policy for issued capital [text block] Equity Description of accounting policy for recognition of revenue [text block] Revenue Recognition Description of accounting policy for income tax [text block] Income Taxes Description of accounting policy for earnings per share [text block] Earnings per Share Equipment on operating leases Equipment on Operating Leases Description Of Accounting Policy For Operating Leases Explanatory Disclosure of operating segments [text block] Summary of Segment Information Disclosure of products and services [text block] Sales Revenue by Product or Service Groups Disclosure of geographical areas [text block] Sales Revenue and Carrying Amounts of Non-current Assets Other Than Financial Instruments and Deferred Tax Assets Based on Location Disclosure of detailed information about cash and cash equivalents [text block] Summary of Cash and Cash Equivalents The disclosure for detailed information about cash and cash equivalent. Classes of financial instruments [axis] Classes of financial instruments [axis] Classes of financial instruments [domain] Classes of financial instruments [domain] Trade receivables [member] Trade receivables [member] Disclosure of financial assets [text block] Summary of Financial Assets Disclosure of allowance for credit losses [text block] Changes in Allowance for Doubtful Accounts Receivables from financial services [member] Receivables from financial services [Member] Receivables from financial services. Disclosure Of Detailed Information Of Loans And Advances To Customers [text block] Summary of Receivables from Financial Services Disclosure of detailed information of loans and advances to customers. Disclosure of maturity analysis of finance lease payments receivable [text block] Lease payments receivable under the finance leases by maturity Other financial asset [member] Other financial assets [member] Other [member] Other financial asset. Disclosure of other financial assets by component [text block] Summary of Other Financial Assets Disclosure of other financial assets by component [text block] Disclosure of Allowance for Impairment Losses Explanatory Summary of Changes in Allowance for Impairment Losses Disclosure of allowance for impairment losses [text block] Disclosure of financial assets at fair value through other comprehensive income explanatory Major Securities Included in Equity Securities Designated as Financial Assets Measured at Fair Value Through Other Comprehensive Income The disclosure of financial assets at fair value through other comprehensive income. Disclosure of fair value of investments in equity instruments designated at fair value through other comprehensive income [text block] Summary of Fair Values at Date of Derecognition and Cumulative Net Gains or Losses Recognized in Other Comprehensive Income in Equity Disclosure of detailed information about inventories [text block] Summary of Inventories The disclosure of detailed information about inventories. Disclosure of detailed information about investments accounted for using equity method [text block] Equity in Affiliates and Joint Ventures Disclosure of detailed information about investments accounted for using equity method. Disclosure of Comprehensive Income Of Affiliates And Joint Ventures Explanatory Share of Comprehensive Income of Affiliates and Joint Ventures The disclosure of comprehensive income of affiliates and joint ventures. Disclosure of combined financial information of affiliates and joint ventures explanatory Combined Financial Information of Affiliates and Joint Ventures Disclosure of combined financial information of affiliates and joint ventures. Disclosure of detailed information about property, plant and equipment [text block] Summary of Property, Plant and Equipment Disclosure of maturity analysis of operating lease payments [text block] Future Minimum Lease Payments Expected to be Received under Non-cancellable Operating Leases to be Received Disclosure of quantitative information about right-of-use assets [text block] Summary of carrying amounts of theÂ right-of-useÂ assets Disclosure of detailed information about intangible assets [text block] Changes in Cost, Accumulated Amortization and Impairment Losses, and Carrying Amounts of Intangible Assets Disclosure of detailed information about trade and other payables [text block] Summary of Trade Payables The disclosure of detailed information about trade and other payables. Current borrowings [member] Current borrowings [member] Current borrowings member. Noncurrent borrowings [member] Non-current liabilities [member] Noncurrent borrowings including current portion. Disclosure of detailed information about borrowings [text block] Summary of Financing Liabilities Disclosure of interest rates for financing liabilities explanatory Interest Rates for Financing Liabilities Disclosure of interest