CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q and the documents incorporated by reference herein contain forward-looking statements within the meaning of the safe harbor from civil liability provided for such statements by the Private Securities Litigation Reform Act of 1995 (set forth in Section 21E of the Securities Exchange Act of 1934, as amended ("Exchange Act") and Section 27A of the Securities Act of 1933, as amended ("Securities Act"), which include information relating to future events, future financial performance, strategies, expectations, competitive environment, regulation and availability of resources and involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from any future results, performances or achievements expressed or implied by the forward-looking statements. From time to time, we also provide forward-looking statements in other materials we release to the public as well as verbal forward-looking statements.

In some cases, you can identify forward-looking statements by terms such as "may," "will," "should," "could," "would," "expects," "plans," "anticipates," "believes," "estimates," "projects," "predicts," "potential" and similar expressions (including the negative form of such expressions) intended to identify forward-looking statements, although not all forward looking statements contain these identifying words. Forward-looking statements are based on our current expectations and assumptions, do not strictly relate to historical or current facts, any of which may not prove to be accurate. Many factors could cause actual results to differ materially and adversely from these forward-looking statements. Important factors that could cause actual results to differ from those in our forward-looking statements include, without limitation:

- failure of our schools to comply with the extensive regulatory requirements for school operations;
- our failure to maintain eligibility for federal student financial assistance funds;
- the effect of current and future Title IV Program regulations arising out of negotiated rulemakings, including any potential reductions in funding or restrictions on the use of funds received through Title IV Programs;
- the effect of future legislative or regulatory initiatives related to veterans' benefit programs;
- continued Congressional examination of the for-profit education sector;
- our failure to maintain eligibility for or the ability to process federal student financial assistance;
- regulatory investigations of, or actions commenced against, us or other companies in our industry;
- changes in the state regulatory environment or budgetary constraints;
- our failure to execute on our growth and diversification strategy, including effectively identifying, establishing and operating additional schools, programs or campuses;
- our failure to realize the expected benefits of our acquisitions, or our failure to successfully integrate our acquisitions;
- our failure to improve underutilized capacity at certain of our campuses;
- enrollment declines or challenges in our students' ability to find employment as a result of macroeconomic conditions;
- our failure to maintain and expand existing industry relationships and develop new industry relationships;
- our ability to update and expand the content of existing programs and develop and integrate new programs in a timely and cost-effective manner while maintaining positive student outcomes;
- a loss of our senior management or other key employees;
- failure to comply with the restrictive covenants and our ability to pay the amounts when due under the Credit Agreement;
- the effect of our principal stockholder owning a significant percentage of our capital stock, and thus being able to influence certain corporate matters and the potential in the future to gain substantial control over our company;
- the effect of public health pandemics, epidemics or outbreak, including COVID-19; and
- risks related to other factors discussed in our [2023 Annual Report on Form 10-K](#) filed with the SEC on December 1, 2023 (the "2023 Annual Report on Form 10-K").

The factors above are not exhaustive, and new factors may emerge or changes to the foregoing factors may occur that could impact our business. We cannot guarantee that any forward-looking statement will be realized. Achievement of future results is subject to risks, uncertainties and potentially inaccurate assumptions. Many events beyond our control may determine whether results we anticipate will be achieved. Should known or unknown risks or uncertainties materialize, or should

underlying assumptions prove inaccurate, actual results could differ materially from past results and those anticipated, estimated or projected. Among the factors that could cause actual results to differ materially are the factors discussed under Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations." You should bear this in mind as you consider forward-looking statements.

Also, these forward-looking statements represent our estimates and assumptions only as of the date of the document containing the applicable statement. Except as required by law, we undertake no obligation to update or revise forward looking statements, whether as a result of new information, future events or otherwise. Thus, you should not assume that our silence over time means that actual events are bearing out as expressed or implied in such forward-looking statements. We qualify all of the forward-looking statements in this Quarterly Report on Form 10-Q, including the documents that we incorporate by reference herein, by these cautionary statements. You are advised, however, to consult any further disclosures we make on related subjects in our reports and filings with the Securities and Exchange Commission ("SEC").

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except per share amounts)
(Unaudited)

Note 1 - Nature of the Business

Universal Technical Institute, Inc., which together with its subsidiaries is referred to as the “Company,” “we,” “us” or “our,” was founded in 1965 and is a leading workforce solutions provider of transportation, skilled trades and healthcare education programs, whose mission is to serve students, partners, and communities by providing quality education and support services for in-demand careers across a number of highly-skilled fields. We offer the majority of our programs in a blended learning model that combines instructor-facilitated online teaching and demonstrations with hands-on labs. We have two reportable segments as follows:

Universal Technical Institute (“UTI”): UTI operates 16 campuses located in nine states and offers a wide range of degree and non-degree transportation and skilled trades technical training programs under brands such as Universal Technical Institute, Motorcycle Mechanics Institute and Marine Mechanics Institute (“MMI”), NASCAR Technical Institute, and MIAT College of Technology (“MIAT”). UTI also offers manufacturer specific advanced training programs, which include student-paid electives, at our campuses and manufacturer or dealer sponsored training at certain campuses and dedicated training centers. Lastly, UTI provides dealer technician training or instructor staffing services to manufacturers. UTI works closely with multiple original equipment manufacturers and industry brand partners to understand their needs for qualified service professionals.

Concorde Career Colleges (“Concorde”): Concorde operates across 17 campuses in eight states and online, offering degree, non-degree, and continuing education programs in the allied health, dental, nursing, patient care and diagnostic fields. The Company has designated campuses that offer degree granting programs “Concorde Career College,” where allowed by state regulation. The remaining campuses are designated as “Concorde Career Institute.” Concorde believes in preparing students for their healthcare careers with practical, hands-on experiences including opportunities to learn while providing care to real patients. Prior to graduation, students will complete a number of hours in a clinical setting or externship, depending upon their program of study. We acquired Concorde on December 1, 2022. See Note 4 on “Acquisitions” for additional information.

“Corporate” includes corporate related expenses that are not allocated to the UTI or Concorde reportable segments. Additional information about our reportable segments is presented in Note 19.

Our primary source of revenues is currently tuition and fees paid by students. To pay for a substantial portion of their tuition, the majority of students rely on funds received from federal financial aid programs under Title IV Programs of the Higher Education Act of 1965, as amended (“HEA”), as well as from various veterans’ benefits programs. For further discussion, see Note 2 on “Summary of Significant Accounting Policies - Concentration of Risk” and Note 19 on “Government Regulation and Financial Aid” included in our [2023 Annual Report on Form 10-K](#).

Note 2 - Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, our condensed consolidated financial statements do not include all the information and footnotes required by GAAP for complete financial statements. Normal and recurring adjustments considered necessary for a fair statement of the results for the interim periods have been included. Operating results for the six months ended March 31, 2024 are not necessarily indicative of the results that may be expected for the year ending September 30, 2024. The accompanying condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our [2023 Annual Report on Form 10-K](#).

The unaudited condensed consolidated financial statements include the accounts of Universal Technical Institute, Inc. and our wholly-owned subsidiaries. All significant intercompany transactions and balances have been eliminated. The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

Other than described below, there have been no material changes or developments in our significant accounting policies or evaluation of accounting estimates and underlying assumptions or methodologies from those disclosed in Note 2 of our [2023 Annual Report on Form 10-K](#).

Segment Recast

During fiscal 2023, in coordination with the integration of Concorde, we began to reassess our operating model to determine the optimal structure to achieve future growth goals and support the business. In furtherance of the foregoing, we executed an internal reorganization of our operations to fully transition our operating and reporting model to support a multi-divisional business. Each of the reportable segments now has dedicated accounting, finance, information technology, and human resources teams. Additionally, certain human resources and information technology costs that benefit the entire organization are now allocated across the UTI, Concorde and Corporate segments each period based upon relative headcount. As a result, additional costs have moved from the Corporate segment into the UTI segment and to a lesser extent the Concorde segment, as resources were redirected to support each segment's objectives. Due to these changes in allocation methodology, the segment disclosures in Note 19 for the three and six months ended March 31, 2023 have been recast from the prior year presentation for comparability to the current year presentation.

Note 3 - Recent Accounting Pronouncements

The Financial Accounting Standards Board ("FASB") and the SEC periodically issue new accounting standards or disclosure requirements in a continuing effort to improve standards of financial accounting and reporting. We have reviewed the recently issued pronouncements and concluded the following new accounting standard updates ("ASU") or SEC rules apply to us.

Effective in Fiscal 2025

In November 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*, which provides updates to qualitative and quantitative reportable segment disclosure requirements, including enhanced disclosures about significant segment expenses and increased interim disclosure requirements, among others. The amendments in ASU 2023-07 are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted, and the amendments should be applied retrospectively. This ASU will be effective for our Form 10-K for fiscal 2025 and our Form 10-Q for the first quarter of fiscal 2026. We are currently evaluating the impact this ASU may have on our financial statement disclosures.

Effective in Fiscal 2026

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*, which provides qualitative and quantitative updates to the rate reconciliation and income taxes paid disclosures, among others, in order to enhance the transparency of income tax disclosures, including consistent categories and greater disaggregation of information in the rate reconciliation and disaggregation by jurisdiction of income taxes paid. The amendments in ASU 2023-09 are effective for fiscal years beginning after December 15, 2024, with early adoption permitted. The amendments should be applied prospectively; however, retrospective application is also permitted. This ASU will be effective for our Form 10-K for fiscal 2026. We are currently evaluating the impact this ASU may have on our financial statement disclosures.

