The forward-looking statements contained in this Presentation reflect our views as of the date of this Presentation about future events and are subject to risks, uncertainties, assumptions, and changes in circumstances that may cause our actual results, performance, or achievements to differ significantly from those expressed or implied in any forward-looking statement. Although we believe the assumptions underlying the forward-looking statements, and the forward-looking statements themselves, are reasonable, any of the assumptions could be inaccurate, and, therefore, there can be no assurance that these forward-looking statements will prove to be accurate and our actual results, performance and achievements may be materially different from that expressed or implied by these forward-looking statements. Independent consultant reports, industry publications and other published industry sources generally indicate that the information contained therein was obtained from sources believed to be reliable. Although the Company believes that these third-party sources are reliable, it does not guarantee the accuracy or completeness of this information, and the Company has not independently verified this information. The Company's internal data and estimates are based upon information obtained from trade and business organizations and other contacts in the markets in which the Company operates and management's understanding of industry conditions. Although the Company believes that such information is reliable, it has not had this information verified by any independent sources. In addition, the information contained in this Presentation is as of the date hereof (except where otherwise indicated), and the Company has no obligation to update such information, including in the event that such information becomes inaccurate or if estimates change. Subsequent materials may be provided by or on behalf of the Company in its discretion and such information may supplement, modify or supersede the information in these materials. Neither the Company, nor any of its respective affiliates, advisors or representatives shall have any liability whatsoever (in negligence or otherwise) for any loss or damage howsoever arising from any use of these materials or their contents or otherwise arising in connection with these materials.

Basis of Presentation

The financial information presented herein (i) for the periods prior to the February 7, 2025 spin-off from Lennar (the "Spin-Off") is that of the business assets that were spun off to Millrose (the "Predecessor Millrose Business") and is derived from the consolidated financial statements and accounting records of Lennar, and (ii) for the periods after the February 7, 2025 Spin-Off is that of Millrose and its subsidiaries. Millrose was formed on March 19, 2024 and has operated as an independent company since the Spin-Off on February 7, 2025.

The Predecessor Millrose Business financial statements reflect the expenses directly attributable to the Predecessor Millrose Business, and, land inventory assets and liabilities included in the Spin-Off, at Lennar's historical basis. The financial statements of the Predecessor Millrose Business may not be indicative of Millrose's future performance as an independent, publicly traded company following the Spin-Off and do not necessarily reflect what the financial position, results of operations, and cash flows would have been had Millrose operated as a separate, publicly traded company during the periods presented.

The financial information of the Predecessor Millrose Business prior to the Spin-Off also presents a combination of entities under common control that have been "carved out" from Lennar's consolidated financial statements. Historically, financial statements of the Predecessor Millrose Business have not been prepared as it was not operated separately from Lennar. This financial information reflects the expenses of the Predecessor Millrose Business and includes certain assets and liabilities that have been included in the Spin-Off, which have been reflected at Lennar's historical basis.

Non-GAAP Measures

This Presentation contains both financial measures prepared and presented in accordance with generally accepted accounting principles ("GAAP") and non-GAAP financial measures, such as Invested Capital and Adjusted Funds from Operations ("AFFO"), which are measurements of financial performance that are not prepared and presented in accordance with GAAP. Accordingly, these measures should not be considered as substitutes for data prepared and presented in accordance with GAAP. Non-GAAP financial measures should not be construed as being more important than comparable GAAP measures. Although we use or have used these non-GAAP financial measures to assess the performance of our business and for the other purposes, the use of these non-GAAP financial measures as an analytical tool has limitations, and you should not consider them in isolation, or as a substitute for analysis of our results of operations as reported in accordance with GAAP. In addition, because not all companies use identical calculations, the non-GAAP financial measures included in this Presentation may not be comparable to similarly titled measures disclosed by other companies, including our peers or other companies in our industry. Please see "Appendix" within the Presentation for reconciliation of the non-GAAP financial measures included in this Presentation to our most directly comparable financial measure calculated and presented in accordance with GAAP.