rates for financing liabilities. Disclosure of collateral [text block] Pledged Assets for Financing Liabilities Disclosure of reconciliation of liabilities arising from financing activities [text block] The Changes in Liabilities Arising from Financing Activities Disclosure of detailed information about other financial liabilities [text block] Summary of Other Financial Liabilities The disclosure of detailed information about other financial liabilities. Disclosure of detailed information about other provisions explanatory Components of and Changes in Provisions Disclosure of detailed information about other provisions. Disclosure Of Current liabilities and non-current liabilities of Provisions [text block] Current Liabilities and Non-current Liabilities of Provisions The disclosure of current liabilities and non-current liabilities of provisions. Disclosure of net defined benefit liability (asset) [text block] Changes in Present Value of Defined Benefit Obligations and Fair Value of Plan Assets Disclosure of fair value of plan assets [text block] Fair Value of Japanese and Foreign Pension Plan Assets By Asset Category Disclosure Of Actuarial Assumptions To Determine Present Value Of Defined Benefit Obligations [text block] Significant Actuarial Assumptions Used to Determine Present Value of Defined Benefit Obligations The disclosure of actuarial assumptions to determine present value of defined benefit obligations. Disclosure of sensitivity analysis for actuarial assumptions [text block] Effects on Defined Benefit Obligations Due to Increase or Decrease in Discount Rate Disclosure of information about maturity profile of defined benefit obligation [text block] Weighted Average Duration of Defined Benefit Obligations Disclosure of Personnel Expenses [text block] Personnel Expenses Included in Consolidated Statements of Income The disclosure of personnel expenses. Disclosure Of Financial Liabilities And Equity [text block] Financial Liabilities and Equity The disclosure of financial liabilities and equity. Disclosure of issued capital [text block] Total Number of Shares Authorized and Issued Disclosure of treasury shares [text block] Total Number of Treasury Stock Held Disclosure of reserves within equity [text block] Changes in Other Components of Equity Disclosure of analysis of other comprehensive income by item [text block] Each Component of Other Comprehensive Income and Related Tax Effect Including Non-controlling Interests Disclosure of components of other comprehensive income loss included in non-controlling interest explanatory Components of Other Comprehensive Income Included in Non-controlling Interests The disclosure of detailed information about components of other comprehensive loss included in non-controlling interest. Disclosure of dividends [text block] Dividends from Retained Earnings Disclosure of disaggregation of revenue from contracts with customers [text block] Summary of Reconciliation of the Disaggregated Sales Revenue with the Four Reportable Segments Explanation of receivables from contracts with customers and contract liabilities[text block] Summary of Information Regarding Receivables from Contracts with Customers and Contract Liabilities Explanation of receivables from contracts with customers and contract liabilities. Disclosure of transaction price allocated to remaining performance obligations [text block] Summary of Revenue Expected to be Recognized in the Future Related to Performance Obligations that are Unsatisfied (or Partially Unsatisfied) Disclosure of assets recognised from costs to obtain or fulfil contracts with customers [text block] Summary of Assets Recognized Costs Obtain a Contract With Customer Disclosure of detailed information of research and development expense [text block] Summary of Research and Development Costs Disclosure of detailed information of research and development expense. Disclosure of Detailed Information About Finance Income Expense [text block] Summary of Finance Income and Finance Costs The disclosure of detailed information about finance income (expense). Disclosure of detailed information about income tax expense [text block] Profit Before Income Taxes and Income Tax Expense The disclosure of detailed information about income tax expense. Disclosure of reconciliation of statutory income tax rate to average effective tax rate explanatory Reconciliation of Statutory Income Tax Rate to Average Effective Tax Rate Disclosure of reconciliation of statutory income tax rate to average effective tax rate. Disclosure of deferred taxes [text block] Components by Major Factor in Deferred Tax Assets and Deferred Tax Liabilities Disclosure of Changes in Deferred Tax Assets and Liabilities [text block] Changes in Deferred Tax Assets and Deferred Tax Liabilities Recognized as Income Tax Expense in the Consolidated Statements of Income