Effective in Fiscal 2027

In March 2024, the SEC issued final rules to enhance public company disclosures related to the risks and impacts of climate-related matters. In April 2024, the SEC voluntarily stayed the new rules as a result of pending legal challenges. The new rules, if adopted, include requirements to disclose Scope 1 and Scope 2 greenhouse gas emissions and other climate-related topics in annual reports and registration statements, when material. Disclosure requirements will begin phasing in for our Form 10-K for fiscal 2027. We are currently evaluating the impact this rule may have on our financial statement disclosures.

Note 4 - Acquisitions***Concorde Career Colleges***

On December 1, 2022, we completed the acquisition of Concorde. Concorde operates 17 campuses across eight states with approximately 7,600 students, and offers its programs via in-person, hybrid and online formats. Concorde offers more than 20 programs across the allied health, dental, nursing, patient care, and diagnostic fields. The acquisition expands our portfolio of offerings into the higher-growth healthcare arena and creates the opportunity to bring workforce educational solutions to a broader array of students and employers.

Under the terms of the Stock Purchase Agreement (the "Purchase Agreement"), dated May 3, 2022, by and among the Company, Concorde, Liberty Partners Holdings 28, L.L.C., a Delaware limited liability company, and Liberty Investment IIC, LLC, a Delaware limited liability company (each a "Seller," and collectively, the "Sellers"); and Liberty Partners L.P., a Delaware limited partnership, in its capacity as a representative of the Sellers, we acquired all of the issued and outstanding shares of capital stock of Concorde for a base purchase price of \$50.0 million, less \$1.9 million of net adjustments including the post-closing working capital adjustment, for total cash consideration paid of \$48.1 million. As a result of the transactions contemplated by the Purchase Agreement, Concorde is now a wholly-owned subsidiary of the Company. We funded the consideration paid for Concorde by the Credit Facility entered into on November 18, 2022. See Note 12 for further details on the Credit Facility.

In connection with the acquisition, we incurred total transaction costs of \$ 5.3 million, of which \$3.0 million was incurred during the year ended September 30, 2022 and \$2.3 million was incurred during the year ended September 30, 2023. These costs are included in "Selling, general and administrative" expenses in the condensed consolidated statements of operations for the applicable period.

Allocation of the purchase price

Under the acquisition method of accounting, the total purchase price was allocated to the identifiable assets acquired and the liabilities assumed based on our valuation estimates of the fair values as of the acquisition date. As of December 1, 2023, the fair value and purchase price allocation are considered final.

The final allocation of the purchase price at December 1, 2022 is summarized as follows:

Assets acquired:		
Cash and cash equivalents	\$	30,064
Restricted cash		1,689
Accounts receivable, net		6,800
Prepaid expenses		2,957
Other current assets		827
Property and equipment		23,238
Right-of-use assets for operating leases		71,153
Goodwill		11,600
Intangible assets		5,400
Deferred tax assets		5,112
Other assets		4,997
Total assets acquired	\$	163,837

UNIVERSAL TECHNICAL INSTITUTE, INC. AND SUBSIDIARIES

(Unaudited)

Less: Liabilities assumed

Accounts payable and accrued expenses	\$ 15,482
Deferred revenue	20,145
Operating lease liability, current portion	10,011
Long-term debt, current portion ⁽¹⁾	807
Other current liabilities	208
Long-term debt ⁽¹⁾	5,468
Operating lease liability	63,582
Total liabilities assumed	115,703
Net assets acquired	\$ 48,134

(1) Long-term debt consists of one lease classified as a finance lease under ASC 842.

Since September 30, 2023, we further adjusted the purchase price allocation by approximately \$ 0.1 million for income taxes receivable and approximately \$0.6 million for deferred income taxes due to completing and filing the final stub period income tax return for Concorde, which resulted in a \$ 0.7 million adjustment to property and equipment. These adjustments did not have a material impact on the financial statements since the date of acquisition.

The amount allocated to goodwill of \$11.6 million represents the acquired assembled workforce. None of the goodwill is expected to be deductible for tax purposes. Factors that contributed to a purchase price resulting in the recognition of goodwill include Concorde's strategic fit into our growth and diversification strategy, which is focused on offering a broader array of high-quality, in-demand workforce education solutions which both prepare students for a variety of careers in fast-growing fields and help close the country's skills gap by leveraging key industry partnerships.

The purchase price allocation requires subjective estimates that, if incorrectly estimated, could be material to our condensed consolidated financial statements including the amount of depreciation and amortization expense. The fair value of the property and equipment was estimated using the cost and market approaches as of the valuation date. The fair value of the leases were estimated using the income and market approaches to determine if there was any favorable or unfavorable terms in place.

The intangible assets acquired, which primarily consist of the accreditations and regulatory approvals, trademarks and trade names, and curriculum, were valued using different valuation techniques depending upon the nature of the intangible asset acquired, all of which are considered level 3 as defined in Note 6. The accreditations and regulatory approvals were valued using the multi-period excess earnings method ("MPEEM") under the income approach. The MPEEM is a variation of discounted cash-flow analysis. Rather than focusing on the whole entity, the MPEEM isolates the cash flows that can be associated with a single intangible asset and measures fair value by discounting them to present value. The trademarks and trade names were valued using the relief from royalty method. The value of the trade name encompasses all items necessary to generate revenue utilizing the trade name. The curriculum was valued using the cost approach.

The table below presents the final summary of the intangible assets acquired and the useful lives of these assets:

Intangible Asset	Useful life	Amount
Accreditations and regulatory approvals	Indefinite	\$ 3,500
Trademarks and trade names	10 years	500
Curriculum	5 years	1,400
Total		\$ 5,400

See Note 8 and Note 9 and for additional details on goodwill and intangible assets.

Student receivables

When financial assets are acquired in connection with a business combination, we evaluate whether those acquired financial assets have experienced a more-than-insignificant deterioration in credit quality since origination. Financial assets acquired with evidence of such credit deterioration are referred to as purchased credit deteriorated ("PCD") assets and reflect the acquirer's assessment at the acquisition date. The student receivables acquired in the Concorde acquisition were reviewed to determine if any had experienced a more-than-insignificant deterioration in credit quality since origination. Student receivables of approximately \$2.3 million met the established criteria to indicate a more-than-insignificant deterioration in credit quality and were identified as PCD assets. Using our best estimate of projected losses over the term of the contracts, we calculated an allowance for credit losses on these PCD assets of approximately \$1.0 million.

Pro forma financial information

The following unaudited pro forma financial information summarizes our results of operations as though the acquisition occurred on October 1, 2022:

		Six Months Ended
		March 31, 2023
Revenue	\$	319,845
Net income		5,919

The unaudited pro forma financial information includes adjustments to reflect the additional amortization that would have been charged assuming the fair value adjustments to intangible assets and the finance lease asset had been applied from October 1, 2022, with the related tax effects. The unaudited pro forma financial information also includes adjustments to reflect the additional interest expense on the new Credit Facility issued to fund the acquisition (see Note 12 for further details on the Credit Facility). Lastly, the unaudited pro forma financial information includes adjustments to reflect the reduction in depreciation expense assuming the fair value adjustments to property and equipment assets had been applied from October 1, 2022.

This unaudited pro forma financial information is for informational purposes only. It does not reflect the integration of the business or any synergies or incremental costs that may result from the acquisition. As such, it is not indicative of the results of operations that would have been achieved had the acquisition been consummated on October 1, 2022. In addition, the unaudited pro forma financial information amounts are not indicative of future operating results.

Note 5 - Revenue from Contracts with Customers

Nature of Goods and Services

Revenues across the UTI and Concorde segments consist primarily of student tuition and fees derived from the programs we provide after reductions are made for discounts and scholarships that we sponsor and for refunds for students who withdraw from our programs prior to specified dates. We apply the five-step model outlined in Accounting Standards Codification ("ASC") *Topic 606, Revenue from Contracts from Customers*. Tuition and fee revenue is recognized ratably over the term of the course or program offered.

In addition to revenue from tuition and fees, UTI and Concorde derive supplemental revenues from sales of textbooks and program supplies and other revenues, which includes revenues from dealer technician training and staffing services to manufacturers. All of these revenues are recognized as the transfer of goods or services occurs. Deferred revenue represents the excess of tuition and fee payments received as compared to tuition and fees earned and is reflected as a current liability in our condensed consolidated balance sheets because it is expected to be earned within the next 12 months.

All of our revenues are generated within the United States. The impact of economic factors on the nature, amount, timing and uncertainty of revenue and cash flows is consistent across our various programs for both the UTI and Concorde segments. See Note 19 for disaggregated segment revenue information.

(1) Receivables includes tuition receivables, retail installment contract receivables and notes receivable, both current and long term.

During the six months ended March 31, 2024, the deferred revenue balance included decreases for revenues recognized during the period and increases related to new students who started their training programs during the period.

Note 6 - Fair Value Measurements

The accounting framework for determining fair value includes a hierarchy for ranking the quality and reliability of the information used to measure fair value, which enables the reader of the financial statements to assess the inputs used to develop those measurements. The fair value hierarchy consists of three tiers:

- Level 1:* Defined as quoted market prices in active markets for identical assets or liabilities.
- Level 2:* Defined as inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, model-based valuation techniques for which all significant assumptions are observable in the market or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3:* Defined as unobservable inputs that are not corroborated by market data.

Any transfers of investments between levels occurs at the end of the reporting period. Assets measured or disclosed at fair value on a recurring basis consisted of the following:

	March 31, 2024	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money market funds ⁽¹⁾	\$ 24,563	\$ 24,563	\$ —	\$ —

Note 8 - Goodwill

Our goodwill balance of \$28.5 million as of March 31, 2024 and September 30, 2023, respectively, represents the acquired assembled workforce and the excess of the cost of an acquired business over the estimated fair values of the assets acquired and liabilities assumed.

The goodwill balance by reportable segment as of March 31, 2024 and September 30, 2023 was:

UTI	\$	16,859
Concorde		11,600
Total	\$	28,459

Goodwill is reviewed at least annually for impairment, which may result from the deterioration in the operating performance of the acquired businesses, adverse market conditions, adverse changes in applicable laws or regulations and a variety of other circumstances. Our goodwill is tested annually for impairment as of August 1 and more frequently if events or circumstances lead to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. There were no indicators of goodwill impairment as of March 31, 2024 .

Note 9 - Intangible Assets

The following table provides the gross carrying value, accumulated amortization, net book value and remaining useful life for those intangible assets that are subject to amortization as of March 31, 2024:

Curriculum	1,800	(207)	1,593	4.47
Total	\$ 20,042	\$ (720)	\$ 19,322	4.96

Amortization expense was \$0.2 million and \$0.3 million for the three and six months ended March 31, 2024, and \$ 0.2 million and \$0.3 million for the three and six months ended March 31, 2023, respectively.

Future intangible asset amortization expense is expected to be as follows:

Fiscal Year	
Remainder of 2024	\$ 348
2025	677
2026	660
2027	337
2028	97
Thereafter	208
Total	\$ 2,327

The remaining weighted average useful lives shown are calculated based on the net book value and remaining amortization period of each respective intangible asset. Amortization is computed using the straight-line method based on estimated useful lives of the related assets. Our indefinite-lived intangible assets are reviewed at least annually for impairment as of August 1, or more frequently if there are indicators of impairment. There were no indicators of impairment for our indefinite-lived intangible assets as of March 31, 2024.

Note 10 - Leases

As of March 31, 2024, we have facility leases at 29 of our 33 campuses and three non-campus locations under non-cancelable operating or finance leases, some of which contain escalation clauses and requirements to pay other fees associated with the leases. The facility leases have original lease terms ranging from 5 to 20 years and expire at various dates through 2036. In addition, the leases commonly include lease incentives in the form of rent abatements and tenant improvement allowances. We sublease certain portions of unused building space to third parties, which as of March 31, 2024, resulted in minimal income. All of the leases, other than those that may qualify for the short-term scope exception of 12 months or less, are recorded on our condensed consolidated balance sheets.

Some of the facility leases are subject to annual changes in the Consumer Price Index ("CPI"). While lease liabilities are not remeasured as a result of changes to the CPI, changes to the CPI are treated as variable lease payments and recognized in the period in which the obligation for those payments was incurred. Many of our lease agreements include options to extend the lease, which we do not include in our minimum lease terms unless they are reasonably certain to be exercised. There are no early termination with penalties, residual value guarantees, restrictions or covenants imposed by our facility leases. The components of lease expense are included in "Educational services and facilities" and "Selling, general and administrative" on the condensed consolidated statement of operations, with the exception of interest on lease liabilities, which is included in "Interest expense."

The components of lease expense during the three and six months ended March 31, 2024 and 2023 were as follows:

Lease Expense	Three Months Ended March 31,		Six Months Ended March 31,	
	2024	2023	2024	2023

- (4) The finance lease is related to a facility lease with an annual interest rate of 6.02% that matures in 2029. See Note 10 for additional details on our finance lease.
- (5) The unamortized debt issuance costs as of March 31, 2024 relate to the Avondale Term Loan and the Lisle Term Loan.
- (6) The Credit Facility, Term Loans and finance leases bear interest at rates commensurate with market rates, and therefore, the respective carrying values approximate fair value (Level 2).

Revolving Credit Facility

On November 18, 2022, we entered into a \$100.0 million senior secured revolving credit facility with Fifth Third Bank, a national banking association (the "Credit Facility" or "Revolving Credit Facility"), which includes a \$20.0 million sub facility that is available for letters of credit. The Credit Facility has a term of three years, unless earlier terminated pursuant to the terms and conditions set forth in the credit agreement.

This agreement provides that borrowings under the Credit Facility will amortize on an interest-only basis during its term with principal able to be borrowed, re-paid and re-borrowed throughout the term of the Credit Facility and with the outstanding principal due and payable at maturity. In executing the Credit Facility, we incurred \$0.5 million in debt issuance costs which are included in "Other assets" on the condensed consolidated balance sheets as of March 31, 2024. On November 28, 2022, we drew \$90.0 million from the Credit Facility in support of the closing of the Concorde acquisition at an interest rate of 6.54%. In December 2022, a \$1.8 million letter of credit was issued on the Credit Facility.

During the three months ended March 31, 2024, we made payments on the Credit Facility of \$39.0 million and we received proceeds of \$20.0 million at a fixed base interest rate of 8.5%. During the three months ended March 31, 2024, our \$1.8 million letter of credit expired, resulting in \$29.0 million in availability under the Credit Facility at period end.

In April 2024, we used cash on hand to pay \$20.0 million on the Credit Facility, which increased the availability under the Credit Facility to \$49.0 million. It is likely that we will borrow from the Credit Facility in future periods based on future working capital or other needs.

Avondale Term Loan

In connection with the Avondale, Arizona building purchase in December 2020, we entered into a credit agreement with Fifth Third Bank, national banking association (the "Avondale Lender") on May 12, 2021 in the maximum principal amount of \$31.2 million with a maturity of seven years (the "Avondale Term Loan"). Originally, the Avondale Term Loan bore interest at the rate of LIBOR plus 2.0%. On April 3, 2023, we executed an amendment for our Avondale Term Loan to convert the stated rate from LIBOR to SOFR. The Avondale Term Loan bears interest at the rate of Term SOFR plus 2.0% and a tranche rate adjustment of 0.046%.

Principal and interest payments are due monthly. The Avondale Term Loan is secured by a first priority lien on our Avondale, Arizona property, including all land and improvements. Additionally, we entered into an interest rate swap agreement with the Avondale Lender. See Note 13 for further discussion on the interest rate swap.

Lisle Term Loan

On April 14, 2022, our consolidated subsidiary, 2611 Corporate West Drive Venture LLC (the "Borrower"), entered into a new Loan Agreement ("Lisle Loan Agreement") with Valley National Bank (the "Lisle Lender"), to fund the acquisition and retire the prior loan agreement with Western Alliance bank, via a term loan in the original principal amount of \$38.0 million with a maturity of seven years (the "Lisle Term Loan" and together with the Avondale Term Loan, the "Term Loans"). The Lisle Term Loan bears interest at a rate of one-month Term SOFR plus 2.0%. The Lisle Term Loan is secured by a mortgage on the Lisle, Illinois campus and is guaranteed by the Company. In connection with the Lisle Term Loan, we entered into an interest rate swap agreement. See Note 13 for further discussion on the interest rate swap.

Debt Covenants for our Credit Facility and Term Loans

We are subject to certain customary affirmative and negative covenants in connection with our Credit Facility and Term Loans, including, without limitation, certain reporting obligations, certain limitations on restricted payments, limitations on

liens, encumbrances and indebtedness and a debt service coverage ratio covenant. Events of default under the Credit Facility, Avondale Term Loan and the Lisle Term Loan include, among others, the failure to make payments when due, breach of covenants, and breach of representations or warranties. For further discussion of our debt covenants, see Note 14 on "Debt" included in our [2023 Annual Report on Form 10-K](#). As of March 31, 2024, we were in compliance with all Credit Facility and term loan debt covenants.

Debt Maturities

Scheduled principal payments due on our debt for the remainder of 2024 and for each year through the period ended September 30, 2028, and thereafter were as follows at March 31, 2024:

Maturity	Revolving Credit Facility & Term Loans	Finance Lease	Total
Remainder of 2024	\$ 837	\$ 434	\$ 1,271
2025	1,763	932	2,695
2026	72,836	1,027	73,863
2027	1,909	1,128	3,037
2028	26,610	1,237	27,847

Note 13 - Derivative Financial Instruments

In the normal course of business, our operations are exposed to market risks, including the effect of changes in interest rates. We may enter into derivative financial instruments to offset these underlying market risks.

On March 31, 2023, we entered into a new interest rate swap agreement, effective April 3, 2023, with the Avondale Lender that effectively fixes the interest rate we pay on 50% of the principal amount of the Avondale Term Loan at 1.45% for the entire loan term (the "Avondale Swap"). The Avondale Swap was designated as an effective cash flow hedge for accounting and tax purposes.