Disclosure of changes in deferred tax assets and liabilities. Disclosure of temporary difference, unused tax losses and unused tax credits [text block] Deductible Temporary Differences, Carryforward of Unused Tax Losses and Unused Tax Credit for which Deferred Tax Assets are not Recognized Disclosure Of Expirations Of Unused Tax Losses Explanatory Components by Expiry of the Carryforward of Unused Tax Losses for which Deferred Tax Assets are not Recognized The disclosure of expirations of unused tax losses. Disclosure of expirations of unused tax credits explanatory Components by Expiry of Carryforward of Unused Tax Credits for which Deferred Tax Assets are not Recognized Disclosure of expirations of unused tax credits. Earnings per share [text block] Summary of Earnings Per Share Borrowings by name [axis] Borrowings by name [axis] Borrowings by name [domain] Borrowings by name [domain] Credit facility [member] Credit facility [member] Credit facility. Committed lines of credit [member] Committed lines of credit [member] Committed lines of credit [member] Sensitivity analysis for types of market risk [text block] Market Risk Sensitivity Analysis Tabular of financial assets that are either past due or impaired Analysis of the Age of Receivables from Financial Services that are Past Due Tabular of financial assets that are either past due or impaired. Disclosure of finance receivables and loan commitments explanatory Dealer Finance Receivables and Undiscounted Maximum Amounts of Potential Payment for Loan Commitments Disclosure of finance receivables and loan commitments explanatory. Disclosure of liquidity risk [text block] Unused Portions of Credit Facility Disclosure of maturity analysis for non-derivative financial liabilities [text block] Non-derivative Financial Liabilities by Maturity Disclosure of maturity analysis for derivative financial liabilities [text block] Derivative Financial Liabilities by Maturity Disclosure Of Lease Liabilities By Maturity Summary of Lease liabilities by maturity Disclosure of lease liabilities by maturity text block. Disclosure Of Finance Receivables [Table Text Block] Summary of retail receivables included in consumer finance receivables Disclosure of finance receivables [text block]. Types of risks [axis] Types of risks [axis] Types of risks [domain] Types of risks [domain] Currency risk [member] Currency risk [member] Interest rate risk [member] Interest rate risk [member] Levels of fair value hierarchy [axis] Levels of fair value hierarchy [axis] Levels of fair value hierarchy [domain] Levels of fair value hierarchy [domain] Level 3 of fair value hierarchy [member] Level 3 [member] Measurement [axis] Measurement [axis] Measurement [domain] Measurement [domain] Recurring fair value measurement [member] Measured at fair value on a recurring basis [member] At cost [member] At cost [member] Disclosure of fair value of financial instruments [text block] Financial Assets and Financial Liabilities Disclosure Of Detailed Information About Offsetting Of Financial Assets And Financial Liabilities Explanatory Offsetting Information Regarding Financial Assets and Financial Liabilities Disclosure of detailed information about offsetting of financial assets and financial liabilities. Disclosure Of Purchase Commitments For Property Plant And Equipment [text block] Commitments for Purchases of Property, Plant and Equipment and Other Commitments Disclosure of purchase commitments for property, plant And equipment. Disclosure of receivables and payables arising from related party transactions explanatory [text block] Balances of Receivables and Payables with Affiliates and Joint Ventures The disclosure of receivables and payables arising from related party transactions. Disclosure of transactions between related parties [text block] Amount of Transactions with Affiliates and Joint Ventures Disclosure Of Key Management Compensation [text block] Compensation Paid to Directors The entire disclosure of key management compensation. Disclosure of subsidiaries [text block] Major Consolidated Subsidiaries Accounting Policies1 [abstract] Accounting policies. Accounting Policies [table] Accounting Policies [Table] Accounting policies. Accounting Policies [line items] Accounting Policies [Line Items] Accounting policies. Useful life measured as period of time, property, plant and equipment Estimated useful lives of property, plant and equipment Useful life measured as period of time, intangible assets other than goodwill Estimated useful lives of intangible assets Classes of intangible assets other than goodwill [axis] Classes of intangible assets other than goodwill [axis] Classes of intangible assets other than goodwill [domain] Intangible assets [Member] Capitalised development expenditure [member] Capitalized development costs [member] Other intangible assets [member] Other [member] Classes of property, plant and equipment [axis] Classes of property, plant and equipment [axis] Classes of property, plant and equipment [domain] Property, plant and equipment [member] Buildings [member] Buildings and structures [member] Machinery [member] Machinery and equipment [member] Range [axis] Range [axis] Range [domain] Ranges [member] Bottom of range [member] Bottom of range [member] Top of range [member] Top of range [member] Disclosure of operating segments [abstract] Number of Reportable Segments1 Number of reportable segments Number of Reportable Segments1 Disclosure of operating segments [table] Disclosure of operating segments [table] Disclosure of operating segments [line items] Disclosure of operating segments [line items] Depreciation and amortisation expense Depreciation and amortization Additions to non-current assets other than financial instruments, deferred tax assets, net defined benefit assets, and rights arising under insurance contracts Capital expenditures Impairment loss recognised in profit or loss Impairment losses on non-financial assets Provision For Credit And Lease Residual Losses On Receivables From Financial Services Provision (reversal) for credit and lease residual losses on receivables from financial services Provision (reversal) for credit and lease residual losses on receivables from financial services. Segment consolidation items [axis] Segment consolidation items [axis] Segment consolidation items [domain] Entity's total for segment consolidation items [member] Operating segments [member] Operating segments [member] Material reconciling items [member] Reconciling items [member] Segments [axis] Segments [axis] Segments [domain] Segments [member] Motorcycle Business [member] Motorcycle business [member] Motorcycle business. Automobile business [member] Automobile business [member] Automobile business. Financial services business [member] Financial services business [member] Financial services business. Power Products And Other Businesses [Member] Power products and other businesses [member] Power products and other businesses [member] Power products and other businesses. Types of customers [axis] Types of customers [axis] Types of customers [domain] Types of customers [member] External Customers [member] External customers [member] External customers. Intersegment [member] Intersegment [member] Inter-segment. Classes of other provisions [axis] Classes of other provisions [axis] Classes of other provisions [domain] Provisions [member] Warranty provision [member] Product warranties [member] Additional provisions, other provisions Provisions for product warranties Additional provisions Inventory write-down Write-down of inventories recognized as an expense Unallocated amounts [member] Unallocated corporate assets [member] Disclosure of products and services [abstract] Disclosure of products and services [table] Disclosure of products and services [table] Disclosure of products and services [line items] Disclosure of products and services [line items] Products and services [axis] Products and services [axis] Products and services [domain] Products and services [member] automobiles and relevant parts [member] Automobiles and relevant parts [member] Automobiles and relevant parts. financial services [member] Financial services [member] Financial services. Power Products And Relevant Parts [member] Power products and relevant parts [member] Power products and relevant parts. Other Products And Services [member] Others [member] Other products and services. Motorcycles All Terrain Vehicles Side By Sides And Relevant Parts [Member] Motorcycles, all-terrain vehicles (ATVs), side-by-sides (SxS) and relevant parts [member] Motorcycles, all-terrain vehicles (ATVs), side-by-sides (SxS) and relevant parts. Disclosure of geographical areas [abstract] Disclosure of geographical areas [table] Disclosure of geographical areas [table] Disclosure of geographical areas [line items] Disclosure of geographical areas [line items] Non-current assets other than financial instruments, deferred tax assets, post-employment benefit assets, and rights arising under insurance contracts Non-current assets other than financial instruments, deferred tax assets and net defined benefit assets Geographical areas [axis] Geographical areas [axis] Geographical areas [domain] Geographical areas [member] Country of domicile [member] Japan [member] UNITED STATES United States [member] Other Countries [member] Other Countries [member] Other [member] Other countries. Cash and cash equivalents [abstract] Cash Cash and deposits Cash equivalents Cash equivalents Trade and other current receivables [abstract] Disclosure of financial assets [table] Disclosure of financial assets [table] Carrying amount, accumulated depreciation, amortisation and impairment and gross carrying amount [axis] Carrying