On April 14, 2022, in connection with the Lisle Term Loan, we entered into an interest rate swap agreement with the Lisle Lender that effectively fixes the interest rate on 50% of the principal amount of the Lisle Term Loan at 4.69% for the entire loan term, or seven years (the "Lisle Swap"). The Lisle Swap was designated as an effective cash flow hedge for accounting and tax purposes.

Changes in the fair value of derivatives that are designated and qualify as cash flow hedges are recorded in "Accumulated other comprehensive income" on the condensed consolidated balance sheets. For cash flow hedges, we report the effective portion of the gain or loss as a component of "Accumulated other comprehensive income" and reclassify it to "Interest expense" in the condensed consolidated statements of operations over the corresponding period of the underlying hedged item. The ineffective portion of the change in fair value of a derivative financial instrument is recognized in "Interest expense" at the time the ineffectiveness occurs. To the extent the hedged forecasted interest payments on debt related to our interest rate swap is paid off, the remaining balance in "Accumulated other comprehensive income" is recognized in "Interest expense" in the condensed consolidated statements of operations. Of the net amount of the existing gains that are reported in "Accumulated other comprehensive income" as of March 31, 2024, we estimate that \$0.9 million will be reclassified to "Interest expense" within the next twelve months. As of March 31, 2024, the notional amount of the Avondale Swap and Lisle Swap was approximately \$14.4 million and \$18.7 million, respectively.

Effect of Cash Flow Hedge Accounting on the Consolidated Statements of Operations and Accumulated Other Comprehensive Income

The table below presents the effect of cash flow hedge accounting for our Avondale Swap and Lisle Swap on the condensed consolidated statement of operations and "Accumulated other comprehensive income" for the three and six months ended March 31, 2024 and 2023:

	Amount of Gain (Loss) Recognized in Other Comprehensive Income (Loss) on Derivative, net of taxes	Amount of Gain (Loss) Reclassified from Accumulated Other Comprehensive Income (Loss) into Income
	Three Months Ended March 31, 2024	
Avondale Swap and Lisle Swap	\$ (738)	\$ (267)
	Six Months Ended March 31, 2024	
Avondale Swap and Lisle Swap	\$ 174	\$ (538)
	Three Months Ended March 31, 2023	
Avondale Swap and Lisle Swap	\$ 518	\$ (199)
	Six Months Ended March 31, 2023	
Avondale Swap and Lisle Swap	\$ 559	\$ (327)

Note 14 - Income Taxes

Our income tax expense for the three months ended March 31, 2024 was \$ 2.8 million, or 26.2% of pre-tax income, compared to \$ 1.8 million, or 33.6% of pre-tax income, for the three months ended March 31, 2023. For the six months ended March 31, 2024, our income tax expense was \$5.9 million, or 24.6% of pre-tax income, compared to an income tax expense of \$ 3.3 million, or 34.9% of pre-tax income, for the six months ended March 31, 2023. The effective income tax rate for the three and six months ended March 31, 2024 differed from the federal statutory rate of 21% primarily due to non-deductible executive compensation, federal research and development tax credits and state and local income and franchise taxes. The effective income tax rate for the three and six months ended March 31, 2023 differed from the federal statutory rate of 21% primarily due to non-deductible executive compensation, transaction costs and state and local income and franchise taxes.

As of each reporting date, management considers new evidence, both positive and negative, that could affect its view of the future realization of deferred tax assets. As of March 31, 2024, we continued to maintain a valuation allowance related to certain federal and state attributes, which are not expected to be utilized prior to expiration.

Note 15 - Restructuring Costs

On December 5, 2023, UTI announced plans to consolidate the two Houston, Texas campus locations to align the curriculum, student facing systems, and support services to better serve students seeking careers in in-demand fields. As part of the transition, the MIAT Houston campus, acquired in November 2021, will begin operating under the UTI brand and implement a phased teach-out agreement starting in May 2024. Both facilities will remain in use post-consolidation.

The total costs of the restructuring plan are estimated to be approximately \$ 1.4 million and relate to the UTI segment. Approximately \$45 thousand of tool related costs were expensed during the three months ended March 31, 2024, and approximately \$88 thousand of employee termination and tool related costs were expensed during the six months ended March 31, 2024, all of which are reported in "Selling, general and administrative" on the condensed consolidated statements of operations. Additional estimated costs of \$0.5 million are expected to be recorded during the remainder of fiscal 2024 as incurred, and \$0.8 million in additional estimated costs are expected to be recorded during fiscal 2025 as incurred.

Note 16 - Commitments and Contingencies**Legal**

In the ordinary conduct of our business, we are periodically subject to lawsuits, demands in arbitration, investigations, regulatory proceedings or other claims, including, but not limited to, claims involving current or former students, routine employment matters, business disputes and regulatory demands. When we are aware of a claim or potential claim, we assess the likelihood of any loss or exposure. If it is probable that a loss will result and the amount of the loss can be reasonably estimated, we accrue a liability for the loss. When a loss is not both probable and estimable, we do not accrue a liability. Where a loss is not probable but is reasonably possible, including if a loss in excess of an accrued liability is reasonably possible, we determine whether it is possible to provide an estimate of the amount of the loss or range of possible losses for the claims. We are not currently a party to any material legal proceedings, but note that legal proceedings could, generally, have a material adverse effect on our business, cash flows, results of operations or financial condition.

Note 17 - Shareholders' Equity**Common Stock**

Holders of our common stock are entitled to receive dividends when and as declared by our Board of Directors and have the right to one vote per share on all matters requiring shareholder approval. On June 9, 2016, our Board of Directors voted to eliminate the quarterly cash dividend on our common stock.

Preferred Stock

As of March 31, 2024, no shares of the Series A Preferred Stock remain outstanding and all rights of the holders to receive future dividends have been terminated.

Under the terms of the Certificate of Designations for the Series A Preferred Stock (the "CoD"), we had the right to convert the outstanding shares of Series A Preferred Stock to common stock when our common stock achieved a stated volume weighted average price per share for a period of 20 consecutive trading days. On December 18, 2023, upon satisfying the stock price condition, we entered into a preferred stock repurchase agreement with Coliseum Capital Partners, L.P. and Blackwell Partners LLC – Series A (collectively the "Selling Stockholders"), pursuant to which we repurchased, directly from the Selling Stockholders, 33,300 shares of Series A Preferred Stock for an aggregate purchase price of \$ 11.3 million. Additionally, we incurred approximately \$0.3 million in fees related to excise taxes and other professional services related to the repurchase, which are recorded in equity. Following the repurchase of those shares of Series A Preferred Stock, and in accordance with the terms of the CoD, we issued a notice of conversion causing all remaining outstanding shares of Series A Preferred Stock to be converted into Common Stock. In connection with the conversion, each share of Series A Preferred Stock was cancelled and converted into the right to receive 30.03003 shares of our Common Stock, no par value per share, and we made a final dividend payment of \$1.1 million to the Series A Preferred Stock holders of record as of December 18, 2023. As a result of the conversion, the aggregate 642,585 remaining shares of Series A Preferred Stock outstanding were

converted into 19,296,843 shares of Common Stock. No shares of the Series A Preferred Stock remain outstanding and all rights of the holders to receive future dividends have been terminated as of the December 18, 2023 conversion date. Following the repurchase and subsequent conversion, the Selling Stockholders held less than 25% of our outstanding shares of common stock (a threshold above which we would have been required to seek regulatory approval for the conversion).

As of September 30, 2023, 675,885 shares of Series A Convertible Preferred Stock with a \$ 0.0001 par value each ("Series A Preferred Stock") were issued and outstanding, respectively. The liquidation preference associated with the Series A Preferred Stock was \$100 per share at September 30, 2023.

Share Repurchase Program

On December 10, 2020, our Board of Directors authorized a share repurchase plan that would allow for the repurchase of up to \$ 35.0 million of our common stock in the open market or through privately negotiated transactions. This share repurchase plan replaced the previously authorized plan from fiscal 2012. We have not repurchased any shares under the \$35.0 million share repurchase program, including during the six months ended March 31, 2024 or 2023.

Note 18 - Earnings per Share

We calculate basic earnings per common share ("EPS") pursuant to the two-class method as a result of the issuance of the Series A Preferred Stock on June 24, 2016. The two-class method is an earnings allocation formula that determines EPS for common stock and participating securities according to dividend and participation rights in undistributed earnings. Under this method, all earnings, distributed and undistributed, are allocated to common shares and participating securities based on their respective rights to receive dividends.

Diluted EPS is calculated using the more dilutive of the two-class method or as-converted method. The two-class method uses net income available to common shareholders and assumes conversion of all potential shares other than the participating securities. The as-converted method uses net income and assumes conversion of all potential shares including the participating securities. Dilutive potential common shares include outstanding stock options, unvested restricted share units and convertible preferred stock. As noted above in Note 17, no shares of the Series A Preferred Stock remain outstanding and all rights of the holders to receive future dividends have been terminated as of the December 18, 2023 conversion date.

The following table summarizes the computation of basic and diluted EPS under the two-class or as-converted method, as well as the anti-dilutive shares excluded:

Note 19 - Segment Information

We operate our business in two reportable segments: (i) the UTI segment; and (ii) the Concorde segment. These segments are organized by key market segments to enhance operational alignment within each segment to more effectively execute our strategic plan. Each reportable segment represents a group of post-secondary education providers that offer a variety of degree and non-degree academic programs. "Corporate" includes corporate related expenses that are not allocated to the UTI or Concorde reportable segments and is included to reconcile segment results to the condensed consolidated financial statements.

As previously discussed in Note 2, the segment disclosures for the three and six months ended March 31, 2023 have been recast from the prior year presentation for comparability to the current year presentation.

Summary information by reportable segment is as follows:

Note 20 - Government Regulation and Financial Aid

As discussed at length in our [2023 Annual Report on Form 10-K](#), our institutions participate in a range of government-sponsored student assistance programs. The most significant of these is the federal student aid programs administered by the U.S. Department of Education ("ED") pursuant to Title IV of the HEA, commonly referred to as the Title IV Programs. Generally, to participate in the Title IV Programs, an institution must be licensed or otherwise legally authorized to operate in the state where it is physically located, be accredited by an accreditor recognized by ED, be certified as an eligible institution by ED, offer at least one eligible program of education, and comply with other statutory and regulatory requirements.

Each of our institutions holds the state or other authorizations required to operate and offer postsecondary education programs, and to recruit in the states in which it engages in recruiting activities. In addition, our institutions are accredited by ED-recognized accreditors: all of the UTI institutions and 14 of the Concorde institutions are accredited by the Accrediting Commission of Career Schools and Colleges, while the remaining two Concorde institutions are accredited by the Council on Occupational Education. ED will certify an institution to participate in the Title IV programs only after the institution has demonstrated compliance with the Higher Education Act and ED's extensive regulations regarding institutional eligibility. An institution must also demonstrate its compliance to ED on an ongoing basis. As of December 31, 2023, management believes the Company and its institutions are in compliance with the applicable regulations in all material respects. See "Part I, Item 1. Regulatory Environment" and "Part I, Item 1. State and Accreditor Approvals" in our [2023 Annual Report on Form 10-K](#) for a detailed discussion of the regulatory environment in which the Company operates.

Because the Company operates in a highly regulated industry, it, like other industry participants, may be subject from time to time to investigations, claims of non-compliance, or lawsuits by governmental agencies or third parties, which allege statutory violations, regulatory infractions, or common law causes of action. There can be no assurance that regulatory agencies or third parties will not undertake investigations or make claims against the Company, or that such claims, if made, will not have a material adverse effect on the Company's business, results of operations or financial condition.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the condensed consolidated financial statements and related notes included in this Quarterly Report on Form 10-Q and those in our [2023 Annual Report on Form 10-K](#). This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in such forward-looking statements as a result of certain factors, including but not limited to those described under "Risk Factors" in our [2023 Annual Report on Form 10-K](#) and included in Part II, Item 1A of this Quarterly Report on Form 10-Q. See also "Cautionary Note Regarding Forward-Looking Statements" on page ii of this Quarterly Report on Form 10-Q.

Company Overview

Universal Technical Institute, Inc., which together with its subsidiaries is referred to as the "Company," "we," "us" or "our," was founded in 1965 and is a leading workforce solutions provider of transportation, skilled trades and healthcare education programs, whose mission is to serve students, partners, and communities by providing quality education and support services for in-demand careers across a number of highly-skilled fields. We offer the majority of our programs in a blended learning model that combines instructor-facilitated online teaching and demonstrations with hands-on labs.

Universal Technical Institute ("UTI"): UTI operates 16 campuses located in nine states and offers a wide range of degree and non-degree transportation and skilled trades technical training programs under brands such as Universal Technical Institute, Motorcycle Mechanics Institute, Marine Mechanics Institute, NASCAR Technical Institute, and MIAT College of Technology ("MIAT"). UTI also offers manufacturer specific advanced training programs, which include student-paid electives, at our campuses and manufacturer or dealer sponsored training at certain campuses and dedicated training centers. Lastly, UTI provides dealer technician training or instructor staffing services to manufacturers. UTI works closely with multiple original equipment manufacturers and industry brand partners to understand their needs for qualified service professionals.

Concorde Career Colleges ("Concorde"): Concorde operates across 17 campuses in eight states, offering degree, non-degree, and continuing education programs in the allied health, dental, nursing, patient care and diagnostic fields. Concorde believes in preparing students for their health care careers with practical, hands-on experiences including opportunities to learn while providing care to real patients. Prior to graduation, students will complete a number of hours in a clinical setting or externship, depending upon their program of study.

"Corporate" includes corporate related expenses that are not allocated to the UTI or Concorde reportable segments. See Note 19 of the notes to the condensed consolidated financial statements herein for additional details on our segments.

All of our campuses are accredited and are eligible for federal student financial assistance funds under the Higher Education Act of 1965, as amended, commonly referred to as Title IV Programs, which are administered by the U.S. Department of Education. Our programs are also eligible for financial aid from federal sources other than Title IV Programs, such as the programs administered by the U.S. Department of Veterans Affairs and under the Workforce Innovation and Opportunity Act.

We believe that our industry-focused educational model and national presence has enabled us to develop valuable industry relationships, which provide us with significant competitive advantages and supports our market leadership, along with enabling us to provide highly specialized education to our students, resulting in enhanced employment opportunities and the potential for higher wages for our graduates.

(1) New student starts and average student data for Concorde presented in the six months ended March 31, 2023 column represents the period of UTI's ownership, or December 1, 2022 through March 31, 2023.

For three and six months ended March 31, 2024, the increase in UTI new student starts, average undergraduate full-time active students and end of period students was primarily due to the successful rollout of 14 new programs across nine campuses during the fiscal 2023 fourth quarter and fiscal 2024 first quarter, and increased student demand at a majority of the remaining UTI campuses. Concorde rolled out four new programs at three campuses during the same time period, and also rolled out new cash pay "short courses" at a number of campuses. These program rollouts, along with high demand for its existing programs resulted in increases in new student starts, average undergraduate full-time active students and end of period students compared to the prior year.

Our ability to start new students can be influenced by various factors including: impacts of the state of the general macro-economic environment and its impact on price sensitivity and the ability and willingness of students and their families to incur debt to fund their education; unemployment rates; competition; adverse media coverage, legislative, or regulatory actions and investigations by attorneys general and various agencies related to allegations of wrongdoing on the part of other companies within the education and training services industry, which can cast the aggregate "for-profit" education industry in a negative light; and pandemics and or other national, state or local emergencies as declared by various government authorities.

Operations

Revenues for the three months ended March 31, 2024 were \$184.2 million, an increase of \$20.4 million, or 12.4%, from the comparable period in the prior year. UTI revenues increased by approximately \$15.8 million, or 14.7%, and Concorde revenues increased by approximately \$4.6 million, or 8.2%. Both segment increases were driven by the higher student starts and average undergraduate full-time active students as previously noted.

Revenues for the six months ended March 31, 2024 were \$358.9 million, an increase of \$75.0 million, or 26.4%, from the comparable period in the prior year. UTI revenues increased by approximately \$25.6 million, or 12.0%, driven primarily by the higher student starts and average undergraduate full-time active students compared to the prior year. Concorde revenues increased by approximately \$49.5 million, or 70.0%, primarily due to the inclusion of two extra months of revenue compared to the prior year period, along with higher student starts and average undergraduate full time active students.

Total income from operations was \$11.2 million and \$25.4 million during the three and six months ended March 31, 2024, respectively, compared to \$5.9 million and \$10.4 million for the three and six months ended March 31, 2023, respectively.

The increase for the three-month period was primarily driven by the increased revenues from the larger student population. The increase for the six-month period was due to the inclusion of two additional months of revenue for Concorde as compared to the prior year period. Additionally, productivity improvements and proactive cost actions have been a key part of our operating model for the past several years, and we continue to identify and execute on optimization opportunities throughout our operations in both segments.

Business Strategy

Our business strategy has three key tenets: (i) to grow the business by more deeply penetrating existing target markets and adding new markets; (ii) to diversify the business by adding new locations, programs, and offerings that maximize the lifetime value of our students; and (iii) to continually optimize the business by constantly enhancing operational efficiency.

During the six months ended March 31, 2024, we executed the following as part of our business strategy:

- Concorde announced the launch of additional program offerings in dental hygiene in Jacksonville, Florida and sonography in Orlando, Florida and San Bernardino, California. Two additional dental hygiene programs are planned to launch later in 2024, pending final regulatory approval.
- UTI announced additional program expansions of Heating Ventilation Air Conditioning and Refrigeration in Avondale, Arizona, Bloomfield, New Jersey, Long Beach, California and Sacramento, California. The programs are expected to launch in late fiscal 2024 and early fiscal 2025.
- UTI announced plans to consolidate our two Houston, Texas campuses to align the curriculum, student facing systems, and support services to better serve students seeking careers in in-demand fields. As part of the transition, the MIAT Houston campus, acquired in November 2021, will begin operating under the UTI brand and implement a phased teach-out agreement starting in May 2024. Both facilities will remain in use post-consolidation. See Note 15 of the notes to our condensed consolidated financial statements herein for further details on the restructuring.
- UTI obtained Federal Aviation Administration approval for the Airframe and Powerplant Technician program at the Miramar, Florida campus and started the first cohort of students during the first quarter of 2024, which completed the rollout of the 14 new programs announced in fiscal 2023.
- UTI announced new partnerships with United Service Organization, Hawaiian Airlines, iRacing, and several other companies for early employment programs. These partnerships will provide additional career transition and placement opportunities for UTI students.