amount, accumulated depreciation, amortisation and impairment and gross carrying amount [axis] Carrying amount [member] Carrying amount [member] Gross carrying amount [member] Gross carrying amount [member] Cost [member] Classes of financial assets [axis] Classes of financial assets [axis] Classes of financial assets [domain] Financial assets, class [member] Trade accounts and notes receivable [member] Trade accounts and notes receivable [member] This member stands for Trade accounts and notes receivable. Other trade receivables [member] Other [member] This member stands for Other trade receivables. Disclosure of financial assets [line items] Disclosure of financial assets [line items] Allowance For Credit Losses Of Financial Assets Allowance for impairment losses Balance at beginning of year Balance at end of year Allowance for credit losses Allowance for credit losses of financial assets. Additional allowance recognised in profit or loss, allowance for credit losses of financial assets Remeasurement Additional allowance recognised in profit or loss, allowance for credit losses of financial assets. Utilisation, allowance for credit losses of financial assets Write-offs Utilisation, allowance for credit losses of financial assets. Increase (decrease) through net exchange differences, allowance for credit losses of financial assets Exchange differences on translating foreign operations Increase (decrease) through net exchange differences, allowance for credit losses of financial assets. Disclosure of financial assets [abstract] Financial Services receivables [member] Financial Services receivables [member] Financial Services receivables. Loans to consumers

[member] Retail [member] Lease receivables [member] Finance lease [member] Loans to corporate entities [member] Wholesale [member] Loans Receivables Receivables from financial services Receivables from financial services Consumer finance receivables Dealer finance receivables Loans receivables. Unearned finance income relating to finance lease payments receivable Unearned interest income and fees Disclosure of quantitative information about leases for lessor [abstract] Disclosure of maturity analysis of finance lease payments receivable [table] Disclosure of maturity analysis of finance lease payments receivable [table] Disclosure of maturity analysis of finance lease payments receivable [line items] Disclosure of maturity analysis of finance lease payments receivable [line items] Undiscounted finance lease payments to be received Gross investment in the lease Discounted unguaranteed residual value of assets subject to finance lease Unguaranteed residual value Unearned Finance Income Relating To Finance Lease Payment Receivable Unearned finance income Unearned finance income relating to finance lease payment receivable. Net investment in finance lease Net investment in the lease Maturity [axis] Maturity [axis] Maturity [domain] Aggregated time bands [member] Not later than one year [member] Within 1 year [member] Later than five years [member] Later than 5 years [member] Later than one year and not later than two years [member] Between 1 and 2 years [member] Later than two years and not later than three years [member] Between 2 and 3 years [member] Later than three years and not later than four years [member] Between 3 and 4 years [member] Later than four years and not later than five years [member] Between 4 and 5 years [member] Reconciliation of changes in allowance account for credit losses of financial assets [abstract] Credit impairment of financial instruments [axis] Credit impairment of financial instruments [axis] Credit impairment of financial instruments [domain] Credit impairment of financial instruments [member] Financial instruments not credit-impaired [member] Not credit-impaired [member] Financial instruments credit-impaired [member] Credit-impaired [member] Increase (decrease) through adjustments arising from passage of time, allowance for credit losses of financial assets Remeasurement Increase (decrease) through adjustments arising from passage of time, allowance for credit losses of financial assets. Indefinite Periods [member] Indefinite periods [member] Indefinite periods. Earnings per share [abstract] Weighted average number of ordinary shares outstanding Weighted average number of common shares outstanding, basic Disclosure of nature and extent of risks arising from financial instruments [abstract] Disclosure of nature and extent of risks arising from financial instruments [table] Disclosure of nature and extent of risks arising from financial instruments [table] Financial guarantee contracts [member] Guarantee of employee loans [member] Consumer Finance Receivables [Member] Consumer finance receivables [member] Consumer finance receivables member. Dealer Finance Receivable [Member] Dealer finance receivable [member] Dealer finance receivable member. Disclosure of nature and extent of risks arising from financial instruments [line items] Disclosure of nature and extent of risks arising from financial instruments [line items] Risk exposure associated with instruments sharing characteristic, percentage change in risk Sensitivity analysis, percentage The fluctuation of economic and financial indicators when calculating the impact amount on profit before income taxes. Provision for the guarantee of employee loans Amount accrued for estimated losses The amount of provision for the guarantee of employee loans. Exposure to credit risk on loan commitments and financial guarantee contracts Undiscounted maximum amount of payment for guarantee obligations Loan commitments Percentage Collateral Exceeds Carrying Value Collateral values in excess for percentage of carrying amounts Percentage collateral exceeds carrying value. Percentage of appreciation of the Japanese yen against the U.S. dollar [member] Percentage of appreciation of the Japanese yen against the U.S. dollar [member] Percentage of appreciation of the Japanese yen against the U.S. dollar Risk exposure associated with financial instruments Impact on profit before income taxes The amount of risk exposure associated with financial instruments Disclosure of financial assets that are either past due or impaired [abstract] Disclosure of financial assets that are either past due or impaired [table] Disclosure of financial assets that are either past due or impaired [table] Disclosure of financial assets that are either past due or impaired [line items] Disclosure of financial assets that are either past due or impaired [line items] Impairment of financial assets [axis] Impairment of financial assets [axis] Impairment of financial assets [domain] Entity's total for impairment of financial assets [member] Financial assets past due [member] Financial assets past due [member] This member stands for financial assets that are past due. A financial asset is past due when a counterparty has failed to make a payment when contractually due. Past due status [axis] Past due status [axis] Past due status [domain] Past due status [member] Not later than one month [member] Less than 30 days past due [member] Later than one month and not later than two months [member] 30-59 days past due [member] Later than two months and not later than three months [member] 60-89 days past due [member] Later than three months [member] 90 days and greater past due [member] Disclosure Of Finance Receivables [Abstract] Disclosure of finance receivables [abstract] Disclosure Of Finance Receivables [Table] Disclosure Of Finance Receivables [Table] Disclosure of finance receivables [Table]. Disclosure Of Finance Receivables [Line Items] Disclosure Of Finance Receivables [Line Items] Disclosure of finance receivables [Line item] Disclosure of finance receivables and undiscounted maximum amounts of potential payment for loan commitments [abstract] Disclosure of finance receivables and undiscounted maximum amounts of potential payment for loan commitments [abstract] Disclosure of finance receivables and undiscounted maximum amounts of potential payment for loan commitments [table] Disclosure of finance receivables and undiscounted maximum amounts of potential payment for loan commitments [table] Disclosure of finance receivables and undiscounted maximum amounts of potential payment for loan commitments. GroupA [member] Group A [member] The group of dealerships with high credit quality characteristics. GroupB [member] Group B [member] The group of dealerships which are not classified as Group A. Disclosure of finance receivables and undiscounted maximum amounts of potential payment for loan commitments [line items] Disclosure of finance receivables and undiscounted maximum amounts of potential payment for loan commitments [line items] Disclosure of finance receivables and undiscounted maximum amounts of potential payment for loan commitments item. Dealer Finance Receivables [abstract] Dealer finance receivables: Dealer finance receivables. Loan commitments [abstract] Loan commitments: Loan commitments. Disclosure of risk management strategy related to hedge accounting [abstract] Disclosure of risk management strategy related to hedge accounting [table] Disclosure of risk management strategy related to hedge accounting [table] Disclosure of unused portion of borrowing facility [line items] Disclosure of unused portion of borrowing facility [line items] Disclosure of the unused portion of borrowing facility. Undrawn borrowing facilities Unused portions of the credit facility Unused portions of the committed lines of credit Commercial paper programs [member] Commercial paper programs [member] Commercial paper programs. Other Committed lines of credit [member] Other committed lines of credit [member] Other Committed lines of credit [member] Disclosure of maturity analysis for non-derivative financial liabilities [abstract] Disclosure of maturity analysis for non-derivative financial liabilities [table] Disclosure of maturity analysis for non-derivative financial liabilities [table] Disclosure of maturity analysis for non-derivative financial liabilities [line items] Disclosure of maturity analysis for non-derivative financial liabilities [line items] Other non-derivative financial liabilities Other financial liabilities, carrying amount The amount of other non-derivative financial liabilities. Non- derivative financial liabilities Non-derivative financial liabilities, carrying amount The amount of non-derivative financial liabilities. Trade and other payables, undiscounted cash flows Trade payables, contractual cash flows Borrowings, undiscounted cash flows Financing liabilities, contractual cash flows The amount of contractual undiscounted cash inflows in relation to borrowings. Accrued expenses undiscounted cash flows Accrued expenses, contractual cash flows The amount of contractual undiscounted cash flows in relation to accrued expenses Other financial liabilities, undiscounted cash flows Other financial liabilities, contractual cash flows The amount of contractual undiscounted cash flows in relation to other non-derivative financial liabilities. Non-derivative financial liabilities, undiscounted cash flows Non-derivative financial liabilities, contractual cash flows Disclosure Of Lease Liabilities By Maturity [Abstract] Disclosure Of Lease Liabilities By Maturity [Table] Disclosure Of Lease Liabilities By Maturity [Line Items] Lease liabilities Lease liabilities Gross lease liabilities Total contractual cash flows Disclosure of maturity analysis for derivative financial liabilities [abstract] Disclosure of maturity analysis for derivative financial liabilities [table] Disclosure of maturity analysis for derivative financial liabilities [table] Disclosure of maturity analysis for derivative financial liabilities [line items] Disclosure of maturity analysis for derivative financial liabilities [line items] Derivative financial liabilities, undiscounted cash flows Derivative financial liabilities, contractual cash flows Disclosure of fair value measurement of assets [abstract] Percentage of auction rate securities guaranteed by government Percentage of auction rate securities guaranteed by government Percentage of auction rate securities guaranteed by government. Transfers out of Level 1 into Level 2 of fair value hierarchy, assets held at end of reporting period Transfers out of Level 1 into Level 2 of fair value hierarchy Transfers out of Level 2 into Level 1 of fair value hierarchy, assets held at end of reporting period Transfers out of Level 2 into Level 1 of fair value hierarchy Disclosures of fair value hierarchy of financial assets and financial liabilities [abstract] Disclosures of fair value hierarchy of financial assets and financial liabilities. Disclosures Of Fair Value Hierarchy Of Financial Assets And Financial Liabilities [table] Disclosures of fair value hierarchy of financial assets and financial liabilities [Table] Disclosures of fair value hierarchy of financial assets and financial liabilities. Financial assets at fair value through other comprehensive income, category [member] Financial assets measured at fair value through other comprehensive income [member] Currency swap contract [member] Foreign exchange instruments [member] Interest rate swap contract [member] Interest rate instruments [member] Other Derivatives [Member] Other [member] Other Derivatives [Member] Disclosures of fair value of financial assets and financial liabilities at amortized cost [Line items] Disclosures of fair value of financial assets and financial liabilities at amortized cost [Line items] Disclosures of fair value of financial assets and financial liabilities measured at amortized cost. Level 2 of fair value hierarchy [member] Level 2 [member] Disclosure of fair value measurement of assets [table] Disclosure of fair value measurement of assets [table] Disclosure of fair value measurement of assets [line items] Disclosure of fair value measurement of assets [line items] Gains (losses) recognised in profit or loss, fair value measurement, assets Profit or loss Gains (losses) recognised in other comprehensive income, fair value measurement, assets Other comprehensive income Purchases, fair value measurement, assets Purchases Sales, fair value measurement, assets Sales Increase Decrease Through Net Exchange Differences Fair Value Measurement Assets Exchange differences on translating foreign operations The increase (decrease) in fair value measurement assets resulting from the net exchange differences arising when the financial statements are translated from the functional currency into