In addition, we continue to pursue other opportunities that align with our business strategy.

Regulatory Environment

See Note 20 of the notes to our condensed consolidated financial statements herein for a discussion of our regulatory environment.

Revenues for the three months ended March 31, 2024 were \$184.2 million, an increase of \$20.4 million, or 12.4%, as compared to revenues of \$163.8 million for the three months ended March 31, 2023.

UTI

Revenues for UTI for the three months ended March 31, 2024 were \$123.3 million compared to \$107.6 million in the prior period. Revenue increased primarily due to a 10.3% increase in average undergraduate full-time active students during the quarter and 19.6% increase in new student starts from the prior year.

Concorde

Revenues for Concorde for the three months ended March 31, 2024 were \$60.9 million compared to \$56.3 million in the prior period. Revenues increased primarily due to an 8.9% increase in average undergraduate full-time active students during the quarter and 17.2% increase in new student starts from the prior year.

Educational services and facilities expenses

Educational services and facilities expenses were \$97.5 million for the three months ended March 31, 2024, as compared to \$86.9 million for the three months ended March 31, 2023. This increase was primarily due to the increased student volumes during the period and costs associated with our business strategies.

The following tables set forth the significant components of our educational services and facilities expenses by segment (in thousands):

Total educational services and facilities expense	<u>\$ 53,321</u>	<u>\$ 33,609</u>	<u>\$ 86,930</u>

UTI

Compensation and related costs increased by \$1.6 million for the three months ended March 31, 2024, primarily due to instructors and other personnel hired to support the additional programs added at the end of fiscal 2023 and in early fiscal 2024.

Supplies, maintenance and student expense increased by \$3.0 million primarily due to the increased cost of student housing in support of relocating students.

Other educational services and facilities expense increased by \$1.5 million consistent with the increased average undergraduate full-time active students.

Concorde

Compensation and related costs increased by \$4.4 million for the three months ended March 31, 2024, primarily due to instructors and other personnel hired to support overall student growth and the launch of additional programs during the current year.

Depreciation expense decreased \$0.8 million due to the final adjustments to the purchase price allocation for our acquisition of Concorde as of December 1, 2023, which decreased the depreciable base value of the acquired property and equipment, thereby lowering future depreciation expense.

Selling, general and administrative expenses

Selling, general and administrative expenses for the three months ended March 31, 2024 were \$75.5 million, as compared to \$70.9 million for the three months ended March 31, 2023. This increase was primarily due to costs associated with our business strategies.

During fiscal 2023, in coordination with the integration of Concorde, we began to reassess our operating model to determine the organizational structure that would best help the Company achieve future growth goals and optimally support the business. Beginning in fiscal 2024, we have executed an internal reorganization to fully transition our operating and reporting model to support a multi-divisional business. As part of the internal reorganization, each of the reportable segments now have dedicated accounting, finance, information technology, and human resources teams. Additionally, human resources and information technology costs that benefit the entire organization are now allocated across UTI, Concorde and Corporate each period based upon relative headcount. As a result, additional costs have moved from Corporate into the UTI segment and to a lesser extent the Concorde segment as resources were redirected to support the segment's objectives. Due to these changes in allocation methodology, the prior year amounts for selling, general and administrative expenses have been recast for comparability to the current year presentation.

The following tables set forth the significant components of our selling, general and administrative expenses by segment (in thousands):

Total selling, general and administrative expenses	<u>\$ 44,451</u>	<u>\$ 16,462</u>	<u>\$ 10,028</u>	<u>\$ 70,941</u>

UTI

Compensation and related costs increased by \$0.8 million for the three months ended March 31, 2024 primarily due to additional headcount hired to support the UTI segment and our business strategies.

Advertising and marketing expense remained relatively flat year over year. UTI continues to target cost-efficient marketing with an increased focus on digital media. UTI advertising and marketing expense as a percentage of revenues decreased to 11.3% for the three months ended March 31, 2024 as compared to 13.2% in the prior year.

Concorde

Compensation and related costs increased by \$0.5 million for the three months ended March 31, 2024 primarily due to additional headcount hired to support the Concorde segment and our business strategies.

Concorde advertising and marketing increased year over year by \$0.5 million. Concorde advertising and marketing expense as a percentage of revenues for the three months ended March 31, 2024 and 2023 remained consistent at 11.6%.

Concorde professional and contract services expenses increased by \$0.9 million for the three months ended March 31, 2024 primarily related to the continuing integration activities.

Concorde other selling, general and administrative expenses increased by \$1.9 million for the three months ended March 31, 2024 primarily due to an increase of \$1.3 million in bad debt expense. The prior year benefited from a favorable adjustment due to aligning accounting policies post acquisition. The allowance for doubtful accounts as a percent of accounts receivable has improved since acquisition.

Corporate

Selling, general and administrative expenses for Corporate increased slightly for the three months ended March 31, 2024 primarily due to a \$0.7 million increase in compensation related costs, largely offset by a decrease in other selling, general and administrative expenses.

Income taxes

Income tax expense for the three months ended March 31, 2024 was \$2.8 million, or 26.2% of pre-tax income, compared to \$1.8 million, or 33.6% of pre-tax income, for the three months ended March 31, 2023. The effective income tax rate for the three months ended March 31, 2024 differed from the federal statutory rate of 21% primarily due to non-deductible executive compensation, federal research and development tax credits and state and local income and franchise taxes. The effective income tax rate for the three months ended March 31, 2023 differed from the federal statutory rate of 21% primarily due to non-deductible executive compensation, transaction costs and state and local income and franchise taxes. See Note 14 of the notes to the condensed consolidated financial statements herein for additional details.

Preferred stock dividends

As of March 31, 2024, no shares of Series A Convertible Preferred Stock, the ("Series A Preferred Stock") remain outstanding and all rights of the holders to receive future dividends have been terminated due to the combination of the repurchase and conversion of all outstanding preferred shares as of December 18, 2023. See Note 17 of the notes to the condensed consolidated financial statements herein for additional details on the conversion of our Series A Preferred Stock.

Pursuant to the Certificate of Designations of the Series A Preferred Stock (the "CoD"), we recorded a preferred stock cash dividend of \$1.3 million for the three months ended March 31, 2023.

Income available for distribution

Income available for distribution refers to net income reduced by dividends on our Series A Preferred Stock. As a result of the foregoing, we reported income available for distribution of \$7.8 million and \$2.2 million for the three months ended March 31, 2024 and 2023, respectively.

Income allocated to participating securities

Series A Preferred Stock is considered a participating security because, in the event that we pay a dividend or make a distribution on the outstanding common stock, we shall also pay each holder of the Series A Preferred Stock a dividend on an

as-converted basis. The two-class method is an earnings allocation formula that determines earnings per share for common stock and participating securities according to dividend and participation rights in undistributed earnings. Under this method, all earnings, distributed and undistributed, are allocated to common shares and participating securities based on their respective rights to receive dividends.

As noted above, no shares of the Series A Preferred Stock remain outstanding and all rights of the holders to receive future dividends have been terminated as of the December 18, 2023 conversion date. As such, there is no income allocated to participating securities for the three months ended March 31, 2024. The income allocated to participating securities for the three months ended March 31, 2023 was \$0.8 million.

Net income available to common shareholders

We had \$7.8 million and \$1.4 million of net income available to common shareholders for the three months ended March 31, 2024 and 2023, respectively.

Revenues for the six months ended March 31, 2024 were \$358.9 million, an increase of \$75.0 million, or 26.4%, as compared to revenues of \$283.8 million for the six months ended March 31, 2023.

UTI

Revenues for UTI for the six months ended March 31, 2024 were \$238.7 million compared to \$213.1 million in the prior year period. Revenue increased primarily due to an overall increase in average revenue per student and an 8.1% increase in overall average undergraduate full-time active students.

Concorde

Revenues for Concorde for the six months ended March 31, 2024 were \$120.2 million compared to \$70.7 million in the prior year period. The primary drivers of the increase for Concorde were the inclusion of two additional months of revenue during the current year and an increase in overall average undergraduate full-time active students. Concorde programs are offered year-round, however, there can be fluctuations in the student population due to the timing and size of class starts which are dictated by the accrediting bodies governing the clinical and core programs.

Educational services and facilities expenses

Educational services and facilities expenses were \$189.9 million for the six months ended March 31, 2024, as compared to \$148.3 million for the six months ended March 31, 2023, which is primarily due to the increase in student volumes during the current period and the inclusion of Concorde results for two additional months in the current year.

The following table sets forth the significant components of our educational services and facilities expenses by segment (in thousands):

	Six Months Ended March 31, 2024

UTI

Compensation and related costs increased by \$1.7 million for the six months ended March 31, 2024 primarily due to instructors and other personnel hired to support the additional programs added at the end of fiscal 2023 and in early fiscal 2024.

Occupancy costs decreased by \$0.6 million for the six months ended March 31, 2024 due to the purchase of the three primary buildings at the Orlando, Florida campus in March 2023.

Depreciation and amortization expense increased by \$1.8 million for the six months ended March 31, 2024 primarily due to the purchase of the three primary buildings at the Orlando, Florida campus in March 2023 and increased capital expenditures related to the new program launches.

Supplies, maintenance and student expense increased by \$8.9 million primarily due to the increased cost of student housing in support of relocating students.

Concorde

Compensation and related costs increased by \$19.8 million for the six months ended March 31, 2024 primarily due to the inclusion of two additional months of expenses in the current year in addition to increased instructors and other personnel hired to support the new program expansions.

The other expense increases for the six months ended March 31, 2024 were all primarily driven by the additional two months of activity included in the current year.

Selling, general and administrative expenses

Selling, general and administrative expenses for the six months ended March 31, 2024 were \$143.6 million. This represents an increase of \$18.5 million, as compared to \$125.1 million for the six months ended March 31, 2023, which is primarily due to the inclusion of two additional months of results for Concorde in the current year and costs associated with our growth and diversification strategy.

As previously noted in the results of operations for the comparable three-month periods, the prior year amounts for selling, general and administrative expenses have been recast for comparability to the current year presentation.

The following table sets forth the significant components of our selling, general and administrative expenses by segment (in thousands):

UTI

Compensation and related costs increased by \$2.8 million for the six months ended March 31, 2024 primarily due to an increase in headcount to support the UTI segment and our growth and diversification initiatives as compared to the prior year.

Advertising and marketing expense decreased by \$0.3 million for the six months ended March 31, 2024, primarily due to timing of spend along with incremental investment to support our growth objectives. We continue to target cost-efficient marketing with an increased focus on digital media. Advertising and marketing expense as a percentage of revenues decreased to 11.4% for the six months ended March 31, 2024 as compared to 12.9% in the prior year.

Concorde

Concorde compensation and related costs increased by \$5.4 million for the six months ended March 31, 2024 primarily due to the inclusion of two additional months of expense in the current year and an increase in headcount to support the Concorde segment and our growth and diversification initiatives as compared to the prior year period.

Advertising and marketing expense as a percentage of revenues remained consistent at 10.9% for the six months ended March 31, 2024 as compared to 11.0% in the prior year period.

Selling, general and administrative expenses for Concorde for the six months ended March 31, 2024 increased across all line items as the current year period includes two additional months of expenses compared to the prior year. This increase is also partially due to our continuing integration efforts.

Corporate

Selling, general and administrative expenses for Corporate remained consistent, decreasing by \$0.1 million for the six months ended March 31, 2024, with both periods including one-time integration costs related to the Concorde acquisition and costs associated with our growth and diversification strategy.

Income taxes

Our income tax expense for the six months ended March 31, 2024 was \$5.9 million, or 24.6% of pre-tax income, compared to income tax expense of \$3.3 million, or 34.9% of pre-tax income, for the six months ended March 31, 2023. The effective income tax rate for the six months ended March 31, 2024 differed from the federal statutory rate of 21% primarily due to non-deductible executive compensation, federal research and development tax credits and state and local income and franchise taxes. The effective income tax rate for the six months ended March 31, 2023 differed from the federal statutory rate of 21% primarily due to non-deductible executive compensation, transaction costs and state and local income and franchise taxes. See Note 14 of the notes to the condensed consolidated financial statements herein for additional details.

Preferred stock dividends

As of March 31, 2024, no shares of the Series A Preferred Stock remain outstanding and all rights of the holders to receive future dividends have been terminated due to the combination of the repurchase and conversion of all outstanding preferred shares as of December 18, 2023. See Note 17 of the notes to the condensed consolidated financial statements herein for additional details on the conversion of our Series A Preferred Stock.

Pursuant to the CoD, we recorded a preferred stock cash dividend of \$1.1 million and \$2.5 million for the six months ended March 31, 2024 and 2023, respectively.

Income available for distribution

Income available for distribution refers to net income reduced by dividends on our Series A Preferred Stock. As a result of the foregoing, we reported income available for distribution of \$17.1 million and \$3.6 million for the six months ended March 31, 2024 and 2023, respectively.

Income allocated to participating securities

Series A Preferred Stock is considered a participating security because, in the event that we pay a dividend or make a distribution on the outstanding common stock, we shall also pay each holder of the Series A Preferred Stock a dividend on an as-converted basis. The two-class method is an earnings allocation formula that determines earnings per share for common stock and participating securities according to dividend and participation rights in undistributed earnings. Under this method, all earnings, distributed and undistributed, are allocated to common shares and participating securities based on their respective rights to receive dividends.

As noted above, no shares of the Series A Preferred Stock remain outstanding and all rights of the holders to receive future dividends have been terminated as of the December 18, 2023 conversion date. The amount of income allocated to the participating securities for the six months ended March 31, 2024 and 2023 was \$2.9 million and \$1.3 million, respectively.

Net income available to common shareholders

After allocating the income to the participating securities, we had \$14.2 million and \$2.3 million of net income available to common shareholders for the six months ended March 31, 2024 and 2023, respectively.

Non-GAAP Financial Measures

Our earnings before interest income, income taxes, depreciation and amortization ("EBITDA") for the three and six months ended March 31, 2024 were \$18.5 million and \$39.9 million, respectively, compared to \$12.8 million and \$22.8 million for the three and six months ended March 31, 2023, respectively. We define EBITDA as net income, before interest (income) expense, income tax expense (benefit), and depreciation and amortization.

EBITDA is a non-GAAP financial measure which is provided to supplement, but not substitute for, the most directly comparable GAAP measure. We choose to disclose this non-GAAP financial measure because it provides an additional analytical tool to clarify our results from operations and helps to identify underlying trends. Additionally, this measure helps compare our performance on a consistent basis across time periods. Management also utilizes EBITDA as a performance measure internally. To obtain a complete understanding of our performance, this measure should be examined in connection with net income determined in accordance with GAAP. Since the items excluded from this measure should be examined in connection with net income in determining financial performance under GAAP, this measure should not be considered an alternative to net income as a measure of our operating performance or profitability. Exclusion of items in our non-GAAP presentation should not be construed as an inference that these items are unusual, infrequent or non-recurring. Other companies, including other companies in the education industry, may calculate EBITDA differently than we do, limiting its usefulness as a comparative measure across companies. Investors are encouraged to use GAAP measures when evaluating our financial performance.

EBITDA reconciles to net income, as follows (in thousands):

	Three Months Ended March 31,		Six Months Ended March 31,	
	2024	2023	2024	2023
Net income	\$ 7,787	\$ 3,480	\$ 18,176	\$ 6,128
Interest income	(1,427)	(1,805)	(3,402)	(2,628)
Interest expense	2,184	2,637	5,055	4,060
Income tax expense	2,767	1,763	5,927	3,288
Depreciation and amortization	7,202	6,746	14,186	11,994
EBITDA	\$ 18,513	\$ 12,821	\$ 39,942	\$ 22,842

Liquidity and Capital Resources

Overview of Liquidity

Based on past performance and current expectations, we believe that our cash flows from operations, cash on hand and investments, and revolving credit facility will satisfy our working capital needs, capital expenditures, commitments and other liquidity requirements associated with our existing operations, as well as announced program expansions over the next 12 months and beyond. Our cash position is available to fund strategic long-term growth initiatives, including opening additional campuses in new markets and the creation and expansion of new programs in existing markets where we continue to optimize utilization of our campus facilities.

Our aggregate cash and cash equivalents were \$116.1 million as of March 31, 2024, a decrease of \$35.4 million from September 30, 2023 due primarily to net repayments of \$19.0 million to the revolving credit facility and the \$11.3 million used to repurchase our Series A preferred shares. We also had available liquidity under our revolving credit facility of \$29.0 million as of March 31, 2024.

Strategic Uses of Cash

We believe that additional strategic uses of our cash resources may include consideration of additional strategic acquisitions and organic growth initiatives, the purchase of real estate assets, subsidizing funding alternatives for our students, and the repurchase of common stock, among others. To the extent that potential acquisitions are large enough to require financing beyond cash from operations, cash and cash equivalents, and short-term investments, or we need capital to fund operations, new campus openings or expansion of programs at existing campuses, we may enter into additional credit facilities, issue debt or issue additional equity.

Long-term Debt

As of March 31, 2024, we had \$142.3 million of long-term debt outstanding, which is comprised of two term loans, a finance lease and a revolving credit facility. Of the \$142.3 million outstanding, \$28.8 million relates to a term loan that bears interest at the rate of Term SOFR plus 2.0% and a tranche rate adjustment of 0.046% over the seven-year term secured in connection with the Avondale, Arizona campus property purchased in December 2020. Approximately \$37.3 million relates to a term loan that bears interest at the rate of Term SOFR plus 2.0% over the seven-year term, secured in connection with the Lisle, Illinois campus property. For each of the term loans, a derivative interest rate swap is in place that fixes the interest rate on

50% of the loan at a market rate at the time the derivative was initiated. Approximately \$5.2 million relates to a finance lease for a campus within our Concorde segment. The remaining \$71.0 million relates to funds drawn from the \$100.0 million revolving credit facility that was secured in connection with the Concorde acquisition. See Note 12 of the notes to the condensed consolidated financial statements herein for additional details on the term loans and the revolving credit facility.

Dividends

We currently do not pay a cash dividend on our common stock. A final cash dividend payment of \$1.1 million was paid to Series A Preferred Stock holders of record as of December 18, 2023 during the three months ended December 31, 2023 as a result of the conversion of the Series A Preferred Stock. See Note 17 of the notes to the condensed consolidated financial statements herein for additional details on the conversion of our preferred stock.