a different presentation currency. Gains (losses) recognised in profit or loss attributable to change in unrealised gains or losses for assets held at end of period, fair value measurement Unrealized gains or losses included in profit or loss on assets held Transfers out of Level 3 of fair value hierarchy, assets Transfer to level 1 due to listing Other Fair Value Measurement Assets Other Other fair value measurement assets. At fair value [member] Fair value [member] Disclosure of detailed information about financial instruments [abstract] Disclosure of detailed information about financial instruments [table] Disclosure of detailed information about financial instruments [table] Disclosure of detailed information about financial instruments [line items] Disclosure of detailed information about financial instruments [line items] Gross financial assets subject to offsetting, enforceable master netting arrangements or similar agreements Gross amounts of recognized financial assets Gross financial liabilities set off against financial assets subject to offsetting, enforceable master netting arrangements or similar agreements Amounts offset in the consolidated statements of financial position, financial assets Net financial assets subject to offsetting, enforceable master netting arrangements or similar agreements in statement of financial position Net amounts presented in the consolidated statements of financial position, financial assets Amounts subject to enforceable master netting arrangement or similar agreement not set off against financial assets Amounts not offset due to not meeting offsetting criteria despite being subject to a master netting agreement or similar agreement, financial assets Net financial assets subject to offsetting, enforceable master netting arrangements or similar agreements Net Amounts, financial assets Gross financial liabilities subject to offsetting, enforceable master netting arrangements or similar agreements Gross amounts of recognized financial liabilities Gross financial assets set off against financial liabilities subject to offsetting, enforceable master netting arrangements or similar agreements Amounts offset in the consolidated statements of financial position, financial liabilities Net financial liabilities subject to offsetting, enforceable master netting arrangements or similar agreements in statement of financial position Net amounts presented in the consolidated statements of financial position, financial liabilities Amounts subject to enforceable master netting arrangement or similar agreement not set off against financial liabilities Amounts not offset due to not meeting offsetting criteria despite being subject to a master netting agreement or similar agreement, financial liabilities Net financial liabilities subject to offsetting, enforceable master netting arrangements or similar agreements Net Amounts, financial liabilities Disclosure of contingent liabilities [abstract] Contractual commitments for acquisition of property, plant and equipment Commitments for purchases of property, plant and equipment and other commitments Outstanding balances for related party transactions [abstract] Disclosure of transactions between related parties [table] Disclosure of transactions between related parties [table] Disclosure of transactions between related parties [line items] Disclosure of transactions between related parties [line items] Amounts receivable, related party transactions Receivables Amounts payable, related party transactions Payables Related party transactions [abstract] Revenue from sale of goods, related party transactions Sales revenue Purchases of goods, related party transactions Purchase Disclosure of transactions between related parties [abstract] Commitments made by entity, related party transactions Commitment under the agreement LH Battery Company, Inc [Member] L-H Battery Company, Inc [member] Directors' remuneration expense Remuneration Key management personnel compensation annual bonus STI (Short Term Incentive) Key management personnel compensation annual bonus. Key management personnel compensation, share-based payment LTI (Long Term Incentive) Key management personnel compensation Total Disclosure of subsidiaries [abstract] Disclosure of subsidiaries [table] Disclosure of subsidiaries [table] Disclosure of subsidiaries [line items] Disclosure of subsidiaries [line items] Name of subsidiary Company Country of incorporation of subsidiary Country of Incorporation Description of nature of entity's operations and principal activities Function Proportion of ownership interest in subsidiary Percentage Ownership Proportion of voting rights held in subsidiary Percentage Voting Interest Subsidiaries [axis] Subsidiaries [axis] Subsidiaries [domain] Entity's total for subsidiaries [member] Honda R&D Co., Ltd [member] Honda R&D Co., Ltd.