Principal Sources of Liquidity

Our principal source of liquidity is operating cash flows and existing cash and cash equivalents. A majority of our revenues are derived from Title IV Programs and various veterans' benefits programs. Federal regulations dictate the timing of disbursements of funds under Title IV Programs. Students must apply for new funding for each academic year consisting of 30-week periods. Loan funds are generally provided in two disbursements for each academic year. The first disbursement for first-time borrowers is usually received 30 days after the start of a student's academic year, and the second disbursement is typically received at the beginning of the 16th week from the start of the student's academic year. Under our UTI proprietary loan program, we bear all credit and collection risk and students are not required to begin repayment until six months after the student completes or withdraws from his or her program. Similarly, we bear all credit and collection risk for students paying through UTI cash payment plans and those under a retail installment contract at Concorde. These factors, together with the timing of when our students begin their programs, affect the timing and seasonality of our operating cash flow.

Operating Activities

Our net cash provided by operating activities was \$8.3 million for the six months ended March 31, 2024, compared to net cash used of \$4.3 million for the six months ended March 31, 2023.

Net income, after adjustments for non-cash items, for the six months ended March 31, 2024 provided cash of \$50.5 million. The non-cash items included \$14.2 million for depreciation and amortization expense, \$11.0 million for amortization of right-of-use assets for operating leases, \$3.8 million for stock-based compensation expense, and \$3.2 million for bad debt expense.

Changes in operating assets and liabilities used cash of \$42.2 million primarily due to the following:

- The change in deferred revenue used cash of \$18.1 million and was primarily attributable to the timing of student starts, the number of students in school and where they were at period end in relation to completion of their program at March 31, 2024 as compared to September 30, 2023.
- Changes in our operating lease liability, primarily as a result of rent payments, used cash of \$10.1 million.
- The increase in prepaid expenses used cash of \$4.5 million primarily due to the timing of payments.
- The increase in notes receivable used cash of \$4.4 million primarily due to higher utilization of the Tuition Loan Program.

Net income, after adjustments for non-cash items, for the six months ended March 31, 2023 provided cash of \$35.2 million. The non-cash items included \$12.0 million for depreciation and amortization expense, \$10.1 million for amortization of right-of-use assets for operating leases, \$3.3 million for stock-based compensation expense, \$2.5 million related to changes in deferred tax assets, and \$2.1 million for bad debt expense.

Changes in operating assets and liabilities used cash of \$39.5 million primarily due to the following:

- The decrease in accounts payable and accrued expenses used cash of \$16.4 million primarily related to the timing of payments to vendors and for payroll and bonus accruals.
- Changes in our operating lease liability, primarily as a result of rent payments, used cash of \$10.7 million.

- The change in deferred revenue when excluding the initial purchase price allocation for Concorde used cash of \$9.6 million and was primarily attributable to the timing of student starts, the number of students in school and where they were at period end in relation to completion of their program at March 31, 2023 as compared to September 30, 2022.
- The change in receivables when excluding the initial purchase price allocation for Concorde used cash of \$3.9 million and was primarily due to the timing of Title IV disbursements and other cash receipts on behalf of our students.
- The change in other assets provided cash of \$2.7 million primarily due to activity related to the long-term portion of Concorde's retail installment contracts.

Investing Activities

During the six months ended March 31, 2024, cash used in investing activities was \$9.8 million for the purchase of property and equipment to support new program expansion at both UTI and Concorde.

During the six months ended March 31, 2023, cash used in investing activities was \$26.6 million. The cash outflow was primarily related to the purchase of property and equipment of \$38.6 million. During the six months ended March 31, 2023, we purchased three buildings and the associated land at our Orlando, Florida campus for \$26.2 million, including closing costs and other fees. Additionally, we had continued capital expenditures for further construction at the UTI Austin, Texas and Miramar, Florida campuses, in addition to program expansion costs for both UTI and Concorde. Further, on December 1, 2022, we completed the acquisition of Concorde which resulted in \$17.0 million of cash paid for acquisitions, net of cash acquired. Partially offsetting the cash outflows, is the \$29.0 million in proceeds from maturities of held-to-maturity securities.

Financing Activities

During the six months ended March 31, 2024, cash used in financing activities was \$35.0 million which was primarily related to \$19.0 million in net payments on the revolving credit facility, or \$39.0 million in payments offset by \$20.0 million in proceeds. Additionally, \$11.5 million was used to repurchase of Series A Preferred Stock. See Note 17 of the notes to the condensed consolidated financial statements herein for additional details on the repurchase. Other uses of cash included payroll taxes paid for stock-based compensation through shares withheld of \$2.1 million, the payment of long-term debt of \$1.2 million, and the payment of preferred dividends of \$1.1 million.

During the six months ended March 31, 2023, cash provided by financing activities was \$85.5 million which was primarily related to proceeds from our revolving credit facility of \$90.0 million, partially offset by the semi-annual payment of preferred stock dividends of \$2.5 million, \$0.7 million in payroll taxes paid for stock-based compensation through shares withheld, payment of long-term debt of \$0.7 million, and debt issuance costs related to the revolving credit facility of \$0.5 million

Seasonality and Trends

Our operating results normally fluctuate as a result of seasonal variations in our business, principally due to changes in total student population and costs associated with opening or expanding our campuses. Our student population varies as a result of new student enrollments, graduations and student attrition. Historically, UTI has had lower student populations in the third quarter than in the remainder of the year because fewer students are enrolled during the summer months. Additionally, UTI has had higher student populations in the fourth quarter than in the remainder of the year because more students enroll during this period. Concorde typically has higher student populations in January and August through October for its core programs and in February for its clinical programs. UTI and Concorde core program expenses do not vary significantly with changes in student population and revenues. Concorde clinical program expenses fluctuate based on the academic calendar and season due to the timing of clinical starts. We expect quarterly fluctuations in operating results to continue as a result of seasonal enrollment patterns. However, such patterns may change as a result of new school openings, new program introductions, increased enrollments of adult students or acquisitions.

Critical Accounting Policies and Estimates

The preparation of financial statements and related disclosures in conformity with GAAP and management's discussion and analysis of our financial condition and operating results require management to make judgments, assumptions and estimates that affect the amounts reported. There were no significant changes in our critical accounting policies and estimates in the six months ended March 31, 2024 from those previously disclosed in Part II, Item 7 of our [2023 Annual Report on Form 10-K](#).

Recent Accounting Pronouncements

For information regarding recent accounting pronouncements, see Note 3 of the notes to the condensed consolidated financial statements herein.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no other material changes in our market risk exposure during the six months ended March 31, 2024. For a discussion of our exposure to market risk, refer to Part II Item 7A. "Quantitative and Qualitative Disclosures About Market Risk" contained in our [2023 Annual Report on Form 10-K](#).

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), pursuant to Exchange Act Rule 13a-15 as of the end of the period covered by this report. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of March 31, 2024 to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting identified in connection with the evaluation required by Exchange Act Rule 13a-15(d) or 15d-15(d) that occurred during the three months ended March 31, 2024 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on Effectiveness of Controls and Procedures

Our management, including our Chief Executive Officer and our Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls over financial reporting will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues, misstatements, errors and instances of fraud, if any, within our company have been or will be prevented or detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls also can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks that internal controls may become inadequate as a result of changes in conditions, or through the deterioration of the degree of compliance with policies or procedures.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

In the ordinary conduct of our business, we are periodically subject to lawsuits, demands in arbitrations, investigations, regulatory proceedings or other claims, including, but not limited to, claims involving current and former students, routine employment matters, business disputes and regulatory demands. When we are aware of a claim or potential claim, we assess the likelihood of any loss or exposure. If it is probable that a loss will result and the amount of the loss can be reasonably estimated, we would accrue a liability for the loss. When a loss is not both probable and estimable, we do not accrue a liability. Where a loss is not probable but is reasonably possible, including if a loss in excess of an accrued liability is reasonably possible, we determine whether it is possible to provide an estimate of the amount of the loss or range of possible losses for the claim. Because we cannot predict with certainty the ultimate resolution of the legal proceedings (including lawsuits, investigations, regulatory proceedings or claims) asserted against us, it is not currently possible to provide such an estimate. The ultimate outcome of pending legal proceedings to which we are a party may have a material adverse effect on our business, cash flows, results of operations or financial condition.

Item 1A. RISK FACTORS

In addition to the other information set forth in this Quarterly Report on Form 10-Q, including the information contained in Part I, Item 3, you should carefully consider the factors discussed in Part I, Item 1A of our [2023 Annual Report on Form 10-K](#), which could materially affect our business, financial condition or operating results. The risks described in this Quarterly Report on Form 10-Q and in our [2023 Annual Report on Form 10-K](#) are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or operating results.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

Item 3. DEFAULTS UPON SENIOR SECURITIES

None.

Item 4. MINE SAFETY DISCLOSURES

Not applicable.

Item 5. OTHER INFORMATION

(a) None.

(b) None.

(c) During the three months ended March 31, 2024, no director or officer (as defined in Rule 16a-1(f) of the Exchange Act) of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-rule 10b5-1 trading arrangement," as each term is defined in Item 408 of Regulation S-K.
